1.4 **Sequestration**. If CMS reduces payment to CalOptima under the CMS Contract by more than two percent (2%) at any time during the Term, CalOptima may, upon written notice to Physician Group, reduce payment to Physician Group under this Attachment C by the same percentage that CMS reduced payment to CalOptima. This provision applies each time CMS reduces payment to CalOptima by more than two percent (2%) during the Term.

1.5 **Pay-for-Performance Program**. CalOptima will develop a pay-for performance program to provide incentive payments to Physician Group. Payments will be calculated and paid

quarterly and annually based on a per Enrollee, per month rate and reflect achievement of specified program goals, which are determined by CalOptima in its sole discretion.

1.6 **Hospital Shared Risk Program Between CalOptima and Physician Group**. As an incentive to control hospital service utilization, a Hospital Shared Risk Program covering Medicare shall be established and administered by CalOptima whereby both CalOptima and Physician Group shall be at risk for the utilization of Shared Risk Services.

1.7 **Shared Risk Services—Definition**. Shared Risk Services are defined as all Covered Services that are the financial responsibility under the Hospital Budget as set forth in Attachment B.

1.8 **Shared Risk Budget and Costs**. A Shared Risk budget shall be established. The Shared Risk budget shall be the Medicare Hospital Budget percentage. Shared Risk costs shall be the actual amounts paid for Shared Risk Services less any recoveries, including overpayments and reinsurance.

1.9 **Copayments and Coordination of Benefits**. Any applicable copayments payable for Shared Risk Services shall be deducted from Shared Risk Costs. Amounts payable for COB or worker's compensation shall be deducted from Shared Risk costs for the particular service. Amounts actually received by facility and other services providers under the Hospital Budget through third-party liability recoveries for Shared Risk Services shall be deducted from Shared Risk costs in the period in which such payment is actually received, up to the amount of Shared Risk costs for the particular service.

1.10 **Shared Risk Program Settlement**. The program for Shared Risk Services shall be administered on a calendar year basis ("**Shared Risk Period**"). It shall be based on compensation earned and services rendered during the calendar year on an accrual basis, regardless of when paid, including adequate incurred but not reported ("**IBNR**") expenses, provided that only those expense items received up to and within ninety (90) days after the end of the current calendar year shall be included in the computation of the IBNR expense of the Shared Risk Services. Within one hundred twenty (120) days following the end of each calendar year of this Contract, CalOptima shall prepare a final report of the status of the Shared Risk Program. Over and under accrual of the IBNR in the current Shared Risk Period shall be adjusted in the subsequent Shared Risk Period.

1.10.1 **Deficit**. If Shared Risk Costs exceed the Shared Risk budget, fifty percent (50%) of such deficit, up to an amount not to exceed $5.00 per Enrollee, per month calculated on a calendar year basis shall be considered the responsibility of the Physician Group. Any and all deficits for which the Physician Group is responsible shall be carried forward and applied to any future Shared Risk program settlements. In the event of termination of this Contract, all deficits shall be forgiven.

1.10.2 **Surplus**. If Shared Risk costs are less than the Shared Risk budget, fifty percent (50%) of such surplus shall be paid to Physician Group by CalOptima. Any and all surplus payments shall be offset by any deficits in any other risk-sharing arrangements.

2. **Risk Pool Reports and Timely Settlement**.

2.1 **CalOptima Shared Risk Pool for Reports and Maintenance of Records related to the Risk Pool**. CalOptima shall be responsible for maintenance of records and development of reports required for administration of the Hospital Shared Risk programs. To ensure timely settlements on risk-sharing programs, CalOptima shall prepare final reports within one hundred and twenty (120) days following the end of each calendar year.

2.2 **Objections to Final Report**. Physician Group shall have thirty (30) days following receipt to review such reports produced by CalOptima. Absent objections in such thirty (30)-day period, the reports shall be considered acceptable, and all payments due pursuant to such reports shall be made.

2.3 **Settlement in the Event of Termination**. Notwithstanding anything else in the Agreement, in the event of termination of the Contract in accordance with the provisions of Article XI, the Hospital Shared Risk programs shall also terminate, once CMS has provided the annualized capitation adjustment (also known as HCC sweeps) for the period up to the termination date of this Contract.

ATTACHMENT D
CLAIMS PROCESSING AND COMPLIANCE OBLIGATIONS

I. DEFINITIONS

1.1 "**Clean Claim**" means one that can be processed without obtaining additional information from the provider of the service or from a third party. Clean claim shall have the same meaning as "complete claim" as that term is defined in Title 28, CCR Section 1300.71(a)(2). Clean Claim does not include a claim from a Provider who is under investigation for fraud or abuse, or a claim under review for Medical Necessity.

1.2 "**Unclean Claim**" means any claim other than as defined in Section 1.1 of this attachment.

1.3 "**Denied Claim**" means a claim where (a) one or more services will not be paid by Physician Group and (b) payment is the responsibility of the Enrollee. Examples of claims that are not denials and should not be reported, submitted, or presented to CalOptima as Denied Claims include claims:

1.3.1 For patients who remain enrolled with CalOptima but have transferred to another Physician Group and Physician Group is forwarding the claim,

1.3.2 For which payment responsibility belongs to another contracting entity, and Physician Group is forwarding the claim,

1.3.3 That are duplicates,

1.3.4 That are encounter only/capitated claims and no patient liability is involved, and

1.3.5 That involve reduced payment amounts due to contract terms or allowed Medicare fee schedules.

II. GENERAL TERMS

2.1 **Physician Group Claims Processing**. Physician Group shall process claims for Provider services according to all CMS requirements and, as applicable, in accordance with the requirements of the Knox-Keene Act. This Attachment D is intended to comply with all DMHC and CMS standards and requirements. Should this Attachment D be out of compliance with any existing or newly enacted DMHC or CMS standard or requirement, the DMHC and/or CMS standard or requirement will supersede this Attachment D. CalOptima will communicate any changes in requirements to Physician Group in writing.

2.2 If Physician Group enters into a contract with a Downstream Entity whereby the responsibility for claims processing is delegated to that Downstream Entity, Attachment D provisions shall apply. Physician Group will have contractual provisions to ensure such Downstream Entity conforms to all DMHC and CMS requirements and oversight provisions as outlined herein and in CalOptima Policies.

2.3 Physician Group and any applicable Downstream Entity shall be required to have an oversight program for claims processing that includes written policies and procedures, a process for reporting fraudulent or unethical conduct, and an executive accountable for review of claims data and attesting to its accuracy. The oversight program shall include internal auditing of claims functions, and self-reporting as outlined in CalOptima Policies.

III. CLAIMS PROCESSING

3.1 **Timely Provider Payments**.

3.1.1 Physician Group and Downstream Entities, if, and as applicable, must make timely payments to Participating Providers consistent with 42 CFR § 447.45.

3.1.2 Physician Group shall reimburse Clean Claims, or any portion of any Clean Claim, for Covered Services, as soon as practical, but no later than thirty (30) calendar days after receipt of the claim by Physician Group, unless the claim or portion thereof is reasonably contested, in which case the claimant shall be notified in writing that the claim is contested or denied within forty-five (45) business days after receipt of the claim by Physician Group in accordance with CalOptima Policies.

3.1.3 Physician Group must ensure that ninety percent (90%) of claims from Providers who are in individual or group practice, which can be processed without obtaining additional information from the Provider or from a third party, will be paid within thirty (30) days of the date of receipt of the claim.

3.1.4 Physician Group must ensure that ninety-nine percent (99%) of all Clean Claims from Providers for Covered Services will be paid within ninety (90) days of the date of receipt of the claim.

3.1.5 Generally, the date of receipt is the date the Physician Group receives the claim, as indicated by its date stamp on the claim. The date of payment is the date of the check or other form of payment.

3.1.6 **"30-Day" Claim Timeliness**. Physician Group shall adjudicate nine-five percent (95%) of all Clean Claims from Non-Participating Providers or suppliers within thirty (30) calendar days of receiving the claim. Adjudicate a claim shall be deemed to mean to have processed the claim (paid or denied) and mailed the remittance advice by the thirtieth (30^{th}) calendar day since the earliest receipt by Physician Group or CalOptima's contracting Providers or Hospitals.

3.1.7 **"60-Day" Claim Timeliness**. Physician Group shall pay or deny Unclean Claims from Non-Participating Providers or suppliers, claims from Participating Providers or suppliers, and claims from Medicare fiscal intermediaries and carriers within sixty (60) calendar days of receipt of such claims. Processing shall be deemed to mean either to have paid or denied and mailed the remittance advice by the sixtieth (60^{th}) calendar day since the earliest receipt by Physician Group or CalOptima's contracting Providers or Hospitals, or to have denied the claim, and have mailed the denial letter to the Enrollee by the sixtieth (60^{th}) day. In accordance with federal law and CMS regulations, failure to process such claims within sixty (60) calendar days of receipt automatically constitutes an "adverse" initial determination, which the Enrollee may appeal; thus, a denial notice must be mailed to the Enrollee.

3.1.8 **Payment Accuracy**. When paying Non-Participating Providers, Physician Group shall employ only those Medicare fee schedules that MA plans are allowed to use by law and shall comply with 42 CFR § 422.214.

3.1.9 **Denied Claims**. Decisions to deny claims that result in liability for the Enrollee must be

made in accordance with CMS guidelines. Whenever such decisions are made, the currently CMS approved Notice of Denial of Payment or Integrated Denial Notice must be used, including approved denial reasons. Under no circumstances shall Physician Group deny a claim for the second time as a consequence of responding to a request for reconsideration from an Enrollee; instead, Physician Group must direct the Enrollee to submit the request directly to CalOptima as appropriate.

3.2 **Claims for Emergency and Post-Stabilization Services.**

3.2.1 Physician Group shall not retroactively deny a claim for Emergency Services because the condition, which appeared to be an Emergency Medical Condition, turned out to be non-emergency in nature. Physician Group shall ensure that its claims processing actions do not conflict with Hospital actions required to comply with the Emergency Medical Treatment and Active Labor Act ("**EMTALA**").

3.2.2 If there is a disagreement between Physician Group or any Participating Provider and any Non-Participating Provider regarding Medically Necessity of Covered Services in an emergency, the judgment of the attending physician(s) actually caring for the Enrollee at the treating facility shall prevail. Physician Group may establish relationships with treating facility whereby the Physician Group may send a Participating Provider with privileges to assume the attending physician's responsibilities to establish treatment or may arrange to have a Participating Provider under contract with Physician Group agree to accept the transfer of the Enrollee after the Enrollee has been Stabilized.

3.2.3 Physician Group shall ensure that an enrollee with an Emergency Medical Condition will be seen on an emergency basis and that Emergency Services will be available and accessible within the Service Area twenty-four (24) hours a day. Physician Group shall cover Emergency Services without prior Authorization pursuant to Title 28 CCR Section 1300.67(g), Title 22 CCR Section 53216, and Section 1932(b)(2) of the Social Security Act. Physician Group shall coordinate access to Emergency Services in accordance with 42 CFR § 438.114 and the Physician Group's emergency department protocol.

3.2.4 Physician Group may not refuse to cover Emergency Services based on the emergency room Provider, Hospital, or fiscal agent not notifying the Enrollee's PCP managed care organization, prepaid ambulatory health plan, prepaid inpatient health plan or applicable State entity of the Enrollee's screening and treatment within ten (10) calendar days of presentation for Emergency Services. An Enrollee who has an Emergency Medical Condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or Stabilize the Enrollee.

3.2.5 Physician Group may not deny payment for treatment obtained under either of the following circumstances: an Enrollee had an Emergency Medical Condition, including cases in which the absence of immediate medical attention would not have had the outcomes specified in the definition of an Emergency Medical Condition; or the Physician Group representative instructs the Enrollee to seek Emergency Services. The attending emergency Physician, or the Provider actually treating the Enrollee, is responsible for determining when the Enrollee is sufficiently Stabilized for transfer or discharge, and that determination is binding on the entities as responsible for coverage and payment.

3.2.6 Physician Group must cover and pay for Post-Stabilization Care Services. Physician Group is financially responsible for Post-Stabilization Care Services obtained within or outside

the organization that are pre-approved by a Physician Group Provider or other Physician Group representative. Physician Group is financially responsible for Post-Stabilization Care Services obtained within or outside the Physician Group organization that are not pre-approved by a Participating Provider or other Physician Group representative, but are administered to maintain the Enrollee's Stabilized condition within one (1) hour of a request to the Physician Group for pre-approval of further Post-Stabilization Care Services. Physician Group is financially responsible for Post-Stabilization Care Services obtained from within or outside the Physician Group that are not pre-approved by a Participating Provider or other Physician Group representative, but administered to maintain, improve, or resolve the Enrollee's Stabilized condition if the Physician Group: does not respond to a request for pre-approval within one (1) hour; cannot be contacted; or the Physician Group representative and the treating physician cannot reach an agreement concerning the Enrollee's care and a Participating Provider is not available for consultation. In this situation, the Physician Group must give the treating Physician the opportunity to consult with a Participating Provider and the treating Physician may continue with care of the Enrollee until a Participating Provider is reached or one criteria in 42 C.F.R. § 113(c)(3) is met. Physician Group must limit charges to Enrollees for Post-Stabilization Care Services to an amount no greater than what the Physician Group would charge the Enrollee if he or she had obtained the services through Physician Group. Physician Group financial responsibility for Post-Stabilization Care Services it has not pre-approved ends when: a Participating Provider with privileges at the treating Hospital assumes responsibility for the Enrollee's care; a Participating Provider assumes responsibility for the Enrollee's care through transfer; Physician Group representative and the treating Physician reach an agreement concerning the Enrollee's care; or; the Enrollee is discharged.

3.2.7 Physician Group shall reimburse those Physicians providing Emergency Services and Urgent Care services with whom Physician Group has a contract according to the terms of that contract.

3.2.8 Physician Group must reimburse a Non-Participating Provider for Emergency Services or Urgent Care services at the prevailing Medicare fee-for-service ("**FFS**") rate as applicable for that service. Where the Covered Service would traditionally be covered under Medicare FFS, the Medicare FFS rate applies. Physician Group shall ensure that Enrollees maintain balance billing protections as provided in Section 6.4 of this Contract.

3.2.9 In accordance with CalOptima Policies, Physician Group shall implement the CMS Quality Payment Program known as the Merit-based Incentive Payment System ("**MIPS**"). MIPS adjustments for Part B covered professional services furnished by MIPS-eligible Providers that are not contracted with Physician Group shall be administered in the same manner as any other changes in the applicable Medicare payment schedules. Physician Group shall make positive and negative payment adjustments as identified by CMS based on the CMS MIPS adjustment data files.

3.2.9.1 CalOptima or Physician Group may apply MIPS payment adjustments either at the time the payment is made during the applicable MIPS payment year or as a retrospective adjustment to paid claims.

3.2.9.2 CalOptima or Physician Group are required to demonstrate payment through reporting or attestation by the end of March on an annual basis.

3.3 **Physician Group Financial Responsibility**. If CalOptima receives a claim for Covered Services that are the financial responsibility of Physician Group, CalOptima shall forward such claim to Physician Group for payment, in accordance with the procedures set forth in Title 28 CCR Section 1300.71, "Claims Settlement Practices." CalOptima shall not pay for services that are Physician Group's financial responsibility unless Physician Group fails to make payment within the time allowed by State and federal laws and regulations, and CalOptima is required by law to make such payment. In such cases, CalOptima, after written notice to Physician Group and reasonable opportunity to cure, will make payment, and Physician Group shall reimburse CalOptima for such payments. If Physician Group fails to reimburse CalOptima, CalOptima may offset an uncontested payment(s) against Capitation Payments or other amounts due from CalOptima to Physician Group, if any.

3.4 **Collection of Share of Cost**. Physician Group shall collect Medicare share of cost unless prohibited under this Contract.

3.5 **Capitation Payments**. Physician Group and/or Downstream Entities shall distribute monthly Capitation Payments to capitated Participating Providers within fifteen (15) calendar days following the date on which Physician receives payment from CalOptima.

3.6 **Claims Adjudication**. Except as provided in Section 3.1.1, Physician Group shall accept and adjudicate claims for Covered Services provided to Enrollees in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies. Waiver of any right or obligation specific to the Health and Safety Code and Title 28 related to claims processing and payment shall be prohibited.

3.7 **Dispute Resolution.** Physician Group shall establish and maintain a fair, fast and cost-effective dispute resolution mechanism to process and resolve provider disputes in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies.

3.8 **Right of Appeal**. Physician Group shall afford Providers an unconditional right of appeal and de novo review for claims disputes involving issues of Medical Necessity. Any Provider that submits a claim dispute to Physician Group's dispute resolution mechanism involving an issue of Medical Necessity or utilization review shall have an unconditional right of appeal for that claim dispute to CalOptima's dispute resolution process for a de novo review and resolution for a period of sixty (60) working days from Physician's Date of Determination.

3.9 **CalOptima Payment On Behalf Of Physician**. If CalOptima receives a copy of an unpaid Clean Claim as part of a Provider grievance that is thirty (30) working days old or more, CalOptima will follow all notification and acknowledgement procedures pursuant to CalOptima Policies. If Physician Group does not either notify CalOptima that the claim is reasonably contested, as set forth in CalOptima Policies, or pay the Clean Claim within the thirty (30) working day period, CalOptima shall pay the Claim on behalf of Physician, plus interest, as required by the Knox-Keene Act, and deduct the amounts reimbursed, plus processing costs, from the Capitation Payment, in accordance with CalOptima Policies.

3.10 **Quarterly Claims Payment Performance Report.**

3.10.1 Physician Group shall submit, in a format specified by CalOptima Policies, a quarterly claims payment performance report ("**Quarterly Claims Report**") to CalOptima within thirty (30) calendar days of the close of each calendar quarter. The Quarterly Claims Report shall, at a minimum, disclose Physician Group's compliance status with Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.4, and 1371.8 of the California Health and Safety Code and Sections 1300.71, 1300.71.38, 1300.71.4 and 1300.77.4 of Title 28 of the CCR.

3.10.2 Physician Group shall ensure that each Quarterly Claims Report is signed by, and includes the written verification of, a principal officer, as defined by Section 1300.45(o) of Title 28 of the CCR, of Physician Group, stating that the report is true and correct to the best knowledge and belief of the principal officer.

3.10.3 Physician Group's Quarterly Claims Report shall include a tabulated record of each Provider dispute it received, categorized by date of receipt, and including the identification of the Provider, type of dispute, disposition and working days to resolution, as to each Provider dispute received. Each individual dispute contained in a Provider's bundled notice of Provider dispute shall be reported as a separate dispute to CalOptima.

3.11 **Forwarding of Misdirected Claims.**

3.11.1 Physician Group shall have the ability to receive a standard ANSI 837I and ANSI 837P claim file format for retrieving misrouted claims that are the financial responsibility of the Physician Group. Physician Group will receive and forward misdirected claims per CalOptima Policy.

3.11.2 Physician Group shall have the ability to create a standard ANSI 837I and ANSI 837P claim file for forwarding claims that are the financial responsibility of CalOptima within ten (10) working days of receipt of the claim. CalOptima shall receive these files per CalOptima policy and load them into its system to ensure timely claims processing. Physician Group shall forward any claims that are not its payment responsibility to CalOptima within eight (8) calendar days of receipt, so that a total of only ten (10) working days will elapse prior to the claims being in the proper hands.

3.12 **Assumption of Delegated Functions**. In the event that Physician Group fails to timely and accurately reimburse its claims (including the payment of interest and penalties), CalOptima may, at its sole discretion, revoke the delegation and assume responsibility from Physician Group for claims payment, or terminate this Contract as provided for in Article XI. CalOptima's assumption of responsibility for the processing and timely reimbursement of Provider claims may be altered to the extent that Physician Group has established an approved CAP consistent with Section 1375.4 (b)(4) of the Health and Safety Code and Section 11.3 of the Contract.

3.13 **Recoupment for Assumption of Claims Processing Obligations**. CalOptima, in its sole and absolute discretion, may reduce Physician Group's Capitation Payments to recoup additional administrative costs for the assumption of the claims processing obligations of Physician Group, as described in this Article III of Attachment D, as well as any amounts, including interest due, on claims unpaid at the assumption of such obligations by CalOptima.

IV. CLAIMS COMPLIANCE

4.1 **Claims Compliance Monitoring**. Physician Group understands that claims compliance programs are required by CalOptima's Regulators and agrees that delegation is contingent upon Physician Group's compliance with required monitoring and oversight activities, as outlined in CalOptima Policies. Physician Group agrees that CalOptima reserves the right to monitor Physician Group's claims compliance activities, notwithstanding any other audit, compliance, or contractual issue between Physician Group and CalOptima. In the event Physician Group demonstrates an inability to meet CalOptima's claims payment standards, CalOptima reserves the right to revoke and assume the delegated responsibilities described above.

4.2 **Claims Non-Compliance**. In the event that CalOptima determines that Physician Group is not in ninety-five percent (95%) compliance with any of the requirements of Attachment D the following actions will be applied:

4.2.1 Within thirty (30) days of an audit that documents non-compliance, CalOptima will issue a written warning to Physician Group that describes the non-compliance. Physician Group will respond within fifteen (15) working days of receiving the non-compliance notification with a written CAP to comply. Such CAP will describe the actions to be taken and the schedule by which those actions will be completed. CalOptima will review the CAP and advise Physician Group whether or not actions or time schedules are acceptable within fifteen (15) days of receiving it. CalOptima will conduct a follow-up audit of Physician Group's claims operation within ninety (90) days from the date of serving the non-compliance notification to verify compliance with Attachment D. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.2 of this attachment for continued non-compliance will apply.

4.2.2 If, as a result of CalOptima's follow-up audit, Physician Group is found to still be non-compliant with Attachment D within fifteen (15) calendar days of making that determination, CalOptima will notify Physician Group in writing of the continued non-compliance and may elect to provide consultative or other assistance to help establish, maintain and monitor continued administrative compliance or assume "joint administration" of Physician Group's claims operations, involving itself only with Enrollees' claims and allowing the operation to remain on Physician Group's premises. The Parties agree to meet and develop a mutually agreeable work plan for added staffing and work stations, the cost of which will be Physician Group's sole responsibility. CalOptima will develop a CAP with Physician Group's participation to assure maximum compatibility with Physician Group's ongoing operations. CalOptima will cooperate with Physician Group in implementing changes across all risk claims processed at that site, should Physician Group so request. Within fifteen (15) calendar days of receiving the second notice of non-compliance, Physician Group will provide a written response stating the specific action to be taken to establish compliance with the help of CalOptima. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.3 for continued non-compliance will apply. Within ninety (90) days from the date of serving the second notice of non-compliance, CalOptima will re-audit Physician Group's claims process and documents to determine final compliance or non-compliance.

4.2.3 If, as a result of its second follow-up audit, CalOptima reasonably determines that Physician Group is still non-compliant, CalOptima reserves the right to terminate this

Contract for material breach upon ten (10) days' prior written notice and opportunity to cure.

4.2.4 Physician Group may resume sole administrative responsibility for claims processing if CalOptima determines that Physician Group has corrected the deficiencies that caused the non-compliance, and, as a result of resuming responsibility for claims processing, demonstrates compliance with the timely provider payments requirements set forth in Section 3.1 of this Attachment D.

4.2.5 With respect to the requirements of Attachment D, Physician Group will be subject to regular site-audits conducted by CalOptima to monitor all claims requirements.

V. CLAIMS FORWARDING

Physician Group shall forward any claims that are not its payment responsibility to CalOptima within ten (10) calendar days of receipt.

VI. SELF-MONITORING & REPORTING

Physician Group shall develop, implement and demonstrate upon request, a claims quality assurance process, including regular, scheduled, automated, or manual reports, self-testing procedures, and internal reporting to Physician Group's executive management of timeliness, payment accuracy, and denial accuracy (as required herein). Such self-monitoring and internal reporting shall involve use of industry standard tools and shall measure actual performance against the standards for DMHC and CMS compliance. CalOptima strongly recommends check issuance and mailing occur not less frequently than weekly and that Physician Group's internal reporting intervals match the intervals at which checks are issued, except that weekly reporting would be sufficient if checks are issued more often than weekly. At a point early in the beginning of operations under the Contract and in accordance with industry-wide CMS requirements, CalOptima will require that Physician Group submit monthly reports to CalOptima using the industry-standard Monthly Report of Claims Processing Timeliness and Overall Percent of Denial Accuracy format. Those reports must be received by CalOptima not later than the fifteenth (15th) calendar day of each month.

VII. AUDITS & AUDIT PREPARATION

Article IV, above, provides detailed, specific processes involving claims non-compliance. Even when Physician Group does meet compliance standards and successfully concludes any time periods where denials must be submitted to CalOptima for review, CalOptima will continue to schedule (1) periodic audits, (2) random, focused audits, and (3) focused reviews based on appeals and grievance results to monitor Physician Group's compliance with CMS regulations. Prior to the scheduled arrival of CalOptima's auditor, Physician Group shall retrieve claims and related documents in accordance with instructions provided to Physician Group by CalOptima in its letter confirming the appointment.

VIII. SPECIAL STUDIES

8.1 In the event DMHC and/or CMS requires that CalOptima conduct any special compliance study or effort, Physician Group shall support the study and will be subject to any DMHC and/or CMS specified time schedules or deadlines for corrective actions.

IX. FEDERALLY QUALIFIED HEALTH CENTERS AND RURAL HEALTH CLINICS

9.1 Physician Group shall meet federal requirements for access to FQHC services, including those in 42 U.S.C. § 1396 b(m). Physician Group shall reimburse FQHCs and RHCs in accordance with current Laws. If FQHC and RHCs services are not available in the Provider network, Physician Group shall authorize out-of-network services subject to the prevailing MA payment requirements for out-of-network services.

9.2 Physician Group shall ensure that its payments to FQHCs and RHCs for services to Enrollees are no less than the sum of the level and amount of payment that the Health Network or CalOptima would make for such services if the services had been furnished by an entity providing similar services that was not an FQHC and RHC. The intent of these provisions is to ensure that Physician Group pays FQHCs and RHCs amounts consistent with Medicare managed care policies while preserving the opportunity for FQHCs to separately claim supplemental payments under such policies.

X. INDIAN HEALTH CARE PROVIDERS

10.1 Physician Group shall pay non-network Indian Health Care Providers that are FQHCs for the provision of services to an Indian Enrollee at a rate equal to the rate that Physician Group would pay to a network FQHC that is not an Indian Health Care Provider, including any supplemental payment from the State to make up the difference between the contract amount and what the Indian Health Care Provider would have received FFS.

10.2 When the amount the Participating Provider Indian Health Care Provider receives from the Physician Group is less than the amount the Indian Health Care Providers would receive FFS, the State must make a supplemental payment to the Indian Health Care Provider that the Indian Health Care Provider would receive FFS or the applicable encounter rate.

10.3 Physician Group shall not impose enrollment fees, premiums, or similar charges on Indians served by an Indian Health Care Provider or through referral under contract health services. Physician Group must exempt from all cost-sharing any Indian who is currently receiving or has ever received an item or service furnished by an Indian Health Care Provider or through referral under contract health services.

10.4 Physician Group shall reimburse Indian Health Care Providers promptly who provide Covered Services to Indian Enrollees, who are eligible to receive Covered Services, at the most current and applicable outpatient per-visit rate published in the Federal Register by the Indian Health Service, and Physician Group shall ensure any retroactive outpatient per visit rates are appropriately reimbursed to the Indian Health Care Provider.

ATTACHMENT E
STATUTORY AND REGULATORY COMPLIANCE TERMS

1. **Compliance with State and Federal Laws**. Physician Group acknowledges that CalOptima is subject to certain State and federal laws, regulations, and instructions governing its MA Program. Physician Group shall comply with all Laws and DMHC and CMS administrative bulletins, plan letters and instructions. Physician Group understands that payments made by CalOptima are, in whole or in part, derived from federal funds, and therefore Physician Group and any Downstream Entities are subject to certain laws that are applicable to individuals and entities receiving federal funds, including the following: (i) Title VI of the Civil Rights Act of 1964; (ii) Sections 503 and 504 of the Rehabilitation Act of 1973; (iii) the Age Discrimination Act of 1975; (iv) the Americans with Disabilities Act of 1990; (v) the Vietnam Era Veteran's Readjustment Assistance Act; and (vi) Title IX of the Education Amendments of 1972. Any provision required to be in this Contract by the CMS Contract, the Knox-Keene Act, Title 28 of the California Code of Regulations, Medicare laws and regulations, DMHC or CMS instructions and reporting requirements and other applicable laws, shall bind CalOptima, Physician Group, and Downstream Entities, whether or not specifically set forth in this Contract.

2. **Compliance with CalOptima's Contractual Obligations**. All services and other activities furnished by Physician Group and Downstream Entities must be performed in accordance with CalOptima's contractual obligations to CMS.

3. **Compliance with FWA Requirements**. Physician Group, and its employees, agents and Downstream Entities performing services under this Contract, shall comply with CalOptima's Compliance Program including, its FWA plan. Prior to performing services under this Contract, Physician Group shall complete and submit to CalOptima, any CMS-required training and/or CalOptima-required attestations related to such training and other compliance obligations. Physician Group agrees to comply and will have any Downstream Entity agree to comply with CalOptima standards and policies.

4. **Fraud and Abuse Reporting**. Physician Group shall, in accordance with all Laws, report to CalOptima all cases of suspected fraud and/or abuse relating to the rendering of Covered Services within five (5) days of the date when Physician Group first becomes aware of or is on notice of such activity.

5. **CMS Participation Requirements**. Physician Group represents and warrants that: (i) neither Physician Group nor any of its Group Physician, employees or agents furnishing services under this Contract are excluded from participating in any federal or state healthcare program as defined in 42 U.S.C. Section 1320a-7b(f) ("**Federal Health Care Program(s)**"); (ii) Physician Group has not arranged or contracted (by employment or otherwise) with any employee, contractor or agent that Physician Group knows or should know are excluded or precluded from participation in Federal Health Care Programs; (iii) no action is pending against Physician Group or any of its Group Physicians, employees, or agents performing services under this Contract to suspend or exclude such persons or entities from participation in any Federal Health Care Program; and (iv) Physician Group will immediately notify CalOptima if it learns that it is or has employed or contracted with a person or entity that is excluded from participation in any Federal Health Care Program. If Physician Group fails to comply with this Section 5 of this attachment, CalOptima reserves the right to require Physician Group to pay immediately to CalOptima the amount of any sanctions or other penalties that may be imposed on CalOptima by CMS for violation of this prohibition, and Physician Group shall be responsible for any resulting overpayments. Physician Group shall not make payment for a healthcare item or service furnished by an individual or entity

that is excluded by the Office of the Inspector General or is included on the Preclusion List. Physician Group shall provide written notice to the Enrollee who received the services and the excluded Provider or Provider listed on the Preclusion List that payment will not be made, in accordance with CMS requirements. Physician Group shall ensure that all Participating Providers that provide Covered Services do not appear on the CMS Preclusion List in order to receive reimbursement for claims or otherwise participate in the Medicare program.

6. **Confidentiality of Enrollee Information**. Physician Group, its Downstream Entities, and their employees and agents shall comply with the specific confidentiality obligations set forth below.

6.1 Physician Group, Downstream Entities, and their employees and agents shall protect from unauthorized disclosure the names and other identifying information concerning persons either receiving services pursuant to this Contract or persons whose names or identifying information become available or are disclosed to them as a result of services performed under this Contract, except for statistical information not identifying any such person. Physician Group, Downstream Entities, and their employees and agents shall not use such identifying information for any purpose other than carrying out Physician Group's obligations under this Contract.

6.2 Physician Group, Downstream Entities, and their employees and agents shall promptly transmit to CalOptima all requests for disclosure of such identifying information not emanating from the Enrollee. Physician Group shall not disclose, except as otherwise specifically permitted by this Contract or authorized by the Enrollee, any such identifying information to anyone other than CMS, DMHC, or CalOptima without prior written authorization from CalOptima. For purposes of this provision, identity shall include, but not be limited to name, identifying number, symbol, or other identifying particular assigned to the individual, such as finger or voice print or a photograph.

6.3 Notwithstanding any other provision of this Contract, names of persons receiving public social services are confidential and are to be protected from unauthorized disclosure in accordance with 42 CFR Section 431.300 *et seq*., Welfare and Institutions Code Section 14100.2, and regulations adopted thereunder. For the purpose of this Contract, all information, records, data, and data elements collected and maintained for the operation of the Contract and pertaining to Enrollees shall be protected by Physician Group from unauthorized disclosure. Physician Group may release Medical Records in accordance with Laws pertaining to the release of this type of information. Physician Group is not required to report requests for Medical Records made in accordance with Laws.

6.4 With respect to any identifiable information concerning an Enrollee under this Contract that is obtained by Physician Group or its Downstream Entities from CalOptima's Regulators, Physician Group will, at the termination of this Contract, return all such information to CalOptima's Regulators if required by them, or maintain such information according to written procedures provided to Physician Group by CalOptima and/or CalOptima's Regulators for this purpose.

7. **Offshore Subcontracts**. Physician Group shall provide, and ensure that Downstream Entities provide, to CalOptima information and attestations related to the provision of any services under this Contract in a country other than the United States ("**Offshore Subcontractor**") to enable CalOptima to comply with CMS reporting obligations. Such information shall be submitted to CalOptima prior to engaging any Offshore Subcontractor for purposes of this Contract, and such Offshore Subcontractors are subject to approval by CalOptima.

8. **Required Disclosures**. In accordance with 42 CFR Section 1002.3, Physician Group shall immediately notify CalOptima in the event any sanctioned person (as defined in 42 CFR Section 1001.1001(a)(1)) owns or controls Physician Group.

9. **Equal Opportunity**. Physician Group and Downstream Entities shall comply with the following Equal Opportunity requirements set forth below.

9.1 Physician Group and its Downstream Entities will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Physician Group and its Downstream Entities will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Such action shall include the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. Physician and its Downstream Entities agree to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the federal government, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973, and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state Physician Group and its Downstream Entities' obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

9.2 Physician Group and its Downstream Entities will, in all solicitations or advancements for employees placed by or on behalf of Physician Group and its Downstream Entities, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era.

9.3 Physician Group and its Downstream Entities will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the federal government or the State, advising the labor union or workers' representative of Physician Group and its Downstream Entities' commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

9.4 Physician Group and its Downstream Entities will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and of the rules, regulations, and relevant orders of the Secretary of Labor.

9.5 Physician Group and its Downstream Entities will furnish all information and reports required by Federal Executive Order No. 11246, as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and Physician Group will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

9.6 In the event of Physician Group and its Downstream Entities' noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced in this Article IX, this Contract may be cancelled, terminated, or suspended in whole or in part, and Physician Group and its Downstream Entities may be declared ineligible for further State and Federal contracts, in accordance with procedures authorized in Federal Executive Order No. 11246 as amended, and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

9.7 Physician Group and its Downstream Entities will include the provisions of Sections 10.1 through 10.7 of this attachment in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor, issued pursuant to Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or Section 503 of the Rehabilitation Act of 1973 or (38 U.S.C. Section 4212) of the Vietnam Era Veteran's Readjustment Assistance Act, so that such provisions will be binding upon each Downstream Entity. Physician and its Downstream Entities will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs or CMS may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that in the event Physician Group and/or its Downstream Entities become involved in, or are threatened with litigation by a other Downstream Entity or vendor as a result of such direction by CMS, Physician Group and its Downstream Entities may request in writing to CMS, who, in turn, may request the United States to enter into such litigation to protect the interests of the State and of the United States.

10. **Non-Discrimination**. Physician Group and Downstream Entities shall comply with the non-discrimination requirements set forth below.

10.1 During the performance of this Contract, neither Physician Group nor any Downstream Entities shall unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, religion, color, national origin, ancestry, religious creed, physical disability, (including Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC)), medical condition (including cancer), mental disability, marital status, age (over 40), or the

use of family and medical care leave and pregnancy disability leave. Physician Group and Downstream Entities shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination and harassment. Physician Group and Downstream Entities shall comply with the provisions of the Fair Employment and Housing Act (Government Code, Section 12900, *et seq*.) and the applicable regulations promulgated thereunder (Title 2 CCR Section 7285.0, *et seq*.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code, Section 12990, set forth in Chapter 5 of Division 4 of Title 2 of the CCR are incorporated into this Contract by reference and made a part hereof as if set forth in full. Physician Group and Downstream Entities shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. Physician Group shall include the non-discrimination and compliance provisions of this Section 10.1 in all Downstream Entity subcontracts to perform work under this Contract.

10.2 Physician Group and all Downstream Entities shall abide by Section 504 of the Rehabilitation Act of 1973 (29 USC §794) (nondiscrimination under Federal grants and programs); Title 45 CFR Part 84 (nondiscrimination on the basis of handicap in programs or activities receiving Federal financial assistance); Title 28 CFR Part 36 (nondiscrimination on the basis of disability by public accommodations and in commercial facilities); Title IX of the Education Amendments of 1972 (regarding education programs and activities); Title 45 CFR Part 91 and the Age Discrimination Act of 1975 (discrimination based on age); and all other laws regarding privacy and confidentiality. Neither the Physician nor Downstream Entities shall discriminate against Enrollees because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, or physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C., Section 2000d (race, color, national origin); 45 CFR Part 84 (physical or mental handicap); Government Code Section 11135 (ethnic group identification, religion, age, sex, color, physical or mental handicap); Civil Code Section 51 (all types of arbitrary discrimination); rules and regulations promulgated pursuant thereto, or as otherwise provided by Laws.

10.3 For the purpose of this Contract, if based on any of the foregoing criteria, the following constitute unlawful discriminations: (i) denying any Enrollee any Covered Services or availability of a facility; (ii) providing to an Enrollee any Covered Service that is different or is provided in a different manner or at a different time from that provided to other similarly situated Enrollees under this Contract, except where medically indicated; (iii) subjecting an Enrollee to segregation or separate treatment in any manner related to the receipt of any Covered Service; (iv) restricting an Enrollee in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any Covered Service; or (v) treating an Enrollee differently from others similarly situated in determining compliance with admission, enrollment, quota, eligibility, or other requirements or conditions that individuals shall meet in order to be provided any Covered Service or assigning the times or places for the provision of Covered Services.

10.4 Physician Group shall take affirmative action to ensure that all Enrollees are provided Covered Services without unlawful discrimination, except where medically indicated. For the purposes of this Section 10.4, physical handicap includes the carrying of a gene that may, under some circumstances, be associated with disability in that person's offspring, but which causes no adverse effects on the carrier. Such genetic handicap shall include,

but not be limited to, Tay-Sachs trait, sickle cell trait, thalassemia trait, and X-linked hemophilia.

10.5 Physician shall act upon all complaints alleging discrimination against Enrollees in accordance with CalOptima's Policies and shall forward copies of all such grievances to CalOptima within five (5) days of receipt of same.

11. **Smoke Free Workplace**. Public Law 103-227, also known as the Pro Children Act of 1994 ("**Pro Children Act**"), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education, or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party. By signing this Contract, Physician Group certifies that it will comply with the requirements of the Pro Children Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Pro Children Act. Physician further agrees that it will insert this certification into any subcontracts entered into that provide for children's services as described in the Pro Children Act.

12. **Air or Water Pollution Requirements**. Any federally funded agreement and/or subcontract in excess of $100,000 must comply with the following provisions unless said agreement is exempt under 40 CFR 15.5. Physician Group agrees to comply with all applicable standards, orders, or requirements issued under the Clean Air Act (42 USC 7401 *et seq*.), as amended, and the Federal Water Pollution Control Act (33 USC 1251 *et seq*.), as amended.

13. **Lobbying Restrictions and Disclosure Certification**. Any federally funded contracts in excess of $100,000 per Section 1352 of the 31, U.S.C. must comply with the following lobby restrictions and disclosures.

13.1 Each person (or recipient) who requests or receives a contract, subcontract, grant, or sub-grant, which is subject to 31 U.S.C. Section 1352 and which exceeds $100,000 at any tier, shall file a certification (in the form set forth in **Attachment E-1**, consisting of one page, entitled "Certification Regarding Lobbying") that the recipient has not made, and will not make, any payment prohibited by Subsection 13.6 of this attachment.

13.2 Each recipient shall file a disclosure (in the form set forth in **Attachment E-2**, entitled "Standard Form-LLL 'Disclosure of Lobbying Activities'") if such recipient has made or has agreed to make any payment using non-appropriated funds (to include profits from any covered federal action) in connection with a contract or grant or any extension or amendment of that contract or grant, which would be prohibited under Section 13.6 of this attachment if paid for with appropriated funds.

13.3 Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Section

13.2 of this attachment. An event that materially affects the accuracy of the information reported includes: (i) a cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action; (ii) a change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or (iii) a change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.

13.4 Each person (or recipient) who requests or receives, from a person referred to in Section 13.1 of this attachment, a contract, subcontract, grant or sub-grant exceeding $100,000 at any tier under a contract or grant shall file a certification and a disclosure form, if required, to the next tier above.

13.5 All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Section 13.1 of this attachment.

13.6 31 U.S.C. Section 1352 provides in part that no appropriated funds may be expended by the recipient of a federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan, entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

14. **Debarment Certification**. Physician Group agrees to comply with applicable Federal suspension and debarment regulations including 7 CFR § 3017, 45 CFR §76, 40 CFR § 32, or 34 CFR § 85.

14.1 Physician Group certifies to the best of its knowledge and belief, that it and its principals:

(i) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(ii) Have not within a three (3)-year period preceding this Contract have been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(iii) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, State or local) with commission of any of the offenses enumerated in sub-provision (ii) herein;

(iv) Have not within a three (3)-year period preceding this Contract had one or more public transactions (Federal, State or local) terminated for cause or default;

(v) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under Federal regulations (i.e., 48 CFR 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State; and

(vi) Will include a clause entitled, "Debarment and Suspension Certification'' that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

14.2 If Physician Group is unable to certify to any of the statements in this certification, the Physician shall submit an explanation to CalOptima.

14.3 The terms and definitions in this Section 14 have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

14.4 If Physician Group knowingly violates this certification, in addition to other remedies available to the federal government, CalOptima may terminate this Contract for cause or default.

15. **Downstream Entity Contracts**. If any services under this Contract are to be provided by a Downstream Entity subcontracted by Physician Group, Physician Group shall ensure that such subcontracts comply with 42 CFR Sections 422.504, 423.505 and 438.6(l). Such subcontracts shall include all language required by CMS as provided in Attachment F**.**

16. **Other Statutory and Compliance Terms**. Physician Group shall not contract with, or otherwise pay for any items or services (other than an emergency item or service, not including items or services furnished in an emergency room of a Hospital):

16.1 Furnished by Physician Group by any individual or entity during any period when the individual or entity is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156 or 1842(j)(2);

16.2 Furnished at the medical direction or the prescription of a physician, during the period when such physician is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156, or 1842(j)(2) and when the person furnishing such item or service knew, or had some reason to know, of the exclusion (after a reasonable time period and after reasonable notice has been furnished to the person);

16.3 Furnished by an individual or entity to whom the State has suspended payments to during any period when there is a pending investigation of a credible allegation of fraud against the individual or entity, unless the State determines there is good cause not to suspend such payments;

16.4 Physician Group may not pay for an item or service with respect to any amount expended for which funds may not be used under the Assisted Suicide Funding Restriction Act of 1997

CERTIFICATION REGARDING LOBBYING

STATE OF CALIFORNIA
DEPARTMENT OF HEALTH CARE SERVICES
CERTIFICATIN REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making, awarding or entering into of this Federal contract, Federal grant, or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of this Federal contract, grant, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency of the United States Government, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure of Lobbying Activities'' in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontractors, subgrants, and contracts under grants and cooperative agreements) of $100,000 or more, and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S.C., any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime federal recipients at the initiation or receipt of a covered federal action, or a material change to a previous filing, pursuant to Title 31, U.S.C., Section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

Identify the type of covered federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered federal action.

Identify the status of the covered federal action.

Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered federal action.

Enter the full name, address, city, state, and ZIP code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants, and contract awards under grants.

If the organization filing the report in Item 4 checks "Subawardee," then enter the full name, address, city, state, and ZIP code of the prime federal recipient. Include Congressional District, if known.

Enter the name of the federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation United States Coast Guard.

Enter the federal program name or description for the covered federal action (Item 1). If known, enter the full Catalog of Federal Domestic Assistance (CDFA) number for grants, cooperative agreements, loans, and loan commitments.

Enter the most appropriate federal identifying number available for the federal action identified in Item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract grant, or loan award number; the application/proposal control number assigned by the federal agency). Include prefixes, e.g., "RFP-DE-90401."

For a covered federal action where there has been an award or loan commitment by the federal agency, enter the federal amount of the award/loan commitment for the prime entity identified in Item 4 or 5.

10. (a) Enter the full name, address, city, state, and ZIP code of the lobbying entity engaged by the reporting entity identified in Item 4 to influence the covered federal action.

10. (b) Enter the full names of the Individual(s) performing services and include full address if different from 10.(a). Enter last name, first name, and middle initial (MI).

Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (Item 4) to the lobbying entity (Item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with federal officials, identify the federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.

The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and renewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of Management and Budget, Paperwork Reduction Project, (0348-0046), Washington, DC 20503.

ATTACHMENT F
SUBCONTRACT REGULATORY TERMS

A. **General Terms**: Language addressing the following matters shall be included in Downstream subcontracts:

1. The right of CalOptima's Regulators to monitor, audit, evaluate, inspect and have access to books, records and other information as provided in this Contract.
2. CalOptima's Regulators' right to inspect, evaluate, and audit any pertinent information related to the Contract for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit as provided in this Contract.
3. Prohibitions against holding Enrollees liable for payment of any fees that are the obligation of CalOptima or the Physician Group, as applicable.
4. The services are in accordance with CalOptima's obligations to CMS and applicable CalOptima Policies.
5. The obligations of Downstream Entities to protect Enrollee privacy and confidentiality including health records, as provided in this Contract.
6. The obligation to comply with all federal and state laws, regulations and CMS instructions, including those laws that must be incorporated into such Downstream subcontracts as indicated in this Contract.
7. Language related to the obligations to submit timely and accurate Encounter Data and other data and reports required by CalOptima and CalOptima's Regulators as provided in this Contract and in CalOptima's Policies.
8. All requirements included in Attachment E not expressly addressed herein.

B. **Delegation Terms**. If, and to the extent that sub-delegation is permitted by CalOptima and Physician Group obtains CalOptima's approval as provided in this Contract, Downstream Entity subcontracts must include:

1. Language that specifies (i) the delegated activities and reporting requirements; (ii) that provides for revocation of the delegated activities and other remedies in the event CalOptima or CalOptima's Regulators find that the delegated party as not performed satisfactorily; (iii) that the performance of the parties is monitored by CalOptima on an ongoing basis; and (iv) that CalOptima may impose corrective action as necessary.
2. If the subcontract relates to credentialing of medical providers, language that the credentials of medical professionals affiliated with the party or parties will either be reviewed by CalOptima or the credential process will be reviewed and approved by CalOptima and that CalOptima must audit the process on an ongoing basis.
3. If the subcontract delegates selection of providers it must include language that CalOptima retains the right to approve, suspend or terminate any such arrangement and that CalOptima shall provide a written statement to a provider of the reason or reasons for the termination with cause.

C. **Medical Provider Downstream Subcontract Terms**.

All subcontracts or arrangements with medical providers shall include provisions addressing:

1. The term of the contract, including the beginning and ending dates as well as methods of extension, renegotiation and termination and full disclosure of the method and amount of compensation or other consideration.

2. The obligation to pay contracted medical providers under the terms of the contract and prompt payment provision, the terms of which are developed and agreed to by the parties.

3. The obligations to provide services in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills, and diverse culturally and ethnic background and provide interpreter services for Enrollees at all provider sites.

4. The obligation to (i) abide by all federal and state laws and regulations regarding confidentiality and disclosure of medical records, or other health and enrollment information; (ii) to ensure that medical information is released in accordance with applicable federal or state law, or pursuant to court orders or subpoenas; (iii) to maintain Enrollee records and information in an accurate and timely manner; and (iv) to ensure timely access by Enrollees to the records and information that pertain to them.

5. The obligation to hold CalOptima, CalOptima's Regulators and Enrollees harmless in the event that Physician Group cannot or will not pay for services performed by the Downstream Entity and for Medicare Part A and B cost sharing. Specifically, Medicare Parts A and B services must be provided at zero cost-sharing to Enrollees.

6. Medical providers' EMTALA obligations and that they must not create any conflicts with hospital actions required to comply with EMTALA.

7. Language prohibiting providers, including PCPs, from closing or otherwise limiting their acceptance of Enrollees as patients unless the same limitations apply to all commercially insured Enrollees.

8. Language that prohibits the Downstream Entity from refusing to contract or pay an otherwise eligible health care Provider for the provision of Covered Services solely because such Provider has in good faith: (a) Communicated with or advocated on behalf of one or more of his or her prospective, current or former patients regarding the provisions, terms or requirements of the 'Downstream Entity's health benefit plans as they relate to the needs of such Provider's patients; or (b) communicated with one or more of his or her prospective, current or former patients with respect to the method by which such Provider is compensated by the Downstream Entity for services provided to the patient.

9. Language that states the Provider is not required to indemnify the Physician Group for any expenses and liabilities, including judgments, settlements, attorneys' fees, court costs and any associated charges, incurred in connection with any claim or action brought against the Physician Group based on its management decisions, utilization review provisions or other policies, guidelines or actions.

10. The obligation of the medical provider to assist CalOptima in the transfer of care, including in the transfer of care in the event of sub-subcontract termination for any reason.

11. Acknowledgement that assignment or delegation of the subcontract will be void unless prior written approval is obtained from CMS and CalOptima.

12. 'The Provider's right to submit a grievance and a description of the formal process to resolve the Provider's grievances.

13. The obligation to participate and cooperate in Physician Group's Quality Improvement System.

14. Language addressing requirements related to payment of Non-Participating Provider

emergency and post-stabilization services.

ATTACHMENT G
CMS SPECIFIC PROGRAM PERFORMANCE REQUIREMENTS

1. HCC Coding Requirements and Performance Improvement Activities

1.1 CMS pays CalOptima health-based capitation to compensate CalOptima for services rendered to Enrollees. CMS utilizes encounter data to assign Hierarchical Condition Categories ("**HCC**") to Enrollees. The Enrollee's HCC determines the payment amount received by CalOptima accounting for the variation in expenditures for Medicare Enrollees based on an Enrollee's health status.

1.2 Physician Group shall submit Enrollee-specific accurate encounter and service data. Encounters are to be submitted no less than monthly using the ANSI 837P and/or 837I format version 5010 as appropriate, or current format as required by CalOptima.

1.3 Physician Group shall support and aid CalOptima's review of encounters, including to production and/or access of supporting medical records.

1.4 To enhance encounter submission accuracy and completeness, CalOptima has initiated performance improvement activities ("**PIAs**"). These PIAs include Enrollee medical and behavioral health assessments provided in the home or a residential facility.

1.5 Physician Group has the option to perform these PIAs provided Physician Group can demonstrate that Physician Group's PIAs meet all CalOptima standards and guidelines. Should Physician Group not perform the PIAs or Physician Group's PIAs not meet CalOptima standards and guidelines as determined by CalOptima, CalOptima shall perform these activities on behalf of Physician Group and the cost for these PIAs shall be charged to or shared with Physician Group. CalOptima will provide sixty (60) days' notification prior to taking any such action.

2. ESRD Waiver Responsibilities

2.1 Physician Group shall demonstrate to CalOptima that Physician Group administers a CalOptima-approved complex case management program for all End Stage Renal Disease (ESRD) Enrollees, which is in accordance with CMS requirements and CalOptima Policies and standards.

2.2 CalOptima shall advise Physician Group if its ESRD complex case management program does not meet CMS requirements and CalOptima Policies and clinical standards. If Physician Group cannot meet requirements as provided by CalOptima, CalOptima shall have the option to de-delegate the Physician Group for the management of ESRD Enrollees and retain a portion of the Capitation Payment for ESRD Enrollees commensurate with the costs for providing or outsourcing such services.

2.3 CalOptima shall provide notification to Physician Group of the intent to de-delegate. Physician Group shall have the opportunity to submit a corrective action plan to CalOptima in accordance with CalOptima policy.

3. Appeals Rights

Physician Group may appeal CalOptima's decision to take the actions outlined above, by filing a complaint pursuant to CalOptima Policies. If Physician Group is dissatisfied with the result of any appeal; it shall proceed in accordance with CalOptima's legal claims and judicial review policy.

MEDICARE ADVANTAGE – PHYSICIAN GROUP SERVICES CONTRACT

BETWEEN

ORANGE COUNTY HEALTH AUTHORITY DBA CALOPTIMA

AND

_____

TABLE OF CONTENTS

MEDICARE ADVANTAGE PHYSICIAN GROUP SERVICES CONTRACT

This Medicare Advantage Physician Group Services Contract ("**Contract**") is January 1, 2023 ("**Effective Date**") by and between Orange County Health Authority, a public agency dba CalOptima ("**CalOptima**"), and _____ ("**Physician Group**"), a California professional medical corporation organized under the laws of the State of California. CalOptima and Physician Group may each be referred to herein as a "**Party**" and collectively as the "**Parties**".

RECITALS

A. CalOptima is a County Organized Health System ("**COHS**") organized under Welfare & Institutions Section 14087.54 and Orange County Ordinance No. 3896.

B. CalOptima is licensed as a health care service plan by the California Department of Managed Health Care ("**DMHC**") under the Knox-Keene Health Care Service Plan Act of 1975 and its implementing regulations (collectively the "**Knox-Keene Act**") and authorized to offer a Medicare Advantage ("**MA**") plan pursuant to Title 42 of the United States Code, Chapter 7, Subchapter XVIII, Part C and its implementing regulations for individuals covered under the federal Medicare program.

C. CalOptima, as a dual–eligible special needs plan ("**DSNP**"), may only enroll those dual eligible individuals who meet all applicable Medicare Advantage eligibility requirements, and who are eligible to be enrolled in CalOptima's Medi-Cal Managed Care plan, as described in the contract between CalOptima and the California Department of Health Care Services ("**DHCS**").

D. Physician Group is a duly licensed California professional medical corporation that employs or has entered into contracts with physicians who are licensed to practice medicine in the State of California ("**State**"), and other Providers who are appropriately licensed in the State.

E. Physician Group and the facilities set forth in Addendum 1 ("**Hospital**") have affiliated to operate as a physician-hospital consortium ("**PHC**"), which is an arrangement under which Physician Group and Hospital each participate in a risk pool for Covered Services provided to Enrollees as detailed in Section 2.7, for the purpose of providing or arranging for the provision of Covered Services to Enrollees under this Contract and Hospital's contract with CalOptima ("**Hospital Contract**"). Physician Group and Hospital may collectively be referred to herein as "**PHC Participants**".

F. Physician Group recognizes that in order to comply with the requirements of this Contract, Physician Group and Hospital must operate in a manner that is mutually beneficial to both entities affiliated to operate as a PHC. Accordingly, Physician Group agrees under this Contract and Hospital has agreed under the Hospital Contract to collectively and individually coordinate and cooperate with each other and with CalOptima in arranging for and providing Covered Services to Enrollees.

G. CalOptima and Physician Group desire to enter into the Contract whereby Physician Group will perform delegated administrative services and furnish health care items and services as described herein to certain Enrollees enrolled in CalOptima's MA plan.

H. Unless defined elsewhere in the Contract, the defined terms used in this Contract shall have the meanings set forth in Attachment A.

NOW, THEREFORE, in consideration of the promises and the mutual covenants herein stated, it is agreed by and between the Parties as follows:

I. PHYSICIAN GROUP SERVICE OBLIGATIONS

1.1 **Covered Services**. Physician Group shall provide Covered Services to Enrollees selecting, and assigned to, Physician Group in accordance with all provisions of this Contract and CalOptima Policies. The Covered Services that are to be provided by and are the financial responsibility of Physician Group are described in Attachment B. Physician Group specifically agrees to accept financial risk and responsibility for injectables pursuant to Health & Safety Code Section 1375.8.

1.1.1 Physician Group shall provide Covered Services: (i) in the same manner, in accordance with the same standards, and within the same time availability as offered to non-CalOptima patients; (ii) in accordance with professionally recognized standards of practice, (iii) in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills and from diverse cultural and ethnic backgrounds; and (iv) not discriminate in the provision of such Covered Services because of an Enrollee's race, ethnicity, color, national origin, religion, sex, sexual orientation, age, medical or claims history, mental or physical disability, genetic information, or source of payment.

1.1.2 Physician Group is prohibited from closing or otherwise limiting its acceptance of Enrollees as patients unless the same limitations apply to all of its commercially insured patients.

1.1.3 Physician Group shall use its best efforts, where consistent with sound medical practice, to ensure that Covered Services are provided only by Group Physicians and/or other Participating Providers, except in cases of Emergency Services or Urgent Care Services, or if no such Group Physician or Participating Provider is available to perform the appropriate Covered Services.

1.1.4 Physician Group shall be liable for the provision and payment of all Covered Services notwithstanding a delay in payment of the Capitation Payment.

1.1.5 Physician Group acknowledges that the determination of whether a service or supply was/is a Covered Service delegated to Physician Group rests with CalOptima, subject to the Evidence of Coverage and Appeals procedures established by the DMHC and CMS.

1.1.6 CalOptima may incorporate any change in Covered Services mandated by Laws into the Contract effective the date the change goes into effect. Whenever possible, CalOptima shall give the Physician Group thirty (30) calendar days' prior notice of any such change to the Contract. CalOptima shall determine the effective date of the change in Covered Services. Attachment B shall not be amended during the current Term without mutual consent of the Parties, except as may be required for continued compliance with Laws.

1.1.7 Decisions concerning whether to provide or authorize Covered Services under this Contract shall be based solely on Medical Necessity. Physician Group shall not deny Authorization for a Covered Service that the Enrollee or the Provider demonstrates is Medically Necessary. The actual provision of any Covered Service is subject to the professional

judgment of the PCP or other physicians and/or Providers participating with Physician Group as to the Medical Necessity of the Covered Service, except that each Physician shall provide assessment and evaluation services ordered by a court or legal mandate. Physician Group acknowledges that disputes between the Physician Group and Enrollees about Medical Necessity can be appealed pursuant to CalOptima Policies and Laws.

1.1.8 Physician Group may not arbitrarily deny or reduce the amount, duration, or scope of a required Covered Service solely because of the diagnosis, type of illness, or condition. Physician Group may place appropriate limits on a service on the basis of criteria such as Medical Necessity or for utilization control, provided the services furnished can reasonably be expected to achieve their purpose and such a limitation complies with Laws.

1.2 **Confidentiality**. Physician Group and CalOptima agree to safeguard the confidentiality of Enrollee information and comply with all Laws (including, but limited to, the Health Insurance Portability and Accountability Act ("**HIPAA**"), 42 CFR Section 431.300 *et seq*., California Welfare and Institutions Code Section 14100.2, California Civil Code Section 56 *et seq.*, and the California Information Practices Act, Civil Code Section 1798) regarding the confidentiality and disclosure of Enrollee names, health, enrollment and personal information (including medical and Behavioral Health information contained in Medical Records). Physician Group shall provide counseling to Enrollees on their right to confidentiality and obtain Enrollee consent prior to releasing confidential information unless such consent is not required pursuant to Title 22 CCR Section 51009.

1.3 **Emergency Services and Urgent Care**. Physician Group shall insure that it provides and pays for all Emergency Services and Urgent Care, including those services provided by Non-Participating Providers, without prior Authorization, twenty-four (24) hours each day, seven (7) days a week, in accordance with Laws and CalOptima Policies. Physician Group shall coordinate access to Emergency Services in accordance with CalOptima's emergency department protocol. Physician Group shall ensure adequate follow-up care for those Enrollees who have been screened in the emergency room and require non-Emergency Services. Physician Group may not specify what constitutes an Emergency Medical Condition on the basis of lists of diagnoses or symptoms.

1.4 **Days to Appointment**. Physician Group shall ensure that appointments for non-Emergency Services and non-Urgent Care Covered Services are scheduled within ten (10) business days of the Enrollee's request for PCP and fifteen (15) business days of Enrollee's request for Specialist Physician; that health assessments and general physical examinations and all preventative Covered Services are scheduled within thirty (30) calendar days of Enrollee's request for an appointment, and that, if Physician Group supplies maternity Covered Services, Physician Group shall ensure that the most current standards and guidelines of the American College of Obstetricians and Gynecologists are utilized as the minimum measure of quality for perinatal services. Physician Group shall also have a process in place for follow-up on Enrollee missed appointments.

1.5 **Twenty-Four (24) Hour Physician Group Coverage**. Physician Group shall ensure that it has, at a minimum, two Group Physicians as follows: One (1) Group Physician who is available twenty-four (24) hours a day to authorize Medically Necessary, Post-Stabilization Care Services and coordinate transfer of stabilized Enrollees in an emergency department, if necessary, and one (1) Group Physician available twenty-four (24) hours a day, seven (7) days a week to resolve disputed requests for Authorizations.

1.6 **Clinical Laboratory Improvement Amendments**. Physician Group shall only use laboratories with a Clinical Laboratory Improvement Amendments ("**CLIA**") certificate of waiver or a certificate of registration along with a CLIA identification number.

1.7 **CalOptima Formulary Compliance**. Participating Providers shall comply with the CalOptima Formulary and its associated drug utilization and disease management guidelines and protocols. Requests for items not included in the CalOptima Formulary shall require prior Authorization by CalOptima. The prescribing Physician shall be responsible for obtaining Authorization through CalOptima and/or its designated pharmacy benefit management contractor ("**PBM**"), as appropriate. The prescribing Physician shall provide CalOptima and/or the PBM with all information necessary to process Authorization requests.

1.8 **Enrollee Access**. Physician Group and its Downstream Entities shall comply with all Laws and CalOptima Policies governing Enrollee access to Covered Services.

1.8.1 If Physician Group is unable to provide necessary Covered Services to a particular Enrollee, Physician Group must adequately and timely cover these services with Non-Participating Providers for the Enrollee, for as long as Physician Group is unable to provide them. Physician Group shall make prior arrangements with Non-Participating Providers for the provision of such services, shall be fully responsible for arranging and paying for such services, and shall comply with all applicable CalOptima Policies with regard to the payment and Authorization of Non-Participating Providers.

1.8.2 Physician Group shall ensure that PCPs as well as Specialty Physicians are located so as to assure sufficient geographic and physical access of Enrollees to such providers as required by Laws and CalOptima Policies.

1.8.3 Physician Group shall ensure that each Enrollee has a PCP who is available and physically present at the service site for sufficient time to ensure access for the assigned Enrollee when medically required. This requirement does not preclude an appropriately licensed professional from being a substitute for the PCP in the event of the PCP's vacation, illness, or other unforeseen circumstances.

1.8.4 Physician Group shall ensure female Enrollees have direct access to a women's health specialist within the network to provide women's routine and preventative health care services. Such access may be in addition to the Enrollee's PCP.

1.8.5 Physician Group shall cover family planning services for all Enrollees whether they are provided by a Participating Provider or Non-Participating Provider.

1.8.6 Physician Group shall reasonably accommodate Enrollees and ensure programs and services are as accessible (including a sufficient number of Providers and geographic access) to an Enrollee with disabilities as they are to an Enrollee without disabilities in accordance with CalOptima Policies. Physician Group's facilities shall comply with the requirements of Title III of the Americans with Disabilities Act of 1990 ("**ADA**") and shall ensure access for the disabled, including, but not limited to, ramps, elevators, restrooms, designated parking spaces, and drinking water provisions. Physician Group shall have policies to ensure that physical, communication and programmatic barriers do not inhibit Enrollees with disabilities from obtaining all Covered Services, including addressing reasonable accommodations required by the CMS Contract and CalOptima Policies. Physician Group will comply with CalOptima Policies and work plan requirements related to ADA compliance relevant to services under this Contract.

1.9 **Provider Network Maintenance**. Physician Group agrees to employ or contract with a sufficient number of Physicians and other Providers representing the range of medical specialties necessary,

in the determination of CalOptima, CMS, and the DMHC to ensure Enrollees of reasonable access to the full range of Covered Services.

1.9.1 During the Term, all Participating Providers of Covered Services must: (i) be and remain qualified in accordance with current applicable legal, professional, and technical standards; (ii) be and remain appropriately licensed, certified or registered; (iii) be and remain in good standing with Medicare and not be terminated or suspended from participation in the Medicare and/or Medi-Cal programs; and (v) have a valid NPI number, as applicable. Physician Group shall ensure that PCPs are located so as to assure sufficient geographic and physical access of Enrollees to such Physicians under Laws and CalOptima Policies.

1.9.2 Physician Group shall ensure that Participating Providers have the requisite training and experience in dealing with the medical problems frequently encountered in elderly, disabled, and special needs individuals.

1.9.3 Physician Group shall use primary source verification to confirm the board certification in each clinical specialty area for which the Physician is being credentialed if the Physician lists such board certification on credentialing applications.

1.9.4 Physician Group acknowledges that the requirements of this Section 1.9 apply to each individual Provider who is affiliated with and/or part of any medical group, independent physician associations ("**IPA**"), and/or other organization or entity that contracts with Physician Group to furnish Covered Services to Enrollees.

1.9.5 Physician Group will maintain accurate records, including records detailing the status, membership, and qualifications of the Participating Providers in the Physician Group's network.

1.9.6 If a Provider who seeks to become a Participating Provider is denied a contract with Physician Group or a Participating Provider is suspended or terminated for cause, Physician Group shall provide the Provider with written notice of the reason for the action, as required by Laws, including any standards and profiling data Physician Group used to evaluate the provider, the number and mix of similar health care Providers that Physician Group needs (if applicable), and notice of the Provider's right to appeal the action, including notice of the process and timing to request a hearing. In the event Physician Group terminates a contract with a Participating Provider for deficiencies in the quality of care provided, Physician Group shall give notice of the action to CalOptima, as provided by CalOptima Policies, and to the appropriate licensing and disciplinary bodies, as provided by law.

1.9.7 In the event that a Provider, including a PCP, is terminated or leaves the Physician Group for any reason, Physician Group shall give written notification of termination of such Provider to CalOptima within fifteen (15) days after receipt or issuance of the termination notice.

1.9.8 In the event that a Provider, including a PCP, is terminated or leaves the Physician Group for any reason, Physician Group shall ensure that there is no disruption in services provided to Enrollees who are receiving treatment for a chronic or ongoing medical condition in accordance with applicable Laws.

1.9.9 Physician Group shall notify CalOptima at least sixty (60) days before any significant change in Physician Group's provider network that renders Physician Group unable to

provide one or more Covered Services within CalOptima's access to care standards. If such notice is not possible because the providers terminate their participation with less than sixty (60) days' notice or Physician Group terminates the providers without prior notice as a result of their endangering the health and safety of Enrollees, providers committed criminal or fraudulent acts, or providers engaged in grossly unprofessional conduct, then Physician Group shall notify CalOptima immediately upon receipt of notice of the termination, or sending notice to the providers of a Physician Group-initiated termination.

1.9.10 Physician Group shall ensure that no Provider who fails to meet the requirements of this section furnishes items and/or services to Enrollees, submits claims and/or receives reimbursement for any Covered Services.

1.9.11 Physician Group agrees that each Participating Provider with whom Physician Group contracts to provide Covered Services will be required to execute a contract with Physician Group. Such an agreement will require all Participating Providers to comply with those aspects of this Contract relating to activities of Participating Providers and with Laws, including the standards of accrediting and regulatory agencies governing CalOptima's MA Program, and any and all provisions required by MA regulations. The Physician Group agreement with Participating Providers shall be made available to CalOptima and its regulatory agencies for inspection and copying upon request. Physician Group shall ensure that all contracts with Participating Providers allow for termination of the contract for failure to meet the requirements of this Section 1.9.

1.10 **Enrollment**. Physician Group shall accept as Enrollees all persons indicated as Enrollees by the CalOptima information system and transmitted to Physician Group and shall comply with requirements to provide notices to Enrollees in accordance with CalOptima Policies.

1.11 **Primary Care Physician**. Physician Group agrees that each Enrollee will select or be assigned a PCP. Enrollee must request a PCP assignment from CalOptima's Customer Service department. If the Enrollee has not selected a PCP, CalOptima shall assign the PCP per its policies. Physician Group agrees that it will ensure that the PCP shall be responsible for the provision, coordination, referral, and Authorization of Covered Services in accordance with the utilization management ("**UM**") program and prevailing standards of medical practice so that there is a Physician who has ultimate responsibility for the Enrollee's care management.

1.12 **Physician Group Medical Director**. Physician Group shall designate a Group Physician as Medical Director for purposes of this Contract. The Physician Group Medical Director will be a member of the Physician Group's quality management and UM committee(s) and will be the individual to whom CalOptima communicates regarding provision of professional medical care and quality and/or appropriate utilization of medical services. The Physician Group Medical Director will be the individual responsible for representing Physician Group in the resolution of any Grievances presented to CalOptima by Enrollees related to the provision of medical care.

1.13 **Care Coordination**. CalOptima shall retain the responsibility for the initial HRA and an HRA annually thereafter in accordance with CalOptima Policies, but any update during the course of the year due to change in Enrollee's condition/circumstance would be the responsibility of the Physician Group, per policy. Physician Group shall offer care coordination and case management services to all Enrollees, which shall: (i) include coordination of care across the full continuum of service providers as appropriate to Covered Services under this Contract; (ii) ensure that care coordination services reflect a person-centered, outcome-based approach, consistent with the Model of Care and CalOptima Policies; (iii) follow Enrollee direction about level of involvement

of his or her caregivers or medical providers; (iv) include the assignment of a qualified Care Coordinator to each Enrollee needing or requesting one; and (v) reflect access to appropriate community resources with a focus on providing services in the least restrictive setting and transitions between the facilities and the community.

1.14 **Model of Care**. Physician Group shall furnish Covered Services in compliance with CalOptima's Model of Care, including the PCC component, HRA, ICP and ICT requirements.

1.14.1 CalOptima will complete and communicate the HRA to Physician Group. Physician Group shall, upon notification by CalOptima of the need to follow-up on the results of an HRA administered by CalOptima, perform and provide any follow-up required by CalOptima.

1.14.2 Physician Group shall develop an ICP for each Enrollee and engage Enrollees and/or their representative in the design of the ICP in accordance with CalOptima Policies.

1.14.3 Physician Group shall offer an ICT for each Enrollee, as necessary, which will be developed around the Enrollee and integrate medical and LTSS and the coordination of Behavioral Health services. Enrollees shall not be required to participate in the ICT and may opt-out at any time. Enrollees may not be dis-enrolled from the ICT for lack of participation on the ICT. The ICT shall comply with CalOptima Policies.

1.14.4 PCPs and/or the Care Coordinator, in collaboration with CalOptima, will provide basic case management services to Enrollees in accordance with CalOptima's Policies. If the Enrollee has been identified as potentially benefiting from complex case management services, Physician Group shall provide such services to the Enrollee.

1.14.5 Physician Group shall ensure the provision of discharge planning when an Enrollee is admitted to a hospital or institution and continues into the post-discharge period. Discharge planning shall include ensuring that the necessary care, services, and supports are in place in the community for the Enrollee once he or she is discharged, including scheduling an outpatient appointment and/or conducting follow-up with the Enrollee or caregiver. Physician Group shall comply with CalOptima Policies addressing minimum criteria requirements for discharge planning.

1.15 **Behavioral Health Services Referrals**. Physician Group shall furnish and/or coordinate Behavioral Health services as specified in CalOptima Policies and this Contract.

1.15.1 For Specialty Mental Health Services, Physician Group shall refer Enrollees to CalOptima as the Administrative Service Organization contracted to provide assessment, referral and Authorization services.

1.15.2 For Outpatient Mental Health Services that are within a Physician Group' PCP's scope of practice, Physician Group shall manage according to current appropriate treatment guidelines. If the Outpatient Mental Health Services are outside its PCPs' scope of practice, Physician Group shall refer Enrollees to CalOptima's contracted behavioral health provider.

1.15.3 For Enrollees requiring alcohol or substance use disorder treatment, Physician Group shall manage according to the appropriate PCP treatment guidelines. If the alcohol or substance use disorder treatment are outside its PCPs' scope of practice, Physician Group shall refer

Enrollees to CalOptima's contracted behavioral health provider. Coordination of care through the ICT will occur as is specified in CalOptima Policies and this Contract.

1.16 **LTSS Referrals**. Physician Group shall refer Enrollees to CalOptima for LTSS pursuant to CalOptima Policies.

1.17 **Facility Site and Medical Record Reviews**. Physician Group shall participate in, and comply with requirements for, PCP site and medical reviews, including facility site physical accessibility reviews, in accordance with CalOptima Policies and guidance issued by CalOptima's Regulators, including requirements, if any, related to collaborative programs.

1.18 **Transfers**. Physician Group agrees to assist CalOptima in facilitating the transfer of care of Enrollees if determined medically acceptable by attending Physicians and the CalOptima Medical Director. Physician Group will be responsible for the cost of Covered Services provided if Physician Group refuses to accept such transfer.

1.19 **Delegation by CalOptima to Physician Group**. Physician Group agrees to accept delegated responsibility for those activities listed in the Delegation Agreement and to perform the delegated activities in a manner consistent with the Delegation Criteria. Physician Group warrants that it meets CalOptima's Delegation Criteria and acknowledges that delegation to another entity does not alter Physician Group's ultimate obligations and responsibilities set forth in this Contract. Physician Group agrees to notify CalOptima of any change in its ability to meet the Delegation Criteria within twenty-four (24) hours from the date it fails to meet such Delegation Criteria. At CalOptima's request, Physician Group shall identify the Compliance Officer or other appropriate health network representative to be the liaison expressly responsible for oversight of delegated obligations.

1.19.1 Physician Group acknowledges that it is CalOptima's responsibility to oversee, monitor and evaluate Physician Group's ongoing eligibility for delegation according to the Delegation Criteria and performance of the delegated activities according to the Delegation Criteria. Physician Group agrees to cooperate with CalOptima's oversight, monitoring, and evaluation of Physician Group's eligibility and performance of delegated activities, including the provision of reasonable access during regular business hours to the Enrollee inquiry files, credentialing files, clinical and Medical Records of Enrollees, and all other information requested by CalOptima. Physician Group shall comply with corrective actions imposed by CalOptima and/or CalOptima's Regulators in the time and manner required by them.

1.19.2 Physician Group acknowledges and agrees that CalOptima retains final authority and responsibility for activities delegated under this Contract. Activities not expressly delegated herein and in the Delegation Agreement by CalOptima or for which delegation is terminated are the responsibility of CalOptima.

1.19.3 Physician Group agrees to provide CalOptima with periodic reports on delegated activities performed by Physician Group as provided in the Delegation Criteria or specified in CalOptima Policies.

1.19.4 In the event CalOptima, DMHC, or CMS is dissatisfied with the performance of delegated functions and activities by Physician Group or its Downstream Entities, CalOptima may, in its sole discretion, modify Physician Group's delegated status (in respect to all or a particular delegated activity), including from fully delegated to delegated with corrective

action, or may immediately revoke all or part of the delegated activities. In the event Physician Group breaches its obligation to perform any delegated obligations, CalOptima shall have all remedies set forth in this Contract, including the right to revoke delegation of such function(s) and impose financial and other penalties. Moreover, CalOptima shall have the right to require Physician Group to terminate any Downstream Entity for good cause, including breach of its obligations to perform any delegated duties. Nothing herein is intended to limit CalOptima's remedies as provided for in this Contract or at law.

1.19.5 Physician Group acknowledges and agrees that CalOptima, in its sole and absolute discretion, may reduce Physician Group's Capitation Payments to recoup additional administrative costs where CalOptima revokes or modifies activities or functions delegated to Physician Group under this Contract.

1.20 **Delegation and Subcontracting of Administrative Services by Physician Group**. Except as otherwise limited by this Contract and/or CalOptima Policies, Physician Group may sub-delegate Administrative Services required of Physician Group to a management services organization ("**MSO**"), medical group and/or IPA. Delegation shall not absolve Physician Group of oversight responsibilities or its obligations under this Contract. All requests for delegation of Administrative Services (i) must be in writing; (ii) are subject to successful completion of CalOptima's readiness assessment requirements; and (iii) must be approved by CalOptima in advance of undertaking the Administrative Services. Physician Group shall obtain written approval of delegation from CalOptima pursuant to the process detailed in CalOptima Policies.

1.21 **Subcontracts**. Physician Group is required to inform CalOptima of the name and business addresses of all subcontracted Downstream Entities. Physician Group is required to ensure that all such subcontracts are in writing and include all provisions required by this Contract to be incorporated into subcontracts. Physician Group acknowledges that CalOptima's FDR subcontracts are subject to the review and approval of CMS.

1.22 **Payment to Providers**. CalOptima hereby delegates claims processing functions to Physician Group. Physician Group shall review, adjudicate, and pay (as appropriate) all claims in accordance with the benefits set forth in the Evidence of Coverage, the requirements established by Laws, and the terms of this Contract. In making payments to Providers, Physician Group shall comply with the provisions of Attachment D, including requirements related to payment of Non-Participating Provider Emergency Services and Urgent Care claims.

1.23 **Documentation and Data Submission Integrity**. Physician Group and its Downstream Entities shall not submit false claims or financial reports, encounter data, and other information to CalOptima, CMS or DMHC, whether by commission or omission. Physician Group and applicable Downstream Entities shall implement and maintain policies and procedures that address correct completion of claims, financial reports, encounter data, and other documentation requirements and penalties for falsifying such reports and other information that require all new and current employees and/or agents compiling or providing this information to sign a statement of attestation that will acknowledge understanding and compliance with said Physician Group policy.

1.24 **Advance Directives**. Physician Group shall maintain written policies and procedures related to Advanced Directives in compliance with Laws. Providers shall document Advance Directives in patient records in accordance with Laws. Physician Group shall not discriminate against any Enrollee on the basis of that Enrollee's Advance Directive status. Nothing in this Contract shall be interpreted to require an Enrollee to execute an Advance Directive or agree to orders regarding the provision of life-sustaining treatment as a condition of receipt of services.

1.25 **Enrollee Appeals**. Enrollees will be notified of all applicable MA and/or Medicare Appeal rights, the form and content of which is approved by CMS. . Medicare Appeal rights and protections will be maintained and enhanced for Medicare services. Physician Group agrees to cooperate with CalOptima in resolving Appeals related to Physician Group or Physician Group's Participating Providers and will comply with CalOptima Policies related to Appeals.

1.26 **Organization Determination Process**. Physician Group agrees to comply with CMS regulations and instructions and CalOptima Policies pertaining to timely organization determination by Physician Group with regard to the provision, denial, reduction, or suspension of a Covered Service to an Enrollee. "**Organization determination**" is defined as a decision to provide or deny service based on CMS and CalOptima criteria. Such determinations shall be made in accordance with procedures and instructions set forth in the CalOptima Policies and Laws. Physician Group shall immediately notify CalOptima of any request for an expedited initial organization determination and submit to CalOptima on a monthly basis a report which tracks the requests for standard and expedited organization determinations and the timeframe within which Enrollees were informed of decisions made by Physician Group.

1.27 **Expedited Review Process**. Physician Group shall comply with CMS regulations and CalOptima Policies pertaining to expedited initial organization determinations of Enrollee's medical care and reconsideration (Appeals) thereof in the time sensitive situations. Time sensitive situations are those outlined by CMS which include medical conditions that require initial determinations to be made within seventy-two (72) hours upon Physician Group receiving a request for an expedited review from a Provider, Enrollee, or CalOptima.

1.28 **Linguistic and Cultural Sensitivity**. Physician Group shall comply with all requirements related to the provision of linguistic and culturally sensitive services in accordance to this Contract, CalOptima's Cultural and Linguistic Services Program, and CalOptima Policies. Physician Group shall address the special health needs of Enrollees who are of any minority, are homeless, are disabled (both congenital and acquired disabilities), or are part of other special populations served by the CalOptima MA Program, including the capacity to communicate with Enrollees in languages other than English, when necessary, as well as those Enrollees who are deaf, hard-of-hearing, and/or visually impaired. Physician shall, in policies, administration, and services, practice the values of: (a) honoring the Enrollees' beliefs, traditions and customs; (b) recognizing individual differences within a culture; (c) creating an open, supportive, and responsive organization in which differences are valued, respected and managed; (d) through cultural diversity training, foster in staff and Participating Providers attitudes and interpersonal communication styles that respect Enrollees' cultural backgrounds and are sensitive to their special needs; and (e) referring Enrollees to linguistically and culturally sensitive programs. Pursuant to CalOptima Policies, Physician Group shall provide translation of written materials in the Threshold Languages as provided by CalOptima Policies. Written materials to be translated include, but are not limited to, signage, the Enrollee services guide, Enrollee information, Explanation of Coverage, Enrollee forms, Enrollee notices, and Enrollee welcome packages.

1.29 **Provision of Interpreters**. Oral interpreters, signers, and bilingual Provider services shall be provided in all languages spoken by all MA Enrollees. Physician Group shall provide linguistic interpreter/translator services for Enrollees as necessary at all Physician Group sites to ensure the availability of effective communication regarding treatment, diagnosis, medical history, and health education to Enrollees. Physician Group shall provide twenty-four (24)-hour access to interpreter services for all Enrollees. Upon an Enrollee or Participating Provider request for interpreter services in a specific situation where care is needed, Physician Group shall make all reasonable efforts to provide an interpreter in time to assist adequately with all necessary Covered Services,

including Urgent Care Services and Emergency Services, as required by Laws. Physician Group shall routinely document all such efforts and make this documentation available to CalOptima at its request. Interpreters shall be used where needed where technical, medical, or treatment information is to be discussed. Physician Group shall not require an Enrollee to use friends or family as interpreters. However, a family member or friend may be used when the use of the family member or friend: (i) is requested by the Enrollee; (ii) will not compromise the effectiveness of service; (iii) will not violate Enrollee's confidentiality; and (iv) the Enrollee is advised that an interpreter is available at no cost to the Enrollee. Physician Group shall maintain a contract with an interpreter service agency that is on "on call" status to provide interpreter services.

1.30 **Identification of Physician Group and Group Physicians**. Physician Group agrees that CalOptima may list the Physician Group's name, address, and telephone number and that of its Group Physicians and Downstream Entities in CalOptima's roster of Participating Providers that is given to Enrollees and prospective Enrollees, and CalOptima may use such names for advertising/marketing purposes. However, CalOptima is not obligated to list the name of any particular Group Physician in the roster of Participating Providers. The use of Physician Group's trademarks or logos by CalOptima is prohibited without Physician Group's prior written approval.

1.31 **Liaisons**. Physician Group shall designate an individual(s) who will assume the day-to-day responsibilities with regard to Physician Group's obligations under this Contract and to serve as liaison with CalOptima. Physician Group will also designate an individual(s) to be responsible for answering Enrollee inquiries and responding promptly to any Enrollee grievance in accordance with CalOptima's grievance procedures and Laws.

1.32 **Provider Private Contract**. Physician Group understands that CalOptima is prohibited by CMS from paying capitation to, or including in its provider network, any provider that has entered into a private contract with a Medicare beneficiary for the provision of Covered Services. Physician Group shall notify CalOptima immediately in the event that any Group Physician has a private contract with a Medicare beneficiary. In such an event, CalOptima reserves the right to exclude any such Group Physician from its provider network. In addition, Physician Group agrees that CalOptima shall have the right to offset the amount of any reimbursement that was paid either directly or indirectly to such Provider(s) against Capitation Payments or other amounts due from CalOptima to Physician Group, if any.

1.33 **Disclosure of Physician Group PIPs**. In the event that Physician Group implements and maintains a physician incentive plan ("**PIP**"), Physician Group and its Downstream Entities must comply with all applicable requirements governing PIPs, including such requirements appearing at 42 CFR Parts 417, 422, 434, 438.6(h), and 1003.

1.33.1 Physician Group shall ensure that no specific payment is made directly or indirectly under a PIP to a Physician or Physician Group as an inducement to reduce or limit Medically Necessary services furnished to an Enrollee.

1.33.2 On an annual basis, Physician Group and its Downstream Entities must submit to CalOptima all information required to be disclosed to CMS and the DMHC in the manner and format specified by them.

1.33.3 Physician Group must provide information on its PIP to any Enrollee upon request as provided in 42 CFR Section 422.208.

1.33.4 In the event that CalOptima's Regulators find that Physician Group (or its Downstream Entities) has failed to comply with the requirements governing physician incentive plans and CalOptima's Regulators offset, recoup and/or otherwise seek recovery of federal financial participation ("**FFP**") amounts from CalOptima, Physician Group agrees that CalOptima may recover such FFP amounts attributable to Physician Group from Physician Group, including through recoupment or offset to future Capitation Payments or other amounts due from CalOptima to Physician Group, if any.

1.34 **Provider Grievance Process**. Physician Group shall establish and maintain a Provider dispute resolution process that at all times complies with the requirements of Laws. Physician Group shall provide CalOptima with all necessary information and reports regarding the provider dispute resolution process as required by CalOptima to meet its obligations under the CMS Contract and Laws. If Physician Group fails to maintain a process that complies with the requirements stated in Laws and CalOptima Policies, then following written notice of such deficiency from CalOptima to Physician Group, CalOptima may revoke the delegation and assume responsibility for the administration of Physician Group's Provider dispute resolution process.

1.35 **Provider Education**. Physician Group acknowledges that CMS requires that CalOptima furnish to Participating Providers certain training, education, and orientation related to the MA Program in order to operate in full compliance with this Contract and Laws. Such training and education may address the MA Program, Enrollee rights, cultural competency and clinical protocols, evidence-based guidelines and cultural awareness and sensitivity instruction. Physician Group and its Participating Providers shall participate in such training, education, and orientation programs, as required by CalOptima, and shall attest to compliance with training requirements as required by CalOptima.

1.36 **State Licensure**. If Physician Group is licensed by the DMHC as a heath care service plan for purposes of the MA Program, it shall maintain such licensure in accordance with the Knox-Keene Act, as amended, and have no adverse actions with regard to enforcement or quality management.

1.37 **CalOptima's Regulator Requirements**. The MA Program is subject to oversight by CalOptima's Regulators, which mandate that CalOptima and its FDRs comply with certain terms and conditions in rendering services to Enrollees and that certain terms be incorporated in FDR subcontracts. Physician Group acknowledges that it will comply with CalOptima's Regulators' requirements set forth in Attachment E.

1.38 **COB Obligations of Physician Group**. Physician Group agrees to coordinate with CalOptima for proper determination of COB and to bill and collect from other payers and third-party liens such charges for which the other payer is responsible pursuant to CalOptima Policies. Physician Group agrees to establish procedures to effectively identify, at the time of service and as part of its claims payment procedures, individuals and services for which there may be a financially responsible party other than the CalOptima MA Program.

1.39 **CMS Lien Rights.** Physician Group shall coordinate benefits either operating a cost avoidance method of paying claims, when the existence of private health coverage is known at the time the claim is processed, or using the method of post-payment recovery of the cost of services, if the coverage is identified retroactively, as set forth in CalOptima Policies. Nothing herein shall be interpreted to, in any manner, impair any lien rights retained by the U.S. Department of Health and Human Services ("**HHS**") through CMS. Physician Group shall make no claim for the recovery of the value of Covered Services rendered to an Enrollee when such recovery would result from an action involving tort liability of a third party, recovery from the estate of deceased Enrollee,

Workers' Compensation, or casualty liability insurance awards and uninsured motorist coverage. Physician Group shall identify and notify CalOptima, within five (5) calendar days of discovery of potential third-party liability ("**TPL**") claims, and provide information relative to potential TPL claims, in accordance with CalOptima Policies.

1.40 **Provider Training.** Physician Group shall ensure that all network Providers receive training regarding the MA Program in order to operate in full compliance with all Laws, including rights and responsibilities pertaining to grievance and appeals procedures and timelines under this Contract. Physician Group shall ensure that network Provider training relates to MA services, policies, procedures and any modifications to existing services, policies or procedures. Training shall include methods for sharing information among network Providers, Enrollees, and/or other healthcare professionals. Physician Group shall conduct training for all network Providers within thirty (30) working days after the Physician Group places a newly contracted Provider on active status. Physician Group shall ensure that network Provider training includes information on all Enrollee rights, including the right to full disclosure of health care information and the right to actively participate in health care decisions. Physician Group will maintain policies and procedures on advance directives pursuant to 42 CFR §§ 422.128, 438.3(j), and 489.102, and will educate its network Providers concerning its policies and procedures on Advance Directives. Physician Group shall ensure that ongoing training is conducted when deemed necessary by either the Physician Group or CMS.

II. PHYSICIAN GROUP FINANCIAL OBLIGATIONS

2.1 **Financial Security Requirements**. Physician Group must establish and maintain during the Term financial security requirements as specified in Article 9 of Chapter 2 of Division 1 of Title 28 of the California Code of Regulations (SB 260 Regulations), and in compliance with CalOptima Policies. Physician Group must establish and maintain, throughout the Term, financial security reserves, in the form of time certificates of deposit, irrevocable standby letters of credit, surety bonds naming CalOptima as beneficiary, and/or other forms of financial instruments acceptable by CalOptima, as required in CalOptima Policies.

2.2 **Financial Viability Standards and Reporting**. Physician Group must establish and maintain a minimum reserve of twenty-five percent (25%) of one month's Capitation Payment. Physician shall have thirty (30) days upon receiving notice from CalOptima to cure any deficit. Physician Group shall maintain a cash-to-claims ratio of no less than 0.75 at all times during the Term. Physician Group shall substantiate compliance with this requirement by submitting all applicable reports to the DMHC that are required under Title 28 CCR Section 1300.75.4.2.

2.3 **Medical Loss Ratio**. Physician Group shall ensure that it, as well as the PHC, maintains a minimum acceptable loss ratio (as defined by CalOptima Policies) of eight five percent (85%). Physician Group shall comply with CalOptima requirements related to limitations on administrative costs, as set forth in CalOptima Policies.

2.4 **Termination of Physician Group Health Network**. If this Contract terminates or expires for any reason, CalOptima may require that Physician Group take certain actions and/or CalOptima may take certain actions to ensure that all items and services for which Physician Group is delegated financial risk under this Contract are reimbursed by Physician Group, including the following: (i) require Physician Group to reserve sufficient funds to pay any claims run out; (ii) offset Physician Group's future Capitation Payments or other amounts due from CalOptima to Physician Group under this Contract or any other agreement, if any, in order to pay Physician Group's claims; and/or (iii) withhold or offset Physician Group's Capitation Payments or other amounts due from

CalOptima to Physician Group, including to pay-for-performance, quality incentives, and shared risk pool surpluses, if any, in order to pay amounts owed by Physician Group to Providers.

2.5 **Conversion of Health Network Model**. If CalOptima approves a change in the delegated model of Physician Group at any time during the Term, CalOptima may require additional financial protections as a condition precedent to such approval, including: (i) require Physician Group to reserve sufficient funds to pay any claims run out related to claims which are the financial responsibility of Physician Group under the existing delegated relationship; (ii) require Physician Group to meet additional financial security requirements, including the maintenance of financial deposits; and/or (iii) withhold or offset Physician Group's Capitation Payments or other amounts due from CalOptima to Physician Group, including pay-for-performance, quality incentives and shared risk pool surpluses, if any, in order to pay amounts owed by Physician Group to Providers.

2.6 **Cooperation with DMHC**. Physician Group shall fully cooperate and comply with the DMHC's review and audit process and permit DMHC to obtain and evaluate supplemental financial information related to Physician Group, in accordance with Title 28 CCR Section 1300.75.4.7. Physician Group shall also fully cooperate and participate in DMHC's Corrective Action Plan process, in accordance with Title 28 CCR Section 1300.75.4.8.

2.7 **Risk Pools**. PHC in which Physician Group and Hospital participate shall have a risk pool arrangement between Hospital and Physician Group, as detailed in this Section 2.7 and Addendum 1 to this Agreement and the Hospital Contract. During the Term, Hospital and Physician Group shall annually negotiate and agree upon the terms and conditions of the risk pool arrangement ("**Risk Pool**") and shall submit the Risk Pool to CalOptima by November 30 for the next year. Physician Group shall submit to CalOptima an attestation signed by an authorized signatory of PHC Participants indicating that both Physician Group's and Hospital's Boards of Directors approved the Risk Pool. CalOptima shall pre-approve the Risk Pool before it may go into effect for the next year beginning January l. The Risk Pool shall include the following:

2.7.1 Covered Services for which PHC Participants will share risk.

2.7.2 If any part of the Risk Pool is based on utilization, the Risk Pool shall additionally include:

(a) The expected utilization of Covered Services for which PHC Participants will share risk. Recommended measures are bed days/per 1,000 Enrollees for inpatient services and $ [insert amount] per Enrollee per month for other Covered Services.

(b) The price or value for each Covered Service for which PHC Participants will share risk. These are the amounts that each unit of service will be valued at and charged against the portion of Hospital's capitation payment that the Hospital receives under the Hospital Contract and uses to fund to the Risk Pool. Inpatient rates should be listed as per diem rates, while other Covered Services should be priced by fee schedules or as a percentage of billed charges.

(c) A pro forma settlement calculation, which shall state the amount of surplus that is expected to result if Physician Group and/or Hospital achieve their utilization targets and the agreed-upon pricing model employed for the Risk Pool.

(d) A description of audit and/or other procedures required to ensure the accuracy of the surplus or deficit calculations related to the cost and volume of services rendered under the Risk Pool and other revenues and expenses, including interest

income, reinsurance premiums, and reinsurance recoveries associated with risk sharing.

(e) Defined responsibilities should deficits occur under the Risk Pool.

(f) Timing and documentation requirements for interim or final surplus distributions from the Risk Pool by Hospital, as agreed upon between the PHC Participants.

2.7.3 Physician Group shall submit [insert requirement for when these should be submitted] to CalOptima interim and final settlement calculations and attestations from all PHC Participants stating that (i) PHC Participants have met all the requirements of this Section 2.7, (ii) PHC Participants have performed all audit and reconciliation procedures, and (iii) the distribution amount to each PHC Participant is consistent with the terms of the Risk Pool, which (as approved by CalOptima annually during the Term) is incorporated into this Contract by this reference.

III. CALOPTIMA OBLIGATIONS

3.1 **CalOptima Services**. CalOptima agrees to provide certain Enrollee and Administrative Services, including processing Enrollee applications, maintaining eligibility records and a system of verifying eligibility, processing enrollments and dis-enrollments, responding to Enrollee complaints and grievances, informing Enrollees of CalOptima Policies, providing Enrollees with membership cards and informational material, and informing Enrollees of Health Networks.

3.2 **Enrollment**. CalOptima agrees to process all enrollment applications and ensure that each Enrollee selects or is assigned to Health Networks in accordance with CalOptima Policies. CalOptima reserves the right to assign Enrollees to a Health Networks other than that selected by Enrollee.

3.3 **Model of Care and Health Risk Assessment**. CalOptima shall maintain a Model of Care, as required by CalOptima's Regulators. CalOptima shall ensure that, upon enrollment in the CalOptima MA Program, each Enrollee receives an initial HRA and an HRA annually thereafter in accordance with CalOptima Policies and that results of the HRA are shared with Physician Group in order to coordinate Enrollee care. Physician Group is responsible for interim updates to the HRA.

3.4 **Authorization Process**. CalOptima shall provide a written Authorization process for Covered Services pursuant to CalOptima Policies.

3.5 **Enrollee Grievance Process**. CalOptima will inform Enrollees that they may file a grievance through CalOptima or the CMS Ombudsman Program for complaints related to Medicare-covered benefits and services. Enrollees may also file a grievance through 1-800 Medicare.

3.6 **Enrollee Appeals**. Enrollees will be notified of all applicable MA Medicare Appeal rights through a single notice prior approved by CMS.

3.7 **CalOptima Formulary**. CalOptima shall publish and maintain the CalOptima Formulary pursuant to CalOptima Policies.

3.8 **Training and Education**. CalOptima agrees to provide Participating Provider education, training, and orientation in accordance with CMS requirements, including training regarding the CalOptima MA Program, Enrollee rights, clinical protocols, evidence-based practice guidelines, and

CalOptima's cultural awareness and sensitivity instruction and cultural competency training, as applicable.

3.9 **Marketing**. Physician Group acknowledges that CalOptima will be responsible for marketing the CalOptima MA Program to Medicare beneficiaries. Physician Group acknowledges that it shall not conduct any marketing activities except as expressly approved in advance and in writing by CalOptima.

3.10 **Administration of Funds**. CalOptima will administer the funds and payments called for in this Contract to Physician Group in accordance with provisions outlined in Article VI.

3.11 **No Refusal to Pay or Contract Based on Physician Group Communications with Enrollees**. CalOptima will not refuse to contract or pay an otherwise eligible health care Provider for the provision of Covered Services solely because such Provider has, in good faith, communicated with or advocated on behalf of one or more of his or her prospective, current, or former patients regarding: (i) the provisions, terms or requirements of CalOptima's health care plans as they relate to the needs of such Provider's Enrollees; or (ii) the method by which such Provider is compensated by CalOptima for Covered Services rendered to the Enrollee.

3.12 **CalOptima Policies**. CalOptima will provide Physician Group with CalOptima Policies as necessary for Group to provide Covered Services to Enrollees. Those CalOptima Policies shall describe all benefit plans, including copayments, limitations, and exclusions offered by CalOptima to Enrollees. The Provider Manual will be made available to Physician Group to disseminate to Physicians.

3.13 **Listing of CalOptima**. CalOptima agrees that Physician Group may list its name, address, telephone number, and a description of the CalOptima MA Program, along with CalOptima's name, in Physician Group's promotional materials and advertisements. The use of CalOptima's trademarks and logos by Physician Group is prohibited without CalOptima's prior written approval.

3.14 **CalOptima Oversight**. CalOptima shall monitor Physician Group's performance under this Contract on an ongoing basis. CalOptima may conduct regularly scheduled audits as well as an annual evaluation of the delegated functions to determine Physician Group's continued compliance with the Delegation Criteria. CalOptima may impose corrective action plans on Physician Group and/or its Downstream Entities, as necessary.

3.15 **CalOptima Accountability**. The delegation of the functions and responsibilities stated in this Contract and the Delegation Agreement does not relieve CalOptima of any of its accountability to CMS and obligations to its Enrollees under Laws. CalOptima is authorized to perform and remains liable for the performance of such obligations, notwithstanding any delegation of some or all of those obligations to Physician Group.

3.16 **COB Obligations of CalOptima**. CalOptima will cooperate in providing COB information to Physician Group by collecting appropriate data from the Enrollee at the point of enrollment and supplying such data to Physician Group.

3.17 **Enrollee Rights**. CalOptima shall ensure that Enrollee rights are fully respected and observed in accordance with Laws and CalOptima Policies. CalOptima shall notify Enrollees of their rights and protections at least annually and in a manner that accounts for cultural considerations, functional status, and language needs.

3.18 **Enrollee Grievances**. CalOptima retains responsibility for the Enrollee grievance process. Physician Group will comply with CalOptima Policies related to Enrollee grievances, including timely reporting to CalOptima and resolution of Enrollee grievances. Enrollees may file an internal Enrollee grievance at any time with CalOptima or Physician Group, including grievances related to reasonable accommodations and access to services under the ADA.

IV. QUALITY IMPROVEMENT PROGRAM AND CREDENTIALING

4.1 **CalOptima's Quality Improvement Program**. Physician Group shall comply with, and participate in, CalOptima's Quality Improvement Program ("**QIP**"). Physician Group shall immediately notify CalOptima of those Enrollees and cases that fall within the catastrophic and targeted case management guidelines and shall cooperate with CalOptima's case management program for catastrophic and targeted cases. Physician Group and its Downstream Entities shall fully cooperate with CalOptima with regard to the HEDIS measurements and HEDIS audits, guideline development, preventive services utilization, disease/risk management, clinical service monitoring, and quality improvement studies and initiatives. Physician Group shall comply with and accept as final the decisions of the CalOptima QIP and, pending resolution of any dispute through the dispute resolution process, comply with the decisions of the CalOptima Quality Improvement Committee.

4.2 **Quality Improvement Functions – Delegation to Physician Group**. Physician Group shall establish, maintain and operate a Quality Improvement ("**QI**") program, in accordance with the delineation of responsibilities in the Delegation Agreement, which shall include preparation of an annual QI program plan, semi-annual work plan, and annual evaluation of effectiveness of the QI program, and report to CalOptima's QI department using the Health Industry Collaboration Effort Reporting Tool. All of the foregoing elements of the QI program shall be consistent with current industry standards, and meet CMS, National Committee for Quality Assurance ("**NCQA**"), The Joint Commission, and CalOptima QIP requirements.

4.2.1 Physician Group shall adopt a detailed written QI plan, which shall include: (i) well defined goals and objectives; (ii) a well-defined scope that considers all different types and levels of care and service provided to Enrollees; and (iii) clearly defined accountability and responsibility for the QI program.

4.2.2 The Board of Directors of the Physician Group or a multi-disciplinary QI committee designated by the Board of Directors of Physician Group shall oversee the QI program. This committee shall be separate from the utilization review committee (though members may be the same) and have a separate agenda. The QI committee shall meet at least on a quarterly basis. Physician Group shall maintain attendance records and meeting minutes related to the QI program. The QI committee shall have adequate representation from all categories of the Physician Group such as Physicians and non-Physician practitioners.

4.2.3 QI Program activities shall be reported in writing to Physician Group's Board of Directors at least on a quarterly basis. These reports shall be available to CalOptima upon request.

4.2.4 Physician Group's QI program shall include involvement and participation in network-wide studies/projects initiated by CalOptima. Physician Group shall facilitate quality studies and assist in collection of comparative data collected from all Participating Providers using objective parameters (e.g., the current version of HEDIS).

4.2.5 Physician Group shall develop an annual QI work plan, which includes the following: (i) goals, scope, and planned projects for the year; (ii) planned monitoring of identified issues and tracking these issues over time; (iii) planned studies/audits suggested by CalOptima or Physician Group; and (iv) an annual evaluation of the QI program/plan.

4.2.6 Physician Group shall have a written procedure for responding to the findings of QI activities, such as collecting data, analyzing results, implementing corrective action plans, and reassessing the same data for improvement.

4.2.7 Requirements for the Physician Group's QI program shall be established by the Physician Group's QI committee and requirements may change based on changes in industry standards. CalOptima's QI committee shall notify Physician Group of any additional changes in QI standards and requirements that shall be incorporated in Physician Group's QI program. Physician Group shall not be required to change QI program requirements more frequently than once per year.

4.2.8 Physician Group shall provide, upon CalOptima's request: (i) summaries of QI Committee meetings; (ii) findings following review of specific cases and other reviews; (iii) Medical Records; (iv) written responses to quality-of-care issues or Enrollee complaints; and/or (v) other information as required by CalOptima.

4.2.9 Physician Group shall comply with all measurement and improvement projects in the manner required by CMS, including the reporting of HEDIS, Health Outcomes Survey and Consumer Assessment of Healthcare Providers and Services measurement results consistent with Medicare requirements. Physician Group shall contribute to all applicable CMS data quality assurance processes.

4.3 **Quality Improvement and Credentialing Program**. CalOptima delegates credentialing requirements to Physician Group as provided in the Delegation Agreement. Physician Group agrees to comply with CalOptima Policies regarding credentialing standards. In order to ascertain Physician Group's continuous compliance with CalOptima standards, CalOptima retains the right to oversee Physician Group's credentialing processes and to mandate changes thereto.

4.3.1 At least annually, Physician Group shall provide CalOptima with a written credentialing program for the purpose of review and approval by CalOptima. Physician Group shall also allow CalOptima, after reasonable prior notice, to conduct an on-site audit and review a sample of physician credentialing files to determine that delegation of the credentialing process is appropriate.

4.3.2 Physician Group's credentialing program shall comply with the requirements specified in 42 CFR Sections 422.504, 423.505 and 438.214, as applicable, which include requirements addressing selection and retention of providers, credentialing and re-credentialing requirements, and nondiscrimination. Physician Group's credentialing program shall include procedures used for credentialing and re-credentialing Participating Provider's according to current NCQA standards, in addition to procedures used for reducing, suspending or terminating Participating Provider's participation in the organization for reasons relating to quality of care, competence, professional conduct, or service-related issues; procedures for reporting to appropriate authorities serious quality deficiencies that could result in suspension or termination of a Participating Provider's participation; and procedures for provider appeal, as afforded by Physician Group's fair hearing plan and corrective actions.

4.3.3 Physician Group shall make best efforts to notify CalOptima within thirty (30) days of any changes involving the rules, regulations, authorities, and responsibilities of the credentialing program. In accordance with CMS requirements, CalOptima also retains the right, based on quality-of-care and service issues, to approve, suspend, or terminate arrangements with practitioners, providers, and sites. In the event that this occurs, CalOptima will notify the Physician Group of the quality-of-care and/or service issue, and Physician Group shall take appropriate action, report to appropriate authorities any serious quality deficiencies in accordance with Laws, and provide all due process as afforded by the Physician Group's fair hearing plan and Laws.

4.3.4 If CalOptima exercises its right to terminate a Provider's participation in the CalOptima MA program, CalOptima shall give the Provider a written statement of the reason or reasons for termination with cause and comply with the procedures required by Laws, if any.

4.4 **Release of Performance Information and Data**. Physician Group acknowledges that the CalOptima MA Program focuses on improving the coordination and quality of medical, Behavioral Health, LTSS, and other services for Enrollees, and, in that regard, CalOptima's Regulators will implement capitation withholds to ensure performance consistent with established quality thresholds. Physician Group acknowledges and agrees that CalOptima may release information and data related to the performance of Physician Group under this Contract to CalOptima Regulators, Providers, Enrollees, and others without further notice to Physician Group. The performance data will be used for purposes, including quality improvement activities, and public reporting to consumers, as identified in CalOptima Policies.

V. UTILIZATION MANAGEMENT PROGRAM

5.1 **CalOptima's Utilization Management Program**. CalOptima has implemented, and continuously updates, a UM program to ensure appropriate processes are used to review and approve the provision of Medically Necessary Covered Services to Enrollees in the timeframes required by CalOptima's Regulators. Physician Group and its Downstream Entities shall comply with and cooperate in CalOptima's UM program, as established in CalOptima Policies and the CalOptima UM plan, regardless of CalOptima's delegation to Physician Group under Section 5.2.

5.2 **UM Program Responsibility—Delegation to Physician Group**. CalOptima is hereby delegating to Physician Group the process of monitoring and evaluating on a prospective, concurrent, and retrospective basis, the utilization and Medical Necessity of Covered Services provided to Physician Group's Enrollees.

5.2.1 Physician Group's UM process shall include performing case management activities, referral management and discharge planning, and managing the denial sanction process, as well as conducting peer review for Medical Necessity and appropriateness. Physician Group (and its Downstream Entities) shall ensure that its UM program complies with all criteria as set forth in CalOptima Policies and required by CalOptima's Regulators.

5.2.2 In accordance with 42 CFR §§ 438.6(h) and 422.208, compensation to individuals or entities that conduct UM activities must not be structured so as to provide incentives for Physician Group (including Group Physicians) or Downstream Entities to deny, limit, or discontinue Medically Necessary Covered Services to any Enrollee.

5.2.3 In the event Physician Group (or its Downstream Entities) fails to comply with CalOptima standards and Laws and fails to correct deficiencies within the stated time required by those provisions, CalOptima retains the right to revoke delegation of UM activities.

5.3 **Utilization Management Plan**. Physician Group will provide to CalOptima initially upon execution of this Contract, and annually thereafter, a written UM plan for review and approval by CalOptima.

5.3.1 Physician Group shall notify CalOptima within thirty (30) days of any changes involving the rules, regulations, authorities, and responsibilities for the UM plan, which shall be subject to reasonable approval by CalOptima. CalOptima approval will be assumed unless Physician Group is notified otherwise by CalOptima. Physician Group shall comply with and accept as final, the decisions of CalOptima's UM program and, pending resolution of any dispute through the dispute resolution process, comply with the decisions of CalOptima's UM program.

5.3.2 The UM plan shall include procedures approved by CalOptima to identify, assess, establish, and implement a treatment plan for Enrollees with complex or serious medical conditions. The UM plan shall also contain procedures for direct access of Enrollees to services as mandated by CMS regulations and instructions. All Physician Group denial letters shall provide Enrollees with timely notice and shall contain appropriate Enrollee appeals rights as approved by CMS and CalOptima. Physician Group agrees to cooperate with CalOptima in furnishing the required reports identified in CalOptima' Policies

5.4 **Utilization Management Committee**. Physician Group shall establish a UM committee that shall review and document the quality, appropriateness, level of care, and utilization of health care services provided to Enrollees. CalOptima's Medical Director and/or CalOptima staff may attend Physician Group UM committee meetings.

5.5 **Process and Timeframes for Authorization**. Physician Group (and its Downstream Entities) shall ensure that its process for initial and continuing Authorizations complies with CalOptima Policies, the UM plan and requirements established by CalOptima's Regulators, including timeframes for, and manner of, Authorization.

5.6 **No Prior Authorization**. Physician Group (and its Downstream Entities) shall not require prior Authorization for the following services: (i) any services for Emergency Medical Conditions (which include emergency Behavioral Health care); (ii) Urgent Care sought outside the Service Area: (iii) Urgent Care under unusual or extraordinary circumstances provided in the Service Area when the Participating Provider is unavailable or inaccessible; (iv) preventative services; (v) family planning services; (vi) Out-of-Area renal dialysis services; (vii) basic prenatal care; (viii) sexually transmitted disease services; and (ix) HIV testing.

5.7 **Second Opinions**. Physician Group (and Downstream Entities) shall ensure that Enrollees have the right to second opinions from qualified health professionals at no cost to the Enrollee.

5.8 **Physician Direct Referral**. Physician Group agrees that an Enrollee shall, without obtaining the prior Authorization of the PCP or Physician Group, refer him or herself directly to a specialist within said Physician Group per policy including any of the following conditions: an annual well woman exam by a Gynecologist, prenatal care and delivery by an Obstetrician, annual eye exam by an Optometrist, professional services related to audiology, and family planning services, including but not limited to vasectomy.

5.8.1 CalOptima will identify Physician Group as a provider that offers Physician Group Direct Referrals to Enrollees in CalOptima's provider directory and other marketing literature, if any. In the event CalOptima determines that Physician Group is non-compliant with the requirements of the Physician Direct Referral process, CalOptima reserves the right, at its sole discretion, to cease marketing Physician Group as a Physician Direct Referral provider to Enrollees.

5.8.2 Physician Group agrees to cooperate with CalOptima and, upon reasonable prior notice, provide CalOptima with all necessary Medical Records, policies and procedures, including utilization review, reports, and other pertinent information that may be necessary or required to enable CalOptima to ensure and verify that Physician Group has a Physician Direct Referral process acceptable to and in accordance with the requirements of CalOptima.

5.9 **Hospital Referrals**. Physician Group agrees to require Group Physicians to admit Enrollees only to Hospital with the concurrence of CalOptima, except for Emergency Services, Urgent Care, or when Authorization has been received in accordance with the UM Plan.

5.10 **Personal Care Coordinator Component to the Model of Care.**

5.10.1 "**PCC Profile**" is a monthly report generated by CalOptima that provides the compliance parameters required to receive PCC supplemental capitation.

5.10.2 Physician Group shall employ PCCs and participate in all PCC component requirements, as defined in the Model of Care Profile. PCCs shall assist Enrollees in the development of an ICP, ensure communication of the Enrollee's care plan with the Enrollee, physicians, Physician Group and health care team, and provide other related services as described in the job description, CalOptima Policy, and Model of Care Profile. Physician Group shall submit monthly reports and ICPs to demonstrate adherence to Model of Care requirements, including staffing of PCCs.

5.10.3 CalOptima may amend the Model of Care Profile at any time and, in such event, CalOptima shall provide Physician Group with thirty (30) days' written notice before the effective date of any such revisions. If Physician Group is unable to agree to the revisions and no resolution is reached in the thirty (30)-day period, Physician Group may proceed with the termination of the Contract under Article 11. In the event Physician Group terminates the Contract, it shall comply with all of its obligations required by this Contract and Laws including obligations related to transfer and coordination of Enrollee care following termination.

VI. COMPENSATION

6.1 **Physician Group Compensation**. CalOptima shall compensate Physician Group for Covered Services and Administrative Services delegated to Physician Group, as set forth in Attachment C. Such Capitation Payments shall be payment in full for Covered Services and Administrative Services, except for amounts recovered through collection of Enrollee's Share of Cost, COBs, and Stop Loss Program, if applicable. Capitation Payment shall be sent on a monthly basis by the twentieth (20th) calendar day of the month, or if such day falls on a weekend or national holiday, on the first business day thereafter, for all Enrollees eligible from the first (1st) of the month, and on whose behalf payment has been received by CalOptima from CMS by the nineteenth (19th) calendar day of the month. In the event CalOptima receives payment from CMS after the

nineteenth (19th) calendar day of the month, capitation payment to Physician Group will be made within five (5) working days of receipt of the monthly payment by CalOptima.

6.2 **Disputes Regarding Payments or Enrollment**. Any and all disputes related to Capitation Payments and/or enrollments shall be reported to CalOptima within ninety (90) calendar days of payment, and each dispute shall be clearly defined and include supporting documentation. Failure to dispute within the established time frame indicates acceptance of the Capitation Payment by Physician Group.

6.3 **Capitation Rate Adjustments**. The Capitation Rates may be adjusted by CalOptima during the Contract period to reflect implementation of State or federal laws or regulations, changes in the CMS Contract or CMS policy, and/or changes in Covered Services. If CalOptima receives advance notice of adjustment from CalOptima's Regulators, CalOptima shall provide notice thereof to Physician Group as soon as practicable. Capitation Rates may also be adjusted in the event of de-delegation of any function delegated under this Contract.

6.4 **Enrollee Non-Liability and Hold Harmless Requirements.** Physician Group and its Downstream Entities shall accept CalOptima's payment as described in this Contract as payment in full. Physician Group and its Downstream Entities for all Covered Services and Administrative Services under this Contract and shall not hold Enrollees liable to the Physician Group or Providers for any sums owed to Physician Group by CalOptima or owed to Providers by Physician Group.

6.4.1 Physician Group and its Downstream Entities shall hold harmless CMS, CalOptima, and Enrollees in the event Physician Group and/or Downstream Entities cannot or will not pay for services performed by Physician Group or Downstream Entities pursuant to this Contract or subcontract, as applicable.

6.4.2 Physician Group and its Downstream Entities shall ensure that Enrollees will not be held liable for Medicare Part A and B cost sharing when the State is responsible for paying such amounts and that the Physician Group will (i) accept Capitation Payment as payment in full under the Contract, or (ii) bill the appropriate State source, as required at 42 CFR §422.504(g)(1)(iii). Such services must be provided at zero cost-sharing to Enrollees.

6.4.3 Physician Group shall not hold an Enrollee liable for the following: (i) debts of Physician Group, in the event of 'Physician Group's insolvency; (ii) Covered Services provided to the Enrollee in the event that CalOptima or Physician Group fails to receive payment from CMS for such services; or (iii) payments to a clinical FDR or Downstream Entity in excess of the amount that would be owed by the Enrollee if Physician Group had directly provided the services.

6.4.4 Physician Group and its Downstream Entities shall not charge Enrollees coinsurance, co-payments, deductibles, financial penalties, or any other amount in full or part, for any service provided under this Contract, except as otherwise permitted under this Contract.

6.4.5 Physician Group and its Downstream Entities shall not deny any service provided under this Contract to an Enrollee for Enrollee's (or any entity responsible for making payment on Enrollee's behalf) failure or inability to pay any applicable charge or shall not deny any service provided under this Contract to an Enrollee who, prior to becoming eligible, incurred a bill that has not been paid.

6.5 **Physician Group-Discovered Overpayments**. Physician Group shall disclose and return all overpayments to CalOptima within sixty (60) days of when Physician Group identified the overpayment or should have identified the overpayment through the exercise of reasonable diligence.

6.6 **Recoupment for Ineligibility; Conlan Reimbursements**. CalOptima shall recoup payments made to Physician Group when CMS has determined that an individual was not eligible for the MA Program and retroactively terminates the individual, including recouping any payments made for a deceased Enrollee. CalOptima may also recoup overpayments to Physician Group owed by Physician Group to Enrollees, including offsetting any such amounts owed against Physician Group's Capitation Payments or other amounts due from CalOptima to Physician Group under this Contract or any other agreement between the parties, if any. This Section 6.6 shall not be construed to limit CalOptima's right to recoup payment made to Physician Group on any other basis for which recoupment is appropriate.

6.7 **CalOptima Right to Recover**.

6.7.1 Overpayments. Physician Group acknowledges and agrees that, in the event that CalOptima determines that an amount has been overpaid or paid in duplicate, or that funds were paid which were not due under this Contract to Physician Group, CalOptima shall have the right to recover such amounts from Physician Group by recoupment or offset from current or future amounts due from CalOptima to Physician Group under this Contract or any other agreement between the parties, after giving Physician Group notice and an opportunity to return/pay such amounts.

6.7.2 Health Network Termination. In the event of termination of the Health Network or the transition of the Health Network to a different delegation model, CalOptima shall have the right to offset any unpaid claims that are the financial responsibility of Physician Group paid by CalOptima against any funds owed to Physician Group by CalOptima, including capitation payments, financial security withholds, pay-for-performance amounts, quality incentives, and shared risk pool surpluses.

6.7.3 Shared Risk Pool Payments Upon Termination. If this Contract terminates or expires for any reason and Physician Group is responsible for a deficit under any shared risk program under this Contract based on the final shared risk pool report results ("**Deficit**"), such Deficit shall be due to CalOptima as follows, as allowed by Laws: CalOptima may elect to recoup such Deficit by either (1) offsetting such Deficit amounts, upon notice to Physician Group, from any current or future amounts owed by CalOptima to Physician Group under the Contract or any other agreement between the Parties, including capitation payments, financial security withholds, pay-for-performance amounts, quality incentives, and shared risk pool surpluses; or (2) sending an invoice to Physician Group that payment for such Deficits are due to CalOptima within thirty (30) days of Physician Group's receipt of the CalOptima invoice.

6.7.4 Regulator Recoupment Upon Termination. If following the termination or expiration of this Contract, CalOptima's Regulators find that Physician Group (or its Downstream Entities) has failed to comply with the requirements governing physician incentive plans and CalOptima's Regulators offset, recoup and/or otherwise seek recovery of FFP, as described in Section 1.33, CalOptima may elect to recoup such FFP amounts, as allowed by Laws, by either: (1) offsetting such FFP amounts, upon notice to Physician Group, from any current or future amounts owed by CalOptima to Physician Group under the Contract or any other agreement between the Parties, including capitation payments, financial security withholds, pay-for-performance amounts, quality incentives, or shared risk pool surpluses; or (2) sending an invoice to Physician Group that

payment for such FFP amounts are due to CalOptima within thirty (30) days of Physician Group's receipt of the CalOptima invoice.

6.7.5 Dispute Resolution. Physician Group may use CalOptima's provider dispute resolution procedure, as described under CalOptima's Policies, and/or the dispute resolution procedures under this Contract to resolve any disputes related to the calculation or payment of such Deficits or FFP amounts.

6.7.6 Survival. This Section 6.7 shall survive the termination or expiration of the Contract.

6.8 **Retroactive Cancellation**. CalOptima will discourage retroactive cancellation of any Enrollee. However, CalOptima may make exceptions as required by CMS or due to legitimate administrative processing requirements of CMS. CalOptima may make retroactive additions or cancellations of Enrollees, as necessary for administrative or business reasons, and such retroactive additions or cancellations of Enrollees shall not exceed ninety (90) days.

VII. REPORTING REQUIREMENTS

7.1 **Data Reporting Requirements**. Physician Group shall comply with the data reporting requirements set forth in this Contract, including the requirements specified in Standard Reporting Requirements set forth in CalOptima Policies and guidelines (referred to as the Timely and Appropriate Submission requirements). Physician Group shall provide such additional data and modify the form, content, instructions, and timetables for the collection and reporting of data, as may be required by CalOptima Policies.

7.2 **Eligibility Reports**. CalOptima will maintain, update, and distribute monthly Enrollee eligibility reports for each month in which the persons included on such list are eligible for CalOptima MA Program. This report will identify the Physician Group, PCP selected by the Enrollee, and the Enrollee's coverage. The report will be sent to Physician Group and PCPs by the tenth (10th) of each month, identifying eligible Enrollees from the first (1st) of the month.

7.3 **Utilization Data**. Physician Group shall, upon request, provide CalOptima with information on the utilization and cost of Covered Services provided to Enrollees in such detail as to allow CalOptima to conduct analysis of costs as required by CMS, as dictated by sound business practices and for the conduct of quality management and UM activities by CalOptima. Such information to be provided by Physician Group will not include information beyond that customarily provided on a claim form (such as Form CMS-1500) and shall be provided in the form of a paper report, computer disc, computer tape, or electronic file, as agreed by the parties. Required data will be delivered by Physician Group to CalOptima not later than forty-five (45) days following written request by CalOptima.

7.4 **Submission of Electronic Encounter Data**. Physician Group must meet any claims, diagnosis, and Encounter Data reporting requirements, as determined from time to time by CalOptima and CalOptima's Regulators.

7.4.1 Physician Group agrees to furnish CalOptima with complete, timely, reasonable, and accurate Encounter Data for Covered Services rendered to Enrollees. The Encounter Data will be furnished to CalOptima through Electronic Data Interchange (EDI) or a mutually acceptable format and shall be received by CalOptima per the Policy and Encounter Requirements Manual. Physician Group also agrees to furnish Medical Records that may

be required to obtain any additional information or corroborate the Encounter Data. Physician Group further agrees to have its Chief Executive Officer (CEO) attest and certify the completeness and truthfulness of the Encounter Data submitted.

7.4.2 Physician Group shall be subject to financial penalties and/or sanctions if CalOptima determines that Physician is reporting to CalOptima less than all professional encounters in the CalOptima required format and timelines. Financial penalties or sanctions shall be assessed upon Physician Group should CalOptima determine that Physician Group is not meeting the standards defined in CalOptima Policies. This Section 7.4.2 shall survive the expiration or termination of this Contract, whether with or without cause, by rescission or otherwise, as to all Covered Services provided under this Contract prior to termination. Based on CalOptima's quarterly determinations and following thirty (30) days' prior notice to Physician Group, CalOptima may withhold three (3%) percent of Capitation Payment if CalOptima determines that the monthly Encounter Data that Physician Group must provide has not been received by CalOptima within the prior quarter. If at the quarterly determination following such withhold, CalOptima determines that Physician Group has satisfactorily delivered to CalOptima the previously non-delivered Encounter Data; such withheld Capitation Payment shall be paid to Physician Group, without interest. In the event that Physician Group does not deliver such Encounter Data to CalOptima prior to such quarterly determination, CalOptima shall be entitled to retain such withheld Capitation Payment and may withhold three (3%) percent from each quarter's Capitation Payment until CalOptima receives the Encounter Data.

7.5 **Disclosure of Provider Profiling**. Physician Group shall, upon request from CalOptima, provide. CalOptima with information regarding any "economic profiling" of Group Physician Groups by Physician Group in order to permit CalOptima to comply with the provisions of Section 1367.02 of the Knox-Keene Act. Further, to the extent that Physician Group utilizes "economic profiling" as defined in Section 1367.02, Physician Group shall provide copies of economic profiling information to Providers in accordance with the requirements of Section 1367.02.

7.6 **Financial Reporting**. Physician Group shall prepare financial information requested in accordance with Generally Accepted Accounting Principles ("**GAAP**"). Where financial statements and projections are requested by CalOptima and/or CalOptima's Regulators, these statements and projections should be prepared in accordance with the 1989 HMO Financial Report of Affairs and Conditions Format. Where appropriate, reference has been made to the Knox-Keene Act rules found under Title 28 CCR Section 1300.51 *et. seq*. Information submitted shall be based on Physician Group's current operations. Physician Group shall submit financial information consistent with filing requirements of the DMHC, unless otherwise specified by CMS.

7.7 **Financial Statements**. CalOptima, as a Knox-Keene Act health care service plan, is required by CalOptima's Regulators to monitor the financial viability of its contracted provider network on an on-going basis. Physician Group agrees to provide CalOptima annually with a copy of Physician Group's audited financial statements, including letters to management for the most recent fiscal year end along with an opinion letter on these statements from the accounting firm that completed an audit on these financial statements. Financial statements shall be presented in a form specified by CalOptima that clearly shows the financial position of Physician Group as related to Enrollees. Physician Group shall allow representatives of CalOptima, upon written request, to verify the financial reports. In the event audited statements are unavailable, Physician Group agrees to provide CalOptima with the unaudited financial statements at Physician Group's fiscal year end. The unaudited financial statements will include: balance sheets, income statement and statement of cash flows, notes to the financial statement, name of the person preparing these statements, and

representation letters from the senior financial executives of the Physician Group, attesting that these financial statements were prepared in accordance with GAAP and fairly present the financial condition of the Physician Group.

7.8 **Reports Regarding Disclosure of Confidential Enrollee Information**. If Physician Group, or any of its officers, employees, agents, or Downstream Entities, becomes aware of the unauthorized disclosure of confidential Enrollee information or of "personal information", within the meaning of California Civil Code Section 1798.3, Physician Group shall report said unauthorized disclosure to CalOptima's Privacy Officer immediately upon discovery of said disclosure, providing information on the information disclosed and how the disclosure occurred. For purposes of this section, "unauthorized disclosure" includes any unauthorized access, whether such access was through inadvertence, mistake, theft, or other means, and whether or not Physician Group had reasonable control to avoid the disclosure. Nothing herein is intended to limit or replace Physician Group's separate obligations under the Business Associate Agreement and Laws.

7.9 **Additional Information Required by CalOptima's Regulators**. Physician Group and Downstream Entities shall, at the request of CalOptima or CalOptima's Regulators, provide the following: (i) all information related to the performance of CalOptima's responsibilities, including non-medical information for the purposes of research and evaluation, to CalOptima's Regulators; (ii) any information required to comply with all Laws; and (iii) any information required for external rapid cycle evaluation, including program expenditures, service utilization rates, rebalancing from institutional to community settings, Enrollee satisfaction, Enrollee complaints and Appeals, and enrollment/disenrollment rates.

VIII. RECORD RETENTION, ACCESS AND CONFIDENTIALITY

8.1 **Disclosure of Records**. Physician Group and its Downstream Entities agree to maintain and make available contracts, books, documents, records, and electronic systems, including, Medical Records, (collectively, the "**Records**") to CalOptima, HHS, CMS, the Comptroller General, the U.S. Government Accountability Office, any Quality Improvement Organization, or accrediting organizations, including NCQA, their designees, and other representatives of regulatory or accrediting organizations, for inspection, evaluation, and auditing. For purposes of utilization management, quality improvement, and other CalOptima administrative purposes, CalOptima and CalOptima's Regulators shall have access to, and copies of, at reasonable time upon request, the Medical Records, books, charts, and papers relating to the provision of health care services to Enrollees, the cost of such services, and payments received by Physician Group or any of Group Physicians from Enrollees (or from others on their behalf). Copies of the Medical Record shall be provided at no charge to CalOptima. Unless a longer time is required under applicable law, the records described herein shall be maintained for at least ten (10) years from the final date of the Contract or from the completion of any audit, whichever is later.

8.2 **Medical Records**. Physician Group will require that all Group Physicians and Downstream Entities establish and maintain in an accurate and timely manner, for each Enrollee who has obtained Covered Services from a Group Provider or Downstream Entity, a legible Medical Record which shall be kept in detail consistent with good medical and professional practice in accordance with Laws and CalOptima Policies. Such Medical Records shall include a historical record of diagnostic and therapeutic services recommended or provided by, or under the direction of, the Provider. Such Medical Records shall be in such a form as to allow trained health professionals, other than the Provider, to readily determine the nature and extent of the Enrollee's medical problem and the services provided and permit peer review of the care provided. Physician Group shall ensure that medical information is released in accordance with applicable Laws, or pursuant to valid court

orders or subpoenas, subject to compliance with applicable privacy laws. Physician Group shall ensure than an individual is delegated the responsibility of securing and maintaining Medical Records at each Physician Group or Downstream Entity site.

8.3 **Right to Inspection**. Medical Records referred to in Section 8.2 above will be and remain the property of Physician Group or Group Physicians and will not be removed or transferred from their offices except in accordance with Laws. CalOptima or its designated representatives will have the right, in accordance with this Article 8, to inspect, review, and make copies of such records at Physician Group's expense upon request to facilitate CalOptima's obligation to conduct quality management, utilization monitoring, and peer review activities.

8.4 **Records Related to Recovery for Litigation**. Upon request by CalOptima, Physician Group and its Downstream Entities shall timely gather, preserve, and provide to CalOptima, in the form and manner specified by CalOptima, any information specified by CalOptima, subject to any lawful privileges, in Physician Group's or its Downstream Entities' possession, relating to threatened or pending litigation by or against CalOptima, HHS, and CMS. If Physician Group asserts that any requested documents are covered by a privilege, Physician Group shall: (1) identify such privileged documents with sufficient particularity to reasonably identify the document while retaining the privilege; and (2) state the privilege being claimed that supports withholding production of the document. Such request shall include a response to a request for documents submitted by any party in any litigation by or against CalOptima. Physician Group acknowledges that time may be of the essence in responding to such request. Physician Group shall use all reasonable efforts to immediately notify CalOptima of any subpoenas, document production requests, or requests for records received by Physician Group or its Downstream Entities related to this Contract or subcontracts entered into under this Contract.

8.5 **State and Federal Site Visits**. Physician Group agrees to permit CalOptima, the DMHC, HHS, and/or CMS to conduct a site evaluation of Physician Group and its facilities in accordance with Laws and to comply with the agencies' recommendations, if any.

8.6 **Enrollee Access to Records**. Physician Group (including Physician Group Providers) and its Downstream Entities shall ensure that Enrollees have access to their Medical Records in accordance with the requirements of Laws. An Enrollee shall be provided a copy of his or her Medical Records, upon request, and shall have the right to request corrections or amendments to their Medical Records as specified in 45 CFR Part 164. Physician Group and Downstream Entities shall furnish a copy of the Enrollee's Medical Records to another treating or consulting Provider regardless of whether the requesting Provider is a Participating Provider, at no cost to CalOptima or the Enrollee when (i) such a transfer of Medical Records facilitates the continuity of that Enrollee's care; (ii) the Enrollee is transferring from one Provider to another for treatment; and (iii) an Enrollee seeks to obtain a second opinion on the diagnosis or treatment of a medical condition.

IX. INSURANCE AND LIABILITY

9.1 **Indemnification**. Each Party agrees to defend, indemnify, and the other Party and the State and CMS harmless, with respect to any and all claims, costs, damages, and expenses, including reasonable attorney's fees, that are related to or arise out of the negligent or willful performance or non-performance by the indemnifying Party, or any functions, duties, or obligations of such Party. Neither termination of the Contract nor completion of the acts to be performed under this Contract shall release either Party from its obligation to indemnify as to any claims or cause of action asserted so long as the event(s) upon which such claims or cause of action is predicated shall have occurred prior to the effective date of termination or completion. CalOptima and Physician Group

agree to promptly notify the other Party of any claims or demands that arise and for which indemnification hereunder is sought.

9.2 **Insurance Requirements**.

9.2.1 **Physician Group and Downstream Entity Insurance**. Physician Group agrees to procure and maintain, at its own expense, the insurance policies required by this Section 9.2 and Laws and shall require its Downstream Entities to maintain similar policies of insurance where Physician Group's insurance does not cover its Downstream Entities.

9.2.2 **Professional/Medical Malpractice**. Each Group Physician and Participating Provider providing Covered Services to Enrollees shall maintain a professional liability (medical malpractice) insurance policy for the specialty or type of service that the Group Physician provides with minimum limits of one million dollars ($1,000,000) per incident and three million dollars ($3,000,000) in the aggregate per year.

9.2.3 **Commercial General Liability**. Physician Group and each Participating Provider who has entered into a contract with Physician Group to provide Covered Services under this Contract shall maintain a Commercial General Liability insurance policy with minimum limits of one million dollars ($1,000,000) per occurrence and three million dollars ($3,000,000) in the aggregate. CalOptima must be named as an additional insured on Comprehensive General Liability insurance policy with respect to performance under this Contract.

9.2.4 **Workers' Compensation**. Group Physician and each Participating Provider who has entered into a contract with Physician Group to provide Covered Services under this Contract shall maintain a Workers' Compensation Insurance policy with minimum limits as follows:

- Employers' Liability Insurance:
  - One million dollars ($1,000,000) Bodily Injury by Accident - each accident.
  - One million dollars ($1,000,000) Bodily Injury by Disease - policy limit
  - One million dollars ($1,000,000) Bodily Injury by Disease - each employee

9.2.5 **Managed Care Errors and Omissions**. Physician shall maintain a Managed Care Errors and Omissions Insurance policy with minimum limits as follows:

- Managed Care Errors and Omissions: Ten million dollars ($10,000,000) each claim/ten million dollars ($10,000,000) aggregate

9.2.6 **Electronic and Computer Crimes Insurance**. Physician Group and its Downstream Entities shall maintain electronic and computer crimes insurance and employee fidelity insurance with limits of at least one million dollars ($1,000,000) if Physician Group and/or its Downstream Entities will be paying claims or receiving funds on behalf of CalOptima, or will be storing, transmitting, and/or receiving personally identifiable and/or protected health information on a regular basis in carrying out its obligations under this Contract..

9.2.7 **Insurer Ratings**. Insurance required under this Article IX shall be provided by an insurer:

(a) Rated by A.M. Best with a rating of A V or better; and

(b) "Admitted" to do business in California or an insurer approved to do business in California by the California Department of Insurance and listed on the Surplus Lines Association of California List of Eligible Surplus Lines Insurers (LESLI); or

(c) An Unincorporated Interindemnity Trust Arrangement as authorized by the California Insurance Code 12180.7

9.2.8 **Captive Risk Retention Group/Self Insured**. Where any of the insurance(s) mentioned in this Article IX is provided by a captive risk retention group or self-insured, insurer ratings requirements above may be waived at the sole discretion of CalOptima, but only after review of the captive risk retention group's or self-insured's audited financial statements.

9.2.9 **Cancellation or Material Change**. Physician Group shall not of its own initiative cause such insurance as addressed in this Article IX to be cancelled or materially changed during the Term.

9.2.10 **Proof of Insurance**. Certificates of Insurance of the insurance policies and/or evidence of self-insurance required under this Article IX shall be provided to CalOptima prior to Effective Date, annually thereafter, and upon request.

X. COOPERATION

10.1 **Non-Interference**. Physician Group and Downstream Entities may not prohibit of otherwise restrict a health care professional, acting within the lawful scope of practice, from freely communicating with Enrollees about their treatment and the following, regardless of benefit coverage limitations:

10.1.1 The Enrollee's health status, medical care, or treatment options (including any alternative treatments that may be self-administered), including the provision of sufficient information to provide an opportunity for the Enrollee to decide among all relevant treatment options;

10.1.2 The risks, benefits, and consequences of treatment or non-treatment; or

10.1.3 The opportunity for the Enrollee to refuse treatment and to express preferences about future treatment decisions.

10.2 **No Counseling to Dis-enroll**. Physician Group and Group Physicians agree that they will not, during the Term, provide advice to or counsel any Enrollee to dis-enroll from CalOptima, and Physician Group and Group Physicians will not solicit such Enrollee to become enrolled with any other health maintenance organization, preferred provider organization, or any other similar hospitalization, medical payment plan or insurance program.

10.3 **Cooperation**. CalOptima and Physician Group agree that, to the extent compatible with the separate and independent management of each, they will at all times maintain an effective liaison and close cooperation with each other to provide maximum benefits to Enrollees at the most reasonable cost, consistent with quality standards of hospital and physician care.

10.4 **Signs**. Physician Group agrees that CalOptima may post notices, mutually acceptable as to size, content and form in a prominent place instructing Enrollees as to proper procedures and limitations on coverage.

10.5 **Free Exchange of Information**. No provision of this Contract shall be construed to prohibit, nor shall any provision in any contract between Physician Group and its employees or Downstream Entities, prohibit, the free, open, and unrestricted exchange of any and all information of any kind between Providers and Enrollees regarding the nature of the Enrollee's medical condition, the health care treatment options and alternatives available and their relative risks and benefits, whether or not covered or excluded under the Enrollee's Evidence of Coverage, and the Enrollee's right to appeal any adverse decision made by Physician Group or CalOptima regarding coverage of treatment which has been recommended or rendered. Physician Group and CalOptima agree not to penalize nor sanction any Provider in any way for engaging in such free, open, and unrestricted communication with an Enrollee nor for advocating for a particular service on an Enrollee's behalf.

XI. TERM AND TERMINATION

11.1 **Term of Contract**. The term of this Contract shall become effective on the Effective Date and continue in effect for five (5) years through _____ ("Initial Term") and five (5) additional one-year automatic extensions except as directed otherwise by the Board.

11.2 **Sanctions and Terminations for Cause**. If Physician Group fails to fulfill any of its duties and obligations under this Contract, including: (i) committing acts to discriminate against Enrollees; (ii) engaging in any practice that would reasonably be expected to have the effect of denying or discouraging enrollment with the Physician Group by Enrollees whose medical condition or history indicated a need for substantial future medical services; (iii) not providing Covered Services in the scope or manner required under this Contract; (iv) engaging in prohibited marketing activities; (v) failing to comply with CalOptima's compliance and fraud, waste and abuse programs; (vi) failing to meet financial requirements in Article II; (vii) committing fraud, waste or abuse relating to Covered Services or any and all obligations, duties, and responsibilities under this Contract; (viii) failure to enforce claims payment prohibitions on Group Physicians who are denied the right to submit claims and/or receive reimbursement for services furnished to Enrollees; (ix) failure of Group Physicians to comply with pharmacy requirements as determined by CalOptima; (x) failure to submit Encounter Data or comply with other reporting requirements pursuant to this Contract and CalOptima Policies; and/or (xi) failure to take corrective action related to any such obligation or duty in the time or manner required by CalOptima, CalOptima may take any one or more of the actions described in this Article XI.

11.3 **Corrective Action Plans**. CalOptima may require a Corrective Action Plan ("**CAP**") in the event that any report, audit, survey, site review or investigation indicates that the Physician Group or any Downstream Entity is not in compliance with any provision of this Contract.

11.3.1 A CAP shall be required if CalOptima receives a substantiated complaint or grievance related to the standard of care provided by the Physician Group or any Downstream Entities. CalOptima shall issue a written notice of deficiency and shall require that a CAP to be submitted within thirty (30) calendar days following the date of notice unless otherwise stated. The CAP shall include the time and manner in which the deficiency shall be corrected. CAPs are subject to approval by CalOptima, which may be approved as submitted, accepted with specific modifications, or rejected. CalOptima may extend or reduce the time allowed for completion of the CAP depending upon the nature of the deficiency.

11.3.2 Notwithstanding any request for a CAP, CalOptima may impose monetary penalties, suspend enrollment, reduce maximum enrollment, or impose other sanctions when the Physician Group is not in compliance with the provisions of this Contract, CalOptima Policies, and minimum performance requirements as established by CalOptima. All monetary fines are payable to CalOptima within thirty (30) calendar days of receipt of written notice, unless otherwise stated in the notice. Failure to submit payment to CalOptima for any monetary fines within the thirty (30) calendar day period shall result in CalOptima deducting the penalty plus administrative fees from the Physician Group's Capitation Payment.

11.3.3 CalOptima may apply sanctions pursuant to this Contract and CalOptima Policies to all PHC Participants independent of the PHC Participant whose action(s) caused sanctions to be applied by CalOptima.

11.4 **CalOptima Termination for Cause**. Notwithstanding and in addition to any other provisions of this Contract, CalOptima may terminate this Contract for cause effective upon thirty (30) calendar days' written notice; cause shall include, but shall not be limited to, the actions set forth in Section 11.2. CalOptima's rights and remedies provided in this provision shall not be exclusive and are in addition to any other rights and remedies provided by law or this Contract.

11.5 **Physician Group Termination for Cause**. Physician Group may terminate this Contract for cause only upon thirty (30) calendar days' written notice and only in the event that CalOptima fails to make payments due under this Contract within fifteen (15) calendar days of when such amounts are due and payable.

11.6 **Immediate Terminations**. In addition to all other sanction and termination rights, CalOptima may terminate Contract immediately upon delivery of written notice to Physician Group if:

11.6.1 Physician Group (including Group Physicians) and/or its Downstream Entities are unable to secure the necessary governmental licenses, approvals, and/or certificates required for the performance of their duties;

11.6.2 CalOptima determines that the health, safety, or welfare of Enrollees is jeopardized by continuation of this Contract;

11.6.3 Physician Group commits fraud, waste, or abuse; or

11.6.4 CMS fails to authorize or reauthorize CalOptima to operate a MA Program for a period that overlaps the Term.

11.6.5 This Contract shall terminate upon the termination of the Hospital Contract. Notification of termination to any PHC Participant shall constitute notification of termination to all PHC Participants.

11.7 **Without Cause Termination**. Following the Initial Term, either Party may terminate this Contract for convenience, without cause, by giving written notice to the other Party of at least one hundred and eighty (180) calendar days' prior to the effective date of such termination.

11.8 **Bankruptcy**. If during the Term there is filed by or against Physician Group in any court pursuant to any statute of the United States or any state, a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver or trustee or conservator of all or a portion of

Physician Group's assets, or if Physician Group makes an assignment for the benefit of creditors, or if Physician Group becomes unable, admits in writing its inability, or fails generally to pay its debts as they become due, this Contract may, at the option of CalOptima, be canceled and terminated. In the event of the filing of a petition for bankruptcy by or against Physician Group, Physician Group shall assure that all of Physician Group's functions and duties related to the Contract are performed in accordance with the terms of the Contract. CalOptima shall have the right to withhold any and all amounts otherwise due to Physician Group until Physician Group fully discharges its obligations under the Contract. CalOptima shall also have the immediate right of offset by permanently retaining any and all withheld amounts as necessary to ensure that all Physician Group obligations have been met.

11.9 **Termination of CMS Contract.** In the event the CMS Contract with CalOptima is terminated or not renewed, the provisions of this Contract shall automatically terminate unless otherwise specified by CalOptima and subject to any provisions that survive termination. Any term provided in the Contract is subject to CMS's continuing approval of CalOptima's MA Program. Physician Group agrees to assist CalOptima with such transfer of care requirements mandated by CMS in the event of termination of the CMS Contract.

11.10 **Continuation of Benefits**. Physician Group and its Participating Providers agree that, in the event of CalOptima's insolvency or cessation of operations, benefits to Enrollees will continue through the period for which capitation has been paid or until the discharge of Enrollee from an inpatient facility, whichever time is greater. Covered Services to an Enrollee confined in an inpatient facility on the date of insolvency or other cessation of operations will continue until their appropriate discharge.

11.11 **Physician Group Obligations Following Termination**. In the event of termination of this Contract, at CalOptima's sole option, Physician Group will continue to provide Covered Services, and CalOptima shall reimburse for such services per the Medicare fee schedule, to Enrollees until CalOptima has made arrangements with alternative Providers to render care to Enrollees. Physician Group shall cooperate and assist CalOptima in the transfer of Enrollee care in the event this Contract or any relevant Downstream Entity subcontract is terminated for any reason. Physician Group shall provide a plan for the orderly termination of services under this Contract, in form and substance acceptable to CalOptima.

11.12 **Prohibition on Use of Certain Group Physicians**. Physician Group agrees that CalOptima reserves the right to require Physician Group, upon notification from CalOptima, to prohibit any Group Physician or Downstream Entity from providing services, whether Covered Services or otherwise, to Enrollees when CalOptima deems such prohibition to be in the best interests of the Enrollees, provided that imposition of the foregoing prohibition shall not terminate this Contract.

11.13 **PHC Primary Hospital Usage Requirement**. In order to qualify as a PHC, PHC Participants must ensure that, during every annual contract year period during the Term, at least seventy percent (70%) of the bed days for those Enrollees assigned to the PHC who require inpatient hospitalization during the previous calendar year must have occurred at Hospital or within the same hospital system as Hospital, except as otherwise provided under CalOptima Policies. For purposes of calculating the bed day percentage, only bed days in Orange County hospitals shall count. Failure to meet this requirement shall be cause for termination by CalOptima under Section 11.4 of this Contract. In the event of termination as a result of breaching this Section 11.13, Physician Group shall be offered the opportunity to continue be a Participating Provider through a separate risk-sharing arrangement with CalOptima, subject to meeting all applicable financial, operational, and other criteria for such an arrangement. Termination of Hospital under the

equivalent of this section in the Hospital Contract shall have no effect on any fee-for-service contract between CalOptima and Hospital.

XII. GENERAL PROVISIONS

12.1 **Dispute Resolution**.

12.1.1 **Provider Appeals Process**. CalOptima maintains a Provider dispute resolution process. Physician Group may appeal any aspect of the CalOptima MA Program, including a decision to impose a sanction, terminate this Contract, or take other actions against Physician Group, by filing a complaint pursuant to CalOptima Policies. Physician Group shall exhaust all administrative remedies and any government claims requirements, as applicable, before commencing arbitration.

12.1.2 **Meet and Confer**. For any dispute not subject to or resolved by the provider appeals process, or if either Party has a dispute it seeks to address informally, the Parties shall use reasonable efforts to informally meet and confer to try and resolve the dispute. The Parties shall meet and confer within thirty (30) days of a written request submitted by either Party in an effort to settle any dispute. At each meet-and-confer meeting, each Party shall be represented by persons with final authority to settle the dispute. If either Party fails to meet within the thirty (30)-day period, that Party shall be deemed to have waived the meet-and-confer requirement, and at the other Party's option, the dispute may proceed immediately to arbitration under Section 12.1.3.

12.1.3 **Arbitration**. If the Parties are unable to resolve any dispute arising out of or relating to this Contract under Sections 12.1.1 and 12.1.2, either Party may submit the dispute for resolution exclusively through confidential, binding arbitration, instead of through trial by court or jury, in Orange County, California. The Parties may agree in writing prior to commencing the arbitration on the dispute resolution rules and arbitration service that will be used to resolve the dispute. If the Parties cannot reach such an agreement, the arbitration will be conducted by Judicial Arbitration and Mediation Services ("**JAMS**") in accordance with the commercial dispute rules then in effect for JAMS; provided, however, that this Contract shall control in instances where it conflicts with JAMS's (or the applicable arbitration service's) rules. The arbitration shall be conducted on an expedited basis by a single arbitrator. The Parties prefer that the arbitrator be a retired judge of the California Superior, Appellate, or Supreme Court or of a United States court sitting in California. If no such retired judge is available, the arbitrator may be an attorney with at least fifteen (15) years of experience, including at least five (5) years in managed health care. If the Parties are unable to agree on the arbitrator within thirty (30) days of the date that the arbitration service accepts the arbitration, the arbitrator shall be selected by the arbitration service from a list of four potential arbitrators (all of whom shall be on arbitration services' panel of arbitrators) submitted by the Parties, two from each side; provided, however, that nothing stated in this section shall prevent a Party from disqualifying an arbitrator based on a conflict of interest. In making decisions about discovery and case management, it is the Parties' express agreement and intent that the arbitrator at all times promote efficiency without denying either Party the ability to present relevant evidence. In reaching and issuing decisions, the arbitrator shall have no jurisdiction to make errors of law and/or legal reasoning. The Parties shall share the costs of arbitration equally, and each Party shall bear its own attorneys' fees and costs.

12.1.4 **Exclusive Remedy**. With the exception of any dispute that under Laws may not be settled through arbitration, arbitration under Section 12.1.3 is the exclusive method to resolve a dispute between the Parties arising out of or relating to this Contract that is not resolved through the provider appeals or meet-and-confer processes.

12.1.5 **Waiver**. By agreeing to binding arbitration as set forth in Section 12.1.3, the Parties acknowledge that they are waiving certain substantial rights and protections which otherwise may be available if a dispute between them was determined by litigation in a court, including the right to a jury trial, attorneys' fees, and certain rights of appeal.

12.2 **Interpretation of Contract Language**. CalOptima has the right to final interpretation of the Contract language when disputes arise. Physician Group has the right to appeal disputes concerning Contract language to CalOptima.

12.3 **Waiver**. The waiver by either Party of a breach or violation of any provision of this Contract will not operate as or be construed to be a waiver of any subsequent breach thereof. To be effective, a waiver must in writing signed by the Parties.

12.4 **Assignment**. This Contract and the rights, interests, duties, and obligations hereunder shall not be assigned, transferred, pledged, or hypothecated in any way by Physician Group nor shall the duties and obligations imposed herein be subcontracted or delegated without the prior written consent of CalOptima, which consent may be withheld in CalOptima's sole and absolute discretion for any reason or no reason. Physician Group acknowledges and agrees that CalOptima's consent, if any, to assignment and/or delegation is subject to the approval of CMS. Therefore, any assignment and/or delegation of this Contract, including the rights, interests, duties, and obligations hereunder, shall be void unless prior written consent is obtained from CalOptima and CMS. Physician Group further acknowledges and agrees that CalOptima may require Physician Group and the proposed assignee/sub-delegate to cooperate in due diligence and sub-delegation assessment activities as part of its review of any request for consent to assignment of this Contract and the rights, interests, duties, and obligations hereunder. Physician Group agrees to cooperate and provide such information as requested by CalOptima. Physician Group acknowledges and agrees that (i) CalOptima's due diligence and/or assessment activities related to any proposed assignment may take one hundred eighty (180) days or more; (ii) in no event shall CalOptima's due diligence and/or delegation assessment activities be construed as CalOptima's consent to assignment; and (iii) any consent to assignment by CalOptima must be reflected in a separate writing executed by CalOptima and other relevant parties. CalOptima may, from time to time, establish policies and procedures regarding its processes for initiating review and approval of any proposed assignment of this Contract. For purposes hereof, the term "assignment" shall include any of the following: (i) the change of more than twenty-five percent (25%) of the ownership or equity interest in Physician Group (whether in a single transaction or in a series of transactions); (ii) the change of more than twenty-five percent (25%) of the directors or trustees of Physician Group; (iii) the merger, reorganization, or consolidation of Physician Group with another entity with respect to which Physician is not the surviving entity; and/or (iv) a change in the management of Physician Group from management by persons appointed, elected, or otherwise selected by the governing body of Physician Group (e.g., the Board of Directors) to a third-party management person, company, group, team or other entity.

12.5 **Independent Parties**. None of the provisions of this Contract are intended to create nor will be deemed or construed to create any relationship between the Parties other than that of independent contractors, solely for the purposes of effecting the provisions of the Contract. Neither of the

Parties nor any of their respective officers, directors, or employees shall act as nor be construed to be the agent, the employee, or the representative of the other Party.

12.6 **Integration of Entire Contract**. This Contract contains all of the terms and conditions agreed upon by the Parties regarding the subject matter of this Contract. Any prior agreements, promises, negotiations or representations of or between the Parties, either oral or written, relating to the subject matter of this Contract that are not expressly set forth in this Contract are null and void and of no further force or effect.

12.7 **Invalidity or Unenforceability**. The invalidity or unenforceability of any terms or provisions hereof will in no way affect the validity or enforceability of any other term or provision.

12.8 **Amendment**. CalOptima may amend this Contract immediately upon written notice to Physician Group in the event such amendment is required in order to maintain compliance with Laws. CalOptima may deem all other amendments to the Contract effective after at least forty-five (45) business days' notice or earlier if agreed to by Physician Group. All amendments of this Contract are subject to CMS approval.

12.9 **No Waiver of Immunity or Privilege**. Any information delivered, exchanged, or otherwise provided hereunder shall be delivered, exchanged, or otherwise provided in a manner, which does not constitute a waiver of immunity or privilege under applicable law.

12.10 **Choice of Law; Jurisdiction and Venue**. This Contract shall be governed by and construed in accordance with all State and federal laws and regulations governing the CMS Contract. The Parties consent to the jurisdiction of the California Courts with venue in Orange County California.

12.11 **Force Majeure**. Either Party, upon prompt written notice to the other Party, shall be excused from performance hereunder for any period that it is prevented from meeting the terms of this Contract as a result of a catastrophic occurrence or natural disaster, including, but not limited to, an act of war and excluding labor disputes ("**Force Majeure Event**");

12.12 **No Liability of County of Orange**. As required under Ordinance No. 3896, as amended, of the County of Orange, State of California, CalOptima and the Physician Group hereby acknowledge and agree that the obligations of CalOptima under this Contract are solely the obligations of CalOptima, and the County of Orange, State of California, shall have no obligation or liability therefor.

12.13 **Confidential and Proprietary Information**. Physician Group agrees to maintain confidential the following information (the "**Confidential Information**"): (a) eligibility lists and any other information containing the names, addresses and telephone numbers of CalOptima Enrollees; (b) CalOptima's administrative service manuals and all forms related thereto; (c) the financial arrangements between CalOptima and any Participating Provider; and (d) any other information compiled or created by CalOptima that is proprietary to CalOptima and that CalOptima identifies as proprietary to Physician Group in writing. Physician Group shall not disclose or use the Confidential Information for its own benefit or gain either during the Term or after the date of termination of this Contract. Physician Group may use the Confidential Information to the extent necessary to perform its duties under this Contract or upon express prior written permission of CalOptima. Upon the effective date of termination of this Contract, Physician Group shall promptly return to CalOptima the Confidential Information in its possession, upon CalOptima's notice.

12.14 **Third Party Beneficiaries**. Nothing in this Contract, express or implied, is intended to or shall confer upon any other person or entity, any right, benefit or remedy of any nature whatsoever.

12.15 **Survival**. The terms set forth in the following sections shall survive the expiration or termination of this Contract, whether with or without cause, by rescission or otherwise, as to all Covered Services provided under this Contract prior to termination: Sections 6.2, 6.5, 7.8, Article 8, 9.1, 11.10, 11.11, 12.1, 12.2, 12.3, 12.5, 12.6, 12.7, 12.9, 12.10, 12.12, 12.13, 12.14, and any other sections that, by their terms, are intended to survive termination of the Contract.

12.16 **Recitals and Exhibits**. The recitals, exhibits, and addenda set forth in this Contract are made a part of the Contract by this reference.

12.17 **Without Limitation**. Any reference in the Contract to "include(s)" or "including" means inclusion without limitation, unless otherwise distinguished within the text.

12.18 **Notices**. All notices shall be in writing and shall be deemed to have been duly given on the date of service if personally served on the Party to whom notice is given, or seventy-two (72) hours after mailing by electronic mail transmission, United States priority mail, United States mail first class (Certified Mail or Registered Mail), addressed to the Party to whom notice is to be given and such party's address as set forth below or such other address provided by notice.

XIII. CONDITIONS PRECEDENT TO CONTRACT COMMENCEMENT

13.1 **Contract Effectiveness**. The Contract is subject to CalOptima's determination, in its sole discretion, that the following conditions have been met prior to the Effective Date: (i) Physician Group has successfully met all criteria in CalOptima's readiness assessment, including financial viability and delegated function criteria; Physician Group has signed CalOptima's Business Associate Agreement; and (iii) Physician Group has furnished all required documentation and data requested by CalOptima (e.g., insurance documents, licenses).

13.2 **Additional CalOptima Regulator Requirements**. CalOptima, in its sole discretion, may condition this Contract upon Physician Group's ability to meet other criteria imposed by CalOptima Regulators.

XIV. SIGNATURES

SUBJECT TO (I) THE UNITED STATES GOVERNMENT PROVIDING FUNDS FOR THE TERM OF THIS CONTRACT AND FOR THE PURPOSES WITH RESPECT TO WHICH IT IS ENTERED INTO; AND (II) THE APPROVAL OF THIS CONTRACT BY DMHC AND CMS, THIS

CONTRACT SHALL BECOME EFFECTIVE ON THE EFFECTIVE DATE AND SHALL TERMINATE ON AS PROVIDED IN THIS CONTRACT.

IN WITNESS WHEREOF, CalOptima and Physician Group have executed this Contract as indicated below.

ADDENDUM 1

Entities Comprising the PHC

ATTACHMENT A
DEFINITIONS

1. "**Administrative Services**" means those non-clinical, administrative functions that are the responsibility of the Physician Group as set forth under the Contract and in CalOptima Policies.

2. "**Advance Directive**" means an individual's written directive or instruction, such as a power of attorney for health care or a living will, recognized under state law (whether statutory or as recognized by the courts of the state) for the provision of that individual's health care if the individual is unable to make his or her health care wishes known.

3. "**Appeals**" means an Enrollee's actions, both internal and external to CalOptima, requesting review of the denial, reduction, or termination of benefits or services from CalOptima.

4. "**Authorization/Authorized**" means the approval of CalOptima, or its delegate (which may include Physician Group), for the provision or referral of Covered Services, obtained in accordance with, and as further described in, the Provider Manual and this Contract.

5. "**Behavioral Health**" means the mental health services and substance use disorder services arranged for or provided to Enrollees by a separate Mental Health Plan, CalOptima, or their subcontractors.

6. "**CalOptima Formulary**" means the CalOptima Approved Drug List, the Disposable Medical Equipment/Supplies List, the CalOptima OneCare Formulary, and any additional formularies as may be designated by CalOptima and provided to CalOptima's designated pharmacy benefits manager "PBM". There is no applicable CalOptima Formulary for the PACE program.

7. "**CalOptima Policies**" means CalOptima policies and procedures, including CalOptima's Provider Manual, that are amended from time to time at the sole discretion of CalOptima and incorporated into this Agreement by this reference.

8. "**CalOptima's Regulators**" means those government agencies that regulate and oversee CalOptima's and its FDRs' activities and obligations under this Contract including the Department of Health and Human Services, CMS, and the DMHC and other government agencies that have authority to set standards and oversee the performance of the parties to this Contract, as well as their respective agents and contractors quality improvement organizations.

9. "**Capitation Payment**" means the monthly payment paid to Physician Group by CalOptima for delivery for Covered Services to Enrollees, which is determined by multiplying the applicable Capitation Rate by Physician Group's monthly enrollment.

10. "**Capitation Rate**" means the rate set by CalOptima for the delivery of Covered Services to an Enrollee.

11. "**Care Coordinator**" means a clinician or other trained individual employed by or contracted with Physician Group who is accountable for providing care coordination services for Enrollees, as required by CalOptima Policies and who services on one or more ICTs.

12. "**C.C.R.**" means the California Code of Regulations.

13. "**C.F.R.**" means the Code of Federal Regulations.

14. "**CMS**" means the Center for Medicare & Medicaid Services.

15. "**CMS Contract**" means the agreement between CMS and CalOptima under which CalOptima can establish its MA Program for Enrollees.

16. "**COB**" refers to the coordination of benefits and determination of order of financial responsibility that applies when two or more health benefit plans provide coverage of items and services for an individual.

17. "**Compliance Program**" means the program (including the compliance manual, code of conduct and CalOptima Policies) developed and adopted by CalOptima to promote, monitor, and ensure that CalOptima's operations and practices and the practices of its Board members, employees, contractors, and Providers comply with applicable law and ethical standards. The Compliance Program includes CalOptima's Fraud, Waste and Abuse ("FWA") plan.

18. "**Covered Services**" means those health care items, drugs, and services that an Enrollee is entitled to receive pursuant to a Program applicable to that Enrollee. Covered Services must generally be referred and Authorized in confirming with CalOptima's Policies, including its utilization management program."

19. "**Delegation**" means the process by which CalOptima expressly grants, by formal written agreement to another entity, the authority to carry out a function that would otherwise be required to be performed by CalOptima in order to meet its obligations under the CMS Contract.

20. "**Delegation Agreement**" means the formal written agreement by which CalOptima grants to another entity the authority to carry out a function that would otherwise be required to be performed by CalOptima to meet its obligations under the CMS Contract.

21. "**Delegation Criteria**" means those criteria adopted by CalOptima, for the delegation of activities in the areas of UM, medical records audits, the Office Site Review, 'Enrollee's rights and responsibilities, and credentialing, as set forth in CalOptima Policies.

22. "**DMHC**" means the California Department of Managed Health Care.

23. "**Downstream Entity**" means all Providers and other persons or entities with which Physician Group has entered into a written subcontract (acceptable to CMS) to perform administrative functions and/or health care services to satisfy Physician Group's obligations to CalOptima under this Contract, continuing down to the ultimate provider of services. The term "Physician Group" as used in the terms of this Contract shall also include its subcontractors when such subcontractors are Downstream Entities, even if not expressly referenced in the particular provision.

24. "**Emergency Medical Condition**" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: (i) placing the health of the individual (or with respect to a pregnant woman, the health of the woman and her unborn child) in serious jeopardy; or (ii) serious impairment to bodily functions; or (iii) serious dysfunction of any bodily organ or part.

25. "**Emergency Services**" means those covered inpatient and outpatient services that are (i) furnished by a Provider qualified to furnish Emergency Services; and (ii) needed to evaluate and/or stabilize an Enrollee's Emergency Medical Condition.

26. "**Encounter Data**" means the record of an Enrollee receiving any item(s) or service(s) provided through Medicaid or Medicare under a prepaid, capitated, or any other risk basis payment methodology submitted to CMS. The encounter data record shall incorporate HIPAA security, privacy, and transaction standards and be submitted in ASCX12N 837 or any successor format required by CalOptima's Regulators.

27. "**Enrollee**" means an eligible individual who is enrolled in the CalOptima MA Program.

28. "**Evidence of Coverage**" means the document approved by CalOptima's Regulators and issued by CalOptima to Enrollees that describes Enrollee's benefits under the CalOptima MA Program.

29. "**FDR**" means a party that enters into a written agreement (acceptable to CMS) to provide administrative or health care services to CalOptima and/or its Enrollees that are governed by the CMS Contract.

30. "**FQHC**" means an entity that meets all of the requirements for designation as a federally qualified health center under § 1861(aa)(3) of the Social Security Act and is approved for participation in the MA program.

31. "**Grievance**" means an oral or written expression of dissatisfaction, including any compliant, dispute, request for reconsideration, or appeal, made by an Enrollee.

32. "**Group Physician**" means a Physician who is employed by or under contract with Physician Group to provide physician services.

33. "**Health Network**" means Physician Group, a PHC, or health care service plan (such as an HMO) that is contracted with CalOptima to provide items and services to Enrollees on a capitated basis.

34. "**HEDIS**" means the set of standardized performance measures sponsored and maintained by the NCQA.

35. "**HRA**" means the health risk assessment tool that identifies an Enrollee's primary, acute, LTSS, Behavioral Health, and functional needs.

36. "**HIPAA**" means the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005, and regulations promulgated thereunder by the U.S. Department of Health and Human Services, including Title 45 of the C.F.R, Parts 160 and 164.

37. "**ICP**" means the plan of care developed by an Enrollee and/or his/her ICT or CalOptima.

38. "**Indian Enrollee**" means an Enrollee who is an Indian (as defined in the Indian Health Care Improvement Act of 1976 [25 U.S.C. §§ 1603(13), 1603 (13 and 23), or 1679(a)] or who has been determined as an Indian under 42 C.F.R. § 136.12.

39. "**Indian Health Care Provider**" means a health care program operated by the Indian Health Services or by an Indian Tribe, Tribal Organization, or Urban Indian Organization, as those terms are defined in Section 4 of the Indian Health Care Improvement Act (25 U.S.C. § 1603).

40. "**ICT**" means an interdisciplinary care team comprised of the primary care provider and Care Coordinator and other Providers at the discretion of the Enrollee that work with the Enrollee to develop, implement, and maintain the ICP.

41. "**Laws**" means any local, State, or federal statute, regulation, rule, or executive or agency order applicable to this Contract.

42. "**LTSS**" means the range of long-term services and supports that help Enrollees meet their daily needs for assistance and improve the quality of their lives and which include: (i) In-Home Supportive Services ("IHSS"); (ii) Community-Based Adult Services ("CBAS"); (iii) Multi-purpose Senior Services Program ("MSSP") services; and (iv) skilled nursing facility services and sub-acute care services.

43. "**Medically Necessary**" or "**Medical Necessity**" means when addressing Covered Services: (i) under Medicare, reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. Section 1395y.

44. "**Medical Record**" means any record kept or required to be kept by any Provider that documents medical services received by the Enrollee, including inpatient, outpatient, emergency care, referral requests, and Authorizations in accordance with applicable laws including Title 28 C.C.R. § 1300.80(b), Title 42 U.S.C. § 1396a(w), 42 C.F.R. § 456.111 and 42 C.F.R. § 456.211 and CalOptima Policies.

45. "**Mental Health Plan**" means the entity that has contracted with DHCS to provide Specialty Mental Health Services to individuals, including Enrollees.

46. "**Model of Care**" means the component of CalOptima's quality improvement framework that is evidence-based, includes certain clinical and non-clinical elements, and is in addition to the comprehensive care coordination requirements specified in CalOptima Policies.

47. "**Non-Covered Services**" means those services that are not benefits under the CalOptima MA Program in accordance with CalOptima's Evidence of Coverage and applicable state and federal laws and regulations.

48. "**Non-Participating Provider**" means an institution, professional, or other Provider of health care services who has not entered into an agreement, either with CalOptima or Physician Group, to provide medical and other services to Enrollees.

49. "**Out-of-Area**" means that area that is outside the Service Area.

