~~In the event the **CAP** is not successfully completed within ninety (90) calendar days of issuance, CalOptima's Office of Compliance shall report the **CAP** status to the AOC.~~

FOR 20191205BOD REVIEW

~~The AOC shall review the outstanding **CAP** items to determine, at its discretion, whether the **CAP** deadline should be extended.~~

D. Acceptable Resolution with **ICAP** or **CAP** Requirements

1. A response may be accepted once all requirements outlined in Section III.B.4. of this Policy are fulfilled. If an **ICAP** or **CAP** response requires **Monitoring** or a focused **Audit**, the **ICAP** or **CAP** response shall not be closed until the remediation(s) implemented have been validated by the Office of Compliance and demonstrate that the issue will not recur.

    a. A response may be accepted and closed simultaneously if **Monitoring** or a focused **Audit** is not required.

2. If the resolution to the deficiency is deemed acceptable by CalOptima's Compliance Officer or **Designee**, CalOptima's Office of Compliance may issue a written notification of acceptance, which shall include:

    a. An acknowledgement of acceptance;

    b. A description of follow up actions which shall include, but is not limited to:

        i. Submission of finalized documentation; and/or

        ii. Focused **Audit**, as described in Section III.E. of this Policy; and/or

        iii. **Monitoring**, as deemed appropriate by CalOptima's Office of Compliance, and as described in Section III.F. of this Policy.

3. If the resolution to the deficiency is accepted and deemed sufficient by CalOptima's Compliance Officer or **Designee**, CalOptima's Office of Compliance shall issue a written notification of closure, which shall include:

    a. An acknowledgement of closure;

    b. The effective date of closure; and

    c. Consequences of repeat deficiencies.

E. Focused **Audit**s

1. CalOptima's Office of Compliance may conduct a focused **Audit** of an internal department or FDR to confirm implementation of the accepted **ICAP** or **CAP** response.

2. CalOptima's Office of Compliance shall notify the internal department or FDR of the scope, **Audit** period, and **Audit** deliverables that shall be required to complete the focused **Audit**.

3. CalOptima's Office of Compliance may continue to Monitor and/or **Audit** an internal department or FDR for performance of issues and/or functions related to the **ICAP** or **CAP** request.

F. **Monitoring** Period

FCK 20191205BOD REVIEW

1. CalOptima's Office of Compliance may conduct **Monitoring** of the internal department's or FDR's resolution to confirm implementation of the accepted **ICAP** or **CAP** response.

2. CalOptima's Office of Compliance shall Monitor the resolution for a predetermined timeframe, as established by CalOptima's Office of Compliance.

3. CalOptima's Office of Compliance shall notify the internal department, or FDR, of the scope, **Monitoring** period, and deliverables that shall be required to complete the **Monitoring**.

4. CalOptima's Office of Compliance may continue to **Monitor** and/or **Audit** an internal department's or FDR's performance of issues and/or functions related to the **ICAP** or **CAP** request.

G. Failure to Maintain Adequate Resolution

1. If during the **Monitoring** period or the focused **Audit** the internal department or FDR fails to maintain the remedies in place, CalOptima's Office of Compliance ~~shall~~may issue the internal department or FDR an **ICAP** or **CAP** request, as appropriate.

2. If an **ICAP** request is issued, the internal department or FDR shall be required to resolve the issue within two (2) business days from the re-issuance of the finding.

   a. Extensions to this timeline may be authorized on a case-by-case basis by the Compliance Officer, or **Designee**.

3. The **ICAP** request shall require the information as described in Section III.B.4. of this Policy.

H. **ICAP** and **CAP** Tracking and Reporting

1. CalOptima's Office of Compliance shall track all **CAP** and **ICAP** requests issued utilizing a standardized tool.

2. CalOptima's Office of Compliance shall report the status of all **CAP**/**ICAP** requests to the **Audit & Oversight Committee** and the Compliance Committee.

3. In the event that CalOptima's Office of Compliance issues an **ICAP** request with respect to the CalOptima Medi-Cal Program, the Regulatory Affairs & Compliance Department shall report the issue to CalOptima's DHCS Contract Manager for Medi-Cal within three (3) business days of issuance.

4. If CalOptima's internal department, or FDR, has repeat deficiencies, the issue(s) shall be reported to the **Audit & Oversight Committee** and the Compliance Committee by the Office of Compliance for further action.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Audit	A formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one of several acknowledged certifications.
Audit & Oversight Committee	A subcommittee of the Compliance Committee chaired by the Director of Audit and Oversight to oversee CalOptima's delegated functions. The composition of the AOC includes representatives from CalOptima's departments as provided for in the AOC charter.
Corrective Action Plan (CAP)	A plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers for Medicare & Medicaid Services (CMS), or designated representatives. First Tier Entities and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
Employee	Any and all employees of CalOptima, including all senior management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.
First Tier Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a ~~Member~~Member under a CalOptima Program.
Immediate Corrective Action Plan (ICAP)	An ICAP is the result of non-compliance with specific requirements that has the potential to cause significant member harm. Significant member harm exists if the non-compliance resulted in the failure to provide medical items, services or prescription drugs, causing financial distress, or posing a threat to member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.
Immediate Corrective Action Plan (ICAP) Request	The result of non-compliance with specific requirements that has the potential to cause significant Member harm. Significant Member harm exists if the noncompliance resulted in the failure to provide medical services or prescription drugs, causing financial distress, or posing a threat to Member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.
Member	An enrollee-beneficiary of a CalOptima program.
Monitoring	Regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective
Sanction	An action taken by CalOptima, including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on a First Tier Entity's or its agent's failure to comply with statutory, regulatory, contractual, and/or other requirements related to CalOptima Programs.

FOR BOD REVIEW

I. PURPOSE

This policy defines the requirements for CalOptima and its First Tier, Downstream, and Related Entities (FDRs) for development and submission of an **Immediate Corrective Action Plan (ICAP)*** or **Corrective Action Plan (CAP)** for areas of non-compliant performance, as identified by CalOptima's Office of Compliance.

II. POLICY

A. CalOptima's Office of Compliance shall conduct **Auditing**, operational **Monitoring**, and investigations of internal CalOptima departments and its FDRs to ensure compliance with statutory, regulatory, contractual, CalOptima policy, and other requirements related to CalOptima programs.

B. CalOptima's Office of Compliance may require that an internal department or FDR develop an **ICAP** or **CAP** response based on the identified area(s) of non-compliance.

C. CalOptima's Office of Compliance shall require CalOptima internal departments and FDRs to bring their operations into full compliance with statutory, regulatory, contractual, CalOptima policy, and other requirements, which CalOptima or its regulators have identified as non-compliant, within time frames established by CalOptima's Office of Compliance.

D. An internal department or FDR shall develop, submit, and take corrective action under an approved **ICAP** or **CAP** response in the time and manner required by CalOptima's Office of Compliance.

1. Failure by the internal department to respond accurately, timely, and in compliance with statutory, regulatory, contractual, CalOptima policy, or other requirements to CalOptima's Office of Compliance's **ICAP** or **CAP** request may lead to further action.

2. Failure by an FDR to respond accurately, timely, and in compliance with statutory, regulatory, contractual, CalOptima policy, or other requirements to CalOptima's Office of Compliance's **ICAP**, or **CAP**, request may lead to further action. CalOptima may impose **Sanctions** for the underlying non-compliant performance that gave rise to the **ICAP** or **CAP** request, or the failure to develop, submit, and meet the requirements of the **ICAP** or **CAP** request, in accordance with CalOptima Policy HH.2002Δ: Sanctions.

* Terms in **bold** are defined in the Glossary.

III. PROCEDURE

A. Basis for an **ICAP** or **CAP**

1. CalOptima's Office of Compliance shall routinely Monitor performance metrics, conduct routine, or focused, **Audit**s, and conduct ongoing **Monitoring** and investigations of reported non-compliance for internal departments, or FDRs, through a variety of mechanisms.

    a. CalOptima's Office of Compliance may issue an **ICAP**/**CAP** request as a result of **Audit**s conducted by federal and state regulatory agencies, including, but not limited to the Department of Health Care Services (DHCS), the Centers for Medicare & Medicaid Services (CMS), and the Department of Managed Health Care (DMHC).

    b. CalOptima's Office of Compliance may issue an **ICAP**/**CAP** request as a result of an **ICAP**/**CAP** request, or other corrective action, that CalOptima receives from a federal or state regulatory agency that is directly related to the operations of an internal department or FDR.

2. In the event that CalOptima's Office of Compliance determines an internal department, or FDR, has failed to comply with statutory, regulatory, contractual, CalOptima policy, or other requirements, the Office of Compliance may issue an **ICAP**, or **CAP** request, to address the problem. CalOptima's Office of Compliance shall coordinate its efforts with CalOptima's Human Resources Department in the event that an **ICAP** or **CAP** potentially warrants **Employee** disciplinary action.

B. **ICAP** and **CAP** Issuance and Requirements

1. CalOptima's Office of Compliance shall utilize a standardized **ICAP** and **CAP** request template.

2. Non-compliance with specific requirements that have the potential to cause significant **Member** harm, or place CalOptima's accreditation, participation, and/or contractual status with regulatory agencies in jeopardy will require an **ICAP** response.

    a. If the finding requires an **ICAP** request, as determined by CalOptima's Office of Compliance, the internal department or FDR is required to cease non-compliant activities within two (2) business days of receiving the **ICAP** request.

    b. The internal department or FDR shall provide a written response within three (3) business days of receiving an **ICAP** request, detailing how it will mitigate and prevent further non-compliance. Following the acceptance of the **ICAP** response, the internal department or FDR is required to resolve the issue in a manner and timeframe deemed appropriate by CalOptima's Office of Compliance.

3. A **CAP** request is the result of material non-compliance with specific requirements that does not rise to the level of an **ICAP** request.

    a. The internal department or FDR is required to respond to the **CAP** request within fourteen (14) calendar days. CalOptima's Compliance Officer or **Designee** may authorize extensions to this timeline on a case-by-case basis. Following the acceptance of the **CAP** response, the internal department or FDR is required to resolve the issue in a manner and timeframe deemed appropriate by CalOptima's Office of Compliance.

FOR 20191205BOD REVIEW

4. An **ICAP** or **CAP** response shall include the following elements:

    a. A root cause analysis of the deficiency which may include a description of the policies and procedures, staffing, training, and systems that failed;

    b. Steps taken to resolve the deficiency;

    c. Steps taken to avoid reoccurrence;

    d. Method for implementation and completion of **ICAP** response or **CAP** response;

    e. Individual(s) responsible for implementation of the **ICAP** response or **CAP** response;

    f. An attestation by the internal department or FDR conveying a plan to remedy its identified deficiencies; and

    g. **ICAP** response or **CAP** response completion date(s), as applicable.

C. Unacceptable Resolution to an **ICAP** or **CAP**

1. If the resolution to the deficiency is unacceptable or the internal department or FDR fails to respond, CalOptima's Office of Compliance shall issue a written notice to the internal department or the FDR, which shall include:

    a. A summary of previous outreach and required action(s);

    b. An explanation of why that the resolution was not acceptable, or why a response was not received;

    c. A revised response timeline of two (2) business days for an **ICAP**;

        i. Extensions to this timeline may be authorized on a case-by-case basis by CalOptima's Compliance Officer or **Designee**.

    d. A revised response timeline of five (5) business days for a **CAP**;

        i. Extensions to this timeline may be authorized on a case-by-case basis by CalOptima's Compliance Officer or **Designee**.

    e. Explain the possible consequences, specific to the nature of the issue and degree of completeness in accordance with CalOptima Policy HH.2002Δ: Sanctions;

    f. Possibility of escalating to the department's Chief, or the FDR's Chief Executive Officer (CEO) or their **Designee**; and

    g. Possibility of referral to the **Audit & Oversight Committee** and the Compliance Committee.

D. Acceptable Resolution with **ICAP** or **CAP** Requirements

1. A response may be accepted once all requirements outlined in Section III.B.4. of this Policy are fulfilled. If an **ICAP** or **CAP** response requires **Monitoring** or a focused **Audit**, the **ICAP** or

FOR 20191205BOD REVIEW

CAP response shall not be closed until the remediation(s) implemented have been validated by the Office of Compliance and demonstrate that the issue will not recur.

a. A response may be accepted and closed simultaneously if **Monitoring** or a focused **Audit** is not required.

2. If the resolution to the deficiency is deemed acceptable by CalOptima's Compliance Officer or **Designee**, CalOptima's Office of Compliance may issue a written notification of acceptance, which shall include:

a. An acknowledgement of acceptance;

b. A description of follow up actions which shall include, but is not limited to:

i. Submission of finalized documentation; and/or

ii. Focused **Audit**, as described in Section III.E. of this Policy; and/or

iii. **Monitoring**, as deemed appropriate by CalOptima's Office of Compliance, and as described in Section III.F. of this Policy.

3. If the resolution to the deficiency is accepted and deemed sufficient by CalOptima's Compliance Officer or **Designee**, CalOptima's Office of Compliance shall issue a written notification of closure, which shall include:

a. An acknowledgement of closure;

b. The effective date of closure; and

c. Consequences of repeat deficiencies.

E. Focused **Audit**s

1. CalOptima's Office of Compliance may conduct a focused **Audit** of an internal department or FDR to confirm implementation of the accepted **ICAP** or **CAP** response.

2. CalOptima's Office of Compliance shall notify the internal department or FDR of the scope, **Audit** period, and **Audit** deliverables that shall be required to complete the focused **Audit**.

3. CalOptima's Office of Compliance may continue to Monitor and/or **Audit** an internal department or FDR for performance of issues and/or functions related to the **ICAP** or **CAP** request.

F. **Monitoring** Period

1. CalOptima's Office of Compliance may conduct **Monitoring** of the internal department's or FDR's resolution to confirm implementation of the accepted **ICAP** or **CAP** response.

2. CalOptima's Office of Compliance shall Monitor the resolution for a predetermined timeframe, as established by CalOptima's Office of Compliance.

3. CalOptima's Office of Compliance shall notify the internal department, or FDR, of the scope, **Monitoring** period, and deliverables that shall be required to complete the **Monitoring**.

12/05BOD REVIEW

4. CalOptima's Office of Compliance may continue to **Monitor** and/or **Audit** an internal department's or FDR's performance of issues and/or functions related to the **ICAP** or **CAP** request.

G. Failure to Maintain Adequate Resolution

1. If during the **Monitoring** period or the focused **Audit** the internal department or FDR fails to maintain the remedies in place, CalOptima's Office of Compliance may issue the internal department or FDR an **ICAP** or **CAP** request, as appropriate.

2. If an **ICAP** request is issued, the internal department or FDR shall be required to resolve the issue within two (2) business days from the re-issuance of the finding.

   a. Extensions to this timeline may be authorized on a case-by-case basis by the Compliance Officer, or **Designee**.

3. The **ICAP** request shall require the information as described in Section III.B.4. of this Policy.

H. **ICAP** and **CAP** Tracking and Reporting

1. CalOptima's Office of Compliance shall track all **CAP** and **ICAP** requests issued utilizing a standardized tool.

2. CalOptima's Office of Compliance shall report the status of all **CAP/ICAP** requests to the **Audit & Oversight Committee** and the Compliance Committee.

3. In the event that CalOptima's Office of Compliance issues an **ICAP** request with respect to the CalOptima Medi-Cal Program, the Regulatory Affairs & Compliance Department shall report the issue to CalOptima's DHCS Contract Manager for Medi-Cal within three (3) business days of issuance.

4. If CalOptima's internal department, or FDR, has repeat deficiencies, the issue(s) shall be reported to the **Audit & Oversight Committee** and the Compliance Committee by the Office of Compliance for further action.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Audit	A formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one of several acknowledged certifications.
Audit & Oversight Committee	A subcommittee of the Compliance Committee chaired by the Director of Audit and Oversight to oversee CalOptima's delegated functions. The composition of the AOC includes representatives from CalOptima's departments as provided for in the AOC charter.
Corrective Action Plan (CAP)	A plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers for Medicare & Medicaid Services (CMS), or designated representatives. First Tier Entities and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
Employee	Any and all employees of CalOptima, including all senior management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.
First Tier Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a Member under a CalOptima Program.
Immediate Corrective Action Plan (ICAP)	An ICAP is the result of non-compliance with specific requirements that has the potential to cause significant member harm. Significant member harm exists if the non-compliance resulted in the failure to provide medical items, services or prescription drugs, causing financial distress, or posing a threat to member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.
Immediate Corrective Action Plan (ICAP) Request	The result of non-compliance with specific requirements that has the potential to cause significant Member harm. Significant Member harm exists if the noncompliance resulted in the failure to provide medical services or prescription drugs, causing financial distress, or posing a threat to Member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.
Member	An enrollee-beneficiary of a CalOptima program.
Monitoring	Regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective
Sanction	An action taken by CalOptima, including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on a First Tier Entity's or its agent's failure to comply with statutory, regulatory, contractual, and/or other requirements related to CalOptima Programs.

FOR 20191205BOD REVIEW

I. PURPOSE

This policy establishes a **Compliance Program*** to ensure and enforce compliance with ethical standards, contractual requirements, applicable federal and state statutes and regulations, and CalOptima policies.

II. POLICY

A. CalOptima shall establish a written **Compliance Program**, in accordance with applicable regulatory and contractual requirements.

B. CalOptima's **First Tier, Downstream, and Related Entities (FDRs)** shall, at a minimum, develop a written **Compliance Program**, in accordance with this P~~p~~olicy.

C. CalOptima shall revise and update the **Compliance Program**, including the **Compliance Plan**, and all applicable CalOptima policies, as changes occur in CalOptima's needs, regulatory requirements, and applicable laws.

D. The CalOptima **Board of Directors** is responsible for overseeing the implementation and effectiveness of the **Compliance Program**, and approving the **Compliance Plan** and **Code of Conduct**.

E. The **Compliance Officer**, in conjunction with the **Compliance Committee**, shall provide oversight, analysis, and continuous monitoring of compliance activities and shall provide a summary of such activities to the **Board of Directors** on a periodic basis.

F. The **Compliance Officer**, in conjunction with the **Compliance Committee**, may update and make minor, non-substantive revisions to the **Compliance Plan** without the need to obtain **Board of Directors** approval.

G. CalOptima **Employees**, members of the **Governing Body**, and **FDRs**, shall comply with the **Compliance Program**.

* Terms in **bold** are included in the Glossary.

Back to Agenda

III. PROCEDURE

A. The Office of Compliance shall recommend revisions to the **Compliance Plan**, **Code of Conduct**, and related policies and procedures, as necessary, to maintain compliance with contractual requirements, applicable state and federal statutes and regulations, and CalOptima operations, or as otherwise indicated to meet the needs of **Members**.

B. The **Compliance Officer** shall submit recommended revisions to the **Compliance Plan** and **Code of Conduct**, to the **Compliance Committee** for review and approval.

C. Upon the **Compliance Committee's** approval, the **Compliance Officer** shall present substantive revisions to the **Compliance Plan** and/or **Code of Conduct** to the **Board of Directors** for approval and adoption into the **Compliance Program**. Minor non-substantive revisions, specifically the correction of typographical or formatting errors, to the **Compliance Plan** may be implemented without the need to obtain **Board of Directors** approval.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Code of Conduct	The statement setting forth the principles and standards governing CalOptima's activities to which CalOptima's Board of Directors, employees, contractors, and agents are required to adhere.
Compliance Committee	The committee designated by the Chief Executive Officer (CEO) to implement and oversee the Compliance Program and to participate in carrying out the provisions of this Compliance Plan. The composition of the Compliance Committee shall consist of senior management staff that may include, but is not limited to, the: Chief Executive Officer; Chief Medical Officer; Chief Operating Officer; Chief Financial Officer; Compliance Officer; and Executive Director of Human Resources.
Compliance Program	The program (including, without limitation, the Compliance Plan, Code of Conduct, and policies and procedures) developed and adopted by CalOptima to promote, monitor and ensure that CalOptima's operations and practices and the practices of its Board Members, Employees and FDRs comply with applicable law and ethical standards.
Downstream Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with persons or entities involved with a CalOptima Program benefit, below the level of arrangement between CalOptima and a First Tier Entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.
Employee	Any and all employees of CalOptima, including all senior management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.
First Tier Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a Member under a CalOptima Program.
First Tier, Downstream, and Related Entities (FDR)	First Tier, Downstream or Related Entity, as separately defined herein. For the purposes of this policy, the term FDR includes delegated entities, contracted providers, Health Networks, Physician Medical Groups, Physician Hospital Consortia, Health Maintenance Organizations, suppliers and consultants, including those that directly contract with CalOptima as well as those that are Downstream or Related Entities.
Governing Body	The Board of Directors of CalOptima.
Related Entity	Any entity that is related to CalOptima by common ownership or control and that: performs some of CalOptima's management functions under contract or delegation; furnishes services to Members under an oral or written agreement; or leases real property or sells materials to CalOptima at a cost of more than $2,500 during a contract period.

A. OVERVIEW OF THE COMPLIANCE PROGRAM

The Orange County Health Authority, dba CalOptima, is committed to conducting its operations in compliance with ethical standards, contractual obligations, and all applicable statutes, regulations, and rules, including those pertaining to Medi-Cal, Medicare, **Program of All-Inclusive Care for the Elderly (PACE)**, **Multipurpose Senior Services Program (MSSP)**, and other **CalOptima** ~~***programs***~~**Programs**.*

CalOptima's compliance commitment encompasses its own internal operations, as well as its oversight and monitoring responsibilities related to CalOptima's **First Tier**, **Downstream**, and **Related Entities** (**FDRs**), such as ~~***health networks***~~**Health Networks**, physician groups, ~~***participating providers***~~**Participating Providers, and** ~~***suppliers***~~~~, pharmacy benefit manager~~**Suppliers, Pharmacy Benefit Manager (PBM)**, and consultants. The term **FDR** is used in this document to refer to CalOptima's delegated subcontractors that perform administrative functions and/or provide health care services that CalOptima is required to perform and/or provide under its state and federal contracts with the **Centers for Medicare & Medicaid Services** (**CMS**) and the **Department of Health Care Services** (**DHCS**). Such persons/entities, referred to as **FDR** herein, include those that directly contract with CalOptima and those that are **Downstream** or **Related Entities** (i.e., subcontracts) with CalOptima's **First Tier Entities**.

CalOptima has developed a comprehensive **Compliance Program** applicable to all of CalOptima's programs, including, but not limited to, its Medi-Cal Program, its Medicare Advantage Prescription Drug Program (MA-PDP referred to as "**OneCare**"), its Medicare-Medicaid Plan (MMP referred to as "**OneCare Connect**"), **PACE**, and **MSSP**. The **Compliance Program** incorporates all ~~of the~~ elements of an effective **Compliance Program** as recommended by the **Office of the Inspector General** (**OIG**) and required by **CMS** regulations. The **Compliance Program** is continually evolving and may be modified and enhanced based on compliance ~~monitoring~~**Monitoring** and identification of new areas of operational, regulatory, or legal risk. CalOptima requires that **CalOptima Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** conduct themselves in accordance with the requirements of CalOptima's **Compliance Program**.

B. THE COMPLIANCE PLAN

This **Compliance Plan** sets forth CalOptima's commitment to legal and ethical conduct by establishing compliance activities, along with CalOptima principles and standards, to efficiently monitor adherence to all applicable laws, regulations, and guidelines. The **Compliance Plan** addresses the fundamental elements of an effective **Compliance Program** and identifies how CalOptima is implementing each of the fundamental elements of an effective **Compliance Program** in its operations to meet its contractual, legal, and regulatory obligations. Moreover, the **Compliance Plan** is designed to provide guidance and to ensure that CalOptima's operations and the practices of its **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** comply with contractual requirements, ethical standards, and applicable law.

This **Compliance Plan** is adopted by the **Governing Body**. It was developed and is managed by the **Executive Director of Compliance** (hereinafter referred to ~~hereinafter~~ as the "**Compliance Officer**") with the **Compliance Committee**. ~~Because~~Due to the dynamic nature of the complex laws governing CalOptima and its programs ~~are constantly evolving~~, the **Compliance Plan** may be revised and updated from time to time to respond to changes in the law and/or to reflect improvements in CalOptima's operations and processes.

Board ~~***members, employees***~~**Members, Employees**, and **FDRs** are expected to review and adhere to the requirements and standards set forth in the **Compliance Plan**, the **Code of Conduct**, and all related ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, as may be amended. Furthermore, **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** are expected to be familiar with the contractual, legal, and regulatory requirements pertinent to their respective roles and responsibilities. If a **Board** ~~***member, employee***~~**Member, Employee**, and/or **FDR** has/have any questions about the application, or implementation, of this **Compliance Plan**, or questions related to the **Code of Conduct** or CalOptima ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, he or she should seek guidance from the **Compliance Officer** and/or the CalOptima Office of Compliance.

I.WRITTEN STANDARDS

To demonstrate CalOptima's commitment to complying with all applicable federal and state standards and to ensure a shared understanding of what ethical and legal standards and requirements are expected of **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**, CalOptima develops, maintains, and distributes its written standards in the form of this **Compliance Plan**, a separate **Code of Conduct**, and written ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**.

a. Compliance Plan

As noted above, this **Compliance Plan** outlines how contractual and legal standards are reviewed and implemented throughout the organization and communicated to **CalOptima Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**. This **Compliance Plan** also includes a comprehensive section articulating CalOptima's commitment to preventing **Fraud**, **Waste**, & **Abuse** (**FWA**), and setting forth guidelines and procedures designed to detect, prevent, and remediate **FWA** in the administration of **CalOptima** ~~*programs*~~**Programs**. The **Compliance Plan** is available on CalOptima's external website for **Board** ~~*members*~~**Members** and **FDRs**, as well as on CalOptima's internal intranet site, referred to as InfoNet, accessible to all ~~*employees*~~**Employees**.

b. Policies and Procedures

CalOptima also developed written ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** to address specific areas of CalOptima's operations, compliance activities, and **FWA** prevention, detection, and remediation to ensure CalOptima can efficiently monitor adherence to all applicable laws, regulations, and guidelines. These ~~policies~~**Policies and Procedures** are designed to provide guidance to **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** concerning compliance expectations and outline processes on how to identify, report, investigate, and/or resolve suspected, detected, or reported compliance issues. **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** are expected to be familiar with the ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** pertinent to their respective roles and responsibilities, and are expected to perform their responsibilities in compliance with ethical standards, contractual obligations, and applicable law. The **Compliance Officer**, or his/her ~~*designee*~~**Designee**, will ensure that **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** are informed of applicable policy requirements, and that such dissemination of information is documented and retained, in accordance with applicable record retention standards.

The ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** are reviewed annually and updated, as needed, depending on state and federal regulatory changes and/or operational improvements to address identified risk factors. Changes to CalOptima's ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** are reviewed and approved by CalOptima's Policy Review Committee. The Policy Review Committee, comprised of executive officers and key management staff, meets regularly to review and approve proposed changes and additions to CalOptima's ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**. **Policies and** ~~*procedures*~~**Procedures** are available on CalOptima's internal website and Compliance 360~~,~~ (C360), a separate web portal accessible to **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**. **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** receive notice when ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** are updated via a monthly memorandum.

c. Code of Conduct

Finally, the **Code of Conduct** is CalOptima's foundational document detailing fundamental principles, values, and the framework for business practices within and applicable to CalOptima. The objective of the **Code of Conduct** is to articulate compliance expectations and broad principles that guide **CalOptima Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** in conducting their business activities in a professional, ethical, and lawful manner. The **Code of Conduct** is a separate document from the **Compliance Plan** and can be found in Appendix A. The **Code of Conduct** is approved by ~~CalOptima's~~the **CalOptima Board of Directors** and distributed to **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** upon appointment, hire, or the commencement of the contract, and annually thereafter. New **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs** are required to sign an attestation acknowledging receipt and review of the **Code of Conduct** within ninety (90) calendar days of the appointment, hire, or commencement of the contract, and annually thereafter.

II.OVERSIGHT

The successful implementation of the **Compliance Program** requires dedicated commitment and diligent oversight throughout CalOptima's operations, including, but not limited to, key roles and responsibilities by ~~CalOptima's~~the **CalOptima Board**, the **Compliance Officer**, the **Compliance Committee**, the **Audit & Oversight Committee**, and ~~***senior management***~~**Executive Staff**.

a. Governing Body

The **CalOptima Board of Directors**, as the **Governing Body**, is responsible for approving, implementing, and ~~monitoring~~**Monitoring** a **Compliance Program** governing CalOptima's operations. The **CalOptima Board** delegates the **Compliance Program** oversight and day-to-day compliance activities to the Chief Executive Officer (CEO), who then delegates such oversight and activities to the **Compliance Officer**. The **Compliance Officer** is an ~~***employee***~~**Employee** of CalOptima, who handles compliance oversight and activities full-time. The **Compliance Officer**, in conjunction with the **Compliance Committee**, are both accountable for the oversight and reporting roles and responsibilities as set forth in this **Compliance Plan**. However, the **CalOptima Board** remains accountable for ensuring the effectiveness of the **Compliance Program** within CalOptima and ~~monitoring~~**Monitoring** the status of the **Compliance Program** to ensure its efficient and successful implementation.

To ensure the **CalOptima Board** exercises reasonable oversight with respect to the implementation and effectiveness of CalOptima's **Compliance Program**, the **CalOptima Board**:

- Understands the content and operation of CalOptima's **Compliance Program**;
- Approves the **Compliance Program**, including this **Compliance Plan** and the **Code of Conduct**;
- Requires an effective information system that allows it to properly exercise its oversight role and be informed about the **Compliance Program** outcomes, including, but not limited to, results of internal and external ~~***audits***~~**Audits**;
- Receives training and education upon appointment, and annually thereafter, concerning the structure and operation of the **Compliance Program**;
- Remains informed about governmental compliance enforcement activity, such as Notices of Non-Compliance, **Corrective Action Plans**, Warning Letters, and/or ~~***sanctions***~~**Sanctions**;
- Receives regularly scheduled, periodic updates from CalOptima's **Compliance Officer** and **Compliance Committee**, including, but not limited to, monthly reports summarizing overall compliance activities and any changes that are recommended;
- Receives timely written notification and updates on urgent compliance issues that require engagement and action;
- Convenes formal ad hoc and closed session discussions for significant and/or sensitive compliance matters, to the extent permitted by applicable law; and
- Reviews the results of performance and effectiveness assessments of the **Compliance Program**.

The **CalOptima Board** reviews the measurable indicators of an effective **Compliance Program** and remains appropriately engaged in overseeing its efficient and successful implementation; however, the **CalOptima Board** delegates several compliance functions and activities as described in the following subsections.

b. Executive Director of Compliance (Compliance Officer)

The **Executive Director of Compliance** serves as the **Compliance Officer** who coordinates and communicates all assigned compliance activities and programs, as well as plans, implements, and monitors the day-to-day activities of the **Compliance Program**. The **Compliance Officer** reports directly to the CEO and the **Compliance Committee** on the activities and status of the **Compliance Program**. The **Compliance Officer** has authority to report matters directly to the **CalOptima Board** at any time. Furthermore, the **Compliance Officer** ensures that CalOptima meets all state and federal regulatory and contractual requirements.

The **Compliance Officer** interacts with the **CalOptima Board**, CEO, CalOptima's ~~executive~~Executive Staff and departmental ~~management~~Management, **FDRs**, legal counsel, state and federal representatives, and others as required. In addition, the **Compliance Officer** supervises the Office of Compliance, which includes compliance professionals with expertise and responsibilities for the following areas: Medi-Cal and Medicare Regulatory Affairs & Compliance, Special Investigations, Privacy, **FDR** and internal oversight, ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, and training on compliance activities.

The **CalOptima Board** delegates the following responsibilities to the **Compliance Officer**, and/or his/her ~~***designee***~~**Designee(s)**:

- Chair the **Compliance Committee**, which shall meet no less than quarterly and assists the **Compliance Officer** in fulfilling his/her responsibilities;
- Ensure that the **Compliance Program**, including this **Compliance Plan** and ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, are developed, maintained, revised, and updated, annually, or as needed, based on changes in CalOptima's needs, regulatory requirements, and applicable law and distributed to all affected **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs**, as appropriate;
- Oversee and monitor the implementation of the **Compliance Program**, and provide regular reports no less than quarterly to the **CalOptima Board** and CEO summarizing all efforts, including, but not limited to, the **Compliance Committee**'s efforts to ensure adherence to the **Compliance Program**, identification and resolution of suspected, detected, or reported instances of non-compliance, and CalOptima's compliance oversight and ~~***audit***~~**Audit** activities;
- Maintain the compliance reporting mechanisms and manage inquiries and reports from CalOptima's Compliance and Ethics Hotline in accordance with specified protocols, including, but not limited to, maintenance of documentation for each report of potential non-compliance or potential **FWA** received from any source through any reporting method;
- Design, coordinate, and/or conduct regular internal ~~***audits***~~**Audits** to ensure the **Compliance Program** is properly implemented and followed, in addition to verifying all appropriate financial and administrative controls are in place;
- Develop and implement an annual schedule of **Compliance Program** activities for each of CalOptima's programs, and regularly report CalOptima's progress in implementing those plans to the appropriate **Board** ~~Committee~~ committee and/or to the **Board of Directors**;
- Serve as a liaison between CalOptima and all applicable state and federal agencies for non-compliance and/or **FWA** issues, including facilitating any documentation or procedural requests by such agency(s);
- Oversee and monitor all compliance investigations, including investigations performed by CalOptima's regulators (e.g., **DHCS** and **CMS**) and consult with legal counsel, as necessary;

- Create and coordinate educational training programs and initiatives to ensure that the **CalOptima Board**, ~~***employees***~~**Employees**, and **FDRs** are knowledgeable about CalOptima's **Compliance Program**, including the **Code of Conduct**, ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, and all current and emerging applicable statutory and regulatory requirements;
- Timely initiate, investigate, and complete risk assessments and related activities, and direct and implement appropriate **Corrective Action Plans**, ~~***sanctions***~~**Sanctions**, and/or other remediation, including, but not limited to, collaboration with the Human Resources Department to ensure consistent, timely, and effective disciplinary standards are followed; and
- Coordinate with CalOptima departments and **FDRs** to ensure ~~exclusion~~**Exclusion** and ~~preclusion~~**Preclusion** screening (including through the **OIG List of Excluded Individuals and Entities (LEIE)**, **General Services Administration (GSA) System for Award Management (SAM)**, ~~and~~ **Medi-Cal Suspended & Ineligible (S&I) Provider List**, and the **CMS Preclusion List**) has been conducted and acted upon, as appropriate, in accordance with regulatory and contractual requirements.

c. Compliance Committee

The **Compliance Committee**, chaired by the **Compliance Officer**, is composed of CalOptima's ~~***senior management***~~**Executive Staff** and operational staff, as designated by the CEO. The members of the **Compliance Committee** serve at the discretion of the CEO and may be removed, or added, at any time. The role of the **Compliance Committee** is to implement and oversee the **Compliance Program** and to participate in carrying out the provisions of this **Compliance Plan**. The **Compliance Committee** meets at least on a quarterly basis, or more frequently as necessary, to enable reasonable oversight of the **Compliance Program**.

The **CalOptima Board** delegates the following responsibilities to the **Compliance Committee**:

- Maintain and update the **Code of Conduct** consistent with regulatory requirements and/or operational changes, subject to the ultimate approval by the **CalOptima Board**;
- Maintain written notes, records, correspondence, or minutes (as appropriate) of **Compliance Committee** meetings reflecting reports made to the **Compliance Committee** and the **Compliance Committee's** decisions on the issues raised (subject to all applicable privileges);
- Review and **Monitor** the effectiveness of the **Compliance Program**, including **Monitoring** key performance reports and metrics, evaluating business and administrative operations, and overseeing the creation, implementation, and development of corrective and preventive action(s) to ensure they are prompt and effective;
- Analyze applicable federal and state program requirements, including contractual, legal, and regulatory requirements, along with areas of risk, and coordinate with the **Compliance Officer** to ensure the adequacy of the **Compliance Program**;
- Review, approve, and/or update ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** to ensure the successful implementation and effectiveness of the **Compliance Program** consistent with regulatory, legal, and contractual requirements;
- Recommend and monitor the development of internal systems and controls to implement CalOptima's standards and ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** as part of its daily operations;
- Determine the appropriate strategy and/or approach to promote compliance and detect potential violations and advise the **Compliance Officer** accordingly;

- Develop and maintain a reporting system to solicit, evaluate, and respond to complaints and problems;
- Review and address reports of ~~*monitoring*~~**Monitoring** and ~~auditing~~**Auditing** of areas in which CalOptima is at risk of program non-compliance and/or potential **FWA**, and ensure **CAPs** and **ICAPs** are implemented and **Monitored** for effectiveness;
- Suggest and implement all appropriate and necessary actions to ensure that CalOptima and its **FDRs** conduct activities and operations in compliance with the applicable ~~law~~laws and regulations and sound business ethics; and
- Provide regular and ad-hoc status reports of compliance with recommendations to the **CalOptima Board of Directors**.

d. Audit & Oversight Committee (AOC)

The **Audit & Oversight Committee** (**AOC**) is a subcommittee of the **Compliance Committee** and is co-led by the Director(s) of Audit & Oversight. The **AOC** is responsible for overseeing the delegated and internal activities of CalOptima. The **Compliance Committee** has final approval authority for any delegated and internal activities. Committee members include representatives from CalOptima's departments as provided for in CalOptima Policy HH.4001Δ: Audit & Oversight Committee. In addition to the monthly scheduled meetings, the **AOC** may conduct ad hoc meetings either in-person or via teleconference, as needed. All materials requiring action by the **AOC** are approved by the majority of a quorum of the **AOC**. A quorum is defined as one (1) over fifty percent (50%). **AOC** may approve and/or implement **Corrective Action Plans** (**CAPs**); however, recommendations for **FDR** ~~sanctioning~~**Sanctions** and/or de-~~*delegation*~~**Delegation** are submitted to the **Compliance Committee** for final approval. The **AOC** also contributes to external reviews and accreditation ~~*audits*~~**Audits**, such as the **National Committee for Quality Assurance** (**NCQA**).

Responsibilities of the **Audit & Oversight Committee** with regard to **FDRs** include:

- Annual review, revision, and approval of the ~~*audit*~~**Audit** tools;
- Review findings of the~~-~~ readiness assessment to evaluate a potential **FDR**'s ability to perform the delegated function(s);
- Review and approve potential **FDR** entities for ~~*delegation*~~**Delegation** of functions;
- Ensure written agreements with each delegated **FDR** clearly define and describe the delegated activities, responsibilities, and reporting requirements of all parties consistent with applicable laws, regulations, and contractual obligations;
- Conduct formal, ongoing evaluation and ~~monitoring~~**Monitoring** of **FDR** performance and compliance through review of periodic reports submitted, complaints/grievances filed, and findings of the annual onsite ~~*audit*~~**Audit**;
- Ensure all **Downstream** and **Related Entities** are ~~monitored~~**Monitored** in accordance with CalOptima oversight procedures;
- Ensure that formal risk assessment is conducted on an annual basis, and update as needed, on an ongoing basis;
- Initiate and manage **Corrective Action Plans** (**CAPs**) for compliance issues;
- Propose ~~*sanctions*~~**Sanctions**, subject to the **Compliance Committee's** approval, if an **FDR's** performance is substandard and/or violates the terms of the applicable agreement; and
- Review and initiate recommendations, such as termination of ~~*delegation*~~**Delegation**, to the **Compliance Committee** for unresolved issues of compliance.

Responsibilities of the **Audit & Oversight Committee** ~~with regard to~~regarding internal business functions include:

- Annual review, revision, and approval of the ~~audit~~**Audit** work plan and ~~***audit***~~**Audit** tools;
- Conduct formal, ongoing evaluation and ~~monitoring~~**Monitoring** of internal business areas' performance and compliance through review of periodic reports submitted, ongoing ~~monitoring~~**Monitoring**, and findings of the annual ~~***audit***~~**Audit**;
- Conduct formal risk assessment on an annual basis, and update as needed, on an ongoing basis; and
- Initiate and manage **Corrective Action Plans** (**CAPs**) for compliance issues.

~~**e. Senior Management**~~

- Initiate and manage other disciplinary actions (e.g., sanctions, de-delegation) for compliance issues.

e. Executive Staff

The CEO and ~~other executive management~~**Executive Staff** of CalOptima shall:

- Ensure that the **Compliance Officer** is integrated into the organization and is given the credibility, authority, and resources necessary to operate a robust and effective **Compliance Program**;
- Receive periodic reports from the **Compliance Officer** of risk areas facing the organization, the strategies being implemented to address them and the results of those strategies; and
- Be advised of all governmental compliance and enforcement findings and activity, including ~~***audit***~~**Audit** findings, ~~notices~~Notices of ~~non-compliance~~Non-Compliance, and formal enforcement actions, and participate in corrective actions and responses, as appropriate.

III. TRAINING

Education and training are critical elements of the **Compliance Program**. CalOptima requires that all **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** complete training upon appointment, hire, or commencement of contract, as applicable, and on an annual basis thereafter. Required courses cover CalOptima's **Code of Conduct**, compliance obligations, ~~and~~ relevant laws, and **FWA**, as applicable. Specialized education courses are assigned to individuals based on their respective roles or positions within or with CalOptima's departments and its programs, which may include, but is not limited to, the fundamentals of managing ~~seniors~~**Seniors and** ~~people~~**People with** ~~disabilities~~**Disabilities (SPD)** and cultural competency.

CalOptima utilizes state of the art web-based training courses that emphasize CalOptima's commitment to the **Compliance Program**, and which courses are updated regularly to ensure that ~~*employees*~~**Employees** are kept fully informed about any changes in procedures, regulations, and requirements. Training may be conducted using new technology resources if materials meet the needs of the organization. The **Compliance Officer,** or his/her ~~*designee*~~**Designee,** is responsible for coordinating compliance education and training programs, and ensuring that records evidencing an individual's/**FDR's** completion of the training requirements are documented and maintained, such as sign-in sheets, attestations, or electronic certifications, as required by law. The **Compliance Officer** and the CalOptima ~~management staff~~**Executive Staff** and **Management** are responsible for ensuring that **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** complete training on an annual basis.

a. Code of Conduct

CalOptima's training program includes the distribution of CalOptima's **Code of Conduct** to **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**. **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** are required to sign an attestation acknowledging receipt, review, and understanding of the **Code of Conduct** within ninety (90) calendar days of their appointment, date of hire, or commencement of the contract, and annually thereafter. Completion and attestation of such review of the **Code of Conduct** is a condition of continued appointment, employment, or contract services. Signed attestations are maintained in each individual's personnel file, as required by law.

b. Mandatory Training Courses (Compliance Oversight, FWA, and HIPAA)

CalOptima requires **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**, regardless of role or position with CalOptima, to complete mandatory compliance training courses. Mandatory courses may include, but are not limited to: the fundamentals of the **Compliance Program**; **FWA** training; **Health Insurance Portability and Accountability Act of 1996 (HIPAA)** privacy and security requirements; ethics; and a high-level overview of the Medicare and Medi-Cal Programs. Detailed information about state and federal false claims acts and whistleblower protections as provided in CalOptima Policy HH.5004Δ: False Claims Act Education shall be included in the mandatory courses. CalOptima's training courses cover CalOptima's commitment to compliance with federal and state laws and regulations, contractual obligations, internal policies, and ethics. Elements of the **Compliance Program** are highlighted, including, but not limited to, an emphasis on CalOptima's requirement to and different means to report suspected or actual non-compliance, violations, and/or **FWA** issues, along with CalOptima's policy on confidentiality, anonymity, and

non-retaliation for such reporting. CalOptima's **HIPAA** privacy and security training course covers the administrative, technical, and physical safeguards necessary to secure ~~***members'* protected health information~~**Members' Protected Health Information** **(PHI)** and ~~personally identifiable information~~**Personally Identifiable Information** **(PII)**.

Employees must complete the required compliance training courses within ninety (90) calendar days of hire, and annually thereafter. Adherence to the **Compliance Program** requirements, including training requirements, shall be a condition of continued employment and a factor in the annual performance evaluation of each ~~***employee***~~**Employee**. **Board** ~~***members***~~**Members** and **FDRs** are required to complete the required compliance training courses within ninety (90) calendar days of appointment or commencement of the contract, as applicable, and annually thereafter. Some **FDRs** may be exempt or deemed to have met the **FWA** training and education requirement if the **FDR** has met the **CMS** requirements, the applicable certification requirements and attests to complying with the standards, or through enrollment into the Medicare program, or accreditation as a Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS). Completion of the training courses are documented electronically, and records of completion are maintained for each individual as required by law.

c. Additional Training

The Office of Compliance may provide additional training opportunities throughout the year focused on essential elements of the **Compliance Program**. These training opportunities are available to ~~***managers***~~**Managers** and ~~***employees***~~**Employees** depending on their respective roles or positions within or with CalOptima's departments and its programs and their involvement in CalOptima's oversight responsibilities. For these training courses, information is presented in a "train the trainer" format, providing ~~***managers***~~**Managers** the tools and resources to train and share the information with ~~***employees***~~**Employees** in their respective departments. If additional training related to **FWA** is required, the **Compliance Officer,** or his/her ~~***designee***~~**Designee,** will develop relevant materials.

Employees have access through CalOptima's internal intranet website (referred to as the "InfoNet") to CalOptima's ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** governing the **Compliance Program** and pertinent to their respective roles and responsibilities. **Employees** may receive such additional compliance training as is reasonable and necessary based on changes in job descriptions/duties, promotions, and/or the scope of their job functions.

Board ~~***members***~~**Members** receive a copy of the **Compliance Plan**, **Code of Conduct**, and ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** pertinent to their appointment as part of orientation within ninety (90) calendar days of their appointment to the **CalOptima Board**. **Board** ~~***members***~~**Members** may receive additional compliance training related to the **CalOptima Board**'s role in overseeing and ensuring organizational compliance with CalOptima's **Compliance Program**.

The **Code of Conduct** and ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** pertinent to their engagement with CalOptima, if directly engaged by CalOptima, are made available to **FDRs** upon commencement of the **FDR** contract. **FDRs** are required to disseminate copies of the **Code of Conduct** and ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** to their ~~***employees***~~**Employees**, agents, and/or **Downstream Entities**. CalOptima may also develop compliance training and education presentations and/or roundtables for specified **FDRs**.

IV.LINES OF COMMUNICATION AND REPORTING

a. General Compliance Communication

CalOptima regularly communicates the requirements of the **Compliance Program** and the importance of performing individual roles and responsibilities in compliance with applicable laws, contractual obligations, and ethical standards. CalOptima utilizes various methods and forms to communicate general information, statutory or regulatory updates, process changes, updates to ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**, contact information for the **Compliance Officer**, relevant federal and state ~~*fraud*~~**Fraud** alerts and policy letters, pending/new legislation reports, and advisory bulletins from the **Compliance Officer** to **CalOptima Board** ~~*members, employees*~~**Members, Employees**, **FDRs**, and ~~*members*~~**Members**, including, but not limited to:

- Presentations and Updates at Meetings – CalOptima periodically holds and utilizes in-person and conference call meetings with the **CalOptima Board**, **FDRs**, ~~*employees,*~~ **Employees**, and individual CalOptima departments, and ~~*members.*~~ **Members.**
- Compliance 360 – CalOptima maintains an internal and external website and portal referred to as Compliance 360, accessible to **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs**, which contains CalOptima's updated ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**.
- Newsletters or Mailed Notices – CalOptima develops, and where appropriate, translates, publications and/or notices, to **Board** ~~*members, employees*~~**Members, Employees**, **FDRs**, and ~~*members*~~**Members**.
- Electronic Mail – The CEO, **Compliance Officer**, or their respective ~~*designee*~~**Designee**, periodically sends out email communications and/or alerts to **Board** ~~*members, employees,*~~**Members, Employees**, and **FDRs**, and/or ~~*members*~~**Members**, as applicable.
- CalOptima's Internal Intranet Website – CalOptima maintains an internal intranet website, referred to as InfoNet, where CalOptima posts applicable updates and notices to ~~*employees*~~**Employees**.
- CalOptima's Compliance Internal Website – The Office of Compliance maintains an internal department website accessible to CalOptima ~~*employees*~~**Employees** to communicate different Compliance initiatives, notices, key documents and forms, and updates to the **Compliance Program**, **Code of Conduct**, and/or ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**.
- Postings – The Office of Compliance posts information on how to report potential issues of non-compliance and **FWA** throughout CalOptima's facilities, including, but not limited to, break rooms, which are accessible to CalOptima ~~*employees*~~**Employees**.
- Written Reports – The **Compliance Officer**, in coordination with the CEO and **Compliance Committee**, prepares written ~~monthly~~ reports~~.~~, no less than quarterly, concerning the status of the **Compliance Program** to be presented to the **CalOptima Board**.
- Direct Contact with the **Compliance Officer** - **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** can obtain additional compliance information directly from the **Compliance Officer**. Any questions, which cannot be answered by the **Compliance Officer**, shall be referred to the **Compliance Committee**.

b. Reporting Mechanisms

CalOptima Board ~~*members, employees*~~**Members, Employees**, and **FDRs** have an affirmative duty and are directed in CalOptima's **Code of Conduct** and ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** to report compliance concerns, questionable conduct or practices, and suspected or actual violations immediately upon discovery. Failure by **Board** ~~*members, employees*~~**Members, Employees**, and/or

FDRs to report known violations, failure to detect violations due to negligence or reckless conduct, and making false reports may constitute grounds for disciplinary action, up to and including, recommendation for removal from appointment, termination of employment, or termination of an **FDR** contract, where appropriate.

CalOptima has established multiple reporting mechanisms to receive, record, and respond to compliance questions, potential non-compliance issues and/or **FWA** incidents or activities. These reporting systems, which are outlined in greater detail below, provide for anonymity and confidentiality (to the extent permitted by applicable law and circumstances). Reminders and instructions on how to report compliance and **FWA** issues are also provided to **Board** ~~*members*~~, ~~*employees*~~**Members, Employees**, **FDRs**, and ~~*members*~~**Members** in newsletters, on CalOptima's website, in trainings, on posters and at meetings. CalOptima maintains and supports a non-retaliation policy governing good-faith reports of suspected, or actual, non-compliance and/or **FWA**.

Upon receipt of a report through one (1) of the listed mechanisms, the **Compliance Officer**, or his/her ~~*designee*~~**Designee**, shall follow appropriate ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** to promptly review, investigate, and resolve such matters. The **Compliance Officer,** or his/her ~~*designee*~~**Designee**, shall monitor the process for follow-up communications to persons submitting reports or disclosures through these reporting mechanisms and shall ensure documentation concerning such reports is maintained according to all applicable legal and contractual requirements.

1. *Report Directly to ~~a Supervisor~~Management or ~~Manager~~Executive Staff*

CalOptima ~~*employees*~~**Employees** are encouraged to contact their immediate ~~*supervisor*~~,**Management** or ~~*manager*~~,**Executive Staff** when non-compliant activity is suspected, or observed. A report should be made immediately upon suspecting or identifying the potential or suspected non-compliance, or violation. ~~The *supervisor*~~,**Executive Staff** or ~~*manager*~~,**Management** will promptly escalate the report to the **Compliance Officer** for further investigation and reporting to the CalOptima **Compliance Committee**. If an ~~*employee*~~**Employee** is concerned that his/her ~~*supervisor*~~**Management** or ~~*manager*~~**Executive Staff** did not adequately address his/her report or complaint, the ~~*employee*~~**Employee** may go directly to the **Compliance Officer**, or the CEO.

2. *Call the Compliance and Ethics Hotline*

CalOptima maintains an easily accessible Compliance and Ethics Hotline, available twenty-four (24) hours a day, seven (7) days a week, with ~~Spanish and English capability~~multilingual support, in which CalOptima may receive anonymous issues on a confidential basis. **Members** are encouraged to call the Compliance and Ethics Hotline if they have identified potential non-compliant activity, or **FWA** issues. The Compliance and Ethics Hotline information is as follows:

TOLL FREE COMPLIANCE and ETHICS HOTLINE
(877) 837-4417

Calls or issues reported through the Compliance and Ethics Hotline are received, logged into a database, and investigated by the Regulatory Affairs & Compliance Department. No disciplinary action will be taken against individuals making good-faith reports. Every effort will be made to keep reports confidential to the extent permitted by law. The process for reporting suspected violations to the Compliance and Ethics Hotline is part of the education and/or orientation for all **Board** ~~*members*~~,

~~*employees*~~**Members, Employees**, **FDRs**, and ~~*members*~~**Members**. **Members** also have access to the **Compliance Officer** through the Compliance and Ethics Hotline and/or the right to contact the **OIG** Compliance Hotline (1-800-447-8477) directly.

3. *Report Directly to the Compliance Officer*

The **Compliance Officer** is available to receive reports of suspected or actual compliance violations, or **FWA** issues, on a confidential basis (to the extent permitted by applicable law or circumstances) from **Board** ~~*members, employees*~~**Members, Employees**, **FDRs** and ~~*members*~~**Members**. The **Compliance Officer** may be contacted by telephone, written correspondence, email, or by a face-to-face appointment. **FDRs** are generally contractually obligated to report suspected ~~*fraud*~~**Fraud** and ~~*abuse*~~**Abuse** to CalOptima pursuant to regulatory and contractual requirements.

4. *Report Directly to Office of Compliance*

Reports may be made directly to CalOptima's Office of Compliance via mail, email, or through the Compliance and Ethics Hotline for confidential reporting. Emails can be sent to Compliance@caloptima.org. Mail can be sent to:

CalOptima
ATTN: Compliance Officer
505 City Parkway West
Orange, CA, 92868

5. *Confidentiality and Non-Retaliation*

Every effort will be made to keep reports confidential to the extent permitted by applicable law and circumstances, but there may be some instances where the identity of the individual making the report will have to be disclosed. As a result, CalOptima has implemented and enforces a non-retaliation policy to protect individuals who report suspected or actual non-compliance, or **FWA**, issues in good faith. This non-retaliation policy extends to reports received from **FDRs** and ~~*members*~~**Members**. CalOptima's non-retaliation policy is communicated along with reporting instructions by posting information on the CalOptima InfoNet and website, as well as sending periodic ~~member~~**Member** notifications.

CalOptima also takes violations of CalOptima's non-retaliation policy seriously, and the **Compliance Officer** will review and enforce disciplinary and/or other **Corrective Action Plans** for violations, as appropriate, with the approval of the **Compliance Committee**.

V.ENFORCEMENT AND DISCIPLINARY STANDARDS

Board ~~*members, employees*~~**Members, Employees**, and **FDRs** are provided copies of CalOptima's **Code of Conduct** and the **Compliance Plan** and have access on CalOptima's internal and external website to applicable ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**, including, but not limited to, CalOptima Policy GA.8022: Performance and Behavior Standards and Office of Compliance Policies addressing **Corrective Action Plans** and ~~*sanctions*~~**Sanctions**. Consistent, timely, and effective enforcement of CalOptima's standards are implemented when non-compliance or unethical behavior is confirmed, and appropriate disciplinary and/or corrective action is implemented to address improper conduct, activity, and/or behavior.

a. Conduct Subject to Enforcement and Discipline

Board ~~*members, employees*~~**Members, Employees**, and **FDRs** are subject to appropriate disciplinary and/or corrective actions if they have violated CalOptima's standards, requirements, or applicable laws as specified and detailed in the **Compliance Program** documents and related ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**, including CalOptima Policy GA.8022: Performance and Behavior Standards, as applicable. **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** may be disciplined or sanctioned, as applicable, for failing to adhere to CalOptima's **Compliance Program** and/or violating standards, regulatory requirements, and/or applicable laws, including, but not limited to:

- Conduct that leads to the filing of a false or improper claim in violation of federal or state laws and/or contractual requirements;
- Conduct that results in a violation, or violations, of any other federal or state laws or contractual requirements relating to participation in **Federal and/or State** ~~*health care programs*~~**Health Care Programs**;
- Failure to perform any required obligation relating to compliance with the Compliance Program, applicable laws, ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures** and/or contracts; or
- Failure to report violations or suspected violations of the **Compliance Program**, or applicable laws, or to report suspected or actual **FWA** issues to an appropriate person through one (1) of the reporting mechanisms.
- Conduct that violates **HIPAA** and other privacy laws and/or CalOptima's **HIPAA** privacy and security policies, including actions that harm the privacy of ~~*members*~~**Members**, or the CalOptima information systems that store member data.

b. Enforcement and Discipline

CalOptima maintains a "zero tolerance" policy towards any illegal, or unethical, conduct that impacts the operation, mission, or image of CalOptima. The standards established in the **Compliance Program** shall be enforced consistently through appropriate disciplinary actions. Individuals, or entities, may be disciplined by way of reprimand, suspension, financial penalties, ~~*sanctions*~~**Sanctions**, and/or termination, depending on the nature and severity of the conduct, or behavior. **Board** ~~*members*~~**Members** may be subject to removal, ~~*employees*~~**Employees** are subject to discipline, up to and including termination, and **FDRs** may be sanctioned, or contracts may be terminated, where permitted. Violations of applicable laws and regulations, even unintentional, could potentially subject individuals, entities, or CalOptima to civil, criminal, or administrative ~~*sanctions*~~**Sanctions** and/or penalties. Further violations could lead to suspension,

~~preclusion~~**Preclusion**, or ~~exclusion~~**Exclusion**, from participation in **Federal and/or State** ~~***health care programs***~~**Health Care Programs**.

CalOptima ~~***employees***~~**Employees** shall be evaluated annually based on their compliance with CalOptima's **Compliance Program**. Where appropriate, CalOptima shall promptly initiate education and training to correct identified problems, or behaviors.

VI.MONITORING, AUDITING, AND IDENTIFICATION OF RISKS

Activities associated with ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** are identified through a combination of activities: risk assessments, **Audit & Oversight Committee** and **Compliance Committee** discussions and decisions, and internal and external reporting. Through ~~monitoring, auditing~~**Monitoring, Auditing**, and identification of risks, CalOptima can prevent, detect, and correct non-compliance with applicable federal and/or state requirements.

a. Risk Assessment

The **Compliance Officer,** or his/her ~~***designee***~~**Designee,** will collaborate with the **Compliance Committee** to identify areas of focus for ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** potential non-compliant activity and **FWA** issues. A **Compliance Risk Assessment** will be performed no less than annually, and as needed, to evaluate the current status of CalOptima's operational areas as well as the operations of **FDRs**. Operations and processes will be evaluated based on: (1) deficiencies found by ~~regulatory agencies~~**Regulatory Agencies**; (2) deficiencies found by internal and external ~~***audit***~~**Audit** and ~~***monitoring***~~**Monitoring** reports; (3) the institution of new or updated ~~procedures~~**Policies and Procedures**; (4) cross departmental interdependencies; and (5) the effect on the beneficiary experience. The Readiness Checklist established by **CMS** and the **OIG** Work Plan shall be used as resources to evaluate operational risks.

The **Compliance Officer,** or his/her ~~***designee***~~**Designee,** will work with the Chief Operating Officer, or his/her ~~***designee***~~**Designee**, in each operational area, to answer the questions associated with each process and to continually examine and identify potential risk areas requiring monitoring and ~~auditing~~**Auditing**. Those operational areas determined to be high risk may be subject to more frequent ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing**, as well as additional reporting requirements. The risk assessment process will be managed by the **Compliance Officer**, or his/her ~~***designee***~~**Designee**, and presented to the **AOC**, and subsequently to the **Compliance Committee**, for review and approval. **Monitoring** plans will be developed in collaboration with the operational areas, and focused ~~***audits***~~**Audits** may be scheduled based on the results of the ongoing monitoring and respective risk score.

The risk assessment shall also be updated as processes change, or are identified as being deficient.

b. Monitoring and Auditing

CalOptima conducts both internal and external routine ~~auditing~~**Auditing** and ~~***monitoring activities***~~**Monitoring Activities** to test and confirm compliance with all applicable regulations, guidance, contractual agreements, and federal and state laws, as well as CalOptima ~~***policies***~~**Policies** **and** ~~***procedures***~~**Procedures** to protect against non-compliance and potential **FWA** in **CalOptima** ~~***programs***~~**Programs**. CalOptima and **FDRs** shall comply with applicable data certification requirements, including, without limitation, 42 C.F.R. §§ 438.604 and 438.606. **Monitoring** ~~***activities***~~**Activities** are regular reviews performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective. An ~~***audit***~~**Audit** is a formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a ~~particular~~ set of standards (e.g., ~~***policies***~~**Policies** **and** ~~***procedures***~~**Procedures**, laws, and regulations) used as base measures. As part of the ~~monitoring~~**Monitoring** process, CalOptima has created a dashboard, which is a

~~monitoring~~**Monitoring** tool to track key metrics, including, but not limited to, coverage determinations, complaints, appeals, grievances, regulatory communications, credentialing, customer service, transition of coverage (TOC), and claims. The dashboard will be used to communicate results associated with ~~monitoring~~**Monitoring** operations and outcomes and to identify areas in need of targeted ~~auditing~~**Auditing** on at least a monthly basis. Information taken from the dashboard along with grievance and complaint call information will be used to develop ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** work plans. **Monitoring** and ~~auditing~~**Auditing** work plans are used to detect potential areas of risk and/or non-compliant activity. The ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** work plans are subject to daily updates and additions, and are therefore, working documents. The **Compliance Officer**, or his/her ~~***designee***~~**Designee,** in collaboration with the **AOC** and **Compliance Committee**, develops the ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** work plans to address the risks associated with each of **CalOptima's** ~~***programs***~~**Programs**.

The **Compliance Officer,** or his/her ~~***designee***~~**Designee,** will coordinate with CalOptima's Audit & Oversight Department in connection with appropriate ~~auditing~~**Auditing** and ~~***monitoring activities***~~**Monitoring Activities**. **Audits** for each operational area will be conducted throughout the year consistent with the ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** work plans. The **Compliance Officer**, or his/her ~~***designee***~~**Designee,** will coordinate the ~~***audits***~~**Audits** with internal audit staff, and, in some cases, with the assistance from an outside vendor. **Audit** methodologies shall be consistent with regulatory and **NCQA** requirements and standards. All ~~***audits***~~**Audits** will include review of applicable documents and evaluation of actual processes to ensure compliance with all applicable regulations and contractual obligations. Once the ~~***audit***~~**Audit** review is completed, the ~~***audit team***~~Audit & Oversight teams will communicate the results to the **Compliance Officer** and propose follow up corrective action(s), if necessary. The **Compliance Officer,** or his/her ~~***designee***~~**Designee,** will provide reports to the CEO and the **Compliance Committee** concerning the results of the ~~***audits***~~**Audits**. The **AOC** reports to the **Compliance Officer** and the **Compliance Committee** on ~~***audits***~~**Audits** that involve **FDRs** as discussed below. If **FWA** issues are identified during an ~~***audit***~~**Audit**, the matter will be further investigated and resolved in a timely manner. In addition, an ~~***audit***~~**Audit** of the **Compliance Program** and its effectiveness should occur at least annually, and the results shall be reported to the **CalOptima Board**.

c. Oversight of Delegated Activities

To ensure the terms and conditions of statutory and contractual obligations to **CMS**, **DHCS**, and other governmental and regulatory entities are adhered to, CalOptima implements a comprehensive oversight ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** process of **FDRs** who perform delegated activities. The processes that CalOptima implements to oversee, ~~monitor~~**Monitor**, and ~~***audit***~~**Audit** **FDRs** are incorporated into CalOptima's written ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, including processes involving pre-contractual evaluations and ~~***audits***~~**Audits** of **First Tier Entities**. CalOptima may implement **Corrective Action Plans**, ~~***sanctions***~~**Sanctions**, and/or revoke its ~~***delegation***~~**Delegation** of duties (in a manner permitted under the contract) if CalOptima determines that an **FDR** is unable or unwilling to carry out its responsibilities consistent with statutory and contractual obligations.

The **Compliance Officer**, or his/her ~~***designee***~~**Designee**, determines the process for ~~monitoring~~**Monitoring** delegated **FDRs** and develops the annual ~~monitoring~~**Monitoring** and ~~***audit***~~**Audit** calendar in order to ~~validPate~~validate compliance with contractual standards and regulatory requirements. The **AOC** is responsible for overseeing all of the delegated activities and will review the readiness assessment, ensure the annual review of **FDRs** for delegated functions are

completed, conduct formal on-going evaluation of **FDR** performance and compliance, ensure **Downstream** and **Related Entities** are monitored, and impose **Corrective Action Plans** and/or ~~*sanctions*~~**Sanctions** if the **FDR**'s performance fails to meet statutory and contractual standards and requirements. The **AOC** may recommend termination of ~~*delegation*~~**Delegation** to the **Compliance Committee** for unresolved matters.

d. Monitoring and Audit Review Process for FDRs

1. *Initial Evaluation*

Prior to executing a contract or ~~*delegation*~~**Delegation** agreement with a potential **FDR**, a risk assessment is performed to determine the type of initial evaluation that will be performed. If it is deemed necessary, an initial evaluation, referred to as a Readiness Assessment as detailed in CalOptima's ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**, is completed to determine the ability of the potential **FDR** to assume responsibility for delegated activities and to maintain CalOptima standards, applicable state, **CMS**, and regulatory requirements, and accreditation requirements. The initial evaluation includes, but is not limited to, review of the entity's operational capacity and resources to perform the delegated functions, evaluation of the entity's ability to meet contractual and regulatory requirements, verification that the entity is not ~~precluded~~**Precluded** on the **Preclusion List**, excluded in the **OIG List of Excluded Individuals/Entities (LEIE)**, the **General Services Administration (GSA) System of Award Management (SAM)**, or the ~~*DHCS*~~ **Medi-Cal Suspended & Ineligible (S&I) Provider** ~~Manual~~ **List** from participating in health programs, and/or an initial onsite evaluation. Results of the initial evaluation are presented to the **AOC** and subsequently the **Compliance Committee** for review and/or approval.

2. *Contracting with FDRs*

Once an entity has been approved, the ~~*delegation*~~**Delegation** agreement specifies the activities CalOptima delegates to the **FDRs**, each party's respective roles and responsibilities, reporting requirements and frequency, submission of data requirements, the process for performance evaluations and ~~*audits*~~**Audits**, and remedies, including disciplinary actions, available to CalOptima. Prior to any ~~*sub*~~**Sub-delegation** to any **Downstream** or **Related Entity**, a **First Tier Entity** must obtain approval from CalOptima. CalOptima determines who will directly monitor the **Downstream** or **Related Entity's** compliance with requirements.

FDRs shall be required to institute a training program consistent with CalOptima's requirements intended to communicate CalOptima's compliance requirements as well as compliance characteristics related to the **FDR** and their contractually delegated area(s). Furthermore, **FDRs** will be required to complete, sign, and return attestation forms confirming the **FDR**'s compliance with new hire and annual training and education requirements, which includes courses on general compliance and **FWA** as well as ~~exclusion~~**Exclusion** and ~~preclusion~~**Preclusion** screening and **FWA** reporting obligations.

3. *Annual Risk Assessment*

The **Compliance Officer**, or his/her ~~*designee*~~**Designee**, will ensure that an annual comprehensive risk assessment is conducted in accordance with CalOptima Policy HH.2027Δ: Annual Risk Assessment (Delegate) to determine the **FDR's** vulnerabilities and high-risk areas. High-risk **FDRs** are those that are continually non-compliant or at risk of non-compliance based on identified gaps in

processes with regulatory and CalOptima requirements. Any previously identified issues, which include any corrective actions, service level performance, reported detected offenses, and/or complaints and appeals from the previous year will be factors that are included in the risk assessment. Any **FDR** deemed high risk, or vulnerable, is presented to the **AOC** for suggested follow-up ~~*audit*~~**Audit**. **FDRs** determined to be high risk may be subjected to a more frequent ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing** schedule, as well as additional reporting requirements. The risk assessment process, along with reports from **FDRs**, will be managed by the **Compliance Officer**, or his/her ~~*designee*~~**Designee**, and presented to the **AOC** and subsequently to the **Compliance Committee** for review and approval.

4. *FDR Performance Reviews and Audits*

CalOptima conducts a periodic comprehensive performance review of the **FDR's** ability to provide delegated services in accordance with contractual standards and applicable state, **CMS**, and accreditation requirements, as further detailed in CalOptima's ~~*policies*~~**Policies and** ~~*procedures*~~**Procedures**. CalOptima may conduct ~~*audits*~~**Audits** of **FDRs** at any time. Such ~~*audits*~~**Audits** may include an evaluation of the **FDR's** training and education program and materials covering general compliance and **FWA**, as well as compliance with applicable laws, regulations, and contractual obligations governing delegated activities. High-risk **FDRs**, as determined by the annual risk assessment and/or continued non-compliance, will obtain priority status on the annual ~~*audit*~~**Audit** calendar; however, CalOptima does not limit its ~~auditing~~**Auditing** schedule to only high-risk **FDRs**.

If CalOptima has reason to believe the **FDR's** ability to perform a delegated function is compromised, an additional focused ~~*audit*~~**Audit** may be performed. The **Compliance Officer,** or his/her ~~*designee*~~**Designee**, may also recommend focused ~~*audits*~~**Audits** upon evaluation of non-compliant trends or reported incidents. The results of these ~~*audits*~~**Audits** will be reported to the **AOC** and then to the **Compliance Committee**.

A focused ~~*audit*~~**Audit** may be initiated for any of the following activities, or any other reason at the discretion of CalOptima:

- Failure to comply with regulatory requirements and/or CalOptima's service level performance indicators;
- Failure to comply with a **Corrective Action Plan**;
- Reported or alleged ~~*fraud, waste*~~**Fraud, Waste**, and/or ~~*abuse*~~**Abuse**;
- Significant policy variations that deviate from the CalOptima or state, **CMS**, or accreditation requirements;
- Bankruptcy, or impending bankruptcy, which may impact services to ~~*members*~~**Members** (either suspected or reported);
- Sale, merger, or acquisition involving the **FDR**;
- Significant changes in the management of the **FDR**; and/or
- Changes in resources which impact CalOptima's and/or the **FDR's** operations.

5. *Corrective Actions and Additional Monitoring and Auditing*

The **Compliance Officer,** or his/her ~~*designee*~~**Designee**, shall submit regular reports of all monitoring, ~~*audit*~~**Audit**, and corrective action activities to the **Compliance Committee**. In instances where non-compliance is identified, a **Corrective Action Plan** shall be developed by the

FDR and reviewed and approved by the **Compliance Officer**, or his/her ~~*designee*~~**Designee**. Every **Corrective Action Plan** is presented to the AOC, in aggregate, with no less than quarterly updates, and recommendations for ~~review.~~escalation, as applicable. Supplemental and focused ~~*audits*~~**Audits** of **FDRs**, as well as additional reporting, may be required until compliance is achieved.

At any time, CalOptima may implement ~~*sanctions*~~**Sanctions** or require remediation by an **FDR** for failure to fulfill contractual obligations including development and implementation of a **Corrective Action Plan**. Failure to cooperate with CalOptima in any manner may result in termination of the ~~*delegation*~~**Delegation** agreement, in a manner authorized under the terms of the agreement.

e. Evaluation of Audit Activities

An external review of CalOptima's ~~auditing~~**Auditing** process is conducted through identified process measures. These measures support organizational, accreditation, and regulatory requirements and are reported on a yearly basis. CalOptima uses an independent, external consultant firm to periodically review the ~~auditing~~**Auditing** processes, including ~~*policies*~~**Policies** **and** ~~*procedures*~~, ~~*audit*~~**Procedures, Audit** tools, and ~~*audit*~~**Audit** findings, to ensure all regulatory requirements are being audited in accordance with industry standards/practices and are in compliance with federal and state regulations.

The current measures reviewed include:

- The central database of all pending, active, and terminated **FDRs** to monitor and track functions, performance, and ~~*audit*~~**Audit** schedules;
- Implementation of an escalation process for compliance/performance issues;
- Implementation of a process for validation of ~~*audit*~~**Audit** tools;
- Implementation of a process for noticing **FDRs** and functional areas of **Corrective Action Plans**;
- Tracking and trending internal compliance with oversight standards, performance, and outcomes;
- Implementation of an annual training program for internal staff regarding ~~*delegation*~~**Delegation** standards, ~~auditing~~**Auditing**, and ~~monitoring~~**Monitoring** **FDR** performance; and/or
- Implementation of a process for dissemination of regulatory changes to include Medi-Cal and Medicare lines of business.

The following key performance metrics will be evaluated and reported periodically:

- Evaluations of **FDR** performance and reporting of delegated functions in accordance with the terms of the agreement;
- Number of annual oversight ~~*audits*~~**Audits** completed within twelve (12) months; and
- **Corrective Action Plans** (**CAPs**) completed within the established time frame.

f. Regular Exclusion and Preclusion Screening

As detailed in CalOptima's ~~*policies*~~**Policies** **and** ~~*procedures*~~**Procedures**, CalOptima performs **Participation Status Reviews** by ~~reviewing~~searching the **OIG –LEIE**, the **GSA–SAM**, the **DHCS Medi-Cal Suspended & Ineligible Provider Lists**, and the **CMS Preclusion List** upon appointment, hire, or commencement of a contract, as applicable, and monthly thereafter, to ensure

Board ~~*members, employees*~~**Members, Employees**, and/or **FDRs** are not excluded, or do not become excluded or precluded from participating in **Federal and/or State** ~~*health care programs.*~~**Health Care Programs**. **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** are required to disclose their ~~*participation status*~~**Participation Status** as part of their initial appointment, employment, commencement of the contract and registration/application processes and when **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** receive notice of a suspension, ~~preclusion, exclusion~~**Preclusion, Exclusion**, or debarment during the period of appointment, employment, or contract term. CalOptima also requires that its **First Tier Entities** comply with **Participation Status Review** requirements with respect to their relationships with **Downstream Entities**, including without limitation, the delegated credentialing and re-credentialing processes.

The **Compliance Officer,** or his/her ~~*designee*~~**Designee,** will review reports from ~~*employees*~~**Employees** responsible for conducting the **Participation Status Reviews** to ensure ~~*employees*~~**Employees** record and maintain the results of the reviews and notices/disclosures. **Employees** shall immediately notify the **Compliance Officer**, or his/her **Designee,** of affirmative findings of a person, or entity's, failure to meet the **Participation Status Review** requirements. If CalOptima learns that any prospective, or current, **Board** ~~*member, employee*~~**Member, Employee**, or **FDR** has been proposed for ~~exclusion, excluded~~**Exclusion, Excluded**, or ~~precluded~~**Precluded**, CalOptima will promptly remove him/her/the **FDR** from **CalOptima's** ~~*programs*~~**Programs** consistent with applicable policies and/or contract terms.

Payment may not be made for items or services furnished, or prescribed, by an excluded person, or entity. Payments made by CalOptima to excluded persons, or entities, after the effective date of their suspension, ~~exclusion~~**Exclusion**, debarment, or felony conviction, and/or for items or services furnished at the medical direction, or on the prescription of a physician who is suspended, excluded, or otherwise ineligible to participate, are subject to repayment/recoupment. Such requirements also apply to providers on the **CMS Preclusion List**, consistent with regulatory guidance, applicable policies, and/or contract terms. The **Compliance Officer,** or his/her ~~*designee*~~**Designee**, will review potential organizational obligations related to the reporting of identified excluded, precluded, or suspended, individuals, or entities, and/or refund obligations and consult with legal counsel, as necessary and appropriate, to resolve such matters.

VII.RESPONSE AND REMEDIATION

a. Response to Notice of Violation or Suspected Violation

Upon receipt of a report or notice of violation or suspected violation of CalOptima's **Compliance Program** and/or **FWA** issues, the **Compliance Officer,** or his/her ~~***designee***~~**Designee**, shall, upon promptly verifying the facts related to the violation or likely violation, notify the **Compliance Committee**, as appropriate. The **Compliance Committee** (in consultation with legal counsel, as appropriate) shall determine a response as soon as practicable, which shall include, but not be limited to:

- Recommending investigation of all aspects of the suspected violation or questionable conduct;
- Approving disciplinary actions, ~~***sanctions***~~**Sanctions**, termination of any agreement and/or any other corrective action ~~(including repayment of ***overpayments***)~~ consistent with applicable ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures**, subject to consultation with legal counsel and/or notifying the **Governing Body**, as appropriate;
- Implementing education and training programs for **Board** ~~***members, employees***~~**Members, Employees**, and/or **FDRs**, where applicable, to correct the violation and prevent recurrence;
- Amending, if necessary, CalOptima's **Compliance Plan**, **Code of Conduct**, and/or relevant ~~***policies***~~**Policies and** ~~***procedures*** in an effort~~**Procedures** to avoid any future recurrence of a violation; and/or
- Ensuring that compliance reports are kept confidential, where permitted by law, and if appropriate, protected under applicable privileges, including, but not limited to, the attorney/client privilege and ensuring that all files regarding compliance matters are appropriately secured.

It is the responsibility of the **Compliance Officer** and the **Compliance Committee** to review and implement any appropriate corrective and/or disciplinary action in consultation with the Human Resources Department, as applicable, consistent with applicable ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** after considering such recommendations. The **Compliance Officer**, or his/her ~~***designee***, shall~~**Designee**, may monitor and review corrective actions after their implementation to ensure that they are effective.

b. Referral to Enforcement Agencies

In appropriate circumstances, CalOptima shall report violations of Medi-Cal Program requirements to **DHCS** Audits and Investigations, violations of Medicare Program requirements to the Medicare Drug Integrity Contractor (MEDIC), and violations of other state and federal laws to the appropriate law enforcement agencies, in accordance with the applicable reporting procedures adopted by such enforcement agencies.

c. Response to Fraud Alerts

CMS issues alerts to Part D sponsors concerning ~~***fraud***~~**Fraud** schemes identified by law enforcement officials. Typically, these alerts describe alleged activities involving pharmacies practicing drug diversion or prescribers participating in illegal remuneration schemes. CalOptima may take action (including denying or reversing claims) in instances where CalOptima's own analysis of its claims activity indicates that ~~***fraud***~~**Fraud** may be occurring. CalOptima's decision to deny, or reverse, claims shall be made on a claim-specific basis.

When a ~~*fraud*~~**Fraud** alert is received, CalOptima shall review its ~~*delegation*~~**Delegation** agreements with the identified parties, and shall consider terminating the contract(s) with the identified parties if indictments have been issued against the particular parties and the terms of the ~~*delegation*~~**Delegation** agreement(s) authorizes contract termination.

CalOptima is also obligated to review its past paid claims from entities identified in a ~~*fraud*~~**Fraud** alert. With the issuance of a ~~*fraud*~~**Fraud** alert, **CMS** places CalOptima on notice (see Title 42, Code of Federal Regulations, §423.505(k)(3)) that claims involving the identified party ~~needs~~need to be reviewed. To meet the "best knowledge, information, and belief" standard of certification, CalOptima shall make its best efforts to identify claims that may be, or may have been, part of an alleged ~~*fraud*~~**Fraud** scheme and remove them from the sets of prescription drug event data submissions.

d. Identifying and Monitoring Providers with a History of Complaints

CalOptima shall maintain files for a period of ten (10) years on both in-network and out-of-network providers who have been the subject of complaints, investigations, violations, and prosecutions. This includes ~~member~~**Member** complaints, **DHCS** Audits and Investigations referrals, MEDIC investigations, **OIG** and/or DOJ investigations, US Attorney prosecution, and any other civil, criminal, or administrative action for violations of **Federal and/or State** ~~*health care programs*~~**Health Care Programs** requirements. CalOptima shall also maintain files that contain documented warnings (e.g., ~~*fraud*~~**Fraud** alerts) and educational contacts, the results of previous investigations, and copies of complaints resulting in investigations. CalOptima shall comply with requests by law enforcement, **DHCS**, **CMS**, and **CMS'** ~~*designee*~~**Designee**, regarding ~~monitoring~~**Monitoring** of **FDRs** within CalOptima's network that **DHCS**, or **CMS**, has identified as potentially abusive, or fraudulent.

e. Identifying and Responding to Overpayments

CalOptima shall sustain an effective system for the review of suspect claims to detect and prevent **FWA** within a **CalOptima** ~~program~~**Program**. All suspect claims shall be thoroughly investigated to determine whether such claims are the direct result of **FWA** activity. CalOptima shall assess all **FDRs** for potential ~~*overpayments*~~**Overpayments** when reviewing and undertaking corrective actions. Upon completion of the suspect claim(s) investigation(s), CalOptima shall recoup and/or return ~~*overpayments*~~**Overpayments** consistent with applicable laws and regulatory guidance. ~~Should revisions to reported data be~~

As required, CalOptima and/or the **FDR** shall update appropriate data sources and reports, via documenting and/or resubmission, as appropriate. The resolution(s) for suspect claim(s) investigation(s) may include, but is not limited to: (i) recoupment through established procedures, (ii) provider education about billing protocols, and (iii) reporting of ~~*overpayment*~~**Overpayment** determinations to ~~regulatory agencies~~**Regulatory Agencies**, as required by law.

