

**Get Your
Bone
Density
Test Today!**

CalOptima Health covers bone density tests, also known as DEXA scans. You can get a DEXA scan at many locations in Orange County.

Why is bone density testing important?

You may have heard the term “brittle bones.” It refers to osteoporosis, a condition that weakens your bones and makes them more likely to break easily. Starting at age 65, complete a DEXA scan once every 2 years. This helps your doctor know if you’re at risk for osteoporosis.

If you already had a bone fracture, a DEXA scan gives your doctor information about your bones to develop the right treatment plan.

To schedule a bone density test:

1. Call or visit your doctor and ask for a DEXA scan order.
2. Schedule your DEXA scan at the location most convenient for you. Many facilities are open on weekends. Facility hours of operation are subject to change. Call the facility directly to confirm their hours before your visit.

If you have any questions, call CalOptima Health OneCare (HMO D-SNP) Customer Service toll-free at **1-877-412-2734 (TTY 711)**, 24 hours a day, 7 days a week. We have staff who speak your language.