50. "**Outpatient Mental Health Services**" means outpatient services that are provided to Enrollees with mild to moderate mental health conditions including: (i) individual/group mental health evaluation and treatment (psychotherapy); (ii) psychological testing when clinically indicated to evaluate a mental health condition; (iii) outpatient services for the purpose of monitoring drug therapy; (iv) psychiatric consultation for mediation management; and (v) outpatient laboratory supplies and supplements.

51. "**Participating Provider**" means an institution, professional, or other provider of health care services who has entered into an agreement, either with CalOptima or Physician Group, to provide health care services to Enrollees.

52. "**PCC**" means the personal care coordinator(s) employed by Physician Group to comply with the CalOptima MOC Program.

53. "**PCC Component to the Model of Care Profile**" means the PCC Components identified in the Model of Care Profile.

54. **"Physician"** means a person with an unrestricted license to practice medicine or osteopathy in the state in which they practice.

55. "**Physician Direct Referral**" means the process whereby a PCP has the authority the decide whether a referral is deemed necessary for an Enrollee and if deemed necessary the PCP will directly refer that Enrollee within said Physician Group to any of the specialties or services specified in CalOptima Policies without requiring the prior Authorization of Physician Group.

56. "**Post-Stabilization Care Services**" means services related to an Emergency Medical Condition that are provided after an Enrollee is Stabilized in order to maintain the Stabilized condition, or under some circumstances, to improve or resolve the condition.

57. "**Preclusion List**" means the CMS-compiled list of providers and prescribers who are precluded from receiving payment for MA items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.

58. "**PCP**" means a primary care physician responsible for supervising, coordinating, and providing initial and primary care to Enrollees; for serving as the medical home; for processing initial referrals for Specialist Physician care; and for maintaining the continuity of patient care.

59. "**Program**" is health care benefit program offered by CalOptima to Enrollees. Programs and their designs are subject to change periodically.

60. "**Provider**" means a physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, health maintenance organization ("HMO"), or other person or institution who furnishes health care items or services.

61. "**Provider Manual**" means that comprehensive online document, as amended from time to time, and describes CalOptima's Policies and procedures affecting Physician Group Physicians' services under this Contract.

62. "**Referral**" means the process by which the Participating Provider Physician directs an Enrollee to seek and obtain Covered Services from a health professional or for care at a facility.

63. "**Rural Health Clinic (RHC)**" means an entity that meets all of the requirements for designation as a rural health clinic under § 1861(aa)(1) of the Social Security Act and is approved for participation in the MA program.

64. "**Service Area**" means the geographic area within Orange County, California.

65. "**Specialist Physician**" means any physician who is not a PCP, has the requisite training and education, and meets all other requirements set by CalOptima Policies for specialists.

66. "**Stabilize**" or "**Stabilized**" means, with respect to an Emergency Medical Condition, to provide such medical treatment of the condition to assure within reasonable medical probability that no

material deterioration of the condition is likely to result or occur during the transfer of the individual from a facility, or in the case of a pregnant woman, that the woman has delivered the child and placenta.

67. "**Threshold Language**" means those languages as determined by CalOptima's Regulators from time to time and identified in guidance on translation requirements provided to CalOptima.

68. "**Urgent Care**" means services required to prevent serious deterioration of health following the onset of an unforeseen condition or injury and are medical services required promptly to prevent impairment of health due to symptoms that do not constitute an Emergency Medical Condition but that are the result of an unforeseen illness, injury or condition for which medical services are immediately required.

Notes:

1. **Financial responsibility is based on Medicare benefit interpretations and limitations.**
2. **The symbol "Rx" denotes outpatient prescription drug services.**

Assignment of financial responsibility as outlined in this document is independent of the questions of medical necessity, coverage or benefits.

ATTACHMENT C
CAPITATION RATES AND RISK SHARING

1. **Capitation Allocation**

1.1 **Allocation of Non-Part D CMS Revenue**. Each month, CalOptima shall allocate both the non-Part D related capitation that CalOptima receives from CMS for Enrollees affiliated with Physician Group and any applicable premiums that CalOptima charges Enrollees affiliated with Physician Group (collectively, the "**Total Revenues**") as follows:

- Facility and Other Services ("**Hospital Budget**") xx.x%
- Physician Group Capitation Payment xx.xx%

1.2 **MLR**. In accordance with Section 2.3, "Medical Loss Ratio", of the Contract, Physician Group shall maintain a minimum acceptable loss ratio of eighty-five percent (85%). Should Physician Group not meet the minimum eighty-five percent (85%) MLR, CalOptima reserves the right to require Physician Group to return to CalOptima the difference between eighty-five percent (85%) of Capitation Payments and the allowed medical expenses.

1.3 **Personal Care Coordinator**.

1.3.1 In addition to the amounts described above, and contingent on CalOptima Board of Directors' approval, CalOptima will pay Physician Group, ____dollars and ____cents ($xx.xx), a per Enrollee, per month amount for PCCs. The commencement date, amount, and duration of such PCC capitation payments, if any, will be established by the action of the CalOptima Board of Directors, and will be deemed incorporated herein by reference. Such payments, if any, may be adjusted in accordance with the PCC Reference Manual and are subject to recovery, termination, or offset as provided in this Contract and in the PCC Reference Manual.

1.3.2 Physician Group acknowledges and agrees that CalOptima may adjust and/or terminate the PCC Capitation Payments in the event Physician Group fails to comply with the requirements outlined in the PCC component of the model of care (MOC) profile. Physician Group acknowledges and agrees that CalOptima, in its sole and absolute discretion, may also offset Physician Group's future PCC Capitation Payments in the event CalOptima determines that Physician Group has not complied with the requirements set forth in the PCC component of the MOC Profile.

1.4 **Sequestration**. If CMS reduces payment to CalOptima under the CMS Contract by more than two percent (2%) at any time during the Term, CalOptima may, upon written notice to Physician Group, reduce payment to Physician Group under this Attachment C by the same percentage that CMS reduced payment to CalOptima. This provision applies each time CMS reduces payment to CalOptima by more than two percent (2%) during the Term.

1.5 **Pay-for-Performance Program**. CalOptima will develop a pay-for performance program to provide incentive payments to Physician Group. Payments will be calculated and paid

quarterly and annually based on a per Enrollee, per month rate and reflect achievement of specified program goals, which are determined by CalOptima in its sole discretion.

ATTACHMENT D
CLAIMS PROCESSING AND COMPLIANCE OBLIGATIONS

I. DEFINITIONS

1.1 "**Clean Claim**" means one that can be processed without obtaining additional information from the provider of the service or from a third party. Clean claim shall have the same meaning as "complete claim" as that term is defined in Title 28, CCR Section 1300.71(a)(2). Clean Claim does not include a claim from a Provider who is under investigation for fraud or abuse, or a claim under review for Medical Necessity.

1.2 "**Unclean Claim**" means any claim other than as defined in Section 1.1 of this attachment.

1.3 "**Denied Claim**" means a claim where (a) one or more services will not be paid by Physician Group and (b) payment is the responsibility of the Enrollee. Examples of claims that are not denials and should not be reported, submitted, or presented to CalOptima as Denied Claims include claims:

1.3.1 For patients who remain enrolled with CalOptima but have transferred to another Physician Group and Physician Group is forwarding the claim,

1.3.2 For which payment responsibility belongs to another contracting entity, and Physician Group is forwarding the claim,

1.3.3 That are duplicates,

1.3.4 That are encounter only/capitated claims and no patient liability is involved, and

1.3.5 That involve reduced payment amounts due to contract terms or allowed Medicare fee schedules.

II. GENERAL TERMS

2.1 **Physician Group Claims Processing**. Physician Group shall process claims for Provider services according to all CMS requirements and, as applicable, in accordance with the requirements of the Knox-Keene Act. This Attachment D is intended to comply with all DMHC and CMS standards and requirements. Should this Attachment D be out of compliance with any existing or newly enacted DMHC or CMS standard or requirement, the DMHC and/or CMS standard or requirement will supersede this Attachment D. CalOptima will communicate any changes in requirements to Physician Group in writing.

2.2 If Physician Group enters into a contract with a Downstream Entity whereby the responsibility for claims processing is delegated to that Downstream Entity, Attachment D provisions shall apply. Physician Group will have contractual provisions to ensure such Downstream Entity conforms to all DMHC and CMS requirements and oversight provisions as outlined herein and in CalOptima Policies.

2.3 Physician Group and any applicable Downstream Entity shall be required to have an oversight program for claims processing that includes written policies and procedures, a process for reporting fraudulent or unethical conduct, and an executive accountable for review of claims data and attesting to its accuracy. The oversight program shall include internal auditing of claims functions, and self-reporting as outlined in CalOptima Policies.

III. CLAIMS PROCESSING

3.1 **Timely Provider Payments**.

3.1.1 Physician Group and Downstream Entities, if, and as applicable, must make timely payments to Participating Providers consistent with 42 CFR § 447.45.

3.1.2 Physician Group shall reimburse Clean Claims, or any portion of any Clean Claim, for Covered Services, as soon as practical, but no later than thirty (30) calendar days after receipt of the claim by Physician Group, unless the claim or portion thereof is reasonably contested, in which case the claimant shall be notified in writing that the claim is contested or denied within forty-five (45) business days after receipt of the claim by Physician Group in accordance with CalOptima Policies.

3.1.3 Physician Group must ensure that ninety percent (90%) of claims from Providers who are in individual or group practice, which can be processed without obtaining additional information from the Provider or from a third party, will be paid within thirty (30) days of the date of receipt of the claim.

3.1.4 Physician Group must ensure that ninety-nine percent (99%) of all Clean Claims from Providers for Covered Services will be paid within ninety (90) days of the date of receipt of the claim.

3.1.5 Generally, the date of receipt is the date the Physician Group receives the claim, as indicated by its date stamp on the claim. The date of payment is the date of the check or other form of payment.

3.1.6 **"30-Day" Claim Timeliness**. Physician Group shall adjudicate nine-five percent (95%) of all Clean Claims from Non-Participating Providers or suppliers within thirty (30) calendar days of receiving the claim. Adjudicate a claim shall be deemed to mean to have processed the claim (paid or denied) and mailed the remittance advice by the thirtieth (30^{th}) calendar day since the earliest receipt by Physician Group or CalOptima's contracting Providers.

3.1.7 **"60-Day" Claim Timeliness**. Physician Group shall pay or deny Unclean Claims from Non-Participating Providers or suppliers, claims from Participating Providers or suppliers, and claims from Medicare fiscal intermediaries and carriers within sixty (60) calendar days of receipt of such claims. Processing shall be deemed to mean either to have paid or denied and mailed the remittance advice by the sixtieth (60^{th}) calendar day since the earliest receipt by Physician Group or CalOptima's contracting Providers, or to have denied the claim, and have mailed the denial letter to the Enrollee by the sixtieth (60^{th}) day. In accordance with federal law and CMS regulations, failure to process such claims within sixty (60) calendar days of receipt automatically constitutes an "adverse" initial determination, which the Enrollee may appeal; thus, a denial notice must be mailed to the Enrollee.

3.1.8 **Payment Accuracy**. When paying Non-Participating Providers, Physician Group shall employ only those Medicare fee schedules that MA plans are allowed to use by law and shall comply with 42 CFR § 422.214.

3.1.9 **Denied Claims**. Decisions to deny claims that result in liability for the Enrollee must be made in accordance with CMS guidelines. Whenever such decisions are made, the currently CMS approved Notice of Denial of Payment or Integrated Denial Notice must be

used, including approved denial reasons. Under no circumstances shall Physician Group deny a claim for the second time as a consequence of responding to a request for reconsideration from an Enrollee; instead, Physician Group must direct the Enrollee to submit the request directly to CalOptima as appropriate.

3.2 **Claims for Emergency and Post-Stabilization Services.**

3.2.1 Physician Group shall not retroactively deny a claim for Emergency Services because the condition, which appeared to be an Emergency Medical Condition, turned out to be non-emergency in nature. Physician Group shall ensure that its claims processing actions do not conflict with Hospital actions required to comply with the Emergency Medical Treatment and Active Labor Act ("**EMTALA**").

3.2.2 If there is a disagreement between Physician Group or any Participating Provider and any Non-Participating Provider regarding Medically Necessity of Covered Services in an emergency, the judgment of the attending physician(s) actually caring for the Enrollee at the treating facility shall prevail. Physician Group may establish relationships with treating facility whereby the Physician Group may send a Participating Provider with privileges to assume the attending physician's responsibilities to establish treatment or may arrange to have a Participating Provider under contract with Physician Group agree to accept the transfer of the Enrollee after the Enrollee has been Stabilized.

3.2.3 Physician Group shall ensure that an enrollee with an Emergency Medical Condition will be seen on an emergency basis and that Emergency Services will be available and accessible within the Service Area twenty-four (24) hours a day. Physician Group shall cover Emergency Services without prior Authorization pursuant to Title 28 CCR Section 1300.67(g), Title 22 CCR Section 53216, and Section 1932(b)(2) of the Social Security Act. Physician Group shall coordinate access to Emergency Services in accordance with 42 CFR § 438.114 and the Physician Group's emergency department protocol.

3.2.4 Physician Group may not refuse to cover Emergency Services based on the emergency room Provider, Hospital, or fiscal agent not notifying the Enrollee's PCP managed care organization, prepaid ambulatory health plan, prepaid inpatient health plan or applicable State entity of the Enrollee's screening and treatment within ten (10) calendar days of presentation for Emergency Services. An Enrollee who has an Emergency Medical Condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or Stabilize the Enrollee.

3.2.5 Physician Group may not deny payment for treatment obtained under either of the following circumstances: an Enrollee had an Emergency Medical Condition, including cases in which the absence of immediate medical attention would not have had the outcomes specified in the definition of an Emergency Medical Condition; or the Physician Group representative instructs the Enrollee to seek Emergency Services. The attending emergency Physician, or the Provider actually treating the Enrollee, is responsible for determining when the Enrollee is sufficiently Stabilized for transfer or discharge, and that determination is binding on the entities as responsible for coverage and payment.

3.2.6 Physician Group must cover and pay for Post-Stabilization Care Services. Physician Group is financially responsible for Post-Stabilization Care Services obtained within or outside the organization that are pre-approved by a Physician Group Provider or other Physician Group representative. Physician Group is financially responsible for Post-Stabilization

Care Services obtained within or outside the Physician Group organization that are not pre-approved by a Participating Provider or other Physician Group representative, but are administered to maintain the Enrollee's Stabilized condition within one (1) hour of a request to the Physician Group for pre-approval of further Post-Stabilization Care Services. Physician Group is financially responsible for Post-Stabilization Care Services obtained from within or outside the Physician Group that are not pre-approved by a Participating Provider or other Physician Group representative, but administered to maintain, improve, or resolve the Enrollee's Stabilized condition if the Physician Group: does not respond to a request for pre-approval within one (1) hour; cannot be contacted; or the Physician Group representative and the treating physician cannot reach an agreement concerning the Enrollee's care and a Participating Provider is not available for consultation. In this situation, the Physician Group must give the treating Physician the opportunity to consult with a Participating Provider and the treating Physician may continue with care of the Enrollee until a Participating Provider is reached or one criteria in 42 C.F.R. § 113(c)(3) is met. Physician Group must limit charges to Enrollees for Post-Stabilization Care Services to an amount no greater than what the Physician Group would charge the Enrollee if he or she had obtained the services through Physician Group. Physician Group financial responsibility for Post-Stabilization Care Services it has not pre-approved ends when: a Participating Provider with privileges at the treating hospital assumes responsibility for the Enrollee's care; a Participating Provider assumes responsibility for the Enrollee's care through transfer; Physician Group representative and the treating Physician reach an agreement concerning the Enrollee's care; or; the Enrollee is discharged.

3.2.7 Physician Group shall reimburse those Physicians providing Emergency Services and Urgent Care services with whom Physician Group has a contract according to the terms of that contract.

3.2.8 Physician Group must reimburse a Non-Participating Provider for Emergency Services or Urgent Care services at the prevailing Medicare fee-for-service ("**FFS**") rate as applicable for that service. Where the Covered Service would traditionally be covered under Medicare FFS, the Medicare FFS rate applies. Physician Group shall ensure that Enrollees maintain balance billing protections as provided in Section 6.4 of this Contract.

3.2.9 In accordance with CalOptima Policies, Physician Group shall implement the CMS Quality Payment Program known as the Merit-based Incentive Payment System ("**MIPS**"). MIPS adjustments for Part B covered professional services furnished by MIPS-eligible Providers that are not contracted with Physician Group shall be administered in the same manner as any other changes in the applicable Medicare payment schedules. Physician Group shall make positive and negative payment adjustments as identified by CMS based on the CMS MIPS adjustment data files.

3.2.9.1 CalOptima or Physician Group may apply MIPS payment adjustments either at the time the payment is made during the applicable MIPS payment year or as a retrospective adjustment to paid claims.

3.2.9.2 CalOptima or Physician Group are required to demonstrate payment through reporting or attestation by the end of March on an annual basis.

3.3 **Physician Group Financial Responsibility**. If CalOptima receives a claim for Covered Services that are the financial responsibility of Physician Group, CalOptima shall forward such claim to Physician Group for payment, in accordance with the procedures set forth in Title 28 CCR Section

1300.71, "Claims Settlement Practices." CalOptima shall not pay for services that are Physician Group's financial responsibility unless Physician Group fails to make payment within the time allowed by State and federal laws and regulations, and CalOptima is required by law to make such payment. In such cases, CalOptima, after written notice to Physician Group and reasonable opportunity to cure, will make payment, and Physician Group shall reimburse CalOptima for such payments. If Physician Group fails to reimburse CalOptima, CalOptima may offset an uncontested payment(s) against Capitation Payments or other amounts due from CalOptima to Physician Group, if any.

3.4 **Collection of Share of Cost**. Physician Group shall collect Medicare share of cost unless prohibited under this Contract.

3.5 **Capitation Payments**. Physician Group and/or Downstream Entities shall distribute monthly Capitation Payments to capitated Participating Providers within fifteen (15) calendar days following the date on which Physician receives payment from CalOptima.

3.6 **Claims Adjudication**. Except as provided in Section 3.1.1, Physician Group shall accept and adjudicate claims for Covered Services provided to Enrollees in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies. Waiver of any right or obligation specific to the Health and Safety Code and Title 28 related to claims processing and payment shall be prohibited.

3.7 **Dispute Resolution.** Physician Group shall establish and maintain a fair, fast and cost-effective dispute resolution mechanism to process and resolve provider disputes in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies.

3.8 **Right of Appeal**. Physician Group shall afford Providers an unconditional right of appeal and de novo review for claims disputes involving issues of Medical Necessity. Any Provider that submits a claim dispute to Physician Group's dispute resolution mechanism involving an issue of Medical Necessity or utilization review shall have an unconditional right of appeal for that claim dispute to CalOptima's dispute resolution process for a de novo review and resolution for a period of sixty (60) working days from Physician's Date of Determination.

3.9 **CalOptima Payment On Behalf Of Physician**. If CalOptima receives a copy of an unpaid Clean Claim as part of a Provider grievance that is thirty (30) working days old or more, CalOptima will follow all notification and acknowledgement procedures pursuant to CalOptima Policies. If Physician Group does not either notify CalOptima that the claim is reasonably contested, as set forth in CalOptima Policies, or pay the Clean Claim within the thirty (30) working day period, CalOptima shall pay the Claim on behalf of Physician, plus interest, as required by the Knox-Keene Act, and deduct the amounts reimbursed, plus processing costs, from the Capitation Payment, in accordance with CalOptima Policies.

3.10 **Quarterly Claims Payment Performance Report.**

3.10.1 Physician Group shall submit, in a format specified by CalOptima Policies, a quarterly claims payment performance report ("**Quarterly Claims Report**") to CalOptima within thirty (30) calendar days of the close of each calendar quarter. The Quarterly Claims Report

shall, at a minimum, disclose Physician Group's compliance status with Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.4, and 1371.8 of the California Health and Safety Code and Sections 1300.71, 1300.71.38, 1300.71.4 and 1300.77.4 of Title 28 of the CCR.

3.10.2 Physician Group shall ensure that each Quarterly Claims Report is signed by, and includes the written verification of, a principal officer, as defined by Section 1300.45(o) of Title 28 of the CCR, of Physician Group, stating that the report is true and correct to the best knowledge and belief of the principal officer.

3.10.3 Physician Group's Quarterly Claims Report shall include a tabulated record of each Provider dispute it received, categorized by date of receipt, and including the identification of the Provider, type of dispute, disposition and working days to resolution, as to each Provider dispute received. Each individual dispute contained in a Provider's bundled notice of Provider dispute shall be reported as a separate dispute to CalOptima.

3.11 **Forwarding of Misdirected Claims.**

3.11.1 Physician Group shall have the ability to receive a standard ANSI 837I and ANSI 837P claim file format for retrieving misrouted claims that are the financial responsibility of the Physician Group. Physician Group will receive and forward misdirected claims per CalOptima Policy.

3.11.2 Physician Group shall have the ability to create a standard ANSI 837I and ANSI 837P claim file for forwarding claims that are the financial responsibility of CalOptima within ten (10) working days of receipt of the claim. CalOptima shall receive these files per CalOptima policy and load them into its system to ensure timely claims processing. Physician Group shall forward any claims that are not its payment responsibility to CalOptima within eight (8) calendar days of receipt, so that a total of only ten (10) working days will elapse prior to the claims being in the proper hands.

3.12 **Assumption of Delegated Functions**. In the event that Physician Group fails to timely and accurately reimburse its claims (including the payment of interest and penalties), CalOptima may, at its sole discretion, revoke the delegation and assume responsibility from Physician Group for claims payment, or terminate this Contract as provided for in Article XI. CalOptima's assumption of responsibility for the processing and timely reimbursement of Provider claims may be altered to the extent that Physician Group has established an approved CAP consistent with Section 1375.4 (b)(4) of the Health and Safety Code and Section 11.3 of the Contract.

3.13 **Recoupment for Assumption of Claims Processing Obligations**. CalOptima, in its sole and absolute discretion, may reduce Physician Group's Capitation Payments to recoup additional administrative costs for the assumption of the claims processing obligations of Physician Group, as described in this Article III of Attachment D, as well as any amounts, including interest due, on claims unpaid at the assumption of such obligations by CalOptima.

IV. CLAIMS COMPLIANCE

4.1 **Claims Compliance Monitoring**. Physician Group understands that claims compliance programs are required by CalOptima's Regulators and agrees that delegation is contingent upon Physician Group's compliance with required monitoring and oversight activities, as outlined in CalOptima Policies. Physician Group agrees that CalOptima reserves the right to monitor Physician Group's

claims compliance activities, notwithstanding any other audit, compliance, or contractual issue between Physician Group and CalOptima. In the event Physician Group demonstrates an inability to meet CalOptima's claims payment standards, CalOptima reserves the right to revoke and assume the delegated responsibilities described above.

4.2 **Claims Non-Compliance**. In the event that CalOptima determines that Physician Group is not in ninety-five percent (95%) compliance with any of the requirements of Attachment D the following actions will be applied:

4.2.1 Within thirty (30) days of an audit that documents non-compliance, CalOptima will issue a written warning to Physician Group that describes the non-compliance. Physician Group will respond within fifteen (15) working days of receiving the non-compliance notification with a written CAP to comply. Such CAP will describe the actions to be taken and the schedule by which those actions will be completed. CalOptima will review the CAP and advise Physician Group whether or not actions or time schedules are acceptable within fifteen (15) days of receiving it. CalOptima will conduct a follow-up audit of Physician Group's claims operation within ninety (90) days from the date of serving the non-compliance notification to verify compliance with Attachment D. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.2 of this attachment for continued non-compliance will apply.

4.2.2 If, as a result of CalOptima's follow-up audit, Physician Group is found to still be non-compliant with Attachment D within fifteen (15) calendar days of making that determination, CalOptima will notify Physician Group in writing of the continued non-compliance and may elect to provide consultative or other assistance to help establish, maintain and monitor continued administrative compliance or assume "joint administration" of Physician Group's claims operations, involving itself only with Enrollees' claims and allowing the operation to remain on Physician Group's premises. The Parties agree to meet and develop a mutually agreeable work plan for added staffing and work stations, the cost of which will be Physician Group's sole responsibility. CalOptima will develop a CAP with Physician Group's participation to assure maximum compatibility with Physician Group's ongoing operations. CalOptima will cooperate with Physician Group in implementing changes across all risk claims processed at that site, should Physician Group so request. Within fifteen (15) calendar days of receiving the second notice of non-compliance, Physician Group will provide a written response stating the specific action to be taken to establish compliance with the help of CalOptima. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.3 for continued non-compliance will apply. Within ninety (90) days from the date of serving the second notice of non-compliance, CalOptima will re-audit Physician Group's claims process and documents to determine final compliance or non-compliance.

4.2.3 If, as a result of its second follow-up audit, CalOptima reasonably determines that Physician Group is still non-compliant, CalOptima reserves the right to terminate this Contract for material breach upon ten (10) days' prior written notice and opportunity to cure.

4.2.4 Physician Group may resume sole administrative responsibility for claims processing if CalOptima determines that Physician Group has corrected the deficiencies that caused the non-compliance, and, as a result of resuming responsibility for claims processing,

demonstrates compliance with the timely provider payments requirements set forth in Section 3.1 of this Attachment D.

4.2.5 With respect to the requirements of Attachment D, Physician Group will be subject to regular site-audits conducted by CalOptima to monitor all claims requirements.

V. CLAIMS FORWARDING

Physician Group shall forward any claims that are not its payment responsibility to CalOptima within ten (10) calendar days of receipt.

VI. SELF-MONITORING & REPORTING

Physician Group shall develop, implement and demonstrate upon request, a claims quality assurance process, including regular, scheduled, automated, or manual reports, self-testing procedures, and internal reporting to Physician Group's executive management of timeliness, payment accuracy, and denial accuracy (as required herein). Such self-monitoring and internal reporting shall involve use of industry standard tools and shall measure actual performance against the standards for DMHC and CMS compliance. CalOptima strongly recommends check issuance and mailing occur not less frequently than weekly and that Physician Group's internal reporting intervals match the intervals at which checks are issued, except that weekly reporting would be sufficient if checks are issued more often than weekly. At a point early in the beginning of operations under the Contract and in accordance with industry-wide CMS requirements, CalOptima will require that Physician Group submit monthly reports to CalOptima using the industry-standard Monthly Report of Claims Processing Timeliness and Overall Percent of Denial Accuracy format. Those reports must be received by CalOptima not later than the fifteenth (15th) calendar day of each month.

VII. AUDITS & AUDIT PREPARATION

Article IV, above, provides detailed, specific processes involving claims non-compliance. Even when Physician Group does meet compliance standards and successfully concludes any time periods where denials must be submitted to CalOptima for review, CalOptima will continue to schedule (1) periodic audits, (2) random, focused audits, and (3) focused reviews based on appeals and grievance results to monitor Physician Group's compliance with CMS regulations. Prior to the scheduled arrival of CalOptima's auditor, Physician Group shall retrieve claims and related documents in accordance with instructions provided to Physician Group by CalOptima in its letter confirming the appointment.

VIII. SPECIAL STUDIES

8.1 In the event DMHC and/or CMS requires that CalOptima conduct any special compliance study or effort, Physician Group shall support the study and will be subject to any DMHC and/or CMS specified time schedules or deadlines for corrective actions.

IX. FEDERALLY QUALIFIED HEALTH CENTERS AND RURAL HEALTH CLINICS

9.1 Physician Group shall meet federal requirements for access to FQHC services, including those in 42 U.S.C. § 1396 b(m). Physician Group shall reimburse FQHCs and RHCs in accordance with current Laws. If FQHC and RHCs services are not available in the Provider network, Physician Group shall authorize out-of-network services subject to the prevailing MA payment requirements for out-of-network services.

9.2 Physician Group shall ensure that its payments to FQHCs and RHCs for services to Enrollees are no less than the sum of the level and amount of payment that the Health Network or CalOptima would make for such services if the services had been furnished by an entity providing similar services that was not an FQHC and RHC. The intent of these provisions is to ensure that Physician Group pays FQHCs and RHCs amounts consistent with Medicare managed care policies while preserving the opportunity for FQHCs to separately claim supplemental payments under such policies.

X. INDIAN HEALTH CARE PROVIDERS

10.1 Physician Group shall pay non-network Indian Health Care Providers that are FQHCs for the provision of services to an Indian Enrollee at a rate equal to the rate that Physician Group would pay to a network FQHC that is not an Indian Health Care Provider, including any supplemental payment from the State to make up the difference between the contract amount and what the Indian Health Care Provider would have received FFS.

10.2 When the amount the Participating Provider Indian Health Care Provider receives from the Physician Group is less than the amount the Indian Health Care Providers would receive FFS, the State must make a supplemental payment to the Indian Health Care Provider that the Indian Health Care Provider would receive FFS or the applicable encounter rate.

10.3 Physician Group shall not impose enrollment fees, premiums, or similar charges on Indians served by an Indian Health Care Provider or through referral under contract health services. Physician Group must exempt from all cost-sharing any Indian who is currently receiving or has ever received an item or service furnished by an Indian Health Care Provider or through referral under contract health services.

10.4 Physician Group shall reimburse Indian Health Care Providers promptly who provide Covered Services to Indian Enrollees, who are eligible to receive Covered Services, at the most current and applicable outpatient per-visit rate published in the Federal Register by the Indian Health Service, and Physician Group shall ensure any retroactive outpatient per visit rates are appropriately reimbursed to the Indian Health Care Provider.

ATTACHMENT E
STATUTORY AND REGULATORY COMPLIANCE TERMS

1. **Compliance with State and Federal Laws**. Physician Group acknowledges that CalOptima is subject to certain State and federal laws, regulations, and instructions governing its MA Program. Physician Group shall comply with all Laws and DMHC and CMS administrative bulletins, plan letters and instructions. Physician Group understands that payments made by CalOptima are, in whole or in part, derived from federal funds, and therefore Physician Group and any Downstream Entities are subject to certain laws that are applicable to individuals and entities receiving federal funds, including the following: (i) Title VI of the Civil Rights Act of 1964; (ii) Sections 503 and 504 of the Rehabilitation Act of 1973; (iii) the Age Discrimination Act of 1975; (iv) the Americans with Disabilities Act of 1990; (v) the Vietnam Era Veteran's Readjustment Assistance Act; and (vi) Title IX of the Education Amendments of 1972. Any provision required to be in this Contract by the CMS Contract, the Knox-Keene Act, Title 28 of the California Code of Regulations, Medicare laws and regulations, DMHC or CMS instructions and reporting requirements and other applicable laws, shall bind CalOptima, Physician Group, and Downstream Entities, whether or not specifically set forth in this Contract.

2. **Compliance with CalOptima's Contractual Obligations**. All services and other activities furnished by Physician Group and Downstream Entities must be performed in accordance with CalOptima's contractual obligations to CMS.

3. **Compliance with FWA Requirements**. Physician Group, and its employees, agents and Downstream Entities performing services under this Contract, shall comply with CalOptima's Compliance Program including, its FWA plan. Prior to performing services under this Contract, Physician Group shall complete and submit to CalOptima, any CMS-required training and/or CalOptima-required attestations related to such training and other compliance obligations. Physician Group agrees to comply and will have any Downstream Entity agree to comply with CalOptima standards and policies.

4. **Fraud and Abuse Reporting**. Physician Group shall, in accordance with all Laws, report to CalOptima all cases of suspected fraud and/or abuse relating to the rendering of Covered Services within five (5) days of the date when Physician Group first becomes aware of or is on notice of such activity.

5. **CMS Participation Requirements**. Physician Group represents and warrants that: (i) neither Physician Group nor any of its Group Physician, employees or agents furnishing services under this Contract are excluded from participating in any federal or state healthcare program as defined in 42 U.S.C. Section 1320a-7b(f) ("**Federal Health Care Program(s)**"); (ii) Physician Group has not arranged or contracted (by employment or otherwise) with any employee, contractor or agent that Physician Group knows or should know are excluded or precluded from participation in Federal Health Care Programs; (iii) no action is pending against Physician Group or any of its Group Physicians, employees, or agents performing services under this Contract to suspend or exclude such persons or entities from participation in any Federal Health Care Program; and (iv) Physician Group will immediately notify CalOptima if it learns that it is or has employed or contracted with a person or entity that is excluded from participation in any Federal Health Care Program. If Physician Group fails to comply with this Section 5 of this attachment, CalOptima reserves the right to require Physician Group to pay immediately to CalOptima the amount of any sanctions or other penalties that may be imposed on CalOptima by CMS for violation of this prohibition, and Physician Group shall be responsible for any resulting overpayments. Physician Group shall not make payment for a healthcare item or service furnished by an individual or entity

that is excluded by the Office of the Inspector General or is included on the Preclusion List. Physician Group shall provide written notice to the Enrollee who received the services and the excluded Provider or Provider listed on the Preclusion List that payment will not be made, in accordance with CMS requirements. Physician Group shall ensure that all Participating Providers that provide Covered Services do not appear on the CMS Preclusion List in order to receive reimbursement for claims or otherwise participate in the Medicare program.

6. **Confidentiality of Enrollee Information**. Physician Group, its Downstream Entities, and their employees and agents shall comply with the specific confidentiality obligations set forth below.

6.1 Physician Group, Downstream Entities, and their employees and agents shall protect from unauthorized disclosure the names and other identifying information concerning persons either receiving services pursuant to this Contract or persons whose names or identifying information become available or are disclosed to them as a result of services performed under this Contract, except for statistical information not identifying any such person. Physician Group, Downstream Entities, and their employees and agents shall not use such identifying information for any purpose other than carrying out Physician Group's obligations under this Contract.

6.2 Physician Group, Downstream Entities, and their employees and agents shall promptly transmit to CalOptima all requests for disclosure of such identifying information not emanating from the Enrollee. Physician Group shall not disclose, except as otherwise specifically permitted by this Contract or authorized by the Enrollee, any such identifying information to anyone other than CMS, DMHC, or CalOptima without prior written authorization from CalOptima. For purposes of this provision, identity shall include, but not be limited to name, identifying number, symbol, or other identifying particular assigned to the individual, such as finger or voice print or a photograph.

6.3 Notwithstanding any other provision of this Contract, names of persons receiving public social services are confidential and are to be protected from unauthorized disclosure in accordance with 42 CFR Section 431.300 *et seq*., Welfare and Institutions Code Section 14100.2, and regulations adopted thereunder. For the purpose of this Contract, all information, records, data, and data elements collected and maintained for the operation of the Contract and pertaining to Enrollees shall be protected by Physician Group from unauthorized disclosure. Physician Group may release Medical Records in accordance with Laws pertaining to the release of this type of information. Physician Group is not required to report requests for Medical Records made in accordance with Laws.

6.4 With respect to any identifiable information concerning an Enrollee under this Contract that is obtained by Physician Group or its Downstream Entities from CalOptima's Regulators, Physician Group will, at the termination of this Contract, return all such information to CalOptima's Regulators if required by them, or maintain such information according to written procedures provided to Physician Group by CalOptima and/or CalOptima's Regulators for this purpose.

7. **Offshore Subcontracts**. Physician Group shall provide, and ensure that Downstream Entities provide, to CalOptima information and attestations related to the provision of any services under this Contract in a country other than the United States ("**Offshore Subcontractor**") to enable CalOptima to comply with CMS reporting obligations. Such information shall be submitted to CalOptima prior to engaging any Offshore Subcontractor for purposes of this Contract, and such Offshore Subcontractors are subject to approval by CalOptima.

8. **Required Disclosures**. In accordance with 42 CFR Section 1002.3, Physician Group shall immediately notify CalOptima in the event any sanctioned person (as defined in 42 CFR Section 1001.1001(a)(1)) owns or controls Physician Group.

9. **Equal Opportunity**. Physician Group and Downstream Entities shall comply with the following Equal Opportunity requirements set forth below.

9.1 Physician Group and its Downstream Entities will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Physician Group and its Downstream Entities will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Such action shall include the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. Physician and its Downstream Entities agree to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the federal government, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973, and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state Physician Group and its Downstream Entities' obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

9.2 Physician Group and its Downstream Entities will, in all solicitations or advancements for employees placed by or on behalf of Physician Group and its Downstream Entities, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era.

9.3 Physician Group and its Downstream Entities will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the federal government or the State, advising the labor union or workers' representative of Physician Group and its Downstream Entities' commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

9.4 Physician Group and its Downstream Entities will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and of the rules, regulations, and relevant orders of the Secretary of Labor.

9.5 Physician Group and its Downstream Entities will furnish all information and reports required by Federal Executive Order No. 11246, as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and Physician Group will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

9.6 In the event of Physician Group and its Downstream Entities' noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced in this Article IX, this Contract may be cancelled, terminated, or suspended in whole or in part, and Physician Group and its Downstream Entities may be declared ineligible for further State and Federal contracts, in accordance with procedures authorized in Federal Executive Order No. 11246 as amended, and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

9.7 Physician Group and its Downstream Entities will include the provisions of Sections 10.1 through 10.7 of this attachment in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor, issued pursuant to Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or Section 503 of the Rehabilitation Act of 1973 or (38 U.S.C. Section 4212) of the Vietnam Era Veteran's Readjustment Assistance Act, so that such provisions will be binding upon each Downstream Entity. Physician and its Downstream Entities will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs or CMS may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that in the event Physician Group and/or its Downstream Entities become involved in, or are threatened with litigation by a other Downstream Entity or vendor as a result of such direction by CMS, Physician Group and its Downstream Entities may request in writing to CMS, who, in turn, may request the United States to enter into such litigation to protect the interests of the State and of the United States.

10. **Non-Discrimination**. Physician Group and Downstream Entities shall comply with the non-discrimination requirements set forth below.

10.1 During the performance of this Contract, neither Physician Group nor any Downstream Entities shall unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, religion, color, national origin, ancestry, religious creed, physical disability, (including Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC)), medical condition (including cancer), mental disability, marital status, age (over 40), or the

use of family and medical care leave and pregnancy disability leave. Physician Group and Downstream Entities shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination and harassment. Physician Group and Downstream Entities shall comply with the provisions of the Fair Employment and Housing Act (Government Code, Section 12900, *et seq*.) and the applicable regulations promulgated thereunder (Title 2 CCR Section 7285.0, *et seq*.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code, Section 12990, set forth in Chapter 5 of Division 4 of Title 2 of the CCR are incorporated into this Contract by reference and made a part hereof as if set forth in full. Physician Group and Downstream Entities shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. Physician Group shall include the non-discrimination and compliance provisions of this Section 10.1 in all Downstream Entity subcontracts to perform work under this Contract.

10.2 Physician Group and all Downstream Entities shall abide by Section 504 of the Rehabilitation Act of 1973 (29 USC §794) (nondiscrimination under Federal grants and programs); Title 45 CFR Part 84 (nondiscrimination on the basis of handicap in programs or activities receiving Federal financial assistance); Title 28 CFR Part 36 (nondiscrimination on the basis of disability by public accommodations and in commercial facilities); Title IX of the Education Amendments of 1972 (regarding education programs and activities); Title 45 CFR Part 91 and the Age Discrimination Act of 1975 (discrimination based on age); and all other laws regarding privacy and confidentiality. Neither the Physician nor Downstream Entities shall discriminate against Enrollees because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, or physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C., Section 2000d (race, color, national origin); 45 CFR Part 84 (physical or mental handicap); Government Code Section 11135 (ethnic group identification, religion, age, sex, color, physical or mental handicap); Civil Code Section 51 (all types of arbitrary discrimination); rules and regulations promulgated pursuant thereto, or as otherwise provided by Laws.

10.3 For the purpose of this Contract, if based on any of the foregoing criteria, the following constitute unlawful discriminations: (i) denying any Enrollee any Covered Services or availability of a facility; (ii) providing to an Enrollee any Covered Service that is different or is provided in a different manner or at a different time from that provided to other similarly situated Enrollees under this Contract, except where medically indicated; (iii) subjecting an Enrollee to segregation or separate treatment in any manner related to the receipt of any Covered Service; (iv) restricting an Enrollee in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any Covered Service; or (v) treating an Enrollee differently from others similarly situated in determining compliance with admission, enrollment, quota, eligibility, or other requirements or conditions that individuals shall meet in order to be provided any Covered Service or assigning the times or places for the provision of Covered Services.

10.4 Physician Group shall take affirmative action to ensure that all Enrollees are provided Covered Services without unlawful discrimination, except where medically indicated. For the purposes of this Section 10.4, physical handicap includes the carrying of a gene that may, under some circumstances, be associated with disability in that person's offspring, but which causes no adverse effects on the carrier. Such genetic handicap shall include,

but not be limited to, Tay-Sachs trait, sickle cell trait, thalassemia trait, and X-linked hemophilia.

10.5 Physician shall act upon all complaints alleging discrimination against Enrollees in accordance with CalOptima's Policies and shall forward copies of all such grievances to CalOptima within five (5) days of receipt of same.

11. **Smoke Free Workplace**. Public Law 103-227, also known as the Pro Children Act of 1994 ("**Pro Children Act**"), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education, or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party. By signing this Contract, Physician Group certifies that it will comply with the requirements of the Pro Children Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Pro Children Act. Physician further agrees that it will insert this certification into any subcontracts entered into that provide for children's services as described in the Pro Children Act.

12. **Air or Water Pollution Requirements**. Any federally funded agreement and/or subcontract in excess of $100,000 must comply with the following provisions unless said agreement is exempt under 40 CFR 15.5. Physician Group agrees to comply with all applicable standards, orders, or requirements issued under the Clean Air Act (42 USC 7401 *et seq*.), as amended, and the Federal Water Pollution Control Act (33 USC 1251 *et seq*.), as amended.

13. **Lobbying Restrictions and Disclosure Certification**. Any federally funded contracts in excess of $100,000 per Section 1352 of the 31, U.S.C. must comply with the following lobby restrictions and disclosures.

13.1 Each person (or recipient) who requests or receives a contract, subcontract, grant, or sub-grant, which is subject to 31 U.S.C. Section 1352 and which exceeds $100,000 at any tier, shall file a certification (in the form set forth in **Attachment E-1**, consisting of one page, entitled "Certification Regarding Lobbying") that the recipient has not made, and will not make, any payment prohibited by Subsection 13.6 of this attachment.

13.2 Each recipient shall file a disclosure (in the form set forth in **Attachment E-2**, entitled "Standard Form-LLL 'Disclosure of Lobbying Activities'") if such recipient has made or has agreed to make any payment using non-appropriated funds (to include profits from any covered federal action) in connection with a contract or grant or any extension or amendment of that contract or grant, which would be prohibited under Section 13.6 of this attachment if paid for with appropriated funds.

13.3 Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Section

13.2 of this attachment. An event that materially affects the accuracy of the information reported includes: (i) a cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action; (ii) a change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or (iii) a change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.

13.4 Each person (or recipient) who requests or receives, from a person referred to in Section 13.1 of this attachment, a contract, subcontract, grant or sub-grant exceeding $100,000 at any tier under a contract or grant shall file a certification and a disclosure form, if required, to the next tier above.

13.5 All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Section 13.1 of this attachment.

13.6 31 U.S.C. Section 1352 provides in part that no appropriated funds may be expended by the recipient of a federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan, entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

14. **Debarment Certification**. Physician Group agrees to comply with applicable Federal suspension and debarment regulations including 7 CFR § 3017, 45 CFR §76, 40 CFR § 32, or 34 CFR § 85.

14.1 Physician Group certifies to the best of its knowledge and belief, that it and its principals:

(i) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(ii) Have not within a three (3)-year period preceding this Contract have been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(iii) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, State or local) with commission of any of the offenses enumerated in sub-provision (ii) herein;

(iv) Have not within a three (3)-year period preceding this Contract had one or more public transactions (Federal, State or local) terminated for cause or default;

(v) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under Federal regulations (i.e., 48 CFR 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State; and

(vi) Will include a clause entitled, "Debarment and Suspension Certification'' that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

14.2 If Physician Group is unable to certify to any of the statements in this certification, the Physician shall submit an explanation to CalOptima.

14.3 The terms and definitions in this Section 14 have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

14.4 If Physician Group knowingly violates this certification, in addition to other remedies available to the federal government, CalOptima may terminate this Contract for cause or default.

15. **Downstream Entity Contracts**. If any services under this Contract are to be provided by a Downstream Entity subcontracted by Physician Group, Physician Group shall ensure that such subcontracts comply with 42 CFR Sections 422.504, 423.505 and 438.6(l). Such subcontracts shall include all language required by CMS as provided in Attachment F**.**

16. **Other Statutory and Compliance Terms**. Physician Group shall not contract with, or otherwise pay for any items or services (other than an emergency item or service, not including items or services furnished in an emergency room of a hospital):

16.1 Furnished by Physician Group by any individual or entity during any period when the individual or entity is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156 or 1842(j)(2);

16.2 Furnished at the medical direction or the prescription of a physician, during the period when such physician is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156, or 1842(j)(2) and when the person furnishing such item or service knew, or had some reason to know, of the exclusion (after a reasonable time period and after reasonable notice has been furnished to the person);

16.3 Furnished by an individual or entity to whom the State has suspended payments to during any period when there is a pending investigation of a credible allegation of fraud against the individual or entity, unless the State determines there is good cause not to suspend such payments;

16.4 Physician Group may not pay for an item or service with respect to any amount expended for which funds may not be used under the Assisted Suicide Funding Restriction Act of 1997

CERTIFICATION REGARDING LOBBYING

STATE OF CALIFORNIA
DEPARTMENT OF HEALTH CARE SERVICES
CERTIFICATIN REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making, awarding or entering into of this Federal contract, Federal grant, or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of this Federal contract, grant, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency of the United States Government, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure of Lobbying Activities'' in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontractors, subgrants, and contracts under grants and cooperative agreements) of $100,000 or more, and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S.C., any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime federal recipients at the initiation or receipt of a covered federal action, or a material change to a previous filing, pursuant to Title 31, U.S.C., Section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

Identify the type of covered federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered federal action.

Identify the status of the covered federal action.

Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered federal action.

Enter the full name, address, city, state, and ZIP code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants, and contract awards under grants.

If the organization filing the report in Item 4 checks "Subawardee," then enter the full name, address, city, state, and ZIP code of the prime federal recipient. Include Congressional District, if known.

Enter the name of the federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation United States Coast Guard.

Enter the federal program name or description for the covered federal action (Item 1). If known, enter the full Catalog of Federal Domestic Assistance (CDFA) number for grants, cooperative agreements, loans, and loan commitments.

Enter the most appropriate federal identifying number available for the federal action identified in Item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract grant, or loan award number; the application/proposal control number assigned by the federal agency). Include prefixes, e.g., "RFP-DE-90401."

For a covered federal action where there has been an award or loan commitment by the federal agency, enter the federal amount of the award/loan commitment for the prime entity identified in Item 4 or 5.

10. (a) Enter the full name, address, city, state, and ZIP code of the lobbying entity engaged by the reporting entity identified in Item 4 to influence the covered federal action.

10. (b) Enter the full names of the Individual(s) performing services and include full address if different from 10.(a). Enter last name, first name, and middle initial (MI).

Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (Item 4) to the lobbying entity (Item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with federal officials, identify the federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.

The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and renewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of Management and Budget, Paperwork Reduction Project, (0348-0046), Washington, DC 20503.

ATTACHMENT F
SUBCONTRACT REGULATORY TERMS

A. **General Terms**: Language addressing the following matters shall be included in Downstream subcontracts:

1. The right of CalOptima's Regulators to monitor, audit, evaluate, inspect and have access to books, records and other information as provided in this Contract.
2. CalOptima's Regulators' right to inspect, evaluate, and audit any pertinent information related to the Contract for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit as provided in this Contract.
3. Prohibitions against holding Enrollees liable for payment of any fees that are the obligation of CalOptima or the Physician Group, as applicable.
4. The services are in accordance with CalOptima's obligations to CMS and applicable CalOptima Policies.
5. The obligations of Downstream Entities to protect Enrollee privacy and confidentiality including health records, as provided in this Contract.
6. The obligation to comply with all federal and state laws, regulations and CMS instructions, including those laws that must be incorporated into such Downstream subcontracts as indicated in this Contract.
7. Language related to the obligations to submit timely and accurate Encounter Data and other data and reports required by CalOptima and CalOptima's Regulators as provided in this Contract and in CalOptima's Policies.
8. All requirements included in Attachment E not expressly addressed herein.

B. **Delegation Terms**. If, and to the extent that sub-delegation is permitted by CalOptima and Physician Group obtains CalOptima's approval as provided in this Contract, Downstream Entity subcontracts must include:

1. Language that specifies (i) the delegated activities and reporting requirements; (ii) that provides for revocation of the delegated activities and other remedies in the event CalOptima or CalOptima's Regulators find that the delegated party as not performed satisfactorily; (iii) that the performance of the parties is monitored by CalOptima on an ongoing basis; and (iv) that CalOptima may impose corrective action as necessary.
2. If the subcontract relates to credentialing of medical providers, language that the credentials of medical professionals affiliated with the party or parties will either be reviewed by CalOptima or the credential process will be reviewed and approved by CalOptima and that CalOptima must audit the process on an ongoing basis.
3. If the subcontract delegates selection of providers it must include language that CalOptima retains the right to approve, suspend or terminate any such arrangement and that CalOptima shall provide a written statement to a provider of the reason or reasons for the termination with cause.

C. **Medical Provider Downstream Subcontract Terms**.

All subcontracts or arrangements with medical providers shall include provisions addressing:

1. The term of the contract, including the beginning and ending dates as well as methods of extension, renegotiation and termination and full disclosure of the method and amount of compensation or other consideration.

2. The obligation to pay contracted medical providers under the terms of the contract and prompt payment provision, the terms of which are developed and agreed to by the parties.

3. The obligations to provide services in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills, and diverse culturally and ethnic background and provide interpreter services for Enrollees at all provider sites.

4. The obligation to (i) abide by all federal and state laws and regulations regarding confidentiality and disclosure of medical records, or other health and enrollment information; (ii) to ensure that medical information is released in accordance with applicable federal or state law, or pursuant to court orders or subpoenas; (iii) to maintain Enrollee records and information in an accurate and timely manner; and (iv) to ensure timely access by Enrollees to the records and information that pertain to them.

5. The obligation to hold CalOptima, CalOptima's Regulators and Enrollees harmless in the event that Physician Group cannot or will not pay for services performed by the Downstream Entity and for Medicare Part A and B cost sharing. Specifically, Medicare Parts A and B services must be provided at zero cost-sharing to Enrollees.

6. Medical providers' EMTALA obligations and that they must not create any conflicts with hospital actions required to comply with EMTALA.

7. Language prohibiting providers, including PCPs, from closing or otherwise limiting their acceptance of Enrollees as patients unless the same limitations apply to all commercially insured Enrollees.

8. Language that prohibits the Downstream Entity from refusing to contract or pay an otherwise eligible health care Provider for the provision of Covered Services solely because such Provider has in good faith: (a) Communicated with or advocated on behalf of one or more of his or her prospective, current or former patients regarding the provisions, terms or requirements of the 'Downstream Entity's health benefit plans as they relate to the needs of such Provider's patients; or (b) communicated with one or more of his or her prospective, current or former patients with respect to the method by which such Provider is compensated by the Downstream Entity for services provided to the patient.

9. Language that states the Provider is not required to indemnify the Physician Group for any expenses and liabilities, including judgments, settlements, attorneys' fees, court costs and any associated charges, incurred in connection with any claim or action brought against the Physician Group based on its management decisions, utilization review provisions or other policies, guidelines or actions.

10. The obligation of the medical provider to assist CalOptima in the transfer of care, including in the transfer of care in the event of sub-subcontract termination for any reason.

11. Acknowledgement that assignment or delegation of the subcontract will be void unless prior written approval is obtained from CMS and CalOptima.

12. 'The Provider's right to submit a grievance and a description of the formal process to resolve the Provider's grievances.

13. The obligation to participate and cooperate in Physician Group's Quality Improvement System.

14. Language addressing requirements related to payment of Non-Participating Provider

emergency and post-stabilization services.

ATTACHMENT G
CMS SPECIFIC PROGRAM PERFORMANCE REQUIREMENTS

1. HCC Coding Requirements and Performance Improvement Activities

1.1 CMS pays CalOptima health-based capitation to compensate CalOptima for services rendered to Enrollees. CMS utilizes encounter data to assign Hierarchical Condition Categories ("**HCC**") to Enrollees. The Enrollee's HCC determines the payment amount received by CalOptima accounting for the variation in expenditures for Medicare Enrollees based on an Enrollee's health status.

1.2 Physician Group shall submit Enrollee-specific accurate encounter and service data. Encounters are to be submitted no less than monthly using the ANSI 837P and/or 837I format version 5010 as appropriate, or current format as required by CalOptima.

1.3 Physician Group shall support and aid CalOptima's review of encounters, including to production and/or access of supporting medical records.

1.4 To enhance encounter submission accuracy and completeness, CalOptima has initiated performance improvement activities ("**PIAs**"). These PIAs include Enrollee medical and behavioral health assessments provided in the home or a residential facility.

1.5 Physician Group has the option to perform these PIAs provided Physician Group can demonstrate that Physician Group's PIAs meet all CalOptima standards and guidelines. Should Physician Group not perform the PIAs or Physician Group's PIAs not meet CalOptima standards and guidelines as determined by CalOptima, CalOptima shall perform these activities on behalf of Physician Group and the cost for these PIAs shall be charged to or shared with Physician Group. CalOptima will provide sixty (60) days' notification prior to taking any such action.

2. ESRD Waiver Responsibilities

2.1 Physician Group shall demonstrate to CalOptima that Physician Group administers a CalOptima-approved complex case management program for all End Stage Renal Disease (ESRD) Enrollees, which is in accordance with CMS requirements and CalOptima Policies and standards.

2.2 CalOptima shall advise Physician Group if its ESRD complex case management program does not meet CMS requirements and CalOptima Policies and clinical standards. If Physician Group cannot meet requirements as provided by CalOptima, CalOptima shall have the option to de-delegate the Physician Group for the management of ESRD Enrollees and retain a portion of the Capitation Payment for ESRD Enrollees commensurate with the costs for providing or outsourcing such services.

2.3 CalOptima shall provide notification to Physician Group of the intent to de-delegate. Physician Group shall have the opportunity to submit a corrective action plan to CalOptima in accordance with CalOptima policy.

3. Appeals Rights

Physician Group may appeal CalOptima's decision to take the actions outlined above, by filing a complaint pursuant to CalOptima Policies. If Physician Group is dissatisfied with the result of any appeal; it shall proceed in accordance with CalOptima's legal claims and judicial review policy.

MEDICARE ADVANTAGE – HOSPITAL SERVICES CONTRACT

BETWEEN

ORANGE COUNTY HEALTH AUTHORITY DBA CALOPTIMA

AND

_____

TABLE OF CONTENTS

MEDICARE ADVANTAGE HOSPITAL SERVICES CONTRACT

This Medicare Advantage Hospital Services Contract ("**Contract**") is January 1, 2023 ("**Effective Date**") by and between Orange County Health Authority, a public agency dba CalOptima ("**CalOptima**"), and _____ ("**Hospital**"), a California corporation organized under the laws of the State of California. CalOptima and Hospital may each be referred to herein as a "**Party**" and collectively as the "**Parties**".

RECITALS

A. CalOptima is a County Organized Health System ("**COHS**") organized under Welfare & Institutions Section 14087.54 and Orange County Ordinance No. 3896.

B. CalOptima is licensed as a health care service plan by the California Department of Managed Health Care ("**DMHC**") under the Knox-Keene Health Care Service Plan Act of 1975 and its implementing regulations (collectively the "**Knox-Keene Act**") and authorized to offer a Medicare Advantage ("**MA**") plan pursuant to Title 42 of the United States Code, Chapter 7, Subchapter XVIII, Part C and its implementing regulations for individuals covered under the federal Medicare program.

C. CalOptima, as a dual–eligible special needs plan ("**DSNP**"), may only enroll those dual eligible individuals who meet all applicable Medicare Advantage eligibility requirements, and who are eligible to be enrolled in CalOptima's Medi-Cal Managed Care plan, as described in the contract between CalOptima and the California Department of Health Care Services ("**DHCS**").

D. Hospital is a licensed and experienced in providing hospital services to Medicare beneficiaries.

E. Hospital and the physician groups set forth in Addendum 1 ("**Physician Group**") have affiliated to operate as a physician-hospital consortium ("**PHC**"), which is an arrangement under which Hospital and Physician Group each participate in a risk pool for Covered Services provided to Enrollees as detailed in Section 2.7, for the purpose of providing or arranging for the provision of Covered Services to Enrollees under this Contract and Physician Group's contract with CalOptima ("**Physician Group Contract**"). Hospital and Physician Group may collectively be referred to herein as "**PHC Participants**".

F. Hospital recognizes that in order to comply with the requirements of this Contract, Hospital and Physician Group must operate in a manner that is mutually beneficial to both entities affiliated to operate as a PHC. Accordingly, Hospital agrees under this Contract and Physician Group has agreed under the Physician Contract to collectively and individually coordinate and cooperate with each other and with CalOptima in arranging for and providing Covered Services to Enrollees.

G. CalOptima and Hospital desire to enter into the Contract whereby Hospital will perform delegated administrative services and furnish health care items and services as described herein to certain Enrollees enrolled in CalOptima's MA plan.

F. Unless defined elsewhere in the Contract, the defined terms used in this Contract shall have the meanings set forth in Attachment A.

NOW, THEREFORE, in consideration of the promises and the mutual covenants herein stated, it is agreed by and between the Parties as follows:

I. HOSPITAL SERVICE OBLIGATIONS

1.1 **Covered Services**. Hospital shall provide Covered Services to Enrollees selecting, and assigned to, Hospital in accordance with all provisions of this Contract and CalOptima Policies. The Covered Services that are to be provided by and are the financial responsibility of Hospital are described in Attachment B. Hospital specifically agrees to accept financial risk and responsibility for injectables pursuant to Health & Safety Code Section 1375.8.

1.1.1 Hospital shall provide Covered Services: (i) in the same manner, in accordance with the same standards, and within the same time availability as offered to non-CalOptima patients; (ii) in accordance with professionally recognized standards of practice, (iii) in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills and from diverse cultural and ethnic backgrounds; and (iv) not discriminate in the provision of such Covered Services because of an Enrollee's race, ethnicity, color, national origin, religion, sex, sexual orientation, age, medical or claims history, mental or physical disability, genetic information, or source of payment.

1.1.2 Hospital is prohibited from closing or otherwise limiting its acceptance of Enrollees as patients unless the same limitations apply to all of its commercially insured patients.

1.1.3 Hospital shall use its best efforts, where consistent with sound medical practice, to ensure that Covered Services are provided only by Participating Providers, except in cases of Emergency Services or Urgent Care Services, or if no such Participating Provider is available to perform the appropriate Covered Services.

1.1.4 Hospital shall be liable for the provision and payment of all Covered Services notwithstanding a delay in payment of the Capitation Payment.

1.1.5 Hospital acknowledges that the determination of whether a service or supply was/is a Covered Service delegated to Hospital rests with CalOptima, subject to the Evidence of Coverage and Appeals procedures established by the DMHC and CMS.

1.1.6 CalOptima may incorporate any change in Covered Services mandated by Laws into the Contract effective the date the change goes into effect. Whenever possible, CalOptima shall give the Hospital thirty (30) calendar days' prior notice of any such change to the Contract. CalOptima shall determine the effective date of the change in Covered Services. Attachment B shall not be amended during the current Term without mutual consent of the Parties, except as may be required for continued compliance with Laws.

1.1.7 Decisions concerning whether to provide or authorize Covered Services under this Contract shall be based solely on Medical Necessity. Hospital shall not deny Authorization for a Covered Service that the Enrollee or the Provider demonstrates is Medically Necessary. The actual provision of any Covered Service is subject to the professional judgment of the PCP or other physicians and/or Providers participating with Hospital as to the Medical Necessity of the Covered Service, except that each Physician shall provide assessment and evaluation services ordered by a court or legal mandate. Hospital acknowledges that disputes between the Hospital and Enrollees about Medical Necessity can be appealed pursuant to CalOptima Policies and Laws.

1.1.8 Hospital may not arbitrarily deny or reduce the amount, duration, or scope of a required Covered Service solely because of the diagnosis, type of illness, or condition. Hospital may place appropriate limits on a service on the basis of criteria such as Medical Necessity or for utilization control, provided the services furnished can reasonably be expected to achieve their purpose and such a limitation complies with Laws.

1.2 **Confidentiality**. Hospital and CalOptima agree to safeguard the confidentiality of Enrollee information and comply with all Laws (including, but limited to, the Health Insurance Portability and Accountability Act ("HIPAA"), 42 CFR Section 431.300 *et seq*., California Welfare and Institutions Code Section 14100.2, California Civil Code Section 56 *et seq.*, and the California Information Practices Act, Civil Code Section 1798) regarding the confidentiality and disclosure of Enrollee names, health, enrollment and personal information (including medical and Behavioral Health information contained in Medical Records). Hospital shall provide counseling to Enrollees on their right to confidentiality and obtain Enrollee consent prior to releasing confidential information unless such consent is not required pursuant to Title 22 CCR Section 51009.

1.3 **Emergency Services and Urgent Care**. Hospital shall insure that it provides and pays for all Emergency Services and Urgent Care, including those services provided by Non-Participating Providers, without prior Authorization, twenty-four (24) hours each day, seven (7) days a week, in accordance with Laws and CalOptima Policies. Hospital shall coordinate access to Emergency Services in accordance with CalOptima's emergency department protocol. Hospital shall ensure adequate follow-up care for those Enrollees who have been screened in the emergency room and require non-Emergency Services. Hospital may not specify what constitutes an Emergency Medical Condition on the basis of lists of diagnoses or symptoms.

1.4 **Clinical Laboratory Improvement Amendments**. Hospital shall only use laboratories with a Clinical Laboratory Improvement Amendments ("**CLIA**") certificate of waiver or a certificate of registration along with a CLIA identification number.

1.5 **CalOptima Formulary Compliance**. Participating Providers shall comply with the CalOptima Formulary and its associated drug utilization and disease management guidelines and protocols. Requests for items not included in the CalOptima Formulary shall require prior Authorization by CalOptima. The prescribing Physician shall be responsible for obtaining Authorization through CalOptima and/or its designated pharmacy benefit management contractor ("**PBM**"), as appropriate. The prescribing Physician shall provide CalOptima and/or the PBM with all information necessary to process Authorization requests.

1.6 **Enrollee Access**. Hospital and its Downstream Entities shall comply with all Laws and CalOptima Policies governing Enrollee access to Covered Services.

1.6.1 If Hospital is unable to provide necessary Covered Services to a particular Enrollee, Hospital must adequately and timely cover these services with Non-Participating Providers for the Enrollee, for as long as Hospital is unable to provide them. Hospital shall make prior arrangements with Non-Participating Providers for the provision of such services, shall be fully responsible for arranging and paying for such services, and shall comply with all applicable CalOptima Policies with regard to the payment and Authorization of Non-Participating Providers.

1.6.2 Hospital shall ensure that PCPs as well as Specialty Physicians are located so as to assure sufficient geographic and physical access of Enrollees to such providers as required by Laws and CalOptima Policies.

1.6.3 Hospital shall ensure that each Enrollee has a PCP who is available and physically present at the service site for sufficient time to ensure access for the assigned Enrollee when medically required. This requirement does not preclude an appropriately licensed professional from being a substitute for the PCP in the event of the PCP's vacation, illness, or other unforeseen circumstances.

1.6.4 Hospital shall ensure female Enrollees have direct access to a women's health specialist within the network to provide women's routine and preventative health care services. Such access may be in addition to the Enrollee's PCP.

1.6.5 Hospital shall cover family planning services for all Enrollees whether they are provided by a Participating Provider or Non-Participating Provider.

1.6.6 Hospital shall reasonably accommodate Enrollees and ensure programs and services are as accessible (including a sufficient number of Providers and geographic access) to an Enrollee with disabilities as they are to an Enrollee without disabilities in accordance with CalOptima Policies. Hospital's facilities shall comply with the requirements of Title III of the Americans with Disabilities Act of 1990 ("**ADA**") and shall ensure access for the disabled, including, but not limited to, ramps, elevators, restrooms, designated parking spaces, and drinking water provisions. Hospital shall have policies to ensure that physical, communication and programmatic barriers do not inhibit Enrollees with disabilities from obtaining all Covered Services, including addressing reasonable accommodations required by the CMS Contract and CalOptima Policies. Hospital will comply with CalOptima Policies and work plan requirements related to ADA compliance relevant to services under this Contract.

1.7 **Provider Network Maintenance**. Hospital agrees to employ or contract with a sufficient number of hospitals to ensure Enrollees of reasonable access to the full range of Covered Services.

1.7.1 During the Term, all Participating Providers of Covered Services must: (i) be and remain qualified in accordance with current applicable legal, professional, and technical standards; (ii) be and remain appropriately licensed, certified or registered; (iii) be and remain in good standing with Medicare and not be terminated or suspended from participation in the Medicare and/or Medi-Cal programs; and (v) have a valid NPI number, as applicable. Hospital shall ensure that PCPs are located so as to assure sufficient geographic and physical access of Enrollees to such Physicians under Laws and CalOptima Policies.

1.7.2 Hospital shall ensure that Participating Providers have the requisite training and experience in dealing with the medical problems frequently encountered in elderly, disabled, and special needs individuals.

1.7.3 Hospital shall use primary source verification to confirm the board certification in each clinical specialty area for which the Physician is being credentialed if the Physician lists such board certification on credentialing applications.

1.7.4 Hospital acknowledges that the requirements of this Section 1.9 apply to each individual Provider who is affiliated with and/or part of any medical group, independent physician associations ("**IPA**"), and/or other organization or entity that contracts with Hospital to furnish Covered Services to Enrollees.

1.7.5 Hospital will maintain accurate records, including records detailing the status, membership, and qualifications of the Participating Providers in the Hospital's network.

1.7.6 In the event a Provider who seeks to become a Participating Provider is denied a contract with Hospital or a Participating Provider is suspended or terminated for cause, Hospital shall provide the Provider with written notice of the reason for the action, as required by Laws, including any standards and profiling data Hospital used to evaluate the provider, the number and mix of similar health care Providers that Hospital needs (if applicable), and notice of the Provider's right to appeal the action, including notice of the process and timing to request a hearing. In the event Hospital terminates a contract with a Participating Provider for deficiencies in the quality of care provided, Hospital shall give notice of the action to CalOptima, as provided by CalOptima Policies, and to the appropriate licensing and disciplinary bodies, as provided by law.

1.7.7 In the event that a Provider, including a PCP, is terminated or leaves the Hospital for any reason, Hospital shall give written notification of termination of such Provider to CalOptima within fifteen (15) days after receipt or issuance of the termination notice.

1.7.8 In the event that a Provider, including a PCP, is terminated or leaves the Hospital for any reason, Hospital shall ensure that there is no disruption in services provided to Enrollees who are receiving treatment for a chronic or ongoing medical condition in accordance with applicable Laws.

1.7.9 Hospital shall notify CalOptima at least sixty (60) days before any significant change in Hospital's provider network that renders Hospital unable to provide one or more Covered Services within CalOptima's access to care standards. If such notice is not possible because the providers terminate their participation with less than sixty (60) days' notice or Hospital terminates the providers without prior notice as a result of their endangering the health and safety of Enrollees, providers committed criminal or fraudulent acts, or providers engaged in grossly unprofessional conduct, then Hospital shall notify CalOptima immediately upon receipt of notice of the termination, or sending notice to the providers of a Hospital-initiated termination.

1.7.10 Hospital shall ensure that no Provider who fails to meet the requirements of this section furnishes items and/or services to Enrollees, submits claims and/or receives reimbursement for any Covered Services.

1.7.11 Hospital agrees that each Participating Provider with whom Hospital contracts to provide Covered Services will be required to execute a contract with Hospital. Such an agreement will require all Participating Providers to comply with those aspects of this Contract relating to activities of Participating Providers and with Laws, including the standards of accrediting and regulatory agencies governing CalOptima's MA Program, and any and all provisions required by MA regulations. The Hospital agreement with Participating Providers shall be made available to CalOptima and its regulatory agencies for inspection and copying upon request. Hospital shall ensure that all contracts with Participating Providers allow for termination of the contract for failure to meet the requirements of this Section 1.9.

1.8 **Enrollment**. Hospital shall accept as Enrollees all persons indicated as Enrollees by the CalOptima information system and transmitted to Hospital and shall comply with requirements to provide notices to Enrollees in accordance with CalOptima Policies.

1.9 **Care Coordination**. Hospital shall offer care coordination and case management services to all Enrollees, which shall: (i) include coordination of care across the full continuum of service providers as appropriate to Covered Services under this Contract; (ii) ensure that care coordination services reflect a person-centered, outcome-based approach, consistent with the Model of Care and CalOptima Policies; (iii) follow Enrollee direction about level of involvement of his or her caregivers or medical providers; (iv) include the assignment of a qualified Care Coordinator to each Enrollee needing or requesting one; and (v) reflect access to appropriate community resources with a focus on providing services in the least restrictive setting and transitions between the facilities and the community.

1.10 **Model of Care**. Hospital shall furnish Covered Services in compliance with CalOptima's Model of Care. Hospital shall ensure the provision of discharge planning when an Enrollee is admitted to a Hospital or institution and continues into the post-discharge period. Discharge planning shall include ensuring that the necessary care, services, and supports are in place in the community for the Enrollee once he or she is discharged, including scheduling an outpatient appointment and/or conducting follow-up with the Enrollee or caregiver. Hospital shall comply with CalOptima Policies addressing minimum criteria requirements for discharge planning.

1.11 **Behavioral Health Services Referrals**. Hospital shall furnish and/or coordinate Behavioral Health services as specified in CalOptima Policies and this Contract.

1.12 **LTSS Referrals**. Hospital shall refer Enrollees to CalOptima for LTSS pursuant to CalOptima Policies.

1.13 **Facility Site and Medical Record Reviews**. Hospital shall participate in, and comply with requirements for, PCP site and medical reviews, including facility site physical accessibility reviews, in accordance with CalOptima Policies and guidance issued by CalOptima's Regulators, including requirements, if any, related to collaborative programs.

1.14 **Transfers**. Hospital agrees to assist CalOptima in facilitating the transfer of care of Enrollees if determined medically acceptable by attending Physicians and the CalOptima Medical Director. Hospital will be responsible for the cost of Covered Services provided if Hospital refuses to accept such transfer.

1.15 **Delegation by CalOptima to Hospital**. Hospital agrees to accept delegated responsibility for those activities listed in the Delegation Agreement and to perform the delegated activities in a manner consistent with the Delegation Criteria. Hospital warrants that it meets CalOptima's Delegation Criteria and acknowledges that delegation to another entity does not alter Hospital's ultimate obligations and responsibilities set forth in this Contract. Hospital agrees to notify CalOptima of any change in its ability to meet the Delegation Criteria within twenty-four (24) hours from the date it fails to meet such Delegation Criteria. At CalOptima's request, Hospital shall identify the Compliance Officer or other appropriate health network representative to be the liaison expressly responsible for oversight of delegated obligations.

1.15.1 Hospital acknowledges that it is CalOptima's responsibility to oversee, monitor and evaluate Hospital's ongoing eligibility for delegation according to the Delegation Criteria and performance of the delegated activities according to the Delegation Criteria. Hospital agrees to cooperate with CalOptima's oversight, monitoring, and evaluation of Hospital's eligibility and performance of delegated activities, including the provision of reasonable access during regular business hours to the Enrollee inquiry files, credentialing files, clinical and Medical Records of Enrollees, and all other information requested by

CalOptima. Hospital shall comply with corrective actions imposed by CalOptima and/or CalOptima's Regulators in the time and manner required by them.

1.15.2 Hospital acknowledges and agrees that CalOptima retains final authority and responsibility for activities delegated under this Contract. Activities not expressly delegated herein and in the Delegation Agreement by CalOptima or for which delegation is terminated are the responsibility of CalOptima.

1.15.3 Hospital agrees to provide CalOptima with periodic reports on delegated activities performed by Hospital as provided in the Delegation Criteria or specified in CalOptima Policies.

1.15.4 In the event CalOptima, DMHC, or CMS is dissatisfied with the performance of delegated functions and activities by Hospital or its Downstream Entities, CalOptima may, in its sole discretion, modify Hospital's delegated status (in respect to all or a particular delegated activity), including from fully delegated to delegated with corrective action, or may immediately revoke all or part of the delegated activities. In the event Hospital breaches its obligation to perform any delegated obligations, CalOptima shall have all remedies set forth in this Contract, including the right to revoke delegation of such function(s) and impose financial and other penalties. Moreover, CalOptima shall have the right to require Hospital to terminate any Downstream Entity for good cause, including breach of its obligations to perform any delegated duties. Nothing herein is intended to limit CalOptima's remedies as provided for in this Contract or at law.

1.15.5 Hospital acknowledges and agrees that CalOptima, in its sole and absolute discretion, may reduce Hospital's Capitation Payments to recoup additional administrative costs where CalOptima revokes or modifies activities or functions delegated to Hospital under this Contract.

1.16 **Delegation and Subcontracting of Administrative Services by Hospital**. Except as otherwise limited by this Contract and/or CalOptima Policies, Hospital may sub-delegate Administrative Services required of Hospital to a management services organization ("**MSO**"), medical group and/or IPA. Delegation shall not absolve Hospital of oversight responsibilities or its obligations under this Contract. All requests for delegation of Administrative Services (i) must be in writing; (ii) are subject to successful completion of CalOptima's readiness assessment requirements; and (iii) must be approved by CalOptima in advance of undertaking the Administrative Services. Hospital shall obtain written approval of delegation from CalOptima pursuant to the process detailed in CalOptima Policies.

1.17 **Subcontracts**. Hospital is required to inform CalOptima of the name and business addresses of all subcontracted Downstream Entities. Hospital is required to ensure that all such subcontracts are in writing and include all provisions required by this Contract to be incorporated into subcontracts. Hospital acknowledges that CalOptima's FDR subcontracts are subject to the review and approval of CMS.

1.18 **Payment to Providers**. CalOptima hereby delegates claims processing functions to Hospital. Hospital shall review, adjudicate, and pay (as appropriate) all claims in accordance with the benefits set forth in the Evidence of Coverage, the requirements established by Laws, and the terms of this Contract. In making payments to Providers, Hospital shall comply with the provisions of Attachment D, including requirements related to payment of Non-Participating Provider Emergency Services and Urgent Care claims.

1.19 **Documentation and Data Submission Integrity**. Hospital and its Downstream Entities shall not submit false claims or financial reports, encounter data, and other information to CalOptima, CMS or DMHC, whether by commission or omission. Hospital and applicable Downstream Entities shall implement and maintain policies and procedures that address correct completion of claims, financial reports, encounter data, and other documentation requirements and penalties for falsifying such reports and other information that require all new and current employees and/or agents compiling or providing this information to sign a statement of attestation that will acknowledge understanding and compliance with said Hospital policy.

1.20 **Advance Directives**. Hospital shall maintain written policies and procedures related to Advanced Directives in compliance with Laws. Providers shall document Advance Directives in patient records in accordance with Laws. Hospital shall not discriminate against any Enrollee on the basis of that Enrollee's Advance Directive status. Nothing in this Contract shall be interpreted to require an Enrollee to execute an Advance Directive or agree to orders regarding the provision of life-sustaining treatment as a condition of receipt of services.

1.21 **Enrollee Appeals**. Enrollees will be notified of all applicable MA and/or Medicare Appeal rights, the form and content of which is approved by CMS. . Medicare Appeal rights and protections will be maintained and enhanced for Medicare services. Hospital agrees to cooperate with CalOptima in resolving Appeals related to Hospital or Hospital's Participating Providers and will comply with CalOptima Policies related to Appeals.

1.22 **Organization Determination Process**. Hospital agrees to comply with CMS regulations and instructions and CalOptima Policies pertaining to timely organization determination by Hospital with regard to the provision, denial, reduction, or suspension of a Covered Service to an Enrollee. "**Organization determination**" is defined as a decision to provide or deny service based on CMS and CalOptima criteria. Such determinations shall be made in accordance with procedures and instructions set forth in the CalOptima Policies and Laws. Hospital shall immediately notify CalOptima of any request for an expedited initial organization determination and submit to CalOptima on a monthly basis a report which tracks the requests for standard and expedited organization determinations and the timeframe within which Enrollees were informed of decisions made by Hospital.

1.23 **Expedited Review Process**. Hospital shall comply with CMS regulations and CalOptima Policies pertaining to expedited initial organization determinations of Enrollee's medical care and reconsideration (Appeals) thereof in the time sensitive situations. Time sensitive situations are those outlined by CMS which include medical conditions that require initial determinations to be made within seventy-two (72) hours upon Hospital receiving a request for an expedited review from a Provider, Enrollee, or CalOptima.

1.24 **Linguistic and Cultural Sensitivity**. Hospital shall comply with all requirements related to the provision of linguistic and culturally sensitive services in accordance to this Contract, CalOptima's Cultural and Linguistic Services Program, and CalOptima Policies. Hospital shall address the special health needs of Enrollees who are of any minority, are homeless, are disabled (both congenital and acquired disabilities), or are part of other special populations served by the CalOptima MA Program, including the capacity to communicate with Enrollees in languages other than English, when necessary, as well as those Enrollees who are deaf, hard-of-hearing, and/or visually impaired. Physician shall, in policies, administration, and services, practice the values of: (a) honoring the Enrollees' beliefs, traditions and customs; (b) recognizing individual differences within a culture; (c) creating an open, supportive, and responsive organization in which differences are valued, respected and managed; (d) through cultural diversity training, foster in staff and

Participating Providers attitudes and interpersonal communication styles that respect Enrollees' cultural backgrounds and are sensitive to their special needs; and (e) referring Enrollees to linguistically and culturally sensitive programs. Pursuant to CalOptima Policies, Hospital shall provide translation of written materials in the Threshold Languages as provided by CalOptima Policies. Written materials to be translated include, but are not limited to, signage, the Enrollee services guide, Enrollee information, Explanation of Coverage, Enrollee forms, Enrollee notices, and Enrollee welcome packages.

1.25 **Provision of Interpreters**. Oral interpreters, signers, and bilingual Provider services shall be provided in all languages spoken by all MA Enrollees. Hospital shall provide linguistic interpreter/translator services for Enrollees as necessary at all Hospital sites to ensure the availability of effective communication regarding treatment, diagnosis, medical history, and health education to Enrollees. Hospital shall provide twenty-four (24)-hour access to interpreter services for all Enrollees. Upon an Enrollee or Participating Provider request for interpreter services in a specific situation where care is needed, Hospital shall make all reasonable efforts to provide an interpreter in time to assist adequately with all necessary Covered Services, including Urgent Care Services and Emergency Services, as required by Laws. Hospital shall routinely document all such efforts and make this documentation available to CalOptima at its request. Interpreters shall be used where needed where technical, medical, or treatment information is to be discussed. Hospital shall not require an Enrollee to use friends or family as interpreters. However, a family member or friend may be used when the use of the family member or friend: (i) is requested by the Enrollee; (ii) will not compromise the effectiveness of service; (iii) will not violate Enrollee's confidentiality; and (iv) the Enrollee is advised that an interpreter is available at no cost to the Enrollee. Hospital shall maintain a contract with an interpreter service agency that is on "on call" status to provide interpreter services.

1.26 **Identification of Hospital**. Hospital agrees that CalOptima may list the Hospital's name, address, and telephone number and that of its Downstream Entities in CalOptima's roster of Participating Providers that is given to Enrollees and prospective Enrollees, and CalOptima may use such names for advertising/marketing purposes. The use of Hospital's trademarks or logos by CalOptima is prohibited without Hospital's prior written approval.

1.27 **Liaisons**. Hospital shall designate an individual(s) who will assume the day-to-day responsibilities with regard to Hospital's obligations under this Contract and to serve as liaison with CalOptima. Hospital will also designate an individual(s) to be responsible for answering Enrollee inquiries and responding promptly to any Enrollee grievance in accordance with CalOptima's grievance procedures and Laws.

1.28 **Provider Private Contract**. Hospital understands that CalOptima is prohibited by CMS from paying capitation to, or including in its provider network, any provider that has entered into a private contract with a Medicare beneficiary for the provision of Covered Services.

1.29 **Provider Grievance Process**. Hospital shall establish and maintain a Provider dispute resolution process that at all times complies with the requirements of Laws. Hospital shall provide CalOptima with all necessary information and reports regarding the provider dispute resolution process as required by CalOptima to meet its obligations under the CMS Contract and Laws. If Hospital fails to maintain a process that complies with the requirements stated in Laws and CalOptima Policies, then following written notice of such deficiency from CalOptima to Hospital, CalOptima may revoke the delegation and assume responsibility for the administration of Hospital's Provider dispute resolution process.

1.30 **Provider Education**. Hospital acknowledges that CMS requires that CalOptima furnish to Participating Providers certain training, education, and orientation related to the MA Program in order to operate in full compliance with this Contract and Laws. Such training and education may address the MA Program, Enrollee rights, cultural competency and clinical protocols, evidence-based guidelines and cultural awareness and sensitivity instruction. Hospital and its Participating Providers shall participate in such training, education, and orientation programs, as required by CalOptima, and shall attest to compliance with training requirements as required by CalOptima.

1.31 **CalOptima's Regulator Requirements**. The MA Program is subject to oversight by CalOptima's Regulators, which mandate that CalOptima and its FDRs comply with certain terms and conditions in rendering services to Enrollees and that certain terms be incorporated in FDR subcontracts. Hospital acknowledges that it will comply with CalOptima's Regulators' requirements set forth in Attachment E.

1.32 **COB Obligations of Hospital**. Hospital agrees to coordinate with CalOptima for proper determination of COB and to bill and collect from other payers and third-party liens such charges for which the other payer is responsible pursuant to CalOptima Policies. Hospital agrees to establish procedures to effectively identify, at the time of service and as part of its claims payment procedures, individuals and services for which there may be a financially responsible party other than the CalOptima MA Program.

1.33 **CMS Lien Rights.** Hospital shall coordinate benefits either operating a cost avoidance method of paying claims, when the existence of private health coverage is known at the time the claim is processed, or using the method of post-payment recovery of the cost of services, if the coverage is identified retroactively, as set forth in CalOptima Policies. Nothing herein shall be interpreted to, in any manner, impair any lien rights retained by the U.S. Department of Health and Human Services ("**HHS**") through CMS. Hospital shall make no claim for the recovery of the value of Covered Services rendered to an Enrollee when such recovery would result from an action involving tort liability of a third party, recovery from the estate of deceased Enrollee, Workers' Compensation, or casualty liability insurance awards and uninsured motorist coverage. Hospital shall identify and notify CalOptima, within five (5) calendar days of discovery of potential third-party liability ("**TPL**") claims, and provide information relative to potential TPL claims, in accordance with CalOptima Policies.

1.34 **Notification of Inpatient Facility Discharge Appeal Rights**. Hospital and its Downstream Entities shall issue the advance written notice to Enrollees of their Hospital discharge rights upon admission and before discharge from the Hospital.

II. HOSPITAL FINANCIAL OBLIGATIONS

2.1 **Financial Security Requirements**. Hospital must establish and maintain, throughout the Term, financial security reserves, in the form of time certificates of deposit, irrevocable standby letters of credit, surety bonds naming CalOptima as beneficiary, and/or other forms of financial instruments acceptable by CalOptima, as required in CalOptima Policies.

2.2 **Financial Viability Standards and Reporting**. Hospital must establish and maintain a minimum reserve of twenty-five percent (25%) of one month's Capitation Payment. Physician shall have thirty (30) days upon receiving notice from CalOptima to cure any deficit. Hospital shall maintain a cash-to-claims ratio of no less than 0.75 at all times during the Term.

2.3 **Medical Loss Ratio**. Hospital shall ensure that it, as well as the PHC, maintains a minimum acceptable loss ratio (as defined by CalOptima Policies) of eight five percent (85%). Hospital shall comply with CalOptima requirements related to limitations on administrative costs, as set forth in CalOptima Policies.

2.4 **Termination of Hospital Health Network**. If this Contract terminates or expires for any reason, CalOptima may require that Hospital take certain actions and/or CalOptima may take certain actions to ensure that all items and services for which Hospital is delegated financial risk under this Contract are reimbursed by Hospital, including the following: (i) require Hospital to reserve sufficient funds to pay any claims run out; (ii) offset Hospital's future Capitation Payments or other amounts due from CalOptima to Hospital under this Contract or any other agreement, if any, in order to pay Hospital's claims; and/or (iii) withhold or offset Hospital's Capitation Payments or other amounts due from CalOptima to Hospital, including to pay-for-performance, quality incentives, and shared risk pool surpluses, if any, in order to pay amounts owed by Hospital to Providers.

2.5 **Conversion of Health Network Model**. If CalOptima approves a change in the delegated model of Hospital at any time during the Term, CalOptima may require additional financial protections as a condition precedent to such approval, including: (i) require Hospital to reserve sufficient funds to pay any claims run out related to claims which are the financial responsibility of Hospital under the existing delegated relationship; (ii) require Hospital to meet additional financial security requirements, including the maintenance of financial deposits; and/or (iii) withhold or offset Hospital's Capitation Payments or other amounts due from CalOptima to Hospital, including pay-for-performance, quality incentives and shared risk pool surpluses, if any, in order to pay amounts owed by Hospital to Providers.

2.6 **Cooperation with DMHC**. Hospital shall fully cooperate and comply with the DMHC's review and audit process and permit DMHC to obtain and evaluate supplemental financial information related to Hospital. Hospital shall also fully cooperate and participate in DMHC's and CalOptima's Corrective Action Plan process, if necessary.

2.7 **Risk Pools**. PHC in which Hospital and Physician Group participate shall have a risk pool arrangement between Hospital and Physician Group, as detailed in this Section 2.7 and Addendum 1 to this Agreement and the Physician Group Contract. During the Term, Hospital and Physician Group shall annually negotiate and agree upon the terms and conditions of the risk pool arrangement ("**Risk Pool**") and shall submit the Risk Pool to CalOptima by November 30 for the next year. Hospital shall corporate with Physician Group so that Physician Group can submit to CalOptima an attestation signed by an authorized signatory of PHC Participants indicating that both Physician Group's and Hospital's Boards of Directors approved the Risk Pool. CalOptima shall pre-approve the Risk Pool before it may go into effect for the next year beginning January l. The Risk Pool shall include the following:

2.7.1 Covered Services for which PHC Participants will share risk.

2.7.2 If any part of the Risk Pool is based on utilization, the Risk Pool shall additionally include:

(a) The expected utilization of Covered Services for which PHC Participants will share risk. Recommended measures are bed days/per 1,000 Enrollees for inpatient services and $ [insert amount] per Enrollee per month for other Covered Services.

(b) The price or value for each Covered Service for which PHC Participants will share risk. These are the amounts that each unit of service will be valued at and charged against the portion of Hospital's capitation payment that the Hospital receives under the Contract and uses to fund to the Risk Pool. Inpatient rates should be listed as per diem rates, while other Covered Services should be priced by fee schedules or as a percentage of billed charges.

(c) A pro forma settlement calculation, which shall state the amount of surplus that is expected to result if Hospital and/or Physician Group achieve their utilization targets and the agreed-upon pricing model employed for the Risk Pool.

(d) A description of audit and/or other procedures required to ensure the accuracy of the surplus or deficit calculations related to the cost and volume of services rendered under the Risk Pool and other revenues and expenses, including interest income, reinsurance premiums, and reinsurance recoveries associated with risk sharing.

(e) Defined responsibilities should deficits occur under the Risk Pool.

(f) Timing and documentation requirements for interim or final surplus distributions from the Risk Pool by Hospital, as agreed upon between the PHC Participants.

2.7.3 Physician Group shall submit [insert requirement for when these should be submitted] to CalOptima interim and final settlement calculations and attestations from all PHC Participants stating that (i) PHC Participants have met all the requirements of this Section 2.7, (ii) PHC Participants have performed all audit and reconciliation procedures, and (iii) the distribution amount to each PHC Participant is consistent with the terms of the Risk Pool, which (as approved by CalOptima annually during the Term) is incorporated into this Contract by this reference.

III. CALOPTIMA OBLIGATIONS

3.1 **CalOptima Services**. CalOptima agrees to provide certain Enrollee and Administrative Services, including processing Enrollee applications, maintaining eligibility records and a system of verifying eligibility, processing enrollments and dis-enrollments, responding to Enrollee complaints and grievances, informing Enrollees of CalOptima Policies, providing Enrollees with membership cards and informational material, and informing Enrollees of Health Networks.

3.2 **Enrollment**. CalOptima agrees to process all enrollment applications and ensure that each Enrollee selects or is assigned to Health Networks in accordance with CalOptima Policies. CalOptima reserves the right to assign Enrollees to a Health Networks other than that selected by Enrollee.

3.3 **Authorization Process**. CalOptima shall provide a written Authorization process for Covered Services pursuant to CalOptima Policies.

3.4 **Enrollee Grievance Process**. CalOptima will inform Enrollees that they may file a grievance through CalOptima or the CMS Ombudsman Program for complaints related to Medicare-covered benefits and services. Enrollees may also file a grievance through 1-800 Medicare.

3.5 **Enrollee Appeals**. Enrollees will be notified of all applicable MA Medicare Appeal rights through a single notice prior approved by CMS.

3.6 **CalOptima Formulary**. CalOptima shall publish and maintain the CalOptima Formulary pursuant to CalOptima Policies.

3.7 **Training and Education**. CalOptima agrees to provide Participating Provider education, training, and orientation in accordance with CMS requirements, including training regarding the CalOptima MA Program, Enrollee rights, clinical protocols, evidence-based practice guidelines, and CalOptima's cultural awareness and sensitivity instruction and cultural competency training, as applicable.

3.8 **Marketing**. Hospital acknowledges that CalOptima will be responsible for marketing the CalOptima MA Program to Medicare beneficiaries. Hospital acknowledges that it shall not conduct any marketing activities except as expressly approved in advance and in writing by CalOptima.

3.9 **Administration of Funds**. CalOptima will administer the funds and payments called for in this Contract to Hospital in accordance with provisions outlined in Article VI.

3.10 **No Refusal to Pay or Contract Based on Hospital Communications with Enrollees**. CalOptima will not refuse to contract or pay an otherwise eligible health care Provider for the provision of Covered Services solely because such Provider has, in good faith, communicated with or advocated on behalf of one or more of his or her prospective, current, or former patients regarding: (i) the provisions, terms or requirements of CalOptima's health care plans as they relate to the needs of such Provider's Enrollees; or (ii) the method by which such Provider is compensated by CalOptima for Covered Services rendered to the Enrollee.

3.11 **CalOptima Policies**. CalOptima will provide Hospital with CalOptima Policies as necessary for Group to provide Covered Services to Enrollees. Those CalOptima Policies shall describe all benefit plans, including copayments, limitations, and exclusions offered by CalOptima to Enrollees. The Provider Manual will be made available to Hospital to disseminate to Physicians.

3.12 **Listing of CalOptima**. CalOptima agrees that Hospital may list its name, address, telephone number, and a description of the CalOptima MA Program, along with CalOptima's name, in Hospital's promotional materials and advertisements. The use of CalOptima's trademarks and logos by Hospital is prohibited without CalOptima's prior written approval.

3.13 **CalOptima Oversight**. CalOptima shall monitor Hospital's performance under this Contract on an ongoing basis. CalOptima may conduct regularly scheduled audits as well as an annual evaluation of the delegated functions to determine Hospital's continued compliance with the Delegation Criteria. CalOptima may impose corrective action plans on Hospital and/or its Downstream Entities, as necessary.

3.14 **CalOptima Accountability**. The delegation of the functions and responsibilities stated in this Contract and the Delegation Agreement does not relieve CalOptima of any of its accountability to CMS and obligations to its Enrollees under Laws. CalOptima is authorized to perform and remains liable for the performance of such obligations, notwithstanding any delegation of some or all of those obligations to Hospital.

3.15 **COB Obligations of CalOptima**. CalOptima will cooperate in providing COB information to Hospital by collecting appropriate data from the Enrollee at the point of enrollment and supplying such data to Hospital.

3.16 **Enrollee Rights**. CalOptima shall ensure that Enrollee rights are fully respected and observed in accordance with Laws and CalOptima Policies. CalOptima shall notify Enrollees of their rights and protections at least annually and in a manner that accounts for cultural considerations, functional status, and language needs.

3.17 **Enrollee Grievances**. CalOptima retains responsibility for the Enrollee grievance process. Hospital will comply with CalOptima Policies related to Enrollee grievances, including timely reporting to CalOptima and resolution of Enrollee grievances. Enrollees may file an internal Enrollee grievance at any time with CalOptima or Hospital, including grievances related to reasonable accommodations and access to services under the ADA.

IV. QUALITY IMPROVEMENT PROGRAM AND CREDENTIALING

4.1 **CalOptima's Quality Improvement Program**. Hospital shall comply with, and participate in, CalOptima's Quality Improvement Program ("**QIP**"). Hospital shall immediately notify CalOptima of those Enrollees and cases that fall within the catastrophic and targeted case management guidelines and shall cooperate with CalOptima's case management program for catastrophic and targeted cases. Hospital and its Downstream Entities shall fully cooperate with CalOptima with regard to the HEDIS measurements and HEDIS audits, guideline development, preventive services utilization, disease/risk management, clinical service monitoring, and quality improvement studies and initiatives. Hospital shall comply with and accept as final the decisions of the CalOptima QIP and, pending resolution of any dispute through the dispute resolution process, comply with the decisions of the CalOptima Quality Improvement Committee.

4.2 **Quality Improvement Functions – Delegation to Hospital**. Hospital shall adopt a detailed written Quality Improvement ("**QI**") program, which shall include: (i) well defined goals and objectives; (ii) a well-defined scope that considers all different types and levels of care and service provided to Enrollees; and (iii) clearly defined accountability and responsibility for the QI program.

4.3 **Quality Improvement and Credentialing Program**. CalOptima delegates health delivery organization credentialing requirements to Hospital as provided in the Delegation Agreement. Hospital agrees to comply with CalOptima Policies regarding credentialing standards. In order to ascertain Hospital's continuous compliance with CalOptima standards, CalOptima retains the right to oversee Hospital's credentialing processes and to mandate changes thereto.

4.3.1 At least annually, Hospital shall provide CalOptima with a written credentialing program for the purpose of review and approval by CalOptima. Hospital shall also allow CalOptima, after reasonable prior notice, to conduct an on-site audit and review a sample of physician credentialing files to determine that delegation of the credentialing process is appropriate.

4.3.2 Hospital's credentialing program shall comply with the requirements specified in 42 CFR Sections 422.504, 423.505 and 438.214, as applicable, which include requirements addressing selection and retention of providers, credentialing and re-credentialing requirements, and nondiscrimination. Hospital's credentialing program shall include procedures used for credentialing and re-credentialing Participating Provider's according to current NCQA standards, in addition to procedures used for reducing, suspending or terminating Participating Provider's participation in the organization for reasons relating to quality of care, competence, professional conduct, or service-related issues; procedures for reporting to appropriate authorities serious quality deficiencies that could result in

suspension or termination of a Participating Provider's participation; and procedures for provider appeal, as afforded by Hospital's fair hearing plan and corrective actions.

4.3.3 Hospital shall make best efforts to notify CalOptima within thirty (30) days of any changes involving the rules, regulations, authorities, and responsibilities of the credentialing program. In accordance with CMS requirements, CalOptima also retains the right, based on quality-of-care and service issues, to approve, suspend, or terminate arrangements with practitioners, providers, and sites. In the event that this occurs, CalOptima will notify the Hospital of the quality-of-care and/or service issue, and Hospital shall take appropriate action, report to appropriate authorities any serious quality deficiencies in accordance with Laws, and provide all due process as afforded by the Hospital's fair hearing plan and Laws.

4.3.4 If CalOptima exercises its right to terminate a Provider's participation in the CalOptima MA program, CalOptima shall give the Provider a written statement of the reason or reasons for termination with cause and comply with the procedures required by Laws, if any.

4.4 **Release of Performance Information and Data**. Hospital acknowledges that the CalOptima MA Program focuses on improving the coordination and quality of medical, Behavioral Health, LTSS, and other services for Enrollees, and, in that regard, CalOptima's Regulators will implement capitation withholds to ensure performance consistent with established quality thresholds. Hospital acknowledges and agrees that CalOptima may release information and data related to the performance of Hospital under this Contract to CalOptima Regulators, Providers, Enrollees, and others without further notice to Hospital. The performance data will be used for purposes, including quality improvement activities, and public reporting to consumers, as identified in CalOptima Policies.

V. UTILIZATION MANAGEMENT PROGRAM

5.1 **CalOptima's Utilization Management Program**. CalOptima has implemented, and continuously updates, a UM program to ensure appropriate processes are used to review and approve the provision of Medically Necessary Covered Services to Enrollees in the timeframes required by CalOptima's Regulators. Hospital and its Downstream Entities shall comply with and cooperate in CalOptima's UM program, as established in CalOptima Policies and the CalOptima UM plan, regardless of CalOptima's delegation to Hospital under Section 5.2.

5.2 **UM Program Responsibility—Delegation to Hospital**. CalOptima is hereby delegating to Hospital the process of monitoring and evaluating on a prospective, concurrent, and retrospective basis, the utilization and Medical Necessity of Covered Services provided to Hospital's Enrollees.

5.2.1 Hospital's UM process shall include performing case management activities, referral management and discharge planning, and managing the denial sanction process, as well as conducting peer review for Medical Necessity and appropriateness. Hospital (and its Downstream Entities) shall ensure that its UM program complies with all criteria as set forth in CalOptima Policies and required by CalOptima's Regulators.

5.2.2 In accordance with 42 CFR §§ 438.6(h) and 422.208, compensation to individuals or entities that conduct UM activities must not be structured so as to provide incentives for Hospital or Downstream Entities to deny, limit, or discontinue Medically Necessary Covered Services to any Enrollee.

5.2.3 In the event Hospital (or its Downstream Entities) fails to comply with CalOptima standards and Laws and fails to correct deficiencies within the stated time required by those provisions, CalOptima retains the right to revoke delegation of UM activities.

5.3 **Utilization Management Plan**. Hospital will provide to CalOptima initially upon execution of this Contract, and annually thereafter, a written UM plan for review and approval by CalOptima.

5.3.1 Hospital shall notify CalOptima within thirty (30) days of any changes involving the rules, regulations, authorities, and responsibilities for the UM plan, which shall be subject to reasonable approval by CalOptima. CalOptima approval will be assumed unless Hospital is notified otherwise by CalOptima. Hospital shall comply with and accept as final, the decisions of CalOptima's UM program and, pending resolution of any dispute through the dispute resolution process, comply with the decisions of CalOptima's UM program.

5.3.2 The UM plan shall include procedures approved by CalOptima to identify, assess, establish, and implement a treatment plan for Enrollees with complex or serious medical conditions. The UM plan shall also contain procedures for direct access of Enrollees to services as mandated by CMS regulations and instructions. All Hospital denial letters shall provide Enrollees with timely notice and shall contain appropriate Enrollee appeals rights as approved by CMS and CalOptima. Hospital agrees to cooperate with CalOptima in furnishing the required reports identified in CalOptima' Policies

5.4 **Utilization Management Committee**. Hospital shall establish a UM committee that shall review and document the quality, appropriateness, level of care, and utilization of health care services provided to Enrollees. CalOptima's Medical Director and/or CalOptima staff may attend Hospital UM committee meetings.

5.5 **Process and Timeframes for Authorization**. Hospital (and its Downstream Entities) shall ensure that its process for initial and continuing Authorizations complies with CalOptima Policies, the UM plan and requirements established by CalOptima's Regulators, including timeframes for, and manner of, Authorization.

5.6 **No Prior Authorization**. Hospital (and its Downstream Entities) shall not require prior Authorization for the following services: (i) any services for Emergency Medical Conditions (which include emergency Behavioral Health care); (ii) Urgent Care sought outside the Service Area: (iii) Urgent Care under unusual or extraordinary circumstances provided in the Service Area when the Participating Provider is unavailable or inaccessible; (iv) preventative services; (v) family planning services; (vi) Out-of-Area renal dialysis services; (vii) basic prenatal care; (viii) sexually transmitted disease services; and (ix) HIV testing.

5.7 Second Opinions**. Hospital (and Downstream Entities) shall ensure that Enrollees have the right to second opinions from qualified health professionals at no cost to the Enrollee.**.

VI. COMPENSATION

6.1 **Hospital Compensation**. CalOptima shall compensate Hospital for Covered Services and Administrative Services delegated to Hospital, as set forth in Attachment C. Such Capitation Payments shall be payment in full for Covered Services and Administrative Services, except for amounts recovered through collection of Enrollee's Share of Cost, COBs, and Stop Loss Program, if applicable. Capitation Payment shall be sent on a monthly basis by the twentieth (20th) calendar day of the month, or if such day falls on a weekend or national holiday, on the first business day

thereafter, for all Enrollees eligible from the first (1st) of the month, and on whose behalf payment has been received by CalOptima from CMS by the nineteenth (19th) calendar day of the month. In the event CalOptima receives payment from CMS after the nineteenth (19th) calendar day of the month, capitation payment to Hospital will be made within five (5) working days of receipt of the monthly payment by CalOptima.

6.2 **Disputes Regarding Payments or Enrollment**. Any and all disputes related to Capitation Payments and/or enrollments shall be reported to CalOptima within ninety (90) calendar days of payment, and each dispute shall be clearly defined and include supporting documentation. Failure to dispute within the established time frame indicates acceptance of the Capitation Payment by Hospital.

6.3 **Capitation Rate Adjustments**. The Capitation Rates may be adjusted by CalOptima during the Contract period to reflect implementation of State of California ("**State**") or federal laws or regulations, changes in the CMS Contract or CMS policy, and/or changes in Covered Services. If CalOptima receives advance notice of adjustment from CalOptima's Regulators, CalOptima shall provide notice thereof to Hospital as soon as practicable. Capitation Rates may also be adjusted in the event of de-delegation of any function delegated under this Contract.

6.4 **Enrollee Non-Liability and Hold Harmless Requirements.** Hospital and its Downstream Entities shall accept CalOptima's payment as described in this Contract as payment in full. Hospital and its Downstream Entities for all Covered Services and Administrative Services under this Contract and shall not hold Enrollees liable to the Hospital or Providers for any sums owed to Hospital by CalOptima or owed to Providers by Hospital.

6.4.1 Hospital and its Downstream Entities shall hold harmless CMS, CalOptima, and Enrollees in the event Hospital and/or Downstream Entities cannot or will not pay for services performed by Hospital or Downstream Entities pursuant to this Contract or subcontract, as applicable.

6.4.2 Hospital and its Downstream Entities shall ensure that Enrollees will not be held liable for Medicare Part A and B cost sharing when the State is responsible for paying such amounts and that the Hospital will (i) accept Capitation Payment as payment in full under the Contract, or (ii) bill the appropriate State source, as required at 42 CFR §422.504(g)(1)(iii). Such services must be provided at zero cost-sharing to Enrollees.

6.4.3 Hospital shall not hold an Enrollee liable for the following: (i) debts of Hospital, in the event of 'Hospital's insolvency; (ii) Covered Services provided to the Enrollee in the event that CalOptima or Hospital fails to receive payment from CMS for such services; or (iii) payments to a clinical FDR or Downstream Entity in excess of the amount that would be owed by the Enrollee if Hospital had directly provided the services.

6.4.4 Hospital and its Downstream Entities shall not charge Enrollees coinsurance, co-payments, deductibles, financial penalties, or any other amount in full or part, for any service provided under this Contract, except as otherwise permitted under this Contract.

6.4.5 Hospital and its Downstream Entities shall not deny any service provided under this Contract to an Enrollee for Enrollee's (or any entity responsible for making payment on Enrollee's behalf) failure or inability to pay any applicable charge or shall not deny any service provided under this Contract to an Enrollee who, prior to becoming eligible, incurred a bill that has not been paid.

6.5 **Overpayments Discovered by Hospital**. Hospital shall disclose and return all overpayments to CalOptima within sixty (60) days of when Hospital identified the overpayment or should have identified the overpayment through the exercise of reasonable diligence.

6.6 **Recoupment for Ineligibility; Conlan Reimbursements**. CalOptima shall recoup payments made to Hospital when CMS has determined that an individual was not eligible for the MA Program and retroactively terminates the individual, including recouping any payments made for a deceased Enrollee. CalOptima may also recoup overpayments to Hospital owed by Hospital to Enrollees, including offsetting any such amounts owed against Hospital's Capitation Payments or other amounts due from CalOptima to Hospital under this Contract or any other agreement between the parties, if any. This Section 6.6 shall not be construed to limit CalOptima's right to recoup payment made to Hospital on any other basis for which recoupment is appropriate.

6.7 **CalOptima Right to Recover**.

6.7.1 Overpayments. Hospital acknowledges and agrees that, in the event that CalOptima determines that an amount has been overpaid or paid in duplicate, or that funds were paid which were not due under this Contract to Hospital, CalOptima shall have the right to recover such amounts from Hospital by recoupment or offset from current or future amounts due from CalOptima to Hospital under this Contract or any other agreement between the parties, after giving Hospital notice and an opportunity to return/pay such amounts.

6.7.2 Shared Risk Pool Payments Upon Termination. If this Contract terminates or expires for any reason and Hospital is responsible for a deficit under any shared risk program under this Contract based on the final shared risk pool report results ("**Deficit**"), such Deficit shall be due to CalOptima as follows, as allowed by Laws: CalOptima may elect to recoup such Deficit by either (1) offsetting such Deficit amounts, upon notice to Physician Group, from any current or future amounts owed by CalOptima to Physician Group under the Contract or any other agreement between the Parties, including capitation payments, financial security withholds, pay-for-performance amounts, quality incentives, and shared risk pool surpluses; or (2) sending an invoice to Physician Group that payment for such Deficits are due to CalOptima within thirty (30) days of Physician Group's receipt of the CalOptima invoice.

6.7.3 Regulator Recoupment Upon Termination. If following the termination or expiration of this Contract, CalOptima's Regulators find that Physician Group (or its Downstream Entities) has failed to comply with the requirements governing physician incentive plans and CalOptima's Regulators offset, recoup and/or otherwise seek recovery of FFP, as described in Section 1.33, CalOptima may elect to recoup such FFP amounts, as allowed by Laws, by either: (1) offsetting such FFP amounts, upon notice to Physician Group, from any current or future amounts owed by CalOptima to Physician Group under the Contract or any other agreement between the Parties, including capitation payments, financial security withholds, pay-for-performance amounts, quality incentives, or shared risk pool surpluses; or (2) sending an invoice to Physician Group that payment for such FFP amounts are due to CalOptima within thirty (30) days of Physician Group's receipt of the CalOptima invoice.

6.7.4 Dispute Resolution. Physician Group may use CalOptima's provider dispute resolution procedure, as described under CalOptima's Policies, and/or the dispute resolution procedures under this Contract to resolve any disputes related to the calculation or payment of such Deficits or FFP amounts.

6.7.5 Survival. This Section 6.7 shall survive the termination or expiration of the Contract.

6.8 **Retroactive Cancellation**. CalOptima will discourage retroactive cancellation of any Enrollee. However, CalOptima may make exceptions as required by CMS or due to legitimate administrative processing requirements of CMS. CalOptima may make retroactive additions or cancellations of Enrollees, as necessary for administrative or business reasons, and such retroactive additions or cancellations of Enrollees shall not exceed ninety (90) days.

VII. REPORTING REQUIREMENTS

7.1 **Data Reporting Requirements**. Hospital shall comply with the data reporting requirements set forth in this Contract, including the requirements specified in Standard Reporting Requirements set forth in CalOptima Policies and guidelines (referred to as the Timely and Appropriate Submission requirements). Hospital shall provide such additional data and modify the form, content, instructions, and timetables for the collection and reporting of data, as may be required by CalOptima Policies.

7.2 **Eligibility Reports**. CalOptima will maintain, update, and distribute monthly Enrollee eligibility reports for each month in which the persons included on such list are eligible for CalOptima MA Program. This report will identify the Hospital, PCP selected by the Enrollee, and the Enrollee's coverage. The report will be sent to Hospital and PCPs by the tenth (10th) of each month, identifying eligible Enrollees from the first (1st) of the month.

7.3 **Utilization Data**. Hospital shall, upon request, provide CalOptima with information on the utilization and cost of Covered Services provided to Enrollees in such detail as to allow CalOptima to conduct analysis of costs as required by CMS, as dictated by sound business practices and for the conduct of quality management and UM activities by CalOptima. Such information to be provided by Hospital will not include information beyond that customarily provided on a claim form (such as Form CMS-1500) and shall be provided in the form of a paper report, computer disc, computer tape, or electronic file, as agreed by the parties. Required data will be delivered by Hospital to CalOptima not later than forty-five (45) days following written request by CalOptima.

7.4 **Submission of Electronic Encounter Data**. Hospital must meet any claims, diagnosis, and Encounter Data reporting requirements, as determined from time to time by CalOptima and CalOptima's Regulators.

7.4.1 Hospital agrees to furnish CalOptima with complete, timely, reasonable, and accurate Encounter Data for Covered Services rendered to Enrollees. The Encounter Data will be furnished to CalOptima through Electronic Data Interchange (EDI) or a mutually acceptable format and shall be received by CalOptima per the Policy and Encounter Requirements Manual. Hospital also agrees to furnish Medical Records that may be required to obtain any additional information or corroborate the Encounter Data. Hospital further agrees to have its Chief Executive Officer (CEO) attest and certify the completeness and truthfulness of the Encounter Data submitted.

7.4.2 Hospital shall be subject to financial penalties and/or sanctions if CalOptima determines that Physician is reporting to CalOptima less than all professional encounters in the CalOptima required format and timelines. Financial penalties or sanctions shall be assessed upon Hospital should CalOptima determine that Hospital is not meeting the

standards defined in CalOptima Policies. This Section 7.4.2 shall survive the expiration or termination of this Contract, whether with or without cause, by rescission or otherwise, as to all Covered Services provided under this Contract prior to termination. Based on CalOptima's quarterly determinations and following thirty (30) days' prior notice to Hospital, CalOptima may withhold three (3%) percent of Capitation Payment if CalOptima determines that the monthly Encounter Data that Hospital must provide has not been received by CalOptima within the prior quarter. If at the quarterly determination following such withhold, CalOptima determines that Hospital has satisfactorily delivered to CalOptima the previously non-delivered Encounter Data; such withheld Capitation Payment shall be paid to Hospital, without interest. In the event that Hospital does not deliver such Encounter Data to CalOptima prior to such quarterly determination, CalOptima shall be entitled to retain such withheld Capitation Payment and may withhold three (3%) percent from each quarter's Capitation Payment until CalOptima receives the Encounter Data.

7.5 **Financial Statements**. Hospital agrees to provide CalOptima annually with a copy of Hospital's audited financial statements, including letters to management for the most recent fiscal year end along with an opinion letter on these statements from the accounting firm that completed an audit on these financial statements. Financial statements shall be presented in a form specified by CalOptima that clearly shows the financial position of Hospital as related to Enrollees. Hospital shall allow representatives of CalOptima, upon written request, to verify the financial reports. In the event audited statements are unavailable, Hospital agrees to provide CalOptima with the unaudited financial statements at Hospital's fiscal year end. The unaudited financial statements will include: balance sheets, income statement and statement of cash flows, notes to the financial statement, name of the person preparing these statements, and representation letters from the senior financial executives of the Hospital, attesting that these financial statements were prepared in accordance with GAAP and fairly present the financial condition of the Hospital.

7.6 **Reports Regarding Disclosure of Confidential Enrollee Information**. If Hospital, or any of its officers, employees, agents, or Downstream Entities, becomes aware of the unauthorized disclosure of confidential Enrollee information or of "personal information", within the meaning of California Civil Code Section 1798.3, Hospital shall report said unauthorized disclosure to CalOptima's Privacy Officer immediately upon discovery of said disclosure, providing information on the information disclosed and how the disclosure occurred. For purposes of this section, "unauthorized disclosure" includes any unauthorized access, whether such access was through inadvertence, mistake, theft, or other means, and whether or not Hospital had reasonable control to avoid the disclosure. Nothing herein is intended to limit or replace Hospital's separate obligations under the Business Associate Agreement and Laws.

7.7 **Additional Information Required by CalOptima's Regulators**. Hospital and Downstream Entities shall, at the request of CalOptima or CalOptima's Regulators, provide the following: (i) all information related to the performance of CalOptima's responsibilities, including non-medical information for the purposes of research and evaluation, to CalOptima's Regulators; (ii) any information required to comply with all Laws; and (iii) any information required for external rapid cycle evaluation, including program expenditures, service utilization rates, rebalancing from institutional to community settings, Enrollee satisfaction, Enrollee complaints and Appeals, and enrollment/disenrollment rates.

VIII. RECORD RETENTION, ACCESS AND CONFIDENTIALITY

8.1 **Disclosure of Records**. Hospital and its Downstream Entities agree to maintain and make available contracts, books, documents, records, and electronic systems, including, Medical Records, (collectively, the "**Records**") to CalOptima, HHS, CMS, the Comptroller General, the U.S. Government Accountability Office, any Quality Improvement Organization, or accrediting organizations, including NCQA, their designees, and other representatives of regulatory or accrediting organizations, for inspection, evaluation, and auditing. For purposes of utilization management, quality improvement, and other CalOptima administrative purposes, CalOptima and CalOptima's Regulators shall have access to, and copies of, at reasonable time upon request, the Medical Records, books, charts, and papers relating to the provision of health care services to Enrollees, the cost of such services, and payments received by Hospital or any of its Downstream Entities from Enrollees (or from others on their behalf). Copies of the Medical Record shall be provided at no charge to CalOptima. Unless a longer time is required under applicable law, the records described herein shall be maintained for at least ten (10) years from the final date of the Contract or from the completion of any audit, whichever is later.

8.2 **Medical Records**. Hospital will require that all Downstream Entities establish and maintain in an accurate and timely manner, for each Enrollee who has obtained Covered Services from a Group Provider or Downstream Entity, a legible Medical Record which shall be kept in detail consistent with good medical and professional practice in accordance with Laws and CalOptima Policies. Such Medical Records shall include a historical record of diagnostic and therapeutic services recommended or provided by, or under the direction of, the Provider. Such Medical Records shall be in such a form as to allow trained health professionals, other than the Provider, to readily determine the nature and extent of the Enrollee's medical problem and the services provided and permit peer review of the care provided. Hospital shall ensure that medical information is released in accordance with applicable Laws, or pursuant to valid court orders or subpoenas, subject to compliance with applicable privacy laws. Hospital shall ensure than an individual is delegated the responsibility of securing and maintaining Medical Records at each Hospital or Downstream Entity site.

8.3 **Right to Inspection**. Medical Records referred to in Section 8.2 above will be and remain the property of Hospital or Downstream Entities and will not be removed or transferred from their offices except in accordance with Laws. CalOptima or its designated representatives will have the right, in accordance with this Article 8, to inspect, review, and make copies of such records at Hospital's expense upon request to facilitate CalOptima's obligation to conduct quality management, utilization monitoring, and peer review activities.

8.4 **Records Related to Recovery for Litigation**. Upon request by CalOptima, Hospital and its Downstream Entities shall timely gather, preserve, and provide to CalOptima, in the form and manner specified by CalOptima, any information specified by CalOptima, subject to any lawful privileges, in Hospital's or its Downstream Entities' possession, relating to threatened or pending litigation by or against CalOptima, HHS, and CMS. If Hospital asserts that any requested documents are covered by a privilege, Hospital shall: (1) identify such privileged documents with sufficient particularity to reasonably identify the document while retaining the privilege; and (2) state the privilege being claimed that supports withholding production of the document. Such request shall include a response to a request for documents submitted by any party in any litigation by or against CalOptima. Hospital acknowledges that time may be of the essence in responding to such request. Hospital shall use all reasonable efforts to immediately notify CalOptima of any subpoenas, document production requests, or requests for records received by Hospital or its Downstream Entities related to this Contract or subcontracts entered into under this Contract.

8.5 **State and Federal Site Visits**. Hospital agrees to permit CalOptima, the DMHC, HHS, and/or CMS to conduct a site evaluation of Hospital and its facilities in accordance with Laws and to comply with the agencies' recommendations, if any.

8.6 **Enrollee Access to Records**. Hospital (including Hospital Providers) and its Downstream Entities shall ensure that Enrollees have access to their Medical Records in accordance with the requirements of Laws. An Enrollee shall be provided a copy of his or her Medical Records, upon request, and shall have the right to request corrections or amendments to their Medical Records as specified in 45 CFR Part 164. Hospital and Downstream Entities shall furnish a copy of the Enrollee's Medical Records to another treating or consulting Provider regardless of whether the requesting Provider is a Participating Provider, at no cost to CalOptima or the Enrollee when (i) such a transfer of Medical Records facilitates the continuity of that Enrollee's care; (ii) the Enrollee is transferring from one Provider to another for treatment; and (iii) an Enrollee seeks to obtain a second opinion on the diagnosis or treatment of a medical condition.

IX. INSURANCE AND LIABILITY

9.1 **Indemnification**. Each Party agrees to defend, indemnify, and the other Party and the State and CMS harmless, with respect to any and all claims, costs, damages, and expenses, including reasonable attorney's fees, that are related to or arise out of the negligent or willful performance or non-performance by the indemnifying Party, or any functions, duties, or obligations of such Party. Neither termination of the Contract nor completion of the acts to be performed under this Contract shall release either Party from its obligation to indemnify as to any claims or cause of action asserted so long as the event(s) upon which such claims or cause of action is predicated shall have occurred prior to the effective date of termination or completion. CalOptima and Hospital agree to promptly notify the other Party of any claims or demands that arise and for which indemnification hereunder is sought.

9.2 **Insurance Requirements**.

9.2.1 **Hospital and Downstream Entity Insurance**. Hospital agrees to procure and maintain, at its own expense, the insurance policies required by this Section 9.2 and Laws as necessary to insure it and its employees, agents, and representatives against any claim or claims for damages arising by reason of: (a) personal injuries or death occasioned in connection with the performance of any Covered Services provided hereunder; (b) the use of any property and Facilities of the Hospital; and (c) activities performed in connection with this Contract. Hospital shall require its Downstream Entities to maintain similar policies of insurance where Hospital's insurance does not cover its Downstream Entities.

9.2.2 **Professional/Medical Malpractice**. Hospital shall maintain a professional liability (medical malpractice) insurance policy with minimum limits of ten million dollars ($10,000,000) per incident and twenty million dollars ($20,000,000) in the aggregate per year.

9.2.3 **Commercial General Liability/Commercial Automobile Liability**. Hospital and each Participating Provider who has entered into a contract with Hospital to provide Covered Services under this Contract shall maintain a Commercial General Liability insurance policy and a Commercial Automobile Liability insurance policy with minimum limits as follows:

- Commercial General Liability: One million dollars ($1,000,000) per occurrence and three million dollars ($3,000,000) in the aggregate.

- Commercial Automobile Liability: One million, two hundred thousand dollars ($1,200,000) combined single limit for bodily injury or property damage covering any automobile, whether owned, leased, hired, or rented, on an ISO form CA 0001 or equivalent.

CalOptima must be named as an additional insured on Comprehensive General Liability and Commercial Automobile Liability insurance policies with respect to performance under this Contract.

9.2.4 **Workers' Compensation**. Hospital shall maintain a Workers' Compensation Insurance policy that provides statutory coverage with minimum limits as follows:

- Employers' Liability Insurance:
  - One million dollars ($1,000,000) Bodily Injury by Accident - each accident.
  - One million dollars ($1,000,000) Bodily Injury by Disease - policy limit
  - One million dollars ($1,000,000) Bodily Injury by Disease - each employee

9.2.5 **Managed Care Errors and Omissions**. Physician shall maintain a Managed Care Errors and Omissions Insurance policy with minimum limits as follows:

- Managed Care Errors and Omissions: Ten million dollars ($10,000,000) each claim/ten million dollars ($10,000,000) aggregate

9.2.6 **Electronic and Computer Crimes Insurance**. Hospital and its Downstream Entities shall maintain electronic and computer crimes insurance and employee fidelity insurance with limits of at least one million dollars ($1,000,000) if Hospital and/or its Downstream Entities will be paying claims or receiving funds on behalf of CalOptima, or will be storing, transmitting, and/or receiving personally identifiable and/or protected health information on a regular basis in carrying out its obligations under this Contract.

9.2.7 **Insurer Ratings**. Insurance required under this Article IX shall be provided by an insurer:

(a) Rated by A.M. Best with a rating of A V or better; and

(b) "Admitted" to do business in California or an insurer approved to do business in California by the California Department of Insurance and listed on the Surplus Lines Association of California List of Eligible Surplus Lines Insurers (LESLI); or

(c) An Unincorporated Interindemnity Trust Arrangement as authorized by the California Insurance Code 12180.7

9.2.8 **Captive Risk Retention Group/Self Insured**. Where any of the insurance(s) mentioned in this Article IX is provided by a captive risk retention group or self-insured, insurer ratings requirements above may be waived at the sole discretion of CalOptima, but only

after review of the captive risk retention group's or self-insured's audited financial statements.

9.2.9 **Cancellation or Material Change**. Hospital shall not of its own initiative cause such insurance as addressed in this Article IX to be cancelled or materially changed during the Term.

9.2.10 **Proof of Insurance**. Certificates of Insurance of the insurance policies and/or evidence of self-insurance required under this Article IX shall be provided to CalOptima prior to Effective Date, annually thereafter, and upon request.

X. COOPERATION

10.1 **Non-Interference**. Hospital and Downstream Entities may not prohibit of otherwise restrict a health care professional, acting within the lawful scope of practice, from freely communicating with Enrollees about their treatment and the following, regardless of benefit coverage limitations:

10.1.1 The Enrollee's health status, medical care, or treatment options (including any alternative treatments that may be self-administered), including the provision of sufficient information to provide an opportunity for the Enrollee to decide among all relevant treatment options;

10.1.2 The risks, benefits, and consequences of treatment or non-treatment; or

10.1.3 The opportunity for the Enrollee to refuse treatment and to express preferences about future treatment decisions.

10.2 **No Counseling to Dis-enroll**. Hospital will not, during the Term, provide advice to or counsel any Enrollee to dis-enroll from CalOptima, and Hospital will not solicit such Enrollee to become enrolled with any other health maintenance organization, preferred provider organization, or any other similar hospitalization, medical payment plan or insurance program.

10.3 **Cooperation**. CalOptima and Hospital agree that, to the extent compatible with the separate and independent management of each, they will at all times maintain an effective liaison and close cooperation with each other to provide maximum benefits to Enrollees at the most reasonable cost, consistent with quality standards of hospital and physician care.

10.4 **Signs**. Hospital agrees that CalOptima may post notices, mutually acceptable as to size, content and form in a prominent place instructing Enrollees as to proper procedures and limitations on coverage.

10.5 **Free Exchange of Information**. No provision of this Contract shall be construed to prohibit, nor shall any provision in any contract between Hospital and its employees or Downstream Entities, prohibit, the free, open, and unrestricted exchange of any and all information of any kind between Providers and Enrollees regarding the nature of the Enrollee's medical condition, the health care treatment options and alternatives available and their relative risks and benefits, whether or not covered or excluded under the Enrollee's Evidence of Coverage, and the Enrollee's right to appeal any adverse decision made by Hospital or CalOptima regarding coverage of treatment which has been recommended or rendered. Hospital and CalOptima agree not to penalize nor sanction any Provider in any way for engaging in such free, open, and unrestricted communication with an Enrollee nor for advocating for a particular service on an Enrollee's behalf.

XI. TERM AND TERMINATION

11.1 **Term of Contract**. The term of this Contract shall become effective on the Effective Date and continue in effect for five (5) years through _____ ("Initial Term") and five (5) additional one-year automatic extensions except as directed otherwise by the Board.

11.2 **Sanctions and Terminations for Cause**. If Hospital fails to fulfill any of its duties and obligations under this Contract, including: (i) committing acts to discriminate against Enrollees; (ii) engaging in any practice that would reasonably be expected to have the effect of denying or discouraging enrollment with the Hospital by Enrollees whose medical condition or history indicated a need for substantial future medical services; (iii) not providing Covered Services in the scope or manner required under this Contract; (iv) engaging in prohibited marketing activities; (v) failing to comply with CalOptima's compliance and fraud, waste and abuse programs; (vi) failing to meet financial requirements in Article II; (vii) committing fraud, waste or abuse relating to Covered Services or any and all obligations, duties, and responsibilities under this Contract; (viii) failure to enforce claims payment prohibitions on Providers who are denied the right to submit claims and/or receive reimbursement for services furnished to Enrollees; (ix) failure to comply with pharmacy requirements as determined by CalOptima; (x) failure to submit Encounter Data or comply with other reporting requirements pursuant to this Contract and CalOptima Policies; and/or (xi) failure to take corrective action related to any such obligation or duty in the time or manner required by CalOptima, CalOptima may take any one or more of the actions described in this Article XI.

11.3 **Corrective Action Plans**. CalOptima may require a Corrective Action Plan ("**CAP**") in the event that any report, audit, survey, site review or investigation indicates that the Hospital or any Downstream Entity is not in compliance with any provision of this Contract.

11.3.1 A CAP shall be required if CalOptima receives a substantiated complaint or grievance related to the standard of care provided by the Hospital or any Downstream Entities. CalOptima shall issue a written notice of deficiency and shall require that a CAP to be submitted within thirty (30) calendar days following the date of notice unless otherwise stated. The CAP shall include the time and manner in which the deficiency shall be corrected. CAPs are subject to approval by CalOptima, which may be approved as submitted, accepted with specific modifications, or rejected. CalOptima may extend or reduce the time allowed for completion of the CAP depending upon the nature of the deficiency.

11.3.2 Notwithstanding any request for a CAP, CalOptima may impose monetary penalties, suspend enrollment, reduce maximum enrollment, or impose other sanctions when the Hospital is not in compliance with the provisions of this Contract, CalOptima Policies, and minimum performance requirements as established by CalOptima. All monetary fines are payable to CalOptima within thirty (30) calendar days of receipt of written notice, unless otherwise stated in the notice. Failure to submit payment to CalOptima for any monetary fines within the thirty (30) calendar day period shall result in CalOptima deducting the penalty plus administrative fees from the Hospital's Capitation Payment.

11.3.3 CalOptima may apply sanctions pursuant to this Contract and CalOptima Policies to all PHC Participants independent of the PHC Participant whose action(s) caused sanctions to be applied by CalOptima.

11.4 **CalOptima Termination for Cause**. Notwithstanding and in addition to any other provisions of this Contract, CalOptima may terminate this Contract for cause effective upon thirty (30) calendar

days' written notice; cause shall include, but shall not be limited to, the actions set forth in Section 11.2. CalOptima's rights and remedies provided in this provision shall not be exclusive and are in addition to any other rights and remedies provided by law or this Contract.

11.5 **Hospital Termination for Cause**. Hospital may terminate this Contract for cause only upon thirty (30) calendar days' written notice and only in the event that CalOptima fails to make payments due under this Contract within fifteen (15) calendar days of when such amounts are due and payable.

11.6 **Immediate Terminations**. In addition to all other sanction and termination rights, CalOptima may terminate Contract immediately upon delivery of written notice to Hospital if:

11.6.1 Hospital and/or its Downstream Entities are unable to secure the necessary governmental licenses, approvals, and/or certificates required for the performance of their duties;

11.6.2 CalOptima determines that the health, safety, or welfare of Enrollees is jeopardized by continuation of this Contract;

11.6.3 Hospital commits fraud, waste, or abuse; or

11.6.4 CMS fails to authorize or reauthorize CalOptima to operate a MA Program for a period that overlaps the Term.

11.6.5 This Contract shall terminate upon the termination of the Physician Group Contract. Notification of termination to any PHC Participant shall constitute notification of termination to all PHC Participants.

11.7 **Without Cause Termination**. Following the Initial Term, either Party may terminate this Contract for convenience, without cause, by giving written notice to the other Party of at least one hundred and eighty (180) calendar days' prior to the effective date of such termination.

11.8 **Bankruptcy**. If during the Term there is filed by or against Hospital in any court pursuant to any statute of the United States or any state, a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver or trustee or conservator of all or a portion of Hospital's assets, or if Hospital makes an assignment for the benefit of creditors, or if Hospital becomes unable, admits in writing its inability, or fails generally to pay its debts as they become due, this Contract may, at the option of CalOptima, be canceled and terminated. In the event of the filing of a petition for bankruptcy by or against Hospital, Hospital shall assure that all of Hospital's functions and duties related to the Contract are performed in accordance with the terms of the Contract. CalOptima shall have the right to withhold any and all amounts otherwise due to Hospital until Hospital fully discharges its obligations under the Contract. CalOptima shall also have the immediate right of offset by permanently retaining any and all withheld amounts as necessary to ensure that all Hospital obligations have been met.

11.9 **Termination of CMS Contract.** In the event the CMS Contract with CalOptima is terminated or not renewed, the provisions of this Contract shall automatically terminate unless otherwise specified by CalOptima and subject to any provisions that survive termination. Any term provided in the Contract is subject to CMS's continuing approval of CalOptima's MA Program. Hospital agrees to assist CalOptima with such transfer of care requirements mandated by CMS in the event of termination of the CMS Contract.

11.10 **Continuation of Benefits**. Hospital and its Downstream Entities agree that, in the event of CalOptima's insolvency or cessation of operations, benefits to Enrollees will continue through the period for which capitation has been paid or until the discharge of Enrollee from an inpatient facility, whichever time is greater. Covered Services to an Enrollee confined in an inpatient facility on the date of insolvency or other cessation of operations will continue until their appropriate discharge.

11.11 **Hospital Obligations Following Termination**. In the event of termination of this Contract, at CalOptima's sole option, Hospital will continue to provide Covered Services, and CalOptima shall reimburse for such services per the Medicare fee schedule, to Enrollees until CalOptima has made arrangements with alternative Providers to render care to Enrollees. Hospital shall cooperate and assist CalOptima in the transfer of Enrollee care in the event this Contract or any relevant Downstream Entity subcontract is terminated for any reason. Hospital shall provide a plan for the orderly termination of services under this Contract, in form and substance acceptable to CalOptima.

11.12 **Prohibition on Use of Certain Providers**. Hospital agrees that CalOptima reserves the right to require Hospital, upon notification from CalOptima, to prohibit any Provider or Downstream Entity from providing services, whether Covered Services or otherwise, to Enrollees when CalOptima deems such prohibition to be in the best interests of the Enrollees, provided that imposition of the foregoing prohibition shall not terminate this Contract.

11.13 **PHC Primary Hospital Usage Requirement**. In order to qualify as a PHC, PHC Participants must ensure that, during every annual contract year period during the Term, at least seventy percent (70%) of the bed days for those Enrollees assigned to the PHC who require inpatient hospitalization during the previous calendar year must have occurred at Hospital or within the same hospital system as Hospital, except as otherwise provided under CalOptima Policies. For purposes of calculating the bed day percentage, only bed days in Orange County hospitals shall count. Failure to meet this requirement shall be cause for termination by CalOptima under Section 11.4 of this Contract. Termination as a result of breaching this Section 11.13 shall have no effect on any fee-for-service contract between CalOptima and Hospital. In the event of termination under the equivalent of this section in the Physician Group Contract, Physician Group shall be offered the opportunity to continue be a Participating Provider through a separate risk-sharing arrangement with CalOptima, subject to meeting all applicable financial, operational, and other criteria for such an arrangement.

XII. GENERAL PROVISIONS

12.1 **Dispute Resolution**.

12.1.1 **Provider Appeals Process**. CalOptima maintains a Provider dispute resolution process. Hospital may appeal any aspect of the CalOptima MA Program, including a decision to impose a sanction, terminate this Contract, or take other actions against Hospital, by filing a complaint pursuant to CalOptima Policies. Hospital shall exhaust all administrative remedies and any government claims requirements, as applicable, before commencing arbitration.

12.1.2 **Meet and Confer**. For any dispute not subject to or resolved by the provider appeals process, or if either Party has a dispute it seeks to address informally, the Parties shall use reasonable efforts to informally meet and confer to try and resolve the dispute. The Parties shall meet and confer within thirty (30) days of a written request submitted by either Party in an effort to settle any dispute. At each meet-and-confer meeting, each Party shall be represented by persons with final authority to settle the dispute. If either Party fails to meet

within the thirty (30)-day period, that Party shall be deemed to have waived the meet-and-confer requirement, and at the other Party's option, the dispute may proceed immediately to arbitration under Section 12.1.3.

12.1.3 **Arbitration**. If the Parties are unable to resolve any dispute arising out of or relating to this Contract under Sections 12.1.1 and 12.1.2, either Party may submit the dispute for resolution exclusively through confidential, binding arbitration, instead of through trial by court or jury, in Orange County, California. The Parties may agree in writing prior to commencing the arbitration on the dispute resolution rules and arbitration service that will be used to resolve the dispute. If the Parties cannot reach such an agreement, the arbitration will be conducted by Judicial Arbitration and Mediation Services ("**JAMS**") in accordance with the commercial dispute rules then in effect for JAMS; provided, however, that this Contract shall control in instances where it conflicts with JAMS's (or the applicable arbitration service's) rules. The arbitration shall be conducted on an expedited basis by a single arbitrator. The Parties prefer that the arbitrator be a retired judge of the California Superior, Appellate, or Supreme Court or of a United States court sitting in California. If no such retired judge is available, the arbitrator may be an attorney with at least fifteen (15) years of experience, including at least five (5) years in managed health care. If the Parties are unable to agree on the arbitrator within thirty (30) days of the date that the arbitration service accepts the arbitration, the arbitrator shall be selected by the arbitration service from a list of four potential arbitrators (all of whom shall be on arbitration services' panel of arbitrators) submitted by the Parties, two from each side; provided, however, that nothing stated in this section shall prevent a Party from disqualifying an arbitrator based on a conflict of interest. In making decisions about discovery and case management, it is the Parties' express agreement and intent that the arbitrator at all times promote efficiency without denying either Party the ability to present relevant evidence. In reaching and issuing decisions, the arbitrator shall have no jurisdiction to make errors of law and/or legal reasoning. The Parties shall share the costs of arbitration equally, and each Party shall bear its own attorneys' fees and costs.

12.1.4 **Exclusive Remedy**. With the exception of any dispute that under Laws may not be settled through arbitration, arbitration under Section 12.1.3 is the exclusive method to resolve a dispute between the Parties arising out of or relating to this Contract that is not resolved through the provider appeals or meet-and-confer processes.

12.1.5 **Waiver**. By agreeing to binding arbitration as set forth in Section 12.1.3, the Parties acknowledge that they are waiving certain substantial rights and protections which otherwise may be available if a dispute between them was determined by litigation in a court, including the right to a jury trial, attorneys' fees, and certain rights of appeal.

12.2 **Interpretation of Contract Language**. CalOptima has the right to final interpretation of the Contract language when disputes arise. Hospital has the right to appeal disputes concerning Contract language to CalOptima.

12.3 **Waiver**. The waiver by either Party of a breach or violation of any provision of this Contract will not operate as or be construed to be a waiver of any subsequent breach thereof. To be effective, a waiver must in writing signed by the Parties.

12.4 **Assignment**. This Contract and the rights, interests, duties, and obligations hereunder shall not be assigned, transferred, pledged, or hypothecated in any way by Hospital nor shall the duties and obligations imposed herein be subcontracted or delegated without the prior written consent of

CalOptima, which consent may be withheld in CalOptima's sole and absolute discretion for any reason or no reason. Hospital acknowledges and agrees that CalOptima's consent, if any, to assignment and/or delegation is subject to the approval of CMS. Therefore, any assignment and/or delegation of this Contract, including the rights, interests, duties, and obligations hereunder, shall be void unless prior written consent is obtained from CalOptima and CMS. Hospital further acknowledges and agrees that CalOptima may require Hospital and the proposed assignee/sub-delegate to cooperate in due diligence and sub-delegation assessment activities as part of its review of any request for consent to assignment of this Contract and the rights, interests, duties, and obligations hereunder. Hospital agrees to cooperate and provide such information as requested by CalOptima. Hospital acknowledges and agrees that (i) CalOptima's due diligence and/or assessment activities related to any proposed assignment may take one hundred eighty (180) days or more; (ii) in no event shall CalOptima's due diligence and/or delegation assessment activities be construed as CalOptima's consent to assignment; and (iii) any consent to assignment by CalOptima must be reflected in a separate writing executed by CalOptima and other relevant parties. CalOptima may, from time to time, establish policies and procedures regarding its processes for initiating review and approval of any proposed assignment of this Contract. For purposes hereof, the term "**assignment**" shall include any of the following: (i) the change of more than twenty-five percent (25%) of the ownership or equity interest in Hospital (whether in a single transaction or in a series of transactions); (ii) the change of more than twenty-five percent (25%) of the directors or trustees of Hospital; (iii) the merger, reorganization, or consolidation of Hospital with another entity with respect to which Physician is not the surviving entity; and/or (iv) a change in the management of Hospital from management by persons appointed, elected, or otherwise selected by the governing body of Hospital (e.g., the Board of Directors) to a third-party management person, company, group, team or other entity.

12.5 **Independent Parties**. None of the provisions of this Contract are intended to create nor will be deemed or construed to create any relationship between the Parties other than that of independent contractors, solely for the purposes of effecting the provisions of the Contract. Neither of the Parties nor any of their respective officers, directors, or employees shall act as nor be construed to be the agent, the employee, or the representative of the other Party.

12.6 **Integration of Entire Contract**. This Contract contains all of the terms and conditions agreed upon by the Parties regarding the subject matter of this Contract. Any prior agreements, promises, negotiations or representations of or between the Parties, either oral or written, relating to the subject matter of this Contract that are not expressly set forth in this Contract are null and void and of no further force or effect.

12.7 **Invalidity or Unenforceability**. The invalidity or unenforceability of any terms or provisions hereof will in no way affect the validity or enforceability of any other term or provision.

12.8 **Amendment**. CalOptima may amend this Contract immediately upon written notice to Hospital in the event such amendment is required in order to maintain compliance with Laws. CalOptima may deem all other amendments to the Contract effective after at least forty-five (45) business days' notice or earlier if agreed to by Hospital. All amendments of this Contract are subject to CMS approval.

12.9 **No Waiver of Immunity or Privilege**. Any information delivered, exchanged, or otherwise provided hereunder shall be delivered, exchanged, or otherwise provided in a manner, which does not constitute a waiver of immunity or privilege under applicable law.

12.10 **Choice of Law; Jurisdiction and Venue**. This Contract shall be governed by and construed in accordance with all State and federal laws and regulations governing the CMS Contract. The Parties consent to the jurisdiction of the California Courts with venue in Orange County California.

12.11 **Force Majeure**. Either Party, upon prompt written notice to the other Party, shall be excused from performance hereunder for any period that it is prevented from meeting the terms of this Contract as a result of a catastrophic occurrence or natural disaster, including, but not limited to, an act of war and excluding labor disputes ("**Force Majeure Event**");

12.12 **No Liability of County of Orange**. As required under Ordinance No. 3896, as amended, of the County of Orange, State of California, CalOptima and the Hospital hereby acknowledge and agree that the obligations of CalOptima under this Contract are solely the obligations of CalOptima, and the County of Orange, State of California, shall have no obligation or liability therefor.

12.13 **Confidential and Proprietary Information**. Hospital agrees to maintain confidential the following information (the "**Confidential Information**"): (a) eligibility lists and any other information containing the names, addresses and telephone numbers of CalOptima Enrollees; (b) CalOptima's administrative service manuals and all forms related thereto; (c) the financial arrangements between CalOptima and any Participating Provider; and (d) any other information compiled or created by CalOptima that is proprietary to CalOptima and that CalOptima identifies as proprietary to Hospital in writing. Hospital shall not disclose or use the Confidential Information for its own benefit or gain either during the Term or after the date of termination of this Contract. Hospital may use the Confidential Information to the extent necessary to perform its duties under this Contract or upon express prior written permission of CalOptima. Upon the effective date of termination of this Contract, Hospital shall promptly return to CalOptima the Confidential Information in its possession, upon CalOptima's notice.

12.14 **Third Party Beneficiaries**. Nothing in this Contract, express or implied, is intended to or shall confer upon any other person or entity, any right, benefit or remedy of any nature whatsoever.

12.15 **Survival**. The terms set forth in the following sections shall survive the expiration or termination of this Contract, whether with or without cause, by rescission or otherwise, as to all Covered Services provided under this Contract prior to termination: Sections 6.2, 6.5, 7.8, Article 8, 9.1, 11.10, 11.11, 12.1, 12.2, 12.3, 12.5, 12.6, 12.7, 12.9, 12.10, 12.12, 12.13, 12.14, and any other sections that, by their terms, are intended to survive termination of the Contract.

12.16 **Recitals and Exhibits**. The recitals, exhibits, and addenda set forth in this Contract are made a part of the Contract by this reference.

12.17 **Without Limitation**. Any reference in the Contract to "include(s)" or "including" means inclusion without limitation, unless otherwise distinguished within the text.

12.18 **Notices**. All notices shall be in writing and shall be deemed to have been duly given on the date of service if personally served on the Party to whom notice is given, or seventy-two (72) hours after mailing by electronic mail transmission, United States priority mail, United States mail first class (Certified Mail or Registered Mail), addressed to the Party to whom notice is to be given and such party's address as set forth below or such other address provided by notice.

XIII. CONDITIONS PRECEDENT TO CONTRACT COMMENCEMENT

13.1 **Contract Effectiveness**. The Contract is subject to CalOptima's determination, in its sole discretion, that the following conditions have been met prior to the Effective Date: (i) Hospital has successfully met all criteria in CalOptima's readiness assessment, including financial viability and delegated function criteria; Hospital has signed CalOptima's Business Associate Agreement; and (iii) Hospital has furnished all required documentation and data requested by CalOptima (e.g., insurance documents, licenses).

13.2 **Additional CalOptima Regulator Requirements**. CalOptima, in its sole discretion, may condition this Contract upon Hospital's ability to meet other criteria imposed by CalOptima Regulators.

XIV. SIGNATURES

SUBJECT TO (I) THE UNITED STATES GOVERNMENT PROVIDING FUNDS FOR THE TERM OF THIS CONTRACT AND FOR THE PURPOSES WITH RESPECT TO WHICH IT IS ENTERED INTO; AND (II) THE APPROVAL OF THIS CONTRACT BY DMHC AND CMS, THIS CONTRACT SHALL BECOME EFFECTIVE ON THE EFFECTIVE DATE AND SHALL TERMINATE ON AS PROVIDED IN THIS CONTRACT.

IN WITNESS WHEREOF, CalOptima and Hospital have executed this Contract as indicated below.

ADDENDUM 1

Entities Comprising the PHC

ATTACHMENT A
DEFINITIONS

1. "**Administrative Services**" means those non-clinical, administrative functions that are the responsibility of the Hospital as set forth under the Contract and in CalOptima Policies.

2. "**Advance Directive**" means an individual's written directive or instruction, such as a power of attorney for health care or a living will, recognized under state law (whether statutory or as recognized by the courts of the state) for the provision of that individual's health care if the individual is unable to make his or her health care wishes known.

3. "**Appeals**" means an Enrollee's actions, both internal and external to CalOptima, requesting review of the denial, reduction, or termination of benefits or services from CalOptima.

4. "**Authorization/Authorized**" means the approval of CalOptima, or its delegate (which may include Hospital), for the provision or referral of Covered Services, obtained in accordance with, and as further described in, the Provider Manual and this Contract.

5. "**Behavioral Health**" means the mental health services and substance use disorder services arranged for or provided to Enrollees by a separate Mental Health Plan, CalOptima, or their subcontractors.

6. "**CalOptima Formulary**" means the CalOptima Approved Drug List, the Disposable Medical Equipment/Supplies List, the CalOptima OneCare Formulary, and any additional formularies as may be designated by CalOptima and provided to CalOptima's designated pharmacy benefits manager "**PBM**". There is no applicable CalOptima Formulary for the PACE program.

7. "**CalOptima Policies**" means CalOptima policies and procedures, including CalOptima's Provider Manual, that are amended from time to time at the sole discretion of CalOptima and incorporated into this Agreement by this reference.

8. "**CalOptima's Regulators**" means those government agencies that regulate and oversee CalOptima's and its FDRs' activities and obligations under this Contract including the Department of Health and Human Services, CMS, and the DMHC and other government agencies that have authority to set standards and oversee the performance of the parties to this Contract, as well as their respective agents and contractors quality improvement organizations.

9. "**Capitation Payment**" means the monthly payment paid to Hospital by CalOptima for delivery for Covered Services to Enrollees, which is determined by multiplying the applicable Capitation Rate by Hospital's monthly enrollment.

10. "**Capitation Rate**" means the rate set by CalOptima for the delivery of Covered Services to an Enrollee.

11. "**Care Coordinator**" means a clinician or other trained individual employed by or contracted with Hospital who is accountable for providing care coordination services for Enrollees, as required by CalOptima Policies and who services on one or more ICTs.

12. "**C.C.R.**" means the California Code of Regulations.

13. "**C.F.R.**" means the Code of Federal Regulations.

14. "**CMS**" means the Center for Medicare & Medicaid Services.

15. "**CMS Contract**" means the agreement between CMS and CalOptima under which CalOptima can establish its MA Program for Enrollees.

16. "**COB**" refers to the coordination of benefits and determination of order of financial responsibility that applies when two or more health benefit plans provide coverage of items and services for an individual.

17. "**Compliance Program**" means the program (including the compliance manual, code of conduct and CalOptima Policies) developed and adopted by CalOptima to promote, monitor, and ensure that CalOptima's operations and practices and the practices of its Board members, employees, contractors, and Providers comply with applicable law and ethical standards. The Compliance Program includes CalOptima's Fraud, Waste and Abuse ("**FWA**") plan.

18. "**Covered Services**" means those health care items, drugs, and services that an Enrollee is entitled to receive pursuant to a Program applicable to that Enrollee. Covered Services must generally be referred and Authorized in confirming with CalOptima's Policies, including its utilization management program."

19. "**Delegation**" means the process by which CalOptima expressly grants, by formal written agreement to another entity, the authority to carry out a function that would otherwise be required to be performed by CalOptima in order to meet its obligations under the CMS Contract.

20. "**Delegation Agreement**" means the formal written agreement by which CalOptima grants to another entity the authority to carry out a function that would otherwise be required to be performed by CalOptima to meet its obligations under the CMS Contract.

21. "**Delegation Criteria**" means those criteria adopted by CalOptima, for the delegation of activities in the areas of UM, medical records audits, the Office Site Review, 'Enrollee's rights and responsibilities, and credentialing, as set forth in CalOptima Policies.

22. "**DMHC**" means the California Department of Managed Health Care.

23. "**Downstream Entity**" means all Providers and other persons or entities with which Hospital has entered into a written subcontract (acceptable to CMS) to perform administrative functions and/or health care services to satisfy Hospital's obligations to CalOptima under this Contract, continuing down to the ultimate provider of services. The term "Hospital" as used in the terms of this Contract shall also include its subcontractors when such subcontractors are Downstream Entities, even if not expressly referenced in the particular provision.

24. "**Emergency Medical Condition**" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: (i) placing the health of the individual (or with respect to a pregnant woman, the health of the woman and her unborn child) in serious jeopardy; or (ii) serious impairment to bodily functions; or (iii) serious dysfunction of any bodily organ or part.

25. "**Emergency Services**" means those covered inpatient and outpatient services that are (i) furnished by a Provider qualified to furnish Emergency Services; and (ii) needed to evaluate and/or stabilize an Enrollee's Emergency Medical Condition.

26. "**Encounter Data**" means the record of an Enrollee receiving any item(s) or service(s) provided through Medicaid or Medicare under a prepaid, capitated, or any other risk basis payment methodology submitted to CMS. The encounter data record shall incorporate HIPAA security, privacy, and transaction standards and be submitted in ASCX12N 837 or any successor format required by CalOptima's Regulators.

27. "**Enrollee**" means an eligible individual who is enrolled in the CalOptima MA Program.

28. "**Evidence of Coverage**" means the document approved by CalOptima's Regulators and issued by CalOptima to Enrollees that describes Enrollee's benefits under the CalOptima MA Program.

29. "**FDR**" means a party that enters into a written agreement (acceptable to CMS) to provide administrative or health care services to CalOptima and/or its Enrollees that are governed by the CMS Contract.

30. "**FQHC**" means an entity that meets all of the requirements for designation as a federally qualified health center under § 1861(aa)(3) of the Social Security Act and is approved for participation in the MA program.

31. "**Grievance**" means an oral or written expression of dissatisfaction, including any compliant, dispute, request for reconsideration, or appeal, made by an Enrollee.

32. "**Health Network**" means Hospital, a PHC, or health care service plan (such as an HMO) that is contracted with CalOptima to provide items and services to Enrollees on a capitated basis.

33. "**HEDIS**" means the set of standardized performance measures sponsored and maintained by the NCQA.

34. "**HRA**" means the health risk assessment tool that identifies an Enrollee's primary, acute, LTSS, Behavioral Health, and functional needs.

35. "**HIPAA**" means the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005, and regulations promulgated thereunder by the U.S. Department of Health and Human Services, including Title 45 of the C.F.R, Parts 160 and 164.

36. "**ICP**" means the plan of care developed by an Enrollee and/or his/her ICT or CalOptima.

37. "**Indian Enrollee**" means an Enrollee who is an Indian (as defined in the Indian Health Care Improvement Act of 1976 [25 U.S.C. §§ 1603(13), 1603 (13 and 23), or 1679(a)] or who has been determined as an Indian under 42 C.F.R. § 136.12.

38. "**Indian Health Care Provider**" means a health care program operated by the Indian Health Services or by an Indian Tribe, Tribal Organization, or Urban Indian Organization, as those terms are defined in Section 4 of the Indian Health Care Improvement Act (25 U.S.C. § 1603).

39. "**ICT**" means an interdisciplinary care team comprised of the primary care provider and Care Coordinator and other Providers at the discretion of the Enrollee that work with the Enrollee to develop, implement, and maintain the ICP.

40. "**Laws**" means any local, State, or federal statute, regulation, rule, or executive or agency order applicable to this Contract.

41. "**LTSS**" means the range of long-term services and supports that help Enrollees meet their daily needs for assistance and improve the quality of their lives and which include: (i) In-Home Supportive Services ("**IHSS**"); (ii) Community-Based Adult Services ("**CBAS**"); (iii) Multi-purpose Senior Services Program ("**MSSP**") services; and (iv) skilled nursing facility services and sub-acute care services.

42. "**Medically Necessary**" or "**Medical Necessity**" means when addressing Covered Services: (i) under Medicare, reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. Section 1395y.

43. "**Medical Record**" means any record kept or required to be kept by any Provider that documents medical services received by the Enrollee, including inpatient, outpatient, emergency care, referral requests, and Authorizations in accordance with applicable laws including Title 28 C.C.R. § 1300.80(b), Title 42 U.S.C. § 1396a(w), 42 C.F.R. § 456.111 and 42 C.F.R. § 456.211 and CalOptima Policies.

44. "**Mental Health Plan**" means the entity that has contracted with DHCS to provide Specialty Mental Health Services to individuals, including Enrollees.

45. "**Model of Care**" means the component of CalOptima's quality improvement framework that is evidence-based, includes certain clinical and non-clinical elements, and is in addition to the comprehensive care coordination requirements specified in CalOptima Policies.

46. "**Non-Covered Services**" means those services that are not benefits under the CalOptima MA Program in accordance with CalOptima's Evidence of Coverage and applicable state and federal laws and regulations.

47. "**Non-Participating Provider**" means an institution, professional, or other Provider of health care services who has not entered into an agreement, either with CalOptima or Hospital, to provide medical and other services to Enrollees.

48. "**Out-of-Area**" means that area that is outside the Service Area.

49. "**Participating Provider**" means an institution, professional, or other provider of health care services who has entered into an agreement, either with CalOptima or Hospital, to provide health care services to Enrollees.

50. **"Physician"** means a person with an unrestricted license to practice medicine or osteopathy in the state in which they practice.

51. "**Post-Stabilization Care Services**" means services related to an Emergency Medical Condition that are provided after an Enrollee is Stabilized in order to maintain the Stabilized condition, or under some circumstances, to improve or resolve the condition.

52. "**Preclusion List**" means the CMS-compiled list of providers and prescribers who are precluded from receiving payment for MA items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.

53. "**PCP**" means a primary care physician responsible for supervising, coordinating, and providing initial and primary care to Enrollees; for serving as the medical home; for processing initial referrals for Specialist Physician care; and for maintaining the continuity of patient care.

54. "**Program**" is health care benefit program offered by CalOptima to Enrollees. Programs and their designs are subject to change periodically.

55. "**Provider**" means a physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, health maintenance organization ("**HMO**"), or other person or institution who furnishes health care items or services.

56. "**Provider Manual**" means that comprehensive online document, as amended from time to time, and describes CalOptima's Policies and procedures affecting Hospital Physicians' services under this Contract.

57. "**Referral**" means the process by which the Participating Provider Physician directs an Enrollee to seek and obtain Covered Services from a health professional or for care at a facility.

58. "**Rural Health Clinic (RHC)**" means an entity that meets all of the requirements for designation as a rural health clinic under § 1861(aa)(1) of the Social Security Act and is approved for participation in the MA program.

59. "**Service Area**" means the geographic area within Orange County, California.

60. "**Specialist Physician**" means any physician who is not a PCP, has the requisite training and education, and meets all other requirements set by CalOptima Policies for specialists.

61. "**Stabilize**" or "**Stabilized**" means, with respect to an Emergency Medical Condition, to provide such medical treatment of the condition to assure within reasonable medical probability that no material deterioration of the condition is likely to result or occur during the transfer of the individual from a facility, or in the case of a pregnant woman, that the woman has delivered the child and placenta.

62. "**Threshold Language"** means those languages as determined by CalOptima's Regulators from time to time and identified in guidance on translation requirements provided to CalOptima.

63. "**Urgent Care**" means services required to prevent serious deterioration of health following the onset of an unforeseen condition or injury and are medical services required promptly to prevent impairment of health due to symptoms that do not constitute an Emergency Medical Condition but that are the result of an unforeseen illness, injury or condition for which medical services are immediately required.

Notes:			
1. Financial responsibility is based on Medicare benefit interpretations and limitations.			
2. The symbol "Rx" denotes outpatient prescription drug services.			
Assignment of financial responsibility as outlined in this document is independent of the questions of medical necessity, coverage or benefits.			

ATTACHMENT C
CAPITATION RATES AND RISK SHARING

1. **Capitation Allocation**

1.1 **Allocation of Non-Part D CMS Revenue**. Each month, CalOptima shall allocate both the non-Part D related capitation that CalOptima receives from CMS for Enrollees affiliated with Hospital and any applicable premiums that CalOptima charges Enrollees affiliated with Hospital (collectively, the "**Total Revenues**") as follows:

- Facility and Other Services ("**Hospital Budget**") xx.x%
- Physician Group Capitation Fees xx.xx%

1.2 **MLR**. In accordance with Section 2.3, "Medical Loss Ratio", of the Contract, Hospital shall maintain a minimum acceptable loss ratio of eighty-five percent (85%). Should Hospital not meet the minimum eighty-five percent (85%) MLR, CalOptima reserves the right to require Hospital to return to CalOptima the difference between eighty-five percent (85%) of Capitation Payments and the allowed medical expenses.

1.3 **Sequestration**. If CMS reduces payment to CalOptima under the CMS Contract by more than two percent (2%) at any time during the Term, CalOptima may, upon written notice to Hospital, reduce payment to Hospital under this Attachment C by the same percentage that CMS reduced payment to CalOptima. This provision applies each time CMS reduces payment to CalOptima by more than two percent (2%) during the Term.

ATTACHMENT D
CLAIMS PROCESSING AND COMPLIANCE OBLIGATIONS

I. DEFINITIONS

1.1 "**Clean Claim**" means one that can be processed without obtaining additional information from the provider of the service or from a third party. Clean claim shall have the same meaning as "complete claim" as that term is defined in Title 28, CCR Section 1300.71(a)(2). Clean Claim does not include a claim from a Provider who is under investigation for fraud or abuse, or a claim under review for Medical Necessity.

1.2 "**Unclean Claim**" means any claim other than as defined in Section 1.1 of this attachment.

1.3 "**Denied Claim**" means a claim where (a) one or more services will not be paid by Hospital and (b) payment is the responsibility of the Enrollee. Examples of claims that are not denials and should not be reported, submitted, or presented to CalOptima as Denied Claims include claims:

1.3.1 For patients who remain enrolled with CalOptima but have transferred to another Hospital and Hospital is forwarding the claim,

1.3.2 For which payment responsibility belongs to another contracting entity, and Hospital is forwarding the claim,

1.3.3 That are duplicates,

1.3.4 That are encounter only/capitated claims and no patient liability is involved, and

1.3.5 That involve reduced payment amounts due to contract terms or allowed Medicare fee schedules.

II. GENERAL TERMS

2.1 **Hospital Claims Processing**. Hospital shall process claims for Provider services according to all CMS requirements and, as applicable, in accordance with the requirements of the Knox-Keene Act. This Attachment D is intended to comply with all DMHC and CMS standards and requirements. Should this Attachment D be out of compliance with any existing or newly enacted DMHC or CMS standard or requirement, the DMHC and/or CMS standard or requirement will supersede this Attachment D. CalOptima will communicate any changes in requirements to Hospital in writing.

2.2 If Hospital enters into a contract with a Downstream Entity whereby the responsibility for claims processing is delegated to that Downstream Entity, Attachment D provisions shall apply. Hospital will have contractual provisions to ensure such Downstream Entity conforms to all DMHC and CMS requirements and oversight provisions as outlined herein and in CalOptima Policies.

2.3 Hospital and any applicable Downstream Entity shall be required to have an oversight program for claims processing that includes written policies and procedures, a process for reporting fraudulent or unethical conduct, and an executive accountable for review of claims data and attesting to its accuracy. The oversight program shall include internal auditing of claims functions, and self-reporting as outlined in CalOptima Policies.

III. CLAIMS PROCESSING

3.1 **Timely Provider Payments**.

3.1.1 Hospital and Downstream Entities, if, and as applicable, must make timely payments to Participating Providers consistent with 42 CFR § 447.45.

3.1.2 Hospital shall reimburse Clean Claims, or any portion of any Clean Claim, for Covered Services, as soon as practical, but no later than thirty (30) calendar days after receipt of the claim by Hospital, unless the claim or portion thereof is reasonably contested, in which case the claimant shall be notified in writing that the claim is contested or denied within forty-five (45) business days after receipt of the claim by Hospital in accordance with CalOptima Policies.

3.1.3 Hospital must ensure that ninety percent (90%) of claims from Providers who are in individual or group practice, which can be processed without obtaining additional information from the Provider or from a third party, will be paid within thirty (30) days of the date of receipt of the claim.

3.1.4 Hospital must ensure that ninety-nine percent (99%) of all Clean Claims from Providers for Covered Services will be paid within ninety (90) days of the date of receipt of the claim.

3.1.5 Generally, the date of receipt is the date the Hospital receives the claim, as indicated by its date stamp on the claim. The date of payment is the date of the check or other form of payment.

3.1.6 **"30-Day" Claim Timeliness**. Hospital shall adjudicate nine-five percent (95%) of all Clean Claims from Non-Participating Providers or suppliers within thirty (30) calendar days of receiving the claim. Adjudicate a claim shall be deemed to mean to have processed the claim (paid or denied) and mailed the remittance advice by the thirtieth (30^{th}) calendar day since the earliest receipt by Hospital or CalOptima's contracting Providers.

3.1.7 **"60-Day" Claim Timeliness**. Hospital shall pay or deny Unclean Claims from Non-Participating Providers or suppliers, claims from Participating Providers or suppliers, and claims from Medicare fiscal intermediaries and carriers within sixty (60) calendar days of receipt of such claims. Processing shall be deemed to mean either to have paid or denied and mailed the remittance advice by the sixtieth (60^{th}) calendar day since the earliest receipt by Hospital or CalOptima's contracting Providers, or to have denied the claim, and have mailed the denial letter to the Enrollee by the sixtieth (60^{th}) day. In accordance with federal law and CMS regulations, failure to process such claims within sixty (60) calendar days of receipt automatically constitutes an "adverse" initial determination, which the Enrollee may appeal; thus, a denial notice must be mailed to the Enrollee.

3.1.8 **Payment Accuracy**. When paying Non-Participating Providers, Hospital shall employ only those Medicare fee schedules that MA plans are allowed to use by law and shall comply with 42 CFR § 422.214.

3.1.9 **Denied Claims**. Decisions to deny claims that result in liability for the Enrollee must be made in accordance with CMS guidelines. Whenever such decisions are made, the currently CMS approved Notice of Denial of Payment or Integrated Denial Notice must be used, including approved denial reasons. Under no circumstances shall Hospital deny a claim for the second time as a consequence of responding to a request for reconsideration from an Enrollee; instead, Hospital must direct the Enrollee to submit the request directly

to CalOptima as appropriate.

3.2 **Claims for Emergency and Post-Stabilization Services.**

3.2.1 Hospital shall not retroactively deny a claim for Emergency Services because the condition, which appeared to be an Emergency Medical Condition, turned out to be non-emergency in nature. Hospital shall ensure that its claims processing actions do not conflict with Hospital actions required to comply with the Emergency Medical Treatment and Active Labor Act ("**EMTALA**").

3.2.2 If there is a disagreement between Hospital or any Participating Provider and any Non-Participating Provider regarding Medically Necessity of Covered Services in an emergency, the judgment of the attending physician(s) actually caring for the Enrollee at the treating facility shall prevail.

3.2.3 Hospital shall ensure that an enrollee with an Emergency Medical Condition will be seen on an emergency basis and that Emergency Services will be available and accessible within the Service Area twenty-four (24) hours a day. Hospital shall cover Emergency Services without prior Authorization pursuant to Title 28 CCR Section 1300.67(g), Title 22 CCR Section 53216, and Section 1932(b)(2) of the Social Security Act. Hospital shall coordinate access to Emergency Services in accordance with 42 CFR § 438.114 and the Hospital's emergency department protocol.

3.2.4 An Enrollee who has an Emergency Medical Condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or Stabilize the Enrollee.

3.2.5 Hospital may not deny payment for treatment obtained under either of the following circumstances: an Enrollee had an Emergency Medical Condition, including cases in which the absence of immediate medical attention would not have had the outcomes specified in the definition of an Emergency Medical Condition; or the Hospital representative instructs the Enrollee to seek Emergency Services. The attending emergency Physician, or the Provider actually treating the Enrollee, is responsible for determining when the Enrollee is sufficiently Stabilized for transfer or discharge, and that determination is binding on the entities as responsible for coverage and payment.

3.2.6 Hospital must cover and pay for Post-Stabilization Care Services. Hospital is financially responsible for Post-Stabilization Care Services obtained within or outside the organization that are pre-approved by a Physician Group Provider or other Hospital representative. Hospital is financially responsible for Post-Stabilization Care Services obtained within or outside the Hospital organization that are not pre-approved by a Participating Provider or other Hospital representative, but are administered to maintain the Enrollee's Stabilized condition within one (1) hour of a request to the Hospital for pre-approval of further Post-Stabilization Care Services. Hospital is financially responsible for Post-Stabilization Care Services obtained from within or outside the Hospital that are not pre-approved by a Participating Provider or other Hospital representative, but administered to maintain, improve, or resolve the Enrollee's Stabilized condition if the Hospital: does not respond to a request for pre-approval within one (1) hour; cannot be contacted; or the Hospital representative and the treating physician cannot reach an agreement concerning the Enrollee's care and a Participating Provider is not available for consultation. In this situation, the Hospital must give the treating Physician the opportunity to consult with a

Participating Provider and the treating Physician may continue with care of the Enrollee until a Participating Provider is reached or one criteria in 42 C.F.R. § 113(c)(3) is met. Hospital must limit charges to Enrollees for Post-Stabilization Care Services to an amount no greater than what the Hospital would charge the Enrollee if he or she had obtained the services through Hospital. Hospital financial responsibility for Post-Stabilization Care Services it has not pre-approved ends when: a Participating Provider with privileges at the treating hospital assumes responsibility for the Enrollee's care; a Participating Provider assumes responsibility for the Enrollee's care through transfer; Hospital representative and the treating Physician reach an agreement concerning the Enrollee's care; or; the Enrollee is discharged.

3.2.7 Hospital shall reimburse those hospitals providing Emergency Services and Urgent Care services with which Hospital has a contract according to the terms of that contract.

3.2.8 Hospital must reimburse a Non-Participating Provider for Emergency Services or Urgent Care services at the prevailing Medicare fee-for-service ("**FFS**") rate as applicable for that service. Where the Covered Service would traditionally be covered under Medicare FFS, the Medicare FFS rate applies. Hospital shall ensure that Enrollees maintain balance billing protections as provided in Section 6.4 of this Contract.

3.3 **Hospital Financial Responsibility**. If CalOptima receives a claim for Covered Services that are the financial responsibility of Hospital, CalOptima shall forward such claim to Hospital for payment, in accordance with the procedures set forth in Title 28 CCR Section 1300.71, "Claims Settlement Practices." CalOptima shall not pay for services that are Hospital's financial responsibility unless Hospital fails to make payment within the time allowed by State and federal laws and regulations, and CalOptima is required by law to make such payment. In such cases, CalOptima, after written notice to Hospital and reasonable opportunity to cure, will make payment, and Hospital shall reimburse CalOptima for such payments. If Hospital fails to reimburse CalOptima, CalOptima may offset an uncontested payment(s) against Capitation Payments or other amounts due from CalOptima to Hospital, if any.