When applicable, CalOptima shall return **Overpayments** made to CalOptima, consistent with applicable state and federal laws and regulatory guidance.

C. FRAUD, WASTE, AND ABUSE (FWA) PREVENTION AND DETECTION

The detection, prevention, and remediation of **FWA** are components of CalOptima's **Compliance Program**. **FWA** activities are implemented and overseen by CalOptima's **Compliance Officer,** or his/her ~~***designee***~~**Designee,** in conjunction with other compliance activities, and investigations are performed, or overseen, by the Special Investigations Unit (SIU), an internal investigative unit within CalOptima's Office of Compliance, responsible for **FWA** investigations. The **Compliance Officer,** or his/her ~~***designee***~~**Designee**, reports **FWA** activities to the CalOptima **Compliance Committee**, CEO, the **CalOptima Board**, and ~~regulatory agencies~~**Regulatory Agencies**.

CalOptima utilizes various resources to detect, prevent, and remediate **FWA**. In addition, CalOptima promptly investigates suspected **FWA** issues and ~~implements~~may implement disciplinary, or corrective, action to avoid recurrence of **FWA** issues. ~~–~~The objective of the **FWA** program is to ensure that the scope of benefits covered by the **CalOptima** ~~***programs***~~**Programs** is appropriately delivered to ~~***members***~~**Members** and resources are effectively utilized in accordance with federal and state guidelines. CalOptima incorporates a system of internal assessments which are organized to identify **FWA** and promptly respond appropriately to such incidents of **FWA**.

I.FWA TRAINING

As detailed above, **FWA** training is provided to all **Board** ~~*members*~~**Members** and ~~*employees*~~**Employees** as part of the overall compliance training courses in order to help detect, prevent, and remediate **FWA**. **FDRs** are also required to complete **FWA** training, as described above. CalOptima's **FWA** training provides guidance to **Board** ~~*members, employees*~~**Members, Employees**, and **FDRs** on how to identify activities and behaviors that would constitute **FWA** and how to report suspected, or actual, **FWA** activities. Training materials are retained for a period of at least ten (10) years, and such training includes, but is not limited to:

- The process for detection, prevention, and reporting of suspected or actual **FWA**;
- Examples of the most common types of member **FWA** (see Appendix B, attached hereto and incorporated herein) and **FDR FWA** (see Appendix C, attached hereto and incorporated herein) as well as common local and national schemes relevant to managed care organization operations;
- Information on how to identify **FWA** in **CalOptima** ~~*programs*~~**Programs** (e.g., suspicious activities suggesting CalOptima ~~members~~**Members**, or their family members, may be engaged in improper drug utilization or drug-seeking behavior, conduct suggesting improper utilization, persons offering kickbacks for referring, or enrolling, individuals in the **CalOptima** ~~*programs*~~**Programs**, etc.);
- Information on how to identify potential prescription drug **FWA** (e.g., identification of significant outliers whose drug utilization patterns far exceed those of the average ~~member~~**Member** in terms of cost or quantity, disproportionate utilization of controlled substances, use of prescription medications for excessive periods of time, high-volume prescriptions of a particular manufacturer's drugs, submission of false claims or false data for prescription drug claims, misrepresenting the type of drug that was actually dispensed, excessive prescriptions by a particular physician, etc.);
- How to report potential **FWA** using CalOptima's reporting options, including CalOptima's Compliance and Ethics Hotline, and for **FDRs**, reporting obligations;
- CalOptima's policy of non-retaliation and non-retribution toward individuals who make such reports in good faith; and
- Information on the **False Claims Act** and CalOptima's requirement to train ~~*employees*~~**Employees** and **FDRs** on the **False Claims Act** and other applicable **FWA** laws.

CalOptima shall provide **Board** ~~*members, employees*~~**Members, Employees**, **FDRs**, and ~~*members*~~**Members** with reminders and additional training and educational materials through print and electronic communications, including, but not limited to, newsletters, alerts, and/or applicable meetings.

II.DETECTION OF FWA

a. Data Sources

In partnership with ~~the Regulatory Affairs & Compliance Department~~CalOptima internal departments, CalOptima's SIU utilizes different sources and analyzes various data information in an effort to detect patterns of **FWA**. Potential fraudulent cases will not only come from claims data but can also originate from many sources internally and externally. **Members**, **FDRs**, ~~*employees*~~**Employees**, law enforcement and ~~regulatory agencies~~**Regulatory Agencies,** and others ~~are able to~~may contact CalOptima by phone, mail, and email if they suspect any individual, or entity, is engaged in inappropriate practices. Furthermore, the sources identified below can be used to identify problem areas within CalOptima, such as enrollment, finance, or data submission.

Sources used to detect **FWA** include, but are not limited to:

- CalOptima's Compliance and Ethics Hotline or other reporting mechanisms;
- Claims data history;
- Encounter data;
- Medical record ~~*audits*~~**Audits**;
- **Member** and provider complaints, appeals, and grievance reviews;
- Utilization Management reports;
- Provider utilization profiles;
- Pharmacy data;
- **Auditing** and ~~*monitoring activities*~~**Monitoring Activities**;
- Monitoring external health care **FWA** cases and determining if CalOptima's **FWA** Program can be strengthened with information gleaned from the case activity; and/or
- Internal and external surveys, reviews, and ~~*audits*~~**Audits**.

b. Data Analytics

CalOptima uses technology and data analysis to reduce **FWA** externally. Using a combination of industry standard edits and CalOptima-specific edits, CalOptima identifies claims for which procedures have been unbundled, or upcoded. CalOptima also identifies suspect **FDRs** based on billing patterns.

CalOptima also uses the services of an external **Medicare Secondary Payer (MSP)** ~~vendor~~**Vendor** to reduce costs associated with its Medicare-Medicaid programs, such as the **OneCare**, **OneCare Connect**, and/or **PACE** programs, by ensuring that ~~Federal~~federal and ~~State~~state funds are not used where certain health insurance, or coverage, is primarily responsible.

c. Analysis and Identification of Risk Areas Using Claims Data

Claims data ~~is~~are analyzed in numerous ways to uncover fraudulent billing schemes. Routine review of claims data will be conducted in order to identify unusual patterns, outliers in billing and utilization, and identify the population of providers and pharmacies that will be further investigated and/or ~~audited~~**Audited**. Any medical claim can be pended and reviewed in accordance with applicable state or federal law if they meet certain ~~criterion~~criteria that ~~warrants~~warrant additional review. Payments for pharmacy claims may also be pended and reviewed in accordance with

applicable state or federal law based on criteria focused on the types of drugs (~~for example~~e.g., narcotics), provider patterns, and challenges previously reported pertaining to certain pharmacies. CalOptima along with the **PBM** will conduct data mining activities in order to identify potential issues of **FWA**.

The following trends will be reviewed and flagged for potential **FWA**, including:

- Over utilized services;
- Aberrant provider billing practices;
- Abnormal billing in relation to peers;
- Manipulation of modifiers;
- Unusual ~~Coding~~coding practices such as excessive procedures per day, or excessive surgeries per patient;
- Unbundling of services;
- Unusual Durable Medical Equipment (DME) billing; and/or
- Unusual utilization patterns by ~~***members***~~**Members** and providers.

The following claims data may be utilized to evaluate and uncover fraudulent billing schemes:

- Average dollars paid per medical procedure;
- Average medical procedures per office visit;
- Average visits per member;
- Average distance a member travels to see a provider/pharmacy;
- Excessive patient levels of high-risk diagnoses; and/or
- Peer to peer comparisons within specialties.

Once vulnerabilities are identified, immediate actions are taken in order to mitigate the possible losses, including, but not limited to, claims denial or reversal and/or the reporting of suspected **FWA**. The data review includes, but is not limited to:

- Analysis of provider medical billing activity within their own peer group;
- Analysis of pharmacy billing and provider prescribing practices;
- Controlled drug prescribing exceeds two (2) standard deviations of the provider's peer group; and/or
- Number of times a provider bills a CPT code in relation to all providers, or within their own peer group.

The claims data from the **PBM** will go through the same risk assessment process. The analysis will be focused on the following characteristics:

- Prescription drug shorting, which occurs when pharmacy staff provides less than the prescribed quantity and intentionally does not inform the beneficiary, or ~~makes arrangements~~arranges to provide the balance but bills for the prescribed amount.
- Bait and switch pricing, which occurs when a ~~***member***~~**Member** is led to believe that a drug will cost one (1) price, but at the point of sale, they are charged a higher amount. An example of this type of scheme is when the pharmacy switches the prescribed medication to a form that increases the pharmacy's reimbursement.

- Prescription forging, or altering, which occurs when existing prescriptions are altered to increase the quantity or the number of refills, without the prescriber's authorization. Usually, the medications are diverted after being billed to the Medicare Part D program.
- Dispensing expired, or adulterated, prescription drugs, which occurs when pharmacies dispense drugs after the expiration date on the package. This also includes drugs that are intended as samples not for sale, or have not been stored or handled in accordance with manufacturer and FDA requirements.
- Prescription refill errors, which occur when pharmacy staff deliberately provides ~~a number of~~several refills different from the number prescribed by the provider.
- Failure to offer negotiated prices, which occurs when a pharmacy charges a ~~member~~**Member** the wrong amount.

d. Sample Indicators

No one (1) indicator is evidence of **FWA**. The presence of several indicators may suggest **FWA**, but further investigation is needed to determine if a suspicion of **FWA** ~~actually~~ exists. The following list below highlights common industry indicators and red flags that are used to determine whether ~~or not~~ to investigate an **FDR** or their claim disposition:

- Claims that show any altered information (dates; codes; names).
- Photocopies of claim forms and bills, or handwritten claims and bills.
- Provider's last name is the same as the ~~*member*~~**Member**/patient's last name.
- Insured's address is the same as the servicing provider.
- Same provider submits multiple claims for the same treatment for multiple family members or group members of provider's practice.
- Provider resubmitting claim with changed diagnosis code for a date of service already denied.

Cases identified through these data sources and risk assessments are entered into the **FWA** database and a report is generated and submitted to the **Compliance Officer**, **Compliance Committee**, and CEO.

III.FWA INVESTIGATIVE PROCESS

Once the SIU receives an allegation of suspected **FWA** or detects **FWA** through an evaluation of the data sources identified above, the SIU utilizes the following steps as a guide to investigate and document the case:

- The allegation is logged into the Fraud Tracking Database (~~Access~~access database maintained by SIU on an internal drive);
- The allegation is assigned an investigation number (sequentially by year of receipt) and an electronic file is assigned on the internal drive, by investigation number and name;
- SIU develops an investigative plan;
- SIU obtains a legal opinion from CalOptima's Legal Counsel on specific cases, or issues;
- Quality of care issues are referred to CalOptima's Quality Improvement Department;
- Where appropriate, SIU will submit a Request for Information (RFI) directly to an **FDR** to obtain relevant information;
- SIU, or a ~~***designee***~~**Designee**, interviews the individual who reported the **FWA**, affected ~~***members***~~**Members** and/or **FDRs**, or any other potential witnesses, as appropriate;
- SIU conducts a data analytics review of the allegation for overall patterns, trends, and errors using applicable data sources and reports;
- Review of **FDR** enrollment applications, history, and ownership, as necessary;
- Review of ~~member~~**Member** enrollment applications and other documents, as necessary;
- All supporting documentation is scanned and saved in the assigned electronic file. Any pertinent information, gathered during the SIU review/investigation, is placed into the electronic file;
- After an allegation is logged into the Fraud Tracking Database, the investigation is tracked to its ultimate conclusion, and the Fraud Tracking Database shall reflect all information gathered and documentation received to ensure timely receipt, review, and resolution, and report may be made to applicable state or federal agencies within mandated/required time periods, if appropriate;
- If a referral to another investigative agency is warranted, the information is collected, and a referral is made to the appropriate agency; and/or
- If the investigation results in recommendations for disciplinary or corrective actions, the results of the investigation ~~shall~~may be ~~forwarded~~reported to the **Compliance Officer** and **Compliance Committee**. If a CalOptima internal department or FDR has repeat disciplinary or corrective actions, SIU may report the issue(s) to the **Compliance Committee** for ~~discussion and approval~~further action.

a. Findings, Response, and Remediation

Outcomes and findings of the investigation may include, but are not limited to, confirmation of violations, insufficient evidence of **FWA**, need for contract amendment, education and training requirement, recommendation of focused ~~***audits***~~**Audits**, additional investigation, continued ~~monitoring~~**Monitoring**, new policy implementation, and/or criminal or civil action. When the root cause of the potential **FWA** issue has been identified, the SIU will track and trend the **FWA** allegation and investigation, including, but not limited to, the data analysis performed, which shall be reported to the **Compliance Committee** on a quarterly basis. Investigation findings can be used to determine whether ~~or not~~ disciplinary, or corrective, action is appropriate, whether there is a need for

a change in CalOptima's ~~*policies*~~**Policies** **and** ~~*procedures*~~**Procedures**, and/or whether the matter should be reported to applicable state and federal agencies.

In accordance with applicable CalOptima ~~*policies*~~**Policies** **and** ~~*procedures*~~**Procedures**, CalOptima shall take appropriate disciplinary, or corrective, action against **Board** ~~*members, employees*~~**Members, Employees**, and/or **FDRs** related to validated instances of **FWA**. CalOptima will also assess **FDRs** for potential ~~*overpayments*~~**Overpayments** when reviewing and undertaking corrective actions. Corrective actions will be monitored by the **Compliance Committee**, and progressive discipline will be monitored by the Department of Human Resources, as appropriate. Corrective actions may include, but are not limited to, financial ~~*sanctions*~~**Sanctions**, regulatory reporting, **Corrective Action Plans**, or termination of the ~~*delegation*~~**Delegation** agreement, when permitted by the contract terms. Should such disciplinary, or corrective, action need to be issued, ~~CalOptima~~CalOptima's Office of Compliance will initiate review and discussion at the first **Compliance Committee** following the date of identification of the suspected **FWA**, the date of report to **DHCS**, or the date of **FWA** substantiation by **DHCS** subsequent to the report. If vulnerability is identified through a single **FWA** incident, the ~~correction~~corrective action may be applied universally.

b. Referral ~~T~~to Enforcement Agencies

CalOptima's SIU shall coordinate timely referrals of potential **FWA** to appropriate ~~regulatory agencies~~**Regulatory Agencies**, or their designated program integrity contractors, including the **CMS** MEDIC, **DHCS** Audits and Investigations, and/or other enforcement agencies, in accordance with the applicable reporting procedures adopted by such enforcement agencies. **FDRs** shall report **FWA** to CalOptima within the time frames required by the applicable contract and in sufficient time for CalOptima to timely report to applicable enforcement agencies. Significant program non-compliance, or suspected **FWA**, should be reported to **CMS** and/or **DHCS**, as soon as possible after discovery, but no later than ten (10) working days to **DHCS** after CalOptima first becomes aware of and is on notice of such activity, and within thirty (30) calendar days to MEDIC after a **OneCare**, **OneCare Connect**, or **PACE** case is reported to CalOptima's SIU.

Potential cases that should be referred include, but are not limited to:

- Suspected, detected, or reported criminal, civil, or administrative law violations;
- Allegations that extend beyond CalOptima and involve multiple health plans, multiple states, or widespread schemes;
- Allegations involving known patterns of **FWA**;
- Patterns of **FWA** threatening the life, or well-being, of CalOptima ~~*members*~~**Members**; and/or
- Schemes with large financial risk to CalOptima, or its ~~*members*~~**Members**.

IV.ANNUAL FWA EVALUATION

CalOptima's **Compliance Committee** shall periodically review and evaluate the **FWA** activities and its effectiveness as part of the overall **Compliance Program** ~~*audit*~~**Audit** and ~~*monitoring activities*~~**Monitoring Activities**. Revisions should be made based on industry changes, trends in **FWA** activities (locally and nationally), the **OIG** Work Plan, the CalOptima **Compliance Plan**, and other input from applicable sources.

a. Retention of Records

CalOptima shall maintain reports and summaries of **FWA** activities and all proceedings of the various committees in original, electronic, or other media format in accordance with applicable statutory, regulatory, contractual, CalOptima policy, and other requirements. CalOptima shall file copies of ~~member~~**Member** records containing **PHI** in a secure and confidential manner, regardless of the outcome of a review. CalOptima shall file copies of **FWA** investigations in a secure and confidential manner, regardless of the outcome of an investigation.

b. Confidentiality

CalOptima and its **FDRs** shall maintain all information associated with suspected, or actual, **FWA** in confidential files, which may only be released in accordance with applicable laws and CalOptima ~~*policies*~~**Policies** **and** ~~*procedures*~~**Procedures**. All participants and attendees of CalOptima's Quality Improvement Committee, **Compliance Committee**, and respective subcommittees~~,~~ shall sign a "Confidentiality Agreement" agreeing to hold all committee discussions confidential.

D. COMPLIANCE PROGRAM EVALUATION

In order to ensure the effectiveness of the **Compliance Program**, CalOptima will conduct a self-assessment no less than annually. The assessment will evaluate the **Compliance Program** against the elements of an effective **Compliance Program** as recommended by **OIG** and required by **CMS** regulations. The following areas will be reviewed:

- **Policies and** ~~***procedures***~~**Procedures**;
- **Compliance Officer** and **Compliance Committee**;
- Training and education of **Board** ~~***members, employees***~~**Members, Employees**, and **FDRs**;
- Effective lines of communication;
- Well publicized disciplinary guidelines;
- Internal ~~monitoring~~**Monitoring** and ~~auditing~~**Auditing**;
- **Delegation** oversight;
- **Exclusion** and ~~preclusion~~**Preclusion** screening process; and
- Prompt responses to detected offenses.

The **Compliance Program** will be evaluated no less than annually by an outside entity. The results of the evaluation will be shared with ~~***senior management***~~**Executive Staff and Management**, the **Compliance Committee**, and the **CalOptima Board**. Updates to the **Compliance Program** will be based on the results of the evaluation and will be referred to the **CalOptima Board** for review and approval.

I.PRIVILEGED FILES AND DOCUMENT RETENTION

I.Privileged FILING SYSTEMS

The ***Compliance Officer,*** or his/her ***designee,*** shall establish and maintain a filing system (or systems) for all compliance-related documents. The following files shall be established at CalOptima (as applicable):

a. Compliance Plan, Code of Conduct, and Policies and Procedures File

This file shall contain copies of the following (unless originals specified):

- ***Compliance Plan*** and any amendments;
- Any ***Compliance Program policies and procedures*** issued after the initiation of the ***Compliance Program***;
- Reports to, and Resolutions/Minutes of CalOptima's Board approving the Compliance Program, ***Compliance Plan***, ***Code of Conduct*** and/or appointment of the ***Compliance Officer***;

a. Files

- All non-privileged communications to the ***Compliance Officer*** (original);
- All ***Compliance Committee*** and ***CalOptima Board*** minutes in which compliance issues are discussed; and/or
- Any other written records of the ***AOC***, or other oversight activities (originals if generated by the ***Compliance Officer***).

b. Information and Education File

files

This file shall contain copies of the following (unless originals specified):

- ***FDR*** training and attestation records (including attendance records, Affirmation Statements, and the outline of topics covered);
- ***Board member*** and ***employee*** training records, attestations, and attendance records are maintained by the Human Resources Department.
- Educational materials provided to ***Board members***, ***employees***, and ***FDRs***;
- Notices, ***fraud*** alerts, and/or federal and state laws and regulations which have been posted on bulletin boards, placed in payroll stuffers, or sent via print or electronic communication (and the dates and locations of such notices); and/or
- All other written records of training activities.

c. Monitoring, Enforcement, and Response File

This file shall contain copies of the following (unless originals specified):

- Records relating to compliance reports including reports to the Compliance and Ethics Hotline and/or to the ***Compliance Officer*** (originals);
- Records relating to periodic monitoring and auditing of the ***Compliance Program*** (originals);

- ~~Records relating to ***Board member***, ***employee***, and ***FDR Participation Status*** Review or background checks (originals except where ***FDRs*** perform ***Participation Status*** Reviews);~~
- ~~Records relating to established periodic monitoring mechanisms;~~
- ~~All documents pertaining to the enforcement of the ***Compliance Program***, including, investigations and disciplinary and/or corrective actions; and/or~~
- ~~All documents reflecting actions taken after an offense has been detected, and all efforts to deter and prevent future violations.~~

~~**d. Privileged File**~~

~~This file~~ shall be protected by, and marked, privileged and confidential and its contents shall be kept in a secure location. ~~-~~Only the **Compliance Officer**, CalOptima legal counsel, and the **Compliance Committee**, where appropriate, shall have access to its contents. ~~-~~All ~~material~~materials in ~~this~~the privileged file shall be treated as attorney-client privileged and shall not be disclosed to persons outside the privileged relationship. ~~-This~~The privileged file ~~contains~~shall contain the following original documents (except where only a copy is available):

- Records of requests for legal assistance or legal opinion(s) in connection with Compliance and Ethics Hotline telephone calls, correspondence related thereto, and/or problems reported to the **Compliance Officer**;
- The response from legal counsel regarding any such issues; and/or
- Legal opinions concerning **FDR delegation** agreement interpretations and remedies available to CalOptima.

~~e.~~b. Document Retention

~~All of the documents to be maintained in the filing system described above shall be retained~~CalOptima shall retain contracts, books, documents, records, financial statements, and other data, as defined in Title 42, Code of Federal Regulations, Sections 438.5(c), 438.604, 606, 608, and 610, for no less than ten (10) years from end of the fiscal year in which the CalOptima Medi-Cal contract expires, or is terminated (other than privileged documents which shall be retained until the issue raised in the documentation has been resolved, or longer if necessary). ~~-~~Records pertaining to CalOptima's OneCare, OneCare Connect, or PACE programs shall also be retained for ten (10) years from end date of the applicable contract~~.~~ (except for privileged documents which shall be retained until the issue raised in the documentation has been resolved, or longer if necessary).

CalOptima shall maintain the documentation required by **HIPAA** for at least six (6) years from the date of its creation or the date when it last was in effect, whichever, is later. Such documentation includes: (i) ~~***policies***~~**Policies and** ~~***procedures***~~**Procedures** (and changes thereto) designed to comply with the standards, implementation specifications or other designated requirements; (ii) writings, or electronic copies, of communications required by **HIPAA**; (iii) writings, or electronic copies, of actions, activities, or designations required to be documented under **HIPAA**; and (iv) documentation to meet its burden of proof related to identification of breaches under Title 45, Code of Federal Regulations, §164.414(b).

Appendix A

Code of Conduct

Principle	Standard
Mission, Vision, and Values CalOptima is committed to its Mission, Vision, and Values	**Mission** To provide members with access to quality health care services delivered in a cost-effective and compassionate manner. **Vision** To be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes for all CalOptima members. **Values = CalOptima CARES** **C**ollaboration; **A**ccountability; **R**espect; **E**xcellence; **S**tewardship
Compliance with the Law CalOptima is committed to conducting all activities and operations in compliance with applicable law.	**Transparent, Legal, and Ethical Business Conduct** CalOptima is committed to conducting its business with integrity, honesty and fairness and in compliance with all laws and regulations that apply to its operations. CalOptima depends on its Board members, employees, and those who do business with it to help fulfill this commitment. **Obeying the Law** Board members, employees and contractors (including First Tier and Downstream Entities included in the term "FDRs") shall not lie, steal, cheat, or violate any law in connection with their employment and/or engagement with CalOptima. **Fraud, Waste, & Abuse (FWA)** CalOptima shall refrain from conduct, which would violate the fraud, waste, and abuse laws. CalOptima is committed to the detection, prevention, and reporting of fraud, waste, and abuse. CalOptima is also responsible for ensuring that Board members, employees, and FDRs receive appropriate FWA training as described in regulatory guidance. CalOptima's Compliance Plan, Fraud, Waste, and Abuse Plan and policies describe examples of potential fraud, waste, and abuse and discuss employee and contractor FWA obligations and potential sanctions arising from relevant federal and state FWA laws. CalOptima expects and requires that its Board members, employees, and contractors do not participate in any conduct that may violate the FWA laws including, federal and state anti-kickback laws, false claims acts, and civil monetary penalty laws.

Principle	Standard
	Political Activities CalOptima's political participation is limited by law. CalOptima funds, property, and resources are not to be used to contribute to political campaigns, political parties, and/or organizations. Board members, employees and contractors may participate in the political process on their own time and at their own expense but shall not give the impression that they are speaking on behalf of or representing CalOptima in these activities. **Anti-Trust** All Board members, employees, and contractors must comply with applicable antitrust, unfair competition, and similar laws, which regulate competition. Such persons shall seek advice from legal counsel if they encounter any business decisions involving a risk of violation of antitrust laws. The types of activities that potentially implicate antitrust laws include, without limitation, agreements to fix prices, bid rigging, and related activities; boycotts, certain exclusive dealings and price discrimination agreements; unfair trade practices; sales or purchases conditioned on reciprocal purchases or sales; and discussion of factors determinative of prices at trade association meetings.
Member Rights CalOptima is committed to meeting the health care needs of its members by providing access to quality health care services.	**Member Choice, Access to Health Care Services, Continuity of Care** Employees and contractors shall comply with CalOptima policies and procedures and applicable law governing member choice, access to health care services and continuity of member care. Employees and contractors shall comply with all requirements for coordination of medical and support services for persons with special needs. **Cultural and Linguistic Services** CalOptima and contractors shall provide culturally, linguistically, and sensory appropriate services to CalOptima members to ensure effective communication regarding diagnosis, medical history, and treatment, and health education. **Disabled Member Access** CalOptima's facilities shall adhere to the requirements of Title III of the Americans with Disabilities Act of 1990 by providing access for disabled members. **Emergency Treatment** Employees and contractors shall comply with all applicable guidelines, policies and procedures, and laws governing CalOptima member access and payment of emergency services including, without limitation, the Emergency Medical Treatment

Principle	Standard
	and Active Labor Act ("EMTALA") and state patient "anti-dumping" laws, prior authorization limitations, and payment standards. **Grievance and Appeals Processes** CalOptima, its physician groups, its health networks and third-party administrators (TPA) shall ensure that CalOptima members are informed of their grievance and appeal rights including, the state hearing process, through member handbooks and other communications in accordance with CalOptima policies and procedures and applicable laws. Employees and contractors shall address, investigate, and resolve CalOptima member complaints and grievances in a prompt and nondiscriminatory manner in accordance with CalOptima policies and applicable laws.
Business Ethics In furtherance of CalOptima's commitment to the highest standards of business ethics, employees and contractors shall accurately and honestly represent CalOptima and shall not engage in any activity or scheme intended to defraud anyone of money, property, or honest services.	**Candor & Honesty** CalOptima requires candor and honesty from individuals in the performance of their responsibilities and in communications including, communications with CalOptima's Board of Directors, supervisory employees, attorneys, and auditors. No Board member, employee, or contractor shall make false or misleading statements to any members and/or persons, or entities, doing business with CalOptima about products or services of CalOptima. **Financial and Data Reporting** All financial reports, accounting records, research reports, expense accounts, data submissions, attestations, timesheets, and other documents must accurately and clearly represent the relevant facts and the true nature of a transaction. CalOptima maintains a system of internal controls to ensure that all transactions are executed in accordance with management's authorization and recorded in a proper manner to maintain accountability of the agency's assets. Improper or fraudulent accounting documentation or financial reporting or false or misleading encounter, claims, cost, or other required regulatory data submissions is contrary to the policy of CalOptima and may be in violation of applicable laws and regulatory obligations. **Regulatory Agencies and Accrediting Bodies** CalOptima will deal with all regulatory agencies and accrediting bodies in a direct, open, and honest manner. Employees and contractors shall not take action with regulatory agencies and accrediting bodies that is false or misleading.

Principle	Standard
Public Integrity CalOptima and its Board members and employees shall comply with laws and regulations governing public agencies.	**Public Records** CalOptima shall provide access to CalOptima Public Records to any person, corporation, partnership, firm, or association requesting to inspect and copy them in accordance with the California Public Records Act, California Government Code Sections 6250 et seq. and CalOptima policies. **Public Funds** CalOptima, its Board members, and employees shall not make gifts of public funds or assets or lend credit to private persons without adequate consideration unless such actions clearly serve a public purpose within the authority of the agency and are otherwise approved by legal counsel. CalOptima, its Board members, and employees shall comply with applicable law and CalOptima policies governing the investment of public funds and expenditure limitations. **Public Meetings** CalOptima, and its Board members, and employees shall comply with requirements relating to the notice and operation of public meetings in accordance with the Ralph M. Brown Act, California Government Code Sections 54950 et seq.
Confidentiality Board members, employees, and contractors shall maintain the confidentiality of all confidential information in accordance with applicable law and shall not disclose such confidential information except as specifically authorized by CalOptima policies, procedures, and applicable laws.	**No Personal Benefit** Board members, employees and contractors shall not use confidential or proprietary CalOptima information for their own personal benefit or for the benefit of any other person or entity, while employed at, or engaged by, CalOptima, or at any time thereafter. **Duty to Safeguard Member Confidential Information** CalOptima recognizes the importance of its members' right to confidentiality and implements policies and procedures to ensure its members' confidentiality rights and the protection of medical and other confidential information. Board members, employees and contractors shall safeguard CalOptima member identity, eligibility, social security, medical information and other confidential information in accordance with applicable laws including the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the Health Information Technology for Economic and Clinical Health Act (HITECH Act) and implementing regulations, the California Security Breach Notification Law, the California Confidentiality of Medical Information Act, other applicable federal and state privacy laws, and CalOptima's policies and procedures.

Principle	Standard
	Personnel Files Personal information contained in Employee personnel files shall be maintained in a manner designed to ensure confidentiality in accordance with applicable laws. **Proprietary Information** Subject to its obligations under the Public Records Act, CalOptima shall safeguard confidential proprietary information including, without limitation, contractor information and proprietary computer software, in accordance with and, to the extent required by, contract or law. CalOptima shall safeguard provider identification numbers including, without limitation, Medi-Cal license, Medicare numbers, social security numbers, and other identifying numbers.
Business Relationships Business transactions with vendors, contractors, and other third parties shall be conducted at arm's length in fact and in appearance, transacted free from improper inducements and in accordance with applicable law and ethical standards.	**Business Inducements** Board members, employees, and contractors shall not seek to gain advantage through improper use of payments, business courtesies, or other inducements. The offering, giving, soliciting, or receiving of any form of bribe or other improper payment is prohibited. Board members, employees, contractors and providers shall not use their positions to personally profit or assist others in profiting in any way at the expense of Federal and/or State health care programs, CalOptima, or CalOptima members. **Gifts to CalOptima** Board members and employees are specifically prohibited from soliciting and accepting personal gratuities, gifts, favors, services, entertainment, or any other things of value from any person or entity that furnishes items or services used, or that may be used, in CalOptima and its programs unless specifically permitted under CalOptima policies. Employees may not accept cash or cash equivalents. Perishable or consumable gifts given to a department or group are not subject to any specific limitation and business meetings at which a meal is served is not considered a prohibited business courtesy. **Provision of Gifts by CalOptima** Employees may provide gifts, entertainment or meals of nominal value to CalOptima's current and prospective business partners and other persons when such activities have a legitimate business purpose, are reasonable, and are otherwise consistent with applicable law and CalOptima policies on this subject. In addition to complying with statutory and regulatory requirements, it is critical to even avoid the appearance of impropriety when giving gifts to persons and entities that do business or are seeking to do business with CalOptima.

Principle	Standard
	Third-Party Sponsored Events CalOptima's joint participation in contractor, vendor, or other third-party sponsored events, educational programs and workshops is subject to compliance with applicable law, including gift of public fund requirements and fraud and abuse prohibitions, and must be approved in accordance with CalOptima policies on this subject. In no event, shall CalOptima participate in any joint contractor, vendor, or third party sponsored event where the intent of the other participant is to improperly influence, or gain unfair advantage from, CalOptima or its operations. Employees' attendance at contractor, vendor, or other third-party sponsored events, educational programs and workshops is generally permitted where there is a legitimate business purpose but is subject to prior approval in accordance with CalOptima policies. **Provision of Gifts to Government Agencies** Board members, employees, and contractors shall not offer or provide any money, gifts, or other things of value to any government entity or its representatives, except campaign contributions to elected officials in accordance with applicable campaign contribution laws. **Broad Application of Standards** CalOptima intends that these standards be construed broadly to avoid even the appearance of improper activity.
Conflicts of Interests Board members and employees owe a duty of undivided and unqualified loyalty to CalOptima.	**Conflict of Interest Code** Designated employees, including Board members, shall comply with the requirements of the CalOptima Conflict of Interest Code and applicable laws. Board members and employees are expected to conduct their activities to avoid impropriety and/or the appearance of impropriety, which might arise from the influence of those activities on business decisions of CalOptima, or from disclosure of CalOptima's business operations. **Outside Services and Interests** Without the prior written approval of the Chief Executive Officer (or in the case of the Chief Executive Officer, the Chair of the CalOptima Board of Directors), no employee shall (1) perform work or render services for any contractor, association of contractors or other organizations with which CalOptima does business or which seek to do business with CalOptima, (2) be a director, officer, or consultant of any contractor or association of contractors; or (3) permit his or her name to be used in any fashion that would tend to indicate a business connection with any contractor or association of contractors.

Principle	Standard
Discrimination CalOptima acknowledges that fair and equitable treatment of employees, members, providers, and other persons is fundamental to fulfilling its mission and goals.	**No Discrimination** CalOptima is committed to compliance with applicable anti-discrimination laws including Title VI of the Civil Right Act of 1964. Board members, employees and contractors shall not unlawfully discriminate on the basis of race, color, national origin, creed, ancestry, religion, language, age, marital status, gender (which includes sex, gender identity, and gender expression), sexual orientation, health status, physical or mental disability, or any other classification protected by law. CalOptima is committed to providing a work environment free from discrimination and harassment based on any classification noted above. **Reassignment** CalOptima, physician groups, and health networks shall not reassign members in a discriminatory manner, including based on the enrollee's health status.
Participation Status CalOptima requires that employees, contractors, providers, and suppliers meet Government requirements for participation in CalOptima's programs.	**Federal and State Health Care Program Participation Status** Board members, employees, and contractors shall not be currently suspended, terminated, debarred, or otherwise ineligible to participate in any Federal or State health care program, including the Medi-Cal program and Medicare programs. **CalOptima Screening** CalOptima will monitor the participation status of employees, individuals and entities doing business with CalOptima by conducting regular exclusion and preclusion screening reviews in accordance with CalOptima policies. **Disclosure of Participation Status** Board members, employees and contractors shall disclose to CalOptima whether they are currently suspended, terminated, debarred, or otherwise ineligible to participate in any Federal and/or State health care program. Employees, individuals, and entities that do business with CalOptima shall disclose to CalOptima any pending investigation, disciplinary action, or other matter that could potentially result in their exclusion or preclusion from participation in any Federal or State health care program. **Delegated Third Party Administrator Review** CalOptima requires that its health networks, physician groups, and third--party administrators review participating providers and suppliers for licensure and participation status as part of the delegated credentialing and recredentialing processes when such obligations have been delegated to them.

Principle	Standard
	Licensure CalOptima requires that all employees, contractors, health networks, participating providers, and suppliers who are required to be licensed, credentialed, certified, and/or registered in order to furnish items or services to CalOptima and its members have valid and current licensure, credentials, certification and/or registration, as applicable.
Government Inquiries/Legal Disputes Employees shall notify CalOptima upon receipt of Government inquiries and shall not destroy or alter documents in response to a government request for documents or information.	**Notification of Government Inquiry** Employees shall notify the Compliance Officer and/or their supervisor immediately upon the receipt (at work or at home) of an inquiry, subpoena, or other agency or government requests for information regarding CalOptima. **No Destruction of Documents** Employees shall not destroy or alter CalOptima information or documents in anticipation of, or in response to, a request for documents by any governmental agency or from a court of competent jurisdiction. **Preservation of Documents Including Electronically Stored Information** Board members and employees shall comply with all obligations to preserve documents, data, and records including, electronically stored information in accordance with CalOptima policies and shall comply with instructions on preservation of information and prohibitions and destruction of information issued by legal counsel.
Compliance Program Reporting Board members, employees, and contractors have a duty to comply with CalOptima's Compliance Program and such duty shall be a condition of their respective appointment, employment, or engagement.	**Reporting Requirements** All Board members, employees and contractors are expected and required to promptly report suspected violations of any statute, regulation, or guideline applicable to Federal and/or State health care programs or of CalOptima's own policies in accordance with CalOptima's reporting policies and its Compliance Plan. Such reports may be made to a supervisor or the Compliance Officer. Reports can also be made to CalOptima's hotline number below. Persons making reports to the hotline can do so on an anonymous basis. **Compliance and Ethics Hotline: 877-837-4417** **Disciplinary Action** Failure to comply with the Compliance Program, including the Code of Conduct, policies, and/or applicable statutes, regulations and guidelines may lead to disciplinary action. Discipline for failure to abide by the Code of Conduct may, in CalOptima's

Principle	Standard
	discretion, range from oral correction to termination in accordance with CalOptima's policies. In addition, failure to comply may result in the imposition of civil, criminal, or administrative fines on the individual, or entity, and CalOptima or exclusion or preclusion from participation in Federal and/or State health care programs. **Training and Education** CalOptima provides training and education to Board members, employees and FDRs. Timely completion of compliance and HIPAA training is mandatory for all CalOptima employees. **No-Retaliation Policy** CalOptima prohibits retaliation against any individual who reports discrimination, harassment, or compliance concerns, or participates in an investigation of such reports. Employees involved in any retaliatory acts may be subject to discipline, up to and including termination of employment. **Referrals of FWA to Government Agencies** CalOptima is obligated to coordinate compliance activities with federal and state regulators. Employees shall comply with CalOptima policies related to FWA referral requirements to federal and state regulators, delegated program integrity contractors, and law enforcement agencies. **Certification** All Board members, employees, and contractors are required to certify, in writing, that they have received, read, understand and will abide by the Code of Conduct and applicable policies.

1

Appendix B

TYPES OF MEMBER FWA

MEMBER FRAUD, WASTE OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
M01	Using another individual's identity or documentation of Medi-Cal eligibility to obtain covered services.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M02	Selling, loaning, or giving a member's identity or documentation of Medi-Cal eligibility to obtain services.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M03	Making an unsubstantiated declaration of eligibility.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M04	Using a covered service for purposes other than the purpose for which it was described including use of such covered service.	Selling a covered wheelchair; selling medications; abusing prescription medications.
M05	Failing to report other health coverage.	Payments by OHI.
M06	Soliciting or receiving a kickback, bribe, or rebate as an inducement to receive or not receive covered services.	Hotline reports; internal reports; reports by health networks.
M07	Other (please specify).	Any source.
M08	Member Pharmacy Utilization	PBM reports; data analytics; claims data; encounter data; FWA software.
M09	Doctor Shopping	PBM reports; data analytics; claims data; encounter data; FWA software.
M10	Altered Prescription	Provider report; DEA report; pharmacy report; PBM reports; data analytics; claims data; encounter data; FWA software.

Appendix C

TYPES OF FDR FWA

FDR FRAUD, WASTE OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
P01	Unsubstantiated declaration of eligibility to participate in the CalOptima program.	Provider information not able to be verified during credentialing or contracting process; providers on the excluded or precluded provider list.
P02	Submission of claims for covered services that are substantially and demonstrably in excess of any individual's usual charges for such covered services.	PBM reports; data analytics; claims data; encounter data; FWA software.
P03	Submission of claims for covered services that are not actually provided to the member for which the claim is submitted.	PBM reports; data analytics; claims data; encounter data; FWA software; verification survey; hotline.
P04	Submission of claims for covered services that are in excess of the quantity that is medically necessary.	PBM reports; data analytics; claims data; encounter data; FWA software.
P05	Submission of claims for covered services that are billed using a code that would result in great payment than the code that reflects the covered services.	PBM reports; data analytics; claims data; encounter data; FWA software.
P06	Submission of claims for covered services that is already included in the capitation rate.	PBM reports; data analytics; claims data; encounter data; FWA software.
P07	Submission of claims for covered services that are submitted for payment to both CalOptima and another third-party payer without full disclosure.	PBM reports; data analytics; claims data; encounter data; FWA software; payment by OHI.
P08	Charging a member in excess of allowable co-payments and deductibles for covered services.	Member report; hotline report; oversight audits.
P09	Billing a member for covered services without obtaining written consent to bill for such services.	Member report; hotline report; oversight audits.
P10	Failure to disclose conflict of interest.	Hotline; credentialing or contracting process.
P11	Receiving, soliciting, or offering a kickback, bribe, or rebate to refer or fail to refer a member.	Hotline report; oversight report.
P12	Failure to register billing intermediary with the Department of Health Care Services.	Oversight audit; report by regulatory body; hotline.

FDR FRAUD, WASTE OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
P13	False certification of medical necessity.	Medical record review; claims data; encounter data; FWA software.
P14	Attributing a diagnosis code to a member that does not reflect the member's medical condition for the purpose of obtaining higher reimbursement.	Medical record review; claims data; encounter data; FWA software.
P15	False or inaccurate minimum standards or credentialing information.	Hotline; credentialing or contracting process.
P16	Submitting reports that contain unsubstantiated data, data that is inconsistent with records, or has been altered in a manner that is inconsistent with policies, contracts, statutes, or regulations.	Medical record review; claims data; encounter data; FWA software.
P17	Other (please specify).	Any source.
P18	Provider Pharmacy Utilization.	PBM reports; data analytics; claims data; encounter data; FWA software.
P19	Billing Medi-Cal member for services.	Member report; hotline report; oversight audits.
P20	Durable Medical Equipment- covered services that are not actually provided to member.	Member report; hotline report; oversight audits; verification survey.

Appendix D

TYPES OF EMPLOYEE FWA

EMPLOYEE FRAUD OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
E01	Use of a member's identity or documentation of Medi-Cal eligibility to obtain services.	Employees obtaining services on a member's account. Hotline report. Data analytics. Referrals to SIU.
E02	Use of a member's identity or documentation of Medi-Cal eligibility to obtain a gain.	Employees obtaining unjust enrichment, funds, or other gain by selling member's account information. Hotline report.
E03	Employee assistance to providers with the submission of claims for covered services that are not actually provided to the member for which the claim is submitted.	Employees obtaining unjust enrichment, funds, or other gain from provider by using member's account information to assist in the submission of false claims. Hotline report. Referrals to SIU.
E04	Employee deceptively accessing company confidential information for purpose of a gain.	Employees obtaining unjust enrichment, funds, or other gain from another by deceptive and unauthorized accessing of information. Hotline Service. Data Analytics. Referrals to SIU.

AFFIRMATION STATEMENTS

CalOptima
AFFIRMATION STATEMENT-SUPERVISORS

I have received and read a copy of the Compliance Plan, Code of Conduct, and relevant Policies and Procedures as part of my compliance training, and I understand, acknowledge, and agree to abide by its contents and requirements.

I understand that it is my responsibility to respond to questions from employees under my direct supervision regarding the Compliance Plan, Code of Conduct, or applicable Policies and Procedures. If I am unable to respond to questions from employees under my direct supervision, I will refer them to the Compliance Officer. In addition, I understand that if an employee under my direct supervision reports a violation or suspected violation of CalOptima's Compliance Program to me, I will escalate and report the issue to the Compliance Officer.

By signature below, I also certify that I have completed the Compliance Training as indicated:

I attended the initial Compliance Training Session on _____.

E. GLOSSARY

Abuse ("Abuse") means actions that may, directly or indirectly, result in: unnecessary costs to a CalOptima program, improper payment, payment for services that fail to meet professionally recognized standards of care, or services that are medically unnecessary. Abuse involves payment for items or services when there is no legal entitlement to that payment and the provider has not knowingly and/or intentionally misrepresented facts to obtain payment. Abuse cannot be differentiated categorically from fraud, because the distinction between "fraud" and "abuse" depends on specific facts and circumstances, intent and prior knowledge, and available evidence, among other factors.

Audit ("Audit" or "Auditing") means a formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws, and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one (1) of several acknowledged certifications.

Audit & Oversight Committee ("AOC") means a subcommittee of the Compliance Committee chaired by the Director of Audit & Oversight to oversee CalOptima's delegated functions. The composition of the AOC includes representatives from CalOptima's departments as provided for in CalOptima Policy HH.4001Δ: Audit & Oversight Committee.

Board Members ("Board Members") means the members of the CalOptima Board of Directors.

CalOptima ("CalOptima") means the Orange County Health Authority, d.b.a. CalOptima, a County Organized Health System ("COHS") created under California Welfare and Institutions Code Section 14087.54 and Orange County Ordinance No. 3896, as amended.

CalOptima Board of Directors ("CalOptima Board") means the Board of Directors of CalOptima, which serves as the Governing Body of CalOptima, appointed by the Orange County Board of Supervisors in accordance with the Codified Ordinances of the County of Orange.

CalOptima Members ("CalOptima ~~members~~Members" or "~~members~~Members") means a beneficiary who is enrolled in a CalOptima program.

CalOptima Programs ("CalOptima Programs") means the Medi-Cal program administered by CalOptima under contract with DHCS, the Medicare Advantage Program ("OneCare") administered by CalOptima under contract with CMS, the Program of All Inclusive Services for the Elderly ("PACE") program administered by CalOptima under contract with DHCS and CMS, the Multipurpose Senior Services Program ("MSSP") administered by CalOptima under contract with the California Department of Aging, and the OneCare Connect program administered by CalOptima under contract with DHCS and CMS, as well as any other program now or in the future administered by CalOptima.

Centers for Medicare & Medicaid Services ("CMS") means the federal agency within the United States Department of Health and Human Services (DHHS) that administers the Federal Medicare program and works in partnership with state governments to administer Medicaid programs.

Code of Conduct ("Code of Conduct") means the statement setting forth the principles and standards governing CalOptima's activities to which Board Members, employees, FDRs, and agents of CalOptima are expected to adhere.

Compliance Committee ("Compliance Committee") means that committee designated by the Chief Executive Officer (CEO) to implement and oversee the Compliance Program and to participate in carrying out the provisions of this Compliance Plan. The composition of the Compliance Committee shall consist of ~~senior management staff~~**Executive Staff** that may include, but is not limited to, the: Chief Executive Officer; Chief Medical Officer; Chief Operating Officer; Chief Financial Officer; Compliance Officer; and Executive Director of Human Resources.

Compliance Plan ("Compliance Plan") means this plan and all attachments, exhibits, modifications, supplements, or amendments thereto.

Compliance Program ("Compliance Program" or "Program") means the program (including, without limitation, this Compliance Plan, Code of Conduct and policies and procedures) developed and adopted by CalOptima to promote, monitor and ensure that CalOptima's operations and practices and the practices of its Board Members, employees and FDRs comply with applicable law and ethical standards.

Compliance Risk Assessment ("CRA") A tool utilized to stratify level of risk (high, medium, low) based upon audit results and corrective actions issued to identify specific CalOptima functional areas vulnerable to potential Compliance risk.

Conflict of Interest Code ("Conflict of Interest Code") means CalOptima's Conflict of Interest Code approved and adopted on December 6, 1994, as amended and updated from time to time.

Corrective Action Plan ("CAP") means a plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers of Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), or designated representatives. FDRs and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.

Delegation ("Delegated") means a legal assignment to another party of the authority for particular functions, tasks, and decisions on behalf of the original party. The original party remains liable for compliance and fulfillment of any and all rules, requirements, and obligations pertaining to the delegated functions.

Department of Health and Human Services-Office of Inspector General ("OIG") means the Office of Inspector General of the United States Department of Health and Human Services.

Department of Health Care Services ("DHCS") means the California Department of Health Care Services, the State agency that oversees California's Medicaid program, known as Medi-Cal.

Department of Managed Health Care ("DMHC") means the California Department of Managed Health Care that oversees California's managed care system. DMHC regulates health maintenance

organizations licensed under the Knox-Keene Act, Health & Safety Code Sections 1340 *et seq*.

Designated Employee ("Designated Employee") means the persons holding positions listed in the Appendix to the CalOptima Conflict of Interest Code.

Designee ("Designee") is a person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.

Downstream Entity ("Downstream Entity") means any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with persons or entities involved with a CalOptima program benefit, below the level of the arrangement between CalOptima and a first-tier entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.

Employee or **Employees** ("Employee" or "Employees") means any and all employees of CalOptima, including all ~~senior management~~Executive Staff, Management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.

Exclusion ("Exclusion" or "Excluded") means suspension, exclusion, or debarment from participation in Federal and/or state health care programs.

Executive Director of Compliance ("Executive Director of Compliance" or "Compliance Officer") means that person designated as the Compliance Officer for CalOptima charged with the responsibility of implementing and overseeing the Compliance Program and the Compliance Plan and Fraud, Waste, and Abuse Plan.

Executive Staff ("Executive Staff") means an employee whose position title is Chief, or Executive Director of one (1) or more departments.

False Claims Act ("FCA") means the False Claims Act pursuant to 31 United States Code [U.S.C.] Sections 3729-3733, which protects the Government from being overcharged or sold substandard goods or services. The FCA imposes civil liability on any person who knowingly submits, or causes to be submitted, a false or fraudulent claim to the Federal Government. The "knowing" standard includes acting in deliberate ignorance or reckless disregard of the truth related to the claim. Civil penalties for violating the FCA may include fines and up to three (3) times the amount of damages sustained by the Government as a result of the false claims. There also are criminal penalties for submitting false claims, which may include fines, imprisonment, or both. (18 U.S.C. Section 287.)

FDR ("FDR") means First Tier, Downstream or Related Entity, as separately defined herein.

Federal and/or State Health Care Programs ("Federal and/or State ~~health care programs~~Health Care Programs") means "any plan or program providing health care benefits, directly through insurance or otherwise, that is funded directly, in whole or in part, by the United States Government (other than the Federal Employees Health Benefits Program), including Medicare, or any State health care program" as defined in 42 U.S.C. § 1320a-7b (f) including the California Medicaid program, Medi-Cal.

First Tier Entity ("First Tier Entity") means any party that enters into a written arrangement,

acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a member under a CalOptima program.

Fraud ("Fraud") means knowingly and willfully executing, or attempting to execute, a scheme or artifice to defraud any health care benefit program or to obtain (by means of false or fraudulent pretenses, representations, or promises) any of the money or property owned by, or under the custody or control of, any health care benefit program. (18 U.S.C. § 1347.)

General Services Administration ("GSA") **System for Award Management** ("SAM") is a type of federal government exclusion database and contains the list of Excluded Parties List System (GSA-EPLS). The EPLS consists of federal contractors who have been debarred, sanctioned, or excluded due to government contract issues or fraud. The database is updated usually on a monthly basis.

Governing Body ("Governing Body") means the Board of Directors of CalOptima.

Health Network ~~or Health Networks~~ ("Health Network" or "Health Networks") means the contracted health networks of CalOptima, including Physician Hospital Consortia ("PHCs"), Shared Risk Medical Groups ("SRGs"), and Health Maintenance Organizations ("HMOs").

Health Insurance Portability and Accountability Act ("HIPAA") means the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, enacted on August 21, 1996. Sections 261 through 264 of HIPAA require the Secretary of the U.S. Department of Health and Human Services to publicize standards for the electronic exchange, privacy and security of health information, as amended.

Immediate Corrective Action Plan ("ICAP") means the result of non-compliance with specific requirements that has the potential to cause significant Member harm. Significant Member harm exists if the noncompliance resulted in the failure to provide medical services or prescription drugs, causing financial distress, or posing a threat to Member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.

Management ("Management") means any employee whose position title is Director, Senior Manager, Manager, or Supervisor of one (1) or more departments.

Medi-Cal Suspended & Ineligible ("S&I") **Provider List** is a list of suspended and ineligible providers that is maintained by DHCS in the Medi-Cal Provider Manual. The list is updated monthly and available online and in print from DHCS.

Medicare Secondary Payer (MSP) Vendor means third-party vendors contracted to perform administrative functions with regards to the identification and recovery of monies owed to OneCare or OneCare Connect for recoupment of conditional payments. These administrative duties include, but are not limited to, the pursuit of repayments for third party liabilities and other health care coverage.

Monitoring Activities ("Monitoring") means regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective.

Multipurpose Senior Services Program ("MSSP") is a program approved under the federal

Medicaid Home and Community-Based, 1915 (c) Waiver designed to prevent premature institutionalization through provision of comprehensive social and health care management to assist frail elder person who are certifiable for placement in a nursing facility, to remain safely at home at a cost lower than nursing facility care.

National Committee for Quality Assurance Standards for Accreditation of MCOs ("NCQA Standards") means the written standards for accreditation of managed care organizations published by the National Committee for Quality Assurance.

Office of Inspector General List of Excluded Individuals and Entities ("OIG LEIE") is an exclusion list and contains individuals and/or entities that have been excluded from participation in federal healthcare programs such as Medicare and Medicaid. This list is usually updated on a monthly basis.

OneCare ("OneCare") is a Medicare Advantage Health Maintenance Organization (HMO) plan offered by CalOptima to provide Medicare covered benefits to Members.

OneCare Connect ("OneCare Connect") is a Medicare-Medicaid health plan offered by CalOptima that contracts with both Medicare and Medi-Cal to provide covered benefits of both programs to Members.

Overpayment ("Overpayment") means a payment disbursed in excess of amounts properly payable under Medicare and Medi-Cal statutes and regulations.

Participating ~~providers~~**Providers and** ~~suppliers ("participating providers~~**Suppliers** ("Participating Providers and ~~suppliers~~Suppliers") include all health care providers and suppliers (e.g., physicians, mid-level practitioners, hospitals, long term care facilities, pharmacies, etc.) that receive reimbursement from CalOptima or its health networks for items or services furnished to members. Participating providers and suppliers for purposes of this Compliance Plan may or may not be contracted with CalOptima and/or the health networks.

Participation Status ("Participation Status") means whether a person or entity is currently suspended, excluded, precluded, or otherwise ineligible to participate in Federal and/or State health care programs as provided in CalOptima policies and procedures.

Participation Status Review ("Participation Status Review") means the process by which CalOptima reviews its Board ~~members~~Members, employees, FDRs, and CalOptima Direct providers to determine whether they are currently suspended, excluded, precluded, or otherwise ineligible to participate in Federal and/or State health care programs.

Personally Identifiable Information ("PII") means any information about an individual maintained by an agency, including (1) any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and (2) any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information.

Pharmacy Benefit Manager ("PBM") means an entity that provides pharmacy benefit management services, including contracting with a network of pharmacies; establishing payment levels for network pharmacies; negotiating rebate arrangements; developing and managing

formularies, preferred drug lists, and prior authorization programs; maintaining patient compliance programs; performing drug utilization review; and operating disease management programs.

Policies and Procedures ("Policies and Procedures") means CalOptima's written policies and procedures regarding the operation of CalOptima's Compliance Program, including applicable Human Resources policies, outlining CalOptima's requirements and standards in compliance with applicable law.

Program of All-Inclusive Care for the Elderly ("PACE") is a long-term comprehensive health care program that helps older adults to remain as independent as possible. PACE coordinates and provides all needed preventive, primary, acute and long-term care services so seniors can continue living in their community.

Preclusion ("Precluded" or "Preclusion List") is a type of exclusion. The CMS Preclusion List is a list of Providers and prescribers who are precluded from receiving payment for Medicare Advantage (MA) items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.

Protected Health Information ("PHI") refers to the 45 Code of Federal Regulations Section 160.103, including the following: individually identifiable health information transmitted by electronic media, maintained in electronic media, or transmitted or maintained in any other form or medium.

This information identifies the individual or there is reasonable basis to believe the information can be used to identify the individual. The information was created or received by CalOptima or Business Associates and relates to:

1. The past, present, or future physical or mental health or condition of a Member;
2. The provision of health care to a Member; or
3. Past, present, or future Payment for the provision of health care to a Member.

Regulatory Agencies ("Regulatory Agencies") include, but are not limited to: Centers for Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), Department of Managed Health Care (DMHC), Health and Human Services Office of Inspector General (OIG), and the Office of Civil Rights (OCR).

Related Entity ("Related Entity") means any entity that is related to CalOptima by common ownership or control and that: performs some of CalOptima's management functions under contract or delegation; furnishes services to members under an oral or written agreement; or leases real property or sells materials to CalOptima at a cost of more than $2,500 during a contract period.

Sanction ("Sanction") means an action taken by CalOptima, including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on an FDR's or its agent's failure to comply with statutory, regulatory, contractual, and/or other requirements related to CalOptima programs.

~~Senior Management ("Senior Management") means any employee whose position title is Chief Officer, Executive Director, or Director of one (1) or more departments.~~

Seniors and Persons with Disabilities ("SPD") means Medi-Cal beneficiaries who fall under specific Aged and Disabled Aid Codes as defined by the DHCS.

Sub-delegation ("Sub-delegation") means the process by which a first tier entity expressly grants, by formal agreement, to a downstream entity the authority to carry out one or more functions that would otherwise be required to be performed by the first tier entity in order to meet its obligations under the delegation agreement.

Supervisor ("Supervisor" or "Manager") means an employee in a position representing CalOptima who has one (1) or more employees reporting directly to him or her. With respect to FDRs, the term "Supervisor" shall mean the CalOptima employee that is the designated liaison for that contractor.

Third–Party Administrator ("TPA") means a contractor that furnishes designated claims processing and other administrative services to CalOptima.

Waste ("Waste") means the overutilization of services, or other practices that, directly or indirectly, result in unnecessary costs to a CalOptima program. Waste is generally not considered to be caused by criminally negligent actions but rather the misuse of resources.

E. GLOSSARY 51

A. OVERVIEW OF THE COMPLIANCE PROGRAM

The Orange County Health Authority, dba CalOptima, is committed to conducting its operations in compliance with ethical standards, contractual obligations, and all applicable statutes, regulations, and rules, including those pertaining to Medi-Cal, Medicare, **Program of All-Inclusive Care for the Elderly (PACE)**, **Multipurpose Senior Services Program (MSSP)**, and other **CalOptima Programs**.*

CalOptima's compliance commitment encompasses its own internal operations, as well as its oversight and monitoring responsibilities related to CalOptima's **First Tier**, **Downstream**, and **Related Entities** (**FDRs**), such as **Health Networks**, physician groups, **Participating Providers, and Suppliers**, **Pharmacy Benefit Manager (PBM)**, and consultants. The term **FDR** is used in this document to refer to CalOptima's delegated subcontractors that perform administrative functions and/or provide health care services that CalOptima is required to perform and/or provide under its state and federal contracts with the **Centers for Medicare & Medicaid Services** (**CMS**) and the **Department of Health Care Services** (**DHCS**). Such persons/entities, referred to as **FDR** herein, include those that directly contract with CalOptima and those that are **Downstream** or **Related Entities** (i.e., subcontracts) with CalOptima's **First Tier Entities**.

CalOptima has developed a comprehensive **Compliance Program** applicable to all of CalOptima's programs, including, but not limited to, its Medi-Cal Program, its Medicare Advantage Prescription Drug Program (MA-PDP referred to as "**OneCare**"), its Medicare-Medicaid Plan (MMP referred to as "**OneCare Connect**"), **PACE**, and **MSSP**. The **Compliance Program** incorporates all elements of an effective **Compliance Program** as recommended by the **Office of the Inspector General** (**OIG**) and required by **CMS** regulations. The **Compliance Program** is continually evolving and may be modified and enhanced based on compliance **Monitoring** and identification of new areas of operational, regulatory, or legal risk. CalOptima requires that **CalOptima Board Members**, **Employees**, and **FDRs** conduct themselves in accordance with the requirements of CalOptima's **Compliance Program**.

B. THE COMPLIANCE PLAN

This **Compliance Plan** sets forth CalOptima's commitment to legal and ethical conduct by establishing compliance activities, along with CalOptima principles and standards, to efficiently monitor adherence to all applicable laws, regulations, and guidelines. The **Compliance Plan** addresses the fundamental elements of an effective **Compliance Program** and identifies how CalOptima is implementing each of the fundamental elements of an effective **Compliance Program** in its operations to meet its contractual, legal, and regulatory obligations. Moreover, the **Compliance Plan** is designed to provide guidance and to ensure that CalOptima's operations and the practices of its **Board Members**, **Employees**, and **FDRs** comply with contractual requirements, ethical standards, and applicable law.

This **Compliance Plan** is adopted by the **Governing Body**. It was developed and is managed by the **Executive Director of Compliance** (hereinafter referred to as the "**Compliance Officer**") with the **Compliance Committee**. Due to the dynamic nature of the complex laws governing CalOptima and its programs, the **Compliance Plan** may be revised and updated from time to time to respond to changes in the law and/or to reflect improvements in CalOptima's operations and processes.

Board Members, **Employees**, and **FDRs** are expected to review and adhere to the requirements and standards set forth in the **Compliance Plan**, the **Code of Conduct**, and all related **Policies and Procedures**, as may be amended. Furthermore, **Board Members**, **Employees**, and **FDRs** are expected to be familiar with the contractual, legal, and regulatory requirements pertinent to their respective roles and responsibilities. If a **Board Member**, **Employee**, and/or **FDR** has/have any questions about the application, or implementation, of this **Compliance Plan**, or questions related to the **Code of Conduct** or CalOptima **Policies and Procedures**, he or she should seek guidance from the **Compliance Officer** and/or the CalOptima Office of Compliance.

I.WRITTEN STANDARDS

To demonstrate CalOptima's commitment to complying with all applicable federal and state standards and to ensure a shared understanding of what ethical and legal standards and requirements are expected of **Board Members**, **Employees**, and **FDRs**, CalOptima develops, maintains, and distributes its written standards in the form of this **Compliance Plan**, a separate **Code of Conduct**, and written **Policies and Procedures**.

a. Compliance Plan

As noted above, this **Compliance Plan** outlines how contractual and legal standards are reviewed and implemented throughout the organization and communicated to **CalOptima Board Members**, **Employees**, and **FDRs**. This **Compliance Plan** also includes a comprehensive section articulating CalOptima's commitment to preventing **Fraud**, **Waste**, & **Abuse** (**FWA**), and setting forth guidelines and procedures designed to detect, prevent, and remediate **FWA** in the administration of **CalOptima Programs**. The **Compliance Plan** is available on CalOptima's external website for **Board Members** and **FDRs,** as well as on CalOptima's internal intranet site, referred to as InfoNet, accessible to all **Employees**.

b. Policies and Procedures

CalOptima also developed written **Policies and Procedures** to address specific areas of CalOptima's operations, compliance activities, and **FWA** prevention, detection, and remediation to ensure CalOptima can efficiently monitor adherence to all applicable laws, regulations, and guidelines. These **Policies and Procedures** are designed to provide guidance to **Board Members**, **Employees**, and **FDRs** concerning compliance expectations and outline processes on how to identify, report, investigate, and/or resolve suspected, detected, or reported compliance issues. **Board Members**, **Employees**, and **FDRs** are expected to be familiar with the **Policies and Procedures** pertinent to their respective roles and responsibilities, and are expected to perform their responsibilities in compliance with ethical standards, contractual obligations, and applicable law. The **Compliance Officer**, or his/her **Designee**, will ensure that **Board Members**, **Employees**, and **FDRs** are informed of applicable policy requirements, and that such dissemination of information is documented and retained, in accordance with applicable record retention standards.

The **Policies and Procedures** are reviewed annually and updated, as needed, depending on state and federal regulatory changes and/or operational improvements to address identified risk factors. Changes to CalOptima's **Policies and Procedures** are reviewed and approved by CalOptima's Policy Review Committee. The Policy Review Committee, comprised of executive officers and key management staff, meets regularly to review and approve proposed changes and additions to CalOptima's **Policies and Procedures**. **Policies and Procedures** are available on CalOptima's internal website and Compliance 360 (C360), a separate web portal accessible to **Board Members**, **Employees**, and **FDRs**. **Board Members**, **Employees**, and **FDRs** receive notice when **Policies and Procedures** are updated via a monthly memorandum.

c. Code of Conduct

Finally, the **Code of Conduct** is CalOptima's foundational document detailing fundamental principles, values, and the framework for business practices within and applicable to CalOptima. The objective of the **Code of Conduct** is to articulate compliance expectations and broad principles that guide **CalOptima Board Members**, **Employees**, and **FDRs** in conducting their business activities in a professional, ethical, and lawful manner. The **Code of Conduct** is a separate document from the **Compliance Plan** and can be found in Appendix A. The **Code of Conduct** is approved by the **CalOptima Board of Directors** and distributed to **Board Members**, **Employees**, and **FDRs** upon appointment, hire, or the commencement of the contract, and annually thereafter. New **Board Members**, **Employees**, and **FDRs** are required to sign an attestation acknowledging receipt and review of the **Code of Conduct** within ninety (90) calendar days of the appointment, hire, or commencement of the contract, and annually thereafter.

II.OVERSIGHT

The successful implementation of the **Compliance Program** requires dedicated commitment and diligent oversight throughout CalOptima's operations, including, but not limited to, key roles and responsibilities by the **CalOptima Board**, the **Compliance Officer**, the **Compliance Committee**, the **Audit & Oversight Committee**, and **Executive Staff**.

a. Governing Body

The **CalOptima Board of Directors**, as the **Governing Body**, is responsible for approving, implementing, and **Monitoring** a **Compliance Program** governing CalOptima's operations. The **CalOptima Board** delegates the **Compliance Program** oversight and day-to-day compliance activities to the Chief Executive Officer (CEO), who then delegates such oversight and activities to the **Compliance Officer**. The **Compliance Officer** is an **Employee** of CalOptima, who handles compliance oversight and activities full-time. The **Compliance Officer**, in conjunction with the **Compliance Committee**, are both accountable for the oversight and reporting roles and responsibilities as set forth in this **Compliance Plan**. However, the **CalOptima Board** remains accountable for ensuring the effectiveness of the **Compliance Program** within CalOptima and **Monitoring** the status of the **Compliance Program** to ensure its efficient and successful implementation.

To ensure the **CalOptima Board** exercises reasonable oversight with respect to the implementation and effectiveness of CalOptima's **Compliance Program**, the **CalOptima Board**:

- Understands the content and operation of CalOptima's **Compliance Program**;
- Approves the **Compliance Program**, including this **Compliance Plan** and the **Code of Conduct**;
- Requires an effective information system that allows it to properly exercise its oversight role and be informed about the **Compliance Program** outcomes, including, but not limited to, results of internal and external **Audits**;
- Receives training and education upon appointment, and annually thereafter, concerning the structure and operation of the **Compliance Program**;
- Remains informed about governmental compliance enforcement activity, such as Notices of Non-Compliance, **Corrective Action Plans**, Warning Letters, and/or **Sanctions**;
- Receives regularly scheduled, periodic updates from CalOptima's **Compliance Officer** and **Compliance Committee**, including, but not limited to, monthly reports summarizing overall compliance activities and any changes that are recommended;
- Receives timely written notification and updates on urgent compliance issues that require engagement and action;
- Convenes formal ad hoc and closed session discussions for significant and/or sensitive compliance matters, to the extent permitted by applicable law; and
- Reviews the results of performance and effectiveness assessments of the **Compliance Program**.

The **CalOptima Board** reviews the measurable indicators of an effective **Compliance Program** and remains appropriately engaged in overseeing its efficient and successful implementation; however, the **CalOptima Board** delegates several compliance functions and activities as described in the following subsections.

b. Executive Director of Compliance (Compliance Officer)

The **Executive Director of Compliance** serves as the **Compliance Officer** who coordinates and communicates all assigned compliance activities and programs, as well as plans, implements, and monitors the day-to-day activities of the **Compliance Program**. The **Compliance Officer** reports directly to the CEO and the **Compliance Committee** on the activities and status of the **Compliance Program**. The **Compliance Officer** has authority to report matters directly to the **CalOptima Board** at any time. Furthermore, the **Compliance Officer** ensures that CalOptima meets all state and federal regulatory and contractual requirements.

The **Compliance Officer** interacts with the **CalOptima Board**, CEO, CalOptima's Executive Staff and departmental Management, **FDRs**, legal counsel, state and federal representatives, and others as required. In addition, the **Compliance Officer** supervises the Office of Compliance, which includes compliance professionals with expertise and responsibilities for the following areas: Medi-Cal and Medicare Regulatory Affairs & Compliance, Special Investigations, Privacy, **FDR** and internal oversight, **Policies and Procedures**, and training on compliance activities.

The **CalOptima Board** delegates the following responsibilities to the **Compliance Officer**, and/or his/her **Designee(s)**:

- Chair the **Compliance Committee**, which shall meet no less than quarterly and assists the **Compliance Officer** in fulfilling his/her responsibilities;
- Ensure that the **Compliance Program**, including this **Compliance Plan** and **Policies and Procedures**, are developed, maintained, revised, and updated, annually, or as needed, based on changes in CalOptima's needs, regulatory requirements, and applicable law and distributed to all affected **Board Members**, **Employees**, and **FDRs**, as appropriate;
- Oversee and monitor the implementation of the **Compliance Program**, and provide regular reports no less than quarterly to the **CalOptima Board** and CEO summarizing all efforts, including, but not limited to, the **Compliance Committee**'s efforts to ensure adherence to the **Compliance Program**, identification and resolution of suspected, detected, or reported instances of non-compliance, and CalOptima's compliance oversight and **Audit** activities;
- Maintain the compliance reporting mechanisms and manage inquiries and reports from CalOptima's Compliance and Ethics Hotline in accordance with specified protocols, including, but not limited to, maintenance of documentation for each report of potential non-compliance or potential **FWA** received from any source through any reporting method;
- Design, coordinate, and/or conduct regular internal **Audits** to ensure the **Compliance Program** is properly implemented and followed, in addition to verifying all appropriate financial and administrative controls are in place;
- Develop and implement an annual schedule of **Compliance Program** activities for each of CalOptima's programs, and regularly report CalOptima's progress in implementing those plans to the appropriate **Board** committee and/or to the **Board of Directors**;
- Serve as a liaison between CalOptima and all applicable state and federal agencies for non-compliance and/or **FWA** issues, including facilitating any documentation or procedural requests by such agency(s);
- Oversee and monitor all compliance investigations, including investigations performed by CalOptima's regulators (e.g., **DHCS** and **CMS**) and consult with legal counsel, as necessary;
- Create and coordinate educational training programs and initiatives to ensure that the **CalOptima Board**, **Employees**, and **FDRs** are knowledgeable about CalOptima's

Compliance Program, including the **Code of Conduct**, **Policies and Procedures**, and all current and emerging applicable statutory and regulatory requirements;

- Timely initiate, investigate, and complete risk assessments and related activities, and direct and implement appropriate **Corrective Action Plans**, **Sanctions**, and/or other remediation, including, but not limited to, collaboration with the Human Resources Department to ensure consistent, timely, and effective disciplinary standards are followed; and
- Coordinate with CalOptima departments and **FDRs** to ensure **Exclusion** and **Preclusion** screening (including through the **OIG List of Excluded Individuals and Entities (LEIE)**, **General Services Administration (GSA) System for Award Management (SAM)**, **Medi-Cal Suspended & Ineligible (S&I) Provider List**, and the **CMS Preclusion List**) has been conducted and acted upon, as appropriate, in accordance with regulatory and contractual requirements.

c. Compliance Committee

The **Compliance Committee**, chaired by the **Compliance Officer**, is composed of CalOptima's **Executive Staff** and operational staff, as designated by the CEO. The members of the **Compliance Committee** serve at the discretion of the CEO and may be removed, or added, at any time. The role of the **Compliance Committee** is to implement and oversee the **Compliance Program** and to participate in carrying out the provisions of this **Compliance Plan**. The **Compliance Committee** meets at least on a quarterly basis, or more frequently as necessary, to enable reasonable oversight of the **Compliance Program**.

The **CalOptima Board** delegates the following responsibilities to the **Compliance Committee**:

- Maintain and update the **Code of Conduct** consistent with regulatory requirements and/or operational changes, subject to the ultimate approval by the **CalOptima Board**;
- Maintain written notes, records, correspondence, or minutes (as appropriate) of **Compliance Committee** meetings reflecting reports made to the **Compliance Committee** and the **Compliance Committee's** decisions on the issues raised (subject to all applicable privileges);
- Review and **Monitor** the effectiveness of the **Compliance Program**, including **Monitoring** key performance reports and metrics, evaluating business and administrative operations, and overseeing the creation, implementation, and development of corrective and preventive action(s) to ensure they are prompt and effective;
- Analyze applicable federal and state program requirements, including contractual, legal, and regulatory requirements, along with areas of risk, and coordinate with the **Compliance Officer** to ensure the adequacy of the **Compliance Program**;
- Review, approve, and/or update **Policies and Procedures** to ensure the successful implementation and effectiveness of the **Compliance Program** consistent with regulatory, legal, and contractual requirements;
- Recommend and monitor the development of internal systems and controls to implement CalOptima's standards and **Policies and Procedures** as part of its daily operations;
- Determine the appropriate strategy and/or approach to promote compliance and detect potential violations and advise the **Compliance Officer** accordingly;
- Develop and maintain a reporting system to solicit, evaluate, and respond to complaints and problems;
- Review and address reports of **Monitoring** and **Auditing** of areas in which CalOptima is at risk of program non-compliance and/or potential **FWA**, and ensure **CAPs** and **ICAPs** are implemented and **Monitored** for effectiveness;

- Suggest and implement all appropriate and necessary actions to ensure that CalOptima and its **FDRs** conduct activities and operations in compliance with the applicable laws and regulations and sound business ethics; and
- Provide regular and ad-hoc status reports of compliance with recommendations to the **CalOptima Board of Directors**.

d. Audit & Oversight Committee (AOC)

The **Audit & Oversight Committee** (**AOC**) is a subcommittee of the **Compliance Committee** and is co-led by the Director(s) of Audit & Oversight. The **AOC** is responsible for overseeing the delegated and internal activities of CalOptima. The **Compliance Committee** has final approval authority for any delegated and internal activities. Committee members include representatives from CalOptima's departments as provided for in CalOptima Policy HH.4001Δ: Audit & Oversight Committee. In addition to the monthly scheduled meetings, the **AOC** may conduct ad hoc meetings either in-person or via teleconference, as needed. All materials requiring action by the **AOC** are approved by the majority of a quorum of the **AOC**. A quorum is defined as one (1) over fifty percent (50%). **AOC** may approve and/or implement **Corrective Action Plans** (**CAPs**); however, recommendations for **FDR Sanctions** and/or de-**Delegation** are submitted to the **Compliance Committee** for final approval. The **AOC** also contributes to external reviews and accreditation **Audits**, such as the **National Committee for Quality Assurance** (**NCQA**).

Responsibilities of the **Audit & Oversight Committee** with regard to **FDRs** include:

- Annual review, revision, and approval of the **Audit** tools;
- Review findings of the readiness assessment to evaluate a potential **FDR**'s ability to perform the delegated function(s);
- Review and approve potential **FDR** entities for **Delegation** of functions;
- Ensure written agreements with each delegated **FDR** clearly define and describe the delegated activities, responsibilities, and reporting requirements of all parties consistent with applicable laws, regulations, and contractual obligations;
- Conduct formal, ongoing evaluation and **Monitoring** of **FDR** performance and compliance through review of periodic reports submitted, complaints/grievances filed, and findings of the annual onsite **Audit**;
- Ensure all **Downstream** and **Related Entities** are **Monitored** in accordance with CalOptima oversight procedures;
- Ensure that formal risk assessment is conducted on an annual basis, and update as needed, on an ongoing basis;
- Initiate and manage **Corrective Action Plans** (**CAPs**) for compliance issues;
- Propose **Sanctions**, subject to the **Compliance Committee's** approval, if an **FDR's** performance is substandard and/or violates the terms of the applicable agreement; and
- Review and initiate recommendations, such as termination of **Delegation**, to the **Compliance Committee** for unresolved issues of compliance.

Responsibilities of the **Audit & Oversight Committee** regarding internal business functions include:

- Annual review, revision, and approval of the **Audit** work plan and **Audit** tools;
- Conduct formal, ongoing evaluation and **Monitoring** of internal business areas' performance and compliance through review of periodic reports submitted, ongoing **Monitoring**, and findings of the annual **Audit**;

- Conduct formal risk assessment on an annual basis, and update as needed, on an ongoing basis; and
- Initiate and manage **Corrective Action Plans** (**CAPs**) for compliance issues.
- Initiate and manage other disciplinary actions (e.g., sanctions, de-delegation) for compliance issues.

e. Executive Staff

The CEO and **Executive Staff** of CalOptima shall:

- Ensure that the **Compliance Officer** is integrated into the organization and is given the credibility, authority, and resources necessary to operate a robust and effective **Compliance Program**;
- Receive periodic reports from the **Compliance Officer** of risk areas facing the organization, the strategies being implemented to address them and the results of those strategies; and
- Be advised of all governmental compliance and enforcement findings and activity, including **Audit** findings, Notices of Non-Compliance, and formal enforcement actions, and participate in corrective actions and responses, as appropriate.

III.TRAINING

Education and training are critical elements of the **Compliance Program**. CalOptima requires that all **Board Members**, **Employees**, and **FDRs** complete training upon appointment, hire, or commencement of contract, as applicable, and on an annual basis thereafter. Required courses cover CalOptima's **Code of Conduct**, compliance obligations, relevant laws, and **FWA**, as applicable. Specialized education courses are assigned to individuals based on their respective roles or positions within or with CalOptima's departments and its programs, which may include, but is not limited to, the fundamentals of managing **Seniors and People with Disabilities (SPD)** and cultural competency.

CalOptima utilizes state of the art web-based training courses that emphasize CalOptima's commitment to the **Compliance Program**, and which courses are updated regularly to ensure that **Employees** are kept fully informed about any changes in procedures, regulations, and requirements. Training may be conducted using new technology resources if materials meet the needs of the organization. The **Compliance Officer,** or his/her **Designee,** is responsible for coordinating compliance education and training programs, and ensuring that records evidencing an individual's/**FDR's** completion of the training requirements are documented and maintained, such as sign-in sheets, attestations, or electronic certifications, as required by law. The **Compliance Officer** and the CalOptima **Executive Staff** and **Management** are responsible for ensuring that **Board Members**, **Employees**, and **FDRs** complete training on an annual basis.

a. Code of Conduct

CalOptima's training program includes the distribution of CalOptima's **Code of Conduct** to **Board Members**, **Employees**, and **FDRs**. **Board Members**, **Employees**, and **FDRs** are required to sign an attestation acknowledging receipt, review, and understanding of the **Code of Conduct** within ninety (90) calendar days of their appointment, date of hire, or commencement of the contract, and annually thereafter. Completion and attestation of such review of the **Code of Conduct** is a condition of continued appointment, employment, or contract services. Signed attestations are maintained in each individual's personnel file, as required by law.

b. Mandatory Training Courses (Compliance Oversight, FWA, and HIPAA)

CalOptima requires **Board Members**, **Employees**, and **FDRs**, regardless of role or position with CalOptima, to complete mandatory compliance training courses. Mandatory courses may include, but are not limited to: the fundamentals of the **Compliance Program**; **FWA** training; **Health Insurance Portability and Accountability Act of 1996** (**HIPAA**) privacy and security requirements; ethics; and a high-level overview of the Medicare and Medi-Cal Programs. Detailed information about state and federal false claims acts and whistleblower protections as provided in CalOptima Policy HH.5004Δ: False Claims Act Education shall be included in the mandatory courses. CalOptima's training courses cover CalOptima's commitment to compliance with federal and state laws and regulations, contractual obligations, internal policies, and ethics. Elements of the **Compliance Program** are highlighted, including, but not limited to, an emphasis on CalOptima's requirement to and different means to report suspected or actual non-compliance, violations, and/or **FWA** issues, along with CalOptima's policy on confidentiality, anonymity, and non-retaliation for such reporting. CalOptima's **HIPAA** privacy and security training course covers the administrative, technical, and physical safeguards necessary to secure **Members' Protected Health Information**

(PHI) and **Personally Identifiable Information (PII)**.

