The Behavioral Health Stakeholder Advisory Committee (BH-SAC) is a newly formed, stakeholder workgroup focused on the issues related to the delivery of behavioral health services in Medi-Cal. The current system, which is bifurcated between the health plans (which are responsible for delivering mild-to-moderate services) and the counties (which are responsible for specialty mental health services), is under scrutiny and criticism from many stakeholders. DHCS recently received federal approval to extend the current federal Section 1915(b) Specialty Mental Health Services waiver to the end of 2020 to align with renewal of the Section 1115 waiver. As noted above, DHCS intends to submit a single consolidated federal Section 1915(b) waiver that will include all of the managed care programs across Medi-Cal, including specialty mental health services.

Prescription Drugs Executive Order

On his first day in office, Governor Newsom announced an Executive Order (E.O.) intended to control rising pharmacy costs.[xii] The E.O. includes a shift to bulk purchasing for all government programs, including Medi-Cal (the largest purchaser of prescription drugs in the state). This will involve carving-out the Medi-Cal pharmacy benefit from the health plans, so the state can negotiate for all its programs collectively, which it anticipates will result in lower costs. Even with concerns from Medi-Cal stakeholders and opposition from health plans, DHCS has been instructed to move forward on a very aggressive timeline and complete the transition by January 2021. DHCS recently released an RFP to select a single vendor to manage the entire pharmacy benefit under a fee-for-service arrangement.[xiii] Despite running counter to other actions designed to integrate services and benefits across the Medi-Cal program, it appears pharmacy will be carved-out. Once the shift occurs, the Medi-Cal health plans will need to be prepared to work with the state's pharmacy vendor to access pharmacy data for their members and coordinate care.

DHCS Managed Care Accountability Set

In early 2019, DHCS announced a major change in quality reporting requirements for the Medi-Cal health plans: health plans must report on the complete CMS Core Measures Set for both adults and children (known as the Managed Care Accountability Set in California). [xiv] This represents a significant increase in the number of measures reported and is being implemented for Measurement Year 2019. Additionally, DHCS currently requires that health plans meet a Minimum Performance Level (MPL) of 25

percent and will move to a 50 percent MPL effective for the 2019 Measurement Year. While negotiations between the health plans and DHCS have helped reduce the administrative burden and potential for sanctions in the first year of the transition, this is a heavy lift for the health plans and DHCS, and another indicator of a new Administration that is determined to make changes and maintain aggressive implementation timelines. With themes of quality and value throughout both the federal and state priorities, it is likely the pressure to demonstrate high-value care will continue to be a growing focus of DHCS.

Future of the Coordinated Care Initiative

The Coordinated Care Initiative (CCI), which is currently operating in seven counties, includes the mandatory enrollment of dual eligibles into Medi-Cal Managed Care, implementation of a managed long-term services and supports (MLTSS) benefit, and assumption of risk by the health plans for long-term care placements. [xv] It also includes the Cal MediConnect (CMC) duals demonstration, which has been extended through 2022.[xvi] The CCI has been placed into state law with no sunset date and an expansion of certain elements would be in line with other efforts by DHCS to align and integrate benefits statewide. Notably, DHCS recently announced that, starting in January 2021 (which aligns with the waiver renewal timeline), it will carve-in long-term care benefits to all its managed care models, signaling the move towards standardization of benefits across the state.

The CCI program requires federal waiver authority, and the CMC program requires continued federal approval and negotiation of a three-way contract between DHCS, CMS, and the health plans. The future and status of this program is less certain and may be resolved as part of the Section 1115 waiver discussions and negotiations.

Medi-Cal Managed Care Rates

DHCS must submit actuarially-sound managed care rates to CMS for review and approval. The capitation rates paid to health plans are tied directly to the Medi-Cal benefits included in the health plan contracts. Per federal regulations 42 CFR Section 438.4 (a) defines actuarially sound capitation rates as *"projected to provide for all reasonable, appropriate, and attainable costs that are required under the terms of the contract and for the operation of the MCO…for the time period and the population covered under the terms of the contract."* Meaning that Medi-Cal Managed Care Plan capitation rates only reflect the costs of providing services and populations included in the contract with DHCS.

The complicated rates structure, which has evolved over many years, has led to thousands of individual rate cells that have to be calculated by DHCS every year. DHCS has been moving to speed up its rate development process, which is currently under almost a two-year delay, to provide more timely rates to health plans and to meet CMS requirements for prospective rate setting. In addition, DHCS has recently indicated it is examining how to move to a regional rate-setting model, which would streamline their work and require significantly fewer rate cells. However, many factors will continue to complicate the rate development process, some of which are outside of DHCS' control. These include directed payments to certain providers, retroactive implementation of benefits, delays in CMS review and approval, and other legislative and administrative activities that impact the Medi-Cal program. As DHCS moves to increase value-based payments and streamline the rate setting process, providing quality data that reflects the cost of providing high-value care will become even more important. Health plans will

want to provide input on these transitions to identify downstream and unintended negative consequences and to promote the timely payment of rates.

Encounter Data Reporting

DHCS has continued to put significant pressure on the health plans to provide complete, accurate, and timely encounter data. Under federal Medicaid regulations, CMS can withhold federal funds if the state does not submit this data as required. Additionally, the Department of Managed Health Care (DMHC) has initiated an encounter data taskforce that is charged with working to standardize and improve encounter data reporting across all health plans (Medi-Cal, Commercial, Medicare, etc.). CalOptima will need to be prepared to respond to any future actions that the state takes as it works to enhance encounter data reporting, which is used for both utilization oversight and rate setting purposes. CalOptima should proactively identify where it can improve encounter data collection and be prepared to work collaboratively with its networks and DHCS.

County Landscape

CalOptima is an integral part of the business community and the health care sector in Orange County. It is important to understand how the federal and state priorities intersect with the local landscape and the needs of the community.

Health Insurance Coverage in Orange County

As shown in the table below, Orange County has over 30 percent of its population enrolled in public programs, which includes Medicare and Medi-Cal, in 2017. [xvii] As the sole Medi-Cal plan in the County, CalOptima has a unique position to impact care delivery and examine ways to reach the additional uninsured. For example, CalOptima offers several plans for individuals with both Medicare and Medi-Cal. Its PACE programs for frail seniors has experienced successful growth, in part due to its implementation of the alternative care setting model allowing members to receive services at local Community-Based Adult Services locations. It's OneCare Connect (Cal MediConnect Plan), on the other hand has experienced enrollment and financial performance challenges; the future of this program is uncertain as CMS has approved extension of this program through 2022.

Current Health Insurance Coverage Type	Statewide	Orange County
Uninsured	7.3%	6.7%
Medicare & Medicaid (Dual Eligibles)	4.3%	3.0%
Medicare	10.9%	11.2%
Medicaid	25.0%	19.1%
Employment-based	44.4%	51.8%
Privately Purchased	6.5%	7.5%
Other Public	1.5%	0.7%

Competitive Orange County Labor Market

According to the 2019 Orange County Community Indicators Report, the cost-of-living in Orange County is 91 percent higher than the national average, and among the highest in California. The high cost-of-living is driven largely by high housing costs. In addition, Orange County's unemployment rate (3.0 percent as of June 2019) continues its six-year trend of outperforming state and national unemployment rates (4.2 percent and 3.8 percent respectively).[xviii] The high cost-of-living coupled with a low unemployment rate are both challenges for CalOptima. As a public plan, CalOptima has difficulty competing with the private sector for staff in terms of salary. In addition, the low unemployment rate in the County means the hiring environment is very competitive.

Community Collaboration

Community Engagement

CalOptima believes in strengthening its partnerships by enhancing communications with local community organizations and supporting these important partners serving CalOptima's members' health care needs. For fiscal year (FY) 2018-2019, CalOptima participated in 126 community events to engage members and the public about CalOptima and its programs, health care and support services. Additionally, CalOptima hosts the quarterly Community Alliances Forum, which is designed to keep CalOptima connected to the health plan's community stakeholders. CalOptima also participates in more than 30 collaborative meetings throughout Orange County. Finally, CalOptima understands the importance of keeping the local community informed about health plan activities. Through their monthly community announcements and quarterly e-newsletter (known as "Community Connections"), the CalOptima provides updates on initiatives and shares information about events and training with more than 2,500 individuals and organizations.

System of Care Data Integration

The County of Orange has launched integrated data initiative for the County's System of Care for individuals experiencing homelessness. When complete, this initiative will support information sharing across county agencies touching county residents for services such as health care, law enforcement, court system, social services and other community resources. Shared data will enhance the coordination of services for "high utilizers" of the County's System of Care and may provide earlier opportunities for early intervention before residents become high utilizers. CalOptima will explore opportunities for data exchange to benefit the mutual individuals we serve.

Behavioral Health/Be Well OC

In 2018, local public and private stakeholders came together to work on behavioral health issues. In addition to CalOptima, key participants include the County Board of Supervisors, Providence St. Joseph Health, and Kaiser Permanente. Under this initiative, a regional wellness center is envisioned in Orange County to serve individuals with mental health needs regardless of payor source. The Be Well OC initiative integrates across silos to address social determinants of health and recognizes issues related to the justice system and housing have a significant impact on health and must be considered as part of comprehensive solution. This mirrors concerns, and priorities highlighted by the state and federal

government. CalOptima is well positioned to leverage this local experience to demonstrate its commitment to population health management and effective delivery system transformation.

Homelessness

In Orange County, as across the state, the homeless population has increased significantly over the past few years because of increased housing costs and stagnant wages. To address this problem Orange County has focused on creating a system of care that uses a multi-faceted approach to respond to the needs of County residents experiencing homelessness. The system of care includes five components: behavioral health, health care, housing, community corrections, housing, benefits and support services.[xix] The county's WPCP is an integral part of this work as it is structured to focus on Medi-Cal beneficiaries struggling with homelessness.

CalOptima has responded to this crisis by committing $100 million to fund homeless health programs in the County. Homeless health initiatives supported by CalOptima include:

- Recuperative Care – As part of the Whole Person Care program, services provide post-acute care for update to 90-day stay for homeless CalOptima Members.
- Medical Respite Care – As an extension to recuperative care program, CalOptima provides additional respite care beyond 90 days of recuperative care under the Whole Person Care program.
- Clinic Field Teams – In collaboration with Federally Qualified Community Health Centers (FQHC), Orange County Health Care Agency's Outreach and Engagement team, the pilot program provides immediate acute treatment/urgent care to homeless CalOptima Members.
- Homeless Clinic Access Program – The pilot program will focus on increasing access to care by providing incentives for community clinics to establish regular hours to provide primary and preventative care services at Orange County shelters.
- Hospital Discharge Process for Members Experiencing Homelessness – Support is designed to assist hospitals with the increased cost associated with discharge planning under the new State Legislative requirements.

As noted above, addressing homelessness is one of the Governor's priorities, and CalOptima can expect the state will be looking for innovative partners to address this public health crisis.

Health Homes Program (HHP)

As was noted above, one of the initiatives DHCS has implemented to increase person-centered care and to integrate across programs is HHP. CalOptima has elected to bring this program to Orange County to provide increased coordinates care for its highest risk Medi-Cal members. Eligible members choosing to participate and will receive high touch services, such as in-person health needs assessment, accompaniment to key medical appointments and housing navigation and sustainability services.

Whole Person Care Pilot Transition to CalOptima

As was noted above, the WPCP are expected to transition to the Medi-Cal managed care plans when the waiver expires at the end of 2020. Orange County's Health Care Agency is the lead entity for the WPCP, and CalOptima has a limited role to provide personal care coordination services and access to covered Medi-Cal benefits. Because details are limited at this time, and it is unclear how DHCS may restructure

the individual WPCPs as they transition into managed care, CalOptima will have to be prepared to work collaboratively with the WPCP stakeholders once DHCS releases more detailed guidance and timeframes. HHP implementation will provide a foundation for this transition.

CalOptima Health Networks and Access

Across California, there are concerns about access to care, rising cost of living, and a lack of physicians and other health workers. These issues are particularly acute in the Medi-Cal program, which recently launched a physician loan forgiveness program to encourage new physicians to serve this population. CalOptima is engaged in an assessment of its health network structure and reimbursement arrangements to develop stronger networks with value-based payment arrangements. The Delivery System Study, being conducted by Pacific Health Consulting Group, is expected to be finalized in early 2020 and will present options for CalOptima and its contracted health networks to consider. It is increasingly challenging to recruit and maintain providers with the low reimbursement rates and significant administrative workload associated with the Medi-Cal program (e.g., all providers must now enroll with DHCS). Continued investment in its health networks and collaboration with providers will allow CalOptima to continue to be innovative and meet the needs of all its members.

Board of Directors Meeting
October 1, 2020

CalOptima 2017–2019 Strategic Plan Closure and 2020–2022 Strategic Plan Update

This document provides an overview of CalOptima's work in the area of strategic planning. CalOptima routinely develops three-year strategic plans through an extensive process that engages the Board of Directors, executive team, staff and community stakeholders. At the end of 2019, we completed our 2017‑2019 Strategic Plan, and a document summarizing the initiatives follows this memo. We are currently in the middle of the first year of our 2020‑2022 plan. A brief summary of that plan is below, along with links to the plan's full text and an associated Environmental Scan document.

2017–2019 Strategic Plan Closure

CalOptima's 2017–2019 Strategic Plan focused on three priority areas: Innovation, Value, and Partnerships and Engagement; and two building blocks: Workforce Performance and Financial Strength. At the February 7, 2019, CalOptima Board of Directors (Board) meeting, staff presented an Information Item on the Year 2 Progress Report. Due to the completion of this three-year Strategic Plan at the end of the 2019, CalOptima is providing the attached Final Report, closing the remaining identified initiatives. A few highlights from the final year include:

- *Be Well OC:* CalOptima provided an $11.4 million prepayment for services to CalOptima members at the first wellness hub in Orange County. When completed, the wellness hub will be a single location that offers a seamless continuum of mental health care from triage to treatment. In addition, CalOptima staff are providing support to the Be Well collaborative by co-leading two workgroups: Close Treatment Gaps and Improve Access, and Establish Community Wellness Hubs. These are two of the six workgroups established by Be Well OC to address high-priority areas identified as needing the most attention and improvement.
- *Delivery System Study:* Presented to the Board in multiple sessions during 2019, the study brings together information and data about health care delivery throughout the health care industry and within CalOptima's delivery model. The study results are to inform future options for delivery system structure and practices by CalOptima, its health networks and providers.
- *Member Portal:* CalOptima launched its member portal in April 2019 and now provides online access to information in English, Spanish and Vietnamese.

2020–2022 Strategic Plan Update

Across several months in 2019, Chapman Consulting facilitated the development of CalOptima's 2020–2022 Strategic Plan. The process included:

- Reviewing the Strategic Plans from 2017–2019 and prior years

- Conducting interviews with Board members and Executive staff
- Developing an Environmental Scan
- Facilitating meetings with key audiences
    - Full-day Board planning session
    - Joint meeting of CalOptima's Advisory Committees (Member Advisory Committee, OneCare Connect Member Advisory Committee, Whole-Child Model Family Advisory Committee and Provider Advisory Committee)
    - Meeting with health network representatives

The final 2020–2022 Strategic Plan builds on the achievements of the 2017–2019 Strategic Plan and identifies five Strategic Priorities:

- Innovate and Be Proactive
- Expand CalOptima's Member-Centric Focus
- Strengthen Community Partnerships
- Increase Value and Improve Care Delivery
- Enhance Operational Excellence and Efficiency

CalOptima's website includes postings of the 2020–2022 Strategic Plan approved at the December 5, 2019, Board meeting and the Environmental Scan.

Information about the Strategic Plan was shared with employees at all levels and is part of new employee orientation. The plan was also available to support the development of the Fiscal Year 2020–21 budget and the identification of new initiatives for employee goal setting. Staff is gathering information on the current and new initiatives that align with the five Strategic Priorities to enable ongoing monitoring and periodic updates to the Board.

The Strategic Plan was also shared in CalOptima's 2020 Report to the Community and presented during the January 2020 Community Alliance Forum, as well as meetings with the Orange County Health Improvement Partnership and the Coalition of Orange County Community Health Centers. These are the first steps to identifying synergies with other community organizations and developing support for CalOptima initiatives.

Next Steps

CalOptima is finalizing a workplan for implementing, monitoring and reporting progress on the 2020–2022 Strategic Plan. Progress reports on the 2020–2022 Strategic Plan will be provided to your Board on a semi-annual basis or as appropriate.

Strategic Plan Final Report

The CalOptima Strategic Plan 2017–2019 Final Report encapsulates achievements across three years in the priority areas of innovation, value, and partnerships and engagement. Our endeavors to improve members' health care are always in partnership with Orange County's community of providers, advocates and stakeholders. We have you and others to thank for supporting this plan.

Innovation at CalOptima primarily means integration, and the integration efforts of the past three years are significant. We brought mental and physical health benefits together by directly administering mild to moderate mental health services and Applied Behavior Analysis in Medi-Cal. CalOptima transitioned California Children's Services to the Whole-Child Model, creating a seamless program for more than 12,000 medically complex children. And we prepared to launch the Health Homes Program to support the highest-risk members with enhanced care coordination.

Value is about quality of care delivered relative to the cost. For the duration of the Strategic Plan, CalOptima maintained our record of top quality in Medi-Cal as measured by the National Committee for Quality Assurance. At the same time, we upheld our commitment to keeping administrative costs low and setting appropriate provider payments via rate rebasing and other efforts.

Partnerships and Engagement strengthen all efforts on behalf of members, especially in the areas of homeless health and our Program of All-Inclusive Care for the Elderly (PACE). Community health centers were essential partners in developing new programs for members experiencing homelessness, such as Orange County's first-ever Clinical Field Teams. And collaboration with Community-Based Adult Services centers enabled CalOptima PACE to expand capacity and serve participants in a new way.

With this plan now complete, CalOptima has transitioned to the 2020–2022 Strategic Plan. And already we know that this next three-year period will be dynamic and challenging based on the realities of the COVID-19 pandemic. In this unprecedented time, our strategic priorities may change according to the environment, but our values won't. CalOptima will continue to put members first and work Better. Together. with our community. Thank you!

Richard Sanchez
Interim Chief Executive Officer

Board of Directors

Paul Yost, M.D. (Chair)
Anesthesiologist, CHOC Children's and St. Joseph Hospital

Dr. Nikan Khatibi (Vice Chair)
Anesthesiologist/Pain Medicine Specialist, Riverside Medical Clinic

Ria Berger
CEO, Healthy Smiles for Kids of Orange County

Ron DiLuigi
Retired Health Care Executive

Michelle Steel
Supervisor, Second District, Orange County Board of Supervisors

Doug Chaffee (Alternate)
Supervisor, Fourth District, Orange County Board of Supervisors

Note: Board members listed above oversaw the 2017–2019 Strategic Plan. A new Board was seated as of August 4, 2020.

Back to Agenda Back to Item

CalOptima Strategic Plan 2017–2019

Strategic Priorities

Innovation

Pursue innovative programs and services to optimize member access to care

1. **Delivery System Innovation**
   Use pay-for-performance programs, creative partnerships, sponsored initiatives and technology to empower networks and providers to drive innovation and improve member access.
2. **Program Integration**
   Implement programs that create an integrated service experience for members, including an integrated physical and behavioral health service model.
3. **Program Incubation**
   Incubate new programs or services that address unmet member needs in areas such as substance abuse, behavioral health services, childhood obesity and complex conditions.

Value

Maximize the value of care for members by ensuring quality in a cost-effective way

1. **Data Analytics Infrastructure**
   Establish robust information technology infrastructure and an integrated data warehouse to enable predictive modeling, performance accountability and data-based decision making.
2. **Pay for Value**
   Launch pay-for-performance programs and quality incentive initiatives that encourage provider participation, improve clinical quality and member experience outcomes, and spread best practices.
3. **Cost-Effectiveness**
   Implement efficient systems and processes to facilitate better understanding of internal cost drivers, eliminate administrative redundancies, and promote effective and standardized internal practices.

Partnerships and Engagement

Engage providers and community partners in improving the health status and experience of members

1. **Provider Collaboration**
   Enhance partnerships with networks, physicians and the Provider Advisory Committee to improve service to providers and members, expand access, and advance shared health priorities.
2. **Member Engagement**
   Seek input from the Member Advisory Committee and CalOptima's diverse membership to better understand member needs, and implement programs that strengthen member choice and experience.
3. **Community Partnerships**
   Establish new organizational partnerships and collaborations to understand, measure and address the social determinants of health that lead to health disparities among vulnerable populations.
4. **Shared Advocacy**
   Use provider and community relationships to educate stakeholders about health policy issues, and promote the value of CalOptima to members, providers and the broader population of Orange County.

CalOptima Strategic Plan 2017–2019

Building Blocks

Workforce Performance

Attract and retain an accountable and high-performing workforce capable of strengthening systems and processes

1. **Employer of Choice**
   Establish a feedback-rich culture to ensure accountability, optimize performance and retain high performers capable of advancing organizational objectives.
2. **Collaborative Culture**
   Drive collaboration to strengthen data-informed decision making, launch innovative member-centered programs and services, and evaluate shared performance.
3. **Operational Excellence**
   Review, measure and refine processes to ensure regulatory compliance, and pursue continuous improvement of programs and services for members.

Financial Strength

Provide effective financial management and planning to ensure long-term financial strength

1. **Strategic Goal Alignment**
   Ensure departmental budgets reinforce CalOptima's strategic priorities to advance the shared mission and values.
2. **Fiscal Management**
   Standardize the use of effective financial reporting and forecasting tools so directors develop sound departmental budgets, and promote a culture of transparency and accountability.

Completed Projects

CalOptima Strategic Plan 2017–2019

January 1, 2017–December 31, 2019

✓ 2019	**Whole-Person Care (WPC) Pilot** **Strategic Plan Elements:** Innovation *Delivery System Innovation* *Program Integration* *Program Incubation*	Collaborated with DHCS, Orange County Health Care Agency and local stakeholders on the WPC Pilot. Participated in data exchange and provided personal care coordinators to better integrate care for members who are homeless and participating in WPC.
✓ 2019	**PACE Community-Based Primary Care Providers** **Strategic Plan Elements:** Innovation *Delivery System Innovation* Partnerships and Engagement *Provider Collaboration* *Community Partnerships*	Developed a community-based primary care provider option whereby more than 30 PACE participants were able to receive primary care services in their home or in a community location.
✓ 2019	**Homeless Health** **Strategic Plan Elements:** Innovation *Program Incubation* Partnerships and Engagement *Member Engagement* *Community Partnerships*	Committed a $100 million to strengthen services and resources for Orange County's homeless population. Approved approximately $43 million for specific investments in recuperative care, medical respite care, a regional wellness campus, Clinical Field Teams, CalOptima's Homeless Response Team, homeless coordination at hospitals and a Homeless Clinical Access Program. Developed four guiding principles to refine decision making, ensure investment in the most appropriate programs and respond to provider concerns.
✓ 2019	**Intergovernmental Transfers (IGTs)** **Strategic Plan Elements:** Innovation *Program Incubation* Financial Strength *Strategic Goal Alignment*	IGT 5: $11.4 million distributed for a regional wellness campus and $3.4 million in community grants. IGT 6/7: $10 million targeted for recuperative care and medical respite, and $20 million for community grants and internal projects. IGT 8: $43 million committed to Homeless Health Initiatives. IGT 9: Approximately $43 million allocated to support quality initiatives, such as expanded office hours, skilled nursing post-acute infection prevention, text messaging for members and other internal projects. IGT 10: Approximately $66 million in funding pending.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2019	**Proposition 56 Provider Payments** **Strategic Plan Elements:** Partnerships and Engagement *Provider Engagement*	Implemented enhanced funds distribution processes for improved internal and external efficiency.
✓ 2019	**Member Portal** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement*	Launched member portal with English, Spanish and Vietnamese access, providing members with mobile access to CalOptima information and services.
✓ 2019	**Electronic Provider Data Management** **Strategic Plan Elements:** Value *Data Analytics Infrastructure* *Cost-Effectiveness* Workforce Performance *Collaborative Culture* *Operational Excellence*	Finalized the scope of work to engage a vendor that will support the development and implementation of web-based provider data management processes for providers, health networks and CalOptima. Vendor procurement is in progress.
✓ 2019	**Health Homes Program (HHP)** **Strategic Plan Elements:** Innovation *Program Integration* Partnership and Engagement *Member Engagement* *Provider Collaboration*	Launched HHP on January 1, 2020, offering enhanced care management for members with chronic conditions and substance use disorders (as of January 1) and for members with serious mental illness (as of July 1).
✓ 2019	**Delivery System Study** **Strategic Plan Elements:** Innovation *Delivery System Innovation* Value *Cost-Effectiveness* Workforce Performance *Operational Excellence*	Completed the delivery system study and delivered the report to the CalOptima Board of Directors.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2019	**CalOptima Technical Assistance Program** **Strategic Plan Elements:** Partnerships and Engagement *Provider Collaboration*	Enrolled more than 625 clinical professionals in this program, which supports achieving meaningful use of electronic medical records. The state extended program to September 30, 2020.
✓ 2019	**Be Well OC** **Strategic Plan Elements:** Innovation *Delivery System Innovation* *Program Incubation* Partnerships and Engagement *Community Partnerships*	Completed a $11.4 million prepayment for services at the first Be Well OC wellness hub in Orange. Continuing to co-lead the Closing Treatment Gaps and Establishing Community Wellness Hubs workgroups and participating as a member of the Substance Use Disorder Leadership Group.
✓ 2019	**Dental Care Integration** **Strategic Plan Elements:** Innovation *Program Incubation* Partnerships and Engagement *Provider Collaboration* *Community Partnerships*	Explored opportunities to carve in dental benefits to CalOptima Medi-Cal but concluded that it isn't possible at this time. The California Dental Association and Orange County Dental Society are reluctant to endorse an integration pilot until results from the first pilot by Health Plan of San Mateo are available, but that pilot has not begun. Further, DHCS had proposed dental integration as part of the next federal waiver, which is now delayed until 2022.
✓ 2019	**CalOptima Foundation** **Strategic Plan Elements:** Financial Strength *Fiscal Management*	Completed the dissolution of the foundation and transferred the remaining funds back to CalOptima.
✓ 2019	**Employee Engagement Study** **Strategic Plan Elements:** Workforce Performance *Employer of Choice* *Collaborative Culture*	Conducted a survey of employees to gain insight about the levels of engagement and workforce satisfaction. Created employee focus groups that made recommendations to executives about three areas needing improvement: employee voice, collaboration across departments and professional development. Some recommendations have been implemented and others will be addressed in the future.
✓ 2019	**Compensation Study** **Strategic Plan Elements:** Workforce Performance *Employer of Choice* Financial Strength *Fiscal Management*	Completed a compensation study and presented findings to the Board twice. The Board did not approve the recommended actions.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2019	**Temporary Staffing Vendor** **Strategic Plan Elements:** Workforce Performance *Operational Excellence* Financial Strength *Fiscal Management*	Contracted and onboarded new temporary services vendors.
✓ 2019	**CalOptima Website** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement* *Community Partnerships* Workforce Performance *Operational Excellence*	Redesigned www.caloptima.org to make it usable on mobile phones and more member-centric, as well as have a contemporary look and feel.
✓ 2019	**Technology Advancements** **Strategic Plan Elements:** Value *Data Analytics Infrastructure* Workforce Performance *Operational Excellence*	Migrated email to Office 365 in the Microsoft cloud and adopted secure cloud technology. Implemented Mediture, a new electronic health record for PACE.
✓ 2019	**Whole-Child Model** **Strategic Plan Elements:** Innovation *Program Integration* Partnerships and Engagement *Provider Collaboration* *Member Engagement* *Community Partnerships*	Prepared the financial and operational changes needed to transition to Whole-Child Model (WCM) from California Children's Services (CCS). Collaborated with the Department of Health Care Services (DHCS), Orange County Health Care Agency, health networks, members, providers and other local stakeholders to share information and ensure no disruption in members' care. WCM was implemented on July 1, 2019, and initial feedback has been positive from families and providers alike.
✓ 2019	**Substance Use Disorders** **Strategic Plan Elements:** Innovation *Delivery System Innovation* *Program Incubation* Partnerships and Engagement *Provider Collaboration* *Member Engagement*	Implemented interventions at the prescriber and member level to curb opioid misuse, exceeding our goal of achieving a 5% minimum decrease from first quarter 2018 to first quarter 2019.

Completed Projects

CalOptima Strategic Plan 2017–2019

2019

PACE Alternative Care Setting Sites

Strategic Plan Elements:

Innovation
Delivery System Innovation

Partnerships and Engagement
Provider Collaboration
Community Partnerships

Partnered with five Alternative Care Setting sites throughout Orange County, which now serve approximately 15% of CalOptima PACE participants.

2019

PACE Letters of Support Process

Strategic Plan Elements:

Innovation
Delivery System Innovation

Partnerships and Engagement
Provider Collaboration
Community Partnerships

Administered a process to accept and assess requests for letters of support from PACE organizations seeking to operate independently in Orange County. Board approved issuing two letters of support

2019

Coding Improvements

Strategic Plan Elements:

Value
Data Analytics Infrastructure

Workforce Performance
Operational Excellence

Financial Strength
Fiscal Management

Engaged a vendor to transition the processing and analysis of Hierarchical Condition Category (HCC) and Risk Adjustment Factor (RAF) scores, with a goal of enhanced accuracy and increased reimbursement.

2019

Directed Payments for Hospitals

Strategic Plan Elements:

Partnerships and Engagement
Provider Collaboration

Financial Strength
Fiscal Management

Collaborated with the local hospital association and provider community to implement a new directed payments process, including holding educational events to ensure their understanding of the requirements to obtain the supplemental funding.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2019	**OneCare Connect Marketing and Retention** **Strategic Plan Elements:** Innovation *Program Integration* Workforce Performance *Operational Excellence*	Developed 2019–20 plan to increase OneCare Connect membership through new sales and marketing initiatives, including member events.
✓ 2018	**NCQA Recognition** **Strategic Plan Elements:** Partnerships and Engagement *Provider Collaboration* *Member Engagement* *Community Partnerships* Workforce Performance *Operational Excellence*	Delivered quality health care and customer service, as assessed by the National Committee for Quality Assurance (NCQA), thereby maintaining CalOptima's top rating among California Medi-Cal plans for the fifth year in a row.
✓ 2018	**State Quality Award** **Strategic Plan Elements:** Partnerships and Engagement *Provider Collaboration* *Member Engagement* *Community Partnerships* Workforce Performance *Operational Excellence*	Recognized by DHCS for quality, earning the Outstanding Performance Award for a Large Scale Medi-Cal Plan for the fourth year in a row.
✓ 2018	**NCQA Accreditation** **Strategic Plan Elements:** Partnerships and Engagement *Provider Collaboration* Value *Cost-Effectiveness* Workforce Performance *Operational Excellence*	Achieved accreditation at the Commendable level after earning a near-perfect score on the accreditation renewal survey in August 2018.
✓ 2018	**Rate Rebasing** **Strategic Plan Elements:** Value *Cost-Effectiveness* Financial Strength *Fiscal Management*	Rebased capitated payment rates for CalOptima's delegated health networks to reflect recent costs and delivery model changes, resulting in an increase of approximately $14 million for health networks in 2019.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2018	**Medical Loss Ratio (MLR) Audit** **Strategic Plan Elements:** Partnerships and Engagement *Provider Collaboration* Financial Strength *Fiscal Management*	Completed the audit of contracted health networks' MLRs to ensure required rate of 85% or more in medical spending; requested corrective action plans from networks out of compliance.
✓ 2018	**PACE Service Area Expansion** **Strategic Plan Elements:** Innovation *Delivery System Innovation* Partnerships and Engagement *Provider Collaboration* *Community Partnerships*	Gained regulatory approval to serve all ZIP codes in Orange County, which enables CalOptima to reach seniors living in South Orange County.
✓ 2018	**Dual Eligible Special Needs Plan (D-SNP) Reauthorization** **Strategic Plan Element:** Partnerships and Engagement *Shared Advocacy*	Worked with members of Congress and in partnership with our associations to obtain permanent reauthorization of D-SNP plans, including CalOptima's OneCare.
✓ 2018	**Children's Health Insurance Program (CHIP) Reauthorization** **Strategic Plan Elements:** Partnerships and Engagement *Community Partnerships* *Shared Advocacy*	Worked with federal advocates and trade associations to gain a 10-year reauthorization of CHIP funding, through 2027.
✓ 2018	**Member Health Needs Assessment** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement* *Community Partnerships* Innovation *Program Incubation*	Finalized the data and compiled a 70-page report summarizing five key findings in these areas: social determinants of health, mental health, primary care, provider access and dental care.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2018	**Regulatory Audits** **Strategic Plan Elements:** Value *Cost-Effectiveness* Workforce Performance *Operational Excellence*	Maintained a culture of compliance to ensure CalOptima and delegated entities were continuously audit-ready. DHCS and the Centers for Medicare & Medicaid Services conducted nine regulatory audits of CalOptima's programs in 2018. The annual Medi-Cal audit resulted in our best performance ever, with only one finding.
✓ 2018	**Child Health and Disability Prevention (CHDP)** **Strategic Plan Elements:** Innovation *Program Integration* Workforce Performance *Operational Excellence*	Improved the claims process for providers delivering CHDP services by transitioning responsibility for CHDP services from CalOptima to the health networks.
✓ 2018	**Medi-Cal Provider Enrollment** **Strategic Plan Element:** Partnerships and Engagement *Provider Collaboration*	Led efforts to ensure providers were enrolled in Medi-Cal by January 1, 2019, in compliance with new regulations. Through outreach, 139 primary care providers became enrolled or started the process, thereby eliminating the need for members to change providers.
✓ 2018	**Whole-Child Model (WCM) Provider Network** **Strategic Plan Element:** Partnerships and Engagement *Provider Collaboration*	Built a network of California Children's Services-paneled providers that complied with revised state requirements on network adequacy. Collaborated with health networks and contracted with independent providers to ensure the network was in place for a filing deadline of January 2, 2019.
✓ 2018	**WCM Family Advisory Committee** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement* *Community Engagement*	Appointed the founding members of our newest advisory committee, which will guide our effective implementation of WCM.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2018	**Applied Behavior Analysis (ABA) for Non-Autism Diagnoses** **Strategic Plan Elements:** Innovation *Program Integration* Partnerships and Engagement *Member Engagement*	Prepared for another transition of behavioral health services, integrating ABA services for children with non-Autism Spectrum Disorders, effective July 1, 2018.
✓ 2018	**Childhood Obesity Program** **Strategic Plan Elements:** Innovation *Program Incubation* Value *Cost-Effectiveness* Partnerships and Engagement *Member Engagement*	Redesigned and implemented Shape Your Life, a comprehensive program to address childhood obesity.
✓ 2018	**Perinatal Care** **Strategic Plan Elements:** Innovation *Program Incubation* Value *Pay for Value* Partnerships and Engagement *Provider Collaboration* *Member Engagement*	Launched Bright Steps to provide quality prenatal and postpartum services to members through a program that reflects best practices and includes provider incentives.
✓ 2018	**Quality Care Campaign** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement* Workforce Performance *Employer of Choice*	Created and implemented a multifaceted marketing campaign to raise awareness of preventive care at all ages, from infancy to the golden years.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2018	**Timekeeping Enhancements** **Strategic Plan Elements:** Workforce Performance *Employer of Choice* *Operational Excellence*	Implemented a timekeeping system for all nonexempt employees using timeclocks to ensure staff accountability and efficiency across the agency.
✓ 2018	**457(b) Vendor Change** **Strategic Plan Element:** Workforce Performance *Employer of Choice*	Improved overall employee experience with CalOptima's 457(b) plan by changing to a vendor with enhanced plan administration, a simplified investment selection, and improved tools and education.
✓ 2018	**Crucial Conversations Course** **Strategic Plan Element:** Workforce Performance *Collaborative Culture*	Engaged leaders and staff in a high-priority, skill-based training class, conducted by a CalOptima facilitator who will offer the course on an ongoing basis.
✓ 2017	**Behavioral Health Integration** **Strategic Plan Elements:** Innovation *Delivery System Innovation* *Program Integration* Value *Cost-Effectiveness* Partnerships and Engagement *Provider Collaboration*	Quickly developed and capably implemented all the necessary infrastructure to manage the provision of Medi-Cal behavioral health services for mild to moderate conditions and ABA services using a network of CalOptima-contracted providers, with a go-live date of December 29, 2017.
✓ 2017	**Non-Medical Transportation** **Strategic Plan Element:** Innovation *Program Integration*	Implemented the benefit to provide non-medical transportation for adults traveling to Medi-Cal services covered by CalOptima and services carved out, thereby removing barriers to accessing all types of care.
✓ 2017	**Palliative Care** **Strategic Plan Elements:** Innovation *Program Integration* Value *Cost-Effectiveness*	Adopted appropriate policies and procedures to ensure the delivery of palliative care services through Medi-Cal, with the goal of providing access to cost-effective and compassionate care to members with chronic illnesses or members at the end of life.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2017	**OneCare Connect Program Reauthorization** **Strategic Plan Elements:** Innovation *Program Integration* Partnerships and Engagement *Shared Advocacy*	Successfully advocated for DHCS and the Legislature to reauthorize the Cal MediConnect program, including CalOptima's OneCare Connect program, through 2019. SB 97 passed the Legislature and was signed by the governor on July 10, 2017.
✓ 2017	**OneCare Connect Enrollment** **Strategic Plan Element:** Partnerships and Engagement *Member Engagement*	Changed enrollment policies in OneCare Connect to help minimize disruption of services to members while their eligibility status is being updated.
✓ 2017	**Nurse Practitioners at PACE** **Strategic Plan Element:** Innovation *Delivery System Innovation*	Successfully advocated for federal approval for CalOptima PACE nurse practitioners to perform routine primary care services, resulting in reduced costs while maintaining high-quality care.
✓ 2017	**Mega Reg Implementation: GARS** **Strategic Plan Element:** Innovation *Program Integration*	Completed a timely and effective implementation of the first stage of Mega Reg-related changes, specifically an updated Grievance and Appeals Resolution Services (GARS) process for Medi-Cal members. The Mega Reg modernized Medicaid managed care regulations to improve members' experience.
✓ 2017	**New Federal Advocate** **Strategic Plan Element:** Partnerships and Engagement *Shared Advocacy*	Transitioned to a new federal advocate, Akin Gump, a top-tier Washington, D.C.-based firm with extensive health care experience, ensuring important guidance remains available considering the changing landscape of federal health care reform.
✓ 2017	**FY 2017 Financial Audit** **Strategic Plan Element:** Financial Strength *Fiscal Management*	Completed CalOptima's annual financial audit, with positive results in that the auditor found no material misstatements and made no changes.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2017	**2017 Pay for Value Program** **Strategic Plan Element:** Value *Pay for Value*	Created a payment incentive to reward providers who show improvement in high-impact areas, such as preventive care and hospital readmission.
✓ 2017	**Member and Provider Incentives** **Strategic Plan Elements:** Partnerships and Engagement *Member Engagement* *Provider Collaboration*	Adopted new quality initiatives to improve members' health outcomes, specifically in postpartum care, cervical cancer screenings and breast cancer screenings.
✓ 2017	**Good Health Campaign** **Strategic Plan Element:** Partnerships and Engagement *Member Engagement*	Launched a major health education campaign in 2017 to promote preventive health screenings and better wellness practices. The campaign aimed to improve members' health behaviors and health outcomes.
✓ 2017	**Community Events Policies Update** **Strategic Plan Element:** Partnerships and Engagement *Community Partnerships*	Improved CalOptima's community events policies so community partners can more easily request support and staff can respond based on new Board-approved financial thresholds.
✓ 2017	**CCSC Location** **Strategic Plan Element:** Partnerships and Engagement *Community Partnerships*	Successfully extended CalOptima's agreement with the Orange County Social Services Agency to continue providing community resources and information at the County Community Service Center (CCSC).
✓ 2017	**Information Technology: CORE Standards** **Strategic Plan Element:** Value *Data Analytics Infrastructure*	Improved the speed and efficiency of claims processing by implementing Committee on Operating Rules for Information Exchange (CORE) Standards. Providers will now have quicker, more cost-effective access to member claims data.
✓ 2017	**Tableau Implementation** **Strategic Plan Elements:** Value *Data Analytics Infrastructure* *Pay for Value*	Procured a new business intelligence and data analytics platform to promote departmental self-service analytics and data-based decision making.

Completed Projects

CalOptima Strategic Plan 2017–2019

✓ 2017	**Information Security** **Strategic Plan Element:** Workforce Performance *Operational Excellence*	Improved the protection of members' sensitive personal and health information through our information technology security workforce, preventing critical threats to CalOptima's systems.
✓ 2017	**Workforce Development** **Strategic Plan Elements:** Workforce Performance *Employer of Choice* *Collaborative Culture*	Offered a complete array of employee engagement opportunities, including quarterly All Hands meetings, health and wellness events, Employee Activities Committee activities, member scholarship contest, and performance reviews/feedback. Launched the new Leadership Development Series to improve leaders' skills via education provided by outside experts.

STRATEGIC PLAN 2020–2022

Back to Item

CalOptima
A Public Agency
Better. Together.

Back to Agenda

Back to Agenda

A Message From the CEO

Like many of you, I consider the beginning of the new 2020 decade as an opportunity to look ahead and to plan. So, it is the perfect time to launch CalOptima's next Strategic Plan, for 2020–2022. The guidance it offers and the priorities it sets have been carefully considered by a wide variety of leaders, including our Board of Directors, advisory committee members, executive staff, community stakeholders and industry consultants. Collaboration strengthens our plan and reflects our Better. Together. approach to quality health care for Orange County's vulnerable low-income residents.

If this decade is anything like the last, the one constant will be change. Recognition of this fact is central to the content of CalOptima's Strategic Plan. An overview of the health care landscape explains the federal, state and local drivers of change, followed by our strategic priorities and objectives in this environment.

Back to Item

Responding effectively in dynamic conditions does not mean CalOptima will alter our mission or vision, both of which are focused on members. Our commitment to members is as strong as ever, and you will see that dedication underlying all the priority areas, from innovation and community partnerships to value, quality and operational excellence. While we may adjust our efforts along the way in response to regulatory changes or community needs, we will not waver about putting members first.

And one final comment about 2020 — it's CalOptima's 25th anniversary year. We celebrate you and all the providers, community-based organizations, elected officials and stakeholders who partner with us. Together, we have accomplished so much, including statewide recognition year after year as a leading Medi-Cal health plan. Our shared goal of a healthier Orange County has brought us far and will carry us confidently into the future.

Michael Schrader
Chief Executive Officer

Back to Agenda

About CalOptima

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

CalOptima's Vision

To be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes for all our members

Programs

Medi-Cal (California's Medicaid Program): For low-income children, adults, seniors and persons with disabilities.

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan): For people who qualify for both Medicare and Medi-Cal, combining Medicare and Medi-Cal benefits. Also included are benefits for worldwide emergency care, dental care, vision care and fitness. Other benefits are transportation to medical services and a Personal Care Coordinator.

OneCare (HMO SNP): A Medicare Advantage Special Needs Plan for low-income seniors and people with disabilities who qualify for both Medicare and Medi-Cal. Benefits are covered in one single plan, making it easier to get health care.

Program of All-Inclusive Care for the Elderly (PACE): A long-term comprehensive health care program that helps older adults remain as independent as possible. PACE coordinates and provides all needed preventive, primary, acute and long-term care services so seniors can continue living in their community. PACE provides all the acute and long-term care services covered by Medicare and Medi-Cal.

As of October 31, 2019, CalOptima has approximately 743,000 members:

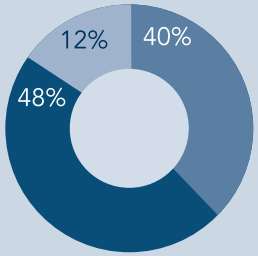
CalOptima Profile

Members by Age



Age 0–18	40%
Age 19–64	48%
Age 65+	12%

As of October 31, 2019

Low Administrative Costs

CalOptima spends nearly 96 cents of every dollar on member care and only 4 cents on program administration, which reinforces our commitment and mission as a community health plan that provides quality health care services in a cost-effective, compassionate manner.

96¢ of every **$1**

Provider Network Composition

CalOptima has a strong provider network to serve our members. As of October 31, 2019, this includes:

- 1,567 primary care providers
- 6,944 specialists
- 40 acute and rehab hospitals
- 35 community health centers
- 570 pharmacies
- 100 long-term care facilities
- 5 PACE alternative care settings

High-Quality Care

CalOptima offers high-quality care to our members:

- For five years in a row, CalOptima was the top rated Medi-Cal plan in California, according to the National Committee for Quality Assurance (NCQA) Medicaid Health Insurance Plan Ratings (2014–2019).
- For 2019–2020, no other health plan received a higher rating.
- NCQA has awarded an accreditation status of Commendable to CalOptima Medi-Cal.

Back to Agenda

Health Care Landscape Review

Back to Agenda

CalOptima's 2020–2022 Strategic Plan reflects the need to be responsive to a wide variety of federal, state and local priorities, considerations and issues. The landscape review is a summary of highlights from a comprehensive Environmental Scan that was completed to inform the Strategic Plan.

Federal Landscape

At the federal level, the policy landscape has been characterized by uncertainty for the past three years, and this is expected to continue for the foreseeable future. The Centers for Medicare & Medicaid Services (CMS), which provides the federal funding for, and oversight of, California's Medi-Cal program, has established a set of strategic priorities focused on driving innovation, implementing patient-centric approaches, and demonstrating results that improve care and lower costs. CalOptima will look to CMS's goals to prioritize development of innovative approaches that are aligned with the federal government. In addition, federal immigration policy may negatively impact Medi-Cal enrollment.

Back to Item

State Landscape

Within California, the health policy landscape is in transition with the election of Governor Gavin Newsom. Governor Newsom has an ambitious health care agenda focused on expanding coverage for all Californians and reigning in costs. Within the California Department of Health Care Services (DHCS), key initiatives are underway that will shape the future of the Medi-Cal program and impact CalOptima's work over the next three years.

Medi-Cal Vision: 2021 and Beyond

The current federal Section 1115 Medicaid waiver, referred to as Medi-Cal 2020, expires at the end of 2020. As part of renewing the waiver, DHCS has launched a major restructuring of Medi-Cal, known as California Advancing and Innovating Medi-Cal (CalAIM), which is designed to reduce the complexity of the program, focus on population health and increase the use of value-based purchasing strategies. CalOptima will contribute to the CalAIM discussions and, ultimately, to the implementation of Medi-Cal's next chapter.

Prescription Drug Carve-Out

On his first day in office, Governor Newsom signaled his intent to address rising pharmacy costs by shifting to bulk purchasing of prescription drugs for all government programs, including Medi-Cal (the largest purchaser in the state). CalOptima will continue to work closely with DHCS on the design of the carve-out to minimize the impacts on our members and their health.

Future of the Coordinated Care Initiative and Cal MediConnect

The Coordinated Care Initiative (CCI) focuses on integrating delivery of medical, behavioral and long-term services and supports (MLTSS) benefit into California's Medi-Cal care delivery system. The CCI also includes the Cal MediConnect (CMC) duals demonstration, combing Medicare and Medi-Cal into a single program. CCI and CMC are currently operating in only seven counties and the federal authority for CMC is scheduled to sunset on December 31, 2022. As part of the CalAIM initiative, DHCS has proposed that all Medi-Cal managed care plans, including CalOptima, be required to operate a Dual Eligible Special Needs Plan (D-SNP) by January 1, 2023, and assume responsibility for all Medi-Cal long-term care services effective January 1, 2021. CalOptima will engage with DHCS and CMS on the CCI and CMC transitions.

Back to Agenda

Health Care Landscape Review (continued)

Back to Agenda

Orange County Landscape

CalOptima is an integral part of the business community and the health care sector in Orange County. As the sole Medi-Cal plan in the County, CalOptima is in a unique position to impact care delivery and partner with County agencies and other stakeholders to improve access to care and quality for all members.

Homelessness and Behavioral Health

In Orange County, as across the state, the population of individuals experiencing homelessness has increased significantly over the past few years. Orange County has focused on developing a system of care that recognizes a multifaceted approach is necessary to respond to the needs of County residents experiencing homelessness. CalOptima has committed enhanced funding for homeless health programs in the County. For example, CalOptima is funding programs in collaboration with its community health centers to provide members on-call medical services in the field and increased preventive and primary care at shelters, establishing an internal homeless response team, and supporting hospital discharge coordination, recuperative care and respite care.

In 2018, local public and private stakeholders came together to work on behavioral health issues. Under this initiative, known as Be Well OC, a regional wellness center will be constructed in Orange County to serve individuals with mental health needs regardless of payor source. CalOptima is participating in this collaborative by prepaying for services at the Be Well OC wellness center. Be Well OC is part of the larger Mind OC initiative to integrate behavioral health services across silos to address social determinants of health.

CalOptima Workforce Needs

CalOptima will continue to face an extremely competitive employment environment over the next three years. The high cost of living in Orange County coupled with the County's low unemployment rate, staff retirements and turn-over contribute to a tight labor market.

Physician Networks and Access to Care

Across California, there are concerns about access to care, the rising cost of living, and a lack of physicians and other health workers. These issues are particularly acute in the Medi-Cal program. To address access issues, CalOptima will continue to develop stronger networks with innovative value-based payment arrangements over the next three years.

Back to Agenda

Strategic Plan Development Process

Back to Item

To develop our 2020–2022 Strategic Plan, we gathered input from a wide range of CalOptima stakeholders:

Step 1

CalOptima's Board members, executive team and advisory committee leaders were interviewed to gather feedback about the 2017–2019 Strategic Plan as well as the issues and challenges facing the health plan over the next three years.

Step 2

Then, we held a Strategic Planning Session with the Board to review the findings from the interviews and to identify and discuss the priorities for the next Strategic Plan given the health care landscape in which CalOptima operates.

Step 3

Following the Strategic Planning Session, we held a joint meeting of all the advisory committees to solicit their input on the strategic priorities. We also convened health network representatives to gather their input on the next Strategic Plan.

Step 4

The draft 2020–2022 Strategic Plan was presented to the Board on November 7, 2019, for review and discussion.

Step 5

The final 2020–2022 Strategic Plan was adopted by the Board on December 5, 2019.

Back to Agenda

Strategic Priorities and Objectives

Back to Item

Our members are the essential focus of the Strategic Priorities and Objectives for the 2020–2022 Strategic Plan and are supported by the programs and services provided by CalOptima.

Innovate and Be Proactive

- Anticipate Likely CMS and DHCS Priorities
- Identify and Collaborate on Local Priorities and Needs
- Leverage New Federal and State Programs and Services to Improve Access and Quality of Care for Members
- Seek Opportunities to Further Integrate Care for Members

Expand CalOptima's Member-Centric Focus

- Focus on Population Health
- Strengthen Provider Network and Access to Care
- Enhance Member Experience and Customer Service

Strengthen Community Partnerships

- Increase Collaboration with Providers and Community Stakeholders to Improve Care
- Utilize Strong Advisory Committee Participation to Inform Additional Community Engagement Strategies

Increase Value and Improve Care Delivery

- Evaluate and Implement Value-Based Purchasing Strategies that Drive Quality
- Deploy Innovative Delivery Models to Address Social Determinants of Health and Homelessness
- Maintain Focus on Providing High-Quality Care to Members

Enhance Operational Excellence and Efficiency

- Maintain Strong Culture of Compliance
- Preserve CalOptima's Financial Stability
- Invest in Infrastructure and Efficient Processes
- Engage Workforce and Identify Development Opportunities

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

12. Consider Approval of Modifications to Policy GG.1802: Authorization Process and Criteria for Admission to, Continued Stay in, and Discharge from an ICF/DD, ICF/DD-H, and ICF/DD-N

Contacts

David Ramirez, M.D., Chief Medical Officer, (714) 347-3261
Tracy Hitzeman, RN, Executive Director, Clinical Operations, (714) 246-8549

Recommended Action(s)

Approve modifications to Policy GG.1802: Authorization Process and Criteria for Admission to, Continued Stay in, and Discharge from an ICF/DD, ICF/DD-H, and ICF/DD-N pursuant to CalOptima's regular review process and consistent with regulatory requirements.

Background/Discussion

CalOptima staff regularly reviews agency Policies and Procedures to ensure that they are up-to-date and aligned with Federal and State health care program requirements, contractual obligations and laws as well as CalOptima operations.

> ***Policy GG.1802: Authorization Process and Criteria for Admission to, Continued Stay in, and Discharge from an ICF/DD, ICF/DD-H, and ICF/DD-N*** outlines the criteria and processing of requests for Intermediate Care Facility services. Regional Center of Orange County determines all facility placement and level of care needs for developmentally disabled Members. Initial authorization and re-authorization requests for these services are completed by CalOptima following this certification. Proposed modifications include minor verbiage changes and updates to standard CalOptima glossary definitions and titles of resources.

Fiscal Impact

The recommended action to modify CalOptima Policy GG.1802 is operational in nature and has no additional fiscal impact beyond what was incorporated in the CalOptima Fiscal Year 2020-21 Operating Budget approved by the Board on June 4, 2020.

Rationale for Recommendation

To ensure CalOptima's continuing commitment to conducting its operations in compliance with ethical and legal standards and all applicable laws, regulations, and rules, CalOptima staff recommends that the Board approve and adopt the presented revised policy. The updated policy will supersede the prior version.

Concurrence

Gary Crockett, Chief Counsel

I. PURPOSE

This policy outlines the ~~requirements for reviewing and processing a Long Term Care (LTC) Authorization Request and~~ criteria for a Member's admission to, continued stay in, or discharge from an Intermediate Care Facility/Developmentally Disabled (ICF/DD), ICF/DD-Habilitative (ICF/DD-H), or ICF/DD-Nursing (ICF/DD-N~~).~~), and the requirements for reviewing and processing a ICF/DD, ICF/DD-H and ICF/DD-N Notification Form.

II. POLICY

A. All admissions requiring ICF/DD, ICF/DD-H, or ICF/DD-N level of services are subject to certification by the Regional Center and the attending physician for placement of all developmentally disabled Members.

B. Regional Center shall determine the facility placement and level of care for a developmentally disabled Member.

C. The initial and reauthorization requests shall be initiated by the ICF/DD, ICF/DD-H and ICF/DD-N facilities. All authorization requests must be submitted with a Certification for Special Treatment Program Services (HS 231) form, as required by the Department of Developmental Services (DDS). All Members ~~will~~must be approved by Regional Center prior to submission of the HS 231.

D. The CalOptima Long Term Services and Supports (LTSS) Department shall process all requests for admission to, continued stays in, or discharge from an ICF/DD, ICF/DD-H, or ICF/DD-N pursuant to Title 22, California Code of Regulations (C.C.R.) sections 51343, 51343.1 and 51343.2, as well as the California Department of Health Care Services (DHCS) standard clinical criteria for level of care.

E. When the Regional Center determines a Member meets ICF/DD, ICF/DD-H, or ICF/DD-N level of care criteria and authorizes up to two (2) years of service, as documented on HS 231, the CalOptima LTSS Department shall document the authorization as requested in the Medical Management System and provide an authorization number to the admitting facility.

Back to Agenda Back to Item

F. An ICF/DD, ICF/DD-H, and ICF/DD-N shall submit a completed ~~LTC ARF~~ICF/DD, ICF/DD-H and ICF/DD-N Notification Form (Sections I, II, ~~IV and V~~III) signed by a physician and the HS 231 signed by Regional Center, within twenty-one (21) calendar days after a Member's admission to the facility.

~~G. If an ICF/DD, ICF/DD-H, or ICF/DD-N submits an LTC ARF after the twenty-one (21) calendar day requirement, but the LTC ARF meets the level of care requested, CalOptima shall subject the LTC ARF to a fifteen percent (15%) payment reduction.~~

~~H.~~G. CalOptima's LTSS Department will enter a reauthorization into the Medical Management System when an ICF/DD, ICF/DD-H, ICF/DD-N sends the Regional Center-signed HS 231 form with reauthorization information to CalOptima.

~~I.~~H. CalOptima shall ensure continuity of care for Members residing in an ICF/DD, ICF/DD-H, ICF/DD-N in accordance with CalOptima Policy GG.1325: Continuity of Care for Members Transitioning~~Medi-Cal Beneficiaries Who Transition~~ into CalOptima Services.

~~J.~~I. A Member may elect to use their Share of Cost (SOC) funds to pay for necessary, Non-Covered Medical Services or remedial care services, supplies, equipment and prescription drugs that are prescribed by a physician and part of the Plan of Care authorized by the Member's attending physician. The medical service is considered a non-covered benefit if one of the following occurs:

1. The medical service is rendered by a non-Medi-Cal provider; or

2. The medical service does not meet ~~medical necessity~~Medical Necessity and results in a denial. CalOptima's Utilization Management Department will issue the Notice of Action (NOA) to the ICF facility to include information on a Member's appeal rights, in accordance with CalOptima Policy GG.1507: Notification Requirements for Covered Services Requiring Prior Authorization.

III. PROCEDURE

A. ICF/DD, ICF/DD-H, and ICF/DD-N facilities shall initiate authorization requests and submit the HS 231 form, signed by the Regional Center ~~personnel~~Director, to the CalOptima LTSS Department to document the authorization as requested in the Medical Management System, and provide an authorization number to the admitting facility.

B. ~~If the LTC ARF~~If the ICF/DD, ICF/DD-H and ICF/DD-N Notification Form and the HS 231 forms required attachments are incomplete or not signed as required, the CalOptima LTSS Department shall request the facility resubmit completed required documentation.

C. Upon notification by the facility of a Member's discharge, the CalOptima LTSS Department shall close the active ~~LTC~~ authorization effective the day of discharge. The facility shall notify CalOptima within ~~three (3) business days~~twenty-four (24) hours of a Member's discharge by submitting the Discharge Disposition Form.

D. Share of Cost (SOC) Spending

1. An ICF/DD, ICF/DD-H, or ICF/DD-N shall be responsible for:

Back to Agenda Back to Item

a. Performing an eligibility verification each month for CalOptima Member who is residing in the ICF facility;

b. Performing SOC clearance transactions when a CalOptima Member with an unmet SOC is admitted, or SOC exceeds the total charges of the contracted rate for a given month's stay;

c. Billing CalOptima's Member for the entire SOC if the CalOptima Member has not spent any of the SOC in the month's stay; and

d. Maintaining the physician's prescriptions for SOC expenditures in CalOptima's Member's medical record.

IX. GLOSSARY

Term	Definition
Developmental Disability	A disability, which originates before the individual attains age 18, continues, or can be expected to continue indefinitely, and constitutes a substantial disability for that individual as defined in the California Code of Regulations.
Intermediate Care Facility (ICF)	A health facility that is licensed as such by the Department of Health Care Services (DHCS) or is a hospital or SNF that meets the standards specified in Title 22, California Code of Regulations, Section 51212, and has been certified by DHCS for participation in the Medi-Cal program. ~~A health facility that provides inpatient care to ambulatory or nonambulatory patients who have recurring need for skilled nursing supervision and need supportive care, but who do not require availability of continuous skilled nursing care.~~
Intermediate Care Facility/~~DD (~~Developmentally Disabled (ICF/DD)~~)~~	A facility that provides 24-~~hour~~Hour personal care, habilitation, developmental, and supportive health services to developmentally disabled clients whose primary need is for developmental services and who have a recurring but intermittent need for skilled nursing services.
Intermediate Care Facility/ Developmentally Disabled – Habilitative (ICF/DD-H)~~DD-H (Habilitative)~~	A facility with a capacity of 4 to 15 beds that provides 24-~~hour~~Hour personal care, habilitation, developmental, and supportive health services to 15 or fewer developmentally disabled persons who have intermittent recurring needs for nursing services, but have been certified by a physician and surgeon as not requiring availability of continuous skilled nursing care.
Intermediate Care Facility/ Developmentally Disabled – Nursing (ICF/DD-N)~~DD-N (Nursing)~~	A facility with a capacity of 4 to 15 beds that provides 24-~~hour~~Hour personal care, developmental services, and nursing supervision for developmentally disabled persons who have intermittent recurring needs for skilled nursing care but have been certified by a physician and surgeon as not requiring continuous skilled nursing care. The facility shall serve medically fragile persons who have developmental disabilities or demonstrate significant developmental delay that may lead to a developmental disability if not treated.
Medically Necessary or Medical Necessity	Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury , achieve age-appropriate growth and development, and attain, or regain functional capacity. For Medi-Cal Members receiving managed long-term services and supports (MLTSS), Medical Necessity is determined in accordance with Member's current needs assessment and consistent with person-centered planning. When determining Medical Necessity of Covered Services for Medi-Cal Members under the age of 21, Medical Necessity is expanded to include the standards set forth in 42 U.S.C. section 1396d(r) and California Welfare and Institutions Code section 14132(v).~~.~~

Back to Agenda Back to Item

Term	Definition
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Non-Covered Medical Services	Medical services rendered by a non-Medi-Cal provider; or medical services in the following categories of services for which: 1. An authorization request must be submitted and approved before CalOptima will pay; or 2. An authorization request is not submitted or an authorization request is submitted but is denied by CalOptima because the service is not considered Medically Necessary.
Plan of Care	An individual written plan of care completed, approved, and signed by a Physician and maintained in the member's medical records according to Title 42, Code of Federal Regulations (CFR).
Share of Cost (SOC)	The amount of health care expenses that a recipient must pay for each month before he or she becomes eligible for Medi-Cal benefits. A recipient's Share of Cost is determined by the county Social Services Agency.

I. PURPOSE

This policy outlines the criteria for a Member's admission to, continued stay in, or discharge from an Intermediate Care Facility/Developmentally Disabled (ICF/DD), ICF/DD-Habilitative (ICF/DD-H), or ICF/DD-Nursing (ICF/DD-N), and the requirements for reviewing and processing a ICF/DD, ICF/DD-H and ICF/DD-N Notification Form.

II. POLICY

A. All admissions requiring ICF/DD, ICF/DD-H, or ICF/DD-N level of services are subject to certification by the Regional Center and the attending physician for placement of all developmentally disabled Members.

B. Regional Center shall determine the facility placement and level of care for a developmentally disabled Member.

C. The initial and reauthorization requests shall be initiated by the ICF/DD, ICF/DD-H and ICF/DD-N facilities. All authorization requests must be submitted with a Certification for Special Treatment Program Services (HS 231) form, as required by the Department of Developmental Services (DDS). All Members must be approved by Regional Center prior to submission of the HS 231.

D. The CalOptima Long Term Services and Supports (LTSS) Department shall process all requests for admission to, continued stays in, or discharge from an ICF/DD, ICF/DD-H, or ICF/DD-N pursuant to Title 22, California Code of Regulations (C.C.R.) sections 51343, 51343.1 and 51343.2, as well as the California Department of Health Care Services (DHCS) standard clinical criteria for level of care.

E. When the Regional Center determines a Member meets ICF/DD, ICF/DD-H, or ICF/DD-N level of care criteria and authorizes up to two (2) years of service, as documented on HS 231, the CalOptima LTSS Department shall document the authorization as requested in the Medical Management System and provide an authorization number to the admitting facility.

Back to Agenda Back to Item

F. An ICF/DD, ICF/DD-H, and ICF/DD-N shall submit a completed ICF/DD, ICF/DD-H and ICF/DD-N Notification Form (Sections I, II, III) signed by a physician and the HS 231 signed by Regional Center, within twenty-one (21) calendar days after a Member's admission to the facility.

G. CalOptima's LTSS Department will enter a reauthorization into the Medical Management System when an ICF/DD, ICF/DD-H, ICF/DD-N sends the Regional Center-signed HS 231 form with reauthorization information to CalOptima.

H. CalOptima shall ensure continuity of care for Members residing in an ICF/DD, ICF/DD-H, ICF/DD-N in accordance with CalOptima Policy GG.1325: Continuity of Care for Members Transitioning into CalOptima Services.

I. A Member may elect to use their Share of Cost (SOC) funds to pay for necessary, Non-Covered Medical Services or remedial care services, supplies, equipment and prescription drugs that are prescribed by a physician and part of the Plan of Care authorized by the Member's attending physician. The medical service is considered a non-covered benefit if one of the following occurs:

1. The medical service is rendered by a non-Medi-Cal provider; or

2. The medical service does not meet Medical Necessity and results in a denial. CalOptima's Utilization Management Department will issue the Notice of Action (NOA) to the ICF facility to include information on a Member's appeal rights, in accordance with CalOptima Policy GG.1507: Notification Requirements for Covered Services Requiring Prior Authorization.

III. PROCEDURE

A. ICF/DD, ICF/DD-H, and ICF/DD-N facilities shall initiate authorization requests and submit the HS 231 form, signed by the Regional Center Director, to the CalOptima LTSS Department to document the authorization as requested in the Medical Management System, and provide an authorization number to the admitting facility.

B. If the ICF/DD, ICF/DD-H and ICF/DD-N Notification Form and the HS 231 forms required attachments are incomplete or not signed as required, the CalOptima LTSS Department shall request the facility resubmit completed required documentation.

C. Upon notification by the facility of a Member's discharge, the CalOptima LTSS Department shall close the active authorization effective the day of discharge. The facility shall notify CalOptima within twenty-four (24) hours of a Member's discharge by submitting the Discharge Disposition Form.

D. Share of Cost (SOC) Spending

1. An ICF/DD, ICF/DD-H, or ICF/DD-N shall be responsible for:

a. Performing an eligibility verification each month for CalOptima Member who is residing in the ICF facility;

b. Performing SOC clearance transactions when a CalOptima Member with an unmet SOC is admitted, or SOC exceeds the total charges of the contracted rate for a given month's stay;

Back to Agenda Back to Item

c. Billing CalOptima's Member for the entire SOC if the CalOptima Member has not spent any of the SOC in the month's stay; and

d. Maintaining the physician's prescriptions for SOC expenditures in CalOptima's Member's medical record.

PROCEDURES FOR CERTIFICATION OF CLIENT
ELIGIBILITY FOR SPECIAL TREATMENT PROGRAM SERVICES

1. Upon completion of the client assessments, the designee of the Regional Center Director or the Local Mental Health Director shall forward the original of the client assessment form to the Regional Center Director or the Local Mental Health Director along with a certification form with his recommendation to certify or deny certification of each client assessed. The designee shall also retain one copy of the client assessment form for his files.

2. The facility shall retain one copy of the client assessment form in the client's chart, and forward one copy to the Department with the completed application package.

3. The designee shall recommend program certification based on the following criteria:

   3.1 **Developmentally Disabled**

   3.1.1 The client shall have a primary or secondary diagnosis of a developmental disability.

   3.1.2 The client shall be physically able to participate in and benefit from the program.

   3.1.3 The client assessment shall indicate significant areas in need of remediation.

   3.1.4 Clients whose assessment indicates that an optimal level of functioning has been reached, but whose medical condition requires that he receive the level of basic care provided by the facility, may be recommended for certification in order to maintain current functioning level.

   3.1.5 A client whose assessment indicates that an optimum level of functioning has been reached and whose physical condition is such that he can function at a lower level of care shall not be recommended for certification.

   3.2 **Mentally Disordered**

   3.2.1 Clients shall have a primary or secondary diagnosis of a mental disorder.

   3.2.2 Clients shall have a chronic psychiatric impairment whose adaptive functioning is at least of moderate impairment.

   3.2.3 Each recommendation for certification of eligibility shall describe the basis upon which such recommendation is based.

   3.2.4 Each recommendation for certification of eligibility shall include and describe the impairment level of adaptive functioning.

   3.2.5 Clients shall be physically capable to participate in the program.

   In addition to the above, clients may meet one or more of the following:

   3.2.6 The client is in the terminal stages of an acute psychiatric episode and requires intensive services in preparation for placement at a lower level of care.

   3.2.7 The client requires a significant number of individual interventions to modify antisocial or uncooperative behavior which prevents optimal participation in the treatment program.

   3.2.8 A client may be recommended for certification on a maintenance basis only if he exhibits bizarre or unusual behavior presenting management problems which cannot be solved in a general nursing care setting.

4. Whenever the designee recommends not to certify a client for special treatment program services, he shall specify the reason, or reasons, in writing to the Local Regional Center Director or the Local Mental Health Director.

5. Upon receipt of the client assessment forms and the certification forms with the recommendations of his designee, the Regional Center Director or the Local Mental Health Director shall make a determination of each client's eligibility.

6. Upon determination of whether or not to certify a client as eligible for special treatment program services, the Regional Center Director or Local Mental Health Director shall complete the certification form and transmit four (4) copies of the form to the facility.

7. Whenever certification is denied by the Regional Center Director or Local Mental Health Director, he shall give his reasons in the space provided on the certification form.

8. The Regional Center Director or Local Mental Health Director shall retain one copy of the certification form and transmit one copy to his designee.

9. Clients shall be re-certified as eligible for special treatment program services at specified intervals using the procedures outlined above.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

13. Consider Adoption of Resolution to Amend CalOptima's Conflict of Interest Code

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Brigette Gibb, Executive Director, Human Resources, (714) 246-8405

Recommended Actions

1. Adopt Resolution adopting a Conflict of Interest Code ("Code") which supersedes all prior Conflict of Interest Codes and Amendments previously adopted; and
2. Upon adoption, direct the Clerk of the Board to submit the Code to the Orange County Board of Supervisors for review and approval.

Background

The Fair Political Practices Commission (FPPC) adopted a regulation, Title 2, California Code of Regulations, Section 18730, which contains terms for a standard Model Conflict of Interest Code ("Model Code") that, together with amendments thereto, may be adopted by local public agencies and incorporated by reference. The CalOptima Board of Directors adopted the Model Code by reference on January 6, 2011, and amended Exhibit A to CalOptima's Conflict of Interest Code on December 4, 2018.

When designated positions or reporting categories are added or changed, local agencies are required under Government Code section 87306 to make changes to the conflict of interest code to reflect these changed circumstances. On September 3, 2020 the CalOptima Board of Directors adopted a new Salary Schedule with an updated list of CalOptima employee positions and job titles. The proposed amendment to the list of Designated Filer Positions and Disclosure Categories (Exhibit A) reflects positions that make or participate in the making of governmental decisions which may foreseeably have a material financial effect on a financial interest. All individuals in designated positions will still be required to complete CalOptima's Supplement to FPPC Form 700. Changes have been proposed that update certain positions that have been added, deleted, or renamed.

In addition, the General Counsel for the California Fair Political Practices Commission (FPPC) has issued several memorandums opining that "conflict of interest code disclosure categories must be narrowly tailored to the type of economic interests that will foreseeably be affected by a designated employee's decision making." (See e.g., May 7, 2012, Memorandum from Zackery P. Morazzini, General Counsel of FPPC). Furthermore, in 2012, the FPPC adopted Title 2, California Code of Regulations, Section 18730.1, providing that designated positions are not required to report gifts outside an agency's jurisdiction if the purpose of disclosure of the source of the gift does not have some connection with or bearing upon the functions or duties of the position for which the reporting is required. Additional changes are also proposed to CalOptima's Conflict of Interest Code to ensure that disclosure requirements for each position is narrowly tailored to the type of economic interests that will foreseeably be materially affected by a designated employee's decision making.

Back to Agenda

Rationale for Recommendation

Adoption of Resolution to adopt CalOptima's Conflict of Interest Code which supersedes all prior Conflict of Interest Codes and Amendments previously adopted is necessary to reflect updates to certain positions that have been added, deleted, or renamed. Disclosure categories have been updated to conform with the County of Orange Standard Disclosure Categories and to tailor the disclosure requirements to the type of economic interests that will foreseeably be affected by each position.

Fiscal Impact

There is no fiscal impact.

Concurrence

Gary Crockett, Chief Counsel

RESOLUTION NO. 20-1203-02

RESOLUTION OF THE BOARD OF DIRECTORS ORANGE COUNTY HEALTH AUTHORITY
d.b.a. CalOptima

ADOPTING A CONFLICT OF INTEREST CODE WHICH SUPERSEDES ALL PRIOR CONFLICT OF INTEREST CODES AND AMENDMENTS PREVIOUSLY ADOPTED

WHEREAS, the Political Reform Act of 1974, Government Code Section 81000 et seq. ("the Act"), requires a local government agency to adopt a Conflict of Interest Code pursuant to the Act and conduct a biennial review of Designated Positions and Disclosure Categories; and,

WHEREAS the Orange County Health Authority, dba CalOptima, has previously adopted a Conflict of Interest Code and that Code now requires updating; and,

WHEREAS, amendments to the Act have in the past and foreseeably will in the future require conforming amendments to be made to the Conflict of Interest Code; and,

WHEREAS, the Fair Political Practices Commission has adopted a regulation, Title 2, California Code of Regulations, Section 18730, which contains terms for a standard model Conflict of Interest Code, which, together with amendments thereto, may be adopted by public agencies and incorporated by reference to save public agencies time and money by minimizing the actions required of such agencies to keep their codes in conformity with the Political Reform Act.

NOW, THEREFORE, BE IT RESOLVED:

Section 1. The terms of Title 2, California Code of Regulations, Section 18730, and any amendments to it duly adopted by the Fair Political Practices Commission, and all additional guidance by the Fair Political Practices Commission, are hereby incorporated by reference, and together, with the attached Exhibits A and B in which members and employees are designated and disclosure categories are set forth, constitute the Conflict of Interest Code of the Orange County Health Authority, dba CalOptima.

Section 2. The provisions of all Conflict of Interest Codes and Amendments thereto previously adopted by the Orange County Health Authority, dba CalOptima are hereby superseded.

Back to Agenda Back to Item

Section 3. The CalOptima Clerk of the Board is hereby authorized and directed to forward a copy of this Resolution to the Clerk of the Orange County Board of Supervisors for review and approval by the Orange County Board of Supervisors as required by California Government Code Section 87303.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 3rd day of December 2020.

OFFICIALS WHO ARE SPECIFIED IN GOVERNMENT CODE SECTION 87200

Officials who are specified in Government Code section 87200 (including officials who manage public investments, as defined by 2 Cal. Code of Regs. § 18700.3 (b)), are NOT subject to the Agency's Conflict of Interest Code, but are subject to the disclosure requirements of the Political Reform Act, Government Code section 87100, et seq. Gov't Code § 87203. These positions are listed here for informational purposes only.

The positions listed below are officials who are specified in Government Code section 87200:

Alternate Member of the Board of Directors	Files with	COB
Chief Executive Officer	Files with	COB
Chief Financial Officer	Files with	COB
Member of the Board of Directors	Files with	COB

Conflict of Interest Code
EXHIBIT A

The disclosure requirements for these positions are set forth in Government Code section 87200, et. seq. They require the disclosure of interests in real property in the agency's jurisdiction, as well as investments, business positions and sources of income (including gifts, loans and travel payments).

OFFICIALS WHO ARE SPECIFIED IN GOVERNMENT CODE SECTION 87200

Officials who are specified in Government Code section 87200 (including officials who manage public investments, as defined by 2 Cal. Code of Regs. § 18700.3 (b)), are NOT subject to the Agency's Conflict of Interest Code, but are subject to the disclosure requirements of the Political Reform Act, Government Code section 87100, et seq. Gov't Code § 87203. These positions are listed here for informational purposes only.

The positions listed below are officials who are specified in Government Code section 87200:

Alternate Member of the Board of Directors	Files with	COB
Chief Executive Officer	Files with	COB
Chief Financial Officer	Files with	COB
Member of the Board of Directors	Files with	COB

The disclosure requirements for these positions are set forth in Government Code section 87200, et. seq. They require the disclosure of interests in real property in the agency's jurisdiction, as well as investments, business positions and sources of income (including gifts, loans and travel payments).

Disclosure Descriptions
EXHIBIT B

Entity: **Other Misc. Authorities, Districts and Commissions**
Agency: **CalOptima**

Disclosure Category	Disclosure Description
87200 Filer	Form 87200 filers shall complete all schedules for Form 700 and disclose all reportable sources of income, interests in real property, investments and business positions in business entities, if applicable, pursuant to Government Code Section 87200 *et seq*..
OC-01	All interests in real property in Orange County, the authority or the District as applicable, as well as investments, business positions and sources of income (including gifts, loans and travel payments).
OC-06	All investments in, business positions with and income (including gifts, loans and travel payments) from sources that provide leased facilities and goods, supplies, equipment, vehicles, machinery or services (including training and consulting services) of the types used by the County Department, Authority or District, as applicable.
OC-08	All investments in, business positions with and income (including gifts, loans and travel payments) from sources that develop or provide computer hardware/software, voice data communications, or data processing goods, supplies, equipment, or services (including training and consulting services) used by the County Department, Authority or District, as applicable.
OC-11	All interests in real property in Orange County or located entirely or partly within the Authority or District boundaries as applicable, as well as investments in, business positions with and income (including gifts, loans and travel payments) from sources that are engaged in the supply of equipment related to recruitment, employment search & marketing, classification, training, or negotiation with personnel; employee benefits, and health and welfare benefits.
OC-13	All investments in, business positions with and income (including gifts, loans and travel payments) from sources that produce or provide promotional items for public outreach programs; present, facilitate, market or otherwise act as agent for media relations with regard to public relations; provide printing, copying, or mail services; or provide training for or development of customer service representatives.
OC-20	All investments in, business positions with and income (including gifts, loans and travel payments) from sources that provide pharmaceutical services, supplies, materials or equipment.

Back to Agenda Back to Item

Disclosure Category	Disclosure Description
OC-30	Consultants shall be included in the list of designated employees and shall disclose pursuant to the broadest category in the code subject to the following limitation: The County Department Head/Director/General Manager/Superintendent/etc. may determine that a particular consultant, although a "designated position," is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements in this section. Such written determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of disclosure required. The determination of disclosure is a public record and shall be filed with the Form 700 and retained by the Filing Officer for public inspection.
OC-41	All interests in real property in Orange County, the District or Authority, as applicable, as well as investments in, business positions with and income (including gifts, loans and travel payments) from sources that provide services, supplies, materials, machinery, vehicles, or equipment (including training and consulting services) used by the County Department, Authority or District, as applicable.

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

14. Consider a New Letter of Commitment for Medi-Cal Supportive Services in Connection with a Grant Award to American Family Housing under the Housing for a Healthy California Program

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Candice Gomez, Executive Director, Program Implementation, (714) 246-8849
Debra Kegel, Director, Strategic Development, (714) 347-5763

Recommended Actions

Authorize the Chief Executive Officer to issue a new letter of commitment for Medi-Cal supportive services in connection with a grant award to American Family Housing under the Housing for a Healthy California Program

Background

In September 2017, AB 74 was signed into law authorizing the California Department of Housing and Community Development to develop the Housing for a Healthy California (HHC) Program to create supportive housing opportunities through competitive grants to counties and developers. The goal of the HHC Program is to reduce the financial burden of emergency room visits, inpatient care and nursing home stays, and the use of the corrections systems and law enforcement resources as the point of entry for health care for the target population.

The target population for the HHC Program includes individuals who are:

- Chronically homeless, or homeless and high-cost health care users upon initial eligibility;
- Medi-Cal beneficiaries
- Eligible for Supplemental Security Income;
- Eligible to receive services under a program providing services promoting housing stability; and,
- Likely to improve their health conditions with supportive housing.

American Family Housing (AFH) submitted an application for development and operations of the Casa Paloma property, a 49-unit complex in Orange County, including 24 permanent supportive housing units. The application included a Supportive Services Plan (the Plan), which identified AFH as the Lead Service Provider (LSP) with overall responsibility for provision of the supportive services and for implementation of the Plan. The LSP may provide services directly or through agreement with other agencies. The application also included budget and staffing information for service delivery, including from subcontractors; HHC permits the budget to include the value of in-kind services that might be provided, for example, by a Medi-Cal Managed Care Plan, including Health Homes Programs (HHP).

On August 1, 2019, the CalOptima Board of Directors approved issuance of a letter of commitment in connection with the AFH application for participation in the HHC Program.
The letter issued by CalOptima included the in-kind value of services that CalOptima would provide for its members. The letter stated that CalOptima's responsibility would include services that are provided under its contracts with the Department of Health Care Services (DHCS), such as providing access to

Back to Agenda

primary, preventive and specialty care for all tenants who are CalOptima members, including enhanced services for HHP-enrolled members. AFH and CalOptima contemplated a Memorandum of Understanding (MOU) describing how AFH and CalOptima would coordinate services for CalOptima members residing at Casa Paloma and participating in the HHC Program; AFH had initially advised that the MOU would be required in early 2021.

Discussion

Since that time, AFH has advised that funding has been secured for the development of the Casa Paloma property that is now expected to include 69 affordable housing units, of which 34 will be permanent supportive housing units funded under HHC. Additionally, AFH has advised that the MOU will not be required until late 2022 when the property is ready for occupancy.

In lieu of the MOU, and in light of the increased number of HHC permanent supportive housing units, AFH has asked for CalOptima to issue a new letter of commitment that will supersede the previous letter. The request is that the updated letter will:

- Adjust the projected annual estimate of in-kind support for Medi-Cal Covered Services and HHP services to eligible Medi-Cal members;
- Reiterate that CalOptima's obligations will include only services required under its DHCS contracts; and,
- Reflect that services will be limited to CalOptima Medi-Cal members, including those in HHP (or successor program).

CalOptima staff will return to the Board at a future meeting to seek authority to enter into the MOU, if needed.

Fiscal Impact

Management does not anticipate an additional fiscal impact for the proposed participation in the HHC Program. Services provided under the HHC Program will be limited to medically necessary covered services for CalOptima enrolled Medi-Cal members. To the extent that there is any fiscal impact due to increases in required resources, such impact will be addressed in separate Board actions or in future operating budgets.

Rationale for Recommendation

CalOptima and AFH share common goals of improving care and health outcomes for residents of Orange County, including members experiencing homelessness. Providing a new letter of commitment will support AFH as it continues development of the property intended to increase opportunities for CalOptima members who are chronically homeless or high-cost health utilizers, including those who may be eligible or enrolled in HHP.

18. Consider Medi-Cal Supportive Services Participation in the Housing for Healthy California Program

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. With respect to the Grant application submitted by AFH Casa Paloma LP and by other developer applicants under Article I of the Department of Housing and Community Development Housing for Healthy California (HHC) Program, authorize the Chief Executive Officer (CEO) to provide such applicants whose target populations include CalOptima Medi-Cal Members with a letter of commitment for Medi-Cal supportive services in conjunction with their proposed participation for the program;
2. With respect to the Grant application submitted by the Orange County Health Care Agency (HCA) under Article II of the Department of Housing and Community Development Housing for Healthy California (HHC) Program:
   A. Authorize the CEO to provide HCA with a letter of commitment for Medi-Cal supportive services participation for the program; and,
   B. Authorize the CEO, with the assistance of Legal Counsel, to enter into a Memorandum of Understanding (MOU) with HCA to coordinate Supportive Services and information exchange activities.

Rev. 8/1/19

Background

In September 2017, AB 74 was signed into law authorizing the California Department of Housing and Community Development (HCD) to develop the Housing for Healthy California (HHC) Program to create supportive housing opportunities through competitive grants to counties and developers. The goal of the HHC Program is to reduce the financial burden of emergency room visits, inpatient care and nursing home stays and use of corrections systems and law enforcement resources as the point of health care for people who are chronically homeless or are homeless and high-cost health care users.

On May 13, 2019, HCD released final guidance and Notice of Funding Availability (NOFA), including application requirements for two funding opportunities under:

- Article I: for property owners or developers for operating reserve grants and capital loans using National Housing Trust Fund allocations; and

- Article II: for counties to acquire, newly construct, or reconstruct and rehabilitate homes, as well as for rental subsidies and rental assistance for existing and new supportive

housing opportunities. For this purpose, "county" means a county, city and county or a city collaborating with a county to secure services funding.

The target population to be served under both Articles I and II is a person who is:

- Chronically homeless or is homeless and high-cost health care users upon initial eligibility;
- A Medi-Cal beneficiary;
- Eligible for Supplemental Security Income;
- Eligible to receive services under a program providing services promoting housing stability; and,
- Likely to improve his or her health conditions with Supportive housing.

A Supportive Services Plan (the Plan) must be submitted with applications under Articles I and II. The Plan describes the supportive services provided for those eligible for HHC Program and identifies the Lead Service Provider (LSP) with overall responsibility for provision of the supportive services and for implementation of the Plan. Supportive Services are defined as social, health, educational, income support and employment services and benefits, coordination of community building and educational activities, individualized needs assessment, and individualized assistance with obtaining services and benefits. The LSP may provide services directly or through agreement with other agencies. The LSP must have at least three or more years of experience serving members in the target population, including comprehensive case management in supportive housing.

The application under Article I must also include a Memorandum of Understanding (MOU) or commitment letter from the Lead Service Provider or county department to make available to the project's HHC tenants case management and supportive services from one of the following:

- County's Whole Person Care (WPC) Pilot;
- Health Homes Program (HHP);
- Managed care organization (MCO); or,
- Other community-based health care services.

The Application under Article II requires identified funding sources for providing intensive services promoting housing sustainability including, for example:

- County general funds;
- WPC pilot program funds, to the extent those funds are available, or the WPC program has been renewed;
- HHP;
- MHSA program;
- MCO; or,
- Other County-controlled funding to provide these services to eligible participants.

The application under Articles I and II require budget and staffing information for service delivery, including from subcontractors, which may include in-kind services that might be

provided, for example, by an MCO and HHP programs. The applications are due August 13, 2019.

Discussion

Orange County Community Resources and HCA (jointly the County) have taken a leadership role for planning and supporting development of applications by an owner or developer under Article I, and by HCA under Article II, as well as for Supportive Services Plan development under Article II. Collaboration between CalOptima and County on the HHC Program began in March 2019.

Article I

AFH Casa Paloma LP is expected to submit an application under Article I for development of a 49-unit complex of which will 24 will be supportive housing units (Development). AFH Casa Loma LP has advised that its affiliate, American Family Housing, Inc. a 501(c) (3) organization, will be the LSP for the Development. The application will include the Supportive Services Plan outlining the roles and responsibilities of the LSP, HCA, and CalOptima; CalOptima's responsibility will include services that are required of it under its DHCS contracts, such as providing access to primary, preventive and specialty care for all tenants who are CalOptima members and, for HHP enrolled members, housing navigation services and tenancy support services. Thus, CalOptima's participation will be limited to CalOptima Medi-Cal Members, including those in HHP and to Medi-Cal covered services. AFC Casa Loma LP has requested CalOptima provide a letter of commitment to satisfy the application requirements. CalOptima anticipates that any other applicant under Article I would make a similar request. Additionally, AFS Casa Loma has requested that CalOptima enter into a Memorandum of Understanding (MOU) with its LSP prior to the first tenancy if it is awarded an HHC grant; the first tenancy is not expected until at least 2021. CalOptima staff will return to the Board at a future meeting to seek authority to enter the MOU, if needed.

Article II

The HCA has advised that it intends, subject to Board of Supervisors approval, to submit an application under Article II for funding for housing subsidies for 214 individuals. CalOptima staff and the County have reviewed the application requirements, as well as their respective experience with the target population. They also discussed the HCA led Whole Person Care pilot, under the Department of Health Care Services (DHCS) Medi-Cal 2020 waiver program; discussions included CalOptima's on-going participation in WPC, the current December 31, 2020 waiver expiration date and HCA's planned development of a sustainability plan to continue services following termination of the WPC pilot.

CalOptima staff has shared information about the anticipated implementation of HHP on January 1, 2020, subject to DHCS approval. CalOptima staff and the County have also reviewed the overlapping target populations and services under their various respective programs. It has been noted that some potential tenants may not be CalOptima Medi-Cal members (either initially or during their tenancy), and that many of the specific services (e.g., peer support, recreational and social activities) are not covered services under CalOptima's Medi-Cal Agreement with DHCS,

and some services will be covered only for members enrolled in HHP (e.g., housing navigation and tenancy support services). Thus, CalOptima's participation will be limited to CalOptima Medi-Cal Members, including those in HHP and to Medi-Cal covered services.

CalOptima staff and the County additionally reviewed the application requirements, particularly related scoring based on experience in providing supportive housing services. In order to provide the strongest possible application, HCA is expected to be the LSP under Article II. The application will include the Supportive Services Plan outlining the roles and responsibilities of the LSP and CalOptima. HCA has requested CalOptima provide a letter of commitment to satisfy the application requirements. Additionally, HCA has asked that CalOptima enter into an MOU, should HCA be awarded an HHC grant. Similar to Article I, CalOptima's responsibility will be consistent with its responsibilities under its DHCS Medi-Cal contract.

Fiscal Impact
Management does not anticipate an additional fiscal impact for the proposed participation in the HHC Program. Services provided under the HHC Program will be limited to Covered Services for CalOptima enrolled Medi-Cal Members. To the extent there is any fiscal impact due to increases in required resources, such impact will be addressed in separate Board actions or in future operating budgets.

Rationale for Recommendation
CalOptima, County and American Family Housing share common goals of improving care and health outcomes for residents of Orange County, including members experiencing homelessness. HHC provides increased opportunities for CalOptima members who are chronically homeless or high-cost health utilizers, including those who may be eligible or enrolled in HHP and/or WPC.

INTRODUCTION

The Housing for a Healthy California (HHC) Program provides funding that allows the California Department of Housing and Community Development (Department) to provide Supportive housing opportunities through grants to Counties for capital and operating assistance, or operating reserve grants and capital loans to developers on a competitive basis. The guidelines for the Program are organized into two Articles as follows:

Article I. National Housing Trust Fund Allocation. This section includes Program definitions and requirements pursuant to the federal National Housing Trust Fund (NHTF) allocations. The Department will allocate these NHTF funds competitively to developers for operating reserve grants and capital loans.

Article II. Building Homes and Jobs Trust Fund Allocation. This section includes Program definitions and requirements pursuant to SB 2 Building Homes and Jobs Act. The Department will utilize a portion of monies collected in calendar year 2018 and deposited into the Building Homes and Jobs Trust Fund for the HHC program. The Department will allocate these funds competitively to counties for acquisition, new construction, reconstruction, rehabilitation, administrative costs, capitalized operating subsidy reserves (COSR), and rental subsidies and rental assistance for existing and new Supportive housing opportunities to assist the HHC program's Target Population.

A Notice of Funding Availability (NOFA) will be released for each Article as funds are available.

Housing for a Healthy California Program Final Guidelines

Article I. National Housing Trust Fund Allocation

Back to Agenda Back to Item

Article II. Building Homes and Jobs Trust Fund Allocation

Article I. National Housing Trust Fund Allocation

Section 100. Purpose and Scope

(a) In September of 2017, AB 74 was signed into law. This legislation authorizes the California Department of Housing and Community Development (Department) to develop the Housing for a Healthy California (HHC) Program to create Supportive housing for individuals who are recipients of or eligible for health care provided through the California Department of Health Care Services (DHCS) Medi-Cal program. The goal of the HHC program is to reduce the financial burden on local and state resources due to the overutilization of emergency departments, inpatient care, nursing home stays and use of corrections systems and law enforcement resources as the point of health care provision for people who are Chronically homeless or Homeless and a High-cost health user. The Department shall coordinate with the DHCS, consistent with state and federal privacy laws, to match program participant data to Medi-Cal data to identify outcomes among participants as well as changes in health care costs and utilization associated with housing and services provided under HHC.

(b) AB 74 directs the Department to utilize federal National Housing Trust Fund (NHTF) allocations for years 2018 - 2021 for the HHC program. Starting in August 2018, and for the next three years, the Department must submit a federal NHTF allocation plan that aligns with federal NHTF and AB 74 requirements. The Department will allocate these NHTF funds competitively to developers for operating reserve grants and capital loans.

In addition to applicable state and federal laws and regulations, these guidelines (hereinafter “Guidelines”) implement, interpret, and make specific the HHC authorized by Part 14.2 (commencing with Section 53590) of Division 31 of the Health and Safety Code.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 101. Definitions

All terms not defined below shall, unless their context suggests otherwise, be interpreted in accordance with the meaning of terms described in Part 14.2 of Division 31 of the Health and Safety Code (commencing with Section 53590).

(a) “Applicant” means an organization, agency, or other entity (including a public housing agency, a for-profit entity, or a nonprofit entity) that is an owner or developer as defined by 24 CFR 93.2.

(b) “Area Median Income” or “AMI” means the most recent applicable county median family income published by the U.S. Department of Housing and Urban Development (HUD).

(c) “Assisted Unit” means a housing unit that is subject to the NHTF rent and/or occupancy restrictions as a result of the financial assistance provided under the program.

(d) “Case Manager” means a social worker or other qualified individual who works with a tenant to offer individualized service planning that is flexible and creative to help the tenant gain housing stability. It includes working in collaboration with the tenant to plan, assess, coordinate, and reassess the tenant’s needs, as well as providing referrals and advocacy, and connecting to community support to meet tenants’ supportive service needs. Services include, but are not limited to: tenancy support services, coordination of medical and behavioral health, and substance use disorder treatment, employment services, life skills training, peer support, and crisis management interventions. Resident service coordinators are not Case Managers.

(e) “Chronically homeless” has the same meaning as in Part 91.5 and 578.3 of Title 24 of the Code of Federal Regulations, except that people who were Chronically homeless before entering an institution would continue to be defined as Chronically homeless before discharge, regardless of length of stay, as those parts read on January 1, 2018.

(f) “Continuum of Care” has the same meaning as 24 CFR Section 578.3.

(g) “Coordinated Entry System” or “CES” means a centralized or coordinated process developed pursuant to 24 CFR Section 578.7(a)(8) designed to coordinate program participant intake, assessment, and referrals. A centralized or coordinated assessment system covers the geographic area, is easily accessed by individuals and families seeking housing or services, is well advertised, and includes a comprehensive and standardized assessment tool.

(h) “Department” means the California Department of Housing and Community Development.

(i) Development Sponsor or “Sponsor”, as defined in Section 50675.2 of the Health and Safety Code and subdivision (c) of Section 50669 of the Health and Safety Code, means any individual, joint venture, partnership, limited partnership, trust, corporation, cooperative, local public entity, duly constituted governing body of an Indian Reservation or Rancheria, or other legal entity, or any combination thereof, certified by the Department as qualified to own, manage, and rehabilitate a rental housing development. A Development Sponsor may be organized for profit, limited profit or be nonprofit, and includes a limited partnership in which the Development Sponsor or an affiliate of the Development Sponsor is a general partner.

(j) “Distributions” has the same meaning as under 25 CCR Section 8301.

(k) “Extremely Low Income” or “ELI” has the same meaning as in 24 CFR 93.2.

(l) “Federal Housing Trust Fund” has the same meaning as the National Housing Trust Fund (NHTF) established pursuant to the Housing and Economic Recovery Act of 2008 (Public Law 110-289) and implementing federal regulations.

(m)"Fiscal Integrity" means, for any project for any given period of time during the term specified in the Program's regulatory agreement, that the total Operating Income for such project for such period of time, plus funds released pursuant to the Program documents from the project's operating reserve account(s) during such period of time is sufficient to: (1) pay all current Operating Expenses for such project for such period of time; (2) pay all current mandatory debt service (excluding deferred interest) coming due with respect to such project for such period of time; (3) fully fund all reserve accounts established pursuant to the Program documents for such project for such period of time; and (4) pay other costs permitted by the Program documents for such project for such period of time. The ability to pay any or all the permitted annual distributions for a project shall not be considered in determining the Fiscal Integrity of a project.

(n) "HHC" means the Housing for a Healthy California Program administered by the Department.

(o) "High-cost health users" mean people who have had either at least three emergency department visits or one hospital inpatient stay over the last year.

(p) "Homeless" has the same meaning as in Section 578.3 of Title 24 of the Code of Federal Regulations, as that section read on January 1, 2018.

(q) "Housing First" has the same meaning as in Welfare and Institutions Code Section 8255.

(r) "HUD" means the federal U.S. Department of Housing and Urban Development.

(s) "Lead Service Provider" or "LSP" means the organization that has the overall responsibility for the provisions of Supportive Services and implementation of the Supportive Services plan. The LSP may directly provide comprehensive case management services or contract with other agencies that provide services.

(t) "NOFA" means a Notice of Funding Availability.

(u) "Operating Expense" has the same meaning as in 25 CCR Section 8301.

(v) "Operating Income" has the same meaning as in 25 CCR Section 8301.

(w) "Operating Cost Assistance Reserves" has the same meaning as in 24 CFR Section 93.201(e).

(x) "Permanent housing" means a housing unit where the landlord does not limit length of stay in the housing unit, the landlord does not restrict the movements of the tenant, and the tenant has a lease and is subject to the rights and responsibilities of tenancy, pursuant to Chapter 2 (commencing with Section 1940) of Title 5 of Part 4 of Division 3 of the Civil Code.

(y) "Point in Time Count" or "PIT" refers to an annual count of sheltered and unsheltered homeless persons on a single night in January.

(z) “Program” means the Housing for a Healthy California Program.

(aa) “Project Team” consists of the Applicant, the Lead Service Provider, and the property manager.

(bb) “Recipient” means an Applicant who has been awarded NHTF funds and has the same meaning as in 24 CFR 93.2. A Recipient must:

(1) Make acceptable assurances that it will comply with all NHTF requirements during the entire affordability period;

(2) Demonstrate ability and financial capacity to undertake, comply, and manage the eligible activity;

(3) Demonstrate familiarity with requirements of state, federal, and any other housing programs used in conjunction with NHTF funds to ensure compliance; and

(4) Demonstrate experience and capacity to conduct the eligible NHTF activity in question as evidenced by relevant history.

(cc) “Rural Area” has the same meaning as in Section 50199.21 of the California Health and Safety Code.

(dd) “Supportive housing” means housing with no limit on length of stay, that is occupied by the Target Population and that is linked to onsite or offsite services that assist the Supportive housing resident in retaining the housing, improving his/her health status, and maximize his/her ability to live, and when possible, work in the community.

(ee) “Supportive Services” means social, health, educational, income support and employment services and benefits, coordination of community building and educational activities, individualized needs assessment, and individualized assistance with obtaining services and benefits.

(ff) “Target Population” means a person who is Chronically homeless or is Homeless and a High-cost health user upon initial eligibility, is a Medi-Cal beneficiary, is eligible for Supplemental Security Income, is eligible to receive services under a program providing services promoting housing stability, and is likely to improve his or her health conditions with Supportive housing.

(gg) “TCAC” means California Tax Credit Allocation Committee.

(hh) “UMR” means the Uniform Multifamily Regulations commencing with 25 CCR Section 8300.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53590 and 53595.

Section 102. Minimum Requirements

The Applicant shall comply with the requirements of HHC and all applicable federal and state laws. To be eligible to receive funding, projects must meet all the following minimum requirements:

(a) Eligible Applicants.

(1) Owners or developers that meet the Recipient definition in 24 CFR 93.2.

(2) Applicant with no members of the development team currently federally debarred or suspended.

(b) Financial Feasibility. The project shall meet the requirements of Sections 105 and 106 and must prove Fiscal Integrity.

(c) Experience. Collectively, among the members of the Project Team, all the following minimum experience requirements must be met:

(1) Development, ownership, or operation of at least two permanent Supportive housing projects or at least two affordable rental housing projects in the last five years.

(2) The Lead Service Provider, which may be the county, or a qualified contracted agency, shall have three or more years of experience serving persons who qualify as members of the Target Population and includes comprehensive case management in Supportive housing, and can include scattered site housing.

(3) The property manager shall have three or more years of experience serving persons who qualify as members of the Target Population in Supportive housing.

(4) Experience must be documented through contracts with public agencies, housing owners, or foundations for services provided to at least 10 households at any one time in either housing projects subject to agreements with public agencies restricting rent and occupancy or through tenant-based housing assistance programs. If the Lead Service Provider is not part of the ownership entity, the Applicant must have a written agreement with the Lead Service Provider to implement the Supportive Services plan and submit this agreement along with the application for funding. Only the Lead Service Provider may enter into written agreements for services under the provisions of the Supportive Services plan. All service providers must have a written agreement with the Lead Service Provider prior to commencement of services.

(d) Site Control. The Applicant must have site control of the proposed project that meets the requirements of the UMR 25 CCR Section 8303, which requires the Applicant to have site control of the proposed project property, in the name of the Applicant or an entity controlled by the Applicant. The ownership interest may be demonstrated by fee title, a leasehold interest, an enforceable option to purchase, a disposition and

development agreement, an agreement giving the Applicant exclusive rights to negotiate for acquisition, or a land sales contract. This includes compliance (if applicable) with UMR 25 CCR Section 8316 for a leasehold interest in the property.

(e) Integration. Proposed projects must demonstrate integration of the Target Population with the general public. In order to demonstrate compliance with this requirement, the following conditions must all be met:

(1) Assisted Units must be integrated with other units in the project and not separated onto separate floors or areas of the building;

(2) To promote integration of the Target Population with other project tenants, in projects of greater than 20 units, the Department will fund no more than 49 percent of the project's total units as Assisted Units. This limitation shall not be interpreted to preclude occupancy of any project units by persons with disabilities or restrictions by other funding sources, including but not limited to TCAC, that result in more than 49 percent of the total project units being restricted to the Target Population. It shall also not apply to projects complying with alternative requirements for demonstrating Olmstead compliance adopted by local jurisdictions and approved by the Department;

(3) Applicants must certify that they will facilitate or provide regular community building activities and architectural design features that promote tenant interaction. For example, indoor and outdoor community space within the project, and wide hallways as feasible, depending on the scope of the construction activity; and

(4) The Supportive Services plan and property management plan, submitted with the application, must document policies that promote participation by tenants in community activities and impose no restriction on guests that are not otherwise required by other project funding sources or would not be common in other unsubsidized rental housing in the community.

(f) Article XXXIV. All projects shall comply with Article XXXIV Section 1 of the California Constitution, as clarified by Public Housing Election Implementation Law (H&S Code Section 37000 et seq). Article XXXIV documentation for loans underwritten by the Department shall be subject to review and approval by the Department prior to the execution of the Department's Standard Agreement.

(g) Scattered Site Housing. Projects are permitted to be on scattered sites provided that all of the below conditions are satisfied prior to the closing of the loan. The requirements of this section shall be interpreted in a manner consistent with the requirements of 25 CCR Section 8303(b) pertaining to scattered site housing.

(1) All project sites in the rental housing development must have a single owner and property manager;

(2) All project sites shall be governed by one set of Program documents, which among other things, shall include similar tenant selection criteria, serve similar

tenant populations, and have similar rent and income restrictions;

(3) If the rental housing development has an operating reserve, there shall only be one operating reserve for all sites in the project;

(4) There may be at most one lender with required payments senior to the Department's loan;

(5) There must be a single audit and annual report that covers all project sites;

(6) The Sponsor's obligations under the Department's Program documents must be secured by all project sites, with lien priority relative to local public agency lenders determined in accordance with 25 CCR Section 8315, and use of cash flow available for residual receipts loan payments determined in accordance with 25 CCR Section 8314; and

(7) The Department must be named on insurance policies covering all project sites, with coverage meeting Department requirements.

(h) Environmental Conditions. All project sites must be free from severe adverse environmental conditions, such as the presence of toxic waste that is economically infeasible to remove and that cannot be mitigated. See 24 CFR 93.301(f).

(i) Federal, State and Local Requirements. All Assisted Units and other units of the project must be on a permanent foundation and must meet all applicable federal, state, and local requirements pertaining to rental housing, including, but not limited to, requirements for minimum square footage and requirements related to maintaining the property in a safe and sanitary condition.

(j) Amenities. All project sites must involve a development site that has reasonable accessibility to public transit, public schools, public parks or other public recreational facilities, and is of reasonable proximity to services and amenities for the purposed tenant population as is typically available in that county. The development site must also be within reasonable proximity to employment opportunities available to the tenant population. The development must consider the hours that the services and amenities are available and the frequency, travel time, and cost of transportation to the tenants. The criteria used to establish reasonable accessibility and reasonable proximity are specified in Section 111(h) of the Guidelines.

(k) Stacking Unit-Based Subsidies.

(1) The Department does not allow stacking of multiple Department Development Funding Sources on an HHC Assisted Unit. Capitalized operating subsidy reserves or operating assistance is allowed for all units. The prohibition of subsidy stacking in HHC refers to the use of multiple funding sources on a single HHC-assisted unit. "Department Development Funding Sources" shall mean loan or grant funds awarded for permanent funding of development costs under the following programs:

a. Multifamily Housing Program
b. Supportive Housing Multifamily Housing Program

c. Veterans Housing and Homelessness Prevention Program
d. No Place Like Home Program, including funds awarded either by the Department or an Alternative Process County
e. Affordable Housing and Sustainable Communities Program Affordable Housing
f. Development loan, except for grants for infrastructure, transportation-related amenities and program costs
g. Transit Oriented Development Program rental housing development loan, except for grants for infrastructure
h. Joe Serna, Junior Farmworker Housing Grant Program
i. SB 2 Farmworker Housing Program
j. National Housing Trust Fund Program

(2) As an exception to this Subsection (k)(1), a previously Department-assisted unit is eligible for funding assistance from other Department programs upon re syndication, or 14 years from the Placed in Service date noted on the TCAC form 8609 (Placed in Service Package).

(l) Relocation. The Applicant of any project resulting in displacement of tenants shall be solely responsible for providing the assistance and benefits set forth in this subsection and in applicable federal, state, and local law, whichever is more stringent.

(1) All tenants of a property who are displaced as a direct result of the development of an HHC project shall be entitled to relocation benefits and assistance as provided in 24 CFR 93.352.

(2) The Applicant shall prepare a relocation plan conforming with the provisions of 24 CFR 93.352. For loans underwritten by the Department, the relocation plan or other relocation documentation shall be subject to the review and approval by the Department prior to the beginning of construction.

(m) Applicant must comply with 2 CFR Part 200.

(n) Application shall be on forms made available by the Department. In addition, applications must contain:

(1) A resolution from the Applicant's governing board to apply for NHTF funds for a requested amount that does not exceed the amount authorized.

(2) A memorandum of understanding or commitment letter from either the Lead Services Provider or a county department to make available to the project's HHC tenants case management and Supportive Services from one of the following:
a. County's Whole Person Care Pilot,
b. Health Homes Program,
c. Managed care organization, or
d. Other community-based health care services.

(3) A certification that residents of the housing development will be authorized to own or otherwise maintain one or more common household pets pursuant to the Pet Friendly Housing Act of 2017 (California Health & Safety Code, Section 50466).

(4) An initial plan for providing Supportive Services based on the anticipated needs of the Target Population proposed to be served by the project must meet the requirements outlined in Section 112.

(5) A property management plan that:
   a. Utilizes a low-barrier tenant selection process;
   b. Accepts referrals of those with the highest needs for available housing;
   c. Implements Housing First practices, consistent with the core components set forth in Welfare and Institutions Code Section 8255(b);
   d. Implements policies and practices to prevent evictions and to facilitate the implementation of reasonable accommodation policies;
   e. Implements policies and practices of trauma-informed care and harm reduction to prevent evictions; and
   f. Implements policies and practices that comply with the Violence Against Women Act (Title VI-Safe Homes for Victims of Domestic Violence, Dating Violence, Sexual Assault, and Stalking – Section 601 – 603 and 81 CFR 80724).

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 103. Uses and Terms

(a) NHTF funds will be limited to the eligible uses described in 24 CFR 93.200 and 93.201.

(1) Loans for acquisition and/or new construction.
   a. NHTF loans shall be used in accordance with 24 CFR Part 93 Subpart E.
   b. Proposed projects involving new construction and requiring the demolition of existing residential units are eligible only if the number of bedrooms in the new project is at least equal to the total number of bedrooms in the demolished structures. The new units may exist on separate parcels provided that all parcels are part of the same project and meet the requirements of scattered site housing described in Section 102(g).
   c. The total amount of NHTF assistance shall not exceed the maximum per-unit development subsidy amount established by the Department as stated in the NOFA.
   d. HHC loans shall be secured by the project's real property and improvements and subject only to liens, encumbrances and other matters of record approved by the Department, consistent with 25 CCR Section 8315. Projects with ground leases shall be subject to 25 CCR Section 8316.
   e. HHC assistance provided as post-construction permanent loans shall have an initial term of 55 years or longer to match the period of affordability restrictions under the tax credit program, commencing on the date of recordation of the HHC loan documents.

(2) Grants for project-based operating assistance in the form of a Capitalized Operating Subsidy Reserve (COSR).

The project's COSR will be for at least 15 years to pay for operating costs of an apartment or apartments receiving capital funding to provide Supportive housing to the Target Population.

(b) Maximum per-unit loan amounts for loans underwritten by the Department shall be published annually for each NOFA and determined as follows:

(1) Maximum per-unit loan amounts shall not exceed the total eligible costs required, when considered with other available financing and assistance, in order to:
a. Enable the funds to be used for the eligible uses;
b. Ensure that rents for Assisted Units comply with Program requirements; and
c. Operate in compliance with all other Program requirements.

(2) The capital portion of the loan amount is further limited to the sum of a base amount per Assisted Unit, plus the amount per Assisted Unit required to reduce rents from 30 percent of the 30 percent of AMI level to the actual maximum restricted rent for the Assisted Unit, with loan limits increasing based on the level of affordability provided.

(3) For loan limit calculations, the Department shall include the number of Assisted Units within a rental housing development and the number of bedrooms per Assisted Unit.

(4) For Assisted Units receiving rental assistance under renewable rental subsidy contracts, the loan amount will be based on the most restrictive level of income restriction that will apply following the closing of the program loan.

(5) Initial base amounts for the portion of the loan that does not include a COSR are set pursuant to the Department's Annual Action Plan.

(6) The COSR portion of the loan shall be determined pursuant to the requirements of Section 108.

(7) Beginning January 2020, the amounts in subparagraph (5), above, will be adjusted annually based upon increases in the Consumer Price Index. The maximum per-unit amounts for loans underwritten by the Department shall be updated annually and published in the NOFA.

(c) Recipients shall ensure that all Assisted Units meet all applicable federal and state property standards. Compliance with 24 CFR 93.301(a)(1) and (2) must be maintained for the duration of the affordability period of 55 years, except projects developed on Indian Reservation or Native American lands, which will be for at least 50 years.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 104. Loan Terms

(a) HHC loans shall have the following terms:

(1) They shall bear simple interest at the rate of 3 percent per annum on the unpaid principal balance, unless the Department reduces this rate pursuant to Health and Safety Code Section 50406.7. Interest shall accrue from the date funds are disbursed to, or on behalf of, the borrower.

(2) Pursuant to 24 CFR section 93.204(b)(1), HCD will charge fees to cover the cost of ongoing monitoring and physical inspection of NHTF rental projects during the state period of affordability and as determined in the NOFA.

(3) Except for the required monitoring fee payment, and if the borrower is not in default, the Department shall permit the deferral of accrued interest for the term of the loan.

(4) The Department may require a third-party tax professional to verify the necessity for reducing the interest rate below 3 percent, the cost of which shall be borne by the Sponsor.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 105. Occupancy and Income Requirements

(a) Household income shall be determined in accordance with the rules in 24 CFR 93.151. At the time of move-in, the household income shall not exceed the established Extremely Low Income (ELI) limits or families with incomes at or below the poverty line (whichever is greater) pursuant to 24 CFR 93.250(a). Income levels shall be expressed in 5 percent increments as a percentage of AMI. The income limits are posted on the Department's website. Assisted units will be restricted per the income limits set forth in the Project Regulatory Agreement.

(b) The Recipient shall maintain documentation of tenant-income eligibility and how they meet the requirements for the Target Population the following ways, as applicable:

(1) Documentation of enrollment in or eligibility for Medi-Cal benefits.

(2) Documentation of a person's status as Chronically homeless could be captured through any of the following:
   a. A client's entry and exits documented in a Homeless Management Information System;
   b. An outreach worker or Case Manager's written observations; or
   c. A client's self-report of episodes of homeless and disability status. Such reports must be done in accordance with procedures established through the local Coordinated Entry System or other procedures established by

the county for determining whether a person qualifies as Homeless and High-cost health user or Chronically homeless.

(3) Documentation of a person's status as a High-cost health user could be captured through any of the following:
   a. Discharge summaries; or
   b. An outreach worker's, case manager's or local County's health department written observations.

(c) Occupancy requirements shall apply for the full term of the regulatory period.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 106. Rent Limits

(a) Assisted Unit rent will be restricted in accordance with the NHTF rent and income limits in 24 CFR 93.302.

(1) ELI tenants. The rent plus utilities of an ELI tenant shall not exceed the greater of 30 percent of the federal poverty line or 30 percent of the income of a family whose annual income equals 30 percent of the median income for the area, as determined by HUD, with adjustments for the number of bedrooms in the unit. HUD will publish the NHTF rent limits on an annual basis. Rents will be further restricted in accordance with Rent and income limits submitted by the Sponsor in its application for the Program loan, approved by the Department, and set forth in the Regulatory Agreement.

(b) The income of each tenant must be determined initially in accordance with 24 CFR 93.151. In addition, in each year during the period of affordability (up to 55 years), the project owner must reexamine each tenant's annual income in accordance with one of the options in 24 CFR 93.151(c) selected by the Recipient and as identified in the tenant selection plan.

(c) Over-income tenants. Assisted Units continue to qualify as affordable housing despite a temporary noncompliance caused by increases in the incomes of existing tenants if actions satisfactory to HUD are being taken to ensure that all vacancies are filled in accordance with 24 CFR Part 93.302(g) until the noncompliance is corrected.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 107. Underwriting Standards

(a) In analyzing feasibility, the Department shall follow the underwriting requirements of its UMRs commencing with 25 CCR Section 8300 and/or federal NHTF regulations, including the following:

(1) 25 CCR Section 8303 (Site Control Requirements and Scattered Site Projects);

(2) 24 CFR 93.201(e) (Operating Cost Assistance and Operating Cost Assistance Reserves);

(3) 25 CCR Section 8309 (Replacement Reserves);

(4) 25 CCR Section 8310 (Underwriting Standards) and 24 CFR 93.300(b). The more strict requirements shall apply;

(5) 25 CCR Section 8311 (Limits on Development Costs);

(6) 25 CCR Section 8312 (Developer Fee);

(7) 25 CCR Section 8314 (Use of Operating Cash Flow), and 24 CFR Part 93. The stricter requirements shall apply; and

(8) 25 CCR Section 8315 (Subordination Policy).

(b) Where there is a difference between the provisions of the UMRs and these Guidelines, the provisions of these Guidelines shall prevail.

(c) Notwithstanding the above, residential stabilized vacancy rates for Assisted Units shall be assumed to be 10 percent, unless use of a lower or higher rate is required by another funding source, including TCAC, or is supported by compelling market data or other evidence.

(d) In addition to the operating reserve required by 25 CCR 8308, a Sponsor may establish a COSR for the Assisted Units meeting the requirements of Section 108.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 108. Capitalized Operating Subsidy Reserves

NHTF grant funds may be used to pay for Capitalized Operating Subsidy Reserves (COSR) with the following conditions:

(a) For projects, not more than 100 percent of the total per-unit amount for capital determined pursuant to Section 103 may be provided per unit for a COSR to address project operating deficits attributable to the Assisted Units.

(b) The operating reserves shall be sized to cover anticipated operating deficits attributable to the Assisted Units for a minimum of 15 years. The total amount of each project's operating reserves will be determined based upon the individual project underwriting performed by the Department pursuant to the requirements of these Guidelines.

(c) In determining how to size each project's COSR, the Department shall consider individual project factors such as: the maximum percentage of Assisted Units it will assist; the anticipated project vacancy rates; the anticipated percentage of Assisted

Units that will have other operating or rental subsidy and the term of that operating or rental subsidy contract, and anticipated tenant incomes.

(d) The following standard assumptions will be used for establishing the total amount of the project COSR. The Department may modify these assumptions as necessary to maintain project feasibility or extend the term of the COSR.

(1) All Assisted Units, other than the proportionate share of the manager's unit, shall be counted in calculating the amount of the COSR. An Assisted Unit receiving other rental assistance may receive assistance from the COSR.

(2) The stabilized residential vacancy rate for the Assisted Units shall be assumed to be 10 percent, unless use of a lower or higher rate is required by another funding source, including TCAC, or is supported by compelling market or other evidence.

(e) Notwithstanding the above, in order to sustain the availability of the operating reserves for a minimum of 15 years, distributions from the COSR shall be subject to: The Department may not disburse more than 5 percent of the total COSR to a project per year, except that in any given year where the operating deficit attributable to the Assisted Units exceeds this amount, the Department may, in its sole discretion, increase the disbursement to up to 7 percent of the total COSR, in accordance with the operating reserves limits and applicable review processes;

(f) Asset management and partnership management fees and deferred developer fees shall only be paid in accordance with the requirements of Section 107.

(g) In accordance to 24 CFR 93.201(e)(1), Operating Expenses that are eligible to be paid from the COSR include:

(1) Insurance

(2) Utilities

(3) Real property taxes

(4) Maintenance

(5) Scheduled payments to a reserve for replacement of major systems

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 109. Award Limits

(a) The maximum loan limit per Applicant is $20,000,000. The limit on the amount that can be used for the COSR will be one third of the total loan amount, in accordance with 24 CFR 93.200(a)(1).

(b) NHTF funding will be made available to all jurisdictions in California. Pursuant to the Department's Annual Plan, the Department will set-aside at least 20 percent of the funding for projects located in Rural Areas. In the event no projects target the 20 percent set-aside for projects located in Rural Areas, funds will be distributed according to the distribution methods of 24 CFR 91.320(d) and (k).

