# 2025 Information Security Review

**Board Cybersecurity Educational Session**

# 2025 Information Security Program Review

## Cyber Risk Reduction

- Reduced critical security vulnerabilities by nearly 90%, significantly lowering exposure to known exploitable weaknesses.
- Implemented Zero Trust access controls for critical systems, restricting access to verified users and devices.
- Blocked more than 6,000 malicious or high-risk external actors, reducing the likelihood of unauthorized access.
- Strengthened threat detection and response through centralized 24x7 monitoring and automated containment capabilities.

Value to the organization:

These efforts lowered the risk of ransomware, data breaches, and service disruptions that could affect members, providers, and operations.

# 2025 Information Security Program Review

## Compliance and Governance

- Strengthened the security governance framework and aligned policies with current federal and healthcare regulatory standards.
- Enhanced data loss prevention controls to better protect sensitive and protected health information.
- Formalized Business Impact Analysis and Business Continuity Planning processes with third-party support to improve resilience.
- Conducted executive-level tabletop exercises and maintained close coordination with Compliance and Legal leadership.

Value to the organization:

Improved compliance alignment and operational resilience reduce regulatory risk and strengthen readiness for disruptive events.

# 2025 Information Security Program Review

## Infrastructure and Access Protection

- Strengthened identity and privileged access controls for critical systems to reduce administrative and insider risk.
- Eliminated legacy access rules and unnecessary permissions to simplify and harden the environment.
- Removed local account access and blocked unauthorized inbound workstation connections to limit lateral movement.
- Cleared technical barriers to enable stronger authentication protections for employees.

Value to the organization:

Reduced the impact of compromised credentials and strengthen our ability to prevent and contain security incidents.

# 2025 Information Security Program Review

## Data Protection and Privacy

- Improved visibility and governance of sensitive data across the organization.
- Securely managed complex, high-impact legal and regulatory data requests requiring coordinated enterprise response under strict timelines.
- Strengthened access controls and monitoring for sensitive HR and business data in cloud environments.
- Reduced over-exposure of sensitive data and extended monitoring into non-production systems.

Value to the organization:

Strengthen the protection of member and employee information, reduce disclosure risk, and reinforce our accountability to members, regulators, and the public.

**Quarterly Treasurer’s Report  
October 1, 2025, through December 31, 2025**

---

**Overview**

To fulfill the requirements of Government Code section 53646, subdivision (b) and CalOptima Health Policy GA.3400: Annual Investments approved by the CalOptima Health Board of Directors (Board) on December 5, 2024, the Treasurer submits this quarterly investment report for the period October 1, 2025, through December 31, 2025.

Meketa Investment Group, Inc. (Meketa), completed an independent compliance review of the monthly investment reports prepared by CalOptima Health’s two (2) investment managers: MetLife and Payden & Rygel. As of this quarter’s end, the review found that all investments were in compliance with the sector, issuer, and maturity limits stated in Government Code section 53600 *et seq.* and CalOptima Health’s Annual Investment Policy.

**Portfolio Summary**

As of December 31, 2025, the market values of the Short-Term Operating and Restricted Reserve portfolios were as follows:

	<b>Payden &amp; Rygel</b>	<b>MetLife</b>	<b>Total</b>
<b>Short-Term Operating</b>	\$1,153,507,729	\$947,968,326	\$2,101,476,056
<b>Board-designated Reserve Fund (Tier 1)</b>	\$811,629,873	\$811,952,393	\$1,623,582,266
<b>Statutory Designated Reserve Fund (Tier 2)</b>	\$67,985,173	\$67,777,421	\$135,762,594
<b>Total</b>	<b>\$2,033,122,775</b>	<b>\$1,827,698,140</b>	<b>\$3,860,820,915</b>

Notes: Market values in the table are based on the updated investment report.  
Cash flow manager of the Operating Cash pool for each calendar year: MetLife for Q2 & Q3; Payden for Q1 & Q4

The Total Fund’s net of fees performance for this quarter was 1.112%. The Short-Term Operating account had a return of 1.068%. The fixed income portion, Tier One and Tier Two accounts, had a return of 1.159% for the quarter. Please refer to the Executive Summary section of the Meketa Quarterly Investment Report for more information on rolling period performance measures.

**Six-Month Cash Sufficiency**

Based on a review of forecasted revenues and expenses, CalOptima Health has sufficient cash on hand plus projected revenues to meet its operating requirements for the next six months.

### Investments Compared to Reserve Policy

In accordance with CalOptima Health Policy GA.3001: Statutory and Board-designated Reserve Funds that was revised at the April 3, 2025, Board meeting, CalOptima Health shall maintain a minimum reserve level of 2.5 months and a maximum of 4.0 months in consolidated capitation revenues. The following provides a comparison of investments to the minimum and maximum level of Board-designated reserve funds as of December 31, 2025, demonstrating funds in excess to satisfy minimum requirements.

#### A) Board-designated Reserve Fund

Reserve Name	Market Value	CalOptima Policy Compliance Level		Variance	
		Low	High	Mkt - Low	Mkt - High

<b>Total</b>	<b>\$1,623,582,266</b>	<b>\$1,090,142,862</b>	<b>\$1,744,228,579</b>	<b>\$533,439,404</b>	<b>(\$120,646,313)</b>
Current Reserve Level (X months of average monthly revenue)	3.72	2.50	4.00		

#### B) Statutory Designated Reserve Fund

Reserve Name	Market Value	CalOptima Policy Compliance Level		Variance	
		Low	High	Mkt - Low	Mkt - High
Tier 2 - Payden & Rygel	\$67,985,173				
Tier 2 - MetLife	\$67,777,421				
<b>Total</b>	<b>\$135,762,594</b>	<b>\$131,902,890</b>	<b>\$145,093,179</b>	<b>\$3,859,704</b>	<b>(\$9,330,585)</b>
Current Reserve Level (X min. TNE)	1.03	1.00	1.10	-	-

At the end of December 2025, CalOptima Health's Board-designated reserve fund policy compliance level was 3.72 and the Statutory Designated Reserve Fund policy compliance level was 1.03.

#### Update on Fund Transfers

Pursuant to CalOptima Health Policy GA.3001: Statutory and Board-designated Reserve Funds, CalOptima Health will monitor liquidity requirements for the next 12 months and will transfer funds from Short-Term Operating to the Reserve Funds, if necessary.

#### Next Quarter’s Cash Flow Forecast and Program Update

At the January 26, 2026, Investment Advisory Committee (IAC) meeting, Nancy Huang, Chief Financial Officer, reported on the January Proposed State Budget for Fiscal Year (FY) 2026-27. The overall budget suggests a relatively balanced spending plan, with the deficit anticipated at under \$3 billion.

One key issue raised during the budget proposal process was Medi-Cal enrollment. Based on preliminary projections, current fiscal year monthly average Medi-Cal enrollment is estimated to decrease by about 3.5%, from 14.5 million to 14.0 million enrollees. In January 2026, CalOptima

Health observed a net decrease in Medi-Cal enrollment of 1.4% from December 2025. CalOptima Health will continue to closely monitor our enrollment. The State will provide updated information in the May Revision to the Budget.

Additionally, Ms. Huang shared CalOptima Health's top three priorities for the next fiscal year: member retention and the protection of coverage, expansion of new and existing products, and a focus on endeavors that will directly improve the quality of care for members.

# THOUGHT LEADERSHIP

## The Spectrum of Infrastructure Assets

When most people hear “infrastructure,” they think of roads, power lines, and utilities. In reality, the investable universe of infrastructure assets is much broader. This white paper explores the full spectrum, from lower-risk “core” assets to potentially higher-returning “non-core” and “opportunistic” strategies. For investors, understanding this continuum is vital to navigating the risks and rewards of this asset class.

## Tariffs, Tech, and the Tug-of-War for Alpha

In this edition of meeting of the minds, our Public Markets Equity Research team cuts through the noise. From tariff-driven rotations to AI-fueled headwinds, from quality's setback in small caps to the growing risks of index concentration, we explore how managers are adapting and where opportunities may emerge.

## Rate Cuts Under Pressure The Risk of Yield Curve Steepening Amid Questions of Fed Independence

While US GDP has remained resilient, the labor market is showing signs of stress. August's weaker employment report and sharp downward revisions to May and June as well as a significant downward revision of total jobs added between March 2024 and March 2025 point to a potential turning point in the cycle.

# HABITAT FOR HUMANITY BUILD DAYS

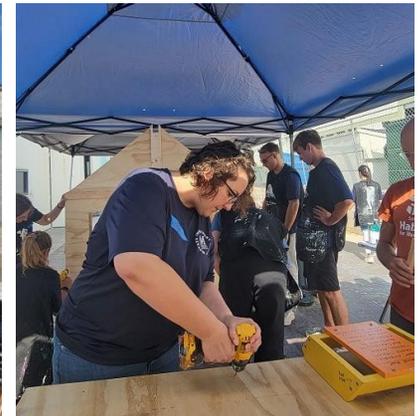

As part of Meketa's volunteer opportunities, each employee is given 8 hours to volunteer in their local communities. During the summer, our office in Carlsbad and Westwood host Habitat for Humanity Build Days.

In August, employees from our Carlsbad location traveled to San Diego to help build and paint a playhouse for a local school.

Volunteering with Habitat for Humanity is a great way to bond with colleagues, but more importantly it's a great way to give back to our local communities. I encourage all of our colleagues to get involved in Meketa sponsored volunteer opportunities.

# MEKETA IS A COMPANY OF VOLUNTEERS

During our *Season of Service*, volunteers from coast to coast helped food donation centers, Rosie's Place, Sarah's Circle, Blanchet House, and Feeding San Diego with their efforts to fight hunger. These organizations provide millions of meals every year to children, families, students, veterans, and other underserved populations.

In addition, volunteers in our Westwood location helped fill 40 backpacks for donation to the Dedham Youth Commission and Rosie's Place.

#### Impact 50: Investors Turn to Affordable Housing

Sustained Political Support and a Drive to New Markets Have Allowed Affordable Housing Funds to Become a Mainstay in Private Markets Impact.

By Michael Bowen | August, 27, 2025

“Affordable housing, specifically in the US, is a big ship,” says Rajeev Ranade, senior vice-president and real estate consultant at US investment management and advisory firm Meketa Investment Group.

Ranade describes how housing-related impact investing strategies have evolved from an emerging markets play to become a feature of developed markets, often focused on major cities in the US, looking to meet the needs of lower middle-class residents in expensive markets.

**“These are major markets - New York, Boston, San Francisco, Los Angeles, places where the middle has really been hollowed out. That’s the new view of impact. It can be done in rich markets,”** he tells New Private Markets.

Private Equity’s 401(k) Ambitions

By Hannah Zhang | July/August 2025

While a growing number of PE firms are targeting retirement money in the US, the adoption of private market products in the participant-directed DC universe is still limited, according to Ted Benedict, managing principal and consultant at Meketa.

“I’ve seen and evaluated some of the products, but the adoption within the defined contribution space has been very slow,” Benedict tells PEI. “The one asset class on the private side that has seen some adoption is core private real estate. [As for] private equity and private credit, I have not seen broad adoption, in my experience.”

Liquidity and valuations are also top concerns. **“The main hurdles that you have to overcome in getting privates into a defined contribution plan are valuation process for more frequent valuations, and secondly, a liquidity process to be able to provide regular liquidity to the plans,”** says Benedict.

He adds that one reason private real estate has seen faster adoption in 401(k) plans compared with PE is its longer history of using open-end fund structures, which typically offer at least quarterly liquidity windows and allow investors to enter subscription or redemption queues. “That didn’t really exist in other private market asset classes until recently, with the launch of interval funds and tender offer funds.”

#### Under Siege: University Endowments Face Unique Challenges

Uncertainty Abounds as Endowments Scramble to Adapt to Government Policies, Sluggish Dealmaking and Diminished Exits.

By Alfe Crooks | September 2025

“I think you may see a shift,” says Laura Wirick, managing principal at Meketa. “It’s becoming a more attractive environment for smaller endowments and foundations that have wanted to access private markets asset classes that maybe couldn’t get the attention of certain GPs that they wanted to invest with, historically.”

“I was at a conference recently where a top-tier GP that maybe wouldn’t have been marketing in this conference in the past was giving out more access to information to these smaller endowments and foundations.”

# **Executive Summary**

## **As of December 31, 2025**

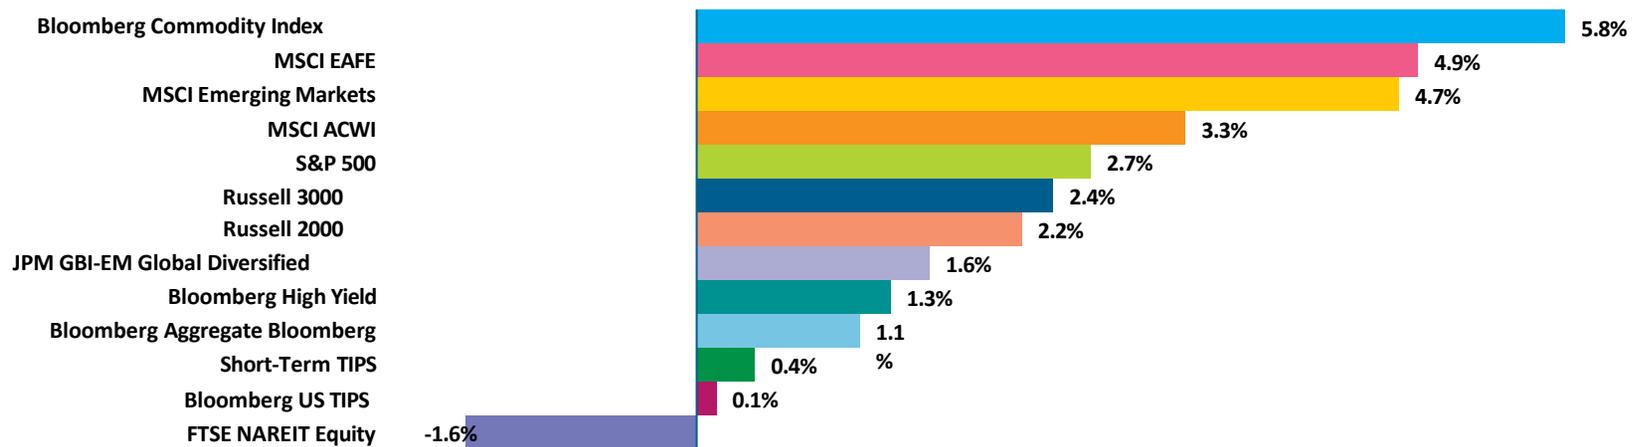

The value of the CalOptima Health Plan assets was \$3.86 billion on December 31, 2025, compared to \$3.65 billion as of the end of the prior quarter. The Plan had net cash inflows of \$172.0 million and investment gains of \$42.3 million during the quarter.