Employees must complete the required compliance training courses within ninety (90) calendar days of hire, and annually thereafter. Adherence to the **Compliance Program** requirements, including training requirements, shall be a condition of continued employment and a factor in the annual performance evaluation of each **Employee**. **Board Members** and **FDRs** are required to complete the required compliance training courses within ninety (90) calendar days of appointment or commencement of the contract, as applicable, and annually thereafter. Some **FDRs** may be exempt or deemed to have met the **FWA** training and education requirement if the **FDR** has met the **CMS** requirements, the applicable certification requirements and attests to complying with the standards, or through enrollment into the Medicare program, or accreditation as a Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS). Completion of the training courses are documented electronically, and records of completion are maintained for each individual as required by law.

c. Additional Training

The Office of Compliance may provide additional training opportunities throughout the year focused on essential elements of the **Compliance Program**. These training opportunities are available to **Managers** and **Employees** depending on their respective roles or positions within or with CalOptima's departments and its programs and their involvement in CalOptima's oversight responsibilities. For these training courses, information is presented in a "train the trainer" format, providing **Managers** the tools and resources to train and share the information with **Employees** in their respective departments. If additional training related to **FWA** is required, the **Compliance Officer,** or his/her **Designee,** will develop relevant materials.

Employees have access through CalOptima's internal intranet website (referred to as the "InfoNet") to CalOptima's **Policies and Procedures** governing the **Compliance Program** and pertinent to their respective roles and responsibilities. **Employees** may receive such additional compliance training as is reasonable and necessary based on changes in job descriptions/duties, promotions, and/or the scope of their job functions.

Board Members receive a copy of the **Compliance Plan**, **Code of Conduct**, and **Policies and Procedures** pertinent to their appointment as part of orientation within ninety (90) calendar days of their appointment to the **CalOptima Board**. **Board Members** may receive additional compliance training related to the **CalOptima Board**'s role in overseeing and ensuring organizational compliance with CalOptima's **Compliance Program**.

The **Code of Conduct** and **Policies and Procedures** pertinent to their engagement with CalOptima, if directly engaged by CalOptima, are made available to **FDRs** upon commencement of the **FDR** contract. **FDRs** are required to disseminate copies of the **Code of Conduct** and **Policies and Procedures** to their **Employees**, agents, and/or **Downstream Entities**. CalOptima may also develop compliance training and education presentations and/or roundtables for specified **FDRs**.

IV. LINES OF COMMUNICATION AND REPORTING

a. General Compliance Communication

CalOptima regularly communicates the requirements of the **Compliance Program** and the importance of performing individual roles and responsibilities in compliance with applicable laws, contractual obligations, and ethical standards. CalOptima utilizes various methods and forms to communicate general information, statutory or regulatory updates, process changes, updates to **Policies and Procedures**, contact information for the **Compliance Officer**, relevant federal and state **Fraud** alerts and policy letters, pending/new legislation reports, and advisory bulletins from the **Compliance Officer** to **CalOptima Board Members**, **Employees**, **FDRs**, and **Members**, including, but not limited to:

- Presentations and Updates at Meetings – CalOptima periodically holds and utilizes in-person and conference call meetings with the **CalOptima Board**, **FDRs**, **Employees**, and individual CalOptima departments, and **Members**.
- Compliance 360 – CalOptima maintains an internal and external website and portal referred to as Compliance 360, accessible to **Board Members**, **Employees**, and **FDRs**, which contains CalOptima's updated **Policies and Procedures**.
- Newsletters or Mailed Notices – CalOptima develops, and where appropriate, translates, publications and/or notices, to **Board Members**, **Employees**, **FDRs**, and **Members**.
- Electronic Mail – The CEO, **Compliance Officer**, or their respective **Designee**, periodically sends out email communications and/or alerts to **Board Members**, **Employees**, and **FDRs**, and/or **Members**, as applicable.
- CalOptima's Internal Intranet Website – CalOptima maintains an internal intranet website, referred to as InfoNet, where CalOptima posts applicable updates and notices to **Employees**.
- CalOptima's Compliance Internal Website – The Office of Compliance maintains an internal department website accessible to CalOptima **Employees** to communicate different Compliance initiatives, notices, key documents and forms, and updates to the **Compliance Program**, **Code of Conduct**, and/or **Policies and Procedures**.
- Postings – The Office of Compliance posts information on how to report potential issues of non-compliance and **FWA** throughout CalOptima's facilities, including, but not limited to, break rooms, which are accessible to CalOptima **Employees**.
- Written Reports – The **Compliance Officer**, in coordination with the CEO and **Compliance Committee**, prepares written reports, no less than quarterly, concerning the status of the **Compliance Program** to be presented to the **CalOptima Board**.
- Direct Contact with the **Compliance Officer** - **Board Members**, **Employees**, and **FDRs** can obtain additional compliance information directly from the **Compliance Officer**. Any questions, which cannot be answered by the **Compliance Officer**, shall be referred to the **Compliance Committee**.

b. Reporting Mechanisms

CalOptima Board Members, **Employees**, and **FDRs** have an affirmative duty and are directed in CalOptima's **Code of Conduct** and **Policies and Procedures** to report compliance concerns, questionable conduct or practices, and suspected or actual violations immediately upon discovery. Failure by **Board Members**, **Employees**, and/or **FDRs** to report known violations, failure to detect violations due to negligence or reckless conduct, and making false reports may constitute grounds for disciplinary action, up to and including, recommendation for removal from appointment, termination

of employment, or termination of an **FDR** contract, where appropriate.

CalOptima has established multiple reporting mechanisms to receive, record, and respond to compliance questions, potential non-compliance issues and/or **FWA** incidents or activities. These reporting systems, which are outlined in greater detail below, provide for anonymity and confidentiality (to the extent permitted by applicable law and circumstances). Reminders and instructions on how to report compliance and **FWA** issues are also provided to **Board Members**, **Employees**, **FDRs**, and **Members** in newsletters, on CalOptima's website, in trainings, on posters and at meetings. CalOptima maintains and supports a non-retaliation policy governing good-faith reports of suspected, or actual, non-compliance and/or **FWA**.

Upon receipt of a report through one (1) of the listed mechanisms, the **Compliance Officer**, or his/her **Designee**, shall follow appropriate **Policies and Procedures** to promptly review, investigate, and resolve such matters. The **Compliance Officer,** or his/her **Designee**, shall monitor the process for follow-up communications to persons submitting reports or disclosures through these reporting mechanisms and shall ensure documentation concerning such reports is maintained according to all applicable legal and contractual requirements.

1. *Report Directly to Management or Executive Staff*

CalOptima **Employees** are encouraged to contact their immediate **Management** or **Executive Staff** when non-compliant activity is suspected, or observed. A report should be made immediately upon suspecting or identifying the potential or suspected non-compliance, or violation. **Executive Staff** or **Management** will promptly escalate the report to the **Compliance Officer** for further investigation and reporting to the CalOptima **Compliance Committee**. If an **Employee** is concerned that his/her **Management** or **Executive Staff** did not adequately address his/her report or complaint, the **Employee** may go directly to the **Compliance Officer**, or the CEO.

2. *Call the Compliance and Ethics Hotline*

CalOptima maintains an easily accessible Compliance and Ethics Hotline, available twenty-four (24) hours a day, seven (7) days a week, with multilingual support, in which CalOptima may receive anonymous issues on a confidential basis. **Members** are encouraged to call the Compliance and Ethics Hotline if they have identified potential non-compliant activity, or **FWA** issues. The Compliance and Ethics Hotline information is as follows:

TOLL FREE COMPLIANCE and ETHICS HOTLINE
(877) 837-4417

Calls or issues reported through the Compliance and Ethics Hotline are received, logged into a database, and investigated by the Regulatory Affairs & Compliance Department. No disciplinary action will be taken against individuals making good-faith reports. Every effort will be made to keep reports confidential to the extent permitted by law. The process for reporting suspected violations to the Compliance and Ethics Hotline is part of the education and/or orientation for all **Board Members**, **Employees**, **FDRs**, and **Members**. **Members** also have access to the **Compliance Officer** through the Compliance and Ethics Hotline and/or the right to contact the **OIG** Compliance Hotline (1-800-447-8477) directly.

3. *Report Directly to the Compliance Officer*

The **Compliance Officer** is available to receive reports of suspected or actual compliance violations, or **FWA** issues, on a confidential basis (to the extent permitted by applicable law or circumstances) from **Board Members**, **Employees**, **FDRs** and **Members**. The **Compliance Officer** may be contacted by telephone, written correspondence, email, or by a face-to-face appointment. **FDRs** are generally contractually obligated to report suspected **Fraud** and **Abuse** to CalOptima pursuant to regulatory and contractual requirements.

4. *Report Directly to Office of Compliance*

Reports may be made directly to CalOptima's Office of Compliance via mail, email, or through the Compliance and Ethics Hotline for confidential reporting. Emails can be sent to Compliance@caloptima.org. Mail can be sent to:

CalOptima
ATTN: Compliance Officer
505 City Parkway West
Orange, CA, 92868

5. *Confidentiality and Non-Retaliation*

Every effort will be made to keep reports confidential to the extent permitted by applicable law and circumstances, but there may be some instances where the identity of the individual making the report will have to be disclosed. As a result, CalOptima has implemented and enforces a non-retaliation policy to protect individuals who report suspected or actual non-compliance, or **FWA**, issues in good faith. This non-retaliation policy extends to reports received from **FDRs** and **Members**. CalOptima's non-retaliation policy is communicated along with reporting instructions by posting information on the CalOptima InfoNet and website, as well as sending periodic **Member** notifications.

CalOptima also takes violations of CalOptima's non-retaliation policy seriously, and the **Compliance Officer** will review and enforce disciplinary and/or other **Corrective Action Plans** for violations, as appropriate, with the approval of the **Compliance Committee**.

V.ENFORCEMENT AND DISCIPLINARY STANDARDS

Board Members, **Employees**, and **FDRs** are provided copies of CalOptima's **Code of Conduct** and the **Compliance Plan** and have access on CalOptima's internal and external website to applicable **Policies and Procedures**, including, but not limited to, CalOptima Policy GA.8022: Performance and Behavior Standards and Office of Compliance Policies addressing **Corrective Action Plans** and **Sanctions**. Consistent, timely, and effective enforcement of CalOptima's standards are implemented when non-compliance or unethical behavior is confirmed, and appropriate disciplinary and/or corrective action is implemented to address improper conduct, activity, and/or behavior.

a. Conduct Subject to Enforcement and Discipline

Board Members, **Employees**, and **FDRs** are subject to appropriate disciplinary and/or corrective actions if they have violated CalOptima's standards, requirements, or applicable laws as specified and detailed in the **Compliance Program** documents and related **Policies and Procedures**, including CalOptima Policy GA.8022: Performance and Behavior Standards, as applicable. **Board Members**, **Employees**, and **FDRs** may be disciplined or sanctioned, as applicable, for failing to adhere to CalOptima's **Compliance Program** and/or violating standards, regulatory requirements, and/or applicable laws, including, but not limited to:

- Conduct that leads to the filing of a false or improper claim in violation of federal or state laws and/or contractual requirements;
- Conduct that results in a violation, or violations, of any other federal or state laws or contractual requirements relating to participation in **Federal and/or State Health Care Programs**;
- Failure to perform any required obligation relating to compliance with the Compliance Program, applicable laws, **Policies and Procedures** and/or contracts; or
- Failure to report violations or suspected violations of the **Compliance Program**, or applicable laws, or to report suspected or actual **FWA** issues to an appropriate person through one (1) of the reporting mechanisms.
- Conduct that violates **HIPAA** and other privacy laws and/or CalOptima's **HIPAA** privacy and security policies, including actions that harm the privacy of **Members**, or the CalOptima information systems that store member data.

b. Enforcement and Discipline

CalOptima maintains a "zero tolerance" policy towards any illegal, or unethical, conduct that impacts the operation, mission, or image of CalOptima. The standards established in the **Compliance Program** shall be enforced consistently through appropriate disciplinary actions. Individuals, or entities, may be disciplined by way of reprimand, suspension, financial penalties, **Sanctions**, and/or termination, depending on the nature and severity of the conduct, or behavior. **Board Members** may be subject to removal, **Employees** are subject to discipline, up to and including termination, and **FDRs** may be sanctioned, or contracts may be terminated, where permitted. Violations of applicable laws and regulations, even unintentional, could potentially subject individuals, entities, or CalOptima to civil, criminal, or administrative **Sanctions** and/or penalties. Further violations could lead to suspension, **Preclusion**, or **Exclusion**, from participation in **Federal and/or State Health Care Programs**.

CalOptima **Employees** shall be evaluated annually based on their compliance with CalOptima's

Compliance Program. Where appropriate, CalOptima shall promptly initiate education and training to correct identified problems, or behaviors.

Back to Agenda

VI.MONITORING, AUDITING, AND IDENTIFICATION OF RISKS

Activities associated with **Monitoring** and **Auditing** are identified through a combination of activities: risk assessments, **Audit & Oversight Committee** and **Compliance Committee** discussions and decisions, and internal and external reporting. Through **Monitoring**, **Auditing**, and identification of risks, CalOptima can prevent, detect, and correct non-compliance with applicable federal and/or state requirements.

a. Risk Assessment

The **Compliance Officer,** or his/her **Designee,** will collaborate with the **Compliance Committee** to identify areas of focus for **Monitoring** and **Auditing** potential non-compliant activity and **FWA** issues. A **Compliance Risk Assessment** will be performed no less than annually, and as needed, to evaluate the current status of CalOptima's operational areas as well as the operations of **FDRs**. Operations and processes will be evaluated based on: (1) deficiencies found by **Regulatory Agencies**; (2) deficiencies found by internal and external **Audit** and **Monitoring** reports; (3) the institution of new or updated **Policies and Procedures**; (4) cross departmental interdependencies; and (5) the effect on the beneficiary experience. The Readiness Checklist established by **CMS** and the **OIG** Work Plan shall be used as resources to evaluate operational risks.

The **Compliance Officer,** or his/her **Designee,** will work with the Chief Operating Officer, or his/her **Designee**, in each operational area, to answer the questions associated with each process and to continually examine and identify potential risk areas requiring monitoring and **Auditing**. Those operational areas determined to be high risk may be subject to more frequent **Monitoring** and **Auditing**, as well as additional reporting requirements. The risk assessment process will be managed by the **Compliance Officer**, or his/her **Designee**, and presented to the **AOC**, and subsequently to the **Compliance Committee**, for review and approval. **Monitoring** plans will be developed in collaboration with the operational areas, and focused **Audits** may be scheduled based on the results of the ongoing monitoring and respective risk score.

The risk assessment shall also be updated as processes change, or are identified as being deficient.

b. Monitoring and Auditing

CalOptima conducts both internal and external routine **Auditing** and **Monitoring Activities** to test and confirm compliance with all applicable regulations, guidance, contractual agreements, and federal and state laws, as well as CalOptima **Policies and Procedures** to protect against non-compliance and potential **FWA** in **CalOptima Programs**. CalOptima and **FDRs** shall comply with applicable data certification requirements, including, without limitation, 42 C.F.R. §§ 438.604 and 438.606. **Monitoring Activities** are regular reviews performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective. An **Audit** is a formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a set of standards (e.g., **Policies and Procedures**, laws, and regulations) used as base measures. As part of the **Monitoring** process, CalOptima has created a dashboard, which is a **Monitoring** tool to track key metrics, including, but not limited to, coverage determinations, complaints, appeals, grievances, regulatory communications, credentialing, customer service, transition of coverage (TOC), and claims. The dashboard will be used to communicate results associated with **Monitoring** operations and outcomes

and to identify areas in need of targeted **Auditing** on at least a monthly basis. Information taken from the dashboard along with grievance and complaint call information will be used to develop **Monitoring** and **Auditing** work plans. **Monitoring** and **Auditing** work plans are used to detect potential areas of risk and/or non-compliant activity. The **Monitoring** and **Auditing** work plans are subject to daily updates and additions, and are therefore, working documents. The **Compliance Officer**, or his/her **Designee,** in collaboration with the **AOC** and **Compliance Committee**, develops the **Monitoring** and **Auditing** work plans to address the risks associated with each of **CalOptima's Programs**.

The **Compliance Officer,** or his/her **Designee,** will coordinate with CalOptima's Audit & Oversight Department in connection with appropriate **Auditing** and **Monitoring Activities**. **Audits** for each operational area will be conducted throughout the year consistent with the **Monitoring** and **Auditing** work plans. The **Compliance Officer**, or his/her **Designee,** will coordinate the **Audits** with internal audit staff, and, in some cases, with the assistance from an outside vendor. **Audit** methodologies shall be consistent with regulatory and **NCQA** requirements and standards. All **Audits** will include review of applicable documents and evaluation of actual processes to ensure compliance with all applicable regulations and contractual obligations. Once the **Audit** review is completed, the Audit & Oversight teams will communicate the results to the **Compliance Officer** and propose follow up corrective action(s), if necessary. The **Compliance Officer,** or his/her **Designee,** will provide reports to the CEO and the **Compliance Committee** concerning the results of the **Audits**. The **AOC** reports to the **Compliance Officer** and the **Compliance Committee** on **Audits** that involve **FDRs** as discussed below. If **FWA** issues are identified during an **Audit**, the matter will be further investigated and resolved in a timely manner. In addition, an **Audit** of the **Compliance Program** and its effectiveness should occur at least annually, and the results shall be reported to the **CalOptima Board**.

c. Oversight of Delegated Activities

To ensure the terms and conditions of statutory and contractual obligations to **CMS**, **DHCS**, and other governmental and regulatory entities are adhered to, CalOptima implements a comprehensive oversight **Monitoring** and **Auditing** process of **FDRs** who perform delegated activities. The processes that CalOptima implements to oversee, **Monitor**, and **Audit FDRs** are incorporated into CalOptima's written **Policies and Procedures**, including processes involving pre-contractual evaluations and **Audits** of **First Tier Entities**. CalOptima may implement **Corrective Action Plans**, **Sanctions**, and/or revoke its **Delegation** of duties (in a manner permitted under the contract) if CalOptima determines that an **FDR** is unable or unwilling to carry out its responsibilities consistent with statutory and contractual obligations.

The **Compliance Officer**, or his/her **Designee**, determines the process for **Monitoring** delegated **FDRs** and develops the annual **Monitoring** and **Audit** calendar in order to validate compliance with contractual standards and regulatory requirements. The **AOC** is responsible for overseeing all of the delegated activities and will review the readiness assessment, ensure the annual review of **FDRs** for delegated functions are completed, conduct formal on-going evaluation of **FDR** performance and compliance, ensure **Downstream** and **Related Entities** are monitored, and impose **Corrective Action Plans** and/or **Sanctions** if the **FDR**'s performance fails to meet statutory and contractual standards and requirements. The **AOC** may recommend termination of **Delegation** to the **Compliance Committee** for unresolved matters.

d. Monitoring and Audit Review Process for FDRs

1. *Initial Evaluation*

Prior to executing a contract or **Delegation** agreement with a potential **FDR**, a risk assessment is performed to determine the type of initial evaluation that will be performed. If it is deemed necessary, an initial evaluation, referred to as a Readiness Assessment as detailed in CalOptima's **Policies and Procedures**, is completed to determine the ability of the potential **FDR** to assume responsibility for delegated activities and to maintain CalOptima standards, applicable state, **CMS**, and regulatory requirements, and accreditation requirements. The initial evaluation includes, but is not limited to, review of the entity's operational capacity and resources to perform the delegated functions, evaluation of the entity's ability to meet contractual and regulatory requirements, verification that the entity is not **Precluded** on the **Preclusion List**, excluded in the **OIG List of Excluded Individuals/Entities (LEIE)**, the **General Services Administration (GSA) System of Award Management (SAM)**, or the **Medi-Cal Suspended & Ineligible (S&I) Provider List** from participating in health programs, and/or an initial onsite evaluation. Results of the initial evaluation are presented to the **AOC** and subsequently the **Compliance Committee** for review and/or approval.

2. *Contracting with FDRs*

Once an entity has been approved, the **Delegation** agreement specifies the activities CalOptima delegates to the **FDRs**, each party's respective roles and responsibilities, reporting requirements and frequency, submission of data requirements, the process for performance evaluations and **Audits**, and remedies, including disciplinary actions, available to CalOptima. Prior to any **Sub-delegation** to any **Downstream** or **Related Entity**, a **First Tier Entity** must obtain approval from CalOptima. CalOptima determines who will directly monitor the **Downstream** or **Related Entity's** compliance with requirements.

FDRs shall be required to institute a training program consistent with CalOptima's requirements intended to communicate CalOptima's compliance requirements as well as compliance characteristics related to the **FDR** and their contractually delegated area(s). Furthermore, **FDRs** will be required to complete, sign, and return attestation forms confirming the **FDR**'s compliance with new hire and annual training and education requirements, which includes courses on general compliance and **FWA** as well as **Exclusion** and **Preclusion** screening and **FWA** reporting obligations.

3. *Annual Risk Assessment*

The **Compliance Officer**, or his/her **Designee**, will ensure that an annual comprehensive risk assessment is conducted in accordance with CalOptima Policy HH.2027Δ: Annual Risk Assessment (Delegate) to determine the **FDR's** vulnerabilities and high-risk areas. High-risk **FDRs** are those that are continually non-compliant or at risk of non-compliance based on identified gaps in processes with regulatory and CalOptima requirements. Any previously identified issues, which include any corrective actions, service level performance, reported detected offenses, and/or complaints and appeals from the previous year will be factors that are included in the risk assessment. Any **FDR** deemed high risk, or vulnerable, is presented to the **AOC** for suggested follow-up **Audit**. **FDRs** determined to be high risk may be subjected to a more frequent **Monitoring** and **Auditing** schedule, as well as additional reporting requirements. The risk assessment process, along with reports from **FDRs**, will be managed by the **Compliance Officer**, or his/her **Designee**, and presented to the **AOC**

and subsequently to the **Compliance Committee** for review and approval.

4. *FDR Performance Reviews and Audits*

CalOptima conducts a periodic comprehensive performance review of the **FDR's** ability to provide delegated services in accordance with contractual standards and applicable state, **CMS**, and accreditation requirements, as further detailed in CalOptima's **Policies and Procedures**. CalOptima may conduct **Audits** of **FDRs** at any time. Such **Audits** may include an evaluation of the **FDR's** training and education program and materials covering general compliance and **FWA**, as well as compliance with applicable laws, regulations, and contractual obligations governing delegated activities. High-risk **FDRs**, as determined by the annual risk assessment and/or continued non-compliance, will obtain priority status on the annual **Audit** calendar; however, CalOptima does not limit its **Auditing** schedule to only high-risk **FDRs**.

If CalOptima has reason to believe the **FDR's** ability to perform a delegated function is compromised, an additional focused **Audit** may be performed. The **Compliance Officer,** or his/her **Designee**, may also recommend focused **Audits** upon evaluation of non-compliant trends or reported incidents. The results of these **Audits** will be reported to the **AOC** and then to the **Compliance Committee**.

A focused **Audit** may be initiated for any of the following activities, or any other reason at the discretion of CalOptima:

- Failure to comply with regulatory requirements and/or CalOptima's service level performance indicators;
- Failure to comply with a **Corrective Action Plan**;
- Reported or alleged **Fraud**, **Waste**, and/or **Abuse**;
- Significant policy variations that deviate from the CalOptima or state, **CMS**, or accreditation requirements;
- Bankruptcy, or impending bankruptcy, which may impact services to **Members** (either suspected or reported);
- Sale, merger, or acquisition involving the **FDR**;
- Significant changes in the management of the **FDR**; and/or
- Changes in resources which impact CalOptima's and/or the **FDR's** operations.

5. *Corrective Actions and Additional Monitoring and Auditing*

The **Compliance Officer,** or his/her **Designee**, shall submit regular reports of all monitoring, **Audit**, and corrective action activities to the **Compliance Committee**. In instances where non-compliance is identified, a **Corrective Action Plan** shall be developed by the **FDR** and reviewed and approved by the **Compliance Officer**, or his/her **Designee**. Every **Corrective Action Plan** is presented to the AOC, in aggregate, with no less than quarterly updates, and recommendations for escalation, as applicable. Supplemental and focused **Audits** of **FDRs**, as well as additional reporting, may be required until compliance is achieved.

At any time, CalOptima may implement **Sanctions** or require remediation by an **FDR** for failure to fulfill contractual obligations including development and implementation of a **Corrective Action Plan**. Failure to cooperate with CalOptima in any manner may result in termination of the **Delegation** agreement, in a manner authorized under the terms of the agreement.

e. Evaluation of Audit Activities

An external review of CalOptima's **Auditing** process is conducted through identified process measures. These measures support organizational, accreditation, and regulatory requirements and are reported on a yearly basis. CalOptima uses an independent, external consultant firm to periodically review the **Auditing** processes, including **Policies and Procedures**, **Audit** tools, and **Audit** findings, to ensure all regulatory requirements are being audited in accordance with industry standards/practices and are in compliance with federal and state regulations.

The current measures reviewed include:

- The central database of all pending, active, and terminated **FDRs** to monitor and track functions, performance, and **Audit** schedules;
- Implementation of an escalation process for compliance/performance issues;
- Implementation of a process for validation of **Audit** tools;
- Implementation of a process for noticing **FDRs** and functional areas of **Corrective Action Plans**;
- Tracking and trending internal compliance with oversight standards, performance, and outcomes;
- Implementation of an annual training program for internal staff regarding **Delegation** standards, **Auditing**, and **Monitoring FDR** performance; and/or
- Implementation of a process for dissemination of regulatory changes to include Medi-Cal and Medicare lines of business.

The following key performance metrics will be evaluated and reported periodically:

- Evaluations of **FDR** performance and reporting of delegated functions in accordance with the terms of the agreement;
- Number of annual oversight **Audits** completed within twelve (12) months; and
- **Corrective Action Plans** (**CAPs**) completed within the established time frame.

f. Regular Exclusion and Preclusion Screening

As detailed in CalOptima's **Policies and Procedures**, CalOptima performs **Participation Status Reviews** by searching the **OIG –LEIE**, the **GSA–SAM**, the **DHCS Medi-Cal Suspended & Ineligible Provider Lists**, and the **CMS Preclusion List** upon appointment, hire, or commencement of a contract, as applicable, and monthly thereafter, to ensure **Board Members**, **Employees**, and/or **FDRs** are not excluded, or do not become excluded or precluded from participating in **Federal and/or State Health Care Programs**. **Board Members**, **Employees**, and **FDRs** are required to disclose their **Participation Status** as part of their initial appointment, employment, commencement of the contract and registration/application processes and when **Board Members**, **Employees**, and **FDRs** receive notice of a suspension, **Preclusion**, **Exclusion**, or debarment during the period of appointment, employment, or contract term. CalOptima also requires that its **First Tier Entities** comply with **Participation Status Review** requirements with respect to their relationships with **Downstream Entities**, including without limitation, the delegated credentialing and re-credentialing processes.

The **Compliance Officer,** or his/her **Designee,** will review reports from **Employees** responsible for

conducting the **Participation Status Reviews** to ensure **Employees** record and maintain the results of the reviews and notices/disclosures. **Employees** shall immediately notify the **Compliance Officer**, or his/her **Designee,** of affirmative findings of a person, or entity's, failure to meet the **Participation Status Review** requirements. If CalOptima learns that any prospective, or current, **Board Member**, **Employee**, or **FDR** has been proposed for **Exclusion**, **Excluded**, or **Precluded**, CalOptima will promptly remove him/her/the **FDR** from **CalOptima's Programs** consistent with applicable policies and/or contract terms.

Payment may not be made for items or services furnished, or prescribed, by an excluded person, or entity. Payments made by CalOptima to excluded persons, or entities, after the effective date of their suspension, **Exclusion**, debarment, or felony conviction, and/or for items or services furnished at the medical direction, or on the prescription of a physician who is suspended, excluded, or otherwise ineligible to participate, are subject to repayment/recoupment. Such requirements also apply to providers on the **CMS Preclusion List**, consistent with regulatory guidance, applicable policies, and/or contract terms. The **Compliance Officer,** or his/her **Designee**, will review potential organizational obligations related to the reporting of identified excluded, precluded, or suspended, individuals, or entities, and/or refund obligations and consult with legal counsel, as necessary and appropriate, to resolve such matters.

VII.RESPONSE AND REMEDIATION

a. Response to Notice of Violation or Suspected Violation

Upon receipt of a report or notice of violation or suspected violation of CalOptima's **Compliance Program** and/or **FWA** issues, the **Compliance Officer,** or his/her **Designee**, shall, upon promptly verifying the facts related to the violation or likely violation, notify the **Compliance Committee**, as appropriate. The **Compliance Committee** (in consultation with legal counsel, as appropriate) shall determine a response as soon as practicable, which shall include, but not be limited to:

- Recommending investigation of all aspects of the suspected violation or questionable conduct;
- Approving disciplinary actions, **Sanctions**, termination of any agreement and/or any other corrective action consistent with applicable **Policies and Procedures**, subject to consultation with legal counsel and/or notifying the **Governing Body**, as appropriate;
- Implementing education and training programs for **Board Members**, **Employees**, and/or **FDRs**, where applicable, to correct the violation and prevent recurrence;
- Amending, if necessary, CalOptima's **Compliance Plan**, **Code of Conduct**, and/or relevant **Policies and Procedures** to avoid any future recurrence of a violation; and/or
- Ensuring that compliance reports are kept confidential, where permitted by law, and if appropriate, protected under applicable privileges, including, but not limited to, the attorney/client privilege and ensuring that all files regarding compliance matters are appropriately secured.

It is the responsibility of the **Compliance Officer** and the **Compliance Committee** to review and implement any appropriate corrective and/or disciplinary action in consultation with the Human Resources Department, as applicable, consistent with applicable **Policies and Procedures** after considering such recommendations. The **Compliance Officer**, or his/her **Designee**, may monitor and review corrective actions after their implementation to ensure that they are effective.

b. Referral to Enforcement Agencies

In appropriate circumstances, CalOptima shall report violations of Medi-Cal Program requirements to **DHCS** Audits and Investigations, violations of Medicare Program requirements to the Medicare Drug Integrity Contractor (MEDIC), and violations of other state and federal laws to the appropriate law enforcement agencies, in accordance with the applicable reporting procedures adopted by such enforcement agencies.

c. Response to Fraud Alerts

CMS issues alerts to Part D sponsors concerning **Fraud** schemes identified by law enforcement officials. Typically, these alerts describe alleged activities involving pharmacies practicing drug diversion or prescribers participating in illegal remuneration schemes. CalOptima may take action (including denying or reversing claims) in instances where CalOptima's own analysis of its claims activity indicates that **Fraud** may be occurring. CalOptima's decision to deny, or reverse, claims shall be made on a claim-specific basis.

When a **Fraud** alert is received, CalOptima shall review its **Delegation** agreements with the identified parties, and shall consider terminating the contract(s) with the identified parties if

indictments have been issued against the particular parties and the terms of the **Delegation** agreement(s) authorizes contract termination.

CalOptima is also obligated to review its past paid claims from entities identified in a **Fraud** alert. With the issuance of a **Fraud** alert, **CMS** places CalOptima on notice (see Title 42, Code of Federal Regulations, §423.505(k)(3)) that claims involving the identified party need to be reviewed. To meet the "best knowledge, information, and belief" standard of certification, CalOptima shall make its best efforts to identify claims that may be, or may have been, part of an alleged **Fraud** scheme and remove them from the sets of prescription drug event data submissions.

d. Identifying and Monitoring Providers with a History of Complaints

CalOptima shall maintain files for a period of ten (10) years on both in-network and out-of-network providers who have been the subject of complaints, investigations, violations, and prosecutions. This includes **Member** complaints, **DHCS** Audits and Investigations referrals, MEDIC investigations, **OIG** and/or DOJ investigations, US Attorney prosecution, and any other civil, criminal, or administrative action for violations of **Federal and/or State Health Care Programs** requirements. CalOptima shall also maintain files that contain documented warnings (e.g., **Fraud** alerts) and educational contacts, the results of previous investigations, and copies of complaints resulting in investigations. CalOptima shall comply with requests by law enforcement, **DHCS**, **CMS**, and **CMS' Designee**, regarding **Monitoring** of **FDRs** within CalOptima's network that **DHCS**, or **CMS**, has identified as potentially abusive, or fraudulent.

e. Identifying and Responding to Overpayments

CalOptima shall sustain an effective system for the review of suspect claims to detect and prevent **FWA** within a **CalOptima Program**. All suspect claims shall be thoroughly investigated to determine whether such claims are the direct result of **FWA** activity. CalOptima shall assess all **FDRs** for potential **Overpayments** when reviewing and undertaking corrective actions. Upon completion of the suspect claim(s) investigation(s), CalOptima shall recoup and/or return **Overpayments** consistent with applicable laws and regulatory guidance.

As required, CalOptima and/or the **FDR** shall update appropriate data sources and reports, via documenting and/or resubmission, as appropriate. The resolution(s) for suspect claim(s) investigation(s) may include, but is not limited to: (i) recoupment through established procedures, (ii) provider education about billing protocols, and (iii) reporting of **Overpayment** determinations to **Regulatory Agencies**, as required by law.

When applicable, CalOptima shall return **Overpayments** made to CalOptima, consistent with applicable state and federal laws and regulatory guidance.

C. FRAUD, WASTE, AND ABUSE (FWA) PREVENTION AND DETECTION

The detection, prevention, and remediation of **FWA** are components of CalOptima's **Compliance Program**. **FWA** activities are implemented and overseen by CalOptima's **Compliance Officer,** or his/her **Designee,** in conjunction with other compliance activities, and investigations are performed, or overseen, by the Special Investigations Unit (SIU), an internal investigative unit within CalOptima's Office of Compliance, responsible for **FWA** investigations. The **Compliance Officer,** or his/her **Designee**, reports **FWA** activities to the CalOptima **Compliance Committee**, CEO, the **CalOptima Board**, and **Regulatory Agencies**.

CalOptima utilizes various resources to detect, prevent, and remediate **FWA**. In addition, CalOptima promptly investigates suspected **FWA** issues and may implement disciplinary, or corrective, action to avoid recurrence of **FWA** issues. The objective of the **FWA** program is to ensure that the scope of benefits covered by the **CalOptima Programs** is appropriately delivered to **Members** and resources are effectively utilized in accordance with federal and state guidelines. CalOptima incorporates a system of internal assessments which are organized to identify **FWA** and promptly respond appropriately to such incidents of **FWA**.

I.FWA TRAINING

As detailed above, **FWA** training is provided to all **Board Members** and **Employees** as part of the overall compliance training courses in order to help detect, prevent, and remediate **FWA**. **FDRs** are also required to complete **FWA** training, as described above. CalOptima's **FWA** training provides guidance to **Board Members**, **Employees**, and **FDRs** on how to identify activities and behaviors that would constitute **FWA** and how to report suspected, or actual, **FWA** activities. Training materials are retained for a period of at least ten (10) years, and such training includes, but is not limited to:

- The process for detection, prevention, and reporting of suspected or actual **FWA**;
- Examples of the most common types of member **FWA** (see Appendix B, attached hereto and incorporated herein) and **FDR FWA** (see Appendix C, attached hereto and incorporated herein) as well as common local and national schemes relevant to managed care organization operations;
- Information on how to identify **FWA** in **CalOptima Programs** (e.g., suspicious activities suggesting CalOptima **Members**, or their family members, may be engaged in improper drug utilization or drug-seeking behavior, conduct suggesting improper utilization, persons offering kickbacks for referring, or enrolling, individuals in the **CalOptima Programs**, etc.);
- Information on how to identify potential prescription drug **FWA** (e.g., identification of significant outliers whose drug utilization patterns far exceed those of the average **Member** in terms of cost or quantity, disproportionate utilization of controlled substances, use of prescription medications for excessive periods of time, high-volume prescriptions of a particular manufacturer's drugs, submission of false claims or false data for prescription drug claims, misrepresenting the type of drug that was actually dispensed, excessive prescriptions by a particular physician, etc.);
- How to report potential **FWA** using CalOptima's reporting options, including CalOptima's Compliance and Ethics Hotline, and for **FDRs**, reporting obligations;
- CalOptima's policy of non-retaliation and non-retribution toward individuals who make such reports in good faith; and
- Information on the **False Claims Act** and CalOptima's requirement to train **Employees** and **FDRs** on the **False Claims Act** and other applicable **FWA** laws.

CalOptima shall provide **Board Members**, **Employees**, **FDRs**, and **Members** with reminders and additional training and educational materials through print and electronic communications, including, but not limited to, newsletters, alerts, and/or applicable meetings.

II.DETECTION OF FWA

a. Data Sources

In partnership with CalOptima internal departments, CalOptima's SIU utilizes different sources and analyzes various data information in an effort to detect patterns of **FWA**. Potential fraudulent cases will not only come from claims data but can also originate from many sources internally and externally. **Members**, **FDRs**, **Employees**, law enforcement and **Regulatory Agencies,** and others may contact CalOptima by phone, mail, and email if they suspect any individual, or entity, is engaged in inappropriate practices. Furthermore, the sources identified below can be used to identify problem areas within CalOptima, such as enrollment, finance, or data submission.

Sources used to detect **FWA** include, but are not limited to:

- CalOptima's Compliance and Ethics Hotline or other reporting mechanisms;
- Claims data history;
- Encounter data;
- Medical record **Audits**;
- **Member** and provider complaints, appeals, and grievance reviews;
- Utilization Management reports;
- Provider utilization profiles;
- Pharmacy data;
- **Auditing** and **Monitoring Activities**;
- Monitoring external health care **FWA** cases and determining if CalOptima's **FWA** Program can be strengthened with information gleaned from the case activity; and/or
- Internal and external surveys, reviews, and **Audits**.

b. Data Analytics

CalOptima uses technology and data analysis to reduce **FWA** externally. Using a combination of industry standard edits and CalOptima-specific edits, CalOptima identifies claims for which procedures have been unbundled, or upcoded. CalOptima also identifies suspect **FDRs** based on billing patterns.

CalOptima also uses the services of an external **Medicare Secondary Payer (MSP) Vendor** to reduce costs associated with its Medicare-Medicaid programs, such as the **OneCare**, **OneCare Connect**, and/or **PACE** programs, by ensuring that federal and state funds are not used where certain health insurance, or coverage, is primarily responsible.

c. Analysis and Identification of Risk Areas Using Claims Data

Claims data are analyzed in numerous ways to uncover fraudulent billing schemes. Routine review of claims data will be conducted in order to identify unusual patterns, outliers in billing and utilization, and identify the population of providers and pharmacies that will be further investigated and/or **Audited**. Any medical claim can be pended and reviewed in accordance with applicable state or federal law if they meet certain criteria that warrant additional review. Payments for pharmacy claims may also be pended and reviewed in accordance with applicable state or federal law based on criteria focused on the types of drugs (e.g., narcotics), provider patterns, and challenges previously

reported pertaining to certain pharmacies. CalOptima along with the **PBM** will conduct data mining activities in order to identify potential issues of **FWA**.

The following trends will be reviewed and flagged for potential **FWA**, including:

- Over utilized services;
- Aberrant provider billing practices;
- Abnormal billing in relation to peers;
- Manipulation of modifiers;
- Unusual coding practices such as excessive procedures per day, or excessive surgeries per patient;
- Unbundling of services;
- Unusual Durable Medical Equipment (DME) billing; and/or
- Unusual utilization patterns by **Members** and providers.

The following claims data may be utilized to evaluate and uncover fraudulent billing schemes:

- Average dollars paid per medical procedure;
- Average medical procedures per office visit;
- Average visits per member;
- Average distance a member travels to see a provider/pharmacy;
- Excessive patient levels of high-risk diagnoses; and/or
- Peer to peer comparisons within specialties.

Once vulnerabilities are identified, immediate actions are taken in order to mitigate the possible losses, including, but not limited to, claims denial or reversal and/or the reporting of suspected **FWA**. The data review includes, but is not limited to:

- Analysis of provider medical billing activity within their own peer group;
- Analysis of pharmacy billing and provider prescribing practices;
- Controlled drug prescribing exceeds two (2) standard deviations of the provider's peer group; and/or
- Number of times a provider bills a CPT code in relation to all providers, or within their own peer group.

The claims data from the **PBM** will go through the same risk assessment process. The analysis will be focused on the following characteristics:

- Prescription drug shorting, which occurs when pharmacy staff provides less than the prescribed quantity and intentionally does not inform the beneficiary, or arranges to provide the balance but bills for the prescribed amount.
- Bait and switch pricing, which occurs when a **Member** is led to believe that a drug will cost one (1) price, but at the point of sale, they are charged a higher amount. An example of this type of scheme is when the pharmacy switches the prescribed medication to a form that increases the pharmacy's reimbursement.
- Prescription forging, or altering, which occurs when existing prescriptions are altered to increase the quantity or the number of refills, without the prescriber's authorization. Usually, the medications are diverted after being billed to the Medicare Part D program.

- Dispensing expired, or adulterated, prescription drugs, which occurs when pharmacies dispense drugs after the expiration date on the package. This also includes drugs that are intended as samples not for sale, or have not been stored or handled in accordance with manufacturer and FDA requirements.
- Prescription refill errors, which occur when pharmacy staff deliberately provides several refills different from the number prescribed by the provider.
- Failure to offer negotiated prices, which occurs when a pharmacy charges a **Member** the wrong amount.

d. Sample Indicators

No one (1) indicator is evidence of **FWA**. The presence of several indicators may suggest **FWA**, but further investigation is needed to determine if a suspicion of **FWA** exists. The following list below highlights common industry indicators and red flags that are used to determine whether to investigate an **FDR** or their claim disposition:

- Claims that show any altered information (dates; codes; names).
- Photocopies of claim forms and bills, or handwritten claims and bills.
- Provider's last name is the same as the **Member**/patient's last name.
- Insured's address is the same as the servicing provider.
- Same provider submits multiple claims for the same treatment for multiple family members or group members of provider's practice.
- Provider resubmitting claim with changed diagnosis code for a date of service already denied.

Cases identified through these data sources and risk assessments are entered into the **FWA** database and a report is generated and submitted to the **Compliance Officer**, **Compliance Committee**, and CEO.

III.FWA INVESTIGATIVE PROCESS

Once the SIU receives an allegation of suspected **FWA** or detects **FWA** through an evaluation of the data sources identified above, the SIU utilizes the following steps as a guide to investigate and document the case:

- The allegation is logged into the Fraud Tracking Database (access database maintained by SIU on an internal drive);
- The allegation is assigned an investigation number (sequentially by year of receipt) and an electronic file is assigned on the internal drive, by investigation number and name;
- SIU develops an investigative plan;
- SIU obtains a legal opinion from CalOptima's Legal Counsel on specific cases, or issues;
- Quality of care issues are referred to CalOptima's Quality Improvement Department;
- Where appropriate, SIU will submit a Request for Information (RFI) directly to an **FDR** to obtain relevant information;
- SIU, or a **Designee**, interviews the individual who reported the **FWA**, affected **Members** and/or **FDRs**, or any other potential witnesses, as appropriate;
- SIU conducts a data analytics review of the allegation for overall patterns, trends, and errors using applicable data sources and reports;
- Review of **FDR** enrollment applications, history, and ownership, as necessary;
- Review of **Member** enrollment applications and other documents, as necessary;
- All supporting documentation is scanned and saved in the assigned electronic file. Any pertinent information, gathered during the SIU review/investigation, is placed into the electronic file;
- After an allegation is logged into the Fraud Tracking Database, the investigation is tracked to its ultimate conclusion, and the Fraud Tracking Database shall reflect all information gathered and documentation received to ensure timely receipt, review, and resolution, and report may be made to applicable state or federal agencies within mandated/required time periods, if appropriate;
- If a referral to another investigative agency is warranted, the information is collected, and a referral is made to the appropriate agency; and/or
- If the investigation results in recommendations for disciplinary or corrective actions, the results of the investigation may be reported to the **Compliance Officer** and **Compliance Committee**. If a CalOptima internal department or FDR has repeat disciplinary or corrective actions, SIU may report the issue(s) to the **Compliance Committee** for further action.

a. Findings, Response, and Remediation

Outcomes and findings of the investigation may include, but are not limited to, confirmation of violations, insufficient evidence of **FWA**, need for contract amendment, education and training requirement, recommendation of focused **Audits**, additional investigation, continued **Monitoring**, new policy implementation, and/or criminal or civil action. When the root cause of the potential **FWA** issue has been identified, the SIU will track and trend the **FWA** allegation and investigation, including, but not limited to, the data analysis performed, which shall be reported to the **Compliance Committee** on a quarterly basis. Investigation findings can be used to determine whether disciplinary, or corrective, action is appropriate, whether there is a need for a change in CalOptima's **Policies and Procedures**, and/or whether the matter should be reported to applicable state and federal agencies.

In accordance with applicable CalOptima **Policies and Procedures**, CalOptima shall take appropriate disciplinary, or corrective, action against **Board Members**, **Employees**, and/or **FDRs** related to validated instances of **FWA**. CalOptima will also assess **FDRs** for potential **Overpayments** when reviewing and undertaking corrective actions. Corrective actions will be monitored by the **Compliance Committee**, and progressive discipline will be monitored by the Department of Human Resources, as appropriate. Corrective actions may include, but are not limited to, financial **Sanctions**, regulatory reporting, **Corrective Action Plans**, or termination of the **Delegation** agreement, when permitted by the contract terms. Should such disciplinary, or corrective, action need to be issued, CalOptima's Office of Compliance will initiate review and discussion at the first **Compliance Committee** following the date of identification of the suspected **FWA**, the date of report to **DHCS**, or the date of **FWA** substantiation by **DHCS** subsequent to the report. If vulnerability is identified through a single **FWA** incident, the corrective action may be applied universally.

b. Referral to Enforcement Agencies

CalOptima's SIU shall coordinate timely referrals of potential **FWA** to appropriate **Regulatory Agencies**, or their designated program integrity contractors, including the **CMS** MEDIC, **DHCS** Audits and Investigations, and/or other enforcement agencies, in accordance with the applicable reporting procedures adopted by such enforcement agencies. **FDRs** shall report **FWA** to CalOptima within the time frames required by the applicable contract and in sufficient time for CalOptima to timely report to applicable enforcement agencies. Significant program non-compliance, or suspected **FWA**, should be reported to **CMS** and/or **DHCS**, as soon as possible after discovery, but no later than ten (10) working days to **DHCS** after CalOptima first becomes aware of and is on notice of such activity, and within thirty (30) calendar days to MEDIC after a **OneCare**, **OneCare Connect**, or **PACE** case is reported to CalOptima's SIU.

Potential cases that should be referred include, but are not limited to:

- Suspected, detected, or reported criminal, civil, or administrative law violations;
- Allegations that extend beyond CalOptima and involve multiple health plans, multiple states, or widespread schemes;
- Allegations involving known patterns of **FWA**;
- Patterns of **FWA** threatening the life, or well-being, of CalOptima **Members**; and/or
- Schemes with large financial risk to CalOptima, or its **Members**.

IV.ANNUAL FWA EVALUATION

CalOptima's **Compliance Committee** shall periodically review and evaluate the **FWA** activities and its effectiveness as part of the overall **Compliance Program Audit** and **Monitoring Activities**. Revisions should be made based on industry changes, trends in **FWA** activities (locally and nationally), the **OIG** Work Plan, the CalOptima **Compliance Plan**, and other input from applicable sources.

a. Retention of Records

CalOptima shall maintain reports and summaries of **FWA** activities and all proceedings of the various committees in original, electronic, or other media format in accordance with applicable statutory, regulatory, contractual, CalOptima policy, and other requirements. CalOptima shall file copies of **Member** records containing **PHI** in a secure and confidential manner, regardless of the outcome of a review. CalOptima shall file copies of **FWA** investigations in a secure and confidential manner, regardless of the outcome of an investigation.

b. Confidentiality

CalOptima and its **FDRs** shall maintain all information associated with suspected, or actual, **FWA** in confidential files, which may only be released in accordance with applicable laws and CalOptima **Policies and Procedures**. All participants and attendees of CalOptima's Quality Improvement Committee, **Compliance Committee**, and respective subcommittees shall sign a "Confidentiality Agreement" agreeing to hold all committee discussions confidential.

D. COMPLIANCE PROGRAM EVALUATION

In order to ensure the effectiveness of the **Compliance Program**, CalOptima will conduct a self-assessment no less than annually. The assessment will evaluate the **Compliance Program** against the elements of an effective **Compliance Program** as recommended by **OIG** and required by **CMS** regulations. The following areas will be reviewed:

- **Policies and Procedures**;
- **Compliance Officer** and **Compliance Committee**;
- Training and education of **Board Members**, **Employees**, and **FDRs**;
- Effective lines of communication;
- Well publicized disciplinary guidelines;
- Internal **Monitoring** and **Auditing**;
- **Delegation** oversight;
- **Exclusion** and **Preclusion** screening process; and
- Prompt responses to detected offenses.

The **Compliance Program** will be evaluated no less than annually by an outside entity. The results of the evaluation will be shared with **Executive Staff and Management**, the **Compliance Committee**, and the **CalOptima Board**. Updates to the **Compliance Program** will be based on the results of the evaluation and will be referred to the **CalOptima Board** for review and approval.

I.PRIVILEGED FILES AND DOCUMENT RETENTION

a. Privileged Files

All privileged files shall be protected by, and marked, privileged and confidential and its contents shall be kept in a secure location. Only the **Compliance Officer**, CalOptima legal counsel, and the **Compliance Committee**, where appropriate, shall have access to its contents. All materials in the privileged file shall be treated as attorney-client privileged and shall not be disclosed to persons outside the privileged relationship. The privileged file shall contain the following original documents (except where only a copy is available):

- Records of requests for legal assistance or legal opinion(s) in connection with Compliance and Ethics Hotline telephone calls, correspondence related thereto, and/or problems reported to the **Compliance Officer**;
- The response from legal counsel regarding any such issues; and/or
- Legal opinions concerning **FDR delegation** agreement interpretations and remedies available to CalOptima.

b. Document Retention

CalOptima shall retain contracts, books, documents, records, financial statements, and other data, as defined in Title 42, Code of Federal Regulations, Sections 438.5(c), 438.604, 606, 608, and 610, for no less than ten (10) years from end of the fiscal year in which the CalOptima Medi-Cal contract expires, or is terminated (other than privileged documents which shall be retained until the issue raised in the documentation has been resolved, or longer if necessary). Records pertaining to CalOptima's OneCare, OneCare Connect, or PACE programs shall also be retained for ten (10) years from end date of the applicable contract (except for privileged documents which shall be retained until the issue raised in the documentation has been resolved, or longer if necessary).

CalOptima shall maintain the documentation required by **HIPAA** for at least six (6) years from the date of its creation or the date when it last was in effect, whichever, is later. Such documentation includes: (i) **Policies and Procedures** (and changes thereto) designed to comply with the standards, implementation specifications or other designated requirements; (ii) writings, or electronic copies, of communications required by **HIPAA**; (iii) writings, or electronic copies, of actions, activities, or designations required to be documented under **HIPAA**; and (iv) documentation to meet its burden of proof related to identification of breaches under Title 45, Code of Federal Regulations, §164.414(b).

Appendix A

Code of Conduct

Principle	Standard
Mission, Vision, and Values CalOptima is committed to its Mission, Vision, and Values	**Mission** To provide members with access to quality health care services delivered in a cost-effective and compassionate manner. **Vision** To be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes for all CalOptima members. **Values = CalOptima CARES** **C**ollaboration; **A**ccountability; **R**espect; **E**xcellence; **S**tewardship
Compliance with the Law CalOptima is committed to conducting all activities and operations in compliance with applicable law.	**Transparent, Legal, and Ethical Business Conduct** CalOptima is committed to conducting its business with integrity, honesty and fairness and in compliance with all laws and regulations that apply to its operations. CalOptima depends on its Board members, employees, and those who do business with it to help fulfill this commitment. **Obeying the Law** Board members, employees and contractors (including First Tier and Downstream Entities included in the term "FDRs") shall not lie, steal, cheat, or violate any law in connection with their employment and/or engagement with CalOptima. **Fraud, Waste, & Abuse (FWA)** CalOptima shall refrain from conduct, which would violate the fraud, waste, and abuse laws. CalOptima is committed to the detection, prevention, and reporting of fraud, waste, and abuse. CalOptima is also responsible for ensuring that Board members, employees, and FDRs receive appropriate FWA training as described in regulatory guidance. CalOptima's Compliance Plan, Fraud, Waste, and Abuse Plan and policies describe examples of potential fraud, waste, and abuse and discuss employee and contractor FWA obligations and potential sanctions arising from relevant federal and state FWA laws. CalOptima expects and requires that its Board members, employees, and contractors do not participate in any conduct that may violate the FWA laws including, federal and state anti-kickback laws, false claims acts, and civil monetary penalty laws.

Back to Agenda

Principle	Standard
	Political Activities CalOptima's political participation is limited by law. CalOptima funds, property, and resources are not to be used to contribute to political campaigns, political parties, and/or organizations. Board members, employees and contractors may participate in the political process on their own time and at their own expense but shall not give the impression that they are speaking on behalf of or representing CalOptima in these activities. **Anti-Trust** All Board members, employees, and contractors must comply with applicable antitrust, unfair competition, and similar laws, which regulate competition. Such persons shall seek advice from legal counsel if they encounter any business decisions involving a risk of violation of antitrust laws. The types of activities that potentially implicate antitrust laws include, without limitation, agreements to fix prices, bid rigging, and related activities; boycotts, certain exclusive dealings and price discrimination agreements; unfair trade practices; sales or purchases conditioned on reciprocal purchases or sales; and discussion of factors determinative of prices at trade association meetings.
Member Rights CalOptima is committed to meeting the health care needs of its members by providing access to quality health care services.	**Member Choice, Access to Health Care Services, Continuity of Care** Employees and contractors shall comply with CalOptima policies and procedures and applicable law governing member choice, access to health care services and continuity of member care. Employees and contractors shall comply with all requirements for coordination of medical and support services for persons with special needs. **Cultural and Linguistic Services** CalOptima and contractors shall provide culturally, linguistically, and sensory appropriate services to CalOptima members to ensure effective communication regarding diagnosis, medical history, and treatment, and health education. **Disabled Member Access** CalOptima's facilities shall adhere to the requirements of Title III of the Americans with Disabilities Act of 1990 by providing access for disabled members. **Emergency Treatment** Employees and contractors shall comply with all applicable guidelines, policies and procedures, and laws governing CalOptima member access and payment of emergency services including, without limitation, the Emergency Medical Treatment

Principle	Standard
	and Active Labor Act ("EMTALA") and state patient "anti-dumping" laws, prior authorization limitations, and payment standards. **Grievance and Appeals Processes** CalOptima, its physician groups, its health networks and third-party administrators (TPA) shall ensure that CalOptima members are informed of their grievance and appeal rights including, the state hearing process, through member handbooks and other communications in accordance with CalOptima policies and procedures and applicable laws. Employees and contractors shall address, investigate, and resolve CalOptima member complaints and grievances in a prompt and nondiscriminatory manner in accordance with CalOptima policies and applicable laws.
Business Ethics In furtherance of CalOptima's commitment to the highest standards of business ethics, employees and contractors shall accurately and honestly represent CalOptima and shall not engage in any activity or scheme intended to defraud anyone of money, property, or honest services.	**Candor & Honesty** CalOptima requires candor and honesty from individuals in the performance of their responsibilities and in communications including, communications with CalOptima's Board of Directors, supervisory employees, attorneys, and auditors. No Board member, employee, or contractor shall make false or misleading statements to any members and/or persons, or entities, doing business with CalOptima about products or services of CalOptima. **Financial and Data Reporting** All financial reports, accounting records, research reports, expense accounts, data submissions, attestations, timesheets, and other documents must accurately and clearly represent the relevant facts and the true nature of a transaction. CalOptima maintains a system of internal controls to ensure that all transactions are executed in accordance with management's authorization and recorded in a proper manner to maintain accountability of the agency's assets. Improper or fraudulent accounting documentation or financial reporting or false or misleading encounter, claims, cost, or other required regulatory data submissions is contrary to the policy of CalOptima and may be in violation of applicable laws and regulatory obligations. **Regulatory Agencies and Accrediting Bodies** CalOptima will deal with all regulatory agencies and accrediting bodies in a direct, open, and honest manner. Employees and contractors shall not take action with regulatory agencies and accrediting bodies that is false or misleading.

Principle	Standard
Public Integrity CalOptima and its Board members and employees shall comply with laws and regulations governing public agencies.	**Public Records** CalOptima shall provide access to CalOptima Public Records to any person, corporation, partnership, firm, or association requesting to inspect and copy them in accordance with the California Public Records Act, California Government Code Sections 6250 et seq. and CalOptima policies. **Public Funds** CalOptima, its Board members, and employees shall not make gifts of public funds or assets or lend credit to private persons without adequate consideration unless such actions clearly serve a public purpose within the authority of the agency and are otherwise approved by legal counsel. CalOptima, its Board members, and employees shall comply with applicable law and CalOptima policies governing the investment of public funds and expenditure limitations. **Public Meetings** CalOptima, and its Board members, and employees shall comply with requirements relating to the notice and operation of public meetings in accordance with the Ralph M. Brown Act, California Government Code Sections 54950 et seq.
Confidentiality Board members, employees, and contractors shall maintain the confidentiality of all confidential information in accordance with applicable law and shall not disclose such confidential information except as specifically authorized by CalOptima policies, procedures, and applicable laws.	**No Personal Benefit** Board members, employees and contractors shall not use confidential or proprietary CalOptima information for their own personal benefit or for the benefit of any other person or entity, while employed at, or engaged by, CalOptima, or at any time thereafter. **Duty to Safeguard Member Confidential Information** CalOptima recognizes the importance of its members' right to confidentiality and implements policies and procedures to ensure its members' confidentiality rights and the protection of medical and other confidential information. Board members, employees and contractors shall safeguard CalOptima member identity, eligibility, social security, medical information and other confidential information in accordance with applicable laws including the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the Health Information Technology for Economic and Clinical Health Act (HITECH Act) and implementing regulations, the California Security Breach Notification Law, the California Confidentiality of Medical Information Act, other applicable federal and state privacy laws, and CalOptima's policies and procedures.

Principle	Standard
	Personnel Files Personal information contained in Employee personnel files shall be maintained in a manner designed to ensure confidentiality in accordance with applicable laws. **Proprietary Information** Subject to its obligations under the Public Records Act, CalOptima shall safeguard confidential proprietary information including, without limitation, contractor information and proprietary computer software, in accordance with and, to the extent required by, contract or law. CalOptima shall safeguard provider identification numbers including, without limitation, Medi-Cal license, Medicare numbers, social security numbers, and other identifying numbers.
Business Relationships Business transactions with vendors, contractors, and other third parties shall be conducted at arm's length in fact and in appearance, transacted free from improper inducements and in accordance with applicable law and ethical standards.	**Business Inducements** Board members, employees, and contractors shall not seek to gain advantage through improper use of payments, business courtesies, or other inducements. The offering, giving, soliciting, or receiving of any form of bribe or other improper payment is prohibited. Board members, employees, contractors and providers shall not use their positions to personally profit or assist others in profiting in any way at the expense of Federal and/or State health care programs, CalOptima, or CalOptima members. **Gifts to CalOptima** Board members and employees are specifically prohibited from soliciting and accepting personal gratuities, gifts, favors, services, entertainment, or any other things of value from any person or entity that furnishes items or services used, or that may be used, in CalOptima and its programs unless specifically permitted under CalOptima policies. Employees may not accept cash or cash equivalents. Perishable or consumable gifts given to a department or group are not subject to any specific limitation and business meetings at which a meal is served is not considered a prohibited business courtesy. **Provision of Gifts by CalOptima** Employees may provide gifts, entertainment or meals of nominal value to CalOptima's current and prospective business partners and other persons when such activities have a legitimate business purpose, are reasonable, and are otherwise consistent with applicable law and CalOptima policies on this subject. In addition to complying with statutory and regulatory requirements, it is critical to even avoid the appearance of impropriety when giving gifts to persons and entities that do business or are seeking to do business with CalOptima.

Principle	Standard
	Third-Party Sponsored Events CalOptima's joint participation in contractor, vendor, or other third-party sponsored events, educational programs and workshops is subject to compliance with applicable law, including gift of public fund requirements and fraud and abuse prohibitions, and must be approved in accordance with CalOptima policies on this subject. In no event, shall CalOptima participate in any joint contractor, vendor, or third party sponsored event where the intent of the other participant is to improperly influence, or gain unfair advantage from, CalOptima or its operations. Employees' attendance at contractor, vendor, or other third-party sponsored events, educational programs and workshops is generally permitted where there is a legitimate business purpose but is subject to prior approval in accordance with CalOptima policies. **Provision of Gifts to Government Agencies** Board members, employees, and contractors shall not offer or provide any money, gifts, or other things of value to any government entity or its representatives, except campaign contributions to elected officials in accordance with applicable campaign contribution laws. **Broad Application of Standards** CalOptima intends that these standards be construed broadly to avoid even the appearance of improper activity.
Conflicts of Interests Board members and employees owe a duty of undivided and unqualified loyalty to CalOptima.	**Conflict of Interest Code** Designated employees, including Board members, shall comply with the requirements of the CalOptima Conflict of Interest Code and applicable laws. Board members and employees are expected to conduct their activities to avoid impropriety and/or the appearance of impropriety, which might arise from the influence of those activities on business decisions of CalOptima, or from disclosure of CalOptima's business operations. **Outside Services and Interests** Without the prior written approval of the Chief Executive Officer (or in the case of the Chief Executive Officer, the Chair of the CalOptima Board of Directors), no employee shall (1) perform work or render services for any contractor, association of contractors or other organizations with which CalOptima does business or which seek to do business with CalOptima, (2) be a director, officer, or consultant of any contractor or association of contractors; or (3) permit his or her name to be used in any fashion that would tend to indicate a business connection with any contractor or association of contractors.

Principle	Standard
Discrimination CalOptima acknowledges that fair and equitable treatment of employees, members, providers, and other persons is fundamental to fulfilling its mission and goals.	**No Discrimination** CalOptima is committed to compliance with applicable anti-discrimination laws including Title VI of the Civil Right Act of 1964. Board members, employees and contractors shall not unlawfully discriminate on the basis of race, color, national origin, creed, ancestry, religion, language, age, marital status, gender (which includes sex, gender identity, and gender expression), sexual orientation, health status, physical or mental disability, or any other classification protected by law. CalOptima is committed to providing a work environment free from discrimination and harassment based on any classification noted above. **Reassignment** CalOptima, physician groups, and health networks shall not reassign members in a discriminatory manner, including based on the enrollee's health status.
Participation Status CalOptima requires that employees, contractors, providers, and suppliers meet Government requirements for participation in CalOptima's programs.	**Federal and State Health Care Program Participation Status** Board members, employees, and contractors shall not be currently suspended, terminated, debarred, or otherwise ineligible to participate in any Federal or State health care program, including the Medi-Cal program and Medicare programs. **CalOptima Screening** CalOptima will monitor the participation status of employees, individuals and entities doing business with CalOptima by conducting regular exclusion and preclusion screening reviews in accordance with CalOptima policies. **Disclosure of Participation Status** Board members, employees and contractors shall disclose to CalOptima whether they are currently suspended, terminated, debarred, or otherwise ineligible to participate in any Federal and/or State health care program. Employees, individuals, and entities that do business with CalOptima shall disclose to CalOptima any pending investigation, disciplinary action, or other matter that could potentially result in their exclusion or preclusion from participation in any Federal or State health care program. **Delegated Third Party Administrator Review** CalOptima requires that its health networks, physician groups, and third-party administrators review participating providers and suppliers for licensure and participation status as part of the delegated credentialing and recredentialing processes when such obligations have been delegated to them.

Principle	Standard
	Licensure CalOptima requires that all employees, contractors, health networks, participating providers, and suppliers who are required to be licensed, credentialed, certified, and/or registered in order to furnish items or services to CalOptima and its members have valid and current licensure, credentials, certification and/or registration, as applicable.
Government Inquiries/Legal Disputes Employees shall notify CalOptima upon receipt of Government inquiries and shall not destroy or alter documents in response to a government request for documents or information.	**Notification of Government Inquiry** Employees shall notify the Compliance Officer and/or their supervisor immediately upon the receipt (at work or at home) of an inquiry, subpoena, or other agency or government requests for information regarding CalOptima. **No Destruction of Documents** Employees shall not destroy or alter CalOptima information or documents in anticipation of, or in response to, a request for documents by any governmental agency or from a court of competent jurisdiction. **Preservation of Documents Including Electronically Stored Information** Board members and employees shall comply with all obligations to preserve documents, data, and records including, electronically stored information in accordance with CalOptima policies and shall comply with instructions on preservation of information and prohibitions and destruction of information issued by legal counsel.
Compliance Program Reporting Board members, employees, and contractors have a duty to comply with CalOptima's Compliance Program and such duty shall be a condition of their respective appointment, employment, or engagement.	**Reporting Requirements** All Board members, employees and contractors are expected and required to promptly report suspected violations of any statute, regulation, or guideline applicable to Federal and/or State health care programs or of CalOptima's own policies in accordance with CalOptima's reporting policies and its Compliance Plan. Such reports may be made to a supervisor or the Compliance Officer. Reports can also be made to CalOptima's hotline number below. Persons making reports to the hotline can do so on an anonymous basis. **Compliance and Ethics Hotline: 877-837-4417** **Disciplinary Action** Failure to comply with the Compliance Program, including the Code of Conduct, policies, and/or applicable statutes, regulations and guidelines may lead to disciplinary action. Discipline for failure to abide by the Code of Conduct may, in CalOptima's

Principle	Standard
	discretion, range from oral correction to termination in accordance with CalOptima's policies. In addition, failure to comply may result in the imposition of civil, criminal, or administrative fines on the individual, or entity, and CalOptima or exclusion or preclusion from participation in Federal and/or State health care programs. **Training and Education** CalOptima provides training and education to Board members, employees and FDRs. Timely completion of compliance and HIPAA training is mandatory for all CalOptima employees. **No-Retaliation Policy** CalOptima prohibits retaliation against any individual who reports discrimination, harassment, or compliance concerns, or participates in an investigation of such reports. Employees involved in any retaliatory acts may be subject to discipline, up to and including termination of employment. **Referrals of FWA to Government Agencies** CalOptima is obligated to coordinate compliance activities with federal and state regulators. Employees shall comply with CalOptima policies related to FWA referral requirements to federal and state regulators, delegated program integrity contractors, and law enforcement agencies. **Certification** All Board members, employees, and contractors are required to certify, in writing, that they have received, read, understand and will abide by the Code of Conduct and applicable policies.

Appendix B

TYPES OF MEMBER FWA

MEMBER FRAUD, WASTE OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
M01	Using another individual's identity or documentation of Medi-Cal eligibility to obtain covered services.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M02	Selling, loaning, or giving a member's identity or documentation of Medi-Cal eligibility to obtain services.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M03	Making an unsubstantiated declaration of eligibility.	Members with multiple areas of service; members who attempt more than one (1) PCP; reports of members who are hiding assets or income.
M04	Using a covered service for purposes other than the purpose for which it was described including use of such covered service.	Selling a covered wheelchair; selling medications; abusing prescription medications.
M05	Failing to report other health coverage.	Payments by OHI.
M06	Soliciting or receiving a kickback, bribe, or rebate as an inducement to receive or not receive covered services.	Hotline reports; internal reports; reports by health networks.
M07	Other (please specify).	Any source.
M08	Member Pharmacy Utilization	PBM reports; data analytics; claims data; encounter data; FWA software.
M09	Doctor Shopping	PBM reports; data analytics; claims data; encounter data; FWA software.
M10	Altered Prescription	Provider report; DEA report; pharmacy report; PBM reports; data analytics; claims data; encounter data; FWA software.

Back to Agenda

Appendix C

TYPES OF FDR FWA

FDR FRAUD, WASTE OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
P01	Unsubstantiated declaration of eligibility to participate in the CalOptima program.	Provider information not able to be verified during credentialing or contracting process; providers on the excluded or precluded provider list.
P02	Submission of claims for covered services that are substantially and demonstrably in excess of any individual's usual charges for such covered services.	PBM reports; data analytics; claims data; encounter data; FWA software.
P03	Submission of claims for covered services that are not actually provided to the member for which the claim is submitted.	PBM reports; data analytics; claims data; encounter data; FWA software; verification survey; hotline.
P04	Submission of claims for covered services that are in excess of the quantity that is medically necessary.	PBM reports; data analytics; claims data; encounter data; FWA software.
P05	Submission of claims for covered services that are billed using a code that would result in great payment than the code that reflects the covered services.	PBM reports; data analytics; claims data; encounter data; FWA software.
P06	Submission of claims for covered services that is already included in the capitation rate.	PBM reports; data analytics; claims data; encounter data; FWA software.
P07	Submission of claims for covered services that are submitted for payment to both CalOptima and another third-party payer without full disclosure.	PBM reports; data analytics; claims data; encounter data; FWA software; payment by OHI.
P08	Charging a member in excess of allowable co-payments and deductibles for covered services.	Member report; hotline report; oversight audits.
P09	Billing a member for covered services without obtaining written consent to bill for such services.	Member report; hotline report; oversight audits.
P10	Failure to disclose conflict of interest.	Hotline; credentialing or contracting process.
P11	Receiving, soliciting, or offering a kickback, bribe, or rebate to refer or fail to refer a member.	Hotline report; oversight report.

P12	Failure to register billing intermediary with the Department of Health Care Services.	Oversight audit; report by regulatory body; hotline.
FDR FRAUD, WASTE OR PROGRAM ABUSE		**DETECTION CRITERIA Including but not limited to:**
P13	False certification of medical necessity.	Medical record review; claims data; encounter data; FWA software.
P14	Attributing a diagnosis code to a member that does not reflect the member's medical condition for the purpose of obtaining higher reimbursement.	Medical record review; claims data; encounter data; FWA software.
P15	False or inaccurate minimum standards or credentialing information.	Hotline; credentialing or contracting process.
P16	Submitting reports that contain unsubstantiated data, data that is inconsistent with records, or has been altered in a manner that is inconsistent with policies, contracts, statutes, or regulations.	Medical record review; claims data; encounter data; FWA software.
P17	Other (please specify).	Any source.
P18	Provider Pharmacy Utilization.	PBM reports; data analytics; claims data; encounter data; FWA software.
P19	Billing Medi-Cal member for services.	Member report; hotline report; oversight audits.
P20	Durable Medical Equipment- covered services that are not actually provided to member.	Member report; hotline report; oversight audits; verification survey.

Appendix D

TYPES OF EMPLOYEE FWA

EMPLOYEE FRAUD OR PROGRAM ABUSE		DETECTION CRITERIA Including but not limited to:
E01	Use of a member's identity or documentation of Medi-Cal eligibility to obtain services.	Employees obtaining services on a member's account. Hotline report. Data analytics. Referrals to SIU.
E02	Use of a member's identity or documentation of Medi-Cal eligibility to obtain a gain.	Employees obtaining unjust enrichment, funds, or other gain by selling member's account information. Hotline report.
E03	Employee assistance to providers with the submission of claims for covered services that are not actually provided to the member for which the claim is submitted.	Employees obtaining unjust enrichment, funds, or other gain from provider by using member's account information to assist in the submission of false claims. Hotline report. Referrals to SIU.
E04	Employee deceptively accessing company confidential information for purpose of a gain.	Employees obtaining unjust enrichment, funds, or other gain from another by deceptive and unauthorized accessing of information. Hotline Service. Data Analytics. Referrals to SIU.

E. GLOSSARY

Abuse ("Abuse") means actions that may, directly or indirectly, result in: unnecessary costs to a CalOptima program, improper payment, payment for services that fail to meet professionally recognized standards of care, or services that are medically unnecessary. Abuse involves payment for items or services when there is no legal entitlement to that payment and the provider has not knowingly and/or intentionally misrepresented facts to obtain payment. Abuse cannot be differentiated categorically from fraud, because the distinction between "fraud" and "abuse" depends on specific facts and circumstances, intent and prior knowledge, and available evidence, among other factors.

Audit ("Audit" or "Auditing") means a formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws, and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one (1) of several acknowledged certifications.

Audit & Oversight Committee ("AOC") means a subcommittee of the Compliance Committee chaired by the Director of Audit & Oversight to oversee CalOptima's delegated functions. The composition of the AOC includes representatives from CalOptima's departments as provided for in CalOptima Policy HH.4001Δ: Audit & Oversight Committee.

Board Members ("Board Members") means the members of the CalOptima Board of Directors.

CalOptima ("CalOptima") means the Orange County Health Authority, d.b.a. CalOptima, a County Organized Health System ("COHS") created under California Welfare and Institutions Code Section 14087.54 and Orange County Ordinance No. 3896, as amended.

CalOptima Board of Directors ("CalOptima Board") means the Board of Directors of CalOptima, which serves as the Governing Body of CalOptima, appointed by the Orange County Board of Supervisors in accordance with the Codified Ordinances of the County of Orange.

CalOptima Members ("CalOptima Members" or "Members") means a beneficiary who is enrolled in a CalOptima program.

CalOptima Programs ("CalOptima Programs") means the Medi-Cal program administered by CalOptima under contract with DHCS, the Medicare Advantage Program ("OneCare") administered by CalOptima under contract with CMS, the Program of All Inclusive Services for the Elderly ("PACE") program administered by CalOptima under contract with DHCS and CMS, the Multipurpose Senior Services Program ("MSSP") administered by CalOptima under contract with the California Department of Aging, and the OneCare Connect program administered by CalOptima under contract with DHCS and CMS, as well as any other program now or in the future administered by CalOptima.

Centers for Medicare & Medicaid Services ("CMS") means the federal agency within the United States Department of Health and Human Services (DHHS) that administers the Federal Medicare program and works in partnership with state governments to administer Medicaid programs.

Code of Conduct ("Code of Conduct") means the statement setting forth the principles and standards governing CalOptima's activities to which Board Members, employees, FDRs, and agents of CalOptima are expected to adhere.

Compliance Committee ("Compliance Committee") means that committee designated by the Chief Executive Officer (CEO) to implement and oversee the Compliance Program and to participate in carrying out the provisions of this Compliance Plan. The composition of the Compliance Committee shall consist of **Executive Staff** that may include, but is not limited to, the: Chief Executive Officer; Chief Medical Officer; Chief Operating Officer; Chief Financial Officer; Compliance Officer; and Executive Director of Human Resources.

Compliance Plan ("Compliance Plan") means this plan and all attachments, exhibits, modifications, supplements, or amendments thereto.

Compliance Program ("Compliance Program" or "Program") means the program (including, without limitation, this Compliance Plan, Code of Conduct and policies and procedures) developed and adopted by CalOptima to promote, monitor and ensure that CalOptima's operations and practices and the practices of its Board Members, employees and FDRs comply with applicable law and ethical standards.

Compliance Risk Assessment ("CRA") A tool utilized to stratify level of risk (high, medium, low) based upon audit results and corrective actions issued to identify specific CalOptima functional areas vulnerable to potential Compliance risk.

Conflict of Interest Code ("Conflict of Interest Code") means CalOptima's Conflict of Interest Code approved and adopted on December 6, 1994, as amended and updated from time to time.

Corrective Action Plan ("CAP") means a plan delineating specific identifiable activities or undertakings that address and are designed to correct program deficiencies or problems identified by formal audits or monitoring activities by CalOptima, the Centers of Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), or designated representatives. FDRs and/or CalOptima departments may be required to complete CAPs to ensure compliance with statutory, regulatory, or contractual obligations and any other requirements identified by CalOptima and its regulators.

Delegation ("Delegated") means a legal assignment to another party of the authority for particular functions, tasks, and decisions on behalf of the original party. The original party remains liable for compliance and fulfillment of any and all rules, requirements, and obligations pertaining to the delegated functions.

Department of Health and Human Services-Office of Inspector General ("OIG") means the Office of Inspector General of the United States Department of Health and Human Services.

Department of Health Care Services ("DHCS") means the California Department of Health Care Services, the State agency that oversees California's Medicaid program, known as Medi-Cal.

Department of Managed Health Care ("DMHC") means the California Department of Managed Health Care that oversees California's managed care system. DMHC regulates health maintenance

organizations licensed under the Knox-Keene Act, Health & Safety Code Sections 1340 *et seq*.

Designated Employee ("Designated Employee") means the persons holding positions listed in the Appendix to the CalOptima Conflict of Interest Code.

Designee ("Designee") is a person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.

Downstream Entity ("Downstream Entity") means any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with persons or entities involved with a CalOptima program benefit, below the level of the arrangement between CalOptima and a first-tier entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.

Employee or **Employees** ("Employee" or "Employees") means any and all employees of CalOptima, including all Executive Staff, Management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.

Exclusion ("Exclusion" or "Excluded") means suspension, exclusion, or debarment from participation in Federal and/or state health care programs.

Executive Director of Compliance ("Executive Director of Compliance" or "Compliance Officer") means that person designated as the Compliance Officer for CalOptima charged with the responsibility of implementing and overseeing the Compliance Program and the Compliance Plan and Fraud, Waste, and Abuse Plan.

Executive Staff ("Executive Staff") means an employee whose position title is Chief, or Executive Director of one (1) or more departments.

False Claims Act ("FCA") means the False Claims Act pursuant to 31 United States Code [U.S.C.] Sections 3729-3733, which protects the Government from being overcharged or sold substandard goods or services. The FCA imposes civil liability on any person who knowingly submits, or causes to be submitted, a false or fraudulent claim to the Federal Government. The "knowing" standard includes acting in deliberate ignorance or reckless disregard of the truth related to the claim. Civil penalties for violating the FCA may include fines and up to three (3) times the amount of damages sustained by the Government as a result of the false claims. There also are criminal penalties for submitting false claims, which may include fines, imprisonment, or both. (18 U.S.C. Section 287.)

FDR ("FDR") means First Tier, Downstream or Related Entity, as separately defined herein.

Federal and/or State Health Care Programs ("Federal and/or State Health Care Programs") means "any plan or program providing health care benefits, directly through insurance or otherwise, that is funded directly, in whole or in part, by the United States Government (other than the Federal Employees Health Benefits Program), including Medicare, or any State health care program" as defined in 42 U.S.C. § 1320a-7b (f) including the California Medicaid program, Medi-Cal.

First Tier Entity ("First Tier Entity") means any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care

services to a member under a CalOptima program.

Fraud ("Fraud") means knowingly and willfully executing, or attempting to execute, a scheme or artifice to defraud any health care benefit program or to obtain (by means of false or fraudulent pretenses, representations, or promises) any of the money or property owned by, or under the custody or control of, any health care benefit program. (18 U.S.C. § 1347.)

General Services Administration ("GSA") **System for Award Management** ("SAM") is a type of federal government exclusion database and contains the list of Excluded Parties List System (GSA-EPLS). The EPLS consists of federal contractors who have been debarred, sanctioned, or excluded due to government contract issues or fraud. The database is updated usually on a monthly basis.

Governing Body ("Governing Body") means the Board of Directors of CalOptima.

Health Network ("Health Network" or "Health Networks") means the contracted health networks of CalOptima, including Physician Hospital Consortia ("PHCs"), Shared Risk Medical Groups ("SRGs"), and Health Maintenance Organizations ("HMOs").

Health Insurance Portability and Accountability Act ("HIPAA") means the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, enacted on August 21, 1996. Sections 261 through 264 of HIPAA require the Secretary of the U.S. Department of Health and Human Services to publicize standards for the electronic exchange, privacy and security of health information, as amended.

Immediate Corrective Action Plan ("ICAP") means the result of non-compliance with specific requirements that has the potential to cause significant Member harm. Significant Member harm exists if the noncompliance resulted in the failure to provide medical services or prescription drugs, causing financial distress, or posing a threat to Member's health and safety due to non-existent or inadequate policies and procedures, systems, operations or staffing.

Management ("Management") means any employee whose position title is Director, Senior Manager, Manager, or Supervisor of one (1) or more departments.

Medi-Cal Suspended & Ineligible ("S&I") **Provider List** is a list of suspended and ineligible providers that is maintained by DHCS in the Medi-Cal Provider Manual. The list is updated monthly and available online and in print from DHCS.

Medicare Secondary Payer (MSP) Vendor means third-party vendors contracted to perform administrative functions with regards to the identification and recovery of monies owed to OneCare or OneCare Connect for recoupment of conditional payments. These administrative duties include, but are not limited to, the pursuit of repayments for third party liabilities and other health care coverage.

Monitoring Activities ("Monitoring") means regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective.

Multipurpose Senior Services Program ("MSSP") is a program approved under the federal Medicaid Home and Community-Based, 1915 (c) Waiver designed to prevent premature

institutionalization through provision of comprehensive social and health care management to assist frail elder person who are certifiable for placement in a nursing facility, to remain safely at home at a cost lower than nursing facility care.

National Committee for Quality Assurance Standards for Accreditation of MCOs ("NCQA Standards") means the written standards for accreditation of managed care organizations published by the National Committee for Quality Assurance.