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 110. Application Process

(a) Contingent upon an annual federal NHTF allocation, the Department shall issue a competitive NOFA for NHTF funding that specifies, among other things, the amount of project funds available, any restrictions on uses of funds, general terms and conditions of funding applications, minimum requirements, timeframe for submittal of applications, application requirements, and rating metrics. Application requirements include, but are not limited to, the following:

(1) Identification of Applicants;

(2) Information on the proposed project;

(3) Adequate information to determine Applicant's eligibility;

(4) Adequate information to determine project's eligibility;

(5) Certification of compliance with federal and state requirements;

(6) Resolution by the governing board authorizing the application and execution of all documents;

(7) Adequate information to determine Applicant's experience;

(8) Site control;

(9) Compliance with the state's policy on Housing First;

(10) Project readiness to proceed;

(11) A Supportive Services plan, including staff-to-client ratio (1:20);

(12) Commitment of services funding; and

(13) Adequate information to determine the project's feasibility.

(b) Applications shall be on forms made available by the Department.

(c) Applications shall be evaluated for compliance with the minimum requirements set forth in Section 102 and will be rated and ranked in accordance with the criteria outlined in Section 111. Applicants that do not meet the minimum requirements will

be rejected and will not be rated. Applicants will be subject to the appeal process as detailed in the NOFA.

(d) If requesting a COSR, the Applicant must comply with the requirements in Section 108 of these Guidelines.

(e) The Department reserves the right to do the following:

(1) Score an application as submitted in the event information is missing from the application; and

(2) Request clarification of unclear or ambiguous statements made in an application, and other supporting documents, when doing so will not impact the competitive scoring of the application. No additional information may be introduced into the application documentation.

(f) Applications selected for funding shall be approved at amounts, terms, and conditions specified by these Guidelines and the NOFA.

(g) Each project must achieve the minimum scores in the Development Team Experience, Supportive Services plan, and Readiness to Proceed scoring categories, as follows:

(1) Development Team Experience: 18 points

(2) Supportive Services plan: 10 points

(3) Readiness to Proceed: 15 points

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 111. Application Selection Criteria

The criteria detailed below and summarized in the following table shall be used to rate applications. In the event of tied point scores, the following tiebreakers shall be used to determine which project is selected for funding, in the order listed:

(1) The Readiness to Proceed point score, pursuant to Section 111(f) of these Guidelines; and

(2) The Supportive Services plan point score, pursuant to Section 111(c) of these Guidelines

	Maximum Applicable Points
Development Team Experience	
Developer Experience	10
Applicant Ownership	5
Property Management	5

Lead Service Provider	15
Total Development Team Experience	**35**
Supportive Housing Units	25
Supportive Services plan	25
Utilization of Funds to Offset Requests	10
Leverage of Rent/Op Subsidies	15
Readiness to Proceed	30
Confirmation of Local Need	5
Location Efficiency and Access to Destinations	5
TOTAL APPLICABLE POINTS	**150**

(a) Development Team Experience (35 points maximum). The Applicant must achieve a minimum of 18 points from this section to receive an award.

(1) Developer Experience (10 points maximum)
   a. Applications will be scored based on the number of affordable rental housing developments completed by the project developer over the past five years, including Supportive housing projects completed in the last three years serving persons similar to the Target Population. Applicant should address whether these projects were completed timely and within budget. Delays and cost overruns should be explained.
   b. Two points will be awarded for each completed development that was timely and within budget, up to a maximum of ten points.

(2) Applicant Ownership and Operations Experience (5 points maximum)
   a. Applications will be scored based on the experience of the Applicant in owning or operating (under a long-term master lease or similar arrangement) supportive and/or affordable rental housing developments.
   b. The Applicant's experience includes the experience of its affiliated entities or principals (including management-level staff), but not the experience of board members. If there are multiple entities that comprise the ownership entity of the proposed project, the score will be based on the experience of the entity with a controlling interest in the ownership entity and a substantial and continued role in the project's operations, as evidenced in the ownership entity's legal documents.
   c. One-half point will be awarded for each affordable housing project, and one point will be awarded for each Supportive housing project, up to a maximum of five points.

(3) Property Manager Experience (5 points maximum)
   a. Applications will be scored based on the number of affordable and Supportive housing developments managed by the designated property management agent at the time of application. One-half point will be awarded for each affordable housing development, and one point will be awarded for each Supportive housing development, up to a maximum of five points.
   b. Points will be awarded for Supportive housing developments that have been in operation for at least two years with units restricted to people

experiencing homelessness.

(4) Lead Service Provider Experience (15 points maximum)

a. Points will be awarded for experience in the last five years providing comprehensive case management and tenancy support to people experiencing homelessness, and for demonstrated expertise working with the Target Population.

b. Experience must be documented through contracts with public agencies, housing owners, or foundations for services in housing projects with at least ten units subject to agreements with public agencies restricting rent or occupancy to Homeless persons or households, or in publicly funded tenant-based housing assistance programs serving at least ten members of the Target Population.

Points will be awarded for the following:

1. Years of experience in permanent Supportive housing (3 points maximum).
   i. One to two years (1 point)
   ii. Three years to four years (2 points)
   iii. Five years or more (3 points)
2. Number of projects or contracts in permanent Supportive housing (3 points maximum).
   i. One to two projects (1 point)
   ii. Three to four projects (2 points)
   iii. Five or more projects (3 points)
3. Years of experience serving the Target Population (3 points maximum).
   i. One to two years (1 point)
   ii. Three years to four years (2 points)
   iii. Five years or more (3 points)
4. Experience providing comprehensive case management, where members of the Target Population were at least 20 percent of the Lead Service Provider's clients during the years for which points are sought in any of the following (two points for either of the following):
   i. Permanent Supportive housing restricted to members of the Target Population; or
   ii. Permanent Supportive housing not restricted to members of the Target Population, with documented experience providing Homeless services with documented retention rates of at least 85 percent after 12 months.

   To receive points under subsection i. or ii. above, the Lead Service Provider must have current staff expertise and organizational experience:
   i. Connecting members of the Target Population and/or Homeless individuals with community-based health care services, including linkage to primary care services and behavioral health care; and
   ii. Staff expertise and experience must be documented through resumes, job descriptions, contracts, staff training descriptions, and letters from Continuums of Care or other supportive services organizations.

5. Experience of a partner agency if the following conditions are satisfied (2 points):
    i. An executed agreement between the two agencies must be submitted with the application for HHC assistance; and
    ii. The agreement must have a term of at least five years and detail the cultural competency services to be provided by the partner agency. These services must include:
        a. Technical assistance with program development;
        b. Training and mentoring of Lead Service Provider leadership and staff for the proposed project;
        c. Assistance with hiring project staff;
        d. Assistance with developing community linkages;
        e. Other technical assistance as needed; and
        f. An agreement to provide services to members of the Target Population residing in the project that are referred by the Lead Service Provider.

6. Documented success in meeting or exceeding specified outcome measures for housing stability under a government contract for at least two years as a Lead Service Provider in Permanent Supportive housing serving persons experiencing homelessness. (2 points)

(b) Supportive Housing (25 points maximum).

(1) Applications will be scored based on the percentage of total project units restricted as Supportive housing in accordance with the table in subsection (2) below.

(2) To receive any points in this category, a minimum of 5 percent of total project units must be restricted as Supportive housing.

The scoring table is as follows:

Percentage of Total Project Units Restricted as Supportive Housing	Points
5%	**5**
10%	**9**
15%	**13**
20%	**17**
25%	**21**
30% or more	**25**

(c) Supportive Services Plan (25 points maximum). The Applicant must achieve a minimum of 10 points from this section to receive an award.

(1) Applications for projects will be scored based on the following:
a. Quality and Quantity of Services (7 points maximum)
    1. The services provided are of appropriate quality and quantity for the Target Population. (2 points)

2. Staff experience, credentials, and job duties include appropriate skills in cultural competency. (2 points)
3. The service delivery model, tailored to Homeless people impacted with one or more chronic health or behavioral health conditions, that includes, but is not limited to, the following: (3 points)
    i. Use of a critical time intervention or assertive community treatment model
    ii. Cognitive behavioral therapy
    iii. Trauma-informed care
    iv. Motivational interviewing and other tools to encourage engagement in services
    v. Other practices recognized as evidenced-based by the Substance Abuse and Mental Health Services Administration (SAMHSA), DHCS, HUD, or other federal or state public agencies

b. The accessibility of services, whether they are on-site or in close proximity to the project, including the hours they are available, and the frequency, travel time and cost of transportation required to access them, including both public transportation and private transportation services (e.g. van owned by the provider), and how the service provider will assist in the expense of public transportation (e.g., provide tokens, negotiate discounts, provide their own shuttle service, etc.). (2 points)
c. Adherence to Section 113, Housing First principles in the provision of services, including provision of flexible services that facilitate Permanent housing access and housing stability. (2 points)
d. The degree to which the physical building space supports social interaction, the provision of services and ensures the safety of all residents, especially those more vulnerable, such as persons with a history of trauma, children, elderly, etc. (1 point)
e. The levels of linkages with local systems for ending homelessness and community-based health care resources for members of the Target Population, including: (5 points)
    1. Participation, verified by the local Continuum of Care, in a local CES that is fully established.
    2. The degree of coordination with primary care providers, behavioral health providers, and health care facilities.

(2) Resident Involvement (3 points maximum)
Points will be awarded based on the quality of:
a. Strategies to engage residents to encourage participation in services (1 point);
b. Strategies to engage residents in services planning and operations (1 point); and
c. Tenant satisfaction surveys to inform and improve services, building operations, and property management. (1 point)

(3) The adequacy of the services budget and the reliability over time of services funding (5 points maximum)
Points will be awarded based on:

a. The adequacy and accuracy of budgeted income sources and uses and the consistency of these amounts with other sections of the services plan. (1 point)
b. The completeness, accuracy, specificity and clarity of the budget document. (1 point)
c. The extent to which the major services funding sources have been accessed by the designated service providers or Applicant in the past. (1 point)
d. The track record of the Applicant and providers in filling gaps in services funding left by the loss of major funding sources. (1 point)
e. The percentage of the total services budget that is committed at the time of application. (1 point)

(d) Utilization of Funds to Offset Requests (10 points maximum)

(1) Applications will be scored based on the ratio of permanent affordable development funding attributable to Assisted Units from sources other than NHTF to the requested NHTF loan amount. Deferred developer fees and funds deposited in a reserve to defray scheduled operating deficits will not be counted in this computation. Land donations will be counted where the value is established by a current appraisal.

(2) For projects utilizing 9 percent competitive low-income housing tax credits, 0.375 points will be awarded for each full 5 percentage point increment above 50 percent. For example, an application proposing other funds equal to 100 percent of the NHTF funds will receive 3.75 points. An application where other funds equal 250 percent of NHTF funds will receive 10 points.

(3) For other projects not utilizing 9 percent competitive low-income housing tax credits, 0.75 points will be awarded for each 5 percentage point increment above 50 percent. For example, an application proposing other funds equal to NHTF funds will receive 7.5 points, and an application where other funds equal 150 percent of NHTF funds will receive 10 points.

(e) Leverage of Rental or Operating Subsidies (15 points maximum)

(1) Applications will be scored based on the percentage of Assisted Units that either:
a. Have committed project-based rental or operating subsidies substantially similar in terms to project-based housing choice vouchers to indicate a high likelihood of receiving similar funding for the proposed project; or
b. Are restricted to rents not exceeding 30 percent of household income, with project feasibility determined based on the assumption that rents will be affordable to tenants of existing projects targeting Homeless populations, as specified in the HHC application.

(2) Project-based housing choice vouchers will be deemed committed if they have been allocated to the project and approved by HUD, or if the Department approves other evidence that they will reliably be available (such as a letter from the housing authority committing to project-based housing choice

vouchers to the project).

(3) One point will be awarded for each 5 percentage point increment, up to a maximum of 15 points.

(f) Readiness to Proceed (30 points maximum). The Applicant must achieve a minimum of 15 points from this section to receive an award.

The Supportive Services must be fully implemented and available for use by the tenant at the time of occupancy. Points will be awarded as shown below to projects for each of the following circumstances as documented in the application. Any application demonstrating that a particular category is not applicable to project readiness for the subject project shall be awarded points in that category.

(1) Obtained enforceable commitments for all construction financing, not including tax-exempt bonds, low-income housing tax credits, and funding to be provided by another Department program. Other Department funds must be awarded prior to the application deadline. (5 points)

(2) Completion of the California Environmental Quality Act, if necessary and not entitled to a streamlined review under AB 2162, and
   a. Phase I Environmental Site Assessment (ESA-ASTM) for projects with NHTF only, or
   b. If any other federal funding sources are utilized, the project must complete a Phase I Environmental Site Assessment with the National Environmental Policy Act. (5 points)

(3) Obtained all necessary and discretionary public land use approvals, except building permits and other ministerial approvals, or documented to be an eligible project under AB 2162. (5 points)

(4) 5 points will be awarded if either:
   a. The Applicant has fee title ownership to the site or a long-term leasehold securing the site meeting the criteria for HHC site control; or
   b. The Applicant can demonstrate that the working drawings are at least 50 percent complete, as certified by the project architect;

(5) Obtained local design review approval to the extent such approval is required. (5 points)

(6) Obtained commitments for all deferred-payment financing, grants and subsidies, in accordance with TCAC requirements and with the same exceptions as allowed by TCAC. Deferred payment financing, grant funds, and subsidies from other Department programs must be awarded prior to application deadline. (5 points)

(g) Local Need (5 points maximum)

More than 400 individuals are Homeless in the Applicant's geographic jurisdiction using the latest PIT count and as stated in the NOFA.

(h) Location Efficiency and Access to Destinations (5 points maximum)

Location Efficiency and Access to Destinations refers to reasonable access and proximity to amenities, services, and public transportation that allows members of the Target Population to have choices in accessing resources for independent living.

Points may be awarded cumulatively across the categories below up to a total of five points. Applicants must provide a map demonstrating proximity for items (1) and (2) to be eligible for the respective points.

(1) Projects located where there is a rapid transit station, light rail station, commuter rail station, ferry terminal, bus station, or public bus stop within one-half mile (one mile for Rural Areas) from the site, with service at least every 30 minutes (or at least two departures during each peak period for a commuter rail station or ferry terminal) during the hours of 7 a.m. - 9 a.m. and 4 p.m. – 6 p.m., Monday through Friday. (1 point)

(2) Projects that provide a map highlighting the location of the existing and operational services within one-half mile of the project area (two miles for Rural Areas), as follows:
   a. (1 point) Grocery store which meets the CalFresh Program requirements;
   b. (1 point) Medi-Cal clinic that accepts Medi-Cal payments;
   c. (1 point) Public elementary, middle or high school; and
   d. (1 point) Licensed child care provider.

(i) Applicants will be subject to the appeal process as detailed in the NOFA.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 112. Supportive Services

(a) Each application must include a project-specific Supportive Services plan. This plan is to be developed by the Lead Service Provider and the property manager and shall include information listed in (c) and (d) of this section. Recipients must utilize a Lead Service Provider.

(b) The property management staff and service providers must make participation in Supportive Services by HHC tenants voluntary. Access to or continued occupancy in housing cannot be conditioned on participation in services or on sobriety. The Supportive Services plan must describe the services to be made available to HHC tenants in a manner that is voluntary, flexible and individualized, so HHC tenants may continue to engage with supportive services providers, even as the intensity of services needed may change. Adaptability in the level of services should support tenant engagement and housing retention.

(c) Using evidence-based models, the following Supportive Services shall be made

available to HHC tenants based on tenant need. Except as otherwise noted below, the following required services shall be provided onsite at the project or offsite at another location easily accessible to tenants, with the majority of case management services offered on-site:

(1) Assistance accessing and linking tenants to Medi-Cal enrollment and enrollment in other benefits the tenant may be eligible for;

(2) Case management;

(3) Peer support activities;

(4) Support in linking to behavioral health care, such as assessment, crisis counseling, individual and group therapy, and peer support groups;

(5) Support in linking to primary care services, including access to routine and preventive health and dental care, medication management, and wellness services;

(6) Benefits counseling and advocacy, including assistance in accessing Supplementary Security Income/State Supplemental Payment (SSI/SSP);

(7) Basic housing retention skills (such as unit maintenance and upkeep, cooking, laundry, working with a landlord, getting along with neighbors, and money management); and

(8) Services for persons with co-occurring mental and physical disabilities or co-occurring mental and substance use disorders not listed above.

The following Supportive Services are not required to be made available but are encouraged to be part of a project's Supportive Services plan.

(1) Recreational and social activities;

(2) Educational services, including assessment, GED, school enrollment, assistance accessing higher education benefits and grants, and assistance in obtaining reasonable accommodations in the education process;

(3) Employment services, such as supported employment, job readiness, job skills training, job placement, and retention services, or programs promoting volunteer opportunities for those unable to work; and

(4) Obtaining access to other needed services, such as civil legal services, or access to food and clothing.

(d) The following additional information shall be provided in the Supportive Services plan:

(1) Description of the Target Population to be served and identification of any

additional subpopulation target or occupancy preference for the HHC project that the Applicant wishes to undertake beyond what is permitted under the Target Population requirements. Any additional subpopulation targeting or occupancy preference for the HHC project must be approved by the Department prior to construction loan closing and must be consistent with federal and state fair housing requirements;

(2) Description of tenant outreach, engagement, and retention strategies to be used;

(3) Description of each service to be offered, how frequently each service will be offered or provided depending on the nature of the service, who is anticipated to be providing the services, the location, and general hours of availability of the services;

(4) For services provided off-site, the plan must describe what public or private transportation options will be available to HHC tenants in order to provide them reasonable access to these services. Reasonable access is access that does not require walking more than one-half mile;

(5) Description of how the Supportive Services are culturally and linguistically competent for persons of different races, ethnicities, sexual orientations, gender identities, and gender expressions. This includes explaining how services will be provided to HHC tenants who do not speak English or have other communication barriers, including sensory disabilities, and how communication among the services providers, the property manager and these tenants will be facilitated;

(6) Estimated itemized budget and sources of funding for services;

(7) Description of how the supportive services staff and property management staff will work together to prevent evictions, to adopt and ensure compliance with harm reduction principles, and to facilitate the implementation of reasonable accommodation policies from rent-up to ongoing operations of the project;

(8) General service provider and property manager communication protocols;

(9) Description of how the physical design of the project fosters tenant engagement, onsite supportive services provision, safety and security, and sustainability of furnishings, equipment, and fixtures; and

(10) Other information needed by the Department to evaluate the Supportive Services to be offered consistent with the Program.

(e) Copies of draft written agreements or memoranda of understanding (MOUs) that identify the roles and responsibilities of the Recipient, the project owner, other service providers, and the property manager must be provided. The draft written agreements or MOUs must be materially consistent with the information set forth in the Supportive Services plan.

The Department may request that any necessary updates to the Supportive Services plan or related documents, including fully executed written agreements between the county, service providers, the project owner, and the property manager, be provided prior to the beginning of the initial rent-up period or prior to permanent loan closing.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 113. Housing First

(a) Projects shall employ Housing First practices that are documented in the application, property management plan and Supportive Services plan. Adherence to the Housing First core components pursuant to Welfare and Institutions Code Section 8255(b).

(b) For all HHC funded projects, Housing First property management and services delivery practices shall be followed. Housing First practices include the following:

1. Tenant selection practices shall be done in conjunction with the local Coordinated Entry System and promote the acceptance of Applicants regardless to their sobriety or use of substances, completion of treatment, or agreement to participate in services;

2. Applicants are not rejected based on poor credit or financial history, poor or lack of rental history, or criminal convictions unrelated to tenancy, or behaviors that indicate a lack of “housing readiness”;

3. Applicants are assisted in making application for tenancy and reasonable accommodation requests;

4. Supportive Services are flexible and voluntary and focus on housing stability, engagement, and problem solving over therapeutic goals; and

5. The lack of policies or practices regimenting daily activities or limiting privacy, visitors, or the individual’s ability to engage freely in community activities or to manage their own activities of daily living.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 114. Tenant Selection

Tenants must meet income requirements in Section 105 and Target Population requirements in Section 102.

Recipients shall accept referrals through use of a CES or other similar system in accordance with the provisions of 25 CCR Section 8305, and in compliance with Housing First requirements consistent with the core components set forth in Welfare and Institutions Code Division 8 Chapter 6.5 Section 8255 subsection (b), and basic tenant protections established under federal, state, and local law.

(a) Reasonable selection criteria, as referred to in 25 CCR Section 8305(a)(1), shall include priority status under a local CES developed pursuant to 24 CFR 578.7(a)(8).

(b) If the CES existing in the county cannot refer persons in the Target Population, the alternative system used must prioritize those with the greatest needs among those for referral to available Assisted Units.

(c) Recipients shall accept tenants regardless of sobriety, participation in services or treatment, history of incarceration, credit, or history of eviction in accordance with practices permitted pursuant to WIC Section 8255 or other federal or state project funding sources.

(d) Projects must also provide a preference for accessible units to persons with disabilities requiring the features of the accessible units in accordance with Section 10337(b)(2) of the TCAC regulations.

The requirements of 25 CCR Section 8305 (a)(4)(A) and 25 CCR Section 8305 (a)(4)(D) shall be implemented as approved by the Department in a manner that is consistent with the requirements of the CES.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 115. Rental Agreements and Grievance Procedures

Rental or occupancy agreements and grievance procedures for Assisted Units shall comply with 25 CCR Section 8307 and 24 CFR 93.303. Tenants shall not be required to maintain sobriety, be tested for substances, or participate in services or treatment.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 116. Vulnerable Populations Best Practices

The following best practices should be incorporated in the construction of projects that receive funding from HHC, to the extent possible. These best practices work

to further the safety and physical and mental well-being of residents within a project.

(a) General best practices for all developments:

(1) Safety Features:
   a. Site selection and development of the project should consider the safety concerns of the prospective tenants.
   b. Building entrance and exit points should only allow admittance to residents or guests that residents admit.
   c. Common areas within the project should be oriented so as to have:
      1. Two ways to enter or exit the area;

2. Visibility to the area from outside of it, i.e. windows in walls or doors; and
3. A centralized location, to the extent possible.

d. Safety lighting that reduces or eliminates blind or dark spaces where people can hide.

(2) Property Management:

a. Policies to support an on-call staff member or 24-hour availability of staff from the property management company.
b. Post in common areas and annually review with tenants the project's grievance policy. The policy should include procedures for grievances with management staff or contractors and the process by which the tenant may elevate the complaint.

(b) For those populations that have a history of sexual trauma and/or domestic violence:

(1) Safety features incorporate all the general best practices and include the following:

a. For projects that will also be serving women with a history of domestic violence or sexual trauma:

1. Designate at least 25 percent of the Assisted Units will be for women with a history of domestic violence or sexual trauma and/or women with children, thereby ensuring women are not a small minority of the tenancy.
2. Design projects to provide separate and secure floors, wings, or buildings for women with a history of domestic violence or sexual trauma and/or women with children. These separate and secure areas should restrict access to only the residents in the secured area.

b. Security cameras:

1. At entrances, exits and common areas (including hallways, elevators, and stair wells);
2. Written policy on the use of the cameras to specify who has access to see the videos, who monitors the surveillance, and under what conditions footage would be released to the authorities; and
3. Camera recordings should be maintained for at least 30 days.

(2) Property Management:

a. Policies to support an on-call staff member or 24-hour availability of staff from the property management company.
b. Post in common areas and annually review with tenants the project's grievance policy. The policy should include procedures for grievances with management staff or contractors and the process by which the tenant may elevate the complaint.

The project should have 24-hour security if it serves persons impacted by domestic violence, transition age youth and other vulnerable populations.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2) and 53595.

Section 117. Reporting Requirements

Recipient must collect and report data, as described in Section 53593, to the Department at annual and midyear intervals. Reporting of the following is required:

(a) Not later than 90 days after the end of each project's fiscal year, the Recipient shall submit an independent audit of the development prepared by a certified public accountant and in accordance with the Department's current audit requirements and all other applicable requirements, as stated by law or included in the NOFA.

(b) Recipients shall report on the sources of tenant referrals for the project and submit both client data and performance outcome data to the Department. Tenant data may include, but is not limited to, demographic information. Performance outcome data shall include, but is not limited to, information on housing stability, tenant satisfaction as measured in a survey, and changes in income and benefits received.

(c) Recipients shall report the number of participants living in the Supportive housing project after 12 months, 24 months, and 36 months, as relevant.

(d) Recipients shall report the number of participants and the type of interventions offered through the grant funds.

(e) Recipients shall report on the number of participants who exited the project each year and where they exited to, including other Permanent housing, homelessness, or death.

(f) To the extent available and feasible, Recipients shall provide data on the impact of the Program on participants' use of corrections systems and law enforcement resources.

(g) If Recipient is a local government, must comply with 2 CFR Part 512, as outlined in the NOFA.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53593.

Section 118. Operating Budgets

The Recipient shall submit proposed operating budgets to the Department prior to occupancy, and annually thereafter. These budgets shall be subject to Department approval and comply with the requirements in 25 CCR Section 7326.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 119. Federal and State Overlays

(a) Federal Overlays. Activities funded with HHC funds are required to comply with 24 CFR Part 93.350 and 24 CFR Part 93.301. Compliance with these requirements include, but are not limited to, environmental provisions, federal Davis-Bacon Wage requirements and state prevailing wage laws, relocation, Equal Opportunity and Fair Housing, Fair Housing Amendments Act, Affirmative Marketing, Section 504 of the Rehabilitation Act and its implementing regulations, and the Americans with Disabilities Act and its implementing regulations, Section 3 (employment of low-income persons), Violence Against Women Act, and Single Audit report 2 CFR Part 200.512. Failure to comply with federal overlays could result in significant project cost increases, and rejection of the HHC application.

(b) State Overlays. Article XXXIV of the California Constitution requires local voter approval before any state public body can develop, construct, or acquire a low-rent housing project in any manner. However, the Public Housing Election Implementation Law (Health & Safety. Code, §§ 37000 - 37002) provides clarification as to when Article XXXIV is applicable.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(2).

Section 120. Legal Documents

After a Recipient is sent a letter providing notice of award pursuant to a NOFA, and prior to actual disbursement of funds pursuant to that award, the Department and Recipient shall enter into a state “Standard Agreement” that shall constitute a conditional commitment of said funds. The Standard Agreement shall require the Recipient to comply with the requirements and provisions of these Guidelines, and generally applicable state contracting rules and requirements. The Standard Agreement shall encumber state moneys in an amount no more than as established in the NOFA and said amount shall be consistent with the application and corresponding award letter. The Standard Agreement shall contain the terms necessary to ensure the Recipient complies with all HHC-NHTF requirements, including, but not limited to, the following:

(a) Requirements for the execution of a promissory note, operating reserve agreement, or other project-specific contracts as may be applicable;

(b) Requirements set forth in the NOFA;

(c) Requirements, where appropriate, for the execution and recordation of covenants, regulatory agreements, or other instruments restricting the use and occupancy of and appurtenant to the project and the property thereunder (for the purposes of these Guidelines, all such documents are collectively herein referred to as the HHC regulatory agreement;

(d) Requirements for the execution of a Deed of Trust or other security instrument securing the debt owed by the borrower to the Department for the amount of the award. The Deed of Trust must be recorded against the fee estate underlying the property; leasehold security will not be accepted unless such security strictly meets

the requirements set forth in 25 CCR Section 8316;

(e) The Recipient's responsibilities for timing and completion of the project, as well as all reporting requirements;

(f) Remedies available to the Department in the event of a violation, breach or default of the Standard Agreement; and

(f) All other provisions necessary to ensure compliance with the requirements of HHC and applicable state and federal law.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2), 53593 and 53595.

Section 121. Defaults and Loan and/or Grant Cancellations

(a) In the event of a breach or violation by the Recipient of any of the provisions of HHC-NHTF requirements, the regulatory agreement, the promissory note, or the deed of trust, or any other agreement pertaining to the project, the Department may give written notice to the Recipient to cure the breach or violation within a period of not less than 15 days. If the breach or violation is not cured to the satisfaction of the Department within the specified time, the Department, at its option, may declare a default under the relevant document(s) and may seek legal remedies for the default, including but not limited to the following:

(1) The Department may accelerate all amounts, including outstanding principal and interest, due under the loan and demand immediate repayment thereof. Upon a failure to repay such accelerated amounts in full, the Department may proceed with a foreclosure in accordance with the provisions of the Deed of Trust and state law regarding foreclosures.

(2) The Department may seek, in a court of competent jurisdiction, an order for specific performance of the defaulted obligation or the appointment of a receiver to operate the project in accordance with HHC-NHTF requirements.

(3) The Department may seek such other remedies as may be available under the relevant agreement or any law as it relates to both the loan and the COSR grant.

(4) Suspension from future Department funding awards.

(5) The Department may seek other remedies set forth in the relevant agreement or any other applicable legal or equitable remedies law.

(b) If the breach or violation involves charging tenants rent or other charges in excess of those permitted under the regulatory agreement, the Department may demand the return of such excess rents or other charges to the respective households. In any action to enforce the provisions of the regulatory agreement, the Department may seek, as an additional remedy, the repayment of such overcharges.

(c) The Department may cancel loan commitments or COSR grants under any of the following conditions:

(1) The objectives and requirements of HHC cannot be met;

(2) Implementation of the project cannot proceed in a timely fashion in accordance with the approved plans and schedules;

(3) Special conditions have not been fulfilled within required time periods;

(4) There has been a material change, not approved by the Department, in the principals or management of the Recipient or project; or

(5) If the Recipient fails to apply for Tax Credit funding, which they relied on for project feasibility in their application, within 18 months of the HHC award date.

The Department, in writing and upon demonstration by the Recipient of good cause, may extend the date for compliance with any of the conditions in this subsection, as long as these extensions are within the established/agreed upon deadlines established in the NOFA.

(d) Upon receipt of a notice from the Department of intent to cancel the loan or request to repay the grant, the Recipient shall have the right to appeal to the Director.

(e) The Department may use any funds available to it to cure or avoid a Recipient's default on the terms of any loan or other obligation that jeopardizes the fiscal integrity of a project or the Department's security in the project. Such defaults may include defaults or impending defaults in payments on mortgages, failures to pay taxes, or failures to maintain insurance or required reserves. The payment or advance of funds by the Department pursuant to this subsection shall be solely within the discretion of the Department and no Recipient shall be entitled to or have any right to payment of these funds. All funds advanced pursuant to this Subsection shall be part of the HHC loan or COSR grant and, upon demand, due and payable to the Department. Where it becomes necessary to use state funds to assist a project to avoid threatened defaults or foreclosures, the Department shall take those actions necessary, including, but not limited to, foreclosure or forced sale of the project property, to prevent further, similar occurrences and ensure compliance with the terms of the applicable agreements.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(2), 53593 and 53595.

Article II. Building Homes and Jobs Trust Fund Allocation

Section 200. Purpose and Scope

(a) In September of 2017, AB 74 was signed into law. This legislation authorizes the California Department of Housing and Community Development (Department) to develop the Housing for a Healthy California (HHC) program to create Supportive housing for individuals who are recipients of or eligible for health care provided through the California Department of Health Care Services (DHCS) Medi-Cal program. The goal of HHC is to reduce the financial burden on local and state resources due to the overutilization of emergency rooms or incarceration as the first point of health care provision for people who are Chronically homeless or Homeless and a High-cost health user. The Department shall coordinate with the DHCS, consistent with state and federal privacy law, to match Program participant data to Medi-Cal data to identify outcomes among participants, as well as changes in health care costs and utilization associated with housing and services provided under HHC.

(b) AB 74 allows the Department to utilize revenues appropriated to the Department from other revenue sources for HHC purposes. As directed in the 2018-2019 state Budget Act, the Department will utilize a portion of moneys collected in calendar year 2018 and deposited into the Building Homes and Jobs Trust Fund for the HHC program. The Department will allocate these funds competitively to counties for acquisition, new construction or reconstruction and rehabilitation, administrative costs, capitalized operating subsidy reserves (COSR), and rental subsidies for existing Supportive housing to assist HHC's Target Population. The Department has elected to incentivize utilizing locally committed funding in an amount at least equivalent to the requested HHC funding amount. Note, funds applied pursuant to Health and Safety Code Section 53594(a)(1) acquisition funding, new construction, and rehabilitation shall comply with Federal Housing Trust Fund regulations.

(c) In addition to applicable state and federal laws and regulations, these guidelines (hereinafter "Guidelines") implement, interpret, and make specific the HHC program authorized by Part 14.2 (commencing with Section 53590) of Division 31 of the Health and Safety Code and for Fiscal Year 2018 Chapter 2.5 (commencing with Section 50470) of Part 2 of Division 31 of the Health and Safety Code.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53591(a)(1), 53594 and 50472.

Section 201. Definitions

All terms not defined below shall, unless their context suggests otherwise, be interpreted in accordance with the meaning of terms described in Part 14.2 of Division 31 of the Health and Safety Code (commencing with Section 53590).

(a) “Applicant” means a County, as defined below.

(b) “Area Median Income” or “AMI” means the most recent applicable County median family income published by HUD.

(c) “Assisted Unit” means a housing unit that is subject to the program’s rent and/or occupancy restrictions as a result of the financial assistance provided under the program.

(d) “Case Manager” means a social worker or other qualified individual who works with a tenant to offer individualized service planning that is flexible and creative to help the tenant gain housing stability. It includes working in collaboration with the tenant to plan, assess, coordinate, and reassess the tenant’s needs, as well as referrals and advocacy and connection to community support to meet tenants’ supportive services needs. Services include, but are not limited to: tenancy support services, coordination of medical and behavioral health, substance use disorder treatment, employment services, life skills training, peer support, and crisis management interventions. Resident service coordinators are not Case Managers.

(e) “Chronically homeless” has the same meaning as in Part 91.5 and 578.3 of Title 24 of the Code of Federal Regulations, except that people who were Chronically homeless before entering an institution would continue to be defined as Chronically homeless before discharge, regardless of length of stay, as those parts read on January 1, 2018.

(f) “Continuum of Care” is defined in 24 CFR Section 578.3.

(g) “Coordinated Entry System” or “CES” means a centralized or coordinated process developed pursuant to 24 CFR Section 578.7(a)(8), designed to coordinate program participant intake, assessment, and provision of referrals. A centralized or coordinated assessment system covers the geographic area, is easily accessed by individuals and families seeking housing or services, is well advertised, and includes a comprehensive and standardized assessment tool.

(h) “County” means a county, city and county, or a city collaborating with a county to secure services funding.

(i) “DHCS” means the state Department of Health Care Services.

(j) “Department” means the Department of Housing and Community Development.

(k) “Development Sponsor” or “Sponsor”, as defined in Section 50675.2 of the Health and Safety Code and subdivision (c) of Section 50669 of the Health and Safety Code,

means any individual, joint venture, partnership, limited partnership, trust, corporation, cooperative, local public entity, duly constituted governing body of an Indian Reservation or Rancheria, or other legal entity, or any combination thereof, certified by the Department as qualified to own, manage, and rehabilitate a rental housing development. A Development Sponsor may be organized for profit, limited profit or be nonprofit, and includes a limited partnership in which the Development Sponsor, or an affiliate of the Development Sponsor, is a general partner.

(l) “Distributions” has the same meaning as under 25 CCR Section 8301(h).

(m)“Fair Market Rent” or “FMR” means the rent, including the cost of utilities, as established by HUD pursuant to Parts 888 and 982 of Title 24 of the Code of Federal Regulations, as those parts read on January 1, 2018, for units, by number of bedrooms, that must be paid in the market area to rent privately owned, existing, decent, safe, and sanitary rental housing of non-luxury nature with suitable amenities.

(n) "Fiscal Integrity" means, for any project for any given period of time during the term specified in the program’s regulatory agreement, that the total Operating Income for such project for such period of time, plus funds released pursuant to the Program documents from the project’s operating reserve account(s) during such period of time is sufficient to: (1) pay all current Operating Expenses for such project for such period of time; (2) pay all current mandatory debt service (excluding deferred interest) coming due with respect to such project for such period of time; (3) fully fund all reserve accounts established pursuant to the Program documents for such project for such period of time; and (4) pay other costs permitted by the Program documents for such project for such period of time. The ability to pay any or all the permitted annual distributions for a project shall not be considered in determining the Fiscal Integrity of a project.

(o) “Grantee” means an eligible Applicant that has been awarded funds under the program.

(p) “HHC” means the Housing for a Healthy California Program administered by the Department.

(q) “Health Homes Program” means the Health Homes Program, administered by the Department of Health Care Services, established pursuant to Article 3.9 (commencing with Section 14127) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code.

(r) “High-cost health users” means people who have had either at least three emergency department visits or one hospital inpatient stay over the last year.

(s) “Homeless” has the same meaning as in Section 578.3 of Title 24 of the Code of Federal Regulations, as that section read on January 1, 2018.

(t) “Housing First” has the same meaning as in Welfare and Institutions Code Section 8255.

(u) “Lead Service Provider” or “LSP” means the organization that has the overall responsibility for the provision of Supportive Services and implementation of the Supportive Services plan. The LSP may directly provide comprehensive case management services or contract with other agencies that provide services.

(v) “Long-term rental assistance” means a rental subsidy provided to a housing provider, including a developer leasing affordable housing, to assist a tenant to pay the difference between 30 percent of the tenant’s income and Fair Market Rent or reasonable market rent as determined by the Department.

(w) “NOFA” means a Notice of Funding Availability.

(x) “Operating Expenses” has the same meaning as in 25 CCR Section 8301.

(y) “Operating Income” has the same meaning as in 25 CCR Section 8301.

(z) “Operating Cost Assistance Reserves” has the same meaning as in 25 CCR Section 8308.

(aa) “Permanent housing” means a housing unit where the landlord does not limit the length of stay in the housing unit, the landlord does not restrict the movements of the tenant, and the tenant has a lease and is subject to the rights and responsibilities of tenancy, pursuant to Chapter 2 (commencing with Section 1940) of Title 5 of Part 4 of Division 3 of the Civil Code.

(bb) “Point in Time Count” or “PIT” refers to an annual count of sheltered and unsheltered homeless persons on a single night in January.

(cc) “Program” means the Housing for a Healthy California Program created by this part.

(dd) “Supportive housing” means housing with no limit on length of stay, that is occupied by the Target Population, and that is linked to onsite or offsite services that assist the Supportive housing resident in retaining the housing, improving his/her health status, and maximizes his/her ability to live, and when possible, work in the community.

(ee) “Supportive Services” means social, health, educational, income support and employment services and, benefits; coordination of community building and educational activities, individualized needs assessment, and individualized assistance with obtaining services and benefits.

(ff) “Target Population” means a person who is Chronically homeless or is Homeless and a High-cost health user upon initial eligibility, is a Medi-Cal beneficiary, is eligible for Supplemental Security Income, is eligible to receive services under a program providing services promoting housing stability, and is likely to improve his or her health conditions with Supportive housing.

(gg) “UMR” means the Uniform Multifamily Regulations commencing with 25 CCR Section 8300.

(hh) “Whole Person Care” Pilot or “WPC” has the meaning as described in the Medi-Cal 2020 Waiver Special Terms and Conditions (STCs), Sections 110-126, as approved by the federal Centers for Medicare and Medicaid Services on December 30, 2015.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53590 and 53595.

Section 202. Minimum Requirements

The Applicant shall comply with the requirements of HHC and all applicable federal and state laws.

(a) The Applicant shall meet all the following minimum requirements:

(1) Has identified a source of funding for providing intensive services promoting housing stability. Funding for these services may include, but is not limited to, one of more of the following:
   a. County general funds.
   b. WPC pilot program funds, to the extent those funds are available, or the WPC program has been renewed
   c. The Health Homes Program
   d. MHSA program
   e. Managed Care Organization
   f. Other County-controlled funding to provide these services to eligible participants

(2) Has developed a process for administering grant funds implementing affordable and Supportive housing projects. The agency the Applicant is partnering with, or the applying housing agency, must have either administered rental assistance or funded an affordable or Supportive housing project within the past three years.

(3) Agrees to collect and report data, as described in Section 219, to the Department.

(4) Must be compliant with both the housing element and their annual progress report submittals.

(b) The Applicant shall submit an application that meets the following requirements:

(1) The request for funding shall promote housing for persons who meet all the following requirements:
   a. Is Chronically homeless, or is homeless and a high-cost health user upon initial eligibility
   b. Is a Medi-Cal beneficiary
   c. Is eligible for Supplemental Security Income
   d. Is eligible to receive services under a program providing services promoting housing stability, including, but not limited to, the following:
      1. The WPC pilot program, to the extent the WPC program is available or has been renewed
      2. The Health Homes Program

3. A locally controlled service program funding or providing services in Supportive housing

e. Is likely to improve his or her health conditions with Supportive housing

(2) The use of funds proposed by the Applicant shall be clearly connected to the goals and strategies pursuant to Section 53591(a)(1).

(3) The amount requested shall not exceed the maximum amount specified in Section 208.

(4) The proposed projects shall be financially feasible for the duration of the HHC rental subsidy.

(5) A resolution from the County board of supervisors, or other controlling body, that authorizes the County to apply for funding and coordinate referrals and access to health care services to HHC tenants, such as a WPC pilot program, Health Homes Program, or other community-based program funding services.

(6) A County Application Plan as specified in Section 211.

(c) A County subrecipient(s) of HHC funds cannot be debarred or suspended from any state programs.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Sections 53592 and 53595.

Section 203. Eligible Uses

(a) A County shall use grants awarded pursuant to this part for any of the following:

(1) Acquisition, new construction, or reconstruction and rehabilitation of (a) project(s). Under this use, Applicants will be subject to Article I, Sections 103(a)(1), 104, 105, 106, 107, and 109(a) of these Guidelines.

(2) Operating assistance, which may include either or both of the following:

a. Long-term rental assistance to private landlords for periods as referenced in the NOFA, subject to renewal grants.

b. A Capitalized Operating Subsidy Reserve (COSR) for at least 15 years to pay for operating costs of an apartment or apartments receiving capital funding to provide Supportive housing to the Target Population.

(3) A County's administrative costs, as determined by the Department NOFA.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 204. Site and Neighborhood and Property Standard Requirements

In carrying out the site and neighborhood standards with respect to new construction, the requirements of 24 CFR 983.57(e)(2) apply. These standards do not apply to rehabilitation projects. However, if project-based vouchers are used in an assisted rehabilitation unit, the site and neighborhood standards for project-based vouchers will apply. In addition, the requirements of 24 CFR Part 8 will apply, and specifically address the site selection with respect to accessibility for persons with disabilities.

The Applicant shall ensure that all Assisted Units meet all applicable federal and state property standards. All Assisted Units must also meet the requirements of 25 CCR Section 8304 for the duration of the affordability period. Projects must meet the accessibility requirements specified in the TCAC regulations, as may be amended and renumbered from time to time, including those of Section 10325(f)(7)(K) and, for senior projects, those of Section 10325(g)(2)(B) and (C). Exemption requests, as provided for in the TCAC regulations, must be approved by the Department.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 205. Occupancy and Income Requirements

(a) Household income shall be determined in accordance with the rules in 24 CFR 93.151. At the time of move-in, household income shall not exceed the established extremely low income (ELI) limits or incomes at or below the poverty line, whichever is greater.

(b) The County or subrecipients shall maintain documentation of tenant income eligibility and eligibility in all the following ways, as applicable:

(1) Documentation of enrollment in or eligibility for Medi-Cal benefits.

(2) Documentation of a person's status as Chronically homeless could be captured through any of the following:
   a. A client's entry and exits documented in a Homeless Management Information System;
   b. An outreach worker or Case Manager's written observations; or
   c. A client's self-report of episodes of Homeless and disability status must be done in accordance with procedures established through the local Coordinated Entry System or other procedures established by the County for determining whether a person qualifies as a Homeless and High-cost health user, or Chronically homeless.

(3) Documentation of a person's status as a High-cost health user could be captured through any of the following:
   a. Discharge summaries; or
   b. An outreach worker's, case manager's or local County's health department written observations.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 206. Rent Limits

(a) Assisted Unit rent shall not exceed the Fair Market Rent or reasonable market rent as determined by the Department. Tenants must meet the income determination requirements of Section 205.

(b) Over-income tenants - if at the time of re-certification, a tenant household's income exceeds the extremely low-income limit, or income at or below the poverty line, then the County/subrecipient:

(1) Shall re-designate the tenant's Assisted Unit as a non-Assisted Unit and designate the next available non-assisted comparable unit as an Assisted Unit until the unit mix required by the Program regulatory agreement is achieved.

(2) If all the project units are Assisted Units, that project can continue with the over-income unit(s) until such time as those over-income households no longer reside in the project.

(3) A unit shall be deemed "comparable" if it has the same number of bedrooms and reasonably similar square footage as the original unit.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 207. Capitalized Operating Subsidy Reserves (COSR)

HHC grant funds may be used to pay for a COSR with the following conditions:

(a) The COSR shall be sized to cover anticipated operating deficits attributable to the Assisted Units for a minimum of 15 years. The total amount of each project's operating reserves will be determined based upon the individual project underwriting performed by the County pursuant to the requirements of these Guidelines.

(b) In determining how to size each project's COSR, the County shall consider individual project factors, such as: the maximum percentage of Assisted Units it will assist; anticipated project vacancy rates; the anticipated percentage of Assisted Units that will have other operating subsidy and the term of that operating subsidy contract, and anticipated tenant incomes.

(c) The following standard assumptions will be used for establishing the total amount of a COSR. The Department may modify these assumptions as necessary to maintain project feasibility or extend the term of the operating reserves.

(1) All Assisted Units, other than the proportionate share of the manager's unit,

shall be counted in calculating the amount of COSR. An Assisted Unit receiving other rental assistance may receive assistance from a COSR.

(2) In projects of greater than 20 units, HHC will assist no more than 49 percent of the total project units. This limitation shall not be interpreted to preclude occupancy of any project units by persons with disabilities or restrictions by other funding sources, including but not limited to TCAC, that result in more than 49 percent of the total project units being restricted to the Target Population. It shall also not apply to projects complying with alternative requirements for demonstrating Olmstead compliance adopted by local jurisdictions and approved by the Department.

(3) In projects of 20 units or less, up to 100 percent of the units may be Assisted Units.

(4) The stabilized residential vacancy rate for the Assisted Units shall be assumed to be 10 percent, unless use of a lower or higher rate is required by another funding source, including TCAC, or is supported by compelling market or other evidence.

(d) Notwithstanding the above, in order to sustain the availability of a COSR for a minimum of 15 years, distributions from a COSR shall be subject to the following:

The County may not disburse more than 5 percent of the total COSR award made to a project per year, except that in any given year where the operating deficit attributable to the Assisted Units exceeds this amount, the Grantee may, in its sole discretion, increase the disbursement to up to 7 percent of the total COSR award, in accordance with the operating reserves limits and applicable review processes.

(e) Operating expenses that are eligible to be paid from a COSR include:

(1) Insurance

(2) Utilities

(3) Real property taxes

(4) Maintenance

(5) Supportive Services costs

(f) The statute/Guidelines do not preclude use of HHC funds on other supportive housing opportunities using capital and operating assistance, as long as the use of the funds is consistent with the requirements of Part 14.2 of Division 31 of the Health and Safety Code, as well as all other state, federal laws and regulations.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 208. Maximum Award Limits

The maximum grant limit is $20,000,000 per Applicant for new construction, acquisition, rehabilitation, rental subsidies, administrative costs and/or operating assistance (COSR and/or rental assistance). The actual award amounts may be adjusted for project size and the number of households served.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 209. Fee Limits

A County may use up to 10 percent of the grant, as reflected in the NOFA, to fund administrative costs for the HHC program.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 210. Use of Operating Cash Flow

Regarding allowable uses of operating cash flow for capital or operating subsidies, including a COSR, the County shall follow the requirements commencing with 25 CCR Section 8314, as applicable.

Where there is a difference between the provisions of the UMRs and these Guidelines, the provisions of these Guidelines shall prevail.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 211. County Application Plan

Any plan that meets the following requirements is acceptable, including, but not limited to, Continuum of Care plans, or any other County plan specific to homelessness. Applicant's proposed uses of funds should be clearly connected to the goals and strategies outlined in the plan.

Applicants should include in their application plan the following:

(a) A description of homelessness County-wide, including a discussion of the estimated number of residents experiencing homelessness or chronic homelessness among single adults, families, and unaccompanied youth;

(b) Special challenges or barriers to serving the Target Population;

(c) County resources applied to address homelessness, including efforts undertaken to prevent the criminalization of activities associated with homelessness;

(d) Available community-based resources, including partnerships with community-based organizations and non-profits;

(e) Identification of other partners tasked with addressing Homeless needs;

(f) Systems in place to collect the data required under Section 219;

(g) Efforts that will be undertaken to ensure that access to a CES, and any alternate assessment and referral system established for the Target Population pursuant to the requirements of these Guidelines, will be available on a nondiscriminatory basis;

(h) Applicants may propose an alternative definition of High-cost health user than defined in Section 201 of these Guidelines.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53592 and 53595.

Section 212. Application Process

(a) The Department shall issue a NOFA that details the application process for Applicants that specifies, among other things, the amount of funds available, application requirements, threshold requirements, award requirements, the allocation of rating points, the deadline for submittal of applications, and other general terms and conditions of funding commitments.

(b) The Department shall evaluate applications for compliance with the minimum requirements set forth in Section 202 and score based on the criteria outlined in Section 213.

(c) Applicants that do not meet the minimum requirements will be rejected and will not be rated.

(d) The Department reserves the right to do the following:

(1) Score an application as submitted in the event information is missing from the application; and

(2) Request clarification of unclear or ambiguous statements made in an application and other supporting documents where doing so will not impact the competitive scoring of the application.

(e) Applications selected for funding shall be approved at amounts, terms, and conditions specified by the Guidelines and the NOFA.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1).

Section 213. Application Selection Criteria

The criteria detailed below and summarized in the following table shall be used to rate applications.

	Maximum Applicable Points
Need	
Number of individuals experiencing homelessness and impact of housing costs (H&S Code 53591(a)(1)(A)	10
Applicant's commitment to address Homeless needs (H&S Code 53591(a)(1)(D)	15
Total Need Points	**25**
Proposed Uses and Process for Using Funds	
Project(s) Description (H&S Code 53591(a)(1)(F)	10
Process for Using Grant Funds (H&S Code 53591(a)(1)(B)	10
Funding Coordination (H&S Code 53591(a)(1)(C)	10
Total Uses of Funds Points	**30**
Experience	
Applicant's experience in rental subsidies, funding, underwriting, or administering Supportive housing projects	15
Applicant's experience with projects comparable in scope/services to proposed project	15
Barriers encountered and addressed	5
Identify any best practices that could be used by other program participants	5
Total Experience Points	**40**
Funding Sources	
Description of plan to sustain funding	30
Total Funding Sources Points	**30**
Incentive Points	
Applicant has Whole Person Care Pilot Program available or renewed, or has Health Homes Program, or has other County-controlled funding that provides similar services to the Target Population. H&S Code 53591(a)(1)(E)	10
Projects with locally committed funding for projects in an amount at least equivalent to requested HHC funding	10
Total Incentive Points	**20**
TOTAL APPLICABLE POINTS	**145**

(a) Need (25 points maximum)

Consideration will be given to the number of individuals experiencing homelessness and the impact of housing costs in the County. Estimated need will be based on the number of Homeless individuals established at the latest PIT count and rent burden in the Applicant's geographic jurisdiction according to the Comprehensive Housing Affordability Strategy (CHAS) data. Points will be awarded as follows:

(1) Estimated Need (10 points maximum)
   a. More than 400 individuals are Homeless in the Applicant's geographic jurisdiction as stated in the NOFA (10 points); or
   b. More than half of the ELI population in the Applicant's geographic jurisdiction pay more than 50 percent of their income towards rent. (5 points)

(2) Describe the Applicant's demonstrated commitment to address the needs of people experiencing homelessness. Applicant has demonstrated successful outcomes in implementing federal and state programs addressing the needs of people experiencing homelessness, along with local commitment of resources. (15 points maximum)
   a. The Applicant has dedicated local resources to provide Permanent housing to residents experiencing homelessness over the last three years and has a plan to address homelessness. The plan has been successful and has been implemented for at least one year (15 points); or
   b. The Applicant has administered programs with successful outcomes in moving people from homelessness to Permanent housing but has not dedicated resources consistently over the last three years. The Applicant has a plan to address homelessness and has been implementing it over the last year (10 points); or
   c. The Applicant proposes to implement some actions in the next 12 months, including implementation of a plan to address homelessness and dedication of local resources. (5 points)

(b) Proposed Uses and Process for Using Funds (30 points maximum)

(1) Project Description. Applicant's description of the specific uses of the grant funds. For each specific planned use of the grant funds, the Applicant must respond to the required items to receive full points: (10 points)
   a. If the Applicant intends to use funding for development, project(s)' location and target date(s) for completion (10 points); or
   b. If the Applicant intends to use funding for rental assistance or a COSR, project(s)' total number of units and the total number of households who will receive Permanent housing and/or rental subsidies under the project (10 points).

(2) Process for Using Grant Funds. The Applicant's description of the following: (10 points maximum)
   a. The Applicant's or agency or agencies responsible for the distribution of the HHC grant funds and the proposed selection criteria and process to identify project(s) and/or sub-recipient(s) (6 points);

b. The timeline with clearly delineated milestones (1 point); and
c. The proposed funding source for the services (3 points)

(3) Funding Coordination. The Applicant's description of how the proposed HHC funding will supplement existing federal, state, and local funding. (10 points maximum)
a. Regarding service provision, the Applicant's description of the following:
1. The funding source(s) (2 points);
2. The amount of funding per participant, per month, the Applicant intends to commit (1 point);
3. The length of time services will be provided (1 point); and
4. The process for selecting the Homeless service provider (2 points).
b. The description of the Applicant's partnerships with affordable and Supportive housing providers to address homelessness (2 points).
c. The description of the Applicant's partnerships with healthcare providers who provide dental, mental health, primary care and substance abuse services (2 points).

(c) Experience (40 points maximum)

(1) The Applicant's experience, for the last three years, in funding and underwriting Supportive housing projects; and/or the Applicant's experience administering Supportive housing projects; and/or the Applicant's experience working with agencies that administer rental subsidies. (15 points maximum)
a. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered four or more projects in the last three years. If the Applicant intends to use funding for rental assistance, the administering agency has administered rental subsidies for at least 500 households in the last three years. (15 points)
b. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered at least two to three projects in the last three years. If the Applicant intends to use funding for rental assistance, the administering agency has administered rental subsidies for at least 300 households in the last three years. (10 points)
c. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered one project in the last three years. If the Applicant intends to use funding for rental assistance, the administering agency has administered rental subsidies for at least 100 households in the last three years. (5 points)

(2) The Applicant's development funding, rental assistance, or other operating assistance to the Target Population that is comparable in scale and scope to the number of projects or rental assistance the Applicant has proposed for the Program. (15 points maximum)
a. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered four or more projects comparable in scale and scope to the proposed project and Target Population. If the Applicant intends to use funding for rental assistance,

the administering agency has administered rental subsidies for at least 500 clients similar to the Target Population. (15 points)

b. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered at least two to three projects comparable in scale and scope to the proposed project and Target Population. If the Applicant intends to use funding for rental assistance, the administering agency has administered rental subsidies for at least 300 clients similar to the Target Population. (10 points)

c. If the Applicant intends to use funding for development or a COSR, the Applicant has developed and/or administered one project comparable in scale and scope to the proposed project and Target Population. If the Applicant intends to use funding for rental assistance, the administering agency has administered rental subsidies for at least 100 clients similar to the Target Population. (5 points)

(3) Description of barrier(s) the Applicant encountered in the implementation of its Homeless strategy or funding and how barriers were resolved. (5 points)

(4) Description of any best practices developed by the Applicant that could be used for other program participants. (5 points)

(d) Funding Sources (30 points maximum)

(1) The Applicant's description of the plan to sustain funding for the program/project. The Applicant may commit to using funding from the Building Homes & Jobs Act allocations to score points in this category. (30 points)

(e) Incentive Points (20 points maximum)

(1) The Applicant has a Whole Person Care Pilot Program or is working with managed care organizations to make available Health Homes Program benefits to people experiencing homelessness. (10 points)

(2) Evidence demonstrating locally committed funding in an amount at least equivalent to requested HHC funding. (10 points)

In the event of tied point scores, the following tiebreakers shall be used to determine which project is selected for funding, in the order listed:

(1) Applicant relevant experience

(2) Need

(3) Application Plan

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1).

Section 214. Supportive Services

(a) Each application must include a County-specific Supportive Services plan that will identify how the County plans to provide or subcontract to provide Supportive Services to participants in the Program.

(b) The County must ensure services are provided to participants, but that participants are not required to participate in services. Access to or continued occupancy in housing cannot be conditioned on participation in services or on sobriety. The Supportive Services plan must describe the services to be made available to HHC tenants in a manner that is voluntary, flexible, and individualized, so HHC tenants may continue to engage with supportive services providers, even as the intensity of services needed may change. The level of services should support tenant engagement and housing retention.

(c) Using evidence-based models, the following Supportive Services shall be made available to HHC tenants based on tenant need. Except as otherwise noted below, the following required services shall be provided onsite at the project or offsite at another location easily accessible to tenants, with the majority of case management services offered on-site:

(1) Housing navigation to assist people experiencing homelessness to establish relationships with private landlords, if the County is using funding for rental assistance, and to apply for housing;

(2) Case management and tenancy support services;

(3) Peer support activities;

(4) Services to link participants, as needed, to behavioral health care, such as assessment, crisis counseling, individual and group therapy, and peer support groups and to coordinate care;

(5) Services to link participants, as needed, to substance abuse disorder treatment;

(6) Support in linking to primary care services, including access to routine and preventive health and dental care, medication management, and wellness services;

(7) Benefits advocacy, including assistance or linkage to services in accessing Medi-Cal and Supplemental Security Income/State Supplementary Payment(SSI/SSP);

(8) Housing retention skills, including working with landlords and neighbors, unit maintenance and upkeep, and money management; and

(9) Services for persons with co-occurring mental and physical disabilities or co-occurring mental and substance use disorders not listed above.

The following Supportive Services are not required to be made available but are encouraged to be part of an Applicant's plan to provide Supportive Services to participants.

(1) Recreational and social activities;

(2) Educational services, including assessment, GED, school enrollment, assistance accessing higher education benefits and grants, and assistance in obtaining reasonable accommodations in the education process;

(3) Employment services, such as supported employment, job readiness, job skills training, job placement, and retention services, or programs promoting volunteer opportunities for those unable to work; and

(4) Obtaining access to other needed services, such as civil legal services, or access to food and clothing.

(d) The following additional information shall be provided in the Applicant's plan to provide Supportive Services:

(1) Description of tenant outreach, engagement, and retention strategies to be used;

(2) Description of each service to be offered, how services will be offered or provided depending upon who is anticipated to be providing the services, the location, and general hours of availability of the services;

(3) For services provided off-site, the plan must describe what public or private transportation options will be available to HHC tenants in order to provide them reasonable access to these services. Reasonable access is access that does not require walking more than one-half mile. Case management services should largely be provided on-site;

(4) Description of how the Supportive Services are culturally and linguistically competent for persons of different races, ethnicities, sexual orientations, gender identities, and gender expressions. This includes explaining how services will be provided to HHC tenants who do not speak English, or have other communication barriers, including sensory disabilities, and how communication among the services providers, the property manager, and these tenants will be facilitated;

(5) Estimated itemized budget, and sources of funding for services;

(6) Description of how the supportive services staff and property management staff or landlord will work together to prevent evictions, adopt and ensure compliance with harm reduction principles, and facilitate the implementation of reasonable accommodation policies from rent-up to ongoing operations of the project;

(7) General service provider and property manager communication protocols;

(8) Provider-to-client staff ratio (1:20);

(9) Description of how the physical design of the project fosters tenant engagement, onsite supportive services provision, safety and security, and sustainability of furnishings, equipment, and fixtures; and

(10) Other information needed by the Department to evaluate the Supportive Services to be offered consistent with the program, as specified in the NOFA.

The Department may request that any necessary updates to the plan to provide Supportive Services or related documents, including fully executed written agreements between the County, service providers, the project owner(s), if relevant, and the property manager, if relevant, be provided prior to the beginning of the initial rent-up period or prior to permanent loan closing, or after participants move into private-market apartments.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53595.

Section 215. Housing First

(a) Projects shall employ Housing First practices that are documented in the Applicant's plan to provide Supportive Services in the application. Projects must adhere to the Housing First core components pursuant to Welfare and Institutions Code Section 8255(b).

(b) Housing First practices include the following:

(1) Tenant selection practices that adhere to Section 216 of these Guidelines and promote the acceptance of Applicants regardless of their sobriety or use of substances, completion of treatment, or agreement to participate in services;

(2) Tenants are not rejected on the basis of poor credit or financial history, poor or lack of rental history, or minor criminal convictions;

(3) Tenants are assisted in making application for tenancy and reasonable accommodation requests;

(4) Supportive Services are flexible and voluntary and focus on housing stability, engagement, and problem-solving over therapeutic goals; and

(5) Landlords or property managers do not impose restrictions on daily activities or limiting privacy, visitors, or the individual's ability to engage freely in community activities.

(c) Management and services practices emphasize tenant retention and offer flexibility and services to prevent and resolve lease violations and evictions. Subsidy-only units

shall follow Housing First property management and services practices described in subsection (b) above or implement modified Housing First practices that, at a minimum, incorporate:

(1) Tenant selection practices that promote the acceptance of Applicants regardless of their sobriety or use of substances, completion of treatment, or agreement to participate in services;

(2) Applicants are seldom rejected on the basis of poor credit or financial history, poor or lack of rental history, or minor criminal convictions;

(3) Applicants are assisted in making application for tenancy and reasonable accommodation requests;

(4) Assistance shall be provided in obtaining Permanent housing as rapidly as possible and without preconditions, such as participation in services, length of stay, or successful completion of transitional housing program. Upon exit to Permanent housing, follow up services shall be provided for no less than six months to ensure that tenants retain Permanent housing; and

(d) Services are voluntary unless required by a public agency funding source.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53595.

Section 216. Tenant Selection

(a) Tenants must meet income requirements in Section 205 and Target Population requirements in Section 202.

(b) Tenants shall be selected through use of a CES, in accordance with the provisions of 25 CCR Section 8305 and in compliance with Housing First requirements consistent with the core components set forth in Welfare and Institutions Code Division 8

Chapter 6.5 Section 8255 subsection (b) and basic tenant protections established under federal, state, and local law.

(1) Reasonable selection criteria, as referred to in 25 CCR Section 8305(a)(1), shall include priority status under a local CES developed pursuant to 24 CFR 578.7(a)(8).

(2) If the CES existing in the County cannot refer persons in the Target Population, the alternative system used must prioritize those with the greatest needs among those for referral to available Assisted Units.

(3) Sponsors shall accept tenants regardless of sobriety, participation in services or treatment, history of incarceration, credit, or history of eviction in accordance with practices permitted pursuant to WIC Section 8255 or other federal or state project funding sources.

(c) The requirements of 25 CCR Sections 8305 (a)(4)(A) and 8305 (a)(4)(D) shall be implemented as approved by the Department in a manner that is consistent with the requirements of the CES.

(d) In communities that are not yet referring people experiencing homelessness to programs through CES, Applicants should describe the process of referring residents based on eligibility for the Program.

(e) Projects must also provide a preference for accessible units to persons with disabilities requiring the features of the accessible units in accordance with Section 10337(b)(2) of the TCAC regulations.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53595.

Section 217. Rental Agreements and Grievance Procedures

Rental or occupancy agreements and grievance procedures for Assisted Units shall comply with 25 CCR Section 8307 and 24 CFR 93.303. Tenants shall not be required to maintain sobriety, be tested for substances, or participate in services or treatment.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53594.

Section 218. Vulnerable Populations Best Practices

The following best practices should be incorporated in the construction of projects that receive funding from HHC, to the extent possible. These best practices work to further the safety and physical and mental well-being of residents within a project.

(a) General best practices for all developments:

(1) Safety features:
   a. Site selection and development of the project should consider the safety concerns of the prospective tenants.
   b. Building entrance and exit points should only allow admittance to residents or guests that residents admit.
   c. Common areas within the project should be oriented so as to have:
      1. Two ways to enter or exit the area;
      2. Visibility to the area from outside of it, i.e. windows in walls or doors; and
      3. A centralized location, to the extent possible.
   d. Safety lighting that reduces or eliminates blind or dark spaces.

(2) Property Management:
   a. Policies to support an on-call staff member or 24-hour availability of staff from the property management company.
   b. Post in common areas and annually review with tenants the project's

grievance policy. The policy should include procedures for grievances with management staff or contractors and the process by which the tenant may elevate the complaint.

(b) For those populations that have a history of sexual trauma and/or domestic violence:

(1) Safety features incorporate all of the general best practices and include the following:

a. For projects that will also be serving women with a history of domestic violence or sexual trauma:

1. Designate at least 25 percent of the Assisted Units for women with a history of domestic violence or sexual trauma and/or women with children, thereby ensuring women are not a small minority of the tenancy.
2. Design projects to provide separate and secure floors, wings, or buildings for women with a history of domestic violence or sexual trauma and/or women with children. These separate and secure areas should restrict access to only the residents in the secured area.

b. Security cameras:

1. At entrances, exits and common areas (including hallways, elevators, and stair wells);
2. Written policy on the use of the cameras to specify who has access to see the videos, who monitors the surveillance, and under what conditions footage would be released to the authorities; and
3. Camera recordings should be maintained for at least 30 days.

(2) Property Management:

a. Policies to support an on-call staff member or 24-hour availability of staff from the property management company.
b. Post in common areas and annually review with tenants the project's grievance policy. The policy should include procedures for grievances with management staff or contractors and the process by which the tenant may elevate the complaint.

(c) The project should have 24-hour security if it serves persons impacted by domestic violence, transition age youth and other vulnerable populations.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53595.

Section 219. Reporting Requirements

The County shall, at annual and midyear intervals, report all of the following data to the Department:

(a) Not later than 90 days after the end of each project's fiscal year, the Grantee shall submit an independent audit of the development prepared by a certified public accountant and in accordance with the Department's current audit requirements and all other applicable requirements, as stated by law or included in the NOFA.

(b) The County shall submit the data as required by the Department to measure the costs and outcomes for each of its Assisted Units. The County shall work with service providers or other sub-recipients to gather the data.

(c) The County shall report on the sources of tenant referrals for the project and submit both client data and performance outcome data to the Department. Tenant data may include, but is not limited to, demographic information. Performance outcome data shall include, but is not limited to, information on housing stability, tenant satisfaction as measured in a survey, and changes in income and benefits received.

(d) The County shall also report on the following:

(1) The number of participants who have received assistance through the Program in that year, and the type of intervention the participant received with HHC funds;

(2) The number of participants living in Supportive housing or other Permanent housing with HHC funds, and exits from the program, and the reasons for the exits; and

(3) To the extent available and feasible, the County shall provide data on the impact of the Program on participant's use of corrections systems and law enforcement resources.

(e) Recipient must comply with 2 CFR Part 512, as outlined in the NOFA.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53593.

Section 220. Operating Budgets

The County shall submit proposed operating budgets to the Department prior to award and annually thereafter. These budgets shall be subject to Department approval and comply with the requirements in 25 CCR Section 7326.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53594.

Section 221. Federal and State Overlays

(a) Federal Overlays. Activities funded with HHC funds are required to comply with 24 CFR Part 93.350 and 24 CFR Part 93.301. Compliance with these requirements include, but are not limited to, environmental provisions, federal Davis-Bacon Wage requirements and state prevailing wage laws, relocation, Equal Opportunity and Fair Housing, Fair Housing Amendments Act, Affirmative Marketing, Section 504 of the Rehabilitation Act and its implementing regulations, and the Americans with Disabilities Act and its implementing regulations, Section 3 (employment of low-income persons), Violence Against Women Act, and Single Audit report 2 CFR Part

200.512. Failure to comply with federal overlays could result in significant project cost increases, and rejection of the HHC application.

(b) State Overlays. Article XXXIV of the California Constitution requires local voter approval before any state public body can develop, construct, or acquire a low-rent housing project in any manner. However, the Public Housing Election Implementation Law (Health & Safety. Code, §§ 37000 – 37002) provides clarification as to when Article XXXIV is applicable.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53594 and 50472.

Section 222. Legal Documents

Grants shall be governed by a Standard Agreement or other agreement with the County on a form prescribed by the Department. The agreement shall ensure that the provisions of these Guidelines are applicable to the project(s) covered by the agreement and enforceable by the Department. The agreement will contain such other provisions as the Department determines are necessary to meet the requirements and goals of the program, including, but not limited to, the following:

(a) Requirements for the execution of a promissory note, operating reserve agreement, or other project-specific contracts as may be applicable;

(b) Requirements set forth in the NOFA;

(c) Requirements, where appropriate, for the execution and recordation of covenants, regulatory agreements, or other instruments restricting the use and occupancy of and appurtenant to the project and the property thereunder (for the purposes of these Guidelines, all such documents are collectively herein referred to as the HHC regulatory agreement);

(d) The County's responsibilities for timing and completion of Projects, if applicable, as well as any and all reporting requirements;

(e) Remedies available to the Department in the event of a violation, breach or default of the Standard Agreement; and

(f) Any and all other provisions necessary to ensure compliance with the requirements of HHC and applicable state and federal law.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53594 and 50472.

Section 223. Defaults and Grant Cancellations

In the event the Department becomes aware of a breach or violation by the Grantee or its participating entities engaged in the delivery of HHC, any of the provisions of HHC–SB 2 requirements or Standard Agreement, or the locally executed HHC loan or

grant pertaining to the project, the Department may give written notice to violators to cure the breach or violation within a period of not less than 15 days. If the breach or violation is not cured to the satisfaction of the Department within the specified time period, the Department, at its option, may declare a default under the relevant document(s) and may seek legal remedies for the default, including but not limited to the following:

(a) Termination of the Grant Agreement and full or partial repayment of the awarded amount.

(b) Suspension from future Department funding awards.

(c) The Department may seek other remedies set forth in the Grant Agreement or any other applicable legal or equitable remedies.

If the breach or violation involves charging tenants rent or other charges in excess of those permitted under the Standard Agreement, the Department may demand the return of such excess rents or other charges to the respective households. In any action to enforce the provisions of the Standard Agreement, the Department may seek, as an additional remedy, the repayment of such overcharges.

NOTE: Authority cited: Health and Safety Code Section 53598(b). Reference cited: Health and Safety Code Section 53591(a)(1) and 53594 and 50472.

ENROLLMENT:

Overall, October enrollment was 797,477

- Favorable to budget 4,185 or 0.5%
- Increased 9,557 or 1.2% from prior month (PM) (September 2020)
- Increased 54,012 or 7.3% from prior year (PY) (October 2019)

Medi-Cal enrollment was 780,743

- Favorable to budget 3,299 or 0.4%
  - Medi-Cal Expansion (MCE) favorable 9,330
  - Seniors and Persons with Disabilities (SPD) favorable 3,413
  - Whole Child Model (WCM) favorable 2,354 due to retroactive enrollment of 2,139
  - Long-Term Care (LTC) favorable 1,389
  - Breast and Cervical Cancer Treatment Program (BCCTP) favorable 44
  - Temporary Assistance for Needy Families (TANF) unfavorable 13,231
- Increased 9,326 from PM

OneCare Connect enrollment was 14,720

- Favorable to budget 666 or 4.7%
- Increased 191 from PM

OneCare enrollment was 1,627

- Favorable to budget 249 or 18.1%
- Increased 33 from PM

PACE enrollment was 387

- Unfavorable to budget 29 or 7.0%
- Increased 7 from PM

MEDI-CAL INCOME STATEMENT – OCTOBER MONTH:

REVENUES of $284.6 million are unfavorable to budget $7.8 million driven by:

- Favorable volume related variance of $1.2 million
- Unfavorable price related variance of $9.0 million
  - $4.1 million of WCM revenue due to retroactive enrollment
  - Offset by $13.2 million of Proposition 56 risk corridor

MEDICAL EXPENSES of $278.3 million are favorable to budget $7.4 million driven by:

- Unfavorable volume related variance of $1.2 million
- Favorable price related variance of $8.6 million
  - Provider Capitation expense favorable variance of $6.2 million due to decreased utilization during COVID-19 pandemic
  - Professional Claims expense favorable variance of $4.2 million due to decreased utilization during COVID-19 pandemic
  - Managed Long Term Services and Supports (MLTSS) expense favorable variance of $2.2 million due to decreased utilization during COVID-19 pandemic
  - Medical Management expense favorable variance of $1.2 million due to decreased utilization during COVID-19 pandemic
  - Offset by Prescription Drugs expense unfavorable variance of $3.9 million
  - Facilities Claims expense unfavorable variance of $1.4 million

ADMINISTRATIVE EXPENSES of $8.9 million are favorable to budget $2.0 million driven by:

- Salaries & Benefit expense favorable to budget $0.4 million
- Other Non-Salary expense favorable to budget $1.6 million

CHANGE IN NET ASSETS is ($2.9) million for the month, favorable to budget $1.3 million

ONECARE CONNECT INCOME STATEMENT– OCTOBER MONTH:

REVENUES of $28.4 million are favorable to budget $2.6 million driven by:

- Favorable volume related variance of $1.2 million
- Favorable price related variance of $1.4 million due to:
  - Calendar year (CY) 2019 Quality Withhold (QW) accrued revenue of $3.3 million
  - Offset by CY 2019 Part D risk sharing reserve adjustment of $1.4 million

MEDICAL EXPENSES of $26.8 million are unfavorable to budget $1.5 million driven by:

- Unfavorable volume related variance of $1.2 million
- Unfavorable price related variance of $0.3 million
  - Provider Capitation expense unfavorable variance of $1.7 million due to CY 2019 QW payable to the Health Networks (HN)
  - Offset by Facilities Claims expense favorable variance of $0.6 million
  - MLTSS expense favorable variance of $.03 million
  - Prescription drug expense favorable variance of $0.3 million
  - Medical Management expense favorable variance of $0.2 million

ADMINISTRATIVE EXPENSES of $1.7 million are unfavorable to budget $0.1 million

CHANGE IN NET ASSETS is ($0.1) million, favorable to budget $1.1 million

CalOptima Homeless Response Team	6,000,000	
Homeless Coordination at Hospitals	10,000,000	
CalOptima Days & Quality Incentive (QI) Program - Homeless Clinic Access Program (HCAP)	1,231,087	
FQHC (Community Health Center) Expansion and HHI Support	570,000	
HCAP Expansion for Telehealth and Clinical Field Team (CFT) On Call Days	1,000,000	
Funds Allocation Total		42,801,087
Program Commitment Balance, available for new initiatives:		$57,198,913

On June 27, 2019 at a Special Board meeting, the Board approved four funding categories.
This report only lists Board approved projects.

Budget Allocation Changes
Reporting Changes for October 2020

Transfer Month	Line of Business	From	To	Amount	Expense Description	Fiscal Year
July	Medi-Cal	Maintenance HW/SW – Corporate Application SW - LexisNexis	Maintenance HW/SW – HR Corporate Application SW - SilkRoad	$12,000	To repurpose funds from LexisNexis renewal to fund shortages in SilkRoad renewal and additional licenses	2021
October	Medi-Cal	Maintenance HW/SW - UPS Maintenance	Maintenance HW/SW - Desktop - Adobe Acrobat	$35,000	To repurpose funds from UPS Maintenance to fund shortages in Desktop - Adobe Acrobat	2021
October	Medi-Cal	Maintenance HW/SW - Microsoft True-Up	Maintenance HW/SW - Desktop - Microsoft Enterprise License Agreement	$91,000	To repurpose funds from Microsoft License True-Up to fund shortages in the new 3-year Microsoft Enterprise License Agreement	2021

This report summarizes budget transfers between general ledger classes that are greater than $10,000 and less than $100,000.
This is the result of Board Resolution No. 12-0301-01 which permits the CEO to make budget allocation changes within certain parameters.

Board of Directors Meeting
December 3, 2020

Monthly Compliance Report

The purpose of this report is to provide compliance updates to CalOptima's Board of Directors, including but may not be limited to, updates on internal and health network monitoring and audits conducted by CalOptima's Audit & Oversight department, regulatory audits, privacy updates, fraud, waste, and abuse (FWA) updates, and any notices of non-compliance or enforcement action issued by regulators.

A. Updates on Regulatory Audits

1. OneCare

- 2021 CMS Readiness Checklist (applicable to OneCare and OneCare Connect):

  On October 2, 2020, the Centers for Medicare & Medicaid Services (CMS) released the 2021 Readiness Checklist for Medicare Advantage Organizations (MAOs) and Medicare-Medicaid Plans (MMPs). Plans are expected to fulfill key operational requirements summarized in the Readiness Checklist for the 2021 benefit year. CalOptima's Regulatory Affairs & Compliance (RAC) department is leading efforts to ensure compliance with requirements set forth in the 2021 Readiness Checklist for impacted operational areas.

- 2021 Timeliness Monitoring Project (TMP):

  On September 18, 2020, CMS announced it will conduct the industry wide Timeliness Monitoring Project (TMP) starting in January 2021. CMS will collect data for organization determinations, and appeals and grievances (ODAG) to assess timeliness in processing Medicare Advantage (Part C) reconsiderations, as well as compliance with forwarding cases to the independent review entity (IRE). Beginning with the 2021 TMP, CMS will no longer collect the Part D coverage determinations, and appeals and grievances (CDAG) audit universes used to evaluate these measures.

  The review period requested for CalOptima will be January to March 2020. Findings may result in compliance actions, if necessary, and may have implications for the Star Ratings. At this time, CalOptima is pending the CMS engagement notice, expected to be released in January 2021.

Back to Agenda

- Compliance Program Effectiveness (CPE) Audit (applicable to OneCare and OneCare Connect):

  CalOptima is required to conduct an independent audit on the effectiveness of its Compliance program on an annual basis. As such, CalOptima has engaged an independent consultant to conduct the audit to ensure that its Compliance Program is administering the elements of an effective compliance program, as outlined in the CMS Medicare Parts C and D Program Audit Protocols.

  On August 17, 2020, CalOptima received an audit engagement letter from the independent auditor. The audit was held virtually from October 12 – 19, 2020. On November 13, 2020, CalOptima received the final audit report, which cited one (1) finding related to timely completion of audit activities and corrective action plans. The auditor also recognized CalOptima for having implemented four (4) best practices related to the organization and comprehensiveness of CalOptima's compliance program, its communication channels, oversight activities for call center monitoring, and the comprehensiveness of its FWA investigation process and related communications.

2. PACE

- 2019 CMS Financial Audit:

  On August 13, 2020, CMS notified CalOptima PACE that it has been selected for the 2019 CMS Financial Audit. By way of background, at least one-third of Medicare Advantage Organizations (MAOs) are selected for the annual audit of financial records, which will include data relating to Medicare utilization, costs, and computation of the bid. CalOptima was notified that the Certified Public Accountant (CPA) firm, Myers & Stauffer, will be leading this audit. Myers & Stauffer will audit and inspect any books and records of the CalOptima that pertain to 1) the ability of the organization to bear the risk of potential financial losses, or 2) services performed or determinations of amounts payable under the contract.

  On October 21, 2020, Myers & Stauffer held an entrance conference to discuss the different sections of the audit engagement, initial priorities, and timing of the remainder of the examination. CalOptima has completed the 30-day document request and 60-day document request by each of the respective deadlines.

3. Medi-Cal

- 2021 DHCS Medical Audit (Postponed):

  Due to the ongoing public health emergency, the Department of Health Care Services (DHCS) will not be conducting its annual medical audit of CalOptima's Medi-Cal program in 2021. Instead, the DHCS will resume its audit cycle for CalOptima in 2022 and will utilize a two-year lookback period instead of the customary one-year lookback period. In

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

2022, the audit scope will include the Medi-Cal Seniors and Persons with Disabilities (SPD) and the Non-SPD population.

- 2020 DHCS Medical Audit:

  The DHCS' onsite audit of CalOptima took place from January 27, 2020 to February 7, 2020. The audit covered the review period of February 1, 2019 to January 31, 2020 and pertained to CalOptima's Medi-Cal program as well as elements of its OneCare Connect Medicaid-based services. DHCS reviewed an array of documents and data and conducted interviews with CalOptima staff as well as with a DHCS-selected delegate, Monarch HealthCare.

  On August 11, 2020, the DHCS provided CalOptima with a final audit report and a formal request for a corrective action plan (CAP). The report identified seven (7) Medi-Cal findings in the audit areas of Access and Availability of Care and Member's Rights. CalOptima did not receive any findings for State Supported Services or the Cal MediConnect program. CalOptima submitted a timely CAP to the DHCS by the deadline of September 11, 2020.

  On October 27, 2020, CalOptima provided two (2) revisions to the original CAP submitted on September 11, 2020. The DHCS continues to review the CAP and engage CalOptima in ongoing dialogue, offering feedback and support. CalOptima will continue to provide monthly status updates to the DHCS on its progress implementing the CAP. The next monthly update is due to DHCS no later than November 11, 2020.

- Rate Development Template (RDT) Audit:

  On May 30, 2019, Mercer and the DHCS engaged CalOptima for the RDT audit which focuses on the accuracy and completeness of calendar year 2017 Medi-Cal RDT encounter and financial data submitted to the DHCS as part of the rate development process for 2019-20.

  On August 7, 2019, Mercer auditors were onsite to interview key staff. On October 11, 2020, CalOptima received Mercer's final audit report. Based on the summary of findings in the report, Mercer identified small but acceptable variances, and provided recommendations to increase the validity of CalOptima RDT medical expense reporting. Mercer noted the results of the audit for administrative expenditures are determined to be immaterial and do not warrant corrective action.

B. Regulatory Notices of Non-Compliance

- CalOptima did not receive any notices of non-compliance from its regulators for the month of October 2020.

C. Updates on Internal and Health Network Monitoring and Audits

1. Monitoring Dashboard: Medi-Cal Grievance & Appeals Resolution Services (GARS) [a\]

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- As part of the monitoring process, CalOptima's Audit & Oversight department, in collaboration with business areas, maintains a dashboard to monitor key performance metrics for internal and external operations on a monthly basis. Dashboard results are presented to CalOptima's Audit & Oversight Committee and Compliance Committee for oversight. Below are the dashboard results for the months of June - September 2020 for Medi-Cal GARS. CalOptima's GARS department did not meet resolution timeliness requirements for four (4) consecutive months for Medi-Cal expedited appeals.

Month	Compliance Goal	Expedited Appeals Resolved within ≤ 72 Hours of Receipt
June 2020	98%	88%
July 2020	98%	88%
August 2020	98%	88%
September 2020	98%	88%

  - ➢ CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during its oversight of the dashboard measure for Medi-Cal expedited appeals. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of expedited appeals.

2. Internal Monitoring: Medi-Cal, OneCare and OneCare Connect [a\]

- Exclusion Monitoring: Contracting

Month	General Services Administration's (GSA) System for Award Management (SAM)	Medi-Cal Suspended and Ineligible (S&I)	OIG Exclusions Database (OIG LEIE Database)	CMS Preclusion List
June 2020	100%	100%	100%	100%
July 2020	75%	75%	75%	75%
August 2020	100%	100%	100%	100%

  - ➢ CalOptima's Contracting department conducts exclusion monitoring for CalOptima's health networks, medical group practitioners, and non-medical providers. For the June 2020 file review of the exclusion monitoring process, CalOptima's Contracting department received a compliance score of 100% based on a focused review of two (2) exclusion monitoring files selected for review.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- For the July 2020 file review, CalOptima's Contracting department received a compliance score of 75% based on a focused review of four (4) exclusion monitoring files selected for review. The lower compliance scores were due to data integrity issues.

- For the August 2020, CalOptima's Contracting department received a compliance score of 100% based on a focused review of three (3) exclusion monitoring files selected for review.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during its focused review of the exclusion monitoring process. The A&O department continues to work with the Contracting department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely exclusion monitoring.

- Exclusion Monitoring: Human Resources

Month	General Services Administration's (GSA) System for Award Management (SAM)	Medi-Cal Suspended and Ineligible (S&I)	OIG Exclusions Database (OIG LEIE Database)	CMS Preclusion List
June 2020	100%	96.67%	100%	100%
July 2020	100%	100%	100%	100%
August 2020	100%	100%	100%	100%

- CalOptima's Human Resources department conducts initial and ongoing exclusion monitoring for CalOptima's employees and its Board of Directors.

- Based on a focused review of thirty (30) exclusion monitoring files for each of the months of June - August 2020, CalOptima's Human Resources department received a compliance score of 96.67% for its monitoring of the Medi-Cal S&I list due to one (1) file missing information.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) to the Human Resources department for the deficiency identified. The A&O department continues to work with the Human Resources department to remediate the deficiency by identifying accurate root causes and implementing quality controls to ensure accurate and timely exclusion and preclusion monitoring.

5 a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Exclusion Monitoring: Quality Improvement

Month	General Services Administration's (GSA) System for Award Management (SAM)	Medi-Cal Suspended and Ineligible (S&I)	OIG Exclusions Database (OIG LEIE Database)	CMS Preclusion List
June 2020	100%	100%	100%	100%
July 2020	100%	100%	100%	100%
August 2020	100%	100%	100%	100%

  - CalOptima's Quality Improvement department conducts exclusion monitoring for CalOptima's medical providers, practitioners, and health delivery organizations.

  - Based on a focused review of thirty (30) exclusion monitoring files for each of the months of June - August 2020, CalOptima's Quality Improvement department received a compliance score of 100%.

- Exclusion Monitoring: Regulatory Affairs & Compliance

Month	General Services Administration's (GSA) System for Award Management (SAM)	Medi-Cal Suspended and Ineligible (S&I)	OIG Exclusions Database (OIG LEIE Database)	CMS Preclusion List
June 2020	100%	100%	100%	100%
July 2020	100%	100%	100%	100%
August 2020	100%	100%	100%	100%

  - CalOptima's Regulatory Affairs & Compliance department conducts monthly exclusion monitoring for CalOptima's first-tier, downstream, and related entities (FDRs), and vendors.

  - Based on a focused review of thirty (30) exclusion monitoring files for each of the months of June - August 2020, CalOptima's Regulatory Affairs & Compliance department received a compliance score of 100%.

6 a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Exclusion Monitoring: Vendor Management

Month	General Services Administration's (GSA) System for Award Management (SAM)	Medi-Cal Suspended and Ineligible (S&I)	OIG Exclusions Database (OIG LEIE Database)	CMS Preclusion List
June 2020	100%	100%	100%	100%
July 2020	100%	100%	100%	100%
August 2020	100%	100%	100%	100%

- CalOptima's Vendor Management department conducts initial exclusion monitoring for CalOptima's first-tier, downstream, and related entities (FDRs), and vendors.

- Based on a focused review of eight (8) exclusion monitoring files for the months of June - August 2020, CalOptima's Vendor Management department received a compliance score of 100%.

3. Internal Monitoring: Medi-Cal[a\]

- Medi-Cal GARS: Standard Appeals

Month(s)	Classification Score	Standard Appeals Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Appeals Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	100%	100%
August 2020	100%	100%	100%	100%	100%

- For the July 2020 file review of Medi-Cal standard appeals, CalOptima's GARS department received a compliance score of 100% based on a focused review of twelve (12) standard appeals selected for review.

- For the August 2020 file review of Medi-Cal standard appeals, CalOptima's GARS department received a compliance score of 100% based on a focused review of ten (10) standard appeals selected for review.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Medi-Cal GARS: Expedited Appeals

Month(s)	Classification Score	Expedited Appeals Verbally Acknowledged within ≤ 24 Hours of Receipt	Language Preference	Member Notice Content	Resolution of Expedited Appeals Resolved within 72 Hours of Receipt
July 2020	100%	100%	100%	87.5%	87.5%
August 2020	100%	N/A	100%	100%	90%

- Based on a focused review of eight (8) Medi-Cal expedited appeals for July 2020, the lower compliance score of 87.5% for member notice content was due to one (1) file not containing criteria name/title in the resolution letter utilized for review.

- Based on a focused review of eight (8) Medi-Cal expedited appeals for July 2020, the lower compliance score of 87.5% for resolution of expedited appeals resolved within 72 hours of receipt was due to one (1) file not meeting the timeframe for processing an expedited appeal.

- Based on a focused review of ten (10) Medi-Cal expedited appeals files for August 2020, the lower compliance score of 90% for the resolution of expedited appeals resolved within 72 hours of receipt was due to one (1) file not meeting the timeframe for processing an expedited appeal.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of Medi-Cal expedited appeals. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of expedited appeals.

- Medi-Cal GARS: Standard Grievances

Month(s)	Classification Score	Standard Grievance Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Standard Resolution of Grievances Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	70%	100%
August 2020	100%	100%	100%	77.78%	100%

- Based on a focused review of ten (10) Medi-Cal standard grievances for July 2020, the lower compliance score of 70% for member notice content was due to three (3) files not

8 a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

meeting the required sixth (6th) grade reading level in the resolution letters. One (1) of the files also failed due to incomplete resolution.

- Based on a focused review of nine (9) Medi-Cal standard grievances for August 2020, the lower compliance score of 77.78% for the member notice content was due to two (2) files not meeting the required sixth (6th) grade reading level in the resolution letters.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of Medi-Cal's standard grievances. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard grievances.

- Medi-Cal GARS: Expedited Grievances

Month(s)	Classification Score	Expedited Grievances Verbally Acknowledged within ≤ 24 Hours of Receipt	Language Preference	Member Notice Content	Expedited Grievances Resolved within ≤ 72 Hours of Receipt
July 2020	100%	100%	100%	50%	90%
August 2020	100%	100%	90.91%	81.82%	100%

- Based on a focused review of ten (10) Medi-Cal expedited grievances for July 2020, the lower compliance score of 50% for member notice content is due to five (5) files failing due to the resolution letters not being issued at the sixth (6th) grade reading level. One (1) of the files also failed due to incomplete resolution.

- Based on a focused review of ten (10) Medi-Cal expedited grievances for July 2020, the lower compliance score of 90% for expedited grievances resolved within ≤ 72 hours of receipt was due to one (1) file not being resolved within the required timeframe.

- Based on a focused review of eleven (11) Medi-Cal expedited grievances for August 2020, the lower compliance score of 90.91% for language preference was due to one (1) resolution letter not being in the member's preferred language.

- Based on a focused review of eleven (11) Medi-Cal expedited grievances for August 2020, the lower compliance score of 81.82% for the member notice content was due to two (2) files failing due to the following reasons:
  - One (1) file failed due to the resolution letter not being issued at the sixth (6th) grade reading level.
  - One (1) file failed due to incomplete resolution.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of Medi-Cal

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

expedited grievances. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of expedited grievances.

- Medi-Cal Utilization Management: Standard Prior Authorizations

Month(s)	Universe Integrity	File Classification	Resolution Timeliness	Provider and Member Notification Timeliness	Clinical Decision Making Review	Processing Accuracy	Written Response in Members Preferred Language	Accuracy of Member Notice Content	Universe Validation
July 2020	90%	100%	100%	100%	100%	100%	100%	100%	100%
August 2020	100%	90%	70%	100%	70%	100%	100%	90%	100%

- Based on a focused review of ten (10) Medi-Cal prior authorizations for July 2020, the lower compliance score of 90% was due to a universe integrity issue.

- Based on a focused review of ten (10) Medi-Cal prior authorizations for August 2020, the lower compliance score of 90% for file classification was due to a misclassified file in the universe.

- Based on a focused review of ten (10) Medi-Cal prior authorizations for August 2020, the lower compliance score of 70% was for untimely resolution of prior authorizations.

- Based on a focused review of ten (10) Medi-Cal prior authorizations for August 2020, the lower compliance score of 70% for clinical decision making review was due to not following the appropriate ordering for clinical decision making.

- Based on a focused review of ten (10) Medi-Cal prior authorizations for August 2020, the lower compliance score of 90% for accuracy of member notice content was due to a denial letter not meeting the sixth (6^{th}) grade reading level.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of standard Medi-Cal prior authorizations. The A&O department continues to work with the Utilization Management department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard prior authorizations.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Medi-Cal Utilization Management: Urgent Prior Authorizations

Month(s)	Universe Integrity	File Classification	Resolution Timeliness	Provider and Member Notification Timeliness	Clinical Decision Making Review	Processing Accuracy	Written Response in Members Preferred Language	Accuracy of Member Notice Content	Universe Validation
July 2020	100%	100%	100%	100%	100%	100%	100%	100%	100%
August 2020	100%	100%	100%	100%	100%	100%	100%	80%	100%

- For the July 2020 file review of Medi-Cal urgent prior authorizations, CalOptima's Utilization Management department received a compliance score of 100% for a focused review of six (6) urgent prior authorizations.

- Based on a focused review of ten (10) Medi-Cal urgent prior authorization for August 2020, the lower compliance score of 80% for accuracy of member notice content was due to notices not written in lay language.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of urgent Medi-Cal prior authorizations. The A&O department continues to work with the Utilization Management department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of urgent prior authorizations.

4. Internal Monitoring: OneCare [a\]

- OneCare GARS: Standard Appeals

Month(s)	Universe Integrity	Classification Score	Standard Appeals Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Appeals Resolved ≤ 30 Calendar Days of Receipt
July 2020	N/A	100%	100%	N/A	100%	100%
August 2020	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report

- For the July 2020 file review of OneCare standard appeals, CalOptima's GARS department received a compliance score of 100% based on a focused review of one (1) standard appeal file selected for review.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- OneCare GARS: Standard Grievances

Month(s)	Universe Integrity	Classification Score	Standard Appeals Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Appeals Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	N/A	25%	100%
August 2020	100%	100%	100%	100%	57.14%	100%

- Based on a focused review of four (4) OneCare standard grievances for July 2020, the lower compliance score of 25% for member notice content was due to three (3) resolution letters exceeding the sixth (6th) grade reading level. One (1) of the files also failed due to incomplete resolution.

- Based on a focused review of seven (7) OneCare standard grievances for August 2020, the lower compliance score of 57.14% for member notice content was due to three (3) resolution letters exceeding the sixth (6th) grade reading level.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of OneCare standard grievances. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard grievances.

- OneCare Utilization Management: Standard Pre-Service Organization Determinations

Month(s)	Universe Integrity	File Classification	Resolution Timeliness	Provider and Member Notification Timeliness	Clinical Decision Making Review	Processing Accuracy	Written Response in Members Preferred Language	Accuracy of Member Notice Content	Universe Validation
July 2020	100%	100%	100%	100%	75%	100%	100%	100%	100%
August 2020	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report	Nothing to Report

- Based on a focused review of four (4) OneCare standard pre-service organization determinations for July 2020, the lower compliance score of 75% for clinical decision making review was due to incorrect medical criteria applied.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of standard

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

OneCare pre-service organization determinations. The A&O department continues to work with the Utilization Management department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of pre-service organization determinations.

5. Internal Monitoring: OneCare Connect [a\]

- OneCare Connect GARS: Standard Appeals

Month(s)	Universe Integrity	Classification Score	Standard Appeals Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Appeals Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	100%	100%	100%
August 2020	100%	100%	100%	100%	70%	100%

➢ Based on a focused review of ten (10) OneCare Connect standard appeals for August 2020, the lower compliance score of 70% for member notice content was due to three (3) resolution letters exceeding the sixth (6^{th}) grade reading level.

➢ CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of OneCare Connect standard appeals. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard appeals.

- OneCare Connect GARS: Expedited Appeals

Month(s)	Universe Integrity	Classification Score	Standard Appeals Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Appeals Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	100%	100%	100%
August 2020	Nothing To Report	Nothing To Report	Nothing To Report	Nothing To Report	Nothing To Report	Nothing To Report

➢ For the July 2020 file review of OneCare Connect expedited appeals, CalOptima's GARS department received a compliance score of 100% based on a focused review of one (1) expedited appeal file selected for review.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- OneCare Connect GARS: Standard Grievances

Month(s)	Universe Integrity	Classification Score	Standard Grievance Acknowledged ≤ 5 Calendar Days of Receipt	Language Preference	Member Notice Content	Resolution of Grievance Resolved ≤ 30 Calendar Days of Receipt
July 2020	100%	100%	100%	100%	46.67%	100%
August 2020	100%	100%	100%	100%	86.67%	100%

- Based on a focused review of fifteen (15) OneCare Connect standard grievances for July 2020, the lower compliance score of 46.67% for member notice content was due to the following:
  - Seven (7) files failed due to the resolution letters exceeding the sixth (6^{th}) grade reading level.
  - Two (2) files failed due to incomplete resolution letters.

- Based on a focused review of fifteen (15) OneCare Connect standard grievances for August 2020 file, the lower compliance score of 86.67% for member notice content was due to two (2) files containing an inaccurate grievance filing date on the resolution letters.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of OneCare Connect standard grievances. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard grievances.

- OneCare Connect Utilization Management: Standard Prior Authorizations

Month(s)	Universe Integrity	File Classification	Resolution Timeliness	Provider and Member Notification Timeliness	Clinical Decision Making Review	Processing Accuracy	Written Response in Member's Preferred Language	Accuracy of Member Notice Content	Universe Validation
July 2020	100%	100%	100%	90%	80%	100%	100%	100%	100%
August 2020	100%	100%	100%	100%	80%	100%	90%	90%	100%

- Based on a focused review of ten (10) OneCare Connect standard prior authorizations for July 2020, the lower compliance score of 90% was due to missing documentation for a provider notification.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Based on a focused review of ten (10) OneCare Connect standard prior authorizations for July 2020, the lower compliance score of 80% for clinical decision making review was due to not following the appropriate ordering for clinical decision making.

- Based on a focused review of ten (10) OneCare Connect prior authorizations for August 2020, the lower compliance score of 80% for clinical decision making review was due to applying incorrect medical criteria.

- Based on a focused review of ten (10) OneCare Connect prior authorizations for August 2020, the lower compliance score of 90% for accuracy of member notice content was due to one (1) notice not being written in lay language.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of OneCare Connect standard prior authorizations. The A&O department continues to work with the Utilization Management department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of standard prior authorizations.

- OneCare Connect Utilization Management: Expedited Service Authorizations

Month(s)	Universe Integrity	File Classification	Resolution Timeliness	Provider and Member Notification Timeliness	Clinical Decision Making Review	Processing Accuracy	Written Response in Members Preferred Language	Accuracy of Member Notice Content	Universe Validation
July 2020	100%	100%	100%	80%	80%	100%	100%	100%	100%
August 2020	100%	100%	100%	80%	90%	100%	80%	90%	100%

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for July 2020, CalOptima's Utilization Management department received a compliance score of 80% due to untimely member notifications.

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for July 2020, the lower compliance score of 80% for clinical decision making review was due to not following the appropriate ordering for clinical decision making.

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for August 2020, CalOptima's Utilization Management department received a compliance score of 80% due to untimely member notifications.

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for August 2020, the lower compliance score of 90% for clinical decision making review was due to not following the appropriate ordering for clinical decision making.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for August 2020, CalOptima's Utilization Management department received a compliance score of 80% due to the member notice not being written in the member's preferred language.

- Based on a focused review of ten (10) OneCare Connect expedited prior authorizations for August 2020, the lower compliance score of 90% for accuracy of member notice content was due to one (1) notice not being written in lay language.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of expedited OneCare Connect prior authorizations. The A&O department continues to work with the Utilization Management department to remediate the deficiencies by identifying accurate root causes and implementing quality controls to ensure accurate and timely processing of expedited prior authorizations.

6. Internal Audits: OneCare and OneCare Connect Medication Therapy Management (MTM) Program

   - During the third quarter of 2020, CalOptima's Audit & Oversight (A&O) department conducted a full-scope audit of CalOptima's OneCare and OneCare Connect Medication Therapy Management Program to ensure compliance with universe, timeliness, and clinical decision making requirements for the review period of January 2020- June 2020. No findings were identified during the audit.

Measures	Files Reviewed	Compliant Files	Non- Compliant Files	Compliance Score
Medication Therapy Management (MTM) Enrollment				
Universe submission timeliness	1	1	0	100%
Universe accuracy	5	5	0	100%
Comprehensive Medication Reviews (CMRs) and Targeted Medication Reviews (TMRs)				
Annual CMR offered?	5	5	0	100%
For newly targeted beneficiaries, CMR offered within 60 days of enrollment?	5	5	0	100%
Cognitively impaired members were appropriately outreached to via an authorized representative (AOR) to offer a CMR?	5	5	0	100%
Annual CMR performed in accordance with CMS' professional service definition?	5	5	0	100%
Written summary of CMR provided to member/AOR in the standardized format, if applicable?	5	5	0	100%

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

CMR services were provided consistent with the approved program description, if applicable?	5	5	0	100%
TMRs performed at least quarterly?	5	5	0	100%
TMR services were provided consistent with the approved program description?	5	5	0	100%
TMR beneficiary/provider interventions are implemented consistent with the approved program description?	5	5	0	100%

7. Health Network Monitoring: Medi-Cal [a\]

- Medi-Cal Utilization Management (UM): Prior Authorization (PA) Requests

Month	Timely Urgent Requests	Clinical Decision Making (CDM) for Urgent	Letter Score for Urgent	Timely Routine Requests	Timely Denials	CDM for Denials	Letter Score for Denials	Timely Modified Requests	CDM for Modified	Letter Score for Modified	Timely Deferrals	CDM for Deferrals	Letter Score for Deferrals

Akin Gump
STRAUSS HAUER & FELD LLP

M E M O R A N D U M

November 16, 2020

To: CalOptima

From: Akin Gump Strauss Hauer & Feld, LLP

Re: November Board of Directors Report

All eyes were on the elections this month, which yielded a victory for presidential candidate Joe Biden even as the status quo is expected to prevail in Congress. Meanwhile, appropriations work and COVID-19 relief will dominate Congress' lame duck agenda, though a deal on the latter has so far proved elusive. This report covers developments through November 16.

2020 Election Results

Former Vice President Joe Biden (D) defeated President Donald Trump (R) in the 2020 presidential election, the first time since 1992 that an incumbent president has failed to be reelected for a second term. The race saw record turnout, with each candidate receiving more than 70 million votes. With about 97 percent of votes counted nationwide, Biden currently stands at 290 electoral votes and President Trump at 232. The race remains too close to call in Georgia, where a hand recount is underway. As of November 16, President Trump has refused to concede the election, disputing the results and claiming that millions of votes were illegally cast. He has filed a number of lawsuits disputing election results in multiple states, but these challenges are making little headway in courts.

Senate Republicans performed better than expected on November 3, fending off a number of Democratic challengers and defeating Sen. Doug Jones (D) in Alabama. Democrats flipped seats in Colorado and Arizona. Currently, Republicans have 50 seats and Democrats have 48. Control of the Senate will come down to two Georgia races that are headed to a run-off in January. Republican incumbents Kelly Loeffler and David Perdue will be defending their seats against Democratic challengers in races that could set fundraising records. If Republicans win one or both of the Georgia races, the GOP will maintain control of the Senate. Democrats need both seats to have a majority (with Vice President Kamala Harris acting as the tie-breaker).

Democrats will maintain control of the House in 2021, albeit with a smaller majority after Republicans made unexpected gains on Election Day. Currently, Democrats have won 219 seats and Republicans have won 203. Thirteen races have yet to be called. Notably, women and minority candidates drove many of the GOP's gains in the House. At least 35 Republican women are expected to serve in the 117th Congress. Among the new Republican women the House will welcome are Michelle Steel and Young Kim for the Orange County delegation.

Back to Agenda

Lame Duck Agenda

As the 116th Congress concludes its second session, near-term action is expected on several "must-pass" measures during the lame duck period. In order to avoid a government shutdown, Congress will need to pass a spending bill before the current Continuing Resolution (CR) expires on December 11. The House has passed 10 of the 12 Fiscal Year (FY) 2021 appropriations bills; the Senate Appropriations Committee released its text and committee reports for the 12 spending bills on November 9. Markups of the Senate bills are unlikely given the tight timeframe.

Senate Majority Leader Mitch McConnell (R-KY) and House Speaker Nancy Pelosi (D-CA) both have predicted that an omnibus spending package will be used to wrap up FY 2021 appropriations, rather than a short-term CR into early 2021. House and Senate appropriators also may pursue a dual package – a so-called "CRomnibus" – that would include an assortment of agreed-upon FY 2021 appropriations bills combined with a CR to fund the remainder of the appropriations bills at current levels through September 30, 2021.

Health care extenders also were included in the latest CR and are now set to expire on December 11. Authorizers are invested in extending the expiring provisions on a longer-term basis, but whether this is feasible in the context of the funding vehicle likely will depend on whether appropriators are able to reach broader agreement on 2021 funding or pass a clean CR extending current funding levels.

An agreement on a targeted legislative package to address the COVID-19 pandemic is possible in the lame duck. However, a more comprehensive bill appears unlikely given current divisions. Senate Republicans are arguing that Democrats' losses in the House signal support for a smaller package with a total cost of less than $1 trillion. Speaker Pelosi, meanwhile, continues to make the case for a more far-reaching package. Prior to the election, President Trump called for spending more than the $2.4 trillion that House Democrats included in their most recent proposal. It remains unclear how the White House will negotiate now that the President has lost his reelection bid.

While the congressional calendar is subject to change depending on the status of appropriations and possible COVID-19 relief, the House is scheduled to be in session following the Thanksgiving recess from December 1-4 and December 7-10. Members-elect will participate in orientation and leadership elections will take place the week of November 16-20. The Senate will return to Washington following Thanksgiving on November 30 and are expected to stay until December 21. Senate Republicans and Democrats recently held leadership elections for the 117th Congress. Majority Leader McConnell and Minority Leader Chuck Schumer (D-NY) will remain as party leaders. The other Republican leaders will remain the same. Democrats added Sens. Cory Booker (D-NJ) and Catherine Cortez Masto (D-NV) to leadership.

Back to Agenda

Outlook for 2021

President-elect Biden will likely take office with a divided Congress in 2021, limiting his ability to advance progressive policies. With a narrower Democratic majority in the House, a Republican Senate, and no ability to use the budget reconciliation process, he will have little immediate recourse if the Supreme Court strikes down the Affordable Care Act (ACA). Any replacement would require support from Senate Republicans, who tried several times over the past four years to repeal the law. The Biden Administration is expected to roll back the Trump Administration's Section 1332 guidance, which gave states additional flexibility to waive ACA insurance requirements. President-elect Biden is expected to deny any pending requests from states seeking permission to test work requirements in Medicaid and shift the Administration's positions in lawsuits challenging work requirements already approved in other states. In addition, the Medicaid Fiscal Accountability Regulation (MFAR) is unlikely to be resurrected under the Biden Administration.

Biden has touted his ability to work across the aisle, and he may try to strike deals with Republicans on narrow drug pricing reforms as well as surprise medical billing. Absent a willing Congress, the Biden Administration could use executive orders and demonstration authority to advance health care priorities. There are also opportunities for bipartisan cooperation on high-tech and privacy initiatives, as well as trade, supply chain, and China-related measures.

Of course, President-elect Biden's top priority next year will be COVID-19 response. His first action is expected to be a rollout of a new nationwide plan to combat the virus and support small businesses. Biden has indicated he will use the "full power" of the Defense Production Act (DPA) to facilitate domestic manufacturing of personal protective equipment (PPE). A key focus will also be distribution of a COVID-19 vaccine. The companies behind several leading candidates are expected to soon apply for emergency use authorizations. Biden has already named members of a new COVID-19 task force, to be chaired by former U.S. Surgeon General Vivek Murthy, former Food and Drug Administration (FDA) Commissioner David Kessler, and Dr. Marcella Nunez-Smith, a professor at Yale School of Medicine. Biden has not yet announced his cabinet members, but possible contenders for Health and Human Services Secretary include Dr. Murthy and New Mexico Gov. Michelle Lujan Grisham (D) .

Back to Agenda

CalOptima Legislative Update
By Don Gilbert, Trent Smith and Bridget McGowan
November 16, 2020

2020 Election Update

California experienced what appears to be a record 82 percent voter turnout, with high early votes from Democrats and high day-of and late arriving ballots favoring Republicans, so far. This is a departure from past elections in which late arriving ballots favored Democrats in contested contests.

At this time, there are still ballots remaining to be counted, but races are now being called.

State Senate. The State Senate is currently comprised of 29 Democrats and 11 Republicans. The Democrats mounted well-funded challenges to four seats currently held by Republicans. The Republicans will lose two Orange County seats and are currently ahead in two other Southern California races.

SD 29 – Josh Newman (D) will defeat the incumbent **Senator Ling Ling Chang (R)**
SD 37 – Dave Min (D) will defeat incumbent **Senator John Moorlach (R)**
SD 23 – Rosilicie Ochoa Bogh (R) is likely to prevail over **Abigail Medina (D)**
SD21 – Incumbent **Senator Scott Wilk (R)** is holding a lead over **Kipp Mueller (D)**

State Assembly

The Assembly is currently comprised of 61 Democrats, 17 Republicans, an Independent, and a vacancy. The Assembly Democrats were defending three seats won from Republicans in 2018 and going after four seats held by Republicans. After millions of dollars spent on these contested seats, none of the seats changed parties from these targeted races.

The Democrats defended all three of their 2018 wins and failed to gain any of the four Republican seats that were targeted.

In fact, the Republicans will gain one seat as Suzette Valladares won a Democratic seat that opened when Christy Smith ran for Congress and the Democrats failed to place a candidate in the race.

When the Assembly convenes in December there will be 60 Democrats, 19 Republicans and an Independent.

Ballot Initiatives

There were a dozen ballot initiatives on the statewide ballot.

Of particular interest to many is the outcome of **Proposition 15** to increase property tax on commercial property. If passed, increased property taxes would have brought an additional $10-$12 billion in new revenue to local governments and schools. Last Tuesday night, the Associated Press called the race, with the "No" side prevailing at 51.8% of the vote.

A common theme among the ballot fights is that the side that spent the most money prevailed. That was the case with **Proposition 22** put on the ballot by Uber, Lyft and other Gig economy businesses who spent close to $225 million to pass this initiative.

Similarly, dialysis clinics outspent the healthcare unions to defeat **Proposition 23**. Realtors and firefighters raised over $45 million and are currently ahead in the effort to pass **Proposition 19**. While former Governor Brown and criminal justice reform advocates spent $22 million to defeat **Proposition 20** to increase criminal penalties for certain crimes. Finally, property owners and landlords spent $134 million to defeat **Proposition 21** which would have created a California rent control law.

Interestingly, voters appear to be rejecting two measures placed on the ballot by their elected representatives and a third measure to overturn a law previously created by the Legislature. **Proposition 16 to** overturn the ban on affirmative action programs in university admissions and government hiring and contracting is currently behind 44% to 56% and will likely fail. **Proposition 18** to allow 17-year-olds to vote in primaries will also lose. Finally, **Proposition 25** is a referendum on a law passed by the Legislature that ended cash bail.

Election Takeaways

There was not a Democratic wave in California. Despite Biden receiving 10 million votes and handily beating Trump, the President has so far received 600,000 more votes in California than he did in 2016. As a result, down ticket Democrats most certainly did not ride a pro-Biden wave, despite the two-seat pick-up in the Senate.

The 2020 outcome will now trigger a series of possible appointments of elected officials to federal offices which will cascade and reverberate down the political pipeline. If the Governor selects a statewide officer to replace Vice-President elect Harris in the Senate, then he will also get to replace that statewide officer as well. Any number of currently elected officials might leave to work in the Biden Administration which would trigger special elections to fill those positions. There will already be a special election to fill a state Senate seat that will open when Senator Holly Mitchell becomes a County Supervisor in Los Angeles. It is possible the makeup of the Legislature will be unsettled until the 2022 election cycle when new political boundaries will further shakeup the status quo.