- The Total Plan's net of fees performance for the quarter was 1.112%. The Fixed Income portion (Tier One plus Tier Two) returned 1.159% during the quarter compared to 1.116% for the ICE BofA 1-3 U.S. Treasury Index. The Operating Account (Cash) returned 1.068% for the quarter net of fees compared to 0.974% for the 90-Day US Treasury Bill.
- The Total Plan's net of fees performance for the trailing year was 4.998%. The Fixed Income portion (Tier One plus Tier Two) returned 5.526% over the past year compared to 5.095% for the ICE BofA 1-3 US Treasury Index. The Operating Account (Cash) returned 4.710% for the past year compared to 4.178% for the 90-Day US Treasury Bill.
- As of quarter-end, all underlying portfolios were in compliance with sector, issuer, and maturity limits found in the Annual Investment Policy ("AIP").

## Q4 Economic and Market Highlights

- Major bond markets finished the fourth quarter in positive territory. The government reopened in mid-November but the longest shutdown on record likely had a meaningful short-term impact on the economy.
- The US yield curve continued to move lower over the quarter given soft economic data and expectations of further monetary policy easing. The shape of the yield curve has remained remarkably stable, with the spread between a two-year and ten-year Treasury staying in a tight range since April. Interest rates generally fell over the quarter on expectations of Fed rate cuts and some signs of cooling inflation.
- Despite the decline in tariff rhetoric since early April, many questions remain including how they will ultimately impact inflation. Overall, higher tariff levels and continued uncertainty could weigh on growth while increasing prices. Inflation levels and potential developments with tariffs combined with a weakening labor market will complicate the Fed’s rate cutting path.

Manager-reported returns for benchmarks may differ from benchmarks in performance report produced by Meketa. This is due to managers using 4:00 PT closing prices vs Meketa's investment performance provider using 3:00 PT closing prices. Managers adopted the change to 4:00 PT starting Jan 1, 2022 to align with broader industry trends and index providers.

## Custom Peer Group

### Custom Peer Group

- Given CalOptima Health's unique investment guidelines, traditional fixed income peer groups are not the best comparison tool for the Tier One and Tier Two pools.
- Meketa Investment Group surveyed the eVestment Alliance US Short Duration – Government/Credit Fixed Income universe to create custom peer universes for each of the Tier One and Tier Two pools in order to provide a more accurate performance comparison.
- For the analysis, the eVestment universe was pared down through the elimination of funds with exposure to securities with below "BBB"-rated credit. The combined eVestment universe was further defined that strategies must have an average quality of AA or higher.
  - Two unique buckets were then established based on each portfolio's use of a primary benchmark with "1-3" (years of maturity) in its name (Tier One peer group) or "1-5" in its name (Tier Two peer group).
  - The Tier One peer group consists of 35 strategies with a median effective duration of 1.86 years, while the Tier Two peer group consists of 12 strategies with a median effective duration of 2.63 years as of September 30, 2025.
- Please note that the analysis is as of September 30, 2025, as the universe of investment managers that had reported data as of December 31, 2025, was very small at the date that these materials were submitted.
- This analysis is based on a small peer universe that may change significantly over time, potentially resulting in large changes in peer rankings quarter-to-quarter.

### Custom Peer Group: MetLife Tier One

Gross of Fees Returns as of 9/30/2025 <sup>1</sup>	3Q2025 (%)	1 Year (%)	3 Years (%)	5 Years (%)
Tier One: MetLife STAMP 1-3 Year	1.28	4.34	4.87	2.13
Peer Group Median Return	1.28	4.53	5.13	2.20
Peer Group Rank (percentile)	49	75	84	62

Standard Deviation as of 9/30/2025 <sup>2</sup>	3 Years (%)	5 Years (%)
Tier One: MetLife STAMP 1-3 Year	1.70	1.83
Median Standard Deviation	1.75	1.92
Peer Group Rank (percentile)	33	25

- The MetLife Tier One portfolio underperformed the peer group median over the one-, three-, and five-year time periods. The strategy has outperformed the peer group median over the trailing quarter.
- The standard deviation ranked very favorably compared to peers over the three- and five-year trailing periods.

<sup>1</sup> Investment managers are ranked based on performance gross of fees; given the discounted fee structures offered by CalOptima's investment managers, performance on a net-of-fee basis is more compelling relative to peers.

<sup>2</sup> For peer group standard deviation rankings, a percentile rank of 1 would indicate that the strategy exhibited the lowest standard deviation relative to the peer group, and a percentile rank of 99 would indicate that the strategy exhibited the highest standard deviation relative to the peer group.

### Custom Peer Group: Payden Tier One

Gross of Fees Returns as of 9/30/2025 <sup>1</sup>	3Q2025 (%)	1 Year (%)	3 Years (%)	5 Years (%)	10 Years (%)
Tier One: Payden Low Duration	1.27	4.38	4.98	2.22	2.23

Tier One: Payden Low Duration	1.72	1.82	1.41
Median Standard Deviation	1.75	1.92	1.55
Peer Group Rank (percentile)	36	20	15

- The Payden Tier One portfolio’s trailing returns lagged the peer group median over the quarter, one-, three-, and ten-year periods. However, returns ranked in the top half of peers over the trailing five-year period.
- The standard deviation has ranked very favorably versus peers across the reported trailing periods.

<sup>1</sup> Investment managers are ranked based on performance gross of fees; given the discounted fee structures offered by CalOptima’s investment managers, performance on a net-of-fee basis is more compelling relative to peers.

<sup>2</sup> For peer group standard deviation rankings, a percentile rank of 1 would indicate that the strategy exhibited the lowest standard deviation relative to the peer group, and a percentile rank of 99 would indicate that the strategy exhibited the highest standard deviation relative to the peer group.

## Custom Peer Group: MetLife Tier Two

Gross of Fees Returns as of 9/30/2025 <sup>1</sup>	3Q2025 (%)	1 Year (%)	3 Years (%)	5 Years (%)	10 Years (%)
Tier Two: MetLife STAMP 1-5 Year	1.34	4.41	5.04	1.70	2.11

Tier Two: MetLife STAMP 1-5 Year	2.59	2.69	2.09
Median Standard Deviation	2.67	2.87	2.29
Peer Group Rank (percentile)	35	38	33

- MetLife’s Tier Two portfolio outperformed compared to the median of the peer group over the over the trailing quarter and one-year period. The strategy underperformed the median return over the trailing three-, five- and ten-year periods.
- The Strategy’s standard deviation has ranked favorably compared to peers across all trailing periods.

<sup>1</sup> Investment managers are ranked based on performance gross of fees; given the discounted fee structures offered by CalOptima’s investment managers, performance on a net-of-fee basis is more compelling relative to peers.

<sup>2</sup> For peer group standard deviation rankings, a percentile rank of 1 would indicate that the strategy exhibited the lowest standard deviation relative to the peer group, and a percentile rank of 99 would indicate that the strategy exhibited the highest standard deviation relative to the peer group.

### Custom Peer Group: Payden Tier Two

Gross of Fees Returns as of 9/30/2025 <sup>1</sup>	3Q2025 (%)	1 Year (%)	3 Year (%)
Tier Two: Payden Reserve Account	1.32	4.32	4.96

Standard Deviation as of 9/30/2025 <sup>2</sup>	3 Years (%)
Tier Two: Payden Reserve Account	2.53
Median Standard Deviation	2.67
Peer Group Rank (percentile)	32

- The Payden Tier Two portfolio’s trailing quarter, one-, and three-year returns have lagged the median returns of the peer group.
- Standard deviation for the strategy has ranked favorably compared to peers over the three-year trailing period.

<sup>1</sup> Investment managers are ranked based on performance gross of fees; given the discounted fee structures offered by CalOptima’s investment managers, performance on a net-of-fee basis is more compelling relative to peers.

<sup>2</sup> For peer group standard deviation rankings, a percentile rank of 1 would indicate that the strategy exhibited the lowest standard deviation relative to the peer group, and a percentile rank of 99 would indicate that the strategy exhibited the highest standard deviation relative to the peer group.

# Performance Attribution

### Performance Attribution

- The following pages present attribution data for the MetLife and Payden & Rygel Tier One and Tier Two portfolios.
- Attribution represents outperformance or underperformance, based on active investment decisions across fixed income sub-sectors, relative to a manager's benchmark index. Attribution data demonstrates where managers are able to most effectively add incremental value versus the benchmark.
- Attribution data is provided by the investment managers and is presented gross of investment management fees as of December 31, 2025. Attribution data fields will vary slightly across investment managers.

**Economic and Market Update**  
Data as of November 30, 2025

## Commentary

**In November, stocks were volatile but largely finished in positive territory, while bonds rose with expectations for rates to fall and weaker growth supporting lower bond-yields.**

- After a weak start to the month, US equities (Russell 3000) rose slightly in November (0.3%) with rotation away from mega cap growth names toward value and small caps.
- Non-US developed stocks beat US equities slightly in November (MSCI EAFE +0.6%) with a similar dynamic of value beating growth.
- The MSCI Emerging Market index declined (-2.4%) in November but was up 29.7% year-to-date. Renewed China growth concerns weighed on Chinese stocks with the MSCI China falling 2.5% in November.
- Major bond markets finished November in positive territory. US bonds led the way with the US aggregate index and high yield bonds both up 0.6% for the month. Cooling inflation led to slightly lower returns for TIPS (+0.2%) and short TIPS (+0.3%).
- The government reopened in mid-November but the longest shutdown on record likely had a meaningful short-term impact on the economy, while delayed publication of key economic data increased uncertainty for policymakers and financial markets.
- Key questions going forward include how the Fed will manage interest rates given competing pressures on its dual mandate of inflation and employment, will tariff pressures eventually show up in inflation, can earnings growth remain resilient in the US, will the significant investment in the AI infrastructure buildout pay off, and how will China's economy and relations with the US track.

### Index Returns<sup>1</sup>

- In November, commodities led the way, driven by higher gold and energy prices. More broadly, stocks were choppy but finished slightly higher, except for emerging markets, while bond markets benefited from expectations of Fed rate cuts.
- Global markets have delivered a strong performance year-to-date helped by resilient earnings, AI optimism, a weaker US dollar, and expectations for lower interest rates.

### US Equities: The Russell 3000 index returned 0.3% in November and 17.2% year-to-date.

- US stocks finished a somewhat volatile month of November slightly positive. Uncertainty regarding the path of Fed rate cuts along with concerns with the valuations of AI-related stocks contributed to the volatility.
- Large cap stocks, represented by the Russell 1000 index, lagged small cap stocks (Russell 2000 index) during the month, bucking the trend seen year-to-date. This dynamic was driven in part by declines in large AI-related stocks such as NVIDIA, Microsoft, and Oracle, along with the small cap index's higher weighting to health care stocks.
- Value stocks outperformed growth stocks across the market cap spectrum in November, which also went against the year-to-date trend. The drop in technology stocks and the strength of financial stocks were the main drivers of this divergence.

<sup>1</sup> Source: Bloomberg. Data is as of November 30, 2025.

### Russell 3000 Sector Returns<sup>1</sup>

- Health care stocks were the month’s largest gainers in the Russell 3000 index. The sector continues to rebound from lows reached when investors expressed concerns regarding political and regulatory uncertainty. The rise in these stocks in November was driven by broad earnings beats and merger activity.
- Technology stocks were the largest detractors in November but remain the leading sector year to date. The enthusiasm surrounding the AI trade dampened amid disappointing earnings reports and concerns regarding an “AI bubble.”
- Basic materials demonstrated strength in November as investors rotated out of mega cap tech and into more value-oriented areas of the market.

**Foreign Equity: Developed international equities (MSCI EAFE) returned 0.6% in November and 27.4% year-to-date, and the emerging markets index fell 2.4% in November and returned 29.7% year-to-date.**

- Developed markets were slightly positive in November and characterized like the US by a rotation away from tech towards more defensive sectors. Eurozone equities rose slightly, benefiting from stimulus measures in Germany and robust earnings growth expectations. UK markets were essentially flat, with consumer sentiment weighing on returns. Japan saw significant volatility, selling off in early November before rallying strongly near month-end.
- Emerging market equities fell in November, with AI bubble concerns leading to significant selloffs in tech. Chinese markets fell 2.5%, with manufacturing PMIs remaining in contraction, stimulus enthusiasm beginning to wane, and investors increasingly focusing on structural headwinds. Korea and Taiwan both saw notable losses amid AI concerns. India reversed its losing streak, and Southeast Asia saw solid gains, with both benefitting from resilient domestic consumption.