3.4 **Collection of Share of Cost**. Hospital shall collect Medicare share of cost unless prohibited under this Contract.

3.5 **Capitation Payments**. Hospital and/or Downstream Entities shall distribute monthly Capitation Payments to capitated Participating Providers within fifteen (15) calendar days following the date on which Physician receives payment from CalOptima.

3.6 **Claims Adjudication**. Except as provided in Section 3.1.1, Hospital shall accept and adjudicate claims for Covered Services provided to Enrollees in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies. Waiver of any right or obligation specific to the Health and Safety Code and Title 28 related to claims processing and payment shall be prohibited.

3.7 **Dispute Resolution.** Hospital shall establish and maintain a fair, fast and cost-effective dispute resolution mechanism to process and resolve provider disputes in accordance with the provisions of Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.38, 1371.4 and 1371.8 of the California Health & Safety Code, and Sections 1300.71, 1300.71.38, 1300.71.4, and 1300.77.4 of Title 28 of the CCR and CalOptima Policies.

3.8 **Right of Appeal**. Hospital shall afford Providers an unconditional right of appeal and de novo review for claims disputes involving issues of Medical Necessity. Any Provider that submits a claim dispute to Hospital's dispute resolution mechanism involving an issue of Medical Necessity or utilization review shall have an unconditional right of appeal for that claim dispute to CalOptima's dispute resolution process for a de novo review and resolution for a period of sixty (60) working days from Physician's Date of Determination.

3.9 **CalOptima Payment On Behalf Of Physician**. If CalOptima receives a copy of an unpaid Clean Claim as part of a Provider grievance that is thirty (30) working days old or more, CalOptima will follow all notification and acknowledgement procedures pursuant to CalOptima Policies. If Hospital does not either notify CalOptima that the claim is reasonably contested, as set forth in CalOptima Policies, or pay the Clean Claim within the thirty (30) working day period, CalOptima shall pay the Claim on behalf of Physician, plus interest, as required by the Knox-Keene Act, and deduct the amounts reimbursed, plus processing costs, from the Capitation Payment, in accordance with CalOptima Policies.

3.10 **Quarterly Claims Payment Performance Report.**

3.10.1 Hospital shall submit, in a format specified by CalOptima Policies, a quarterly claims payment performance report ("**Quarterly Claims Report**") to CalOptima within thirty (30) calendar days of the close of each calendar quarter. The Quarterly Claims Report shall, at a minimum, disclose Hospital's compliance status with Sections 1371, 1371.1, 1371.2, 1371.22, 1371.35, 1371.36, 1371.37, 1371.4, and 1371.8 of the California Health and Safety Code and Sections 1300.71, 1300.71.38, 1300.71.4 and 1300.77.4 of Title 28 of the CCR.

3.10.2 Hospital shall ensure that each Quarterly Claims Report is signed by, and includes the written verification of, a principal officer, as defined by Section 1300.45(o) of Title 28 of the CCR, of Hospital, stating that the report is true and correct to the best knowledge and belief of the principal officer.

3.10.3 Hospital's Quarterly Claims Report shall include a tabulated record of each Provider dispute it received, categorized by date of receipt, and including the identification of the Provider, type of dispute, disposition and working days to resolution, as to each Provider dispute received. Each individual dispute contained in a Provider's bundled notice of Provider dispute shall be reported as a separate dispute to CalOptima.

3.11 **Forwarding of Misdirected Claims.**

3.11.1 Hospital shall have the ability to receive a standard ANSI 837I and ANSI 837P claim file format for retrieving misrouted claims that are the financial responsibility of the Hospital. Hospital will receive and forward misdirected claims per CalOptima Policy.

3.11.2 Hospital shall have the ability to create a standard ANSI 837I and ANSI 837P claim file for forwarding claims that are the financial responsibility of CalOptima within ten (10) working days of receipt of the claim. CalOptima shall receive these files per CalOptima policy and load them into its system to ensure timely claims processing. Hospital shall forward any claims that are not its payment responsibility to CalOptima within eight (8) calendar days of receipt, so that a total of only ten (10) working days will elapse prior to the claims being in the proper hands.

3.12 **Assumption of Delegated Functions**. In the event that Hospital fails to timely and accurately reimburse its claims (including the payment of interest and penalties), CalOptima may, at its sole discretion, revoke the delegation and assume responsibility from Hospital for claims payment, or terminate this Contract as provided for in Article XI. CalOptima's assumption of responsibility for the processing and timely reimbursement of Provider claims may be altered to the extent that Hospital has established an approved CAP consistent with Section 1375.4 (b)(4) of the Health and Safety Code and Section 11.3 of the Contract.

3.13 **Recoupment for Assumption of Claims Processing Obligations**. CalOptima, in its sole and absolute discretion, may reduce Hospital's Capitation Payments to recoup additional administrative costs for the assumption of the claims processing obligations of Hospital, as described in this Article III of Attachment D, as well as any amounts, including interest due, on claims unpaid at the assumption of such obligations by CalOptima.

IV. CLAIMS COMPLIANCE

4.1 **Claims Compliance Monitoring**. Hospital understands that claims compliance programs are required by CalOptima's Regulators and agrees that delegation is contingent upon Hospital's compliance with required monitoring and oversight activities, as outlined in CalOptima Policies. Hospital agrees that CalOptima reserves the right to monitor Hospital's claims compliance activities, notwithstanding any other audit, compliance, or contractual issue between Hospital and CalOptima. In the event Hospital demonstrates an inability to meet CalOptima's claims payment standards, CalOptima reserves the right to revoke and assume the delegated responsibilities described above.

4.2 **Claims Non-Compliance**. In the event that CalOptima determines that Hospital is not in ninety-five percent (95%) compliance with any of the requirements of Attachment D the following actions will be applied:

4.2.1 Within thirty (30) days of an audit that documents non-compliance, CalOptima will issue a written warning to Hospital that describes the non-compliance. Hospital will respond within fifteen (15) working days of receiving the non-compliance notification with a written CAP to comply. Such CAP will describe the actions to be taken and the schedule by which those actions will be completed. CalOptima will review the CAP and advise Hospital whether or not actions or time schedules are acceptable within fifteen (15) days of receiving it. CalOptima will conduct a follow-up audit of Hospital's claims operation within ninety (90) days from the date of serving the non-compliance notification to verify compliance with Attachment D. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.2 of this attachment for continued non-compliance will apply.

4.2.2 If, as a result of CalOptima's follow-up audit, Hospital is found to still be non-compliant with Attachment D within fifteen (15) calendar days of making that determination, CalOptima will notify Hospital in writing of the continued non-compliance and may elect to provide consultative or other assistance to help establish, maintain and monitor continued administrative compliance or assume "joint administration" of Hospital's claims operations, involving itself only with Enrollees' claims and allowing the operation to remain on Hospital's premises. The Parties agree to meet and develop a mutually agreeable work plan for added staffing and work stations, the cost of which will be Hospital's sole responsibility. CalOptima will develop a CAP with Hospital's participation to assure maximum compatibility with Hospital's ongoing operations. CalOptima will cooperate

with Hospital in implementing changes across all risk claims processed at that site, should Hospital so request. Within fifteen (15) calendar days of receiving the second notice of non-compliance, Hospital will provide a written response stating the specific action to be taken to establish compliance with the help of CalOptima. If CalOptima does not receive a CAP within fifteen (15) calendar days, the consequences outlined in Subsection 4.2.3 for continued non-compliance will apply. Within ninety (90) days from the date of serving the second notice of non-compliance, CalOptima will re-audit Hospital's claims process and documents to determine final compliance or non-compliance.

4.2.3 If, as a result of its second follow-up audit, CalOptima reasonably determines that Hospital is still non-compliant, CalOptima reserves the right to terminate this Contract for material breach upon ten (10) days' prior written notice and opportunity to cure.

4.2.4 Hospital may resume sole administrative responsibility for claims processing if CalOptima determines that Hospital has corrected the deficiencies that caused the non-compliance, and, as a result of resuming responsibility for claims processing, demonstrates compliance with the timely provider payments requirements set forth in Section 3.1 of this Attachment D.

4.2.5 With respect to the requirements of Attachment D, Hospital will be subject to regular site-audits conducted by CalOptima to monitor all claims requirements.

V. CLAIMS FORWARDING

Hospital shall forward any claims that are not its payment responsibility to CalOptima within ten (10) calendar days of receipt.

VI. SELF-MONITORING & REPORTING

Hospital shall develop, implement and demonstrate upon request, a claims quality assurance process, including regular, scheduled, automated, or manual reports, self-testing procedures, and internal reporting to Hospital's executive management of timeliness, payment accuracy, and denial accuracy (as required herein). Such self-monitoring and internal reporting shall involve use of industry standard tools and shall measure actual performance against the standards for DMHC and CMS compliance. CalOptima strongly recommends check issuance and mailing occur not less frequently than weekly and that Hospital's internal reporting intervals match the intervals at which checks are issued, except that weekly reporting would be sufficient if checks are issued more often than weekly. At a point early in the beginning of operations under the Contract and in accordance with industry-wide CMS requirements, CalOptima will require that Hospital submit monthly reports to CalOptima using the industry-standard Monthly Report of Claims Processing Timeliness and Overall Percent of Denial Accuracy format. Those reports must be received by CalOptima not later than the fifteenth (15th) calendar day of each month.

VII. AUDITS & AUDIT PREPARATION

Article IV, above, provides detailed, specific processes involving claims non-compliance. Even when Hospital does meet compliance standards and successfully concludes any time periods where denials must be submitted to CalOptima for review, CalOptima will continue to schedule (1) periodic audits, (2) random, focused audits, and (3) focused reviews based on appeals and grievance results to monitor Hospital's compliance with CMS regulations. Prior to the scheduled arrival of CalOptima's auditor, Hospital shall retrieve claims and related documents in accordance with instructions provided to Hospital by CalOptima in its letter confirming the appointment.

VIII. SPECIAL STUDIES

8.1 In the event DMHC and/or CMS requires that CalOptima conduct any special compliance study or effort, Hospital shall support the study and will be subject to any DMHC and/or CMS specified time schedules or deadlines for corrective actions.

IX. FEDERALLY QUALIFIED HEALTH CENTERS AND RURAL HEALTH CLINICS

9.1 Hospital shall meet federal requirements for access to FQHC services, including those in 42 U.S.C. § 1396 b(m). Hospital shall reimburse FQHCs and RHCs in accordance with current Laws. If FQHC and RHCs services are not available in the Provider network, Hospital shall authorize out-of-network services subject to the prevailing MA payment requirements for out-of-network services.

9.2 Hospital shall ensure that its payments to FQHCs and RHCs for services to Enrollees are no less than the sum of the level and amount of payment that the Health Network or CalOptima would make for such services if the services had been furnished by an entity providing similar services that was not an FQHC and RHC. The intent of these provisions is to ensure that Hospital pays FQHCs and RHCs amounts consistent with Medicare managed care policies while preserving the opportunity for FQHCs to separately claim supplemental payments under such policies.

X. INDIAN HEALTH CARE PROVIDERS

10.1 Hospital shall pay non-network Indian Health Care Providers that are FQHCs for the provision of services to an Indian Enrollee at a rate equal to the rate that Hospital would pay to a network FQHC that is not an Indian Health Care Provider, including any supplemental payment from the State to make up the difference between the contract amount and what the Indian Health Care Provider would have received FFS.

10.2 When the amount the Participating Provider Indian Health Care Provider receives from the Hospital is less than the amount the Indian Health Care Providers would receive FFS, the State must make a supplemental payment to the Indian Health Care Provider that the Indian Health Care Provider would receive FFS or the applicable encounter rate.

10.3 Hospital shall not impose enrollment fees, premiums, or similar charges on Indians served by an Indian Health Care Provider or through referral under contract health services. Hospital must exempt from all cost-sharing any Indian who is currently receiving or has ever received an item or service furnished by an Indian Health Care Provider or through referral under contract health services.

10.4 Hospital shall reimburse Indian Health Care Providers promptly who provide Covered Services to Indian Enrollees, who are eligible to receive Covered Services, at the most current and applicable outpatient per-visit rate published in the Federal Register by the Indian Health Service, and Hospital shall ensure any retroactive outpatient per visit rates are appropriately reimbursed to the Indian Health Care Provider.

ATTACHMENT E
STATUTORY AND REGULATORY COMPLIANCE TERMS

1. **Compliance with State and Federal Laws**. Hospital acknowledges that CalOptima is subject to certain State and federal laws, regulations, and instructions governing its MA Program. Hospital shall comply with all Laws and DMHC and CMS administrative bulletins, plan letters and instructions. Hospital understands that payments made by CalOptima are, in whole or in part, derived from federal funds, and therefore Hospital and any Downstream Entities are subject to certain laws that are applicable to individuals and entities receiving federal funds, including the following: (i) Title VI of the Civil Rights Act of 1964; (ii) Sections 503 and 504 of the Rehabilitation Act of 1973; (iii) the Age Discrimination Act of 1975; (iv) the Americans with Disabilities Act of 1990; (v) the Vietnam Era Veteran's Readjustment Assistance Act; and (vi) Title IX of the Education Amendments of 1972. Any provision required to be in this Contract by the CMS Contract, the Knox-Keene Act, Title 28 of the California Code of Regulations, Medicare laws and regulations, DMHC or CMS instructions and reporting requirements and other applicable laws, shall bind CalOptima, Hospital, and Downstream Entities, whether or not specifically set forth in this Contract.

2. **Compliance with CalOptima's Contractual Obligations**. All services and other activities furnished by Hospital and Downstream Entities must be performed in accordance with CalOptima's contractual obligations to CMS.

3. **Compliance with FWA Requirements**. Hospital, and its employees, agents and Downstream Entities performing services under this Contract, shall comply with CalOptima's Compliance Program including, its FWA plan. Prior to performing services under this Contract, Hospital shall complete and submit to CalOptima, any CMS-required training and/or CalOptima-required attestations related to such training and other compliance obligations. Hospital agrees to comply and will have any Downstream Entity agree to comply with CalOptima standards and policies.

4. **Fraud and Abuse Reporting**. Hospital shall, in accordance with all Laws, report to CalOptima all cases of suspected fraud and/or abuse relating to the rendering of Covered Services within five (5) days of the date when Hospital first becomes aware of or is on notice of such activity.

5. **CMS Participation Requirements**. Hospital represents and warrants that: (i) neither Hospital nor any of its Downstream Entities, employees or agents furnishing services under this Contract are excluded from participating in any federal or state healthcare program as defined in 42 U.S.C. Section 1320a-7b(f) ("**Federal Health Care Program(s)**"); (ii) Hospital has not arranged or contracted (by employment or otherwise) with any employee, contractor or agent that Hospital knows or should know are excluded or precluded from participation in Federal Health Care Programs; (iii) no action is pending against Hospital or any of its Downstream Entities, employees, or agents performing services under this Contract to suspend or exclude such persons or entities from participation in any Federal Health Care Program; and (iv) Hospital will immediately notify CalOptima if it learns that it is or has employed or contracted with a person or entity that is excluded from participation in any Federal Health Care Program. If Hospital fails to comply with this Section 5 of this attachment, CalOptima reserves the right to require Hospital to pay immediately to CalOptima the amount of any sanctions or other penalties that may be imposed on CalOptima by CMS for violation of this prohibition, and Hospital shall be responsible for any resulting overpayments. Hospital shall not make payment for a healthcare item or service furnished by an individual or entity that is excluded by the Office of the Inspector General or is included on the Preclusion List. Hospital shall provide written notice to the Enrollee who received the services and the excluded Provider or Provider listed on the Preclusion List that payment will not be made, in

accordance with CMS requirements. Hospital shall ensure that all Participating Providers that provide Covered Services do not appear on the CMS Preclusion List in order to receive reimbursement for claims or otherwise participate in the Medicare program.

6. **Confidentiality of Enrollee Information**. Hospital, its Downstream Entities, and their employees and agents shall comply with the specific confidentiality obligations set forth below.

6.1 Hospital, Downstream Entities, and their employees and agents shall protect from unauthorized disclosure the names and other identifying information concerning persons either receiving services pursuant to this Contract or persons whose names or identifying information become available or are disclosed to them as a result of services performed under this Contract, except for statistical information not identifying any such person. Hospital, Downstream Entities, and their employees and agents shall not use such identifying information for any purpose other than carrying out Hospital's obligations under this Contract.

6.2 Hospital, Downstream Entities, and their employees and agents shall promptly transmit to CalOptima all requests for disclosure of such identifying information not emanating from the Enrollee. Hospital shall not disclose, except as otherwise specifically permitted by this Contract or authorized by the Enrollee, any such identifying information to anyone other than CMS, DMHC, or CalOptima without prior written authorization from CalOptima. For purposes of this provision, identity shall include, but not be limited to name, identifying number, symbol, or other identifying particular assigned to the individual, such as finger or voice print or a photograph.

6.3 Notwithstanding any other provision of this Contract, names of persons receiving public social services are confidential and are to be protected from unauthorized disclosure in accordance with 42 CFR Section 431.300 *et seq*., Welfare and Institutions Code Section 14100.2, and regulations adopted thereunder. For the purpose of this Contract, all information, records, data, and data elements collected and maintained for the operation of the Contract and pertaining to Enrollees shall be protected by Hospital from unauthorized disclosure. Hospital may release Medical Records in accordance with Laws pertaining to the release of this type of information. Hospital is not required to report requests for Medical Records made in accordance with Laws.

6.4 With respect to any identifiable information concerning an Enrollee under this Contract that is obtained by Hospital or its Downstream Entities from CalOptima's Regulators, Hospital will, at the termination of this Contract, return all such information to CalOptima's Regulators if required by them, or maintain such information according to written procedures provided to Hospital by CalOptima and/or CalOptima's Regulators for this purpose.

7. **Offshore Subcontracts**. Hospital shall provide, and ensure that Downstream Entities provide, to CalOptima information and attestations related to the provision of any services under this Contract in a country other than the United States ("**Offshore Subcontractor**") to enable CalOptima to comply with CMS reporting obligations. Such information shall be submitted to CalOptima prior to engaging any Offshore Subcontractor for purposes of this Contract, and such Offshore Subcontractors are subject to approval by CalOptima.

8. **Required Disclosures**. In accordance with 42 CFR Section 1002.3, Hospital shall immediately notify CalOptima in the event any sanctioned person (as defined in 42 CFR Section 1001.1001(a)(1)) owns or controls Hospital.

9. **Equal Opportunity**. Hospital and Downstream Entities shall comply with the following Equal Opportunity requirements set forth below.

9.1 Hospital and its Downstream Entities will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Hospital and its Downstream Entities will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era. Such action shall include the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. Physician and its Downstream Entities agree to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the federal government, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973, and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state Hospital and its Downstream Entities' obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

9.2 Hospital and its Downstream Entities will, in all solicitations or advancements for employees placed by or on behalf of Hospital and its Downstream Entities, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age, or status as a disabled veteran or veteran of the Vietnam era.

9.3 Hospital and its Downstream Entities will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the federal government or the State, advising the labor union or workers' representative of Hospital and its Downstream Entities' commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

9.4 Hospital and its Downstream Entities will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and of the rules, regulations, and relevant orders of the Secretary of Labor.

9.5 Hospital and its Downstream Entities will furnish all information and reports required by Federal Executive Order No. 11246, as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and Hospital will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

9.6 In the event of Hospital and its Downstream Entities' noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced in this Article IX, this Contract may be cancelled, terminated, or suspended in whole or in part, and Hospital and its Downstream Entities may be declared ineligible for further State and Federal contracts, in accordance with procedures authorized in Federal Executive Order No. 11246 as amended, and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

9.7 Hospital and its Downstream Entities will include the provisions of Sections 10.1 through 10.7 of this attachment in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor, issued pursuant to Federal Executive Order No. 11246 as amended, including by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulation at 41 CFR Part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or Section 503 of the Rehabilitation Act of 1973 or (38 U.S.C. Section 4212) of the Vietnam Era Veteran's Readjustment Assistance Act, so that such provisions will be binding upon each Downstream Entity. Physician and its Downstream Entities will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs or CMS may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that in the event Hospital and/or its Downstream Entities become involved in, or are threatened with litigation by a other Downstream Entity or vendor as a result of such direction by CMS, Hospital and its Downstream Entities may request in writing to CMS, who, in turn, may request the United States to enter into such litigation to protect the interests of the State and of the United States.

10. **Non-Discrimination**. Hospital and Downstream Entities shall comply with the non-discrimination requirements set forth below.

10.1 During the performance of this Contract, neither Hospital nor any Downstream Entities shall unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, religion, color, national origin, ancestry, religious creed, physical disability, (including Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC)), medical condition (including cancer), mental disability, marital status, age (over 40), or the use of family and medical care leave and pregnancy disability leave. Hospital and

Downstream Entities shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination and harassment. Hospital and Downstream Entities shall comply with the provisions of the Fair Employment and Housing Act (Government Code, Section 12900, *et seq*.) and the applicable regulations promulgated thereunder (Title 2 CCR Section 7285.0, *et seq*.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code, Section 12990, set forth in Chapter 5 of Division 4 of Title 2 of the CCR are incorporated into this Contract by reference and made a part hereof as if set forth in full. Hospital and Downstream Entities shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. Hospital shall include the non-discrimination and compliance provisions of this Section 10.1 in all Downstream Entity subcontracts to perform work under this Contract.

10.2 Hospital and all Downstream Entities shall abide by Section 504 of the Rehabilitation Act of 1973 (29 USC §794) (nondiscrimination under Federal grants and programs); Title 45 CFR Part 84 (nondiscrimination on the basis of handicap in programs or activities receiving Federal financial assistance); Title 28 CFR Part 36 (nondiscrimination on the basis of disability by public accommodations and in commercial facilities); Title IX of the Education Amendments of 1972 (regarding education programs and activities); Title 45 CFR Part 91 and the Age Discrimination Act of 1975 (discrimination based on age); and all other laws regarding privacy and confidentiality. Neither the Physician nor Downstream Entities shall discriminate against Enrollees because of race, color, creed, religion, ancestry, marital status, sexual orientation, national origin, age, sex, or physical or mental handicap in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C., Section 2000d (race, color, national origin); 45 CFR Part 84 (physical or mental handicap); Government Code Section 11135 (ethnic group identification, religion, age, sex, color, physical or mental handicap); Civil Code Section 51 (all types of arbitrary discrimination); rules and regulations promulgated pursuant thereto, or as otherwise provided by Laws.

10.3 For the purpose of this Contract, if based on any of the foregoing criteria, the following constitute unlawful discriminations: (i) denying any Enrollee any Covered Services or availability of a facility; (ii) providing to an Enrollee any Covered Service that is different or is provided in a different manner or at a different time from that provided to other similarly situated Enrollees under this Contract, except where medically indicated; (iii) subjecting an Enrollee to segregation or separate treatment in any manner related to the receipt of any Covered Service; (iv) restricting an Enrollee in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any Covered Service; or (v) treating an Enrollee differently from others similarly situated in determining compliance with admission, enrollment, quota, eligibility, or other requirements or conditions that individuals shall meet in order to be provided any Covered Service or assigning the times or places for the provision of Covered Services.

10.4 Hospital shall take affirmative action to ensure that all Enrollees are provided Covered Services without unlawful discrimination, except where medically indicated. For the purposes of this Section 10.4, physical handicap includes the carrying of a gene that may, under some circumstances, be associated with disability in that person's offspring, but which causes no adverse effects on the carrier. Such genetic handicap shall include, but not be limited to, Tay-Sachs trait, sickle cell trait, thalassemia trait, and X-linked hemophilia.

10.5 Physician shall act upon all complaints alleging discrimination against Enrollees in accordance with CalOptima's Policies and shall forward copies of all such grievances to CalOptima within five (5) days of receipt of same.

11. **Smoke Free Workplace**. Public Law 103-227, also known as the Pro Children Act of 1994 ("**Pro Children Act**"), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education, or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party. By signing this Contract, Hospital certifies that it will comply with the requirements of the Pro Children Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Pro Children Act. Physician further agrees that it will insert this certification into any subcontracts entered into that provide for children's services as described in the Pro Children Act.

12. **Air or Water Pollution Requirements**. Any federally funded agreement and/or subcontract in excess of $100,000 must comply with the following provisions unless said agreement is exempt under 40 CFR 15.5. Hospital agrees to comply with all applicable standards, orders, or requirements issued under the Clean Air Act (42 USC 7401 *et seq*.), as amended, and the Federal Water Pollution Control Act (33 USC 1251 *et seq*.), as amended.

13. **Lobbying Restrictions and Disclosure Certification**. Any federally funded contracts in excess of $100,000 per Section 1352 of the 31, U.S.C. must comply with the following lobby restrictions and disclosures.

13.1 Each person (or recipient) who requests or receives a contract, subcontract, grant, or sub-grant, which is subject to 31 U.S.C. Section 1352 and which exceeds $100,000 at any tier, shall file a certification (in the form set forth in **Attachment E-1**, consisting of one page, entitled "Certification Regarding Lobbying") that the recipient has not made, and will not make, any payment prohibited by Subsection 13.6 of this attachment.

13.2 Each recipient shall file a disclosure (in the form set forth in **Attachment E-2**, entitled "Standard Form-LLL 'Disclosure of Lobbying Activities'") if such recipient has made or has agreed to make any payment using non-appropriated funds (to include profits from any covered federal action) in connection with a contract or grant or any extension or amendment of that contract or grant, which would be prohibited under Section 13.6 of this attachment if paid for with appropriated funds.

13.3 Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Section 13.2 of this attachment. An event that materially affects the accuracy of the information reported includes: (i) a cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action; (ii)

a change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or (iii) a change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.

13.4 Each person (or recipient) who requests or receives, from a person referred to in Section 13.1 of this attachment, a contract, subcontract, grant or sub-grant exceeding $100,000 at any tier under a contract or grant shall file a certification and a disclosure form, if required, to the next tier above.

13.5 All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Section 13.1 of this attachment.

13.6 31 U.S.C. Section 1352 provides in part that no appropriated funds may be expended by the recipient of a federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan, entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

14. **Debarment Certification**. Hospital agrees to comply with applicable Federal suspension and debarment regulations including 7 CFR § 3017, 45 CFR §76, 40 CFR § 32, or 34 CFR § 85.

14.1 Hospital certifies to the best of its knowledge and belief, that it and its principals:

(i) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(ii) Have not within a three (3)-year period preceding this Contract have been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(iii) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, State or local) with commission of any of the offenses enumerated in sub-provision (ii) herein;

(iv) Have not within a three (3)-year period preceding this Contract had one or more public transactions (Federal, State or local) terminated for cause or default;

(v) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under Federal regulations (i.e., 48 CFR 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State; and

(vi) Will include a clause entitled, "Debarment and Suspension Certification'' that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

14.2 If Hospital is unable to certify to any of the statements in this certification, the Physician shall submit an explanation to CalOptima.

14.3 The terms and definitions in this Section 14 have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

14.4 If Hospital knowingly violates this certification, in addition to other remedies available to the federal government, CalOptima may terminate this Contract for cause or default.

15. **Downstream Entity Contracts**. If any services under this Contract are to be provided by a Downstream Entity subcontracted by Hospital, Hospital shall ensure that such subcontracts comply with 42 CFR Sections 422.504, 423.505 and 438.6(l). Such subcontracts shall include all language required by CMS as provided in Attachment F**.**

16. **Other Statutory and Compliance Terms**. Hospital shall not contract with, or otherwise pay for any items or services (other than an emergency item or service, not including items or services furnished in an emergency room of a hospital):

16.1 Furnished by Hospital by any individual or entity during any period when the individual or entity is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156 or 1842(j)(2);

16.2 Furnished at the medical direction or the prescription of a physician, during the period when such physician is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156, or 1842(j)(2) and when the person furnishing such item or service knew, or had some reason to know, of the exclusion (after a reasonable time period and after reasonable notice has been furnished to the person);

16.3 Furnished by an individual or entity to whom the State has suspended payments to during any period when there is a pending investigation of a credible allegation of fraud against the individual or entity, unless the State determines there is good cause not to suspend such payments;

16.4 Hospital may not pay for an item or service with respect to any amount expended for which funds may not be used under the Assisted Suicide Funding Restriction Act of 1997

CERTIFICATION REGARDING LOBBYING

STATE OF CALIFORNIA
DEPARTMENT OF HEALTH CARE SERVICES
CERTIFICATIN REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making, awarding or entering into of this Federal contract, Federal grant, or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of this Federal contract, grant, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency of the United States Government, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure of Lobbying Activities'' in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontractors, subgrants, and contracts under grants and cooperative agreements) of $100,000 or more, and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S.C., any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime federal recipients at the initiation or receipt of a covered federal action, or a material change to a previous filing, pursuant to Title 31, U.S.C., Section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

Identify the type of covered federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered federal action.

Identify the status of the covered federal action.

Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered federal action.

Enter the full name, address, city, state, and ZIP code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants, and contract awards under grants.

If the organization filing the report in Item 4 checks "Subawardee," then enter the full name, address, city, state, and ZIP code of the prime federal recipient. Include Congressional District, if known.

Enter the name of the federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation United States Coast Guard.

Enter the federal program name or description for the covered federal action (Item 1). If known, enter the full Catalog of Federal Domestic Assistance (CDFA) number for grants, cooperative agreements, loans, and loan commitments.

Enter the most appropriate federal identifying number available for the federal action identified in Item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract grant, or loan award number; the application/proposal control number assigned by the federal agency). Include prefixes, e.g., "RFP-DE-90401."

For a covered federal action where there has been an award or loan commitment by the federal agency, enter the federal amount of the award/loan commitment for the prime entity identified in Item 4 or 5.

10. (a) Enter the full name, address, city, state, and ZIP code of the lobbying entity engaged by the reporting entity identified in Item 4 to influence the covered federal action.

10. (b) Enter the full names of the Individual(s) performing services and include full address if different from 10.(a). Enter last name, first name, and middle initial (MI).

Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (Item 4) to the lobbying entity (Item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with federal officials, identify the federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.

The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and renewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of Management and Budget, Paperwork Reduction Project, (0348-0046), Washington, DC 20503.

ATTACHMENT F
SUBCONTRACT REGULATORY TERMS

A. **General Terms**: Language addressing the following matters shall be included in Downstream subcontracts:

1. The right of CalOptima's Regulators to monitor, audit, evaluate, inspect and have access to books, records and other information as provided in this Contract.
2. CalOptima's Regulators' right to inspect, evaluate, and audit any pertinent information related to the Contract for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit as provided in this Contract.
3. Prohibitions against holding Enrollees liable for payment of any fees that are the obligation of CalOptima or the Hospital, as applicable.
4. The services are in accordance with CalOptima's obligations to CMS and applicable CalOptima Policies.
5. The obligations of Downstream Entities to protect Enrollee privacy and confidentiality including health records, as provided in this Contract.
6. The obligation to comply with all federal and state laws, regulations and CMS instructions, including those laws that must be incorporated into such Downstream subcontracts as indicated in this Contract.
7. Language related to the obligations to submit timely and accurate Encounter Data and other data and reports required by CalOptima and CalOptima's Regulators as provided in this Contract and in CalOptima's Policies.
8. All requirements included in Attachment E not expressly addressed herein.

B. **Delegation Terms**. If, and to the extent that sub-delegation is permitted by CalOptima and Hospital obtains CalOptima's approval as provided in this Contract, Downstream Entity subcontracts must include:

1. Language that specifies (i) the delegated activities and reporting requirements; (ii) that provides for revocation of the delegated activities and other remedies in the event CalOptima or CalOptima's Regulators find that the delegated party as not performed satisfactorily; (iii) that the performance of the parties is monitored by CalOptima on an ongoing basis; and (iv) that CalOptima may impose corrective action as necessary.
2. If the subcontract relates to credentialing of medical providers, language that the credentials of medical professionals affiliated with the party or parties will either be reviewed by CalOptima or the credential process will be reviewed and approved by CalOptima and that CalOptima must audit the process on an ongoing basis.
3. If the subcontract delegates selection of providers it must include language that CalOptima retains the right to approve, suspend or terminate any such arrangement and that CalOptima shall provide a written statement to a provider of the reason or reasons for the termination with cause.

C. **Medical Provider Downstream Subcontract Terms**.

All subcontracts or arrangements with medical providers shall include provisions addressing:

1. The term of the contract, including the beginning and ending dates as well as methods of extension, renegotiation and termination and full disclosure of the method and amount of compensation or other consideration.

2. The obligation to pay contracted medical providers under the terms of the contract and prompt payment provision, the terms of which are developed and agreed to by the parties.

3. The obligations to provide services in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills, and diverse culturally and ethnic background and provide interpreter services for Enrollees at all provider sites.

4. The obligation to (i) abide by all federal and state laws and regulations regarding confidentiality and disclosure of medical records, or other health and enrollment information; (ii) to ensure that medical information is released in accordance with applicable federal or state law, or pursuant to court orders or subpoenas; (iii) to maintain Enrollee records and information in an accurate and timely manner; and (iv) to ensure timely access by Enrollees to the records and information that pertain to them.

5. The obligation to hold CalOptima, CalOptima's Regulators and Enrollees harmless in the event that Hospital cannot or will not pay for services performed by the Downstream Entity and for Medicare Part A and B cost sharing. Specifically, Medicare Parts A and B services must be provided at zero cost-sharing to Enrollees.

6. Medical providers' EMTALA obligations and that they must not create any conflicts with hospital actions required to comply with EMTALA.

7. Language prohibiting providers, including PCPs, from closing or otherwise limiting their acceptance of Enrollees as patients unless the same limitations apply to all commercially insured Enrollees.

8. Language that prohibits the Downstream Entity from refusing to contract or pay an otherwise eligible health care Provider for the provision of Covered Services solely because such Provider has in good faith: (a) Communicated with or advocated on behalf of one or more of his or her prospective, current or former patients regarding the provisions, terms or requirements of the 'Downstream Entity's health benefit plans as they relate to the needs of such Provider's patients; or (b) communicated with one or more of his or her prospective, current or former patients with respect to the method by which such Provider is compensated by the Downstream Entity for services provided to the patient.

9. Language that states the Provider is not required to indemnify the Hospital for any expenses and liabilities, including judgments, settlements, attorneys' fees, court costs and any associated charges, incurred in connection with any claim or action brought against the Hospital based on its management decisions, utilization review provisions or other policies, guidelines or actions.

10. The obligation of the medical provider to assist CalOptima in the transfer of care, including in the transfer of care in the event of sub-subcontract termination for any reason.

11. Acknowledgement that assignment or delegation of the subcontract will be void unless prior written approval is obtained from CMS and CalOptima.

12. 'The Provider's right to submit a grievance and a description of the formal process to resolve the Provider's grievances.

13. The obligation to participate and cooperate in Hospital's Quality Improvement System.

14. Language addressing requirements related to payment of Non-Participating Provider emergency and post-stabilization services.

ATTACHMENT G
CMS SPECIFIC PROGRAM PERFORMANCE REQUIREMENTS

1. HCC Coding Requirements and Performance Improvement Activities

1.1 CMS pays CalOptima health-based capitation to compensate CalOptima for services rendered to Enrollees. CMS utilizes encounter data to assign Hierarchical Condition Categories ("**HCC**") to Enrollees. The Enrollee's HCC determines the payment amount received by CalOptima accounting for the variation in expenditures for Medicare Enrollees based on an Enrollee's health status.

1.2 Hospital shall submit Enrollee-specific accurate encounter and service data. Encounters are to be submitted no less than monthly using the ANSI 837P and/or 837I format version 5010 as appropriate, or current format as required by CalOptima.

1.3 Hospital shall support and aid CalOptima's review of encounters, including to production and/or access of supporting medical records.

1.4 To enhance encounter submission accuracy and completeness, CalOptima has initiated performance improvement activities ("**PIAs**"). These PIAs include Enrollee medical and behavioral health assessments provided in the home or a residential facility.

1.5 Hospital has the option to perform these PIAs provided Hospital can demonstrate that Hospital's PIAs meet all CalOptima standards and guidelines. Should Hospital not perform the PIAs or Hospital's PIAs not meet CalOptima standards and guidelines as determined by CalOptima, CalOptima shall perform these activities on behalf of Hospital and the cost for these PIAs shall be charged to or shared with Hospital. CalOptima will provide sixty (60) days' notification prior to taking any such action.

2. ESRD Waiver Responsibilities

2.1 Hospital shall demonstrate to CalOptima that Hospital administers a CalOptima-approved complex case management program for all End Stage Renal Disease (ESRD) Enrollees, which is in accordance with CMS requirements and CalOptima Policies and standards.

2.2 CalOptima shall advise Hospital if its ESRD complex case management program does not meet CMS requirements and CalOptima Policies and clinical standards. If Hospital cannot meet requirements as provided by CalOptima, CalOptima shall have the option to de-delegate the Hospital for the management of ESRD Enrollees and retain a portion of the Capitation Payment for ESRD Enrollees commensurate with the costs for providing or outsourcing such services.

2.3 CalOptima shall provide notification to Hospital of the intent to de-delegate. Hospital shall have the opportunity to submit a corrective action plan to CalOptima in accordance with CalOptima policy.

3. Appeals Rights

Hospital may appeal CalOptima's decision to take the actions outlined above, by filing a complaint pursuant to CalOptima Policies. If Hospital is dissatisfied with the result of any appeal; it shall proceed in accordance with CalOptima's legal claims and judicial review policy.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken February 3, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

19. Authorize Amendments to the CalOptima Community Network Professional Services Contracts to Add OneCare as a Covered CalOptima Program

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Action

Authorize amendment to the CalOptima Community Network (CCN) Professional Services Contracts to add OneCare as a covered CalOptima program, effective January 1, 2023.

Background & Discussion

Staff requests that the CalOptima Board of Directors (Board) authorize amending the CCN Professional Services Contracts to add OneCare as a covered program, effective January 1, 2023.

In 2014, the California Department of Health Care Services (DHCS) launched the Cal MediConnect (CMC) pilot to coordinate delivery of medical, behavioral health, long-term care, and home- and community-based services and integrate Medi-Cal and Medicare benefits for dual eligible beneficiaries into a single delivery system.

CalOptima participates in CMC via OneCare Connect (OCC), which was implemented on July 1, 2015. CMC was extended past its original termination date of December 31, 2017 but is now scheduled to end on December 31, 2022. As the CMC pilot winds down, OCC members will transition into OneCare (CalOptima's Dual Eligible Special Needs Plan) on January 1, 2023.

CCN providers are not currently contracted to provide services to OneCare members. For a seamless member transition and to minimize any potential disruption to members' access to care, staff is recommending amending the CCN provider agreements to include OneCare participation beginning in CY 2023.

To ensure continuity of care for OCC members as Cal MediConnect sunsets, staff requests the Board authorize amending the CCN Professional Services Contract to add OneCare as a covered program, effective January 1, 2023

Fiscal Impact

The recommended action to add OneCare to the scope of the existing professional services contracts is operational in nature, with no additional fiscal impact anticipated during the current fiscal year. Management will include medical and administrative expenses associated with these actions to support member transition to OneCare in the CalOptima Fiscal Year 2022-23 Operating Budget.

Rationale for Recommendation

Back to Item

Back to Agenda Back to Agenda

Amending the CCN contracts to cover OneCare will ensure that CalOptima OCC members have a comprehensive OneCare provider network to provide a seamless transition of care for CalOptima members currently participating in OneCare Connect.

Concurrence

OneCare Connect (OCC) Transition

Board of Directors Meeting
September 2, 2021

Ladan Khamseh, Chief Operating Officer
Ravina Hui, Director, Program Implementation (Medicare)

Back to Item

Back to Agenda

Back to Agenda

Background

- On April 1, 2014, the Department of Health Care Services (DHCS) implemented the Coordinated Care Initiative (CCI)
  - Introduced Cal MediConnect (CMC) duals demonstration
    - Coordinated delivery of medical, behavioral health, long-term care, and home- and community-based services
    - Delivered coordinated Medi-Cal and Medicare benefits in a single delivery system

Background (cont.)

- On July 1, 2015, CalOptima implemented OneCare Connect (OCC) Cal MediConnect Plan (Medicare-Medicaid Plan)
  - Based on three-way contract between the Centers for Medicare & Medicaid Services (CMS), DHCS and CalOptima
  - Qualified OneCare members cross-walked into OCC
    - OneCare program retained for duals who didn't qualify for OCC

Back to Item
Back to Agenda
Back to Agenda

CalOptima
A Public Agency

Background (cont.)

- CMC demonstration period
  - Initially set to end December 31, 2017
  - CalOptima received state and federal authority for several CMC extensions
    - Three-way contract amended
      - January 1, 2018, demonstration year (DY) extended through December 31, 2019
      - September 1, 2019, DY extended through December 31, 2022
  - CMC will sunset on December 31, 2022

2023 Anticipated OneCare Provider Network

- Offer the same provider network options between OCC and OneCare
  - Supports seamless member transition
  - Minimizes disruption to member's access to care
- Expect all existing OCC health networks to participate in OneCare, including CalOptima Community Network (CCN)
  - Consistent with the current OC risk arrangement, OCC full risk health networks will transition to shared risk model
  - Provides better program viability for health networks and CalOptima

This Contract, effective September 1, 2019 is between the Department of Health and Human Services, acting by and through the Centers for Medicare & Medicaid Services (CMS), the state of California, acting by and through the Department of Health Care Services (DHCS) and Orange County Health Authority (the Contractor). The Contractor's principal place of business is 505 City Parkway West, Orange, CA 92868.

WHEREAS, CMS is an agency of the United States, Department of Health and Human Services, responsible for the administration of the Medicare, Medicaid, and State Children's Health Insurance Programs under Title XVIII, Title XIX, Title XI, and Title XXI of the Social Security Act;

WHEREAS, DHCS is an agency responsible for operating a program of medical assistance under 42 U.S.C. § 1396 et seq and California Welfare and Institutions Code § 14000 et seq, designed to work closely with health care professionals, county governments and health plans to provide a health care safety net for California's low-income and persons with disabilities;

WHEREAS, a purpose of this Contract is to test a new model of payment and service delivery pursuant to 1115A of the Social Security Act;

WHEREAS, the Contractor is in the business of ensuring access to care needed to improve health and quality of life, and CMS and DHCS desire to purchase services from the Contractor to offer quality, accessible care; improve care coordination among medical care, behavioral health, and long-term services and supports; and further the goals of the *Olmstead* Decision;

WHEREAS, the Contractor agrees to furnish these services in accordance with the terms and conditions of this Contract and in compliance with all federal and state laws and regulations;

WHEREAS, this Contract replaces in its entirety, the Contracted entered into by CMS , DHCS, and the Contractor executed December 18, 2013 and re-executed on January 1, 2018, provided, however, that any duties, obligations, responsibilities, or requirements that are imposed upon the Contractor in this revised Contract, but that were not imposed upon the Contractor either in the original version of this Contract executed on December 18, 2013, as amended, or under applicable laws or regulations, shall be prospective in nature only (effective September 1, 2019).

NOW, THEREFORE, in consideration of the mutual promises set forth in this Contract, the parties agree as follows:

Back to Item
Back to Agenda
Back to Agenda

1. Definition of Terms

1.1. **Actual Non-Service Expenditures –** The Contractor's actual amount incurred for non-service expenditures, including both administrative and care management costs, for Enrollees during each Demonstration Year. These costs will exclude costs incurred by the Contractor prior to the start of the Demonstration. Any reinsurance costs reflected here will be net reinsurance costs.

1.2. **Actual Service Expenditures –** The Contractor's actual amount paid for Covered Services (as defined in Appendix A) delivered during each Demonstration Year. Actual Service Expenditures shall be priced at the Contractor fee level and should include all payments to providers for Covered Services, including pay-for-performance payments, risk-sharing arrangements, or sub-capitation payments.

1.3. **Adjusted Final Capitation Rate Revenue –** The Adjusted Interim Capitation Rate Revenue with the Minimum Savings Percentages, rather than the County-Specific Interim Savings Percentages, applied. This is determined by multiplying the Adjusted Interim Capitation Rate Revenue by (1- the Minimum Savings Percentage) / (1- the County-Specific Interim Savings Percentage).

1.4. **Adjusted Interim Capitation Rate Revenue –** The Total Capitation Rate Revenue excluding the monthly capitation payments for Medicare Part D services, and any risk adjustment or reconciliation associated with Medicare Part D payments.

1.5. **Adjusted Non-Service Expenditures –** The Contractor's Actual Non-Service Expenditures, adjusted to reflect the following:
-At the discretion of the State and CMS, exclusion of any costs, including care management, associated with Medicare Part D services as identified in CMS bid instructions and other guidance;
- Exclusion of costs greater than one hundred twenty five percent (125%) of the median cost per member per month across all participating Contractors during the Demonstration Year. Consideration will be given to any Contractor with significant non-typical membership mixes that may cause this exclusion to come into effect;
- Exclusion of reinsurance costs (net of reinsurance premiums); and
- Adjustments resulting from CMS and the State's review of the Contractor's

non-service expenditures to address any inappropriate or excessive non-service expenditures (including executive compensation and stop loss expenditures).

1.6. **Adjusted Service Expenditures –** The Contractor's Actual Service Expenditures, adjusted to reflect the following:
- Exclusion of the net cost of all services provided under Medicare Part D;
- Reductions to reflect any recoveries from other payors outside of claims adjudication, including those pursuant to coordination of benefits, third party liability, rebates, supplemental payments, adjustments in claims paid, adjustments from providers including adjustments to claims paid, and Enrollee contributions to care. These adjustments shall exclude any adjustments associated with coverage of Medicare Part D services; and
- Adjustments resulting from CMS and the State review of Contractor reimbursement methodologies and levels to address any excessive pricing.

1.7. **Advance Directive –** An individual's written directive or instruction, such as a power of attorney for health care or a living will, recognized under State law (whether statutory or as recognized by the courts of the State) for the provision of that individual's health care if the individual is unable to make his or her health care wishes known.

1.8. **Adverse Benefit Determination --** (i) The denial or limited authorization of a requested service, including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting or effectiveness of a Covered Service; (ii) the reduction, suspension, or termination of a previously authorized service; (iii) the denial, in whole or in part, of payment for a service; (iv) the failure to provide services in a timely manner; (v) the failure of the Contractor to act within the required timeframes for the standard resolution of Grievances and Appeals; (vi) for a resident of a rural area with only one Contractor, the denial of an Enrollee's request to obtain services outside of the Network; or (vii) the denial of an Enrollee's request to dispute a financial liability.

1.9. **Appeal** - In general, an Enrollee's actions, both internal and external to the Contractor requesting review of the Contractor's denial, reduction or termination of benefits or services, from the Contractor. Appeals relating to Medi-Cal covered benefits and services shall proceed pursuant to the laws and regulations governing Medi-Cal Appeals. Appeals relating to Medicare covered benefits and services shall proceed pursuant to the laws and

Back to Item
Back to Agenda
Back to Agenda

regulations governing Medicare Appeals. A Medi-Cal based Appeal is defined as review by the Contractor of an Adverse Benefit Determination.

1.10. **Behavioral Health —** An all-inclusive term referring to mental health services provided through the mental health plan (MHP) or Contractor and substance use disorder services.

1.11. **Cal MediConnect —** California's State-specific name for the Capitated Financial Alignment Model Demonstration.

1.12. **Cal MediConnect Plan (also, Contractor) —** A health plan or other qualified entity jointly selected by the State and CMS for participation in this Demonstration.

1.13. **Cal MediConnect Ombuds Program-** The independent contractor established to safeguard the rights and dignity of all beneficiaries supported by Cal MediConnect. This office will be responsible for assisting and resolving issues that Enrollees may encounter with Cal MediConnect Plans.

1.14. **California (or State) —** For purposes of this document, California (or State) is generally used to refer to DHCS, though it may encompass collectively CDA, DHCS, DMHC, and DSS.

1.15. **Capitated Financial Alignment Model Demonstration ("the Demonstration") —** A model in which a state, CMS, and a Contractor enter into a three-way Contract, and the Contractor receives a prospective blended capitation payment to provide comprehensive, coordinated care.

1.16. **Capitated Financial Alignment Model Memorandum of Understanding (CFAM-MOU) —** For purposes of this Contract, this is a document between CMS and California regarding a Federal-State Partnership to Test a Capitated Financial Alignment Model (signed March 27, 2013). This MOU document details the principles under which CMS and the State plan to implement and operate the Demonstration. It also outlines the activities CMS and the State plan to conduct in preparation for implementation of the Demonstration, before the parties execute this Contract setting forth the terms and conditions of the Demonstration and initiate the Demonstration.

1.17. **Capitation Rate —** The sum of the monthly capitation payments (reflecting coverage of Medicare Parts A & B services, Medicare Part D services, and Medicaid services, pursuant to Appendix A of this Contract). Total Capitation Rate Revenue will be calculated as if all Contractors had received the full

quality withhold payment.

1.18. **Care Coordination** –Delineated through requirements, processes and the care model throughout this Contract, Care Coordination is also detailed in WIC Sections 14182.17(d)(4) and 14186(b).

1.19. **Care Coordinator** — A clinician or other trained individual employed or contracted by the PCP or the Contractor who is accountable for providing Care Coordination services, which include assuring appropriate referrals and timely two-way transmission of useful Enrollee information; obtaining reliable and timely information about services other than those provided by the Primary Care Provider; participating in the initial assessment; and supporting safe transitions in care for Enrollees moving between settings. The Care Coordinator serves on one (1) or more Interdisciplinary Care Teams (ICT), coordinates and facilitates meetings and other activities of those ICTs. The Care Coordinator also participates in the Initial Assessment of each Enrollee on whose ICT he or she serves.

1.20. **Care Plan Option (CPO) Services** – A CPO Service is optional under the beneficiary's Individualized Care Plan (ICP). A CPO Service is designed to only supplement, not replace, the required Medi-Cal services under the beneficiary's Individualized Care Plan (ICP). CPO Services are offered entirely at the Contractor's discretion.

1.21. **Centers for Medicare & Medicaid Services (CMS)** — The federal agency under the United States Department of Health and Human Services responsible for administering the Medicare and Medicaid programs.

1.22. **Chronic Mental Disorder** — To be considered to have a Chronic Mental Disorder, the Enrollee shall have one or more of the following diagnoses or its successor diagnoses included in the most recent version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association: (a) Pervasive Developmental Disorders, (b) Attention Deficit and Disruptive Behavior Disorders, (c) Feeding and Eating Disorder of Infancy, Childhood, or Adolescence, (d) Elimination Disorders, (f) Schizophrenia and Other Psychiatric Disorders, (g) Mood Disorders, (h) Anxiety Disorders, (i) Somatoform Disorders, (j) Factitious Disorders, (k), Dissociative Disorders, (l) Paraphilias, (m) Gender Identity Disorders, (n) Eating Disorders, (o) Impulse Control Disorders Not Elsewhere Classified (p) Adjustment Disorders, (q) Personality Disorders, or (r) Medication-Induced

Back to Item
Back to Agenda
Back to Agenda

Movement Disorders.

1.23. **Community Based Adult Services (CBAS) —** Outpatient, facility-based program that delivers skilled nursing care, social services, therapies, personal care, family/caregiver training and support, nutrition services, and transportation to eligible Medi-Cal beneficiaries, aged 18 years and older, blind, or disabled.

1.24. **Contract —** The participation agreement that CMS and DHCS have with a Contractor, for the terms and conditions pursuant to which a Contractor may participate in this Demonstration.

1.25. **Contract Management Team (CMT) —** A group of CMS and DHCS representatives responsible for overseeing the contract management functions outlined in Section 3.1.1 of the Contract.

1.26. **Contract Operational Start Date —** The first date on which enrollment into the Contractor's Cal MediConnect coverage is effective.

1.27. **Contractor —** An entity approved by CMS and DHCS that enters into a Contract with CMS and DHCS in accordance with, and to meet, the purposes specified in this Contract.

1.28. **County Organized Health System (COHS) —** A type of Medi-Cal managed care delivery model in which DHCS contracts with a single health plan created by the County Board of Supervisors.

1.29. **County Social Services Agency**- Local county agency that administers the IHSS program.

1.30. **Covered Services —** The set of services to be offered by the Contractor as defined in Appendix A.

1.31. **Department of Aging (CDA) –** In California, CDA administers programs that serve older adults, adults with disabilities, family caregivers, and residents in long-term care facilities throughout the State. CDA administers funds allocated under the federal Older Americans Act, the Older Californians Act, and through the Medi-Cal program. CDA certifies CBAS centers for participation in the Medi-Cal Program and provides administrative oversight for the MSSP waiver.

1.32. **Department of Health Care Services (DHCS) –** The State department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California). DHCS is generally referred to as the

Back to Item
Back to Agenda
Back to Agenda

State in this document**.**

1.33. **Department of Managed Health Care (DMHC**) – The State department charged with overseeing health care service plans licensed under the Knox-Keene Act.

1.34. **Department of Social Services (CDSS)** – The State department responsible for overseeing and providing social services, including the In Home Support Services (IHSS) program.

1.35. **Developmental Disability –** A disability which originates before the individual attains age 18, continues, or can be expected to continue, indefinitely, and constitutes a substantial disability for that individual as defined in the California Code of Regulations.

1.36. **Drug Medi-Cal Benefits –** The substance use disorder Medi-Cal benefits that are listed in Title 22, California Code of Regulations, section 51341.1(d) and Welfare and Institutions Code section 14132.03 .

1.37. **Dual-Plan Letter (DPL) -** DPLs convey information or interpretation of changes in policy or procedure at the federal or State levels, and about changes in federal or State law and regulations. DPLs provide instruction to the Contractor on how to implement these changes on an operational basis, and about how federal or State law affect the way in which they operate, or deliver services to Enrollees. The Department shall notify and consult with stakeholders, including the Contractor, prior to the issuance of a DPL in compliance with the provisions of Welfare and Institutions Code section 14186.4(c).

1.38. **Emergency Medical Condition —** A medical condition that manifests itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to bodily functions; or (3) serious dysfunction of any bodily organ or part.

1.39. **Emergency Services** – Inpatient and outpatient services covered under this Contract that are furnished by a Provider qualified to furnish such services and that are needed to evaluate or stabilize an Enrollee's Emergency Medical

Back to Item
Back to Agenda
Back to Agenda

Condition.

1.40. **Encounter Data -** The record of an Enrollee receiving any item(s) or service(s) provided through Medicaid or Medicare under a prepaid, capitated, or any other risk basis payment methodology submitted to CMS. This record must incorporate the Health Insurance Portability and Accountability Act of 1996 (HIPAA) security, Privacy, and transaction standards and be submitted in the ASC X12N 837 format or any successor format.

1.41. **Enrollee —** Any Medicare-Medicaid eligible individual who is enrolled with a Contractor.

1.42. **Enrollee Communications —** Materials designed to communicate Covered Services, policies, processes and/or Enrollee rights to Enrollees. This includes pre-enrollment, post-enrollment, and operational materials.

1.43. **Enrollment Broker —** Entity contracted by DHCS through the Health Care Options Program to provide information and enrollment assistance to Medicare-Medi-Cal beneficiaries.

1.44. **Exempt Grievance –** Grievances received by telephone that are not coverage disputes, disputed health care services involving medical necessity, or experimental or investigational treatment and that are resolved by the next business day following receipt.

1.45. **External Quality Review Organization --** An independent entity that contracts with the State and evaluates the access, timeliness, and quality of care delivered by the Contractor to their Enrollees.

1.46. **Federally-Qualified Health Center (FQHC) —** An entity that has been determined by CMS to satisfy the criteria set forth in 42 U.S.C. § 1396d(a)(2)(C).

1.47. **First Tier, Downstream and Related Entity —** An individual or entity that enters into a written arrangement that is acceptable to CMS and DHCS with the Contractor, to provide administrative or health care services to the Contractor under this Contract.

1.48. **Geographic Managed Care (GMC) County —** A county in which DHCS contracts with two or more Knox Keene licensed health plans for Medi-Cal managed care.

1.49. **Grievance:**" Any complaint or dispute, other than one that constitutes an organization determination under 42 C.F.R. § 422.566 or other than an

Adverse Benefit Determination under 42 C.F.R. § 438.400, expressing dissatisfaction with any aspect of the Contractor's or Provider's operations, activities, or behavior, regardless of whether remedial action is requested pursuant to 42 C.F.R. § 422.561. A Grievance is filed and decided at the Contractor level. (Possible subjects for Grievances include, but are not limited to, the quality of care or services provided and aspects of interpersonal relationships such as rudeness of a Provider or employee, or failure to respect the Enrollee's rights as provided for in Appendix B of this Contract). Also called a "Complaint."

1.50. **Health Care Options Program (HCO)** -- A program within the California Department of Health Care Services which operates as an Enrollment Broker providing enrollment assistance to eligible MMP beneficiaries.

1.51. **Health Outcomes Survey (HOS) —** Beneficiary survey used by CMS to gather valid and reliable health status data in Medicare managed care for use in quality improvement activities, plan accountability, public reporting, and improving health.

1.52. **Health Plan Management System (HPMS) —** A system that supports contract management for Medicare health plans and prescription drug plans and supports data and information exchanges between CMS and health plans. Current and prospective Medicare health plans submit applications, information about Provider Networks, plan benefit packages, formularies, and other information via HPMS.

1.53. **Health Risk Assessment —** An assessment tool which identifies primary, acute, long-term services and supports, and Behavioral Health and functional needs.

1.54. **Healthcare Effectiveness Data and Information Set (HEDIS) —** Tool developed and maintained by the National Committee for Quality Assurance that is used by health plans to measure performance on dimensions of care and service in order to maintain and/or improve quality.

1.55. **High Risk Enrollee —** For risk stratification purposes, an Enrollee who is at increased risk of having an adverse health outcome or worsening of his or her health status if he or she does not receive initial contact by the Contractor within forty-five (45) calendar days after coverage date. The higher risk Enrollees who should be identified from the fee for service utilization data,

include but are not limited to Enrollees who:

- Have been on oxygen within the past ninety (90) days,
- Have been hospitalized within the last ninety (90) days, or have had three (3) or more voluntary and/or involuntary hospitalizations within the past year related to Behavioral Health illnesses,
- Have had three (3) or more emergency room visits in the past year in combination with other evidence of high utilization of services (e.g. multiple prescriptions consistent with the diagnoses of chronic diseases),
- Have In Home Supportive Services (IHSS) greater than or equal to one hundred ninety five (195) hours/month,
- Are enrolled in the Multipurpose Senior Service Program (MSSP),
- Are receiving Community Based Adult Services (CBAS),
- Have ESRD, AIDS, and/or a recent organ transplant,
- Have been currently being treated for cancer,
- Have been prescribed anti-psychotic medication within the past ninety (90) days,
- Have been prescribed fifteen (15) or more medications in the past ninety (90) days, or
- Have other conditions as determined by the Contractor, based on local resources.

1.56. **Indian Enrollee —** An Enrollee who is an Indian (as defined at 25 USC 1603(13), 1603(28), or 1679(a), or who has been determined eligible as an Indian, under 42 C.F.R. § 136.12.) This includes an Enrollee is a member of a Federally recognized tribe; resides in an urban center and meets one or more of four criteria including: is member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member; is an Eskimo or Aleut or other Alaska Native; is considered by the Secretary of the Interior to be an Indian for any purpose; or is determined to be an Indian under regulations issued by the Secretary; is considered by the Secretary of the Interior to be an Indian for any purpose; or is considered by the Secretary of Health and Human Services to be an Indian for purposes of eligibility for Indian Health Services, including as a California Indian, Eskimo, Aleut, or other Alaska Native Enrollee.

1.57. **Indian Health Care Provider –** A health care program operated by the Indian Health Services (IHS) or by an Indian Tribe, Tribal Organization, or Urban Indian Organization (I/T/U) as those terms are defined in Section 4 of the

Back to Item
Back to Agenda
Back to Agenda

Indian Health Care Improvement Act (25 U.S.C. § 1603).

1.58. **Individualized Care Plan (ICP or Care Plan)** — The plan of care developed by an Enrollee and/or an Enrollee's Interdisciplinary Care Team or health plan.

1.59. **Interdisciplinary Care Team (ICT)** — A team comprised of the Primary Care Provider and Care Coordinator, and other providers at the discretion of the Enrollee, that works with the Enrollee to develop, implement, and maintain the ICP.

1.60. **In-Home Supportive Services (IHSS)** — Pursuant to Article 7 of California Welfare and Institutions Code (Welf. & Inst. Code) (commencing with section 12300 of Chapter 3, and sections 14132.95, 14132.952, and 14132.956), IHSS is a program that provides in-home care for people who cannot safely remain in their own homes without assistance.

1.61. **Long Term Services and Supports (LTSS)** — A wide variety of services and supports that help eligible beneficiaries meet their daily needs for assistance and improve the quality of their lives. Examples include assistance with bathing, dressing and other basic activities of daily life and self-care, as well as support for everyday tasks such as laundry, shopping, and transportation. LTSS are provided over an extended period, predominantly in homes and communities, but also in facility-based settings such as nursing facilities. As described in California Welfare and Institutions Code section 14186.1, Medi-Cal covered LTSS includes all of the following:

- In-Home Supportive Services (IHSS);
- Community-Based Adult Services (CBAS);
- Multipurpose Senior Services Program (MSSP) services; and
- Skilled Nursing Facility services and subacute care services.

1.62. **Low Risk Enrollee** —Enrollee who does not meet the minimum requirements of a High Risk Enrollee.

1.63. **Marketing, Outreach, and Enrollee Communications** — Any informational materials targeted to Enrollees that are consistent with the definitions of communication materialsand marketing materials at 42 C.F.R. § 422.2260.

1.64. **Medicaid** — The program of medical assistance benefits under Title XIX of the Social Security Act and various Demonstrations and waivers thereof. California's State-specific name for this program is Medi-Cal.

1.65. **Medi-Cal Dental –** Adult dental benefits provided through Medi-Cal

(California's Medicaid program).

1.66. **Medi-Cal Managed Care Behavioral Health Services -** Behavioral Health services specified in the Welfare and Institutions Code section 14132.03 that will be provided by the Contractor.

1.67. **Medi-Cal Managed Care Plan –** A health plan directly contracted with the California Department of Health Care Services to provide Medi-Cal services to eligible beneficiaries.

1.68. **Medi-Cal Appeal** - A request for a fair hearing in accordance with California Code of Regulations Title 22, section 51014.1 and Welfare and Institutions Code section 10950.

1.69. **Medically Necessary Services —** Services must be provided in a way that provides all protections to the Enrollee provided by Medicare and Medi-Cal. Per Medicare, services must be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. § 1395y. In accordance with Title XIX law and related regulations, and per Medi-Cal, medical necessity means reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury under the Welfare and Institutions Code section 14059.5.

1.70. **Medi-Cal Specialty Mental Health Services —** The Medi-Cal services specified in California Code of Regulations, Title 9 section 1810.247. Specialty mental health services do not include the Medi-Cal Managed Care Behavioral Health Services specified in the Welfare and Institutions Code section 14132.03 that will be provided by the Contractor. Specialty mental health services are provided through a MHP, in accordance with California Code of Regulations, Title 9, Chapter 11 of Division 1 and include:

A. Rehabilitative services, which includes mental health services, medication support services, day treatment intensive, day rehabilitation, crisis intervention, crisis stabilization, adult residential treatment services, crisis residential services, and psychiatric health facility services;
B. Psychiatric inpatient hospital services;
C. Targeted Case Management;
D. Psychiatrist services; and
E. Psychologist services.

1.71. **Medicare —** Title XVIII of the Social Security Act, the federal health insurance program for people age 65 or older, people under 65 with certain disabilities, and people with End Stage Renal Disease (ESRD) or Amyotrophic Lateral Sclerosis. Medicare Part A provides coverage of inpatient hospital services and services of other institutional providers, such as skilled nursing facilities and home health agencies. Medicare Part B provides supplementary medical insurance that covers physician services, outpatient services, some home health care, durable medical equipment, and laboratory services and supplies, generally for the diagnosis and treatment of illness or injury. Medicare Part C provides Medicare beneficiaries with the option of receiving Part A and Part B services through a private health plan. Medicare Part D provides outpatient prescription drug benefits.

1.72. **Medicare Advantage —** The Medicare managed care options that are authorized under Title XVIII of the Social Security Act as specified at 42 C.F.R. Part 422.

1.73. **Medicare Appeal —** An Enrollee's request for formal review of an Adverse Benefit Determination of the Contractor in regards to a Medicare service in accordance with Section 2.15.

1.74. **Medicare-Medicaid Coordination Office —** Formally the Federal Coordinated Health Care Office, established by Section 2602 of the Affordable Care Act.

1.75. **Medicare-Medicaid Enrollee (or Enrollee) —** For the purposes of this Demonstration, an individual who is entitled to, or enrolled for, benefits under Part A of title XVIII of the Social Security Act, and enrolled for benefits under Part B of title XVIII of such Act, and is eligible for medical assistance under a State plan under title XIX of such Act or under a waiver of such plan.

1.76. **Medicare-Medicaid Plan (MMP)** -- A health plan contracted with DHCS and CMS to comprehensively manage the full continuum of Medicare and Medi-Cal benefits for Medicare-Medicaid Enrollees including Long Term Supports and Services as needed and desired by the Enrollee.

1.77. **Mental Health Plan (MHP):** Pursuant to California Code of Regulations, Title 9 section 1810.226, a MHP is an entity that enters into a contract with DHCS to provide directly, or arrange and pay, for Medi-Cal Specialty Mental Health Services. A MHP may be a county, counties acting jointly or another

governmental or non-governmental entity.

1.78. **Minimum Data Set (MDS) —** A clinical screening system, mandated by federal law for use in nursing facilities, that assesses the key domains of function, health, and service use. MDS assessment forms include the MDS-HC for home care and the MDS 2.0 for nursing facility residents.

1.79. **Multi-Purpose Senior Services Program (MSSP**) **—** A California-specific program, the 1915(c) Home and Community-Based Services Waiver that provides Home and Community-Based Services (HCBS) to Medi-Cal eligible individuals who are 65 years or older with disabilities as an alternative to nursing facility placement.

1.80. **Network Provider —** An appropriately credentialed and licensed individual, facility, agency, institution, organization, or other entity that has an agreement with the Contractor, or any First Tier, Downstream, or Related Entity, for the delivery of services covered under the Contract. A Network Provider must meet the requirements in Section 2.9.9.1.

1.81. **Notice of Action (NOA) –** A written notice of any action within the timeframes for each type of action as provided by 42 C.F.R. §§ 438.404 and 422.568.

1.82. **Passive Enrollment —** An enrollment process through which an eligible individual is enrolled by DHCS into a Contractor's plan following a minimum sixty (60) day advance notification that includes the opportunity for the Enrollee to choose another plan or opt out prior to the effective date.

1.83. **Post-Stabilization Care Services —** Services related to an emergency medical condition that are provided after an Enrollee is stabilized in order to maintain the stabilized condition, or are provided, to improve or resolve the condition.

1.84. **Primary Care Provider (PCP) --** A person responsible for supervising, coordinating, and providing initial and primary care to patients; for initiating referrals; and for maintaining the continuity of patient care. A PCP may be a physician or non-physician medical practitioner.

1.85. **Privacy —** Requirements established in the Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, and implementing regulations, as well as relevant California privacy laws.

1.86. **Program of All-Inclusive Care for the Elderly (PACE) —** As defined in 42 C.F.R. § 460.6, and authorized under California law at Welfare and

Institutions Code section 14591 et seq., PACE is a capitated program for individuals over the age of 55 certified by DHCS for nursing home level of care. PACE organizations cover all Medicare and Medicaid benefits, including medical services and long-term services and support, organizes a comprehensive service delivery system governed by federal regulations, and integrate Medicare and Medicaid financing. PACE is a three-way partnership between the federal Government, California, and the PACE Organizations.

1.87. **Provider Network —** A network of health care and social support providers, including but not limited to primary care physicians, nurses, nurse practitioners, physician assistants, Care Coordinators, specialty providers, Behavioral Health providers, community and institutional long-term care providers, pharmacy providers, and acute providers employed by or under subcontract with the Contractor. (See Appendix C of the Contract).

1.88. **Readiness Review —**Prior to being eligible to accept Demonstration enrollments, each prospective Contractor selected to participate in the Demonstration must undergo a Readiness Review. The Readiness Review evaluates each prospective Contractor's ability to comply with the Demonstration requirements, including but not limited to, the ability to quickly and accurately process claims and enrollment information, accept and transition new Enrollees, and provide adequate access to all Medicare and Medicaid-covered Covered Services that are Medically Necessary with Enrollee protections. Only Contractors passing the Readiness Review will participate in the Demonstration. At a minimum, each Readiness Review includes a desk review and a site visit to the prospective Contractor's headquarters.

1.89. **Recovery Model —** Framework for Behavioral Health that uses "recovery-oriented" services in recognition that systems of care should ensure culturally competent care for persons with severe mental illness and substance use disorders in the most appropriate, least restrictive level of care necessary to achieve meaningful outcomes such as health, home, purpose and community, consistent with the system of care as set forth in California Welfare and Institutions Code sections 5802 and 5806. Core practices within recovery-oriented systems include peer support, individual choice and person-driven approaches. The Recovery Model recognizes that Behavioral Health issues involve an individualized complex interaction between social, environmental and physiological components, and the need to incorporate all of these factors

within the care system in order to achieve health and wellness.

1.90. **Request for Solutions —** Document released in December 2011 by DHCS to assess if contractors have the requisite qualifications and resources suited to provide seamless access to the full continuum of medical care and social supports and services that Enrollees need to maintain good health and a high quality of life in the setting of their choice.

1.91. **Rural Health Clinic (RHC) –** An entity that meets all of the requirements for designation as a RHC under § 1861(aa)(1) of the Social Security Act and is approved for participation in the Medi-Cal program.

1.92. **Service Area —** The county or counties that the Contractor is approved to operate in under the terms of this Contract. A Service Area may have designated ZIP Codes (under the U.S. Postal Service) within a county that are approved by CMS and DHCS to operate under the terms of this Contract. See Appendix I for the Service Area for this contract.

1.93. **Skilled Nursing Facility (SNF) —** As defined in California Code of Regulations, Title 22 section 51121(a), any institution, place, building, or agency which is licensed as a SNF by the California Department of Public Health (CDPH) or is a distinct part or unit of a hospital, meets the standard specified in section 51215 of these regulations (except that the distinct part of a hospital does not need to be licensed as a SNF) and has been certified by DHCS for participation as a SNF in the Medi-Cal program. Section 51121(b) further defines the term "Skilled Nursing Facility" as including terms "skilled nursing home", "convalescent hospital", "nursing home", or "nursing facility".

1.94. **State Fair Hearing —** A "State Fair Hearing" is a quasi-judicial proceeding conducted by a judge, during which each hearing party may present arguments and evidence, including witness(es), and cross examine witness(es) against them, with respect to a decision regarding the availability or delivery of services or benefits, made by an agency. An "agency" is a government unit or managed care health plan involved in a hearing as a hearing party. Such agencies include all 58 California counties, the Los Angeles Department of Children and Family Services, the California Department of Aging, the CDSS Office of Services to the Blind, all 27 Medi-Cal Field Offices, and several CDHS units, including: Beneficiary Utilization Review Unit, Benefits Branch-Vision, In-Home Operations, Managed Care

Operations Branch, Recovery Section, and Office of Medi-Cal Dental Services.

1.95. **Streamlined Enrollment:** A process to permit Contractors operating in non-COHS counties to submit opt-in enrollments to DHCS on behalf of their members enrolled in the matching plan's Medi-Cal line of business.

1.96. **Threshold Languages —** As specified in annual guidance to Contractors on specific translation requirements for their service areas.

1.97. **Total Adjusted Expenditures –** The sum of the Adjusted Service Expenditures and the Adjusted Non-Service Expenditures.

1.98. **Total Capitation Rate Revenue –** The sum of the monthly capitation payments for the Demonstration Year (reflecting coverage of Medicare Parts A/B services, Medicare Part D services and Medi-Cal services, pursuant to Appendix A of this contract) including: 1) the application of risk adjustment methodologies, as described in Section 4.2; and 2) any payment adjustments as a result of the reconciliation described in Sections 4.13 and 4.14. Total Capitation Rate Revenue will be calculated as if all Contractors had received the full quality withhold payment.

1.99. **Two- Plan County —** A type of Medi-Cal managed care delivery model in which DHCS contracts two plans, offering beneficiaries a choice of health plan a with a "Local Initiative" (LI) and a "commercial plan" (CP). An LI is a non-profit, locally government health plan serving Medi-Cal beneficiaries.

1.100. **Urgent Care — S**ervices required to prevent serious deterioration of health following the onset of an unforeseen condition or injury (i.e., sore throats, fever, minor lacerations, and some broken bones). Medical services required promptly to prevent impairment of health due to symptoms that do not constitute an Emergency Medical Condition, but that are the result of an unforeseen illness, injury, or condition for which medical services are immediately required. Urgent Care is appropriately provided in a clinic, physician's office, or in a hospital emergency department if a clinic or physician's office is inaccessible. Urgent Care does not include primary care services or services provided to treat an Emergency Condition.

2. Contractor Responsibilities

Through the Capitated Financial Alignment Model Demonstration (the "Demonstration"), CMS and DHCS will work in partnership to offer Medicare-Medicaid Enrollees the option of enrolling in a Contractor's plan, which consists of a comprehensive network of health and social service providers. The Contractor will deliver and coordinate all components of Medicare and Medi-Cal Covered Services for Enrollees.

2.1. Compliance: The Contractor must, to the satisfaction of CMS and DHCS:

2.1.1. Comply with all provisions set forth in this Contract.

2.1.2. Comply with all applicable provisions of federal and State laws, the CFAM-MOU, regulations, guidance, waivers, Demonstration terms and conditions, including the implementation of a compliance plan. The Contractor must comply with the Medicare Advantage requirements in Part C of Title XVIII, and 42 C.F.R. Part 422, Part 423, and Part 438 except to the extent that variances from these requirements are provided in the CFAM-MOU.

2.1.3. Maintain appropriate licensure as a health care service plan in accordance with the Knox-Keene Health Care Service Plan Act of 1975 as amended and have no adverse actions with regard to enforcement or quality management. County-Organized Health System (COHS) plans are exempt from Knox-Keene licensure for their Medi-Cal business pursuant to WIC section 14087.95. Despite this exemption from licensure, this Contract obligates all Contractors, including COHS plans, to comply with all provisions of this Contract, including the contractual provisions relating to the Knox-Keene Act, unless otherwise expressly excluded.

2.1.4. The Contractor agrees that it will develop and implement an effective compliance program that applies to its operations, consistent with 42 C.F.R. § 420, et seq, 42 C.F.R. § 422.503, and 42 C.F.R. §§ 438.600-610, 42 C.F.R. § 455.

2.1.4.1. The Contractor must report all employees, providers, and Enrollees suspected of Fraud, waste, and/or Abuse that warrant investigation to DHCS – Office of Inspector General, the Medicaid Fraud Control Unit and CMS.

2.1.5. Comply with all current and applicable DPLs issued by DHCS. All current DPLs can be viewed at: http://www.dhcs.ca.gov/formsandpubs/Pages/MgdCareDualsPlanL

etters.aspx

2.1.5.1. All DPLs will be reviewed by CMS prior to issuance.

2.1.6. In the event an APL applies to an MMP, DHCS and CMS will jointly issue a memo to the plans via HPMS for the interim period between an APL issuance and a DPL issuance.

2.1.7. Maintain its contract with DHCS for the provision of Covered Services under the Medi-Cal program.

2.1.8. For Contractors that make or receive payments under the contract of at least $5,000,000, the Contractor must adopt and implement written policies for all employees of the Contractor, and of any contractor or agent of the Contractor, that provide detailed information about the False Claims Act and other Federal and State laws described in section 1902(a)(68) of the Social Security Act, including information about rights of employees to be protected as whistleblowers.

2.2. Contract Management and Readiness Review Requirements

2.2.1. Contract Readiness Review Requirements

2.2.1.1. CMS, or its designee, with participation by DHCS, will conduct a Readiness Review of each Contractor, which must be completed successfully prior to the Contract Operational Start Date.

2.2.1.2. CMS and DHCS Readiness Review Responsibilities

2.2.1.2.1. CMS and DHCS, or its designees, will conduct a Readiness Review of each Contactor that will include, at a minimum, one on-site review. This review shall be conducted prior to enrollment of beneficiaries into the Contractor's Plan. CMS and DHCS, or its designees, will conduct the Readiness Review to verify the Contractor's assurances that the Contractor is ready and able to meet its obligations under the Contract.

2.2.1.2.2. The scope of the Readiness Review will include, but is not limited to, a review of the following elements:

2.2.1.2.2.1. Network Provider composition and access, in accordance with Section 2.10;

2.2.1.2.2.2. Staffing, including Key Personnel and functions directly impacting on Enrollees (e.g., adequacy of Enrollee Services staffing), in accordance with Section 2.11;

2.2.1.2.2.3. Capabilities of First Tier, Downstream and Related Entities, in accordance with Appendix C;

2.2.1.2.2.4. Care Coordination capabilities, in accordance with Section 2.5.2;

2.2.1.2.2.5. Provider contracts templates, including any Provider Performance Incentives, in accordance with Sections 2.9 and 5.1.7;

2.2.1.2.2.6. Enrollee services capability (materials, processes and infrastructure, e.g., call center capabilities), in accordance with Section 2.12;

2.2.1.2.2.7. Comprehensiveness of quality management/quality improvement and utilization management strategies, in accordance with Section 2.11.6 and 2.16;

2.2.1.2.2.8. Internal Grievance and Appeal policies and procedures, in accordance with Section 2.14 and 2.15;

2.2.1.2.2.9. Fraud and abuse and program integrity, in accordance with Section 2.1.2;

2.2.1.2.2.10. Financial solvency, in accordance with Section 2.18;

2.2.1.2.2.11. Information systems, including claims payment system performance, interfacing and reporting capabilities and validity testing of Encounter Data, in accordance with Section 2.19, including IT testing and security assurances.

2.2.1.2.3. For Contractors that are COHS plans, the scope of the Readiness Review will extend to the enrollment functions that the Contractor will be conducting as described in Section 2.3.1.

2.2.1.2.4. No individual shall be enrolled into the Contractor's Cal MediConnect Plan unless and until CMS and the DHCS determine that the Contractor is ready and able to perform its obligations under the Contract as demonstrated during the Readiness Review.

2.2.1.2.5. CMS and DHCS or its designee will identify to the Contractor all areas where the Contractor is not ready and able to meet its obligations under the Contract and provide an opportunity for the Contractor to correct such areas to remedy all deficiencies prior to the start of marketing.

2.2.1.2.6. CMS or DHCS may, in its discretion, postpone the date the Contractor may start marketing or the Contract Operational Start Date for any Contractor that fails to satisfy all Readiness Review requirements. If, for any reason, the Contractor does not fully satisfy CMS or DHCS that it is ready and able to perform its obligations under the Contract prior to the start of marketing or the Contract Operational Start Date, and CMS or DHCS does not agree to postpone the Contract Operational Start Date, or extend the date for full compliance with the applicable Contract requirement, then CMS or DHCS may terminate the Contract pursuant to Section 5.5 of this Contract.

2.2.1.3. Contractor Readiness Review Responsibilities

2.2.1.3.1. The Contractor shall demonstrate to CMS and DHCS satisfaction that the Contractor is ready and able to meet all Contract requirements identified in the Readiness Review prior to the Contract Operational Start Date, and prior to the Contractor engaging in marketing of its Demonstration product;

2.2.1.3.2. Provide CMS and DHCS or its designee with the corrected materials requested by the Readiness Review.

2.2.2. Contract Management

2.2.2.1. The Contractor must employ a qualified individual to serve as the compliance officer of its Capitated Financial Alignment Model. The compliance officer must be primarily dedicated to the Contractor's program, hold a senior management position in the Contractor's organization, and be authorized and empowered to represent the Contractor in all matters pertaining to the Contractor's program. The compliance officer must act as liaison between the Contractor, CMS, and DHCS, and has responsibilities pursuant to this Contract, DPLs and other relevant guidance and authorities that include but, are not limited to, the following:

2.2.2.1.1. Ensure the Contractor's compliance with the terms of the Contract, including securing and coordinating resources necessary for such compliance;

2.2.2.1.2. Implement all action plans, strategies, and timelines, including but not limited to those described in the Contractor's response to the approved Request for Solutions (RFS);

2.2.2.1.3. Oversee all activities by the Contractor and its First Tier, Downstream and Related Entities.

2.2.2.1.4. Receive and respond to all inquiries and requests made by CMS and DHCS in timeframes and formats specified by CMS and DHCS;

2.2.2.1.5. Meet with representatives of CMS or DHCS, or both, on a periodic or as-needed basis and resolve issues that arise within specified timeframes;

2.2.2.1.6. Ensure the availability to CMS and DHCS upon their request, of those members of the Contractor's staff who have appropriate expertise in administration, operations, finance, management information systems, claims processing and payment, clinical service provision, quality management, Enrollee

services, utilization management, Provider Network management, and benefit coordination;

2.2.2.1.7. Coordinate requests and activities among the Contractor, all First Tier, Downstream and Related Entities CMS, and DHCS;

2.2.2.1.8. Make best efforts to promptly resolve any issues related to the Contract identified either by the Contractor, CMS, or DHCS; and

2.2.2.1.9. Meet with CMS and DHCS at the time and place requested by CMS and the State, determine that the Contractor is not in compliance with the requirements of the Contract.

2.2.3. Organizational Structure

2.2.3.1. Contractor shall maintain an organizational structure sufficient to conduct the proposed operations and ensure that its financial resources are sufficient for sound business operations in accordance with:

2.2.3.1.1. County Organized Health System, Geographic Managed Care, and Two- Plan County: Title 28 CCR Sections 1300.67.3, 1300.75.1, 1300. 76.3, 1300.77.1, 1300.77.2, 1300.77.3, 1300.77.4, and Health and Safety Code, Section 1375.1.

2.2.4. Delegation Oversight

2.2.4.1. Contractor shall provide ongoing delegation oversight of the structures, processes, and outcomes of First Tier, Downstream, and Related Entities operations.

2.2.4.2. Contractor shall continually assess its First Tier, Downstream, and Related Entities' ability to perform delegated activities through initial reviews, on-going monitoring, performance reviews, analysis of data, and utilization of available benchmarks, if available.

2.2.4.3. Contractor's Quality Improvement (QI) department shall maintain documentation of oversight activities.

Back to Agenda

2.2.4.4. Contractor's delegation oversight and monitoring activities shall emphasize results. To that end, Contractor shall identify areas requiring improvement and shall monitor the performance of the First Tier, Downstream, and Related Entities to ensure that such improvement occurs.

2.2.4.5. Contractor delegates activities to its First Tier, Downstream, and Related Entities in accordance with terms and conditions, contracts, applicable regulations, and this contract.

2.2.4.6. Contractor shall provide delegation oversight of its First Tier, Downstream, and Related Entities that includes the following:

2.2.4.6.1. Desktop and annual on-site revises;

2.2.4.6.2. Monitoring; and

2.2.4.6.3. Continuous improvement activities.

2.3. Enrollment Activities

2.3.1. General Enrollment

2.3.1.1. Contractor shall accept all eligible beneficiaries as defined in Appendix J – Eligible Populations.

2.3.1.2. Eligible beneficiaries residing within the Contractor Service Area may be enrolled at any time up to six (6) months prior to the end of the Demonstration. Eligible beneficiaries shall be accepted by Contractor in the order in which they apply without regard to race, color, national origin, creed, ancestry, religion, language, age, gender, marital status, sexual orientation, health status, need for health care services or disability.

2.3.1.3. Enrollee coverage shall begin at 12:01 a.m. on the first day of the calendar month for which the eligible beneficiary's name is added to the approved list of Enrollees furnished by CMS and the DHCS Enrollment Broker. The term of enrollment shall continue unless this Contract expires, is terminated, or the Enrollee is disenrolled under the conditions described in Section 2.3.2, Disenrollment.

2.3.1.4. Enrollment will proceed unless restricted by CMS or the Sstate. Such restrictions will be defined in writing by CMS or the Sstate and the Contractor notified at least ten (10) calendar days prior to the start of the period of restriction. Release of restrictions will be in writing and transmitted to the Contractor at least ten (10) days calendar prior to the date of the release.

2.3.1.5. Intelligent Assignment. Enrollment activities specific to Two-Plan Counties and GMC Counties (Los Angeles, San Diego, San Bernardino, Santa Clara, Riverside):

2.3.1.5.1. On a quarterly basis, Contractor shall provide DHCS with a complete list of Network Providers and National Provider Identifier (NPI) numbers to assist in the assignment of eligible beneficiaries as part of the Passive Enrollment process. The Network Provider list will include all Network Providers for the Provider Network, where applicable.

2.3.1.5.2. Updates to the Network Provider list shall be sent to DHCS on a quarterly basis for the purposes of intelligent assignment, or as changes to the Provider Network are applied.

2.3.1.5.3. As part of the Enrollment process, DHCS will exclude individuals identified as at-risk or potentially at-risk for abuse or overuse of specified prescription drugs per 42 C.F.R. §§ 423.100 and 423.153(f).

2.3.1.5.4. As part of the Passive Enrollment process, DHCS will initially assign an Enrollee to a Cal MediConnect Plan based on a hierarchical logic in accordance with Section 2.3.1.5.1. Subject to 42 C.F.R. §§ 423.100 and 423.153(f), Enrollees shall have the ability to change Cal MediConnect Plans at any time.

2.3.1.5.4.1. DHCS shall utilize the following hierarchical logic to determine Primary Contractor Plan assignment:

2.3.1.5.4.1.1. If a beneficiary is in a Medi-Cal Managed Care Plan that is participating in the Cal MediConnect

Back to Item
Back to Agenda
Back to Agenda

Program and is not enrolled in a Medicare Advantage product, DHCS will assign the beneficiary to the matching Cal MediConnect plan.

2.3.1.5.4.1.2. If the beneficiary is in a Medicare Advantage Dual Special Needs Plan owned by the parent organization of an MMP, DHCS will assign the beneficiary to the matching MMP.

2.3.1.5.4.1.3. If a beneficiary is in fee-for-service Medi-Cal and Medicare, DHCS will match the beneficiary's highest utilized and paid prescribing and/or rendering provider data [based on the most recent and available twelve (12) months of Medicare and Medi-Cal claim data] to the list of Network Providers supplied by the Contractor, in accordance with Section 2.3.1.5.1.

2.3.1.5.4.1.4. If only one (1) Cal MediConnect Plan is identified with the beneficiary's provider(s) in its network, DHCS will assign the beneficiary to that Cal MediConnect Plan.

2.3.1.5.4.1.5. If two (2) or more Cal MediConnect Plans are identified or if there is insufficient claim data to match to a Cal MediConnect Plan, the system will select a Cal MediConnect Plan based on an equal distribution ratio. For example, if there are two (2) Cal MediConnect Plans in the county, DHCS will assign based on a 50/50 split. In San Diego, the system will divide beneficiary assignments equally across the four (4) Cal MediConnect Plans.

2.3.1.5.4.1.6. This distribution is dependent on Contractor capacity and subject to be altered per the direction of the Contract Management Team (CMT).

2.3.1.5.5. DHCS will notify CMS and the Contractor of the beneficiary assignments via the enrollment transactions sent to CMS and the 834 Enrollment file.

2.3.1.5.6. DHCS will inform the Contractor of the provider NPIs used in the plan selection process.

2.3.1.5.7. CMS will notify the Contractor of the beneficiary assignments via the Daily Transaction Response Reply (DTRR) file distributed through the CMS Enrollment Broker.

2.3.1.5.8. Contractor is responsible for outreach to the Network Provider for enrollment related activities and for providing data to DHCS.

2.3.1.5.9. Contractor shall maintain systems to accept enrollment transactions from CMS' and the State's systems. Contractor shall process enrollment and disenrollment transactions according to the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance, posted at http://www.cms.gov/Medicare-Medicaid-Coordination/Medicare-and-Medicaid-Coordination/Medicare-Medicaid-Coordination-Office/Downloads/MMPFinalEnrollGuidance.pdf

2.3.1.6. Enrollment activities specific to County Organized Health Systems.

2.3.1.6.1. Contractor shall maintain systems to identify eligible beneficiaries as defined in Appendix J, and transmit enrollment transactions to CMS and the State's systems. Contractor shall process enrollment and disenrollment transactions according to the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance Document.

2.3.1.7. Subject to CMT approval and Section 2.17.1.1.2, the Contractor may participate in Streamlined Enrollment.

2.3.1.7.1. Eligible Enrollees must be enrolled in the Contractor's Medi-Cal plan product.

2.3.1.8. CMS and DHCS may adjust the volume and spacing of Passive Enrollment periods, and will consider input from the Contractor in making any such adjustments.

2.3.1.9. The Contractor may, via the CMT, request a capacity limit pursuant to 42 C.F.R. § 422.60. For purposes of this Demonstration, CMS and DHCS will consider financial stability and network adequacy in the determination of a capacity limit.

2.3.2. Disenrollments

2.3.2.1. The Contractor shall have a mechanism for receiving timely information about all disenrollments from the Contractor's plan, including the effective date of disenrollment, from CMS and DHCS systems.

2.3.2.2. Contractor in Two-Plan and GMC Counties shall have processes and procedures in place to refer Enrollees that request disenrollment from the Plan to the DHCS Enrollment Broker.

2.3.2.3. Enrollees with a share of cost that do not meet the share of cost on the first of the month will be deemed eligible and remain enrolled for up to two (2) months at the Contractor's responsibility before being disenrolled per California's State-specific guidance to the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance (Section 2.3.1.5.9.). Please see Appendix J for eligibility requirements for beneficiaries with a share of cost.

2.3.2.4. Subject to 42 C.F.R. §§ 423.38 and 423.100, Enrollees can elect to disenroll from the Cal MediConnect Plan or the Demonstration at any time and enroll in another Cal MediConnect Plan in a Two-Plan County or GMC county, a Medicare Advantage plan, PACE (as otherwise permissible); or elect to receive services through Medicare fee-for-service and a prescription drug plan and to receive Medicaid services in accordance with DHCS's Medi-Cal program and any waiver programs. (see Appendix L) Disenrollments received by DHCS or its contractor, or by CMS or its

Back to Item
Back to Agenda
Back to Agenda

contractor, either orally or in writing, by the last calendar day of the month will be effective on the first calendar day of the following month.

2.3.2.4.1. The Contractor shall be responsible for ceasing the provision of Covered Services to an Enrollee upon the effective date of disenrollment.

2.3.2.4.2. DHCS and CMS shall terminate an Enrollee's coverage upon any of the occurrences specified in the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance, including but not limited to the following:

2.3.2.4.2.1. The Enrollee's death. This disenrollment is effective the first day of the calendar month following the month of death. Termination may be retroactive to the month in which the Enrollee dies.

2.3.2.4.2.2. When an Enrollee elects to change Demonstration Plans. The effective date of disenrollment is the first day of the month after the month in which the disenrollment request was received.

2.3.2.4.2.3. When an Enrollee requests and is enrolled in a new Medicare Advantage plan through 1-800-Medicare. The effective date of disenrollment is the first day of the month after the month in which the disenrollment request was received.

2.3.2.4.2.4. When an Enrollee elects to receive his or her Medicare services through Medicare fee-for-service and a separate Medicare prescription drug plan.

2.3.2.4.2.5. The termination or expiration of this Contract terminates coverage for all Enrollees with the Contractor. Termination will take effect at 11:59 p.m. on the last day of the month in which this Contract terminates or expires, unless otherwise agreed to, in writing, by the parties.

2.3.2.4.3. The Contractor may not request the disenrollment of any Enrollee due to an adverse change in the Enrollee's health status or because of the Enrollee's utilization of medical services, diminished mental capacity, or uncooperative or disruptive behavior resulting from his or her special needs. The Contractor, however, may submit a written request, accompanied by supporting documentation to the CMT to disenroll an Enrollee, for cause, for the following reasons:

2.3.2.4.3.1. Enrollee remains out of the Service Area or cannot be located for more than six (6) consecutive months; or

2.3.2.4.4. The Contractor may not threaten, intimidate, pressure, or otherwise interfere with the Enrollee's right to disenroll.

2.3.2.5. Discretionary Involuntary Disenrollment: 42 C.F.R. § 422.74 and Sections 40.3 and 40.4 of the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance provide instructions to Cal MediConnect Plans on discretionary involuntary disenrollment. This Contract and other guidance provide procedural and substantive requirements the Contractor, DHCS, and CMS must follow prior to involuntarily disenrolling an Enrollee. If all of the procedural requirements are met, DHCS and CMS will decide whether to approve or deny each request for involuntary disenrollment based on an assessment of whether the particular facts associated with each request satisfy the substantive evidentiary requirements.

2.3.2.5.1. Bases for Discretionary Involuntary Disenrollment:

2.3.2.5.1.1. Disruptive conduct: When the Enrollee engages in conduct or behavior that substantially impairs the Contractor's ability to furnish Covered Items and Services to either this Enrollee or other Enrollees and provided the Contractor made and documented reasonable efforts to resolve the problems presented by the Enrollee.

2.3.2.5.2. Procedural requirements:

2.3.2.5.2.1. The Contractor's request must be in writing and include all of the supporting documentation outlined under the evidentiary standards in Section 2.3.2.5.3.

2.3.2.5.2.2. The process requires three (3) written notices. The Contractor must include in the request, submitted to DHCS and CMS, evidence that the advance notice and notice of intent have already been sent to the Enrollee. The notices are:

2.3.2.5.2.2.1. Advance notice to inform the Enrollee that the consequences of continued disruptive behavior will be disenrollment. The advance notice must include a clear and thorough explanation of the disruptive conduct and its impact on the Contractor's ability to provide services, examples of the types of reasonable accommodations the Contractor has already offered, the Grievance procedures, and an explanation of the availability of other accommodations. If the disruptive behavior ceases after the Enrollee receives notice and then later resumes, the Contractor must begin the process again. This includes sending another advance notice.

2.3.2.5.2.2.2. Notice of intent to request the State and CMS' permission to disenroll the Enrollee; and

2.3.2.5.2.2.3. Planned action notice advising that CMS and the State have approved the Contractor's request. This planned action notice is not a procedural prerequisite for

approval and should not be sent under any circumstances prior to the receipt of express written approval and a disenrollment transaction from CMS and DHCS.

2.3.2.5.2.3. The Contractor must provide information about the Enrollee, including age, diagnosis, mental status, functional status, a description of his or her social support systems, and any other relevant information;

2.3.2.5.2.4. The submission must include statements from providers describing their experiences with the Enrollee (or refusal in writing, to provide such statements); and

2.3.2.5.2.5. Any information provided by the Enrollee. The Enrollee can provide any information he/she wishes.

2.3.2.5.2.6. If the Contractor is requesting the ability to decline future Enrollments for this individual, the Contractor must include this request explicitly in the submission.

2.3.2.5.2.7. Prior to approval, the complete request must be reviewed by DHCS and CMS including representatives from the Center for Medicare and must include staff with appropriate clinical or medical expertise.

2.3.2.5.3. Evidentiary standards: At a minimum, the supporting documentation must demonstrate the following to the satisfaction of both DHCS and CMS staff with appropriate clinical or medical expertise:

2.3.2.5.3.1. The Enrollee is presently engaging in a pattern of disruptive conduct that is seriously impairing the Contractor's ability to furnish Covered Items and Services to the Enrollee and/or other Enrollees.

2.3.2.5.3.2. The Contractor took reasonable efforts to address the disruptive conduct including at a minimum:

2.3.2.5.3.2.1. A documented effort to understand and address the Enrollee's underlying interests and needs reflected in his/her disruptive conduct and provide reasonable accommodations as defined by the Americans with Disabilities Act including those for individuals with mental and/or cognitive conditions. An accommodation is reasonable if it is efficacious in providing equal access to services and proportional to costs. DHCS and CMS will determine whether the reasonable accommodations offered are sufficient.

2.3.2.5.3.2.2. A documented provision of information to the individual of his or her right to use the Grievance procedures.

2.3.2.5.3.2.3. The Contractor provided the Enrollee with a reasonable opportunity to cure his/her disruptive conduct.

2.3.2.5.3.3. The Contractor must provide evidence that the Enrollee's behavior is not related to the use, or lack of use, of medical services.

2.3.2.5.3.4. The Contractor may also provide evidence of other extenuating circumstances that demonstrate the Enrollee's disruptive conduct;

2.3.2.5.4. Limitations: The Contractor shall not seek to terminate enrollment because of any of the following:

2.3.2.5.4.1. The Enrollee's uncooperative or disruptive behavior resulting from such Enrollee's special needs unless treating providers explicitly document their belief that there are no reasonable accommodations the Contractor could provide that would address the disruptive conduct.

2.3.2.5.4.2. The Enrollee exercises the option to make treatment decisions with which the Contractor or any health care professionals associated with the Contractor disagree, including the option of declining treatment and/or diagnostic testing.

2.3.2.5.4.3. An adverse change in an Enrollee's health status or because of the Enrollee's utilization of Covered Items and Services.

2.3.2.5.4.4. The Enrollee's mental capacity is, has, or may become diminished.

2.3.2.5.5. Fraud or abuse: When the Enrollee provides fraudulent information on an Enrollment form or the Enrollee willfully misuses or permits another person to misuse the Enrollee's ID card.

2.3.2.5.5.1. The Contractor may submit a request that an Enrollee be involuntarily disenrolled if an Enrollee knowingly provides, on the election form, fraudulent information that materially affects the individual's eligibility to enroll in the Contractor's plan; or if the Enrollee intentionally permits others to use his or her enrollment card to obtain services from the Contractor.

2.3.2.5.5.2. Prior to submission, the Contractor must have and provide to CMS/DHCS credible evidence substantiating the allegation that the Enrollee knowingly provided fraudulent information or intentionally permitted others to use his or her card.

2.3.2.5.5.3. The Contractor must immediately notify the CMT so that the Enrollment Broker and the HHS Office of the Inspector General may initiate an investigation of the alleged fraud and/or abuse.

2.3.2.5.6. The Contractor must provide notice to the Enrollee prior to submission of the request outlining the intent to request disenrollment with an explanation of the basis of the plan's decision and information on the Enrollee's access to Grievance procedures and a fair hearing.

2.4. Covered Services

2.4.1. The Contractor must authorize, arrange, integrate, and coordinate the provision of all Covered Services for its Enrollees. (See Covered Services in Appendix A.) Covered Services must be available to all Enrollees, as authorized by the Contractor. Covered Services include the Behavioral Health services that become Medi-Cal managed care benefits, pursuant to Welfare and Institutions Code section 14132.03.

2.4.2. The Contractor must provide the full range of Covered Services. If either Medicare or Medi-Cal provides more expansive services than the other program does for a particular condition, type of illness, or diagnosis, the Contractor must provide the most expansive set of services required by either program.

2.4.3. Care Plan Option (CPO) Services may be provided at the sole discretion of the Contractor and in accordance with the ICP.

2.4.3.1. The Grievance and Appeals process for CPO Services shall be the same process as used for others benefits authorized by the Contractor, as described in Sections 2.14 and 2.15, and shall comply with Welfare & Institutions Code section 14450 and Health & Safety Code sections 1368 and 1368.1.

2.4.3.2. CPO Services may include, but are not limited to:

2.4.3.2.1. Respite care: in home or out-of-home, which shall not supplant authorized IHSS hours;

2.4.3.2.2. Additional Personal Care and Chore Type Services beyond those authorized by IHSS; Contractor will

notify counties if additional personal care services are provided.

2.4.3.2.3. Nutritional assessment, supplements, and home delivered meals;

2.4.3.2.4. Home maintenance and minor home or environmental adaptation; and

2.4.3.2.5. Supplemental protective supervision.

2.4.3.3. Other services and requirements in accordance with the guidance provided in current and applicable DPL(s) as described in Section 2.1.5.

2.4.4. The Contractor may not contract with, or otherwise pay for any items or services (other than an emergency item or service, not including items or services furnished in an emergency room of a hospital):

2.4.4.1. Furnished by the Contractor by any individual or entity during any period when the individual or entity is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156, or 1842(j)(2);

2.4.4.2. Furnished at the medical direction or on the prescription of a physician, during the period when such physician is excluded from participation under Titles V, XVIII, or XX, or under Title XIX pursuant to sections 1128, 1128A, 1156, or 1842(j)(2) and when the person furnishing such item or service knew, or had some reason to know, of the exclusion (after a reasonable time period and after reasonable notice has been furnished to the person;

2.4.4.3. Furnished by an individual or entity to whom the State has failed to suspend payments during any period when there is a pending investigation of a credible allegation of fraud against the individual or entity, unless the State determines there is good cause not to suspend such payments;

2.4.4.4. Furnished by an individual or entity that is included on the preclusion list, as defined in 42 C.F.R. § 422.222.

2.4.5. The Contractor may not pay for an item or service with respect to any amount expended for which funds may not be used under the Assisted Suicide Funding Restriction Act of 1997.

2.5. Care Delivery Model

2.5.1. Contractor shall abide by the care delivery model described within this Contract and is not required to submit a model of care to CMS or DHCS unless otherwise requested.

2.5.2. Care Coordination. The Contractor shall offer Care Coordination and case management services to all Enrollees, as described in Welfare and Institutions Code sections 14182.17(d)(4) and 14186(b).

2.5.2.1. Contractor will coordinate Enrollee care across the full continuum of service providers, including medical, Behavioral Health, and LTSS.

2.5.2.2. Contractor will focus on providing services in the least restrictive setting.

2.5.2.3. Care Coordination will be led by the Care Coordinator with participation by members of the ICT.

2.5.2.4. Contractor shall ensure effective linkages of clinical and management systems among Network Providers. Such linkages shall be established in plan policies and procedures.

2.5.2.4.1. Such linkages shall include communication protocols among First Tier, Downstream, and Related Entities.

2.5.2.5. Contractor's policies and procedures shall clarify all communications and reporting protocols related to coordination of services including but not limited to how Contractor shall oversee all such coordination activities.

2.5.2.6. Contractor will ensure that Care Coordination services:

2.5.2.6.1. Reflect a person-centered, outcome-based approach, consistent with the, CFAM-MOU, and DHCS' RFS;

2.5.2.6.2. Follow Enrollee's direction about the level of involvement of his or her caregivers or medical providers;

2.5.2.6.3. Span medical and LTSS systems, including coordination with IHSS, with a focus on transitions;

2.5.2.6.4. Reflect coordination with county agencies and direct contractors, if applicable, for Behavioral Health services;

2.5.2.6.5. Reflect coordination with county agencies, if applicable, for IHSS services;

2.5.2.6.6. Reflect coordination with Medi-Cal Dental and any MMP supplemental dental benefits, as applicable, for dental services;

2.5.2.6.7. Include development of Individual Care Plans (ICP) with Enrollees, as described in Section 2.8.3;

2.5.2.6.8. Are performed by nurses, social workers, Primary Care Providers, if appropriate, other medical, Behavioral Health, or LTSS professionals, and health plan Care Coordinators, as applicable; and

2.5.2.6.9. Reflect access to appropriate community resources, as defined in Welfare and Institution Code sections 14132.275(f)(7) and 14182.17(d) (4)(G) and (6)(B) and monitoring of skilled nursing utilization, with a focus on providing services in the least restrictive setting and transitions between the facilities and community.

2.5.2.7. Contractor will have a process for assigning a Care Coordinator to each Enrollee. Assignment will be made to a Care Coordinator with the appropriate experience and qualifications based on an Enrollee's assigned risk level and individual needs.

2.5.2.7.1. Contractor shall ensure an adequate ratio of Care Coordinators to Enrollees to provide Care Coordination as required through this Contract. The CMT shall monitor the ratio of Care Coordinators to Enrollees on a regular basis.

2.5.2.8. Interdisciplinary Care Team (ICT). The Contractor shall offer an ICT for each Enrollee, which will be developed around the Enrollee and ensure the integration of the Enrollee's medical and LTSS and the coordination of Behavioral Health

Back to Item
Back to Agenda
Back to Agenda

Services delivered by a county Behavioral Health agency and IHSS services, when applicable. ICTs must be comprised of professionals appropriate for the needs, preferences, and abilities of the Enrollee.

2.5.2.8.1. Every Enrollee will have access to an ICT.

2.5.2.8.2. Enrollees may request the exclusion of any ICT member.

2.5.2.8.3. Contractor must include information about the ICT and ICP in their new member welcome packets.

2.5.2.8.4. ICT Functions. ICT will facilitate care management, including assessment, care planning, and authorization of services, transitional care issues and work closely with providers listed in Section 2.5.2.8.6.1to stabilize medical conditions, increase compliance with Care Plans, maintain functional status, and meet individual Enrollees Care Plan goals. ICT functions will include, at a minimum:

2.5.2.8.4.1. Develop and implement an ICP with Enrollee and/or caregiver participation as further described in Sections 2.5.2.11.7 and 2.8.3;

2.5.2.8.4.2. Conduct ICT meetings periodically, including at the Enrollee's discretion;

2.5.2.8.4.3. Manage communication and information flow regarding referrals, transitions, and care delivered outside the primary care site;

2.5.2.8.4.4. Maintain a call line or other mechanism for Enrollee inquiries and input , and a process for referring to other agencies, such as LTSS, IHSS, or Behavioral Health agencies, as appropriate;

2.5.2.8.4.5. Conduct conference calls among the Contractor, providers, and Enrollees;

2.5.2.8.4.6. Maintain a mechanism for monitoring Enrollee complaints and Grievances ; and

Back to Item
Back to Agenda
Back to Agenda

2.5.2.8.4.7. Use secure email, fax, web portals or written correspondence to communicate. The ICT must take the Enrollee's individual needs (e.g., communication, cognitive, or other barriers) into account in communicating with the Enrollee.

2.5.2.8.5. Composition of ICT. ICT must be person-centered: built on the Enrollee's specific preferences and needs, delivering services with transparency, individualization, respect, linguistic and cultural competence, and dignity.

2.5.2.8.5.1. The ICT will be led by professionally knowledgeable personnel to address the Enrollee's medical, behavioral and LTSS care. If the ICT is led by a PCP, the PCP must be credentialed.ICT will include the Enrollee and/or authorized representative, family and/or caregiver if approved by the Enrollee, PCP (this may be a specialist, if a specialist is serving as the PCP), Care Coordinator, and may include the following persons, as needed and if applicable:

2.5.2.8.5.1.1. Hospital discharge planner;

2.5.2.8.5.1.2. Nursing facility representative;

2.5.2.8.5.1.3. Social Worker, including the IHSS social worker if IHSS services are provided;

2.5.2.8.5.1.4. Specialized providers, such as pharmacists and physical therapists;

2.5.2.8.5.1.5. If receiving IHSS, the IHSS provider, if authorized by Enrollee;

2.5.2.8.5.1.6. If enrolled in CBAS, the CBAS provider, if authorized by Enrollee;

2.5.2.8.5.1.7. MSSP care manager;

2.5.2.8.5.1.8. Behavioral Health specialist, which may include, but is not limited to, a specialty mental health provider or a substance use disorder counselor; and

2.5.2.8.5.1.9. Other professionals, as appropriate, and as delineated in applicable and current DPLs

2.5.2.8.6. Communication with ICT. Contractor will support multiple levels of interdisciplinary communication and coordination, such as individual consultations among providers, county agencies, and Enrollees. Contractor will have a documented process for coordinating the exchange of information amongst all ICT members, including when a change in ICT membership occurs.

2.5.2.8.7. Contractor will have procedures for notifying the ICT of emergency department use, hospital admission (psychiatric or acute) or SNF and coordinating a discharge plan.

2.5.2.8.8. Competencies of ICT. Contractor will provide training for ICT members, and potential ICT members, initially and on an annual basis. Required training topics include:

2.5.2.8.8.1. Person-centered planning processes;

2.5.2.8.8.2. Cultural competence;

2.5.2.8.8.3. Accessibility and accommodations;

2.5.2.8.8.4. Independent living and recovery and wellness principles; and

2.5.2.8.8.5. Information about LTSS programs, eligibility for these services, and program limitations.

2.5.2.8.8.6. Coordination with counties on IHSS.

2.5.2.8.9. Nothing in this contract shall be construed as requiring the Enrollee to participate on the ICT. The

Contractor shall allow the Enrollee to opt-out of the ICT at any time and the ICT shall be able to continue its operations. Enrollees may not be disenrolled for lack of participation on the ICT. Criteria for disenrollment are discussed in Section 2.3.2.

2.5.2.8.10. If an Enrollee refuses an ICT, at a minimum the Care Coordinator must provide his or her contact information to the Enrollee and re-visit the refusal at the time of reassessment, or if the Enrollee's PCP changes.

2.5.2.8.11. The administration of the ICT will also follow all applicable current DPLs.

2.5.2.9. Individual Care Plan (ICP). Contractor will develop an ICP for each Enrollee. Contractor will regularly engage Enrollees and/or their representatives in the design, reassessment and updates of the ICPs.

2.5.2.9.1. Enrollees or their authorized representative must have the opportunity to review and sign the ICP and any of its amendments. Contractor must provide Enrollees with copies of the ICP and any of its amendments. The ICP must be made available in alternative formats and in an Enrollee's preferred written or spoken language.

2.5.2.10. If an Enrollee refuses to be involved in ICP development, the Contractor must seek to re-visit the refusal at least at the time of reassessment, or if the Enrollee's PCP changes.

2.5.2.11. ICPs will include:

2.5.2.11.1. The name and contact information for the Enrollees current, assigned Care Coordinator. Enrollee service numbers may be used only if the number will transfer the Enrollee to her/his assigned Care Coordinator;

2.5.2.11.2. The name and contact information for the Enrollee's PCP and any specialists;

2.5.2.11.3. A complete, current list of the Enrollee's medications;

2.5.2.11.4. Enrollee goals, preferences, choices and abilities;

2.5.2.11.5. Measurable objectives and timetables to meet medical, Behavioral Health services, and LTSS needs as determined through the HRA, Multipurpose Senior Services Program (MSSP), and Community-Based Adult Services (CBAS) records, behavioral health utilization, other data, self and provider referrals, and input from members of the ICT, as appropriate;

2.5.2.11.6. Coordination of carved-out and linked services, and referral to appropriate community resources and other agencies, when appropriate;

2.5.2.11.7. Timeframes for reassessment and updating of Care Plan, to be done at least annually or if a significant change in condition occurs;

2.5.2.11.8. If the Enrollee is receiving Behavioral Health services, the ICP will also include:

2.5.2.11.8.1. The name and contact information of the primary county or county-contracted Behavioral Health provider;

2.5.2.11.8.2. Attestation that the county Behavioral Health provider and PCP have reviewed and approved the ICP; and

2.5.2.11.8.3. Record of at least one (1) case review meeting that included the county Behavioral Health provider and includes date of meeting, names of participants, and evidence of creation or adjustment of care goals.

2.5.2.11.9. If the Enrollee is receiving IHSS, the ICP should also include:

2.5.2.11.9.1. The name and contact information for the county social worker with the responsibility for authorizing and overseeing IHSS hours; and

2.5.2.11.9.2. The name and contact information for the IHSS worker.

2.5.2.11.10. Additional components discussed in current and applicable DPLs consistent with Section 2.1.5.

2.5.2.12. The Contractor will transfer, to another MMP, or its designated Contractor for Enrollees, information necessary to support continuity of care when an Enrollee transfers to another MMP. This information includes, but is not limited to, assessment, ICP, and other pertinent information.

2.5.2.12.1. The information shall be provided no later than thirty (30) calendar days from receipt of the notice of disenrollment to the Contractor and in theformat specified by DHCS and CMS.

2.5.2.12.2. This data sharing package and process will be subject to CMT approval following a joint planning process in the first half of 2018 with CMS, DHCS, and the Contractor.

2.5.2.12.2.1. Detail regarding data transfer methods, the content of the transfer package, look back periods, eligible beneficiaries, and other transfer specifics will be determined via this planning process

2.5.2.13. Basic Case Management. The PCP and/or Care Coordinator, in collaboration with the Contractor, will provide basic case management services.

2.5.2.13.1. Enrollees may choose to refuse any treatment, including case management.

2.5.2.13.2. Basic case management services include:

2.5.2.13.2.1. A review of clinical information from the provider;

2.5.2.13.2.2. Completion of the HRA. (see Section 2.8);

2.5.2.13.2.3. Creation of the ICP, in collaboration with the ICT (see Section 2.8.3);

2.5.2.13.2.4. Identification and referral to appropriate providers and facilities, such as medical, rehabilitation, support services, LTSS,

Behavioral Health, Care Plan Option Services, and for covered and non-covered services;

2.5.2.13.2.5. Direct communication with Enrollee, Enrollee providers, and family;

2.5.2.13.2.6. Enrollee and family education, including health lifestyle changes when warranted (see Section 2.9.11.8); and

2.5.2.13.2.7. Coordination of services outside of the Cal MediConnect Plan, such as referral to appropriate community social services, specialty mental health, Drug Medi-Cal services, IHSS service agencies or Medi-Cal Dental.

2.5.2.14. Complex Case Management. Contractor will develop methods to identify Enrollees who may benefit from complex case management services, using the risk stratification and HRA results (see sections 2.8.1 and 2.8.2) as well as utilization and clinical data and any other available information across medical, LTSS, and Behavioral Health domains, as well as self and provider referrals.

2.5.2.14.1. Complex case management services will include:

2.5.2.14.1.1. Basic case management services (see Section 2.5.2.13 et. seq.)

2.5.2.14.1.2. Management of acute or chronic illness

2.5.2.14.1.3. Intense coordination of resources to ensure Enrollee maintains optimal health or improved functionality, maintains current functioning, prevents or delays functional decline, and avoids institutionalization when appropriate and possible.

2.5.2.15. Coordination of Care Management. Contractor shall coordinate with external organization(s) for provision of Covered Services (described in Appendix A) as appropriate for the Enrollee (see Sections 2.6 and 2.7).

Back to Item
Back to Agenda
Back to Agenda

2.5.2.15.1. Contractor shall develop and implement processes for coordination models that support appropriate referral of Enrollee to MSSP organization for services, assessment, eligibility determination, delineation of roles and responsibilities for care management.

2.5.2.15.2. Contractor shall develop and implement processes for coordination of care for nursing facility residents, including care transition plans and programs to move Enrollees back into the community to the extent possible, in accordance with WIC section 14182.17(d)(4)(H) and in accordance with the guidance provided in current and applicable DPL(s) as described in Section 2.1.5.

2.5.2.16. Coordination of Care Management with external organization for provision of IHSS as appropriate for the Enrollee.

2.5.2.16.1. Contractor shall develop and implement processes for coordination models that support appropriate referral of Enrollees to county IHSS agency for services, assessment, eligibility determination, delineation of roles and responsibilities for care management.

2.5.2.17. Care Plan Option Services. A CPO Service is optional under the Enrollee's ICP. See Section 2.4.3.

2.5.2.18. Annual Evaluation of Care Management Program. Contractor will conduct annual review, analysis, and evaluation of the effectiveness of the care management program processes and identify actions to be implemented to improve the quality of care and delivery of services.

2.5.2.18.1. Contractor will have a process for developing a corrective action plan, with specified timelines, for any out of compliance findings.

2.5.2.19. Discharge Planning and Care Coordination. Contractor shall ensure provision of discharge planning when Enrollee is admitted to a hospital or institution and continuation into the post discharge period. Discharge planning shall include ensuring that the necessary care, services, and supports are

Back to Item
Back to Agenda
Back to Agenda

in place in the community for the Enrollee once he or she is discharged from a hospital or institution, including scheduling an outpatient appointment and/or conducting follow-up with the Enrollee and/or caregiver. Minimum criteria for discharge planning checklist must include:

2.5.2.19.1. Documentation of pre-admission status, including living arrangements, physical and mental function, social support, durable medical equipment (DME), and other services received. Documentation of pre-discharge factors, including an understanding of the medical condition or functional status by Enrollee or a representative of the Enrollee as applicable, physical and mental health status, financial resources, and social supports.

2.5.2.19.2. Per current and applicable DPLs regarding discharge planning, services needed after discharge, type of placement preferred by the Enrollee/representative of the Enrollee and hospital/institution, type of placement agreed to by the Enrollee/representative of Enrollee, specific agency/home recommended by the hospital, specific agency/home agreed to by the Enrollee/representative of the Enrollee, and pre-discharge counseling recommended.

2.5.2.19.3. Post-transition discharge policies and procedures will cover criteria to include, but not limited to, access to necessary medical care and follow up, medications, durable medical equipment and supplies, transportation, and integration of community based LTSS programs, as well as coordination with IHSS services authorized by the counties.

2.5.2.19.4. Coordination, as appropriate, with: 1) county agencies for IHSS and Behavioral Health services (through social worker and providers, as needed); 2) MSSP providers; 3) CBAS centers; 4) community organizations such as Area Agencies on Aging and DHCS Care Transition projects; 5) LTSS providers, including nursing facilities; 6) specialized providers (including, but not limited to specialists, pharmacists, physical/occupational therapists; 7) Medi-Cal Dental and, 8) others as deemed appropriate. For IHSS, the

Contractor's coordination process must be developed jointly with county social service agencies and consider State requirements for counties regarding discharge planning.

2.5.2.19.5. Policies and procedures governing expedited MSSP assessment and eligibility determination as part of the Contractor's Care Coordination process for Enrollees who are being discharged from the hospital or at risk of immediate placement in a SNF.

2.5.2.19.6. Summary of the nature and outcome of Enrollee involvement in the discharge planning process, anticipated problems in implementing post-discharge plans, and further action contemplated by the hospital/institution.

2.5.2.19.7. For Enrollees receiving Behavior Health services, Contractor will have procedures developed jointly with the MHP for:

2.5.2.19.7.1. Notification of the ICT of hospital admission (psychiatric or acute) and coordinating a discharge plan, if applicable.

2.5.2.19.7.2. Direct transfers between psychiatric inpatient hospital services and inpatient hospital services required to address an Enrollee's medical problems based on changes in the Enrollee's mental health or medical condition.

2.5.2.20. In addition to the oversight of plan complaints, Grievances, and Cal MediConnect Ombuds Program activity via the CMT, the Contractor shall include ombudsman reports in quarterly updates to local advisory convenings and shall participate in all statewide stakeholder and oversight convenings as delineated in DPLs.

2.6. Long-Term Services and Supports (LTSS).

2.6.1. Contractor will ensure access to, provision of, and payment for: 1) CBAS for Enrollees who meet eligibility criteria for CBAS as defined in Section 2.6.1.1.1, and 2), MSSP for Enrollees who meet the eligibility

Back to Item
Back to Agenda
Back to Agenda

criteria for MSSP pursuant to Welfare and Institutions Code section 9560.

2.6.1.1. Community Based Adult Services (CBAS): The Contractor shall contract for CBAS, which is an outpatient, facility-based program that delivers skilled nursing care, social services, therapies, personal care, family/caregiver training and support, nutrition services, and transportation to eligible Enrollees.

2.6.1.1.1. The Contractor shall make available the CBAS benefit to Enrollees who are age twenty-one (21) or older and derive their Medi-Cal eligibility from the State Plan, are Medicare beneficiaries, are either aged, blind, or disabled and who qualify based on the following criteria.

2.6.1.1.1.1. Meet medical necessity criteria as established by the State and meet "Nursing Facility Level of Care A" (NF-A) criteria, as set forth in the DHCS Code of Regulations, or above NF-A Level of Care; or

2.6.1.1.1.2. Have a moderate to severe cognitive disorder such as dementia, including dementia characterized by the descriptors of, or equivalent to, stages 5, 6, or 7 of the Alzheimer's Type; or

2.6.1.1.1.3. Have a mild cognitive disorder such as Dementia, including Dementia of the Alzheimer's Type, and needs assistance or supervision with two of the following: bathing, dressing, self-feeding, toileting, ambulation, transferring, medication management, or hygiene, or;

2.6.1.1.1.4. Have a Chronic Mental Disorder or acquired, organic, or traumatic brain injury. In addition to the presence of a Chronic Mental Disorder or acquired, organic, or traumatic brain injury, the Enrollee shall need assistance or supervision with either:

2.6.1.1.1.4.1. Two (2) of the following: bathing, dressing, self-feeding, toileting, ambulation, transferring, medication management, or hygiene; or

2.6.1.1.1.4.2. One (1) need from the above list and one (1) of the following: money management, accessing community and health resources, meal preparation, or transportation.

2.6.1.2. Multi-purpose Senior Services Program (MSSP): A program approved under the federal Medicaid Home and Community-Based, 1915(c) Waiver that provides HCBS to Medi-Cal eligible individuals who are 65 years or older with disabilities as an alternative to nursing facility placement.

2.6.1.2.1. Contractor shall inform its Enrollees about the MSSP and establish a mechanism to refer Enrollees who are enrolled in Cal MediConnect and are potentially eligible for the MSSP to MSSP providers for eligibility determination.

2.6.1.2.2. Care Coordination – Contractor shall coordinate and work collaboratively with MSSP providers on Care Coordination activities surrounding the MSSP Waiver Participant including, but not limited to: coordination of benefits between Contractor and MSSP provider to avoid duplication of services and coordinate Care Management activities particularly at the point of discharge from the MSSP.

2.6.1.2.3. For Enrollees that may qualify for MSSP, but are on the waiting list, the Contractor may provide alternate services as identified through the development of the ICP as described in Sections 2.5.2.11.7 and 2.8.3.

2.6.2. The Contractor will ensure referral to IHSS for Enrollees who meet the eligibility criteria for IHSS pursuant to Welfare and Institutions Code section 12305.6.

2.6.2.1. In-Home Supportive Services (IHSS): A program that serves aged, blind, or disabled persons who are unable to perform activities of daily living and cannot remain safely in their

own homes without help pursuant to the California Welfare and Institutions Code (commencing with section 12300) of Chapter 3, and sections 14132.95, 14132.952, and 14132.956.).

2.6.2.1.1. Contractor will coordinate with county agencies to facilitate IHSS participation on the ICT. Contractor will ensure Network Providers coordination with IHSS.

2.6.2.1.2. Contractor will coordinate with county agencies to develop and implement detailed processes for coordination and integration of IHSS which shall include, but not be limited to:

2.6.2.1.2.1. Provision of intake activities and redeterminations by IHSS social workers and allocation of IHSS hours according to WIC section 12301.1 and how that information is coordinated and shared with the ICT.

2.6.2.1.2.2. Framework for referrals to IHSS county agencies, coordination for change of condition, discharge planning, reassessments, and the ICT.

2.6.2.1.3. DHCS and CDSS will continue to provide the Contractor with IHSS assessment data.

2.6.3. Nursing Facilities

2.6.3.1. Contractor shall contract with SNFs, as defined in California Code of Regulations Title 22 section 51121(a), in its Service Area that are licensed by California Department of Public Health (CDPH) and certified by DHCS for participation as a SNF in the Medi-Cal Program and additional Contractor credentialing standards, if any. See Section 2.10.2.3.

2.6.3.2. If SNFs beds are not available in the Contractor's Service Area, Contractor shall contract with qualified SNFs in areas outside of the Contractor's Service Area, in correspondence to the Contractor's projected need for SNF beds of its Enrollees.

2.7. Coordinated Primary Care and Behavioral Health.

2.7.1. Contractor shall provide Enrollee access to Behavioral Health services covered by Medicare and Medi-Cal with a focus on the Recovery Model (See Covered Services in Appendix A). Coordination of Behavioral Health services financed and administered by county agencies shall include at a minimum the following:

2.7.1.1. Contractor will develop and implement a plan to ensure seamless access, coordination and delivery of Covered Services that are Medically Necessary to Enrollees who meet the medical necessity criteria.

2.7.1.1.1. To determine responsibility for covering Medi-Cal Specialty Mental Health Services, the Contractor and county will follow the medical necessity criteria for specialty mental health 1915(b) waiver services described in the California Code of Regulations Title 9 sections 1820.205, 1830.205, and 1830.210. The outpatient criteria can be summarized as the following three criteria: 1) diagnosis – one or more of the specified diagnoses; 2) impairment – significant impairment or probability of deterioration of an important area of life functioning; or; 3) intervention: services must address the impairment, be expected to significantly improve the condition, and the condition is not responsive to a physical health care based treatment.

2.7.1.1.2. To determine medical necessity for Drug Medi-Cal Benefits, Contractor and counties will follow California Code of Regulations Title 22 sections 51303 and 54301. Services shall be prescribed by a physician, and are subject to utilization controls, as set forth in California Code of Regulations Title 22 section 51159.

2.7.1.1.3. To determine medical necessity for the authorization of Covered Services that become Medi-Cal managed care Behavioral Health Services on January 1, 2014, pursuant to Welfare and Institutions Code section 14132.03, the Contractor shall use medical necessity criteria set forth current and applicable DPL(s) as described in Section 2.1.5.

2.7.1.2. Contractor will have a Memorandum of Understanding (MOU) with county agencies that finance and administer Behavioral Health services. The MOU must be approved by CMS and DHCS. It will include:

2.7.1.2.1. Service Coordination: Contractor will include comprehensive screening for Behavioral Health as part of the HRA (see Section 2.8.2.2) and ICP (see Section 2.8.3). The local MOU will describe:

2.7.1.2.1.1. Delineation of clinical responsibilities and provider contracting responsibilities;

2.7.1.2.1.2. Point of contact within the Cal MediConnect Plan and county entity(ies) and the various communications processes to address issues related to clinical coordination, including pharmaceutical coordination;

2.7.1.2.1.3. A process for resolving disagreements related to clinical decision making, administrative, and policy issues;

2.7.1.2.1.4. Standardized approaches to screening, referral, and linkages and coordination for mental health and substance use services with timelines specified; and

2.7.1.2.1.5. Processes for clinical consultation and coordination of ICPs.

2.7.1.2.2. Administrative coordination: Contractor will clearly delineate administrative responsibilities and provider contracting responsibilities, including:

2.7.1.2.2.1. Point of contacts and communication processes to address administrative coordination;

2.7.1.2.2.2. Process for annual review and evaluation of administrative management programs; and

2.7.1.2.2.3. Process for demonstrating how administrative problem identification and resolution occurs.

2.7.1.2.3. Information exchange: Contractor will develop data sharing mechanisms with the county Behavioral Health agencies, to the greatest extent practicable under State and federal Privacy laws, to share accurate and timely information to inform care delivery. It will describe:

2.7.1.2.3.1. Information flow between Contractor and county agencies; and

2.7.1.2.3.2. Processes for exchange of health information.

2.7.1.2.4. Performance measures: Contractor is required to report on measures related to Behavioral Health services for which they have direct contracts with providers including Medicare Behavioral Health benefits.

2.7.1.2.4.1. Contractor is required to show evidence of data sharing agreement with county agencies that provide Medi-Cal Behavioral Health services. The data sharing agreements shall provide for the exchange of data in compliance with all applicable State and federal laws.

2.7.1.2.4.2. Shared financial accountability is discussed in Section 4.7.4.

2.8. Health Risk Assessments, ICP, and Care Coordination

2.8.1. Risk Stratification. Contractor will use an approved health risk stratification mechanism or algorithm to identify new Enrollees with high risk and more complex health care needs. The health risk stratification shall be conducted in accordance applicable DPL(s) as indicated in Section 2.1.5

2.8.1.1. Contractor shall use the following data sources to identify an Enrollees' risk level.

2.8.1.1.1. Medicare utilization data, including Medicare Parts A, B, and D.

2.8.1.1.2. Medi-Cal utilization data, including IHSS, MSSP, SNF, and Behavioral Health pharmacy data.

2.8.1.1.3. Results of previously administered assessments.

Back to Item
Back to Agenda

Back to Agenda

2.8.1.1.4. Other population- and individual-based tools.

2.8.2. Health Risk Assessment (HRA). In accordance with all applicable federal and State laws WIC section 14182.17(d)(2), and in accordance with applicable DPL(s) as indicated in Section 2.1.5. Contractor will complete HRAs for all Enrollees.

2.8.2.1. The HRA will serve as the starting point for the development of the ICP.

2.8.2.2. For all Enrollees, the assessment process will, at a minimum, identify:

2.8.2.2.1. Referrals to appropriate LTSS and home- and community-based services;

2.8.2.2.2. Caregivers, Enrollees, and authorized representatives participation;

2.8.2.2.3. Facilitation of timely access to primary care, specialty care, DME, medications, and other health services needed by the Enrollee, including referrals to resolve physical or cognitive barriers to access;

2.8.2.2.4. Facilitation of communication among the Enrollee's providers, including Behavioral Health providers as appropriate;

2.8.2.2.5. Identification of the need for providing other activities or services needed to assist Enrollees in optimizing health or functional status, including assisting with self-management skills or techniques, health education, and other modalities improve health or functional status; and

2.8.2.2.5.1. Support for Enrollees who need more complex case management, as described in Sections 2.5.2.14 and 2.5.2.15.

2.8.2.2.5.2. Other elements in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.8.2.3. For Enrollees identified by the risk stratification mechanism described in Section 2.8.1 as higher-risk, the Contractor will complete the HRA within forty-five (45) calendar days of

enrollment in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.8.2.4. For Enrollees identified by the risk stratification mechanism described in Section 2.8.1 as lower-risk, the Contractor will complete the HRA within ninety (90) calendar days of enrollment in accordance with applicable DPL(s) as indicated in Section 2.1.5

2.8.2.5. Contractor shall notify PCPs of enrollment of any new Enrollee who has not completed a HRA within the time period set forth above and whom Contractor has been unable to contact. Contractor shall encourage PCPs to conduct outreach to their Enrollees and to schedule visits.

2.8.2.6. Reassessments will be conducted at least annually, within twelve (12) months of last assessment, or as often as the health and/or functional status of the Enrollee requires.

2.8.2.6.1. When determining the mode for completing reassessment, the Contractor will consider the reason the assessment needs to be updated, the Enrollee's needs and health or functional status, and the preference of the Enrollee.

2.8.2.7. Contractor will regularly use electronic health records and claims data to inform reassessments and to identify Enrollees at high risk, with newly diagnosed acute and chronic conditions, or high frequency emergency department or hospital use, or IHSS or Behavioral Health referral.

2.8.3. Individualized Care Plan (ICP). A comprehensive, person-centered ICP will be developed for each Enrollee that includes Enrollee goals and preferences, measurable objectives and timetables to meet medical needs, Behavioral Health and LTSS needs. It must include timeframes for reassessment. See Section 2.5.2.11.7.

2.8.3.1. The Contractor must complete the ICP within ninety (90) calendar days of enrollment.

2.8.3.2. The Contractor will provide the ICP to the Enrollee no less than annually.

2.8.4. Continuity of Care. Contractor shall ensure Enrollees continue to have access to medically necessary items, services, and medical and LTSS providers as described below and in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.8.4.1. Contractor must allow Enrollees to maintain their current providers and service authorizations at the time of enrollment for:

2.8.4.1.1. A period up to twelve (12) months for Medicare services if all of the following criteria are met under WIC section 14132.275(l)(2)(A):

2.8.4.1.1.1. Contractor will verify the Enrollee has an existing relationship with the provider prior to enrollment by identifying whether the Enrollee has seen the requested out-of-network PCP or specialist at least once within the previous twelve (12) months from the date of enrollment The link between the new Enrollee and the out-of-network provider may be established by the Contractor using Medicare data provided by DHCS or by documentation by the provider or Enrollee;

2.8.4.1.1.2. Provider is willing to accept payment from the Contractor based on the current Medicare fee schedule; and

2.8.4.1.1.3. Contractor would not otherwise exclude the provider from its Provider Network due to documented quality of care concerns or State or federal exclusion requirements.

2.8.4.1.2. A period of up to twelve (12) months for Medi-Cal services if all of the following criteria are met under Welfare and Institutions Code section 14182.17(d)(5)(G).

2.8.4.1.2.1. Contractor will verify the Enrollee has an existing relationship with the provider prior to enrollment by identifying whether the Enrollee has seen the requested out-of-network provider at least once within the previous

twelve (12) months from the date of enrollment. The link between the new Enrollee and the out-of-network provider may be established by the Contractor using Medi-Cal FFS claims, treatment authorization request data or Medi-Cal managed care Encounter Data provided by the State or by documentation from the provider or Enrollee.

2.8.4.1.2.2. Provider is willing to accept payment from the Contractor based on the Contractor's rate for the service offered or applicable Medi-Cal rate, whichever is higher; and

2.8.4.1.2.3. Contractor would not otherwise exclude the provider from their Provider Network due to documented quality of care concerns or State or federal exclusion requirements.

2.8.4.1.3. Enrollees will not be required to change nursing facilities during the duration of the Demonstration if they resided in the nursing facility prior to enrollment in MediConnect, the facility is licensed by CDPH, meets acceptable quality standards, and the facility and Contractor agree to rates in accordance with Section 2.8.4.1.2.2.

2.8.4.1.4. Sections 2.8.4.1.1 and 2.8.4.1.2 do not apply to providers of the following: durable medical equipment, medical supplies, transportation, other ancillary services, or carved-out services.

2.8.4.1.5. Contractor must inform Enrollees of its new Network Providers.

2.8.4.1.6. If an Enrollee receives care from an out-of-network provider, Contractor must advise the Enrollee and provider that they have received care from an out-of-network provider that would not otherwise be covered at an in-network level.

2.8.4.1.7. Part D transition rules and rights will continue as provided for in current law and regulation for the

entire integrated formulary associated with the Cal MediConnect Plan.

2.8.4.1.8. The DHCS will distribute an enrollment choice packet that will provide descriptions of continuity of care rights, developed in all Threshold Languages, and distributed to Enrollees in their enrollment choice packet, distributed sixty (60) days before they are enrolled in a Cal MediConnect Plan.

2.8.4.1.8.1. Contractors in COHS will distribute an enrollment package that will provide descriptions of continuity of care rights, developed in all Threshold Languages, and distributed to Enrollees in their enrollment packet, distributed sixty (60) days before they are enrolled in a Cal MediConnect Plan.

2.8.4.1.9. Out of Network Reimbursement Rules – For reimbursement of out-of-network Emergency Services or Urgent Care services, as defined by 42 C.F.R. § 424.101 and 42 C.F.R. § 405.400 respectively, the Health Care Professional is required to accept as payment in full by the Contractor the amounts that the Health Care Professional could collect for that service if the beneficiary were enrolled in original Medicare or Medi-Cal FFS. However, the Contractor is not required to reimburse the Health Care Professional more than the Health Care Professional's charge for that service. The original Medicare reimbursement amounts for providers of services (as defined by section 1861(u) of the Act) do not include payments under 42 C.F.R. §§ 412.105(g) and 413.76. A section 1861(u) provider of services may be paid an amount that is less than the amount it could receive if the beneficiary were enrolled in original Medicare or Medicaid FFS if the provider expressly notifies the Contractor in writing that it is billing an amount less than such amount. For Emergency Services and postabilization care services, as defined by 42 C.F.R. § 438.114(a), for which Medi Cal is the primary payor, the Contractor must comply with 42 C.F.R. § 438.114 and an out-of-network provider is required to accept the applicable Medi-Cal fee-for-service payment

amount as payment in full by the Contractor consistent with 42 U.S.C. § 1396u-2(b)(2)(D). Enrollees maintain balance billing protections as provided in Section 5.1.12.

2.8.4.1.9.1. Contractors may authorize other out-of-network services to promote access to and continuity of care. For services that are part of the traditional Medicare benefit package, prevailing Medicare Advantage policy will apply, under which the Contractor shall pay non-contracted Health Care Professionals and section 1861(u) providers of services the amount the provider could collect for that service if the beneficiary were enrolled in original Medicare (less any payments under 42 C.F.R. §§ 412.105(g) and 413.76 for section 1861(u) providers) regardless of setting and type of care for authorized out-of-network services.

2.8.4.1.10. If an Enrollee is receiving any service that would not otherwise be authorized by the Contractor after the continuity of care period, the Contractor must notify the Enrollee prior to the end of the continuity of care period that the service will no longer be authorized, according to the requirements at 42 C.F.R. § 438.404 and 42 C.F.R. § 422.568 and in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.8.4.1.11. The Contractor must provide an appropriate transition process for Enrollees who are prescribed Part D drugs that are not on its formulary (including drugs that are on the Contractor's formulary but require prior authorization or step therapy under the Contractor's utilization management rules). This transition process must be consistent with the requirements at 42 C.F.R. § 423.120(b)(3).

2.8.4.1.12. If Contractor's Provider Network is unable to provide necessary services covered under the Contract to a particular Enrollee, Contractor must adequately and timely cover these services out of network for the

Back to Agenda

Enrollee, for as long as the Contractor is otherwise unable to provide them, as required by 42 C.F.R § 438.206(b)(4).

2.9. Provider Network

2.9.1. The Contractor must demonstrate annually that it has an adequate network as approved by CMS and the State to ensure adequate access to medical, Behavioral Health, pharmacy, and LTSS, excluding IHSS, providers that are appropriate for and proficient in addressing the needs of the enrolled population, including physical, communication, and geographic access.

2.9.2. The Contractor must maintain a Provider Network sufficient to provide all Enrollees with access to the full range of Covered Services, including Behavioral Health services, other specialty services, and all other services required in 42 C.F.R. §§ 422.112, 423.120, and 438.206 and under this Contract (see Covered Services in Appendix A).

2.9.2.1. Contractor will be required to comply with 42 C.F.R. § 438.56(d)(2).

2.9.3. The Contractor must notify the CMT of any significant Provider Network changes immediately, but no later than five (5) days, following a change in Contractor's Provider Network that renders Contractor unable to provide one (1) or more Covered Services within the access to care standards set forth in Section 2.10.2, with the goal of providing notice to the CMT at least sixty (60) days prior to the effective date of any such change.

2.9.4. The Contractor must comply with the requirements specified in 42 C.F.R. §§ 422.504, 423.505, 438.214, which includes selection and retention of providers, credentialing and recredentialing requirements, and nondiscrimination.

2.9.5. The Contractor shall assure that all network providers that provide Medicare Covered Services do not appear on the CMS preclusion list in order to receive reimbursement for claims or otherwise participate in the Medicare program. Pursuant to 42 C.F.R. § 438.602(b), the Contractor shall ensure that all such providers are enrolled with DHCS as Medicaid providers consistent with the provider screening, disclosure, and enrollment requirements of 42 C.F.R. 455, subparts B and E. Payment of a portion of a Medicare Covered Service is not considered a Medicaid Covered Service for the purpose of this section.

2.9.6. The Contractor may not employ or contract with providers excluded from participation in federal health care programs under either Section 1128 or Section 1128A of the Social Security Act; this does not include IHSS providers.

2.9.7. The Contractor may also offer single-case out-of-network agreements to providers who are: 1) not willing to enroll in the Contractor's Provider Network, 2) currently serving Enrollees, 3) willing to continue serving them at the Contractor in-network rate of payment, under the following circumstances:

2.9.7.1. The Contractor's Provider Network does not have an otherwise qualified Network Provider to provide the services within its Provider Network, or transitioning the care in-house would require the Enrollee to receive services from multiple providers/facilities in an uncoordinated manner which would significantly impact the Enrollee's condition;

2.9.7.2. Transitioning the Enrollee to another provider could endanger life, cause suffering or pain, cause physical deformity or malfunction, or significantly disrupt the current course of treatment; or

2.9.7.3. Transitioning the Enrollee to another provider would require the Enrollee to undertake a substantial change in recommended treatment for Medically Necessary Covered Services.

2.9.8. The Provider Network shall be responsive to the linguistic, cultural, and other unique needs of any minority, person who is homeless, Enrollees with disabilities, or other special population served by the Contractor, including the capacity to communicate with Enrollees in languages other than English, when necessary, as well as those who are deaf, hard-of-hearing or deaf and blind.

2.9.8.1. Contractor shall have a cultural and linguistic services program that incorporates the requirements of California Code of Regulations Title 22 section 53876 regardless of whether it operates in a Two-Plan County. Contractor shall monitor, evaluate, and take effective action to address any needed improvement in the delivery of culturally and linguistically appropriate services. Contractor shall review and update its cultural and linguistic services consistent

with the group needs assessment requirements as specified by DHCS.

2.9.8.2. Contractor shall implement and maintain a written description of its cultural and linguistic services program, which shall include at minimum the following:

2.9.8.2.1. An organizational commitment to deliver culturally and linguistically appropriate health care services;

2.9.8.2.2. Goals and objectives;

2.9.8.2.3. A timetable for implementation and accomplishment of the goals and objectives;

2.9.8.2.4. An organizational chart showing the key staff persons with overall responsibility for cultural and linguistic services and activities. A narrative shall explain the chart and describe the oversight and direction to the community advisory committee, provisions for support staff, and reporting relationships. Qualifications of staff, including appropriate education, experience and training shall also be described; and

2.9.8.2.5. Standards and performance requirements for the delivery of culturally and linguistically appropriate health care services.

2.9.8.3. Linguistic Capability of Employees: Contractor shall assess, identify and track the linguistic capability of interpreters or bilingual employees and contracted staff (clinical and non-clinical).

2.9.8.4. The Contractor shall educate Network Providers through a variety of means including, but not limited to, provider alerts or similar written issuances, about their legal obligations under State and federal law to communicate with Enrollees with limited English proficiency, including the provision of interpreter services, and the resources available to help providers comply with those obligations.

2.9.8.5. The Contractor shall ensure that multilingual Network Providers and, to the extent that such capacity exists within the Contractor's Service Area, all Network Providers,

understand and comply with their obligations under Sate or federal law to assist Enrollees with skilled medical interpreters and the resources that are available to assist Network Providers to meet these obligations.

2.9.8.6. The Contractor shall ensure that Network Providers have interpreters/translators that are available for those who are deaf or hearing-impaired within the Contractor's Service Area.

2.9.8.7. The Contractor shall ensure that its Network Providers are responsive to the unique linguistic, cultural, ethnic, racial, religious, age, gender or other unique needs of Enrollees, including Enrollees who are homeless, disabled (both congenital and acquired disabilities) and other special populations served under the Contract.

2.9.8.8. The Contractor shall ensure that its Network Providers have an understanding of disability-competent care.

2.9.8.9. Contractor shall comply with all applicable federal requirements in Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. Section 12101 et seq.), 45 C.F.R. Part 84 and 28 C.F.R. Part 36. Title IX of the Education Amendments of 1972 (regarding education programs and activities), and the Age Discrimination Act of 1975.

2.9.9. Provider Qualifications and Performance

2.9.9.1. All Network Providers of Covered Services must be qualified in accordance with current applicable legal, professional, and technical standards and appropriately licensed, certified or registered. All providers must have good standing in the Medicare and Medi-Cal programs and a valid NPI number, as applicable. Providers that have been terminated from or suspended either Medicare or Medi-Cal cannot participate in Contractor's Provider Network.

2.9.9.1.1. Contractor is responsible for the oversight of all Network Providers delivering non-Covered Services (e.g., CPO Services).

2.9.10. Subcontracting Requirements

2.9.10.1. The Contractor remains fully responsible for meeting all of the terms and requirements of the Contract regardless of whether the Contractor subcontracts for performance of any Contract responsibility. No subcontract will operate to relieve the Contractor of its legal responsibilities under the Contract.

2.9.10.2. Contractor may enter into subcontracts with other entities in order to fulfill the obligations of the Contract. Contractor shall evaluate the prospective First Tier, Downstream or Related Entity's ability to perform the subcontracted services, shall oversee and remain accountable for any functions and responsibilities delegated and shall meet the subcontracting requirements per this Contract and 42 C.F.R. §§ 422.504(i), 423.505(i), 438.230(b)(3), (4) and California Code of Regulations Title 22 section 53867.

2.9.10.3. All contracts entered into with First Tier, Downstream and Related Entities shall be in writing and in accordance with the requirements of the 42 C.F.R. § 438.230(b)(2), Knox-Keene Health Care Services Plan Act of 1975, Health and Safety Code section 1340 et seq.; Title 28, CCR Section 1300 et seq.; WIC Section 14200 et seq.; Title 22, CCR Section 53800 et seq.; and other applicable federal and State laws and regulations, including the required contract provisions between the Contractor and First Tier, Downstream and Related Entities in Appendix C.

2.9.10.4. The Contractor remains fully responsible for functions delegated and for ensuring adherence to the legal responsibilities under the Contract, as described in Appendix C, except that the Contractor's legal responsibilities under this Contract for the provision of LTSS shall be limited as set forth in WIC sections 14186 through 14186.4.

2.9.10.5. The Contractor is responsible for the satisfactory performance and adequate oversight of its First Tier, Downstream and Related Entities. First Tier, Downstream and Related Entities are required to meet the same federal and State financial and program reporting requirements as the Contractor. Additional required contract provisions between the Contractor and First Tier, Downstream and Related Entities is contained in Appendix C.

2.9.10.6. The Contractor must:

2.9.10.6.1. Establish contracts and other written agreements between the Contractor and First Tier, Downstream and Related Entities for Covered Services not delivered directly by the Contractor or its employees;

2.9.10.6.2. Contract only with qualified or licensed providers who continually meet federal and State requirements, as applicable, and the qualifications contained in Appendix C.

2.9.10.6.3. This section does not apply to the California Department of Social Services or any other State department contracting with the Contractor for the provision of services under the Demonstration.

2.9.11. Provider Education and Training

2.9.11.1. Provider Education. Prior to any enrollment of Enrollees under this Contract and thereafter, Contractor shall conduct Network Provider education regarding Contractor policies and procedures as well as the Cal MediConnect program and the Contractor model of care.

2.9.11.2. Provider Training. Contractor shall ensure that all Network Providers receive training regarding the Cal MediConnect Program in order to operate in full compliance with the Contract and all applicable federal and State statutes and regulations, including rights and responsibilities pertaining to Grievance and Appeals procedures and timelines under this contract. Contractor shall ensure that Network Provider training relates to Cal MediConnect services-including but not limited to the care coordination benefit, policies, procedures and any modifications to existing services, policies or procedures. Training shall include methods for sharing information among Contractor, Network Provider, Enrollee and/or other healthcare professionals. Contractor shall conduct training for all Network Providers within thirty (30) working days after the Contractor places a newly contracted provider on active status. Contractor shall ensure that Network Provider training includes information on all Enrollee rights including the right to full disclosure of health care information and the right to actively participate in

Back to Item
Back to Agenda
Back to Agenda

health care decisions. The Contractor will maintain policies and procedures on Advance Directives pursuant to 42 C.F.R. §§ 422.128, 438.3(j), and 489.102, and will educate its Network Providers concerning its policies and procedures on Advance Directives. Contractor shall ensure that ongoing training is conducted when deemed necessary by either the Contractor, CMS, or DHCS.

2.9.11.2.1. Contractor shall develop and implement a process to provide information to Network Providers and to train Network Providers on a continuing basis regarding clinical protocols, evidenced-based practice guidelines and DHCS-developed cultural awareness and sensitivity instruction. This process shall include an educational program for Network Providers regarding health needs specific to this population that utilizes a variety of educational strategies, including but not limited to, posting information on websites as well as other methods of educational outreach to Network Providers.

2.9.11.3. Provider Orientation. Contractor shall conduct orientation sessions for Network Providers and their office staff.

2.9.11.4. Cultural Competency Training. Contractor shall provide cultural competency, sensitivity, or diversity training for staff, Network Providers and First Tier, Downstream and Related Entities with direct Enrollee interaction. The training shall cover information about the identified cultural groups in the Contractor's Service Areas, such as the groups' beliefs about illness and health; methods of interacting with providers and the health care structure; and, language and literacy needs including limited English proficiency; and diverse cultural and ethnic backgrounds.

2.9.11.5. Provider Manual. The Provider Manual shall be a comprehensive online reference tool for the Provider and staff regarding, but not limited to, administrative, prior authorization, and referral processes, claims and encounter submission processes, continuity of care requirements, and plan benefits. The Provider Manual shall also address topics such as clinical practice guidelines, availability and access standards, care management programs and Enrollee rights.

2.9.11.5.1. Except as otherwise required or authorized by CMS, DHCS or by operation of law, ensure that Network Providers receive thirty (30) days advance notice in writing of policy and procedure changes, and maintain a process to provide education and training for Network Providers regarding any changes that may be implemented, prior to the policy and procedure changes taking effect.

2.9.11.6. Provider Directory. Contractor shall make its Provider Directory available to Providers via Contractor's web-portal and as described in Section 2.17.5.10.

2.9.11.7. Provider-based Health Education for Enrollees. Contractor shall encourage Network Providers to provide health education to Enrollees as described in Section 2.9.11.8. Contractor shall ensure that Network Providers have the preventive care, disease-specific and plan services information necessary to support Enrollee education in an effort to promote compliance with treatment directives and to encourage self-directed care.

2.9.11.8. Health Education. Contractor shall implement and maintain a health education program that includes programs, services, functions, and resources necessary to provide health education, health promotion and patient education for all Enrollees. This includes helping the Enrollee understand their health plan and the benefits the plan provides.

2.9.11.8.1. Contractor shall ensure administrative oversight of the health education program by a qualified full-time health educator.

2.9.11.8.2. Contractor shall provide health education programs and services at no charge to Enrollees directly and/or through subcontracts or other formal agreements with providers that have expertise in delivering health education services to the Enrollee population.

2.9.11.8.3. Contractor shall ensure the organized delivery of health education programs using educational strategies and methods that are appropriate for

Enrollees and effective in achieving behavioral change for improved health.

2.9.11.8.4. Contractor shall ensure that health education materials are written at the sixth grade reading level and are culturally and linguistically appropriate for the intended audience.

2.9.11.8.5. Contractor shall maintain a health education program that provides educational interventions addressing the following health categories and topics:

2.9.11.8.5.1. Appropriate use of health care services – e.g., managed health care; preventive and primary health care; obstetrical care; health education services; and, complementary and alternative care.

2.9.11.8.5.2. Risk-reduction and healthy lifestyles – e.g., tobacco use and cessation; alcohol and drug use; injury prevention; prevention of sexually transmitted diseases; HIV and unintended pregnancy; nutrition, weight control, and physical activity.

2.9.11.8.5.3. Self-care and management of health conditions – e. g., pregnancy; asthma; diabetes; and, hypertension.

2.9.11.8.6. Contractor shall ensure that Enrollees receive point of service education as part of preventive and primary health care visits. Contractor shall provide education, training, and program resources to assist Network Providers in the delivery of health education services for Enrollees.

2.9.11.8.7. Contractor shall maintain health education policies and procedures, and standards and guidelines; conduct appropriate levels of program evaluation; and, monitor performance of providers that are contracted to deliver health education services to ensure effectiveness, as approved by the Contractor's quality improvement committee.

2.9.11.8.8. Contractor shall periodically review the health education program to ensure appropriate allocation of health education resources, and maintain documentation that demonstrates effective implementation of the health education requirements.

2.9.11.9. Health, Safety and Welfare Education. As part of its Provider education, Contractor shall include information related to identifying, preventing and reporting abuse, neglect, exploitation, and critical incidents.

2.9.11.10. Disability Sensitivity Training. As part of its Provider education, Contractor shall provide disability sensitivity training for its medical, Behavioral Health, MSSP and CBAS providers. (see Section 2.9.8.8).

2.10. Network Management

2.10.1. General requirements. The Contractor shall establish, maintain, and monitor a network that is sufficient to provide adequate access to all Covered Services in the Contract. Section 2.9.1 discusses the annual network review and approval requirement.

2.10.1.1. Taking into consideration:

2.10.1.1.1. The anticipated number of Enrollees;

2.10.1.1.2. The expected utilization of services, in light of the characteristics and health care needs of Contractor's Enrollees;

2.10.1.1.3. The number and types of providers required to furnish the Covered Services;

2.10.1.1.4. The number of Network Providers who are not accepting new patients; and

2.10.1.1.5. The geographic location of Network Providers and Enrollees, taking into account distance, travel time, the means of transportation and whether the location provides physical access for Enrollees with disabilities.

2.10.1.2. The Contractor will work in collaboration with Network Providers to actively improve the quality of care provided to

Enrollees, consistent with the quality improvement goals and all other requirements of this Contract.

2.10.1.3. The Contractor shall operate a toll-free pharmacy technical help call center or make available call support to respond to inquiries from pharmacies and providers regarding the Enrollee's prescription drug benefit; inquiries may pertain to operational areas such as claims processing, benefit coverage, claims submission, and claims payment. This requirement can be accommodated through the use of on-call staff pharmacists or by contracting with the Contractor's pharmacy benefit manager during non-business hours as long as the individual answering the call is able to address the call at that time. The call center must operate or be available during the entire period in which the Contractor's network pharmacies in its Service Area are open, (e.g., Contractors whose pharmacy networks include twenty-four (24) hour pharmacies must operate their pharmacy technical help call centers twenty-four (24) hours a day as well). The pharmacy technical help call center must meet the following operating standards:

2.10.1.3.1. Average hold time must not exceed two (2) minutes, with the average hold time defined as the time spent on hold by the caller following the interactive voice response (IVR) system, touch tone response system, or recorded greeting and before reaching a live person.

2.10.1.3.2. Eighty (80) percent of incoming calls answered within thirty (30) seconds.

2.10.1.3.3. Disconnect rate of all incoming calls not to exceed five (5) percent.

2.10.2. Access to Care Standards. The Contractor must demonstrate annually that its Provider Network meets the stricter of the following standards:

2.10.2.1. For Medicare medical providers and facilities, time, distance and minimum number standards updated annually on the CMS website (https://www.cms.gov/Medicare-Medicaid-Coordination/Medicare-and-Medicaid-Coordination/Medicare-Medicaid-Coordination-

Office/FinancialAlignmentInitiative/MMPInformationandGuidance/MMPApplicationandAnnualRequirements.html);

2.10.2.2. For Medicare pharmacy providers, time, distance and minimum number as required in Appendix E, Article II, Section I and 42 C.F.R. § 423.120; or

2.10.2.3. For Medi-Cal providers and facilities, the Contractor contract with a sufficient number of LTSS providers, including but not limited to SNFs (distinct part and free-standing), MSSP, CBAS and County Social Services Agencies located in the Contractor's Service Area.

2.10.2.3.1. If the LTSS provider within the Service Area cannot meet the Enrollee's medical needs, the Contractor must contract with the nearest LTSS provider outside of the covered Service Area. Contractor is responsible for all Covered Services, pursuant to WIC section 14186.3(c).

2.10.2.3.2. Contractor shall ensure the provision of acceptable accessibility standards in accordance with 42 C.F.R. §§ 438.206(c) and 438.68 and Title 28 CCR Section 1300.67.2.2 and as specified below.

2.10.2.4. Ensure that Network Providers offer hours of operation that are no less than the hours of operation offered to commercial Enrollees or comparable to Medi-Cal fee-for-service, if the provider serves only Medi-Cal Enrollees.

2.10.3. Appropriate Clinical Timeframes. Except for LTSS, Contractor shall communicate, enforce, and monitor providers' compliance with these standards:

2.10.3.1. Contractor shall ensure that Enrollees are offered appointments for covered health care services within a time period appropriate for their condition.

2.10.3.2. Enrollees must be offered appointments within the following timeframes:

2.10.3.2.1. Urgent Care appointment for services that do not require prior authorization – within forty-eight (48) hours after request;

2.10.3.2.2. Urgent appointment for services that do require prior authorization within ninety-six (96) hours after request;

2.10.3.2.3. Non-urgent primary care appointments – within ten (10) business days after request;

2.10.3.2.4. Appointment with a specialist – within fifteen (15) business days after request;

2.10.3.2.5. Non-urgent appointment for ancillary services for the diagnosis or treatment of injury, illness, or other health condition – within fifteen (15) business days after request.

2.10.3.3. Shortening or Expanding Timeframes: Timeframes may be shortened or extended as clinically appropriate by a qualified health care professional acting within the scope of his or her practice consistent with professionally recognized standards of practice. If the timeframe is extended, it must be documented within the Enrollee's medical record that a longer timeframe will not have a detrimental impact on the Enrollee's health.

2.10.3.4. Contractor will monitor providers regularly to determine compliance with the timely access requirements

2.10.3.5. Contractor will take corrective action if it, or its providers, fail to comply with timely access requirements.

2.10.4. PCP Assignment

2.10.4.1. The Contractor will allow each Enrollee to choose his or her PCP to the extent possible and appropriate. If the Enrollee does not select a PCP within thirty (30) calendar days of the effective coverage date, Contractor shall assign that Enrollee to a PCP and notify the Enrollee and the assigned PCP in writing no later than forty (40) calendar days after the Enrollee's coverage date.

2.10.4.2. If an Enrollee does not select a PCP within thirty (30) calendar days of the effective date of coverage date, Contractor shall use FFS utilization data or other data sources, including electronic data, to:

2.10.4.2.1. Establish existing provider relationships for the purpose of PCP assignment, including a specialist or clinic, if an Enrollee indicates a preference for either. Contractor shall comply with all federal and State Privacy laws in the provision and use of this data.

2.10.4.3. Contractor shall notify the PCP that an Enrollee has selected or been assigned to the PCP within ten (10) calendar days from when selection or assignment is completed by the Enrollee or the Contractor, respectively.

2.10.4.4. Contractor shall maintain procedures that proportionately include contracting traditional and safety-net providers in the assignment process for Enrollees who do not choose a PCP.

2.10.4.5. If, at any time, an Enrollee notifies the Contractor of a PCP choice, such choice shall override Enrollee assignment to a PCP in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.10.5. Provider Credentialing, Recredentialing, and Board Certification

2.10.5.1. Credentialing and Recredentialing: Contractor shall develop and maintain written policies and procedures that include initial credentialing, recredentialing, recertification, and reappointment of physicians including PCPs and specialists in accordance with the DHCS Policy Letter 02-03, check to see if a provider is suspended or excluded suspended, excluded, or otherwise ineligible because of a sanction to receive, directly or indirectly, reimbursement from the Medi-Cal program pursuant to WIC section 14043.61 and 42 C.F.R. § 455.436;, and adhere to managed care standards at 42 C.F.R. § 422.204. Contractor shall ensure those policies and procedures are reviewed and approved by the governing body, or designee. Contractor shall ensure that the responsibility for recommendations regarding credentialing decisions will rest with a credentialing committee or other peer review body.

2.10.5.1.1. Contractor shall ensure those policies and procedures are reviewed and approved by the plan governing body, or designee.

2.10.5.1.2. Contractor shall ensure that the responsibility for recommendations regarding credentialing decisions will rest with a credentialing committee or other peer review body.

2.10.5.2. Credentialing Site Review: A site review is required as part of the credentialing process when both the facility and the provider are added to the Contractor's Provider Network. If a provider is added to Contractor's Provider Network, and the provider site has a current passing site review survey score, a site survey need not be repeated for provider credentialing or recredentialing and in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.10.5.3. Credentialing and Practitioner Licensure Authorities and Application within Approved Contracts: Contractor will use procedures consistent with DHCS policy for all of Medi-Cal. DHCS can modify these rules at any time and is required to notify CMS ninety (90) days prior of any such changes.

2.10.6. Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC): Contractor shall meet federal requirements for access to FQHC services, including those in 42 U.S.C. § 1396 b(m). Contractor shall reimburse FQHCs and RHCs in accordance with current federal and State laws and regulations. If FQHC and RHCs services are not available in the Provider Network, Contractor shall authorize out-of-network services subject to the prevailing Medicare Advantage payment requirements for out-of-network services.

2.10.6.1. FQHC and RHCs Reimbursements: The Contractor shall ensure that its payments to FQHCs and RHCs for services to Enrollees are no less than the sum of:

2.10.6.1.1. The level and amount of payment that the plan would make for such services if the services had been furnished by an entity providing similar services that was not a FQHC and RHCs, and

2.10.6.1.2. The amount of cost-sharing that would have been paid to the FQHC for serving the Enrollee if the Enrollee were in Medicare fee-for-service, consistent with how such amounts are included in the Medi-Cal component of the Capitation Rates.

2.10.6.1.3. The intent of these provisions is to ensure that Contractors pay FQHCs and RHCs amounts consistent with Medicare and Medi-Cal managed care policies while preserving the opportunity for FQHCs to separately claim supplemental payments under such policies.

2.10.7. IHSS Network. Contractor shall develop and execute an MOU with County Social Services Agency responsible for IHSS that reflects an agreement between the Contractor and County Social Services Agency regarding roles and responsibilities for Cal MediConnect and IHSS. This MOU will specify the role of the county in:

2.10.7.1. Assessing, approving, and authorizing each current and new Enrollee's initial and continuing need for services, in addition to sharing those assessments with the Enrollee's ICT.

2.10.7.2. Sharing confidential data regarding IHSS authorized hours and services as necessary and as permissible under applicable State and federal law.

2.10.7.3. Determining whether the Enrollees' desires to have his or her IHSS providers involved in care planning or coordination, and if so, obtain express consent from the Enrollee or his or her authorized representative.

2.10.7.4. Support an Enrollee who is at risk for out-of-home placement in obtaining IHSS services.

2.10.7.5. Report documentation that Contractor has developed and will conduct a benefit orientation and training program specific to IHSS for First Tier, Downstream and Related Entities. The Contractor also provides documentation that it has trained personnel of IHSS organizations regarding the Contractor's Covered Services and policies and procedures to access services and coordinate care.

2.10.8. Emergency Services Programs (ESPs)

2.10.8.1. Contractor shall have, as a minimum, a designated emergency service facility, providing care on a twenty-four (24) hour-a-day, seven (7) day-a-week basis. This designated emergency service facility will have one or more physicians and one nurse on duty in the facility at all times.

2.10.9. Emergency Care

2.10.9.1. Contractor shall cover Emergency Services without prior authorization pursuant to Title 28 CCR Section 1300.67(g), Title 22 CCR Section 53216, and Section 1932(b)(2) of the Social Security Act. Contractor shall coordinate access to emergency care services in accordance with 42 C.F.R. § 438.114 and the Contractor's DHCS-approved emergency department protocol.

2.10.9.2. Contractor shall ensure adequate follow-up care for those Enrollees who have been screened in the emergency room and require non-emergency care.

2.10.9.3. Contractor shall ensure that a contracting physician is available twenty-four (24) hours a day to authorize Medically Necessary post-stabilization care and coordinate the transfer of stabilized Enrollees in an emergency department, if necessary.

2.10.9.4. Contractor may not specify what constitutes an Emergency Medical Condition on the basis of lists of diagnoses or symptoms.

2.10.9.5. Contractor may not refuse to cover Emergency Services based on the emergency room provider, hospital, or fiscal agent not notifying the Enrollee's PCP, MCO, PIHP, PAHP or applicable State entity of the Enrollee's screening and treatment within ten (10) calendar days of presentation for Emergency Services.

2.10.9.6. An Enrollee who has an Emergency Medical Condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or stabilize the Enrollee.

2.10.9.7. May not deny payment for treatment obtained under either of the following circumstances:

2.10.9.7.1. An Enrollee had an Emergency Medical Condition, including cases in which the absence of immediate medical attention would not have had the outcomes specified in the definition of an Emergency Medical Condition.

2.10.9.7.2. The Contractor's representative instructs the Enrollee to seek Emergency Services.

2.10.9.8. The attending emergency physician, or the provider actually treating the Enrollee, is responsible for determining when the Enrollee is sufficiently stabilized for transfer or discharge, and that determination is binding on the entities as responsible for coverage and payment.

2.10.10. Post-Stabilization Care Services

2.10.10.1. The Contractor must cover and pay for Post-Stabilization Care Services.

2.10.10.2. The Contractor is financially responsible for Post-Stabilization Care Services obtained within or outside the organization that are pre-approved by a Contractor's provider or other Contractor representative.

2.10.10.3. The Contractor is financially responsible for Post-Stabilization Care Services obtained within or outside the Contractor's organization that are not pre-approved by a Network Provider or other Contractor representative, but are administered to maintain the Enrollee's stabilized condition within one (1) hour of a request to the Contractor for pre-approval of further Post-Stabilization Care Services.

2.10.10.4. The Contractor is financially responsible for Post-Stabilization Care Services obtained from within or outside the Contractor that are not pre-approved by a Network Provider or other Contractor representative, but administered to maintain, improve, or resolve the Enrollee's stabilized condition if the Contractor:

2.10.10.4.1. Does not respond to a request for pre-approval within one (1) hour;

2.10.10.4.2. Cannot be contacted; or

2.10.10.4.3. Or the Contractor's representative and the treating physician cannot reach an agreement concerning the Enrollee's care and a Network Provider is not available for consultation.

2.10.10.4.4. In this situation, the Contractor must give the treating physician the opportunity to consult with a Network Provider and the treating physician may continue with care of the Enrollee until a Network Provider is reached or one of the criteria in 42 C.F.R. § 113(c)(3) is met.

2.10.10.5. The Contractor must limit charges to Enrollees for Post-Stabilization Care Services to an amount no greater than what the Contractor would charge the Enrollee if he or she had obtained the services through the Contractor.