2019–20 Legislative Tracking Matrix

COVID-19 (CORONAVIRUS)

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 266 McCollum	**Paycheck Protection Program and Health Care Enhancement Act:** Authorizes $483 billion to replenish segments of the CARES Act, expand coronavirus testing, and provide more support to hospitals and providers during this pandemic. Of the $483 billion, this bill includes: ■ $310 billion in funding for the Small Business Administration's PPP; ■ $10 billion for Economic Injury Disaster Loans; ■ $75 billion for the provider relief fund, managed by the Department of Health and Human Services, to cover treatment for COVID-19 patients and lost revenue from canceled elective procedures; and ■ $25 billion to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID-19 tests.	**04/24/2020** Signed into law **04/23/2020** Passed the House **04/21/2020** Passed the Senate **01/08/2019** Introduced	CalOptima: Watch
H.R. 748 Courtney	**CARES Act:** Authorizes $2.2 trillion in spending for health care and employment-related interventions. This includes: ■ $1.5 billion to support the purchase of personal protective equipment, lab testing, and other activities; ■ $127 billion to provide grants to hospitals, public entities, and nonprofits, and Medicare and Medicaid suppliers and providers to cover unreimbursed health care related expenses or lost revenues due to COVID-19; ■ $1.32 billion in supplemental funding for community health centers; ■ $955 million to support nutrition programs, home and community-based services, support for family caregivers, and expanded oversight for seniors and individuals with disabilities; ■ $945 million to support research on COVID-19; and ■ $425 million to increase mental health services.	**03/27/2020** Signed into law **03/27/2020** Passed the House **03/25/2020** Passed the Senate **01/24/2019** Introduced	CalOptima: Watch
H.R. 6201 Lowey	**Families First Coronavirus Response Act:** Allocates billions of federal funding support related to COVID-19. Funds are to be utilized for an emergency increase in the Federal Medical Assistance Percentages (FMAP) for Medicaid of 6.2%, emergency paid sick leave and unemployment insurance, COVID-19 testing at no cost, food aid and other provisions. Of note, on March 6, 2020, President Trump signed into law an emergency supplemental funding package of $8.3 billion for treating and preventing the spread of COVID-19.	**03/18/2020** Signed into law **03/17/2020** Passed the Senate **03/14/2020** Passed the House **03/11/2020** Introduced	CalOptima: Watch
H.R. 6462 Cisneros, Gallegos	**Emergency Medicaid for Coronavirus Treatment Act:** Would expand Medicaid eligibility to any American diagnosed with COVID-19 or any other illness that rises to the level of a presidential national emergency declaration. Additionally, would require Medicaid coverage for all COVID-19 treatment and testing to continue even after the national emergency is over.	**04/07/2020** Introduced	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 6666 Rush	**COVID-19 Testing, Reaching, and Contacting Everyone (TRACE) Act:** Would authorize the Centers for Disease Control and Prevention (CDC) to award grants for testing, contact tracing, monitoring, and other activities to address COVID-19. Those eligible to receive grant funding would include federally qualified health centers, nonprofit organizations, and certain hospitals and schools. Additionally, would allocate $100 billion for fiscal year 2020 for the disbursement of CDC grant funds.	**05/01/2020** Introduced	CalOptima: Watch
SB 89 Committee on Budget and Fiscal Review	**Emergency Budget Response to COVID-19:** Appropriates $500 million from the General Fund by amending the Budget Act of 2019. Funds will be allocated to any use related to Governor Newsom's March 4, 2020 State of Emergency regarding COVID-19. Additionally, authorizes additional appropriations related to COVID-19 in increments of $50 million, effective 72 hours following notification of the Director of Finance. Of note, the total amount appropriated to COVID-19 is not to exceed $1 billion.	**03/17/2020** Signed into law **03/16/2020** Enrolled with the Governor **01/10/2019** Introduced	CalOptima: Watch
AB 685 Reyes	**COVID-19 Workplace Exposure Notifications and Reporting:** Effective January 1, 2021, establishes the employer notification and reporting requirements when an employer learns of a potential COVID-19 exposure at a worksite. Specifically, an employer is required to send a notice of potential exposure to all employees who were at the same worksite. The notification must include information about workers' compensation and leave options, as well as the employer's disinfection plan. In addition, the employer must report information about diagnosed employees to the local health agency within forty-eight (48) hours of learning that at least three (3) employees working at the same site have tested positive for COVID-19 within a 14-day period.	**09/17/2020** Signed into law **08/31/2020** Passed Assembly floor **08/30/2020** Passed Senate floor **06/29/2020** Introduced	CalOptima: Watch
SB 117 Committee on Budget and Fiscal Review	**Emergency Budget Response to COVID-19 at Schools:** Appropriates $100 million of Proposition 98 revenues from the General Fund to ensure schools are able to purchase protective equipment or supplies for cleaning school sites. Funds will be distributed by the Superintendent of Public Instruction.	**03/17/2020** Signed into law **03/16/2020** Enrolled with the Governor **01/10/2019** Introduced	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
SB 275 **Pan, Leyva**	**Personal Protective Equipment:** Requires the State Department of Public Health to establish a personal protective equipment (PPE) stockpile to ensure an adequate supply of PPE for health care workers and essential workers. Requires the stockpile to have enough supplies for no less than a 45-day pandemic or other state or local health emergency. Additionally, requires general acute care hospitals, skilled nursing facilities, integrated health systems, and licensed dialysis clinics to maintain a 45-day stockpile of PPE. Establishes the Personal Protective Equipment Advisory Committee to make recommendations to the Department of Industrial Relations and State Department of Public Health regarding necessary types and amount of PPE, procurement and supply chain resilience, storage, and other best practices.	**09/29/2020** Signed into law **08/31/2020** Passed Assembly floor **05/02/2019** Passed Senate floor **02/13/2019** Introduced	CalOptima: Watch CalPACE: Oppose
SB 1159 **Hill**	**COVID-19 Workers' Compensation Benefits:** Effective immediately and until January 1, 2023, when a qualifying employee files a workers' compensation claim for a COVID-19 diagnosis, the claim is presumed to be payable for both medical treatment and temporary disability benefits after all COVID-19-related paid sick leave has been exhausted. The employer may submit evidence to dispute the claim within forty-five (45) days of claim filing, including evidence of measures in place to reduce potential COVID-19 transmission and evidence of the employee's non-work-related risks of COVID-19 infection. Qualifying employees include: ■ Certain types of first responders and healthcare workers with a diagnosis of COVID-19. ■ Any employee who is diagnosed with COVID-19 during an outbreak of COVID-19 at the employee's worksite.	**09/17/2020** Signed into law **08/31/2020** Passed Assembly floor **06/26/2020** Passed Senate floor **04/22/2020** Introduced	CalOptima: Watch

STATE BUDGET BILLS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 79	**Human Services:** Enacts human services trailer bills in the California 2020-2021 budget. ■ Department of Developmental Services supplemental rate increases for specified providers including, independent living programs, infant development programs, and early start specialized therapeutic services ■ In-Home Supportive Services reassessment extensions due to delays related to COVID-19 and Governor Newsom's executive state of emergency order	**06/29/2020** Signed into law **06/26/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 80	**Public Health:** Enacts health care trailer bills in the California 2020-2021 budget. ■ Medi-Cal managed care capitated payment rate reduction of 1.5 percent for the 18-month bridge period ■ Implementation of a Medi-Cal risk corridor for the 18-month bridge period ■ Prop 56 value-based payments and supplemental payments ■ Extension of the Medi-Cal 2020 Demonstration ■ 340B Supplemental Payment Pool for non-hospital clinics ■ Expansion of full-scope Medi-Cal to seniors, regardless of immigration status ■ Extension of coverage for COVID-19 to uninsured individuals ■ Health Care Payment Data Program ■ Reimbursement for medication-assisted treatment services	**06/29/2020** Signed into law **6/26/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch
AB 81	**Public Health:** Enacts health care trailer bills in the California 2020-2021 budget. ■ Medi-Cal rate reimbursement methodology adjustments for skilled nursing facilities during the COVID-19 pandemic ■ Implementation of the skilled nursing facility quality assurance fee ■ County access to Mental Health Services Act funds for additional support related to COVID-19	**06/29/2020** Signed into law **6/26/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch
AB 83	**Housing:** Enacts housing trailer bills in the California 2020-2021 budget. ■ Funding to continue Project Roomkey ■ Bypassing certain California Environmental Quality Act (CEQA) regulations related to Project Roomkey	**06/29/2020** Signed into law **6/26/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch
AB 89	**Fiscal Year 2020-2021 California State Budget:** Enacts a $202.1 billion spending plan for Fiscal Year 2020-2021, with General Fund spending at $133.9 billion. The following included within the state budget will have a direct impact to Medi-Cal: ■ Funding to address Medi-Cal caseloads ■ Provisions to maintain Community Based Adult Services, the Multipurpose Senior Services Program, and other optional benefits ■ Funding to address the COVID-19 pandemic	**06/29/2020** Signed into law **6/26/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch

AFFORDABLE CARE ACT

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 1425 Craig	**Patient Protection and Affordable Care Enhancement Act (PPACEA):** Would, among other things, lower health care costs through fair drug price negotiations, provide additional protections for those with preexisting health conditions, and offer 100 percent federal matching funds for states that choose to expand Medicaid under the Affordable Care Act. The bill also would reduce the Federal Medical Assistance Percentages for the fourteen remaining non-expansion states and permanently authorize the Children's Health Insurance Program.	**06/30/2020** Passed the House; Referred to the Senate **02/22/2020** Introduced	CalOptima: Watch

BEHAVIORAL HEALTH

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 2265 Quirk-Silva	**Mental Health Services Act (MHSA) Funds for Cooccurring Conditions:** Authorizes MHSA funds to include treatment of a substance use disorder for an individual with cooccurring mental health and substance use disorders, when that individual is already eligible to receive mental health services through an MHSA-funded program. The authorization applies across the state. Additionally, requires the county that elects to utilize MHSA funding for this purpose to report the number of people assessed for cooccurring mental health and substance use disorders and the number of those assessed who only have a substance use disorder to the Department of Health Care Services.	**09/25/2020** Signed into law **08/28/2020** Passed Senate floor **06/02/2020** Passed Assembly floor **02/14/2020** Introduced	CalOptima: Watch Orange County Board of Supervisors: Support
SB 803 Beall	**Mental Health Peer Support Services Certification:** Creates requirements for a Certified Peer Support Specialist (PSS) certification program by July 1, 2022. Allows an individual 18 years of age or older, who has experienced a mental illness and/or a substance use disorder or is a parent or family member of such individual, to become a PSS. A PSS is able to provide non-medical specialty mental health and substance abuse support services in a county that opts in to establish a PSS certification program and funds the non-federal share of those services. This requires the Department of Health Care Services to develop and implement billing codes, reimbursement rates, and claim requirements for the PSS program. Additionally, requires the Department to include PSS as a Medi-Cal provider type and PSS services as a distinct service type in participating counties.	**09/25/2020** Signed into law **08/31/2020** Passed Assembly floor **06/24/2020** Passed Senate floor **01/08/2020** Introduced	CalOptima: Watch LHPC: Support Orange County Board of Supervisors: Support

BLOOD LEAD SCREENINGS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 2276 Reyes	**Blood Lead Screening Tests Age Guidelines:** Requires the Medi-Cal managed care plan (MCP) to ensure blood lead screening tests for a Medi-Cal beneficiary at 12 and 24 months of age by doing the following: ■ Identify, on a quarterly basis, every child beneficiary that has missed a blood screening test; ■ If a test was missed, notify the beneficiary's health care provider of the requirement to perform a test and provide guidance to the parent/guardian; ■ Submit to the Department of Health Care Services, on an annual basis and upon request, a record of every beneficiary under six years of age that has missed a blood screening test, including the age at which a test was missed; and ■ If a parent/guardian declines a recommended screening, ensure that the parent/guardian signs a statement of refusal to be documented in the child's medical record.	**09/28/2020** Signed into law **08/29/2020** Passed Senate floor **06/10/2020** Passed Assembly floor **02/14/2020** Introduced	CalOptima: Watch

COVERED BENEFITS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 4618 McBath	**Medicare Hearing Act of 2019:** Effective no sooner than January 1, 2022, would require Medicare Part B to cover the cost of hearing aids for Medicare beneficiaries. Hearing aids would be provided every five years and would require a prescription from a doctor or qualified audiologist.	**1/24/2020** Passed the Committee on Energy and Commerce **10/08/2019** Introduced	CalOptima: Watch
H.R. 4650 Kelly	**Medicare Dental Act of 2019:** Effective no sooner than January 1, 2022, would require Medicare Part B to cover the cost of dental health services for Medicare beneficiaries. Covered benefits would include preventive and screening services, basic and major treatments, and other care related to oral health.	**1/24/2020** Passed the Committee on Energy and Commerce **10/11/2019** Introduced	CalOptima: Watch
H.R. 4665 Schrier	**Medicare Vision Act of 2019:** No sooner than January 1, 2022, would require Medicare Part B to cover the cost of vision care for Medicare beneficiaries. Covered benefits would include routine eye exams and corrective lenses. Corrective lenses covered would be either one pair of conventional eyeglasses or contact lenses.	**1/24/2020** Passed the Committee on Energy and Commerce **10/11/2019** Introduced	CalOptima: Watch
H.R. 4996 Kelly	**Helping MOMS Act of 2020:** Would give states the option to extend the required sixty (60) days of postpartum coverage under Medicaid to one (1) year following a pregnancy. Additionally, would require the Medicaid and Children's Health Insurance Program (CHIP) Payment and Access Commission (MACPAC) to issue a report on coverage of doula services in the Medicaid program, as well as recommendations to increase access to doula services.	**09/29/2020** Passed the House **09/21/2020** Passed the Committee on Energy and Commerce **11/08/2019** Introduced	CalOptima: Watch

HOMELESSNESS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 1978 Correa/Lieu	**Fighting Homelessness Through Services and Housing Act:** Similar to S. 923, would establish a federal grant program within the Health Resources and Services Administration to fund comprehensive homeless support services through the appropriation of $750 million each year for five years, beginning in FY 2020. Included would be a one-time grant of $100,000 to support program planning for existing programs serving those who are homeless or at risk of being homeless. Each eligible entity would be able to receive up to $25 million each year for up to five years. Government entities eligible to apply for grant funding would include counties, cities, regional or local agencies, Indian tribes or tribal organizations. Each agency would be able to enter partnerships to meet eligibility status. Additionally, comprehensive homeless support services, such as mental health services, supportive housing, transitional support, and case management must be provided by the agency to be considered to receive grant funding. Individuals eligible to receive comprehensive homeless support services through this program include persons who are homeless or are at risk of becoming homeless, including families, individuals, children and youths.	**03/28/2019** Introduced; Referred to the Committee on Financial Services	CalOptima: Watch
S. 923 Feinstein	**Fighting Homelessness Through Services and Housing Act:** Similar to H.R. 1978, would establish a federal grant program within the Health Resources and Services Administration to fund comprehensive homeless support services through the appropriation of $750 million each year for five years, beginning in FY 2020. Included would be a one-time grant of $100,000 to support program planning for existing programs serving those who are homeless or at risk of being homeless. Each eligible entity would be able to receive up to $25 million each year for up to five years. Government entities eligible to apply for grant funding would include counties, cities, regional or local agencies, Indian tribes or tribal organizations. Each agency would be able to enter partnerships to meet eligibility status. Additionally, comprehensive homeless support services, such as mental health services, supportive housing, transitional support, and case management must be provided by the agency to be considered to receive grant funding. Individuals eligible to receive comprehensive homeless support services through this program include persons who are homeless or are at risk of becoming homeless, including families, individuals, children and youths.	**03/28/2019** Introduced; Referred to the Committee on Health, Education, Labor, and Pensions	CalOptima: Watch Orange County Board of Supervisors: Support

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 2746 Petrie-Norris, Gabriel	**Accountability of State Funds Used for Homelessness:** Would have required any entity that receives state funds for programs related to homelessness, including, but not limited to, the Whole-Person Care pilot program, California Work Opportunity and Responsibility to Kids (CalWORKs), or the Housing and Disability Income Advocacy Program, to submit a standardized report regarding the use of state funds. The report would have been sent annually to the state agency granting funds for the program.	**09/29/2020** Vetoed **08/30/2020** Passed Senate floor **06/10/2020** Passed Assembly floor **02/20/2020** Introduced	CalOptima: Watch

PHARMACY

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 2100 Wood	**Pharmacy Benefit Carve-Out (Medi-Cal Rx) Modifications:** Would have required the Department of Health Care Services to establish the Independent Prescription Drug Medical Review System (IPDMRS) for the outpatient pharmacy benefit, and to develop a framework for the system that models the requirements of the Knox-Keene Health Care Service Plan Act, no sooner than January 1, 2021. Would have required the IPDMRS to review grievances regarding any outpatient prescription drug benefit that was denied, modified, or delayed due to a finding that the service is not medically necessary or was experimental. Additionally, would have required a minimum 180 days for continuity of care for medications regardless if listed on the Medi-Cal contract drug list. Finally, would have allowed the Department to provide a disease management payment to contracted pharmacies for specialty drugs in order to ensure beneficiary access.	**09/29/2020** Vetoed **08/28/2020** Passed Senate floor **06/10/2020** Passed Assembly floor **02/05/2020** Introduced	CalOptima: Watch
SB 852 Pan	**California Affordable Drug Manufacturing Act of 2020:** Requires the California Health and Human Services Agency (CHHSA) to enter into partnerships with one or more drug companies or generic drug manufacturers, licensed by the United States Food and Drug Administration, to produce or distribute generic prescription drugs, including at least one form of insulin, in order to reduce the cost of prescription drugs. Requires CHHSA to study and report to the Legislature on the feasibility of the State directly manufacturing and selling generic prescription drugs, no later than July 1, 2023.	**09/28/2020** Signed into law **08/31/2020** Passed Assembly floor **06/25/2020** Passed Senate floor **01/13/2020** Introduced	CalOptima: Watch CAHP: Support

PROVIDERS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 890 Wood	**Nurse Practitioner Scope of Practice:** Establishes the Nurse Practitioner Advisory Committee to provide recommendations and advice to the Board of Registered Nursing. Effective January 1, 2021, permits a nurse practitioner to perform specified functions without standardized procedures, including ordering, performing, and interpreting diagnostic procedures, certifying disability, and prescribing, administering, dispensing, and furnishing controlled substances, when practicing in a setting with one or more physicians. Also requires the Board of Registered Nursing to define the minimum requirements for which a nurse practitioner may transition to practice without standardized procedures within three (3) years. Effective January 1, 2023, permits a nurse practitioner to practice independently in a setting without a physician, after an additional three (3) years of practice experience.	**09/29/2020** Signed into law **08/31/2020** Passed Senate floor **01/27/2020** Passed Assembly floor **02/20/2019** Introduced	CalOptima: Watch LHPC: Support

TELEHEALTH

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 4932 Thompson	**Creating Opportunities Now for Necessary and Effective Care Technologies (CONNECT) for Health Act of 2019:** Similar to S. 2741, would expand telehealth services for those receiving Medicare benefits and remove restrictions in the Medicare program that prevent physicians from using telehealth technology. Would also: ■ Provide the Secretary of Health and Human Services with the authority to waive telehealth restrictions when necessary; ■ Remove geographic and originating site restrictions for services like mental health and emergency medical care; ■ Allow rural health clinics and other community-based health care centers to provide telehealth services; and ■ Require a study to explore more ways to expand telehealth services so that more people can access health care services in their own homes.	**10/30/2019** Introduced; Referred to the Committees on Energy and Commerce; Ways and Means	CalOptima: Watch AHIP: Support
S. 2741 Schatz	**Creating Opportunities Now for Necessary and Effective Care Technologies (CONNECT) for Health Act of 2019:** Similar to H.R. 4932, would expand telehealth services for those receiving Medicare benefits and remove restrictions in the Medicare program that prevent physicians from using telehealth technology. Would also: ■ Provide the Secretary of Health and Human Services with the authority to waive telehealth restrictions when necessary; ■ Remove geographic and originating site restrictions for services like mental health and emergency medical care; ■ Allow rural health clinics and other community-based health care centers to provide telehealth services; and ■ Require a study to explore more ways to expand telehealth services so that more people can access health care services in their own homes.	**10/30/2019** Introduced; Referred to the Committee on Finance	CalOptima: Watch AHIP: Support

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 2164 Rivas, Salas	**Expanding Access to Telehealth:** Would have no longer required the first visit at a federally qualified health clinic to be an in-person visit by authorizing telehealth appointments that occur by synchronous real time or asynchronous store and forward. This would have allowed the new patient the option to utilize telehealth services and become an established patient as their first visit. This would have only applied during the COVID-19 pandemic and up to 180 days post-termination of the state of emergency.	**09/26/2020** Vetoed **08/28/2020** Passed Senate floor **06/10/2020** Passed Assembly floor **02/11/2020** Introduced	CalOptima: Watch LHPC: Support

About CalOptima

CalOptima is a county organized health system that administers health insurance programs for low-income children, adults, seniors and people with disabilities. As Orange County's community health plan, our mission is to provide members with access to quality health care services delivered in a cost-effective and compassionate manner. We provide coverage through four major programs: Medi-Cal, OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan), OneCare (Medicare Advantage Special Needs Plan), and the Program of All-Inclusive Care for the Elderly (PACE).

Board of Directors Meeting

CalOptima Community Outreach Summary — November

Background

CalOptima is committed to serving our community by sharing information with current and potential members and strengthening relationships with our community partners. One of the ways CalOptima accomplishes this is through our participation in public events and public activities that meet at least one of the following criteria:

- Member interaction/enrollment: The event/activity attracts a significant number of CalOptima members and/or potential members who could enroll in a CalOptima program.
- Branding: The event/activity promotes awareness of CalOptima in the community.
- Partnerships: The event/activity has the potential to create positive visibility for CalOptima and create a long-term collaborative partnership between CalOptima and the requesting entity.

We consider requests for sponsorship based on several factors pursuant to Policy AA. 1223: Participation in Community Events Involving External Entities including, but not limited to: the number of people the activity/event will reach; the marketing benefits for CalOptima; the strength of the partnership or level of involvement with the requesting entity; past participation; staff availability; and budget availability.

In addition to participating in community events, CalOptima staff actively participates in several community meetings including coalitions/collaboratives, committees and advisory groups focused on community health issues related to improving access to health care, reducing health disparities, strengthening the safety net system and promoting a healthier Orange County.

CalOptima Community Event Update

To engage and support our community partners during these challenging times, the Community Relations department will host a virtual Community Alliance Forum on Wednesday, December 9, 2020 from 9–11 a.m. The focus of the forum will be “Mental Health and Self-Care During Uncertain Times.”

The Community Alliances Forum is a quarterly networking event with the goal of strengthening, developing and sustaining positive relationships with community-based organizations, health care providers, policy makers, and other individuals/organizations that care about community health. The forum provides attendees an opportunity to address and discuss health issues impacting the county, share information and resources, and strengthen individual knowledge and skills.

Betsy Ha, CalOptima’s Executive Director of Quality and Population Health Management will open the event by providing an update on CalOptima’s efforts to collaborate with community partners to promote awareness and utilization of the Adverse Childhood Experiences (ACEs) screening tool. Attendees will also have an opportunity to experience a Mindful Moment with Betsy, who will lead the group in an experience of mindfulness and compassion meditation.

Back to Agenda

Our panel of presenters will include: Lauren Brand, Director of Operations at Mind OC who will provide an update on Be Well OC, the Regional Wellness Hubs, and efforts to create a countywide, coordinated ecosystem to support the mental health needs of Orange County residents; and, Dr. Clayton Chau, Director of the Orange County Health Care Agency and acting County Health Officer, who will discuss the impacts of provider fatigue, the importance of self-care, and tools to practice and maintain self-care through the holidays.

CalOptima recognizes the importance of supporting our community partners' mental health during these challenging times and look forward to highlighting this important topic. For additional information or questions, contact CalOptima Community Relations Manager Tiffany Kaaiakamanu at **657-235-6872** or tkaaiakamanu@caloptima.org.

Summary of Public Activities
CalOptima is following all local, state and federal guidelines in an effort to prevent the spread of COVID-19 in our workplace and the community.

As of October 19, 2020, **through virtual meetings and teleconferences** CalOptima expects to participate in 27 community events, coalition and committee meetings during November.

CalOptima provided one endorsement consistent with CalOptima Policy AA. 1214: Guidelines for Endorsements by CalOptima, for Letters of Support and Use of CalOptima Name and Logo, since the last reporting period (e.g., letters of support, program/public activity events with support or use of name/logo).

1. Provide use of CalOptima name or logo in a letter to the Department of Health Care Services on best practice recommendations for Behavioral Health Therapy for children under Early Periodic Screening, Diagnostic and Treatment (EPSDT) benefits.

Back to Agenda

CalOptima Board of Directors
Community Activities

CalOptima is committed to serving our community by sharing information with current and potential members and strengthening relationships with our community partners. One of the ways CalOptima accomplishes this is through participation in public activities, which meet at least one of the following criteria:

- Member interaction/enrollment: The event/activity attracts a significant number of CalOptima members and/or potential members who could enroll in a CalOptima program.
- Branding: The event/activity promotes awareness of CalOptima in the community.
- Partnerships: The event/activity has the potential to create positive visibility for CalOptima and create a long-term partnership between CalOptima and the requesting entity.

We consider requests for sponsorship based on several factors pursuant to Policy AA. 1223: Participation in Community Events Involving External Entities, including but not limited to: the number of people the activity/event will reach; the opportunity to increase awareness of CalOptima; the strength of the partnership or level of involvement with the requesting entity; past participation; staff availability; and budget availability.

In addition to participating in community events, CalOptima staff actively participates in several community meetings, including coalitions, committees and advisory groups focused on community health issues related to improving access to health care, reducing health disparities, strengthening the safety net system and promoting a healthier Orange County.

CalOptima is following all local, state and federal guidelines in an effort to prevent the spread of COVID-19 in our workplace and the community.

In response to the COVID-19, CalOptima has transitioned how we engage with our community partners and is not attending in-person community collaborative meetings. In addition, most community events and resource fairs have been cancelled, postponed or have transitioned to an alternate platform in response to COVID-19. CalOptima continues its participation in community collaborative meetings and community events by attending virtual meetings and events; CalOptima also looks for additional ways to support our community partners by providing CalOptima informing materials and, if requested and criteria are met, by providing branded items. With respect to events that have been cancelled or postponed due to COVID-19 in which sponsorship or fees have already been paid, event organizers were provided the option to refund previously pre-paid participation fees or apply paid sponsorship fees to any future events,

provided the future event(s) meet the criteria set forth in Policy AA.1223 and meets eligibility requirements indicated by Board of Directors.

For more information on the listed items, contact Tiffany Kaaiakamanu, Manager of Community Relations, at 657-235-6872 or by email at tkaaiakamanu@caloptima.org.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

16. Consider Authorizing an Amended and Restated Health Network Contract for Kaiser Foundation Health Plan Inc. and Amendments Incorporating Operational Provisions and Revised Capitation Rates

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Michelle Laughlin, Executive Director Network Operations (657) 900-1116

Recommended Actions

Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to ~~enter into~~:

Rev. 12/3/20

Amend the current Kaiser Foundation Health Plan, Inc. Health Network Contract to extend the term through the date of the next Regular CalOptima Board meeting, February 4, 2021.

~~1. An Amended and Restated Medi-Cal Health Network Contract with Kaiser Foundation Health Plan, Inc., incorporating language changes, effective July 1, 2019 through June 30, 2021; and~~

~~2. Amendments incorporating all changes made in the Health Network contracts since July 1, 2019, along with revised capitation rates and certain operational requirements effective January 1, 2021.~~

Background

Kaiser Foundation Health Plan Inc. (Kaiser) participates in CalOptima's Medi-Cal program as a delegated subcontractor under its Health Maintenance Organization (HMO) Health Network model. CalOptima's health network contracts are renewed on an annual basis each July, subject to Board approval. On June 6, 2019, the CalOptima Board authorized an Amended and Restated Contract with all Health Networks. The Board has approved five (5) Amendments to the Amended and Restated Health Network Contract since that time.

Kaiser did not, however, execute the Amended and Restated Contract or the five (5) subsequent Amendments and, instead, engaged CalOptima staff in a series of discussions regarding certain contract terms. The Board authorized extensions of the existing contract on August 6, 2020, October 1, 2020, and November 5, 2020 to accommodate continued contract discussions. The latest extension is effective through December 3, 2020.

Discussion

Kaiser and CalOptima staff have had extensive discussions and have come to an agreement regarding the terms of the Amended and Restated Contract. The document has been revised and some terms updated to address legacy language and operational requirements addressing Kaiser's business model. Board authorization to execute the Amended and Restated Contract effective July 1, 2019 through June 30, 2021 is now requested. Authorization is also sought to execute Amendments I through V, including language addressing capitation rate changes based on CalOptima's rebasing efforts consistent with prior

Back to Agenda

Health Network rate changes and operational requirements, including extending funding for the health Homes Program, revising the Division of Financial Responsibility, and increasing the notice period for termination for convenience. The revised capitation rates and operational requirements will be effective January 1, 2021, and the Amended and Restated Contract will be in effect through June 30, 2021 consistent with all of CalOptima's other Health Network Contracts.

Fiscal Impact

The recommended action to retroactively enter into the Board-approved Amended and Restated HMO Health Network Contract with Kaiser effective July 1, 2019, through June 30, 2021, and execute five amendments containing language changes from subsequent amendments is a budgeted item. Funding for the contract and related amendments is consistent with the Board-approved rebasing exercise and has been included in the Board-approved Fiscal Year (FY) 2019-20 and FY 2020-21 Operating Budgets.

Rationale for Recommendation

Authorization to execute the Amended and Restated Medi-Cal Health Network Contract and update capitation rates will ensure that Kaiser is operating under the current contractual terms and conditions as required by CalOptima's regulators and operational requirements, and will implement the rebased capitation rates.

Concurrence

Gary Crockett, Chief Counsel

Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorization of a Kaiser Foundation Health Plan, Inc. Health Network Contract Amendment Extending the Term

Contact

Michelle Laughlin, Executive Director, Network Operations, (657) 900-1116

Recommended Action

Authorize amendment to the current Kaiser Foundation Health Plan, Inc. Health Network Contract to extend the current term through the date of the next CalOptima Board meeting, December 3, 2020.

Background

Kaiser Foundation Health Plan, Inc. (Kaiser) participates in the CalOptima Medi-Cal program as a delegated subcontractor under its Health Maintenance Organization ("HMO") Health Network model. Kaiser's current Health Network Contract expired June 30, 2020. Last year, CalOptima staff presented Kaiser with an Amended and Restated Contract which incorporated past amendments and added DHCS-required contract terms, including those related to the Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001 addressing certain terms that are required to be included in order for CalOptima to release Proposition 56 funds and other directed payments.

CalOptima and Kaiser staff worked with DHCS over the last several months to obtain additional clarification on certain subcontractor requirements. To allow time for Kaiser and CalOptima to obtain all necessary information and final clarification from DHCS and complete discussions regarding the Amended and Restated Contract, the parties entered into an initial ninety (90) day extension of Kaiser's current contract through September 30, 2020. Due to the June 30, 2020 expiration date of the current Kaiser Health Network Contract, this extension was ratified by the Board on August 6, 2020. As of the last Board of Directors' Meeting, on October 1, 2020, it was determined that review of certain provisions in the Amended and Restated contract was still in progress. As such, an additional month-long extension was requested until November 5, 2020.

Discussion

The parties continue to review certain provisions of the Amended and Restated Contract that memorialize operational requirements in light of Kaiser's unique model as well as the five (5) subsequent amendments that implement Proposition 56, Health Homes Program requirements and other terms (Contract Amendments). Additionally, because Kaiser is the only CalOptima Health Network delegated to provide the pharmacy benefit, CalOptima and Kaiser staff are addressing terms related to the State of California's carve out of the pharmacy benefit from CalOptima's DHCS Medi-Cal contract when the State implements its Medi-Cal Rx program effective January 1, 2021 including, revised rates and DHCS-mandated transition terms.

While CalOptima and Kaiser staff have attempted to complete all contract and amendment revisions by November 5, 2020, additional time is required to fully explore whether the parties will be able to resolve and finalize the remaining issues. Staff has requested an additional month-long extension of the current

Kaiser Contract on the same terms and conditions to complete the discussions and finalize the Amended and Restated Contract and Contract Amendments. Because Staff intends to present the final Kaiser Amended and Restated Contract and Contract Amendments to the Board for approval at the December 3, 2020 meeting, Staff requests that the Board approve extension of the current Kaiser Health Network Contract through that date.

Fiscal Impact

The recommended action to authorize extension of the current Kaiser Health Network Contract to through December 3, 2020, under the same terms and conditions, has no additional fiscal impact to the CalOptima Fiscal Year (FY) 2020-21 Operating Budget approved by the Board on June 4, 2020.

Rationale for Recommendation

Amending the current Kaiser Health Network Contract to extend through December 3, 2020, the date of the Board's next meeting, under the same terms and conditions will allow the additional time needed to review and finalize Kaiser's FY 2020-21 Amended and Restated Health Network Contract.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 6, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
8. Consider Ratification of the Kaiser Foundation Health Plan, Inc. Health Network Contract Amendment

Contact
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
Ratify the amendment to the Kaiser Foundation Health Plan, Inc. (Kaiser) Health Network contract, extending the term through September 30, 2020.

Background/Discussion
Kaiser participates in the CalOptima Medi-Cal program as a delegated subcontractor under its Health Maintenance Organization ("HMO") Health Network model. Each of CalOptima's contracts with its 12 twelve Medi-Cal Health Networks, including Kaiser, include a provision permitting an annual one-year extension of the contract subject to CalOptima Board of Directors' approval and signed contract amendments. Kaiser's current Health Network Contract ("Kaiser Contract") expired June 30, 2020. Last year, CalOptima staff presented Kaiser with an Amended and Restated Contract which incorporated past amendments and added DHCS required contract terms, including those related to the Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001 addressing certain terms that are required to be included in order for CalOptima to release Proposition 56 funds and other directed payments. Kaiser has not, however, executed the Amended and Restated Contract. CalOptima and Kaiser have been working with DHCS over the last several months to obtain additional clarification on certain subcontractor requirements. The parties have also been reviewing certain contract provisions that memorialize operational requirements in light of Kaiser's unique staff model.

In order to allow time for Kaiser and CalOptima to obtain final clarification from DHCS and finalize discussions with Kaiser, the parties entered into a ninety (90) day extension of the Kaiser Contract through September 30, 2020, subject to Board approval. Additionally, because Kaiser is the only Health Network delegated to provide the pharmacy benefit, CalOptima and Kaiser also need to address contract terms related to the State of California's carve out of the pharmacy benefit from CalOptima's DHCS Medi-Cal contract. The pharmacy benefit carve-out will be effective January 1, 2021 for all Managed Care Plans, including CalOptima.

Staff recommends ratification of the Kaiser Contract amendment to provide additional time to obtain DHCS's final guidance, and for the parties to reach agreement on the Amended and Restated Contract terms.

Fiscal Impact
The recommended action to ratify the amendment to the Kaiser Contract to extend the term through September 30, 2020, under the same terms and conditions, has no additional fiscal impact to the CalOptima FY 2020-21 Operating Budget approved by the Board on June 4, 2020.

Back to Agenda Back to Item

Rationale for Recommendation

This extension will allow additional time to review and finalize Kaiser's FY 2020-21 Health Network contract.

.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 4, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

15. Consider Authorizing Extension and Amendments of the CalOptima Medi-Cal Full-Risk HMO, Shared-Risk, and Physician-Hospital Consortium Health Network Contracts

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400
Nancy Huang, Chief Financial Officer (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the Medi-Cal Full-Risk Health Network HMO, Shared-Risk, and Physician-Hospital Consortium Health Network contracts to:

1. Extend the term through June 30, 2021;
2. Reflect adjustments in Health Network's capitation rates and add language reflecting that Directed Payments will be made pursuant to CalOptima Policy and Procedures effective July 1, 2020; and
3. Revise the Shared Risk program attachment in the Shared Risk group contracts to align with changes made to Policy FF.1010 related to the description of the Shared Risk budget.

Background/Discussion

CalOptima currently contracts with 12 health networks to provide care to CalOptima Medi-Cal members. The continued renewal of the contracts will support the stability of CalOptima's contracted provider network. CalOptima's current Medi-Cal Full-Risk HMO, Shared-Risk, and Physician-Hospital Consortium Health Network Contracts listed below will expire on June 30, 2020:

Full Risk HMO:
Heritage Provider Network, Inc.
Kaiser Foundation Health Plan, Inc.
Monarch Health Plan, Inc.
Prospect Health Plan, Inc.

Shared Risk:
AltaMed Health Services Corporation
ARTA Western California, Inc.

Back to Agenda Back to Item

Staff recommends extending the above Health Network contracts for one year, through June 30, 2021. Extension of the Heath Network contracts is essential to ensuring that members assigned to health networks have access to covered healthcare services.

Health Network Capitation Rate Adjustment

Medi-Cal Classic Rebasing: For all Health Network contracts, with the exception of Kaiser Foundation Health Plan, Inc., which is reimbursed according to specific terms set forth in a March 7, 2019 Board action, contract terms will reflect adjusted Medi-Cal Classic capitation rates effective July 1, 2020, following CalOptima's periodic rebasing process. Rebasing ensures capitation rates paid to our Health Network providers include appropriate reimbursement for medical and non-medical expenses.

Medi-Cal Expansion (MCE) Rates: In 2014, Medi-Cal eligibility was expanded to cover single, low-income individuals ages 19-64, known as Medi-Cal Expansion (MCE). The Department of Health Care Services (DHCS) provided additional funding to support newly eligible MCE members, a group separate from the Medi-Cal Classic member population. Due to the absence of any utilization information at the program's inception, capitation rates for MCE members were set based on assumed population risk from the beginning of the expansion to date.

For all Health Network contracts, with the exception of Kaiser Foundation Health Plan, Inc., which is reimbursed according to specific terms set forth in a March 7, 2019 Board action, contract terms will reflect adjusted Medi-Cal Expansion (MCE) capitation rates effective July 1, 2020. DHCS has applied multiple downward adjustments to CalOptima's MCE capitation rates due to a lower average acuity than first anticipated. As such, staff continues to analyze the appropriateness of MCE capitation rates paid to Health Networks. Based on an actuarial analysis of utilization data, additional reductions to MCE capitation rates are appropriate.

Over the course of the program, sufficient time has passed to compile reliable Chronic Disability Payment System (CDPS) diagnostic information necessary for risk adjustment. With the CDPS information now available to make determinations regarding acuity, staff proposes to amend the current Health Network contracts to adjust the MCE rate, either up or down, based on CDPS data. With margins being reduced, it is more important to implement risk adjustment to ensure capitation payments are commensurate with population acuity. Staff has provided notices to the Health Networks that their MCE capitation rate will be risk adjusted starting July 1, 2020.

OB Kick Payment Rate Increase: Per Policy FF.1005f, CalOptima has historically provided all Health Networks a supplemental payment for qualifying covered obstetric delivery services. The current rates, set in 2010 when the Maternity Kick Payment program began, are $793 for professional services and $4,451 for facility fees. For the new contract term, staff recommends authorization to increase these rates to $900 for professional services and $5,000 for facility fees for all Health Networks, with the exception of Kaiser Health Plan, Inc. which is being reimbursed according to the terms set forth in a March 7, 2019 Board Action.

Directed Payments

Periodically CalOptima is required through DHCS or CMS guidance to make statutorily mandated retrospective payments to its Health Networks. These payments are typically based on DHCS programs, including Proposition 56 and the Quality Assurance Fee (QAF) supplemental payments. In many cases these provider supplemental payments have been established and administered over multiple time periods and phases, sometimes across multiple years retrospectively, and often based on actual claims paid. Until now, CalOptima has made these DHCS- and CMS- defined supplemental payments to its health networks via contract amendment, as notification came down from the state or federal government. Given the ongoing nature of these payments – including those given under Proposition 56 - multiple amendments, retroactive contract terms, and subsequent timeliness concerns for payment to the impacted providers have been ongoing concerns. To mitigate this, staff recommends that moving forward, Directed Payments be administered according Policy & Procedure FF. 2011 ("Directed Payments"), which addresses Directed Payment programs listed below. Directed Payment is an add-on payment or minimum fee payment required by DHCS to be made to eligible providers for qualifying services (identified below) with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments. As an alternative to requesting authority to amend these contracts on each individual occasion, Policy FF.2011 directs CalOptima to reimburse Health Networks for Direct Payments as they are mandated, pursuant to qualifying services being rendered, providing both policy and procedure guidelines.

Program Name	Effective DOS	Eligible Providers	Final DHCS Guidance
Physician Services	7/1/2017 to 12/31/2020	Contracted	APL 18-010 released 05/01/2018 APL 19-006 released 06/13/2019 APL 19-015 released 12/24/2019
Abortion Services (Hyde)	7/1/2017 to 6/30/2020	All Providers	APL 19-013 released 10/17/2019
Developmental Screening Services	On or after 1/1/2020	Contracted	APL 19-016 released 12/26/2019
ACE (Trauma) Screening Services	On or after 1/1/2020	Contracted	APL 19-018 released 12/26/2019
Ground Emergency Medical Transport (GEMT)*	7/1/2018 to 6/30/2019	Non-Contracted	APL 19-007 released 6/14/2019 APL 20-002 released January 31, 2020

**Directed Payments for GEMT Services are not applicable to Shared-Risk Group*

Staff anticipates that Policy FF.2011 will need to be updated periodically, subject to Board approval, as new Directed Payment programs are issued by DHCS.

Shared Risk Pool Revisions
Pursuant to a separate Board action, Staff has revised CalOptima Policy FF.1010: Shared Risk Pool to clarify language regarding the Shared Risk pool budget in relation to Coordination of Benefits (COB) recoveries. This revision clarifies that:

1) COB recoveries reduce expense but do not increase revenue; and

2) Since CalOptima is self-insured, reinsurance premium will no longer be allocated to the risk pool.

Fiscal Impact
The recommended actions to enter into amended Medi-Cal Health Network contracts to extend through June 30, 2021, add language reflecting changes to how the Directed Payments are handled, and align Shared Risk group contracts with revisions to CalOptima Policy FF.1010 are not expected to have a fiscal impact.

Costs associated with the recommended action to adjust capitation rates for these contracts, with the exception of Kaiser Foundation Health Plan, Inc., have been included in the proposed CalOptima Fiscal Year (FY) 2020-21 Operating Budget pending Board approval. These proposed changes represent an approximately 2.0% overall reduction in Medi-Cal Classic health network capitation payments, projected at an estimated $8 million in FY 2020-21. In addition, the budget proposes an overall reduction of 7% to the MCE Professional capitation rate and a reduction of 14% to the MCE Hospital capitation rate. Aggregate decreases to MCE Professional capitation expenses and associated shared risk pools are projected to be $50 million in FY 2020-21.

Rationale for Recommendation
CalOptima staff recommends this action to maintain and continue the contractual relationship with the provider network and to fulfill regulatory and CalOptima policy requirements.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 6, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

26. Consider Authorizing Amended and Restated Medi-Cal Full Risk Health Network Contract for Heritage Provider Network, Inc., Monarch Health Plan, Inc., and Prospect Health Plan, Inc. to Incorporate Changes Related to Department of Health Care Services Regulatory Guidance and Amend Capitation Rates

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Nancy Huang, Interim Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to enter into Amended and Restated Full Risk Health Network Contracts with Heritage Provider Network, Inc., Monarch Health Plan, Inc., and Prospect Health Plan, Inc. effective July 1, 2019 date that address the following:

a) Changes to reflect requirements as set forth in the California Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001, Medi-Cal Managed Care Health Plan Guidance on Network Provider Status, as well as other relevant statutory, regulatory, and/or contractual requirements;
b) Amended capitation rates for assigned members effective July 1, 2019 to the extent authorized by the Board in a separate Board action;

Background/Discussion

On December 6, 2018, the Board authorized extension of CalOptima's Medi-Cal Health Network contracts to June 30, 2020. In the interim, there have been numerous initiatives, APLs, and other regulatory updates which necessitate the revision of contract terms. Additionally, the Health Network contracts have been amended numerous times over the years reflecting program, compensation and/or regulatory changes and these changes need to be incorporated in a master template contract. At this time, Staff requests authority to issue an amended and restated Health Network contract incorporating previously approved amendments, changes to address regulatory guidance and amended capitation rates.

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance program (CHIP) regulations. The intent of the regulations is to align the managed care requirements of Medicaid with those for Medicare. As specified in the contract with DHCS, CalOptima is required to incorporate some of the revised regulations into CalOptima's contracts with Health Networks. On January 17, 2019, DHCS issued APL 19-001 that identified the provisions that must be included in network provider contracts to meet state and federal contracting requirements.

In addition to the changes to the contract terms reflected in APL 19-001, Staff has incorporated additional statutory, regulatory and contractual revisions which include, but are not limited to:

emergency services notification requirements; Government Claims Act specifications; and, document and data submissions certification obligations.

The budget for Fiscal Year (FY) 2019-20 reflects a decrease in Medi-Cal Expansion (MCE) revenue and an increase in Medi-Cal classic. Capitation reimbursement levels paid by CalOptima to providers for the MCE population is higher than levels that are supported by cost and utilization data. This fact coupled with the reduction in revenue from DHCS has resulted in decreases to the MCE capitation rates for the Health Networks. For the Medi-Cal Classic population Staff recommends an increase to both Professional and Hospital capitation for Adult TANF and SPD members. The amended and restated contract reflects revised capitation rates effective July 1, 2019 to the extent authorized by the Board in a separate Board action.

Fiscal Impact

The recommended action to enter into amended and restated Medi-Cal Health Network contracts to comply with requirements in DHCS APL 19-001, and other relevant statutory, regulatory, and/or contractual requirements is not expected to have a fiscal impact.

Costs associated with the recommended action to revise capitation rates for these contracts have been included in the proposed CalOptima FY 2019-20 Operating Budget pending Board approval. The budget includes proposed increases of 4% to the Adult Temporary Assistance for Needy Families (TANF) and seniors and persons with disabilities (SPD) Professional capitation rates and 6% to the Adult TANF and SPD Hospital capitation rates. The increases total approximately $7.5 million in FY 2019-20.

In addition, the budget proposes a reduction of 8% to the MCE Professional capitation rate and a reduction of 21% to the MCE Hospital capitation rate. Aggregate decreases to MCE capitation expenses and associated shared risk pools are projected to be $95 million in FY 2019-20.

Rationale for Recommendation

CalOptima staff recommends these actions to fulfill regulatory requirements.

ALL PLAN LETTER 19-001

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: MEDI-CAL MANAGED CARE HEALTH PLAN GUIDANCE ON NETWORK PROVIDER STATUS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance to Medi-Cal managed care health plans (MCPs) regarding how the Department of Health Care Services (DHCS) evaluates Network Provider status in order to promote consistency between federal regulations, Medi-Cal managed care contracts, state law, APLs, and similar instructions. It is the general intention of DHCS to apply this policy related to Network Provider contracting requirements in a standardized manner, to the extent appropriate, across relevant contexts, including MCP Network Provider and Subcontractor agreements, provider directory reporting, network adequacy certification, and directed payments pursuant to Title 42 of the Code of Federal Regulations (CFR) Section 438.6(c).[1]

BACKGROUND:
In May 2016, the Centers for Medicare and Medicaid Services (CMS) released the Final Rule in the Federal Register applicable to Medicaid managed care programs (Final Rule).[2] The Final Rule did not eliminate or weaken any of the existing requirements found in the current Medi-Cal managed care contract, but rather updated the managed care regulations to include new and expanded requirements for MCP Subcontractors and separately defined Network Providers.[3] In implementing the Final Rule, DHCS submitted contract amendments to CMS to bring its existing provisions related to "Subcontracts" into compliance with the new and more stringent federal requirements.[4] As of now, and consistent with historical practice and Title 22 of the California Code of

[3] See 42 CFR 438.2, "Definitions."
[4] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date the amendment is pending approval by CMS, and is anticipated to be finalized with minimal changes.

Back to Agenda Back to Item

Regulations (CCR) Section 53250,[5] DHCS is maintaining uniformity to the extent appropriate with respect to the requirements for all "Subcontracts," regardless of whether the agreement is between an MCP and an entity defined as a "Subcontractor" or "Network Provider" under 42 CFR Section 438.2.[6]

While the guidance in this APL on how DHCS will evaluate compliance is prospective, many of these obligations were imposed as of July 1, 2017, in accordance with the Final Rule.

Additional guidance on what constitutes an eligible Network Provider for directed payment programs is set forth on the DHCS Directed Payments web page.[7]

POLICY:

I. **Required Characteristics of Network Providers**
Effective on or after July 1, 2019, a Network Provider, as defined in 42 CFR Section 438.2 and the Medi-Cal managed care contract in Exhibit E, Attachment 1, Definitions, must:

1. Have an executed written Network Provider Agreement with the MCP or a Subcontractor of the MCP that meets all the requirements set forth in Attachment A of to this APL;
2. Be enrolled in accordance with APL 17-019,[8] the Medi-Cal Managed Care Provider Enrollment Frequently Asked Questions (FAQ) document, or any subsequent APL or FAQ update on the topic, unless enrollment is not required as specified by DHCS;
3. Be reported on the MCP's 274 file submitted to DHCS, for all applicable filings, in accordance with APL 16-019 or any subsequent APL on the topic and the most recent DHCS 274 Companion Guide; and

---

[5] The CCR is searchable at: https://govt.westlaw.com/calregs/Search/Index
[6] The Medi-Cal managed care contract defines the term Subcontract to include both Subcontractors and Network Providers (as those terms are defined under 42 CFR Section 438.2), and all requirements listed in Paragraph B of Provision 14 of Exhibit A, Attachment 6 apply to Network Providers. A provider may maintain Network Provider status without an agreement directly with an MCP, if they are connected through a series of Subcontracts, so long as those Subcontracts also meet all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and Policy Letters (PLs), in particular, but not limited to, those requirements in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic). That chain of Subcontracts may include an entity that is also a Network Provider, who, as a result of taking on an administrative function of contracting for care (and not providing that care itself), also meets the definition of a "Subcontractor."
[7] The DHCS directed payment web page is available at: https://www.dhcs.ca.gov/services/Pages/DirectedPymts.aspx
[8] APLs are available at: https://www.dhcs.ca.gov/formsandpubs/Pages/AllPlanLetters.aspx

4. Be included on all network adequacy filings that occur within the effective dates of the written Network Provider Agreement, in accordance with APL 18-005, or any subsequent APL on the topic, following the execution of the agreement. This does not automatically require the provider to be listed on a provider directory, nor does it require the inclusion of a Network Provider on network adequacy filings if such inclusion would be inappropriate due to timing or other circumstances, as discussed in APL 18-005.

For contract/rating periods commencing on or after July 1, 2019, when DHCS references Network Providers in guidance, information, instruction, or communications, it will refer to providers who meet the criteria outlined in this APL, unless expressly noted otherwise. MCPs must use the guidance provided in this APL and the checklist provided in Attachment A to update current Network Provider Agreement boilerplates for compliance before submitting to DHCS for review and approval. Note that this APL, including its attachment, is not an exhaustive list of all MCP duties related to Network Providers, and it is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs.

A provider that does not meet the criteria for a Network Provider shall not be reported on the 274 file or as part of the MCP's network adequacy filings.

II. Written Network Provider Agreement Requirements

In order to ensure alignment with the DHCS criteria for Network Providers across applicable settings, all MCPs must ensure that their Network Provider Agreements comply with current and applicable Medi-Cal managed care contract requirements.

In accordance with the current Medi-Cal managed care contracts and 22 CCR Section 53250, all Network Provider Agreement boilerplates must be submitted to DHCS for review and approval before use. A checklist of the required elements for these agreements is included as Attachment A of this APL. Where an MCP's relationship with a Network Provider includes one or more sub-delegated entities or a hospital to hospital agreement, each Subcontractor agreement that links the MCP to the Network Provider must also comply with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs, in particular, but not limited to, those in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic).

III. DHCS Review and Approval of Network Provider Agreement Boilerplate Compliance

As stated above, MCPs are required to submit Network Provider Agreement boilerplates that have been updated in accordance with the requirements in this APL to DHCS for review and approval prior to use. MCPs are also responsible for complying with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs, as they relate to Network Provider requirements and Network Provider Agreements.

MCPs will have 60 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for hospital providers and 120 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for non-hospital providers to their DHCS contract manager.

The timing for DHCS to review these Network Provider Agreement boilerplates will follow the current 60-day review timing requirements as outlined in the Medi-Cal managed care contract under Exhibit E, Attachment 3, Duties of the State, DHCS Approval Process.

If an MCP has a timing issue that would require a Network Provider Agreement boilerplate to be approved for use by DHCS sooner than the 60-day review period would allow, the MCP must notify its DHCS Contract Manager to arrange an alternate timing agreement.

IV. Directed Payment Impacts

All MCPs must comply with the terms of all directed payments approved by CMS in accordance with 42 CFR Section 438.6(c), as documented in CMS-approved preprints, state law, and/or as implemented by DHCS through APL or other similar guidance. All such guidance is available at the DHCS Directed Payments web page. If a Network Provider Agreement does not meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments, the services provided under that agreement will not be eligible for directed payments for rating periods commencing on or after July 1, 2019. For pooled directed payments where DHCS retrospectively calculates final payments based on the actual reported utilization of eligible services, MCPs must continue to provide supplemental encounter/service-level data, in a manner and at times specified by DHCS. This information will aid in identifying the subset of services provided under a Network Provider Agreement that meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments.

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs. These requirements must be communicated by each MCP to all delegated entities and subcontractors.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

Nathan Nau, Chief
Managed Care Quality and Monitoring Division

Attachment(s)

Attachment A: Network Provider Agreement Boilerplate Checklist

This Attachment establishes a checklist for MCPs to use in connection with their development of Network Provider Agreement templates. It is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable All Plan Letters and Policy Letters.

Network Provider Agreements must contain:	
1	Specification of the services to be provided by the Network Provider. Citation: Managed Care Plan Contract (MCP Contract), Exhibit A, Attachment 6, Provision 14.B.1 and Title 22, CCR, Sections 53250(c)(1) and 53867.[1]
2	Specification that the Network Provider Agreement must be governed by and construed in accordance with all laws and applicable regulations governing the Contract between Contractor and DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.2 and Title 22, CCR, Sections 53250(c)(2) and 53867.
3	Specification that the Network Provider Agreement or its amendments will become effective only as set forth in Exhibit A, Attachment 6, Provision 13.C. Departmental Approval – Non-Federally Qualified HMOs, or 13.D, Departmental Approval – Federally Qualified HMOs. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.3 and Title 22, CCR, Sections 53250(c)(3) and 53867.
4	Specification of the term of the Network Provider Agreement, including beginning and ending dates, methods of extension, renegotiation, and termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.4 and Title 22, CCR, Sections 53250(c)(4) and 53867.
5	Language comparable to Exhibit A, Attachment 8, Provision 13. Contracting & Non-Contracting Emergency Service Providers & Post-Stabilization, for those Network Providers at risk for non-contracting emergency services. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.5.
6	Network Provider's agreement to submit reports as required by Contractor. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.6, Exhibit A, Attachment 3, Provision 2.C and 2.G, and Title 22, CCR, Sections 53250(c)(5) and 53867.

[1] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date, the amendment is pending approval by CMS and is anticipated to be finalized with minimal changes.

7	Specification that the Network Provider must comply with all monitoring provisions of the MCPs' contracts and any monitoring requests by DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.7, 42 CFR 438.3(h), and Title 22, CCR, Sections 53250(e)(1) and 53867.
8	Network Provider's agreement to make all of its premises, facilities, equipment, books, records, contracts, computer and other electronic systems pertaining to the goods and services furnished under the terms of the Network Provider Agreement, available for the purpose of an audit, inspection, evaluation, examination or copying, including but not limited to Access Requirements and State's Right to Monitor, as set forth in Exhibit E, Attachment 2, Provision 20. Inspection Rights: a) By DHCS, CMS, Department of Health and Human Services (DHHS) Inspector General, the Comptroller General, Department of Justice (DOJ), and Department of Managed Health Care (DMHC), or their designees. b) At all reasonable times at the Network Provider's place of business or at such other mutually agreeable location in California. c) In a form maintained in accordance with the general standards applicable to such book or record keeping. d) For a term of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. e) Including all Encounter Data for a period of at least ten (10) years. f) If DHCS, CMS, or the DHHS Inspector General determines there is a reasonable possibility of fraud or similar risk, DHCS, CMS, or the DHHS Inspector General may inspect, evaluate, and audit the Network Provider at any time. g) Upon resolution of a full investigation of fraud, DHCS reserves the right to suspend or terminate the Network Provider from participation in the Medi-Cal program; seek recovery of payments made to the Network Provider; impose other sanctions provided under the State Plan, and direct Contractor to terminate their Network Provider Agreement due to fraud. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.8, Exhibit E, Attachment 2, Provision 20, and 42 CFR 438.3(h).

9	Full disclosure of the method and amount of compensation or other consideration to be received by the Network Provider. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.9 and Title 22, CCR, Sections 53250(e)(2) and 53867.
10	Network Provider's agreement to maintain and make available to DHCS, upon request, copies of all sub-subcontracts and to ensure that all sub-subcontracts are in writing and require that the Network Provider: a) Make all premises, facilities, equipment, applicable books, records, contracts, computer, or other electronic systems related to this Contract, available at all reasonable times for audit, inspection, examination, or copying by DHCS, CMS, or the DHHS Inspector General, the Comptroller General, DOJ, and DMHC, or their designees. b) Retain such books and all records and documents for a term minimum of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.10.
11	Network Provider's agreement to assist Contractor in the transfer of care pursuant to Exhibit E, Attachment 2, Provision 14. Phase out Requirements, Subparagraph B in the event of contract termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.11.
12	Network Provider's agreement to assist Contractor in the transfer of care in the event of sub-subcontract termination for any reason. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.12.
13	Network Provider's agreement to notify DHCS in the event the agreement with the Contractor is amended or terminated. Notice is considered given when properly addressed and deposited in the United States Postal Service as first-class registered mail, postage attached. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.13 and Title 22, CCR, Sections 53250(e)(4) and 53867.
14	Network Provider's agreement that assignment or delegation of the Network Provider Agreement or Subcontract will be void unless prior written approval is obtained from DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.14 and Title 22, CCR, Sections 53250(e)(5) and 53867.
15	Network Provider's agreement to hold harmless both the State and Members in the event Contractor cannot or will not pay for services performed by the Network Provider pursuant to the Network Provider Agreement. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.15 and Title 22, CCR, Sections 53250(e)(6) and 53867.

16	Network Provider's agreement to timely gather, preserve and provide to DHCS, any records in the Network Provider's possession, in accordance with Exhibit E, Attachment 2, Provision 24. Records Related to Recovery for Litigation. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.16.
17	Network Provider's agreement to provide interpreter services for Members at all Provider sites. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.17.
18	Network Provider's right to submit a grievance and Contractor's formal process to resolve Provider Grievances. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.18.
19	Network Provider's agreement to participate and cooperate in Contractor's Quality Improvement System. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.19.
20	If Contractor delegates Quality Improvement activities, the Network Provider Agreement must include those provisions stipulated in Exhibit A, Attachment 4, Provision 6. Delegation of Quality Improvement Activities. Contractor and delegated entity (Network Provider) must include in their Network Provider Agreement, at minimum: 1) Quality improvement responsibilities, and specific delegated functions and activities of the Contractor and Network Provider. 2) Contractor's oversight, monitoring, and evaluation processes and Network Provider's agreement to such processes. 3) Contractor's reporting requirements and approval processes. The agreement must include Network Provider's responsibility to report findings and actions taken as a result of the quality improvement activities at least quarterly. 4) Contractor's actions/remedies if Network Provider's obligations are not met. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.20 and Exhibit A, Attachment 4, Provision 6.A.
21	Network Provider's agreement to comply with all applicable requirements of the DHCS, Medi-Cal Managed Care Program. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.21.
22	Network Provider's agreement to revoke the delegation of activities or obligations, or specify other remedies in instances where DHCS or Contractor determine that the Network Provider has not performed satisfactorily. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.22, 42 CFR 438.230(c)(iii), and Title 22, CCR, Sections 53250 and 53867.

23	To the extent that the Network Provider is responsible for the coordination of care for Members, Contractor's agreement to share with the Network Provider any utilization data that DHCS has provided to Contractor, and the Network Provider's agreement to receive the utilization data provided and use it as the Network Provider is able for the purpose of Member care coordination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.23 and 42 CFR 438.208.
24	Contractor's agreement to inform the Network Provider of prospective requirements added by DHCS to Contractor's Contract with DHCS before the requirement would be effective, and Network Provider's agreement to comply with the new requirements within 30 days of the effective date, unless otherwise instructed by DHCS and to the extent possible. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.24.
25	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely provider data needed by Contractor in order for Contractor to meet its provider data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provision 1; APL 16-019, and any subsequent updates.
26	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely Encounter Data needed by Contractor in order for Contractor to meet its encounter data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provisions 2.C and 2.G.; APL 14-019, and any subsequent updates.
27	A provision prohibiting Network Providers from balance billing a Medi-Cal member. Citation: MCP Contract, Exhibit A, Attachment 8, Provision 6.
28	A provision stating that Contractor will provide cultural competency, sensitivity, and diversity training. Citation: MCP Contract, Exhibit A, Attachment 9, Provision 13.E.
29	A provision confirming a Network Provider's right to access Contractor's dispute resolution mechanism. Citation: Health & Safety Code §1367 (h)(1).
30	A provision requiring that Network Providers comply with language assistance standards developed pursuant to Health & Safety Code §1367.04.
31	A provision confirming that Network Providers are entitled to all protections afforded them under the Health Care Providers' Bill of Rights. Citation: Health & Safety Code §1375.7

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

Back to Agenda Back to Item

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

45. Consider Actions Related to CalOptima's Whole-Child Model Program

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. Authorize CalOptima staff to develop an implementation plan to integrate California Children's Services into its Medi-Cal program in accordance with the Whole Child Model (WCM), and return to the Board for approval after developing draft policies, and completing additional analysis and modeling prior to implementation;
2. Authorize and direct the Chief Executive Officer (CEO), with assistance of Legal Counsel, to execute a Memorandum of Understanding (MOU) with Orange County Health Care Agency (OC HCA for coordination of care, information sharing and other actions to support WCM activities; and
3. In connection with development of the Whole Child Model Family Advisory Committee:
    a. Direct the CEO to adopt new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee; and,
    b. Appoint the following ~~eleven~~ individuals to the Whole-Child Model Family Advisory Committee (WCM FAC) for one or two-year terms as indicated or until a successor is appointed, beginning July 1, 2018:

Rev. 6/7/2018

        i. Family Member Representatives:
            a) Maura Byron for a two-year term ending June 30, 2020;
            b) Melissa Hardaway for a one-year term ending June 30, 2019;
            c) Grace Leroy-Loge for a two-year term ending June 30, 2020;
            d) Pam Patterson for a one-year term ending June 30, 2019;
            e) Kristin Rogers for a two-year term ending June 30, 2020; and
            f) Malissa Watson for a one-year term ending June 30, 2019.
        ~~ii. Community Representatives:~~
            ~~a) Michael Arnot for a two-year term ending June 30, 2020;~~
            ~~b) Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

c. Current CalOptima members age of 21 and over who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

Program Implementation

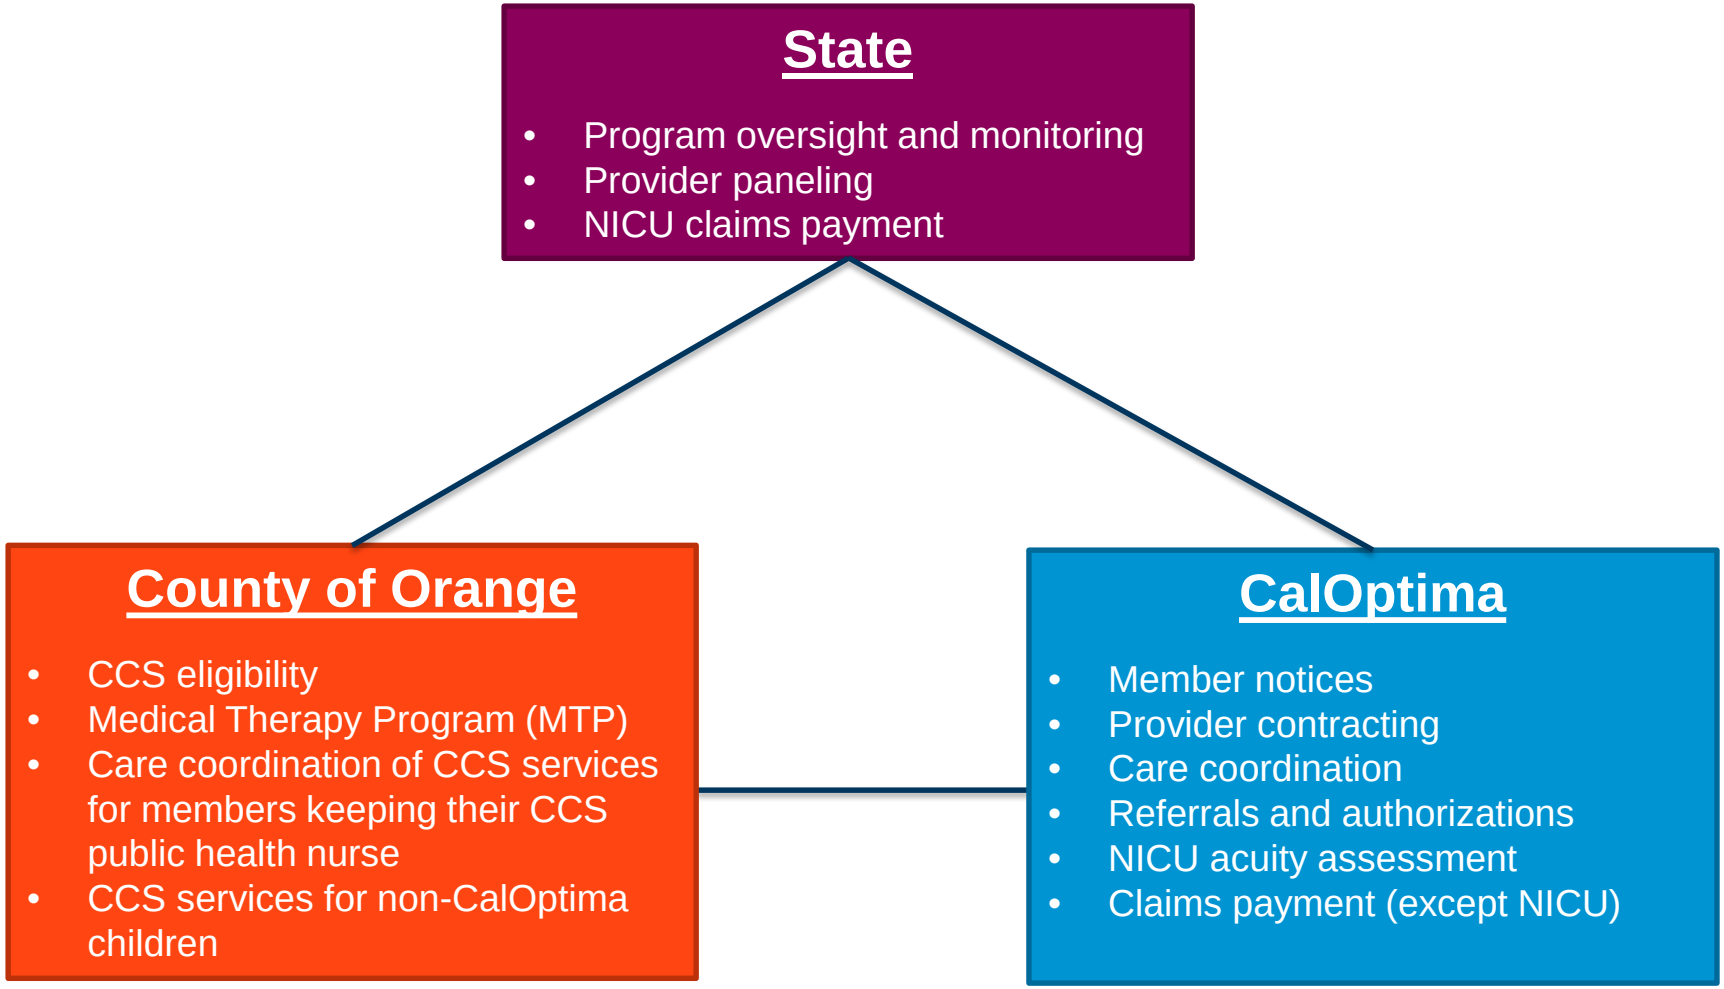
Back to Agenda Back to Item

Background

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency
- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities



WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

Resolution No. 17-1102-01

Rev.
11/2/17

/s/ Michael Schrader — **Authorized Signature**

10/23/2017 — **Date**

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
   - Current CalOptima members over the age of 21 who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children with CCS, including:
   - Community-based organizations (CBOs); or
   - Consumer advocates.

Rev. 11/2/2017

If nine or more qualified candidates initially apply for family representative seats, nine of the eleven committee seats will be filled with family representatives. Initially, and on an on-going basis, only in circumstances when there are insufficient applicants to fill all of the designated family representative seats with qualifying family representatives, up to two of the nine seats designated for family members may be filled with representatives of CBOs or consumer advocates.

It is anticipated that a representative from the CalOptima WCM-FAC may be invited to serve on a statewide stakeholder advisory group.

Section 3. Chair and Vice Chair. The Chair and Vice Chair for the WCM-FAC will be appointed by the Board annually from the appointed members. The Chair, or in the Chair's absence, the Vice Chair, shall preside over WCM-FAC meetings. The Chair and Vice Chair may each serve up to two consecutive terms in a particular WCM-FAC officer position, or until their successor is appointed by the Board.

Section 4. Committee Mission, Goals and Objectives. The WCM-FAC will develop, review annually, and make recommendations to the Board on any revisions to the committee's Mission or Goals and Objectives.

Section 5. Meetings. The WCM-FAC will meet at least quarterly. A yearly meeting schedule will be adopted at the second regularly scheduled meeting for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws.

Attendance by the occupants of a simple majority of WCM-FAC seats shall constitute a quorum. A quorum must be present in order for any action to be taken by the WCM-FAC. Committee members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to the scheduled WCM-FAC meeting.

The CalOptima Chief Executive Officer (CEO) shall prepare, or cause to be prepared, and post, or cause to be posted, an agenda for all WCM-FAC meetings. Agenda contents and posting procedures must be consistent with the requirements of the Ralph M. Brown Act (Government Code section 54950 *et seq.*).

WCM-FAC minutes will be taken at each meeting and filed with the Board.

Section 6. Reporting. The Chair is required to report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board.

Section 7. Staffing. CalOptima will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

Section 8. Ad Hoc Committees. Ad hoc committees may be established by the WCM-FAC Chair from time to time to formulate recommendations to the full WCM-FAC on specific issues. The scope and purpose of each such ad hoc will be defined by the Chair and disclosed at WCM-FAC meetings. Each ad hoc committee will terminate when the specific task for which it was created is complete. An ad hoc committee must include fewer than a majority of the voting committee members.

Section 9. Stipend. Subject to DHCS approval, family representatives participating on the WCM-FAC are eligible to receive a stipend for their attendance at regularly scheduled and ad hoc WCM-FAC meetings. Only one stipend is available per qualifying WCM-FAC member per regularly scheduled meeting. WCM-FAC members representing community-based organizations and consumer advocates are not eligible for WCM-FAC stipends.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of November, 2017.

Department:	General Administration
Section:	Not Applicable
CEO Approval:	Michael Schrader
Effective Date:	06/07/18
Last Review Date:	Not Applicable
Last Revised Date:	Not Applicable

I. PURPOSE

This policy describes the composition and role of the Family Advisory Committee for Whole Child Model (WCM) and establishes a process for recruiting, evaluating, and selecting prospective candidates to the Whole Child Model Family Advisory Committee (WCM FAC).

II. POLICY

A. As directed by CalOptima's Board of Directors (Board), the WCM FAC shall report to the CalOptima Board and shall provide advice and recommendations to the CalOptima Board and CalOptima staff in regards to California Children's Services (CCS) provided by CalOptima Medi-Cal's implementation of the WCM.

B. CalOptima's Board encourages Member and community involvement in CalOptima programs.

C. WCM FAC members shall recuse themselves from voting or from decisions where a conflict of interest may exist and shall abide by CalOptima's conflict of interest code and, in accordance with CalOptima Policy AA.1204: Gifts, Honoraria, and Travel Payments.

D. CalOptima shall provide timely reporting of information pertaining to the WCM FAC as requested by the Department of Health Care Services (DHCS).

E. The composition of the WCM FAC shall reflect the cultural diversity and special needs of the health care consumers within the Whole-Child Model population. WCM FAC members shall have direct or indirect contact with CalOptima Members.

F. In accordance with CalOptima Board Resolution No. 17-1102-01, the WCM FAC shall be comprised of eleven (11) voting members representing CCS family members, as well as consumer advocates representing CCS families. Except as noted below, each voting member shall serve a two (2) year term with no limits on the number of terms a representative may serve. The initial appointments of WCM FAC members will be divided between one (1) and two (2)-year terms to stagger reappointments. In the first year, five (5) committee member seats shall be appointed for a one (1)-year term and six (6) committee member seats shall be appointed for a two (2)-year term. The WCM FAC members serving a one (1) year term in the first year shall, if reappointed, serve two (2) year terms thereafter.

1. Seven (7) to nine (9) of the seats shall be family representatives in one (1) of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):

    a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima Member who is a current recipient of CCS services;

    b. CalOptima Members eighteen (18)-twenty-one (21) years of age who are current recipients of CCS services; or

    c. Current CalOptima members over the age of twenty-one (21) who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:

    a. Community-based organizations; or

    b. Consumer advocates.

3. While two (2) of the WCM FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, an additional two (2) WCM FAC candidates representing these groups may be considered for these seats in the event that there are not sufficient family representative candidates to fill the family member seats.

4. Interpretive services shall be provided at committee meetings upon request from a WCM FAC member or family member representative.

5. A family representative, in accordance with Section II.G.1 of this Policy, may be invited to serve on a statewide stakeholder advisory group.

G. Stipends

1. Subject to approval by the CalOptima Board, CalOptima may provide a reasonable per diem payment to a member or family representative serving on the WCM FAC. CalOptima shall maintain a log of each payment provided to the member or family representative, including type and value, and shall provide such log to DHCS upon request.

    a. Representatives of community-based organizations and consumer advocates are not eligible for stipends.

H. The WCM FAC shall conduct a nomination process to recruit potential candidates for expiring seats, in accordance with this Policy.

I. WCM FAC Vacancies

1. If a seat is vacated within two (2) months from the start of the nomination process, the vacated seat shall be filled during the annual recruitment and nomination process.

2. If a seat is vacated after the annual nomination process is complete, the WCM FAC nomination ad hoc subcommittee shall review the applicants from the recent recruitment to see if there is a viable candidate.

    a. If there is no viable candidate among the applicants, CalOptima shall conduct recruitment, per section III.B.2.

3. A new WCM FAC member appointed to fill a mid-term vacancy, shall serve the remainder of the resigning member's term, which may be less than a full two (2) year term.

J. On an annual basis, WCM FAC shall select a chair and vice chair from its membership to coincide with the annual recruitment and nomination process. Candidate recruitment and selection of the chair and vice chair shall be conducted in accordance with Sections III.B-D of this Policy.

1. The WCM FAC chair and vice chair may serve two (2) consecutive one (1) year terms.

2. The WCM FAC chair and/or vice chair may be removed by a majority vote of CalOptima's Board.

K. The WCM FAC chair, or vice chair, shall ask for three (3) to four (4) members from the WCM FAC to serve on a nomination ad hoc subcommittee. WCM FAC members who are being considered for reappointment cannot participate in the nomination ad hoc subcommittee.

1. The WCM FAC nomination ad hoc subcommittee shall:

    a. Review, evaluate and select a prospective chair, vice chair and a candidate for each of the open seats, in accordance with Section III.C-D of this Policy; and

    b. Forward the prospective chair, vice chair, and slate of candidate(s) to the WCM FAC for review and approval.

2. Following approval from the WCM FAC, the recommended chair, vice chair, and slate of candidate(s) shall be forwarded to CalOptima's Board for review and approval.

L. CalOptima's Board shall approve all appointments, reappointments, and chair and vice chair appointments to the WCM FAC.

M. Upon appointment to WCM FAC and annually thereafter, WCM FAC members shall be required to complete all mandatory annual Compliance Training by the given deadline to maintain eligibility standing on the WCM FAC.

N. WCM FAC members shall attend all regularly scheduled meetings, unless they have an excused absence. An absence shall be considered excused if a WCM FAC member provides notification of an absence to CalOptima staff prior to the meeting. CalOptima staff shall maintain an attendance log of the WCM FAC members' attendance at WCM FAC meetings. As the attendance log is a public record, any request from a member of the public, the WCM FAC chair, the vice chair, the Chief Executive Officer, or the CalOptima Board, CalOptima staff shall provide a copy of the attendance log to the requester. In addition, the WCM FAC chair, or vice chair, shall contact any committee member who has three (3) consecutive unexcused absences.

1. WCM FAC members' attendance shall be considered as a criterion upon reapplication.

III. PROCEDURE

A. WCM FAC meeting frequency

1. WCM FAC shall meet at least quarterly.

2. WCM FAC shall adopt a yearly meeting schedule at the first regularly scheduled meeting in or after January of each year.

3. Attendance by a simple majority of appointed members shall constitute a quorum, and a quorum must be present for any votes to be valid.

B. WCM FAC recruitment process

1. CalOptima shall begin recruitment of potential candidates in March of each year. In the recruitment of potential candidates, the ethnic and cultural diversity and special needs of children and/or families of children in CCS which are or are expected to transition to CalOptima's Whole-Child Model population shall be considered. Nominations and input from interest groups and agencies shall be given due consideration.

2. CalOptima shall recruit for potential candidates using one or more notification methods, which may include, but are not limited to, the following:

   a. Outreach to family representatives and community advocates that represent children receiving CCS;

   b. Placement of vacancy notices on the CalOptima website; and/or

   c. Advertisement of vacancies in local newspapers in Threshold Languages.

3. Prospective candidates must submit a WCM Family Advisory Committee application, including resume and signed consent forms. Candidates shall be notified at the time of recruitment regarding the deadline to submit their application to CalOptima.

4. Except for the initial recruitment, the WCM FAC chair or vice chair shall inquire of its membership whether there are interested candidates who wish to be considered as a chair or vice chair for the upcoming fiscal year.

   a. CalOptima shall inquire at the first WCM FAC meeting whether there are interested candidates who wish to be considered as a chair for the first year.

C. WCM FAC nomination evaluation process

1. The WCM FAC chair or vice chair shall request three (3) to four (4) members, who are not being considered for reappointment, to serve on the nominations ad hoc subcommittee. For the first nomination process, Member Advisory Committee (MAC) members shall serve on the nominations ad hoc subcommittee to review candidates for WCM FAC.

a. At the discretion of the nomination ad hoc subcommittee, a subject matter expert (SME), may be included on the subcommittee to provide consultation and advice.

2. Prior to WCM FAC nomination ad hoc subcommittee meeting (including the initial WCM FAC nomination ad hoc subcommittee).

a. Ad hoc subcommittee members shall individually evaluate and score the application for each of the prospective candidates using the applicant evaluation tool.

b. Ad hoc subcommittee members shall individually evaluate and select a chair and vice chair from among the interested candidates.

c. At the discretion of the ad hoc subcommittee, subcommittee members may contact a prospective candidate's references for additional information and background validation.

3. The ad hoc subcommittee shall convene to discuss and select a chair, vice chair and a candidate for each of the expiring seats by using the findings from the applicant evaluation tool, the attendance record if relevant and the prospective candidate's references.

D. WCM FAC selection and approval process for prospective chair, vice chair, and WCM FAC candidates:

1. The nomination ad hoc subcommittee shall forward its recommendation for a chair, vice chair, and a slate of candidates to WCM FAC (or in the first year, the MAC) for review and approval. Following WCM FAC's approval (or in the first year, the MAC), the proposed chair, vice chair and slate of candidates shall be submitted to CalOptima's Board for approval.

2. The WCM FAC members' terms shall be effective upon approval by the CalOptima Board.

a. In the case of a selected candidate filling a seat that was vacated mid-term, the new candidate shall attend the immediately following WCM FAC meeting.

3. WCM FAC members shall attend a new advisory committee member orientation.

LIMITED PRIVACY WAIVER

Under state and federal law, the fact that a person is eligible for Medi-Cal and California Children's Services (CCS) is a private matter that may only be disclosed by CalOptima as necessary to administer the Medi-Cal and CCS program, unless other disclosures are authorized by the eligible member. Because the position of Member Representative on Whole Child Model Family Advisory Committee (WCM FAC) requires that the person appointed must be a member or a family member of a member receiving CCS, the member's Medi-Cal and CCS eligibility will be disclosed to the general public. The member or their representative (e.g. parent, foster parent, guardian, etc.) should check the appropriate box below and sign this waiver to allow his or her, or his or her family member or caregiver's name to be nominated for the advisory committee.

☐ **MEMBER APPLICANT — I understand that by signing below and applying to serve on the WCM FAC, I am disclosing my eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

☐ **FAMILY MEMBER APPLICANT — I understand that by applying to serve on the WCM FAC, my status as a family member of a person eligible for Medi-Cal and CCS benefits is likely to become public. I authorize the disclosing of my family member's (insert name of member: _____) eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION (PHI)

The federal HIPAA Privacy Regulations requires that you complete this form to authorize CalOptima to use or disclose your Protected Health Information (PHI) to another person or organization. Please complete, sign, and return the form to CalOptima.

Date of Request: _____ Telephone Number: _____

Member Name: _____ Member CIN: _____

AUTHORIZATION:

I, _____, hereby authorize CalOptima, to use or disclose my health information as described below.

Describe the health information that will be used or disclosed under this authorization (please be specific): Information related to the identity, program administrative activities and/or services provided to {me} {my child} which is disclosed in response to my own disclosures and/or questions related to same.

Person or organization authorized to receive the health information: **General public**

Describe each purpose of the requested use or disclosure (please be specific): **To allow** CalOptima staff to respond to questions or issues raised by me that may require reference to my health information that is protected from disclosure by law during public meetings of **the CalOptima Whole-Child Model Family Advisory Committee**

EXPIRATION DATE:

This authorization shall become effective immediately and shall expire on: **The end of the term of the position applied for**

Right to Revoke: I understand that I have the right to revoke this authorization in writing at any time. To revoke this authorization, I understand that I must make my request in writing and clearly state that I am revoking this specific authorization. In addition, I must sign my request and then mail or deliver my request to:

CalOptima
Customer Service Department
505 City Parkway West
Orange, CA 92868

I understand that a revocation will not affect the ability of CalOptima or any health care provider to use or disclose the health information to the extent that it has acted in reliance on this authorization.

RESTRICTIONS:

I understand that anything that occurs in the context of a public meeting, including the meetings of the Whole Child Model Family Advisory Committee, is a matter of public record that is required to be disclosed upon request under the California Public Records Act. Information related to, or relevant to, information disclosed pursuant to this authorization that is not disclosed at the public meeting remains protected from disclosure under the Health Insurance Portability and Accountability Act (HIPAA), and will not be disclosed by CalOptima without separate authorization, unless disclosure is permitted by HIPAA without authorization, or is required by law.

MEMBER RIGHTS:

- I understand that I must receive a copy of this authorization.
- I understand that I may receive additional copies of the authorization.
- I understand that I may refuse to sign this authorization.
- I understand that I may withdraw this authorization at any time.
- I understand that neither treatment nor payment will be dependent upon my refusing or agreeing to sign this authorization.

ADDITIONAL COPIES:

Did you receive additional copies? ☐ Yes ☐ No

CalOptima Board Action Agenda Referral

Action To Be Taken June 4, 2009
Regular Meeting of the CalOptima Board of Directors

Report Item
VI. E. Approve Health Network Contract Rate Methodology

Contact
Michael Engelhard, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve the modification methodology of Health Network capitation rates for October 1, 2009.

Background
Health Network capitation is the payment method that CalOptima uses to reimburse PHCs and shared risk groups for the provision of health care services to members enrolled in CalOptima Medi-Cal and CalOptima Kids. In order to ensure that reimbursement to such capitated providers reflects up-to-date information, CalOptima periodically contracts with its actuarial consultants to recalculate or "rebase" these payment rates.

The purpose of this year's rebasing is to:

- Establish actuarially sound facility and professional capitation rates;
- Account for changes in CalOptima's delivery model;
- Incorporate changes in the Division of Financial Responsibility (DOFR); and
- Perform separate analyses for Medi-Cal and CalOptima Kids.

The overall methodology for this year's rebasing approach includes:

- CalOptima eligibility data;
- Encounter and CalOptima Direct (COD) claim data analysis
- Reimbursement analysis;
- PCP capitation analysis;
- Maternity "kick" payment analysis;
- State benefit carve-out analysis;
- Reinsurance analysis;
- Administrative load analysis;
- Budget neutrality established

Discussion
CalOptima uses capitation as one way to reimburse certain contracted health care providers for services rendered. A Capitation payment is made to the provider during the month and is based solely on the number of contracted members assigned to that provider

at the beginning of each month. The provider is then responsible for utilizing those dollars in exchange for all services provided during that month or period.

To ensure that capitated payment rates reflect the current structure and responsibilities between CalOptima and its delegated providers, capitation rates need to be periodically reset or rebased.

CalOptima last performed a comprehensive rate rebasing in July 2007, for rates effective January 1, 2008, for CalOptima Medi-Cal only. Much has changed since that time including the establishment of shared risk groups; the movement of certain high-acuity members out of the Health Networks and into COD; changes in the DOFR between hospitals, physicians and CalOptima; shifts in member mix between the Health Networks; and changes in utilization of services by members.

Therefore, CalOptima opted to perform another comprehensive rebasing analysis prior to the FY2009-10 year in order to fully reflect the above-mentioned changes.

Fiscal Impact
CalOptima projects no fiscal impact as a result of the rebasing. Rebasing is designed to be budget neutral to overall CalOptima medical expenses even though there will likely be changes to specific capitation rates paid to Health Network providers.

Rationale for Recommendation
Staff recommends approval of this action to provide proper reimbursement levels to CalOptima's capitated health networks participating in CalOptima Medi-Cal and CalOptima Kids.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to Be Taken December 17, 2003
Special Meeting of the CalOptima Board of Directors

Report Item
VI. A. Approve Modifications to the CalOptima Health Network Capitation Methodology and Rate Allocations

Contact
Amy Park, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve modifications to the CalOptima health network capitation methodology and rate allocations between Physician and Hospital financial responsibilities effective March 2004.

Background
CalOptima pays its health networks (HMOs and PHCs) according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which these rates are based, was developed by Milliman USA utilizing pre-CalOptima Orange County fee-for-service (FFS) experience as the baseline. This model then took into account utilization targets that were actuarially-appropriate for major categories of services and competitive reimbursement levels to ensure sufficient funds to provide all medically necessary services under a managed care model.

Since development of the model in 1999, CalOptima has negotiated capitation rate increases from the State for managed care rate "pass throughs" as a result of provider rate increases implemented in the Medi-Cal FFS program. In turn, CalOptima passed on these additional revenues to the health networks by increasing capitation payments, establishing carve-outs (e.g., transplants), or offering additional financial support, such as funding for enhanced subspecialty coverage and improving reinsurance coverage.

It has now been over four years since CalOptima commissioned a complete review of the actuarial cost model. As noted, CalOptima has only adjusted the underlying pricing in the actuarial cost model over the years to pass on increases in capitation rates to the health networks.

In light of State fiscal challenges and impending potential Medi-Cal funding and benefit reductions, CalOptima must examine the actuarial soundness of the existing cost model and update the utilization assumptions to ensure that CalOptima's health network capitation rate methodology continues to allocate fiscal resources commensurate with the level of medical needs of the population served. This process will also provide

Back to Agenda Back to Item

CalOptima with a renewed starting point from which to make informed decisions as we face yet another round of State budget uncertainties and declining resources.

Discussion

General Process. With the updated model, Milliman's rebasing process takes into account the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. Milliman examined the utilization statistics as indicated by the health network encounter data and evaluated the utilization for completeness by comparing against health network reported utilization and financial trends, health network primary care physician capitation and other capitation rates, health network hospital risk pool settlements, and other benchmarks as available. Further adjustments were made to account for changes in contractual requirements in the 2003-2005 health network contracts.

Utilization Assumptions. Consistent with changes in the State rate methodology, the updated health network capitation model combines the Family, Poverty and Child aid categories into a single Family aid category, with updated age/gender factors. The new model also recommends the creation of a supplemental capitation rate for members with end stage renal disease (ESRD). Furthermore, the actuarial model identifies actuarially-appropriate utilization targets for all major categories of services. These targets are set at levels that ensure that health networks have sufficient funds to provide all medically necessary services.

Pricing Assumptions. The new actuarial cost model includes reimbursement assumptions that are applied to the utilization targets to determine capitation rates. Effective October 2003, the State reduced CalOptima's capitation rates, effectively passing through the 5% cutback in physician and other provider rates as enacted in the 2003-04 State Budget Act. Notwithstanding this reduction, it is CalOptima's goal to maintain physician reimbursement levels to ensure members' continued access to care. Hence, CalOptima's health network minimum provider reimbursement policy and capitation funding will be maintained at its current levels. In other words, health networks will continue to be required to reimburse specialty physicians at rates that are no less than 150% of the Medi-Cal Fee Schedule and physician services in the actuarial model will continued to be priced at 147% of the August 1999 Medi-Cal Fee Schedule (as adjusted to primarily reflect market primary care physician capitation rates).

The actuarial cost model also provides sufficient funds to reimburse inpatient hospital reimbursement services at rates that are comparable to the average Southern California per diem rates and payment trends as published by California Medical Assistance Commission (CMAC) and to reimburse hospital outpatient services, commensurate with physician services, at 147% of the August 1999 Medi-Cal Fee Schedule.

In addition, the actuarial cost model provides sufficient funds for health network administrative expenses and an allowance for surplus. The table below summarizes the adjusted allocation of health network capitation rates to reflect the new actuarial cost model:

Aid Category	Proposed Hospital	Proposed Physician	Proposed Combined
Family/Poverty/Child	-4.6%	2.1%	-0.7%
Adult	-19.4%	-3.1%	-12.0%
Aged	18.9%	19.1%	19.0%
Disabled	10.9%	-4.4%	3.3%
Composite	1.7%	0.7%	1.2%

**Percentage changes are calculated from current capitation rates which have been adjusted to reflect the establishment of a separate ESRD supplemental capitation.*

Fiscal Impact

In summary, the proposed modifications will increase capitation payments made to physicians by 0.7%, while capitation payments to hospitals will increase by approximately 1.7%, for an overall weighted average increase in health network capitation rate payments of 1.2%, or $3.1 million on an annualized basis.

This additional increase will be funded by the Medi-Cal capitation rate increases received by CalOptima related to the State's settlement of the *Orthopaedic v. Belshe* lawsuit concerning Medi-Cal payment rates for hospital outpatient services.

As the Board will recall, the additional monies received by CalOptima related to this hospital outpatient settlement were passed through to hospitals in a lump-sum payment as approved by the Board in April 2003 for Fiscal 2001-02. That Board action also included approval for a second distribution scheduled for January 2004 to be made to hospitals for Fiscal 2002-03 related monies. Therefore, the proposed increases in hospital capitation rates contained in this action referral will facilitate the ongoing distributions of these dollars to CalOptima's participating hospitals. *See also related Board action referral to approve modifications to CalOptima Direct hospital reimbursement rates.*

Rationale for Recommendation

The proposed modifications to the rate methodology and related allocation of funds are consistent with the extensive, independent analysis performed by Milliman USA to update CalOptima's health network capitation methodology to reflect the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. The updated actuarial model also provides CalOptima with a renewed starting point from which to make informed

decisions as we face yet another round of State budget uncertainties and declining resources.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

c. Current CalOptima members age of 21 and over who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

Program Implementation

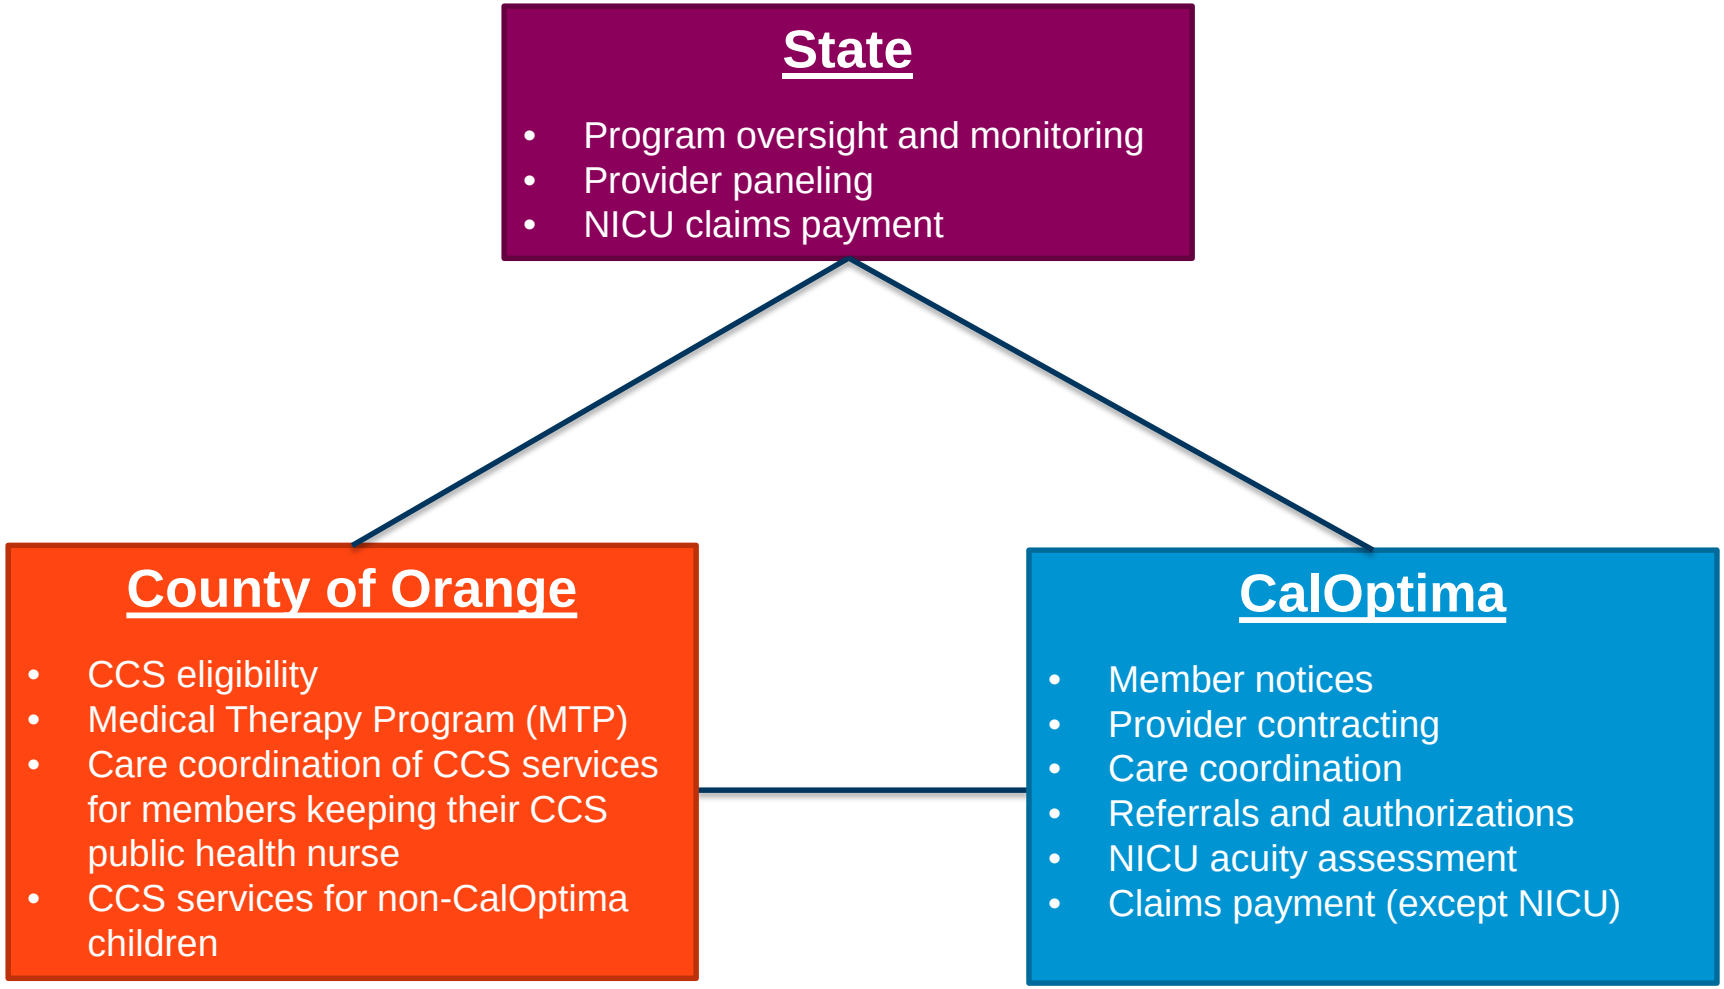
Back to Agenda Back to Item

Background

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency
- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities



WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

Resolution No. 17-1102-01

Rev.
11/2/17

/s/ Michael Schrader — **Authorized Signature**

10/23/2017 — **Date**

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
   - Current CalOptima members over the age of 21 who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children with CCS, including:
   - Community-based organizations (CBOs); or
   - Consumer advocates.

Rev. 11/2/2017

If nine or more qualified candidates initially apply for family representative seats, nine of the eleven committee seats will be filled with family representatives. Initially, and on an on-going basis, only in circumstances when there are insufficient applicants to fill all of the designated family representative seats with qualifying family representatives, up to two of the nine seats designated for family members may be filled with representatives of CBOs or consumer advocates.

It is anticipated that a representative from the CalOptima WCM-FAC may be invited to serve on a statewide stakeholder advisory group.

Section 3. Chair and Vice Chair. The Chair and Vice Chair for the WCM-FAC will be appointed by the Board annually from the appointed members. The Chair, or in the Chair's absence, the Vice Chair, shall preside over WCM-FAC meetings. The Chair and Vice Chair may each serve up to two consecutive terms in a particular WCM-FAC officer position, or until their successor is appointed by the Board.

Section 4. Committee Mission, Goals and Objectives. The WCM-FAC will develop, review annually, and make recommendations to the Board on any revisions to the committee's Mission or Goals and Objectives.

Section 5. Meetings. The WCM-FAC will meet at least quarterly. A yearly meeting schedule will be adopted at the second regularly scheduled meeting for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws.

Attendance by the occupants of a simple majority of WCM-FAC seats shall constitute a quorum. A quorum must be present in order for any action to be taken by the WCM-FAC. Committee members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to the scheduled WCM-FAC meeting.

The CalOptima Chief Executive Officer (CEO) shall prepare, or cause to be prepared, and post, or cause to be posted, an agenda for all WCM-FAC meetings. Agenda contents and posting procedures must be consistent with the requirements of the Ralph M. Brown Act (Government Code section 54950 *et seq.*).

WCM-FAC minutes will be taken at each meeting and filed with the Board.

Section 6. Reporting. The Chair is required to report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board.

Section 7. Staffing. CalOptima will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

Section 8. Ad Hoc Committees. Ad hoc committees may be established by the WCM-FAC Chair from time to time to formulate recommendations to the full WCM-FAC on specific issues. The scope and purpose of each such ad hoc will be defined by the Chair and disclosed at WCM-FAC meetings. Each ad hoc committee will terminate when the specific task for which it was created is complete. An ad hoc committee must include fewer than a majority of the voting committee members.

Section 9. Stipend. Subject to DHCS approval, family representatives participating on the WCM-FAC are eligible to receive a stipend for their attendance at regularly scheduled and ad hoc WCM-FAC meetings. Only one stipend is available per qualifying WCM-FAC member per regularly scheduled meeting. WCM-FAC members representing community-based organizations and consumer advocates are not eligible for WCM-FAC stipends.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of November, 2017.

Last Revised Date:	Not Applicable

I. PURPOSE

This policy describes the composition and role of the Family Advisory Committee for Whole Child Model (WCM) and establishes a process for recruiting, evaluating, and selecting prospective candidates to the Whole Child Model Family Advisory Committee (WCM FAC).

II. POLICY

A. As directed by CalOptima's Board of Directors (Board), the WCM FAC shall report to the CalOptima Board and shall provide advice and recommendations to the CalOptima Board and CalOptima staff in regards to California Children's Services (CCS) provided by CalOptima Medi-Cal's implementation of the WCM.

B. CalOptima's Board encourages Member and community involvement in CalOptima programs.

C. WCM FAC members shall recuse themselves from voting or from decisions where a conflict of interest may exist and shall abide by CalOptima's conflict of interest code and, in accordance with CalOptima Policy AA.1204: Gifts, Honoraria, and Travel Payments.

D. CalOptima shall provide timely reporting of information pertaining to the WCM FAC as requested by the Department of Health Care Services (DHCS).

E. The composition of the WCM FAC shall reflect the cultural diversity and special needs of the health care consumers within the Whole-Child Model population. WCM FAC members shall have direct or indirect contact with CalOptima Members.

F. In accordance with CalOptima Board Resolution No. 17-1102-01, the WCM FAC shall be comprised of eleven (11) voting members representing CCS family members, as well as consumer advocates representing CCS families. Except as noted below, each voting member shall serve a two (2) year term with no limits on the number of terms a representative may serve. The initial appointments of WCM FAC members will be divided between one (1) and two (2)-year terms to stagger reappointments. In the first year, five (5) committee member seats shall be appointed for a one (1)-year term and six (6) committee member seats shall be appointed for a two (2)-year term. The WCM FAC members serving a one (1) year term in the first year shall, if reappointed, serve two (2) year terms thereafter.

1. Seven (7) to nine (9) of the seats shall be family representatives in one (1) of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):

    a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima Member who is a current recipient of CCS services;

    b. CalOptima Members eighteen (18)-twenty-one (21) years of age who are current recipients of CCS services; or

    c. Current CalOptima members over the age of twenty-one (21) who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:

    a. Community-based organizations; or

    b. Consumer advocates.

3. While two (2) of the WCM FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, an additional two (2) WCM FAC candidates representing these groups may be considered for these seats in the event that there are not sufficient family representative candidates to fill the family member seats.

4. Interpretive services shall be provided at committee meetings upon request from a WCM FAC member or family member representative.

5. A family representative, in accordance with Section II.G.1 of this Policy, may be invited to serve on a statewide stakeholder advisory group.

G. Stipends

1. Subject to approval by the CalOptima Board, CalOptima may provide a reasonable per diem payment to a member or family representative serving on the WCM FAC. CalOptima shall maintain a log of each payment provided to the member or family representative, including type and value, and shall provide such log to DHCS upon request.

    a. Representatives of community-based organizations and consumer advocates are not eligible for stipends.

H. The WCM FAC shall conduct a nomination process to recruit potential candidates for expiring seats, in accordance with this Policy.

I. WCM FAC Vacancies

1. If a seat is vacated within two (2) months from the start of the nomination process, the vacated seat shall be filled during the annual recruitment and nomination process.

2. If a seat is vacated after the annual nomination process is complete, the WCM FAC nomination ad hoc subcommittee shall review the applicants from the recent recruitment to see if there is a viable candidate.

    a. If there is no viable candidate among the applicants, CalOptima shall conduct recruitment, per section III.B.2.

3. A new WCM FAC member appointed to fill a mid-term vacancy, shall serve the remainder of the resigning member's term, which may be less than a full two (2) year term.

J. On an annual basis, WCM FAC shall select a chair and vice chair from its membership to coincide with the annual recruitment and nomination process. Candidate recruitment and selection of the chair and vice chair shall be conducted in accordance with Sections III.B-D of this Policy.

1. The WCM FAC chair and vice chair may serve two (2) consecutive one (1) year terms.

2. The WCM FAC chair and/or vice chair may be removed by a majority vote of CalOptima's Board.

K. The WCM FAC chair, or vice chair, shall ask for three (3) to four (4) members from the WCM FAC to serve on a nomination ad hoc subcommittee. WCM FAC members who are being considered for reappointment cannot participate in the nomination ad hoc subcommittee.

1. The WCM FAC nomination ad hoc subcommittee shall:

    a. Review, evaluate and select a prospective chair, vice chair and a candidate for each of the open seats, in accordance with Section III.C-D of this Policy; and

    b. Forward the prospective chair, vice chair, and slate of candidate(s) to the WCM FAC for review and approval.

2. Following approval from the WCM FAC, the recommended chair, vice chair, and slate of candidate(s) shall be forwarded to CalOptima's Board for review and approval.

L. CalOptima's Board shall approve all appointments, reappointments, and chair and vice chair appointments to the WCM FAC.

M. Upon appointment to WCM FAC and annually thereafter, WCM FAC members shall be required to complete all mandatory annual Compliance Training by the given deadline to maintain eligibility standing on the WCM FAC.

N. WCM FAC members shall attend all regularly scheduled meetings, unless they have an excused absence. An absence shall be considered excused if a WCM FAC member provides notification of an absence to CalOptima staff prior to the meeting. CalOptima staff shall maintain an attendance log of the WCM FAC members' attendance at WCM FAC meetings. As the attendance log is a public record, any request from a member of the public, the WCM FAC chair, the vice chair, the Chief Executive Officer, or the CalOptima Board, CalOptima staff shall provide a copy of the attendance log to the requester. In addition, the WCM FAC chair, or vice chair, shall contact any committee member who has three (3) consecutive unexcused absences.

1. WCM FAC members' attendance shall be considered as a criterion upon reapplication.

III. PROCEDURE

A. WCM FAC meeting frequency

1. WCM FAC shall meet at least quarterly.

2. WCM FAC shall adopt a yearly meeting schedule at the first regularly scheduled meeting in or after January of each year.

3. Attendance by a simple majority of appointed members shall constitute a quorum, and a quorum must be present for any votes to be valid.

B. WCM FAC recruitment process

1. CalOptima shall begin recruitment of potential candidates in March of each year. In the recruitment of potential candidates, the ethnic and cultural diversity and special needs of children and/or families of children in CCS which are or are expected to transition to CalOptima's Whole-Child Model population shall be considered. Nominations and input from interest groups and agencies shall be given due consideration.

2. CalOptima shall recruit for potential candidates using one or more notification methods, which may include, but are not limited to, the following:

   a. Outreach to family representatives and community advocates that represent children receiving CCS;

   b. Placement of vacancy notices on the CalOptima website; and/or

   c. Advertisement of vacancies in local newspapers in Threshold Languages.

3. Prospective candidates must submit a WCM Family Advisory Committee application, including resume and signed consent forms. Candidates shall be notified at the time of recruitment regarding the deadline to submit their application to CalOptima.

4. Except for the initial recruitment, the WCM FAC chair or vice chair shall inquire of its membership whether there are interested candidates who wish to be considered as a chair or vice chair for the upcoming fiscal year.

   a. CalOptima shall inquire at the first WCM FAC meeting whether there are interested candidates who wish to be considered as a chair for the first year.

C. WCM FAC nomination evaluation process

1. The WCM FAC chair or vice chair shall request three (3) to four (4) members, who are not being considered for reappointment, to serve on the nominations ad hoc subcommittee. For the first nomination process, Member Advisory Committee (MAC) members shall serve on the nominations ad hoc subcommittee to review candidates for WCM FAC.

a. At the discretion of the nomination ad hoc subcommittee, a subject matter expert (SME), may be included on the subcommittee to provide consultation and advice.

2. Prior to WCM FAC nomination ad hoc subcommittee meeting (including the initial WCM FAC nomination ad hoc subcommittee).

a. Ad hoc subcommittee members shall individually evaluate and score the application for each of the prospective candidates using the applicant evaluation tool.

b. Ad hoc subcommittee members shall individually evaluate and select a chair and vice chair from among the interested candidates.

c. At the discretion of the ad hoc subcommittee, subcommittee members may contact a prospective candidate's references for additional information and background validation.

3. The ad hoc subcommittee shall convene to discuss and select a chair, vice chair and a candidate for each of the expiring seats by using the findings from the applicant evaluation tool, the attendance record if relevant and the prospective candidate's references.

D. WCM FAC selection and approval process for prospective chair, vice chair, and WCM FAC candidates:

1. The nomination ad hoc subcommittee shall forward its recommendation for a chair, vice chair, and a slate of candidates to WCM FAC (or in the first year, the MAC) for review and approval. Following WCM FAC's approval (or in the first year, the MAC), the proposed chair, vice chair and slate of candidates shall be submitted to CalOptima's Board for approval.

2. The WCM FAC members' terms shall be effective upon approval by the CalOptima Board.

a. In the case of a selected candidate filling a seat that was vacated mid-term, the new candidate shall attend the immediately following WCM FAC meeting.

3. WCM FAC members shall attend a new advisory committee member orientation.

LIMITED PRIVACY WAIVER

Under state and federal law, the fact that a person is eligible for Medi-Cal and California Children's Services (CCS) is a private matter that may only be disclosed by CalOptima as necessary to administer the Medi-Cal and CCS program, unless other disclosures are authorized by the eligible member. Because the position of Member Representative on Whole Child Model Family Advisory Committee (WCM FAC) requires that the person appointed must be a member or a family member of a member receiving CCS, the member's Medi-Cal and CCS eligibility will be disclosed to the general public. The member or their representative (e.g. parent, foster parent, guardian, etc.) should check the appropriate box below and sign this waiver to allow his or her, or his or her family member or caregiver's name to be nominated for the advisory committee.

☐ **MEMBER APPLICANT — I understand that by signing below and applying to serve on the WCM FAC, I am disclosing my eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

☐ **FAMILY MEMBER APPLICANT — I understand that by applying to serve on the WCM FAC, my status as a family member of a person eligible for Medi-Cal and CCS benefits is likely to become public. I authorize the disclosing of my family member's (insert name of member: _____) eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION (PHI)

The federal HIPAA Privacy Regulations requires that you complete this form to authorize CalOptima to use or disclose your Protected Health Information (PHI) to another person or organization. Please complete, sign, and return the form to CalOptima.

Date of Request: _____ Telephone Number: _____

Member Name: _____ Member CIN: _____

AUTHORIZATION:

I, _____, hereby authorize CalOptima, to use or disclose my health information as described below.

Describe the health information that will be used or disclosed under this authorization (please be specific): Information related to the identity, program administrative activities and/or services provided to {me} {my child} which is disclosed in response to my own disclosures and/or questions related to same.

Person or organization authorized to receive the health information: **General public**

Describe each purpose of the requested use or disclosure (please be specific): **To allow** CalOptima staff to respond to questions or issues raised by me that may require reference to my health information that is protected from disclosure by law during public meetings of **the CalOptima Whole-Child Model Family Advisory Committee**

EXPIRATION DATE:

This authorization shall become effective immediately and shall expire on: **The end of the term of the position applied for**

Right to Revoke: I understand that I have the right to revoke this authorization in writing at any time. To revoke this authorization, I understand that I must make my request in writing and clearly state that I am revoking this specific authorization. In addition, I must sign my request and then mail or deliver my request to:

CalOptima
Customer Service Department
505 City Parkway West
Orange, CA 92868

I understand that a revocation will not affect the ability of CalOptima or any health care provider to use or disclose the health information to the extent that it has acted in reliance on this authorization.

RESTRICTIONS:

I understand that anything that occurs in the context of a public meeting, including the meetings of the Whole Child Model Family Advisory Committee, is a matter of public record that is required to be disclosed upon request under the California Public Records Act. Information related to, or relevant to, information disclosed pursuant to this authorization that is not disclosed at the public meeting remains protected from disclosure under the Health Insurance Portability and Accountability Act (HIPAA), and will not be disclosed by CalOptima without separate authorization, unless disclosure is permitted by HIPAA without authorization, or is required by law.

MEMBER RIGHTS:

- I understand that I must receive a copy of this authorization.
- I understand that I may receive additional copies of the authorization.
- I understand that I may refuse to sign this authorization.
- I understand that I may withdraw this authorization at any time.
- I understand that neither treatment nor payment will be dependent upon my refusing or agreeing to sign this authorization.

ADDITIONAL COPIES:

Did you receive additional copies? ☐ Yes ☐ No

CalOptima Board Action Agenda Referral

Action To Be Taken June 4, 2009
Regular Meeting of the CalOptima Board of Directors

Report Item
VI. E. Approve Health Network Contract Rate Methodology

Contact
Michael Engelhard, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve the modification methodology of Health Network capitation rates for October 1, 2009.

Background
Health Network capitation is the payment method that CalOptima uses to reimburse PHCs and shared risk groups for the provision of health care services to members enrolled in CalOptima Medi-Cal and CalOptima Kids. In order to ensure that reimbursement to such capitated providers reflects up-to-date information, CalOptima periodically contracts with its actuarial consultants to recalculate or "rebase" these payment rates.

The purpose of this year's rebasing is to:

- Establish actuarially sound facility and professional capitation rates;
- Account for changes in CalOptima's delivery model;
- Incorporate changes in the Division of Financial Responsibility (DOFR); and
- Perform separate analyses for Medi-Cal and CalOptima Kids.

The overall methodology for this year's rebasing approach includes:

- CalOptima eligibility data;
- Encounter and CalOptima Direct (COD) claim data analysis
- Reimbursement analysis;
- PCP capitation analysis;
- Maternity "kick" payment analysis;
- State benefit carve-out analysis;
- Reinsurance analysis;
- Administrative load analysis;
- Budget neutrality established

Discussion
CalOptima uses capitation as one way to reimburse certain contracted health care providers for services rendered. A Capitation payment is made to the provider during the month and is based solely on the number of contracted members assigned to that provider

at the beginning of each month. The provider is then responsible for utilizing those dollars in exchange for all services provided during that month or period.

To ensure that capitated payment rates reflect the current structure and responsibilities between CalOptima and its delegated providers, capitation rates need to be periodically reset or rebased.

CalOptima last performed a comprehensive rate rebasing in July 2007, for rates effective January 1, 2008, for CalOptima Medi-Cal only. Much has changed since that time including the establishment of shared risk groups; the movement of certain high-acuity members out of the Health Networks and into COD; changes in the DOFR between hospitals, physicians and CalOptima; shifts in member mix between the Health Networks; and changes in utilization of services by members.

Therefore, CalOptima opted to perform another comprehensive rebasing analysis prior to the FY2009-10 year in order to fully reflect the above-mentioned changes.

Fiscal Impact
CalOptima projects no fiscal impact as a result of the rebasing. Rebasing is designed to be budget neutral to overall CalOptima medical expenses even though there will likely be changes to specific capitation rates paid to Health Network providers.

Rationale for Recommendation
Staff recommends approval of this action to provide proper reimbursement levels to CalOptima's capitated health networks participating in CalOptima Medi-Cal and CalOptima Kids.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to Be Taken December 17, 2003
Special Meeting of the CalOptima Board of Directors

Report Item
VI. A. Approve Modifications to the CalOptima Health Network Capitation Methodology and Rate Allocations

Contact
Amy Park, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve modifications to the CalOptima health network capitation methodology and rate allocations between Physician and Hospital financial responsibilities effective March 2004.

Background
CalOptima pays its health networks (HMOs and PHCs) according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which these rates are based, was developed by Milliman USA utilizing pre-CalOptima Orange County fee-for-service (FFS) experience as the baseline. This model then took into account utilization targets that were actuarially-appropriate for major categories of services and competitive reimbursement levels to ensure sufficient funds to provide all medically necessary services under a managed care model.

Since development of the model in 1999, CalOptima has negotiated capitation rate increases from the State for managed care rate "pass throughs" as a result of provider rate increases implemented in the Medi-Cal FFS program. In turn, CalOptima passed on these additional revenues to the health networks by increasing capitation payments, establishing carve-outs (e.g., transplants), or offering additional financial support, such as funding for enhanced subspecialty coverage and improving reinsurance coverage.

It has now been over four years since CalOptima commissioned a complete review of the actuarial cost model. As noted, CalOptima has only adjusted the underlying pricing in the actuarial cost model over the years to pass on increases in capitation rates to the health networks.

In light of State fiscal challenges and impending potential Medi-Cal funding and benefit reductions, CalOptima must examine the actuarial soundness of the existing cost model and update the utilization assumptions to ensure that CalOptima's health network capitation rate methodology continues to allocate fiscal resources commensurate with the level of medical needs of the population served. This process will also provide

Back to Agenda Back to Item

CalOptima with a renewed starting point from which to make informed decisions as we face yet another round of State budget uncertainties and declining resources.

Discussion

General Process. With the updated model, Milliman's rebasing process takes into account the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. Milliman examined the utilization statistics as indicated by the health network encounter data and evaluated the utilization for completeness by comparing against health network reported utilization and financial trends, health network primary care physician capitation and other capitation rates, health network hospital risk pool settlements, and other benchmarks as available. Further adjustments were made to account for changes in contractual requirements in the 2003-2005 health network contracts.

Utilization Assumptions. Consistent with changes in the State rate methodology, the updated health network capitation model combines the Family, Poverty and Child aid categories into a single Family aid category, with updated age/gender factors. The new model also recommends the creation of a supplemental capitation rate for members with end stage renal disease (ESRD). Furthermore, the actuarial model identifies actuarially-appropriate utilization targets for all major categories of services. These targets are set at levels that ensure that health networks have sufficient funds to provide all medically necessary services.

Pricing Assumptions. The new actuarial cost model includes reimbursement assumptions that are applied to the utilization targets to determine capitation rates. Effective October 2003, the State reduced CalOptima's capitation rates, effectively passing through the 5% cutback in physician and other provider rates as enacted in the 2003-04 State Budget Act. Notwithstanding this reduction, it is CalOptima's goal to maintain physician reimbursement levels to ensure members' continued access to care. Hence, CalOptima's health network minimum provider reimbursement policy and capitation funding will be maintained at its current levels. In other words, health networks will continue to be required to reimburse specialty physicians at rates that are no less than 150% of the Medi-Cal Fee Schedule and physician services in the actuarial model will continued to be priced at 147% of the August 1999 Medi-Cal Fee Schedule (as adjusted to primarily reflect market primary care physician capitation rates).

The actuarial cost model also provides sufficient funds to reimburse inpatient hospital reimbursement services at rates that are comparable to the average Southern California per diem rates and payment trends as published by California Medical Assistance Commission (CMAC) and to reimburse hospital outpatient services, commensurate with physician services, at 147% of the August 1999 Medi-Cal Fee Schedule.

In addition, the actuarial cost model provides sufficient funds for health network administrative expenses and an allowance for surplus. The table below summarizes the adjusted allocation of health network capitation rates to reflect the new actuarial cost model:

Aid Category	Proposed Hospital	Proposed Physician	Proposed Combined
Family/Poverty/Child	-4.6%	2.1%	-0.7%
Adult	-19.4%	-3.1%	-12.0%
Aged	18.9%	19.1%	19.0%
Disabled	10.9%	-4.4%	3.3%
Composite	1.7%	0.7%	1.2%

**Percentage changes are calculated from current capitation rates which have been adjusted to reflect the establishment of a separate ESRD supplemental capitation.*

Fiscal Impact

In summary, the proposed modifications will increase capitation payments made to physicians by 0.7%, while capitation payments to hospitals will increase by approximately 1.7%, for an overall weighted average increase in health network capitation rate payments of 1.2%, or $3.1 million on an annualized basis.

This additional increase will be funded by the Medi-Cal capitation rate increases received by CalOptima related to the State's settlement of the *Orthopaedic v. Belshe* lawsuit concerning Medi-Cal payment rates for hospital outpatient services.

As the Board will recall, the additional monies received by CalOptima related to this hospital outpatient settlement were passed through to hospitals in a lump-sum payment as approved by the Board in April 2003 for Fiscal 2001-02. That Board action also included approval for a second distribution scheduled for January 2004 to be made to hospitals for Fiscal 2002-03 related monies. Therefore, the proposed increases in hospital capitation rates contained in this action referral will facilitate the ongoing distributions of these dollars to CalOptima's participating hospitals. *See also related Board action referral to approve modifications to CalOptima Direct hospital reimbursement rates.*

Rationale for Recommendation

The proposed modifications to the rate methodology and related allocation of funds are consistent with the extensive, independent analysis performed by Milliman USA to update CalOptima's health network capitation methodology to reflect the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. The updated actuarial model also provides CalOptima with a renewed starting point from which to make informed

decisions as we face yet another round of State budget uncertainties and declining resources.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

7. Consider Approval of CalOptima Medi-Cal Directed Payments Policy

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Nancy Huang, Chief Financial Officer, (714) 246-8400

Recommended Actions

That the Board of Directors:

1. Approve CalOptima Medi-Cal Policy FF.2011 Directed Payments to align with current operational processes and comply with the Department of Health Care Services (DHCS) Directed Payment programs guidance.

2. Authorize the advance funding of the Directed Payments, as necessary and appropriate, for the Directed Payment programs identified in CalOptima Policy FF.2011.

3. Authorize the Chief Executive Officer, to approve as necessary and appropriate, the continuation of payment of Directed Payments to eligible providers for qualifying services before the release of DHCS final guidance, if instructed, in writing, by DHCS, and the State Plan Amendment (SPA) has been filed with the Centers for Medicare & Medicaid Services (CMS) for an extension of the Directed Payment program identified in CalOptima Policy FF.2011.

4. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to update and amend, as necessary and appropriate, Health Network Contracts and Attachment A: Directed Payments Rates and Codes of CalOptima Policy FF.2011, pursuant to DHCS final guidance or written instruction to CalOptima.

Background/Discussion

DHCS has implemented Directed Payment programs aimed at specified expenditures for existing health care services through different funding mechanisms. The current DHCS Directed Payments programs are funded by the Quality Assurance Fee (QAF) and Proposition 56. DHCS operationalizes these Directed Payments programs by either adjusting the existing Medi-Cal fee Schedule by establishing a minimum fee schedule payment or through a specific add-on (supplemental) payment administered by the Medi-Cal Managed Care Plans (MCPs). DHCS releases Directed Payments guidance to the MCPs through All Plan Letters (APLs). The APLs include guidance regarding providers eligible for payment, service codes eligible for reimbursement, timeliness requirements to make payments, and MCP reporting requirements.

CalOptima has established processes to meet regulatory timeliness and payment requirements for Proposition 56 physician payments and GEMT for the delegated health networks. On June 7, 2018 the CalOptima Board of Directors (Board) approved the methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers and services rendered for dates of service (DOS) in SFY 2017-18. On June 6, 2019, the Board ratified implementation of the standardized annual

Proposition 56 provider payment process for physician services extended into future DOS. On September 5, 2019, the Board approved the implementation of the statutorily mandated rate increase for GEMT. While staff initially planned for these initial directed payment initiatives to be time limited, additional directed payment provisions are anticipated and expected to be on-going. DHCS has also released information for additional Directed Payments programs to be implemented. The existing and new Directed Payment programs are as follows:

Program Name	Effective DOS	Eligible Providers	Final DHCS Guidance as of December 26, 2019
Physician Services	7/1/2017 to 12/31/2021	Contracted	APL 18-010 released 05/01/2018 APL 19-006 released 06/13/2019 APL 19-015 released 12/24/2019
Abortion Services (Hyde)	7/1/2017 to 6/30/2020	All Providers	APL 19-013 released 10/17/2019
Developmental Screening Services	On or after 1/1/2020	Contracted	APL 19-016 released 12/26/2019
ACE (Trauma) Screening Services	On or after 1/1/2020	Contracted	APL 19-018 released 12/26/2019
GEMT	7/1/2018 to 6/30/2019	Non-Contracted	APL 19-007 released 6/14/2019 State Plan Amendment: 19-0020 released 09/06/2019 APL 20-002 released January 31, 2020

In order to meet timeliness and payment requirements, CalOptima staff recommends establishing Medi-Cal policy FF.2011 Directed Payments, which addresses the above-listed qualifying services. This new policy defines Directed Payments and outlines the process by which a Health Network will follow DHCS guidelines regarding qualifying services, eligible providers, and payment requirements for applicable DOS. The policy establishes new reimbursement processes for Directed Payments not included in the Health Network capitation and reimbursed to the Health Network on a per service basis as well as a 2% administrative fee component. In addition, the policy provides an initial monthly payment to the Health Network for estimated medical costs that will be reconciled with the monthly reimbursement reports. This process will apply to qualifying services and eligible providers as prescribed through an APL or specified by DHCS through other correspondence.