### Equity Cyclically Adjusted P/E Ratios<sup>1</sup>

- Cyclically adjusted US stock valuations reached 40 in November, a level slightly above the peak coming out of the pandemic. AI-related optimism has been a key driver pushing valuations higher since the April lows.
- Given strong results this year in non-US developed stocks, valuations have moved further above their long-run P/E ratio (23.1 versus 20.1).
- As emerging market stocks lead the way in 2025, their valuations are now also trading at levels above their long-run average (18.8 versus 16.9).

### Performance and Profit Margins: S&P 500 and “Magnificent 7”<sup>1</sup>

- Despite an over 25% decline to start the year, the so-called “Magnificent 7” AI-related technology stocks continue to drive market results gaining over 24% year-to-date through November. Since 2020, these stocks increased close to 3.6x while the other members of the S&P 500 increased roughly 1.5x.
- The relatively strong performance of the “Magnificent 7” has led to them currently comprising roughly a third of the S&P 500 index by market-capitalization, making their performance going forward key to overall market results.
- Profit margins have been relatively strong for these companies, with the latest readings more than double the broad market (24% versus 11%).

**Fixed Income: The Bloomberg Universal index rose 0.6% in November, returning 7.7% year-to-date.**

- The US yield curve continued to move lower in November given soft economic data and expectations of further monetary policy easing.
- In this environment, the broad US bond market (Bloomberg Aggregate) returned 0.6% with longer dated US Treasuries returning 0.4%. Longer and short-dated TIPS gained 0.2% and 0.3%, respectively, as inflation concerns eased.
- Emerging market debt (+1.4%) lead the way for the month while US high yield (+0.6%) matched the broad market (Bloomberg Aggregate). Year-to-date performance in emerging markets exceeded other fixed income indices given relatively higher yields, an earlier start to central bank easing, and generally contained inflation.

### US Yield Curve<sup>1</sup>

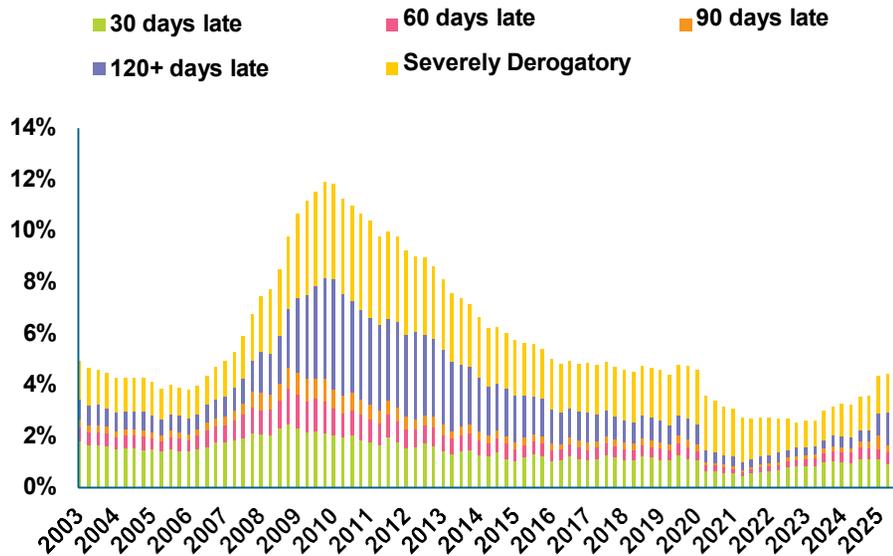

- Outside of longer maturities, interest rates generally fell in November on expectations of Fed rate cuts and some signs of cooling inflation.
- The policy sensitive 2-year nominal Treasury yield fell (3.57% to 3.49%) as expectations for a Fed rate cut at the last meeting moved from under a 30% probability mid-month to close to 100% at month-end. The 10-year nominal Treasury yield also fell (4.11% to 4.02%) on weak economic data, while the 30-year nominal Treasury yield stayed steady at around 4.67%.
- The shape of the yield curve has remained remarkably stable, with the spread between a two-year and ten-year Treasury staying in a tight range since April.

### Stress is Building Among US Consumers

Percent of Total Outstanding Credit Card Balance by Delinquency Status<sup>1</sup>

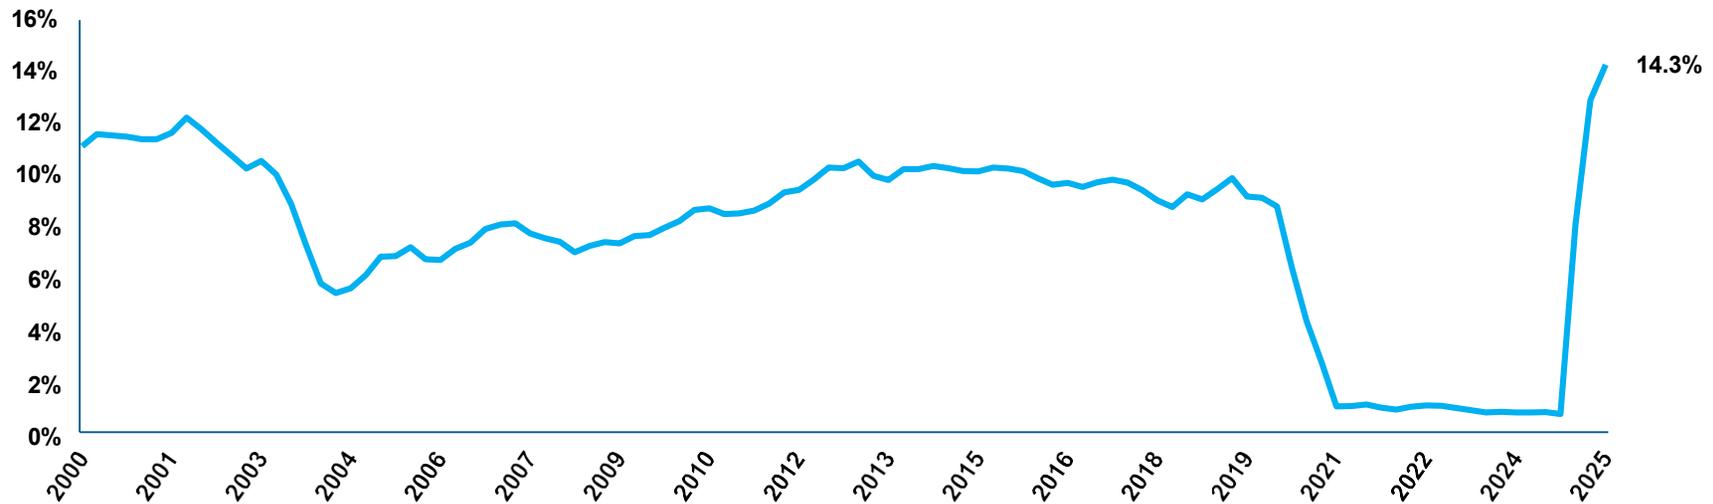

Transition into Serious Delinquency for Credit Cards by Age<sup>1</sup>

- Signs of stress on the US consumer have started to emerge given persistently higher prices and interest rates.
- After falling to historic lows during the pandemic, loan delinquencies have started to increase.
- Parts of the credit card market, especially for younger cohorts, have begun to show stress as most borrowers are subject to variable and higher borrowing costs. Total delinquencies are below pre-pandemic levels though.

<sup>1</sup> Source: New York Federal Reserve, Quarterly Household Debt and Credit Report. See also FRED. Data is as of September 30, 2025.

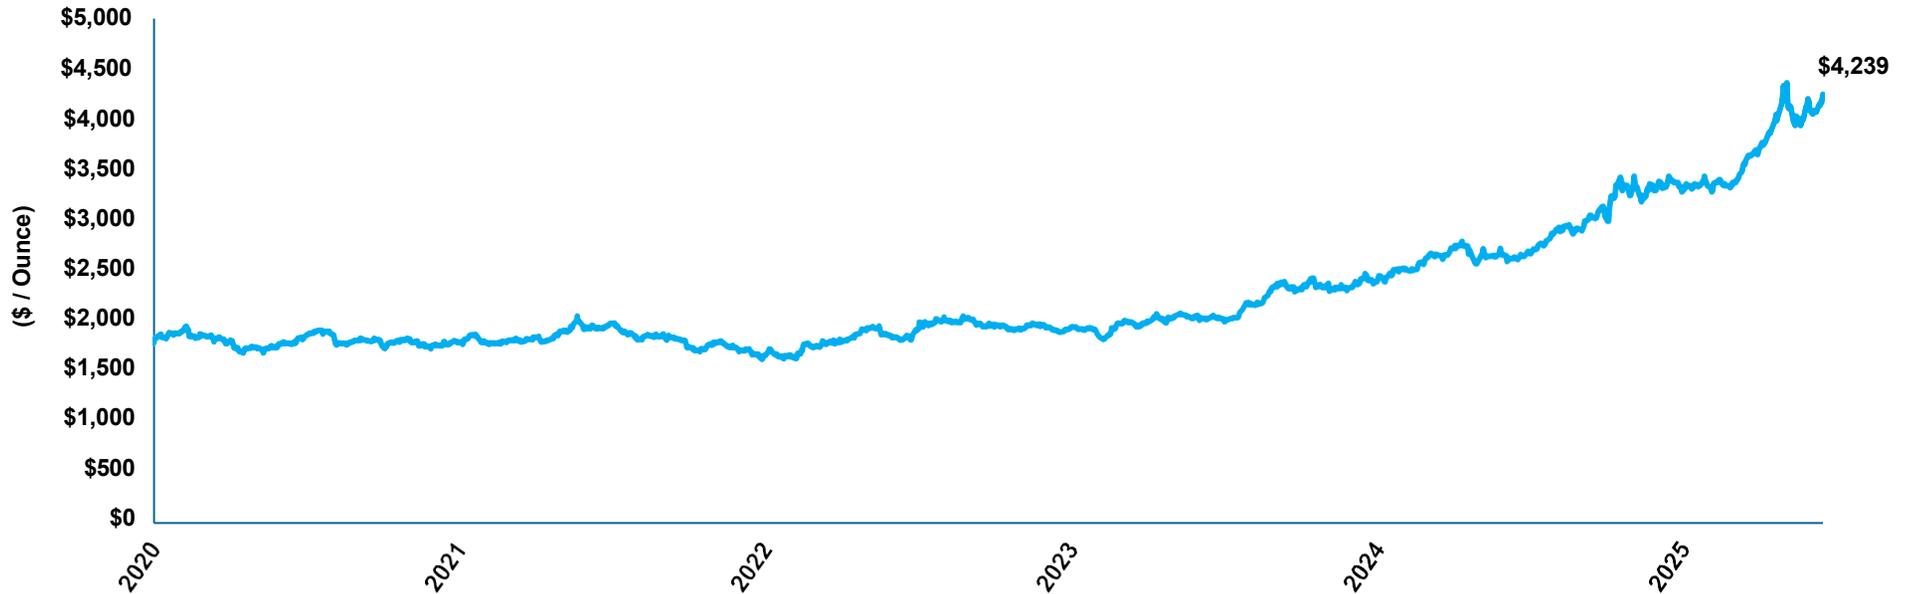

### Transition Into Serious Delinquency (90+ Days) for Student Loans<sup>1</sup>

- The restarting of student loan payments and reporting for those in default could add further pressures to consumers.
- During the pandemic, student loan repayments were suspended with an estimated 43 million borrowers deferring payments.
- Pressures have been growing in the student loan market with roughly 9 million borrowers missing at least one loan payment in 2025.
- Approximately 14.3% of student debt has moved into seriously delinquent status.

Percent of student loan holders transitioning in serious default (90-days or more) based on four quarter moving average. Delays in reporting may cause fluctuations.

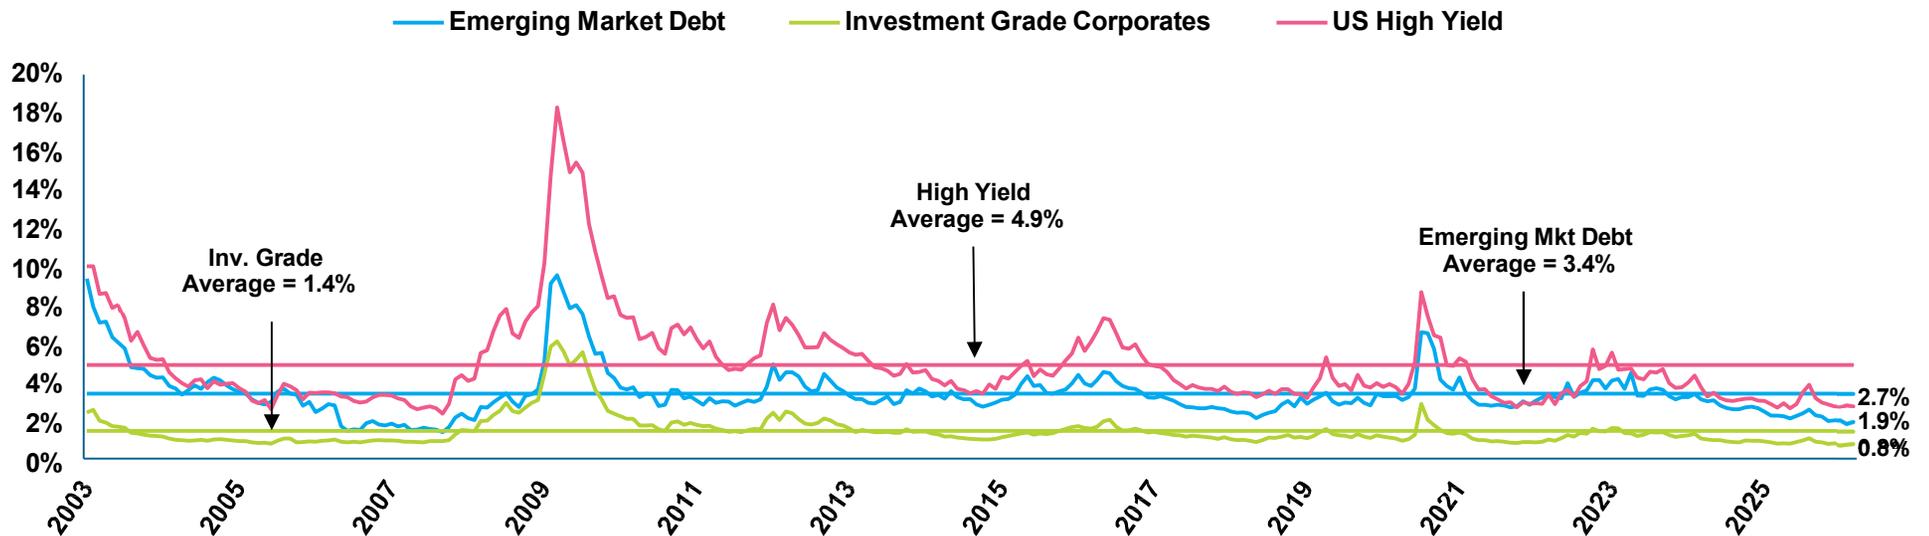

### Gold<sup>1</sup>

- In a period where risk assets have done particularly well, gold, which is usually perceived as a safe-haven, has done even better, gaining over 60% year-to-date through November.
- Key drivers of gold's strong year include central bank demand, a weaker US dollar, inflation concerns, central banks purchasing bullion, and expectations for lower rates.
- In November gold increased over \$200/ounce after its October decline largely driven by expectations of lower interest rates.

