Six Month Cash Sufficiency

Based upon a review of forecasted revenues and expenses, CalOptima Health has sufficient cash on-hand plus projected revenues to meet its operating requirements for the next six (6) months.

Investments Compared to Reserve Policy

In accordance with CalOptima Health Policy GA.3001: Statutory and Board-designated Reserve Funds that was revised effective June 2024, CalOptima Health shall maintain a minimum reserve level of two point five (2.5) months and a maximum of three (3.0) months in consolidated capitation revenues. The following provides a comparison of investments to the minimum and maximum level of Board-designated reserve funds as of March 31, 2025, demonstrating funds in excess to satisfy minimum requirements.

A) Board-designated Reserve Fund

At the end of March 2024, CalOptima Health's Board-designated reserve fund compliance level was 2.69 and the Statutory Designated Reserve Fund was 1.03.

Update on Fund Transfers

At the April 3, 2025, meeting, the Board approved a modification to Policy GA.3001: Statutory and Board-Designated Reserve Funds to increase reserve levels from 2.5 to 3.0 times the monthly consolidated revenue to 2.5 to 4.0 times the monthly consolidated revenue.

Staff worked with CalOptima Health's investment managers and completed a transfer of \$460 million from the Short-Term Operating accounts to the Board-designated Reserve Fund (Tier One) accounts in April 2025. After transfer, CalOptima Health's reserve level will increase from 2.6 times the monthly consolidated revenue in March 2025, to a reserve level of approximately 3.8 times.

Next Quarter's Cash Flow Forecast and Program Update

At the April 21, 2025, meeting, the Investment Advisory Committee (IAC) members and CalOptima Health's investment managers were updated on forthcoming changes that will affect revenues and expenses.

In the Governor's January Proposed Budget, the State reported on upcoming budget challenges from potential program changes, declining Medi-Cal enrollment, and rising costs and uncertainties related to the implementation of Proposition 35. Some federal policy changes that may also affect the Fiscal Year (FY) 2025-26 state budget include shifts in trade, immigration and healthcare.

Staff is preparing the FY 2025-26 Operating Budget and anticipates a break-even position. CalOptima Health plans to request startup funding for the newly approved Covered California program and will utilize reserves to support program implementation and capital projects. Initial projections for FY 2025-26 indicate stable cash flow, revenue and expenses. Staff will share additional details at future meetings.

Executive Summary

As of March 31, 2025

The value of CalOptima Health's assets was \$3.57 billion on March 31, 2025, compared to \$3.47 billion as of the end of the prior quarter. The Plan had net cash inflows of \$44.0 million during the quarter.

- The Total Plan's net of fees performance for the quarter was 1.337%. The Fixed Income portion (Tier One plus Tier Two) returned 1.675% during the quarter compared to 1.591% for the ICE BofA 1-3 US Treasuries Index. The Operating Account (Cash) returned 1.158% for the quarter net of fees compared to 1.023% for the 90-Day US Treasury Bill.
- The Total Plan's net of fees performance for the trailing year was 5.618%. The Fixed Income portion (Tier One plus Tier Two) returned 5.723% over the past year compared to 5.427% for the ICE BofA 1-3 US Treasuries Index. The Operating Account (Cash) returned 5.439% for the past year compared to 4.973% for the 90-Day US Treasury Bill.
- As of quarter-end, all underlying portfolios were in compliance with sector, issuer, and maturity limits found in the Annual Investment Policy ("AIP").

Q1 Economic and Market Highlights

- In the first quarter of 2025, investment flows rotated out of US stocks to non-US stocks while bond markets rallied on weaker growth and falling inflation.
- Most fixed income markets posted positive returns in the first quarter with the Yield curve remaining slightly steep due to expectations of falling inflation and lower policy rates. Broad US bond market (Bloomberg US Aggregate Bond Index) returned 2.8%, underperforming Treasuries. Treasury Inflation-Protected Securities (Bloomberg US TIPS) rose 4.2%.
- With increasing concerns about economic growth, markets anticipated three additional rate cuts this year in the US at quarter-end. However, the timing of these potential cuts remains unclear.
- The path of negotiations related to tariffs will be key going forward. The longer levels and uncertainty related to tariffs remain elevated the greater the risk to economic growth. Trade tensions between the US and China as well as their support for their own economy through stimulus measures and advances in AI technologies will remain a key focus.

Custom Peer Group

Custom Peer Group

- Given CalOptima Health's unique investment guidelines, traditional fixed income peer groups are not the best comparison tool for the Tier One and Tier Two pools.
- Meketa Investment Group surveyed the eVestment Alliance US Short Duration – Government/Credit Fixed Income universe to create custom peer universes for each of the Tier One and Tier Two pools in order to provide a more accurate performance comparison.
- For the analysis, the eVestment universe was pared down through the elimination of funds with exposure to securities with below "BBB"-rated credit. The combined eVestment universe was further defined that strategies must have an average quality of AA or higher.
 - Two unique buckets were then established based on each portfolio's use of a primary benchmark with "1-3" (years of maturity) in its name (Tier One peer group) or "1-5" in its name (Tier Two peer group).
 - The Tier One peer group consists of 38 strategies with a median effective duration of 1.83 years, while the Tier Two peer group consists of 13 strategies with a median effective duration of 2.57 years as of December 31, 2024.
- Please note that the analysis is as of December 31, 2024, as the universe of investment managers that had reported data as of March 31, 2025, was very small at the date that these materials were submitted.
- This analysis is based on a small peer universe that may change significantly over time, potentially resulting in large changes in peer rankings quarter-to-quarter.

Economic and Market Update

Data as of February 28, 2025

Commentary

After a positive start to 2025, stock and bond markets had mixed returns in February with investors largely rotating away from US equities.

- Domestic equity markets (Russell 3000) fell -1.9% in February, with value outperforming growth.
- Non-US developed market stocks (MSCI EAFE +1.9%) continued to outperform US markets, supported by rate cuts from the ECB, EU planned increases in defense spending, and a weakening US dollar.
- Emerging market equities returned +0.5% for the month, underperforming non-US developed markets given tariff risks from the US. However, Chinese stocks rose an impressive +11.8% in February on DeepSeek AI enthusiasm.
- The Federal Reserve held policy rates steady at the end of January as inflation remained above the target level and the labor market was relatively healthy.
- Most fixed income markets posted positive returns, with TIPS (+2.2%) and the US bond market (+2.2%) outperforming most other fixed income sectors.
- Looking ahead, uncertainty related to the Trump Administration's policies and their impact on the economy, inflation, and Fed policy will be key. The path of China's economy and concerns over elevated valuations and technology-driven concentration in the US equity market will also be important focuses of 2025.

Index Returns¹

- On a year-to-date basis most major markets remain in positive territory.
- In February, non-US equities outperformed US equities as markets re-priced their outlook for US stocks in 2025 while fixed income markets benefited from cooling inflation and economic growth.

US Equities: The Russell 3000 fell -1.9% in February, bringing the year-to-date return to +1.2%.