Staff seeks authority to update and amend Health Network Contracts and Attachment A: Directed Payments Rates and Codes of CalOptima Policy FF.2011, pursuant to DHCS final guidance or written instruction to CalOptima. In the future, staff also anticipates that this policy will need to be updated periodically, subject to Board approval, as new Directed Payment programs are issued by DHCS.

Staff seeks authority to implement funding for Directed Payment programs identified in CalOptima Policy FF.2011 before it receives funding from DHCS. As of March 2020, CalOptima has not received funding from DHCS for the new Proposition 56 programs for developmental screening services and adverse childhood experiences (ACE) screening services, as well as the existing Directed Payment

program for GEMT services for SFY 2019-20 which includes two (2) new CPT codes. Implementation of directed payments before DHCS has issued funding are necessary as DHCS final APLs have already been issued.

Operational policies for CalOptima Direct, including the CalOptima Community Network, will be modified separately. CalOptima staff will seek CalOptima Board of Directors (Board) ratification action as required.

Fiscal Impact
The recommended action to approve CalOptima Policy FF.2011 are projected to be budget neutral to CalOptima. Staff anticipates funding provided by DHCS will be sufficient to cover the costs related to Directed Payment programs. As DHCS releases additional guidance and performs payment reconciliation, including application of risk corridors, Staff will closely monitor the potential fiscal impact to CalOptima.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with regulatory guidance provided by DHCS.

Concurrence
Gary Crockett, Chief Counsel

CEO Approval:	
Effective Date:	04/02/2020
Revised Date:	Not applicable
Applicable to:	☒ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☐ Administrative - Internal ☐ Administrative – External

I. PURPOSE

This Policy establishes requirements pursuant to which CalOptima and a Health Network shall administer the Directed Payments for Qualifying Services, including processes for the reimbursement of Directed Payments by CalOptima to a Health Network and by a Health Network to its Designated Providers.

II. POLICY

A. CalOptima shall reimburse a Health Network for Directed Payments made to a Designated Provider for Qualifying Services in accordance with this Policy, including Attachment A of this Policy.

B. A Health Network shall qualify for the reimbursement of Directed Payments for Qualifying Services if:

1. The Health Network processed the Directed Payment to a Designated Provider in compliance with this Policy and applicable statutory, regulatory, and contractual requirements, as well as Department of Health Care Services (DHCS) guidance and Centers for Medicare & Medicaid Services (CMS) approved preprint;

2. The Qualifying Services were eligible for reimbursement (*e.g.*, based on coverage, coding, and billing requirements);

3. The Member or Eligible Member, as applicable and as those terms are defined in this Policy, was assigned to the Health Network on the date of service;

4. The Designated Provider was eligible to receive the Directed Payment;

5. The Qualifying Services were rendered by a Designated Provider on an eligible date of service;

6. The Health Network reimbursed the Designated Provider within the required timeframe, as set forth in Section III.B. of this Policy; and

Back to Agenda Back to Item

7. The Health Network submits Encounter data and all other data necessary to ensure compliance with DHCS reporting requirements in accordance with Sections III.F. and III.G. of this Policy.

C. A Health Network shall make timely Directed Payments to Designated Providers for the following Qualifying Services, in accordance with Sections III.A. and III.B. of this Policy:

1. An Add-On Payment for Physician Services and Developmental Screening Services.

2. A Minimum Fee Payment for Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and Ground Emergency Medical Transport (GEMT) Services.

D. A Health Network shall ensure that Qualifying Services reported using specified Current Procedural Terminology (CPT) Codes, Healthcare Common Procedure Coding System (HCPCS) Codes, and Procedure Codes, as well as the Encounter data reported to CalOptima, are appropriate for the services being provided, and are not reported for non-Qualifying Services or any other services.

E. A Health Network shall have a process to communicate the requirements of this Policy, including applicable DHCS guidance, to Designated Providers. This communication must, at a minimum, include:

1. A description of the minimum requirements for a Qualifying Service;

2. How Directed Payments will be processed;

3. How to file a grievance with the Health Network and second level appeal with CalOptima; and

4. Identify the payer of the Directed Payments. (i.e. Member's Health Network that is financially responsible for the specified Direct Payment.)

F. A Health Network shall have a formal procedure for the acceptance, acknowledgement, and resolution of provider grievances related to the processing or non-payment of a Directed Payment for a Qualifying Service. In addition, a Health Network shall identify a designated point of contact for provider questions and technical assistance.

G. Directed Payment Reimbursement

1. CalOptima shall reimburse a Health Network for a Directed Payment made to a Designated Provider for Qualifying Services in accordance with Sections III.C. and III.E. of this Policy.

a. Until such time reimbursement for a Directed Payment is included in a Health Network's capitation payment, CalOptima shall reimburse a Health Network for a Directed Payment separately.

2. If DHCS provides separate revenue to CalOptima for a Directed Payment requirement in addition to standard revenue from DHCS, CalOptima shall provide a Health Network a supplemental payment in addition to the Health Network's primary capitation payment.

a. A Health Network shall process a Directed Payment as a supplemental payment and CalOptima shall reimburse a Health Network in accordance with Section III.C. of this Policy.

b. CalOptima shall reimburse a Health Network medical costs of a Directed Payment plus a 2% administrative component. CalOptima's obligation to pay a Health Network any

administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

3. If DHCS does not provide separate revenue to CalOptima and instead implements a Directed Payment as part of the Medi-Cal fee schedule change:

   a. A Health Network shall process a Directed Payment as part of the existing Medi-Cal fee schedule change process as outlined in CalOptima Policy FF.1002: CalOptima Medi-Cal Fee Schedule and CalOptima shall reimburse a Health Network in accordance with Sections III.C. and III.E. of this Policy.

   b. CalOptima shall reimburse a Health Network after the Directed Payment is distributed and the Health Network submits the Directed Payment adjustment reports as described in Section III.D. of this Policy.

H. On a monthly basis, CalOptima Accounting Department shall reimburse a Health Network the Estimated Initial Month Payment for a validated Directed Payment in accordance with Section III.E. of this Policy.

I. A Health Network may file a complaint regarding a Directed Payment received from CalOptima in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

J. CalOptima shall ensure oversight of the Directed Payment programs in accordance with CalOptima Policy GG.1619: Delegation Oversight.

III. PROCEDURE

A. Directed Payments for Qualifying Services

1. Physician Services: For dates of service on or after July 1, 2017, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers rendering Physician Services to an Eligible Member.

   a. Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Services Programs, and cost-based reimbursement clinics are not eligible to receive this Add-On Payment for Physician Services.

2. Developmental Screening Services: For dates of service on or after January 1, 2020, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics rendering Developmental Screening Services to an Eligible Member. A Developmental Screening Service must be provided in accordance with the American Academy of Pediatrics/Bright Futures periodicity schedule and guidelines and must be performed using a standardized tool that meets CMS Criteria.

   a. The following Developmental Screening Services are eligible for an Add-On Payment:

      i. A routine screening when provided:

         1) On or before the first birthday;

         2) After the first birthday and before or on the second birthday; or

3) After the second birthday and on or before the third birthday.

ii. Developmental Screening Services provided when medically necessary, in addition to routine screenings.

b. Development Screening Services are not subject to any prior authorization requirements.

c. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2 of this Policy to document the completion of the Development Screening Service with the applicable CPT Code without the modifier as specified in Attachment A of this Policy.

d. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2. of this Policy to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the Developmental Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.2.d. of this Policy are made available to CalOptima and/or DHCS upon request.

f. In the event any of the provisions of Section III.A.2. of the Policy conflicts with the applicable requirements of DHCS guidance, CMS-approved preprint, regulations, and/or statutes, such requirements shall control.

3. ACEs Screening Services: For dates of service on or after January 1, 2020, a Health Network shall reimburse Eligible Contracted Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable HCPCS Code, for rendering ACEs screening services to an Eligible Member, who is a child or an adult through sixty-four (64) years of age.

a. A Minimum Fee Payment for ACEs Screening Services shall only be made to rendering Eligible Contracted Providers that:

i. Utilize either the PEARLS tool or a qualifying ACEs questionnaire, as appropriate;

ii. Bill using one of the HCPCS Code specified in Attachment A of this Policy based on the screening score from the PEARLS tool or ACEs questionnaire used; and

iii. Are on DHCS list of providers that have completed the state-sponsored trauma-informed care training, except for dates of service prior to July 1, 2020. Commencing July 1, 2020, Eligible Contracted Providers must have taken a certified training and self-attested to completing the training to receive the Directed Payment for ACEs Screening Services.

b. A Health Network is only required to make the Minimum Fee Payment to an Eligible Contracted Provider for rendering an ACEs Screening Service, as follows:

i. Once per year per Eligible Member screened by that Eligible Contracted Provider, for a child Eligible Member assessed using the PEARLS tool.

ii. Once per lifetime per Eligible Member screened by that Eligible Contracted Provider, for an adult Eligible Member through age sixty-four (64) assessed using a qualifying ACEs questionnaire.

c. With respect to an Eligible Contracted Provider, CalOptima shall only reimburse a Health Network for the Minimum Fee Payment in accordance with Section III.A.3.b. of this Policy.

d. A Health Network shall require Eligible Contracted Providers to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the ACEs Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.3.d. of this Policy are made available to CalOptima and/or DHCS upon request.

4. Abortion Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse Eligible Contracted Providers and non-contracted Providers, as applicable, which are qualified to provide and bill for Abortion Services, a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing Abortion Services to a Member.

a. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

5. GEMT Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse non-contracted GEMT Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing GEMT Services to a Member.

a. A Health Network shall identify and satisfy any Medicare crossover payment obligations that may result from the increase in GEMT Services reimbursement obligations.

b. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

B. Timing of Directed Payments

1. Timeframes with Initial Directed Payment: When DHCS final guidance requires an initial Directed Payment for clean claims or accepted encounters received by the Health Network with specified dates of service (*i.e.*, between a specific date of service and the date CalOptima receives the initial funding from DHCS for the Directed Payment), a Health Network shall

ensure the initial Directed Payment required by this Policy is made, as necessary, within ninety (90) calendar days of the date CalOptima receives the initial funding from DHCS for the Directed Payment. From the date CalOptima receives the initial funding onward, a Health Network shall ensure subsequent Directed Payments required by this Policy are made within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or accepted encounter is received by the Health Network no later than one (1) year after the date of service.

a. Initial Directed Payment: The initial Directed Payment shall include adjustments for any payments previously made by a Health Network to a Designated Provider based on the expected rates for Qualifying Services set forth in the Pending SPA or based on the established Directed Payment program criteria, rates and Qualifying Services, as applicable, pursuant to Section III.B.4. of this Policy.

b. Abortion Services: For clean claims or accepted encounters for Abortion Services with specified dates of service (*i.e.*, between July 1, 2017 and the date CalOptima receives the initial funding for Directed Payment from DHCS) that are timely submitted to a Health Network and have not been reimbursed the Minimum Fee Payment in accordance with this Policy, a Health Network shall issue the Minimum Fee Payment required by this Policy in a manner that does not require resubmission of claims or impose any reductions or denials for timeliness.

2. Timeframes without Initial Directed Payment: When DHCS final guidance does not expressly require an initial Directed Payment under Section III.B.1 of this Policy, a Health Network shall ensure that Directed Payments required by this Policy are made:

a. Within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or encounter is received no later than one (1) year from the date of service.

b. Retroactively within ninety (90) calendar days of DHCS final guidance when a clean claim or accepted encounter for Qualifying Services is received prior to such guidance.

3. Notice by CalOptima

a. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the requirements of DHCS final guidance for each Directed Payment program for Qualifying Services by no later than fifteen (15) calendar days from the release date of DHCS final guidance.

b. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the date that CalOptima received the initial funding for the Directed Payment from DHCS, by no later than fifteen (15) calendar days from the date of receipt. This provision applies to initial funding received by CalOptima on or after April 1, 2020, provided that DHCS final guidance requires initial Directed Payment as set forth in Section III.B.1. of this Policy.

c. If DHCS files a State Plan Amendment (SPA) with CMS for an extension of a Directed Payment program ("Pending SPA") and CalOptima Board of Directors or Chief Executive Officer, pursuant to DHCS written instruction, approves the continuation of payment of the Directed Payment before DHCS final guidance is issued, CalOptima Health Network Relations Department shall notify the Health Networks, in writing, to continue to pay the Directed Payment to Designated Providers for Qualifying Services with specified dates of service.

4. Extension of Directed Payment Program:

    a. Upon receipt of written notice from CalOptima under Section III.B.3.c. of this Policy, a Health Network shall reimburse a Designated Provider for a Directed Payment according to the expected rates and Qualifying Services for the applicable time period as set forth in the Pending SPA or, at a minimum, according to the previously established Directed Payment program criteria, rates, and Qualifying Services, as applicable, until such time as the DHCS issues the final guidance.

    b. A Health Network shall ensure timely reconciliation and compliance with the final payment provisions as provided in DHCS final guidance when issued.

5. GEMT Services: A Health Network is not required to pay the Add-On Payment for GEMT Services for claims or encounters submitted more than one (1) year after the date of service, unless the non-contracted GEMT Provider can show good cause for the untimely submission.

    a. Good cause is shown when the record clearly shows that the delay in submitting a claim or encounter was due to one of the following:

        i. The Member has other sources of health coverage;

        ii. The Member's medical condition is such that the GEMT Provider is unable to verify the Member's Medi-Cal eligibility at the time of service or subsequently verify with due diligence;

        iii. Incorrect or incomplete information about the subject claim or encounter was furnished by the Health Network to the GEMT Provider; or

        iv. Unavoidable circumstances that prevented the GEMT Provider from timely submitting a claim or encounter, such as major floods, fires, tornadoes, and other natural catastrophes.

C. Directed Payments Processing

1. On a monthly basis, CalOptima shall reimburse a Health Network after the Health Network distributes the Directed Payment and the Health Network submits the Directed Payment adjustment reports in accordance with Section III.D. of this Policy.

    a. The CalOptima Accounting Department shall reconcile and validate the data through the Directed Payment adjustment report process prior to making a final payment adjustment to a Health Network.

2. If a Health Network identifies an overpayment of a Directed Payment, a Health Network shall return the overpayment within sixty (60) calendar days after the date on which the overpayment was identified, and shall notify CalOptima Accounting Department, in writing, of the reason for the overpayment. CalOptima shall coordinate with a Health Network on the process to return the overpayment in accordance with CalOptima Policy FF.1001: Capitation Payments.

    a. CalOptima shall notify a Health Network of acceptance, adjustment or rejection of the overpayment no later than three (3) business days after receipt.

    b. If CalOptima adjusts or rejects the overpayment, CalOptima shall include the overpayment adjustment in the subsequent month's process.

c. In the event CalOptima identifies that Directed Payments were made by a Health Network to a non-Designated Provider, or for non-Qualifying Services, or for services provided to a non-Member or a non-Eligible Member, as applicable, such Directed Payments shall constitute an overpayment which CalOptima shall recover from the Health Network**.**

D. Directed Payment Adjustment Process

1. As soon as a Health Network has processed and paid a Designated Provider for a Directed Payment, a Health Network shall submit a Directed Payment adjustment report for Qualifying Services by the tenth (10th) calendar day after the month ends to CalOptima's secure File Transfer Protocol (sFTP) site. A Health Network shall submit an adjustment report using CalOptima's proprietary format and file naming convention.

2. CalOptima Information Services Department shall notify a Health Network of file acceptance or rejection no later than three (3) business days after receipt. CalOptima may reject a file for data completeness, accuracy or inconsistency issues. If CalOptima rejects a file, a Health Network shall resubmit a corrected file no later than the tenth (10th) calendar day of the following month. Any resubmission after the tenth (10th) calendar day of the month will be included in the subsequent month's process.

3. Upon request, a Health Network shall provide additional information to support a submitted Directed Payment adjustment report to CalOptima Accounting Department within five (5) business days of the request.

4. For a complete Directed Payment adjustment report accepted by CalOptima Accounting Department, CalOptima shall reimburse a Health Network's medical costs of a Directed Payment plus a 2% administrative component no later than the twentieth (20th) calendar day of the current month based upon prior month's data. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

E. Estimated Initial Month Payment Process

1. On a monthly basis, CalOptima shall issue an Estimated Initial Month Payment to a Health Network. During the first month of implementation, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network no later than the 10th of the implementing month and as follows:

   a. When available, the Estimated Initial Month Payment shall be based upon the most recent rolling three-month average of the paid claims; or

   b. If actual data regarding the specific services tied to a Directed Payment are not available, CalOptima shall base the Estimated Initial Month Payment on the expected monthly cost of those services.

2. Thereafter, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network for a Directed Payment no later than the 20th of the month for services paid in that month.

3. CalOptima Accounting Department shall reconcile the prior month's Estimated Initial Month Payment against a Health Network's submitted Directed Payment adjustment report for the prior month. CalOptima shall adjust the current month's Estimated Initial Month Payment, either positively or negatively based upon the reconciliation.

4. Following the first month of implementation and thereafter, the Estimated Initial Month Payment, CalOptima Accounting Department shall disburse funds to a Health Network based upon the previous month's submitted Directed Payment adjustment report.

F. A Health Network shall report an Encounter in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such Encounter.

G. Reporting

1. A Health Network shall submit all data related to Directed Payments to the CalOptima Information Services Department through the CalOptima secure File Transport Protocol (sFTP) site in a format specified by CalOptima, and in accordance with DHCS guidance, within fifteen (15) calendar days of the end of the applicable reporting quarter. Reports shall include, at a minimum, the CPT, HCPCS, or Procedure Code, service month, payor (*i.e.*, Health Network, or its delegated entity or subcontractor), and rendering Designated Provider's National Provider Identifier. CalOptima may require additional data as deemed necessary.

   a. Updated quarterly reports must be a replacement of all prior submissions. If no updated information is available for the quarterly report, a Health Network must submit an attestation to CalOptima stating that no updated information is available.

   b. If updated information is available for the quarterly report, a Health Network must submit the updated quarterly report in the appropriate file format and include an attestation that a Health Network considers the report complete.

2. CalOptima shall reconcile the Health Network's data reports and ensure submission to DHCS within forty-five (45) days of the end of the applicable reporting quarter as applicable.

VIII. REVISION HISTORY

Action	Date	Policy	Policy Title	Program(s)
Effective	04/02/2020	FF.2011	Directed Payments	Medi-Cal

IX. GLOSSARY

Term	Definition
Abortion Services	Specified medical pregnancy termination services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to a Member.
Add-On Payment	Directed Payment that funds a supplemental payment for certain Qualifying Services at a rate set forth by DHCS that is in addition to any other payment, fee-for-service or capitation, a specified Designated Provider receives from a Health Network.
Adverse Childhood Experiences (ACEs) Screening Services	Specified adverse childhood experiences screening services, as listed by the HCPCS Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member through the use of either the Pediatric ACEs and Related Life-events Screener (PEARLS) tool for children (ages 0 to 19 years) or a qualifying ACEs questionnaire for adults (ages 18 years and older). An ACEs questionnaire or PEARLS tool may be utilized for Eligible Members who are 18 or 19 years of age. The ACEs screening portion of the PEARLS tool (Part 1) is also valid for use to conduct ACEs screenings among adult Eligible Members ages 20 years and older. If an alternative version of the ACEs questionnaire for adult Eligible Members is used, it must contain questions on the 10 original categories of the ACEs to qualify.
American Indian Health Services Program	Programs operated with funds from the IHS under the Indian Self-Determination Act and the Indian Health Care Improvement Act, through which services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.
Centers for Medicare and Medicaid Services (CMS) Criteria	For purpose of this Policy, the use of a standardized tool for Developmental Screening Services that meets all of the following CMS criteria: 1. Developmental domains: The following domains must be included in the standardized developmental screening tool: motor, language, cognitive, and social-emotional; 2. Establish Reliability: Reliability scores of approximately 0.70 or above; 3. Established Findings Regarding the Validity: Validity scores for the tool must be approximately 0.70 or above. Measures of validity must be conducted on a significant number of children and using an appropriate standardized developmental or social-emotional assessment instrument(s); and 4. Established Sensitivity/Specificity: Sensitivity and specificity scores of approximately 0.70 or above.

Term	Definition
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program (as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301), the Child Health and Disability Prevention program (as set forth in Title 17, CCR, Division 1, Chapter 4, Subchapter 13, Article 4, beginning with section 6842), and the California Children's Services (as set forth in Title 22, CCR, Division 2, subdivision 7, and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 2.985, beginning with section 14094.4) under the Whole-Child Model program effective July 1, 2019, to the extent those services are included as Covered Services under CalOptima's Medi-Cal Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), and Health Homes Program (HHP) services (as set forth in DHCS All Plan Letter 18-012 and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 3.9, beginning with section 14127), effective January 1, 2020 for HHP Members with eligible physical chronic conditions and substance use disorders, or other services as authorized by the CalOptima Board of Directors, which shall be covered for Members not-withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Department of Health Care Services (DHCS)	The state department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California).
Designated Providers	Include the following Providers that are eligible to receive a Directed Payment in accordance with this Policy and applicable DHCS All Plan Letter or other regulatory guidance for specified Qualifying Services for the applicable time period: 1. Eligible Contracted Providers for Physician Services, ACEs Screening Services, and Abortion Services; 2. Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics for Developmental Screening Services; 3. Non-contracted GEMT Providers for GEMT Services; and 4. Non-contracted Providers for Abortion Services.
Developmental Screening Services	Specified developmental screening services, as listed by the CPT Code for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member, in accordance with the American Academy of Pediatrics (AAP)/Bright Futures periodicity schedule and guidelines for pediatric periodic health visits at nine (9) months, eighteen (18) months, and thirty (30) months of age and when medically necessary based on Developmental Surveillance and through use of a standardized tool that meets CMS Criteria.
Developmental Surveillance	A flexible, longitudinal, and continuous process that includes eliciting and attending to concerns of an Eligible Member's parents, maintaining a developmental history, making accurate and informed observations, identifying the presence of risk and protective factors, and documenting the process and findings.
Directed Payment	An Add-On Payment or Minimum Fee Payment required by DHCS to be made to a Designated Provider for Qualifying Services with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments.

Term	Definition
Eligible Contracted Provider	An individual rendering Provider who is contracted with a Health Network to provide Medi-Cal Covered Services to Members, including Eligible Members, assigned to that Health Network and is qualified to provide and bill for the applicable Qualifying Services (excluding GEMT Services) on the date of service. Notwithstanding the above, if the Provider's written contract with a Health Network does not meet the network provider criteria set forth in DHCS APL 19-001: Medi-Cal Managed Care Health Plan Guidance on Network Provider Status and/or in DHCS guidance regarding Directed Payments, the services provided by the Provider under that contract shall not be eligible for Directed Payments for rating periods commencing on or after July 1, 2019.
Eligible Member	For purpose of this Policy, a Medi-Cal Member who is not dually eligible for Medi-Cal and Medicare Part B (regardless of enrollment in Medicare Part A or Part D).
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services.
Estimated Initial Month Payment	A payment to a Health Network based upon the most recent rolling three-month average of Directed Payment program-specific paid claims. If actual data regarding the specific services tied to a Directed Payment are not available, this payment is based upon the expected monthly cost of those services. This payment will not include an administrative component.
Federally Qualified Health Center (FQHC)	A type of provider defined by the Medicare and Medicaid statutes. FQHCs include all organizations receiving grants under Section 330 of the Public Health Service Act, certain tribal organizations, and FQHC Look-Alikes. An FQHC must be a public entity or a private non-profit organization. FQHCs must provide primary care services for all age groups.
Ground Emergency Medical Transport (GEMT) Services	Specified ground emergency medical transport services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services and defined as the act of transporting a Member from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the Member, by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance and/or any transports billed when, following evaluation of a Member, a transport is not provided.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, and Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned in that particular Health Network.
Member	For purpose of this Policy, a Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima Medi-Cal program and assigned to a Health Network at the time Qualifying Services are rendered.

Term	Definition
Minimum Fee Payment	A Directed Payment that sets the minimum rate, as prescribed by DHCS, for which a specified Designated Provider must be reimbursed fee-for-service for certain Qualifying Services. If a Designated Provider is capitated for such Qualifying Services, payments should meet the differential between the Medi-Cal fee schedule rate and the required Directed Payment amount.
Provider	For purpose of this Policy, any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is licensed or certified to do so.
Physician Services	Specified physician services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member.
Qualifying Services	Include only the following Covered Services: Physician Services, Developmental Screening Services, Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and GEMT Services.
Rural Health Clinic (RHC)	An organized outpatient clinic or hospital outpatient department located in a rural shortage area, which has been certified by the Secretary, United States Department of Health and Human Services.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 6, 2019
Regular Meeting of the CalOptima Board of Directors

Consent Calendar
8. Consider Ratification of Standardized Annual Proposition 56 Provider Payment Process

Contact
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions
Ratify standardized annual Proposition 56 provider payment process.

Background
Proposition 56 increases the excise tax rate on cigarettes and tobacco products to fund specified expenditures for existing health care programs administered by the Department of Health Care Services (DHCS). DHCS releases guidance to Medi-Cal managed care plans (MCP) of Proposition 56 provider payments through an All Plan Letter (APL). The APLs includes guidance regarding providers eligible for payment, service codes eligible for reimbursement, timeliness requirements to make payments, and MCP reporting requirements.

Eligible Proposition 56 provider payment adjustments are applied toward specific services provided during a State Fiscal Year (SFY), which runs from July 1 through June 30. While the payment period begins at the beginning of the SFY, final Proposition 56 guidance is not provided until after the fiscal year begins. For example, Proposition 56 guidance for SFY 2017-18 was received on May 1, 2018, ten months after the start of the fiscal year. Thus, MCPs are required to make a one-time retroactive payment adjustment to catch-up for dates of service (DOS) from the beginning of the SFY to the catch-up date. Once the initial catch-up payments are distributed, future payments are made within the timeframe specific in the APL.

On June 7, 2018 the CalOptima Board of Directors (Board) authorized implementation of initial payment and ongoing processing payments for Proposition 56 SFY 2017-18. In September 2018 DHCS instructed MCPs to continue Proposition 56 SFY 2017-18 provisions for DOS in SFY 2018-19, until SFY 2018-19 guidance was finalized. DHCS released draft Proposition 56 guidance for SFY 2018-19 on April 12, 2019. Final guidance has not been released as of May 28, 2019.

Discussion
In order to meet timeliness requirements for Proposition 56 payments each SFY and anticipating that requirements will continue to be released by APL or directly by DHCS, CalOptima staff recommends establishing a standardized annual process for Proposition 56 payment distributions. Ratification of this process is requested since CalOptima is required to distribute initial SFY 2018-19 Proposition 56 funds to providers no later than June 12, 2019, even though the final APL for the current fiscal year has not been released. The standardized process will apply to covered Medi-Cal Proposition 56 benefits administered directly by CalOptima (CalOptima Community Network or CalOptima Direct), or a

delegated health network. To comply with the annual Proposition requirements, CalOptima staff recommends utilizing the current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the receipt of initial payment from DHCS for the Proposition 56 designated SFY, CalOptima recommends an initial catch-up payment, if required, for eligible services between the beginning of the SFY to the current date, unless otherwise defined by DHCS. To process the initial catch-up payment, historical claims and encounter data will be utilized to identify the additional payments retroactively. Initial payments will be distributed no later than the timeliness requirements as defined in the APL. Similar to the previous process utilized, the following is recommended for each annual initial catch up payment:

- CalOptima Direct, which includes CalOptima Direct Administrative and CalOptima Community Network, and other providers paid directly by CalOptima for non-delegated Medi-Cal covered services (e.g., behavioral health providers): CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims and encounters submitted for DOS beginning the SFY to the current date, unless otherwise defined by DHCS.

- Health networks: Health network to utilize claims and encounter data to identify and appropriately pay providers retroactively for eligible services submitted for DOS beginning the SFY to the current date, unless otherwise defined by DHCS. CalOptima will prefund the health network for estimated medical costs. Health network will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the prefunded medical costs, negative and positive, will be reconciled towards future Proposition 56 reimbursements. In addition, a 2% administrative component based on total medical costs will be remitted to the health network.

Ongoing Processing

Once the initial payment is distributed, future Proposition 56 provider payments must be made within the timeframe as defined in the Proposition 56 APL for eligible clean claims or adjusted encounters. The following is recommended for ongoing processing provided that CalOptima continues to receive funding for Proposition 56:

- CalOptima Direct, which includes CalOptima Direct Administrative and CalOptima Community Network, and other providers paid directly by CalOptima for non-delegated Medi-Cal covered services (e.g., behavioral health providers): CalOptima will pay providers within the timeframe as defined by DHCS as claims or encounters are received.

- Health networks: Health network will pay providers within the timeframe defined by DHCS as claims or encounters are received. Concurrently, health network will be required to submit provider payment confirmation reports on a monthly basis that eligible Proposition 56 claims and encounter payments were issued timely. Reports will be due within 10 calendar days of the

end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component. Health networks will be required to report any recouped or refunded Proposition 56 payments received from providers. CalOptima will reconcile negative Proposition 56 medical and administrative payment adjustments towards future Proposition 56 reimbursements.

CalOptima, health networks will be expected to meet all reporting requirements as defined in the Proposition 56 APL or specifically requested by DHCS. Current processes will be used for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with all regulatory requirements and CalOptima's expectations related to Proposition 56. Additionally, current policy and procedures will be followed related to provider payment recoupment, where applicable.

This process applies to eligible services and providers as prescribed through a Proposition 56 APL or directed by DHCS. CalOptima staff will return to the Board for further approval if any future DHCS Proposition 56 requirements warrant significant changes to the proposed process. Additionally, should implementation of Proposition 56 require modifications to current health network, vendor, or provider contracts, CalOptima staff will seek separate Board action to the extent required.

Fiscal Impact
The recommended action to ratify the standardized annual Proposition 56 provider payment process is projected to be budget neutral to CalOptima. Based on historical claims experience, Staff anticipates medical expenditures will be of an equivalent amount as the Proposition 56 funding provided by DHCS annually, resulting in a budget neutral impact to CalOptima's operating income.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Back to Agenda Back to Item

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

9. Consider Actions Related to the Implementation of Statutorily-Mandated Rate Increases for Medi-Cal Non-Contracted Ground Emergency Medical Transport (GEMT) Provider Services

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Approve payments to the capitated hospital(s) and HMOs for statutorily-mandated retrospective rate increases for specific services provided by non-contracted Ground Emergency Medical Transport providers to Medi-Cal members during the period of July 1, 2018 through June 30, 2019 and an administrative fee for claims adjustments; and
2. Direct the Chief Executive Officer, with the assistance of Legal Counsel, to amend the CalOptima Physician Hospital Consortium capitated Hospital and Full-Risk Health Network Medi-Cal contracts to incorporate the retrospective non-contracted Ground Emergency Medical Transport provider rate increase requirements for the July 1, 2018 through June 30, 2019 period and the additional compensation to these health networks for such services.

Background/Discussion

In accordance with Senate Bill (SB) 523 (Chapter 773, Statutes of 2017), the California Department of Health Care Services (DHCS) established increased Ground Emergency Medical Transport (GEMT) provider payments through the Quality Assurance Fee program for certain Medi-Cal related services rendered in State Fiscal Year (SFY) 2018-19. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare & Medicaid Services for GEMT provider payments through California State Plan Amendment 18-004. On April 5, 2019, CalOptima received initial funding for the retrospective non-contracted GEMT provider payment increase, separate from the standard capitation payment. Final guidance regarding distribution of non-contracted GEMT provider payments was released by DHCS through All Plan Letter (APL) 19-007, dated June 14, 2019.

Per DHCS guidance, CalOptima is required to provide increased reimbursement to out-of-network providers for GEMT service codes A0429 (Basic Life Support Emergency), A0427 (Advanced Life Support Emergency), and A0433 (Advanced Life Support, Level 2). CalOptima must reimburse out-of-network providers a total of $339 for each designated GEMT service provided by during SFY 2018-19 (July 1, 2018 to June 30, 2019). Excluded services include those billed by air ambulance providers and services billed when transport is not provided. DHCS has mandated that payments for the above increased rates are to be distributed no later than July 3, 2019.

At this time, the total reimbursement rate of $339 per identified service is time-limited and in effect for SFY 2018-19. Increased reimbursement for the specified GEMT services may potentially be extended into future fiscal years and may include additional GEMT transport codes. If the reimbursement

increase is extended, and/or includes additional GEMT transport codes, DHCS will provide further guidance after necessary federal approval is obtained.

In order to meet timeliness requirements for non-contracted GEMT provider payment adjustments for services provided during SFY 2018-19, CalOptima and its delegated health networks followed the existing Fee Schedule change process. Through this process, eligible claims previously adjudicated and paid were adjusted to the increased reimbursement rate. New claims are paid at the appropriate fee schedule as they are received.

For the physician-hospital consortium (PHC) hospitals and health maintenance organization (HMO) health networks that are financially responsible for non-contracted GEMT services, CalOptima staff recommends reimbursing the health networks the difference between the base Medi-Cal rate for the specific service and the required $339 enhanced rate. The health networks will be required to submit GEMT payment adjustment confirmation reports. Upon receipt of the confirmation report, CalOptima will reconcile the report against encounters and other claims reports received and reimburse each health network's medical costs, separate from their standard capitation payments, plus a 2% administrative component based on rate adjustments made by health networks.

CalOptima and its health networks will be expected to meet all reporting requirements as required by DHCS. Current processes will be leveraged for specific reporting requirements, provider grievances, and health network claims payment audit and oversight to comply with all regulatory requirements. Additionally, current policy and procedures will be followed related to provider payment recoupment, where applicable.

This process applies to eligible services and providers as directed by the DHCS. The same process will be leveraged should GEMT provisions be extended past SFY 2018-19, modified through an APL, or otherwise directed by DHCS. CalOptima staff will return to the Board for approval if any future DHCS non-contract GEMT provider payment requirements warrant significant changes to the proposed process.

Fiscal Impact

The recommended action to implement additional payment requirements for specified services provided by non-contracted GEMT providers to CalOptima Medi-Cal members in SFY 2018-19 is budget neutral. The anticipated Medi-Cal revenue is projected to be sufficient to cover the costs of the increased expense. Management included projected revenues and expenses related to non-contracted GEMT provider payment requirements in the CalOptima Fiscal Year 2019-20 Operating Budget approved by the Board on June 6, 2019.

Rationale for Recommendation

The recommended action will enable CalOptima to be compliant with All-Plan Letter (APL) 19-007: Non–Contract Ground Emergency Medical Transport Payment Obligations for State Fiscal Year 2018–19.

Concurrence

Dear Ms. Cantwell:

Enclosed is an approved copy of California State Plan Amendment (SPA) 18-004, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on July 11, 2018. SPA 18-004 implements a one-year Quality Assurance Fee (QAF) program and reimbursement add-on for Ground Emergency Medical Transports (GEMT) provided by emergency medical transportation providers effective for the State Fiscal Year (SFY) 2018-19 from July 1, 2018 to June 30, 2019.

The effective date of this SPA is July 1, 2018. Enclosed are the following approved SPA pages that should be incorporated into your approved state plan:

- Supplement 29 to Attachment 4.19-B, pages 1-2

If you have any questions, please contact Cheryl Young at 415-744-3598 or via email at Cheryl.Young@cms.hhs.gov.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

ONE-YEAR REIMBURSEMENT RATE ADD-ON FOR GROUND EMERGENCY MEDICAL TRANSPORT SERVICES

Introduction

This program provides increased reimbursement to ground emergency medical transport providers by application of an add-on to the Medi-Cal fee-for-service (FFS) fee schedule base rates for eligible emergency medical transportation services. The reimbursement rate add-on will apply to eligible Current Procedural Terminology (CPT) Codes, between July 1, 2018 and June 30, 2019. The base rates for emergency medical transportation services will remain unchanged through this amendment.

"Emergency medical transport" means the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT Codes A0429, A0427, and A0433.

Methodology

For State Fiscal Year (SFY) 2018-19, the reimbursement rate add-on is fixed for FY 2018-19. The resulting payment amounts are equal to the sum of the FFS fee schedule base rate for the SFY 2015-16 and the add-on amount for the CPT Code. The resulting total payment amount for CPT Codes A0429, A0427, and A0433 will be $339.00. The add-on is paid on a per-claim basis.

Service Code	Description	Current Payment	Add On Amount	Resulting Total Payment
A0429	Basic Life Support	$118.20	$220.80	$339.00
A0427	Advanced Life Support, Level 1	$118.20	$220.80	$339.00
A0433	Advanced Life Support, Level 2	$118.20	$220.80	$339.00

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

The resulting total payment amount of $339.00 is considered the Rogers rate, which is the minimum rate that managed care organizations can pay noncontract managed care emergency medical transport providers, for each state fiscal year the FFS reimbursement rate add-on is effective.

ALL PLAN LETTER 19-007

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS[1]

SUBJECT: NON-CONTRACT GROUND EMERGENCY MEDICAL TRANSPORT PAYMENT OBLIGATIONS FOR STATE FISCAL YEAR 2018-19

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide Medi-Cal managed care health plans (MCPs) with information regarding increased reimbursement for Fee-For-Service (FFS) ground emergency medical transport (GEMT) for Current Procedural Terminology (CPT) codes A0429, A0427, and A0433. The increased FFS reimbursement will affect MCP reimbursement of out-of-network GEMT services as required by section 1396u-2(b)(2)(D) of Title 42 of the United States Code (USC), commonly referred to as "Rogers Rates."

BACKGROUND:
Pursuant to the Legislature's addition of Article 3.91 (Medi-Cal Emergency Medical Transportation Reimbursement Act) to the Welfare and Institutions Code (WIC) in 2017, DHCS established the GEMT Quality Assurance Fee (QAF) program. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare and Medicaid Services (CMS) for California State Plan Amendment (SPA) 18-004, with an effective date of July 1, 2018. SPA 18-004 implements a one-year QAF program and reimbursement add-on for GEMT provided by emergency medical transportation providers effective for State Fiscal Year (SFY) 2018-19 from July 1, 2018, to June 30, 2019.

POLICY:
In accordance with 42 USC Section 1396u-2(b)(2)(D), Title 42 of the Code of Federal Regulations part 438.114(c), and WIC Sections 14129-14129.7, MCPs must provide increased reimbursement rates for specified GEMT services to non-contracted GEMT providers.

Under WIC Section 14129(g), emergency medical transport is defined as the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes,

[1] This APL does not apply to Prepaid Ambulatory Health Plans.

ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT codes A0429 (BLS Emergency), A0427 (ALS Emergency), and A0433 (ALS2), excluding any transports billed when, following evaluation of a patient, a transport is not provided.

For each qualifying emergency ambulance transport billed with the specified CPT codes, the total FFS reimbursement will be $339.00 for SFY 2018-2019. Accordingly, MCPs reimbursing non-contracted GEMT providers for those services must pay a "Rogers Rate" for a total reimbursement rate of $339.00 for each qualifying emergency ambulance transport provided during SFY 2018-19 and billed with the specified CPT codes.

At this time, the total reimbursement rate of $339.00 for each qualifying emergency ambulance transport billed with the specified CPT codes is time-limited, and is only in effect for SFY 2018-19 dates of service from July 1, 2018, to June 30, 2019. Increased reimbursement for the specified GEMT services may be extended into future fiscal years, and may include additional GEMT codes. If the reimbursement increase is extended, and/or includes additional GEMT codes, DHCS will provide MCPs with further guidance after necessary federal approval is obtained.

Timing of Payment and Claim Submission

The projected value of this payment obligation will be accounted for in the MCPs' actuarially certified risk-based capitation rates. Within 90 calendar days from the date DHCS issues the capitation payments to MCPs for GEMT payment obligations specified in this APL, MCPs must pay, as required by this APL, for all clean claims or accepted encounters with the dates of service between July 1, 2018, and the date the MCP receives such capitation payment from DHCS.

Once DHCS begins issuing the capitation payments to the MCPs for the GEMT payment obligations specified in this APL, MCPs must pay as required by this APL within 90 calendar days of receiving a qualifying clean claim or an accepted encounter.

MCPs are required to make timely payments in accordance with this APL for clean claims or accepted encounters for qualifying transports submitted to the MCPs within one year after the date of service. MCPs are not required to pay the GEMT payment obligation specified in this APL for claims or encounters submitted more than one year after the date of service unless the non-contracted GEMT provider can show good cause.

These submission and payment timing requirements may be waived only if agreed to in writing between the MCPs, the MCPs' delegated entities, or subcontractors, and the rendering GEMT provider.

Impacts Related to Medicare

For dual eligible beneficiaries with Medicare Part B coverage, the increased Medi-Cal reimbursement level may result in a crossover payment obligation on the MCP, because the new Medi-Cal reimbursement amount may exceed 80 percent of the Medicare fee schedule. Based on current Medicare reimbursement rates, the only CPT code where this scenario may occur in certain geographic areas is A0429. MCPs are responsible for identifying and satisfying any Medicare crossover payment obligations that result from the increase in GEMT reimbursement obligations described in this APL.

In instances where a member is found to have other health coverage sources, MCPs must cost avoid or make a post-payment recovery in accordance with the "Cost Avoidance and Post-Payment Recovery of Other Health Coverage Sources" provision of Attachment 2 to Exhibit E of the MCP Contract.

Other Obligations

MCPs are responsible for ensuring qualifying transports reported using the specified CPT codes are appropriate for the services being provided and are reported to DHCS in encounter data pursuant to APL 14-019.

MCPs are responsible for ensuring that their delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs, policy letters, and duals plan letters. MCPs must communicate these requirements to all delegated entities and subcontractors.

Pursuant to the MCP Contract, MCPs must have a formal procedure to accept, acknowledge, and resolve provider grievances related to the processing or non-payment related to this APL. In addition, MCPs must identify a designated point of contact for provider questions and technical assistance.

If you have any questions regarding the requirements of this APL, please contact your Managed Care Operations Division contract manager.

Sincerely,

Original Signed by Sarah Brooks

Sarah Brooks, Deputy Director
Health Care Delivery Systems

Department of Health Care Services Medi-Cal

Ground Emergency Medical Transport Quality Assurance Fee

June 28, 2018

In accordance with Senate Bill 523 (Chapter 773, Statutes of 2017), the Department of Health Care Services (DHCS) has finalized the fiscal year 2018 – 2019 Ground Emergency Medical Transport Quality Assurance Fee (QAF) rate and add-on amount to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport, as listed below. The QAF is assessed on each qualified emergency medical transport, regardless of payer. The add-on will be provided in addition to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport billing codes. The fiscal year 2018 – 2019 QAF rate and add-on amount are as follows:

Add-on Amount: $220.80

QAF Rate: $24.80

The resulting fiscal year 2018 – 2019 total fee-for-service reimbursement amount will be $339 for HCPCS codes A0427, A0429 and A0433 (ground medical transportation services).

For more details regarding the Ground Emergency Medical Transport QAF Program and the reporting requirements and instructions, visit the Ground Emergency Medical Transport Quality Assurance Fee website.

Questions or comments may be submitted to the DHCS Ground Emergency Medical Transport QAF email box: GEMTQAF@dhcs.ca.gov.

Policy:	FF.2011
Title:	**Directed Payments**
Department:	Claims Administration
Section:	Not Applicable
Interim CEO Approval:	*/s/ Richard Sanchez 04/15/2020*
Effective Date:	04/02/2020
Revised Date:	Not applicable
Applicable to:	☒ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☐ Administrative

I. PURPOSE

This Policy establishes requirements pursuant to which CalOptima and a Health Network shall administer the Directed Payments for Qualifying Services, including processes for the reimbursement of Directed Payments by CalOptima to a Health Network and by a Health Network to its Designated Providers.

II. POLICY

A. CalOptima shall reimburse a Health Network for Directed Payments made to a Designated Provider for Qualifying Services in accordance with this Policy, including Attachment A of this Policy.

B. A Health Network shall qualify for the reimbursement of Directed Payments for Qualifying Services if:

1. The Health Network processed the Directed Payment to a Designated Provider in compliance with this Policy and applicable statutory, regulatory, and contractual requirements, as well as Department of Health Care Services (DHCS) guidance and Centers for Medicare & Medicaid Services (CMS) approved preprint;

2. The Qualifying Services were eligible for reimbursement (*e.g.*, based on coverage, coding, and billing requirements);

3. The Member or Eligible Member, as applicable and as those terms are defined in this Policy, was assigned to the Health Network on the date of service;

4. The Designated Provider was eligible to receive the Directed Payment;

5. The Qualifying Services were rendered by a Designated Provider on an eligible date of service;

6. The Health Network reimbursed the Designated Provider within the required timeframe, as set forth in Section III.B. of this Policy; and

7. The Health Network submits Encounter data and all other data necessary to ensure compliance with DHCS reporting requirements in accordance with Sections III.F. and III.G. of this Policy.

Back to Agenda Back to Item

C. A Health Network shall make timely Directed Payments to Designated Providers for the following Qualifying Services, in accordance with Sections III.A. and III.B. of this Policy:

1. An Add-On Payment for Physician Services and Developmental Screening Services.

2. A Minimum Fee Payment for Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and Ground Emergency Medical Transport (GEMT) Services.

D. A Health Network shall ensure that Qualifying Services reported using specified Current Procedural Terminology (CPT) Codes, Healthcare Common Procedure Coding System (HCPCS) Codes, and Procedure Codes, as well as the Encounter data reported to CalOptima, are appropriate for the services being provided, and are not reported for non-Qualifying Services or any other services.

E. A Health Network shall have a process to communicate the requirements of this Policy, including applicable DHCS guidance, to Designated Providers. This communication must, at a minimum, include:

1. A description of the minimum requirements for a Qualifying Service;

2. How Directed Payments will be processed;

3. How to file a grievance with the Health Network and second level appeal with CalOptima; and

4. Identify the payer of the Directed Payments. (i.e. Member's Health Network that is financially responsible for the specified Direct Payment.)

F. A Health Network shall have a formal procedure for the acceptance, acknowledgement, and resolution of provider grievances related to the processing or non-payment of a Directed Payment for a Qualifying Service. In addition, a Health Network shall identify a designated point of contact for provider questions and technical assistance.

G. Directed Payment Reimbursement

1. CalOptima shall reimburse a Health Network for a Directed Payment made to a Designated Provider for Qualifying Services in accordance with Sections III.C. and III.E. of this Policy.

a. Until such time reimbursement for a Directed Payment is included in a Health Network's capitation payment, CalOptima shall reimburse a Health Network for a Directed Payment separately.

2. If DHCS provides separate revenue to CalOptima for a Directed Payment requirement in addition to standard revenue from DHCS, CalOptima shall provide a Health Network a supplemental payment in addition to the Health Network's primary capitation payment.

a. A Health Network shall process a Directed Payment as a supplemental payment and CalOptima shall reimburse a Health Network in accordance with Section III.C. of this Policy.

b. CalOptima shall reimburse a Health Network medical costs of a Directed Payment plus a 2% administrative component. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

3. If DHCS does not provide separate revenue to CalOptima and instead implements a Directed Payment as part of the Medi-Cal fee schedule change:

    a. A Health Network shall process a Directed Payment as part of the existing Medi-Cal fee schedule change process as outlined in CalOptima Policy FF.1002: CalOptima Medi-Cal Fee Schedule and CalOptima shall reimburse a Health Network in accordance with Sections III.C. and III.E. of this Policy.

    b. CalOptima shall reimburse a Health Network after the Directed Payment is distributed and the Health Network submits the Directed Payment adjustment reports as described in Section III.D. of this Policy.

H. On a monthly basis, CalOptima Accounting Department shall reimburse a Health Network the Estimated Initial Month Payment for a validated Directed Payment in accordance with Section III.E. of this Policy.

I. A Health Network may file a complaint regarding a Directed Payment received from CalOptima in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

J. CalOptima shall ensure oversight of the Directed Payment programs in accordance with CalOptima Policy GG.1619: Delegation Oversight.

III. PROCEDURE

A. Directed Payments for Qualifying Services

1. Physician Services: For dates of service on or after July 1, 2017, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers rendering Physician Services to an Eligible Member.

    a. Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Services Programs, and cost-based reimbursement clinics are not eligible to receive this Add-On Payment for Physician Services.

2. Developmental Screening Services: For dates of service on or after January 1, 2020, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics rendering Developmental Screening Services to an Eligible Member. A Developmental Screening Service must be provided in accordance with the American Academy of Pediatrics/Bright Futures periodicity schedule and guidelines and must be performed using a standardized tool that meets CMS Criteria.

    a. The following Developmental Screening Services are eligible for an Add-On Payment:

        i. A routine screening when provided:

            1) On or before the first birthday;

            2) After the first birthday and before or on the second birthday; or

            3) After the second birthday and on or before the third birthday.

ii. Developmental Screening Services provided when medically necessary, in addition to routine screenings.

b. Development Screening Services are not subject to any prior authorization requirements.

c. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2 of this Policy to document the completion of the Development Screening Service with the applicable CPT Code without the modifier as specified in Attachment A of this Policy.

d. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2. of this Policy to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the Developmental Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.2.d. of this Policy are made available to CalOptima and/or DHCS upon request.

f. In the event any of the provisions of Section III.A.2. of the Policy conflicts with the applicable requirements of DHCS guidance, CMS-approved preprint, regulations, and/or statutes, such requirements shall control.

3. ACEs Screening Services: For dates of service on or after January 1, 2020, a Health Network shall reimburse Eligible Contracted Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable HCPCS Code, for rendering ACEs screening services to an Eligible Member, who is a child or an adult through sixty-four (64) years of age.

a. A Minimum Fee Payment for ACEs Screening Services shall only be made to rendering Eligible Contracted Providers that:

i. Utilize either the PEARLS tool or a qualifying ACEs questionnaire, as appropriate;

ii. Bill using one of the HCPCS Code specified in Attachment A of this Policy based on the screening score from the PEARLS tool or ACEs questionnaire used; and

iii. Are on DHCS list of providers that have completed the state-sponsored trauma-informed care training, except for dates of service prior to July 1, 2020. Commencing July 1, 2020, Eligible Contracted Providers must have taken a certified training and self-attested to completing the training to receive the Directed Payment for ACEs Screening Services.

b. A Health Network is only required to make the Minimum Fee Payment to an Eligible Contracted Provider for rendering an ACEs Screening Service, as follows:

i. Once per year per Eligible Member screened by that Eligible Contracted Provider, for a child Eligible Member assessed using the PEARLS tool.

ii. Once per lifetime per Eligible Member screened by that Eligible Contracted Provider, for an adult Eligible Member through age sixty-four (64) assessed using a qualifying ACEs questionnaire.

c. With respect to an Eligible Contracted Provider, CalOptima shall only reimburse a Health Network for the Minimum Fee Payment in accordance with Section III.A.3.b. of this Policy.

d. A Health Network shall require Eligible Contracted Providers to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the ACEs Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.3.d. of this Policy are made available to CalOptima and/or DHCS upon request.

4. Abortion Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse Eligible Contracted Providers and non-contracted Providers, as applicable, which are qualified to provide and bill for Abortion Services, a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing Abortion Services to a Member.

a. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

5. GEMT Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse non-contracted GEMT Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing GEMT Services to a Member.

a. A Health Network shall identify and satisfy any Medicare crossover payment obligations that may result from the increase in GEMT Services reimbursement obligations.

b. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

B. Timing of Directed Payments

1. Timeframes with Initial Directed Payment: When DHCS final guidance requires an initial Directed Payment for clean claims or accepted encounters received by the Health Network with specified dates of service (*i.e.*, between a specific date of service and the date CalOptima receives the initial funding from DHCS for the Directed Payment), a Health Network shall ensure the initial Directed Payment required by this Policy is made, as necessary, within ninety (90) calendar days of the date CalOptima receives the initial funding from DHCS for the Directed Payment. From the date CalOptima receives the initial funding onward, a Health

Network shall ensure subsequent Directed Payments required by this Policy are made within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or accepted encounter is received by the Health Network no later than one (1) year after the date of service.

a. Initial Directed Payment: The initial Directed Payment shall include adjustments for any payments previously made by a Health Network to a Designated Provider based on the expected rates for Qualifying Services set forth in the Pending SPA or based on the established Directed Payment program criteria, rates and Qualifying Services, as applicable, pursuant to Section III.B.4. of this Policy.

b. Abortion Services: For clean claims or accepted encounters for Abortion Services with specified dates of service (*i.e.*, between July 1, 2017 and the date CalOptima receives the initial funding for Directed Payment from DHCS) that are timely submitted to a Health Network and have not been reimbursed the Minimum Fee Payment in accordance with this Policy, a Health Network shall issue the Minimum Fee Payment required by this Policy in a manner that does not require resubmission of claims or impose any reductions or denials for timeliness.

2. Timeframes without Initial Directed Payment: When DHCS final guidance does not expressly require an initial Directed Payment under Section III.B.1 of this Policy, a Health Network shall ensure that Directed Payments required by this Policy are made:

a. Within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or encounter is received no later than one (1) year from the date of service.

b. Retroactively within ninety (90) calendar days of DHCS final guidance when a clean claim or accepted encounter for Qualifying Services is received prior to such guidance.

3. Notice by CalOptima

a. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the requirements of DHCS final guidance for each Directed Payment program for Qualifying Services by no later than fifteen (15) calendar days from the release date of DHCS final guidance.

b. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the date that CalOptima received the initial funding for the Directed Payment from DHCS, by no later than fifteen (15) calendar days from the date of receipt. This provision applies to initial funding received by CalOptima on or after April 1, 2020, provided that DHCS final guidance requires initial Directed Payment as set forth in Section III.B.1. of this Policy.

c. If DHCS files a State Plan Amendment (SPA) with CMS for an extension of a Directed Payment program ("Pending SPA") and CalOptima Board of Directors or Chief Executive Officer, pursuant to DHCS written instruction, approves the continuation of payment of the Directed Payment before DHCS final guidance is issued, CalOptima Health Network Relations Department shall notify the Health Networks, in writing, to continue to pay the Directed Payment to Designated Providers for Qualifying Services with specified dates of service.

4. Extension of Directed Payment Program:

    a. Upon receipt of written notice from CalOptima under Section III.B.3.c. of this Policy, a Health Network shall reimburse a Designated Provider for a Directed Payment according to the expected rates and Qualifying Services for the applicable time period as set forth in the Pending SPA or, at a minimum, according to the previously established Directed Payment program criteria, rates, and Qualifying Services, as applicable, until such time as the DHCS issues the final guidance.

    b. A Health Network shall ensure timely reconciliation and compliance with the final payment provisions as provided in DHCS final guidance when issued.

5. GEMT Services: A Health Network is not required to pay the Add-On Payment for GEMT Services for claims or encounters submitted more than one (1) year after the date of service, unless the non-contracted GEMT Provider can show good cause for the untimely submission.

    a. Good cause is shown when the record clearly shows that the delay in submitting a claim or encounter was due to one of the following:

        i. The Member has other sources of health coverage;

        ii. The Member's medical condition is such that the GEMT Provider is unable to verify the Member's Medi-Cal eligibility at the time of service or subsequently verify with due diligence;

        iii. Incorrect or incomplete information about the subject claim or encounter was furnished by the Health Network to the GEMT Provider; or

        iv. Unavoidable circumstances that prevented the GEMT Provider from timely submitting a claim or encounter, such as major floods, fires, tornadoes, and other natural catastrophes.

C. Directed Payments Processing

1. On a monthly basis, CalOptima shall reimburse a Health Network after the Health Network distributes the Directed Payment and the Health Network submits the Directed Payment adjustment reports in accordance with Section III.D. of this Policy.

    a. The CalOptima Accounting Department shall reconcile and validate the data through the Directed Payment adjustment report process prior to making a final payment adjustment to a Health Network.

2. If a Health Network identifies an overpayment of a Directed Payment, a Health Network shall return the overpayment within sixty (60) calendar days after the date on which the overpayment was identified, and shall notify CalOptima Accounting Department, in writing, of the reason for the overpayment. CalOptima shall coordinate with a Health Network on the process to return the overpayment in accordance with CalOptima Policy FF.1001: Capitation Payments.

    a. CalOptima shall notify a Health Network of acceptance, adjustment or rejection of the overpayment no later than three (3) business days after receipt.

    b. If CalOptima adjusts or rejects the overpayment, CalOptima shall include the overpayment adjustment in the subsequent month's process.

c. In the event CalOptima identifies that Directed Payments were made by a Health Network to a non-Designated Provider, or for non-Qualifying Services, or for services provided to a non-Member or a non-Eligible Member, as applicable, such Directed Payments shall constitute an overpayment which CalOptima shall recover from the Health Network**.**

D. Directed Payment Adjustment Process

1. As soon as a Health Network has processed and paid a Designated Provider for a Directed Payment, a Health Network shall submit a Directed Payment adjustment report for Qualifying Services by the tenth (10th) calendar day after the month ends to CalOptima's secure File Transfer Protocol (sFTP) site. A Health Network shall submit an adjustment report using CalOptima's proprietary format and file naming convention.

2. CalOptima Information Services Department shall notify a Health Network of file acceptance or rejection no later than three (3) business days after receipt. CalOptima may reject a file for data completeness, accuracy or inconsistency issues. If CalOptima rejects a file, a Health Network shall resubmit a corrected file no later than the tenth (10th) calendar day of the following month. Any resubmission after the tenth (10th) calendar day of the month will be included in the subsequent month's process.

3. Upon request, a Health Network shall provide additional information to support a submitted Directed Payment adjustment report to CalOptima Accounting Department within five (5) business days of the request.

4. For a complete Directed Payment adjustment report accepted by CalOptima Accounting Department, CalOptima shall reimburse a Health Network's medical costs of a Directed Payment plus a 2% administrative component no later than the twentieth (20th) calendar day of the current month based upon prior month's data. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

E. Estimated Initial Month Payment Process

1. On a monthly basis, CalOptima shall issue an Estimated Initial Month Payment to a Health Network. During the first month of implementation, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network no later than the 10th of the implementing month and as follows:

   a. When available, the Estimated Initial Month Payment shall be based upon the most recent rolling three-month average of the paid claims; or

   b. If actual data regarding the specific services tied to a Directed Payment are not available, CalOptima shall base the Estimated Initial Month Payment on the expected monthly cost of those services.

2. Thereafter, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network for a Directed Payment no later than the 20th of the month for services paid in that month.

3. CalOptima Accounting Department shall reconcile the prior month's Estimated Initial Month Payment against a Health Network's submitted Directed Payment adjustment report for the prior month. CalOptima shall adjust the current month's Estimated Initial Month Payment, either positively or negatively based upon the reconciliation.

4. Following the first month of implementation and thereafter, the Estimated Initial Month Payment, CalOptima Accounting Department shall disburse funds to a Health Network based upon the previous month's submitted Directed Payment adjustment report.

F. A Health Network shall report an Encounter in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such Encounter.

G. Reporting

1. A Health Network shall submit all data related to Directed Payments to the CalOptima Information Services Department through the CalOptima secure File Transport Protocol (sFTP) site in a format specified by CalOptima, and in accordance with DHCS guidance, within fifteen (15) calendar days of the end of the applicable reporting quarter. Reports shall include, at a minimum, the CPT, HCPCS, or Procedure Code, service month, payor (*i.e.*, Health Network, or its delegated entity or subcontractor), and rendering Designated Provider's National Provider Identifier. CalOptima may require additional data as deemed necessary.

   a. Updated quarterly reports must be a replacement of all prior submissions. If no updated information is available for the quarterly report, a Health Network must submit an attestation to CalOptima stating that no updated information is available.

   b. If updated information is available for the quarterly report, a Health Network must submit the updated quarterly report in the appropriate file format and include an attestation that a Health Network considers the report complete.

2. CalOptima shall reconcile the Health Network's data reports and ensure submission to DHCS within forty-five (45) days of the end of the applicable reporting quarter as applicable.

Effective	04/02/2020	FF.2011	Directed Payments	Medi-Cal

IX. GLOSSARY

Term	Definition
Abortion Services	Specified medical pregnancy termination services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to a Member.
Add-On Payment	Directed Payment that funds a supplemental payment for certain Qualifying Services at a rate set forth by DHCS that is in addition to any other payment, fee-for-service or capitation, a specified Designated Provider receives from a Health Network.
Adverse Childhood Experiences (ACEs) Screening Services	Specified adverse childhood experiences screening services, as listed by the HCPCS Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member through the use of either the Pediatric ACEs and Related Life-events Screener (PEARLS) tool for children (ages 0 to 19 years) or a qualifying ACEs questionnaire for adults (ages 18 years and older). An ACEs questionnaire or PEARLS tool may be utilized for Eligible Members who are 18 or 19 years of age. The ACEs screening portion of the PEARLS tool (Part 1) is also valid for use to conduct ACEs screenings among adult Eligible Members ages 20 years and older. If an alternative version of the ACEs questionnaire for adult Eligible Members is used, it must contain questions on the 10 original categories of the ACEs to qualify.
American Indian Health Services Program	Programs operated with funds from the IHS under the Indian Self-Determination Act and the Indian Health Care Improvement Act, through which services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.
Centers for Medicare and Medicaid Services (CMS) Criteria	For purpose of this Policy, the use of a standardized tool for Developmental Screening Services that meets all of the following CMS criteria: 1. Developmental domains: The following domains must be included in the standardized developmental screening tool: motor, language, cognitive, and social-emotional; 2. Establish Reliability: Reliability scores of approximately 0.70 or above; 3. Established Findings Regarding the Validity: Validity scores for the tool must be approximately 0.70 or above. Measures of validity must be conducted on a significant number of children and using an appropriate standardized developmental or social-emotional assessment instrument(s); and 4. Established Sensitivity/Specificity: Sensitivity and specificity scores of approximately 0.70 or above.

Term	Definition
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program (as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301), the Child Health and Disability Prevention program (as set forth in Title 17, CCR, Division 1, Chapter 4, Subchapter 13, Article 4, beginning with section 6842), and the California Children's Services (as set forth in Title 22, CCR, Division 2, subdivision 7, and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 2.985, beginning with section 14094.4) under the Whole-Child Model program effective July 1, 2019, to the extent those services are included as Covered Services under CalOptima's Medi-Cal Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), and Health Homes Program (HHP) services (as set forth in DHCS All Plan Letter 18-012 and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 3.9, beginning with section 14127), effective January 1, 2020 for HHP Members with eligible physical chronic conditions and substance use disorders, or other services as authorized by the CalOptima Board of Directors, which shall be covered for Members not-withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Department of Health Care Services (DHCS)	The state department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California).
Designated Providers	Include the following Providers that are eligible to receive a Directed Payment in accordance with this Policy and applicable DHCS All Plan Letter or other regulatory guidance for specified Qualifying Services for the applicable time period: 1. Eligible Contracted Providers for Physician Services, ACEs Screening Services, and Abortion Services; 2. Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics for Developmental Screening Services; 3. Non-contracted GEMT Providers for GEMT Services; and 4. Non-contracted Providers for Abortion Services.
Developmental Screening Services	Specified developmental screening services, as listed by the CPT Code for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member, in accordance with the American Academy of Pediatrics (AAP)/Bright Futures periodicity schedule and guidelines for pediatric periodic health visits at nine (9) months, eighteen (18) months, and thirty (30) months of age and when medically necessary based on Developmental Surveillance and through use of a standardized tool that meets CMS Criteria.
Developmental Surveillance	A flexible, longitudinal, and continuous process that includes eliciting and attending to concerns of an Eligible Member's parents, maintaining a developmental history, making accurate and informed observations, identifying the presence of risk and protective factors, and documenting the process and findings.
Directed Payment	An Add-On Payment or Minimum Fee Payment required by DHCS to be made to a Designated Provider for Qualifying Services with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments.

Term	Definition
Eligible Contracted Provider	An individual rendering Provider who is contracted with a Health Network to provide Medi-Cal Covered Services to Members, including Eligible Members, assigned to that Health Network and is qualified to provide and bill for the applicable Qualifying Services (excluding GEMT Services) on the date of service. Notwithstanding the above, if the Provider's written contract with a Health Network does not meet the network provider criteria set forth in DHCS APL 19-001: Medi-Cal Managed Care Health Plan Guidance on Network Provider Status and/or in DHCS guidance regarding Directed Payments, the services provided by the Provider under that contract shall not be eligible for Directed Payments for rating periods commencing on or after July 1, 2019.
Eligible Member	For purpose of this Policy, a Medi-Cal Member who is not dually eligible for Medi-Cal and Medicare Part B (regardless of enrollment in Medicare Part A or Part D).
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services.
Estimated Initial Month Payment	A payment to a Health Network based upon the most recent rolling three-month average of Directed Payment program-specific paid claims. If actual data regarding the specific services tied to a Directed Payment are not available, this payment is based upon the expected monthly cost of those services. This payment will not include an administrative component.
Federally Qualified Health Center (FQHC)	A type of provider defined by the Medicare and Medicaid statutes. FQHCs include all organizations receiving grants under Section 330 of the Public Health Service Act, certain tribal organizations, and FQHC Look-Alikes. An FQHC must be a public entity or a private non-profit organization. FQHCs must provide primary care services for all age groups.
Ground Emergency Medical Transport (GEMT) Services	Specified ground emergency medical transport services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services and defined as the act of transporting a Member from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the Member, by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance and/or any transports billed when, following evaluation of a Member, a transport is not provided.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, and Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned in that particular Health Network.
Member	For purpose of this Policy, a Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima Medi-Cal program and assigned to a Health Network at the time Qualifying Services are rendered.

Term	Definition
Minimum Fee Payment	A Directed Payment that sets the minimum rate, as prescribed by DHCS, for which a specified Designated Provider must be reimbursed fee-for-service for certain Qualifying Services. If a Designated Provider is capitated for such Qualifying Services, payments should meet the differential between the Medi-Cal fee schedule rate and the required Directed Payment amount.
Provider	For purpose of this Policy, any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is licensed or certified to do so.
Physician Services	Specified physician services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member.
Qualifying Services	Include only the following Covered Services: Physician Services, Developmental Screening Services, Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and GEMT Services.
Rural Health Clinic (RHC)	An organized outpatient clinic or hospital outpatient department located in a rural shortage area, which has been certified by the Secretary, United States Department of Health and Human Services.

Policy:	FF.1005f
Title:	**Special Payments: Supplemental OB Delivery Care Payment**
Department:	Finance
Section:	Not Applicable
CEO Approval:	/s/ *Michael Schrader 08/08/2019*
Effective Date:	01/01/2010
Revised Date:	07/01/2019

I. PURPOSE

This policy defines the criteria for a **Health Network***, with the exception of Kaiser Foundation Health Plan, Inc. (Kaiser), to receive a supplemental obstetrical (OB) delivery care payment for qualifying **Covered Services** provided to a **Member** enrolled in Medi-Cal for dates of service on and after January 1, 2010, in accordance with this policy.

II. POLICY

A. Effective for dates of service on and after January 1, 2010, CalOptima shall make a supplemental payment for qualifying **Covered Services** that include OB delivery care at a rate set forth in the **Contract for Health Care Services**, in accordance with the terms and conditions of this Policy.

B. A **Health Network** shall qualify for the supplemental payment for **Covered Services** that include OB delivery care if:

1. On the date of delivery, the **Member** was eligible with CalOptima for less than six (6) consecutive months;

2. On the date of delivery, the **Member** was between fifteen (15) and forty-four (44) years of age;

3. For the physician supplemental OB delivery care payment, **Covered Services** include physician services for normal and C-section delivery and assistant surgeon services billed with any of the following Current Procedural Terminology (CPT) codes: 59400, 59409, 59510, 59514, 59610, 59612, 59618, 59620; and modifier codes AG, or 80, as applicable;

4. For the hospital supplemental OB delivery care payment, **Covered Services** include hospital inpatient services related to an obstetric stay billed with the following Revenue Codes: 720, 721, 722, or 729;

5. The **Health Network** reimbursed the **Provider** for the **Covered Service**;

6. The **Health Network** authorized such services; and

7. The **Health Network** submits **Encounter** data in accordance with Section III.A of this policy.

C. If a **Health Network** identifies an **Overpayment** of a supplemental OB delivery care payment, the **Health Network** shall return the **Overpayment** within sixty (60) calendar days after the date on which the **Overpayment** was identified, and shall notify CalOptima's Accounting Department, in writing, of the reason for the **Overpayment**. CalOptima shall coordinate with the **Health Network** on the process to return the **Overpayment**.

* Terms in **bold** are included in the Glossary.

Back to Agenda Back to Item

III. PROCEDURE

A. **Encounter** Data Submission

1. A **Health Network** shall report an **Encounter** in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such **Encounter**.

2. CalOptima shall qualify **Health Network Encounter** Data for valid CPT and Revenue codes, and report the valid **Encounters** for payment authorization.

B. A **Health Network** shall instruct a **Provider** to utilize the appropriate CPT and Revenue codes to bill for **Covered Services** provided to a **Member**.

C. Processing of Physician Claims

1. A **Health Network** shall process an eligible claim submitted by a **Provider** for physician services at a rate set forth in their contractual agreement.

2. CalOptima shall make a supplemental payment to a **Health Network** in accordance with Section III.E.2 of this Policy.

D. Processing of Hospital Claims

1. **Physician Hospital Consortium (PHC)** or **Health Maintenance Organization (HMO)**

a. A **PHC** or **HMO** shall process an eligible claim submitted by a **Provider** for hospital inpatient services related to an obstetrical stay at a rate set forth in their contractual agreement.

b. CalOptima shall make a supplemental payment to a **Health Network** in accordance with Section III.E.2 of this Policy.

2. Shared Risk Group (SRG)

a. CalOptima shall process a claim for hospital inpatient services related to an obstetrical stay provided to a **Member** enrolled in an **SRG** in accordance with CalOptima Policy FF.2001: Claims Processing for Covered Services Rendered to CalOptima Direct-Administrative Members, CalOptima Community Network Members, or Members Enrolled in a **Shared Risk Group.**

b. CalOptima shall make a supplemental payment funding adjustment to the Shared Risk Pool in accordance with Section III.E.1 of this Policy.

E. Hospital Supplemental OB Delivery Care Payment

1. **SRG**: CalOptima shall make a supplemental payment funding adjustment to a Shared Risk Pool at a rate set forth in the **Contract for Health Care Services** for a covered hospital inpatient obstetrical delivery based on actual claims paid in accordance with CalOptima Policy FF.1010: Shared Risk Pool.

2. **PHC** or **HMO**: CalOptima shall make a supplemental payment at a rate set forth in the **Contract for Health Care Services** in effect on the date of service based on **Encounter** data submitted in accordance with Section III.A.1 of this Policy.

F. Physician Supplemental OB Delivery Care Payment

1. CalOptima shall make a supplemental payment to a **Health Network** for physician services for normal and C-section delivery and assistant surgeon services at a rate set forth in the **Contract for Health Care Services** in effect on the date of service based on **Encounter** data submitted in accordance with Section III.A.1 of this Policy.

G. With the exception of payment funding adjustment to a Shared Risk Pool described in Section III.E.1 of this Policy, CalOptima shall:

1. Distribute physician supplemental payments one (1) time each quarter; and

2. Provide a Remittance Advice Detail (RAD) to the **Health Network** for each quarterly payment that includes the following information:

a. **Provider** name;

b. **Provider** identification number;

c. **Member** name;

d. **Member** identification number;

e. Date of service;

f. Bill code; and

g. Amount paid.

H. A **Health Network** has the right to file a complaint disputing CalOptima's supplemental OB delivery care payment in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

IX. GLOSSARY

Term	Definition
Contract for Health Care Services	The written instrument between CalOptima and Physicians, Hospitals, Health Maintenance Organizations (HMO), or other entities. Contract shall include any Memoranda of Understanding entered into by CalOptima that is binding on a Physician Hospital Consortium (PHC) or HMO, DHCS Medi-Cal Managed Care Division Policy Letters, Contract Interpretation, and Financial Bulletins issued pursuant to the Contract.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), or other services as authorized by the Board of Directors, which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services
Health Maintenance Organization (HMO)	A health care service plan, as defined in the Knox-Keene Health Care Service Plan Act of 1975, as amended, commencing with Section 1340 of the California Health and Safety Code.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Overpayment	Any payment made by CalOptima to a Provider to which the Provider is not entitled to under Title XIX of the Social Security Act, or any payment to CalOptima by DHCS to which CalOptima is not entitled to under Title XIX of the Social Security Act.
Physician Hospital Consortium (PHC)	A Physician Group or Physician Groups contractually aligned with at least one (1) hospital, as described in CalOptima's Contract for Health Care Services.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.
Shared Risk Group (SRG)	A Health Network who accepts delegated clinical and financial responsibility for professional services for assigned Members, as defined by written contract and enters into a risk sharing agreement with CalOptima as the responsible partner for facility services.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken March 7, 2013
Regular Meeting of the CalOptima Board of Directors

Report Item

VII. C. Authorize and Direct the Chief Executive Officer to Execute Agreements with the California Department of Health Care Services (DHCS) and Kaiser Foundation Health Plan (Kaiser)

Contact

Julie Bomgren, Director, Government Affairs, (714) 246-8400

Recommended Actions

1. Authorize and Direct the Chief Executive Officer (CEO) to execute a three-way agreement with the DHCS and Kaiser related to the transition of Healthy Families Program (HFP) children and Medi-Cal beneficiaries who are former Kaiser members or family-linked within the previous 12 months.
2. Authorize and Direct the CEO to execute an agreement with Kaiser related to transitioning certain defined categories of members to Kaiser as described in the two-way agreement.
3. Authorize and direct the CEO to enter into an amendment of the current Medi-Cal agreement with Kaiser consistent with these agreements.

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In 1995, CalOptima entered into an agreement with Kaiser to provide health care services under CalOptima's Medi-Cal program. As a Health Network for Medi-Cal, Kaiser currently provides health care services, including pharmacy services to approximately 11,500 CalOptima Medi-Cal members. Along with CalOptima, Kaiser is a health plan in the HFP and serves approximately 13,500 HFP children in Orange County. With the elimination of HFP, and in accordance with the HFP transition implementation plan, children enrolled in Kaiser HFP will transition to CalOptima in Phase 2, anticipated to occur no sooner than April 1, 2013.

Discussion

In June 2012, the Legislature passed Assembly Bill (AB) 1494 which provides for the transition of all HFP subscribers to Medi-Cal.

In June 2012, Kaiser approached the State to consider the development of an agreement whereby Kaiser will retain its HFP members upon their transition into Medi-Cal through a direct contractual relationship with DHCS. As a direct contractual relationship in the existing managed care county delivery systems throughout California is not possible due to state and federal statutes, DHCS, Kaiser and the Medi-Cal managed care plans developed two agreements to address the HFP transition and future Medi-Cal enrollment.

Back to Agenda Back to Item

DHCS/Kaiser/Plan Agreement

The first agreement is, by its own terms, a nonbinding agreement, between DHCS, Kaiser and the managed care plans. This template has already been signed by DHCS and Kaiser. It indicates that it sets forth a framework for a seamless transition of care for current Kaiser members in the HFP and Medi-Cal beneficiaries who were Kaiser members or family-linked within the previous twelve months.

The three-way agreement includes the following provisions:

1. DHCS, Kaiser and managed care plans will work to develop a contract template for the subcontract between plans and Kaiser.
2. A centralized oversight and compliance process to include a uniform policies and procedures audit program will be created to oversee Kaiser's obligations under the contract template (it may be necessary for two processes, one for Northern California and one for Southern California). The agreement indicates that this process will be conducted and funded by DHCS unless otherwise agreed to by the parties.
3. A process will be developed to improve the existing and future enrollment processes for Kaiser members including a validation process (of the applicant's eligibility to choose Kaiser).
4. In COHS counties including Orange County, the enrollment process for current/previous Kaiser members will mimic the existing process for all Medi-Cal members. The COHS plans such as CalOptima will assign to Kaiser new Medi-Cal members currently or previously enrolled with Kaiser in the previous twelve months or family-linked in the previous twelve months. This auto assignment to Kaiser is contingent upon COHS plans receiving required and accurate data from Kaiser and federal and state regulators. COHS members will be assigned to Kaiser only upon verification of previous coverage by Kaiser.
5. The agreement does not restrict the ability of Medi-Cal beneficiaries to choose a different provider than Kaiser during or after the beneficiary has been assigned to CalOptima.

Kaiser/Plan Agreement

The second agreement, between Kaiser and the managed care plan, is titled "Care Continuity Agreement" and defines the beneficiaries for whom the managed care plan will ensure transition to Kaiser as: 1) all members of CalOptima currently assigned to Kaiser; 2) individuals who are eligible for Medi-Cal on and after January 1, 2014 under Medi-Cal expansion and who enroll in CalOptima and are assigned to Kaiser; 3) HFP beneficiaries who are Kaiser members on the effective date of the transition; and 4) beneficiaries who are eligible for Medi-Cal or HFP after the effective date of the transition and who were Kaiser members or family-linked within the previous twelve months. This agreement has been signed by Kaiser but does not include aid codes on the attachments.

The two-way agreement includes the following provisions:

1. Kaiser will provide rate development template (RDT) data to managed care plans for inclusion in the plan RDT for the rate setting process.

2. Effective July 1, 2013, for aid codes not directly funded through the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), an administrative withhold by the managed care plan will not exceed 2% of the net capitation Medi-Cal amount (the withhold may be based on the plan risk-adjusted equivalent of the net capitation amount). For aid codes directly funded through CHIPRA, there will be no administrative fee withhold.
3. Managed care plan contracts with Kaiser will be amended to include these provisions. However this Agreement indicates that it may be terminated only upon execution of an amendment to the parties, and that the terms of this Agreement will be re-evaluated in five years.
4. Kaiser may enter into a direct contract with DHCS if Kaiser is unable to reach a subcontracting agreement with Plan.

Upon approval by the Board of Directors, CalOptima modified its Medi-Cal auto assignment policy to accommodate the transition of HFP members and to the extent possible, preserve the provider/member and member/health network relationships. For children transitioning from other HFP health plans to Medi-Cal, CalOptima anticipates that DHCS will provide the Medi-Cal health plan a file that will include the incoming health plan code and name for transitioning HFP children. In order to ensure a seamless transition of care for Kaiser members, it will be necessary that CalOptima receive a timely, clean file for processing. Otherwise, CalOptima staff will follow our standard new member auto assignment process.

Fiscal Impact
With Kaiser's current membership, the 2% administrative withhold provision equates to approximately $250,000 annually which is one-half of the amount regularly included in DHCS capitation rates for administration. However, as an HMO, Kaiser will perform some of the functions that CalOptima would normally be responsible for, which will reduce CalOptima's cost accordingly.

Rationale for Recommendation
These template agreements were negotiated with DHCS, Kaiser and managed care plans and the provisions for transitioning HFP members are consistent with the requirements included in the recent amendment to CalOptima's Primary Agreement with DHCS related to the transition of HFP subscribers into Medi-Cal.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 1, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
26. Consider Ratification of the Kaiser Foundation Health Plan, Inc. Health Network Contract Amendment Extending the Term

Contact
Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Action
Ratify the amendment to the current Kaiser Foundation Health Plan, Inc. (Kaiser) Health Network Contract to extend the current term through the date of the next CalOptima Board meeting, November 5, 2020.

Background
Kaiser participates in the CalOptima Medi-Cal program as a delegated subcontractor under its Health Maintenance Organization ("HMO") Health Network model. Kaiser's current Health Network Contract expired June 30, 2020. Last year, CalOptima staff presented Kaiser with an Amended and Restated Contract which incorporated past amendments and added DHCS-required contract terms, including those related to the Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001 addressing certain terms that are required to be included in order for CalOptima to release Proposition 56 funds and other directed payments.

CalOptima and Kaiser staff worked with DHCS over the last several months to obtain additional clarification on certain subcontractor requirements. To allow time for Kaiser and CalOptima to obtain all necessary information and final clarification from DHCS and complete discussions regarding the Amended and Restated Contract, the parties entered into an initial ninety (90) day extension of Kaiser's current contract through September 30, 2020. Due to the June 30, 2020 expiration date of the current Kaiser Health Network Contract, this extension was ratified by the Board on August 6, 2020.

Discussion
The parties continue to review certain provisions of the Amended and Restated Contract that memorialize operational requirements in light of Kaiser's unique model as well as the five (5) subsequent amendments that implement Prop 56, Health Homes Program requirements and other terms (Contract Amendments). Additionally, because Kaiser is the only CalOptima Health Network delegated to provide the pharmacy benefit, CalOptima and Kaiser staff are addressing terms related to the State of California's carve out of the pharmacy benefit from CalOptima's DHCS Medi-Cal contract when the State implements its Medi-Cal Rx program effective January 1, 2021 including, revised rates and DHCS-mandated transition terms.

While CalOptima and Kaiser staff have attempted to complete all contract and amendment revisions by September 30, 2020, it will take another thirty (30) days to finalize these issues. Kaiser has requested an additional thirty (30) day extension of the current Kaiser Contract on the same terms and conditions to complete the discussions and finalize the Amended and Restated Contract and Contract Amendments. Because Staff intends to present the final Kaiser Amended and Restated Contract and Contract

Amendments to the Board for approval at the November 5, 2020 meeting, Staff requests that the Board ratify the extension of the current Kaiser Health Network Contract through that date.

Fiscal Impact

The recommended action to amend the current Kaiser Health Network Contract to extend the term through November 5, 2020, under the same terms and conditions, has no additional fiscal impact to the CalOptima Fiscal Year (FY) 2020-21 Operating Budget approved by the Board on June 4, 2020.

Rationale for Recommendation

Amending the current Kaiser Health Network Contract to extend through November 5, 2020, the date of the Board's next meeting, under the same terms and conditions will allow the additional time needed to review and finalize Kaiser's FY 2020-21 Amended and Restated Health Network Contract.

Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
Ratify the amendment to the Kaiser Foundation Health Plan, Inc. (Kaiser) Health Network contract, extending the term through September 30, 2020.

Background/Discussion
Kaiser participates in the CalOptima Medi-Cal program as a delegated subcontractor under its Health Maintenance Organization ("HMO") Health Network model. Each of CalOptima's contracts with its 12 twelve Medi-Cal Health Networks, including Kaiser, include a provision permitting an annual one-year extension of the contract subject to CalOptima Board of Directors' approval and signed contract amendments. Kaiser's current Health Network Contract ("Kaiser Contract") expired June 30, 2020. Last year, CalOptima staff presented Kaiser with an Amended and Restated Contract which incorporated past amendments and added DHCS required contract terms, including those related to the Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001 addressing certain terms that are required to be included in order for CalOptima to release Proposition 56 funds and other directed payments. Kaiser has not, however, executed the Amended and Restated Contract. CalOptima and Kaiser have been working with DHCS over the last several months to obtain additional clarification on certain subcontractor requirements. The parties have also been reviewing certain contract provisions that memorialize operational requirements in light of Kaiser's unique staff model.

In order to allow time for Kaiser and CalOptima to obtain final clarification from DHCS and finalize discussions with Kaiser, the parties entered into a ninety (90) day extension of the Kaiser Contract through September 30, 2020, subject to Board approval. Additionally, because Kaiser is the only Health Network delegated to provide the pharmacy benefit, CalOptima and Kaiser also need to address contract terms related to the State of California's carve out of the pharmacy benefit from CalOptima's DHCS Medi-Cal contract. The pharmacy benefit carve-out will be effective January 1, 2021 for all Managed Care Plans, including CalOptima.

Staff recommends ratification of the Kaiser Contract amendment to provide additional time to obtain DHCS's final guidance, and for the parties to reach agreement on the Amended and Restated Contract terms.

Fiscal Impact
The recommended action to ratify the amendment to the Kaiser Contract to extend the term through September 30, 2020, under the same terms and conditions, has no additional fiscal impact to the CalOptima FY 2020-21 Operating Budget approved by the Board on June 4, 2020.

Back to Agenda Back to Item

Rationale for Recommendation

This extension will allow additional time to review and finalize Kaiser's FY 2020-21 Health Network contract.

.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 4, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

15. Consider Authorizing Extension and Amendments of the CalOptima Medi-Cal Full-Risk HMO, Shared-Risk, and Physician-Hospital Consortium Health Network Contracts

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400
Nancy Huang, Chief Financial Officer (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the Medi-Cal Full-Risk Health Network HMO, Shared-Risk, and Physician-Hospital Consortium Health Network contracts to:

1. Extend the term through June 30, 2021;
2. Reflect adjustments in Health Network's capitation rates and add language reflecting that Directed Payments will be made pursuant to CalOptima Policy and Procedures effective July 1, 2020; and
3. Revise the Shared Risk program attachment in the Shared Risk group contracts to align with changes made to Policy FF.1010 related to the description of the Shared Risk budget.

Background/Discussion

CalOptima currently contracts with 12 health networks to provide care to CalOptima Medi-Cal members. The continued renewal of the contracts will support the stability of CalOptima's contracted provider network. CalOptima's current Medi-Cal Full-Risk HMO, Shared-Risk, and Physician-Hospital Consortium Health Network Contracts listed below will expire on June 30, 2020:

Full Risk HMO:
Heritage Provider Network, Inc.
Kaiser Foundation Health Plan, Inc.
Monarch Health Plan, Inc.
Prospect Health Plan, Inc.

Shared Risk:
AltaMed Health Services Corporation
ARTA Western California, Inc.
Orange County Physicians IPA Medical Group, Inc. dba Noble Community Medical Associates Inc. of Mid Orange County
Talbert Medical Group, P.C.
United Care Medical Group, Inc.

Physician-Hospital Consortium:
CHOC Physician's Network and Children's Hospital of Orange County
AMVI Care Health Network and Fountain Valley Regional Hospital and Medical Center
Family Choice Medical Group, Inc. and Fountain Valley Regional Hospital and Medical Center

Back to Agenda Back to Item

Staff recommends extending the above Health Network contracts for one year, through June 30, 2021. Extension of the Heath Network contracts is essential to ensuring that members assigned to health networks have access to covered healthcare services.

Health Network Capitation Rate Adjustment

Medi-Cal Classic Rebasing: For all Health Network contracts, with the exception of Kaiser Foundation Health Plan, Inc., which is reimbursed according to specific terms set forth in a March 7, 2019 Board action, contract terms will reflect adjusted Medi-Cal Classic capitation rates effective July 1, 2020, following CalOptima's periodic rebasing process. Rebasing ensures capitation rates paid to our Health Network providers include appropriate reimbursement for medical and non-medical expenses.

Medi-Cal Expansion (MCE) Rates: In 2014, Medi-Cal eligibility was expanded to cover single, low-income individuals ages 19-64, known as Medi-Cal Expansion (MCE). The Department of Health Care Services (DHCS) provided additional funding to support newly eligible MCE members, a group separate from the Medi-Cal Classic member population. Due to the absence of any utilization information at the program's inception, capitation rates for MCE members were set based on assumed population risk from the beginning of the expansion to date.

For all Health Network contracts, with the exception of Kaiser Foundation Health Plan, Inc., which is reimbursed according to specific terms set forth in a March 7, 2019 Board action, contract terms will reflect adjusted Medi-Cal Expansion (MCE) capitation rates effective July 1, 2020. DHCS has applied multiple downward adjustments to CalOptima's MCE capitation rates due to a lower average acuity than first anticipated. As such, staff continues to analyze the appropriateness of MCE capitation rates paid to Health Networks. Based on an actuarial analysis of utilization data, additional reductions to MCE capitation rates are appropriate.

Over the course of the program, sufficient time has passed to compile reliable Chronic Disability Payment System (CDPS) diagnostic information necessary for risk adjustment. With the CDPS information now available to make determinations regarding acuity, staff proposes to amend the current Health Network contracts to adjust the MCE rate, either up or down, based on CDPS data. With margins being reduced, it is more important to implement risk adjustment to ensure capitation payments are commensurate with population acuity. Staff has provided notices to the Health Networks that their MCE capitation rate will be risk adjusted starting July 1, 2020.

OB Kick Payment Rate Increase: Per Policy FF.1005f, CalOptima has historically provided all Health Networks a supplemental payment for qualifying covered obstetric delivery services. The current rates, set in 2010 when the Maternity Kick Payment program began, are $793 for professional services and $4,451 for facility fees. For the new contract term, staff recommends authorization to increase these rates to $900 for professional services and $5,000 for facility fees for all Health Networks, with the exception of Kaiser Health Plan, Inc. which is being reimbursed according to the terms set forth in a March 7, 2019 Board Action.

Directed Payments

Periodically CalOptima is required through DHCS or CMS guidance to make statutorily mandated retrospective payments to its Health Networks. These payments are typically based on DHCS programs, including Proposition 56 and the Quality Assurance Fee (QAF) supplemental payments. In many cases these provider supplemental payments have been established and administered over multiple time periods and phases, sometimes across multiple years retrospectively, and often based on actual claims paid. Until now, CalOptima has made these DHCS- and CMS- defined supplemental payments to its health networks via contract amendment, as notification came down from the state or federal government. Given the ongoing nature of these payments – including those given under Proposition 56 - multiple amendments, retroactive contract terms, and subsequent timeliness concerns for payment to the impacted providers have been ongoing concerns. To mitigate this, staff recommends that moving forward, Directed Payments be administered according Policy & Procedure FF. 2011 ("Directed Payments"), which addresses Directed Payment programs listed below. Directed Payment is an add-on payment or minimum fee payment required by DHCS to be made to eligible providers for qualifying services (identified below) with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments. As an alternative to requesting authority to amend these contracts on each individual occasion, Policy FF.2011 directs CalOptima to reimburse Health Networks for Direct Payments as they are mandated, pursuant to qualifying services being rendered, providing both policy and procedure guidelines.

Program Name	Effective DOS	Eligible Providers	Final DHCS Guidance
Physician Services	7/1/2017 to 12/31/2020	Contracted	APL 18-010 released 05/01/2018 APL 19-006 released 06/13/2019 APL 19-015 released 12/24/2019
Abortion Services (Hyde)	7/1/2017 to 6/30/2020	All Providers	APL 19-013 released 10/17/2019
Developmental Screening Services	On or after 1/1/2020	Contracted	APL 19-016 released 12/26/2019
ACE (Trauma) Screening Services	On or after 1/1/2020	Contracted	APL 19-018 released 12/26/2019
Ground Emergency Medical Transport (GEMT)*	7/1/2018 to 6/30/2019	Non-Contracted	APL 19-007 released 6/14/2019 APL 20-002 released January 31, 2020

**Directed Payments for GEMT Services are not applicable to Shared-Risk Group*

Staff anticipates that Policy FF.2011 will need to be updated periodically, subject to Board approval, as new Directed Payment programs are issued by DHCS.

Shared Risk Pool Revisions
Pursuant to a separate Board action, Staff has revised CalOptima Policy FF.1010: Shared Risk Pool to clarify language regarding the Shared Risk pool budget in relation to Coordination of Benefits (COB) recoveries. This revision clarifies that:

1) COB recoveries reduce expense but do not increase revenue; and

2) Since CalOptima is self-insured, reinsurance premium will no longer be allocated to the risk pool.

Fiscal Impact
The recommended actions to enter into amended Medi-Cal Health Network contracts to extend through June 30, 2021, add language reflecting changes to how the Directed Payments are handled, and align Shared Risk group contracts with revisions to CalOptima Policy FF.1010 are not expected to have a fiscal impact.

Costs associated with the recommended action to adjust capitation rates for these contracts, with the exception of Kaiser Foundation Health Plan, Inc., have been included in the proposed CalOptima Fiscal Year (FY) 2020-21 Operating Budget pending Board approval. These proposed changes represent an approximately 2.0% overall reduction in Medi-Cal Classic health network capitation payments, projected at an estimated $8 million in FY 2020-21. In addition, the budget proposes an overall reduction of 7% to the MCE Professional capitation rate and a reduction of 14% to the MCE Hospital capitation rate. Aggregate decreases to MCE Professional capitation expenses and associated shared risk pools are projected to be $50 million in FY 2020-21.

Rationale for Recommendation
CalOptima staff recommends this action to maintain and continue the contractual relationship with the provider network and to fulfill regulatory and CalOptima policy requirements.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 6, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

26. Consider Authorizing Amended and Restated Medi-Cal Full Risk Health Network Contract for Heritage Provider Network, Inc., Monarch Health Plan, Inc., and Prospect Health Plan, Inc. to Incorporate Changes Related to Department of Health Care Services Regulatory Guidance and Amend Capitation Rates

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Nancy Huang, Interim Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to enter into Amended and Restated Full Risk Health Network Contracts with Heritage Provider Network, Inc., Monarch Health Plan, Inc., and Prospect Health Plan, Inc. effective July 1, 2019 date that address the following:

a) Changes to reflect requirements as set forth in the California Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001, Medi-Cal Managed Care Health Plan Guidance on Network Provider Status, as well as other relevant statutory, regulatory, and/or contractual requirements;
b) Amended capitation rates for assigned members effective July 1, 2019 to the extent authorized by the Board in a separate Board action;

Background/Discussion

On December 6, 2018, the Board authorized extension of CalOptima's Medi-Cal Health Network contracts to June 30, 2020. In the interim, there have been numerous initiatives, APLs, and other regulatory updates which necessitate the revision of contract terms. Additionally, the Health Network contracts have been amended numerous times over the years reflecting program, compensation and/or regulatory changes and these changes need to be incorporated in a master template contract. At this time, Staff requests authority to issue an amended and restated Health Network contract incorporating previously approved amendments, changes to address regulatory guidance and amended capitation rates.

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance program (CHIP) regulations. The intent of the regulations is to align the managed care requirements of Medicaid with those for Medicare. As specified in the contract with DHCS, CalOptima is required to incorporate some of the revised regulations into CalOptima's contracts with Health Networks. On January 17, 2019, DHCS issued APL 19-001 that identified the provisions that must be included in network provider contracts to meet state and federal contracting requirements.

In addition to the changes to the contract terms reflected in APL 19-001, Staff has incorporated additional statutory, regulatory and contractual revisions which include, but are not limited to:

Back to Agenda Back to Item

emergency services notification requirements; Government Claims Act specifications; and, document and data submissions certification obligations.

The budget for Fiscal Year (FY) 2019-20 reflects a decrease in Medi-Cal Expansion (MCE) revenue and an increase in Medi-Cal classic. Capitation reimbursement levels paid by CalOptima to providers for the MCE population is higher than levels that are supported by cost and utilization data. This fact coupled with the reduction in revenue from DHCS has resulted in decreases to the MCE capitation rates for the Health Networks. For the Medi-Cal Classic population Staff recommends an increase to both Professional and Hospital capitation for Adult TANF and SPD members. The amended and restated contract reflects revised capitation rates effective July 1, 2019 to the extent authorized by the Board in a separate Board action.

Fiscal Impact

The recommended action to enter into amended and restated Medi-Cal Health Network contracts to comply with requirements in DHCS APL 19-001, and other relevant statutory, regulatory, and/or contractual requirements is not expected to have a fiscal impact.

Costs associated with the recommended action to revise capitation rates for these contracts have been included in the proposed CalOptima FY 2019-20 Operating Budget pending Board approval. The budget includes proposed increases of 4% to the Adult Temporary Assistance for Needy Families (TANF) and seniors and persons with disabilities (SPD) Professional capitation rates and 6% to the Adult TANF and SPD Hospital capitation rates. The increases total approximately $7.5 million in FY 2019-20.

In addition, the budget proposes a reduction of 8% to the MCE Professional capitation rate and a reduction of 21% to the MCE Hospital capitation rate. Aggregate decreases to MCE capitation expenses and associated shared risk pools are projected to be $95 million in FY 2019-20.

Rationale for Recommendation

CalOptima staff recommends these actions to fulfill regulatory requirements.

ALL PLAN LETTER 19-001

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: MEDI-CAL MANAGED CARE HEALTH PLAN GUIDANCE ON NETWORK PROVIDER STATUS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance to Medi-Cal managed care health plans (MCPs) regarding how the Department of Health Care Services (DHCS) evaluates Network Provider status in order to promote consistency between federal regulations, Medi-Cal managed care contracts, state law, APLs, and similar instructions. It is the general intention of DHCS to apply this policy related to Network Provider contracting requirements in a standardized manner, to the extent appropriate, across relevant contexts, including MCP Network Provider and Subcontractor agreements, provider directory reporting, network adequacy certification, and directed payments pursuant to Title 42 of the Code of Federal Regulations (CFR) Section 438.6(c).[1]

BACKGROUND:
In May 2016, the Centers for Medicare and Medicaid Services (CMS) released the Final Rule in the Federal Register applicable to Medicaid managed care programs (Final Rule).[2] The Final Rule did not eliminate or weaken any of the existing requirements found in the current Medi-Cal managed care contract, but rather updated the managed care regulations to include new and expanded requirements for MCP Subcontractors and separately defined Network Providers.[3] In implementing the Final Rule, DHCS submitted contract amendments to CMS to bring its existing provisions related to "Subcontracts" into compliance with the new and more stringent federal requirements.[4] As of now, and consistent with historical practice and Title 22 of the California Code of

[3] See 42 CFR 438.2, "Definitions."
[4] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date the amendment is pending approval by CMS, and is anticipated to be finalized with minimal changes.

Back to Agenda Back to Item

Regulations (CCR) Section 53250,[5] DHCS is maintaining uniformity to the extent appropriate with respect to the requirements for all "Subcontracts," regardless of whether the agreement is between an MCP and an entity defined as a "Subcontractor" or "Network Provider" under 42 CFR Section 438.2.[6]

While the guidance in this APL on how DHCS will evaluate compliance is prospective, many of these obligations were imposed as of July 1, 2017, in accordance with the Final Rule.

Additional guidance on what constitutes an eligible Network Provider for directed payment programs is set forth on the DHCS Directed Payments web page.[7]

POLICY:

I. **Required Characteristics of Network Providers**
Effective on or after July 1, 2019, a Network Provider, as defined in 42 CFR Section 438.2 and the Medi-Cal managed care contract in Exhibit E, Attachment 1, Definitions, must:

1. Have an executed written Network Provider Agreement with the MCP or a Subcontractor of the MCP that meets all the requirements set forth in Attachment A of to this APL;
2. Be enrolled in accordance with APL 17-019,[8] the Medi-Cal Managed Care Provider Enrollment Frequently Asked Questions (FAQ) document, or any subsequent APL or FAQ update on the topic, unless enrollment is not required as specified by DHCS;
3. Be reported on the MCP's 274 file submitted to DHCS, for all applicable filings, in accordance with APL 16-019 or any subsequent APL on the topic and the most recent DHCS 274 Companion Guide; and

---

[5] The CCR is searchable at: https://govt.westlaw.com/calregs/Search/Index
[6] The Medi-Cal managed care contract defines the term Subcontract to include both Subcontractors and Network Providers (as those terms are defined under 42 CFR Section 438.2), and all requirements listed in Paragraph B of Provision 14 of Exhibit A, Attachment 6 apply to Network Providers. A provider may maintain Network Provider status without an agreement directly with an MCP, if they are connected through a series of Subcontracts, so long as those Subcontracts also meet all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and Policy Letters (PLs), in particular, but not limited to, those requirements in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic). That chain of Subcontracts may include an entity that is also a Network Provider, who, as a result of taking on an administrative function of contracting for care (and not providing that care itself), also meets the definition of a "Subcontractor."
[7] The DHCS directed payment web page is available at: https://www.dhcs.ca.gov/services/Pages/DirectedPymts.aspx
[8] APLs are available at: https://www.dhcs.ca.gov/formsandpubs/Pages/AllPlanLetters.aspx

4. Be included on all network adequacy filings that occur within the effective dates of the written Network Provider Agreement, in accordance with APL 18-005, or any subsequent APL on the topic, following the execution of the agreement. This does not automatically require the provider to be listed on a provider directory, nor does it require the inclusion of a Network Provider on network adequacy filings if such inclusion would be inappropriate due to timing or other circumstances, as discussed in APL 18-005.

For contract/rating periods commencing on or after July 1, 2019, when DHCS references Network Providers in guidance, information, instruction, or communications, it will refer to providers who meet the criteria outlined in this APL, unless expressly noted otherwise. MCPs must use the guidance provided in this APL and the checklist provided in Attachment A to update current Network Provider Agreement boilerplates for compliance before submitting to DHCS for review and approval. Note that this APL, including its attachment, is not an exhaustive list of all MCP duties related to Network Providers, and it is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs.

A provider that does not meet the criteria for a Network Provider shall not be reported on the 274 file or as part of the MCP's network adequacy filings.

II. Written Network Provider Agreement Requirements

In order to ensure alignment with the DHCS criteria for Network Providers across applicable settings, all MCPs must ensure that their Network Provider Agreements comply with current and applicable Medi-Cal managed care contract requirements.

In accordance with the current Medi-Cal managed care contracts and 22 CCR Section 53250, all Network Provider Agreement boilerplates must be submitted to DHCS for review and approval before use. A checklist of the required elements for these agreements is included as Attachment A of this APL. Where an MCP's relationship with a Network Provider includes one or more sub-delegated entities or a hospital to hospital agreement, each Subcontractor agreement that links the MCP to the Network Provider must also comply with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs, in particular, but not limited to, those in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic).

III. DHCS Review and Approval of Network Provider Agreement Boilerplate Compliance

As stated above, MCPs are required to submit Network Provider Agreement boilerplates that have been updated in accordance with the requirements in this APL to DHCS for review and approval prior to use. MCPs are also responsible for complying with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs, as they relate to Network Provider requirements and Network Provider Agreements.

MCPs will have 60 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for hospital providers and 120 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for non-hospital providers to their DHCS contract manager.

The timing for DHCS to review these Network Provider Agreement boilerplates will follow the current 60-day review timing requirements as outlined in the Medi-Cal managed care contract under Exhibit E, Attachment 3, Duties of the State, DHCS Approval Process.

If an MCP has a timing issue that would require a Network Provider Agreement boilerplate to be approved for use by DHCS sooner than the 60-day review period would allow, the MCP must notify its DHCS Contract Manager to arrange an alternate timing agreement.

IV. Directed Payment Impacts

All MCPs must comply with the terms of all directed payments approved by CMS in accordance with 42 CFR Section 438.6(c), as documented in CMS-approved preprints, state law, and/or as implemented by DHCS through APL or other similar guidance. All such guidance is available at the DHCS Directed Payments web page. If a Network Provider Agreement does not meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments, the services provided under that agreement will not be eligible for directed payments for rating periods commencing on or after July 1, 2019. For pooled directed payments where DHCS retrospectively calculates final payments based on the actual reported utilization of eligible services, MCPs must continue to provide supplemental encounter/service-level data, in a manner and at times specified by DHCS. This information will aid in identifying the subset of services provided under a Network Provider Agreement that meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments.

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs. These requirements must be communicated by each MCP to all delegated entities and subcontractors.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

Nathan Nau, Chief
Managed Care Quality and Monitoring Division

Attachment A

Attachment A: Network Provider Agreement Boilerplate Checklist

This Attachment establishes a checklist for MCPs to use in connection with their development of Network Provider Agreement templates. It is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable All Plan Letters and Policy Letters.

Network Provider Agreements must contain:	
1	Specification of the services to be provided by the Network Provider. Citation: Managed Care Plan Contract (MCP Contract), Exhibit A, Attachment 6, Provision 14.B.1 and Title 22, CCR, Sections 53250(c)(1) and 53867.[1]
2	Specification that the Network Provider Agreement must be governed by and construed in accordance with all laws and applicable regulations governing the Contract between Contractor and DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.2 and Title 22, CCR, Sections 53250(c)(2) and 53867.
3	Specification that the Network Provider Agreement or its amendments will become effective only as set forth in Exhibit A, Attachment 6, Provision 13.C. Departmental Approval – Non-Federally Qualified HMOs, or 13.D, Departmental Approval – Federally Qualified HMOs. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.3 and Title 22, CCR, Sections 53250(c)(3) and 53867.
4	Specification of the term of the Network Provider Agreement, including beginning and ending dates, methods of extension, renegotiation, and termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.4 and Title 22, CCR, Sections 53250(c)(4) and 53867.
5	Language comparable to Exhibit A, Attachment 8, Provision 13. Contracting & Non-Contracting Emergency Service Providers & Post-Stabilization, for those Network Providers at risk for non-contracting emergency services. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.5.
6	Network Provider's agreement to submit reports as required by Contractor. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.6, Exhibit A, Attachment 3, Provision 2.C and 2.G, and Title 22, CCR, Sections 53250(c)(5) and 53867.

[1] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date, the amendment is pending approval by CMS and is anticipated to be finalized with minimal changes.

7	Specification that the Network Provider must comply with all monitoring provisions of the MCPs' contracts and any monitoring requests by DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.7, 42 CFR 438.3(h), and Title 22, CCR, Sections 53250(e)(1) and 53867.
8	Network Provider's agreement to make all of its premises, facilities, equipment, books, records, contracts, computer and other electronic systems pertaining to the goods and services furnished under the terms of the Network Provider Agreement, available for the purpose of an audit, inspection, evaluation, examination or copying, including but not limited to Access Requirements and State's Right to Monitor, as set forth in Exhibit E, Attachment 2, Provision 20. Inspection Rights: a) By DHCS, CMS, Department of Health and Human Services (DHHS) Inspector General, the Comptroller General, Department of Justice (DOJ), and Department of Managed Health Care (DMHC), or their designees. b) At all reasonable times at the Network Provider's place of business or at such other mutually agreeable location in California. c) In a form maintained in accordance with the general standards applicable to such book or record keeping. d) For a term of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. e) Including all Encounter Data for a period of at least ten (10) years. f) If DHCS, CMS, or the DHHS Inspector General determines there is a reasonable possibility of fraud or similar risk, DHCS, CMS, or the DHHS Inspector General may inspect, evaluate, and audit the Network Provider at any time. g) Upon resolution of a full investigation of fraud, DHCS reserves the right to suspend or terminate the Network Provider from participation in the Medi-Cal program; seek recovery of payments made to the Network Provider; impose other sanctions provided under the State Plan, and direct Contractor to terminate their Network Provider Agreement due to fraud. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.8, Exhibit E, Attachment 2, Provision 20, and 42 CFR 438.3(h).

9	Full disclosure of the method and amount of compensation or other consideration to be received by the Network Provider. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.9 and Title 22, CCR, Sections 53250(e)(2) and 53867.
10	Network Provider's agreement to maintain and make available to DHCS, upon request, copies of all sub-subcontracts and to ensure that all sub-subcontracts are in writing and require that the Network Provider: a) Make all premises, facilities, equipment, applicable books, records, contracts, computer, or other electronic systems related to this Contract, available at all reasonable times for audit, inspection, examination, or copying by DHCS, CMS, or the DHHS Inspector General, the Comptroller General, DOJ, and DMHC, or their designees. b) Retain such books and all records and documents for a term minimum of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.10.
11	Network Provider's agreement to assist Contractor in the transfer of care pursuant to Exhibit E, Attachment 2, Provision 14. Phase out Requirements, Subparagraph B in the event of contract termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.11.
12	Network Provider's agreement to assist Contractor in the transfer of care in the event of sub-subcontract termination for any reason. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.12.
13	Network Provider's agreement to notify DHCS in the event the agreement with the Contractor is amended or terminated. Notice is considered given when properly addressed and deposited in the United States Postal Service as first-class registered mail, postage attached. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.13 and Title 22, CCR, Sections 53250(e)(4) and 53867.
14	Network Provider's agreement that assignment or delegation of the Network Provider Agreement or Subcontract will be void unless prior written approval is obtained from DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.14 and Title 22, CCR, Sections 53250(e)(5) and 53867.
15	Network Provider's agreement to hold harmless both the State and Members in the event Contractor cannot or will not pay for services performed by the Network Provider pursuant to the Network Provider Agreement. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.15 and Title 22, CCR, Sections 53250(e)(6) and 53867.

16	Network Provider's agreement to timely gather, preserve and provide to DHCS, any records in the Network Provider's possession, in accordance with Exhibit E, Attachment 2, Provision 24. Records Related to Recovery for Litigation. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.16.
17	Network Provider's agreement to provide interpreter services for Members at all Provider sites. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.17.
18	Network Provider's right to submit a grievance and Contractor's formal process to resolve Provider Grievances. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.18.
19	Network Provider's agreement to participate and cooperate in Contractor's Quality Improvement System. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.19.
20	If Contractor delegates Quality Improvement activities, the Network Provider Agreement must include those provisions stipulated in Exhibit A, Attachment 4, Provision 6. Delegation of Quality Improvement Activities. Contractor and delegated entity (Network Provider) must include in their Network Provider Agreement, at minimum: 1) Quality improvement responsibilities, and specific delegated functions and activities of the Contractor and Network Provider. 2) Contractor's oversight, monitoring, and evaluation processes and Network Provider's agreement to such processes. 3) Contractor's reporting requirements and approval processes. The agreement must include Network Provider's responsibility to report findings and actions taken as a result of the quality improvement activities at least quarterly. 4) Contractor's actions/remedies if Network Provider's obligations are not met. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.20 and Exhibit A, Attachment 4, Provision 6.A.
21	Network Provider's agreement to comply with all applicable requirements of the DHCS, Medi-Cal Managed Care Program. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.21.
22	Network Provider's agreement to revoke the delegation of activities or obligations, or specify other remedies in instances where DHCS or Contractor determine that the Network Provider has not performed satisfactorily. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.22, 42 CFR 438.230(c)(iii), and Title 22, CCR, Sections 53250 and 53867.

23	To the extent that the Network Provider is responsible for the coordination of care for Members, Contractor's agreement to share with the Network Provider any utilization data that DHCS has provided to Contractor, and the Network Provider's agreement to receive the utilization data provided and use it as the Network Provider is able for the purpose of Member care coordination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.23 and 42 CFR 438.208.
24	Contractor's agreement to inform the Network Provider of prospective requirements added by DHCS to Contractor's Contract with DHCS before the requirement would be effective, and Network Provider's agreement to comply with the new requirements within 30 days of the effective date, unless otherwise instructed by DHCS and to the extent possible. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.24.
25	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely provider data needed by Contractor in order for Contractor to meet its provider data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provision 1; APL 16-019, and any subsequent updates.
26	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely Encounter Data needed by Contractor in order for Contractor to meet its encounter data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provisions 2.C and 2.G.; APL 14-019, and any subsequent updates.
27	A provision prohibiting Network Providers from balance billing a Medi-Cal member. Citation: MCP Contract, Exhibit A, Attachment 8, Provision 6.
28	A provision stating that Contractor will provide cultural competency, sensitivity, and diversity training. Citation: MCP Contract, Exhibit A, Attachment 9, Provision 13.E.
29	A provision confirming a Network Provider's right to access Contractor's dispute resolution mechanism. Citation: Health & Safety Code §1367 (h)(1).
30	A provision requiring that Network Providers comply with language assistance standards developed pursuant to Health & Safety Code §1367.04.
31	A provision confirming that Network Providers are entitled to all protections afforded them under the Health Care Providers' Bill of Rights. Citation: Health & Safety Code §1375.7

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

Back to Agenda Back to Item

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
45. Consider Actions Related to CalOptima's Whole-Child Model Program

Contact
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions
1. Authorize CalOptima staff to develop an implementation plan to integrate California Children's Services into its Medi-Cal program in accordance with the Whole Child Model (WCM), and return to the Board for approval after developing draft policies, and completing additional analysis and modeling prior to implementation;
2. Authorize and direct the Chief Executive Officer (CEO), with assistance of Legal Counsel, to execute a Memorandum of Understanding (MOU) with Orange County Health Care Agency (OC HCA for coordination of care, information sharing and other actions to support WCM activities; and
3. In connection with development of the Whole Child Model Family Advisory Committee:
    a. Direct the CEO to adopt new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee; and,
    b. Appoint the following ~~eleven~~ individuals to the Whole-Child Model Family Advisory Committee (WCM FAC) for one or two-year terms as indicated or until a successor is appointed, beginning July 1, 2018:

Rev. 6/7/2018

        i. Family Member Representatives:
            a) Maura Byron for a two-year term ending June 30, 2020;
            b) Melissa Hardaway for a one-year term ending June 30, 2019;
            c) Grace Leroy-Loge for a two-year term ending June 30, 2020;
            d) Pam Patterson for a one-year term ending June 30, 2019;
            e) Kristin Rogers for a two-year term ending June 30, 2020; and
            f) Malissa Watson for a one-year term ending June 30, 2019.
        ~~ii. Community Representatives:~~
            ~~a) Michael Arnot for a two-year term ending June 30, 2020;~~
            ~~b) Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background
The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

   c. Current CalOptima members age of 21 and over who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

Program Implementation

Back to Agenda Back to Item

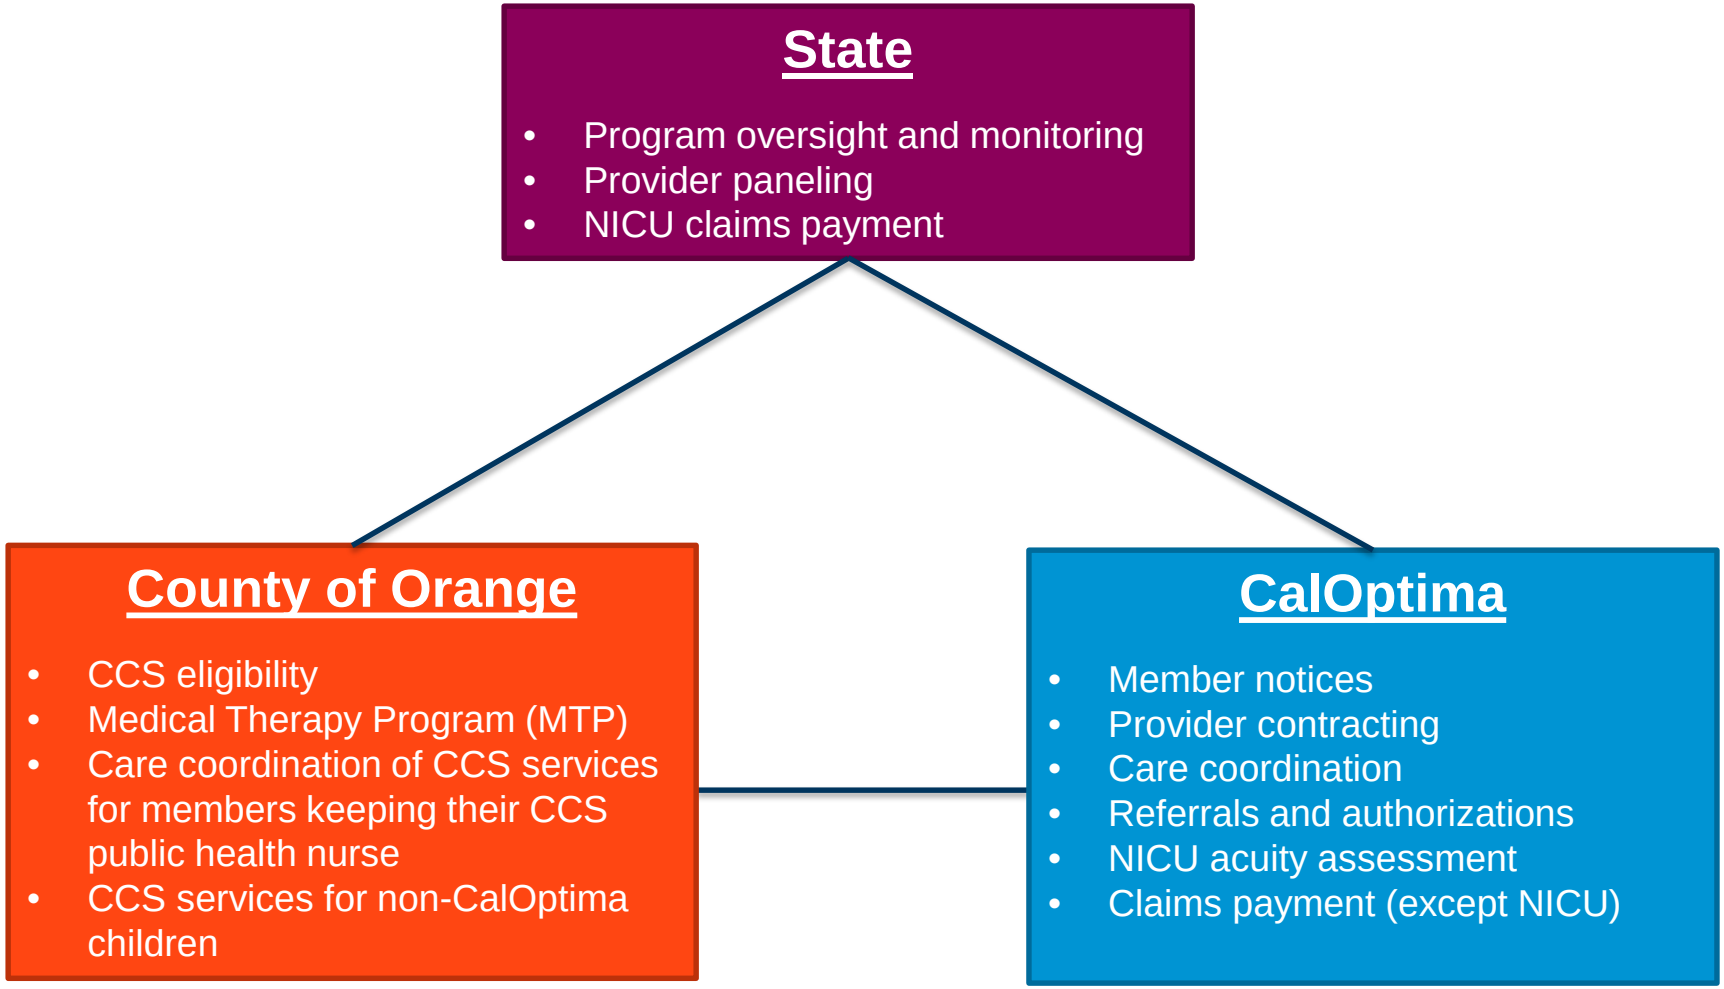
Background

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency

- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities



WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
   - Current CalOptima members over the age of 21 who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children with CCS, including:
   - Community-based organizations (CBOs); or
   - Consumer advocates.