2.10.10.6. End of Contractor's financial responsibility. The Contractor's financial responsibility for Post-Stabilization Care Services it has not pre-approved ends when:

2.10.10.6.1. A Network Provider with privileges at the treating hospital assumes responsibility for the Enrollee's care;

2.10.10.6.2. A Network Provider assumes responsibility for the Enrollee's care through transfer;

2.10.10.6.3. Contractor's representative and the treating physician reach an agreement concerning the Enrollee's care; or

2.10.10.6.4. The Enrollee is discharged

2.10.11. Long Term Services and Supports Providers Network

2.10.11.1. Contractor shall develop policies and procedures to train:

2.10.11.1.1. All Contractor staff involved in Care Coordination:

2.10.11.1.1.1. Person-centered planning processes;

2.10.11.1.1.2. Linguistic, cultural, and cognitive competence;

2.10.11.1.1.3. Core concepts of the Olmstead Decision, i.e. serving Enrollees in the least restrictive settings as appropriate;

2.10.11.1.1.4. Accessibility and accommodations; independent living;

2.10.11.1.1.5. Wellness principles;

2.10.11.1.1.6. Criteria for safe transitions, transition planning, Care Plans after transitioning; and,

2.10.11.1.1.7. Along with other required training as specified by DHCS—both initially and on an annual basis.

2.10.11.1.2. Specially designated Care Coordination staff in dementia care management including but not limited to:

2.10.11.1.2.1. Understanding dementia;

2.10.11.1.2.2. Symptoms and progression;

2.10.11.1.2.3. Understanding and managing behaviors and communication problems caused by dementia; caregiver stress and its management; and,

2.10.11.1.2.4. Community resources for Enrollees and caregivers.

2.10.11.1.3. Specially designated Care Coordination staff in MSSP including but not limited to:

2.10.11.1.3.1. An overview of the characteristics and needs of MSSP's target population;

2.10.11.1.3.2. MSSP's eligibility criteria;

2.10.11.1.3.3. Assessment and reassessment processes, services, and service authorization process; and,

2.10.11.1.3.4. How to refer Enrollees to MSSP for assessment and eligibility determination.

2.10.11.1.4. All Contractor staff generally on the addition of LTSS and social services to Contractor

operations. For all trainings, Contractor shall meet specifications set by DHCS, document completion of training, and have specific policies to address non completion.

2.10.12. Women's Health Services: Contractor shall ensure female Enrollees have direct access to a women's health specialist within the network to provide women's routine and preventive health care services. Such access may be in addition to the Enrollee's PCP.

2.10.13. Family Planning Provider Network

2.10.13.1. Contractor shall cover family planning services for all Enrollees whether the family planning services are provided by contracted provider or an out-of-network provider.

2.10.13.2. Contractor agrees to abide by 42 C.F.R. § 438.206.

2.10.14. Indian Health Network: The Contractor shall permit Indian Enrollees eligible to receive services from an Indian Health Care Provider to choose an Indian Health Care Provider as a PCP if the Indian Health Care Provider has capacity to provide such services regardless of whether the Indian Health Care Provider is in or out of network;

2.10.14.1. The Contractor shall demonstrate that there are sufficient Indian Health Care Providers in the Provider Network to ensure timely access to Covered Services for Indian Enrollees who are eligible to receive services;

2.10.14.2. For services provided prior to January 1, 2018, the Contractor shall pay both network and non-network Indian Health Care Providers who provide Covered Services to Indian Enrollees a negotiated rate which shall be no lower than the DHCS fee for service rate for the same service or, in the absence of a negotiated rate, an amount not less than the amount that the Contractor would pay for the Covered Service provided by a non-Indian health care provider;

2.10.14.3. For services provided on or after January 1, 2018, the Contractor shall reimburse Indian Health Care Providers who provide Covered Services to Indian Enrollees, who are eligible to receive services, at the most current and applicable outpatient per-visit rate published in the Federal Register by the Indian Health Service, and Contractor shall ensure any retroactive outpatient per visit rates are

Back to Item
Back to Agenda
Back to Agenda

appropriately reimbursed to the Indian Health Care Provider;

2.10.14.4. The Contractor shall pay non-network Indian Health Care Providers that are FQHCs for the provision of services to an Indian Enrollee at a rate equal to the rate that the Contractor would pay to a network FQHC that is not an Indian health care provider, including any supplemental payment from the State to make up the difference between the contract amount and what the Indian Health Care Provider would have received FFS.

2.10.14.5. When the amount the in-network Indian Health Care Provider receives from the contractor is less than the amount the IHCP would receive FFS, the State must make a supplemental payment to the Indian Health Care Provider that the Indian Health Care Provider would receive FFS or the applicable encounter rate.

2.10.14.6. The Contractor shall not impose enrollment fees, premiums, or similar charges on Indians regardless of payer. The Contractor must exempt from all cost sharing any Indian who is currently receiving or has ever received an item or service furnished by an Indian Health Care Provider or through referral under contract health services.

2.10.14.7. The Contractor must permit an out of network Indian Health Care Provider to refer an Indian Enrollee to a Network Provider.

2.11. Enrollee Access to Services

2.11.1. General. The Contractor must provide services to Enrollees as follows:

2.11.1.1. Authorize, arrange, coordinate and provide to Enrollees all Covered Services that are Medically Necessary;

2.11.1.2. Reasonably accommodate Enrollees and ensure that the programs and services are as accessible (including physical and geographic access) to an Enrollee with disabilities as they are to an Enrollee without disabilities, and shall have written policies and procedures to assure compliance, including ensuring that physical, communication, and programmatic barriers do not inhibit Enrollees with

disabilities from obtaining all Covered Services from the Contractor by:

2.11.1.2.1. Providing flexibility in scheduling to accommodate the needs of the Enrollees;

2.11.1.2.2. Providing interpreters or translators for Enrollees who are deaf and hard of hearing and those with limited English proficiency;

2.11.1.2.3. Ensuring that Enrollees with disabilities are provided with reasonable accommodations to ensure effective communication, including auxiliary aids and services. Reasonable accommodations will depend on the particular needs of the Enrollee and include but are not limited to:

2.11.1.2.3.1. Providing large print (at least 16-point font) versions of all written materials to Enrollees with visual impairments;

2.11.1.2.3.2. Ensuring that all written materials are available in formats compatible with optical recognition software;

2.11.1.2.3.3. Reading notices and other written materials to Enrollees upon request;

2.11.1.2.3.4. Assisting Enrollees in filling out forms over the telephone;

2.11.1.2.3.5. Ensuring effective communication to and from Enrollees with disabilities through email, telephone, and other electronic means;

2.11.1.2.3.6. TTY, computer-aided transcription services, telephone handset amplifiers, assistive listening systems, closed caption decoders, videotext displays and qualified interpreters for the deaf; and

2.11.1.2.3.7. Individualized assistance.

2.11.1.3. The Contractor must identify to DHCS the individual in its organization who is responsible for ADA compliance related to this Demonstration and his/her job title. The Contractor must also establish and execute a work plan to achieve and maintain ADA compliance; and

2.11.1.4. If the Contractor's Provider Network is unable to provide necessary medical services covered under the Contract to a particular Enrollee, the Contractor must adequately and timely cover these services out of network for the Enrollee, for as long as the Contractor is unable to provide them.

2.11.1.5. When a PCP or medical, Behavioral Health or LTSS provider is terminated from the Contractor's plan or leaves the Provider Network for any reason, the Contractor must make a good faith effort to give written notification of termination of such provider, within fifteen (15) days after receipt or issuance of the termination notice, or no later than thirty (30) calendar days before the termination date, to each Enrollee who received his or her care from, or was seen on a regular basis by, the terminated PCP or any other medical, behavioral or LTSS provider. For terminations of PCPs, the Contractor must also report the termination to DHCS and provide assistance to the Enrollee in selecting a new PCP within fifteen (15) calendar days. For Enrollees who are receiving treatment for a chronic or ongoing medical condition or LTSS, the Contractor shall ensure that there is no disruption in services provided to the Enrollee.

2.11.1.6. Contractor shall ensure that each Enrollee has a PCP who is available and physically present at the service site for sufficient time to ensure access for the assigned Enrollee when medically required. This requirement does not preclude an appropriately licensed professional from being a substitute for the PCP in the event of vacation, illness, or other unforeseen circumstances.

2.11.2. Contractor shall ensure Enrollee access to specialists for Covered Services that are Medically Necessary. Contractor shall ensure adequate staff within the Service Area, including physicians, administrative and other support staff directly and/or through subcontracts, sufficient to assure that health services will be provided in accordance with Section 2.10.2 and consistent with all specified requirements.

2.11.2.1. Contractor shall establish acceptable accessibility requirements in accordance with Title 28 CCR Section 1300.67.2.1 and as specified below. DHCS will review and approve requirements for reasonableness. Contractor shall communicate, enforce, and monitor Network Providers' compliance with these requirements.

2.11.2.1.1. Appointments: Contractor shall implement and maintain procedures for Enrollees to obtain appointments for routine care, Urgent Care, routine specialty referral appointments, prenatal care, and adult initial health assessments. Contractor shall also include procedures for follow-up on missed appointments.

2.11.2.1.2. First Prenatal Visit: Contractor shall ensure that the first prenatal visit for a pregnant Enrollee will be available within two (2) weeks upon request.

2.11.2.1.3. Waiting Times: Contractor shall develop, implement, and maintain a procedure to monitor waiting times in the Network Providers' offices, telephone calls (to answer and return), and time to obtain various types of appointments indicated in 2.11.2.1.1 appointments, above.

2.11.2.1.4. Telephone Procedures: Contractor shall require Network Providers to maintain a procedure for triaging Enrollees' telephone calls, providing telephone medical advice (if it is made available) and accessing telephone interpreters.

2.11.2.1.5. After Hours Calls: At a minimum, Contractor shall ensure that all Enrollees have access to appropriate licensed professional for after-hours calls.

2.11.2.1.6. Unusual Specialty Services: Contractor shall arrange for the provision of seldom used or unusual specialty services from specialists outside the network if unavailable within Contractor's network, when determined medically necessary.

2.11.3. Services Not Subject to Prior Approval

2.11.3.1. The Contractor will assure coverage of Emergency Medical Conditions and Urgent Care services. The Contractor must not require prior approval for the following services:

2.11.3.1.1. Any services for Emergency Medical Conditions (which includes emergency Behavioral Health care);

2.11.3.1.2. Urgent Care sought outside of the Service Area;

2.11.3.1.3. Urgent Care under unusual or extraordinary circumstances provided in the Service Area when the contracted medical provider is unavailable or inaccessible;

2.11.3.1.4. Preventative services;

2.11.3.1.5. Family planning services;

2.11.3.1.6. Out-of-area renal dialysis services;

2.11.3.1.7. Basic prenatal care;

2.11.3.1.8. Sexually transmitted disease services; and

2.11.3.1.9. HIV testing.

2.11.4. The Contractor must have a mechanism in place to allow Enrollees with special health care needs to have direct access to a specialist as appropriate for the Enrollee's condition and identified needs, such as a standing referral to a specialty Provider.

2.11.5. Authorization of Services. In accordance with 42 C.F.R. § 438.210, the Contractor shall authorize services as follows:

2.11.5.1. For the processing of requests for initial and continuing authorizations of Covered Services, the Contractor shall:

2.11.5.1.1. Have in place and follow written policies and procedures;

2.11.5.1.2. Have in effect mechanisms to ensure the consistent application of review criteria for authorization decisions;

2.11.5.1.3. Have in place procedures to allow Enrollees to initiate requests for provision of services; and

2.11.5.1.4. Consult with the requesting Network Provider when appropriate.

2.11.5.2. The Contractor shall ensure that an authorized Care Coordinator is available twenty-four (24) hours a day for timely authorization of Covered Services that are Medically Necessary and to coordinate transfer of stabilized Enrollees in the emergency department, if necessary. The Contractor's guidelines for medical necessity must, at a minimum, be consistent with Medicare standards for acute services and prescription drugs and Medi-Cal standards for LTSS.

2.11.5.3. Any decision to deny a service authorization request or to authorize a service in an amount, duration, or scope that is less than requested must be made by a health care professional who has appropriate clinical expertise in treating the Enrollee's medical condition, performing the procedure, or providing the treatment. Behavioral Health services denials must be rendered by board-certified or board-eligible psychiatrists or by a licensed clinician, acting within their scope of practice, with the same or similar specialty as the Behavioral Health services being denied, except in cases of denials of service for psychological testing, which shall be rendered by a qualified psychologist.

2.11.5.4. The Contractor shall assure that all Behavioral Health authorization and utilization management activities are in compliance with 42 U.S.C. § 1396u-2(b)(8). Contractor must comply with the requirements for demonstrating parity for quantitative treatment limitations between Behavioral Health and medical/surgical inpatient, outpatient and pharmacy benefits.

2.11.5.5. The Contractor must notify the requesting Network Provider, either orally or in writing, and give the Enrollee written notice of any decision by the Contractor to deny a service authorization request, or to authorize a service in an amount, duration, or scope that is less than requested. The notice must meet the requirements of 42 C.F.R. § 438.404 and Title 22 CCR § 53261, and must:

2.11.5.5.1. Be produced in a manner, format, and language that can be easily understood;

2.11.5.5.2. Be made available in Threshold Languages, upon request;

2.11.5.5.3. Include information, in Threshold Languages about how to request translation services and alternative formats. Alternative formats shall include materials which can be understood by persons with limited English proficiency: and

2.11.5.5.4. In any written communication to a physician or other health care provider of a denial, delay or modification of a request, include the name and telephone number of the health care professional responsible for the denial, delay or modification.

2.11.5.6. The Contractor must make authorization decisions in the following timeframes:

2.11.5.6.1. For standard authorization decisions, provide notice as expeditiously as the Enrollee's health condition requires, within five (5) working days from receipt of the information reasonably necessary to render a decision, and in all circumstances no later than fourteen (14) calendar days after receipt of the request for service, with a possible extension not to exceed fourteen (14) additional calendar days. Such extension shall only be allowed if:

2.11.5.6.1.1. The Enrollee or the Provider requests an extension, or

2.11.5.6.1.2. The Contractor can justify (to the satisfaction of DHCS and/or CMS upon request) that:

2.11.5.6.1.2.1. The extension is in the Enrollee's interest; and

2.11.5.6.1.2.2. There is a need for additional information where:

2.11.5.6.1.2.2.1. There is a reasonable likelihood that receipt of such information would

lead to approval of the request, if received; and

2.11.5.6.1.2.2.2. Such outstanding information is reasonably expected to be received within fourteen (14) calendar days.

2.11.5.6.2. For expedited service authorization decisions, where the provider indicates or the Contractor determines that following the standard timeframe in Section 2.11.5.6.1 could seriously jeopardize the Enrollee's life or health or ability to attain, maintain, or regain maximum function, the Contractor must make a decision and provide notice as expeditiously as the Enrollee's health condition requires and no later than seventy-two (72) hours after receipt of the request for service, with a possible extension not to exceed fourteen (14) additional calendar days. Such extension shall only be allowed if:

2.11.5.6.2.1. The Enrollee or the provider requests an extension; or

2.11.5.6.2.2. The Contractor can justify (to DHCS and/or CMS upon request) that:

2.11.5.6.2.2.1. The extension is in the Enrollee's interest; and

2.11.5.6.2.2.2. There is a need for additional information where:

2.11.5.6.2.2.2.1. There is a reasonable likelihood that receipt of such information would lead to approval of the request, if received; and

2.11.5.6.2.2.2.2. Such outstanding information is reasonably expected to be received within fourteen (14) calendar days.

2.11.5.6.3. In accordance with 42 C.F.R. §§ 438.3(i), 438.210(e), and 422.208, compensation to individuals or entities that conduct utilization management activities for the Contractor must not be structured so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary Covered Services to any Enrollee.

2.11.6. Utilization Management

2.11.6.1. Utilization management program: Contractor shall develop, implement, and continuously update and improve, a utilization management program that ensures appropriate processes are used to review and approve the provision of medically necessary Covered Services, excluding Part D benefits. Contractor is responsible to ensure that the utilization management program includes:

2.11.6.1.1. Qualified staff responsible for the utilization management program.

2.11.6.1.2. The separation of medical decisions from fiscal and administrative management to assure medical decisions will not be unduly influenced by fiscal and administrative management.

2.11.6.1.3. Allowances for a second opinion from a qualified health professional at no cost to the Enrollee.

2.11.6.1.4. Established criteria for approving, modifying, deferring, or denying requested services. Contractor shall utilize evaluation criteria and standards to approve, modify, defer, or deny services. Contractor shall document the manner in which providers are involved in the development and or adoption of specific criteria used by the Contractor.

2.11.6.1.5. Communications to Network Providers of the procedures and services that require prior authorization and ensure that all contracting Network Providers are aware of the procedures and timeframes necessary to obtain prior authorization for these services.

2.11.6.1.6. An established specialty referral system to track and monitor referrals requiring prior authorization through the Contractor. The system shall include authorized, denied, deferred, or modified referrals, and the timeliness of the referrals. Contractor shall ensure that all contracted Network Providers and non-contracting specialty providers are informed of the prior authorization and referral process at the time of referral.

2.11.6.1.7. The quarterly reporting of utilization management activities into the DHCS, including a process to electronically report on the number and types of Appeals, denials, deferrals, and modifications to the appropriate DHCS and CMT staff.

2.11.6.1.8. Procedures for continuously reviewing the performance of health care personnel, the utilization of services and facilities, and cost.

2.11.6.1.9. Procedures to identify, communicate, and implement actions to correct potential over and under-utilization issues that are identified.

2.11.6.2. These activities shall be done in accordance with Health and Safety Code Section 1363.5 and 28 CCR 1300.70(b)(2)(H) and (G) and 42 C.F.R. §§ 422.112, 422.152, 422.202, and 422.4.

2.11.6.3. Pre-Authorizations and Review Procedures Contractor shall ensure that its pre-authorization, concurrent review and retrospective review procedures meet the following minimum requirements:

2.11.6.3.1. Decisions to deny or to authorize an amount, duration, or scope that is less than requested shall be made by a qualified health care professional with appropriate clinical expertise in treating the condition and disease.

2.11.6.3.2. Qualified health care professionals supervise review decisions, including service reductions, and a qualified physician will review all denials that are made, whole or in part, on the basis of

medical necessity. For purposes of this provision, a qualified physician or Contractor's pharmacist may approve, defer, modify, or deny prior authorizations for pharmaceutical services, provided that such determinations are made under the auspices of and pursuant to criteria established by the Contractor's medical director, in collaboration with the Contractor's pharmacy and therapeutics committee or its equivalent.

2.11.6.3.3. There is a set of written criteria or guidelines for utilization review that is based on sound medical evidence, is consistently applied, regularly reviewed, and updated.

2.11.6.3.4. Reasons for decisions are clearly documented.

2.11.6.3.5. Notification to Enrollees regarding denied, deferred or modified referrals is made.

2.11.6.3.6. Decisions and Appeals are made in a timely manner and are not unduly delayed for medical conditions requiring time sensitive services.

2.11.6.3.7. Prior Authorization requirements shall not be applied to Emergency Services, urgently needed services, family planning services, preventive services, basic prenatal care, sexually transmitted disease services, and HIV testing.

2.11.6.3.8. Records, including any NOA, shall meet the retention requirements described in Section 5.4 Records Retention, Inspection, and Audit.

2.11.6.3.9. Contractor must notify the requesting provider or Enrollee of any decision to deny, approve, modify, or delay a service authorization request, or to authorize a service in an amount, duration, or scope that is less than requested. The notice to the provider may be orally or in writing.

2.11.7. Timeframes for Authorization

2.11.7.1. Emergency and Urgently Needed Care: No prior authorization required, following the reasonable person

Back to Item
Back to Agenda
Back to Agenda

standard to determine that the presenting complaint might be an emergency.

2.11.7.2. Concurrent review of authorization for treatment regimen already in place: Within five (5) business days or less, consistent with urgency of the Enrollee's medical condition and in accordance with Health and Safety Code Section 1367.01, or any future amendments thereto.

2.11.7.3. Retrospective review: Within thirty (30) calendar days in accordance with Health and Safety Code Section 1367.01, or any future amendments thereto. Retrospective review applies only to Medi-Cal services, but Contractor may at its discretion apply retrospective review to Medicare services.

2.11.7.4. Non Part D covered pharmaceuticals: Twenty-four (24) hours on all drugs that require prior authorization in accordance with WIC section 14185 or any future amendments thereto.

2.11.7.5. Routine authorizations: Five (5) working days from receipt of the information reasonably necessary to render a decision (these are requests for specialty service, cost control purposes, out-of-network not otherwise exempt from prior authorization) in accordance with Health and Safety Code Section 1367.01, or any future amendments thereto, but, no longer than fourteen (14) calendar days from the receipt of the request. The decision may be deferred and the time limit extended an additional fourteen (14) calendar days only where the Enrollee or the Enrollee's provider requests an extension, or the Contractor can provide justification upon request by the State for the need for additional information and how it is in the Enrollee's interest. Any decision delayed beyond the time limits is considered a denial and must be immediately processed as such.

2.11.7.6. Expedited Authorizations: For requests in which a provider indicates, or the Contractor determines that, following the standard timeframe could seriously jeopardize the Enrollee's life or health or ability to attain, maintain, or regain maximum function, the Contractor must make an expedited authorization decision and provide notice as expeditiously as the Enrollee's health condition requires and not later than seventy-two (72) hours after receipt of the request for

services. The Contractor may extend this period by up to fourteen (14) calendar days if the Enrollee requests an extension, or if the Contractor justifies, to the DHCS upon request, a need for additional information and how the extension is in the Enrollee's interest. Any decision delayed beyond the time limits is considered a denial and must be immediately processed as such.

2.11.7.7. LTSS Authorization as follows:

2.11.7.7.1. Must include the PCP or case manager signature on any nursing facility authorization or reauthorization request.

2.11.7.7.2. Must include the PCP or case manager signature on any CBAS authorization or reauthorization request.

2.11.7.7.3. Through the HRA and ICT discussions, the Contractor shall refer Enrollees who are potentially eligible for MSSP to MSSP providers for authorization into the MSSP. MSSP providers and the Contractor shall collaborate and coordinate MSSP care management services (see Section 2.6.1.2).

2.11.7.7.4. Through the HRA and ICT discussions, the Contractor shall refer Enrollees who are potentially eligible for IHSS to County Social Services Agency responsible for IHSS service authorization. County IHSS eligibility worker may participate on the ICT whenever IHSS services are involved in the care of the Enrollees.

2.11.8. Review of Utilization Data

2.11.8.1. Contractor shall include within the utilization management program mechanisms to detect both under- and over-utilization of health care services. Contractor's internal reporting mechanisms used to detect Enrollee utilization patterns shall be reported to DHCS upon request.

2.11.9. Delegating Utilization Management Activities

2.11.9.1. Contractor may delegate utilization management activities. If Contractor delegates these activities, Contractor shall comply with Section 2.11.5.

2.11.10. Availability of Services

2.11.10.1. Access to Services for Emergency Conditions and Urgent Care. The Contractor must ensure access to twenty-four (24) hour Emergency Services for all Enrollees, whether they reside in institutions or in the community.

2.11.10.1.1. The Contractor must cover and pay for any services obtained for Emergency Conditions in accordance with 42 C.F.R. § 438.114(c).

2.11.10.1.2. Emergency Medical Treatment and Labor Act (EMTALA): The Contractor and Network Providers must comply with EMTALA, including the requirements for qualified hospital medical personnel to provide appropriate medical screening examinations to any Enrollee who "comes to the emergency department," as defined in 42 C.F.R. § 489.24(b); and, as applicable, to provide Enrollees stabilizing treatment or, if the hospital lacks the capability or capacity to provide stabilizing treatment, appropriate transfers.

2.11.10.1.3. An Enrollee who has an Emergency Condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or stabilize the Enrollee.

2.11.10.1.4. The attending emergency physician, or the provider actually treating the Enrollee, is responsible for determining when the Enrollee is sufficiently stabilized for transfer or discharge, and that determination is binding on the Contractor as responsible for coverage and payment.

2.11.10.1.5. The Contractor may not refuse to cover Emergency Services based on the emergency room provider, hospital, or fiscal agent not notifying the Enrollee's Primary Care Provider, the Contractor

or applicable State entity of the Enrollee's screening and treatment within ten (10) calendar days of presentation for Emergency Services.

2.12. Enrollee Services

2.12.1. Enrollee service representatives (ESRs). The Contractor must employ ESRs trained to answer Enrollee inquiries and concerns from Enrollees and potential Enrollees, consistent with the requirements of 42 C.F.R. §§ 422.111(h) and 423.128(d) as well as the following requirements:

2.12.1.1. Be trained to answer Enrollee inquiries and concerns from Enrollees and potential Enrollees regarding medical, behavioral, and LTSS services provided;

2.12.1.2. Be trained in the use of TTY, video relay services, remote interpreting services, how to provide accessible PDF materials, and other alternative formats;

2.12.1.3. Be capable of speaking directly with, or arranging for an interpreter to speak with, Enrollees in their primary language, including American Sign Language (ASL), or through an alternative language device or telephone translation service;

2.12.1.4. Inform callers that interpreter services are free;

2.12.1.5. Be knowledgeable about Medi-Cal, Medicare, the CFAM-MOU, and the terms of the Contract;

2.12.1.6. Be available to Enrollees to discuss and provide assistance with Enrollee Grievances and complaints;

2.12.1.7. Make oral interpretation services available free-of-charge to Enrollees in all non-English languages spoken by Enrollees, including ASL and how to access those services;

2.12.1.8. Maintain the availability of services, such as TTY services, computer-aided transcription services, telephone handset amplifiers, assistive listening systems, closed caption decoders, videotext displays and qualified interpreters and other services for Deaf and hard of hearing Enrollees;

2.12.1.9. Demonstrate sensitivity to culture, including disability competent care and the independent living philosophy;

2.12.1.10. Provide assistance to Enrollees with cognitive impairments; for example, provide written materials in simple, clear language at a reading level of sixth grade and below, and individualized guidance from ESRs to ensure materials are understood;

2.12.1.11. Provide reasonable accommodations needed to assure effective communication and provide Enrollees with a means to identify their disability to the Contractor;

2.12.1.12. Maintain employment standards and requirements (e.g., education, training, and experience) for Enrollee services department staff and provide a sufficient number of staff to meet defined performance objectives; and

2.12.1.13. Ensure that ESRs make available to Enrollees and potential Enrollees, upon request, information concerning the following:

2.12.1.13.1. Enrollees' rights and responsibilities;

2.12.1.13.2. The procedures for an Enrollee to change plans or to opt out of Cal MediConnect;

2.12.1.13.3. How to access oral interpretation services and written materials in Threshold Languages and alternative formats;

2.12.1.13.4. The identity, locations, qualifications, and availability of Network Providers;

2.12.1.13.5. Information on all Covered Services and other available services or resources (e.g., State agency services) either directly or through referral or authorization;

2.12.1.13.6. Be able to direct Enrollees to the Medi-Cal Dental program for any fee-for-service dental benefits available from Medi-Cal;

2.12.1.13.7. The procedures available to an Enrollee and Network Provider(s) to challenge or Appeal the failure of the Contractor to provide a Covered Service and to Appeal any Adverse Benefit Determinations (denials); and

2.12.1.13.8. Additional information that may be required by Enrollees and potential Enrollees to understand the requirements and benefits of the Cal MediConnect.

2.12.2. Enrollee Service Telephone Responsiveness

2.12.2.1. The Contractor must operate a call center during normal business hours seven (7) days a week, consistent with the required Medicare Communications and Marketing Guidelines and the Marketing Guidance for California Medicare-Medicaid Plans. The Enrollee must be able to speak with a live ESR, Monday through Friday, during normal business hours, consistent with the required Medicare Communications and Marketing Guidelines and the Marketing Guidance for California Medicare-Medicaid Plans. The Contractor may use alternative technologies on Saturdays, Sundays, and State and federal holidays (except New Year's Day). The Contractor's ESR's must answer eighty percent (80%) of all Enrollee telephone calls within thirty (30) seconds or less. The Contractor must limit average hold time to two (2) minutes, with the average hold time defined as the time spent on hold by the caller following the interactive voice response (IVR) system, touch tone response system, or recorded greeting and before reaching a live person. The Contractor must limit the disconnect rate of all incoming calls to five percent (5%). The Contractor must have a process to measure the time from which the telephone is answered to the point at which an Enrollee reaches an ESR capable of responding to the Enrollee's question in a manner that is sensitive to the Enrollee's language and cultural needs.

2.12.3. Coverage Determinations and Appeals Call Center Requirements

2.12.3.1. The Contractor must operate a toll-free call center with live ESRs available to respond to Network Providers or Enrollees for information related to requests for coverage under Medicare or Medi-Cal, and Medicare and Medi-Cal Appeals (including requests for Medicare exceptions and prior authorizations). The Contractor is required to provide immediate access to requests for Medicare and Medi-Cal covered benefits and services, including Medicare coverage determinations and redeterminations, via its toll-free call

Back to Agenda

centers. The call centers must operate during normal business hours, as specified in the Medicare Communications and Marketing Guidelines and the Marketing Guidance for California Medicare-Medicaid Plans. The Contractor must accept requests for Medicare or Medi-Cal coverage, including Medicare coverage determinations /redeterminations, outside of normal business hours, but is not required to have live Enrollee service representatives available to accept such requests outside normal business hours. Voicemail may be used outside of normal business hours provided the message:

2.12.3.1.1. Indicates that the mailbox is secure;

2.12.3.1.2. Lists the information that must be provided so the case can be worked (e.g., provider identification, beneficiary identification, type of request (coverage determination or Appeal), physician support for an exception request, and whether the Enrollee is making an expedited or standard request);

2.12.3.1.3. For coverage determination calls (including exceptions requests), articulates and follows a process for resolution within twenty-four (24) hours of call for expedited requests and seventy-two (72) hours for standard requests; and

2.12.3.1.4. For Appeals calls, articulates the process, information needed and provide for a resolution within seventy-two (72) hours for expedited Appeal requests and seven (7) calendar days for standard Part D Appeal requests and thirty (30) days for other standard Appeal requests.

2.12.4. Enrollee Advisory Committee

2.12.4.1. The Contractor shall establish an Enrollee advisory committee that will provide regular feedback to the Contractor's governing board on issues of Demonstration management and Enrollee care. The Contractor shall ensure that the Enrollee advisory committee:

2.12.4.1.1. Meets at least quarterly throughout the Demonstration.

2.12.4.1.2. Is comprised of Enrollees, family members and other caregivers that reflect the diversity of the Demonstration population, including individuals with disabilities. CMS and DHCS reserve the right to review and approve Enrollee membership.

2.12.4.2. The Contractor shall also include Ombudsman reports in quarterly updates to the Enrollee advisory committee and shall participate in all statewide stakeholder and oversight convenings as requested by DHCS and/or CMS.

2.13. IHSS Related Complaints, Grievances and Appeals

2.13.1. For Enrollee complaints, Grievances, or Appeals related to IHSS, Contractor must comply with the established Grievance and Appeal process established by CDSS and by the county agencies responsible for IHSS, in compliance with WIC section 10950.

2.14. Enrollee Grievances

2.14.1. Grievance Filing -- The Contractor shall inform Enrollees that they may file a Grievance through either the Contractor or Cal Medi-Connect Ombuds Program for complaints relating to Medicare and Medi-Cal covered benefits and services. Medicare beneficiaries may also file a Grievance through 1-800 Medicare. The Contractor must display a link to the electronic Grievance form on the Medicare.gov Internet Web site on the Contractor's main web page pursuant to 42 C.F.R. § 422.504 (a)(15)(ii). The Contractor must inform Enrollees of the email address, postal address or toll-free telephone number where an Enrollee Grievance regarding Medicare and Medi-Cal covered benefits and services may be filed. Authorized representatives may file Grievances on behalf of Enrollees to the extent allowed under applicable federal or State law.

2.14.2. Internal (plan level) Grievance: An Enrollee may file an Internal Enrollee Grievance regarding Medicare and Medi-Cal covered benefits and services at any time with the Contractor or its providers by calling or writing to the Contractor or provider. The Contractor must have a system in place for addressing Enrollee Grievances, including Grievances regarding reasonable accommodations and access to services under the ADA.

2.14.2.1. Reporting of plan level Grievances: Contractor shall track and report to DHCS the number and types of inquiries, complaints, Grievances, Appeals, and resolutions related to Cal MediConnect, in compliance with 42 C.F.R. § 438.416 and as described in WIC section 14182.17(e)(4)(E), in the format specified by DHCS in accordance applicable DPL(s) as indicated in Section 2.1.5. DHCS will then make the required information publicly available on DHCS' internet web site.

2.14.2.1.1. Internal Grievance: Contractor shall establish and maintain a Grievance process consistent with 42 C.F.R. Part 438 Subpart F, under which Enrollees may submit their Grievance regarding all Covered Services and benefits to the Contractor. Contractor shall establish and maintain a Grievance process approved by DHCS under which Enrollees may submit their Grievances regarding all benefits and services, consistent with the Knox-Keene Act, and the regulations promulgated thereunder, Welfare and Institutions Code section 14450 and CCR, Title 22, Section 53260.

2.14.2.1.2. The Contractor must maintain written records of all Grievance activities, and notify CMS and DHCS of all internal Grievances. The Grievance record must include the name of the covered person for whom the Grievance was filed; the name of the Contractor's representative recording the grievance; a general description of the reason for the Grievance; the date received; the date of each review or, if applicable, review meeting; and resolution information including date of resolution. The Grievance record must be accessible to CMS and DHCS upon request.

2.14.2.1.3. The system must meet the following standards:

2.14.2.1.3.1. Timely acknowledgement of receipt of each Enrollee Grievance;

2.14.2.1.3.2. Timely review of each Enrollee Grievance;

2.14.2.1.3.3. Response, electronically, orally or in writing, to each Enrollee Grievance within a reasonable time, but no later than thirty (30) days after the Contractor receives the Grievance;

2.14.2.1.3.4. Expedited response, orally or in writing, within twenty-four (24) hours after the Contractor receives the Grievance to each Enrollee Grievance whenever Contractor extends the Appeals timeframe or Contractor refuses to grant a request for an expedited Appeal; and

2.14.2.1.3.5. Notice to the Enrollee of the disposition of the grievance. The Notice must meet the requirements of 42 C.F.R. § 438.408(d)(1), and must:

2.14.2.1.3.5.1. Be produced in a manner, format, and language that can be easily understood;

2.14.2.1.3.5.2. Be made available in Threshold Languages, upon request;

2.14.2.1.3.5.3. Include information, in the most commonly used languages about how to request translation services and alternative formats; and

2.14.2.1.3.5.4. Include information about availability to Enrollees of information about Enrollee Appeals, as described in Section 2.15, including reasonable assistance with Enrollee Grievances and Appeals in completing any forms or other procedural steps, which shall include interpreter services and toll-

free numbers with TTY/TDD and interpreter capability.

2.14.2.1.3.6. In compliance with 42 C.F.R. § 438.406(b), procedures to ensure that decision makers on Grievances were not involved in previous levels of review or decision-making nor were a subordinate of any such individual, and who are health care professionals with clinical expertise in treating the Enrollee's condition or disease if any of the following apply:

2.14.2.1.3.6.1. A Grievance regarding denial of expedited resolutions of an Appeal.

2.14.2.1.3.6.2. Any Grievance or Appeal involving clinical issues.

2.14.2.1.3.7. In addition to Grievance logs required by Medicare and Medi-Cal rules and 42 C.F.R. § 438.416, per CA Health and Safety Code section 1368(a)(4)(B) and Title 28 CCR 1300.68(d)(8), the Contractor shall maintain a log of all Exempt Grievances. The log shall be periodically reviewed by the plan and shall include the following information for each Exempt Grievance:

2.14.2.1.3.7.1. The date of the call

2.14.2.1.3.7.2. The name of the complainant

2.14.2.1.3.7.3. The complainant's member identification number

2.14.2.1.3.7.4. The nature of the Grievance

2.14.2.1.3.7.5. The nature of the resolution

2.14.2.1.3.7.6. The name of the plan representative who took the call and resolved the Grievance

2.14.2.1.3.8. Notice to the Enrollee of the disposition of the Grievance.

2.14.3. External Grievance: The Contractor shall inform Enrollees that they may file an external Grievance for Medicare only covered benefits and services through 1-800-Medicare or for Medicare and Medi-Cal covered benefits and services through the Cal MediConnect Ombudsman program. The Contractor must display a link to the electronic Grievance form on the Medicare.gov Internet Web site on the Contractor's main web page per 42 C.F.R. § 422.504(a)(15)(ii).

2.14.3.1. The Contractor must inform Enrollees of the email address, postal address or toll-free telephone number where an Enrollee Grievance may be filed.

2.14.3.2. Consistent with Health & Safety Code Section 1368(b), Contractor, except for non-Knox Keene Act Licensed COHS plans, shall inform Enrollees that they may file an External Grievance for Medi-Cal only covered benefits and services through DMHC's consumer complaint process. Contractor shall inform Enrollees of the DMHC's toll-free telephone number, DMHC's TDD line for the hearing and speech impaired, and DMHC's website address pursuant to Health & Safety Code Section 1368.02

2.15. Enrollee Appeals

2.15.1. Integrated Notice of Action— In accordance with 42 C.F.R. §§ 431.206, 438.404 and 42 C.F.R. §§ 422.568-572, the Contractor must give the Enrollee written notice of any Adverse Benefit Determination. Enrollees will be notified of all applicable Cal MediConnect, Medicare and Medi-Cal Appeal rights through a single notice. The form and content of the notice must be approved by CMS and DHCS. The Contractor shall notify the Enrollee of its decision at least ten (10) days in advance of the date of its action.

2.15.1.1. The notice must explain:

2.15.1.1.1. The action the Contractor has taken or intends to take;

2.15.1.1.2. The reasons for the action, including the right of the Enrollee to be provided upon request and free of charge, reasonable access to and copies of all documents, records, and other information

relevant to the Enrollee's Adverse Benefit Determination. Such information includes medical necessity criteria, and any processes, strategies, or evidentiary standards used in setting coverage limits;

2.15.1.1.3. The citation to the regulations supporting such action

2.15.1.1.4. The Enrollee's, provider's, or authorized representative's right to file an Appeal with the Contractor and whether exhaustion of the Contractor's internal Appeal process is a prerequisite to additional external review from by Medicare, Independent Medical Review by DMHC (if applicable), or a State Fair Hearing;

2.15.1.1.5. Procedures for exercising Enrollee's rights to Appeal;

2.15.1.1.6. Circumstances under which expedited resolution is available and how to request it; and

2.15.1.1.7. If applicable, the Enrollee's rights to have benefits continue pending the resolution of the plan level Appeal.

2.15.1.2. Contractor must provide a member notice of resolution, as expeditiously as the Enrollee's health condition requires, not exceeding thirty (30) calendar days from the day Contractor receives the Appeal, or in the case of an expedited Appeal within seventy-two (72) hours as described in section 2.15.3.5. An Enrollee notice, at a minimum, must include the result and date of the Appeal resolution. For decisions not wholly in the Enrollee's favor, Contractor, at a minimum must include:

2.15.1.2.1. Enrollee's right to request a State Fair Hearing;

2.15.1.2.2. How to request a State Fair Hearing;

2.15.1.2.3. Right to continue to receive benefits pending a State Fair Hearing;

2.15.1.2.4. How to request the continuation of benefits;

2.15.1.2.5. That Enrollee may be liable for cost of any continued benefits if the Contractor's action is upheld on Appeal;

2.15.1.2.6. Enrollee's right to file an external Grievance through DMHC's consumer complaint process or request an Independent Medical Review from DMHC with respect to any and all disputes concerning Medi-Cal based services that are medical in nature and that relate to health care service plan obligations set forth under the Knox-Keene Act and the regulations promulgated thereunder.; and

2.15.1.2.7. How to file an external Grievance through DMHC's consumer complaint process or request an Independent Medical Review from DMHC.

2.15.1.2.8. COHS plans that have not obtained a Knox-Keene license are not required to comply with 2.15.1.2.6 and 2.15.1.2.7 of this Contract.

2.15.1.3. Contractors without a Knox-Keene license may extend the timeframe to resolve an Appeal by up to fourteen (14) days if the Enrollee requests the extension, or Contractor shows that there is a need for additional information and how the delay is in the Enrollee's interest. Contractor must provide the Enrollee with written notice within two (2) calendar days of the reason for the extension and inform the Enrollee of the right to file a Grievance if they disagree with the delay; and the Contractor must make reasonable efforts to provide prompt oral notice of the delay. Effective January 1, 2020, Contractors with a Knox-Keene license may not allow extensions to resolve Appeals.

2.15.1.4. Written material must use easily understood language and format, be available in alternative formats, and in an appropriate manner that takes into consideration those with special needs. The Contractor must inform Enrollees that information is available in alternative formats and how to access those formats.

2.15.2. Appeals relating to Medi-Cal covered benefits and services shall proceed pursuant to the laws and regulations governing Medi-Cal Appeals. Appeals relating to Medicare covered benefits and services

shall proceed pursuant to the laws and regulations governing Medicare Appeals.

2.15.2.1. Written notice must be translated for Enrollees who speak Threshold Languages.

2.15.2.2. Written notices must include language clarifying that oral interpretation is available for all languages and how to access it.

2.15.2.3. The Contractor must maintain written records of all Appeals activities. The Appeal record must include the name of the covered person for whom the Appeal was filed; the name of the Contractor's representative recording the Appeal; a general description of the reason for the Appeal; the date received; the date of each review or, if applicable, review meeting; and resolution information for each level of Appeal including date of resolution. The Appeal record must be accessible to CMS and DHCS upon request.

2.15.3. Medi-Cal Appeals and beneficiary protections will be maintained for Appeals regarding Medi-Cal services.

2.15.3.1. Enrollee or provider may file an Appeal with the Contractor either orally or in writing. The Contractor shall assist the Enrollee in confirming an oral Appeal in writing.

2.15.3.2. Enrollee, the Enrollee's authorized representative, or a Provider with the Enrollee's written consent, may file the oral or written Enrollee Appeal with the Contractor within sixty (60) calendar days after date of the Integrated Notice of Action.

2.15.3.3. Contractor must:

2.15.3.3.1. Timely acknowledge receipt of each Enrollee Appeal, including provide a written acknowledgemnent to the Enrollee within 5 calendar days of receipt.

2.15.3.3.2. Ensure that oral inquiries seeking to Appeal an action are treated as Appeals and confirm those

inquiries in writing unless the Enrollee or provider requests expedited resolution.

2.15.3.3.3. Provide a reasonable opportunity to present evidence and allegation of fact or law, in person, as well as in writing.

2.15.3.3.4. Provide the Enrollee and representative the Enrollee's case file, including medical records, and any other documents and records free of charge. The Enrollee's case file must be provided sufficiently in advance of the resolution timeframes.

2.15.3.3.5. Consider the Enrollee, representative, or estate representative of a deceased Enrollee as parties to the Appeal.

2.15.3.3.6. In compliance with 42 C.F.R. § 438.406(b), ensure that decision makers on Appeals were not involved in previous levels of review or decision-making nor a subordinate of any such individual and are health care professionals with clinical expertise in treating the Enrollee's condition or disease if any of the following apply:

2.15.3.3.6.1. A denial of an Appeal based on lack of medical necessity;

2.15.3.3.6.2. A Grievance regarding denial of expedited resolution of an Appeal; or

2.15.3.3.6.3. Any Appeal involving clinical issues.

2.15.3.4. Contractor shall implement and maintain an Enrollee internal Appeals system, which includes oversight of any First Tier, Downstream or Related Entity, in accordance with all applicable federal and State laws and regulations, including but not limited to the following:

2.15.3.4.1. Federal Medicaid regulations governing Medi-Cal Managed Care Appeals and Medi-Cal Appeals in general, at 42 C.F.R. 431 Subpart E and 42 C.F.R. 438 Subpart F.

2.15.3.4.2. Standards for expedited review of Grievances involving an imminent and serious threat to the health of the Enrollee: Title 28, CCR, Sections 1300.68 and 1300.68.01;

2.15.3.4.3. Internal Contractor Appeal processes, in accordance with the Knox-Keene Act and the regulations promulgated thereunder, and external Appeal processes in accordance with DMHC's Independent Medical Review System set forth in Article 5.55 of the Knox-Keene Act (commencing with Health & Safety Code Section 1374.30) and the regulations promulgated thereunder; and the fair hearing standards for Medi-Cal managed care, Title 22, CCR, Sections 51014.1, 51014.2, 53894, and 53858, as well as 42 C.F.R. § 431.244 related to standard and expedited fair hearings decisions;

2.15.3.4.4. Twelve (12) month continuity of care under certain circumstances. WIC section14182.17 (d)(7)(A)(ii).

2.15.3.5. Expedited internal Medi-Cal Appeals**.** Contractor shall comply with all State law and regulations pertaining to expedited Appeals, as well as the following requirements:

2.15.3.5.1. Contractor shall implement and maintain procedures as described below to resolve expedited internal Appeals for Medi-Cal services. These procedures shall be followed whenever Contractor determines or the provider indicates that taking the time for a standard resolution could seriously jeopardize the Enrollee's life, health, or ability to attain, maintain, or regain maximum function.

2.15.3.5.2. Enrollee or provider may file an expedited Appeal either orally or in writing, and no additional Enrollee follow-up is required.

2.15.3.5.3. Contractor must inform the Enrollee of the limited time available for the Enrollee to present evidence and allegations of fact or law, in person and in writing.

2.15.3.5.4. Contractor must provide an Enrollee notice as quickly as the Enrollee's health condition requires, not exceeding 72 hours from the Contractor's receipt of the Appeal.

2.15.3.5.5. Contractor without a Knox-Keene license may extend the timeframe to resolve an Appeal by up to fourteen (14) days if the Enrollee requests the extension, or Contractor shows that there is a need for additional information and how the delay is in the Enrollee's interest. Contractor must make reasonable efforts to provide the Enrollee prompt oral notice, and provide the Enrollee with written notice of the reason for the extension within 2 calendar days and inform the Enrollee of the right to file a Grievance if they disagree with the delay. Contractor must issue and carry out its determination as expeditiously as the Enrollee's health condition requires and no later than the date the extension expires. Effective January 1, 2020, Contractors with a Knox-Keene license may not allow extensions to resolve Appeals.

2.15.3.5.6. Contractor must provide written notice and must make a reasonable effort to provide oral notice of expedited Appeal decision.

2.15.3.5.7. Contractor must ensure that punitive action is not taken against a provider who either requests an expedited resolution or supports an Enrollee's Appeal.

2.15.3.5.8. If Contractor denies a request for expedited resolution of an Appeal, it must:

2.15.3.5.8.1. Transfer the Appeal to the standard timeframe of no longer than thirty (30) calendar days from the day the Contractor receives the Appeal with a possible fourteen (14) day extension for Contractactors without a Knox-Keene licsense, and

2.15.3.5.8.2. Give the Enrollee prompt oral notice of the denial of a request for expedited resolution and a written notice within two (2) calendar days.

2.15.3.6. Responsibilities in State Fair Hearings Related to Medi-Cal Benefits and Services**.** Contractor shall comply with all regulations and procedures regarding State Fair Hearings, set forth in the Manual of Policies and Procedures issued by the California Department of Social Services, pursuant to Title 22, CCR, Section 50953. Contractor shall have the following responsibilities with respect to State Fair Hearings that are expedited, in compliance with CDSS All County Letter 13-40.

2.15.3.6.1. An Enrollee, or an Enrollee's authorized representative, may request a State Fair Hearing either orally or in writing, consistent with 42 C.F.R. § 431.221.

2.15.3.7. Parties to an internal Medi-Cal Appeal or State Fair Hearing.

2.15.3.7.1. The parties to an internal plan Appeal or the State Fair Hearing related to a Medi-Cal benefit or service include the Contractor as well as the Enrollee and his or her representative or the representative of a deceased Enrollee's estate.

2.15.3.8. Responsibilities in Independent Medical Reviews (IMR) Related to Medi-Cal Benefits and Services. Contractor, except for non-Knox Keene Act licensed COHS plans, shall comply with all statutes, regulations and procedures regarding DMHC's Independent Medical Review System, as set forth in the Knox-Keene Act and the regulations promulgated thereunder, including but not limited to the following requirements:

2.15.3.8.1. Enrollees may request an IMR regarding Medi-Cal services from DMHC within six (6) months of a denial, modification or delay of a Medi-Cal service based on Contractor's determination, in whole or in part, that the service is not medically necessary. Health & Safety Code Section 1374.30.

2.15.3.8.2. Enrollees shall not be required to participate in Contractor's internal Appeal process for more than thirty (30) days before applying for an IMR. Health & Safety Code Section 1368(b)(1)(A).

2.15.3.8.3. Enrollees whose Appeal requires expedited review pursuant to Health & Safety Code Section 1368.01 shall not be required to participate in the Contractor's Internal Grievance process for more than three (3) days before applying for an IMR. Health & Safety Code Section 1374.30(j)(3).

2.15.3.8.4. Enrollees may apply for an IMR without first participating in Contractor's Internal Appeal process in extraordinary and compelling cases, as determined by DMHC, and in cases where Enrollee's request for an experimental treatment was denied. Health & Safety Code Section 1368.03 and 1374.31(a); Title 28, CCR Section 1300.70.4(b)(2).

2.15.3.8.5. Contractor must notify Enrollee in writing of the opportunity to request an IMR of a decision denying an experimental therapy within five (5) business days of the decision to deny coverage. Title 28, CCR Section 1300.70.4(b); Health & Safety Code Section 1370.4(c)(1).

2.15.3.8.6. Enrollees may not request an IMR if a State Fair Hearing has already been held on the issue. Title 28, CCR Section 1300.74.30(f)(3).

2.15.3.8.7. If DMHC determines that Enrollee is not eligible for an IMR, the Enrollee's case will be reviewed through DMHC's consumer complaint process. Health & Safety Code Section 1368(b).

2.15.4. Medicare Appeals rights and protections will be maintained and enhanced for Medicare services only.

2.15.4.1. Federal Regulations and law will continue to govern all Medicare Appeals regarding Medicare services. As outlined in the MOU, Enrollees will continue to have access to the existing Medicare Part C and Part D Appeals processes. The

Medicare Part C process is set forth at 42 C.F.R. Part 422, Subpart M and in Chapter 13 of the Medicare Managed Care Manual. The Medicare Part D process is set forth at 42 C.F.R. Part 423, Subparts M and U and in Chapter 18 of the Medicare Prescription Drug Benefit Manual.

2.15.4.2. Hospital Discharge and other Discharge Appeals

2.15.4.2.1. The Contractor must comply with the hospital discharge Appeal requirements at 42 C.F.R. §§ 422.620-422.622.

2.15.4.2.2. The Contractor must comply with the termination of services Appeal requirements for individuals receiving services from a comprehensive outpatient rehabilitation facility, SNF, or home health agency at 42 C.F.R. §§ 422.624 and 422.626.

2.15.5. Continuation of Benefits Pending an Appeal

2.15.5.1. Medicare Benefits and Services

2.15.5.1.1. The Contractor must continue providing benefits for all prior approved non-Part D Medicare benefits for which a Contractor has issued a NOA for termination or modification pending completion of the internal Contractor Appeal. This means that such benefits will continue to be provided to Enrollees and that the Contractor must continue to pay providers for providing such services or benefits pending an internal Appeal.

2.15.5.1.2. Payments will not be recouped based on the outcome of the Appeal for services covered during all pending Appeals.

2.15.5.2. Medi-Cal Benefits and Services

2.15.5.2.1. The Contractor must continue providing all prior approved Medi-Cal benefits for which a Contractor has issued a NOA for termination or modification pending completion of the internal Contractor Appeal or per timeframes in 42 C.F.R. § 438.420, whichever comes first. This means that such benefits will continue to be provided to

Enrollees and that the Contractor must continue to pay providers for providing such services or benefits until the completion of the hearing process, or until the Enrollee withdraws the Appeal request or fails to file timely per the timeframes in 42 C.F.R. § 438.420, whichever comes first.

2.15.5.2.2. Payments will not be recouped based on the outcome of the Appeal for services covered during all pending Appeals.

2.15.6. In the event that the Enrollee pursues the Appeal in multiple forums (for example, if the Enrollee files for a State Fair Hearing while the IRE decision is pending) and receives conflicting decisions, the Contractor is bound by, and must act in accordance with, the decision favorable to the Enrollee or the decision closest to the Enrollee's relief requested on Appeal.

2.16. Quality Improvement Program

2.16.1. Quality Improvement (QI) Program. The Contractor shall:

2.16.1.1. Deliver quality care that enables Enrollees to stay healthy, get better, manage chronic illnesses and/or disabilities, and maintain/improve their quality of life. Quality care refers to:

2.16.1.1.1. Quality of physical health care, including primary and specialty care;

2.16.1.1.2. Quality of Behavioral Health services focused on recovery, resiliency and rehabilitation;

2.16.1.1.3. Quality of LTSS;

2.16.1.1.4. Adequate access and availability to primary, Behavioral Health services, specialty health care, and LTSS providers and services;

2.16.1.1.5. Continuity and coordination of care across all care and services settings, and for transitions in care; and

2.16.1.1.6. Enrollee experience and access to high quality, coordinated and culturally competent clinical care

and services, inclusive of LTSS across the care continuum.

2.16.2. Apply the principles of Continuous Quality Improvement (CQI) to all aspects of the Contractor's service delivery system through ongoing analysis, evaluation and systematic enhancements based on:

2.16.2.1. Quantitative and qualitative data collection and data-driven decision-making;

2.16.2.2. Up-to-date evidence-based practice guidelines and explicit criteria developed by recognized sources or appropriately certified professionals or, where evidence-based practice guidelines do not exist, consensus of professionals in the field;

2.16.2.3. Feedback provided by Enrollees and providers in the design, planning, and implementation of its CQI activities;

2.16.2.4. Rapid Cycle Quality Improvement, when appropriate, as determined by DHCS;

2.16.2.5. Issues identified by the Contractor, DHCS and/or CMS; and

2.16.2.6. Ensure that the QI requirements of this Contract are applied to the delivery of primary and specialty health care services, Behavioral Health services and LTSS.

2.16.3. QI Program Structure

2.16.3.1. The Contractor shall maintain a well-defined QI organizational and program structure that supports the application of the principles of CQI to all aspects of the Contractor's service delivery system. The QI program must be communicated in a manner that is accessible and understandable to internal and external individuals and entities, as appropriate. The Contractor's QI organizational and program structure shall comply with all applicable provisions of 42 C.F.R. § 438, including Subpart E, Quality Assessment and Performance Improvement, 42 C.F.R. § 422, Subpart D Quality Improvement, and shall meet the quality management and improvement criteria described in the most current NCQA health plan accreditation requirements in 28 CCR Section 1300.70.

2.16.3.2. The Contractor shall:

2.16.3.2.1. Establish a mechanism to detect both underutilization and overutilization of services and assess the quality and appropriateness of care furnished to Enrollees with special health care needs.

2.16.3.2.2. Establish a set of QI functions and responsibilities that are clearly defined and that are proportionate to, and adequate for, the planned number and types of QI initiatives and for the completion of QI initiatives in a competent and timely manner;

2.16.3.2.3. Ensure that such QI functions and responsibilities are assigned to individuals with the appropriate skill set to oversee and implement an organization-wide, cross-functional commitment to, and application of, CQI to all clinical and non-clinical aspects of the Contractor's service delivery system;

2.16.3.2.4. Establish internal processes to ensure that the quality management activities for primary, specialty, Behavioral Health services, and LTSS reflect utilization across the Provider Network and include all of the activities in this Section 2.16 of this Contract and, in addition, the following elements:

2.16.3.2.4.1. A process to utilize Healthcare Plan Effectiveness Data and Information Set (HEDIS), Consumer Assessment of Healthcare Providers and Services (CAHPS), the Health Outcomes Survey (HOS) and other measurement results in designing QI activities;

2.16.3.2.4.2. A medical record review process for monitoring Provider Network compliance with policies and procedures, specifications and appropriateness of care. Such process shall include the sampling method used which shall be proportionate to

Back to Item
Back to Agenda
Back to Agenda

utilization by service type. The Contractor shall submit its process for medical record reviews and the results of its medical record reviews to DHCS;

2.16.3.2.4.3. A process to measure Provider Network and Enrollees, at least annually, regarding their satisfaction with the Contractor's plan. The Contractor shall submit a survey plan to DHCS for approval and shall submit the results of the survey to DHCS and CMS;

2.16.3.2.4.4. A process to measure clinical reviewer consistency in applying clinical criteria to utilization management activities, using inter-rater reliability measures;

2.16.3.2.4.5. A process for including Enrollees and their families in quality management activities, as evidenced by participation in consumer advisory boards; and

2.16.3.2.4.6. In collaboration with and as further directed by DHCS, develop a customized medical record review process to monitor the assessment for and provision of LTSS.

2.16.3.2.5. Have in place a written description of the QI Program that delineates the structure, goals, and objectives of the Contractor's QI initiatives. Such description shall include the following:

2.16.3.2.5.1. Organizational commitment to the delivery of quality health care services as evidenced by goals and objectives which are approved by Contractor's governing body and periodically evaluated and updated.

2.16.3.2.5.2. Organizational chart showing the key staff and the committees and bodies

responsible for quality improvement activities including reporting relationships of QI committee(s) and staff within the Contractor's organization.

2.16.3.2.5.3. Qualifications of staff responsible for quality improvement studies and activities, including education, experience and training.

2.16.3.2.5.4. The role, structure, and function of the Quality Improvement Committee.

2.16.3.2.5.5. The processes and procedures designed to ensure that all Covered Services that are Medically Necessary are available and accessible to all Enrollees regardless of race, color, national origin, creed, ancestry, religion, language, age, gender, marital status, sexual orientation, health status, or disability, and that all Covered Services that are Medically Necessary are provided in a culturally and linguistically appropriate manner.

2.16.3.2.5.6. A description of the mechanisms used to continuously review, evaluate, and improve access to and availability of services. The description shall include methods to ensure that Enrollees are able to obtain appointments within established standards.

2.16.3.2.5.7. Description of the quality of clinical care services provided, including, but not limited to, preventive services for children and adults, perinatal care, primary care, specialty, emergency, inpatient, and ancillary care services.

2.16.3.2.5.8. Description of the activities, including activities used by persons with chronic

conditions, designed to assure the provision of case management, coordination and continuity of care services. Such activities shall include, but are not limited to, those designed to assure availability and access to care, clinical services and care management.

2.16.3.2.5.9. A description of the mechanisms used to provide feedback to staff and providers regarding QI outcomes.

2.16.3.2.6. Address all aspects of health care, including specific reference to Behavioral Health services and to LTSS, with respect to monitoring and improvement efforts, and integration with physical health care. Behavioral Health and LTSS aspects of the QI program may be included in the QI description, or in a separate QI Plan referenced in the QI description as follows:

2.16.3.2.6.1. Address the roles of the designated physician(s), Behavioral Health clinician(s), and LTSS providers with respect to QI program;

2.16.3.2.6.2. Identify the resources dedicated to the QI program, including staff, or data sources, and analytic programs or IT systems; and

2.16.3.2.6.3. Include organization-wide policies and procedures that document processes through which the Contractor ensures clinical quality, access and availability of health care and services, and continuity and coordination of care. Such processes shall include, but not be limited to, Appeals and Grievances and utilization management.

2.16.3.2.7. Plans in Los Angeles and Orange counties must initiate QI activities for Enrollees in Medicare LTI status per Section 4.2.2.2.6.4.

2.16.3.2.7.1. QI activities under this initiative are subject to CMT approval.

2.16.3.3. Delegation of Quality Improvement Activities

2.16.3.3.1. Contractor is accountable for all QI functions and responsibilities (e.g. utilization management, credentialing and site review) that are delegated to First Tier, Downstream, and Related Entities.

2.16.3.3.2. Contractor shall maintain a system to ensure accountability for delegated QI activities, that at a minimum:

2.16.3.3.2.1. Evaluates First Tier, Downstream and Related Entity's ability to perform the delegated activities including an initial review to assure that the First Tier, Downstream, and Related Entity has the administrative capacity, task experience, and budgetary resources to fulfill its responsibilities;

2.16.3.3.2.2. Ensures First Tier, Downstream, and Related Entity meets standards set forth by the Contractor and DHCS; and

2.16.3.3.2.3. Includes the continuous monitoring, evaluation and approval of the delegated functions.

2.16.3.3.3. Submit to DHCS and CMS an annual QI Work Plan that shall include the following components or other components as directed by DHCS and CMS:

2.16.3.3.3.1. Planned clinical and non-clinical initiatives;

2.16.3.3.3.2. The objectives for planned clinical and non-clinical initiatives;

2.16.3.3.3.3. The short and long term time frames within which each clinical and non-clinical initiative's objectives are to be achieved;

2.16.3.3.3.4. The individual(s) responsible for each clinical and non-clinical initiative;

2.16.3.3.3.5. Any issues identified by the Contractor, DHCS, Enrollees, and providers, and how those issues are tracked and resolved over time;

2.16.3.3.3.6. Program review process for formal evaluations that address the impact and effectiveness of clinical and non-clinical initiatives at least annually; and

2.16.3.3.3.7. Process for correcting deficiencies.

2.16.3.3.4. Evaluate the results of QI initiatives at least annually, and submit the results of the evaluation to DHCS and CMS. The evaluation of the QI program initiatives shall include, but not be limited to, the results of activities that demonstrate the Contractor's assessment of the quality of physical and Behavioral Health services rendered, the effectiveness of LTSS, and accomplishments and compliance and/or deficiencies in meeting the previous year's QI Strategic Work Plan; and

2.16.3.3.5. Contractor shall develop a QI report for submission to DHCS and CMS on an annual basis. The annual report shall include:

2.16.3.3.5.1. An Assessment of the QI activities undertaken and an evaluation of areas of success and needed improvements in services rendered within the QI program, including but not limited to:

2.16.3.3.5.1.1. The collection of aggregate data on utilization;

2.16.3.3.5.1.2. The review of quality of services rendered; and

2.16.3.3.5.1.3. Outcomes/findings from Quality Improvement Projects (QIPs),

consumer satisfaction surveys and collaborative initiatives.

2.16.3.3.5.2. Consistent with 42 C.F.R. § 438.332(b), copies of all final reports of non-governmental accrediting agencies (e.g. JCAHO, NCQA) relevant to the Contractor's Medi-Cal line of business, including accreditation status, any deficiencies noted, and expiration date of the accreditation. Include the corrective action plan developed to address noted deficiencies.

2.16.3.3.5.3. An assessment of First Tier, Downstream and Related Entity's performance of delegated QI activities.

2.16.3.3.6. Maintain sufficient and qualified staff employed by the Contractor to manage the QI activities required under the Contract, and establish minimum employment standards and requirements (e.g. education, training, and experience) for employees who will be responsible for quality management. QI staff shall include:

2.16.3.3.6.1. At least one designated physician, who shall be a medical director or associate medical director, at least one designated Behavioral Health provider, and a professional with expertise in the assessment and delivery of LTSS with substantial involvement in the QI program; and

2.16.3.3.6.2. A qualified individual to serve as the Cal MediConnect QI Director.

2.16.4. QI Activities

2.16.4.1. Performance Measurement

2.16.4.1.1. The Contractor shall engage in performance measurement and performance improvement projects, designed to achieve, through ongoing

measurement and intervention, significant improvements, sustained over time, in clinical care and non-clinical care processes, outcomes and Enrollee experience. The Contractor's QI program must include a health information system to collect, analyze, and report quality performance data as described in 42 C.F.R. §§ 422.516(a), 422.152, 423.514, 438.242(a) and (b), and 330.

2.16.4.1.2. Performance improvement projects must involve:

2.16.4.1.2.1. Measurement of performance using objective quality indicators

2.16.4.1.2.2. Implementation of systems interventions to achieve improvement in quality

2.16.4.1.2.3. Evaluation of the effectiveness of the interventions

2.16.4.1.2.4. Planning and initiation of activities for increasing and sustaining improvement

2.16.4.1.3. Measurement and improvement projects shall be conducted in accordance with requirements in the CFAM-MOU, Figure 7-1 core quality measures, and as specified in this Contract, and shall include, but are not limited to:

2.16.4.1.3.1. All HEDIS, HOS and CAHPS data, as well as all other measures specified in Figure 7-1 core quality measures of the MOU referenced above (Figure 7-1). HEDIS, HOS and CAHPS must be reported consistent with Medicare requirements. All existing Part D metrics will be collected as well. Additional details, including technical specifications, will be provided in annual guidance for the upcoming reporting year.

2.16.4.1.3.2. The Contractor shall collect annual data and contribute to all Demonstration QI-related processes, as directed by DHCS and CMS, as follows:

Back to Item
Back to Agenda
Back to Agenda

2.16.4.1.3.2.1. Collect and submit to DHCS, CMS and/or CMS' contractors, in a timely manner, data for the measures;

2.16.4.1.3.2.2. Contribute to all applicable DHCS and CMS data quality assurance processes, shall include, but not be limited to, responding, in a timely manner, to data quality inadequacies identified by DHCS and rectifying those inadequacies, as directed by DHCS

2.16.4.1.3.2.3. The Contractor shall demonstrate how to utilize results of the measures specified in any CMS and DHCS reporting requirements documents in designing QI initiatives.

2.16.4.2. Consumer Satisfaction Survey:

2.16.4.2.1. At intervals as determined by DHCS, DHCS' contracted EQRO will conduct a consumer satisfaction survey of a representative sample of Enrollees in each county, as determined by the technical specifications of the survey instrument chosen by DHCS. If requested, Contractor shall provide appropriate data to the EQRO to facilitate this survey.

2.16.4.3. Quality Improvement Project (QIP)Requirements

2.16.4.3.1. The Contractor shall implement and adhere to all processes relating to the QIP requirements, as directed by DHCS and CMS, and as follows:

2.16.4.3.1.1. In accordance with 42 C.F.R. § 438.330 (b) and (d) collect information and data in accordance with QIP requirement specifications for its Enrollees; using the format and submission guidelines specified

by DHCS and CMS in annual guidance provided for the upcoming Contract year;

2.16.4.3.1.2. The Contractor is required to conduct or participate in two (2) QIPS approved by DHCS. If Contractor holds multiple managed care contracts with DHCS, Contractor is required to conduct or participate in no more than two (2) QIPS for each Contract.

2.16.4.3.1.2.1. One (1) QIP must be an internal quality improvement project (IQIP), the requirements of which may be met by the completion of the Medicare QIP process.

2.16.4.3.1.2.2. One (1) QIP must be a DHCS facilitated statewide collaborative in accordance with applicable DPL(s) as indicated in Section 2.1.5.

2.16.4.4. Implement the QIP requirements, in a culturally competent manner;

2.16.4.5. Evaluate the effectiveness of QIP interventions, completed in a reasonable time period as to generally allow information on the success of performance improvement projects in the aggregate to produce new information on quality of care every year;

2.16.4.6. Plan and initiate processes to sustain achievements and continue improvements;

2.16.4.7. Submit to DHCS and CMS, if requested by CMS or DHCS, comprehensive written reports, using the format, submission guidelines and frequency specified by DHCS and CMS. Such reports shall include information regarding progress on QIP requirements, barriers encountered and new knowledge gained. As directed by DHCS and CMS, the Contractor shall present this information to DHCS and CMS, if requested, at the end of the QI requirement project cycle as determined by DHCS and CMS; and

2.16.4.8. In accordance with 42 C.F.R. § 422.152 (c), develop a Chronic Care Improvement Program (CCIP) and establish criteria for participation in the program. The CCIP must be relevant to and target the Contractor's plan population. Although the Contractor has the flexibility to choose the design of their CCIPs, DHCS and CMS may require them to address specific topic areas.

2.16.5. External Quality Review (EQR) Activities

2.16.5.1. The Contractor shall take all steps necessary to support the EQRO contracted by DHCS and the QIO to conduct EQR activities, in accordance with 42 C.F.R. § 438.358 and 42 C.F.R. § 422.153. Contractor shall address the findings of the external review through its QI program. Contractor shall develop and implement performance improvement goals, objectives, and activities in response to the EQR findings as part of Contractor's QI program. A description of the performance improvement goals, objectives, and activities developed and implemented in response to the EQRO findings will be included in Contractor's QI program. DHCS may also require separate submission of an improvement plan specific to the findings of the EQRO. EQR activities shall include, but are not limited to the following:

2.16.5.1.1. Annual validation of performance measures reported to DHCS, as directed or calculated by DHCS;

2.16.5.1.2. Annual validation of QI projects required by DHCS and CMS; and

2.16.5.1.3. At least once every three (3) years, review of compliance with standards mandated by 42 C.F.R. Part 438, Subpart D, 42 C.F.R. Part 422, Subpart D, and 42 C.F.R. Part 423, Subpart D, and at the direction of DHCS, regarding access, structure and operations, and quality of care and services furnished to DHCS. The Contractor shall take all steps necessary to support the EQRO and QIO in conducting EQR activities including, but not limited to:

2.16.5.1.3.1. Designating a qualified individual to serve as project director for each EQR activity who shall, at a minimum perform the following activities:

2.16.5.1.3.1.1. Oversee and be accountable for compliance with all aspects of the EQR activity;

2.16.5.1.3.1.2. Coordinate with staff responsible for aspects of the EQRO activity and ensure that staff respond to requests by the EQRO, QIO, DHCS and CMS staff in a timely manner;

2.16.5.1.3.1.3. Serve as the liaison to the EQRO, QIO, DHCS and CMS and answer questions or coordinate responses to questions from the EQRO, QIO, CMS and DHCS in a timely manner; and

2.16.5.1.3.1.4. Ensure timely access to information systems, data, and other resources, as necessary for the EQRO and/or QIO to perform the EQR activity and as requested by the EQRO, QIO, CMS or DHCS.

2.16.5.1.3.2. Maintaining data and other documentation necessary for completion of EQR activities specified above. The contractor shall maintain such documentation for a minimum of ten (10) years;

2.16.5.1.3.3. Reviewing the EQRO's draft EQR report and offering comments and documentation to support the correction of any factual errors or omissions, in a timely manner, to the EQRO or

2.16.5.1.4. Participating in meetings relating to the EQR process, EQR findings, and/or EQR trainings with the EQRO and DHCS;

2.16.5.1.5. Implementing actions, as directed by DHCS and/or CMS, to address recommendations for QI made by the EQRO or QIO, and sharing outcomes and results of such activities with the EQRO or QIO, and CMS in subsequent years; and

2.16.5.1.6. Participating in any other activities deemed necessary by the EQRO and/or QIO and approved by DHCS and CMS.

2.16.6. CMS-Specified Performance Measurement and Performance Improvement Projects

2.16.6.1. The Contractor shall conduct additional performance measurement or performance improvement projects if mandated by CMS pursuant to 42 C.F.R. § 438.330.

2.16.7. Clinical Practice Guidelines

2.16.7.1. The Contractor shall adopt, disseminate, and monitor the use of clinical practice guidelines relevant to Enrollees that are:

2.16.7.1.1. Based on valid and reliable clinical evidence or a consensus of health care professionals;

2.16.7.1.2. Consider the needs of Enrollees;

2.16.7.1.3. Developed in consultation with contracting health care professionals;

2.16.7.2. Contractor will review and update practice guidelines periodically as appropriate

2.16.7.3. Contractor will disseminate the practice guidelines to all affected providers and upon request, to Enrollees and potential Enrollees.

2.16.7.4. Delegated Credentialing: Contractor may delegate credentialing and recredentialing activities. If Contractor delegates these activities, Contractor shall comply with:

2.16.7.4.1. Credentialing Provider Organization Certification: Contractor and their Network Providers (e.g. a medical group or independent physician organization) may obtain credentialing provider organization certification (POC) from the NCQA.

2.16.7.5. Contractor shall ensure that all contracted laboratory testing sites have either a Clinical Laboratory Improvement Act (CLIA) certificate or waiver of a certificate of registration along with a CLIA identification number.

2.16.7.6. Disciplinary Actions: Contractor shall implement and maintain a system for the reporting of serious quality deficiencies that result in suspension or termination of a practitioner to the appropriate authorities. Contractor shall implement and maintain policies and procedures for disciplinary actions including, reducing, suspending, or terminating a practitioner's privileges. Contractor shall implement and maintain a provider Appeal process.

2.16.7.7. Health Plan Accreditation: If Contractor has received a rating of "Excellent," Commendable" or "Accredited" from NCQA, the Contractor shall be "deemed" to meet the DHCS requirements for credentialing and will be exempt from the DHCS medical review audit of credentialing.

2.16.7.8. Deeming of credentialing certification from other private credentialing organizations will be reviewed on an individual basis.

2.16.7.9. Credentialing of Other Non-Physician Medical Practitioners: Contractor shall develop and maintain policies and procedures that ensure that the credentials of nurse practitioners, certified nurse midwives, clinical nurse specialists and physician assistants have been verified in accordance with State requirements applicable to the provider category.

2.16.8. The Contractor's decisions regarding UM, Enrollee education, coverage of services, and other areas included in the practice guidelines must be consistent with the Contractor's clinical practice guidelines.

2.16.9. Quality Improvement Committee: Contractor shall implement and maintain a Quality Improvement Committee (QIC) designated by, and accountable to, the governing body; the committee shall be facilitated by the medical director or a physician designee. Contractor must ensure that Enrollees and Network Providers, who are representative of the composition of the contracted Provider Network, actively participate on the committee or medical sub-committee that reports to the QIC.

2.16.9.1. The committee shall meet at least quarterly but as frequently as necessary to demonstrate follow-up on all findings and required actions. The activities, findings, recommendations, and actions of the committee shall be reported to the governing body in writing on a scheduled basis.

2.16.9.2. Contractor shall maintain minutes of committee meetings and minutes shall be submitted to DHCS quarterly. Contractor shall maintain a process to ensure rules of confidentiality are maintained in quality improvement discussions as well as avoidance of conflict of interest on the part of committee members.

2.17. Marketing, Outreach, and Enrollee Communications Standards

2.17.1. General Marketing, Outreach, and Enrollee Communications Requirements

2.17.1.1. The Contractor is subject to rules governing marketing and Enrollee Communications as specified under Section 1851(h) of the Social Security Act; 42 C.F.R. §§ 422.111, 422.2260 et. seq., 423.120(b) and (c), 423.128, 423.2260, 438.10; and the Medicare Communications and Marketing Guidelines, with the following exceptions or modifications:

2.17.1.1.1. Contractor may complete an application for enrollment from a potential Cal MediConnect Enrollee and submit it to the State Enrollment Broker;

2.17.1.1.2. If approved to participate in Streamlined Enrollment, the Contractor may collect enrollment information from a potential eligible Enrollee and submit that request to the State per Section 2.3.1.7.

2.17.1.1.3. The Contractor may refer Enrollees and potential Enrollees who inquire about Capitated Financial

Alignment model eligibility or enrollment to the Enrollment Broker, although the Contractor may provide Enrollees and potential Enrollees with information about the Contractor's plan and its benefits prior to referring a request regarding eligibility or enrollment to the Enrollment Broker;

2.17.1.1.4. The Contractor must make available to CMS and DHCS, upon request, current schedules of all educational events conducted by the Contractor to provide information to Enrollees or potential Enrollees;

2.17.1.1.5. The Contractor must convene all educational and marketing/sales events at sites within the Contractor's Service Area that are physically accessible to all Enrollees or potential Enrollees, including persons with disabilities and persons using public transportation.

2.17.1.1.6. The Contractor may not directly or indirectly conduct door-to-door, telephone, or other unsolicited contacts;

2.17.1.1.7. The Contractor does not seek to influence enrollment in conjunction with the sale or offering of any private insurance; and

2.17.1.1.8. The Contractor may not use any Marketing, Outreach, or Enrollee Communications materials that contain any assertion or statement (whether written or oral) that:

2.17.1.1.8.1. The recipient must enroll with the Contractor in order to obtain benefits or in order not to lose benefits;

2.17.1.1.8.2. The Contractor is endorsed by CMS, Medicare, Medi-Cal, the federal government, DHCS, or similar entity.

2.17.2. The Contractor's Marketing, Outreach, and Enrollee Communications materials must be:

Back to Item
Back to Agenda
Back to Agenda

2.17.2.1. Made available in alternative formats, upon request and as needed to assure effective communication for blind and vision-impaired Enrollees;

2.17.2.2. Provided in a manner, format and language that may be easily understood by persons with limited English proficiency, or for those with developmental disabilities or cognitive impairments; and

2.17.2.3. Translated into Threshold Languages for all required vital materials, as specified in the Marketing Guidance for California Medicare-Medicaid Plans and annual guidance to Contractors on specific translation requirements for their Service Areas; and

2.17.2.4. Mailed with a multi-language insert or alternate language taglines that indicate that the Enrollee can access free interpreter services to answer questions about the plan. This message shall be written in the languages required in the Medicare Communications and Marketing Guidelines and Marketing Guidance for California Medicare-Medicaid Plans provisions on the multi-language insert and alternate language taglines.

2.17.2.5. Distributed to the Contractor's entire Service Area, as specified in Appendix I of this Contract.

2.17.3. Submission, Review, and Approval of Marketing, Outreach, and Enrollee Communications Materials

2.17.3.1. The Contractor must receive prior approval of all Marketing, Outreach, and Enrollee Communications in categories of materials that CMS and DHCS require to be prospectively reviewed. Contractor materials may be designated as eligible for the File & Use process, as described in 42 C.F.R. §§ 422.2262(b) and 423.2262(b), and will therefore be exempt from prospective review and approval by both CMS and DHCS. CMS and DHCS may agree to defer to one or the other party for review of certain types of marketing and Enrollee Communications, as agreed in advance by both parties. Contractors must submit all materials that are consistent with the definition of communications materials and marketing materials at 42 C.F.R. § 422.2260, whether prospectively reviewed or not, via the CMS HPMS

Marketing Module. The Contractor that is a non-Knox-Keene licensed COHS plan shall ensure that Marketing, Outreach, and Enrollee Communications involving Medi-Cal based services are consistent with the requirements of the Knox-Keene Act and the regulations promulgated thereunder. The Contractor, unless it is a non-Knox-Keene licensed COHS plan, shall submit to DMHC any Marketing, Outreach, and Enrollee Communications required to be reviewed by DMHC pursuant to the Knox-Keene Act.

2.17.3.2. CMS and DHCS may conduct additional types of review of Contractor's Marketing, Outreach, and Enrollee Communications activities, including, but not limited to:

2.17.3.2.1. Review of on-site marketing facilities, products, and activities during regularly scheduled Contract compliance monitoring visits.

2.17.3.2.2. Random review of actual Marketing, Outreach, and Enrollee Communications pieces as they are used in the marketplace.

2.17.3.2.3. "For cause" review of materials and activities when complaints are made by any source, and CMS or DHCS determine it is appropriate to investigate.

2.17.3.2.4. "Secret shopper" activities where CMS or DHCS request Contractor materials, such as enrollment packets.

2.17.4. Beginning of Marketing, Outreach and Enrollee Communications Activity

2.17.4.1. The Contractor may not begin Marketing, Outreach, and Enrollee Communications activities to Enrollees or potential new Enrollees more than ninety (90) days prior to the effective date of coverage for the following Contract year.

2.17.5. Requirements for Dissemination of Marketing, Outreach, and Enrollee Communications Materials

2.17.5.1. Consistent with the timelines specified in the Marketing Guidance for California Medicare-Medicaid Plans, the Contractor must provide new Enrollees with the following

materials which, with the exception of the materials specified in 2.17.5.4, must also be provided annually thereafter:

2.17.5.1.1. An Evidence of Coverage (EOC)/Member Handbook document, or a distinct and separate notice on how to access the Member Handbook online and how to request a hard copy, that is consistent with the requirements at 42 C.F.R. § 438.10, 42 C.F.R. § 422.111, and 42 C.F.R. § 423.128; includes information about all Covered Services, as outlined below, and that uses the model document developed by CMS and DHCS.

2.17.5.1.1.1. Enrollee rights (see Appendix B);

2.17.5.1.1.2. An explanation of the process by which clinical information, including diagnostic and medication information, will be available to key caregivers;

2.17.5.1.1.3. How to request and obtain a copy of the Enrollee's medical records, and to request that they be amended or corrected;

2.17.5.1.1.4. How to obtain access to services, including specialty, Behavioral Health, pharmacy and LTSS providers;

2.17.5.1.1.5. How to obtain services and prescription drugs for Emergency Conditions and Urgent Care in and out of the Provider Network and in and out of the Service Area; including:

2.17.5.1.1.5.1. What constitutes Emergency Medical Condition, Emergency Services, and Post-Stabilization Care Services, with reference to the definitions in 42 C.F.R. § 438.114(a);

2.17.5.1.1.5.2. The fact that prior authorization is not required for Emergency Services;

Back to Item
Back to Agenda
Back to Agenda

2.17.5.1.1.5.3. The process and procedures for obtaining Emergency Services, including the use of the 911 telephone system or its local equivalent;

2.17.5.1.1.5.4. The locations of any emergency settings and other locations at which providers and hospitals furnish Emergency Services and Post-Stabilization Care Services covered under the Contract;

2.17.5.1.1.5.5. That the Enrollee has a right to use any hospital or other setting for emergency care; and

2.17.5.1.1.5.6. The Post-Stabilization Care Services rules as outlined under 42 C.F.R. § 422.113(c).

2.17.5.1.2. Information about Advance Directives (at a minimum those required in 42 C.F.R. § 489.102 and 42 C.F.R. § 422.128), including Enrollee rights under the law of California; the Contractor's policies respecting the implementation of those rights, including a statement of any limitation regarding the implementation of Advance Directives as a matter of conscience; that complaints concerning noncompliance with the Advance Directive requirements may be filed with DHCS; designating a health care proxy, and other mechanisms for ensuring that future medical decisions are made according to the desire of the Enrollee; and that information provided must reflect changes in State law as soon as possible, but no later than ninety (90) days after the effective date of the change;

2.17.5.1.3. How to obtain assistance from ESRs;

2.17.5.1.4. How to file Grievances and internal and external Appeals, including:

2.17.5.1.4.1. Grievance, Appeal and fair hearing procedures and timeframes;

2.17.5.1.4.2. Toll free numbers that the Enrollee can use to file a Grievance or an Appeal by phone;

2.17.5.1.4.3. A statement that when requested by the Enrollee, benefits will continue at the Contractor level for all benefits during the Contractor Appeal process, and the Enrollee may be required to pay to DHCS the cost of services furnished while the Appeal is pending if the final decision is adverse to the Enrollee; and, how the Enrollee can identify who the Enrollee wants to receive written notices of denials, terminations, and reductions;

2.17.5.1.4.4. How to obtain assistance with the Appeals processes through the ESR and other assistance mechanisms as DHCS or CMS may identify, including an Ombudsperson;

2.17.5.1.5. The extent to which, and how Enrollees may obtain benefits, including family planning services, from out-of-network providers;

2.17.5.1.6. How and where to access any benefits that are available under the State plan but are not covered under the Contract, including any cost sharing, and how transportation is provided;

2.17.5.1.7. How to change providers;

2.17.5.1.8. How to disenroll from Cal Medi-Connect voluntarily;

2.17.5.1.9. How to receive counseling and referral services that are not covered under the Contract because of moral or religious objections;

2.17.5.1.10. The structure and operation of the Contractor; and

2.17.5.1.11. The structure and operation of any physician incentive plans the Contractor may have in place.

2.17.5.2. A Summary of Benefits (SB) that contains a concise description of the important aspects of enrolling in the Contractor's plan, as well as the benefits offered under the Contractor's plan, including any cost sharing, applicable conditions and limitations, and any other conditions associated with receipt or use of benefits, and is consistent with the model document developed by CMS and DHCS. The SB should provide sufficient detail to ensure that Enrollees understand the benefits to which they are entitled. For new Enrollees, the SB is required only for Enrollees enrolled through Passive Enrollment.

2.17.5.3. A combined provider and pharmacy directory that includes all providers of Medicare, Medi Cal, and Flexible Benefits and is consistent with the requirements in Section 2.17.5.10, or a distinct and separate notice on how to access this information online and how to request a hard copy.

2.17.5.4. A single identification (ID) card for accessing all Covered Services under the plan that uses the model document developed by CMS and DHCS.

2.17.5.5. A comprehensive, integrated formulary that includes prescription drugs and over-the-counter products required to be covered by Medicare Part D and DHCS's outpatient prescription drug benefit and that uses the model document developed by CMS and DHCS.

2.17.5.6. The procedures for an Enrollee to change Cal MediConnect Plans or to opt out of Cal MediConnect.

2.17.5.7. The Contractor must provide the following materials to current Enrollees on an ongoing basis:

2.17.5.7.1. An ANOC that summarizes all major changes to the Contractor's covered benefits from one Contract year to the next, and that uses the model document developed by CMS and DHCS.

2.17.5.7.2. As needed to replace old versions or upon an Enrollee's request, a single ID card for accessing all Covered Services under the Contractor;

2.17.5.7.3. The Contractor must provide all Medicare Part D required notices, with the exception of the creditable coverage and late enrollment penalty notices required under Chapter 4 of the Prescription Drug Benefit Manual, and the LIS Rider required under Chapter 13 of the Prescription Drug Benefit Manual.

2.17.5.8. Consistent with the requirement at 42 C.F.R. § 423.120(b)(5), the Contractor must provide Enrollees with at least thirty (30) calendar days advance notice regarding certain changes to the comprehensive, integrated formulary.

2.17.5.9. The Contractor must ensure that all information provided to Enrollees and potential Enrollees (and families when appropriate) is provided in a manner and format that is easily understood and that is:

2.17.5.9.1. Made available in large print (at least 16 point font) to Enrollees as an alternative format, upon request;

2.17.5.9.2. For materials specified in the Medicare-Medicaid marketing guidance, available in Threshold Languages, as provided for in the Marketing Guidance for California Medicare-Medicaid Plans;

2.17.5.9.3. Written with cultural sensitivity and at a sixth grade reading level; and

2.17.5.9.4. Available in alternative formats, according to the needs of Enrollees and potential Enrollees, including Braille, oral interpretation services in non-English languages, as specified in Section 2.3.1.4 of this Contract; audiotape; ASL video clips, and other alternative media, as requested.

2.17.5.10. Provider/Pharmacy Network Directory

2.17.5.10.1. The Contractor must comply with the following maintenance and distribution requirements:

2.17.5.10.1.1. Maintain a combined Provider/Pharmacy Network directory

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

that uses the model document developed by CMS and DHCS;

2.17.5.10.1.2. Provide either a print copy or a distinct and separate notice about how to access this information online or request a hard copy, as specified in the Medicare Communications and Marketing Guidelines and the Marketing Guidance for California Medicare-Medicaid Plans, to all new Enrollees at the time of enrollment and annually thereafter;

2.17.5.10.1.3. When there is a significant change to the network, the Contractor must send a special mailing to Enrollees, as specified in Chapter 4 of the Medicare Managed Care Manual, immediately;

2.17.5.10.1.4. The Contractor must ensure an up-to-date copy is available on the Contractor's website, consistent with the requirements at 42 C.F.R. §§ 422.111(h) and 423.128(d);

2.17.5.10.2. Consistent with 42 C.F.R. § 422.111(e), make a good faith effort to provide written notice of termination of a contracted provider or pharmacy consistent with section 2.11.1.5 of this Contract to all Enrollees who regularly use the provider or pharmacy's services; if a contract termination involves a primary care professional, all Enrollees who are patients of that primary care professional must be notified; and

2.17.5.10.3. Include written and oral offers of such Provider/Pharmacy Network directory in its outreach and orientation sessions for new Enrollees.

2.17.5.11. Content of Provider/Pharmacy Network Directory. The Provider/Pharmacy Network directory must include, at a

minimum, the following information for all providers in the Contractor's Provider Network:

2.17.5.11.1. The names, addresses, and telephone numbers of all current Network Providers, and the total number of each type of provider, consistent with 42 C.F.R. § 422.111(h).

2.17.5.11.2. As applicable, Network Providers with training in and experience treating:

2.17.5.11.2.1. Persons with physical disabilities, chronic illness, HIV/AIDS, and/or persons with serious mental illness;

2.17.5.11.2.2. Homeless persons;

2.17.5.11.2.3. Persons who are deaf or hard-of-hearing and blind or visually impaired;

2.17.5.11.2.4. Persons with co-occurring disorders; and

2.17.5.11.2.5. Other conditions.

2.17.5.11.3. For Network Providers that are health care professionals or non-facility based and, as applicable, for facilities and facility-based Network Providers, office hours, including the names of any Network Provider sites open after 5:00 p.m. (Pacific Time) weekdays and on weekends;

2.17.5.11.4. As applicable, whether the health care professional or non-facility based Network Provider has completed cultural competence training;

2.17.5.11.5. For Network Providers that are health care professionals or non-facility based and, as applicable, for facilities and facility-based Network Provides, licensing information, such as license number or National Provider Identifier;

2.17.5.11.6. Whether the Network Provider has specific accommodations for people with physical disabilities, such as wide entry, wheelchair access, accessible exam rooms and tables, lifts, scales, bathrooms and stalls, grab bars, or other accessible equipment;

2.17.5.11.7. Whether the Network Provider is accepting new patients as of the date of publication of the directory;

2.17.5.11.8. Whether the Network Provider is on a public transportation route;

2.17.5.11.9. Any languages other than English, including ASL, spoken by Network Providers or offered by skilled medical interpreters at the provider's site;

2.17.5.11.10. As applicable, whether the Network Provider has access to language line interpreters;

2.17.5.11.11. For Behavioral Health Providers, training in and experience treating trauma, child welfare, and substance use;

2.17.5.11.12. A description of the roles of the PCP and ICT and the process by which Enrollees select and change PCPs.

2.17.5.12. The directory must include, at a minimum, the following information for all pharmacies in the Contractor's Pharmacy Network:

2.17.5.12.1. The names, addresses, and telephone numbers of all current Network Providers and pharmacies; and

2.17.5.12.2. Instructions for the Enrollee to contact the Contractor's toll-free Enrollee services telephone line (as described in Section 2.12.2.1) for assistance in finding a convenient pharmacy.

2.18. Financial Requirements

2.18.1. Financial Viability

2.18.1.1. As specified in the DHCS Request for Solutions procurement, the Contractor must meet and maintain financial viability/standards compliance for each of the following elements:

2.18.1.1.1. Minimum Required Tangible Net Equity

2.18.1.1.1.1. Contractor at all times shall be in compliance with the Tangible Net Equity (TNE) requirements in accordance with 28 CCR 1300.76. If the Contractor does not meet TNE in a given period, the CMT shall have the power and authority to take one or more of the following sanctions against the Contractor for non-compliance:

2.18.1.1.1.1.1. Require the Contractor to submit a Corrective Action Plan within thirty (30) days of request by the CMT;

2.18.1.1.1.1.2. Appointment of temporary management if the Contractor has repeatedly failed to meet the contractual requirements or applicable federal and State law or regulation. The Contractor cannot delay appointment of temporary management to provide a hearing before appointment. Temporary management will not be terminated until DHCS determines that Contractor's sanctioned behavior will not recur; and

2.18.1.1.1.1.3. Take other appropriate action as determined necessary by DHCS.

2.18.1.1.2. Contractor must provide assurances satisfactory to the State showing that its provision against the risk of financial instability is adequate to ensure that its Enrollees will not be liable for the entity's

debts if the entity becomes insolvent. Contractor shall demonstrate fiscal soundness and assumption of full financial risk in accordance with 28 CCR 1300.75.1.

2.18.2. Administrative costs

2.18.2.1. Contractor's administrative costs shall not exceed the guidelines established under 28 CCR section 1300.78.

2.18.2.2. Standards of Organization and Financial Soundness

2.18.2.2.1. Contractor shall maintain an organizational structure sufficient to conduct the proposed operations and ensure that its financial resources are sufficient for sound business operations in accordance with 28 CCR 1300.67.3, 1300.75.1, 1300.76.3, 1300.77.1, 1300.77.2, 1300.77.3, 1300.77.4, and Health and Safety Code Section 1375.1.

2.18.2.3. Working Capital Requirements

2.18.2.3.1. Contractor shall maintain a working capital and current ratio in accordance with 22 CCR 53864, which requires a TNE as defined in Title 28, Section 1300.76, or one of the following:

2.18.2.3.1.1. Current ratio of at least 1:1, or prior demonstration that the Contractor is now meeting financial obligations on a timely basis and has been doing so for at least the preceding two (2) years, or evidence that sufficient noncurrent assets, which are readily convertible to cash, are available to achieve an equivalent working capital ratio of 1:1, if the noncurrent assets are considered current; or

2.18.2.3.1.2. Demonstration through its history of plan operations that the plan's arrangements for health care are financially sound, and provide for the achievement and maintenance of a positive cash flow, including provisions for retirement of

existing and proposed indebtedness, or enrollment growth.

2.18.2.3.2. The Contractor receiving Cal MediConnect enrollment, must demonstrate and maintain adequate working capital as required in California Health and Safety Code Section 1375.1, which requires consideration of:

2.18.2.3.2.1. The financial soundness of the Contractor's arrangements for Covered Services and the schedule of rates and charges used by the Contractor;

2.18.2.3.2.2. The adequacy of working capital; and

2.18.2.3.2.3. Arrangements with providers for the provision of Covered Services.

2.18.3. Financial Stability

2.18.3.1. Throughout the term of the Contract, the Contractor must:

2.18.3.1.1. Remain financially stable;

2.18.3.1.2. Maintain adequate protection against insolvency in an amount determined by the DMHC as described in Title 28, CCR, Section 1300.75.1.

2.18.3.1.3. Demonstrate fiscal soundness and assumption of full financial risk in accordance with 28 CCR 1300.75.1 as follows:

2.18.3.1.3.1. Demonstrate through its history of operations and through projections, (which shall be supported by a statement as the facts and assumptions upon which they are based) that the Contractor's arrangements for health care services and the schedule of its rates and charges are financially sound, and provide for the achievement and maintenance of a positive cash flow, including provisions for retirement of existing and proposed indebtedness; and

Back to Item
Back to Agenda
Back to Agenda

2.18.3.1.3.2. Attest that the Contractor's arrangements for Covered Services and the schedule of its rates and charges are financially sound, and provide for the achievement and maintenance of a positive cash flow, including provisions for retirement of existing and proposed indebtedness.

2.18.3.1.4. Demonstrate that its working capital is adequate, including provisions for contingencies;

2.18.3.1.5. Demonstrate an approach to the risk of insolvency which allows for the continuation of benefits for the duration of the Contract period for which payment has been made, the continuation of benefits to subscribers and Enrollees who are confined on the date of insolvency in an in-patient facility until their discharge, and payments to unaffiliated providers for services rendered; and

2.18.3.1.6. Obtain insurance or make other arrangements:

2.18.3.1.6.1. For the cost of providing to any Enrollee covered health care services the aggregate value of which exceeds $5,000 in any year;

2.18.3.1.6.2. For the cost of Covered Services provided to its Enrollees other than through the Contractor because medical necessity required their provision before they could be secured through the Contractor; and

2.18.3.1.6.3. For not more than ninety percent (90%) of the amount by which its costs for any of its fiscal years exceed one hundred fifteen percent (115%) of its income for such fiscal year.

2.18.4. Insolvency Reserve

2.18.4.1. The insolvency reserve shall have the same definition as minimum required TNE (see 2.18.1.1.1). The minimum TNE is defined by Title 28, CCR, Section 1300.76.

2.18.4.2. According to Title 28, CCR, Section 1300.76(e), California defines TNE as net equity reduced by the value assigned to intangible assets including, but not limited to, goodwill; going concern value; organizational expense; starting-up costs; obligations of officers, directors, owners, or affiliates which are not fully secured, except short-term obligations of affiliates for goods or services arising in the normal course of business which are payable on the same terms as equivalent transactions with non-affiliates and which are not past due; long term prepayments of deferred charges, and non-returnable deposits.

2.19. Data Submissions, Reporting Requirements, and Surveys

2.19.1. General Requirements for Data. The Contractor must provide and require its First Tier, Downstream and Related Entities to provide:

2.19.1.1. All information CMS and DHCS require under the Contract related to the performance of the Contractor's responsibilities, including non-medical information for the purposes of research and evaluation;

2.19.1.2. Any information CMS and DHCS require to comply with all applicable federal or State laws and regulations; and

2.19.1.3. Any information CMS or DHCS require for external rapid cycle evaluation including program expenditures, service utilization rates, rebalancing from institutional to community settings, Enrollee satisfaction, Enrollee complaints and Appeals and enrollment/disenrollment rates.

2.19.2. General Reporting Requirements. The Contractor shall:

2.19.2.1. Submit to DHCS all applicable Medi-Cal reporting requirements in compliance with 42 C.F.R. § 438.602-606.

2.19.2.2. Submit to CMS applicable reporting requirements in compliance with 42 C.F.R. §§ 422.516, 423.514, 438.604, and 438.606.

2.19.2.3. Submit to CMS and DHCS all applicable MMP reporting requirements.

2.19.2.4. Submit to CMS and DHCS all required data in accordance with the specifications, templates and time frames described in this Contract.

2.19.2.5. Report HEDIS, as well as measures related to Long-Term Services and Supports. HEDIS, HOS, and CAHPS measures will be reported consistent with Medicare requirements for HEDIS, plus additional Medi-Cal measures required by DHCS. All existing Part D metrics will be collected as well. Such measures shall include a combined set of core measures that the Contractor must report to CMS and DHCS.

2.19.2.6. Report rates for an under/over-utilization monitoring measure set based upon selected HEDIS use of service measures or any other standardized or DHCS-developed utilization measures selected by DHCS.

2.19.2.7. Submit additional reporting requirements as specified throughout this Contract, relevant regulation or law, or as provided through guidance.

2.19.2.8. Submit to CMS and DHCS all required reports and data in accordance with the specifications, templates, and time frames described in this Contract, unless otherwise directed or agreed to by CMS and DHCS.

2.19.2.9. Submit at the request of CMS or DHCS additional ad hoc or periodic reports or analyses of data related to the Contract.

2.19.2.10. Pursuant to 42 C.F.R. § 438.3(g), comply with any reporting requirements on Provider Preventable Conditions in the form and frequency as may be specified by DHCS in accordance with applicable DPL(s) as indicated in Section 2.5.1.

2.19.2.11. Submit to DHCS Part D subcontractor conflict of interest letters on an annual basis. For Part D PDE data requests, securing and submitting appropriate letter from the First Tier, Downstream Entity to address potential conflicts of interests for First Tier, Downstream Entity users that may be affiliated with Part D Contractor sponsors. Letters should indicate either (a) no affiliation or, (b) if there is affiliation,

how the data will be kept separate and secure from Part D Contractor plan operations.

2.19.3. Management Information Systems Capability. The Contractor shall:

2.19.3.1. Maintain Information Systems that will enable the Contractor to meet all of DHCS's requirements as outlined in this Contract. The Contractor's Systems shall be able to support current DHCS requirements, and any future IT architecture or program changes. Such requirements include, but are not limited to, the following DHCS standards:

2.19.3.1.1. The capability to capture, edit, and utilize various data elements for both internal management use as well as to meet the data completeness, timeliness, reasonability, and accuracy requirements of DHCS's Encounter Data submission. Contractor shall have and maintain a System that provides, at a minimum:

2.19.3.1.1.1. Eligibility data,

2.19.3.1.1.2. Information of Enrollees enrolled in Contractor's plan,

2.19.3.1.1.3. Provider claims status and payment data,

2.19.3.1.1.4. Health care services delivery Encounter Data,

2.19.3.1.1.5. Provider Network information, and

2.19.3.1.1.6. Financial information, as specified by DHCS.

2.19.3.2. Processes that support the interactions between financial, eligibility; provider; encounter claims; quality management/QI/utilization; and report generation subsystems. The interactions of the subsystems must be compatible, efficient and successful.

2.19.3.3. Ensure a secure, HIPAA-compliant exchange of Enrollee information between the Contractor and DHCS and any other entity deemed appropriate by DHCS. Such files shall

be transmitted to DHCS through secure FTP, HTS, or a similar secure data exchange as determined by DHCS;

2.19.3.4. Develop and maintain a website that is accurate and up-to-date, and that is designed in a way that enables Enrollees and providers to quickly and easily locate all relevant information. If directed by DHCS, establish appropriate links on the Contractor's website that direct users back to the DHCS website portal; and,

2.19.3.5. The Contractor shall cooperate with DHCS in its efforts to verify the accuracy of all Contractor data submissions to DHCS.

2.19.3.5.1. The Contractor shall conform to HIPAA compliant standards for data management and information exchange.

2.19.3.5.2. The Contractor shall demonstrate controls to maintain information integrity.

2.19.3.5.3. The Contractor shall maintain appropriate internal processes to determine the validity and completeness of data submitted to DHCS.

2.19.4. Accepting and Processing Assessment Data

2.19.4.1. System Access Management and Information Accessibility Requirements

2.19.4.1.1. The Contractor shall make all systems and system information available to authorized CMS, DHCS and other agency staff as determined by CMS or DHCS to evaluate the quality and effectiveness of the Contractor's data and systems.

2.19.4.1.2. The Contractor is prohibited from sharing or publishing CMS or DHCS data and information without prior written consent from CMS or DHCS.

2.19.5. System Availability and Performance Requirements

2.19.5.1. The Contractor shall ensure that its Enrollee and provider web portal functions and phone-based functions are

available to Enrollees and Providers twenty-four (24) hours a day, seven (7) days a week.

2.19.5.2. The Contractor shall draft an alternative plan that describes access to Enrollee and provider information in the event of system failure. Such plan shall be contained in the Contractor's Continuity of Operations Plan (COOP) and shall be updated annually and submitted to DHCS upon request. In the event of system failure or unavailability, the Contractor shall notify DHCS upon discovery and implement the COOP immediately.

2.19.5.3. The Contractor shall preserve the integrity of Enrollee-sensitive data that resides in both a live and archived environment.

2.20. Encounter Reporting

2.20.1. The Contractor must meet any diagnosis and encounter reporting requirements that are in place for Medicare Advantage plans and Medi-Cal managed care organizations. Furthermore, the Contractor's systems shall generate and transmit Encounter Data files to CMS according to additional specifications as shall be provided by CMS and DHCS and updated from time to time. CMS and DHCS will provide technical assistance to the Contractor for developing the capacity to meet encounter reporting requirements.

2.20.2. Encounter Data Submission

2.20.2.1. Contractor shall implement policies and procedures for ensuring the submission of complete, timely, reasonable, and accurate Encounter Data for all services for which Contractor has incurred any financial liability, whether directly or through subcontracts or other arrangements.

2.20.2.2. Contractor shall require First Tier, Downstream and Related Entities and non-contracting providers to provide claims and Encounter Data to Contractor, which allow Contractor to meet its administrative functions and the requirements set forth in this section. Contractor shall have in place mechanisms, including edits and reporting systems sufficient to assure Encounter Data is complete, timely, reasonable, and accurate prior to submission to CMS.

2.20.2.3. Contractor shall submit complete, timely, reasonable, and accurate Encounter Data to CMS no less than monthly in the form and manner specified by DHCS and CMS. CMS will forward Encounter Data directly to the State.

2.20.2.4. Contractor shall submit Encounter Data that is at a minimum standard for completeness and accuracy as defined by CMS and DHCS. The Contractor must also correct and resubmit denied encounters as necessary.

2.20.2.5. A percentage of the monthly capitation payments will be withheld as described in Section 4.8.1.

3. CMS and DHCS Responsibilities

3.1. Contract Management

3.1.1. Administration. CMS and DHCS will:

3.1.1.1. Designate a CMT that will include at least one (1) contract officer from CMS and at least one (1) contract officer from DHCS authorized and empowered to represent CMS and DHCS about all aspects of the Contract. Generally, the CMS part of the team will include the State Lead from the Medicare Medicaid Coordination Office (MMCO), Regional Office lead from the Consortium for Medicaid and Children's Health Operations (CMCHO), and an Account Manager from the Consortium for Health Plan Operations (CMHPO). The CMS representative and DHCS representatives will act as liaisons between the Contractor and CMS and DHCS for the duration of the Contract. The CMT will:

3.1.1.1.1. Monitor compliance with the terms of the Contract including issuance of joint notices of non-compliance/enforcement.

3.1.1.1.2. Coordinate periodic audits and surveys of the Contractor;

3.1.1.1.3. Receive and respond to complaints;

3.1.1.1.4. Conduct regular meetings with the Contractor;

3.1.1.1.5. Coordinate requests for assistance from the Contractor and assign CMS and DHCS staff with appropriate expertise to provide technical assistance to the Contractor;

3.1.1.1.6. Make best efforts to resolve any issues applicable to the Contract identified by the Contractor, CMS, or DHCS;

3.1.1.1.7. Inform the Contractor of any discretionary action by CMS or DHCS under the provisions of the Contract;

3.1.1.1.8. Coordinate review of marketing materials and procedures;

3.1.1.1.9. Coordinate review of Grievance and Appeals data, procedures; and

3.1.1.1.10. Review, approve, and monitor the Contractor's outreach and orientation materials and procedures.

3.1.1.2. Review, approve, and monitor the Contractor's complaint and Appeals procedures;

3.1.1.3. Apply one or more of the sanctions provided in Section 5.3.13, including termination of the Contract in accordance with Section 5.5, if CMS and DHCS determine that the Contractor is in violation of any of the terms of the Contract stated herein;

3.1.1.4. Conduct site visits as determined necessary by CMS and DHCS to verify the accuracy of reported data; and

3.1.1.5. Coordinate the Contractor's external quality reviews conducted by the EQRO.

3.1.2. Performance Evaluation. CMS and DHCS will, at their discretion:

3.1.2.1. Evaluate, through inspection or other means, the Contractor's compliance with the terms of this Contract, including but not limited to the reporting requirements in Sections 2.18 and 2.19, and the quality, appropriateness, and timeliness of services performed by the Contractor and its Provider Network. CMS and DHCS will provide the Contractor with the written results of these evaluations;

3.1.2.2. Conduct periodic audits of the Contractor, including, but not limited to an annual independent external review and an annual site visit;

3.1.2.3. Conduct annual Enrollee surveys and provide the Contractor with written results of such surveys.

3.2. Enrollment and Disenrollment Systems

3.2.1. CMS and DHCS will maintain systems to provide:

3.2.1.1. Enrollment and disenrollment information to the Contractor;

3.2.1.2. Continuous verification of eligibility status;

3.2.1.3. Identification of individuals determined as at risk or potentially at risk for abuse or overuse of specified prescription drugs per 42 C.F.R. §§ 432.100 and 423.153(f); and

3.2.1.4. For counties operating under COHS, DHCS will facilitate the Contractor in its responsibility for enrollment and disenrollment activities for Cal MediConnect.

3.2.2. Customer Service Team (CST) Enrollment Broker. DHCS or its designee shall assign a staff person(s) who shall have responsibility to:

3.2.2.1. Develop generic materials to assist potential Enrollees in choosing whether to enroll in Cal MediConnect. Said materials shall present the Cal MediConnect in an unbiased manner to potential Enrollees eligible to select a Cal MediConnect Plan. DHCS may collaborate with the Contractor in developing Cal MediConnect-specific materials;

3.2.2.2. Present the Cal MediConnect in an unbiased manner to potential Enrollees or those seeking to transfer from one Cal MediConnect to another. Such presentation(s) shall ensure that Enrollees are informed prior to enrollment of the following:

3.2.2.2.1. The rights and responsibilities of participation in Cal MediConnect;

3.2.2.2.2. The nature of the Contractor's care delivery system, including, but not limited to the Provider Network; and the HRA, and the ICT;

3.2.2.2.3. Orientation and other Enrollee services made available by the Contractor;

3.2.2.3. Ensure that Enrollees are informed at the time of enrollment or transfer of their right to terminate their enrollment voluntarily at any time, unless otherwise provided by federal law or waiver;

3.2.2.4. Be knowledgeable about the Contractor's policies, services, and procedures; and

3.2.2.5. At its discretion, develop and implement processes and standards to measure and improve the performance of the Enrollment Broker staff. The State shall monitor the activities of the Enrollment Broker.

4. Payment and Financial Provisions

4.1. General Financial Provisions

4.1.1. Capitation Payments. CMS and DHCS will each contribute to the total capitation payment. CMS and DHCS will each make monthly payments to the Contractor for their portion of the capitated rate, in accordance with the rates of payment and payment provisions set forth herein and subject to all applicable federal and State laws, regulations, rules, billing instructions, and bulletins, as amended. The Contractor will receive three (3) monthly payments for each Enrollee: one (1) amount from CMS reflecting coverage of Medicare Parts A/B services (Medicare Part A/B Component), one (1) amount from CMS reflecting coverage Medicare Part D services (Medicare Part D Component), and a third amount from DHCS reflecting coverage of Medi-Cal services (Medi-Cal Component).

4.1.1.1. On a regular basis, CMS will provide DHCS with the Contractor-level payment information in the Medicare Plan Payment Report. The use of such information by DHCS will be limited to financial monitoring, performing financial audits, and related activities, unless otherwise agreed to by CMS and the Contractor. On a regular basis, DHCS will also provide to CMS Contractor-level payment information including the Medicaid Capitation Payments.

4.1.2. Demonstration Year Dates. Capitation Rate updates will take place on January 1st of each calendar year for the Medicare components of the rates, with changes to savings percentages applicable on a Demonstration Year basis, as follows. Rate updates for the Medi-Cal component of the rates will take place at least once each calendar year. CMS and DHCS will provide the Contractor with a rate report at least annually to show applicable rates for the upcoming calendar year.

4.1.2.1. Demonstration Year Dates

Figure 4.1: Demonstration Year Dates

Demonstration Year	Calendar Dates
1	April 1, 2014 – December 31, 2015
2	January 1, 2016 – December 31, 2016
3	January 1, 2017 – December 31, 2017
4	January 1, 2018 – December 31, 2018
5	January 1, 2019 – December 31, 2019

Demonstration Year	Calendar Dates
6	January 1, 2020 – December 31, 2020
7	January 1, 2021 – December 31, 2021
8	January 1, 2022 – December 31, 2022

4.2. Capitated Rate Structure

4.2.1. Underlying Rate Structure for the Medi-Cal Component

4.2.1.1. The Medi-Cal component will be paid as a single, blended rate that takes into account the relative risk of the population actually enrolled in the Contractor's Cal MediConnect Plan and is weighted accordingly.

4.2.1.1.1. For Demonstration Years 1-3, the population will be categorized into four risk adjustment population categories:

4.2.1.1.1.1. Institutionalized: Enrollees in long-term care aid codes and/or residing in a long-term care facility for ninety (90) or more days.

4.2.1.1.1.2. HCBS High: Enrollees identified as high utilizers of home and community-based services. These are Enrollees who meet one (1) or more of the following criteria:

4.2.1.1.1.2.1. Enrollees who receive CBAS.

4.2.1.1.1.2.2. Enrollees who are clients of MSSP sites

4.2.1.1.1.2.3. Enrollees who receive IHSS and are classified under the IHSS program as "severely impaired" (SI).

4.2.1.1.1.3. HCBS Low: Enrollees identified as low utilizers of home and community-based services. These Enrollees are IHSS recipients and classified under the IHSS program as "not severely impaired."

Back to Item

Back to Agenda

Back to Agenda

4.2.1.1.1.4. Community Well: All other Enrollees living in the community with no Medi-Cal covered HCBS services. These are all other Enrollees who are not resident in long-term care facilities and do not utilize CBAS, MSSP, or IHSS services.

4.2.1.1.2. For Demonstration Years 4-8, the population will be categorized into four risk adjustment population categories:

4.2.1.1.2.1. Institutionalized: Enrollees in long-term care aid codes and/or residing in a long-term care facility for ninety (90) or more days.

4.2.1.1.2.2. CBAS and MSSP: Enrollees identified as utilizers of CBAS or MSSP services. These are Enrollees who meet one (1) or more of the following criteria:

4.2.1.1.2.2.1. Enrollees who receive CBAS.

4.2.1.1.2.2.2. Enrollees who are clients of MSSP sites.

4.2.1.1.2.3. IHSS Only (no CBAS or MSSP): Enrollees identified as utilizers of IHSS services, who do not receive CBAS and are not clients of MSSP sites.

4.2.1.1.2.4. Community Well: All other Enrollees living in the community with no Medi-Cal covered HCBS services. These are all other Enrollees who are not resident in long-term care facilities and do not utilize CBAS, MSSP, or IHSS services.

4.2.1.1.3. The State may, in consultation with CMS, modify the composition of the risk adjustment population categories upon its determination that such changes are appropriate. The State will inform the Contractor of any changes prior to modifying the risk adjustment population categories.

4.2.1.2. The Medi-Cal component will utilize the risk adjustment methodology in the contracts that support the 1115(a) demonstration for the eligible population.

4.2.1.2.1. The Medi-Cal component will employ the population categories described above. Relative cost factors (RCF) will be established for each of the four (4) populations based on evaluation of the per member per month (PMPM) for each of the individual population groups, relative to the total Medi-Cal rate. As the total Medi-Cal rate incorporates incremental changes in population distribution (e.g. fewer Enrollees in institutional settings, increase in HCBS low for higher cost community well that may be more appropriately served by HCBS benefits), the calculation of the RCFs is also impacted by the assumed population distribution.

4.2.1.2.2. Contractor specific relative mix factors (RMF) will be computed through the use of RCFs and the proportion of each of the population category Enrollees in the plan. The RMFs will be computed by multiplying each Contractor's distribution of each of the population categories with the established RCFs to calculate a weighted average Contractor-specific RMF.

4.2.1.2.3. Contractor RMFs will be multiplied by the established Capitation Rate to determine the risk-adjusted Medi-Cal component payment rate.

4.2.1.3. The risk adjustment process will include three (3) distinct phases to address the stability of enrollment and to establish appropriate financial incentives for Contractor.

4.2.1.3.1. Phase I: The risk adjustment methodology will be applied monthly and retroactively to match actual enrollment into the Contractor's Cal MediConnect Plan. This phase will continue through each county's phase-in enrollment period for a minimum of one (1) year and will end at the start of the next fiscal quarter. For example, in a county with a 12-month phase-in that begins enrollment

in April 2014, this phase would last through the end of March 2015. For the county of San Mateo, due to the different enrollment phasing as described in Appendix K, there will be no Phase I.

4.2.1.3.2. Phase II: This phase will be for one (1) fiscal quarter. The risk adjustment methodology will be prospectively applied at the start of the quarter. Weighting the risk categories will be based on the preceding month to the quarter enrollment snapshot, which will be available after the quarter ends and will be retroactively applied to that period. For example, in a county with a 12-month phase-in that begins enrollment in April 2014, this Phase II would be applicable for the fiscal quarter of April 2015 through June 2015. Enrollment data from March 2015 would be utilized although the rate update would not occur until several months after the quarter to ensure data availability. For the county of San Mateo, due to the different enrollment phasing as described in Appendix K, the county will immediately enter Phase II of the risk adjustment. The Phase II for San Mateo will be done according to a separate timeline, such that the risk adjustment methodology will be prospectively applied at the start of the Demonstration in April 2014 and again for a second quarter from July 2014 through September 2014 after which San Mateo will move into Phase III.

4.2.1.3.3. Phase III: Contractor rates will be based on a targeted relative mix of the population and will not be adjusted during the year. The first year of this phase will be the remaining period in the calendar year. Phase III for the county of San Mateo will begin with the fiscal year starting October 2014. The targeted relative mix of the population for the year would be based on enrollment in the plan leading up to the start of the phase III year and will include an assumed shift in population mix.

4.2.1.3.3.1. Specific to Phase III, a targeted relative mix will be projected by the State and its actuaries. This mix will be designed to be achievable by the Contractor, based on assumptions about the plan's ability to promote community services and prevent or delay institutional placement.

4.2.1.3.3.2. If the population mix for the Contractor for the year results in a greater than 2.5% impact to the Medicaid component of the rate paid as compared to the rate that would have been paid based on the actual mix, then the Contractor and Medicaid would share equally in any cost increases/decreases beyond the 2.5%. Actual plan gain or loss does not factor into this calculation.

4.2.1.4. With the structure as described above, DHCS and its actuaries will establish actuarially sound Capitation Rates for the contracts that support the 1115(a) demonstration program for beneficiaries in the target population for Cal MediConnect. These rates will be consistent with 42 C.F.R. § 438.4 and reviewed by the CMS Regional Office. The CMS approved rates will serve as the baseline Medicaid costs.

4.2.1.5. Upon request prior to and throughout the Demonstration, the State and its actuaries will provide to CMS the underlying data for the rate calculations associated with the contracts that support the 1115(a) demonstration.

4.2.1.6. Medicaid payment rates will be determined by applying annual savings percentages in Figure 4.2 to the applicable Capitation Rates for the contracts that support the 1115(a) demonstration.

4.2.1.7. As allowed under the rates for the contracts that support the 1115(a) demonstration, DHCS and its actuaries will calculate a range of actuarially sound capitation payment rates including lower bound and upper rates. The application of the savings percentage will apply to all rates, including any prospective or retroactive adjustments, within actuarially sound rate range.

Back to Item
Back to Agenda
Back to Agenda

4.2.1.8. Consistent with the Medicare rate updates at 4.2.2.2.6, the impact of the shift of nursing facility residents from MLTSS to Cal MediConnect in Los Angeles and Orange counties beginning in 2017 will be considered during Medicaid rate development for 2017 and subsequent years, as applicable.

4.2.2. Underlying Rate Structure for Medicare Components of the Capitation Rate.

4.2.2.1. Medicare will pay the Contractor a monthly capitation amount for the Medicare Parts A/B services (the Medicare A/B Component), risk adjusted using the Medicare Advantage CMS-HCC Model and the CMS-HCC ESRD Model, except as specified in Section 4.5. Medicare will also pay the Contractor a monthly capitation amount for Medicare Part D services, risk adjusted using the Part D RxHCC Model (the Medicare Part D Component).

4.2.2.2. Medicare A/B Component

4.2.2.2.1. The Medicare baseline spending for Parts A/B services are a blend of the Medicare FFS standardized county rates and the Medicare Advantage projected payment rates for each year, weighted by the proportion of the enrolled population enrolled in each program prior to the Demonstration. The FFS county rates will generally reflect amounts published with the April Medicare Advantage Final Rate Announcement, adjusted to fully incorporate more current hospital wage index and physician geographic practice cost index information; in this Demonstration, this adjustment will be fully applied to the FFS county rates in 2014, but the adjustment will otherwise use the same methodologies and timelines used to make the analogous adjustments in Medicare Advantage. CMS may also further adjust the Medicare FFS standardized county rates as necessary to calculate accurate payment rates for the Demonstration. To the extent that the published FFS county rates do not conform with current law in effect for Medicare during an applicable payment month, and to the extent that such nonconformance would have a significant

Back to Item
Back to Agenda
Back to Agenda

fiscal impact on the Demonstration, CMS will update the baseline (and therefore the corresponding payment rate) to calculate and apply an accurate payment rate for such month. Such update may take place retroactively, as needed.

4.2.2.2.2. Separate baselines will exist for Enrollees meeting the Medicare ESRD criteria. For Enrollees with ESRD in the dialysis or transplant status phases, the Medicare Parts A/B baseline will be the ESRD dialysis state rate. For Enrollees in the functioning graft status phase, the Medicare Parts A/B baseline will be the Medicare Advantage 3.5% bonus county rate (benchmark) for the applicable county as of January 2015 (for CY 2014 the baseline was the 3-star county rate).

4.2.2.2.3. Both baseline spending and payment rates under the Demonstration for Medicare Parts A/B services will be calculated as PMPM standardized amounts for each county participating in the Demonstration for each year. Enrollee risk scores will be applied to the standardized rates at the time of payment.

4.2.2.2.4. The Medicare A/B Component will be updated annually consistent with annual FFS estimates and Medicare Advantage rates released each year with the annual rate announcement.

4.2.2.2.5. If an Enrollee elects to receive the Medicare hospice benefit, the Enrollee may remain in the Cal MediConnect Plan, but will obtain the hospice service through the Medicare FFS benefit and the Cal MediConnect Plan would no longer receive the Medicare Parts A/B component for that Enrollee as described in this section. Medicare hospice services and hospice drugs and all other original Medicare services would be paid for under Medicare FFS. Cal MediConnect Plans and providers of hospice services would be required to coordinate these services with the rest of the Enrollee's care. Cal MediConnect Plans would

continue to receive the Medicare Part D component for all non-hospice covered drugs. Election of hospice services does not change the Medi-Cal component unless otherwise specified in the DHCS 1115(a) demonstration.

4.2.2.2.6. Beginning January 2017, CMS will make an outlier adjustment for the Medicare A/B payments for non-ESRD beneficiaries served by the Contractor in Los Angeles and Orange Counties.

4.2.2.2.6.1. This adjustment will reflect the historical ratio of actual Medicare A/B FFS costs for the long term institutional (LTI) population in this county/counties to the predicted costs for this population, based on the standardized FFS county rates and the HCC risk adjustment model. This payment adjustment will be made retroactively after the end of each demonstration year, beginning in CY 2017 and going forward.

4.2.2.2.6.2. The outlier adjustment is a multiplicative factor equal to 95% of [the historical ratio minus 1 (one)] times the predicted rate for a baseline period. Specifically, the adjustment would be equal to: (the outlier adjustment percentage of 95%) times (this historical ratio from 4.2.2.2.6.1 minus 1(one)) times (the standardized FFS county rate for the applicable calendar year for the applicable county) times (the average final HCC risk score for the applicable calendar year for the population that meets the criteria in 4.2.2.2.6.3) times (the number of member months for the applicable calendar year associated with the population that meets the criteria in 4.2.2.2.6.3).

4.2.2.2.6.3. This adjustment is limited to those new Cal MediConnect members who newly enroll in the CalMediConnect demonstration as of January 1, 2017, or later; were in Medicare LTI status at the time of their Cal

MediConnect enrollment; and were in Medicare FFS at the time of their Cal MediConnect enrollment.

4.2.2.2.6.4. Plans must initiate and report on corresponding quality improvement activities focused on Cal MediConnect members in Medicare LTI status per Section 2.16.3.2.7.

4.2.2.3. Medicare Part D

4.2.2.3.1. The Medicare Part D component is comprised of the Part D direct subsidy set at the Part D national average monthly bid amount (NAMBA) for the calendar year, as well as CMS-estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts; these payments will be reconciled after the end of each payment year in the same manner as for all Part D sponsors.

4.2.2.3.2. The monthly Medicare Part D component for an Enrollee can be calculated by multiplying the Part D NAMBA by the RxHCC risk score assigned to the individual, and then adding to this the estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts.

4.2.3. Aggregate Savings Percentages

4.2.3.1. Aggregate savings percentages will be applied equally, as follows, to the baseline spending amounts for the Medicare A/B and Medi-Cal components of the capitated rate, provided that such savings percentages may be adjusted in accordance with Sections 4.2.3.2 herein.

4.2.3.2. Savings percentages will not be applied to the Part D Component of the rate. CMS will monitor Part D costs closely on an ongoing basis. Any material change in Part D costs relative to the baseline may be factored into future year savings percentages.

Figure 4.2: Savings Percentages

	Demonstration Year 1	Demonstration Year 2	Demonstration Years 3-8
Minimum Savings Percentages	**1.00%**	**2.00%**	**4.00%**
County Specific Interim Savings Percentages: the sum of the minimum savings percentages and the county-specific addition			
Los Angeles	+ 0.00%	+ 1.50%	+ 1.50%
Orange	+ 0.42%	+ 1.50%	+ 1.50%
Riverside	+ 0.22%	+ 1.50%	+ 1.14%
San Bernardino	+ 0.44%	+ 1.50%	+ 1.50%
San Diego	+ 0.23%	+ 1.50%	+ 1.10%
San Mateo	+ 0.47%	+ 0.33%	+ 0.00%
Santa Clara	+ 0.23%	+ 1.45%	+ 0.95%

4.2.3.3. Limited risk corridors will be applied as described in Sections 4.3 and 4.4 on a Contractor basis and be reconciled after application of any risk adjustment methodologies and any other adjustments, as described in Section 4.2.1.2.

4.2.3.3.1. Risk corridors will be reconciled as if the Contractor had received the full quality withhold payment.

4.2.3.3.2. The application of county-specific interim savings percentages in Section 4.2.3.1. establishes the initial Capitation Rates for purposes of the risk corridor calculation for Demonstration Years 1-3, as described in Section 4.3.

4.2.3.3.3. A limited one-sided risk corridor will apply for Demonstration Years 6-8, as described in Section 4.4.

4.3. Risk Corridors for Demonstration Years 1-3

4.3.1. General Provisions

4.3.1.1. Calculation of Gains and Losses: The risk-sharing arrangement described in this section of the Contract may result in payment by the State and CMS to the Contractor or by the Contractor to the State and CMS.

Back to Item
Back to Agenda
Back to Agenda

4.3.1.1.1. All payments to be made by the State and CMS to the Contractor or by the Contractor to the State and CMS will be calculated and determined jointly by the State and CMS.

4.3.1.1.2. All calculations, determined jointly by the State and CMS, will be based on the Contractor's reporting of Adjusted Service Expenditures and Adjusted Non-Service Expenditures, as required in Section 4.3.3 All financial reporting will be subject to review and/or audit at the State's and CMS' discretion. As applicable, all calculations will sum the Contractor's expenditures and revenues across all counties in which the Contractor operates.

4.3.1.1.3. CMS and the State will perform a final settlement of the payments made by the Contractor to CMS and the State, or by CMS and the state to the Contractor, as described in Section 4.3.3.1.

4.3.1.2. Two-sided risk corridors will apply for Demonstration Years 1-3.

4.3.1.3. Allowable Expenditures

4.3.1.3.1. CMS and the State shall jointly determine the Adjusted Service Expenditures and the Adjusted Non-Service Expenditures, based on Encounter Data, cost data, and financial reporting data (including the State's rate development template) submitted by the Contractor (as required by Section 4.3.3, and Section 2.17-2.19 of this Contract). CMS and the State reserve the right to audit Actual Service Expenditure and Actual Non-Service Expenditure data.

4.3.1.3.2. CMS, the State, and the Contractor agree that to the extent there are differences in expenditure data reported across various sources, including the encounter, cost, financial reporting, or other data submitted by the Contractor, CMS, the State and the Contractor will confer and make a good

Back to Item
Back to Agenda
Back to Agenda

faith effort to reconcile those differences before the calculation of the final settlement.

4.3.1.3.3. The review procedures may include a review of the Contractor's Encounter Data and/or audit, to be performed by the CMS and/or the State, or either party's authorized agents, to verify that all paid claims for Enrollees by the Contractor are for Covered Services and/or that provider reimbursement is not excessive. CMS and the State will jointly have the final decision on the resolution of any differences in the expenditure data reported.

4.3.1.3.4. The State and CMS reserve the right to adjust expenditures for services that are reimbursed at more than ten percent (10%) above the median reimbursement rate of all plans within a region. For the purposes of the risk corridor, the Regions are defined as the Northern Counties Region (San Mateo and Santa Clara Counties) and the Southern Counties Region (Los Angeles, Orange, Riverside, San Bernardino, and San Diego Counties).

4.3.1.3.5. The State and CMS reserve the right to adjust non-service expenditures that are greater than 125% of the median PMPM across all participating Contractors during the applicable Demonstration Year. Notwithstanding any contractual provision or legal right to the contrary, the Contractor agrees that there shall be no redress against CMS or the State for a determination to adjust or a failure to adjust expenditures for services of any Contractor.

4.3.2. Risk Corridor Parameters

4.3.2.1. The Demonstration will utilize a limited down-side risk corridor and a limited up-side risk corridor to include all Medicare A/B and Medicaid eligible Adjusted Service and Non-Service Expenditures. The risk corridors will be reconciled after the application of risk adjustment methodologies (e.g., CMS-HCC, Medicaid Relative Cost Factors and Relative Mix Factors), intergovernmental transfers, and as if all Contractors had received the full quality withhold payment.

4.3.2.1.1. Risk Corridor Share: The Medicare and Medicaid contributions to risk corridor payments or recoupments will be in proportion to their contributions to the Adjusted Interim Capitation Rate Revenue. Losses and gains will be determined using the approaches described in Section 4.3.2.1.3.

4.3.2.1.2. Adjusted Interim Capitation Rate Revenue and Adjusted Final Capitation Rate Revenue: As described in Section 4.2.3.1, the application of county-specific interim savings percentages in Figure 4-2, with the adjustments described in Section 4.3.2.1.6, establishes the Adjusted Interim Capitation Rate Revenue. The Adjusted Final Capitation Rate Revenue is the revenue, with the adjustments described under Section 4.3.2.1.6, that the Contractor would have received if the minimum savings percentages, rather that the county-specific interim savings percentages, were applied.

4.3.2.1.3. Definition of Gains/Losses: Gains and losses are defined as the Adjusted Interim Capitation Rate Revenue minus the Total Adjusted Expenditures, with positive figures defined as gains and negative figures defined as losses. The Adjusted Interim Capitation Rate Revenue and the Total Adjusted Expenditures will incorporate Contractor's revenue and expenditures across all counties in which the Contractor operates.

4.3.2.1.4. Down-Side Risk Corridor Payment/Recoupment

4.3.2.1.4.1. Losses will be compared to Contractor's underwriting profit/risk/contingency load. If losses exceed this amount, the difference of the loss less the underwriting profit/risk/contingency load shall be eligible for payment under the risk corridor. No payment shall be made for losses that are less than the underwriting profit/risk/contingency load.

Back to Item

Back to Agenda

Back to Agenda

4.3.2.1.4.2. First Band: For losses in excess of the underwriting profit/risk/contingency load, the State and CMS will make payment to the Contractor of sixty-seven percent (67%) of the loss, with the maximum CMS/State payment to the Contractor not exceeding the Adjusted Final Capitation Rate Revenue minus the Adjusted Interim Capitation Rate Revenue. The share of the payment made by the State and CMS will be as described in Section 4.3.2.1.1. All losses in excess of the CMS/State payment are the responsibility of the Contractor.

4.3.2.1.5. Up-Side Risk Corridor Payment/Recoupment: For gains, the following bands apply:

4.3.2.1.5.1. First Band: The first band is equal to the difference between the Adjusted Interim Capitation Rate Revenue and the Adjusted Final Capitation Rate Revenue. For the purposes of the up-side risk corridor, for Contractors in counties where the interim saving percentage is equal to the minimum savings percentage, for the purposes of the up-side risk corridor, the Adjusted Interim Capitation Rate Revenue shall be further modified by applying savings percentages of one and a half percent (1.5%) in Demonstration Year 1, three and a half percent (3.5%) in Demonstration Year 2 and 5.5% in Demonstration Years 3, where applicable, rather than one percent (1.0%), two percent (2.0%) and four percent (4.0%), respectively; this is determined by multiplying the initial Adjusted Interim Capitation Rate Revenue by (1 – the applicable 1.5%, 3.5% or 5.5% savings percentages above) / (1- Interim Savings Percentage).

4.3.2.1.5.1.1. For the portion of gains in the first band, no payment will be made by

Back to Item
Back to Agenda
Back to Agenda

the Contractor to the State and CMS.

4.3.2.1.5.2. Second Band: The second band is the same size as the first band. For the portion of gains in the second band, the Contractor will make payment to the State and CMS of fifty percent (50%) of this portion of the gain, with the share of the payment made to the State and CMS as described in Section 4.3.2.1.1.

4.3.2.1.5.3. Third Band: For the portion of gains greater than the upper limit of the second band, no payment will be made by the Contractor to the State and CMS.

Gain Band 2	Gains ≤ Band equal to size of *Gain Band 1*	50%	50%	(50%) * (Medicare A/B Percent of Rate)	(50%)*(Medi-Cal Percent of Rate)
Gain Band 3	Gains > Upper Limit of *Gain Band 2*	100%	0%	0%	0%

[1] Loss and gain reflected on an incremental basis. Gains in Gain Bands 3 still results in risk sharing reconciliation for the gain in Gain Band 2.

[2] All State Risk Sharing shall be treated as Medicaid expenditures eligible for FMAP.

[3] The Adjusted Interim Capitation Rate Revenue is modified for counties in which the Interim Savings Percentage equals the Minimum Savings Percentage.

4.3.3. Risk Sharing Settlement: CMS and the State shall determine a final settlement of payments made by the Contractor to CMS and the State, or by CMS and the State to the Contractor under this section. If any significant determinant of revenues or costs remains outstanding such that the timelines in this section do not apply, CMS and the State will establish reasonable timeframes for reporting payment and related final settlement timeframes.

4.3.3.1. Final settlement: CMS and the State shall determine a final settlement based on fifteen (15) months of claims run-out and an IBNR estimate.

4.3.3.1.1. For the purpose of the final settlement, the Contractor will jointly provide to CMS and the State the following within four hundred eighty (480) calendar days following the end of each applicable Demonstration Year, or within a timeline jointly agreed upon by CMS and the State. A complete and accurate report of Actual Non-Service Expenditures for Enrollees in the applicable Demonstration Year;

4.3.3.1.2. A complete and accurate report of Actual Service Expenditures, based on category of services, for Enrollees based on claims incurred for the applicable Demonstration Year, including fifteen (15) months of claims run-out;

4.3.3.1.3. The Contractor's best estimate of any claims incurred but not reported for claims run-out beyond fifteen (15) months and any IBNR completion factors by category of service;

4.3.3.1.4. A complete and accurate report of Part D revenue and expenditure, as required under 42 C.F.R. § 423.514(a)(1) of this Contract;

4.3.3.1.5. A complete and accurate report reflecting any recoveries from other payors outside of claims adjudication that are not reflected in the reported Actual Service Expenditures, including those pursuant to coordination of benefits, third party liability, rebates, supplemental payments,

Back to Item
Back to Agenda
Back to Agenda

adjustments in claims paid, adjustments from providers including adjustments to claims paid, and Enrollee contributions to care;

4.3.3.1.6. A complete and accurate report of net reinsurance costs that are included in the reported Actual Non-Service Expenditures;

4.3.3.1.7. Financial reports;

4.3.3.1.8. Encounter Data, as required under Section 2.19 of this Contract;

4.3.3.2. CMS and the State shall provide the Contractor with a final reconciliation under the risk corridor arrangement within five hundred ten (510) calendar days following the end of each applicable Demonstration Year, or within a timeline jointly agreed upon by CMS and the State. Any balance due between the Contractor and CMS and the State shall be paid within sixty (60) days of the Contractor receiving the final reconciliation from CMS and the State; and

4.3.3.3. The Contractor shall provide any additional information upon request from CMS and the State necessary to calculate Total Adjusted Expenditures.

4.4. One-sided risk corridors will be established for Demonstration Years 6-8

4.4.1. General Provisions

4.4.1.1. The Demonstration will utilize a one-sided risk corridor for Demonstration Years 6 through 8. The one-sided risk corridor is designed to limit the profits received by Cal MediConnect MMPs to a reasonable percentage of total revenue.

4.4.1.2. Calculation of Gains and Losses: The risk sharing arrangement described in this section of the Contract may result in payment by the Contractor to the State and CMS.

4.4.1.2.1. All payments made by the Contractor to the State and CMS will be calculated and determined jointly by the State and CMS.

4.4.1.2.2. All calculations, determined jointly by the State and CMS, will be based on the Contractor's reporting of Adjusted Non-Service Expenditures and Adjusted Service Expenditures, as required in Section 4.4.3. All financial reporting will be subject to review and/or audit at the State's and CMS' discretion. As applicable, all calculations will sum the Contractor's expenditures and revenues across all counties in which the Contractor operates.

4.4.1.2.3. CMS and the State will perform a final settlement of the payments made by the Contractor to CMS and the State, as described in Section 4.4.3.

4.4.1.3. Allowable Expenditures

4.4.1.3.1. CMS and the State shall jointly determine the Adjusted Service Expenditures and the Adjusted Non-Service Expenditures, based on Encounter Data, cost data, and financial reporting data (including the State's rate development template) submitted by the Contractor (as required by Section 4.4.3 and Section 2.17-2.19 of this Contract). CMS and the State reserve the right to audit Actual Service Expenditure and Actual Non-Service Expenditure data.

4.4.1.3.2. CMS, the State, and the Contractor agree that to the extent there are differences in expenditure data reported across various sources, including the encounter, cost, financial reporting, or other data submitted by the Contractor, CMS, the State and the Contractor will confer and make a good faith effort to reconcile those differences before the calculation of the final settlement. The review procedures may include a review of the Contractor's Encounter Data and/or audit, to be performed by the CMS and/or the State, or either party's authorized agents, to verify that all paid claims for Enrollees by the Contractor are for Covered Services and/or that provider reimbursement is not excessive. CMS and the State

Back to Item
Back to Agenda
Back to Agenda

will jointly have the final decision on the resolution of any differences in the expenditure data reported.

4.4.1.3.3. The State and CMS reserve the right to adjust expenditures for services that are reimbursed significantly above the median reimbursement rate of other comparable plans. The State and CMS reserve the right to adjust non-service expenditures that are greater than 125% of the median PMPM across all participating Contractors during the applicable Demonstration Year. The State and CMS will provide additional detail regarding the methodology for considering adjustments to expenditures in separate technical guidance. Notwithstanding any contractual provision or legal right to the contrary, the Contractor agrees that there shall be no redress against CMS or the State for a determination to adjust or a failure to adjust expenditures for services of any Contractor.

4.4.2. One-Sided Risk Corridor Parameters

4.4.2.1. The Demonstration will utilize a limited up-side risk corridor to include all Medicare A/B and Medicaid eligible Adjusted Service and Non-Service Expenditures. The risk corridors will be reconciled after the application of risk adjustment methodologies (e.g., CMS-HCC, Medicaid Relative Cost Factors and Relative Mix Factors), and intergovernmental transfers. The risk corridor will reflect the actual quality withhold payment received back by the Contractor.

4.4.2.1.1. Risk Corridor Share: The Medicare and Medicaid contributions to risk corridor payments will be in proportion to their contributions to the Adjusted Interim Capitation Rate Revenue. Losses and gains will be determined using the approaches described in Section 4.4.2.1.2.

4.4.2.1.2. Definition of Gains/Losses: Gains and losses are defined as the Adjusted Interim Capitation Rate Revenue minus the Total Adjusted Expenditures,

Back to Item
Back to Agenda
Back to Agenda

with positive figures defined as gains and negative figures defined as losses. The Adjusted Interim Capitation Rate Revenue and the Total Adjusted Expenditures will incorporate Contractor's revenue and expenditures across all counties in which the Contractor operates.

4.4.2.1.3. Up-Side Risk Corridor Payment/Recoupment: For gains, the following bands apply:

4.4.2.1.3.1. First Band: The Contractor will retain all of the gains that are equal to or less than five percent (5%) of the Adjusted Interim Capitation Rate Revenue received by the Contractor.

4.4.2.1.3.2. Second Band: DHCS/CMS and the Contractor will share that portion of the gains that is over five percent (5%) and less than or equal to seven percent (7%) of the Adjusted Interim Capitation Rate revenue received by the Contractor, with seventy-five percent (75%) retained by the Contractor and twenty percent (25%) paid to DHCS/CMS.

4.4.2.1.3.3. Third Band: DHCS/CMS and the Contractor will share that portion of the gains that is over seven percent (7%) and less than or equal to nine percent (9%) of the Adjusted Interim Capitation Rate revenue received by the Contractor, with fifty percent (50%) retained by the Contractor and fifty percent (50%) paid to DHCS/CMS.

4.4.2.1.3.4. Fourth Band: DHCS/CMS and the Contractor will share that portion of the gains that is over nine percent (9%) and less than or equal to twelve percent (12%) of the

Back to Item
Back to Agenda
Back to Agenda

Adjusted Interim Capitation Rate revenue received by the Contractor, with twenty-five percent (25%) retained by the Contractor and seventy-five percent (875%) paid to DHCS/CMS.

4.4.2.1.3.5. Fifth Band: DHCS/CMS will recoup the entire portion of the gains that exceeds twelve percent (12%) of the Adjusted Interim Capitation Rate Revenue received by the Contractor.

Figure 4-4 Demonstration Years 6-8 Risk Sharing Corridor Table (for illustrative purposes only)

Risk Corridor Band	**Incremental Gain[1]**	**% Contractor Gain Sharing**	**% State & CMS Gain Sharing**	**% CMS Gain Sharing**	**% State Gain Sharing**
Gain Band 1	Gains ≤ 5%	100%	0%	0%	0%
Gain Band 2	Gains >5% and ≤7%	75%	25%	(25%) * (Medicare A/B Percent of Rate)	(25%)*(Medi-Cal Percent of Rate)
Gain Band 3	Gains >7% and ≤9%	50%	50%	(75%) * (Medicare A/B Percent of Rate)	(75%)*(Medi-Cal Percent of Rate)
Gain Band 4	Gains >9% and ≤12%	25%	75%	(75%) * (Medicare A/B Percent of Rate)	(75%)*(Medi-Cal Percent of Rate)
Gain Band 5	Gains >12%	0%	100%	(100%) * (Medicare A/B Percent of Rate)	(100%)*(Medi-Cal Percent of Rate)

[1] Gain reflected on an incremental basis. Gains in Gain Band 5 still results in risk sharing reconciliation for the gain in Gain Bands 2-4.

4.4.3. Risk Sharing Settlement

4.4.3.1. CMS and the State shall determine final settlement of payments made by the Contractor to CMS and the State.

Back to Item
Back to Agenda
Back to Agenda

4.4.3.2. Data Submission. The Contractor shall submit to DHCS and CMS, in the form and manner prescribed by DHCS and CMS, the necessary data to calculate and verify the final settlement after the end of each applicable Demonstration Year.

4.4.3.3. In the event the Contractor qualifies to make both a risk corridor payment to CMS and DHCS, as well as an MLR remittance as described in Section 4.12.1, the risk corridor calculation will be net of an MLR remittances.

4.5. Medicare Risk Adjustment Methodology

4.5.1. Medicare Parts A/B: The Medicare A/B Component will be risk adjusted based on the risk profile of each Enrollee. Except as specified below, the existing Medicare Advantage CMS-HCC and CMS-HCC ESRD risk adjustment methodology will be used for Cal MediConnect.

4.5.2. Coding Intensity Adjustment Factor

4.5.2.1. CMS will calculate calendar year 2014 rates as if the coding intensity adjustment factor were not applied, to reflect the fact that virtually all Enrollees were receiving care in FFS Medicare and thus there should be no coding pattern differences for which to adjust. Operationally CMS will still apply the coding intensity adjustment factor to the risk scores but will increase the Medicare A/B baseline for non-ESRD beneficiaries and beneficiaries with an ESRD status of functioning graft, to offset this.

4.5.2.2. In calendar year 2015, CMS will calculate and apply a coding intensity adjustment reflective of all Demonstration Enrollees except as indicated in Section 4.5.2.4. This will apply the prevailing Medicare Advantage coding intensity adjustment, on a county-specific basis, proportional to the anticipated proportion of Cal MediConnect Enrollees in 2015 with Medicare Advantage or Cal MediConnect experience in 2014, prior to September 30, 2014.

4.5.2.3. After calendar year 2015, CMS will apply the prevailing Medicare Advantage coding intensity adjustment to all Cal MediConnect Enrollees, with the exception of Cal MediConnect Enrollees in Orange County given the start date of enrollment in this county.

Back to Item
Back to Agenda
Back to Agenda

4.5.2.3.1. For Orange County in CY 2016, CMS will apply the prevailing Medicare Advantage coding intensity adjustment proportional to the anticipated proportion of Orange County Cal MediConnect Enrollees in 2016 with Medicare Advantage or demonstration experience prior to September 30, 2015. After calendar year 2016, CMS will apply the prevailing Medicare Advantage coding intensity adjustment to Cal MediConnect Enrollees in Orange County.

4.5.2.4. The coding intensity adjustment factor will not be applied during the Demonstration to risk scores for Enrollees with an ESRD status of dialysis or transplant, consistent with Medicare Advantage policy. Medicare Part D: The Medicare Part D NAMBA will be risk adjusted in accordance with existing Part D RxHCC methodology. The estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts will not be risk adjusted.

4.5.3. Medi-Cal Component: For the Medi-Cal Component of the capitated rate, DHCS will rely on the methodology described in Section 4.2.1.3 to account for differences in risk among the eligible population.

4.6. Payment Terms

4.6.1. CMS and DHCS will each make monthly, prospective capitation payments to the Contractor, with retroactive adjustments, as applicable, as described in Sections 4.2.2.2.6, 4.2.2.3.1, 4.7 and 4.14.

4.6.1.1. The Medicare Parts A/B component will be the product of the Enrollee's CMS-HCC risk score multiplied by the relevant standard county payment rate (or the ESRD dialysis state rate by the HCC ESRD risk score, as applicable). The Medicare Part D Component will be the product of the Enrollee's RxHCC risk score multiplied by the Part D NAMBA, with the addition of the estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts. The payment period will commence on the Contract Operational Start Date.

4.6.1.2. DHCS shall remit to the Contractor a capitation payment each month for each Enrollee that appears on the approved

Back to Item
Back to Agenda
Back to Agenda

list of Enrollees supplied to Contractor by DHCS. The Capitation Rate shall be the amount specified in Section 4.2.1.6. The payment period for health care services shall commence on the Contract Operational Start Date.

4.6.1.2.1. DHCS will pay an IHSS interim payment on behalf of the Contractor for IHSS Provider payroll as a portion of the covered Medicaid services. The IHSS interim payment will be reconciled as described in Section 4.14.3.1. This provision shall apply only with respect to IHSS provided on or before December 31, 2017. IHSS is no longer a Covered Service under this contract for service dates on or after January 1, 2018, pursuant to Statutes 2017, chapter 52 (S.B. 97).

4.7. Modifications to Capitation Rates. CMS and DHCS will jointly notify the Contractor in advance and in writing of any proposed changes to the Capitation Rates, and the Contractor shall accept such changes as payment in full as described in Section 4.15.

4.7.1. Rates will be updated using a similar process for each calendar year. Subject to Section 4.7.2., changes to the Medicare and Medicaid baselines outside of the annual Medicare Advantage and Part D rate announcements will be made only if and when CMS and DHCS jointly determine the change is necessary to calculate reasonable, appropriate, and attainable payment rates for Cal MediConnect. Such changes may be based on the following factors: shifts in enrollment assumptions; changes due to litigation; changes or discrepancies in federal law and/or State policy compared to assumptions about federal law and/or State law or policy used in the development of baseline estimates; changes in coding intensity; and other factors as determined appropriate and approved by CMS and the State.

4.7.2. For changes solely affecting the Medicare program baseline, CMS will update baselines by amounts identified by the independent Office of the Actuary necessary to best effectuate accurate payment rates for each month.

4.7.3. Subject to Section 4.7.2, if other statutory changes enacted after the annual baseline determination and rate development process are jointly determined by CMS and DHCS to have a material change in baseline estimates for any given payment year, baseline estimates and

Back to Item
Back to Agenda
Back to Agenda

corresponding standardized payment rates shall be updated outside of the annual rate development process.

4.7.4. Changes to the savings percentages will be made if and when CMS and DHCS jointly determine that changes in Part D spending have resulted in materially higher or lower savings that need to be recouped through higher or lower savings percentages applied to the Medicare A/B baselines or if and when CMS and DHCS jointly determine the change is necessary to calculate reasonable, appropriate and attainable payment rates for Cal MediConnect.

4.7.5. IHSS wage adjustments may occur during Cal MediConnect. Changes to the Medi-Cal Component will be made annually by county and may be retroactively applied to account for IHSS wage adjustments that occurred during the calendar year, subject to CMS review. This provision shall apply only with respect to IHSS provided on or before December 31, 2017. IHSS is no longer a Covered Service under this contract for service dates on or after January 1, 2018, pursuant to Statutes 2017, chapter 52 (S.B. 97).

4.8. Quality Withhold Policy for Medi-Cal and Medicare A/B Components of the Integrated, Risk-Adjusted Rate

4.8.1. Under Cal MediConnect, both payers will withhold a percentage of their respective components of the Capitation Rate, with the exception of Part D component amounts. The withheld amounts will be repaid subject to the Contractor's performance consistent with established quality thresholds.

4.8.1.1. In Demonstration Year 1 of Cal MediConnect, the withhold will be 1% of the respective components of the Capitation Rate. **See Figure 4.5**.

4.8.1.2. For Demonstration Year 1, which crosses calendar years, the Contractor will be evaluated to determine whether it has met quality withhold requirements at the end of CY 2014 and at the end of CY 2015. The determination in CY 2014 will be based solely on those measures that can appropriately be calculated based on the actual enrollment volume during CY 2014. Consistent with such evaluations, the withheld amounts will be repaid separately for each calendar year.

Figure 4.5: Quality Withhold Measures for Demonstration Year 1

Measure	Source	CMS Core Withhold Measure	California Withhold Measure
Assessments	CMS defined process measure	X	
Consumer Governance Board	CMS defined process measure	X	
Getting Appointments and Care Quickly	AHRQ/CAHPS	X	
Customer Service	AHRQ/CAHPS	X	
Behavioral Health Shared Accountability Policies and Procedures	State defined process measure		X
Documentation of Care Goals	State defined process measure		X
Ensuring Physical Access to Buildings, Services and Equipment	State defined process measure		X
Interaction with Care Team	State defined process measure		X

4.8.1.3. The quality withhold will increase to two percent (2%) in Demonstration Year 2, three percent (3%) for Demonstration Years 3-5 and four percent (4%) for Demonstration Years 6-8. **See Figure 4.6.**

4.8.1.4. Payment will be based on performance on the quality withhold measures listed in Figure 4.6 below. The Contractor must report these measures according to the prevailing technical specifications for the applicable measurement year.

4.8.1.5. If the Contractor is unable to report at least three (3) of the quality withhold measures listed in Figure 4.6 for a given year due to low enrollment or inability to meet other reporting criteria, alternative measures will be used in the quality withhold analysis. Additional information about this policy is available in separate technical guidance.

Figure 4.6: Quality Withhold Measures for Demonstration Years 2 -8

Measure	Source	CMS Core Withhold Measure	California Withhold Measure
Encounter Data	CMS defined process measure	X	
Plan All-Cause Readmissions	NCQA/HEDIS	X	

	Source	CMS Core Withhold Measure	California Withhold Measure
Annual Flu Vaccine	AHRQ/CAHPS	X	
Follow-Up After Hospitalization for Mental Illness	NCQA/HEDIS	X	
Reducing the Risk of Falling	NCQA/HEDIS/HOS	X	
Controlling Blood Pressure	NCQA/HEDIS	X

Behavioral Health Shared Accountability Process Measure (DY 3 Only)	State-defined process measure		X
Behavioral Health Shared Accountability Outcome Measure	State-defined measure		X
Documentation of Care Goals	State defined process measure		X
Interaction with Care Team	State defined process measure		X

4.8.2. CMS and DHCS will evaluate the Contractor's performance according to the specified metrics required in order to earn back the quality withhold for a given year.

4.8.3. Whether or not the Contractor has met the quality requirements in a given year will be made public, as will relevant quality results in all Demonstration Years.

4.9. Shared Financial Accountability Strategy for Incentive Payments for Behavioral Health Services

4.9.1.1. Shared accountability between the Cal MediConnect Plan and county Behavioral Health agencies aims to promote Care Coordination to ensure Enrollees have access to all needed services. Shared accountability builds on the performance-based quality withhold from the plans' Capitation Rates of one percent, two percent, three percent, and four percent (1%, 2%, 3%, and 4%) in years one, two, three through five, and six through eight of the Demonstration. By meeting specified quality measures, the Contractor can earn back the withheld capitation revenue by meeting specified quality objectives. Under this shared accountability strategy, one (1) withhold measure in year

Back to Item
Back to Agenda
Back to Agenda

one, one (1) withhold measure in year two, two (2) withhold measures in year three, and one (1) withhold measure in years four through eight will be tied to Behavioral Health coordination with the county.

4.9.1.2. The Contractor will be required to share with the applicable county Behavioral Health agencies a minimum amount of funds earned back through the shared accountability quality withhold measure each year. Contractor may choose to go above and beyond this minimum. This must be executed as directed in future guidance from DHCS.

4.9.1.3. The Contractor must provide an incentive payment each year to the county Behavioral Health agency that is equal to or greater than the value of each quality withhold measure multiplied by the proportion of Enrollees identified as having Behavioral Health needs and who are receiving county services. The proportion is defined as follows:

4.9.1.3.1. The denominator will be the total number of Enrollees with mental illness or substance use disorders, as defined for the emergency department reduction quality withhold measure for Years 2 through 8. The numerator would be the subset of those Enrollees who are receiving services through the county Behavioral Health agency.

4.9.1.3.2. In all counties except Los Angeles, the mental health and substance use departments are administratively combined. In Los Angeles County, the proportion of Enrollees with substance use disorders receiving county drug and alcohol services would be calculated separately from the Enrollees with mental illness population to identify the incentive payment amount paid to the Department of Public Health.

4.9.1.3.3. Assuming successful completion and equal weighting of each measure, total Behavioral Health shared accountability incentive payments in each year would equal:

- Year 1 Measure A = 0.001 multiplied by the total capitation multiplied by proportion of Enrollees with Behavioral Health disorders who are using county specialty mental health or Drug Medi-Cal services.
- Year 1 Measure B = 0.001 multiplied by the total capitation multiplied by proportion of Enrollees with Behavioral Health disorders who are using county specialty mental health or Drug Medi-Cal services.
- Year 2: ED Measure = 0.002 multiplied by the total capitation multiplied by proportion of Enrollees with Behavioral Health disorders who are using county specialty mental health or Drug Medi-Cal services.
- Year 3-8: ED Measure = 0.003 multiplied by the total capitation multiplied by proportion of Enrollees with Behavioral Health disorders who are using county specialty mental health or Drug Medi-Cal services.

4.10. Medicare A/B Disenrollment Penalty

4.10.1. Beginning in Demonstration Year 5 (CY 2019) CMS will implement a retrospective financial penalty in the Medicare A/B component of the Capitation Rate for Contractors with high disenrollment rates. This penalty is intended to address selection bias that may be impacting Medicare costs for the Cal MediConnect Demonstration and to align incentives for Contractors to improve quality for all Enrollees.

4.10.2. Performance will be evaluated annually using the existing Medicare Part C measure entitled "Members Choosing to Leave Plan." For DYs 5 and 6, CMS intends to maintain the benchmark at the median Contractor performance from measurement year 2017. For DYs 7 and 8, CMS will set the benchmark at the median Contractor performance from the most recent measurement year. Contractors with rates above the benchmark will be subject to the penalty on a sliding scale, starting at one percent (1%) and up to two percent (2%). Additional detail regarding the methodology will be provided in separate technical guidance.

4.10.3. Based on Contractor performance, CMS will recoup the Medicare A/B penalty retroactively, once performance for the applicable Demonstration year has been determined.

4.11. American Recovery and Reinvestment Act of 2009. All payments to the Contractor are conditioned on compliance with the provisions below and all other applicable provisions of the American Recovery and Reinvestment Act of 2009.

4.11.1. Suspension of Payments. DHCS shall suspend payments to Cal MediConnect in accordance with 42 C.F.R. § 455.23as as determined necessary or appropriate by DHCS.

4.11.2. Non-Payment and Reporting of Provider Preventable Conditions. Pursuant to 42 C.F.R. § 438.3(g), all payments to the Contractor are conditioned on the Contractor's compliance with all provisions related to Provider Preventable Conditions in accordance with the applicable DPL(s) as indicated in Section 2.1.5.

4.12. Medical Loss Ratio (MLR)

4.12.1. For Medicaid rating periods beginning on or after July 1, 2017, the Contractor is required to calculate and report their MLR experience for Medicaid, consistent with the requirements at 42 C.F.R. §§ 438.4, 438.5, 438.8 and 438.74, unless a joint MLR covering both Medicare and Medicaid experience is calculated and reported consistent with CMS and DHCS requirements.

4.12.2. Prior to the applicability of the requirements in 4.4.1 for all Demonstration Years in which the risk corridor applies, the Medicare Advantage MLR requirements are waived. To the extent the risk corridor ceases prior to the applicability of the requirements in 4.4.1 the Medicare Advantage MLR requirements will be reinstated for any applicable years in which the risk corridor is not in effect.

4.13. Risk Score Changes

4.13.1. Medicare Risk Score Changes: Medicare CMS-HCC, CMS-HCC ESRD, and RxHCC risk scores will be updated consistent with prevailing Medicare Advantage regulations and processes.

4.14. Reconciliation

4.14.1. CMS and DHCS will implement a process to reconcile enrollment and capitation payments for the Contractor that will take into

consideration the following circumstances: transitions between RCs; retroactive changes in eligibility, RCs, or Enrollee contribution amounts; changes in CMS-HCC and RxHCC risk scores; and changes through new enrollment, disenrollment, or death. The reconciliation may identify underpayments or overpayments to the Contractor.

4.14.2. Identified Overpayments

4.14.2.1. The Contractor shall promptly report to DHCS and CMS any such identified overpayments due to Fraud.

4.14.2.2. The Contractor shall report to DHCS and CMS within sixty (60) calendar days when it has identified the capitation payments or other payments in excess of amounts specified in the contract.

4.14.2.3. Recoveries by the Contractor of overpayments to providers. Consistent with Section 1128J(d) of the Social Security Act, the Contractor must adopt and implement policies for the treatment of recoveries of overpayments from the Contractor to a Network Provider.

4.14.3. Medi-Cal Component Reconciliation. The Medi-Cal Component reconciliation will occur a minimum of once a month. The monthly reconciliation process will reconcile retroactively up to twelve (12) months of historical enrollment changes or up to the effective date of the contract, whichever is sooner.

4.14.3.1. The Contractor is at full risk for IHSS Provider payments. On a quarterly basis, DHCS shall reconcile Actual IHSS expenditures against the IHSS Interim Payment. If Actual IHSS expenditures exceed the Interim Payment amount, DHCS shall invoice the Contractor for the difference with a thirty (30) day due date. DHCS shall pay California Department of Social Services within two (2) weeks of receipt from the Contractor. This provision shall apply only with respect to IHSS provided on or before December 31, 2017. IHSS is no longer a Covered Service under this Contract for service dates on or after January 1, 2018, pursuant to Statutes 2017, chapter 52 (S.B. 97).

4.14.4. Medicare Capitation Reconciliation: Medicare capitation reconciliation will comply with prevailing Medicare Advantage regulations and processes.

4.14.4.1. Final Medicare Reconciliation and Settlement: In the event the Contractor terminates or non-renews this Contract, CMS' final settlement phase for terminating contracts applies. This final settlement phase lasts for a minimum of eighteen (18) months after the end of the calendar year in which the termination date occurs. This final settlement will include reconciliation of any demonstration-specific payments or recoupments, including those related to joint Medicare A/B-Medicaid risk corridors, quality withholds, and medical loss ratios, as applicable, that are outstanding at the time of termination.

4.14.5. Audits/Monitoring: CMS and DHCS will conduct periodic audits to validate RC assignments or other coding. Audits may be conducted by a peer review organization or other entity assigned this responsibility by CMS and DHCS.

4.15. Payment in Full

4.15.1. The Contractor must accept, as payment in full for all Covered Services, the Capitation Rate(s) and the terms and conditions of payment set forth herein.

4.15.2. Notwithstanding any contractual provision or legal right to the contrary, the three (3) parties to this Contract (CMS, DHCS, and the Contractor), for Cal MediConnect agree there shall be no redress against either of the other two (2) parties, or their actuarial contractors, over the actuarial soundness of the Capitation Rates.

4.15.3. By signing this contract, the Contractor accepts that the Capitation Rate(s) offered is reasonable; that operating within this Capitation Rate(s) is the sole responsibility of the Contractor; and that while data is made available by the federal government to the Contractor, any entity participating in Cal MediConnect must rely on their own resource to project likely experience under Cal MediConnect.

5. Additional Terms and Conditions

5.1. Administration

5.1.1. Notification of Administrative Changes. The Contractor must notify CMS and DHCS through HPMS of all changes affecting the key functions for the delivery of care, the administration of its program, or its performance of Contract requirements. The Contractor must notify CMS and DHCS in HPMS no later than thirty (30) calendar days prior to any significant change to the manner in which services are rendered to Enrollees, including but not limited to reprocurement or termination of a First Tier, Downstream and Related Entity pursuant to Appendix C. The Contractor must notify CMS and DHCS in HPMS of all other changes no later than five (5) business days prior to the effective date of such change.

5.1.2. Assignment. The Contractor may not assign or transfer any right or interest in this Contract to any successor entity or other entity without the prior written consent of CMS and DHCS which may be withheld for any reason or for no reason at all.

5.1.3. Independent Contractors

5.1.3.1. The Contractor, its employees, First Tier, Downstream and Related Entities, and any other of its agents in the performance of this Contract, shall act in an independent capacity and not as officers, agents, or employees of the federal government, or DHCS.

5.1.3.2. The Contractor must ensure it evaluates the prospective First Tier, Downstream and Related Entities' abilities to perform activities to be delegated, as provided for in Appendix C.

5.1.4. Subrogation. Subject to CMS and DHCS lien and third-party recovery rights, the Contractor must:

5.1.4.1. Be subrogated and succeed to any right of recovery of an Enrollee against any person or organization, for any services, supplies, or both provided under this Contract up to the amount of the benefits provided hereunder;

5.1.4.2. Require that the Enrollee pay to the Contractor all such amounts recovered by suit, settlement, or otherwise from any third person or his or her insurer for other than Medi-

Cal and Medicare covered benefits, to the extent of the benefits provided hereunder, up to the value of the benefits provided hereunder. The Contractor may ask the Enrollee to:

5.1.4.2.1. Take such action, furnish such information and assistance, and execute such instruments as the Contractor may require to facilitate enforcement of its rights hereunder, and take no action prejudicing the rights and interest of the Contractor hereunder; and

5.1.4.2.2. Notify the Contractor hereunder and authorize the Contractor to make such investigations and take such action as the Contractor may deem appropriate to protect its rights hereunder whether or not such notice is given.

5.1.5. Prohibited Affiliations. In accordance with 42 U.S.C. § 1396 u-2(d)(1), the Contractor shall not knowingly have an employment, consulting, or other agreement for the provision of items and services that are significant and material to the Contractor's obligations under this Contract with any person, or affiliate of such person, who is excluded, under federal law or regulation, from certain procurement and non-procurement activities. Further, no such person may have beneficial ownership of more than five percent (5%) of the Contractor's equity or be permitted to serve as a director, officer, or partner of the Contractor.

5.1.6. Disclosure Requirements. The Contractor must disclose to CMS and DHCS information on ownership and control, business transactions, and persons convicted of crimes in accordance with 42 C.F.R. Part 455, Subpart B. The Contractor must obtain federally required disclosures from all Network Providers and applicants in accordance 42 C.F.R. § 1002.3, and as specified by DHCS, including but not limited to obtaining such information through provider enrollment forms and credentialing and recredentialing packages. The Contractor must maintain such disclosed information in a manner which can be periodically searched by the Contractor for exclusions and provided to DHCS in accordance with this Contract and relevant State and federal laws and regulations. In addition, the Contractor must comply with all reporting and disclosure requirements of 42 U.S.C. § 1396b(m)(4)(A) if the Contractor is not a federally qualified health maintenance organization under the Public Health Service Act. In addition, the Contractor shall make the information reported pursuant to 42 U.S.C. § 1396b(m)(4)(A) available to its Enrollees upon reasonable request.

5.1.7. Physician Incentive Plans.

5.1.7.1. The Contractor and its First Tier, Downstream and Related Entities must comply with all applicable requirements governing physician incentive plans, including but not limited to such requirements appearing at 42 C.F.R. Parts 417, 422, 434, 438.3(i), and 1003. The Contractor must submit all information required to be disclosed to CMS and the DHCS in the manner and format specified by CMS and the DHCS which, subject to federal approval, must be consistent with the format required by CMS for Medicare contracts.

5.1.7.2. The Contractor shall be liable for any and all loss of federal financial participation (FFP) incurred by the DHCS that results from the Contractor's or its First Tier, Downstream, or Related Entities' failure to comply with the requirements governing physician incentive plans at 42 C.F.R. Parts 417, 434 and 1003, however, the Contractor shall not be liable for any loss of FFP under this provision that exceeds the total FFP reduction attributable to Enrollees in the Contractor's plan, and the Contractor shall not be liable if it can demonstrate, to the satisfaction of CMS and the DHCS, that it has made a good faith effort to comply with the cited requirements. Federal financial participation is not available for any amounts paid to the Contractor if the Contractor could be excluded from participation in Medicare or Medicaid under section 1128(b)(8)(B) of the Social Security Act or for any of the reasons listed in 42 C.F.R. § 431.55(h).

5.1.7.3. Contractor may operate a PIP only if no specific payment can be made directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary Services furnished to an individual.

5.1.7.4. Contractor must provide information on its PIP to any Enrollee upon request as provided in 42 C.F.R. § 422.208.

5.1.8. Physician Identifier. The Contractor must require each physician providing Covered Services to Enrollees under this Contract to have a unique identifier in accordance with the system established under 42 U.S.C. § 1320d-2(b). The Contractor must provide such unique identifier to CMS and DHCS for each of its PCPs in the format and time-frame established by CMS and DHCS in consultation with the Contractor.

5.1.9. Timely Provider Payments. The Contractor must make timely payments to its Network Providers consistent with 42 C.F.R. § 447.45. The Contractor must ensure that ninety percent (90%) of claims from Network Providers (including Indian Health Care Providers) who are in individual or group practice, which can be processed without obtaining additional information from the physician or from a third party, will be paid within thirty (30) days of the date of receipt of the claim. In addition, ninety-nine percent (99%) of all clean claims from Network Providers will be paid within ninety (90) days of the date of receipt of the claim. The Contractor and its Network Providers may by mutual agreement, in writing, establish an alternative payment schedule. Generally, the date of receipt is the date the agency receives the claim, as indicated by its date stamp on the claim. The date of payment is the date of the check or other form of payment.

5.1.9.1. Pharmacy providers will be reimbursed in accordance with the prompt payment provisions at 42 C.F.R. § 423. 505(i)(3)(vi).