- After approaching record highs in early February, US stocks finished the month lower. Investors grew concerned over tariff policies, a potentially weakening consumer, and the sustainability of earnings growth from tech stocks.
- Consumer discretionary stocks (-6.4%) were hardest hit among sectors in February. Tesla was the largest detractor in the Russell 3000 index as the stock dropped ~27% during the month. Other “Magnificent 7” names were among the largest detractors, such as Alphabet (-16%), Amazon (-11%), and Microsoft (-4%).
- Value stocks outperformed growth stocks during February, continuing the trend from January. This dynamic was most pronounced in the large cap space, where the Russell 1000 Value index was 6.8% ahead of the Russell 1000 Growth index year to date. Small cap stocks declined more than large cap stocks for the month due to weakening growth expectations.

Russell 3000 Sector Returns¹

- Sector results were mixed in February with defensive sector consumer staples (+6.3%) leading the way and cyclical consumer discretionary stocks (-6.4%) suffering the largest decline. The drop in consumer discretionary stocks was largely driven by slowing European sales weighing on Tesla's share price.
- Technology stocks, a previous bright spot, declined in January and in February, with NVIDIA, Broadcom, Microsoft, and Apple driving results.
- Industrial stocks declined in February amid concerns regarding the sustainability of economic growth, but remain positive for the year so far.

- Developed markets saw modest gains in February, due in part to a weaker USD, outperforming US peers. Eurozone equities were the top performer among developed markets, boosted by continued strength in European financials, a growing focus on defense spending, and the prospect of a ceasefire in Ukraine. The UK followed shortly behind, with a similar story of large banks, defense, and health care driving returns. Japanese stocks fell, with sentiment driven by namely uncertainty surrounding US trade policies.
- Emerging markets rose slightly in February, with gains driven by China, the top performer globally. China continues to benefit from excitement around DeepSeek, stimulus efforts, and the prospect of a more favorable regulatory environment following meetings between Xi Jinping and major business leaders. South Korea saw slight negative returns following a downgraded GDP growth forecast. Indian equities fell by over 7% amid continued signs of a growth slowdown and stretched valuations.

- US Treasury yields declined significantly over the month, as investors expressed concern about the potential policies of the new US administration, economic data related to consumers weakened, and overall growth expectations fell.
- The more policy sensitive 2-year Treasury yield fell from 4.20% to 3.99%, while the 10-year Treasury yield declined from 4.54% to 4.24%.
- After the Fed started reducing interest rates in September 2024, the yield curve stopped being inverted (short-term interest rates higher than long-term interest rates) given expectations for inflation to continue to decline and policy rates to continue lower.

Stress is Building on US Consumers

Total Balance by Delinquency Status¹

Transition into Serious Delinquency for Credit Cards by Age²

- Some signs of stress on the US consumer have started to emerge given persistently higher prices and interest rates.
- After falling to historic lows during the pandemic, loan delinquencies recently started rising.
- While some segments of the credit market have started to show signs of stress, total delinquencies remain well below pre-pandemic levels.
- While total delinquency rates are below pre-pandemic rates, the credit card segment is showing more signs of distress where borrowers are subject to variable and higher borrowing costs.
- Credit card delinquencies are rising rapidly, especially for borrowers under the age of 40.

Credit Spreads vs. US Treasury Bonds¹

- Spreads (the yield above a comparable maturity Treasury) widened slightly in February for riskier bonds and were stable for investment grade issues.
- All yield spreads remained below their respective long-run averages, particularly high yield (2.8% versus 4.9%).
- Although spreads are tight, absolute yields remain at above-average levels compared to the last two decades.

Equity and Fixed Income Volatility¹

- Bond and equity volatility rose in February mainly driven by policy and trade uncertainty.
- Volatility levels (VIX) in the US stock market finished February below its long-run average, while volatility in the bond market (MOVE) finished the month above its long-run average.

The average line indicated is the average of the VIX and MOVE values between January 2000 and February 2025.

US Ten-Year Breakeven Inflation and CPI¹

- In February, inflation came in slightly below expectations, month-over-month (0.2% versus 0.3%) and fell compared to the January level of 0.5%; headline inflation rose 2.8% over the past twelve months, also a decline from the prior reading and below expectations of 2.9%.
- Shelter continued to drive both headline and core inflation in February, with the shelter index rising 0.3% month-over-month and accounting for nearly half of the headline inflation for the month.
- Core inflation rose 0.2% month-over-month in February and increased 3.1% year-on-year (both below expectations and below the January readings). Owners' equivalent rent rose 4.2% over the last 12 months, while vehicle insurance (11.1%), medical care (2.9%), and education (3.7%) also contributed to core inflation.
- Inflation expectations (breakevens) fell slightly over the month as concerns related to the potential inflationary impacts of the new US administration's policies shifted to concerns over economic growth.

¹ Source: FRED. Data is as of February 2025. The CPI and 10 Year Breakeven average lines denote the average values from February 1997 to the present month-end, respectively. Breakeven values represent month-end values for comparative purposes.

Global Inflation (CPI Trailing Twelve Months)¹

- After four monthly increases, inflation in the eurozone declined slightly (2.5% to 2.4%) in February, but levels remain below the US. The increase from the lows was driven by last year's significant fall in energy prices no longer being included in the calculation.
- The latest reading of inflation in Japan rose from 3.6% to 4.0% due in part to an increase in food prices and the end of energy subsidies driving electricity and gas prices higher.
- In China, despite record policy stimulus consumer prices fell in February by 0.7% (exceeding the expectations of a 0.5% decline). Despite years of policy stimulus to counter the real estate crisis, the Chinese consumer has remained weak; contributing to the first negative inflation print since January 2024.

¹ Source: Bloomberg. Data is as February 2025, except Japan which is as of January 2025.

- The US economy added 151,000 jobs in February below expectations for 160,000 new jobs with the unemployment rate rising slightly from 4.0% to 4.1%, with 7.1 million jobseekers looking for work (little changed from the prior reading).
- A broader measure of total unemployed (U-6) that includes those marginally attached to the labor force and employed part-time for economic reasons, rose slightly to 8.0%, the highest level since late 2021.
- Health care, financial activities, transport/warehouse, and social assistance sectors added jobs in February while the Federal government lost 10,000 jobs in the month.
- The last reading of job openings came in at around 7.7 million, a level well below the pandemic highs (>12 million); the number of openings exceeds the number of unemployed workers looking for work (7.1 million).
- Separations (5.3 million) and hires (5.4 million) remained steady and average hourly wages continued to grow at approximately 4.0% a year.

Policy Rates¹

- The Fed kept US interest rates steady at their January meeting after reducing rates by 0.25% twice over the final quarter of 2024 to a range of 4.25% to 4.50%. Given growing concerns about growth, markets recently increased expectations for the amount of rate cuts in 2025 to between two and three.
- In February, the Bank of England cut interest rates for the third time by 0.25% to 4.5%, and after month-end the European Central Bank cut rates by another 0.25% to 2.5%. The People's Bank of China also continues to maintain measures to try to stimulate the economy with increasing debt issuance and defending the yuan.
- In contrast to many other central banks, the Bank of Japan increased interest rates in January to 0.5%, in the face of persistent inflation. Rate cutting by other major central banks are complicating prospects for further policy rate hikes in Japan.

Japan rate is the Bank of Japan Unsecured Overnight Call Rate Expected. China rate is the China Central Bank 1-Year Medium Term Interest Rate. UK rate is the UK Bank of England Official Bank Rate.