Rev. 11/2/2017

If nine or more qualified candidates initially apply for family representative seats, nine of the eleven committee seats will be filled with family representatives. Initially, and on an on-going basis, only in circumstances when there are insufficient applicants to fill all of the designated family representative seats with qualifying family representatives, up to two of the nine seats designated for family members may be filled with representatives of CBOs or consumer advocates.

It is anticipated that a representative from the CalOptima WCM-FAC may be invited to serve on a statewide stakeholder advisory group.

Section 3. Chair and Vice Chair. The Chair and Vice Chair for the WCM-FAC will be appointed by the Board annually from the appointed members. The Chair, or in the Chair's absence, the Vice Chair, shall preside over WCM-FAC meetings. The Chair and Vice Chair may each serve up to two consecutive terms in a particular WCM-FAC officer position, or until their successor is appointed by the Board.

Section 4. Committee Mission, Goals and Objectives. The WCM-FAC will develop, review annually, and make recommendations to the Board on any revisions to the committee's Mission or Goals and Objectives.

Section 5. Meetings. The WCM-FAC will meet at least quarterly. A yearly meeting schedule will be adopted at the second regularly scheduled meeting for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws.

Attendance by the occupants of a simple majority of WCM-FAC seats shall constitute a quorum. A quorum must be present in order for any action to be taken by the WCM-FAC. Committee members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to the scheduled WCM-FAC meeting.

The CalOptima Chief Executive Officer (CEO) shall prepare, or cause to be prepared, and post, or cause to be posted, an agenda for all WCM-FAC meetings. Agenda contents and posting procedures must be consistent with the requirements of the Ralph M. Brown Act (Government Code section 54950 *et seq.*).

WCM-FAC minutes will be taken at each meeting and filed with the Board.

Section 6. Reporting. The Chair is required to report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board.

Section 7. Staffing. CalOptima will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

Section 8. Ad Hoc Committees. Ad hoc committees may be established by the WCM-FAC Chair from time to time to formulate recommendations to the full WCM-FAC on specific issues. The scope and purpose of each such ad hoc will be defined by the Chair and disclosed at WCM-FAC meetings. Each ad hoc committee will terminate when the specific task for which it was created is complete. An ad hoc committee must include fewer than a majority of the voting committee members.

Section 9. Stipend. Subject to DHCS approval, family representatives participating on the WCM-FAC are eligible to receive a stipend for their attendance at regularly scheduled and ad hoc WCM-FAC meetings. Only one stipend is available per qualifying WCM-FAC member per regularly scheduled meeting. WCM-FAC members representing community-based organizations and consumer advocates are not eligible for WCM-FAC stipends.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of November, 2017.

I. PURPOSE

This policy describes the composition and role of the Family Advisory Committee for Whole Child Model (WCM) and establishes a process for recruiting, evaluating, and selecting prospective candidates to the Whole Child Model Family Advisory Committee (WCM FAC).

II. POLICY

A. As directed by CalOptima's Board of Directors (Board), the WCM FAC shall report to the CalOptima Board and shall provide advice and recommendations to the CalOptima Board and CalOptima staff in regards to California Children's Services (CCS) provided by CalOptima Medi-Cal's implementation of the WCM.

B. CalOptima's Board encourages Member and community involvement in CalOptima programs.

C. WCM FAC members shall recuse themselves from voting or from decisions where a conflict of interest may exist and shall abide by CalOptima's conflict of interest code and, in accordance with CalOptima Policy AA.1204: Gifts, Honoraria, and Travel Payments.

D. CalOptima shall provide timely reporting of information pertaining to the WCM FAC as requested by the Department of Health Care Services (DHCS).

E. The composition of the WCM FAC shall reflect the cultural diversity and special needs of the health care consumers within the Whole-Child Model population. WCM FAC members shall have direct or indirect contact with CalOptima Members.

F. In accordance with CalOptima Board Resolution No. 17-1102-01, the WCM FAC shall be comprised of eleven (11) voting members representing CCS family members, as well as consumer advocates representing CCS families. Except as noted below, each voting member shall serve a two (2) year term with no limits on the number of terms a representative may serve. The initial appointments of WCM FAC members will be divided between one (1) and two (2)-year terms to stagger reappointments. In the first year, five (5) committee member seats shall be appointed for a one (1)-year term and six (6) committee member seats shall be appointed for a two (2)-year term. The WCM FAC members serving a one (1) year term in the first year shall, if reappointed, serve two (2) year terms thereafter.

1. Seven (7) to nine (9) of the seats shall be family representatives in one (1) of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):

    a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima Member who is a current recipient of CCS services;

    b. CalOptima Members eighteen (18)-twenty-one (21) years of age who are current recipients of CCS services; or

    c. Current CalOptima members over the age of twenty-one (21) who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:

    a. Community-based organizations; or

    b. Consumer advocates.

3. While two (2) of the WCM FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, an additional two (2) WCM FAC candidates representing these groups may be considered for these seats in the event that there are not sufficient family representative candidates to fill the family member seats.

4. Interpretive services shall be provided at committee meetings upon request from a WCM FAC member or family member representative.

5. A family representative, in accordance with Section II.G.1 of this Policy, may be invited to serve on a statewide stakeholder advisory group.

G. Stipends

1. Subject to approval by the CalOptima Board, CalOptima may provide a reasonable per diem payment to a member or family representative serving on the WCM FAC. CalOptima shall maintain a log of each payment provided to the member or family representative, including type and value, and shall provide such log to DHCS upon request.

    a. Representatives of community-based organizations and consumer advocates are not eligible for stipends.

H. The WCM FAC shall conduct a nomination process to recruit potential candidates for expiring seats, in accordance with this Policy.

I. WCM FAC Vacancies

1. If a seat is vacated within two (2) months from the start of the nomination process, the vacated seat shall be filled during the annual recruitment and nomination process.

2. If a seat is vacated after the annual nomination process is complete, the WCM FAC nomination ad hoc subcommittee shall review the applicants from the recent recruitment to see if there is a viable candidate.

    a. If there is no viable candidate among the applicants, CalOptima shall conduct recruitment, per section III.B.2.

3. A new WCM FAC member appointed to fill a mid-term vacancy, shall serve the remainder of the resigning member's term, which may be less than a full two (2) year term.

J. On an annual basis, WCM FAC shall select a chair and vice chair from its membership to coincide with the annual recruitment and nomination process. Candidate recruitment and selection of the chair and vice chair shall be conducted in accordance with Sections III.B-D of this Policy.

1. The WCM FAC chair and vice chair may serve two (2) consecutive one (1) year terms.

2. The WCM FAC chair and/or vice chair may be removed by a majority vote of CalOptima's Board.

K. The WCM FAC chair, or vice chair, shall ask for three (3) to four (4) members from the WCM FAC to serve on a nomination ad hoc subcommittee. WCM FAC members who are being considered for reappointment cannot participate in the nomination ad hoc subcommittee.

1. The WCM FAC nomination ad hoc subcommittee shall:

    a. Review, evaluate and select a prospective chair, vice chair and a candidate for each of the open seats, in accordance with Section III.C-D of this Policy; and

    b. Forward the prospective chair, vice chair, and slate of candidate(s) to the WCM FAC for review and approval.

2. Following approval from the WCM FAC, the recommended chair, vice chair, and slate of candidate(s) shall be forwarded to CalOptima's Board for review and approval.

L. CalOptima's Board shall approve all appointments, reappointments, and chair and vice chair appointments to the WCM FAC.

M. Upon appointment to WCM FAC and annually thereafter, WCM FAC members shall be required to complete all mandatory annual Compliance Training by the given deadline to maintain eligibility standing on the WCM FAC.

N. WCM FAC members shall attend all regularly scheduled meetings, unless they have an excused absence. An absence shall be considered excused if a WCM FAC member provides notification of an absence to CalOptima staff prior to the meeting. CalOptima staff shall maintain an attendance log of the WCM FAC members' attendance at WCM FAC meetings. As the attendance log is a public record, any request from a member of the public, the WCM FAC chair, the vice chair, the Chief Executive Officer, or the CalOptima Board, CalOptima staff shall provide a copy of the attendance log to the requester. In addition, the WCM FAC chair, or vice chair, shall contact any committee member who has three (3) consecutive unexcused absences.

1. WCM FAC members' attendance shall be considered as a criterion upon reapplication.

III. PROCEDURE

A. WCM FAC meeting frequency

1. WCM FAC shall meet at least quarterly.

2. WCM FAC shall adopt a yearly meeting schedule at the first regularly scheduled meeting in or after January of each year.

3. Attendance by a simple majority of appointed members shall constitute a quorum, and a quorum must be present for any votes to be valid.

B. WCM FAC recruitment process

1. CalOptima shall begin recruitment of potential candidates in March of each year. In the recruitment of potential candidates, the ethnic and cultural diversity and special needs of children and/or families of children in CCS which are or are expected to transition to CalOptima's Whole-Child Model population shall be considered. Nominations and input from interest groups and agencies shall be given due consideration.

2. CalOptima shall recruit for potential candidates using one or more notification methods, which may include, but are not limited to, the following:

   a. Outreach to family representatives and community advocates that represent children receiving CCS;

   b. Placement of vacancy notices on the CalOptima website; and/or

   c. Advertisement of vacancies in local newspapers in Threshold Languages.

3. Prospective candidates must submit a WCM Family Advisory Committee application, including resume and signed consent forms. Candidates shall be notified at the time of recruitment regarding the deadline to submit their application to CalOptima.

4. Except for the initial recruitment, the WCM FAC chair or vice chair shall inquire of its membership whether there are interested candidates who wish to be considered as a chair or vice chair for the upcoming fiscal year.

   a. CalOptima shall inquire at the first WCM FAC meeting whether there are interested candidates who wish to be considered as a chair for the first year.

C. WCM FAC nomination evaluation process

1. The WCM FAC chair or vice chair shall request three (3) to four (4) members, who are not being considered for reappointment, to serve on the nominations ad hoc subcommittee. For the first nomination process, Member Advisory Committee (MAC) members shall serve on the nominations ad hoc subcommittee to review candidates for WCM FAC.

a. At the discretion of the nomination ad hoc subcommittee, a subject matter expert (SME), may be included on the subcommittee to provide consultation and advice.

2. Prior to WCM FAC nomination ad hoc subcommittee meeting (including the initial WCM FAC nomination ad hoc subcommittee).

a. Ad hoc subcommittee members shall individually evaluate and score the application for each of the prospective candidates using the applicant evaluation tool.

b. Ad hoc subcommittee members shall individually evaluate and select a chair and vice chair from among the interested candidates.

c. At the discretion of the ad hoc subcommittee, subcommittee members may contact a prospective candidate's references for additional information and background validation.

3. The ad hoc subcommittee shall convene to discuss and select a chair, vice chair and a candidate for each of the expiring seats by using the findings from the applicant evaluation tool, the attendance record if relevant and the prospective candidate's references.

D. WCM FAC selection and approval process for prospective chair, vice chair, and WCM FAC candidates:

1. The nomination ad hoc subcommittee shall forward its recommendation for a chair, vice chair, and a slate of candidates to WCM FAC (or in the first year, the MAC) for review and approval. Following WCM FAC's approval (or in the first year, the MAC), the proposed chair, vice chair and slate of candidates shall be submitted to CalOptima's Board for approval.

2. The WCM FAC members' terms shall be effective upon approval by the CalOptima Board.

a. In the case of a selected candidate filling a seat that was vacated mid-term, the new candidate shall attend the immediately following WCM FAC meeting.

3. WCM FAC members shall attend a new advisory committee member orientation.

LIMITED PRIVACY WAIVER

Under state and federal law, the fact that a person is eligible for Medi-Cal and California Children's Services (CCS) is a private matter that may only be disclosed by CalOptima as necessary to administer the Medi-Cal and CCS program, unless other disclosures are authorized by the eligible member. Because the position of Member Representative on Whole Child Model Family Advisory Committee (WCM FAC) requires that the person appointed must be a member or a family member of a member receiving CCS, the member's Medi-Cal and CCS eligibility will be disclosed to the general public. The member or their representative (e.g. parent, foster parent, guardian, etc.) should check the appropriate box below and sign this waiver to allow his or her, or his or her family member or caregiver's name to be nominated for the advisory committee.

☐ **MEMBER APPLICANT — I understand that by signing below and applying to serve on the WCM FAC, I am disclosing my eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

☐ **FAMILY MEMBER APPLICANT — I understand that by applying to serve on the WCM FAC, my status as a family member of a person eligible for Medi-Cal and CCS benefits is likely to become public. I authorize the disclosing of my family member's (insert name of member: _____) eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION (PHI)

The federal HIPAA Privacy Regulations requires that you complete this form to authorize CalOptima to use or disclose your Protected Health Information (PHI) to another person or organization. Please complete, sign, and return the form to CalOptima.

Date of Request: _____ Telephone Number: _____

Member Name: _____ Member CIN: _____

AUTHORIZATION:

I, _____, hereby authorize CalOptima, to use or disclose my health information as described below.

Describe the health information that will be used or disclosed under this authorization (please be specific): Information related to the identity, program administrative activities and/or services provided to {me} {my child} which is disclosed in response to my own disclosures and/or questions related to same.

Person or organization authorized to receive the health information: **General public**

Describe each purpose of the requested use or disclosure (please be specific): **To allow** CalOptima staff to respond to questions or issues raised by me that may require reference to my health information that is protected from disclosure by law during public meetings of **the CalOptima Whole-Child Model Family Advisory Committee**

EXPIRATION DATE:

This authorization shall become effective immediately and shall expire on: **The end of the term of the position applied for**

Right to Revoke: I understand that I have the right to revoke this authorization in writing at any time. To revoke this authorization, I understand that I must make my request in writing and clearly state that I am revoking this specific authorization. In addition, I must sign my request and then mail or deliver my request to:

CalOptima
Customer Service Department
505 City Parkway West
Orange, CA 92868

I understand that a revocation will not affect the ability of CalOptima or any health care provider to use or disclose the health information to the extent that it has acted in reliance on this authorization.

RESTRICTIONS:

I understand that anything that occurs in the context of a public meeting, including the meetings of the Whole Child Model Family Advisory Committee, is a matter of public record that is required to be disclosed upon request under the California Public Records Act. Information related to, or relevant to, information disclosed pursuant to this authorization that is not disclosed at the public meeting remains protected from disclosure under the Health Insurance Portability and Accountability Act (HIPAA), and will not be disclosed by CalOptima without separate authorization, unless disclosure is permitted by HIPAA without authorization, or is required by law.

MEMBER RIGHTS:

- I understand that I must receive a copy of this authorization.
- I understand that I may receive additional copies of the authorization.
- I understand that I may refuse to sign this authorization.
- I understand that I may withdraw this authorization at any time.
- I understand that neither treatment nor payment will be dependent upon my refusing or agreeing to sign this authorization.

CalOptima Board Action Agenda Referral

Action To Be Taken June 4, 2009
Regular Meeting of the CalOptima Board of Directors

Report Item
VI. E. Approve Health Network Contract Rate Methodology

Contact
Michael Engelhard, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve the modification methodology of Health Network capitation rates for October 1, 2009.

Background
Health Network capitation is the payment method that CalOptima uses to reimburse PHCs and shared risk groups for the provision of health care services to members enrolled in CalOptima Medi-Cal and CalOptima Kids. In order to ensure that reimbursement to such capitated providers reflects up-to-date information, CalOptima periodically contracts with its actuarial consultants to recalculate or "rebase" these payment rates.

The purpose of this year's rebasing is to:

- Establish actuarially sound facility and professional capitation rates;
- Account for changes in CalOptima's delivery model;
- Incorporate changes in the Division of Financial Responsibility (DOFR); and
- Perform separate analyses for Medi-Cal and CalOptima Kids.

The overall methodology for this year's rebasing approach includes:

- CalOptima eligibility data;
- Encounter and CalOptima Direct (COD) claim data analysis
- Reimbursement analysis;
- PCP capitation analysis;
- Maternity "kick" payment analysis;
- State benefit carve-out analysis;
- Reinsurance analysis;
- Administrative load analysis;
- Budget neutrality established

Discussion
CalOptima uses capitation as one way to reimburse certain contracted health care providers for services rendered. A Capitation payment is made to the provider during the month and is based solely on the number of contracted members assigned to that provider

Back to Agenda Back to Item

at the beginning of each month. The provider is then responsible for utilizing those dollars in exchange for all services provided during that month or period.

To ensure that capitated payment rates reflect the current structure and responsibilities between CalOptima and its delegated providers, capitation rates need to be periodically reset or rebased.

CalOptima last performed a comprehensive rate rebasing in July 2007, for rates effective January 1, 2008, for CalOptima Medi-Cal only. Much has changed since that time including the establishment of shared risk groups; the movement of certain high-acuity members out of the Health Networks and into COD; changes in the DOFR between hospitals, physicians and CalOptima; shifts in member mix between the Health Networks; and changes in utilization of services by members.

Therefore, CalOptima opted to perform another comprehensive rebasing analysis prior to the FY2009-10 year in order to fully reflect the above-mentioned changes.

Fiscal Impact
CalOptima projects no fiscal impact as a result of the rebasing. Rebasing is designed to be budget neutral to overall CalOptima medical expenses even though there will likely be changes to specific capitation rates paid to Health Network providers.

Rationale for Recommendation
Staff recommends approval of this action to provide proper reimbursement levels to CalOptima's capitated health networks participating in CalOptima Medi-Cal and CalOptima Kids.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to Be Taken December 17, 2003
Special Meeting of the CalOptima Board of Directors

Report Item
VI. A. Approve Modifications to the CalOptima Health Network Capitation Methodology and Rate Allocations

Contact
Amy Park, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve modifications to the CalOptima health network capitation methodology and rate allocations between Physician and Hospital financial responsibilities effective March 2004.

Background
CalOptima pays its health networks (HMOs and PHCs) according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which these rates are based, was developed by Milliman USA utilizing pre-CalOptima Orange County fee-for-service (FFS) experience as the baseline. This model then took into account utilization targets that were actuarially-appropriate for major categories of services and competitive reimbursement levels to ensure sufficient funds to provide all medically necessary services under a managed care model.

Since development of the model in 1999, CalOptima has negotiated capitation rate increases from the State for managed care rate "pass throughs" as a result of provider rate increases implemented in the Medi-Cal FFS program. In turn, CalOptima passed on these additional revenues to the health networks by increasing capitation payments, establishing carve-outs (e.g., transplants), or offering additional financial support, such as funding for enhanced subspecialty coverage and improving reinsurance coverage.

It has now been over four years since CalOptima commissioned a complete review of the actuarial cost model. As noted, CalOptima has only adjusted the underlying pricing in the actuarial cost model over the years to pass on increases in capitation rates to the health networks.

In light of State fiscal challenges and impending potential Medi-Cal funding and benefit reductions, CalOptima must examine the actuarial soundness of the existing cost model and update the utilization assumptions to ensure that CalOptima's health network capitation rate methodology continues to allocate fiscal resources commensurate with the level of medical needs of the population served. This process will also provide

Back to Agenda Back to Item

CalOptima with a renewed starting point from which to make informed decisions as we face yet another round of State budget uncertainties and declining resources.

Discussion

General Process. With the updated model, Milliman's rebasing process takes into account the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. Milliman examined the utilization statistics as indicated by the health network encounter data and evaluated the utilization for completeness by comparing against health network reported utilization and financial trends, health network primary care physician capitation and other capitation rates, health network hospital risk pool settlements, and other benchmarks as available. Further adjustments were made to account for changes in contractual requirements in the 2003-2005 health network contracts.

Utilization Assumptions. Consistent with changes in the State rate methodology, the updated health network capitation model combines the Family, Poverty and Child aid categories into a single Family aid category, with updated age/gender factors. The new model also recommends the creation of a supplemental capitation rate for members with end stage renal disease (ESRD). Furthermore, the actuarial model identifies actuarially-appropriate utilization targets for all major categories of services. These targets are set at levels that ensure that health networks have sufficient funds to provide all medically necessary services.

Pricing Assumptions. The new actuarial cost model includes reimbursement assumptions that are applied to the utilization targets to determine capitation rates. Effective October 2003, the State reduced CalOptima's capitation rates, effectively passing through the 5% cutback in physician and other provider rates as enacted in the 2003-04 State Budget Act. Notwithstanding this reduction, it is CalOptima's goal to maintain physician reimbursement levels to ensure members' continued access to care. Hence, CalOptima's health network minimum provider reimbursement policy and capitation funding will be maintained at its current levels. In other words, health networks will continue to be required to reimburse specialty physicians at rates that are no less than 150% of the Medi-Cal Fee Schedule and physician services in the actuarial model will continued to be priced at 147% of the August 1999 Medi-Cal Fee Schedule (as adjusted to primarily reflect market primary care physician capitation rates).

The actuarial cost model also provides sufficient funds to reimburse inpatient hospital reimbursement services at rates that are comparable to the average Southern California per diem rates and payment trends as published by California Medical Assistance Commission (CMAC) and to reimburse hospital outpatient services, commensurate with physician services, at 147% of the August 1999 Medi-Cal Fee Schedule.

In addition, the actuarial cost model provides sufficient funds for health network administrative expenses and an allowance for surplus. The table below summarizes the adjusted allocation of health network capitation rates to reflect the new actuarial cost model:

Aid Category	Proposed Hospital	Proposed Physician	Proposed Combined
Family/Poverty/Child	-4.6%	2.1%	-0.7%
Adult	-19.4%	-3.1%	-12.0%
Aged	18.9%	19.1%	19.0%
Disabled	10.9%	-4.4%	3.3%
Composite	1.7%	0.7%	1.2%

**Percentage changes are calculated from current capitation rates which have been adjusted to reflect the establishment of a separate ESRD supplemental capitation.*

Fiscal Impact

In summary, the proposed modifications will increase capitation payments made to physicians by 0.7%, while capitation payments to hospitals will increase by approximately 1.7%, for an overall weighted average increase in health network capitation rate payments of 1.2%, or $3.1 million on an annualized basis.

This additional increase will be funded by the Medi-Cal capitation rate increases received by CalOptima related to the State's settlement of the *Orthopaedic v. Belshe* lawsuit concerning Medi-Cal payment rates for hospital outpatient services.

As the Board will recall, the additional monies received by CalOptima related to this hospital outpatient settlement were passed through to hospitals in a lump-sum payment as approved by the Board in April 2003 for Fiscal 2001-02. That Board action also included approval for a second distribution scheduled for January 2004 to be made to hospitals for Fiscal 2002-03 related monies. Therefore, the proposed increases in hospital capitation rates contained in this action referral will facilitate the ongoing distributions of these dollars to CalOptima's participating hospitals. *See also related Board action referral to approve modifications to CalOptima Direct hospital reimbursement rates.*

Rationale for Recommendation

The proposed modifications to the rate methodology and related allocation of funds are consistent with the extensive, independent analysis performed by Milliman USA to update CalOptima's health network capitation methodology to reflect the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. The updated actuarial model also provides CalOptima with a renewed starting point from which to make informed

decisions as we face yet another round of State budget uncertainties and declining resources.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

Back to Agenda Back to Item

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

            ~~b) Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background
The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

   c. Current CalOptima members age of 21 and over who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Concurrence

Gary Crockett, Chief Counsel

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

Program Implementation

Back to Agenda Back to Item

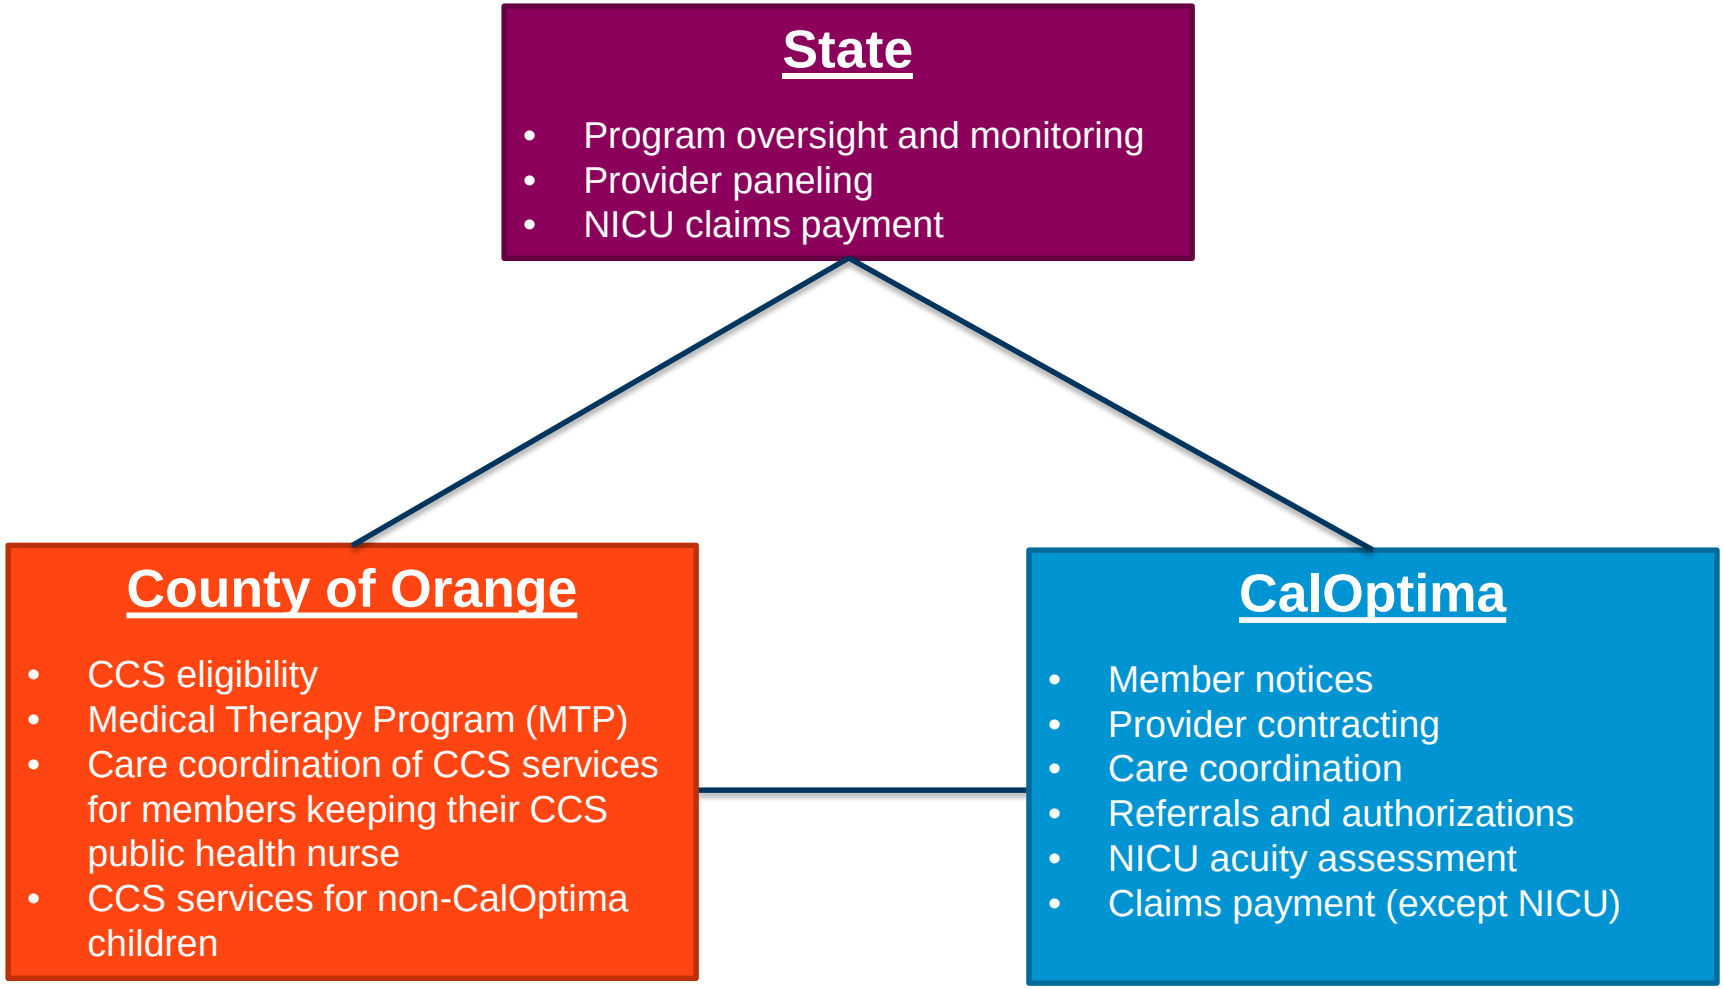
Background

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency

- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities



WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

Concurrence

Gary Crockett, Chief Counsel

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
   - Current CalOptima members over the age of 21 who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children with CCS, including:
   - Community-based organizations (CBOs); or
   - Consumer advocates.

Rev. 11/2/2017

If nine or more qualified candidates initially apply for family representative seats, nine of the eleven committee seats will be filled with family representatives. Initially, and on an on-going basis, only in circumstances when there are insufficient applicants to fill all of the designated family representative seats with qualifying family representatives, up to two of the nine seats designated for family members may be filled with representatives of CBOs or consumer advocates.

It is anticipated that a representative from the CalOptima WCM-FAC may be invited to serve on a statewide stakeholder advisory group.

Section 3. Chair and Vice Chair. The Chair and Vice Chair for the WCM-FAC will be appointed by the Board annually from the appointed members. The Chair, or in the Chair's absence, the Vice Chair, shall preside over WCM-FAC meetings. The Chair and Vice Chair may each serve up to two consecutive terms in a particular WCM-FAC officer position, or until their successor is appointed by the Board.

Section 4. Committee Mission, Goals and Objectives. The WCM-FAC will develop, review annually, and make recommendations to the Board on any revisions to the committee's Mission or Goals and Objectives.

Section 5. Meetings. The WCM-FAC will meet at least quarterly. A yearly meeting schedule will be adopted at the second regularly scheduled meeting for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws.

Attendance by the occupants of a simple majority of WCM-FAC seats shall constitute a quorum. A quorum must be present in order for any action to be taken by the WCM-FAC. Committee members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to the scheduled WCM-FAC meeting.

The CalOptima Chief Executive Officer (CEO) shall prepare, or cause to be prepared, and post, or cause to be posted, an agenda for all WCM-FAC meetings. Agenda contents and posting procedures must be consistent with the requirements of the Ralph M. Brown Act (Government Code section 54950 *et seq.*).

WCM-FAC minutes will be taken at each meeting and filed with the Board.

Section 6. Reporting. The Chair is required to report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board.

Section 7. Staffing. CalOptima will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

Section 8. Ad Hoc Committees. Ad hoc committees may be established by the WCM-FAC Chair from time to time to formulate recommendations to the full WCM-FAC on specific issues. The scope and purpose of each such ad hoc will be defined by the Chair and disclosed at WCM-FAC meetings. Each ad hoc committee will terminate when the specific task for which it was created is complete. An ad hoc committee must include fewer than a majority of the voting committee members.

Section 9. Stipend. Subject to DHCS approval, family representatives participating on the WCM-FAC are eligible to receive a stipend for their attendance at regularly scheduled and ad hoc WCM-FAC meetings. Only one stipend is available per qualifying WCM-FAC member per regularly scheduled meeting. WCM-FAC members representing community-based organizations and consumer advocates are not eligible for WCM-FAC stipends.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of November, 2017.

I. PURPOSE

This policy describes the composition and role of the Family Advisory Committee for Whole Child Model (WCM) and establishes a process for recruiting, evaluating, and selecting prospective candidates to the Whole Child Model Family Advisory Committee (WCM FAC).

II. POLICY

A. As directed by CalOptima's Board of Directors (Board), the WCM FAC shall report to the CalOptima Board and shall provide advice and recommendations to the CalOptima Board and CalOptima staff in regards to California Children's Services (CCS) provided by CalOptima Medi-Cal's implementation of the WCM.

B. CalOptima's Board encourages Member and community involvement in CalOptima programs.

C. WCM FAC members shall recuse themselves from voting or from decisions where a conflict of interest may exist and shall abide by CalOptima's conflict of interest code and, in accordance with CalOptima Policy AA.1204: Gifts, Honoraria, and Travel Payments.

D. CalOptima shall provide timely reporting of information pertaining to the WCM FAC as requested by the Department of Health Care Services (DHCS).

E. The composition of the WCM FAC shall reflect the cultural diversity and special needs of the health care consumers within the Whole-Child Model population. WCM FAC members shall have direct or indirect contact with CalOptima Members.

F. In accordance with CalOptima Board Resolution No. 17-1102-01, the WCM FAC shall be comprised of eleven (11) voting members representing CCS family members, as well as consumer advocates representing CCS families. Except as noted below, each voting member shall serve a two (2) year term with no limits on the number of terms a representative may serve. The initial appointments of WCM FAC members will be divided between one (1) and two (2)-year terms to stagger reappointments. In the first year, five (5) committee member seats shall be appointed for a one (1)-year term and six (6) committee member seats shall be appointed for a two (2)-year term. The WCM FAC members serving a one (1) year term in the first year shall, if reappointed, serve two (2) year terms thereafter.

1. Seven (7) to nine (9) of the seats shall be family representatives in one (1) of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):

    a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima Member who is a current recipient of CCS services;

    b. CalOptima Members eighteen (18)-twenty-one (21) years of age who are current recipients of CCS services; or

    c. Current CalOptima members over the age of twenty-one (21) who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:

    a. Community-based organizations; or

    b. Consumer advocates.

3. While two (2) of the WCM FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, an additional two (2) WCM FAC candidates representing these groups may be considered for these seats in the event that there are not sufficient family representative candidates to fill the family member seats.

4. Interpretive services shall be provided at committee meetings upon request from a WCM FAC member or family member representative.

5. A family representative, in accordance with Section II.G.1 of this Policy, may be invited to serve on a statewide stakeholder advisory group.

G. Stipends

1. Subject to approval by the CalOptima Board, CalOptima may provide a reasonable per diem payment to a member or family representative serving on the WCM FAC. CalOptima shall maintain a log of each payment provided to the member or family representative, including type and value, and shall provide such log to DHCS upon request.

    a. Representatives of community-based organizations and consumer advocates are not eligible for stipends.

H. The WCM FAC shall conduct a nomination process to recruit potential candidates for expiring seats, in accordance with this Policy.

I. WCM FAC Vacancies

1. If a seat is vacated within two (2) months from the start of the nomination process, the vacated seat shall be filled during the annual recruitment and nomination process.

2. If a seat is vacated after the annual nomination process is complete, the WCM FAC nomination ad hoc subcommittee shall review the applicants from the recent recruitment to see if there is a viable candidate.

    a. If there is no viable candidate among the applicants, CalOptima shall conduct recruitment, per section III.B.2.

3. A new WCM FAC member appointed to fill a mid-term vacancy, shall serve the remainder of the resigning member's term, which may be less than a full two (2) year term.

J. On an annual basis, WCM FAC shall select a chair and vice chair from its membership to coincide with the annual recruitment and nomination process. Candidate recruitment and selection of the chair and vice chair shall be conducted in accordance with Sections III.B-D of this Policy.

1. The WCM FAC chair and vice chair may serve two (2) consecutive one (1) year terms.

2. The WCM FAC chair and/or vice chair may be removed by a majority vote of CalOptima's Board.

K. The WCM FAC chair, or vice chair, shall ask for three (3) to four (4) members from the WCM FAC to serve on a nomination ad hoc subcommittee. WCM FAC members who are being considered for reappointment cannot participate in the nomination ad hoc subcommittee.

1. The WCM FAC nomination ad hoc subcommittee shall:

    a. Review, evaluate and select a prospective chair, vice chair and a candidate for each of the open seats, in accordance with Section III.C-D of this Policy; and

    b. Forward the prospective chair, vice chair, and slate of candidate(s) to the WCM FAC for review and approval.

2. Following approval from the WCM FAC, the recommended chair, vice chair, and slate of candidate(s) shall be forwarded to CalOptima's Board for review and approval.

L. CalOptima's Board shall approve all appointments, reappointments, and chair and vice chair appointments to the WCM FAC.

M. Upon appointment to WCM FAC and annually thereafter, WCM FAC members shall be required to complete all mandatory annual Compliance Training by the given deadline to maintain eligibility standing on the WCM FAC.

N. WCM FAC members shall attend all regularly scheduled meetings, unless they have an excused absence. An absence shall be considered excused if a WCM FAC member provides notification of an absence to CalOptima staff prior to the meeting. CalOptima staff shall maintain an attendance log of the WCM FAC members' attendance at WCM FAC meetings. As the attendance log is a public record, any request from a member of the public, the WCM FAC chair, the vice chair, the Chief Executive Officer, or the CalOptima Board, CalOptima staff shall provide a copy of the attendance log to the requester. In addition, the WCM FAC chair, or vice chair, shall contact any committee member who has three (3) consecutive unexcused absences.

1. WCM FAC members' attendance shall be considered as a criterion upon reapplication.

III. PROCEDURE

A. WCM FAC meeting frequency

1. WCM FAC shall meet at least quarterly.

2. WCM FAC shall adopt a yearly meeting schedule at the first regularly scheduled meeting in or after January of each year.

3. Attendance by a simple majority of appointed members shall constitute a quorum, and a quorum must be present for any votes to be valid.

B. WCM FAC recruitment process

1. CalOptima shall begin recruitment of potential candidates in March of each year. In the recruitment of potential candidates, the ethnic and cultural diversity and special needs of children and/or families of children in CCS which are or are expected to transition to CalOptima's Whole-Child Model population shall be considered. Nominations and input from interest groups and agencies shall be given due consideration.

2. CalOptima shall recruit for potential candidates using one or more notification methods, which may include, but are not limited to, the following:

   a. Outreach to family representatives and community advocates that represent children receiving CCS;

   b. Placement of vacancy notices on the CalOptima website; and/or

   c. Advertisement of vacancies in local newspapers in Threshold Languages.

3. Prospective candidates must submit a WCM Family Advisory Committee application, including resume and signed consent forms. Candidates shall be notified at the time of recruitment regarding the deadline to submit their application to CalOptima.

4. Except for the initial recruitment, the WCM FAC chair or vice chair shall inquire of its membership whether there are interested candidates who wish to be considered as a chair or vice chair for the upcoming fiscal year.

   a. CalOptima shall inquire at the first WCM FAC meeting whether there are interested candidates who wish to be considered as a chair for the first year.

C. WCM FAC nomination evaluation process

1. The WCM FAC chair or vice chair shall request three (3) to four (4) members, who are not being considered for reappointment, to serve on the nominations ad hoc subcommittee. For the first nomination process, Member Advisory Committee (MAC) members shall serve on the nominations ad hoc subcommittee to review candidates for WCM FAC.

a. At the discretion of the nomination ad hoc subcommittee, a subject matter expert (SME), may be included on the subcommittee to provide consultation and advice.

2. Prior to WCM FAC nomination ad hoc subcommittee meeting (including the initial WCM FAC nomination ad hoc subcommittee).

a. Ad hoc subcommittee members shall individually evaluate and score the application for each of the prospective candidates using the applicant evaluation tool.

b. Ad hoc subcommittee members shall individually evaluate and select a chair and vice chair from among the interested candidates.

c. At the discretion of the ad hoc subcommittee, subcommittee members may contact a prospective candidate's references for additional information and background validation.

3. The ad hoc subcommittee shall convene to discuss and select a chair, vice chair and a candidate for each of the expiring seats by using the findings from the applicant evaluation tool, the attendance record if relevant and the prospective candidate's references.

D. WCM FAC selection and approval process for prospective chair, vice chair, and WCM FAC candidates:

1. The nomination ad hoc subcommittee shall forward its recommendation for a chair, vice chair, and a slate of candidates to WCM FAC (or in the first year, the MAC) for review and approval. Following WCM FAC's approval (or in the first year, the MAC), the proposed chair, vice chair and slate of candidates shall be submitted to CalOptima's Board for approval.

2. The WCM FAC members' terms shall be effective upon approval by the CalOptima Board.

a. In the case of a selected candidate filling a seat that was vacated mid-term, the new candidate shall attend the immediately following WCM FAC meeting.

3. WCM FAC members shall attend a new advisory committee member orientation.

LIMITED PRIVACY WAIVER

Under state and federal law, the fact that a person is eligible for Medi-Cal and California Children's Services (CCS) is a private matter that may only be disclosed by CalOptima as necessary to administer the Medi-Cal and CCS program, unless other disclosures are authorized by the eligible member. Because the position of Member Representative on Whole Child Model Family Advisory Committee (WCM FAC) requires that the person appointed must be a member or a family member of a member receiving CCS, the member's Medi-Cal and CCS eligibility will be disclosed to the general public. The member or their representative (e.g. parent, foster parent, guardian, etc.) should check the appropriate box below and sign this waiver to allow his or her, or his or her family member or caregiver's name to be nominated for the advisory committee.

☐ **MEMBER APPLICANT — I understand that by signing below and applying to serve on the WCM FAC, I am disclosing my eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

☐ **FAMILY MEMBER APPLICANT — I understand that by applying to serve on the WCM FAC, my status as a family member of a person eligible for Medi-Cal and CCS benefits is likely to become public. I authorize the disclosing of my family member's (insert name of member: _____) eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION (PHI)

The federal HIPAA Privacy Regulations requires that you complete this form to authorize CalOptima to use or disclose your Protected Health Information (PHI) to another person or organization. Please complete, sign, and return the form to CalOptima.

Date of Request: _____ Telephone Number: _____

Member Name: _____ Member CIN: _____

AUTHORIZATION:

I, _____, hereby authorize CalOptima, to use or disclose my health information as described below.

Describe the health information that will be used or disclosed under this authorization (please be specific): Information related to the identity, program administrative activities and/or services provided to {me} {my child} which is disclosed in response to my own disclosures and/or questions related to same.

Person or organization authorized to receive the health information: **General public**

Describe each purpose of the requested use or disclosure (please be specific): **To allow** CalOptima staff to respond to questions or issues raised by me that may require reference to my health information that is protected from disclosure by law during public meetings of **the CalOptima Whole-Child Model Family Advisory Committee**

EXPIRATION DATE:

This authorization shall become effective immediately and shall expire on: **The end of the term of the position applied for**

Right to Revoke: I understand that I have the right to revoke this authorization in writing at any time. To revoke this authorization, I understand that I must make my request in writing and clearly state that I am revoking this specific authorization. In addition, I must sign my request and then mail or deliver my request to:

CalOptima
Customer Service Department
505 City Parkway West
Orange, CA 92868

I understand that a revocation will not affect the ability of CalOptima or any health care provider to use or disclose the health information to the extent that it has acted in reliance on this authorization.

RESTRICTIONS:

I understand that anything that occurs in the context of a public meeting, including the meetings of the Whole Child Model Family Advisory Committee, is a matter of public record that is required to be disclosed upon request under the California Public Records Act. Information related to, or relevant to, information disclosed pursuant to this authorization that is not disclosed at the public meeting remains protected from disclosure under the Health Insurance Portability and Accountability Act (HIPAA), and will not be disclosed by CalOptima without separate authorization, unless disclosure is permitted by HIPAA without authorization, or is required by law.

MEMBER RIGHTS:

- I understand that I must receive a copy of this authorization.
- I understand that I may receive additional copies of the authorization.
- I understand that I may refuse to sign this authorization.
- I understand that I may withdraw this authorization at any time.
- I understand that neither treatment nor payment will be dependent upon my refusing or agreeing to sign this authorization.

Whole-Child Model Family Advisory Committee (WCM FAC) Community Application

Instructions: Please answer all questions. You may handwrite or type your answers. Attach an additional page if needed.
If you have any questions regarding the application, call 1-714-246-8635.

Name:_____ Work Phone:_____

Address:_____ Mobile Phone:_____

City, State ZIP:_____ Fax Number:_____

Date:_____ Email:_____

Please see the eligibility criteria below:

Two (2) to four (4) seats will represent the interests of children receiving California Children's Services (CCS), including:

☐ Community-based organizations

☐ Consumer advocates

Except for two designated seats appointed for the initial year of the Committee, all appointments are for a two-year period, subject to continued eligibility to hold a Community representative seat.

Current position and/or relation to a community-based organization or consumer advocate(s) (e.g., organization title, student, volunteer, etc.):

_____

1. Please provide a brief description of your direct or indirect experience working with the CalOptima population receiving CCS services and/or the constituency you wish to represent on the WCM FAC. Include any relevant community experience:

_____

_____

_____

_____

2. What is your understanding of and familiarity with the diverse cultural and/or special needs of children receiving CCS services in Orange County and/or their families? Include any relevant experience working with such populations:

_____

_____

_____

_____

3. What is your understanding of and experience with California Children's Services, managed care systems and/or CalOptima?

_____

_____

_____

_____

4. Please explain why you wish to serve on the WCM FAC:

_____

_____

_____

_____

5. Describe why you would be a qualified representative for service on the WCM FAC:

_____

_____

_____

_____

6. Other than English, do you speak or read any of CalOptima's threshold languages, such as Spanish, Vietnamese, Korean, Farsi, Chinese or Arabic? If so, which one(s)?

_____

7. If selected, are you able to commit to attending WCM FAC meetings, as well as serving on at least one subcommittee? ☐ Yes ☐ No

8. Please supply two references (professional, community or personal):

Name:_____	Name:_____
Relationship:_____	Relationship:_____
Address:_____	Address:_____
City, State ZIP:_____	City, State ZIP:_____
Phone:_____	Phone:_____

CalOptima Board Action Agenda Referral

Action To Be Taken June 4, 2009
Regular Meeting of the CalOptima Board of Directors

Report Item
VI. E. Approve Health Network Contract Rate Methodology

Contact
Michael Engelhard, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve the modification methodology of Health Network capitation rates for October 1, 2009.

Background
Health Network capitation is the payment method that CalOptima uses to reimburse PHCs and shared risk groups for the provision of health care services to members enrolled in CalOptima Medi-Cal and CalOptima Kids. In order to ensure that reimbursement to such capitated providers reflects up-to-date information, CalOptima periodically contracts with its actuarial consultants to recalculate or "rebase" these payment rates.

The purpose of this year's rebasing is to:

- Establish actuarially sound facility and professional capitation rates;
- Account for changes in CalOptima's delivery model;
- Incorporate changes in the Division of Financial Responsibility (DOFR); and
- Perform separate analyses for Medi-Cal and CalOptima Kids.

The overall methodology for this year's rebasing approach includes:

- CalOptima eligibility data;
- Encounter and CalOptima Direct (COD) claim data analysis
- Reimbursement analysis;
- PCP capitation analysis;
- Maternity "kick" payment analysis;
- State benefit carve-out analysis;
- Reinsurance analysis;
- Administrative load analysis;
- Budget neutrality established

Discussion
CalOptima uses capitation as one way to reimburse certain contracted health care providers for services rendered. A Capitation payment is made to the provider during the month and is based solely on the number of contracted members assigned to that provider

Back to Agenda Back to Item

at the beginning of each month. The provider is then responsible for utilizing those dollars in exchange for all services provided during that month or period.

To ensure that capitated payment rates reflect the current structure and responsibilities between CalOptima and its delegated providers, capitation rates need to be periodically reset or rebased.

CalOptima last performed a comprehensive rate rebasing in July 2007, for rates effective January 1, 2008, for CalOptima Medi-Cal only. Much has changed since that time including the establishment of shared risk groups; the movement of certain high-acuity members out of the Health Networks and into COD; changes in the DOFR between hospitals, physicians and CalOptima; shifts in member mix between the Health Networks; and changes in utilization of services by members.

Therefore, CalOptima opted to perform another comprehensive rebasing analysis prior to the FY2009-10 year in order to fully reflect the above-mentioned changes.

Fiscal Impact
CalOptima projects no fiscal impact as a result of the rebasing. Rebasing is designed to be budget neutral to overall CalOptima medical expenses even though there will likely be changes to specific capitation rates paid to Health Network providers.

Rationale for Recommendation
Staff recommends approval of this action to provide proper reimbursement levels to CalOptima's capitated health networks participating in CalOptima Medi-Cal and CalOptima Kids.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to Be Taken December 17, 2003
Special Meeting of the CalOptima Board of Directors

Report Item
VI. A. Approve Modifications to the CalOptima Health Network Capitation Methodology and Rate Allocations

Contact
Amy Park, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve modifications to the CalOptima health network capitation methodology and rate allocations between Physician and Hospital financial responsibilities effective March 2004.

Background
CalOptima pays its health networks (HMOs and PHCs) according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which these rates are based, was developed by Milliman USA utilizing pre-CalOptima Orange County fee-for-service (FFS) experience as the baseline. This model then took into account utilization targets that were actuarially-appropriate for major categories of services and competitive reimbursement levels to ensure sufficient funds to provide all medically necessary services under a managed care model.

Since development of the model in 1999, CalOptima has negotiated capitation rate increases from the State for managed care rate "pass throughs" as a result of provider rate increases implemented in the Medi-Cal FFS program. In turn, CalOptima passed on these additional revenues to the health networks by increasing capitation payments, establishing carve-outs (e.g., transplants), or offering additional financial support, such as funding for enhanced subspecialty coverage and improving reinsurance coverage.

It has now been over four years since CalOptima commissioned a complete review of the actuarial cost model. As noted, CalOptima has only adjusted the underlying pricing in the actuarial cost model over the years to pass on increases in capitation rates to the health networks.

In light of State fiscal challenges and impending potential Medi-Cal funding and benefit reductions, CalOptima must examine the actuarial soundness of the existing cost model and update the utilization assumptions to ensure that CalOptima's health network capitation rate methodology continues to allocate fiscal resources commensurate with the level of medical needs of the population served. This process will also provide

Back to Agenda Back to Item

CalOptima with a renewed starting point from which to make informed decisions as we face yet another round of State budget uncertainties and declining resources.

Discussion

General Process. With the updated model, Milliman's rebasing process takes into account the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. Milliman examined the utilization statistics as indicated by the health network encounter data and evaluated the utilization for completeness by comparing against health network reported utilization and financial trends, health network primary care physician capitation and other capitation rates, health network hospital risk pool settlements, and other benchmarks as available. Further adjustments were made to account for changes in contractual requirements in the 2003-2005 health network contracts.

Utilization Assumptions. Consistent with changes in the State rate methodology, the updated health network capitation model combines the Family, Poverty and Child aid categories into a single Family aid category, with updated age/gender factors. The new model also recommends the creation of a supplemental capitation rate for members with end stage renal disease (ESRD). Furthermore, the actuarial model identifies actuarially-appropriate utilization targets for all major categories of services. These targets are set at levels that ensure that health networks have sufficient funds to provide all medically necessary services.

Pricing Assumptions. The new actuarial cost model includes reimbursement assumptions that are applied to the utilization targets to determine capitation rates. Effective October 2003, the State reduced CalOptima's capitation rates, effectively passing through the 5% cutback in physician and other provider rates as enacted in the 2003-04 State Budget Act. Notwithstanding this reduction, it is CalOptima's goal to maintain physician reimbursement levels to ensure members' continued access to care. Hence, CalOptima's health network minimum provider reimbursement policy and capitation funding will be maintained at its current levels. In other words, health networks will continue to be required to reimburse specialty physicians at rates that are no less than 150% of the Medi-Cal Fee Schedule and physician services in the actuarial model will continued to be priced at 147% of the August 1999 Medi-Cal Fee Schedule (as adjusted to primarily reflect market primary care physician capitation rates).

The actuarial cost model also provides sufficient funds to reimburse inpatient hospital reimbursement services at rates that are comparable to the average Southern California per diem rates and payment trends as published by California Medical Assistance Commission (CMAC) and to reimburse hospital outpatient services, commensurate with physician services, at 147% of the August 1999 Medi-Cal Fee Schedule.

In addition, the actuarial cost model provides sufficient funds for health network administrative expenses and an allowance for surplus. The table below summarizes the adjusted allocation of health network capitation rates to reflect the new actuarial cost model:

Aid Category	Proposed Hospital	Proposed Physician	Proposed Combined
Family/Poverty/Child	-4.6%	2.1%	-0.7%
Adult	-19.4%	-3.1%	-12.0%
Aged	18.9%	19.1%	19.0%
Disabled	10.9%	-4.4%	3.3%
Composite	1.7%	0.7%	1.2%

**Percentage changes are calculated from current capitation rates which have been adjusted to reflect the establishment of a separate ESRD supplemental capitation.*

Fiscal Impact

In summary, the proposed modifications will increase capitation payments made to physicians by 0.7%, while capitation payments to hospitals will increase by approximately 1.7%, for an overall weighted average increase in health network capitation rate payments of 1.2%, or $3.1 million on an annualized basis.

This additional increase will be funded by the Medi-Cal capitation rate increases received by CalOptima related to the State's settlement of the *Orthopaedic v. Belshe* lawsuit concerning Medi-Cal payment rates for hospital outpatient services.

As the Board will recall, the additional monies received by CalOptima related to this hospital outpatient settlement were passed through to hospitals in a lump-sum payment as approved by the Board in April 2003 for Fiscal 2001-02. That Board action also included approval for a second distribution scheduled for January 2004 to be made to hospitals for Fiscal 2002-03 related monies. Therefore, the proposed increases in hospital capitation rates contained in this action referral will facilitate the ongoing distributions of these dollars to CalOptima's participating hospitals. *See also related Board action referral to approve modifications to CalOptima Direct hospital reimbursement rates.*

Rationale for Recommendation

The proposed modifications to the rate methodology and related allocation of funds are consistent with the extensive, independent analysis performed by Milliman USA to update CalOptima's health network capitation methodology to reflect the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. The updated actuarial model also provides CalOptima with a renewed starting point from which to make informed

decisions as we face yet another round of State budget uncertainties and declining resources.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 2, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

7. Consider Approval of CalOptima Medi-Cal Directed Payments Policy

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Nancy Huang, Chief Financial Officer, (714) 246-8400

Recommended Actions

That the Board of Directors:

1. Approve CalOptima Medi-Cal Policy FF.2011 Directed Payments to align with current operational processes and comply with the Department of Health Care Services (DHCS) Directed Payment programs guidance.

2. Authorize the advance funding of the Directed Payments, as necessary and appropriate, for the Directed Payment programs identified in CalOptima Policy FF.2011.

3. Authorize the Chief Executive Officer, to approve as necessary and appropriate, the continuation of payment of Directed Payments to eligible providers for qualifying services before the release of DHCS final guidance, if instructed, in writing, by DHCS, and the State Plan Amendment (SPA) has been filed with the Centers for Medicare & Medicaid Services (CMS) for an extension of the Directed Payment program identified in CalOptima Policy FF.2011.

4. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to update and amend, as necessary and appropriate, Health Network Contracts and Attachment A: Directed Payments Rates and Codes of CalOptima Policy FF.2011, pursuant to DHCS final guidance or written instruction to CalOptima.

Background/Discussion

DHCS has implemented Directed Payment programs aimed at specified expenditures for existing health care services through different funding mechanisms. The current DHCS Directed Payments programs are funded by the Quality Assurance Fee (QAF) and Proposition 56. DHCS operationalizes these Directed Payments programs by either adjusting the existing Medi-Cal fee Schedule by establishing a minimum fee schedule payment or through a specific add-on (supplemental) payment administered by the Medi-Cal Managed Care Plans (MCPs). DHCS releases Directed Payments guidance to the MCPs through All Plan Letters (APLs). The APLs include guidance regarding providers eligible for payment, service codes eligible for reimbursement, timeliness requirements to make payments, and MCP reporting requirements.

CalOptima has established processes to meet regulatory timeliness and payment requirements for Proposition 56 physician payments and GEMT for the delegated health networks. On June 7, 2018 the CalOptima Board of Directors (Board) approved the methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers and services rendered for dates of service (DOS) in SFY 2017-18. On June 6, 2019, the Board ratified implementation of the standardized annual

Proposition 56 provider payment process for physician services extended into future DOS. On September 5, 2019, the Board approved the implementation of the statutorily mandated rate increase for GEMT. While staff initially planned for these initial directed payment initiatives to be time limited, additional directed payment provisions are anticipated and expected to be on-going. DHCS has also released information for additional Directed Payments programs to be implemented. The existing and new Directed Payment programs are as follows:

Program Name	Effective DOS	Eligible Providers	Final DHCS Guidance as of December 26, 2019
Physician Services	7/1/2017 to 12/31/2021	Contracted	APL 18-010 released 05/01/2018 APL 19-006 released 06/13/2019 APL 19-015 released 12/24/2019
Abortion Services (Hyde)	7/1/2017 to 6/30/2020	All Providers	APL 19-013 released 10/17/2019
Developmental Screening Services	On or after 1/1/2020	Contracted	APL 19-016 released 12/26/2019
ACE (Trauma) Screening Services	On or after 1/1/2020	Contracted	APL 19-018 released 12/26/2019
GEMT	7/1/2018 to 6/30/2019	Non-Contracted	APL 19-007 released 6/14/2019 State Plan Amendment: 19-0020 released 09/06/2019 APL 20-002 released January 31, 2020

In order to meet timeliness and payment requirements, CalOptima staff recommends establishing Medi-Cal policy FF.2011 Directed Payments, which addresses the above-listed qualifying services. This new policy defines Directed Payments and outlines the process by which a Health Network will follow DHCS guidelines regarding qualifying services, eligible providers, and payment requirements for applicable DOS. The policy establishes new reimbursement processes for Directed Payments not included in the Health Network capitation and reimbursed to the Health Network on a per service basis as well as a 2% administrative fee component. In addition, the policy provides an initial monthly payment to the Health Network for estimated medical costs that will be reconciled with the monthly reimbursement reports. This process will apply to qualifying services and eligible providers as prescribed through an APL or specified by DHCS through other correspondence.

Staff seeks authority to update and amend Health Network Contracts and Attachment A: Directed Payments Rates and Codes of CalOptima Policy FF.2011, pursuant to DHCS final guidance or written instruction to CalOptima. In the future, staff also anticipates that this policy will need to be updated periodically, subject to Board approval, as new Directed Payment programs are issued by DHCS.

Staff seeks authority to implement funding for Directed Payment programs identified in CalOptima Policy FF.2011 before it receives funding from DHCS. As of March 2020, CalOptima has not received funding from DHCS for the new Proposition 56 programs for developmental screening services and adverse childhood experiences (ACE) screening services, as well as the existing Directed Payment

program for GEMT services for SFY 2019-20 which includes two (2) new CPT codes. Implementation of directed payments before DHCS has issued funding are necessary as DHCS final APLs have already been issued.

Operational policies for CalOptima Direct, including the CalOptima Community Network, will be modified separately. CalOptima staff will seek CalOptima Board of Directors (Board) ratification action as required.

Fiscal Impact
The recommended action to approve CalOptima Policy FF.2011 are projected to be budget neutral to CalOptima. Staff anticipates funding provided by DHCS will be sufficient to cover the costs related to Directed Payment programs. As DHCS releases additional guidance and performs payment reconciliation, including application of risk corridors, Staff will closely monitor the potential fiscal impact to CalOptima.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with regulatory guidance provided by DHCS.

Concurrence
Gary Crockett, Chief Counsel

Applicable to:	☒ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☐ Administrative - Internal ☐ Administrative – External

I. PURPOSE

This Policy establishes requirements pursuant to which CalOptima and a Health Network shall administer the Directed Payments for Qualifying Services, including processes for the reimbursement of Directed Payments by CalOptima to a Health Network and by a Health Network to its Designated Providers.

II. POLICY

A. CalOptima shall reimburse a Health Network for Directed Payments made to a Designated Provider for Qualifying Services in accordance with this Policy, including Attachment A of this Policy.

B. A Health Network shall qualify for the reimbursement of Directed Payments for Qualifying Services if:

1. The Health Network processed the Directed Payment to a Designated Provider in compliance with this Policy and applicable statutory, regulatory, and contractual requirements, as well as Department of Health Care Services (DHCS) guidance and Centers for Medicare & Medicaid Services (CMS) approved preprint;

2. The Qualifying Services were eligible for reimbursement (*e.g.*, based on coverage, coding, and billing requirements);

3. The Member or Eligible Member, as applicable and as those terms are defined in this Policy, was assigned to the Health Network on the date of service;

4. The Designated Provider was eligible to receive the Directed Payment;

5. The Qualifying Services were rendered by a Designated Provider on an eligible date of service;

6. The Health Network reimbursed the Designated Provider within the required timeframe, as set forth in Section III.B. of this Policy; and

Back to Agenda Back to Item

7. The Health Network submits Encounter data and all other data necessary to ensure compliance with DHCS reporting requirements in accordance with Sections III.F. and III.G. of this Policy.

C. A Health Network shall make timely Directed Payments to Designated Providers for the following Qualifying Services, in accordance with Sections III.A. and III.B. of this Policy:

1. An Add-On Payment for Physician Services and Developmental Screening Services.

2. A Minimum Fee Payment for Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and Ground Emergency Medical Transport (GEMT) Services.

D. A Health Network shall ensure that Qualifying Services reported using specified Current Procedural Terminology (CPT) Codes, Healthcare Common Procedure Coding System (HCPCS) Codes, and Procedure Codes, as well as the Encounter data reported to CalOptima, are appropriate for the services being provided, and are not reported for non-Qualifying Services or any other services.

E. A Health Network shall have a process to communicate the requirements of this Policy, including applicable DHCS guidance, to Designated Providers. This communication must, at a minimum, include:

1. A description of the minimum requirements for a Qualifying Service;

2. How Directed Payments will be processed;

3. How to file a grievance with the Health Network and second level appeal with CalOptima; and

4. Identify the payer of the Directed Payments. (i.e. Member's Health Network that is financially responsible for the specified Direct Payment.)

F. A Health Network shall have a formal procedure for the acceptance, acknowledgement, and resolution of provider grievances related to the processing or non-payment of a Directed Payment for a Qualifying Service. In addition, a Health Network shall identify a designated point of contact for provider questions and technical assistance.

G. Directed Payment Reimbursement

1. CalOptima shall reimburse a Health Network for a Directed Payment made to a Designated Provider for Qualifying Services in accordance with Sections III.C. and III.E. of this Policy.

a. Until such time reimbursement for a Directed Payment is included in a Health Network's capitation payment, CalOptima shall reimburse a Health Network for a Directed Payment separately.

2. If DHCS provides separate revenue to CalOptima for a Directed Payment requirement in addition to standard revenue from DHCS, CalOptima shall provide a Health Network a supplemental payment in addition to the Health Network's primary capitation payment.

a. A Health Network shall process a Directed Payment as a supplemental payment and CalOptima shall reimburse a Health Network in accordance with Section III.C. of this Policy.

b. CalOptima shall reimburse a Health Network medical costs of a Directed Payment plus a 2% administrative component. CalOptima's obligation to pay a Health Network any

administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

3. If DHCS does not provide separate revenue to CalOptima and instead implements a Directed Payment as part of the Medi-Cal fee schedule change:

   a. A Health Network shall process a Directed Payment as part of the existing Medi-Cal fee schedule change process as outlined in CalOptima Policy FF.1002: CalOptima Medi-Cal Fee Schedule and CalOptima shall reimburse a Health Network in accordance with Sections III.C. and III.E. of this Policy.

   b. CalOptima shall reimburse a Health Network after the Directed Payment is distributed and the Health Network submits the Directed Payment adjustment reports as described in Section III.D. of this Policy.

H. On a monthly basis, CalOptima Accounting Department shall reimburse a Health Network the Estimated Initial Month Payment for a validated Directed Payment in accordance with Section III.E. of this Policy.

I. A Health Network may file a complaint regarding a Directed Payment received from CalOptima in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

J. CalOptima shall ensure oversight of the Directed Payment programs in accordance with CalOptima Policy GG.1619: Delegation Oversight.

III. PROCEDURE

A. Directed Payments for Qualifying Services

1. Physician Services: For dates of service on or after July 1, 2017, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers rendering Physician Services to an Eligible Member.

   a. Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Services Programs, and cost-based reimbursement clinics are not eligible to receive this Add-On Payment for Physician Services.

2. Developmental Screening Services: For dates of service on or after January 1, 2020, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics rendering Developmental Screening Services to an Eligible Member. A Developmental Screening Service must be provided in accordance with the American Academy of Pediatrics/Bright Futures periodicity schedule and guidelines and must be performed using a standardized tool that meets CMS Criteria.

   a. The following Developmental Screening Services are eligible for an Add-On Payment:

      i. A routine screening when provided:

         1) On or before the first birthday;

         2) After the first birthday and before or on the second birthday; or

3) After the second birthday and on or before the third birthday.

ii. Developmental Screening Services provided when medically necessary, in addition to routine screenings.

b. Development Screening Services are not subject to any prior authorization requirements.

c. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2 of this Policy to document the completion of the Development Screening Service with the applicable CPT Code without the modifier as specified in Attachment A of this Policy.

d. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2. of this Policy to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the Developmental Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.2.d. of this Policy are made available to CalOptima and/or DHCS upon request.

f. In the event any of the provisions of Section III.A.2. of the Policy conflicts with the applicable requirements of DHCS guidance, CMS-approved preprint, regulations, and/or statutes, such requirements shall control.

3. ACEs Screening Services: For dates of service on or after January 1, 2020, a Health Network shall reimburse Eligible Contracted Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable HCPCS Code, for rendering ACEs screening services to an Eligible Member, who is a child or an adult through sixty-four (64) years of age.

a. A Minimum Fee Payment for ACEs Screening Services shall only be made to rendering Eligible Contracted Providers that:

i. Utilize either the PEARLS tool or a qualifying ACEs questionnaire, as appropriate;

ii. Bill using one of the HCPCS Code specified in Attachment A of this Policy based on the screening score from the PEARLS tool or ACEs questionnaire used; and

iii. Are on DHCS list of providers that have completed the state-sponsored trauma-informed care training, except for dates of service prior to July 1, 2020. Commencing July 1, 2020, Eligible Contracted Providers must have taken a certified training and self-attested to completing the training to receive the Directed Payment for ACEs Screening Services.

b. A Health Network is only required to make the Minimum Fee Payment to an Eligible Contracted Provider for rendering an ACEs Screening Service, as follows:

i. Once per year per Eligible Member screened by that Eligible Contracted Provider, for a child Eligible Member assessed using the PEARLS tool.

ii. Once per lifetime per Eligible Member screened by that Eligible Contracted Provider, for an adult Eligible Member through age sixty-four (64) assessed using a qualifying ACEs questionnaire.

c. With respect to an Eligible Contracted Provider, CalOptima shall only reimburse a Health Network for the Minimum Fee Payment in accordance with Section III.A.3.b. of this Policy.

d. A Health Network shall require Eligible Contracted Providers to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the ACEs Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.3.d. of this Policy are made available to CalOptima and/or DHCS upon request.

4. Abortion Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse Eligible Contracted Providers and non-contracted Providers, as applicable, which are qualified to provide and bill for Abortion Services, a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing Abortion Services to a Member.

a. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

5. GEMT Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse non-contracted GEMT Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing GEMT Services to a Member.

a. A Health Network shall identify and satisfy any Medicare crossover payment obligations that may result from the increase in GEMT Services reimbursement obligations.

b. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

B. Timing of Directed Payments

1. Timeframes with Initial Directed Payment: When DHCS final guidance requires an initial Directed Payment for clean claims or accepted encounters received by the Health Network with specified dates of service (*i.e.*, between a specific date of service and the date CalOptima receives the initial funding from DHCS for the Directed Payment), a Health Network shall

ensure the initial Directed Payment required by this Policy is made, as necessary, within ninety (90) calendar days of the date CalOptima receives the initial funding from DHCS for the Directed Payment. From the date CalOptima receives the initial funding onward, a Health Network shall ensure subsequent Directed Payments required by this Policy are made within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or accepted encounter is received by the Health Network no later than one (1) year after the date of service.

a. Initial Directed Payment: The initial Directed Payment shall include adjustments for any payments previously made by a Health Network to a Designated Provider based on the expected rates for Qualifying Services set forth in the Pending SPA or based on the established Directed Payment program criteria, rates and Qualifying Services, as applicable, pursuant to Section III.B.4. of this Policy.

b. Abortion Services: For clean claims or accepted encounters for Abortion Services with specified dates of service (*i.e.*, between July 1, 2017 and the date CalOptima receives the initial funding for Directed Payment from DHCS) that are timely submitted to a Health Network and have not been reimbursed the Minimum Fee Payment in accordance with this Policy, a Health Network shall issue the Minimum Fee Payment required by this Policy in a manner that does not require resubmission of claims or impose any reductions or denials for timeliness.

2. Timeframes without Initial Directed Payment: When DHCS final guidance does not expressly require an initial Directed Payment under Section III.B.1 of this Policy, a Health Network shall ensure that Directed Payments required by this Policy are made:

a. Within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or encounter is received no later than one (1) year from the date of service.

b. Retroactively within ninety (90) calendar days of DHCS final guidance when a clean claim or accepted encounter for Qualifying Services is received prior to such guidance.

3. Notice by CalOptima

a. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the requirements of DHCS final guidance for each Directed Payment program for Qualifying Services by no later than fifteen (15) calendar days from the release date of DHCS final guidance.

b. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the date that CalOptima received the initial funding for the Directed Payment from DHCS, by no later than fifteen (15) calendar days from the date of receipt. This provision applies to initial funding received by CalOptima on or after April 1, 2020, provided that DHCS final guidance requires initial Directed Payment as set forth in Section III.B.1. of this Policy.

c. If DHCS files a State Plan Amendment (SPA) with CMS for an extension of a Directed Payment program ("Pending SPA") and CalOptima Board of Directors or Chief Executive Officer, pursuant to DHCS written instruction, approves the continuation of payment of the Directed Payment before DHCS final guidance is issued, CalOptima Health Network Relations Department shall notify the Health Networks, in writing, to continue to pay the Directed Payment to Designated Providers for Qualifying Services with specified dates of service.

4. Extension of Directed Payment Program:

    a. Upon receipt of written notice from CalOptima under Section III.B.3.c. of this Policy, a Health Network shall reimburse a Designated Provider for a Directed Payment according to the expected rates and Qualifying Services for the applicable time period as set forth in the Pending SPA or, at a minimum, according to the previously established Directed Payment program criteria, rates, and Qualifying Services, as applicable, until such time as the DHCS issues the final guidance.

    b. A Health Network shall ensure timely reconciliation and compliance with the final payment provisions as provided in DHCS final guidance when issued.

5. GEMT Services: A Health Network is not required to pay the Add-On Payment for GEMT Services for claims or encounters submitted more than one (1) year after the date of service, unless the non-contracted GEMT Provider can show good cause for the untimely submission.

    a. Good cause is shown when the record clearly shows that the delay in submitting a claim or encounter was due to one of the following:

        i. The Member has other sources of health coverage;

        ii. The Member's medical condition is such that the GEMT Provider is unable to verify the Member's Medi-Cal eligibility at the time of service or subsequently verify with due diligence;

        iii. Incorrect or incomplete information about the subject claim or encounter was furnished by the Health Network to the GEMT Provider; or

        iv. Unavoidable circumstances that prevented the GEMT Provider from timely submitting a claim or encounter, such as major floods, fires, tornadoes, and other natural catastrophes.

C. Directed Payments Processing

1. On a monthly basis, CalOptima shall reimburse a Health Network after the Health Network distributes the Directed Payment and the Health Network submits the Directed Payment adjustment reports in accordance with Section III.D. of this Policy.

    a. The CalOptima Accounting Department shall reconcile and validate the data through the Directed Payment adjustment report process prior to making a final payment adjustment to a Health Network.

2. If a Health Network identifies an overpayment of a Directed Payment, a Health Network shall return the overpayment within sixty (60) calendar days after the date on which the overpayment was identified, and shall notify CalOptima Accounting Department, in writing, of the reason for the overpayment. CalOptima shall coordinate with a Health Network on the process to return the overpayment in accordance with CalOptima Policy FF.1001: Capitation Payments.

    a. CalOptima shall notify a Health Network of acceptance, adjustment or rejection of the overpayment no later than three (3) business days after receipt.

    b. If CalOptima adjusts or rejects the overpayment, CalOptima shall include the overpayment adjustment in the subsequent month's process.

c. In the event CalOptima identifies that Directed Payments were made by a Health Network to a non-Designated Provider, or for non-Qualifying Services, or for services provided to a non-Member or a non-Eligible Member, as applicable, such Directed Payments shall constitute an overpayment which CalOptima shall recover from the Health Network**.**

D. Directed Payment Adjustment Process

1. As soon as a Health Network has processed and paid a Designated Provider for a Directed Payment, a Health Network shall submit a Directed Payment adjustment report for Qualifying Services by the tenth (10th) calendar day after the month ends to CalOptima's secure File Transfer Protocol (sFTP) site. A Health Network shall submit an adjustment report using CalOptima's proprietary format and file naming convention.

2. CalOptima Information Services Department shall notify a Health Network of file acceptance or rejection no later than three (3) business days after receipt. CalOptima may reject a file for data completeness, accuracy or inconsistency issues. If CalOptima rejects a file, a Health Network shall resubmit a corrected file no later than the tenth (10th) calendar day of the following month. Any resubmission after the tenth (10th) calendar day of the month will be included in the subsequent month's process.

3. Upon request, a Health Network shall provide additional information to support a submitted Directed Payment adjustment report to CalOptima Accounting Department within five (5) business days of the request.

4. For a complete Directed Payment adjustment report accepted by CalOptima Accounting Department, CalOptima shall reimburse a Health Network's medical costs of a Directed Payment plus a 2% administrative component no later than the twentieth (20th) calendar day of the current month based upon prior month's data. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

E. Estimated Initial Month Payment Process

1. On a monthly basis, CalOptima shall issue an Estimated Initial Month Payment to a Health Network. During the first month of implementation, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network no later than the 10th of the implementing month and as follows:

   a. When available, the Estimated Initial Month Payment shall be based upon the most recent rolling three-month average of the paid claims; or

   b. If actual data regarding the specific services tied to a Directed Payment are not available, CalOptima shall base the Estimated Initial Month Payment on the expected monthly cost of those services.

2. Thereafter, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network for a Directed Payment no later than the 20th of the month for services paid in that month.

3. CalOptima Accounting Department shall reconcile the prior month's Estimated Initial Month Payment against a Health Network's submitted Directed Payment adjustment report for the prior month. CalOptima shall adjust the current month's Estimated Initial Month Payment, either positively or negatively based upon the reconciliation.

4. Following the first month of implementation and thereafter, the Estimated Initial Month Payment, CalOptima Accounting Department shall disburse funds to a Health Network based upon the previous month's submitted Directed Payment adjustment report.

F. A Health Network shall report an Encounter in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such Encounter.

G. Reporting

1. A Health Network shall submit all data related to Directed Payments to the CalOptima Information Services Department through the CalOptima secure File Transport Protocol (sFTP) site in a format specified by CalOptima, and in accordance with DHCS guidance, within fifteen (15) calendar days of the end of the applicable reporting quarter. Reports shall include, at a minimum, the CPT, HCPCS, or Procedure Code, service month, payor (*i.e.*, Health Network, or its delegated entity or subcontractor), and rendering Designated Provider's National Provider Identifier. CalOptima may require additional data as deemed necessary.

   a. Updated quarterly reports must be a replacement of all prior submissions. If no updated information is available for the quarterly report, a Health Network must submit an attestation to CalOptima stating that no updated information is available.

   b. If updated information is available for the quarterly report, a Health Network must submit the updated quarterly report in the appropriate file format and include an attestation that a Health Network considers the report complete.

2. CalOptima shall reconcile the Health Network's data reports and ensure submission to DHCS within forty-five (45) days of the end of the applicable reporting quarter as applicable.

VIII. REVISION HISTORY

Action	Date	Policy	Policy Title	Program(s)
Effective	04/02/2020	FF.2011	Directed Payments	Medi-Cal

IX. GLOSSARY

Term	Definition
Abortion Services	Specified medical pregnancy termination services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to a Member.
Add-On Payment	Directed Payment that funds a supplemental payment for certain Qualifying Services at a rate set forth by DHCS that is in addition to any other payment, fee-for-service or capitation, a specified Designated Provider receives from a Health Network.
Adverse Childhood Experiences (ACEs) Screening Services	Specified adverse childhood experiences screening services, as listed by the HCPCS Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member through the use of either the Pediatric ACEs and Related Life-events Screener (PEARLS) tool for children (ages 0 to 19 years) or a qualifying ACEs questionnaire for adults (ages 18 years and older). An ACEs questionnaire or PEARLS tool may be utilized for Eligible Members who are 18 or 19 years of age. The ACEs screening portion of the PEARLS tool (Part 1) is also valid for use to conduct ACEs screenings among adult Eligible Members ages 20 years and older. If an alternative version of the ACEs questionnaire for adult Eligible Members is used, it must contain questions on the 10 original categories of the ACEs to qualify.
American Indian Health Services Program	Programs operated with funds from the IHS under the Indian Self-Determination Act and the Indian Health Care Improvement Act, through which services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.
Centers for Medicare and Medicaid Services (CMS) Criteria	For purpose of this Policy, the use of a standardized tool for Developmental Screening Services that meets all of the following CMS criteria: 1. Developmental domains: The following domains must be included in the standardized developmental screening tool: motor, language, cognitive, and social-emotional; 2. Establish Reliability: Reliability scores of approximately 0.70 or above; 3. Established Findings Regarding the Validity: Validity scores for the tool must be approximately 0.70 or above. Measures of validity must be conducted on a significant number of children and using an appropriate standardized developmental or social-emotional assessment instrument(s); and 4. Established Sensitivity/Specificity: Sensitivity and specificity scores of approximately 0.70 or above.

Term	Definition
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program (as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301), the Child Health and Disability Prevention program (as set forth in Title 17, CCR, Division 1, Chapter 4, Subchapter 13, Article 4, beginning with section 6842), and the California Children's Services (as set forth in Title 22, CCR, Division 2, subdivision 7, and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 2.985, beginning with section 14094.4) under the Whole-Child Model program effective July 1, 2019, to the extent those services are included as Covered Services under CalOptima's Medi-Cal Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), and Health Homes Program (HHP) services (as set forth in DHCS All Plan Letter 18-012 and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 3.9, beginning with section 14127), effective January 1, 2020 for HHP Members with eligible physical chronic conditions and substance use disorders, or other services as authorized by the CalOptima Board of Directors, which shall be covered for Members not-withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Department of Health Care Services (DHCS)	The state department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California).
Designated Providers	Include the following Providers that are eligible to receive a Directed Payment in accordance with this Policy and applicable DHCS All Plan Letter or other regulatory guidance for specified Qualifying Services for the applicable time period: 1. Eligible Contracted Providers for Physician Services, ACEs Screening Services, and Abortion Services; 2. Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics for Developmental Screening Services; 3. Non-contracted GEMT Providers for GEMT Services; and 4. Non-contracted Providers for Abortion Services.
Developmental Screening Services	Specified developmental screening services, as listed by the CPT Code for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member, in accordance with the American Academy of Pediatrics (AAP)/Bright Futures periodicity schedule and guidelines for pediatric periodic health visits at nine (9) months, eighteen (18) months, and thirty (30) months of age and when medically necessary based on Developmental Surveillance and through use of a standardized tool that meets CMS Criteria.
Developmental Surveillance	A flexible, longitudinal, and continuous process that includes eliciting and attending to concerns of an Eligible Member's parents, maintaining a developmental history, making accurate and informed observations, identifying the presence of risk and protective factors, and documenting the process and findings.
Directed Payment	An Add-On Payment or Minimum Fee Payment required by DHCS to be made to a Designated Provider for Qualifying Services with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments.

Term	Definition
Eligible Contracted Provider	An individual rendering Provider who is contracted with a Health Network to provide Medi-Cal Covered Services to Members, including Eligible Members, assigned to that Health Network and is qualified to provide and bill for the applicable Qualifying Services (excluding GEMT Services) on the date of service. Notwithstanding the above, if the Provider's written contract with a Health Network does not meet the network provider criteria set forth in DHCS APL 19-001: Medi-Cal Managed Care Health Plan Guidance on Network Provider Status and/or in DHCS guidance regarding Directed Payments, the services provided by the Provider under that contract shall not be eligible for Directed Payments for rating periods commencing on or after July 1, 2019.
Eligible Member	For purpose of this Policy, a Medi-Cal Member who is not dually eligible for Medi-Cal and Medicare Part B (regardless of enrollment in Medicare Part A or Part D).
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services.
Estimated Initial Month Payment	A payment to a Health Network based upon the most recent rolling three-month average of Directed Payment program-specific paid claims. If actual data regarding the specific services tied to a Directed Payment are not available, this payment is based upon the expected monthly cost of those services. This payment will not include an administrative component.
Federally Qualified Health Center (FQHC)	A type of provider defined by the Medicare and Medicaid statutes. FQHCs include all organizations receiving grants under Section 330 of the Public Health Service Act, certain tribal organizations, and FQHC Look-Alikes. An FQHC must be a public entity or a private non-profit organization. FQHCs must provide primary care services for all age groups.
Ground Emergency Medical Transport (GEMT) Services	Specified ground emergency medical transport services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services and defined as the act of transporting a Member from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the Member, by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance and/or any transports billed when, following evaluation of a Member, a transport is not provided.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, and Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned in that particular Health Network.
Member	For purpose of this Policy, a Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima Medi-Cal program and assigned to a Health Network at the time Qualifying Services are rendered.

Term	Definition
Minimum Fee Payment	A Directed Payment that sets the minimum rate, as prescribed by DHCS, for which a specified Designated Provider must be reimbursed fee-for-service for certain Qualifying Services. If a Designated Provider is capitated for such Qualifying Services, payments should meet the differential between the Medi-Cal fee schedule rate and the required Directed Payment amount.
Provider	For purpose of this Policy, any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is licensed or certified to do so.
Physician Services	Specified physician services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member.
Qualifying Services	Include only the following Covered Services: Physician Services, Developmental Screening Services, Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and GEMT Services.
Rural Health Clinic (RHC)	An organized outpatient clinic or hospital outpatient department located in a rural shortage area, which has been certified by the Secretary, United States Department of Health and Human Services.

47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 6, 2019
Regular Meeting of the CalOptima Board of Directors

Consent Calendar
8. Consider Ratification of Standardized Annual Proposition 56 Provider Payment Process

Contact
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions
Ratify standardized annual Proposition 56 provider payment process.

Background
Proposition 56 increases the excise tax rate on cigarettes and tobacco products to fund specified expenditures for existing health care programs administered by the Department of Health Care Services (DHCS). DHCS releases guidance to Medi-Cal managed care plans (MCP) of Proposition 56 provider payments through an All Plan Letter (APL). The APLs includes guidance regarding providers eligible for payment, service codes eligible for reimbursement, timeliness requirements to make payments, and MCP reporting requirements.

Eligible Proposition 56 provider payment adjustments are applied toward specific services provided during a State Fiscal Year (SFY), which runs from July 1 through June 30. While the payment period begins at the beginning of the SFY, final Proposition 56 guidance is not provided until after the fiscal year begins. For example, Proposition 56 guidance for SFY 2017-18 was received on May 1, 2018, ten months after the start of the fiscal year. Thus, MCPs are required to make a one-time retroactive payment adjustment to catch-up for dates of service (DOS) from the beginning of the SFY to the catch-up date. Once the initial catch-up payments are distributed, future payments are made within the timeframe specific in the APL.

On June 7, 2018 the CalOptima Board of Directors (Board) authorized implementation of initial payment and ongoing processing payments for Proposition 56 SFY 2017-18. In September 2018 DHCS instructed MCPs to continue Proposition 56 SFY 2017-18 provisions for DOS in SFY 2018-19, until SFY 2018-19 guidance was finalized. DHCS released draft Proposition 56 guidance for SFY 2018-19 on April 12, 2019. Final guidance has not been released as of May 28, 2019.

Discussion
In order to meet timeliness requirements for Proposition 56 payments each SFY and anticipating that requirements will continue to be released by APL or directly by DHCS, CalOptima staff recommends establishing a standardized annual process for Proposition 56 payment distributions. Ratification of this process is requested since CalOptima is required to distribute initial SFY 2018-19 Proposition 56 funds to providers no later than June 12, 2019, even though the final APL for the current fiscal year has not been released. The standardized process will apply to covered Medi-Cal Proposition 56 benefits administered directly by CalOptima (CalOptima Community Network or CalOptima Direct), or a

delegated health network. To comply with the annual Proposition requirements, CalOptima staff recommends utilizing the current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the receipt of initial payment from DHCS for the Proposition 56 designated SFY, CalOptima recommends an initial catch-up payment, if required, for eligible services between the beginning of the SFY to the current date, unless otherwise defined by DHCS. To process the initial catch-up payment, historical claims and encounter data will be utilized to identify the additional payments retroactively. Initial payments will be distributed no later than the timeliness requirements as defined in the APL. Similar to the previous process utilized, the following is recommended for each annual initial catch up payment:

- CalOptima Direct, which includes CalOptima Direct Administrative and CalOptima Community Network, and other providers paid directly by CalOptima for non-delegated Medi-Cal covered services (e.g., behavioral health providers): CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims and encounters submitted for DOS beginning the SFY to the current date, unless otherwise defined by DHCS.

- Health networks: Health network to utilize claims and encounter data to identify and appropriately pay providers retroactively for eligible services submitted for DOS beginning the SFY to the current date, unless otherwise defined by DHCS. CalOptima will prefund the health network for estimated medical costs. Health network will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the prefunded medical costs, negative and positive, will be reconciled towards future Proposition 56 reimbursements. In addition, a 2% administrative component based on total medical costs will be remitted to the health network.

Ongoing Processing

Once the initial payment is distributed, future Proposition 56 provider payments must be made within the timeframe as defined in the Proposition 56 APL for eligible clean claims or adjusted encounters. The following is recommended for ongoing processing provided that CalOptima continues to receive funding for Proposition 56:

- CalOptima Direct, which includes CalOptima Direct Administrative and CalOptima Community Network, and other providers paid directly by CalOptima for non-delegated Medi-Cal covered services (e.g., behavioral health providers): CalOptima will pay providers within the timeframe as defined by DHCS as claims or encounters are received.

- Health networks: Health network will pay providers within the timeframe defined by DHCS as claims or encounters are received. Concurrently, health network will be required to submit provider payment confirmation reports on a monthly basis that eligible Proposition 56 claims and encounter payments were issued timely. Reports will be due within 10 calendar days of the

end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component. Health networks will be required to report any recouped or refunded Proposition 56 payments received from providers. CalOptima will reconcile negative Proposition 56 medical and administrative payment adjustments towards future Proposition 56 reimbursements.

CalOptima, health networks will be expected to meet all reporting requirements as defined in the Proposition 56 APL or specifically requested by DHCS. Current processes will be used for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with all regulatory requirements and CalOptima's expectations related to Proposition 56. Additionally, current policy and procedures will be followed related to provider payment recoupment, where applicable.

This process applies to eligible services and providers as prescribed through a Proposition 56 APL or directed by DHCS. CalOptima staff will return to the Board for further approval if any future DHCS Proposition 56 requirements warrant significant changes to the proposed process. Additionally, should implementation of Proposition 56 require modifications to current health network, vendor, or provider contracts, CalOptima staff will seek separate Board action to the extent required.

Fiscal Impact
The recommended action to ratify the standardized annual Proposition 56 provider payment process is projected to be budget neutral to CalOptima. Based on historical claims experience, Staff anticipates medical expenditures will be of an equivalent amount as the Proposition 56 funding provided by DHCS annually, resulting in a budget neutral impact to CalOptima's operating income.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Back to Agenda Back to Item

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

9. Consider Actions Related to the Implementation of Statutorily-Mandated Rate Increases for Medi-Cal Non-Contracted Ground Emergency Medical Transport (GEMT) Provider Services

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Approve payments to the capitated hospital(s) and HMOs for statutorily-mandated retrospective rate increases for specific services provided by non-contracted Ground Emergency Medical Transport providers to Medi-Cal members during the period of July 1, 2018 through June 30, 2019 and an administrative fee for claims adjustments; and
2. Direct the Chief Executive Officer, with the assistance of Legal Counsel, to amend the CalOptima Physician Hospital Consortium capitated Hospital and Full-Risk Health Network Medi-Cal contracts to incorporate the retrospective non-contracted Ground Emergency Medical Transport provider rate increase requirements for the July 1, 2018 through June 30, 2019 period and the additional compensation to these health networks for such services.

Background/Discussion

In accordance with Senate Bill (SB) 523 (Chapter 773, Statutes of 2017), the California Department of Health Care Services (DHCS) established increased Ground Emergency Medical Transport (GEMT) provider payments through the Quality Assurance Fee program for certain Medi-Cal related services rendered in State Fiscal Year (SFY) 2018-19. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare & Medicaid Services for GEMT provider payments through California State Plan Amendment 18-004. On April 5, 2019, CalOptima received initial funding for the retrospective non-contracted GEMT provider payment increase, separate from the standard capitation payment. Final guidance regarding distribution of non-contracted GEMT provider payments was released by DHCS through All Plan Letter (APL) 19-007, dated June 14, 2019.

Per DHCS guidance, CalOptima is required to provide increased reimbursement to out-of-network providers for GEMT service codes A0429 (Basic Life Support Emergency), A0427 (Advanced Life Support Emergency), and A0433 (Advanced Life Support, Level 2). CalOptima must reimburse out-of-network providers a total of $339 for each designated GEMT service provided by during SFY 2018-19 (July 1, 2018 to June 30, 2019). Excluded services include those billed by air ambulance providers and services billed when transport is not provided. DHCS has mandated that payments for the above increased rates are to be distributed no later than July 3, 2019.

At this time, the total reimbursement rate of $339 per identified service is time-limited and in effect for SFY 2018-19. Increased reimbursement for the specified GEMT services may potentially be extended into future fiscal years and may include additional GEMT transport codes. If the reimbursement

increase is extended, and/or includes additional GEMT transport codes, DHCS will provide further guidance after necessary federal approval is obtained.

In order to meet timeliness requirements for non-contracted GEMT provider payment adjustments for services provided during SFY 2018-19, CalOptima and its delegated health networks followed the existing Fee Schedule change process. Through this process, eligible claims previously adjudicated and paid were adjusted to the increased reimbursement rate. New claims are paid at the appropriate fee schedule as they are received.

For the physician-hospital consortium (PHC) hospitals and health maintenance organization (HMO) health networks that are financially responsible for non-contracted GEMT services, CalOptima staff recommends reimbursing the health networks the difference between the base Medi-Cal rate for the specific service and the required $339 enhanced rate. The health networks will be required to submit GEMT payment adjustment confirmation reports. Upon receipt of the confirmation report, CalOptima will reconcile the report against encounters and other claims reports received and reimburse each health network's medical costs, separate from their standard capitation payments, plus a 2% administrative component based on rate adjustments made by health networks.

CalOptima and its health networks will be expected to meet all reporting requirements as required by DHCS. Current processes will be leveraged for specific reporting requirements, provider grievances, and health network claims payment audit and oversight to comply with all regulatory requirements. Additionally, current policy and procedures will be followed related to provider payment recoupment, where applicable.

This process applies to eligible services and providers as directed by the DHCS. The same process will be leveraged should GEMT provisions be extended past SFY 2018-19, modified through an APL, or otherwise directed by DHCS. CalOptima staff will return to the Board for approval if any future DHCS non-contract GEMT provider payment requirements warrant significant changes to the proposed process.

Fiscal Impact

The recommended action to implement additional payment requirements for specified services provided by non-contracted GEMT providers to CalOptima Medi-Cal members in SFY 2018-19 is budget neutral. The anticipated Medi-Cal revenue is projected to be sufficient to cover the costs of the increased expense. Management included projected revenues and expenses related to non-contracted GEMT provider payment requirements in the CalOptima Fiscal Year 2019-20 Operating Budget approved by the Board on June 6, 2019.

Rationale for Recommendation

The recommended action will enable CalOptima to be compliant with All-Plan Letter (APL) 19-007: Non–Contract Ground Emergency Medical Transport Payment Obligations for State Fiscal Year 2018–19.

Concurrence

Dear Ms. Cantwell:

Enclosed is an approved copy of California State Plan Amendment (SPA) 18-004, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on July 11, 2018. SPA 18-004 implements a one-year Quality Assurance Fee (QAF) program and reimbursement add-on for Ground Emergency Medical Transports (GEMT) provided by emergency medical transportation providers effective for the State Fiscal Year (SFY) 2018-19 from July 1, 2018 to June 30, 2019.

The effective date of this SPA is July 1, 2018. Enclosed are the following approved SPA pages that should be incorporated into your approved state plan:

- Supplement 29 to Attachment 4.19-B, pages 1-2

If you have any questions, please contact Cheryl Young at 415-744-3598 or via email at Cheryl.Young@cms.hhs.gov.

Sincerely,

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

ONE-YEAR REIMBURSEMENT RATE ADD-ON FOR GROUND EMERGENCY MEDICAL TRANSPORT SERVICES

Introduction

This program provides increased reimbursement to ground emergency medical transport providers by application of an add-on to the Medi-Cal fee-for-service (FFS) fee schedule base rates for eligible emergency medical transportation services. The reimbursement rate add-on will apply to eligible Current Procedural Terminology (CPT) Codes, between July 1, 2018 and June 30, 2019. The base rates for emergency medical transportation services will remain unchanged through this amendment.

"Emergency medical transport" means the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT Codes A0429, A0427, and A0433.

Methodology

For State Fiscal Year (SFY) 2018-19, the reimbursement rate add-on is fixed for FY 2018-19. The resulting payment amounts are equal to the sum of the FFS fee schedule base rate for the SFY 2015-16 and the add-on amount for the CPT Code. The resulting total payment amount for CPT Codes A0429, A0427, and A0433 will be $339.00. The add-on is paid on a per-claim basis.

Service Code	Description	Current Payment	Add On Amount	Resulting Total Payment
A0429	Basic Life Support	$118.20	$220.80	$339.00
A0427	Advanced Life Support, Level 1	$118.20	$220.80	$339.00
A0433	Advanced Life Support, Level 2	$118.20	$220.80	$339.00

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

The resulting total payment amount of $339.00 is considered the Rogers rate, which is the minimum rate that managed care organizations can pay noncontract managed care emergency medical transport providers, for each state fiscal year the FFS reimbursement rate add-on is effective.

ALL PLAN LETTER 19-007

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS[1]

SUBJECT: NON-CONTRACT GROUND EMERGENCY MEDICAL TRANSPORT PAYMENT OBLIGATIONS FOR STATE FISCAL YEAR 2018-19

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide Medi-Cal managed care health plans (MCPs) with information regarding increased reimbursement for Fee-For-Service (FFS) ground emergency medical transport (GEMT) for Current Procedural Terminology (CPT) codes A0429, A0427, and A0433. The increased FFS reimbursement will affect MCP reimbursement of out-of-network GEMT services as required by section 1396u-2(b)(2)(D) of Title 42 of the United States Code (USC), commonly referred to as "Rogers Rates."

BACKGROUND:
Pursuant to the Legislature's addition of Article 3.91 (Medi-Cal Emergency Medical Transportation Reimbursement Act) to the Welfare and Institutions Code (WIC) in 2017, DHCS established the GEMT Quality Assurance Fee (QAF) program. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare and Medicaid Services (CMS) for California State Plan Amendment (SPA) 18-004, with an effective date of July 1, 2018. SPA 18-004 implements a one-year QAF program and reimbursement add-on for GEMT provided by emergency medical transportation providers effective for State Fiscal Year (SFY) 2018-19 from July 1, 2018, to June 30, 2019.

POLICY:
In accordance with 42 USC Section 1396u-2(b)(2)(D), Title 42 of the Code of Federal Regulations part 438.114(c), and WIC Sections 14129-14129.7, MCPs must provide increased reimbursement rates for specified GEMT services to non-contracted GEMT providers.

Under WIC Section 14129(g), emergency medical transport is defined as the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes,

[1] This APL does not apply to Prepaid Ambulatory Health Plans.

ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT codes A0429 (BLS Emergency), A0427 (ALS Emergency), and A0433 (ALS2), excluding any transports billed when, following evaluation of a patient, a transport is not provided.

For each qualifying emergency ambulance transport billed with the specified CPT codes, the total FFS reimbursement will be $339.00 for SFY 2018-2019. Accordingly, MCPs reimbursing non-contracted GEMT providers for those services must pay a "Rogers Rate" for a total reimbursement rate of $339.00 for each qualifying emergency ambulance transport provided during SFY 2018-19 and billed with the specified CPT codes.

At this time, the total reimbursement rate of $339.00 for each qualifying emergency ambulance transport billed with the specified CPT codes is time-limited, and is only in effect for SFY 2018-19 dates of service from July 1, 2018, to June 30, 2019. Increased reimbursement for the specified GEMT services may be extended into future fiscal years, and may include additional GEMT codes. If the reimbursement increase is extended, and/or includes additional GEMT codes, DHCS will provide MCPs with further guidance after necessary federal approval is obtained.

Timing of Payment and Claim Submission

The projected value of this payment obligation will be accounted for in the MCPs' actuarially certified risk-based capitation rates. Within 90 calendar days from the date DHCS issues the capitation payments to MCPs for GEMT payment obligations specified in this APL, MCPs must pay, as required by this APL, for all clean claims or accepted encounters with the dates of service between July 1, 2018, and the date the MCP receives such capitation payment from DHCS.

Once DHCS begins issuing the capitation payments to the MCPs for the GEMT payment obligations specified in this APL, MCPs must pay as required by this APL within 90 calendar days of receiving a qualifying clean claim or an accepted encounter.

MCPs are required to make timely payments in accordance with this APL for clean claims or accepted encounters for qualifying transports submitted to the MCPs within one year after the date of service. MCPs are not required to pay the GEMT payment obligation specified in this APL for claims or encounters submitted more than one year after the date of service unless the non-contracted GEMT provider can show good cause.

These submission and payment timing requirements may be waived only if agreed to in writing between the MCPs, the MCPs' delegated entities, or subcontractors, and the rendering GEMT provider.

Impacts Related to Medicare

For dual eligible beneficiaries with Medicare Part B coverage, the increased Medi-Cal reimbursement level may result in a crossover payment obligation on the MCP, because the new Medi-Cal reimbursement amount may exceed 80 percent of the Medicare fee schedule. Based on current Medicare reimbursement rates, the only CPT code where this scenario may occur in certain geographic areas is A0429. MCPs are responsible for identifying and satisfying any Medicare crossover payment obligations that result from the increase in GEMT reimbursement obligations described in this APL.

In instances where a member is found to have other health coverage sources, MCPs must cost avoid or make a post-payment recovery in accordance with the "Cost Avoidance and Post-Payment Recovery of Other Health Coverage Sources" provision of Attachment 2 to Exhibit E of the MCP Contract.

Other Obligations

MCPs are responsible for ensuring qualifying transports reported using the specified CPT codes are appropriate for the services being provided and are reported to DHCS in encounter data pursuant to APL 14-019.

MCPs are responsible for ensuring that their delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs, policy letters, and duals plan letters. MCPs must communicate these requirements to all delegated entities and subcontractors.

Pursuant to the MCP Contract, MCPs must have a formal procedure to accept, acknowledge, and resolve provider grievances related to the processing or non-payment related to this APL. In addition, MCPs must identify a designated point of contact for provider questions and technical assistance.

If you have any questions regarding the requirements of this APL, please contact your Managed Care Operations Division contract manager.

Sincerely,

Original Signed by Sarah Brooks

Sarah Brooks, Deputy Director
Health Care Delivery Systems

Department of Health Care Services Medi-Cal

Ground Emergency Medical Transport Quality Assurance Fee

June 28, 2018

In accordance with Senate Bill 523 (Chapter 773, Statutes of 2017), the Department of Health Care Services (DHCS) has finalized the fiscal year 2018 – 2019 Ground Emergency Medical Transport Quality Assurance Fee (QAF) rate and add-on amount to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport, as listed below. The QAF is assessed on each qualified emergency medical transport, regardless of payer. The add-on will be provided in addition to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport billing codes. The fiscal year 2018 – 2019 QAF rate and add-on amount are as follows:

Add-on Amount: $220.80

QAF Rate: $24.80

The resulting fiscal year 2018 – 2019 total fee-for-service reimbursement amount will be $339 for HCPCS codes A0427, A0429 and A0433 (ground medical transportation services).

For more details regarding the Ground Emergency Medical Transport QAF Program and the reporting requirements and instructions, visit the Ground Emergency Medical Transport Quality Assurance Fee website.

Questions or comments may be submitted to the DHCS Ground Emergency Medical Transport QAF email box: GEMTQAF@dhcs.ca.gov.

Policy:	FF.2011
Title:	**Directed Payments**
Department:	Claims Administration
Section:	Not Applicable
Interim CEO Approval:	*/s/ Richard Sanchez 04/15/2020*
Effective Date:	04/02/2020
Revised Date:	Not applicable
Applicable to:	☒ Medi-Cal ☐ OneCare ☐ OneCare Connect ☐ PACE ☐ Administrative

I. PURPOSE

This Policy establishes requirements pursuant to which CalOptima and a Health Network shall administer the Directed Payments for Qualifying Services, including processes for the reimbursement of Directed Payments by CalOptima to a Health Network and by a Health Network to its Designated Providers.

II. POLICY

A. CalOptima shall reimburse a Health Network for Directed Payments made to a Designated Provider for Qualifying Services in accordance with this Policy, including Attachment A of this Policy.

B. A Health Network shall qualify for the reimbursement of Directed Payments for Qualifying Services if:

1. The Health Network processed the Directed Payment to a Designated Provider in compliance with this Policy and applicable statutory, regulatory, and contractual requirements, as well as Department of Health Care Services (DHCS) guidance and Centers for Medicare & Medicaid Services (CMS) approved preprint;

2. The Qualifying Services were eligible for reimbursement (*e.g.*, based on coverage, coding, and billing requirements);

3. The Member or Eligible Member, as applicable and as those terms are defined in this Policy, was assigned to the Health Network on the date of service;

4. The Designated Provider was eligible to receive the Directed Payment;

5. The Qualifying Services were rendered by a Designated Provider on an eligible date of service;

6. The Health Network reimbursed the Designated Provider within the required timeframe, as set forth in Section III.B. of this Policy; and

7. The Health Network submits Encounter data and all other data necessary to ensure compliance with DHCS reporting requirements in accordance with Sections III.F. and III.G. of this Policy.

Back to Agenda Back to Item

C. A Health Network shall make timely Directed Payments to Designated Providers for the following Qualifying Services, in accordance with Sections III.A. and III.B. of this Policy:

1. An Add-On Payment for Physician Services and Developmental Screening Services.

2. A Minimum Fee Payment for Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and Ground Emergency Medical Transport (GEMT) Services.

D. A Health Network shall ensure that Qualifying Services reported using specified Current Procedural Terminology (CPT) Codes, Healthcare Common Procedure Coding System (HCPCS) Codes, and Procedure Codes, as well as the Encounter data reported to CalOptima, are appropriate for the services being provided, and are not reported for non-Qualifying Services or any other services.

E. A Health Network shall have a process to communicate the requirements of this Policy, including applicable DHCS guidance, to Designated Providers. This communication must, at a minimum, include:

1. A description of the minimum requirements for a Qualifying Service;

2. How Directed Payments will be processed;

3. How to file a grievance with the Health Network and second level appeal with CalOptima; and

4. Identify the payer of the Directed Payments. (i.e. Member's Health Network that is financially responsible for the specified Direct Payment.)

F. A Health Network shall have a formal procedure for the acceptance, acknowledgement, and resolution of provider grievances related to the processing or non-payment of a Directed Payment for a Qualifying Service. In addition, a Health Network shall identify a designated point of contact for provider questions and technical assistance.

G. Directed Payment Reimbursement

1. CalOptima shall reimburse a Health Network for a Directed Payment made to a Designated Provider for Qualifying Services in accordance with Sections III.C. and III.E. of this Policy.

   a. Until such time reimbursement for a Directed Payment is included in a Health Network's capitation payment, CalOptima shall reimburse a Health Network for a Directed Payment separately.

2. If DHCS provides separate revenue to CalOptima for a Directed Payment requirement in addition to standard revenue from DHCS, CalOptima shall provide a Health Network a supplemental payment in addition to the Health Network's primary capitation payment.

   a. A Health Network shall process a Directed Payment as a supplemental payment and CalOptima shall reimburse a Health Network in accordance with Section III.C. of this Policy.

   b. CalOptima shall reimburse a Health Network medical costs of a Directed Payment plus a 2% administrative component. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

3. If DHCS does not provide separate revenue to CalOptima and instead implements a Directed Payment as part of the Medi-Cal fee schedule change:

    a. A Health Network shall process a Directed Payment as part of the existing Medi-Cal fee schedule change process as outlined in CalOptima Policy FF.1002: CalOptima Medi-Cal Fee Schedule and CalOptima shall reimburse a Health Network in accordance with Sections III.C. and III.E. of this Policy.

    b. CalOptima shall reimburse a Health Network after the Directed Payment is distributed and the Health Network submits the Directed Payment adjustment reports as described in Section III.D. of this Policy.

H. On a monthly basis, CalOptima Accounting Department shall reimburse a Health Network the Estimated Initial Month Payment for a validated Directed Payment in accordance with Section III.E. of this Policy.

I. A Health Network may file a complaint regarding a Directed Payment received from CalOptima in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

J. CalOptima shall ensure oversight of the Directed Payment programs in accordance with CalOptima Policy GG.1619: Delegation Oversight.

III. PROCEDURE

A. Directed Payments for Qualifying Services

1. Physician Services: For dates of service on or after July 1, 2017, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers rendering Physician Services to an Eligible Member.

    a. Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Services Programs, and cost-based reimbursement clinics are not eligible to receive this Add-On Payment for Physician Services.

2. Developmental Screening Services: For dates of service on or after January 1, 2020, a Health Network shall make an Add-On Payment, in the amount and for the applicable CPT Code as specified in Attachment A of this Policy, to Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics rendering Developmental Screening Services to an Eligible Member. A Developmental Screening Service must be provided in accordance with the American Academy of Pediatrics/Bright Futures periodicity schedule and guidelines and must be performed using a standardized tool that meets CMS Criteria.

    a. The following Developmental Screening Services are eligible for an Add-On Payment:

        i. A routine screening when provided:

            1) On or before the first birthday;

            2) After the first birthday and before or on the second birthday; or

            3) After the second birthday and on or before the third birthday.

ii. Developmental Screening Services provided when medically necessary, in addition to routine screenings.

b. Development Screening Services are not subject to any prior authorization requirements.

c. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2 of this Policy to document the completion of the Development Screening Service with the applicable CPT Code without the modifier as specified in Attachment A of this Policy.

d. A Health Network shall require Eligible Contracted Providers identified in Section III.A.2. of this Policy to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the Developmental Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.2.d. of this Policy are made available to CalOptima and/or DHCS upon request.

f. In the event any of the provisions of Section III.A.2. of the Policy conflicts with the applicable requirements of DHCS guidance, CMS-approved preprint, regulations, and/or statutes, such requirements shall control.

3. ACEs Screening Services: For dates of service on or after January 1, 2020, a Health Network shall reimburse Eligible Contracted Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable HCPCS Code, for rendering ACEs screening services to an Eligible Member, who is a child or an adult through sixty-four (64) years of age.

a. A Minimum Fee Payment for ACEs Screening Services shall only be made to rendering Eligible Contracted Providers that:

i. Utilize either the PEARLS tool or a qualifying ACEs questionnaire, as appropriate;

ii. Bill using one of the HCPCS Code specified in Attachment A of this Policy based on the screening score from the PEARLS tool or ACEs questionnaire used; and

iii. Are on DHCS list of providers that have completed the state-sponsored trauma-informed care training, except for dates of service prior to July 1, 2020. Commencing July 1, 2020, Eligible Contracted Providers must have taken a certified training and self-attested to completing the training to receive the Directed Payment for ACEs Screening Services.

b. A Health Network is only required to make the Minimum Fee Payment to an Eligible Contracted Provider for rendering an ACEs Screening Service, as follows:

i. Once per year per Eligible Member screened by that Eligible Contracted Provider, for a child Eligible Member assessed using the PEARLS tool.

ii. Once per lifetime per Eligible Member screened by that Eligible Contracted Provider, for an adult Eligible Member through age sixty-four (64) assessed using a qualifying ACEs questionnaire.

c. With respect to an Eligible Contracted Provider, CalOptima shall only reimburse a Health Network for the Minimum Fee Payment in accordance with Section III.A.3.b. of this Policy.

d. A Health Network shall require Eligible Contracted Providers to document the following information in the Eligible Member's medical records:

i. The tool that was used to perform the ACEs Screening Service;

ii. That the completed screen was reviewed;

iii. The interpretation of results;

iv. Discussion with the Eligible Member and/or the Eligible Member's family; and

v. Any appropriate actions taken.

e. A Health Network shall ensure information set forth in Section III.A.3.d. of this Policy are made available to CalOptima and/or DHCS upon request.

4. Abortion Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse Eligible Contracted Providers and non-contracted Providers, as applicable, which are qualified to provide and bill for Abortion Services, a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing Abortion Services to a Member.

a. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

5. GEMT Services: For dates of service on or after July 1, 2018, a Health Network shall reimburse non-contracted GEMT Providers a Minimum Fee Payment, as specified in Attachment A of this Policy for the applicable CPT Code, for providing GEMT Services to a Member.

a. A Health Network shall identify and satisfy any Medicare crossover payment obligations that may result from the increase in GEMT Services reimbursement obligations.

b. In instances where a Member is found to have other sources of health coverage, a Health Network shall take appropriate action for cost avoidance and post-payment recovery, in accordance with its contractual obligations to CalOptima.

B. Timing of Directed Payments

1. Timeframes with Initial Directed Payment: When DHCS final guidance requires an initial Directed Payment for clean claims or accepted encounters received by the Health Network with specified dates of service (*i.e.*, between a specific date of service and the date CalOptima receives the initial funding from DHCS for the Directed Payment), a Health Network shall ensure the initial Directed Payment required by this Policy is made, as necessary, within ninety (90) calendar days of the date CalOptima receives the initial funding from DHCS for the Directed Payment. From the date CalOptima receives the initial funding onward, a Health

Network shall ensure subsequent Directed Payments required by this Policy are made within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or accepted encounter is received by the Health Network no later than one (1) year after the date of service.

a. Initial Directed Payment: The initial Directed Payment shall include adjustments for any payments previously made by a Health Network to a Designated Provider based on the expected rates for Qualifying Services set forth in the Pending SPA or based on the established Directed Payment program criteria, rates and Qualifying Services, as applicable, pursuant to Section III.B.4. of this Policy.

b. Abortion Services: For clean claims or accepted encounters for Abortion Services with specified dates of service (*i.e.*, between July 1, 2017 and the date CalOptima receives the initial funding for Directed Payment from DHCS) that are timely submitted to a Health Network and have not been reimbursed the Minimum Fee Payment in accordance with this Policy, a Health Network shall issue the Minimum Fee Payment required by this Policy in a manner that does not require resubmission of claims or impose any reductions or denials for timeliness.

2. Timeframes without Initial Directed Payment: When DHCS final guidance does not expressly require an initial Directed Payment under Section III.B.1 of this Policy, a Health Network shall ensure that Directed Payments required by this Policy are made:

a. Within ninety (90) calendar days of receiving a clean claim or accepted encounter for Qualifying Services, for which the clean claim or encounter is received no later than one (1) year from the date of service.

b. Retroactively within ninety (90) calendar days of DHCS final guidance when a clean claim or accepted encounter for Qualifying Services is received prior to such guidance.

3. Notice by CalOptima

a. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the requirements of DHCS final guidance for each Directed Payment program for Qualifying Services by no later than fifteen (15) calendar days from the release date of DHCS final guidance.

b. CalOptima Health Network Relations Department shall notify the Health Networks, in writing, of the date that CalOptima received the initial funding for the Directed Payment from DHCS, by no later than fifteen (15) calendar days from the date of receipt. This provision applies to initial funding received by CalOptima on or after April 1, 2020, provided that DHCS final guidance requires initial Directed Payment as set forth in Section III.B.1. of this Policy.

c. If DHCS files a State Plan Amendment (SPA) with CMS for an extension of a Directed Payment program ("Pending SPA") and CalOptima Board of Directors or Chief Executive Officer, pursuant to DHCS written instruction, approves the continuation of payment of the Directed Payment before DHCS final guidance is issued, CalOptima Health Network Relations Department shall notify the Health Networks, in writing, to continue to pay the Directed Payment to Designated Providers for Qualifying Services with specified dates of service.

4. Extension of Directed Payment Program:

    a. Upon receipt of written notice from CalOptima under Section III.B.3.c. of this Policy, a Health Network shall reimburse a Designated Provider for a Directed Payment according to the expected rates and Qualifying Services for the applicable time period as set forth in the Pending SPA or, at a minimum, according to the previously established Directed Payment program criteria, rates, and Qualifying Services, as applicable, until such time as the DHCS issues the final guidance.

    b. A Health Network shall ensure timely reconciliation and compliance with the final payment provisions as provided in DHCS final guidance when issued.

5. GEMT Services: A Health Network is not required to pay the Add-On Payment for GEMT Services for claims or encounters submitted more than one (1) year after the date of service, unless the non-contracted GEMT Provider can show good cause for the untimely submission.

    a. Good cause is shown when the record clearly shows that the delay in submitting a claim or encounter was due to one of the following:

        i. The Member has other sources of health coverage;

        ii. The Member's medical condition is such that the GEMT Provider is unable to verify the Member's Medi-Cal eligibility at the time of service or subsequently verify with due diligence;

        iii. Incorrect or incomplete information about the subject claim or encounter was furnished by the Health Network to the GEMT Provider; or

        iv. Unavoidable circumstances that prevented the GEMT Provider from timely submitting a claim or encounter, such as major floods, fires, tornadoes, and other natural catastrophes.

C. Directed Payments Processing

1. On a monthly basis, CalOptima shall reimburse a Health Network after the Health Network distributes the Directed Payment and the Health Network submits the Directed Payment adjustment reports in accordance with Section III.D. of this Policy.

    a. The CalOptima Accounting Department shall reconcile and validate the data through the Directed Payment adjustment report process prior to making a final payment adjustment to a Health Network.

2. If a Health Network identifies an overpayment of a Directed Payment, a Health Network shall return the overpayment within sixty (60) calendar days after the date on which the overpayment was identified, and shall notify CalOptima Accounting Department, in writing, of the reason for the overpayment. CalOptima shall coordinate with a Health Network on the process to return the overpayment in accordance with CalOptima Policy FF.1001: Capitation Payments.

    a. CalOptima shall notify a Health Network of acceptance, adjustment or rejection of the overpayment no later than three (3) business days after receipt.

    b. If CalOptima adjusts or rejects the overpayment, CalOptima shall include the overpayment adjustment in the subsequent month's process.

c. In the event CalOptima identifies that Directed Payments were made by a Health Network to a non-Designated Provider, or for non-Qualifying Services, or for services provided to a non-Member or a non-Eligible Member, as applicable, such Directed Payments shall constitute an overpayment which CalOptima shall recover from the Health Network**.**

D. Directed Payment Adjustment Process

1. As soon as a Health Network has processed and paid a Designated Provider for a Directed Payment, a Health Network shall submit a Directed Payment adjustment report for Qualifying Services by the tenth (10th) calendar day after the month ends to CalOptima's secure File Transfer Protocol (sFTP) site. A Health Network shall submit an adjustment report using CalOptima's proprietary format and file naming convention.

2. CalOptima Information Services Department shall notify a Health Network of file acceptance or rejection no later than three (3) business days after receipt. CalOptima may reject a file for data completeness, accuracy or inconsistency issues. If CalOptima rejects a file, a Health Network shall resubmit a corrected file no later than the tenth (10th) calendar day of the following month. Any resubmission after the tenth (10th) calendar day of the month will be included in the subsequent month's process.

3. Upon request, a Health Network shall provide additional information to support a submitted Directed Payment adjustment report to CalOptima Accounting Department within five (5) business days of the request.

4. For a complete Directed Payment adjustment report accepted by CalOptima Accounting Department, CalOptima shall reimburse a Health Network's medical costs of a Directed Payment plus a 2% administrative component no later than the twentieth (20th) calendar day of the current month based upon prior month's data. CalOptima's obligation to pay a Health Network any administrative fees shall be contingent upon administrative component payments by DHCS to CalOptima for the Directed Payments.

E. Estimated Initial Month Payment Process

1. On a monthly basis, CalOptima shall issue an Estimated Initial Month Payment to a Health Network. During the first month of implementation, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network no later than the 10th of the implementing month and as follows:

   a. When available, the Estimated Initial Month Payment shall be based upon the most recent rolling three-month average of the paid claims; or

   b. If actual data regarding the specific services tied to a Directed Payment are not available, CalOptima shall base the Estimated Initial Month Payment on the expected monthly cost of those services.