5.1.9.2. The Contractor shall pay ninety-five percent (95%) of clean claims from non-contracted providers within thirty (30) days of request. All other claims shall be paid or denied within sixty (60) days of request.

5.1.10. Provider Payments. The Contractor shall pay providers in accordance with Medicare and Medi-Cal coordination of benefits, per WIC Section 14182.16 and in accordance with applicable DPL(s) as indicated in Section 2.1.5.

5.1.10.1. Medi-Cal Alignment. The Contractor shall pay providers, including institutional providers, in accordance with the prompt payment provisions in compliance with 42 C.F.R. § 447.45, ARRA 5006(d) and as contained in each Contractor's Medi-Cal managed care contract with DHCS, including the ability to accept and pay electronic claims, excluding Part D.

5.1.10.2. Date of Receipt. The date of receipt is the date the agency receives the claim, as indicated by its date stamp on the claim. The date of payment is the date of the check or other form of payment.

5.1.10.3. Nursing Facility Rates. The Contractor shall not combine the rates of payment for post-acute skilled and rehabilitation care provided by a nursing facility and long-term and

chronic care provided by a nursing facility in order to establish a single payment rate for dual eligible beneficiaries requiring skilled nursing services. The Contractor shall pay nursing facilities providing post-acute skilled and rehabilitation care or long-term and chronic care rates that reflect the different level of services and intensity required to provide these services.

5.1.11. Protection of Enrollee-Provider Communications. In accordance with 42 USC § 1396 u-2(b)(3), the Contractor shall not prohibit or otherwise restrict a clinical First Tier, Downstream or Related Entity from advising an Enrollee about the health status of the Enrollee or medical care or treatment for the Enrollee's condition or disease; information the Enrollee needs in order to decide among all relevant treatment options; risk, benefits and consequences of treatment or non-treatment; and/or the Enrollee's rights to participate in decisions about his or her health care, including the right to refuse treatment and to express preferences about future treatment decisions, regardless of whether benefits for such care or treatment are provided under the Contract, if the clinical First Tier, Downstream, or Related Entity is acting within the lawful scope of practice.

5.1.12. Protecting Enrollee from Liability for Payment. The Contractor must:

5.1.12.1. In accordance with 42 C.F.R. § 438.106, not hold an Enrollee liable for:

5.1.12.1.1. Debts of the Contractor, in the event of the Contractor's insolvency;

5.1.12.1.2. Covered Services provided to the Enrollee in the event that the Contractor fails to receive payment from CMS or DHCS for such services; or

5.1.12.1.3. Payments to a clinical First Tier, Downstream and Related Entity in excess of the amount that would be owed by the Enrollee if the Contractor had directly provided the services;

5.1.12.2. Not charge Enrollees coinsurance, co-payments, deductibles, financial penalties, or any other amount in full or part, for any service provided under this Contract, except as otherwise provided in Appendix A below;

5.1.12.3. Not deny any service provided under this Contract to an Enrollee for failure or inability to pay any applicable charge; and

5.1.12.4. Not deny any service provided under this Contract to an Enrollee who, prior to becoming eligible, incurred a bill that has not been paid.

5.1.13. Third Party Liability (TPL)

5.1.13.1. General Requirements.

5.1.13.1.1. Coordination of Benefits means the process of utilizing TPL resources to ensure that Medi-Cal is the payer of last resort. This is accomplished by either operating a cost avoidance method of paying claims, when the existence of private health coverage is known at the time the claim is processed, or the method of post-payment recovery of the cost of services, if the coverage is identified retroactively.

5.1.13.1.2. DHCS shall refer to the Contractor the Enrollee's name and pertinent information where DHCS knows an Enrollee has been in an accident or had a traumatic event where a liable third party may exist.

5.1.13.1.3. The Contractor shall identify and notify the DHCS's TPL and Recovery Division of all instances or cases in which Contractor believes an action by the Enrollee involving casualty insurance or tort or Workers' Compensation liability of a third party could result in recovery by the Enrollee of funds to which DHCS has lien rights under Article 3.5 (commencing with Section 14124.70), Part 3, Division 9, WIC. Contractor shall make no claim for recovery of the value of Covered Services rendered to an Enrollee in such cases or instances and such case or instance shall be referred to State's TPL Branch within ten (10) calendar days of discovery. To assist DHCS in exercising its responsibility for such recoveries, Contractor shall meet the following requirements:

5.1.13.1.3.1. If DHCS requests service information and/or copies of paid invoices/claims for Covered Services to an Enrollee, Contractor shall deliver the requested information within thirty (30) calendar days of the request. Service information includes First Tier, Downstream, or Related Entity and out of plan provider data. The value of the Covered Services shall be calculated as the usual, customary and reasonable charge made to the general public for similar services or the amount paid to First Tier, Downstream, or Related Entity providers or out of plan providers for similar services, whichever is applicable under WIC Section 14124.90(c)(2).

5.1.13.1.3.2. Designate a TPL Benefit Coordinator who shall serve as a contact person for benefit coordination issues related to this Contract.

5.1.13.1.3.3. Designate one or more recoveries specialist(s), whose function shall be to investigate and process all transactions related to the identification of TPL.

5.1.14. Medicaid Drug Rebate

5.1.14.1. Non-Part D covered outpatient drugs dispensed to Enrollees shall be subject to the same rebate requirements as the State is subject under section 1927 of the Social Security Act and that the State shall collect such rebates from pharmaceutical manufacturers.

5.1.14.2. Contractor shall submit to DHCS, on a timely and periodic basis, no later than forty-five (45) calendar days after the end of each quarterly rebate period, information on the total number of units of each dosage form and strength and package size by National Drug Code of each non-Part D covered outpatient drug dispensed to Enrollees for which the Contractor is responsible for coverage and other data as DHCS determines necessary.

5.1.15. Moral or Religious Objections. The Contractor is not required to provide, reimburse for, or provide coverage of, a counseling or referral service that would otherwise be required if the Contractor objects to the service on moral or religious grounds. If the Contractor elects not to provide, pay for, or provide coverage of, a counseling or referral service because of an objection on moral or religious grounds, it must promptly notify DHCS and CMS in writing of its intent to exercise the objection. It must furnish information about the services it does not cover as follows:

5.1.15.1. To the State;

5.1.15.2. With its application for a contract;

5.1.15.3. Whenever it adopts the policy during the term of the Contract; and the information provided must be:

5.1.15.3.1. Consistent with the provisions of 42 C.F.R. § 438.10;

5.1.15.3.2. Provided to Eligible Beneficiaries before and during enrollment; and

5.1.15.3.3. Provided to Enrollees within ninety (90) days after adopting the policy with respect to any particular service.

5.2. Confidentiality

5.2.1. Statutory Requirements. The Contractor understands and agrees that CMS and DHCS may require specific written assurances and further agreements regarding the security and Privacy of protected health information that are deemed necessary to implement and comply with standards under the HIPAA as implemented in 45 C.F.R., Parts 160 and 164. The Contractor further represents and agrees that, in the performance of the services under this Contract, it will comply with all legal obligations as a holder of personal information under the California Information Practices Act (Civil Code Section 1798 et seq.). The Contractor represents that it currently has in place policies and procedures that will adequately safeguard any confidential personal data obtained or created in the course of fulfilling its obligations under

this Contract in accordance with applicable State and federal laws. The Contractor is required to design, develop, or operate a system of records on individuals, to accomplish an agency function subject to the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. § 552a) and applicable agency regulations. Violation of the Act may involve the imposition of criminal penalties.

5.2.2. Personal Data. The Contractor must inform each of its employees having any involvement with personal data or other confidential information, whether with regard to design, development, operation, or maintenance, of the laws and regulations relating to confidentiality.

5.2.3. Data Security. The Contractor must take reasonable steps to ensure the physical security of personal data or other confidential information under its control, including, but not limited to: fire protection; protection against smoke and water damage; alarm systems; locked files, guards, or other devices reasonably expected to prevent loss or unauthorized removal of manually held data; passwords, access logs, badges, or other methods reasonably expected to prevent loss or unauthorized access to electronically or mechanically held data by ensuring limited terminal access; limited access to input documents and output documents; and design provisions to limit use of Enrollee names. The Contractor must put all appropriate administrative, technical, and physical safeguards in place before the start date to protect the Privacy and security of protected health information in accordance with 45 C.F.R. § 164.530(c). The Contractor must meet the security standards, requirements, and implementation specifications as set forth in 45 C.F.R. Part 164, subpart C, the HIPAA Security Rule. Contractor must follow the National Institute for Standards and Technology (NIST) Guidelines for the Risk Management Framework (RMF) to establish an information security program in accordance with the Federal Information Security Management Act (FISMA).

5.2.4. Return of Personal Data. The Contractor must return any and all personal data, with the exception of medical records, furnished pursuant to this Contract promptly at the request of CMS or DHCS in whatever form it is maintained by the Contractor. Upon the termination or completion of this Contract, the Contractor shall not use any such data or any material derived from the data for any purpose, and, where so instructed by CMS or DHCS will destroy such data or material.

5.2.5. Research Data. The Contractor must seek and obtain prior written authorization from CMS and DHCS for the use of any data pertaining

to this Contract for research or any other purposes not directly related to the Contractor's performance under this Contract.

5.3. General Terms and Conditions

5.3.1. Applicable Law. The term "applicable law," as used in this Contract, means, without limitation, all federal and California law, and the regulations, policies, procedures, and instructions of CMS and DHCS all as existing now or during the term of this Contract. All applicable law is hereby incorporated into this Contract by reference.

5.3.2. Sovereign Immunity. Nothing in this Contract will be construed to be a waiver by the State of California or CMS of its rights under the doctrine of sovereign immunity and the Eleventh Amendment to the United States Constitution.

5.3.3. Advance Directives. Nothing in this Contract shall be interpreted to require an Enrollee to execute an Advance Directive or agree to orders regarding the provision of life-sustaining treatment as a condition of receipt of services under the Medicare or Medi-Cal program.

5.3.4. Loss of Licensure. If, at any time during the term of this Contract, the Contractor or any of its First Tier, Downstream or Related Entities incurs loss of licensure at any of the Contractor's facilities or loss of necessary federal or State approvals, the Contractor must report such loss to CMS and DHCS. Such loss may be grounds for termination of this Contract under the provisions of Section 5.5.

5.3.5. Indemnification. The Contractor shall indemnify and hold harmless CMS, the federal government, and DHCS from and against any and all liability, loss, damage, costs, or expenses which CMS and or DHCS may sustain, incur, or be required to pay, arising out of or in connection with any negligent action, inaction, or willful misconduct of the Contractor, any person employed by the Contractor, or any of its First Tier, Downstream, or Related Entities provided that:

5.3.5.1. The Contractor is notified of any claims within a reasonable time from when CMS and DHCS become aware of the claim; and

5.3.5.2. The Contractor is afforded an opportunity to participate in the defense of such claims.

5.3.6. Prohibition against Discrimination.

5.3.6.1. In accordance with 42 USC § 1396 u-2(b)(7), the Contractor shall not discriminate with respect to participation, reimbursement, or indemnification of any provider in the Contractor's Provider Network who is acting within the scope of the provider's license or certification under applicable federal or State law, solely on the basis of such license or certification. This section does not prohibit the Contractor: from including providers in its Provider Network to the extent necessary to meet the needs of the Contractor's Enrollees; from using different reimbursement amounts for different specialties or for different practitioners in the same specialty; or from establishing any measure designed to maintain quality and control costs consistent with the responsibilities of the Contractor.

5.3.6.2. Contractor will give written notice of the reason for its decision when it declines to include individual or groups of providers in its network.

5.3.6.3. If a Complaint or claim against the Contractor is presented to DHCS or CMS, the Contractor must cooperate with in the investigation and disposition of such Complaint or claim.

5.3.7. Anti-Boycott Covenant. During the time this Contract is in effect, neither the Contractor nor any affiliated company, as hereafter defined, must participate in or cooperate with an international boycott, as defined in Section 999(b)(3) and (4) of the Internal Revenue Code of 1954, as amended, or engage in conduct declared to be unlawful by DHCS. Without limiting such other rights as it may have, CMS and DHCS will be entitled to rescind this Contract in the event of noncompliance with this Section. As used herein, an affiliated company is any business entity directly or indirectly owning at least fifty-one percent (51%) of the ownership interests of the Contractor.

5.3.8. Other Contracts. Nothing contained in this Contract must be construed to prevent the Contractor from operating other comprehensive health Care Plans or providing health care services to persons other than those eligible for coverage in the Contract; provided, however, that the Contractor must provide CMS and DHCS with a complete list of such plans and services, upon request. CMS and DHCS will exercise discretion in disclosing information that the Contractor may consider proprietary, except as required by law. Nothing in this Contract may be construed to prevent CMS or DHCS

from contracting with other comprehensive health Care Plans, or any other provider, in the same Service Area.

5.3.9. Counterparts. This Contract may be executed simultaneously in two or more counterparts, each of which will be deemed an original and all of which together will constitute one and the same instrument.

5.3.10. Entire Contract. This Contract constitutes the entire agreement of the parties with respect to the subject matter hereof, including all Attachments and Appendices hereto, and supersedes all prior agreements, representations, negotiations, and undertakings not set forth or incorporated herein. The terms of this Contract will prevail notwithstanding any variances with the terms and conditions of any verbal communication subsequently occurring.

5.3.11. No Third-Party Rights or Enforcement. No person not executing this Contract is entitled to enforce this Contract against a party hereto regarding such party's obligations under this Contract.

5.3.12. Corrective Action Plan. If, at any time, CMS and DHCS reasonably determine that the Contractor is deficient in the performance of its obligations under the Contract, CMS and DHCS may require the Contractor to develop and submit a corrective action plan that is designed to correct such deficiency. CMS and DHCS will approve, disapprove, or require modifications to the corrective action plan based on their reasonable judgment as to whether the corrective action plan will correct the deficiency. The Contractor must promptly and diligently implement the corrective action plan as approved by CMS and DHCS. Failure to implement the corrective action plan may subject the Contractor to termination of the Contract by CMS and DHCS or other intermediate sanctions as described in Section 5.3.13.

5.3.13. Intermediate Sanctions.

5.3.13.1. In addition to termination under Section 5.5, CMS and DHCS may, impose any or all of the sanctions in Section 5.3 upon any of the events below; provided, however, that CMS and DHCS will only impose those sanctions they determine to be reasonable and appropriate for the specific violations identified. CMS and DHCS may choose to provide warning notices and/or corrective action plans before sanctions. Sanctions may be imposed in accordance with this section for any failure to comply with this Contract, including but not limited to, if the Contractor:

5.3.13.1.1. Fails substantially to provide Covered Services required to be provided under this Contract to Enrollees;

5.3.13.1.2. Imposes charges on Enrollees in excess of any permitted under this Contract;

5.3.13.1.3. Discriminates among Enrollees or individuals eligible to enroll on the basis of health status or need for health care services, race, color or national origin, or uses any policy or practice that has the effect of discriminating on the basis of race, color, or national origin;

5.3.13.1.4. Misrepresents or falsifies information provided to CMS, DHCS, Enrollees, or its Provider Network;

5.3.13.1.5. Fails to comply with requirements regarding physician incentive plans (see Section 5.1.7);

5.3.13.1.6. Fails to comply with federal or State statutory or regulatory requirements related to this Contract;

5.3.13.1.7. Violates restrictions or other requirements regarding marketing;

5.3.13.1.8. Fails to comply with quality management requirements consistent with Section 2.16;

5.3.13.1.9. Fails to comply with any corrective action plan required by CMS and DHCS;

5.3.13.1.10. Fails to comply with financial solvency requirements;

5.3.13.1.11. Fails to comply with reporting requirements; or

5.3.13.1.12. Fails to comply with any other requirements of this Contract.

5.3.13.2. Such sanctions may include, but are not limited to:

Back to Item

Back to Agenda

5.3.13.2.1. Intermediate sanctions and civil monetary penalties consistent with 42 C.F.R. § 422 Subpart O or § 438 Subpart I;

5.3.13.2.2. The appointment of temporary management to oversee the operation of the Contractor in those circumstances set forth in 42 U.S.C. § 1396 u-2(e)(2)(B);

5.3.13.2.3. Suspension of enrollment (including assignment of Enrollees);

5.3.13.2.4. Suspension of payment to the Contractor;

5.3.13.2.5. Disenrollment of Enrollees; and

5.3.13.2.6. Suspension of marketing.

5.3.13.2.7. Denial of payment as set forth in 42 C.F.R. § 438.730.

5.3.13.3. If CMS or DHCS have identified a deficiency in the performance of a First Tier, Downstream or Related Entity and the Contractor has not successfully implemented an approved corrective action plan in accordance with Section 5.3.12, CMS and DHCS may:

5.3.13.3.1. Require the Contractor to subcontract with a different First Tier, Downstream or Related Entity deemed satisfactory by CMS and DHCS; or

5.3.13.3.2. Require the Contractor to change the manner or method in which the Contractor ensures the performance of such contractual responsibility.

5.3.13.4. Additional Administrative Procedures. CMS and DHCS may, from time to time, issue program memoranda, bulletins, and DPLs clarifying, elaborating upon, explaining, or otherwise relating to Contract administration and other management matters. The Contractor must comply with all such program memoranda, bulletins, and letters as may be issued from time to time.

Back to Agenda

5.3.13.5. Effect of Invalidity of Clauses. If any clause or provision of this Contract is in conflict with any federal or State law or regulation, that clause or provision will be null and void and any such invalidity will not affect the validity of the remainder of this Contract.

5.3.14. Before imposing any intermediate sanctions, consistent with 42 C.F.R. § 438.710, DHCS and CMS must give the Contractor timely written notice that explains the basis and nature of the sanction and other due process protections that DHCS and CMS elect to provide.

5.3.15. Conflict of Interest. Neither the Contractor, nor any First Tier, Downstream or Related Entity may, for the duration of the Contract, have any interest that will conflict, as determined by CMS and DHCS with the performance of services under the Contract, or that may be otherwise anticompetitive. The Contractor further certifies that it will comply with Section 1932(d) of the Social Security Act.

5.3.16. Insurance for Contractor's Employees. The Contractor must agree to maintain at the Contractor's expense all insurance required by law for its employees, including but not limited to, worker's compensation and unemployment compensation, and must provide CMS and DHCs with certification of same upon request. The Contractor, and its professional personnel providing services to Enrollees, must obtain and maintain appropriate professional liability insurance coverage. The Contractor must, at the request of CMS or DHCS, provide certification of professional liability insurance coverage.

5.3.17. Waiver. The Contractor, CMS, or DHCS shall not be deemed to have waived any of its rights hereunder unless such waiver is in writing and signed by a duly authorized representative. No delay or omission on the part of the Contractor, CMS, or DHCS in exercising any right shall operate as a waiver of such right or any other right. A waiver on any occasion shall not be construed as a bar to or waiver of any right or remedy on any future occasion. The acceptance or approval by CMS and DHCS of any materials including but not limited to, those materials submitted in relation to this Contract, does not constitute waiver of any requirements of this Contract.

5.3.18. Section Headings. The headings of the sections of this Contract are for convenience only and will not affect the construction hereof.

5.4. Record Retention, Inspection, and Audit

5.4.1. The Contractor must maintain books, records, documents, and other evidence of administrative, medical, and accounting procedures and practices for ten (10) years from the end of the final contract period or completion of audit, whichever is later.

5.4.2. The Contractor must make the records maintained by the Contractor and its Provider Network, as required by CMS and DHCS and other regulatory agencies, available to CMS and DHCS and its agents, designees or contractors or any other authorized representatives of the State of California or the United States Government, or their designees or contractors, at such times, places, and in such manner as such entities may reasonably request for the purposes of financial or medical audits, inspections, and examinations, provided that such activities are conducted during the normal business hours of the Contractor.

5.4.3. The Contractor further agrees that the Secretary of the U.S. Department of Health and Human Services or his or her designee, the Governor or his or her designee, Comptroller General, and the State Auditor or his or her designee have the right at reasonable times and upon reasonable notice to examine the books, records, and other compilations of data of the Contractor and its First Tier, Downstream and Related Entities that pertain to: the ability of the Contractor to bear the risk of potential financial losses; services performed; or determinations of amounts payable.

5.4.4. The Contractor must make available, for the purposes of record maintenance requirements, its premises, physical facilities and equipment, records relating to its Enrollees, and any additional relevant information that CMS or DHCS may require, in a manner that meets CMS and DHCS record maintenance requirements.

5.4.5. The Contractor must comply with the right of the U.S. Department of Health and Human Services, the Comptroller General, and their designees to inspect, evaluate, and audit records through ten (10) years from the final date of the Contract period or the completion of audit, whichever is later, in accordance with federal and State requirements.

5.4.6. Disputes. The Disputes procedure set forth in Appendix K will be used by the Contractor as the means of seeking resolution of disputes on contractual issues.

5.5. Termination of Contract

5.5.1. Termination without Prior Notice. In the event the Contractor substantially fails to meet its obligations under this Contract or has otherwise violated the laws, regulations, or rules that govern the Medicare or Medi-Cal programs, CMS or DHCS may take any or all action under this Contract, law, or equity, including but not limited to immediate termination of this Contract in accordance with regulations that are current at the time of the termination.

5.5.2. Without limiting the above, if CMS or DHCS determine that participation of the Contractor in the Medicare or Medi-Cal program or in the Demonstration, may threaten or endanger the health, safety, or welfare of Enrollees or compromise the integrity of the Medicare or Medi-Cal program, CMS or DHCS, without prior notice, may immediately terminate this Contract, suspend the Contractor from participation, withhold any future payments to the Contractor, or take any or all other actions under this Contract, law, or equity. Such action may precede beneficiary enrollment into any Contractor, and shall be taken upon a finding by CMS or DHCS that the Contractor has not achieved and demonstrated a state of readiness that will allow for the safe and efficient provision of Medicare-Medi-Cal services to Medicare-Medi-Cal beneficiaries.

5.5.3. United States law and California law, as appropriate, will apply to resolve any claim of breach of this Contract.

5.5.4. Termination with Prior Notice.

5.5.4.1. CMS or DHCS may terminate this Contract without cause upon no less than one hundred eighty (180) days prior written notice to the other party specifying the termination date, unless applicable law requires otherwise. Per Section 5.8, the Contractor may choose to non-renew this Agreement prior to the end of each term pursuant to 42 C.F.R. § 422.506(a). In considering requests for termination under 42 C.F.R. § 422.508, CMS and DHCS will consider, among other factors, financial performance and stability in granting consent for termination. Any written communications or oral scripts developed to implement the requirements of 42 C.F.R. § 422.506(a) must be submitted to and approved by CMS and DHCS prior to their use.

5.5.4.2. Pursuant to 42 C.F.R. §§ 422.506(a)(4) and 422.508(c), CMS considers Contractor termination of this Contract with prior notice as described in paragraph 5.5.2.1 and non-renewal of

this Contract as described in Section 5.8 to be circumstances warranting special consideration, and will not prohibit the Contractor from applying for new Medicare Advantage contracts or Service Area expansions for a period of two years due to termination.

5.5.5. Termination pursuant to Social Security Act § 1115A(b)(3)(B).

5.5.6. Termination for Cause. Any party may terminate this Agreement upon ninety (90) days' notice due to a material breach of a provision of this Contract unless CMS or DHCS determines that a delay in termination would pose an imminent and serious risk to the health of the individuals enrolled with the Contractor or the Contractor experiences financial difficulties so severe that its ability make necessary health services available is impaired to the point of posing an imminent and serious risk to the health of its Enrollees, whereby CMS or DHCS may expedite the termination.

5.5.6.1. Pre-termination Procedures. Before terminating a contract under 42 C.F.R. § 422.510 and § 438.708, the Contractor may request a pre-termination hearing or develop and implement a corrective action plan. CMS or DHCS must:

5.5.6.1.1. Give the Contractor written notice of its intent to terminate, the reason for termination, and a reasonable opportunity of at least thirty (30) calendar days to develop and implement a corrective action plan to correct the deficiencies; and/or

5.5.6.1.2. Notify the Contractor of its Appeal rights as provided in 42 C.F.R. § 422 Subpart N and § 438.710.

5.5.6.2. If Contractor fails to comply with the provisions of Section 5.5, CMS or DHCS may terminate this agreement upon thirty days' notice.

5.5.7. Termination due to a Change in Law. In addition, CMS or DHCS may terminate this agreement upon thirty (30) days notice due to a material change in law, or by operation of law, including a change in the State law authorizing the State's participation in the program, or with less or no notice if required by law.

5.5.8. Continued Obligations of the Parties.

5.5.8.1. In the event of termination, expiration, or non-renewal of this Contract, or if the Contractor otherwise withdraws from the Medicare or Medi-Cal programs, the Contractor shall continue to have the obligations imposed by this Contract or applicable law. These include, without limitation, the obligations to continue to provide Covered Services to each Enrollee at the time of such termination or withdrawal until the Enrollee has been disenrolled from the Contractor's Plan; provided, however, that CMS and DHCS will exercise best efforts to complete all disenrollment activities within six months from the date of termination or withdrawal.

5.5.8.2. In the event that this Contract is terminated, expires, or is not renewed for any reason:

5.5.8.2.1. If CMS or DHCS, or both, elect to terminate the Contract, CMS and DHCS will be responsible for notifying all Enrollees covered under this Contract of the date of termination and the process by which those Enrollees will continue to receive care under applicable laws, regulations, and provisions of this Contract. If the Contractor elects to terminate or not renew the Contract, the Contractor will be responsible for notifying all Enrollees and the general public, in accordance with federal and State requirements and the terms of this Contract;

5.5.8.2.2. The Contractor must promptly return to CMS and DHCS all payments advanced to the Contractor for Enrollees after the effective date of their disenrollment; and

5.5.8.2.3. The Contractor must supply to CMS and DHCS all information necessary for the payment of any outstanding claims determined by CMS and DHCS to be due to the Contractor, and any such claims will be paid in accordance with the terms of this Contract.

5.6. Impact of Termination

5.6.1. In the event this Contract is terminated, expires, or is not renewed for any reason, the State shall have the authority to crosswalk Enrollees

into a Medi-Cal Managed Care Plan for the purposes of the seamless provision of Medi-Cal managed care Covered Services.

5.6.2. The State shall provide such Enrollees with notice of this crosswalk and of any options Enrollees have to change Medi-Cal managed care plans for the provision of Medi-Cal Covered Services.

5.7. Order of Precedence

5.7.1. The following documents are incorporated into and made a part of this Contract:

5.7.1.1. Capitated Financial Alignment Application, a document issued by CMS and subject to modification each program year;

5.7.1.2. DHCS's Bridge to Health Reform Section 1115 waiver as amended for purposes of this demonstration;

5.7.1.3. CFAM-MOU, a document between CMS and DHCS regarding a Federal-State Partnership to Test a Capitated Financial Alignment Model for Medicare-Medicaid Enrollees (signed March 27, 2013);

5.7.1.4. The Contractor's Medi-Cal managed care contract;

5.7.1.5. All applicable federal and State regulations and laws, as well as DHCS DPLs, applicable DHCS APLs, CMS guidance, including but not limited to enrollment and marketing guidance, the annual rate report, plan letters, bulletins and guidance memoranda.

5.7.1.6. The Contractor's response to the Request for Solutions.

5.7.2. In the event of any conflict among the documents that are a part of this Contract, the order of priority to interpret the Contract shall be as follows:

5.7.2.1. The Contract terms and conditions, including all appendices;

5.7.2.2. Capitated Financial Alignment Application;

5.7.2.3. DHCS's Bridge to Health Reform Section 1115 waiver as amended for purposes of this demonstration;

5.7.2.4. CFAM-MOU, a document between CMS and DHCS Regarding a federal-State partnership to Test a Capitated Financial Alignment Model for Medicare-Medicaid Enrollees (signed March 27. 2013);

5.7.2.5. The Contractor's Medi-Cal managed care contract;

5.7.2.6. All applicable federal and State regulations and laws, as well as DHCS DPLs, applicable DHCS APLs, CMS guidance, including but not limited to enrollment and marketing guidance, bulletins, and guidance memoranda; and

5.7.2.7. The Contractor's response to the RFS.

5.7.3. In the event of any conflict between this Contract and the MOU, the Contract shall prevail.

5.8. Contract Term.

5.8.1. This Contract shall be in effect starting from the date on which all parties have signed the Contract and shall be effective, unless otherwise terminated, through December 31, 2015. The Contract shall be renewed in one-year terms through December 31, 2022, so long as the Contractor has not provided CMS and the State with a notice of intention not to renew, and CMS/State have not provided the Contractor with a notice of intention not to terminate, pursuant to 42 C.F.R. § 422.506 or Section 5.5 above This contract will terminate, or its effectuation will be delayed, unless the State receives all necessary approvals from CMS, including but not limited to § 1115(a) demonstration authority, and unless the Contractor is deemed ready to participate in the MMCO demonstration, as provided for in Section 2.2.1.3 of this Contract. Funds must not be expended or awarded until the State has received all necessary approvals from CMS. No payments will be made nor Medicaid federal Medical assistance payment (FMAP) funds drawn for any services provided or costs incurred prior to the later of the approval date for any necessary § 1115(a) authority, the Readiness Review approval, or the effective date of this Contract.

5.9. Amendments

5.9.1. The parties agree to negotiate in good faith to cure any omissions, ambiguities, or manifest errors herein. By mutual agreement, the parties may amend this Contract where such amendment does not violate federal or State statutory, regulatory, or waiver provisions,

provided that such amendment is in writing, signed by authorized representatives of all three parties, and attached hereto.

5.10. Written Notices

5.10.1. Notices to the parties as to any matter hereunder will be sufficient if given in writing and sent by certified mail, postage prepaid, or delivered in hand to:

Appendix A: Covered Services

The Contractor shall provide services to Enrollees as follows:

A.1 Medical Necessity. The Contractor shall provide services to Enrollees as follows:

A.1.1 Authorize, arrange, coordinate, and provide to Enrollees all Covered Services that are Medically Necessary as specified in Section 2.4, in accordance with the requirements of the Contract.

A.1.2 Provide all Covered Services that are Medically Necessary, including but not limited to, those Covered Services that:

A.1.2.1. Prevent, diagnose, or treat health impairments;

A.1.2.2. Attain, maintain, or regain functional capacity.

A.1.3 Not arbitrarily deny or reduce the amount, duration, or scope of a required Covered Service solely because of diagnosis, type of illness, or condition of the Enrollee.

A.1.4 Not deny authorization for a Covered Service that the Enrollee or the Provider demonstrates is Medically Necessary.

A.1.5 The Contractor may place appropriate limits on a Covered Service on the basis of Medical Necessity, or for the purpose of utilization management, provided that the furnished services can reasonably be expected to achieve their purpose. The Contractor's Medical Necessity guidelines must, at a minimum, be:

A.1.5.1. Developed with input from practicing physicians in the Cal MediConnect's Service Area;

A.1.5.2. Developed in accordance with standards adopted by national accreditation organizations;

A.1.5.3. Developed in accordance with the definition of Medical Necessity in Section 2.4;

A.1.5.4. Updated at least annually or as new treatments, applications and technologies are adopted as generally accepted professional medical practice;

A.1.5.5. Evidence-based, if practicable; and

Back to Item
Back to Agenda
Back to Agenda

A.1.5.6. Applied in a manner that considers the individual health care needs of the Enrollee.

A.1.6 The Contractor's Medical Necessity guidelines, program specifications and service components must, at a minimum, be submitted to DHCS annually for approval no later than 60 days prior to the start of a new Contract Year, and no later than 60 days prior to any change.

A.1.7 Offer and provide to all Enrollees any and all non-medical programs and services specific to Enrollees for which the Contractor has received CMS and DHCS approval.

A.2 Covered Services. Contractor agrees to provide Enrollees access to the following Covered Services:

A.2.1 All standard Medi-Cal fee-for-service benefits excluding:

A.2.1.1. ICF/MR services;

A.2.1.2. County-administered Medi-Cal Specialty Mental Health Services and substance use disorder services. This does not include Behavioral Health services that become Medi-Cal managed care benefits on January 1, 2014, pursuant to Welfare and Institutions Code Section 14132.03, which will be Covered Services under this contract;

A.2.1.3. State and County activities to administer IHSS, including determining eligibility, assessing, approving, and authorizing each current and new Enrollee's initial and continuing need for services, enrolling providers, conducting provider orientation, and retaining enrollment documentation, conducting criminal background checks on all potential providers, providing assistance to IHSS recipients in finding eligible providers through an established provider registry;

A.2.1.3.1 For dates of service on or before December 31, 2017. IHSS is no longer a Covered Service under this Contract for service dates on or after January 1, 2018, pursuant to Statutes 2017, chapter 52 (S.B. 97);

A.2.1.4. Medi-Cal Dental Services, known as Denti-Cal

A.2.2 All services provided under Medicare Part A

A.2.3 All services provided under Medicare Part B

A.2.4 All services provided under Medicare Part D

A.2.5 Particular pharmacy products that are covered by Medi-Cal and may not be covered under Medicare Part D.

- Contractors are encouraged to offer a broader drug formulary than minimum requirements.

A.3 In addition, Contractor agrees to provide the following:

A.3.1 Vision Benefit

A.3.1.1. $0 copay for one (1) routine eye exam every year

A.3.1.2. Every two years, $100 for eyeglasses (frames and lenses) or up to $100 for contact lenses

A.3.2 Non-Medical Transportation and Non-Emergency Medical Transportation Benefits

A.3.2.1. Contractors must provide transportation services to beneficiaries for Medically Necessary Services.

A.3.2.2. Contractors must provide transportation services pursuant to this Contract, applicable law including but not limited to Welfare & Institutions Code 14132(ad) and the requirements in applicable current and future DPLs.

A.3.3 Care Transitions Assistance provided across facility and community settings. Care Coordination shall be provided for transitions among levels of care and between service locations. Such services facilitate safe and coordinated transitions across care settings, which may be particularly appropriate for Enrollees who have experienced or are expecting an inpatient stay.

A.4 Cost-sharing for Covered Services

A.4.1 Except as described below, cost-sharing of any kind is not permitted in Cal MediConnect.

A.4.1.1. Co-pays charged by Demonstration Plans for Part D drugs must not exceed the applicable amounts for brand and generic drugs established yearly by CMS under the Part D Low Income Subsidy.

A.4.1.2. The Contractor may establish lower cost-sharing for prescription drugs than the maximum allowed.

A.4.1.3. Co-pays charged by Demonstration Plans for supplemental dental benefits.

A.5 Limitations on Covered Services.

A.5.1 – Termination of pregnancy may be provided only as allowed by applicable State and federal law and regulation (42 C.F.R. Part 441, Subpart E).

A.5.2 –Sterilization services may be provided only as allowed by State and federal law (see 42 C.F.R. Part 441, Subpart F).

Appendix B: Enrollee Rights

The Contractor must have written policies regarding the Enrollee rights specified in this appendix, as well as written policies specifying how information about these rights will be disseminated to Enrollees. Enrollees must be notified of these rights and protections at least annually, and in a manner that takes in to consideration cultural considerations, Functional Status and language needs. Enrollee rights include, but are not limited to, those rights and protections provided by 42 C.F.R. § 438.100, 42 C.F.R. §422 Subpart C, and the CFAM-MOU. Specifically, Enrollees must be guaranteed:

A. The right to be treated with dignity and respect.
B. The right to be afforded Privacy and confidentiality in all aspects of care and for all health care information, unless otherwise required by law.
C. The right to be provided a copy of his or her medical records, upon request, and to request corrections or amendments to these records, as specified in 45 C.F.R. part 164.
D. The right not to be discriminated against based on race, ethnicity, national origin, religion, sex, age, sexual orientation, medical or claims history, mental or physical disability, genetic information, or source of payment.
E. The right to have all plan options, rules, and benefits fully explained, including through use of a qualified interpreter if needed.
F. Access to an adequate network of primary and specialty providers who are capable of meeting the Enrollee's needs with respect to physical access, and communication and scheduling needs, and are subject to ongoing assessment of clinical quality including required reporting.
G. The right to choose a plan and provider at any time and have that choice be effective the first calendar day of the following month.
H. The right to participate in all aspects of care and to exercise all rights of Appeal. Enrollees have a responsibility to be fully involved in maintaining their health and making decisions about their health care, including the right to refuse treatment if desired, and must be appropriately informed and supported to this end. Specifically, Enrollees must:
    a. Receive a comprehensive Health Risk Assessment upon date of coverage in a plan and to participate in the development and implementation of an Individualized Care Plan. The assessment must include considerations of social, functional, medical, behavioral, wellness and prevention domains, an evaluation of the Enrollee's strengths and weaknesses, and a plan for managing and coordination of Enrollee's care. Enrollees, or their designated representative, also have the right to request a reassessment by the interdisciplinary team, and be fully involved in any such reassessment.
    b. Receive complete and accurate information on his or her health and

Functional Status by the interdisciplinary team.

c. Be provided information on all program services and health care options, including available treatment options and alternatives, presented in a culturally appropriate manner, taking in to consideration Enrollee's condition and ability to understand. A participant who is unable to participate fully in treatment decisions has the right to designate a representative. This includes the right to have translation services available to make information appropriately accessible. Information must be available:
    i. Before enrollment.
    ii. At enrollment.
    iii. At the time a participant's needs necessitate the disclosure and delivery of such information in order to allow the participant to make an informed choice.
d. Be encouraged to involve caregivers or family members in treatment discussions and decisions.
e. Receive reasonable advance notice, in writing, of any transfer to another treatment setting and the justification for the transfer.
f. Be afforded the opportunity to file an Appeal if services are denied that he or she thinks are medically indicated, and to be able to ultimately take that Appeal to an independent external system of review.

I. The right to receive medical and non-medical care from a team that meets the beneficiary's needs, in a manner that is sensitive to the beneficiary's language and culture, and in an appropriate care setting, including the home and community.
J. The right to be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience, or retaliation.
K. Each Enrollee is free to exercise his or her rights and that the exercise of those rights does not adversely affect the way the Contractor and its providers or the DHCS treat the Enrollee.
L. The right to receive timely information about plan changes. This includes the right to request and obtain the information listed in the Orientation materials at least once per year, and, the right to receive notice of any significant change in the information provided in the Orientation materials at least 30 days prior to the intended effective date of the change. See 438.10 for G and H.
M. The right to be protected from liability for payment of any fees that are the obligation of the Contractor.
N. The right not to be charged any cost sharing for Medicare Parts A and B services.
O. The unconditional and exclusive right to hire, fire, and supervise his or her IHSS provider.
P. The right to receive their Medicare and Medi-Cal Appeals rights in a format and language understandable and accessible to them.
Q. The right to opt out of Cal MediConnect at any time, beginning at the first of the

following month.

Appendix C: Relationship with First Tier, Downstream, and Related Entities

A. Contractor shall ensure that any contracts or agreements with First Tier, Downstream and Related Entities performing functions on Contractor's behalf related to the operation of the Medicare-Medicaid plan are in compliance with 42 C.F.R. §§422.504, 423.505, and 438.3(k).

B. Contractor shall specifically ensure:
   1. HHS, the Comptroller General, or their designees have the right to audit, evaluate, and inspect and books, contracts, computer or other electronic systems, including medical records and documentation of the First Tier, Downstream and Related Entities; and
   2. HHS's, the Comptroller General's, or their designees right to inspect, evaluate, and audit any pertinent information for any particular contract period for ten years from the final date of the contract period or from the date of completion of any audit, whichever is later.

C. Contractor shall ensure that all contracts or arrangements with First Tier, Downstream and Related Entities contain the following:
   1. Enrollee protections that include prohibiting providers from holding an Enrollee liable for payment of any fees that are the obligation of the Contractor;
   2. Language that any services or other activity performed by a First Tier, Downstream and Related Entities is in accordance with the Contractor's contractual obligations to CMS and DHCS; including the requirements at 42 C.F.R. § 438.414 in relation to the Grievance system.
   3. Language that specifies the delegated activities and reporting requirements;
   4. Language that provides for revocation of the delegation activities and reporting requirements or specifies other remedies in instances where CMS, DHCS or the Contractor determine that such parties have not performed satisfactorily;
   5. Language that specifies the performance of the parties is monitored by the Contractor on an ongoing basis and the Contractor may impose corrective action as necessary;
   6. Language that specifies the First Tier, Downstream and Related Entities agree to safeguard Enrollee Privacy and confidentiality of Enrollee health records; and
   7. Language that specifies the First Tier, Downstream and Related Entities must comply with all federal and State laws, regulations and CMS instructions.

D. Contractor shall ensure that all contracts or arrangements with First Tier, Downstream and Related Entities that are for credentialing of medical providers contains the following language:
   1. The credentials of medical professionals affiliated with the party or parties will be either reviewed by the Contractor; or
   2. The credentialing process will be reviewed and approved by the Contractor and the Contractor must audit the credentialing process on an ongoing basis.

E. Contractor shall ensure that all contracts or arrangements with First Tier, Downstream and Related Entities that delegate the selection of providers must

include language that the Contractor retains the right to approve, suspend, or terminate any such arrangement.

F. Contractor shall ensure that all contracts or arrangements with First Tier, Downstream and Related Entities shall state that the Contractor shall provide a written statement to a provider of the reason or reasons for termination with cause.

G. Contractor shall ensure that all contracts or arrangements with First Tier, Downstream and Related Entities for medical providers include additional provisions. Such contracts or arrangements must contain the following:

1. Language that the Contractor is obligated to pay contracted medical providers under the terms of the contract between the Contractor and the medical provider. The contract must contain a prompt payment provision, the terms of which are developed and agreed to by both the Contractor and the relevant medical provider;
2. Language that services are provided in a culturally competent manner to all Enrollees, including those with limited English proficiency or reading skills, and diverse culturally and ethnic backgrounds;
3. Language that medical providers abide by all federal and State laws and regulations regarding confidentiality and disclosure of medical records, or other health and enrollment information;
4. Language that medical providers ensure that medical information is released in accordance with applicable federal or State law, or pursuant to court orders or subpoenas;
5. Language that medical providers maintain Enrollee records and information in an accurate and timely manner;
6. Language that medical providers ensure timely access by Enrollees to the records and information that pertain to them; and
7. Language that Enrollees will not be held liable for Medicare Part A and B cost sharing. Specifically, Medicare Parts A and B services must be provided at zero cost-sharing to Enrollees.
8. Language that clearly states the medical providers' EMTALA obligations and must not create any conflicts with hospital actions required to comply with EMTALA.
9. Language prohibiting providers, including, but not limited to PCPs, from closing or otherwise limiting their acceptance of Enrollees as patients unless the same limitations apply to all commercially insured Enrollees.
10. Language that prohibits the Contractor from refusing to contract or pay an otherwise eligible health care provider for the provision of Covered Services solely because such provider has in good faith:
    (a) Communicated with or advocated on behalf of one or more of his or her prospective, current or former patients regarding the provisions, terms or requirements of the Contractor's health benefit plans as they relate to the needs of such provider's patients; or
    (b) Communicated with one or more of his or her prospective, current or former

patients with respect to the method by which such provider is compensated by the Contractor for services provided to the patient.

11. Language that states the provider is not required to indemnify the Contractor for any expenses and liabilities, including, without limitation, judgments, settlements, attorneys' fees, court costs and any associated charges, incurred in connection with any claim or action brought against the Contractor based on the Contractor's management decisions, utilization review provisions or other policies, guidelines or actions.
12. Language that specifies the term of the contract, including the beginning and ending dates as well as methods of extension, renegotiation and termination.
13. Full disclosure of the method and amount of compensation or other consideration to be received from the Contractor.
14. Language that requires the medical provider to assist Contractor in the transfer of care.
15. Language that requires the medical provider to assist Contractor in the transfer of care in the event of sub-subcontract termination for any reason.
16. Notify DHCS in the event the agreement with the Contractor is amended or terminated. Notice is considered given when properly addressed and deposited in the United States Postal Service as first-class registered mail, postage attached.
17. Assignment or delegation of the Subcontract will be void unless prior written approval is obtained from DHCS.
18. Timely gather, preserve and provide to DHCS, any records in the subcontractor's possession.
19. Provide interpreter services for Enrollees at all provider sites.
20. Right to submit a Grievance and Contractor's formal process to resolve Provider Grievances.
21. To participate and cooperate in the Contractor's Quality Improvement System.
22. If Contractor delegates Quality Improvement activities, Subcontract shall include provisions as specified by DHCS.

Appendix D: Quality Improvement Requirements

The Contractor will undertake the following quality improvement initiatives with the goal of identifying areas in need of improvement and undertaking quality improvement activities in response to the findings related to each initiative.

1. Emergency Department utilization. The goal of this initiative is to better understand reasons for ED utilization among Cal MediConnect Enrollees, and the impact of LTSS to such usage.
    - Contractor will identify a random sample of Enrollees each year who have utilized ED services. [
    - Contractor will engage an independent quality assurance entity to conduct interviews with each Enrollee in the sample to determine background & causes for ED visits, using a semi-structured interview tool provided by DHCS.
    - Contractor will analyze results of the surveys in order to understand the underlying causes of ED utilization, including the use of and/or or failure of LTSS, or there was a lack of appropriate LTSS to adequately support the Enrollee in his or her environment. Contractor will identify issues within its system of care that require improvement to promote appropriate utilization of both LTSS and emergency department services.
    - Contractor will report results to DHCS and to CMS.

2. Barriers to Health Access. The goal of this initiative is to better understand access issues experienced by Cal MediConnect Enrollees.
    - Contractor will identify a random representative sample size of Enrollees each year.
    - An independent quality assurance entity will conduct interviews with each Enrollee in the sample, using a semi-structured interview tool provided by DHCS, to determine if any barriers to health care were experienced and to understand the nature of those barriers. Examples of barriers include, but are not limited to, the following: inaccessible medical equipment in provider offices, inaccessible signage in provider

offices (i.e. no Braille writing on signs), inaccessible communication from the Cal MediConnect or providers (i.e. no access to ASL interpreters, no written communication in large print or plain language, or no access to someone who can explain information), inadequate access to appropriate physicians for intellectually disabled Enrollees, and incomplete or poor care due to negative attitudes about disability and/or recovery from providers.

Contractor will analyze results of the surveys in order to understand the underlying causes of these barriers to health care access. Contractor will identify issues within its system of care that require improvement to promote access and ADA

3. Other topic areas to be identified through annual guidance by CMS and DHCS in accordance with 42 C.F.R. § 422.152(c) and 422.152(d).

Appendix E: Addendum to Capitated Financial Alignment Contract

PURSUANT TO SECTIONS 1860D-1 THROUGH 1860D-43 OF THE SOCIAL SECURITY ACT FOR THE OPERATION OF A VOLUNTARY MEDICARE PRESCRIPTION DRUG PLAN

The Centers for Medicare & Medicaid Services (hereinafter referred to as "CMS"), the State of California, acting by and through the Department of Health Care Services (DHCS), and Orange County Health Authority, a Medicare-Medicaid managed care organization (hereinafter referred to as Contractor) agree to amend the contract H8016 governing Contractor's operation of a Medicare-Medicaid plan described in § 1851(a)(2)(A) of the Social Security Act (hereinafter referred to as "the Act") to include this addendum under which Contractor shall operate a Voluntary Medicare Prescription Drug Plan pursuant to §§1860D-1 through 1860D-43 (with the exception of §§1860D-22(a) and 1860D-31) of the Act.

Article I

Voluntary Medicare Prescription Drug Plan

A. Contractor agrees to operate one or more Medicare Voluntary Prescription Drug Plans as described in its application and related materials submitted to CMS for Medicare approval, including but not limited to all the attestations contained therein and all supplemental guidance, and in compliance with the provisions of this addendum, which incorporates in its entirety the *2013 Capitated Financial Alignment Application*, released on March 29, 2012 [(hereinafter collectively referred to as "the addendum"). Contractor also agrees to operate in accordance with the regulations at 42 C.F.R. Part 423 (with the exception of Subparts Q, R, and S), §§1860D-1 through 1860D-43 (with the exception of §§1860D-22(a) and 1860D-31) of the Act, and the applicable solicitation identified above, as well as all other applicable federal statutes, regulations, and policies. This addendum is deemed to incorporate any changes that are required by statute to be implemented during the term of this Contract and any regulations or policies implementing or interpreting such statutory or regulatory provisions.

B. CMS agrees to perform its obligations to Contractor consistent with the regulations at 42 C.F.R. Part423 (with the exception of Subparts Q, R, and S), §§1860D-1 through 1860D-43 (with the exception of §§1860D-22(a) and 1860D-31) of the Act, and the applicable solicitation, as well as all other applicable federal statutes, regulations, and policies.

C. CMS agrees that it will not implement, other than at the beginning of a calendar year, regulations under 42 C.F.R. Part 423 that impose new, significant regulatory requirements on Contractor. This provision does not apply to new requirements mandated by statute.

D. This addendum is in no way intended to supersede or modify 42 C.F.R., Parts 417, 422, 423, 431 or 438. Failure to reference a regulatory requirement in this addendum does not affect the applicability of such requirements to Contractor, DHCS, and CMS.

Article II
Functions to be Performed by Contractor

A. ENROLLMENT

1. Contractor agrees to enroll in its Medicare-Medicaid plan only Medicare-Medicaid eligible beneficiaries as they are defined in 42 C.F.R. §423.30(a) and who have elected to enroll in Contractor's Capitated Financial Alignment benefit.

B. PRESCRIPTION DRUG BENEFIT

1. Contractor agrees to provide the required prescription drug coverage as defined under 42 C.F.R. §423.100 and, to the extent applicable, supplemental benefits as defined in 42 C.F.R. §423.100 and in accordance with Subpart C of 42 C.F.R. Part 423. Contractor also agrees to provide Part D benefits as described in Contractor's Part D plan benefit package(s) approved each year by CMS (and in the Attestation of Benefit Plan and Price, attached hereto).

2. Contractor agrees to maintain administrative and management capabilities sufficient for the organization to organize, implement, and control the financial, communication, benefit administration, and quality assurance activities related to the delivery of Part D services as required by 42 C.F.R. §423.505(b)(25).

C. DISSEMINATION OF PLAN INFORMATION

1. Contractor agrees to provide the information required in 42 C.F.R. §423.48.

2. Contractor acknowledges that CMS releases to the public summary reconciled Part D Payment data after the reconciliation of Part D Payments for the Contract year as provided in 42 C.F.R. §423.505(o).

3. Contractor certifies that all materials it submits to CMS under the File and Use Certification authority described in the Medicare Communications and Marketing Guidelines are accurate, truthful, not misleading, and consistent with CMS marketing guidelines.

D. QUALITY ASSURANCE/UTILIZATION MANAGEMENT

1. Contractor agrees to operate quality assurance, drug utilization management, and medication therapy management programs, and to support electronic prescribing in accordance with Subpart D of 42 C.F.R. Part 423.

2. Contractor agrees to address Complaints received by CMS against the Contractor as required in 42 C.F.R. §423.505(b)(22) by:

   (a) Addressing and resolving Complaints in the CMS Complaint tracking system; and

   (b) Displaying a link to the electronic Complaint form on the Medicare.gov Internet Web site on the Part D plan's main Web page.

E. APPEALS AND GRIEVANCES

Contractor agrees to comply with all requirements in Subpart M of 42 C.F.R. Part 423 governing coverage determinations, Grievances and Appeals, and formulary exceptions and the relevant provisions of Subpart U governing reopenings. Contractor acknowledges that these requirements are separate and distinct from the Appeals and Grievances requirements applicable to Contractor through the operation of its Medicare Parts A and B and Medicaid benefits.

F. PAYMENT TO CONTRACTOR

Contractor and CMS and DHCS agree that payment paid for Part D services under the addendum will be governed by the rules in Subpart G of 42 C.F.R. Part 423.

G. PLAN BENEFIT SUBMISSION AND REVIEW

If Contractor intends to participate in the Part D program for the next program year, Contractor agrees to submit the next year's Part D plan benefit package including all required information on benefits and cost-sharing, by the applicable due date, as provided in Subpart F of 42 C.F.R. Part 423 so that CMS, DHCS and Contractor may conduct negotiations regarding the terms and conditions of the proposed benefit plan renewal. Contractor acknowledges that failure to submit a timely plan benefit package under this section may affect the Contractor's ability to offer a plan, pursuant to the provisions of 42 C.F.R. §422.4(c).

H. COORDINATION WITH OTHER PRESCRIPTION DRUG COVERAGE

1. Contractor agrees to comply with the coordination requirements with State Pharmacy Assistance Programs (SPAPs) and plans that provide other prescription drug coverage as described in Subpart J of 42 C.F.R. Part 423.

2. Contractor agrees to comply with Medicare Secondary Payer procedures as stated in 42 C.F.R. §423.462.

I. SERVICE AREA AND PHARMACY ACCESS

1. Contractor agrees to provide Part D benefits in the Service Area for which it has been approved by CMS and DHCS (as defined in Appendix I) to offer Medicare Parts A and B benefits and Medicaid benefits utilizing a pharmacy network and formulary approved by CMS and DHCS that meet the requirements of 42 C.F.R. §423.120.

2. Contractor agrees to provide Part D benefits through out-of-network pharmacies according to 42 C.F.R. §423.124.

3. Contractor agrees to provide benefits by means of point-of-service systems to adjudicate prescription drug claims in a timely and efficient manner in compliance with CMS standards, except when necessary to provide access in underserved areas, I/T/U pharmacies (as defined in 42 C.F.R. §423.100), and long-term care pharmacies (as defined in 42 C.F.R. §423.100) according to 42 C.F.R. §423.505(b)(17).

4. Contractor agrees to contract with any pharmacy that meets Contractor's reasonable and relevant standard terms and conditions according to 42 C.F.R. §423.505(b)(18), including making standard contracts available on request in accordance with the timelines specified in the regulation.

J. EFFECTIVE COMPLIANCE PROGRAM/PROGRAM INTEGRITY

Contractor agrees that it will develop and implement an effective compliance program that applies to its Part D-related operations, consistent with 42 C.F.R. §423.504(b)(4)(vi).

K. LOW-INCOME SUBSIDY

Contractor agrees that it will participate in the administration of subsidies for low-income subsidy eligible individuals according to Subpart P of 42 C.F.R. Part 423.

L. BENEFICIARY FINANCIAL PROTECTIONS

Contractor agrees to afford its Enrollees protection from liability for payment of fees that are the obligation of Contractor in accordance with 42 C.F.R. §423.505(g).

M. RELATIONSHIP WITH FIRST TIER, DOWNSTREAM, AND RELATED ENTITIES

1. Contractor agrees that it maintains ultimate responsibility for adhering to and otherwise fully complying with all terms and conditions of this addendum.

2. Contractor shall ensure that any contracts or agreements with First Tier, Downstream and Related Entities performing functions on Contractor's behalf related to the operation of the Part D benefit are in compliance with 42 C.F.R. §423.505(i).

N. CERTIFICATION OF DATA THAT DETERMINE PAYMENT

Contractor must provide certifications in accordance with 42 C.F.R. §423.505(k).

O. SUBMISSION OF PRESCRIPTION DRUG EVENT DATA

1. Contractor shall submit prescription drug event data in accordance with 42 C.F.R. §423.329(b)(3).

P. CONTRACTOR REIMBURSEMENT TO PHARMACIES

1. If Contractor uses a standard for reimbursement of pharmacies based on the cost of a drug, Contractor will update such standard not less frequently than once every 7 days, beginning with an initial update on January 1 of each year, to accurately reflect the market price of the drug.

2. Contractor will issue, mail, or otherwise transmit payment with respect to all claims submitted by pharmacies (other than pharmacies that dispense drugs by mail order only, or are located in, or contract with, a long-term care facility) within 14 days of receipt of an electronically submitted claim or within 30 days of receipt of a claim submitted otherwise.

3. Contractor must ensure that a pharmacy located in, or having a contract with, a long-term care facility will have not less than 30 days (but not more than 90 days) to submit claims to Contractor for reimbursement.

Article III
Record Retention and Reporting Requirements

A. RECORD MAINTENANCE AND ACCESS

Contractor agrees to maintain records and provide access in accordance with 42 C.F.R. §§ 423.505 (b)(10) and 423.505(i)(2).

B. GENERAL REPORTING REQUIREMENTS

Contractor agrees to submit information to CMS according to 42 C.F.R. §§423.505(f) and 423.514, and the "Final Medicare Part D Reporting Requirements," a document issued by CMS and subject to modification each program year.

C. CMS AND DHCSLICENSE FOR USE OF CONTRACTOR FORMULARY

Contractor agrees to submit to CMS and DHCS the Contractor's formulary information, including any changes to its formularies, and hereby grants to the

Government, and any person or entity who might receive the formulary from the Government, a non-exclusive license to use all or any portion of the formulary for any purpose related to the administration of the Part D program, including without limitation publicly distributing, displaying, publishing or reconfiguration of the information in any medium, including www.medicare.gov, and by any electronic, print or other means of distribution.

Article IV
HIPAA Provisions

A. Contractor agrees to comply with the confidentiality and Enrollee record accuracy requirements specified in 42 C.F.R. §423.136.

B. Contractor agrees to enter into a business associate agreement with the entity with which CMS has contracted to track Medicare beneficiaries' true out-of-pocket costs.

Article V
Addendum Term and Renewal

A. TERM OF ADDENDUM

This addendum is effective from the date of CMS' authorized representative's signature through December 31, 2013. This addendum shall be renewable for successive one-year periods thereafter according to 42 C.F.R. §423.506.

B. QUALIFICATION TO RENEW ADDENDUM

1. In accordance with 42 C.F.R. §423.507, Contractor will be determined qualified to renew this addendum annually only if—

   (a) Contractor has not provided CMS or DHCS with a notice of intention not to renew in accordance with Article VII of this addendum

2. Although Contractor may be determined qualified to renew its addendum under this Article, if Contractor, CMS, and DHCS cannot reach agreement on the Part D plan benefit package under Subpart F of 42 C.F.R. Part 423, no renewal takes place, and the failure to reach agreement is not subject to the Appeals provisions in Subpart N of 42 C.F.R. Parts 422 or 423. (Refer to Article X for consequences of non-renewal on the Capitated Financial Alignment Contract.)

Article VI
Nonrenewal of Addendum By Contractor

Back to Item
Back to Agenda
Back to Agenda

A. Contractor may non-renew this addendum in accordance with 42 C.F.R. 423.507(a).

Article VII
Modification or Termination of Addendum by Mutual Consent

This addendum may be modified or terminated at any time by written mutual consent in accordance with 42 C.F.R. 423.508. (Refer to Article X for consequences of non-renewal on the Capitated Financial Alignment Contract.)

Article VIII
Termination of Addendum by CMS

CMS may terminate this addendum in accordance with 42 C.F.R. 423.509. (Refer to Article X for consequences of non-renewal on the Capitated Financial Alignment Contract.)

Article IX
Termination of Addendum by Contractor

A. Contractor may terminate this addendum only in accordance with 42 C.F.R. 423.510.

B. If the addendum is terminated under section A of this Article, Contractor must ensure the timely transfer of any data or files. (Refer to Article X for consequences of non-renewal on the Capitated Financial Alignment Contract.)

Article X
Relationship between Addendum and Capitated Financial Alignment Contract

A. Contractor acknowledges that, if it is a Capitated Financial Alignment contractor, the termination or nonrenewal of this addendum by any party may require CMS to terminate or non-renew the Contractor's Capitated Financial Alignment Contract in the event that such non-renewal or termination prevents Contractor from meeting the requirements of 42 C.F.R. §422.4(c), in which case the Contractor must provide the notices specified in this contract, as well as the notices specified under Subpart K of 42 C.F.R. Part 422.

B. The termination of this addendum by any party shall not, by itself, relieve the parties from their obligations under the Capitated Financial Alignment Contract to which this document is an addendum.

C. In the event that Contractor's Capitated Financial Alignment Contract is terminated or nonrenewed by any party, the provisions of this addendum shall also terminate.

In such an event, Contractor, DHCS and CMS shall provide notice to Enrollees and the public as described in this Contract as well as 42 C.F.R. Part 422, Subpart K or 42 C.F.R. Part 417, Subpart K, as applicable.

Article XI
Intermediate Sanctions

Consistent with Subpart O of 42 C.F.R. Part 423, Contractor shall be subject to sanctions and civil money penalties.

Article XII
Severability

Severability of the addendum shall be in accordance with 42 C.F.R. §423.504(e).

Article XIII
Miscellaneous

A. DEFINITIONS

Terms not otherwise defined in this addendum shall have the meaning given such terms at 42 C.F.R. Part 423 or, as applicable, 42 C.F.R. Parts 417, 422, 431 or Part 438.

B. ALTERATION TO ORIGINAL ADDENDUM TERMS

Contractor agrees that it has not altered in any way the terms of the Contractor addendum presented for signature by CMS. Contractor agrees that any alterations to the original text Contractor may make to this addendum shall not be binding on the parties.

C. ADDITIONAL CONTRACT TERMS

Contractor agrees to include in this addendum other terms and conditions in accordance with 42 C.F.R. §423.505(j).

D. CMS AND DHCS APPROVAL TO BEGIN MARKETING AND ENROLLMENT ACTIVITIES

Contractor agrees that it must complete CMS operational requirements related to its Part D benefit prior to receiving CMS and DHCS' approval to begin Contractor marketing activities relating to its Part D benefit. Such activities include, but are not limited to, establishing and successfully testing connectivity with CMS and DHCS systems to process enrollment applications (or contracting with an entity qualified to

perform such functions on Contractor's behalf) and successfully demonstrating the capability to submit accurate and timely price comparison data. To establish and successfully test connectivity, Contractor must, 1) establish and test physical connectivity to the CMS data center, 2) acquire user identifications and passwords, 3) receive, store, and maintain data necessary to send and receive transactions to and from CMS, and 4) check and receive transaction status information.

E. Pursuant to §13112 of the American Recovery and Reinvestment Act of 2009 (ARRA), Contractor agrees that as it implements, acquires, or upgrades its health information technology systems, it shall utilize, where available, health information technology systems and products that meet standards and implementation specifications adopted under § 3004 of the Public Health Service Act, as amended by §13101 of the ARRA.

F. Contractor agrees to maintain a fiscally sound operation by at least maintaining a positive net worth (total assets exceed total liabilities) as required in 42 C.F.R. §423.505(b)(23).

Appendix F: Data Use Attestation

The Contractor shall restrict its use and disclosure of Medicare and Medi-Cal data obtained from CMS and DHCS information systems (listed in Attachment A) to those purposes directly related to the administration of the Medicare/Medicaid managed care and/or outpatient prescription drug benefits for which it has contracted with the CMS and DHCS to administer. The Contractor shall only maintain data obtained from CMS and DHCS information systems that are needed to administer the Medicare/Medicaid managed care and/or outpatient prescription drug benefits that it has contracted with CMS and DHCS to administer. The Contractor (or its First Tier, Downstream or other Related Entities) may not re-use or provide other entities access to the CMS information system, or data obtained from the system or DHCS, to support any line of business other than the Medicare/Medicaid managed care and/or outpatient prescription drug benefit for which the Contractor contracted with CMS and DHCS.

The Contractor further attests that it shall limit the use of information it obtains from its Medicare-Medicaid Enrollees to those purposes directly related to the administration of such plan. The Contractor acknowledges two exceptions to this limitation. First, the Contractor may provide its Medicare-Medicaid Enrollees information about non-health related services after obtaining consent. Second, the Contractor may provide information about health-related services without obtaining prior consent, as long as the Contractor affords the Enrollee an opportunity to elect not to receive such information.

CMS may terminate the Contractor's access to the CMS data systems immediately upon determining that the Contractor has used its access to a data system, data obtained from such systems, or data supplied by its Medicare-Medicaid Enrollees beyond the scope for which CMS and DHCS have authorized under this agreement. A termination of this data use agreement may result in CMS or DHCS terminating the Contractor's Medicare-Medicaid contract(s) on the basis that it is no longer qualified as an Integrated Care Organization (Cal MediConnect). This agreement shall remain in effect as long as the Contractor remains a Cal MediConnect sponsor. This agreement excludes any public use files or other publicly available reports or files that CMS or DHCS make available to the general public on their websites.

Attachment A

The following list contains a representative (but not comprehensive) list of CMS information systems to which the Data Use Attestation applies. CMS will update the list periodically as necessary to reflect changes in the agency's information systems

Automated Plan Payment System (APPS)
Common Medicare Environment (CME)
Common Working File (CWF)
Coordination of Benefits Contractor (COBC)
Drug Data Processing System (DDPS)
Electronic Correspondence Referral System (ECRS)
Enrollment Database (EDB)
Financial Accounting and Control System (FACS)
Front End Risk Adjustment System (FERAS)
Health Plan Management System (HPMS), including Complaints Tracking and all other modules
HI Master Record (HIMR)
Individuals Authorized Access to CMS Computer Services (IACS)
Integrated User Interface (IUI)
Medicare Advantage Prescription Drug System (MARx)
Medicare Appeals System (MAS)
Medicare Beneficiary Database (MBD)
Payment Reconciliation System (PRS)
Premium Withholding System (PWS)
Prescription Drug Event Front End System (PDFS)
Retiree Drug System (RDS)
Risk Adjustments Processing Systems (RAPS)

Appendix G: Model File & Use Certification Form

Pursuant to the Contract between the Centers for Medicare & Medicaid Services (CMS), the State of California, acting by and through the Department of Health Care Services (DHCS) and Plan hereafter referred to as the Contractor, governing the operations of the following health plan: Orange County Health Authority, the Contractor hereby certifies that all qualified materials for the Demonstration is accurate, truthful and not misleading. Organizations using File & Use Certification agree to retract and revise any materials (without cost to the government) that are determined by CMS or DHCS to be misleading or inaccurate or that do not follow established Medicare Communications and Marketing Guidelines, Regulations, and sub-regulatory guidance. In addition, organizations may be held accountable for any beneficiary financial loss as a result of mistakes in marketing materials or for misleading information that results in uninformed decision by a beneficiary to elect the plan. Compliance criteria include, without limitation, the requirements in 42 C.F.R. §§422.2260 – 422.2276 and 42 C.F.R. §422.111 for Cal MediConnect and the Medicare Communications and Marketing Guidelines.

I agree that CMS or DHCS may inspect any and all information including those held at the premises of the Contractor to ensure compliance with these requirements. I further agree to notify CMS and DHCS immediately if I become aware of any circumstances that indicate noncompliance with the requirements described above.

I possess the requisite authority to make this certification on behalf of the Contractor.

Appendix H: Medicare Mark License Agreement

THIS AGREEMENT is made and entered into January 1, 2018

by and between

THE CENTERS FOR MEDICARE & MEDICAID SERVICES (hereinafter "Licensor"),
with offices located at 7500 Security Blvd., Baltimore, MD 21244

and

Orange County Health Authority (hereinafter "Licensee"),
with offices located at 505 City Parkway West, Orange, CA 92868.

CMS Contract ID: H8016

WITNESSETH

WHEREAS, Licensor is the owner of the Medicare Prescription Drug Benefit program, a program authorized under Title XVIII, Part D of the Social Security Act (Part D), Mark (the "Mark").

WHEREAS, Licensee desires to use the Mark on Part D marketing materials (including the identification card) beginning September 1, 2019.

WHEREAS, both parties, in consideration of the premises and promises contained herein and other good and valuable consideration which the parties agree is sufficient, and each intending to be legally bound thereby, the parties agree as follows:

1. Subject to the terms and conditions of this Agreement, Licensor hereby grants to Licensee a non-exclusive right to use the Mark in their Part D marketing materials.
2. Licensee acknowledges Licensor's exclusive right, title, and interest in and to the Mark and will not, at any time, do or cause to be done any act or thing contesting or in any way impairing or tending to impair any part of such right, title, and interest. Licensee acknowledges that the sole right granted under this Agreement with respect to the Mark is for the purposes described herein, and for no other purpose whatsoever.
3. Licensor retains the right to use the Mark in the manner or style it has done so prior to this Agreement and in any other lawful manner.
4. This Agreement and any rights hereunder are not assignable by Licensee and any attempt at assignment by Licensee shall be null and void.
5. Licensor, or its authorized representative, has the right, at all reasonable times, to inspect any material on which the Mark is to be used, in order that Licensor may satisfy itself that the material on which the Mark appears meets with the standards, specifications, and instructions submitted or approved by Licensor. Licensee shall use the Mark without modification and in accordance with the Mark usage policies described within the Medicare Communications and Marketing Guidelines. Licensee shall not take any action inconsistent with the Licensor's ownership of the Mark, and any goodwill accruing from use of such Mark shall automatically vest in Licensor.
6. This agreement shall be effective on the date of signature by the Licensee's authorized representative through December 31, 2019, concurrent with the execution of the Part D addendum to the three way contract. This Agreement may be terminated by either party upon written notice at any time. Licensee agrees, upon written notice from Licensor, to discontinue any use of the Mark immediately. Starting December 31, 2019, this agreement shall be renewable for

successive one-year periods running concurrently with the term of the Licensee's Part D contract. This agreement shall terminate, without written notice, upon the effective date of termination or non-renewal of the Licensee's Part D contract (or Part D addendum to a Capitated Financial Alignment Demonstration contract).

7. Licensee shall indemnify, defend and hold harmless Licensor from and against all liability, demands, claims, suits, losses, damages, infringement of proprietary rights, causes of action, fines, or judgments (including costs, attorneys' and witnesses' fees, and expenses incident thereto), arising out of Licensee's use of the Mark.
8. Licensor will not be liable to Licensee for indirect, special, punitive, or consequential damages (or any loss of revenue, profits, or data) arising in connection with this Agreement even if Licensor has been advised of the possibility of such damages.
9. This Agreement is the entire agreement between the parties with respect to the subject matter hereto.
10. Federal law shall govern this Agreement.

Appendix I: Service Area

The Service Area outlined below is contingent upon the Contractor meeting all Readiness Review requirements in each county. CMS and DHCS reserve the right to amend Appendix I to revise the Service Area based on final Readiness Review results or subsequent determinations made by CMS and DHCS.

County Service Area:

Orange

Appendix J: Eligible Populations

Enrollment into Cal MediConnect will be available to individuals who meet all of the following criteria:

- Age 21 and older at the time of enrollment;
- Entitled to, or enrolled for, benefits under Part A of title XVIII of the Social Security Act, or enrolled for benefits under Part B of title XVIII of such Act, and is eligible for medical assistance under a State plan under title XIX of such Act or under a waiver of such plan;
- Eligible for full Medicaid (Medi-Cal), including
    - Individuals enrolled in the Multipurpose Senior Services Program (MSSP).
    - Individuals who meet the share of cost provisions described below:
        - Nursing facility residents with a share of cost,
        - MSSP Enrollees with a share of cost, and
        - IHSS recipients with a share of cost.
    - Individuals eligible for full Medicaid (Medi-Cal) per the spousal impoverishment rule codified at section 1924 of the Social Security Act as described below:
        - For those Enrollees who are nursing facility level of care, subacute facility level of care, or intermediate care facility level of care and reside or could reside outside of a hospital or nursing facility, the Department or its designee shall make a Medi-Cal eligibility determination "as if" the beneficiary were in a long-term care facility. Specifically, the spousal impoverishment rule codified section 1924 of the Act will apply to Enrollees. The terms "intermediate care facility level of care" and "nursing facility level of care" and "subacute facility level of care" shall have the same meaning as defined in Title 22 of the California Code of Regulations sections 51120, 51124, and 52224.5.
- Reside in one of the following Demonstration counties: Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Mateo, and Santa Clara.
    - Up to 200,000 individuals in Los Angeles may be enrolled in the Demonstration. CMS and the State will monitor the enrollment and stop participation when this enrollment cap is met.
- Individuals residing in San Mateo or Orange county with a diagnosis of end stage renal disease (ESRD) at the time of enrollment.

The following populations will be excluded from enrollment:

- Individuals under age 21;
- Individuals with other private or public health insurance;
- Individuals receiving services through California's regional centers or State developmental centers or intermediate care facilities for the developmentally

Back to Item
Back to Agenda
Back to Agenda

disabled in Los Angeles, Orange, Riverside, San Bernardino, San Diego, and Santa Clara counties;

- Individuals with a share of cost that do not meet the requirements outlined above;
- Individuals residing in one of the Veterans' Homes of California;
- Individuals living in the following rural zip codes:
    - San Bernardino County – 92242, 92267, 92280, 92323, 92332, 92363, 92364, 92366, 93562, 92280, 93592, and 93558
    - Los Angeles County - 90704
    - Riverside County - 92225, 92226, 92239;
- Individuals with a diagnosis of end stage renal disease (ESRD) at the time of enrollment and residing in Los Angeles, Riverside, San Bernardino, San Diego, and Santa Clara, unless they are already enrolled in a separate line of business operated by the Contractor. Individuals enrolled in the Demonstration who are subsequently diagnosed with ESRD, as with all Enrollees, may choose to disenroll from the Demonstration or may choose to stay enrolled.

Individuals that may enroll but may not be passively enrolled include (see section C.2 for a description of Passive Enrollment):

- Individuals residing in the following rural zip codes in San Bernardino County in which only one Cal MediConnect Plan operates: 92252, 92256, 92268, 92277, 92278, 92284, 92285, 92286, 92304, 92305, 92309, 92310, 92311, 92312, 92314, 92315, 92317, 92321, 92322, 92325, 92326, 92327, 92333, 92338, 92339, 92341, 92342, 92347, 92352, 92356, 92365, 92368, 92372, 92378, 92382, 92385, 92386, 92391, 92397, and 92398;
- Individuals enrolled in Medicare Advantage in 2014;
- Individuals in one of the following programs may enroll only after they have disenrolled from the program:
    - Individuals enrolled in the following 1915(c) waivers: Nursing Facility/Acute hospital Waiver, HIV/AIDS Waiver, Assisted Living Waiver, and In Home Operations Waiver; and
    - Individuals enrolled in Program of All-Inclusive Care for the Elderly (PACE) or the AIDS Healthcare Foundation.

Appendix K: Disputes

Contractor also agrees to the following:

1. This Disputes section will be used by the Contractor as the means of seeking resolution of disputes on contractual issues. It shall not be used with respect to any dispute regarding the actuarial soundness of the capitated rate, as provided in paragraph 4.6.2. Filing a dispute will not preclude DHCS and CMS from recouping the value of the amount in dispute from the Contractor or from offsetting this amount from subsequent capitation payment(s). If the amount to be recouped exceeds twenty-five (25) percent of the capitation payment, amounts of up to twenty-five (25) percent will be withheld from successive capitation payments until the amount in dispute is fully recouped.
2. Disputes Resolution by Negotiation
    a. DHCS, CMS and Contractor agree to try to resolve all contractual issues by negotiation and mutual agreement at the Contract Management Team (CMT) without litigation. The parties recognize that the implementation of this policy depends on open-mindedness, and the need for both sides to present adequate supporting information on matters in question.
3. Notification of Dispute
    a. Within fifteen (15) calendar days of the date the dispute concerning performance of this Contract arises or otherwise becomes known to the Contractor, the Contractor will notify the CMT in writing of the dispute, describing the conduct (including actions, inactions, and written or oral communications) which it is disputing.
    b. The Contractor's notification will state, on the basis of the most accurate information then available to the Contractor, the following:
        i. That it is a dispute pursuant to this section.
        ii. The date, nature, and circumstances of the conduct which is subject of the dispute.
        iii. The names, phone numbers, function, and activity of each Contractor, subcontractor, DHCS/State official or CMS employee involved in or knowledgeable about the conduct.
        iv. The identification of any documents and the substances of any oral communications involved in the conduct. Copies of all identified documents will be attached.
        v. The reason the Contractor is disputing the conduct.
        vi. The cost impact to the Contractor directly attributable to the alleged conduct, if any.
        vii. The Contractor's desired remedy.

c. The required documentation, including cost impact data, will be carefully prepared and submitted with substantiating documentation by the Contractor. This documentation will serve as the basis for any subsequent Appeal.

d. Following submission of the required notification, with supporting documentation, the Contractor will comply with the requirements of Title 22 CCR Section 53851(d) and diligently continue performance of this Contract, including matters identified in the Notification of Dispute, to the maximum extent possible.

4. CMT or Alternate Dispute Officer's Decision

a. Pursuant to a request by Contractor, the CMT may provide for a dispute to be decided by an alternate dispute officer designated by DHCS and CMS, who is not a member of the CMT and is not directly involved in Medicare or the Medi-Cal Managed Care Program, as appropriate for the issue involved. Any disputes concerning performance of this Contract shall be decided by the CMT or the alternate dispute officer in a written decision stating the factual basis for the decision. Within thirty (30) calendar days of receipt of a Notification of Dispute, the CMT or the alternate dispute officer, shall either:

i. Find in favor of Contractor, in which case the CMT or alternate dispute officer may:

A. Countermand the earlier conduct which caused Contractor to file a dispute; or

ii. Or,

A. Deny Contractor's dispute and, where necessary, direct the manner of future performance; or

B. Request additional substantiating documentation in the event the information in Contractor's notification is inadequate to permit a decision to be made under 1) or 2) above, and shall advise Contractor as to what additional information is required, and establish how that information shall be furnished. Contractor shall have 30 calendar days to respond to the CMT or alternate dispute officer's request for further information. Upon receipt of this additional requested information, the CMT or alternate dispute officer shall have 30 calendar days to respond with a decision. Failure to supply additional information required by the CMT or alternate dispute officer within the time period specified above shall constitute waiver by Contractor of all claims in accordance with Paragraph F. Waiver of Claims, below. A copy of the decision shall be served on Contractor.

5. Appeal of CMT or Alternate Dispute Officer's Decision

a. Contractor shall have thirty (30) calendar days following the receipt of the decision to file an Appeal of the decision to the Director and the Medicare Drug & Health Plan Contract Administration Group Director, Center for Medicare. All Appeals

shall be governed by Health and Safety Code Section 100171, except for those provisions of Section 100171(d)(1) relating to accusations, statements of issues, statement to respondent, and notice of defense. All Appeals shall be in writing and shall be filed with DHCS' Office of Administrative Hearings and Appeals. An Appeal shall be deemed filed on the date it is received by the Office of Administrative Hearings and Appeals. An Appeal shall specifically set forth each issue in dispute, and include Contractor's contentions as to those issues. However, Contractor's Appeal shall be limited to those issues raised in its Notification of Dispute filed pursuant to Paragraph B. Notification of Dispute above. Failure to timely Appeal the decision shall constitute a waiver by Contractor of all claims arising out of that conduct, in accordance with Paragraph 7, Waiver of Claims below, Contractor shall exhaust all procedures provided for in this Appendix K, Disputes, prior to initiating any other action to enforce this Contract.

6. Contractor Duty to Perform

    a. Pending final determination of any dispute hereunder, Contractor shall comply with the requirements of Title 22 CCR Section 53851(d) and proceed diligently with the performance of this Contract and in accordance with the CMT or alternate dispute officer's decision. If pursuant to an Appeal under Paragraph 5, Appeal of CMT or Alternate Dispute Officer's Decision above, the CMT or alternate dispute officer's decision is reversed, the effect of the decision pursuant to Paragraph 5. shall be retroactive to the date of the CMT or alternate dispute officer's decision, and Contractor shall promptly receive any benefits of such decision. CMS and DHCS shall not pay interest on any amounts paid pursuant to a CMT or alternate dispute officer's decision or any Appeal of such decision, or any subsequent court decision or court order regarding the subject matter of the Notification of Dispute.

7. Waiver of Claims

    a. If Contractor fails to submit a Notification of Dispute, supporting and substantiating documentation, any additionally required information, or an Appeal of the CMT or alternate dispute officer's decision, in the manner and within the time specified in this Appendix K, Disputes, that failure shall constitute a waiver by Contractor of all claims arising out of that conduct, whether direct or consequential in nature.

Appendix L: Additional Medicare Waivers

In addition to the waivers granted for the Cal MediConnect demonstration in the MOU, CMS hereby waives Section 1860-D1 of the Social Security Act, as implemented in 42 C.F.R. § 423.38(c)((4)(i), and extend Sections 1851(a), (c), (e), and (g) of the Social Security Act, as implemented in 42 C.F.R. Part 422, Subpart B only insofar as such provisions are inconsistent with allowing dually eligible beneficiaries to change enrollment on a monthly basis.

1. Executive Summary

The Department of Health Care Services (DHCS) has developed a framework that encompasses broad-based delivery system, program and payment reform across the Medi-Cal program, called CalAIM: California Advancing and Innovating Medi-Cal. CalAIM advances several key priorities of the Administration by leveraging Medicaid as a tool to help address many of the complex challenges facing California's most vulnerable residents, such as homelessness, behavioral health care access, children with complex medical conditions, the growing number of justice-involved populations who have significant clinical needs, and the growing aging population.

This proposal recognizes the opportunity to provide for non-clinical interventions focused on a whole-person care approach via Medi-Cal that targets social determinants of health and reduces health disparities and inequities. Furthermore, the broader system, program, and payment reforms included in CalAIM allow the state to take a population health, person-centered approach to providing services with the goal of improving outcomes for all Californians. Attaining such goals will have significant impact on an individuals' health and quality of life and, through iterative system transformation, will ultimately reduce the per-capita costs over time. DHCS intends to work with the Administration, Legislature and our other partners on these proposals and recognizes the important need to discuss these issues and their prioritization within the state budget process. These are updated proposals based on extensive stakeholder feedback. Implementation will ultimately depend on the availability of funding and the requisite federal approvals.

CalAIM implementation was originally scheduled to begin in January 2021, but was delayed due the impact of the COVID-19 public health emergency. As a result, DHCS is proposing a new CalAIM start date of January 1, 2022.

1.1 Background and Overview

Medi-Cal has significantly expanded and changed over the last ten years, most predominantly because of changes brought by the Affordable Care Act and various federal regulations, as well as state-level statutory and policy changes. During this time, DHCS has also undertaken many initiatives and embarked on innovative demonstration projects to improve the beneficiary experience. In particular, DHCS has increased the number of beneficiaries receiving the majority of their physical health care through Medi-Cal managed care plans. These plans are able to offer more complete care coordination and care management than is possible through a fee-for-service system. They can also provide a broader array of services aimed at stabilizing and supporting the lives of Medi-Cal beneficiaries.

Depending on their needs, some beneficiaries may access six or more separate delivery systems (managed care, fee-for-service, mental health, substance use disorder, dental,

developmental, In Home Supportive Services, etc.) in order to get their needs addressed. As one would expect, the need for care coordination increases with greater system fragmentation, greater clinical complexity, and/or decreased patient capacity for coordinating their own care. Therefore, in order to meet the behavioral, developmental, physical, and oral health needs of all members in an integrated, patient centered, whole person fashion, DHCS is seeking to integrate our delivery systems and align funding, data reporting, quality and infrastructure to mobilize and incentivize towards common goals.

Together, these CalAIM proposals offer solutions designed to ensure the stability of the Medi-Cal program and allow the critical successes of waiver demonstrations such as Whole Person Care Pilots, the Health Homes Program, the Coordinated Care Initiative, and the public hospital system delivery transformation, that advance the coordination and delivery of quality care to continue and be expanded to all Medi-Cal enrollees.

Our vision is that people served by our programs should have longer, healthier and happier lives. There will be a whole system, person centered approach to health and social care, in which services are only one element of supporting people to have better health and wellbeing throughout their whole lives. It will be an integrated “wellness” system, which aims to support and anticipate health needs, to prevent illness, and to reduce the impact of poor health.

The whole system, person centered approach will be equitable. Services and supports will deliver the same high quality of care, and achieve more equal health outcomes across the entire continuum of care, for all. It will improve the physical, behavioral, developmental, oral and long term services and supports, throughout their lives, from birth to a dignified end of life.

When people need support, care or treatment they will be able to access a range of services which are made seamless, and delivered as close to home as possible. Services will be designed around the individual and around groups of people, based on their unique need and what matters to them, as well as quality and safety outcomes.

To do this, we must change the expectations for our managed care and behavioral health systems. Holding our delivery system partners accountable for a set of programmatic and administrative expectations is no longer enough. We must provide a wider array of services and supports for complex, high need patients whose health outcomes are in part driven by unmet social needs and systemic racism. We must make the system changes necessary to close the gap in transitions between delivery systems, create opportunities for appropriate step-down care and mitigate social determinants of health, all hindering the ability to improve health outcomes and morbidity.

Back to Agenda
Back to Agenda

1.2 Guiding Principles

In 2018, the Care Coordination Advisory Committee developed a core set of guiding principles that were refined and established as the principles for the CalAIM initiative:

- Improve the member experience.
- Deliver person-centered care that meets the behavioral, developmental, physical, long term services and supports, and oral health needs of all members.
- Work to align funding, data reporting, quality, and infrastructure to mobilize and incentivize toward common goals.
- Build a data-driven population health management strategy to achieve full system alignment.
- Identify and mitigate social determinants of health and reduce disparities and inequities.
- Drive system transformation that focuses on value and outcomes.
- Eliminate or reduce variation across counties and plans, while recognizing the importance of local innovation.
- Support community activation and engagement.
- Improve the plan and provider experience by reducing administrative burden when possible.
- Reduce the per-capita cost over time through iterative system transformation.

1.3 Key Goals

To achieve these principles, CalAIM has three primary goals:

- Identify and manage member risk and need through whole person care approaches and addressing Social Determinants of Health;
- Move Medi-Cal to a more consistent and seamless system by reducing complexity and increasing flexibility; and
- Improve quality outcomes, reduce health disparities, and drive delivery system transformation and innovation through value-based initiatives, modernization of systems, and payment reform.

Below is an overview of the various proposals and recommendations that make up CalAIM. See **Appendix A: 2021 and Beyond: CalAIM Implementation Timeline** for more information.

Back to Item
Back to Agenda
Back to Agenda

1.4 Identify and Manage Member Risk and Need Through Whole Person Care Approaches and Addressing Social Determinants of Health

California continues to strengthen integration within the state's health care delivery system aimed at achieving better care and better health. In line with these objectives, DHCS is proposing reforms that would better identify and manage member risk and need for beneficiaries who may be challenged with medical and behavioral conditions, access to care, chronic illnesses and disabilities, and require multidisciplinary care to regain health and function.

To achieve these goals, DHCS proposes the following whole system, person centered approach that focuses on addressing the needs of beneficiaries across the system with the overarching goal of improving quality of life and health.

- Develop a statewide **population health management** strategy and require plans to submit local population health mangement plans.
- Implement a new statewide **enhanced care management benefit**.
- Implement **in lieu of services** (e.g. housing navigation/supporting services, recuperative care, respite, sobering center, etc.).
- Implement **incentive payments** to drive plans and providers to invest in the necessary infrastructure to build appropriate enhanced care management and in lieu of services capacity statewide.
- Pursue participation in the **Serious Mental Illness/Serious Emotional Disturbance Demonstration Opportunity**.
- Require screening and enrollment for Medi-Cal **prior to release from county jail**.
- **Pilot full integration** of physical health, behavioral health, and oral health under one contracted entity in a county or region.
- Develop a long-term plan for improving health outcomes and delivery of health care for **foster care children and youth**.

Population Health Management

Medi-Cal managed care plans shall develop and maintain a whole system, person-centered population health management strategy, which is a cohesive plan of action for addressing member needs across the continuum of care based on data driven risk stratification, predictive analytics, and standardized assessment processes. Each managed care plan shall provide, at a minimum, a description of how it will:

- Keep all members healthy by focusing on preventive and wellness services;
- Identify and assess member risks and needs on an ongoing basis;
- Manage member safety and outcomes during transitions, across delivery systems or settings, through effective care coordination; and

Back to Item
Back to Agenda
Back to Agenda

- Identify and mitigate social determinants of health and reduce health disparities or inequities.

Enhanced Care Management

DHCS proposes to establish a new, statewide enhanced care management benefit. An enhanced care management benefit would provide a whole-person approach to care that addresses the clinical and non-clinical circumstances of high-need Medi-Cal beneficiaries. Enhanced care management is a collaborative and interdisciplinary approach to providing intensive and comprehensive care management services to individuals. The proposed benefit builds on the current Health Homes Program and Whole Person Care Pilots, and transitions those services to this new statewide managed care benefit to provide a broader platform to build on positive outcomes from those programs.

Proposed target populations include:

- Children or youth with complex physical, behavioral, developmental, and oral health needs (e.g. California Children Services, foster care, youth with clinical high-risk syndrome or first episode of psychosis).
- Individuals experiencing homelessness, chronic homelessness or who are at risk of becoming homeless.
- High utilizers with frequent hospital admissions, short-term skilled nursing facility stays, or emergency room visits.
- Individuals at risk for institutionalization who are eligible for long-term care services.
- Nursing facility residents who want to transition to the community.
- Individuals at risk for institutionalization with serious mental illness (SMI), children with serious emotional disturbance (SED) or substance use disorder (SUD) with co-occurring chronic health conditions.
- Individuals transitioning from incarceration who have significant complex physical or behavioral health needs requiring immediate transition of services to the community.

In Lieu of Services & Incentive Payments

In order to build upon and transition the excellent work done under California's Whole Person Care Pilots, DHCS is proposing to implement in lieu of services, which are flexible wrap-around services that a Medi-Cal managed care plan will integrate into its population health strategy. These services are provided as a substitute to, or to avoid, other covered services, such as a hospital or skilled nursing facility admission or a discharge delay. In lieu of services would be integrated with care management for members at high levels of

risk and may fill gaps in state plan benefits to address medical or social determinants of health. The current list of in lieu of services includes:

- Housing Transition Navigation Services
- Housing Deposits
- Housing Tenancy and Sustaining Services
- Short-term Post-Hospitalization Housing
- Recuperative Care (Medical Respite)
- Respite Services
- Day Habilitation Programs
- Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly (RCFE) and Adult Residential Facilities (ARF)
- Community Transition Services/Nursing Facility Transition to a Home
- Personal Care and Homemaker Services
- Environmental Accessibility Adaptations (Home Modifications)
- Meals/Medically Tailored Meals
- Sobering Centers
- Asthma Remediation

The provision of in lieu of services is voluntary for plans and optional for beneficiaries, but the combination of enhanced care management and in lieu of services allows for a number of integration opportunities, including an incentive for building incremental change to achieve integrated managed long-term services and supports (MLTSS) in the managed care program by 2027 and building the necessary clinically-linked housing continuum for our homeless population. In order to be equipped with the required MLTSS and housing infrastructure, the state must use its ability to provide Medi-Cal managed care plans with financial incentive payments to work with their providers to invest in the necessary delivery and systems infrastructure, build appropriate care management and in lieu of services capacity, and achieve improvements in quality performance and measurement reporting that can inform future policy decisions.

SMI/SED Demonstration Opportunity

With some exceptions, federal Medicaid funding cannot be used to pay for services provided to a Medicaid beneficiary while the beneficiary is residing in an Institution for Mental Disease (IMD). This is referred to as the IMD exclusion. Generally, an IMD is a hospital, nursing home or other institution with more than 16 beds that is primarily

Back to Item
Back to Agenda
Back to Agenda

engaged in treating persons with mental diseases. However, the federal government has developed an opportunity for states to receive federal funding for institutional services provided to populations with a Serious Mental Illness or Serious Emotional Disturbance (SMI/SED), similar to the flexibility the state has secured for the Drug Medi-Cal Organized Delivery System (DMC-ODS) pilots. DHCS proposes to assess county interest in pursuing the SMI/SED demonstration opportunity, as long as our systems are positioned to achieve the required goals and outcomes, including building out a full continuum of care to offer beneficiaries community-based care in the least restrictive setting. Counties would voluntarily "opt-in" to participate. The main elements of the proposed SMI/SED demonstration opportunity would include:

- Ensuring high quality of care in psychiatric hospitals and residential settings, including required audits;
- Improving care coordination and transitions to community-based care;
- Increasing access to a full continuum of care including crisis stabilization and other clinically enriched forms of housing in the community with robust support services; and
- Earlier identification and engagement in treatment including through increased integration.

In pursuing this demonstration opportunity, counties that "opt-in" should be prepared to build out a robust continuum so individuals who begin at a higher level of institutional care can be stepped down to a less restrictive, community-based, residential setting.

Mandatory Medi-Cal Application Process upon Release from Jail and County Juvenile Facilities

Justice-involved individuals often receive both medical and behavioral health services while incarcerated. Upon release from jail or county juvenile facilities, proper coordination is needed to ensure the medical and behavioral health needs of an individual continue to be met, and additionally ensure critical non-clinical needs, such as housing, transportation, and overall integration back into the community are met. Studies have shown that these types of care coordination activities reduce unnecessary emergency room and inpatient stays, as well as improve treatment and medication adherence upon release from jail. To ensure all county inmates receive timely access to Medi-Cal services upon release from incarceration, DHCS proposes that California mandate a county inmate Medi-Cal application process by January 2023. Additionally, DHCS is proposing to mandate that jails and county juvenile facilities implement a process for facilitated referral and linkage from county institution release to county specialty mental health, Drug Medi-Cal, DMC-ODS, and Medi-Cal managed care plans when the inmate was receiving behavioral health services while incarcerated, to allow for continuation of behavioral health treatment in the community.

Full Integration Plans

DHCS would like to test the effectiveness of an approach to provide full integration of physical health, behavioral health, and oral health under one contracted entity. Due to the complexity of the policy considerations around this concept, DHCS will need to conduct extensive stakeholder engagement around issues such as eligibility criteria for entities, administrative requirements across delivery systems, provider network requirements, quality and reporting requirements, as well as complex financial considerations due to the current realignment and Proposition 30 structure of behavioral health. Given the complexity of this proposal and time needed for consideration and planning, DHCS expects that the first selected full integration plans would go live no sooner than 2027.

Develop a Long-Term Plan for Foster Care

In June 2020, DHCS launched the Foster Care Model of Care Workgroup to provide an opportunity for stakeholders to weigh in on a long-term plan and strategy for improving health outcomes and the delivery of fully-integrated health care services for foster care children and youth. The workgroup will complete its work in June 2021. Based on input from the workgroup, DHCS and the California Department of Social Services (CDSS) will develop a plan of action, which may involve budget recommendations, waiver amendments, state plan changes or other activities.

1.5 Moving Medi-Cal to a More Consistent and Seamless System by Reducing Complexity and Increasing Flexibility

Medi-Cal provides services to some of California's most vulnerable and medically complex beneficiaries, but many of the services vary depending on the county one lives in. DHCS is proposing to standardize and reduce complexity by implementing administrative and financial efficiencies across the state and aligning delivery systems to provide more predictability and reduce county-to-county differences. These reforms stretch across managed care, behavioral health, dental, and other county-based services.

To achieve such goals, DHCS proposes the following recommendations.

Managed Care

- Standardize managed care enrollment statewide
- Standardize managed care benefits statewide
- Transition to statewide managed long-term services and supports
- Require Medi-Cal managed care plans be National Committee for Quality Assurance (NCQA) accredited
- Implement regional rates for Medi-Cal managed care plans

Back to Item
Back to Agenda
Back to Agenda

Behavioral Health

- Behavioral health payment reform
- Medical necessity criteria
- Administrative behavioral health integration statewide
- Regional contracting
- Drug Medi-Cal Organized Delivery System (DMC-ODS) program renewal and policy improvements

Dental

- New benefit: Caries Risk Assessment Bundle for young children (0 to 6 years of age) and Silver Diamine Fluoride for young children (0 to 6 years of age) and specified high-risk and institutional populations, as described in detail below.
- Pay for Performance for two adult and 17 children preventive services codes and continuity of care through a Dental Home

County-Based Services

- Enhance oversight and monitoring of Medi-Cal Eligibility
- Enhance oversight and monitoring of California Children's Services and the Child Health and Disability Prevention program
- Improving beneficiary contact and demographic information

Back to Item
Back to Agenda
Back to Agenda

Managed Care

Managed Care Enrollment

DHCS proposes requiring all non-dual eligible Medi-Cal beneficiaries by January 2022 and all full- and partial-benefit dual beneficiaries by January 2023, statewide, to be enrolled mandatorily in a managed care plan. The one exception is for those for whom managed care enrollment is not appropriate due to limited scope of benefits or limited time enrolled. The goal is to align managed care enrollment practices that currently vary by aid code, population, and geographic location.

Standardize Managed Care Benefits

DHCS proposes to standardize managed care plan benefits, so that all Medi-Cal managed care plans provide the same benefit package by 2023. Some of the most significant changes are to carve-in institutional long-term care and major organ transplants into managed care statewide.

Transition to Statewide Managed Long-Term Services and Supports

To achieve a more standardized approach to comprehensive care coordination for all populations, DHCS is proposing to discontinue the Cal MediConnect pilot program at the end of calendar year 2022. DHCS proposes to transition from the pilot approach of the Coordinated Care Initiative (CCI) to standardized mandatory enrollment of dual eligibles into managed care. The goal is to achieve Medi-Cal benefits integration of long-term care into managed care for all Medi-Cal populations statewide, and to transition Cal MediConnect plans to Medicare Dual-Eligible Special Needs Plans (D-SNPs). This will be done in phases:

January 2022: The Coordinated Care Initiative (CCI) proceeds as today, except that the Multipurpose Senior Services Programs benefit would be carved out of managed care. DHCS will also implement voluntary in lieu of services at this time.

January 2023: Full transition to mandatory enrollment of dual eligibles into managed care. Further, all dual and non-dual fee-for-service (FFS) Medi-Cal beneficiaries residing in a long-term care facility will be enrolled in a managed care plan effective January 1, 2023. In addition, Medi-Cal managed care plans operating in CCI counties will be required to operate Medicare D-SNPs to transition the Cal MediConnect demonstration to a permanent, ongoing federal authority and to coordinate members' Medi-Cal and Medicare benefits.

January 2025: Medi-Cal managed care plans in non-CCI counties will be required to operate Medicare D-SNPs.

Back to Item
Back to Agenda
Back to Agenda

The purpose of these transitions and phases is to achieve a long-term goal of implementing MLTSS statewide in Medi-Cal managed care beginning in 2027, by providing enough time and incentive to develop the needed infrastructure. This will allow many duals to receive needed MLTSS and home and community-based services statewide through their managed care plan, instead of through a variety of 1915(c) HCBS waivers that currently have capped enrollment and are not statewide.

NCQA Accreditation of Medi-Cal Managed Care Plans

In order to streamline Medi-Cal managed care plan oversight and to increase standardization across plans, DHCS recommends requiring all Medi-Cal managed care plans and their health plan subcontractors to achieve National Committee for Quality Assurance (NCQA) accreditation by 2026. DHCS plans to use NCQA findings to certify or deem that Medi-Cal managed care plans meet certain state and federal Medicaid requirements.

Regional Rates

DHCS proposes to shift the development of Medi-Cal managed care plan rates from a county-based model to a regional rate model. The proposal to move to regional rates has two main benefits. The first benefit is a decrease in the number of distinct actuarial rating cells that are required to be submitted to CMS for review and approval. The reduction in rating cells will simplify the presentation of rates to CMS and allow DHCS to pursue/implement financing advancements and innovations utilizing a more flexible rate model. The second benefit of regional rates is cost averaging across all plans. This will continue to incentivize plan cost efficiencies, as plan rates will be inclusive of the costs within the multi-county region. This shift will produce a larger base for the averaging beyond the experience of plans operating within a single county. This change is fundamental to the ability of DHCS to implement and sustain the other changes proposed in CalAIM.

Behavioral Health

Behavioral Health Payment Reform

The state, in partnership with counties, must take serious steps to continue to invest in and improve access to mental health and substance use disorder (SUD) services for Medi-Cal beneficiaries. Behavioral health transformation is a critical priority for the Governor, the California Health and Human Services Agency, and for DHCS. We recognize that we need to improve quality of and access to care for children and other vulnerable populations. In order to achieve true system transformation, DHCS is committed to first achieving behavioral health payment reform, where DHCS will transition counties from a cost-based reimbursement methodology to a structure more consistent

Back to Item
Back to Agenda
Back to Agenda

with incentivizing outcomes and quality over volume and cost. This shift is being designed in conjunction with our county partners and will enable counties to participate in broader delivery system transformation efforts and engage in value-based payment arrangements with their health plan partners to support better coordination and integration between physical and behavioral health. This shift will be done thoughtfully with a key focus on ensuring no disruption of services or financial challenges for our county partners.

Behavioral health payment reform is an essential step to other opportunities for the counties around behavioral health integration, regional contracting and delivery system investments needed to advance a high-quality continuum of care for mental health and SUD services in the community.

Revisions to Behavioral Health Medical Necessity

The medical necessity criteria for specialty mental health services is outdated, lacks clarity, and should be re-evaluated. This issue creates confusion, misinterpretation, and could affect beneficiary access to services as well as result in disallowances of claims for specialty mental health and substance use disorder services. DHCS is proposing to update behavioral health medical necessity criteria to more clearly delineate and standardize requirements and to improve access for beneficiaries to appropriate services statewide.

Administrative Behavioral Health Integration

Approximately half of individuals with a serious mental illness (SMI) have co-occurring substance use and those individuals would benefit from integrated treatment. The state covers Medi-Cal SUD and specialty mental health services through separate county contracts, which makes it difficult for counties and contracted providers to offer integrated treatment to individuals with co-occurring disorders. For example, counties are subject to two separate annual quality assessments, two separate post-payment chart audits, and two separate reimbursement and cost reporting methods. In order to comply with these separate processes, providers offering integrated treatment to a Medi-Cal beneficiary must document SUD treatment services separately from specialty mental health services. The purpose of this proposal is to streamline the administrative functions for SUD and specialty mental health services.

Behavioral Health Regional Contracting

Small counties could optimize resources through regional administration and delivery of specialty mental health and SUD services to Medi-Cal beneficiaries. There are a variety of options available to counties, including a Joint Powers Authority to provide services for a multi-county region (e.g., Sutter/Yuba). Counties could also pool resources to contract with an administrative services organization/third-party administrator or other entity, such

Back to Item
Back to Agenda
Back to Agenda

as the local Medi-Cal managed care plan or County Medical Services Program, to create administrative efficiencies across multiple counties. Small counties, rural/frontier counties, and counties with shared population centers or complementary resources should consider opportunities for regional partnership. Furthermore, DHCS encourages counties to join the Drug Medi-Cal Organized Delivery System (DMC-ODS) or provide DMC services through a regional approach. DHCS is committed to working with counties to offer technical assistance to help develop regional contracts and establish innovative partnerships.

Drug Medi-Cal Organized Delivery System (DMC-ODS) Program Renewal and Policy Improvements

DHCS proposes to update the DMC-ODS program, based on experience from the first several years of implementation. Accordingly, DHCS proposes clarifying and/or changing policies to support the goal of improved beneficiary access to care, quality of care, and administrative efficiency.

Dental

The Department set an initial goal to achieve at least a 60 percent dental utilization rate for eligible Medi-Cal children. To continue progress toward achieving this goal, and based on lessons learned from the Dental Transformation Initiative (DTI), DHCS proposes the following statewide reforms for Medi-Cal dental coverage:

- Add new dental benefits based on the outcomes and successes from the DTI that will provide better care and align with national oral health standards. The proposed new benefits include a Caries Risk Assessment Bundle for young children and Silver Diamine Fluoride for young children and specified high-risk and institutional populations; and

- Continue and expand Pay for Performance Initiatives initiated under the DTI that reward increasing the use of preventive services and establishing/maintaining continuity of care through a dental home. These expanded initiatives would be available statewide for children and adult Medi-Cal enrollees.

Back to Agenda
Back to Agenda

County Partners

Enhancing County Oversight and Monitoring: Eligibility

This proposal will help to improve DHCS' oversight and monitoring of various aspects of Medi-Cal eligibility and enrollment and the activities of its contracted partners. This includes implementing additional county oversight activities to increase the integrity of the administration of the Medi-Cal program, as well as implementing the recommendations of the California State Auditor's Office. This proposal will also ensure that DHCS remains compliant with federal and state eligibility and enrollment requirements. These enhancements will be developed and implemented in direct collaboration with our county partners.

Enhancing County Oversight and Monitoring: CCS and CHDP

There are several programs – including California Children's Services, the Medical Therapy Program, and the Child Health and Disability Prevention program – that provide services to over 750,000 children in Medi-Cal. The state delegates certain responsibilities for these high-risk children to California's 58 counties and three (3) cities (Berkeley, Pasadena, and Long Beach). The state needs to enhance the oversight of counties to ensure they comply with applicable state and federal requirements. Enhancing monitoring and oversight will eliminate disparities in care and reduce vulnerabilities to the state and counties, thereby preserving and improving the overall health and well-being of California's vulnerable populations.

Improving Beneficiary Contact and Demographic Information

DHCS intends to convene a workgroup of interested stakeholders to provide feedback and recommendations on ways in which beneficiary contact and demographic information can be updated by other entities and the means to accomplish this, while maintaining compliance with all applicable state and federal privacy laws. The goal of the workgroup will be to determine the best pathway for ensuring that reported data is accurate and can be used in eligibility and enrollment systems/databases without creating unintended consequences for other social services programs, Medi-Cal beneficiaries, managed care plans, and the provider community.

1.6 Advancing Key Priorities

As DHCS has assessed the changes proposed under CalAIM, it has become apparent that these proposals are critically dependent upon each other -- without one, the others are neither possible nor powerful.

Back to Item
Back to Agenda
Back to Agenda

These reforms are fundamental to achieve the overall goals of improving the system and outcomes for Medi-Cal beneficiaries as well as providing long-term fiscal and programmatic sustainability to the Medi-Cal program and delivery system. In developing these recommendations, DHCS has recognized that individual proposals are significantly less likely to be achievable and successful if other key proposals are not pursued. For example, absent the proposed financing changes with respect to both the regional rate setting for Medi-Cal managed care and the structural changes to Medi-Cal behavioral health financing, the ability of our partnered plan and county entities to institute the changes focused on value-based and integrated delivery of care are significantly harder and potentially impossible to achieve.

These fundamental financing changes would not be possible without the elimination of differences across counties with respect to the delivery systems through which Medi-Cal benefits are delivered. Nearly every other proposal contained within CalAIM (such as enhanced care management, in lieu of services, and incentive payments, as well as the possibility of future full integration pilots) is critically dependent on the success of others.

The Medi-Cal program has evolved over the multiple decades since inception with ever-increasing system and fiscal complexities. CalAIM offers DHCS and the entire State of California an opportunity to take a step back to better assess what Medi-Cal beneficiaries need and alter the delivery systems accordingly, while at the same time working to be more effective and efficient with the finite funding available for the program.

CalAIM aligns with and advances several key priorities of the Administration. At its core, CalAIM recognizes the impact of Medi-Cal on the lives of its beneficiaries well beyond just accessing health services in traditional delivery settings. CalAIM establishes a foundation where investments and programs within Medi-Cal can easily integrate, complement and catalyze the Administration's plan to respond to the state's homelessness crisis; support reforms of our justice systems for youth and adults who have significant health issues; build a platform for vastly more integrated systems of care; and move toward a level of standardization and streamlined administration required as we explore single payer principles through the Healthy California for All Commission.

Furthermore, CalAIM will translate a number of existing Medi-Cal efforts such as Whole Person Care and the Health Homes Program, the prescription drug Executive Order, improving screenings for children, proliferating the use of value-based payments across our system, including in behavioral health and long-term care, into the future of the program. CalAIM will also support the ongoing need to increase oversight and monitoring of all county-based services, including specialty mental health and substance use disorder services, Medi-Cal eligibility administration, and other key children's programs currently administered by our county partners.

Back to Item
Back to Agenda
Back to Agenda

Below is an overview of the impact CalAIM could have on certain populations, if approved and funded as proposed:

Health for All: In addition to focusing on preventive and wellness services, CalAIM will identify patients with high and emerging risk/need and improve the entire continuum of care across Medi-Cal. This will ensure the system more appropriately manages patients over time, through a comprehensive array of health and social services spanning all levels of intensity of care, from birth and early childhood to end of life.

High Utilizers (top 5%): It is well documented that the highest utilizers represent a majority of the costs in Medi-Cal and in Medicaid nationally. CalAIM proposes enhanced care management and in lieu of services (such as housing-related services, transitions, respite, and sobering centers) that address the clinical and non-clinical needs of these high-cost Medi-Cal beneficiaries. The initiative envisions a collaborative and interdisciplinary whole person care approach to providing intensive and comprehensive care management services to improve health and mitigate social determinants of health.

Behavioral Health: CalAIM's behavioral health proposals would initiate a fundamental shift in how California organizes and administers specialty mental health and substance use disorder services. It aligns the financing of behavioral health with that of physical health, which provides financial flexibility to innovate, and enter into value-based payment arrangements that improve quality and access to care. Similarly, the reforms in CalAIM simplify administration of, and access to, integrated behavioral health care.

Vulnerable Children: CalAIM is designed to improve and streamline care for medically complex children to ensure they get their physical, behavioral, developmental, and oral health needs met. It aims to identify innovative solutions for providing low-barrier, comprehensive care for children and youth in foster care and furthers the efforts already underway to improve preventive services for children, including identifying the complex impacts of trauma, toxic stress, and adverse childhood experiences through, among other things, a reexamination of the existing behavioral health medical necessity definition.

Homelessness and Housing: The addition of in lieu of services would build capacity to the clinically-linked housing continuum for our homeless population, and would include housing transition navigation services, housing deposits, housing tenancy and sustaining services, short-term post hospitalization housing, recuperative care for inpatient transitions, and day habilitation programs.

Justice-Involved: Under the proposed Medi-Cal pre-release application mandate, enhanced care management and in lieu of services would provide the opportunity to better coordinate medical, behavioral health, and non-clinical social services for justice-involved individuals prior to and upon release from county jails and county juvenile

facilities. These efforts will support scaling of diversion and re-entry efforts aimed at keeping some of the most acute and vulnerable individuals with serious medical or behavioral health conditions out of jail/prison and in their communities, further aligning with other state hospital efforts to better support care for those who are incompetent to stand trial and other forensic state-responsible populations.

Aging Population: In lieu of services, carving in long-term care statewide, mandatory Medi-Cal managed care enrollment, and aligned enrollment for dual eligible beneficiaries in Medi-Cal and D-SNP plans would allow the state to build infrastructure over time to provide MLTSS statewide by 2027. MLTSS will provide appropriate services and infrastructure for integrated care and home and community-based services to meet the needs of aging beneficiaries and individuals at risk of institutionalization and is a critical component of the California's Master Plan for Aging.

1.7 From Medi-Cal 2020 to CalAIM

Through CalAIM, DHCS is undertaking a more targeted approach to consolidating its Medi-Cal benefit package to achieve better alignment across the system. While Medicaid Section 1115 authority has historically been the mechanism of choice for states interested in building and expanding managed care delivery systems, the use of the authority has evolved in recent years. The federal government no longer considers the "savings" generated from the shift from fee-for-service to managed care that occurred 15 years ago in Medicaid as relevant in calculating the required budget neutrality for waivers. CMS in recent guidance has also discontinued approval of traditional financing mechanisms in the Section 1115 context, namely the availability of federal funds for Designated State Health Programs and Safety Net Care Pools.

In addition, given that California has significant learnings from our past Section 1115 demonstrations, DHCS believes a primary shift to the use of other authorities is now appropriate to allow us to expand beyond limited pilots to more statewide initiatives. These factors, combined with federal managed care regulations, has encouraged DHCS to shift its focus away from the Section 1115 waiver authority to instead leverage other available pathways for delivery system transformation in the Medi-Cal program.

This proposal outlines all elements of the Medi-Cal 2020 waiver and how they will, or will not, be incorporated in to CalAIM. DHCS does not believe California is losing any critical funding or ability to improve and advance the delivery systems and ultimately improve the beneficiary experience and outcomes. In fact, the proposed shift will allow programs or pilots that have traditionally lived outside the core managed care system, where nearly 85% of all Medi-Cal beneficiaries receive care, to be brought into the main fold of the managed care delivery system.

Back to Item
Back to Agenda
Back to Agenda

In March 2020, as COVID-19 community spread accelerated, the State of California moved quickly to stem the spread by enacting one the nation's earliest stay-at-home orders. This stay-at-home order was accompanied by suspension of non-essential medical procedures, transition to telehealth for many services, transition to telework for administrative staff, and reprioritization of health care resources and training, including infection control measures, to address COVID. While the stay-at-home order and related delivery system changes slowed the spread of the virus, these changes caused significant disruption to the overall health care delivery system, and the economy, in California.

As a result, DHCS received multiple requests from organizations representing the state's health care delivery systems (e.g. counties, provider organizations, hospitals, behavioral health directors, and managed care plans). Stakeholders uniformly requested that, since providers and other partners are not able to properly prepare for CalAIM implementation given the focus and attention needed to respond to the COVID-19 emergency, the state request an extension of the Medi-Cal 2020 Section 1115 waiver.

In recognition, the Governor's revision to the state budget released in May 2020 postponed funding for CalAIM. This confluence of events prevented the state from moving ahead with the negotiation and implementation of CalAIM with a January 1, 2021 start. As such, the state prepared a 12-month extension request for the Medi-Cal 2020 Section 1115 demonstration. The request was posted for public comment in June 2020 and submitted to CMS on September 16, 2020. The 12-month extension is meant to serve as a bridge to a 5-year Section 1115 waiver renewal, primarily to continue key programs that require the authority, including the Global Payment Program (GPP) and the Drug Medi-Cal Organized Delivery System (DMC-ODS). In addition, DHCS is designing a comprehensive Section 1915(b) managed care waiver request for CMS that would also be for a 5-year period.

We look forward to working in close partnership with our federal CMS colleagues and local partners to ensure that the Medi-Cal program continues to change in ways that ultimately further the goals of improved health and outcomes, as well as cost-effectiveness, of the Medi-Cal/Medicaid program.

1.8 CalAIM Stakeholder Engagement

DHCS released the original CalAIM proposal in October 2019 ahead of an intensive four-month stakeholder engagement process. Between November 2019 and February 2020, five topic-specific workgroups comprised of stakeholders across the state participated in a series of robust in-person meetings. During these discussions, Workgroup members provided real-time feedback on the proposals as they evolved and offered helpful considerations with respect to implementation and operations. The public also had the opportunity to provide feedback on the proposals, both during the workgroup sessions and in writing. This iteration of the CalAIM proposal incorporates the broad range of

feedback received during the stakeholder engagement process. It should be noted that this resulting proposal is dependent on the funding availability through the state budget process, and federal approvals.

1.9 Conclusion

CalAIM is an ambitious but necessary proposal to positively affect Medi-Cal beneficiaries' quality of life by improving the entire continuum of care across Medi-Cal, and ensuring the system more appropriately manages patients over time through a comprehensive set of health and social services spanning all levels of intensity of care, from birth to end of life.

CalAIM:

- Keeps all beneficiaries healthy by focusing on preventive and wellness services, while also identifying and assessing member risk and need on an ongoing basis, during transitions in care, and across delivery systems, through effective care coordination.
- Creates a fundamental shift in how California organizes and administers specialty mental health and substance use disorder services, and aligns the financing of behavioral health with physical health, providing financial flexibility to innovate, and enter into value-based payment arrangements that improve quality and access to care.
- Ensures medically complex children and adults get their physical, behavioral, developmental, and oral health needs met.
- Builds capacity in a clinically-linked housing continuum via in lieu of services for California's homeless population, including housing transition navigation services, housing deposits, housing tenancy and sustaining services, short-term post hospitalization housing, recuperative care for inpatient transitions, and day habilitation programs.
- Provides the opportunity to better coordinate clinical and non-clinical services for justice-involved individuals prior to and upon release from jail and county juvenile facilities.
- Allows the state to build infrastructure over time to provide Managed Long-Term Services and Supports (MLTSS) statewide. MLTSS will provide appropriate services and infrastructure for integrated care and home and community-based services to meet the needs of aging beneficiaries and individuals at risk of institutionalization and is a critical component of the State's Master Plan for Aging.

Back to Agenda

2. Identifying and Managing Member Risk and Need through Whole Person Care Approaches and Addressing Social Determinants of Health

This section will walk through proposals to identify and manage member risk and need:

- Population Health Management Program
- Enhanced Care Management
- In Lieu of Services
- Shared Risk, Shared Savings, and Incentive Payments
- SMI/SED Demonstration Opportunity
- Full Integration Plans
- Long-Term Plan for Foster Care

2.1 Population Health Management Program

2.1.1 Background

DHCS currently does not have a specific requirement for Medi-Cal managed care plans to maintain a population health management (PHM) program, which is a model of care and a plan of action designed to address member health needs at all points along the continuum of care. Many Medi-Cal managed care plans have a population health management program – often in the context of meeting National Committee for Quality Assurance (NCQA) requirements – but some do not. In the absence of a population health management program, beneficiary engagement is often driven by a patchwork of requirements that can lead to gaps in care and a lack of coordination.

The goal of this proposal is to improve health outcomes and efficiency through standardized core population health management requirements for Medi-Cal managed care plans, including NCQA requirements and additional DHCS requirements. The population health management program will be comprehensive and address the full spectrum of care management – including assessing population level and individual member health risks and health-related social needs, creating wellness, prevention, case management, care transitions programs to address identified risks and needs, and using stratification to identify and connect adult and pediatric members to the appropriate programs. Additionally, Medi-Cal managed care plans will develop predictive analytics about which members, communities or populations are emerging as high risk as well as identify and address the needs of outliers with more specific services and supports.

Back to Item
Back to Agenda
Back to Agenda

2.1.2 Proposal

All Medi-Cal managed care plans shall develop and maintain a whole system, person-centered population health management program, where the plan will partner with contracted health care providers and community-based partners to identify and address members' health and health-related social needs. Medi-Cal managed care plans shall consult with their local public health department and county behavioral health department during the development of the population health management program.

The population health management program shall meet NCQA standards for population health, regardless of whether the plan is NCQA accredited. In addition to the NCQA accreditation processes, the population health management program description must be filed with the state via the population health management template (forthcoming). After the initial program description submission, the Medi-Cal managed care plan will submit certain portions of the program description, including any changes, to DHCS annually, but significant portions of the program description will only be required to be submitted to DHCS once every three years.

Each Medi-Cal managed care plan shall include, at a minimum, a description of how it will meet the core objectives to:

- Keep all members healthy by focusing on preventive and wellness services;
- Identify and assess member risks and needs on an ongoing basis;
- Manage member safety and outcomes during transitions, across delivery systems or settings, through effective care coordination;
- Identify and mitigate social determinants of health; and
- Reduce health disparities or inequities.

The population health management program shall:

- Include the goal to improve the health outcomes of communities and groups;
- Utilize data to analyze community and population level health and health-related social needs and set measurable goals for improvement;
- Utilize initial and ongoing assessments of data to analyze individual member's needs and identify groups and individuals within groups for targeted interventions;
- Provide assistance for members to navigate health delivery systems, acquire self-care skills to improve functioning and health outcomes, slow the progression of

Back to Item
Back to Agenda
Back to Agenda

disease or disability, and support members with serious illness as their disease progresses;

- Coordinate care across the continuum of medical, behavioral health, developmental, oral health, and long-term services and supports, including tracking referrals and outcomes of referrals;
- Deploy strategies to address individual needs and mitigate social determinants of health;
- Deploy strategies to drive improvements in health for specific populations proactively identified as experiencing health disparities;
- Partner with appropriate community-based providers to support individual members, families, and caregivers in managing care.
- Utilize evidence-based practices in screening and intervention;
- Utilize a person-centered and family-centered approach for care planning; and
- Continually evaluate and improve on the population health management program strategy on an ongoing basis through meaningful quality measurement.

Assessment of Risk and Need

1. Initial Data Collection and Population Risk Assessment

As reflected in the NCQA Population Health program requirements and the DHCS Population Needs Assessment All Plan Letter (APL), the Medi-Cal managed care plan shall collect electronically available data sources in order to analyze data that capture the information on member health status and utilization (including physical, behavioral, and oral health), health-related social needs, and linguistic, racial, and cultural characteristics. As part of the population health management requirements, DHCS will continue to apply the existing Population Needs Assessment (PNA) APL requirements to hold the Medi-Cal managed care plans accountable for a PNA, which include requirements for analyzing health disparities and engaging external stakeholders as part of the process. DHCS will consult with NCQA to ensure the PNA APL data requirements meet NCQA data requirements for the population assessment.

The PNA requires that Medi-Cal managed care plans collect and analyze this data across the plan's entire Medi-Cal member population to identify opportunities at a population level to improve health. One example of how this might be done is through a type of analysis commonly known as "hot spotting." As noted in the PNA and NCQA

requirements, key issues Medi-Cal managed care plans must analyze in the assessment include:

- Acute, chronic, and prevention/wellness health needs;
- Areas of clinically inappropriate, over and under-utilization of health care resources;
- Opportunities for better care management and quality improvement;
- Health disparities by race, ethnicity, language, and functional status; and
- Health-related social needs at the community or local level.

The results of the PNA will inform the development of programs and strategies that the Medi-Cal managed care plan will use to address the needs of specific populations. Determining which individuals have access to these specific programs and strategies will be driven by the subsequent member-level risk stratification, population segmentation, and case management activities. Consistent with the PNA APL, Medi-Cal managed care plans must use the assessment to develop and implement an action plan to address community and population needs. DHCS does not currently plan to provide more specific requirements regarding community and population-level program development, but in the population health management template, Medi-Cal managed care plans will be asked indicate what they will be doing in this area, which also may be a focus of future learning collaborative best practice work.

2. Initial Risk Stratification, Segmentation and Tiering

Risk stratification or segmentation will enable Medi-Cal managed care plans to identify specific members who may benefit from wellness, prevention, and disease management activities; members who can benefit from case management; and members who are at risk for developing complex health issues. Consistent with NCQA Population Health program requirements, Medi-Cal managed care plans will be required to risk stratify and segment members into groups that it will use to develop and implement case management, wellness, and health improvement programs and strategies. Medi-Cal managed care plans will also be required to use DHCS-defined criteria to tier its members into four risk tier categories and report that information to DHCS.

Consistent with the NCQA Population Health program requirements, Medi-Cal managed care plans shall conduct the risk stratification and segmentation and DHCS risk tiering using an integrated data and analytics stratification process that considers at least the following sources:

- Previous screening or assessment data;
- Disengaged member reports;
- Claims or encounter data, including all fee-for-service data provided by DHCS;

Back to Item
Back to Agenda
Back to Agenda

- And to the extent available:
    - Available social needs data, including housing status ICD-10 data; and
    - Electronic health records.

Risk Stratification or Segmentation: Medi-Cal managed care plans will analyze each individual's data based on the minimum, mandatory list of data sources described above and will then risk stratify and segment members into meaningful sub-populations. The Medi-Cal managed care plan will use risk stratification and segmentation to identify specific members who may benefit from targeted interventions and programs designed to meet identified member needs. Risk stratification and segmentation must occur within 44 days of the effective date of plan enrollment.

The Medi-Cal managed care plan may use its own algorithm to risk stratify or segment its population or it may use the DHCS-defined risk tiers described below as a starting point for further stratification and segmentation. The design of the algorithm, including how the data is stratified and segmented as part of the algorithm, should be informed by the health needs identified through the population assessment and designed so that the Medi-Cal managed care plan can group individual members into meaningful categories and subsequently outreach to individual members within those categories for tailored interventions and programs designed to achieve specific health outcomes. Medi-Cal managed care plans will incorporate enhanced care management into their segmentation in accordance with DHCS enhanced care management target population guidance and Medi-Cal managed care plan flexibility afforded for the enhanced care management benefit. When risk stratifying its member population, Medi-Cal managed care plans must use a validated risk grouper.

Risk stratification or segmentation algorithms shall include past medical and behavioral health service utilization but must also incorporate other data such as health conditions, risk factors, and disease progressions, in order to avoid exacerbating underlying biases in utilization data that may drive health disparities. Medi-Cal managed care plans must analyze the results of its stratification/segmentation algorithm to identify and correct any biases the algorithm may introduce based on race, ethnicity, language, functional status, or other sources of health disparities. In the population health management program description, the Medi-Cal managed care plan will submit to DHCS its list of stratification/segmentation data sources, the risk stratification/segmentation algorithm (or the name of the tool if it is proprietary), and also the method of bias analysis. To promote transparency and best practices, these three pieces of information will be made available for public viewing on DHCS' website and will also be a focus of continuing Medi-Cal managed care plan learning collaborative activities.

Back to Item
Back to Agenda
Back to Agenda

Based on the risk stratification/segmentation and the findings from Individual Risk Assessment (IRA) described below, the Medi-Cal managed care plan will link the member with the appropriate services including, but not limited to, wellness and prevention, general case management, complex case management, enhanced care management, in lieu of services (as available) external entity coordination, and transition coordination. Specific minimum requirements for each of these categories are listed in their own sections below.

DHCS Risk Tiering Requirements. This risk tiering process, including the IRA described below, will satisfy federal Medicaid Managed Care Final Rule requirements for initial risk assessment. Medi-Cal managed care plans will use DHCS-defined criteria to assign each member into one of four risk tiers: (1) low risk; (2) medium and rising risk; (3) high risk; and (4) unknown risk. The criteria for these tiers will be developed by DHCS.

The types of criteria used will be similar (but not the same) as the DHCS criteria for risk stratifying seniors and persons with disabilities (SPDs) into low- and high-risk groups. The criteria will align with the questions that DHCS will develop for the IRA survey tool, which is addressed in the next section. “High risk” members are those who are at increased risk of having an adverse health outcome or worsening of their health status. “Medium and rising risk” members are those that are stable at a medium risk level and those whose health status suggest they have the potential to move into the high-risk category.

Members at the medium/rising and high risk levels likely require additional provider-level assessment, care coordination, and/or possibly case management, or other specific services, which will be determined by the Medi-Cal managed care plan’s population segmentation strategy and coordination with providers. “Low risk” members are those who, in general, only require support for wellness and prevention. “Unknown risk” members are those who do not have sufficient data to stratify into a risk tier and for whom the Medi-Cal managed care plan is unable to complete a member-contact screening risk assessment. The IRA survey tool will be designed to have enough information to allow for risk tier assignment on its own if there is insufficient available historical data for the member.

DHCS will develop a process to validate Medi-Cal managed care plans’ implementation of the DHCS risk tier criteria to ensure consistent application and output statewide.

3. Individual Risk Assessment Survey Tool

DHCS will develop a standardized, 10-15 question Individual Risk Assessment (IRA) Survey Tool. There will be two versions, one for children and one for adults. Medi-Cal managed care plans will use the IRA to: (1) confirm or revise the initial DHCS risk tier to which the member was assigned; (2) gather consistent information for members without sufficient data; and (3) add information that will be used as part of its own stratification/segmentation algorithms and population health management strategy.

Back to Item
Back to Agenda
Back to Agenda

DHCS' goal in the development of the IRA questions will be to ensure they are validated and can be used with a scoring mechanism so that the IRA information can be integrated into the Medi-Cal managed care plan's risk stratification/segmentation process. DHCS will translate the questions into the threshold languages. Medi-Cal managed care plans will have the flexibility to add questions of their choosing to the IRA and would then also translate those additional questions into all threshold languages. It is expected that Medi-Cal managed care plans will conduct subsequent and separate screenings (or add supplemental questions) to identify specific issues and priorities to address.

The IRA will replace the assessments below:

- Staying Healthy Assessment/Individual Health Education Behavioral Assessment (SHA/IHEBA)
- Health information form/member evaluation tool (HIF/MET)
- Health risk stratification and assessment survey for SPDs
- Whole Child Model Assessment
- The Initial Health Assessment (IHA) provider visit (within 120 days of enrollment) will remain a requirement, but DHCS contracts and policies will not specify provider requirements for that visit.

Medi-Cal managed care plans will continue to be required to ensure the provision of preventive and other services in accordance with contractual requirements and accepted standards of clinical care.

Members assigned to the DHCS medium/rising, high, and unknown risk tiers must be contacted within 90 (medium/rising) and 45 (high and unknown) calendar days respectively to assess their needs. The IRA may be done via multiple modalities, including phone, in-person, electronic, or mail, as long as the screening responses can be transposed into an electronic format that allows for data mining and data exchange of key elements with DHCS. Data exchange of IRA elements with DHCS is not required at this time. Medi-Cal managed care plans should use this modality flexibility to maximize successful contact. Medi-Cal managed care plans shall make at least three (3) attempts to contact a member using available modalities.

If the Medi-Cal managed care plan is unable to obtain a completed IRA from a member, it has the option to create a process for working with the member's assigned primary care provider to: 1) have the member complete the assessment with them; and 2) transfer the resulting information to the Medi-Cal managed care plan.

Medi-Cal managed care plans will use the IRA information to assign or revise the member's DHCS risk tier. Once that process is complete, Medi-Cal managed care plans will be responsible for reporting the member's assigned risk tier to DHCS in an electronic format to enable better tracking and assessment of the impacts of the population health

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

management program. The Medi-Cal managed care plan will also share information regarding the assigned member's risk tier to the member's assigned PCP in an electronic format. If the member transfers to another Medi-Cal managed care plan, DHCS will provide the member's risk tier to the new Medi-Cal managed care plan.

The IRA questions will align with the DHCS-specified criteria for high, medium/rising, and low risk tiers. It is DHCS's intent that the structure of the IRA will meet NCQA requirements for a Health Appraisal.

- The IRA will include 10-15 questions, which seek to identify preliminary risk information for the following elements: Behavioral, developmental, physical, Long Term Services and Supports, and oral health needs;
- Emergency department visits within the last six months;
- Self-assessment of health status and functional limitations;
- Adherence to medications as prescribed;
- Assessment of health literacy and cultural and linguistic needs;
- Desire or need for case management;
- Ability to function independently and address his/her own health needs;
- Access to basic needs such as education, food, clothing, household goods, etc.;
- Use or need for long-term services and supports;
- Availability of social supports and caregiver;
- Access to private and public transportation;
- Social and geographic isolation; and
- Housing and housing instability assessment;

4. Reassessment

At a minimum, the Medi-Cal managed care plan shall reassess risk and need, including rising risk, of all members annually both the DCHS risk tiering and its own risk stratification/segmentation process. Individual members' risk and need may need to be re-evaluated throughout the year based on a change in condition or level of care, such as an inpatient admission or new diagnosis, the availability of new data, or a case management interaction.

Back to Item
Back to Agenda
Back to Agenda

Medi-Cal managed care plans must describe what events or data trigger the re-evaluation process for individual members. In the population health management program description, the Medi-Cal managed care plan must inform DHCS what minimum risk groups would require regular assessment in between the annual risk stratification process. However, this does not limit the Medi-Cal managed care plan from conducting additional assessments beyond what is defined as required by DHCS.

5. Provider Referrals

Medi-Cal managed care plans must establish a process by which providers may make referrals for members to receive case management or services for other emerging needs. Referrals for case management should lead to a re-evaluation of risk stratification and DHCS risk tier assignment. Medi-Cal managed care plans must consider and integrate information received through referrals when determining members' risk stratification.

Actions to Support Wellness and Address Risk and Need

1. General Requirements and Services

The Medi-Cal managed care plan shall integrate required activities with the population health management program as appropriate including, but not limited to member services, utilization management, referrals, transportation, health/plan/benefit education, appointment assistance, warm-handoffs to community-based organizations or other delivery systems, system navigation, primary care provider member assignment, community outreach, preventive services, and screenings for all members.

The Medi-Cal managed care plan shall provide a toll-free line for primary care providers and specialists who seek technical and referral assistance when any physical or behavioral condition requires further evaluation or treatment. Available information shall include assistance in arranging for referrals, including mental health and SUD treatment referrals, developmental services referrals, dental referrals, referrals to home-based medical/social services for people with serious illness, and referrals to long-term services and supports. Communication about the availability of this consultation service shall be found on the front-page of the Medi-Cal managed care plan's website and in materials supplied to providers.

The Medi-Cal managed care plan shall provide a 24-hours-a-day, 7-days-a-week, toll-free nurse advice line for members who seek technical, clinical, and referral assistance for physical, oral, and behavioral health services to address urgent needs.

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

The Medi-Cal managed care plan shall demonstrate how they support practice change activities, the deployment of evidence-based tools for providers, and models of service delivery that optimize health care and coordinated health care and social services. Finally, the Medi-Cal managed care plan shall develop or provide access to a current and updated community resource directory for case managers and contracted providers.

2. Wellness and Prevention Services

The Medi-Cal managed care plan shall provide wellness and prevention services in accordance with NCQA and contractual requirements. The population health management program shall integrate wellness and prevention services for all members, regardless of risk tier, according to the benefits outlined in the managed care contract including, but not limited to, the following:

- Provide preventive health visits, developmental screenings, and services for:
  - All children (under 21 years of age) in accordance with the American Academy of Pediatrics Bright Futures periodicity schedule.
  - All adults in accordance with US Preventive Services Task Force Grade "A" and "B" recommendations.
- Monitor the provision of wellness and preventive services by primary care providers as part of the Medi-Cal managed care plan Facility Site Review process.
- Provide health educational materials about topics such as disease management, preventive services, Early and Periodic Screening, Diagnostic, and Treatment services, how to access benefits, and other managed care plan health promotion materials.

3. Managing Members with Medium/Rising Risks

The population health management program shall:

- Provide screening for Adverse Childhood Experiences (ACEs) for children and adults, based on the recommended periodicity schedule as specified in the Medi-Cal managed care contract.
- Ensure members receive appropriate follow-up for behavioral, developmental, physical, and oral health needs including preventive care, care for chronic conditions, and referrals to long-term services and supports, as appropriate;

Back to Item
Back to Agenda
Back to Agenda

- Refer members identified, through assessment or re-assessment, as needing care coordination or case management to the member's case manager for follow-up care and needed services within 30 calendar days; and

- Assess individual social care needs and deploy appropriate community resources and strategies to mitigate the adverse childhood experiences (ACEs) toxic stress and impacts of social determinants of health in partnership with providers and community organizations.

Additionally, Medi-Cal managed care plans will be required to use predictive analytics to inform them about which patients, communities or populations are emerging as high risk as well as identify and address the needs of outliers with more specific services and supports. To address this focus, Medi-Cal managed care plans shall incorporate the DHCS Population Needs Assessment and NCQA Population Health program requirements on this topic into their population health management strategy. Identifying and addressing the needs of specific high-risk communities and populations – sometimes referred to as "hot spotting" – will be a focus of the population health management learning collaborative and DHCS will continue to assess best practices in this area.

4. Case Management

Case management services actively assist at-risk members in navigating health delivery systems and acquiring self-care skills to improve functioning and health outcomes, slow the progression of disease or disability or prepare for the progression of a serious illness. Case management services are intended for members who are medium- or high-risk or may have rising risks that would benefit from case management services. Members determined to be low risk should continue to receive wellness and prevention services as well as other medically necessary services.

Case management services include the following, as needed and appropriate:

- Screening beyond the IRA to identify and prioritize goals and needs for case management, including both health issues, ACEs and toxic stress, and health-related social needs
- Documentation in an electronic format of the individual care plan and assigned case manager for each member (required for all case management).
- Utilization of evidence-based practices in screening and intervention.
- Ongoing review of the member's goals and care plan as well as identifying and addressing gaps in care.
- Support from an inter-professional team with one primary point of contact for the member.

Back to Item
Back to Agenda
Back to Agenda

- Access to person-centered planning, including advanced care planning regarding preferences for medical treatment, and education and training for providers and families.
- Continuous information sharing and communication with the member and their providers.
- Ensuring a person-centered and family-centered approach by identification of member's circle of support or caregiver(s).
- Coordination and access to medically necessary health services and coordination with entities that provide mental health, substance use disorder services, and developmental and oral health services.
- Ensuring coordination and access to community-based services, such as home care, personal care services, and long-term services and supports.
- Developing relationships with local community organizations to implement interventions that address social determinants of health (e.g. housing support services, nutritional classes, etc.).
- Coordinating authorization of services including timely approval of and arranging for durable medical equipment, pharmacy, private duty nursing, palliative care, and medical supplies.
- Promoting recovery using community health workers, peer counselors, and other community supports.
- Requesting modifications to treatment plans to address unmet service needs that limit progress.
- Assisting members in relapse and/or crisis prevention planning that includes development and incorporation of recovery action plans, and advance directives for individuals with a history of frequent mental health readmissions or crisis system utilization.
- Assisting members in care planning related to cognitive impairment, traumatic brain injury, Alzheimer's disease, and dementia.
- Performance measurement and quality improvement using feedback from the member and caregivers.
- Delivery of services in a culturally competent manner that addresses the cultural and linguistic needs by interacting with the member and his or her family in the member's primary language (use of interpreter allowed), with appropriate consideration of literacy and cultural preference.
- If the Medi-Cal managed care plan assigns a case manager outside the plan, written agreements shall define the responsibility of each party in meeting case management requirements to ensure compliance and non-duplication of services. If situations arise where a member may be receiving care coordination from multiple entities, the Medi-Cal managed care plan shall identify a lead care coordinator.

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

If a member changes enrollment to another Medi-Cal managed care plan, the Medi-Cal managed care plan shall coordinate transition of the member to the new plan's case management system to ensure services do not lapse and are not duplicated in the transition. The Medi-Cal managed care plan must also ensure member confidentiality and member rights are protected.

Members may be assigned to one of three types of case management based on assessment of risk and need.

The three types of case management include:

- **Basic Case Management:** Basic case management would be appropriate for members who require planning and coordination that is not at the highest level of complexity, intensity, or duration. These services are provided by the Medi-Cal managed care plan, clinic-based staff, or community-based staff, and may be provided by non-licensed staff. These services may include assignment to a certified patient-centered medical home, participation in a Medi-Cal managed care plan disease management program or participation in another Medi-Cal managed care plan population health management program.

- **Complex Case Management:** The Medi-Cal managed care plan shall provide complex case management in accordance with NCQA requirements. NCQA defines complex case management as "a program of coordinated care and services for members who have experienced a critical event or diagnosis that requires extensive use of resources." NCQA allows organizations to define "complex." Complex case management generally involves the coordination of services for high-risk members with complex conditions.

- **Enhanced Care Management:** The proposed Enhanced Care Management benefit is designed to provide a whole-person approach to care that addresses the clinical and non-clinical needs of high-cost and/or high-need Medi-Cal beneficiaries enrolled in Medi-Cal managed care plans. Enhanced care management is a collaborative and interdisciplinary approach to providing intensive and comprehensive care management services to targeted individuals. Through collaborative leadership and systematic coordination among public and private entities, the enhanced care management benefit will serve target populations, benefit from data sharing between systems, and coordinate care in real time for beneficiaries. DHCS will evaluate individual and population progress — all with the goal of providing comprehensive care and achieving better health outcomes.

The population health management program description shall describe how and when the services are utilized in conjunction with the risk stratification process, as members with changing risk and needs may require changing levels of case management. If the Medi-Cal managed care plan delegates or contracts with a provider for case management or transition of care services, it must do so in accordance with the NCQA's population health management delegation requirements.

5. In Lieu of Services

"In lieu of services" are flexible wrap-around services that the Medi-Cal managed care plan will integrate into their population health management programs. These services are provided as a substitute or to avoid utilization of other services such as hospital or skilled nursing facility admissions, discharge delays, or emergency department use. In lieu of services should be integrated with case management for members at medium-to-high levels of risk and may fill gaps in Medi-Cal State Plan benefits to address medical or other needs that may arise due to social determinants of health. DHCS is proposing the initial use of in lieu of services to serve as a transition of the work done through existing pilots (e.g. Whole Person Care, the Health Homes Program, the Coordinated Care Initiative, etc.), as well as inform the development of future potential statewide benefits that may be instituted.

Examples of the in lieu of services that DHCS proposes to cover include many of the services currently provided in the Whole Person Care Pilot program that are not covered as Medi-Cal State Plan benefits. Some of these include, but are not limited to, respite, recuperative care, medically tailored meals, supplemental personal care services, housing tenancy navigation and sustaining services, and sobering centers. Medi-Cal managed care plans will develop a network of providers of allowable in lieu of services with consideration for which community providers have expertise and capacity regarding specific types of services. See **Appendix J: In Lieu of Services Options** for more detail.

6. Coordination between Medi-Cal Managed Care Plans and External Entities

The Medi-Cal managed care plan shall describe in the population health management program description how they will coordinate with, and refer members to, health care and social services/programs including, behavioral health services, dental, and home and community-based services. Referrals must be culturally and linguistically appropriate for the member. The Medi-Cal managed care plan must coordinate with competent external entities to provide all necessary services and resources to the member. These entities should be listed as part of the population health management program description identifying specific services each named entity will provide plan members. The Medi-Cal managed care plan's population health management

Back to Item
Back to Agenda
Back to Agenda

program description shall include assurance of payment to Indian Health Care Providers.

7. Transitional Services

The Medi-Cal managed care plan shall ensure transitional services are provided to all members who are transferring from one setting, or level of care, to another. The Medi-Cal managed care plan shall work with appropriate staff at any hospital that provides services to its members, whether contracted or non-contracted in the case of emergency services, to implement a safe, comprehensive discharge plan. The plan must provide continued access to medically necessary covered services that will support the member's recovery and prevent readmission.

The Medi-Cal managed care plan shall have in place operational agreements or shall incorporate transitional language into existing network arrangements with the Medi-Cal managed care plan's contracted community physical and behavioral health hospitals, residential treatment facilities and long-term care facilities, as applicable, to ensure smooth transitions. Transition services shall include tribal consultation/outreach for protections involving American Indians and Indian Health Clinic providers. The operational agreements shall define the responsibility of each party in meeting the following requirements:

- Completion of a standardized discharge risk assessment tool. The tool shall assess risk for re-institutionalization, re-hospitalization, and/or substance use disorder treatment recidivism. Each Medi-Cal managed care plan's discharge screening tool must be approved by DHCS;
- Development of a written discharge plan, shared with the beneficiary and all treating providers, to mitigate the risk of readmission and other negative health outcomes;
- Obtain the member's permission to share information with clinical and non-clinical providers to facilitate care transitions;
- Develop discharge planning policies and procedures in collaboration with all hospitals;
- Process all hospital prior authorization requests for clinic services within two business days. Such services shall include authorizations for therapy, home care services, equipment, medical supplies, and pharmaceuticals;
- Educate hospital discharge planning staff on the clinical services that require pre-authorization to facilitate timely discharge from the hospital; and
- Prevent delayed discharges from a hospital due to Medi-Cal managed care plan authorization procedures or transition to a lower level of care.

Back to Item
Back to Agenda
Back to Agenda

8. Skilled Nursing Facility Coordination

The Medi-Cal managed care plan shall coordinate with hospital or other acute care facility discharge planners and nursing facility case managers or social workers to ensure a smooth transition to or from a skilled nursing facility or nursing facility. The Medi-Cal managed care plan shall coordinate with the facility to provide case management and transitional care services and ensure coverage of all medically necessary services not included in the negotiated daily rate. This includes, but is not limited to, prescription medications, durable medical equipment, intravenous medications, and any other medically necessary service or product.

- If the Medi-Cal managed care plan, in coordination with the nursing facility or skilled nursing facility, anticipates the member will be in the facility after a member no longer meets criteria for medically necessary skilled nursing care or rehabilitative care, the Medi-Cal managed care plan shall assist the member in exploring all available care options. This includes potential discharge to a home or community residential setting, or to remain in the skilled nursing facility for long-term services and supports.
- If the member is discharged to a home or to a community residential setting, the Medi-Cal managed care plan shall coordinate with the facility to ensure the member is in a safe location. The plan shall ensure medically necessary services are available including, but not limited to, home health services, durable medical equipment and supplies, outpatient rehabilitation services, and any other services necessary to facilitate the member's recovery. The Medi-Cal managed care plan shall also ensure follow-up care is provided consistent with the transitional service requirements listed above.

Population Health Management Oversight

The Medi-Cal managed care plan shall have internal monitoring processes in place to ensure compliance with the population health management program requirements. Quality assurance reviews of documented population health management activities shall include:

- Case identification and assessment according to established risk stratification system;
- Electronically documented treatment plans and care plans with evidence of periodic revision as appropriate to emerging member needs;
- Referral management;
- Effective coordination of care, including coordination of services that the member receives through the fee-for-service system; and

Back to Item
Back to Agenda
Back to Agenda

- Identification of appropriate actions for the case manager to take in support of the member, and the case manager's follow-through in performing the identified tasks.

The Medi-Cal managed care plan shall document quality assurance reviews on an annual basis or upon DHCS' request and submit them to DHCS for review. Medi-Cal managed care plans are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including All Plan Letters, Policy Letters, and Dual Plan Letters. These requirements must be communicated by each Medi-Cal managed care plan to all delegated entities and sub-Medi-Cal managed care plans. The Medi-Cal managed care plan must submit a population health management oversight plan in accordance with NCQA requirements for any entities to which they delegate population health management functions. Such plans would need to be reviewed and approved by the state.

Health Information Technology to Support Integrated Care and Care Coordination

The Medi-Cal managed care plan will work to implement health information technology to support population health principles, integrated care, and care coordination across the delivery system. Examples of health information technology include, but are not limited to, electronic health records, emergency department information exchange, clinical data repositories, registries, decision support and reporting tools that support clinical decision-making, and case management. An overarching goal of the population health management program is to expand interoperable health information technology and health information exchange infrastructure, so that relevant data (including clinical and non-clinical) can be captured, analyzed, and shared to support provider integration of behavioral health and medical services, case management oversight and transitional planning, value-based payment models, and care delivery redesign.

The Medi-Cal managed care plan shall develop data exchange protocols, including member information sharing protocols, before initiating services with any subcontracted entity. Protocols must support integrated behavioral health-physical health coordination including, but not limited to, sharing of claims and pharmacy data, treatment plans or care plans, and advance directives necessary to coordinate service delivery and care management for each member in accordance with applicable privacy laws.

Improved data collection, specifically of encounter data at the provider level, is a critical component of achieving the goals of this proposal, and DHCS will be working with plans and providers to achieve this goal.

Accountability and Oversight of Medi-Cal Managed Care Plans

In order to hold Medi-Cal managed care plans accountable for the activities proposed here, DHCS will increase its oversight and assessment of the plans to include changes

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

to its audit procedures and the imposition of corrective action plans and financial sanctions, when appropriate. DHCS recognizes that, through this and the other CalAIM proposals, the responsibility of Medi-Cal managed care plans will increase over time, and therefore DHCS' approach to oversight and accountability must also grow and change in conjunction with these proposals. DHCS is committed to providing Medi-Cal managed care plans technical assistance to support the smooth adoption of these changes.

Future Policy Development and Technical Assistance

As technical assistance for Medi-Cal managed care plans in development of their population health management programs, DHCS will provide submission templates and best practice examples of Medi-Cal managed care plan population health management programs from California and other states. DHCS will also create a DHCS-operated learning collaborative for Medi-Cal managed care plans to share information and promising practices. The learning collaborative will foster information sharing and address promising practices in all the DHCS-required population health management activities. The following topics that have been identified by stakeholders:

- Medi-Cal managed care plan coordination and partnerships with external entities that provide carved-out services, such as specialty mental health, Drug Medi-Cal, Regional Centers, schools, public health departments, and community-based organizations that provide social services;
- Engaging with consumers who have health and social needs but are unidentified, unengaged, and are underutilizing services, including methods to engage with these members, build trust, and obtain information from the member about their needs;
- Care transition coordination including sharing discharge risk assessment tools;
- Incorporating social determinants of health and health-related social care needs into case management and community-level population improvement activities;
- Collection of social determinants of health information for risk stratification and segmentation, and for state-level data collection for strategic planning purposes;
- Best practices in how to use population health management programs to support specific populations of interest, such as children and pregnant women, in ways that align with other DHCS initiatives;
- Use of population data for "hot spotting" and other population analysis promising practices;

Back to Item
Back to Agenda
Back to Agenda

- Use of general beneficiary medical record release consent to allow Medi-Cal managed care plans and providers to share data broadly for the purposes of care coordination;
- Learning best practices from California Accountable Communities for Health Initiative activities, including opportunities for partnership and elements that may be appropriate to integrate into the population health management strategies;
- Data exchange protocols and the development of health information technology/health information exchange policies; and
- Submission of housing status data to DHCS via ICD-10 coding, in alignment with the current DHCS Value-Based Payment incentive program for these codes.

The best method to advance promising practices in these areas may be to allow them to emerge through a learning collaborative and assessment of Medi-Cal managed care plan outcomes. DHCS may also standardize certain requirements after further research and consultation with stakeholders.

Continuing areas of DHCS policy development will include:

- DHCS Risk Tiering criteria;
- DHCS IRA to gather individual member information for risk tiering and stratification;
- Detailed review of alignment with NCQA Population Health program requirements, in coordination with NCQA and Medi-Cal managed care plans;
- Continued exploration into what guidance DHCS can provide regarding what can be allowed for different types of information sharing between providers and Medi-Cal managed care plans to facilitate care coordination;
- Voluntary guidance from DHCS regarding Medi-Cal managed care plan collection of social determinants of health data from ICD-10 encounter coding. The guidance, and Medi-Cal managed care plan collection of this data in accordance with the guidance, will become mandatory on January 1, 2024; and
- Setting prospective, prioritized goals to improve Medi-Cal managed care population health management over five years from the implementation date. To do this, DHCS will review of population health management program outcomes goals and measures, and their relation to the broader DHCS managed care quality metric strategy, which may be used to assess each Medi-Cal managed care plan's population health management program.

Back to Item
Back to Agenda
Back to Agenda

2.1.3 Rationale

The population health management program requirement will ensure that there is a cohesive plan to address beneficiary needs across the continuum of care, from prevention and wellness to complex case management. This proposal will work in conjunction with other CalAIM proposals to meet the overarching CalAIM goals of improving coordination and quality, while reducing unnecessary administrative burden and redundancy. The following CalAIM elements of the population health management program will magnify the positive impact on member outcomes:

- **NCQA Accreditation** will provide a foundation of quality best practices and an oversight structure for the population health management program and other Medi-Cal managed care plan activities;
- The new **enhanced care management** benefit will provide a critical new set of services as well as an effective case management tool to integrate within the population health management program;
- The adoption of a menu of **in lieu of services** – flexible wrap-around services designed to fill medical and social determinants of health gaps – will similarly integrate within the population health management program; and
- Making **shared risk/savings and incentive payments** available to Medi-Cal managed care plans and providers will maximize the effectiveness of the population health management program and new service options.

2.1.4 Proposed Timeline

The population health management program would be implemented as part of the new Medi-Cal managed care plan contracts, with an effective date of January 1, 2023. The date for the first population health management program description submission and other required submissions from Medi-Cal managed care plans to DHCS is to be determined.

2.2 Enhanced Care Management Benefit

2.2.1 Background

Depending on the needs of the beneficiary, some individuals may need to access six or more separate delivery systems (managed care, fee-for-service, mental health, substance use disorder, developmental, dental, In Home Supportive Services, etc.). Given the similarities in target populations across Medi-Cal delivery systems, beneficiaries are likely to be eligible for multiple programs that include some level of care management, depending on the efforts that are underway in their county of residence.

Back to Item
Back to Agenda
Back to Agenda

Additionally, as one would expect, the need for care coordination increases with greater system fragmentation, greater clinical complexity, and/or decreased patient capacity for coordinating their own care. The Health Homes Program and many of the Whole Person Care pilots provide such services. DHCS is proposing the implementation of a single, comprehensive enhanced care management benefit within Medi-Cal managed care. Lessons learned from the Whole Person Care pilots and the Health Homes Program will be incorporated to ensure that the new enhanced care management benefit is designed to meet the clinical and non-clinical needs for the highest cost/highest need beneficiaries in Medi-Cal and is available as a statewide benefit.

2.2.2 Proposal

The proposed enhanced care management benefit will replace the current Health Homes Program and elements of the Whole Person Care pilots, building on positive outcomes from those programs over the past several years. Based on extensive stakeholder engagement, DHCS will require that beneficiaries receiving Health Homes or Whole Person Care services are seamlessly transitioned to continue receiving care coordination services by way of the new enhanced care management benefit. Medi-Cal managed care plans will be mandated to contract with all existing local providers offering Health Homes and Whole Person Care services, with a few contractual exceptions. Medi-Cal managed care plans will be required to contract with community-based providers that have experience serving the enhanced care management target populations, and who have expertise providing the core enhanced care management services. Further, to allow non-Whole Person Care or Health Homes Program counties additional time to develop an adequate local infrastructure, a phased-in approach for implementing enhanced care management will be adopted.

It is the state's intention to implement this new initiative in a complementary, rather than duplicative manner that will build upon the strengths and foundations of these existing programs. DHCS recognizes the significant investment the Whole Person Care entities made over the past five years in building the capacity for these services. The intention is to build on those investments and infrastructure to continue the positive outcomes achieved by the Whole Person Care pilots. Additionally, as a result of extensive stakeholder feedback, DHCS has determined that Medi-Cal managed care plans will be required to coordinate enhanced care management services with county Targeted Case Management programs to ensure non-duplication of services and provide a holistic approach to care for Medi-Cal's most vulnerable beneficiaries.

The proposed enhanced care management benefit is designed to provide a whole-person approach to care that addresses the clinical and non-clinical needs of high-cost and/or high-need Medi-Cal beneficiaries enrolled in Medi-Cal managed care plans. Enhanced care management is a collaborative and interdisciplinary approach to

providing intensive and comprehensive care management services to targeted individuals.

Medi-Cal managed care plans will proactively identify members who meet the target population criteria and can benefit from enhanced care management services. The enhanced care management providers will be taking on the responsibility for coordinating services across all delivery systems. They are the primary responsible entity for coordinating across multiple medical and social service domains of care. Authorized members will be assigned a lead care manager that will have responsibility for interacting directly with the member and coordinating all primary, behavioral, developmental, oral health, and long-term services and supports, any in lieu of services, and services that address social determinants of health needs, regardless of setting.

Through collaborative leadership and systematic coordination among public and private entities, the enhanced care management benefit will serve target populations, benefit from data sharing between systems, and coordinate care in real time for beneficiaries. DHCS will evaluate individual and population progress — all with the goal of providing comprehensive care and achieving better health outcomes.

The overarching goals for enhanced care management are:

- Improving care coordination;
- Integrating services;
- Facilitating community resources;
- Improving health outcomes;
- Addressing social determinants of health; and
- Decreasing inappropriate utilization.

The enhanced care management target populations include: (see **Appendix I: Enhanced Care Management Target Population Descriptions** for more detailed definitions):

- Children or youth with complex physical, behavioral, developmental, and/or oral health needs (e.g. California Children Services, foster care, youth with Clinical High-Risk syndrome or first episode of psychosis).
- Individuals experiencing homelessness, chronic homelessness or who are at risk of becoming homeless.
- High utilizers with frequent hospital admissions, short-term skilled nursing facility stays, or emergency room visits.

Back to Item
Back to Agenda
Back to Agenda

- Individuals at risk for institutionalization who are eligible for long-term care services.
- Nursing facility residents who want to transition to the community.
- Individuals at risk for institutionalization with Serious Mental Illness (SMI), children with Serious Emotional Disturbance (SED) or Substance Use Disorder (SUD) with co-occurring chronic health conditions.
- Individuals transitioning from incarceration who have significant complex physical or behavioral health needs requiring immediate transition of services to the community.

Enhanced Care Management Design and Services

The enhanced care management benefit, which will be delivered by community-based providers (”ECM Providers”) contracting with Medi-Cal managed care plans, will provide multiple opportunities to engage beneficiaries by stratifying risk and need, developing care plans and strategic interventions to mitigate risk and help clients achieve improved health and well-being. Enhanced care management services extend beyond standard care coordination and disease management activities and are concentrated on the coordination and monitoring of cost-effective, quality direct care services for the individual, as well as connections to needed community supports for indirect care needs.

The enhanced care management benefit is fundamentally person-centered, goal-oriented, and culturally relevant to assure that, as a primary goal of the program, members receive needed services in a supportive, effective, efficient, timely, and cost-effective manner. Enhanced care management will emphasize prevention, health promotion, continuity and coordination of care to link members to services as necessary across providers and settings and with emphasis on identifying the least restrictive and most integrated setting that will meet the needs of the beneficiary.

The role of enhanced care management is, through face-to-face visits, to coordinate all primary, acute, behavioral, developmental, oral, and long-term services and supports for the member, including participating in the care planning process, regardless of setting. Enhanced care management activities shall become integrated with other care coordination processes and functions and shall assume primary responsibility for coordination of the member’s physical health, behavioral health, oral health, developmental, and long-term care needs.

Enhanced care management will be provided at a level dictated by the complexity of the health and social needs of the member. The approach to enhanced care management will be high-touch, on-the-ground, and face-to-face, with frequent contacts for persons residing in community settings and nursing facilities. Enhanced care management care managers are expected to develop relationships with members and their families, engage

Back to Item
Back to Agenda
Back to Agenda

members and families in needs assessment and care planning processes, and work with the primary care provider to address the member's needs in coordinating physical and behavioral health care.

The enhanced care management care managers will operate within the member's community, serve as the members' primary point of contact and are responsible for ensuring that applicable physical, behavioral, long-term care, developmental, oral, social, and psychosocial needs are met in the safest, least restrictive way possible while considering the most cost-effective way to address those needs. Care managers meet members where they are, both literally, and from a medical management and plan of care perspective. Community health workers can also be used to improve outreach and provide care coordination services for beneficiaries.

Required programmatic elements to be implemented include, but are not limited to, care coordination, health promotion, comprehensive transitional care, member and family supports and referral to community and social services. These elements include helping beneficiaries navigate, connect to and communicate with providers and social service systems; coaching beneficiaries on how to monitor their health and identify and access helpful resources; identifying and coordinating available in lieu of services such as housing services; helping beneficiaries move safely and easily between different care settings and reducing avoidable hospital admissions and readmissions; educating beneficiaries and their family/support system about their conditions to improve treatment adherence and medication management; providing referrals to community and social services; and follow-up to help ensure that beneficiaries are connected to the services they need.

Program Administration

Enhanced care management will be administered by the Medi-Cal managed care plans, who will have direct responsibility for establishing the enhanced care management benefit and criteria for their members, subject to contractual requirements and programmatic guidance provided by DHCS. DHCS intends for Medi-Cal managed care plans to build upon the expertise and infrastructure of the existing Whole Person Care pilots and Health Homes Program to achieve these outcomes and, with some exceptions, to contract directly with existing Whole Person Care providers and Health Homes Program community-based care management entities, as well as other necessary contracting with public and private providers to deliver such services.

In addition, DHCS expects that plans will work in coordination and collaboration, and even contract when appropriate, with county behavioral health systems who often are the primary providers of services to a subset of Medi-Cal beneficiaries. This proposal requests that managed care plans determine the service design and intensity based on the parameters established by DHCS. DHCS will build enhanced funding into the

capitation rates to enable Medi-Cal managed care plans to successfully provide enhanced care management benefit. The Medi-Cal managed care plans will have strong oversight and will perform regular auditing and monitoring activities to ensure that all requirements are met. If a plan proposes to keep some level of enhanced care management in-house instead of contracting with direct providers, the plan will need to demonstrate to the state that their enhanced care management benefit is appropriately community-based and provide a rationale for not contracting with existing WPC and HHP providers (per the exceptions outlined in the enhanced care management and in lieu of services Model of Care Template and managed care plan contract language.)

For individuals with a primary SMI diagnosis, SUD, children with SED, or children involved in child welfare, county behavioral health staff should be considered to serve as the enhanced care management provider through a contractual relationship, provided they agree to coordinate all the services (physical, developmental, oral health, long-term care and social needs) needed by those target populations, not just their behavioral health needs. These staff will focus on the behavioral health needs and interventions for the Medi-Cal beneficiary, act as a resource for the Medi-Cal managed care plan in managing the needs of this population and ensuring that beneficiaries are linked to appropriate county resources; as well as other resources that have more experience and documented success in working with those living with these conditions.

Targeted Case Management

Furthermore, Medi-Cal managed care plans will be expected to work with Local Governmental Agencies to ensure that members receiving enhanced care management services do not receive duplicative Targeted Case Management services; this approach will also help support the Department's goal of strengthening the connections across California's delivery systems. The Targeted Case Management program is an optional Medi-Cal Program funded by federal and local funds. See **Appendix B: Targeted Case Management** for which counties currently participate in the Targeted Case Management program.

DHCS may need to review and discuss other potential county funding interactions with this benefit to ensure there is no duplication of services or funding.

Transition and Coordination Plan

Medi-Cal managed care plans currently operating a Health Homes Program or operating in a county with a Whole Person Care pilot or Targeted Case Management program, will be required to submit a transition and coordination plan to DHCS by July 1, 2021. Through the transition and coordination plan, managed care plans will demonstrate how they will translate the existing programs into the enhanced care management benefit and in lieu of services and coordinate with existing Targeted Case Management programs. The

Back to Item
Back to Agenda
Back to Agenda

plans must also demonstrate a good faith effort to contract for enhanced care management and in lieu of services with existing Health Homes providers and Whole Person Care entities already providing such services. If the Medi-Cal managed care plan and existing provider cannot come to agreement, the Medi-Cal managed care plans will need to provide DHCS information as to why such entities were not able to come to a contractual agreement.

Medi-Cal managed care plans in counties with Targeted Case Management programs will be required to submit information in the transition and coordination plan describing how they will work with the Local Government Agency to ensure that members receiving enhanced care management services do not receive duplicative Targeted Case Management services.

A transition and coordination plan will not be required for Medi-Cal managed care plans in counties that do not have Whole Person Care pilots, Health Homes Programs, or Targeted Case Management.

Implementation

January 1, 2022: All Medi-Cal managed care plans in counties with Whole Person Care pilots and/or Health Homes Programs will begin implementation of the enhanced care management benefit, for those target populations currently receiving Health Homes Program and/or Whole Person Care services.

July 1, 2022:

- Medi-Cal managed care plans in counties with Whole Person Care pilots and/or Health Homes Programs will implement additional mandatory enhanced care management target populations.
- All Medi-Cal managed care plans in counties without Whole Person Care pilots and/or Health Homes Programs must begin implementation of select enhanced care management target populations.

January 1, 2023: All Medi-Cal managed care plans in all counties must implement enhanced care management for all target populations.

Medi-Cal managed care plans that begin implementing on January 1, 2022 will submit an enhanced care management Model of Care proposal to DHCS for review by July 1, 2021. Draft contract provisions will be shared with plans in February 2021. Medi-Cal managed care plans that will implement enhanced care management on July 1, 2022, will submit an enhanced care management Model of Care by January 1, 2022. All plans must complete readiness activities for the mandatory target populations. Medi-Cal managed

Back to Item
Back to Agenda
Back to Agenda

care plans can submit to DHCS additional optional target populations, in addition to the mandatory target populations.

Federal regulations require that Medi-Cal managed care plan implementation activities shall include tribal consultation/outreach for protections involving American Indians and Indian Health Clinic providers. Through the enhanced care management Model of Care, managed care plans must demonstrate that there are sufficient Indian Health Clinics participating in their provider network to ensure timely access to services available under the contract from such providers for American Indian enrollees who are eligible to receive services. Medi-Cal managed care plans will provide a description of their coordination with tribal partners within the enhanced care management transition and coordination plan.

By July 1, 2022, all Medi-Cal managed care plans will need to submit to DHCS an enhanced care management Model of Care proposal for serving individuals transitioning from incarceration for implementation on January 1, 2023 in all counties. Re-entry transitions involve working closely with corrections departments, including probation, courts and the local county jail system to ensure connections to care once individuals are released from jail. While there is some infrastructure in place for this enhanced care management target population due to Whole Person Care Pilots, these types of arrangements require significant planning and coordination between the managed care plan, counties, sheriff, probation, and other key stakeholders.

DHCS is also looking to leverage the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act provisions that may make it possible to begin providing enhanced care management for individuals exiting from incarceration with known medical and behavioral health needs 30 days prior to release.

This aspect of enhanced care management will support the scaling of diversion efforts aimed at keeping some of the most acute and vulnerable individuals with serious medical or behavioral health conditions out of jail/prison and in their communities. In this case, Medi-Cal managed care plans can contract with county and non-profit entities that work to meet the health care needs of those who are involved in pre- or post-booking diversion behavioral health and criminogenic treatment programs and, thus, are at risk for incarceration and could, through care coordination and service placement, have a treatment plan built to avoid incarceration and get into community-based care and services.

Furthermore, to complement this enhanced care management benefit, DHCS is proposing to mandate that all counties implement a county inmate pre-release Medi-Cal application process by January 1, 2023.

Mandated County Inmate Pre-Release Application Process

In 2004, the Centers for Medicare & Medicaid Services (CMS) issued a State Medicaid Director letter, entitled "Ending Chronic Homelessness," that encouraged states to ensure that applications for Medicaid are processed in a timely manner so that individuals can receive Medicaid-covered services immediately upon release from a public institution.

On May 6, 2014, DHCS provided guidance in All-County Welfare Directors Letter #14-24, on the pre-release application process for state inmates who apply for Medi-Cal coverage. Subsequently, on June 25, 2014, DHCS clarified in All County Welfare Directors Letter #14-24E, that the guidance issued in the May 2014 letter is also applicable to county inmates. However, a specific pre-release process to facilitate the applications for county inmates was not defined and implementation of such process was voluntary.

The current pre-release application process varies from county to county. From a survey of some counties, DHCS learned that relatively larger counties with pre-release programs, such as Orange County and Stanislaus County, have agreements with third-party entities (e.g., community-based organizations or vendors) to streamline the pre-release application process and to provide dedicated application intake staff that visit individuals at the county jail while still in custody. Of the smaller counties surveyed, Yolo County has an agreement with the Sheriff's Department to establish communication channels and set up physical stations at the correctional facility, as well as security clearances for designated county staff to speak with the county inmate applicant directly. **Appendix C: County Inmate Pre-Release Application Process sample contracting Models** includes the three main models currently being used for various county inmate pre-release application programs.