- After largely strengthening through 2024 the US dollar recently started to weaken.
- Concerns over slower growth in the US and corresponding lower yields have recently weighed on the value of the dollar.

Summary

Key Trends:

- According to the International Monetary Fund's (IMF) January report, global growth in 2025 is expected to be slightly higher than 2024 (3.3% versus 3.2%). Growth forecast in the US (+2.7%) and China (+4.6%) are lower for this year compared to last, while growth in the EU (+1.0%) is projected to be slightly higher in 2025.
- Questions remain about what policies will be implemented by the new administration in the US, with particularly concerns about tariffs' potential impact on growth. Although deregulation and tax cuts could support growth, these policies, along with higher tariffs and restrictive immigration, could fan inflation. This will likely lead to additional uncertainty regarding the timing and pace of interest rate cuts in the coming year.
- Signs of pressure have started to emerge on the US consumer with sentiment weakening. Overall risk to economic growth and to inflation from tariffs, as well as elevated borrowing costs, could put further pressure on consumers and lead to a weaker job market.
- US equities have recently come under pressure. A focus going forward will be whether earnings can remain resilient if growth slows. Also, the future paths of the large technology companies that have driven market gains will continue to be important.
- We have started to see divergence in monetary policies. The Fed is likely to cut interest rates at a much slower pace than previously expected in 2025. On the other hand, additional rate cuts are expected from the European Central Bank and the Bank of England, while the Bank of Japan has increased interest rates. This disparity will likely influence capital flows and currencies.
- China appears to have shifted focus to more policy support for the economy/asset prices with a suite of fiscal and financial policy stimulus measures. Advances in AI technologies have also contributed to optimism. Despite the policy support consumer spending remains weak and issues remain in the real estate sector. It is not clear what the long-term economic impact of these policies will be, and if policy makers will remain committed to these efforts.

PERFORMANCE DATA CONTAINED HEREIN REPRESENT PAST PERFORMANCE. PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS.

Credit Risk: Refers to the risk that the issuer of a fixed income security may default (i.e., the issuer will be unable to make timely principal and/or interest payments on the security).

Duration: Measure of the sensitivity of the price of a bond to a change in its yield to maturity. Duration summarizes, in a single number, the characteristics that cause bond prices to change in response to a change in interest rates. For example, the price of a bond with a duration of three years will rise by approximately 3% for each 1% decrease in its yield to maturity. Conversely, the price will decrease 3% for each 1% increase in the bond's yield. Price changes for two different bonds can be compared using duration. A bond with a duration of six years will exhibit twice the percentage price change of a bond with a three-year duration. The actual calculation of a bond's duration is somewhat complicated, but the idea behind the calculation is straightforward. The first step is to measure the time interval until receipt for each cash flow (coupon and principal payments) from a bond. The second step is to compute a weighted average of these time intervals. Each time interval is measured by the present value of that cash flow. This weighted average is the duration of the bond measured in years.

Information Ratio: This statistic is a measure of the consistency of a portfolio's performance relative to a benchmark. It is calculated by subtracting the benchmark return from the portfolio return (excess return), and dividing the resulting excess return by the standard deviation (volatility) of this excess return. A positive information ratio indicates outperformance versus the benchmark, and the higher the information ratio, the more consistent the outperformance.

Jensen's Alpha: A measure of the average return of a portfolio or investment in excess of what is predicted by its beta or "market" risk. Portfolio Return- [Risk Free Rate+Beta*(market return-Risk Free Rate)].

Market Capitalization: For a firm, market capitalization is the total market value of outstanding common stock. For a portfolio, market capitalization is the sum of the capitalization of each company weighted by the ratio of holdings in that company to total portfolio holdings; thus it is a weighted-average capitalization. Meketa Investment Group considers the largest 65% of the broad domestic equity market as large capitalization, the next 25% of the market as medium capitalization, and the smallest 10% of stocks as small capitalization.

Market Weighted: Stocks in many indices are weighted based on the total market capitalization of the issue. Thus, the individual returns of higher market-capitalization issues will more heavily influence an index's return than the returns of the smaller market-capitalization issues in the index.

Maturity: The date on which a loan, bond, mortgage, or other debt/security becomes due and is to be paid off.

Prepayment Risk: The risk that prepayments will increase (homeowners will prepay all or part of their mortgage) when mortgage interest rates decline; hence, investors' monies will be returned to them in a lower interest rate environment. Also, the risk that prepayments will slow down when mortgage interest rates rise; hence, investors will not have as much money as previously anticipated in a higher interest rate environment. A prepayment is any payment in excess of the scheduled mortgage payment.

Price-Book Value (P/B) Ratio: The current market price of a stock divided by its book value per share. Meketa Investment Group calculates P/B as the current price divided by Compustat's quarterly common equity. Common equity includes common stock, capital surplus, retained earnings, and treasury stock adjusted for both common and nonredeemable preferred stock. Similar to high P/E stocks, stocks with high P/B's tend to be riskier investments.

Price-Earnings (P/E) Ratio: A stock's market price divided by its current or estimated future earnings. Lower P/E ratios often characterize stocks in low growth or mature industries, stocks in groups that have fallen out of favor, or stocks of established blue chip companies with long records of stable earnings and regular dividends. Sometimes a company that has good fundamentals may be viewed unfavorably by the market if it is an industry that is temporarily out of favor. Or a business may have experienced financial problems causing investors to be skeptical about its future. Either of these situations would result in lower relative P/E ratios. Some stocks exhibit above-average sales and earnings growth or expectations for above average growth. Consequently, investors are willing to pay more for these companies' earnings, which results in elevated P/E ratios. In other words, investors will pay more for shares of companies whose profits, in their opinion, are expected to increase faster than average. Because future events are in no way assured, high P/E stocks tend to be riskier and more volatile investments. Meketa Investment Group calculates P/E as the current price divided by the I/B/E/S consensus of twelve-month forecast earnings per share.

Quality Rating: The rank assigned a security by such rating services as Fitch, Moody's, and Standard & Poor's. The rating may be determined by such factors as (1) the likelihood of fulfillment of dividend, income, and principal payment of obligations; (2) the nature and provisions of the issue; and (3) the security's relative position in the event of liquidation of the company. Bonds assigned the top four grades (AAA, AA, A, BBB) are considered investment grade because they are eligible bank investments as determined by the controller of the currency.

Sharpe Ratio: A commonly used measure of risk-adjusted return. It is calculated by subtracting the risk free return (usually three-month Treasury bill) from the portfolio return and dividing the resulting excess return by the portfolio's total risk level (standard deviation). The result is a measure of return per unit of total risk taken. The higher the Sharpe ratio, the better the fund's historical risk adjusted performance.

STIF Account: Short-term investment fund at a custodian bank that invests in cash-equivalent instruments. It is generally used to safely invest the excess cash held by portfolio managers.

Standard Deviation: A measure of the total risk of an asset or a portfolio. Standard deviation measures the dispersion of a set of numbers around a central point (e.g., the average return). If the standard deviation is small, the distribution is concentrated within a narrow range of values. For a normal distribution, about two thirds of the observations will fall within one standard deviation of the mean, and 95% of the observations will fall within two standard deviations of the mean.