2. Thereafter, CalOptima shall disburse the Estimated Initial Month Payment to a Health Network for a Directed Payment no later than the 20th of the month for services paid in that month.

3. CalOptima Accounting Department shall reconcile the prior month's Estimated Initial Month Payment against a Health Network's submitted Directed Payment adjustment report for the prior month. CalOptima shall adjust the current month's Estimated Initial Month Payment, either positively or negatively based upon the reconciliation.

4. Following the first month of implementation and thereafter, the Estimated Initial Month Payment, CalOptima Accounting Department shall disburse funds to a Health Network based upon the previous month's submitted Directed Payment adjustment report.

F. A Health Network shall report an Encounter in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such Encounter.

G. Reporting

1. A Health Network shall submit all data related to Directed Payments to the CalOptima Information Services Department through the CalOptima secure File Transport Protocol (sFTP) site in a format specified by CalOptima, and in accordance with DHCS guidance, within fifteen (15) calendar days of the end of the applicable reporting quarter. Reports shall include, at a minimum, the CPT, HCPCS, or Procedure Code, service month, payor (*i.e.*, Health Network, or its delegated entity or subcontractor), and rendering Designated Provider's National Provider Identifier. CalOptima may require additional data as deemed necessary.

   a. Updated quarterly reports must be a replacement of all prior submissions. If no updated information is available for the quarterly report, a Health Network must submit an attestation to CalOptima stating that no updated information is available.

   b. If updated information is available for the quarterly report, a Health Network must submit the updated quarterly report in the appropriate file format and include an attestation that a Health Network considers the report complete.

2. CalOptima shall reconcile the Health Network's data reports and ensure submission to DHCS within forty-five (45) days of the end of the applicable reporting quarter as applicable.

IX. GLOSSARY

Term	Definition
Abortion Services	Specified medical pregnancy termination services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to a Member.
Add-On Payment	Directed Payment that funds a supplemental payment for certain Qualifying Services at a rate set forth by DHCS that is in addition to any other payment, fee-for-service or capitation, a specified Designated Provider receives from a Health Network.
Adverse Childhood Experiences (ACEs) Screening Services	Specified adverse childhood experiences screening services, as listed by the HCPCS Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member through the use of either the Pediatric ACEs and Related Life-events Screener (PEARLS) tool for children (ages 0 to 19 years) or a qualifying ACEs questionnaire for adults (ages 18 years and older). An ACEs questionnaire or PEARLS tool may be utilized for Eligible Members who are 18 or 19 years of age. The ACEs screening portion of the PEARLS tool (Part 1) is also valid for use to conduct ACEs screenings among adult Eligible Members ages 20 years and older. If an alternative version of the ACEs questionnaire for adult Eligible Members is used, it must contain questions on the 10 original categories of the ACEs to qualify.
American Indian Health Services Program	Programs operated with funds from the IHS under the Indian Self-Determination Act and the Indian Health Care Improvement Act, through which services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.
Centers for Medicare and Medicaid Services (CMS) Criteria	For purpose of this Policy, the use of a standardized tool for Developmental Screening Services that meets all of the following CMS criteria: 1. Developmental domains: The following domains must be included in the standardized developmental screening tool: motor, language, cognitive, and social-emotional; 2. Establish Reliability: Reliability scores of approximately 0.70 or above; 3. Established Findings Regarding the Validity: Validity scores for the tool must be approximately 0.70 or above. Measures of validity must be conducted on a significant number of children and using an appropriate standardized developmental or social-emotional assessment instrument(s); and 4. Established Sensitivity/Specificity: Sensitivity and specificity scores of approximately 0.70 or above.

Term	Definition
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program (as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301), the Child Health and Disability Prevention program (as set forth in Title 17, CCR, Division 1, Chapter 4, Subchapter 13, Article 4, beginning with section 6842), and the California Children's Services (as set forth in Title 22, CCR, Division 2, subdivision 7, and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 2.985, beginning with section 14094.4) under the Whole-Child Model program effective July 1, 2019, to the extent those services are included as Covered Services under CalOptima's Medi-Cal Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), and Health Homes Program (HHP) services (as set forth in DHCS All Plan Letter 18-012 and Welfare and Institutions Code, Division 9, Part 3, Chapter 7, Article 3.9, beginning with section 14127), effective January 1, 2020 for HHP Members with eligible physical chronic conditions and substance use disorders, or other services as authorized by the CalOptima Board of Directors, which shall be covered for Members not-withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Department of Health Care Services (DHCS)	The state department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California).
Designated Providers	Include the following Providers that are eligible to receive a Directed Payment in accordance with this Policy and applicable DHCS All Plan Letter or other regulatory guidance for specified Qualifying Services for the applicable time period: 1. Eligible Contracted Providers for Physician Services, ACEs Screening Services, and Abortion Services; 2. Eligible Contracted Providers that are FQHCs, RHCs, and Indian Health Services Memorandum of Agreement (IHS-MOA) 638 clinics for Developmental Screening Services; 3. Non-contracted GEMT Providers for GEMT Services; and 4. Non-contracted Providers for Abortion Services.
Developmental Screening Services	Specified developmental screening services, as listed by the CPT Code for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member, in accordance with the American Academy of Pediatrics (AAP)/Bright Futures periodicity schedule and guidelines for pediatric periodic health visits at nine (9) months, eighteen (18) months, and thirty (30) months of age and when medically necessary based on Developmental Surveillance and through use of a standardized tool that meets CMS Criteria.
Developmental Surveillance	A flexible, longitudinal, and continuous process that includes eliciting and attending to concerns of an Eligible Member's parents, maintaining a developmental history, making accurate and informed observations, identifying the presence of risk and protective factors, and documenting the process and findings.
Directed Payment	An Add-On Payment or Minimum Fee Payment required by DHCS to be made to a Designated Provider for Qualifying Services with specified dates of services, as prescribed by applicable DHCS All Plan Letter or other regulatory guidance and is inclusive of supplemental payments.

Term	Definition
Eligible Contracted Provider	An individual rendering Provider who is contracted with a Health Network to provide Medi-Cal Covered Services to Members, including Eligible Members, assigned to that Health Network and is qualified to provide and bill for the applicable Qualifying Services (excluding GEMT Services) on the date of service. Notwithstanding the above, if the Provider's written contract with a Health Network does not meet the network provider criteria set forth in DHCS APL 19-001: Medi-Cal Managed Care Health Plan Guidance on Network Provider Status and/or in DHCS guidance regarding Directed Payments, the services provided by the Provider under that contract shall not be eligible for Directed Payments for rating periods commencing on or after July 1, 2019.
Eligible Member	For purpose of this Policy, a Medi-Cal Member who is not dually eligible for Medi-Cal and Medicare Part B (regardless of enrollment in Medicare Part A or Part D).
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services.
Estimated Initial Month Payment	A payment to a Health Network based upon the most recent rolling three-month average of Directed Payment program-specific paid claims. If actual data regarding the specific services tied to a Directed Payment are not available, this payment is based upon the expected monthly cost of those services. This payment will not include an administrative component.
Federally Qualified Health Center (FQHC)	A type of provider defined by the Medicare and Medicaid statutes. FQHCs include all organizations receiving grants under Section 330 of the Public Health Service Act, certain tribal organizations, and FQHC Look-Alikes. An FQHC must be a public entity or a private non-profit organization. FQHCs must provide primary care services for all age groups.
Ground Emergency Medical Transport (GEMT) Services	Specified ground emergency medical transport services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services and defined as the act of transporting a Member from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the Member, by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance and/or any transports billed when, following evaluation of a Member, a transport is not provided.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, and Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned in that particular Health Network.
Member	For purpose of this Policy, a Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima Medi-Cal program and assigned to a Health Network at the time Qualifying Services are rendered.

Term	Definition
Minimum Fee Payment	A Directed Payment that sets the minimum rate, as prescribed by DHCS, for which a specified Designated Provider must be reimbursed fee-for-service for certain Qualifying Services. If a Designated Provider is capitated for such Qualifying Services, payments should meet the differential between the Medi-Cal fee schedule rate and the required Directed Payment amount.
Provider	For purpose of this Policy, any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is licensed or certified to do so.
Physician Services	Specified physician services, as listed by the CPT Codes for the applicable period in Attachment A of this Policy, that are Covered Services provided to an Eligible Member.
Qualifying Services	Include only the following Covered Services: Physician Services, Developmental Screening Services, Adverse Childhood Experiences (ACEs) Screening Services, Abortion Services, and GEMT Services.
Rural Health Clinic (RHC)	An organized outpatient clinic or hospital outpatient department located in a rural shortage area, which has been certified by the Secretary, United States Department of Health and Human Services.

Policy:	FF.1005f
Title:	**Special Payments: Supplemental OB Delivery Care Payment**
Department:	Finance
Section:	Not Applicable
CEO Approval:	/s/ *Michael Schrader 08/08/2019*
Effective Date:	01/01/2010
Revised Date:	07/01/2019

I. PURPOSE

This policy defines the criteria for a **Health Network***, with the exception of Kaiser Foundation Health Plan, Inc. (Kaiser), to receive a supplemental obstetrical (OB) delivery care payment for qualifying **Covered Services** provided to a **Member** enrolled in Medi-Cal for dates of service on and after January 1, 2010, in accordance with this policy.

II. POLICY

A. Effective for dates of service on and after January 1, 2010, CalOptima shall make a supplemental payment for qualifying **Covered Services** that include OB delivery care at a rate set forth in the **Contract for Health Care Services**, in accordance with the terms and conditions of this Policy.

B. A **Health Network** shall qualify for the supplemental payment for **Covered Services** that include OB delivery care if:

1. On the date of delivery, the **Member** was eligible with CalOptima for less than six (6) consecutive months;

2. On the date of delivery, the **Member** was between fifteen (15) and forty-four (44) years of age;

3. For the physician supplemental OB delivery care payment, **Covered Services** include physician services for normal and C-section delivery and assistant surgeon services billed with any of the following Current Procedural Terminology (CPT) codes: 59400, 59409, 59510, 59514, 59610, 59612, 59618, 59620; and modifier codes AG, or 80, as applicable;

4. For the hospital supplemental OB delivery care payment, **Covered Services** include hospital inpatient services related to an obstetric stay billed with the following Revenue Codes: 720, 721, 722, or 729;

5. The **Health Network** reimbursed the **Provider** for the **Covered Service**;

6. The **Health Network** authorized such services; and

7. The **Health Network** submits **Encounter** data in accordance with Section III.A of this policy.

C. If a **Health Network** identifies an **Overpayment** of a supplemental OB delivery care payment, the **Health Network** shall return the **Overpayment** within sixty (60) calendar days after the date on which the **Overpayment** was identified, and shall notify CalOptima's Accounting Department, in writing, of the reason for the **Overpayment**. CalOptima shall coordinate with the **Health Network** on the process to return the **Overpayment**.

* Terms in **bold** are included in the Glossary.

Back to Agenda Back to Item

III. PROCEDURE

A. **Encounter** Data Submission

1. A **Health Network** shall report an **Encounter** in accordance with CalOptima Policy EE.1111: Health Network Encounter Reporting Requirements, and within three hundred sixty-five (365) calendar days after the date of service as reported on such **Encounter**.

2. CalOptima shall qualify **Health Network Encounter** Data for valid CPT and Revenue codes, and report the valid **Encounters** for payment authorization.

B. A **Health Network** shall instruct a **Provider** to utilize the appropriate CPT and Revenue codes to bill for **Covered Services** provided to a **Member**.

C. Processing of Physician Claims

1. A **Health Network** shall process an eligible claim submitted by a **Provider** for physician services at a rate set forth in their contractual agreement.

2. CalOptima shall make a supplemental payment to a **Health Network** in accordance with Section III.E.2 of this Policy.

D. Processing of Hospital Claims

1. **Physician Hospital Consortium (PHC)** or **Health Maintenance Organization (HMO)**

a. A **PHC** or **HMO** shall process an eligible claim submitted by a **Provider** for hospital inpatient services related to an obstetrical stay at a rate set forth in their contractual agreement.

b. CalOptima shall make a supplemental payment to a **Health Network** in accordance with Section III.E.2 of this Policy.

2. Shared Risk Group (SRG)

a. CalOptima shall process a claim for hospital inpatient services related to an obstetrical stay provided to a **Member** enrolled in an **SRG** in accordance with CalOptima Policy FF.2001: Claims Processing for Covered Services Rendered to CalOptima Direct-Administrative Members, CalOptima Community Network Members, or Members Enrolled in a **Shared Risk Group.**

b. CalOptima shall make a supplemental payment funding adjustment to the Shared Risk Pool in accordance with Section III.E.1 of this Policy.

E. Hospital Supplemental OB Delivery Care Payment

1. **SRG**: CalOptima shall make a supplemental payment funding adjustment to a Shared Risk Pool at a rate set forth in the **Contract for Health Care Services** for a covered hospital inpatient obstetrical delivery based on actual claims paid in accordance with CalOptima Policy FF.1010: Shared Risk Pool.

2. **PHC** or **HMO**: CalOptima shall make a supplemental payment at a rate set forth in the **Contract for Health Care Services** in effect on the date of service based on **Encounter** data submitted in accordance with Section III.A.1 of this Policy.

F. Physician Supplemental OB Delivery Care Payment

1. CalOptima shall make a supplemental payment to a **Health Network** for physician services for normal and C-section delivery and assistant surgeon services at a rate set forth in the **Contract for Health Care Services** in effect on the date of service based on **Encounter** data submitted in accordance with Section III.A.1 of this Policy.

G. With the exception of payment funding adjustment to a Shared Risk Pool described in Section III.E.1 of this Policy, CalOptima shall:

1. Distribute physician supplemental payments one (1) time each quarter; and

2. Provide a Remittance Advice Detail (RAD) to the **Health Network** for each quarterly payment that includes the following information:

a. **Provider** name;

b. **Provider** identification number;

c. **Member** name;

d. **Member** identification number;

e. Date of service;

f. Bill code; and

g. Amount paid.

H. A **Health Network** has the right to file a complaint disputing CalOptima's supplemental OB delivery care payment in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

IX. GLOSSARY

Term	Definition
Contract for Health Care Services	The written instrument between CalOptima and Physicians, Hospitals, Health Maintenance Organizations (HMO), or other entities. Contract shall include any Memoranda of Understanding entered into by CalOptima that is binding on a Physician Hospital Consortium (PHC) or HMO, DHCS Medi-Cal Managed Care Division Policy Letters, Contract Interpretation, and Financial Bulletins issued pursuant to the Contract.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), or other services as authorized by the Board of Directors, which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Encounter	Any unit of Covered Services provided to a Member by a Health Network regardless of Health Network reimbursement methodology. Such Covered Services include any service provided to a Member regardless of the service location or provider, including out-of-network services and sub-capitated and delegated Covered Services
Health Maintenance Organization (HMO)	A health care service plan, as defined in the Knox-Keene Health Care Service Plan Act of 1975, as amended, commencing with Section 1340 of the California Health and Safety Code.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Overpayment	Any payment made by CalOptima to a Provider to which the Provider is not entitled to under Title XIX of the Social Security Act, or any payment to CalOptima by DHCS to which CalOptima is not entitled to under Title XIX of the Social Security Act.
Physician Hospital Consortium (PHC)	A Physician Group or Physician Groups contractually aligned with at least one (1) hospital, as described in CalOptima's Contract for Health Care Services.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.
Shared Risk Group (SRG)	A Health Network who accepts delegated clinical and financial responsibility for professional services for assigned Members, as defined by written contract and enters into a risk sharing agreement with CalOptima as the responsible partner for facility services.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken March 7, 2013
Regular Meeting of the CalOptima Board of Directors

Report Item

VII. C. Authorize and Direct the Chief Executive Officer to Execute Agreements with the California Department of Health Care Services (DHCS) and Kaiser Foundation Health Plan (Kaiser)

Contact

Julie Bomgren, Director, Government Affairs, (714) 246-8400

Recommended Actions

1. Authorize and Direct the Chief Executive Officer (CEO) to execute a three-way agreement with the DHCS and Kaiser related to the transition of Healthy Families Program (HFP) children and Medi-Cal beneficiaries who are former Kaiser members or family-linked within the previous 12 months.
2. Authorize and Direct the CEO to execute an agreement with Kaiser related to transitioning certain defined categories of members to Kaiser as described in the two-way agreement.
3. Authorize and direct the CEO to enter into an amendment of the current Medi-Cal agreement with Kaiser consistent with these agreements.

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In 1995, CalOptima entered into an agreement with Kaiser to provide health care services under CalOptima's Medi-Cal program. As a Health Network for Medi-Cal, Kaiser currently provides health care services, including pharmacy services to approximately 11,500 CalOptima Medi-Cal members. Along with CalOptima, Kaiser is a health plan in the HFP and serves approximately 13,500 HFP children in Orange County. With the elimination of HFP, and in accordance with the HFP transition implementation plan, children enrolled in Kaiser HFP will transition to CalOptima in Phase 2, anticipated to occur no sooner than April 1, 2013.

Discussion

In June 2012, the Legislature passed Assembly Bill (AB) 1494 which provides for the transition of all HFP subscribers to Medi-Cal.

In June 2012, Kaiser approached the State to consider the development of an agreement whereby Kaiser will retain its HFP members upon their transition into Medi-Cal through a direct contractual relationship with DHCS. As a direct contractual relationship in the existing managed care county delivery systems throughout California is not possible due to state and federal statutes, DHCS, Kaiser and the Medi-Cal managed care plans developed two agreements to address the HFP transition and future Medi-Cal enrollment.

DHCS/Kaiser/Plan Agreement

The first agreement is, by its own terms, a nonbinding agreement, between DHCS, Kaiser and the managed care plans. This template has already been signed by DHCS and Kaiser. It indicates that it sets forth a framework for a seamless transition of care for current Kaiser members in the HFP and Medi-Cal beneficiaries who were Kaiser members or family-linked within the previous twelve months.

The three-way agreement includes the following provisions:

1. DHCS, Kaiser and managed care plans will work to develop a contract template for the subcontract between plans and Kaiser.
2. A centralized oversight and compliance process to include a uniform policies and procedures audit program will be created to oversee Kaiser's obligations under the contract template (it may be necessary for two processes, one for Northern California and one for Southern California). The agreement indicates that this process will be conducted and funded by DHCS unless otherwise agreed to by the parties.
3. A process will be developed to improve the existing and future enrollment processes for Kaiser members including a validation process (of the applicant's eligibility to choose Kaiser).
4. In COHS counties including Orange County, the enrollment process for current/previous Kaiser members will mimic the existing process for all Medi-Cal members. The COHS plans such as CalOptima will assign to Kaiser new Medi-Cal members currently or previously enrolled with Kaiser in the previous twelve months or family-linked in the previous twelve months. This auto assignment to Kaiser is contingent upon COHS plans receiving required and accurate data from Kaiser and federal and state regulators. COHS members will be assigned to Kaiser only upon verification of previous coverage by Kaiser.
5. The agreement does not restrict the ability of Medi-Cal beneficiaries to choose a different provider than Kaiser during or after the beneficiary has been assigned to CalOptima.

Kaiser/Plan Agreement

The second agreement, between Kaiser and the managed care plan, is titled "Care Continuity Agreement" and defines the beneficiaries for whom the managed care plan will ensure transition to Kaiser as: 1) all members of CalOptima currently assigned to Kaiser; 2) individuals who are eligible for Medi-Cal on and after January 1, 2014 under Medi-Cal expansion and who enroll in CalOptima and are assigned to Kaiser; 3) HFP beneficiaries who are Kaiser members on the effective date of the transition; and 4) beneficiaries who are eligible for Medi-Cal or HFP after the effective date of the transition and who were Kaiser members or family-linked within the previous twelve months. This agreement has been signed by Kaiser but does not include aid codes on the attachments.

The two-way agreement includes the following provisions:

1. Kaiser will provide rate development template (RDT) data to managed care plans for inclusion in the plan RDT for the rate setting process.

2. Effective July 1, 2013, for aid codes not directly funded through the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), an administrative withhold by the managed care plan will not exceed 2% of the net capitation Medi-Cal amount (the withhold may be based on the plan risk-adjusted equivalent of the net capitation amount). For aid codes directly funded through CHIPRA, there will be no administrative fee withhold.
3. Managed care plan contracts with Kaiser will be amended to include these provisions. However this Agreement indicates that it may be terminated only upon execution of an amendment to the parties, and that the terms of this Agreement will be re-evaluated in five years.
4. Kaiser may enter into a direct contract with DHCS if Kaiser is unable to reach a subcontracting agreement with Plan.

Upon approval by the Board of Directors, CalOptima modified its Medi-Cal auto assignment policy to accommodate the transition of HFP members and to the extent possible, preserve the provider/member and member/health network relationships. For children transitioning from other HFP health plans to Medi-Cal, CalOptima anticipates that DHCS will provide the Medi-Cal health plan a file that will include the incoming health plan code and name for transitioning HFP children. In order to ensure a seamless transition of care for Kaiser members, it will be necessary that CalOptima receive a timely, clean file for processing. Otherwise, CalOptima staff will follow our standard new member auto assignment process.

Fiscal Impact
With Kaiser's current membership, the 2% administrative withhold provision equates to approximately $250,000 annually which is one-half of the amount regularly included in DHCS capitation rates for administration. However, as an HMO, Kaiser will perform some of the functions that CalOptima would normally be responsible for, which will reduce CalOptima's cost accordingly.

Rationale for Recommendation
These template agreements were negotiated with DHCS, Kaiser and managed care plans and the provisions for transitioning HFP members are consistent with the requirements included in the recent amendment to CalOptima's Primary Agreement with DHCS related to the transition of HFP subscribers into Medi-Cal.

Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions
1. Authorize Health Network Medi-Cal capitation rate increases for contracted Physician Hospital Consortia (PHC), Shared Risk Group (SRG), and Health Maintenance Organizations (HMO) by 5% from current levels for the period of April 1, 2020, through June 30, 2020;

2. Authorize waiver of the minimum stay requirement and expand types of services eligible for per diem payments for contracted Community-Based Adult Services (CBAS) providers for Medi-Cal and OneCare Connect;

3. Authorize unbudgeted expenditures from existing reserves of up to $14 million to provide funding for rates adjustments for Health Network capitation rates;

~~4. Authorize interim Medi-Cal rate for coronavirus testing for dates of service on or after February 4, 2020;~~ Amended 4/2/20

5. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to:

    a. Amend the Medi-Cal PHC, SRG, and HMO Health Network contracts to implement the 5% capitation rate increase; and
    b. Amend Medi-Cal and OneCare Connect contracts with CBAS providers effective March 13, 2020 to provide flexibility for services, in accordance with the Department of Health Care Services' (DHCS) section 1135 Waiver application.

Background
On January 31, 2020, the Secretary of Health and Human Services declared a public health emergency under section 319, of the Public Health Service Act (42 U.S.C. 247d) in response to a novel coronavirus known as SARS-CoV-2 (coronavirus). On March 13, 2020, the President of the United States declared a national emergency based on the spread of this coronavirus. Along with federal, state, and local agencies, CalOptima is taking action to continue efforts to protect the health and safety of our providers and members.

As an unprecedented safety measure, the state has issued self-quarantine and social distancing requirements for an unknown period of time. These requirements have and continue to affect CalOptima's provider networks as the coronavirus pandemic develops. One immediate downstream effect of these measures has been CBAS closures as a result of a reduction of in-person utilization. Left

unaddressed, this can rapidly jeopardize the viability of CalOptima's CBAS provider network. Moreover, it underscores the need for CalOptima to take necessary measures to ensure there is limited disruption of care and access to services for our members, which includes vulnerable individuals.

Discussion

CalOptima management recognizes that healthcare service delivery to our members has undergone significant changes during the coronavirus pandemic. Management recommends the following actions in order to provide immediate aid and service authorization flexibilities to CalOptima's provider network in order to ensure that members received access to covered, medically necessary health care services:

Medi-Cal Rate Enhancement for Health Networks

To provide immediate aid and support and maintain the viability of the health networks, Management proposes to:

1. Provide a 5% increase from current levels to contracted PHC, SRG and HMO Medi-Cal capitation rates for the period of April 1, 2020, through June 30, 2020. The estimated aggregate monthly fiscal impact is approximately $4.4 million.

2. Amend the Medi-Cal Health Network contracts to reflect this increase for the period stated above.

Special Reimbursement to CBAS providers

Staff anticipates face-to-face visits at CBAS centers to continue decreasing due to the Governor's stay at home executive order issued on March 19, 2020, and the County of Orange's social distancing requirements. CalOptima currently holds contracts with 31 CBAS centers, serving approximately 2,580 members. Preventing this is critical at this time, as CBAS centers serve CalOptima's most vulnerable senior members On March 19, 2020, the California Department of Health Care Services (DHCS) submitted a request for additional Section 1135 Waiver flexibilities related to coronavirus. This request included additional flexibilities related to the CBAS benefit and individual plan of care. In order to continue uninterrupted access to CBAS services, effective March 13, 2020, Management proposes to:

1. Waive the 1115 waiver requirement of a minimum of a four-hour stay at the center. This change will enable CalOptima members to receive appropriate services at home and remove barriers to access.

2. Expand the types of services eligible for per diem payments. Pursuant to DHCS' 1135 Waiver request, CalOptima will provide per diem payments to CBAS providers who provide:
   - Telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments;
   - Arrange for home delivered meals in absence of meals provided at the CBAS center; and/or
   - Provide physical therapy or occupational therapy in the home

3. Amend CBAS contracts to reflect the waiver of the minimum four-hour stay requirement and expansion of services pursuant to DHCS 1135 Waiver request.

~~Interim Medi-Cal Rate for Coronavirus Testing~~

~~The Centers for Medicare & Medicaid Services (CMS) established, for the Medicare program, procedure codes and provider reimbursement rates for coronavirus testing conducted on or after February 4, 2020. DHCS adopted these same procedure codes for the Medi-Cal program effective February 4, 2020. As of this writing, DHCS has not established Medi-Cal reimbursement rates for coronavirus testing.~~ Amended 4/2/20

~~Management proposes to adopt the Medicare provider reimbursement rates on an interim basis for CalOptima's Medi-Cal program for dates of service on or after February 4, 2020. Once DHCS establishes Medi-Cal reimbursement rates for coronavirus testing, CalOptima will make retroactive adjustments to Medi-Cal claims, as appropriate.~~ Amended 4/2/20

Fiscal Impact

The total funds for the Health Network Medi-Cal capitation rates for contracted PHCs, SRGs and HMOs will not exceed 5% of total medical capitation expenditures, in aggregate, in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget. Staff projects the monthly incremental funding at approximately $4.4 million. An allocation of up to $14 million from existing reserves will fund this action.

The CalOptima FY 2019-20 Operating Budget includes funding for Professional medical expenditures for contracted CBAS providers. Currently, the net fiscal impact for the recommended action is unknown. However, assuming current utilization levels will continue, Staff anticipates the recommended action will not have an additional fiscal impact to the operating budget.

~~The fiscal impact for the recommended action to authorize an interim Medi-Cal rate for coronavirus testing is unknown at this time, since both utilization and costs estimates are difficult to quantify. However, Staff anticipates future funding received from DHCS for this purpose will fully offset expenses incurred by CalOptima.~~ Amended 4/2/20

Rationale for Recommendation

Providing additional provider payments during the coronavirus pandemic will ensure providers remain viable and accessible to our members, as well as increased financial security for the Orange County safety net system.

Jackie.Glaze@cms.hhs.gov

REQUEST FOR ADDITIONAL SECTION 1135 WAIVER FLEXIBILITIES RELATED TO NOVEL CORONAVIRUS DISEASE (COVID-19) NATIONAL EMERGENCY/PUBLIC HEALTH EMERGENCY

Dear Ms. Glaze:

The Department of Health Care Services (DHCS) writes to request approval for the below-detailed additional flexibilities under Section 1135 of the Social Security Act (42 U.S.C. § 1320b-5) as related to the Novel Coronavirus Disease (COVID-19). These flexibilities are in addition to the request submitted from DHCS on March 16, 2020. As you know, the COVID-19 outbreak was declared a national emergency on March 13, 2020, and was previously declared a nationwide public health emergency on January 31, 2020 (retroactive to January 27, 2020).

The below list represents California's additional requested flexibilities under the Section 1135 authority in connection with the COVID-19 outbreak and emergency based on further exploration of need. Because circumstances surrounding the COVID-19 emergency remain quite fluid, DHCS may subsequently request approval for additional flexibilities, which we can commit to doing promptly as soon as the need is discovered. Consistent with Section 1 of the President's March 13, 2020, national emergency declaration, DHCS requests a retroactive effective date of January 27, 2020, for the requested Section 1135 flexibilities to coincide with the effective start date of the Public Health Emergency, unless otherwise specified. In the event a requested flexibility below is not approvable under the Section 1135 authority, DHCS requests CMS technical assistance to identify any other authority (e.g. under the State Plan or Section 1115) for which approval may be available. Per our discussion with CMS on March 19, 2020, DHCS will request the flexibilities associated with Inmate and Institutions for Mental Disease (IMD) funding exclusions in the Section 1115 context (according to the forthcoming CMS instructions/Section 1115 template).

Back to Agenda Back to Item

In addition, DHCS requests confirmation that any approved flexibility granted with respect to fee-for-service Medi-Cal benefits and providers would apply equally, to the extent applicable, to our various federally approved delivery systems, such as Medi-Cal managed care plans (MCPs), county organized health systems, county mental health plans, and Drug Medi-Cal organized delivery systems (DMC-ODS) and to the State's standalone Children's Health Insurance Program.

1. **Service authorization and utilization controls**, including but not necessarily limited to:

- Waiver of Attachment 3.1 – A.1, page 2 of the State Plan, exclusion of adult receipt of acetaminophen-containing and cough/cold products.

- For individuals with developmental disabilities receiving services under the State Plan 1915(i) authority, the state requests retainer payments. Retainer payments are available only for absences (maximum 30 consecutive days) in excess of the average number of absences experienced by the provider during the 12 month period prior to 2020.

- For Community-Based Adult Services (CBAS) – CBAS Benefit and Individual Plan of Care (IPC), the state requests:
    - Flexibility to reduce day center activities/gatherings and limit exposure to vulnerable populations.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face social/therapeutic visits.
    - Flexibility to utilize telephonic or live video interactions in lieu of face-to-face assessments.
    - Flexibility to allow following services to be provided at a beneficiary's home:
        - Physical Therapy
        - Occupational Therapy
    - Flexibility to provide or arrange for home delivered meals in absence of meals provided at the CBAS Center.
    - Flexibility for DHCS and MCPs to provide per diem payments to CBAS providers who provide telephonic or live video interactions in lieu of face-to-face social/therapeutic visits and/or assessments, arrange for home delivered meals in absence of meals provided at the CBAS Center, and/or provide physical therapy or occupational therapy in the home.

2. **Eligibility Flexibilities**, including but not necessarily limited to:

    - Flexibility in the hospital presumptive eligibility (HPE) program to cover more than one HPE period in a given 12-month timeframe. To the extent a beneficiary seeks care for coronavirus but has already used an HPE period in the last 12 months, or tests negative and then seeks care for a suspected episode later in the same 12-month period, HPE can provide a fast, low-barrier way to provide immediate, temporary coverage during the emergency period.

3. **Telehealth/Telephonic/Virtual Visits**, including but not necessarily limited to:

    - Waiver of 42 C.F.R. §438.6(c)(1), as necessary, to permit the State to direct MCO and PIHP payments to network providers, where telehealth/telephonic service is medically appropriate and feasible, at the same rate the MCO or PIHP would pay if the service was provided in person, unless the MCO/PIHP and the provider otherwise agree to a different rate for the telehealth modality.

    - Similar to flexibility granted at the federal level, DHCS requests authority for the State not to impose penalties for noncompliance with the regulatory requirements under the Health Insurance Portability and Accountability Act (HIPAA) against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 emergency.

4. **Administrative Activities**, regarding deadlines and timetables for performance of required activities, DHCS requests extension of time for activities conducted by the state, MCPs, and/or county mental health and substance use disorder prepaid inpatient health plans (PIHPs), as applicable, due to social distancing to reduce the spread of COVID-19 and to allow the state, MCP, and/or PIHP resources to prioritize COVID-19 response efforts including:

    - Waiver of the two-year claiming submission limit (42 USC §1320b-2; 45 CFR §95.1, et seq.) for federal financial participation or claiming adjustments with respect to medical assistance and administrative expenditures.

    - Waiver of the requirement in 42 CFR §447.45(d)(1), that DHCS require providers to submit all claims no later than 12 months from the date of service. DHCS is requesting authority to extend the 12-month timeframe for services provided with dates of service during this emergency.

    - Modification of the federal deadlines for submission of cost reports for Medicare and Medicaid (currently due Nov. 2020) by at least 6 months, with no late penalties, so that providers have time to file the appropriate documents. Many provider and hospital staff have been told to work remotely or have been reassigned to

emergency response activities, which will cause delays in meeting reporting timelines.

- Waiver of the timeframe required for financial oversight and medical compliance audits for PIHPs and State Plan Drug Medi-Cal counties. DHCS requests this waiver to allow flexibility regarding deploying staff resources to manage the emergency.

5. **Payment Rates**, including but not necessarily limited to:

- Waiver of the county interim rate setting methodology described beginning on page 10 of the Certified Public Expenditure (CPE) protocol approved through the 1915(b) waiver. The CPE protocol requires DHCS to calculate county interim rates using prior year cost reports trended forward using the Home Health Agency Market Basket Index or a CMS approved cost of living index. As utilization drops and costs increase during this emergency, DHCS is requesting authority to use alternative methodologies, at DHCS's discretion, to temporarily increase county interim rates.

- Waiver of the interim rate setting methodology described on page 5 and 6 of the Drug Medi-Cal Organized Delivery System (DMC ODS) Certified Public Expenditure protocol approved through the 1115 demonstration. The CPE protocol requires DHCS to reimburse DMC ODS counties on an interim basis pursuant to county developed and DHCS approved interim rates for each service, which are expected to be based upon the most recently calculated or estimated county costs for the specific service. DHCS is requesting authority, if counties reimburse DMC providers up to actual cost, to reimburse counties the federal and state share of their certified public expenditures for services rendered during this emergency.

- Waiver of the Statewide Maximum Allowance (SMA) rate limitation on interim reimbursement and final settlement for Drug Medi-Cal (DMC) services provided in state plan counties. California's State Plan describes the reimbursement methodology for DMC services in Attachment 4.19-B, pages 38-41b (SPA 09-022 and SPA 15-013), which limits interim payments to DMC providers to the lower of the SMA or the USDR (Section E.1, page 41). Furthermore, the Medicaid State Plan also limits final reimbursement to lower of actual cost, usual and customary charges, or the SMA for DMC providers. DHCS is requesting authority to waive the SMA and usual and customary charge limitations on interim and final reimbursement for DMC state plan services.

6. **Clarification of Previous Requests**:

- Item 2 in the March 16, 2020 1135 Waiver requested to waive various federal and State Plan requirements pertaining to service authorization and utilization controls

imposed on covered benefits. DHCS seeks to clarify that the requested waivers would extend to any limitations for elective procedures and informed consent (including, but not necessarily limited, to 42 C.F.R. § 441.253) to enable provider to postpone elective procedures to prioritize COVID-19 response activities. DHCS suggests extending the current 180-day limit for beneficiary informed consent to 360 days.

- Item 5 in the March 16, 2020 1135 Waiver requested to waive restrictions existing restrictions on individual counseling sessions under the Drug Medi-Cal state plan. DHCS wants to clarify that we are requesting to waive Supplement 3 to Attachment 3.1-B, to allow individual visits in lieu of group visits, and that these visits may be conducted by telephone, telehealth, and/or in-person. Waive the current restriction on individual visits (only allowed for intake, crisis intervention, collateral services, and treatment and discharge planning). Allow individual visits to be used for counseling focused on short-term personal, family, job/school and other problems and their relationship to substance use. This waiver is needed so the services previously provided in groups can be done in individual sessions during the emergency, to prevent COVID-19 exposure.

- Item 6 in the March 16, 2020 1135 Waiver requested to waive State Plan Attachment 4.19-D, including any applicable Supplements, which establishes the payment methodology for Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and skilled nursing facilities (SNFs). The state wanted to clarify that the waiver being requested would apply to all SNF and ICF-DD facility types and the reimbursement flexibilities would not be limited solely to the costs associated with suspension of Day Programs. SNFs and ICF-DDs are experiencing increased cost pressures in a variety of areas as a result of the COVID-19 response and the state is seeking flexibility to allow consideration of all costs being incurred by facilities to ensure the health and safety of residents.

7. Flexibilities to be Requested under Section 1115 Authority (according to forthcoming CMS guidance):

- Waiver of the inmate exclusion (42 U.S.C. §1396d(a)(30)(A)) to allow for Medi-Cal claiming for services provided ***in*** jails and prisons for the testing, diagnosis and treatment of COVID-19 or services to ensure other care is provided in a safe way without transporting individuals to acute care facilities.

- Waiver of the 16-bed limitation/prohibition on receipt of federal financial participation for patients residing in Institutions for Mental Disease (IMD) pursuant to 42 U.S.C. §1396d(a)(30)(B). DHCS believes waiver of the IMD exclusion is necessary to temporarily increase bed capacity for affected beneficiaries and to allow facilities to claim for services provided for these

additional beds. Evaluation of less restritictive settings would be completed prior to placement.

During such difficult times for California and the nation, DHCS greatly appreciates the prompt attention exhibited by CMS to these matters and we look forward to the continued partnership.

Sincerely,

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken March 5, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

14. Consider Ratification of Amendments to the Medi-Cal Health Network Contracts, Except AltaMed Health Services Corporation, and Expenditures for Whole-Child Model Program Implementation

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400
Nancy Huang, Chief Financial Officer (714) 246-8400

Recommended Actions

1. Ratify amendments to the Medi-Cal health network contracts, except AltaMed Health Services Corporation, to include payment by CalOptima of startup costs associated with the Whole-Child Model program; and,
2. Ratify the expenditure of up to $1.75 million in IGT 6 and 7 funds for implementation.

Background

The California Children's Services Program (CCS) is a statewide program, providing medical care, case management, physical/occupational therapy, and financial assistance for children up to age 21 meeting financial and health condition eligibility criteria. Following the approval of Senate Bill 586 in September 2016, the Department of Healthcare Services (DHCS) was given the authority to incorporate a number of CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS), referred to as the Whole Child Model (WCM). CalOptima began the process of transitioning its Medi-Cal Health Networks in June 2018, with implementation going live as of July 1, 2019. The importance of a successful WCM transition cannot be overstated, as it directly impacts the wellbeing of CalOptima's most at-risk pediatric members.

IGTs are transfers of public funds between eligible governmental entities, which qualify for matching federal funds for the Medi-Cal program. IGT 6 and 7 funds were received in May 2018 from the Department of Health Care Services (DHCS) totaled $31.1 million. After initial disbursements of $10 million for the Homeless Health Initiative, the Board authorized the remaining balance of $21.1 million to be used for community grants, internal initiatives and program administration. On August 1, 2019, the Board authorized $1.75 million for the Whole Child Model Assistance for Implementation and Development (WCM AID), which was approved as an internal initiative. The funds were designated to aid health networks in developing and implementing a successful delivery system for the WCM program.

Discussion

Health networks were required to cover a portion of the WCM program's startup expenses incurred before the launch on July 1, 2019. Following the Board's August 1, 2019 approval of the IGT 6 and 7 allocation for WCM startup costs, health networks were notified that they would receive a one-time, fixed payment of $50,000, plus applicable variable costs up to the amount allowed per network based on the number of WCM assigned members. CalOptima provided criteria for reimbursement, including

receipt of attestations demonstrating that the costs were incurred prior to the WCM program go-live date of July 1, 2019, and that expenditures fall within the specified categories of:

- Staffing, recruitment and training.
- Systems and infrastructure.
- Other expenses such as educational materials, notices, etc.

Staff seeks authority to ratify contract amendments and expenditures for the Medi-Cal health networks, except AltaMed Health Services Corporation, to aid with start-up costs and implementation of the WCM program.

Fiscal Impact

The recommended action to amend Medi-Cal health network contracts to include disbursement of IGT 6 and 7 funds for WCM Assistance for Implementation and Development has no fiscal impact to CalOptima's operating budget. The Board authorized the allocation of $1.75 million from IGT 6 and 7 funds for this purpose at the August 1, 2019, meeting. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

The recommended action ensures CalOptima's Medi-Cal health network contracts are updated to reflect receipt of IGT 6 and 7 funds for reimbursement of startup costs associated with the WCM program.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda Back to Item

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

PowerPoint Presentation: IGT Update and Proposed Funding Categories for IGT 6 and 7

/s/ Michael Schrader *7/27/2017*
Authorized Signature **Date**

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 1, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
14. Consider Allocation of Intergovernmental Transfer 6 and 7 Funds

Contact
Candice Gomez, Executive Director, Program Implementation (714) 246-8400

Recommended Actions
1. Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1 million for community grants and internal projects; and,
2. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to enter into grant contracts with the recommended community grantees.

Background
Intergovernmental Transfers (IGTs) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT 1 – 7 funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus IGT 1-7 funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries. Beginning with IGT 8, the IGT funds are viewed by the state as part of the capitation payments CalOptima receives; these payments are to be tied to covered Medi-Cal services provided to Medi-Cal beneficiaries.

On August 3, 2017, CalOptima's Board of Directors approved the recommendation to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

Subsequently, CalOptima released Requests for Information/Letters of Interest (RFI/LOI) from organizations to help determine funding allocation amounts for the priority areas and received 117 responses. Initial projections of available IGT 6/7 funds were estimated to be $22.1 million.

In May 2018, CalOptima received final IGT 6 and 7 funding from the Department of Health Care Services (DHCS), resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. On August 2, 2018, the Board approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program. On September 6, 2018 the Board authorized the remaining available balance of $21.1 million to be used for community grants, internal initiatives and program administration.

Subsequently, at its February 22, 2019 Special Meeting, the Board approved funds to be reallocated to the Clinical Field Teams Pilot for the Homeless Health Initiatives. The funds were reallocated from Requests for Proposals (RFP) 4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) in the total amount of $1 million which were not recommended for grants. In addition, $100,000 IGT 6 funds previously approved by the Board were reallocated from Internal Initiatives to the Clinical Field Teams Pilot. The reallocations were ratified at the April 4, 2019 Board meeting.

Proposed Allocation for community grants and internal initiatives is as follows:

Community Grants

Request for Proposal	Priority Area	Allocation Amount
1. Access to Outpatient Mental Health Services	Children's Mental Health	$4,850,000
2. Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	$4,850,000
3. Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000
4. Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
5. Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA	$1,000,000
6. Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
TOTAL		**$16,700,000**

Internal Initiatives

Internal Project Examples: - IS and other infrastructure projects as summarized below.	$2,400,000
TOTAL	**$2,400,000**

External subject matter experts and staff performed an examination of the RFP responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do and Director DiLuigi, met to discuss the results of the 54 RFP responses for the Children's Mental Health and Opioid and Other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the evaluation committees results and RFP recommendations, the Ad Hoc committee is recommending the following allocation of approximately $16.7 million for IGT 6 and 7 Board-approved priority areas through four (4) RFPs.

Community Grants

Category	Organization	Funding Amount
RFP 1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	Children's Bureau of Southern California	$3,390,000
	OCAPICA (Orange County Asian & Pacific Islander Community Alliance, Inc)	$685,000
	Boys & Girls Clubs of Garden Grove	$325,000
	Jamboree Housing	$450,000
RFP 2. Integrate Children's Mental Health Services into Primary Care ($4.85 million)	CHOC Children's	$4,250,000
	Friends of Family Health Center	$600,000
RFP 3. Increase Access to Medication-Assisted Treatment ($6 million)	Coalition of Orange County Community Health Center	$6,000,000
RFP 5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)	Serve the People	$1,000,000
TOTAL		**$16,700,000**

As noted above, the ad hoc is not recommending grants for two of the RFP categories (4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) and the associated funding was previously reallocated to the Clinical Field Teams Pilot at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Internal Initiatives
In addition, staff reviewed four internal applications and is recommending an allocation of $2.4 million for internal projects. Funding of $100,000 from the Internal Initiatives budget was reallocated to the Clinical Field Team pilot for the Homeless Health Initiatives at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Project	Amount
Whole Child Model Assistance for Implementation and Development (WCM AID)	$1,750,000
Master Electronic Health Record (EHR) System	$650,000
TOTAL	**$2,400,000**

Fiscal Impact
The recommended action to approve the allocation of $19.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal health plan for Orange County, will work with our provider and community partners to address the health care needs of the members we serve.

IGT 6 and 7 Community Grant Award Recommendations

August 1, 2019

Candice Gomez
Executive Director, Program Implementation

Background

- IGT process enables CalOptima to secure additional federal revenue to increase California's low Medi-Cal managed care capitation rates
  - IGTs 1–7: Funds must be used to deliver enhanced services for the Medi-Cal population
  - IGTs 8–9: Funds must be used for Medi-Cal covered services for the Medi-Cal population
- CalOptima Board of Directors approved IGT 6 and 7 priority areas for community-based funding opportunities
  - Children's Mental Health
  - Homeless Health
  - Opioid and Other Substance Overuse
  - Other Needs Identified by the Member Health Needs Assessment

Background (cont.)

- Received 117 RFIs to identify strategies for each priority area
- IGT 6 and 7 funds of $31.1 million were received in May 2018
  - $10 million approved for recuperative care services in August 2018
  - $21.1 million allocated for community grants, internal initiatives and program administration in September 2018
    - $17.7 million in community grants
    - $2.5 million in internal initiatives
    - $900,000 in program administration (over 3 years)
- Released RFPs, evaluated responses and conducted site visits from September 2018–January 2019

RFP Evaluation Criteria

- Organizational capacity and financial condition
- Statement of need that describes the specific issue or problem and the proposed program/solution
- Impact on CalOptima members with outreach and education strategies
- Efficient and effective use of potential grant funds for proposed program/solution

Site Visits

- Subject matter experts and staff conducted site visits to finalist organizations
- Questions were asked to:
  - Better understand the organization, current services provided and the proposed project
  - Identify the organization's leadership capacity and skills to effectively provide the proposed services
  - Determine if there are any concerns with awarding a grant to the organization

RFP Summary

RFP	Total Received	Total Recommended
1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	26	4
2. Integrate Children's Mental Health Services Into Primary Care ($4.85 million)	10	2
3. Increase Access to Medication-Assisted Treatment ($6 million)	10	1
4. Expand Mobile Food Distribution Services ($500,000)	1	0
5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)	5	1
6. Expand Access to Food Distribution Services for Older Adults ($500,000)	2	0
Total	**54**	**8**

1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Children's Bureau of Southern California	$3,500,000	$3,390,000
2	OCAPICA (Orange County Asian & Pacific Islander Community Alliance Inc.)	$685,000	$685,000
3	Boys & Girls Club of Garden Grove	$325,200	$325,000
4	Jamboree Housing	$692,000	$450,000
	Total	**$5,202,200**	**$4,850,000**

2. Integrate Children's Mental Health Services Into Primary Care ($4.85 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	CHOC Children's	$4,785,076	$4,250,000
2	Friends of Family Health Center	$600,000	$600,000
	Total	**$5,385,076**	**$4,850,000**

3. Increase Access to Medication-Assisted Treatment ($6 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Coalition of Orange County Community Health Centers	$5,998,000	$6,000,000
	Total	**$5,998,000**	**$6,000,000**

5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Serve the People	$1,000,000	$1,000,000
	Total	**$1,000,000**	**$1,000,000**

No Funding for RFPs 4 and 6

- No funding is recommended for two RFPs
  - 4. Expand Mobile Food Distribution Services ($500,000)
  - 6. Expand Access to Food Distribution Services for Older Adults ($500,000)
- Submitted proposals presented challenges
  - Did not demonstrate delivery of service to CalOptima members
  - Did not demonstrate sustainability after funds exhausted
- Funding was allocated to the Homeless Health Initiative's Clinical Field Team pilot on February 22, 2019

Internal Projects ($2.4 million)

Rank	Project	Original Request	Recommended Funding Amount
1	Whole-Child Model Assistance for Implementation and Development	$1,750,000	$1,750,000
2	Master Electronic Health Record (EHR) System	$700,000	$650,000
	Total	**$2,450,000**	**$2,400,000**

Recommended Board Actions

- Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1M for community grants and internal projects; and,
- Authorize the Chief Executive Officer with the assistance of Legal Counsel to execute grant contracts with the recommended community grantees.

IGT Update & Proposed Funding Categories for IGT 6 & 7

Board of Directors Meeting

August 3, 2017

Cheryl Meronk

Director, Strategic Development

Back to Agenda

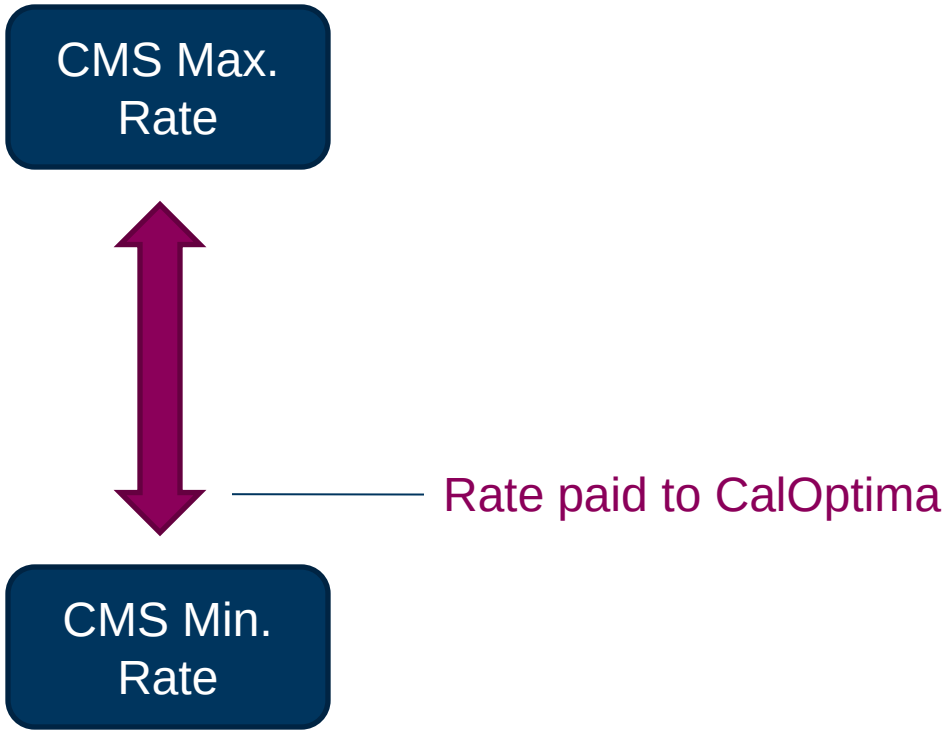
Back to Agenda

Intergovernmental Transfers (IGT) Background

- Medi-Cal program is funded by state and federal funds
- IGT process enables CalOptima to secure additional federal revenue to increase California's low Medi-Cal managed care capitation rates
- Funds must be used to deliver enhanced services for the Medi-Cal population

Low Medi-Cal Managed Care Rates

- CMS approves a rate range for Medi-Cal managed care
- California pays near the bottom of the range



IGT Funds Availability and Process

- Available pool of dollars based on difference paid to CalOptima and the maximum rate
- Access to IGT dollars is contingent upon eligible government entities contributing dollars to be used as match for federal dollars
- Funds secured through cooperative transactions among eligible governmental funding entities, CalOptima, DHCS and CMS

CalOptima Share Totals To-Date

IGTs	CalOptima Share
IGT 1	$12.52 M
IGT 2	$8.60 M
IGT 3	$4.88 M
IGT 4	$6.97 M
IGT 5	$14.42 M
Total	**$47.39 M**

IGT 1 Status

Project	Budget	Balance	Notes
Personal Care Coordinators	$3,850,000	$0	Completed

Total	**$12.3 M**	**$12.0 M**	

As of 5/31/2017

Back to Agenda

Back to Agenda

IGT 5

- $14.4M allocated for competitive community grants
- Community grant initiatives to be developed, pending results from CalOptima's Member Health Needs Assessment

- Funding Categories:
  - Adult Mental Health
  - Children's Mental Health
  - Strengthening the Safety Net
  - Childhood Obesity
  - Improving Children's Health

Member Health Needs Assessment (IGT 5)

- Builds upon previous surveys and assessments, e.g.
  - CalOptima Group Needs Assessment
  - OC Health Care Agency – OC Health Profile
  - Hospital Community Needs Assessments
- Deeper focus on needs of diverse, underserved Medi-Cal membership, including:
  - 7 threshold languages + others never previously represented
  - Homeless
  - Mentally ill
  - Older adults
  - Persons with disabilities

Member Health Needs Assessment (IGT 5)

- Comprehensive assessment to identify gaps in and barriers to service
  - Access to PCPs, specialists & hospitals
  - Pharmacy and lab
  - Oral health services
  - Mental health services
- Insights into social determinants of health
  - Economic stability/employment status
  - Housing status
  - Education/literacy level
  - Social isolation
  - Transportation issues
  - Cultural differences
  - Communication barriers

Estimated IGT 6 and 7 Totals

IGT	CalOptima Share
IGT 6	≈ $9.95 M (Anticipated December 2017)
IGT 7	≈ $12.16 M (Anticipated May 2018)
Total	**≈ $22.11 M**

Proposed IGT Funding Categories - IGT 6 and 7

- Funds to be used to deliver enhanced services for the Medi-Cal population

Opioid/Other Substances Overuse

- Nationwide, 78 opioid overdose deaths per day
  - 45% of Rx drug overdose deaths are Medicaid beneficiaries
- In OC, 286 opioid-related drug overdose deaths in 2016
  - Opioid dependence second leading cause of substance-related hospitalizations in OC after alcohol dependence syndrome

- Potential solutions to be funded:
  - Expand access to pain management, addiction treatment and recovery services
  - Outreach and education
  - Technical assistance to community groups working to reduce opioid and other substance overuse

Children's Mental Health

- Estimated 52,500 OC youth living with a mental health condition
- Hospitalization rate for major depression among children and youth continues to rise
- Only 32 psychiatric acute care beds in OC for adolescents, and zero for children under 12
  - New CHOC facility will add 18 beds, for ages 3-18

- Potential solutions to be funded:
  - Expand inpatient and outpatient psychiatric services capacity for children 3-18

Homeless Health

- Homelessness in OC on the rise
  - 2017 Point-in-Time count identified 4,792 homeless individuals
  - 2015 Point-in-Time count was 4,452
  - As of 2015, estimated 15,291 homeless individuals in OC
    - Approximately 11,000+ of these are CalOptima members
- Economic impact of homelessness ≈ $300M over 12-month period between 2014-15
  - Includes $121M for health care costs
- Potential solutions to be funded:
  - Expand recuperative care services
  - Increase/expand mobile health clinics

Competitive Community Grants

- Funding to fill gaps and address barriers to service beyond IGT 5 funding categories:
  - Examples of possible additional priority areas:
    - Older Adult Health
    - Dental Health
    - Persons with Disabilities
    - Maternal/perinatal Health

CalOptima Projects and Program Admin

- Approx. 10% of total IGT 6 & 7 set aside for internal priorities and program administration, e.g.:
  - Expansion of provider electronic records capabilities
  - IGT program administration
  - Grant development and administration

Next Steps

- Gather stakeholder input
  - PAC
  - MAC
  - OCC MAC
  - Community organizations
- Develop expenditure plans for Board approval

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda Back to Item

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
17. Consider Approval of Grant Allocations of Intergovernmental Transfer (IGT) 6 and 7 Funds

Contact
Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions
1. Approve an additional grant allocation of up to $10 million to the Orange County Health Care Agency (OCHCA) from the Department of Health Care Services-approved and Board-approved Intergovernmental Transfer 6 and 7 Homeless Health priority area;
2. Replace the current cap of $150 on the daily rate and the 15-day stay maximum paid out of CalOptima funds with a 50/50 cost split arrangement with the County for stays of up to 90 days for homeless CalOptima members referred for medically justified recuperative care services under OCHCA's Whole Person Care Pilot program; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the grant agreement with the County of Orange to include indemnity language and allow for use of the above allocated funds for recuperative care services under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members.

Background
Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus, funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants at the recommendation of the IGT Ad Hoc committee to address the following priority areas:
- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the board approved priority areas. The RFI/LOIs helped staff determine funding allocation amounts for the board-approved priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Priority Area	# of LOIs
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Staff examined the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

In May 2017, CalOptima received final payment from DHCS for the IGT 6 and 7 transaction and confirmed CalOptima's total share to be approximately $31.1 million.

Discussion

The IGT Ad Hoc committee consisting of Supervisor Do and Directors Nguyen and Schoeffel met on February 17 and reconvened on April 17 to further discuss the results of the RFI/LOI responses specifically in the Homeless Health priority area and to review the staff-recommended IGT 6 and 7 expenditure plan with suggested allocation of funds per priority area.

Since receiving the RFI/LOIs, the County of Orange over the past several months has been engaged in addressing the homelessness in Orange County. Numerous public agencies and non-profit organizations, including CalOptima, have been working diligently to address this challenging matter. A lot has been accomplished, yet much more needs to be addressed.

Before making recommendation to the Board on the release of the limited grant dollars, the Ad Hoc committee met to carefully review the staff-recommended IGT 6 and 7 expenditure plan while also considering the pressing homeless issue.

In response to this on-going and challenging environment, and through the recommendation of the Ad Hoc committee, staff is recommending an allocation of up to $10 million to the OCHCA from IGT 6 and 7 to address the health needs of CalOptima's members in the priority area of Homeless Health

This will result in a remaining balance of approximately $21.1 million, which the Ad Hoc will consider separately and return to the Board with further recommendations.

In addition, staff is seeking authority to amend the grant agreement with the County to direct the allocation of up to $10 million of funds to provide recuperative care services for homeless CalOptima members under the recuperative care/WPC Pilot. The current agreement with the County allows CalOptima to pay for a maximum of $150 per day up to 15 days of recuperative care per member, with the County responsible for any costs. Staff is proposing to remove the cap on the daily rate and allow the $10 million to be used for funding 50 percent of all medically justified recuperative care days up to

a maximum of 90 days per homeless CalOptima member, to the extent that funds remain available, and subject to negotiation of an amendment to include indemnification by the County in the event that such use of CalOptima IGT funds is subsequently challenged or disallowed.

The WPC Pilot, a county-run program is intended to focus on improving outcomes for participants, developing infrastructure and integrating systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries. The current WPC Pilot budget and services are as follows:

		Add'l	
	Total WPC	**County Funds**	**CalOptima**
WPC Connect - electronic data sharing system	$ 2,421,250	$ -	$ -
Hospitals - Homeless Navigators	$ 5,164,000	$ -	$ -
Community Clinics - Homeless Navigators	$ 7,495,000	$ -	$ -
Community Referral Network - social services referral system	$ 1,000,000	$ -	$ -
Recuperative Care Beds	$ 4,277,615	$ 3,483,627	$ 522,100
MSN Nurse - Review & Approval of Recup. Care	$ 628,360	$ -	$ -
211 OC - training and housing coordination	$ 526,600	$ -	$ -
CalOptima - Homeless Personal Care Coordinators & Data Reporting	$ 809,200	$ -	$ -
Housing Navigators	$ 1,824,102	$ -	$ -
Housing Peer Mentors	$ 1,600,000	$ -	$ -
County Behavioral Health Services Outreach Staff	$ 1,668,013	$ -	$ -
Shelters	$ 2,446,580	$ -	$ -
County Admin	$ 1,206,140	$ -	$ -
TOTAL	$31,066,860	$ 3,483,627	$ 522,100

Since the 2016, the OCHCA collaborated with other community-based organizations, community clinics, hospitals, county agencies and CalOptima and others to design the program and has met with stakeholders on a weekly basis. The recuperative care element of the WPC pilot is a critical component of the program. During the first program year, the WPC recuperative care program provided vital services to homeless CalOptima members. CalOptima members in the WPC pilot program are recuperating from various conditions such as cancer, back surgery, and medication assistance and care for frail elderly members. The WPC pilot program has three recuperative care providers providing services, Mom's Retreat, Destiny La Palma Royale and Illumination Foundation.

From July 1, 2017 through June 30, 2018, the WPC pilot program provided the following recuperative care services and linkages for members:

- 445 Homeless CalOptima members admitted into recuperative care for a total of 16,508 bed days
- 22% Homeless CalOptima members served by Illumination Foundation placed into Permanent Supportive Housing
- 4 Homeless CalOptima members in recuperative care approved for Long-Term Care services
- 6 Homeless CalOptima members in recuperative care approved for Assisted Living Waiver services

- Total cost for recuperative care services over the fiscal year: $2,946,700
    - Average length of stay: 37 days
    - Average cost per member: $6,623

The OCHCA experienced a shortfall in the budgeted funds for the WPC/Recuperative Care Program in Year 1 as more individuals were identified to be eligible for the program than projected. The Whole Person Care pilot budget is approximately $31 million, with $8.4 million allocated to provide recuperative care. As the WPC pilot moves into the new fiscal year, the program continues to experience a shortfall. To address the budget shortfall, the number of admissions into the recuperative care program was restricted; however, projected need is projected to increase over the next three years to approximately 2,368 homeless individuals, or 790 per year. The program will need approximately $18.6M over the next three years to meet the increased need for recuperative care services. The County's remaining WPC budget for recuperative care services over this period is approximately $5.3 million.

Individuals who are recovering safely through the program are connected to medical care, including primary care medical homes and medical specialists. In addition, members may receive behavioral health therapy and/or substance use disorder counseling services. Clients from the WPC pilot program are seven times more likely to use the Emergency Room (ER) and nine times more likely to be hospitalized than general Medi-Cal Members.

The WPC recuperative care program serves and is available for homeless CalOptima members when medically indicated, for members who are discharged from hospitals and skilled nursing facilities, as well as those referred from clinics, and OCHCA public health nurses.

Fiscal Impact
The recommended action to approve the allocation of $10 million from IGT 6 and IGT 7 to the OCHCA has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

13. Consider Authorization of Expenditure Plan for Intergovernmental Transfer (IGT) 6 and 7 Funds, Including the Release of Requests for Proposals (RFPs) for Community Grants to Address Children's Mental Health, Opioid and Other Substance Overuse, and Other Community Needs Identified by the CalOptima Member Health Needs Assessment

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve the expenditure plan for allocation of IGT 6 and 7 funds in the amount of $21.1 million for the Department of Health Care Services (DHCS)-approved and Board-approved priority areas; and
2. Authorize the release of Requests for Proposal (RFPs) for community grants and internal project applications, with staff returning at a future Board meeting with evaluation of proposals and recommendations for award(s) being granted.

Background

Intergovernmental Transfers are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program, thus funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the above referenced priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Priority Area	**# of LOIs**
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Back to Agenda Back to Item

Staff performed an examination of all the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

In late May 2018, CalOptima received final IGT 6 and 7 funding from DHCS, resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. IGT 6/7 funds totaled $31.1 million rather than the initially projected $22 million due to an adjustment in the enrollment numbers estimated by the California Department of Health Care Services and the higher federal match for the expansion population. On August 2, 2018, CalOptima's Board of Directors approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program; resulting in a remaining available balance of $21.1 million.

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do, and Directors Nguyen and Schoeffel, met on July 20 and July 27 to discuss the results of the 117 RFI/LOI responses for the Children's Mental Health, Opioid and other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the staff evaluation process and RFP recommendations, the Ad Hoc committee and staff determined allocation amounts and descriptions for each of the proposed six (6) Request for Proposals (RFPs). In addition, staff is recommending an allocation of IGT dollars for internal projects and program administration in the amounts indicated.

The Ad Hoc committee is recommending the following allocation of approximately $17.7 million for IGT 6 and 7 Board-approved priority areas through six (6) RFPs. Please note that multiple applicants may be selected per RFP to receive a grant award.

Community Grants

Request for Proposal	Priority Area	Allocation Amount
Access to Outpatient Mental Health Services	Children's Mental Health	~~$2,700,000~~ $4,850,000
Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	~~$7,000,000~~ $4,850,000
Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000

Rev. 9/6/18

Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$500,000
Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$1,000,000
Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA/Older Adult Health	$500,000
TOTAL		**$17,700,000**

Rev. 9/6/18

Internal Projects and Program Administration

In addition, staff is also recommending an allocation of approximately $3.4 million for internal projects and IGT program administration to manage all IGT program projects as follows:

Internal Project Examples: - IS and other infrastructure projects	$2,500,000
IGT Program Administration - Support for two (2) existing staff positions for three years - Grant Management System license, and other administrative costs for three years	$949,289 *(Approx. $317,000 per year for three years)*
TOTAL	**$3,449,289**

Staff anticipates returning with recommendations of RFP grantee awards and internal project(s) for Board approval following the completion of the community grant and internal project RFP application processes at the February 2019 Board meeting. The staff positions are Manager, Strategic Development, and Program Assistant, and the above proposed funding is in addition to $10 million allocated from IGT 6/7 for Homeless Health on August 2, 2018.

Fiscal Impact

The recommended action to approve the expenditure plan and allocation of $21.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

8/29/2018 — **Date**

IGT 6 & 7 Expenditure Plan Allocation

Board of Directors Meeting

September 6, 2018

Cheryl Meronk

Director, Strategic Development

IGT 6 & 7 - Background

- Board Established 3 New Priority Areas
  1. **Homeless Health**
  2. **Opioid and Other Substance Overuse**
  3. **Children's Mental Health**
  - ➢ Community needs identified by MHNA
  - ➢ Internal projects and IGT program administration
- Received 117 LOIs
- $10.0M allocated for County HCA for Homeless Health/WPC Recuperative Care
- Ad Hoc met to discuss recommendations for other categories

IGT 6 & 7 Funding

- **$31.1M** CalOptima's share
- **$10.0M** to County HCA for WPC Recuperative Care
- **$21.1M** remaining for recommended distribution
  - ➢ $17.7M for Community Grants
    - Six Request for Proposals (RFPs)
      - 2 RFPs in Children's Mental Health
      - 1 RFP in Opioid and other Substance Overuse
      - 3 RFPs for MHNA identified needs
  - ➢ $3.4M for Internal Projects and Program Administration

IGT 6 & 7 LOI Summary

Priority Area	# Received
Children's Mental Health	57
Homeless Health	36
Opioid & Other Substance Overuse	22
Other/multiple categories	2
Total	**117**

Children's Mental Health – 2 RFPs

RFP #	RFP Description	Funding Amount
1	Expand Access to Outpatient Mental Health Services	$2.7 million
2	Integrate Mental Health Services into Primary Care Settings	$7.0 million
	Total	**$9.7 million**

* Multiple awardees may be selected per RFP

RFP 1

Expand Access to Outpatient Children's Mental Health Services

- **Funding Amount:** $2,700,000
- **Description:**
  - Access to outpatient services
    - Create/expand school or resource center-based mental health services for children.
    - Provide services on-site, in-home, and/or afternoon/evening
    - Use an integrated model with community health workers to target vulnerable populations such as children experiencing homelessness, who have experienced traumatic incidences, homeless etc.
    - Provide additional support services to help promote stability and success

RFP 2

Integrate Children's Mental Health Services into Primary Care Settings

- **Funding Amount:** $7 million
- **Description:**
  - Integrate mental health services provided in primary care settings
    - Include behavioral health providers in clinics and/or other settings where children are provided health care services
    - Provide culturally sensitive services
    - Provide efficient and immediate access to mental health consultation
    - Provide health navigation/scheduling coordinator to ensure availability and follow-up of services

Opioid & Other Substance Overuse – 1 RFP

RFP #	RFP Description	Funding Amount
3	Increase access to Medication-Assisted Treatment	$6.0 million
	Total	**$6.0 million**

*Multiple awardees may be selected per RFP

RFP 3

Increase access to Medication-Assisted Treatment

Funding Amount: $6.0 million

- **Description:**
  - Increase access to Medication-Assisted Treatment (MAT) Programs
    - Combine behavioral and physical health services
    - Manage oversight and prescribing of FDA-approved medications and program administration
    - Provide management of patients' overall care coordination
  - Integrate pain management services
  - Ensure availability of providers/staff to deliver appropriate services
  - Establish a partnership with the Orange County Health Care Agency Drug Medi-Cal Organized Delivery System (ODS) for referrals/collaboration

Community Needs Identified by MHNA: Food Access – 3 RFPs

RFP #	RFP Description	Funding Amount
4	Expand Mobile Food Distribution Services	$500K
5	Expand Access and Food Distribution focused on Children and Families	$1 million
6	Expand Access to Older Adults Meal Programs	$500K
	Total	**$2 million**

*Multiple awardees may be selected per RFP

RFP 4

Expand Mobile Food Distribution Services

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase availability and access to healthy food options in areas of where fresh food/grocery stores are limited
  - Ensure additional mobile food trucks/vehicles to distribute healthy food options such as fresh produce/groceries that are culturally appropriate in areas of greatest need
  - Enroll members in mobile food distribution services programs
  - Provide education to prepare nutritious meals and/or pre-made meal options and simple recipes

RFP 5

Expand Access and Food Distribution Services focused on Children and Families

- **Funding Amount:** $1 million
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Access to healthy food options such as fresh fruits, vegetables and other groceries
  - Increase access to culturally appropriate food options
  - Enroll/connect members to food distribution service programs
  - Provide education and simple recipes to help families on a limited budget
  - Provide take-home meals for children/families who may not have access to cooking facilities

RFP 6

Expand Access to Older Adult Meal Programs

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase access to:
    - Healthy options such as fresh fruits, vegetables and other groceries in areas of highest need
    - Culturally appropriate food options
    - Home delivered meals
  - Enroll/connect member food distribution service programs

Internal Projects/Program Admin.

Description	Amount
IS and Other Infrastructure Projects	$2.5 million
Support for staff and administrative costs	~$315K/year (for 3 years)

Next Steps*

- IGT 6 & 7 RFP Recommendations: September 6, 2018 Board Meeting
- Release of RFPs: September 2018
- RFPs due: November 2018
- IGT Ad Hoc review of recommended grant awards: January 2019
- Recommended awards: February 2019 Board Meeting

* Dates are subject to change based on Board approval

Homeless Health Care Delivery

Special Meeting of the CalOptima Board of Directors
February 22, 2019

Michael Schrader
Chief Executive Officer

Agenda

- Current system of care
- Strengthened system of care
- Federal and State guidance
- Activities in other counties
- Considerations
- Recommended actions

Current System of Care

Key Roles	Agency
Public Health	County
Physical Health	CalOptima*
Mental Health – mild to moderate	CalOptima*
Serious Mental Illness (SMI) and Substance Use Disorder	County
Shelters	County and Cities
Housing supportive services for SMI population • Housing search support • Facilitation of housing application and/or lease • Move-in assistance • Tenancy sustainment/wellness checks	County
Intensive Care Management Services	County and CalOptima*
Medi-Cal Eligibility Determination and Enrollment	County
Presumptive Medi-Cal Eligibility	State Medi-Cal Fee-for-Service Program

**For Medi-Cal Members*

Current System of Care (Cont.)

- Services available to Medi-Cal members through CalOptima
  - Physician services – primary and specialty care
  - Hospital services and tertiary care
  - Palliative care and hospice
  - Pharmacy
  - Behavioral health (mild to moderate)
- Recuperative care funding with IGT dollars through County's Whole-Person Care Pilot
  - A clean and safe place for homeless individuals to recover from illness or injury for up to 90 days
  - A form of short-term shelter based on medical necessity

Gaps in the Current System of Care

- Access issues for homeless individuals
  - Difficulty with scheduled appointments
  - Challenges with transportation to medical services
- Coordination of physical health, mental health, substance use disorder treatment, and housing
- Physical health for non-CalOptima members who are homeless
  - Individuals may qualify for Medi-Cal but are not enrolled

Immediate Response

- In 2018, more than 200 reported homeless deaths in Orange County
  - Roughly double the number of homeless deaths in San Diego County
- CalOptima Board
  - On February 20, 2019, Quality Assurance Committee tasked staff to investigate
    - Percentage that were CalOptima members
    - Demographics
    - Causes of death
    - Prior access to medical care
  - Identify opportunities for improvement

Strengthened System of Care

- Vision
  - Deliver physical health care services to homeless individuals where they are
- Partner with FQHCs to deploy mobile clinical field teams
  - Reasons for partnering with FQHCs
    - Receive CalOptima reimbursement for Medi-Cal members
    - Receive federal funding for uninsured
    - Enrollment assistance into Medi-Cal
    - Offer members education on choosing FQHC as their PCP
  - About the FQHC clinical field teams (a.k.a., “Street Medicine”)
    - Small teams (e.g., physician/NP/PA, medical assistants, social worker)
    - Available with extended hours
    - Go to parks, riverbeds and shelters
    - In coordination with County Outreach and Engagement Team (a.k.a., “Blue Shirts”)

Federal and State Guidance

- Depending on the state-specific waivers and county contracts with state, Medicaid funds can be used for coverage of certain housing-related activities, such as
  - Intensive case management services
    - Section 1915(c) Home and Community Based Services waiver
      - e.g., In-Home Supportive Services and Multipurpose Senior Services Program
  - Housing navigation and supports
    - Section 1115 waiver
      - e.g., Whole-Person Care Pilot

Federal and State Guidance (Cont.)

- Medicaid funds cannot be used for rent or room and board
  - CMS Informational Bulletin – June 26, 2015
- CalOptima's Medi-Cal revenue and reserves can be used for the CalOptima Medi-Cal program only
  - Welfare & Institutions Code section 14087.54 (CalOptima enabling statute)

Activities in Other Counties

- Los Angeles County
  - LA County administers a flexible housing subsidy pool
  - L.A. Care provided a $4 million grant (total commitment of $20 million over 5 years) for rent subsidies to house 300 individuals
    - L.A. Care has other sources of revenue beyond Medi-Cal (e.g., Covered California commercial plan)
- Riverside and San Bernardino Counties
  - Inland Empire Health Plan contributes to a housing pool to provide housing supportive services for 350 members
- Orange County
  - Housing pool not in existence today under WPC Pilot
  - If established pursuant to the 1115 Waiver (e.g., under WPC), CalOptima could contribute funds for housing supportive services, not rent

Considerations

- Establish CalOptima Homeless Response Team
  - Dedicated CalOptima resources
  - Coordinate with clinical field teams
  - Interact with Blue Shirts, health networks, providers, etc.
  - Work in the community
  - Provide access on call during extended hours
- Fund start-up costs for clinical care provided to CalOptima members
  - On-site in shelters
  - On the streets through clinical field teams

Additional Considerations

- Look at opportunities to support CalOptima members who are homeless
  - ➢ Contribute to a housing pool
    - Housing pool must exist under an 1115 waiver program (e.g. WPC) in order to use Medi-Cal funds
    - CalOptima contribution used towards housing navigation and support services; cannot be used towards rent or room and board

Recommended Actions

- Authorize establishment of a clinical field team pilot program
  - Contract with any willing FQHC that meets qualifications
  - ~~CalOptima financially responsible for services regardless of health network eligibility~~
  - ~~One year pilot program~~
  - ~~Fee-for-service reimbursement based on CalOptima Medi-Cal fee schedule~~
- Authorize reallocation of up to $1.6 million from IGT 1 and 6/7 to fund start-up costs for clinical field team pilot
  - ~~Vehicle, equipment and supplies~~
  - ~~Staffing~~

Recommended Actions (Cont.)

- Authorize establishment of the CalOptima Homeless Response Team
  - Authorize eight unbudgeted FTE positions and related costs in an amount not to exceed $1.2 million
- Return to the Board with a ratification request for further implementing details
- Consider other options to work with the County on a System of Care
- Obtain legal opinion related to using Medi-Cal funding for housing-related activities

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

RFP 1. Expand Access to Outpatient Children's Mental Health Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Access California Services	$ 195,000	Playing with Rainbows	Provide an innovative play-based therapeutic program that facilitates the process of healing in immigrant and/or refugee children who have been traumatized by war and migration through the use of a group counseling process involving play and art.
Boys & Girls Club of Anaheim Inc.	$ 1,331,418	Wild at Heart	A therapeutic wilderness program focused on improving children's mental health, coping skills and resilience through evidence-based outdoor experiential therapy to at-risk youth aged 12 to 18
Boys & Girls Clubs of Garden Grove	$ 325,200	Teen Mental Health Leadership Program	Reduce stigma, increase coping skills, and triage mental health care by providing peer training to community-based teen empowerment programs and education around outreach and stigma reduction.
Casa de la Familia (CDLF)	$ 1,840,968	SAUSD Mental Health Project	Provide culturally sensitive counseling, case management, outreach and parental support services to students and parents within the Santa Ana Unified School District.
Child Guidance Center, Inc	$ 1,207,053	School Based Behavioral Health Services for Military/Veteran Connected Families	Expand resource center-based behavioral health services for veteran and military connected children by providing early intervention, prevention programs and behavioral health services to children in a community-based setting. Program will also provide training to schools and implement peer navigators. Program will leverage MHSA Innovation project with the Family Resource Centers.

Organization Name	Request ($)	Project Title	Project Description
Children's Bureau of Southern California (Children's Bureau)	$ 3,500,000	Children's Mental Health Access Collaborative	Bring together 12 outpatient mental health services providers to expand access to mental health services and increase coordination, outreach, peer support, and systems integration. Providing other Early Childhood Mental Health interventions not currently covered by MHSA funds or Medi-Cal.
CSU Fullerton Auxiliary Services Corporation	$ 4,033,395	The Early Childhood Mental Health and Wellness Program	Implement a Early Childhood Mental Health and Wellness Program through a facilitated process by a consultant and a leadership team of early care and education programs.
Gay and Lesbian Community Services Center of Orange County	$ 120,000	LGBT Center OC's Mental Health Program for Children and Youth	Provide CalOptima members ages 4-18 years with individual and family therapy as appropriate; mental health support groups for children and youth; drop-in counseling sessions for foster children; and; community groups focused on mental and emotional wellness
Hurtt Family Health Clinic	$ 745,812	Family Counseling Services for Homeless, Poor and Foster Children and Youth	Provide family counseling services to homeless families residing in Orange County Rescue Mission's transitional housing programs.
Illumination Foundation	$ 1,080,384	Children and Family In-Home Stabilization Program	Bring in-home services and individualized counseling to more families with children who are at risk of developing emotional and behavioral disorders.
Jamboree Housing Corporation	$ 692,000	Children's Behavioral Health Peer Navigation Collaboration	Pilot program to provide accessible behavioral health services for children and their families living at Jamboree's Clark Commons and surrounding Buena Park communities through an afterschool program, resident leadership training, food and nutrition workshops, and computer classes. The program will use an evidence-based peer navigation model (peer with lived experience), as well as connect members to clinical care.

Organization Name	Request ($)	Project Title	Project Description
Latino Center for Prevention & Action in Health & Welfare DBA Latino Health Access for Children with Adverse Childhood Experiences	$ 450,000	Promotora/ Community Health Worker-Facilitated Emotional Wellness and Mental Health Services	Prevention and intervention mental health program for Latino children who have had Adverse Childhood Experiences (ACE) that have resulted in trauma.
Living Success Center, Inc.	$ 1,351,000	Outreach and Education Expansion of Children's Mental Health Services	A 3-year outreach and education project to identify those in need, targeting homeless shelters and domestic violence service providers to help and counsel children who have experienced trauma .
Mariposa Women and Family Center	$ 238,898	Mariposa Children's Intervention Program (CHIP)	Use existing partnerships with local school districts, local community institutions, and low-income parents to provide programming to engage children and identify and treat mental health issues among children in Orange County.
NAMI Orange County	$ 546,380	Mental Health Education & Outreach	Offer evidence based programs such as Parent Connector, Basics Education, Progression, NAMI Connects at CHOC, and a quarterly Family Fun Event - 1K Awareness Walks for Families in collaboration with Family Resource Centers (FRC).
OC United	$ 901,500	Creating Capacity and Expanding Resilience for Children, Families, and their Communities	Expand current program engagement in local organizations, pilot a Whole-Child Treatment Team model, increase community resilience and engagement, reduce stigma, as well as increase accessibility to resources.
OCAPICA (Orange County Asian & Pacific Islander Community Alliance, Inc)	$ 685,000	The API Project HOPE	Provide mental health and wellness, culturally competent and linguistically appropriate services that include outreach and education to promote health awareness, support groups, educational trainings, resource referral and linkage, etc. Program will provide case management, in-home/community-based group counseling.

Organization Name	Request ($)	Project Title	Project Description
Orange County Department of Education	$ 4,583,290	School-Based Student Wellness Centers	Pilot School-Based Student Wellness Centers (SWCs) within seven Orange County districts where all students can access support, resources and information on a variety of topics around mental health at their school site.
PADRES UNIDOS	$ 55,000	Early Learning Programs	Provide community-based modules such as Parents as Teachers/Early Education Modules where parents have identified that preschool-aged kids exhibit early signs of concerning behavior that can lead to future mental health challenges.
Radiant Health Centers	$ 450,000	Children's Mental Health Program Expansion	Provide outreach, community partnership building and outpatient mental health services with a focus on the subpopulations of children infected or affected by HIV and LGBTQ+ youth. The program will reduce stigma, increase awareness of mental health services and increase access to services.
Straight Talk Clinic, Inc.	$ 186,000	Children's Mental Health Support	Expand program with a pilot weekly on-site counseling services and comprehensive outreach series for children and families.
The Center for Autism & Neurodevelopmental Disorders	$ 743,672	Child Mental Health Cooperative (CMHC)	Expand child mental health services by delivering a consultative support program to providers, creating a unique interactive video-conferencing classroom and optimizing partnerships and collaborations.

Organization Name	Request ($)	Project Title	Project Description
Vision y Compromiso	$ 875,235	Salud y Bienestar Para Todos	Collaborate with schools and community partners in Anaheim and Westminster to deliver evidence-based outreach and education strategies by engaging *promotores* to share information and resources.
Vista Community Clinic	$ 433,045	Providing School-Based Mental Health Services to La Habra Youth in Need	Project will designate 3-5 schools in La Habra as interim FQHC sites and assign three Licensed Clinical Social Workers to provide on-campus, 1-on-1 therapy to youth with mild to moderate behavioral health symptoms.
Wellness & Prevention Center	$ 153,951	Expansion of School and Community-based Youth Wellness Programming	Increase bilingual staff, support a coalition of Spanish-speaking parents and providers, and establish a presence at five new schools and community centers.
Women's Transitional Living Center, Inc.	$ 50,000	Children's Therapy Program	Counselors work with children through treatment plans that are age-appropriate, creative, and flexible, and can incorporate a range of counseling services, including individual counseling, family counseling, art therapy, sand therapy, and play therapy.

RFP 2. Integrate Children's Mental Health Services Into Primary Care			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
AltaMed Health Services Corporation	$ 998,040	Integrating Children's Mental Health Into Primary Care in Orange County	Enhance current pediatric primary care services by integrating mental health services for children, providing referrals to early intervention, and engaging parents through community outreach and education.
CHOC Children's	$ 4,785,076	Expanding Mental Health Access and Knowledge in Pediatric Primary Care and Community Settings	Establish mental health screening, embedded mental health services, telehealth, and resource and referral for members in clinics served by CHOC Medical Group and in CHOC's Primary Care Network. Program will also provide trainings over the 3 years.
Families Together of Orange County	$ 920,000	Expanding Children's Mental Health Services	Integrate children's mental health services into primary care by offering on-site outpatient pediatric mental health care at the community health center in Tustin with outreach and education.
Friends of Family Health Center	$ 600,000	Healthy Steps	Introduce the evidence-based model HealthySteps program designed to have a specialist screen and provide families with support for common and complex concerns during a well-child visit. The HealthySteps specialist will assist with referrals and connects to additional services.
Laguna Beach Community Clinic	$ 69,109	Pediatric Mental Health: Screening and Case Management to Increase Access to Treatment	Provide screening, case management, and linkage to mental health resources and treatment for Cal-Optima members
Livingstone Community Development Corporation	$ 626,000	Integrating Children's Mental Health Services into Medical Care	Integrate outpatient mental health services into pediatric primary care screening and expand its arts and music therapy program.
Share Our Selves Corporation (SOS)	$ 200,000	Children's Mental Health Expansion Project	Expand SOS Children and Family Health Center's hours of operation from 40 to 45 hours per week and access to behavioral health outreach education and counseling services.

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 2,848,235	Child Psychiatry Consultation and Fellowship Program for Primary Care Providers (CPCFP)	Provide same day telephone consultation to PCPs by a child and adolescent psychiatrist in addition to rapid tele-video consult with ongoing education and training in mental health.
The Safety Net Foundation (FQHC Collaborative)	$ 2,496,000	Pediatric Integration of Behavioral Health in Primary Care for CalOptima's Safety Net: Expansion of Care Coordination, Mid-Level Provider Availability, Telehealth Options and Evidence-Based Training at Community Health Centers	Increase access to pediatric mental health care through the expansion of mid-level providers, the exploration of telemedicine and the integration of behavioral health with pediatric primary care.
Vista Community Clinic	$ 426,422	Enhancing Children's Mental Health via Primary Care Integration and Community Outreach in La Habra	A primary care - mental health integration project for Hispanic youth and their families living in and around the City of La Habra.

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

RFP 3. Increase Access to Medication-Assisted Treatment			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Ahura Healthcare	$ 2,850,000	Medicated-Assisted Treatment (MAT)	Provide comprehensive mental health and addiction medicine care with the use of Medicated-Assisted Treatment (MAT) therapy such as Suboxone, Methadone, and Naltrexone provided by licensed physicians along with mental health services and counseling.
Bright Heart Health	$ 3,915,000	Opioid Use Disorder OnDemand Treatment	Provide complete telehealth MAT services through Data2000 physicians, nurse practitioners, and physician assistants.
Central City Community Health Center	$ 930,000	CCCHC SUD-MAT Services & Educational Program	Expand access to and enhance existing, integrated and evidenced-based, SUD-MAT clinical care program with the City of Anaheim Health Center as the "hub" with services available via in-person provider or telehealth. The project includes providing service through mobile units.
Clean Path Recovery LLC	$ 5,998,484	Clean Path Recovery MAT Program	Program will use FDA approved medications in combination with counseling, holistic and behavioral therapies.

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
Coalition of Orange County Community Health Centers	$ 5,998,000	MATCONNECT: A County-wide Collaborative for MAT Expansion to CalOptima Members at Community Health Centers	Build capacity and expand access and delivery of MAT services by bridging integration gaps in the Substance Use Disorder (SUD) system of care in Orange County. Implement a localized version of the DHCS Hub and Spoke model and build internal capacity for increased MAT services and access for each of the Spoke locations.
Friends of Family Health Center	$ 600,000	Medication Assisted Treatment	Introduce Medication Assisted Treatment (MAT) with emphasis on opioid addiction with an individually tailored and extensive care coordination for patients
Livingstone Community Development Corporation	$ 808,000	Establishing a Substance Abuse Program with Medication-Assisted Treatment	Establish a new medication-assisted treatment (MAT) program which will be integrated with physical and behavioral health services and include supervised exercise and acupuncture treatments.
Serve the People	$ 1,485,000	Integrated Behavioral Health for Hard To Reach Populations	Purchase and staff Integrated Services (IS) Mobile Clinics and provide integrated whole-person care to individuals at the Courtyard and to others in addiction treatment facilities.
Share Our Selves Corporation (SOS)	$ 200,000	SOS Behavioral Health Expansion Project	Increase capacity to provide comprehensive behavioral health and case management services via telehealth technology and new medical/behavioral health mobile unit at homeless shelters operated by SOS's partner agencies throughout the county.

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 1,825,518	Establishing and Increasing the capacity of a Medication Assisted Treatment program through a Hub-and-Spoke model for CalOptima patients	Establish and expand the capacity of medication-assisted treatment (MAT) within Orange County. The hubs will be the Zephyr Medical Group in Laguna Hills and UC Irvine Medical Center.

RFP 4. Expand Mobile Food Distribution Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 250,000	OC Food Bank Mobile Food Trolley	Project will use OC Food Bank's mobile food trolley to provide a variety of food that is distributed on a first-come, first-served basis and may include items such as produce, non-perishable goods and protein.

RFP 5. Expand Access to Food Distribution Services Focused on Children and Families			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Global Operations & Development / Giving Children Hope	$ 50,000	We've Got Your Back (WGYB)	Food distribution program fills and distributes more than 1,100 backpacks of nutritious food including fruits and vegetables on a weekly basis.
LiveHealthy OC	$ 990,000	The LiveHeathy OC "Farmacy" Project - Establishing a Sustainable Farm to Clinic Network to Increase Access to Fresh, Healthy Foods for Underserved and Low Income Patients	Expands current access to fresh fruits and vegetables using a sustainable farm-to-clinic produce delivery system – the "farmacy" – at five community health centers through a monthly mobile farmers' market.
Livingstone Community Development Corporation	$ 300,000	Expanding Food Access for Children and Families	Expanding food pantry and integrate access to the food pantry into Group Medical Visits with CalOptima members suffering from diabetes, obesity, hypertension, and/or heart disease
Serve the People	$ 1,000,000	OC Food Oasis Partnership	Expand mobile food distribution to five FQHC sites and shelters that serve homeless persons. The strategy is to include healthy food and meal distribution, nutrition education, a 'food as medicine' prescription food box program for patients with chronic disease, and demonstrations on healthy food preparation and cooking, plus outreach and case management to services establishing a system to address social determinants of health.

Organization Name	Request ($)	Project Title	Project Description
Vista Community Clinic	$ 289,533	In the Kitchen: An Innovative Education/Food Distribution Program in La Habra	Develop a teaching kitchen that will provide nutrition education and hands-on cooking lessons to participants (accommodate groups of 12 residents).

RFP 6. Expand Access to Food Distribution Services for Older Adults			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 231,514	Farm-to Seniors Food Distribution Program	Provide fresh, healthy food to older adult CalOptima members through a network of 17 distribution sites.
Multi-Ethnic Collaborative of Community Agencies	$ 500,000	Increasing Food Access for Underserved Multi-Ethnic Older Adults	Expand food access distribution at the seven MECCA sites by building the volunteer base capacity, expand outreach, and provide culturally appropriate education.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 3, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

14. Consider Authorizing Amendments to Medi-Cal Health Network Contracts Except Those Associated with AltaMed Health Services Corporation to Include Language for the Health Homes Program and Consider Ratifying Memorandum of Understanding with HCA Related to the Health Homes Program

Contact

Michelle Laughlin, Executive Director, Network Operations (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to:
   a. Amend the CalOptima Medi-Cal Health Network Contracts, except those associated with AltaMed Health Services Corporation, to provide Health Homes Program (HHP) services, including responsibilities as Community Based-Care Management Entities (CB-CMEs), as well as include all subcontracting requirements of the California Department of Health Care Services (DHCS);
   b. Amend the Business Associate Agreements, as necessary, for network data sharing; and
2. Ratify the Behavioral Health Memorandum of Understanding (MOU) amendment with the Orange County Health Care Agency to reflect coordination of services for CalOptima members with mental health conditions who enroll in the Health Homes Program, effective October 1, 2019.

Background/Discussion

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option, which is intended to improve member outcomes and reduce health care costs with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. On June 7, 2018, the CalOptima Board of Directors authorized an amendment to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS) to incorporate implementation of the HHP. Implementation in Orange County is expected to be effective no sooner than January 1, 2020 for CalOptima Medi-Cal members with eligible chronic physical conditions and substance use disorders (SUD), and no sooner than July 1, 2020 for CalOptima Medi-Cal members with Serious Mental Illness (SMI).

HHP Eligible Members and HHP Enrollment

Members with certain chronic physical conditions, SUD and SMI and meeting specified medical condition acuity requirements may qualify to participate in HHP. In order to participate, members must actively choose to enroll into HHP. Based on DHCS eligibility criteria, CalOptima staff plans to actively outreach to Medi-Cal only members potentially eligible for HHP and actively engage these members through written, telephonic, and face-to-face encounters to encourage member participation in HHP. CalOptima anticipates that approximately 30,000 Medi-Cal only members will be potentially eligible for HHP and that approximately 10% -25% of these eligible members will elect to participate. HHP eligible members who are currently in Whole Person Care Pilot program can also elect to enroll in HHP, however services provided under both programs cannot be duplicated. CalOptima's dually eligible

members can be referred to participate in HHP by community providers if members meet HHP eligibility criteria.

HHP Network Delivery Model
In developing CalOptima's HHP strategy, staff has considered the impact of these new HHP requirements to CalOptima's current delivery system. The impact analysis has included reviewing staffing resources, process and system enhancements, data exchange, and available community resources for new HHP services, such as accompaniment to appointments, housing transition services and tenancy sustaining services. Many of the CB-CME responsibilities are currently being provided by CalOptima's health networks. For HHP, CalOptima can leverage existing infrastructure to incorporate the new HHP services.

HHP focuses on a small percentage of CalOptima's overall membership. Based on the member distribution of HHP enrollment projections within the health networks, CalOptima staff's initial recommended approach was to provide health networks with an option of participating in HHP; however, this approach would potentially have required members to change their health networks and/or primary care providers when enrolling in HHP. In January 2019, DHCS advised that CalOptima must adhere to HHP expectation of not requiring members to change their health networks and/or primary care providers in order to participate in the HHP. Consequently, CalOptima will require all health networks, including CalOptima Direct and CalOptima Community Network, to participate in HHP and meet CB-CME requirements. This approach will provide an adequate CB-CME network and ensure continuity of members' relationships with their respective health networks and primary care providers.

Health Network Contracts
In order to implement HHP, CalOptima health network contracts will need to be amended, effective January 1, 2020, to include providing HHP services, expectations of CB-CME responsibilities, guidelines for information and data sharing, as well as HHP training. Prior to implementing HHP, CalOptima will coordinate with the health networks regarding the development of infrastructure, policies and procedures, reporting capabilities, staffing ratio requirements, and the ability to deliver core services with added intensity and new select services, where appropriate.

Amendment to County Behavioral Health MOU
Pursuant to DHCS All Plan Letter 18-015: Memorandum of Understanding (MOU) Requirements for Medi-Cal Managed Care Plans, MCPs participating in HHP must coordinate care for members enrolled in HHP who also receive care through the Mental Health Plan (MHP or County). The MOU with the Orange County Health Care Agency is the vehicle for ensuring this coordination. The Behavioral Health MOU between CalOptima and the County of Orange has been amended to reflect that CalOptima and the County agree to coordinate appropriate services for CalOptima members with mental health conditions who are enrolled in HHP.

Implementation Efforts
Based on DHCS feedback and in partnership with the health networks, CalOptima staff continues to develop and adjust operational procedures and polices outlining HHP requirements and operational processes impacting member engagement and enrollment, care management, CB-CME network and its responsibilities, staffing requirements and MCP oversight role. Currently, CalOptima's policies impacted by HHP requirements have been submitted to DHCS as part of the HHP regulatory submission requirements. Once CalOptima receives the feedback from DHCS, CalOptima staff will return to the Board with recommendations for approval of policy and procedures impacted by HHP requirements.

Additionally, CalOptima staff will continue to collaborate with Orange County HCA, Health Networks, and other stakeholders for Phase II of the Health Homes Program for SUD, SMI, and homelessness consistent with requirements as specified by DHCS.

Fiscal Impact
The anticipated implementation date for HHP in Orange County is January 1, 2020. Management has included projected revenues and expenses for HHP in the CalOptima Fiscal Year 2019-20 Operating Budget and will for future operating budgets. Total actual revenue and expenses for HHP will depend on the number of members that choose to participate in the program. Based on projected enrollment and draft rates received from DHCS on April 2, 2018, CalOptima is projected to receive $26.3 million in funding for HHP over a three-year period.

Since this is a new program for CalOptima, there is the possibility that the rate development assumptions applied by DHCS may be materially different from CalOptima's actual utilization and expenses. Staff will closely monitor both utilization and expenses and will continue to work with DHCS to ensure that Medi-Cal revenue will be sufficient to support the program.

Rationale for Recommendation
The recommended actions will enable CalOptima to operationally prepare for the anticipated implementation of Health Homes Program, effective January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD and July 1, 2020, for members with SMI.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorizing and Directing the Chairman of the Board of Directors to Execute an Amendment to the Primary Agreement with the California Department of Health Care Services (DHCS) Related to the Health Homes Program

Contact

Silver Ho, Executive Director, Compliance, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors (Board) to execute an Amendment to the Primary Agreement between DHCS and CalOptima related to incorporation of language related to the Health Homes Program (HHP).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

On October 2, 2017, DHCS submitted an amendment to the Centers for Medicare & Medicaid Services (CMS) for approval that will incorporate language regarding the Health Homes Program (HHP) into managed care plan (MCP) contracts, including CalOptima's.

The Medicaid Health Home State Plan Option, authorized under Section 2703 of the Patient Protection and Affordable Care Act (ACA), allowed states to create Medicaid health homes to provide supplemental services that coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Among other goals, the HHP was designed with particular attention paid to its ability to produce positive health outcomes for individuals experiencing homelessness. Specifically, the HHP provides six core services:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and

- Referral to community and social support services, including housing.

Effective July 1, 2019, CalOptima will begin providing HHP services to members with eligible chronic physical conditions and substance use disorder (SUD); effective January 1, 2020, CalOptima will begin providing HHP services for members with Severe Mental Illness (SMI).

Once CMS concludes its review of DHCS' proposed amendment, DHCS will provide the amendment to CalOptima for prompt signature and return. If the amendment is not consistent with staff's understanding as presented in this document or if it includes significant unexpected language changes, staff will return to the Board of Directors for consideration and/or ratification of staff action.

DHCS has advised that once the contract amendment and applicable APLs are finalized, it will require MCPs to submit readiness deliverables related to the amendment. DHCS' requested deliverables may include Policies and Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. To the extent that CalOptima staff must provide information to DHCS to meet certain deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Following is a general summary of the major changes to expected be addressed in the final contract amendment:

	Requirement
HHP Compliance	Implement the HHP, as directed by DHCS, and in accordance with all State and federal requirements related to HHP and DHCS APLs.
Provider Network	Maintain an adequate network of CB–CMEs to serve HHP members including providers with experience working with people who are chronically homeless. Establish contractual relationships with organizations to provide HHP services including individual housing transition services and individual housing and tenancy sustaining services. Amend the current MOU with the Orange County Health Care Agency to incorporate HHP requirements.
Provider Relations	Ensure that staff providing HHP services complete required training as determined by DHCS and participate in DHCS–operated learning collaboratives.
Eligibility and Enrollment	Enrollment in HHP based on HHP eligibility criteria, as defined by DHCS.

	Requirement
HHP Member Services	Includes CB–CME selection, and HHP–specific member information and provider directory requirements.
HHP Covered Services	Includes the provision and coordination of HHP services informed by evidence–based clinical practice guidelines.
Information Sharing	Develop and maintain a method to track and share HHP member information between CB–CMEs, CalOptima, and other providers, as warranted.
Quality Improvement System	Include HHP–specific elements in current Quality Improvement system processes and conduct oversight and regular auditing and monitoring of HHP care management requirements.
Payment	CalOptima shall receive an additional monthly payment for each HHP member who receives HHP services.
Required Reports for the HHP	Submission of reports for HHP in a form and manner specified by DHCS.

The final contract amendment is also expected to contain revisions to Plan rates related to the HHP. On April 2, 2018, DHCS provided draft rates applicable for the first two years of the program. Highlights regarding these rates includes the following:

- Updates to the wage inflation factor, existing care coordination (ECC), and partial dual adjustment.
- Build-up of the lower bound HHP services per-member-per-month (PMPM) for chronic conditions (CC) and SMI enrollees, highlights the salary and caseload assumptions by HHP staff member, along with tier mix assumptions and the provider overhead cost. Rates are displayed in six month increments for the first 30 months of the program.
- Build-up of the lower bound engagement period costs for each member on the Targeted Engagement List (TEL), wage and service time assumptions by HHP staff member, and the assumed average number of months of engagement required for each TEL member.
- Combines information from steps 1 and 2 outlined above to produce the statewide lower bound HHP PMPM for the CC only and SMI populations.
- Application of the county-specific wage index, rural area, and wage inflation factors to the statewide rates. Plan-specific existing ECC PMPM and Partial Dual carve–outs are applied to create lower bound non–full dual rates with lower bound full–dual rates created by carving out the ECC and CCM/BHI PMPMs.
- Blending of CC only and SMI rates based on projected HHP enrollment to produce SFY rates.

Fiscal Impact

The recommended action to execute an amendment to the primary agreement between DHCS and CalOptima to incorporate language regarding the HHP program carries significant financial risks. Based on DHCS' proposed rates, staff estimates that the total annual program costs for

HHP will be $12 million. Management has included projected expenses to implement the HHP program effective July 1, 2019, in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval and will include projected revenue and expenses for the HHP program in future operating budgets. Actual utilization associated with the HHP eligible population is still relatively unknown. Therefore, CalOptima will closely monitor program expenses and continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the HHP program.

Rationale for Recommendation

The addition of the HHP contract amendment to CalOptima's Primary Agreement with DHCS is necessary to ensure compliance with the requirements of participation in the Medi-Cal program.

Concurrence

Gary Crockett, Chief Counsel

Authorized Signature — **Date**

APPENDIX TO AGENDA ITEM

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda Back to Item

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

State of California—Health and Human Services Agency
Department of Health Care Services

JENNIFER KENT

EDMUND G. BROWN JR.
GOVERNOR

DATE: June 28, 2018

ALL PLAN LETTER 18-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS PARTICIPATING IN THE HEALTH HOMES PROGRAM

SUBJECT: HEALTH HOMES PROGRAM REQUIREMENTS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance regarding the provision of Health Homes Program (HHP) services, and the development and operation of the HHP, to Medi-Cal managed care health plans (MCPs) implementing the HHP.

BACKGROUND:
The Medicaid Health Home State Plan Option is authorized under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the HealthCare and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health care services, behavioral health services, and community-based long term services and supports (LTSS) needed by members with chronic conditions.

In California, Welfare and Institutions Code (WIC) Sections 14127 through 14128 authorize the Department of Health Care Services (DHCS), subject to federal approval, to create the HHP for Medi-Cal members with chronic conditions who meet the eligibility criteria specified by DHCS.

POLICY:
Effective upon the HHP implementation date for each MCP implementing the HHP, the MCP is responsible for providing the following six core HHP services to eligible Medi-Cal members: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services.

The Medi-Cal Health Homes Program Guide (Program Guide) is available on the HHP webpage of the DHCS website.[1] The Program Guide outlines HHP policies, including member eligibility criteria, and contains DHCS' operational requirements and guidelines on HHP. DHCS may update the Program Guide to reflect the latest HHP requirements

[1] The HHP Program Guide can be found at: http://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx

Managed Care Quality and Monitoring Division
1501 Capitol Avenue, P.O. Box 997413, MS 4400
Sacramento, CA 95899-7413
Phone (916) 449-5000 Fax (916) 449-5005
www.dhcs.ca.gov

and guidelines. DHCS will notify MCPs whenever the Program Guide is updated, so that MCPs can obtain the latest information on HHP.

HHP MCPs must meet all program and reporting requirements specified in the Program Guide, all applicable state and federal laws and regulations, MCP contracts, and other DHCS guidance, including, but not limited to, APLs. Additionally, MCPs must communicate all HHP requirements to, and ensure the compliance of, their contracted HHP providers, including Community Based Care Management Entities, as well as any delegated entities and subcontractors.

MCPs are responsible for ensuring that all delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and Policy Letters.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Managed Care Quality and Monitoring Division

Medi-Cal Health Homes Program
Program Guide
7/01/19

Back to Agenda Back to Item

I. Introduction

The Medi-Cal Health Homes Program: Program Guide (Program Guide) is intended to be a resource for Medi-Cal Managed Care health plans (MCPs) in the development, implementation, and operation of the Health Homes Program (HHP). The Program Guide includes a brief synopsis of the HHP, identifies all HHP requirements, and identifies the documentation MCPs must submit to the Department of Health Care Services (DHCS) as part of the required HHP readiness review. The Program Guide refers to additional guidance documents, when applicable.

The Medicaid Health Home State Plan Option is afforded to states under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years.

In California, Assembly Bill 361 (AB 361) amended the Welfare and Institutions Code to add Sections 14127 and 14128 (W&I Code) which authorizes DHCS, subject to federal approval, to create an ACA Section 2703 HHP for members with chronic conditions. The W&I Code provides that the provisions will be implemented only if federal financial participation (FFP) is available and the program is cost neutral regarding State General Funds. It also requires DHCS to ensure that 1) an evaluation of the program is completed; and 2) a report is submitted to the appropriate policy and fiscal committees of the Legislature within two years after implementation of the program.

The Program Guide has five main sections (Infrastructure, Eligibility, Services, Network, and General Operations) and an appendix. Each section describes the program components and the requirements for those components.

The Program Guide contains the Health Homes Program: Medi-Cal Managed Care Plan Readiness Checklist (Readiness Checklist) in Appendix D. The Readiness Checklist identifies the specific components that MCPs are required to provide to DHCS and identifies the process DHCS will use to determine when the specific components are due to DHCS. The Program Guide provides additional guidance and context regarding HHP readiness requirements.

II. HHP Infrastructure

A. Organizational Model

DHCS' HHP implementation will utilize California's Medi-Cal Managed Care (Managed Care) infrastructure as the foundational building block. HHP services will be provided through the Managed Care delivery system to members enrolled in Managed Care. Managed Care serves approximately 85 percent of full scope Medi-Cal members and is an available choice for all full-scope Medi-Cal members statewide. The small percentage of Medi-Cal Fee-For-Service (FFS) members who meet HHP eligibility criteria may enroll in a Medi-Cal MCP to receive HHP services. HHP services will not be provided through the FFS delivery system.

The MCPs will leverage existing communication with their provider networks to facilitate the care planning, care coordination, and care transition coordination requirements of HHP, including assignment of each HHP member to a primary care provider. The MCPs' existing communication and reporting capabilities will be utilized to perform health promotion, encounter reporting, and quality of care reporting. MCPs also have existing relationships with the Medi-Cal county specialty mental health plans (MHPs) in each county to facilitate HHP care coordination.

The HHP will be structured as a health home network functioning as a team to provide care coordination. This network includes the MCP, one or more Community-Based Care Management Entities (CB-CMEs), and contractual or non-contractual relationships with other Community-Based Organizations (CBOs) to provide linkages to community and social support services, as needed (taken together as the HHP). The HHP network will be developed to meet the following goals:

- Ensure that sufficient HHP funds are available to support care management at the point of care in the community
- Ensure that providers with experience serving frequent utilizers of health services and individuals experiencing homelessness are available as needed
- Leverage existing county and community provider care management infrastructure and experience, where possible and appropriate
- Forge new relationships with community provider care management entities, where possible and appropriate
- Utilize community health workers in appropriate roles.

The HHP will serve as the central point for coordinating patient-centered care and will be accountable for:

- Improving member outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based Long Term Services and Supports (LTSS), oral health services, palliative care, and social support needs
- Reducing avoidable health care costs, including hospital admissions/readmissions, ED visits, and nursing facility stays

Improving member outcomes and reducing health care costs will be accomplished through the partnership between the MCP and the CB-CME, either through direct provision of HHP services,

or through contractual or non-contractual arrangements with appropriate entities that will be providing components of the HHP services and planning and coordination of other services.

1) Medi-Cal Managed Care Plan Responsibilities

HHP MCPs will be responsible for the overall administration of the HHP. They will have an HHP addendum to an existing contract with DHCS. Payment will flow from DHCS to the MCP and from the MCP to the CB-CMEs for the provision of HHP services. The MCP may also use HHP funding to pay providers, including but not limited to, the member's primary care physician, behavioral health providers, or other specialists, who are not included formally on the CB-CME's multi-disciplinary care team, for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the Health Action Plan (HAP). These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).

The MCP will have strong oversight and will perform regular auditing and monitoring activities to ensure that case conferences occur, the HAP is updated as health care events unfold, and all other HHP care management requirements are completed.

The MCP's care management department can be leveraged to train, support, and qualify CB-CMEs. (MCPs currently perform similar monitoring, training and auditing with MCP-delegated entities that have care management responsibilities under Cal MediConnect and other programs.)

MCP utilization departments will assist the CB-CMEs with information on admissions and discharges, and ensure timely follow-up care. MCP health care informatics analytics teams will provide meaningful, actionable data with identification of complex members and care gaps and other pertinent data that the health plan network can access. This will be provided to the CB-CMEs to assist with HAP care planning and ongoing goals for the member.

Many MCPs are exploring housing options to provide immediate housing post discharge and find permanent housing for members who are experiencing homelessness. Stakeholders include the health plan, hospitals, local housing authorities, and community-based organizations. Achieving stable housing for HHP members is a noted best practice from the national experience for achieving meaningful improvements in health and program cost effectiveness.

In counties selected for HHP implementation, Medi-Cal MCPs (Medicaid only benefit plans) are required to participate in HHP and serve as an HHP MCP. DHCS will work with these organizations to prepare for the implementation of HHP and to determine network adequacy and readiness.

2) Duties

MCPs will be expected to perform the following duties/responsibilities to the extent their information systems allow or through other available methods:

- Attribute assigned HHP members to CB-CMEs;
- Sub-contract with CB-CMEs for the provision of HHP services and ensure that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals;

- Notify the CB-CMEs of inpatient admissions and ED visits/discharges;
- Track and share data with CB-CMEs regarding each member's health history;
- Track CMS-required quality measures and state-specific measures (see *Reporting Template* and *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2017 Reporting,* or later *document*);
- Collect, analyze, and report financial measures, health status and other measures and outcome data to be reported during the State's evaluation process (see *Reporting Template*)
- Provide member resources (e.g. customer service, member grievances) relating to HHP
- Add functionality to the MCP's customer service line and 24/7 nurse line or other available call line so that members' HHP needs are also addressed (e.g. equip nurse line with educational materials to train them about HHP, nurse line receives the updated list of HHP members and their assigned care coordinator, etc.)
- Receive payment from DHCS and disperse funds to CB-CMEs through collection and submission of claims/encounters by the CB-CME and per the contractual agreement made between the MCP and the CB-CME
- Establish and maintain a data-sharing agreement with other providers, with whom MCP shares HHP member health information, that is compliant with all federal and state laws and regulations
- Ensure access to timely services for HHP members, including seeing HHP members after discharge from an acute care stay.
- Encourage participation by HHP members' MCP contracted providers who are not included formally on the CB-CME's multi-disciplinary care team, but who are responsible for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the HAP. These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).
- Develop CB-CME training tools as needed or preferred, in addition to DHCS-provided training
- Develop CB-CME reporting capabilities
- Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

3) Community Based Care Management Entity Responsibilities

CB-CMEs will serve as the frontline provider of HHP services and will be rooted in the community. MCPs will certify and select organizations to serve as CB-CMEs through a process similar to current MCP provider certification and will contract with selected entities. DHCS will not require MCP use of a standardized assessment tool. DHCS will provide general guidelines

and requirements, including examples of best practice tools that the MCP can use at their option to select, qualify, and contract with CB-CMEs.

The MCP's development of a network of CB-CMEs should seek to promote HHP goals, with particular attention to the following goals:

- Ensuring that care management delivery and sufficient HHP funding are provided at the point of care in the community;
- Ensuring that providers with experience serving frequent utilizers of health services, and those experiencing homelessness, are available as needed per AB 361 requirements;
- Leveraging existing county and community provider care management infrastructure and experience, where possible and appropriate; and
- OPTIONAL - Utilizing community health workers in appropriate roles (for more information, see Multi-Disciplinary Care Team below).

CB-CMEs are intended to serve as the single community-based entity with responsibility, in conjunction with the MCP, for ensuring that an assigned HHP member receives access to HHP services. It is also the intent of the HHP to provide flexibility in how the CB-CMEs are organized. CB-CMEs may subcontract with other entities or individuals to perform some CB-CME duties. Regardless of subcontracting arrangements, CB-CMEs retain overall responsibility for all CB-CME duties that the CB-CME has agreed to perform for the MCP, either through direct CB-CME service or service the CB-CME has subcontracted to another provider. DHCS encourages MCPs and CB-CMEs to utilize this flexibility, where needed, to achieve HHP goals, and in particular the four network goals noted above.

In most cases, the CB-CME will be a community primary care provider (PCP) that serves a high volume of HHP eligible members. If the CB-CME is not the member's MCP-assigned PCP, then the MCP and the CB-CME must demonstrate how the CB-CME will maintain a strong and direct connection to the PCP and ensure the PCP's participation in HAP development and ongoing coordination. For all members, and in all areas, the MCP must demonstrate that it is maximizing the four network goals noted above to the full extent possible through its network development and HHP policies. Regardless of how HHP networks are structured by a MCP within a county, it is expected that all HHP members will receive access to the same level of service, in accordance with the service tier that is appropriate for their needs and HHP service requirements.

DHCS' readiness review will include a detailed review of the MCP's HHP network. In situations in which the MCP can demonstrate that there are insufficient entities rooted in the community that are capable or willing to provide the full range of CB-CME duties, the MCP may perform needed CB-CME duties to fill a demonstrated service gap. As an alternative, the MCP may subcontract with other entities to perform these duties. In addition, the MCP may provide, or subcontract with another community-based entity to provide, specific CB-CME duties to assist a CB-CME to provide the full range of CB-CME duties when this MCP assistance is the best organizational arrangement to promote HHP goals. If the MCP utilizes this flexibility, the MCP must demonstrate to DHCS that it is maximizing the four network goals noted above to the

extent possible, and how it will maintain a strong and direct connection between HHP services and the primary care provider.

The MCP may allow an individual community provider to become a CB-CME after the implementation date of the HHP in their county if the community provider requires additional time to develop readiness to take on some, or all, of the CB-CME duties. The MCP may also allow a CB-CME to expand the range of the CB-CME's contracted CB-CME duties over time as readiness allows.

CB-CMEs that MCPs contract with to deliver HHP care coordination services are not required to be enrolled as Medi-Cal providers, so long as the entities in question are not providing medical and/or clinical services in their function as an HHP CB-CME to Medi-Cal members participating in the Program.

4) Community-Based Care Management Models

The main goal of the HHP is Comprehensive Care Management. The MCP, acting as administrator and providing oversight, will build an HHP network in which a member can choose the CB-CME they want for their care coordination. Given specific challenges in certain areas, including the shortage of primary care and specialist providers, technology infrastructure/adoption, and the large Medi-Cal population, a single model is not practical. Assessments of potential HHP providers, and MCP knowledge of available resources in their areas, will form the basis for determining whether the provider's HHP-eligible members are best served by Model I, II, or III below.

The three community-based care management models below are acceptable for MCP network development and address the realities that exist in various areas of the state regarding available providers. The three models will allow the flexibility to ensure service to all HHP members throughout the diverse geographic regions in California, regardless of location and type of provider empanelment. Further, all three will allow increased care coordination to occur as close to the point of care delivery as possible in the community.

Model I

The first and ideal model embeds care coordinators on-site in community provider offices, acting as CB-CMEs. The expectation is that the community provider will employ these staff, but in some cases they may be employed by the MCP. This model will serve the great majority of HHP members because most HHP eligible individuals are served by high-volume providers in urban areas. The MCP will complete a provider assessment to determine 1) the extent to which the community provider will need to recruit and hire additional staff to meet the HHP care coordinator resource requirements, and 2) what CB-CME duties the community provider can, and is willing to, perform. The HHP will only utilize Model II or III where the provider assessment indicates that Model I is not viable.

Model II

The second model addresses the smaller subset of eligible members who are served by low-volume providers, in either rural or urban areas, who do not wish to, or cannot, take on the responsibility of hiring and housing care coordinators on site. For this model, the care management would be handled by another community-based entity or a staff member within

the existing MCP care management department, which will act as the CB-CME. This model will handle HHP members who are not assigned to a county clinic or medical practice under Model I.

Model III

The third model serves the few members who live in rural areas and are served by low-volume providers. In this hybrid model, care coordinators located in regional offices, utilizing technology and other monitoring and communication methods, such as visiting the member at their location, will become CB-CMEs who can be geographically close to rural members and/or those members who are assigned to a solo practitioner who may not have enough membership to meet Model I or II.

B. Staffing

1) Care Coordinator Ratio

The aggregate minimum care coordinator ratio requirement is 60:1 for the whole enrolled population (in each of the MCPs' counties if the MCP has more than one county) as measured at any point in time.

To develop the aggregate population care coordinator ratio requirement, DHCS assumed that (after two years):

- *Tier 1 – 20% of population; care coordinator ratio of 10:1*
- *Tier 2 – 30% of population; care coordinator ratio of 75:1*
- *Tier 3 – 50% of population; care coordinator ratio of 200:1*

2) Multi-Disciplinary Care Team

The multi-disciplinary care team consists of staff employed by the CB-CME that provides HHP funded services. DHCS requires the team members listed in Table 1 below to participate on all multi-disciplinary care teams. The team will primarily be located at the CB-CME organization, except as noted above regarding model flexibility. The MCP may organize its provider network for HHP services according to provider availability, capacity, and network efficiency, while maximizing the stated HHP goals and HHP network goals. This MCP network flexibility includes centralizing certain roles that could be utilized across multiple CB-CMEs – and particularly low-volume CB-CMEs – for efficiency, such as the director and clinical consultant roles. An HHP goal is to provide HHP services where members seek care. Staffing and the day-to-day care coordination should occur in the community and in accordance with the member's preference.

In addition to required CB-CME team members, the MCP may choose to also make HHP-funded payments to providers that are not explicitly part of the CB-CME team, but who serve as the HHP member's physical and/or behavioral health service providers, for participation in case conferences and information sharing in order to support the development and maintenance of the HHP member's HAP. As an example, an MCP could use HHP care coordination funding to pay a member's specialist provider, who is not a contracted member of the CB-CME Multi-Disciplinary Care Team, for the time they spend participating in a case conference with the HHP care coordinator for the purpose of completing the member's HAP. The MCP may make such payments directly to the providers or through their CB-CME.