DHCS is proposing to mandate that all counties implement a county inmate pre-release Medi-Cal application process by January 1, 2023, which would include juvenile facilities. The goal of the proposal is to ensure the majority of county inmates/juveniles that are eligible for Medi-Cal and are in need of ongoing physical or behavioral health treatment receive timely access to Medi-Cal services upon release from incarceration.

Additionally, DHCS is proposing to mandate that all county jails and juvenile facilities implement a process for facilitated referral and linkage from county release to county specialty mental health, Drug Medi-Cal, Drug Medi-Cal Organized Delivery Systems, and Medi-Cal managed care providers when the inmate was receiving behavioral health services while incarcerated to allow for continuation of behavioral health treatment in the community. DHCS will look to counties to implement medical record release processes that would allow medical records to be shared with the county behavioral health and Medi-Cal managed care providers, prior to or upon release from jail or county juvenile facility.

The mandated county inmate pre-release application process will standardize policy, procedures, and collaboration between California's county jails, county sheriff's departments, juvenile facilities, county behavioral health and other health and human services entities. This collaboration will ensure that eligible individuals are enrolled in Medi-Cal prior to release and will establish a continuum of care and ongoing support that may ultimately help to reduce the demand for costly and inappropriate services.

2.2.3 Rationale

DHCS continues to strengthen integration within the state's health care delivery system and is working with health promotion partners to achieve better care and better health outcomes at lower cost to the Medi-Cal program. Creating a statewide enhanced care management benefit with required target populations is consistent with the CalAIM objective of reducing variation and complexity across the delivery system, as well as identifying and managing member risk and need. The benefit will comprise an intensive set of services for Medi-Cal members who require coordination at the highest levels. Targeted individuals are beneficiaries who may be challenged with medical and behavioral conditions, access to care issues, chronic illnesses, disabilities, multiple social determinants of health, and require multidisciplinary care to regain health and function.

The enhanced care management benefit will provide Medi-Cal managed care plans with opportunities to help beneficiaries achieve improved health and well-being through stratifying risk and need and developing care plans and strategic interventions. Enhanced care management services will extend beyond standard care coordination and disease management activities. They will be concentrated on the coordination and monitoring of cost-effective, high quality, direct care services, as well as connections to needed community supports for non-direct care needs.

2.2.4 Proposed Timeline

DHCS is proposing a phased statewide implementation of the enhanced care management benefit and inclusion in Medi-Cal managed care contracts. Medi-Cal managed care plans in counties with Whole Person Care Pilots and/or Health Homes Programs will implement enhanced care management on January 1, 2022 for those target populations currently receiving Health Homes and/or Whole Person Care services. On July 1, 2022, Medi-Cal managed care plans in those counties will implement additional required target populations and counties without Whole Person Care pilots and/or Health Homes Programs will begin implementing select populations on July 1, 2022. The benefit must be implemented for in all counties all target populations, including individuals transitioning from incarceration, by January 1, 2023.

DHCS is proposing an effective date of January 1, 2023 for counties to implement a county inmate/juvenile pre-release application process. To ensure the necessary data

Back to Item
Back to Agenda
Back to Agenda

sharing agreements and communication plans are in place, below is detailed timeline for planning and implementation of this proposal:

- **March 1, 2021:** Establish workgroup with County Welfare Director's Association and counties to develop and vet implementation plan
- **May 1, 2021:** All county guidance development
- **November 1, 2021:** County and stakeholder feedback process
- **January 1, 2022:** Publish All County Welfare Director Letter
- **January – December 2022:** County implementation planning and technical assistance
- **January 1, 2023:** Implementation of county inmate pre-release application process

2.3 In Lieu of Services

2.3.1 Background

The Whole Person Care pilots and Health Homes Program built a foundation for an integrated approach to coordinating medical care, behavioral health, and social services to improve beneficiary health outcomes. The implementation of these programs, however, has varied across California and did not provide a statewide platform to comprehensively address the needs of beneficiaries with the most complex health challenges.

According to federal Medicaid program rules, "in lieu of services" are medically appropriate and cost-effective alternatives to services that can be covered under the State Plan. They are typically delivered by a different provider or in a different setting than traditional State Plan services. An in lieu of service can only be covered if:

- The state determines that the service is a medically appropriate and cost-effective substitute or setting for the State Plan service;
- The services are optional for the managed care plan to provide;
- The services are optional for beneficiaries and they are not required to use the in lieu of service; and
- The in lieu of services are authorized and identified in the state's Medi-Cal managed care plan contracts.

Once adopted, Medi-Cal managed care plans will integrate in lieu of services into their population health management plans – often in combination with the new enhanced care

Back to Item
Back to Agenda
Back to Agenda

management benefit – to address gaps in State Plan benefit services. In lieu of services may be focused on addressing combined medical and social determinants of health needs to avoid higher levels of care. For example, in lieu of services might be provided as a substitute for, or to avoid, hospital or nursing facility admissions, discharge delays, and emergency department use. Based on extensive stakeholder feedback, DHCS has updated the in lieu of services menu of services. The feedback enhanced the overall design of in lieu of services, allowing beneficiaries receiving Health Homes or Whole Person Care services to continue receiving optional plan services. Furthermore, the additional feedback optimized the depth and capacity for serving eligible beneficiaries.

2.3.2 Proposal

DHCS is proposing to include the following fourteen (14) distinct services as in lieu of services under Medi-Cal managed care. Details regarding each proposed set of services are provided in **Appendix J: In Lieu of Services Options**:

- Housing Transition/Navigation Services
- Housing Deposits
- Housing Tenancy and Sustaining Services
- Short-Term Post-Hospitalization Housing
- Recuperative Care (Medical Respite)
- Respite Services
- Day Habilitation Programs
- Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly and Adult Residential Facilities
- Community Transition Services/Nursing Facility Transition to a Home
- Personal Care and Homemaker Services
- Environmental Accessibility Adaptations (Home Modifications)
- Meals/Medically Tailored Meals
- Sobering Centers
- Asthma Remediation

The provision of in lieu of services is voluntary for Medi-Cal managed care plans and beneficiaries have the option to accept the in lieu of services or receive the State Plan services instead. Each service will have defined eligible populations, code sets, potential providers, restrictions, and limitations. However, individual in lieu of services may be used

Back to Item
Back to Agenda
Back to Agenda

together with other complementary in lieu of services based on individual needs and may be combined with enhanced care management services for high-risk, complex-need individuals. ILOS can be offered as an appropriate EPSDT service. Other appropriate EPSDT services should be offered in conjunction with any ILOS.

Transition and Coordination Plan

Since DHCS is building on the infrastructure developed for the Health Homes Program and parts of the Whole Person Care pilots, Medi-Cal managed care plans in counties with these programs will be required to submit a Transition and Coordination Plan to the state by July 1, 2021 demonstrating how they will transition existing programs into their enhanced care management benefit and in lieu of services. The plans must also demonstrate a good faith effort to come into agreement with and contract for enhanced care management and in lieu of services with Health Homes providers and Whole Person Care entities providing such services. DHCS recognizes the significant investment in infrastructure, as well as the existing expertise in providing these types of services, by our local county and other public/private partners and expects Medi-Cal managed care plans to partner with these entities to continue providing these critical services. If the Medi-Cal managed care plan and existing provider cannot come to agreement, the Medi-Cal managed care plans will need to provide DHCS a justification as to why the plan has not contracted with such entities.

2.3.3 Rationale

Adoption of this set of in lieu of services will provide additional support to beneficiaries with complex medical and behavioral health needs who experience socio-economic conditions that impede their ability to achieve their health goals. These circumstances put them at risk of hospitalization, institutionalization, and/or in need of other higher cost services.

Currently, Medi-Cal strategies to address beneficiaries' social determinants of health vary across the state, depending on the initiatives underway in different regions. Consistent with the CalAIM objective of reducing variation and complexity across the delivery system, as well as identifying and managing member risk and need, establishing coverage of a set of in lieu of services will make a statewide offering of these critical interventions for Medi-Cal beneficiaries.

The in lieu of services framework allows for regions that do not currently have a sufficient infrastructure to provide the full array of services to build network capacity in a way that meets the unique needs of their residents. This may include partnerships to develop physical infrastructure, as well as collaborations with new provider types who have not historically worked with Medi-Cal. This will also set the stage for Medi-Cal managed care

Back to Item
Back to Agenda
Back to Agenda

plans to be prepared to have long-term services and supports integrated into their care program by 2027.

The stakeholder feedback was critical to ensuring that the identified services will adequately address the critical needs of beneficiaries. The final policy incorporates feedback received regarding strategies for building the necessary service infrastructure in a cost-effective manner, finalizing the eligible populations, potential restrictions and limitations, and appropriate provider types to deliver this new set of services.

2.3.4 Proposed Timeline

January 1, 2022: DHCS is proposing statewide implementation and inclusion of in lieu of services in Medi-Cal managed care plan contracts. DHCS will provide technical assistance to plans as they prepare to implement this new set of services.

2.4 Shared Risk, Shared Savings, and Incentive Payments

2.4.1 Background

The combination of carving in long-term care statewide, enhanced care management and in lieu of services provides a number of opportunities, including an incentive for building an integrated, managed long-term services and supports program by 2027 and building the necessary clinically-linked housing continuum for our homeless population.

In order for the state to be equipped with the needed MLTSS and clinically linked housing continuum infrastructure, it is important to consider potential incentives and shared savings/risk models that could be established to encourage Medi-Cal managed care plans and providers to fully engage. Incentive funding will be focused on building a pathway for Medi-Cal managed care plans to invest in the necessary delivery and systems infrastructure, build appropriate and sustainable enhanced care management and in lieu of services capacity, and achieve improvements in quality performance that can inform future policy.

2.4.2 Proposal

DHCS proposes to create a series of incentives through a multi-pronged risk strategy. Potential approaches include:

- A blended capitation rate to account for the addition of seniors and persons with disabilities and long-term care beneficiaries into managed care. The rate will be subject to a blend true-up, which will provide financial protections in case of significant differences between actual long-term care beneficiary enrollment and assumptions used during capitation rate development.

Back to Item
Back to Agenda
Back to Agenda

- A time-limited, tiered, and retrospective shared savings/risk financial calculation performed by DHCS. This tiered model would be available for three calendar years – 2023, 2024 and 2025.

- A prospective model of shared savings/risk incorporated via capitation rate development. DHCS proposes to implement this approach beginning in calendar year 2026, once historical cost and utilization experience is available that would reflect the implementation of in lieu of services, long-term care services, and enhanced care management benefits statewide in managed care.

DHCS will establish plan incentives linked to delivery system reform through an investment in enhanced care management and in lieu of services infrastructure. The incentive payments will also be based on quality and performance improvements and reporting in areas such as LTSS and other cross-delivery system metrics. The target of incentive payments is to drive change at the managed care plan and provider levels. DHCS anticipates managed care plans will partner and share the incentive dollars with on-the-ground providers, including our critical partners that operate Federally Qualified Health Centers, Rural Health Centers, Indian Health Service clinics, public hospital safety net systems, and county behavioral health systems and providers to work collaboratively to meet the defined targets of incentive program.

2.4.3 Rationale

In recognition of the financial uncertainties that accompany the implementation of enhanced care management, in lieu of services, and MLTSS statewide, DHCS is committed to implementing strategies that will limit excessive financial risk (losses) for Medi-Cal managed care plans, as well as for the state and federal governments. At the same time, DHCS supports the use of strategies that will result in financial gains that can be shared between Medi-Cal managed care plans and the state and federal governments. DHCS' goal is to establish financial mechanisms that will ensure a mutual commitment to the success of the proposed short- and long-term reforms and innovations within the Medi-Cal managed care program.

DHCS' proposed risk approaches are intended to strengthen financial incentives for Medi-Cal managed care plans to:

- Divert or transition beneficiaries from long-term institutional care to appropriate home and community-based alternatives, supported by the availability of in lieu of services and enhanced care management;

- Make the necessary infrastructure investments to support the goal of transitioning to an integrated long-term services and supports program; and

Back to Item
Back to Agenda
Back to Agenda

- Improve quality, performance measurement, and data reporting as a pathway toward realizing better health outcomes for Medi-Cal beneficiaries.

2.4.4 Proposed Timeline

Rate setting, including associated risk strategies, is a dynamic process. Therefore, DHCS will engage and collaborate with Medi-Cal managed care plans and make future refinements as determined appropriate.

- **January – December 2021:** Develop shared savings/risk and plan incentive methodologies and approaches with appropriate stakeholder input.
- **January 1, 2022:** Begin implementation of managed care plan incentives.
- **No sooner than January 1, 2023:** Begin implementation of a seniors and persons with disabilities/long-term care blended rate.

2.5 Serious Mental Illness/Serious Emotional Disturbance Demonstration Opportunity

2.5.1 Background

On November 13, 2018, CMS issued a State Medicaid Director letter that outlines opportunities for states to design innovative service delivery systems to improve care for adults with serious mental illness (SMI) and children with serious emotional disturbance (SED) who are enrolled in Medicaid.

This SMI/SED demonstration opportunity allows states to receive federal matching funds for services provided to Medicaid beneficiaries during short-term stays for acute care in psychiatric hospitals or residential treatment settings that qualify as an institution for mental disease (IMD) (e.g., psychiatric hospitals or psychiatric health facilities that have more than 16 beds), as long as it is part of a broader effort to build a robust continuum of care allowing care in the least restrictive, community-based settings. Due to the long-standing federal exclusion of Medicaid matching funds for services provided in these settings, California's counties have historically paid the full cost of inpatient mental health services provided to Medi-Cal beneficiaries in these settings.

2.5.2 Proposal

DHCS proposes that California pursue this SMI/SED demonstration opportunity to receive federal financial participation for services provided to Medi-Cal beneficiaries in an IMD. DHCS heard from stakeholders both positive and negative feedback regarding this proposal. Stakeholders in favor of the demonstration opportunity stated the additional federal funds could provide opportunities to improve service delivery and outcomes

Back to Item
Back to Agenda
Back to Agenda

across the continuum of care from inpatient to community-based settings, and the availability of additional matching funds would free up other local resources that counties could reinvest in strengthening other mental health services and further build the continuum of care in the community.

Proponents suggested that the demonstration opportunity is a critical component of solutions for the state hospital crisis (with long wait lists for people found incompetent to stand trial, as the state hospitals are full) and for achieving health equity, since increasing the number of short-term, crisis stabilization resources can divert people with mental illness to treatment instead of entering the justice system. People of color are disproportionately placed in justice settings instead of in mental health treatment, and lack of bed availability is a contributing factor. Stakeholders also expressed opposition based on concerns that the presence of the existing IMD exclusion is the primary safeguard in inhibiting county mental health departments from expanding the use of institutional settings and an important incentive to develop alternatives to those settings, and that using federal dollars to fund IMDs could divert resources from community-based services, undermining progress toward increased community integration and a community-based continuum of care.

On balance, DHCS believes the benefits outweigh the risks, and proposes that California submit an application to CMS using the usual process for submitting a Section 1115 waiver demonstration application. Similar to the state's existing 1115 demonstration to provide residential and other SUD treatment services under Medi-Cal, county participation would be voluntary.

2.5.3 Rationale

If California is approved to participate in the SMI/SED demonstration opportunity, federal financial participation would become available for mental health services provided to Medi-Cal beneficiaries in an IMD if all requirements are met. This additional funding would provide opportunities to improve service delivery and outcomes across a well-developed and robust continuum of care from inpatient to community-based settings, which is a requirement of this waiver. Availability of additional federal matching funds would free up other local resources, such as realignment funds, that counties may then reinvest in strengthening other mental health services and further build the continuum of care in the community.

The SMI/SED demonstration opportunity comes with many federal milestones and requirements. As of October 2020, Washington DC, Vermont, Indiana, and Idaho have approved applications, and Massachusetts, Oklahoma and Utah have pending 1115 waiver application to CMS. Below is a summary of key requirements, some of which may pose feasibility challenges:

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

- **Average Length of Stay:** The state would be required to achieve a statewide average length of stay of no more than 30 days for beneficiaries residing in IMDs. CMS developed guidance regarding calculations of average length of stay, clarifying that a short-term stay for acute care is limited to no more than 60 consecutive days, as long as the state continues to meet the statewide average length of stay of 30 days or less, and that states may not claim for *any* part of a stay (days 0 to 60) that exceeds 60 days.

- **Improving Community-based Services**: States participating in the SMI/SED demonstration opportunity will be expected to commit to taking several actions to improve community-based mental health care. These actions are linked to a set of goals for the SMI/SED demonstration opportunity and will milestones for ensuring quality of care in IMDs, to improve connections to community-based care following stays in acute care settings, to ensure a continuum of care is available to address more chronic, on-going mental health care needs of beneficiaries, to provide a full array of crisis stabilization services, and to engage beneficiaries with SMI/SED in treatment as soon as possible.

- **Maintenance of Effort:** According to the guidance, CMS will be examining the commitment to ongoing maintenance-of-effort on funding outpatient community-based mental health services and states must provide an assessment of current availability of mental health services. The purpose of the maintenance-of-effort requirement is to ensure that resources are not disproportionately drawn into increasing access to treatment in inpatient and residential settings at the expense of community-based services.

- **Data Collection & Required Measures:** The state would need to report on a common set of measures and agree to additional measures and concepts specific to the state's demonstration parameters.

- **Health Information Technology:** The state would be required to develop and submit a health information technology plan that describes the ability to leverage technology, advance health information exchange(s), and ensure interoperability in support of the demonstration's goals. The health information technology plan would address electronic care plan sharing, care coordination, and behavioral and physical health integration.

- **Staffing and Resource Considerations:** Since DHCS does not currently pay for IMD services for this target population, pursuing the demonstration and ensuring compliance with requirements would require additional staffing and resources. Similarly, counties would likely need additional resources to implement and comply with elements required by the demonstration.

Back to Item
Back to Agenda
Back to Agenda

For additional information about the demonstration goals and milestones, federal application requirements, and other relevant requirements, please refer to the **Appendix E: CalAIM Benefit Changes Chart** of this proposal.

2.5.4 Proposed Timeline

The SMI/SED demonstration proposal would be developed no sooner than July 1, 2022. If the waiver proposal is approved by CMS, DHCS would work with interested counties to develop a formal implementation plan, with expected launch of the demonstration in 2023-24.

2.6 Full Integration Plans

2.6.1 Background

Currently, Medi-Cal beneficiaries must navigate multiple complex managed care and fee-for-service delivery systems to meet all of their health care needs. Beneficiaries enrolled in Medi-Cal managed care plans receive physical health care and treatment for mild-to-moderate mental health conditions from their Medi-Cal managed care plan, care for SMI/SED and SUD from the county delivery system, and dental care from a separate fee-for-service delivery system or a dental managed care plan. This fragmentation can lead to gaps in care and disruptions in treatment, cost inefficiencies, and generally fails to be patient-centered and convenient for most beneficiaries. The longevity gap among individuals with serious and persistent mental illness, and the fact that this group suffers and dies from un-or under-treated chronic physical health conditions, demonstrates the need to pilot the concept of a fully integration delivery system.

2.6.2 Proposal

DHCS would like to test the effectiveness of full integration of physical health, behavioral health, and oral health under one contracted entity. Multiple Medi-Cal delivery systems (Medi-Cal managed care, county mental health plans, county Drug Medi-Cal and DMC-ODS programs) would be consolidated under one contract with DHCS. To further develop this concept, DHCS will be engaging in stakeholder conversations to inform the development of the various components associated with fully integrating health care services. Topics will include contractor selection criteria, strategies for consolidating contract requirements, subcontracting and network requirements, and delivery system administration issues such as care coordination, utilization management, quality monitoring, and external quality review organization functions.

Back to Item
Back to Agenda
Back to Agenda

2.6.3 Rationale

In alignment with CalAIM, fully integrating all or most of the Medi-Cal health care delivery systems under one contract would improve the beneficiary experience as well as health outcomes by eliminating fragmentation, duplication, and the need to navigate multiple systems. In addition, integration will improve access to health data/data sharing among providers and between the plan and DHCS. Full integration would also result in overall administrative simplification by consolidating and streamlining system infrastructure. An integrated delivery system would allow for more efficient coordination of care and create opportunities to identify and manage the risks and needs of the beneficiaries in a more holistic way.

As part of the CalAIM workgroup process, DHCS sought stakeholder feedback to understand the benefits, risks and considerations for plans and counties interested in participating in a full integration model. Discussion included realignment (county behavioral health participation would need to be voluntary), how non-Medi-Cal funding streams would be managed (such as MHSA), criteria for participation, the need for adequate planning and preparation, the importance of clearly defined outcome measures, and other considerations.

2.6.4 Proposed Timeline

DHCS acknowledges the complexity of this proposal, and for this reason, is proposing a go-live of no sooner than January 2027, to allow sufficient time for planning and preparation, in partnership with counties, plans and other stakeholders.

2.7 Long-Term Plan for Foster Care

2.7.1 Background

Children and youth in foster care often present with complex medical, behavioral, oral and developmental health problems rooted in their history of childhood trauma and adverse childhood experiences (ACEs) Navigating multiple systems of care can create inherent challenges. Under the Medi-Cal program, beneficiaries receive services through various delivery systems, including Medi-Cal managed care, fee-for-service, California Children's Services, regional centers, dental county mental health plans, Drug Medi-Cal, and DMC-ODS programs. While children and youth in foster care typically have a comprehensive team to help facilitate and oversee their care including social workers, public health nurses, and the judicial system; many challenges remain in navigating Medi-Cal delivery systems, especially if there are multiple placements that may result in the child moving from one county to another or between homes in a single county.

In recent years, California has placed a greater emphasis on the behavioral health care needs of child welfare-involved children and families through major reforms such as the

Continuum of Care Reform, Family Urgent Response System, development of short-term residential treatment providers and coordinated efforts to implement the new federal Family First Prevention Services Act in California.

2.7.2 Proposal

In assessing the challenges foster care children and youth face, in June 2020 DHCS launched a workgroup of interested stakeholders to consider whether DHCS should develop a different model of care for children and youth in foster care, including the former foster youth and youth transitioning out of foster programs and services. To facilitate this discussion and develop meaningful recommendations, DHCS invited participation from key partners including but not limited to: the Department of Social Services, the Department of Education, child welfare county representatives and state-level associations, Medi-Cal managed care plans, behavioral health managed care plans, juvenile justice and probation, foster care consumer advocates, regional centers, and judicial entities involved with matters pertaining to children who are placed into the foster care system. DHCS also commissioned focus groups with foster youth and foster parents, to hear directly from those most affected by the challenges in the current system.

2.7.3 Proposed Timeline

DHCS launched the workgroup in June 2020, and will meet every other month through June 2021. DHCS and CDSS then will take lessons learned from the workgroup and the input from stakeholders and develop a comprehensive set of recommendations and plan of action, which may involve budget recommendations, waiver amendments, State Plan changes or other activities.

3. Moving Medi-Cal to a More Consistent and Seamless System by Reducing Complexity and Increasing Flexibility

This section will walk through the proposals aimed at standardizing and reducing complexity across all delivery systems.

Managed Care

- Managed Care Benefit Standardization
- Mandatory Managed Care Enrollment
- Transition to Statewide Long-Term Services and Supports, Long-Term Care & Duals-Special Needs Plans
- NCQA Accreditation of Medi-Cal Managed Care Plans
- Regional Managed Care Capitation Rates

Behavioral Health

- Behavioral Health Payment Reform
- Medical Necessity Criteria and Other Related Changes
- Administrative Integration of Specialty Mental Health and Substance Use Disorder Services
- Behavioral Health Regional Contracting
- DMC-ODS Renewal and Policy Improvements

Dental

- New Dental Benefits and Pay for Performance

County Partners

- Enhancing County Eligibility Oversight and Monitoring
- Enhancing County Monitoring and Oversight: California Children's Services and Child Health and Disability Prevention
- Improving Beneficiary Contact and Demographic Information

Managed Care

3.1 Managed Care Benefit Standardization

3.1.1 Background

Medi-Cal delivers services through a variety of delivery systems today including fee-for-service, managed care, county mental health, Drug Medi-Cal Organized Delivery System, and Drug Medi-Cal. Most full-scope Medi-Cal beneficiaries receive their physical health

Back to Item
Back to Agenda
Back to Agenda

services through a Medi-Cal managed care plan. While Medi-Cal managed care exists statewide, it is operated under six different model types that currently differ based on whether certain benefits are part of the Medi-Cal managed care plan's responsibility or provided through a different delivery system.

3.1.2 Proposal

Under CalAIM, DHCS is proposing to standardize the benefits that are provided through Medi-Cal managed care plans statewide. Regardless of the beneficiary's county of residence or the plan they are enrolled in, they will have the same set of benefits delivered through their Medi-Cal managed care plan as they would in another county or plan.

DHCS is proposing the following changes:

Carved Out Benefits

- Effective April 1, 2021, all pharmacy benefits or services by a pharmacy billed on a pharmacy claim will be carved out from Medi-Cal managed care plans (pursuant to the Governor's Executive Order N-01-19 from January 7, 2019). This applies to all Medi-Cal managed care plans, including AIDS Healthcare Foundation, but does not apply to SCAN Health Plan, Programs of All-Inclusive Care for the Elderly (PACE) organizations, Cal MediConnect health plans, and Major Risk Medical Insurance Program (MRMIP).

- Effective January 1, 2022, the following benefits that are currently within the scope of some or all the Medi-Cal managed care plans will be carved out:

    - Specialty mental health services that are currently carved in for Medi-Cal members enrolled in Kaiser in Solano and Sacramento counties; and

    - The Multipurpose Senior Services Program which is currently included in the Medi-Cal managed care plans in the seven Coordinated Care Initiative counties.

Carved In Benefits

- Effective January 1, 2022, all major organ transplants, currently not within the scope of many Medi-Cal managed care plans, will be carved into all plans statewide for all Medi-Cal members enrolled in a plan.

- Effective January 1, 2023, institutional long-term care services (i.e. skilled nursing facilities, pediatric/adult subacute care, intermediate care facilities for individuals with developmental disabilities, disabled/habilitative/nursing services, specialized rehabilitation in a skilled nursing facility or intermediate care facilities), currently

Back to Item
Back to Agenda
Back to Agenda

not within the scope of many Medi-Cal managed care plans will be carved into all plans statewide for all Medi-Cal members enrolled in a plan.

In order to provide a smooth transition from fee-for-service to managed care, promote access and maintain affordability, DHCS proposes to require that long-term care and transplant providers accept as payment in full and require the Medi-Cal managed care plan to pay the applicable Medi-Cal fee-for-service rate, unless the provider and plan mutually agree upon an alternative payment. This is consistent with how these transitions to managed care have occurred in the past, such as with the Coordinated Care Initiative and the Whole Child Model.

3.1.3 Rationale

The standardization of benefits delivered through Medi-Cal managed care plans statewide has two main purposes and benefits:

- Beneficiaries will no longer have to deal with the confusion that may arise when moving counties/plans and to find that different benefits are covered by their new plan or that they need to access another delivery system; and
- DHCS will be able to implement a change to Medi-Cal managed care plan rate setting. Currently, the capitation payment rates are developed on a county-by-county and plan-by-plan basis, resulting in excessive administrative work and challenges. With the standardization of the benefits and populations, DHCS will be able to move to a regional rate setting process that will reduce the number of rates being developed and allow DHCS to work with the managed care plans to explore different rate setting methodologies and adjustments to reward improved quality and outcomes.

3.1.4 Proposed Timeline

The benefit standardization will be effective and included in Medi-Cal managed care plan contracts by January 2023, according to **Appendix F: Managed Care Enrollment Proposed Aid Code Group Coverage**.

3.2 Mandatory Managed Care Enrollment

3.2.1 Background

Currently, the Medi-Cal program provides benefits through both a fee-for-service and managed care delivery system. Enrollment into the fee-for-service delivery system or the managed care delivery system is based upon specific geographic areas, the health plan model, and/or the aid code that the beneficiary is determined to qualify for. In some cases, enrolling in managed care is optional for beneficiaries. However, more than 80 percent of Medi-Cal beneficiaries are currently served through the managed care delivery system.

3.2.2 Proposal

In an effort to enhance coordination of care, increase standardization, and reduce complexity across the Medi-Cal program, DHCS is proposing to standardize which aid code groups will require mandatory managed care enrollment versus mandatory fee-for-service enrollment, across all models of care and aid code groups, statewide. Under this proposal, beneficiaries in a voluntary or excluded from managed care enrollment aid code that are currently accessing the fee-for-service delivery system, would be required to choose a Medi-Cal managed care plan and will not be permitted to remain in fee-for-service. DHCS completed extensive data analytics to inform this proposal, for example, 73% of beneficiaries with other health coverage are already enrolled in managed care today and of non-long-term care share of cost beneficiaries, on average only 5.4% of beneficiaries meet their monthly share of cost.

DHCS is proposing implementation of this change in two phases, transitioning non-dual eligible populations in 2022 and dual eligible populations in 2023. A non-dual member is defined as a Medi-Cal member without any Medicare coverage. A dual beneficiary is defined as a Medi-Cal member with any Medicare coverage. This would include Medi-Cal members with Medicare A only or Part B only (partial duals) and members with Medicare Part A and B (full duals) regardless of enrollment in Medicare Part C or Part D. See below for a summary of changes and **Appendix F: Managed Care Enrollment Proposed Aid Code Group Coverage** for more details.

Given the ability and directive of Medi-Cal managed care plans to provide case and care management not available in a fee-for-service environment, DHCS firmly believes that Medi-Cal managed care is a delivery system we should continue to invest in and rely upon. In conjunction with these new and increased responsibilities, DHCS plans to increase oversight of the plans and their delegated entities to ensure that current requirements being met but also that the additional benefits and requirements contained in CalAIM are truly being provided statewide.

Mandatory Managed Care Enrollment

Below are the populations that currently receive benefits through the fee-for-service delivery system that would transition to Medi-Cal managed care upon implementation of this proposal in 2022:

- Trafficking and Crime Victims Assistance Program (except share of cost)
- Individuals participating in accelerated enrollment
- Child Health and Disability Prevention infant deeming
- Pregnancy-related Medi-Cal (Pregnant Women only, 138-213% citizen/lawfully present)
- American Indians
- Beneficiaries with other health care coverage

Back to Item
Back to Agenda
Back to Agenda

- Beneficiaries living in rural zip codes

Below are the populations that currently receive benefits through the fee-for-service delivery system except in COHS and CCI counties that would transition to the Medi-Cal managed care system upon implementation of this proposal in 2023:

- All dual and non-dual individuals eligible for long-term care services (includes long-term care share of cost populations)
- All partial and full dual aid code groups, except share of cost or restricted scope, will be mandatory Medi-Cal managed care, in all models of care starting in 2023

Mandatory Fee-for-Service Enrollment

This proposal would also move the following populations from mandatory managed care enrollment into mandatory fee-for-service enrollment upon implementation of this proposal in 2022:

- Omnibus Budget Reconciliation Act (OBRA): This population was previously mandatory managed care in Napa, Solano, and Yolo counties.
- Share of Cost: beneficiaries in county organized health systems (COHS) and Coordinated Care Initiative counties excluding long-term care share of cost.

Therefore, beneficiaries in the following aid code groups will have mandatory fee-for-service enrollment:

- Restricted scope
- Share of cost (including Trafficking and Crime Victims Assistance Program share of cost, excluding long-term care share of cost)
- Presumptive eligibility
- State medical parole, county compassionate release, and incarcerated individuals
- Non-citizen pregnancy-related aid codes enrolled in Medi-Cal (not including Medi-Cal Access Infant Program enrollees)

DHCS recommends keeping enrollment requirements for foster care children and youth in place until the Foster Care Workgroup makes recommendations on the future delivery system for foster care children and youth.

3.2.3 Rationale

Moving to mandatory managed care enrollment will standardize and reduce the complexity of the varying models of care delivery in California. Populations moving between counties will have the same experience when it comes to receiving services through a managed care plan. Transitioning current populations to mandatory managed care enrollment will also allow for Medi-Cal managed care plans to provide more

Back to Item
Back to Agenda
Back to Agenda

coordinated and integrated care and provide beneficiaries with a network of primary care providers and specialists.

Additionally, DHCS will be able to implement a change to Medi-Cal managed care plan rate setting. Currently, the capitation payment rates are developed on a county-by-county and plan-by-plan basis, resulting in excessive administrative work and challenges. With the standardization of the benefits and populations, DHCS will be able to move to a regional rate setting process that will reduce the number of rates being developed and allow DHCS to work with the managed care plans to explore different rate setting methodologies and adjustments to reward improved quality and outcomes.

3.2.4 Proposed Timeline

- **January 1, 2022:** Non-Dual and pregnancy related aid code group, and population-based transitions, except for LTC aid codes.
- **January 1, 2023:** Dual aid code group transition, including LTC aid codes for both non-dual and dual beneficiaries.

3.3 Transition to Statewide Long-Term Services and Supports, Long-Term Care, & Dual Eligible Special Needs Plans

3.3.1 Background

Under CalAIM, DHCS is proposing to transition CMC and the CCI to a statewide MLTSS and dual eligible special needs plan (D-SNP) structure. This policy is intended to help meet the statewide goals of improved care integration and person-centered care, under both CalAIM and the California Master Plan for Aging.

The Coordinated Care Initiative has been underway in seven California counties and is comprised of two parts: 1) Cal MediConnect, a demonstration project that combined acute, primary, institutional, and home and community-based services into a single benefit package for individuals who are fully or partially eligible for Medicare and Medicaid; 2) mandatory Medi-Cal managed care enrollment for dual eligibles for all Medi-Cal benefits, including managed long-term services and supports.

The Governor's 2017-2018 budget determined that the Coordinated Care Initiative was not cost-effective due to the financing of the In-Home Supportive Services benefit, which was carved out to fee-for-service effective January 1, 2018. DHCS will carve out Multipurpose Senior Services Program services to fee-for-service effective January 1, 2022 for all Medi-Cal members. CMS approved an extension for the remaining program elements – Cal MediConnect and mandatory managed long-term services and supports enrollment – until December 31, 2022.

While the Coordinated Care Initiative and Cal MediConnect offer the promise of better integrated care for California's dual eligibles, the program is only available in seven out of 58 counties. Additionally, Cal MediConnect has been a complex program to administer.

DHCS is implementing a new approach to take the key lessons learned and innovative strategies from these programs and make them more broadly available across the State.

3.3.2 Proposal

Aligned Enrollment

DHCS will use selective contracting to move toward aligned enrollment in D-SNPs; beneficiaries will enroll in a Medi-Cal managed care plan and D-SNP operated by the same parent company to allow for greater integration and coordination of care.

- In CCI counties, aligned enrollment will begin in 2023. Cal MediConnect members will transition to aligned D-SNPs and managed care plans operated by the same organization as their Cal MediConnect product.
- Aligned enrollment will phase-in in non-CCI counties as plans are ready. DHCS will require managed care plans to apply for aligned D-SNPs to be effective no later than contract year 2025.
- Dual eligible beneficiaries already enrolled in a non-aligned D-SNP (a D-SNP that is not affiliated with their managed care plan) when aligned enrollment takes effect in their county will be in that D-SNP (allowing the beneficiary to stay in the non-aligned D-SNP). New enrollment in those non-aligned D-SNPs will be closed.

In conjunction with the aligned enrollment approach, starting in 2022 CMS will limit enrollment into Medicare Advantage (MA) plans that are D-SNP “look-alikes.” These are MA plans that offer the same cost sharing as D-SNPs, but do not offer integration and coordination with Medi-Cal or other benefits targeted to the dual eligible population, such as risk assessments or care plans.

As outlined in the CMS Contract Year 2021 Medicare Advantage and Part D Final Rule:

- CMS will not enter into contracts with new MA plans that project 80 percent or more of the plan's enrollment will be entitled to Medicaid starting in 2022; and
- CMS will not renew contracts with MA plans (except SNPs) that have enrollment of 80 percent or more enrollees who are entitled to Medicaid (unless the MA plan has been active for less than one year and has enrollment of 200 or fewer individuals).

DHCS will also allow plans in CCI counties with managed care plan contracts, existing D-SNPs, and existing MA D-SNP look-alike plans to transition their dual eligible populations enrolled in the MA look-alike into an existing D-SNP in 2022, prior to the end of CCI. This will provide better coordination of care, without reducing enrollment in Cal MediConnect plans, and is in alignment and preparation for the CMC transition to D-SNP aligned enrollment in 2023.

Back to Item
Back to Agenda
Back to Agenda

D-SNP Integration Requirements

DHCS will require that all D-SNPs use a model of care addressing both Medicare and Medi-Cal services to support coordinated care, high-quality care transitions, and information sharing. DHCS will work with CMS to incorporate new CalAIM model of care requirements into the D-SNP model of care, as appropriate.

As DHCS implements aligned enrollment, DHCS will require D-SNPs to:

- Develop and use integrated member materials.
- Include consumers in their existing advisory boards.
- Work with CMS to establish quarterly joint contract management team meetings for aligned D-SNP and managed care plans.
- Include dementia specialists in their care coordination efforts.
- Coordinate carved-out LTSS benefits including IHSS, MSSP, and other HCBS waiver programs.

Additionally, DHCS will work with CMS to coordinate audit timing, to avoid a D-SNP/managed care plan being audited by both agencies at the same time.

Long-Term Care Carve In

In conjunction with mandatory Medi-Cal managed care enrollment, DHCS will require statewide integration of LTC into managed care for Medi-Cal populations by 2023. This means that full- and partial-benefit duals in LTC facilities in counties or plans that do not already include LTC will be enrolled in Medi-Cal managed care by 2023.

D-SNP Transitions and Enrollment Policies

DHCS will encourage aligned enrollment of dual eligibles into matching managed care plans and D-SNPs to promote more integrated care. During all transitions, DHCS will work with CMS to ensure beneficiaries receive continuity of care protections.

Mandatory Enrollment into Medi-Cal Managed Care Plans

DHCS is committed to providing beneficiary and provider education, as well as technical assistance around Medi-Cal managed care plan requirements, for mandatory enrollment of dual eligibles into Medi-Cal managed care. As part of this work, DHCS will:

- Review and make any needed updates to education and enrollment materials used to assist dual eligibles in enrolling into a managed care plan or PACE for their Medi-Cal benefits.

Back to Item
Back to Agenda
Back to Agenda

- Help educate providers about necessary billing practices as well as the processes that will not change, building on materials and best practices previously developed under CCI.

3.3.3 Rationale

Individuals dually eligible for Medicare and Medi-Cal are among the highest need populations. However, lack of coordination between Medicare and Medi-Cal can make it difficult for individuals enrolled in both programs to navigate these separate systems of care. California has made significant progress in building integrated systems through the implementation of CCI and CMC in seven counties (Los Angeles, Orange, San Diego, San Mateo, Riverside, San Bernardino and Santa Clara). As part of the CalAIM initiative, DHCS is leveraging the lessons and success of CCI to develop policies to promote integrated care through D-SNPs and MLTSS across California. This includes mandatory enrollment for dual eligibles into managed care plans for their Medi-Cal benefit and increasing the availability of aligned D-SNPs. This will allow duals to voluntarily enroll for their Medicare benefits into the D-SNP that is aligned with their managed care plan.

In addition, to promote integrated, person-centered care, the D-SNP and MLTSS policies will rely on California's robust and diverse array of HCBS providers across the state who serve older Californians and people with disabilities. In support of this effort, DHCS plans to submit a request for supplemental funding through the federal Money Follows the Person grant to accelerate LTSS system transformation design and implementation, and to expand HCBS capacity. The one-time supplemental funding would be used to develop a multi-year roadmap for implementing strategies and solutions for strengthening HCBS and MLTSS programs and provider networks. DHCS' intent is that the roadmap will provide a unified vision to integrate CalAIM MLTSS, D-SNP policy and the related in lieu of services policy, other components of the Master Plan on Aging, and all of HCBS, to expand and better link those HCBS to Medi-Cal managed care and D-SNP plans.

3.3.4 Proposed Timeline

- **January 1, 2021:** All existing D-SNPs must meet new regulatory integration standards effective 2021.

- **January 1, 2022**: Voluntary in lieu of services in all Medi-Cal managed care plans and CMC plans. Multipurpose Senior Services Program (MSSP) carved out of managed care in CCI counties. Plans in CCI counties with existing managed care plan contracts, existing D-SNPs, and existing MA D-SNP look-alike plans may transition their dual eligible populations enrolled in the MA look-alike into an existing D-SNP.

- **December 31, 2022**: Discontinue CMC and CCI.

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

- **January 1, 2023**: Statewide mandatory enrollment of full- and partial- benefit dual eligible beneficiaries into managed care plans for Medi-Cal benefits, including dual and non-dual eligible LTC residents and statewide integration of LTC into Medi-Cal managed care. Aligned enrollment begins in CCI counties and managed care plans in those counties must stand up D-SNPs. All CMC members cross-walked to matching D-SNP and managed care plans, subject to CMS and state requirements.

- **January 1, 2025**: Aligned enrollment begins in non-CCI counties; All managed care plans required to begin operating D-SNPs (voluntary enrollment for dual eligibles' Medicare benefit).

- **January 1, 2027**: Implement MLTSS statewide in Medi-Cal managed care.

3.4 NCQA Accreditation of Medi-Cal Managed Care Plans

3.4.1 Background

The National Committee for Quality Assurance (NCQA) is a private, not-for-profit organization that offers accreditation to health plans and other health care-related entities (e.g., accountable care organizations) in the areas of quality improvement, population health management, network management, utilization management, credentialing and re-credentialing, and member experience. NCQA also develops quality performance measures known as the Healthcare Effectiveness Data and Information Set (HEDIS) measures, which provide a standardized method for comparing health plan performance. Currently, 26 states require NCQA accreditation for their contracted Medicaid managed care plans.

DHCS conducts annual medical audits of all Medi-Cal managed care plans, but does not currently "deem," or use information obtained from a national accreditation review, to satisfy mandatory external quality review activities, with the exception of the credentialing requirement of the annual medical audit. Federal regulations permit the state to deem this information for credentialing purposes.

DHCS does not currently require Medi-Cal managed care plans to be accredited by NCQA. Out of 24 full scope Medi-Cal managed care plans in the state, 17 health plans currently have NCQA accreditation. Medi-Cal managed care plans that provide private coverage through Covered California are required to be accredited by either NCQA, the Utilization Review Accreditation Commission (URAC), or the Accreditation Association for Ambulatory Health Care (AAAHC).

3.4.2 Proposal

To streamline Medi-Cal managed care plan oversight and to increase standardization across plans, DHCS recommends requiring all Medi-Cal managed care plans and their

health plan subcontractors to be NCQA accredited by 2026. DHCS may use NCQA findings to certify or deem that Medi-Cal managed care plans meet particular state and federal Medicaid requirements. However, numerous stakeholders have shared with DHCS their concerns around DHCS deeming any elements of its current oversight of the managed care plans. Before DHCS recommends deeming of elements of its annual medical audits of the plans, DHCS will solicit feedback on the proposed deemable elements. If deeming does occur, DHCS will post information on the deeming elements and the corrective action plan for NCQA oversight findings on its website. DHCS will not accept accreditation from entities other than NCQA (e.g. URAC). Additional information on proposed deeming is below.

DHCS will also require Medi-Cal managed care plan NCQA accreditation to include the LTSS Distinction Survey subsequent to all health plans operating a D-SNP by 2027; the exact effective date for the LTSS Distinction Survey will be determined at a later date. Requiring the LTSS Survey will align with the state's effort to carve-in long-term care services and expand in lieu of services to make MLTSS a statewide benefit.

While DHCS is interested in the potential future addition of the Medicaid (MED) module to routine NCQA health plan accreditation, as it could potentially maximize the opportunity for streamlining state compliance and deeming, DHCS has determined that it is premature to require the MED module at this point, given how new it is for NCQA.

Finally, DHCS had considered requiring Medi-Cal managed care plans to ensure any non-health plan subcontractors to whom certain contractual elements are delegated are NCQA accredited for that function. DHCS will not require this in its contracts with the Medi-Cal managed care plans at this time; Medi-Cal managed care plans will need to determine if they will require any accreditation of their non-health plan subcontractors. If DHCS decides to deem particular elements of NCQA health plan accreditation standards, and any Medi-Cal managed care plans elect to require NCQA accreditation of their subcontractors, the Medi-Cal managed care plans will have the option to offer deeming on those same elements, if applicable, with their subcontractors.

3.4.3 Rationale

One of the three objectives of CalAIM is to reduce variation and complexity across Medi-Cal delivery systems, including standardization of the Medi-Cal managed care benefit. requiring NCQA accreditation of its managed care plans and following the NCQA framework, DHCS can potentially increase standardization throughout the state and reduce redundancies in various processes and assessments, in areas such as care coordination, which DHCS currently requires. Further, NCQA accreditation can assist in streamlining DHCS monitoring and oversight of managed care plans, particularly with regard to the annual medical audits, by increasing the number of elements in which DHCS may consider deeming Medi-Cal managed care plans. This would allow the annual medical audits to focus on other DHCS priority areas not reviewed by NCQA.

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

The addition of the LTSS Distinction Survey aligns with DHCS' goal of making LTSS a statewide benefit. DHCS recognizes that the addition of this survey to routine NCQA accreditation may be difficult for Medi-Cal managed care plans that are not already NCQA accredited, so DHCS will determine a timeframe for requiring the LTSS Distinction Survey that falls after all managed care plans have achieved routine NCQA plan accreditation.

3.4.4 Proposed Timeline

DHCS will require all Medi-Cal managed care plans and their health plan subcontractors to be NCQA accredited by 2026.

- DHCS will review and consider elements of NCQA health plan accreditation standards for deeming in relation to the annual A&I compliance audits.
    - DHCS will ensure that a complete crosswalk of federal and state Medicaid requirements and NCQA health plan accreditation standards is available online for comment prior to finalizing any deeming decisions.
    - DHCS will ensure that any NCQA health plan accreditation elements selected for potential deeming are vetted with stakeholders prior to finalizing any deeming decisions.
- DHCS may consider implementing deeming of the select elements sooner than 2026 for Medi-Cal managed care plans that already have NCQA accreditation. DHCS will align all applicable processes in its Medi-Cal managed care plan contract and All Plan Letters with the following six NCQA health plan accreditation categories to correspond with the requirement for accreditation by 2026:
    - Quality Improvement;
    - Population Health Management;
    - Network Management;
    - Utilization Management;
    - Credentialing; and
    - Member Experience.

3.5 Regional Managed Care Capitation Rates

3.5.1 Background

DHCS currently develops, certifies, and implements managed care capitation rates on an annual basis for contracted Medi-Cal managed care plans. DHCS develops distinct rates for each contracted managed care plan by county/region and population group. Due to the complexities of the Medi-Cal managed care program, which includes varied and intricate financing mechanisms, DHCS calculates multiple rating components for each capitation rate for a total of more than 4,000 rating components on an annual basis as of

Back to Item
Back to Agenda
Back to Agenda

state fiscal year 2018-19. The excessively large number of rating components DHCS must develop on an annual basis is administratively burdensome and contributes to lengthy annual federal review and approval timeframes. It also limits DHCS' ability to advance value-based and outcomes-focused rate setting methodologies. With the changes contemplated in CalAIM, DHCS views the need for simplified methodologies with a reduced number of components as necessary to achieving our broader goals of improving care delivery, access, quality and outcomes for our Medi-Cal beneficiaries.

3.5.2 Proposal

A regional rate-setting methodology provides a pathway toward simplification of the rate-setting process for the Medi-Cal managed care program. The proposed simplification will afford DHCS the flexibility to continue to pursue strategies that support advancements and innovations within the program.

To ensure a successful transition, DHCS proposes a two-phased approach:

Implement Regional Rates in Targeted Counties (Phase I)

- DHCS would implement Phase I for calendar years 2022 and 2023 (at a minimum) for targeted counties and Medi-Cal managed care plans;
- DHCS would advance new regional rate-setting approaches and streamline rate processes and methodologies;
- DHCS would utilize Phase I as a means of identifying strategies and further improvements that will support a seamless transition to regional rate setting statewide; and
- DHCS would engage and collaborate with contracted Medi-Cal managed care plans and industry associations as part of this process.

Fully Implement Regional Rates Statewide

- DHCS proposes to fully implement regional rates statewide no sooner than calendar year 2024, to align with the end of Phase I; and
- DHCS will consider health care market dynamics, including but not limited to health care cost and utilization data, across counties when determining regional boundaries.

3.5.3 Rationale

The proposed transition to regional rates statewide offers four main benefits:

- Regional rates would reduce the number of distinct rating components that DHCS must develop on an annual basis, and thereby permit DHCS to utilize a more flexible rate structure model. This flexibility is essential to DHCS' ability to pursue

Back to Item
Back to Agenda
Back to Agenda

advancements and innovations in the Medi-Cal managed care program, including CalAIM, and to explore new, innovative ideas.

- Regional rates would simplify the presentation of rates to CMS, which may expedite federal review and approval of the Medi-Cal managed care capitation rates. DHCS could implement rate-setting approaches that promote efficiency, including cost-averaging processes, across Medi-Cal managed care plans.
- These approaches would continue to incentivize Medi-Cal managed care plans to operate efficiently as rates will be based upon costs across the multi-county region. In effect, each Medi-Cal managed care plan will be incentivized to compete to be more efficient than other plans in their region.
- Regional rates would provide a larger, multi-county base for averaging, and thereby alleviate some of the criticisms regarding the process currently used by DHCS.

3.5.4 Proposed Timeline

Rate setting is a dynamic process. Therefore, DHCS will proceed methodically, engage and collaborate with Medi-Cal managed care plans, and make future refinements as determined actuarially appropriate.

- **Calendar Year 2020 and 2021:** Develop regional rate-setting methodologies and approaches with appropriate stakeholder input.
- **January 1, 2022:** Implement Phase I for targeted counties and Medi-Cal managed care plans.
- **Calendar Year 2023:** Evaluate and continue to refine the rate-setting process prior to the implementation of regional rates statewide.
- **No sooner than January 1, 2024:** Fully implement regional rates statewide.
- **Post-implementation:** Continue to evaluate and refine the rate-setting process and regions.

Behavioral Health

3.6 Behavioral Health Payment Reform

3.6.1 Background

Through realignment efforts in 1991 and 2011, funding for the majority of the non-federal share of costs associated with the specialty mental health and substance use disorder (SUD) services became the responsibility of the counties. Currently, counties are reimbursed for the federal and state portion of costs for services and administration of these programs via Medicaid Certified Public Expenditure (CPE) methodologies. Under

Back to Item
Back to Agenda
Back to Agenda

CPE methodologies, reimbursements to counties are limited to costs incurred by the counties and are subject to a lengthy and labor-intensive cost reconciliation process.

For specialty mental health services, counties pay with non-federal funds at the time of service and when incurring costs to administer the programs. The counties then submit CPEs to DHCS so that the state can draw down eligible federal Medicaid matching funds. In accordance with the CMS-approved CPE protocol, mental health plans receive interim reimbursement of federal financial participation on a fee-for-service basis, pursuant to interim rates approved by the state on an annual basis for approved units of service for allowable procedure codes. The state completes the interim reconciliation of interim Medicaid payments no later than 24 months after the close of each state fiscal year. The final cost reconciliation of mental health plan interim Medicaid payments occurs within 36 months after the certified, reconciled, state-developed cost reports are submitted.

The Drug Medi-Cal portions of the State Plan establishes the interim payment methodology for both Narcotic Treatment Program and non-Narcotic Treatment Program services. Generally, this methodology requires an interim reimbursement at the statewide maximum allowable or uniform statewide daily dosing rate. DHCS also provides an interim reimbursement to counties for costs incurred to administer DMC-ODS or DMC programs. After the fiscal year ends, DHCS performs a settlement with counties for the cost of administering the SUD services (either through DMC State Plan or through DMC-ODS). These cost reconciliations occur years after the close of the state fiscal year to allow time for claims run out as well as for DHCS to complete its cost reconciliation audits.

To incentivize additional investment in the delivery systems and reduce overall burden on counties and the state, DHCS is proposing to reform behavioral health payment methodologies for counties. Under the current CPE methodology, counties are not able to retain revenue when implementing cost-reduction efforts, thereby limiting the ability to fully invest in the delivery system to improve access and quality. These reforms will allow not only for more timely review and final payment, but will enable the county behavioral health system, for the first time, to participate in and design true outcomes and value-based reimbursement structures that reward better overall results and quality of life for Medi-Cal beneficiaries.

3.6.2 Proposal

The state is proposing to reform its behavioral health payment methodologies via a multi-phased approach with the goal of increasing available reimbursement to counties for services provided and to incentivize quality objectives. This proposal would move reimbursement for all inpatient and outpatient specialty mental health and substance use disorder services from CPE-based methodologies to other rate-based/value-based structures that instead utilize intergovernmental transfers to fund the county-supplied non-federal share. DHCS proposes to implement the shift in methodology in two initial phases:

- In order to establish appropriate payment rates, DHCS proposes to transition specialty mental health and SUD services from existing Healthcare Common Procedure Coding System (HCPCS) Level II coding to Level I coding, known as Current Procedural Terminology (CPT) coding, when possible; and
- DHCS will establish reimbursement rates, as well as an ongoing methodology for updating rates, for the updated codes with non-federal share being provided by counties via intergovernmental transfer instead of CPEs, eliminating the need for reconciliation to actual costs.

Transition from HCPCS Level II Coding to CPT Coding

DHCS is proposing to transition from existing HCPCS Level II coding to CPT coding in all cases where a suitable CPT code exists. If a suitable CPT code does not exist, DHCS would identify an appropriate HCPCS Level II code.

For specialty mental health services, DHCS would identify a mix of HCPCS Level II codes and CPT codes for the following service functions: therapy, assessments, treatment planning, rehabilitation, prescribing medication, administering medication, patient education, and crisis intervention. DHCS would establish a rate for each of the HCPCS Level II codes and CPT codes identified within each service function. Counties would receive payment for each service rendered based upon the rate established for the specific HCPCS Level II code or CPT code. Services that currently receive a bundled rate, such as psychiatric inpatient hospital services, adult residential treatment, crisis residential treatment, psychiatric health facility services, crisis stabilization, day treatment, and day rehabilitation, would continue to be reimbursed using a bundled rate.

For SUD services, DHCS would identify a mix of HCPCS Level II codes and CPT codes for the following service functions: assessment, case management, crisis intervention, discharge planning, group counseling, individual counseling, medical psychotherapy, prescribing medication, administering medication, recovery services, and treatment planning. DHCS would establish a rate for each of the HCPCS Level II codes and CPT codes identified within each service function. Counties would receive payment for each service rendered based upon the rate established for the specific HCPCS Level II code or CPT code. Narcotic Treatment Programs would continue to be reimbursed a daily rate for each encounter.

Rate Setting Methodology

For the establishment of reimbursement rates, DHCS is proposing to set rates by peer grouping. Each peer group would be made up of counties with similar costs of doing business to best reflect local needs. Rates would include a service component as well as an administrative component and a utilization management/quality assurance component, which would be percentages on top of the service component. Additionally,

Back to Item
Back to Agenda
Back to Agenda

DHCS is proposing to establish a methodology to provide, at a minimum, an annual update to established rates to ensure that reimbursement continues to reflect the cost of providing services, administration, and required utilization management/quality assurance activities.

To start, DHCS is proposing to process intergovernmental transfers and make payments to counties on a monthly basis. Eventually, DHCS plans to transition to quarterly intergovernmental transfers and payments to reduce the administrative burden tied to processing intergovernmental transfers and payments for 58 counties on a monthly basis. The state will discuss with the counties the appropriate time to transition from monthly to quarterly payments.

3.6.3 Rationale

Under CPE-based methodologies, all reimbursement is limited to the actual cost of providing services, which does not allow for value-based arrangements or incentives to reduce costs and share in the savings. The shift from CPE to intergovernmental transfer-based methodologies will allow DHCS, in collaboration with county partners, to:

- Establish rates for reimbursement that are not limited to cost and instead focus on the quality and value of services;
- Provide more flexibility to counties to explore provider reimbursement arrangements that incentivize quality and value;
- Create opportunities for improved coordination of care by simplifying options for contracts and payments between Medi-Cal managed care plans and counties, without limiting financial benefits for the county; and
- Reduce state and county administrative burden and allow counties to close their accounting records closer to the end of a fiscal year by eliminating the lengthy and labor-intensive cost-reconciliation process.

Finally, the shift from HCPCS Level II coding to HCPCS Level I coding will allow for more granular claiming and reporting of services provided, creating the opportunity for more accurate reimbursement to counties/providers. The shift in coding will also allow counties and DHCS to better report performance outcomes and measures. In turn, the increased reporting will provide counties and DHCS with more accurate, useful information on health care quality to inform policy decisions.

3.7.4 Proposed Timeline

Given the need to ensure county readiness for this change in approach, DHCS is looking forward to working with counties and stakeholders to establish the timeline for adoption of the HCPCS Level I. DHCS proposes to work with counties and stakeholders to evaluate county readiness and develop a strategy to support them in making this transition. However, the earliest date the shift would occur would be July 1, 2022.

Back to Item
Back to Agenda
Back to Agenda

The transition from cost-based reimbursement to an established rate schedule would take place concurrently with the adoption of the HCPCS Level I coding. DHCS would, initially, establish separate rate schedules for specialty mental health and substance use disorder services, with the goal of aligning rate schedules when these services are administratively integrated into a single behavioral health managed care program. DHCS would begin the intergovernmental transfer-based reimbursement at the start of a state-county fiscal year to ease the transition.

3.7 Medical Necessity Criteria

3.7.1 Background

Current medical necessity criteria for specialty mental health services are outdated and confusing and can lead to challenges for beneficiaries in accessing appropriate care. Current diagnosis requirements can prevent beneficiaries from receiving urgently needed care, especially for children, who are entitled to care before developing a mental health condition, or for people with a co-occurring substance use disorder whose diagnosis may not be immediately clear. DHCS requirements for provider documentation are confusing and may lead to provider burden and risk of payment disallowance during audits.

Currently, DHCS does not standardize screening practices to determine where a beneficiary should initially seek mental health care. As a result, counties and plans have a variety of approaches to determine where beneficiaries should initially access care, whether with county Mental Health Plans (for specialty mental health services) or with Medi-Cal Managed Care or Fee for Service delivery systems (for beneficiaries not meeting criteria for specialty mental health services). DHCS does not currently standardize how beneficiaries transition across these delivery systems when their status changes, leading to inconsistent practices. In addition, the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) protection for beneficiaries under age 21 is inconsistently interpreted and leads to confusion and variation in practice.

3.7.2 Proposal

With the CalAIM initiative, DHCS aims to design a coherent plan to address beneficiaries' needs across the continuum of care, ensure that all Medi-Cal beneficiaries receive coordinated services, and improve health outcomes. The goal is to ensure beneficiary access to the right care in the right place at the right time.

In CalAIM, DHCS proposes to update and clarify medical necessity criteria for specialty mental health services for both adults and children, including allowing reimbursement of treatment before diagnosis and clarifying that treatment in the presence of a co-occurring SUD is appropriate and reimbursable when medical necessity is met.

DHCS proposes to clarify EPSDT protections for beneficiaries under age 21, and create criteria for children to access specialty mental health services based on experience of trauma and risk of developing future mental health conditions, such as involvement in child welfare or experience of homelessness.

DHCS proposes to develop a standardized screening tool to facilitate accurate determinations of when care would be better delivered in the specialty mental health delivery system or in the Medi-Cal managed are or fee for service system. In addition, DHCS proposes to develop a standardized transition tool, for when a beneficiary's condition changes, and they would be better served in the other delivery system.

DHCS proposes to implement a "no wrong door" policy to ensure beneficiaries receive medically necessary treatment regardless of the delivery system where they seek care. This policy would allow beneficiaries who directly access a treatment provider to receive an assessment and mental health services, and to have that provider reimbursed for those services, even if the beneficiary is ultimately transferred to the other delivery system due to their level of impairment and mental health needs. In certain situations, beneficiaries may receive non-duplicative services in multiple delivery systems, such as when a beneficiary has an ongoing therapeutic relationship with a therapist or psychiatrist in one delivery system while requiring medically necessary services in the other.

DHCS also proposes to simplify and streamline mental health documentation requirements, to align with medical provider requirements, improve efficiency, and decrease provider burnout.

With respect to inpatient specialty mental health services, DHCS proposes to update the criteria for psychiatric inpatient medical necessity currently provided in Title 9 of the California Code of Regulations. To facilitate improved communication between mental health plans and hospitals, and to decrease variation in clinical documentation requests across counties, DHCS will develop, in consultation with hospital and county stakeholders, documentation standards and concurrent review protocols to allow efficient and streamlined communication of clinical information during concurrent review.

Division of Services Between Mental Health Plans and Medi-Cal Managed Care Plans

To ensure beneficiaries with behavioral health needs are guided to the most appropriate delivery system to address their needs, DHCS is proposing to update its medical necessity criteria and processes, which would be organized as described below:

California provides Medi-Cal mental health services through Managed Care Plans, Fee for Service (FFS), and county mental health plans. The delivery system responsible to provide the mental health service depends on the degree of a beneficiary's impairment from the mental health condition and other criteria described below. Beneficiaries may receive mental health services prior to diagnosis in any of these delivery systems under certain conditions, even if ultimately the beneficiary is determined not to have a mental disorder. Beneficiaries may initiate medically necessary mental health services in one delivery system and receive ongoing services in another system. Beneficiaries whose degree of impairment changes may transition between the delivery systems, or under some circumstances may receive medically necessary mental health services in more than one delivery system. Care shall be coordinated between the delivery systems and services shall not be duplicated.

Medi-Cal Managed Care Plan responsibilities:

The following nonspecialty mental health services are covered by managed care plans:

a) Individual and group mental health evaluation and treatment (including psychotherapy and family therapy);
b) Psychological testing, when clinically indicated to evaluate a mental health condition;
c) Outpatient services for the purposes of monitoring drug therapy;
d) Psychiatric consultation; and,
e) Outpatient laboratory, drugs, supplies and supplements (note: the pharmacy benefit will be carved out of managed care plans contracts and transitioned to fee for service delivery under Medi-Cal Rx as of 4/1/2021).

Medi-Cal managed care plans are responsible to provide the above nonspecialty mental health services to adult beneficiaries with mild to moderate distress or mild to moderate impairment of mental, emotional or behavioral functioning resulting from mental health disorders, as defined by the current Diagnostic and Statistical Manual of Mental Disorders. Managed care plans are also required to provide non-specialty mental health services to children under the age of 21. Managed care plans are also responsible to provide mental health services to beneficiaries with potential mental health disorders

These services are also available in the FFS mental health delivery system for beneficiaries not enrolled in Medi-Cal managed care.

County Mental Health Plan responsibilities:

For beneficiaries 21 years and over, Mental health plans are responsible to provide specialty mental health services for beneficiaries who meet (A) and (B) below:

(A): The beneficiary must have one of the following:

(i) Significant impairment ("impairment" is defined as distress, disability or dysfunction in social, occupational, or other important activities), OR
(ii) A reasonable probability of significant deterioration in an important area of life functioning.

(B): The beneficiary's condition in (A) is due to:

(i) A diagnosed mental health disorder (according to the current Diagnostic and Statistical Manual of Mental Disorders and International Statistical Classification of Diseases and Related Health Problems criteria), OR

(ii) A suspected mental disorder that has not yet been diagnosed.

Back to Item
Back to Agenda
Back to Agenda

For beneficiaries under age 21[1],
Mental health plans are responsible to provide specialty mental health services to beneficiaries who meet either Criteria 1 **or** Criteria 2:

Criteria 1: The beneficiary is at high risk for a future mental health disorder due to experience of trauma, evidenced by: scoring in the high-risk range on a DHCS-approved trauma screening tool, or involvement in the child welfare system, or experience of homelessness.

Criteria 2: The beneficiary must meet both (A) and (B), below:

(A): The beneficiary must have at least one of the following:

I. Significant impairment, or
II. A reasonable probability of significant deterioration in an important area of life functioning, or
III. iii. A reasonable probability a child will not progress developmentally as appropriate, or
IV. Less than significant impairment, but requires mental health services that are not included within the mental health benefits that managed care plans are required to provide.

(B): The beneficiary's condition in (A) is due to:
I. A diagnosed mental health disorder (according to the current Diagnostic and Statistical Manual of Mental Disorders and International Statistical Classification of Diseases and Related Health Problems criteria), or
II. A suspected mental disorder that has not yet been diagnosed.

Mental health plans provide the following specialty mental health services

1. Crisis Residential Treatment Services
2. Adult Residential Treatment Services
3. Crisis Interventions
4. Crisis Stabilization
5. Day Rehabilitation
6. Day Treatment Intensive
7. Medication Support Services
8. Psychiatric Health Facility Services

[1] The Early and Periodic Screening, Prevention and Treatment protection entitles beneficiaries under age 21 to services necessary to correct or ameliorate a mental illness and condition recommended by a qualified provider operating within his or her scope of practice, whether or not the service is in the state plan.

Back to Item
Back to Agenda
Back to Agenda

9. Psychiatric Inpatient Hospital Services
10. Targeted Case Management/Intensive Care Coordination
11. Mental Health Services and Intensive Home-Based Services (including the following service interventions: Assessment, Plan Development, Therapy, Rehabilitation, and Collateral)
12. Therapeutic Behavioral Services
13. Therapeutic Foster Care Services

Substance Use Disorder Services

As with the current SMHS medical necessity criteria, the current Section 1115 waiver for SUD services requires beneficiaries to be diagnosed with a SUD to meet criteria for reimbursement, preventing the provision of treatment services prior to a definitive diagnosis.

As for mental health, DHCS proposes that substance use disorder treatment services may be provided and reimbursed prior to the determination of a diagnosis, including providing services to beneficiaries with co-occurring mental health disorders.

In addition, DHCS heard many comments from stakeholders about how to improve the Drug Medi-Cal Organized Delivery System, which are reflected in the "DMC-ODS Program Renewal and Policy Improvements" section of this proposal.

Documentation Requirements for Specialty Mental Health and Substance Use Disorder Services

Documentation requirements for SUD and SMHS are currently stringent. Stakeholders report that concern about disallowances result in providers spending an excessive amount of time "treating the chart instead of treating the patient." With the goal of aligning standards across physical and behavioral health programs, DHCS is proposing to update documentation requirements for specialty mental health and substance use disorder treatment to simplify and streamline requirements. For example, DHCS proposes to eliminate the requirement for a point-in-time treatment plan signed by the client, with progress notes tying to the treatment plan. Evidence does not show that shared decision-making is achieved through signature requirements, and the requirement that every note and every intervention must tie to a treatment plan is inefficient and inconsistent with documentation requirements in the medical (physical health) system. DHCS proposes to align behavioral health and medical documentation requirements in Medi-Cal by requiring problem lists and progress notes to reflect the care given and to align with the appropriate billing codes. DHCS also proposes to revise the clinical auditing protocol, to use disallowances when there is evidence of fraud, waste, and abuse, and to use quality improvement methodologies (such as oversight from the External Quality Review Organization) for minor clinical documentation concerns. These documentation changes will align with behavioral health payment reform, as the use of Level 1 HCPCS codes comes with national documentation standards and expectations.

Technical Corrections

DHCS proposes to make other technical corrections to address outdated references to the Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV), rather than the more current DSM-V, and reflect federal diagnostic coding requirements related to use of International Classification of Diseases (ICD) code sets.

3.7.3 Rationale

Updates to medical necessity criteria for specialty mental health and SUD services, and related policy proposals, are required to achieve more up-to-date clinical practices and better clarity for oversight.

3.7.4 Proposed Timeline

DHCS recommends making changes to the specialty mental health and substance use disorder medical necessity criteria and related processes, as applicable, effective January 1, 2022 with the approval of the Section 1115 and 1915(b) waivers.

3.8 Administrative Integration of Specialty Mental Health and Substance Use Disorder Services

3.8.1 Background

California's mental health plans operate under the authority of a Section 1915(b) waiver, while DMC-ODS plans operate under the authority of a Section 1115 demonstration, and Drug Medi-Cal fee-for-service programs are authorized through California's Medicaid State Plan.

For mental health plans and DMC-ODS plans, DHCS contracts with counties to act as prepaid inpatient health plans to provide, or arrange for the provision of, specialty mental health services and DMC-ODS treatment services to beneficiaries. While the specialty mental health services program is a statewide benefit, the DMC-ODS managed care program is only covered in counties that have "opted-in" and are approved to participate by DHCS and CMS.

Fifty-six mental health plans administer the SMHS program, including two joint arrangements in Sutter/Yuba and Placer/Sierra. For SUD services, 37 counties administer the DMC-ODS program, covering more than 90 percent of the Medi-Cal population. Seven of these counties contract with a local Medi-Cal managed care plan to provide an alternative regional model for DMC-ODS. The remaining 21 counties provide SUD treatment services through Drug Medi-Cal.

Medi-Cal specialty mental health and SUD treatment services are currently administered through separate, unique structures at the county level. Beneficiaries with co-occurring mental health and SUD treatment needs must navigate multiple systems to access care.

Back to Item
Back to Agenda
Back to Agenda

Beneficiaries must review multiple handbooks and provider directories, navigate separate intake and assessment processes, and often travel to multiple locations to receive care. Counties and providers face challenging documentation and coding requirements, especially for beneficiaries with both SUDs and mental health conditions.

At the system level, counties must demonstrate compliance with two sets of requirements and are subject to multiple reviews. For DMC-ODS counties, administering two distinct prepaid inpatient health plans must demonstrate compliance with federal managed care requirements twice, essentially running two almost entirely separate managed care programs with duplicative processes for quality improvement and performance measurement, beneficiary appeals, and program integrity.

3.8.2 Proposal

DHCS is proposing administrative integration of specialty mental health and SUD services into one behavioral health managed care program. This proposal is distinct from the Full Integration Plan which will integrate physical, behavioral and oral health care into comprehensive managed care plans. The goal is to improve outcomes for beneficiaries through coordinated treatment across the continuum of care. An additional goal and benefit would be to reduce administrative and fiscal burdens for counties, providers, and the state.

For counties participating in DMC-ODS managed care, DHCS is interested in working toward integrating the two behavioral health programs/prepaid inpatient health plans into a single behavioral health plan structure. The result would be a single prepaid inpatient health structure in each county or region responsible for providing, or arranging for the provision of, specialty mental health and SUD treatment services for all Medi-Cal beneficiaries in that county or region. Participating counties would benefit from streamlined state requirements and the elimination of redundancy. Consolidating operations and resources into one behavioral health managed care plan would allow counties to successfully meet state and federal requirements and significantly decrease their administrative burden.

Additionally, Drug Medi-Cal fee-for-service counties will also be able to integrate such services; however, slight variations may apply due to the differences of federal requirements for fee-for-service verses prepaid inpatient health plans.

Clinical Integration

1. Access Line

Counties are required to have a 24-hour access line for mental health plans and for DMC-ODS. Some Drug Medi-Cal counties may also have 24-hour access lines, although it is not a requirement. Many counties already use their access lines in an integrated manner to triage, screen, and refer beneficiaries for both specialty mental

Back to Item
Back to Agenda
Back to Agenda

health and SUD treatment services; however, some counties maintain separate lines. Under an integrated model, the goal would be for all counties to have an integrated, 24-hour access line for beneficiaries seeking either specialty mental health and/or SUD services.

2. Intake/Screening/ Referrals

Processes for intake, screening, and referral vary by county. Optimally, counties would have standardized and streamlined intake processes that are timely, emphasize a positive beneficiary experience, and use a "no wrong door" approach to help beneficiaries access mental health and substance use disorder services. While assessments are performed by clinicians and tailored to the needs of the client, and may vary based on setting, DHCS proposes to move forward with a standardized statewide screening tool for beneficiaries 21 and over, and one for beneficiaries under 21, to ensure beneficiaries receive prompt care in the right delivery system.

3. Assessment

Assessment processes and tools for specialty mental health and SUD services also vary by county. For example, the American Society of Addiction Medicine placement tool is used to make level of care determinations DMC-ODS. However, an assessment tool is not required in Drug Medi-Cal counties. For SMHS, the Child and Adolescent Needs and Strengths tool is required for children and youth; however, there is not a required tool for adults. More research will be needed to determine which aspects, authorities, or requirements need to be addressed to integrate clinical assessments for mental health and SUDs.

4. Treatment Planning

Currently, treatment planning for specialty mental health and SUD treatment services is conducted separately and is not integrated. Beneficiaries receiving both types of services can have multiple treatment plans that include different documentation requirements. To improve efficiency, counties would integrate treatment planning for both specialty mental health and substance use disorder services with simplified and aligned documentation requirements. The goal would be to develop a new, simplified, more client-centered and strength-based approach to behavioral health treatment planning and to align treatment planning and documentation standards with physical health care. Additionally, DHCS will provide counties with relevant Medi-Cal services data, which may include managed care encounter and pharmacy claims data, to allow for better coordination of care and treatment planning.

5. Beneficiary Informing Materials

Currently, beneficiaries who receive services through mental health plans and DMC-ODS receive two beneficiary handbooks. The handbooks are not the same, but both

address elements that are required by federal managed care regulations, such as language regarding the grievance, appeals and state fair hearing processes. The goal is to consolidate beneficiary information materials to streamline them into one user-friendly handbook, reduce confusion, increase access, and achieve administrative efficiencies.

Consideration would need to be given to implementing this element in Drug Medi-Cal counties, since they are not currently required to have a beneficiary handbook.

Administrative Integration

1. Contracts

Currently, there are three separate contract types between DHCS and counties: mental health plans, DMC-ODS and Drug Medi-Cal counties. Under an integrated system, the goal would be to have only one contract in every county that would cover both all Medi-Cal specialty mental health and SUD treatment services.

2. Data Sharing / Privacy Concerns

Counties are responsible for managing data-sharing at two levels: within and across county plans, and at the provider level. Data sharing and privacy concerns need to be explored to determine what areas can be addressed, since there are different considerations and regulations pertaining to data sharing for SMHS and SUD services. Addressing these concerns will be critical in determining whether and when counties can integrate assessments, treatment plans, and electronic health records, among other processes. A thorough assessment of the various barriers and solutions to stringent patient privacy protections will be required. There will need to be a thorough assessment by the state and counties to identify the various barriers and solutions to stringent patient privacy protections built into federal regulations.

3. Electronic Health Record Integration and Re-Design

Many counties currently operate separate electronic health records (EHRs) or maintain differently configured and separate records for specialty mental health and substance use disorder services. This is largely in response to federal regulations, but also due to historical bifurcation of the two programs and different documentation and data-reporting requirements for the specialty mental health and substance use disorder programs. Timelines for integrating different components of administrative integration will depend on counties' ability to arrive at a record design that is compliant and then collaborate with their vendors to make multiple, timely modifications to their electronic health records.

4. Cultural Competence Plans

Mental health plans are required to have a plan for culturally responsive care for specialty mental health services. DMC-ODS plans are also required to have a culturally responsive care plan. Under an integrated system, counties would have only one integrated plan for culturally responsive care instead of two, separate plans.

Considerations would need to be given to how this element would be implemented in Drug Medi-Cal counties since they are currently not subject to these same requirements.

Integration of DHCS Oversight Functions

1. Quality Improvement

Some counties have integrated quality improvement and performance measurement programs for specialty mental health and substance use disorder services. However, most programs – or components of them – are still separate. Under an integrated system, counties would develop and operationalize a consolidated quality improvement plan, have a single quality improvement committee, and develop a comprehensive list of performance measures for specialty mental health services and substance use disorder services.

2. External Quality Review Organizations

Pursuant to federal Medicaid managed care requirements, an external quality review is required for both mental health plans and DMC-ODS. Currently, Behavioral Health Concepts is the contractor that acts as the External Quality Review Organization for both programs. However, there are separate contracts, review processes, timelines, and protocols. In addition, counties must develop separate performance improvement plans for each program. The goal is to implement a combined external quality review process, which would result in one external review and integrated performance improvement plans, and ultimately having one single External Quality Review Organization (EQRO) report for each county. Since an external quality review is not required for Drug Medi-Cal counties, further exploration will be needed to determine the extent to which these elements would play a role under an integrated model.

3. Compliance Reviews

Current compliance reviews conducted by DHCS for mental health plans, DMC-ODS, and Drug Medi-Cal counties are separate. Under an integrated model, the goal would be to consolidate compliance reviews into a single review with an integrated protocol. A particular focus of this effort will be on streamlining documentation requirements for behavioral health providers to allow integrated behavioral health care.

4. Network Adequacy

Network adequacy certification processes are separate for specialty mental health plans and DMC-ODS. Under an integrated model, DHCS would certify one network for specialty mental health and substance use disorder managed care services for each county, instead of certifying two networks as currently required.

5. Licensing & Certification

Existing requirements and processes for licensing and certification are different and separate for specialty mental health and substance use disorder providers. The goal is to streamline licensing and certification requirements, processes, and timeframes across the behavioral health managed care system, where appropriate. Successful implementation of integrated care models would also necessitate a discussion on non-administrative changes that may be needed, such as workforce development, cross-training of existing providers, and adoption of new evidence-based practices.

3.8.3 Rationale

About half of individuals with a SMI have a co-occurring substance use and those individuals benefit from integrated treatment. Since the state provides Medi-Cal-covered substance use disorder and specialty mental health services through two separate county-operated delivery systems, it is difficult for counties to provide integrated treatment to individuals who have co-occurring disorders. For example, counties with both DMC-ODS and mental health plans are subject to two separate annual quality assessments, two separate post-payment chart audits, and two separate reimbursement and cost reporting methods. The purpose of this proposal is to make changes to streamline the administrative functions for SUD and SMHS.

3.8.4 Proposed Timeline

The goal would be to submit for a single, integrated behavioral health plan in each county or region responsible for providing, or arranging for the provision of, specialty mental health and SUD services under the next 1915(b) waiver in 2027. Both state-level and county-level activities will be required to achieve this goal. Successful implementation will require careful sequencing and planning and a phased-in approach where cohorts are considered.

3.9 Behavioral Health Regional Contracting

3.9.1 Background

State law allows two or more counties acting jointly to deliver or subcontract for the delivery of specialty mental health services. Furthermore, participating DMC-ODS counties are permitted to develop regional delivery systems for required modalities or to act jointly to deliver covered services, with approval from DHCS and CMS, as applicable.

Back to Item
Back to Agenda
Back to Agenda

3.9.2 Proposal

DHCS encourages counties to develop regional approaches to administer and deliver specialty mental health and substance use disorder services to Medi-Cal beneficiaries. There are a variety of options available to counties, including a Joint Powers Authority to operate such services for a multi-county region (e.g., Sutter/Yuba). Counties could also pool resources to contract with an administrative services organization/third-party administrator or other entity, such as the County Medical Services Program or the local Medi-Cal managed care plan, to create administrative efficiencies across multiple counties.

Small counties, rural/frontier counties, and counties with shared population centers or complementary resources should consider opportunities for regional partnership. DHCS is interested in discussing how counties not currently seeking DMC-ODS participation may be more interested in doing so through a regional approach and/or how services provided under Drug Medi-Cal might also be provided through a regional approach. DHCS is committed to working with counties to offer technical assistance to help develop regional contracts and establish innovative partnerships.

3.9.3 Rationale

Acting jointly through regional contracts would allow counties to pool their resources, which can improve access and availability of services for Medi-Cal beneficiaries in their region and allow for increased county administrative efficiencies. Although regional contracting is currently allowed under state law, only a few counties have taken advantage of this opportunity. Regional contracting would give counties opportunities to share workforce and jointly invest in administrative infrastructure such as electron health records, billing and claiming systems, and oversight/quality assurance and improvement.

Regional contracts offer numerous potential advantages. For example, network adequacy certification requires significant administrative infrastructure to develop and maintain policies and procedures for tracking network resources, and counties must identify and contract with additional qualified providers when network gaps are identified. Both functions (tracking and finding new providers) can prove challenging in some counties that may have fewer local providers. Through regional contracts, counties could reduce duplication and standardize administrative processes, such as beneficiary handbooks, provider directories, and grievance and appeal processes.

For Drug Medi-Cal counties, regionalization could potentially enable smaller counties to participate in DMC-ODS, providing a broader set of services to their residents when it would not be otherwise feasible. By participating in DMC-ODS, these counties could then create a single, integrated behavioral health plan, as described in the CalAIM Administrative Integration of Specialty Mental Health and Substance Use Disorder Services proposal.

Back to Item
Back to Agenda
Back to Agenda

In addition, Medi-Cal managed care plans, mental health plans, and DMC-ODS plans must meet the full array of state and federal requirements applicable to prepaid inpatient health plans under the federal Medicaid managed care regulations. Among these are network adequacy, quality assessment and performance improvement, beneficiary rights and protections, and program integrity. For individual counties, entering into regional contracting agreements would reduce the administrative burden of meeting Medicaid managed care requirements. Counties could better utilize resources to focus on improving access, quality of care, and beneficiary outcomes, while mitigating the risk of audit exceptions and administrative and financial sanctions.

3.9.4 Proposed Timeline

DHCS seeks input from county partners and other stakeholders regarding an estimated timeframe for establishing regional contracting agreements.

3.10 Drug Medi-Cal Organized Delivery System Renewal and Policy Improvements

3.10.1 Background

One of the key goals of the Drug Medi-Cal Organized Delivery System (DMC-ODS) was to treat more people more effectively by reorganizing the delivery system for substance use disorder (SUD) treatment through Medi-Cal. California's Drug Medi-Cal Organized Delivery System (DMC-ODS) was the nation's first SUD treatment demonstration project under Section 1115, approved by CMS in 2015. Since then, more than 20 other states have received approval for similar substance use disorder treatment demonstrations. The program has established a continuum of care modeled after the American Society for Addiction Medicine (ASAM) criteria. These criteria are the most widely used and comprehensive set of guidelines for placement, continued stay, and transfer/discharge of patients with addiction.

The benefits under the DMC-ODS, which counties administer as pre-paid inpatient health plans (PIHPs), include all of the standard SUD treatment services covered in California's Medicaid State Plan (outpatient, intensive outpatient, perinatal residential, narcotic treatment programs and naltrexone), plus case management, multiple ASAM levels of residential substance use disorder treatment, withdrawal management services, recovery services, physician consultation and if the county chooses, additional medication assisted treatment, and partial hospitalization.

Also included in the current program is the expenditure authority to allow federal Medicaid reimbursement for short-term residential SUD treatment stays in an Institution for Mental Disease (IMD). The IMD exclusion has historically prohibited federal reimbursement for residential and inpatient mental health and SUD treatment for Medicaid enrollees age 21-64, in facilities with more than 16 beds. This exclusion deterred most providers in the State who found it financially unviable to operate facilities with so few beds. Allowing for reimbursement of residential SUD treatment services through the Medi-Cal program, with

no limitation on the number of beds, means that counties can receive federal matching funds for services that were previously unavailable.

Currently, DMC-ODS is not a statewide benefit since the program operates only in counties that "opt in" to participate and are approved to do so by both DHCS and CMS. There are currently 37 counties participating in the DMC-ODS demonstration, providing access to SUD treatment services for 96 percent of the Medi-Cal population. Seven of these counties are working with a local managed care organization to implement a regional model. Medi-Cal beneficiaries in the 21 counties not participating in the program provide their SUD treatment services through fee-for-service as authorized through the Drug Medi-Cal State Plan. The fee-for-service benefit is more limited than the DMC-ODS benefit in terms of covered services and that it is not a managed care program.

3.10.2 Proposal

DHCS proposes to update and improve the DMC-ODS, based on experience from the first several years of implementation. Accordingly, DHCS proposes to clarify or change policies to support the goal of improved beneficiary care and administrative efficiency.

DHCS aims to design a cohesive plan to address beneficiaries' SUD treatment needs across the continuum of care, ensure that all Medi-Cal beneficiaries receive coordinated services, and to promote long-term recovery. This requires developing new approaches to care delivery and system administration that will improve the beneficiary experience, increase efficiency, ensure cost-effectiveness, and achieve positive health outcomes.

The 37 counties that have implemented the DMC-ODS have made tremendous strides in improving the continuum of care for Medi-Cal beneficiaries with SUD treatment needs. Implementation across 37 California counties has also yielded lessons learned and opportunities to clarify or change policies to support the goal of improved beneficiary care and administrative efficiency. DHCS also acknowledges that for many counties, the DMC-ODS model of care is still very new since implementation was phased in over several years.

Accordingly, DHCS solicited input from stakeholders on the following proposed policy clarifications and changes, which have been thoughtfully constructed to balance system improvements while minimizing disruptions at the local level.

DHCS also intends to provide counties with another opportunity to opt-in to participate in the DMC-ODS in hopes of promoting DMC-ODS participation across the state. While participation in DMC-ODS will not be mandatory for counties, DHCS would like to work with counties not currently participating in the DMC-ODS to explore ways to encourage the remaining counties to opt-in.

Residential Treatment Length-of-Stay Requirements

Currently, within a 365-day period, adult residential SUD treatment services may be authorized for two non-continuous stays, for up to 90 days for each stay, with one 30-day extension permitted for one of the stays. Similarly, within a 365-day period, adolescent residential treatment services may be authorized for two non-continuous stays; however, stays for adolescents are limited to 30 days each stay, with one up to 30-day extension allowed for one of the stays.

Residential length-of-stay should be determined based on the individual's condition, medical necessity, and treatment needs. Given that the two-episode limit is inconsistent with the clinical understanding of relapse and recovery from SUDs, DHCS proposed in the 12-month extension request to remove this limitation and base treatment on medical necessity.[2] DHCS will further propose that there be no distinction between adults and adolescents for these particular requirements.

Note: DHCS must obtain approval from CMS regarding all components of the Section 1115 extension and renewal. CMS is currently only approving SUD 1115 demonstrations with a residential benefit average length-of-stay of 30 days. While some states may show average lengths of stay that are close to the 30-day target, these are likely to include numerous treatment episodes that may have terminated prematurely, before the client achieved positive clinical outcomes. Including these shorter stays in the calculation may lower the average and give the impression that shorter lengths of stay are universally feasible and appropriate.

As such, DHCS will examine the possibility of tracking and documenting the average length-of-stay for only those DMC-ODS enrollees that achieve positive treatment outcomes. Furthermore, with the substantial rise in methamphetamine usage and overdose deaths in California, DHCS will work closely with CMS to negotiate a residential treatment benefit that accounts for the increased clinical needs of individuals utilizing stimulants.

[2] Proposed changes to the DMC-ODS program included in the Medi-Cal 2020 12-month extension request: 1) Remove the limitation on the number of residential treatment episodes that can be reimbursed in a one-year period, 2) Clarify that reimbursement is available for SUD assessment and appropriate treatment even before a definitive diagnosis, 3) Clarify that recovery services benefit, 4) Expand access to MAT, and 5) Increase access to SUD treatment for American Indians and Alaska Natives.

Residential Treatment Definition

The current definition of residential treatment in California does not clearly define the amount, duration, and scope of covered services, and there are different treatment standards and limitations for adults and adolescents.

DHCS proposes that the definition of residential treatment be updated to remove the adolescent length-of-stay limitations, and to add mandatory provisions for referral to medication assisted treatment. DHCS would also propose to remove the distinction between adults and adolescents for these requirements, with the exception of Early and Periodic Screening, Diagnostic, and Treatment services.

Recovery Services

As part of Dimension 6 (Recovery Environment) of the ASAM criteria, during the transfer/transition planning process, beneficiaries shall be linked to applicable recovery services. Beneficiaries may access recovery services after completing their course of treatment whether they are triggered, have relapsed, or as a preventive measure to avoid relapse.

DHCS proposed in the 12-month extension to clarify the following policies related to recovery services:

- Specify the services included in the benefit (e.g., group, education sessions, and assessment);
- Establish when and how beneficiaries may access these services, including language to encourage the use of recovery services for justice-involved individuals: and
- Define the term “after completing their course of treatment,” to not inadvertently prohibit beneficiaries receiving long-term medication assisted treatment from having access to recovery services.

If these proposed changes are not ultimately approved in the 12-month extension, they will be included in the demonstration renewal request that DHCS will submit in 2021, for a five year renewal from January 1, 2022-December 31, 2026.

Additional Medication Assisted Treatment

Counties are required to cover opioid treatment program services, also called Narcotic Treatment Programs. Currently counties may elect to cover additional medication assisted treatment, which includes the ordering, prescribing, administering, and monitoring of all medications for SUD treatment.

DHCS proposed in the 12-month extension request to keep the additional medication assisted treatment (MAT) services as an optional benefit but clarified the coverage provisions to require that all substance use disorder managed care providers demonstrate that they either directly offer, or have referral mechanisms to medication assisted treatment. The goal is to have a county-wide multi-delivery system of coverage.

Clinician Consultation Services

Currently, physician consultation services cover time spent by the DMC-ODS physicians consulting with addiction medicine physicians, addiction psychiatrists, or clinical pharmacists. The name of the benefit will change to Clinician Consultation Services and be expanded to include consultation services for, and by, licensed clinicians including Nurse Practitioners and Physician Assistants. Coverage of consultation services is designed to help clinicians seek expert advice on designing treatment plans for beneficiaries. Clinician consultation services can only be billed and reimbursed by providers in DMC-ODS provider sites.

DHCS proposes to clarify the terms of clinician consultation, particularly with regard to how and who can claim this activity. DHCS proposes to remove the limitation that clinician consultation services can only be billed by certified Drug Medi-Cal providers. Counties may contract with SUD clinicians not certified by Drug Medi-Cal. DHCS' telehealth policy will be used to guide this effort.

Evidence-Based Practice Requirements

Currently, providers are required to implement at least two of the following evidence-based treatment practices based on a timeline established in the county implementation plan: Motivational Interviewing, Cognitive Behavioral Therapy, Relapse Prevention, Trauma-Informed Treatment, and Psycho Education. The two evidence-based practices are a per-provider per-service modality.

DHCS proposes to retain the five (5) current evidence-based practices and add Contingency Management to the renewal proposal. Providers are not limited to providing only the six evidence-based practices.

DHCS Provider Appeals Process

Following a county's protest procedure, a provider may currently appeal to DHCS if it believes that the county erroneously rejected the provider's solicitation for a contract.

DHCS proposes removing this process from as it is convoluted, has rarely been used, and it is already addressed by the network adequacy requirements. All providers have a right to appeal under the federal 438 requirements.

Tribal Services

DHCS proposed in the 12-month extension to take several actions to increase access to SUD treatment for American Indians and Alaska Natives, including:

- Providing an allowance for specific cultural practices for Tribal 638 and Urban clinics, reimbursement, and definitions of scope of practice for the workforce of traditional healers and natural helpers, and culturally specific evidence-based practices.

- Requiring Indian health care providers to use at least two evidence-based practices as defined in the DMC-ODS and/or from a list developed by DHCS in consultation with Tribal and Urban partners.

These changes are requested to ensure American Indians and Alaska Natives have access to culturally appropriate and evidence-based substance use disorder treatment.

Treatment after Incarceration

The current language requiring the ASAM criteria, may be underestimating the level of care necessary to serve individuals being released from incarceration, since their substance use was either not possible during incarceration or because individuals under parole/probation supervision are likely hesitant to admit to substance use.

Because inmates are at a high risk of relapse and overdose upon release from incarceration, whether or not there was active use in the last 12 months, DHCS plans to clarify access language for individuals leaving incarceration who have a known substance use disorder.

Billing for Services Prior to Diagnosis

Currently, counties may not begin billing for SUD services until a beneficiary has been diagnosed (i.e., counties may not bill for time spent conducting substance use disorder assessments). Since it takes time for clinicians to evaluate a beneficiary for a substance use disorder, and sometimes presenting symptoms are due to a combination of mental illness, substance use disorder, or both, DHCS proposed in the Medi-Cal 2020 extension to clarify the waiver Special Terms and Conditions to allow reimbursement for SUD assessments (even if it takes multiple visits) before a final diagnosis is determined, which aligns with requirements around assessments for specialty mental health services.

Medical Necessity for Narcotic Treatment Programs (NTPs)

DHCS proposes to update and align the STCs with best practices to allow a physician's history and physical to determine medical necessity for NTP services as required by

Back to Item
Back to Agenda
Back to Agenda

federal licensing laws. In addition, DHCS would clarify requirements for the initial assessment and medical necessity determinations in other settings.

Early Intervention (Level 0.5)

DHCS proposes to add ASAM 0.5 level of care for beneficiaries under 21, to allow early intervention as an organized service that may be delivered in a wide variety of settings. This service is designed to explore and address problems or risk factors related to substance use, and to help the individual recognize the harmful consequences of high-risk substance use. This includes engagement activities (including screening, assessment, brief interventions such as motivational interviewing and counseling) for beneficiaries at high-risk for developing substance-related or addictive behavior problems, or those for whom there is not yet sufficient information to document a substance use disorder.

3.10.3 Proposed Timeline

The following changes would go into effect on January 1, 2021, subject to federal approval of the Medi-Cal 2020 12-month extension request:

- Remove the limitation on the number of residential treatment episodes that can be reimbursed in a one-year period
- Clarify that reimbursement is available for SUD assessment and appropriate treatment even before a definitive diagnosis
- Clarify that recovery services benefit
- Expand access to MAT
- Increase access to SUD treatment for American Indians and Alaska Natives.

The remaining changes outlined above would go into effect January 1, 2022, subject to federal approval.

Dental

3.11 New Dental Benefits and Pay for Performance

3.11.1 Background

DHCS is committed to improving the accessibility of Medi-Cal dental services and improving oral health outcomes for Medi-Cal members. To demonstrate that commitment, three initiatives and policy changes have been implemented in recent years:

- The Dental Transformation Initiative under the current Medi-Cal 2020 Section 1115 demonstration;

- Proposition 56 supplemental provider payments; and

Back to Item

Back to Agenda Back to Agenda Back to Agenda

- Restoration of the optional adult dental benefit under Medi-Cal.

These efforts have been successful in increasing preventive dental service utilization for children, as well as increasing adult utilization of dental care. While two of the initiatives share a common theme – financial incentives for positive outcomes – they are time-limited. DHCS has included a chart (see **Appendix H: Dental in Proposition 56 vs. CalAIM**) that reflects the dental codes with financial incentives available under CalAIM and Proposition 56.

3.11.2 Proposal

The Department set a goal to achieve at least a 60 percent dental utilization rate for Medi-Cal eligible children. In order to progress toward achieving that goal and based on lessons learned from the Dental Transformation Initiative, DHCS proposes the following reforms for Medi-Cal dental be made statewide provide better care and align with national dental care standards. The proposed new benefits include:

- Caries Risk Assessment Bundle for young children; and
- Silver Diamine Fluoride for young children; and specified high-risk and institutional populations; and
- Expanded pay-for-performance initiatives that a) reward increasing the use of preventive services and b) reward establishing/maintaining continuity of care through a dental home. These expanded initiatives would be available statewide for children and adult enrollees.

These expanded initiatives would be available statewide for children and adult enrollees.

New Dental Benefits

DHCS proposes adding coverage of a Caries Risk Assessment Bundle for children ages 0 to 6 years. The Caries Risk Assessment bundle would include nutritional counseling (D1310) to educate and influence behavior change. Based on risk level associated with each individual Medi-Cal beneficiary ages 0 to 6, the benefit would allow the following frequency of services:

- Low – comprehensive preventive services 2x/year (D0601)
- Moderate – comprehensive preventive services 3x/year (D0602)
- High – comprehensive preventive services 4x/year (D0603)

Additionally, DHCS proposes to add coverage of Silver Diamine Fluoride for children ages 0 to 6 years and persons with underlying conditions such that nonrestorative caries treatment may be optimal, which may include adults living in a Skilled Nursing Facility/ Intermediate Care Facility (SNF/ICF) or part of the Department of Developmental Services (DDS) population. The Silver Diamine Fluoride benefit would provide two visits per member per year, for up to ten teeth per visit, at a per tooth rate and a maximum of four treatments per tooth.

Pay for Performance

To increase statewide preventive service utilization for children and adults, DHCS is proposing to provide a flat rate performance payment for each paid preventive service rendered by a service office location.

Additionally, the state proposes to provide an annual flat rate performance payment to a dental service office location that maintains dental continuity of care by establishing a dental home for each patient and perform at least one annual dental exam/evaluation (D0120/D0150/D0145) for two or more years in a row.

3.11.3 Rationale

These policy proposals align with the legislature's charge to achieve at least a 60 percent dental utilization rate for Medi-Cal eligible children, CMS Oral Health Initiative goals for Medicaid (increase by ten percentage points the proportion of Medicaid and CHIP children ages one to 20 who receive a preventive dental service), and our lessons learned from the Dental Transformation Initiative (DTI).

For example, in the DTI - Domain 1, incentive payments were made to service office locations that increased the utilization of the top eleven preventive services available to children. As a result, not only has utilization of preventive services continued to increase year after year, but since the baseline year of 2014, the number of services has increased eight percent and the number of services per member has also increased by seven percent.

Furthermore, data comparing a control group of children in Dental Transformation Initiative counties who did not receive Caries Risk Assessment with children who did receive Caries Risk Assessment over two calendar years yielded staggering results. The Medi-Cal children who had a Caries Risk Assessment received over 300 percent more preventive services compared to 189 percent for non-Caries Risk Assessment children. Additionally, in this same period, the number of restorative services was almost half that of the control group. Medi-Cal children receiving Caries Risk Assessment had a 263 percent increase in restorative services while the control group with no Caries Risk Assessment had a 475 percent increase in restorative services.

3.11.4 Proposed Timeline

DHCS is currently evaluating a timeline for implementation as funding for Designated State Health Programs (DSHP) is not approved in extension of the Medi-Cal 2020 demonstration.

County Partners

3.12 Enhancing County Eligibility Oversight and Monitoring

3.12.1 Background

The implementation of the Affordable Care Act (ACA) marked a monumental overhaul of the Medi-Cal program by financing a coverage expansion to populations that previously did not qualify, in addition to streamlining eligibility requirements for some populations. County social service agencies strived to acclimate to the vast changes in regulations while managing an unprecedented surge in Medi-Cal applications submitted statewide. To afford counties the opportunity to modify business processes to effectively administer the Medi-Cal program post Affordable Care Act, counties were held harmless by DHCS for performance standards.

Federal, state, and DHCS audits of Medi-Cal eligibility determinations conducted since the implementation of the Affordable Care Act in 2014 have identified several issues that must be addressed and resolved. Audit findings include performance issues related to timeliness of application processing and timeliness of annual eligibility renewal processing. Discrepancies between the Medi-Cal Eligibility Data System (MEDS), and the county Statewide Automated Welfare System (SAWS) also resulted in audit findings, which in part were caused by system-related issues connected to the implementation of the California Healthcare, Eligibility, Enrollment and Retention System (CalHEERS).

Audit findings, recommendations, and corrective action plans imposed upon DHCS require the State to implement additional oversight activities needed to increase the administrative integrity of the Medi-Cal program. Federal audit findings have also levied fiscal penalties upon DHCS, requiring the state to repay the federal matching funds that were claimed because of erroneous Medi-Cal eligibility determinations.

3.12.2 Proposal

DHCS recommends a phased-in approach to working with the counties to increase program integrity with respect to eligibility and enrollment.

Back to Item
Back to Agenda
Back to Agenda

- **Reinstate County Performance Standards**: In response to audit findings, DHCS will reinstate the county performance standards required under state law as a means of addressing and correcting error rates and issues which may have a future impact on the timeliness and accuracy of Medi-Cal eligibility determinations. DHCS plans to implement a series of oversight programs throughout the course of the next 24 months. This includes the implementation of a statewide MEDS alerts monitoring program.

- **Develop an Updated Process for the Monitoring and Reporting of County Performance Standards**: In collaboration with CWDA, SAWS and the counties, DHCS will define roles, responsibilities, and develop an updated written process for the monitoring and reporting of the existing county eligibility performance standards. This process will clearly outline DHCS' performance expectations, taking into consideration the issues that are beyond the counties' control, but including potential consequences if standards are not met.

- **Ensure DHCS/County Partnership through Regular Meetings and Open Lines of Communication:** DHCS will work collaboratively with CWDA, counties, and SAWS to develop a communications plan that articulates a process for receiving and responding to county requests for technical guidance and assistance as necessary and appropriate to support counties through this transition. DHCS will look at leveraging existing meetings, and/or developing dedicated meetings to further open lines of communication related to county oversight and monitoring. DHCS will continue to encourage county feedback in identifying gaps or needed clarifications in policy guidance and automation issues. DHCS will also work closely with counties, SAWS and CalHEERS to identify and pursue needed automation changes to support counties in the effective administration of the Medi-Cal program.

- **Develop a Tiered Corrective Action Approach**: DHCS will work with county partners to establish a tiered corrective action approach that would require the submission of a Corrective Action Plan for counties that do not meet established performance expectations. DHCS remains committed to supporting counties and providing timely policy guidance, along with technical assistance, as needed, in addressing and correcting error trends.

- **Incorporate Fiscal Penalties as Part of the Tiered Corrective Action Approach**: For counties that do not demonstrate sufficient improvement in performance, DHCS will take disciplinary action that could range from technical assistance to requiring corrective action plans to imposing financial penalties on counties that fail to show significant improvement and/or are unresponsive to CAPs.

- **Incorporate Findings/Actions in Public Facing Report Cards**: DHCS will work with CWDA, counties and the SAWS to further develop county performance reports that are publicly posted on the California Health and Human Services (CHHS) Open Data Portal and increase accountability by issuing annual public-facing report cards to all 58 counties.

3.12.3 Rationale

This proposal is envisioned to be a crucial step toward achieving DHCS' larger vision for CalAIM by ensuring Medi-Cal enrollment processes are applied in a standardized and consistent manner statewide. This proposal will help to improve DHCS' oversight and monitoring of various aspects of Medi-Cal eligibility and enrollment and the activities of its contracted partners. This includes implementing additional county oversight activities to increase the integrity of the administration of the Medi-Cal program, as well as implementing the recommendations of the California State Auditor's Office. This proposal will also ensure that DHCS is compliant with federal and state requirements.

3.12.4 Proposed Timeline

Given the Executive Order to halt all county renewal processes and negative actions through the duration of the Public Health Emergency (PHE), the implementation timeline reflected for this initiative will shift if the PHE is extended. The dates noted are based on the PHE ending and normal county business processes resuming January 2021, allowing 12 months from the end of the PHE for counties to process and clean-up the resulting backlog. Dates are subject to change once the end of the PHE is established.

- **June 1 – August 31, 2021**: DHCS will reinstate County Performance Standards, including incorporation of MEDS alert monitoring statewide.

- **September 1 – December 30, 2021:** DHCS will develop and publish an updated process for the monitoring and reporting of County Performance Standards, incorporating an outline of the tiered Corrective Action steps which will include disciplinary action ranging from CAPs for counties that do not meet performance expectations, to potential fiscal penalties for unresponsive counties.

- **January 1 – March 31, 2022:** DHCS will begin assessing County Performance Standards, in keeping with the aforementioned updated process.

- **April 1 – June 30, 2022:** DHCS will implement the county performance monitoring dashboard (a public facing report card). The dashboard is envisioned to represent county performance in application processing, renewal processing, and MEDS alert processing, and could potentially include other measures to be mutually agreed upon in the future.

Back to Item
Back to Agenda
Back to Agenda

- **July 1 – September 30, 2022:** DHCS will begin publishing the county performance monitoring dashboard on the CHHS Open Data Portal.
- **July 1 – December 31, 2023:** DHCS will begin taking steps toward fiscal sanctions for counties who do not demonstrate sufficient improvement in meeting performance expectations or are unresponsive.

3.13 Enhancing County Oversight and Monitoring: CCS and CHDP

3.13.1 Background

The California Children's Services program serves as a proxy of Medi-Cal for case management services and provides diagnostic and treatment services, physical and occupational therapy services to children and youth with eligible medical conditions. The Child Health and Disability Prevention program delivers periodic health assessments and services to low-income children and youth; and provides care coordination to assist families with medical appointment scheduling, transportation, and access to diagnostic and treatment services.

California Children's Services and Child Health and Disability Prevention beneficiaries are best served when their care is delivered in a standardized and consistent manner. It is the State's responsibility to ensure that the same high-quality standard of care is compliant with federal and State guidelines for all beneficiaries. To remain proactive with emerging trends, technology, medical advances, and interventions, it is essential the State continue to evolve its efforts accordingly.

3.14.2 Proposal

DHCS intends to provide enhanced monitoring and oversight of all 58 counties and three (3) cities (Berkeley, Pasadena, and Long Beach) to ensure continuous, and unwavering optimal care for children. To implement the enhanced monitoring and oversight of California Children's Services and Child Health and Disability Prevention in all counties, DHCS will develop a robust strategic compliance program. Effective compliance programs begin with ascertainable goals, performance measures, and metrics capturing all federal and State requirements. Ongoing quality assurance and data reviews are fundamental to ensuring compliance and continued improvements in program operations and beneficiary care.

Initial efforts will entail a review of all current standards and guidelines for both programs. Once the internal policy review is complete, DHCS will develop initial auditing tools to assess current county/city operations and compliance. DHCS will then evaluate and analyze the findings gathered during audits to identify gaps and vulnerabilities across the State within the programs. The information gathered will be the cornerstone for future efforts, and the basis for the development of the strategic compliance program.

County/City variances in program operations and compliance with federal and State laws are also identified by tracking trends. DHCS will refine and update oversight policies and procedures and implement best practices. DHCS, along with input from our county partners and other stakeholders, will establish goals, metrics, performance measures, and milestones to ensure counties/cities are providing the necessary provider oversight and medical/ dental care for beneficiaries. DHCS will provide training and technical assistance with internal and external partners to achieve statewide consistency of the compliance requirements and goals. In addition, DHCS will conduct ongoing quality assurance reviews, develop, and create county/city program specific dashboards, as necessary to meet internal and external reporting needs.

In alignment with technology trends, the State plans to shift counties/cities from annual hardcopy submission of Plan and Fiscal Guidelines budgets to a more efficient and streamlined automated electronic submission process. Training and overview of the electronic submission process conducted for the counties ensures understanding prior to implementation of the automated system. More rigorous annual review of all county budgets will further efficiencies, contain costs, and improve outcomes.

To better manage this population's health care and ensure targeted interventions are implemented, each county/city and state will enter into a Memorandum of Understanding (MOU) with DHCS. The MOU, in conjunction with other supportive policies (information notices, numbered letters, etc.), will detail how the state will monitor county/city activities, policies and procedures, conduct audits, and implement corrective action plans. This MOU will be developed utilizing information obtained during the audits with the intent of having signed agreements with all counties/cities.

After initial deployment of the enhanced monitoring and oversight, DHCS will continue to conduct ongoing audits, stay proactive with emerging developments, and monitor trends to ensure high-quality consistent care. DHCS will allow sufficient time for counties to implement and adjust to this new structure prior to engaging in any sort of progressive action. DHCS will continue compliance oversight to preserve and improve the overall health and well-being of these vulnerable populations.

3.13.3 Rationale

Enhancing monitoring and oversight will eliminate disparities in care to beneficiaries and reduce vulnerabilities to the state, thereby preserving and improving the overall health and well-being of California's vulnerable populations.

3.13.4 Proposed Timeline

- **Phase I: August 2020 – June 2021**
    - Review of current standards, policies, and guidelines

Back to Item
Back to Agenda
Back to Agenda

  - Development of goals, performance measures, and metrics
  - Revision of current Plan and Fiscal Guidelines guidance document
  - Continuation of the establishment of an electronic submission portal for the annual county/city budgets.

- **Phase II: July - September 2021**
  - Development of auditing tools
- **Phase III: October 2021 – September 2022**
  - Shift to an electronic automated PFG submission by the counties/cities
  - Develop training documents
  - Evaluate and analyze findings and trends
  - Identify gaps and vulnerabilities
- **Phase IV: October 2022- Ongoing**
  - Initiate Memorandum of Understanding between State and counties
  - Continuous monitoring and oversight
  - Continuous updates to standards, policies, and guidelines

3.14 Improving Beneficiary Contact and Demographic Information

3.14.1 Background

Medi-Cal has approximately 13 million enrolled beneficiaries; approximately 80 percent are enrolled in the managed care delivery system and 20 percent are enrolled in the fee-for-service delivery system. County social services departments are delegated by DHCS to process Medi-Cal applications and renewals, as well as to generally provide case management services. Counties use Statewide Automated Welfare Systems (SAWS_ to support and maintain Medi-Cal enrollment processes. The SAWS, of which there are currently three, contain contact and demographic information on enrolled individuals. The systems maintain electronic interfaces with the state-level eligibility and enrollment system (California Healthcare Eligibility, Enrollment, and Retention System) and the state-level eligibility database, the Medi-Cal Eligibility Data System. The Medi-Cal Eligibility Data System is the system of record for purposes of Medi-Cal eligibility information, claims payment, and health plan assignment, among other things.

When a beneficiary has a change in circumstances that affects their eligibility, the beneficiary is required to report changes to their county eligibility worker within ten calendar days of the change. Such changes include but are not limited to address and contact information updates, family size (increases or decreases), access to other health insurance, changes in income, and death. County eligibility workers are then responsible

Back to Item
Back to Agenda
Back to Agenda

for ensuring the data maintained in the local county eligibility system is accurate and up to date. Under current state law, Medi-Cal managed care plans have the ability to report updated contact information to the county when they have obtained consent from the beneficiary for such reporting.

Accurate contact and demographic information is critical for purposes of ongoing program enrollment and care management for beneficiaries. This information is used by Medi-Cal fee-for-service providers and Medi-Cal managed care plans, as well as other providers of care, for purposes of effective communication and interaction with Medi-Cal beneficiaries, including deploying care management strategies based on individual needs.

Given the substantial volume of individuals in the process of enrolling in or renewing Medi-Cal coverage, it is critical that DHCS, counties and plan and provider partners have accurate contact and demographic information. A more effective and efficient process for keeping this information up to date in California's systems is needed.

3.14.2 Proposal

DHCS intends to convene a workgroup of interested stakeholders to provide feedback and recommendations on ways in which contact and demographic information can be updated by other entities and the means to accomplish this while maintaining compliance with all applicable state and federal privacy laws. The goal of the workgroup will be to determine the best pathway for ensuring that reported updated data is accurate and can be used in eligibility and enrollment systems/databases without creating unintended consequences for other social services program, Medi-Cal beneficiaries, managed care plans, and the provider community.

3.14.3 Rationale

As DHCS seeks to make improvements in its approach to population-based health care and drive innovation in health care delivery, it is critical that our Medi-Cal providers, managed care plans, county partners, and others have access to accurate, up-to-date contact and demographic information for beneficiaries. County eligibility workers play a key role in ensuring contact information is current; however, there are other entities that interact with Medi-Cal beneficiaries on a regular basis who may have access to more current information. As a result, DHCS would like to leverage and explore the possibility of other entities having the opportunity to also update contact and demographic information about Medi-Cal beneficiaries.

3.14.4 Proposed Timeline

DHCS proposes to engage with key partners during 2022-23 to develop thoughtful and realistic recommendations for implementing improvements in how contact and demographic information can be updated by other entities in addition to county eligibility

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

workers. Such changes may be effectuated through updates to the Medi-Cal application, use of eligibility online portals and/or other means. As part of the workgroup effort, DHCS will also seek input in terms of timing of implementation, taking into consideration current system migrations, consolidations and/or modernization efforts.

4. Conclusion

DHCS developed these CalAIM proposals with a view toward the future and what will be necessary to more effectively and positively impact Medi-Cal beneficiaries' quality of life. These proposals were drawn from more than a year-long effort by DHCS leadership and staff, as well as engagement with critical partners and experts across the State and the nation. These ambitious proposals represent a long-term vision for advancing and improving the Medi-Cal program in fundamental ways that build upon the foundations established in prior waivers and expansion efforts. The success of the thinking behind CalAIM will fundamentally rest on the collaboration and coordination of DHCS, our plan, provider, county, and legislative partners, and the entire stakeholder community. DHCS recognizes that these proposals will likely require significant time and fiscal investment and look forward to working with our partners and through the budget process to most effectively implement the concepts proposed in this initiative. These efforts are not limited to a single year, but represent DHCS' current vision for what Medi-Cal might be able to achieve over the next five to ten years, and beyond.

5. From Medi-Cal 2020 to CalAIM: A Crosswalk

California is embarking on a new and system-wide initiative to transform how beneficiaries' access Medi-Cal services. As the Medi-Cal program has expanded under the Affordable Care Act and through other state-led initiatives, and with over 80% of beneficiaries now being served through managed care plans, it is an opportune time to consider the patient experience from an even more global perspective. Currently, beneficiaries may need to access six or more separate delivery systems (managed care, fee-for-service, specialty mental health, substance use disorder, dental, In Home Supportive Services, etc.) in order to receive the care they need. This combination of system fragmentation and clinical complexity, and the likelihood of decreased beneficiary capacity, makes access to effective care coordination even more critical.

As such, the state is undertaking a more targeted approach to consolidating its Medi-Cal benefit package to achieve better alignment across the system. While Section 1115 waiver authority has historically been the mechanism of choice for states interested in building and expanding managed care delivery systems, the use of the authority has evolved in recent years. The federal government no longer considers the "savings" generated from the shift from fee-for-service to managed care that occurred 15 years ago in Medicaid as relevant in calculating budget neutrality for waivers. CMS, in recent

Back to Item
Back to Agenda
Back to Agenda

guidance, has also discontinued approval of traditional financing mechanisms in the Section 1115 context, namely the availability of federal funds for Designated State Health Programs and Safety Net Care Pools. These factors, combined with new federal managed care regulations, have encouraged DHCS to shift its focus away from the Section 1115 waiver authority to instead leverage other available pathways for innovation in the Medi-Cal program.

In the spring of 2020, in response to the COVID-19 public health emergency, DHCS determined that additional time would be needed to prepare Medi-Cal managed care plans, counties, and a wide array of stakeholders for the transition from the Section 1115 waiver to the CalAIM structure. As such, the state prepared a 12-month extension request for the Medi-Cal 2020 Section 1115 demonstration. The request was posted for public comment in June 2020 and submitted to CMS on September 16, 2020. The 12-month extension is meant to serve as a bridge to a 5-year Section 1115 waiver renewal, primarily to continue key programs that require the authority, including the Global Payment Program (GPP) and the Drug Medi-Cal Organized Delivery System (DMC-ODS). In addition, DHCS is designing a comprehensive Section 1915(b) managed care waiver request for CMS that would also be for a 5-year period.

The following table outlines the proposed approach under CalAIM for each of the key Medi-Cal 2020 waiver elements:

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

Crosswalk of Medi-Cal 2020 Waiver Components to CalAIM Proposals

Medi-Cal 2020 Waiver Component	Included in Waiver Extension Through 12/31/21	Planned for CalAIM	Description	Timeline
Medi-Cal Managed Care	X	Transition to new 1915(b) waiver.	The general authority for various Medi-Cal managed care will be shifted from 1115 to 1915(b). This would include PACE models needing waiver approval and Whole Child Model.	January 1, 2022
Whole Person Care Pilots	X	Transition to new 1915(b) waiver and managed care plan contract authority.	Medi-Cal managed care plans would provide a new enhanced care management benefit. Additionally, Medi-Cal managed care plans will have the option to provide a menu of approved in lieu of services. The majority of Whole Person Care services will continue to be available as both enhanced care management and in lieu of services via Medi-Cal managed care plans, and ultimately will be expanded to Medi-Cal managed care plans in non-Whole Person Care counties.	January 1, 2022
PRIME		Transition to managed care directed payment under the Quality Incentive Pool (QIP) Program.	The existing PRIME funding structure was transitioned into QIP directed payments effective July 1, 2020. Network Designated Public Hospital (DPH) systems and the District/Municipal Public Hospitals (DMPHs) will have the opportunity to participate in and receive directed QIP payments from their contracted Medi-Cal managed care plans for reporting on a set of quality improvement measures through the QIP program.	Phase I: July 1 – December 31, 2020 Phase II: January 1, 2021
Health Homes Program	X	Transition to new 1915(b) waiver as Enhanced Care Management.	Medi-Cal managed care plans would provide a new enhanced care management benefit similar to the benefits included in the Health Homes Program. Medi-Cal managed care plans will have the option of providing a menu of approved in lieu of services. Services currently provided to populations with complex health needs under the HHP will become available under the managed care delivery system structure.	January 1, 2022

Crosswalk of Medi-Cal 2020 Waiver Components to CalAIM Proposals

Medi-Cal 2020 Waiver Component	Included in Waiver Extension Through 12/31/21	Planned for CalAIM	Description	Timeline
Coordinated Care Initiative and Cal MediConnect	X	Managed care authority to new 1915(b) waiver; Extension of 1115A demonstration for Cal MediConnect through 2022; eventual Medicare-Duals Special Needs Plans (D-SNPs).	Transition to standardized mandatory enrollment of dual eligibles into Medi-Cal managed care plans. Multipurpose Senior Services Programs will be carved out; long-term care will be carved in statewide. All Medi-Cal managed care plans will be required to offer coverage through D-SNPs for care coordination and integration of benefits.	CCI program with end date of December 31, 2022
Drug Medi-Cal Organized Delivery System (DMC-ODS)	X	Expenditure authority for residential SUD treatment remains in 1115 waiver; Services and delivery system move to new 1915(b) waiver.	The Drug Medi-Cal Organized Delivery System (DMC-ODS) provides a continuum of care for substance use disorder treatment.	Implementation continues January 1, 2022
Global Payment Program	X	1115 waiver renewal.	Continuation of existing program, with discontinuation of Safety Net Care Pool funds, using only Medicaid Disproportionate Share Hospital (DSH) allotment funds.	January 1, 2022.

Back to Item
Back to Agenda
Back to Agenda

Crosswalk of Medi-Cal 2020 Waiver Components to CalAIM Proposals

Medi-Cal 2020 Waiver Component	Included in Waiver Extension Through 12/31/21	Planned for CalAIM	Description	Timeline
Dental Transformation Initiative	X	Transition authority to Medi-Cal State Plan.	New dental benefits and provider payments: • Caries Risk Assessment Bundle for ages 0-6; • Silver Diamine Fluoride for ages 0-6, and specified high-risk and institutional populations Pay for Performance incentives for preventive services and establishing continuity of care through dental homes	January 1, 2022
Community-Based Adult Services (CBAS)	X	1115 waiver renewal.	Services for eligible older adults and those with disabilities to restore or maintain their optimal capacity for self-care. The goal is to delay or prevent inappropriate or personally undesirable institutionalization.	January 1, 2022
Eligibility Authorities	X	1115 waiver renewal.	Full Scope Benefit for Pregnancy Related Beneficiaries with FPL 109-138% and Out of State Former Foster Care Youth.	January 1, 2022
Rady CCS Pilot	X	Not included.	The demonstration project tested two healthcare delivery models for children enrolled in the California Children's Services (CCS) Program.	Expires December 31, 2021
Designated State Health Programs (DSHP)	X	Not included.	Financing mechanism under 1115 waiver which has permitted federal funding for certain State health programs not traditionally allowed for federal funding	Expires December 31, 2020
Tribal Uncompensated Care	X	Not included.	The state makes supplemental payments to Indian Health Service (IHS) and tribal 638 facilities to take into account their responsibility to provide uncompensated care. DHCS will work to implement Tribal FQHCs by January 1, 2021, which will account for the remaining services being billed for under Tribal Uncompensated Care.	Expires December 31, 2021

Back to Agenda

5.1 Transition of PRIME to Quality Incentive Program

5.1.1 Background

The California Public Hospital Redesign and Incentives in Medi-Cal (PRIME) program built on other delivery system transformation efforts focused on strengthening patient-centered primary and specialty outpatient care, improving care coordination, and providing the right care in the most appropriate settings. A total of 17 Designated Public Hospitals and 34 District and Municipal Public Hospitals participated in PRIME. PRIME was designed to accelerate efforts by participating entities to change care delivery, maximize health care value, and strengthen their ability to successfully perform under risk-based alternative payment models. PRIME was intentionally designed to be ambitious in scope and time limited. Using evidence-based quality improvement methods, the initial work required the establishment of performance baselines followed by target-setting, and the implementation and ongoing evaluation of quality improvement interventions.

In 2017, California created a Quality Incentive Program (QIP) – a managed care directed payment program – for the state's Designated Public Hospitals. The state directs Medi-Cal managed care plans to make QIP payments tied to designated performance metrics in four strategic categories: primary care, specialty care, inpatient care, and resource utilization. The QIP measures do not directly overlap with any of the quality measures being used in PRIME, rather they are designed to be complementary. The QIP promote access to care, value-based purchasing, and to tie funding to quality outcomes, while at the same time further aligning state, Medi-Cal managed care plan, and hospital system goals. The QIP also creates incentives to build data and quality infrastructure and ties funding directly to these goals, allowing the state to pay for quality and build capacity.

5.1.2 Proposal

DHCS is in the process of transitioning the quality improvement work and funding that has been available through PRIME into the QIP and permitting the District and Municipal Public Hospitals to begin participating in the program, which has enabled hospitals to continue quality improvement efforts underway at all 51 PRIME entities after PRIME expired on June 30, 2020. This transition promotes value-based purchasing, ties funding to quality outcomes, and aligns PRIME entities' transition to the QIP with California's transition to the calendar year rating period for Medi-Cal managed care plans.

There are two key phases in the PRIME-to- QIP transition:

- **Phase I:** Alignment with the calendar year health plan rating period, July 1, 2020 through December 31, 2020

Back to Item
Back to Agenda
Back to Agenda

- **Phase II:** Merge to QIP, January 1, 2021 through December 2021, and beyond.

Phase I: Alignment with Calendar Year Rating Period

All 51 PRIME entities transitioned into a six-month transitional program on July 1, 2020 to calibrates the new program to end on the same date as Bridge Period 2019-20, an 18-month rate year for Medi-Cal managed care plans that ended on December 31, 2020. For performance on both the original QIP quality metrics (for Designated Public Hospitals) and the PRIME transition metrics (for Designated Public Hospitals and 34 District and Municipal Public Hospitals) during this period, the 51 entities will be paid through Medi-Cal managed care plans, via state-directed Medi-Cal managed care plan payments. CMS approval for this six-month program was obtained on September 14, 2020.

To earn funds for PRIME transition metrics, all 51 PRIME entities will continue to report to DHCS on quality improvement projects and measures from PRIME. The six-month transition will use a twelve-month measurement period to ensure that performance can be fairly compared to benchmarks set by DHCS. Due to the COVID-19 public health emergency, entities will use the March 1, 2019 to February 29, 2020 measurement period and be held to achieving the minimum performance benchmark established by DHCS from PRIME Demonstration Year 15. The Designated Public Hospitals will also continue activities on the original QIP quality metrics during this six-month period, utilizing the same modifications due to the COVID-19 public health emergency outlined for PRIME above.

Phase II: Merge to QIP

Subject to obtaining the necessary federal approvals, January 1, 2021 will be the start of QIP Year 4 and will include the Designated Public Hospitals and 34 District and Municipal Public Hospitals, totaling 51 QIP entities. Similar to Phase I, payments to the 51 QIP entities will be directed payments through the Medi-Cal managed care plans. Program Year 4 will align with Rate Year 2021, corresponding to calendar year 2021.

PRIME Policy Letters and associated PRIME reporting guidance will no longer apply to QIP. DHCS will review all prior PRIME Policy Letters and QIP Policy Letters for relevance and issue updated Policy Letters and reporting guidance to Designated Public Hospitals and District and Municipal Public Hospitals.

DHCS worked with stakeholders to develop a revised metric set for Program Year 4 that prioritizes CMS Adult and Child Core Set measures, HEDIS measures, other nationally vetted and endorsed measures, and measures in wide use across Medicaid quality initiatives. The measures align with well-established benchmarks and State, Medi-Cal managed care plan, and hospital system goals. The Program Year 4 metric set meaningfully reflects the goals and priorities of CalAIM.

5.1.3 Rationale

The QIP Program is intended to promote access to care, value-based payments, and tie funding to quality outcomes, while at the same time further aligning state, Medi-Cal managed care plan, and hospital system goals. The PRIME to QIP transition will engage both Designated Public Hospitals and 34 District and Municipal Public Hospitals to continue quality improvement work for select priority metrics in QIP As such, this proposal will help achieve the following goals of CalAIM:

- Enhance coverage expansion to address health disparities among vulnerable populations;
- Drive delivery transformation across Designated Public Hospitals and District and Municipal Public Hospitals toward value-based care and away from volume-based care, and
- Reduce variation and complexity across hospital systems through alignment of quality measures with those required of health plans.

5.1.4 Proposed Timeline

January 1, 2021: Complete transition from PRIME to QIP for Designated Public Hospitals and District and Municipal Public Hospitals using new CMS Adult and Child Core Set measures, HEDIS measures, and other nationally-vetted and endorsed measures

5.2 Global Payment Program Extension

5.2.1 Background

The Global Payment Program is a five-year pilot program included in California's Medi-Cal 2020 Section 1115 demonstration waiver. The Global Payment Program establishes a statewide pool of funding by combining a portion of California's federal Disproportionate Share Hospital (DSH) allotment with available uncompensated care funding. These funds support public health care system efforts to provide health care for California's uninsured population and promotes the delivery of more cost-effective and higher-value care to the uninsured.

Global budgets are allocated to public health care systems based on available funding and service point thresholds to be achieved. Public health care systems can achieve their hospital specific global budget by meeting a service point threshold that incentivizes movement from high cost, avoidable services to providing higher value and preventive services in the most appropriate setting.

The Global Payment Program's requirements are established in the Special Terms and Conditions for California's Medi-Cal 2020 Section 1115 demonstration and the program

Back to Item
Back to Agenda
Back to Agenda

funding is authorized December 31, 2021 under the one year Medi-Cal 2020 extension proposal, submitted to CMS on September 16, 2020.

5.2.2 Proposal

DHCS proposes to extend the Global Payment Program under CalAIM through a renewal of the Medi-Cal Section 1115 waiver demonstration. The Global Payment Program will operate under the following assumptions:

- The start date of Program Year 7 will begin on January 1, 2022, and end on December 31, 2022. The Global Payment Program was originally approved through June 30, 2020. On August 3, 2020, the Centers for Medicare and Medicaid Services (CMS) approved a waiver amendment extending the program and authorizing Program Year 6A for the period of July 1, 2020 through December 31, 2020. The Medi-Cal 2020 one-year extension proposal extended the program through December 31, 2021.
- The Global Payment Program under CalAIM will be funded solely by a portion of the State's Designated Public Hospital Disproportionate Share Hospital allotment allocation and will no longer incorporate uncompensated care funding;
- The percentage of Designated Public Hospital Disproportionate Share Hospital allotment funds to be split amongst University of California hospitals and Global Payment Program public health care systems will remain constant for the entirety of the waiver with 78.104% allocated to the Global Payment Program and 21.896% allocated to University of California hospitals;
- The Global Payment Program will include an evaluation to continue to assess whether the program is achieving its stated goals;
- The Global Payment Program will continue the shifting of point values for specific services to incentivize the provision of care in the most appropriate and cost-effective settings;
- DHCS may recalibrate the initial point thresholds for each hospital. Some public health care systems consistently exceed their thresholds, while others do not. Recalibration of the initial point thresholds will serve to minimize payment adjustments; and
- All other facets of the Global Payment Program in the CalAIM period will operate per the Medi-Cal 2020 waiver Special Terms and Conditions.

5.2.3 Rationale

The Global Payment Program was established to accomplish the following goals:

Back to Item
Back to Agenda
Back to Agenda

- To improve health of the remaining uninsured through coordination of care and to move away from the cost-based payment methodology restricted to mostly hospital settings to a more risk-based and/or bundled payment structure;
- To encourage public healthcare systems to provide greater primary and preventive services, as well as alternative modalities such as phone visits, group visits, telemedicine, and other electronic consultations; and
- To emphasize the value of coordinated care and alternative modalities by recognizing the higher value of primary care, ambulatory care, and care management as compared to the higher cost, avoidable emergency room visits and acute care hospital stay.

DHCS collaborated with the RAND Corporation to conduct an evaluation of the Global Payment Program from the onset of the program through March 2019. The evaluation assessed whether and to what extent, changing the payment methodology resulted in a more patient-centered system of care. Results show that there has been an increase in outpatient services, an increase in access to care for the uninsured, an improvement in the coordination of care, advancements in data collection and tracking, and an appropriate allocation of resources to effectively tailor care to more appropriate settings.

These findings provide strong support for the argument that the Global Payment Program is a powerful catalyst in helping the public health care systems deliver more cost-effective and higher-value care to the State's remaining uninsured individuals and will continue to move in this direction over the next five years.

5.2.4 Proposed Timeline

DHCS proposes to extend the Global Payment Program for the next five years according to the schedule in **Attachment G.**

Back to Item
Back to Agenda
Back to Agenda

6. Appendices

Appendix A: 2021 and Beyond: CalAIM Implementation Timeline[3]

Date	Implementation Activity
July 1, 2020	**PRIME transitions to Quality Incentive Program**
January 1, 2021	12-month extension of Medi-Cal 2020 demonstration
April 2021	**Submission of Section 1915(b) and 1115 waiver requests** **Pharmacy Carve-Out Effective**
June 2021	**County Oversight[4]:** DHCS will engage with counties by forming a working group that will focus on developing new county performance standards monitoring and reporting mechanism. The reinstatement of County Performance Standards will include incorporation of MEDS alert monitoring statewide **County oversight (CCS, CHDP):** Development of auditing tools. **Foster Care Model of Care Workgroup** completed
October 2021	**County oversight (CCS, CHDP):** Shift to automated Plan and Fiscal Guideline submission process, develop training documents, evaluate and analyze findings and trends, and identify gaps and vulnerabilities.
November-2021	**County Inmate Pre-Release Application Process:** Stakeholder process
December 2021	**County Oversight**: DHCS will publish an updated process for the monitoring and reporting of County Performance Standards, incorporating an outline of the tiered Corrective Action steps which will include disciplinary action ranging from CPAs for counties that do not meet performance expectations, to potential fiscal penalties for unresponsive counties. **Goal approval date of Section 1915(b) and 1115 waiver requests**
2022	

[3] Implementation date TBD: IMD SMI/SED waiver, regional contracting (will vary), improving beneficiary contact and demographic information

[4] Given the Executive Order to halt all county renewal processes and negative actions through the duration of the Public Health Emergency (PHE), the implementation timeline reflected for this initiative will shift if the PHE is extended. The dates noted are based on the PHE ending and normal county business processes resuming January 2021, allowing 12 months from the end of the PHE for counties to process and clean-up the resulting backlog. Dates are subject to change once the end of the PHE is established.

Back to Item
Back to Agenda
Back to Agenda

Date	Implementation Activity
January 1, 2022	**Managed Care Authority:** Shifts to 1915(b) authority **Implementation of the following CalAIM proposals:** • Enhanced care management/In lieu of services (existing WPC and/ or HHP target populations) • Incentive payments • Dental benefits and pay for performance (implementation date TBD as funding for Designated State Health Programs (DSHP) is not approved in extension of the Medi-Cal 2020 demonstration) • Managed care benefit standardization continues • Mandatory managed care • Regional Rates Phase I • DMC-ODS renewal and policy improvements • Changes to behavioral health medical necessity • Multipurpose Senior Services Program carved-out of managed care • D-SNP look-alike enrollment transition in CCI counties **County Inmate Pre-Release Application Process:** Publication of guidance and begin Technical Assistance (through December 2022)
March 2022	**County Oversight**: DHCS will begin assessing County Performance Standards, in keeping with the aforementioned updated process.
June 2022	**County Oversight**: DHCS will implement the County Performance Monitoring Dashboard. The dashboard is envisioned to represent county performance in application processing, renewal processing, and MEDS alert processing, and could potentially include other measures to be mutually agreed upon in the future.
July 2022	**Behavioral Health Payment Reform** **Enhanced care management:** • Implementation of additional enhanced care management Target Populations in HHP/WPC Counties. • Managed care plans in non- WPC and/or HHP counties begin implementing enhanced care management target populations
September 2022	**County Oversight**: DHCS will begin publishing the County Performance Monitoring Dashboard on the CHHS Open Data Portal.
October 2022	**County oversight (CCS, CHDP):** Initiate Memorandum of Understanding between State and counties, continuous monitoring and oversight, and continuous updates to standards, policies, and guidelines
December 31, 2022	**Cal MediConnect:** End of program
2023	
January 2023	**Aligned Enrollment:**

Back to Item
Back to Agenda
Back to Agenda

Date	Implementation Activity
	• Require statewide mandatory enrollment of dual eligibles in Medi-Cal managed care[5] • All Medi-Cal health plans in CCI counties required to operate Dual Eligible Special Needs plans in all service areas they operate as an Medi-Cal managed care plan, including dual eligible LTC residents • Require statewide mandatory enrollment for eligible LTC residents for both non-dual and dual beneficiaries **County Inmate Pre-Release Application Process:** Implementation **Shared Risk/Shared Savings** (at the earliest) **Enhanced care management:** Implementation of all enhanced care management target populations, including Individuals Transitioning from Incarceration.
December 2023	**County Oversight**: DHCS will begin taking steps toward fiscal sanctions for counties who do not demonstrate sufficient improvement in meeting performance expectations or are unresponsive.
2024	
January 2024	**Regional Rates, Phase II** (at the earliest)
2025	
January 2025	**Aligned Enrollment:** • All Medi-Cal health plans in non-CCI counties required to operate Dual Eligible Special Needs plans in all service areas they operate as a Medi-Cal managed care plan.
2026	
January 2026	**NCQA:** All Medi-Cal managed care plans required to be NCQA accredited
2027	
January 2027	**Behavioral Health Administrative Integration:** submit for a single, integrated behavioral health managed care plan in each county or region responsible for providing, or arranging for the provision of, specialty mental health and substance use disorder services under the 1915(b) waiver **Long-Term Services and Supports, Long-Term Care, Dual Eligible Special Needs Plans:** Full implementation **Full Integration Plan:** Go Live (no sooner than)

[5] Mandatory Managed Care enrollment: See **Appendix F: Managed Care Enrollment Proposed Aid Code Group Coverage.**

Appendix D: Institutions for Mental Disease/Serious Mental Illness/Severe Emotional Disturbance Demonstration Goals & Milestones

Below is a summary of demonstration goals as outlined in CMS SMD Letter #18-011:

- Reduced utilization and lengths of stay in emergency departments among Medicaid beneficiaries with serious mental illness or serious emotional disturbance while awaiting mental health treatment in specialized settings;
- Reduced preventable readmissions to acute care hospitals and residential settings;
- Improved availability of crisis stabilization services including services made available through call centers and mobile crisis units, intensive outpatient services, as well as services provided during acute short-term stays in residential crisis stabilization programs, psychiatric hospitals, and residential treatment settings throughout the state;
- Improved access to community-based services to address the chronic mental health care needs of beneficiaries with serious mental illness or serious emotional disturbance including through increased integration of primary and behavioral health care; and
- Improved care coordination, especially continuity of care in the community following episodes of acute care in hospitals and residential treatment facilities.

Below is a summary of demonstration milestones as outlined in CMS SMD Letter #18-011:

- Ensuring quality of care in psychiatric hospitals and residential settings. Involves facility accreditation, unannounced visits, use of a utilization review entity, facilities meeting federal program integrity requirements, and facilities having the capacity to address co-morbid physical health conditions;
- Improving care coordination and transitions to community-based care. Involves implementation of a process to assess housing situations, requirement that facilities have protocols to contact beneficiaries within 72-hours after discharge, strategies to prevent or decrease lengths of stays in emergency departments, and strategies to develop and enhance interoperability and data sharing;
- Increasing access to continuum of care including crisis stabilization services. Involves annual assessments of availability of mental health services across the state, commitment to an approved finance plan, strategies to improve the state's

Back to Item
Back to Agenda
Back to Agenda

capacity to track available beds, and implementation of an evidence-based assessment tool; and

- Earlier identification and engagement in treatment including through increased integration. Involves strategies for identifying and engaging individuals in treatment sooner, increased integration of behavioral health care in non-specialty settings and establishing specialized settings and services.

Federal Application Requirements

States wishing to pursue this demonstration opportunity must first submit an application to CMS. CMS will consider a state's commitment to ongoing maintenance of effort on funding outpatient community-based mental health services as demonstrated in their application when determining whether to approve a state's proposed demonstration project to ensure that resources are not disproportionately drawn into increasing access to treatment in inpatient and residential settings at the expense of community-based services. Below is a summary of required elements for the application;

- A comprehensive description of the demonstration, including the state's strategies for addressing the goals and milestones discussed above for this demonstration initiative;
- A comprehensive plan to address the needs of beneficiaries with serious mental illness or serious emotional disturbance, including an assessment of how this demonstration will complement and not supplant state activities called for or supported by other federal authorities and funding streams;
- A description of the proposed health care delivery system, eligibility requirements, benefit coverage and cost sharing (premiums, copayments, and deductibles) required of individuals who will be impacted by the demonstration, to the extent such provisions would vary from the state's current program features and the requirements of the Social Security Act;
- A list of the waivers and expenditure authorities that the state believes to be necessary to authorize the demonstration;
- An estimate of annual aggregate expenditures by population group impacted by the demonstration, including development of baseline cost data for these populations.
- Specifically, CMS requests that states' fiscal analysis demonstrate how the proposed changes will be budget neutral, i.e., will not increase federal Medicaid spending. CMS will work closely with states to determine the feasibility of their budget neutrality models and suggest changes as necessary;

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

- Enrollment data including historical mental health care coverage and projected coverage over the life of the demonstration, of each category of beneficiary whose health care coverage is impacted by the demonstration;
- Written documentation of the state's compliance with the public notice requirements at 42 CFR 431.408, with a report of the issues raised by the public during the comment period and how the State considered those comments when developing the final demonstration application submitted to CMS;
- The research hypotheses that are related to the demonstration's proposed changes, goals, and objectives, and a general plan for testing the hypotheses including, if feasible, the identification of appropriate evaluation indicators; and
- An implementation plan describing the timelines and activities necessary to achieve the demonstration milestones including a financing plan. The implementation plan can be submitted with the application, or within 90 days of application approval from CMS.

Other Demonstration Requirements

In addition to the required application elements above, states must also develop the following:

- Demonstration monitoring reports including information detailing the state's progress toward meeting the milestones and timeframes outlined in the implementation plan, as well as information and data so that CMS can monitor budget neutrality.
- A Health IT plan (health information technology plan) that describes the state's ability to leverage health IT, advance health information exchange(s), and ensure health IT interoperability in support of the demonstration's goals.
- Monitoring protocols that identify expectations for quarterly and annual monitoring reports including agreed upon performance measures (see SMD #18-011 for a list of potential measures), measure concepts, and qualitative narrative summaries. The monitoring protocol will be developed and finalized after CMS approval.
- Interim and final evaluations that will draw on the data collected for the milestones and performance measures, as well as other data and information needed to support the evaluation that will describe the effectiveness and impact of the demonstration using quantitative and qualitative outcomes and a cost analysis. An evaluation design will be developed by the state, with technical assistance from CMS, to be finalized within 180 days of the demonstration approval.

Appendix E: CalAIM Benefit Changes Chart

Benefit Changes Effective April 1, 2021	
Benefits Currently Provided by Medi-Cal Managed Care Plans that will be Carved-Out to Fee-for-Service	
Pharmacy	All pharmacy benefits or services billed by a pharmacy on a pharmacy claim, which includes covered outpatient drugs (including Physician Administered Drugs), medical supplies, and enteral nutrition products. This also includes drugs currently "carved-out" of the managed care delivery system, (e.g., blood factor, HIV/AIDS, antipsychotics, and drugs used to treat substance use disorder), which are currently carved-in to some county operated health systems and AIDS Healthcare Foundation. This does not include any pharmacy benefits or services billed on medical and/or institutional claims.
Benefit Changes Effective January 1, 2022	
Benefits Currently Provided by Medi-Cal Managed Care Plans that will be Carved-Out to Fee-for-Service	
Specialty Mental Health Services	Currently full benefit in Partnership Solano (Kaiser members only) and Kaiser Sacramento
Multipurpose Senior Services Program	Currently full benefit in CCI counties (Los Angeles, Orange, San Bernardino, San Diego, San Mateo, Santa Clara, and Riverside)
Benefits to be Carved-In to Managed Care Statewide	
Major Organ Transplant	Currently full benefit in county operated health systems counties; non-county operated health systems counties currently only cover kidney transplants
Benefit Changes Effective January 1, 2023	
Benefits to be Carved-In to Managed Care Statewide	
Long Term Care	Long Term Care Umbrella • ICF-DD Disabled (excluding beneficiaries in an ICF-DD Waiver center), Disabled Habilitative, and Disabled Nursing • Pediatric Subacute Care Services • Skilled nursing facility • Specialized Rehabilitative Services in skilled nursing facility and ICF • Subacute Care Services Currently full benefit in county operated health systems and CCI counties (Los Angeles, Orange, San Bernardino, San Diego, San Mateo, Santa Clara, and Riverside); in non-county operated health systems/non-CCI counties, Medi-Cal managed care plans are responsible for the month of admission and the month following

D1999	Unspecified preventive procedure, by report (adult)	No	Yes

Appendix I: Enhanced Care Management Target Population Descriptions

Enhanced care management is designed for populations who have the highest levels of complex health care needs as well as social factors influencing their health. To be eligible for enhanced care management, members must meet criteria below in addition to any criteria specific to the respective enhanced care management population:

1. Have complex physical or behavioral health condition with inability to successfully self-manage AND
2. Limited activity or participation in social functioning as defined by at least one of the following:
    a. Establishing and managing relationships;
    b. Major life areas, including education, employment, finances, engaging in the community

Candidates for enhanced care management have an opportunity for improved health outcomes if they receive high-touch, in-person care management and are connected to a multidisciplinary team that manages physical health, behavioral health (substance use and/or mental health), oral health, developmental disabilities, and health-related non-clinical needs as well as any needed long-term services and supports.

Enhanced care management will be implemented in phases:

- January 1, 2022: All Medi-Cal managed care plans in counties with Whole Person Care pilots and/or Health Homes Programs will begin implementation of the enhanced care management benefit, for those target populations currently receiving Health Homes Program and/or Whole Person Care services.
- July 1, 2022:
    - Medi-Cal managed care plans in counties with Whole Person Care pilots and/or Health Homes Programs will implement additional mandatory enhanced care management target populations.
    - All Medi-Cal managed care plans in counties without Whole Person Care pilots and/or Health Homes Programs must begin implementation of select enhanced care management target populations.
- January 1, 2023: All Medi-Cal managed care plans in all counties must implement enhanced care management for all target populations.

Characteristics of ECM target populations are set forth below and detailed further in this document. Risk stratification is the responsibility of the Medi-Cal managed care plans,

Back to Item
Back to Agenda
Back to Agenda

which will determine member needs and apply criteria to determine eligibility and facilitate ECM services. Medi-Cal managed care plans may propose additional populations to receive ECM or propose expansions of criteria within populations. ECM target populations are subject to further refinement by DHCS.

Medi-Cal managed care plans may propose additional populations to receive enhanced care management, for example to allow the transition for members receiving services under a Whole Person Care pilot. At a minimum, Medi-Cal managed care plans must provide enhanced care management to the below list of mandatory target populations:[14]

- Children and youth with complex physical, behavioral, and/or developmental health needs (i.e. California Children Services, foster care, youth with Clinical High-Risk syndrome or first episode of psychosis).
- Individuals experiencing homelessness, chronic homelessness or who are at risk of becoming homeless.
- High utilizers with frequent hospital admissions, short-term skilled nursing facility stays, or emergency room visits.
- Individuals at risk for institutionalization, eligible for long-term care.
- Nursing facility residents who want to transition to the community.
- Individuals at risk for institutionalization with Serious Mental Illness (SMI), children and youth with Serious Emotional Disturbance (SED) or Substance Use Disorder (SUD).
- Individuals transitioning from incarceration who have significant complex physical or behavioral health needs requiring immediate transition of services to the community.

These target population descriptions are intended as guidance for Medi-Cal managed care plans. Managed care plans will determine criteria for population identification and stratification in accordance with this guidance.

Settings

For all populations, the role of enhanced care management is to coordinate all primary, acute, behavioral, developmental, oral, and long-term services and supports for the

[14] Individuals transitioning from incarceration must be included no later than 1/1/2023, except where such program already exists today through an existing WPC program, in which case this target group is mandatory as of 1/1/2022.

Back to Item
Back to Agenda
Back to Agenda

member, including participating in the care planning process, regardless of setting. This benefit is intended to provide primarily face-to-face services whenever possible.

Services should be offered where the members live, seek care or prefer to access services, essentially meeting the member (and, for children and youth, their family, caretaker or circle of support) where they are within the community. This may include different settings based on the target population. For example, for individuals experiencing homelessness, enhanced care management care managers may conduct street outreach or coordinate with shelters, hotels or motels including those participating in Project Homekey, homeless services providers, recuperative care providers, community partners (e.g., homeless coordinated entry systems) and other service providers to connect with target individuals in these settings. For individuals with SMI and/or SUDs, initial contact may be in settings such as psychiatric inpatient units, Institutions for Mental Disease (IMDs) or residential settings. Children and youth may receive services in a variety of community settings, including homes and schools, where appropriate. These are examples of how enhanced care management settings will reflect individualized needs of the target populations.

Risk Stratification

Enhanced care management is the highest tier of case management and is intended for members at the highest risk level who need long-term coordination for multiple chronic conditions, social determinants of health issues, and utilization of multiple service types and delivery systems. As part of their plan submitted to DHCS, Medi-Cal managed care plans will detail the algorithms, processes, and partnerships they will use to identify those individuals who have the highest levels of complex health care needs and social factors influencing their health, and who present the best opportunity for improved health outcomes through enhanced care management services.

Algorithms and data sources may vary by population. For example, some individuals may be identified using claims data and/or other health assessment information to identify multiple complex conditions or a history of utilization of high-cost services.

However, for a variety of reasons, claims data may be insufficient to identify other good candidates for enhanced care management. For some members, access to care issues and multiple social factors may limit the utility of claims data in identifying health risks. Therefore, managed care plans must also use data sources that capture social determinants of health as well as referrals. For individuals experiencing homelessness, data systems such as the Homeless Management Information System (HMIS) may be used. For individuals transitioning from incarceration, data sharing agreements with city and county jail systems to identify those at highest risk may be considered

Back to Item
Back to Agenda
Back to Agenda

For many populations, referrals and partnerships will be a critical method to identify enhanced care management candidates. Entities such as health care providers, community-based organizations, social services agencies, tribal partners, and local governments are important partners in identifying individuals who are at high risk of significant health care utilization and who would benefit from enhanced care management. Medi-Cal managed care plans are encouraged to partner with these entities to ensure enhanced care management benefits are highly coordinated with other service types. Medi-Cal managed care plans should also plan to establish clear protocols to receive and consider enhanced care management referrals from external entities.

Core Components of Enhanced Care Management Services

The types of supports and services provided through enhanced care management may vary based on the needs of the target populations. In the individual target population descriptions, this document describes examples of interventions that enhanced care management may support for each unique target population. However, core components of enhanced care management that are universal for all target populations include:

- Comprehensive Assessment and Care Management Plan:
    - Engage with Members authorized to receive the enhanced care management Benefit primarily through in person contact;
        - *When in-person communication is unavailable or does not meet the needs of the Member, use alternative methods to provide culturally appropriate and accessible communication.*
    - Develop a comprehensive, individualized, person-centered care plan by working with the Member, and as appropriate their chosen family/support persons, to assess strengths, risks, needs, goals, and preferences
    - Incorporate into the Member's care plan needs in the areas including, but not limited to physical and developmental health, mental health, SUD, community-based Long-Term Services and Supports (LTSS), oral health, palliative care, trauma-informed care, necessary community-based and social services, and housing;
    - Ensure the care plan is reassessed at a frequency appropriate for the Member's individual progress or changes in need.
- Enhanced Coordination of Care:
    - Organize patient care activities as laid out in the care plan, share information with the Member's key care team, and implement the Member's care plan;

Back to Item
Back to Agenda
Back to Agenda

- Be continuous and integrated among all service providers and refer to primary care/physical and developmental health, mental health, SUD treatment, community-based LTSS, oral health, palliative care, trauma-informed care, necessary community-based and social services, and, housing, as needed;
- Provide support for Member treatment adherence including coordination for medication review/reconciliation, scheduling appointments, providing appointment reminders, coordinating transportation, identifying barriers to adherence, ensuring continuous enrollment in Medi-Cal, and maintaining social services benefits, and accompaniment to key appointments;
- Communicate Members' needs and preferences timely to all members of the Members' care team in a manner that ensures safe, appropriate, and effective person-centered care;
- Be in regular contact with the Member, consistent with the care plan;

o Health Promotion:

- Work with Members to identify and build on resiliencies and potential family or community supports;
- Provide services to encourage and support Members to make lifestyle choices based on healthy behavior, with the goal of supporting Members' ability to successfully monitor and manage their health;
- Support the Member in strengthening skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

o Comprehensive Transitional Care

- Perform engagement activities that seek to reduce avoidable Member admissions and readmissions;
- For Members that are experiencing or are likely to experience a care transition:
  - Develop and regularly update a transition plan for the Member, and incorporate it into the Member's care plan;
  - Evaluate a Member's medical care needs and coordination of any support services to facilitate safe and appropriate transitions from and among treatment facilities, including admissions and discharges;

Back to Item
Back to Agenda
Back to Agenda

- Track each Member's admission or discharge to/from an emergency department, hospital inpatient facility, skilled nursing facility, residential/treatment facility, incarceration facility, or other treatment center and communicate with the appropriate care team members;
- Coordinate medication review/reconciliation; and
- Provide adherence support and referral to appropriate services.

- Member and Family Supports:
  - Document a Member's chosen caregiver or family/support person;
  - Include activities that ensure that the Member and chosen family/support persons, including as guardians and caregivers, are knowledgeable about the Member's condition(s) and care plan with the overall goal of improving the Member's care planning and follow-up, adherence to treatment, and medication management;
  - Serve as the primary point of contact for the Member and their chosen family/support persons;
  - Identify supports needed for the Member and chosen family/support persons to manage the Member's condition and direct them to access needed support services, including peer supports when applicable and available; and,
  - Provide for appropriate education of the Member, family members, guardians, and caregivers on care instructions for the Member.
- Coordination of and Referral to Community and Social Support Services:
  - Determine appropriate services to meet the needs of Members, including services that address social determinants of health needs, including housing, and services that are offered by managed care plan as an ILOS;
  - Coordinate and referring Members to available community resources and following up with Members to ensure services were rendered (i.e. "Closed loop referrals").

Target Populations

A description of each population is outlined below. Beneficiaries must be enrolled in Medi-Cal managed care to receive enhanced care management. In general, for all target populations, individuals who, after multiple outreach attempts, using different modalities, opt not to participate in enhanced care management services or whose assessment

Back to Item
Back to Agenda
Back to Agenda

(completed or confirmed by the managed care plan) indicates they would not benefit from the services, would not be good candidates for enhanced care management. The number of outreach attempts and approaches will vary based on the populations and individualized needs.

Enhanced care management is designed to provide support to individuals who require high levels of intensive interventions. Individuals who are receiving or who would benefit from other existing types of interventions (e.g., end of life care, standard case management, disease management or other care coordination efforts) would not be appropriate candidates for enhanced care management unless those interventions are not successful. Medi-Cal managed care plans and/or their subcontractors or contracted providers will evaluate individuals for enhanced care management and not all individuals will be good candidates. For example, individuals with the following circumstances may not be good candidates for enhanced care management:

- Individuals who have a well-treated chronic disease and are compliant with their care plan and have unavoidable or expected admissions due to the condition.
- Individuals who refuse to engage in any telephonic or face to face case management after multiple outreach attempts using different modalities.
- Individuals receiving services that the managed care plan determines to be duplicative of enhanced care management, such as 1915(c) Home and Community Based Services (HCBS) Waiver programs.

All Medi-Cal beneficiaries currently receiving care management through the Health Homes Program and Whole Person Care shall be transitioned to enhanced care management through one of the target populations listed and will be reassessed.

The populations eligible for enhanced care management are those with the highest needs who use multiple delivery systems and services, who need ongoing coordination across medical, behavioral and social needs, and who are part of the mandatory target populations described below. Note that some enhanced care management candidates will meet criteria for multiple target populations. Medi-Cal managed care plans will assign these individuals authorized to receive enhanced care management services to an enhanced care management provider that has appropriate competencies and experience for the needs of the beneficiary. For example, individuals with SMI or SUDs may also be homeless or high utilizers. These members may be assigned to an enhanced care management provider that has the necessary skills and experience to work with individuals with SMI and SUDs.

Back to Item
Back to Agenda
Back to Agenda

Children and Youth

Target Population:

Children and youth (up to age 21, or foster youth to age 26) with complex physical, behavioral, and/or developmental health needs, with significant functional limitations and social factors influencing their health outcomes (e.g., California Children Services, foster care, youth with Clinical High-Risk syndrome or first episode of psychosis).

For example:

- Children/Youth with complex health needs who are medically fragile or have multiple chronic conditions. This may include children with a history of trauma and children who are engaged or have history with the child welfare system. These children often access care across multiple service delivery systems and require significant coordination to ensure their needs are being met.

- Children/Youth with significant functional limitations and multiple social factors influencing their health outcomes.

Enhanced Care Management Services:

Enhanced care management can be used to assess gaps in both health care and social support needs and develop a care plan that addresses the whole health needs of the child. While Medi-Cal managed care plans may use claims data to identify good candidates, referrals will be an important mechanism to identify children and youth who would benefit from enhanced care management. Health care providers, the child welfare system, schools, community-based organizations, California Children's Services (CCS), county behavioral health, and social services agencies are examples of other important potential referral partners for children/youth. Medi-Cal managed care plans should establish a process for providers to refer for enhanced care management based on a needs assessment, behavioral health screens, other EPSDT screening, and/or ACE score which includes consideration of the community supports available for the children and their families and caretakers, as well as social factors impacting their health.

Services should be offered where the members live, seek care or where the family, caretaker, or circle of support prefers to access services, essentially meeting the member and family/caretaker/support where they are within the community. Activities may include coordination in school-based settings if permitted by the schools. Services should be offered by culturally and linguistically aligned trauma-informed providers.

For this population, enhanced care management services include (but are not limited to):

Back to Item
Back to Agenda
Back to Agenda

- Helping families, caretakers, and circles of support access resources such as information, coordination, and education about the child's conditions.
- Identifying coordinating, and providing (when appropriate) services that will help families, caretakers, and circles of support with the health needs of their children, which may include referrals for services those individuals need to enable them to support their children's health (e.g., referral to behavioral health, including SUD services, for a parent, or housing-related services for households experiencing homelessness, either of which could be critical to ensure the parent can support the health needs of the child).
- Referral to housing related services for youth experiencing homelessness.
- Coordination of services across various health, behavioral health, developmental disability, housing and social services providers, including facilitating cross-provider data- and information-sharing and member advocacy to ensure the child's whole person needs are met and needed services are accessible.
- Assistance with accessing respite care as needed.
- Referral to community and social services to address food insecurity and other social factors that may impact the child's health.
- Coordination of other services as required by EPSDT.
- Referral to community and social services to address food insecurity and other social factors that may impact the child's health

Back to Item
Back to Agenda
Back to Agenda

Homeless

Target Population:

Individuals experiencing homelessness or chronic homelessness, or who are at risk of experiencing homelessness (as defined below), with complex health and/or behavioral health needs, for whom coordination of services would likely result in improved health outcomes and decreased utilization of high-cost services.

For example:

- Individuals with complex health care needs as a result of medical, psychiatric or SUD-related conditions, who may also experience access to care issues (resulting in unmet needs or barriers to care) and multiple social factors influencing their health outcomes.
- Individuals with repeated incidents of avoidable justice involvement, emergency department use, psychiatric emergency services or hospitalizations.

Homeless: Individuals who meet the Housing and Urban Development (HUD) definition of homeless as defined in Section 91.5 of Title 24 of the Code of Federal Regulations (including those exiting institutions but not including any limits on the number of days in the institution). For the purpose of enhanced care management, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery residences, Institution for Mental Disease and State Hospitals.

Individuals who meet the definition of an individual experiencing chronic homelessness, either as defined:

A. In W&I Code section 14127(e) as “a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years.” The definition also includes “an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.

B. By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 (including those exiting institutions but not including any limits on the number of days in the institution) as:

Back to Agenda

1. A ‘‘homeless individual with a disability,’’ as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:

    i. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

    ii. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

2. An individual who has been residing in an institutional care facility, including a jail, substance use or mental health treatment facility, hospital, or other similar facility, and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

3. A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Individuals who meet the HUD definition of at risk of homelessness as defined in Section 91.5 of Title 24 of the Code of Federal Regulations as:

(1) An individual or family who:

(i) Has an annual income below 30 percent of median family income for the area, as determined by HUD;

(ii) Does not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in paragraph (1) of the “Homeless” definition in this section; and

(iii) Meets one of the following conditions:

Back to Item

Back to Agenda Back to Agenda

(A) Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;

(B) Is living in the home of another because of economic hardship;

(C) Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;

(D) Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;

(E) Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;

(F) Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or

(G) Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan;

(2) A child or youth who does not qualify as “homeless” under this section, but qualifies as “homeless” under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C. 254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or

(3) A child or youth who does not qualify as “homeless” under this section, but qualifies as “homeless” under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him.

Individuals who meet the State’s No Place Like Home definition for a person with SMI and/or SED “at risk of chronic homelessness,” which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth with

Back to Item
Back to Agenda
Back to Agenda

significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system.

Enhanced Care Management Services:

Individuals experiencing or at risk of homelessness are among the highest-need individuals in Medi-Cal. They often lack access to necessities such as food and shelter that are critical to attaining health. Individuals often have high medical needs that are difficult to manage due to the social factors that influence the individual's health. This often results in high utilization of costly services such as emergency departments and inpatient settings.

Engagement for this population may include street outreach or coordinating with shelters, homeless services providers, recuperative care providers, community partners (e.g., homeless coordinated entry systems) and other service providers to connect with target individuals.[15] As individuals are connected to resources, the enhanced care management care coordinator will meet the member in the community or at provider locations.

Enhanced care management can be used to link individuals with a variety of services to meet their complex needs. This includes (but is not limited to):

- Utilizing housing-related in-lieu-of services (ILOS) to identify housing and prepare individuals to for securing and/or maintaining stable housing.
- Coordinating short-term post-hospitalization housing and recuperative care services as appropriate.
- Regular contact with members to ensure there are not gaps in the activities designed to address an individual's health and social service needs, and swiftly addressing those gaps to ensure progress towards regaining health and function continues.
- Coordinating and collaborating with various health and social services providers, including Regional Centers, including sharing data (as appropriate) to facilitate better-coordinated whole person care.
- Supporting member treatment adherence including scheduling appointments, appointment reminders, coordinating transportation, ensuring connection to

[15] These same entities will be important referral partners to identify potential enhanced care management candidates

Back to Item
Back to Agenda
Back to Agenda

public benefits, identifying barriers to adherence, and accompanying members to appointments as needed.

- Addressing barriers to housing stability by connecting member to housing, health, and social support resources.
- Utilize best practices for Member who are experiencing homelessness and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care

Back to Item
Back to Agenda
Back to Agenda

High Utilizers

Target Population:

High utilizers are Members with multiple hospital admissions, OR multiple short-term skilled nursing facility stays, OR multiple emergency room visits that could be avoided with appropriate outpatient care or improved treatment adherence.

For example:

- Individuals that have impactable conditions or opportunities for interventions that have the potential to decrease inappropriate utilization or can be performed at an alternative location.
- Individuals with repeated incidents of avoidable emergency use, hospital admissions, or nursing facility placement. Individuals with multiple chronic or poorly managed conditions requiring intensive coordination, beyond telephonic intervention.
- Significant functional limitations and/or adverse social determinant of health that impede the ability of the individual to navigate their healthcare and other services.

Enhanced Care Management Services:

Enhanced care management will provide multiple opportunities to engage individuals by stratifying risk and need and developing care plans and strategic interventions to mitigate risk and help clients achieve improved health and well-being. Medi-Cal managed care plans will identify the algorithms they will use to identify individuals who are high utilizers of medical services. DHCS expects Medi-Cal managed care plans will rely on available healthcare research related to appropriate identification of high utilizers and will leverage the managed care plan utilization data to identify members that meet the respective criteria established by the managed care plans.

For this population enhanced care management may include, but is not limited to:

- Frequent follow up visits, culturally and linguistically appropriate education and care coordination activities to ensure the member's needs are being met where they are.
- Connection to culturally and linguistically appropriate community-based organizations, programs and resources that will meet the member's needs.
- Improving member engagement to improve adherence to the member's treatment plan, including through more culturally and linguistically aligned approaches toward member and provider education and tools on how to increase adherence.

Back to Item
Back to Agenda
Back to Agenda

- Medication review, reconciliation, assistance obtaining medications, and culturally and linguistically appropriate reinforcement with medication adherence.

Back to Item

Back to Agenda Back to Agenda

Risk for Institutionalization – Long Term Care

Target Population:

Individuals at risk for institutionalization, eligible for long-term care services. Medi-Cal beneficiaries who, in the absence of services and supports would otherwise require care for 90 consecutive days or more in an inpatient nursing facility (NF) would qualify.

Individuals must meet NF level of care criteria AND be able continue to live safely in the community with wrap around supports. \

Examples include, but are not limited to:

- Seniors and persons with disabilities who reside in the community but are at risk of being institutionalized.
- Individuals in need of increasing assistance with Activities of Daily Living (ADLs) and Instrumental Activities of Daily Living (IADLs).
- Possibly, individuals with changes to family or caregiver status.
- Possibly, individuals with medical or surgical setbacks resulting in a decrease in functional, cognitive, or psychological status.
- Possibly, individuals showing early signs of dementia with few or no natural supports.
- Possibly, individuals who are noncompliant with their prescribed medical regime.
- Possibly, individuals who are not appropriately engaged to take advantage of necessary health care services.
- Possibly, individuals who lack a family or community support system to assist in appropriate follow-up care at home.

Would not include:

- Individuals with complex needs but who are not at risk of institutionalization.

Enhanced Care Management Services:

Services include preventing skilled nursing admissions for individuals with an imminent need for nursing facility placement. For this population enhanced care management may include, but is not limited to:

Back to Item
Back to Agenda
Back to Agenda

- Assessment to determine natural supports available, risk factors, social determinants of health, and other factors to determine safety and feasibility of continued stay in the community. Assessments should be conducted face-to-face whenever possible.
- Connection to needed supportive services, including ILOS such as meals, environmental accessibility adaptations (home modifications), and personal care.
- Frequent follow up visits (including regular home visits), culturally and linguistically appropriate education and care coordination activities to ensure the member and family/caregiver needs are being met where they are.
- Connection to appropriate culturally and linguistically aligned community-based organizations, programs and resources that will meet the member's needs.
- Placement of wrap-around services to maintain the member in their current, community setting.
- Supporting member treatment adherence including scheduling appointments, appointment reminders, ensuring connection to public benefits, coordinating transportation, identifying barriers to adherence, and accompanying members to appointments as needed.

Back to Item
Back to Agenda
Back to Agenda

Nursing Facility Transition to Community

Target Population:

Individuals who are currently residing in a Nursing Facility (NF) but desire to return to living in the community. Transition from the NF to community is strictly voluntary. Individuals have the option to transition to the community when that can be done in a cost-effective manner. Individuals must be able to transition safely to the community.

Individuals must have an identified support network system and housing available to them. The support network system may consist of care providers, community-based organizations, family members, primary care physicians, home health agencies, members of the individual's medical team, licensed foster parent, or any other individual who is part of

the individual's circle of support. The individual's circle of support may consist of family members, legal representative/legally responsible adult, and any other person named by the individual.

Would not include:

- Individuals not interested in moving out of the institution.
- Individuals who are not medically appropriate to live in the community (high acuity).
- Individuals whose total projected costs outside the institution are greater than the cost of institutionalization.
- Individuals who do not have the supports to reside safely in the community.
- Individuals who would be at a high risk of re-institutionalization or experiencing homelessness.

Enhanced Care Management Services:

The care team will help individuals move safely between different care settings, such as entering or leaving a hospital or nursing facility and returning to their own home.

Services include facilitating nursing facility transition back into a homelike and community setting with the necessary wrap-around services, community supports, and natural supports when available.

Enhanced Care Manager care manager visits will occur face to face at the facility throughout the transition process. An in-person home visit will occur prior to the

Back to Item
Back to Agenda
Back to Agenda

individual's move to ensure the health and safety of the new residence. Post-transition individuals will then be visited in person at a determined schedule at their home or community placement.

Back to Item

Back to Agenda Back to Agenda

SMI, SED and SUD Individuals at Risk for Institutionalization

Target Population:

Individuals who are at risk for institutionalization who have co-occurring chronic health conditions and:

- Serious Mental Illness (SMI, adults);
- Serious Emotional Disturbance (SED, children, and youth); or
- Substance Use Disorder (SUD).

Potential candidates include:

- Individuals who have the highest levels of complex health care needs as a result of psychiatric or SUD-related conditions with co-occurring chronic health conditions, who may also experience access to care issues and have multiple social factors influencing their health outcomes and as a result of these factors are at risk for institutionalization.
- Individuals with repeated incidents of emergency department use, psychiatric emergency services, psychiatric inpatient hospitalizations, including stays at psychiatric health facilities, or short-term skilled nursing facility stays who could be served in community-based settings with supports.