Office of Inspector General List of Excluded Individuals and Entities ("**OIG LEIE"**) is an exclusion list and contains individuals and/or entities that have been excluded from participation in federal healthcare programs such as Medicare and Medicaid. This list is usually updated on a monthly basis.

OneCare ("OneCare") is a Medicare Advantage Health Maintenance Organization (HMO) plan offered by CalOptima to provide Medicare covered benefits to Members.

OneCare Connect ("OneCare Connect") is a Medicare-Medicaid health plan offered by CalOptima that contracts with both Medicare and Medi-Cal to provide covered benefits of both programs to Members.

Overpayment ("Overpayment") means a payment disbursed in excess of amounts properly payable under Medicare and Medi-Cal statutes and regulations.

Participating Providers and Suppliers ("Participating Providers and Suppliers") include all health care providers and suppliers (e.g., physicians, mid-level practitioners, hospitals, long term care facilities, pharmacies, etc.) that receive reimbursement from CalOptima or its health networks for items or services furnished to members. Participating providers and suppliers for purposes of this Compliance Plan may or may not be contracted with CalOptima and/or the health networks.

Participation Status ("Participation Status") means whether a person or entity is currently suspended, excluded, precluded, or otherwise ineligible to participate in Federal and/or State health care programs as provided in CalOptima policies and procedures.

Participation Status Review ("Participation Status Review") means the process by which CalOptima reviews its Board Members, employees, FDRs, and CalOptima Direct providers to determine whether they are currently suspended, excluded, precluded, or otherwise ineligible to participate in Federal and/or State health care programs.

Personally Identifiable Information ("PII") means any information about an individual maintained by an agency, including (1) any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and (2) any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information.

Pharmacy Benefit Manager ("PBM") means an entity that provides pharmacy benefit management services, including contracting with a network of pharmacies; establishing payment levels for network pharmacies; negotiating rebate arrangements; developing and managing formularies, preferred drug lists, and prior authorization programs; maintaining patient compliance programs; performing drug utilization review; and operating disease management programs.

Policies and Procedures ("Policies and Procedures") means CalOptima's written policies and procedures regarding the operation of CalOptima's Compliance Program, including applicable Human Resources policies, outlining CalOptima's requirements and standards in compliance with applicable law.

Program of All-Inclusive Care for the Elderly ("PACE") is a long-term comprehensive health care program that helps older adults to remain as independent as possible. PACE coordinates and provides all needed preventive, primary, acute and long-term care services so seniors can continue living in their community.

Preclusion ("Precluded" or "Preclusion List") is a type of exclusion. The CMS Preclusion List is a list of Providers and prescribers who are precluded from receiving payment for Medicare Advantage (MA) items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.

Protected Health Information ("PHI") refers to the 45 Code of Federal Regulations Section 160.103, including the following: individually identifiable health information transmitted by electronic media, maintained in electronic media, or transmitted or maintained in any other form or medium.

This information identifies the individual or there is reasonable basis to believe the information can be used to identify the individual. The information was created or received by CalOptima or Business Associates and relates to:

1. The past, present, or future physical or mental health or condition of a Member;
2. The provision of health care to a Member; or
3. Past, present, or future Payment for the provision of health care to a Member.

Regulatory Agencies ("Regulatory Agencies") include, but are not limited to: Centers for Medicare & Medicaid Services (CMS), Department of Health Care Services (DHCS), Department of Managed Health Care (DMHC), Health and Human Services Office of Inspector General (OIG), and the Office of Civil Rights (OCR).

Related Entity ("Related Entity") means any entity that is related to CalOptima by common ownership or control and that: performs some of CalOptima's management functions under contract or delegation; furnishes services to members under an oral or written agreement; or leases real property or sells materials to CalOptima at a cost of more than $2,500 during a contract period.

Sanction ("Sanction") means an action taken by CalOptima, including, but not limited to, restrictions, limitations, monetary fines, termination, or a combination thereof, based on an FDR's or its agent's failure to comply with statutory, regulatory, contractual, and/or other requirements related to CalOptima programs.

Seniors and Persons with Disabilities ("SPD") means Medi-Cal beneficiaries who fall under specific Aged and Disabled Aid Codes as defined by the DHCS.

Sub-delegation ("Sub-delegation") means the process by which a first tier entity expressly grants, by formal agreement, to a downstream entity the authority to carry out one or more functions that would

otherwise be required to be performed by the first tier entity in order to meet its obligations under the delegation agreement.

Supervisor ("Supervisor" or "Manager") means an employee in a position representing CalOptima who has one (1) or more employees reporting directly to him or her. With respect to FDRs, the term "Supervisor" shall mean the CalOptima employee that is the designated liaison for that contractor.

Third-Party Administrator ("TPA") means a contractor that furnishes designated claims processing and other administrative services to CalOptima.

Waste ("Waste") means the overutilization of services, or other practices that, directly or indirectly, result in unnecessary costs to a CalOptima program. Waste is generally not considered to be caused by criminally negligent actions but rather the misuse of resources.

FDR COMPLIANCE ATTESTATION

Please complete and execute this attestation and return it to CalOptima's Office of Compliance via email Compliance@caloptima.org , or mail: CalOptima, Office of Compliance, Attn: Annie Phillips 505 City Parkway West, Orange, CA 92868, within thirty (30) calendar days for (existing FDRs) or sixty (60) calendar days for (new FDRs) of this notice.

Which CalOptima program(s) does this form pertain to? Select all that apply:	☐OneCare Connect ☐OneCare HMO SNP	☐Medi Cal ☐PACE

I hereby attest that [_____ (the "Organization")], and all its downstream entities, if any, that are involved in the provision of health or administrative services for any of the CalOptima programs identified above:

I. **General and HIPAA Compliance and FWA Training**. Provide effective Fraud, Waste and Abuse training, General Compliance training, General HIPAA training to all Organization and downstream entity board members, officers, employees, temporary employees, and volunteers, within ninety (90) calendar days of appointment, hire or contracting, as applicable, and at least annually thereafter as a condition of appointment, employment or contracting. The Organization and its downstream entities currently use (Select all that apply):

☐ CMS's Fraud, Waste, and Abuse training, General Compliance training, and General HIPAA training module. (The Organization shall maintain records per CMS retention requirement)

☐ An internal training program that meets CMS's Fraud, Waste, and Abuse training, General Compliance training, and HIPAA training module requirements. (The Organization shall maintain records per CMS retention requirement)
Note: If selecting an internal training program that meets CMS's FWA, HIPAA, and General Compliance, please submit a copy of your organization's trainings to CalOptima's Office of Compliance for review, and to ensure they meet CMS's requirements.

II. Administer specialized compliance training to Organization and downstream entity board members, employees, temporary employees, and volunteers: (i) based on their job function within the first ninety (90) days of hire and at least annually thereafter as a condition of appointment, employment or contracting, (ii) when requirements change; (iii) when such persons work in an area previously found to be non- compliant with program requirements or implicated in past misconduct.

III. **Compliance Plan and Code of Conduct Requirements**. Have established and publicized compliance policies and procedures, standards of conduct, and compliance reference material that meet the requirements outlined in 42 CFR § 422.503(b)(4)(vi)(A) and 42 CFR § 423.504(b)(4)(vi)(A) which information, and any updates thereto, are distributed to all Organization and

downstream entity board members, officers, employees, temporary employees, and

Back to Agenda

volunteers within ninety (90) days of appointment, hire or contracting, as applicable, and at least annually thereafter. Evidence of receipt of such compliance by such persons is obtained and retained by the Organization. (Select which applies to your organization):

- ☐ Organization has adopted, implemented, and distributed CalOptima's Compliance Plan and Code of Conduct
- ☐ Organization has distributed a comparable Compliance Plan and Code of Conduct
  Note: If selecting a comparable Compliance Plan and Code of Conduct, please submit a copy of your organization's Compliance Plan and Code of Conduct to CalOptima's Office of Compliance for review, and to ensure they meet CMS's requirements

IV. **Exclusion Monitoring**. Review all Organization and downstream entity board members, officers, potential and actual employees, temporary employees, and volunteers against the (Suspended and Ineligible Provider List) S & I Medi-Cal, (Health and Human Services) HHS, (Office of Inspector General) OIG List of Excluded Individuals & Entities list, (System for Award Management) SAM/(General Services Administration) GSA Debarment list, Centers for Medicare & Medicaid Services (CMS) Preclusion List (as applicable), (here after "Lists") upon appointment, hire or contracting, as applicable, and monthly thereafter. Further, in the event that the Organization or downstream entity becomes aware that any of the foregoing persons or entities are included on these Lists, the Organization will notify CalOptima within five (5) calendar days, the relationship with the listed person/entity will be terminated as it relates to CalOptima, and appropriate corrective action will be taken.

V. **Conflict of Interest**. Screen the Organization and its subcontractors' governing bodies for conflicts of interest as defined in state and federal law and CalOptima policies and procedures upon hire or contracting and annually thereafter.

VI. **Reporting of FWA/Non-Compliance**. Will report suspected fraud, waste, and abuse, as well as all other forms of non- compliance, as it relates to CalOptima, confidentially and anonymously.

VII. **Disciplinary Action**. Understand that any violation of any laws, regulations, or CalOptima policies and procedures are grounds for disciplinary action, up to and including termination of Organization's contractual status.

Back to Agenda

FDR Compliance Attestation

VIII **Non-Retaliation**. Are aware that persons reporting suspected fraud, waste, and abuse, and other non- compliance are protected from retaliation under the False Claims Act and other applicable laws prohibiting retaliation.

IX. **Records Management**. Retain documented evidence of compliance with the above, including training and exclusion screening (i.e. sign-in sheets, certificates, attestations, OIG and GSA search results, etc.) for at least ten (10) years, and provide such documentation to CalOptima upon request.

The individual signing below is knowledgeable about and authorized to attest to the foregoing matters on behalf of the Organization.

FOR 2019 1205 BOD REVIEW

I. PURPOSE

This policy outlines a process for verifying and ~~monitoring~~**Monitoring** the eligibility of **Employees** (permanent, temporary, volunteer, and as-needed ~~employees~~**Employees**), members of the **Governing Body**, **First Tier, Downstream, and Related Entities (FDRs)**, non-contracted **Providers**, and vendors to participate in CalOptima federal and/or state health care programs through state and federal exclusions, **Preclusion**, and ineligible person/entity lists.

II. POLICY

A. CalOptima shall ensure all **Employees**, ~~members~~**Members** of the **Governing Body**, **FDRs**, non-contracted **Providers**, and vendors are eligible to participate in CalOptima federal and/or state health care programs, and shall be responsible for:

1. Requiring an **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, non-contracted **Provider** or vendor to disclose and report pending suspensions, exclusions, **Preclusions**, or debarments, of the **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, **Providers**, or vendor;

2. Conducting the initial eligibility verification of an **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, non-contracted **Provider**, and vendor prior to hiring, renewing, or entering in any new agreement with CalOptima, or issuing payment thereto;

3. Performing eligibility verification of an **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, non-contractor **Providers**, and vendor monthly thereafter; and

4. Maintaining records of all initial and monthly verification.

B. CalOptima shall not employ individuals, or contract with individuals or entities that are determined to be suspended, debarred, precluded or ~~excluded~~**Excluded** from participation in federal or state health care programs.

C. CalOptima shall not reimburse, or make payment for services provided under the medical direction or on the prescription of an ~~excluded~~**Excluded** person or entity, or make payment to, an individual or entity that is verified to be suspended, debarred, precluded or ~~excluded~~**Excluded** from participation in federal or state health care programs.

* Terms in **bold** are included in the Glossary.

Back to Agenda

D. CalOptima will take immediate appropriate actions, with the assistance of its Legal Counsel, to terminate the employment of an individual, the contractual relationship with an **FDR** or vendor for all CalOptima programs, or the appointment of a ~~member~~**Member** of the **Governing Body**, if such individual or entity is verified to be suspended, debarred, precluded or ~~excluded~~**Excluded** from participation in federal or state health care programs.

E. CalOptima shall utilize state and federal **Preclusion**, exclusion, and ineligible person/entity list sources referenced in this policy to verify the eligibility of an **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, non-contracted **Provider** or vendor and shall maintain a record of completion.

F. All CalOptima **FDRs** and vendors shall verify the eligibility of all its **Employees** and/or **Downstream Entities** prior to hiring/contracting/performing services and monthly thereafter. The **FDR** and vendors shall maintain a record of completion.

G. In the event a CalOptima **FDR**, or vendor identifies its Employees and/or Downstream Entities on an exclusion, **Preclusion**, and/or ineligible person/entity list, the **FDR** or vendor must immediately notify CalOptima of the identified ineligible person/entity. CalOptima in its sole discretion will determine whether it is appropriate to immediately remove/terminate the identified person/entity from furnishing items and services for CalOptima programs and/or terminate the applicable **FDR** or vendor contract.

H. The Office of Compliance may **Audit** CalOptima departments responsible for exclusion and **Preclusion** activities, as necessary.

III. PROCEDURE

A. Initial Verification

1. Prior to hiring an **Employee**, having an individual become a **Member** of the **Governing Body** or a CalOptima committee, or contracting with an **FDR** or vendor, or approving payment to a non-contracted **Provider** the responsible department identified in the chart in Section II.F. of this policy shall verify that the individual or entity is not **Excluded** or Precluded by reviewing the **Monitoring** sources to retrieve verification and eligibility data, including, but not limited to:

   a. The General Services Administration's (GSA) System for Award Management (SAM) website;

   b. Medi-Cal's Suspended and Ineligible (S&I) list;

   c. CMS **Preclusion** List;

   d. OIG Exclusions Database (OIG LEIE Database); and

   e. Other **Monitoring** sources as identified in CalOptima Policy GG.1650Δ: Credentialing and Recredentialing of Practitioners.

FOR 20191205BOD REVIEW

B. Evidence of Verification

1. CalOptima shall utilize state and federal **Preclusion**, exclusion, and ineligible person/entity list sources referenced in this policy to verify the eligibility of an **Employee**, **Member** of the **Governing Body**, **FDR**, non-contracted **Provider** or vendor and shall maintain a record of completion indicating, at minimum:

   a. The date of verification;

   b. The exclusion, **Preclusion** and ineligible person/entity list source(s);

   c. Verification results; and

   d. The name of the person who conducted the verification.

2. CalOptima is to refer to the chart below to determine the responsible departments that conduct initial and/or monthly exclusions and **Preclusions** checks thereafter.

Group	**Prior to contracting/hire, or payment if a non-contracted provider, CalOptima will verify through …**	**Monthly thereafter, CalOptima will verify through …**
Employees	• Human Resources	• Human Resources
Members of the **Governing Body** (Board of Directors)	• Human Resources	• Human Resources
CalOptima Committees	• Human Resources	• Human Resources
Pharmacy ~~Prescriber~~Prescribers	• ~~PBM~~Pharmacy Benefit Manager	• ~~PBM~~Pharmacy Benefit Manager
Pharmacy Network ~~Provider~~**Providers**	• ~~PBM~~Pharmacy Benefit Manager	• ~~PBM~~Pharmacy Benefit Manager
FDRs~~-~~, Vendors (excluding Medical **Providers** and **Health Networks**)	• Vendor Management	• Regulatory Affairs & Compliance
Medical **Providers**, Practitioners, Health Delivery Organizations (HDOs)	• Quality/**Credentialing** (contracted) • **Provider** Data Management Services (non-contracted)	• Quality/**Credentialing**
Health Networks	• Contracting	• Regulatory Affairs & Compliance
~~Medical Group Practice~~Medical Group Practices, physician medical groups, non-medical **Providers** and letter of agreements (LOAs)	• Contracting	• Quality/**Credentialing** • Regulatory Affairs & Compliance

FOR 20191205BOD REVIEW

3. All CalOptima **FDRs** and vendors shall verify the eligibility of all its **Employees** and/or Downstream Entities (as defined above) prior to hiring/contracting/performing services and monthly thereafter. The **FDR** and vendors shall maintain a record of completion indicating, at minimum:

   a. Date of verification;

   b. The exclusion, **Preclusion** and ineligible person/entity list source(s);

   c. Verification results; and

   d. The name of the person who conducted the verification.

~~E. In the event an Employee, FDR, or vendor has been identified in an exclusion list, the FDR or vendor must immediately notify CalOptima of the identified ineligible person/entity. CalOptima will determine whether it is appropriate to immediately terminate the Employee, FDR, or vendor.~~

~~F. The Office of Compliance may **Audit** CalOptima departments responsible for exclusion activities, as necessary.~~

~~III. PROCEDURE~~

~~1. Monitoring Sources~~

~~1. As applicable, CalOptima shall use Monitoring sources to retrieve verification and eligibility data, including, but not limited to:~~

~~a. The General Services Administration's (GSA) System for Award Management (SAM) website;~~

~~a. Medicare Exclusion Database (MED);~~

~~b.a. Medi-Cal's Suspended and Ineligible (S&I) list;~~

~~c.a. OIG Exclusions Database (OIG LEIE Database); and~~

~~b. Other Monitoring sources as identified in CalOptima Policy GG.1650Δ: Credentialing and Recredentialing of Practitioners.~~

~~B. Initial Verification~~

~~1. Prior to hiring an Employee, having an individual become a member of the Governing Body or a CalOptima committee, or contracting with an FDR or vendor, the responsible department identified in the chart in Section II.F. of this policy shall verify that the individual or entity is not Excluded by reviewing the Monitoring sources listed in Section III.A.1 of this policy.~~

C. **Monitoring**

FOR 20191205BOD REVIEW

Back to Agenda

1. On a monthly basis, prior to publishing the next verification list update, the responsible department shall monitor **Employees**, **FDRs**, non-contracted **Providers,** vendors, and ~~members~~**Members** of the **Governing Body** and committees by reviewing the **Monitoring** sources listed in Section III.A.1 of this policy.

~~2. The responsible department shall deem an Employee, member of the Governing Body or committee, FDR, or vendor excluded, or ineligible, if identified on one (1) or more Monitoring sources. If applicable, the Office of Compliance shall complete a CalOptima Provider Alert to notify all appropriate CalOptima departments of the excluded, or ineligible, individual, or entity.~~

D. Actions Based on Discovery of Exclusion

1. In accordance with Title 42, Code of Federal Regulations, Section 1001.1901(b)(1), CalOptima shall immediately suspend and halt payment for services for an ineligible, or ~~excluded~~**Excluded**, **Employee**, ~~member~~**Member** of the **Governing Body** or CalOptima committee, **FDR**, non-contracted **Provider,** or vendor~~.~~; or at the medical direction or on the prescription of a physician or an authorized individual who is excluded when the person furnishing such item or service knew, or had reason to know, of the exclusion. The payment prohibition applies regardless of whether ~~or not~~ the **Excluded** individual, or entity, submits claims for reimbursement to, or the method of reimbursement by, federal or state health care programs.

    a. The responsible department shall deem an **Employee**, **Member** of the **Governing Body** or committee, **FDR**, non-contracted **Provider** or vendor **Excluded**, or ineligible, if identified on one (1) or more **Monitoring** sources. If applicable, the responsible department shall request an alert is added to notify all appropriate CalOptima departments of the **Excluded**, or ineligible, individual, or entity.
    b. The responsible department should refer the matter to the Office of Compliance for further investigation. As appropriate, the Office of Compliance may refer issues regarding the Excluded individual or entity to Legal Affairs for further action.
    c. CalOptima will take immediate appropriate actions, with the assistance of Legal Counsel, to terminate the ~~employment of an individual, the~~ contractual relationship for all CalOptima programs with a **FDR**, or vendor, or the appointment of a ~~member~~**Member** of the **Governing Body**, if such person, or entity, is determined to be **Excluded**. If the report identifies the removal of a suspended, **Excluded**, or terminated non-contracted **Provider** or **FDR** from CalOptima's **Provider** network, then the Office of Compliance shall report the action to DHCS within ten (10) business days and confirm that the **Provider** or **FDR** is no longer receiving payments in connection with the Medi-Cal program.
    ~~a.~~d. In the event, that ~~a specific FDR, or vendor, employee~~an **Employee** is identified as **Excluded**, the applicable contractual relationship will also be reviewed to determine whether it may continue with the removal of the ~~Excluded employee.~~**Employee**.

~~2. If CalOptima identifies an Excluded individual, or entity, after they are hired or contracted, the matter should be referred to the Office of Compliance for further investigation. As appropriate, CalOptima will engage in the service of Legal Counsel to take further action as appropriate. If the report identifies the removal of a suspended, excluded, or terminated Provider from CalOptima's Medi-Cal provider network, then the Office of Compliance shall report the action~~

FOR 2019 BOD REVIEW

~~to DHCS within ten (10) business days and confirm that the provider is no longer receiving payments in connection with the Medi-Cal program.~~

~~a.~~c. CalOptima may recoup monies paid to the **Employee**, ~~member~~**Member** of the **Governing Body**, **FDR**, non-contracted **Provider,** **or** vendor while **Excluded**~~.~~ or Precluded. Exclusion and **Preclusion** findings will be referred to the Office of Compliance for further action in accordance with CalOptima policy. As appropriate, ~~CalOptima will engage in~~ the ~~service~~Office of Compliance may refer issues regarding the Excluded or precluded person to Legal ~~Counsel to take~~Affairs for further action~~, as appropriate.~~.

E. Actions Based on Discovery of **Preclusion**

1. In accordance with Title 42, Code of Federal Regulations, Sections 422.222, 422.224, 423.100, 423.120(c)(6), for precluded **Providers, FDRs,** or vendors, CalOptima may not reimburse or make payment for claims (i.e., for covered items or services) or prescriptions with any individual or entities on the **Preclusion** List, including for emergency or urgent care circumstances.
    a. The responsible department shall deem a **FDR,** non-contracted **Provider,** or vendor precluded if identified on the **Preclusion List**. If applicable, the responsible department shall request an alert is added to notify all appropriate CalOptima departments of the **Precluded FDR,** non-contracted **Provider,** or vendor. CalOptima is also to notify the Health Networks to remove any contracted **Provider** and any contracted pharmacy found on the CMS **Preclusion** List from their network as soon as possible.
    b. CalOptima shall notify precluded **FDRs,** non-contracted **Providers** or vendors in writing that they can no longer treat **Members** and notify all impacted **Members**, including **Members** assigned to **Health Networks**, in writing who have received care or prescription from the precluded **FDR,** non-contracted **Provider,** or vendor in the last twelve (12) months as soon as possible, but no later than thirty (30) calendar days after the date the **FDR,** non-contracted **Provider,** or vendor was precluded. CalOptima will also remove the **FDR** or vendor from the Provider Directory no later than thirty (30) calendar days after the date the **FDR** or vendor was precluded.
    c. CalOptima will have thirty (30) days to review the **Preclusion** List and notify in writing impacted **Members**, including **Members** assigned to **Health Networks**, no later than thirty (30) calendar days from the posting of the updated list. Members should be given at least sixty (60) calendar days advance notice before payment denials and claims rejections begin.
    d. CalOptima should not deny payments and/or reject claims earlier than ninety (90) calendar days after publication of the associated **Preclusion** List.
    e. For **FDRs,** non-contracted **Providers**, or vendors identified on both the Exclusion sources and the CMS **Preclusion** List, CalOptima's processes for an **Excluded** individual or entity supersedes those of a precluded individual or entity.

~~E.~~F. **FDRs** and Vendors

1. If CalOptima ~~denies an~~intends to deny a prospective **FDR** or vendor participation in CalOptima program(s~~)~~), or terminate an existing **FDR's** or vendor's contract, on the basis of an Exclusion~~,~~

FOR 2019 1205BOD REVIEW

Back to Agenda

or **Preclusion**, it shall notify the **FDR** or vendor, in writing, noting the reason for denial. ~~The~~The prospective or existing **FDR** or vendor may contest the denial if they feel there is an error or inappropriate exclusion. If CalOptima determines that there is an inappropriate exclusion, correction shall be made, as stated in the Centers for Medicare & Medicaid Services (CMS) Center for Program Integrity Center for Medicare Letter issued June 29, 2011.

2. If ~~the~~an previously Excluded or precluded **FDR** or vendor has been re-instated by ~~an excludinga~~ Monitoring source listed on this policy~~,~~ and is now in good standing and able to participate in CalOptima federal and/or state health care programs, the **FDR** or vendor may express interest in participating with CalOptima. CalOptima will require evidence to verify ~~re-instated participation in CalOptima's~~reinstatement into federally- funded health care programs. In addition, the **FDR** or vendor will ~~require~~undergo re-processing through contracting and/or **Credentialing**.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Audit	A formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one of several acknowledged certifications.
Credentialing	The process of obtaining, verifying, assessing, and monitoring the qualifications of a Practitioner to provide quality and safe patient care services.
Downstream Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with persons or entities involved with a CalOptima Program benefit, below the level of arrangement between CalOptima and a First Tier Entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.
Employee	Any and all employees of CalOptima, including all senior management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.
Excluded or Exclusion	Suspension, exclusion, or debarment from participation in Federal and/or state health care programs.
First Tier, Downstream, and Related Entities (FDR)	First Tier, Downstream or Related Entity, as separately defined herein. For the purposes of this policy, the term FDR includes delegated entities, contracted providers, Health Networks, Physician Medical Groups, Physician Hospital Consortia, and Health Maintenance Organizations.
First Tier Entity (FTE)	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a Member under a CalOptima Program.
Governing Body	The Board of Directors of CalOptima.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Member	A beneficiary who is enrolled in a CalOptima Program.
Monitoring	Regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective.
Precluded or Preclusion	A type of exclusion. The CMS Preclusion List is a list of Providers and prescribers who are precluded from receiving payment for Medicare Advantage (MA) items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.

FOR 2019 1205 BOD REVIEW

Term	Definition
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.
Related Entity	Any entity that is related to CalOptima by common ownership or control and that: performs some of CalOptima's management functions under contract or delegation; furnishes services to Members under an oral or written agreement; or leases real property or sells materials to CalOptima at a cost of more than $2,500 during a contract period.

FOR 20191205BOD REVIEW

I. PURPOSE

This policy outlines a process for verifying and **Monitoring** the eligibility of **Employees** (permanent, temporary, volunteer, and as-needed **Employees**), members of the **Governing Body**, **First Tier, Downstream, and Related Entities (FDRs)**, non-contracted **Providers**, and vendors to participate in CalOptima federal and/or state health care programs through state and federal exclusions, **Preclusion**, and ineligible person/entity lists.

II. POLICY

A. CalOptima shall ensure all **Employees**, **Members** of the **Governing Body**, **FDRs**, non-contracted **Providers**, and vendors are eligible to participate in CalOptima federal and/or state health care programs, and shall be responsible for:

1. Requiring an **Employee**, **Member** of the **Governing Body**, **FDR**, non-contracted **Provider** or vendor to disclose and report pending suspensions, exclusions, **Preclusions**, or debarments, of the **Employee**, **Member** of the **Governing Body**, **FDR**, **Providers,** or vendor;

2. Conducting the initial eligibility verification of an **Employee**, **Member** of the **Governing Body**, **FDR**, non-contracted **Provider,** and vendor prior to hiring, renewing, or entering in any new agreement with CalOptima, or issuing payment thereto;

3. Performing eligibility verification of an **Employee**, **Member** of the **Governing Body**, **FDR**, non-contractor **Providers,** and vendor monthly thereafter; and

4. Maintaining records of all initial and monthly verification.

B. CalOptima shall not employ individuals, or contract with individuals or entities that are determined to be suspended, debarred, precluded or **Excluded** from participation in federal or state health care programs.

C. CalOptima shall not reimburse, or make payment for services provided under the medical direction or on the prescription of an **Excluded** person or entity, or make payment to, an individual or entity that is verified to be suspended, debarred, precluded or **Excluded** from participation in federal or state health care programs.

* Terms in **bold** are included in the Glossary.

Back to Agenda

D. CalOptima will take immediate appropriate actions, with the assistance of its Legal Counsel, to terminate the employment of an individual, the contractual relationship with an **FDR** or vendor for all CalOptima programs, or the appointment of a **Member** of the **Governing Body**, if such individual or entity is verified to be suspended, debarred, precluded or **Excluded** from participation in federal or state health care programs.

E. CalOptima shall utilize state and federal **Preclusion**, exclusion, and ineligible person/entity list sources referenced in this policy to verify the eligibility of an **Employee**, **Member** of the **Governing Body**, **FDR**, non-contracted **Provider** or vendor and shall maintain a record of completion.

F. All CalOptima **FDRs** and vendors shall verify the eligibility of all its **Employees** and/or **Downstream Entities** prior to hiring/contracting/performing services and monthly thereafter. The **FDR** and vendors shall maintain a record of completion.

G. In the event a CalOptima **FDR**, or vendor identifies its Employees and/or Downstream Entities on an exclusion, **Preclusion**, and/or ineligible person/entity list, the **FDR** or vendor must immediately notify CalOptima of the identified ineligible person/entity. CalOptima in its sole discretion will determine whether it is appropriate to immediately remove/terminate the identified person/entity from furnishing items and services for CalOptima programs and/or terminate the applicable **FDR** or vendor contract.

H. The Office of Compliance may **Audit** CalOptima departments responsible for exclusion and **Preclusion** activities, as necessary.

III. PROCEDURE

A. Initial Verification

1. Prior to hiring an **Employee**, having an individual become a **Member** of the **Governing Body** or a CalOptima committee, or contracting with an **FDR** or vendor, or approving payment to a non-contracted **Provider** the responsible department identified in the chart in Section II.F. of this policy shall verify that the individual or entity is not **Excluded** or Precluded by reviewing the **Monitoring** sources to retrieve verification and eligibility data, including, but not limited to:

   a. The General Services Administration's (GSA) System for Award Management (SAM) website;

   b. Medi-Cal's Suspended and Ineligible (S&I) list;

   c. CMS **Preclusion** List;

   d. OIG Exclusions Database (OIG LEIE Database); and

   e. Other **Monitoring** sources as identified in CalOptima Policy GG.1650Δ: Credentialing and Recredentialing of Practitioners.

B. Evidence of Verification

1. CalOptima shall utilize state and federal **Preclusion**, exclusion, and ineligible person/entity list sources referenced in this policy to verify the eligibility of an **Employee**, **Member** of the

FOR 2019/205BOD REVIEW

Back to Agenda

Governing Body, **FDR**, non-contracted **Provider** or vendor and shall maintain a record of completion indicating, at minimum:

a. The date of verification;

b. The exclusion, **Preclusion** and ineligible person/entity list source(s);

c. Verification results; and

d. The name of the person who conducted the verification.

2. CalOptima is to refer to the chart below to determine the responsible departments that conduct initial and/or monthly exclusions and **Preclusions** checks thereafter.

Group	Prior to contracting/hire, or payment if a non-contracted provider, CalOptima will verify through …	Monthly thereafter, CalOptima will verify through …
Employees	• Human Resources	• Human Resources
Members of the **Governing Body** (Board of Directors)	• Human Resources	• Human Resources
CalOptima Committees	• Human Resources	• Human Resources
Pharmacy Prescribers	• Pharmacy Benefit Manager	• Pharmacy Benefit Manager
Pharmacy Network **Providers**	• Pharmacy Benefit Manager	• Pharmacy Benefit Manager
FDRs, Vendors (excluding Medical **Providers** and **Health Networks**)	• Vendor Management	• Regulatory Affairs & Compliance
Medical **Providers**, Practitioners, Health Delivery Organizations (HDOs)	• Quality/**Credentialing** (contracted) • **Provider** Data Management Services (non-contracted)	• Quality/**Credentialing**
Health Networks	• Contracting	• Regulatory Affairs & Compliance
Medical Group Practices, physician medical groups, non-medical **Providers** and letter of agreements (LOAs)	• Contracting	• Quality/**Credentialing** • Regulatory Affairs & Compliance

3. All CalOptima **FDRs** and vendors shall verify the eligibility of all its **Employees** and/or Downstream Entities (as defined above) prior to hiring/contracting/performing services and monthly thereafter. The **FDR** and vendors shall maintain a record of completion indicating, at minimum:

a. Date of verification;

b. The exclusion, **Preclusion** and ineligible person/entity list source(s);

FOR 2019 POD REVIEW

c. Verification results; and

d. The name of the person who conducted the verification.

C. **Monitoring**

1. On a monthly basis, prior to publishing the next verification list update, the responsible department shall monitor **Employees**, **FDRs**, non-contracted **Providers,** vendors, and **Members** of the **Governing Body** and committees by reviewing the **Monitoring** sources listed in Section III.A.1 of this policy.

D. Actions Based on Discovery of Exclusion

1. In accordance with Title 42, Code of Federal Regulations, Section 1001.1901(b)(1), CalOptima shall immediately suspend and halt payment for services for an ineligible, or **Excluded**, **Employee**, **Member** of the **Governing Body** or CalOptima committee, **FDR**, non-contracted **Provider,** or vendor; or at the medical direction or on the prescription of a physician or an authorized individual who is excluded when the person furnishing such item or service knew, or had reason to know, of the exclusion. The payment prohibition applies regardless of whether the **Excluded** individual, or entity, submits claims for reimbursement to, or the method of reimbursement by, federal or state health care programs.
    a. The responsible department shall deem an **Employee**, **Member** of the **Governing Body** or committee, **FDR**, non-contracted **Provider** or vendor **Excluded**, or ineligible, if identified on one (1) or more **Monitoring** sources. If applicable, the responsible department shall request an alert is added to notify all appropriate CalOptima departments of the **Excluded**, or ineligible, individual, or entity.
    b. The responsible department should refer the matter to the Office of Compliance for further investigation. As appropriate, the Office of Compliance may refer issues regarding the Excluded individual or entity to Legal Affairs for further action.
    c. CalOptima will take immediate appropriate actions, with the assistance of Legal Counsel, to terminate the contractual relationship for all CalOptima programs with a **FDR**, or vendor, or the appointment of a **Member** of the **Governing Body**, if such person, or entity, is determined to be **Excluded**. If the report identifies the removal of a suspended, **Excluded**, or terminated non-contracted **Provider** or **FDR** from CalOptima's **Provider** network, then the Office of Compliance shall report the action to DHCS within ten (10) business days and confirm that the **Provider** or **FDR** is no longer receiving payments in connection with the Medi-Cal program.
    d. In the event, that an **Employee** is identified as **Excluded**, the applicable contractual relationship will also be reviewed to determine whether it may continue with the removal of the **Employee**.
    e. CalOptima may recoup monies paid to the **Employee**, **Member** of the **Governing Body**, **FDR**, non-contracted **Provider, or** vendor while **Excluded** or Precluded. Exclusion and **Preclusion** findings will be referred to the Office of Compliance for further action in accordance with CalOptima policy. As appropriate, the Office of Compliance may refer issues regarding the Excluded or precluded person to Legal Affairs for further action.

E. Actions Based on Discovery of **Preclusion**

1. In accordance with Title 42, Code of Federal Regulations, Sections 422.222, 422.224, 423.100, 423.120(c)(6), for precluded **Providers, FDRs,** or vendors, CalOptima may not reimburse or

FOR 20191205BOD REVIEW

Back to Agenda

make payment for claims (i.e., for covered items or services) or prescriptions with any individual or entities on the **Preclusion** List, including for emergency or urgent care circumstances.

a. The responsible department shall deem a **FDR,** non-contracted **Provider,** or vendor precluded if identified on the **Preclusion List**. If applicable, the responsible department shall request an alert is added to notify all appropriate CalOptima departments of the **Precluded FDR,** non-contracted **Provider,** or vendor. CalOptima is also to notify the Health Networks to remove any contracted **Provider** and any contracted pharmacy found on the CMS **Preclusion** List from their network as soon as possible.

b. CalOptima shall notify precluded **FDRs,** non-contracted **Providers** or vendors in writing that they can no longer treat **Members** and notify all impacted **Members**, including **Members** assigned to **Health Networks**, in writing who have received care or prescription from the precluded **FDR,** non-contracted **Provider,** or vendor in the last twelve (12) months as soon as possible, but no later than thirty (30) calendar days after the date the **FDR,** non-contracted **Provider,** or vendor was precluded. CalOptima will also remove the **FDR** or vendor from the Provider Directory no later than thirty (30) calendar days after the date the **FDR** or vendor was precluded.

c. CalOptima will have thirty (30) days to review the **Preclusion** List and notify in writing impacted **Members**, including **Members** assigned to **Health Networks**, no later than thirty (30) calendar days from the posting of the updated list. Members should be given at least sixty (60) calendar days advance notice before payment denials and claims rejections begin.

d. CalOptima should not deny payments and/or reject claims earlier than ninety (90) calendar days after publication of the associated **Preclusion** List.

e. For **FDRs,** non-contracted **Providers**, or vendors identified on both the Exclusion sources and the CMS **Preclusion** List, CalOptima's processes for an **Excluded** individual or entity supersedes those of a precluded individual or entity.

F. **FDRs** and Vendors

1. If CalOptima intends to deny a prospective **FDR** or vendor participation in CalOptima program(s), or terminate an existing **FDR's** or vendor's contract, on the basis of an Exclusion or **Preclusion**, it shall notify the **FDR** or vendor, in writing, noting the reason for denial. The prospective or existing **FDR** or vendor may contest the denial if they feel there is an error or inappropriate exclusion. If CalOptima determines that there is an inappropriate exclusion, correction shall be made, as stated in the Centers for Medicare & Medicaid Services (CMS) Center for Program Integrity Center for Medicare Letter issued June 29, 2011.

2. If an previously Excluded or precluded **FDR** or vendor has been re-instated by a Monitoring source listed on this policy and is now in good standing and able to participate in CalOptima federal and/or state health care programs, the **FDR** or vendor may express interest in participating with CalOptima. CalOptima will require evidence to verify reinstatement into federally funded health care programs. In addition, the **FDR** or vendor will undergo re-processing through contracting and/or **Credentialing**.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Audit	A formal, systematic, and disciplined approach designed to review, evaluate, and improve the effectiveness of processes and related controls using a particular set of standards (e.g., policies and procedures, laws and regulations) used as base measures. Auditing is governed by professional standards and completed by individuals independent of the process being audited and normally performed by individuals with one of several acknowledged certifications.
Credentialing	The process of obtaining, verifying, assessing, and monitoring the qualifications of a Practitioner to provide quality and safe patient care services.
Downstream Entity	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with persons or entities involved with a CalOptima Program benefit, below the level of arrangement between CalOptima and a First Tier Entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.
Employee	Any and all employees of CalOptima, including all senior management, officers, managers, supervisors and other employed personnel, as well as temporary employees and volunteers.
Excluded or Exclusion	Suspension, exclusion, or debarment from participation in Federal and/or state health care programs.
First Tier, Downstream, and Related Entities (FDR)	First Tier, Downstream or Related Entity, as separately defined herein. For the purposes of this policy, the term FDR includes delegated entities, contracted providers, Health Networks, Physician Medical Groups, Physician Hospital Consortia, and Health Maintenance Organizations.
First Tier Entity (FTE)	Any party that enters into a written arrangement, acceptable to DHCS and/or CMS, with CalOptima to provide administrative services or health care services to a Member under a CalOptima Program.
Governing Body	The Board of Directors of CalOptima.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Member	A beneficiary who is enrolled in a CalOptima Program.
Monitoring	Regular reviews directed by management and performed as part of normal operations to confirm ongoing compliance and to ensure that corrective actions are undertaken and effective.
Precluded or Preclusion	A type of exclusion. The CMS Preclusion List is a list of Providers and prescribers who are precluded from receiving payment for Medicare Advantage (MA) items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.

FOR 2019 12/5 BOD REVIEW

Term	Definition
Related Entity	Any entity that is related to CalOptima by common ownership or control and that: performs some of CalOptima's management functions under contract or delegation; furnishes services to Members under an oral or written agreement; or leases real property or sells materials to CalOptima at a cost of more than $2,500 during a contract period.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
13. Consider Approval of Homeless Health Initiatives Guiding Principles

Contact
Michael Schrader, Chief Executive Officer (714) 246-8400

Recommended Action
Approve Homeless Health Initiatives Guiding Principles and Crosswalk as a framework for future funding allocations.

Background
On April 4, 2019, the CalOptima Board of Directors committed expenditures of $100 million for Homeless Health Initiatives within a three-year period. At that time, $40 million was directed to a range of specific initiatives, including enhanced Medi-Cal services at the Be Well OC Regional Mental Health and Wellness Campus; recuperative care; clinical field team startup costs; CalOptima Homeless Response Team; and homeless coordination at hospitals. An additional $60 million was appropriated for future initiatives. At the special Board meeting on June 27, 2019, a proposal with funding allocations for the $60 million was approved. The funding allocations covered four areas: clinic health care services in all homeless shelters; authorize mobile health team to respond to all homeless providers; residential support services and housing navigation; and extend recuperative care for homeless individuals with chronic physical health issues. On September 5, 2019, staff received Board direction to develop Guiding Principles related to the $60 million allocation and to solicit input from Board members and providers on those principles.

The draft Homeless Health Initiatives Guiding Principles were shared with the Board on September 20, 2019, and a crosswalk of the Guiding Principles and funding categories was later integrated. Both documents were developed in coordination with the Board's ad hoc committee on homeless health. The draft Guiding Principles were also shared with the Orange County Medical Association, the Hospital Association of Southern California and CalOptima health networks. At the October 3, 2019, Board meeting, staff again received direction to bring the Guiding Principles to the full Board for consideration. On October 28, 2019, the California Department of Health Care Services released California Advancing and Innovating Medi-Cal (CalAIM), a proposal with the potential to significantly impact the future Medi-Cal delivery system framework, starting in 2021. Although the proposal is not yet finalized or approved by state and federal regulators, some tenets of CalAIM are designed to enhance services for high-needs populations, including homeless individuals. On November 7, 2019, the Board requested that staff consider the impact of CalAIM on the Guiding Principles, update the document if needed and present the information to the full Board.

Discussion
The Board recognizes that the approved $60 million allocation for the Homeless Health Initiatives allows room for flexibility to execute the new initiatives that are most impactful and relevant to our

Back to Agenda

members experiencing homelessness. The staff developed the Homeless Health Initiatives Guiding Principles to refine the decision-making process, ensure investment in the most appropriate programs and to address provider concerns. Proposals consistent with the principles will be brought forward for consideration by the Board; proposals that are inconsistent will face revision or rejection. Proposals may also change depending on the status of CalAIM. Ultimately, the Board has full discretion on the allocation of funds. However, internal and external stakeholders will be able to use the Guiding Principles to support initiatives that unify the community around the shared goal of better serving Orange County's homeless population.

Fiscal Impact

The recommended action is budget neutral. The $60 million allocation has already been approved by the Board. The recommended action has the effect of distributing funds to various as yet undetermined initiatives, but the amount will not exceed $60 million.

Rationale for Recommendation

The above recommendation serves to guide funding allocations for CalOptima's Homeless Health Initiatives to ensure expenditures meet strategic priorities and have the most positive impact for members.

Concurrence

Gary Crockett, Chief Counsel

Homeless Health Initiatives: Guiding Principles

Board of Directors Meeting
December 5, 2019

Michael Schrader, Chief Executive Officer
TC Roady, Director, Regulatory Affairs and Compliance
Candice Gomez, Executive Director, Program Implementation

Back to Agenda

Agenda

- Current initiatives and Board direction
- California Advancing and Innovating Medi-Cal (CalAIM)
- Homeless Health allocation in light of CalAIM

Back to Agenda

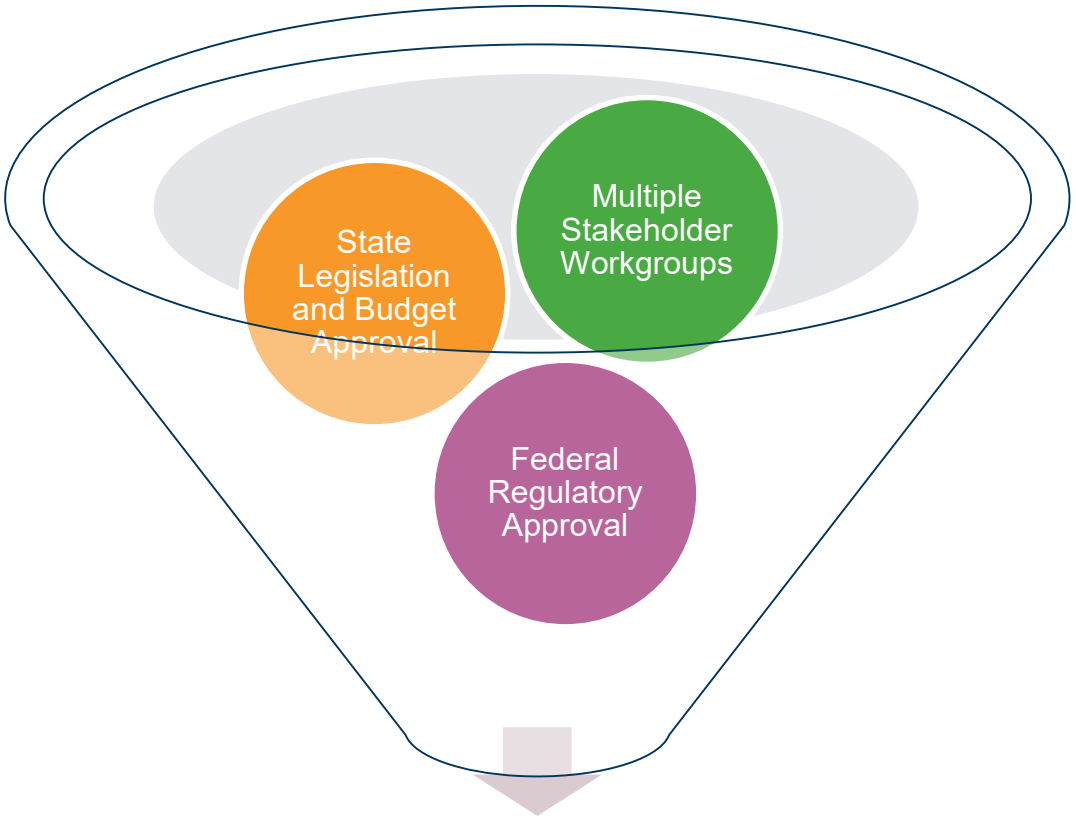
Current Initiatives

Board-Approved Programs With $100 Million Homeless Health Reserve	Funding
Be Well OC Regional Mental Health and Wellness Hub	$11.4 million
Recuperative Care	$10.75 million
Respite Care	$250,000
Clinical Field Team Startup	$1.6 million
CalOptima Homeless Response Team	$6 million
Homeless Coordination at Hospitals	$10 million
CalOptima Day and Quality Improvement Program	$1.2 million
Federally Qualified Health Centers Expansion	$.6 million
Total Allocated	**$41.8 million**
Remaining Funding Available	**$58.2 million**

- Other Board-Approved Programs Supporting Homeless Health
  - Medication-Assisted Treatment: $6 million (IGT funds)
- Other Programs Pending Board Approval
  - Housing Supportive Services: $2.5 million (reallocated from reserve)

Board Actions and Directives on Homeless Health

- In June, the Board adopted a $60 million allocation for homeless health spending in four categories
  - Clinic health care services in all homeless shelters
  - Mobile health team response to all homeless providers
  - Residential support services and housing navigation
  - Recuperative care for those with chronic physical health issues
- Working with the Board's ad hoc committee, staff developed Guiding Principles and crosswalk to provide the Board with a tool to guide funding decisions
- CalAIM has the potential to affect homeless health spending in the future
  - Consider CalAIM's impact on Guiding Principles



CalAIM Background

- On October 28, the Department of Health Care Services (DHCS) released CalAIM, a proposal with the potential to significantly impact the future Medi-Cal delivery system framework
  - Spans a five-year period from 2021 to 2025
  - Contains more than 20 core initiatives
  - Expands Medi-Cal managed care plans' responsibilities

- The proposal represents the start of a process that will include stakeholder engagement, and multiple federal and state approvals

CalAIM Process

- CalAIM is in the early stages of development
- CalAIM will evolve before reaching a final form for implementation starting January 1, 2021
  - ➢ Many layers of input will undoubtedly change the proposal

Final CalAIM Document

Back to Agenda

Five CalAIM Workgroups

Population Health/ Annual Enrollment	• Requires managed care plans to develop and maintain population health management strategies
Enhanced Care Management	• Explores implementation of an enhanced care management benefit and in lieu of services
Behavioral Health	• Considers integration of county-level mental health and substance use disorder programs
NCQA Accreditation	• Provides input on a proposal to require Medi-Cal managed care plans to obtain accreditation
Full Integration Plans	• Discusses full integration of physical health, behavioral health and oral health under one entity

Future CalAIM Implementation

- The various proposals have different effective dates, ranging from January 2021 to January 2025
  - Understanding the rules and regulations before and after implementation will be challenging

- With regard to CalOptima's Homeless Health Initiatives, three proposals (in their current form) have the most potential impact in the near term
  - Population Health Management
  - Enhanced Care Management
  - In Lieu of Services

Current State, Before CalAIM

- Programs that “bridge” to CalAIM
  - Health Homes Program (HHP)
    - Enhanced care management
    - Housing supportive services
  - Whole-Person Care (WPC)
    - Recuperative care
- Intergovernmental Transfer (IGT) 1–7 dollars
  - Enhanced services for Medi-Cal members
    - Reallocating funds toward housing supportive services
- IGT 8 dollars
  - Medi-Cal-covered services for Medi-Cal members
    - Enhanced hospital discharge planning
    - Transitions of care (under development with stakeholder group)

Future Possibilities, After CalAIM*

- Population Health Management (PHM)
  - Develop and maintain PHM programs compliant with NCQA requirements, and update and file annually with DHCS
  - Risk stratify populations (low-, medium- and high-risk) and have defined actions and programs to address population needs
  - Conduct initial member assessments and then reassessments on an annual basis
  - Offer basic, complex and enhanced care management

**Subject to stakeholder input and CMS and DHCS approval*

Future Possibilities, After CalAIM* (Cont.)

- Enhanced Care Management (ECM) and In Lieu of Services (ILOS)
  - Statewide health plan benefit replacing HHP and WPC by January 1, 2021
  - Holistic, interdisciplinary approach to clinical and non-clinical needs of target populations
    - Individuals experiencing homelessness are specifically included as a target population
  - By July 2020, plans must submit transition plan moving from HHP and WPC to the ECM/ILOS model of care

**Subject to stakeholder input and CMS and DHCS approval*

Future Possibilities, After CalAIM* (Cont.)

- ILOS can only be covered if:
  - State determines that the service is a medically appropriate and cost-effective substitute for a typical service
  - The service is optional (beneficiaries are not required to use ILOS)
  - The service is authorized and identified in the state's Medi-Cal managed care plan contract

Menu of In Lieu of Services Options**
Housing transition navigation services
Housing deposits
Housing tenancy
Short-term post-hospitalization housing
Nursing facility transition/diversion
Recuperative care
Personal care and homemaker services
Respite care
Day habilitation programs
Home modifications
Meals/medically tailored meals
Sobering centers

***See CalAIM Appendix D for a detailed description of what is allowed under each of the above ILOS*

* *Subject to stakeholder input and CMS and DHCS approval*

CalAIM Advocacy

- California Association of Health Plans and Local Health Plans of California are actively participating in the CalAIM process
  - Managed care plans, including CalOptima, will be integral in shaping the eventual final CalAIM document
  - Managed care plans are generally very supportive of the direction CalAIM is headed

- Responding to the needs of Orange County's homeless population would be enhanced through adoption of certain current CalAIM proposals
  - CalOptima will advocate to this effect and pursue opportunities as available

Recommended Action

- Approve homeless health initiatives Guiding Principles and crosswalk as a framework for future funding allocations

HOMELESS HEALTH INITIATIVES GUIDING PRINCIPLES
December 5, 2019

Organizations across Orange County are actively responding to the local homeless crisis. CalOptima is participating by making improvements to the health care delivery system for homeless individuals. On April 4, 2019, the Board of Directors voted to commit $100 million in a restricted homeless health reserve. At that time, $40 million was directed to a range of specific initiatives, and $60 million was for unidentified new initiatives:

Projects *(as of April 4, 2019)*	**Allocated**	**Unallocated**	**Funding Category**
Enhanced Medi-Cal Services at the Be Well OC Regional Mental Health and Wellness Campus	$11.4 million		IGT 1–7 ($24 million total)
Recuperative Care	$11 million		
Clinical Field Team Startup Costs	$1.6 million		
CalOptima Homeless Response Team ($1.2 million/year x 5 years)	$6 million		IGT 8 and FY 2018–19 operating funds ($76 million total)
Homeless Coordination at Hospitals ($2 million/year x 5 years)	$10 million		
New Initiatives		$60 million	
Total Reserve: $100 million	**$40 million**	**$60 million**	

In the months since, CalOptima has continued to consider program options, in part by welcoming input from community organizations and providers serving homeless individuals. On June 27, 2019, at a special Board meeting, the Board approved a proposal outlining $60 million in funding allocations for new homeless health initiatives as follows:

1. Clinic health care services in all homeless shelters – $10 million
2. Authorize mobile health team to respond to all homeless providers –$10 million
3. Residential support services and housing navigation – $20 million
4. Extend recuperative care for homeless individuals with chronic physical health issue – $20 million

The Board recognizes that the approved allocations allow room for interpretation and the possibility of executing new initiatives in various ways. Further, a recent state proposal, known as California Advancing and Innovating Medi-Cal (CalAIM), suggests significant changes to the Medi-Cal managed care landscape starting in 2021. Although the proposal is not yet finalized or approved by state and federal regulators, some tenets of CalAIM are designed to enhance services for high-needs populations, including homeless individuals. To move forward with effective funding allocations in this dynamic environment, staff have developed Guiding

Back to Agenda

Principles to refine decision making, ensure investment in the most appropriate programs and respond to provider concerns. Proposals consistent with the principles would be brought forward for consideration by the Board; proposals that are inconsistent would face revision or rejection. Proposals may also change depending on the status of CalAIM. Ultimately, the Board has full discretion, but internal and external audiences can use the principles to support initiatives that unify the community around our shared goal of better serving Orange County's homeless population.

GUIDING PRINCIPLES

Transparent and Inclusive

Inherent in CalOptima's response to the homeless crisis is a commitment to engage the community. Since beginning this effort and across several months, we have collaborated with Orange County Health Care Agency leaders, homeless advocates, community health center staff, provider representatives and countless others. CalOptima staff have and will continue to host meetings and forums, most recently adding a provider and hospital meeting series. Our interest in establishing these Guiding Principles starts from this place of inclusiveness.

- *CalOptima shall foster transparency in homeless health spending by regularly engaging stakeholders to gather ideas and feedback.*

Compliant and Sustainable

CalOptima has invested considerable time and money in understanding the legal and regulatory spending parameters related to health care delivery system enhancements for members who are homeless. In this environment, there are clear distinctions between funding sources that must be maintained. Intergovernmental Transfer (IGT) 1–7 dollars were permitted for enhancements to Medi-Cal services, but new IGT 8 dollars must be used according to different guidelines that restrict the spending to Medi-Cal-covered services. Furthermore, use of FY 2018–19 operating funds is similarly restricted to Medi-Cal-covered services for members, so expenditure of these dollars will be incorporated into CalOptima's rate development process. This would create sustainable funding for ongoing homeless health programs even after depletion of the Board-established homeless health reserve. However, the CalAIM proposal has the potential to expand Medi-Cal-covered benefits, which could broaden what CalOptima is permitted to fund for homeless health. This opportunity is under development, so until CalAIM is finalized, CalOptima must adhere to current rules. In any event, financial stewardship is one of CalOptima's core values, and our commitment is to spend on new homeless health initiatives in a fashion that complies with all applicable rules and appropriately builds our rates.

- *CalOptima shall spend the $60 million on allowable uses only, with the strict rule that IGT 8 and FY 2018–19 funds must be used for Medi-Cal-covered services for Medi-Cal members.*

Strategic and Integrated

CalOptima's effort to better serve members who are homeless is aligned with the strategic direction of state and federal regulators as well as industry trends. Population health initiatives recognize that certain populations need targeted interventions, and these programs can be integrated within the existing delivery system. For example, CalOptima's clinical field team program is designed to reconnect members with their medical homes not replace them. We appreciate the essential role of our hospital and health network partners and will purposefully seek ways to ensure new homeless health initiatives are integrated.

Back to Agenda

- *CalOptima shall support programs that honor the unique needs of the homeless population while integrating into the existing delivery system.*

Defined and Accountable

CalOptima is in new territory exploring ways to respond to the needs of homeless members. But our commitment to longstanding principles of quality and accountability has not changed. As we move forward, new programs will be carefully defined through Board-approved actions and subject to appropriate oversight and performance metrics. The CalOptima Board will hold itself accountable to ensure the implemented programs provide value and perform as anticipated, which may include establishing incentives for provider partners.

- *CalOptima shall identify measures of success and develop incentives to boost accountability in any new homeless health initiative.*

Back to Agenda

CROSSWALK: HOMELESS HEALTH INITIATIVES GUIDING PRINCIPLES AND FUNDING CATEGORIES

December 5, 2019

		Homeless Health Funding Categories			
		Clinic health care services in all homeless shelters	**Authorize mobile health team to respond to all homeless providers**	**Residential support services and housing navigation**	**Extend recuperative care for homeless individuals with chronic physical health issue**
Guiding Principles	**Transparent and Inclusive*** *Transparent planning that includes providers and other key stakeholders*	Consistent: Specific initiatives in this category could be designed and developed in collaboration with providers and other stakeholders.	Consistent: Specific initiatives in this category could be designed and developed in collaboration with providers and other stakeholders.	Consistent: CalOptima and our health networks transparently and inclusively provide Medi-Cal members with case management and care coordination as appropriate. In addition, health networks will serve as CB-CMEs for HHP, with Illumination Foundation as an available vendor for housing navigation. However, the CalAIM proposal would sunset HHP and transition housing navigation to another program. Separately, the IHSS, MSSP and PACE programs provide services in the member's home.	Consistent: Today, recuperative care is not currently a Medi-Cal benefit, apart from the WPC pilot to which CalOptima previously allocated funds for recuperative care. However, CalOptima is planning to advocate with providers and stakeholders through the CalAIM process for the state to make recuperative care a Medi-Cal benefit in 2021, upon the completion of the WPC pilot.
		*Assumes continued coordination of input from biweekly health network/hospital meetings with CalOptima Board Homeless Health Ad Hoc.			
	Compliant and Sustainable *Sustained Medi-Cal funding for CalOptima from DHCS*	Consistent: Continuing to pay for clinic services (Medi-Cal-covered services) for CalOptima Medi-Cal members at shelters would be sustainable in terms	Consistent: Continuing to pay for clinical field team services (Medi-Cal-covered services) for CalOptima Medi-Cal members would be sustainable in	Consistent: Case management and care coordination are covered benefits under the basic Medi-Cal program, and housing navigation is a	Inconsistent: Inconsistent today because recuperative care is not a Medi-Cal-covered service, except through the WPC pilot. Consequently, there

Back to Agenda

		of ongoing state funding.	terms of ongoing state funding.	covered benefit under HHP. However, the CalAIM proposal would sunset HHP and transition housing navigation to another program. Consequently, there is sustainable funding within these parameters.	is no source of sustainable funding currently. However, the CalAIM process has the potential to broaden Medi-Cal-covered services to include recuperative care.
	Strategic and Integrated *Integration with CalOptima's contracted health care delivery system*	Consistent: Clinic services in homeless shelters should reconnect members with their medical homes (i.e., health networks and PCPs).	Consistent: Clinical field teams should reconnect members with their medical homes (i.e., health networks and PCPs).	Consistent: Case management and care coordination services are integrated into CalOptima's contracted health care delivery system. HHP CB-CMEs will also be integrated through health networks. The CalAIM proposal would sunset HHP and transition housing navigation to another program, which would also be integrated into the CalOptima system.	Consistent: If recuperative care becomes a Medi-Cal benefit following completion of the WPC pilot and/or implementation of CalAIM, CalOptima would integrate the benefit with our contracted delivery system of health networks and hospitals.
	Defined and Accountable *Specific deliverables and measures of success*	Consistent: Specific initiatives in this category could be designed and developed with identified deliverables and measures of success.	Consistent: Specific initiatives in this category could be designed and developed with identified deliverables and measures of success.	Consistent: There is definition and accountability for health networks related to case management, care coordination and HHP CB-CME housing services. However, the CalAIM proposal would sunset HHP and transition housing navigation to another program, which would also be defined and accountable.	Consistent: If recuperative care becomes a Medi-Cal benefit, we will continue what the WPC pilot successfully started, including to have specific deliverables and measures of success (e.g., transitions to PSH).

Back to Agenda

Acronyms:
CalAIM = California Advancing and Innovating Medi-Cal
CB-CME = Community-Based Care Management Entity
HHP = Health Homes Program
IHSS = In-Home Supportive Services
MSSP = Multipurpose Senior Services Program
PACE = Program of All-Inclusive Care for the Elderly
PCP = Primary Care Physician
PSH = Permanent Supportive Housing
WPC = Whole-Person Care

Back to Agenda

Appendix D: Menu of In Lieu of Service Options

Following is the proposed menu of in lieu of services that would be covered under the CalAIM initiative. Each set of services is described in detail below:

- Housing Transition Navigation Services
- Housing Deposits
- Housing Tenancy and Sustaining Services
- Short-term Post-Hospitalization Housing
- Recuperative Care (Medical Respite)
- Respite
- Day Habilitation Programs
- Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly & Adult (RCFE) and Adult Residential Facilities (ARF)
- Nursing Facility Transition to a Home
- Personal Care (beyond In Home Services and Supports) and Homemaker Services
- Environmental Accessibility Adaptations (Home Modifications)
- Meals/Medically Tailored Meals
- Sobering Centers

Housing Transition Navigation Services

Description/Overview

Housing transition services assist beneficiaries with obtaining housing and include:

1. Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on the participant's housing needs, potential housing transition barriers, and identification of housing retention barriers.
2. Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short- and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medi-Cal, may be required to meet the goal.
3. Searching for housing and presenting options.
4. Assisting in securing housing, including the completion of housing applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
5. Assisting with benefits advocacy, including assistance with obtaining identification and documentation for SSI eligibility and supporting the SSI application process. Such service can be subcontracted out to retain needed specialized skillset.
6. Identifying and securing available resources to assist with subsidizing rent (such as Section 8 or Section 202, etc.) and matching available rental subsidy resources to members.
7. If included in the housing support plan, identifying and securing resources to cover expenses, such as security deposit, moving costs, adaptive aids, environmental modifications, moving costs, and other one-time expenses. [1]
8. Assisting with requests for reasonable accommodation, if necessary.
9. Ensuring that the living environment is safe and ready for move-in.
10. Communicating and advocating on behalf of the client with landlords.

[1] Actual payment of these housing deposits and move-in expenses is a separate in-lieu service under Housing Deposits.

11. Assisting in arranging for and supporting the details of the move.
12. Establishing procedures and contacts to retain housing, including developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.[2]
13. Identifying, coordinating, securing, or funding non-emergency, non-medical transportation to assist members' mobility to ensure reasonable accommodations and access to housing options prior to transition and on move in day.
14. Identifying, coordinating, environmental modifications to install necessary accommodations for accessibility.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require and access only a subset of the services listed above.

The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Medi-Cal managed care plans must assure housing options identified for members are safe and appropriate for the member's health status.

The services may involve coordination with other entities to ensure the individual has access to supports needed for successful tenancy such as County Health, Public Health, Substance Use, Mental Health and Social Services Departments; County and City Housing Authorities; Continuums of Care (CoCs) through Coordinated Entry System; and housing development agencies. For clients who will need rental subsidy support to secure permanent housing, the services will require close coordination with local Coordinated Entry Systems, homeless services authorities, public housing authorities, and other operators of local rental subsidies. Services do not include the provision of room and board or payment of rental costs.

Eligibility (Population Subset)

Individuals who are matched to a permanent supportive housing unit or rental subsidy resource through the Coordinated Entry System or similar system designed to use clinical information to identify highly vulnerable individuals with multiple chronic conditions and/or serious mental illness and/or serious substance use disorder.

[2] The services associated with the crisis plan are a separate in-lieu service under Housing Tenancy and Sustaining Services.

Individuals who meet the Housing and Urban Development (HUD) definition of homeless[3] (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the HUD definition of homeless (including those exiting institutions but not including any limits on the number of days in the institution) and who have multiple chronic conditions and/or serious mental illness and/or serious substance use disorders. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness" which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth experiencing homelessness or with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system and have a serious mental illness and/or a child or adolescent with serious emotional disturbance.

Individuals who meet the definition of a Chronically Homeless Individual either as defined:

A. In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.
B. By the Department of Housing and Urban Development (HUD) in 24 CFR 91.5 as:

[3] Individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: (i) Has a primary nighttime residence that is a public or private place not meant for human habitation; (ii) Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state and local government programs); or (iii) Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

1. A ‘‘homeless individual with a disability,’’ as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
    i. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
    ii. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least 4 separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;
2. An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or
3. A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Restrictions and Limitations

In lieu of services are alternative services covered under the Medi-Cal State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and cost-effective substitute or setting for the State Plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services are authorized and identified in the Medi-Cal managed care plan contracts.

Housing Transition/Navigation services are available once in an individual’s lifetime. Housing Transition/Navigation services can only be approved one additional time with documentation as to what conditions have changed to demonstrate why providing Housing Transition/Navigation services would be more successful on the second attempt.

These services must be identified as reasonable and necessary in the individual’s individualized housing support plan and are available only if the enrollee is unable to meet such expense or when the services cannot be obtained from other sources.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have demonstrated experience with providing housing-related services and supports and may include providers such as:

- Vocational services agencies;
- Providers of services for individuals experiencing homelessness;
- Life skills training and education providers;
- Mental health or substance use disorder treatment providers;
- Supportive housing providers; and
- Federally qualified health centers.

Clients who meet the eligibility requirements for Housing Transition/Navigation services should also be assessed for enhanced care management and Housing and Tenancy Support Services (if provided in their county). When enrolled in enhanced care management, in lieu of services should be managed in coordination with enhanced care management providers. When clients receive more than one of these services they should be provided by one entity whenever possible to minimize the number of care/case management transitions experienced by clients and to improve overall care coordination and management.

If the Medi-Cal managed care plan case manager, care coordinator or housing navigator is providing the service, that individual must have demonstrated experience working with individuals experiencing homelessness or with the provision of housing-related services and supports to vulnerable populations.

State Plan Service(s) to be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, Emergency Transport services, and skilled nursing facility services.

Housing Deposits

Description/Overview

Housing Deposits assist with identifying, coordinating, securing or funding one-time services and modifications necessary to enable a person to establish a basic household that do not constitute room and board, such as:

1. Security deposits required to obtain a lease on an apartment or home.
2. Set-up fees/deposits for utilities or service access.
3. First month coverage of utilities, including but not limited to telephone, gas, electricity, heating and water.
4. First month's and last month's rent as required by landlord for occupancy.
5. Services necessary for the individual's health and safety, such as pest eradication and one-time cleaning prior to occupancy.
6. Goods such as an air conditioner or heater, and other medically-necessary adaptive aids and services, designed to preserve an individuals' health and safety in the home such as hospital beds, Hoyer lifts, air filters, specialized cleaning or pest control supplies etc., that are necessary to ensure access and safety for the individual upon move-in to the home.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require, and access only a subset of the services listed above.

Services do not include the provision of room and board or payment of ongoing rental costs beyond the first and last month's coverage as noted above.

Eligibility (Population Subset)

Any individual who received Housing Transition/Navigation Services ILOS in counties that offer Housing Transition/Navigation Services.

Individuals who are matched to a permanent supportive housing unit or rental subsidy resource through the Coordinated Entry System or similar system designed to use clinical information to identify highly vulnerable individuals with multiple chronic conditions and/or serious mental illness and/or serious substance use disorder.

Individuals who meet the Housing and Urban Development (HUD) definition of homeless[4] (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the HUD definition of homeless (including those exiting institutions but not including any limits on the number of days in the institution) and who have multiple chronic conditions and/or serious mental illness and/or serious substance use disorders. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness" which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth experiencing homelessness or with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system and have a serious mental illness and/or a child or adolescent with serious emotional disturbance.

Individuals who meet the definition of a Chronically Homeless Individual either as defined:

A. In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.

[4] Individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: (i) Has a primary nighttime residence that is a public or private place not meant for human habitation; (ii) Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state and local government programs); or (iii) Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

B. By the Department of Housing and Urban Development (HUD) in 24 C.F.R. 91.5 as:

1. A ‘‘homeless individual with a disability,’’ as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:

    i. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

    ii. Has been homeless and living as described in paragraph (1) (i) of this definition continuously for at least 12 months or on at least four (4) separate occasions in the last three (3) years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least seven (7) consecutive nights of not living as described in paragraph (1) (i). Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

2. An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

3. A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Restrictions and Limitations

In lieu of services are alternative services covered under the State plan but are delivered by a different provider or in a different setting than is described in the State plan. An in lieu of service can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of service and 3) the in lieu of service is authorized and identified in the Medi-Cal managed care plan contracts.

Housing Deposits are available once in an individual’s lifetime. Housing Deposits can only be approved one additional time with documentation as to what conditions have changed to demonstrate why providing Housing Deposits would be more successful on the second attempt.

These services must be identified as reasonable and necessary in the individual's individualized housing support plan and are available only when the enrollee is unable to meet such expense or when the services cannot be obtained from other sources.

Individuals must also receive Housing Transition/Navigation services (at a minimum, the associated tenant screening, housing assessment and individualized housing support plan) in conjunction with this service.

Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing and Allowable Providers

The entity that is coordinating an individual's Housing Navigation/Transition Services, or the Medi-Cal managed care plan case manager, care coordinator or housing navigator may coordinate these services and pay for them directly (e.g., to the landlord, utility company, pest control company, etc.)

State Plan Service(s) To Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, Emergency Transport services, and skilled nursing facility services.

Housing Tenancy and Sustaining Services

Description/Overview

This service provides tenancy and sustaining services, with a goal of maintaining safe and stable tenancy once housing is secured.

Services include:

1. Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment, hoarding, substance us, and other lease violations.
2. Education and training on the role, rights and responsibilities of the tenant and landlord.
3. Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy.
4. Coordination with the landlord and case management provider to address identified issues that could impact housing stability.
5. Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action including developing a repayment plan or identifying funding in situations in which the client owes back rent or payment for damage to the unit.
6. Advocacy and linkage with community resources to prevent eviction when housing is or may potentially become jeopardized.
7. Assistance with the annual housing recertification process.
8. Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers.
9. Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.
10. Health and safety visits, including unit habitability inspections.
11. Other prevention and early intervention services identified in the crisis plan that are activated when housing is jeopardized (e.g., assisting with reasonable accommodation requests that were not initially required upon move-in).
12. Providing independent living and life skills including assistance with and training on budgeting, including financial literacy and connection to community resources.

The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require and access only a subset of the services listed above.

The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

The services may involve coordination with other entities to ensure the individual has access to supports needed to maintain successful tenancy.

Services do not include the provision of room and board or payment of rental costs.

Eligibility (Population Subset)

Any individual who received Housing Transition/Navigation Services ILOS in counties that offer Housing Transition/Navigation Services.

Individuals who are matched to a permanent supportive housing unit or rental subsidy resource through the Coordinated Entry System or similar system designed to use clinical information to identify highly vulnerable individuals with multiple chronic conditions and/or serious mental illness and/or serious substance use disorder.

Individuals who meet the Housing and Urban Development (HUD) definition of homeless[5] (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the HUD definition of homeless (including those exiting institutions but not including any limits on the number of days in the institution) and who have multiple chronic conditions and/or serious mental illness and/or serious substance use disorders. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder

[5] Individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: (i) Has a primary nighttime residence that is a public or private place not meant for human habitation; (ii) Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state and local government programs); or (iii) Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness" which includes persons exiting institutions that were homeless prior to entering the institution and Transition-age youth experiencing homelessness or with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system and have a serious mental illness and/or a child or adolescent with serious emotional disturbance.

Individuals who meet the definition of a Chronically Homeless Individual either as defined:

A. In W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.

B. By the Department of Housing and Urban Development (HUD) in 24 C.F.R. 91.5 as:

    1. A ''homeless individual with a disability,'' as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:

        i. Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

        ii. Has been homeless and living as described in paragraph (1)(i) of this definition continuously for at least 12 months or on at least four (4) separate occasions in the last three (3) years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least seven (7) consecutive nights of not living as described in paragraph (1)(i). Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

    2. An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other

similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

3. A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically appropriate and cost-effective substitute or setting for the State Plan service 2) beneficiaries are not required to use the in lieu of services, and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

These services are available from the initiation of services through the time when the individual's housing support plan determines they are no longer needed. They are only available for a single duration in the individual's lifetime. Housing Tenancy and Sustaining Services can only be approved one additional time with documentation as to what conditions have changed to demonstrate why providing Housing Tenancy and Sustaining Services would be more successful on the second attempt.

These services must be identified as reasonable and necessary in the individual's individualized housing support plan and are available only when the enrollee is unable to meet such expense or when the services cannot be obtained from other sources.

Many individuals will have also receive Housing Transition/Navigation services (at a minimum, the associated tenant screening, housing assessment and individualized housing support plan) in conjunction with this service but it is not a requirement.

Individuals may not be receiving duplicative support from other state, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Providers must have demonstrated experience with providing housing-related services and supports and may include providers such as:

- Vocational services agencies
- Providers of services for individuals experiencing homelessness
- Life skills training and education providers
- Mental health or substance use disorder treatment providers

- Supportive housing providers
- Federally qualified health centers

If the Medi-Cal managed care plan case manager, care coordinator or housing navigator is providing the service, that individual must have demonstrated experiencing working with individuals experiencing homelessness or with the provision of housing-related services and supports to vulnerable populations.

Clients who meet the eligibility requirements for Housing and Tenancy Support Services should also be assessed for enhanced care management and may have received Housing Transition/Navigation services (if provided in their county). When enrolled in enhanced care management, in lieu of services should be managed in coordination with enhanced care management providers. When clients receive more than one of these services, they should be provided by one entity whenever possible to minimize the number of care/case management transitions experienced by clients and to improve overall care coordination and management.

State Plan Service(s) To Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, Emergency Transport services, skilled nursing facility services.

Short-term Post-Hospitalization Housing

Description/Overview

Short-Term Post-Hospitalization housing provides beneficiaries who are homeless and who have high medical or behavioral health needs with the opportunity to continue their medical/psychiatric/substance use disorder recovery immediately after exiting an inpatient hospital (either acute or psychiatric), substance abuse or mental health treatment facility, custody facility, or recuperative care.[6]

This setting provides individuals with ongoing supports necessary for recuperation such as gaining (or regaining) the ability to perform activities of daily living, receiving necessary medical/psychiatric/substance use disorder care, case management and beginning to access other housing supports such as Housing Transition/Navigation.[7]

This setting may include supported housing in an individual or shared interim housing setting.

Beneficiaries must also receive Housing Transition/Navigation supports during the period of Short-Term Post-Hospitalization housing to prepare them for transition from this setting.

Eligibility (Population Subset)

Individuals exiting recuperative care.

Individuals exiting an inpatient hospital stay (either acute or psychiatric), substance abuse or mental health treatment facility, or custody facility and who meet any of the following criteria:

- Individuals who meet the HUD definition of homeless[8] (including those exiting institutions but not including any limits on the number of days in the institution) and who are receiving enhanced care management. For the purpose of this service,

---

[6] Up to 90 days of recuperative care is available under specified circumstances as a separate in-lieu service.

[7] Housing Transition/Navigation is a separate in-lieu service.

[8] Individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: (i) Has a primary nighttime residence that is a public or private place not meant for human habitation; (ii) Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state and local government programs); or (iii) Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

- Individuals who meet the HUD definition of homeless (including those exiting institutions but not including any limits on the number of days in the institution) and who have multiple chronic conditions and/or serious mental illness. For the purpose of this service, qualifying institutions include hospitals, correctional facilities, mental health residential treatment facility, substance use disorder residential treatment facility, recovery bridge housing, Institutes for Mental Disease and State Hospitals.

- Individuals who meet the State's No Place Like Home definition of "at risk of chronic homelessness" which includes persons exiting institutions who were homeless prior to entering the institutions and Transition-age youth experiencing homelessness or with significant barriers to housing stability, including one or more convictions and history of foster care or involvement with the juvenile justice system and have a serious mental illness and/or a child or adolescent with serious emotional disturbance.

- Individuals who meet the definition of Chronically Homeless Individual either:

    a. As defined in W&I Code section 14127(e) as "a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more or had at least four episodes of homelessness in the past three years." The definition also includes "an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing as defined in Section 50675.14 of the Health and Safety Code for less than two years if the individual was chronically homeless prior to his or her residence.

    b. As defined by the Department of Housing and Urban Development (HUD) in 24 C.F.R. 91.5 as:

        1. A ''homeless individual with a disability,'' as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:

            i. Lives in a place not meant for human habitation, a safe haven or in an emergency shelter; and

            ii. Has been homeless and living as described in paragraph (1)(i) of this definition continuously for at least 12 months or on at least

four (4) separate occasions in the last three (3)years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least seven (7) consecutive nights of not living as described in paragraph (1)(i). Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven or an emergency shelter immediately before entering the institutional care facility;

2. An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

3. A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

In addition to meeting one of these criteria at a minimum, individuals must:

- Have medical/behavioral health needs such that experiencing homelessness upon discharge from hospital, substance abuse or mental health treatment facility, correctional facility, or recuperative care would likely result in hospitalization, re-hospitalization, or institutional readmission; and
- Participate in a housing assessment and individualized housing support plan to identify preferences and barriers related to successful housing tenancy after Short-Term Post-Hospitalization housing.[9]

The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing and Trauma Informed Care.

[9] The development of a housing assessment and individualized support plan are covered as a separate in-lieu service under Housing Transition/Navigation Services.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Short-Term Post-Hospitalization services are available once in an individual's lifetime and are limited and are not to exceed a duration of six (6) months per episode (but may be authorized for a shorter period based on individual needs).

The service is only available if enrollee is unable to meet such expense or when the services cannot be obtained from other sources.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Supportive Housing Providers

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, post-acute care, Emergency Department services, Emergency Transport services, skilled nursing facility services.

Recuperative Care (Medical Respite)

Description/Overview

Recuperative care, also referred to as medical respite care, is short-term residential care for individuals who no longer require hospitalization, but still need to heal from an injury or illness (including behavioral health conditions) and whose condition would be exacerbated by an unstable living environment. It allows individuals to continue their recovery and receive post-discharge treatment while obtaining access to primary care, behavioral health services, case management and other supportive social services, such as transportation, food and housing.

At a minimum, the service will include interim housing with a bed and meals and ongoing monitoring of the individual's ongoing medical or behavioral health condition (e.g., monitoring of vital signs, assessments, wound care, medication monitoring). Based on individual needs, the service may also include:

1. Limited or short-term assistance with activities of daily living
2. Coordination of transportation to post-discharge appointments
3. Connection to any other on-going services an individual may require including mental health and substance use disorder services
4. Support in accessing benefits and housing
5. Gaining stability with case management relationships and programs

Recuperative care is primarily used for those individuals who are homeless or those with unstable living situations who are too ill or frail to recover from an illness (physical or behavioral health) or injury in their usual living environment; but are not otherwise ill enough to be in a hospital.

The services provided to an individual while in recuperative care should not replace or be duplicative of the services provided to members utilizing the enhanced care management program. Recuperative Care may be utilized in conjunction with other housing in lieu of services. Whenever possible, other housing in lieu of services should be provided to clients onsite in the recuperative care facility. When enrolled in enhanced care management, in lieu of services should be managed in coordination with enhanced care management providers.

The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

- Individuals who are at risk of hospitalization or are post-hospitalization, and
- Are homeless or are at imminent risk of being homeless;
- Live alone with no informal supports; or
- Face housing insecurity or have housing that would jeopardize their health and safety without modification. [10]

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Recuperative care/medical respite is an allowable in lieu of services service if it is 1) necessary to achieve or maintain medical stability and prevent hospital admission or re-admission, which may require behavioral health interventions, 2) not more than 90 days in continuous duration, and 3) does not include funding for building modification or building rehabilitation.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

Facilities are unlicensed. Medi-Cal managed care plans must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal managed care plans can adopt or adapt local or national standards for recuperative care or interim housing. Medi-Cal managed care plans shall monitor the provision of all the services included above.

Examples of facilities include:

- Interim housing facilities with additional on-site support
- Shelter beds with additional on-site support
- Converted homes with additional on-site support

[10] For this population, the service could be coordinated with home modifications (which are covered as a separate in lieu service) and serve as a temporary placement until the individual can safely return home.

- County directly operated or contracted recuperative care facilities

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, skilled nursing facility, and Emergency Department services.