Table 1: Multi-Disciplinary Care Team Qualifications and Roles

Required Team Members	Qualifications	Role
Dedicated Care Coordinator (CB-CME or by contract)	Paraprofessional (with appropriate training) or licensed care coordinator, social worker, or nurse	• Oversee provision of HHP services and implementation of HAP • Offer services where the HHP member lives, seeks care, or finds most easily accessible and within MCP guidelines • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Work with hospital staff on discharge plan • Engage eligible HHP members • Accompany HHP member to office visits, as needed and according to MCP guidelines • Monitor treatment adherence (including medication) • Provide health promotion and self-management training • Arrange transportation • Call HHP member to facilitate HHP member visit with the HHP care coordinator
HHP Director (CB-CME)	Ability to manage multi-disciplinary care teams	• Have overall responsibility for management and operations of the team • Have responsibility for quality measures and reporting for the team
Clinical Consultant (CB-CME or MCP)	Clinician consultant(s), who may be primary care physician, specialist physician, psychiatrist, psychologist, pharmacist, registered nurse, advanced practice nurse, nutritionist, licensed clinical social worker, or other behavioral health care professional	• Review and inform HAP • Act as clinical resource for care coordinator, as needed • Facilitate access to primary care and behavioral health providers, as needed to assist care coordinator

Required Team Members	Qualifications	Role
Community Health Workers (CB-CME or by contract) (Recommended but not required)	Paraprofessional or peer advocate Administrative support to care coordinator	• Engage eligible HHP members • Accompany HHP member to office visits, as needed, and in the most easily accessible setting, within MCP guidelines • Health promotion and self-management training • Arrange transportation • Assist with linkage to social supports • Distribute health promotion materials • Call HHP member to facilitate HHP visit with care coordinator • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Monitor treatment adherence (including medication)
For HHP Members Experiencing Homelessness: Housing Navigator (CB-CME or by contract)	Paraprofessional or other qualification based on experience and knowledge of the population and processes	• Form and foster relationships with housing agencies and permanent housing providers, including supportive housing providers • Partner with housing agencies and providers to offer the HHP member permanent, independent housing options, including supportive housing • Connect and assist the HHP member to get available permanent housing • Coordinate with HHP member in the most easily accessible setting, within MCP guidelines (e.g. could be a mobile unit that engages members on the street)

Additional team members, such as a pharmacist or nutritionist, may be included on the multi-disciplinary care team in order to meet the HHP member's individual care coordination needs. HAP planning and coordination will require participation of other providers who may not be part of the CB-CME multi-disciplinary care team. It is the responsibility of the MCP to ensure their cooperation.

C. Health Information Technology/Data

Health Information Technology (HIT)/Health Information Exchange (HIE) are important components of information sharing in the HHP.

MCPs should consider the following potential uses of HIT/HIE (developed by CMS) in the development of HHP information sharing policies and procedures for MCPs, CB-CMEs, and members:

1) Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management –standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement.
2) Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information.
   - Telehealth services including remote patient monitoring.
3) Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.
4) Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.
5) Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence).
   - Ability to electronically refer patients to necessary services.

Organizations that are covered by the Meaningful Use requirements should utilize EHR/HIT/HIE to meet the applicable goals noted above, where possible. Organizations that are not covered by Meaningful Use may need a Medi-Cal MCP to support the achievement of applicable goals where possible. In some areas relatively few providers have EHRs; there is limited interoperability between the systems; and, where there is an HIE in the area, the configuration may not be designed for the HHP requirements. If the technology environment does not fully support the EHR/HIT/HIE activities noted above in some geographic areas, or with certain providers, the MCP will determine procedures to share information that is critical for HHP services through other methods.

III. HHP Member Eligibility

A. Target Population

The HHP is intended to be an intensive set of services for a small subset of Medi-Cal members who require coordination at the highest levels. DHCS worked with a technical expert workgroup to design eligibility criteria that identify the highest-risk three to five percent of the Medi-Cal population who present the best opportunity for improved health outcomes through HHP services. These criteria include both 1) a select group of International Classification of Diseases (ICD)-9/ICD-10 codes for each eligible chronic condition, and 2) a required high level of acuity/complexity.

B. HHP Eligibility Criteria and the Targeted Engagement List

Using administrative data, DHCS will develop a Targeted Engagement List (TEL) of Medi-Cal MCP members who are eligible for the HHP based on the DHCS-developed eligibility criteria noted below. The TEL will be refreshed every six months using the most recent available data. The MCP will actively attempt to engage the members on the TEL. (See Member Assignment, for more information on MCP activity to engage eligible members.)

To be eligible for the HHP, a member must be full-scope, have no share of costs, and meet the following eligibility criteria. See Appendix B for *Targeted Engagement List data specification document* and specific ICD 10 codes that define these eligible conditions:

Eligibility Requirement	Criteria Details
1. Chronic condition criteria	Has a chronic condition in <u>at least one</u> of the following categories: • **At least two of the following**: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic liver disease, chronic renal (kidney) disease, dementia, substance use disorders; OR • **Hypertension and one of the following:** chronic obstructive pulmonary disease, diabetes, coronary artery disease, chronic or congestive heart failure; OR • **One of the following:** major depression disorders, bipolar disorder, psychotic disorders (including schizophrenia); OR • **Asthma**
2. Meets at least 1 acuity/complexity criteria	• Has at least 3 or more of the HHP eligible chronic conditions; OR • At least one inpatient hospital stay in the last year; OR • Three or more emergency department visits in the last year; OR • Chronic homelessness.

The TEL may include other criteria that are intended to ensure that HHP resources are targeted to Medi-Cal members who present the best opportunity for improved health outcomes through HHP services. The DHCS TEL is intended to be used by MCPs as a list of people who are likely to be eligible for the program based on the data available to DHCS; it is not, on its own, a comprehensive eligibility list.

Acuity Eligibility Criteria

Eligibility for HHP requires that members have the specified conditions and at least one of the four acuity criteria listed above. MCPs must have a process to verify eligibility as part of the enrollment process. MCPs can do this through reviews of the MCPs data and/or through other methods including discussion/assessment with the member or the member's providers. This additional verification is not only to confirm that the member meets eligibility, but also that they do not have exclusionary criteria such as enrollment in another duplicative care management program or being "well managed." For example, a member's qualifying utilization may have been for something unrelated to management of a chronic condition, such as maternity.

MCPs should make a preliminary eligibility determination based on their data prior to proceeding with proactive outreach and engagement. MCPs may rely on the TEL to verify that the member meets the eligibility criteria for having the eligible chronic conditions and the acuity criteria relating to having three or more of the eligible chronic conditions; however, the MCP should verify utilization acuity criteria (within 12 months) using the MCP's own data.

MCPs are required to review their own data for members who are on the TEL and should not proactively outreach members whose qualifying utilization is: 1) only found in the oldest four months of the TEL look-back period; and 2) unrelated to the HHP chronic conditions. MCPs may also apply their own additional prioritization policies upon approval from DHCS.

At the point in time when the MCP makes this data-driven preliminary eligibility determination, the member will be considered eligible for the program regardless of how long it takes the member to agree to enroll. The member may be enrolled for at least one month to complete the member assessment and care plan process. If additional information is determined during the assessment/care plan process that negates prior eligibility data or confirms an exclusionary criteria, then the member will be disenrolled.

Homeless Eligibility Criteria

Chronic homelessness for HHP is defined in W&I Code section 14127(e), and states *"a chronically homeless individual means a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more, or had at least four episodes of homelessness in the past three years. For purposes of this article, an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing, as defined in Section 50675.14 of the Health and Safety Code, for less than two years shall be considered a chronically homeless individual if the individual was chronically homeless prior to his or her*

residence." For the purpose of verifying HHP acuity eligibility criteria, the portion of this definition which states "with a condition limiting his or her activities of daily living" is satisfied by verification that the member has one of the HHP-eligible conditions. No further assessment of activities of daily living limitation is required to establish that the member meets the portion of this eligibility acuity criterion underlined above. In addition, a member meets the HHP chronically homeless acuity eligibility criteria if the member meets either the W&I Code section 14127(e) definition or the Housing and Urban Development (HUD) definition.

People Excluded from Targeted Engagement List

The following exclusions will be applied either through MCP data analysis for individual members or through assessment information gathered by the Community-Based Care Management Entity (CB-CME) (see *Reporting Template-Instructions* for additional information):

- Members determined through further assessment to be sufficiently well managed through self-management or through another program, or the member is otherwise determined to not fit the high-risk eligibility criteria
- Members whose condition management cannot be improved because the member is uncooperative
- Members whose behavior or environment is unsafe for CB-CME staff
- Members determined to be more appropriate for an alternate care management program

IV. Health Home Program Services

This section describes the six HHP services. HHP arranges for and coordinates interventions that address the medical, social, behavioral health, functional impairment, cultural and environmental factors affecting health and health care choices available to HHP members.

All HHP engagement and services can be provided to members and family/support persons through e-mails, texts, social media, phone calls, letters, mailings, community outreach, and, to the extent and whenever possible, in-person meetings where the member lives, seeks care, or is accessible. Communication and information must meet health literacy standards and trauma-informed care standards and be culturally appropriate.

A. Comprehensive Care Management

Comprehensive care management involves activities related to engaging members to participate in the HHP and collaborating with HHP members and their family/support persons to develop their comprehensive, individualized, person-centered care plan, called a Health Action Plan (HAP). The HAP incorporates the member's needs in the areas of physical health, mental health, SUD, community-based LTSS, oral health, palliative care, trauma-informed care, social supports, and, as appropriate for individuals experiencing homelessness, housing. The HAP is based on the needs and desires of the member and will be reassessed based on the member's progress or changes in their needs. It will also track referrals. The HAP must be completed within 90 days of HHP enrollment.

Comprehensive care management may include case conferences to ensure that the member's care is continuous and integrated among all service providers.

Comprehensive care management services include, but are not limited to:

- Engaging the member in HHP and in their own care
- Assessing the HHP member's readiness for self-management using screenings and assessments with standardized tools
- Promoting the member's self-management skills to increase their ability to engage with health and service providers
- Supporting the achievement of the member's self-directed, individualized health goals to improve their functional or health status, or prevent or slow functional declines
- Completing a comprehensive health risk assessment to identify the member's needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services
- Developing a member's HAP and revising it as appropriate
- Reassessing a member's health status, needs and goals
- Coordinating and collaborating with all involved parties to promote continuity and consistency of care
- Clarifying roles and responsibilities of the multi-disciplinary team, providers, member and family/support persons

1) Care Management Assessment Tools

To the extent possible and reasonable, DHCS will align new requirements for care management methods and tools with those currently used by MCPs for care coordination. MCPs have extensive experience administering Health Risk Assessments and developing care plans.

MCPs may use current Cal MediConnect or Seniors and Persons with Disabilities (SPD) care management tools, such as the Health Risk Assessment and Individualized Care Plan, as a base for developing health assessments and completing the HAP for HHP members. For the implementation of HHP, any assessment or planning elements that are required in the HHP and are not already included in an existing tool and/or process must be added to the existing MCP assessment and planning tools. Such elements could include an assessment of social determinants of health, including an indicator of housing instability, a need for palliative care, and trauma-informed care needs.

The HAP is defined as the Individualized Care Plan with the inclusion of any elements specific to HHP. When a member begins receiving HHP services, the member will receive a comprehensive assessment and a HAP will be created. The HAP will be reassessed at regular intervals and when changes occur in the member's progress or status and health care needs.

The assessments must be available to the primary care physicians, mental health service providers, substance use disorder services providers, and the care coordinators for all HHP members. In conjunction with the primary care physician, other multi-disciplinary care team members, and any necessary ancillary entities such as county agencies or volunteer support entities, the care coordinator will work with the HHP member and their family/support persons to develop a HAP.

2) Duties

MCPs in partnership with CB-CMES must be able to carry out the following comprehensive care management services:

Member Engagement and Support

a. MCPs must ensure that CB-CMEs accomplish the following:
    1) Engage the member in the HHP and their own care
    2) Assess the HHP member's readiness for self-management using standardized screenings and assessments with standardized tools
    3) Track and promote the member's self-management skills to increase their ability to engage with health and service providers
    4) Support the achievement of the member's self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines

Member Assessment

a. MCPs/CB-CMEs must have a process for assessing and reassessing the member to identify their needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services. The process should identify:
    1) How their tools align with current tools used for the defined population and avoid unnecessary duplication of assessment?
    2) How trauma-informed care best practices will be utilized?
    3) Whether the assessment process and HAP are standard across the CB-CMEs or whether variations exist.
b. MCPs/CB-CMEs must have a process and tools for developing the member's HAP and revising, as appropriate
c. MCPs/CB-CMEs must develop and use the HAP and screening and assessment tools, and develop processes for:
    1) How the HAP is shared with other providers and if it can be shared electronically; and
    2) How the HAP will track referrals and follow ups.

Coordination

a. MCPs/CB-CMEs must have a process for integrating community social supports, long term support services, mental health, substance use disorder services, palliative care, trauma-informed care, oral health, and housing services into a member's HAP
b. MCP must ensure that the CB-CMEs:
    1) Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and
    2) Clarify roles and responsibilities of the multi-disciplinary team, providers, HHP member, and family/support persons.
c. MCPs must have policies and procedures to ensure that members are not receiving the same services from another state care management program (see non-duplication of care coordination services for more information).

B. Care Coordination

Care coordination includes services to implement the HHP member's HAP. Care coordination services begin once the HAP is completed. HHP care coordination services will integrate with current MCP care coordination activities, but will require a higher level of service than current

MCP requirements. Care coordination may include case conferences in order to ensure that the member's care is continuous and integrated among all service providers. All program staff who provide HHP services are required to complete CB-CME/care coordinator training as discussed in Appendix C.

Care coordination services address the implementation of the HAP and ongoing care coordination and include, but are not limited to:

1) Member Support

- Working with the member to implement their HAP
- Assisting the member in navigating health, behavioral health, and social services systems, including housing
- Sharing options with the member for accessing care and providing information to the member regarding care planning
- Identifying barriers to the member's treatment and medication management adherence
- Monitoring and supporting treatment adherence (including medication management and reconciliation)
- Assisting in attainment of the member's goals as described in the HAP
- Encouraging the member's decision making and continued participation in HHP
- Accompanying members to appointments as needed

2) Coordination

- Monitoring referrals, coordination, and follow ups to ensure needed services and supports are offered and accessed
- Sharing information with all involved parties to monitor the member's conditions, health status, care planning, medications usages and side effects
- Creating and promoting linkages to other services and supports
- Helping facilitate communication and understanding between HHP members and healthcare providers

MCPs in partnership with CB-CMEs must develop, and ensure the implementation of, policies and procedures to support CB-CME coordination efforts to:

a. Maintain frequent, in-person contact between the member and the care coordinator when delivering HHP services. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled members per quarter. DHCS used the following assumptions to develop the aggregate population visit requirement listed above:
    i. After two years, the population equals: 20% in tier 1, 30% in tier 2, 50% in tier 3
    ii. Tier 1 – two in-person visits per month
    iii. Tier 2 – 1 in-person visit per month
    iv. Tier 3 – 1 in-person visit per quarter
b. Ensure members see their PCP within 60 days of enrollment in HHP. This is a recommended best practice only – not service requirement.
c. Ensure availability of support staff to complement the work of the Care Coordinator.
d. Ensure availability of providers with experience working with people who are chronically homeless.
e. Support screening, referral and co-management of individuals with both behavioral health and physical health conditions.

f. Link eligible individuals who are homeless or experiencing housing instability to permanent housing, such as supportive housing.
g. Maintain an appointment reminder system for members. This is a recommended best practice only – not a service requirement.
h. Identify and take action to address member gaps in care through:
    i. Assessment of existing data sources for evidence of care appropriate to the member's age and underlying chronic conditions
    ii. Evaluation of member perception of gaps in care
    iii. Documentation of gaps in care in the member case file
    iv. Documentation of interventions in HAP and progress notes
    v. Findings from the member's response to interventions
    vi. Documentation of discussions of members care goals
    vii. Documentation of follow-up actions, and the person or organization responsible for follow-up

C. Health Promotion

Health promotion includes services to encourage and support HHP members to make lifestyle choices based on healthy behavior, with the goal of motivating members to successfully monitor and manage their health. Members will develop skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

Health promotion services include, but are not limited to:

- Encouraging and supporting health education for the member and family/support persons
- Assessing the member's and family/support persons' understanding of the member's health condition and motivation to engage in self-management
- Coaching members and family/support persons about chronic conditions and ways to manage health conditions based on the member's preferences
- Linking the member to resources for: smoking cessation; management of member chronic conditions; self-help recovery resources; and other services based on member needs and preferences
- Using evidence-based practices, such as motivational interviewing, to engage and help the member participate in and manage their care

D. Comprehensive Transitional Care

Comprehensive transitional care includes services to facilitate HHP members' transitions from and among treatment facilities, including admissions and discharges. In addition, comprehensive transitional care reduces avoidable HHP member admissions and readmissions. Agreements and processes to ensure prompt notification to the member's care coordinator and tracking of member's admission or discharge to/from an ED, hospital inpatient facility, residential/treatment facility, incarceration facility, or other treatment center are required. Additionally, MCPs or CB-CMEs must provide information to hospital discharge planners about HHP.

Comprehensive transitional care services include, but are not limited to:

- Providing medication information and reconciliation
- Planning timely scheduling of follow-up appointments with recommended outpatient providers and/or community partners
- Collaborating, communicating, and coordinating with all involved parties
- Easing the member's transition by addressing their understanding of rehabilitation activities, self-management activities, and medication management
- Planning appropriate care and/or place to stay post-discharge, including temporary housing or stable housing and social services
- Arranging transportation for transitional care, including to medical appointments, as per NMT and NEMT policy and procedures
- Developing and facilitating the member's transition plan
- Preventing and tracking avoidable admissions and readmissions
- Evaluating the need to revise the member's HAP
- Providing transition support to permanent housing

E. Individual and Family Support Services

Individual and family support services include activities that ensure that the HHP member and family/support persons are knowledgeable about the member's conditions with the overall goal of improving their adherence to treatment and medication management. Individual and family support services also involve identifying supports needed for the member and family/support persons to manage the member's condition and assisting them to access these support services.

Individual and family support services may include, but are not limited to:

- Assessing the strengths and needs of the member and family/support persons
- Linking the member and family/support persons to peer supports and/or support groups to educate, motivate and improve self-management
- Connecting the member to self-care programs to help increase their understanding of their conditions and care plan
- Promoting engagement of the member and family/support persons in self-management and decision making
- Determining when member and family/support persons are ready to receive and act upon information provided and assist them with making informed choices
- Advocating for the member and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals
- Accompanying the member to clinical appointments, when necessary
- Identifying barriers to improving the member's adherence to treatment and medication management
- Evaluating family/support persons' needs for services

F. Referral to Community and Social Supports

Referral to community and social support services involves determining appropriate services to meet the needs of HHP members, identifying and referring members to available community resources, and following up with the members.

Community and social support referral services may include, but are not limited to:

- Identifying the member's community and social support needs
- Identifying resources and eligibility criteria for housing, food security and nutrition, employment counseling, child care, community-based LTSS, school and faith-based services, and disability services, as needed and desired by the member
- Providing member with information on relevant resources, based on the member's needs and interests.
- Actively engaging appropriate referrals to the needed resources, access to care, and engagement with other community and social supports
- Following up with the member to ensure needed services are obtained
- Coordinating services and follow-up post engagement
- Checking in with the members routinely through in-person or telephonic contacts to ensure they are accessing the social services they require
- Providing Individual Housing Transition Services, including services that support an individual's ability to prepare for and transition to housing
- Providing Individual Housing and Tenancy Sustaining Services, including services that support the individual in being a successful tenant in their housing arrangement and thus able to sustain tenancy

V. Health Homes Program Network

A. MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities:

a. Develop and implement criteria for network sufficiency determination, including county-wideness and number of projected members
b. Develop an adequate network of Community-Based Care Management Entities (CB-CMEs) in each of the MCP's implemented counties for HHP to serve enrolled members
c. Design and implement a process for determining the qualifications of organizations to meet CB-CME standards and for providing support for CB-CMEs, including:
    1. Identify organizations who meet the CB-CME standards
    2. Provide the infrastructure and tools necessary to support CB-CMEs in care coordination
    3. Gather and share HHP member-level information regarding health care utilization, gaps in care and medications
    4. Provide outcome tools and measurement protocols to assess CB-CME effectiveness
d. Integrate community entities focused on services to individuals experiencing homelessness into the care model and, if applicable, the multi-disciplinary care team; meet the State legislation requirement to ensure availability of providers with experience working with individuals who are chronically homeless.

e. Engage with community and social support services by building new, or enhance existing, relationships with programs, services, and support organizations to provide care to members, including but not limited to:
    1. County specialty mental health plans;
    2. Housing agencies and permanent housing providers; and
    3. Individual Housing and Tenancy Sustaining Services.
f. Contract with CB-CMEs for the provision of HHP services, including outlining the MCP and CB-CME roles and responsibilities, and ensuring that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals, including the network development goals.
g. Have methods to ensure compliance with HHP requirements throughout the network, including portions of the network contracted through delegated entities.
h. Ensure the development of a communication and feedback strategy for all members of the HHP care team, including the member and their family/support persons, to ensure information sharing occurs. Encourage all of the HHP member's providers who supply input to the HAP and coordinate with the CB-CME care coordinator to conduct case conferences, including with those whom may not be formally included on the CB-CME's multi-disciplinary care team.
    1. If the CB-CME is not the member's MCP-assigned PCP, the MCP must have policies and procedures for ensuring: the MCP/CB-CME maintains a strong and direct connection to the PCP and PCP's participate in HAP development and ongoing coordination.
i. Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

1) Administration

a. Attribute assigned HHP members to CB-CMEs, providing for increased care coordination as close to the member's usual point of care delivery as possible in the community. HHP members must be notified of their CB-CME options.
b. Receive payment from DHCS and disperse funds to CB-CMEs. Have policies and procedures regarding:
    1. The process for how an MCP determines that the appropriate level of services are provided and documented by CB-CMEs in accordance with the contract and service requirements; and
    2. The process/structure/tiering (if used) for payments to CB-CMEs.

2) Data Sharing and Reporting

a. Develop reporting capabilities and methodologies
b. Establish and maintain data-sharing agreements that are compliant with all federal and state laws and regulations, and when necessary, with other providers
c. Notify CB-CMEs of inpatient admissions and emergency department (ED) visits/discharges
d. Track and share data with CB-CMEs regarding each member's health history
e. Establish procedures for hospitals participating under the Medicaid State Plan or a waiver of such plan for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated HHP providers. However, HHP primarily uses the TEL to identify and refer members to HHP.

3) Training and Education

a. Develop and offer learning activities that will support CB-CMEs in effective delivery of HHP services
b. Develop CB-CME training tools, as needed, to supplement DHCS-developed tools.
c. Ensure participation of the CB-CME and MCP staff delivering HHP Services in DHCS-required CB-CME and care coordinator training and learning collaboratives.

B. CB-CME Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with W&I Code HHP requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed. If in-person communication is not possible in certain situations, alternative communication methods such as tele-health or telephonic contacts may also be utilized, if culturally appropriate and accessible for the HHP member, to enhance access to services for HHP members and families where geographic or other barriers exist and according to member choice;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by the MCP, according to the CB-CME contract with the MCP;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and MCP and other providers involved in the HHP member's care.

C. CB-CME Certification

Organizations must be one of the following types of organizations and be able to meet the qualifications above and perform the duties below to be authorized to serve as a CB-CME:

- Behavioral health entity
- Community mental health center
- Community health center
- Federally qualified health center
- Rural health center
- Indian health clinic
- Indian health center
- Hospital or hospital-based physician group or clinic
- Local health department
- Primary care or specialist physician or physician group

- SUD treatment provider
- Provider serving individuals experiencing homelessness
- Other entities that meet certification and qualifications of a CB-CME, if selected and certified by the MCP

D. CB-CME General Duties

CB-CMEs will be expected to perform the following duties/responsibilities:

- Be responsible for care team staffing, according to HHP required staffing ratios determined by DHCS, and oversight of direct delivery of the core HHP services;
- Implement systematic processes and protocols to ensure member access to the multi-disciplinary care team and overall care coordination;
- Ensure person-centered health action planning that coordinates and integrates all of the HHP member's clinical and non-clinical physical and behavioral health care related needs and services, and social services needs and services;
- Collaborate with and engage HHP members in developing a HAP and reinforcing/implementing/reassessing it in order to accomplish stated goals;
- Coordinate with authorizing and prescribing entities as necessary to reinforce and support the HHP member's health action goals, conducting case conferences as needed in order to ensure that the HHP member care is integrated among providers;
- Support the HHP member in obtaining and improving self-management skills to prevent negative health outcomes and to improve health;
- Provide evidence-based care;
- Monitor referrals, coordination, and follow-up to needed services and supports; actively maintain a directory of community partners and a process ensuring appropriate referrals and follow-up;
- Support HHP members and families during discharge from hospital and institutional settings, including providing evidence-based transition planning;
- Accompany the HHP member to critical appointments (when necessary and in accordance with MCP HHP policy);
- Provide service in the community in which the HHP member lives so services can be provided in-person, as needed;
- Coordinate with the HHP member's MCP nurse advice line, which provides 24-hour, seven day a week availability of information and emergency consultation services to HHP member; and
- Provide quality-driven, cost-effective HHP services in a culturally competent and trauma-informed manner that addresses health disparities and improves health literacy.

VI. General HHP Operations

A. Non-Duplication of Care Coordination Services

MCPs must ensure that members are not enrolled in another state program that provides care coordination services that would preclude them from receiving HHP care coordination services. The process should include: 1) checking available MCP data; and 2) asking members as part of

both the in-person member assessment during the eligibility/enrollment process and the assessment/care plan process.

The Targeted Engagement List (TEL) does not include members who are participating in the following programs:

- 1915(c) Home and Community Based (HCBS) waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH);
- County Targeted Case Management (TCM) (excluding Specialty Mental Health TCM);
- Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month; and
- Hospice.

Below is a summary of how HHP intersects with existing Medi-Cal programs that provide care coordination services, organized by the following three categories: 1) Members can receive services through both HHP and the other program; 2) Members must choose HHP or the other program; and 3) Members cannot receive HHP services.

1) Members Can Receive Services through BOTH HHP and the Other Program

- 1115 Waiver Whole Person Care Pilot Program
  Members participating in a Whole Person Care (WPC) Pilot Program may also be eligible for the HHP. DHCS has released specific guidance related to the interaction between the Health Homes Program and the WPC Pilot Program which can be found in Appendix K of this Program Guide.

- California Children's Services
  Children who are enrolled in the Children's Services program are eligible for the HHP.

- Specialty Mental Health and Drug Medi-Cal
  DHCS recognizes that coordination of behavioral health services will be a major component of HHP. HHP services are focused on physical health, mental health, Substance Use Disorder (SUD), community-based LTSS, palliative care, trauma-informed care, oral health, social supports, and, as appropriate for individuals experiencing homelessness, housing. In the California HHP structure of MCPs and CB-CMEs, it is expected that direct HHP services for HHP members will primarily occur at the CB-CMEs, even though MCPs may play a role. Therefore, it is important that CB-CMEs that have HHP members who receive behavioral health services have the capability to support the various needs of their members.

  For HHP members without conditions that are appropriate for specialty mental health treatment, it is anticipated that their physical-health oriented CB-CME is an appropriate setting for their HHP services. These CB-CMEs would typically be affiliated with an MCP.

  DHCS and stakeholders have noted that HHP members with conditions that are appropriate for specialty mental health treatment may prefer to receive their primary HHP services from their MHP's contracted provider acting as a designated CB-CME. To

facilitate care coordination for HHP members through a MHP-designated CB-CME, Drug Medi-Cal Organized Delivery system (DMC-ODS) or MHP providers may perform CB-CME HHP responsibilities through a contract with the MCPs in the county at the discretion of the MCP. This type of entity would perform the CB-CME HHP responsibilities for an HHP-eligible managed care member who 1) qualifies to receive services provided under the Medi-Cal scope of service for this type of entity (MHP or Drug Medi-Cal services); and 2) chooses a county MHP, or county MH/SUD plan, affiliated CB-CME instead of a CB-CME affiliated with the MCP. In cases where the MHP serves as both an administrator and a provider of direct services, the MHP could assume the responsibilities of the CB-CME.

2) Members Must Choose HHP OR the Other Program

- Targeted Case Management
  County-operated Targeted Case Management (TCM) is a comprehensive care coordination program and is duplicative of HHP. Members who are receiving TCM services have a choice of continuing TCM services or receiving HHP services.

  However, TCM provided as part of the County Mental Health Plan (MHP) Specialty Mental Health (SMH) services is not duplicative of HHP. The HHP provider should ensure that they: 1) coordinate with the SMH TCM provider, and 2) do not duplicate any SMH TCM activities.

- 1915(c) Waiver Programs
  1915(c) Home and Community Based Services (HCBS) Waiver programs provide services to many Medi-Cal members who will likely also meet the eligibility criteria for HHP. There are comprehensive care management components within these programs that are duplicative of HHP services. Members who are receiving 1915(c) services have a choice of continuing 1915(c) services or receiving HHP services.
  The 1915(c) HCBS waiver programs include:
  HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH).

- Cal MediConnect or Fee-for-Service Delivery Systems
  Members who are eligible for both Medi-Cal and Medicare are eligible for the HHP. In addition, members who are in the Fee-for-Service Delivery System are also eligible for the HHP. However, HHP is not available in the Cal MediConnect or Fee-for-Service delivery systems. Members have the choice to leave the Cal MediConnect or Fee-for-Service delivery systems to receive all their Medi-Cal services, including HHP services, through a regular Medi-Cal Managed Care Plan.

- Other Comprehensive Care Coordination Programs
  Individual MCPs have discretion to determine and designate other comprehensive care coordination programs (not listed in this section) that are duplicative of HHP services, including programs that are operated or overseen by the MCP. Examples include, but

are not limited to, MCP Complex Case Management programs and Community-Based Adult Services.

3) Members CANNOT Receive HHP Services

- Nursing Facility Residents and Hospice Recipients
  Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month and Hospice service recipients are excluded from participation in the HHP.

B. HHP Outreach Requirements

MCPs will be responsible for engaging HHP-eligible members, using state-determined, Centers for Medicare & Medicaid Services (CMS)-approved criteria. Engagement of eligible HHP members will be critical for the program success. MCPs will link HHP members to one of the MCP's contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider (PCP) is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions.

1) MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities or delegate to CB-CMEs and provide appropriate oversight.

a. Capacity
   Have the capacity to engage and provide services to eligible members, including:
   1) Establish an engagement plan with appropriate modifications for members experiencing homelessness;
   2) Evaluate the TEL provided by DHCS;
   3) Attribute assigned HHP members to CB-CMEs;
   4) Ensure the engagement of members on the targeted engagement list;
   5) Secure and maintain record of the member's consent to participate in the program (which can be verbal); and
   6) Provide member resources (e.g. customer service, member grievance process) relating to HHP.

b. Engagement Process
   1) Have policies and procedures for identifying, locating, and engaging HHP-eligible members.
   2) Use the following strategies for engagement as appropriate and to the extent possible: mail; email; social media; texts; telephone; community outreach; and in-person meetings where the member lives, seeks care, or is accessible.
   3) Show active, meaningful and progressive attempts at member engagement each month until the member is engaged. Activities that support member engagement include active outreach such as direct communications with member (face-to-face, mail, electronic, telephone), follow-up if the member presents to another partner in the HHP network, or using claims data to contact providers the member is known to use. Examples of acceptable engagement include:

a. Letter to member followed by phone call to member
b. Phone call to member, outreach to care delivery partners and social service partners
c. Street level outreach, including, but not limited to, where the member lives or is accessible

4) Establish a process for reviewing and excluding people from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines of having no substantial avoidable utilization or be enrolled in another acceptable care management program – see Reporting Template-Instructions for definition);
5) Report Members determined not appropriate for the HHP, along with a reason code, to DHCS.
6) DHCS will evaluate the MCP enrolled vs non-enrolled members and compare across MCPs for general compliance review purposes and to ensure that the engagement process is adequately engaging members on the targeted engagement list who are at the highest risk levels, have behavioral health conditions, and those experiencing homelessness.
7) Include housing navigators in the engagement process, at the MCP's discretion
8) Document the member engagement process
9) Develop a methodology and criteria used by the MCP or the CB-CME to stratify high, medium and low need members
10) Develop educational materials or scripts that you intend to develop to engage the member.
11) Have policies and procedures to provide culturally appropriate communications and information that meet health literacy and trauma-informed care standards
12) Have policies and procedures for the following:
    a. Required number and modalities of attempts made to engage member
    b. MCP's protocol for follow-up attempts
    c. MCP's protocol for discharging members who cannot be engaged, choose not to participate, or fail to participate

c. Assignment

MCPs will link HHP members to one of their contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions. MCP's and/or CB-CME's notification will inform the HHP member that they are eligible for HHP services, and identify their MCP and CB-CME. This notification will explain that HHP participation is voluntary, members have the opportunity to choose a different CB-CME, and HHP members can discontinue participation at any time. It will also explain the process for participation. In counties where multiple MCPs are available, the HHP member may change their MCP once per month in accordance with current MCP choice policies.

C. Priority Engagement Group

After the MCP has screened people who are inappropriate for HHP from the TEL based on the HHP requirements, MCPs are required to create a priority engagement group, or ranking process, with the goal of engaging and serving members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for priority engagement status will be at the MCP's discretion (upon approval by DHCS).

D. Referral

HHP services must be made available to all full scope Medi-Cal members without a share of cost who meet the DHCS-developed eligibility criteria, including those members dually eligible for Medicaid and Medicare. Providers, health plan staff, or other, non-provider community entities/care providers may refer eligible members to the member's assigned MCP to confirm if the member meets the eligibility criteria to receive HHP services. The Targeted Engagement List will be the primary method for identifying and engaging eligible HHP members. Referrals are more likely necessary in the situation of a new Medicaid member who may not have the Medi-Cal claims history that identifies them as HHP eligible. Provider referral forms will indicate that the provider has verified that the member meets the HHP eligibility criteria. The provider will submit the referral form to the MCP for confirmation. MCP confirmation is required before an individual is deemed an HHP member and may receive HHP services from a CB-CME.

E. Consent

The member will be considered enrolled in the HHP once the member has given either verbal or written consent to participate in the program. The MCP or CB-CME will secure consents by the member to participate in HHP and authorize release of information to the extent required by law. Either the MCP or the CB-CME must maintain a record of these consents.

F. Disenrollment

If an eligible member has, or develops, an exclusionary criterion, cannot be engaged within a specified period, chooses not to participate, or fails to participate actively in HHP planning and coordination, the HHP member will be disenrolled from the HHP, and the MCP will discontinue CB-CME HHP funding for that member. Additionally, if the MCP determines that the member's eligible chronic conditions have become well-managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status – the HHP member will be disenrolled and the MCP will discontinue CB-CME HHP funding for that member.

A Notice of Action (NoA) Letter is required in all situations except for when an eligible member chooses not to participate. The eligible member may choose to participate in the HHP at any time.

G. Risk Grouping

The MCP will ensure that HHP member acuity will inform appropriate provision of HHP services. For example, MCP program criteria may include three, or more, risk groupings of the HHP members. Members in the higher acuity risk groupings (tiers) will receive more intensive HHP services. In addition, the HHP will include requirements to address the unique needs of members experiencing homelessness, as specified in AB 361.

H. Mental Health Services

MCPs will develop or amend existing Memoranda of Understanding with county Mental Health Plans (MHPs) to address HHP-specific information. DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018) to address the HHP-specific information that MCPs must include in new, or amended, MOUs. This MOU will be submitted to DHCS prior to the start of HHP implementation for the Serious Mental Illness or Serious Emotional Disturbance (SMI) population. Please see Appendix D - Readiness Requirements and Checklist for information on this deliverable.

I. Housing Services

MCPs will work with community resources to ensure seamless access to the delivery of housing support services. MCPs or contracted CB-CMEs must provide housing navigation services, not just referrals to housing. A Housing Navigator is required to be part of the HHP care team for members experiencing homelessness. HHP members must receive the following services:

1) Individual Housing Transition Services

Housing transition services assist beneficiaries with obtaining housing, such as individual outreach and assessments. These services include:

- Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;
- Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;
- Assisting with the housing application process. Assisting with the housing search process;
- Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;
- Ensuring that the living environment is safe and ready for move-in;
- Assisting in arranging for and supporting the details of the move; and
- Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

2) Individual Housing and Tenancy Sustaining Services

Housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

- Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;
- Education and training on the roles, rights and responsibilities of the tenant and landlord;
- Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;
- Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;
- Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;
- Assistance with the housing recertification process;
- Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and
- Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

To the extent applicable, housing-based case management services provided to HHP members shall be consistent with the Housing First core components as described in Senate Bill (SB) 1380 Mitchel, Chapter 847, Statutes of 2016). Engagement to members potentially eligible for HHP or the provision of HHP housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for HHP or meet one or more of the DHCS defined HHP exclusionary criteria. HHP housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of members' lives, where members are engaged in nonjudgmental communication regarding drug and alcohol use. Members should be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

The HHP does not provide direct funding for housing. However, DHCS encourages MCPs to partner with housing organizations that incorporate the Housing First model into their case management and housing navigation services offered to members and to prioritize connecting HHP members with permanent housing options, when appropriate and available. For example, plans might explore collaborating with community-based organizations that are Housing First compliant, implement a requirement that housing services be provided consistent with Housing First components, encourage enhanced coordination with coordinated entry and assessment systems and/or allow receipt of referrals from the homeless crisis response system entities.

The goal is to integrate Housing First principles and components in an effort to enhance the provision of meaningful individual housing and tenancy-sustaining services to enrolled members.

J. Training

MCPs are required to ensure that the MCP and CB-CME staff who will be delivering HHP services receive the required HHP training prior to participating in the administration of the HHP. See Appendix C for training requirements.

K. Service Directory

MCPs or CB-CMEs must ensure a directory of community services and supports is developed, maintained, and is made available to all care coordinators to inform referring members to social services. The community services directory may be sourced from existing directories so long as it is available as a resource for CB-CMEs and care coordinators. This type of directory may be maintained by either the MCP or the CB-CME; however, the contracted MCP will ensure its availability.

L. Quality of Care

MCPs must incorporate HHP into existing quality management processes.

MCPs must have the capacity to collect and track information used to manage and evaluate the program, including tracking quality measures, and collecting, analyzing, and reporting financial measures, health status and other measures and outcome data to be reported for the State's evaluation process. The MCP will report core service metrics and the recommended core set of health care quality measures established by CMS, as well as the three utilization measures identified by CMS to assist with the overall federal health home evaluation. MCPs must report on the measures listed in the *Reporting Template, and provide* encounters for all HHP services.

M. Cultural Competency, Educational and Health Literacy

MCPs must incorporate HHP into existing policies and procedures related to ensuring that services, communication, and information provided to members are culturally appropriate, and meet health literacy, reading, harm-reduction, and trauma-informed care standards.

N. Member Communication

MCPs must incorporate HHP into existing policies and procedures regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers) into account in communicating with enrollee. DHCS and DMHC will review member materials from Knox-Keene plans through the usual process and criteria. DHCS will use a parallel process for non-Knox-Keene plans.

All notices to be sent by the MCP to Medi-Cal beneficiaries regarding the provision of HHP services will be submitted to DHCS for review.

Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. MCPs may use the DHCS HHP Member Handbook as an optional resource for examples of "best practice" member messaging (though the Handbook messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

MCPs must maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.

O. Members Experiencing Homelessness

MCPs must incorporate HHP-specific information into the appropriate policies and procedures for homeless members, including special provider and service requirements criteria (to achieve homeless experience requirements and other requirements per AB 361 and SB 1380), and engagement processes.

P. Reporting

MCP must have the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP encounters for services provided by the MCP and the CB-CMEs. See Appendix G (*Reporting Template);* and the *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2019 Reporting,* or later, for details.

CMS has established a core set of seven required health care quality measures and three utilization measures (see *Reporting Template* and *document* for details). Additional details can be found in the CMS technical specifications and resource manual. These measures were identified by CMS to assist with the overall federal health home evaluation.

MCPs will utilize the Supplemental Payment process to report members enrolled in HHP and to initiate capitation payments. See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information.

VII. Appendix

A. Appendix A – Example of an Acceptable Model Outreach Protocol

This Model Outreach Protocol is only offered as one example of a protocol that would be acceptable. It is meant to give the MCP ideas about how they might want to design their outreach protocols with the CB-CMEs. The details of this protocol are at the discretion of the MCP, as long as their protocol broadly meets DHCS' intent as stated in the body of the Program Guide and the Readiness Checklist.

SAMPLE PROTOCOL

The Medi-Cal managed care plan (MCP) will send an initial "Welcome Packet" to HHP-eligible members in accordance with their engagement process. After the initial packet is sent, the CB-CMEs will follow up with their HHP-eligible members through phone calls, in-person visits, and other modalities. Each CB-CME or the MCP will attempt to contact the member **five times** within 90 days after the initial packet is sent using various modes of communication (letters, calls, in-person meetings, etc.).

If the CB-CME does not have the capacity to conduct outreach to eligible members, MCP care coordination staff, including community health workers, will conduct the outreach to these members and note the outreach attempts in the members' record.

After five attempts, the CB-CME and the MCP will note the challenges with the active outreach and remind the PCP to discuss the HHP with the member at the next PCP visit. If the member declines HHP enrollment at the PCP visit, this will be noted in the EHR and the MCP will be notified.

If the CB-CME or the MCP learns that the contact information is out of date, efforts will be made to update that information using recent provider utilization data and community health workers who can conduct on-the-ground outreach to locate members through their neighbors or community organizations. The CB-CME will also review members' housing history and work with the MCP Housing Program Manager to determine if that member can be reached at an alternative housing site or through a community-based organization.

CB-CMEs will track all outreach attempts within a three month intensive outreach period after the initial welcome letter is sent. The MCP will require that each outreach attempt and the outcome of each attempt be documented in the member's record in the HHP care management system and reported back to the MCP and DHCS. All outreach and engagement attempts will be evaluated by the care coordination team every 30 days within this three month period. The MCP will create policies and procedures for tracking and evaluating outreach and engagement efforts.

If a member declines participation in the HHP, or if their PCP determines that the member is not a good candidate for the HHP (using categories determined and provided by DHCS), this will be noted in the record in the HHP care management system to avoid repeated outreach

attempts. Members who do not enroll in the HHP will be noted, tracked in the MCP's data system and reported to DHCS. Members who graduate from the program will be disenrolled, which will be noted in the record, tracked in the data system, and reported to DHCS.

The MCP will create a mechanism for CB-CMEs and PCPs to identify potential HHP members who are not on the targeted engagement list and who meet the diagnostic and acuity criteria but not the utilization criteria. These individuals may be excellent candidates for the program to help prevent future avoidable health care utilization. In general, MCP will require CB-CMEs to justify the inclusion of the referred member into the program or onto the targeted engagement list. This would be reviewed by a medical director and/or nurse manager with experience in intensive case management to see if the member qualifies for the HHP or if they might be better served by another case management program, and if the rationale provided by the CB-CME or PCP justifies engagement and enrollment in the program.

Staff and Providers

The MCP will train MCP and CB-CME staff who may interact with HHP members, including customer service staff, 24-hour nurse line staff, and provider representatives, to ensure all member- and provider-facing staff are knowledgeable about the HHP, can answer questions and refer participating or eligible members or providers to the appropriate staff. MCP staff, CB-CME staff, providers and community providers are required to participate in webinars and trainings required by DHCS.

The MCP will work to educate all contracted providers, including providers at contracted CB-CMEs and providers from smaller clinics whose patients will receive HHP services through MCP care coordinators.

There will be on-the-ground community health workers who work in the local community and will visit members at their homes or community-based organizations where the members receive services. The MCP has made significant investments in developing this team of community health workers and they will be a key part of success in engaging and educating members on HHP.

Materials

The MCP will work with DHCS to educate providers, beneficiaries and key stakeholders to ensure strong member engagement and participation. The MCP will use outreach and education materials (flyers, brochures, sample email content, sample scripts, etc.) that are approved by DHCS. If the MCP is licensed by DMHC, these materials should additionally be filed with DMHC for review, as applicable. The MCP will also use existing communication channels to promote outreach and education opportunities for providers and members, such as informational webinars, trainings and tele-town halls.

At a minimum, the MCP will develop the following materials:

- Call scripts for Customer Service and 24-hour Nurse Advise Line;
- Member "Welcome Packet," including outreach letters and brochures;

- Appointment reminder letters for both medical and care coordination appointments;
- Content for both the member and provider sections of the MCP website; and
- Training guides for the MCP and CB-CME staff who interface with providers and members.

All member-facing materials for HHP will meet DHCS requirements for cultural competency and health literacy standards.

B. Appendix B – Targeted Engagement List Process

The Targeted Engagement List (TEL) Process identifies the Medi-Cal members that are the most appropriate candidates for the enhanced care coordination services in the Health Home Program (HHP). The TEL is sent to each participating Managed Care Plan (MCP) so that they can initiate engagement activities. This document provides additional details for the criteria and steps used in the TEL Process.

The data source for the TEL Process is DHCS's Data Warehouse. The Data Warehouse contains service level detail for most Medi-Cal programs, including managed care encounters, Fee-For-Service claims, Short-Doyle Mental Health services, Drug-Medi-Cal services, and others. MEDS eligibility information available in the Data Warehouse is also used in the TEL Process.

TEL Process – There are four main steps in the TEL Process, as follows:

1. SPA Eligibility Requirements for Chronic Condition Disease Identification – During the 24 months prior to the running of the TEL, if a member has at least two separate services on different dates for any of the following conditions it will be considered a chronic condition for the TEL. HHP chronic conditions include Asthma, Bipolar Disorder, Chronic Kidney Disease (CKD), Chronic Liver Disease, Chronic Obstructive Pulmonary Disease (COPD), Chronic or Congestive Heart Failure, Coronary Artery Disease, Dementia, Diabetes, Hypertension, Major Depression Disorders, Psychotic Disorders (including Schizophrenia), Substance Use Disorder, and Traumatic Brain Injury. The specific ICD-10 diagnosis codes for each chronic condition are listed below. The TEL process uses the primary and secondary diagnosis during the disease identification process.

2. SPA Eligibility Requirements for Chronic Condition Criteria. A member meets the chronic condition criteria if they have:
   2.1. Chronic Condition Criteria #1: At least two of the following: Chronic Obstructive Pulmonary Disease (COPD), Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder.
   2.2. Chronic Condition Criteria #2: Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure.
   2.3. Chronic Condition Criteria #3: One of the following: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders (including Schizophrenia).
   2.4. Chronic Condition Criteria #4: Asthma

3. SPA Eligibility Requirements – Acuity – These parameters ensure that potential HHP members are high utilizers of health services. A member must meet one of these acuity factors:

3.1. A high chronic condition predictive risk level (operationalized as three or more of the HHP eligible chronic conditions) or
3.2. At least one inpatient stay (not required to be related any particular condition*) in the 16-month period prior to the running of the TEL. (The inpatient stay algorithm is aligned with industry standards and the HEDIS inpatient algorithm) or
3.3. Three or more Emergency Department (ED) visits (not required to be related to any particular condition*) in a 16-month period prior to the running of the TEL. (The ED algorithm is aligned with industry standards and the HEDIS ED algorithm) or
3.4. Chronic Homelessness (there are no data parameters for this criteria. Members who only meet eligibility through this criteria will be identified solely through provider referral and MCP prior authorization)

* MCPs have the option to adjust this requirement.

4. HHP Enrollment Targeting and Exclusions – This step starts with the Medi-Cal members that meet the SPA chronic conditions and acuity eligibility requirements and determines if the members meet any of the specific program enrollment targeting and exclusionary criteria.:

a) Members that meet the eligibility requirements are excluded from the TEL, and <u>are excluded from participation in HHP unless their status changes</u>, if the members are identified as:

- Nursing Facility Residents
- Hospice Recipients
- Members with TCM
- Members in 1915 (c) programs
- Members in Fee-For-Service
- Members in PACE, SCAN, or AHF
- Members in Cal MediConnect

b) Members that meet the eligibility requirements are not included on the TEL (but could be enrolled through referral) if the members are identified as:

- Dually eligible members
- Members in CCS or GHPP
- Members with ESRD

TEL and TEL Supplement Reporting

The members that meet the eligibility requirements for chronic conditions and acuity will be reported to the managed care plans (MCPs) in either the TEL or the TEL Supplement. The TEL will contain all of the members that meet the SPA eligibility criteria through step 3 above and do not meet any of the specific program enrollment targeting and exclusionary criteria listed in step 4. The MCPs will use the TEL, their TEL verification process, and their internal priority

engagement rules to focus their enrollment activities and enroll the most appropriate members into HHP. The TEL Supplement will contain members that meet the SPA eligibility requirements for chronic condition criteria but are not included on the TEL. The TEL and the TEL Supplement will be provided within the same physical data set with the appropriate indicators.

TEL and TEL Supplement List Management

DHCS' expectations are that most of the HHP eligible members will be identified on the first TEL/TEL Supplement for an MCP in a region (first for chronic conditions, and six months later, for SMI) and most subsequent TEL/TEL Supplement files, at six month intervals, will have a smaller number of new members. To manage the members that appear on the TEL and the TEL Supplement, DHCS is considering the following parameters:

- Members may not appear on subsequent TEL/TEL Supplement files for an MCP because:
  - The member is no longer Medi-Cal eligible in MEDS
  - The member has changed MCPs
  - The member may not meet the disease identification or SPA eligibility requirements for chronic condition criteria
- Members may move from the TEL to the TEL Supplement and from the TEL Supplement to the TEL

TEL and SPA Assignment

DHCS is required to provide separate reporting to CMS for the HHP SMI SPA and the HHP Physical Health\SUD SPA. This requirement is reflected in the HHP implementation schedule. The TEL/TEL Supplement process includes all SPA-defined chronic conditions in the initial steps. In order to support the implementation schedule and MCP requests for additional TEL-related information, the initial TEL/TEL Supplement in each geographic implementation group will include both Physical health/SUD and SMI conditions.

However, members with only SMI conditions are not eligible for the first implementation in each County. The SMI-only members on the TEL/TEL Supplement are identified when Chronic Condition Criteria #3 equals '1' and Chronic Conditions Criteria #1, #2, and #4 are all equal to '0'. MCPs will be required to separately identify HHP members between physical health\SUD and SMI on the Supplemental Payment file sent to DHCS for payment purposes (See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information).

HHP TEL/TEL Supplement – Fixed-width Record Layout v1.3

Field Id	Field Name	Description	Length	Start	End	Data Type
1	TEL Report Date	Date of generation of the TEL and TEL Supplement (CCYYMMDD)	8	1	8	A

16	Asthma Chronic Condition	Member met the HHP criteria for Asthma ('1' for yes, '0' for no).	1	96	96	A
17	Bipolar Chronic Condition	Member met the HHP criteria for Bipolar ('1' for yes, '0' for no).	1	97	97	A
18	Chronic Congestive Heart Failure (DHF) Chronic Condition	Member met the HHP criteria for Chronic Congestive Heart Failure ('1' for yes, '0' for no).	1	98	98	A
19	Chronic Kidney Disease Chronic Condition	Member met the HHP criteria for Chronic Kidney Disease ('1' for yes, '0' for no).	1	99	99	A
20	Chronic Liver Disease Chronic Condition	Member met the HHP criteria for Chronic Liver Disease ('1' for yes, '0' for no).	1	100	100	A

Field Id	Field Name	Description	Length	Start	End	Data Type
21	Coronary Artery Disease Chronic Condition	Member met the HHP criteria for Coronary Artery Disease ('1' for yes, '0' for no).	1	101	101	A
22	Chronic Obstructive Pulmonary Disease Chronic Condition	Member met the HHP criteria for Chronic Obstructive Pulmonary Disease ('1' for yes, '0' for no).	1	102	102	A
23	Dementia Chronic Condition	Member met the HHP criteria for Dementia ('1' for yes, '0' for no).	1	103	103	A
24	Diabetes Chronic Condition	Member met the HHP criteria for Diabetes ('1' for yes, '0' for no).	1	104	104	A
25	Hypertension Chronic Condition	Member met the HHP criteria for Hypertension ('1' for yes, '0' for no).	1	105	105	A
26	Major Depression Disorders Disease Category	Member met the HHP criteria for Major Depression Disorders ('1' for yes, '0' for no).	1	106	106	A
27	Psychotic Disorders Chronic Condition	Member met the HHP criteria for Psychotic Disorders ('1' for yes, '0' for no).	1	107	107	A
28	Filler	Filler	1	108	108	A
29	Traumatic Brain Injury Chronic Condition	Member met the HHP criteria for Traumatic Brain Injury ('1' for yes, '0' for no).	1	109	109	A
30	Filler	Filler	2	110	111	A
31	Chronic Condition Criteria #1	Member met the HHP Chronic Condition Criteria #1 (At least two of the following conditions: Chronic Obstructive Pulmonary Disease, Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, and Substance Use Disorder) ('1' for yes, '0' for no).	1	112	112	A

Field Id	Field Name	Description	Length	Start	End	Data Type
32	Chronic Condition Criteria #2	Member met the Chronic Condition Criteria #2 (Hypertension and at least one of the following conditions: Chronic Obstructive Pulmonary Disease, Diabetes, Coronary Artery Disease, or Chronic Congestive Heart Failure) ('1' for yes, '0' for no).	1	113	113	A
33	Chronic Condition Criteria #3	Member met Chronic Condition Criteria #3 (Any one of the following conditions: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders) ('1' for yes, '0' for no).	1	114	114	A
34	Chronic Condition Criteria #4	Member met Chronic Condition Criteria #4 (Asthma) ('1' for yes, '0' for no).	1	115	115	A
35	Count of Chronic Condition Criteria	A count of the number of Chronic Conditions Criteria the member met.	1	116	116	A
36	Acuity Factor #1	Member met acuity factor #1: three or more of the HHP eligible chronic conditions ('1' for yes, '0' for no).	1	117	117	A
37	Acuity Factor #2	Member met acuity factor #2: one or more inpatient stay ('1' for yes, '0' for no).	1	118	118	A
38	Acuity Factor #3	Member met acuity factor #3: three or more ED visits ('1' for yes, '0' for no).	1	119	119	A
39	Count of ED visits	The number of Emergency Department visits during the study period.	3	120	122	A
40	Latest ED visit DOS	The date of service for the most recent Emergency Department visit.	8	123	130	A
41	Count of Inpatient Admissions	The number of Inpatient Admissions during the study period.	3	131	133	A
42	Latest Inpatient Admission DOS	The date of service for the most recent Inpatient Admission.	8	134	141	A
43	Exclusion - Duals	The member is Dual Eligible ('1' for yes, '0' for no).	1	142	142	A
44	Exclusion - Hospice	The member had at least one service with one of the following revenue codes 0651, 0652, 0655, 0656, 0657, or with the following procedure code T2045 in the time period ('1' for yes, '0' for no).	1	143	143	A

Field Id	Field Name	Description	Length	Start	End	Data Type
45	Exclusion - ESRD	The member had at least one service with one of the following procedure codes in the time period, Z6004, Z6006, Z6012, Z6014, Z6016, Z6018, Z6022, Z6036, Z6038, Z6040, Z6030, 90967, 90968, 90969, 90970, 90989, 90993, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90935, 90937, 90945, 90947 ('1' for yes, '0' for no).	1	144	144	A
46	Exclusion - CCS	The member had at least one CCS End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	145	145	A
47	Exclusion - GHPP	The member had at least one GHPP End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	146	146	A
48	Exclusion - TCM	The member had at least one Targeted Case Management service in the time period (services where the Vendor Code was "92" or "93" ('1' for yes, '0' for no).	1	147	147	A
49	Exclusion - 1915c	The member met at least one of the following 1915c exclusions defined below, HIVAExcl, ALWExcl, DDExcl, IHOExcl, MSSPExcl, or PPC_Exclu ('1' for yes, '0' for no).	1	148	148	A
50	Exclusion - HIV/AIDS Waiver	Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) Waiver exclusion. The member had at least one service in the time period where the Provider type was "073" and Procedure Code in (90837, 90846, 90847, 90847, G0156, G0299, G0300, S5130, S5165, S5170, S9470, T2003, T2022, T2025, T2026, T2028, T2029) ('1' for yes, '0' for no).	1	149	149	A
51	Exclusion - Assisted Living Waiver	Assisted Living Waiver (ALW) Exclusion. The member had at least one service in the time period where the Vendor Code In ("44" or "84"), and (Provider Type was "092", "093", or "014"), and (the Category of Service was 118 or 119) ('1' for yes, '0' for no).	1	150	150	A

Field Id	Field Name	Description	Length	Start	End	Data Type
52	Exclusion - Developmental Disabilities Waiver	HCBS Waiver for Californians with Developmental Disabilities (DD) exclusion. The member had at least one service in the time period where the Vendor Code was "76" and the Procedure Code in (Z9002, Z9003, Z9004, Z9005, Z9012, Z9014, Z9015, Z9016, Z9020, Z9021, Z9022, Z9023, Z9025, Z9025, Z9026, Z9026, Z9027, Z9028, Z9029, Z9030, Z9031, Z9032, Z9034, Z9038, Z9039, Z9043, Z9046, Z9047, Z9048, Z9050, Z9056, Z9058, Z9059, Z9060, Z9061, Z9062, Z9063, Z9064, Z9065, Z9066, Z9067, Z9069, Z9072, Z9073, Z9074, Z9075, Z9076, Z9077, Z9078, Z9079, Z9101, Z9102, Z9103, Z9104, Z9105, Z9106, Z9110, Z9111, Z9112, Z9113, Z9121, Z9122, Z9123, Z9124, Z9125, Z9126, Z9200, Z9202, Z9203, Z9204, Z9205, Z9206, Z9207, Z9208, Z9302, Z9303, Z9304, Z9305, Z9306, Z9307, Z9308, Z9310, Z9311, Z9312, Z9313, Z9314 ,Z9315, Z9400, Z9401, Z9402, Z9403, Z9404, Z9405, Z9406, Z9406, Z9407, Z9408, Z9999) ('1' for yes, '0' for no).	1	151	151	A
53	Exclusion - IHO/HCBA Waivers	In-Home Operations Waiver (IHO) / Home and Community-Based Alternatives (HCBA) exclusion. The member had at least one service in the time period where the Vendor Code was "71" and Provider type is “014, 059, 066, 067, 069, 078, 095”) or where the Vendor Code was "89" and the Special Program Code (SPECIAL_PGM_TYPE_CD was "3" (IHO Personal Care Services (WPCS)) ('1' for yes, '0' for no).	1	152	152	A

Field Id	Field Name	Description	Length	Start	End	Data Type
54	Exclusion - MSSP Waiver	Multipurpose Senior Services Program Waiver (MSSP) exclusion. The member had at least one service in the time period where the Vendor Code was "81", the Provider Type is '074', and the Procedure Code in (Z8550, Z8551, Z8552, Z8553, Z8554, Z8555, Z8556, Z8557, Z8558, Z8559, Z8560, Z8561, Z8562, Z8563, Z8564, Z8565, Z8566, Z8567, Z8568, Z8569, Z8570, Z8571, Z8572, Z8573, Z8574, Z8575, Z8576, Z8580, Z8581, Z8582, Z8583, Z8584, Z8585, Z8586, Z8587, Z8588, Z8589, Z8590, Z8591, Z8592, Z8593, Z8594, Z8595, Z8596, Z8597, Z8598, Z8599, Z8600, Z8601, Z8602, Z8603) ('1' for yes, '0' for no).	1	153	153	A
55	Exclusion - PPC Waiver	Pediatric Palliative Care (PPC) Waiver exclusion. During the observation period, the member in one of the following counties: Fresno, Los Angeles, Marin, Monterey, Orange, San Francisco, Santa Clara, Santa Cruz, Sonoma, or Ventura, the Provider Type is '014 or '039, the Category of Service is '120, and the Procedure Code is 'G9012' ('1' for yes, '0' for no).	1	154	154	A
56	Exclusion - PACE, SCAN, AHF	PACE, SCAN, and AHF exclusion. As of the last month, the member had one of the following Plan Codes: 050-065, 200-207, 601, or 915. ('1' for yes, '0' for no).	1	155	155	A
57	Exclusion - LTC Resident	Long Term Nursing Facility residents exclusion. As of the end of the study period the member had one of the following Long Term Care (Nursing Facility) Aid Codes: "13", "23", "53", or "63" ('1' for yes, '0' for no).	1	156	156	A
58	Exclusion - FFS	Fee-For-Service exclusion. As of the end of the study period the member was in Fee For Service (Plan Code 000) ('1' for yes, '0' for no).	1	157	157	A
59	Count of Exclusions	A count of the number of Exclusions for which the member met the requirements.	2	158	159	A
60	TEL Indicator	A value of "1" indicates a TEL record; a value of "0" indicates a TEL Supplement record	1	160	160	A

C. Appendix C – Training Requirements

This section outlines training that MCP and CB-CME staff who will be delivering HHP services are required to receive prior to participating in the administration of the HHP. It also includes recommendations for training CB-CME staff on several core competencies.

Required HHP Trainings for Prior to HHP Implementation
MCP and CB-CME staff who will be delivering HHP services are required to receive HHP-specific training prior to HHP implementation. The required training topics described below cover basic program components. DHCS provided PowerPoint training materials that MCPs can leverage for their required trainings. However, it is also acceptable for an MCP to use non-DHCS developed training materials to satisfy one, or more, of the requirements. DHCS-developed training materials are saved on both the portal and DHCS' Health Homes Program website.

MCPs must be prepared to follow the required high-level trainings with more specific HHP operational training for their staff and CB-CME staff that provide HHP services. This should include MCP-specific information on operations, workflows, how HHP intersects with MCP care coordination initiatives, data reporting, and other implementation issues. DHCS and Harbage Consulting will work with each MCP to discuss their needs and the best approach for providing the required trainings.

The required HHP training topics are:

1. **Health Homes Program Overview**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on the program. Required training modules shall describe the goals and scope of the HHP, team member roles and how they should work together, the services that should be provided, and how HHP intersects with other California state care coordination programs. The training shall introduce topics related to caring for the populations served under HHP, including those with chronic conditions and homeless individuals, and the impact of social determinants of health on patients.

2. **Health Action Plan, Care Coordination, and Care Transitions within the Health Homes Program**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on best practices for working with members and providers to design and implement the Health Action Plan, conduct care coordination activities, and support patient transitions between different levels of care.

Required training shall cover approaches and best practices for developing and implementing a Health Action Plan and providing patient-centered care, taking into account the individual's preferences, values, and unique needs. It shall also cover best practices for care management for specific chronic diseases that are prevalent in the patient population and best practices for serving the SMI population.

Staff shall be trained in best practices for coordinating care across care settings, with particular focus on medical care, behavioral health services, and services addressing social determinants of health and housing. Training shall include effective strategies for care transitions, including best practices for reducing hospital readmissions and medication errors at care transitions.

3. **Community Resources and Referrals** (required for care coordinators and housing navigators)

This training shall provide information about available community resources, how to develop relationships with community partners, and best practices for connecting members to community services. This training is required for MCP and CB-CME care coordinators and housing navigators.

MCPs are encouraged to provide additional training and/or guidance about specific local and community organizations and resources available to the CB-CME staff.

Recommended but Optional Training for CB-CME Staff on Core Competencies

DHCS recommends that relevant MCP and CB-CME staff receive training on the following core competencies in order to successfully implement HHP. DHCS plans to provide trainings and/or resources on these topics, which will be saved on the portal and available on-demand.

1) Special Populations (homelessness, domestic violence, SMI, etc.)

Team members should have access to training and resources specific to the patient populations they serve.

2) Social Determinants of Health

Trainings and resources related to social determinants of health should be made available for team members. Social determinants of health include gender, age, education, income and employment, social/cultural networks, housing and physical environments and other factors that impact health outcomes and access to care.

3) Motivational Interviewing

Motivational interviewing is a communication technique that seeks to elicit an individual's internal motivation to make set and accomplish positive goals. The technique uses a non-confrontational, collaborative approach to help the patient find his or her own motivation and initiate change. The patient is empowered to make personal choices, resulting in increased likelihood of compliance with care plans.

4) Trauma-informed Care

Trauma-informed care is a service delivery framework that involves identifying, understanding, and responding to the effects of all types of trauma. Trauma-informed care emphasizes safety (physical, psychological and emotional) for patients and providers and seeks to empower patients with self-care tools.

5) Health Literacy Assessment

Health literacy refers to a patient's capacity to find and understand health information and services in order to make informed health decisions. Assessment of patient health literacy is essential to the creation of a patient-centered care plan.

6) Information Sharing

Team members should be trained on requirements related to sharing member information and data with other entities for the purpose of care coordination. These entities include the MCP, CB-CMEs, the care team, the county, hospitals, other providers, and community-based organizations including housing organizations.

D. Appendix D – Readiness Requirements and Checklist

Readiness Requirements and Checklist

This checklist is not intended to be all-inclusive. Additional information as needed may be requested by the Department.

General Instructions

Thank you for your interest in participating in the Health Homes Program (HHP). To ensure that Medi-Cal managed care health plans (MCPs) are ready to implement the Health Homes Program, MCPs must submit the documentation listed below and attest that other program requirements have been completed. **There are multiple deadlines for submissions for each implementing MCP group. Please see Appendix I for the HHP Implementation Schedule by group. Submission deadlines for each group are as follows:**

1. **Group 1 – March 1, 2018; May 1, 2018; and November 1, 2018.**
2. **Group 2 – September 1, 2018; November 1, 2018; February 1, 2019; and May 1, 2019.**
3. **Group 3.1 – January 1, 2019; April 1, 2019; July 1, 2019; and October 1, 2019.**
4. **Group 3.2 – March 1, 2019; May 1, 2019; August 1, 2019; and November 1, 2019.**
5. **Group 4 – September 1, 2019; November 1, 2019; February 1, 2020; and May 1, 2020.**

List of Deliverables:

Policies and Procedures (P&Ps) and Attestations: Section I – HHP Infrastructure (Deliverables #1 – 3), Section II – HHP Services (Deliverables #4 – 5), Section IV – General HHP Operations (Deliverables #7 – 10 and 12), and the Attestations (Deliverable #13)

Network: Section III – Network (Deliverable #6.1, 6.3, 6.4, 6.5)

SMI– MHP-MOU: Section IV – General HHP Operations, MHP-MOU (Deliverable #11.1)

SMI Network: Section III – Network (Deliverables #6.2a and 6.2b)

Group	Counties	Deliverable Due Dates		Deliverable Approval Dates
Group 1	San Francisco	**P&Ps**:	3/1/18	5/1/18
		Network:	5/1/18	6/1/18
		SMI Deliverables:	11/1/18	12/1/18
Group 2	Riverside San Bernardino	**P&Ps**:	9/1/18	11/1/18
		Network:	11/1/18	12/1/18
		SMI MHP-MOU:	2/1/19	3/1/19
		SMI Network:	5/1/19	6/1/19
Group 3.1	Imperial Santa Clara	**P&Ps**:	1/1/19	5/1/19
		Network:	4/1/19	6/1/19
		SMI MHP-MOU:	7/1/19	8/1/19
		SMI Network:	10/1/19	12/1/19
Group 3.2	Alameda Kern Los Angeles Sacramento San Diego Tulare	**P&Ps**:	3/1/19	5/1/19
		Network:	5/1/19	6/1/19
		SMI MHP-MOU:	8/1/19	9/1/19
		SMI Network:	11/1/19	12/1/19
Group 4	Orange	**P&Ps**:	9/1/19	11/1/19
		Network:	11/1/19	12/1/19
		SMI MHP-MOU:	2/1/20	3/1/20
		SMI Network:	5/1/20	6/1/20

DHCS expects the deliverables to be submitted in the form of MCP policies and procedures except for the organizational chart, assessment tool, health action plan template, network adequacy tables, and CB-CME subcontract. MCPs may develop standalone policies and procedures for the HHP and/or may incorporate HHP into existing policies and procedures.

MCPs are to submit a separate set of deliverables for each county they are implementing HHP in. If one or several deliverables cover multiple counties, MCPs are not required to submit the deliverable for each county. However, the MCP must indicate which counties the deliverable applies to during the submission process. The network tables that MCPs submit are to be separated by county.

For MCPs in multiple groups, the plan should not resubmit deliverables already approved for a prior group, unless changes have been made.

When submitting existing policies & procedures with HHP-related revisions, please use the "track changes" function in Word, or strike-thru/underline equivalent in other applications, to show deletions and additions. Other forms of documentation are also permitted to supplement MCP policies and procedures. If single documents are used to demonstrate compliance with multiple requirements/deliverables, please provide a crosswalk with the specific location for each deliverable.

Please see the *"Medi-Cal Health Homes Program: Program Guide"* (Program *Guide)* for Health Home Program requirements that correspond to this Readiness Checklist.

Submission Requirements

MCPs should follow the regular process for submitting required deliverables to their current Contract manager(s). Please submit HHP-related deliverables to 2PlanDeliverables@dhcs.ca.gov and copy the HHP mailbox at hhp@dhcs.ca.gov.

For each submission, please provide the Plan's Name and the primary Contact Person's name and telephone number.

In addition, when submitting, please use the following email subject line and file naming conventions:

- In the subject line of the email, please note that these are HHP Deliverables by using the following subject line convention:
  "HHP Deliverable 1"; "HHP Deliverables 2 and 3"; etc.

- Please use the following file naming convention:
  [plan name and deliverable number]

The Contact Person is responsible for ensuring that all documentation and attestations are accurate. Questions may be directed to hhp@dhcs.ca.gov. DHCS will provide additional information as it becomes available, and may request additional information at a later date.

I. HHP Infrastructure

1. Organizational Model:

1.1 Submit MCP's policies and procedures describing the HHP infrastructure, the roles and division of labor between the MCP and Community-Based Care Management Entities (CB-CMEs), and whether the MCP delegates any responsibilities to other entities.

1.2 Organizational chart illustrating the HHP infrastructure.

2. Staffing:

2.1 Submit MCP's policies and procedures describing the staffing plan for MCP and CB-CMEs, including care coordinators, community health workers, and housing navigator(s). The care coordinator ratio requirements are included in the Program Guide; however, if an MCP is interested in using a staffing model that de-emphasizes the care coordinator and instead emphasizes the roles of other team members, please describe the model here and DHCS will consider how to handle the care coordinator ratio.

The participation of community health workers in appropriate roles is recommended but not required.

2.2 Job descriptions for care coordination staff, including MCP and CB-CME staff, as appropriate.

3. Health Information Technology/Data and Information Sharing:

3.1 Submit MCP's policies and procedures describing how information is shared among the entire care team (including the member, CB-CME, and MCP), including whether EHR/HIT/HIE, or other methods, are used regarding the following activities:

a. Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management – standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement. Include other methods if electronic means of collection are not used.

b. Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members. Include other methods if electronic means of collection are not used.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters. Include other methods if electronic messaging is not used.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information. Include other methods if an electronic system is not used.
   - Telehealth services including remote patient monitoring.

c. Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER. Include other methods if an electronic process is not used.

- Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR. Include other methods if electronic sharing is not used.
- Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.

d. Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.

e. Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence). Include other methods if electronic means of collection are not used.
   - Ability to electronically refer patients to necessary services. Include other methods if electronic referral is not used.

II. HHP Services

4. Care Management:

5.1 Submit the assessment template or tool reflective of HHP-required elements such as housing instability, palliative care, and trauma-informed care.

5.2 Submit the Health Action Plan (HAP) template.

5.3 Submit MCP's policies and procedures for conducting care management, including how the MCP, in conjunction with contracted CB-CME, will:
- Develop and implement an HHP member assessment and HAP requirements and process, with enrollee and caregiver participation;
- Design the multi-disciplinary care team composition and process;
- Manage the communication and information flow regarding referrals, transitions, and care delivered outside the primary care site; and
- Maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.
- Maintain a process for referring to other agencies, such as long term services and supports (LTSS) or behavioral health agencies, as appropriate.
- Disenroll members from HHP who no longer qualify for or require HHP services.

5. Care Transitions:

5.1 Submit MCP's policies and procedures for conducting care transitions, including discharge-planning workflows.

III. HHP Network

6. MCP Duties/Responsibilities - Health Homes Program Network

6.1 Physical Conditions and SUD implementation

Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected enrollment and capacity as of the program launch date and as of the last day of each quarter in the first year for the Physical Chronic Conditions/SUD implementation. "Projected capacity" is the maximum caseload of the MCP's Physical Chronic Conditions/SUD HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of Physical Chronic Conditions/SUD HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable is due as a part of the Network Deliverables submission.

Please provide expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – Physical Conditions and SUD**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

Note: A separate DMHC network review specific to HHP will not be conducted; however, DMHC will continue to conduct regular Knox-Keene Act required network reviews through DMHC established processes.

6.2 SMI Implementation

a. Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected HHP enrollment and capacity for these CB-CMEs as of the program launch date and as of the last day of each quarter in the first year for the SMI implementation. "Projected capacity" is the maximum caseload of the MCP's SMI HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of SMI HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable update is due as a part of the SMI Deliverables submission.

Please provide the expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – SMI**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

b. Provide a description of how behavioral health providers are incorporated into the HHP service delivery model. This deliverable is due as a part of the SMI Deliverables submission.

6.3 If applicable, provide any MCP-specific CB-CME qualifications (beyond the CB-CME qualifications listed in section V.B, CB-CME Qualifications) that the MCP requires for the CB-CME to contract for HHP Services. This deliverable is due as a part of the Network Deliverables submission.

6.4 Submit CB-CME oversight policies and procedures, including monitoring, corrective action, progressive consequences for continued non-compliance, auditing care coordination conducted by CB-CMEs. This deliverable is due as part of the Network Deliverables Submission.

6.5 Submit CB-CME subcontract boilerplate that complies with the DHCS MCP contract requirements and includes: 1) Business Associate Agreement that allows for information and data sharing between MCP and CB-CME, 2) CB-CME to provide services in accordance with requirements in this Program Guide, and 3) CB-CME to complete DHCS/MCP required training. **If submitting prior DHCS approved subcontract boilerplate with HHP-related revisions, please use the "track changes" function in Word, or the "strike-through/underline" equivalent in other applications, to show deletions and additions.** This deliverable is due as part of the Network Deliverables Submission.

Note: MCP must have DHCS-approved subcontracts or subcontract amendments with a sufficient number of CB-CMEs to serve its HHP enrollees.

IV. General HHP Operations

7. Non-Duplication of Care Coordination Services:

7.1 Submit MCP's policies and procedures for ensuring that members are not enrolled in another Medi-Cal care coordination program that would disqualify them from receiving HHP services (see Program Guide for requirements).

8/9. HHP Outreach Requirements

8.1 Member Engagement:

Submit MCP's policies and procedures that include the following:

- Protocols for a progressive outreach campaign (see Program Guide Appendix A for model outreach campaign protocols)
- Process for assisting members who require additional prompting or guidance to participate;
- Process for conducting outreach to homeless individuals;
- Process for reviewing and excluding names from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines

of having no substantial avoidable utilization **or** enrollment in another acceptable care management program – see Reporting Template-Instructions for definition);

- After people have been excluded from the TEL based on the process above, the process and criteria for identifying a "priority engagement group" or ranking process within the remaining TEL members. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for 'priority engagement' status will be at the MCP's discretion (upon approval by DHCS) with the goal of engaging and serving TEL members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization.

9.1 Member Notices:

All beneficiary notices to be sent by the MCP regarding the HHP should be filed for DHCS review. If the MCP is licensed by DMHC, these notices should additionally be filed with DMHC for review. DHCS is aligning with DMHC requirements regarding notice review, and DMHC requires MCPs to file all advertisements for review. All outreach materials and scripts that will be distributed should be filed prior to use by the MCP. Submission through this readiness checklist process will begin the DHCS notice review/approval process. MCPs may provide notices for DHCS review at any time prior to the member notices deliverable due date.

Note: Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. DHCS' HHP Beneficiary Toolkit is an optional resource for the MCPs for examples of 'best practice' member messaging (though the HHP Member Toolkit messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

10. Risk Grouping:

10.1 Submit MCP's policies and procedures for ensuring that HHP members receive the appropriate services at the appropriate intensity level, including tiering of services based on risk grouping and the associated payment structure (but not amounts). See Section V. Health Homes Program Network, G. Risk Grouping in this Program Guide for additional information.

11. Mental Health Services:

11.1 Signed local Mental Health Plan (MHP) Health Memorandum of Understanding (MHP-MOU) to ensure seamless access and delivery of mental health services. The MHP-MOU must be in place as of the date of implementation of HHP for members

with SMI conditions. MCPs will develop or amend existing MOUs with county MHPs to address HHP-specific information.

DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018), including Attachment 2 of this APL, to address the HHP-specific information that MCPs must include in new, or amended, MOUs. MCP must submit the new or amended MHP-MOU by November 1, 2018 for Group 1 MCPs; February 1, 2019, for Group 2 MCPs; July 1, 2019 for Group 3.1 MCPs; and August 1, 2019 for Group 3.2 MCPs.

12. Housing Services:

12.1 Submit MCP's policies and procedures for providing the required housing services, including how the MCP will identify and work with community resources to ensure seamless access to delivery of housing support services. MCPs must provide housing navigation services, not just referrals to housing. (See Program Guide for requirements.)

13. Health Homes Program Readiness – Attestations

The operational process attestations below reflect the MCP's commitment to being fully prepared as of the HHP implementation date. Please check the boxes and sign below to indicate MCP's compliance with the following readiness requirements for the Health Homes Program.

☐ **F. Training**: Attest (check the box) that the MCP and CB-CMEs will complete all DHCS-required HHP training prior to participating in the administration of the HHP, as outlined in the *Program Guide*.

☐ **G. Service Directory**: Attest (check the box) that the MCP or the CB-CME(s) has completed and will maintain a directory of community services and supports that is available to all CB-CMEs and care coordinators.

☐ **H. Quality of Care**: Attest (check the box) that the MCP has incorporated HHP into existing quality management processes.

☐ **I. Cultural Competency, Educational and Health Literacy**: Attest (check the box) that the MCP has incorporated HHP into existing Policies & Procedures on these topics.

☐ **J. Member Communication**: Attest (check the box) that the MCP has incorporated HHP into existing policies regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers), into account in communicating with enrollee.

☐ **K. Members Experiencing Homelessness**: Attest (check the box) that the MCP has incorporated HHP-specific information into the appropriate Policies & Procedures for homeless members, including special service requirements, provider criteria (to comply with homeless experience requirements per AB 361), and engagement processes.

☐ **L. Reporting**: Attest (check the box) that the MCP has the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP service encounters for services provided by the MCP and the CB-CMEs (see *Program Guide* and *reporting template* for reporting requirements).

☐ **M. Service Requirements**: Attest (check the box) that the MCP will comply with all the with all service requirements, including for the six core services and the additional service requirements listed in the Program Guide.

I am authorized to make this attestation on behalf of:

_____	_____
Managed Care Plan	Signature of Authorized Representative
_____	_____
Date	Name of Authorized Representative
	_____
	Title of Authorized Representative

E. Appendix E – Service Codes for the Health Homes Program

DHCS has defined the ACA 2703 Health Home Program (HHP) service codes for use on encounters and for other purposes. The HHP is required to utilize HIPAA-compliant coding standards. This revised coding scheme incorporates comments received on the initial proposed coding scheme released in October 2016. The HHP team and the DHCS Office of HIPAA Compliance identified CPT and HCPCS codes for HHP. In addition, the HHP team investigated other potential codes and reviewed codes used by a few other states.

DHCS initially selected HCPCS code G0506 for HHP, however it was found to conflict with National Correct Coding Initiative rules. DHCS instead adopted HCPCS code G9008 effective as of 10/1/2018. The definition of G9008 is as follows: Coordinated care fee, physician coordinated care oversight services. G9008 along with seven different modifiers are listed in the table below for the HHP services (Comprehensive Care Management, Care Coordination, Health Promotion, Comprehensive Transitional Care, Individual and Family Support Services, and Referral to Community and Social Supports). This coding scheme uses HIPAA compliant HCPCS code and modifier combinations to identify clinical and non-clinical services, distinguishes between in-person and telephonic/telehealth 'visits', and allows other HHP services such as case notes, case conferences, tenant supportive services, driving to appointments, etc. to be codified. In addition, there is a designated modifier for engagement services. The HHP coding scheme is as follows:

HHP Service	**HCPCS Code**	**Modifier**	**Units of Service (UOS)**
In-Person: Provided by Clinical Staff	G9008	U1	15 minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Clinical Staff	G9008	U2	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Clinical Staff	G9008	U3	15 Minutes equals 1 UOS; Multiple UOS allowed
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed
HHP Engagement Services	G9008	U7	15 Minutes equals 1 UOS; Multiple UOS allowed

Telehealth and Group Visits

Regarding the use of the HHP HCPCS code and modifiers for HHP services provided via Telehealth and group visits – specifically, if MCPs may submit HHP encounters for telehealth and group visits using the HHP HCPCS code and modifiers for HHP in-person visits and if they may be used to satisfy the in-person visit ratio requirement – DHCS offers the following clarifying guidance.

Telehealth visits generally may not be used to meet the in-person visit ratio requirement for HHP. However, on a case by case basis, if an MCP has certain circumstances that necessitate the use of a high volume of telehealth visits for HHP, and the MCP is unable to meet the HHP in-person visit requirement because of the high-volume use of telehealth, DHCS will evaluate the circumstances and may allow the MCP to utilize some telehealth visits to meet the in-person visit requirement.

DHCS expects that group visits to be primarily used for health promotion and educational purposes as opposed to one-on-one HHP care coordination. However, if there is a one-on-one in-person component to the group visit in which the provision of any of the six core HHP services are provided, this may be reported as a separate HHP in-person visit encounter.

F. Appendix F – Evidence of Coverage Template

Description:

<Plan Name> covers Health Homes Program (HHP) services for Members with certain chronic health conditions. These services are to help coordinate physical health services, behavioral health services, and community-based long term services and supports (LTSS) for Members with chronic conditions.

You may be contacted if you qualify for the program. You can also call <Plan Name>, or talk to your doctor or clinic staff, to find out if you can receive HHP services.

You may qualify for HHP if:

- You have certain chronic health conditions. You can call <Plan Name> to find out the conditions that qualify; and
- You meet one of the following:
  - You have three or more of the HHP eligible chronic conditions
  - You stayed in the hospital in the last year
  - You visited the emergency department three or more times in the last year; or
  - You do not have a place to live.

You do not qualify to receive HHP services if:

- You receive hospice services; or
- You have been residing in a skilled nursing facility for longer than the month of admission and the following month.

Covered HHP Services:

HHP will give you a care coordinator and care team that will work with you and your health care providers, such as your doctors, specialists, pharmacists, case managers, and others, to coordinate your care. <Plan Name> provides HHP services, which include:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Cost to Member:

There is no cost to the Member for HHP services.

G. Appendix G – Reporting Template Excerpt

The below is an excerpt from the complete Reporting Template that MCPs will use to submit specific required data. For descriptions of data elements, please see Reporting Template.

Note: CPB = Controlling High Blood Pressure; CDF = Screening for Clinical Depression and Follow-up Plan; SMI = Serious Mental Illness/Serious Emotional Disturbance.

Health Home Program (HHP) Reporting Instructions

These instructions outline the requirements, references, and headings/categories for the following reporting template: Health Home Program Reporting Template. Reporting is required per the managed care contract.

• Data must be submitted in Excel (.xlsx). Do not submit data in .pdf, .xls, .csv, .txt, or any other format than .xlsx.

• The three months of data must be combined into one figure to represent the quarter, with the exception of member level Homeless and Housing reports and annual reports.

• Each MCP must submit only one file per reporting period that includes all counties the MCP operates in. All subcontractors must be rolled up into the main MCP's data.

• MCPs will certify the HHPQuarterlyReports or data submissions using the existing monthly data certification process with its respective DHCS Contract Manager to confirm all information submitted is complete and accurate. MCP will maintain documentation supporting the reported information.

Quarterly reports are due 60 days after the end of the quarter. Annual reports are due with Q1 reports. Member-level detail Homeless/Housing reports are due semi-annually, with the Q2 and Q4 reports. When the due date falls on Saturday, Sunday or a holiday, data must be submitted by COB the business day before the due date. For reference, the calendar-year quarters are listed below:

• Q1 and Annual – January, February, and March - due May 31

• Q2 and Member-level Homeless/Housing – April, May, and June - due August 31

• Q3 – July, August, and September - due November 30

• Q4 and Member-level Homeless/Housing – October, November, and December - due February 28

Unless otherwise noted, all "days" are calendar days.

Reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). Reports must use the following file naming convention: MCP name.HHPQuarterlyReport.Year.Quarter.DueDate.xlsx

[MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.xlsx.]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181130.xls. DHCS will not acknowledge or accept any email submissions.

All report revisions are subject to DHCS review and approval.

• DHCS will notify MCPs if revised reports must be submitted to correct data errors such as incorrect file naming conventions, incomplete data/columns fields, incorrect data, etc.

• Revised reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov).

• Revised reports must be submitted as a complete quarterly file. Partial files without all the required information and data will be rejected and must be resubmitted. Each quarter of data must be submitted separately. MCP must include an explanation in the HHP comments tab describing the changes and the reason for revision.

• Revised reports must use the following file naming convention: MCPName.HHPQuarterlyReport.Year.QuarterNumber.DueDate.RevisionNumber.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.REV#.xlsx]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181230.REV1.xlsx. to your designated folder in the "DHCS-MCQMD-Data/MCP" folder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). The revised file should be submitted as a separate file.

• Final corrections to quarterly reports must occur no later than 90 days after the end of the calendar year for corrections on the previous year's quarterly reports unless the Department requests a revised file.

Definitions:

CB-CME: Community Based Care Management Entity

HAP: Health Action Plan

Homeless and Chronically Homeless: see CA Welfare & Institution Code § 14127(e)

Housing Services:
https://www.medicaid.gov/federal-policy-guidance/downloads/cib-06-26-2015.pdf - see "Individual Housing Transition Services" and "Individual Housing & Tenancy Sustaining Services" on pages 3-4.

For the purposes of this document, the following definitions will apply:

- **HHP Member**: a Medi-Cal beneficiary currently enrolled in a Medi-Cal Managed Care Plan and a Health Homes Program.

- **Member**: a Medi-Cal Managed Care Plan member not currently enrolled in a Health Homes Program.

- **Individual**: Medi-Cal beneficiary or other eligible person who may not be currently enrolled in a Medi-Cal Managed Care Plan or a Health Homes Program. E.g., FFS beneficiary. May also apply to person not currently enrolled in Medi-Cal.

Definitions of Exclusionary Reasons for Non-Enrollment: The following are the allowable reasons, with definitions, for which a Medi-Cal member may be excluded from, or not enrolled into, a local Health Homes Program (HHP). These definitions are used by DHCS and its HHP partners. For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage. See the definition of Targeted Engagement Process below for additional information.

I. ***Unsafe Environment***: for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ED: After reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment or deliver HHP services, such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff.

Individual: Member engagement/enrollment efforts, or delivery of HHP services, cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

II. ***Declined participation***: After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate in HHP.

III. ***Unsuccessful engagement***: HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self-available, or is un-cooperative. Accurate contact information is not available for the member. This occurs before enrollment.

IV. ***Well-managed***: An assessment, which may include a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.

V. ***Participation in duplicative programs or programs excluded for HHP participation due to DHCS policy***: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following:

1. Duplicative Programs

a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH)

b. Targeted Case Management (TCM) – County, not Mental Health TCM

c. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF)

2. Programs excluded by DHCS Policy

a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month.

b. Hospice

c. Fee-For-Service

VI. ***Targeted Engagement Process***: The MCPs DHCS-approved process by which MCPs identify and prioritize individuals for engagement by using DHCS-provided Targeted Engagement List (TEL) and/or MCP member data.

For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage, that is a result of the above mentioned DHCS-approved process.

1. Health Home Program Enrollment Reporting	
***Note:* Only report one (1) exclusionary reason per member excluded from the Program.**	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number MCP excluded because not eligible - well-managed (Column C)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because not eligible due to MCP assessment determining well managed. The CB-CME and/or the MCP can further define, but well-managed means (a) members with HHP chronic conditions that do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation; or (b) members that are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.
Number MCP excluded because declined to participate (Column D)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because they declined to participate. After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate, or to continue to participate, in HHP.
Number MCP excluded because of unsuccessful engagement (Column E)	Enter the number of members MCP excluded via the targeted engagement process the quarter because of unsuccessful engagement. HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self available; is un-cooperative; or accurate contact information is not available for the member. This occurs before enrollment.

Number MCP excluded because duplicative program (Column F)	Enter the number of members MCP excluded via the targeted engagement process during the quarter due to being in another program that provides care management services: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following: 1. Duplicative Programs a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH) b. Targeted Case Management (TCM) – County, not Mental Health TCM 2. Programs excluded by DHCS Policy a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month. b. Hospice 3. Additional programs the MCP determines are duplicative as described in their progressive engagement policy
Number MCP excluded because unsafe behavior or environment (Column G)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because of an unsafe behavior or environment. Unsafe includes Environment (for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ER): after reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff; and Individual: Member engagement/enrollment efforts cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

Number MCP excluded because not enrolled in Medi-Cal at MCP (Column H)	Enter the number of individuals MCP excluded from via the targeted engagement process list during the quarter because they are not enrolled in Medi-Cal at the Managed Care Plan. Reasons can include, but may not be limited to, the following: a. Fee-For-Service b. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF) c. Member is deceased
Number externally referred & enrolled (Column I)	Enter the number of members not part of the plan's targeted engagement process, referred to the MCP, that were enrolled. The referral process is initiated by an external provider or organization when an individual is initially assessed to be a candidate for HHP and therefore is referred to the MCP for approval. Upon MCP review and evaluation, if the individual is approved for HHP and enrolled, they would be included in this measure. If they are not approved for enrollment in HHP, they would be reported in the following measure.
Number externally referred but excluded (Column J)	Enter the number of individuals not part of the plan's targeted engagement process, referred to the MCP, that were excluded. Exclusion reasons include reasons identified in columns C-H. Do not add these exclusions to the counts in Columns C-H.
Average monthly number of dedicated care coordination FTEs (Column K)	Enter the average monthly number of care coordinators for the quarter. Only count FTEs dedicated to care coordination activities. The counts are taken at a point in time, which will be the last day of each month in the quarter, and averaged across the 3 months in the quarter to get this average quarterly number.
2. Health Home Program Member Activity Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number initial HAP completed within 90 days (Column C)	Numerator: Enter the number of HHP members that had their initial HAP completed during the quarter and the HAP was completed within 90 days of enrollment.
Number initial HAP completed (Column D)	Denominator: Enter the number of HHP members that had their initial HAP completed during the quarter.

3. Health Home Program Homeless/Housing Member Level Detail	
Note: This tab is to be submitted semi-annually in the Q2 report and Q4 report of every year. The Q2 report (due 8/31) will include data for January through June of the current calendar year. The Q4 Report (due 2/28) will include data for July through December of the previous calendar year.	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for the county and plan code the plan operates in. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and semi-annual reporting period. For example, the second reporting period of 2019 will be entered as 2019 Q3-Q4.
Member CIN (Column C)	Enter the Member's Client Identification Number (CIN) for all members that meet Column G and/or Column I.
Member Last Name (Column D)	Enter the Member's Last Name.
Member First Name (Column E)	Enter the Member's First Name.
Member Date of Birth (DOB) (Column F)	Enter the Member's Date of Birth (DOB) using format MM/DD/YYYY.
Homeless HHP Members and HHP Members at Risk for Homelessness During This Reporting Period (Column G)	Indicate whether the HHP enrolled member met the Federal definition of Homeless or required tenancy sustaining services at any point during the reporting period. Enter "Yes" or "No."
Received Housing Services During This Reporting Period (Column H)	Indicate whether the HHP enrolled member received housing services at any point during the reporting period. Enter "Yes" or "No."
Homeless Health Homes Members In Any Enrollment Period (Column I)	Indicate whether the HHP enrolled member met the Federal definition of Homeless at any point during their enrollment in the HHP. Enter "Yes" or "No."

HHP Members who are no longer Homeless On Last Day of This Reporting Period (Column J)	Indicate the HHP enrolled member no longer meets the Federal definition of Homeless, as of the last day of the reporting period. If the member was disenrolled during the reporting period, report as of their last date of enrollment. Enter "Yes" or "No."
4. Health Home Program Network Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
CB-CME NPI # (Column C)	Enter all CB-CME NPI numbers that were contracted as of the last day of the quarter. Enter each CB-CME NPI number in each county on its own row. For example, if a MCP is contracted with a CB-CME that operates in two counties, there would be two rows for that NPI with each row having a different plan code & county. DHCS assumes that all lead CB-CMEs will have a NPI or be the MCP; if a CB-CME does not have an NPI #, please reach out to DHCS for further discussion. This is a measure of the prime contract with the MCP for care management duties, not engagement subcontractors or housing subcontractors.
Capacity for each CB-CME (Column D)	Enter the capacity for assigned HHP members for each CB-CME contracted in each county during the quarter. If a CB-CME operates in more than one county, separate the projected capacity for each county. Capacity is defined as the number of HHP members the CB-CME will be able to serve according to the HHP service requirements including the care manager ratio and the extent the CB-CME is able to satisfy all care team requirements. The count is taken at a point in time, which will be the last day of the quarter.
5. Health Home Program Annual CMS Core Measures Reporting	

DHCS is required to collect and report the Core Set of Health Care Quality Measures for Medicaid Health Homes Programs according to the Technical Specifications published by CMS. DHCS will continue to make the annual Technical Specification link available to the MCPs. MCPs are required to follow the technical specifications. DHCS will use the reporting template to collect measure information from the MCPs so that DHCS can perform the aggregation, weighting, and reporting required by the Technical Specifications. For additional information on the Core Measures, refer to the Technical Specifications and Resource Manual link from CMS. Approve the license agreements and download the Technical Specifications.

https://www.medicaid.gov/license-agreement.html?file=%2Fstate-resource-center%2Fmedicaid-state-technical-assistance%2Fhealth-home-information-resource-center%2Fdownloads%2FFFY-18-HH-Core-Set-Manual.pdf

Each MCP will determine its numerator, denominator, and/or rates for the required performance measure and report these results for each county. DHCS is required to report separately for each SPA, therefore, there are separate numerator, denominator, and rates columns for Chronic Conditions and SMI. The Technical Specifications measurement year and reporting year definitions are consistent with DHCS's other HEDIS oriented timelines. The Technical Specifications require reporting results when the SPA is in effect for six or more months of the measurement period. The fields in the template will be adjusted over time to align with the Technical Specifications if/when they change.

Note: **This tab is to be submitted annually in the Q1 report (due 5/31) of every year and include data on the previous calendar year of January through December.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year for the data reported: Year.
Controlling high blood pressure (CBP) (Med) age 18-59 w/HTN, BP < 140/90 - numerator (Column C)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (Med) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column D)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column E)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator

CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column F)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column G)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column H)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column I)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column J)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column K)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column L)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - numerator (Column M)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column N)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column O)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column P)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column Q)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column R)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column S)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column T)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column U)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator

CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column V)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CDF (MED) - Age 12-17 - numerator (Column W)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - numerator
CDF (MED) - Age 12-17 - denominator (Column X)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - denominator
CDF (MED) - Age 18-64 - numerator (Column Y)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - numerator
CDF (MED) - Age 18-64 - denominator (Column Z)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - denominator
CDF (MED) - Age 65+ - numerator (Column AA)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - numerator
CDF (MED) - Age 65+ - denominator (Column AB)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - denominator
CDF (SMI) - Age 12-17 - numerator (Column AC)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - numerator
CDF (SMI) - Age 12-17 - denominator (Column AD)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - denominator
CDF (SMI) - Age 18-64 - numerator (Column AE)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - numerator
CDF (SMI) - Age 18-64 - denominator (Column AF)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - denominator
CDF (SMI) - Age 65+ - numerator (Column AG)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - numerator
CDF (SMI) - Age 65+ - denominator (Column AH)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - denominator
6. Health Home Program Reporting Comments	
Column Name	**Explanation**
Comments (Column A)	Enter any relevant information pertaining to the submitted report and the data it contains.

H. Appendix H – HHP Eligible Condition Diagnosis Codes

HHP Eligible Condition Diagnosis Codes

I. Appendix I – HHP Implementation Schedule

HHP Implementation Schedule

The California Department of Health Care Services (DHCS) announced that the implementation of the state's Health Homes Program (HHP) begins July 1, 2018. The counties included in each group and the phased implementation schedule are outlined in the table below:

County Implementation Schedule

Groups	Counties	(Phase 1) Implementation date for members with eligible chronic physical conditions and substance use disorders	(Phase 2) Implementation date for members with eligible serious mental illness conditions
Group 1	• San Francisco	July 1, 2018	January 1, 2019
Group 2	• Riverside • San Bernardino	January 1, 2019	July 1, 2019
Group 3	• Alameda • Imperial • Kern • Los Angeles • Sacramento • San Diego • Santa Clara • Tulare	July 1, 2019	January 1, 2020
Group 4	• Orange	January 1, 2020	July 1, 2020

J. Appendix J – HHP Supplemental Payment File

Please refer to the DHCS' *Technical Guidance – Consolidated Supplemental Upload Process for further information.*

K. Appendix K – Whole Person Care Pilot Interaction Guidance

Joint Medi-Cal Managed Care Health Plan and Whole Person Care Pilot Guidance:

Eligibility and Provision of Services in the Health Homes Program and

Whole Person Care Pilots

This notification provides DHCS policy guidance regarding the eligibility, enrollment and the provision of services for Medi-Cal beneficiaries concurrently eligible for both the Health Homes Program (HHP) and a Whole Person Care (WPC) Pilot.

Medi-Cal managed care health plans (MCPs) implementing the HHP are responsible for providing the following six core HHP services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services. Program eligibility is based on meeting a set of chronic physical/Substance Use Disorder (SUD) or Severe Mental Illness (SMI) conditions as well as specified acuity criteria.

The overarching goal of the WPC Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots are administered at the local level where a county, a city and county, a health or hospital authority, or a consortium of any of the above can serve as the Lead Entity (LE). WPC eligibility is established by each Pilot.

DHCS' guidance is that Medi-Cal beneficiaries that are eligible to receive services from both the WPC Pilot program and the HHP can be enrolled in either program or both, based on beneficiary choice.

In most cases WPC pilots provide care coordination services that are similar to the care coordination services provided by the HHP program. If a Medi-Cal beneficiary is eligible for both WPC and HHP, the member may choose which program's care coordination services that want to receive. The member may not receive duplicative care coordination services from both WPC and HHP. If the beneficiary is receiving care coordination services through the HHP, it is the responsibility of the WPC pilot to ensure that a beneficiary does not receive duplicative care coordination services from WPC. The WPC pilot may not claim WPC reimbursement for care coordination services that are duplicative of HHP care coordination services that are provided during the same month.

If the beneficiary chooses to receive care coordination services through WPC and is also interested in participating in the HHP, the beneficiary will not be able to receive any HHP services due to HHP, by default, being a program that consists of a set of 6 care-coordination services that are offered as the core benefit of the program.

In most cases WPC pilots also provide other services that are not duplicative, or similar to, HHP care coordination services. A sobering center service is one example of a WPC service that is likely to not be duplicative of HHP services. If a member is eligible for both WPC and HHP, and the member chooses to receive care coordination services through the HHP, the member may still receive other WPC services (that are not duplicative of HHP services) through the WPC. The WPC pilot may claim reimbursement for these other services regardless of whether the beneficiary chooses to receive care coordination services through the WPC or the HHP.

Please see the following points regarding DHCS' expectations:

- All WPC LEs must ensure the non-duplication of services for their WPC-enrolled members.

- The LEs are required to check other program participation, including HHP, as a regular part of their assessments. DHCS recommends frequent communication between the LE and their local MCPs to ensure there is no duplication of services.

- The WPC "Certification of Lead Entity Reports" document has been revised to include an additional attestation stating that DHCS reserves the right to recoup payments made to LEs for services found to be duplicative.

- LEs are responsible for keeping auditable records, such as documentation of their in-person assessments of enrollee participation in other programs, which should address non-duplication of services.

- As always, DHCS reserves the right to perform an audit of LE data and MCP data.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

9. Consider Actions Related to the Implementation of Statutorily-Mandated Rate Increases for Medi-Cal Non-Contracted Ground Emergency Medical Transport (GEMT) Provider Services

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Approve payments to the capitated hospital(s) and HMOs for statutorily-mandated retrospective rate increases for specific services provided by non-contracted Ground Emergency Medical Transport providers to Medi-Cal members during the period of July 1, 2018 through June 30, 2019 and an administrative fee for claims adjustments; and
2. Direct the Chief Executive Officer, with the assistance of Legal Counsel, to amend the CalOptima Physician Hospital Consortium capitated Hospital and Full-Risk Health Network Medi-Cal contracts to incorporate the retrospective non-contracted Ground Emergency Medical Transport provider rate increase requirements for the July 1, 2018 through June 30, 2019 period and the additional compensation to these health networks for such services.

Background/Discussion

In accordance with Senate Bill (SB) 523 (Chapter 773, Statutes of 2017), the California Department of Health Care Services (DHCS) established increased Ground Emergency Medical Transport (GEMT) provider payments through the Quality Assurance Fee program for certain Medi-Cal related services rendered in State Fiscal Year (SFY) 2018-19. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare & Medicaid Services for GEMT provider payments through California State Plan Amendment 18-004. On April 5, 2019, CalOptima received initial funding for the retrospective non-contracted GEMT provider payment increase, separate from the standard capitation payment. Final guidance regarding distribution of non-contracted GEMT provider payments was released by DHCS through All Plan Letter (APL) 19-007, dated June 14, 2019.

Per DHCS guidance, CalOptima is required to provide increased reimbursement to out-of-network providers for GEMT service codes A0429 (Basic Life Support Emergency), A0427 (Advanced Life Support Emergency), and A0433 (Advanced Life Support, Level 2). CalOptima must reimburse out-of-network providers a total of $339 for each designated GEMT service provided by during SFY 2018-19 (July 1, 2018 to June 30, 2019). Excluded services include those billed by air ambulance providers and services billed when transport is not provided. DHCS has mandated that payments for the above increased rates are to be distributed no later than July 3, 2019.

At this time, the total reimbursement rate of $339 per identified service is time-limited and in effect for SFY 2018-19. Increased reimbursement for the specified GEMT services may potentially be extended into future fiscal years and may include additional GEMT transport codes. If the reimbursement

increase is extended, and/or includes additional GEMT transport codes, DHCS will provide further guidance after necessary federal approval is obtained.

In order to meet timeliness requirements for non-contracted GEMT provider payment adjustments for services provided during SFY 2018-19, CalOptima and its delegated health networks followed the existing Fee Schedule change process. Through this process, eligible claims previously adjudicated and paid were adjusted to the increased reimbursement rate. New claims are paid at the appropriate fee schedule as they are received.

For the physician-hospital consortium (PHC) hospitals and health maintenance organization (HMO) health networks that are financially responsible for non-contracted GEMT services, CalOptima staff recommends reimbursing the health networks the difference between the base Medi-Cal rate for the specific service and the required $339 enhanced rate. The health networks will be required to submit GEMT payment adjustment confirmation reports. Upon receipt of the confirmation report, CalOptima will reconcile the report against encounters and other claims reports received and reimburse each health network's medical costs, separate from their standard capitation payments, plus a 2% administrative component based on rate adjustments made by health networks.

CalOptima and its health networks will be expected to meet all reporting requirements as required by DHCS. Current processes will be leveraged for specific reporting requirements, provider grievances, and health network claims payment audit and oversight to comply with all regulatory requirements. Additionally, current policy and procedures will be followed related to provider payment recoupment, where applicable.

This process applies to eligible services and providers as directed by the DHCS. The same process will be leveraged should GEMT provisions be extended past SFY 2018-19, modified through an APL, or otherwise directed by DHCS. CalOptima staff will return to the Board for approval if any future DHCS non-contract GEMT provider payment requirements warrant significant changes to the proposed process.

Fiscal Impact

The recommended action to implement additional payment requirements for specified services provided by non-contracted GEMT providers to CalOptima Medi-Cal members in SFY 2018-19 is budget neutral. The anticipated Medi-Cal revenue is projected to be sufficient to cover the costs of the increased expense. Management included projected revenues and expenses related to non-contracted GEMT provider payment requirements in the CalOptima Fiscal Year 2019-20 Operating Budget approved by the Board on June 6, 2019.

Rationale for Recommendation

The recommended action will enable CalOptima to be compliant with All-Plan Letter (APL) 19-007: Non–Contract Ground Emergency Medical Transport Payment Obligations for State Fiscal Year 2018–19.

Concurrence
Gary Crockett, Chief Counsel

Dear Ms. Cantwell:

Enclosed is an approved copy of California State Plan Amendment (SPA) 18-004, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on July 11, 2018. SPA 18-004 implements a one-year Quality Assurance Fee (QAF) program and reimbursement add-on for Ground Emergency Medical Transports (GEMT) provided by emergency medical transportation providers effective for the State Fiscal Year (SFY) 2018-19 from July 1, 2018 to June 30, 2019.

The effective date of this SPA is July 1, 2018. Enclosed are the following approved SPA pages that should be incorporated into your approved state plan:

- Supplement 29 to Attachment 4.19-B, pages 1-2

If you have any questions, please contact Cheryl Young at 415-744-3598 or via email at Cheryl.Young@cms.hhs.gov.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

ONE-YEAR REIMBURSEMENT RATE ADD-ON FOR GROUND EMERGENCY MEDICAL TRANSPORT SERVICES

Introduction

This program provides increased reimbursement to ground emergency medical transport providers by application of an add-on to the Medi-Cal fee-for-service (FFS) fee schedule base rates for eligible emergency medical transportation services. The reimbursement rate add-on will apply to eligible Current Procedural Terminology (CPT) Codes, between July 1, 2018 and June 30, 2019. The base rates for emergency medical transportation services will remain unchanged through this amendment.

"Emergency medical transport" means the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped in accordance with applicable state or local statutes, ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT Codes A0429, A0427, and A0433.

Methodology

For State Fiscal Year (SFY) 2018-19, the reimbursement rate add-on is fixed for FY 2018-19. The resulting payment amounts are equal to the sum of the FFS fee schedule base rate for the SFY 2015-16 and the add-on amount for the CPT Code. The resulting total payment amount for CPT Codes A0429, A0427, and A0433 will be $339.00. The add-on is paid on a per-claim basis.

Service Code	Description	Current Payment	Add On Amount	Resulting Total Payment
A0429	Basic Life Support	$118.20	$220.80	$339.00
A0427	Advanced Life Support, Level 1	$118.20	$220.80	$339.00
A0433	Advanced Life Support, Level 2	$118.20	$220.80	$339.00

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: CALIFORNIA

The resulting total payment amount of $339.00 is considered the Rogers rate, which is the minimum rate that managed care organizations can pay noncontract managed care emergency medical transport providers, for each state fiscal year the FFS reimbursement rate add-on is effective.

ALL PLAN LETTER 19-007

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS[1]

SUBJECT: NON-CONTRACT GROUND EMERGENCY MEDICAL TRANSPORT PAYMENT OBLIGATIONS FOR STATE FISCAL YEAR 2018-19

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide Medi-Cal managed care health plans (MCPs) with information regarding increased reimbursement for Fee-For-Service (FFS) ground emergency medical transport (GEMT) for Current Procedural Terminology (CPT) codes A0429, A0427, and A0433. The increased FFS reimbursement will affect MCP reimbursement of out-of-network GEMT services as required by section 1396u-2(b)(2)(D) of Title 42 of the United States Code (USC), commonly referred to as "Rogers Rates."

BACKGROUND:
Pursuant to the Legislature's addition of Article 3.91 (Medi-Cal Emergency Medical Transportation Reimbursement Act) to the Welfare and Institutions Code (WIC) in 2017, DHCS established the GEMT Quality Assurance Fee (QAF) program. On February 7, 2019, DHCS obtained federal approval from the Centers for Medicare and Medicaid Services (CMS) for California State Plan Amendment (SPA) 18-004, with an effective date of July 1, 2018. SPA 18-004 implements a one-year QAF program and reimbursement add-on for GEMT provided by emergency medical transportation providers effective for State Fiscal Year (SFY) 2018-19 from July 1, 2018, to June 30, 2019.

POLICY:
In accordance with 42 USC Section 1396u-2(b)(2)(D), Title 42 of the Code of Federal Regulations part 438.114(c), and WIC Sections 14129-14129.7, MCPs must provide increased reimbursement rates for specified GEMT services to non-contracted GEMT providers.

Under WIC Section 14129(g), emergency medical transport is defined as the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient by an ambulance licensed, operated, and equipped, in accordance with applicable state or local statutes,

[1] This APL does not apply to Prepaid Ambulatory Health Plans.

ordinances, or regulations, excluding transportation by an air ambulance provider, that are billed with CPT codes A0429 (BLS Emergency), A0427 (ALS Emergency), and A0433 (ALS2), excluding any transports billed when, following evaluation of a patient, a transport is not provided.

For each qualifying emergency ambulance transport billed with the specified CPT codes, the total FFS reimbursement will be $339.00 for SFY 2018-2019. Accordingly, MCPs reimbursing non-contracted GEMT providers for those services must pay a "Rogers Rate" for a total reimbursement rate of $339.00 for each qualifying emergency ambulance transport provided during SFY 2018-19 and billed with the specified CPT codes.

At this time, the total reimbursement rate of $339.00 for each qualifying emergency ambulance transport billed with the specified CPT codes is time-limited, and is only in effect for SFY 2018-19 dates of service from July 1, 2018, to June 30, 2019. Increased reimbursement for the specified GEMT services may be extended into future fiscal years, and may include additional GEMT codes. If the reimbursement increase is extended, and/or includes additional GEMT codes, DHCS will provide MCPs with further guidance after necessary federal approval is obtained.

Timing of Payment and Claim Submission

The projected value of this payment obligation will be accounted for in the MCPs' actuarially certified risk-based capitation rates. Within 90 calendar days from the date DHCS issues the capitation payments to MCPs for GEMT payment obligations specified in this APL, MCPs must pay, as required by this APL, for all clean claims or accepted encounters with the dates of service between July 1, 2018, and the date the MCP receives such capitation payment from DHCS.

Once DHCS begins issuing the capitation payments to the MCPs for the GEMT payment obligations specified in this APL, MCPs must pay as required by this APL within 90 calendar days of receiving a qualifying clean claim or an accepted encounter.

MCPs are required to make timely payments in accordance with this APL for clean claims or accepted encounters for qualifying transports submitted to the MCPs within one year after the date of service. MCPs are not required to pay the GEMT payment obligation specified in this APL for claims or encounters submitted more than one year after the date of service unless the non-contracted GEMT provider can show good cause.

These submission and payment timing requirements may be waived only if agreed to in writing between the MCPs, the MCPs' delegated entities, or subcontractors, and the rendering GEMT provider.

Impacts Related to Medicare

For dual eligible beneficiaries with Medicare Part B coverage, the increased Medi-Cal reimbursement level may result in a crossover payment obligation on the MCP, because the new Medi-Cal reimbursement amount may exceed 80 percent of the Medicare fee schedule. Based on current Medicare reimbursement rates, the only CPT code where this scenario may occur in certain geographic areas is A0429. MCPs are responsible for identifying and satisfying any Medicare crossover payment obligations that result from the increase in GEMT reimbursement obligations described in this APL.

In instances where a member is found to have other health coverage sources, MCPs must cost avoid or make a post-payment recovery in accordance with the "Cost Avoidance and Post-Payment Recovery of Other Health Coverage Sources" provision of Attachment 2 to Exhibit E of the MCP Contract.

Other Obligations

MCPs are responsible for ensuring qualifying transports reported using the specified CPT codes are appropriate for the services being provided and are reported to DHCS in encounter data pursuant to APL 14-019.

MCPs are responsible for ensuring that their delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs, policy letters, and duals plan letters. MCPs must communicate these requirements to all delegated entities and subcontractors.

Pursuant to the MCP Contract, MCPs must have a formal procedure to accept, acknowledge, and resolve provider grievances related to the processing or non-payment related to this APL. In addition, MCPs must identify a designated point of contact for provider questions and technical assistance.

If you have any questions regarding the requirements of this APL, please contact your Managed Care Operations Division contract manager.

Sincerely,

Original Signed by Sarah Brooks

Sarah Brooks, Deputy Director
Health Care Delivery Systems

Department of Health Care Services Medi-Cal

Ground Emergency Medical Transport Quality Assurance Fee

June 28, 2018

In accordance with Senate Bill 523 (Chapter 773, Statutes of 2017), the Department of Health Care Services (DHCS) has finalized the fiscal year 2018 – 2019 Ground Emergency Medical Transport Quality Assurance Fee (QAF) rate and add-on amount to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport, as listed below. The QAF is assessed on each qualified emergency medical transport, regardless of payer. The add-on will be provided in addition to the Medi-Cal fee-for-service fee schedule rates for the affected emergency medical transport billing codes. The fiscal year 2018 – 2019 QAF rate and add-on amount are as follows:

Add-on Amount: $220.80

QAF Rate: $24.80

The resulting fiscal year 2018 – 2019 total fee-for-service reimbursement amount will be $339 for HCPCS codes A0427, A0429 and A0433 (ground medical transportation services).

For more details regarding the Ground Emergency Medical Transport QAF Program and the reporting requirements and instructions, visit the Ground Emergency Medical Transport Quality Assurance Fee website.

Questions or comments may be submitted to the DHCS Ground Emergency Medical Transport QAF email box: GEMTQAF@dhcs.ca.gov.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 27, 2019
Special Meeting of the CalOptima Board of Directors

Consent Calendar

3. Consider Ratification of Amendments to Medi-Cal Health Network Contracts, Excluding Those Involving the CHOC Physicians Network

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Ratify Medi-Cal health network contract amendments, excluding those involving the CHOC Physicians Network, to address continued payments to individual providers of Proposition 56 appropriated funds and to compensate the health networks an administrative fee for performance of these responsibilities for services began in State Fiscal Year (SFY) 2018-19 and all future extensions thereafter provided the State of California continues the enhanced Proposition 56 payments to CalOptima.

Background/Discussion

Proposition 56 increases the excise tax rate on cigarettes and tobacco products to fund specified expenditures for existing health care programs administered by the Department of Health Care Services (DHCS). DHCS releases guidance to Medi-Cal managed care plans (MCP) of Proposition 56 provider payments through either direct communication or an All Plan Letter (APL). The APLs includes guidance regarding providers eligible for payment, service codes eligible for reimbursement, timeliness requirements to make payments, and MCP reporting requirements.

Eligible Proposition 56 provider payment adjustments are applied toward specific services provided during a State Fiscal Year (SFY), which runs from July 1 through June 30. While the payment period begins at the beginning of the SFY, final Proposition 56 guidance and rates are not provided until after the fiscal year begins; requiring MCPs to develop initial catch up and ongoing payment distribution processes.

On June 7, 2018 the CalOptima Board of Directors (Board) authorized implementation of initial payment and ongoing processing payments for Proposition 56 SFY 2017-18. On November 1, 2018 the Board authorized contract amendments to Medi-Cal health network contracts to continue Proposition 56 SFY 2017-18 provisions for DOS in SFY 2018-19, until SFY 2018-19 guidance was finalized. DHCS released draft Proposition 56 guidance for SFY 2018-19 on April 12, 2019. Final guidance had not been released as of May 8, 2019. Even though the final APL for the current fiscal year had not been released, DHCS instructed MCPs to distribute initial catch up SFY 2018-19 Proposition 56 funds to providers no later than June 12, 2019. In a separate Board action, CalOptima staff requested approval of a standardized annual Proposition 56 provider payment process.

Back to Agenda Back to Item

The standardized annual Proposition 56 provider payment process applies to eligible services and providers as prescribed through a Proposition 56 APL or directed by DHCS. To continue Proposition 56 provider payments, Staff amended health network contracts to the extend the dates of service eligible for Proposition 56 payments into the current SFY and to ensure payments are made within with the timeframes based on DHCS guidance. CalOptima staff will seek subsequent Board action for further action if any future DHCS Proposition 56 requirements warrant significant changes to the standardized annual process.

Fiscal Impact

The recommended action to ratify amendments to Medi-Cal health network contracts, excluding those involving the CHOC Physicians Network, related to Proposition 56 is projected to be budget neutral to CalOptima. While total disbursement of Proposition 56 funding is dependent upon timely and accurate claims submissions from eligible providers, DHCS has projected Fiscal Year 2018-19 funding at approximately $102 million. Based on historical claims experience, Staff anticipates medical expenditures will be of an equivalent amount, resulting in a budget neutral impact to CalOptima's operating income.