<sup>1</sup> Source: Bloomberg as of November 30, 2025. Gold Spot Price is quoted as US Dollars per Troy Ounce.

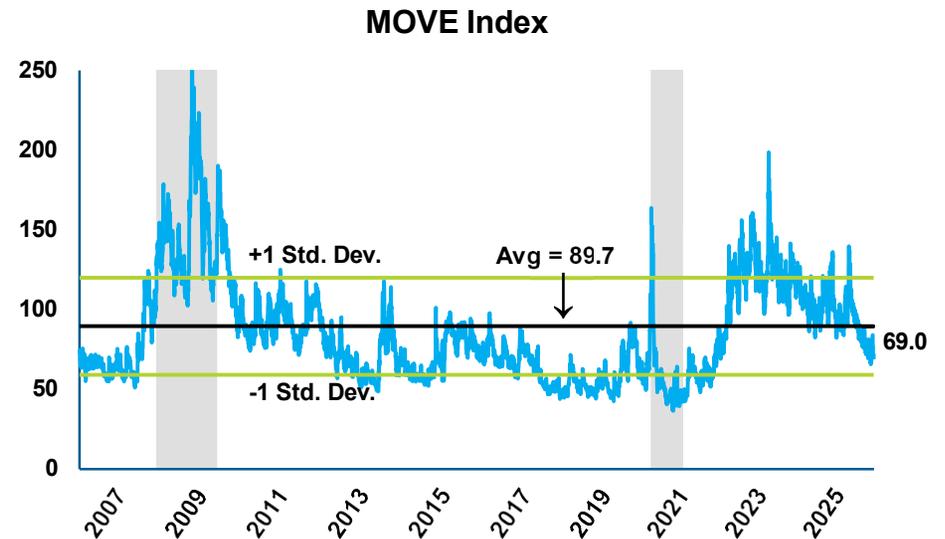

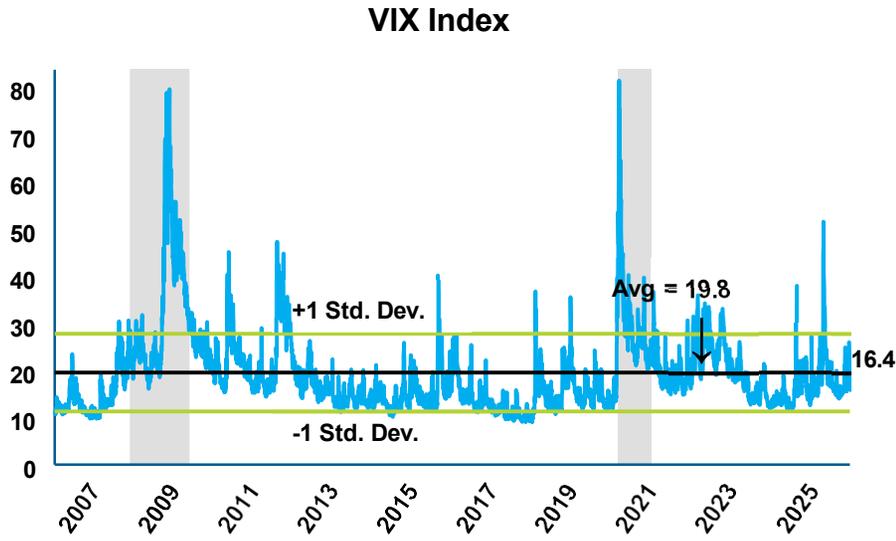

### Credit Spreads vs. US Treasury Bonds<sup>1</sup>

- Credit spreads remain historically tight, helped by the resilient US economy, strong corporate balance sheets/low default rates, and investor demand for yield.
- Investment grade spreads (the difference in yield from a comparable Treasury) remained below 1.0% in November.
- High yield spreads fell slightly from 2.8% to 2.7% for the month, while emerging market spreads rose from 1.8% to 1.9%.
- All yield spreads remained well below their respective long-run averages, especially high yield (2.7% versus 4.9%).

<sup>1</sup> Source: Bloomberg. Data is as of November 30, 2025. Average lines denote the average of the investment grade, high yield, and emerging market spread values from September 2002 to the recent month-end, respectively.

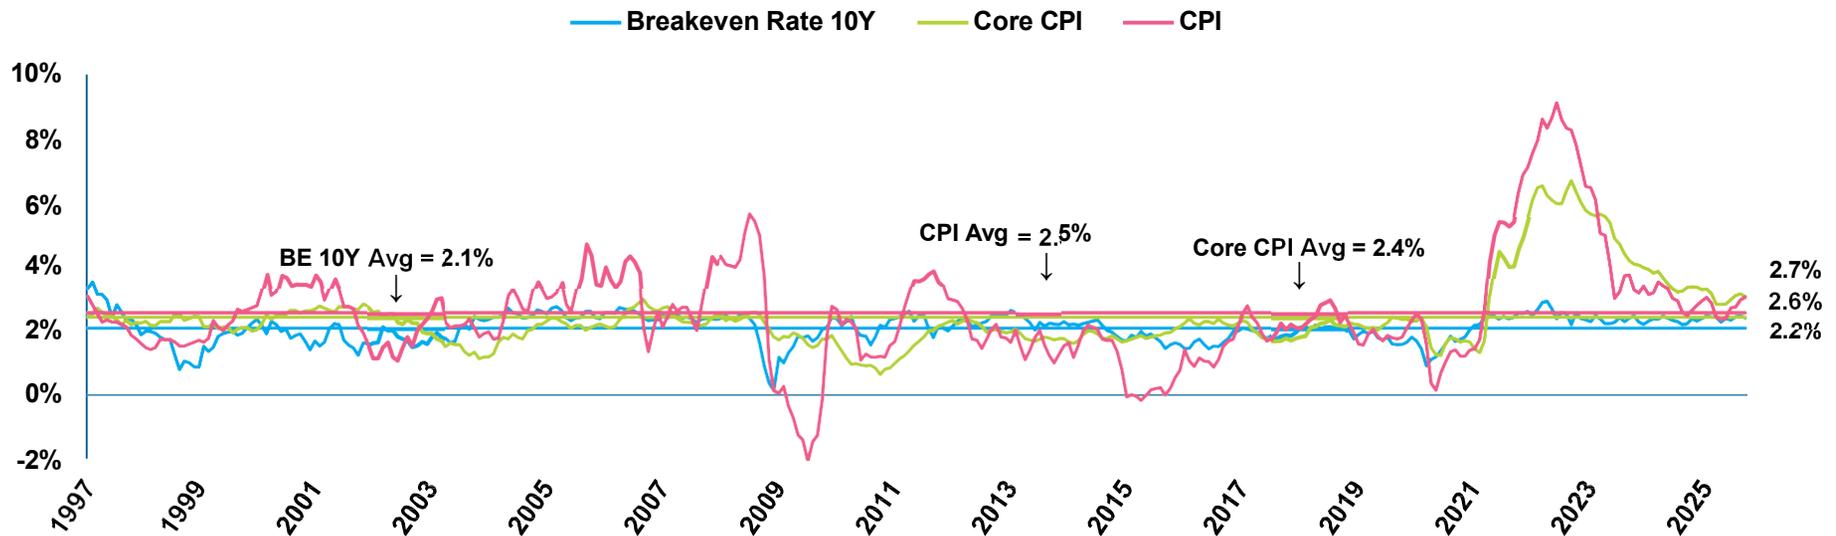

**Equity and Fixed Income Volatility<sup>1</sup>**

- Volatility rose mid-month on AI valuation concerns and rate uncertainty but subsequently fell toward month-end as expectations grew for a December rate cut by the Fed.
- Overall, resilient earnings data, optimism over AI-related stocks, and a general risk-on environment have all kept equity market volatility (VIX) relatively low.
- Despite fiscal policy uncertainty and debt concerns, the MOVE index has largely declined as confidence increased in the Fed cutting rates.

<sup>1</sup> Equity Volatility – Source: FRED. Fixed Income Volatility – Source: Bloomberg. ### US Inflation<sup>1</sup>

- During the government shutdown the BLS was unable to conduct price surveys in October, raising some questions regarding the November CPI annual gain of just 2.7%, below expectations of 3.1%. While data collection resumed in mid-November, some survey collected data remains outstanding.
- The energy index rose 4.2% year-on-year through November while food prices increased 2.6% year-on-year.
- Core inflation rose 2.6% year-on-year, below expectations of 3.0%, with shelter costs a key driver of elevated inflation levels rising just 1.8% over the period.
- Long term inflation expectations remain well anchored at 2.2% close to their long-run average of 2.1%.

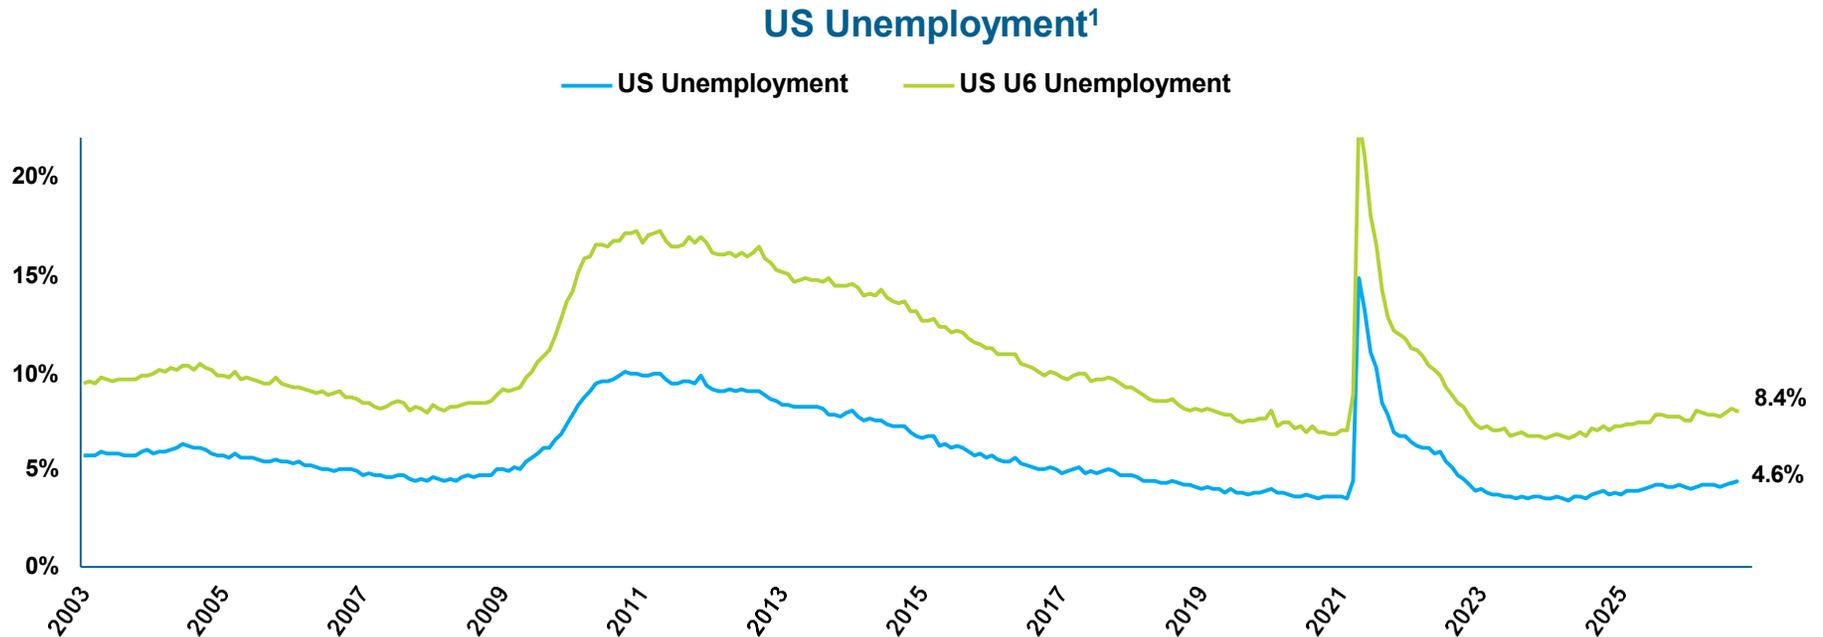

<sup>1</sup> Source: FRED. Data is as of November 30, 2025. This represents the latest inflation data. The October report was canceled given the government shutdown.