Respite Services

Description/Overview

Respite services are provided to caregivers of participants who require intermittent temporary supervision. The services are provided on a short-term basis because of the absence or need for relief of those persons who normally care for and/or supervise them and are non-medical in nature. This service is distinct from medical respite/recuperative care and is rest for the caregiver only.

Respite services can include any of the following:

1. Services provided by the hour on an episodic basis because of the absence of or need for relief for those persons normally providing the care to individuals.
2. Services provided by the day/overnight on a short-term basis because of the absence of or need for relief for those persons normally providing the care to individuals.
3. Services that attend to the participant's basic self-help needs and other activities of daily living, including interaction, socialization and continuation of usual daily routines that would ordinarily be performed by those persons who normally care for and/or supervise them.

The Home Respite benefit services are provided to the participant in his or her own home.

The Facility Respite benefit services are provided in an approved out-of-home location.

Respite should be made available when it is useful and necessary to maintain a person in their own home and to avoid institutional services for which the Medi-Cal managed care plan is responsible.

Eligibility (Population Subset)

Individuals who live in the community and are compromised in their Activities of Daily Living (ADLs) and are therefore dependent upon a qualified caregiver who provides most of their support, and who require caregiver relief to avoid institutional placement.

Other subsets may include children who previously were covered for Respite Services under the Pediatrics Palliative Care Waiver, foster care program beneficiaries, beneficiaries enrolled in California Children's Services, and Genetically Handicapped Persons Program (GHPP), and Clients with Complex Care Needs.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State

Plan. An in lieu of service can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of service and 3) the in lieu of service is authorized and identified in the Medi-Cal managed care plan contracts.

In the home setting, these services, in combination with any direct care services the member is receiving, may not exceed 24 hours per day of care.

Benefit limit is up to 336 hours per calendar year. The benefit is inclusive of all in-home and in-facility services. Exceptions to the 336 hour per calendar year limit can be made, with Medi-Cal managed care plan authorization, when the caregiver experiences an episode, including medical treatment and hospitalization that leaves a Medicaid member without their caregiver. Respite support provided during these episodes can be excluded from the 336 hour annual limit.

This benefit is only to avoid placements for which the Medi-Cal managed care plan would be responsible.

Licensing/Allowable Providers

- Home health or respite agencies to provide services in:
  - Private residence
  - Residential facility approved by the State, such as, Congregate Living Health Facilities (CLHFs)

Other community settings that are not a private residence, such as:

- Adult Family Home/Family Teaching Home
- Certified Family Homes for Children
- Residential Care Facility for the Elderly (RCFE)
- Child Day Care Facility; Child Day Care Center; Family Child Care Home
- Respite Facility; Residential Facility: Small Family Homes (Children Only)
- Respite Facility; Residential Facility: Foster Family Agency (FFA)-Certified Family Homes (Children Only)
- Respite Facility; Residential Facility: Adult Residential Facilities (ARF)
- Respite Facility; Residential Facility: Group Homes (Children Only)
- Respite Facility; Residential Facility: Family Home Agency(FHA): Adult Family Home (AFH)/Family Teaching Home(FTH)
- Respite Facility; Residential Facility: Adult Residential Facility for Persons with Special Health Care Needs

- Respite Facility; Residential Facility: Foster Family Homes (FFHs) (Children Only)

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, and Skilled Nursing or other institutional care.

Day Habilitation Programs

Description/Overview

Day Habilitation Programs are provided in a participant's home or an out-of-home, non-facility setting. The programs are designed to assist the participant in acquiring, retaining and improving self-help, socialization and adaptive skills necessary to reside successfully in the person's natural environment. The services are often considered as peer mentoring when provided by an unlicensed caregiver with the necessary training and supervision. For homeless participants receiving enhanced care management or other in lieu of services, the day habilitation program can provide a physical location for participants to meet with and engage with these providers. When possible these services should be provided by the same entity to minimize the number of care/case management transitions experienced by clients and to improve overall care coordination and management

Day habilitation program services include, but are not limited to, training on:

1. The use of public transportation;
2. Personal skills development in conflict resolution;
3. Community participation;
4. Developing and maintaining interpersonal relationships;
5. Daily living skills (cooking, cleaning, shopping, money management); and,
6. Community resource awareness such as police, fire or local services to support independence in the community.

Programs may include assistance with, but not limited to:

1. Selecting and moving into a home; [11]
2. Locating and choosing suitable housemates;
3. Locating household furnishings;
4. Settling disputes with landlords; [12]
5. Managing personal financial affairs;
6. Recruiting, screening, hiring, training, supervising and dismissing personal attendants;

[11] Refer to the Housing Transition/Navigation Services In Lieu of Services
[12] Refer to the Housing- Tenancy and Sustaining Services In Lieu of Services

7. Dealing with and responding appropriately to governmental agencies and personnel;
8. Asserting civil and statutory rights through self-advocacy;
9. Building and maintaining interpersonal relationships, including a circle of support.
10. Coordination with Medi-Cal managed care plan to link participant to any in lieu of services and/or enhanced care management services for which the client may be eligible;
11. Referral to non-in lieu of services housing resources if participant does not meet Housing Transition/Navigation Services in lieu of services eligibility criteria;
12. Assistance with income and benefits advocacy including General Assistance/General Relief and SSI if client is not receiving these services through in lieu of services or enhanced care management; and
13. Coordination with Medi-Cal managed care plan to link participant to health care, mental health services, and substance use services based on the individual needs of the participant for participants who are not receiving this linkage through in lieu of services or enhanced care management.

The services provided should utilize best practices for clients who are homeless or formerly homeless including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

Individuals who are experiencing homelessness, individuals who exited homelessness and entered housing in the last 12 months, and individuals at risk of homelessness whose housing stability could be improved through participation in a day habilitation program.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

This service is only provided to individuals age 21 and over. All medically-necessary case management services for children under the age of 21 are covered in the State Plan pursuant to the EPSDT benefit.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

- Non-Profit Agencies
- Licensed Psychologists
- Licensed Certified Social Workers
- Registered Nurses
- Home Health Agencies
- Professional Fiduciary

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, skilled nursing facility, Emergency Department services.

Nursing Facility Transition/Diversion to Assisted Living Facilities, such as Residential Care Facilities for Elderly and Adult Residential Facilities

DESCRIPTION/OVERVIEW

Nursing Facility Transition/Diversion services assist individuals to live in the community and/or avoid institutionalization when possible.

The goal is to both facilitate nursing facility transition back into a home-like, community setting and/or prevent skilled nursing admissions for beneficiaries with an imminent need for nursing facility level of care (LOC). Individuals have a choice of residing in an assisted living setting as an alternative to long-term placement in a nursing facility when they meet eligibility requirements.

The assisted living provider is responsible for meeting the needs of the participant, including Activities of Daily Living (ADLs) Instrumental ADLs (IADLs), meals, transportation, medication administration and skilled nursing, as needed.

For individuals who are transitioning from a licensed health care facility to a living arrangement in a Residential Care Facilities for Elderly & Adult (RCFE) and Adult Residential Facilities (ARF); includes non-room and board costs (medical, assistance w/ ADL). Allowable expenses are those necessary to enable a person to establish a community facility residence that does not include room and board and includes:

1. Assessing the participant's housing needs and presenting options.[13]
2. Assessing the service needs of the participant to determine if the participant needs enhanced onsite services at the RCFE/ARF in order for the client to be safely and stably housed in an RCFE/ARF.
3. Assisting in securing a facility residence, including the completion of facility applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
4. Communicating with facility administration and coordinating the move.
5. Establishing procedures and contacts to retain facility housing.
6. Coordinating with the Medi-Cal managed care plan to ensure that the needs of participants who need enhanced services to be safely and stably housed in RCFE/ARF settings have in lieu of services and/or enhanced care management services that provide the necessary enhanced services or fund RCFE/ARF operator directly to provide enhanced services.

Eligibility (Population Subset)

[13] Refer to Housing Transition/Navigation Services In Lieu of Services for additional details.

A. For Nursing Facility Transition:
   1. Has resided 60+ days in a nursing facility;
   2. Willing to live in an assisted living setting as an alternative to a Nursing Facility; and
   3. Able to reside safely in an assisted living facility with appropriate and cost-effective supports.

B. For Nursing Facility Diversion:
   1. Interested in remaining in the community;
   2. Willing and able to reside safely in an assisted living facility with appropriate and cost-effective supports and services; and
   3. Must be currently receiving medically necessary nursing facility LOC or meet the minimum criteria to receive NF LOC services and in lieu of going into a facility, is choosing to remain in the community and continue to receive medically necessary nursing facility LOC services at an Assisted Living Facility.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Individuals are directly responsible for paying their own living expenses.

Licensing/Allowable Providers

- Case management agencies
- Home Health agencies
- Managed care plans
- ARF/RCFE Operators

Medi-Cal managed care plan may utilize other providers but must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal managed care plans shall monitor the provision of all the services included above.

The RCFE/ARFs are licensed and regulated by the California Department of Social Services, Community Care Licensing (CCL) Division.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to skilled nursing facility services.

Community Transition Services/Nursing Facility Transition to a Home

Description/Overview

Community Transition Services/Nursing Facility Transition to a Home assists individuals to live in the community and avoid further institutionalization.

Community Transition Services/Nursing Facility Transition to a Home are non-recurring set-up expenses for individuals who are transitioning from a licensed facility to a living arrangement in a private residence where the person is directly responsible for his or her own living expenses. Allowable expenses are those necessary to enable a person to establish a basic household that do not constitute room and board and include:

1. Assessing the participant's housing needs and presenting options.[14]
2. Assisting in searching for and securing housing, including the completion of housing applications and securing required documentation (e.g., Social Security card, birth certificate, prior rental history).
3. Communicating with landlord, if applicable and coordinating the move.
4. Establishing procedures and contacts to retain housing.
5. Identifying, coordinating, securing or funding non-emergency, non-medical transportation to assist members' mobility to ensure reasonable accommodations and access to housing options prior to transition and on move-in day.
6. Identifying the need for and coordinating funding for environmental modifications to install necessary accommodations for accessibility.[15]
7. Identifying the need for and coordinating funding for services and modifications necessary to enable a person to establish a basic household that does not constitute room and board, such as: security deposits required to obtain a lease on an apartment or home; set-up fees for utilities or service access; first month coverage of utilities, including telephone, electricity, heating and water; services necessary for the individual's health and safety, such as pest eradication and one-time cleaning prior to occupancy; home modifications, such as an air conditioner or heater; and other medically-necessary services, such as hospital beds, Hoyer lifts, etc. to ensure access and reasonable accommodations. [16]

[14] Refer to Housing Transition/Navigation Services In Lieu of Services for additional details.
[15] Refer to Home Modification In Lieu of Services for additional details.
[16] Refer to Housing Deposits In Lieu of Services for additional details.

Eligibility (Population Subset)

1. Currently receiving medically necessary nursing facility LOC services and in lieu of remaining in, the nursing facility setting, is choosing to transition home and continue to receive medically necessary nursing facility LOC services;
2. Has lived 60+ days in a nursing home;
3. Interested in moving back to the community; and
4. Able to reside safely in the community with appropriate and cost-effective supports and services.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- Individuals may not be receiving duplicative support from other State, local or federally funded programs, which should always be considered first, before using Medi-Cal funding.
- Community Transition Services are furnished only to the extent that they are reasonable and necessary.
- Community Transition Services do not include monthly rental or mortgage expense, food, regular utility charges, and/or household appliances or items that are intended for purely diversionary/recreational purposes.
- Community Transition Services are payable up to a total lifetime maximum amount of $X, 000.00. The only exception to the $X,000.00 total maximum is if the participant is compelled to move from a provider-operated living arrangement to a living arrangement in a private residence through circumstances beyond his or her control.
- Community Transition Services must be necessary to ensure the health, welfare and safety of the participant, and without which the participant would be unable to move to the private residence and would then require continued or re-institutionalization.

Licensing/Allowable Providers

1. Case management agencies
2. Home Health agencies

3. Managed care plans

Medi-Cal managed Care plan may utilize other providers but must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal Managed Care plans shall monitor the provision of all the services included above.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to skilled nursing facility.

Personal Care and Homemaker Services

Description/Overview

Personal Care Services and Homemaker Services provided for individuals who need assistance with Activities of Daily Living (ADL) such as bathing, dressing, toileting, ambulation or feeding. Personal Care Services can also include assistance with Instrumental Activities of Daily Living (IADL) such as meal preparation, grocery shopping and money management.

Services provided through the In-Home Support Services (In-Home Supportive Services) program include housecleaning, meal preparation, laundry, grocery shopping, personal care services (such as bowel and bladder care, bathing, grooming and paramedical services), accompaniment to medical appointments and protective supervision for the mentally impaired.

Homemaker/Chore services include help with tasks such as cleaning and shopping, laundry and grocery shopping. Personal Care, Homemaker and Chore programs aids individuals who otherwise could not remain in their homes.

In lieu of services can be utilized:

- Above and beyond any approved county In-Home Supportive Services hours, when additional hours are required and if In-Home Supportive Services benefits are exhausted; and
- As authorized during any In-Home Supportive Services waiting period (member must be already referred to In-Home Supportive Services), up to a maximum of 30 days, if required for immediate member need.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Similar services available through In-Home Supportive Services should always be utilized first. These PCA and Homemaker in lieu of services should only be utilized if appropriate and if additional hours/supports are not authorized by In-Home Supportive Services.

Eligibility (Population Subset)

- Individuals at risk for hospitalization, or institutionalization in a nursing facility
- Individuals with functional deficits and no other adequate support system
- Individuals approved for In-Home Supportive Services. Eligibility criteria can be found at: http://www.cdss.ca.gov/In-Home-Supportive-Services

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

This benefit cannot be utilized in lieu of referring to the In-Home Supportive Services program. Member must be referred to the In-Home Supportive Services program when they meet referral criteria.

If a member has any change in their current condition, they must be referred to In-Home Supportive Services for assessment and determination of additional hours before the plan can begin to cover via in lieu of services.

Licensing/Allowable Providers

- Home health agencies
- County agencies
- Personal care agencies
- AAA (Area Agency on Aging)

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, skilled nursing facility.

Environmental Accessibility Adaptations (Home Modifications)

Description/Overview

Environmental Accessibility Adaptations (also known as Home Modifications) are physical adaptations to a home that are necessary to ensure the health, welfare and safety of the individual, or enable the individual to function with greater independence in the home: without which the participant would require institutionalization.

Examples of environmental accessibility adaptions include:

- Ramps and grab-bars to assist beneficiaries in accessing the home;
- Doorway widening for beneficiaries who require a wheelchair;
- Stair lifts;
- Making a bathroom and shower wheelchair accessible (e.g., constructing a roll-in shower).
- Installation of specialized electric and plumbing systems that are necessary to accommodate the medical equipment and supplies of the beneficiary; and
- Installation and testing of a Personal Emergency Response System (PERS) for persons who are alone for significant parts of the day without a caregiver and who otherwise require routine supervision.

The services are available in a home that is owned, rented, leased or occupied by the individual. For a home that is not owned by the individual, the individual must provide written consent from the owner for the modifications.

When authorizing environmental accessibility adaptations as an in lieu of service, the managed care plan must receive and document:

1. The participant's current primary care physician's order specifying the requested equipment or service;
2. A physical or occupational therapy evaluation and report to evaluate the medical necessity of the requested equipment or service. This should typically come from an entity with no connection to the provider of the requested equipment or service. The physical or occupational therapy evaluation and report should contain at least the following:
    A. An evaluation of the participant and the current equipment needs specific to the participant, describing how/why the current equipment does not meet the needs of the participant;

B. An evaluation of the requested equipment or service that includes a description of how/why it is necessary for the participant *and reduces the risk of institutionalization*. This should also include information on the ability of the participant and/or the primary caregiver to learn about and appropriately use any requested item, and

C. A description of similar equipment used either currently or in the past that has demonstrated to be inadequate for the participant and a description of the inadequacy.

3. Depending on the type of adaptation or modification requested, documentation from the provider of the equipment or service describing how the equipment or service meets the medical needs of the participant, including any supporting documentation describing the efficacy of the equipment. Brochures will suffice in showing the purpose and efficacy of the equipment; however, a brief written evaluation specific to the participant describing how and why the equipment or service meets the needs of the individual will still be necessary;
4. If possible, a minimum of two bids from appropriate providers of the requested service, which itemize the services, cost, labor and applicable warranties; and
5. That a home visit has been conducted to determine the suitability of any requested equipment or service.

Eligibility (Population Subset)

Individuals at risk for institutionalization in a nursing facility

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- This benefit is not meant to replace any other State Plan service. If another State Plan service such as Durable Medical Equipment, is available and would accomplish the same goals of independence and avoiding institutional placement, that service should be used.
- EAAs must be conducted in accordance with applicable State and local building codes.
- Bathroom and bedroom modifications are limited to one of each of those types of rooms in a given house, and entryway modifications are limited to one entryway.

- EAAs may include finishing (e.g., drywall and painting) to return the home to a habitable condition, but do not include aesthetic embellishments.
- Modifications are limited to those that are of direct medical or remedial benefit to the beneficiary and exclude adaptations or improvements that are of general utility to the household such as carpeting, roof repair, central air conditioning, etc. Adaptations that add to the total square footage of the home are excluded except when necessary to complete an adaptation (e.g., to improve entrance/egress to a residence or to configure a bathroom to accommodate a wheelchair).
- Before commencement of the modification, the MCO must provide the owner and beneficiary with written documentation that the modifications are permanent, and that the State is not responsible for removal of any modification if the participant ceases to reside at the residence.
- Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

- The Medi-Cal managed care plan may manage these services directly or may coordinate with an existing Medi-Cal provider to manage the service.
- All EAAs must be performed by an individual holding a California Contractor's License with the exception of a PERS installation, which may be performed in accordance with the system's installation requirements.
- Area Agency on Aging (AAA) can provide these services.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to nursing facility services.

Meals/Medically Tailored Meals

Description/Overview

Malnutrition and poor nutrition can lead to devastating health outcomes, higher utilization and increased costs, particularly among members with chronic conditions. Meals help individuals achieve their nutrition goals at critical times to help them regain and maintain their health. Results include improved member health outcomes, lower hospital readmission rates, a well-maintained nutritional health status and increased member satisfaction.

1. Meals delivered to the home: immediately following discharge from a hospital or nursing home when members are most vulnerable to readmission.
2. Medically-Tailored Meals: meals provided to the member at home that meet the unique dietary needs of those with chronic diseases.

Eligibility (Population Subset)

1. Individuals with chronic conditions: diabetes, cardiovascular disorders, congestive heart failure, stroke, chronic lung disorders, human immunodeficiency virus (HIV), cancer, and chronic or disabling mental health disorders.
2. Individuals being discharged from the hospital or a skilled nursing facility or at high risk of hospitalization or nursing facility placement; or
3. Individuals with intensive care coordination needs.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

- Three medically-tailored meals per day for up to 12 weeks, or longer if medically necessary.
- Meals that are eligible for or reimbursed by alternate programs are not eligible.
- Reimbursement to address food insecurities is not covered.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

- Licensing/Allowable Providers
- Home delivered meal providers
- Area Agencies on Aging
- Nutritional Education Services to help sustain healthy cooking and eating habits
- Meals on Wheels providers

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services.

Sobering Centers

Description/Overview

Sobering centers are alternative destinations for individuals who are found to be publicly-intoxicated (alcohol and/or drug) and would otherwise be transported to the emergency department or jail. Sobering centers provide these individuals, primarily those who are homeless or those with unstable living situations, with a safe, supportive environment to become sober.

Sobering centers provide services such as medical triage, lab testing, a temporary bed, rehydration and food service, treatment for nausea, wound and dressing changes, shower and laundry facilities, substance use education and counseling, and homeless care support services.

- The service also includes screening and linkage to ongoing supportive services such as follow-up mental health and substance use disorder treatment and housing options, as appropriate.
- This service requires partnership with law enforcement, emergency personnel, and outreach teams to identify and divert individuals to Sobering Centers.
- The services provided should utilize best practices for clients who are homeless and who have complex health and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma Informed Care.

Eligibility (Population Subset)

Individuals age 18 and older who are intoxicated but conscious, cooperative, able to walk, nonviolent, free from any medical distress (including life threatening withdrawal symptoms or apparent underlying symptoms) and who would otherwise be transported to the emergency department or a jail or who presented at an emergency department and are appropriate to be diverted to a Sobering Center.

Restrictions/Limitations

In lieu of services are alternative services covered under the State Plan but are delivered by a different provider or in a different setting than is described in the State Plan. An in lieu of services can only be covered if: 1) the State determines it is medically-appropriate and a cost-effective substitute or setting for the State plan service, 2) beneficiaries are not required to use the in lieu of services and 3) the in lieu of services is authorized and identified in the Medi-Cal managed care plan contracts.

This benefit is covered for a duration of less than 24 hours.

Individuals may not be receiving duplicative support from other State, local or federally-funded programs, which should always be considered first, before using Medi-Cal funding.

Licensing/Allowable Providers

- Sobering Centers, or other appropriate and allowable substance use disorder facilities
- These facilities are unlicensed. Medi-Cal managed care plans must apply minimum standards to ensure adequate experience and acceptable quality of care standards are maintained. Medi-Cal managed care plans shall monitor the provision of all the services included above.
- All allowable providers must be approved by the managed care organization to ensure adequate experience and appropriate quality of care standards are maintained.

State Plan Service(s) to Be Avoided

Examples of State Plan services to be avoided include but are not limited to: Inpatient and Outpatient Hospital services, Emergency Department services, Emergency Transportation services.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

14. Consider Authorizing Reallocation of Intergovernmental Transfer Funds Previously Allocated for Recuperative Care to Housing Supportive Services; Consider Authorizing Contract(s) and/or Contract Amendment(s) with the County of Orange for Implementation

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. Authorize reallocation of $2.5 million from the $10 million previously allocated IGT 6 and 7 funds of the total of $11 million allocated for recuperative care and medical respite program to housing supportive services for CalOptima Medi-Cal members;
2. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to
    a. Amend CalOptima's current agreement with the County of Orange as necessary to allow for reallocation of funds previously allocated to recuperative care for CalOptima members under the County's Whole Person Care (WPC) Pilot Program; and
    b. Enter into a new agreement or amend CalOptima's current agreement with the County of Orange to include housing supportive services for qualifying CalOptima members.

Background

The WPC Pilot is an Orange County-operated pilot program, administered by the Orange County Health Care Agency (OCHCA), that has and continues to develop infrastructure and integrate systems of care to coordinate services for vulnerable Medi-Cal beneficiaries experiencing homelessness. The County of Orange's WPC Pilot application was approved by the Department of Health Care Services (DHCS) in October 2016 and coordinates physical, behavioral health, and social services in a patient-centered approach with the goals of improved and health and well-being through more effective use of resources. The WPC Pilot provides housing supportive services which includes housing navigation and tenancy sustaining services. Additional funding was provided to the WPC Pilot in January 2019 allocating funds specifically to expand existing WPC housing navigation and supportive services for persons living with serious mental illness as well as implement these services for persons who do not have a connection to OCHCA Behavioral Health Services. The WPC Pilot also includes provisions for recuperative care services for up to a maximum of 90 days based on medical need. Recuperative care service is post-acute care for homeless Medi-Cal members who are too ill or frail to recover from a physical illness or injury on the streets, but who do not meet the medical necessity criteria for continued inpatient care and are appropriate for discharge to home.

In May 2017, CalOptima received payment from DHCS for the IGT 6 and 7 transactions and confirmed CalOptima's total share to be approximately $31.1 million. Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. DHCS approved use of IGT 6 and IGT 7 funds to provide enhanced services to CalOptima Medi-Cal members in the following areas: opioid overuse, homeless health care access, children's mental health, adult mental health, childhood obesity, strengthening the

Back to Agenda

safety net, children's health, older adult health and other areas as identified by a member health needs assessment.

During the August 2, 2018 CalOptima Board of Directors (Board) meeting, the following four focus areas to support community-based organizations through one-time competitive grants where approved: 1) Opioid and Other Substance Overuse; 2) Children's Mental Health; 3) Homeless Health; and, 4) Community needs identified by the CalOptima Member Health Needs Assessment. While community proposals were solicited, the Board made a grant allocation of up to $10 million from IGT 6 and 7 Homeless Health priority area to provide recuperative care services for CalOptima members experiencing homelessness under the County's WPC Pilot in addition to the $1 million earlier allocated for recuperative care for CalOptima members experiencing homelessness and being discharged from a hospital setting. On April 4, 2019 the Board authorized reallocation of $250,000 from the $10 million IGT 6 and 7 recuperative care fund towards a Medical Respite Program for CalOptima Medi-Cal members meeting medical criteria beyond the 90 days available for recuperative care through the WPC Pilot.

On October 28, 2019 DHCS released the initial CalAIM proposal. While this proposal may be further refined prior to implementation, as proposed, it could significantly impact the future Medi-Cal delivery system. One proposed impact would be for Medi-Cal managed care plans, including CalOptima, to provide recuperative care as an In Lieu of Service potentially beginning as soon January 1, 2021. The County of Orange has determined that of the $9.75 million IGT 6 and 7 funding allocated by the CalOptima Board towards recuperative care, at least $2.5 million dollars can be reallocated toward other services without impacting the availability of recuperative care services for CalOptima members.

Discussion

Housing supportive services encompass housing navigation and sustaining services that include client assessments to identify barriers to housing placement and working with both landlords and members to sustain tenancy. Housing supportive services are incorporated into the member's individualized care plan that integrates all physical, behavioral, and social service needs. This member-centric supportive approach assists the individual to integrate into community-based settings which enhances their ability to be a good neighbor to the rest of the community.

The County of Orange provides housing supportive services to those who quality for the WPC Pilot and/or are linked to the County's Behavioral Health Services Program; however, there continue to be individuals who do not quality for services through these programs. In November 2019, OCHCA established a funding pool which is intended to address funding gaps for those needing but not receiving housing supportive services. In order to support these efforts, CalOptima staff recommends reallocating up to $2.5 million in IGT 6 and 7 funds previously allocated for recuperative care for CalOptima members to housing supportive services for CalOptima members. As proposed, these reallocated IGT 6 and 7 funds would be available to reimburse the OCHCA for housing supportive services provided to CalOptima members receiving services through WPC once WPC funding has been exhausted, or for CalOptima members not receiving services through WPC but in need of housing supportive services. CalOptima members enrolled in the Health Homes Program would be excluded as CalOptima is

coordinating with OCHCA to develop a separate agreement for members enrolled in the Health Homes Program.

The County of Orange contracts with vendors to provide housing supportive services. Services contracted vendors are required to provide, when appropriate, include but are not limited to the following:

- Match WPC clients with a housing voucher to appropriate housing resources or provide navigation services to those who do not have housing vouchers;
- Act as a liaison in collaboration with and between the WPC client and landlord;
- Transport or arrange for transportation of WPC clients to potential housing placement opportunities;
- Assist with the housing application process;
- Secure reasonable letters of support as needed;
- Ensure that the WPC client has a security deposit for housing and utilities;
- Ensure that the WPC client becomes a resident after housing placement;
- Arrange for utilities to be turned on;
- Educate WPC clients on housekeeping issues and "good neighbor" issues such as maintenance, community living, and independent living skills;
- Coach WPC clients in order to have successful interactions when meeting with potential property managers, and prepare them for placement; and
- Link WPC clients to peer mentoring and other sustainability services for ongoing support in an effort to further ensure housing sustainability.

Contracted housing supportive services vendors are approved and reimbursed for six months on a per member per month capitated basis. Individuals are reevaluated every six months and services continue until it is determined that the individual no longer requires housing supportive services. As proposed, CalOptima would reimburse the County for housing supportive services provided to qualifying CalOptima members on a per member per month basis.

Fiscal Impact

The recommended actions to authorize reallocation of up to $2.5 million in IGT 6 and 7 funds to housing supportive services for qualifying CalOptima members has no fiscal impact to CalOptima's Fiscal Year 2019-20 Operating Budget approved by the Board on June 6, 2019. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal health plan for Orange County, collaborates with our provider, community, and county partners to address the healthcare needs of CalOptima members and work to improve the availability, access, and quality of health care services.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 7, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

10. Consider Authorizing a Grant to the Orange County Health Care Agency in Conjunction with the County's Whole Person Care Pilot of Intergovernmental Transfer (IGT) Funds Previously Allocated to Reimburse Hospitals for Qualifying Recuperative Care for CalOptima Members

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve updated expenditure plan for remaining Intergovernmental Transfers (IGT) 2 and 3 recuperative care program funds, in an amount not to exceed $619,300, less any recuperative care funds paid from this pool to hospitals subsequent to July 31, 2017;
2. Authorize the Chief Executive Officer (CEO), with the assistance of legal counsel, to enter into a grant agreement with the Orange County Health Authority (OCHCA) to utilize remaining IGT 2 and 3 Recuperative Care IGT project funds for recuperative care under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members; and
3. Authorize expanded use of the above-referenced CalOptima IGT recuperative care funds to include CalOptima Medi-Cal members referred to the County's recuperative care services program from a broader range of settings, including but not limited to, nursing homes and clinics and from public health nurses, in addition to those referred from the CalOptima contracted hospital setting, subject to amendment of the Department of Health Care Services (DHCS)/County of Orange WPC Pilot Contract ("DHCS/County Contract"), or other written approval from DHCS, reflecting this broader range of settings.

Background

Recuperative Care is a program that provides short-term shelter with medical oversight and case management to homeless persons who are recovering from an acute illness or injury and whose conditions would be exacerbated by living on the street.

At its December 4, 2014, and October 1, 2015, meetings, the CalOptima Board of Directors authorized the expenditure of IGT funds for recuperative care services for Medi-Cal members and amendment of hospital contracts to facilitate referrals to and limited reimbursement for recuperative care services. As a result, CalOptima currently provides reimbursement to contracted hospitals for recuperative care services at a rate of up to $150 per day for up to 15 days per member. The total amount of IGT funds that have been allocated for recuperative care is $1,000,000, with $500,000 from IGT 2 and $500,000 from IGT 3. The program launched in May 2015 and as of July 31, 2017, $380,700 has been spent.

The current CalOptima recuperative care program is available for homeless CalOptima members immediately upon discharge from an inpatient hospitalization or emergency room visit and includes: temporary shelter, medical oversight, case management/social services, meals and supplies, referral to safe housing or shelters upon discharge, and communication and follow-up with referring hospitals.

Back to Agenda

On December 30, 2015, DHCS received approval from the Centers for Medicaid & Medicare Services (CMS) for the renewal of the state's Medi-Cal Section 1115 waiver program. The renewal waiver, known as Medi-Cal 2020, includes up to $6.2 billion of federal funding and extends the waiver for five years, from December 30, 2015, to December 31, 2020. One of the provisions of Medi-Cal 2020 is the Whole Person Care Pilot, a county-run program that is intended to develop infrastructure and integrate systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries.

Since the beginning of 2016, OCHCA has collaborated with other county agencies, hospitals, community clinics, community-based organizations, CalOptima and others to design and submit an application to DHCS for WPC in Orange County. The WPC application, approved by DHCS in October 2016, includes provisions for recuperative care. The WPC recuperative care program serves CalOptima members discharged from hospitals (inpatient stays and emergency room visits) and skilled nursing facilities, as well as those directly referred from clinics and OCHCA public health nurses. The DHCS/County Contract, executed in June 2017, states that "if the beneficiary is being admitted into recuperative care directly from a hospital contracted with CalOptima, CalOptima will pay [assuming available funds] for up to 15 days of recuperative care, depending on the medical need. The WPC will pick up payment for recuperative/respite care after CalOptima stops payment up to day 90 of the beneficiary's stay. If the beneficiary is admitted from a non-hospital setting, then the WPC pilot will be responsible for reimbursement for the entire 90-day stay."

Discussion

WPC Pilots must include strategies to increase integration among county agencies, health plans, providers, and other entities within each participating county. Orange County's WPC Pilot is intended to focus on improving outcomes for participants who are homeless and frequently visit local hospital emergency departments. By leveraging existing programs and offering new and enhanced services, the intent of the WPC pilot is to improve access to medical care, social services and housing for participants. Over the course of the program, the WPC Pilot is expected to reduce emergency department and hospital visits, increase visits to primary care/other providers and help participants find permanent housing.

Recuperative care is a critical component of Orange County's WPC Pilot. Depending on member need, as determined on a case-by-case basis, the County's recuperative care program will be responsible for paying for recuperative care services for up to 90 days and is available for homeless Medi-Cal members being discharged from hospitals and skilled nursing facilities. Further, it is available to homeless Medi-Cal members referred by a clinic or public health nurses who might otherwise go to the hospital for care that could be provided in a residential or clinic setting. As indicated above, pursuant to the terms of the DHCS/County Contract, funds provided by CalOptima are only being used for up to the first 15 days of WPC services to Medi-Cal beneficiaries who are being admitted into recuperative care directly from a hospital contracted with CalOptima.

Hospitals currently participating in CalOptima's recuperative care IGT initiative have entered into a Recuperative Care addenda to their existing CalOptima contracts. This allows hospitals to receive reimbursement from CalOptima for up to 15 days of recuperative care at up to $150 per day. As proposed, staff is seeking authority to redirect remaining CalOptima IGT 2 and 3 recuperative care

Back to Agenda

funding from CalOptima's existing hospital-based program to the County's WPC program. While the WPC permits stays of up to 90 days, the County must "pick up payment for recuperative/respite care after CalOptima stops payment." Consistent with the WPC Pilot, CalOptima would continue to make the IGT funds allocated for recuperative care available up to a maximum of $150/day for up to 15 days per member for qualifying members transitioning to recuperative care from a hospital setting, contingent upon member need and availability of funds, pursuant to the program approved by DHCS. Qualifying recuperative care services resulting from referrals from skilled nursing facilities, clinics, and public health nurses are currently the financial responsibility of the County, and the current DHCS/County Contract indicates that CalOptima is not involved in funding recuperative care services for Members entering recuperative care from these settings.

Staff seeks authority to enter into a grant agreement with the County to redirect the remaining available IGT 2 and 3 recuperative care funds to the County's recuperative care program as discussed above. As a part of the grant agreement, the reimbursement process for recuperative care will be changed. Hospitals will no longer be expected to directly pay for and then seek reimbursement from CalOptima for referrals of homeless CalOptima members to recuperative care. As proposed, OCHCA will invoice CalOptima for up to the first 15 days of recuperative care services referred from a hospital or emergency room (at a rate of up to $150/day).

Once the grant agreement with the County is in place, CalOptima contracted hospitals will no longer be eligible to obtain reimbursement for recuperative care services from CalOptima for the duration of the WPC Pilot. However, until such time, to the extent that funds remain available, CalOptima will continue to reimburse hospitals that bill CalOptima directly for reimbursement for qualifying members. CalOptima and OCHCA staff will coordinate and maintain processes to ensure no duplication of payments.

As indicated, CalOptima funding for the program is limited to those funds remaining from those allocated to the existing CalOptima recuperative care program operated through its contracted hospitals, and invoice payments will be made only until those funds are exhausted.

Potential Broadening of Eligibility Categories. While the current DHCS/County Contract specifies that CalOptima funds are to be used exclusively for homeless members discharged from CalOptima-contracted hospitals to a recuperative care setting, the County is proposing to allow for the use of CalOptima funds for services to members admitted to recuperative care from other settings including skilled nursing facilities and clinics and by public health nurses, in addition to members referred from contracted hospitals. This proposed approach could increase the flexibility in administration of the program, and broaden the range of members covered by the allocated funding. Staff is requesting, subject to amendment of the DHCS/County Contract, that the Board authorize broader use of the remaining IGT 2 and 3 funds allocated for recuperative care, consistent with an amendment of the DHCS/County Contract, or other written approval from DHCS, allowing such use of CalOptima funds. As proposed, the maximum $150 daily payment rate and 15 day maximum stay currently applicable to referrals from contracted hospitals would also apply to referrals from such additional sources.

Back to Agenda

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Of the $1.0 million in IGT funds approved by the Board for recuperative care, remains available as of July 31, 2017. Payments for recuperative care services provided under this staff recommendation are contingent upon availability of existing IGT funds. Any additional funding for recuperative care would require future Board consideration and approval. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working "Better. Together." CalOptima, as the community health plan for Orange County, is committed to working with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services for Medi-Cal members.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 4, 2014
Regular Meeting of the CalOptima Board of Directors

Report Item

VII. F. Authorize Expenditure of Intergovernmental Transfer (IGT) Funds for Post Acute Inpatient Hospital Recuperative Care for Members Enrolled in CalOptima Medi-Cal; Authorize Amendments to CalOptima Medi-Cal Hospital Contracts as Required for Implementation

Contact

Javier Sanchez, Chief Network Officer, (714) 246-8400

Recommended Actions

1. Authorize expenditures of up to $500,000 in Fiscal Year (FY) 2011- 12 Intergovernmental Transfer Funds (IGT 2) for the provision of Recuperative Care to homeless members enrolled in CalOptima Medi-Cal after discharge from an acute care hospital facility, subject to required regulator approval(s), if any; and
2. Authorize the Chief Executive Officer (CEO), with the assistance of legal counsel, to amend Medi-Cal Hospital contracts covering Shared Risk Group, Physician Hospital Consortia, CalOptima Direct and CalOptima Care Network members, to include Recuperative Care services.

Revised 12/4/14

Background

At the November 6, 2014 meeting of the CalOptima Board of Directors, staff presented an overview of a proposed program to provide acute and post-acute medical care for homeless persons who are too ill or frail to recover from a physical illness or injury on the streets but who are not ill enough to be hospitalized. This program is to be funded with IGT 2 revenue.

Recuperative care currently exists in Orange County and received partial funding from the MSI program. With Medi-Cal expansion, many of the MSI members were transitioned to CalOptima and no longer have access to these services.

Proposed services to be included in the Recuperative Care Program include: housing in a motel; nurse-provided medical oversight; case management/social services; food and supplies; warm handoff to safe housing or shelters upon discharge; and communication and follow-up with referring hospitals.

Staff now requests the Board authorize the expenditure of IGT 2 funding for recuperative care services for Medi-Cal members and amending hospital contracts to facilitate referrals to and payment of this program.

Discussion

Staff requests authority by the Board of Directors to allocate up to $500,000 of IGT 2 funds to a Recuperative Care services funding pool. Funding is a continuation of IGT 1 initiatives intended to reduce hospital readmissions and reduce inappropriate emergency room use by CalOptima members experiencing homelessness.

Back to Agenda

CalOptima staff proposes to amend existing hospital contracts to allow reimbursement for hospital discharges for recuperative care services for Medi-Cal homeless members that qualify for such service. Hospitals will be required to contract and refer homeless members who can benefit from this service to a Recuperative Care provider of the hospital's choice. The hospital will facilitate the transfer of the members to the appropriate Recuperative Care provider. The referring hospital will pay the Recuperative Care provider for services rendered based on need to facilitate a safe hospital discharge as determined by the hospital and the provider.

Contracted hospitals will be required to invoice CalOptima for services rendered, CalOptima will, in turn, reimburse contracted hospitals from the Recuperative Care fund pool for services rendered. Reimbursement by CalOptima to hospitals for Recuperative Care services will stop when the $500,000 recuperative services pool has been depleted. Staff will provide oversight of the program and will implement a process to track the utilization of funds.

Fiscal Impact

A total of up to $500,000 in IGT 2 funds are proposed for this initiative. Based on an estimate of $150 per day for recuperative for up to a 10 day stay per member, this funding is expected to fund approximately 330 cases. The proposed funding level is a cap. If exhausted prior to the end of FY 2014-15, no additional funding for recuperative care will be available without further Board approval. Should the proposed IGT 2 funds not be exhausted on services provided during FY 2014-15, the remaining funds will be carried over to the following fiscal year.

The recommended actions are consistent with the Board's previously identified funding priorities for use of IGT 2 funds. Expenditure of IGT funds is for restricted, one-time purposes, and does not commit CalOptima to future budget allocations

Rationale for Recommendation

With Medi-Cal expansion, CalOptima is serving more members who are homeless. These members experience twice as many readmissions and twice as many inpatient days when discharged to the street rather than to respite or recuperative care. In addition, homeless members remain in acute care hospitals longer rather than being discharged due to a lack of residential beds.

Evaluation by the U.S. Department of Health and Human Services Agency for Healthcare Research and Quality of an existing program administered by the Illumination Foundation, showed: decreased emergency room use; reduced inpatient stays; and stable medical condition for homeless members post discharge. These results are consistent with the IGT 2, as a continuation of IGT 1 funding initiatives, to reduce readmissions to hospitals.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 1, 2015
Regular Meeting of the CalOptima Board of Directors

Report Item

VIII. D. Consider Updated Revenue Expenditure Plans for Intergovernmental Transfer (IGT) 2 and IGT 3 Projects

Contact

Lindsey Angelats, Director of Strategic Development, (714) 246-8400

Recommended Actions

1. Approve updated expenditure plan for IGT 2 projects, including investments in personal care coordinators (PCC), grants to Federally Qualified Health Centers (FQHC), and autism screenings for children, and authorize expenditure of $3,875,000 in IGT 2 funds to support this purpose; and
2. Approve expenditure plan for IGT 3 projects, including investments in recuperative care and provider incentive programs, and authorize expenditure of $4,880,000 in IGT 3 funds to support this purpose, and authorize hospital contract amendments as necessary to implement the proposed modifications to the recuperative care program.

Rev. 10/1/15

Background / Discussion

To date, CalOptima has partnered with the University of California, Irvine (UCI) Medical Center on a total of four IGTs. These IGTs generate funds for special projects that benefit CalOptima members. A progress report detailing the use of funds is attached. Three IGTs have been successfully completed, securing $26.0 million in project funds, and a fourth IGT is pending, which is estimated to secure an additional $5.5 million in project funds. Collectively, the four IGTs represent $31.5 million in available funding. A breakdown of the total amount of IGT funds is listed below:

All IGTs	Total Amount
IGT 1	$12.4 million
IGT 2	$8.7 million
IGT 3	$4.9 million
IGT 4	*$5.5 million**
Total	$31.5 million

*The IGT 4 funds figure is an estimate. These funds have not yet been received by CalOptima.

As part of this proposed action, staff is requesting Board approval of the updated expenditure plan for IGT 2, as well as the expenditure plan for IGT 3. The allocation of these funds will be in accordance with the Board's previously approved funding categories for both IGT 2 and IGT 3, and will support staff-identified projects, as specified.

IGT 2 Updated Expenditure Plan

At its September 4, 2014, meeting, the Board approved the final expenditure plan for IGT 2. Since that time, staff has been able to identify further detailed projects to implement the Board approved allocations. Staff recommends the use of $3,875,000 in IGT 2 funds to support the following projects:

Back to Agenda

- $2,400,000 previously approved for the 'Expansion of IGT 1 Initiatives' will be used to sustain the use of PCCs in the OneCare Connect program in FY 2016-17. Current funding for PCCs expires at the end of the 2015-16fiscal year. This proposed action will extend funding for PCCs for one additional year and allow CalOptima and the health networks to better evaluate the long-term sustainability of PCCs for members.

- $100,000 previously approved for the 'Expansion of IGT 1 Initiatives' will provide IGT project administration and oversight through a full-time staff person and/or consultant for FY 2015-16.

- $875,000 previously approved for 'Children's Health/Safety Net Services' will be used for grant funding for the expansion of behavioral health and dental services at FQHCs and FQHC look-alikes. Grant funding will be awarded to up to five eligible organizations for a two-year period in order to launch the new services.

- $500,000 previously approved for 'Wraparound Services' will be used to support a provider incentive program for autism screenings for children. It is estimated that up to 3,600 screenings could be covered with this funding, in addition to costs of training for providers to deliver the screenings.

- Staff also request a modification to the Board's December 4, 2014 action, which allocated grant funding in support of community health centers. Specifically, staff requests an increase in the maximum threshold for clinic grants from $50,000 up to $100,000. No new funds will be utilized for this change, but this change will allow two existing grantees (Korean Community Services and Livingstone) to double their grant award amounts from $50,000 to $100,000. Staff recommends this modification to address the fact that while the previously approved IGT 2 expenditure plan allowed up to four clinics to receive grants, only the two aforementioned organizations formally submitted grant proposals. If the proposed increase is approved, the additional funds will be used for consulting services to finalize the clinics' FQHC Look-Alike applications as well as upgrades to their IT systems to meet FQHC requirements.

IGT 3 Expenditure Plan

For the $4,865,000 funds remaining under IGT 3, staff proposes to support ongoing projects as follows:

- $4,200,000 to support a pay-for-performance program for physicians serving vulnerable Medi-Cal members, including seniors and person with disabilities (SPD). The program will offer incentives for primary care providers to participate in interdisciplinary care teams and complete an individualized care plan for SPD members, in accordance with CalOptima's Model of Care.

  $500,000 to continue funding and broaden recuperative care for homeless Medi-Cal members. This proposed action would provide an additional investment in recuperative care in addition to the Board's previously approved funding. In addition, going forward, hospitals would be eligible to receive reimbursement for recuperative care for homeless patients following an emergency department visitor observation stay; currently, reimbursement is limited to services following an inpatient stay only. As proposed, the maximum duration for recuperative care will increase from 10 days up to 15 days to more effectively link patients to needed services.

Back to Agenda

These recuperative care services would be made available subject to required regulator approval(s), if any.

- $165,000 to provide IGT project administration and oversight through a full-time Manager, Strategic Development for FY 2016-17. The manager will project manage IGT-funded projects, complete regular progress reports, and submit required documents to DHCS.

Staff is not proposing use of IGT 4 funds at this time, but will return to the Board at a later date for approval of an expenditure plan after funds have been received from the state.

Finally, the requests outlined above have been thoroughly vetted by the CalOptima Member Advisory Committee (MAC) and Provider Advisory Committee (PAC) during their respective meetings on September 10, 2015.

Fiscal Impact
The recommended action implement an updated expenditure plan for the FY 2011-12 IGT is budget neutral. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future expenditures.

The recommended action to approve the expenditure plan of $4,865,000 from the FY 2012-13 IGT is consistent with the general use categories previously approved by the Board on August 7, 2014.

Rationale for Recommendation
Staff recommends approval of the proposed expenditure plans for IGT 2 and IGT 3 in order to continue critical funding support of projects that benefit CalOptima Medi-Cal members by addressing unmet needs. Approval will help ensure the success of ongoing and future IGT projects.

Concurrence
Gary Crockett, Chief Counsel

IGT Progress Report and Proposal

Board of Directors Meeting

October 1, 2015

Lindsey Angelats

Dir, Strategic Development

Back to Agenda

IGTs Completed and In Progress

All IGTs	Fiscal Year Received	CalOptima Amount	% Amount Programmed
IGT 1	12-13	$12.4 M	100%
IGT 2	13-14	$8.7 M	55%
IGT 3	14-15	$4.8 M	0%
IGT 4	15-16*	(Est. $5.5 M)*	NA
Total Funds Received or Anticipated		$31.4 M	

* Transaction has received state and federal approval but funds have not yet been received

Back to Agenda

Considerations for IGT Outstanding Funds

- **New or pending State and Federal initiatives increasingly focused on integration and coordination**
  - 1115 Waiver and Whole Person Care
  - Behavioral Health Integration
  - Health Homes
  - Capitation Pilot for Federally Qualified Health Centers

- **Value in supporting providers serving more vulnerable members with greater needs:** *(examples)*
  - Investment in ICTs for providers serving Seniors and Persons with Disabilities
  - Continuation/expansion of Personal Care Coordinators

IGT Investment Parameters and Requirements

- IGTs must be used to finance enhancements in services for Medi-Cal beneficiaries

- Projects must be one-time investments or as seed capital for new services or initiative, since there is no guarantee of future IGT agreements

Back to Agenda

Recommended Use of IGT 2 Funds ($3.875M Outstanding)

Category	Board Approval Date of Category	Proposed Project	Proposed Investment	Regulatory Driver	Anticipated Impact
Continuation of IGT 1 Initiatives	03/06/14	Sustain Personal Care Coordinators (PCCs) for the One Care Connect program in FY16-17	$2.4M	**Coordinated Care Initiative**	Providers and members receive timely support
Children's Health/Safety Net Services	10/02/14; 12/04/14	Supporting behavioral health and dental service expansion at FQHC and FQHC look-a-likes via one-time competitive grants	$875K	**Alternative Payment Pilot**	FQHCs launch critical services that can be sustained through higher PPS rates
Wraparound Services	8/7/14	Provider incentive for Autism Screening and provider training to promote access to care	$500K	**Autism Benefits in Managed Care**	Earlier identification and treatment for the 1 in 68 children with autism
Continuation of IGT 1 Initiatives	03/06/14	Full-time IGT project administrator/ benefits (pro-rated for 11/1/15 start; represents ~~23%~~ between 2-3% admin costs)	$100K	**Intergovernmental Transfers**	Faster launch of IGT funded projects to support members and physicians

Back to Agenda

Recommended Use of IGT 3 Funds ($4.88M Outstanding)

Regulatory Driver	CalOptima Priority Area	Proposed Project	Proposed Investment	Anticipated Impact
1115 Waiver	**Adult Mental Health**	Continue recuperative care to reduce hospital readmissions by providing safe housing, temporary shelter, food and supplies to homeless individuals	$500K	Support for improved and integrated care for vulnerable members
Integrated Care	**Support Primary Care Access**	Support increased funding (pay for performance) for physicians serving vulnerable members, including Seniors and Persons with Disabilities (ICPs + Integrated Health Assessments for new SPDs)	$4.2M	Support for improved and integrated care for vulnerable members
Intergovernmental Transfers		Full-time IGT project administrator (represents 2% admin costs)	$165K	Faster launch of IGT funded projects to support members and physicians

Recommended Next Steps

- **Timing**
  - November: Development of project plans and launch
- **Accountability**
  - Staff provide quarterly Board reports sharing progress and outcomes for current and new projects; Jan 2016
- **Engagement**
  - Review IGT 4 with PAC/MAC in October; Staff proposes options focus on improved care for those with serious mental illness and support for providers to screen adolescents for depression
- **Maximization/Leverage**
  - ➢ In Fall 2015, staff will pursue additional Funding Entity partnerships with eligible organizations (County, Children and Families Commission, others) to draw down additional funds in 2016, based on recommendation from consultant Mr. Stan Rosenstein

Board of Directors Meeting
October 1, 2015

Intergovernmental Transfer (IGT) Funds Progress Report

Discussion

To date, CalOptima has participated in four IGT transactions with the University of California, Irvine; at this time, IGT 1 and IGT 2 funds are supporting Board-designated projects to improve care for members. Staff presented the following information on the status IGT-funded projects to the Provider Advisory Committee and Member Advisory Committee on September 10, 2015.

IGT 1 Active Projects					
Description	Objective	Budget	Board Action	Duration	% Complete
New Case Management System	To enhance management and coordination of care for vulnerable members	$2M	03/06/14	2 years	75%
Personal Care Coordinators for OneCare members	To help OneCare members navigate healthcare services and to facilitate timely access to care	$3.8M	04/03/14	3 years	50%
OneCare Connect Personal Care Coordinators	To help OneCare Connect members navigate health services and to facilitate timely access to care	$3.6M	04/02/15	1 year	25%
Strategies to Reduce Readmission	To reduce 30-day all cause (non maternity related) avoidable hospital readmissions	$1.05 M	03/06/14	2 years	25%
Complex Case Management Consulting	Staffing and data support for case management system	$350K	03/06/14	2 years	50%
Telemedicine	Expand access to specialty care	$1.1M	03/07/13	2 years	25%
Program for High Risk Children	CalOptima pediatric obesity and pediatric asthma planning and evaluation	$500K	03/06/14	3 years	25%

Back to Agenda

IGT 2 Active Projects					
Description	Objective	Budget	Board Action	Duration	% Complete
Facets System Upgrade & Reconfiguration	Upgrade and reconfigure software system used to manage key aspects of health plan operations, such as claims processing,	$1.25M	03/06/14	2 years	75%
Continuation of the CalOptima Regional Extension Center	Sustain initiative to assist in the implementation of EHRs for individual and small group local providers	$1M	04/03/14	3 years	25%
Enhancing the Safety Net	To assist health centers to apply for and prepare for Federally Qualified Health Center (FQHC) designation or expansion	$200K	10/02/14	2 years	50%
Enhancing the Safety Net	To support an FQHC readiness analysis for community health centers to enhance the Orange County safety net and its ability to serve Medi-Cal beneficiaries	$225K	12/04/14	2 years	25%
Recuperative Care	To help reduce hospital readmissions by providing safe housing, temporary shelter, food and supplies to homeless individuals	$500K	12/04/14	1 year	25%
Facets System Upgrade & Reconfiguration	Upgrade and reconfigure software system used to manage key aspects of health plan operations, such as claims processing,	$1.25M	03/06/14	2 years	75%
School-Based Vision	Increase access to school-based vision, which can be difficult for Medi-Cal beneficiaries to access	$500K	09/04/14	2 years	25%
School-Based Dental	Increase access to school-based dental, which can be difficult for Medi-Cal beneficiaries to access	$400K	09/04/14	2 years	25%
Provider Network Management Solution	Enhance CalOptima's core data systems and information technology infrastructure to facilitate improved member care	$500K	03/06/14	1 year	25%
Security Audit Remediation	To increase protection of CalOptima member data	$200K	03/06/14	1 year	85%

Back to Agenda

Attachment to December 5, 2019 Board of Directors Meeting -- Agenda Item 14

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 4, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

6. Consider Authorizing Establishment of a Post Whole Person Care Pilot Medical Respite Care Program and Reallocation of Intergovernmental Transfer (IGT) 6/7 Funds Previously Allocated for Recuperative Care in Conjunction with the Orange County Health Care Agency Whole Person Care Pilot Program

Contacts

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. Authorize the establishment of a Medical Respite Program for CalOptima members meeting clinical criteria who have exhausted available recuperative care days under the Orange County Health Care Agency (OCHCA) Whole Person Care Pilot (WPC) program; staff to return to the Board for approval of implementing policies, and obtaining state approval, as appropriate;
2. Authorize reallocation of $250,000 to fund the Medical Respite Program from the $10 million previously allocated IGT 6/7 funds for recuperative care in support of the OCHCA WPC program; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend CalOptima's agreement with the County of Orange to allow for reallocation of funds away from the WPC program for medically justified medical respite services for qualifying homeless CalOptima members who have exhausted available recuperative care days under the WPC program.

Background

The WPC is an Orange County-operated pilot program that has and continues to develop infrastructure and integrate systems of care to coordinate services for vulnerable Medi-Cal beneficiaries experiencing homelessness. Orange County's WPC application was approved by the Department of Health Care Services (DHCS) in October 2016 which includes provisions for recuperative care services for up to a maximum of 90 days. Recuperative care service is post-acute care for homeless Medi-Cal members who are too ill or frail to recover from a physical illness or injury on the streets, but who do not meet the medical necessity criteria for continued inpatient care and are appropriate for discharge to home.

In May 2017, CalOptima received payment from DHCS for the IGT 6 and 7 transactions and confirmed CalOptima's total share to be approximately $31.1 million. Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. DHCS approved use of IGT 6 and IGT 7 funds to support programs addressing the following areas: Community health investments which may include programs addressing opioid overuse, homeless health care access, children's mental health, adult mental health, childhood obesity, strengthening the safety net, children's health, older adult health and other areas as identified by a member health needs assessment. At the August 2, 2018 Board of Directors meeting, the following four focus areas to support community-based organizations through one-time competitive grants where approved: 1) Opioid and Other Substance Overuse; 2) Children's Mental Health; 3) Homeless Health; and, 4) Community needs identified by the CalOptima Member Health Needs Assessment. A grant allocation of up to $10 million was approved from IGT 6 and 7 Homeless Health priority area to provide recuperative care services for homeless CalOptima members under the WPC

Back to Agenda

pilot. The funds are currently designated for funding 50 percent of medically justified recuperative care bed days up to a maximum of 90 days per homeless CalOptima member, to the extent that funds remain available. The CalOptima Board of Directors also approved an amendment of the agreement with the County of Orange to include indemnity language and allowing for use of the allocated funds for recuperative care services under the County's WPC Pilot program for qualifying homeless CalOptima members.

Discussion

Since 2016, the OCHCA has collaborated with CalOptima and other community-based organizations, community clinics, hospitals, and county agencies to design and implement the WPC Pilot program. The recuperative care element of the WPC pilot is a critical component of the program. During calendar year 2018, the WPC recuperative care program provided services to 487 unique CalOptima members experiencing homelessness. Between August and December 2018, the average length of stay for these individuals was 34 days, at a cost of $705,250.

As part of evaluating the progress of the WPC pilot program, it has been identified though discussions with OCHCA that some CalOptima members have circumstances that are expected to require a stay beyond the 90 days that are available under the scope of the WPC pilot. These members, such as those who have been certified for hospice care or need intravenous (IV) chemotherapy but do not qualify for transition to skilled nursing care, may benefit from medical respite care beyond the 90 days of recuperative care.

To address this concern, CalOptima staff, with the support of OCHCA WPC staff, and consistent with the approved IGT 6/7 funding categories, is proposing to develop a Medical Respite Program for CalOptima members who need extended medical care beyond the 90 days as provided under the current scope of the WPC Pilot to achieve and maintain medical stability. Staff is in the process of developing policies related to the proposed medical respite program, the purpose of which is to provide short-term residential care to allow individuals with unstable living situations the opportunity to rest in a safe and clean environment while accessing medical care and other supportive services. In addition to providing post-acute care and clinical oversight, medical respite care seeks to improve transitional care for the population and to aid in ending the cycle of homelessness while also gaining stability with case management relationships and programs. As appropriate, staff will seek state approval of this new Medical Respite Program, which is intended to support homeless CalOptima members as they recover and attain medical stability, or in the case of members in hospice, to receive services in a stable environment care. The additional time beyond the days available through the County's WPC program is intended to reduce inappropriate and/or avoidable utilization of hospital Emergency Departments, inpatient admissions and re-admissions.

CalOptima Members nearing the end of their available recuperative days in the WCP program will be evaluated on a case-by-case basis and will need approval by County WPC staff, County Medical Safety Net (MSN) program nurses and CalOptima to be eligible for the Medical Respite Program. Regular reviews and updates will be conducted by the MSN program nurses to ensure that 1) Members do not stay longer than appropriate and 2) Members receive appropriate care to achieve and maintain medical

stability and steps to move to a skilled nursing facility (SNF), if appropriate. It is anticipated that approximately two members per month will meet criteria to receive medical respite care. CalOptima will monitor utilization and member outcomes.

In addition, staff is seeking authority to reallocate $250,000 out of the $10 million the Board allocated to OCHCA WPC program for recuperative care to fund the Medical Respite Program. In other words, no new funding is being proposed. Instead, the recommendation for authority is to redirect dollars previously committed for recuperative care for homeless CalOptima members in coordination with the County's WPC program. Staff is also seeking authority to provide the OCHCA with reimbursement for the full cost of the Medical Respite Program stay at $120 per day, for all bed days beyond the WPC Pilot recuperative care program, not to exceed the requested reallocation amount of $250,000. The OCHCA supports the recommended actions and plans to continue to invoice CalOptima for members in the Medical Respite Program via a similar process such as the already established invoicing process for recuperative care. The funds will be available through the end of the WPC Pilot or until the funds are exhausted, whichever comes first.

Fiscal Impact

The recommended actions to authorize the creation of a Medical Respite Program for CalOptima members and to authorize a reallocation of $250,000 from the $10 million IGT allocation to Orange County Health Care Agency (OCHCA) for recuperative care services, previously approved by the Board on August 2, 2018, has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Action To Be Taken September 7, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

10. Consider Authorizing a Grant to the Orange County Health Care Agency in Conjunction with the County's Whole Person Care Pilot of Intergovernmental Transfer (IGT) Funds Previously Allocated to Reimburse Hospitals for Qualifying Recuperative Care for CalOptima Members

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve updated expenditure plan for remaining Intergovernmental Transfers (IGT) 2 and 3 recuperative care program funds, in an amount not to exceed $619,300, less any recuperative care funds paid from this pool to hospitals subsequent to July 31, 2017;
2. Authorize the Chief Executive Officer (CEO), with the assistance of legal counsel, to enter into a grant agreement with the Orange County Health Authority (OCHCA) to utilize remaining IGT 2 and 3 Recuperative Care IGT project funds for recuperative care under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members; and
3. Authorize expanded use of the above-referenced CalOptima IGT recuperative care funds to include CalOptima Medi-Cal members referred to the County's recuperative care services program from a broader range of settings, including but not limited to, nursing homes and clinics and from public health nurses, in addition to those referred from the CalOptima contracted hospital setting, subject to amendment of the Department of Health Care Services (DHCS)/County of Orange WPC Pilot Contract ("DHCS/County Contract"), or other written approval from DHCS, reflecting this broader range of settings.

Background

Recuperative Care is a program that provides short-term shelter with medical oversight and case management to homeless persons who are recovering from an acute illness or injury and whose conditions would be exacerbated by living on the street.

At its December 4, 2014, and October 1, 2015, meetings, the CalOptima Board of Directors authorized the expenditure of IGT funds for recuperative care services for Medi-Cal members and amendment of hospital contracts to facilitate referrals to and limited reimbursement for recuperative care services. As a result, CalOptima currently provides reimbursement to contracted hospitals for recuperative care services at a rate of up to $150 per day for up to 15 days per member. The total amount of IGT funds that have been allocated for recuperative care is $1,000,000, with $500,000 from IGT 2 and $500,000 from IGT 3. The program launched in May 2015 and as of July 31, 2017, $380,700 has been spent.

The current CalOptima recuperative care program is available for homeless CalOptima members immediately upon discharge from an inpatient hospitalization or emergency room visit and includes: temporary shelter, medical oversight, case management/social services, meals and supplies, referral to safe housing or shelters upon discharge, and communication and follow-up with referring hospitals.

Back to Agenda

On December 30, 2015, DHCS received approval from the Centers for Medicaid & Medicare Services (CMS) for the renewal of the state's Medi-Cal Section 1115 waiver program. The renewal waiver, known as Medi-Cal 2020, includes up to $6.2 billion of federal funding and extends the waiver for five years, from December 30, 2015, to December 31, 2020. One of the provisions of Medi-Cal 2020 is the Whole Person Care Pilot, a county-run program that is intended to develop infrastructure and integrate systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries.

Since the beginning of 2016, OCHCA has collaborated with other county agencies, hospitals, community clinics, community-based organizations, CalOptima and others to design and submit an application to DHCS for WPC in Orange County. The WPC application, approved by DHCS in October 2016, includes provisions for recuperative care. The WPC recuperative care program serves CalOptima members discharged from hospitals (inpatient stays and emergency room visits) and skilled nursing facilities, as well as those directly referred from clinics and OCHCA public health nurses. The DHCS/County Contract, executed in June 2017, states that "if the beneficiary is being admitted into recuperative care directly from a hospital contracted with CalOptima, CalOptima will pay [assuming available funds] for up to 15 days of recuperative care, depending on the medical need. The WPC will pick up payment for recuperative/respite care after CalOptima stops payment up to day 90 of the beneficiary's stay. If the beneficiary is admitted from a non-hospital setting, then the WPC pilot will be responsible for reimbursement for the entire 90-day stay."

Discussion

WPC Pilots must include strategies to increase integration among county agencies, health plans, providers, and other entities within each participating county. Orange County's WPC Pilot is intended to focus on improving outcomes for participants who are homeless and frequently visit local hospital emergency departments. By leveraging existing programs and offering new and enhanced services, the intent of the WPC pilot is to improve access to medical care, social services and housing for participants. Over the course of the program, the WPC Pilot is expected to reduce emergency department and hospital visits, increase visits to primary care/other providers and help participants find permanent housing.

Recuperative care is a critical component of Orange County's WPC Pilot. Depending on member need, as determined on a case-by-case basis, the County's recuperative care program will be responsible for paying for recuperative care services for up to 90 days and is available for homeless Medi-Cal members being discharged from hospitals and skilled nursing facilities. Further, it is available to homeless Medi-Cal members referred by a clinic or public health nurses who might otherwise go to the hospital for care that could be provided in a residential or clinic setting. As indicated above, pursuant to the terms of the DHCS/County Contract, funds provided by CalOptima are only being used for up to the first 15 days of WPC services to Medi-Cal beneficiaries who are being admitted into recuperative care directly from a hospital contracted with CalOptima.

Hospitals currently participating in CalOptima's recuperative care IGT initiative have entered into a Recuperative Care addenda to their existing CalOptima contracts. This allows hospitals to receive reimbursement from CalOptima for up to 15 days of recuperative care at up to $150 per day. As proposed, staff is seeking authority to redirect remaining CalOptima IGT 2 and 3 recuperative care

Back to Agenda

funding from CalOptima's existing hospital-based program to the County's WPC program. While the WPC permits stays of up to 90 days, the County must "pick up payment for recuperative/respite care after CalOptima stops payment." Consistent with the WPC Pilot, CalOptima would continue to make the IGT funds allocated for recuperative care available up to a maximum of $150/day for up to 15 days per member for qualifying members transitioning to recuperative care from a hospital setting, contingent upon member need and availability of funds, pursuant to the program approved by DHCS. Qualifying recuperative care services resulting from referrals from skilled nursing facilities, clinics, and public health nurses are currently the financial responsibility of the County, and the current DHCS/County Contract indicates that CalOptima is not involved in funding recuperative care services for Members entering recuperative care from these settings.

Staff seeks authority to enter into a grant agreement with the County to redirect the remaining available IGT 2 and 3 recuperative care funds to the County's recuperative care program as discussed above. As a part of the grant agreement, the reimbursement process for recuperative care will be changed. Hospitals will no longer be expected to directly pay for and then seek reimbursement from CalOptima for referrals of homeless CalOptima members to recuperative care. As proposed, OCHCA will invoice CalOptima for up to the first 15 days of recuperative care services referred from a hospital or emergency room (at a rate of up to $150/day).

Once the grant agreement with the County is in place, CalOptima contracted hospitals will no longer be eligible to obtain reimbursement for recuperative care services from CalOptima for the duration of the WPC Pilot. However, until such time, to the extent that funds remain available, CalOptima will continue to reimburse hospitals that bill CalOptima directly for reimbursement for qualifying members. CalOptima and OCHCA staff will coordinate and maintain processes to ensure no duplication of payments.

As indicated, CalOptima funding for the program is limited to those funds remaining from those allocated to the existing CalOptima recuperative care program operated through its contracted hospitals, and invoice payments will be made only until those funds are exhausted.

Potential Broadening of Eligibility Categories. While the current DHCS/County Contract specifies that CalOptima funds are to be used exclusively for homeless members discharged from CalOptima-contracted hospitals to a recuperative care setting, the County is proposing to allow for the use of CalOptima funds for services to members admitted to recuperative care from other settings including skilled nursing facilities and clinics and by public health nurses, in addition to members referred from contracted hospitals. This proposed approach could increase the flexibility in administration of the program, and broaden the range of members covered by the allocated funding. Staff is requesting, subject to amendment of the DHCS/County Contract, that the Board authorize broader use of the remaining IGT 2 and 3 funds allocated for recuperative care, consistent with an amendment of the DHCS/County Contract, or other written approval from DHCS, allowing such use of CalOptima funds. As proposed, the maximum $150 daily payment rate and 15 day maximum stay currently applicable to referrals from contracted hospitals would also apply to referrals from such additional sources.

Back to Agenda

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Of the $1.0 million in IGT funds approved by the Board for recuperative care, remains available as of July 31, 2017. Payments for recuperative care services provided under this staff recommendation are contingent upon availability of existing IGT funds. Any additional funding for recuperative care would require future Board consideration and approval. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working "Better. Together." CalOptima, as the community health plan for Orange County, is committed to working with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services for Medi-Cal members.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 4, 2014
Regular Meeting of the CalOptima Board of Directors

Report Item

VII. F. Authorize Expenditure of Intergovernmental Transfer (IGT) Funds for Post Acute Inpatient Hospital Recuperative Care for Members Enrolled in CalOptima Medi-Cal; Authorize Amendments to CalOptima Medi-Cal Hospital Contracts as Required for Implementation

Contact

Javier Sanchez, Chief Network Officer, (714) 246-8400

Recommended Actions

1. Authorize expenditures of up to $500,000 in Fiscal Year (FY) 2011- 12 Intergovernmental Transfer Funds (IGT 2) for the provision of Recuperative Care to homeless members enrolled in CalOptima Medi-Cal after discharge from an acute care hospital facility, subject to required regulator approval(s), if any; and
2. Authorize the Chief Executive Officer (CEO), with the assistance of legal counsel, to amend Medi-Cal Hospital contracts covering Shared Risk Group, Physician Hospital Consortia, CalOptima Direct and CalOptima Care Network members, to include Recuperative Care services.

Revised 12/4/14

Background

At the November 6, 2014 meeting of the CalOptima Board of Directors, staff presented an overview of a proposed program to provide acute and post-acute medical care for homeless persons who are too ill or frail to recover from a physical illness or injury on the streets but who are not ill enough to be hospitalized. This program is to be funded with IGT 2 revenue.

Recuperative care currently exists in Orange County and received partial funding from the MSI program. With Medi-Cal expansion, many of the MSI members were transitioned to CalOptima and no longer have access to these services.

Proposed services to be included in the Recuperative Care Program include: housing in a motel; nurse-provided medical oversight; case management/social services; food and supplies; warm handoff to safe housing or shelters upon discharge; and communication and follow-up with referring hospitals.

Staff now requests the Board authorize the expenditure of IGT 2 funding for recuperative care services for Medi-Cal members and amending hospital contracts to facilitate referrals to and payment of this program.

Discussion

Staff requests authority by the Board of Directors to allocate up to $500,000 of IGT 2 funds to a Recuperative Care services funding pool. Funding is a continuation of IGT 1 initiatives intended to reduce hospital readmissions and reduce inappropriate emergency room use by CalOptima members experiencing homelessness.

Back to Agenda

CalOptima staff proposes to amend existing hospital contracts to allow reimbursement for hospital discharges for recuperative care services for Medi-Cal homeless members that qualify for such service. Hospitals will be required to contract and refer homeless members who can benefit from this service to a Recuperative Care provider of the hospital's choice. The hospital will facilitate the transfer of the members to the appropriate Recuperative Care provider. The referring hospital will pay the Recuperative Care provider for services rendered based on need to facilitate a safe hospital discharge as determined by the hospital and the provider.

Contracted hospitals will be required to invoice CalOptima for services rendered, CalOptima will, in turn, reimburse contracted hospitals from the Recuperative Care fund pool for services rendered. Reimbursement by CalOptima to hospitals for Recuperative Care services will stop when the $500,000 recuperative services pool has been depleted. Staff will provide oversight of the program and will implement a process to track the utilization of funds.

Fiscal Impact

A total of up to $500,000 in IGT 2 funds are proposed for this initiative. Based on an estimate of $150 per day for recuperative for up to a 10 day stay per member, this funding is expected to fund approximately 330 cases. The proposed funding level is a cap. If exhausted prior to the end of FY 2014-15, no additional funding for recuperative care will be available without further Board approval. Should the proposed IGT 2 funds not be exhausted on services provided during FY 2014-15, the remaining funds will be carried over to the following fiscal year.

The recommended actions are consistent with the Board's previously identified funding priorities for use of IGT 2 funds. Expenditure of IGT funds is for restricted, one-time purposes, and does not commit CalOptima to future budget allocations

Rationale for Recommendation

With Medi-Cal expansion, CalOptima is serving more members who are homeless. These members experience twice as many readmissions and twice as many inpatient days when discharged to the street rather than to respite or recuperative care. In addition, homeless members remain in acute care hospitals longer rather than being discharged due to a lack of residential beds.

Evaluation by the U.S. Department of Health and Human Services Agency for Healthcare Research and Quality of an existing program administered by the Illumination Foundation, showed: decreased emergency room use; reduced inpatient stays; and stable medical condition for homeless members post discharge. These results are consistent with the IGT 2, as a continuation of IGT 1 funding initiatives, to reduce readmissions to hospitals.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 1, 2015
Regular Meeting of the CalOptima Board of Directors

Report Item

VIII. D. Consider Updated Revenue Expenditure Plans for Intergovernmental Transfer (IGT) 2 and IGT 3 Projects

Contact

Lindsey Angelats, Director of Strategic Development, (714) 246-8400

Recommended Actions

1. Approve updated expenditure plan for IGT 2 projects, including investments in personal care coordinators (PCC), grants to Federally Qualified Health Centers (FQHC), and autism screenings for children, and authorize expenditure of $3,875,000 in IGT 2 funds to support this purpose; and
2. Approve expenditure plan for IGT 3 projects, including investments in recuperative care and provider incentive programs, and authorize expenditure of $4,880,000 in IGT 3 funds to support this purpose, and authorize hospital contract amendments as necessary to implement the proposed modifications to the recuperative care program.

Rev. 10/1/15

Background / Discussion

To date, CalOptima has partnered with the University of California, Irvine (UCI) Medical Center on a total of four IGTs. These IGTs generate funds for special projects that benefit CalOptima members. A progress report detailing the use of funds is attached. Three IGTs have been successfully completed, securing $26.0 million in project funds, and a fourth IGT is pending, which is estimated to secure an additional $5.5 million in project funds. Collectively, the four IGTs represent $31.5 million in available funding. A breakdown of the total amount of IGT funds is listed below:

All IGTs	Total Amount
IGT 1	$12.4 million
IGT 2	$8.7 million
IGT 3	$4.9 million
IGT 4	*$5.5 million**
Total	$31.5 million

*The IGT 4 funds figure is an estimate. These funds have not yet been received by CalOptima.

As part of this proposed action, staff is requesting Board approval of the updated expenditure plan for IGT 2, as well as the expenditure plan for IGT 3. The allocation of these funds will be in accordance with the Board's previously approved funding categories for both IGT 2 and IGT 3, and will support staff-identified projects, as specified.

IGT 2 Updated Expenditure Plan

At its September 4, 2014, meeting, the Board approved the final expenditure plan for IGT 2. Since that time, staff has been able to identify further detailed projects to implement the Board approved allocations. Staff recommends the use of $3,875,000 in IGT 2 funds to support the following projects:

Back to Agenda

- $2,400,000 previously approved for the 'Expansion of IGT 1 Initiatives' will be used to sustain the use of PCCs in the OneCare Connect program in FY 2016-17. Current funding for PCCs expires at the end of the 2015-16fiscal year. This proposed action will extend funding for PCCs for one additional year and allow CalOptima and the health networks to better evaluate the long-term sustainability of PCCs for members.

- $100,000 previously approved for the 'Expansion of IGT 1 Initiatives' will provide IGT project administration and oversight through a full-time staff person and/or consultant for FY 2015-16.

- $875,000 previously approved for 'Children's Health/Safety Net Services' will be used for grant funding for the expansion of behavioral health and dental services at FQHCs and FQHC look-alikes. Grant funding will be awarded to up to five eligible organizations for a two-year period in order to launch the new services.

- $500,000 previously approved for 'Wraparound Services' will be used to support a provider incentive program for autism screenings for children. It is estimated that up to 3,600 screenings could be covered with this funding, in addition to costs of training for providers to deliver the screenings.

- Staff also request a modification to the Board's December 4, 2014 action, which allocated grant funding in support of community health centers. Specifically, staff requests an increase in the maximum threshold for clinic grants from $50,000 up to $100,000. No new funds will be utilized for this change, but this change will allow two existing grantees (Korean Community Services and Livingstone) to double their grant award amounts from $50,000 to $100,000. Staff recommends this modification to address the fact that while the previously approved IGT 2 expenditure plan allowed up to four clinics to receive grants, only the two aforementioned organizations formally submitted grant proposals. If the proposed increase is approved, the additional funds will be used for consulting services to finalize the clinics' FQHC Look-Alike applications as well as upgrades to their IT systems to meet FQHC requirements.

IGT 3 Expenditure Plan

For the $4,865,000 funds remaining under IGT 3, staff proposes to support ongoing projects as follows:

- $4,200,000 to support a pay-for-performance program for physicians serving vulnerable Medi-Cal members, including seniors and person with disabilities (SPD). The program will offer incentives for primary care providers to participate in interdisciplinary care teams and complete an individualized care plan for SPD members, in accordance with CalOptima's Model of Care.

  $500,000 to continue funding and broaden recuperative care for homeless Medi-Cal members. This proposed action would provide an additional investment in recuperative care in addition to the Board's previously approved funding. In addition, going forward, hospitals would be eligible to receive reimbursement for recuperative care for homeless patients following an emergency department visitor observation stay; currently, reimbursement is limited to services following an inpatient stay only. As proposed, the maximum duration for recuperative care will increase from 10 days up to 15 days to more effectively link patients to needed services.

Back to Agenda

These recuperative care services would be made available subject to required regulator approval(s), if any.

- $165,000 to provide IGT project administration and oversight through a full-time Manager, Strategic Development for FY 2016-17. The manager will project manage IGT-funded projects, complete regular progress reports, and submit required documents to DHCS.

Staff is not proposing use of IGT 4 funds at this time, but will return to the Board at a later date for approval of an expenditure plan after funds have been received from the state.

Finally, the requests outlined above have been thoroughly vetted by the CalOptima Member Advisory Committee (MAC) and Provider Advisory Committee (PAC) during their respective meetings on September 10, 2015.

Fiscal Impact
The recommended action implement an updated expenditure plan for the FY 2011-12 IGT is budget neutral. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future expenditures.

The recommended action to approve the expenditure plan of $4,865,000 from the FY 2012-13 IGT is consistent with the general use categories previously approved by the Board on August 7, 2014.

Rationale for Recommendation
Staff recommends approval of the proposed expenditure plans for IGT 2 and IGT 3 in order to continue critical funding support of projects that benefit CalOptima Medi-Cal members by addressing unmet needs. Approval will help ensure the success of ongoing and future IGT projects.

Concurrence
Gary Crockett, Chief Counsel

Back to Agenda

IGTs Completed and In Progress

All IGTs	Fiscal Year Received	CalOptima Amount	% Amount Programmed
IGT 1	12-13	$12.4 M	100%
IGT 2	13-14	$8.7 M	55%
IGT 3	14-15	$4.8 M	0%
IGT 4	15-16*	(Est. $5.5 M)*	NA
Total Funds Received or Anticipated		$31.4 M	

* Transaction has received state and federal approval but funds have not yet been received

Back to Agenda

Considerations for IGT Outstanding Funds

- **New or pending State and Federal initiatives increasingly focused on integration and coordination**
  - 1115 Waiver and Whole Person Care
  - Behavioral Health Integration
  - Health Homes
  - Capitation Pilot for Federally Qualified Health Centers

- **Value in supporting providers serving more vulnerable members with greater needs:** *(examples)*
  - Investment in ICTs for providers serving Seniors and Persons with Disabilities
  - Continuation/expansion of Personal Care Coordinators

IGT Investment Parameters and Requirements

- IGTs must be used to finance enhancements in services for Medi-Cal beneficiaries

- Projects must be one-time investments or as seed capital for new services or initiative, since there is no guarantee of future IGT agreements

Back to Agenda

Recommended Use of IGT 2 Funds ($3.875M Outstanding)

Category	Board Approval Date of Category	Proposed Project	Proposed Investment	Regulatory Driver	Anticipated Impact
Continuation of IGT 1 Initiatives	03/06/14	Sustain Personal Care Coordinators (PCCs) for the One Care Connect program in FY16-17	$2.4M	**Coordinated Care Initiative**	Providers and members receive timely support
Children's Health/Safety Net Services	10/02/14; 12/04/14	Supporting behavioral health and dental service expansion at FQHC and FQHC look-a-likes via one-time competitive grants	$875K	**Alternative Payment Pilot**	FQHCs launch critical services that can be sustained through higher PPS rates
Wraparound Services	8/7/14	Provider incentive for Autism Screening and provider training to promote access to care	$500K	**Autism Benefits in Managed Care**	Earlier identification and treatment for the 1 in 68 children with autism
Continuation of IGT 1 Initiatives	03/06/14	Full-time IGT project administrator/ benefits (pro-rated for 11/1/15 start; represents ~~23%~~ between 2-3% admin costs)	$100K	**Intergovernmental Transfers**	Faster launch of IGT funded projects to support members and physicians

Back to Agenda

Recommended Use of IGT 3 Funds ($4.88M Outstanding)

Regulatory Driver	CalOptima Priority Area	Proposed Project	Proposed Investment	Anticipated Impact
1115 Waiver	**Adult Mental Health**	Continue recuperative care to reduce hospital readmissions by providing safe housing, temporary shelter, food and supplies to homeless individuals	$500K	Support for improved and integrated care for vulnerable members
Integrated Care	**Support Primary Care Access**	Support increased funding (pay for performance) for physicians serving vulnerable members, including Seniors and Persons with Disabilities (ICPs + Integrated Health Assessments for new SPDs)	$4.2M	Support for improved and integrated care for vulnerable members
Intergovernmental Transfers		Full-time IGT project administrator (represents 2% admin costs)	$165K	Faster launch of IGT funded projects to support members and physicians

Recommended Next Steps

- **Timing**
  - November: Development of project plans and launch
- **Accountability**
  - Staff provide quarterly Board reports sharing progress and outcomes for current and new projects; Jan 2016
- **Engagement**
  - Review IGT 4 with PAC/MAC in October; Staff proposes options focus on improved care for those with serious mental illness and support for providers to screen adolescents for depression
- **Maximization/Leverage**
  - ➢ In Fall 2015, staff will pursue additional Funding Entity partnerships with eligible organizations (County, Children and Families Commission, others) to draw down additional funds in 2016, based on recommendation from consultant Mr. Stan Rosenstein

Board of Directors Meeting
October 1, 2015

Intergovernmental Transfer (IGT) Funds Progress Report

Discussion

To date, CalOptima has participated in four IGT transactions with the University of California, Irvine; at this time, IGT 1 and IGT 2 funds are supporting Board-designated projects to improve care for members. Staff presented the following information on the status IGT-funded projects to the Provider Advisory Committee and Member Advisory Committee on September 10, 2015.