Rationale for Recommendation

The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

Concurrence

Gary Crockett, Chief Counsel
Board of Directors' Finance and Audit Committee

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Back to Agenda Back to Item

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 1, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

10. Consider Actions for the Continuation of Proposition 56 Provider Payments, Including Amendments to Provider Health Network Contracts Except Those Pertaining to the CalOptima Community Network Contracts

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Action

Authorize the Chief Executive Officer (CEO) to enter into contract amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, for AltaMed Health Services, AMVI Care Health Network, CHOC Physicians Network, Children's Hospital of Orange County, DaVita Medical Group ARTA Western California, DaVita Medical Group Talbert California, Family Choice Medical Group, Fountain Valley Regional Hospital and Medical Center, Heritage Provider Network, Kaiser Foundation Health Plan, Monarch Health Plan, Noble Community Medical Associates, Prospect Health Plan and United Care Medical Group to continue to pay individual providers Proposition 56 appropriated funds and to compensate the health networks an administrative fee for performance of these responsibilities for services rendered in State Fiscal Year (SFY) 2018-19 and for future extensions as long the State of California continues the Prop 56 increase payments to CalOptima, which may be subject to Board approval and the changes to the program, as necessary and appropriate to comply with the law and regulatory guidance.

Background/Discussion

The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for SFY 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) were required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19. The proposed SFY 2018-19 extension included new reimbursement rates and eligible procedure codes.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. Proposition 56 provider payments apply to certain Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks: CalOptima Community Network (CCN) and CalOptima Direct (COD), or delegated health networks. On June 7, 2018, the CalOptima Board of Directors approved the methodology for the disbursement of Proposition 56 payments with the understanding that the same process would be utilized should provisions under Proposition 56 be extended past SFY 2017-18. Additionally, on June

7, 2018, the CalOptima Board of Directors approved health network and physician contract amendments to effectuate Proposition 56 payments.

On September 25, 2018 DHCS verbally instructed Medi-Cal Managed Care Plans to continue paying the established SFY 2017-18 Proposition 56 criteria, rates, and procedure codes for services rendered in SFY 2018-19 until DHCS finalizes the SFY 2018-19 Proposition 56 requirements. On September 26, 2018, DHCS confirmed this guidance in writing. To continue Proposition 56 provider payments, health network contracts need to be amended to extend the dates of service eligible for Proposition 56 payments into SFY 2018-19. CalOptima staff will seek subsequent Board action once SFY 2018-19 Proposition 56 criteria, rates, and procedure codes are finalized and communicated by DHCS.

Fiscal Impact

The recommended action to enter into contract amendments with Medi-Cal health networks to continue Proposition 56 provider payments to eligible providers in SFY 2018-19 and for future periods, if enacted with appropriate funding levels, is expected to be budget neutral to CalOptima. CalOptima received initial funding of $4.26 per member per month (PMPM) for SFY 2017-18 Proposition 56 payments in the monthly capitation payment from DHCS beginning on April 30, 2018. Since then, DHCS has included Proposition 56 funding in subsequent capitation payments.

Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments in SFY 2018-19. However, since Proposition 56 funding will not be subject to a retrospective reconciliation, plans will be at risk for any expenses that exceed revenue. Assuming that actual utilization during the effective period will be similar to historic experience levels, staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation

The recommended action will enable CalOptima to be complaint with Proposition 56 requirements.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
47. Consider Actions for the Implementation of Proposition 56 Provider Payment

Contact
Greg Hamblin, Chief Financial Officer, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
Approve methodology for the disbursement of Proposition 56 physician services payments to eligible Medi-Cal providers.

Background
The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56) increases the excise tax rate on cigarettes and tobacco products. A portion of Proposition 56 revenue is allocated for existing health care programs administered by the Department of Health Care Services (DHCS), including reimbursement in the Denti-Cal and Medi-Cal programs. As part of the Budget Act of 2017, Proposition 56 funds were appropriated for State Fiscal Year (SFY) 2017-18. Under Proposition 56, Medi-Cal Managed Care Plans (MCPs) are required to provide additional compensation for certain Medi-Cal related services rendered in SFY 2017-18. Supplemental payments are to be made to providers based on a DHCS-provided set of procedure codes for certain physician services, Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), and women's health services for pregnancy termination. The Governor's May Revision released on May 11, 2018 proposes extension of Proposition 56 for SFY 2018-19.

DHCS released guidance related to Proposition 56 provider payment methodologies through All Plan Letter (APL) 18-010 on May 1, 2018. CalOptima began receiving initial funding for Proposition 56 payments in its monthly capitation received on April 30, 2018 and will continue to receive Proposition 56 funding in subsequent capitation payments. DHCS expects Proposition 56 payments be passed through to eligible providers for the initial payment within 90 calendar days of the MCP receiving capitation from DHCS. Subsequent payments are to be made within 90 calendar days of receiving a clean claim or accepted encounter.

Providers contracted with CalOptima or a delegated entity rendering one of the designated Medi-Cal covered services between July 1, 2017 and June 30, 2018 are eligible for Proposition 56 payments in addition to the provider's contract rate or capitation. However, the following provider types are not eligible to receive Proposition 56 payments: Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), American Indian Health Programs (AIHPs) and cost-based reimbursement clinics. The following DHCS-provided procedure codes are eligible for supplemental payments:

Medi-Cal Covered Service Code	Service Code Description	Directed Payment
99201	Office/Outpatient Visit New	$10.00
99202	Office/Outpatient Visit New	$15.00
99203	Office/Outpatient Visit New	$25.00
99204	Office/Outpatient Visit New	$25.00
99205	Office/Outpatient Visit New	$50.00
99211	Office/Outpatient Visit Est	$10.00
99212	Office/Outpatient Visit Est	$15.00
99213	Office/Outpatient Visit Est	$15.00
99214	Office/Outpatient Visit Est	$25.00
99215	Office/Outpatient Visit Est	$25.00
90791	Psychiatric Diagnostic Eval	$35.00
90792	Psychiatric Diagnostic Eval with Medical Services	$35.00
90863	Pharmacologic Management	$5.00

The DHCS guidance requires MCPs to maintain a formal process for provider grievances with respect to payment and non-payment of Proposition 56 directed payments. Specific Proposition 56 reporting will be required by DHCS on a quarterly basis. MCPs are required to ensure that their delegated entities and subcontractors comply with the terms and requirements of the DHCS guidance.

Discussion

Proposition 56 provider payments apply to Medi-Cal covered medical and behavioral health services. CalOptima administers medical services through its direct networks, CalOptima Community Network (CCN) and CalOptima Direct (COD), or a delegated health network. Prior to January 1, 2018, CalOptima provided behavioral health services through a delegated Managed Behavioral Healthcare Organization (MBHO). Beginning January 1, 2018, CalOptima transitioned away from using a MBHO for its Medi-Cal program and began providing these services through providers contracted directly with CalOptima. To comply with Proposition 56 requirements, CalOptima staff recommends utilizing its current direct and delegated models for both the initial and ongoing payment distributions.

Initial Payments

Following the initial payment received from DHCS on April 30, 2018, CalOptima recommends providing an initial catch-up payment for dates of service (DOS) July 1, 2017 to the current date. In order to process the initial catch-up payment, historical claims and encounter data will be utilized to identify and process the additional payments retroactively. Initial payments must be distributed to providers no later than July 29, 2018. The following is recommended for initial payments:

- CalOptima Direct, CalOptima Community Network and behavioral health providers: CalOptima to utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date.

- Health networks:
  Health networks utilize claims and encounter data to identify and appropriately pay providers retroactively for claims submitted for DOS July 1, 2017 through the initial catch-up date. CalOptima will prefund the health networks for estimated medical costs. Health networks will be required to submit a provider payment confirmation report to CalOptima. Once provider payment is confirmed, the remaining medical cost will be reconciled plus a 2% administrative component based on total medical costs will be remitted to the health networks

Ongoing Processing
Once the initial payment is distributed, future Proposition 56 provider payments must be made within 90 calendar days of receipt of a clean claim or adjusted encounter. The following is recommended for ongoing processing provided that CalOptima continues to receive Proposition 56 funds:

- CalOptima Direct, CalOptima Community Network and behavioral health providers:
  CalOptima will pay providers within 90 calendar days of receipt of a clean claim or accepted behavioral health encounter.

- Health Networks:
  Health networks will pay providers within 90 calendar days of receipt of a clean claim or accepted encounter. Concurrently, CalOptima will utilize existing health network reporting processes to identify claims and encounters eligible for Proposition 56 payments. Health networks will be required to submit provider payment confirmation that the eligible Proposition 56 claims and encounter payments were issued on a monthly basis or other agreed upon schedule. Reports will be due within 15 calendar days of the end of the reporting period. Once provider payment is confirmed, CalOptima will reimburse the health network medical costs plus a 2% administrative component.

Current processes will be leveraged for Proposition 56 specific reporting, provider grievances and health network claims payment audit and oversight to comply with the Proposition 56 requirements. Additionally, current policy and processes will be followed related to provider payment recoupment, where applicable.

This process applies to physician services only as outlined in Proposition 56 and APL 18-010. The same process will be leveraged should provisions under Proposition 56 be extended past SFY 2017-18. Separately, implementation of Proposition 56 will require modifications to the current health network contracts. CalOptima staff will seek subsequent Board action to the extent required.

Fiscal Impact
The recommended action to approve the Proposition 56 physician services payment methodology for eligible Medi-Cal providers is expected to be budget neutral to CalOptima. Based on the draft capitation rates provided by DHCS, Staff anticipates that Proposition 56 revenues will be sufficient to cover the total costs of the physician services payments during SFY 2017-18. However, since DHCS will not provide a retrospective reconciliation for Proposition 56 funding, plans will be at risk for any expense exceeding the funded amount. Assuming that actual utilization during the effective period will be similar to historic experience levels, Staff projects the net fiscal impact will be budget neutral.

Rationale for Recommendation
The recommended action will enable CalOptima to be compliant with Proposition 56 requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 6, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

25. Consider Authorizing Amended and Restated Medi-Cal Health Network Contract for Kaiser Foundation Health Plan, Inc to Incorporate Changes Related to Department of Health Care Services Regulatory Guidance and Amend Capitation Rates

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Nancy Huang, Interim Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to enter into an Amended and Restated Health Network Contract with Kaiser Foundation Health Plan, Inc., effective June 30, 2019 that address the following:

a) Changes to reflect requirements as set forth in the California Department of Health Care Services (DHCS) All Plan Letter (APL) 19-001, Medi-Cal Managed Care Health Plan Guidance on Network Provider Status, as well as other relevant statutory, regulatory, and/or contractual requirements; and
b) Amended capitation rates for assigned members effective July 1, 2019.

Background/Discussion

On December 6, 2018, the Board authorized extension of CalOptima's Medi-Cal Health Network contracts to June 30, 2020. In the interim, there have been numerous initiatives, APLs, and other regulatory updates which necessitate the revision of contract terms. Additionally, the Health Network contracts have been amended numerous times over the years reflecting program, compensation and/or regulatory changes and these changes need to be incorporated in a master template contract. At this time, Staff requests authority to issue an amended and restated Health Network contract incorporating previously approved amendments, changes to address regulatory guidance and amended capitation rates.

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid Managed Care and Child Health Insurance Program (CHIP) regulations. The intent of the regulations is to align the managed care requirements of Medicaid with those for Medicare. As specified in the contract with DHCS, CalOptima is required to incorporate some of the revised regulations into CalOptima's contracts with Health Networks. On January 17, 2019, DHCS issued APL 19-001 that identified the provisions that must be included in network provider contracts to meet state and federal contracting requirements.

In addition to the changes to the contract terms reflected in APL 19-001, Staff has incorporated additional statutory, regulatory and contractual revisions which include, but are not limited to: emergency services notification requirements; Government Claims Act specifications; and, document and data submissions certification obligations.

Back to Agenda Back to Item

Fiscal Impact

The recommended action to enter into amended and restated Medi-Cal Health Network contracts to comply with requirements in DHCS APL 19-001, and other relevant statutory, regulatory, and/or contractual requirements is not expected to have a fiscal impact.

The anticipated Medi-Cal revenue for FY 2019-20 is projected to be sufficient to cover the costs of the recommended action to amend capitation rates for assigned members effective July 1, 2019. Management has included projected expenses associated with the extended contracts in the proposed CalOptima FY 2019-20 Operating Budget pending Board approval.

Rationale for Recommendation

CalOptima staff recommends these actions to fulfill regulatory requirements.

ALL PLAN LETTER 19-001

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: MEDI-CAL MANAGED CARE HEALTH PLAN GUIDANCE ON NETWORK PROVIDER STATUS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance to Medi-Cal managed care health plans (MCPs) regarding how the Department of Health Care Services (DHCS) evaluates Network Provider status in order to promote consistency between federal regulations, Medi-Cal managed care contracts, state law, APLs, and similar instructions. It is the general intention of DHCS to apply this policy related to Network Provider contracting requirements in a standardized manner, to the extent appropriate, across relevant contexts, including MCP Network Provider and Subcontractor agreements, provider directory reporting, network adequacy certification, and directed payments pursuant to Title 42 of the Code of Federal Regulations (CFR) Section 438.6(c).[1]

BACKGROUND:
In May 2016, the Centers for Medicare and Medicaid Services (CMS) released the Final Rule in the Federal Register applicable to Medicaid managed care programs (Final Rule).[2] The Final Rule did not eliminate or weaken any of the existing requirements found in the current Medi-Cal managed care contract, but rather updated the managed care regulations to include new and expanded requirements for MCP Subcontractors and separately defined Network Providers.[3] In implementing the Final Rule, DHCS submitted contract amendments to CMS to bring its existing provisions related to "Subcontracts" into compliance with the new and more stringent federal requirements.[4] As of now, and consistent with historical practice and Title 22 of the California Code of

[3] See 42 CFR 438.2, "Definitions."
[4] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date the amendment is pending approval by CMS, and is anticipated to be finalized with minimal changes.

Back to Agenda Back to Item

Regulations (CCR) Section 53250,[5] DHCS is maintaining uniformity to the extent appropriate with respect to the requirements for all "Subcontracts," regardless of whether the agreement is between an MCP and an entity defined as a "Subcontractor" or "Network Provider" under 42 CFR Section 438.2.[6]

While the guidance in this APL on how DHCS will evaluate compliance is prospective, many of these obligations were imposed as of July 1, 2017, in accordance with the Final Rule.

Additional guidance on what constitutes an eligible Network Provider for directed payment programs is set forth on the DHCS Directed Payments web page.[7]

POLICY:

I. **Required Characteristics of Network Providers**
Effective on or after July 1, 2019, a Network Provider, as defined in 42 CFR Section 438.2 and the Medi-Cal managed care contract in Exhibit E, Attachment 1, Definitions, must:

1. Have an executed written Network Provider Agreement with the MCP or a Subcontractor of the MCP that meets all the requirements set forth in Attachment A of to this APL;
2. Be enrolled in accordance with APL 17-019,[8] the Medi-Cal Managed Care Provider Enrollment Frequently Asked Questions (FAQ) document, or any subsequent APL or FAQ update on the topic, unless enrollment is not required as specified by DHCS;
3. Be reported on the MCP's 274 file submitted to DHCS, for all applicable filings, in accordance with APL 16-019 or any subsequent APL on the topic and the most recent DHCS 274 Companion Guide; and

---

[5] The CCR is searchable at: https://govt.westlaw.com/calregs/Search/Index
[6] The Medi-Cal managed care contract defines the term Subcontract to include both Subcontractors and Network Providers (as those terms are defined under 42 CFR Section 438.2), and all requirements listed in Paragraph B of Provision 14 of Exhibit A, Attachment 6 apply to Network Providers. A provider may maintain Network Provider status without an agreement directly with an MCP, if they are connected through a series of Subcontracts, so long as those Subcontracts also meet all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and Policy Letters (PLs), in particular, but not limited to, those requirements in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic). That chain of Subcontracts may include an entity that is also a Network Provider, who, as a result of taking on an administrative function of contracting for care (and not providing that care itself), also meets the definition of a "Subcontractor."
[7] The DHCS directed payment web page is available at: https://www.dhcs.ca.gov/services/Pages/DirectedPymts.aspx
[8] APLs are available at: https://www.dhcs.ca.gov/formsandpubs/Pages/AllPlanLetters.aspx

4. Be included on all network adequacy filings that occur within the effective dates of the written Network Provider Agreement, in accordance with APL 18-005, or any subsequent APL on the topic, following the execution of the agreement. This does not automatically require the provider to be listed on a provider directory, nor does it require the inclusion of a Network Provider on network adequacy filings if such inclusion would be inappropriate due to timing or other circumstances, as discussed in APL 18-005.

For contract/rating periods commencing on or after July 1, 2019, when DHCS references Network Providers in guidance, information, instruction, or communications, it will refer to providers who meet the criteria outlined in this APL, unless expressly noted otherwise. MCPs must use the guidance provided in this APL and the checklist provided in Attachment A to update current Network Provider Agreement boilerplates for compliance before submitting to DHCS for review and approval. Note that this APL, including its attachment, is not an exhaustive list of all MCP duties related to Network Providers, and it is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs.

A provider that does not meet the criteria for a Network Provider shall not be reported on the 274 file or as part of the MCP's network adequacy filings.

II. Written Network Provider Agreement Requirements

In order to ensure alignment with the DHCS criteria for Network Providers across applicable settings, all MCPs must ensure that their Network Provider Agreements comply with current and applicable Medi-Cal managed care contract requirements.

In accordance with the current Medi-Cal managed care contracts and 22 CCR Section 53250, all Network Provider Agreement boilerplates must be submitted to DHCS for review and approval before use. A checklist of the required elements for these agreements is included as Attachment A of this APL. Where an MCP's relationship with a Network Provider includes one or more sub-delegated entities or a hospital to hospital agreement, each Subcontractor agreement that links the MCP to the Network Provider must also comply with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable APLs and PLs, in particular, but not limited to, those in Exhibit A, Attachment 6, Provision 14 and APL 17-004 (or any subsequent APL on the topic).

III. DHCS Review and Approval of Network Provider Agreement Boilerplate Compliance

As stated above, MCPs are required to submit Network Provider Agreement boilerplates that have been updated in accordance with the requirements in this APL to DHCS for review and approval prior to use. MCPs are also responsible for complying with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs, as they relate to Network Provider requirements and Network Provider Agreements.

MCPs will have 60 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for hospital providers and 120 days from the release date of this APL to submit updated Network Provider Agreement boilerplates for non-hospital providers to their DHCS contract manager.

The timing for DHCS to review these Network Provider Agreement boilerplates will follow the current 60-day review timing requirements as outlined in the Medi-Cal managed care contract under Exhibit E, Attachment 3, Duties of the State, DHCS Approval Process.

If an MCP has a timing issue that would require a Network Provider Agreement boilerplate to be approved for use by DHCS sooner than the 60-day review period would allow, the MCP must notify its DHCS Contract Manager to arrange an alternate timing agreement.

IV. Directed Payment Impacts

All MCPs must comply with the terms of all directed payments approved by CMS in accordance with 42 CFR Section 438.6(c), as documented in CMS-approved preprints, state law, and/or as implemented by DHCS through APL or other similar guidance. All such guidance is available at the DHCS Directed Payments web page. If a Network Provider Agreement does not meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments, the services provided under that agreement will not be eligible for directed payments for rating periods commencing on or after July 1, 2019. For pooled directed payments where DHCS retrospectively calculates final payments based on the actual reported utilization of eligible services, MCPs must continue to provide supplemental encounter/service-level data, in a manner and at times specified by DHCS. This information will aid in identifying the subset of services provided under a Network Provider Agreement that meet the Network Provider criteria set forth in this APL and/or in DHCS guidance regarding directed payments.

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and PLs. These requirements must be communicated by each MCP to all delegated entities and subcontractors.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

Nathan Nau, Chief
Managed Care Quality and Monitoring Division

Attachment(s)

ALL PLAN LETTER 19-001
Attachment A

Attachment A: Network Provider Agreement Boilerplate Checklist

This Attachment establishes a checklist for MCPs to use in connection with their development of Network Provider Agreement templates. It is not intended to alter or limit an MCP's statutory and/or contractual obligations, nor does it limit an MCP's oversight obligations. MCPs are responsible for complying with all applicable state and federal law and contract requirements as well as DHCS guidance, including all applicable All Plan Letters and Policy Letters.

Network Provider Agreements must contain:	
1	Specification of the services to be provided by the Network Provider. Citation: Managed Care Plan Contract (MCP Contract), Exhibit A, Attachment 6, Provision 14.B.1 and Title 22, CCR, Sections 53250(c)(1) and 53867.[1]
2	Specification that the Network Provider Agreement must be governed by and construed in accordance with all laws and applicable regulations governing the Contract between Contractor and DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.2 and Title 22, CCR, Sections 53250(c)(2) and 53867.
3	Specification that the Network Provider Agreement or its amendments will become effective only as set forth in Exhibit A, Attachment 6, Provision 13.C. Departmental Approval – Non-Federally Qualified HMOs, or 13.D, Departmental Approval – Federally Qualified HMOs. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.3 and Title 22, CCR, Sections 53250(c)(3) and 53867.
4	Specification of the term of the Network Provider Agreement, including beginning and ending dates, methods of extension, renegotiation, and termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.4 and Title 22, CCR, Sections 53250(c)(4) and 53867.
5	Language comparable to Exhibit A, Attachment 8, Provision 13. Contracting & Non-Contracting Emergency Service Providers & Post-Stabilization, for those Network Providers at risk for non-contracting emergency services. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.5.
6	Network Provider's agreement to submit reports as required by Contractor. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.6, Exhibit A, Attachment 3, Provision 2.C and 2.G, and Title 22, CCR, Sections 53250(c)(5) and 53867.

[1] Note that references to contract provisions in this document reflect changes made by the 2017 Final Rule amendment (identified as Package 42, an updated version of which was shared with MCPs in January 2018). To date, the amendment is pending approval by CMS and is anticipated to be finalized with minimal changes.

7	Specification that the Network Provider must comply with all monitoring provisions of the MCPs' contracts and any monitoring requests by DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.7, 42 CFR 438.3(h), and Title 22, CCR, Sections 53250(e)(1) and 53867.
8	Network Provider's agreement to make all of its premises, facilities, equipment, books, records, contracts, computer and other electronic systems pertaining to the goods and services furnished under the terms of the Network Provider Agreement, available for the purpose of an audit, inspection, evaluation, examination or copying, including but not limited to Access Requirements and State's Right to Monitor, as set forth in Exhibit E, Attachment 2, Provision 20. Inspection Rights: a) By DHCS, CMS, Department of Health and Human Services (DHHS) Inspector General, the Comptroller General, Department of Justice (DOJ), and Department of Managed Health Care (DMHC), or their designees. b) At all reasonable times at the Network Provider's place of business or at such other mutually agreeable location in California. c) In a form maintained in accordance with the general standards applicable to such book or record keeping. d) For a term of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. e) Including all Encounter Data for a period of at least ten (10) years. f) If DHCS, CMS, or the DHHS Inspector General determines there is a reasonable possibility of fraud or similar risk, DHCS, CMS, or the DHHS Inspector General may inspect, evaluate, and audit the Network Provider at any time. g) Upon resolution of a full investigation of fraud, DHCS reserves the right to suspend or terminate the Network Provider from participation in the Medi-Cal program; seek recovery of payments made to the Network Provider; impose other sanctions provided under the State Plan, and direct Contractor to terminate their Network Provider Agreement due to fraud. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.8, Exhibit E, Attachment 2, Provision 20, and 42 CFR 438.3(h).

9	Full disclosure of the method and amount of compensation or other consideration to be received by the Network Provider. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.9 and Title 22, CCR, Sections 53250(e)(2) and 53867.
10	Network Provider's agreement to maintain and make available to DHCS, upon request, copies of all sub-subcontracts and to ensure that all sub-subcontracts are in writing and require that the Network Provider: a) Make all premises, facilities, equipment, applicable books, records, contracts, computer, or other electronic systems related to this Contract, available at all reasonable times for audit, inspection, examination, or copying by DHCS, CMS, or the DHHS Inspector General, the Comptroller General, DOJ, and DMHC, or their designees. b) Retain such books and all records and documents for a term minimum of at least ten (10) years from the final date of the Contract period or from the date of completion of any audit, whichever is later. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.10.
11	Network Provider's agreement to assist Contractor in the transfer of care pursuant to Exhibit E, Attachment 2, Provision 14. Phase out Requirements, Subparagraph B in the event of contract termination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.11.
12	Network Provider's agreement to assist Contractor in the transfer of care in the event of sub-subcontract termination for any reason. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.12.
13	Network Provider's agreement to notify DHCS in the event the agreement with the Contractor is amended or terminated. Notice is considered given when properly addressed and deposited in the United States Postal Service as first-class registered mail, postage attached. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.13 and Title 22, CCR, Sections 53250(e)(4) and 53867.
14	Network Provider's agreement that assignment or delegation of the Network Provider Agreement or Subcontract will be void unless prior written approval is obtained from DHCS. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.14 and Title 22, CCR, Sections 53250(e)(5) and 53867.
15	Network Provider's agreement to hold harmless both the State and Members in the event Contractor cannot or will not pay for services performed by the Network Provider pursuant to the Network Provider Agreement. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.15 and Title 22, CCR, Sections 53250(e)(6) and 53867.

16	Network Provider's agreement to timely gather, preserve and provide to DHCS, any records in the Network Provider's possession, in accordance with Exhibit E, Attachment 2, Provision 24. Records Related to Recovery for Litigation. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.16.
17	Network Provider's agreement to provide interpreter services for Members at all Provider sites. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.17.
18	Network Provider's right to submit a grievance and Contractor's formal process to resolve Provider Grievances. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.18.
19	Network Provider's agreement to participate and cooperate in Contractor's Quality Improvement System. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.19.
20	If Contractor delegates Quality Improvement activities, the Network Provider Agreement must include those provisions stipulated in Exhibit A, Attachment 4, Provision 6. Delegation of Quality Improvement Activities. Contractor and delegated entity (Network Provider) must include in their Network Provider Agreement, at minimum: 1) Quality improvement responsibilities, and specific delegated functions and activities of the Contractor and Network Provider. 2) Contractor's oversight, monitoring, and evaluation processes and Network Provider's agreement to such processes. 3) Contractor's reporting requirements and approval processes. The agreement must include Network Provider's responsibility to report findings and actions taken as a result of the quality improvement activities at least quarterly. 4) Contractor's actions/remedies if Network Provider's obligations are not met. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.20 and Exhibit A, Attachment 4, Provision 6.A.
21	Network Provider's agreement to comply with all applicable requirements of the DHCS, Medi-Cal Managed Care Program. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.21.
22	Network Provider's agreement to revoke the delegation of activities or obligations, or specify other remedies in instances where DHCS or Contractor determine that the Network Provider has not performed satisfactorily. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.22, 42 CFR 438.230(c)(iii), and Title 22, CCR, Sections 53250 and 53867.

23	To the extent that the Network Provider is responsible for the coordination of care for Members, Contractor's agreement to share with the Network Provider any utilization data that DHCS has provided to Contractor, and the Network Provider's agreement to receive the utilization data provided and use it as the Network Provider is able for the purpose of Member care coordination. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.23 and 42 CFR 438.208.
24	Contractor's agreement to inform the Network Provider of prospective requirements added by DHCS to Contractor's Contract with DHCS before the requirement would be effective, and Network Provider's agreement to comply with the new requirements within 30 days of the effective date, unless otherwise instructed by DHCS and to the extent possible. Citation: MCP Contract, Exhibit A, Attachment 6, Provision 14.B.24.
25	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely provider data needed by Contractor in order for Contractor to meet its provider data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provision 1; APL 16-019, and any subsequent updates.
26	A provision requiring Network Providers to submit to Contractor complete, accurate, reasonable, and timely Encounter Data needed by Contractor in order for Contractor to meet its encounter data reporting requirements to DHCS. Citation: MCP Contract, Exhibit A, Attachment 3, Provisions 2.C and 2.G.; APL 14-019, and any subsequent updates.
27	A provision prohibiting Network Providers from balance billing a Medi-Cal member. Citation: MCP Contract, Exhibit A, Attachment 8, Provision 6.
28	A provision stating that Contractor will provide cultural competency, sensitivity, and diversity training. Citation: MCP Contract, Exhibit A, Attachment 9, Provision 13.E.
29	A provision confirming a Network Provider's right to access Contractor's dispute resolution mechanism. Citation: Health & Safety Code §1367 (h)(1).
30	A provision requiring that Network Providers comply with language assistance standards developed pursuant to Health & Safety Code §1367.04.
31	A provision confirming that Network Providers are entitled to all protections afforded them under the Health Care Providers' Bill of Rights. Citation: Health & Safety Code §1375.7

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

Back to Agenda Back to Item

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

45. Consider Actions Related to CalOptima's Whole-Child Model Program

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. Authorize CalOptima staff to develop an implementation plan to integrate California Children's Services into its Medi-Cal program in accordance with the Whole Child Model (WCM), and return to the Board for approval after developing draft policies, and completing additional analysis and modeling prior to implementation;
2. Authorize and direct the Chief Executive Officer (CEO), with assistance of Legal Counsel, to execute a Memorandum of Understanding (MOU) with Orange County Health Care Agency (OC HCA for coordination of care, information sharing and other actions to support WCM activities; and
3. In connection with development of the Whole Child Model Family Advisory Committee:
    a. Direct the CEO to adopt new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee; and,
    b. Appoint the following ~~eleven~~ individuals to the Whole-Child Model Family Advisory Committee (WCM FAC) for one or two-year terms as indicated or until a successor is appointed, beginning July 1, 2018:

Rev. 6/7/2018

        i. Family Member Representatives:
            a) Maura Byron for a two-year term ending June 30, 2020;
            b) Melissa Hardaway for a one-year term ending June 30, 2019;
            c) Grace Leroy-Loge for a two-year term ending June 30, 2020;
            d) Pam Patterson for a one-year term ending June 30, 2019;
            e) Kristin Rogers for a two-year term ending June 30, 2020; and
            f) Malissa Watson for a one-year term ending June 30, 2019.
        ~~ii. Community Representatives:~~
            ~~a) Michael Arnot for a two-year term ending June 30, 2020;~~
            ~~b) Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

   c. Current CalOptima members age of 21 and over who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

Program Implementation

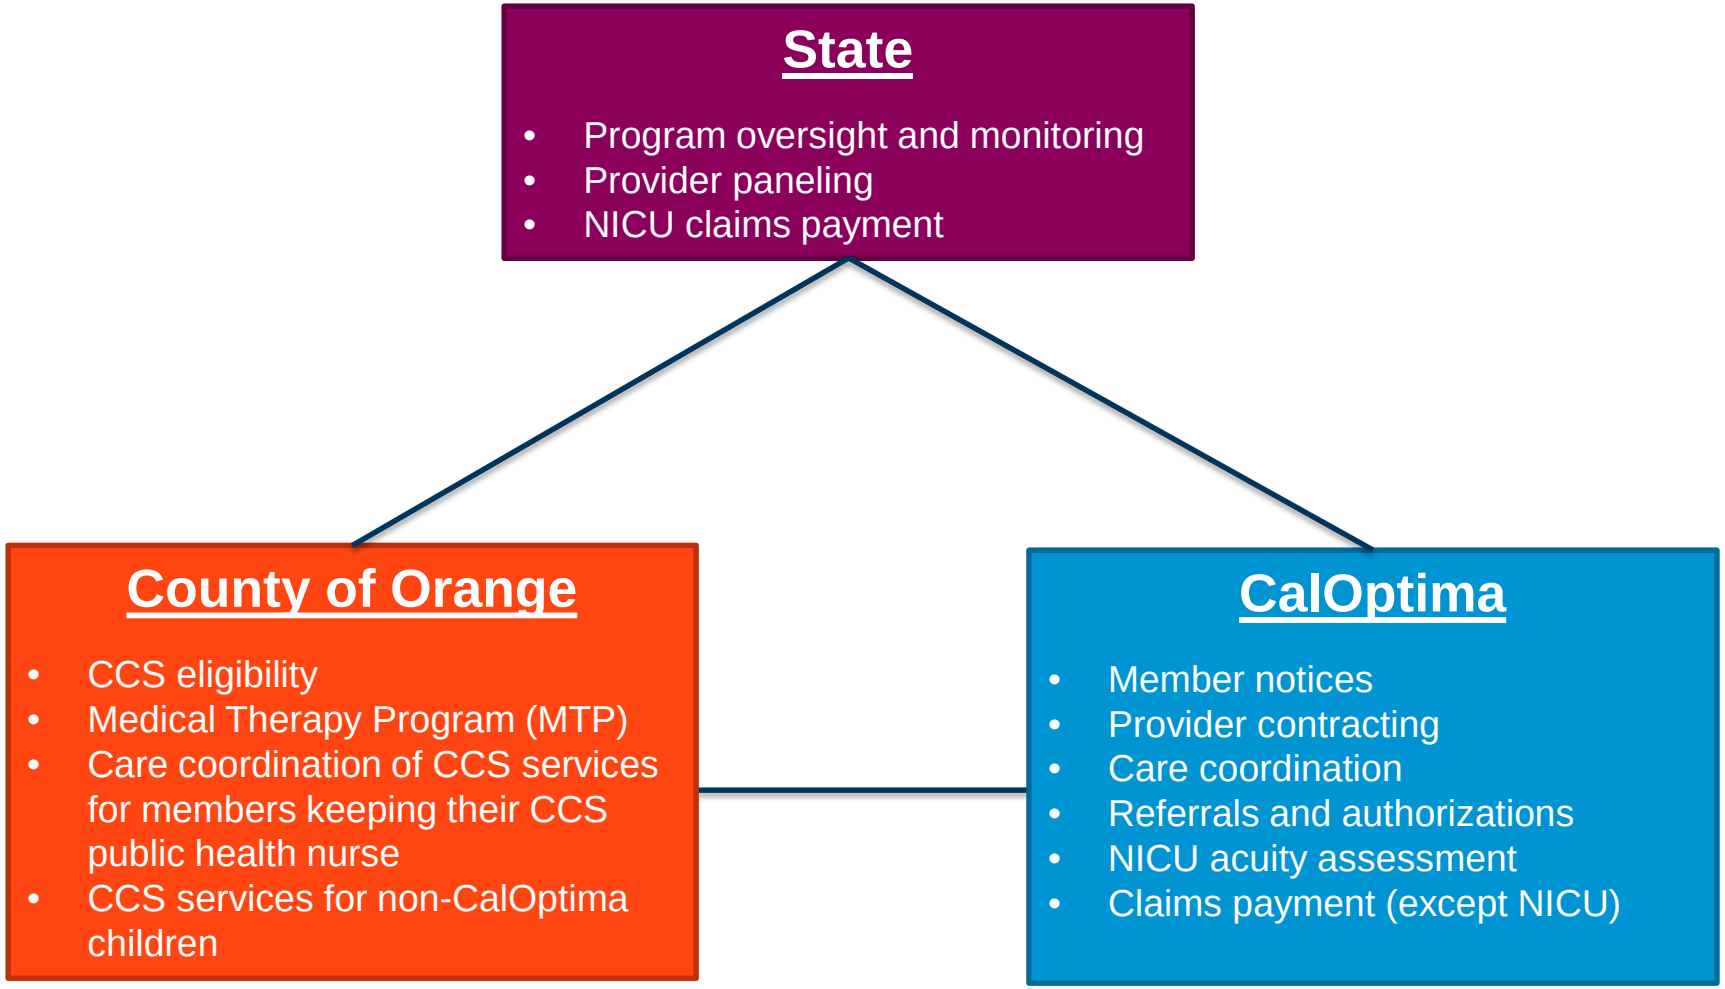
CalOptima
A Public Agency
Better. Together.

Background

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency
- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities



WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

Resolution No. 17-1102-01

Rev.
11/2/17

/s/ Michael Schrader — **Authorized Signature**

10/23/2017 — **Date**

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
   - Current CalOptima members over the age of 21 who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children with CCS, including:
   - Community-based organizations (CBOs); or
   - Consumer advocates.

Rev. 11/2/2017

If nine or more qualified candidates initially apply for family representative seats, nine of the eleven committee seats will be filled with family representatives. Initially, and on an on-going basis, only in circumstances when there are insufficient applicants to fill all of the designated family representative seats with qualifying family representatives, up to two of the nine seats designated for family members may be filled with representatives of CBOs or consumer advocates.

It is anticipated that a representative from the CalOptima WCM-FAC may be invited to serve on a statewide stakeholder advisory group.

Section 3. Chair and Vice Chair. The Chair and Vice Chair for the WCM-FAC will be appointed by the Board annually from the appointed members. The Chair, or in the Chair's absence, the Vice Chair, shall preside over WCM-FAC meetings. The Chair and Vice Chair may each serve up to two consecutive terms in a particular WCM-FAC officer position, or until their successor is appointed by the Board.

Section 4. Committee Mission, Goals and Objectives. The WCM-FAC will develop, review annually, and make recommendations to the Board on any revisions to the committee's Mission or Goals and Objectives.

Section 5. Meetings. The WCM-FAC will meet at least quarterly. A yearly meeting schedule will be adopted at the second regularly scheduled meeting for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws.

Attendance by the occupants of a simple majority of WCM-FAC seats shall constitute a quorum. A quorum must be present in order for any action to be taken by the WCM-FAC. Committee members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to the scheduled WCM-FAC meeting.

The CalOptima Chief Executive Officer (CEO) shall prepare, or cause to be prepared, and post, or cause to be posted, an agenda for all WCM-FAC meetings. Agenda contents and posting procedures must be consistent with the requirements of the Ralph M. Brown Act (Government Code section 54950 *et seq.*).

WCM-FAC minutes will be taken at each meeting and filed with the Board.

Section 6. Reporting. The Chair is required to report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board.

Section 7. Staffing. CalOptima will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

Section 8. Ad Hoc Committees. Ad hoc committees may be established by the WCM-FAC Chair from time to time to formulate recommendations to the full WCM-FAC on specific issues. The scope and purpose of each such ad hoc will be defined by the Chair and disclosed at WCM-FAC meetings. Each ad hoc committee will terminate when the specific task for which it was created is complete. An ad hoc committee must include fewer than a majority of the voting committee members.

Section 9. Stipend. Subject to DHCS approval, family representatives participating on the WCM-FAC are eligible to receive a stipend for their attendance at regularly scheduled and ad hoc WCM-FAC meetings. Only one stipend is available per qualifying WCM-FAC member per regularly scheduled meeting. WCM-FAC members representing community-based organizations and consumer advocates are not eligible for WCM-FAC stipends.

APPROVED AND ADOPTED by the Board of Directors of the Orange County Health Authority, d.b.a., CalOptima this 2nd day of November, 2017.

I. PURPOSE

This policy describes the composition and role of the Family Advisory Committee for Whole Child Model (WCM) and establishes a process for recruiting, evaluating, and selecting prospective candidates to the Whole Child Model Family Advisory Committee (WCM FAC).

II. POLICY

A. As directed by CalOptima's Board of Directors (Board), the WCM FAC shall report to the CalOptima Board and shall provide advice and recommendations to the CalOptima Board and CalOptima staff in regards to California Children's Services (CCS) provided by CalOptima Medi-Cal's implementation of the WCM.

B. CalOptima's Board encourages Member and community involvement in CalOptima programs.

C. WCM FAC members shall recuse themselves from voting or from decisions where a conflict of interest may exist and shall abide by CalOptima's conflict of interest code and, in accordance with CalOptima Policy AA.1204: Gifts, Honoraria, and Travel Payments.

D. CalOptima shall provide timely reporting of information pertaining to the WCM FAC as requested by the Department of Health Care Services (DHCS).

E. The composition of the WCM FAC shall reflect the cultural diversity and special needs of the health care consumers within the Whole-Child Model population. WCM FAC members shall have direct or indirect contact with CalOptima Members.

F. In accordance with CalOptima Board Resolution No. 17-1102-01, the WCM FAC shall be comprised of eleven (11) voting members representing CCS family members, as well as consumer advocates representing CCS families. Except as noted below, each voting member shall serve a two (2) year term with no limits on the number of terms a representative may serve. The initial appointments of WCM FAC members will be divided between one (1) and two (2)-year terms to stagger reappointments. In the first year, five (5) committee member seats shall be appointed for a one (1)-year term and six (6) committee member seats shall be appointed for a two (2)-year term. The WCM FAC members serving a one (1) year term in the first year shall, if reappointed, serve two (2) year terms thereafter.

1. Seven (7) to nine (9) of the seats shall be family representatives in one (1) of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):

    a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima Member who is a current recipient of CCS services;

    b. CalOptima Members eighteen (18)-twenty-one (21) years of age who are current recipients of CCS services; or

    c. Current CalOptima members over the age of twenty-one (21) who transitioned from CCS services.

2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:

    a. Community-based organizations; or

    b. Consumer advocates.

3. While two (2) of the WCM FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, an additional two (2) WCM FAC candidates representing these groups may be considered for these seats in the event that there are not sufficient family representative candidates to fill the family member seats.

4. Interpretive services shall be provided at committee meetings upon request from a WCM FAC member or family member representative.

5. A family representative, in accordance with Section II.G.1 of this Policy, may be invited to serve on a statewide stakeholder advisory group.

G. Stipends

1. Subject to approval by the CalOptima Board, CalOptima may provide a reasonable per diem payment to a member or family representative serving on the WCM FAC. CalOptima shall maintain a log of each payment provided to the member or family representative, including type and value, and shall provide such log to DHCS upon request.

    a. Representatives of community-based organizations and consumer advocates are not eligible for stipends.

H. The WCM FAC shall conduct a nomination process to recruit potential candidates for expiring seats, in accordance with this Policy.

I. WCM FAC Vacancies

1. If a seat is vacated within two (2) months from the start of the nomination process, the vacated seat shall be filled during the annual recruitment and nomination process.

2. If a seat is vacated after the annual nomination process is complete, the WCM FAC nomination ad hoc subcommittee shall review the applicants from the recent recruitment to see if there is a viable candidate.

    a. If there is no viable candidate among the applicants, CalOptima shall conduct recruitment, per section III.B.2.

3. A new WCM FAC member appointed to fill a mid-term vacancy, shall serve the remainder of the resigning member's term, which may be less than a full two (2) year term.

J. On an annual basis, WCM FAC shall select a chair and vice chair from its membership to coincide with the annual recruitment and nomination process. Candidate recruitment and selection of the chair and vice chair shall be conducted in accordance with Sections III.B-D of this Policy.

1. The WCM FAC chair and vice chair may serve two (2) consecutive one (1) year terms.

2. The WCM FAC chair and/or vice chair may be removed by a majority vote of CalOptima's Board.

K. The WCM FAC chair, or vice chair, shall ask for three (3) to four (4) members from the WCM FAC to serve on a nomination ad hoc subcommittee. WCM FAC members who are being considered for reappointment cannot participate in the nomination ad hoc subcommittee.

1. The WCM FAC nomination ad hoc subcommittee shall:

    a. Review, evaluate and select a prospective chair, vice chair and a candidate for each of the open seats, in accordance with Section III.C-D of this Policy; and

    b. Forward the prospective chair, vice chair, and slate of candidate(s) to the WCM FAC for review and approval.

2. Following approval from the WCM FAC, the recommended chair, vice chair, and slate of candidate(s) shall be forwarded to CalOptima's Board for review and approval.

L. CalOptima's Board shall approve all appointments, reappointments, and chair and vice chair appointments to the WCM FAC.

M. Upon appointment to WCM FAC and annually thereafter, WCM FAC members shall be required to complete all mandatory annual Compliance Training by the given deadline to maintain eligibility standing on the WCM FAC.

N. WCM FAC members shall attend all regularly scheduled meetings, unless they have an excused absence. An absence shall be considered excused if a WCM FAC member provides notification of an absence to CalOptima staff prior to the meeting. CalOptima staff shall maintain an attendance log of the WCM FAC members' attendance at WCM FAC meetings. As the attendance log is a public record, any request from a member of the public, the WCM FAC chair, the vice chair, the Chief Executive Officer, or the CalOptima Board, CalOptima staff shall provide a copy of the attendance log to the requester. In addition, the WCM FAC chair, or vice chair, shall contact any committee member who has three (3) consecutive unexcused absences.

1. WCM FAC members' attendance shall be considered as a criterion upon reapplication.

III. PROCEDURE

A. WCM FAC meeting frequency

1. WCM FAC shall meet at least quarterly.

2. WCM FAC shall adopt a yearly meeting schedule at the first regularly scheduled meeting in or after January of each year.

3. Attendance by a simple majority of appointed members shall constitute a quorum, and a quorum must be present for any votes to be valid.

B. WCM FAC recruitment process

1. CalOptima shall begin recruitment of potential candidates in March of each year. In the recruitment of potential candidates, the ethnic and cultural diversity and special needs of children and/or families of children in CCS which are or are expected to transition to CalOptima's Whole-Child Model population shall be considered. Nominations and input from interest groups and agencies shall be given due consideration.

2. CalOptima shall recruit for potential candidates using one or more notification methods, which may include, but are not limited to, the following:

   a. Outreach to family representatives and community advocates that represent children receiving CCS;

   b. Placement of vacancy notices on the CalOptima website; and/or

   c. Advertisement of vacancies in local newspapers in Threshold Languages.

3. Prospective candidates must submit a WCM Family Advisory Committee application, including resume and signed consent forms. Candidates shall be notified at the time of recruitment regarding the deadline to submit their application to CalOptima.

4. Except for the initial recruitment, the WCM FAC chair or vice chair shall inquire of its membership whether there are interested candidates who wish to be considered as a chair or vice chair for the upcoming fiscal year.

   a. CalOptima shall inquire at the first WCM FAC meeting whether there are interested candidates who wish to be considered as a chair for the first year.

C. WCM FAC nomination evaluation process

1. The WCM FAC chair or vice chair shall request three (3) to four (4) members, who are not being considered for reappointment, to serve on the nominations ad hoc subcommittee. For the first nomination process, Member Advisory Committee (MAC) members shall serve on the nominations ad hoc subcommittee to review candidates for WCM FAC.

a. At the discretion of the nomination ad hoc subcommittee, a subject matter expert (SME), may be included on the subcommittee to provide consultation and advice.

2. Prior to WCM FAC nomination ad hoc subcommittee meeting (including the initial WCM FAC nomination ad hoc subcommittee).

a. Ad hoc subcommittee members shall individually evaluate and score the application for each of the prospective candidates using the applicant evaluation tool.

b. Ad hoc subcommittee members shall individually evaluate and select a chair and vice chair from among the interested candidates.

c. At the discretion of the ad hoc subcommittee, subcommittee members may contact a prospective candidate's references for additional information and background validation.

3. The ad hoc subcommittee shall convene to discuss and select a chair, vice chair and a candidate for each of the expiring seats by using the findings from the applicant evaluation tool, the attendance record if relevant and the prospective candidate's references.

D. WCM FAC selection and approval process for prospective chair, vice chair, and WCM FAC candidates:

1. The nomination ad hoc subcommittee shall forward its recommendation for a chair, vice chair, and a slate of candidates to WCM FAC (or in the first year, the MAC) for review and approval. Following WCM FAC's approval (or in the first year, the MAC), the proposed chair, vice chair and slate of candidates shall be submitted to CalOptima's Board for approval.

2. The WCM FAC members' terms shall be effective upon approval by the CalOptima Board.

a. In the case of a selected candidate filling a seat that was vacated mid-term, the new candidate shall attend the immediately following WCM FAC meeting.

3. WCM FAC members shall attend a new advisory committee member orientation.

VIII. REVIEW/REVISION HISTORY

Version	Date	Policy Number	Policy Title	Line(s) of Business
Effective	06/07/2018	AA.1271PP	Whole Child Model Family Advisory Committee	Medi-Cal

IX. GLOSSARY

Term	Definition
California Children's Services Program	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible children under the age of twenty-one (2l) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
Member	For purposes of this policy, an enrollee-beneficiary of the CalOptima Medi-Cal Program receiving California Children's Services through the Whole Child Model program.
Member Advisory Committee (MAC)	A committee comprised of community advocates and Members, each of whom represents a constituency served by CalOptima, which was established by CalOptima to advise its Board of Directors on issues impacting Members.
Threshold Languages	Those languages identified based upon State requirements and/or findings of the Group Needs Assessment (GNA).
Whole Child Model	An organized delivery system that will ensure comprehensive, coordinated services through enhanced partnerships among Medi-Cal managed care plans, children's hospitals and specialty care providers.

Whole-Child Model Family Advisory Committee (WCM FAC) Member Application

Instructions: Please type or print clearly. This application is for current California Children's Services (CCS) members and their family members. Please attach a résumé or bio outlining your qualifications and include signed authorization forms. For questions, please call **1-714-246-8635**.

Name: _____ Primary Phone: _____

Address: _____ Secondary Phone: _____

City, State, ZIP: _____ Fax: _____

Date: _____ Email: _____

Please see the eligibility criteria below:*

Seven (7) to nine (9) seats shall be family representatives in one of the following categories. Please indicate:

- ☐ Authorized representatives, which includes parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
- ☐ CalOptima members age 18–21 who are current recipients of CCS services; or
- ☐ Current CalOptima members over the age of 21 who transitioned from CCS services

Four (4) seats will be appointed for a one-year term and five (5) seats will be appointed for a two-year term.

CalOptima Medi-Cal/CCS status (e.g., member, family member, foster parent, caregiver, etc.):

_____

If you are a family member/foster parent/caregiver, please tell us who the member is and what your relationship is to the member:

Member Name: _____ Relationship: _____

Please tell us whether you have been a CalOptima member (i.e., Medi-Cal) or have any consumer advocacy experience: _____

_____

_____

_____

Please explain why you would be a good representative for diverse cultural and/or special needs of children and/or the families of children in CCS. Include any relevant experience working with these populations: _____

_____

_____

Please provide a brief description of your knowledge or experience with California Children's Services:_____

_____

_____

Please explain why you wish to serve on the WCM FAC:_____

_____

_____

_____

Describe why you would be a qualified representative for service on the WCM FAC:_____

_____

_____

_____

Other than English, do you speak or read any of CalOptima's threshold languages for the Whole-Child Model (i.e. Spanish, Vietnamese, Korean, Farsi, Chinese or Arabic)? If so, which one(s)?

_____

If selected, are you able to commit to attending quarterly (at least) WCM FAC meetings, as well as serving on at least one subcommittee? ☐ Yes ☐ No

LIMITED PRIVACY WAIVER

Under state and federal law, the fact that a person is eligible for Medi-Cal and California Children's Services (CCS) is a private matter that may only be disclosed by CalOptima as necessary to administer the Medi-Cal and CCS program, unless other disclosures are authorized by the eligible member. Because the position of Member Representative on Whole Child Model Family Advisory Committee (WCM FAC) requires that the person appointed must be a member or a family member of a member receiving CCS, the member's Medi-Cal and CCS eligibility will be disclosed to the general public. The member or their representative (e.g. parent, foster parent, guardian, etc.) should check the appropriate box below and sign this waiver to allow his or her, or his or her family member or caregiver's name to be nominated for the advisory committee.

☐ **MEMBER APPLICANT — I understand that by signing below and applying to serve on the WCM FAC, I am disclosing my eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

☐ **FAMILY MEMBER APPLICANT — I understand that by applying to serve on the WCM FAC, my status as a family member of a person eligible for Medi-Cal and CCS benefits is likely to become public. I authorize the disclosing of my family member's (insert name of member: _____) eligibility for the Medi-Cal and CCS program, the fact of which is otherwise protected under state or federal law. I am not agreeing to disclose any other information protected by state or federal law.**

AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION (PHI)

The federal HIPAA Privacy Regulations requires that you complete this form to authorize CalOptima to use or disclose your Protected Health Information (PHI) to another person or organization. Please complete, sign, and return the form to CalOptima.

Date of Request: _____ Telephone Number: _____

Member Name: _____ Member CIN: _____

AUTHORIZATION:

I, _____, hereby authorize CalOptima, to use or disclose my health information as described below.

Describe the health information that will be used or disclosed under this authorization (please be specific): Information related to the identity, program administrative activities and/or services provided to {me} {my child} which is disclosed in response to my own disclosures and/or questions related to same.

Person or organization authorized to receive the health information: **General public**

Describe each purpose of the requested use or disclosure (please be specific): **To allow** CalOptima staff to respond to questions or issues raised by me that may require reference to my health information that is protected from disclosure by law during public meetings of **the CalOptima Whole-Child Model Family Advisory Committee**

EXPIRATION DATE:

This authorization shall become effective immediately and shall expire on: **The end of the term of the position applied for**

Right to Revoke: I understand that I have the right to revoke this authorization in writing at any time. To revoke this authorization, I understand that I must make my request in writing and clearly state that I am revoking this specific authorization. In addition, I must sign my request and then mail or deliver my request to:

CalOptima
Customer Service Department
505 City Parkway West
Orange, CA 92868

I understand that a revocation will not affect the ability of CalOptima or any health care provider to use or disclose the health information to the extent that it has acted in reliance on this authorization.

RESTRICTIONS:

I understand that anything that occurs in the context of a public meeting, including the meetings of the Whole Child Model Family Advisory Committee, is a matter of public record that is required to be disclosed upon request under the California Public Records Act. Information related to, or relevant to, information disclosed pursuant to this authorization that is not disclosed at the public meeting remains protected from disclosure under the Health Insurance Portability and Accountability Act (HIPAA), and will not be disclosed by CalOptima without separate authorization, unless disclosure is permitted by HIPAA without authorization, or is required by law.

MEMBER RIGHTS:

- I understand that I must receive a copy of this authorization.
- I understand that I may receive additional copies of the authorization.
- I understand that I may refuse to sign this authorization.
- I understand that I may withdraw this authorization at any time.
- I understand that neither treatment nor payment will be dependent upon my refusing or agreeing to sign this authorization.

ADDITIONAL COPIES:

Did you receive additional copies? ☐ Yes ☐ No

CalOptima Board Action Agenda Referral

Action To Be Taken June 4, 2009
Regular Meeting of the CalOptima Board of Directors

Report Item
VI. E. Approve Health Network Contract Rate Methodology

Contact
Michael Engelhard, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve the modification methodology of Health Network capitation rates for October 1, 2009.

Background
Health Network capitation is the payment method that CalOptima uses to reimburse PHCs and shared risk groups for the provision of health care services to members enrolled in CalOptima Medi-Cal and CalOptima Kids. In order to ensure that reimbursement to such capitated providers reflects up-to-date information, CalOptima periodically contracts with its actuarial consultants to recalculate or "rebase" these payment rates.

The purpose of this year's rebasing is to:

- Establish actuarially sound facility and professional capitation rates;
- Account for changes in CalOptima's delivery model;
- Incorporate changes in the Division of Financial Responsibility (DOFR); and
- Perform separate analyses for Medi-Cal and CalOptima Kids.

The overall methodology for this year's rebasing approach includes:

- CalOptima eligibility data;
- Encounter and CalOptima Direct (COD) claim data analysis
- Reimbursement analysis;
- PCP capitation analysis;
- Maternity "kick" payment analysis;
- State benefit carve-out analysis;
- Reinsurance analysis;
- Administrative load analysis;
- Budget neutrality established

Discussion
CalOptima uses capitation as one way to reimburse certain contracted health care providers for services rendered. A Capitation payment is made to the provider during the month and is based solely on the number of contracted members assigned to that provider

Back to Agenda Back to Item

at the beginning of each month. The provider is then responsible for utilizing those dollars in exchange for all services provided during that month or period.

To ensure that capitated payment rates reflect the current structure and responsibilities between CalOptima and its delegated providers, capitation rates need to be periodically reset or rebased.

CalOptima last performed a comprehensive rate rebasing in July 2007, for rates effective January 1, 2008, for CalOptima Medi-Cal only. Much has changed since that time including the establishment of shared risk groups; the movement of certain high-acuity members out of the Health Networks and into COD; changes in the DOFR between hospitals, physicians and CalOptima; shifts in member mix between the Health Networks; and changes in utilization of services by members.

Therefore, CalOptima opted to perform another comprehensive rebasing analysis prior to the FY2009-10 year in order to fully reflect the above-mentioned changes.

Fiscal Impact
CalOptima projects no fiscal impact as a result of the rebasing. Rebasing is designed to be budget neutral to overall CalOptima medical expenses even though there will likely be changes to specific capitation rates paid to Health Network providers.

Rationale for Recommendation
Staff recommends approval of this action to provide proper reimbursement levels to CalOptima's capitated health networks participating in CalOptima Medi-Cal and CalOptima Kids.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to Be Taken December 17, 2003
Special Meeting of the CalOptima Board of Directors

Report Item
VI. A. Approve Modifications to the CalOptima Health Network Capitation Methodology and Rate Allocations

Contact
Amy Park, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve modifications to the CalOptima health network capitation methodology and rate allocations between Physician and Hospital financial responsibilities effective March 2004.

Background
CalOptima pays its health networks (HMOs and PHCs) according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which these rates are based, was developed by Milliman USA utilizing pre-CalOptima Orange County fee-for-service (FFS) experience as the baseline. This model then took into account utilization targets that were actuarially-appropriate for major categories of services and competitive reimbursement levels to ensure sufficient funds to provide all medically necessary services under a managed care model.

Since development of the model in 1999, CalOptima has negotiated capitation rate increases from the State for managed care rate "pass throughs" as a result of provider rate increases implemented in the Medi-Cal FFS program. In turn, CalOptima passed on these additional revenues to the health networks by increasing capitation payments, establishing carve-outs (e.g., transplants), or offering additional financial support, such as funding for enhanced subspecialty coverage and improving reinsurance coverage.

It has now been over four years since CalOptima commissioned a complete review of the actuarial cost model. As noted, CalOptima has only adjusted the underlying pricing in the actuarial cost model over the years to pass on increases in capitation rates to the health networks.

In light of State fiscal challenges and impending potential Medi-Cal funding and benefit reductions, CalOptima must examine the actuarial soundness of the existing cost model and update the utilization assumptions to ensure that CalOptima's health network capitation rate methodology continues to allocate fiscal resources commensurate with the level of medical needs of the population served. This process will also provide

CalOptima with a renewed starting point from which to make informed decisions as we face yet another round of State budget uncertainties and declining resources.

Discussion

General Process. With the updated model, Milliman's rebasing process takes into account the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. Milliman examined the utilization statistics as indicated by the health network encounter data and evaluated the utilization for completeness by comparing against health network reported utilization and financial trends, health network primary care physician capitation and other capitation rates, health network hospital risk pool settlements, and other benchmarks as available. Further adjustments were made to account for changes in contractual requirements in the 2003-2005 health network contracts.

Utilization Assumptions. Consistent with changes in the State rate methodology, the updated health network capitation model combines the Family, Poverty and Child aid categories into a single Family aid category, with updated age/gender factors. The new model also recommends the creation of a supplemental capitation rate for members with end stage renal disease (ESRD). Furthermore, the actuarial model identifies actuarially-appropriate utilization targets for all major categories of services. These targets are set at levels that ensure that health networks have sufficient funds to provide all medically necessary services.

Pricing Assumptions. The new actuarial cost model includes reimbursement assumptions that are applied to the utilization targets to determine capitation rates. Effective October 2003, the State reduced CalOptima's capitation rates, effectively passing through the 5% cutback in physician and other provider rates as enacted in the 2003-04 State Budget Act. Notwithstanding this reduction, it is CalOptima's goal to maintain physician reimbursement levels to ensure members' continued access to care. Hence, CalOptima's health network minimum provider reimbursement policy and capitation funding will be maintained at its current levels. In other words, health networks will continue to be required to reimburse specialty physicians at rates that are no less than 150% of the Medi-Cal Fee Schedule and physician services in the actuarial model will continued to be priced at 147% of the August 1999 Medi-Cal Fee Schedule (as adjusted to primarily reflect market primary care physician capitation rates).

The actuarial cost model also provides sufficient funds to reimburse inpatient hospital reimbursement services at rates that are comparable to the average Southern California per diem rates and payment trends as published by California Medical Assistance Commission (CMAC) and to reimburse hospital outpatient services, commensurate with physician services, at 147% of the August 1999 Medi-Cal Fee Schedule.

In addition, the actuarial cost model provides sufficient funds for health network administrative expenses and an allowance for surplus. The table below summarizes the adjusted allocation of health network capitation rates to reflect the new actuarial cost model:

Aid Category	Proposed Hospital	Proposed Physician	Proposed Combined
Family/Poverty/Child	-4.6%	2.1%	-0.7%
Adult	-19.4%	-3.1%	-12.0%
Aged	18.9%	19.1%	19.0%
Disabled	10.9%	-4.4%	3.3%
Composite	1.7%	0.7%	1.2%

**Percentage changes are calculated from current capitation rates which have been adjusted to reflect the establishment of a separate ESRD supplemental capitation.*

Fiscal Impact

In summary, the proposed modifications will increase capitation payments made to physicians by 0.7%, while capitation payments to hospitals will increase by approximately 1.7%, for an overall weighted average increase in health network capitation rate payments of 1.2%, or $3.1 million on an annualized basis.

This additional increase will be funded by the Medi-Cal capitation rate increases received by CalOptima related to the State's settlement of the *Orthopaedic v. Belshe* lawsuit concerning Medi-Cal payment rates for hospital outpatient services.

As the Board will recall, the additional monies received by CalOptima related to this hospital outpatient settlement were passed through to hospitals in a lump-sum payment as approved by the Board in April 2003 for Fiscal 2001-02. That Board action also included approval for a second distribution scheduled for January 2004 to be made to hospitals for Fiscal 2002-03 related monies. Therefore, the proposed increases in hospital capitation rates contained in this action referral will facilitate the ongoing distributions of these dollars to CalOptima's participating hospitals. *See also related Board action referral to approve modifications to CalOptima Direct hospital reimbursement rates.*

Rationale for Recommendation

The proposed modifications to the rate methodology and related allocation of funds are consistent with the extensive, independent analysis performed by Milliman USA to update CalOptima's health network capitation methodology to reflect the 7+ years of health network managed care experience, rather than the historical pre-CalOptima Orange County FFS experience, as a base for capitation rates. The updated actuarial model also provides CalOptima with a renewed starting point from which to make informed

decisions as we face yet another round of State budget uncertainties and declining resources.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

17. Consider Authorizing an Amendment to the Contract with Pharmacy Benefit Manager, MedImpact Healthcare Systems, Inc. to Change the Effective Date Removing the Medi-Cal Line of Business

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Michelle Laughlin, Executive Director, Provider Network Operations, (657) 900-1116
Emily Fonda, M.D., Deputy Chief Medical Officer, (714) 246-8887

Recommended Action

Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to amend CalOptima's Pharmacy Benefits Manager (PBM) services agreement with MedImpact Healthcare Systems Inc. (MedImpact) to remove Medi-Cal PBM services under the contract effective on the date that the Department of Healthcare Services (DHCS) takes over Medi-Cal Managed Care pharmacy benefits, which is expected to be no earlier than April 1, 2021.

Background

As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of a network of contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services.

Previously, the DHCS announced that it would be "carving out" the pharmacy benefit for Medi-Cal beneficiaries from managed-care plans (MCPs) and moving it to a fee-for-service program administered at the state level effective January 1, 2021. "Medi-Cal Rx" is the name DHCS has given to this new system of how Medi-Cal pharmacy benefits will be administered through the fee-for-service delivery system. However, on November 16, 2020, DHCS informed MCPs that the implementation date for Medi-Cal Rx would be postponed until April 1, 2021. It is possible that DHCS will extend this implementation deadline in the future.

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's PBM effective January 1, 2016. The MedImpact agreement allowed for a three-year term with two additional one-year extension options. The initial three-year term expired on December 31, 2018. The first extension option was exercised by staff, and at the October 4, 2018 meeting, the CalOptima Board of Directors ratified this extension of the MedImpact agreement effective January 1, 2019 through December 31, 2019. Rather than exercising the second one-year extension option, the parties agreed to a two-year extension, and at the Board's August 1, 2019 meeting, it approved the two-year extension, effective January 1, 2020 through December 31, 2021.

At its October 1, 2020 meeting, the CalOptima Board of Directors authorized an amendment to the agreement with MedImpact to extend the contract for provision of services for the OneCare, OneCare

Back to Agenda

Connect and PACE lines of business through December 31, 2024 and to remove the Medi-Cal line of business effective January 1, 2021.

Discussion

Due to the postponement of Medi-Cal Rx, staff are recommending amending CalOptima's Pharmacy Benefits Manager (PBM) services agreement with MedImpact Healthcare Systems Inc. (MedImpact) to remove the Medi-Cal line of business no sooner than April 1, 2021, and to be updated as needed if additional postponements are announced by DHCS.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2020-21 Consolidated Operating Budget approved by the Board on June 4, 2020, included funding for PBM fees through the end of the fiscal year for the OneCare, OneCare Connect and PACE lines of business.

The FY 2020-21 Consolidated Operating Budget assumed the removal of the Medi-Cal line of business effective January 1, 2021. The fiscal impact to continue administering the pharmacy benefit for the three (3) month period of January through March 2021 results in an expected increase to pharmacy expenses of approximately $151,920,000 (currently unbudgeted), which is comprised of approximately $151 million in pharmacy reimbursement expenses and approximately $920,000 in PBM administrative expenses. Assuming DHCS continues to provide revenue similar to current levels, Staff anticipates such revenue will be sufficient to cover the expenses related to the extension period. In the event that DHCS further extends the Medi-Cal Rx implementation timeline, our working assumption is that it will continue to fund the program at similar levels. Staff will keep the Board apprised of any changes to these assumptions.

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for the Medi-Cal line of business through March 31, 2021, and to be revised as needed if additional postponements are announced by DHCS.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken May 7, 2015
Regular Meeting of the CalOptima Board of Directors

Report Item
VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

Concurrence

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 4, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

11. Consider Ratification of Extension of Contract with MedImpact Healthcare Systems, Inc., for Pharmacy Benefit Management Services

Contact

Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
Kristin Gericke, Director, Clinical Pharmacy Management, (714) 246-8400

Recommended Action

Ratify extension of CalOptima's current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for one year, effective January 1, 2019 through December 31, 2019.

Background/Discussion

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The authorization allowed for a three-year term with two additional one-year extension options. As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services. The initial three-year PBM Services Agreement with MedImpact expires December 31, 2018.

Per the terms of the contract, CalOptima is required to provide ninety-day prior written notice to MedImpact in order to exercise each extension option. Based on MedImpact's performance to date in working with CalOptima staff and fulfilling its obligations to Members, Staff has provided MedImpact with notice exercising the first one-year extension option, extending the agreement through December 31, 2019. Staff requests Board ratification of this extension. Staff is separately negotiating additional changes to the CalOptima-MedImpact agreement (e.g., related to the MegaReg), and will return to the Board with further recommendations on a contract amendment at a future meeting.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Consolidated Operating Budget approved by the Board on June 7, 2018, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to ratify extension of the contract through December 31, 2019 is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2019 through December 31, 2019, in the CalOptima FY 2019-20 Operating Budget.

Back to Agenda Back to Item

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional year.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to be Taken August 1, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
22. Consider Authorizing an Amendment to the Contract with Pharmacy Benefit Manager, MedImpact Healthcare Systems, Inc. to Extend the Contract

Contact
Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
David Ramirez, M.D., Chief Medical Officer, (714) 246-8400

Recommended Action
Authorize CalOptima's Chief Executive Officer (CEO), with the assistance of Legal Counsel, to execute an amendment to extend the current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for two years, effective January 1, 2020 through December 31, 2021.

Background
As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services.

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The MedImpact agreement allowed for a three-year term with two additional one-year extension options. The initial three-year PBM Services Agreement with MedImpact expired December 31, 2018. The first extension option was exercised by staff, and at the October 4, 2018 meeting, the CalOptima Board of Directors ratified this extension of the MedImpact agreement effective January 1, 2019 through December 31, 2019. A single one-year extension option remains, and the contract requires CalOptima to provide ninety-day prior written notice to MedImpact in order to exercise the option.

Discussion
A full replacement of the PBM system would take over a year to complete, including a Request for Proposal (RFP) process. It would also require a dedicated team from several departments within CalOptima at a time with multiple competing resource-intensive initiatives.

MedImpact has performed well in external regulatory audits. There were no pharmacy-related findings in the recent annual DHCS audit, as well as CMS Part D data validation audits. Furthermore, MedImpact contributes to the OneCare Part D star rating, which achieved 4.5 stars for 2019.

In addition, CalOptima's Audit & Oversight (A&O) Department conducts an annual audit on MedImpact. The purpose of the annual audit is to monitor and assure that CalOptima functions are being performed satisfactorily for Medi-Cal, OneCare and OneCare Connect lines of business. MedImpact is evaluated based upon CalOptima requirements, NCQA accreditation standards, DMHC,

CMS and DHCS regulatory requirements. The audit is comprised of two components, offsite and desk review. The offsite portion was performed as a desk review and the onsite portion took place at the MedImpact location. From the 2018 annual audit, MedImpact performed satisfactorily and is working cooperatively with A&O to remediate any deficiencies identified.

Staff have been satisfied with MedImpact's performance to date, and audit results are favorable. Based on these factors, Management is recommending that the Board authorize extension of the current contract with MedImpact for two years, through December 31, 2021. While this is one year beyond what was originally included, the recommended approach would allow sufficient time to complete an RFP process.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2019-20 Consolidated Operating Budget approved by the Board on June 6, 2019, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to extend the contract through December 31, 2021, is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2020, through December 31, 2021, in future operating budgets.

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional two years.

Concurrence

Gary Crockett, Chief Counsel

Regular Meeting of the CalOptima Board of Directors

Report Item
VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Back to Agenda Back to Item

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 4, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
11. Consider Ratification of Extension of Contract with MedImpact Healthcare Systems, Inc., for Pharmacy Benefit Management Services

Contact
Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
Kristin Gericke, Director, Clinical Pharmacy Management, (714) 246-8400

Recommended Action
Ratify extension of CalOptima's current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for one year, effective January 1, 2019 through December 31, 2019.

Background/Discussion
At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The authorization allowed for a three-year term with two additional one-year extension options. As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services. The initial three-year PBM Services Agreement with MedImpact expires December 31, 2018.

Per the terms of the contract, CalOptima is required to provide ninety-day prior written notice to MedImpact in order to exercise each extension option. Based on MedImpact's performance to date in working with CalOptima staff and fulfilling its obligations to Members, Staff has provided MedImpact with notice exercising the first one-year extension option, extending the agreement through December 31, 2019. Staff requests Board ratification of this extension. Staff is separately negotiating additional changes to the CalOptima-MedImpact agreement (e.g., related to the MegaReg), and will return to the Board with further recommendations on a contract amendment at a future meeting.

Fiscal Impact
The CalOptima Fiscal Year (FY) 2018-19 Consolidated Operating Budget approved by the Board on June 7, 2018, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to ratify extension of the contract through December 31, 2019 is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2019 through December 31, 2019, in the CalOptima FY 2019-20 Operating Budget.

Back to Agenda Back to Item

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional year.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken May 7, 2015
Regular Meeting of the CalOptima Board of Directors

Report Item
VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Back to Agenda Back to Item

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 6, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
10. Consider Ratification of Data Sharing Agreement with Magellan Medicaid Administration, Inc.

Contact
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Action
Ratify actions by the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to execute a data sharing agreement with Magellan Medicaid Administration, Inc. (Magellan) to effectuate the transfer of Medi-Cal Pharmacy Benefit data, including those related to the Whole Child Model, to the State of California.

Background
On January 7, 2019, Governor Gavin Newsom signed Executive Order N-01-19 that will transition management of Medi-Cal pharmacy benefits from the Medi-Cal Managed Care Plans (MCPs), including CalOptima, to a Fee-for-Service Pharmacy Benefits Manager (PBM) directly contracted with the State of California (State). The State selected Magellan as its PBM through a competitive Request for Proposal process, with the contract awarded in December 2019. The transition is part of an effort to mitigate high prescription drug costs. Upon implementation, the state managed program—called Medi-Cal Rx—is designed to simultaneously provide cost savings and increased access through a wider, state-wide pharmacy network, as well as to standardize pharmacy benefits for all Medi-Cal beneficiaries, including those receiving services through California Children's Services, which is referred to as the Whole Child Model in Orange County.

Medi-Cal Rx is slated to go into effect on January 1, 2021, with approximately 11 million Medi-Cal beneficiaries to be moved over to the new carve out benefit statewide. The transition impacts all MCPs across the state, with the exception of the Program of All-Inclusive Care for the Elderly (PACE). Under the new structure, the State will assume the majority of management activities related to pharmacy benefits administration. MCPs will be responsible for activities including, but not limited to:

- Overseeing and maintaining all activities necessary for enrolled Medi-Cal beneficiary care coordination and related activities, consistent with contractual obligations.
- Providing oversight and management of all the clinical aspects of pharmacy adherence, including providing disease and medication management.
- Processing and payment of all pharmacy services billed on medical and institutional claims.
- Participating in meetings related to the Medi-Cal Global Drug Utilization Review Board and other DHCS-driven pharmacy committee meetings.

Discussion
Staff requests that the Board ratify the execution of Magellan's Data Sharing Agreement ("Magellan Agreement") to facilitate a seamless and efficient PBM transition.

As of January 1, 2021, Medi-Cal Rx will take over the responsibility from MCPs for administering the following when billed by a pharmacy on a pharmacy claim: Covered Outpatient Drugs including Physician Administered Drugs, Medical Supplies, and Enteral Nutritional Products.

As part of the transition, which is currently in progress, DHCS is facilitating data transfer of pharmacy information between MCPs, including CalOptima, and Magellan, the State's new PBM. This data includes claims, prior authorization, and other necessary benefit utilization information. To obtain authorization for data transfer, Magellan distributed a Data Sharing Agreement to all MCPs on June 8, 2020, requiring signature by July 2, 2020. Based on confirmation from the DHCS that MCPs were required to sign the Magellan Agreement, CalOptima staff signed the document on July 2, 2020, accommodating Magellan's target effective date of July 15, 2020 when data sharing was set to begin.

To effectuate the transfer of pharmacy data as required by the Magellan Agreement, CalOptima was also required to sign a Data Authorization Request form with MedImpact, CalOptima's PBM, for CalOptima's members. Through this form, CalOptima consented to the release of CalOptima member pharmacy information to Magellan. For CalOptima members receiving care under CalOptima's full-service Kaiser HMO Health Network arrangement, pharmacy benefits are provided directly from Kaiser rather than through MedImpact. Therefore, Kaiser will separately provide members' pharmacy encounter and prescription data to Magellan. DHCS approved Kaiser's direct transfer of pharmacy encounter and prescription data to Magellan. Accordingly, CalOptima, approved Kaiser's request to share member pharmacy information directly with Magellan.

Fiscal Impact
The recommended action to ratify execution of the Magellan Agreement is budget neutral.

Rationale for Recommendation
Ratification of the Magellan Agreement and related implementing documents was approved by DHCS and is required in order for CalOptima to share pharmacy data with the Magellan, DHCS's selected pharmacy benefit manager.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 1, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

23. Consider Authorizing an Amendment to the Contract with Pharmacy Benefit Manager, MedImpact Healthcare Systems, Inc. to Extend the Contract and Remove the Medi-Cal Line of Business

Contacts

Emily Fonda, M.D., Deputy Chief Medical Officer, (714) 246-8400
Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend CalOptima's Pharmacy Benefits Manager (PBM) services agreement with MedImpact Healthcare Systems Inc. (MedImpact) to:

1. Remove the Medi-Cal (MC) line of business effective January 1, 2021; and

2. Extend the contract for provision of services for the OneCare, OneCare Connect and PACE lines of business through December 31, 2024.

Background

As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of a network of contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services.

Effective January 1, 2021, the Department of Health Care Service (DHCS) is "carving out" the pharmacy benefit for Medi-Cal beneficiaries from managed-care plans and moving it to a fee-for-service program administered at the state level. "Medi-Cal Rx" is the name DHCS has given to this new system of how Medi-Cal pharmacy benefits will be administered through the fee-for-service delivery system. Therefore, effective January 1, 2021, MedImpact services will include administering pharmacy benefits for CalOptima's OneCare, OneCare Connect and PACE programs only.

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's PBM effective January 1, 2016. The MedImpact agreement allowed for a three-year term with two additional one-year extension options. The initial three-year term expired on December 31, 2018. The first extension option was exercised by staff, and at the October 4, 2018 meeting, the CalOptima Board of Directors ratified this extension of the MedImpact agreement effective January 1, 2019 through December 31, 2019. Rather than exercising the second one year extension option, the parties agreed to a two year extension, and at the Board's August 1, 2019 meeting, it approved the two year extension, effective January 1, 2020 through December 31, 2021.

Back to Agenda Back to Item

Discussion

Because of the complexity of the process and range of services provided, management estimates that a full replacement of CalOptima's PBM system would take over one year to complete, including the RFP process. It would require a dedicated team from several departments within CalOptima at a time with multiple competing resource-intensive initiatives, and the process would need to begin by February 2021 at the latest. Furthermore, with the new Medi-Cal Rx program starting January 1, 2021, pursuing a PBM RFP with a potential PBM transition would cause significant disruptions for CalOptima providers.

MedImpact has performed well in external regulatory audits. There were no pharmacy-related findings in the recent annual DHCS audit, as well as CMS Part D data validation audits. Furthermore, MedImpact contributes to the OneCare Part D star rating, which achieved 4.0 stars for 2020.

In addition, CalOptima's Audit & Oversight (A&O) Department conducts annual audits of MedImpact. The purpose of the annual audits is to monitor PBM performance and ensure that CalOptima's pharmacy related obligations are being met satisfactorily for the Medi-Cal, OneCare and OneCare Connect lines of business. MedImpact is evaluated based upon CalOptima requirements, NCQA accreditation standards, DMHC, CMS and DHCS regulatory requirements. CalOptima's annual audits of the PBM are comprised of two components: offsite and onsite. The offsite portion is performed as a desk review and the onsite portion takes place at the MedImpact location. From the 2018 annual audit, MedImpact performed satisfactorily and is working cooperatively with A&O to remediate identified deficiencies.

Staff have been satisfied with MedImpact's performance to date, and audit results are favorable. Based on these factors, Management is recommending that the Board authorize extension of the current contract with MedImpact for three years, through December 31, 2024 for the lines of business where CalOptima is responsible for ensuring that members have access to pharmacy services. Staff also recommends, in conjunction with the transfer of Medi-Cal pharmacy benefit management services to the state, to amend the contract to remove the Medi-Cal line of business since this function is being carved out by the state effective January 1, 2021. Staff have worked with MedImpact to develop a transition plan to ensure administrative obligations are met for the Medi-Cal Rx program requirements.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2020-21 Consolidated Operating Budget approved by the Board on June 4, 2020 includes funding for pharmacy benefit management fees through the end of the fiscal year for the OneCare, OneCare Connect and PACE lines of business. The budget assumes the removal of the Medi-Cal line of business effective January 1, 2021. The recommended action to extend the MedImpact contract through December 31, 2024 is not expected to have any additional fiscal impact in the current fiscal year. Administrative fees paid to MedImpact for the OneCare, OneCare Connect and PACE lines of business will remain the same. Management plans to include funding for pharmacy benefit management fees for the remaining lines of business for the period of July 1, 2022, through December 31, 2024, in future operating budgets.

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional three years, for the period of July 1, 2022, through December 31, 2024 with the elimination of the Medi-Cal line of business based on the DHCS's decision to transition to the Medi-Cal Rx model administered at the state level.

VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 4, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

11. Consider Ratification of Extension of Contract with MedImpact Healthcare Systems, Inc., for Pharmacy Benefit Management Services

Contact

Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
Kristin Gericke, Director, Clinical Pharmacy Management, (714) 246-8400

Recommended Action

Ratify extension of CalOptima's current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for one year, effective January 1, 2019 through December 31, 2019.

Background/Discussion

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The authorization allowed for a three-year term with two additional one-year extension options. As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services. The initial three-year PBM Services Agreement with MedImpact expires December 31, 2018.

Per the terms of the contract, CalOptima is required to provide ninety-day prior written notice to MedImpact in order to exercise each extension option. Based on MedImpact's performance to date in working with CalOptima staff and fulfilling its obligations to Members, Staff has provided MedImpact with notice exercising the first one-year extension option, extending the agreement through December 31, 2019. Staff requests Board ratification of this extension. Staff is separately negotiating additional changes to the CalOptima-MedImpact agreement (e.g., related to the MegaReg), and will return to the Board with further recommendations on a contract amendment at a future meeting.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Consolidated Operating Budget approved by the Board on June 7, 2018, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to ratify extension of the contract through December 31, 2019 is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2019 through December 31, 2019, in the CalOptima FY 2019-20 Operating Budget.

Back to Agenda Back to Item

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional year.

VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action to be Taken August 1, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
22. Consider Authorizing an Amendment to the Contract with Pharmacy Benefit Manager, MedImpact Healthcare Systems, Inc. to Extend the Contract

Contact
Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
David Ramirez, M.D., Chief Medical Officer, (714) 246-8400

Recommended Action
Authorize CalOptima's Chief Executive Officer (CEO), with the assistance of Legal Counsel, to execute an amendment to extend the current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for two years, effective January 1, 2020 through December 31, 2021.

Background
As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services.

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The MedImpact agreement allowed for a three-year term with two additional one-year extension options. The initial three-year PBM Services Agreement with MedImpact expired December 31, 2018. The first extension option was exercised by staff, and at the October 4, 2018 meeting, the CalOptima Board of Directors ratified this extension of the MedImpact agreement effective January 1, 2019 through December 31, 2019. A single one-year extension option remains, and the contract requires CalOptima to provide ninety-day prior written notice to MedImpact in order to exercise the option.

Discussion
A full replacement of the PBM system would take over a year to complete, including a Request for Proposal (RFP) process. It would also require a dedicated team from several departments within CalOptima at a time with multiple competing resource-intensive initiatives.

MedImpact has performed well in external regulatory audits. There were no pharmacy-related findings in the recent annual DHCS audit, as well as CMS Part D data validation audits. Furthermore, MedImpact contributes to the OneCare Part D star rating, which achieved 4.5 stars for 2019.

In addition, CalOptima's Audit & Oversight (A&O) Department conducts an annual audit on MedImpact. The purpose of the annual audit is to monitor and assure that CalOptima functions are being performed satisfactorily for Medi-Cal, OneCare and OneCare Connect lines of business. MedImpact is evaluated based upon CalOptima requirements, NCQA accreditation standards, DMHC,

CMS and DHCS regulatory requirements. The audit is comprised of two components, offsite and desk review. The offsite portion was performed as a desk review and the onsite portion took place at the MedImpact location. From the 2018 annual audit, MedImpact performed satisfactorily and is working cooperatively with A&O to remediate any deficiencies identified.

Staff have been satisfied with MedImpact's performance to date, and audit results are favorable. Based on these factors, Management is recommending that the Board authorize extension of the current contract with MedImpact for two years, through December 31, 2021. While this is one year beyond what was originally included, the recommended approach would allow sufficient time to complete an RFP process.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2019-20 Consolidated Operating Budget approved by the Board on June 6, 2019, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to extend the contract through December 31, 2021, is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2020, through December 31, 2021, in future operating budgets.

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional two years.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 4, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

11. Consider Ratification of Extension of Contract with MedImpact Healthcare Systems, Inc., for Pharmacy Benefit Management Services

Contact

Michelle Laughlin, Executive Director, Provider Network Operations, (714) 246-8400
Kristin Gericke, Director, Clinical Pharmacy Management, (714) 246-8400

Recommended Action

Ratify extension of CalOptima's current Pharmacy Benefits Manager (PBM) Services Agreement with MedImpact Healthcare Systems Inc. (MedImpact) for one year, effective January 1, 2019 through December 31, 2019.

Background/Discussion

At its May 7, 2015 meeting, the CalOptima Board of Directors authorized an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016. The authorization allowed for a three-year term with two additional one-year extension options. As CalOptima's PBM, MedImpact provides certain administrative services, including maintenance of network contracted pharmacies, pharmacy claims administration, prescription drug management and utilization reports, credentialing and other services. The initial three-year PBM Services Agreement with MedImpact expires December 31, 2018.

Per the terms of the contract, CalOptima is required to provide ninety-day prior written notice to MedImpact in order to exercise each extension option. Based on MedImpact's performance to date in working with CalOptima staff and fulfilling its obligations to Members, Staff has provided MedImpact with notice exercising the first one-year extension option, extending the agreement through December 31, 2019. Staff requests Board ratification of this extension. Staff is separately negotiating additional changes to the CalOptima-MedImpact agreement (e.g., related to the MegaReg), and will return to the Board with further recommendations on a contract amendment at a future meeting.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Consolidated Operating Budget approved by the Board on June 7, 2018, includes funding for pharmacy benefit management fees through the end of the fiscal year. Assuming continuance of the terms of the current PBM contract, the recommended action to ratify extension of the contract through December 31, 2019 is not expected to have any additional fiscal impact in the current fiscal year. Management plans to include funding for the period of July 1, 2019 through December 31, 2019, in the CalOptima FY 2019-20 Operating Budget.

Back to Agenda Back to Item

Rationale for Recommendation

The proposed approach allows CalOptima to continue the current PBM Services Agreement for an additional year.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken May 7, 2015
Regular Meeting of the CalOptima Board of Directors

Report Item
VIII. A. Receive Pharmacy Benefits Manager (PBM) Ad Hoc Update; Consider Selection of PBM and Authorize Contract for PBM Services Effective January 1, 2016

Contact
Bill Jones, Chief Operating Officer, (714) 246-8400

Recommended Action
Authorize the Chief Executive Officer, with the assistance of legal counsel, to enter into an agreement with MedImpact to serve as CalOptima's Pharmacy Benefits Manager (PBM) effective January 1, 2016, for a three (3) year term with two additional one-year extension options, each exercisable at CalOptima's sole discretion.

Background
The current PBM contract for administrative services for CalOptima's pharmacy program has been in place since January 1, 2012. It was awarded to PerformRx through a competitive procurement process. The contract called for a four-year base term with two one year extension options. CalOptima has not exercised the extension options, and the agreement expires on December 31, 2015.

On December 4, 2014, the CalOptima Board of Directors authorized CalOptima staff to issue a Request for Proposal (RFP) for PBM services for the contract period commencing January 1, 2016. The Cal Optima Board of Directors also approved the criteria and weighting to be used in the evaluation and scoring of the RFPs. The approved criteria and weighting consisted of the following:

Criteria	Possible Score
Qualifications, Related Experience and References	135
Clinical Services	100
Provider Network Management	75
Member Services	40
Core Services	100
Information Processing System	125
Decision Support System	100
Financial Management	100
Waste, Abuse and Fraud Protection	45
Quality Assurance	125
Account Management	90
Medicare Part D	125
Implementation and Transition	65

Following CalOptima's standard RFP process, an RFP was issued and a total of ten responses were received.

Discussion

The responses to the RFP were reviewed by an evaluation team consisting of CalOptima's Director of Clinical Pharmacy Management, Pharmacy Managers, Finance representatives, Compliance representative, Customer Service Manager, Information Services representative, along with an independent consultant that was used to facilitate the RFP process. In addition to the criteria listed above, all vendors responded to a pricing/drug cost financial exercise and were asked to provide red line edits to the CalOptima base contract that was provided at the same time as the RFP.

Based on the evaluation teams scoring, the results for the technical components of the RFP were as follows:

Vendor	Score
MedImpact	1,137
CVS/Caremark	1,089
Catamaran	1,069
Magellan	1,063
Navitus	1,056
Argus	1,054
PerformRx	1,047
Envision	980
Script Care	961
Pinnacle	958

Based upon the weighted scores each vendor received, MedImpact finished with the highest score at 1,137 points out of a possible 1,225 for the mandatory technical components of the evaluation. CVS/Caremark finished second with a score of 1,089. For the pricing/drug cost financial exercise, CVS/Caremark finished first with the most aggressive pricing, with MedImpact finishing third.

As part of the final review, the evaluation team visited the headquarters of the two finalists to review multiple areas of the respective PBMs' operations.

At the Board's April 2, 2015 meeting, the Board Chair established an ad hoc of the Board to provide direction to staff and make recommendations to the full Board regarding next steps in the PBM selection process. Based on the input of the Board Ad Hoc and a review of the RFP responders' capabilities, references, contract requirements and administrative costs, staff is recommending that the Board authorize staff to CalOptima contract with MedImpact. However, in the event that agreement cannot be reached within 30 days of CalOptima providing a response to MedImpact's proposed contract changes, CalOptima will conduct a similar process with CVS/Caremark, and attempt to reach agreement on contract terms within a 30 day period. . If such an agreement is not reached within this time period, management will return to the Board with recommendation, potentially including requesting authorization to exercise a one year contract extension option with the current PBM.

Based on this process, staff recommends that the Board delegate authority to the CEO to enter into a three-year contract with MedImpact starting January 1, 2016, with two additional one-year extension

options, each exercisable at CalOptima's sole discretion. In the event that CalOptima cannot reach agreeable contract terms with MedImpact within 30 days as described, staff recommends that the Board authorize a similar process with alternate CVS/Caremark. If neither of these contracting efforts are successful within the respective 30 day periods, staff will return to the Board with further update and recommendations.

Fiscal Impact
The annual cost of the contract will be approximately $6 million. The proposals from both finalists are projected to result in overall savings to CalOptima between $1 and $1.5 million annually.

Rationale for Recommendation
CalOptima staff believes that the contracting with the selected PBM will meet the goal of continuing to ensure that pharmacy utilization on a prospective basis will promote access to quality health care services in a cost-effective manner. CalOptima staff reviewed qualified PBM responses and identified the candidates believed to best meet CalOptima's needs for controlling medication overutilization, regulatory compliance, technological advances, administrative simplification, as well as overall cost savings. Accordingly, staff recommends that the Board authorize the CEO to contract with a new PBM as a result of completion of the RFP process authorized by the Board in December 2014.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 6, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item
10. Consider Ratification of Data Sharing Agreement with Magellan Medicaid Administration, Inc.

Contact
Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Action
Ratify actions by the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to execute a data sharing agreement with Magellan Medicaid Administration, Inc. (Magellan) to effectuate the transfer of Medi-Cal Pharmacy Benefit data, including those related to the Whole Child Model, to the State of California.

Background
On January 7, 2019, Governor Gavin Newsom signed Executive Order N-01-19 that will transition management of Medi-Cal pharmacy benefits from the Medi-Cal Managed Care Plans (MCPs), including CalOptima, to a Fee-for-Service Pharmacy Benefits Manager (PBM) directly contracted with the State of California (State). The State selected Magellan as its PBM through a competitive Request for Proposal process, with the contract awarded in December 2019. The transition is part of an effort to mitigate high prescription drug costs. Upon implementation, the state managed program—called Medi-Cal Rx—is designed to simultaneously provide cost savings and increased access through a wider, state-wide pharmacy network, as well as to standardize pharmacy benefits for all Medi-Cal beneficiaries, including those receiving services through California Children's Services, which is referred to as the Whole Child Model in Orange County.

Medi-Cal Rx is slated to go into effect on January 1, 2021, with approximately 11 million Medi-Cal beneficiaries to be moved over to the new carve out benefit statewide. The transition impacts all MCPs across the state, with the exception of the Program of All-Inclusive Care for the Elderly (PACE). Under the new structure, the State will assume the majority of management activities related to pharmacy benefits administration. MCPs will be responsible for activities including, but not limited to:

- Overseeing and maintaining all activities necessary for enrolled Medi-Cal beneficiary care coordination and related activities, consistent with contractual obligations.
- Providing oversight and management of all the clinical aspects of pharmacy adherence, including providing disease and medication management.
- Processing and payment of all pharmacy services billed on medical and institutional claims.
- Participating in meetings related to the Medi-Cal Global Drug Utilization Review Board and other DHCS-driven pharmacy committee meetings.

Discussion
Staff requests that the Board ratify the execution of Magellan's Data Sharing Agreement ("Magellan Agreement") to facilitate a seamless and efficient PBM transition.

As of January 1, 2021, Medi-Cal Rx will take over the responsibility from MCPs for administering the following when billed by a pharmacy on a pharmacy claim: Covered Outpatient Drugs including Physician Administered Drugs, Medical Supplies, and Enteral Nutritional Products.

As part of the transition, which is currently in progress, DHCS is facilitating data transfer of pharmacy information between MCPs, including CalOptima, and Magellan, the State's new PBM. This data includes claims, prior authorization, and other necessary benefit utilization information. To obtain authorization for data transfer, Magellan distributed a Data Sharing Agreement to all MCPs on June 8, 2020, requiring signature by July 2, 2020. Based on confirmation from the DHCS that MCPs were required to sign the Magellan Agreement, CalOptima staff signed the document on July 2, 2020, accommodating Magellan's target effective date of July 15, 2020 when data sharing was set to begin.

To effectuate the transfer of pharmacy data as required by the Magellan Agreement, CalOptima was also required to sign a Data Authorization Request form with MedImpact, CalOptima's PBM, for CalOptima's members. Through this form, CalOptima consented to the release of CalOptima member pharmacy information to Magellan. For CalOptima members receiving care under CalOptima's full-service Kaiser HMO Health Network arrangement, pharmacy benefits are provided directly from Kaiser rather than through MedImpact. Therefore, Kaiser will separately provide members' pharmacy encounter and prescription data to Magellan. DHCS approved Kaiser's direct transfer of pharmacy encounter and prescription data to Magellan. Accordingly, CalOptima, approved Kaiser's request to share member pharmacy information directly with Magellan.

Fiscal Impact
The recommended action to ratify execution of the Magellan Agreement is budget neutral.

Rationale for Recommendation
Ratification of the Magellan Agreement and related implementing documents was approved by DHCS and is required in order for CalOptima to share pharmacy data with the Magellan, DHCS's selected pharmacy benefit manager.

Subject: Medi-Cal Rx Lengthens Transition Time to Full Implementation

Hello Medi-Cal Managed Care Plan (MCP) Partners,

Given the ongoing challenges and constantly evolving health care landscape associated with the unprecedented COVID-19 public health emergency (PHE), the Department of Health Care Services (DHCS), after careful consideration and in close partnership and collaboration with Magellan Medicaid Administration, Inc. (Magellan), has decided to lengthen the transition time for full implementation of Medi-Cal Rx by three (3) months. DHCS and Magellan will continue to dedicate their combined efforts towards Assumption of Operations (AOO) for Medi-Cal Rx on April 1, 2021. In the interim, all current processes and protocols, both effectuated by DHCS and our Medi-Cal managed care plans (MCPs), respectively, should remain unchanged and in place until Medi-Cal Rx launches.

While neither DHCS nor Magellan takes this decision lightly, we are confident that given the COVID-19 PHE, this decision is in the best interests of our Medi-Cal beneficiaries and providers. Lengthening the full implementation will help to ensure a smoother and more complete transition, as well as mitigate potential disruptions to beneficiaries in accessing their medication. Moving the launch of Medi-Cal Rx to April 1, 2021, will provide additional and valuable opportunities for Medi-Cal providers, beneficiaries, MCPs, and other interested parties to become better acclimated to, and familiar with new Medi-Cal Rx policies and processes, through both additional messaging from DHCS and Magellan, as well as additional, targeted stakeholder engagement and outreach efforts.

Please note that DHCS will be updating the Medi-Cal beneficiary notice templates that were planned for release to Medi-Cal fee-for-service beneficiaries on or about December 1, 2020, to include information about the shift in the AOO for Medi-Cal Rx to April 1, 2021. Since our MCP partners are also doing a corresponding 30-day notice to their respective members, DHCS requests that you do not release those notices until you have changed the AOO date to April 1, 2021. Along the same lines, DHCS requests that you modify any outreach campaign materials to also reflect this date change, inclusive of any new Member Identification Cards, Member Handbook/Evidence of Coverage (Errata) changes, etc. Since the shift from AOO on January 1, 2020 to April 1, 2020, is the

only change being made at this time, MCPs do not need to resubmit these materials to DHCS for review and re-approval.

DHCS appreciates your continued support and collaboration relative to this important project, and looks forward to the successful launch and AOO of Medi-Cal Rx on April 1, 2021. If you have any questions about this notification or how it may impact your individual MCP, please feel free to reach out to your DHCS Contract Manager, or direct specific inquiries to the Medi-Cal Rx Project Team at RxCarveOut@dhcs.ca.gov. Thank you.

Sincerely,

The Department of Health Care Services
Medi-Cal Rx Project Team

Continued to a Future Board Meeting

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Authorizing Amendments to the Medi-Cal Shared-Risk Physician Group, Physician Hospital Consortium, and Health Maintenance Organization Health Network Contracts, Except Kaiser Foundation Health Plan, Inc.

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Michelle Laughlin, Executive Director Network Operations, (657) 900-1116

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the Health Network contracts for Medi-Cal Shared-Risk Physician Group (SRG), Physician Hospital Consortium (PHC), and Health Maintenance Organization (HMO) Health Networks, except Kaiser Foundation Health Plan, Inc., to:

1. Revise Whole Child Model (WCM) capitation rates;
2. Extend funding and revise reimbursement rates for Health Homes Program (HHP); and
3. Incorporate language changes including operational requirements.

Background/Discussion

CalOptima is currently contracted with twelve (12) separate Medi-Cal (MC) SRG, PHC, and HMO health network capitated and delegated entities. MC health network contracts renew on an annual basis, pending Board approval, each June. As needed, amendments are required to remain compliant with regulatory directives as well as CalOptima's internal policies and procedures and other changes.

Whole Child Model capitation rates:
CalOptima has received the DHCS updated reimbursement calculations for the WCM Program and based on the State funding, CalOptima is in a position to increase the capitation to the Health Networks.

Extension and funding for the Health Homes Program:
DHCS has extended HHP. Due to Coronavirus, this program has not realized the projected membership, and as such DHCS has increased funding for 2021. The Amendment will extend the program and rates to the Health Networks.

Operational requirements:
The Amendment will incorporate language changes including operational requirements such as: (i) increasing the notice requirement from 120 days to 180 days for termination for convenience, which allows a more appropriate timeframe for transition of members and related activities, including operational system changes; (ii) updating the Division of Financial Responsibility (DOFR); and (iii) contract language revisions, as appropriate, to align all Health Network contracts, such as the removal of the Member Liaison Program requirements which has been superseded by the Personal Care Coordinator (PCC) Program, requiring policies and procedures addressing offshore subcontracts related to Protected Health Information (PHI) and annual offshore attestation rather than CalOptima's prior approval of such subcontracts, clarifying regulatory requirements, and addressing legacy language.

Back to Agenda

Fiscal Impact

The CalOptima Fiscal Year (FY) 2020-21 Operating Budget approved by the Board on June 4, 2020, incorporated MC Health Network capitation expenses of nearly $1.2 billion, including updated Hospital capitation rates and its associated impact to Shared Risk Pool funding.

The recommended action to revise the WCM base capitation rates results in an estimated increase of approximately 7.1% or $55.36 per member per month. The increase in capitation is due to changes in anticipated expenses for delegated services. The estimated annual impact is $7.2 million. Additional funding from DHCS is anticipated to be sufficient to cover the additional WCM expense.

The recommended action to extend funding and revise reimbursement for the HHP core services capitation rate results in an estimated increase of approximately 22% or $130 per enrolled member per month. Extending funding and revising reimbursement for the HHP engagement services rate results in an estimated increase of approximately 3% or $0.52 per engaged member per month. These increases were primarily driven by the change in member distribution between Serious Mental Illness (SMI) and Chronic Condition (CC), as well as an additional Coronavirus adjustment to account for slower member ramp up and higher average acuity than anticipated. The estimated annual impact is $1.2 million. Additional funding from DHCS is anticipated to be sufficient to cover the additional HHP expense.

The recommended action to amend the MC Health Network contracts to revise contract language is budget neutral. Contract language revisions as described above are operational in nature with no additional fiscal impact beyond what was incorporated in the CalOptima FY 2020-21 Operating Budget.

The proposed changes to clarify the DOFR are not anticipated to have a material impact to MC Health Network capitation or CalOptima financials.

Rationale for Recommendation

Authorization for execution of the Amendments will ensure MC Health Networks and their providers aligned with current operational procedures.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 3, 2020
Regular Meeting of the CalOptima Board of Directors

Report Item

19. Consider Approval of Modification to CalOptima Policy HH.2003: Health Network and Delegated Entity Reporting

Contacts

Ladan Khamseh, Chief Operating Officer, (714) 246-8866
Michelle Laughlin, Executive Director Network Operations (657) 900-1116

Recommended Actions

Approve modifications to CalOptima Policy HH.2003: Health Network and Delegated Entity Reporting [Medi-Cal, OneCare, OneCare Connect].

Background

CalOptima is obligated to comply with Department of Health Care Services (DHCS) contractual provisions and All Plan Letter (APL) guidance implementing federal Medicaid regulatory requirements for the submission of extensive data and reports (e.g. encounter data and Medical Loss Ratio (MLR) data). Management is required to attest to DHCS that the submitted data, information, and documentation is accurate, complete, and truthful, and CalOptima continues to experience increased regulatory scrutiny regarding delegation oversight of Subcontractors. All of CalOptima's contracted Health Networks are subject to CalOptima's Reporting Policy and have responsibilities as delegated entities that include complete, accurate, reasonable, and timely submissions to CalOptima.

Policy HH.2003 provides guidance on the submission and evaluation of more than 70 types of reports impacting all operational areas that Health Networks or Delegated Entities are required to submit to CalOptima. The policy, first made effective in 1998, impacts Medi-Cal, OneCare, and OneCare Connect, and is aligned with DHCS and Centers for Medicare & Medicaid (CMS) requirements. Policy HH.2003 requires that each Health Network or Delegated Entity submit these reports to CalOptima, as required by CalOptima and specified in its contract with CalOptima, the Timely and Appropriate Submission Grid (Report Grid), and/or CalOptima's policies and procedures.

Discussion

Proposed policy modifications include the addition of language detailing requirements surrounding the Report Binder, Report Grid and Report Grid Supplement attachments, and Attestation from Health Networks and Delegated Entities. The proposed language is intended to clearly delineate regulatory, contractual and policy citations underlying reports required from Health Networks and Delegated Entities.

The new policy attachments (i.e., the Report Grid and Report Grid Supplement) are intended to provide additional information and resources for staff, Health Networks and Delegated Entities in meeting the specified reporting requirements. The Report Grid is a matrix of the reports required by CalOptima, including report names, descriptions, operational ownerships, naming conventions, frequencies, submission methods and file formats. The Report Grid Supplement is a supplemental document to the Report Grid that includes detailed report descriptions, data elements and contractual, policy and

Back to Agenda

regulatory citations for all required reports. For Medi-Cal, the updated version of the Report Grid, including Report Grid Supplement, requires Health Networks to submit a completed and signed Data Certification Statement on the Health Network's letterhead that data, information, and documentation submitted to CalOptima monthly are accurate, complete, and truthful.

In line with the above, additional proposed modifications to the policy include new verbiage outlining contents of the Report Binder, in which CalOptima compiles and furnishes the updated Report Grid, Report Grid Supplement, Report Templates and Letter Templates for the Health Networks, and Delegated Entities. Also, staff proposed to add additional language to the Procedure section of Policy HH.2003, outlining the attestation process, whereby Health Networks and Delegated Entities are asked to complete and submit an attestation to CalOptima upon receipt of an updated Report Binder, Report Grid and/or Report Grid Supplement. This is required within five (5) business days, verifying receipt and implementation of the updated Report Binder.

Staff recommends that the Board approve the proposed updates to Policy HH.2003 in order to provide additional clarity and transparency regarding reports required from Heath Networks and Delegated Entities. The updated policy and its attachments are intended to help maintain accountability across CalOptima departments in requesting and updating reporting requirements for Health Networks and Delegated Entities. These updates will additionally serve as support for Health Networks and Delegated Entities in identifying applicable regulatory, statutory, and policy requirements.

Fiscal Impact
The recommended action to approve revisions to CalOptima Policy HH.2003 is operational in nature and has no additional fiscal impact beyond what was incorporated in the CalOptima Fiscal Year 2020–21 Operating Budget.

Rationale for Recommendation
Updates to the policy will add clarity on the policy verbiage, as well as regulatory, contractual and policy citations driving required reporting by Health Networks and Delegated Entities.

Concurrence
Gary Crockett, Chief Counsel

I. PURPOSE

This policy outlines the process for submission and evaluation of reports that a Health Network or Delegated Entity is required to submit to CalOptima.

II. POLICY

A. Each Health Network or Delegated Entity shall be responsible for submission of reports to CalOptima, as required by CalOptima or as specified in its contract, the Report Binder~~,~~ (including but not limited to, the Report Grid and the Report Grid Supplement), or CalOptima's policies and procedures.

B. The Report Grid and Report Grid Supplement are distributed to Health Networks and Delegated Entities in the Report Binder.

C. The Report Binder shall contain the following:

1. Report Grid;

2. Report Grid Supplement;

3. Report Templates; and

4. Letter Templates.

~~B.~~D. Each responsible CalOptima department shall be accountable for:

1. Identifying required reports;

   a. Reports must list all applicable regulatory, contractual, and policy citations and include all required data elements.

2. Creating and maintaining the Table of Authorities for each report;

Back to Agenda Back to Item

~~2.~~3. Creating templates and all applicable reporting ~~format and~~formats, instructions~~;~~, and technical guidelines;

~~3.~~4. Monitoring submission and timeliness of reports;

~~4.~~5. Notifying Health Networks and Delegated Entities of missing, incorrect, or late reports;

~~5.~~6. Notifying Health Network Relations of unsuccessful follow-up attempts; and

~~6.~~7. Escalating issues of continued noncompliance to the Office of Compliance.

~~C.~~E. CalOptima's Health Network Relations Department shall be responsible for:

1. Maintaining and updating the Report Binder, in consultation with CalOptima departments and the Office of Compliance;

2. Distributing the Report Binder to Health Networks and Delegated Entities ~~on an annual basis~~quarterly, or more frequently if needed; and

3. Contacting Health Networks and Delegated Entities if a CalOptima department is not successful with its follow-up attempts.

~~D.~~F. The Office of Compliance shall be responsible for taking appropriate corrective actions in response to reported issues of noncompliance, in accordance with CalOptima Policies HH.2005Δ: Corrective Action Plan and HH.2002Δ: Sanctions.

III. PROCEDURE

A. Identification of Reporting Requirements

1. Each responsible CalOptima department shall, ~~annually, or as necessary~~on an ongoing basis:

   a. Monitor regulatory, statutory, and/or contract requirements to determine impact on Health Network or Delegated Entity reporting requirements; and

   b. With the assistance of the Office of Compliance, review the Report Binder to:

      i. Update or correct existing reports;

      ii. Identify new reports~~;~~ and associated regulatory, contractual, and policy citations to support new reports;

      ~~iii. Eliminate duplicate or overlapping data requests;~~

      ~~iv.~~iii. Update or create Report Grid requirements, Report Templates, Table of Authorities, data dictionary, data elements, and/or instructions; and

      ~~v.~~iv. Notify the Health Network Relations Department of changes to the Report Binder.

B. Distribution of Report Binder

~~2.~~1. The Health Network Relations Department shall, ~~annually~~quarterly, and as necessary:

a. Distribute the Report Binder to departments to review Health Network or Delegated Entity reporting requirements~~, as described~~;

i. ~~Compile all~~CalOptima departments shall have ten (10) business days to review the Report Binder and submit changes or updates to the Health Network Relations Department.

b. Collect updates to Report Grid requirements, Report Templates, data dictionaries, ~~and/or~~ Tables of Authorities, Report Grid Supplement, and instructions to compile into the Report Binder, as submitted by departments; ~~and~~

c. Review department updates for completeness and eliminate duplicate or overlapping reports, with consultation from the responsible CalOptima department; and

~~c.~~d. Distribute the Report Binder to Health Networks and Delegated Entities on the first (1st) business day of each calendar quarter.

i. CalOptima's Health Network Relations Department shall provide Health Networks and Delegated Entities with an attestation to complete upon distribution of the updated Report Binder.

ii. Health Networks and Delegated Entities shall submit the signed attestation to the CalOptima Health Network Relations Department within five (5) business days, acknowledging receipt of the updated Report Binder.

~~B.~~C. Reporting Procedures

1. A Health Network or Delegated Entity shall submit reports in the time, manner, and file format specified by CalOptima or identified in its contract, the Report Binder~~,~~ (including, but not limited to, the Report Grid and~~/~~ the Report Grid Supplement), or CalOptima's policies and procedures.

2. If a Health Network or Delegated Entity report contains Protected Health Information (PHI), the Health Network or Delegated Entity shall submit the report to CalOptima via:

   a. CalOptima's secure FTP site; or

   b. Secure electronic mail, as specified by the specific report instructions.

3. Each responsible department shall:

   a. Monitor or audit, as applicable, a Health Network or Delegated Entity's submission of required reports and compliance with requirements of the Health Network contract, the Report Binder~~,~~ and CalOptima's policies and procedures;

   b. Make two (2) documented attempts to contact the Health Network or Delegated Entity to address missing, incorrect, or late submission;

   c. Notify Health Network Relations Department if a Health Network or Delegated Entity does not respond after two (2) follow-up attempts; and

   d. Report continued noncompliance to the Office of Compliance.

4. The Health Network Relations Department, upon receipt of notification from the responsible department of unsuccessful attempts to contact the Health Network or Delegated Entity, shall:

   a. Contact the Health Network or Delegated Entity to obtain the missing report(s) and, if necessary, escalate the issue to the Health Network's senior management; and

   b. Work with the department and Health Network or Delegated Entity to correct any content, formatting, or submission issues, if applicable.

5. The Office of Compliance, upon receipt of notification from the responsible department of a Health Network or Delegated Entity's continued noncompliance, shall take appropriate action in accordance with CalOptima Policies HH.2005Δ: Corrective Action Plan and HH.2002Δ: Sanctions.

IX. GLOSSARY

Term	Definition
Corrective Action Plan (CAP)	A plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers of Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), or designated representatives. FDRs and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.
Delegated Entity	For purposes of this policy, a delegated entity is contracted with CalOptima to provide dental, fitness/gym, behavioral health, or vision benefits to eligible CalOptima Members.
Health Network	For purposes of this policy, a Physician-Hospital Consortia (PHC), Physician Medical Group (PMG), or a Shared Risk Group (SRG) under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Letter Templates	For the purposes of this policy, regulatory letter templates issued by regulatory agencies to be used by Health Networks and Delegated Entities for member communications, as required by applicable contractual, policy, and regulatory requirements.
Report Template	A blank form of each report also including instructions and file layout and/or data dictionary.
Sanction	Action taken by CalOptima including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on a delegate's, subcontractor's, or any Capitated Network partner's failure to comply with statutory, regulatory, contractual, CalOptima policy, or other requirements related to the CalOptima programs.
Table of Authorities	For the purposes of this policy, a document that outlines all applicable regulatory, contractual, and policy citations that support the required reports outlined in the Report Grid.
Timely and Appropriate Submission Binder ("Report Binder")	A soft copy document that identifies all reports required of Health Networks to meet CalOptima's operational and regulatory compliance; contains the Report Grid and Report Templates, as well as a data certification statement.
Timely and Appropriate Submission Grid ("Report Grid")	A matrix of reports required by CalOptima, including report names, descriptions, responsible department, naming conventions, frequencies, submission methods and file formats., as set forth in Attachment A of this Policy.
Timely and Appropriate Submission Grid - Supplemental Attachment ("Report Grid Supplement")	A supplemental document to the Report Grid that includes detailed report descriptions, data elements and citations for all required reports, as set forth in Attachment B of this Policy.

I. PURPOSE

This policy outlines the process for submission and evaluation of reports that a Health Network or Delegated Entity is required to submit to CalOptima.

II. POLICY

A. Each Health Network or Delegated Entity shall be responsible for submission of reports to CalOptima, as required by CalOptima or as specified in its contract, the Report Binder (including but not limited to, the Report Grid and the Report Grid Supplement), or CalOptima's policies and procedures.

B. The Report Grid and Report Grid Supplement are distributed to Health Networks and Delegated Entities in the Report Binder.

C. The Report Binder shall contain the following:

1. Report Grid;
2. Report Grid Supplement;
3. Report Templates; and
4. Letter Templates.

D. Each responsible CalOptima department shall be accountable for:

1. Identifying required reports;
    a. Reports must list all applicable regulatory, contractual, and policy citations and include all required data elements.
2. Creating and maintaining the Table of Authorities for each report;
3. Creating templates and all applicable reporting formats, instructions, and technical guidelines;

Back to Agenda Back to Item

4. Monitoring submission and timeliness of reports;

5. Notifying Health Networks and Delegated Entities of missing, incorrect, or late reports;

6. Notifying Health Network Relations of unsuccessful follow-up attempts; and

7. Escalating issues of continued noncompliance to the Office of Compliance.

E. CalOptima's Health Network Relations Department shall be responsible for:

1. Maintaining and updating the Report Binder, in consultation with CalOptima departments and the Office of Compliance;

2. Distributing the Report Binder to Health Networks and Delegated Entities quarterly, or more frequently if needed; and

3. Contacting Health Networks and Delegated Entities if a CalOptima department is not successful with its follow-up attempts.

F. The Office of Compliance shall be responsible for taking appropriate corrective actions in response to reported issues of noncompliance, in accordance with CalOptima Policies HH.2005Δ: Corrective Action Plan and HH.2002Δ: Sanctions.

III. PROCEDURE

A. Identification of Reporting Requirements

1. Each responsible CalOptima department shall, on an ongoing basis:

a. Monitor regulatory, statutory, and/or contract requirements to determine impact on Health Network or Delegated Entity reporting requirements; and

b. With the assistance of the Office of Compliance, review the Report Binder to:

i. Update or correct existing reports;

ii. Identify new reports and associated regulatory, contractual, and policy citations to support new reports;

iii. Update or create Report Grid requirements, Report Templates, Table of Authorities, data dictionary, data elements, and/or instructions; and

iv. Notify the Health Network Relations Department of changes to the Report Binder.

B. Distribution of Report Binder

1. The Health Network Relations Department shall, quarterly, and as necessary:
a. Distribute the Report Binder to departments to review Health Network or Delegated Entity reporting requirements;

i. CalOptima departments shall have ten (10) business days to review the Report Binder and submit changes or updates to the Health Network Relations Department.

b. Collect updates to Report Grid requirements, Report Templates, data dictionaries, Tables of Authorities, Report Grid Supplement, and instructions to compile into the Report Binder, as submitted by departments;

c. Review department updates for completeness and eliminate duplicate or overlapping reports, with consultation from the responsible CalOptima department; and

d. Distribute the Report Binder to Health Networks and Delegated Entities on the first (1st) business day of each calendar quarter.

i. CalOptima's Health Network Relations Department shall provide Health Networks and Delegated Entities with an attestation to complete upon distribution of the updated Report Binder.

ii. Health Networks and Delegated Entities shall submit the signed attestation to the CalOptima Health Network Relations Department within five (5) business days, acknowledging receipt of the updated Report Binder.

C. Reporting Procedures

1. A Health Network or Delegated Entity shall submit reports in the time, manner, and file format specified by CalOptima or identified in its contract, the Report Binder (including, but not limited to, the Report Grid and the Report Grid Supplement), or CalOptima's policies and procedures.

2. If a Health Network or Delegated Entity report contains Protected Health Information (PHI), the Health Network or Delegated Entity shall submit the report to CalOptima via:

a. CalOptima's secure FTP site; or

b. Secure electronic mail, as specified by the specific report instructions.

3. Each responsible department shall:

a. Monitor or audit, as applicable, a Health Network or Delegated Entity's submission of required reports and compliance with requirements of the Health Network contract, the Report Binder and CalOptima's policies and procedures;

b. Make two (2) documented attempts to contact the Health Network or Delegated Entity to address missing, incorrect, or late submission;

c. Notify Health Network Relations Department if a Health Network or Delegated Entity does not respond after two (2) follow-up attempts; and

d. Report continued noncompliance to the Office of Compliance.

4. The Health Network Relations Department, upon receipt of notification from the responsible department of unsuccessful attempts to contact the Health Network or Delegated Entity, shall:

a. Contact the Health Network or Delegated Entity to obtain the missing report(s) and, if necessary, escalate the issue to the Health Network's senior management; and

b. Work with the department and Health Network or Delegated Entity to correct any content, formatting, or submission issues, if applicable.

5. The Office of Compliance, upon receipt of notification from the responsible department of a Health Network or Delegated Entity's continued noncompliance, shall take appropriate action in accordance with CalOptima Policies HH.2005Δ: Corrective Action Plan and HH.2002Δ: Sanctions.

IX. GLOSSARY

Term	Definition
Corrective Action Plan (CAP)	A plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers of Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), or designated representatives. FDRs and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.
Delegated Entity	For purposes of this policy, a delegated entity is contracted with CalOptima to provide dental, fitness/gym, behavioral health, or vision benefits to eligible CalOptima Members.
Health Network	For purposes of this policy, a Physician-Hospital Consortia (PHC), Physician Medical Group (PMG), or a Shared Risk Group (SRG) under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Letter Templates	For the purposes of this policy, regulatory letter templates issued by regulatory agencies to be used by Health Networks and Delegated Entities for member communications, as required by applicable contractual, policy, and regulatory requirements.
Report Template	A blank form of each report also including instructions and file layout and/or data dictionary.
Sanction	Action taken by CalOptima including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on a delegate's, subcontractor's, or any Capitated Network partner's failure to comply with statutory, regulatory, contractual, CalOptima policy, or other requirements related to the CalOptima programs.
Table of Authorities	For the purposes of this policy, a document that outlines all applicable regulatory, contractual, and policy citations that support the required reports outlined in the Report Grid.
Timely and Appropriate Submission Binder ("Report Binder")	A soft copy document that identifies all reports required of Health Networks to meet CalOptima's operational and regulatory compliance; contains the Report Grid and Report Templates, as well as a data certification statement.
Timely and Appropriate Submission Grid ("Report Grid")	A matrix of reports required by CalOptima, including report names, descriptions, responsible department, naming conventions, frequencies, submission methods and file formats, as set forth in Attachment A of this Policy.
Timely and Appropriate Submission Grid - Supplemental Attachment ("Report Grid Supplement")	A supplemental document to the Report Grid that includes detailed report descriptions, data elements and citations for all required reports, as set forth in Attachment B of this Policy.

Timely and Appropriate Submission Grid - Master