Style: The description of the type of approach and strategy utilized by an investment manager to manage funds. For example, the style for equities is determined by portfolio characteristics such as price-to-book value, price-to-earnings ratio, and dividend yield. Equity styles include growth, value, and core.

Tracking Error: A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark, as defined by the difference in standard deviation.

Yield to Maturity: The yield, or return, provided by a bond to its maturity date; determined by a mathematical process, usually requiring the use of a “basis book.” For example, a 5% bond pays \$5 a year interest on each \$100 par value. To figure its current yield, divide \$5 by \$95—the market price of the bond—and you get 5.26%. Assume that the same bond is due to mature in five years. On the maturity date, the issuer is pledged to pay \$100 for the bond that can be bought now for \$95. In other words, the bond is selling at a discount of 5% below par value. To figure yield to maturity, a simple and approximate method is to divide 5% by the five years to maturity, which equals 1% pro rata yearly. Add that 1% to the 5.26% current yield, and the yield to maturity is roughly 6.26%.

$$\frac{5\% \text{ (discount)}}{5 \text{ (yrs. to maturity)}} = 1\% \text{ pro rata, plus } 5.26\% \text{ (current yield)} = 6.26\% \text{ (yield to maturity)}$$

Yield to Worst: The lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions, including prepayment, call, or sinking fund, are used by the issuer.

NCREIF Property Index (NPI): Measures unleveraged investment performance of a very large pool of individual commercial real estate properties acquired in the private market by tax-exempt institutional investors for investment purposes only. The NPI index is capitalization-weighted for a quarterly time series composite total rate of return.

NCREIF Fund Index - Open End Diversified Core Equity (NFI-ODCE): Measures the investment performance of 28 open-end commingled funds pursuing a core investment strategy that reflects funds' leverage and cash positions. The NFI-ODCE index is equal-weighted and is reported gross and net of fees for a quarterly time series composite total rate of return.

MANAGEMENT REPORTS

1. Chief Financial Officer Report

Nancy Huang, Chief Financial Officer, provided updates regarding the Department of Health Care Services (DHCS) Calendar Year (CY) 2024 final rates and CY 2025 Medi-Cal draft rates. Upon analysis, staff found that the rates partially addressed CalOptima Health’s concerns, thereby decreasing the gap between its cost and utilization data submission and the rates provided by the State.

Staff received CY 2024 final rates from DHCS. The State reversed planned rate reductions for Targeted Provider Rate Increases (TRI) Phase I implementation and member acuity adjustments. After comparing the final rates to the revised rates released in September 2024, staff included a year-to-date true-up of \$39 million in the unaudited financials for December 2024.

Furthermore, the CY 2025 draft rates included updates to trend assumptions, CalAIM Community Support Services, and other program changes from the previous version released in October 2024. Ms. Huang noted that the net result shows a favorable impact on revenues compared to the Board-approved Fiscal Year 2024-25 Operating Budget. Of note, one area that will directly impact CY 2025 rates is the implementation of Proposition 35 regarding the Managed Care Organization (MCO) tax. Ms. Huang added that the State

will release a plan on the use of MCO tax revenues in the coming months. Staff will continue to monitor this area and provide additional information as it becomes available.

Ms. Huang provided an update on DHCS submissions, including the CY 2023 DHCS Special Terms and Conditions Medical Loss Ratio (MLR) submission. She noted that staff worked with CalOptima Health's contracted vendor, Provencio, and each of the health networks to complete their MLR templates and submitted the consolidated MLR template and attestation to DHCS on January 15, 2025. In addition, in mid-December, CalOptima Health staff completed its final review of CY 2024 TRI submissions from health networks, attesting to the timely and appropriate distributions of TRI payments to the health networks' sub-capitated providers. Ms. Huang added that CalOptima Health submitted its TRI attestation to DHCS on December 30, 2024.

Lastly, Ms. Huang noted that at the May 5, 2024, meeting, the CalOptima Health Board modified the Board-designated reserve levels from 2.5 to 3.0 months of consolidated monthly revenue and created a separate reserve fund to ensure compliance with its tangible net equity requirements. She added that in light of CalOptima Health's future operational needs and revenue forecasts, staff transferred \$50 million from its short-term operating fund to the Board-designated reserve fund in January 2025, increasing the reserve level to 2.8 months of consolidated monthly revenue.

Michael Hunn, Chief Executive Officer, and Ms. Huang responded to committee members' comments and questions.

Director Contratto commented on the great work that staff does regarding CalOptima Health's finances and directed staff to add additional details to show, at a glance, the other ins and outs in the financials, including the Intergovernmental Transfers (IGT) dollars, of which, CalOptima Health only receives 2%.

2. Cybersecurity Update

James Steele, Senior Director, Information Security, presented an update on CalOptima Health's cybersecurity. He noted that CalOptima Health has experienced zero major cybersecurity incidents in the past three months. However, Mr. Steele reported that CalOptima Health has experienced one notable third-party cybersecurity incident in the fourth quarter of CY 2024, PIH Whittier Hospital data breach. He noted that PIH Whittier Hospital data breach did not impact CalOptima Health's systems or data.

Mr. Steele also reviewed two recent cybersecurity news articles. The articles, "*Black Kite Research Finds Certain Ransomware Groups Disproportionately Target Healthcare Organizations*" in the Global News Wire, and "*84% of Healthcare Organizations Detected a Cyberattack in the Past 12 Months*" in the HIPAA Journal. Mr. Steele added that the fallout from the Change Healthcare breach has fundamentally altered how ransomware groups operate, making healthcare organizations prime targets.

Mr. Steele reviewed CalOptima Health's cybersecurity metrics for the fourth quarter of CY 2024 as well as the 2025 security risk assessments that are underway or upcoming. He also reviewed changes with regard to California Assembly Bill 3030 (AB 3030), related to Health Care Services and the use of artificial intelligence (AI), effective January 1, 2025. Mr. Steele noted that all health facilities, clinics, and physician practices in California must disclose to patients when generative AI is used to generate written or verbal communications related to patient clinical information. The goal of AB 3030 is to enhance transparency in health care communications, ensuring patients are aware when AI technologies are utilized in their care. Mr. Steele clarified that AB 3030 applies to communications containing patient clinical information,

defined as information related to a patient's health status and excludes administrative matters, such as appointment scheduling or billing. Mr. Steele added that if AI-generated communication is reviewed and approved by a licensed or certified human healthcare provider, the disclaimer requirement does not apply.

Mr. Steele responded to committee members' questions and comments.

INVESTMENT ADVISORY COMMITTEE UPDATE

3. Treasurer's Report

Ms. Huang presented the Treasurer's Report for the period of October 1, 2024, through December 31, 2024. The portfolio totaled approximately \$3.5 billion as of December 31, 2024. Of this amount, \$2.3 billion was in CalOptima Health's operating account. Additionally, at the end of December 2024, CalOptima Health's Board-designated reserve fund compliance level was 2.64 and the Statutory Designated Reserve Fund was 1.04. Meketa Investment Group Inc. (Meketa), CalOptima Health's investment advisor, completed an independent review of the monthly investment reports. Meketa reported that all investments were in compliance with sector, issuer, and maturity limits stated in Government Code section 53600 *et seq.* and with CalOptima Health's Board-approved Annual Investment Policy during that period.