IGT 1 Active Projects					
Description	Objective	Budget	Board Action	Duration	% Complete
New Case Management System	To enhance management and coordination of care for vulnerable members	$2M	03/06/14	2 years	75%
Personal Care Coordinators for OneCare members	To help OneCare members navigate healthcare services and to facilitate timely access to care	$3.8M	04/03/14	3 years	50%
OneCare Connect Personal Care Coordinators	To help OneCare Connect members navigate health services and to facilitate timely access to care	$3.6M	04/02/15	1 year	25%
Strategies to Reduce Readmission	To reduce 30-day all cause (non maternity related) avoidable hospital readmissions	$1.05 M	03/06/14	2 years	25%
Complex Case Management Consulting	Staffing and data support for case management system	$350K	03/06/14	2 years	50%
Telemedicine	Expand access to specialty care	$1.1M	03/07/13	2 years	25%
Program for High Risk Children	CalOptima pediatric obesity and pediatric asthma planning and evaluation	$500K	03/06/14	3 years	25%

Back to Agenda

IGT 2 Active Projects					
Description	Objective	Budget	Board Action	Duration	% Complete
Facets System Upgrade & Reconfiguration	Upgrade and reconfigure software system used to manage key aspects of health plan operations, such as claims processing,	$1.25M	03/06/14	2 years	75%
Continuation of the CalOptima Regional Extension Center	Sustain initiative to assist in the implementation of EHRs for individual and small group local providers	$1M	04/03/14	3 years	25%
Enhancing the Safety Net	To assist health centers to apply for and prepare for Federally Qualified Health Center (FQHC) designation or expansion	$200K	10/02/14	2 years	50%
Enhancing the Safety Net	To support an FQHC readiness analysis for community health centers to enhance the Orange County safety net and its ability to serve Medi-Cal beneficiaries	$225K	12/04/14	2 years	25%
Recuperative Care	To help reduce hospital readmissions by providing safe housing, temporary shelter, food and supplies to homeless individuals	$500K	12/04/14	1 year	25%
Facets System Upgrade & Reconfiguration	Upgrade and reconfigure software system used to manage key aspects of health plan operations, such as claims processing,	$1.25M	03/06/14	2 years	75%
School-Based Vision	Increase access to school-based vision, which can be difficult for Medi-Cal beneficiaries to access	$500K	09/04/14	2 years	25%
School-Based Dental	Increase access to school-based dental, which can be difficult for Medi-Cal beneficiaries to access	$400K	09/04/14	2 years	25%
Provider Network Management Solution	Enhance CalOptima's core data systems and information technology infrastructure to facilitate improved member care	$500K	03/06/14	1 year	25%
Security Audit Remediation	To increase protection of CalOptima member data	$200K	03/06/14	1 year	85%

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
17. Consider Approval of Grant Allocations of Intergovernmental Transfer (IGT) 6 and 7 Funds

Contact
Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions
1. Approve an additional grant allocation of up to $10 million to the Orange County Health Care Agency (OCHCA) from the Department of Health Care Services-approved and Board-approved Intergovernmental Transfer 6 and 7 Homeless Health priority area;
2. Replace the current cap of $150 on the daily rate and the 15-day stay maximum paid out of CalOptima funds with a 50/50 cost split arrangement with the County for stays of up to 90 days for homeless CalOptima members referred for medically justified recuperative care services under OCHCA's Whole Person Care Pilot program; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the grant agreement with the County of Orange to include indemnity language and allow for use of the above allocated funds for recuperative care services under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members.

Background
Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus, funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants at the recommendation of the IGT Ad Hoc committee to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the board approved priority areas. The RFI/LOIs helped staff determine funding allocation amounts for the board-approved priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Back to Agenda

Priority Area	# of LOIs
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Staff examined the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

In May 2017, CalOptima received final payment from DHCS for the IGT 6 and 7 transaction and confirmed CalOptima's total share to be approximately $31.1 million.

Discussion

The IGT Ad Hoc committee consisting of Supervisor Do and Directors Nguyen and Schoeffel met on February 17 and reconvened on April 17 to further discuss the results of the RFI/LOI responses specifically in the Homeless Health priority area and to review the staff-recommended IGT 6 and 7 expenditure plan with suggested allocation of funds per priority area.

Since receiving the RFI/LOIs, the County of Orange over the past several months has been engaged in addressing the homelessness in Orange County. Numerous public agencies and non-profit organizations, including CalOptima, have been working diligently to address this challenging matter. A lot has been accomplished, yet much more needs to be addressed.

Before making recommendation to the Board on the release of the limited grant dollars, the Ad Hoc committee met to carefully review the staff-recommended IGT 6 and 7 expenditure plan while also considering the pressing homeless issue.

In response to this on-going and challenging environment, and through the recommendation of the Ad Hoc committee, staff is recommending an allocation of up to $10 million to the OCHCA from IGT 6 and 7 to address the health needs of CalOptima's members in the priority area of Homeless Health

This will result in a remaining balance of approximately $21.1 million, which the Ad Hoc will consider separately and return to the Board with further recommendations.

In addition, staff is seeking authority to amend the grant agreement with the County to direct the allocation of up to $10 million of funds to provide recuperative care services for homeless CalOptima members under the recuperative care/WPC Pilot. The current agreement with the County allows CalOptima to pay for a maximum of $150 per day up to 15 days of recuperative care per member, with the County responsible for any costs. Staff is proposing to remove the cap on the daily rate and allow the $10 million to be used for funding 50 percent of all medically justified recuperative care days up to

a maximum of 90 days per homeless CalOptima member, to the extent that funds remain available, and subject to negotiation of an amendment to include indemnification by the County in the event that such use of CalOptima IGT funds is subsequently challenged or disallowed.

The WPC Pilot, a county-run program is intended to focus on improving outcomes for participants, developing infrastructure and integrating systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries. The current WPC Pilot budget and services are as follows:

		Add'l	
	Total WPC	**County Funds**	**CalOptima**
WPC Connect - electronic data sharing system	$ 2,421,250	$ -	$ -
Hospitals - Homeless Navigators	$ 5,164,000	$ -	$ -
Community Clinics - Homeless Navigators	$ 7,495,000	$ -	$ -
Community Referral Network - social services referral system	$ 1,000,000	$ -	$ -
Recuperative Care Beds	$ 4,277,615	$ 3,483,627	$ 522,100
MSN Nurse - Review & Approval of Recup. Care	$ 628,360	$ -	$ -
211 OC - training and housing coordination	$ 526,600	$ -	$ -
CalOptima - Homeless Personal Care Coordinators & Data Reporting	$ 809,200	$ -	$ -
Housing Navigators	$ 1,824,102	$ -	$ -
Housing Peer Mentors	$ 1,600,000	$ -	$ -
County Behavioral Health Services Outreach Staff	$ 1,668,013	$ -	$ -
Shelters	$ 2,446,580	$ -	$ -
County Admin	$ 1,206,140	$ -	$ -
TOTAL	$31,066,860	$ 3,483,627	$ 522,100

Since the 2016, the OCHCA collaborated with other community-based organizations, community clinics, hospitals, county agencies and CalOptima and others to design the program and has met with stakeholders on a weekly basis. The recuperative care element of the WPC pilot is a critical component of the program. During the first program year, the WPC recuperative care program provided vital services to homeless CalOptima members. CalOptima members in the WPC pilot program are recuperating from various conditions such as cancer, back surgery, and medication assistance and care for frail elderly members. The WPC pilot program has three recuperative care providers providing services, Mom's Retreat, Destiny La Palma Royale and Illumination Foundation.

From July 1, 2017 through June 30, 2018, the WPC pilot program provided the following recuperative care services and linkages for members:

- 445 Homeless CalOptima members admitted into recuperative care for a total of 16,508 bed days
- 22% Homeless CalOptima members served by Illumination Foundation placed into Permanent Supportive Housing
- 4 Homeless CalOptima members in recuperative care approved for Long-Term Care services
- 6 Homeless CalOptima members in recuperative care approved for Assisted Living Waiver services

Back to Agenda

- Total cost for recuperative care services over the fiscal year: $2,946,700
    - Average length of stay: 37 days
    - Average cost per member: $6,623

The OCHCA experienced a shortfall in the budgeted funds for the WPC/Recuperative Care Program in Year 1 as more individuals were identified to be eligible for the program than projected. The Whole Person Care pilot budget is approximately $31 million, with $8.4 million allocated to provide recuperative care. As the WPC pilot moves into the new fiscal year, the program continues to experience a shortfall. To address the budget shortfall, the number of admissions into the recuperative care program was restricted; however, projected need is projected to increase over the next three years to approximately 2,368 homeless individuals, or 790 per year. The program will need approximately $18.6M over the next three years to meet the increased need for recuperative care services. The County's remaining WPC budget for recuperative care services over this period is approximately $5.3 million.

Individuals who are recovering safely through the program are connected to medical care, including primary care medical homes and medical specialists. In addition, members may receive behavioral health therapy and/or substance use disorder counseling services. Clients from the WPC pilot program are seven times more likely to use the Emergency Room (ER) and nine times more likely to be hospitalized than general Medi-Cal Members.

The WPC recuperative care program serves and is available for homeless CalOptima members when medically indicated, for members who are discharged from hospitals and skilled nursing facilities, as well as those referred from clinics, and OCHCA public health nurses.

Fiscal Impact
The recommended action to approve the allocation of $10 million from IGT 6 and IGT 7 to the OCHCA has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Concurrence
Gary Crockett, Chief Counsel

California Advancing and Innovating Medi-Cal (CalAIM)
Executive Summary

The Department of Health Care Services (DHCS) has developed a framework for the upcoming waiver renewals that encompasses broader delivery system, program and payment reform across the Medi-Cal program, called CalAIM: California Advancing and Innovating Medi-Cal. CalAIM advances several key priorities of the Administration by leveraging Medicaid as a tool to help address many of the complex challenges facing California's most vulnerable residents, such as homelessness, insufficient behavioral health care access, children with complex medical conditions, the growing number of justice-involved populations who have significant clinical needs, and the growing aging population. This proposal recognizes the opportunity to provide for non-clinical interventions focused on a whole-person care approach via Medi-Cal that target social determinants of health and reduce health disparities and inequities. Furthermore, the broader system, program, and payment reforms included in CalAIM allow the state to take a population health, person-centered approach to providing services and puts the focus on improving outcomes for all Californians. Attaining such goals will have significant impact on an individual's health and quality of life, and through iterative system transformation, ultimately reduce the per-capita cost over time. DHCS intends to work with the Administration, Legislature and our other partners on these proposals and recognizes the important need to discuss these issues and their prioritization within the state budget process. These are initial proposals whose implementation will ultimately depend on whether funding is available.

Background and Overview

Medi-Cal has significantly expanded and changed over the last ten years, most predominantly because of changes brought by the Affordable Care Act and various federal regulations as well as state-level statutory and policy changes. During this time, the DHCS has also undertaken many initiatives and embarked on innovative demonstration projects to improve the beneficiary experience. In particular, DHCS has increased the number of beneficiaries receiving the majority of their physical health care through Medi-Cal managed care plans. These plans are able to offer more complete care coordination and care management than is possible through a fee-for-service system. They can also provide a broader array of services aimed at stabilizing and supporting the lives of Medi-Cal beneficiaries.

Depending on the needs of the beneficiary, some may need to access six or more separate delivery systems (managed care, fee-for-service, mental health, substance use disorder, dental, developmental, In Home Supportive Services, etc.). As one would expect, need for care coordination increases with greater system fragmentation, greater clinical complexity, and/or decreased patient capacity for coordinating their own care. Therefore, in order to meet the behavioral, developmental, physical, and oral health needs of all members in an integrated, patient centered, whole person fashion, DHCS is seeking to integrate our delivery systems and

Back to Agenda

align funding, data reporting, quality and infrastructure to mobilize and incentivize towards common goals.

To achieve such outcome, CalAIM proposals offer the solutions to ensure the stability of Medi-Cal program and allows the critical successes of waiver demonstrations such as Whole Person Care, the Coordinated Care Initiative, public hospital system delivery transformation, and the coordination and delivery of quality care to continue and be expanded to all Medi-Cal enrollees. CalAIM seeks to build upon past successes and improve the entire continuum of care across Medi-Cal, ensuring the system more appropriately manages patients over time through a comprehensive array of health and social services spanning all levels of intensity of care, from birth to end of life. To do this, we must change the expectations for our managed care and behavioral health systems. Holding our delivery system partners accountable for a set of programmatic and administrative expectations is no longer enough. We must provide a wider array of services and supports for complex, high need patients whose health outcomes are in part driven by unmet social needs and make system changes necessary to close the gap in transitions between delivery systems, opportunities for appropriate step-down care and mitigate social determinants of health, all hindering the ability to improve health outcomes and morbidity.

Guiding Principles

In 2018, the Care Coordination Advisory Committee developed a core set of guiding principles. For the purposes of CalAIM DHCS built off and refined those principles to guide the work we intended to pursue.

- Improve the member experience.
- Deliver person-centered care that meets the behavioral, developmental, physical, and oral health needs of all members.
- Work to align funding, data reporting, quality and infrastructure to mobilize and incentivize towards common goals.
- Build a data-driven population health management strategy to achieve full system alignment.
- Identify and mitigate social determinants of health and reduce disparities or inequities.
- Drive system transformation that focuses on value and outcomes.
- Eliminate or reduce variation across counties and plans, while recognizing the importance of local innovation.
- Support community activation and engagement.
- Improve plan and provider experience by reducing administrative burden when possible.
- Reduce the per-capita cost over time through iterative system transformation.

Key Goals

To achieve such principles, CalAIM has three primary goals:

- Identify and manage member risk and need through Whole Person Care Approaches and addressing Social Determinants of Health;
- Move Medi-Cal to a more consistent and seamless system by reducing complexity and increasing flexibility; and

- Improve quality outcomes and drive delivery system transformation through value-based initiatives, modernization of systems and payment reform.

The reforms of CalAIM are comprehensive and critical to the success of the delivery system transformation necessary to improve the quality of life for Medi-Cal members as well as long-term cost savings/avoidance that will not be possible to achieve absent these initiatives. Furthermore, these reforms are interdependent and build off one another; without one, the others are not either possible or powerful. Below is an overview of the various proposals and recommendations that make up CalAIM.

Identify and Manage Member Risk and Need through Whole Person Care Approaches and Addressing Social Determinants of Health

California continues to strengthen integration within the State's health care delivery system aimed at achieving better care, better health and reduced expenditures in Medi-Cal programs. In line with these objectives, DHCS is proposing reforms that would better identify and manage member risk and need for beneficiaries who may be challenged with medical and behavioral conditions, access to care issues, as well as chronic illnesses and disabilities, and require multidisciplinary care to regain health and function.

To achieve such goals, DHCS proposes the following recommendations that focus on a whole-person care approach that addresses the needs of our beneficiaries across the board – looking at physical and behavioral as well as social determinants of health, with the overarching goals of improving quality of life and reducing the overall costs for the Medi-Cal population.

- Require plans to submit local population health mangement plans.
- Implement new statewide enhanced care management benefit.
- Implement in lieu of services (e.g. housing navigation/supporting services, recuperative care, respite, sobering center, etc.).
- Implement incentive payments to drive plans and providers to invest in the necessary infrastructure, build appropriate enhanced care management and in lieu of services capacity statewide.
- Evaluate participation in Institutions for Mental Disease Serious Mental Illness/Serious Emotional Disturbance Section 1115 Expenditure Waiver.
- Require screening and enrollment for Medi-Cal prior to release from county jail.
- Pilot full integration of physical health, behavioral health, and oral health under one contracted entity in a county or region.
- Develop a long-term plan for improving health outcomes and delivery of health care for foster care children and youth.

Population Health Management

Medi-Cal managed care plans shall develop and maintain a patient-centered population health strategy, which is a cohesive plan of action for addressing member needs across the continuum of care based on data driven risk stratification, predictive analytics, and standardized assessment processes. Each managed care plan shall include, at a minimum, a description of how it will:

- Keep all members healthy by focusing on preventive and wellness services;

- Identify and assess member risks and needs on an ongoing basis;
- Manage member safety and outcomes during transitions, across delivery systems or settings, through effective care coordination; and
- Identify and mitigate social determinants of health and reduce health disparities or inequities.

Enhanced Care Management

DHCS proposes to establish a new, statewide enhanced care management benefit. An enhanced care management benefit would provide a whole-person approach to care that addresses the clinical and non-clinical needs of high-need Medi-Cal beneficiaries. Enhanced care management is a collaborative and interdisciplinary approach to providing intensive and comprehensive care management services to individuals. The proposed benefit builds on the current Health Homes Program and Whole Person Care pilots, and transitions those pilots to this new statewide benefit to provide a broader platform to build on positive outcomes from those programs.

Target populations include, but are not limited to:

- High utilizers with frequent hospital or emergency room visits/admissions;
- Individuals at risk for institutionalization with Serious Mental Illness, children with Serious Emotional Disturbance or Substance Use Disorder with co-occurring chronic health conditions;
- Individuals at risk for institutionalization, eligible for long-term care;
- Nursing facility residents who want to transition to the community;
- Children or youth with complex physical, behavioral, developmental and oral health needs (i.e. California Children Services, foster care, youth with Clinical High Risk syndrome or first episode of psychosis);
- Individuals transitioning from incarceration; and
- Individuals experiencing chronic homelessness or at risk of becoming homeless.

In Lieu of Services & Incentive Payments

In order to build upon and transition the excellent work done under Whole Person Care, DHCS is proposing to implement in lieu of services, which are flexible wrap-around services that a managed care plan will integrate into its population health strategy. These services are provided as a substitute, or to avoid, other services such as a hospital or skilled nursing facility admission or a discharge delay. In lieu of services would be integrated with Case or Care Management for members at high levels of risk and may fill gaps in state plan benefits to address medical or social determinants of health needs. Examples of in lieu of services include but are not limited to: housing transition and sustaining services, recuperative care, respite, home and community based wrap around services for beneficiaries to transition or reside safely in their home or community, and sobering centers.

The use of in lieu of services are voluntary, but the combination of enhanced care management and in lieu of services allows for a number of integration opportunities, including an incentive for building an integrated managed long-term services and supports (MLTSS) managed care program by 2026 and building the necessary clinically-linked housing continuum for our homeless population. In order to be equipped with the required MLTSS and housing infrastructure, the State must use its ability to provide our Medi-Cal managed care plans with financial incentive payments established to drive plans and providers to invest in the necessary

delivery and systems infrastructure, build appropriate care management and in lieu of services capacity, and achieve improvements in quality performance and measurement reporting that can inform future policy decisions.

Institutions for Mental Disease (IMD) Expenditure Waiver

Currently, federal Medicaid funding cannot be used for institutional services provided to individuals with serious mental illness or severe emotional disturbance (known as the IMD exclusion). However, the federal government has developed an opportunity for states to seek the ability to receive federal funding for institutional services provided to these populations. Through extensive stakeholder engagement, DHCS will assess state and county interest in pursuing the IMD expenditure waiver, as well as readiness of our systems to achieve the required goals and outcomes. Such a proposal must be budget neutral and would allow counties to "opt-in." The main elements of any proposed waiver would include:

- Ensuring quality of care in psychiatric hospitals and residential settings, including required audits;
- Improving care coordination and transitions to community based care;
- Increasing access to a full continuum of care including crisis stabilization and other clinically enriched forms of housing in the community with robust support services; and
- Earlier identification and engagement in treatment including through increased integration.

In pursuing this waiver opportunity, counties that "opt in" should be prepared to build out a robust continuum so individuals who begin at a higher level of institutional care can be stepped down to a less restrictive, community-based, residential setting.

Mandatory Medi-Cal Application Process upon Release from Jail

Justice involved individuals often receive both medical and behavioral health services while incarcerated. Upon release from jail, proper coordination is needed to ensure the medical and behavioral health needs of an individual continue to be met, and additionally ensure critical non-clinical needs are met like housing, transportation and overall integration back into the community. Studies have shown, such coordination activities reduce unnecessary emergency room and inpatient stays, as well as improve treatment and medication adherence upon release from jail. In an effort to ensure all county inmates receive timely access to Medi-Cal services upon release from incarceration, DHCS proposes that California mandate the county inmate pre-release Medi-Cal application process by January 2022. Additionally, DHCS is proposing to mandate all counties implement warm-handoffs from county jail release to county behavioral health departments when the inmate was receiving behavioral health services while incarcerated to allow for continuation of behavioral health treatment in the community.

Full Integration Plans

DHCS would like to test the effectiveness of full integration of physical health, behavioral health, and oral health under one contracted entity. Due to the complexity of the policy considerations around this concept, DHCS will need to conduct extensive stakeholder engagement around eligibility criteria for entities, administrative requirements across delivery systems, provider network requirements, quality and reporting requirements, as well as complex financial

considerations due to realignment and Prop 30 implications. Given the complexity of this proposal, DHCS assumes the selected plans would not go live until 2024, as DHCS and our managed care plans and county partners work together to develop the most appropriate delivery systems for this purpose.

Develop a Long-Term Plan for Foster Care

In 2020, DHCS would like to form a group of stakeholders to weigh in on a long-term plan and strategy for improving health outcomes and the delivery of fully-integrated health care services for foster care children and youth. Based on the recommendations from such workgroup, DHCS, California Department of Social Services, and other sister departments would work to implement such changes based on timelines developed in the stakeholder process.

Moving Medi-Cal to a More Consistent and Seamless System by Reducing Complexity and Increasing Flexibility

Medi-Cal provides services to some of California's most vulnerable and medically complex beneficiaries, but many of the services are different depending on the county one lives in. DHCS is proposing to standardize and reduce complexity by implementing administrative and financial efficiencies across the state and delivery systems to provide more predictability and reduce county-to-county differences. These reforms stretch across managed care, behavioral health, dental and other county based services.
To achieve such goals, DHCS proposes the following recommendations.

Managed Care

- Standardize managed care enrollment statewide
- Standardize managed care benefits statewide
- Transition to statewide managed long term services and supports
- Require Medi-Cal managed care plans be National Committee for Quality Assurance accredited
- Implement annual Medi-Cal health plan open enrollment
- Implement regional rates for Medi-Cal managed care plans

Behavioral Health

- Behavioral health payment reform
- Revisions to behavioral health inpatient and outpatient medical necessity criteria for children and adults
- Administrative behavioral health integration statewide
- Regional contracting
- Substance use disorder managed care program renewal and policy improvements

Dental

- New benefit: Caries Risk Assessment Bundle and Silver Diamine Fluoride for young children
- Pay for Performance for adult and children preventive services and continuity of care through a Dental Home

County Based Services

- Enhance oversight and monitoring of Medi-Cal Eligibility
- Enhance oversight and monitoring of California Children's Services and the Child Health and Disability Prevention program
- Improving beneficiary contract and demographic information

Managed Care

Managed Care Enrollment

By January 2021, DHCS proposes requiring all non-dual eligible Medi-Cal beneficiaries and by January 2023 requiring all dual beneficiaries, statewide to be enrolled mandatorily in a managed care plan, with the exception of those for whom managed care enrollment does not make sense due to limited scope of benefits or limited time enrolled. This will eliminate variation of managed care enrollment practices that currently vary by aid code, population, or geographical location.

Standardize Managed Care Benefit

By January 2021, DHCS proposes to standardize managed care plans benefits, so that all Medi-Cal managed care plans provide the same benefit package. Some of the most significant changes are the carving-in of institutional long-term care and major organ transplants into managed care statewide and, per Executive Order, the carving out of pharmacy.

Transition to Statewide Managed Long-Term Services and Supports

In order to achieve a more standardized approach to comprehensive care coordination for all populations, DHCS is proposing to discontinue the Cal MediConnect pilot program at the end of calendar year 2022. DHCS proposes to transition from the pilot approach of the Coordinated Care Initiative to standardized mandatory enrollment of dual eligibles into a Medi-Cal managed care plan for Medi-Cal benefits and integration of long-term care into managed care for all Medi-Cal populations statewide. This will be done in two phases:

January 2021: The Coordinated Care Initiative proceeds as today, however Multipurpose Senior Services Programs will be carved out and all institutional long-term care services will be carved into managed care for all populations enrolled in plans around the state. DHCS will also implement the voluntary in lieu of services benefit at this time.

January 2023: Full transition of the Coordinated Care Initiative to mandatory managed care enrollment of dual eligibles into managed care in all counties/plan models. In addition, require Medi-Cal managed care plans to operate Medicare Dual-Special Needs Plans, in order to offer dual eligible members the ability to have coordinated managed care plans for both their Medi-Cal and Medicare benefits.

The purpose of these transitions and phases is to target a long-term goal of implementing managed long term services and supports (MLTSS) statewide in Medi-Cal managed care beginning in 2026 by providing enough time and incentive to develop the needed infrastructure. This will allow beneficiaries to receive needed MLTSS and home and community based services statewide through their managed care plan, instead of a variety of 1915(c) waivers that currently have capped enrollment and are not statewide.

NCQA Accreditation of Medi-Cal Managed Care Plans

In order to streamline Medi-Cal managed care plan oversight and to increase standardization across plans, DHCS recommends requiring all Medi-Cal managed care plans and their subcontractors (delegated entities) to be National Committee for Quality Assurance (NCQA) accredited by 2025. DHCS would use NCQA findings to certify or deem that Medi-Cal managed care plans meet certain State and federal Medicaid requirements.

Annual Medi-Cal Health Plan Open Enrollment

Effective for plan enrollment as of January 1, 2022, DHCS proposes to implement an Annual Health Plan Open Enrollment process for all managed care plan enrollees. Enrollees would generally only be allowed to change their managed care plan during the Annual Health Plan Open Enrollment period which is consistent with health care industry practice. The Annual Health Plan Open Enrollment period would first begin in November 2021. However in recognition of the concerns previously raised by stakeholders, DHCS has developed this proposal to include a consumer-friendly exemption process that will allow members who have a real need to change plans mid-year to do so in a streamlined way. Enrollment into Medi-Cal coverage would still be allowed throughout the year. This proposal provides the stability required to do effective care and case management of the plan members, while still allowing a simplified process to allow a plan change when it is needed.

Regional Rates

DHCS proposes to shift the development of Medi-Cal managed care plan rates from a county-based model to a regional rate model, this also coincides with a shift of the rating period from the state fiscal year to the calendar year beginning in 2020. The proposal to move to regional rates has two main benefits. The first benefit is a decreased number of distinct actuarial rating cells that are required and submitted to CMS for review and approval. The reduction in rating cells will simplify the presentation of rates to CMS with goal of allowing DHCS to pursue/implement financing advancements and innovations utilizing a more flexible rate model. The second benefit of regional rates will allow cost averaging across all plans. This will continue to incentivize plan cost efficiencies, as plan rates will be inclusive of the costs within the multi-county region. This shift will produce a larger base for the averaging rather than just the experience of plans within the county. This change is fundamental to the ability of DHCS to implement the other changes proposed in CalAIM.

Behavioral Health

Behavioral Health Payment Reform

The state, in partnership with counties, must take serious steps forward to invest in and improve access to mental health and substance use disorder services for Medi-Cal beneficiaries. Behavioral health transformation is a critical priority for the Governor, the California Health and Human Services Agency, and for DHCS, and we recognize that the full needs of the Medi-Cal population are not being met, particularly with respect to improving services and access for children and other vulnerable populations. In order to achieve true reform, DHCS believes that an important first step is undergoing behavioral health payment reform, where DHCS will

transition counties from a cost-based reimbursement methodology to a structure more consistent with incentivizing outcomes and quality over volume and cost. Such a shift is being designed in conjunction with our county partners and will enable counties to participate in broader delivery system transformation and engage in value-based payment arrangements with their health plan partners in order to support better coordination and integration between physical and behavioral health. This shift will be done thoughtfully with a key focus on ensuring no disruption of services or financial challenges for our county partners.

Behavioral health payment reform is an essential step to other opportunities for the counties around behavioral health integration, regional contracting and delivery system investments needed to further build a high quality continuum of care for mental health and substance use disorder services in the community.

Revisions to Behavioral Health Medical Necessity

The medical necessity criteria for specialty mental health services is outdated, lacks clarity, and should be re-evaluated. This issue creates confusion, misinterpretation, and could affect beneficiary access to services as well as result in disallowances of claims for specialty mental health and substance use disorder services. DHCS is proposing to modify the medical necessity criteria in order to align with state/federal requirements and more clearly delineate and standardize the benefit statewide.

Administrative Behavioral Health Integration Statewide

Research indicates that approximately 50% of individuals who have a serious mental illness have a co-occurring substance use disorder and that those individuals benefit from integrated treatment. The State provides Medi-Cal covered substance use disorder and specialty mental health services through two separate county-operated delivery systems, which makes it difficult for counties to provide integrated treatment to individuals who have co-occurring disorders. For example, counties participating in mental health and substance use disorder managed care are subject to two separate annual quality assessments, two separate post payment chart audits, and two separate reimbursement and cost reporting methods. In order to comply with these separate processes, counties providing integrated treatment to a Medi-Cal beneficiary must document the substance use disorder service separately from the specialty mental health service. The purpose of this proposal is to make necessary state and county changes that would provide substance use disorder and specialty mental health services through one delivery system.

Behavioral Health Regional Contracting

DHCS recognizes that some counties have resource limitations often due simply to their size and the number of beneficiaries residing in their county. Therefore, DHCS encourages counties to develop regional approaches to administer and deliver specialty mental health and substance use disorder services to Medi-Cal beneficiaries. There are a variety of options available to counties, including a Joint Powers Authority to operate such services for a multi-county region (e.g., Sutter/Yuba). Counties could also pool resources to contract with an administrative services organization/third-party administrator or other entity, such as the County Medical Services Program, to create administrative efficiencies across multiple counties. Small counties, rural/frontier counties, and counties with shared population centers or complementary resources

should consider opportunities for regional partnership. Furthermore, DHCS is interested in discussing how counties not currently seeking substance use disorder managed care participation may be more interested in doing so through a regional approach and/or how services provided under substance use disorder fee-for-service might also be provided through a regional approach. DHCS is committed to working with counties to offer technical assistance and support to help develop regional contracts and establish innovative partnerships.

Substance Use Disorder Managed Care Program Renewal and Policy Improvements

DHCS proposes to incorporate the Drug Medi-Cal Organized Delivery System (also known as substance use disorder managed care) into a comprehensive Section 1915(b) waiver that would include the Medi-Cal managed care plans, mental health managed care plans, and substance use disorder managed care plans. The expenditure authority for residential treatment provided in an Institution for Mental Disease will continue to be authorized through Section 1115 waiver authority. DHCS also intends to provide counties with another opportunity to opt-in to participate in the substance use disorder managed care program in hopes of promoting statewideness. Finally, DHCS is exploring opportunities to improve the substance use disorder managed care program based on experience from the first several years of implementation. Accordingly, DHCS proposes clarifying or changing policies to support the goal of improved beneficiary care and administrative efficiency.

Dental

The Department has set an initial goal to achieve at least a 60 percent dental utilization rate for eligible Medi-Cal children. In order to progress towards achieving that goal, and based on our lessons learned from the Dental Transformation Initiative, DHCS proposes the following reforms for Medi-Cal dental be made statewide:

- Add new Dental Benefits based on the outcomes and successes from the Dental Transformation Initiative that will provide better care and align with national dental care standards. The proposed new benefits include a Caries Risk Assessment Bundle for young children and Silver Diamine Fluoride for young children and specified high risk and institutional populations; and
- Continue and expand Pay for Performance Initiatives initiated under the Dental Transformation Initiative that reward increasing the use of preventive services and establishing/maintaining continuity of care through a Dental Home. These expanded initiatives would be available statewide for children and adult enrollees.

County Partners

Enhancing County Oversight and Monitoring: Eligibility

This proposal will help to improve DHCS' oversight and monitoring of various aspects of Medi-Cal eligibility and enrollment and the activities of its contracted partners. This includes implementing additional county oversight activities to increase the integrity of the administration of the Medi-Cal program, as well as implementing the recommendations of the California State Auditor's Office as identified in a recent audit. This proposal will also ensure that DHCS is compliant with federal and State requirements. These enhancement will be done in direct collaboration with our county partners.

Enhancing County Oversight and Monitoring: CCS and CHDP

There are several programs – including California Children's Services, the Medical Therapy Program, and the Child Health and Disability Prevention program – that provide services to over 750,000 child beneficiaries. The State delegates certain responsibilities for these high-risk children to California's 58 counties. The State needs to enhance the oversight of counties to ensure they comply with legislation, regulations, and State issued guidance. Enhancing monitoring and oversight will eliminate disparities in care and reduce vulnerabilities to the State, thereby preserving and improving the overall health and well-being of California's vulnerable populations.

Improving Beneficiary Contact and Demographic Information

DHCS intends to convene a workgroup of interested stakeholders to provide feedback and recommendations on ways in which contact and demographic information can be updated by other entities and the means to accomplish this while maintaining compliance with all applicable State and federal privacy laws. The goal of the workgroup will be to determine the best pathway for ensuring that reported updated data is accurate and can be used in eligibility and enrollment systems/databases without creating unintended consequences for other social services programs, Medi-Cal beneficiaries, managed care plans, and the provider community.

For more detailed descriptions of the CalAIM proposals please refer to the full CalAIM document located on CalAIM page of the DHCS website.

Advancing Key Priorities

These reforms are interdependent and build off one another; without one, the others are neither possible or powerful.

As DHCS has assessed the changes proposed under CalAIM, it has become apparent that these proposals are critically dependent upon each other. These reforms are fundamental to achieve the overall goals of improving the system and outcomes for Medi-Cal beneficiaries as well as providing long-term fiscal and programmatic sustainability to the Medi-Cal program and delivery system. In developing these recommendations, DHCS has recognized that individual proposals are significantly less likely to be achievable and successful if other key proposals are not pursued. For example, absent the proposed financing changes with respect to both the regional rate setting for Medi-Cal managed care and the structural changes to Medi-Cal behavioral health financing, the ability of our partnered plan and county entities to institute the changes focused on value based and integrated delivery of care are significantly harder and potentially impossible to achieve. These fundamental financing changes themselves would not be possible without the elimination of differences across counties with respect to the delivery systems through which Medi-Cal benefits are delivered. Therefore, carving out prescription drugs from managed care (Medi-Cal Rx) and the other carve-in/carve-outs detailed in the Medi-Cal managed care proposals are necessary and serve as the foundation for DHCS to institute the concepts around not only regional rate setting, but also nearly every other proposal contained within CalAIM (such as enhanced care management, in lieu of services, and incentive payments, as well as the

possibility of future full integration pilots). The Medi-Cal program has evolved over the multiple decades since inception and has relied upon ever-increasing system and fiscal complexity in order to operate and serve the Californians who rely upon it. CalAIM offers DHCS and the entire State of California an opportunity to take a step back to better assess what Medi-Cal beneficiaries need and alter the delivery systems accordingly, while at the same time working to be the most effective with respect to the funding utilized to most efficiently operate the program.

Furthermore, CalAIM aligns with and advances several key priorities of the Administration. At its core, CalAIM recognizes the impact of Medi-Cal on the lives of its beneficiaries well beyond just accessing health services in traditional delivery settings. CalAIM establishes a foundation where investments and programs within Medicaid can easily integrate, complement and catalyze the Administration's plan to impact the State's homelessness crisis, support reforms of our justice systems for youth and adults who have significant health issues, build a platform for vastly more integrated systems of care and move toward a level of standardization and streamlined administration required as we explore single payer principles through the Healthy California for All Commission. Furthermore, CalAIM will advance a number of existing Medi-Cal efforts such as Whole Person Care and the Health Homes Program, the prescription drug Executive Order, improving screenings for kids, proliferating the use of value-based payments across our system, including in behavioral health and long-term care. CalAIM will also support the ongoing need to increase oversight and monitoring of all county-based services including specialty mental health and substance use disorder services, Medi-Cal eligibility, and other key children's programs currently administered by our county partners.

Below is an overview of the impact CalAIM could have on certain populations, if enacted and funded as proposed:

Health for All: In addition to focusing on preventive and wellness services, CalAIM will identify patients with high and emerging risk/need and improve the entire continuum of care across Medi-Cal, ensuring the system more appropriately manages patients over time, through a comprehensive array of health and social services spanning all levels of intensity of care, from birth and early childhood to end of life.

High Utilizers (top 5%): It is well documented that the highest utilizers represent a majority of the costs in Medi-Cal. CalAIM proposes enhanced care management and in lieu of services benefits (such as housing transitions, respite and sobering centers) that address the clinical and non-clinical needs of high-cost Medi-Cal beneficiaries, through a collaborative and interdisciplinary whole person care approach to providing intensive and comprehensive care management services to improve health and mitigate social determinants of health.

Behavioral Health: CalAIM's behavioral health proposals would initiate a fundamental shift in how Californians (adults and children) will access specialty mental health and substance use disorder services. It aligns the financing structure of behavioral health with that of physical health, which provides financial flexibility to innovate, and enter into value-based payment arrangements that improve quality and access to care. Similarly, the reforms in CalAIM simplify administration of, eligibility for, and access to integrated behavioral health care.

Vulnerable Children: CalAIM would provide access to enhanced care management for medically complex children to ensure they get their physical, behavioral, developmental and oral health needs met. It aims to identify innovative solutions for providing low-barrier,

comprehensive care for children and youth in foster care and furthers the efforts already underway to improve preventive services for children including identifying the complex impacts of trauma, toxic stress and adverse childhood experiences by, among other things, a reexamination of the existing behavioral health medical necessity definition.

Homelessness and Housing: The addition of in lieu of services would build capacity to clinically linked housing continuum via in lieu of services for our homeless population, including housing transitions/navigation services, housing deposits, housing tenancy and sustaining services, short-term post hospitalization housing, recuperative care for inpatient transitions and day habilitation programs.

Justice Involved: The Medi-Cal pre-release application mandate, enhanced care management and in lieu of services would provide the opportunity to better coordinate medical, behavioral health and non-clinical social services for justice-involved individuals prior to and upon release from county jails. These efforts will support scaling of diversion and reentry efforts aimed at keeping some of the most acute and vulnerable individuals with serious medical or behavioral health conditions out of jail/prison and in their communities, further aligning with other state hospital efforts to better support care for felons incompetent to stand trial and other forensic state-responsible populations.

Aging Population: In lieu of services would allow the state to build infrastructure over time to provide Managed Long-Term Services and Supports (MLTSS) statewide by 2026. MLTSS will provide appropriate services and infrastructure for home and community-based services to meet the needs of aging beneficiaries and individuals at risk of institutionalization and should be a critical component on the State's Master Plan on Aging.

From Medi-Cal 2020 to CalAIM

Through CalAIM, DHCS is undertaking a more targeted approach to consolidating its Medi-Cal benefit package in an attempt to achieve better alignment across the system. While Section 1115 waiver authority has historically been the mechanism of choice for states interested in building and expanding managed care delivery systems, the use of the authority has evolved in recent years. The federal government no longer considers the "savings" generated from the shift from fee-for-service to managed care that occurred 15 years ago in Medicaid as relevant in calculating budget neutrality for waivers. CMS in recent guidance has also discontinued approval of traditional financing mechanisms in the Section 1115 context, namely the availability of federal funds for Designated State Health Programs and Safety Net Care Pools. In addition, given that California has significant learnings from our past 1115 Waivers, DHCS believes a primary shift to the use of other authorities is now appropriate to allow us to expand beyond limited pilots to more statewide initiatives. These factors, combined with new federal managed care regulations, has encouraged DHCS to shift its focus away from the Section 1115 waiver authority to instead leverage other available pathways for innovation in the Medi-Cal program.

The proposal outlines all elements of the Medi-Cal 2020 waiver and how they will be incorporated in to CalAIM. DHCS does not believe California is losing any critical funding or abilities to improve and advance the delivery systems and ultimately improve the beneficiary experience and outcomes under this federal authority approach. In fact, the proposed shift will allow programs or pilots that have traditionally lived outside the core managed care system, where nearly 85%

of all Medi-Cal beneficiaries receive care, to be brought into the main fold of managed care. We look forward to working in close partnership with our federal CMS colleagues and local partners to ensure that the Medi-Cal program continues to change in ways that ultimately further the goals of improved health and outcomes, as well as cost effectiveness, of the Medi-Cal/Medicaid program.

CalAIM Stakeholder Engagement

DHCS' intention in the release of these proposals is to garner important input from the many key stakeholders and partners that help us to improve upon these concepts and align them with the expertise and experience of our partners. As previously outlined, DHCS will be undertaking a significant stakeholder engagement effort that begins with the release of this document and continues through the CalAIM workgroups scheduled for November through February, the Stakeholder Advisory Committee (SAC) and Behavioral Health SAC meetings, Medi-Cal Health Advisory Panel (MCHAP) and other convenings. We recognize that CalAIM contains many significant proposals and changes to the Medi-Cal program, aimed at ultimately improving the beneficiary experience and outcomes. However, these represent DHCS' initial proposals and thinking and we look forward to working to refine and modify these proposals relying on the expertise of our stakeholder partners through this engagement process. DHCS plans to finalize all proposals for submission to CMS in the May to July period of 2020 based on the input we will receive from our partners through this process, but also dependent on the funding availability through the state budget process

Conclusion

CalAIM is an ambitious but necessary proposal to positively impact our beneficiaries' quality of life by improving the entire continuum of care across Medi-Cal, ensuring the system more appropriately manages patients over time through a comprehensive set of health and social services spanning all levels of intensity of care, from birth to end of life.

CalAIM:

- Keeps all beneficiaries healthy by focusing on preventive and wellness services, while also identifying and assessing member risk and need on an ongoing basis, during transitions in care, and across delivery systems, through effective care coordination.

- Creates a fundamental shift in how Californians (adults and children) will access mental health and substance use disorder services including administration of, eligibility for, and access to integrated behavioral health care.

- Provides access to enhanced care management for medically complex children and adults to ensure they get their physical, behavioral, developmental and oral health needs met.

- Builds capacity in clinically linked housing continuum via in lieu of services for our homeless population, including housing transitions/navigation services, housing deposits, housing tenancy and sustaining services, short-term post hospitalization housing, recuperative care for inpatient transitions and day habilitation programs.

- Provides the opportunity to better coordinate clinical and non-clinical services for justice-involved individuals prior to and upon release from jail.

- Allows the state to build infrastructure over time to provide Managed Long-Term Services and Supports (MLTSS) statewide. MLTSS will provide appropriate services and infrastructure for home and community-based services to meet the needs of aging beneficiaries and individuals at risk of institutionalization and will be a critical component on the State's Master Plan on Aging.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
15. Consider Approval of CalOptima's 2020-2022 Strategic Plan

Contact
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Action
1. Adopt CalOptima's 2020-2022 Strategic Plan; and
2. Direct the Chief Executive Officer (CEO) to implement the strategic plan and provide regular progress reports to the Board of Directors over the course of its implementation.

Background/Discussion
CalOptima's 2017-2019 Strategic Plan will expire at the end of the 2019 calendar year. At the April 4, 2019 meeting, the Board approved a contract with Chapman Consulting to provide consulting services related to the CalOptima 2020-2022 Strategic Plan development activities.

Chapman Consulting's work to support the development of the 2020-2022 Strategic Plan included reviewing the current and previous strategic plans and conducting interviews with members of the CalOptima Board of Directors, chairs and co-chairs of the CalOptima Advisory Committees (Member Advisory Committee, OneCare Connect Member Advisory Committee, Whole-Child Model Family Advisory Committee and Provider Advisory Committee) and Executive staff. It also included facilitation of a full-day Board of Directors planning session and development of an Environmental Scan. These efforts were utilized to develop the substance of the draft strategic plan in accordance with Chapman Consulting's scope of work.

While developing the draft strategic plan, Chapman Consulting also facilitated a discussion at a joint meeting of CalOptima's Advisory Committees, as well as at a meeting with CalOptima's contracted Health Networks. The feedback received at those meetings was incorporated into the draft plan.

As a result of the efforts and feedback received, the following priority areas were identified and supported:

- Innovate and Be Proactive
- Expand CalOptima's Member Centric Focus
- Strengthen Community Partnerships
- Increase Value and Improve Care Delivery
- Enhance Operational Excellence and Efficiency

On November 7, 2019, an Information Item, including the draft Strategic Plan, was presented during the Board of Directors meeting. Staff is now recommending final approval of the 2020-2022 Strategic Plan. Upon approval by the Board of Directors, staff will finalize the graphic design for publication of the 2020-2022 Strategic Plan consistent with CalOptima branding guidelines.

The priority areas will support planning and development of CalOptima programs and initiatives over the course of the next few calendar years. These will include, for example, development of the

Back to Agenda

expenditure plan for intergovernmental transfer funds expected during Fiscal Year 2020 and upcoming quality initiatives. Staff will begin to seek stakeholder input and return to your Board for approval of the expenditure plans, as appropriate.

Fiscal Impact
The recommended action to authorize CalOptima's 2020-2022 Strategic Plan is a budgeted item. The CalOptima Fiscal Year 2019-20 Operating Budget, approved by the CalOptima Board of Directors on June 6, 2019, included $50,000 to fund this action.

Rationale for Recommendation
Development of the proposed Strategic Plan is consistent with the direction provided by the Board of Directors to support planning and development of CalOptima programs and initiatives during 2020-2022.

Concurrence
Gary Crockett, Chief Counsel

CHAPMAN
CONSULTING

CalOptima Strategic Plan 2020-2022

DOCUMENT PENDING GRAPHIC DESIGN

BY:
ATHENA CHAPMAN & CAROLINE DAVIS
NOVEMBER 15, 2019

Back to Agenda

Message from CEO

Like many of you, I consider the beginning of the new 2020 decade as an opportunity to look ahead and to plan. So, it is the perfect time to launch CalOptima's next Strategic Plan, for 2020–2022. The guidance it offers and the priorities it sets have been carefully considered by a wide variety of leaders, including our Board of Directors, advisory committee members, executive staff, community stakeholders and industry consultants. Collaboration strengthens our plan and reflects our Better. Together. approach to quality health care for Orange County's vulnerable low-income residents.

If this decade is anything like the last, the one constant will be change. Recognition of this fact is central to the content of CalOptima's Strategic Plan. An overview of the health care landscape explains the federal, state and local drivers of change, followed by our strategic priorities and objectives in this environment.

Responding effectively in dynamic conditions does not mean CalOptima will alter our mission or vision, both of which are focused on members. Our commitment to members is as strong as ever, and you will see that dedication underlying all the priority areas, from innovation and community partnerships to value, quality and operational excellence. While we may adjust our efforts along the way in response to regulatory changes or community needs, we will not waver about putting members first.

And one final comment about 2020 — it's CalOptima's 25th anniversary year. We celebrate you and all the providers, community-based organizations, elected officials and stakeholders who partner with us. Together, we have accomplished so much, including statewide recognition year after year as a leading Medi-Cal health plan. Our shared goal of a healthier Orange County has brought us far and will carry us confidently into the future.

Michael Schrader
Chief Executive Officer

About CalOptima

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

CalOptima's Vision

To be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes for all our members

Products

Medi-Cal (California's Medicaid Program): For low-income children, adults, seniors and persons with disabilities.

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan): For people who qualify for both Medicare and Medi-Cal, combining Medicare and Medi-Cal benefits. Also included are benefits for

worldwide emergency care, dental care, vision care and fitness benefits. Other benefits are transportation to medical services and a Personal Care Coordinator.

OneCare (HMO SNP): A Medicare Advantage Special Needs Plan for low-income seniors and people with disabilities who qualify for both Medicare and Medi-Cal. Benefits are covered in one single plan, making it easier to get health care.

Program of All-Inclusive Care for the Elderly (PACE): A long-term comprehensive health care program that helps older adults remain independent as possible. PACE coordinates and provides all needed preventive, primary, acute and long-term care services so seniors can continue living in their community. PACE provides all the acute and long-term care services covered by Medicare and Medi-Cal.

As of September 30, 2019, CalOptima has approximately 730,000 enrollees[i]: **(to be converted to pie chart in final version)**

- Medi-Cal: 711,968
- OneCare Connect (Cal MediConnect): 14,186
- OneCare: 1,564
- PACE: 356

Health Insurance Coverage in Orange County

CalOptima covers over 20% of Orange County residents.[ii]

Current Health Insurance Coverage Type	Orange County
Uninsured	6.7%
Medicare & Medicaid (Dual Eligibles)	3.0%
Medicare	11.2%
Medicaid	19.1%
Employment-based	51.8%
Privately Purchased	7.5%
Other Public Coverage	0.7%

CalOptima Profile[iii]

Members by Age (to be converted to pie chart in final version):

- Age 0-18 40%
- Age 19-64 48%
- Age 65+ 12%

Low Administrative Costs:

CalOptima spends nearly 96 cents of every dollar on member care and only 4 cents on program administration, which reinforces our commitment and mission as a community health plan that provides cost-effective quality health care services in a compassionate manner.

Provider Network Composition:

CalOptima has a strong provider network, which includes the contracted health networks, to serve our members:

- 1,567 primary care providers
- 6,944 specialists
- 40 acute and rehab hospitals
- 35 community health centers
- 570 pharmacies
- 100 long-term care facilities
- 5 PACE alternate care settings

High-Quality Care:

CalOptima offers high-quality care to our members:

- For five years in a row, CalOptima was the top rated Medi-Cal plan in California, according to the National Committee for Quality Assurance (NCQA) Medicaid Health Insurance Plan Ratings (2014-2019).
- For 2019-2020, no other health plan received a higher rating.
- NCQA has awarded an accreditation status of Commendable to CalOptima Medi-Cal.

Health Care Landscape Review

CalOptima's 2020-2022 Strategic Plan reflects the need to be responsive to a wide variety of federal, state and local priorities, considerations and issues. The landscape review is a summary of highlights from a comprehensive Environmental Scan that was completed to inform the Strategic Plan.

Federal Landscape

At the federal level, the policy landscape has been characterized by uncertainty for the last three years, and this is expected to continue for the foreseeable future. The Centers for Medicare and Medicaid Services (CMS), which provides the federal funding for, and oversight of, California's Medi-Cal program, has established a set of strategic priorities focused on driving innovation, implementing patient-centric approaches, and demonstrating results that improve care and lower costs. CalOptima will look to CMS's goals to prioritize development of innovative approaches that are aligned with the federal government. In addition, federal immigration policy may negatively impact Medi-Cal enrollment.

State Landscape

Within California, the health policy landscape is in transition with the election of Governor Newsom in November 2018. Governor Newsom has an ambitious health care agenda focused on expanding coverage for all Californians and reigning in costs. Within the California Department of Health Care Services (DHCS), key initiatives are underway that will shape the future of the Medi-Cal program and impact CalOptima's work over the next three years.

Medi-Cal Vision: 2021 and Beyond

The current federal Section 1115 Medicaid waiver, referred to as Medi-Cal 2020, expires at the end of 2020. As part of renewing the waiver, DHCS has launched a major restructuring of Medi-Cal, known as California Advancing and Innovating Medi-Cal (CalAIM), which is designed to reduce the complexity of the program, focus on population health and increase the use of value-based purchasing strategies. CalOptima will contribute to the CalAIM discussions and, ultimately, to the implementation of Medi-Cal's next chapter.

Prescription Drug Carve-Out

On his first day in office, Governor Newsom signaled his intent to address rising pharmacy costs by shifting to bulk purchasing of prescription drugs for all government programs, including Medi-Cal (the largest purchaser in the state). CalOptima will continue to work closely with DHCS on the design of the carve-out to minimize the impacts on our members and their health.

Future of the Coordinated Care Initiative and Cal MediConnect

The Coordinated Care Initiative (CCI) focuses on integrating delivery of medical, behavioral and long-term services and supports (MLTSS) benefit into California's Medi-Cal care delivery system. The CCI also includes the Cal MediConnect (CMC) duals demonstration, combing Medicare and Medi-Cal into a single program. CCI and CMC are currently operating in only seven counties and the federal authority for CMC is scheduled to sunset on December 31, 2022. As part of the CalAIM initiative, DHCS has proposed that all Medi-Cal managed care plans, including CalOptima, be required to operate a Dual-eligible Medicare Advantage Special Needs Plan (D-SNP) by January 1, 2023 and assume responsibility for all Medi-Cal long-term care services effective January 1, 2021. CalOptima will engage with DHCS and CMS on the CCI andCMC transitions.

Orange County Landscape

CalOptima is an integral part of the business community and the health care sector in Orange County. As the sole Medi-Cal plan in the County, CalOptima is in a unique position to impact care delivery and partner with County agencies and other stakeholders to improve access to care and quality for all members.

Homelessness and Behavioral Health

In Orange County, as across the state, the population of individuals experiencing homelessness has increased significantly over the past few years. Orange County has focused on developing a system of care that recognizes a multi-faceted approach is necessary to respond to the needs of County residents experiencing homelessness. CalOptima has committed $100 million to fund homeless health programs in the County; for example, CalOptima is funding programs in collaboration with its community health centers to provide members on-call medical services care in the field and increased preventive and primary care at shelters, establishing an internal homeless response team, supporting hospital discharge coordination, recuperative care and respite care.

In 2018, local public and private stakeholders came together to work on behavioral health issues. Under this initiative, known as Be Well OC, a regional wellness center will be constructed in Orange County to serve individuals with mental health needs regardless of payor source. CalOptima is participating in this

collaborative by pre-paying for services at the Be Well OC wellness center. Be Well OC is part of the larger Mind OC initiative to integrate behavioral health services across silos to address social determinants of health.

CalOptima Workforce Needs

CalOptima will continue to face an extremely competitive employment environment over the next three years. The high cost of living in Orange County coupled with the County's low unemployment rate, staff retirements and turn-over contribute to a tight labor market.

Physician Networks and Access to Care

Across California, there are concerns about access to care, the rising cost of living, and a lack of physicians and other health workers. These issues are particularly acute in the Medi-Cal program. To address access issues, CalOptima will continue to develop stronger networks with innovative value-based payment arrangements over the next three years.

Strategic Plan Development Process

To develop our 2020-2022 Strategic Plan, we gathered input from a wide range of CalOptima stakeholders:

- CalOptima's Board members, Executive Team and Advisory Committee leaders were interviewed to gather feedback about the current strategic plan as well as the issues and challenges facing the health plan over the next three years.
- Then, we held a Strategic Planning Session with the Board to review the findings from the interviews and to identify and discuss the priorities for the next strategic plan given the health care landscape in which CalOptima operates.
- Following the Strategic Planning Session, we held a joint meeting of all the Advisory Committees to solicit their input on the strategic priorities. We also convened Health Network representatives to gather their input on the next strategic plan.
- The draft 2020-2022 Strategic Plan was presented to the Board on **November 7**, 2019 for review and discussion.
- The final 2020-2022 Strategic Plan was adopted by the Board on **Month ##,** 2019.

Strategic Priorities & Objectives

Our members are the essential focus of the Priorities and Objectives for the 2020-2022 Strategic Plan and are supported by the programs and services provided by CalOptima.

Innovate & Be Proactive

- Anticipate Likely CMS And DHCS Priorities
- Identify and Collaborate on Local Priorities and Needs
- Leverage New Federal and State Programs and Services to Improve Access and Quality of Care for Members
- Seek Opportunities to Further Integrate Care for Members

Expand CalOptima's Member-Centric Focus

- Focus on Population Health
- Strengthen Provider Network and Access to Care
- Enhance Member Experience and Customer Service

Strengthen Community Partnerships

- Increase Collaboration with Providers and Community Stakeholders to Improve Care
- Utilize Strong Advisory Committee Participation to Inform Additional Community Engagement Strategies

Increase Value and Improve Care Delivery

- Evaluate and Implement Value-Based Purchasing Strategies that Drive Quality
- Deploy Innovative Delivery Models to Address Social Determinants of Health and Homelessness
- Maintain Focus on Providing High-Quality Care Provided to Members

Enhance Operational Excellence and Efficiency

- Maintain Strong Culture of Compliance
- Preserve CalOptima's Financial Stability
- Invest in Infrastructure and Efficient Processes
- Engage Workforce and Identify Development Opportunities

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 4, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

25. Consider Authorizing Contract with Vendor for Consulting Services Related to CalOptima's Strategic Plan 2020-2022

Contact

Candice Gomez, Executive Director, Program Implementation (714) 246-8400

Recommended Actions

1. Approve recommended consultant Chapman Consulting for consulting services for the CalOptima Strategic Plan 2020-2022 activities;
2. Authorize the Chief Executive Officer (CEO) with the assistance of Legal Counsel to enter into an agreement with the recommended consulting organization; and
3. In the event CalOptima and Chapman Consulting are unable to reach agreeable contract terms within thirty (30) days, authorize the CEO, with the assistance of Legal Counsel, to enter into an agreement with the next qualified bidder, Pacific Health Consulting Group for consulting services for the CalOptima Strategic Plan 2020-2022 activities.

Background

At the February 7, 2019, CalOptima Board of Directors meeting, staff presented an Informational Item on the Year 2 Progress Report of CalOptima's 2017-2019 Strategic Plan and a Planning Process for CalOptima's 2020-2022 Strategic Plan.

The 2017-2019 Strategic Plan will expire at the end of the 2019 calendar year. Following CalOptima's competitive bidding process in accordance with CalOptima Policy GA.5002: Purchasing, staff initiated a Request for Proposal (RFP) on January 9, 2019, for consulting services for the CalOptima 2020-2022 Strategic Plan activities.

Discussion

On February 20, 2019, CalOptima received seven (7) RFP responses for strategic planning consulting services from the following organizations:

- Chapman Consulting
- Curt Pringle & Associates
- Medecision, Inc.
- Milliman, Inc.
- Optum
- Pacific Health Consulting Group
- Spring Street Exchange

The submitted proposals were reviewed by an evaluation team consisting of representatives from Strategic Development, Government Affairs, Program Implementation, Health Network Management, Vendor Management and Customer Service. Additionally, the top two vendors (Chapman Consulting and Pacific Health Consulting Group) were invited for an interview.

Back to Agenda

The recommended consultant will help facilitate several activities, including, but not limited to: review of CalOptima's previous Strategic Plan and specified data; interviews and planning sessions with members of CalOptima's Board of Directors executive level staff, and CalOptima Advisory Committees; engagement with key stakeholders; develop a draft of the Strategic Plan; and present a final plan to the Board of Directors.

Vendor	Final Weighted Score
Chapman Consulting	19.15
Pacific Health Consulting Group	11.25

Based on the final weighted scores, staff recommends contracting with Chapman Consulting for consulting services for the CalOptima Strategic Plan 2020-2022 activities in an amount not to exceed $81,950.

Chapman Consulting, LLC was established in January of 2018 as an independent consulting firm. Prior to establishing an independent consulting firm, the principal of Chapman Consulting, Ms. Athena Chapman, previously worked with the California Association of Health Plans (CAHP) as the Vice President of State programs. Ms. Chapman also worked with the Center for Medicare & Medicaid Services (CMS) as well as at the Department of Health Care Services (DHCS). Chapman Consulting has expertise in health care policy, delivery, administration, and financing and specific expertise in the Medi-Cal program. The proposed consultant has worked with health plans that provide coverage in the commercial market, the Covered California healthcare exchange and Medicaid and has a strong track record of building relationships between the government, providers, purchasers, vendors, and other stakeholders. Chapman Consulting can take complex health policy issues and provide succinct and relevant policy analysis and program recommendations. The proposed consultant also has extensive experience with meeting facilitation and has successfully developed several strategic and project-based plans for health care organizations. Chapman Consulting provides strategic planning, meeting facilitation, organizational support, and regulatory and statutory analysis, to a variety of health care related organizations. Chapman Consulting recently worked with the Coalition of Orange County Community Health Centers.

In the event CalOptima cannot reach agreeable contract terms with Chapman Consulting within thirty (30) days of CalOptima providing a response to any proposed contract change, staff recommends the Board of Directors authorize a similar process with Pacific Health Consulting Group and attempt to reach agreement on contract terms within a thirty (30) day timeframe.

Upon completion of the contracted work, the consulting organization will provide CalOptima and the Board of Directors with an updated organizational Strategic Plan for 2020-2022.

Back to Agenda

Fiscal Impact

The recommended action to authorize an agreement for consulting services for the CalOptima Strategic Plan 2020-2022 activities has no additional fiscal impact for the current fiscal year. The CalOptima Fiscal Year 2018-19 Operating Budget approved by the Board on June 7, 2018 included $50,000 for this purpose. Management will include the remaining $31,950 in the CalOptima FY 2019-20 Operating Budget.

Rationale for Recommendation

Development of the proposed Strategic Plan is consistent with direction provided by the Board of Directors at the February 7, 2019, meeting.

Concurrence

Gary Crockett, Chief Counsel

Scope of Work
CalOptima
Strategic Planning Development

Anticipated Consultant Outcomes
To develop and approve the 2020-2022 Strategic Plan in collaboration with CalOptima Board of Directors, Executive Leadership and Community stakeholders.

The CONTRACTOR shall provide the following tasks and activities. Please note the dates provided are estimated dates and are for planning purposes only.

1. **Project Initiation** — April 2019
   - Define key deliverables
   - Identify key contacts
   - Establish detailed work plan and milestones

2. **Discovery** — May-June 2019
   - Review previous strategic plans
   - Interview CalOptima Board of Directors
   - Interview CalOptima Executive team and other key staff
   - Identify strategic priority areas
   - Identify over-arching themes and outcomes
   - Identify key stakeholders

3. **Planning and Design** — June-July 2019
   - Consolidate feedback received during interview sessions
   - Facilitate planning session with CalOptima Board of Directors
   - Establish stakeholder engagement plan

4. **Stakeholder Engagement** — July-August 2019
   - Engage CalOptima advisory committees
     - Member Advisory Committee
     - Provider Advisory Committee
     - OneCare Connect Member Advisory Committee
     - Whole Child Model Family Advisory Committee
   - Engage and interview other key stakeholders/key informants
   - Consolidate feedback

5. **Strategic Plan Development** — August -September 2019
   - Analyze feedback
   - Develop draft strategic plan

6. **Finalize Strategic Plan** — September-December 2019
   - Finalize draft
   - Review draft with Board of Directors
   - Incorporate feedback
   - Review Final with Board of Directors

Back to Agenda

Board of Directors Meeting
November 7, 2019

CalOptima Draft 2020-2022 Strategic Plan

Background
At the February 7, 2019, CalOptima Board of Directors (Board) meeting, staff presented an Information Item on the Year two (2) Progress Report of CalOptima's 2017-2019 Strategic Plan; the current Strategic Plan will expire at the end of the 2019 calendar year. The Information Item also included the planning process for CalOptima's 2020-2022 Strategic Plan. During the April 24, 2019 meeting, the Board approved a contract with Chapman Consulting to provide consulting services related to the CalOptima 2020-2022 Strategic Plan activities.

Discussion
Chapman Consulting performed work to support the development of the 2020-2022 Strategic Plan. Activities included reviewing the current and previous Strategic Plans, conducting Board of Directors and Executive staff interviews, facilitating a full-day Board of Directors planning session and recently also facilitating a joint meeting of CalOptima's Advisory Committees (Member Advisory Committee, OneCare Connect Member Advisory Committee, Whole-Child Model Family Advisory Committee and Provider Advisory Committee), as well as a meeting with Health Network representatives, and developing an Environmental Scan. A draft of the 2020-2022 Strategic Plan and the Environmental Scan are included for review.

Next Steps
Your Board's feedback to the draft, if any, will be incorporated by Chapman Consulting. Staff expects to request approval of the CalOptima 2020-2022 Strategic Plan during the December 2019 Board meeting. The priority areas will support planning and development of programs and initiatives over the course of the next few years. These will include, for example, development of the Expenditure Plan for Intergovernmental Transfer Funds expected during Fiscal Year 2020 and upcoming Quality Initiatives; staff will begin to seek stakeholder input and then return to your Board for approval of the Expenditure Plans, as appropriate.

Message from CEO

CalOptima Staff to Provide

About CalOptima

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

CalOptima's Vision

To be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes for all our members

Products

Medi-Cal (California's Medicaid Program): For low-income children, adults, seniors and persons with disabilities.

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan): For people who qualify for both Medicare and Medi-Cal, combining Medicare and Medi-Cal benefits. Also included are benefits for worldwide emergency care, dental care, vision care and fitness benefits. Other benefits are transportation to medical services and a Personal Care Coordinator.

OneCare (HMO SNP): A Medicare Advantage Special Needs Plan for low-income seniors and people with disabilities who qualify for both Medicare and Medi-Cal. Benefits are covered in one single plan, making it easier to get health care.

Program of All-Inclusive Care for the Elderly (PACE): A long-term comprehensive health care program that helps older adults remain independent as possible. PACE coordinates and provides all needed preventive, primary, acute and long-term care services so seniors can continue living in their community. PACE provides all the acute and long-term care services covered by Medicare and Medi-Cal.

As of August 30, 2019, CalOptima has over 760,000 enrollees[i]: **(converted to pie chart in final version)**

- Medi-Cal: 746,052
- OneCare Connect (Cal MediConnect): 14,090
- OneCare: 1,545
- PACE: 345

Health Insurance Coverage in Orange County

CalOptima covers over 20% of Orange County residents.[ii]

Current Health Insurance Coverage Type	Orange County
Uninsured	6.7%

Medicare & Medicaid (Dual Eligibles)	3.0%
Medicare	11.2%
Medicaid	19.1%
Employment-based	51.8%
Privately Purchased	7.5%
Other Public Coverage	0.7%

CalOptima Enrollee Profile[iii]

Members by Age (converted to pie chart in final version):

- Age 0-18 40%
- Age 19-64 48%
- Age 65+ 12%

Low Administrative Costs:

CalOptima spends nearly 96 cents of every dollar on member care and only 4 cents on program administration, which reinforces our commitment and mission as a community health plan that provides cost-effective quality health care services in a compassionate manner.

Provider Network Composition:

CalOptima has a strong provider network, which includes the contracted health networks, to serve our members:

- 1,569 primary care providers
- 6,854 specialists
- 40 acute and rehab hospitals
- 33 community health centers
- 571 pharmacies
- 99 long-term care facilities
- 5 PACE alternate care settings

High-Quality Care:

CalOptima offers high-quality care to our members:

- For five years in a row, CalOptima was the top rated Medi-Cal plan in California, according to the National Committee for Quality Assurance (NCQA) Medicaid Health Insurance Plan Ratings (2014-2019).
- For 2019-2020, no other health plan received a higher rating.
- NCQA has awarded an accreditation status of Commendable to CalOptima Medi-Cal.

DRAFT

Health Care Landscape Review

CalOptima's 2020-2022 Strategic Plan reflects the need to be responsive to a wide variety of federal, state and local priorities, considerations and issues. The landscape review is a summary of highlights from a comprehensive Environmental Scan that was completed to inform the Strategic Plan.

Federal Landscape

At the federal level, the policy landscape has been characterized by uncertainty for the last three years, and this is expected to continue for the foreseeable future. The Centers for Medicare and Medicaid Services (CMS), which provides the federal funding for, and oversight of, California's Medi-Cal program, has established a set of strategic priorities focused on driving innovation, implementing patient-centric approaches, and demonstrating results that improve care and lower costs. CalOptima will look to CMS's goals to prioritize development of innovative approaches that are aligned with the federal government. In addition, federal immigration policy may negatively impact Medi-Cal enrollment.

State Landscape

Within California, the health policy landscape is in transition with the election of Governor Newsom in November 2018. Governor Newsom has an ambitious health care agenda focused on expanding coverage for all Californians and reigning in costs. Within the California Department of Health Care Services (DHCS), key initiatives are underway that will shape the future of the Medi-Cal program, and impact CalOptima's work over the next three years.

Medi-Cal Vision: 2021 and Beyond

The current federal Section 1115 Medicaid waiver, referred to as Medi-Cal 2020, expires at the end of 2020. As part of renewing the waiver, DHCS is launching a major restructuring of Medi-Cal, known as California Advancing and Innovating Medi-Cal (CalAIM), which is designed to reduce the complexity of the program, focus on population health and increase the use of value-based purchasing strategies. CalOptima will contribute to the CalAIM discussions and, ultimately, to the implementation of Medi-Cal's next chapter.

Prescription Drug Carve-Out

On his first day in office, Governor Newsom signaled his intent to address rising pharmacy costs by shifting to bulk purchasing of prescription drugs for all government programs, including Medi-Cal (the largest purchaser in the state). CalOptima will continue to work closely with DHCS on the design of the carve-out to minimize the impacts on our members and their health.

Future of the Coordinated Care Initiative and Cal MediConnect

The Coordinated Care Initiative (CCI) focuses on integrating delivery of medical, behavioral and long-term services and supports (MLTSS) benefit into California's Medi-Cal care delivery system. The CCI also includes the Cal MediConnect (CMC) duals demonstration, combing Medicare and Medi-Cal into a single program, which is currently set to expire at the end of 2022. CalOptima will continue to engage with DHCS and CMS on how the CCI and CMC will be structured as part of the CalAIM initiative.

DRAFT

Orange County Landscape

CalOptima is an integral part of the business community and the health care sector in Orange County. As the sole Medi-Cal plan in the County, CalOptima is in a unique position to impact care delivery and partner with County agencies and other stakeholders to improve access to care and quality for all members.

Homelessness and Behavioral Health

In Orange County, as across the state, the population of individuals experiencing homelessness has increased significantly over the past few years. Orange County has focused on developing a system of care that recognizes a multi-faceted approach is necessary to respond to the needs of County residents experiencing homelessness. CalOptima has committed $100 million to fund homeless health programs in the County; for example, CalOptima is funding programs in collaboration with its community health centers to provide members on-call medical services care in the field and increased preventive and primary care at shelters, establishing an internal homeless response team, supporting hospital discharge coordination, recuperative care and respite care.

In 2018, local public and private stakeholders came together to work on behavioral health issues. Under this initiative, known as Be Well OC, a regional wellness center will be constructed in Orange County to serve individuals with mental health needs regardless of payor source. CalOptima is participating in this collaborative by pre-paying for services at the Be Well OC wellness center. Be Well OC is part of the larger Mind OC initiative to integrate behavioral health services across silos to address social determinants of health.

CalOptima Workforce Needs

CalOptima will continue to face an extremely competitive employment environment over the next three years. The high cost of living in Orange County coupled with the County's low unemployment rate, staff retirements and turn-over contribute to a tight labor market.

Physician Networks and Access to Care

Across California, there are concerns about access to care, the rising cost of living, and a lack of physicians and other health workers. These issues are particularly acute in the Medi-Cal program. To address access issues, CalOptima will continue to develop stronger networks with innovative value-based payment arrangements over the next three years.

Strategic Plan Development Process

To develop our 2020-2022 Strategic Plan, we gathered input from a wide range of CalOptima stakeholders:

- CalOptima's Board members, Executive Team and Advisory Committee leaders were interviewed to gather feedback about the current strategic plan as well as the issues and challenges facing the health plan over the next three years.
- Then, we held a Strategic Planning Session with the Board to review the findings from the interviews and to identify and discuss the priorities for the next strategic plan given the health care landscape in which CalOptima operates.

- Following the Strategic Planning Session, we held a joint meeting of all the Advisory Committees to solicit their input on the strategic priorities. We also convened Health Network representatives to gather their input on the next strategic plan.
- The draft 2020-2022 Strategic Plan was presented to the Board on **Month ##**, 2019 for review and discussion.
- The final 2020-2022 Strategic Plan was adopted by the Board on **Month ##,** 2019.

Strategic Priorities & Objectives

Our members are the essential focus of the Priorities and Objectives for the 2020-2022 Strategic Plan and are supported by the programs and services provided by CalOptima.

Innovate & Be Proactive

- Anticipate Likely CMS And DHCS Priorities
- Identify and Collaborate on Local Priorities and Needs
- Leverage New Federal and State Programs and Services to Improve Access and Quality of Care for Members
- Seek Opportunities to Further Integrate Care for Members

Expand CalOptima's Member-Centric Focus

- Focus on Population Health
- Strengthen Provider Network and Access to Care
- Enhance Member Experience and Customer Service

Strengthen Community Partnerships

- Increase Collaboration with Providers and Community Stakeholders to Improve Care
- Utilize Strong Advisory Committee Participation to Inform Additional Community Engagement Strategies

Increase Value and Improve Care Delivery

- Evaluate and Implement Value-Based Purchasing Strategies that Drive Quality
- Deploy Innovative Delivery Models to Address Social Determinants of Health and Homelessness
- Maintain Focus on Providing High-Quality Care Provided to Members

Enhance Operational Excellence and Efficiency

- Maintain Strong Culture of Compliance
- Preserve CalOptima's Financial Stability
- Invest in Infrastructure and Efficient Processes
- Engage Workforce and Identify Development Opportunities

CALOPTIMA 2020-2022 STRATEGIC PLAN

ENVIRONMENTAL SCAN

BY:
ATHENA CHAPMAN & CAROLINE DAVIS
SEPTEMBER 19, 2019

Back to Agenda

Introduction

CalOptima's mission is "to provide members with access to quality health care services delivered in a cost-effective and compassionate manner," and the health plan's vision is "to be a model public agency and community health plan that provides an integrated and well-coordinated system of care to ensure optimal health outcomes" for its members. The environment in which the health plan realizes its mission and vision is complex, reflecting the intersection of federal- and state-level priorities with local needs and goals. This memo provides an overview of the federal, state and local landscape that set the stage for the opportunities for and challenges to CalOptima's work and how that interacts with its daily operations and longer-term strategic vision.

The information from the environmental scan has been integrated with the themes and insights obtained from the interviews with CalOptima's Board of Directors, Executive Team, and Advisory Committee provides the framework for the 2020-2022 CalOptima Strategic Plan. The data in the environmental scan is as of July 2019.

CalOptima

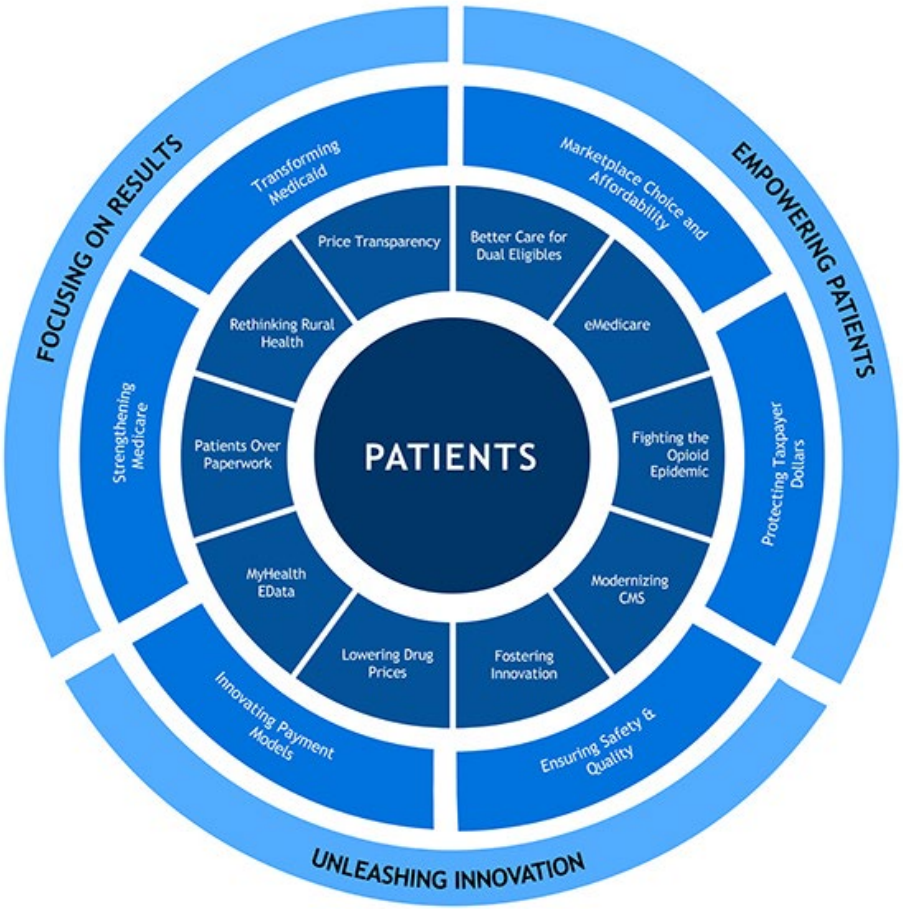
In 1993, the Orange County Board of Supervisors created CalOptima as a County Organized Health System (COHS). Initially created to serve the Medi-Cal program, CalOptima currently offers the following four programs:

- Medi-Cal – a public-sector health insurance program that serves low-income individuals and families
- OneCare Connect (Cal MediConnect Plan) – a program that serves members eligible for both Medi-Cal and Medicare coverage (i.e., the dual-eligible population). This program combines the Medicare and Medi-Cal benefits into a single plan and offers additional benefits as well.
- OneCare – a Medicare Dual Special Needs Plan (D-SNP) for individuals who qualify for both Medicare and Medi-Cal.
- Program for All-Inclusive Care for the Elderly (PACE) – a community-based program that supports frail seniors by providing coordinated and integrated services to help them continue to live independently. PACE provides the acute and long-term care services covered by both Medicare and Medi-Cal.

As of July 2019, CalOptima has over 750,000 enrollees across the following products:

- Medi-Cal: 739,771
- OneCare Connect (Cal MediConnect): 14,257
- OneCare:1,530
- PACE: 335[i]

As a COHS plan, CalOptima is the sole Medi-Cal managed care plan in Orange County, which makes it an integral part of the safety-net. CalOptima has demonstrated it can take advantage of its unique role and have a direct impact on care delivery, cost, and quality for this population. For the five years in a row, CalOptima received recognition as the top-rated health plan in California for outstanding quality, according to the National Committee for Quality Assurance (NCQA); For 2019-2020, no other health plan



received a higher rating. CalOptima's NCQA accreditation was recently renewed at the Commendable level again.

Additionally, CalOptima has continued to explore additional lines of business and pilot programs that are in line with the needs of its community and to test new ways to deliver high-quality care for its members. CalOptima is in a strong strategic position to build on its successes and continue to explore additional ways to support its membership and local community.

Federal Landscape

For the last several years, the federal health policy landscape has been defined by uncertainty, and this will continue into the foreseeable future. This debate could be restarted depending on the outcomes of the 2020 election. Further, lawsuits seeking to repeal the ACA continue to work their way through the federal court system. The growth in the federal deficit also increases the likelihood of Congressional action to reduce Medicaid and Medicare spending, which could include converting Medicaid financing into a block grant or per capita cap structure.

The Centers for Medicare and Medicaid Services (CMS), which provides the federal funding and oversight for the Medicaid program, has established 16 strategic initiatives, which are shown below.[ii]

Back to Agenda

CMS' strategic priorities are focused on driving innovation, implementing patient-centric approaches, and demonstrating results that improve care and lower costs. These priorities can be used to help guide how CalOptima can strategically position itself and prepare to proactively work toward CMS's goals as well as provide insights into potential areas of focus at the federal level for both Medicaid and Medicare. The ability to anticipate changes at the federal level and minimize the disruption caused by the implementation of new federal requirements and initiatives will allow CalOptima to be proactive and innovative.