### Global Inflation (CPI Trailing Twelve Months)<sup>1</sup>

- With inflation around its 2.0% target, the ECB held policy rates steady at 2% in December with no further rate cuts expected in 2026.
- The Bank of Japan raised interest rates to highest level in three decades from 0.5% to 0.75%. Inflation in Japan fell slightly in November (3.0% to 2.9%). Despite the slight drop, inflation levels continue to be roughly 1% above the Bank of Japan's target level.
- China's annual inflation rate rose in November from 0.2% to 0.7% driven by food prices moving from falling to rising. Clothing, healthcare, and education also experienced price increases, contributing to the overall rise in CPI. Despite higher levels, inflation pressures remain weak even with significant policy stimulus.

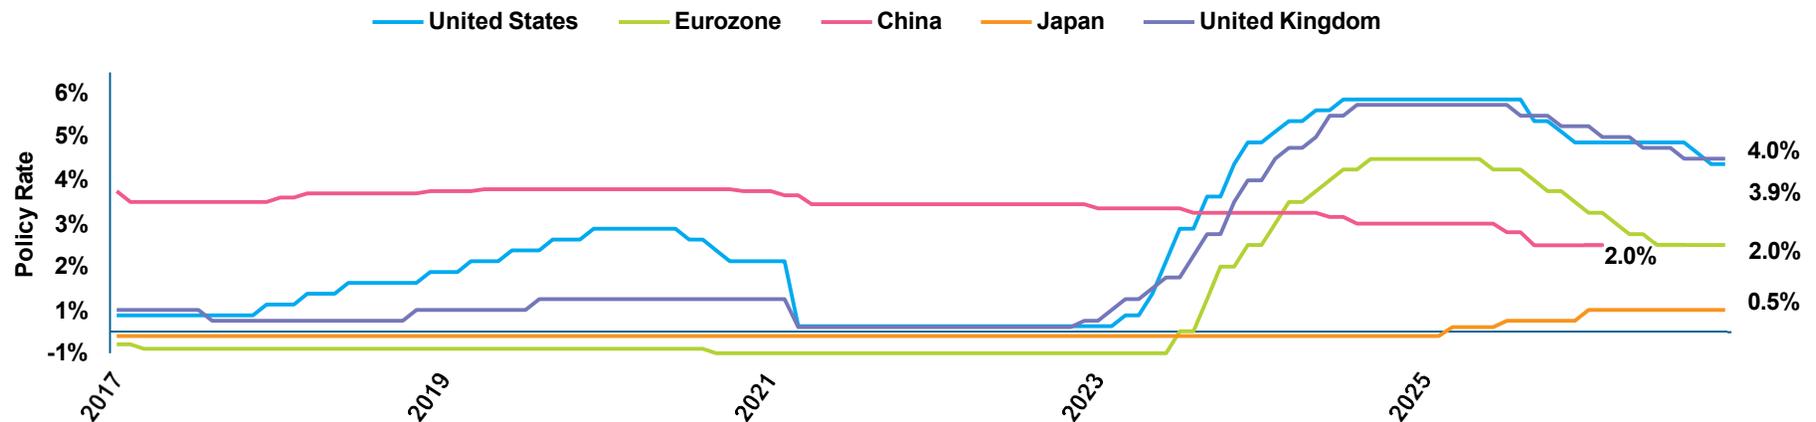

<sup>1</sup> Source: Bloomberg. Data is as of November 2025.

- In November the US added 64 thousand jobs above expectations of 50 thousand. The health care (+46 thousand), construction (+28 thousand), and social assistance (+18 thousand) sectors added jobs, while the transportation/ warehousing (-18 thousand) and government sectors (-6 thousand) reduced jobs.
- The unemployment rate rose from the September level of 4.4% to 4.6% in November (the BLS did not calculate October given the shutdown) driven by reentrants into the labor force.
- Weekly initial jobless claims remain relatively low, averaging slightly more than 200 thousand on a four-week moving average. Continuing unemployment claims continue to hover around 1.9 million, a level higher than levels coming out of the pandemic but still historically low.

<sup>1</sup> Source: FRED. Data is as of November 30, 2025.

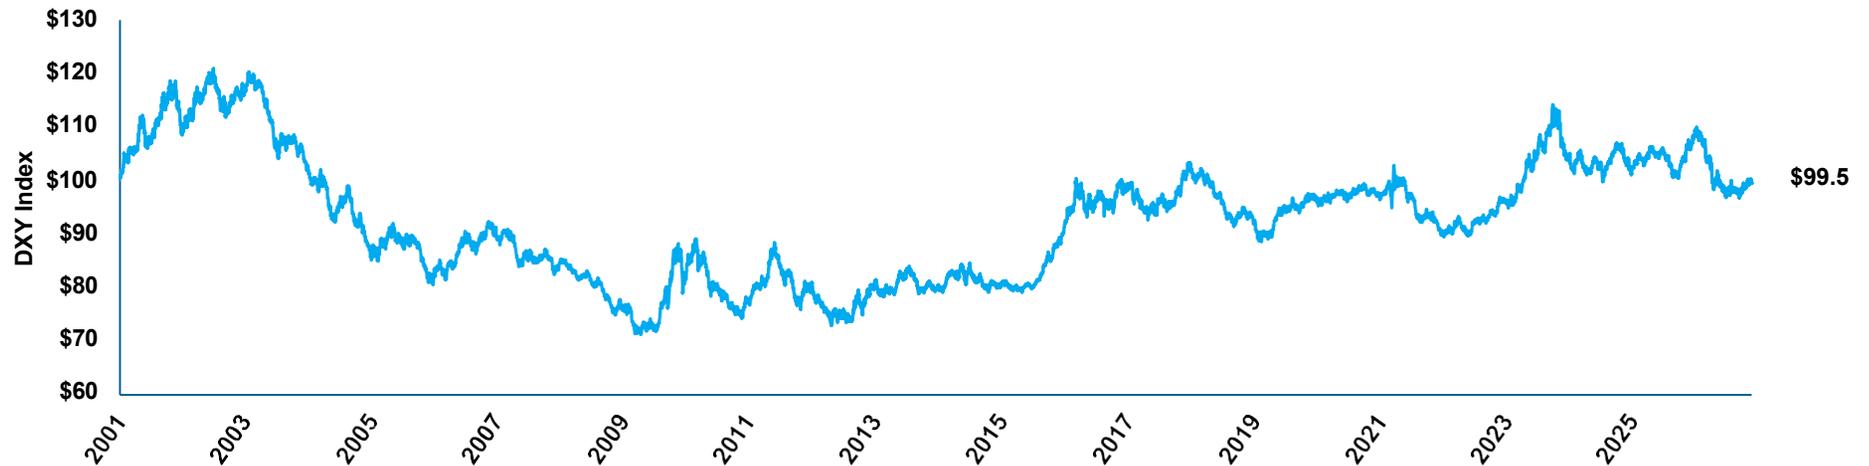

### Global Policy Rates<sup>1</sup>

- It appears that we are moving into an environment in which the Fed continues to cut interest rates while other central banks are on hold or moving rates higher.
- The Fed cut interest rates again after month-end to a range of 3.5% to 3.75% with market expectations for roughly two more cuts over the next 12 months. Based on comments after the recent meeting it appears the Fed is going to take a cautious approach going forward, given inflation remaining elevated despite signs of weakness in the labor market.
- The ECB held rates steady since the summer. In 2026, there are no expectations of further cuts by the ECB, but markets are pricing in several additional cuts from the BOE.
- After cutting rates in May of last year, China's central bank has held rates steady, although disinflationary pressures continue to be a concern.
- After month-end the BOJ increased rates by 0.25% with markets expecting potentially one more hike in 2026, given inflation levels remaining above their 2% target.

### US Dollar vs. Broad Currencies<sup>1</sup>

- The US dollar declined slightly in November after its recent gains from the September lows on relatively higher growth and interest rates in the US.
- Despite the recent increase, headwinds remain for the US dollar including a growing fiscal deficit and slowing growth.

### Key Trends

- According to the International Monetary Fund's (IMF) October's World Economic Outlook, the global economy will decelerate from 3.2% in 2025 to 3.1% in 2026. The US is expected to modestly accelerate economic growth in 2026 to 2.1% from 2.0% in 2025. The euro area will slow slightly from 1.2% in 2025 to 1.1% in 2026. China's economy is expected to slow from 4.8% in 2025 to 4.2% in 2026.
- Despite the decline in tariff rhetoric since early April, many questions remain including how they will ultimately impact inflation. Overall, higher tariff levels and continued uncertainty could weigh on growth while increasing prices. Inflation levels and potential developments with tariffs combined with a weakening labor market will complicate the Fed's rate cutting path.
- Some signs of US consumer stress have started to emerge, with growing weakness in the jobs market and sentiment weakening since the start of the year. Consumers are particularly concerned about losing jobs and the potential for higher prices. Overall, risk to economic growth and to inflation from tariffs, as well as elevated borrowing costs, could put further pressure on consumers and lead to an even weaker job market. The resumption of collecting and reporting delinquent student loans could be a further headwind to consumption.
- US equities have fully recovered from substantial losses experienced during the first week of April and have reached new highs. A relatively strong third quarter earnings season, ongoing AI optimism, and rate cuts from the Fed all helped drive stocks higher. How earnings track from here, particularly for the large AI-related companies that make up a significant portion of the market, will be key going forward. Many questions remain about the return on investment for companies making significant investments in building AI infrastructure.
- Trade tensions between the US and China will remain an important focus as well as the overall health of China's economy. President Trump and President Xi met in late October and agreed to suspend trade sanctions for a year. However, it is not clear if China and the US will indeed de-escalate strategic high tech and rare earth tensions despite the official truce. How China manages its slowing economy, and deflationary pressures will also be important.

**Credit Risk:** Refers to the risk that the issuer of a fixed income security may default (i.e., the issuer will be unable to make timely principal and/or interest payments on the security).

**Duration:** Measure of the sensitivity of the price of a bond to a change in its yield to maturity. Duration summarizes, in a single number, the characteristics that cause bond prices to change in response to a change in interest rates. For example, the price of a bond with a duration of three years will rise by approximately 3% for each 1% decrease in its yield to maturity. Conversely, the price will decrease 3% for each 1% increase in the bond's yield. Price changes for two different bonds can be compared using duration. A bond with a duration of six years will exhibit twice the percentage price change of a bond with a three-year duration. The actual calculation of a bond's duration is somewhat complicated, but the idea behind the calculation is straightforward. The first step is to measure the time interval until receipt for each cash flow (coupon and principal payments) from a bond. The second step is to compute a weighted average of these time intervals. Each time interval is measured by the present value of that cash flow. This weighted average is the duration of the bond measured in years.

**Information Ratio:** This statistic is a measure of the consistency of a portfolio's performance relative to a benchmark. It is calculated by subtracting the benchmark return from the portfolio return (excess return), and dividing the resulting excess return by the standard deviation (volatility) of this excess return. A positive information ratio indicates outperformance versus the benchmark, and the higher the information ratio, the more consistent the outperformance.

**Jensen's Alpha:** A measure of the average return of a portfolio or investment in excess of what is predicted by its beta or "market" risk. Portfolio Return- [Risk Free Rate+Beta\*(market return-Risk Free Rate)].

**Market Capitalization:** For a firm, market capitalization is the total market value of outstanding common stock. For a portfolio, market capitalization is the sum of the capitalization of each company weighted by the ratio of holdings in that company to total portfolio holdings; thus it is a weighted-average capitalization. Meketa Investment Group considers the largest 65% of the broad domestic equity market as large capitalization, the next 25% of the market as medium capitalization, and the smallest 10% of stocks as small capitalization.

**Market Weighted:** Stocks in many indices are weighted based on the total market capitalization of the issue. Thus, the individual returns of higher market-capitalization issues will more heavily influence an index's return than the returns of the smaller market-capitalization issues in the index.

**Maturity:** The date on which a loan, bond, mortgage, or other debt/security becomes due and is to be paid off.

**Prepayment Risk:** The risk that prepayments will increase (homeowners will prepay all or part of their mortgage) when mortgage interest rates decline; hence, investors' monies will be returned to them in a lower interest rate environment. Also, the risk that prepayments will slow down when mortgage interest rates rise; hence, investors will not have as much money as previously anticipated in a higher interest rate environment. A prepayment is any payment in excess of the scheduled mortgage payment.

**Price-Book Value (P/B) Ratio:** The current market price of a stock divided by its book value per share. Meketa Investment Group calculates P/B as the current price divided by Compustat's quarterly common equity. Common equity includes common stock, capital surplus, retained earnings, and treasury stock adjusted for both common and nonredeemable preferred stock. Similar to high P/E stocks, stocks with high P/B's tend to be riskier investments.

**Price-Earnings (P/E) Ratio:** A stock's market price divided by its current or estimated future earnings. Lower P/E ratios often characterize stocks in low growth or mature industries, stocks in groups that have fallen out of favor, or stocks of established blue chip companies with long records of stable earnings and regular dividends. Sometimes a company that has good fundamentals may be viewed unfavorably by the market if it is an industry that is temporarily out of favor. Or a business may have experienced financial problems causing investors to be skeptical about its future. Either of these situations would result in lower relative P/E ratios. Some stocks exhibit above-average sales and earnings growth or expectations for above average growth. Consequently, investors are willing to pay more for these companies' earnings, which results in elevated P/E ratios. In other words, investors will pay more for shares of companies whose profits, in their opinion, are expected to increase faster than average. Because future events are in no way assured, high P/E stocks tend to be riskier and more volatile investments. Meketa Investment Group calculates P/E as the current price divided by the I/B/E/S consensus of twelve-month forecast earnings per share.