Enhanced Care Manager Services:

For individuals with SMI or SUD, or children and youth with SED, enhanced care management will coordinate across the delivery systems through which members access care. For these individuals, Medi-Cal managed care plans may pursue contracts with county behavioral health systems to perform enhanced care management activities, but this must include coordination of all available services including medical care, behavioral health and long-term services and supports. When managed care plans do not contract with county behavioral health, enhanced care management service providers for this population should have experience and competency in working with individuals with SMI and SUDs as well as a plan to adequately coordinate enhanced care management and behavioral health services and supports across the managed care plan and county behavioral health. Initial engagement may be in treatment settings such as psychiatric inpatient units, IMDs or residential settings.

For children and youth with SED, activities may include coordination in school-based settings if permitted by the schools.

Enhanced care management can be used to link individuals with a variety of services to meet their complex needs. Medi-Cal managed care plans should closely coordinate these

Back to Item
Back to Agenda
Back to Agenda

enhanced care management services and supports with county behavioral health to avoid duplication and ensure adequate communication and care coordination. This includes (but is not limited to):

- Provide post-hospitalization or post-residential medical treatment care planning to connect individuals with the supports they need to avoid rehospitalization including identifying appropriate culturally and linguistically appropriate community placements. These services should be provided in close coordination with county behavioral health plans when the hospitalization or residential treatment occurs due to mental illness or substance use disorder.

- Regular culturally and linguistically appropriate contact with members to ensure there are not gaps in the activities designed to avoid institutionalization or hospitalization and swiftly addressing those gaps to ensure the individual can remain in the community placement.

- Utilizing housing related ILOS to identify housing and prepare individuals for securing and/or maintaining stable housing, if needed, and connecting to other social services to address social factors that influence the individual's health outcomes.

- Supporting the members' behavioral health recovery goals with related improvements in physical and oral health and long-term services and supports.

- Connecting families, caretakers, and circles of support to resources regarding the member's conditions to assist them with providing support for the member's health/behavioral health.

- Coordinating and collaborating with various health, behavioral health, developmental disability, and social services providers including sharing data (as appropriate).

- Supporting member treatment adherence including scheduling appointments, appointment reminders, coordinating transportation, ensuring connection to public benefits, identifying barriers to adherence, and accompanying members to appointments as needed

Back to Agenda
Back to Agenda

Individuals Transitioning from Incarceration[16]

Target Population:

Individuals transitioning from incarceration, including justice-involved juveniles who have significant complex physical or behavioral health needs requiring immediate transition of services to the community. A Medi-Cal managed care plan may stratify eligibility based on populations that have multiple incarcerations, other institutionalizations and/or high utilization. Individuals must have been released from incarceration with the last 12 months.

In addition, this population includes individuals who are involved in pre- or post-booking diversion behavioral health and criminogenic treatment programs and therefore are at risk for incarceration and who could, through care coordination and service placement, have a treatment plan designed to avoid incarceration through the use of community-based care and services.

Enhanced Care Management Services:

Some individuals transitioning from incarceration have significant health and behavioral health care needs that require ongoing treatment in the community post-release. Individuals often also experience significant social factors that impact their ability to successfully manage their health/behavioral health conditions, such as lack of safe and stable housing and unemployment. Upon transition back to the community, individuals are required to coordinate a significant number of basic life needs and as a result often experience care disruptions, which result in deterioration of their conditions and increased use of emergency departments and inpatient settings. For some individuals, unmet health care needs can increase their likelihood of returning to incarceration; diversion programs are designed to address these needs and avoid incarceration.

For this target population, enhanced care management requires coordination with the state prison system and local corrections departments, including probation, courts and the local county jail system to both to identify/refer members and also to ensure connections to care once individuals are released from incarceration. Upon release, all individuals receiving ongoing behavioral health treatment (including treatment for SUD) should be referred to county behavioral health programs and managed care plans on an as needed basis. Medi-Cal managed care plans and county behavioral health programs should coordinate closely to better serve clients that receive services from both entities. Therefore, the enhanced care management care managers will need to coordinate and

[16] This target population must be included no later than 1/1/2023, except where such program already exists today through an existing WPC program, in which case this target group is mandatory as of 1/1/2022.

Back to Item
Back to Agenda
Back to Agenda

collaborate closely with county behavioral health departments, and potentially also with Medi-Cal managed care plans, for those individuals.

The initial enhanced care management engagement locations will depend on the collaborations that Medi-Cal managed care plans are able to build with local justice partners. At first, enhanced care management staff will begin work with individuals expected to transition from incarceration in the setting where they are incarcerated (or just outside that setting), or in criminogenic treatment programs.[17] Post-transition, enhanced care management care managers will engage individuals in the most easily accessible setting for the member. In addition to community-based engagement such as a member's home or regular provider office, this may also include parole or probation offices if the managed care plan builds partnerships that allow for engagement in those offices.

Enhanced care management can be used to link individuals transitioning from incarceration (or in diversion programs) with a variety of services to meet their complex needs. This includes (but is not limited to):

- Coordination of an initial risk assessment to evaluate medical, psychiatric, substance use and social needs for which the individual requires assistance.
- Direct connections with community providers to ensure continuity of care for their conditions (especially for medications) and to address any health care needs not treated while they were incarcerated. This will also include peer mentorship to help provide positive social support.
- Utilizing housing related ILOS to identify housing and prepare individuals for securing and/or maintaining stable housing.
- Regular contact with members to ensure there are not gaps in the activities designed to address an individual's health and social service needs, and swiftly addressing those gaps to prevent reincarceration and ensure progress towards regaining health and function continues.
- Screening and providing referrals for various health, developmental disabilities, mental health, substance use disorder and social service needs.

[17] DHCS is looking to leverage H.R. 6 SUPPORT Act to begin providing enhanced care management for individuals exiting from incarceration with known medical and behavioral health needs 30 days prior to release. enhanced care management dollars will not be able to be used to provide services directly to justice involved members prior to release

Back to Item
Back to Agenda
Back to Agenda
Back to Agenda

- Coordinating and collaborating with various health, behavioral health, and social services providers as well as parole/probation including sharing data (as appropriate) to facilitate better-coordinated whole person care.
- Supporting member treatment adherence including scheduling appointments, appointment reminders, coordinating transportation, ensuring connection to public benefits, identifying barriers to adherence, and accompanying members to appointments as needed.
- Helping members set and monitor health goals to maintain or improve their health.
- Providing culturally and linguistically appropriate education to families, caretakers, and circles of support regarding the member's health care needs and available supports.
- Navigating members to other reentry support providers to address unmet needs.
- Facilitating benefits reinstatement.[18]

[18] To complement these efforts, DHCS is proposing to mandate that all counties implement a county inmate pre-release Medi-Cal application process by January 1, 2023 The enhanced care management care manager would also help facilitate accessing other benefits as needed by the member.

Appendix J: In Lieu of Services Options

Following is the proposed menu of in lieu of services that would be covered under the CalAIM initiative. ILOS are optional for both the plan to offer and the beneficiary to accept. Individuals do not have to be enrolled in Enhanced Care Management to be eligible for in lieu of services. ECM target populations/ILOS Service definitions are subject to further refinement by DHCS.

Each set of services is described in detail below:

- Housing Transition Navigation Services
- Housing Deposits
- Housing Tenancy and Sustaining Services
- Short-term Post-Hospitalization Housing
- Recuperative Care (Medical Respite)
- Respite Services
- Day Habilitation Programs
- Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly (RCFE) and Adult Residential Facilities (ARF)
- Community Transition Services/Nursing Facility Transition to a Home
- Personal Care and Homemaker Services
- Environmental Accessibility Adaptations (Home Modifications)
- Meals/Medically Tailored Meals
- Sobering Centers
- Asthma Remediation

Housing Transition Navigation Services

Description/Overview

Housing transition services assist beneficiaries with obtaining housing and include:

1. Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on the participant's housing needs, potential housing transition barriers, and identification of housing retention barriers.
2. Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short- and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medi-Cal, may be required to meet the goal.
3. Searching for housing and presenting options.
4. Assisting in securing housing, including the completion of housing applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
5. Assisting with benefits advocacy, including assistance with obtaining identification and documentation for SSI eligibility and supporting the SSI application process. Such service can be subcontracted out to retain needed specialized skillset.
6. Identifying and securing available resources to assist with subsidizing rent (such as Section 8, state and local assistance programs etc.) and matching available rental subsidy resources to members.
7. If included in the housing support plan, identifying and securing resources to cover expenses, such as security deposit, moving costs, adaptive aids, environmental modifications, moving costs, and other one-time expenses. [20]
8. Assisting with requests for reasonable accommodation, if necessary.
9. Landlord education and engagement
10. Ensuring that the living environment is safe and ready for move-in.
11. Communicating and advocating on behalf of the client with landlords.

[20] Actual payment of these housing deposits and move-in expenses is a separate in-lieu service under Housing Deposits.

Back to Item
Back to Agenda
Back to Agenda

12. Assisting in arranging for and supporting the details of the move.
13. Establishing procedures and contacts to retain housing, including developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.[21]
14. Identifying, coordinating, securing, or funding non-emergency, non-medical transportation to assist members' mobility to ensure reasonable accommodations and access to housing options prior to transition and on move in day.
15. Identifying, coordinating, environmental modifications to install necessary accommodations for accessibility.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require and access only a subset of the services listed above.

The services provided should utilize best practices for clients who are experiencing homelessness and who have complex health, disability, and/or behavioral health conditions. Examples of best practices include Housing First Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

The services may involve additional coordination with other entities to ensure the individual has access to supports needed for successful tenancy such as County Health, Public Health, Substance Use, Mental Health and Social Services Departments; County and City Housing Authorities; Continuums of Care and Coordinated Entry System; local legal service programs, community-based organizations housing providers, local housing agencies and housing development agencies. For clients who will need rental subsidy support to secure permanent housing, the services will require close coordination with local Coordinated Entry Systems, homeless services authorities, public housing authorities, and other operators of local rental subsidies. Some housing assistance (including recovery residences and emergency assistance or rental subsidies for Full Service Partnership clients) is also funded by county behavioral health agencies, and Medi-Cal managed care plans and their contracted ILOS providers should expect to coordinate access to these housing resources through county behavioral health when appropriate.

Services do not include the provision of room and board or payment of rental costs. Coordination with local entities is crucial to ensure that available options for room and board or rental payments are also coordinated with housing services and supports.

Eligibility (Population Subset)

[21] The services associated with the crisis plan are a separate in-lieu service under Housing Tenancy and Sustaining Services.

Back to Item
Back to Agenda
Back to Agenda

- Individuals who are prioritized for a permanent supportive housing unit or rental subsidy resource through the local homeless Coordinated Entry System or similar system designed to use information to identify highly vulnerable individuals with disabilities and/or one or more serious chronic conditions and/or serious mental illness, institutionalization or requiring residential services as a result of a substance use disorder and/or is exiting incarceration; or
- Individuals who meet the Housing and Urban Development (HUD) definition of homeless as defined in Section 91.5 of Title 24 of the Code of Federal Regulations (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management, or who have one or more serious chronic conditions and/or serious mental illness and/or is at risk of institutionalization or requiring residential services as a result of a substance use disorder. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery residences, Institution for Mental Disease and State Hospitals; or
- Individuals who meet the definition of an individual experiencing chronic homelessness, either as defined:
    - In W&I Code section 14127(e) as “a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years.” The definition also includes “an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.
    - By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 (including those exiting institutions but not including any limits on the number of days in the institution) as:
        - A ‘‘homeless individual with a disability,’’ as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
            a. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
            b. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months

Back to Item
Back to Agenda
Back to Agenda

or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility; or

- An individual who has been residing in an institutional care facility, including a jail, substance use or mental health treatment facility, hospital, or other similar facility, and met all of the criteria in paragraph (1) of this definition, before entering that facility; or
- A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless; or

- Individuals who meet the HUD definition of at risk of homelessness as defined in Section 91.5 of Title 24 of the Code of Federal Regulations as:
    - (1) An individual or family who:
        - Has an annual income below 30 percent of median family income for the area, as determined by HUD;
        - Does not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in paragraph (1) of the "Homeless" definition in this section; and
            - Meets one of the following conditions:
                - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
                - Is living in the home of another because of economic hardship;
                - Has been notified in writing that their right to occupy their current housing or living situation will be

Back to Item
Back to Agenda
Back to Agenda

terminated within 21 days after the date of application for assistance;
- Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;
- Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;
- Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
- Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan;

  - (2) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C. 254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or
  - (3) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him; or

- Individuals who are determined to be at risk of experiencing homelessness are eligible to receive Housing Transition Navigation services if they have significant barriers to housing stability and meet at least one of the following:
  - Have one or more serious chronic conditions;
  - Have a Serious Mental Illness;
  - Are at risk of institutionalization or overdose or are requiring residential services because of a substance use disorder
  - Have a Serious Emotional Disturbance (children and adolescents);
  - Are receiving Enhanced Care Management; or
  - Are a Transition-Age Youth with significant barriers to housing stability, such as one or more convictions, a history of foster care, involvement with the juvenile justice or criminal justice system, and/or have a serious mental illness and/or a child or adolescent with serious emotional disturbance and/or who have been victims of trafficking, or

Back to Item
Back to Agenda
Back to Agenda

- Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness", which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system.

Restrictions and Limitations

In lieu of services are alternative services covered under the Medi-Cal State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and cost-effective substitutes or settings for the State Plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services are authorized and identified in the managed care plan contracts.

Housing Transition/Navigation services must be identified as reasonable and necessary in the individual's individualized housing support plan.

Individuals may not be receiving duplicative support from other State, local tax or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services in a culturally and linguistically appropriate manner. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

Providers must have demonstrated experience with providing housing-related services and supports and may include providers such as:

- Vocational services agencies;
- Providers of services for individuals experiencing homelessness;
- Life skills training and education providers;
- County agencies;
- Public hospital systems;
- Mental health or substance use disorder treatment providers, including county behavioral health agencies;
- Social services agencies;

Back to Item
Back to Agenda
Back to Agenda

- Affordable housing providers;
- Supportive housing providers; and
- Federally qualified health centers and rural health clinics.

Medi-Cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program (See Credentialing/Recredentialing and Screening/Enrollment APL 19-004) if an enrollment pathway exists, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, Medi-Cal managed care plans must credential the providers as required by DHCS.

Clients who meet the eligibility requirements for Housing Transition/Navigation services should also be assessed for enhanced care management and Housing and Tenancy Support Services (if provided in their county). When enrolled in enhanced care management, in lieu of services should be managed in coordination with enhanced care management providers. When clients receive more than one of these services, the managed care plan should ensure it is coordinated by an enhanced care management provider whenever possible to minimize the number of care/case management transitions experienced by clients and to improve overall care coordination and management.[22]

If the Medi-Cal managed care plan case manager, care coordinator or housing navigator is providing the service, that individual must have demonstrated experience working with individuals experiencing homelessness or with the provision of housing-related services and supports to vulnerable populations.

State Plan Service(s) To Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient Hospital services, emergency department services, emergency transport services, and skilled nursing facility services.

[22] One exception to this is for benefits advocacy, which may require providers with a specialized skill set.

Housing Deposits

Description/Overview

Housing Deposits assist with identifying, coordinating, securing, or funding one-time services and modifications necessary to enable a person to establish a basic household that do not constitute room and board, such as:

1. Security deposits required to obtain a lease on an apartment or home.
2. Set-up fees/deposits for utilities or service access and utility arrearages.
3. First month coverage of utilities, including but not limited to telephone, gas, electricity, heating, and water.
4. First month's and last month's rent as required by landlord for occupancy.
5. Services necessary for the individual's health and safety, such as pest eradication and one-time cleaning prior to occupancy.
6. Goods such as an air conditioner or heater, and other medically-necessary adaptive aids and services, designed to preserve an individuals' health and safety in the home such as hospital beds, Hoyer lifts, air filters, specialized cleaning or pest control supplies etc., that are necessary to ensure access and safety for the individual upon move-in to the home.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require, and access only a subset of the services listed above.

The services provided should utilize best practices for clients who are experiencing homelessness and who have complex health, disability, and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Services do not include the provision of room and board or payment of ongoing rental costs beyond the first and last month's coverage as noted above.

Eligibility (Population Subset)

- Any individual who received Housing Transition/Navigation Services ILOS in counties that offer Housing Transition/Navigation Services.
- Individuals who are prioritized for a permanent supportive housing unit or rental subsidy resource through the local homeless Coordinated Entry System or similar system designed to use information to identify highly vulnerable individuals with

Back to Item
Back to Agenda
Back to Agenda

disabilities and/or one or more serious chronic conditions and/or serious mental illness, institutionalization or requiring residential services as a result of a substance use disorder and/or is exiting incarceration; or

- Individuals who meet the Housing and Urban Development (HUD) definition of homeless as defined in Section 91.5 of Title 24 of the Code of Federal Regulations (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management, or who have one or more serious chronic conditions and/or serious mental illness and/or is at risk of institutionalization or requiring residential services as a result of a substance use disorder. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery residences, Institution for Mental Disease and State Hospitals; or

- Individuals who meet the definition of an individual experiencing chronic homelessness, either as defined:
    - In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.
    - By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 (including those exiting institutions but not including any limits on the number of days in the institution) as:
        - A ''homeless individual with a disability,'' as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
            c. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
            d. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions

Back to Item
Back to Agenda
Back to Agenda

included at least 7 consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility; or

- An individual who has been residing in an institutional care facility, including a jail, substance use or mental health treatment facility, hospital, or other similar facility, and met all of the criteria in paragraph (1) of this definition, before entering that facility; or
- A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless; or

- Individuals who meet the HUD definition of at risk of homelessness as defined in Section 91.5 of Title 24 of the Code of Federal Regulations as:
    - (1) An individual or family who:
        - Has an annual income below 30 percent of median family income for the area, as determined by HUD;
        - Does not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in paragraph (1) of the “Homeless” definition in this section; and
            - Meets one of the following conditions:
                - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
                - Is living in the home of another because of economic hardship;
                - Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;

Back to Item
Back to Agenda
Back to Agenda

        - Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;
        - Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;
        - Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
        - Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan;
    - (2) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C. 254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or
    - (3) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him; or
- Individuals who are determined to be at risk of experiencing homelessness are eligible to receive Housing Transition Navigation services if they have significant barriers to housing stability and meet at least one of the following:
    - Have one or more serious chronic conditions;
    - Have a Serious Mental Illness;
    - Are at risk of institutionalization or overdose or are requiring residential services because of a substance use disorder
    - Have a Serious Emotional Disturbance (children and adolescents);
    - Are receiving Enhanced Care Management; or
    - Are a Transition-Age Youth with significant barriers to housing stability, such as one or more convictions, a history of foster care, involvement with the juvenile justice or criminal justice system, and/or have a serious mental illness and/or a child or adolescent with serious emotional disturbance and/or who have been victims of trafficking, or

Back to Agenda
Back to Agenda

- Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness", which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system.

Restrictions and Limitations

In lieu of services are alternative services covered under the State plan but are delivered by a different provider or in a different setting than is described in the State plan. In lieu of service can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of service and 3) the in lieu of service is authorized and identified in the Medi-Cal managed care plan contracts.

Housing Deposits are available once in an individual's lifetime. Housing Deposits can only be approved one additional time with documentation as to what conditions have changed to demonstrate why providing Housing Deposits would be more successful on the second attempt. Plans are expected to make a good faith effort to review information available to them to determine if individual has previously received services.

These services must be identified as reasonable and necessary in the individual's individualized housing support plan and are available only when the enrollee is unable to meet such expense.

Individuals must also receive Housing Transition/Navigation services (at a minimum, the associated tenant screening, housing assessment and individualized housing support plan) in conjunction with this service.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing and Allowable Providers

Providers must have experience and expertise with providing these unique services in a culturally and linguistically appropriate manner. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

The entity that is coordinating an individual's Housing Transition Navigation Services, or the Medi-Cal managed care plan case manager, care coordinator or housing navigator may coordinate these services and pay for them directly (e.g., to the landlord, utility company, pest control company, etc.) or subcontract the services.

Housing Tenancy and Sustaining Services

Description/Overview

This service provides tenancy and sustaining services, with a goal of maintaining safe and stable tenancy once housing is secured.

Services include:

1. Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment, hoarding, substance use, and other lease violations.
2. Education and training on the role, rights and responsibilities of the tenant and landlord.
3. Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy.
4. Coordination with the landlord and case management provider to address identified issues that could impact housing stability.
5. Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action including developing a repayment plan or identifying funding in situations in which the client owes back rent or payment for damage to the unit.
6. Advocacy and linkage with community resources to prevent eviction when housing is or may potentially become jeopardized.
7. Assisting with benefits advocacy, including assistance with obtaining identification and documentation for SSI eligibility and supporting the SSI application process. Such service can be subcontracted out to retain needed specialized skillset.
8. Assistance with the annual housing recertification process.
9. Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers.
10. Continuing assistance with lease compliance, including ongoing support with activities related to household management.
11. Health and safety visits, including unit habitability inspections.
12. Other prevention and early intervention services identified in the crisis plan that are activated when housing is jeopardized (e.g., assisting with reasonable accommodation requests that were not initially required upon move-in).

13. Providing independent living and life skills including assistance with and training on budgeting, including financial literacy and connection to community resources.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require and access only a subset of the services listed above.

The services provided should utilize best practices for clients who are experiencing homelessness and who have complex health, disability, and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

The services may involve coordination with other entities to ensure the individual has access to supports needed to maintain successful tenancy.

Services do not include the provision of room and board or payment of rental costs. Please see housing deposits ILOS.

Eligibility (Population Subset)

- Any individual who received Housing Transition/Navigation Services ILOS in counties that offer Housing Transition/Navigation Services.
- Individuals who are prioritized for a permanent supportive housing unit or rental subsidy resource through the local homeless Coordinated Entry System or similar system designed to use information to identify highly vulnerable individuals with disabilities and/or one or more serious chronic conditions and/or serious mental illness, institutionalization or requiring residential services as a result of a substance use disorder and/or is exiting incarceration; or
- Individuals who meet the Housing and Urban Development (HUD) definition of homeless as defined in Section 91.5 of Title 24 of the Code of Federal Regulations (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management, or who have one or more serious chronic conditions and/or serious mental illness and/or is at risk of institutionalization or requiring residential services as a result of a substance use disorder. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery residences, Institution for Mental Disease and State Hospitals; or
- Individuals who meet the definition of an individual experiencing chronic homelessness, either as defined:

Back to Item
Back to Agenda
Back to Agenda

- In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.
- By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 (including those exiting institutions but not including any limits on the number of days in the institution) as:
    - A ''homeless individual with a disability,'' as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
        e. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
        f. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility; or
    - An individual who has been residing in an institutional care facility, including a jail, substance use or mental health treatment facility, hospital, or other similar facility, and met all of the criteria in paragraph (1) of this definition, before entering that facility; or
    - A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose

Back to Item

Back to Agenda

composition has fluctuated while the head of household has been homeless; or

- Individuals who meet the HUD definition of at risk of homelessness as defined in Section 91.5 of Title 24 of the Code of Federal Regulations as:
    - (1) An individual or family who:
        - Has an annual income below 30 percent of median family income for the area, as determined by HUD;
        - Does not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in paragraph (1) of the "Homeless" definition in this section; and
            - Meets one of the following conditions:
                - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
                - Is living in the home of another because of economic hardship;
                - Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;
        - Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;
        - Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;
        - Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
        - Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan;
    - (2) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C.

254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or

- (3) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him; or

- Individuals who are determined to be at risk of experiencing homelessness are eligible to receive Housing Transition Navigation services if they have significant barriers to housing stability and meet at least one of the following:
  - Have one or more serious chronic conditions;
  - Have a Serious Mental Illness;
  - Are at risk of institutionalization or overdose or are requiring residential services because of a substance use disorder
  - Have a Serious Emotional Disturbance (children and adolescents);
  - Are receiving Enhanced Care Management; or
  - Are a Transition-Age Youth with significant barriers to housing stability, such as one or more convictions, a history of foster care, involvement with the juvenile justice or criminal justice system, and/or have a serious mental illness and/or a child or adolescent with serious emotional disturbance and/or who have been victims of trafficking, or

- Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness", which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically appropriate and cost-effective substitutes or settings for the State Plan service 2) beneficiaries are not required to use the in lieu of services, and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

These services are available from the initiation of services through the time when the individual's housing support plan determines they are no longer needed. They are only available for a single duration in the individual's lifetime. Housing Tenancy and Sustaining Services can only be approved one additional time with documentation as to what

Back to Item
Back to Agenda
Back to Agenda

conditions have changed to demonstrate why providing Housing Tenancy and Sustaining Services would be more successful on the second attempt. Plans are expected to make a good faith effort to review information available to them to determine if individual has previously received services.

These services must be identified as reasonable and necessary in the individual's individualized housing support plan and are available only when the enrollee is unable to successfully maintain longer-term housing without such assistance.

Many individuals will have also received Housing Transition/Navigation services (at a minimum, the associated tenant screening, housing assessment and individualized housing support plan) in conjunction with this service but it is not a requirement.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services in a culturally and linguistically appropriate manner. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

Providers must have demonstrated or verifiable experience or expertise with providing housing-related services and supports and may include providers such as:

- Vocational services agencies
- Providers of services for individuals experiencing homelessness
- Life skills training and education providers
- County agencies
- Public hospital systems
- Mental health or substance use disorder treatment providers, including county behavioral health agencies
- Supportive housing providers
- Federally qualified health centers and rural health clinics

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established

Short-term Post-Hospitalization Housing

Description/Overview

Short-Term Post-Hospitalization housing provides beneficiaries who do not have a residence and who have high medical or behavioral health needs with the opportunity to continue their medical/psychiatric/substance use disorder recovery immediately after exiting an inpatient hospital (either acute or psychiatric or Chemical Dependency and Recovery hospital), residential substance use disorder treatment or recovery facility, residential mental health treatment facility, correctional facility, nursing facility, or recuperative care.[23]

This setting provides individuals with ongoing supports necessary for recuperation and recovery such as gaining (or regaining) the ability to perform activities of daily living, receiving necessary medical/psychiatric/substance use disorder care, case management and beginning to access other housing supports such as Housing Transition Navigation.[24]

This setting may include an individual or shared interim housing setting, where residents receive the services described above.

Beneficiaries must be offered Housing Transition Navigation supports during the period of Short-Term Post-Hospitalization housing to prepare them for transition from this setting. These services should include a housing assessment and the development of individualized housing support plan to identify preferences and barriers related to successful housing tenancy after Short-Term Post-Hospitalization housing.[25]

The services provided should utilize best practices for clients who are experiencing homelessness and who have complex health, disability, and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

- Individuals exiting recuperative care.
- Individuals exiting an inpatient hospital stay (either acute or psychiatric or Chemical Dependency and Recovery hospital), residential substance use disorder

[23] Up to 90 days of recuperative care is available under specified circumstances as a separate in-lieu service.
[24] Housing Transition/Navigation is a separate in-lieu service.
[25] The development of a housing assessment and individualized support plan are covered as a separate in-lieu service under Housing Transition/Navigation Services.

treatment or recovery facility, residential mental health treatment facility, correctional facility, or nursing facility and who meet any of the following criteria:

- Individuals who meet the Housing and Urban Development (HUD) definition of homeless as defined in Section 91.5 of Title 24 of the Code of Federal Regulations (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management, or who have one or more serious chronic conditions and/or serious mental illness and/or is at risk of institutionalization or requiring residential services as a result of a substance use disorder. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery residences, Institution for Mental Disease and State Hospitals; or

- Individuals who meet the definition of an individual experiencing chronic homelessness, either as defined:
    - In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.
    - By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 (including those exiting institutions but not including any limits on the number of days in the institution) as:
        - A ''homeless individual with a disability,'' as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
            g. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

            h. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as

Back to Item

Back to Agenda

described in paragraph (1) (i). Stays in institutional care facilities will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility; or

- An individual who has been residing in an institutional care facility, including a jail, substance use or mental health treatment facility, hospital, or other similar facility, and met all of the criteria in paragraph (1) of this definition, before entering that facility; or
- A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless; or

- Individuals who meet the HUD definition of at risk of homelessness as defined in Section 91.5 of Title 24 of the Code of Federal Regulations as:
    - (1) An individual or family who:
        - Has an annual income below 30 percent of median family income for the area, as determined by HUD;
        - Does not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in paragraph (1) of the “Homeless” definition in this section; and
            - Meets one of the following conditions:
                - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
                - Is living in the home of another because of economic hardship;
                - Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;
        - Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;

Back to Item
Back to Agenda
Back to Agenda

        - Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;
        - Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
        - Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan;
    - (2) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C. 254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or
    - (3) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him; or
- Individuals who are determined to be at risk of experiencing homelessness are eligible to receive Housing Transition Navigation services if they have significant barriers to housing stability and meet at least one of the following:
    - Have one or more serious chronic conditions;
    - Have a Serious Mental Illness;
    - Are at risk of institutionalization or overdose or are requiring residential services because of a substance use disorder
    - Have a Serious Emotional Disturbance (children and adolescents);
    - Are receiving Enhanced Care Management; or
    - Are a Transition-Age Youth with significant barriers to housing stability, such as one or more convictions, a history of foster care, involvement with the juvenile justice or criminal justice system, and/or have a serious mental illness and/or a child or adolescent with serious emotional disturbance and/or who have been victims of trafficking, or
- Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness", which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth with significant

Back to Agenda
Back to Agenda

barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system.

In addition to meeting one of these criteria at a minimum, individuals must have medical/behavioral health needs such that experiencing homelessness upon discharge from the hospital, substance use or mental health treatment facility, correctional facility, nursing facility, or recuperative care would likely result in hospitalization, re-hospitalization, or institutional readmission.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Short-Term Post-Hospitalization services are available once in an individual's lifetime and are limited and are not to exceed a duration of six (6) months per episode (but may be authorized for a shorter period based on individual needs). Plans are expected to make a good faith effort to review information available to them to determine if individual has previously received services.

The service is only available if enrollee is unable to meet such an expense.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. The below list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with but is not an exhaustive list of providers who may offer the services.

- Interim housing facilities with additional on-site support
- Shelter beds with additional on-site support
- Converted homes with additional on-site support
- County directly operated or contracted recuperative care facilities
- Supportive Housing providers
- County agencies
- Public Hospital Systems

Back to Item
Back to Agenda
Back to Agenda

- Social service agencies
- Providers of services for individuals experiencing homelessness

Facilities may be unlicensed. Medi-Cal managed care plans must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Managed care plans can adopt or adapt local or national standards for short-term post-hospitalization housing. Medi-Cal managed care plans shall monitor the provision of all the services included above.

Managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) To Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient hospital services, emergency department services, emergency transport services, skilled nursing facility services.

Recuperative Care (Medical Respite)

Description/Overview

Recuperative care, also referred to as medical respite care, is short-term residential care for individuals who no longer require hospitalization, but still need to heal from an injury or illness (including behavioral health conditions) and whose condition would be exacerbated by an unstable living environment. It allows individuals to continue their recovery and receive post-discharge treatment while obtaining access to primary care, behavioral health services, case management and other supportive social services, such as transportation, food, and housing.

At a minimum, the service will include interim housing with a bed and meals and ongoing monitoring of the individual's ongoing medical or behavioral health condition (e.g., monitoring of vital signs, assessments, wound care, medication monitoring). Based on individual needs, the service may also include:

1. Limited or short-term assistance with Instrumental Activities of Daily Living &/or ADLs
2. Coordination of transportation to post-discharge appointments
3. Connection to any other on-going services an individual may require including mental health and substance use disorder services
4. Support in accessing benefits and housing
5. Gaining stability with case management relationships and programs

Recuperative care is primarily used for those individuals who are experiencing homelessness or those with unstable living situations who are too ill or frail to recover from an illness (physical or behavioral health) or injury in their usual living environment; but are not otherwise ill enough to be in a hospital.

The services provided to an individual while in recuperative care should not replace or be duplicative of the services provided to members utilizing the enhanced care management program. Recuperative Care may be utilized in conjunction with other housing in lieu of services. Whenever possible, other housing in lieu of services should be provided to members onsite in the recuperative care facility. When enrolled in enhanced care management, in lieu of services should be managed in coordination with enhanced care management providers.

The services provided should utilize best practices for clients who are experiencing homelessness and who have complex health, disability, and/or behavioral health

Back to Item

Back to Agenda

conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

- Individuals who are at risk of hospitalization or are post-hospitalization, and
- Individuals who live alone with no formal supports; or
- Individuals who face housing insecurity or have housing that would jeopardize their health and safety without modification. [26]

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Recuperative care/medical respite is an allowable in lieu of services service if it is 1) necessary to achieve or maintain medical stability and prevent hospital admission or re-admission, which may require behavioral health interventions, 2) not more than 90 days in continuous duration, and 3) does not include funding for building modification or building rehabilitation.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Interim housing facilities with additional on-site support
- Shelter beds with additional on-site support
- Converted homes with additional on-site support

[26] For this population, the service could be coordinated with home modifications (which are covered as a separate in lieu service) and serve as a temporary placement until the individual can safely return home

Respite Services

Description/Overview

Respite services are provided to caregivers of participants who require intermittent temporary supervision. The services are provided on a short-term basis because of the absence or need for relief of those persons who normally care for and/or supervise them and are non-medical in nature. This service is distinct from medical respite/recuperative care and is rest for the caregiver only.

Respite services can include any of the following:

1. Services provided by the hour on an episodic basis because of the absence of or need for relief for those persons normally providing the care to individuals.
2. Services provided by the day/overnight on a short-term basis because of the absence of or need for relief for those persons normally providing the care to individuals.
3. Services that attend to the participant's basic self-help needs and other activities of daily living, including interaction, socialization and continuation of usual daily routines that would ordinarily be performed by those persons who normally care for and/or supervise them.

The Home Respite services are provided to the participant in his or her own home or another location being used as the home.

The Facility Respite services are provided in an approved out-of-home location.

Respite should be made available when it is useful and necessary to maintain a person in their own home and to preempt caregiver burnout to avoid institutional services for which the Medi-Cal managed care plan is responsible.

Eligibility (Population Subset)

Individuals who live in the community and are compromised in their Activities of Daily Living (ADLs) and are therefore dependent upon a qualified caregiver who provides most of their support, and who require caregiver relief to avoid institutional placement.

Other subsets may include children who previously were covered for Respite Services under the Pediatrics Palliative Care Waiver, foster care program beneficiaries, beneficiaries enrolled in California Children's Services, and Genetically Handicapped Persons Program (GHPP), and Clients with Complex Care Needs.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of service can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of service and 3) the in lieu of service is authorized and identified in the Medi-Cal managed care plan contracts.

In the home setting, these services, in combination with any direct care services the member is receiving, may not exceed 24 hours per day of care.

Service limit is up to 336 hours per calendar year. The service is inclusive of all in-home and in-facility services. Exceptions to the 336 hour per calendar year limit can be made, with Medi-Cal managed care plan authorization, when the caregiver experiences an episode, including medical treatment and hospitalization that leaves a Medicaid member without their caregiver. Respite support provided during these episodes can be excluded from the 336-hour annual limit.

This service is only to avoid placements for which the Medi-Cal managed care plan would be responsible.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Home health or respite agencies to provide services in:
  - Private residence
  - Residential facility approved by the State, such as, Congregate Living Health Facilities (CLHFs)
  - Providers contracted by county behavioral health

Other community settings that are not a private residence, such as:

- Adult Family Home/Family Teaching Home
- Certified Family Homes for Children

Back to Item
Back to Agenda
Back to Agenda

- Residential Care Facility for the Elderly (RCFE)
- Child Day Care Facility; Child Day Care Center; Family Child Care Home
- Respite Facility; Residential Facility: Small Family Homes (Children Only)
- Respite Facility; Residential Facility: Foster Family Agency (FFA)-Certified Family Homes (Children Only)
- Respite Facility; Residential Facility: Adult Residential Facilities (ARF)
- Respite Facility; Residential Facility: Group Homes (Children Only)
- Respite Facility; Residential Facility: Family Home Agency (FHA): Adult Family Home (AFH)/Family Teaching Home (FTH)
- Respite Facility; Residential Facility: Adult Residential Facility for Persons with Special Health Care Needs
- Respite Facility; Residential Facility: Foster Family Homes (FFHs) (Children Only)

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Day Habilitation Programs

Description/Overview

Day Habilitation Programs are provided in a participant's home or an out-of-home, non-facility setting. The programs are designed to assist the participant in acquiring, retaining, and improving self-help, socialization, and adaptive skills necessary to reside successfully in the person's natural environment. The services are often considered as peer mentoring when provided by an unlicensed caregiver with the necessary training and supervision. For individuals experiencing homelessness who are receiving enhanced care management or other in lieu of services, the day habilitation program can provide a physical location for participants to meet with and engage with these providers. When possible, these services should be provided by the same entity to minimize the number of care/case management transitions experienced by clients and to improve overall care coordination and management.

Day habilitation program services include, but are not limited to, training on:

1. The use of public transportation;
2. Personal skills development in conflict resolution;
3. Community participation;
4. Developing and maintaining interpersonal relationships;
5. Daily living skills (cooking, cleaning, shopping, money management); and,
6. Community resource awareness such as police, fire, or local services to support independence in the community.

Programs may include assistance with, but not limited to:

1. Selecting and moving into a home; [27]
2. Locating and choosing suitable housemates;
3. Locating household furnishings;
4. Settling disputes with landlords; [28]
5. Managing personal financial affairs;

[27] Refer to the Housing Transition/Navigation Services In Lieu of Services

6. Recruiting, screening, hiring, training, supervising, and dismissing personal attendants;
7. Dealing with and responding appropriately to governmental agencies and personnel;
8. Asserting civil and statutory rights through self-advocacy;
9. Building and maintaining interpersonal relationships, including a circle of support;
10. Coordination with Medi-Cal managed care plan to link participant to any in lieu of services and/or enhanced care management services for which the client may be eligible;
11. Referral to non-in lieu of services housing resources if participant does not meet Housing Transition/Navigation Services in lieu of services eligibility criteria;
12. Assistance with income and benefits advocacy including General Assistance/General Relief and SSI if client is not receiving these services through in lieu of services or enhanced care management; and
13. Coordination with Medi-Cal managed care plan to link participant to health care, mental health services, and substance use disorder services based on the individual needs of the participant for participants who are not receiving this linkage through in lieu of services or enhanced care management.

The services provided should utilize best practices for clients who are experiencing homelessness or formerly experienced homelessness including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

Individuals who are experiencing homelessness, individuals who exited homelessness and entered housing in the last 24 months, and individuals at risk of homelessness or institutionalization whose housing stability could be improved through participation in a day habilitation program.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly and Adult Residential Facilities

DESCRIPTION/OVERVIEW

Nursing Facility Transition/Diversion services assist individuals to live in the community and/or avoid institutionalization when possible.

The goal is to both facilitate nursing facility transition back into a home-like, community setting and/or prevent skilled nursing admissions for beneficiaries with an imminent need for nursing facility level of care (LOC). Individuals have a choice of residing in an assisted living setting as an alternative to long-term placement in a nursing facility when they meet eligibility requirements.

The assisted living provider is responsible for meeting the needs of the participant, including Activities of Daily Living (ADLs), Instrumental ADLs (IADLs), meals, transportation, and medication administration, as needed.

For individuals who are transitioning from a licensed health care facility to a living arrangement in a Residential Care Facilities for Elderly (RCFE) and Adult Residential Facilities (ARF); includes non-room and board costs (medical, assistance w/ ADLs.). Allowable expenses are those necessary to enable a person to establish a community facility residence that does not include room and board and includes:

1. Assessing the participant's housing needs and presenting options.[29]
2. Assessing the service needs of the participant to determine if the participant needs enhanced onsite services at the RCFE/ARF so the client can be safely and stably housed in an RCFE/ARF.
3. Assisting in securing a facility residence, including the completion of facility applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
4. Communicating with facility administration and coordinating the move.
5. Establishing procedures and contacts to retain facility housing.
6. Coordinating with the Medi-Cal managed care plan to ensure that the needs of participants who need enhanced services to be safely and stably housed in RCFE/ARF settings have in lieu of services and/or enhanced care management services that provide the necessary enhanced services or fund RCFE/ARF operator directly to provide enhanced services.

[29] Refer to Housing Transition/Navigation Services In Lieu of Services for additional details.

Eligibility (Population Subset)

A. For Nursing Facility Transition:
   1. Has resided 60+ days in a nursing facility;
   2. Willing to live in an assisted living setting as an alternative to a Nursing Facility; and
   3. Able to reside safely in an assisted living facility with appropriate and cost-effective supports.

B. For Nursing Facility Diversion:
   1. Interested in remaining in the community;
   2. Willing and able to reside safely in an assisted living facility with appropriate and cost-effective supports and services; and
   3. Must be currently receiving medically necessary nursing facility LOC or meet the minimum criteria to receive NF LOC services and in lieu of going into a facility, is choosing to remain in the community and continue to receive medically necessary nursing facility LOC services at an Assisted Living Facility.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Individuals are directly responsible for paying their own living expenses.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services in a culturally and linguistically appropriate manner. The below list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with but is not an exhaustive list of providers who may offer the services.

- Case management agencies

Back to Item
Back to Agenda
Back to Agenda

- Home Health agencies
- Medi-Cal managed care plans
- ARF/RCFE Operators

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

The RCFE/ARFs are licensed and regulated by the California Department of Social Services, Community Care Licensing (CCL) Division.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to skilled nursing facility services.

Community Transition Services/Nursing Facility Transition to a Home

Description/Overview

Community Transition Services/Nursing Facility Transition to a Home helps individuals to live in the community and avoid further institutionalization.

Community Transition Services/Nursing Facility Transition to a Home are non-recurring set-up expenses for individuals who are transitioning from a licensed facility to a living arrangement in a private residence where the person is directly responsible for his or her own living expenses. Allowable expenses are those necessary to enable a person to establish a basic household that do not constitute room and board and include:

1. Assessing the participant's housing needs and presenting options.[30]
2. Assisting in searching for and securing housing, including the completion of housing applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
3. Communicating with landlord, if applicable and coordinating the move.
4. Establishing procedures and contacts to retain housing.
5. Identifying, coordinating, securing, or funding non-emergency, non-medical transportation to assist members' mobility to ensure reasonable accommodations and access to housing options prior to transition and on move-in day.
6. Identifying the need for and coordinating funding for environmental modifications to install necessary accommodations for accessibility.[31]
7. Identifying the need for and coordinating funding for services and modifications necessary to enable a person to establish a basic household that does not constitute room and board, such as: security deposits required to obtain a lease on an apartment or home; set-up fees for utilities or service access; first month coverage of utilities, including telephone, electricity, heating and water; services necessary for the individual's health and safety, such as pest eradication and one-time cleaning prior to occupancy; home modifications, such as an air conditioner or heater; and other medically-necessary services, such as hospital beds, Hoyer lifts, etc. to ensure access and reasonable accommodations. [32]

Eligibility (Population Subset)

[30] Refer to Housing Transition/Navigation Services In Lieu of Services for additional details.
[31] Refer to Home Modification In Lieu of Services for additional details.
[32] Refer to Housing Deposits In Lieu of Services for additional details.

Back to Agenda
Back to Agenda

1. Currently receiving medically necessary nursing facility LOC services and in lieu of remaining in, the nursing facility setting, is choosing to transition home and continue to receive medically necessary nursing facility LOC services;
2. Has lived 60+ days in a nursing home;
3. Interested in moving back to the community; and
4. Able to reside safely in the community with appropriate and cost-effective supports and services.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- Community Transition Services do not include monthly rental or mortgage expense, food, regular utility charges, and/or household appliances or items that are intended for purely diversionary/recreational purposes.
- Community Transition Services are payable up to a total lifetime maximum amount of $5,000.00. The only exception to the $5,000.00 total maximum is if the participant is compelled to move from a provider-operated living arrangement to a living arrangement in a private residence through circumstances beyond his or her control.
- Community Transition Services must be necessary to ensure the health, welfare, and safety of the participant, and without which the participant would be unable to move to the private residence and would then require continued or re-institutionalization.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. The list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

Back to Item
Back to Agenda
Back to Agenda

- Case management agencies
- Home Health agencies
- Medi-Cal managed care plans
- County mental health providers
- 1915c HCBA/ALW providers
- CCT/Money Follows the Person providers

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to skilled nursing facility services.

Back to Agenda

Personal Care and Homemaker Services

Description/Overview

Personal Care Services and Homemaker Services provided for individuals who need assistance with Activities of Daily Living (ADL) such as bathing, dressing, toileting, ambulation or feeding. Personal Care Services can also include assistance with Instrumental Activities of Daily Living (IADL) such as meal preparation, grocery shopping and money management.

Services provided through the In-Home Support Services (In-Home Supportive Services) program include housecleaning, meal preparation, laundry, grocery shopping, personal care services (such as bowel and bladder care, bathing, grooming and paramedical services), accompaniment to medical appointments and protective supervision for the mentally impaired.

Homemaker/Chore services include help with tasks such as cleaning and shopping, laundry, and grocery shopping. Personal Care, Homemaker and Chore programs aids individuals who otherwise could not remain in their homes.

In lieu of services can be utilized:

- Above and beyond any approved county In-Home Supportive Services hours, when additional hours are required and if In-Home Supportive Services benefits are exhausted; and
- As authorized during any In-Home Supportive Services waiting period (member must be already referred to In-Home Supportive Services); this approval time period includes services prior to and up through the In-Home Supportive Services application date.
- For members not eligible to receive In-Home Supportive Services, to help avoid a short-term stay in a skilled nursing facility (not to exceed 60 days).

Similar services available through In-Home Supportive Services should always be utilized first. These Personal Care and Homemaker in lieu of services should only be utilized if appropriate and if additional hours/supports are not authorized by In-Home Supportive Services.

Eligibility (Population Subset)

- Individuals at risk for hospitalization, or institutionalization in a nursing facility; or
- Individuals with functional deficits and no other adequate support system; or

Back to Item
Back to Agenda
Back to Agenda

- Individuals approved for In-Home Supportive Services. Eligibility criteria can be found at: http://www.cdss.ca.gov/In-Home-Supportive-Services.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

This service cannot be utilized in lieu of referring to the In-Home Supportive Services program. Member must be referred to the In-Home Supportive Services program when they meet referral criteria.

If a member receiving Personal Care and Homemaker services has any change in their current condition, they must be referred to In-Home Supportive Services for reassessment and determination of additional hours. Members may continue to receive Personal Care and Homemaker in lieu of services during this reassessment waiting period.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Home health agencies
- County agencies
- Personal care agencies
- AAA (Area Agency on Aging)

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another

managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient hospital services, emergency department services, skilled nursing facility.

Environmental Accessibility Adaptations (Home Modifications)

Description/Overview

Environmental Accessibility Adaptations (EAAs also known as Home Modifications) are physical adaptations to a home that are necessary to ensure the health, welfare and safety of the individual, or enable the individual to function with greater independence in the home: without which the participant would require institutionalization.

Examples of environmental accessibility adaptions include:

- Ramps and grab-bars to assist beneficiaries in accessing the home;
- Doorway widening for beneficiaries who require a wheelchair;
- Stair lifts;
- Making a bathroom and shower wheelchair accessible (e.g., constructing a roll-in shower).
- Installation of specialized electric and plumbing systems that are necessary to accommodate the medical equipment and supplies of the beneficiary; and
- Installation and testing of a Personal Emergency Response System (PERS) for persons who are alone for significant parts of the day without a caregiver and who otherwise require routine supervision (including monthly service costs, as needed).

The services are available in a home that is owned, rented, leased, or occupied by the individual. For a home that is not owned by the individual, the individual must provide written consent from the owner for physical adaptations to the home or for equipment that is physically installed in the home (e.g., grab bars, chair lifts, etc.).

When authorizing environmental accessibility adaptations as an in lieu of service, the managed care plan must receive and document an order from the participant's current primary care physician or other health professional specifying the requested equipment or service as well as documentation from the provider of the equipment or service describing how the equipment or service meets the medical needs of the participant, including any supporting documentation describing the efficacy of the equipment where appropriate. Brochures will suffice in showing the purpose and efficacy of the equipment; however, a brief written evaluation specific to the participant describing how and why the equipment or service meets the needs of the individual will still be necessary.

For environmental accessibility adaptations, the managed care plan must also receive and document:

1. A physical or occupational therapy evaluation and report to evaluate the medical necessity of the requested equipment or service unless the managed care plan determines it is appropriate to approve without an evaluation. This should typically come from an entity with no connection to the provider of the requested equipment or service. The physical or occupational therapy evaluation and report should contain at least the following:

   A. An evaluation of the participant and the current equipment needs specific to the participant, describing how/why the current equipment does not meet the needs of the participant;

   B. An evaluation of the requested equipment or service that includes a description of how/why it is necessary for the participant *and reduces the risk of institutionalization*. This should also include information on the ability of the participant and/or the primary caregiver to learn about and appropriately use any requested item, and

   C. A description of similar equipment used either currently or in the past that has demonstrated to be inadequate for the participant and a description of the inadequacy.

3. If possible, a minimum of two bids from appropriate providers of the requested service, which itemize the services, cost, labor, and applicable warranties; and

4. That a home visit has been conducted to determine the suitability of any requested equipment or service.

The assessment and authorization for EAAs must take place within a 90-day time frame beginning with the request for the EAA, unless more time is required to receive documentation of homeowner consent, or the individual receiving the service requests a longer time frame.

Eligibility (Population Subset)

Individuals at risk for institutionalization in a nursing facility.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Back to Item
Back to Agenda
Back to Agenda

- If another State Plan service such as Durable Medical Equipment, is available and would accomplish the same goals of independence and avoiding institutional placement, that service should be used.
- EAAs must be conducted in accordance with applicable State and local building codes.
- EAAs are payable up to a total lifetime maximum of $5,000. The only exceptions to the $5,000 total maximum are if the beneficiary's place of residence changes or if the beneficiary's condition has changed so significantly that additional modifications are necessary to ensure the health, welfare and safety of the beneficiary, or are necessary to enable the beneficiary to function with greater independence in the home and avoid institutionalization or hospitalization.
- EAAs may include finishing (e.g., drywall and painting) to return the home to a habitable condition, but do not include aesthetic embellishments.
- Modifications are limited to those that are of direct medical or remedial benefit to the beneficiary and exclude adaptations or improvements that are of general utility to the household. Adaptations that add to the total square footage of the home are excluded except when necessary to complete an adaptation (e.g., to improve entrance/egress to a residence or to configure a bathroom to accommodate a wheelchair).
- Before commencement of a physical adaptation to the home or equipment that is physically installed in the home (e.g., grab bars, chair lifts, etc.), the managed care plan must provide the owner and beneficiary with written documentation that the modifications are permanent, and that the State is not responsible for maintenance or repair of any modification nor for removal of any modification if the participant ceases to reside at the residence.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

The Medi-Cal managed care plan may manage these services directly or may coordinate with a provider to manage the service.

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another

Back to Item

Back to Agenda

managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Area Agencies on Aging (AAA)
- Local health departments
- Community-based providers and organizations

All EAAs that are physical adaptations to a residence must be performed by an individual holding a California Contractor's License with the exception of a PERS installation, which may be performed in accordance with the system's installation requirements.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to nursing facility services, inpatient and outpatient hospital services, emergency department services and emergency transport services.

Back to Item
Back to Agenda
Back to Agenda

Meals/Medically Tailored Meals

Description/Overview

Malnutrition and poor nutrition can lead to devastating health outcomes, higher utilization, and increased costs, particularly among members with chronic conditions. Meals help individuals achieve their nutrition goals at critical times to help them regain and maintain their health. Results include improved member health outcomes, lower hospital readmission rates, a well-maintained nutritional health status and increased member satisfaction.

1. Meals delivered to the home immediately following discharge from a hospital or nursing home when members are most vulnerable to readmission.
2. Medically-Tailored Meals: meals provided to the member at home that meet the unique dietary needs of those with chronic diseases.
3. Medically-Tailored meals are tailored to the medical needs of the member by a Registered Dietitian (RD) or other certified nutrition professional, reflecting appropriate dietary therapies based on evidence-based nutritional practice guidelines to address medical diagnoses, symptoms, allergies, medication management, and side effects to ensure the best possible nutrition-related health outcomes.

4. Medically-supportive food and nutrition services, including medically tailored groceries and healthy food vouchers.

Eligibility (Population Subset)

1. Individuals with chronic conditions, such as but not limited to diabetes, cardiovascular disorders, congestive heart failure, stroke, chronic lung disorders, human immunodeficiency virus (HIV), cancer, gestational diabetes, or other high risk perinatal conditions, and chronic or disabling mental/behavioral health disorders.
2. Individuals being discharged from the hospital or a skilled nursing facility or at high risk of hospitalization or nursing facility placement; or
3. Individuals with extensive care coordination needs.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate

Back to Item
Back to Agenda
Back to Agenda

and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- Up to three medically-tailored meals per day and/or medically-supportive food and nutrition services for up to 12 weeks, or longer if medically necessary.
- Meals that are eligible for or reimbursed by alternate programs are not eligible.
- Meals are not covered to respond solely to food insecurities.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Home delivered meal providers
- Area Agencies on Aging
- Nutritional Education Services to help sustain healthy cooking and eating habits
- Meals on Wheels providers

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient hospital services, emergency department services.

Sobering Centers

Description/Overview

Sobering centers are alternative destinations for individuals who are found to be publicly intoxicated (due to alcohol and/or other drugs) and would otherwise be transported to the emergency department or jail. Sobering centers provide these individuals, primarily those who are homeless or those with unstable living situations, with a safe, supportive environment to become sober.

Sobering centers provide services such as medical triage, lab testing, a temporary bed, rehydration and food service, treatment for nausea, wound and dressing changes, shower and laundry facilities, substance use education and counseling, navigation and warm hand-offs for additional substance use services or other necessary health care services, and homeless care support services.

- When utilizing this service, direct coordination with the county behavioral health agency is required and warm hand-offs for additional behavioral health services are strongly encouraged.
- The service also includes screening and linkage to ongoing supportive services such as follow-up mental health and substance use disorder treatment and housing options, as appropriate.
- This service requires partnership with law enforcement, emergency personnel, and outreach teams to identify and divert individuals to Sobering Centers. Sobering centers must be prepared to identify clients with emergent physical health conditions and arrange transport to a hospital or appropriate source of medical care.
- The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

Individuals age 18 and older who are intoxicated but conscious, cooperative, able to walk, nonviolent, free from any medical distress (including life threatening withdrawal symptoms or apparent underlying symptoms) and who would otherwise be transported to the emergency department or a jail or who presented at an emergency department and are appropriate to be diverted to a Sobering Center.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu

of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

This service is covered for a duration of less than 24 hours.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- Sobering Centers, or other appropriate and allowable substance use disorder facilities. Medi-Cal managed care plans should consult with county behavioral health agencies to ensure these facilities can offer an appropriate standard of care and properly coordinate follow up access to substance use disorder services and other behavioral health services.
- These facilities are unlicensed. Medi-Cal managed care plans must apply minimum standards, subject to review and approval by DHCS, to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal managed care plans shall monitor the provision of all the services included above.
- All allowable providers must be approved by the managed care organization to ensure adequate experience and appropriate quality of care standards are maintained.

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient hospital services, emergency department services, emergency transportation services.

Asthma Remediation[33]

Description/Overview

Environmental Asthma Trigger Remediations are physical modifications to a home environment that are necessary to ensure the health, welfare, and safety of the individual, or enable the individual to function in the home and without which acute asthma episodes could result in the need for emergency services and hospitalization.

Examples of environmental asthma trigger remediations include:

- Allergen-impermeable mattress and pillow dustcovers;
- High-efficiency particulate air (HEPA) filtered vacuums;
- Integrated Pest Management (IPM) services;
- De-humidifiers;
- Air filters;
- Other moisture-controlling interventions;
- Minor mold removal and remediation services;
- Ventilation improvements;
- Asthma-friendly cleaning products and supplies;
- Other interventions identified to be medically appropriate and cost effective.

The services are available in a home that is owned, rented, leased, or occupied by the individual or their caregiver.

When authorizing asthma remediation as an in lieu of service, the managed care plan must receive and document:

1. The participant's current licensed health care provider's order specifying the requested remediation(s);
2. Depending on the type of remediation(s) requested, documentation from the provider describing how the remediation(s) meets the medical needs of the participant. A brief written evaluation specific to the participant describing how and why the remediation(s) meets the needs of the individual will still be necessary;
3. That a home visit has been conducted to determine the suitability of any requested remediation(s).

[33] Asthma Remediation should not interfere with EPSDT benefits. All appropriate EPSDT services should be provided and ILOS should be complementary. See https://www.hud.gov/sites/dfiles/HH/documents/HUD%20Asthma%20Guide%20Document_Final_7_18.pdf; Appendix B)

Asthma remediation includes providing information to individuals about actions to take around the home to mitigate environmental exposures that could trigger asthma symptoms and remediations designed to avoid asthma-related hospitalizations such as:

1. Identification of environmental triggers commonly found in and around the home, including allergens and irritants.
2. Using dust-proof mattress and pillow covers, high-efficiency particulate air vacuums, asthma-friendly cleaning products, dehumidifiers, and air filters.
3. Health-related minor home repairs such as pest management or patching holes and cracks through which pests can enter.

Eligibility (Population Subset)

Individuals with poorly controlled asthma (as determined by an emergency department visit or hospitalization or two sick or urgent care visits in the past 12 months or a score of 19 or lower on the Asthma Control Test) for whom a licensed health care provider has documented that the service will likely avoid asthma-related hospitalizations, emergency department visits, or other high-cost services.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. In lieu of services can only be covered if: 1) the State determines they are medically-appropriate and a cost-effective substitutes or settings for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- If another State Plan service such as Durable Medical Equipment, is available and would accomplish the same goals of preventing asthma emergencies or hospitalizations.
- Asthma remediations must be conducted in accordance with applicable State and local building codes.
- Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.
- Asthma remediations are payable up to a total lifetime maximum of $5,000. The only exception to the $5,000 total maximum is if the beneficiary's condition has changed so significantly that additional modifications are necessary to ensure the health, welfare, and safety of the beneficiary, or are necessary to enable the

beneficiary to function with greater independence in the home and avoid institutionalization or hospitalization.

- Asthma remediation modifications are limited to those that are of direct medical or remedial benefit to the beneficiary and exclude adaptations or improvements that are of general utility to the household. Remediations may include finishing (e.g., drywall and painting) to return the home to a habitable condition, but do not include aesthetic embellishments.

- Before commencement of a physical adaptation to the home or installation of equipment in the home, the managed care plan must provide the owner and beneficiary with written documentation that the modifications are permanent, and that the State is not responsible for maintenance or repair of any modification nor for removal of any modification if the participant ceases to reside at the residence.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

The Medi-Cal managed care plan may: manage these services directly; coordinate with an existing Medi-Cal provider to manage the services; and/or contract with a county agency, community-based organization or other organization, as needed. The services should be provided in conjunction with culturally appropriate asthma self-management education.

Providers must have experience and expertise with providing these unique services. This list is provided as an example of the types of providers Medi-Cal managed care plans may choose to contract with, but it is not an exhaustive list of providers who may offer the services.

- American Lung Association
- Allergy and Asthma Network
- National Environmental Education Foundation
- Local health departments
- Community-based providers and organizations

Asthma Remediation that is a physical adaptation to a residence must be performed by an individual holding a California Contractor's License.

- Medi-Cal managed care plans must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal managed care plans shall monitor the provision of all the services included above.
- All allowable providers must be approved by the managed care organization to ensure adequate experience and appropriate quality of care standards are maintained.

Medi-cal managed care plan network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program. If there is no state-level enrollment pathway, managed care plans must enroll providers through their own established enrollment process, through the recognized enrollment process developed by another managed care plan, or, if applicable, through a state-level enrollment pathway established by another state department. Regardless of whether the providers are enrolled in Medi-Cal, managed care plans must credential the providers as required by DHCS.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to inpatient and outpatient hospital services and emergency department services.

Glossary

Medicaid Section 1115 Demonstration Waivers: Section 1115 wavers permit States to use federal Medicaid funds in ways that are not otherwise allowed under federal rules, as long as the U.S. Secretary of Health and Human Services determines that the initiative is an "experimental, pilot, or demonstration project" that is "likely to assist in promoting the objectives of the program." Section 1115 waivers are generally approved for a five-year period.

Section 1915(b) "Freedom of Choice" waivers: States generally use section 1915(b) waivers to require enrollment in managed care delivery systems for certain populations. Many States originally used Section 1115 waiver authority to move enrollees into managed care, but the new federal regulations acknowledge that managed care is now the predominant delivery system in Medicaid and CMS has indicated that Section 1115 waivers may not be the most appropriate authority vehicle for managed care.

Section 1915(c) "Home and Community Based Services" waivers: States generally use 1915(c) waivers to develop programs that meet the needs of people who prefer to get long-term care services and supports in their home or community, rather than in an institutional setting.

Behavioral Health: Mental health and substance use disorder services.

Behavioral Health Managed Care Plan: The county prepaid inpatient health plan (PIHP) that would provide specialty mental health services and SUD treatment services under a single contract with DHCS, after full implementation of the behavioral health integration proposal.

CalAIM: California Advancing and Innovating Medi-Cal: DHCS' multi-year initiative to implement overarching policy changes across all Medi-Cal delivery systems with the following objectives:

- Identify and manage member risk and need through Whole Person Care Approaches and addressing Social Determinants of Health;
- Move Medi-Cal to a more consistent and seamless system by reducing complexity and increasing flexibility; and
- Improve quality outcomes, reduce health disparities, and drive delivery system transformation and innovation through value-based initiatives, modernization of systems, and payment reform.

Coordinated Care Initiative (CCI): CCI was implemented in 2014 in seven California counties with the goal of coordinating the delivery of medical, behavioral, and long-term services and supports to Medi-Cal beneficiaries also eligible for Medicare ("dual eligibles"). The CCI is composed of Cal MediConnect and Managed Medi-Cal Long-Term

Services and Supports (MLTSS). The Cal MediConnect portion of CCI is currently authorized through December 31, 2022.

County Inmate Pre-Release Application Process: A CalAIM proposal that all counties must implement an inmate pre-release Medi-Cal application process to ensure that county inmates/juveniles who are eligible for Medi-Cal and are in need of ongoing physical or behavioral health treatment receive timely access to services upon release from incarceration. The proposed process would require all county jails and juvenile facilities to implement a process for facilitated referral and linkage from county jail release to specialty mental health, Drug Medi-Cal, DMC-ODS and Medi-Cal managed care providers, in cases where the inmate was receiving behavioral health services while incarcerated, to allow for continuation of behavioral health treatment in the community.

County Organized Health System (COHS): A local agency created by a county board of supervisors to contract with the Medi-Cal program. Nearly all Medi-Cal beneficiaries in a COHS county receive their care from the COHS health plan.

Cal MediConnect: A program that coordinates medical, behavioral, and long-term services and supports (i.e. both Medicare and Medi-Cal benefits) for dual eligibles in seven California CCI counties.

Dental Transformation Initiative (DTI): The DTI is a component of the Medi-Cal 2020 demonstration that aims to increase the use of preventive dental services for children, prevent and treat more early childhood caries, and increase continuity of care for children.

Designated Public Hospitals: A California hospital operated by a county, a city and a county, or the University of California.

Designated State Health Programs: Designated State Health Programs (DSHPs) are existing State-funded health programs that have not previously qualified for federal funding, including Medicaid. CMS released a State Medicaid Director Letter informing States that they would phase-out federal funding for DSHPs beginning in 2017, meaning that California's DSHPs will not receive federal funding past December 31, 2020 when the Medi-Cal 2020 demonstration expires.

Drug Medi-Cal: Drug Medi-Cal pays for the SUD treatment services a Medi-Cal beneficiary receives through a Drug Medi-Cal certified program.

Drug Medi-Cal Organized Delivery System (DMC-ODS): DMC-ODS is a continuum of care modeled after the American Society of Addiction Medicine Criteria for substance use disorder treatment services. The program enables more local control and accountability, provides greater administrative oversight, creates utilization controls to improve care and efficient use of resources, implements evidenced based practices in substance abuse treatment, and coordinates with other systems of care. These systems are currently operating in 30 California counties. This program was initially authorized in during the

Back to Item
Back to Agenda
Back to Agenda

2010 Bridge to Reform demonstration and was reauthorized in the current Medi-Cal 2020 demonstration.

Enhanced Care Management: A collaborative and interdisciplinary benefit to provide intensive and comprehensive ('whole-person') care management services to high-need Medi-Cal beneficiaries.

Full Integration Plan: A CalAIM proposal to consolidate multiple Medi-Cal delivery systems (Medi-Cal managed care, mental health managed care, DMC-ODS, and dental) under one contract with DHCS. This proposal would only be implemented in select areas with managed care plans and corresponding counties who have mutually volunteered to participate.

Global Payment Program (GPP): Established a statewide pool of funding for the remaining uninsured by combining federal disproportional share hospital and uncompensated care funding, where select Designated Public Hospital systems can achieve their "global budget" by meeting a service threshold that incentivizes movement from high cost, avoidable services to providing higher value, preventive services. GPP is currently set to expire on December 31, 2020 and with approval pending under the Medi-Cal 2020 Demonstration extension to continue for calendar year 2021.

Health Homes Program: Enables participating health plans to provide a range of supports to Med-Cal beneficiaries with complex medical needs and chronic conditions. The HHP includes coordination of the full range of physical health, behavioral health, and community-based long-term services and supports.

Indian Health Care Providers: Means a health care program operated by the Indian Health Service or by an Indian Tribe, Tribal Organization, or Urban Indian Organization per 42 CFR §438.14(a).

In lieu of services: Services offered by a Medi-Cal health plan that are not included in the State Plan, but are medically appropriate, cost-effective substitutes for State Plan services included within the contract. Applicable in lieu of services must be specifically included in a managed care plan's contract. Services are offered at the plan's option and an enrollee cannot be required to use them.

Institution for Mental Diseases (IMD): A hospital, nursing facility, or other institution with more than sixteen beds that is primarily engaged in providing diagnosis, treatment, or care to persons with mental diseases (42 U.S.C. §1396d(i)).

Long Term Care: Included skilled nursing facilities, subacute facilities, pediatric subacute facilities, and intermediate care facilities.

Long Term Service and Supports: Services that include medical and non-medical care for people with a chronic illness or disability. Long-term care services are those provided

to an individual who requires a level of care equivalent to that received in a nursing facility. Most long-term care services assist people with Activities of Daily Living, such as dressing, bathing, and using the bathroom. Long-term care can be provided at home, in the community, or in a facility.

Managed Long Term Services and Supports (MLTSS) Program: The delivery of long-term services and supports through capitated Medi-Cal managed care programs.

Medi-Cal 2020: California's current Section 1115 waiver that expires on December 31, 2020. Medi-Cal 2020 authorized the Whole Person Care program, Global Payment Program, the Public Hospital Redesign and Incentives in Medi-Cal (PRIME) Program, Dental Transformation Initiative, and extended several other California waiver programs including the Drug Medi-Cal Organized Delivery System.

Medi-Cal Managed Care Plan: A health plan that has a contract with DHCS to deliver most physical health care and mild-to-moderate mental health care services to Medicaid beneficiaries through a network of providers at a capitated rate. Managed care plans emphasize primary and preventive care.

Mental Health Managed Care Plan: A health plan that has a contract with DHCS to provide specialty mental health services to Medi-Cal beneficiaries. Mental health managed care plans in California are administered by the counties.

National Committee for Quality Assurance (NCQA): A health care accreditation organization with a focus on improving health care quality.

Population Health Management Program: A cohesive plan of action for addressing member needs across the continuum of care, based on data-driven risk stratification, predictive analytics, and standardized assessment processes. Each Medi-Cal managed care plan will provide DHCS with a strategy for how it will:

- Keep all members healthy by focusing on preventive and wellness services;
- Identify and assess member risks and needs on an ongoing basis;
- Manage member safety and outcomes during transitions, across delivery systems or settings, through effective care coordination; and
- Identify and mitigate the social determinants of health and reduce health disparities or inequities.

Public Hospital Redesign and Incentives in Medi-Cal (PRIME): An incentive program for Designated Public Hospitals and District and Municipal Public Hospitals designed to improve their delivery systems through a focus on providing high quality, value-based care. PRIME is the successor program to the first-in-the-nation DSRIP (Delivery System Reform Incentive Payment) program that was authorized in the Bridge to Reform demonstration in 2010. PRIME funding is authorized under the Medi-Cal 2020 demonstration and expired on June 30, 2020.

Quality Incentive Program (QIP): The QIP ties Medi-Cal managed care payments to performance on designated performance metrics in four strategic categories: primary care, specialty care, inpatient care, and resource utilization. The payments are linked to delivery of services under Medi-Cal managed care contracts and increase the amount of funding tied to quality outcomes. California's Designated Public Hospitals receive incentive payments based on achievement of specified improvement targets. Under CalAIM, the District and Municipal Public Hospitals started to participate in the QIP once PRIME expired.

Regional Rates: A CalAIM proposal to develop regional managed care capitation rates, rather than plan- and county-based rates, in order to simplify the rate-setting process for the Medi-Cal program and allow for more capacity to implement outcomes and value based payment structures.

Safety Net Care Pools (SNCPs): Federal Medicaid funding for safety net providers' uncompensated care costs associated with Medicaid eligible and uninsured individuals. California had SNCPs in the Section 1115 demonstrations that began in 2005 and in 2010. This funding transitioned to be a component of the Global Payment Program in the Medi-Cal 2020 demonstration.

Serious Mental Illness/Seriously Emotional Disturbance Demonstration Opportunity: A federal opportunity for States to receive federal Medicaid funding for short-term residential treatment services in settings otherwise subject to the institution for mental disease (IMD) exclusion. (See SMD #18-011)

Social Determinants of Health: Conditions in the environments in which people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks (Healthy People 2020).

Targeted Case Management: Targeted Case Management (TCM) is a Medi-Cal program that provides specialized case management services to certain Medi-Cal eligible individuals to gain access to needed medical, social, educational, and other services. The TCM Program is an optional Medi-Cal Program operated with federal and local funds. Eligible populations include:

- Children under age 21;
- Medically fragile individuals;
- Individuals at risk of institutionalization;
- Individuals in jeopardy of negative health or psycho-social outcomes; and
- Individuals with a communicable disease.

Whole Person Care: A pilot program that provides approved counties with funding to coordinate health, behavioral health, and social services for Medi-Cal beneficiaries. The program is authorized under the Medi-Cal 2020 demonstration and expires on December 31, 2020, with approval pending to extend through calendar year 2021.

AMENDMENT # TO
PROFESSIONAL SERVICES CONTRACT

THIS AMENDMENT # TO THE PROFESSIONAL SERVICES CONTRACT ("Amendment #") shall become effective on January 1, 2023 by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and _____ ("Professional"), with respect to the following facts:

RECITALS

A. CalOptima and Professional entered into a Professional Services Contract, by which Professional has agreed to provide or arrange for the provision of Covered Services to Members.

B. CalOptima and Professional desire to amend this Contract on the terms and conditions set forth herein.

NOW, THEREFORE, the parties agree as follows:

1. Recital E shall be added to the Contract as follows and subsequent Recitals will be renumbered:

"E. CalOptima has entered into a contract with the Department of Health and Human Services ("HHS"), Centers for Medicare and Medicaid Services ("CMS"), (CMS Contract") to operate a Medicare Advantage ("MA") plan and to offer Medicare covered items and services to eligible individuals (referred to herein as the "OneCare Program". CalOptima may only enroll those dual eligible individuals who meet all applicable Medicare Advantage eligibility requirements, and who are eligible to be enrolled in CalOptima's Medi-Cal Managed Care plan, as described in the contract between CalOptima and DHCS.

2. Article 1, Section 1.2, "Addendums" shall be deleted in its entirety and replaced with the following:

"1.2 Addendums

1.2.1 The Addendums are terms and conditions that apply specifically to items and services provided to Members under the CalOptima Programs as follows:

1.2.1.1 Addendum 1: Medi-Cal Program Requirements
1.2.1.2 Addendum 2: PACE Program Requirements
1.2.1.3 Addendum 3: Medicare Advantage Program Requirements
1.2.1.4 Addendum 4: Certification Regarding Lobbying"

3. Article 2, Section 2.14 "CalOptima Programs(s)" shall be deleted and replaced with the following:

"2.14 "CalOptima Programs(s)" means the Medi-Cal, PACE, and Medicare Advantage Programs administered by CalOptima. Professional participates in the specific CalOptima program(s) identified on Attachment A."

4. Article 3, Section 3.1.4 shall be deleted and replaced with the following:

"3.1.4 Only Practitioners who CalOptima has determined meet applicable CalOptima credentialing criteria may be listed as contracted. This Contract may be amended for the addition or deletion of Practitioners credentialed by CalOptima upon Professional giving CalOptima written notice of such addition or deletion at least

forty five (45) days prior to the effective date of such addition or deletion. Professional shall provide an updated list of its Practitioners as needed or upon request from CalOptima."

5. Attachment A, Section 1.1 shall be deleted and replaced with the following:

"1.1 CalOptima Program. Professional shall furnish Covered Services to eligible Members in the following CalOptima Programs:

_____ Medi-Cal Program (CalOptima Community Network and CalOptima Direct-Administrative)

_____ PACE Program

_____ Medicare Advantage Program (CalOptima Community Network)"

6. Attachment B, "Compensation" shall be deleted in its entirety and replaced with "Attachment B-Amendment {# } - Compensation".

7. Addendum 3, "Cal MediConnect Program Requirements" shall be deleted in its entirety and replaced with Addendum 3, "Medicare Advantage Program Requirements" attached herewith.

8. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract as previously amended shall continue in full force and effect.

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment.

ATTACHMENT B – Amendment I

COMPENSATION

CalOptima shall reimburse Professional and Professional shall accept as payment in full from CalOptima, the lesser of billed charges or the following amounts:

I. MEDI-CAL PROGRAM

A. Primary Care Services

For Covered Services provided to Assigned COD-Administrative and Community Network Members, or as otherwise noted below, CalOptima shall reimburse Professional, and Professional shall accept as payment in full from CalOptima, the lesser of:

1. Billed charges, or

    1.1. **XX%** of the **Current CalOptima Medi-Cal Fee Schedule** on a fee-for-service basis for **primary care**, as defined in CalOptima Policies.

    1.2. **XX%** of the **Current CalOptima Medi-Cal Fee Schedule** on a fee-for-service basis for **non professional services**, as defined in CalOptima Policies.

2. Services with Unestablished Fees. If a fee has not been established by Medi-Cal for a particular procedure, and CalOptima has provided authorization for Professional to provide such service, CalOptima shall reimburse Professional under the following guidelines:

    2.1. "By Report & Unlisted" codes that CalOptima has provided authorization for Professional to provide such service will be paid according to Medi-Cal billing and payment guidelines.

    2.2. Professional shall utilize current payment codes and modifiers for Med-Cal.

    2.3. CPT or HCPC codes not contained in the Medi-Cal fee schedule at the time of service are not reimbursable.

    2.4. If the billed charges are determined to be unallowable, in excess of usual and customary charges, or inappropriate pursuant to a medical review by CalOptima, CalOptima will contact Professional for additional justification and these will be handled on a case-by-case basis.

3. Supplemental Pay-for-Performance Payment. CalOptima may authorize supplemental payments to PCP yearly or quarterly based on PCP's quality performance and achievement of specified program goals which are determined by CalOptima. The amount of supplemental compensation may be a certain percentage of Community Network's annual fee-for-service payments made to the PCP. CalOptima shall not pay PCP any supplemental payments if this Contract is terminated.

B. Specialist Services

For Covered Services provided to referred Community Network Members in accordance with CalOptima referral Policies, and as to COD Administrative Members as noted below, CalOptima shall reimburse Professional, and Professional shall accept as payment in full from CalOptima, the lesser of:

1. Billed charges, or

1.1. **Specialist Professional** services shall be paid at **XX%** of the **Current CalOptima Medi-Cal Fee Schedule** on a fee-for-service basis for, as defined in the CalOptima Policies.

1.2. **Non Professional** services shall be paid at **XX%** of the **Current CalOptima Medi-Cal Fee Schedule** on a fee-for-service basis, as defined in the CalOptima Policies.

1.3. For **Professional services** provided by a qualifying **CCS paneled Specialist Professional** to a Community Network or COD-Administrative Member less than 21 years of age, CalOptima shall pay Professional **XX%** of the **Current Medi-Cal Fee Schedule**, as defined in CalOptima Policy, for services for which CalOptima is financially responsible. **Non Professional** services shall be paid at **XX%** of the **Current Medi-Cal Fee Schedule** on a fee-for-service basis, as defined in the CalOptima Policies.

1.4. For Specialist Physician Services provided to an **Adult Expansion Member** in accordance with CalOptima Policies, and as noted below, CalOptima shall reimburse Professional, and Professional shall accept as payment in full from CalOptima, the lesser of billed charges, or

CPT Code Range	Type of Service	Fee Schedule
10000-69999	**Surgical Range**	**XX% of Medi-Cal**
70000-79999	**Radiology and Radiation Therapy Professional and Technical Components**	**XX% of Medi-Cal**
80000-89999	**Lab and Pathology**	**XX% of Medi-Cal**
90000-99999	**Professional Services**	**XX% of Medi-Cal**
HCPC Codes		**XX% of Medi-Cal**

1.4.1. Rates for Adult Expansion Members may be different than those included herein as determined by DHCS. Should DHCS make a change in future payments to CalOptima, CalOptima will adjust payments made to Professional.

2. Professional shall not be paid for services provided to **Community Network Members** if Member is not referred by a Participating PCP to Professional in accordance with CalOptima referral Policies, except with regard to Emergency Services and CHDP Services, as provided in this Contract. This shall be effective upon the implementation of the Community Network program. Professional will be advised by CalOptima on the implementation date of the Community Network program.

3. Services with Unestablished Fees. If a fee has not been established by Medi-Cal for a particular procedure, and CalOptima has provided authorization for Professional to provide such service, CalOptima shall reimburse Professional under the following guidelines:

3.1. "By Report & Unlisted" codes that CalOptima has provided authorization for Professional to provide such service will be paid according to Medi-Cal billing and payment guidelines.

3.2. Professional shall utilize current payment codes and modifiers for Med-Cal.

3.3. CPT or HCPC codes not contained in the Medi-Cal fee schedule at the time of service are not reimbursable.

3.4. If the billed charges are determined to be unallowable, in excess of usual and customary charges, or inappropriate pursuant to a medical review by CalOptima, CalOptima will contact Professional for additional justification and these will be handled on a case-by-case basis.

II. PACE PROGRAM

1. For Covered Services provided to PACE Members, CalOptima shall reimburse Professional, and Professional shall accept as payment in full from CalOptima, the lesser of billed charges or **{xxxxx}** percent **(XX%)** of the Current CalOptima Medicare Allowable Participating Provider Fee Schedule for locality 26.

2. Prior authorization rules apply for payment of services.

3. Medicare billing rules and payment Policies and guidelines for billing and payment will apply.

4. Services with Unestablished Fees. If a fee has not been established by Medicare for a particular procedure, and CalOptima has provided authorization for Professional to provide such service, CalOptima shall reimburse Professional under the following guidelines:

   4.1 "By Report & Unlisted" codes that CalOptima has provided authorization for Professional to provide such service will be paid according to Medicare billing and payment guidelines.

   4.2 Professional shall utilize current payment codes and modifiers for Medicare.

   4.3 CPT or HCPC codes not contained in the Medicare fee schedule at the time of service are not reimbursable.

   4.4 If the billed charges are determined to be unallowable, in excess of usual and customary charges, or inappropriate pursuant to a medical review by CalOptima, CalOptima will contact Professional for additional justification and these will be handled on a case-by-case basis.

5. Should Medicare consider a service as non-covered, then Medi-Cal guidelines shall be applied. Provider may need to resubmit claim in accordance with Medi-Cal codes, billing rules, Policies, and guidelines for reimbursement.

III. MEDICARE ADVANTAGE

1. For Covered Services provided to Medicare Advantage Member, CalOptima shall reimburse Professional, and Professional shall accept as payment in full from CalOptima, the lesser of billed charges, or **{xxxxx}** percent **(XX%)** of the Current CalOptima Medicare Allowable Participating Provider Fee Schedule for locality 26.

2. Prior authorization rules apply for payment of services.

3. Medicare billing rules and payment Policies and guidelines for billing and payment will apply.

4. Services with Unestablished Fees. If a fee has not been established by Medicare for a particular procedure, and CalOptima has provided authorization for Professional to provide such service, CalOptima shall reimburse Professional under the following guidelines:

   4.1 "By Report & Unlisted" codes that CalOptima has provided authorization for Professional to provide such services will be paid in accordance to Medicare billing and payment guidelines .

   4.2 Professional shall utilize current payment codes and modifiers for Medicare.

   4.3 CPT or HCPCS codes not contained in the Medicare fee schedule at the time of service are not reimbursable.

   4.4 Should Medicare consider a service as non-covered, then Medi-Cal guidelines and reimbursement shall be applied in accordance with the guidelines identified in this contract. Professional may need to resubmit claim in accordance with Medi-Cal codes, billing rules, Policies, and guidelines for reimbursement.

   4.5 If the billed charges are determined to be unallowable, in excess of usual and customary charges, or inappropriate pursuant to a medical review by CalOptima, CalOptima will contact Professional for additional justification and these will be handled on a case-by-case basis.

IV. PAYMENT PROCEDURES

1. CalOptima agrees to grant Professional access to Member management information systems. Professional agrees to verify each Member's eligibility to receive Covered Services on the date of service. In addition, for PCP services, Professional must verify that CalOptima has not assigned Member receiving Covered Services from Professional to a Provider other than Professional prior to providing such services.

2. Billing and Claims Submission. Professional shall submit Claims for Covered Services in accordance with CalOptima Policies applicable to the Claims submission process.

3. Prompt Payment. CalOptima shall make payments to Professional in the time and manner set forth in CalOptima Policies and Procedures.

4. Claim Completion and Accuracy. Professional shall be responsible for the completion and accuracy of all Claims submitted, whether on paper forms or electronically, including claims submitted for the Professional by other parties. Use of a billing agent does not abrogate Professional's responsibility for the truth and accuracy of the submitted information. A Claim may not be submitted before the delivery of service. Professional acknowledges that Professional remains responsible for all Claims and that anyone who misrepresents, falsifies, or causes to be misrepresented or falsified, any records or other information relating to that Claim may be subject to legal action.

5. Claims Deficiencies. Any Claim that fails to meet CalOptima requirements for claims processing shall be denied and Professional notified of denial pursuant to CalOptima Policies and applicable

Federal and/or State laws and regulations.

6. Coordination of Benefits (COB). Professional shall coordinate benefits with other programs or entitlements recognizing where Other Health Coverage (OHC) is primary coverage in accordance with CalOptima Program requirements. Professional acknowledges that Medi-Cal is the payor of last resort.

7. Crossover Claims – Dual Eligible Members. "Crossover Claims" are claims for Dual Eligible Members where Medi-Cal is the secondary payer and Medicare or other health care coverage (OHC) is the Primary payor for dates of service during which the Dual Eligible Member was not assigned to one of CalOptima's Programs. California law limits Medi-Cal's reimbursement for a crossover claim to an amount that, when combined with the Medicare payment, should not exceed Medi-Cal's maximum allowed for similar services (Refer to Welfare and Institutions Code, Section 14109.5.)

   "Dual Eligible Members" are members who are eligible for both Medicare or other health care coverage (OHC) and Medi-Cal benefits.

   The Medi-Cal reimbursement rates in this contract will not apply to Crossover Claims for Dual Eligible Members. For Crossover Claims payment CalOptima will reimburse in accordance with CalOptima Policies, and state and federal regulations.

8. Member Financial Protections. Professional shall comply with Member financial protections as follows:

   8.1 Professional agrees to indemnify and hold Members harmless from all efforts to seek compensation and any claims for compensation from Members for Covered Services under this Contract. In no event shall a Member be liable to Professional for any amounts which are owed by, or are the obligation of, CalOptima.

   8.2 Professional agrees to hold Member harmless and not liable for Medicare Part A and B cost sharing when the State is responsible for paying such amounts. Professional agrees that Members will not be held liable for Medicare Part A and B cost sharing when the State is responsible for paying such amounts and that the provider will (A) accept the plan payment as payment in full, or (B) bill the appropriate State source as required at 42 CFR §422.504(g)(1)(iii). Professional will:

      1) accept the plan payment as payment in full, or

      2) bill the appropriate State source.

   8.3 In no event, including, but not limited to, non-payment by CalOptima, CalOptima's or the Professional's insolvency, or breach of this contract by CalOptima, shall the Professional, or any of its Practitioners, bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against the State of California or any Member or person acting on behalf of a Member for Covered Services pursuant to this Contract. Notwithstanding the foregoing, Professional may collect SOC, co-payments, and deductibles if, and to the extent, required under a specific CalOptima Program and applicable law.

   8.4 This provision does not prohibit Professional from billing and collecting payment for non-Covered Services if the CalOptima Member agrees to the payment in writing prior to the actual delivery of non-Covered Services and a copy of such agreement is given to the Member and placed in the Member's medical record prior to rendering such services.

   8.5 Upon receiving notice of Professional invoicing or balance billing a Member for the

difference between the Professional's billed charges and the reimbursement paid by CalOptima for any Covered Services, CalOptima may sanction the Professional or take other action as provided in this Contract.

This section shall survive the termination of this Contract for Covered Services furnished to CalOptima Members prior to the termination of this Contract, regardless of the cause giving rise to termination, and shall be construed to be for the benefit of Members. This section shall supersede any oral or written contrary agreement now existing or hereafter entered into between Professional and its Practitioners. Language to ensure the foregoing shall be included by Professional in all of Professional's Subcontracts.

ADDENDUM 3
MEDICARE ADVANTAGE PROGRAM REQUIREMENTS

The following additional terms and conditions apply to items and services furnished to Members under the CalOptima Medicare Advantage Program (OneCare):

1. Record Retention. Professional and it Subcontractors agree to retain books, records, contracts, computer or other electronic systems information, medical records, and documents related to this Contract and/or CMS Contract for at least ten (10) years from the final date of the CMS Contract period, or the date of completion of any audit, whichever is later, unless a longer period is required by law.

2. Right of Inspection, Evaluation, Audit of Records. Professional and its Subcontractors agree:

   2.1 To maintain and make available contracts, books, computer or other electronic systems, medical records, documents, and records related to this Contract and/or CMS Contract to CalOptima, DMHC, HHS, the Comptroller General, the U.S. General Accounting Office ("GAO"), any Quality Improvement Organization ("QIO") or accrediting organizations, including NCQA, and other representatives of regulatory agency or accrediting organizations or their designees to inspect, evaluate, collect, and audit for ten (10) years from the final date of the CMS Contract period or from the date of completion of any audit, whichever is later.

   2.2 For purposes of utilization management, quality improvement and other CalOptima administrative purposes, CalOptima and officials referred to in Section 2.1 of this Addendum 5, shall have access to, and copies of, at reasonable time upon request, the medical records, books, charts, and papers relating to the Professional's provision of health care services to Members, the cost of such services, and payments received by Professional from Members (or from others on their behalf). Medical records shall be provided at no charge to Members or CalOptima.

   2.3 For records subject to review under Section 2.1 of this Addendum 5 by HHS, the Comptroller General, or their designees, CMS will, except in exceptional circumstances, provide notification to CalOptima that a direct request for information has been initiated.

3. Accountability Acknowledgement. Professional further agrees and acknowledges that CalOptima oversees and is accountable to CMS for functions or responsibilities described in MA regulations; that CalOptima may only delegate activities or functions in a manner consistent with the MA program delegation requirements; and that any services or other activities performed by Professional pursuant to the Contract relative to the OneCare Program are consistent and comply with CalOptima's contractual obligations under the CMS Contract and adhere to delegation requirements set forth by MA statutes, regulations and/or other guidance. Where delegated responsibilities are identified in this Contract, the following shall apply:

   (a) Delegation by CalOptima. To the extent that responsibilities are delegated to Professional under this Contract, Professional warrants that it meets CalOptima delegation criteria set forth in the Attachment to this Contract and agrees to accept delegated responsibility for those listed activities. Professional agrees to perform the delegated activities in a manner consistent with the delegation criteria. Professional agrees to notify CalOptima of any change in its eligibility under the delegation criteria within twenty-four (24) hours from the date it fails to meet such delegation criteria. Professional

acknowledges that delegation to another entity does not alter Professional's ultimate obligations and responsibilities set forth in this Contract. Professional acknowledges and agrees that CalOptima retains final authority and responsibility for activities delegated under this Contract. Activities not expressly delegated herein by CalOptima or for which delegation is terminated are the responsibility of CalOptima.

(b) Reports on Delegated Activities. Professional agrees to provide CalOptima with periodic reports on delegated activities performed by Professional as provided in the delegation criteria. The report shall be in a form and contain such information as shall be agreed upon between the parties. Professional agrees to take those corrective actions identified by CalOptima through the audit review process.

(c) CalOptima Oversight of Delegation. The delegation of the functions and responsibilities stated herein does not relieve CalOptima of any of its accountability to CMS and obligations to its Members under applicable law. CalOptima is authorized to perform and remains liable for the performance of such obligations, notwithstanding any delegation of some or all of those obligations by Professional, which will be monitored by CalOptima on an ongoing basis. In the event Professional breaches its obligation to perform any delegated duties, CalOptima shall have all remedies set forth in this Contract, including, but not limited to, penalties or termination of the delegation of such functions to Professional as set forth in this Contract. Moreover, CalOptima shall have the right to require Professional to terminate any Subcontracting Professional for good cause, including but not limited to breach of its obligations to perform any delegated duties.

(d) Review of Credentials. Professional shall ensure that the credentials of medical professionals affiliated with the Professional are reviewed by it. Professional agrees that CalOptima will review and approve Professional's credentialing process on ongoing basis.

4. COB Requirements.

(a) MSP Obligations. Professional agrees to comply with MSP requirements. Professional shall coordinate with CalOptima for proper determination of COB and to bill and collect from other payers and third party liens such charges for which the other payer is responsible. Professional agrees to establish procedures to effectively identify, at the time of service and as part of their claims payment procedures, individuals and services for which there may be a financially responsible party other than MA Program. Professional will bill and collect from other payers such amounts for Covered Services for which the other payer is responsible.

(b) Professional Authority to Bill Third Party Payers. Professional may bill other individuals or entities for Covered Services for which Medicare is not the primary payer, as specified herein. If a Medicare Member receives from Professional Covered Services that are also covered under State or Federal workers' compensation, any no-fault insurance, or any liability insurance policy or plan, including a self-insured plan, Professional may bill any of the following— (1) the insurance carrier, the employer, or any other entity that is liable for payment for the services under section 1862(b) of the Act and 42 C.F.R. part 411 or (2) the Medicare enrollee, to the extent that he or she has been paid by the carrier, employer, or entity for covered medical expenses.

5. Reporting Requirements. Professional shall comply with CalOptima's reporting requirements in order that it may meet the requirements set forth in MA laws and regulations for submitting

encounter and other data including, without limitation, 42 CFR § 422.516. Professional also agrees to furnish medical records that may be required to obtain any additional information or corroborate the encounter data.

6. Submission and Prompt Payment of Claims. Professional agrees to submit claims to CalOptima in such format as CalOptima may require (but at minimum the CMS forms 1500, UB 04 or other form as appropriate) within ninety (90) days after the services are rendered. CalOptima reserves the right to deny claims that are not submitted within ninety (90) days of the date of service, except where Professional bills a third party payor as primary. Professional agrees to refrain from duplicate billing any claims submitted to CalOptima, unless expressly approved by CalOptima in order to process coordination of benefit claims. CalOptima shall provide payment to Professional within forty-five (45) business days of CalOptima's receipt of a clean and uncontested claim from Professional, or, CalOptima will contest or deny Professional's claim within forty-five (45) business days following CalOptima's receipt thereof.

7. In addition to Section 2.26 of this Contract, Professional and its Subcontractors shall ensure that payments are not made to individuals or entities included on the Preclusion List.

8. Additional Subcontractor Requirements. If any Covered Services relative to the OneCare Program under this Contract are to be provided by a Subcontractor on behalf of Professional, Professional shall ensure that such subcontracts are in writing and include the following:

8.1 An agreement to comply with the HHS and the Comptroller General, or their designees' right to directly audit, evaluate, collect, and inspect Subcontractors books, contracts, computer or other electronic systems, including medical records and documentation related to CMS' OneCare contract with CalOptima, for any particular contract period for ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.

8.2 For records subject to review under Section 8.1 of this Addendum 5, except in exceptional circumstances, CMS will provide notification to CalOptima that a direct request for information has been initiated.

8.3 An agreement to Member financial protections in accordance with Section 4.6 of the Contract, including prohibiting Subcontractors from holding a Member liable for payment of any fees that are the legal obligation of Professional.

8.4 An agreement to provide for continuation of health care benefits for the duration of the contract period for which CMS payments have been made; and for Members who are hospitalized on the date its contract with Professional terminates, or, in the event of Professional's insolvency, through the date of discharge.

8.5 An agreement that CalOptima may only delegate activities or functions to a Subcontractor in a manner consistent with requirements set forth in Section 8.7 of this Addendum 5.

8.6 An agreement to ensure that delegated activities or functions are consistent with CalOptima's OneCare contract requirements set forth by CMS.

8.7 If any of CalOptima's activities or responsibilities under this Contract are delegated to a Subcontractor, the following requirements apply and such subcontract must specify:

8.7.1 the delegated activities and reporting responsibilities.

8.7.2 either a provision for revocation of the delegation activities and reporting requirements or specify other remedies in instances where CMS or CalOptima determine that such parties have not performed satisfactorily.

8.7.3 that performance of the parties is monitored by CalOptima on an ongoing basis.

8.7.4 that the credentials of medical professionals affiliated with Subcontractor will be either reviewed by CalOptima; or the credentialing process will be reviewed and approved by CalOptima, and CalOptima must audit the credentialing process on an ongoing basis.

8.7.5 an agreement to comply with all applicable Medicare laws, regulations and CMS instructions.

8.8 If CalOptima delegates selection of Professionals, contractors, or subcontractors to Professional or Subcontractor, CalOptima retains the right to approve, suspend, or terminate such arrangement

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

22. Approve Amendment to Ancillary Services Contract to Extend Coverage of Temporary Alternative Services for Community-Based Adult Services

Contact

Yunkyung Kim, Chief Operating Officer 714-246-8408

Recommended Action

Approve amendment to Ancillary Services Contract to extend reimbursement for in-home Community-Based Adult Services (CBAS) through December 31, 2022.

Background and Discussion

Staff requests authorization to amend the Ancillary Services Contract for CBAS to reflect continued coverage of Temporary Alternative Services (TAS) by CalOptima following discontinuation of coverage by the California Department of Health Care Services (DHCS) on June 30, 2022. The amendment extends TAS coverage through December 31, 2022.

At the onset of the COVID-19 pandemic, in-person visits to CBAS centers were markedly decreased following the Governor's executive stay at home orders and social distancing requirements. In March 2020, DHCS obtained approval for waivers of certain member requirements related to the CBAS benefit and issued guidance to Managed Care Plans (MCP) for the provision of TAS. TAS are a means of providing CBAS services that remove barriers to access resulting from COVID-19 restrictions. In accordance with TAS authorization, CalOptima implemented several measures for its members, including waiver of the four-hour minimum required stay at the CBAS facility, as well as expanded types of services qualifying for reimbursement, including telephonic and live video visits, meal delivery, and in-home physical and occupational therapy. These measures were operationalized on March 13, 2020, via a contract amendment approved by the CalOptima Board of Directors (Board).

Per the most recent State guidance, flexibility of regulatory requirements for CBAS services and reimbursement for TAS will end on June 30, 2022. CalOptima is conducting the transition of its members back to CBAS centers between April 1, 2022, and December 31, 2022. The process will be gradual, returning members in a phased-in manner so as to not overwhelm the CBAS provider network. Preserving flexibility of the CBAS program requirements and extending TAS until the end of 2022 will enable staff to conduct this transition without compromising access to CBAS services. Staff therefore requests authorization to amend the Ancillary Services Contract for CBAS to extend coverage of TAS until December 31, 2022, ensuring continuous member access to CBAS services during this transition. In the event CalOptima reimburses contracted CBAS centers for TAS beyond the DHCS end date, those payments may be disallowed in future rate development submissions to DHCS.

Fiscal Impact

The recommended action is a budgeted item as part of professional medical costs under the proposed CalOptima Fiscal Year (FY) 2022-23 Operating Budget.

Back to Agenda

Rationale for Recommendation
Continuation of additional provider payments will help ensure providers continue to remain accessible to members.

Concurrence
Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact
Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

Back to Item
Back to Agenda
Back to Agenda

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

Back to Item
Back to Agenda
Back to Agenda

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Item

Back to Agenda

Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

Back to Item
Back to Agenda
Back to Agenda

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

Back to Item
Back to Agenda
Back to Agenda

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

Back to Item
Back to Agenda
Back to Agenda

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

AMENDMENT ___

ANCILLARY SERVICES CONTRACT

THIS AMENDMENT ___ TO THE ANCILLARY SERVICES CONTRACT ("Amendment") is effective as of ____ between CalOptima, the county organized health system for the County of Orange, California ("CalOptima"), and _____, ("Provider"), with respect to the following facts:

RECITALS

A. CalOptima and Provider entered into an Ancillary Services Contract ("Contract"), by which Provider has agreed to provide or arrange for the provision of Covered Services to members.

B. CalOptima and Provider Amended the Contract on March 13, 2020, to provide a mechanism by which Community-Based Adult Services ("CBAS") would be provided to members remaining at home during COVID-19 emergency. On June 30, 2022, the Department of Health Care Services ("DHCS") ended the waiver and funding for in-home, telephonic, and virtual video CBAS.

C. CalOptima desires to amend the Contract so that CalOptima can reimburse Provider for in-home, telephonic, and virtual video CBAS through December 31, 2022.

NOW, THEREFORE, the parties agree to the following amendment to the Contract:

1. Attachment C-1 "FLEXIBILITY OF SERVICES – COVID-19 PUBLIC HEALTH EMERGENCY COMPENSATION" shall be added to the Contract and is attached hereto.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT- Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. After the effective date of this Amendment, any reference to the Contract shall mean the Contract as amended and supplemented by this Amendment. Notwithstanding anything to the contrary in the Contract, in the event of a conflict between the terms and conditions of this Amendment and those contained within the Contract, the terms and conditions of this Amendment shall prevail. Capitalized terms not otherwise defined in this Amendment shall have the meanings ascribed to them in the Contract.

IN WITNESS WHEREOF, parties have executed this Amendment.

ATTACHMENT C-1

FLEXIBILITY OF SERVICES – COVID-19 PUBLIC HEALTH EMERGENCY COMPENSATION

Provider will receive its existing contract rate, as identified in Attachment C of the Contract, for the temporary flexibility to provide CBAS telephonically, in members' homes, and via live virtual video conferencing, as identified in Attachment A-1 ("**temporary alternative services**" or "**TAS**"). CalOptima's reimbursement of Provider for TAS shall extend through December 31, 2022, and be paid by CalOptima to Provider as follows:

1. Effective July 1, 2022, through September 30, 2022, TAS shall be paid at 100% of current Contract rate.

2. Effective October 1, 2022, through December 31, 2022:

    a) In-center services shall be paid at one hundred percent (100%) of current Contract rate.
    b) TAS (billed with Modifier 26) shall be paid at fifty percent (50%) of current Contract rate.

3. Effective January 1, 2023:

    a) In-center services shall be paid at one hundred percent (100%) of current Contract rate.
    b) TAS billed (with Modifier 26) will no longer be reimbursable.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

23. Authorize Extension of a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Fee-for-Service Providers for COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Authorize:

1. Extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels for compliant, contracted Medi-Cal fee-for-service (FFS) primary care, specialist, and ancillary providers for certain medically necessary services provided to CalOptima Community Network (CCN) and CalOptima Direct (COD) Medi-Cal members for dates of service July 1, 2022, through June 30, 2023; and
2. Extension of a temporary, short-term supplemental payment increase of 5% from FY 2021-22 original budgeted funding levels for compliant, contracted Medi-Cal FFS behavioral health providers for services provided to all CalOptima Medi-Cal members for dates of service July 1, 2022, through June 30, 2023.

Background & Discussion

Staff requests that the CalOptima Board of Directors (Board) authorize an extension of a temporary, supplemental payment increase to FFS primary care, specialist, ancillary, and behavioral health providers for COVID-19related expenses between July 1, 2022, and June 30, 2023.

In response to COVID-19, the Board authorized three temporary, short-term supplemental increases for contracted CalOptima Medi-Cal providers for certain medically necessary services provided to CCN and COD members. The increases were implemented between January 1, 2021, to June 30, 2021; September 1, 2021, to December 31, 2021; and January 1, 2022, to June 30, 2022. The Board also expanded the payments for behavioral health providers to include services provided to all CalOptima Medi-Cal members, rather than only CCN and COD members.

This supplemental payment increase under consideration is intended to continue supporting providers in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members.

To continue supporting providers with COVID-19-related expenses and members' access to care, staff recommends authorizing extension of the temporary, short-term supplemental payment increase, excluding those services listed in Attachment 2, for dates of service July 1, 2022, through June 30, 2023. This action will help preserve the viability of CalOptima's Medi-Cal FFS provider network and strengthen members' access to care in anticipation of higher expense levels post-pandemic.

Back to Agenda

Fiscal Impact

The recommended actions are budgeted items in the proposed CalOptima FY 2022-23 Operating Budget. The projected aggregate fiscal impact is approximately $11.2 million for Medi-Cal FFS providers and approximately $5.4 million for Medi-Cal FFS behavioral health providers.

Rationale for Recommendation

Authorizing extension of the temporary, COVID-19-related supplemental payment increase for contracted CCN and COD Medi-Cal FFS providers will preserve the viability of CalOptima's provider network, strengthen members' access to care and support the safety net system serving CalOptima members.

Concurrence

Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Rev. 2/3/2022

Action To Be Taken February 3, ~~2021~~ 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

50. Ratify Extension of a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Fee-for-Service Providers for COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Ratify:

1. Extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels, for compliant, contracted Medi-Cal fee-for-service (FFS) primary care, specialist and ancillary providers, for certain medically necessary services provided to CalOptima Community Network (CCN) and CalOptima Direct (COD) Medi-Cal members on dates of service January 1, 2022, through June 30, 2022;
2. Extension of a temporary, short-term supplemental payment increase of 5% from FY 2021-22 original budgeted funding levels, for compliant, contracted Medi-Cal FFS behavioral health providers for services provided to all CalOptima Medi-Cal members on dates of service January 1, 2022, through June 30, 2022; and
3. Use of unbudgeted expenditures up to $8.3 million from existing reserves to provide funding for the recommended supplemental payment increases.

Background & Discussion

Staff requests that the CalOptima Board of Directors (Board) ratify an extension of a temporary, supplemental payment increase to FFS primary care, specialist, ancillary, and behavioral health providers for COVID-related expenses between January 1, 2022 and June 30, 2022, as well as use of unbudgeted reserve funds to support the increase.

In response to COVID-19, the Board, at its March 4, 2021, meeting, authorized a temporary, short-term supplemental increase of 5% to contracted CalOptima Medi-Cal providers for certain medically necessary services provided to CCN and COD-A members between January 1, 2021, and June 30, 2021. At its September 2, 2021, meeting, the Board authorized resuming the supplemental increase through December 31, 2021. The Board also expanded the payments for behavioral health providers to include services provided to all CalOptima Medi-Cal members, rather than only CCN and COD-A members.

The supplemental payment increase under consideration is intended to support providers in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members.

To continue supporting providers with COVID-related expenses and members' access to care, staff recommends ratifying extension of the temporary, short-term supplemental payment increase, excluding those services listed in Attachment 4, for dates of service January 1, 2022, through June 30, 2022. This

Back to Item

Back to Agenda Back to Agenda

action will help preserve the viability of CalOptima's Medi-Cal FFS provider network and strengthen members' access to care in anticipation of higher expense levels post-pandemic.

Fiscal Impact

The recommended action to ratify extension of a temporary, short-term supplemental payment increase of 5% from FY 2021-22 original budgeted funding levels for the period of January 1, 2022, through June 30, 2022, for compliant, contracted Medi-Cal FFS primary care, specialist, behavioral health, and ancillary providers is an unbudgeted item.

The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS providers is approximately $5.6 million for the six-month period. The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS behavioral health providers is approximately $2.7 million. An allocation of up to $8.3 million from existing reserves would fund these actions.

Rationale for Recommendation

Ratifying extension of the temporary, COVID-related supplemental payment increase for contracted CCN and COD Medi-Cal FFS providers will preserve the viability of CalOptima's provider network, strengthen members' access to care and support the safety net system serving CalOptima members.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 2, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

14. Consider Authorizing a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Fee-for-Service Providers due to COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Members

Contacts

Ladan Khamseh, Chief Operations Officer, (714) 246-8866
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted Medi-Cal Fee-for-Service (FFS) Primary Care, Specialist and Ancillary Providers, for certain medically necessary services provided to CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Members on dates of service September 1, 2021, through December 31, 2021;
2. Authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted Medi-Cal FFS Behavioral Health Providers to include all CalOptima Medi-Cal members; and
3. Authorize unbudgeted expenditures up to $5.5 million from existing reserves to provide funding for the recommended supplemental payment increases.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency (PHE) under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its March 4, 2021, meeting, the Board authorized a short-term supplemental increase of 5% from current levels to contracted CalOptima Medi-Cal primary care, specialist, behavioral health and ancillary providers for certain medically necessary services provided to CCN and COD-A members between January 1, 2021, and June 30, 2021.

Discussion

Management recognizes that the coronavirus pandemic continues to place significant stress on the healthcare providers and delivery system serving CalOptima members. In late June, the Centers for Disease Control and Prevention (CDC) issued new guidance and data related to the more contagious Delta variant. Orange County has experienced a surge of Delta variant cases leading to increased hospitalizations and strain on health care resources.

In mid-July, the California Department of Health Care Services (DHCS) released its Medi-Cal COVID-19 Vaccine Incentive Program. This program will use $350 million dollars statewide to improve the vaccination rates among Medi-Cal beneficiaries. The focus populations include members who:

1. Are homebound and unable to travel to vaccination sites;
2. Are 50-64 years of age with multiple chronic diseases;
3. Self-identify as persons of color; and
4. With the return to school, are youth 12-25 years old.

This additional funding will assist providers to address the latest surge in Delta variant cases and to help improve vaccination rates for CalOptima's members by promoting an increase in vaccinations within the Medi-Cal focus populations, consistent with DHCS's COVID-19 vaccination strategy.

The prior supplemental payments to behavioral health provides included medically necessary services provided only to CCN and COD-A members. This recommended action is to expand these supplemental payments to behavioral health to include all CalOptima Medi-Cal members.

In recognition of the demands the pandemic has placed on providers, providing the supplemental payment increase for the referenced period for medically necessary Medi-Cal services, is recommended. The increase will help preserve the viability of CalOptima's Medi-Cal FFS provider network, and strengthen access to care in light of the higher utilization levels, including COVID-19-related treatment.

Staff recommends that the Board approve a resumption of the temporary, supplemental 5% increase for providers, excluding those services listed in Attachment 3, and necessary unbudgeted expenditures to implement this increase for dates of service from September 1, 2021, through December 31, 2021.

Fiscal Impact

The recommended action to authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels for the period of September 1, 2021, through December 31, 2021, for compliant, contracted Medi-Cal FFS primary care, specialist, behavioral health and ancillary providers is an unbudgeted item.

The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS providers is approximately $3.7 million for the four-month period. The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS behavioral health providers is approximately $1.8 million. An allocation of up to $5.5 million from existing reserves will fund these actions.

As of this writing, DHCS has not released detailed guidance on their Medi-Cal COVID-19 Vaccine Incentive Program. Management anticipates that the use of reserves may be reduced depending on actual funding provided by DHCS for this purpose.

Rationale for Recommendation

Resuming the temporary, PHE-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS providers is intended to ensure the viability of CalOptima's FFS Medi-Cal providers, strengthens access to member care and supports the safety net system serving CalOptima members during the pandemic.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken March 4, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

24. Consider Authorizing a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Medi-Cal Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Providers, except those affiliated with Providence St. Joseph Heritage Healthcare, for Mitigation of COVID-19-Related Expenses

Contacts

Ladan Khamseh, Chief Operations Officer (714) 246-8866
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted CalOptima Medi-Cal Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Primary Care, Specialist, Behavioral Health and Ancillary Providers, except those affiliated with Providence St. Joseph Heritage Healthcare, for certain medically necessary services provided retroactive to dates of service January 1, 2021, through June 30, 2021; and

2. Authorize the additional 5% in unbudgeted expenditures to provide funding for the recommended supplemental payment increase.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic, and the strain it has placed on providers, a supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS providers, except those affiliated with Providence St. Joseph Heritage Healthcare, is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for certain medically necessary services provided retroactive to the period of January 1, 2021, through June 30, 2021. The increase is intended to support CalOptima's Medi-Cal FFS providers and strengthen access to care,

given potential utilization changes and COVID-19-related testing and treatment in the current environment. In some cases, groups and/or categories of services/providers not included here have separately received COVID-19-related increases based on direction from the Department of Health Care Services (e.g., long term care providers), prior CalOptima Board action (health networks), or staff recommendations for other actions on today's Board agenda (e.g., hospitals and community health centers). Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment increase.

Pending Board approval, the supplemental payment increase will be administered to eligible providers for identified services through the claims payment system. Staff will give notice to the providers covered by this recommended action of the 5% increase. Staff proposes making supplemental payment increases beginning in March 2021. Adjudicated and paid claims between January 1, 2021, and the processing date (a March date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment. Staff plans to identify and process the supplemental payments at the claim line level that, at a minimum, identifies the eligible date of service, service code and payment. CalOptima staff anticipates that supplemental payments will be issued to eligible providers monthly from prior month's payment by the end of each month. Supplemental payments on identified claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to already adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. Staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels for contracted CCN and COD-A Medi-Cal FFS Primary Care, Specialist, Behavioral Health and Ancillary Providers, except those affiliated with Providence St. Joseph Heritage Healthcare, is an unbudgeted item.

The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS providers is approximately $5.1 million for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS providers is intended to ensure the viability of certain CalOptima's FFS Medi-Cal providers, strengthens access to member care and supports the safety net system serving CalOptima members during the pandemic.

Ladan Khamseh, Chief Operations Officer, (714) 246-8866
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize a temporary, short-term supplemental Medi-Cal payment increase of 5% from current levels to certain Providers affiliated with Providence St. Joseph Heritage Healthcare for certain medically necessary services provided retroactive to dates of service January 1, 2021, through June 30, 2021; and
2. Authorize the additional 5% unbudgeted expenditures to provide funding for the recommended supplemental payment increase.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic, and the strain it has placed on providers, a supplemental payment increase for certain providers affiliated with Providence St. Joseph Heritage Healthcare is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for certain medically necessary services provided retroactive to the period of January 1, 2021, through June 30, 2021. The increase is intended to support certain providers affiliated with Providence St. Joseph Heritage Healthcare and strengthen access to care, given potential utilization changes and COVID-19-related testing and treatment in the current environment. In some cases, groups and/or categories of services/providers not included here have separately received COVID-19-related increases based on direction from the Department of Health Care Services (e.g., long term care providers), prior CalOptima Board action (health networks), or staff recommendations for

other actions on today's Board agenda (e.g., hospitals and community health centers). Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment increase.

Pending Board approval, the supplemental payment increase will be administered to certain providers affiliated with Providence St. Joseph Heritage Healthcare for identified services through the claims payment system. Staff will give notice to certain providers affiliated with Providence St. Joseph Heritage Healthcare of the 5% increase. Staff proposes making supplemental payment increases beginning in March 2021. Adjudicated and paid claims between January 1, 2021, and the processing date (a March date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment. Staff plans to identify and process the supplemental payments at the claim line level that, at a minimum, identifies the eligible date of service, service code and payment. CalOptima staff anticipates that supplemental payments will be issued to certain providers affiliated with Providence St. Joseph Heritage Healthcare monthly from prior month's payment by the end of each month. Supplemental payments on identified claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to already adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. Staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels to certain providers affiliated with Providence St. Joseph Heritage Healthcare is an unbudgeted item.

The projected aggregated fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal fee-for-service providers is approximately $5.1 million for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for St. Joseph Heritage Healthcare is intended to ensure the viability of certain CalOptima's FFS Medi-Cal providers, strengthen access to member care and support the safety net system serving CalOptima members during the pandemic.

Recommended Actions

1. Authorize a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted CalOptima Medi-Cal Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Primary Care, Specialist, Behavioral Health and Ancillary Providers, except those affiliated with Providence St. Joseph Heritage Healthcare, for certain medically necessary services provided retroactive to dates of service January 1, 2021, through June 30, 2021; and

2. Authorize the additional 5% in unbudgeted expenditures to provide funding for the recommended supplemental payment increase.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic, and the strain it has placed on providers, a supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS providers, except those affiliated with Providence St. Joseph Heritage Healthcare, is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for certain medically necessary services provided retroactive to the period of January 1, 2021, through June 30, 2021. The increase is intended to support CalOptima's Medi-Cal FFS providers and strengthen access to care,

given potential utilization changes and COVID-19-related testing and treatment in the current environment. In some cases, groups and/or categories of services/providers not included here have separately received COVID-19-related increases based on direction from the Department of Health Care Services (e.g., long term care providers), prior CalOptima Board action (health networks), or staff recommendations for other actions on today's Board agenda (e.g., hospitals and community health centers). Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment increase.

Pending Board approval, the supplemental payment increase will be administered to eligible providers for identified services through the claims payment system. Staff will give notice to the providers covered by this recommended action of the 5% increase. Staff proposes making supplemental payment increases beginning in March 2021. Adjudicated and paid claims between January 1, 2021, and the processing date (a March date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment. Staff plans to identify and process the supplemental payments at the claim line level that, at a minimum, identifies the eligible date of service, service code and payment. CalOptima staff anticipates that supplemental payments will be issued to eligible providers monthly from prior month's payment by the end of each month. Supplemental payments on identified claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to already adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. Staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels for contracted CCN and COD-A Medi-Cal FFS Primary Care, Specialist, Behavioral Health and Ancillary Providers, except those affiliated with Providence St. Joseph Heritage Healthcare, is an unbudgeted item.

The projected aggregate fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal FFS providers is approximately $5.1 million for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS providers is intended to ensure the viability of certain CalOptima's FFS Medi-Cal providers, strengthens access to member care and supports the safety net system serving CalOptima members during the pandemic.

1. Authorize a temporary, short-term supplemental Medi-Cal payment increase of 5% from current levels to certain Providers affiliated with Providence St. Joseph Heritage Healthcare for certain medically necessary services provided retroactive to dates of service January 1, 2021, through June 30, 2021; and
2. Authorize the additional 5% unbudgeted expenditures to provide funding for the recommended supplemental payment increase.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic, and the strain it has placed on providers, a supplemental payment increase for certain providers affiliated with Providence St. Joseph Heritage Healthcare is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for certain medically necessary services provided retroactive to the period of January 1, 2021, through June 30, 2021. The increase is intended to support certain providers affiliated with Providence St. Joseph Heritage Healthcare and strengthen access to care, given potential utilization changes and COVID-19-related testing and treatment in the current environment. In some cases, groups and/or categories of services/providers not included here have separately received COVID-19-related increases based on direction from the Department of Health Care Services (e.g., long term care providers), prior CalOptima Board action (health networks), or staff recommendations for

other actions on today's Board agenda (e.g., hospitals and community health centers). Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment increase.

Pending Board approval, the supplemental payment increase will be administered to certain providers affiliated with Providence St. Joseph Heritage Healthcare for identified services through the claims payment system. Staff will give notice to certain providers affiliated with Providence St. Joseph Heritage Healthcare of the 5% increase. Staff proposes making supplemental payment increases beginning in March 2021. Adjudicated and paid claims between January 1, 2021, and the processing date (a March date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment. Staff plans to identify and process the supplemental payments at the claim line level that, at a minimum, identifies the eligible date of service, service code and payment. CalOptima staff anticipates that supplemental payments will be issued to certain providers affiliated with Providence St. Joseph Heritage Healthcare monthly from prior month's payment by the end of each month. Supplemental payments on identified claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to already adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. Staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels to certain providers affiliated with Providence St. Joseph Heritage Healthcare is an unbudgeted item.

The projected aggregated fiscal impact of the temporary, short-term supplemental payment increase to Medi-Cal fee-for-service providers is approximately $5.1 million for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for St. Joseph Heritage Healthcare is intended to ensure the viability of certain CalOptima's FFS Medi-Cal providers, strengthen access to member care and support the safety net system serving CalOptima members during the pandemic.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

24. Authorize Extension of a Temporary, Short-Term Supplemental Payment Increase for Contracted CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Community Health Centers, for COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Authorize an extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels, for compliant, contracted CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Community Health Centers, for certain medically necessary services provided to CCN and COD-A Medi-Cal members on dates of service July 1, 2022, through June 30, 2023.

Background & Discussion

Staff requests the CalOptima Board of Directors (Board) authorize an extension of a temporary, supplemental payment increase to FFS Community Health Centers for COVID-19related expenses between July 1, 2022, through June 30, 2023.

In response to COVID-19, the Board authorized three temporary, short-term supplemental payment increases for contracted CCN and COD-A Medi-Cal FFS community health centers for certain medically necessary services. The increases were implemented between January 1, 2021, to June 30, 2021; September 1, 2021 to December 31, 2021; and January 1, 2022 to June 30, 2022.

This supplemental payment increase under consideration is intended to continue supporting providers in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members.

To continue supporting providers with COVID-19-related expenses and members' access to care, staff recommends authorizing extension of the supplemental payment increase, excluding those services listed in Attachment 2, for dates of service July 1, 2022, through June 30, 2023.

Fiscal Impact

The recommended action is a budgeted item in the proposed CalOptima FY 2022-23 Operating Budget. The projected aggregate fiscal impact is approximately $600,000.

Rationale for Recommendation

Authorizing extension of the temporary, COVID-19-related supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS community health centers will preserve the viability of

Back to Agenda

CalOptima's provider network, strengthen members' access to care and support Orange County's safety net system serving CalOptima members.

Report Item

17. Ratify Extension of a Temporary, Short-Term Supplemental Payment Increase for Contracted CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Community Health Centers, for COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Ratify:

1. Extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels, for compliant, contracted CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Community Health Centers, for certain medically necessary services provided to CalOptima CCN and COD-A Medi-Cal members on dates of service January 1, 2022, through June 30, 2022; and
2. Use of unbudgeted expenditures up to $240,000 from existing reserves to provide funding for the recommended supplemental payment increases.

Background & Discussion

Staff requests the CalOptima Board of Directors (Board) ratify both an extension of a temporary, supplemental payment increase to FFS Community Health Centers for COVID-related expenses between January 1, 2022, through June 30, 2022, as well as use of unbudgeted reserve funds to support the increase.

In response to COVID-19, the Board, at its February 4, 2021, meeting, authorized a temporary, short-term supplemental payment increase of 5% to contracted CCN and COD-A Medi-Cal FFS community health centers for certain medically necessary services provided between January 1, 2021, and June 30, 2021. At its September 2, 2021, meeting, the Board authorized resuming the increase through December 31, 2021.

The supplemental payment increase under consideration is intended to support providers, in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members.

To continue supporting providers with COVID-related expenses and members' access to care, staff recommends ratifying the supplemental payment increase, excluding those services listed in Attachment 3, for dates of service January 1, 2022, through June 30, 2022.

Fiscal Impact

The recommended action to ratify extension of a temporary, short term supplemental payment increase of 5% from FY 2021-22 original budgeted funding levels for the period of January 1, 2022, through

Contact

Ladan Khamseh, Chief Operations Officer, (714) 246-8866
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted CalOptima Medi-Cal Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Community Health Centers, for certain medically necessary services provided on dates of service January 1, 2021, through June 30, 2021; and

2. Authorize unbudgeted expenditures up to $210,000 to provide funding for the supplemental payment increase to Medi-Cal FFS Community Health Centers.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic and the strain it has placed on providers, a supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for services provided by CCN and COD-A Medi-Cal FFS Community Health Centers during the period of January 1, 2021 through June 30, 2021. The increase is intended to support CalOptima's FFS Medi-Cal providers and strengthen access to care, given potential utilization changes and COVID-19-related testing and treatment in the current environment.

This item applies solely to CalOptima's Community Health Centers—including Federally Qualified Health Centers (FQHC), FQHC look alike clinics, and community clinics—which are an important part of the safety net serving CalOptima members. They provide increased access to care for CalOptima's various member populations, including the homeless, by reducing barriers such as language, distance, and wait time. In addition to the variety of primary, preventive, and health education services they provide, Community Health Centers have a direct impact in preventing the spread of COVID-19 throughout the community by providing COVID-19 testing and treatment. Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment Increase.

Pending Board approval, the supplemental payment increase will be administered to eligible providers for identified services through the claims payment system. Staff will give notice to contracted CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Community Health Centers of the 5% increase following Board approval. Staff proposes making supplemental payment increases for dates of service beginning January 1, 2021 in February 2021. Adjudicated and paid claims for dates of service January 1, 2021, up until the supplemental payment processing date (a February date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment, on a rolling time schedule. Staff plans to identify and process the supplemental payment at the covered service claim line level that, at a minimum, identifies the eligible date of service, covered billing service code and payment amount. CalOptima staff anticipates that supplemental payments will be issued to eligible providers monthly from prior month's payment by the end of each month. Supplemental payments on identified eligible claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. However, staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is an unbudgeted item. The projected aggregate fiscal impact is approximately $210,000 for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is intended to ensure the viability of CalOptima's FFS Medi-

Cal clinic providers, strengthens access to member care and supports the safety net system serving CalOptima members during the pandemic.

Regular Meeting of the CalOptima Board of Directors

Report Item

15. Consider Authorizing a Temporary, Short-Term Supplemental Payment Increase for Contracted Medi-Cal Fee-for-Service Community Health Centers due to COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct Medi-Cal Members

Contacts

Nancy Huang, Chief Financial Officer (657) 235-6935
Michelle Laughlin, Executive Director, Network Operations (657) 900-1116

Recommended Actions

1. Authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels, for compliant, contracted Medi-Cal Fee-for-Service (FFS) Community Health Centers, for certain medically necessary services provided to CalOptima Community Network (CCN) and CalOptima Direct (COD) Medi-Cal members on dates of service from September 1, 2021 through December 31, 2021; and
2. Authorize unbudgeted expenditures up to $150,000 from existing reserves to provide funding for the supplemental payment increase to Medi-Cal FFS Community Health Centers.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency (PHE) under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its February 4, 2021, meeting, the Board authorized a temporary, short-term supplemental payment increase of 5% from current levels to contracted CCN and COD Medi-Cal FFS community health centers for certain medically necessary services provided between January 1, 2021, and June 30, 2021.

Discussion

Management recognizes that the coronavirus pandemic continues to place significant stress on the healthcare providers and delivery system serving CalOptima members. In late June, the Centers for Disease Control and Prevention (CDC) issued new guidance and data related to the more contagious Delta variant. Orange County has experienced a surge of Delta variant cases leading to increased hospitalizations and strain on health care resources. In addition, the demand for coronavirus testing is expected to increase as children return to school in the fall. This will be especially true for certain age groups who are not currently eligible to receive the vaccine.

In mid-July, the California Department of Health Care Services (DHCS) released its Medi-Cal COVID-19 Vaccine Incentive Program. This program will use $350 million dollars statewide to

improve the vaccination rates among Medi-Cal beneficiaries. The focus populations include members who:

1. Are homebound and unable to travel to vaccination sites;
2. Are 50-64 years of age with multiple chronic diseases;
3. Self-identify as persons of color; and
4. With the return to school, are youth 12-25 years old.

The rate increase recommendation is intended to utilize and support providers in improving vaccination rates for CalOptima's members, consistent with DHCS's COVID-19 vaccination strategy. Pending additional guidance from DHCS, community health centers are expected to participate in the COVID-19 incentive program that CalOptima will develop. This additional funding will assist providers in addressing the latest surge in Delta variant cases and projected increase in demand for coronavirus testing, and to promote an increase in vaccinations within the Medi-Cal focus populations identified by DHCS.

In recognition of the demands the pandemic has placed on community health centers, providing the supplemental payment increase for the referenced period for medically necessary Medi-Cal services is recommended. The increase will help preserve the viability of CalOptima's Medi-Cal FFS community health centers and strengthen access to care in light of the higher utilization levels including COVID-19-related testing and treatment.

Staff recommends approving the temporary, supplemental 5% increase for providers, excluding those services listed in Attachment 2, and necessary unbudgeted expenditures to implement this increase for dates of service September 1, 2021 through December 31, 2021.

Fiscal Impact

The recommended action to authorize resuming a temporary, short term supplemental payment increase of 5% from current levels for the period of September 1, 2021 through December 31, 2021 for compliant, contracted Medi-Cal FFS Community Health Centers is an unbudgeted item. The projected aggregate fiscal impact is approximately $150,000 for the four-month period and will be funded from existing reserves.

As of this writing, DHCS has not released detailed guidance on their Medi-Cal COVID-19 Vaccine Incentive Program. Management anticipates that the use of reserves may be reduced depending on actual funding provided by DHCS for this purpose.

Rationale for Recommendation

The temporary, PHE-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS Community Health Centers ensures the viability of CalOptima's FFS Medi-Cal providers, strengthens access to member care and supports Orange County's safety net system during the pandemic.

2. Authorize unbudgeted expenditures up to $210,000 to provide funding for the supplemental payment increase to Medi-Cal FFS Community Health Centers.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic and the strain it has placed on providers, a supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is recommended. CalOptima staff recommends that the Board approve a supplemental payment increase for services provided by CCN and COD-A Medi-Cal FFS Community Health Centers during the period of January 1, 2021 through June 30, 2021. The increase is intended to support CalOptima's FFS Medi-Cal providers and strengthen access to care, given potential utilization changes and COVID-19-related testing and treatment in the current environment.

This item applies solely to CalOptima's Community Health Centers—including Federally Qualified Health Centers (FQHC), FQHC look alike clinics, and community clinics—which are an important part of the safety net serving CalOptima members. They provide increased access to care for CalOptima's various member populations, including the homeless, by reducing barriers such as language, distance, and wait time. In addition to the variety of primary, preventive, and health education services they provide, Community Health Centers have a direct impact in preventing the spread of COVID-19 throughout the community by providing COVID-19 testing and treatment. Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment Increase.

Pending Board approval, the supplemental payment increase will be administered to eligible providers for identified services through the claims payment system. Staff will give notice to contracted CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Community Health Centers of the 5% increase following Board approval. Staff proposes making supplemental payment increases for dates of service beginning January 1, 2021 in February 2021. Adjudicated and paid claims for dates of service January 1, 2021, up until the supplemental payment processing date (a February date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment, on a rolling time schedule. Staff plans to identify and process the supplemental payment at the covered service claim line level that, at a minimum, identifies the eligible date of service, covered billing service code and payment amount. CalOptima staff anticipates that supplemental payments will be issued to eligible providers monthly from prior month's payment by the end of each month. Supplemental payments on identified eligible claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to adjudicated and paid claims, timely payment requirements, such as interest, will not be applied. However, staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is an unbudgeted item. The projected aggregate fiscal impact is approximately $210,000 for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment for contracted CCN and COD-A Medi-Cal FFS Community Health Centers is intended to ensure the viability of CalOptima's FFS Medi-

Cal clinic providers, strengthens access to member care and supports the safety net system serving CalOptima members during the pandemic.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

25. Authorize Extension of a Supplemental Capitation Rate Increase for all Contracted Medi-Cal Health Networks, except ARTA Western California Inc., Monarch Health Plan Inc., Talbert Medical Group P.C., and Kaiser Foundation Health Plan Inc., for COVID-Related Expenses for Services Provided to CalOptima Medi-Cal Members and Authorize CEO to Execute Necessary Amendments

Contact

Yunkyung Kim, Chief Operating Officer 714-246-8408

Recommended Actions

1. Authorize an extension of capitation rate increases for all contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organization (HMO) Medi-Cal health networks, except ARTA Western California Inc. (ARTA), Monarch Health Plan Inc. (Monarch), Talbert Medical Group P.C. (Talbert), and Kaiser Foundation Health Plan Inc. (Kaiser) on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA) by 7.5% from Fiscal Year (FY) 2021-22 original budgeted base rates for the period of July 1, 2022, through June 30, 2023; and

2. Authorize the Chief Executive Officer (CEO) to execute amendments to Medi-Cal PHC, SRG, and HMO health network contracts except ARTA, Monarch, Talbert, and Kaiser, to implement health network capitation rate adjustments.

Background and Discussion

Staff requests that the CalOptima Board of Directors (Board) authorize extension of capitation rate increase for all Medi-Cal health networks, except ARTA, Monarch, Talbert, and Kaiser, for COVID-related expenses between July 1, 2022 and June 30, 2023. In response to COVID-19, the Board has authorized four temporary, short-term supplemental increases for contracted Medi-Cal health networks for certain medically necessary services provided to CalOptima members. The increases were implemented on December 20, 2021, September 2, 2021, January 7, 2021, and April 2, 2020

Management recognizes that continued support is necessary to help providers promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members. Staff recommends authorizing extension of the capitation rate increase from July 1, 2022 through June 30, 2023, and amending all Medi-Cal health network contracts except ARTA, Monarch, Talbert, and Kaiser, to reflect this increase.

Back to Agenda

Fiscal Impact

The recommended action is a budgeted item in the proposed CalOptima FY 2022-23 Operating Budget. The projected aggregate fiscal impact for all health networks is approximately $30 million.

Rationale for Recommendation

Authorizing the capitation rate increase for all Medi-Cal health networks except ARTA, Monarch, Talbert, and Kaiser, will ensure the viability of CalOptima's provider network, strengthen access to member care and support Orange County's safety net system serving CalOptima members.

Concurrence

Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 20, 2021
Special Meeting of the CalOptima Board of Directors

Report Item

48. Consider Authorizing Extension of a Temporary, Short-Term, Supplemental Capitation Rate Increase for all Contracted Medi-Cal Health Networks Except ARTA Western California Inc., Monarch Health Plan Inc., and Talbert Medical Group P.C. for COVID-Related Expenses for Services Provided to CalOptima Medi-Cal Members

Contacts

Yunkyung Kim, Chief Operating Officer, (714) 246-8408
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

Recommend authorizing the following actions for all Medi-Cal health networks except ARTA Western California Inc.(ARTA), Monarch Health Plan Inc. (Monarch), and Talbert Medical Group P.C. (Talbert):

1. Extending capitation rate increases for all contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organization (HMO) Medi-Cal health networks except ARTA, Monarch, and Talbert on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA) by 7.5% from Fiscal Year (FY) 2021-22 original budgeted base rates for the period of January 1, 2022, through June 30, 2022;
2. Use of unbudgeted expenditures in an aggregate amount for all health networks up to $16.2 million from existing reserves to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend all Medi-Cal PHC, SRG, and HMO Health Network contracts except ARTA, Monarch, and Talbert, to implement the health network capitation rate adjustments

Background

On January 31, 2020, the U.S. Secretary of Health and Human Services declared a public health emergency (PHE) under Section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor of California and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is continuing efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a temporary, short-term supplemental 5% health network Medi-Cal capitation rate increase from reserves for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020, to support CalOptima's provider networks and ensure member access proactively at the beginning of the pandemic.

At its January 7, 2021, special meeting, the Board authorized another 5% Health Network Medi-Cal capitation rate increase for contracted PHCs, SRGs and HMOs, except Kaiser, on Child, Adult and SPD COAs for the period of January 1, 2021, through June 30, 2021.

At its September 2, 2021, meeting, the Board authorized a Health Network Medi-Cal capitation rate increase of 7.5% from current levels, (i.e., FY 2021-22 original budgeted base rates) for the period of September 1, 2021, through December 31, 2021.

Discussion

Management recognizes that continued support is necessary to help providers promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members. Aligned with increased funding from the Department of Health Care Services (DHCS) for such expenses, staff recommends continuing enhanced funding to CalOptima providers. This action will help preserve the viability of CalOptima's Medi-Cal provider network and strengthen members' access to care in anticipation of higher expense levels post-pandemic.

To support our contracted health networks, Staff requests authority to:

1. Extend a 7.5% increase from FY 2021-22 original budgeted base rates to Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for all Medi-Cal health networks except ARTA, Monarch, and Talbert for the period of January 1, 2022, through June 30, 2022. The projected aggregate fiscal impact is approximately $16.2 million for the six-month period and will be funded from existing reserves.

2. Amend all Medi-Cal health network contracts except ARTA, Monarch, and Talbert to reflect this increase for the period stated above.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 7.5% of total medical capitation expenditures, on Child, Adult and SPD COAs for the period of January 1, 2022, through June 30, 2022, in the CalOptima FY 2021-22 Operating Budget. The projected aggregate fiscal impact for all health networks is approximately $16.2 million for the six-month period and will be funded from existing reserves.

Rationale for Recommendation

Authorizing the Health Network Medi-Cal capitation rate increases for all Medi-Cal health networks except ARTA, Monarch, and Talbert will ensure the viability of CalOptima's provider network, strengthen access to member care and support Orange County's safety net system serving CalOptima members.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 2, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

13. Authorize Medi-Cal Health Network Capitation Rate Increases for the Period of September 1, 2021, through December 31, 2021, due to COVID-Related Expenses

Contacts

Nancy Huang, Chief Financial Officer, (657) 235-6935
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize resuming Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc. (Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 7.5% from current levels for the period from September 1, 2021, through December 31, 2021;
2. Authorize unbudgeted expenditures up to $10.4 million from existing reserves to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency (PHE) under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserves for contracted PHCs, SRGs and HMOs for the period from April 1, 2020, through June 30, 2020, to support CalOptima's provider networks and ensure member access proactively at the beginning of the pandemic.

At its January 7, 2021, special meeting, the Board authorized another 5% Health Network Medi-Cal capitation rate increase for contracted PHCs, SRGs and HMOs, except Kaiser, on Child, Adult and SPD COAs for the period from January 1, 2021, through June 30, 2021.

Discussion

Management recognizes that the coronavirus pandemic continues to place significant stress on the healthcare providers and delivery system serving CalOptima members. In late June, the Centers for Disease Control and Prevention (CDC) issued new guidance and data related to the more contagious Delta variant. Orange County has experienced a surge of Delta variant cases leading to increased hospitalizations and strain on health care resources. In addition, the demand for coronavirus testing is

expected to increase as children return to school in the fall. This will be especially true for certain age groups who are not currently eligible to receive the vaccine.

In mid-July, the California Department of Health Care Services (DHCS) released its Medi-Cal COVID-19 Vaccine Incentive Program. This program will use $350 million dollars statewide to improve the vaccination rates among Medi-Cal beneficiaries. The focus populations include members who:

1. Are homebound and unable to travel to vaccination sites;
2. Are 50-64 years of age with multiple chronic diseases;
3. Self-identify as persons of color; and
4. With the return to school, are youth 12-25 years old.

The rate increase recommendation is intended to utilize and support health networks to improve vaccination rates for CalOptima's delegated members and create a vaccine strategy consistent with DHCS's COVID-19 Vaccine Incentive Program and CalOptima's Vaccine Response Plan. The health network's vaccine strategy will include working with primary care providers (PCPs) to conduct direct outreach to unvaccinated members assigned to the PCP offices and may include member outreach, implementation of best practices, health education strategies for members who are hesitant, development of partnerships with community organizations, and increased accessibility of vaccinations for hard-to-reach members (e.g., pop-up clinics, mobile units, vaccinations for homebound members). A health network will be responsible for meeting pre-identified outcome measures to demonstrate improvements in vaccination rates among DHCS-identified populations of focus. Each health network will collaborate with CalOptima's Quality Improvement Department to ensure a streamlined approach for CalOptima members.

In recognition of the demands the pandemic has placed on health networks, providing the supplemental payment increase for the referenced period for medically necessary Medi-Cal services is recommended. The increase will help preserve the viability of CalOptima's health networks and strengthen access to care considering the higher utilization levels including COVID-19-related testing and treatment.

In order to support our contracted health networks, Staff requests authority to:

1. Provide a 7.5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates (except for Kaiser), and shared risk pool funding for Child, Adult and SPD COAs, for the period from September 1, 2021, through December 31, 2021. The projected aggregate fiscal impact is approximately $10.4 million for the four-month period and will be funded from existing reserves.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

This additional funding will assist Health Networks to address the latest surge in Delta variant cases and projected increase in demand for coronavirus testing, and to promote an increase in vaccinations within the Medi-Cal focus populations identified by DHCS.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 7.5% of total medical capitation expenditures, on Child, Adult and SPD COAs for the period of September 1, 2021, through December 31, 2021, in the CalOptima Fiscal Year (FY) 2021-22 Operating Budget. The projected aggregate fiscal impact is approximately $10.4 million for the four-month period and will be funded from existing reserves.

As of this writing, DHCS has not released detailed guidance on their Medi-Cal COVID-19 Vaccine Incentive Program. Management anticipates that the use of reserves may be reduced depending on actual funding provided by DHCS for this purpose.

Rationale for Recommendation

Resuming the supplemental capitation rate increase for Medi-Cal PHC, SRG, and HMO Health Networks, except Kaiser, during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as providing increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

Action To Be Taken January 7, 2021
Special Meeting of the CalOptima Board of Directors

Report Item

7. Authorize Health Network Medi-Cal Capitation Rate Increases for the Period of January 1, 2021, through June 30, 2021, due to COVID-Related Expenses

Contacts

Richard Sanchez, Chief Executive Officer, (657) 900-1481
Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc.(Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 5.0% from current levels for the period of January 1, 2021 through June 30, 2021;
2. Authorize unbudgeted expenditures up to $9 million to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserve for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020 to support CalOptima's provider networks and ensure member access proactively in the beginning of pandemic.

On December 23, 2020, CalOptima received final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS). The final rates included an update rate component for COVID-related adjustments.

Discussion

Management recognizes that the coronavirus pandemic has placed significant stress on healthcare providers and on the delivery system serving CalOptima members. Consistent with DHCS's rate adjustment methodology, staff has included COVID-related testing and treatment costs, as well as potential changes in utilization in the evaluation. As such, in order to support the viability of our contracted health networks, Management requests authority to:

1. Provide a 5.0% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for the period of January 1, 2021, through June 30, 2021, except Kaiser. The estimated aggregate monthly fiscal impact is approximately $1.5 million.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5.0% of total medical capitation expenditures, on Child, Adult and SPD COAs, in the CalOptima Fiscal Year (FY) 2020-21 Operating Budget. The projected aggregate monthly fiscal impact is approximately $1.5 million or up to $9 million for the period of January 1, 2021, through June 30, 2021. It will be net budget neutral since additional funding from DHCS is anticipated to be sufficient to cover the unbudgeted Medi-Cal capitation rate increase.

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

Report Item

4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact

Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact
Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

AMENDMENT IX TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT IX TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of _____ by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____("HMO"), with respect to the following facts:

RECITALS

A. CalOptima and HMO have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (COVID-19), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and HMO have entered into amendments for the periods of April 1, 2020, through June 30, 2020, and January 1, 2021, through June 30, 2021 that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and HMO desire to amend the Contract to include the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-9, "MEDI-CAL RATE ENHANCEMENT" shall be added to the Contract and is attached hereto.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors.

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment:

ATTACHMENT E-9

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through December 31, 2021, the base physician and base hospital capitation rates set forth in Attachment E-Amendment VI for the Child/Adult and SPD aid code categories shall be increased by _%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment VI, Adult Expansion Member capitation rates in Attachment E-1 Amendment V, or the Health Homes Program supplemental capitation payments in Attachment E-5 - Amendment VI.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken January 7, 2021
Special Meeting of the CalOptima Board of Directors

Report Item

7. Authorize Health Network Medi-Cal Capitation Rate Increases for the Period of January 1, 2021, through June 30, 2021, due to COVID-Related Expenses

Contacts

Richard Sanchez, Chief Executive Officer, (657) 900-1481
Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc.(Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 5.0% from current levels for the period of January 1, 2021 through June 30, 2021;
2. Authorize unbudgeted expenditures up to $9 million to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserve for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020 to support CalOptima's provider networks and ensure member access proactively in the beginning of pandemic.

On December 23, 2020, CalOptima received final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS). The final rates included an update rate component for COVID-related adjustments.

Discussion

Management recognizes that the coronavirus pandemic has placed significant stress on healthcare providers and on the delivery system serving CalOptima members. Consistent with DHCS's rate adjustment methodology, staff has included COVID-related testing and treatment costs, as well as potential changes in utilization in the evaluation. As such, in order to support the viability of our contracted health networks, Management requests authority to:

Back to Agenda Back to Item Back to Agenda

1. Provide a 5.0% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for the period of January 1, 2021, through June 30, 2021, except Kaiser. The estimated aggregate monthly fiscal impact is approximately $1.5 million.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

Fiscal Impact
The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5.0% of total medical capitation expenditures, on Child, Adult and SPD COAs, in the CalOptima Fiscal Year (FY) 2020-21 Operating Budget. The projected aggregate monthly fiscal impact is approximately $1.5 million or up to $9 million for the period of January 1, 2021, through June 30, 2021. It will be net budget neutral since additional funding from DHCS is anticipated to be sufficient to cover the unbudgeted Medi-Cal capitation rate increase.

Rationale for Recommendation
Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact

Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact
Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

AMENDMENT 10 TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT 10 TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of **January 1, 2022** by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____("Physician"), with respect to the following facts:

RECITALS

A. CalOptima and Physician have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (COVID-19), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and Physician have entered into amendments for the periods of April 1, 2020, through June 30, 2020, January 1, 2021, through June 30, 2021 and September 1, 2021 through December 31, 2021 that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and Physician desire to amend the Contract to extend the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors through June 30, 2022 for immediate aid due to the COVID-19 PHE. This additional funding is to address the increasing COVID-19 related expenses and to continuously improve vaccination rates for CalOptima's members within the Medi-Cal focus populations.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-8, "MEDI-CAL RATE ENHANCEMENT" shall be deleted in its entirety and replaced with a new Attachment E-8 – Amendment 10 "MEDI-CAL RATE ENHANCEMENT" attached hereto.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors.

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment.

ATTACHMENT E-8 – AMENDMENT 10

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through June 30, 2022, the base physician and base hospital capitation rates set forth in Attachment E-Amendment 8 for the Child/Adult and SPD aid code categories shall be increased by [redacted]%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment 8, Adult Expansion Member capitation rates in Attachment E-1 Amendment 8, or the Health Homes Program supplemental capitation payments in Attachment E-4 - Amendment VI.

AMENDMENT __ TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT __ TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of **July 1, 2022** by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____ ("HMO), with respect to the following facts:

RECITALS

A. CalOptima and HMO have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 ("COVID-19"), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and HMO have entered into amendments for the periods of April 1, 2020, through June 30, 2020, January 1, 2021, through June 30, 2021, September 1, 2021 through December 31, 2021 and January 1, 2022, through June 30, 2022, that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and HMO desire to amend the Contract to extend the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors through June 30, 2023 for immediate aid due to the COVID-19 PHE.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-9, "MEDI-CAL RATE ENHANCEMENT" of the Contract shall be deleted in its entirety and replaced with a new Attachment E-9 "MEDI-CAL RATE ENHANCEMENT", which is attached hereto and incorporated into the Contract by this reference.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors. After the effective date of this Amendment, any reference to the Contract shall mean the Contract as amended and supplemented by this Amendment. Notwithstanding anything to the contrary in the Contract, in the event of a conflict between the terms and conditions of this Amendment and those contained within the Contract, the terms and conditions of this Amendment shall prevail. Capitalized terms not otherwise defined in this Amendment shall have the meanings ascribed to them in the Contract.

[signature page follows]

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment.

ATTACHMENT E-9

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through June 30, 2023, the base physician and base hospital capitation rates set forth in Attachment E - Amendment 8 for the Child/Adult and SPD aid code categories shall be increased by 7.5%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment 8, Adult Expansion Member capitation rates in Attachment E-1 Amendment 8, or the Health Homes Program supplemental capitation payments in Attachment E-5 - Amendment VI. Following June 30, 2023, the 7.5% increase shall cease, and the rates under the Contract shall revert to pre- COVID-19 PHE levels unless the Contract is further amended by the parties.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

26. Authorize Extension of a Supplemental Capitation Rate Increase for ARTA Western California Inc., Monarch Health Plan Inc., and Talbert Medical Group P.C., Medi-Cal Health Networks Only, for COVID-Related Expenses for Services Provided to CalOptima Medi-Cal Members and Authorize CEO to Execute Necessary Amendments

Contact

Yunkyung Kim, Chief Operating Officer, (714) 246-8408

Recommended Actions

1. Authorize an extension of capitation rate increases for the ARTA Western California Inc. (ARTA), Monarch Health Plan Inc. (Monarch), and Talbert Medical Group P.C (Talbert) Medi-Cal health networks, on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA) by 7.5% from Fiscal Year (FY) 2021-22 original budgeted base rates for the period of July 1, 2022, through June 30, 2023; and

2. Authorize the Chief Executive Officer (CEO) to execute amendments to the ARTA, Monarch, and Talbert Medi-Cal health network contracts, to implement health network capitation rate adjustments.

Background and Discussion

Staff requests that the CalOptima Board of Directors (Board) authorize extension of capitation rate increase for the ARTA, Monarch, and Talbert Medi-Cal health networks, for COVID-related expenses between July 1, 2022 and June 30, 2023. In response to COVID-19, the Board has authorized four temporary, short-term supplemental increases for contracted Medi-Cal health networks for certain medically necessary services provided to CalOptima members. The increases were implemented on December 20, 2021, September 2, 2021, January 7, 2021, and April 2, 2020

Management recognizes that continued support is necessary to help providers promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members. Staff recommends authorizing extension of the capitation rate increase for the ARTA, Monarch, and Talbert health networks, from July 1, 2022 through June 30, 2023, and amending their contracts to reflect this increase.

Fiscal Impact

The recommended action is a budgeted item in the proposed CalOptima FY 2022-23 Operating Budget. The projected aggregate fiscal impact for all health networks is approximately $30 million.

Back to Agenda

Rationale for Recommendation

Authorizing the capitation rate increase and amendment to the ARTA, Monarch, and Talbert Medi-Cal health networks will ensure the viability of CalOptima's provider network, strengthen access to member care and support Orange County's safety net system serving CalOptima members.

Concurrence

Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

Recommend authorizing the following actions for all Medi-Cal health networks except ARTA Western California Inc.(ARTA), Monarch Health Plan Inc. (Monarch), and Talbert Medical Group P.C. (Talbert):

1. Extending capitation rate increases for all contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organization (HMO) Medi-Cal health networks except ARTA, Monarch, and Talbert on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA) by 7.5% from Fiscal Year (FY) 2021-22 original budgeted base rates for the period of January 1, 2022, through June 30, 2022;
2. Use of unbudgeted expenditures in an aggregate amount for all health networks up to $16.2 million from existing reserves to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend all Medi-Cal PHC, SRG, and HMO Health Network contracts except ARTA, Monarch, and Talbert, to implement the health network capitation rate adjustments

Background

On January 31, 2020, the U.S. Secretary of Health and Human Services declared a public health emergency (PHE) under Section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor of California and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is continuing efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a temporary, short-term supplemental 5% health network Medi-Cal capitation rate increase from reserves for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020, to support CalOptima's provider networks and ensure member access proactively at the beginning of the pandemic.

At its January 7, 2021, special meeting, the Board authorized another 5% Health Network Medi-Cal capitation rate increase for contracted PHCs, SRGs and HMOs, except Kaiser, on Child, Adult and SPD COAs for the period of January 1, 2021, through June 30, 2021.

At its September 2, 2021, meeting, the Board authorized a Health Network Medi-Cal capitation rate increase of 7.5% from current levels, (i.e., FY 2021-22 original budgeted base rates) for the period of September 1, 2021, through December 31, 2021.

Discussion

Management recognizes that continued support is necessary to help providers promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services for CalOptima members. Aligned with increased funding from the Department of Health Care Services (DHCS) for such expenses, staff recommends continuing enhanced funding to CalOptima providers. This action will help preserve the viability of CalOptima's Medi-Cal provider network and strengthen members' access to care in anticipation of higher expense levels post-pandemic.

To support our contracted health networks, Staff requests authority to:

1. Extend a 7.5% increase from FY 2021-22 original budgeted base rates to Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for all Medi-Cal health networks except ARTA, Monarch, and Talbert for the period of January 1, 2022, through June 30, 2022. The projected aggregate fiscal impact is approximately $16.2 million for the six-month period and will be funded from existing reserves.

2. Amend all Medi-Cal health network contracts except ARTA, Monarch, and Talbert to reflect this increase for the period stated above.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 7.5% of total medical capitation expenditures, on Child, Adult and SPD COAs for the period of January 1, 2022, through June 30, 2022, in the CalOptima FY 2021-22 Operating Budget. The projected aggregate fiscal impact for all health networks is approximately $16.2 million for the six-month period and will be funded from existing reserves.

Rationale for Recommendation

Authorizing the Health Network Medi-Cal capitation rate increases for all Medi-Cal health networks except ARTA, Monarch, and Talbert will ensure the viability of CalOptima's provider network, strengthen access to member care and support Orange County's safety net system serving CalOptima members.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 2, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

13. Authorize Medi-Cal Health Network Capitation Rate Increases for the Period of September 1, 2021, through December 31, 2021, due to COVID-Related Expenses

Contacts

Nancy Huang, Chief Financial Officer, (657) 235-6935
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize resuming Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc. (Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 7.5% from current levels for the period from September 1, 2021, through December 31, 2021;
2. Authorize unbudgeted expenditures up to $10.4 million from existing reserves to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency (PHE) under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserves for contracted PHCs, SRGs and HMOs for the period from April 1, 2020, through June 30, 2020, to support CalOptima's provider networks and ensure member access proactively at the beginning of the pandemic.

At its January 7, 2021, special meeting, the Board authorized another 5% Health Network Medi-Cal capitation rate increase for contracted PHCs, SRGs and HMOs, except Kaiser, on Child, Adult and SPD COAs for the period from January 1, 2021, through June 30, 2021.

Discussion

Management recognizes that the coronavirus pandemic continues to place significant stress on the healthcare providers and delivery system serving CalOptima members. In late June, the Centers for Disease Control and Prevention (CDC) issued new guidance and data related to the more contagious Delta variant. Orange County has experienced a surge of Delta variant cases leading to increased hospitalizations and strain on health care resources. In addition, the demand for coronavirus testing is

expected to increase as children return to school in the fall. This will be especially true for certain age groups who are not currently eligible to receive the vaccine.

In mid-July, the California Department of Health Care Services (DHCS) released its Medi-Cal COVID-19 Vaccine Incentive Program. This program will use $350 million dollars statewide to improve the vaccination rates among Medi-Cal beneficiaries. The focus populations include members who:

1. Are homebound and unable to travel to vaccination sites;
2. Are 50-64 years of age with multiple chronic diseases;
3. Self-identify as persons of color; and
4. With the return to school, are youth 12-25 years old.

The rate increase recommendation is intended to utilize and support health networks to improve vaccination rates for CalOptima's delegated members and create a vaccine strategy consistent with DHCS's COVID-19 Vaccine Incentive Program and CalOptima's Vaccine Response Plan. The health network's vaccine strategy will include working with primary care providers (PCPs) to conduct direct outreach to unvaccinated members assigned to the PCP offices and may include member outreach, implementation of best practices, health education strategies for members who are hesitant, development of partnerships with community organizations, and increased accessibility of vaccinations for hard-to-reach members (e.g., pop-up clinics, mobile units, vaccinations for homebound members). A health network will be responsible for meeting pre-identified outcome measures to demonstrate improvements in vaccination rates among DHCS-identified populations of focus. Each health network will collaborate with CalOptima's Quality Improvement Department to ensure a streamlined approach for CalOptima members.

In recognition of the demands the pandemic has placed on health networks, providing the supplemental payment increase for the referenced period for medically necessary Medi-Cal services is recommended. The increase will help preserve the viability of CalOptima's health networks and strengthen access to care considering the higher utilization levels including COVID-19-related testing and treatment.

In order to support our contracted health networks, Staff requests authority to:

1. Provide a 7.5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates (except for Kaiser), and shared risk pool funding for Child, Adult and SPD COAs, for the period from September 1, 2021, through December 31, 2021. The projected aggregate fiscal impact is approximately $10.4 million for the four-month period and will be funded from existing reserves.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

This additional funding will assist Health Networks to address the latest surge in Delta variant cases and projected increase in demand for coronavirus testing, and to promote an increase in vaccinations within the Medi-Cal focus populations identified by DHCS.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 7.5% of total medical capitation expenditures, on Child, Adult and SPD COAs for the period of September 1, 2021, through December 31, 2021, in the CalOptima Fiscal Year (FY) 2021-22 Operating Budget. The projected aggregate fiscal impact is approximately $10.4 million for the four-month period and will be funded from existing reserves.

As of this writing, DHCS has not released detailed guidance on their Medi-Cal COVID-19 Vaccine Incentive Program. Management anticipates that the use of reserves may be reduced depending on actual funding provided by DHCS for this purpose.

Rationale for Recommendation

Resuming the supplemental capitation rate increase for Medi-Cal PHC, SRG, and HMO Health Networks, except Kaiser, during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as providing increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

Action To Be Taken January 7, 2021
Special Meeting of the CalOptima Board of Directors

Report Item

7. Authorize Health Network Medi-Cal Capitation Rate Increases for the Period of January 1, 2021, through June 30, 2021, due to COVID-Related Expenses

Contacts

Richard Sanchez, Chief Executive Officer, (657) 900-1481
Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc.(Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 5.0% from current levels for the period of January 1, 2021 through June 30, 2021;
2. Authorize unbudgeted expenditures up to $9 million to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserve for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020 to support CalOptima's provider networks and ensure member access proactively in the beginning of pandemic.

On December 23, 2020, CalOptima received final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS). The final rates included an update rate component for COVID-related adjustments.

Discussion

Management recognizes that the coronavirus pandemic has placed significant stress on healthcare providers and on the delivery system serving CalOptima members. Consistent with DHCS's rate adjustment methodology, staff has included COVID-related testing and treatment costs, as well as potential changes in utilization in the evaluation. As such, in order to support the viability of our contracted health networks, Management requests authority to:

1. Provide a 5.0% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for the period of January 1, 2021, through June 30, 2021, except Kaiser. The estimated aggregate monthly fiscal impact is approximately $1.5 million.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5.0% of total medical capitation expenditures, on Child, Adult and SPD COAs, in the CalOptima Fiscal Year (FY) 2020-21 Operating Budget. The projected aggregate monthly fiscal impact is approximately $1.5 million or up to $9 million for the period of January 1, 2021, through June 30, 2021. It will be net budget neutral since additional funding from DHCS is anticipated to be sufficient to cover the unbudgeted Medi-Cal capitation rate increase.

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact

Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact
Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

AMENDMENT IX TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT IX TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of _____ by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____("HMO"), with respect to the following facts:

RECITALS

A. CalOptima and HMO have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (COVID-19), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and HMO have entered into amendments for the periods of April 1, 2020, through June 30, 2020, and January 1, 2021, through June 30, 2021 that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and HMO desire to amend the Contract to include the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-9, "MEDI-CAL RATE ENHANCEMENT" shall be added to the Contract and is attached hereto.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors.

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment:

FOR HMO:	FOR CALOPTIMA:

DATE

ATTACHMENT E-9

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through December 31, 2021, the base physician and base hospital capitation rates set forth in Attachment E-Amendment VI for the Child/Adult and SPD aid code categories shall be increased by _%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment VI, Adult Expansion Member capitation rates in Attachment E-1 Amendment V, or the Health Homes Program supplemental capitation payments in Attachment E-5 - Amendment VI.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken January 7, 2021
Special Meeting of the CalOptima Board of Directors

Report Item

7. Authorize Health Network Medi-Cal Capitation Rate Increases for the Period of January 1, 2021, through June 30, 2021, due to COVID-Related Expenses

Contacts

Richard Sanchez, Chief Executive Officer, (657) 900-1481
Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO), except Kaiser Foundation Health Plan, Inc.(Kaiser), on Child, Adult and Seniors and Persons with Disabilities (SPD) Categories of Aid (COA), by 5.0% from current levels for the period of January 1, 2021 through June 30, 2021;
2. Authorize unbudgeted expenditures up to $9 million to provide funding for Health Network capitation rate adjustments; and
3. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to implement the Health Network capitation rate adjustments.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its April 2, 2020, meeting, the Board authorized a 5% health network Medi-Cal capitation rate increase from reserve for contracted PHCs, SRGs and HMOs for the period of April 1, 2020, through June 30, 2020 to support CalOptima's provider networks and ensure member access proactively in the beginning of pandemic.

On December 23, 2020, CalOptima received final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS). The final rates included an update rate component for COVID-related adjustments.

Discussion

Management recognizes that the coronavirus pandemic has placed significant stress on healthcare providers and on the delivery system serving CalOptima members. Consistent with DHCS's rate adjustment methodology, staff has included COVID-related testing and treatment costs, as well as potential changes in utilization in the evaluation. As such, in order to support the viability of our contracted health networks, Management requests authority to:

Back to Agenda Back to Item Back to Agenda

1. Provide a 5.0% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates, and shared risk pool funding on Child, Adult and SPD COAs, for the period of January 1, 2021, through June 30, 2021, except Kaiser. The estimated aggregate monthly fiscal impact is approximately $1.5 million.

2. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts, except Kaiser, to reflect this increase for the period stated above.

Fiscal Impact
The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5.0% of total medical capitation expenditures, on Child, Adult and SPD COAs, in the CalOptima Fiscal Year (FY) 2020-21 Operating Budget. The projected aggregate monthly fiscal impact is approximately $1.5 million or up to $9 million for the period of January 1, 2021, through June 30, 2021. It will be net budget neutral since additional funding from DHCS is anticipated to be sufficient to cover the unbudgeted Medi-Cal capitation rate increase.

Rationale for Recommendation
Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence
Gary Crockett, Chief Counsel

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact

Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions

1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
4. Consider Actions Related to Coronavirus (COVID-19) Pandemic

Contact
Nancy Huang, Chief Financial Officer (714) 246-8400
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Concurrence

Gary Crockett, Chief Counsel

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda
Back to Item
Back to Agenda

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

AMENDMENT 10 TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT 10 TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of **January 1, 2022** by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____("Physician"), with respect to the following facts:

RECITALS

A. CalOptima and Physician have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (COVID-19), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and Physician have entered into amendments for the periods of April 1, 2020, through June 30, 2020, January 1, 2021, through June 30, 2021 and September 1, 2021 through December 31, 2021 that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and Physician desire to amend the Contract to extend the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors through June 30, 2022 for immediate aid due to the COVID-19 PHE. This additional funding is to address the increasing COVID-19 related expenses and to continuously improve vaccination rates for CalOptima's members within the Medi-Cal focus populations.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-8, "MEDI-CAL RATE ENHANCEMENT" shall be deleted in its entirety and replaced with a new Attachment E-8 – Amendment 10 "MEDI-CAL RATE ENHANCEMENT" attached hereto.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors.

IN WITNESS WHEREOF, CalOptima and _____ have executed this Amendment.

ATTACHMENT E-8 – AMENDMENT 10

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through June 30, 2022, the base physician and base hospital capitation rates set forth in Attachment E-Amendment 8 for the Child/Adult and SPD aid code categories shall be increased by [redacted]%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment 8, Adult Expansion Member capitation rates in Attachment E-1 Amendment 8, or the Health Homes Program supplemental capitation payments in Attachment E-4 - Amendment VI.

AMENDMENT __ TO
CONTRACT FOR HEALTH CARE SERVICES

THIS AMENDMENT __ TO THE CONTRACT FOR HEALTH CARE SERVICES ("Amendment") is effective as of **July 1, 2022** by and between Orange County Health Authority, a Public Agency, dba CalOptima ("CalOptima"), and, _____ ("HMO), with respect to the following facts:

RECITALS

A. CalOptima and HMO have entered into a Contract for Health Care Services ("Contract"), by which Physician has agreed to provide or arrange for the provision of Covered Services to Members.

B. On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319 of the Public Health Service ACT (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 ("COVID-19"), the COVID-19 Public Health Emergency ("COVID-19 PHE").

C. CalOptima and HMO have entered into amendments for the periods of April 1, 2020, through June 30, 2020, January 1, 2021, through June 30, 2021, September 1, 2021 through December 31, 2021 and January 1, 2022, through June 30, 2022, that have included the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors for immediate aid due to the COVID-19 PHE.

D. CalOptima and HMO desire to amend the Contract to extend the Medi-Cal capitation base rate enhancement approved by the CalOptima Board of Directors through June 30, 2023 for immediate aid due to the COVID-19 PHE.

NOW, THEREFORE, the parties agree as follows:

1. Attachment E-9, "MEDI-CAL RATE ENHANCEMENT" of the Contract shall be deleted in its entirety and replaced with a new Attachment E-9 "MEDI-CAL RATE ENHANCEMENT", which is attached hereto and incorporated into the Contract by this reference.

2. CONTRACT REMAINS IN FULL FORCE AND EFFECT – Except as specifically amended by this Amendment, all other conditions contained in the Contract shall continue in full force and effect. This Amendment is subject to approval by the Government Agencies and by the CalOptima Board of Directors. After the effective date of this Amendment, any reference to the Contract shall mean the Contract as amended and supplemented by this Amendment. Notwithstanding anything to the contrary in the Contract, in the event of a conflict between the terms and conditions of this Amendment and those contained within the Contract, the terms and conditions of this Amendment shall prevail. Capitalized terms not otherwise defined in this Amendment shall have the meanings ascribed to them in the Contract.

ATTACHMENT E-9

MEDI-CAL RATE ENHANCEMENT

For the period from September 1, 2021, through June 30, 2023, the base physician and base hospital capitation rates set forth in Attachment E - Amendment 8 for the Child/Adult and SPD aid code categories shall be increased by 7.5%. This rate enhancement shall not apply to the capitation rates for ESRD and AIDS aid code categories, the Whole Child Model base capitation rates in Attachment E - Amendment 8, Adult Expansion Member capitation rates in Attachment E-1 Amendment 8, or the Health Homes Program supplemental capitation payments in Attachment E-5 - Amendment VI. Following June 30, 2023, the 7.5% increase shall cease, and the rates under the Contract shall revert to pre- COVID-19 PHE levels unless the Contract is further amended by the parties.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

27. Authorize Extension of a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Community Network and CalOptima Direct Medi-Cal Fee-for-Service Hospitals, for COVID 19-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Authorize an extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels for compliant CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal fee-for-service (FFS) hospitals, for certain medically necessary services provided to CCN and COD-A Medi-Cal members for dates of service July 1, 2022, through June 30, 2023.

Background & Discussion

Staff requests the CalOptima Board of Directors (Board) authorize an extension of a temporary, supplemental payment increase to FFS hospitals for COVID 19-related expenses between July 1, 2022, through June 30, 2023.

In response to COVID-19, the Board authorized three temporary, short-term supplemental payment increase of 5% to contracted CCN and COD-A Medi-Cal FFS hospitals for certain medically necessary services. The increases were implemented between January 1, 2021, to June 30, 2021; September 1, 2021, to December 31, 2021; and January 1, 2022, to June 30, 2022.

This supplemental payment increase under consideration is intended to continue supporting providers in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services to our members.

To continue supporting providers with COVID-19-related expenses and members' access to care, staff recommends authorizing extension of the supplemental payment increase, excluding those services listed in Attachment 3 for dates of service July 1, 2022, through June 30, 2023.

Fiscal Impact

The recommended action is a budgeted item in the proposed CalOptima FY 2022-23 Operating Budget. The projected aggregate fiscal impact is approximately $11 million.

Rationale for Recommendation

Authorizing extension of the temporary, COVID-19-related supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS hospitals will preserve the viability of CalOptima's Medi-

Back to Agenda

Cal FFS hospitals, strengthen members' access care, and support Orange County's safety net system serving CalOptima members.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken February 3, ~~2021~~ 2022
Regular Meeting of the CalOptima Board of Directors

Rev. 2/3/2022

Report Item

18. Ratify Extension of a Temporary, Short-Term Supplemental Payment Increase for Certain Contracted CalOptima Community Network and CalOptima Direct Medi-Cal Fee-for-Service Hospitals, for COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Members

Contact

Yunkyung Kim, Chief Operating Officer (714) 246-8408

Recommended Actions

Ratify:

1. Extension of a temporary, short-term supplemental payment increase of 5% from Fiscal Year (FY) 2021-22 original budgeted funding levels, for compliant, CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal Fee-for-Service (FFS) Hospitals, for certain medically necessary services provided to CCN and COD-A Medi-Cal members for dates of service January 1, 2022, through June 30, 2022; and
2. Use of unbudgeted expenditures up to $5.5 million from existing reserves to provide funding for the supplemental payment increase to Medi-Cal FFS hospitals

Background & Discussion

Staff requests the CalOptima Board of Directors (Board) ratify both an extension of a temporary, supplemental payment increase to FFS Hospitals for COVID-related expenses between January 1, 2022, through June 30, 2022, as well as use of unbudgeted reserve funds to support the increase.