INFORMATION ITEMS

8. Board Approved Initiatives Report

Yunkyung Kim, Chief Operating Officer, provided background on Board Approved Initiatives. In December 2024, staff included in the regular Board meeting materials, a Quarterly Board-approved Strategic Initiative Summary Report, which is included in today's Finance and Audit Committee (FAC) meeting materials. Ms. Kim noted that staff developed the report based on feedback from Board members, as well as feedback from CalOptima Health's stakeholders regarding the status of Board funded initiatives. She presented a summary report of the initiatives that are funded through Board reserve dollars. Ms. Kim explained that some initiatives are related to community outreach and investments, such as non-operation, non-revenue dollars. The summary report was categorized into community investments, quality investments, and infrastructure capacity investments. Ms. Kim added that this effort is to provide the Board and public with a detailed look at the various Board initiatives and a transparent account of how those dollars are being spent and the status of those initiatives. She shared that during today's meeting, staff will review some of these initiatives to inform the Board and public on how CalOptima Health is structuring these initiatives, as well as an opportunity to receive feedback on how staff can enhance the accountability

and transparency of the Board-approved initiatives. The first initiative staff will review is the Provider Workforce Development that the Board funded at \$50 million dollars.

Provider Workforce Development

Michell Nielsen, Director, Strategic Development, provided key updates on the Provider Workforce Development initiative. Ms. Nielsen reported that two of the five planned programs within this initiative have been implemented. Round one of grant funding for this initiative focused on educational investments to increase supply of health care professionals (non-physician) in Orange County. She added that seven educational institutions received grant funding during the first round. Since awarding these grants, CalOptima Health has received semiannual reports from six of the grantees and is awaiting one progress report from the remaining grantee which is due at the end of February. Ms. Nielsen reported that round two grant funding focused on launching workforce training and development innovation fund solutions. She noted that the priority area for the second round of funding is on increasing the behavioral health workforce serving CalOptima Health members.

Comprehensive Community Cancer Screening

Richard Pitts, D.O., Ph.D., Chief Medical Officer, provided an update on the Community Cancer Screening Grant. The Comprehensive Community Cancer Screening and Support Program aims to create a culture of cancer prevention, early detection, and collaboration with partners to work towards a shared goal of dramatically decreasing late-stage cancer incidence and ensuring that all Medi-Cal members have equitable access to high quality care. Dr. Pitts reported that CalOptima Health has executed 15 grant agreements to increase access to cancer screening for CalOptima Health members and completed the first round of grant payments. He added that CalOptima Health hopes to serve all eligible CalOptima Health members, and the total number of members screened will be included in future updates. Dr. Pitts reported that CalOptima Health is looking to improve quality and member experience during cancer screening and treatment procedures and will be providing future updates.

Medi-Cal Provider Rate Increases

Ms. Kim provided an update on the Medi-Cal Provider Rate Increases initiative, noting that the Board authorized staff to set aside \$526 million to fund provider rate increases over a 30-month period. This equates to about a \$220 million investment per year, which began in July 2024, and at the end of the reporting quarter, CalOptima Health is on schedule. Ms. Kim added that CalOptima Health is adding funding to its provider community of about \$18 million per month that is funded by Board-designated reserves. She noted that staff expects this spending to stay fairly consistent throughout the life of this particular investment. Ms. Kim reported on the progress of this initiative, noting that it involved amending contracts with thousands of providers who were excited and responded very quickly. She also noted that some providers have not yet responded to the contract amendments and encouraged any providers listening to the meeting to review the contract amendments. Ms. Kim added that when the Board made this investment, it was with an understanding that these rate increases go toward enhancing access and quality of care for CalOptima Health's members, in addition to maintaining support for its provider community. CalOptima Health has implemented a few things to monitor the impact of these provider rate increases; for example, the Monthly Fast Facts report will report on Provider Network Trends on a quarterly basis by line of business, by provider type, by quarter, and further detail CalOptima Health's provider community. Staff will also look at whether CalOptima Health is gaining or losing providers and the reasons behind those indicators. Ms. Kim shared that CalOptima Health has seen an increase in providers interested in caring for its members and a big decrease in providers expressing concern about their continued ability to care for CalOptima Health members. She also noted that CalOptima Health chose quality scores from CY 2024 to

be the baseline to measure the impact of these provider rate increases on various quality measures, which included the Managed Care Accountability Set scores. DHCS uses these scores to measure CalOptima Health's performance, including the patient satisfaction scores from the CAHPS survey on the Medicare side. In addition, HEDIS metrics give an overall view of improvement in the quality of care that CalOptima Health's members receive and impact to provider satisfaction. Ms. Kim added that staff reviews quality data monthly and reports details to the Quality Assurance Committee on quarterly basis, but the true impact will not be known until the final scores in Fall 2025.

Ms. Kim, Ms. Nielsen, and Dr. Pitts responded to committee members' questions and comments related to the Board Approved Initiatives Report.

Recommended Actions

Recommend Board of Directors' Approval of a New CalOptima Health Policy IT.1002
Artificial Intelligence and Machine Learning.

Background

CalOptima Health is receiving increasing interest from staff and departments to explore and implement Artificial Intelligence (AI) and Machine Learning (ML) technologies. These tools offer promising opportunities to improve operational efficiency, support healthcare delivery, and enhance member experience. Additionally, numerous laws and regulations are coming out about the usage of AI in healthcare. Without a clear framework, use of AI and ML could present significant risks, including data misuse, bias, and unauthorized access to sensitive information.

In response, CalOptima Health is proactively establishing a secure, transparent, and ethical foundation to guide the safe exploration and use of AI. Policy IT.1002 Artificial Intelligence and Machine Learning provides the necessary structure to manage these technologies in alignment with CalOptima Health's values and commitment to protecting our member's data and privacy.

Discussion

Policy IT.1002: Artificial Intelligence (AI) and Machine Learning (ML) outlines how CalOptima Health will govern the use of AI and ML tools now and in the future. The policy requires that all AI systems be reviewed and approved before use, ensures that decisions affecting members remain under the authority of qualified healthcare professionals, and mandates thorough documentation, testing, and monitoring of AI tools.

The policy includes strong security and privacy safeguards for protected health information and personally identifiable information to protect sensitive information. It prohibits the use of public or unapproved AI platforms for processing sensitive data and ensures compliance with data protection laws.

In addition to security, the policy addresses ethical concerns by requiring fairness, transparency, and human oversight in AI-driven processes. It establishes a governance committee, outlines department-level responsibilities, and mandates regular audits and staff training to promote accountability and compliance.

The system will not base its determination solely on a group dataset.

F. Member Communication

1. CalOptima Health will ensure that clinical communications, if created by AI, disclose the use of AI to the Member unless the communication is reviewed by a license clinical professional.

G. Safety and Reliability

1. AI and ML systems must undergo rigorous testing and validation to ensure their safety, reliability, and robustness in healthcare settings.