**Quality Rating:** The rank assigned a security by such rating services as Fitch, Moody's, and Standard & Poor's. The rating may be determined by such factors as (1) the likelihood of fulfillment of dividend, income, and principal payment of obligations; (2) the nature and provisions of the issue; and (3) the security's relative position in the event of liquidation of the company. Bonds assigned the top four grades (AAA, AA, A, BBB) are considered investment grade because they are eligible bank investments as determined by the controller of the currency.

**Sharpe Ratio:** A commonly used measure of risk-adjusted return. It is calculated by subtracting the risk free return (usually three-month Treasury bill) from the portfolio return and dividing the resulting excess return by the portfolio's total risk level (standard deviation). The result is a measure of return per unit of total risk taken. The higher the Sharpe ratio, the better the fund's historical risk adjusted performance.

**STIF Account:** Short-term investment fund at a custodian bank that invests in cash-equivalent instruments. It is generally used to safely invest the excess cash held by portfolio managers.

**Standard Deviation:** A measure of the total risk of an asset or a portfolio. Standard deviation measures the dispersion of a set of numbers around a central point (e.g., the average return). If the standard deviation is small, the distribution is concentrated within a narrow range of values. For a normal distribution, about two thirds of the observations will fall within one standard deviation of the mean, and 95% of the observations will fall within two standard deviations of the mean.

**Style:** The description of the type of approach and strategy utilized by an investment manager to manage funds. For example, the style for equities is determined by portfolio characteristics such as price-to-book value, price-to-earnings ratio, and dividend yield. Equity styles include growth, value, and core.

**Tracking Error:** A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark, as defined by the difference in standard deviation.

**Yield to Maturity:** The yield, or return, provided by a bond to its maturity date; determined by a mathematical process, usually requiring the use of a “basis book.” For example, a 5% bond pays \$5 a year interest on each \$100 par value. To figure its current yield, divide \$5 by \$95—the market price of the bond—and you get 5.26%. Assume that the same bond is due to mature in five years. On the maturity date, the issuer is pledged to pay \$100 for the bond that can be bought now for \$95. In other words, the bond is selling at a discount of 5% below par value. To figure yield to maturity, a simple and approximate method is to divide 5% by the five years to maturity, which equals 1% pro rata yearly. Add that 1% to the 5.26% current yield, and the yield to maturity is roughly 6.26%.

$$\frac{5\% \text{ (discount)}}{5 \text{ (yrs. to maturity)}} = 1\% \text{ pro rata, plus } 5.26\% \text{ (current yield)} = 6.26\% \text{ (yield to maturity)}$$

**Yield to Worst:** The lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions, including prepayment, call, or sinking fund, are used by the issuer.

**NCREIF Property Index (NPI):** Measures unleveraged investment performance of a very large pool of individual commercial real estate properties acquired in the private market by tax-exempt institutional investors for investment purposes only. The NPI index is capitalization-weighted for a quarterly time series composite total rate of return.

**NCREIF Fund Index - Open End Diversified Core Equity (NFI-ODCE):** Measures the investment performance of 28 open-end commingled funds pursuing a core investment strategy that reflects funds' leverage and cash positions. The NFI-ODCE index is equal-weighted and is reported gross and net of fees for a quarterly time series composite total rate of return.

## REGULAR MEETING OF THE CALOPTIMA HEALTH BOARD OF DIRECTORS' FINANCE AND AUDIT COMMITTEE

CALOPTIMA HEALTH  
505 CITY PARKWAY WEST  
ORANGE, CALIFORNIA

November 20, 2025

A Regular Meeting of the CalOptima Health Board of Directors' (Board) Finance and Audit Committee (FAC) was held on November 20, 2025, at CalOptima Health, 505 City Parkway West, Orange, California. The meeting was held in person and via Zoom webinar as allowed for under Assembly Bill 2449, which took effect after Governor Newsom ended the COVID-19 state of emergency on February 28, 2023. The meeting recording is available on CalOptima Health's website under Past Meeting Materials.

Chair Isabel Becerra called the meeting to order at 3:01 p.m., and Director Brian Helleland led the Pledge of Allegiance.

### **ROLL CALL**

Members Present: Isabel Becerra, Chair; Brian Helleland (all members participated in person)

Members Absent: Blair Contratto

Others Present: Michael Hunn, Chief Executive Officer; Yunkyung Kim, Chief Operating Officer; Nancy Huang, Chief Financial Officer; Troy Szabo, Outside General Counsel, Kennaday Leavitt; Sharon Dwiers, Clerk of the Board

The Clerk noted for the record that Agenda Item 6 contained a typographical error in the company name, which will be corrected in the archived meeting materials.

### **MANAGEMENT REPORTS**

#### **1. Chief Financial Officer (CFO) Report**

Nancy Huang, CFO, presented the CFO Report.

Ms. Huang noted that her update is in follow-up to the discussions and requests at the September 18, 2025, FAC meeting. She reported that, as a result of committee members' comments, changes were made to items under the following categories:

#### **Information Items**

For the Quarterly Operating and Capital Budget Update, staff updated the report to include descriptions of the reports and the responsible department names. In addition, the reports were streamlined to clarify budget details and approval processes.

The CalAIM Program Summary now includes a program overview of community support services, with descriptions and trend analysis. Staff will present a high-level overview of the CalAIM services and provide status updates on previously approved initiatives at today's meeting.

For the Board-approved Initiatives Update, staff will provide a status update on key initiatives at today's meeting.

### Quality Reports – Key Measures

In response to committee members' comments, staff will include a snapshot of key measures for each quarterly report.

For the Net Asset Analysis, Ms. Huang reported that as of September 30, 2025, CalOptima Health's total net asset balance, including fixed assets, was \$2.89 billion. The Board-designated reserve stands at \$1.6 billion, equal to approximately 3.71 months of consolidated revenue, which is within the policy range of 2.5 to 4 months. Resources committed by the Board total \$653 million, and unallocated resources available for new projects are approximately \$390 million. Combined, these reserves provide about 180 days of cash on hand to support current operations.

For the Enrollment Trend Report through November 6, 2025, the consolidated enrollment for all lines of business is 868,451, which is below budget. Medi-Cal enrollment is 849,380, which is below budget. OneCare enrollment is 18,522, and PACE enrollment is 549, both of which are above budget.

Ms. Huang reported on the Shared Risk Pool Performance for the Medi-Cal line of business, including the following health networks: Noble, United Care Medical Group (UCMG), and AltaMed, for the period of July to October 2024. All three health networks are in surplus. For the OneCare line of business, which includes the following health networks: Family Choice, AltaMed, Noble, and UCMG, three are in surplus, and one is in deficit.

For the Health Network Financial Compliance Report, Ms. Huang reported that the report indicates whether CalOptima Health's physician groups, hospitals, and health maintenance organizations passed the financial compliance tests and met financial security reserves and withholding requirements. She reported that all passed.

## 2. Cybersecurity Update

James Steele, Senior Director, Information Security, presented an update on CalOptima Health's cybersecurity. He reported that CalOptima Health experienced no major cybersecurity incidents since the last meeting. There were also no notable non-reportable incidents. However, the organization received two third-party notifications – one from Episource (a subcontractor) and another from MedImpact (CalOptima Health's pharmacy benefit manager). Neither event impacted CalOptima Health's systems, data, or member services.

Mr. Steele highlighted three relevant cybersecurity news items, which included:

**MS-ISAC Loses Federal Funding:** The Multi-State Information Sharing & Analysis Center (MS-ISAC) has lost its federal funding, which previously provided no-cost cybersecurity services to roughly 19,000 state, local, tribal, and territorial government entities. Mr. Steele reported that this funding reduction means many services MS-ISAC provides are no longer available. As such, the CalOptima Health Information Security team has identified areas where CalOptima Health used those services and is working to transition to alternative solutions.

**Cybersecurity Worries Have Grown:** According to Healthcare IT News, healthcare organizations' concerns about cyber threats were also mixed with complacency, according to a new survey from Travelers. In addition, one analyst said too few providers are taking action to protect themselves and their patients against cyber risk. Mr. Steele reported that CalOptima Health's Board and leadership have been pivotal in fostering a healthy cybersecurity culture and ensuring the right tools and processes are in place to prevent threats. He noted that this does not mean CalOptima Health is impenetrable or impervious to all cyberattacks, as the landscape is continually evolving. He added that CalOptima Health is actively building security hygiene as a fabric throughout the organization and remains diligent about it.

**Cybersecurity Should Be Viewed as a Strategic Enabler of the Business:** Cybersecurity must shift from being viewed as a cost center driven by compliance to a strategic enabler aligned with business outcomes such as improved patient care, operational resilience, and trust, as reported by the HIPAA Journal. Mr. Steele shared that this is the culture that CalOptima Health has been building. He added that leadership has embraced cybersecurity since he joined the organization three years ago, and there have been many efforts not only to build a defensible position but also to bring the cybersecurity team into most aspects of the operation.

Mr. Steele reviewed the metrics for quarter three of 2025. He confirmed that there were no major cybersecurity incidents during the quarter. However, there was a significant number of third-party incidents, including two notable cases previously discussed. The remaining incidents primarily involved business email compromises at external organizations, often due to a lack of multi-factor authentication or phishing attacks.

Data loss prevention escalations remained consistent with historical trends, typically involving email and search-related issues, which were referred to the Privacy Team for further investigation. Mr. Steele highlighted key operational statistics, noting that 5.5 million emails were received, of which 66% were identified as malicious and blocked before reaching users. In addition, 126 phishing campaigns and over 1,000 malicious downloads were intercepted, many disguised as benefit renewals or holiday promotions. Mr. Steele added that a layered security approach is used to protect against these attacks. He also reported that the number of protected systems continues to grow, reflecting the scope of safeguarding millions of members' protected health information (PHI), which he described as the organization's "crown jewels."

Finally, Mr. Steele addressed the risk register, stating that although specific items cannot be discussed in detail, all open risks are actively tracked through work streams and compensating controls are in place. He also reviewed the 2025 Security Risk Assessments. Specifically, the Maturity Assessment noted that CalOptima Health showed marked improvement in year-over-year maturity. For the Office of Civil Compliance (OCR) Security Risk Assessment, there were 5 areas of improvement that were identified, with the majority of improvement needed in documenting CalOptima Health's current practice.

Chair Becerra inquired about the open items in the Risk Register.

Mr. Steele responded that open risk items originate from internal risk assessments, third-party assessments such as penetration tests, and OCR risk reviews. All identified risks are added to a Risk Register, which is actively tracked in partnership with the Compliance and Security Departments to ensure timely resolution.

Mr. Steele noted that, as reported earlier, CalOptima Health's Maturity Assessment showed marked improvement compared to 2024. The assessment is based on the National Institute of Standards and Technology (NIST) Cybersecurity Framework, which measures the effectiveness and consistency of security controls. The organization is targeting Level 3 maturity, where all controls are repeatable and documented rather than ad hoc. Currently, the organization is rated above 2.5, with all technical controls in place. The remaining work involves ensuring these controls are fully documented in policies and procedures.

Director Helleland asked whether CalOptima Health is targeting 3 and what the maximum is.

Mr. Steele noted that the maximum is 5, which is basically an automated, hands-off system. He said that most organizations do not reach a 5 because of the dollar value associated with that automation.

Mr. Steele then led a cybersecurity education session for the committee, highlighting key industry threats, including the fact that healthcare remains a prime target due to the high value of PHI, which is worth more than credit card data. Ransomware attacks continue to impact hospitals, health plans, and providers. The Federal Bureau of Investigation has warned of social engineering and impersonation scams targeting Medi-Cal members. Third-party vendor risks are increasing, including risks from subcontractors several layers deep. Mr. Steele added that the misconfigurations in cloud and legacy systems are a significant source of exposure, affecting both older and new technologies. He emphasized that CalOptima Health is addressing these risks through a layered security approach aligned with industry-standard frameworks, including NIST, HIPAA, CMS, and OCR requirements. This approach focuses on people, processes, and technology, ensuring comprehensive coverage rather than a simple compliance checklist. The program involves continuous threat analysis and risk management to safeguard member data and organizational systems.

Mr. Steele and Ms. Kim responded to committee members' comments and questions.

## **INVESTMENT ADVISORY COMMITTEE UPDATE**

### **3. Treasurer's Report**

Ms. Huang presented the Treasurer's Report for the period of July 1, 2025, through September 30, 2025. The portfolio totaled approximately \$3.6 billion. Of the total portfolio amount of \$1.9 billion was in CalOptima Health's operating account, and roughly \$1.7 billion was included in CalOptima Health's Board-designated reserves. Additionally, as previously reported, CalOptima Health now has a new reserve account totaling \$132 million set aside for tangible net equity requirements. Meketa Investment Group Inc. (Meketa), CalOptima Health's investment advisor, completed an independent review of the monthly investment reports. Meketa reported that all investments were compliant with Government Code section 53600 *et seq.* and with CalOptima Health's Board-approved Annual Investment Policy during that period.

Ms. Huang provided an update on investment performance and policy changes. She reported that Meketa included an executive summary on page 11 of the committee materials detailing customer fund performance. For the quarter, the total fund return net of fees was 1.24%, and the year-to-date return was 4.635%, slightly lower than previously reported due to recent market and interest rate changes. Additional details on historical trends, market forecasts, and fund holdings are included in Meketa's report and investment managers' detailed holdings.

Ms. Huang also informed the committee that at the Investment Advisory Committee meeting in late October, the Annual Investment Policy for calendar year 2026 was reviewed and approved. A notable

change is the addition of financial futures contracts related to U.S. government securities as a permissible investment type starting January 1, 2026. She explained that financial futures contracts are standardized, exchange-traded agreements to buy or sell financial instruments at a predetermined price and date. This investment type is allowed under the California Government Code.

