RE: Department of Health Care Services Medical Audit

Dear Ms. Vaughn:

The Department of Health Care Services (DHCS), Audits and Investigations Division conducted an on-site Medical Audit of CalOptima, a Managed Care Plan (MCP), from February 27, 2023 through March 10, 2023. The audit covered the period of February 1, 2022 through January 31, 2023.

The items were evaluated and DHCS accepts the MCP's submitted Corrective Action Plan (CAP). The CAP is hereby closed. The enclosed documents will serve as DHCS' final response to the MCP's CAP. Closure of this CAP does not halt any other processes in place between DHCS and the MCP regarding the deficiencies in the audit report or elsewhere, nor does it preclude the DHCS from taking additional actions it deems necessary regarding these deficiencies.

Please be advised that in accordance with Health & Safety Code Section 1380(h) and the Public Records Act, the final audit report and final CAP remediation document (final Attachment A) will be made available on the DHCS website and to the public upon request.

If you have any questions, please reach out to CAP Compliance personnel.

Sincerely,

[Signature on file]

Lyubov Poonka, Chief  
Audit Monitoring Unit  
Managed Care Quality and Monitoring Division

Type: Medical Audit and State Supported Services

Review Period: 2/1/22 – 1/31/23

On-site Review: 2/27/23 – 3/10/23

are required to provide a CAP and respond to all documented deficiencies included in the medical audit report within 30 calendar days, unless an alternate time is indicated in the CAP Request letter. MCPs are required to submit the CAP in Word format that will reduce turnaround time for DHCS to complete. According to ADA requirement, the document should be at least 12 pt.

CAP submission must include a written statement identifying the deficiency and describing the plan of action taken to correct the deficiency, and the final results of that action. The MCP shall directly address each deficiency component by completing the following columns provided for MCP response: 1. Deficiency Number and Summary, 2. Action Taken, 3. Implementation Documentation, and 4. Completion/Expected Completion Date. The MCP will be required to provide a project timeline with milestones in a separate document for each finding. Supporting documentation should accompany each Action Taken. If supporting documentation is missing, the MCP submission will not be accepted. For policies and other documentation that have been revised, please highlight the new text in the document, page number, revision date, etc. in the column "Supporting Documentation" to assist in identifying any updates that were made by the plan. For deficiencies that require short-term corrective action, implementation should be completed within 30 calendar days. For deficiencies that may be reasonably determined to require long-term corrective action for a period longer than 30 days to completely remediate, the MCP is to indicate that it has initiated remedial action and is on the way towards achieving an acceptable level of compliance. In those cases, the MCP will be required in addition to the above steps, to include the date when full compliance will be achieved. Policies and procedures submitted for review must still be sent to the MCP's Contract Manager for review and approval, as applicable in accordance with existing requirements.

**Note, DHCS expects the plan to take swift action to implement improvement interventions as proposed in the CAP, therefore DHCS encourages mediation efforts to be in place no later than month 6 of the CAP, unless prior approval for an extended implementation effort is granted by DHCS.**

will maintain close communication with the MCP throughout the CAP process and provide technical assistance to ensure the MCP provides sufficient documentation to correct deficiencies. Depending on the volume and complexity of deficiencies identified, DHCS may require the MCP to provide weekly updates as applicable.

| Number and Summary                                                                                                                                                         | Action Taken                                                                                                                                                                                                                                                                                                                                | Supporting Documentation                        | Implementation Date*<br>(*Short-Term, Long-Term)    | DHCS Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