CALOPTIMA HEALTH BOARD ACTION AGENDA REFERRAL

Action To Be Taken May 22, 2025

Regular Meeting of the CalOptima Health Board of Directors'

Finance and Audit Committee

Report Item

6. Recommend the Board of Directors Approve the CalOptima Health Fiscal Year 2025-26 Operating Budget

Contact

Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

Recommend the Board of Directors:

1. Approve the CalOptima Health Fiscal Year 2025-26 Budget, as reflected in Attachment A: Fiscal Year 2025-26 Operating Budget for All Lines of Business and Non-Operating Items.
2. Authorize the expenditures and appropriate the funds for the items listed in Attachment B: Administrative Budget Details; Attachment B1: Covered California Administrative Budget Details; and Attachment B2: Digital Transformation Administrative Budget Details, which shall be procured in accordance with CalOptima Health Policy GA.5002: Purchasing.

Background

The CalOptima Health Fiscal Year (FY) 2025-26 Budget provides revenues and appropriations for the period of July 1, 2025, through June 30, 2026, and includes the following budget categories:

- Lines of Business:
 - Medi-Cal
 - OneCare
 - Program for All-Inclusive Care for the Elderly (PACE)
 - Multipurpose Senior Services Program (MSSP)
 - Facilities
- Covered California
- Digital Transformation Strategy
- Non-Operating Items:
 - Net Investment Income
 - 500 Building
 - Street Medicine Support Center

Staff is submitting a comprehensive budget for all lines of business for approval, using assumptions based on the best information available to date. Pursuant to CalOptima Health Policies GA.3202: CalOptima Health Signature Authority, GA.5002: Purchasing, and GA.5003: Budget Approval and Budget Reallocation, the Board of Directors' approval of the budget authorizes the expenditure for the item and appropriates the funds requested without further Board of Directors (Board) action to the extent the Board has or is, as indicated in the budget attachments, delegating authority to staff.

CalOptima Health’s primary revenue source is the State of California (State). The Governor’s proposed budget for FY 2025-26 released in January did not include any new spending or reductions to current programs and initiatives. However, staff anticipates the State will propose budget savings measures given the cost pressures within the Medi-Cal program caused by increased caseload, higher utilization and costs in managed care, fee-for-service and pharmacy, and higher-than-expected costs from expanding full-scope Medi-Cal coverage to undocumented individuals.

As of this writing, several policy, program, or funding changes are being considered at both the federal and State levels. The CalOptima Health FY 2025-26 Operating Budget does not include Medicaid or Medicare cost savings proposals being considered by the U.S. Congress or the State Legislature. Staff will continue to monitor legislative actions and return to the Board with further recommendations if additional resources are necessary beyond what was incorporated in this budget.

Discussion

Operating Budget: Staff proposes an Operating Budget with an operating surplus of \$32.65 million or 0.70% for FY 2025-26 as summarized in the following table and details below:

FY 2025-26 Operating Budget

| | Medi-Cal | OneCare | PACE | MSSP* | FY 2025-26 Budget |
|---------------------------------|---------------------|-----------------------|--------------------|----------------------|------------------------------|
| Average Monthly Enrollment | 866,184 | 17,943 | 551 | 558 | 884,677 |
| Revenue | \$4,161,142,347 | \$467,699,407 | \$60,154,226 | \$2,988,648 | \$4,691,984,627 |
| Medical Costs | \$3,884,377,197 | \$441,120,700 | \$51,878,014 | \$2,725,088 | \$4,380,101,000 |
| Administrative Expenses | \$235,316,770 | \$38,351,645 | \$3,856,419 | \$1,706,971 | \$279,231,806 |
| Operating Income/Loss | \$41,448,379 | (\$11,772,938) | \$4,419,793 | (\$1,443,412) | \$32,651,822 |
| Medical Loss Ratio (MLR) | 93.35% | 94.32% | 86.24% | 91.18% | 93.35% |
| Administrative Loss Ratio (ALR) | 5.66% | 8.20% | 6.41% | 57.12% | 5.95% |

* MSSP enrollment included in Medi-Cal total.

Note: Totals may not add up due to rounding.

A previous Board action at the May 2, 2024, meeting, approved provider rate increases to hospitals, community clinics, behavioral health/applied behavior analysis providers, physicians, health networks, and other ancillary providers. The budget includes approximately \$210.5 million in medical costs to fund these increases in FY 2025-26.

For more information, please refer to Attachment A: Fiscal Year 2025-26 Operating Budget for All Lines of Business and Non-Operating Items.

Operating Budget Analysis

Enrollment: The budget forecasts a 3.0% decrease in combined enrollment from the previous budget year, predominantly driven by the Medi-Cal line of business. The forecast includes the continuation of normal Medi-Cal eligibility redetermination activities and a decrease primarily in the Unsatisfactory Immigration Status population of adults ages 26-49 across the course of the budget year. For CalOptima Health’s Medicare enrollment, the budget forecasts a modest increase from the prior budget year of

approximately 3.2%. In PACE, the forecast includes an 8.4% increase primarily driven by an expected increase in enrollment at Alternative Care Setting centers.

Revenue: The budget projects revenue for each line of business based on the most recent capitation rates available from the California Department of Health Care Services (DHCS) and the Centers for Medicare & Medicaid Services (CMS). Staff made additional adjustments based on member acuity and included trend assumptions based on CalOptima Health's Rate Development Template submission to DHCS. The FY 2025-26 Operating Budget revenue on a per member per month basis is nearly the same as the prior year's funding. This assumption is informed by increasing service category medical trends, offset by mounting State budgetary pressures.

Medical Costs: The budget proposes a 93.35% MLR. The budget accounted for forecasted provider capitation payments, professional, facility, ancillary, managed long-term services and supports, prescription drugs, medical management, CalAIM, and other medical costs. The budget:

- Calculates trends based on historical experience;
- Incorporates risk arrangement changes anticipated in the budget year;
- Includes provider rate increases committed by the Board on May 2, 2024;
- Continues to apply Targeted Rate Increases Phase I for contracted providers who render primary care or general care, as defined in DHCS guidance; and
- Continues CalAIM Community Supports services.

Several methods were utilized to develop the medical cost forecasts. Predominantly, projections were based on trends calculated from historical experience. Historical experience included several years' worth of data to calculate appropriate trends. Staff assigned various credibility to the different time periods depending on how representative they were of expected future utilization. In addition, adjustments were applied to account for known changes to operations, program structure, benefits, and regulatory policies. Staff used historical data, proxy data, and industry benchmarks, where available, and checked the results for reasonability.

Administrative Expenses: The budget proposes a 5.95% ALR, which is similar to the prior year Board-approved ALR of 5.87% (including Board-approved adjustments). The primary drivers for the higher administrative expenses in the budget are:

- Personnel costs, including addition of essential positions to support operations, an annual merit increase of 3.5%, employee benefit premium increases, and continuation of certain employee supplemental benefits; and
- Non-salary expenses, including expenses to comply with mandated program requirements and technology updates to support business changes.

Staff prepared the General and Administrative budget using a "zero-based" budgeting methodology, which required departments to justify each expense before adding it to the budget. Attachment B: Administrative Budget Details provides additional information regarding all administrative expenses included in the FY 2025-26 Operating Budget.

Covered California

With the approved change to CalOptima Health's county ordinance, staff anticipates that the new Covered California line of business will become operational on January 1, 2027. The budget includes \$10.8 million in operating costs to begin preparations for the launch, including \$4.2 million in Salaries, Wages & Benefits and \$6.5 million in Other Operating Expenses. Attachment B1: Covered California Administrative Budget Details provides additional information.