The purpose of adding futures contracts is solely to manage portfolio duration, not to increase returns or take on additional risk. To ensure control, the policy limits futures contracts to U.S. government-related securities, caps their use at 20% of the total portfolio, and restricts duration changes to approximately four months.

Chair Becerra asked for clarification on the maximum terms for the three categories noted in the Annual Investment Policy.

Ms. Huang provided clarification on the Annual Investment Policy maximum terms. She explained that the policy assigns different maximum terms based on three portfolio categories: Operating accounts, Tier 1, and Tier 2. Each category has specific duration limits to manage interest rate risk. For example, short-term portfolio (0–1 year), mid-term portfolio (1–3 years), and long-term portfolio (3–5 years). Ms. Huang added that these limits vary by investment type, such as U.S. Treasuries or asset-backed securities, and are defined within the Annual Investment Policy in alignment with the California Government Code. CalOptima Health further specifies maximum terms for each security type to ensure portfolio duration remains within tolerance levels and to mitigate interest rate risk.

### **PUBLIC COMMENTS**

There were no requests for public comment.

### **CONSENT CALENDAR**

4. Approve the Minutes of the September 18, 2025, Regular Meeting of the CalOptima Health Board of Directors' Finance and Audit Committee and Receive and File Minutes of the July 21, 2025, Regular Meeting of the CalOptima Health Board of Directors' Investment Advisory Committee

***Action: On motion of Director Helleland, seconded and carried, the committee approved the Consent Calendar as presented. (Motion carried 2-0-0; Director Contratto absent)***

### **REPORTS/DISCUSSION ITEMS**

5. Approve Modifications to Policy GA.3400: Annual Investments

Michael Hunn, Chief Executive Officer, noted that the Investment Advisory Committee meeting is a public meeting and that a detailed recording of the discussion on revisions to this policy is available. He stated that anyone interested can listen to the committee's dialogue, which was an excellent discussion.

***Action: On motion of Director Helleland, seconded and carried, the committee recommended that the Board of Directors approve modifications to the CalOptima Health Policy GA.3400: Annual Investments. (Motion carried 2-0-0; Director Contratto absent)***

6. Recommend the Board of Directors Approve the New CalOptima Health Policy GA.8064

**Action:** *On motion of Chair Becerra, seconded and carried, the committee recommended that the CalOptima Health Board of Directors approve the new CalOptima Health Policy GA.8064: Deferred Compensation Investments, that will apply to all deferred compensation plans and replace the existing Investment Policy Statement. (Motion carried 2-0-0; Director Contratto absent)*

Chair Becerra asked for an overview of Information Item 9, CalAIM Program Summary and Community Supports: Trends & Analysis, specifically the CalAIM Community Supports: Trends & Analysis.

### **INFORMATION ITEMS**

#### **9. CalAIM Program Summary and Community Supports: Trends & Analysis**

Kelly Bruno-Nelson, DSW, Executive Director, Medi-Cal/CalAIM, provided an update on trends and analysis of community supports. She noted that there are 15 community supports but focused on highlighting a few key items.

Dr. Bruno-Nelson discussed the assisted living facility transitions and explained a recent spike in utilization. This increase is due to a policy change by the Department of Health Care Services (DHCS) in July of last year. Previously, health plans were only responsible for care management services to help individuals transition from nursing homes to assisted living facilities. Under the new policy, health plans must now also cover activities of daily living services for members who have secured an assisted living facility bed and are on the waiver program list, until the waiver officially takes effect. This shift in responsibility has resulted in higher reported numbers, as members remain in assisted living beds while awaiting waiver activation.

Director Helleland asked if this translates into higher dollars for CalOptima Health as a health plan.

Dr. Bruno-Nelson responded that it is significantly more costly for CalOptima Health. The good news is that it is not a benefit that CalOptima Health would have to pay for indefinitely. The hope is that, eventually, those individuals will come off the assisted living waiver list, and the waiver would then pay for those services. She noted that this is still a significantly higher cost to CalOptima Health.

Director Helleland asked whether there were any unintended downstream consequences. He added he was trying to put it in perspective.

Mr. Hunn commented that as these services come online, the community supports are already built into CalOptima Health's DHCS payments, rates, and capitation. This will be reflected in CalOptima Health's medical loss ratio (MLR) and the funds we receive from the state. He noted that Ms. Huang and her Finance team have done an excellent job managing CalOptima Health's administrative loss ratio and MLR, so it has sufficient capacity to absorb this within the current capitated budget. The state is reviewing next year's rates, and CalOptima Health expects updates in March. There are ongoing discussions at the state level regarding funding for community supports under CalAIM. Mr. Hunn reported that he attended a meeting in Sacramento on November 17, 2025, and DHCS is considering adjustments in how funds will be allocated in the future.

For now, this change is covered within CalOptima Health's existing rates and budget. Ms. Huang can provide the specific fiscal impact in a future update, but CalOptima Health currently has adequate reimbursement to support this DHCS health benefit change.

Yunkyung Kim, Chief Operating Officer, noted that one benefit of the state's recent change is that some members who qualify for waiver services have been stuck on a statewide waitlist for years due to limited assisted living beds. Previously, even if a member identified an available bed, they often could not access it because plans like CalOptima Health could not provide the necessary wraparound services.

This change allows CalOptima Health to help members transition into assisted living while they wait to move off the waiver list, rather than remaining in inpatient or higher-level care. Although the numbers are small due to limited bed availability, this adjustment can make a significant difference for those members. Once the member is on the waiver, the waiver covers ongoing costs and enrollment in most of CalOptima Health programs.

Dr. Bruno-Nelson reported next on item four, Personal Care, which is a service similar to In-Home Supportive Services (IHSS). Its primary purpose is to bridge the gap for members who have applied for IHSS but are waiting for approval and, in rare cases, to supplement IHSS when additional support is needed. Dr. Bruno-Nelson reported that utilization numbers increased initially but are now trending down. This decline is due to CalOptima Health's collaboration with the Social Services Agency (SSA), which administers IHSS. While CalOptima Health cannot access state data on IHSS approvals, SSA has provided alternative documentation that helps CalOptima Health identify when members are approved. At that point, CalOptima Health's services end, and IHSS takes over. The goal remains to serve as a temporary bridge, and the recent collaboration has improved efficiency.

Chair Becerra asked what the difference is between an authorized member and the trend on the claim. In addition, she asked whether there was a member who was authorized but not using the services.

Dr. Bruno-Nelson responded that it is possible; however, she said it is more likely attributed to a lag in billing for those services.

Next, Dr. Bruno-Nelson provided additional updates on the following CalAIM community supports:

**Home Modifications (Environmentally Accessible Adaptations):** Dr. Bruno-Nelson reported that utilization remains low, with a slight upward trend. A key barrier is that most members are renters and require landlord approval for modifications, which limits access. Despite this, some members have successfully used the benefit.

**Housing Navigation:** Utilization has increased over time, reflecting the growing need in the community. The county's unhoused population rose by 22% between the 2022 and 2024 Point-in-Time Counts, and similar increases are expected in the next count scheduled for January.

**Enhanced Care Management (ECM):** Dr. Bruno-Nelson reported that enrollment in ECM has shown steady growth since its launch, supported by three ECM academies over the past three years and the addition of 62 ECM providers. DHCS' July audit confirmed that CalOptima Health met utilization and provider thresholds, with at least one provider for every population of focus. The program is progressing toward the state goal of enrolling 1% of membership in ECM.

## 10. Board Approved Initiatives Update

Michell Nielsen, Director, Strategic Development, provided an update on two Board-approved strategic initiatives, starting with the Member and Population Health Needs Assessment (MPHNA). Ms. Nielsen acknowledged the collaborative efforts of CalOptima Health, the National Opinion Research Center, and their subcontractors, Capital C and Cal State Fullerton, in advancing this initiative.

Goal: The shared goal is to develop a comprehensive, equity-driven assessment of CalOptima Health members' whole-person health needs in Orange County.

Approach: Provider and member surveys, community focus groups, and key informant interviews.

Ms. Nielsen reported that the Provider Survey, which concluded in August with 301 responses, was significantly higher than the previous assessment. Highlights will be shared at upcoming provider forums; full results will be integrated into the final MPHNA report.

For the Member Survey, Ms. Nielsen reported that it was launched on October 16; outreach included online, mail, in-person engagement, and over 20 community events. Nearly 600 responses received to date; survey closes mid-December.

Ms. Nielsen reported that three focus groups have been completed: English-speaking populations in North and South County and older adults at the CalOptima Health PACE facility. Staff is planning to convene eight additional focus groups to be completed by early December.

### **Provider Workforce Development Initiative**

Ms. Nielsen reported that the Provider Workforce Development Initiative was a \$50 million investment over five years to address healthcare workforce shortages in Orange County. There were five components to this initiative, which included the following:

- Educational investments to expand the non-physician health professional pipeline.
- Innovation fund for behavioral health training models.
- Physician-focused programs.
- Allied health initiatives.
- Countywide collaborative (awarded to Orange County Department of Education) to convene educational institutions, providers, and community organizations.

### Progress:

Two rounds of grant funding have been launched, and monitoring is in progress with 13 grantees. Ms. Nielsen noted that the projected outcomes by 2029 include an additional 1,000 health professionals (nurses, physician assistants, and allied health professionals) and 800 additional behavioral health professionals. She reported that Chapman University's Physician Assistant Program invited CalOptima Health to its White Coat Ceremony on December 5, where four CalOptima Health scholarship recipients will participate.

Director Helleland asked how CalOptima Health is monitoring whether the grant funding is increasing the number of health care professionals being trained.

Mr. Hunn responded and discussed the tracking and reporting for the Provider Workforce Development Initiative grants. He noted that the universities receiving funds – such as Cal State Fullerton for Social

Work and nursing programs – will report back on the number of students supported, completion rates, and compliance with the requirement to remain in Orange County for up to three years post-graduation. This follow-up is tied to the grant audit process, and institutions have agreed to provide longitudinal data. Mr. Hunn also emphasized the following key points: funds help students remain in programs by addressing financial barriers, reducing dropout rates; stipends cover more than tuition, supporting overall retention; and nursing program participants will be tracked through milestones such as credentialing and white coat ceremonies. He noted that CalOptima Health will request and report these metrics as part of grants management updates. Finally, Mr. Hunn said that broader workforce development efforts aim to increase the number of graduates and retention in Orange County, addressing challenges such as financial pressures and potential barriers to program participation.

Chair Becerra clarified the importance of measuring the actual impact of CalOptima Health's investment in workforce development programs. Specifically, the focus should be on:

- How many additional students enrolled as a direct result of CalOptima Health's funding (beyond those who would have participated without the investment)?
- Tracking retention and placement after graduation, including whether graduates remain in Orange County, work in safety-net programs, serve Medicaid populations, or move into private practice.

Mr. Hunn responded that CalOptima Health will ensure the tracking data is provided as requested.

Ms. Nielsen shared updates from the second round of the Provider Workforce Development Initiative:

Seneca Family of Agencies has placed six interns across Anaheim Hills, Santa Ana, and Lake Forest clinics: four Master of Social Work graduates, one Marriage and Family Therapist graduate, and one Professional Clinical Counselor. These interns are Orange County residents attending Cal State Fullerton, Cal State Long Beach, and Azusa Pacific University. Internships began in September.

Countywide Collaborative contracting is in progress, with implementation targeted before year-end. Initial steps will include identifying key stakeholders and developing a strategic plan to ensure a targeted, outcome-driven approach. Ms. Nielsen emphasized that this initiative is a long-term strategy to build a resilient, community-rooted healthcare workforce in Orange County, focusing on execution, impact measurement, and sustained engagement with partners.

Dr. Bruno-Nelson provided an update on the Street Medicine Support Center at the Hospitality Inn Board initiative. She reported that there has been significant progress on the project and expects to receive plan approvals by mid-next month. The partnership with the City of Garden Grove has been instrumental in allowing simultaneous review of architectural plans and building use approval – an approach that typically occurs sequentially. This concurrent process will save time and keep the project on schedule. Plans are anticipated to be approved by the City of Garden Grove by mid-December, after which a request for proposals will be issued to select a general contractor. The projected opening for the support center is early 2027.

#### **PUBLIC COMMENT**

There were no requests for public comment.

## **MANAGEMENT REPORTS**

### **Chief Executive Officer (CEO) Report**

CEO Michael Hunn reported on CalOptima Health's membership for the last quarter. He noted that there was a slight decline in membership partially due to the eligibility redetermination cycle where individuals must complete their eligibility information packets and return them in a timely manner. CalOptima Health experienced a large number of member eligibility renewals in the month of August.

The Orange County Social Services Agency administers the Medi-Cal eligibility process. CalOptima Health continues to communicate with members about the importance of submitting renewal applications promptly to avoid gaps or losses of coverage. Mr. Hunn reiterated that there are no changes to benefits or care at this time. Mr. Hunn also reported delays in CalFresh program support for eligible members due to the government shutdown and shared information on where members can access food resources.

## **REPORTS**

### **VI.A. Approve Modifications to Policy GA. 3400: Annual Investments**

IAC member Annie Tran raised questions regarding the proposed changes to allow the use of financial futures contracts related to U.S government securities in CalOptima Health's Annual Investment Policy.

Controller Jason Kaing, Scott Pavlak from MetLife Investment Management, and Darren Marco from Payden & Rygel provided additional context on the rationale for the proposed changes. Laura Wirick from Meketa Investment Group (Meketa) further explained how the policy updates align with the California Government Code.