In separate but relevant activity, the federal Administration's recent actions related to public programs may have a negative impact on total Medicaid enrollment. A recent fact sheet from the Kaiser Family Foundation notes concerns about current immigration policy and the impacts on enrollment in public sector programs (including Medicaid) by lawfully present immigrants, citizen children immigrants, and undocumented populations.[iii] The recently-published "public charge" rule also is likely to lead to a decline in Medicaid enrollment as it expands the programs used to deem a legal immigrant a "public charge" (which can make it more difficult for an individual to gain legal permanent residency status or obtain a visa to enter the U.S.) to include Medicaid. [iv] It is expected the public charge rule will be challenged in court, but the Medicaid enrollment impacts in California may be felt more immediately than this issue can be resolved.

State Landscape

Within California, the health policy landscape is in transition with the election of Governor Newsom in November 2018. The appointment of a consumer-focused and innovative health policy team demonstrates that the Governor intends to continue to drive significant changes across the health care landscape in California. Newsom has an ambitious health care agenda that includes moving California to some form of universal coverage. Additionally, the Newsom Administration has used its healthcare platform to take several significant actions in its first six months:

- Appointment of Nadine Burke Harris, MD as the first Surgeon General for California. Surgeon General Dr. Burke Harris has a strong focus on how Adverse Childhood Experiences (ACES) and social determinants of health impact health outcomes;
- Appointment of Tom Insel as the first state Mental Health Czar with a directive to develop a blueprint to address behavioral health issues across the state;
- Release of an Executive Order on bulk pharmacy purchasing to reduce rising prescription drug costs, including the carve-out of pharmacy from the Medi-Cal managed care plans;
- Release of an Executive Order that calls for the development of a "Master Plan for Aging" by October 2020 with input from a Cabinet-Level Workgroup that will work with a Stakeholder Advisory Committee comprised of a diverse set of stakeholders with both a research and long-term care subcommittee structure;
- Establishment of the Healthy California for All Commission to develop a plan that includes options for advancing progress toward achieving a health care delivery system in California that provides coverage and access through a unified financing system for all Californians.
- Enactment of a provision to expand full scope Medi-Cal coverage for undocumented adults up to age 26 using state General Funds to cover the costs of enrollment and coverage;

- Enactment of a California-specific individual mandate penalty and increased subsidies for individuals and families above the ACA amounts to provide stability in the individual insurance market and increase coverage for individuals with incomes above the Medi-Cal eligibility requirements; and

Implementation of the Governor's health policy agenda is the responsibility of the Secretary of the California Health & Human Services (CHHS) Agency, Mark Ghaly, MD. The Secretary oversees 15 Departments, including the Department of Health Care Services (DHCS) and the Department of Managed Health Care (DMHC). While CalOptima works closely with DHCS, it is important to understand the larger health care context in California as the state continues to move towards additional integration across public programs to address social determinants of health and complex issues such as homelessness. This will require collaboration with multiple state-level departments which will impact CalOptima's work.

CHHS' current guiding principles include the following:

1. Adopt a culture of collaboration and innovation;
2. Focus on outcomes & value generation;
3. Use data to drive action;
4. Put the person back in person-centered; and
5. See the whole person. [v]

These principles will guide DHCS's work, and CalOptima can use it to help think proactively and strategically about likely actions that will be taken over the next several years. Some initiatives are starting to take shape at DHCS and should be factored into CalOptima's next strategic plan to ensure necessary resources will be available and that the health plan can be as proactive in its preparations as possible. While DHCS does not have a current strategic plan,[vi] the Department has shared priorities that are in-line with the CHHS vision to provide a better patient experience with improved outcomes and lower costs.

The following graphic, which may be updated in the next strategic plan, defines the high-level goals of DHCS. [vii] This highlights many of the same themes outlined by CHHS and CMS, including the focus on the member, providing high-quality care, and using public dollars in an effective and efficient manner.

With the rapid growth of the program due to the addition of the Medi-Cal expansion population in 2014, Medi-Cal is the largest Medicaid program in the nation, providing coverage to one-third of all Californians. In more recent years, Medi-Cal enrollment growth has leveled off (and even declined slightly), but the 2019-2020 Budget provision extending Medi-Cal eligibility to undocumented immigrants between the ages of 19-25 is projected to provide full-scope Medi-Cal coverage to an additional 138,000 individuals when it takes effect in 2020.[viii] As discussed above, however, it is possible enrollment will be lower than anticipated due to federal immigration policy.

Currently, DHCS is engaged in several initiatives and pilots that point to its direction to increase person-centered care and to integrate across programs. These include the Coordinated Care Initiative, Whole-Person Care Pilots, Health Homes, and the Whole-Child Model. CalOptima is currently involved with all these initiatives at some level and has demonstrated a commitment to being innovative and testing new programs that meet the strategic priorities of the state. As these pilots and programs are evaluated and DHCS determines how it will incorporate lessons learned into the broader Medi-Cal program, it is

inevitable there will be some expansion of the programs and some adjustments for the pieces that did not yield expected results. CalOptima is in a strong position to move forward with the state as these projects evolve and to provide input and feedback to DHCS to drive sustainable changes to the Medi-Cal program.

Key Medi-Cal initiatives underway at DHCS that will shape the future direction of the program, and impact CalOptima's work, are discussed below.

Expiration of Federal Section 1115 Medicaid Waiver (Medi-Cal 2020)

The current federal Section 1115 Medicaid waiver expires at the end of 2020. Currently, the entire managed care program (including the authority under which CalOptima operates) is included in the Section 1115 waiver. In addition, the waiver includes authorization for the Whole Person Care Pilots (WPCP), Public Hospital Redesign & Incentives in Medi-Cal (PRIME), the Global Payment Program, Dental Transformation Initiatives, the Drug Medi-Cal Organized Delivery System, California Children's Services (CCS) pilots, and the Coordinated Care Initiative (CCI). The federal government has changed its guidance to states regarding the calculation of "budget neutrality" (all Section 1115 waivers are required to demonstrate they do not cost the federal government more than would otherwise have been spent in the absence of the waiver), which will result in less federal funding for California under a new waiver. This shortfall will drastically reduce the amount of funding available for DHCS to invest in pilot programs and initiatives and will require the transition of many of the activities under the current waiver into sustainable models, which may involve moving those components into the managed care program. The theme of consolidation, alignment, and standardization across the Medi-Cal program is expected to be a significant part of the waiver renewal and is reflected in other activities by DHCS as outlined below. However, because many of these pilot programs, such as the WPCP, vary significantly in design and target populations by county, standardization will present unique challenges for each county, and DHCS will have to identify the components that will be included statewide.

DHCS California Advancing and Innovating Medi-Cal (CalAIM) Initiative

In 2018, DHCS convened a comprehensive set of stakeholders for its Care Coordination Assessment Project to discuss how to improve Medi-Cal care coordination and developed key themes and next steps that emerged from these meetings. [ix] Key finding included the desire to standardize benefits across counties, streamline assessments across programs, and reduce the number of carve-out benefits (such as specialty mental health, dental, and long-term care). DHCS has used the recommendations from the Care Coordination Assessment Project to develop its next set of policy initiatives and program changes, including the newly announced CalAIM initiative. CalAIM is a multi-year initiative with the following objectives: "(1) reducing variation and complexity across the delivery system; (2) identifying and managing member risk and need through population health management strategies; and (3) improving quality outcomes and driving delivery system transformation through value-based initiatives and payment reform."[x]

Throughout 2019 and 2020, DHCS intends to engage stakeholders to discuss both CalAIM and the renewal of Medi-Cal's federal waivers. DHCS has indicated it will transition all existing managed care authorities into a single, consolidated 1915(b) waiver that will include the Medi-Cal Managed Care Plans, the County Mental Health Plans, the Drug-Medi-Cal Organized Delivery System Plans, and the Dental Managed Care Plans. While DHCS has yet to release a detailed CalAIM proposal, they have shared some

limited information about the stakeholder workgroups that will be formed to provide input on the development of CalAIM.[xi] Workgroup topics include: (1) Population Health Management and Annual Health Plan Open Enrollment; (2) NCQA Accreditation; (3) Enhanced Cared Management and In-Lieu-of-Services; (4) Behavioral Health; and (5) Full Integration Pilots.

DHCS Stakeholder Advisory Committee

The DHCS Stakeholder Advisory Committee (SAC) was originally established to provide input on the development of the federal Section 1115 waiver. However, it has evolved over time to become the body DHCS uses to discuss issues well beyond the federal waiver, including health care reform and state developments more broadly. With the upcoming renewal of the Section 1115 waiver, DHCS has stated it will begin to discuss the specific proposals related to transitioning the Medi-Cal 2020 waiver into a sustainable model in October 2019.

DHCS Behavioral Health Stakeholder Advisory Committee

The Behavioral Health Stakeholder Advisory Committee (BH-SAC) is a newly formed, stakeholder workgroup focused on the issues related to the delivery of behavioral health services in Medi-Cal. The current system, which is bifurcated between the health plans (which are responsible for delivering mild-to-moderate services) and the counties (which are responsible for specialty mental health services), is under scrutiny and criticism from many stakeholders. DHCS recently received federal approval to extend the current federal Section 1915(b) Specialty Mental Health Services waiver to the end of 2020 to align with renewal of the Section 1115 waiver. As noted above, DHCS intends to submit a single consolidated federal Section 1915(b) waiver that will include all of the managed care programs across Medi-Cal, including specialty mental health services.

Prescription Drugs Executive Order

On his first day in office, Governor Newsom announced an Executive Order (E.O.) intended to control rising pharmacy costs.[xii] The E.O. includes a shift to bulk purchasing for all government programs, including Medi-Cal (the largest purchaser of prescription drugs in the state). This will involve carving-out the Medi-Cal pharmacy benefit from the health plans, so the state can negotiate for all its programs collectively, which it anticipates will result in lower costs. Even with concerns from Medi-Cal stakeholders and opposition from health plans, DHCS has been instructed to move forward on a very aggressive timeline and complete the transition by January 2021. DHCS recently released an RFP to select a single vendor to manage the entire pharmacy benefit under a fee-for-service arrangement.[xiii] Despite running counter to other actions designed to integrate services and benefits across the Medi-Cal program, it appears pharmacy will be carved-out. Once the shift occurs, the Medi-Cal health plans will need to be prepared to work with the state's pharmacy vendor to access pharmacy data for their members and coordinate care.

DHCS Managed Care Accountability Set

In early 2019, DHCS announced a major change in quality reporting requirements for the Medi-Cal health plans: health plans must report on the complete CMS Core Measures Set for both adults and children (known as the Managed Care Accountability Set in California). [xiv] This represents a significant increase in the number of measures reported and is being implemented for Measurement Year 2019. Additionally, DHCS currently requires that health plans meet a Minimum Performance Level (MPL) of 25

percent and will move to a 50 percent MPL effective for the 2019 Measurement Year. While negotiations between the health plans and DHCS have helped reduce the administrative burden and potential for sanctions in the first year of the transition, this is a heavy lift for the health plans and DHCS, and another indicator of a new Administration that is determined to make changes and maintain aggressive implementation timelines. With themes of quality and value throughout both the federal and state priorities, it is likely the pressure to demonstrate high-value care will continue to be a growing focus of DHCS.

Future of the Coordinated Care Initiative

The Coordinated Care Initiative (CCI), which is currently operating in seven counties, includes the mandatory enrollment of dual eligibles into Medi-Cal Managed Care, implementation of a managed long-term services and supports (MLTSS) benefit, and assumption of risk by the health plans for long-term care placements. [xv] It also includes the Cal MediConnect (CMC) duals demonstration, which has been extended through 2022.[xvi] The CCI has been placed into state law with no sunset date and an expansion of certain elements would be in line with other efforts by DHCS to align and integrate benefits statewide. Notably, DHCS recently announced that, starting in January 2021 (which aligns with the waiver renewal timeline), it will carve-in long-term care benefits to all its managed care models, signaling the move towards standardization of benefits across the state.

The CCI program requires federal waiver authority, and the CMC program requires continued federal approval and negotiation of a three-way contract between DHCS, CMS, and the health plans. The future and status of this program is less certain and may be resolved as part of the Section 1115 waiver discussions and negotiations.

Medi-Cal Managed Care Rates

DHCS must submit actuarially-sound managed care rates to CMS for review and approval. The capitation rates paid to health plans are tied directly to the Medi-Cal benefits included in the health plan contracts. Per federal regulations 42 CFR Section 438.4 (a) defines actuarially sound capitation rates as *"projected to provide for all reasonable, appropriate, and attainable costs that are required under the terms of the contract and for the operation of the MCO…for the time period and the population covered under the terms of the contract."* Meaning that Medi-Cal Managed Care Plan capitation rates only reflect the costs of providing services and populations included in the contract with DHCS.

The complicated rates structure, which has evolved over many years, has led to thousands of individual rate cells that have to be calculated by DHCS every year. DHCS has been moving to speed up its rate development process, which is currently under almost a two-year delay, to provide more timely rates to health plans and to meet CMS requirements for prospective rate setting. In addition, DHCS has recently indicated it is examining how to move to a regional rate-setting model, which would streamline their work and require significantly fewer rate cells. However, many factors will continue to complicate the rate development process, some of which are outside of DHCS' control. These include directed payments to certain providers, retroactive implementation of benefits, delays in CMS review and approval, and other legislative and administrative activities that impact the Medi-Cal program. As DHCS moves to increase value-based payments and streamline the rate setting process, providing quality data that reflects the cost of providing high-value care will become even more important. Health plans will

want to provide input on these transitions to identify downstream and unintended negative consequences and to promote the timely payment of rates.

Encounter Data Reporting

DHCS has continued to put significant pressure on the health plans to provide complete, accurate, and timely encounter data. Under federal Medicaid regulations, CMS can withhold federal funds if the state does not submit this data as required. Additionally, the Department of Managed Health Care (DMHC) has initiated an encounter data taskforce that is charged with working to standardize and improve encounter data reporting across all health plans (Medi-Cal, Commercial, Medicare, etc.). CalOptima will need to be prepared to respond to any future actions that the state takes as it works to enhance encounter data reporting, which is used for both utilization oversight and rate setting purposes. CalOptima should proactively identify where it can improve encounter data collection and be prepared to work collaboratively with its networks and DHCS.

County Landscape

CalOptima is an integral part of the business community and the health care sector in Orange County. It is important to understand how the federal and state priorities intersect with the local landscape and the needs of the community.

Health Insurance Coverage in Orange County

As shown in the table below, Orange County has over 30 percent of its population enrolled in public programs, which includes Medicare and Medi-Cal, in 2017. [xvii] As the sole Medi-Cal plan in the County, CalOptima has a unique position to impact care delivery and examine ways to reach the additional uninsured. For example, CalOptima offers several plans for individuals with both Medicare and Medi-Cal. Its PACE programs for frail seniors has experienced successful growth, in part due to its implementation of the alternative care setting model allowing members to receive services at local Community-Based Adult Services locations. It's OneCare Connect (Cal MediConnect Plan), on the other hand has experienced enrollment and financial performance challenges; the future of this program is uncertain as CMS has approved extension of this program through 2022.

Current Health Insurance Coverage Type	Statewide	Orange County
Uninsured	7.3%	6.7%
Medicare & Medicaid (Dual Eligibles)	4.3%	3.0%
Medicare	10.9%	11.2%
Medicaid	25.0%	19.1%
Employment-based	44.4%	51.8%
Privately Purchased	6.5%	7.5%
Other Public	1.5%	0.7%

Competitive Orange County Labor Market

According to the 2019 Orange County Community Indicators Report, the cost-of-living in Orange County is 91 percent higher than the national average, and among the highest in California. The high cost-of-living is driven largely by high housing costs. In addition, Orange County's unemployment rate (3.0 percent as of June 2019) continues its six-year trend of outperforming state and national unemployment rates (4.2 percent and 3.8 percent respectively).[xviii] The high cost-of-living coupled with a low unemployment rate are both challenges for CalOptima. As a public plan, CalOptima has difficulty competing with the private sector for staff in terms of salary. In addition, the low unemployment rate in the County means the hiring environment is very competitive.

Community Collaboration

Community Engagement

CalOptima believes in strengthening its partnerships by enhancing communications with local community organizations and supporting these important partners serving CalOptima's members' health care needs. For fiscal year (FY) 2018-2019, CalOptima participated in 126 community events to engage members and the public about CalOptima and its programs, health care and support services. Additionally, CalOptima hosts the quarterly Community Alliances Forum, which is designed to keep CalOptima connected to the health plan's community stakeholders. CalOptima also participates in more than 30 collaborative meetings throughout Orange County. Finally, CalOptima understands the importance of keeping the local community informed about health plan activities. Through their monthly community announcements and quarterly e-newsletter (known as "Community Connections"), the CalOptima provides updates on initiatives and shares information about events and training with more than 2,500 individuals and organizations.

System of Care Data Integration

The County of Orange has launched integrated data initiative for the County's System of Care for individuals experiencing homelessness. When complete, this initiative will support information sharing across county agencies touching county residents for services such as health care, law enforcement, court system, social services and other community resources. Shared data will enhance the coordination of services for "high utilizers" of the County's System of Care and may provide earlier opportunities for early intervention before residents become high utilizers. CalOptima will explore opportunities for data exchange to benefit the mutual individuals we serve.

Behavioral Health/Be Well OC

In 2018, local public and private stakeholders came together to work on behavioral health issues. In addition to CalOptima, key participants include the County Board of Supervisors, Providence St. Joseph Health, and Kaiser Permanente. Under this initiative, a regional wellness center is envisioned in Orange County to serve individuals with mental health needs regardless of payor source. The Be Well OC initiative integrates across silos to address social determinants of health and recognizes issues related to the justice system and housing have a significant impact on health and must be considered as part of comprehensive solution. This mirrors concerns, and priorities highlighted by the state and federal

government. CalOptima is well positioned to leverage this local experience to demonstrate its commitment to population health management and effective delivery system transformation.

Homelessness

In Orange County, as across the state, the homeless population has increased significantly over the past few years because of increased housing costs and stagnant wages. To address this problem Orange County has focused on creating a system of care that uses a multi-faceted approach to respond to the needs of County residents experiencing homelessness. The system of care includes five components: behavioral health, health care, housing, community corrections, housing, benefits and support services.[xix] The county's WPCP is an integral part of this work as it is structured to focus on Medi-Cal beneficiaries struggling with homelessness.

CalOptima has responded to this crisis by committing $100 million to fund homeless health programs in the County. Homeless health initiatives supported by CalOptima include:

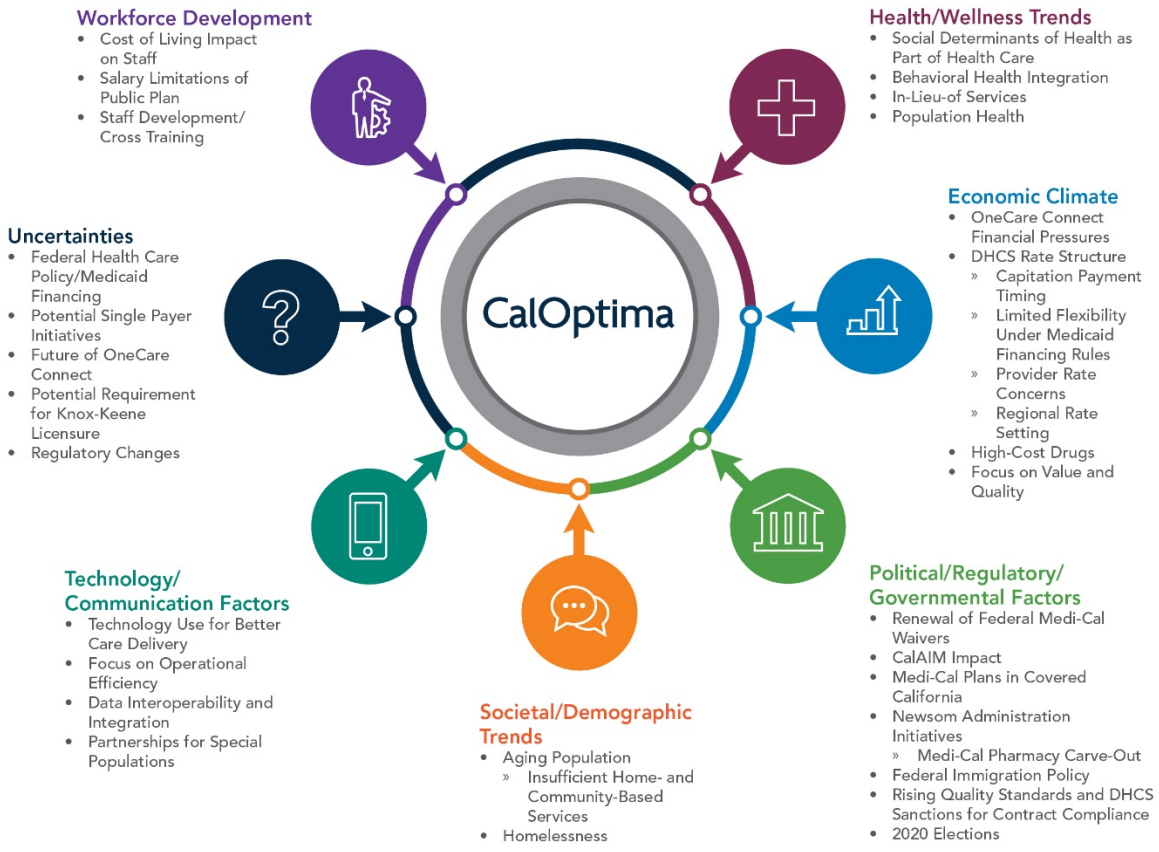
- Recuperative Care – As part of the Whole Person Care program, services provide post-acute care for update to 90-day stay for homeless CalOptima Members.
- Medical Respite Care – As an extension to recuperative care program, CalOptima provides additional respite care beyond 90 days of recuperative care under the Whole Person Care program.
- Clinic Field Teams – In collaboration with Federally Qualified Community Health Centers (FQHC), Orange County Health Care Agency's Outreach and Engagement team, the pilot program provides immediate acute treatment/urgent care to homeless CalOptima Members.
- Homeless Clinic Access Program – The pilot program will focus on increasing access to care by providing incentives for community clinics to establish regular hours to provide primary and preventative care services at Orange County shelters.
- Hospital Discharge Process for Members Experiencing Homelessness – Support is designed to assist hospitals with the increased cost associated with discharge planning under the new State Legislative requirements.

As noted above, addressing homelessness is one of the Governor's priorities, and CalOptima can expect the state will be looking for innovative partners to address this public health crisis.

Health Homes Program (HHP)

As was noted above, one of the initiatives DHCS has implemented to increase person-centered care and to integrate across programs is HHP. CalOptima has elected to bring this program to Orange County to provide increased coordinates care for its highest risk Medi-Cal members. Eligible members choosing to participate and will receive high touch services, such as in-person health needs assessment, accompaniment to key medical appointments and housing navigation and sustainability services.

Whole Person Care Pilot Transition to CalOptima



As was noted above, the WPCP are expected to transition to the Medi-Cal managed care plans when the waiver expires at the end of 2020. Orange County's Health Care Agency is the lead entity for the WPCP, and CalOptima has a limited role to provide personal care coordination services and access to covered Medi-Cal benefits. Because details are limited at this time, and it is unclear how DHCS may restructure

the individual WPCPs as they transition into managed care, CalOptima will have to be prepared to work collaboratively with the WPCP stakeholders once DHCS releases more detailed guidance and timeframes. HHP implementation will provide a foundation for this transition.

CalOptima Health Networks and Access

Across California, there are concerns about access to care, rising cost of living, and a lack of physicians and other health workers. These issues are particularly acute in the Medi-Cal program, which recently launched a physician loan forgiveness program to encourage new physicians to serve this population. CalOptima is engaged in an assessment of its health network structure and reimbursement arrangements to develop stronger networks with value-based payment arrangements. The Delivery System Study, being conducted by Pacific Health Consulting Group, is expected to be finalized in early 2020 and will present options for CalOptima and its contracted health networks to consider. It is increasingly challenging to recruit and maintain providers with the low reimbursement rates and significant administrative workload associated with the Medi-Cal program (e.g., all providers must now enroll with DHCS). Continued investment in its health networks and collaboration with providers will allow CalOptima to continue to be innovative and meet the needs of all its members.

Continued to a Future Board Meeting

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

16. Consider Ratification of Amendments to the Medi-Cal Health Network Contracts, Except AltaMed Health Services Corporation, and Expenditures for Whole-Child Model Program Implementation

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400
Nancy Huang, Chief Financial Officer (714) 246-8400

Recommended Actions

1. Ratify amendments to the Medi-Cal health network contracts, except AltaMed Health Services Corporation, to include payment by CalOptima of startup costs associated with the Whole-Child Model program; and,
2. Ratify the expenditure of up to $1.75 million in IGT 6 and 7 funds for implementation.

Background

The California Children's Services Program (CCS) is a statewide program, providing medical care, case management, physical/occupational therapy, and financial assistance for children up to age 21 meeting financial and health condition eligibility criteria. Following the approval of Senate Bill 586 in September 2016, the Department of Healthcare Services (DHCS) was given the authority to incorporate a number of CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS), referred to as the Whole Child Model (WCM). CalOptima began the process of transitioning its Medi-Cal Health Networks in June 2018, with implementation going live as of July 1, 2019. The importance of a successful WCM transition cannot be overstated, as it directly impacts the wellbeing of CalOptima's most at-risk pediatric members.

IGTs are transfers of public funds between eligible governmental entities, which qualify for matching federal funds for the Medi-Cal program. IGT 6 and 7 funds were received in May 2018 from the Department of Health Care Services (DHCS) totaled $31.1 million. After initial disbursements of $10 million for the Homeless Health Initiative, the Board authorized the remaining balance of $21.1 million to be used for community grants, internal initiatives and program administration. On August 1, 2019, the Board authorized $1.75 million for the Whole Child Model Assistance for Implementation and Development (WCM AID), which was approved as an internal initiative. The funds were designated to aid health networks in developing and implementing a successful delivery system for the WCM program.

Discussion

Health networks were required to cover a portion of the WCM program's startup expenses incurred before the launch on July 1, 2019. Following the Board's August 1, 2019 approval of the IGT 6 and 7 allocation for WCM startup costs, health networks were notified that they would receive a one-time, fixed payment of $50,000, plus applicable variable costs up to the amount allowed per network based on the number of WCM assigned members. CalOptima provided criteria for reimbursement, including

Back to Agenda

receipt of attestations demonstrating that the costs were incurred prior to the WCM program go-live date of July 1, 2019, and that expenditures fall within the specified categories of:

- Staffing, recruitment and training.
- Systems and infrastructure.
- Other expenses such as educational materials, notices, etc.

Staff seeks authority to ratify contract amendments and expenditures for the Medi-Cal health networks, except AltaMed Health Services Corporation, to aid with start-up costs and implementation of the WCM program.

Fiscal Impact

The recommended action to amend Medi-Cal health network contracts to include disbursement of IGT 6 and 7 funds for WCM Assistance for Implementation and Development has no fiscal impact to CalOptima's operating budget. The Board authorized the allocation of $1.75 million from IGT 6 and 7 funds for this purpose at the August 1, 2019, meeting. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

The recommended action ensures CalOptima's Medi-Cal health network contracts are updated to reflect receipt of IGT 6 and 7 funds for reimbursement of startup costs associated with the WCM program.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

Back to Agenda

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 1, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
14. Consider Allocation of Intergovernmental Transfer 6 and 7 Funds

Contact
Candice Gomez, Executive Director, Program Implementation (714) 246-8400

Recommended Actions
1. Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1 million for community grants and internal projects; and,
2. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to enter into grant contracts with the recommended community grantees.

Background
Intergovernmental Transfers (IGTs) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT 1 – 7 funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus IGT 1-7 funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries. Beginning with IGT 8, the IGT funds are viewed by the state as part of the capitation payments CalOptima receives; these payments are to be tied to covered Medi-Cal services provided to Medi-Cal beneficiaries.

On August 3, 2017, CalOptima's Board of Directors approved the recommendation to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

Subsequently, CalOptima released Requests for Information/Letters of Interest (RFI/LOI) from organizations to help determine funding allocation amounts for the priority areas and received 117 responses. Initial projections of available IGT 6/7 funds were estimated to be $22.1 million.

In May 2018, CalOptima received final IGT 6 and 7 funding from the Department of Health Care Services (DHCS), resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. On August 2, 2018, the Board approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program. On September 6, 2018 the Board authorized the remaining available balance of $21.1 million to be used for community grants, internal initiatives and program administration.

Back to Agenda

Subsequently, at its February 22, 2019 Special Meeting, the Board approved funds to be reallocated to the Clinical Field Teams Pilot for the Homeless Health Initiatives. The funds were reallocated from Requests for Proposals (RFP) 4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) in the total amount of $1 million which were not recommended for grants. In addition, $100,000 IGT 6 funds previously approved by the Board were reallocated from Internal Initiatives to the Clinical Field Teams Pilot. The reallocations were ratified at the April 4, 2019 Board meeting.

Proposed Allocation for community grants and internal initiatives is as follows:

Community Grants

Request for Proposal	Priority Area	Allocation Amount
1. Access to Outpatient Mental Health Services	Children's Mental Health	$4,850,000
2. Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	$4,850,000
3. Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000
4. Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
5. Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA	$1,000,000
6. Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
TOTAL		**$16,700,000**

Internal Initiatives

Internal Project Examples: - IS and other infrastructure projects as summarized below.	$2,400,000
TOTAL	**$2,400,000**

External subject matter experts and staff performed an examination of the RFP responses and evaluated them based on the following criteria:

Back to Agenda

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do and Director DiLuigi, met to discuss the results of the 54 RFP responses for the Children's Mental Health and Opioid and Other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the evaluation committees results and RFP recommendations, the Ad Hoc committee is recommending the following allocation of approximately $16.7 million for IGT 6 and 7 Board-approved priority areas through four (4) RFPs.

Community Grants

Category	Organization	Funding Amount
RFP 1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	Children's Bureau of Southern California	$3,390,000
	OCAPICA (Orange County Asian & Pacific Islander Community Alliance, Inc)	$685,000
	Boys & Girls Clubs of Garden Grove	$325,000
	Jamboree Housing	$450,000
RFP 2. Integrate Children's Mental Health Services into Primary Care ($4.85 million)	CHOC Children's	$4,250,000
	Friends of Family Health Center	$600,000
RFP 3. Increase Access to Medication-Assisted Treatment ($6 million)	Coalition of Orange County Community Health Center	$6,000,000
RFP 5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)	Serve the People	$1,000,000
TOTAL		**$16,700,000**

As noted above, the ad hoc is not recommending grants for two of the RFP categories (4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) and the associated funding was previously reallocated to the Clinical Field Teams Pilot at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Back to Agenda

Internal Initiatives
In addition, staff reviewed four internal applications and is recommending an allocation of $2.4 million for internal projects. Funding of $100,000 from the Internal Initiatives budget was reallocated to the Clinical Field Team pilot for the Homeless Health Initiatives at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Project	Amount
Whole Child Model Assistance for Implementation and Development (WCM AID)	$1,750,000
Master Electronic Health Record (EHR) System	$650,000
TOTAL	**$2,400,000**

Fiscal Impact
The recommended action to approve the allocation of $19.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal health plan for Orange County, will work with our provider and community partners to address the health care needs of the members we serve.

Concurrence
Gary Crockett, Chief Counsel

Back to Agenda

IGT 6 and 7 Community Grant Award Recommendations

August 1, 2019

Candice Gomez
Executive Director, Program Implementation

Back to Agenda

Background

- IGT process enables CalOptima to secure additional federal revenue to increase California's low Medi-Cal managed care capitation rates
  - IGTs 1–7: Funds must be used to deliver enhanced services for the Medi-Cal population
  - IGTs 8–9: Funds must be used for Medi-Cal covered services for the Medi-Cal population
- CalOptima Board of Directors approved IGT 6 and 7 priority areas for community-based funding opportunities
  - Children's Mental Health
  - Homeless Health
  - Opioid and Other Substance Overuse
  - Other Needs Identified by the Member Health Needs Assessment

Background (cont.)

- Received 117 RFIs to identify strategies for each priority area
- IGT 6 and 7 funds of $31.1 million were received in May 2018
  - $10 million approved for recuperative care services in August 2018
  - $21.1 million allocated for community grants, internal initiatives and program administration in September 2018
    - $17.7 million in community grants
    - $2.5 million in internal initiatives
    - $900,000 in program administration (over 3 years)
- Released RFPs, evaluated responses and conducted site visits from September 2018–January 2019

RFP Evaluation Criteria

- Organizational capacity and financial condition
- Statement of need that describes the specific issue or problem and the proposed program/solution
- Impact on CalOptima members with outreach and education strategies
- Efficient and effective use of potential grant funds for proposed program/solution

Site Visits

- Subject matter experts and staff conducted site visits to finalist organizations
- Questions were asked to:
  - Better understand the organization, current services provided and the proposed project
  - Identify the organization's leadership capacity and skills to effectively provide the proposed services
  - Determine if there are any concerns with awarding a grant to the organization

RFP Summary

RFP	Total Received	Total Recommended
1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	26	4
2. Integrate Children's Mental Health Services Into Primary Care ($4.85 million)	10	2
3. Increase Access to Medication-Assisted Treatment ($6 million)	10	1
4. Expand Mobile Food Distribution Services ($500,000)	1	0
5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)	5	1
6. Expand Access to Food Distribution Services for Older Adults ($500,000)	2	0
Total	**54**	**8**

1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Children's Bureau of Southern California	$3,500,000	$3,390,000
2	OCAPICA (Orange County Asian & Pacific Islander Community Alliance Inc.)	$685,000	$685,000
3	Boys & Girls Club of Garden Grove	$325,200	$325,000
4	Jamboree Housing	$692,000	$450,000
	Total	**$5,202,200**	**$4,850,000**

2. Integrate Children's Mental Health Services Into Primary Care ($4.85 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	CHOC Children's	$4,785,076	$4,250,000
2	Friends of Family Health Center	$600,000	$600,000
	Total	**$5,385,076**	**$4,850,000**

Back to Agenda

3. Increase Access to Medication-Assisted Treatment ($6 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Coalition of Orange County Community Health Centers	$5,998,000	$6,000,000
	Total	**$5,998,000**	**$6,000,000**

Back to Agenda

5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Serve the People	$1,000,000	$1,000,000
	Total	**$1,000,000**	**$1,000,000**

No Funding for RFPs 4 and 6

- No funding is recommended for two RFPs
  - 4. Expand Mobile Food Distribution Services ($500,000)
  - 6. Expand Access to Food Distribution Services for Older Adults ($500,000)
- Submitted proposals presented challenges
  - Did not demonstrate delivery of service to CalOptima members
  - Did not demonstrate sustainability after funds exhausted
- Funding was allocated to the Homeless Health Initiative's Clinical Field Team pilot on February 22, 2019

Internal Projects ($2.4 million)

Rank	Project	Original Request	Recommended Funding Amount
1	Whole-Child Model Assistance for Implementation and Development	$1,750,000	$1,750,000
2	Master Electronic Health Record (EHR) System	$700,000	$650,000
	Total	**$2,450,000**	**$2,400,000**

Recommended Board Actions

- Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1M for community grants and internal projects; and,
- Authorize the Chief Executive Officer with the assistance of Legal Counsel to execute grant contracts with the recommended community grantees.

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

Back to Agenda

Back to Agenda

CalOptima A Public Agency Better. Together.

IGT 5

- $14.4M allocated for competitive community grants
- Community grant initiatives to be developed, pending results from CalOptima's Member Health Needs Assessment

- Funding Categories:
  - Adult Mental Health
  - Children's Mental Health
  - Strengthening the Safety Net
  - Childhood Obesity
  - Improving Children's Health

Member Health Needs Assessment (IGT 5)

- Builds upon previous surveys and assessments, e.g.
  - CalOptima Group Needs Assessment
  - OC Health Care Agency – OC Health Profile
  - Hospital Community Needs Assessments
- Deeper focus on needs of diverse, underserved Medi-Cal membership, including:
  - 7 threshold languages + others never previously represented
  - Homeless
  - Mentally ill
  - Older adults
  - Persons with disabilities

Back to Agenda

Member Health Needs Assessment (IGT 5)

- Comprehensive assessment to identify gaps in and barriers to service
  - Access to PCPs, specialists & hospitals
  - Pharmacy and lab
  - Oral health services
  - Mental health services
- Insights into social determinants of health
  - Economic stability/employment status
  - Housing status
  - Education/literacy level
  - Social isolation
  - Transportation issues
  - Cultural differences
  - Communication barriers

Estimated IGT 6 and 7 Totals

IGT	CalOptima Share
IGT 6	≈ $9.95 M (Anticipated December 2017)
IGT 7	≈ $12.16 M (Anticipated May 2018)
Total	**≈ $22.11 M**

Proposed IGT Funding Categories - IGT 6 and 7

- Funds to be used to deliver enhanced services for the Medi-Cal population

Opioid/Other Substances Overuse

- Nationwide, 78 opioid overdose deaths per day
  - 45% of Rx drug overdose deaths are Medicaid beneficiaries
- In OC, 286 opioid-related drug overdose deaths in 2016
  - Opioid dependence second leading cause of substance-related hospitalizations in OC after alcohol dependence syndrome
- Potential solutions to be funded:
  - Expand access to pain management, addiction treatment and recovery services
  - Outreach and education
  - Technical assistance to community groups working to reduce opioid and other substance overuse

Children's Mental Health

- Estimated 52,500 OC youth living with a mental health condition
- Hospitalization rate for major depression among children and youth continues to rise
- Only 32 psychiatric acute care beds in OC for adolescents, and zero for children under 12
  - New CHOC facility will add 18 beds, for ages 3-18

- Potential solutions to be funded:
  - Expand inpatient and outpatient psychiatric services capacity for children 3-18

Homeless Health

- Homelessness in OC on the rise
  - 2017 Point-in-Time count identified 4,792 homeless individuals
  - 2015 Point-in-Time count was 4,452
  - As of 2015, estimated 15,291 homeless individuals in OC
    - Approximately 11,000+ of these are CalOptima members
- Economic impact of homelessness ≈ $300M over 12-month period between 2014-15
  - Includes $121M for health care costs
- Potential solutions to be funded:
  - Expand recuperative care services
  - Increase/expand mobile health clinics

Competitive Community Grants

- Funding to fill gaps and address barriers to service beyond IGT 5 funding categories:
  - Examples of possible additional priority areas:
    - Older Adult Health
    - Dental Health
    - Persons with Disabilities
    - Maternal/perinatal Health

CalOptima Projects and Program Admin

- Approx. 10% of total IGT 6 & 7 set aside for internal priorities and program administration, e.g.:
  - Expansion of provider electronic records capabilities
  - IGT program administration
  - Grant development and administration

Back to Agenda

Next Steps

- Gather stakeholder input
  - PAC
  - MAC
  - OCC MAC
  - Community organizations
- Develop expenditure plans for Board approval

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
17. Consider Approval of Grant Allocations of Intergovernmental Transfer (IGT) 6 and 7 Funds

Contact
Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions
1. Approve an additional grant allocation of up to $10 million to the Orange County Health Care Agency (OCHCA) from the Department of Health Care Services-approved and Board-approved Intergovernmental Transfer 6 and 7 Homeless Health priority area;
2. Replace the current cap of $150 on the daily rate and the 15-day stay maximum paid out of CalOptima funds with a 50/50 cost split arrangement with the County for stays of up to 90 days for homeless CalOptima members referred for medically justified recuperative care services under OCHCA's Whole Person Care Pilot program; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the grant agreement with the County of Orange to include indemnity language and allow for use of the above allocated funds for recuperative care services under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members.

Background
Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus, funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants at the recommendation of the IGT Ad Hoc committee to address the following priority areas:
- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the board approved priority areas. The RFI/LOIs helped staff determine funding allocation amounts for the board-approved priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Back to Agenda

Priority Area	# of LOIs
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Staff examined the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

In May 2017, CalOptima received final payment from DHCS for the IGT 6 and 7 transaction and confirmed CalOptima's total share to be approximately $31.1 million.

Discussion

The IGT Ad Hoc committee consisting of Supervisor Do and Directors Nguyen and Schoeffel met on February 17 and reconvened on April 17 to further discuss the results of the RFI/LOI responses specifically in the Homeless Health priority area and to review the staff-recommended IGT 6 and 7 expenditure plan with suggested allocation of funds per priority area.

Since receiving the RFI/LOIs, the County of Orange over the past several months has been engaged in addressing the homelessness in Orange County. Numerous public agencies and non-profit organizations, including CalOptima, have been working diligently to address this challenging matter. A lot has been accomplished, yet much more needs to be addressed.

Before making recommendation to the Board on the release of the limited grant dollars, the Ad Hoc committee met to carefully review the staff-recommended IGT 6 and 7 expenditure plan while also considering the pressing homeless issue.

In response to this on-going and challenging environment, and through the recommendation of the Ad Hoc committee, staff is recommending an allocation of up to $10 million to the OCHCA from IGT 6 and 7 to address the health needs of CalOptima's members in the priority area of Homeless Health

This will result in a remaining balance of approximately $21.1 million, which the Ad Hoc will consider separately and return to the Board with further recommendations.

In addition, staff is seeking authority to amend the grant agreement with the County to direct the allocation of up to $10 million of funds to provide recuperative care services for homeless CalOptima members under the recuperative care/WPC Pilot. The current agreement with the County allows CalOptima to pay for a maximum of $150 per day up to 15 days of recuperative care per member, with the County responsible for any costs. Staff is proposing to remove the cap on the daily rate and allow the $10 million to be used for funding 50 percent of all medically justified recuperative care days up to

a maximum of 90 days per homeless CalOptima member, to the extent that funds remain available, and subject to negotiation of an amendment to include indemnification by the County in the event that such use of CalOptima IGT funds is subsequently challenged or disallowed.

The WPC Pilot, a county-run program is intended to focus on improving outcomes for participants, developing infrastructure and integrating systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries. The current WPC Pilot budget and services are as follows:

		Add'l	
	Total WPC	**County Funds**	**CalOptima**
WPC Connect - electronic data sharing system	$ 2,421,250	$ -	$ -
Hospitals - Homeless Navigators	$ 5,164,000	$ -	$ -
Community Clinics - Homeless Navigators	$ 7,495,000	$ -	$ -
Community Referral Network - social services referral system	$ 1,000,000	$ -	$ -
Recuperative Care Beds	$ 4,277,615	$ 3,483,627	$ 522,100
MSN Nurse - Review & Approval of Recup. Care	$ 628,360	$ -	$ -
211 OC - training and housing coordination	$ 526,600	$ -	$ -
CalOptima - Homeless Personal Care Coordinators & Data Reporting	$ 809,200	$ -	$ -
Housing Navigators	$ 1,824,102	$ -	$ -
Housing Peer Mentors	$ 1,600,000	$ -	$ -
County Behavioral Health Services Outreach Staff	$ 1,668,013	$ -	$ -
Shelters	$ 2,446,580	$ -	$ -
County Admin	$ 1,206,140	$ -	$ -
TOTAL	$31,066,860	$ 3,483,627	$ 522,100

Since the 2016, the OCHCA collaborated with other community-based organizations, community clinics, hospitals, county agencies and CalOptima and others to design the program and has met with stakeholders on a weekly basis. The recuperative care element of the WPC pilot is a critical component of the program. During the first program year, the WPC recuperative care program provided vital services to homeless CalOptima members. CalOptima members in the WPC pilot program are recuperating from various conditions such as cancer, back surgery, and medication assistance and care for frail elderly members. The WPC pilot program has three recuperative care providers providing services, Mom's Retreat, Destiny La Palma Royale and Illumination Foundation.

From July 1, 2017 through June 30, 2018, the WPC pilot program provided the following recuperative care services and linkages for members:

- 445 Homeless CalOptima members admitted into recuperative care for a total of 16,508 bed days
- 22% Homeless CalOptima members served by Illumination Foundation placed into Permanent Supportive Housing
- 4 Homeless CalOptima members in recuperative care approved for Long-Term Care services
- 6 Homeless CalOptima members in recuperative care approved for Assisted Living Waiver services

Back to Agenda

- Total cost for recuperative care services over the fiscal year: $2,946,700
    - Average length of stay: 37 days
    - Average cost per member: $6,623

The OCHCA experienced a shortfall in the budgeted funds for the WPC/Recuperative Care Program in Year 1 as more individuals were identified to be eligible for the program than projected. The Whole Person Care pilot budget is approximately $31 million, with $8.4 million allocated to provide recuperative care. As the WPC pilot moves into the new fiscal year, the program continues to experience a shortfall. To address the budget shortfall, the number of admissions into the recuperative care program was restricted; however, projected need is projected to increase over the next three years to approximately 2,368 homeless individuals, or 790 per year. The program will need approximately $18.6M over the next three years to meet the increased need for recuperative care services. The County's remaining WPC budget for recuperative care services over this period is approximately $5.3 million.

Individuals who are recovering safely through the program are connected to medical care, including primary care medical homes and medical specialists. In addition, members may receive behavioral health therapy and/or substance use disorder counseling services. Clients from the WPC pilot program are seven times more likely to use the Emergency Room (ER) and nine times more likely to be hospitalized than general Medi-Cal Members.

The WPC recuperative care program serves and is available for homeless CalOptima members when medically indicated, for members who are discharged from hospitals and skilled nursing facilities, as well as those referred from clinics, and OCHCA public health nurses.

Fiscal Impact
The recommended action to approve the allocation of $10 million from IGT 6 and IGT 7 to the OCHCA has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

13. Consider Authorization of Expenditure Plan for Intergovernmental Transfer (IGT) 6 and 7 Funds, Including the Release of Requests for Proposals (RFPs) for Community Grants to Address Children's Mental Health, Opioid and Other Substance Overuse, and Other Community Needs Identified by the CalOptima Member Health Needs Assessment

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve the expenditure plan for allocation of IGT 6 and 7 funds in the amount of $21.1 million for the Department of Health Care Services (DHCS)-approved and Board-approved priority areas; and
2. Authorize the release of Requests for Proposal (RFPs) for community grants and internal project applications, with staff returning at a future Board meeting with evaluation of proposals and recommendations for award(s) being granted.

Background

Intergovernmental Transfers are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program, thus funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the above referenced priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Priority Area	**# of LOIs**
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Back to Agenda

Staff performed an examination of all the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

In late May 2018, CalOptima received final IGT 6 and 7 funding from DHCS, resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. IGT 6/7 funds totaled $31.1 million rather than the initially projected $22 million due to an adjustment in the enrollment numbers estimated by the California Department of Health Care Services and the higher federal match for the expansion population. On August 2, 2018, CalOptima's Board of Directors approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program; resulting in a remaining available balance of $21.1 million.

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do, and Directors Nguyen and Schoeffel, met on July 20 and July 27 to discuss the results of the 117 RFI/LOI responses for the Children's Mental Health, Opioid and other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the staff evaluation process and RFP recommendations, the Ad Hoc committee and staff determined allocation amounts and descriptions for each of the proposed six (6) Request for Proposals (RFPs). In addition, staff is recommending an allocation of IGT dollars for internal projects and program administration in the amounts indicated.

The Ad Hoc committee is recommending the following allocation of approximately $17.7 million for IGT 6 and 7 Board-approved priority areas through six (6) RFPs. Please note that multiple applicants may be selected per RFP to receive a grant award.

Community Grants

Request for Proposal	Priority Area	Allocation Amount
Access to Outpatient Mental Health Services	Children's Mental Health	~~$2,700,000~~ $4,850,000
Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	~~$7,000,000~~ $4,850,000
Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000

Rev. 9/6/18

Back to Agenda

Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$500,000
Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$1,000,000
Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA/Older Adult Health	$500,000
TOTAL		**$17,700,000**

Rev. 9/6/18

Internal Projects and Program Administration

In addition, staff is also recommending an allocation of approximately $3.4 million for internal projects and IGT program administration to manage all IGT program projects as follows:

Internal Project Examples: - IS and other infrastructure projects	$2,500,000
IGT Program Administration - Support for two (2) existing staff positions for three years - Grant Management System license, and other administrative costs for three years	$949,289 *(Approx. $317,000 per year for three years)*
TOTAL	**$3,449,289**

Staff anticipates returning with recommendations of RFP grantee awards and internal project(s) for Board approval following the completion of the community grant and internal project RFP application processes at the February 2019 Board meeting. The staff positions are Manager, Strategic Development, and Program Assistant, and the above proposed funding is in addition to $10 million allocated from IGT 6/7 for Homeless Health on August 2, 2018.

Fiscal Impact

The recommended action to approve the expenditure plan and allocation of $21.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Back to Agenda

IGT 6 & 7 Expenditure Plan Allocation

Board of Directors Meeting

September 6, 2018

Cheryl Meronk

Director, Strategic Development

Back to Agenda

IGT 6 & 7 - Background

- Board Established 3 New Priority Areas
  1. **Homeless Health**
  2. **Opioid and Other Substance Overuse**
  3. **Children's Mental Health**
  - ➢ Community needs identified by MHNA
  - ➢ Internal projects and IGT program administration
- Received 117 LOIs
- $10.0M allocated for County HCA for Homeless Health/WPC Recuperative Care
- Ad Hoc met to discuss recommendations for other categories

IGT 6 & 7 Funding

- **$31.1M** CalOptima's share
- **$10.0M** to County HCA for WPC Recuperative Care
- **$21.1M** remaining for recommended distribution
  - ➢ $17.7M for Community Grants
    - Six Request for Proposals (RFPs)
      - 2 RFPs in Children's Mental Health
      - 1 RFP in Opioid and other Substance Overuse
      - 3 RFPs for MHNA identified needs
  - ➢ $3.4M for Internal Projects and Program Administration

IGT 6 & 7 LOI Summary

Priority Area	# Received
Children's Mental Health	57
Homeless Health	36
Opioid & Other Substance Overuse	22
Other/multiple categories	2
Total	**117**

Children's Mental Health – 2 RFPs

RFP #	RFP Description	Funding Amount
1	Expand Access to Outpatient Mental Health Services	$2.7 million
2	Integrate Mental Health Services into Primary Care Settings	$7.0 million
	Total	**$9.7 million**

* Multiple awardees may be selected per RFP

RFP 1

Expand Access to Outpatient Children's Mental Health Services

- **Funding Amount:** $2,700,000
- **Description:**
  - Access to outpatient services
    - Create/expand school or resource center-based mental health services for children.
    - Provide services on-site, in-home, and/or afternoon/evening
    - Use an integrated model with community health workers to target vulnerable populations such as children experiencing homelessness, who have experienced traumatic incidences, homeless etc.
    - Provide additional support services to help promote stability and success

RFP 2

Integrate Children's Mental Health Services into Primary Care Settings

- **Funding Amount:** $7 million
- **Description:**
  - Integrate mental health services provided in primary care settings
    - Include behavioral health providers in clinics and/or other settings where children are provided health care services
    - Provide culturally sensitive services
    - Provide efficient and immediate access to mental health consultation
    - Provide health navigation/scheduling coordinator to ensure availability and follow-up of services

Opioid & Other Substance Overuse – 1 RFP

RFP #	RFP Description	Funding Amount
3	Increase access to Medication-Assisted Treatment	$6.0 million
	Total	**$6.0 million**

*Multiple awardees may be selected per RFP

RFP 3

Increase access to Medication-Assisted Treatment

Funding Amount: $6.0 million

- **Description:**
  - Increase access to Medication-Assisted Treatment (MAT) Programs
    - Combine behavioral and physical health services
    - Manage oversight and prescribing of FDA-approved medications and program administration
    - Provide management of patients' overall care coordination
  - Integrate pain management services
  - Ensure availability of providers/staff to deliver appropriate services
  - Establish a partnership with the Orange County Health Care Agency Drug Medi-Cal Organized Delivery System (ODS) for referrals/collaboration

Community Needs Identified by MHNA: Food Access – 3 RFPs

RFP #	RFP Description	Funding Amount
4	Expand Mobile Food Distribution Services	$500K
5	Expand Access and Food Distribution focused on Children and Families	$1 million
6	Expand Access to Older Adults Meal Programs	$500K
	Total	**$2 million**

*Multiple awardees may be selected per RFP

RFP 4

Expand Mobile Food Distribution Services

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase availability and access to healthy food options in areas of where fresh food/grocery stores are limited
  - Ensure additional mobile food trucks/vehicles to distribute healthy food options such as fresh produce/groceries that are culturally appropriate in areas of greatest need
  - Enroll members in mobile food distribution services programs
  - Provide education to prepare nutritious meals and/or pre-made meal options and simple recipes

RFP 5

Expand Access and Food Distribution Services focused on Children and Families

- **Funding Amount:** $1 million
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Access to healthy food options such as fresh fruits, vegetables and other groceries
  - Increase access to culturally appropriate food options
  - Enroll/connect members to food distribution service programs
  - Provide education and simple recipes to help families on a limited budget
  - Provide take-home meals for children/families who may not have access to cooking facilities

RFP 6

Expand Access to Older Adult Meal Programs

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase access to:
    - Healthy options such as fresh fruits, vegetables and other groceries in areas of highest need
    - Culturally appropriate food options
    - Home delivered meals
  - Enroll/connect member food distribution service programs

Internal Projects/Program Admin.

Description	Amount
IS and Other Infrastructure Projects	$2.5 million
Support for staff and administrative costs	~$315K/year (for 3 years)

Next Steps*

- IGT 6 & 7 RFP Recommendations: September 6, 2018 Board Meeting
- Release of RFPs: September 2018
- RFPs due: November 2018
- IGT Ad Hoc review of recommended grant awards: January 2019
- Recommended awards: February 2019 Board Meeting

* Dates are subject to change based on Board approval

Homeless Health Care Delivery

Special Meeting of the CalOptima Board of Directors
February 22, 2019

Michael Schrader
Chief Executive Officer

Back to Agenda

Agenda

- Current system of care
- Strengthened system of care
- Federal and State guidance
- Activities in other counties
- Considerations
- Recommended actions

Back to Agenda

CalOptima
A Public Agency
Better. Together.

Current System of Care

Key Roles	Agency
Public Health	County
Physical Health	CalOptima*
Mental Health – mild to moderate	CalOptima*
Serious Mental Illness (SMI) and Substance Use Disorder	County
Shelters	County and Cities
Housing supportive services for SMI population • Housing search support • Facilitation of housing application and/or lease • Move-in assistance • Tenancy sustainment/wellness checks	County
Intensive Care Management Services	County and CalOptima*
Medi-Cal Eligibility Determination and Enrollment	County
Presumptive Medi-Cal Eligibility	State Medi-Cal Fee-for-Service Program

**For Medi-Cal Members*

Current System of Care (Cont.)

- Services available to Medi-Cal members through CalOptima
  - Physician services – primary and specialty care
  - Hospital services and tertiary care
  - Palliative care and hospice
  - Pharmacy
  - Behavioral health (mild to moderate)
- Recuperative care funding with IGT dollars through County's Whole-Person Care Pilot
  - A clean and safe place for homeless individuals to recover from illness or injury for up to 90 days
  - A form of short-term shelter based on medical necessity

Gaps in the Current System of Care

- Access issues for homeless individuals
  - Difficulty with scheduled appointments
  - Challenges with transportation to medical services
- Coordination of physical health, mental health, substance use disorder treatment, and housing
- Physical health for non-CalOptima members who are homeless
  - Individuals may qualify for Medi-Cal but are not enrolled

Immediate Response

- In 2018, more than 200 reported homeless deaths in Orange County
  - Roughly double the number of homeless deaths in San Diego County
- CalOptima Board
  - On February 20, 2019, Quality Assurance Committee tasked staff to investigate
    - Percentage that were CalOptima members
    - Demographics
    - Causes of death
    - Prior access to medical care
  - Identify opportunities for improvement

Strengthened System of Care

- Vision
  - Deliver physical health care services to homeless individuals where they are
- Partner with FQHCs to deploy mobile clinical field teams
  - Reasons for partnering with FQHCs
    - Receive CalOptima reimbursement for Medi-Cal members
    - Receive federal funding for uninsured
    - Enrollment assistance into Medi-Cal
    - Offer members education on choosing FQHC as their PCP
  - About the FQHC clinical field teams (a.k.a., “Street Medicine”)
    - Small teams (e.g., physician/NP/PA, medical assistants, social worker)
    - Available with extended hours
    - Go to parks, riverbeds and shelters
    - In coordination with County Outreach and Engagement Team (a.k.a., “Blue Shirts”)

Federal and State Guidance

- Depending on the state-specific waivers and county contracts with state, Medicaid funds can be used for coverage of certain housing-related activities, such as
  - Intensive case management services
    - Section 1915(c) Home and Community Based Services waiver
      - e.g., In-Home Supportive Services and Multipurpose Senior Services Program
  - Housing navigation and supports
    - Section 1115 waiver
      - e.g., Whole-Person Care Pilot

Federal and State Guidance (Cont.)

- Medicaid funds cannot be used for rent or room and board
  - CMS Informational Bulletin – June 26, 2015
- CalOptima's Medi-Cal revenue and reserves can be used for the CalOptima Medi-Cal program only
  - Welfare & Institutions Code section 14087.54 (CalOptima enabling statute)

Activities in Other Counties

- Los Angeles County
  - LA County administers a flexible housing subsidy pool
  - L.A. Care provided a $4 million grant (total commitment of $20 million over 5 years) for rent subsidies to house 300 individuals
    - L.A. Care has other sources of revenue beyond Medi-Cal (e.g., Covered California commercial plan)
- Riverside and San Bernardino Counties
  - Inland Empire Health Plan contributes to a housing pool to provide housing supportive services for 350 members
- Orange County
  - Housing pool not in existence today under WPC Pilot
  - If established pursuant to the 1115 Waiver (e.g., under WPC), CalOptima could contribute funds for housing supportive services, not rent

Considerations

- Establish CalOptima Homeless Response Team
  - Dedicated CalOptima resources
  - Coordinate with clinical field teams
  - Interact with Blue Shirts, health networks, providers, etc.
  - Work in the community
  - Provide access on call during extended hours
- Fund start-up costs for clinical care provided to CalOptima members
  - On-site in shelters
  - On the streets through clinical field teams

Additional Considerations

- Look at opportunities to support CalOptima members who are homeless
  - ➢ Contribute to a housing pool
    - Housing pool must exist under an 1115 waiver program (e.g. WPC) in order to use Medi-Cal funds
    - CalOptima contribution used towards housing navigation and support services; cannot be used towards rent or room and board

Recommended Actions

- Authorize establishment of a clinical field team pilot program
  - Contract with any willing FQHC that meets qualifications
  - ~~CalOptima financially responsible for services regardless of health network eligibility~~
  - ~~One year pilot program~~
  - ~~Fee-for-service reimbursement based on CalOptima Medi-Cal fee schedule~~
- Authorize reallocation of up to $1.6 million from IGT 1 and 6/7 to fund start-up costs for clinical field team pilot
  - ~~Vehicle, equipment and supplies~~
  - ~~Staffing~~

Recommended Actions (Cont.)

- Authorize establishment of the CalOptima Homeless Response Team
  - Authorize eight unbudgeted FTE positions and related costs in an amount not to exceed $1.2 million
- Return to the Board with a ratification request for further implementing details
- Consider other options to work with the County on a System of Care
- Obtain legal opinion related to using Medi-Cal funding for housing-related activities

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

Back to Agenda

RFP 1. Expand Access to Outpatient Children's Mental Health Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Access California Services	$ 195,000	Playing with Rainbows	Provide an innovative play-based therapeutic program that facilitates the process of healing in immigrant and/or refugee children who have been traumatized by war and migration through the use of a group counseling process involving play and art.
Boys & Girls Club of Anaheim Inc.	$ 1,331,418	Wild at Heart	A therapeutic wilderness program focused on improving children's mental health, coping skills and resilience through evidence-based outdoor experiential therapy to at-risk youth aged 12 to 18
Boys & Girls Clubs of Garden Grove	$ 325,200	Teen Mental Health Leadership Program	Reduce stigma, increase coping skills, and triage mental health care by providing peer training to community-based teen empowerment programs and education around outreach and stigma reduction.
Casa de la Familia (CDLF)	$ 1,840,968	SAUSD Mental Health Project	Provide culturally sensitive counseling, case management, outreach and parental support services to students and parents within the Santa Ana Unified School District.
Child Guidance Center, Inc	$ 1,207,053	School Based Behavioral Health Services for Military/Veteran Connected Families	Expand resource center-based behavioral health services for veteran and military connected children by providing early intervention, prevention programs and behavioral health services to children in a community-based setting. Program will also provide training to schools and implement peer navigators. Program will leverage MHSA Innovation project with the Family Resource Centers.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
Children's Bureau of Southern California (Children's Bureau)	$ 3,500,000	Children's Mental Health Access Collaborative	Bring together 12 outpatient mental health services providers to expand access to mental health services and increase coordination, outreach, peer support, and systems integration. Providing other Early Childhood Mental Health interventions not currently covered by MHSA funds or Medi-Cal.
CSU Fullerton Auxiliary Services Corporation	$ 4,033,395	The Early Childhood Mental Health and Wellness Program	Implement a Early Childhood Mental Health and Wellness Program through a facilitated process by a consultant and a leadership team of early care and education programs.
Gay and Lesbian Community Services Center of Orange County	$ 120,000	LGBT Center OC's Mental Health Program for Children and Youth	Provide CalOptima members ages 4-18 years with individual and family therapy as appropriate; mental health support groups for children and youth; drop-in counseling sessions for foster children; and; community groups focused on mental and emotional wellness
Hurtt Family Health Clinic	$ 745,812	Family Counseling Services for Homeless, Poor and Foster Children and Youth	Provide family counseling services to homeless families residing in Orange County Rescue Mission's transitional housing programs.
Illumination Foundation	$ 1,080,384	Children and Family In-Home Stabilization Program	Bring in-home services and individualized counseling to more families with children who are at risk of developing emotional and behavioral disorders.
Jamboree Housing Corporation	$ 692,000	Children's Behavioral Health Peer Navigation Collaboration	Pilot program to provide accessible behavioral health services for children and their families living at Jamboree's Clark Commons and surrounding Buena Park communities through an afterschool program, resident leadership training, food and nutrition workshops, and computer classes. The program will use an evidence-based peer navigation model (peer with lived experience), as well as connect members to clinical care.

Organization Name	Request ($)	Project Title	Project Description
Latino Center for Prevention & Action in Health & Welfare DBA Latino Health Access for Children with Adverse Childhood Experiences	$ 450,000	Promotora/ Community Health Worker-Facilitated Emotional Wellness and Mental Health Services	Prevention and intervention mental health program for Latino children who have had Adverse Childhood Experiences (ACE) that have resulted in trauma.
Living Success Center, Inc.	$ 1,351,000	Outreach and Education Expansion of Children's Mental Health Services	A 3-year outreach and education project to identify those in need, targeting homeless shelters and domestic violence service providers to help and counsel children who have experienced trauma .
Mariposa Women and Family Center	$ 238,898	Mariposa Children's Intervention Program (CHIP)	Use existing partnerships with local school districts, local community institutions, and low-income parents to provide programming to engage children and identify and treat mental health issues among children in Orange County.
NAMI Orange County	$ 546,380	Mental Health Education & Outreach	Offer evidence based programs such as Parent Connector, Basics Education, Progression, NAMI Connects at CHOC, and a quarterly Family Fun Event - 1K Awareness Walks for Families in collaboration with Family Resource Centers (FRC).
OC United	$ 901,500	Creating Capacity and Expanding Resilience for Children, Families, and their Communities	Expand current program engagement in local organizations, pilot a Whole-Child Treatment Team model, increase community resilience and engagement, reduce stigma, as well as increase accessibility to resources.
OCAPICA (Orange County Asian & Pacific Islander Community Alliance, Inc)	$ 685,000	The API Project HOPE	Provide mental health and wellness, culturally competent and linguistically appropriate services that include outreach and education to promote health awareness, support groups, educational trainings, resource referral and linkage, etc. Program will provide case management, in-home/community-based group counseling.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
Orange County Department of Education	$ 4,583,290	School-Based Student Wellness Centers	Pilot School-Based Student Wellness Centers (SWCs) within seven Orange County districts where all students can access support, resources and information on a variety of topics around mental health at their school site.
PADRES UNIDOS	$ 55,000	Early Learning Programs	Provide community-based modules such as Parents as Teachers/Early Education Modules where parents have identified that preschool-aged kids exhibit early signs of concerning behavior that can lead to future mental health challenges.
Radiant Health Centers	$ 450,000	Children's Mental Health Program Expansion	Provide outreach, community partnership building and outpatient mental health services with a focus on the subpopulations of children infected or affected by HIV and LGBTQ+ youth. The program will reduce stigma, increase awareness of mental health services and increase access to services.
Straight Talk Clinic, Inc.	$ 186,000	Children's Mental Health Support	Expand program with a pilot weekly on-site counseling services and comprehensive outreach series for children and families.
The Center for Autism & Neurodevelopmental Disorders	$ 743,672	Child Mental Health Cooperative (CMHC)	Expand child mental health services by delivering a consultative support program to providers, creating a unique interactive video-conferencing classroom and optimizing partnerships and collaborations.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
Vision y Compromiso	$ 875,235	Salud y Bienestar Para Todos	Collaborate with schools and community partners in Anaheim and Westminster to deliver evidence-based outreach and education strategies by engaging *promotores* to share information and resources.
Vista Community Clinic	$ 433,045	Providing School-Based Mental Health Services to La Habra Youth in Need	Project will designate 3-5 schools in La Habra as interim FQHC sites and assign three Licensed Clinical Social Workers to provide on-campus, 1-on-1 therapy to youth with mild to moderate behavioral health symptoms.
Wellness & Prevention Center	$ 153,951	Expansion of School and Community-based Youth Wellness Programming	Increase bilingual staff, support a coalition of Spanish-speaking parents and providers, and establish a presence at five new schools and community centers.
Women's Transitional Living Center, Inc.	$ 50,000	Children's Therapy Program	Counselors work with children through treatment plans that are age-appropriate, creative, and flexible, and can incorporate a range of counseling services, including individual counseling, family counseling, art therapy, sand therapy, and play therapy.

Back to Agenda

RFP 2. Integrate Children's Mental Health Services Into Primary Care			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
AltaMed Health Services Corporation	$ 998,040	Integrating Children's Mental Health Into Primary Care in Orange County	Enhance current pediatric primary care services by integrating mental health services for children, providing referrals to early intervention, and engaging parents through community outreach and education.
CHOC Children's	$ 4,785,076	Expanding Mental Health Access and Knowledge in Pediatric Primary Care and Community Settings	Establish mental health screening, embedded mental health services, telehealth, and resource and referral for members in clinics served by CHOC Medical Group and in CHOC's Primary Care Network. Program will also provide trainings over the 3 years.
Families Together of Orange County	$ 920,000	Expanding Children's Mental Health Services	Integrate children's mental health services into primary care by offering on-site outpatient pediatric mental health care at the community health center in Tustin with outreach and education.
Friends of Family Health Center	$ 600,000	Healthy Steps	Introduce the evidence-based model HealthySteps program designed to have a specialist screen and provide families with support for common and complex concerns during a well-child visit. The HealthySteps specialist will assist with referrals and connects to additional services.
Laguna Beach Community Clinic	$ 69,109	Pediatric Mental Health: Screening and Case Management to Increase Access to Treatment	Provide screening, case management, and linkage to mental health resources and treatment for Cal-Optima members
Livingstone Community Development Corporation	$ 626,000	Integrating Children's Mental Health Services into Medical Care	Integrate outpatient mental health services into pediatric primary care screening and expand its arts and music therapy program.
Share Our Selves Corporation (SOS)	$ 200,000	Children's Mental Health Expansion Project	Expand SOS Children and Family Health Center's hours of operation from 40 to 45 hours per week and access to behavioral health outreach education and counseling services.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 2,848,235	Child Psychiatry Consultation and Fellowship Program for Primary Care Providers (CPCFP)	Provide same day telephone consultation to PCPs by a child and adolescent psychiatrist in addition to rapid tele-video consult with ongoing education and training in mental health.
The Safety Net Foundation (FQHC Collaborative)	$ 2,496,000	Pediatric Integration of Behavioral Health in Primary Care for CalOptima's Safety Net: Expansion of Care Coordination, Mid-Level Provider Availability, Telehealth Options and Evidence-Based Training at Community Health Centers	Increase access to pediatric mental health care through the expansion of mid-level providers, the exploration of telemedicine and the integration of behavioral health with pediatric primary care.
Vista Community Clinic	$ 426,422	Enhancing Children's Mental Health via Primary Care Integration and Community Outreach in La Habra	A primary care - mental health integration project for Hispanic youth and their families living in and around the City of La Habra.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

RFP 3. Increase Access to Medication-Assisted Treatment			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Ahura Healthcare	$ 2,850,000	Medicated-Assisted Treatment (MAT)	Provide comprehensive mental health and addiction medicine care with the use of Medicated-Assisted Treatment (MAT) therapy such as Suboxone, Methadone, and Naltrexone provided by licensed physicians along with mental health services and counseling.
Bright Heart Health	$ 3,915,000	Opioid Use Disorder OnDemand Treatment	Provide complete telehealth MAT services through Data2000 physicians, nurse practitioners, and physician assistants.
Central City Community Health Center	$ 930,000	CCCHC SUD-MAT Services & Educational Program	Expand access to and enhance existing, integrated and evidenced-based, SUD-MAT clinical care program with the City of Anaheim Health Center as the "hub" with services available via in-person provider or telehealth. The project includes providing service through mobile units.
Clean Path Recovery LLC	$ 5,998,484	Clean Path Recovery MAT Program	Program will use FDA approved medications in combination with counseling, holistic and behavioral therapies.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
Coalition of Orange County Community Health Centers	$ 5,998,000	MATCONNECT: A County-wide Collaborative for MAT Expansion to CalOptima Members at Community Health Centers	Build capacity and expand access and delivery of MAT services by bridging integration gaps in the Substance Use Disorder (SUD) system of care in Orange County. Implement a localized version of the DHCS Hub and Spoke model and build internal capacity for increased MAT services and access for each of the Spoke locations.
Friends of Family Health Center	$ 600,000	Medication Assisted Treatment	Introduce Medication Assisted Treatment (MAT) with emphasis on opioid addiction with an individually tailored and extensive care coordination for patients
Livingstone Community Development Corporation	$ 808,000	Establishing a Substance Abuse Program with Medication-Assisted Treatment	Establish a new medication-assisted treatment (MAT) program which will be integrated with physical and behavioral health services and include supervised exercise and acupuncture treatments.
Serve the People	$ 1,485,000	Integrated Behavioral Health for Hard To Reach Populations	Purchase and staff Integrated Services (IS) Mobile Clinics and provide integrated whole-person care to individuals at the Courtyard and to others in addiction treatment facilities.
Share Our Selves Corporation (SOS)	$ 200,000	SOS Behavioral Health Expansion Project	Increase capacity to provide comprehensive behavioral health and case management services via telehealth technology and new medical/behavioral health mobile unit at homeless shelters operated by SOS's partner agencies throughout the county.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 1,825,518	Establishing and Increasing the capacity of a Medication Assisted Treatment program through a Hub-and-Spoke model for CalOptima patients	Establish and expand the capacity of medication-assisted treatment (MAT) within Orange County. The hubs will be the Zephyr Medical Group in Laguna Hills and UC Irvine Medical Center.

RFP 4. Expand Mobile Food Distribution Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 250,000	OC Food Bank Mobile Food Trolley	Project will use OC Food Bank's mobile food trolley to provide a variety of food that is distributed on a first-come, first-served basis and may include items such as produce, non-perishable goods and protein.

RFP 5. Expand Access to Food Distribution Services Focused on Children and Families			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Global Operations & Development / Giving Children Hope	$ 50,000	We've Got Your Back (WGYB)	Food distribution program fills and distributes more than 1,100 backpacks of nutritious food including fruits and vegetables on a weekly basis.
LiveHealthy OC	$ 990,000	The LiveHeathy OC "Farmacy" Project - Establishing a Sustainable Farm to Clinic Network to Increase Access to Fresh, Healthy Foods for Underserved and Low Income Patients	Expands current access to fresh fruits and vegetables using a sustainable farm-to-clinic produce delivery system – the "farmacy" – at five community health centers through a monthly mobile farmers' market.
Livingstone Community Development Corporation	$ 300,000	Expanding Food Access for Children and Families	Expanding food pantry and integrate access to the food pantry into Group Medical Visits with CalOptima members suffering from diabetes, obesity, hypertension, and/or heart disease
Serve the People	$ 1,000,000	OC Food Oasis Partnership	Expand mobile food distribution to five FQHC sites and shelters that serve homeless persons. The strategy is to include healthy food and meal distribution, nutrition education, a 'food as medicine' prescription food box program for patients with chronic disease, and demonstrations on healthy food preparation and cooking, plus outreach and case management to services establishing a system to address social determinants of health.

Organization Name	Request ($)	Project Title	Project Description
Vista Community Clinic	$ 289,533	In the Kitchen: An Innovative Education/Food Distribution Program in La Habra	Develop a teaching kitchen that will provide nutrition education and hands-on cooking lessons to participants (accommodate groups of 12 residents).

RFP 6. Expand Access to Food Distribution Services for Older Adults			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 231,514	Farm-to Seniors Food Distribution Program	Provide fresh, healthy food to older adult CalOptima members through a network of 17 distribution sites.
Multi-Ethnic Collaborative of Community Agencies	$ 500,000	Increasing Food Access for Underserved Multi-Ethnic Older Adults	Expand food access distribution at the seven MECCA sites by building the volunteer base capacity, expand outreach, and provide culturally appropriate education.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

17. Consider Ratification of Amendments to the AltaMed Health Services Corporation Medi-Cal Health Network Contract, and Expenditures for Whole-Child Model Program Implementation

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400
Nancy Huang, Chief Financial Officer (714) 246-8400

Recommended Actions

1. Ratify amendments to the AltaMed Health Services Corporation Medi-Cal health network contract, to include payment by CalOptima of startup costs associated with the Whole-Child Model program; and,
2. Ratify the expenditure of up to $1.75 million in IGT 6 and 7 funds for implementation.

Background

The California Children's Services Program (CCS) is a statewide program, providing medical care, case management, physical/occupational therapy, and financial assistance for children up to age 21 meeting financial and health condition eligibility criteria. Following the approval of Senate Bill 586 in September 2016, the Department of Healthcare Services (DHCS) was given the authority to incorporate a number of CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS), referred to as the Whole Child Model (WCM). CalOptima began the process of transitioning its Medi-Cal Health Networks in June 2018, with implementation going live as of July 1, 2019. The importance of a successful WCM transition cannot be overstated, as it directly impacts the wellbeing of CalOptima's most at-risk pediatric members.

IGTs are transfers of public funds between eligible governmental entities, which qualify for matching federal funds for the Medi-Cal program. IGT 6 and 7 funds were received in May 2018 from the Department of Health Care Services (DHCS) totaled $31.1 million. After initial disbursements of $10 million for the Homeless Health Initiative, the Board authorized the remaining balance of $21.1 million to be used for community grants, internal initiatives and program administration. On August 1, 2019, the Board authorized $1.75 million for the Whole Child Model Assistance for Implementation and Development (WCM AID), which was approved as an internal initiative. The funds were designated to aid health networks in developing and implementing a successful delivery system for the WCM program.

Discussion

Health networks were required to cover a portion of the WCM program's startup expenses incurred before the launch on July 1, 2019. Following the Board's August 1, 2019 approval of the IGT 6 and 7 allocation for WCM startup costs, health networks were notified that they would receive a one-time, fixed payment of $50,000, plus applicable variable costs up to the amount allowed per network based on the number of WCM assigned members. CalOptima provided criteria for reimbursement, including receipt of attestations demonstrating that the costs were incurred prior to the WCM program go-live date of July 1, 2019, and that expenditures fall within the specified categories of:

Back to Agenda

- Staffing, recruitment and training.
- Systems and infrastructure.
- Other expenses such as educational materials, notices, etc.

Staff seeks authority to ratify contract amendments and expenditures for the AltaMed Health Services Corporation Medi-Cal health network, to aid with start-up costs and implementation of the WCM program.

Fiscal Impact

The recommended action to amend Medi-Cal health network contracts to include disbursement of IGT 6 and 7 funds for WCM Assistance for Implementation and Development has no fiscal impact to CalOptima's operating budget. The Board authorized the allocation of $1.75 million from IGT 6 and 7 funds for this purpose at the August 1, 2019, meeting. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

The recommended action ensures CalOptima's Medi-Cal health network contracts are updated to reflect receipt of IGT 6 and 7 funds for reimbursement of startup costs associated with the WCM program.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 1, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
14. Consider Allocation of Intergovernmental Transfer 6 and 7 Funds

Contact
Candice Gomez, Executive Director, Program Implementation (714) 246-8400

Recommended Actions
1. Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1 million for community grants and internal projects; and,
2. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to enter into grant contracts with the recommended community grantees.

Background
Intergovernmental Transfers (IGTs) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT 1 – 7 funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus IGT 1-7 funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries. Beginning with IGT 8, the IGT funds are viewed by the state as part of the capitation payments CalOptima receives; these payments are to be tied to covered Medi-Cal services provided to Medi-Cal beneficiaries.

On August 3, 2017, CalOptima's Board of Directors approved the recommendation to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

Subsequently, CalOptima released Requests for Information/Letters of Interest (RFI/LOI) from organizations to help determine funding allocation amounts for the priority areas and received 117 responses. Initial projections of available IGT 6/7 funds were estimated to be $22.1 million.

In May 2018, CalOptima received final IGT 6 and 7 funding from the Department of Health Care Services (DHCS), resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. On August 2, 2018, the Board approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program. On September 6, 2018 the Board authorized the remaining available balance of $21.1 million to be used for community grants, internal initiatives and program administration.

Back to Agenda

Subsequently, at its February 22, 2019 Special Meeting, the Board approved funds to be reallocated to the Clinical Field Teams Pilot for the Homeless Health Initiatives. The funds were reallocated from Requests for Proposals (RFP) 4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) in the total amount of $1 million which were not recommended for grants. In addition, $100,000 IGT 6 funds previously approved by the Board were reallocated from Internal Initiatives to the Clinical Field Teams Pilot. The reallocations were ratified at the April 4, 2019 Board meeting.

Proposed Allocation for community grants and internal initiatives is as follows:

Community Grants

Request for Proposal	Priority Area	Allocation Amount
1. Access to Outpatient Mental Health Services	Children's Mental Health	$4,850,000
2. Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	$4,850,000
3. Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000
4. Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
5. Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA	$1,000,000
6. Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA	Allocated to the Homeless Health Initiatives
TOTAL		**$16,700,000**

Internal Initiatives

Internal Project Examples: - IS and other infrastructure projects as summarized below.	$2,400,000
TOTAL	**$2,400,000**

External subject matter experts and staff performed an examination of the RFP responses and evaluated them based on the following criteria:

Back to Agenda

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do and Director DiLuigi, met to discuss the results of the 54 RFP responses for the Children's Mental Health and Opioid and Other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the evaluation committees results and RFP recommendations, the Ad Hoc committee is recommending the following allocation of approximately $16.7 million for IGT 6 and 7 Board-approved priority areas through four (4) RFPs.

Community Grants

Category	Organization	Funding Amount
RFP 1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	Children's Bureau of Southern California	$3,390,000
	OCAPICA (Orange County Asian & Pacific Islander Community Alliance, Inc)	$685,000
	Boys & Girls Clubs of Garden Grove	$325,000
	Jamboree Housing	$450,000
RFP 2. Integrate Children's Mental Health Services into Primary Care ($4.85 million)	CHOC Children's	$4,250,000
	Friends of Family Health Center	$600,000
RFP 3. Increase Access to Medication-Assisted Treatment ($6 million)	Coalition of Orange County Community Health Center	$6,000,000
RFP 5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)	Serve the People	$1,000,000
TOTAL		**$16,700,000**

As noted above, the ad hoc is not recommending grants for two of the RFP categories (4. Expand Mobile Food Distribution Services and 6. Expand Access to Food Distribution for Older Adults) and the associated funding was previously reallocated to the Clinical Field Teams Pilot at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Back to Agenda

Internal Initiatives
In addition, staff reviewed four internal applications and is recommending an allocation of $2.4 million for internal projects. Funding of $100,000 from the Internal Initiatives budget was reallocated to the Clinical Field Team pilot for the Homeless Health Initiatives at the February 22, 2019 Special Meeting of the CalOptima Board of Directors.

Project	Amount
Whole Child Model Assistance for Implementation and Development (WCM AID)	$1,750,000
Master Electronic Health Record (EHR) System	$650,000
TOTAL	**$2,400,000**

Fiscal Impact
The recommended action to approve the allocation of $19.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal health plan for Orange County, will work with our provider and community partners to address the health care needs of the members we serve.