Digital Transformation Strategy

On March 17, 2022, the Board authorized a three-year Digital Transformation and Workplace Modernization Strategy and created a \$100 million restricted reserve to fund digital transformation efforts. The budget includes \$5.2 million in operating costs to continue implementation. Attachment B2: Digital Transformation Administrative Budget Details provides additional information regarding operating expenses to continue implementation of the strategy. Staff has requested through a separate Board action an extension of the Digital Transformation Strategy through June 30, 2027, to complete existing capital projects for years one through three and implement the proposed new capital projects in year four.

Non-Operating

Net Investment Income: The budget projects \$100 million in net investment income, which is based on projected market conditions and returns on investments in FY 2025-26.

500 Building: Based on the projected revenue and estimated depreciation costs, the budget projects an estimated net cost of approximately \$1,156,469.

Street Medicine Support Center: The budget projects an estimated net cost of \$506,847 to support preparation activities for preconstruction services and other building related activities.

Status of Total Assets and Reserve Levels

As of March 31, 2025, CalOptima Health's total net assets were \$2.7 billion. Of this amount, \$1.1 billion was in Board-designated reserves, \$130.3 million in statutory designated reserves, \$100.3 million in capital assets, \$810.7 million in unspent resources committed by the Board, and \$548.3 million was unallocated resources.

Since 2015, the Board has committed \$1.4 billion to community outreach and investments, quality incentive programs, and infrastructure and capacity building. Many of these initiatives are multi-year commitments. As of March 31, 2025, \$611.8 million has been spent; the unspent balance of allocated resources was \$442.4 million; and the unspent balance of Board-approved provider rate increases (approved at the May 2, 2024, Board meeting) was \$368.3 million.

At the April 3, 2025, meeting, the Board approved a modification to CalOptima Health Policy GA.3001: Statutory and Board-Designated Reserve Funds, to increase reserve levels from a range of 2.5 to 3.0 times the monthly consolidated revenue to a range of 2.5 to 4.0 times the monthly consolidated revenue. In April, a transfer of \$460 million from the Short-Term Operating accounts to the Board-designated

Reserve Fund (Tier One) accounts was completed, increasing the reserve level to approximately 3.8 times the monthly consolidated revenue.

Fiscal Impact

Routine Operating Budget: As outlined above and described in Attachment A: Fiscal Year 2025-26 Operating Budget for All Lines of Business and Non-Operating Items, the FY 2025-26 Operating Budget projects a surplus of \$32.65 million.

Covered California: The fiscal impact for the Covered California Operating Budget is \$10.8 million.

Digital Transformation: A previous Board action on March 17, 2022, established a restricted Digital Transformation and Workplace Modernization Reserve in the amount of \$100 million. An appropriation of \$5.2 million from the restricted reserve will fund the non-salary operating expenses for the Digital Transformation Strategy in FY 2025-26.

Non-Operating Items: The fiscal impact for non-operating items results in a net income of \$98.3 million.

Rationale for Recommendation

Staff submits the FY 2025-26 Operating Budget for all lines of business areas and non-operating items using the best information available to provide covered services to CalOptima Health's forecasted enrollment.

Contact

Nancy Huang, Chief Financial Officer, (657) 235-6935

Recommended Actions

Recommend the Board of Directors:

1. Extend the Digital Transformation Strategy for two years, through June 30, 2027, to complete ongoing and new projects.
2. Approve the CalOptima Health Fiscal Year 2025-26 Routine Capital, Covered California, and Digital Transformation Year Four Capital Budgets.
3. Authorize the expenditures and appropriate the funds for the following items, which shall be procured in accordance with CalOptima Health Board of Directors-approved policies:
 - a. Attachment A: Fiscal Year 2025-26 Routine Capital Budget by Project;
 - b. Attachment A1: Fiscal Year 2025-26 Covered California Capital Budget by Project; and
 - c. Attachment A2: Update to Digital Transformation Years One through Three and Year Four Capital Budgets by Project.

Background

As of March 31, 2025, CalOptima Health recorded gross capital assets of \$194.4 million in the 505 Building, 500 Building, Street Medicine Support Center in Garden Grove, building improvements, furniture, equipment, subscription assets, and information systems, including Digital Transformation projects. To account for these fixed assets wearing out over time, staff has charged against the costs of these assets an accumulated depreciation and amortization totaling \$94.1 million. Staff will record capital assets acquired in Fiscal Year (FY) 2025-26 at acquisition cost and will depreciate the value on a straight-line basis over their estimated useful lives as follows:

- Five (5) years for office furniture and fixtures;
- Three (3) years for computer equipment and software;
- The lesser of fifteen (15) years or remaining term of lease for leasehold improvements; and
- Ten (10) to twenty (20) years, based on components, for building improvements.

The resulting net book value of these fixed assets was \$100.3 million as of March 31, 2025. Prior Board of Directors (Board)-approved Routine Capital budgets were \$8.26 million in FY 2024-25 and \$14.7 million in FY 2023-24.

Pursuant to CalOptima Health Policies GA.3202: CalOptima Health Signature Authority, GA.5002: Purchasing, and GA.5003: Budget Approval and Budget Reallocation, the Board's approval of the budget authorizes the expenditure for the item and appropriates the funds requested without further

Board action to the extent the Board has or is, as indicated in the budget attachments, delegating authority to staff.

Discussion

A. FY 2025-26 Routine Capital Budget

1. **Information Technology:** IT represents \$17.3 million or 60.7% of the Routine Capital Budget. These upgrades are necessary to support internal operations and to ensure compliance with state and federal requirements.

| Total: | \$17,333,500 | 100.0%* |

* Totals may not add up due to rounding.

2. **Building and Office Improvements:** Building and Office Improvements represent \$11.2 million or 39.3% of the Routine Capital Budget. This category includes the 505 Building, 500 Building, PACE Center, and Street Medicine Support Center. Please refer to the attached Summary of CalOptima Health Facilities for more information.

| Capital Budget Category | FY 2025-26 Budget | % of Total |
|--------------------------------|--------------------------|-------------------|
| 505 Building Improvements | \$4,780,000 | 42.7% |
| 500 Building Improvements | \$4,830,000 | 43.1% |
| PACE Center | \$1,342,500 | 12.0% |
| Street Medicine Support Center | \$250,000 | 2.2% |
| Total: | \$11,202,500 | 100.0%* |

* Totals may not add up due to rounding.

B. FY 2025-26 Covered California Capital Budget

At the January 14, 2025, meeting, the Orange County Board of Supervisors approved a change to CalOptima Health's county ordinance to remove the provisions prohibiting participation in Covered California. The target start date for CalOptima Health's participation in Covered California is January 1, 2027. The Covered California Capital Budget includes projects that have been initially identified as necessary to build the internal capacity and infrastructure for the new line of business. More detailed information is provided in Attachment A1: Fiscal Year 2025-26 Covered California Capital Budget by Project.

| Capital Budget Category | FY 2025-26 Budget | % of Total |
|--|--------------------------|-------------------|
| Applications Management | \$885,000 | 23.8% |
| Enterprise Data and System Integration | \$1,350,000 | 36.3% |
| Application Development | \$1,480,520 | 39.8% |
| Total: | \$3,715,520 | 100.0%* |

* Totals may not add up due to rounding.