*Action: On motion of Member Meehan, seconded and carried, the Investment Advisory Committee recommended to the Board of Directors' Finance and Audit Committee Modifications to CalOptima Health Policy GA.3400: Annual Investments. (Motion carried 5-0-0).*

### **VI. B. Adopt the CalOptima Health Board of Directors' Investment Advisory Committee Meeting Schedule for Calendar Year 2026**

*Action: On motion of Member Meehan, seconded and carried, the Investment Advisory Committee approved the Investment Advisory Committee Meeting Schedule for Calendar Year 2026. (Motion carried 5-0-0).*

## **INFORMATION ITEMS**

### **Financial Update**

Controller Jason Kaing presented CalOptima Health's financial highlights as of August 31, 2025. Enrollment for August was slightly below budget at approximately 892,000 members. The organization reported an operating surplus of \$36.9 million, driven by an operating margin of \$20.4 million and \$16.5 million in non-operating income. A key contributor to non-operating income was net investment income of roughly \$24.4 million, partially offset by year-to-date community reinvestment accruals of \$7.9 million. Overall, CalOptima Health achieved a year-to-date net surplus of \$51.3 million, nearly \$30 million from operating activities and about \$22 million from non-operating sources.

Mr. Kaing reviewed CalOptima Health's balance sheet. The current assets were approximately \$2.5 billion, while current liabilities were \$1.4 billion. Board Designated Reserves were \$1.6 billion, reflecting a current reserve level of 3.78 months of the average monthly revenue. Statutory Reserves were \$133.7 million, or 104% of the minimum tangible net asset requirement.

### **Presentation by Meketa Investment Group**

Ian Schirato, Investment Analyst, reported on the total fund performance, fixed income, cash flow, and custom peer group results.

Laura Wirick, Principal, gave a company update and reported on the total fund performance, cash flow, performance attribution, individual manager performance, and custom peer group results for the investment managers. Ms. Wirick also addressed the overall market environment. She reported that for the period ending August 31, 2025, the portion of the investment portfolio managed by Meketa was in compliance with CalOptima Health's Annual Investment Policy.

### **Presentation by MetLife Investment Management**

Erin Klepper, Associate Director, provided a firm update, reported on the Tier One and Tier Two accounts, and discussed the yield curve. Ms. Klepper noted that for the period ending August 31, 2025, the portion of the investment portfolio managed by MetLife Investment Management complied with CalOptima Health's Annual Investment Policy.

Tani Fukui, Vice President provided an economic update that included the gross domestic product contribution of consumers, a report on inflation and unemployment, and discussed yield curves and federal rate cuts.

Scott Pavlak, Managing Director and Head of Short Duration, gave a market overview update and reported on the Federal Reserve projections, inflation, market projections, and portfolio performance attribution and strategy.

**Presentation by Payden & Rygel**

Darren Marco, Vice President, provided a firm update, a report on the yield curve and total fund portfolio, and a summary on portfolio performance.

Madison Thrane, Senior Client Portfolio Analyst, reported on the characteristics, attribution, and performance of the Tier One and Tier Two accounts. Ms. Thrane noted that for the period ending August 31, 2025, the portion of the investment portfolio managed by Payden & Rygel was in compliance with CalOptima Health's Annual Investment Policy.

**ADJOURNMENT**

Hearing no further business, Chair Johnson adjourned the meeting at 4:40 p.m.

## **CALOPTIMA HEALTH BOARD ACTION AGENDA REFERRAL**

### **Action To Be Taken February 19, 2026** **Meeting of the CalOptima Health Board of Directors'** **Finance and Audit Committee**

#### **Report Item**

5. Approve Reappointment of Annie Tran to the CalOptima Health Board of Directors' Investment Advisory Committee

#### **Contact**

Nancy Huang, Chief Financial Officer, (714) 235-6395

#### **Recommended Actions**

Recommend that the Board of Directors reappoint Annie Tran to the Board of Directors' Investment Advisory Committee for a two (2)-year term, beginning March 5, 2026.

#### **Background**

At a Special Meeting of the CalOptima Health Board of Directors (Board) held on September 10, 1996, the Board authorized the creation of the CalOptima Health Investment Advisory Committee (IAC), established qualifications for committee members, and directed staff to proceed with the recruitment of the volunteer members of the IAC.

When creating the IAC, the Board specified that the IAC would consist of five (5) members. One (1) member would automatically serve by virtue of his or her position as CalOptima Health's Chief Financial Officer. The remaining four (4) members would be Orange County residents who possess experience in one (1) or more of the following areas: investment banking, investment brokerage and sales, investment management, financial management and planning, commercial banking, or financial accounting.

At the September 5, 2000, meeting, the Board approved expanding the composition of the IAC from five (5) members to seven (7) members to have more diverse opinions and backgrounds to advise CalOptima Health on its investment activities. All IAC members' appointments are usually for a two-year term.

#### **Discussion**

The candidate recommended for reappointment, Annie Tran, has consistently provided leadership and expertise in finance and accounting.

Annie Tran is a Chartered Financial Analyst, holds an MBA in finance and a bachelor's degree in economics. Ms. Tran currently works for Charles Fish Investments as a Portfolio Manager. She has over 17 years of experience and previously worked as an Analyst for US Bank and an Investment Analyst intern for the City of Orange.

Annie Tran was first appointed to the IAC on March 4, 2022, and reappointed to the IAC on March 5, 2024. Her current term will end on March 4, 2026.

**Fiscal Impact**

There is no fiscal impact. An individual serving on the IAC assists CalOptima Health in suggesting updates to and ensuring compliance with CalOptima Health's Board-approved Annual Investment Policy, and monitors the performance of CalOptima Health's investments, investment advisor, and investment managers.

**Rationale for Recommendation**

The individual recommended for reappointment to CalOptima Health's IAC has extensive experience that meets or exceeds the specified qualifications for membership on the IAC.

## **BALANCE SHEET – DECEMBER MONTH:**

**ASSETS** of \$4.7 billion increased \$93.6 million from November or 2.0%

- Operating Cash and Short-term Investments increased \$264.0 million due to inflows of \$251.0 million for the Managed Care Organization (MCO) tax revenue for August through November, CY 2024 Intergovernmental Transfer (IGT) of \$175.4 million, offset by \$125.6 million for MCO tax expense, \$15.1 million paid to the Coalition of Orange County Community Health Centers and Reinsurance payments of \$9.2 million
- Capitation Receivables decreased \$188.2 million due primarily to MCO tax revenue received for August through November
- Receivables – Other increased \$7.8 million
- Total Designated Assets increased \$6.0 million due to interest income
- Prepaid Expenses increased \$2.3 million
- Total Capital Assets increased \$1.8 million due to routine depreciation expense

**LIABILITIES** of \$1.8 billion increased \$84.8 million from November or 5.0%

- Medical Claims Liabilities increased \$140.4 million due primarily to CY 2024 IGT of \$175.4 million and variability in claims experience
- Community Reinvestment increased \$11.1 million due to updated CY 2024 estimates and the current month accrual
- Accounts Payable decreased \$67.3 million due to timing of MCO tax accruals

**NET ASSETS** of \$2.9 billion, increased \$8.9 million from November or 0.3%

## Exhibit 2: Reserve Level Landscape Analysis (as of December 31, 2025)

At the April 3, 2025, meeting, the Board approved the modification of CalOptima Health Policy GA.3001: Statutory and Board-Designated Reserve Funds. The updated policy increased the Board-designated reserve levels to a range of 2.5 to 4.0 months of consolidated monthly revenue and created a separate reserve fund to ensure compliance with TNE requirements. The charts below provide information on the levels of these reserve funds as of December 31, 2025.

**Shared Risk Pool Performance Update**

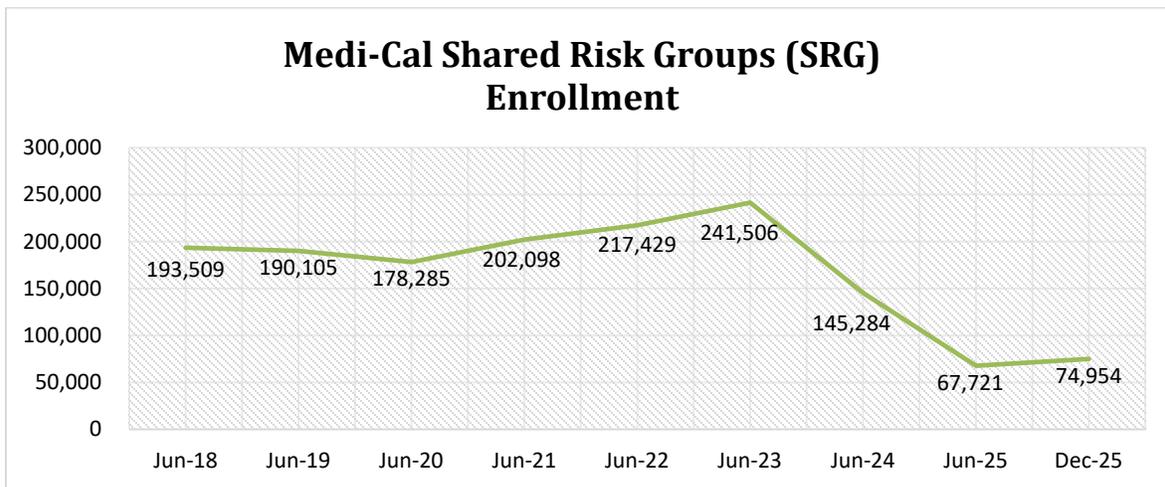

**Medi-Cal:** As of December 31, 2025, Medi-Cal has two (2) Shared Risk Groups (SRGs).

Effective Dates:

- Noble – January 2008
- UCMG – July 2008

Enrollment

SRGs are serving approximately 75,000 members. It represents about 9% of Medi-Cal enrollment. The decrease in enrollment reflects AltaMed’s model change from an SRG to an HMO contract in November 2024.

Notes:

- Arta and Talbert were consolidated with Monarch into one HMO group, Optum, effective January 2024
- AltaMed was an SRG from March 2014 to October 2024, and became an HMO group in November 2024

Note: IBNR is calculated based on the paid claims experience. Medi-Cal Shared Risk Pool data for fiscal years prior to 2018 have been archived.

**OneCare:** As of December 31, 2025, OneCare has four (4) SRGs.

Effective Dates:

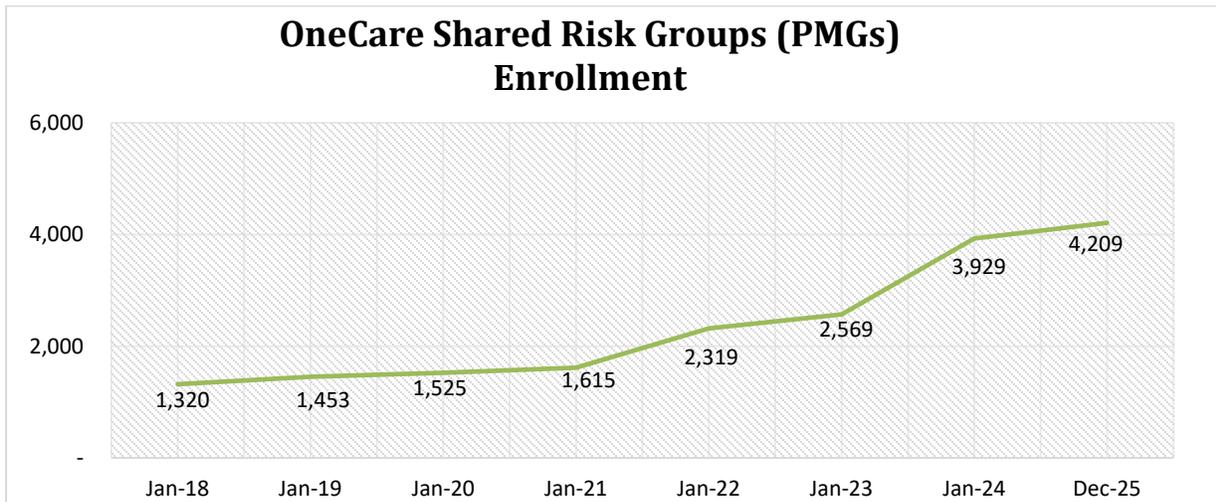

- Family Choice – October 2005
- Noble – December 2012
- AltaMed – August 2008
- UCMG – January 2013

Notes:

- Monarch was an SRG from October 2005 to December 2022; became an HMO group in January 2023
- AMVI/Prospect was an SRG from October 2005 to December 2022; became an HMO group in January 2023
- Arta and Talbert were consolidated with Monarch into one HMO group, Optum, effective January 2024

Enrollment

SRGs are serving approximately 4,200 members. It represents about 23% of OneCare enrollment.

Notes:

- OneCare Connect members transitioned to the OneCare program effective January 1, 2023

**Health Network Financial Compliance Review Update**

---

On a quarterly basis, CalOptima Health reviews the unaudited financial statements of the capitated Physician Groups, Hospitals and HMOs that comprise CalOptima Health’s health networks. After internal review, CalOptima Health’s financial staff makes a determination as to whether the capitated entity has the ability to assume the risk of a capitated contract. The following provides an overview of the review criteria:

1. Physician Groups: These entities are required to pass the following tests:
  - Current ratio must be greater than or equal to 1.0;
  - Tangible net equity (TNE) must be greater than or equal to 1.0; and
  - Cash to claims ratio must be greater than or equal to 0.75.

Hospitals: These entities are required to have a current ratio greater than or equal to 1.0

HMOs: These entities are required to have a TNE greater of (a) \$1.0 million; (b) percent of premium revenues; or (c) percent of healthcare expenses.

2. Financial Security Reserves and Withhold: Health networks and hospitals are required to meet the current financial security reserve and withhold levels pursuant to CalOptima Health policy.

Results of the September 30, 2025 Financial Compliance Review: CalOptima Health reviewed the unaudited financial statements for each health network entity for the period ending September 30, 2025, and found that all health networks were in compliance.