In response to COVID-19, the Board, at its February 4, 2021, meeting, authorized a temporary, short-term supplemental payment increase of 5% to contracted CCN and COD-A Medi-Cal FFS Hospitals for certain medically necessary services through June 30, 2021. The Board also authorized additional increased compensation to Long Term Acute Care Hospitals (LTAC) for authorized inpatient services provided to CalOptima members through June 30, 2021. At its September 2, 2021, meeting, the Board authorized resuming the supplemental increase through December 31, 2021.

The supplemental payment increase under consideration is intended to support providers in anticipation of higher expense levels, promote and improve vaccination rates, address additional variants of the COVID-19 virus, cover increased expenses for testing and treatment, and ensure uninterrupted, medically necessary Medi-Cal covered services to our members.

To continue supporting providers with COVID-related expenses and members' access to care, staff recommends ratifying extension of the supplemental payment increase, excluding those services listed in Attachment 4, for dates of service January 1, 2022, through June 30, 2022.

Fiscal Impact

Back to Item

Back to Agenda

Back to Agenda

The recommended action to ratify extension of a temporary, short-term supplemental payment increase of 5% from FY 2021-22 original budgeted funding levels for the period of January 1, 2022, through June 30, 2022, for CCN and COD-A Medi-Cal FFS Hospitals is an unbudgeted item. The projected aggregate fiscal impact is approximately $5.5 million for the six-month period and will be funded from existing reserves.

Rationale for Recommendation

Ratifying the temporary, COVID-related supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS Hospitals will preserve the viability of CalOptima's Medi-Cal FFS hospitals, strengthen members' access care and support Orange County's safety net system serving CalOptima members.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 2, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

16 Consider Authorizing a Temporary, Short-Term Supplemental Payment Increase for Contracted Medi-Cal Fee-for-Service Hospitals due to COVID-Related Expenses for Services Provided to CalOptima Community Network and CalOptima Direct Medi-Cal Members

Contacts

Nancy Huang, Chief Financial Officer, (657) 235-6935
Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Actions

1. Authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels, for claims for members associated with compliant, contracted Medi-Cal Fee-for-Service (FFS) Hospitals for certain medically necessary services provided to CalOptima Community Network (CCN) and CalOptima Direct-Administrative (COD-A) Medi-Cal members between September 1, 2021 and December 31, 2021; and
2. Authorize unbudgeted expenditures up to $3.6 million from existing reserves to provide funding for the supplemental payment increase to Medi-Cal FFS hospitals

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency (PHE) under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have similarly taken steps to slow the spread of the coronavirus and protect the public. As with federal, state, and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

At its February 4, 2021, meeting, the Board authorized a short-term supplemental increase of 5% from current levels to contracted CCN and COD-A Medi-Cal FFS Hospitals for certain medically necessary services provided between January 1, 2021, and June 30, 2021. The Board authorized additional increased compensation to Long Term Acute Care Hospitals (LTAC) for authorized inpatient services provided to CalOptima Members, setting reimbursement at the Chronic/Maintenance Level of Care for Members admitted on or after January 1, 2021, through June 30, 2021.

Discussion

Management recognizes that the coronavirus pandemic continues to place significant stress on healthcare providers and delivery system serving CalOptima members. In late June, the Centers for Disease Control and Prevention (CDC) issued new guidance and data related to the more contagious Delta variant. Orange County has experienced a surge of Delta variant cases leading to increased hospitalizations and strain on health care resources.

In mid-July, the California Department of Health Care Services (DHCS) released its Medi-Cal COVID-19 Vaccine Incentive Program. This program will use $350 million dollars statewide to improve the vaccination rates among Medi-Cal beneficiaries. The focus populations include members who:

1. Are homebound and unable to travel to vaccination sites;
2. Are 50-64 years of age with multiple chronic diseases;
3. Self-identify as persons of color; and
4. With the return to school, are youth 12-25 years old.

This additional funding will assist hospitals in addressing the latest surge in Delta variant cases, and help improve vaccination rates for CalOptima members by promoting an increase in vaccinations within the Medi-Cal focus populations identified by DHCS.

In recognition of the demands the pandemic has placed on hospitals, providing the supplemental payment increase for the referenced period for claims of CCN and COD-A Medi-Cal members, for medically necessary Medi-Cal services is recommended. The increase will help preserve the viability of CalOptima's FFS Medi-Cal hospitals, and strengthen access to care in light of the higher utilization levels including COVID-19-related treatment.

Staff recommends approving the temporary, supplemental 5% increase, excluding those services listed in Attachment 3, and necessary unbudgeted expenditures to implement this increase for dates of service September 1, 2021, through December 31, 2021.

Fiscal Impact

The recommended action to authorize resuming a temporary, short-term supplemental payment increase of 5% from current levels for the period of September 1, 2021, through December 31, 2021, for claims of members associated with compliant, contracted Medi-Cal FFS Hospitals is an unbudgeted item. The projected aggregate fiscal impact is approximately $3.6 million for the four-month period and will be funded from existing reserves.

As of this writing, DHCS has not released detailed guidance on their Medi-Cal COVID-19 Vaccine Incentive Program. Management anticipates that the use of reserves may be reduced depending on actual funding provided by DHCS for this purpose.

Rationale for Recommendation

Resuming the temporary, PHE-related supplemental payment is intended to ensure the viability of contracted CCN and COD-A Medi-Cal FFS Hospitals, and strengthens access for member care and supports the Orange County's hospital care delivery system serving CalOptima members during the pandemic.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken February 4, 2021
Regular Meeting of the CalOptima Board of Directors

Report Item

20. Consider Authorizing a Temporary, Short-Term Supplemental Payment Increase for Contracted Medi-Cal CalOptima Community Network and CalOptima Direct-Administrative Medi-Cal Fee-for-Service Hospitals for Mitigation of COVID-19 Related Expenses

Contacts

Ladan Khamseh, Chief Operations Officer, (714) 246-8866
Michelle Laughlin, Executive, Director Network Operations, (657) 900-1116

Recommended Actions

1. Authorize a temporary, short-term supplemental payment increase of 5% from current levels, for compliant contracted CalOptima Community Network (CCN) and CalOptima Direct (COD) Medi-Cal Fee-for-Service (FFS) Hospitals for certain medically necessary services provided on dates of service January 1, 2021 through June 30, 2021;

2. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend contracts with Long Term Acute Care Hospitals (LTAC) to increase compensation for authorized inpatient services provided to CalOptima Members at the Chronic/Maintenance Level of Care for Members admitted on or after January 1, 2021, and through June 30, 2021, to offset the impacts of the COVID-19 Public Health Emergency (PHE). The increased compensation will apply to authorized dates of service between January 1, 2021, and June 30, 2021; and

3. Authorize unbudgeted expenditures up to $5.0 million to provide funding for the supplemental payment increase to Medi-Cal FFS hospitals.

Background

On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under Section 319 of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Subsequently, the Governor and the Orange County Health Officer have taken similar steps to slow the spread of the coronavirus and protect the public. In collaboration with federal, state and local agencies, CalOptima is taking action to continue efforts to support providers serving CalOptima members during the pandemic.

In response to the public health emergency, the Board authorized a Medi-Cal capitation rate increase to CalOptima's health networks on April 2, 2020. Following receipt of the final Calendar Year 2021 Medi-Cal capitation rates from the California Department of Health Care Services (DHCS) (which included an updated rate component for COVID-19-related adjustments), the Board authorized a second capitation rate increase for Medi-Cal health networks on January 7, 2021.

Discussion

In recognition of the unprecedented and dynamic nature of the pandemic and the strain it has placed on hospitals, a supplemental payment increase for contracted CCN and COD-A Medi-Cal FFS hospitals is recommended. CalOptima's recommends that the Board approve a supplemental payment increase for contracted Medi-Cal FFS hospitals on qualifying claims during the period of January 1, 2021, through June 30, 2021. This increase is intended to support CalOptima's contracted hospitals for covered services, for a limited period. The increase is intended to support CalOptima's Medi-Cal FFS hospitals and strengthen access to care, given potential utilization changes and COVID-19-related testing and treatment in the current environment.

This item applies solely to CalOptima's contracted hospitals, including LTAC hospitals, which play a key role in treating members infected with COVID-19, and preventing the spread of COVID-19 throughout the community. Long Term Acute Care Hospitals are acute care hospitals designed for patients requiring inpatient care for an extended period of time. Admitting access to LTAC hospitals has been a key concern for members who require longer term hospital care. CalOptima's reimbursement for LTAC services falls into two levels of care: "LTAC," for which CalOptima pays a higher acute level reimbursement rate, and "chronic maintenance," a level of care that is reimbursed at a lower rate. To ensure member access to LTACs during this public health emergency, staff recommends amending contracts with LTAC hospitals to increase compensation for authorized Medi-Cal inpatient services provided to CalOptima Members at the Chronic/Maintenance Level of Care for Members admitted on or after January 1, 2021, and through June 30, 2021, to offset the impacts of the COVID-19 PHE. The increased compensation will apply to authorized dates of service between January 1, 2021, and June 30, 2021. This will be in addition to the 5% supplemental payment increase, for all authorized services for members in these facilities. Contractual billing and authorization requirements will remain in place; however, the LTAC reimbursement rate will be applied during this temporary period. Attachment 1 provides additional details regarding exclusions from the Temporary, Short-Term Supplemental Payment Increase.

Pending Board approval, the 5% supplemental payment increase will be administered to eligible hospitals for identified services through the claims payment system. Staff will provide notice to the providers covered by this recommended action of the 5% increase. Staff proposes making supplemental payment increases beginning in February 2021. Adjudicated and paid claims for dates of service between January 1, 2021, and the supplemental payment processing date (a February date to be determined) will receive a 5% supplemental payment adjustment. Moving forward, the 5% supplemental payment will be made monthly, for paid claims identified subsequent to the prior monthly supplemental payment, on a rolling time schedule. Staff plans to identify and process the supplemental payment at the claim line level that, at a minimum, identify the eligible date of service, covered billing service code and payment. CalOptima staff anticipates that supplemental payments will be issued to eligible hospitals monthly from prior month's payment by the end of each month. Supplemental payments on identified claims will be made so long as timely filing requirements have been met. Since supplemental payments are provided as an additional payment to already adjudicated and paid claims,

timely payment requirements, such as interest, will not be applied. However, staff will monitor the process to ensure that the supplemental payment adjustments are processed and paid appropriately. Additionally, current policies and procedures related to provider payment recoupment, grievance and appeals, and provider dispute resolution will be followed where applicable.

Fiscal Impact

The recommended action to authorize a temporary, short-term supplemental payment increase of 5% from current levels for contracted CCN and COD-A Medi-Cal FFS Hospitals is an unbudgeted item. The projected aggregate fiscal impact is approximately $5.0 million for the six-month period. Staff anticipates the net fiscal impact will be budget neutral, as decreased utilization of certain services within the Medi-Cal program in the current fiscal year will be sufficient to support the additional costs in unbudgeted FFS payments.

Rationale for Recommendation

The temporary, public health emergency-related supplemental payment is intended to ensure the viability of CalOptima's FFS Medi-Cal contracted hospitals, strengthens access for member care and supports the Orange County's hospital care delivery system serving CalOptima members during the pandemic.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item

28. Adopt Resolution No. 22-0602-02 Approving and Adopting Updated CalOptima Human Resources Policies and Appropriation of Funds and Authorization of Unbudgeted Expenditures

Contacts

Michael Hunn, Chief Executive Officer, (657) 900-1481
Brigette Hoey, Chief Human Resources Officer, (714) 246-8405

Recommended Actions

1. Adopt resolution approving updated CalOptima policies:
    a. GA. 8020: 9/80 Work Schedule
    b. GA. 8027: Anti-Harassment Policy
    c. GA. 8036: Education Reimbursement
    d. GA. 8042: Supplemental Compensation
    e. GA. 8050: Confidentiality
    f. GA. 8058. Salary Schedule
2. Appropriate funds and authorize unbudgeted expenditures in an amount up to $58,050 from existing reserves to fund the Supplemental Compensation Internet Stipend for the period of June 5, 2022 through June 30, 2022.

Background

Near CalOptima's inception, the Board of Directors delegated authority to the Chief Executive Officer to develop and implement employee policies and procedures, and to amend them as appropriate from time to time, subject to bi-annual updates to the Board. CalOptima's Bylaws require that the Board adopt by resolution, and from time to time amend, procedures, practices, and policies for, among other things, hiring employees and managing personnel.

Discussion

GA. 8020: 9/80 Work Schedule: This policy describes CalOptima's alternate workweek schedule commonly referred to as a 9/80 Work Schedule. The changes are intended to align this policy to the Telework Program Guidelines.

Policy Section	Proposed Change	Rationale	Impact
II.C.	Updated to restrict availability of 9/80 schedule for Executive Level Positions.	Aligns with Telework Policy restrictions for Executive Level Positions.	Aligns with related policies.
II.C.	Removed statement prohibiting employees from having a 9/80 schedule and	Aligns with removal of this restriction from the Telework Policy and Employee Handbook.	Aligns with related policies.

Back to Agenda

	participating in the Telework Program.		
IV.A-D & V.D.	Removed 9/80 Workweek Request Forms from policy attachments and added as a reference.	Allows for ease of future form modifications to provide clarity and improve ease of use.	Improves process for form modification.
IX.	Added Glossary Term for Executive Level Positions	Term was added to policy.	Provides clarity.

GA. 8027: Anti-Harassment Policy: This policy describes CalOptima's zero tolerance standard for discrimination, harassment, and retaliation and sets forth a procedure for promptly investigating complaints thereof.

Policy Section	Proposed Change	Rationale	Impact
Throughout	Full policy overhaul based on the California Department of Fair Employment and Housing's Equal Employment Opportunity (EEO) sample policy.	Ensure full compliance with State of California requirements regarding EEO, investigations, and training for unlawful harassment and to align with sample EEO policy.	Improved alignment with state requirements and clarity that policy requirements are met.
Section III. Table, Employee Section	Minor text edits and added statements regarding employee responsibilities for a harassment free work environment and cooperation in inquiry or investigations.	Clarify who the employee may report a complaint to.	Provides clarity.
Section III. Table, Employee Section	Added statements regarding employee responsibilities for a harassment free work environment and cooperation in inquiry or investigations.	Clarify employee responsibilities in the process.	Provides clarity.
Section III. Table, Supervisor Section	Added statements regarding supervisor responsibilities to cooperate in inquiry or investigation and keep complaints confidential.	Clarify supervisor responsibilities in the process.	Provides clarity.
Section III. Table, HR Section, bullet 1	Moved bullet on policy dissemination to new section II.	Not part of the complaint/investigation procedure.	Improves flow of policy.
Section III. Table, HR Section, bullets 2-6	Significant changes to HR processes for receipt, investigation, and recommended actions as a result of a complaint.	Align policy with practice and clarify roles between HR and department leader.	Aligns policy with practice.
Section IV.	Added attachment for Employee Complaint Intake Form.	Include form (that is already in use) as a policy attachment.	Provides transparency.

Back to Agenda

Section IX	Additions, deletions, and updates to glossary terms.	Align included terms with current policy.	Provides clarity

GA. 8036: Education Reimbursement: This policy describes CalOptima's pre-approval process for the educational reimbursement program established to offer repayment of reasonable educational and professional development expenses to eligible employees for work-related courses and/or programs, including courses offering credits towards professional licensure or certification requirements. Staff proposes to increase the reimbursement for qualifying courses (i) to eligible full-time employees from $2,000 for non-degree program and $3,500 for degree program to $5,250 regardless of the program, and (ii) to eligible part-time employees from $1,000 to $2,600 for all programs per fiscal year for tuition expenses.

Policy Section	Proposed Change	Rationale	Impact
II.C.	Increased fiscal year max benefit to $5,250 for full-time employees and $2,600 for part-time employees. Made the max benefit amount universal regardless of type of learning (degree or non-degree).	Improves benefit offered to our employees, encourages continuous learning, and makes CalOptima competitive with other like plans. Provides additional support for non-degree programs/learning that benefit CalOptima such as LVN, RN, PMP, and certifications that can hold similar value to the organization as a degree.	Provides more attractive benefit for recruitment and retention.
II.C.1.	Added statement about employee tax liability for reimbursements above IRS limits (currently $5,250).	CalOptima approves education reimbursement based on fiscal year and Board approved budget. IRS limits are based on calendar year, making it possible for reimbursements to exceed non-taxable limits in a calendar year.	Provides clarity.
III.Table Human Resources 4-6	Modified language to follow Accounting's current process for reimbursement.	Method of payment and accounting process may change. Modifying the language accounts for current, or future, defined process.	Reduces future policy changes in this area.
IV. & V.	Moved Education Expense Reimbursement Prior Authorization Request Form an Attachment to a Reference.	Allows for ease of future form modifications to provide clarity improve ease of use.	Improves process for form modifications.

GA. 8042: Supplemental Compensation: CalOptima recently transitioned many temporary teleworkers to full or partial telework. Teleworkers have either a CalOptima issued cell phone or a "soft phone" through their CalOptima computer; however, they are required to provide their internet connectivity. In consideration of the average costs associated with high-speed internet, staff recommends the following internet stipend under GA.8042 Supplemental Compensation.

Back to Agenda

- Full-time employees designated either full telework, partial telework, or community worker will receive twenty-five dollars ($25) per pay period commencing with the first full pay period following designation of full or partial telework or community worker status.

The internet stipend will become effective June 5, 2022.

Policy Section	Proposed Change	Rationale	Impact
II.I.	Added "Internet Stipend" at $25 per pay period for full and partial teleworkers. Executive level positions are not eligible.	To mitigate the connectivity costs associated with full and partial telework.	Provides compensation parity with other compensated costs.
III.B.	Revised statement regarding holiday hours used for the purposes of calculating overtime.	Clarity and accuracy.	Provides clarity and accuracy.
III.H	Added procedure for "Internet Stipend". Includes source of information for calculation of compensation.	Provide procedures for new supplemental compensation pay type.	Provides clarity.

GA. 8050: Confidentiality: This policy outlines CalOptima's guidelines for protecting proprietary, private, and confidential information. The changes are intended to provide clarification.

Policy Section	Proposed Change	Rationale	Impact
Throughout	Edited to reflect "proprietary, private, and/or confidential" in that order.	Consistency	Improves consistency throughout policy
II.B.	Section rewritten to more clearly define proprietary, private, and confidential information.	Clarity	Improves clarity
III.A.4.	Added statement regarding employee obligation to report issues.	Clarifies employee expectations and requirements	Provides clarity and expectations of employees
III.G.1.	Edited statement to include requirement that all new hires shall acknowledge that they have received, read, and understand this policy and agree to comply with it.	Clarity	Provides clarity and aligns with practice
III.H.	Added statement regarding employee ideas regarding proprietary, private, and/or confidential information and how to share them.	Clarity	Provides clarity and method of submitting ideas

Back to Agenda

IX.	Added definition for covered service and covered services. Updated definitions for employee and member.	Clarity	Provides clarity

GA. 8058 Salary Schedule: CalOptima Policy GA.8058 Salary Schedule and Attachment A are presented with the proposed changes as follows: two (2) job title changes to better reflect actual job responsibilities within a job series; six (6) new job titles to meet agency and program needs; twenty-two (22) position pay grade minimum changes reflective of increasing the minimum of pay grade A to $20/hour, a two percent (2%) consecutive increase to pay range minimums for grade B and C; and recalculation of pay grade midpoints respectively. No change to incumbent rate of pay is required. Pay grade maximums remain unchanged.

Policy Section	Proposed Change	Rationale	Impact
Attachment A, throughout	6 new job titles added and 2 job titles changed	Added or changed titles to distinguish between job level and/or duties.	Ability to better distinguish between job level and/or duties.
Attachment A, throughout	3 pay grades with increased pay grade minimums and pay grade mid-points adjusted accordingly.	Increased the minimums to reflect the current market	Improved outlook for recruitment and retention

Fiscal Impact

The recommended action to revise GA.8036 is a budgeted item. Education reimbursement funds included in the Fiscal Year (FY) 2021-22 Operating Budget is sufficient to support additional costs for the month of June 2022. The proposed FY 2022-23 Operating Budget includes $150,000 for education reimbursement. To the extent there is any additional fiscal impact above the budgeted amount, such impact will be addressed in separate Board actions.

The recommended action to revise GA.8042 is an unbudgeted item. A proposed allocation of up to $58,050 from existing reserves will fund internet stipends for the period of June 5, 2022, through June 30, 2022. The annual fiscal impact for internet stipends is approximately $755,000. Staff will include updated administrative expenses in the proposed FY 2022-23 Operating Budget.

The recommended action to revise GA.8058 to add and revise job titles and implement salary range adjustments for three (3) pay grades has no additional impact.

The recommended action to revise CalOptima policies GA.8020, GA.8027, and GA.8050 is operational in nature and has no additional fiscal impact beyond what was incorporated in the FY 2021-22 Operating Budget.

Concurrence
Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

RESOLUTION NO. 22-0602-02

RESOLUTION OF THE BOARD OF DIRECTORS ORANGE COUNTY HEALTH AUTHORITY
d.b.a. CalOptima

APPROVE UPDATED CALOPTIMA POLICIES

WHEREAS, section 13.1 of the Bylaws of the Orange County Health Authority, dba CalOptima, provide that the Board of Directors shall adopt by resolution, and may from time to time amend, procedures, practices and policies for, inter alia, hiring employees, and managing personnel; and

WHEREAS, in 1994, the Board of Directors designated the Chief Executive Officer as the Appointing Authority with full power to hire and terminate CalOptima employees at will, to set compensation within the boundaries of the budget limits set by the Board, to promulgate employee policies and procedures, and to amend said policies and procedures from time to time, subject to annual review by the Board of Directors, or a committee appointed by the Board for that purpose; and

WHEREAS, California Code of Regulations, Title 2, Section 570.5, requires CalOptima to adopt a publicly available pay schedule that identifies the position title and pay rate for every employee position, and CalOptima regularly reviews CalOptima's salary schedule accordingly.

NOW, THEREFORE, BE IT RESOLVED:

Section 1. That the Board of Directors hereby approves and adopts the attached updated CalOptima Policies:

a. GA.8020: 9/80 Work Schedule
b. GA.8027: Anti-Harassment Policy and Attachment A
c. GA.8036: Education Reimbursement
d. GA.8042: Supplemental Compensation with Attachments A-B
e. GA.8050: Confidentiality
f. GA.8058: Salary Schedule and Attachment A

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of June, 2022.

I. PURPOSE

This policy outlines how CalOptima will administer an alternate workweek schedule commonly referred to as a 9/80 Work Schedule.

II. POLICY

A. Based on operational needs, department managers may establish 9/80 Work Schedules within their departments. A 9/80 Work Schedule is eighty (80) hours of work in a two (2) week period worked over nine (9) days, instead of the traditional ten (10) days. This alternate work schedule may provide the department with improved coverage and scheduling and employees with another way to manage work and non-work responsibilities.

B. Customer Service Remains a Priority: The 9/80 Work Schedule is not an entitlement and will not be provided at the expense of service to the public and must not adversely affect workloads or the organization's or a department's ability to provide coverage and maintain service levels. Department managers, at their discretion, may discontinue an individual's, group's, or department's participation in the 9/80 Work Schedule based on business needs.

C. Eligibility: After completing initial on-boarding and training requirements, full-time employees may be eligible, with supervisory approval, to participate in the 9/80 Work Schedule. An employee must obtain supervisory approval to participate in the 9/80 Work Schedule. A 9/80 schedule is not available for ~~Director level positions and above~~Executive Level Positions, unless ~~-~~approved ~~-~~by the Chief Executive Officer. Initial training requirements may vary by department, but typically do not exceed ninety (90) calendar days. Individual 9/80 Work Schedules are set based on the pre-determined schedules for payroll and at the discretion of the department manager who will designate the hours for each day, as well as the day off, based on business needs, which shall be consistent with the 9/80 Federal Labor Standards Act (FLSA) Workweek definition. Employees not meeting job standards, expectations, and/or on a Performance Improvement Plan may not participate in the compressed work schedule until performance standards are met. Managers will review such exceptions with Human Resources (HR) before denying the option. Individuals who do not wish to participate may continue to work a standard forty (40) hour-week, eight (8) hours a day.~~Employees will not be eligible to participate in both the telework program and the 9/80 Work Schedule during the same period. Employees eligible for both may only request one (1) alternative at a tim~~

D. Approval: An employee must complete a 9/80 Workweek Request Form, acknowledge that they received and read this policy, and obtain supervisory approval before submitting the form to HR. Non-Exempt Employees cannot begin their 9/80 Work Schedule until they have received ~~formal~~written approval from HR that outlines the approved 9/80 schedule start date.

E. Transitioning to the 9/80 Work Schedule: When an employee transitions from an eight (8) hour per day workweek to a 9/80 Work Schedule, there will be a necessary change in the beginning of the ~~workweek.~~FLSA Workweek. This results in a situation in which some of the hours fall into both the old ~~workweek~~FLSA Workweek and the new ~~workweek~~FLSA Workweek. This could result in fewer or more than eighty (80) hours on an employee's paycheck for that transitional period. If the result is more than eighty (80) hours, a calculation of overtime will be made for an employee eligible for overtime, which includes those hours in both the old and new workweeks, and the greater of the two (2) amounts will be paid to the employee at time and a half. When possible, HR may require a Non-Exempt Employee to work a half ~~(½)~~ partial day during the transition week to both minimize overtime worked and ensure that the employee receives a full paycheck.

F. Hours of Work: CalOptima daily start times will continue to be flexible with each employee committing to a starting time no earlier than 6:00 a.m. Lunch breaks are pre-approved for one-half (1/2) hour. The option to extend to one (1) hour is based on manager's approval.

G. Paid Time Off (PTO): PTO accrual will remain the same for participating employees. When an employee takes a day off pursuant to CalOptima Policy GA.8018: Paid Time Off, the accrual will be depleted by the number of scheduled hours for that day. For example, if an employee takes a PTO day on one (1) of their nine (9) hour days, nine (9) hours of PTO time will be removed from their total available PTO hours. Holiday pay shall remain at eight (8) hours. When a holiday falls on a regular nine (9) hour ~~work day~~workday for a Non-Exempt Employee, the employee has the option of using one (1) hour of accrued PTO time, or if approved by their supervisor, the option of working one (1) hour of make-up time. Should a holiday fall on an employee's scheduled day off, the employee will be permitted to take off eight hours in-lieu of the holiday time off in the same workweek as the holiday.

H. Overtime: It is possible an employee's 9/80 Work Schedule may not generally correspond with CalOptima's pay periods; therefore, adjustments to overtime compensation due cannot be calculated until the completion of the employee's workweek. This may result in one (1) pay period's delay in the employee receiving the overtime compensation.

I. Employee Conduct: Employees must obtain approval to adjust their work schedule and work hours. Failure to adhere to assigned work hours, tardiness, and excessive absenteeism may lead to revocation of the 9/80 Work Schedule for the individual. If necessary, as a condition of participating in the 9/80 Work Schedule, employees must agree to work on a scheduled day off for an urgent situation, or as compelled by business needs as determined by the employee's manager. Non-Exempt employees required to work on their scheduled day off may incur overtime if the total hours worked in the FLSA workweek exceed forty (40) hours. Employees are encouraged to use days off to attend to personal business like medical/dental appointments for themselves and family members.

J. Termination of Program: The 9/80 Work Schedule is an optional program. CalOptima reserves the right to, at any time, discontinue the entire program and/or an individual employee's participation in the program, for any reason at management discretion. Should a manager choose to remove an employee from participating in the 9/80 Work Schedule, the manager must consult with HR in advance to develop a transition plan. Employees are not allowed to change their work schedules

without prior approval from HR and their manager. Any changes in schedules by Non-Exempt Employees must be within the same FLSA workweek.

III. PROCEDURE

Responsible Party	Action
Employee	Complete the 9/80 Workweek Request Form and forward to supervisor for review and approval. ▪ Non-Exempt Employees must submit the applicable request form to HR no less than two (2) weeks in advance of the requested 9/80 start date. ▪ Exempt employees must submit the form at least one (1) week in advance of the requested 9/80 start date.
Supervisor	Review form and approve or deny. ▪ Establish work schedule with the employee. ▪ If approved, forward form to HR in advance of the requested 9/80 Work Schedule start date.
Human Resources	~~Reviews~~Review request and approve or deny. ▪ If approved, determine ~~an~~ employee's new workweek and send an email to the employee to outline when the new workweek will begin and what hours must be worked in the transition week to minimize overtime.

IX. GLOSSARY

Term	Definition
9/80 Work Schedule	The 9/80 alternate work schedule consists of eight (8) business days of nine (9) hours per day and one (1) business day of eight (8) hours, for a total of eighty (80) hours during two (2) consecutive workweeks. The eight (8) hour ~~work day~~workday must be on the same day of the week as the employee's regularly scheduled day off. Therefore, under the 9/80 Work Schedule, one calendar week will consist of forty-four (44) hours (four (4) nine (9) hour days and one (1) eight (8) hour day) and the alternating calendar week will consist of thirty-six (36) hours (four (4) nine (9) hour days and one (1) day off). However, each workweek will only consist of forty (40) hours, in accordance with the 9/80 Federal Labor Standards Act (FLSA) Workweek.
9/80 Federal Labor Standards Act (FLSA) Workweek	Under the Fair Labor Standards Act, the workweek is defined as a fixed and regularly recurring period of seven (7) consecutive twenty-four (24) hour periods, or one hundred sixty-eight (168) hours (29 C.F.R. §778.105). The 9/80 workweek begins on the employee's eight (8) hour day, exactly four (4) hours after the scheduled start time~~,~~ and ends exactly three (3) hours and fifty-nine (59) minutes after the scheduled start time on the same day the following week. This is commonly referred to as a "day divide," in which four (4) hours of the eight (8) hour day occurs in one (1) week, and four (4) hours occurs in the following week. Department supervisors/managers and HR can answer questions about day divides.
Executive Level Position	The position of Executive Director or above.
Exempt Employee	Exempt status is determined by the Human Resources Department based on the position title and duties and responsibilities of the position and consistent with the federal Fair Labor Standards Act (FLSA) regulations. Although an employee's classification may meet applicable federal and/or state exemption criteria, the position may nevertheless be designated as non-exempt. For purposes of this policy, exempt employees do not earn overtime compensation.
Non-Exempt Employee	Non-Exempt status applies to all employees who are not identified by Human Resources as exempt. Non-Exempt employees are paid on an hourly basis and are eligible for overtime compensation. Although an employee's classification may qualify for applicable federal exemptions from the FLSA exemption criteria, the position may nevertheless be designated as non-exempt.
Performance Improvement Plan	A developmental coaching tool used to document performance and behavioral deficiencies or issues and create an action plan with goals and due dates to help employees correct and/or improve performance and behavior while still holding them accountable for past performance.

I. PURPOSE

This policy outlines how CalOptima will administer an alternate workweek schedule commonly referred to as a 9/80 Work Schedule.

II. POLICY

A. Based on operational needs, department managers may establish 9/80 Work Schedules within their departments. A 9/80 Work Schedule is eighty (80) hours of work in a two (2) week period worked over nine (9) days, instead of the traditional ten (10) days. This alternate work schedule may provide the department with improved coverage and scheduling and employees with another way to manage work and non-work responsibilities.

B. Customer Service Remains a Priority: The 9/80 Work Schedule is not an entitlement and will not be provided at the expense of service to the public and must not adversely affect workloads or the organization's or a department's ability to provide coverage and maintain service levels. Department managers, at their discretion, may discontinue an individual's, group's, or department's participation in the 9/80 Work Schedule based on business needs.

C. Eligibility: After completing initial on-boarding and training requirements, full-time employees may be eligible, with supervisory approval, to participate in the 9/80 Work Schedule. An employee must obtain supervisory approval to participate in the 9/80 Work Schedule. A 9/80 schedule is not available for Executive Level Positions, unless approved by the Chief Executive Officer. Initial training requirements may vary by department, but typically do not exceed ninety (90) calendar days. Individual 9/80 Work Schedules are set based on the pre-determined schedules for payroll and at the discretion of the department manager who will designate the hours for each day, as well as the day off, based on business needs, which shall be consistent with the 9/80 Federal Labor Standards Act (FLSA) Workweek definition. Employees not meeting job standards, expectations, and/or on a Performance Improvement Plan may not participate in the compressed work schedule until performance standards are met. Managers will review such exceptions with Human Resources (HR) before denying the option. Individuals who do not wish to participate may continue to work a standard forty (40) hour-week, eight (8) hours a day.

D. Approval: An employee must complete a 9/80 Workweek Request Form, acknowledge that they received and read this policy, and obtain supervisory approval before submitting the form to HR.

Non-Exempt Employees cannot begin their 9/80 Work Schedule until they have received written approval from HR that outlines the approved 9/80 schedule start date.

E. Transitioning to the 9/80 Work Schedule: When an employee transitions from an eight (8) hour per day workweek to a 9/80 Work Schedule, there will be a necessary change in the beginning of the FLSA Workweek. This results in a situation in which some of the hours fall into both the old FLSA Workweek and the new FLSA Workweek. This could result in fewer or more than eighty (80) hours on an employee's paycheck for that transitional period. If the result is more than eighty (80) hours, a calculation of overtime will be made for an employee eligible for overtime, which includes those hours in both the old and new workweeks, and the greater of the two (2) amounts will be paid to the employee at time and a half. When possible, HR may require a Non-Exempt Employee to work a half partial day during the transition week to both minimize overtime worked and ensure that the employee receives a full paycheck.

F. Hours of Work: CalOptima daily start times will continue to be flexible with each employee committing to a starting time no earlier than 6:00 a.m. Lunch breaks are pre-approved for one-half (1/2) hour. The option to extend to one (1) hour is based on manager's approval.

G. Paid Time Off (PTO): PTO accrual will remain the same for participating employees. When an employee takes a day off pursuant to CalOptima Policy GA.8018: Paid Time Off, the accrual will be depleted by the number of scheduled hours for that day. For example, if an employee takes a PTO day on one (1) of their nine (9) hour days, nine (9) hours of PTO time will be removed from their total available PTO hours. Holiday pay shall remain at eight (8) hours. When a holiday falls on a regular nine (9) hour workday for a Non-Exempt Employee, the employee has the option of using one (1) hour of accrued PTO time, or if approved by their supervisor, the option of working one (1) hour of make-up time. Should a holiday fall on an employee's scheduled day off, the employee will be permitted to take off eight hours in-lieu of the holiday time off in the same workweek as the holiday.

H. Overtime: It is possible an employee's 9/80 Work Schedule may not generally correspond with CalOptima's pay periods; therefore, adjustments to overtime compensation due cannot be calculated until the completion of the employee's workweek. This may result in one (1) pay period's delay in the employee receiving the overtime compensation.

I. Employee Conduct: Employees must obtain approval to adjust their work schedule and work hours. Failure to adhere to assigned work hours, tardiness, and excessive absenteeism may lead to revocation of the 9/80 Work Schedule for the individual. If necessary, as a condition of participating in the 9/80 Work Schedule, employees must agree to work on a scheduled day off for an urgent situation, or as compelled by business needs as determined by the employee's manager. Non-Exempt employees required to work on their scheduled day off may incur overtime if the total hours worked in the FLSA workweek exceed forty (40) hours. Employees are encouraged to use days off to attend to personal business like medical/dental appointments for themselves and family members.

J. Termination of Program: The 9/80 Work Schedule is an optional program. CalOptima reserves the right to, at any time, discontinue the entire program and/or an individual employee's participation in the program, for any reason at management discretion. Should a manager choose to remove an employee from participating in the 9/80 Work Schedule, the manager must consult with HR in advance to develop a transition plan. Employees are not allowed to change their work schedules without prior approval from HR and their manager. Any changes in schedules by Non-Exempt Employees must be within the same FLSA workweek.

III. PROCEDURE

Responsible Party	Action
Employee	Complete the 9/80 Workweek Request Form and forward to supervisor for review and approval. ▪ Non-Exempt Employees must submit the applicable request form to HR no less than two (2) weeks in advance of the requested 9/80 start date. ▪ Exempt employees must submit the form at least one (1) week in advance of the requested 9/80 start date.
Supervisor	Review form and approve or deny. ▪ Establish work schedule with the employee. ▪ If approved, forward form to HR in advance of the requested 9/80 Work Schedule start date.
Human Resources	Review request and approve or deny. ▪ If approved, determine employee's new workweek and send an email to the employee to outline when the new workweek will begin and what hours must be worked in the transition week to minimize overtime.

IX. GLOSSARY

Term	Definition
9/80 Work Schedule	The 9/80 alternate work schedule consists of eight (8) business days of nine (9) hours per day and one (1) business day of eight (8) hours, for a total of eighty (80) hours during two (2) consecutive workweeks. The eight (8) hour workday must be on the same day of the week as the employee's regularly scheduled day off. Therefore, under the 9/80 Work Schedule, one calendar week will consist of forty-four (44) hours (four (4) nine (9) hour days and one (1) eight (8) hour day) and the alternating calendar week will consist of thirty-six (36) hours (four (4) nine (9) hour days and one (1) day off). However, each workweek will only consist of forty (40) hours, in accordance with the 9/80 Federal Labor Standards Act (FLSA) Workweek.
9/80 Federal Labor Standards Act (FLSA) Workweek	Under the Fair Labor Standards Act, the workweek is defined as a fixed and regularly recurring period of seven (7) consecutive twenty-four (24) hour periods, or one hundred sixty-eight (168) hours (29 C.F.R. §778.105). The 9/80 workweek begins on the employee's eight (8) hour day, exactly four (4) hours after the scheduled start time and ends exactly three (3) hours and fifty-nine (59) minutes after the scheduled start time on the same day the following week. This is commonly referred to as a "day divide," in which four (4) hours of the eight (8) hour day occurs in one (1) week, and four (4) hours occurs in the following week. Department supervisors/managers and HR can answer questions about day divides.
Executive Level Position	The position of Executive Director or above.
Exempt Employee	Exempt status is determined by the Human Resources Department based on the position title and duties and responsibilities of the position and consistent with the federal Fair Labor Standards Act (FLSA) regulations. Although an employee's classification may meet applicable federal and/or state exemption criteria, the position may nevertheless be designated as non-exempt. For purposes of this policy, exempt employees do not earn overtime compensation.
Non-Exempt Employee	Non-Exempt status applies to all employees who are not identified by Human Resources as exempt. Non-Exempt employees are paid on an hourly basis and are eligible for overtime compensation. Although an employee's classification may qualify for applicable federal exemptions from the FLSA exemption criteria, the position may nevertheless be designated as non-exempt.
Performance Improvement Plan	A developmental coaching tool used to document performance and behavioral deficiencies or issues and create an action plan with goals and due dates to help employees correct and/or improve performance and behavior while still holding them accountable for past performance.

Policy:	GA.8027
Title:	~~Unlawful~~ Anti-~~Harassment~~Harassment
Department:	CalOptima Administrative
Section:	Human Resources
CEO Approval:	*/s/*
Effective Date:	01/05/2012
Revised Date:	TBD
Applicable to:	☐ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☒ Administrative

I. PURPOSE

This policy outlines CalOptima's zero tolerance for ~~harassment, discrimination~~Discrimination, Harassment, and ~~retaliation (collectively referred herein as "unlawful harassment").~~Retaliation and sets forth a procedure for promptly investigating complaints thereof.

II. POLICY

A. CalOptima is committed to providing a professional work environment that is free of Discrimination and Harassment based on one or more protected category(ies), and an environment free from Retaliation for participating in any protected activity(ies) covered by this policy. CalOptima is committed to providing equal employment opportunities to all Employees and applicants for employment. Accordingly, CalOptima has adopted and shall maintain this Anti-Harassment Policy designed to encourage professional and respectful behavior and prevent discriminating, harassing, or retaliatory conduct in our workplace. CalOptima shall implement appropriate corrective action(s), up to and including termination, in response to any violation of CalOptima's Anti-Harassment Policy, even if the violation does not rise to the level of unlawful conduct.

B. CalOptima prohibits Discrimination and Harassment based on the following categories: race, color, hairstyle, religion, religious creed (including religious dress and grooming practices), national origin, ancestry, citizenship, physical or mental disability, medical condition (including cancer and genetic characteristics), genetic information, marital status, registered domestic partner status, sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), sex stereotype, gender, transitioning status, gender identity, gender expression, age (40 years and over), sexual orientation, veteran and/or military status, protected medical leaves (requesting or approved for leave under the Family and Medical Leave Act or the California Family Rights Act), domestic violence victim status, political affiliation, and any other status protected by state or federal law. In addition, CalOptima prohibits Retaliation against a person who engages reasonably and in good faith in activities protected under this policy. Reporting or assisting in reporting suspected violations of this policy and cooperating in investigations or proceedings arising out of an alleged violation of this policy are protected activities.

C. All Employees are expected to assume responsibility for maintaining a work environment that is

Back to Agenda Back to Item Back to Agenda

free from Discrimination, Harassment and Retaliation. The law prohibits supervisors, managers and co-workers, as well as third parties with whom CalOptima employees come into contact in the workplace, from engaging in unlawful Discrimination, Harassment and Retaliation. Employees are encouraged to promptly report conduct that they reasonably believe violates this policy so that CalOptima shall have an opportunity to address and resolve any concerns. Managers and supervisors are required to promptly report conduct that they believe violates this policy. CalOptima is committed to responding to alleged violations of this policy in a timely and fair manner and to taking appropriate action aimed at ending the prohibited conduct.

D. Complaints/reports under this policy must be based on a reasonable belief of misconduct and made in good faith. CalOptima will not tolerate intentional false accusations of Discrimination, Harassment, or Retaliation. A finding of any intentional false accusations is considered a violation of this policy and may result in corrective action up to and including termination.

E. This policy applies to agents, contractors, volunteers, job applicants, and employees. In addition, this policy extends to conduct with a connection to an Employee's work, even when the conduct takes place away from CalOptima's premises, such as a business trip or business-related social function. CalOptima's policy prohibiting discrimination against CalOptima Members is addressed in CalOptima Policy HH.1104: Complaints of Discrimination.

F. CalOptima shall take appropriate steps and implement processes to protect Employees from unlawful Discrimination, Harassment and Retaliation in the workplace, including:

1. Employees are encouraged to timely report and file a complaint regarding suspected or actual inappropriate conduct in violation of this policy and/or applicable laws, and, whenever possible, to put the complaint or concern in writing. Employees may designate the report or complaint as confidential, which may remain confidential to the extent possible based on the circumstances and applicable laws, except with respect to the investigation, which may not be completely confidential. Employees can file complaints directly with their immediate supervisor, manager, or the Human Resources Department.

2. Supervisors and managers are required to forward all complaints, oral and/or written, alleging violation(s) of this policy to the Human Resources Department.

3. The Human Resources Department or designee will review any report or complaint of inappropriate conduct in violation of this policy and will complete a timely, thorough, and impartial review and/or investigation, when appropriate, that provides all parties appropriate due process and reaches reasonable conclusions based on the evidence collected.

4. Impacted parties are required to reasonably participate in the review and/or investigation of complaints alleging inappropriate conduct in violation of this policy.

5. The complainant and respondent will be timely informed of appropriate information related to the progress of the review or investigation, including the findings and closure of an investigation.

6. If, at the end of the investigation, inappropriate conduct or violation(s) of this policy or applicable law are found, CalOptima shall take appropriate remedial measures.

7. Employees reporting inappropriate conduct, along with employees participating in the investigation as witnesses, shall not be retaliated against for filing a complaint or participating in the investigation process.

G. Employees may also file a complaint directly with the United States Equal Employment Opportunity Commission (EEOC) or California Department of Fair Employment and Housing (DFEH), or other appropriate state or federal agency(ies). They may also file a civil action in the appropriate court, subject to applicable laws.

H. Prohibited Conduct

1. Discrimination: CalOptima prohibits discrimination based on any one or more protected characteristics as described in Section II.B. of this policy. Prohibited discrimination includes unequal treatment based upon the Employee or applicant's association with a member of these protected classes. Discrimination may include but is not necessarily limited to: allowing the applicant's or Employee's protected category to be a factor in hiring, promotion, compensation or other employment related decision, unless otherwise permitted by applicable law; and providing unwarranted assistance or withholding work-related assistance, cooperation, and/or information to applicants or Employees because of their protected category.

2. Harassment: CalOptima prohibits harassing, disrespectful or unprofessional conduct, including harassing, disrespectful or unprofessional conduct based on any one or more protected characteristics as described in Section II.B. of this policy. Prohibited harassment can be verbal (such as slurs, jokes, insults, epithets, gestures, or teasing), visual (such as the posting or distribution of offensive posters, symbols, cartoons, drawings, computer displays, or emails), or physical (such as physically threatening another person, blocking someone's way, making physical contact in an unwelcome manner, etc.).

3. Sexual Harassment: CalOptima prohibits Discrimination and Harassment based on sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), sex stereotype, sexual orientation, gender, gender identity, or gender expression. Sexually harassing conduct need not be motivated by sexual desire and may include situations that began as reciprocal relationships, but that later cease to be reciprocal. Sexual harassment may involve harassment of a person of the same gender as the harasser, regardless of either person's sexual orientation or gender identity. Prohibited Sexual Harassment falls into two categories: (1) "*quid pro quo*" ("this for that") when someone conditions a job, promotion, or other work benefit based on submission to sexual advances or other conduct based on sex; or (2) "hostile work environment" when unwelcome comments or conduct based on sex unreasonably interferes with your work performance or creates an intimidating, hostile, or offensive work environment. Prohibited Sexual Harassment may include all the actions described above as Harassment, as well as other unwelcome sex-based conduct, such as, but not limited to:

a. Unwelcome or unsolicited sexual advances;

b. Offering employment benefits in exchange for sexual favors;

c. Leering or gestures;

d. Displaying sexually suggestive objects, pictures, cartoons, or posters;

e. Derogatory comments, epithets, slurs, or jokes;

f. Graphic comments, sexually degrading words, conversations regarding sexual activities, or suggestive or obscene messages or invitations; or

g. Physical ~~CalOptima is committed to providing a work environment that is free of harassment, discrimination, and retaliation. Harassment and/or discrimination based on race, Sex, Sex Stereotype, gender, Gender Identity,~~ touching or assault, as well as impeding or blocking movements, or other verbal or physical conduct of a sexual nature.

4. Retaliation: CalOptima prohibits retaliation against an Employee because the Employee has engaged in protected activity. Protected activities may include, but are not limited to, reporting or assisting in reporting suspected violations of this policy or other applicable laws and/or cooperating in investigations or proceedings arising out of an alleged violation of this policy or other applicable laws. CalOptima shall not take any adverse employment action, based on the Employee's protected activity, that materially affects the terms and conditions of the Employee's employment status or is reasonably likely to deter the Employee from engaging in protected activity. Examples of Retaliation under this policy include, but are not limited to: demotion; suspension; reduction in pay; termination; denial of a merit salary increase; failure to hire or consider for hire; refusing to promote or consider for promotion because of reporting a violation of this policy; harassing another Employee for filing a complaint; denying employment opportunities for making a complaint or cooperating in an investigation; changing someone's work assignments; treating people differently such as denying an accommodation; not talking to an Employee when otherwise required by job duties; or otherwise excluding the Employee from job-related activities because of engagement in activities protected under this policy. Actual or threatened retaliation for rejecting sexual advances or complaining about sexual harassment is also unlawful and a violation of this policy.

I. CalOptima shall disseminate the Anti-Harassment Policy to all Employees and require them to acknowledge electronically that each individual has received and understood the Policy. All legally required posters shall be posted in a prominent and accessible location in the workplace.

J. Training Requirements

1. All non-management/non-supervisory Employees are required to attend Harassment prevention training for Employees (1 hour) within the first six (6) months of hire and at least every two (2) years thereafter.

2. All management/supervisory Employees must complete the Harassment prevention training for leaders (2 hours) within the first six (6) months of hire and at least every two (2) years thereafter. These trainings shall include prevention of abusive conduct in the workplace.

K. Addressing and Reporting Violations

1. Any Employee or applicant who experiences or witnesses behavior that they believe violates this policy is encouraged to immediately tell the offending individual that the behavior is inappropriate and, if they feel comfortable doing so, to tell the offending individual to stop the behavior. The applicant or Employee should also immediately report the alleged violation to his/her supervisor, manager, or the Human Resources Department. Employees are free to contact the Human Resources Department and are not required to request supervisor or manager approval to do this. If the alleged offender is the Employee's supervisor or manager, the Employee should report the conduct to any other supervisor or manager or the Human Resources Department. A complaint may be brought forward verbally or in writing. Written complaints can be made using, but not limited to, the Employee Complaint Intake Form.

2. Supervisors or managers who learn of any potential violation of this policy are required to immediately report the matter to Human Resources and must follow instructions provided by

Back to Agenda Back to Item Back to Agenda

Human Resources as to how best to proceed.

3. CalOptima shall promptly look into the facts and circumstances of any alleged violation, as appropriate. Even in the absence of a formal complaint, CalOptima may initiate an investigation where it has reason to believe that conduct that violates this policy has occurred. Moreover, even where a complainant conveys a request to withdraw their initial formal complaint, CalOptima may continue the investigation to ensure that the workplace is free from Harassment. Anonymous complaints shall also be investigated. The method will depend on the details provided in the anonymous complaint. If the complaint is sufficiently detailed, the investigation may be able to proceed in the same manner as any other complaint. If the information is more general, CalOptima may need to do an environmental assessment or survey to try to determine if misconduct has occurred. All investigations will be fair, impartial, timely, and completed by qualified personnel.

4. To the extent possible, CalOptima shall endeavor to keep the reporting of the applicant or Employee's concerns confidential; however, complete confidentiality cannot be guaranteed when it interferes with CalOptima's ability to fulfill its obligations under this policy. All Employees are required to cooperate fully with any investigation. This includes, but is not limited to, maintaining an appropriate level of discretion regarding the investigation, and disclosing any and all information that may be pertinent to the investigation. Upon completion of the investigation, if misconduct is substantiated, CalOptima shall take appropriate corrective and preventive action calculated to end the conduct up to and including formal corrective action where warranted.

L. Filing of Complaints Outside of CalOptima

1. Employees and applicants may file formal complaints of Discrimination, Harassment, or Retaliation with the agencies listed below. Individuals who wish to pursue filing with these agencies should contact them directly to obtain further information about their processes and time limits.

a. **California Department of Fair Employment and Housing (DFEH)**
2218 Kausen Drive, Suite 100
Elk Grove, CA 95758
800-884-1684 (voice), 800-700-2320 (TTY) or California's Relay Service at 711
contact.center@dfeh.ca.gov
https://www.dfeh.ca.gov

b. **U.S. Equal Employment Opportunity Commission**
450 Golden Gate Avenue 5 West,
P.O Box 36025
San Francisco, CA 94102-3661
1-800-669-4000 or 510-735-8909 (Deaf/hard-of-hearing callers only)
http://www.eeoc.gov/employees

2. Employees or applicants who believe they have been the subject of discrimination, harassment or retaliation for making a complaint or participating in an investigation of discrimination or harassment may file a complaint with the DFEH within three (3) years of the last act of discrimination, harassment or retaliation. DFEH serves as a neutral factfinder and attempts to help the parties voluntarily resolve disputes. DFEH may also file a civil complaint and seek court orders changing the employer's policies and practices, punitive damages, and attorney's fees and costs. Employees can also pursue the matter through a private lawsuit in civil court

after a complaint has been filed and a Right-to-Sue Notice has been issued. Training developed by DFEH can be accessed at the following link: https://www.dfeh.ca.gov/shpt/.

~~A. Gender Expression, Transitioning status, age, color, National Origin, immigration status, ancestry, mental or physical disability, sexual orientation, religion, religious creed, exercise of rights under Family and Medical Leave Act (FMLA), marital status, military and veteran status, medical condition, genetic information, or any other protected characteristic is a violation of state and federal law and is strictly prohibited by CalOptima. Any person who commits such a violation may be subject to personal liability as well as corrective action up to and including termination of employment.~~

~~B. This policy applies to all of CalOptima's agents, persons providing services pursuant to a contract, volunteers, unpaid interns, temporary employees, and employees, including supervisors and non-supervisory employees, and to non-employees who engage in unlawful harassment in the workplace.~~

~~C. Prohibited harassment includes verbal, physical, and/or visually perceived conduct in any form that is based on a protected characteristic and which creates an intimidating, offensive, or hostile work environment (must be severe or pervasive) or that interferes with work performance. Such conduct constitutes harassment when:~~

~~1. Submission to the conduct is made either an explicit, or implicit, condition of employment;~~

~~2. Submission to or rejection of the conduct is used as the basis for an employment decision; or~~

~~3. The harassment unreasonably interferes with an employee's work performance or creates an intimidating, hostile, or offensive work environment.~~

~~D. Prohibited unlawful harassment includes, but is not limited to, the following behaviors:~~

~~1. Verbal conduct such as epithets, stereotypes based on protected characteristic, derogatory or sexual jokes or comments, slurs or unwanted sexual advances, invitations, or comments;~~

~~2. Visual displays, such as derogatory and/or sexually-oriented posters, photography, cartoons, drawings, or gestures;~~

~~3. Physical conduct including assault, unwanted touching, intentionally blocking normal movement, or interfering with work because of sex, race, or any other protected characteristic; and/or~~

~~4. Threats and demands to submit to sexual requests as a condition of continued employment, or to avoid some other loss and offers of employment benefits in return for sexual favors.~~

~~E. CalOptima encourages reporting of all perceived or actual incidents of discrimination or harassment. An employee, temporary employee, volunteer, or unpaid intern who believes he or she is being, or has been, harassed or discriminated against based on a protected characteristic in any way, should report the facts of the incident or incidents immediately to his or her supervisor, manager, or, if he or she prefers, to the Human Resources (HR) Department. Supervisors and managers must report the incidents, or claims, immediately to the HR Department. An HR representative, or its designee, shall investigate any and all complaints of unlawful harassment based on a protected characteristic and take appropriate preventive and/or corrective action, when it is warranted. Reported complaints of unlawful harassment based on protected characteristic will be~~

~~investigated fairly, thoroughly, promptly, and in a confidential manner to the extent possible, involving only the parties who have a need to know. If a complaint is not resolved to the employee's or complainant's satisfaction, the employee or complainant may submit a request for review of the complaint via email to CalOptima's Executive Director of Human Resources.~~

~~F. CalOptima will not tolerate retaliation against an employee, temporary employee, volunteer, unpaid intern, or persons providing services pursuant to a contract for reporting harassment and/or discrimination, for cooperating in an investigation, for making compliance complaints, or for engaging in similar protected activity. Employees, temporary employees, volunteers, unpaid interns, or persons providing services pursuant to a contract engaging in any actions which are retaliatory against another employee, temporary employee, volunteer, unpaid intern, or persons providing services pursuant to a contract will be subjected to disciplinary action, up to and including termination of employment or contract.~~

~~G. CalOptima encourages all employees, temporary employees, volunteers, and unpaid interns to report any incidents of harassment prohibited by this policy immediately so that complaints can be quickly and fairly resolved. Employees, temporary employees, volunteers, and unpaid interns should be aware that the Federal Equal Employment Opportunity Commission and the California Department of Fair Employment and Housing investigate and prosecute complaints of prohibited harassment in employment. If an individual believes that CalOptima has failed to adequately address a complaint of harassment, that person may file a complaint with one of these agencies.~~

III. PROCEDURE

Responsible Party	Action
Employee	▪ Assume responsibility for a work environment free from Discrimination, Harassment and Retaliation. ▪ Report the facts of any incident(s) of ~~harassment~~Discrimination or ~~discrimination~~Harassment based on a protected characteristic or ~~retaliation~~Retaliation based on a protected activity immediately to your supervisor, manager, or~~, if you prefer,~~ the Human Resources (HR) Department. ▪ Cooperate in a reasonable inquiry or investigation into allegation(s) of Discrimination, Harassment or Retaliation.
Supervisor	▪ Gather all relevant facts from reporting ~~employee~~Employee and report it immediately to the HR Department. ▪ Cooperate in a reasonable inquiry or investigation into allegation(s) of Discrimination, Harassment or Retaliation. ▪ Keep reports or complaints of Discrimination, Harassment, or Retaliation confidential, to the extent possible, and follow HR's direction and guidance.

Responsible Party	Action
Human Resources	~~▪ Disseminate the Unlawful Harassment Policy to all employees, temporary employees, volunteers and unpaid interns and require all employees, temporary employees, volunteers, and unpaid interns to acknowledge electronically that each individual has received and understood the Policy.~~ ▪ Upon receipt of a complaint, ~~gather sufficient facts to~~ evaluate the reported misconduct and determine what level of review or investigation is needed and appropriate for the circumstances. ▪ Request supporting documentation and/or additional statements from employees and potential witnesses, where applicable. ▪ If a determination is made that no further investigation is required, ~~documenta~~ a closure notice shall be issued to the complainant documenting the decision ~~and the reasoning and inform the complainant of the decision.~~. ▪ ~~Complete~~If a determination is made that an investigation is required, complete an impartial ~~and~~, timely, and thorough investigation of the complaint, ~~document and track the investigation, take appropriate~~ which may include interviewing the complaining party, responding party, and relevant witnesses. Review collected documents, exhibits or other evidence. Analyze the information, make credibility determinations when needed, reach reasonable conclusions based on the evidence collected, and make findings based on a preponderance of the evidence standard. ▪ If misconduct is found, recommend appropriate remedial measures, along with preventive and/or corrective action, ~~including disciplinary action,~~ when it is warranted, ~~and~~to department leadership. ▪ Timely inform the complainant of the conclusion of the investigation and any findings. ▪ Timely inform the ~~complainant and/or offender of the decision. Every reported complaint of unlawful harassment based on a protected characteristic will be investigated thoroughly, promptly, and in a confidential manner to the extent possible.~~ responding party of the conclusion of the investigation, any findings, and the final decision, if applicable, of remedial measures or preventive and/or corrective action. ▪ HR will strive to maintain confidentiality during the investigation, but there is no guarantee of complete confidentiality. Only the parties who need to know ~~will~~shall be involved.

IX. GLOSSARY

Term	Definition
Discrimination	~~Adverse employment action against an employee, volunteer, intern,~~Unequal treatment of a person or ~~individual performing services pursuant to a contract~~group on the basis of a protected ~~characteristic~~category.
~~Harassment~~Employee	~~Unwelcome conduct or comments, based on a protected characteristic, that are so severe or pervasive as to create an abusive working environment. .~~Any and all employees of CalOptima, including all permanent and temporary employees, volunteers, and other employed personnel.
Gender Expression~~Retaliation~~	~~Adverse employment action against an employee because he or she filed a complaint or engaged in a protected activity.~~ A person's gender-related appearance or behavior, whether or not stereotypically associated with the person's sex assigned at birth.
Gender ~~Expression~~Identity	~~A~~Each person's internal understanding of their gender~~-related appearance or behavior~~, or the ~~perception of such appearance or behavior, whether or not stereotypically associated with~~perceptions of a person's gender identity, which may include male, female, a combination of male and female, neither male nor female, a gender different from the person's sex assigned at birth, or transgender.
~~Gender Identity~~Harassment	~~Each person's internal understanding of their gender, or the perceptions of a person's gender identity, which may include as male, female, a combination of male and female, neither male nor female, a gender different from the person's sex assigned at birth, or transgender.~~Unwelcome verbal, written or physical conduct that denigrates or shows hostility or aversion toward an individual, based on a protected characteristic, that is so severe or pervasive as to create an intimidating, hostile, or offensive working environment.
National Origin	Includes, but is not limited to, the individual's or ancestors' actual or perceived: (1) physical, cultural, or linguistic characteristics associated with a national origin group; (2) marriage to or association with persons of a national origin group; (3) tribal affiliation; (4) membership in or association with an organization identified with or seeking to promote the interests of a national origin group; (5) attendance or participation in schools, churches, temples, mosques, or other religious institutions generally used by persons of a national origin group; (6) name that is associated with a national origin group; and (7) the basis of possessing a driver's license granted under Section 12801.9 of the Vehicle ~~code~~Code.
National Origin Group	Includes, but is not limited to, ethnic groups, geographic places of origin, and countries that are not presently in existence.
Retaliation	Adverse employment action against an Employee because the Employee filed a complaint or engaged in a protected activity.
Sex	Includes the same definition as provided in Government Code section 12926 and Title 42 of the United States Code section 2000 e(k), which includes, but is not limited to, pregnancy, childbirth~~;~~, breastfeeding, medical conditions related to pregnancy, childbirth, or breastfeeding, gender, gender identity, and gender expression~~, or a perception by a third party of any of the aforementioned.~~.

Term	Definition
Sex Stereotype	Includes, but is not limited to, an assumption about a person's appearance or behavior, gender roles, gender expression, or gender identity, or about an individual's ability or inability to perform certain kinds of work based on a myth, social expectation, or generalization about the individual's sex.
Sexual Harassment	Harassment based on sex (including pregnancy, childbirth, breastfeeding, or related medical conditions, sex stereotype, gender, gender identity or gender expression) or conduct of a sexual nature.
Transgender	A general term that refers to a person whose gender identity differs from the person's sex assigned at birth. A transgender person may or may not have a gender expression that is different from the social expectations of the sex assigned at birth. A transgender person may or may not identify as "transsexual."
Transitioning	A process some transgender people go through to begin living as the gender with which they identify, rather than the sex assigned to them at birth. This process may include, but is not limited to, changes in name and pronoun usage, facility usage, participation in employer-sponsored activities (*e.g.,* sports teams, team-building projects, or volunteering), or undergoing hormone therapy, surgeries, or other medical procedures.

I. PURPOSE

This policy outlines CalOptima's zero tolerance for Discrimination, Harassment, and Retaliation and sets forth a procedure for promptly investigating complaints thereof.

II. POLICY

A. CalOptima is committed to providing a professional work environment that is free of Discrimination and Harassment based on one or more protected category(ies), and an environment free from Retaliation for participating in any protected activity(ies) covered by this policy. CalOptima is committed to providing equal employment opportunities to all Employees and applicants for employment. Accordingly, CalOptima has adopted and shall maintain this Anti-Harassment Policy designed to encourage professional and respectful behavior and prevent discriminating, harassing, or retaliatory conduct in our workplace. CalOptima shall implement appropriate corrective action(s), up to and including termination, in response to any violation of CalOptima's Anti-Harassment Policy, even if the violation does not rise to the level of unlawful conduct.

B. CalOptima prohibits Discrimination and Harassment based on the following categories: race, color, hairstyle, religion, religious creed (including religious dress and grooming practices), national origin, ancestry, citizenship, physical or mental disability, medical condition (including cancer and genetic characteristics), genetic information, marital status, registered domestic partner status, sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), sex stereotype, gender, transitioning status, gender identity, gender expression, age (40 years and over), sexual orientation, veteran and/or military status, protected medical leaves (requesting or approved for leave under the Family and Medical Leave Act or the California Family Rights Act), domestic violence victim status, political affiliation, and any other status protected by state or federal law. In addition, CalOptima prohibits Retaliation against a person who engages reasonably and in good faith in activities protected under this policy. Reporting or assisting in reporting suspected violations of this policy and cooperating in investigations or proceedings arising out of an alleged violation of this policy are protected activities.

C. All Employees are expected to assume responsibility for maintaining a work environment that is free from Discrimination, Harassment and Retaliation. The law prohibits supervisors, managers, and co-workers, as well as third parties with whom CalOptima employees come into contact in the

Back to Agenda Back to Item Back to Agenda

workplace, from engaging in unlawful Discrimination, Harassment and Retaliation. Employees are encouraged to promptly report conduct that they reasonably believe violates this policy so that CalOptima shall have an opportunity to address and resolve any concerns. Managers and supervisors are required to promptly report conduct that they believe violates this policy. CalOptima is committed to responding to alleged violations of this policy in a timely and fair manner and to taking appropriate action aimed at ending the prohibited conduct.

D. Complaints/reports under this policy must be based on a reasonable belief of misconduct and made in good faith. CalOptima will not tolerate intentional false accusations of Discrimination, Harassment, or Retaliation. A finding of any intentional false accusations is considered a violation of this policy and may result in corrective action up to and including termination.

E. This policy applies to agents, contractors, volunteers, job applicants, and employees. In addition, this policy extends to conduct with a connection to an Employee's work, even when the conduct takes place away from CalOptima's premises, such as a business trip or business-related social function. CalOptima's policy prohibiting discrimination against CalOptima Members is addressed in CalOptima Policy HH.1104: Complaints of Discrimination.

F. CalOptima shall take appropriate steps and implement processes to protect Employees from unlawful Discrimination, Harassment and Retaliation in the workplace, including:

1. Employees are encouraged to timely report and file a complaint regarding suspected or actual inappropriate conduct in violation of this policy and/or applicable laws, and, whenever possible, to put the complaint or concern in writing. Employees may designate the report or complaint as confidential, which may remain confidential to the extent possible based on the circumstances and applicable laws, except with respect to the investigation, which may not be completely confidential. Employees can file complaints directly with their immediate supervisor, manager, or the Human Resources Department.

2. Supervisors and managers are required to forward all complaints, oral and/or written, alleging violation(s) of this policy to the Human Resources Department.

3. The Human Resources Department or designee will review any report or complaint of inappropriate conduct in violation of this policy and will complete a timely, thorough, and impartial review and/or investigation, when appropriate, that provides all parties appropriate due process and reaches reasonable conclusions based on the evidence collected.

4. Impacted parties are required to reasonably participate in the review and/or investigation of complaints alleging inappropriate conduct in violation of this policy.

5. The complainant and respondent will be timely informed of appropriate information related to the progress of the review or investigation, including the findings and closure of an investigation.

6. If, at the end of the investigation, inappropriate conduct or violation(s) of this policy or applicable law are found, CalOptima shall take appropriate remedial measures.

7. Employees reporting inappropriate conduct, along with employees participating in the investigation as witnesses, shall not be retaliated against for filing a complaint or participating in the investigation process.

G. Employees may also file a complaint directly with the United States Equal Employment Opportunity Commission (EEOC) or California Department of Fair Employment and Housing

(DFEH), or other appropriate state or federal agency(ies). They may also file a civil action in the appropriate court, subject to applicable laws.

H. Prohibited Conduct

1. Discrimination: CalOptima prohibits discrimination based on any one or more protected characteristics as described in Section II.B. of this policy. Prohibited discrimination includes unequal treatment based upon the Employee or applicant's association with a member of these protected classes. Discrimination may include but is not necessarily limited to: allowing the applicant's or Employee's protected category to be a factor in hiring, promotion, compensation, or other employment related decision, unless otherwise permitted by applicable law; and providing unwarranted assistance or withholding work-related assistance, cooperation, and/or information to applicants or Employees because of their protected category.

2. Harassment: CalOptima prohibits harassing, disrespectful or unprofessional conduct, including harassing, disrespectful or unprofessional conduct based on any one or more protected characteristics as described in Section II.B. of this policy. Prohibited harassment can be verbal (such as slurs, jokes, insults, epithets, gestures, or teasing), visual (such as the posting or distribution of offensive posters, symbols, cartoons, drawings, computer displays, or emails), or physical (such as physically threatening another person, blocking someone's way, making physical contact in an unwelcome manner, etc.).

3. Sexual Harassment: CalOptima prohibits Discrimination and Harassment based on sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), sex stereotype, sexual orientation, gender, gender identity, or gender expression. Sexually harassing conduct need not be motivated by sexual desire and may include situations that began as reciprocal relationships, but that later cease to be reciprocal. Sexual harassment may involve harassment of a person of the same gender as the harasser, regardless of either person's sexual orientation or gender identity. Prohibited Sexual Harassment falls into two categories: (1) "*quid pro quo*" ("this for that") when someone conditions a job, promotion, or other work benefit based on submission to sexual advances or other conduct based on sex; or (2) "hostile work environment" when unwelcome comments or conduct based on sex unreasonably interferes with your work performance or creates an intimidating, hostile, or offensive work environment. Prohibited Sexual Harassment may include all the actions described above as Harassment, as well as other unwelcome sex-based conduct, such as, but not limited to:

   a. Unwelcome or unsolicited sexual advances;

   b. Offering employment benefits in exchange for sexual favors;

   c. Leering or gestures;

   d. Displaying sexually suggestive objects, pictures, cartoons, or posters;

   e. Derogatory comments, epithets, slurs, or jokes;

   f. Graphic comments, sexually degrading words, conversations regarding sexual activities, or suggestive or obscene messages or invitations; or

   g. Physical touching or assault, as well as impeding or blocking movements, or other verbal or physical conduct of a sexual nature.

Back to Agenda Back to Item Back to Agenda

4. Retaliation: CalOptima prohibits retaliation against an Employee because the Employee has engaged in protected activity. Protected activities may include, but are not limited to, reporting or assisting in reporting suspected violations of this policy or other applicable laws and/or cooperating in investigations or proceedings arising out of an alleged violation of this policy or other applicable laws. CalOptima shall not take any adverse employment action, based on the Employee's protected activity, that materially affects the terms and conditions of the Employee's employment status or is reasonably likely to deter the Employee from engaging in protected activity. Examples of Retaliation under this policy include, but are not limited to: demotion; suspension; reduction in pay; termination; denial of a merit salary increase; failure to hire or consider for hire; refusing to promote or consider for promotion because of reporting a violation of this policy; harassing another Employee for filing a complaint; denying employment opportunities for making a complaint or cooperating in an investigation; changing someone's work assignments; treating people differently such as denying an accommodation; not talking to an Employee when otherwise required by job duties; or otherwise excluding the Employee from job-related activities because of engagement in activities protected under this policy. Actual or threatened retaliation for rejecting sexual advances or complaining about sexual harassment is also unlawful and a violation of this policy.

I. CalOptima shall disseminate the Anti-Harassment Policy to all Employees and require them to acknowledge electronically that each individual has received and understood the Policy. All legally required posters shall be posted in a prominent and accessible location in the workplace.

J. Training Requirements

1. All non-management/non-supervisory Employees are required to attend Harassment prevention training for Employees (1 hour) within the first six (6) months of hire and at least every two (2) years thereafter.

2. All management/supervisory Employees must complete the Harassment prevention training for leaders (2 hours) within the first six (6) months of hire and at least every two (2) years thereafter. These trainings shall include prevention of abusive conduct in the workplace.

K. Addressing and Reporting Violations

1. Any Employee or applicant who experiences or witnesses behavior that they believe violates this policy is encouraged to immediately tell the offending individual that the behavior is inappropriate and, if they feel comfortable doing so, to tell the offending individual to stop the behavior. The applicant or Employee should also immediately report the alleged violation to his/her supervisor, manager, or the Human Resources Department. Employees are free to contact the Human Resources Department and are not required to request supervisor or manager approval to do this. If the alleged offender is the Employee's supervisor or manager, the Employee should report the conduct to any other supervisor or manager or the Human Resources Department. A complaint may be brought forward verbally or in writing. Written complaints can be made using, but not limited to, the Employee Complaint Intake Form.

2. Supervisors or managers who learn of any potential violation of this policy are required to immediately report the matter to Human Resources and must follow instructions provided by Human Resources as to how best to proceed.

3. CalOptima shall promptly look into the facts and circumstances of any alleged violation, as appropriate. Even in the absence of a formal complaint, CalOptima may initiate an investigation

Back to Agenda Back to Item Back to Agenda

where it has reason to believe that conduct that violates this policy has occurred. Moreover, even where a complainant conveys a request to withdraw their initial formal complaint, CalOptima may continue the investigation to ensure that the workplace is free from Harassment. Anonymous complaints shall also be investigated. The method will depend on the details provided in the anonymous complaint. If the complaint is sufficiently detailed, the investigation may be able to proceed in the same manner as any other complaint. If the information is more general, CalOptima may need to do an environmental assessment or survey to try to determine if misconduct has occurred. All investigations will be fair, impartial, timely, and completed by qualified personnel.

4. To the extent possible, CalOptima shall endeavor to keep the reporting of the applicant or Employee's concerns confidential; however, complete confidentiality cannot be guaranteed when it interferes with CalOptima's ability to fulfill its obligations under this policy. All Employees are required to cooperate fully with any investigation. This includes, but is not limited to, maintaining an appropriate level of discretion regarding the investigation, and disclosing any and all information that may be pertinent to the investigation. Upon completion of the investigation, if misconduct is substantiated, CalOptima shall take appropriate corrective and preventive action calculated to end the conduct up to and including formal corrective action where warranted.

L. Filing of Complaints Outside of CalOptima

1. Employees and applicants may file formal complaints of Discrimination, Harassment, or Retaliation with the agencies listed below. Individuals who wish to pursue filing with these agencies should contact them directly to obtain further information about their processes and time limits.

   a. **California Department of Fair Employment and Housing (DFEH)**
   2218 Kausen Drive, Suite 100
   Elk Grove, CA 95758
   800-884-1684 (voice), 800-700-2320 (TTY) or California's Relay Service at 711
   contact.center@dfeh.ca.gov
   https://www.dfeh.ca.gov

   b. **U.S. Equal Employment Opportunity Commission**
   450 Golden Gate Avenue 5 West,
   P.O Box 36025
   San Francisco, CA 94102-3661
   1-800-669-4000 or 510-735-8909 (Deaf/hard-of-hearing callers only)
   http://www.eeoc.gov/employees

2. Employees or applicants who believe they have been the subject of discrimination, harassment or retaliation for making a complaint or participating in an investigation of discrimination or harassment may file a complaint with the DFEH within three (3) years of the last act of discrimination, harassment or retaliation. DFEH serves as a neutral factfinder and attempts to help the parties voluntarily resolve disputes. DFEH may also file a civil complaint and seek court orders changing the employer's policies and practices, punitive damages, and attorney's fees and costs. Employees can also pursue the matter through a private lawsuit in civil court after a complaint has been filed and a Right-to-Sue Notice has been issued. Training developed by DFEH can be accessed at the following link: https://www.dfeh.ca.gov/shpt/.

III. PROCEDURE

Responsible Party	Action
Employee	▪ Assume responsibility for a work environment free from Discrimination, Harassment and Retaliation. ▪ Report the facts of any incident(s) of Discrimination or Harassment based on a protected characteristic or Retaliation based on a protected activity immediately to your supervisor, manager, or the Human Resources (HR) Department. ▪ Cooperate in a reasonable inquiry or investigation into allegation(s) of Discrimination, Harassment or Retaliation.
Supervisor	▪ Gather all relevant facts from reporting Employee and report it immediately to the HR Department. ▪ Cooperate in a reasonable inquiry or investigation into allegation(s) of Discrimination, Harassment or Retaliation. ▪ Keep reports or complaints of Discrimination, Harassment, or Retaliation confidential, to the extent possible, and follow HR's direction and guidance.
Human Resources	▪ Upon receipt of a complaint, evaluate the reported misconduct and determine what level of review or investigation is needed and appropriate for the circumstances. ▪ Request supporting documentation and/or additional statements from employees and potential witnesses, where applicable. ▪ If a determination is made that no further investigation is required, a closure notice shall be issued to the complainant documenting the decision. ▪ If a determination is made that an investigation is required, complete an impartial, timely, and thorough investigation of the complaint, which may include interviewing the complaining party, responding party, and relevant witnesses. Review collected documents, exhibits or other evidence. Analyze the information, make credibility determinations when needed, reach reasonable conclusions based on the evidence collected, and make findings based on a preponderance of the evidence standard. ▪ If misconduct is found, recommend appropriate remedial measures, along with preventive and/or corrective action, when it is warranted, to department leadership. ▪ Timely inform the complainant of the conclusion of the investigation and any findings. ▪ Timely inform the responding party of the conclusion of the investigation, any findings, and the final decision, if applicable, of remedial measures or preventive and/or corrective action. ▪ HR will strive to maintain confidentiality during the investigation, but there is no guarantee of complete confidentiality. Only the parties who need to know shall be involved.

IX. GLOSSARY

Term	Definition
Discrimination	Unequal treatment of a person or group on the basis of a protected category.
Employee	Any and all employees of CalOptima, including all permanent and temporary employees, volunteers, and other employed personnel.
Gender Expression	A person's gender-related appearance or behavior, whether or not stereotypically associated with the person's sex assigned at birth.
Gender Identity	Each person's internal understanding of their gender, or the perceptions of a person's gender identity, which may include male, female, a combination of male and female, neither male nor female, a gender different from the person's sex assigned at birth, or transgender.
Harassment	Unwelcome verbal, written or physical conduct that denigrates or shows hostility or aversion toward an individual, based on a protected characteristic, that is so severe or pervasive as to create an intimidating, hostile, or offensive working environment.
National Origin	Includes, but is not limited to, the individual's or ancestors' actual or perceived: (1) physical, cultural, or linguistic characteristics associated with a national origin group; (2) marriage to or association with persons of a national origin group; (3) tribal affiliation; (4) membership in or association with an organization identified with or seeking to promote the interests of a national origin group; (5) attendance or participation in schools, churches, temples, mosques, or other religious institutions generally used by persons of a national origin group; (6) name that is associated with a national origin group; and (7) the basis of possessing a driver's license granted under Section 12801.9 of the Vehicle Code.
National Origin Group	Includes, but is not limited to, ethnic groups, geographic places of origin, and countries that are not presently in existence.
Retaliation	Adverse employment action against an Employee because the Employee filed a complaint or engaged in a protected activity.
Sex	Includes the same definition as provided in Government Code section 12926 and Title 42 of the United States Code section 2000 e(k), which includes, but is not limited to, pregnancy, childbirth, breastfeeding, medical conditions related to pregnancy, childbirth, or breastfeeding, gender, gender identity, and gender expression.
Sex Stereotype	Includes, but is not limited to, an assumption about a person's appearance or behavior, gender roles, gender expression, or gender identity, or about an individual's ability or inability to perform certain kinds of work based on a myth, social expectation, or generalization about the individual's sex.
Sexual Harassment	Harassment based on sex (including pregnancy, childbirth, breastfeeding, or related medical conditions, sex stereotype, gender, gender identity or gender expression) or conduct of a sexual nature.
Transgender	A general term that refers to a person whose gender identity differs from the person's sex assigned at birth. A transgender person may or may not have a gender expression that is different from the social expectations of the sex assigned at birth. A transgender person may or may not identify as "transsexual."

Term	Definition
Transitioning	A process some transgender people go through to begin living as the gender with which they identify, rather than the sex assigned to them at birth. This process may include, but is not limited to, changes in name and pronoun usage, facility usage, participation in employer-sponsored activities (*e.g.,* sports teams, team-building projects, or volunteering), or undergoing hormone therapy, surgeries, or other medical procedures.

Title:	**Education Reimbursement**
Department:	CalOptima Administrative
Section:	Human Resources
CEO Approval:	*/s/*
Effective Date:	01/05/2012
Revised Date:	TBD
Applicable to:	☐ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☒ Administrative

I. PURPOSE

This policy describes CalOptima's pre-approval process for the educational reimbursement program established to offer repayment of reasonable educational and professional development expenses to eligible employees for work-related courses and/or programs, including courses offering credits towards professional licensure or certification requirements.

II. POLICY

A. CalOptima encourages and assists its employees to enhance their professional skills and knowledge through continued education in areas that will contribute to the improvement of their present job function, or potential advancement. Full-time and regular Part-Time employees who have completed their initial one-hundred-eighty (180) calendar days of continuous employment and are in Good Standing, are eligible to participate.

B. Courses eligible for education reimbursement must be either part of an accredited college degree program, or provided by credible institutions that meet the following conditions:

1. Educate the employee in concepts and methods in their present assignment; and/or

2. Help prepare the employee for advancement to other positions available within CalOptima.

Note: While continuing education courses that provide credit towards renewal of a licensure and/or certification may be eligible for reimbursement under this Policy, seminars, conferences, or business meetings that do not result in certification or credit towards a licensure and/or certification are not covered under this Policy. Seminars, conferences, and business meetings may be eligible for reimbursement through CalOptima's Travel and Training program. The costs of new or renewed licensures or certifications are not covered under this Policy. Separately, individual Departments may budget and pay for the costs of new and/or renewed licensures or certifications required for a job position if budgeted funds are available through the Department and at the discretion of the head of the Department.

C. An employee must submit a request in advance for both supervisor and Human Resources (HR) approval. CalOptima will reimburse eligible full-time employees for qualifying courses ~~that are part of an undergraduate or graduate degree program up to three~~ up to five thousand ~~five~~two hundred fifty dollars ($~~3,500~~5,250.00) per fiscal year for tuition expenses only. ~~For all other~~

Back to Agenda Back to Item Back to Agenda

~~qualifying courses and programs that are not tied to an accredited college degree program,~~ CalOptima will reimburse eligible ~~full~~part-time employees ~~up to two thousand dollars ($2,000.00) per fiscal year and eligible Part-Time employees~~ for qualifying courses up to ~~one~~two thousand six hundred dollars ($~~1,000~~2,600.00) per fiscal year for tuition expenses only. Reimbursement for books, parking, exams, education subscriptions, and other miscellaneous fees are not covered under this policy. Reimbursement will not be made until the employee has successfully completed the course with a grade of "C" or better for undergraduate and graduate programs, a "Pass" for courses that are Pass/Fail, or a certificate of successful completion. Employees must still be employed at CalOptima after completing the course or program to qualify for reimbursement. No reimbursement shall be made for courses, or other programs, involving sports, games, or hobbies.

1. According to current Internal Revenue Service (IRS) guidelines, reimbursement of up to $5,250 per calendar year is not considered to be taxable earnings. Reimbursement that exceeds IRS Guidelines for a specific calendar year is considered taxable earnings and is subject to federal and state income and payroll tax withholdings in accordance with federal and state law. Employees are responsible for any tax liability arising from the receipt of education reimbursement under this policy.

D. Employees are required to manage time for classes outside of scheduled hours and classes must not interfere with their regular job duties.

E. As a condition of reimbursement and as part of an employee's request for education expense reimbursement, an employee must agree that if the employee voluntarily terminates employment with CalOptima within one year of the date of the completion of the course for which the employee has been reimbursed, the employee shall return a pro rata portion of such reimbursement to CalOptima by way of a deduction from the employee's last paycheck and/or submit payment directly to CalOptima, to the extent permitted by applicable state and federal laws.

F. Education reimbursement is provided in accordance with this Policy on a first-come, first-served basis, and only to the extent that budget funds are available. Annual maximum for education reimbursement is calculated for each fiscal year (July 1 – June 30). The education reimbursement program is not required to be funded.

III. PROCEDURE

Responsible Party	Action
Employee	1. Complete the Request for Education Expense Reimbursement form and submit to immediate supervisor prior to start of the course, or certification. a. Recommend submission no less than three (3) weeks prior to start date. ~~1.~~2. Declare major, or certification. ~~2.~~3. Obtain approval from direct supervisor and Director, or Chief, and submit completed form to HR. ~~3.~~4. Obtain notification from HR of preliminary approval, or denial, of request. a. Request form MUST be received prior to the start of the course in order to be considered. b. Applicant should allow sufficient time for review and preliminary approval prior to start of course or choose to continue to enroll with the understanding it may not be approved by HR. ~~4.~~5. Within sixty (60) calendar days of course completion, submit: a. Proof of completion – Transcript, or other official notification showing grades for each course, or a copy of the certification. b. A copy of the tuition receipt from the college, university, or certifying board. c. Proof of payment - Canceled check, credit card receipt, or cash receipt that clearly demonstrates the method of payment made by the employee. d. Additional documentation may be requested to verify eligibility.
Supervisor	1. Provide statement on the Form to confirm applicability of course and benefit to CalOptima. 2. Certify employee is in Good Standing with CalOptima and will complete the education outside scheduled hours. 3. Approve, or deny, request. 4. Forward to Director, or Chief.
Director/Chief	1. Approve, or deny, request. 2. Forward to HR.

Responsible Party	Action
Human Resources	1. Evaluate request for compliance with this Policy, and if applicable, provide preliminary approval. 2. Notify the employee if the request is approved or denied. 3. Hold form until proof of completion is submitted. ~~4.~~ Upon verification of satisfactory completion consistent with this Policy, ~~prepare check request~~follow Accounting current procedures for approval and payment of reimbursement. ~~5.~~ ~~Forward to the Accounting Department.~~ ~~6.~~4. ~~Issue payment check to employee upon receipt from Accounting.~~
Accounting	1. Issue reimbursement ~~check to HR~~payment.

I. PURPOSE

This policy establishes general guidelines concerning the use of supplemental compensation above regular base pay to compensate for business needs and to identify items to be reported to CalPERS as "Special Compensation."

II. POLICY

A. CalOptima considers the following as Special Compensation pursuant to Title 2, Section 571 of the California Code of Regulations (CCR):

1. Bilingual Pay/Bilingual Premium;
2. Holiday Premium Pay;
3. Night Shift Premium/Shift Differential;
4. Active Certified Case Manager (CCM) Pay/Educational Incentive; and
5. Executive Incentive Program/Bonus Pay.

B. Overtime Pay: As a public agency, CalOptima follows Federal wage and hour laws. Overtime pay for non-exempt employees will be provided for all ~~hours~~time worked in excess of forty (40) in any one (1) ~~workweek~~ federal Fair Labor Standards Act (FLSA) Workweek at the rate of one and one half (1.5) times the employee's regular rate of pay, as defined by ~~the federal Fair Labor Standards Act (FLSA).~~FLSA. Employees should obtain prior authorization from their supervisors or managers prior to working overtime or incurring overtime pay. Exempt employees are not covered by the overtime provisions and do not receive overtime pay.

C. Holiday Premium Pay: All regular, non-exempt, full-time employees who are eligible for paid holidays but who may be required to work on a holiday observed by CalOptima under GA.8056 Paid Holidays will be paid at two (2) times their regular base pay for the hours worked in addition to the holiday pay. Flex Holiday is not eligible for Holiday Premium Pay. This is considered Holiday

Back to Agenda Back to Item Back to Agenda

Pay pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation.

D. Bilingual Pay: CalOptima provides supplemental bilingual pay for qualified exempt and non-exempt employees who are fluent in at least one (1) of CalOptima's threshold languages. This is considered a Bilingual Premium pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation. The rate for Bilingual Pay is based on the following schedule:

Proficiency	Rate Per Pay Period
Bilingual language usage with members is required in the job description and used more than fifty percent (50%) of the time in the performance of the employee's job duties.	$60.00
Bilingual language usage with members is preferred in the job description and used less than fifty percent (50%) of the time in the performance of the employee's job duties.	$40.00

E. Translation Pay: In certain circumstances when, for business reasons and for the benefit of CalOptima members, there is a need to translate documents and other written material into languages other than English, the Exempt Employee providing such service will be paid supplemental pay. Non-exempt employees are not eligible for translation pay.

1. Exempt Employees, who do not work in the Cultural & Linguistic Services Department (C&L) and who are not required as part of their regular job responsibilities to translate but are qualified to translate based on successfully passing the CalOptima Bilingual Screening Process, may be eligible for translation pay for performing translation work. Eligible employees, who are interested in performing translation work during non-work hours, may elect to provide translation services during their own personal time based on the rates indicated below. The C&L Department shall assign the work to qualified Exempt Employees on an occasional, as-needed basis.

2. There are two (2) key activities in providing translation services:

   a. Translation of materials from English into the desired language, or from another language into English; and

   b. Review and revision of the translation to ensure quality and consistency in usage of terms.

3. Translating is more difficult and time-consuming than reviewing and editing of the already translated materials, and as a result, translation of materials will be reimbursed at a higher rate. CalOptima will reimburse for services at the following rates:

   a. Translation – Thirty-five dollars ($35.00) per page; and

   b. Review and revision of translated materials – Twenty-five dollars ($25.00) per page.

4. The use of this supplemental pay is limited to situations where the use of professional translation services is either not available or unfeasible due to business constraints.

F. Night Shift: CalOptima provides supplemental pay for work performed as part of a Night Shift. Assignments for Night Shift are subject to business needs and are at the discretion of CalOptima management. This is considered a Shift Differential pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation. The rate for Night Shift is based on the following schedule:

Definition	Eligibility	Rates (per hour)
Night Shift – Seven (7) consecutive hours or more of work between 3 p.m. and 8 a.m.	Non-exempt employees	$2.00 per hour.

G. Call Back and On Call: CalOptima provides supplemental pay for work performed as part of a Call Back and On Call requirement. Assignments for Call Back and On Call are subject to business needs and are at the discretion of CalOptima management. The rates for Call Back and On Call Pay are based on the following schedule:

Definition	Eligibility	Rates (per hour)
Call Back – Employees must physically return to work within one (1) hour when requested by a Supervisor. A Supervisor may assign employees other work until the guaranteed four (4) hour time elapses.	Non-exempt employees	One and one half (1.5) times of regular base pay with a minimum of four (4) hours of pay.
On Call – Employees must remain accessible after normally scheduled work hours and be available to fix problems or report to work, if necessary. Employees will be informed of the need for their availability to work either from home or at the work site. Employees on call are waiting to be engaged and are free to use their On Call time as they deem appropriate, so long as they are fit to respond when called. Employees must respond within one (1) hour, as required.	Non-exempt employees	$3.00 per hour for being on-call. If a call is taken, employee is paid one and one half (1.5) times the regular base pay with a thirty (30) minute minimum call.
On Call Medical Case Managers (RN or LVN) and Clinical Pharmacists - Must remain accessible to accept or respond to calls within a reasonable time designated by employee's supervisors. In no event shall employees' supervisors require a response time less than thirty (30) minutes. Employees will be informed of the need for their availability to work either from home or at the work site. Employees on call are waiting to be engaged and are free to use their On Call time as they deem appropriate, so long as they are fit to respond when called.	Exempt Employees, excluding those in supervisory positions	Twenty five percent (25%) of the employee's base pay as an hourly equivalent multiplied by the number of hours on call.

H. Commuter Allowance: Effective April 24, 2022 through July 1, 2023, CalOptima shall provide a Commuter Allowance in an amount of one hundred fifty dollars ($150.00) per pay period to full-time employees designated as Full Office Workers, and seventy-five dollars ($75.00) per pay period to full-time employees designated as Partial Teleworkers. The Commuter Allowance begins the first full pay period as a Full Office Worker or Partial Teleworker. Eligible full-time employees will continue to receive the Commuter Allowance until the first full pay period in which an employee is not assigned to partial telework or full office work. The Commuter Allowance will be provided only for full pay periods in which employees are designated a Full Office Worker or Partial Teleworker and will not be prorated for being designated as a Full Office Worker or Partial Teleworker for a portion of the pay period. Executive Level Positions and Full Teleworkers are not eligible for the Commuter Allowance. With approval of the Chief Executive Officer, the Commuter Allowance may continue beyond July 1, 2023, and/or be reinstated after July 1, 2023.

I. Internet Stipend: CalOptima shall provide an Internet Stipend in an amount of twenty-five dollars ($25.00) per pay period to full-time employees designated as Full Teleworkers, Partial Teleworkers or Community Workers. The Internet Stipend begins the first full pay period as a Full or Partial Teleworker or Community Worker. Eligible full-time employees will continue to receive the stipend until the first, full pay period in which an employee is not assigned to full or partial telework or community work. The Internet Stipend will be provided only for full pay periods and will not be prorated for a change in designation for a portion of a pay period. Executive Level Positions and Full Office Workers are not eligible for the Internet Stipend.

~~I.~~J. Active Certified Case Manager (CCM) Pay: CalOptima may recognize supplemental pay of one hundred dollars ($100.00) per pay period to an RN who holds an active CCM certification when such certification is required or preferred in the job description and used regularly in performance of the employee's job duties. This is considered as an Educational Incentive pursuant to Title 2 CCR Section 571(a) and is to be reported to CalPERS as Special Compensation.

~~J.~~K. Executive Incentive Program: The Chief Executive Officer (CEO) may recognize Executive Level Positions, including interim appointments, using incentive compensation as described in this Policy. For employees in Executive Level Positions who achieve outstanding performance, the incentive compensation is considered bonus pay pursuant to Title 2 CCR Section 571(a) and is to be reported to CalPERS as Special Compensation for CalPERS classic members.

~~K.~~L. Sales Incentive Program: The OneCare/OneCare Connect Community Partner and Senior (Sr.) Community Partner staff in the Member Outreach & Education Department shall have an active Resident Insurance Producer license to enroll eligible members into the OneCare and OneCare Connect programs.

1. The licensed Community Partner and Sr. Community Partner staff will receive a monthly Sales Incentive based on the number of eligible members enrolled into the OneCare and OneCare Connect program in accordance with the table in Paragraph II.I.2. below. No incentive will be paid for the first thirty (30) enrollments each month, regardless of how many enrollments are made under, at or over thirty (30). For enrollments over thirty (30), licensed Community Partner and Sr. Community Partner staff will be eligible to receive the incentive payment of one hundred sixty-five dollars ($165.00) for each new enrollment within that tier between thirty-one (31) – fifty (50). In other words, each tier is independent and does not alter the amount paid per enrollment in any other tier. For example, eligible staff who enroll fifty-three (53) members in a month will be eligible to receive payment based on the following calculation (from tier thirty-one (31) – fifty(50)) twenty (20) members multiplied by one hundred sixty-five dollars ($165), plus (from tier fifty-one (51) – sixty-five (65)) three (3) members multiplied by one hundred seventy-five ($175), which equals an incentive of three thousand eight hundred twenty-five dollars ($3,825) for that month.

2. Enrollment is paid per eligible member above the minimum tier at the rate specified within each tier as follows:

Tier Min	Tier Max	Payout for Enrollment within Each Tier
1	30	**$0.00**
31	50	**$165.00**
51	65	**$175.00**
66+		**$200.00**

3 The sales incentive for the Manager, Member Outreach & Education shall be based on the number of eligible members enrolled into the OneCare and OneCare Connect programs by the

Community Partner and Sr. Community Partner in the Member Outreach & Education Department. The Manager, Member Outreach & Education will receive ten dollars ($10.00) per member enrolled, if and only if, the Community Partner or Sr. Community Partner reporting to the Manager, Member Outreach & Education, enrolls thirty-six (36) or more members per month. If a Community Partner or Sr. Community Partner fails to enroll at least thirty-six (36) members per month, the Manager, Member Outreach & Education, would not be eligible for the sales incentive for that Community Partner or Sr. Community Partner.

~~L.~~M. Employee Incentive Program: At the discretion of the CEO, specific employees may be recognized through incentive compensation, when doing so is consistent with CalOptima's business needs and mission, vision, and values.

~~M.~~N. Retention Incentive: In order to preserve organizational talent and to maintain business continuity when the loss of key personnel may cause risk or damage to operational efficiency, regulatory compliance, and/or strategic imperatives, CalOptima may, at the discretion of the CEO, and on an exception basis, award a retention incentive.

~~N.~~O. Recruitment Incentive: At the discretion of the CEO, a recruitment incentive of up to fifteen percent (15%) of the midpoint of base pay for the applicable position may be offered to entice an individual to join CalOptima. Recruitment incentives offered for Executive Director and Chief positions, to a maximum of $50,000, require informing the Board of Directors after approved.

~~O.~~P. Incentive programs may be modified or withdrawn, at any time. An award of incentive compensation is entirely at the discretion of the CEO and/or Board of Directors, as applicable. It is not intended to be a binding contract between Executive Level Positions or employees and CalOptima.

~~P.~~Q. Employer-Paid Member Contribution (EPMC): CalOptima contributes seven percent (7%) of compensation earnable, on behalf of eligible employees who hold management staff positions as identified in the CalOptima salary schedule, and who qualify based on all of the following:

1. Hired, promoted, or transferred into a management staff position, including interim appointments; and

2. Included in one (1) of the following categories:

   a. A CalPERS Classic Member; or

   b. A member prior to January 1, 2013, of another California public retirement system that is eligible for reciprocity with CalPERS.

~~Q.~~R. Annual Performance Lump Sum Bonus: Employees paid at or above the pay range maximum are not eligible for future base pay increases. As a result, in lieu of future base pay increases, these employees may be eligible for merit bonus pay delivered as a lump sum bonus in accordance with Section III.J of this Policy, provided that their performance meets the goals and objectives set forth by their managers.

~~R.~~S. Automobile Allowance: CalOptima may, at the discretion of the CEO, provide employees in Executive Level Positions, including interim appointments, with a monthly automobile allowance in an amount not to exceed five hundred dollars ($500.00) for the use of their personal vehicle for CalOptima business.

~~S.~~T. Supplemental Retirement Benefit: Consistent with applicable Board actions, the CEO is authorized to determine CalOptima's contribution rate for employees to the supplemental retirement benefit (SRB) plan administered by the Public Agency Retirement System (PARS) within the limits of the budget and subject to contribution limits established by applicable laws. With the exception of employees in Executive Level Positions, the contribution rate shall be uniform for all employees. Executive Level Positions will also receive the same uniform contribution rate applicable to all employees. However, for employees in Executive Level Positions who earn more than the applicable compensation limits, the CEO is authorized to provide additional supplemental contributions to PARS, subject to the limitations of applicable laws. An employee in an Executive Level Position must still be employed by CalOptima at the time the additional supplemental contribution to PARS is distributed in order to be eligible to receive the additional supplemental contributions. These SRB contributions to the PARS retirement plan shall continue from year to year, unless otherwise adjusted or discontinued.

III. PROCEDURE

A. Overtime Pay: Overtime must be approved in advance by an employee's manager. Adjustments for overtime pay cannot be calculated until the completion of an employee's workweek. This may result in one (1) pay period's delay in the employee receiving the additional compensation.

B. Holiday Premium Pay: Working on a CalOptima observed holiday must be approved in advance by the employee's manager. Unauthorized work that occurs on an observed holiday is not eligible for Holiday Premium Pay and will be paid at the employee's regular base pay~~. Holiday Premium Pay is not to be considered~~. Actual hours worked ~~in the computation~~on a holiday will be used for purposes of calculating overtime.

C. Bilingual Pay: An employee or potential employee shall undergo a written and verbal bilingual evaluation when bilingual proficiency is a part of the employee's or potential employee's job description and used in the performance of the employee's job duties with members. If the employee or potential employee passes the evaluations, the bilingual pay shall be established.

D. Translation Pay: If an eligible exempt employee elects to provide translation services, and such services are not part of the employee's regular job duties, the employee shall submit their interest to the C&L Department. If selected, the translation pay identified above, will be provided depending on the variables noted above, taking into account whether professional translation services are either not available or unfeasible due to business constraints.

E. Night Shift:

1. Night Shift differential is automatically calculated for those employees regularly working a night shift, defined as seven (7) consecutive hours or more of work between 3 p.m. and 8 a.m.

2. Employees who, at their own request and for their own convenience, adjust their work schedule, such as requesting make up time or alternative hours, and as a result, would be eligible for night shift pay, shall be deemed as having waived their right to same. When appropriate, a new Action Form should be submitted, removing the employee from the night shift.

F. Call Back and On Call Pay:

1. If employees are on call or get called back to work, the employees are responsible for adding this time to their schedules through CalOptima's time keeping system, which is then approved by their supervisors.

G. Commuter Allowance

1. Commuter Allowance is automatically calculated for eligible employees based on system designation of Full Office Worker or Partial Teleworker. Employees and leaders are responsible for maintaining accurate designations in the timekeeping system. Designation changes require a request and approval per the Telework Program Guidelines. CalOptima may periodically audit and validate employee Office/Telework designations.

H. Internet Stipend

1. Internet Stipend is automatically calculated for eligible employees based on system designation of Full Teleworker, Partial Teleworker, or Community Worker. Employees and leaders are responsible for maintaining accurate designations in the timekeeping system. Telework designation changes require a request and approval per the Telework Program Guidelines. Community Worker designation is determined by the position. CalOptima may periodically audit and validate employee Office/Telework designations.

~~H.~~I. Active Certified Case Manager (CCM) Pay:

1. To receive CCM supplemental pay, an employee is responsible for providing a copy of the employee's case management certification issued by the Case Management Society of America to the Human Resources Department.

~~I.~~J. Incentive Compensation

1. The Board of Directors approves CalOptima's strategic plan for each fiscal year, and the CEO is expected to meet the goals set forth in the strategic plan. The CEO in turn sets goals for the Executive Level Positions.

2. The CEO may establish an incentive compensation program for Executive Level Positions based on the Executive Incentive Program attached within budgeted parameters in accomplishing specific results according to the department and individual goals set forth by the CEO and the level of achievement. Executive Level Positions will receive a performance evaluation based on the Performance Review of Executives Template attached, which measures their performance against the established goals. Based on the level of performance, the executive staff member may be eligible for a lump sum bonus payment. The executive staff member must still be employed by CalOptima and in good standing at the time the bonus is distributed in order to be eligible to receive the bonus payment. For eligible Executive Level Positions who achieve outstanding performance, CalOptima will report the bonus payment to CalPERS as Special Compensation. The CEO is authorized to make minor revisions to the Executive Incentive Program and Performance Review of Executives Template from time to time, as appropriate.

3. As circumstances warrant and at the discretion of the CEO, employees not in Executive Level Positions, whose accomplishments have provided extraordinary results, may be considered for incentive compensation.

~~J.~~K. Sales Incentive Program

1. The OneCare/OneCare Connect Community Partner and Sr. Community Partner staff, in the Member Outreach & Education Department, shall have an active Resident Insurance Producer license to enroll eligible members into the OneCare and OneCare Connect Programs.

2. The Community Partner and Sr. Community Partner staff shall be eligible to receive sales incentive pay as described in Section II.I.1 of this Policy for successfully enrolling new members into the OneCare and OneCare Connect Programs. Sales incentive pay for the Manager, Member Outreach & Education, shall be based on the number of members enrolled into the OneCare and OneCare Connect Programs by the Community Partner and Sr. Community Partner as described in Section II.I.2 of this Policy.

    a. CalOptima shall follow the Medicare Marketing Guidelines (MMGs) charge-back guidelines of ninety (90) calendar day rapid disenrollment and recouping the sales incentive with the exceptions as specified under the guidelines and applicable CalOptima policies.

3. CalOptima shall advance the sales incentive to the eligible employee on a monthly basis approximately one and a half (1 ½) months after the month in which the eligible employee enrolled the new member. However, the sales incentive is not earned until the member has been enrolled in the respective program for ninety-one (91) days.

    a. In the event a OneCare or OneCare Connect member disenrolls from their respective program within ninety (90) calendar days for reasons other than the exceptions specified under the guidelines and applicable CalOptima policies, the sales incentive previously paid will be deducted from a future sales incentive.

4. The Chief Operating Officer, Executive Director of Network Operations, and Director Network Management who oversee the Member Outreach & Education Department shall approve the sales incentive payout.

5. Enrollment goals for the Community Partner and Community Partner Sr. staff will be pro-rated for the month if the employee misses one (1) or more full weeks due to vacations, sick days, or a leave of absence.

6. The Director, Network Management, Executive Director of Network Operations, and the Chief Operations Officer will review the sales incentive structure on an annual basis.

~~K.~~L. Retention Incentive: As circumstances warrant, the CEO may award an employee a retention incentive to prevent or delay departures that may adversely impact business operations. The employee offered a retention incentive must be in good standing and accept and sign a retention agreement which contains the condition(s) to be met ~~in order~~ to receive payment. Payment of the incentive will be made when the terms of the agreement have been fully met and at the conclusion of the retention period. The CEO has the authority to offer retention incentives for up to twenty-five (25) employees per fiscal year in an amount not to exceed twenty ~~-~~percent (20%) of the employee's current base annual salary. Retention incentives that exceed twenty~~-~~ percent (20%) of the employee's current base annual salary require Board of Directors approval.

~~L.~~M. Recruitment Incentive: As circumstances warrant, the CEO may offer a recruitment incentive based on the Compensation Administration Guidelines managed by the Human Resources Department to entice an individual to join CalOptima. Board of Director approval is required for recruitment incentives offered for Executive Level Positions. ~~In order to~~To receive the recruitment incentive, the individual offered the incentive is required to accept and sign an offer letter which contains a "claw-back" provision obligating the recipient of a recruitment incentive to return the full amount of the recruitment incentive if the recipient voluntarily terminates employment with CalOptima within twenty-four (24) months of the date of hire.

~~M.~~N. Annual Performance Lump Sum Bonus: Once employees have reached the pay range maximum, employees may be eligible for merit bonus pay delivered as a lump sum bonus, provided that their annual performance evaluations meet the established goals and objectives set forth by their managers. Merit bonus pay will not exceed the maximum percentage of the merit increase matrix and reflects employees' superior performance measured against established objectives. Annual performance lump sum bonuses are paid out in two (2) incremental amounts – the first half when merit salary increases are normally distributed and the second half six (6) months later. The employee must still be employed by CalOptima ~~in order~~ to be eligible to receive the lump sum bonus payments.

~~N.~~O. Automobile Allowance: As circumstances warrant, the CEO may offer employees in Executive Level Positions an automobile allowance in lieu of the IRS standard mileage reimbursement rate that would otherwise apply for the use of their personal vehicle in the performance of their duties. Such automobile allowance will be identified on the employees' W-2 forms as taxable income. In addition, as a condition of receiving such allowance, the employee must comply with the following requirements:

1. Maintain adequate levels of personal vehicle insurance coverage;
2. Purchase their own fuel for the vehicle; and
3. Ensure the vehicle is properly maintained.

IX. GLOSSARY

Term	Definition
Bilingual Certified Employee	An employee who has passed CalOptima's Bilingual Screening Process either upon hire or any time during their employment.
Bilingual Screening Process	Prospective staff translators are identified by Cultural and Linguistic (C&L) Services Department based on qualifications obtained through CalOptima's bilingual screening process. The screening is either conducted as part of their initial hiring process or later during their employment. All staff translators must possess a strong ability to read, write and understand the target language. Once identified as potential staff translators, they are required to take a proficiency test created by C&L Services Department. They are evaluated on their vocabulary, grammar, orthography, flow, accuracy, cultural sensitivity, as well as consistency in usage of translated terms. The selection is based on their overall score.
Bonus Pay	Compensation to employees for superior performance such as "annual performance bonus" and "merit pay." If provided only during a member's final compensation period, it shall be excluded from final compensation as "final settlement" pay. A program or system must be in place to plan and identify performance goals and objectives to count as Special Compensation for CalPERS purposes.
CalPERS	California Public Employees Retirement System
CalPERS Classic Member	A member enrolled in CalPERS prior to January 1, 2013.
Classic Director	A Management Staff who is either a CalPERS Classic Member or a member prior to January 1, 2013, of another California public retirement system who is eligible for reciprocity with CalPERS.
Classic Executive	An Executive Staff who is either a CalPERS Classic Member or a member prior to January 1, 2013, of another California public retirement system who is eligible for reciprocity with CalPERS.
Compensation Earnable	The pay rate and Special Compensation as defined in Government Code sections 20636 and 20636.1.
Central Worksite	CalOptima's primary physical location of business applicable to the employee, which is either CalOptima's administration building at 505 City Parkway West, the PACE building or other CalOptima operated location.
Community Worker	An employee in a position that performs fifty-one percent (51%) or more of their duties in field locations such as provider offices, members' homes, and at community outreach events.~~designated to work primarily in the field.~~
Executive Level Position	The position of Executive Director or above.
Exempt Employee	Employees who are exempt from the overtime provisions of the federal Fair Labor Standards Act (FLSA) and state regulations governing wages and salaries. Exempt status is determined by the duties and responsibilities of the position and is defined by Human Resources for each position.
Full Office Worker	An employee who is assigned to work their full schedule at the Central Worksite.
Full Teleworker	An eligible employee who is approved to routinely work their entire regularly scheduled work hours from a Remote Work Location unless business needs require otherwise.
Leave of Absence (LOA)	A term used to describe a scheduled period of time off longer than five (5) days that employees are to be away from their primary jobs, while maintaining the status of employee.

Term	Definition
Management Staff	Staff holding positions at or above Director level.
Partial Teleworker	An eligible employee who is approved to work a pre-established consistent weekly work schedule split between two (2) or more full days per week at the Central Worksite, and the remainder of full days at the Remote Work Location.
Sales Incentive	An amount of money paid, in addition to base pay, to an employee for successfully enrolling a member into the OneCare or/ OneCare Connect Program.
Special Compensation	Payment of additional compensation earned separate from an employee's base pay that meets the criteria listed in Title 2, California Code of Regulations (CCR) section 571(a).
Threshold Language	For purposes of this policy, a threshold language as defined by the Centers for Medicare & Medicaid Services (CMS) for Medicare programs, or Department of Health Care Services for the Medi-Cal program.

1

Policy:	GA.8042
Title:	**Supplemental Compensation**
Department:	CalOptima Administrative
Section:	Human Resources
CEO Approval:	*/s/*
Effective Date:	01/01/2011
Revised Date:	TBD
Applicable to:	☐ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☒ Administrative

I. PURPOSE

This policy establishes general guidelines concerning the use of supplemental compensation above regular base pay to compensate for business needs and to identify items to be reported to CalPERS as "Special Compensation."

II. POLICY

A. CalOptima considers the following as Special Compensation pursuant to Title 2, Section 571 of the California Code of Regulations (CCR):

1. Bilingual Pay/Bilingual Premium;
2. Holiday Premium Pay;
3. Night Shift Premium/Shift Differential;
4. Active Certified Case Manager (CCM) Pay/Educational Incentive; and
5. Executive Incentive Program/Bonus Pay.

B. Overtime Pay: As a public agency, CalOptima follows Federal wage and hour laws. Overtime pay for non-exempt employees will be provided for all time worked in excess of forty (40) in any one (1) federal Fair Labor Standards Act (FLSA) Workweek at the rate of one and one half (1.5) times the employee's regular rate of pay, as defined by FLSA. Employees should obtain prior authorization from their supervisors or managers prior to working overtime or incurring overtime pay. Exempt employees are not covered by the overtime provisions and do not receive overtime pay.

C. Holiday Premium Pay: All regular, non-exempt, full-time employees who are eligible for paid holidays but who may be required to work on a holiday observed by CalOptima under GA.8056 Paid Holidays will be paid at two (2) times their regular base pay for the hours worked in addition to the holiday pay. Flex Holiday is not eligible for Holiday Premium Pay. This is considered Holiday

Back to Agenda Back to Item Back to Agenda

Pay pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation.

D. Bilingual Pay: CalOptima provides supplemental bilingual pay for qualified exempt and non-exempt employees who are fluent in at least one (1) of CalOptima's threshold languages. This is considered a Bilingual Premium pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation. The rate for Bilingual Pay is based on the following schedule:

Proficiency	Rate Per Pay Period
Bilingual language usage with members is required in the job description and used more than fifty percent (50%) of the time in the performance of the employee's job duties.	$60.00
Bilingual language usage with members is preferred in the job description and used less than fifty percent (50%) of the time in the performance of the employee's job duties.	$40.00

E. Translation Pay: In certain circumstances when, for business reasons and for the benefit of CalOptima members, there is a need to translate documents and other written material into languages other than English, the Exempt Employee providing such service will be paid supplemental pay. Non-exempt employees are not eligible for translation pay.

1. Exempt Employees, who do not work in the Cultural & Linguistic Services Department (C&L) and who are not required as part of their regular job responsibilities to translate but are qualified to translate based on successfully passing the CalOptima Bilingual Screening Process, may be eligible for translation pay for performing translation work. Eligible employees, who are interested in performing translation work during non-work hours, may elect to provide translation services during their own personal time based on the rates indicated below. The C&L Department shall assign the work to qualified Exempt Employees on an occasional, as-needed basis.

2. There are two (2) key activities in providing translation services:

   a. Translation of materials from English into the desired language, or from another language into English; and

   b. Review and revision of the translation to ensure quality and consistency in usage of terms.

3. Translating is more difficult and time-consuming than reviewing and editing of the already translated materials, and as a result, translation of materials will be reimbursed at a higher rate. CalOptima will reimburse for services at the following rates:

   a. Translation – Thirty-five dollars ($35.00) per page; and

   b. Review and revision of translated materials – Twenty-five dollars ($25.00) per page.

4. The use of this supplemental pay is limited to situations where the use of professional translation services is either not available or unfeasible due to business constraints.

F. Night Shift: CalOptima provides supplemental pay for work performed as part of a Night Shift. Assignments for Night Shift are subject to business needs and are at the discretion of CalOptima management. This is considered a Shift Differential pursuant to Title 2, CCR, Section 571(a) and is to be reported to CalPERS as Special Compensation. The rate for Night Shift is based on the following schedule:

Definition	Eligibility	Rates (per hour)
Night Shift – Seven (7) consecutive hours or more of work between 3 p.m. and 8 a.m.	Non-exempt employees	$2.00 per hour.

G. Call Back and On Call: CalOptima provides supplemental pay for work performed as part of a Call Back and On Call requirement. Assignments for Call Back and On Call are subject to business needs and are at the discretion of CalOptima management. The rates for Call Back and On Call Pay are based on the following schedule:

Definition	Eligibility	Rates (per hour)
Call Back – Employees must physically return to work within one (1) hour when requested by a Supervisor. A Supervisor may assign employees other work until the guaranteed four (4) hour time elapses.	Non-exempt employees	One and one half (1.5) times of regular base pay with a minimum of four (4) hours of pay.
On Call – Employees must remain accessible after normally scheduled work hours and be available to fix problems or report to work, if necessary. Employees will be informed of the need for their availability to work either from home or at the work site. Employees on call are waiting to be engaged and are free to use their On Call time as they deem appropriate, so long as they are fit to respond when called. Employees must respond within one (1) hour, as required.	Non-exempt employees	$3.00 per hour for being on-call. If a call is taken, employee is paid one and one half (1.5) times the regular base pay with a thirty (30) minute minimum call.
On Call Medical Case Managers (RN or LVN) and Clinical Pharmacists - Must remain accessible to accept or respond to calls within a reasonable time designated by employee's supervisors. In no event shall employees' supervisors require a response time less than thirty (30) minutes. Employees will be informed of the need for their availability to work either from home or at the work site. Employees on call are waiting to be engaged and are free to use their On Call time as they deem appropriate, so long as they are fit to respond when called.	Exempt Employees, excluding those in supervisory positions	Twenty five percent (25%) of the employee's base pay as an hourly equivalent multiplied by the number of hours on call.

H. Commuter Allowance: Effective April 24, 2022 through July 1, 2023, CalOptima shall provide a Commuter Allowance in an amount of one hundred fifty dollars ($150.00) per pay period to full-time employees designated as Full Office Workers, and seventy-five dollars ($75.00) per pay period to full-time employees designated as Partial Teleworkers. The Commuter Allowance begins the first full pay period as a Full Office Worker or Partial Teleworker. Eligible full-time employees will continue to receive the Commuter Allowance until the first full pay period in which an employee is not assigned to partial telework or full office work. The Commuter Allowance will be provided only for full pay periods in which employees are designated a Full Office Worker or Partial Teleworker and will not be prorated for being designated as a Full Office Worker or Partial Teleworker for a portion of the pay period. Executive Level Positions and Full Teleworkers are not eligible for the Commuter Allowance. With approval of the Chief Executive Officer, the Commuter Allowance may continue beyond July 1, 2023, and/or be reinstated after July 1, 2023.

I. Internet Stipend: CalOptima shall provide an Internet Stipend in an amount of twenty-five dollars ($25.00) per pay period to full-time employees designated as Full Teleworkers, Partial Teleworkers or Community Workers. The Internet Stipend begins the first full pay period as a Full or Partial Teleworker or Community Worker. Eligible full-time employees will continue to receive the stipend until the first, full pay period in which an employee is not assigned to full or partial telework or community work. The Internet Stipend will be provided only for full pay periods and will not be prorated for a change in designation for a portion of a pay period. Executive Level Positions and Full Office Workers are not eligible for the Internet Stipend.

J. Active Certified Case Manager (CCM) Pay: CalOptima may recognize supplemental pay of one hundred dollars ($100.00) per pay period to an RN who holds an active CCM certification when such certification is required or preferred in the job description and used regularly in performance of the employee's job duties. This is considered as an Educational Incentive pursuant to Title 2 CCR Section 571(a) and is to be reported to CalPERS as Special Compensation.

K. Executive Incentive Program: The Chief Executive Officer (CEO) may recognize Executive Level Positions, including interim appointments, using incentive compensation as described in this Policy. For employees in Executive Level Positions who achieve outstanding performance, the incentive compensation is considered bonus pay pursuant to Title 2 CCR Section 571(a) and is to be reported to CalPERS as Special Compensation for CalPERS classic members.

L. Sales Incentive Program: The OneCare/OneCare Connect Community Partner and Senior (Sr.) Community Partner staff in the Member Outreach & Education Department shall have an active Resident Insurance Producer license to enroll eligible members into the OneCare and OneCare Connect programs.

1. The licensed Community Partner and Sr. Community Partner staff will receive a monthly Sales Incentive based on the number of eligible members enrolled into the OneCare and OneCare Connect program in accordance with the table in Paragraph II.I.2. below. No incentive will be paid for the first thirty (30) enrollments each month, regardless of how many enrollments are made under, at or over thirty (30). For enrollments over thirty (30), licensed Community Partner and Sr. Community Partner staff will be eligible to receive the incentive payment of one hundred sixty-five dollars ($165.00) for each new enrollment within that tier between thirty-one (31) – fifty (50). In other words, each tier is independent and does not alter the amount paid per enrollment in any other tier. For example, eligible staff who enroll fifty-three (53) members in a month will be eligible to receive payment based on the following calculation (from tier thirty-one (31) – fifty(50)) twenty (20) members multiplied by one hundred sixty-five dollars ($165), plus (from tier fifty-one (51) – sixty-five (65)) three (3) members multiplied by one hundred seventy-five ($175), which equals an incentive of three thousand eight hundred twenty-five dollars ($3,825) for that month.

2. Enrollment is paid per eligible member above the minimum tier at the rate specified within each tier as follows:

Tier Min	Tier Max	Payout for Enrollment within Each Tier
1	30	**$0.00**
31	50	**$165.00**
51	65	**$175.00**
66+		**$200.00**

3 The sales incentive for the Manager, Member Outreach & Education shall be based on the number of eligible members enrolled into the OneCare and OneCare Connect programs by the

Community Partner and Sr. Community Partner in the Member Outreach & Education Department. The Manager, Member Outreach & Education will receive ten dollars ($10.00) per member enrolled, if and only if, the Community Partner or Sr. Community Partner reporting to the Manager, Member Outreach & Education, enrolls thirty-six (36) or more members per month. If a Community Partner or Sr. Community Partner fails to enroll at least thirty-six (36) members per month, the Manager, Member Outreach & Education, would not be eligible for the sales incentive for that Community Partner or Sr. Community Partner.

M. Employee Incentive Program: At the discretion of the CEO, specific employees may be recognized through incentive compensation, when doing so is consistent with CalOptima's business needs and mission, vision, and values.

N. Retention Incentive: In order to preserve organizational talent and to maintain business continuity when the loss of key personnel may cause risk or damage to operational efficiency, regulatory compliance, and/or strategic imperatives, CalOptima may, at the discretion of the CEO, and on an exception basis, award a retention incentive.

O. Recruitment Incentive: At the discretion of the CEO, a recruitment incentive of up to fifteen percent (15%) of the midpoint of base pay for the applicable position may be offered to entice an individual to join CalOptima. Recruitment incentives offered for Executive Director and Chief positions, to a maximum of $50,000, require informing the Board of Directors after approved.

P. Incentive programs may be modified or withdrawn, at any time. An award of incentive compensation is entirely at the discretion of the CEO and/or Board of Directors, as applicable. It is not intended to be a binding contract between Executive Level Positions or employees and CalOptima.

Q. Employer-Paid Member Contribution (EPMC): CalOptima contributes seven percent (7%) of compensation earnable, on behalf of eligible employees who hold management staff positions as identified in the CalOptima salary schedule, and who qualify based on all of the following:

1. Hired, promoted, or transferred into a management staff position, including interim appointments; and

2. Included in one (1) of the following categories:

   a. A CalPERS Classic Member; or

   b. A member prior to January 1, 2013, of another California public retirement system that is eligible for reciprocity with CalPERS.

R. Annual Performance Lump Sum Bonus: Employees paid at or above the pay range maximum are not eligible for future base pay increases. As a result, in lieu of future base pay increases, these employees may be eligible for merit bonus pay delivered as a lump sum bonus in accordance with Section III.J of this Policy, provided that their performance meets the goals and objectives set forth by their managers.

S. Automobile Allowance: CalOptima may, at the discretion of the CEO, provide employees in Executive Level Positions, including interim appointments, with a monthly automobile allowance in an amount not to exceed five hundred dollars ($500.00) for the use of their personal vehicle for CalOptima business.

T. Supplemental Retirement Benefit: Consistent with applicable Board actions, the CEO is authorized to determine CalOptima's contribution rate for employees to the supplemental retirement benefit (SRB) plan administered by the Public Agency Retirement System (PARS) within the limits of the budget and subject to contribution limits established by applicable laws. With the exception of employees in Executive Level Positions, the contribution rate shall be uniform for all employees. Executive Level Positions will also receive the same uniform contribution rate applicable to all employees. However, for employees in Executive Level Positions who earn more than the applicable compensation limits, the CEO is authorized to provide additional supplemental contributions to PARS, subject to the limitations of applicable laws. An employee in an Executive Level Position must still be employed by CalOptima at the time the additional supplemental contribution to PARS is distributed in order to be eligible to receive the additional supplemental contributions. These SRB contributions to the PARS retirement plan shall continue from year to year, unless otherwise adjusted or discontinued.

III. PROCEDURE

A. Overtime Pay: Overtime must be approved in advance by an employee's manager. Adjustments for overtime pay cannot be calculated until the completion of an employee's workweek. This may result in one (1) pay period's delay in the employee receiving the additional compensation.

B. Holiday Premium Pay: Working on a CalOptima observed holiday must be approved in advance by the employee's manager. Unauthorized work that occurs on an observed holiday is not eligible for Holiday Premium Pay and will be paid at the employee's regular base pay. Actual hours worked on a holiday will be used for purposes of calculating overtime.

C. Bilingual Pay: An employee or potential employee shall undergo a written and verbal bilingual evaluation when bilingual proficiency is a part of the employee's or potential employee's job description and used in the performance of the employee's job duties with members. If the employee or potential employee passes the evaluations, the bilingual pay shall be established.

D. Translation Pay: If an eligible exempt employee elects to provide translation services, and such services are not part of the employee's regular job duties, the employee shall submit their interest to the C&L Department. If selected, the translation pay identified above, will be provided depending on the variables noted above, taking into account whether professional translation services are either not available or unfeasible due to business constraints.

E. Night Shift:

1. Night Shift differential is automatically calculated for those employees regularly working a night shift, defined as seven (7) consecutive hours or more of work between 3 p.m. and 8 a.m.

2. Employees who, at their own request and for their own convenience, adjust their work schedule, such as requesting make up time or alternative hours, and as a result, would be eligible for night shift pay, shall be deemed as having waived their right to same. When appropriate, a new Action Form should be submitted, removing the employee from the night shift.

F. Call Back and On Call Pay:

1. If employees are on call or get called back to work, the employees are responsible for adding this time to their schedules through CalOptima's time keeping system, which is then approved by their supervisors.

G. Commuter Allowance

1. Commuter Allowance is automatically calculated for eligible employees based on system designation of Full Office Worker or Partial Teleworker. Employees and leaders are responsible for maintaining accurate designations in the timekeeping system. Designation changes require a request and approval per the Telework Program Guidelines. CalOptima may periodically audit and validate employee Office/Telework designations.

H. Internet Stipend

1. Internet Stipend is automatically calculated for eligible employees based on system designation of Full Teleworker, Partial Teleworker, or Community Worker. Employees and leaders are responsible for maintaining accurate designations in the timekeeping system. Telework designation changes require a request and approval per the Telework Program Guidelines. Community Worker designation is determined by the position. CalOptima may periodically audit and validate employee Office/Telework designations.

I. Active Certified Case Manager (CCM) Pay:

1. To receive CCM supplemental pay, an employee is responsible for providing a copy of the employee's case management certification issued by the Case Management Society of America to the Human Resources Department.

J. Incentive Compensation

1. The Board of Directors approves CalOptima's strategic plan for each fiscal year, and the CEO is expected to meet the goals set forth in the strategic plan. The CEO in turn sets goals for the Executive Level Positions.

2. The CEO may establish an incentive compensation program for Executive Level Positions based on the Executive Incentive Program attached within budgeted parameters in accomplishing specific results according to the department and individual goals set forth by the CEO and the level of achievement. Executive Level Positions will receive a performance evaluation based on the Performance Review of Executives Template attached, which measures their performance against the established goals. Based on the level of performance, the executive staff member may be eligible for a lump sum bonus payment. The executive staff member must still be employed by CalOptima and in good standing at the time the bonus is distributed in order to be eligible to receive the bonus payment. For eligible Executive Level Positions who achieve outstanding performance, CalOptima will report the bonus payment to CalPERS as Special Compensation. The CEO is authorized to make minor revisions to the Executive Incentive Program and Performance Review of Executives Template from time to time, as appropriate.

3. As circumstances warrant and at the discretion of the CEO, employees not in Executive Level Positions, whose accomplishments have provided extraordinary results, may be considered for incentive compensation.

K. Sales Incentive Program

1. The OneCare/OneCare Connect Community Partner and Sr. Community Partner staff, in the Member Outreach & Education Department, shall have an active Resident Insurance Producer license to enroll eligible members into the OneCare and OneCare Connect Programs.

2. The Community Partner and Sr. Community Partner staff shall be eligible to receive sales incentive pay as described in Section II.I.1 of this Policy for successfully enrolling new members into the OneCare and OneCare Connect Programs. Sales incentive pay for the Manager, Member Outreach & Education, shall be based on the number of members enrolled into the OneCare and OneCare Connect Programs by the Community Partner and Sr. Community Partner as described in Section II.I.2 of this Policy.

    a. CalOptima shall follow the Medicare Marketing Guidelines (MMGs) charge-back guidelines of ninety (90) calendar day rapid disenrollment and recouping the sales incentive with the exceptions as specified under the guidelines and applicable CalOptima policies.

3. CalOptima shall advance the sales incentive to the eligible employee on a monthly basis approximately one and a half (1 ½) months after the month in which the eligible employee enrolled the new member. However, the sales incentive is not earned until the member has been enrolled in the respective program for ninety-one (91) days.

    a. In the event a OneCare or OneCare Connect member disenrolls from their respective program within ninety (90) calendar days for reasons other than the exceptions specified under the guidelines and applicable CalOptima policies, the sales incentive previously paid will be deducted from a future sales incentive.

4. The Chief Operating Officer, Executive Director of Network Operations, and Director Network Management who oversee the Member Outreach & Education Department shall approve the sales incentive payout.

5. Enrollment goals for the Community Partner and Community Partner Sr. staff will be pro-rated for the month if the employee misses one (1) or more full weeks due to vacations, sick days, or a leave of absence.

6. The Director, Network Management, Executive Director of Network Operations, and the Chief Operations Officer will review the sales incentive structure on an annual basis.

L. Retention Incentive: As circumstances warrant, the CEO may award an employee a retention incentive to prevent or delay departures that may adversely impact business operations. The employee offered a retention incentive must be in good standing and accept and sign a retention agreement which contains the condition(s) to be met to receive payment. Payment of the incentive will be made when the terms of the agreement have been fully met and at the conclusion of the retention period. The CEO has the authority to offer retention incentives for up to twenty-five (25) employees per fiscal year in an amount not to exceed twenty percent (20%) of the employee's current base annual salary. Retention incentives that exceed twenty percent (20%) of the employee's current base annual salary require Board of Directors approval.

M. Recruitment Incentive: As circumstances warrant, the CEO may offer a recruitment incentive based on the Compensation Administration Guidelines managed by the Human Resources Department to entice an individual to join CalOptima. Board of Director approval is required for recruitment incentives offered for Executive Level Positions. To receive the recruitment incentive, the individual offered the incentive is required to accept and sign an offer letter which contains a "claw-back" provision obligating the recipient of a recruitment incentive to return the full amount of the recruitment incentive if the recipient voluntarily terminates employment with CalOptima within twenty-four (24) months of the date of hire.

N. Annual Performance Lump Sum Bonus: Once employees have reached the pay range maximum, employees may be eligible for merit bonus pay delivered as a lump sum bonus, provided that their

annual performance evaluations meet the established goals and objectives set forth by their managers. Merit bonus pay will not exceed the maximum percentage of the merit increase matrix and reflects employees' superior performance measured against established objectives. Annual performance lump sum bonuses are paid out in two (2) incremental amounts – the first half when merit salary increases are normally distributed and the second half six (6) months later. The employee must still be employed by CalOptima to be eligible to receive the lump sum bonus payments.

O. Automobile Allowance: As circumstances warrant, the CEO may offer employees in Executive Level Positions an automobile allowance in lieu of the IRS standard mileage reimbursement rate that would otherwise apply for the use of their personal vehicle in the performance of their duties. Such automobile allowance will be identified on the employees' W-2 forms as taxable income. In addition, as a condition of receiving such allowance, the employee must comply with the following requirements:

1. Maintain adequate levels of personal vehicle insurance coverage;

2. Purchase their own fuel for the vehicle; and

3. Ensure the vehicle is properly maintained.

IX. GLOSSARY

Term	Definition
Bilingual Certified Employee	An employee who has passed CalOptima's Bilingual Screening Process either upon hire or any time during their employment.
Bilingual Screening Process	Prospective staff translators are identified by Cultural and Linguistic (C&L) Services Department based on qualifications obtained through CalOptima's bilingual screening process. The screening is either conducted as part of their initial hiring process or later during their employment. All staff translators must possess a strong ability to read, write and understand the target language. Once identified as potential staff translators, they are required to take a proficiency test created by C&L Services Department. They are evaluated on their vocabulary, grammar, orthography, flow, accuracy, cultural sensitivity, as well as consistency in usage of translated terms. The selection is based on their overall score.
Bonus Pay	Compensation to employees for superior performance such as "annual performance bonus" and "merit pay." If provided only during a member's final compensation period, it shall be excluded from final compensation as "final settlement" pay. A program or system must be in place to plan and identify performance goals and objectives to count as Special Compensation for CalPERS purposes.
CalPERS	California Public Employees Retirement System
CalPERS Classic Member	A member enrolled in CalPERS prior to January 1, 2013.
Classic Director	A Management Staff who is either a CalPERS Classic Member or a member prior to January 1, 2013, of another California public retirement system who is eligible for reciprocity with CalPERS.
Classic Executive	An Executive Staff who is either a CalPERS Classic Member or a member prior to January 1, 2013, of another California public retirement system who is eligible for reciprocity with CalPERS.
Compensation Earnable	The pay rate and Special Compensation as defined in Government Code sections 20636 and 20636.1.
Central Worksite	CalOptima's primary physical location of business applicable to the employee, which is either CalOptima's administration building at 505 City Parkway West, the PACE building or other CalOptima operated location.
Community Worker	An employee in a position that performs fifty-one percent (51%) or more of their duties in field locations such as provider offices, members' homes, and at community outreach events.
Executive Level Position	The position of Executive Director or above.
Exempt Employee	Employees who are exempt from the overtime provisions of the federal Fair Labor Standards Act (FLSA) and state regulations governing wages and salaries. Exempt status is determined by the duties and responsibilities of the position and is defined by Human Resources for each position.
Full Office Worker	An employee who is assigned to work their full schedule at the Central Worksite.
Full Teleworker	An eligible employee who is approved to routinely work their entire regularly scheduled work hours from a Remote Work Location unless business needs require otherwise.
Leave of Absence (LOA)	A term used to describe a scheduled period of time off longer than five (5) days that employees are to be away from their primary jobs, while maintaining the status of employee.

Term	Definition
Management Staff	Staff holding positions at or above Director level.
Partial Teleworker	An eligible employee who is approved to work a pre-established consistent weekly work schedule split between two (2) or more full days per week at the Central Worksite, and the remainder of full days at the Remote Work Location.
Sales Incentive	An amount of money paid, in addition to base pay, to an employee for successfully enrolling a member into the OneCare or/ OneCare Connect Program.
Special Compensation	Payment of additional compensation earned separate from an employee's base pay that meets the criteria listed in Title 2, California Code of Regulations (CCR) section 571(a).
Threshold Language	For purposes of this policy, a threshold language as defined by the Centers for Medicare & Medicaid Services (CMS) for Medicare programs, or Department of Health Care Services for the Medi-Cal program.

1

CALOPTIMA EXECUTIVE INCENTIVE PROGRAM

The Executive Incentive Plan is an annual plan for the members of CalOptima's executive team that provides a monetary reward for superior performance based on the achievement of predetermined goals and objectives. The amount of incentive awarded to participants is determined based on goal achievement scores and the availability of budget for incentive payments.

A. Purpose: To align the performance of CalOptima's executive staff towards the accomplishment of the agency's long-term strategic plan and to reward outstanding accomplishment of annual key business strategies and initiatives.

B. Eligibility: To be eligible to participate in the Executive Incentive Plan, an employee must be in an executive level position with job titles containing the designation of "Chief" or "Executive."

C. Goals and Objectives: Specific performance goals and objectives are established by the Chief Executive Officer and members of the executive team. Each goal is assigned a weighted percentage, and a description/measure of accomplishment. Goals are established using the following guidelines.

- Linkage to organization strategy
- Stretch objectives with a reasonable probability of attainment
- Consistency in approach across departments
- Encouragement of teamwork among leadership team and the organization, and
- Simple to understand, communicate and administer

D. Performance Period: Accomplishment of goals and objectives will be determined based on performance during the fiscal year (July 1 to June 30).

E. Incentive Opportunity: Goals and objectives are assigned accomplishment points. A minimum score of 50 points is required to be eligible for incentive compensation. The maximum points awarded is 100. The maximum incentive award is ten percent (10%) of the participant's annual base compensation at the time the incentive is calculated. The amount can be prorated based on the number of months of participation in the plan. In order to receive an incentive award, the participant must be an active employee at the time the award is paid out. The range of the potential incentive for Executive Staff is contingent upon a range of performance based upon the goals and objectives established by the Chief Executive Officer. Based upon the total accomplishment points received, the incentive opportunities may be determined based upon a performance matrix, as an example, as follows:

Points	Category	Description	Incentive as Percentage of Base Pay
Below 50	Below Threshold	The minimum level of performance was not achieved	0%

Points	Category	Description	Incentive as Percentage of Base Pay
50-60	Threshold	The minimum level of performance which must be achieved before an incentive is paid	0-4%
60-70	Target	The level of performance which generally equates to the achievement of some but not all goals and objectives	4-6%
70-85	Commendable	The level of performance where the combination of personal effort and business produce an above average return for the organization	6-8%
85-100	Outstanding	The very superior level of performance which occasionally occurs when all circumstances come together to produce very high returns for the organization.	8-10%

F. Modification of Plan: The CEO may modify the plan for business need at any time. Participation in the plan is subject to the approval of the CEO. Participation in any single year does not predict participation in subsequent years.

Manager Review: ***Below are the Core Competencies to be completed by your manager***

CORE BEHAVIORAL COMPETENCIES

This section describes the core competencies required for successful employee performance for this CalOptima position. In the space provided, mark the appropriate rating with an "x" and provide comments as needed. Evaluate the employee on each factor relevant to the job duties and responsibilities by indicating to what degree the employee demonstrates the overall skill or behavior on the job.

Competency Rating Scale Definitions:

Outstanding – Performance **regularly exceeds** job expectations due to **exceptionally high quality** of work in all essential areas of responsibility, resulting in outstanding contribution. Reserved for truly outstanding performance.

Exceeds Expectations - **Often** demonstrates behaviors that go **above and beyond** expectations in order to achieve exceptional performance or intended results.

Fully Meets Expectations - Demonstrates effective and desired behaviors that **consistently** meet **expected** performance standards.

Needs Development - Demonstrates **some** desired behaviors, or uses behaviors **inconsistently**. Requires some development/improvement.

Unacceptable - Rarely demonstrates competency behaviors. **Does not meet** performance standards. Requires **significant** and **immediate** improvement

COMMUNICATION:

- Communicates well with others in both verbal and written form by adapting tone, style and approach based on people's perspectives and situations. Organizes thoughts, expresses them clearly and respectfully.
- Listens attentively to ideas of others; cooperates and builds good working relationships with others.
- Provides colleagues with regular and reliable information, including updates on own activities/decisions, and is well-prepared when speaking in front of a group; presentations are clear and informative.

☐ Outstanding
☐ Exceeds Expectations
☐ Fully Meets Expectations
☐ Needs Development
☐ Unacceptable

List specific examples or details of past performance and self-development

CUSTOMER FOCUS (internal and/or external)

- Actively listens and follows up/through on customer inquiries/requests in a timely, professional, courteous, and sensitive manner; ensures clear and frequent communication with customers about progress, changes and status; takes responsibility for correcting customer problems.
- Demonstrates a good understanding of company/department procedures for handling customer complaints; knows when to bring in help/use the chain of command for problems beyond ability.
- Demonstrates collaborative relationships with others.
- Viewed as a team player. Assists others in achieving their goals.

☐ Outstanding
☐ Exceeds Expectations
☐ Fully Meets Expectations
☐ Needs Development
☐ Unacceptable

I. PURPOSE

This policy outlines CalOptima's guidelines for protecting proprietary, private, and confidential information.

II. POLICY

A. CalOptima Board members, executive staff, employees, ~~contractors,~~ interns, volunteers, ~~and~~ temporary employees, and applicable contractors, consultants, and agents (referred to herein collectively as "Employees") shall not disclose, divulge, or make accessible proprietary, private, and/or confidential information belonging to, or obtained through the Employee's affiliation with, CalOptima to any person, including, but not limited to, relatives, friends, and business and professional associates, other than to persons who have a legitimate business need for such information and to whom CalOptima has authorized disclosure in writing. This obligation includes making sure proprietary, private, and/or confidential information is secure (whether maintained in electronic or other format), taking precautions to secure files, and following all federal, state, and local laws and regulations.

B. Proprietary information ~~includes~~is all information owned by CalOptima, obtained, or created by Employees during the course of their work with or at CalOptima, including, but not limited to, intellectual property, computer software, and provider identification numbers. Private information ~~includes, but~~ is ~~not limited~~any personal information for which an individual, group, or entity would reasonably expect to~~,~~ be restricted from public access, including, but not limited to, any information related to a person's health, ~~employment application, residence address, testing scores~~member file, personnel ~~reviews,~~ file, recruitment and application records, workers' compensation file, date of birth, and social security number~~, etc.~~. Confidential information is any information that is not known generally to the public, and is accessible only to those for whom it is intended or directed, including, but not limited to, ~~Protected Health Information (PHI), personnel files,~~ provider rates, the Department of Health Care Services (DHCS) reimbursement rates, ~~and any other information that may exist in~~ Protected Health Information (PHI), procurement requests, vendor proposals or bids, contracts, administrative files, ~~personnel records,~~ computer records, computer programs, and financial data. Information may be one or more of proprietary, private, and/or confidential in nature.

Back to Agenda Back to Item Back to Agenda

C. Inappropriate use, unauthorized copy ~~and~~or transfer, attempted destruction, or the destruction or disclosure of proprietary, private, and/or confidential~~, private, or proprietary~~ information obtained through the Employee's affiliation with CalOptima will subject an Employee to discipline, up to and including termination, and possible legal recourse.

III. PROCEDURE

A. ~~CalOptima~~ Employees shall:

1. Use proprietary, private, and/or confidential information solely for the purpose of performing services as a trustee~~,~~ or Employee~~,~~ of CalOptima;

2. Exercise good judgment and care at all times to avoid unauthorized~~,~~ or improper~~,~~ disclosures of proprietary, private, and/or confidential information; and

3. Adhere to all CalOptima compliance and Health Insurance Portability and Accountability Act (HIPAA) policies, ~~in accordance with~~including, but not limited to, CalOptima Policies ~~IS.1101: EPHI Physical Controls,~~ IS.1201: EPHI Technical Safeguards - Access Controls, IS.1202: EPHI Technical Safeguards - Data Controls, GA.5005a: Use of Technology Resources, and IS.1301: Security of Workforce Access to EPHI.

4. Employees are expected to report Confidentiality issues under this policy and can do so anonymously to the Compliance and Ethics hotline at 1-877-837-4417.

B. Conversations in public places, such as restaurants, elevators, restrooms, hallways, lobbies, and while traveling via public transportation, should be limited to matters that do not pertain to information of a sensitive, proprietary, private, and/-or confidential nature. In addition, Employees must be sensitive to the risk of inadvertent disclosure and should refrain from leaving proprietary, private, and/or confidential information on desks, workspaces, personal computers, cars, or otherwise in plain view of unauthorized persons, and Employees shall refrain from the use of speaker phones to discuss proprietary, private, and/or confidential information if the conversation could be heard by unauthorized persons.

C. Employees may ~~receive~~be subject to more specific legal, regulatory, and contractual requirements regarding ~~the confidentiality of the~~proprietary, private, and/or confidential information. In brief summary, Employees and individuals affiliated with CalOptima are subject to various confidentiality provisions such as:

1. Public Assistance Recipients: The identity of an individual receiving public services/assistance is protected by state and federal law. Medi-Cal is a form of public assistance and providing information regarding an individual's eligibility is limited only to purposes of service delivery. Only those designated individuals responsible for verifying eligibility to providers should be providing such information and only to authorized recipients.

2. Medical Records: Medical condition and treatment records are confidential between the treating healthcare Provider and Member. Such information is protected under California and federal law. When authorized, such records may be subject to review by qualified professionals involved in CalOptima's responsibilities related to such functions as claims, utilization review, quality assurance, grievance appeals, etc. Any information obtained in this regard must be kept confidential and may not be disclosed to unauthorized persons.

3. Special Health Conditions: Information related to the identity of individuals receiving treatment with certain health conditions carry further confidentiality protection, e.g., AIDS, substance abuse, mental illness, or venereal disease.

4. Special Categories: Other conditions, or circumstances, are covered by special confidentiality provisions, e.g., minors, victims of abuse, etc.

5. Rates: The rates paid to CalOptima by the Department of Health Care Services (DHCS) and the rates CalOptima pays to its contractors/providers are confidential under state and federal law.

D. HIPAA requires CalOptima, its Employees, and its agents to comply with the following standards to protect the privacy of an individual's PHI. PHI is any individually identifiable health information, including demographic information. CalOptima is committed to ensuring the privacy and security of Member information, and Employees shall comply with applicable laws and CalOptima policies and procedures to protect and maintain the confidentiality of PHI as outlined below:

1. General Use: PHI pertaining to Members may only be used to perform functions, activities, or services for the purpose of treatment, payment, or health care operations, unless otherwise authorized by the Member, or required by law. In addition, use or disclosure of PHI should be limited to the minimum necessary to accomplish the intended purpose of the use, disclosure, or request.

2. Unacceptable Use: PHI shall not be used for personal benefit~~,~~ or for the benefit of any other person or entity. Divulging the Medi-Cal status~~,~~ or other PHI~~,~~ of a Member to unauthorized recipients is prohibited.

3. Privacy and Security Safeguards: CalOptima is required to have in place administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of PHI. These safeguards may include, but are not limited to, physically securing PHI in paper form and encrypting PHI in electronic form.

E. At the end of a Board member's term in office, or upon the termination of an Employee's relationship with CalOptima, he or she shall immediately return all documents, papers, electronic files, and other materials, regardless of medium, which may contain or be derived from proprietary, private and/or confidential~~, private or proprietary~~ information in his or her possession.

F. Any individual covered by this policy who violates its provisions shall be subject to discipline and/or separation from service, or affiliation, with CalOptima as well as possible civil and/or criminal liability. The restrictions of this policy also pertain to any disclosure or use of ~~confidential~~proprietary, private, and/or ~~proprietary~~confidential information after leaving affiliation with CalOptima.

G. CalOptima shall provide new hires with this ~~Policy~~policy.

1. All Employees are required to sign an acknowledgment ~~agreeing~~that they have received and read, and understand, this policy and agree to comply with ~~this Policy.~~ it.

2. Failure to sign such acknowledgment may result in disciplinary action, up to and including ~~possible~~ termination.

H. CalOptima welcomes new ideas related to the security of our proprietary, private, and/or confidential information and encourages Employees to share them with their supervisors and

managers to continually improve existing practices. If any Employee would like to remain anonymous when sharing such ideas, that Employee may contact Human Resources Employee Relations unit.

I. PURPOSE

This policy outlines CalOptima's guidelines for protecting proprietary, private, and confidential information.

II. POLICY

A. CalOptima Board members, executive staff, employees, interns, volunteers, temporary employees, and applicable contractors, consultants, and agents (referred to herein collectively as "Employees") shall not disclose, divulge, or make accessible proprietary, private, and/or confidential information belonging to, or obtained through the Employee's affiliation with, CalOptima to any person, including, but not limited to, relatives, friends, and business and professional associates, other than to persons who have a legitimate business need for such information and to whom CalOptima has authorized disclosure in writing. This obligation includes making sure proprietary, private, and/or confidential information is secure (whether maintained in electronic or other format), taking precautions to secure files, and following all federal, state, and local laws and regulations.

B. Proprietary information is all information owned by CalOptima, obtained, or created by Employees during the course of their work with or at CalOptima, including, but not limited to, intellectual property, computer software, and provider identification numbers. Private information is any personal information for which an individual, group, or entity would reasonably expect to be restricted from public access, including, but not limited to, any information related to a person's health, member file, personnel file, recruitment and application records, workers' compensation file, date of birth, and social security number. Confidential information is any information that is not known generally to the public, and is accessible only to those for whom it is intended or directed, including, but not limited to, provider rates, the Department of Health Care Services (DHCS) reimbursement rates, Protected Health Information (PHI), procurement requests, vendor proposals or bids, contracts, administrative files, computer records, computer programs, and financial data. Information may be one or more of proprietary, private, and/or confidential in nature.

C. Inappropriate use, unauthorized copy or transfer, attempted destruction, or the destruction or disclosure of proprietary, private, and/or confidential information obtained through the Employee's affiliation with CalOptima will subject an Employee to discipline, up to and including termination, and possible legal recourse.

Back to Agenda Back to Item Back to Agenda

III. PROCEDURE

A. Employees shall:

1. Use proprietary, private, and/or confidential information solely for the purpose of performing services as a trustee or Employee of CalOptima;

2. Exercise good judgment and care at all times to avoid unauthorized or improper disclosures of proprietary, private, and/or confidential information; and

3. Adhere to all CalOptima compliance and Health Insurance Portability and Accountability Act (HIPAA) policies, including, but not limited to, CalOptima Policies IS.1201: EPHI Technical Safeguards - Access Controls, IS.1202: EPHI Technical Safeguards - Data Controls, GA.5005a: Use of Technology Resources, and IS.1301: Security of Workforce Access to EPHI.

4. Employees are expected to report Confidentiality issues under this policy and can do so anonymously to the Compliance and Ethics hotline at 1-877-837-4417.

B. Conversations in public places, such as restaurants, elevators, restrooms, hallways, lobbies, and while traveling via public transportation, should be limited to matters that do not pertain to information of a sensitive, proprietary, private, and/or confidential nature. In addition, Employees must be sensitive to the risk of inadvertent disclosure and should refrain from leaving proprietary, private, and/or confidential information on desks, workspaces, personal computers, cars, or otherwise in plain view of unauthorized persons, and Employees shall refrain from the use of speaker phones to discuss proprietary, private, and/or confidential information if the conversation could be heard by unauthorized persons.

C. Employees may be subject to more specific legal, regulatory, and contractual requirements regarding proprietary, private, and/or confidential information. In brief summary, Employees and individuals affiliated with CalOptima are subject to various confidentiality provisions such as:

1. Public Assistance Recipients: The identity of an individual receiving public services/assistance is protected by state and federal law. Medi-Cal is a form of public assistance and providing information regarding an individual's eligibility is limited only to purposes of service delivery. Only those designated individuals responsible for verifying eligibility to providers should be providing such information and only to authorized recipients.

2. Medical Records: Medical condition and treatment records are confidential between the treating healthcare Provider and Member. Such information is protected under California and federal law. When authorized, such records may be subject to review by qualified professionals involved in CalOptima's responsibilities related to such functions as claims, utilization review, quality assurance, grievance appeals, etc. Any information obtained in this regard must be kept confidential and may not be disclosed to unauthorized persons.

3. Special Health Conditions: Information related to the identity of individuals receiving treatment with certain health conditions carry further confidentiality protection, e.g., AIDS, substance abuse, mental illness, or venereal disease.

4. Special Categories: Other conditions, or circumstances, are covered by special confidentiality provisions, e.g., minors, victims of abuse, etc.

5. Rates: The rates paid to CalOptima by the Department of Health Care Services (DHCS) and the rates CalOptima pays to its contractors/providers are confidential under state and federal law.

D. HIPAA requires CalOptima, its Employees, and its agents to comply with the following standards to protect the privacy of an individual's PHI. PHI is any individually identifiable health information, including demographic information. CalOptima is committed to ensuring the privacy and security of Member information, and Employees shall comply with applicable laws and CalOptima policies and procedures to protect and maintain the confidentiality of PHI as outlined below:

1. General Use: PHI pertaining to Members may only be used to perform functions, activities, or services for the purpose of treatment, payment, or health care operations, unless otherwise authorized by the Member, or required by law. In addition, use or disclosure of PHI should be limited to the minimum necessary to accomplish the intended purpose of the use, disclosure, or request.

2. Unacceptable Use: PHI shall not be used for personal benefit or for the benefit of any other person or entity. Divulging the Medi-Cal status or other PHI of a Member to unauthorized recipients is prohibited.

3. Privacy and Security Safeguards: CalOptima is required to have in place administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of PHI. These safeguards may include, but are not limited to, physically securing PHI in paper form and encrypting PHI in electronic form.

E. At the end of a Board member's term in office, or upon the termination of an Employee's relationship with CalOptima, he or she shall immediately return all documents, papers, electronic files, and other materials, regardless of medium, which may contain or be derived from proprietary, private and/or confidential information in his or her possession.

F. Any individual covered by this policy who violates its provisions shall be subject to discipline and/or separation from service, or affiliation, with CalOptima as well as possible civil and/or criminal liability. The restrictions of this policy also pertain to any disclosure or use of proprietary, private, and/or confidential information after leaving affiliation with CalOptima.

G. CalOptima shall provide new hires with this policy.

1. All Employees are required to sign an acknowledgment that they have received and read, and understand, this policy and agree to comply with it.

2. Failure to sign such acknowledgment may result in disciplinary action, up to and including termination.

H. CalOptima welcomes new ideas related to the security of our proprietary, private, and/or confidential information and encourages Employees to share them with their supervisors and managers to continually improve existing practices. If any Employee would like to remain anonymous when sharing such ideas, that Employee may contact Human Resources Employee Relations unit.

IX. GLOSSARY

Term	Definition
Covered Services	Medi-Cal: Those services provided in the Fee-For-Service Medi-Cal program (as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301), the Child Health and Disability Prevention program (as set forth in Title 17, CCR, Division 1, Chapter 4, Subchapter 13, Article 4, beginning with section 6842), and the California Children's Services (as set forth in Title 22, CCR, Division 2, subdivision 7, and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 2.985, beginning with section 14094.4) under the Whole-Child Model program, to the extent those services are included as Covered Services under CalOptima's Medi-Cal Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), and Health Homes Program (HHP) services (as set forth in DHCS All Plan Letter 18-012 and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 3.9, beginning with section 14127) for HHP Members with eligible physical chronic conditions and substance use disorders, or other services as authorized by the CalOptima Board of Directors, which shall be covered for Members not-withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program. OneCare: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Centers of Medicare & Medicaid Services (CMS) Contract. OneCare Connect: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Three-Way Contract with the Department of Health Care Services (DHCS) and Centers for Medicare & Medicaid Services (CMS). PACE: Those services set for the in California Code of Regulations, title 22, chapter 3, article 4, beginning with section 51301, and title 17, division 1, chapter 4, subchapter 13, beginning with Section 6840, unless otherwise specifically excluded under the terms of the DHCS PACE Contract with CalOptima, or other services as authorized by the CalOptima Board of Directors.
Employee	For purposes of this policy, CalOptima Board members, executive staff, employees, contractors, interns, volunteers, temporary employees, and applicable contractors, consultants, and agents.
Health Insurance Portability and Accountability Act (HIPAA)	The Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, enacted on August 21, 1996. Sections 261 through 264 of HIPAA require the Secretary of the U.S. Department of Health and Human Services to publicize standards for the electronic exchange, privacy and security of health information, as amended.

Term	Definition
Medical Record	Any single or complete record kept or required to be kept, that documents all the medical services received by the Member, including, but not limited to, inpatient, outpatient, and emergency care, referral requests, authorizations, or other documentation as indicated by CalOptima policy.
Member	A beneficiary enrolled in a CalOptima program.
Protected Health Information (PHI)	Has the meaning in 45 Code of Federal Regulations Section 160.103, including the following: individually identifiable health information transmitted by electronic media, maintained in electronic media, or transmitted or maintained in any other form or medium. This information identifies the individual or there is reasonable basis to believe the information can be used to identify the individual. The information was created or received by CalOptima or Business Associates and relates to: 1. The past, present, or future physical or mental health or condition of a Member; 2. The provision of health care to a Member; or 3. Past, present, or future payment for the provision of health care to a Member.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.

Policy:	GA.8058
Title:	**Salary Schedule**
Department:	CalOptima Administrative
Section:	Human Resources
CEO Approval:	*/s/*
Effective Date:	05/01/2014
Revised Date:	06/02/2022
Applicable to:	☐ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☒ Administrative

I. PURPOSE

A. This policy maintains a CalOptima Salary Schedule that lists all active job classifications including job title, salary grade, and salary ranges (minimum, midpoint, and maximum pay rate amounts).

B. This policy ensures the salary schedule is publicly available pursuant to the requirements of Title 2, California Code of Regulations (CCR) §570.5 so that employees who are members of the California Public Employees Retirement System (CalPERS) have their compensation considered qualified for pension calculation under CalPERS regulations.

II. POLICY

A. Pursuant to the requirements under Title 2, California Code of Regulations (CCR) §570.5, CalOptima has established the attached salary schedule for each CalOptima job position. In order for CalPERS member's pay rates to be credited by CalPERS, the Human Resources Department (HR) shall maintain a salary schedule that meets the following eight (8) separate criteria:

1. Approval and adoption by the governing body in accordance with requirements applicable to public meetings laws;

2. Identification of position titles for every employee position;

3. Listing of pay rate for each identified position, which may be stated as a single amount or as multiple amounts with a range;

4. Specifies the time base, including, but not limited to, whether the time base is hourly, daily, bi-weekly, monthly, bi-monthly, or annually;

5. Posted at the employer's office or immediately accessible and available for public review from the employer during normal business hours or posted on the employer's internet website;

6. Indicates the effective date and date of any revisions;

Back to Agenda Back to Item Back to Agenda

7. Retained by the employer and available for public inspection for not less than five (5) years; and
8. Does not reference another document in lieu of disclosing the pay rate.

B. The Chief Executive Officer (CEO) is authorized and directed to take all steps necessary and proper to implement the salary schedule for all other employees not inconsistent therewith.

III. PROCEDURE

A. The Human Resources Department (HR) will ensure that the salary schedule meets the requirements above and is available at CalOptima's offices, immediately accessible for public review during normal business hours and posted on CalOptima's internal and external websites.

B. HR shall retain the salary schedule for not less than five (5) years.

C. HR shall review the salary schedule and provide recommendations to maintain the competitiveness of the salary schedule to market pay levels.

D. Any adjustments to the salary schedule will require the Executive Director of HR to make a recommendation to the CEO for approval, with the CEO taking the recommendation to the CalOptima Board of Directors for final approval. No changes to the salary schedule, or CEO compensation, shall be effective unless and until approved by the CalOptima Board of Directors.

IX. GLOSSARY

Not Applicable

Policy:	GA.8058
Title:	**Salary Schedule**
Department:	CalOptima Administrative
Section:	Human Resources
CEO Approval:	*/s/*
Effective Date:	05/01/2014
Revised Date:	06/02/2022
Applicable to:	☐ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☒ Administrative

I. PURPOSE

A. This policy maintains a CalOptima Salary Schedule that lists all active job classifications including job title, salary grade, and salary ranges (minimum, midpoint, and maximum pay rate amounts).

B. This policy ensures the salary schedule is publicly available pursuant to the requirements of Title 2, California Code of Regulations (CCR) §570.5 so that employees who are members of the California Public Employees Retirement System (CalPERS) have their compensation considered qualified for pension calculation under CalPERS regulations.

II. POLICY

A. Pursuant to the requirements under Title 2, California Code of Regulations (CCR) §570.5, CalOptima has established the attached salary schedule for each CalOptima job position. In order for CalPERS member's pay rates to be credited by CalPERS, the Human Resources Department (HR) shall maintain a salary schedule that meets the following eight (8) separate criteria:

1. Approval and adoption by the governing body in accordance with requirements applicable to public meetings laws;

2. Identification of position titles for every employee position;

3. Listing of pay rate for each identified position, which may be stated as a single amount or as multiple amounts with a range;

4. Specifies the time base, including, but not limited to, whether the time base is hourly, daily, bi-weekly, monthly, bi-monthly, or annually;

5. Posted at the employer's office or immediately accessible and available for public review from the employer during normal business hours or posted on the employer's internet website;

6. Indicates the effective date and date of any revisions;

7. Retained by the employer and available for public inspection for not less than five (5) years; and
8. Does not reference another document in lieu of disclosing the pay rate.

B. The Chief Executive Officer (CEO) is authorized and directed to take all steps necessary and proper to implement the salary schedule for all other employees not inconsistent therewith.

III. PROCEDURE

A. The Human Resources Department (HR) will ensure that the salary schedule meets the requirements above and is available at CalOptima's offices, immediately accessible for public review during normal business hours and posted on CalOptima's internal and external websites.

B. HR shall retain the salary schedule for not less than five (5) years.

C. HR shall review the salary schedule and provide recommendations to maintain the competitiveness of the salary schedule to market pay levels.

D. Any adjustments to the salary schedule will require the Executive Director of HR to make a recommendation to the CEO for approval, with the CEO taking the recommendation to the CalOptima Board of Directors for final approval. No changes to the salary schedule, or CEO compensation, shall be effective unless and until approved by the CalOptima Board of Directors.

IV. ATTACHMENT(S)

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 2, 2022
Regular Meeting of the CalOptima Board of Directors

Report Item
Election of Officers of the Board of Directors for Fiscal Year 2022-23

Contact
Michael Hunn, Chief Executive Officer, (657) 900-1481

Recommended Action
Elect Board Chair and Vice Chair for terms effective July 1, 2022, through June 30, 2023, or until the election of a successor(s), unless the Board Chair or Vice Chair shall sooner resign or be removed from office.

Background/Discussion
In accordance with Article VIII, Section 8.1 of CalOptima's Bylaws, the Board shall elect one of its Directors as Chair at an organizational meeting. The Chair shall be the principal officer of the Board and shall preside at all meetings of the Board, shall appoint all members of the Ad Hoc Committees, as well as the chair of the Ad Hoc Committees and all Committees other than the Member and Provider Advisory Committees. The Chair shall perform all duties incident to the office and such other duties as may be prescribed by the Board from time to time.

Section 8.2 of the CalOptima Bylaws states that the Board shall elect one of its Directors to serve as Vice Chair at an organizational meeting. The Vice Chair shall perform the duties of the Chair if the Chair is absent from the meeting or is otherwise unable to act.

The Chair and Vice Chair terms shall commence on the first day of the month after the organizational meeting at which they are elected to their respective positions.

Fiscal Impact
There is no fiscal impact.

Rationale for Recommendation
The recommended actions are in accordance with Article VIII of the CalOptima Bylaws.

Concurrence
Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

Board of Directors Meeting
June 2, 2022

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan)
Member Advisory Committee Update

On April 21, 2022, the OneCare Connect Member Advisory Committee (OCC MAC) held a regular meeting via teleconference using Zoom Webinar technology.

OCC MAC members approved their meeting schedule through December 2022 and approved a recommendation to extend the terms through December 31, 2022, for those members whose term expires on June 30, 2022. The OCC MAC also approved their FY 2021-22 accomplishments.

Michael Hunn, Chief Executive Officer (CEO) provided the committee with a verbal CEO update discussing CalFresh and noted that CalOptima has organized a campaign to make members aware of this benefit. He noted that approximately 247,000 members were already enrolled and that CalOptima is identifying those members who are not enrolled in CalFresh to provide them with this assistance. Mr. Hunn also discussed how CalOptima will be seeking Board approval to enter into the California Exchange (Cover California) at the May Board meeting.

Yunkyung Kim, Chief Operating Officer provided a verbal update and discussed how CalOptima is in the process of the transition from OneCare Connect to OneCare and discussed the additional OneCare benefits with the committee. She asked the committee to help promote the transition to OneCare with the OneCare Connect members.

Richard Pitts, D.O., Chief Medical Officer provided a verbal update on COVID and discussed the category of patients with severe underlying conditions and the various types of medical drugs that were available for treatment.

Kelly Giardina, Executive Director, Clinical Operations with Scott Robinson, Director, Long-Term Services and Supports (LTSS) along with Michelle Findlater, LTSS Manager presented on the Difficulty in Placing Hospice Patients in Skilled Nursing Facilities and Tiffany Kaaiakamanu, Manager, Community Relations along with Amanda Vega, Supervisor, Orange County Social Services Agency presented on CalFresh program.

The OCC MAC appreciates the opportunity to provide the CalOptima Board with input and updates on their activities.

Provider Advisory Committee Update
Board of Directors Meeting
June 2, 2022

On May 12, 2022, the Provider Advisory Committee (PAC) held its monthly meeting via teleconference using Zoom Webinar technology.

PAC members approved their FY 2022-2023 meeting schedule that will have them meeting bi-monthly and jointly with the Member Advisory Committee. PAC also approved their accomplishments for FY 2021-22 and their proposed slate of candidates as recommended by the nominations ad hoc committee to fill upcoming PAC vacancies. PAC requested that staff prepare the necessary paperwork to forward appointment recommendations to the Board for seats expiring on June 30, 2022.

Michael Hunn, Chief Executive Officer, thanked the PAC for their service to CalOptima by serving on the PAC. Ms. Hunn also discussed CalOptima's receipt of $83 million over two a two year period to assist with homelessness street medicine. These funds would also be used to assist those homeless members navigate into housing. Mr. Hunn also discussed CalOptima's request of the Board to submit a request to the Board of Supervisors to change to the CalOptima Ordinance in order participate in the California Exchange and noted that the Board had approved this request at their June 2, 2022 meeting. He noted that a change to the Ordinance would allow for continuity of care for those members who risk losing coverage at the end of the pandemic emergency by allowing them to continue with CalOptima under Cover California.

Yunkyung Kim, Chief Operating Officer, discussed how on May 1, 2022 that adults 50 years and over regardless of their immigration status were now eligible for full scope Medi-Cal. This resulted in an additional 16K members for CalOptima. She noted that CalOptima continues to identify those who may be eligible for full scope Medi-Cal. Ms. Kim also provided a brief CalAIM update to the committee.

Richard Pitts, D.O., Chief Medical Officer, provided a COVID-19 update and screen shared via Zoom a color coded monthly calendar that showed a seasonal COVID pattern populated over the last two years.

Katie Balderas, Interim Director, Population Health Management presented on Homeless Health Initiatives and Tiffany Kaaiakamanu, Manager, Community Relations along with Taylor Adray, Supervisor, Orange County Social Services Agency presented on CalFresh.

Once again, the PAC appreciates and thanks the CalOptima Board for the opportunity to provide input and updates on the PAC's activities.

Member Advisory Committee Update
Board of Directors Meeting
June 2, 2022

On May 12, 2022, the Member Advisory Committee (MAC) held its monthly meeting via teleconference using Zoom Webinar technology. MAC members approved their FY 2022-2023 meeting schedule which will be held bi-monthly and jointly with the Provider Advisory Committee (PAC) beginning in August. The MAC also approved a recommended slate of candidates for the seats expiring on June 30, 2022, as recommended by the MAC nominations ad hoc committee. The MAC also approved their accomplishments for the FY 2021-2022.

Michael Hunn, Chief Executive Officer, thanked the MAC for their service to CalOptima and its members and assured the committee that their work in support of CalOptima's mission and vision had not gone unnoticed. Ms. Hunn also discussed CalOptima's receipt of $83 million over a two year period to assist with homelessness street medicine. These funds will also be used to assist those homeless members navigate into housing. Mr. Hunn also discussed CalOptima's request of the Board to submit a request to the Board of Supervisors for a change of Ordinance in order for CalOptima to participate in the California Exchange, and noted that the Board had approved this request at their June 2, 2022 meeting. A change to the Ordinance would allow for continuity of care for those members who risk losing coverage through Medi-Cal at the end of the pandemic emergency by allowing them to continue with CalOptima under Cover California.

Yunkyung Kim, Chief Operating Officer, discussed that on May 1, 2022, adults 50 years and over, regardless of their immigration status, are now eligible for full scope Medi-Cal benefits which resulted in an additional 16K members for CalOptima. She noted that CalOptima continues to identify those who may be eligible for full scope Medi-Cal. Ms. Kim also provided a brief CalAIM update to the committee.

Richard Pitts, D.O., Chief Medical Officer, provided a COVID-19 update and shared with the committee the trends being experienced with the virus noted in the New England Journal of Medicine.

Michael Arnot, Executive Director, Children's Cause OC presented on the Children's Mental Health Access Collaborative Project. Katie Balderas, Interim Director, Population Health Management, briefly discussed the Homeless Health Initiatives and agreed to return to the June meeting and update all of the Board Advisory Committees in order to receive feedback on how best to distribute the $83 million received in support of homeless healthcare initiatives.

MAC also received a CalFresh presentation by Tiffany Kaaiakamanu, Manager, Community Relations, and Angela Carrington, Supervisor, Orange County Social Services.

Once again, the MAC appreciates and thanks the CalOptima Board for the opportunity to provide input and updates on their activities.