C. Update to Digital Transformation Capital Budgets

On March 17, 2022, the Board authorized a three-year Digital Transformation and Workplace Modernization Strategy (beginning July 1, 2022, through June 30, 2025) and created a \$100 million restricted reserve to fund digital transformation efforts. Since then, staff has worked quickly to develop and implement key components of the strategy. The Board approved the Digital Transformation Year One, Year Two, and Year Three Capital Budgets on June 2, 2022, June 1, 2023, and June 6, 2024, respectively. Through separate Board actions, the Board also updated and revised certain capital projects and funding levels within these budgets.

Staff recommends Board approval of the following:

- Update to Digital Transformation Years One through Three Capital Budgets: As CalOptima Health nears the end of the initial three-year strategy, staff has evaluated the status and updated the funding levels, where necessary, for each remaining project that received Board approval in previous capital budgets.
- Two-year extension of the Digital Transformation Strategy: Due to the longer timeframes to implement capital projects, staff requests a two-year extension of the Digital Transformation Strategy through June 30, 2027, to complete existing projects in process and the proposed new capital projects for year four.
- Approval of new capital projects for FY 2025-26: The Digital Transformation Year Four Capital Budget totals \$11.95 million. The proposed capital projects will be funded from the remaining available resources in the restricted reserve.

The updated budget totals \$32.1 million and includes a consolidated list of Year One through Three existing capital projects that will continue in FY 2025-26, and new capital projects in Year Four. After Board approval, staff will revise the amount of capital assets based on the updated list of capital projects.

After accounting for actual and budgeted capital and operating costs for years one through four, staff estimates there will be approximately \$0.3 million remaining in the \$100 million restricted reserve. For more detailed information, please refer to Attachment A2: Update to the Digital Transformation Years One through Three and Year Four Capital Budgets by Project.

Fiscal Impact

Investments in the FY 2025-26 Routine Capital and Covered California Capital Budgets will reduce CalOptima Health's investment principal by \$28,536,000 and \$3,715,520, respectively.

A previous Board action on March 17, 2022, created a \$100 million restricted reserve to fund digital transformation efforts. The remaining funds in the restricted reserve are sufficient to cover the Digital Transformation Year Four capital projects.

Depreciation expenses for Capital Budget projects are reflected in the proposed FY 2025-26 CalOptima Health Operating Budget.

Rationale for Recommendation

The FY 2025-26 Routine Capital, Covered California, and Digital Transformation Year Four Capital Budgets will enable necessary office improvements, system upgrades, enhance operational efficiencies to support CalOptima Health's Mission and Vision statements and Strategic Plan, and comply with federal and state requirements.

Concurrence

Troy R. Szabo, Outside General Counsel, Kennaday Leavitt

Memo

To: CalOptima Health Board of Directors' Finance and Audit Committee
From: Nancy Huang, Chief Financial Officer
CC: Michael Hunn, Chief Executive Officer
Date: May 22, 2025
Re: Update on CalOptima Health Business Insurance Renewal for Policy Year 2025-26

CalOptima Health's business insurance coverage, except employee group health insurance and benefits, expires on April 7 of each year. At the March 2, 2023, meeting, the CalOptima Health Board of Directors (Board) delegated authority to the Chief Executive Officer to approve future policy renewals when there are no significant changes to expiring coverage terms and conditions, and no additional coverage types to consider. Staff recommends renewing the same coverage categories included during policy year (PY) 2024-25. As reference, Attachment 1 provides brief descriptions, proposed coverage limits and deductibles for insurance policies included for PY 2025-26.

On March 7, 2025, Alliant, CalOptima Health's insurance broker, provided quotations for existing coverage. Staff has reviewed and evaluated the options. Overall, CalOptima Health's insurance policy renewals for PY 2025-26 are \$101,597 or 2.6% higher than the previous year. The increase is primarily driven by higher claim exposure in Managed Care Errors and Omissions coverage. Staff has successfully renewed the following coverage for a total premium of \$4,040,981.

| Coverage | 2024-2025 Premium | 2025-2026 Premium | \$ Difference from Prior Year | % Difference from Prior Year |
|---|----------------------|----------------------|-------------------------------------|------------------------------------|
| Renewal Premiums | | | | |
| Commercial Package | \$94,182 | \$83,814 | (\$10,368) | -11.0% |

| Umbrella | \$33,425 | \$29,880 | (\$3,545) | -10.6% |
| Earthquake | \$367,433 | \$360,597 | (\$6,836) | -1.9% |
| Cyber – primary and excess | \$846,148 | \$797,553 | (\$48,595) | -5.7% |

| Coverage | 2024-2025 Premium | 2025-2026 Premium | \$ Difference from Prior Year | % Difference from Prior Year |
|---|----------------------|----------------------|-------------------------------------|------------------------------------|
| Directors and Officers/ Employment Practices Liability – primary and excess | \$657,939 | \$654,286 | (\$3,653) | -0.6% |
| Crime | \$27,974 | \$27,974 | \$0 | 0.0% |
| Managed Care Errors and Omissions – primary and excess | \$ 723,368 | \$848,318 | \$124,950 | 17.3% |
| Medical Malpractice (PACE) | \$ 46,447 | \$51,121 | \$4,674 | 10.1% |
| Pollution (3-year policy term) | \$5,878 | \$5,878 | \$0 | 0.0% |
| Wage and Hour – primary and excess | \$314,895 | \$314,895 | \$0 | 0.0% |

| Total: Renewal Premiums | \$3,939,384 | \$4,040,981 | \$101,597 | 2.6% |

The Fiscal Year (FY) 2024-25 Operating Budget included sufficient funding for the renewal of insurance policies for the period of April 7, 2025, through June 30, 2025. Management will include funding for the remaining policy period of July 1, 2025, through April 6, 2026, and projected expenditures through fiscal year end (i.e., June 30, 2026) in the upcoming CalOptima Health FY 2025-26 Operating Budget.

Health Network Financial Compliance Review Update

On a quarterly basis, CalOptima Health reviews the unaudited financial statements of the capitated Physician Groups, Hospitals and HMOs that comprise CalOptima Health’s health networks. After internal review, CalOptima Health’s financial staff makes a determination as to whether the capitated entity has the ability to assume the risk of a capitated contract. The following provides an overview of the review criteria:

1. Physician Groups and Hospitals: These entities are required to pass the following tests:

- Current ratio must be greater than or equal to 1.0;
- Tangible net equity (TNE) must be greater than or equal to 1.0; and
- Cash to claims ratio must be greater than or equal to 0.75.

HMOs: These entities are required to have a TNE greater of (a) \$1.0 million; (b) percent of premium revenues; or (c) percent of healthcare expenses.

2. Financial Security Reserves and Withhold: Health networks are required to meet the current financial security reserve and withhold levels pursuant to CalOptima Health policy.

Results of the December 31, 2024, Financial Compliance Review: CalOptima Health reviewed the unaudited financial statements for each health network entity for the period ending December 31, 2024, and found that all health networks are in compliance.
