WELL-CHILD VISITS: When to Go and What to Expect

Bright Steps AProgram of CalOptima Health

Childhood is a time of quick growth and change, especially in the first 2 years of life. Your child's doctor will want to see them often. Regular well-child visits with the doctor are a great way to make sure your child is healthy and growing well.

Well-child visits are recommended at these ages:

The first week (3 to 5 days old)	12 months old
1 month old	15 months old
2 months old	18 months old
4 months old	24 months old
6 months old	30 months old
9 months old	Yearly from ages 3 to 21

It is important to stay on track and take your child to these visits, even if they are not sick. Well-child visits are different from seeing the doctor when your child is sick. If your child has missed a well-child visit, it is not too late to see the doctor. Read more to learn when to go and what to expect.

Well-Child Visit	Sick Visit
A routine well-child visit finds or prevents health problems.	A sick visit is when there is a problem, or your child seems sick.
At a well-child visit, the doctor will:	At a sick visit, the doctor will review:
 Complete a physical exam Complete a blood lead screening Check the child's growth and learning Test hearing, vision and other functions at some visits Give recommended shots at some visits Talk about the family's health history Discuss important health topics such as development, nutrition, sleep, safety and diseases that are going around 	 Concerns Minor and serious illness Unexpected illnesses such as: Cough Stomachache Rash Vomiting Any ongoing (chronic) diseases such as: Asthma Diabetes

If your child has not seen their doctor for a well-child visit, please call their doctor and schedule an appointment today.