Concurrence
Gary Crockett, Chief Counsel

Back to Agenda

IGT 6 and 7 Community Grant Award Recommendations

August 1, 2019

Candice Gomez
Executive Director, Program Implementation

Back to Agenda

Background

- IGT process enables CalOptima to secure additional federal revenue to increase California's low Medi-Cal managed care capitation rates
  - IGTs 1–7: Funds must be used to deliver enhanced services for the Medi-Cal population
  - IGTs 8–9: Funds must be used for Medi-Cal covered services for the Medi-Cal population
- CalOptima Board of Directors approved IGT 6 and 7 priority areas for community-based funding opportunities
  - Children's Mental Health
  - Homeless Health
  - Opioid and Other Substance Overuse
  - Other Needs Identified by the Member Health Needs Assessment

Background (cont.)

- Received 117 RFIs to identify strategies for each priority area
- IGT 6 and 7 funds of $31.1 million were received in May 2018
  - $10 million approved for recuperative care services in August 2018
  - $21.1 million allocated for community grants, internal initiatives and program administration in September 2018
    - $17.7 million in community grants
    - $2.5 million in internal initiatives
    - $900,000 in program administration (over 3 years)
- Released RFPs, evaluated responses and conducted site visits from September 2018–January 2019

RFP Evaluation Criteria

- Organizational capacity and financial condition
- Statement of need that describes the specific issue or problem and the proposed program/solution
- Impact on CalOptima members with outreach and education strategies
- Efficient and effective use of potential grant funds for proposed program/solution

Site Visits

- Subject matter experts and staff conducted site visits to finalist organizations
- Questions were asked to:
  - Better understand the organization, current services provided and the proposed project
  - Identify the organization's leadership capacity and skills to effectively provide the proposed services
  - Determine if there are any concerns with awarding a grant to the organization

RFP Summary

RFP	Total Received	Total Recommended
1. Expand Access to Outpatient Children's Mental Health Services ($4.85 million)	26	4
2. Integrate Children's Mental Health Services Into Primary Care ($4.85 million)	10	2

5. Expand Access to Food Distribution Services Focused on Children and Families ($1 million)

Rank	Organization	Original Request	Recommended Funding Amount
1	Serve the People	$1,000,000	$1,000,000
	Total	**$1,000,000**	**$1,000,000**

No Funding for RFPs 4 and 6

- No funding is recommended for two RFPs
  - 4. Expand Mobile Food Distribution Services ($500,000)
  - 6. Expand Access to Food Distribution Services for Older Adults ($500,000)
- Submitted proposals presented challenges
  - Did not demonstrate delivery of service to CalOptima members
  - Did not demonstrate sustainability after funds exhausted
- Funding was allocated to the Homeless Health Initiative's Clinical Field Team pilot on February 22, 2019

Internal Projects ($2.4 million)

Rank	Project	Original Request	Recommended Funding Amount
1	Whole-Child Model Assistance for Implementation and Development	$1,750,000	$1,750,000
2	Master Electronic Health Record (EHR) System	$700,000	$650,000
	Total	**$2,450,000**	**$2,400,000**

Recommended Board Actions

- Approve the recommended allocations of IGT 6 and 7 funds in the amount of $19.1M for community grants and internal projects; and,
- Authorize the Chief Executive Officer with the assistance of Legal Counsel to execute grant contracts with the recommended community grantees.

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

IGT Update & Proposed Funding Categories for IGT 6 & 7

Board of Directors Meeting

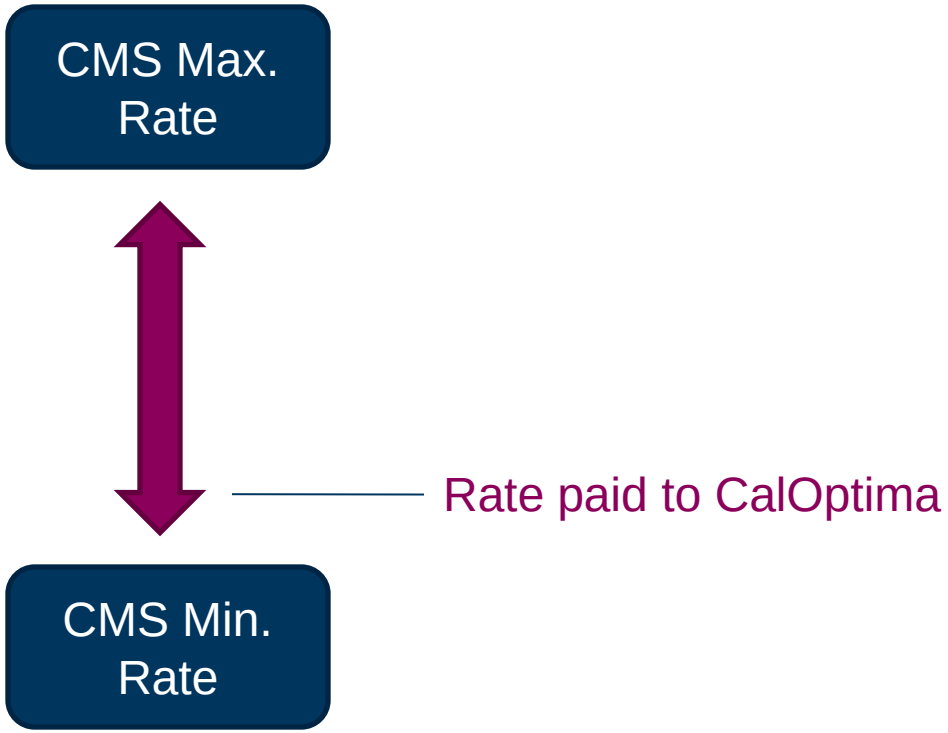
August 3, 2017

Cheryl Meronk

Director, Strategic Development

Back to Agenda

Back to Agenda



Intergovernmental Transfers (IGT) Background

- Medi-Cal program is funded by state and federal funds
- IGT process enables CalOptima to secure additional federal revenue to increase California's low Medi-Cal managed care capitation rates
- Funds must be used to deliver enhanced services for the Medi-Cal population

Back to Agenda

Low Medi-Cal Managed Care Rates

- CMS approves a rate range for Medi-Cal managed care
- California pays near the bottom of the range

IGT Funds Availability and Process

- Available pool of dollars based on difference paid to CalOptima and the maximum rate
- Access to IGT dollars is contingent upon eligible government entities contributing dollars to be used as match for federal dollars
- Funds secured through cooperative transactions among eligible governmental funding entities, CalOptima, DHCS and CMS

CalOptima Share Totals To-Date

IGTs	CalOptima Share
IGT 1	$12.52 M
IGT 2	$8.60 M
IGT 3	$4.88 M
IGT 4	$6.97 M
IGT 5	$14.42 M
Total	**$47.39 M**

Back to Agenda

Back to Agenda

CalOptima A Public Agency Better. Together.

IGT 5

- $14.4M allocated for competitive community grants
- Community grant initiatives to be developed, pending results from CalOptima's Member Health Needs Assessment

- Funding Categories:
  - Adult Mental Health
  - Children's Mental Health
  - Strengthening the Safety Net
  - Childhood Obesity
  - Improving Children's Health

Member Health Needs Assessment (IGT 5)

- Builds upon previous surveys and assessments, e.g.
  - CalOptima Group Needs Assessment
  - OC Health Care Agency – OC Health Profile
  - Hospital Community Needs Assessments
- Deeper focus on needs of diverse, underserved Medi-Cal membership, including:
  - 7 threshold languages + others never previously represented
  - Homeless
  - Mentally ill
  - Older adults
  - Persons with disabilities

Back to Agenda

Member Health Needs Assessment (IGT 5)

- Comprehensive assessment to identify gaps in and barriers to service
  - Access to PCPs, specialists & hospitals
  - Pharmacy and lab
  - Oral health services
  - Mental health services
- Insights into social determinants of health
  - Economic stability/employment status
  - Housing status
  - Education/literacy level
  - Social isolation
  - Transportation issues
  - Cultural differences
  - Communication barriers

Estimated IGT 6 and 7 Totals

IGT	CalOptima Share
IGT 6	≈ $9.95 M (Anticipated December 2017)
IGT 7	≈ $12.16 M (Anticipated May 2018)
Total	**≈ $22.11 M**

Proposed IGT Funding Categories - IGT 6 and 7

- Funds to be used to deliver enhanced services for the Medi-Cal population

Opioid/Other Substances Overuse

- Nationwide, 78 opioid overdose deaths per day
  - 45% of Rx drug overdose deaths are Medicaid beneficiaries
- In OC, 286 opioid-related drug overdose deaths in 2016
  - Opioid dependence second leading cause of substance-related hospitalizations in OC after alcohol dependence syndrome
- Potential solutions to be funded:
  - Expand access to pain management, addiction treatment and recovery services
  - Outreach and education
  - Technical assistance to community groups working to reduce opioid and other substance overuse

Children's Mental Health

- Estimated 52,500 OC youth living with a mental health condition
- Hospitalization rate for major depression among children and youth continues to rise
- Only 32 psychiatric acute care beds in OC for adolescents, and zero for children under 12
  - New CHOC facility will add 18 beds, for ages 3-18

- Potential solutions to be funded:
  - Expand inpatient and outpatient psychiatric services capacity for children 3-18

Homeless Health

- Homelessness in OC on the rise
  - 2017 Point-in-Time count identified 4,792 homeless individuals
  - 2015 Point-in-Time count was 4,452
  - As of 2015, estimated 15,291 homeless individuals in OC
    - Approximately 11,000+ of these are CalOptima members
- Economic impact of homelessness ≈ $300M over 12-month period between 2014-15
  - Includes $121M for health care costs
- Potential solutions to be funded:
  - Expand recuperative care services
  - Increase/expand mobile health clinics

Competitive Community Grants

- Funding to fill gaps and address barriers to service beyond IGT 5 funding categories:
  - Examples of possible additional priority areas:
    - Older Adult Health
    - Dental Health
    - Persons with Disabilities
    - Maternal/perinatal Health

CalOptima Projects and Program Admin

- Approx. 10% of total IGT 6 & 7 set aside for internal priorities and program administration, e.g.:
  - Expansion of provider electronic records capabilities
  - IGT program administration
  - Grant development and administration

Back to Agenda

Next Steps

- Gather stakeholder input
  - PAC
  - MAC
  - OCC MAC
  - Community organizations
- Develop expenditure plans for Board approval

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 3, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

4. Consider Approval of Recommended Expenditure Categories for Intergovernmental Transfer (IGT) 6 and IGT 7, Reallocation of Prior IGT Funds, and Extension of Deadline for the University of California, Irvine (UCI) Observation Stay Pilot

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve recommended expenditure categories for IGT 6 and 7;
2. Authorize proposed reallocation of IGT funds as detailed herein to Strategies to Reduce Readmission~~; and~~
3. ~~Extend deadline for the parties to reach agreement on terms UCI Observation Stay Pilot Program to October 31, 2017.~~ *Continued to a future Board meeting.*

Rev. 8/3/17

Background/Discussion

Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. The IGT funds are to be used to provide enhanced/additional benefits to existing Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program. Consequently, these funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

Funds received by CalOptima for IGTs 1-5, which have totaled $47.3 million, have been previously allocated to projects which support CalOptima Board-approved funding categories to guide community health investments for the benefit of CalOptima members. CalOptima's share of the combined net proceeds of IGTs 6 and 7 are projected to be approximately $22.1million.

IGT 6 and 7 Proposed Expenditure Categories

The Board of Directors' IGT Ad Hoc committee appointed by the Board Chair met on July 6, 2017, to receive an update on current IGT projects and review potential IGT 6 and IGT 7 expenditure categories. The ad hoc committee consists of Directors Khatibi, Nguyen, and Schoeffel. The Ad Hoc committee recommends utilizing CalOptima's share of IGT 6 and IGT 7 funds to support programs addressing the following areas:

- Opioid and Other Substance Overuse
- Children's Mental Health
- Homeless Health
- Community Grants to support program areas beyond those funded by IGT 5

Staff will return to the Board with recommendations once a more detailed expenditure plan is developed.

Back to Agenda

Prior IGT Funding Reallocations and Changes

Several projects under previous IGTs were recently completed, and in order to balance out the accounts, staff is recommending several reallocations between projects. The table below outlines the proposed reallocation of IGT funds as well as changes to previously approved projects:

From (Project/ IGT)	Proposed Action	To (Project/IGT)	Reason
FHQC Support Phase 2/ IGT 2	Reallocate $22,909	Strategies to Reduce Readmission/ IGT 1	Strategies to Reduce Readmission has a negative balance of $77,836 due to delayed reimbursements to the health network. FQHC Support Phase 2 is complete with a remaining balance of $22,909
Autism Screening/IGT 2	Reallocate $54,927	Strategies to Reduce Readmission/ IGT 1	Autism screening reimbursements has had lower interest level from providers than anticipated
UCI Observation Stay Payment Pilot/ IGT 4	Extend 90 day time limit for negotiation of project terms to October 31, 2017	N/A	At its December 1, 2016 meeting, the Board authorized up to $750,000 in IGT 4 dollars to fund an observation pilot at UCI, subject to the parties agreeing to terms within 90 days. As terms continue to be negotiated, staff recommends extending the deadline to reach term to October 31, 2017.

Fiscal Impact

The recommended action has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefits of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the Medi-Cal plan for Orange County is committed to continuing to work with our provider and community partners to address gaps and work to improve the availability, access and quality of health care services available to Medi-Cal beneficiaries.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item
17. Consider Approval of Grant Allocations of Intergovernmental Transfer (IGT) 6 and 7 Funds

Contact
Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions
1. Approve an additional grant allocation of up to $10 million to the Orange County Health Care Agency (OCHCA) from the Department of Health Care Services-approved and Board-approved Intergovernmental Transfer 6 and 7 Homeless Health priority area;
2. Replace the current cap of $150 on the daily rate and the 15-day stay maximum paid out of CalOptima funds with a 50/50 cost split arrangement with the County for stays of up to 90 days for homeless CalOptima members referred for medically justified recuperative care services under OCHCA's Whole Person Care Pilot program; and
3. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the grant agreement with the County of Orange to include indemnity language and allow for use of the above allocated funds for recuperative care services under the County's Whole Person Care (WPC) Pilot for qualifying homeless CalOptima members.

Background
Intergovernmental Transfers (IGT) are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program; thus, funds are best suited for one-time investments or as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants at the recommendation of the IGT Ad Hoc committee to address the following priority areas:
- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the board approved priority areas. The RFI/LOIs helped staff determine funding allocation amounts for the board-approved priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Back to Agenda

Priority Area	# of LOIs
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Staff examined the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

In May 2017, CalOptima received final payment from DHCS for the IGT 6 and 7 transaction and confirmed CalOptima's total share to be approximately $31.1 million.

Discussion

The IGT Ad Hoc committee consisting of Supervisor Do and Directors Nguyen and Schoeffel met on February 17 and reconvened on April 17 to further discuss the results of the RFI/LOI responses specifically in the Homeless Health priority area and to review the staff-recommended IGT 6 and 7 expenditure plan with suggested allocation of funds per priority area.

Since receiving the RFI/LOIs, the County of Orange over the past several months has been engaged in addressing the homelessness in Orange County. Numerous public agencies and non-profit organizations, including CalOptima, have been working diligently to address this challenging matter. A lot has been accomplished, yet much more needs to be addressed.

Before making recommendation to the Board on the release of the limited grant dollars, the Ad Hoc committee met to carefully review the staff-recommended IGT 6 and 7 expenditure plan while also considering the pressing homeless issue.

In response to this on-going and challenging environment, and through the recommendation of the Ad Hoc committee, staff is recommending an allocation of up to $10 million to the OCHCA from IGT 6 and 7 to address the health needs of CalOptima's members in the priority area of Homeless Health

This will result in a remaining balance of approximately $21.1 million, which the Ad Hoc will consider separately and return to the Board with further recommendations.

In addition, staff is seeking authority to amend the grant agreement with the County to direct the allocation of up to $10 million of funds to provide recuperative care services for homeless CalOptima members under the recuperative care/WPC Pilot. The current agreement with the County allows CalOptima to pay for a maximum of $150 per day up to 15 days of recuperative care per member, with the County responsible for any costs. Staff is proposing to remove the cap on the daily rate and allow the $10 million to be used for funding 50 percent of all medically justified recuperative care days up to

a maximum of 90 days per homeless CalOptima member, to the extent that funds remain available, and subject to negotiation of an amendment to include indemnification by the County in the event that such use of CalOptima IGT funds is subsequently challenged or disallowed.

The WPC Pilot, a county-run program is intended to focus on improving outcomes for participants, developing infrastructure and integrating systems of care to coordinate services for the most vulnerable Medi-Cal beneficiaries. The current WPC Pilot budget and services are as follows:

		Add'l	
	Total WPC	**County Funds**	**CalOptima**
WPC Connect - electronic data sharing system	$ 2,421,250	$ -	$ -
Hospitals - Homeless Navigators	$ 5,164,000	$ -	$ -
Community Clinics - Homeless Navigators	$ 7,495,000	$ -	$ -
Community Referral Network - social services referral system	$ 1,000,000	$ -	$ -
Recuperative Care Beds	$ 4,277,615	$ 3,483,627	$ 522,100
MSN Nurse - Review & Approval of Recup. Care	$ 628,360	$ -	$ -
211 OC - training and housing coordination	$ 526,600	$ -	$ -
CalOptima - Homeless Personal Care Coordinators & Data Reporting	$ 809,200	$ -	$ -
Housing Navigators	$ 1,824,102	$ -	$ -
Housing Peer Mentors	$ 1,600,000	$ -	$ -
County Behavioral Health Services Outreach Staff	$ 1,668,013	$ -	$ -
Shelters	$ 2,446,580	$ -	$ -
County Admin	$ 1,206,140	$ -	$ -
TOTAL	$31,066,860	$ 3,483,627	$ 522,100

Since the 2016, the OCHCA collaborated with other community-based organizations, community clinics, hospitals, county agencies and CalOptima and others to design the program and has met with stakeholders on a weekly basis. The recuperative care element of the WPC pilot is a critical component of the program. During the first program year, the WPC recuperative care program provided vital services to homeless CalOptima members. CalOptima members in the WPC pilot program are recuperating from various conditions such as cancer, back surgery, and medication assistance and care for frail elderly members. The WPC pilot program has three recuperative care providers providing services, Mom's Retreat, Destiny La Palma Royale and Illumination Foundation.

From July 1, 2017 through June 30, 2018, the WPC pilot program provided the following recuperative care services and linkages for members:

- 445 Homeless CalOptima members admitted into recuperative care for a total of 16,508 bed days
- 22% Homeless CalOptima members served by Illumination Foundation placed into Permanent Supportive Housing
- 4 Homeless CalOptima members in recuperative care approved for Long-Term Care services
- 6 Homeless CalOptima members in recuperative care approved for Assisted Living Waiver services

Back to Agenda

- Total cost for recuperative care services over the fiscal year: $2,946,700
    - Average length of stay: 37 days
    - Average cost per member: $6,623

The OCHCA experienced a shortfall in the budgeted funds for the WPC/Recuperative Care Program in Year 1 as more individuals were identified to be eligible for the program than projected. The Whole Person Care pilot budget is approximately $31 million, with $8.4 million allocated to provide recuperative care. As the WPC pilot moves into the new fiscal year, the program continues to experience a shortfall. To address the budget shortfall, the number of admissions into the recuperative care program was restricted; however, projected need is projected to increase over the next three years to approximately 2,368 homeless individuals, or 790 per year. The program will need approximately $18.6M over the next three years to meet the increased need for recuperative care services. The County's remaining WPC budget for recuperative care services over this period is approximately $5.3 million.

Individuals who are recovering safely through the program are connected to medical care, including primary care medical homes and medical specialists. In addition, members may receive behavioral health therapy and/or substance use disorder counseling services. Clients from the WPC pilot program are seven times more likely to use the Emergency Room (ER) and nine times more likely to be hospitalized than general Medi-Cal Members.

The WPC recuperative care program serves and is available for homeless CalOptima members when medically indicated, for members who are discharged from hospitals and skilled nursing facilities, as well as those referred from clinics, and OCHCA public health nurses.

Fiscal Impact
The recommended action to approve the allocation of $10 million from IGT 6 and IGT 7 to the OCHCA has no fiscal impact to CalOptima's operating budget. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima Medi-Cal members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation
As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

Concurrence

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken September 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

13. Consider Authorization of Expenditure Plan for Intergovernmental Transfer (IGT) 6 and 7 Funds, Including the Release of Requests for Proposals (RFPs) for Community Grants to Address Children's Mental Health, Opioid and Other Substance Overuse, and Other Community Needs Identified by the CalOptima Member Health Needs Assessment

Contact

Phil Tsunoda, Executive Director, Public Policy and Public Affairs, (714) 246-8400

Recommended Actions

1. Approve the expenditure plan for allocation of IGT 6 and 7 funds in the amount of $21.1 million for the Department of Health Care Services (DHCS)-approved and Board-approved priority areas; and
2. Authorize the release of Requests for Proposal (RFPs) for community grants and internal project applications, with staff returning at a future Board meeting with evaluation of proposals and recommendations for award(s) being granted.

Background

Intergovernmental Transfers are transfers of public funds between eligible government entities which are used to draw down matching federal funds for the Medi-Cal program. IGT funds are to be used to provide enhanced/additional benefits for Medi-Cal beneficiaries. There is no guarantee of future availability of the IGT Rate Range program, thus funds are best suited for one-time investments or, as seed capital for new services or initiatives for the benefit of Medi-Cal beneficiaries.

At the August 3, 2017 Board of Directors meeting, IGT 6 and 7 funds totaling approximately $22 million were approved to support community-based organizations through one-time competitive grants to address the following priority areas:

- Children's Mental Health
- Homeless Health
- Opioid and Other Substance Use Disorders
- Community Needs Identified by the CalOptima Member Health Needs Assessment

On October 19, 2017 CalOptima released a notice for Requests for Information/Letters of Interest (RFI/LOI) from organizations seeking funding to address community needs in one or more of the above referenced priority areas. CalOptima received a total of 117 RFI/LOIs from community-based organizations, hospitals, county agencies and other community interests. The 117 RFI/LOIs are broken down as follows:

Priority Area	**# of LOIs**
Children's Mental Health	57
Homeless Health	36
Opioid and Other Substance Use Disorders	22
Other/Multiple Categories	2
Total	**117**

Back to Agenda

Staff performed an examination of all the responses and evaluated them based on the following criteria:

- Statement of need describing the specific issue and/or problem and proposed program and/or solution, including new and innovative and/or collaborative efforts and expansion of services and personnel;
- Information on the impact to CalOptima members; and
- Demonstration of efficient and effective use of the potential grant funds for the proposed program and/or solutions.

Discussion

In late May 2018, CalOptima received final IGT 6 and 7 funding from DHCS, resulting in a total of $31.1 million for CalOptima's share of the combined IGT transaction. IGT 6/7 funds totaled $31.1 million rather than the initially projected $22 million due to an adjustment in the enrollment numbers estimated by the California Department of Health Care Services and the higher federal match for the expansion population. On August 2, 2018, CalOptima's Board of Directors approved a $10 million allocation from the Homeless Health priority area to the County of Orange Health Care Agency for the Recuperative Care services under the Whole Person Care pilot program; resulting in a remaining available balance of $21.1 million.

The IGT 6 and 7 Ad Hoc committee comprised of Supervisor Do, and Directors Nguyen and Schoeffel, met on July 20 and July 27 to discuss the results of the 117 RFI/LOI responses for the Children's Mental Health, Opioid and other Substance Overuse as well as to review recommendations for other program areas identified by the Member Health Needs Assessment (MHNA). Following the review of the staff evaluation process and RFP recommendations, the Ad Hoc committee and staff determined allocation amounts and descriptions for each of the proposed six (6) Request for Proposals (RFPs). In addition, staff is recommending an allocation of IGT dollars for internal projects and program administration in the amounts indicated.

The Ad Hoc committee is recommending the following allocation of approximately $17.7 million for IGT 6 and 7 Board-approved priority areas through six (6) RFPs. Please note that multiple applicants may be selected per RFP to receive a grant award.

Community Grants

Request for Proposal	Priority Area	Allocation Amount
Access to Outpatient Mental Health Services	Children's Mental Health	~~$2,700,000~~ $4,850,000
Integrate Mental Health Services into Primary Care Settings	Children's Mental Health	~~$7,000,000~~ $4,850,000
Increase access to Medication-Assisted Treatment (MAT)	Opioid and Other Substance Overuse	$6,000,000

Rev. 9/6/18

Back to Agenda

Expand Mobile Food Distribution Services	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$500,000
Expand Access to Food Distribution Services focused on Children and Families	Community Needs Identified by the MHNA/Childhood Obesity and Children's Health	$1,000,000
Expand Access to Food Distribution Services for Older Adults	Community Needs Identified by the MHNA/Older Adult Health	$500,000
TOTAL		**$17,700,000**

Rev. 9/6/18

Internal Projects and Program Administration

In addition, staff is also recommending an allocation of approximately $3.4 million for internal projects and IGT program administration to manage all IGT program projects as follows:

Internal Project Examples: - IS and other infrastructure projects	$2,500,000
IGT Program Administration - Support for two (2) existing staff positions for three years - Grant Management System license, and other administrative costs for three years	$949,289 *(Approx. $317,000 per year for three years)*
TOTAL	**$3,449,289**

Staff anticipates returning with recommendations of RFP grantee awards and internal project(s) for Board approval following the completion of the community grant and internal project RFP application processes at the February 2019 Board meeting. The staff positions are Manager, Strategic Development, and Program Assistant, and the above proposed funding is in addition to $10 million allocated from IGT 6/7 for Homeless Health on August 2, 2018.

Fiscal Impact

The recommended action to approve the expenditure plan and allocation of $21.1 million from IGT 6 and 7 funds has no fiscal impact to CalOptima's operating budget because IGT funds are accounted for separately. Expenditure of IGT funds is for restricted, one-time purposes for the benefit of CalOptima members, and does not commit CalOptima to future budget allocations.

Rationale for Recommendation

As part of CalOptima's vision in working Better. Together, CalOptima, as the community health plan for Orange County, will work with our provider and community partners to address community health needs and gaps and work to improve the availability, access and quality of health care services.

IGT 6 & 7 Expenditure Plan Allocation

Board of Directors Meeting

September 6, 2018

Cheryl Meronk

Director, Strategic Development

Back to Agenda

IGT 6 & 7 - Background

- Board Established 3 New Priority Areas
  1. **Homeless Health**
  2. **Opioid and Other Substance Overuse**
  3. **Children's Mental Health**
  - ➢ Community needs identified by MHNA
  - ➢ Internal projects and IGT program administration
- Received 117 LOIs
- $10.0M allocated for County HCA for Homeless Health/WPC Recuperative Care
- Ad Hoc met to discuss recommendations for other categories

IGT 6 & 7 Funding

- **$31.1M** CalOptima's share
- **$10.0M** to County HCA for WPC Recuperative Care
- **$21.1M** remaining for recommended distribution
  - ➢ $17.7M for Community Grants
    - Six Request for Proposals (RFPs)
      - 2 RFPs in Children's Mental Health
      - 1 RFP in Opioid and other Substance Overuse
      - 3 RFPs for MHNA identified needs
  - ➢ $3.4M for Internal Projects and Program Administration

IGT 6 & 7 LOI Summary

Priority Area	# Received
Children's Mental Health	57
Homeless Health	36
Opioid & Other Substance Overuse	22
Other/multiple categories	2
Total	**117**

Children's Mental Health – 2 RFPs

RFP #	RFP Description	Funding Amount
1	Expand Access to Outpatient Mental Health Services	$2.7 million
2	Integrate Mental Health Services into Primary Care Settings	$7.0 million
	Total	**$9.7 million**

* Multiple awardees may be selected per RFP

RFP 1

Expand Access to Outpatient Children's Mental Health Services

- **Funding Amount:** $2,700,000
- **Description:**
  - Access to outpatient services
    - Create/expand school or resource center-based mental health services for children.
    - Provide services on-site, in-home, and/or afternoon/evening
    - Use an integrated model with community health workers to target vulnerable populations such as children experiencing homelessness, who have experienced traumatic incidences, homeless etc.
    - Provide additional support services to help promote stability and success

RFP 2

Integrate Children's Mental Health Services into Primary Care Settings

- **Funding Amount:** $7 million
- **Description:**
  - Integrate mental health services provided in primary care settings
    - Include behavioral health providers in clinics and/or other settings where children are provided health care services
    - Provide culturally sensitive services
    - Provide efficient and immediate access to mental health consultation
    - Provide health navigation/scheduling coordinator to ensure availability and follow-up of services

Opioid & Other Substance Overuse – 1 RFP

RFP #	RFP Description	Funding Amount
3	Increase access to Medication-Assisted Treatment	$6.0 million
	Total	**$6.0 million**

*Multiple awardees may be selected per RFP

RFP 3

Increase access to Medication-Assisted Treatment

Funding Amount: $6.0 million

- **Description:**
  - Increase access to Medication-Assisted Treatment (MAT) Programs
    - Combine behavioral and physical health services
    - Manage oversight and prescribing of FDA-approved medications and program administration
    - Provide management of patients' overall care coordination
  - Integrate pain management services
  - Ensure availability of providers/staff to deliver appropriate services
  - Establish a partnership with the Orange County Health Care Agency Drug Medi-Cal Organized Delivery System (ODS) for referrals/collaboration

Community Needs Identified by MHNA: Food Access – 3 RFPs

RFP #	RFP Description	Funding Amount
4	Expand Mobile Food Distribution Services	$500K
5	Expand Access and Food Distribution focused on Children and Families	$1 million
6	Expand Access to Older Adults Meal Programs	$500K
	Total	**$2 million**

*Multiple awardees may be selected per RFP

RFP 4

Expand Mobile Food Distribution Services

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase availability and access to healthy food options in areas of where fresh food/grocery stores are limited
  - Ensure additional mobile food trucks/vehicles to distribute healthy food options such as fresh produce/groceries that are culturally appropriate in areas of greatest need
  - Enroll members in mobile food distribution services programs
  - Provide education to prepare nutritious meals and/or pre-made meal options and simple recipes

RFP 5

Expand Access and Food Distribution Services focused on Children and Families

- **Funding Amount:** $1 million
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Access to healthy food options such as fresh fruits, vegetables and other groceries
  - Increase access to culturally appropriate food options
  - Enroll/connect members to food distribution service programs
  - Provide education and simple recipes to help families on a limited budget
  - Provide take-home meals for children/families who may not have access to cooking facilities

RFP 6

Expand Access to Older Adult Meal Programs

- **Funding Amount:** $500,000
- **Description:**
  - MHNA data shows more than 30% of members indicated they needed help obtaining food each month
  - Increase access to:
    - Healthy options such as fresh fruits, vegetables and other groceries in areas of highest need
    - Culturally appropriate food options
    - Home delivered meals
  - Enroll/connect member food distribution service programs

Internal Projects/Program Admin.

Description	Amount
IS and Other Infrastructure Projects	$2.5 million
Support for staff and administrative costs	~$315K/year (for 3 years)

Next Steps*

- IGT 6 & 7 RFP Recommendations: September 6, 2018 Board Meeting
- Release of RFPs: September 2018
- RFPs due: November 2018
- IGT Ad Hoc review of recommended grant awards: January 2019
- Recommended awards: February 2019 Board Meeting

* Dates are subject to change based on Board approval

Special Meeting of the CalOptima Board of Directors
February 22, 2019

Michael Schrader
Chief Executive Officer

Back to Agenda

Agenda

- Current system of care
- Strengthened system of care
- Federal and State guidance
- Activities in other counties
- Considerations
- Recommended actions

Back to Agenda

CalOptima
A Public Agency
Better. Together.

Current System of Care

Key Roles	Agency
Public Health	County
Physical Health	CalOptima*
Mental Health – mild to moderate	CalOptima*
Serious Mental Illness (SMI) and Substance Use Disorder	County
Shelters	County and Cities
Housing supportive services for SMI population • Housing search support • Facilitation of housing application and/or lease • Move-in assistance • Tenancy sustainment/wellness checks	County
Intensive Care Management Services	County and CalOptima*
Medi-Cal Eligibility Determination and Enrollment	County
Presumptive Medi-Cal Eligibility	State Medi-Cal Fee-for-Service Program

**For Medi-Cal Members*

Current System of Care (Cont.)

- Services available to Medi-Cal members through CalOptima
  - Physician services – primary and specialty care
  - Hospital services and tertiary care
  - Palliative care and hospice
  - Pharmacy
  - Behavioral health (mild to moderate)
- Recuperative care funding with IGT dollars through County's Whole-Person Care Pilot
  - A clean and safe place for homeless individuals to recover from illness or injury for up to 90 days
  - A form of short-term shelter based on medical necessity

Gaps in the Current System of Care

- Access issues for homeless individuals
  - Difficulty with scheduled appointments
  - Challenges with transportation to medical services
- Coordination of physical health, mental health, substance use disorder treatment, and housing
- Physical health for non-CalOptima members who are homeless
  - Individuals may qualify for Medi-Cal but are not enrolled

Immediate Response

- In 2018, more than 200 reported homeless deaths in Orange County
  - Roughly double the number of homeless deaths in San Diego County
- CalOptima Board
  - On February 20, 2019, Quality Assurance Committee tasked staff to investigate
    - Percentage that were CalOptima members
    - Demographics
    - Causes of death
    - Prior access to medical care
  - Identify opportunities for improvement

Strengthened System of Care

- Vision
  - Deliver physical health care services to homeless individuals where they are
- Partner with FQHCs to deploy mobile clinical field teams
  - Reasons for partnering with FQHCs
    - Receive CalOptima reimbursement for Medi-Cal members
    - Receive federal funding for uninsured
    - Enrollment assistance into Medi-Cal
    - Offer members education on choosing FQHC as their PCP
  - About the FQHC clinical field teams (a.k.a., “Street Medicine”)
    - Small teams (e.g., physician/NP/PA, medical assistants, social worker)
    - Available with extended hours
    - Go to parks, riverbeds and shelters
    - In coordination with County Outreach and Engagement Team (a.k.a., “Blue Shirts”)

Federal and State Guidance

- Depending on the state-specific waivers and county contracts with state, Medicaid funds can be used for coverage of certain housing-related activities, such as
  - Intensive case management services
    - Section 1915(c) Home and Community Based Services waiver
      - e.g., In-Home Supportive Services and Multipurpose Senior Services Program
  - Housing navigation and supports
    - Section 1115 waiver
      - e.g., Whole-Person Care Pilot

Federal and State Guidance (Cont.)

- Medicaid funds cannot be used for rent or room and board
  - CMS Informational Bulletin – June 26, 2015
- CalOptima's Medi-Cal revenue and reserves can be used for the CalOptima Medi-Cal program only
  - Welfare & Institutions Code section 14087.54 (CalOptima enabling statute)

Activities in Other Counties

- Los Angeles County
  - LA County administers a flexible housing subsidy pool
  - L.A. Care provided a $4 million grant (total commitment of $20 million over 5 years) for rent subsidies to house 300 individuals
    - L.A. Care has other sources of revenue beyond Medi-Cal (e.g., Covered California commercial plan)
- Riverside and San Bernardino Counties
  - Inland Empire Health Plan contributes to a housing pool to provide housing supportive services for 350 members
- Orange County
  - Housing pool not in existence today under WPC Pilot
  - If established pursuant to the 1115 Waiver (e.g., under WPC), CalOptima could contribute funds for housing supportive services, not rent

Considerations

- Establish CalOptima Homeless Response Team
  - Dedicated CalOptima resources
  - Coordinate with clinical field teams
  - Interact with Blue Shirts, health networks, providers, etc.
  - Work in the community
  - Provide access on call during extended hours
- Fund start-up costs for clinical care provided to CalOptima members
  - On-site in shelters
  - On the streets through clinical field teams

Additional Considerations

- Look at opportunities to support CalOptima members who are homeless
  - ➢ Contribute to a housing pool
    - Housing pool must exist under an 1115 waiver program (e.g. WPC) in order to use Medi-Cal funds
    - CalOptima contribution used towards housing navigation and support services; cannot be used towards rent or room and board

Recommended Actions

- Authorize establishment of a clinical field team pilot program
  - Contract with any willing FQHC that meets qualifications
  - ~~CalOptima financially responsible for services regardless of health network eligibility~~
  - ~~One year pilot program~~
  - ~~Fee-for-service reimbursement based on CalOptima Medi-Cal fee schedule~~
- Authorize reallocation of up to $1.6 million from IGT 1 and 6/7 to fund start-up costs for clinical field team pilot
  - ~~Vehicle, equipment and supplies~~
  - ~~Staffing~~

Recommended Actions (Cont.)

- Authorize establishment of the CalOptima Homeless Response Team
  - Authorize eight unbudgeted FTE positions and related costs in an amount not to exceed $1.2 million
- Return to the Board with a ratification request for further implementing details
- Consider other options to work with the County on a System of Care
- Obtain legal opinion related to using Medi-Cal funding for housing-related activities

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

Back to Agenda

RFP 1. Expand Access to Outpatient Children's Mental Health Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Access California Services	$ 195,000	Playing with Rainbows	Provide an innovative play-based therapeutic program that facilitates the process of healing in immigrant and/or refugee children who have been traumatized by war and migration through the use of a group counseling process involving play and art.
Boys & Girls Club of Anaheim Inc.	$ 1,331,418	Wild at Heart	A therapeutic wilderness program focused on improving children's mental health, coping skills and resilience through evidence-based outdoor experiential therapy to at-risk youth aged 12 to 18
Boys & Girls Clubs of Garden Grove	$ 325,200	Teen Mental Health Leadership Program	Reduce stigma, increase coping skills, and triage mental health care by providing peer training to community-based teen empowerment programs and education around outreach and stigma reduction.
Casa de la Familia (CDLF)	$ 1,840,968	SAUSD Mental Health Project	Provide culturally sensitive counseling, case management, outreach and parental support services to students and parents within the Santa Ana Unified School District.
Child Guidance Center, Inc	$ 1,207,053	School Based Behavioral Health Services for Military/Veteran Connected Families	Expand resource center-based behavioral health services for veteran and military connected children by providing early intervention, prevention programs and behavioral health services to children in a community-based setting. Program will also provide training to schools and implement peer navigators. Program will leverage MHSA Innovation project with the Family Resource Centers.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
Children's Bureau of Southern California (Children's Bureau)	$ 3,500,000	Children's Mental Health Access Collaborative	Bring together 12 outpatient mental health services providers to expand access to mental health services and increase coordination, outreach, peer support, and systems integration. Providing other Early Childhood Mental Health interventions not currently covered by MHSA funds or Medi-Cal.
CSU Fullerton Auxiliary Services Corporation	$ 4,033,395	The Early Childhood Mental Health and Wellness Program	Implement a Early Childhood Mental Health and Wellness Program through a facilitated process by a consultant and a leadership team of early care and education programs.

Wellness & Prevention Center	$ 153,951	Expansion of School and Community-based Youth Wellness Programming	Increase bilingual staff, support a coalition of Spanish-speaking parents and providers, and establish a presence at five new schools and community centers.
Women's Transitional Living Center, Inc.	$ 50,000	Children's Therapy Program	Counselors work with children through treatment plans that are age-appropriate, creative, and flexible, and can incorporate a range of counseling services, including individual counseling, family counseling, art therapy, sand therapy, and play therapy.

Back to Agenda

RFP 2. Integrate Children's Mental Health Services Into Primary Care			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
AltaMed Health Services Corporation	$ 998,040	Integrating Children's Mental Health Into Primary Care in Orange County	Enhance current pediatric primary care services by integrating mental health services for children, providing referrals to early intervention, and engaging parents through community outreach and education.
CHOC Children's	$ 4,785,076	Expanding Mental Health Access and Knowledge in Pediatric Primary Care and Community Settings	Establish mental health screening, embedded mental health services, telehealth, and resource and referral for members in clinics served by CHOC Medical Group and in CHOC's Primary Care Network. Program will also provide trainings over the 3 years.
Families Together of Orange County	$ 920,000	Expanding Children's Mental Health Services	Integrate children's mental health services into primary care by offering on-site outpatient pediatric mental health care at the community health center in Tustin with outreach and education.
Friends of Family Health Center	$ 600,000	Healthy Steps	Introduce the evidence-based model HealthySteps program designed to have a specialist screen and provide families with support for common and complex concerns during a well-child visit. The HealthySteps specialist will assist with referrals and connects to additional services.
Laguna Beach Community Clinic	$ 69,109	Pediatric Mental Health: Screening and Case Management to Increase Access to Treatment	Provide screening, case management, and linkage to mental health resources and treatment for Cal-Optima members
Livingstone Community Development Corporation	$ 626,000	Integrating Children's Mental Health Services into Medical Care	Integrate outpatient mental health services into pediatric primary care screening and expand its arts and music therapy program.
Share Our Selves Corporation (SOS)	$ 200,000	Children's Mental Health Expansion Project	Expand SOS Children and Family Health Center's hours of operation from 40 to 45 hours per week and access to behavioral health outreach education and counseling services.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 2,848,235	Child Psychiatry Consultation and Fellowship Program for Primary Care Providers (CPCFP)	Provide same day telephone consultation to PCPs by a child and adolescent psychiatrist in addition to rapid tele-video consult with ongoing education and training in mental health.
The Safety Net Foundation (FQHC Collaborative)	$ 2,496,000	Pediatric Integration of Behavioral Health in Primary Care for CalOptima's Safety Net: Expansion of Care Coordination, Mid-Level Provider Availability, Telehealth Options and Evidence-Based Training at Community Health Centers	Increase access to pediatric mental health care through the expansion of mid-level providers, the exploration of telemedicine and the integration of behavioral health with pediatric primary care.
Vista Community Clinic	$ 426,422	Enhancing Children's Mental Health via Primary Care Integration and Community Outreach in La Habra	A primary care - mental health integration project for Hispanic youth and their families living in and around the City of La Habra.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

RFP 3. Increase Access to Medication-Assisted Treatment			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Ahura Healthcare	$ 2,850,000	Medicated-Assisted Treatment (MAT)	Provide comprehensive mental health and addiction medicine care with the use of Medicated-Assisted Treatment (MAT) therapy such as Suboxone, Methadone, and Naltrexone provided by licensed physicians along with mental health services and counseling.
Bright Heart Health	$ 3,915,000	Opioid Use Disorder OnDemand Treatment	Provide complete telehealth MAT services through Data2000 physicians, nurse practitioners, and physician assistants.
Central City Community Health Center	$ 930,000	CCCHC SUD-MAT Services & Educational Program	Expand access to and enhance existing, integrated and evidenced-based, SUD-MAT clinical care program with the City of Anaheim Health Center as the "hub" with services available via in-person provider or telehealth. The project includes providing service through mobile units.
Clean Path Recovery LLC	$ 5,998,484	Clean Path Recovery MAT Program	Program will use FDA approved medications in combination with counseling, holistic and behavioral therapies.

Back to Agenda

IGT 6/7 Requests for Proposal (26 RFPs)
1. Expand Access to Outpatient Children's Mental Health Services

Organization Name	Request ($)	Project Title	Project Description
Coalition of Orange County Community Health Centers	$ 5,998,000	MATCONNECT: A County-wide Collaborative for MAT Expansion to CalOptima Members at Community Health Centers	Build capacity and expand access and delivery of MAT services by bridging integration gaps in the Substance Use Disorder (SUD) system of care in Orange County. Implement a localized version of the DHCS Hub and Spoke model and build internal capacity for increased MAT services and access for each of the Spoke locations.
Friends of Family Health Center	$ 600,000	Medication Assisted Treatment	Introduce Medication Assisted Treatment (MAT) with emphasis on opioid addiction with an individually tailored and extensive care coordination for patients
Livingstone Community Development Corporation	$ 808,000	Establishing a Substance Abuse Program with Medication-Assisted Treatment	Establish a new medication-assisted treatment (MAT) program which will be integrated with physical and behavioral health services and include supervised exercise and acupuncture treatments.
Serve the People	$ 1,485,000	Integrated Behavioral Health for Hard To Reach Populations	Purchase and staff Integrated Services (IS) Mobile Clinics and provide integrated whole-person care to individuals at the Courtyard and to others in addiction treatment facilities.
Share Our Selves Corporation (SOS)	$ 200,000	SOS Behavioral Health Expansion Project	Increase capacity to provide comprehensive behavioral health and case management services via telehealth technology and new medical/behavioral health mobile unit at homeless shelters operated by SOS's partner agencies throughout the county.

Back to Agenda

Organization Name	Request ($)	Project Title	Project Description
The Regents of the University of California, Irvine Campus	$ 1,825,518	Establishing and Increasing the capacity of a Medication Assisted Treatment program through a Hub-and-Spoke model for CalOptima patients	Establish and expand the capacity of medication-assisted treatment (MAT) within Orange County. The hubs will be the Zephyr Medical Group in Laguna Hills and UC Irvine Medical Center.

RFP 4. Expand Mobile Food Distribution Services			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 250,000	OC Food Bank Mobile Food Trolley	Project will use OC Food Bank's mobile food trolley to provide a variety of food that is distributed on a first-come, first-served basis and may include items such as produce, non-perishable goods and protein.

RFP 5. Expand Access to Food Distribution Services Focused on Children and Families			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Global Operations & Development / Giving Children Hope	$ 50,000	We've Got Your Back (WGYB)	Food distribution program fills and distributes more than 1,100 backpacks of nutritious food including fruits and vegetables on a weekly basis.
LiveHealthy OC	$ 990,000	The LiveHeathy OC "Farmacy" Project - Establishing a Sustainable Farm to Clinic Network to Increase Access to Fresh, Healthy Foods for Underserved and Low Income Patients	Expands current access to fresh fruits and vegetables using a sustainable farm-to-clinic produce delivery system – the "farmacy" – at five community health centers through a monthly mobile farmers' market.
Livingstone Community Development Corporation	$ 300,000	Expanding Food Access for Children and Families	Expanding food pantry and integrate access to the food pantry into Group Medical Visits with CalOptima members suffering from diabetes, obesity, hypertension, and/or heart disease
Serve the People	$ 1,000,000	OC Food Oasis Partnership	Expand mobile food distribution to five FQHC sites and shelters that serve homeless persons. The strategy is to include healthy food and meal distribution, nutrition education, a 'food as medicine' prescription food box program for patients with chronic disease, and demonstrations on healthy food preparation and cooking, plus outreach and case management to services establishing a system to address social determinants of health.

Organization Name	Request ($)	Project Title	Project Description
Vista Community Clinic	$ 289,533	In the Kitchen: An Innovative Education/Food Distribution Program in La Habra	Develop a teaching kitchen that will provide nutrition education and hands-on cooking lessons to participants (accommodate groups of 12 residents).

RFP 6. Expand Access to Food Distribution Services for Older Adults			
Organization Name	**Request ($)**	**Project Title**	**Project Description**
Community Action Partnership of Orange County	$ 231,514	Farm-to Seniors Food Distribution Program	Provide fresh, healthy food to older adult CalOptima members through a network of 17 distribution sites.
Multi-Ethnic Collaborative of Community Agencies	$ 500,000	Increasing Food Access for Underserved Multi-Ethnic Older Adults	Expand food access distribution at the seven MECCA sites by building the volunteer base capacity, expand outreach, and provide culturally appropriate education.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
18 Consider Authorizing Expenditures in Support of CalOptima's Participation in Community Events

Contact
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions
1. Authorize expenditures for CalOptima's participation in the following community events:
    a. Up to $10,000 and staff participation at the Vietnamese Community of Southern California (VNCSC) 2019 Year of the Rat Tet Festival in Fountain Valley on January 25-26, 2020;
    b. Up to $10,000 and staff participation at the Union of Vietnamese Student Associations Southern California (UVSA) 39th Annual Tet Festival Year of the Rat in Costa Mesa on January 25-26, 2020; and
    c. Up to $5,000 for CalOptima's participation in the Family Voices of California (FVCA) 2020 Annual Health Summit and Legislative Day on March 15-17, 2020 in Sacramento;
2. Make a finding that such expenditures are for a public purpose and in furtherance of CalOptima's mission and statutory purpose; and
3. Authorize the Chief Executive Officer to execute agreements as necessary for the events and expenditures.

Background
CalOptima has a long history of participating in community events, health and resource fairs, town halls, workshops, and other public activities in furtherance of the organization's statutory purpose. Consistent with these activities, CalOptima has offered financial participation in public activities from time to time when such participation is in the public good, in furtherance of CalOptima's mission and statutory purpose, and encourages broader participation in CalOptima's programs and services, or promotes health and wellness among the populations CalOptima serves. As a result, CalOptima has developed and cultivated a strong reputation in Orange County with community partners, providers and key stakeholders.

Requests for participation are considered based on several factors, including: the number of people the activity/event will reach; the marketing benefits accrued to CalOptima; the strength of the partnership or level of involvement with the requesting entity; past participation; staff availability; and available budget.

Discussion
The recommended events will provide CalOptima with opportunities to conduct outreach and education to current and potential members, increase access to health care services, meet the needs of our community, and develop and strengthen relationships with our community partners.

Back to Agenda

a. **Vietnamese Community of Southern California (VNCSC) 2020 Year of the Rat Tet Festival in Fountain Valley**.
Staff recommends the authorization of expenditures for participation in the Lunar New Year Tet Festival scheduled in Fountain Valley. This event celebrates the new lunar year and preserves the Vietnamese culture and traditions with the surrounding community. The event will provide CalOptima opportunities to interact with our Vietnamese members and other festival attendees and share information about CalOptima's programs and services. Vietnamese members comprise approximately eleven percent of CalOptima's total membership. CalOptima has participated in this event for six years. Staff recommends CalOptima's continued support for this event with a $10,000 financial commitment for 2020, which includes the following: One (1) 20x20 exhibitor booth in a prime location, two, three (3) 3' x 8' banner displays, twenty (20) mentions on stage, twenty-five (25) radio impressions, fifteen (15) television impressions, and full ad on ten thousand (10,000) fliers distributed throughout the OC and two (2) 8'x 8' back drop on Tet Festival stage. The event organizer anticipates more than 20,000 visitors throughout the day. This is an educational event that will allow staff to provide outreach and education to the Vietnamese community and serve members speaking one or more of CalOptima's threshold languages. Employee time will be used to participate in this event. Employees will have an opportunity to interact with current and potential members to share information about all CalOptima's programs and services with this under-served and hard to reach population.

b. **The Union of Vietnamese Student Associations Southern California (UVSA) 39th Annual Year of the Rat Tet Festival in Costa Mesa.** Staff recommends the authorization of expenditures for participation in the Lunar New Year Tet Festival scheduled in Costa Mesa. This event celebrates the new lunar year and preserves the Vietnamese culture and traditions with the surrounding community. The event will provide CalOptima opportunities to interact with our Vietnamese members and other festival attendees and share information about CalOptima's programs and services. Vietnamese members comprise approximately eleven percent of CalOptima's total membership. CalOptima has participated in this event for thirteen years. Staff recommends CalOptima's continued support for this event with a $10,000 financial commitment for 2020, which includes the following: Five (5) minute speaking opportunity, one (1) 20x 20 exhibitor booth in a prime location, twenty (20) admission tickets, two (2) three day admission badges, one (1) banner display near the main entrance, logo link on event website for one (1) year, full page program color ad, pageant program full page ad, Employee time will be used to participate in this event. Employees will have an opportunity to interact with current and potential members to share information about CalOptima's programs and services.

c. **Family Voices of California (FVCA) 2020 Annual Health Summit and Legislative Day in Sacramento.** Staff recommends the authorization of expenditures for participation in FVCA's Annual Health Summit and Legislative Day scheduled in Sacramento. FVCA is a statewide collaborative of parent advocates focused on improving policies that ensure quality health care for children with special needs. FVCA also operates seven parent-run centers, providing information and support so families can make informed decisions about their children's health care. FVCA has been an influential advocacy organization working closely with DHCS and the Legislature on the Whole-Child Model program. Specifically, FVCA has

Back to Agenda

reached out to Medi-Cal managed care plans, including CalOptima, to support Orange County children and families during the California Children's Services transition to the Whole-Child Model. CalOptima has participated in this event for three years. Staff recommends CalOptima's continued support for this event with a $5,000 financial commitment for 2020, which includes the following: Verbal recognition at the Summit, CalOptima logo on the Summit materials and social media, one (1) CalOptima branded item in attendee packets and Summit attendance for two (2) representatives.

CalOptima staff has reviewed the request and it meets the consideration for participation as established in CalOptima Policy AA. 1223: Participation in Community Events Involving External Entities, including the following:

1. The number of people the activity/event will reach;
2. The marketing benefits accrued to CalOptima;
3. The strength of the partnership or level of involvement with the requesting entity;
4. Past participation;
5. Staff availability; and
6. Available budget.

CalOptima's involvement in community events is coordinated by the Community Relations Department. The Community Relations Department will take the lead to coordinate staff schedules, resources, and appropriate materials for the event.

As part of its consideration of the recommended actions, approval of this item would be based on the Board making a finding that the proposed activities and expenditures are in the public interest and in furtherance of CalOptima's statutory purpose.

Fiscal Impact

Funding for the recommended action of up to $25,000 is included as part of the Community Events budget under the CalOptima Fiscal Year 2019-20 Operating Budget approved by the CalOptima Board of Directors on June 6, 2019.

Rationale for Recommendation

Staff recommends approval of the recommended actions in order to support community and provider activities that offer opportunities that reflect CalOptima's mission, encourage broader participation in CalOptima's programs and services, promote health and wellness, and/or develop and strengthen partnerships in support of CalOptima's programs and services.

Concurrence

Gary Crockett, Chief Counsel

November 6th 2019

Dear Cal Optima,

We are writing you this letter concerning a sponsorship opportunity to celebrate the upcoming Lunar New Year 2020, the Year of the Rat.

Vietnamese Community of Southern California (VNCSC) has the honor of being selected to work with County of Orange and OC Park for the celebration of the 2020 OC Tet Festival at Mile Square Regional Park in Fountain Valley, from January 24th to January 26th 2020. This 3-day special event is free admission and open to public.

This is the fourth annual Tet Festival held at Mile Square Park, which, in past years, had attracted more than eighty thousands of Southern Californians and out-of-state visitors. This is a cost-effective opportunity to promote your business, and we would like to invite you to become one of our Major Gold Sponsors as last year.

A $10,000.00 sponsorship packages will provide you:
> 20’ x 20’ booth in prime location at the Tet Festival Mile Square Park
> Three (3) 3’ x 8’ banner displays
> Twenty (20) mentions on stage
> Twenty-five (25) radio impressions
> Fifteen (15) television impressions
> Full ad size 5.5 x 8 inches (the other side will be Tet Festival announcement) on ten thousand (10,000) flyers distributed throughout Orange County prior to the event.
> Two (2) 8’ x8’back drop on Tet Festival Stage.

For almost 30 years, the VNCSC has been a strong and influential voice for Little Saigon, the largest and most established community of Vietnamese expatriates in the world. With the collaboration of other non-profit organizations, we have provided resources to help our many members of the community at large and to preserve the Vietnamese Culture and Heritage.

The name and reputation of your business will not only be remembered by our patrons who came to the event, but also be known by their relatives and friends at home, too. The exposure of your company therefore would be significant and we cordially invite you to join our activities in order to reach out one of the most vibrant Vietnamese American Communities of the world and becomes a prestigious sponsor for the Vietnamese Cultural Village in this special event.

Your contribution can definitely make a difference and we are looking forward to building a successful partnership with your company. All any additional information, please feel free to contact us at:

Vietnamese Community of Southern California (VNCSC)
P.O. BOX 457, Garden Grove, CA 92842
Phone number: (714) 248-6191, Email: vncsc1990@gmail.com

Sincerely,

Hoa Nguyen

TẾT

FESTIVAL
SPONSORSHIP PROPOSAL

JANUARY 24-26, 2020
OC FAIR & EVENT CENTER

Celebrating the Year of the Rat

Back to Agenda

DEAR PROSPECTIVE SPONSOR,

The Union of Vietnamese Student Associations Southern California (UVSA) is proud to submit this proposal for your review. We wish to provide your organization with unique and advantageous marketing opportunities to promote your brand and business to our diverse audience.

The 39th Annual UVSA Tết Festival will take place between January 24 to 26, 2020 at OC Fair & Event Center — adjacent to Costa Mesa, Newport Beach, Santa Ana, and Irvine. The event attracts upwards to 50,000 guests, encompassing a multi-ethnic populace with strong Asian American presence.

The event is recognized as the most distinguished Vietnamese Lunar New Year celebration in the nation for many reasons:

- UVSA has hosted the largest Tết Festival in the nation with 38 continuous years of success
- UVSA is one of the four pillars upholding the Vietnamese community in cooperation with the Vietnamese American Federation of Southern California, the Coalition of Vietnamese Armed Forces, and the Association of Vietnamese Language & Culture Schools of Southern California
- We are the strongest Vietnamese youth organization in the country and we represent students and young professionals in the Santa Barbara, Los Angeles, Riverside, San Bernardino, and San Diego counties
- Our involvement in the community is built upon cultural awareness, education, and social and civic engagement
- We provide leadership opportunities to over 300 volunteers
- UVSA is a 501(c)(3) charitable organization and has awarded over $1,500,000 in festival proceeds to deserving non-profit organizations across Southern California

We cordially invite your team to join us this year in making UVSA Tết Festival the most spectacular yet! We look forward to building a partnership with you as we welcome the Year of the Rat with prosperity and success for all. Thank you for your consideration.

Sincerely,

Nguyen D. Nguyen
President
president@uvsa.org

HOSTING ORGANIZATION

ABOUT The Union of Vietnamese Student Associations of Southern California (UVSA) is a 501(c)(3) non-profit, non-partisan, community-based organization founded in 1982 consisting of students, alumni, young professionals, and community leaders. Our mission is to bring together Vietnamese American students and young professionals across Southern California to build unity, to serve the community, and to advocate for social justice issues that affect our community domestically and in Vietnam.

GRANTS Each year, half of net profits from the event are allocated towards the Tết Community Assistance Fund. Over the past 15 years, UVSA has awarded over $1.5 million to help Southern California non-profit organizations initiate community enrichment programs.

MEMBERS UVSA was founded on volunteerism and continues to be a 100% volunteer-based organization. With over 50 year-round staff, 300 project staff, and 500 day-of volunteers, UVSA strives to equip each volunteer with skillsets that will help them excel in their professional careers. Additionally, UVSA partners with local, self-governing Vietnamese student associations from the following universities:

- Chapman
- Cal Poly Pomona
- CSU Fullerton
- CSU Long Beach
- CSU Northridge
- San Diego State
- UC Irvine
- UC Riverside
- UC Santa Barbara
- UC San Diego
- University of Southern California

DEMOGRAPHICS & STATISTICS

According to the 2018 U.S. Census, 1,548,449 people identify as Vietnamese, ranking them fourth among the Asian American groups; 447,032 (40%) of them live in California. The largest Vietnamese population outside of Vietnam is found in Southern California—totaling over 300,000 members from Los Angeles, Orange, and San Diego counties. Vietnamese American businesses continue to grow in areas such as Garden Grove and Westminster while rapidly extending lucrative development to surrounding cities.

KEY BENEFITS

The success of this event depends on the generosity of sponsors. In return, UVSA aims to provide sponsor with the following benefits:

- Brand awareness and brand loyalty from current and prospective buyers
- High-level media exposure from local television stations, radio stations, magazines, newspapers, and advertisements
- Large-scale onsite product promotion and face-to-face customer interaction
- Positive public outreach and market response
- Recognition as an industry leader above competitors

Manager, Community Relations
CalOptima

Re: Sponsorship Request for Family Voices of CA 2020 Health Summit

Dear Tiffany:

Family Voices of California (FVCA) provides families of children and youth with special health care needs (CYSHCN) with information, tools, and support to advocate for better access to high quality care. We build partnerships, inform stakeholders, and foster parent engagement to give families a voice in healthcare policy making.

We would like to request sponsorship from CalOPtima for our 2020 Annual Health Summit and Legislative Day, which will be held on March 15-17, 2020 in Sacramento so that we may continue to advance these efforts. CalOPtima's sponsorship would specifically support family members from Orange County who are in the Whole Child Model program to attend the Summit. The funds will cover their travel, lodging, meals and a stipend for the 2 ½ days of meetings.

Advocates, health care providers and professionals, government representatives, and legislators and staff will join parents and caregivers for updates on health policy issues facing CYSHCN. Speakers will provide policy and program updates, and families will share perspectives on the impact of policies on their lives. The Summit will be followed by legislative meetings at the State Capitol, where families will educate lawmakers about the issues they face and put a personal face on the impact of legislation and budget decisions.

With your sponsorship we can make our 2020 Summit a great success by:

- Educating and informing parents and decision makers about critical issues facing CYSHCN.
- Building collaboration among families, legislators, regulators, providers, and community based organizations to increase parent involvement at all levels of community and government health policy making.
- Engaging parents in policymaking through legislative meetings.

Nearly 100% of those attending our 2019 Summit agreed that the support, information, and resources they received helped them feel more confident about getting their child the health care and services they need; and as a result they took action during Legislative Day and beyond. With your support FVCA can continue our work to advance public policies and system improvements that will help families of CYSHCN access the care they need.

Back to Agenda

Please see the attached menu of sponsorship activities, and don't hesitate to contact me for more information at pipmarks@familyvoicesofca.org or 415-282-7494 ext. 123.

Thank you for your consideration of this request!

Sincerely,

Pip Marks

Provider Advisory Committee (PAC) Update

November 14, 2019 PAC Meeting

At the November 14, 2019 Provider Advisory Committee (PAC) meeting, Michael Schrader, Chief Executive Officer, updated the PAC on the Cal-AIM program. Mr. Schrader also updated the committee members on the Department of Health Care Services (DHCS) Managed Care Plans (MCP) state waiver proposal for 2021-2025. Mr. Schrader also notified the PAC of Nancy Huang's promotion to Chief Financial Officer.

David Ramirez, M.D., Chief Medical Officer, notified the PAC of the commendable rating received by CalOptima from the National Committee for Quality Assurance (NCQA) and notified the committee of the promotion of Emily Fonda, M.D. to Deputy Chief Medical Officer.

Jonathan T. Megerian, M.D., a board-certified Pediatric Neurologist at CHOC Children's, presented on the new Thompson Autism Center. This presentation solicited many questions from PAC members as Dr. Megerian described the benefits and services that will be offered once this state-of-the-art center has opened.

Ladan Khamseh, Chief Operating Officer, updated the committee members on the Qualified Medicare Beneficiary (QMB) Program and provided an overview of the QMB program. Ms. Khamseh noted that beneficiary outreach letters have been sent out to CalOptima members encouraging them to apply for Medicare Part A. Ms. Khamseh also notified the PAC of the recent vacancy of the Consumer seat on the Member Advisory Committee (MAC).

PAC received an informative presentation on the Health Network Quality Rating Methodology, a Proposition 56 (Tobacco Tax) verbal update and a Federal and State Legislative update.

Once again, the PAC appreciates and thanks the CalOptima Board for the opportunity to provide updates on the PAC's current activities.

December 5, 2019

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan)
Member Advisory Committee Update

At the October 24, 2019 OneCare Connect Member Advisory Committee (OCC MAC) meeting, Michael Schrader, Chief Executive Officer, updated the members on the draft 2020-22 Strategic Plan that is being finalized by Chapman Consulting. Mr. Schrader also updated the members on the Delivery System Model review that is also being undertaken by Pacific Health Consulting Group.

Ladan Khamseh, Chief Operating Officer, updated the members on the Qualified Medicare Beneficiary (QMB) Program and provided an overview of the QMB program that allows members to receive assistance from the State to pay their Medicare premiums. This program helps pay for Part A and Part B premiums, deductibles, coinsurance, and copayments.

OCC MAC received the following informational presentations:

David Ramirez, M.D., Chief Medical Officer, and Marie Jeannis, Enterprise Analytics Manager, presented an update on the Homeless Health Initiative that included data on visits from the various homeless areas where CalOptima members have been treated.

Member Sara Lee, Legal Aid Society of Orange County (LASOC), provided an Ombudsman Update, reporting that LASOC has incorporated dental benefits information for OCC members into LASOC's outreach and education presentation to OCC members.

Andrew Tse, Manager, OneCare Connect Customer Service, presented on the new OCC benefits for 2020. OCC MAC also received an informational Federal and State Legislative update from Shamiq Hussain, Sr. Policy Advisor, who reviewed several items on the legislative bill matrix that was provided to the members.

Chair Mouton formed an ad hoc committee that will review the OCC MAC seat descriptions and make recommendations to the recruitment workgroup made up of MAC, OCC MAC and PAC members to ensure that all members are being represented on each committee.

The OCC MAC appreciates the opportunity to provide the CalOptima Board with input and updates on OCC MAC activities.

RFP Task 5	Evaluate auto assignment	
RFP Task 6	Research provider payment methodologies	
RFP Task 7	Develop network performance evaluation tool	
RFP Task 8	Research network models	
RFP Task 9	Analyze member satisfaction implications	
RFP Task 10	Analyze provider satisfaction implications	
RFP Task 11	Review administrative cost allocation model	
RFP Task 12	Analyze Health Needs Assessment	
	Final presentation	

Back to Agenda

Project Approach

Structured project methodology and progress

Back to Agenda

Initial Network Findings

High-level observations informed by multiple sources

- Multiple sources of information
  - Review CalOptima and Other Plans Policies and Procedures
  - CalOptima staff interviews (6/7)
  - Board of Directors (7/9, 8/1, 9/5)
  - Provider Advisory Committee (9/12)
  - Provider interviews (11/15, 11/22)
- Themes identified
  - Desire to be current in practices and policies
  - Increase transparency and accountability

- **High Level Observations**
  - CalOptima's networks incorporate leading practices in most areas
  - No major non-standard findings
  - Use of RFP unusual for Physician and Hospital Networks
  - Opportunities for improvement identified

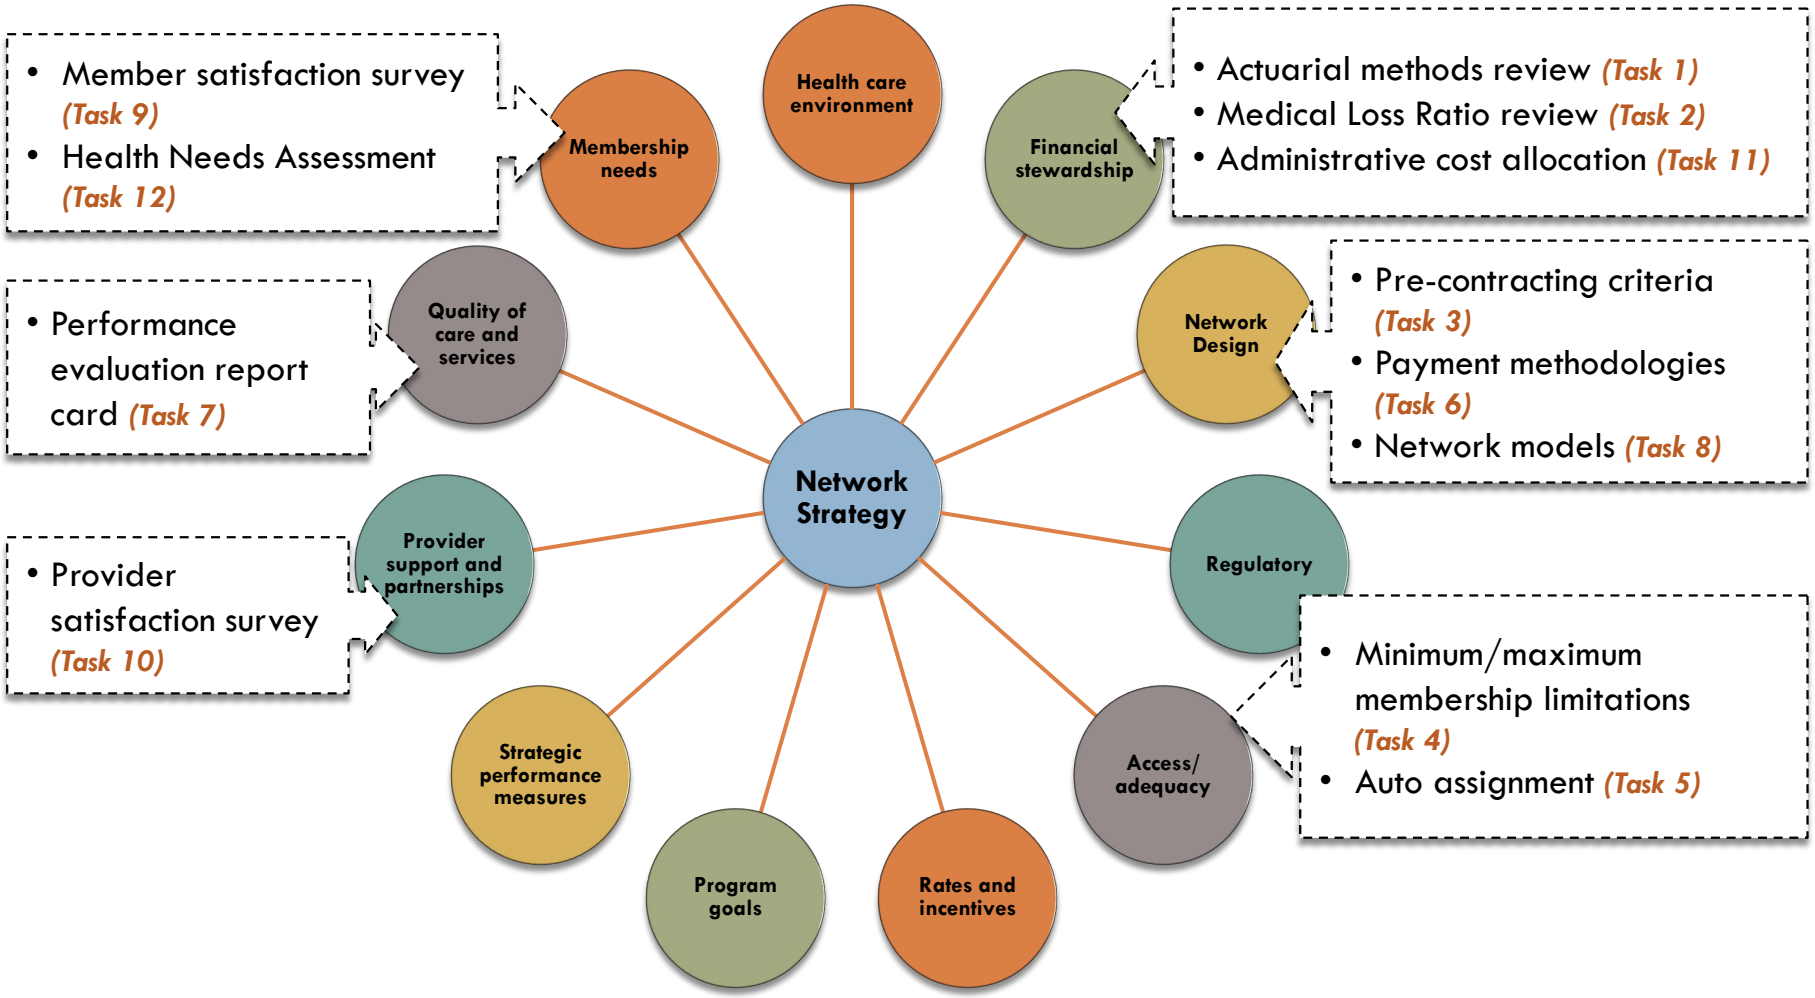
Back to Agenda

FINAL REPORT will compare CalOptima with best practices and provide recommendations

- Develop network goals and criteria for decision-making
- Default Policies
- Adding Providers/Contracts
- Terminate Providers/Contracts
- Establish Minimum/Maximum Guidelines
- Create network evaluation approach, including weighing measures
- Network neutral rate setting approach

Back to Agenda

Report Organized Around Five Recommendations



Opportunities for improvement

- **Begin with a CLEAR NETWORK VISION of CalOptima Board objectives for network access, adequacy, and cost and quality performance**
- **Create a comprehensive NETWORK STRATEGY that supports the CalOptima mission and vision with prioritized activities to meet network cost and performance goals**
- **IMPROVE EFFICIENCIES BY removing administrative efforts that aren't operating under clearly identify policies governing network contracting**
- **Add contracts to the provider network as needed to FILL HEALTH PLAN NEEDS, e.g. access, services, and specialties, and add any physician meeting criteria to the direct network**
- **INCREASE TRANSPARENCY AND ACCOUNTABILITY in network performance by reporting outcomes in relation to other networks with assistance to reach performance goals, particularly for essential service providers**

Back to Agenda

Engagement Scope of Work

The scope of work focuses on selected components of a comprehensive network strategy

Back to Agenda

Overall Recommendations to be made

- Develop Network Goals
- Translate Goals into Network Strategy
- Create Criteria for Networks to Meet
- Identify Policies and Procedures to be Approved by Board of Directors
- Transparent Approach Implemented by Staff and Regularly Reported to Provider Advisory Group and Board of Directors

Back to Agenda

Next Steps and Timeline

- Incorporate Feedback from Provider Interviews
- Provider Advisory Committee Presentation
- Incorporate Feedback from Board and PAC Meetings
- Present Final Report February 6, 2020

Back to Agenda

Caveats

This presentation is subject to the terms and conditions of the Consulting Services Agreement between CalOptima and Pacific Health Consulting Group (PHCG) dated May 7, 2019.

These slides are for discussion purposes only. They should not be relied upon without benefit of the discussion that accompanied them.

FY 2019-20: Consolidated Enrollment

October 2019 MTD

Overall enrollment was 743,465 members

- Actual lower than budget 4,196 members or 0.6%
  - Medi-Cal unfavorable to budget 4,266 members or 0.6%
    - Medi-Cal Expansion (MCE) unfavorable variance of 4,613 members
    - Whole Child Model (WCM) unfavorable variance of 1,180 members
    - Seniors and Persons with Disabilities (SPD) favorable variance of 812 members
    - Temporary Assistance for Needy Families (TANF) favorable variance of 606
    - Long-Term Care (LTC) favorable variance of 109 members
  - OneCare Connect unfavorable to budget 2 members
  - OneCare favorable to budget 66 members or 4.4%
- 15,391 increase or 2.1% from September
    - Medi-Cal increase of 15,469 members due to prior year (PY) retroactive disenrollment adjustment recorded in September
    - OneCare Connect decrease of 93 members
    - OneCare increase of 3 members
    - PACE increase of 12 members

FY 2019-20: Consolidated Enrollment (cont.)

October 2019 YTD

Overall enrollment was 2,989,464 member months

- Actual lower than budget 11,486 members or 0.4%
  - Medi-Cal unfavorable to budget 11,705 members or 0.4%
    - MCE unfavorable variance of 11,747 members
    - WCM unfavorable variance of 4,276 members
    - SPD favorable variance of 3,074 members
    - TANF favorable variance of 1,146 members
    - LTC favorable variance of 98 members
  - OneCare Connect favorable to budget 4 members
  - OneCare favorable to budget 217 members or 3.6%
  - PACE unfavorable to budget 2 members or 0.1%

FY 2019-20: Consolidated Revenues

October 2019 MTD

- Actual higher than budget $13.6 million or 4.6%
  - ➢ Medi-Cal favorable to budget $13.1 million or 4.9%
    - Unfavorable volume variance of $1.6 million
    - Favorable price variance of $14.6 million
      - $12.0 million due to Department of Health Care Services (DHCS) year to date (YTD) acuity rate adjustment
  - ➢ OneCare Connect favorable to budget $366.4 thousand or 1.5%
    - Unfavorable volume variance of $3.4 thousand
    - Favorable price variance of $369.7 thousand
  - ➢ OneCare favorable to budget $147.4 thousand or 9.0%
    - Favorable volume variance of $71.9 thousand
    - Favorable price variance of $75.6 thousand
  - ➢ PACE favorable to budget $6.2 thousand or 0.2%
    - Favorable volume variance of $46.6 thousand
    - Unfavorable price variance of $40.4 thousand

FY 2019-20: Consolidated Revenues (cont.)

October 2019 YTD

- Actual higher than budget $119.6 million or 10.0%
  - ➢ Medi-Cal favorable to budget $116.3 million 10.8%
    - Unfavorable volume variance of $4.3 million
    - Favorable price variance of $120.6 million due to $104.3 million of directed payment (DP) revenue
      - $12.0 million due to DHCS acuity rate adjustment
  - ➢ OneCare Connect favorable to budget $2.6 million or 2.7%
    - Favorable volume variance of $6.7 thousand
    - Favorable price variance of $2.6 million
  - ➢ OneCare favorable to budget $737.7 thousand or 11.3%
    - Favorable volume variance of $236.2 thousand
    - Favorable price variance of $501.5 thousand
  - ➢ PACE unfavorable to budget $20.7 thousand or 0.2%
    - Unfavorable volume variance of $15.6 thousand
    - Unfavorable price variance of $5.1 thousand

FY 2019-20: Consolidated Medical Expenses

October 2019 MTD

- Actual higher than budget $16.1 million or 5.6%
  - ➢ Medi-Cal unfavorable variance of $15.1 million or 5.9%
    - Favorable volume variance of $1.5 million
    - Unfavorable price variance of $16.6 million
      - MLTSS expenses unfavorable variance of $7.9 million due to YTD true-up
      - Professional Claims unfavorable variance of $4.2 million
      - Provider Capitation expenses unfavorable variance of $2.9 million
      - Prescription Drugs unfavorable variance of $1.9 million
  - ➢ OneCare Connect unfavorable variance of $1.0 million or 4.4%
    - Favorable volume variance of $3.3 thousand
    - Unfavorable price variance of $1.0 million

FY 2019-20: Consolidated Medical Expenses (cont.)

October 2019 YTD

- Actual higher than budget $129.8 million or 11.5%
  - ➢ Medi-Cal unfavorable variance of $127.8 million or 12.5%
    - Favorable volume variance of $4.1 million
    - Unfavorable price variance of $131.9 million
      - Reinsurance and Other Expense category unfavorable variance of $97.9 million due to $104.0 million of DP, offset by favorable homeless health initiative
      - Professional Claims expenses unfavorable variance of $13.8 million
      - MLTSS expenses unfavorable variance of $8.9 million
      - Facilities expenses unfavorable variance of $7.3 million
  - ➢ OneCare Connect unfavorable variance of $2.6 million or 2.7%
    - Unfavorable volume variance of $6.6 thousand
    - Unfavorable price variance of $2.6 million

Medical Loss Ratio (MLR)

- October 2019 MTD: Actual: 96.8% Budget: 95.8%
- October 2019 YTD: Actual: 96.5% Budget: 95.2%

FY 2019-20: Consolidated Administrative Expenses

October 2019 MTD

- Actual lower than budget $2.0 million or 15.0%
  - Salaries, wages and benefits: favorable variance of $0.8 million
  - Other categories: favorable variance of $1.2 million

October 2019 YTD

- Actual lower than budget $8.0 million or 15.2%
  - Salaries, wages and benefits: favorable variance of $4.2 million
  - Other categories: favorable variance of $3.8 million

Administrative Loss Ratio (ALR)

- October 2019 MTD: Actual: 3.7% Budget: 4.5%
- October 2019 YTD: Actual: 3.4% Budget: 4.4%
  - Actual ALR (excluding DP revenue) is 3.7% MTD and 3.7% YTD

FY 2019-20: Change in Net Assets

October 2019 MTD

- $2.4 million change in net assets
- $2.2 million favorable to budget
  - Higher than budgeted revenue of $13.6 million
  - Higher than budgeted medical expenses of $16.1 million
  - Lower than budgeted administrative expenses of $2.0 million
  - Higher than budgeted investment and other income of $2.7 million

October 2019 YTD

- $15.1 million change in net assets
- $6.0 million favorable to budget
  - Higher than budgeted revenue of $119.6 million
  - Higher than budgeted medical expenses of $129.8 million
  - Lower than budgeted administrative expenses of $8.0 million
  - Higher than budgeted investment and other income of $8.3 million

ENROLLMENT:

Overall October enrollment was 743,465

- Unfavorable to budget 4,196 or 0.6%
- Increased 15,391 or 2.1% from prior month (PM) (September 2019) due to prior year (PY) retroactive disenrollment adjustment recorded in September
- Decreased 29,381 or 3.8% from PY (October 2018)

Medi-Cal enrollment was 727,437

- Unfavorable to budget 4,266 or 0.6%
  - Medi-Cal Expansion (MCE) unfavorable 4,613
  - Whole Child Model (WCM) unfavorable 1,180
  - Seniors and Persons with Disabilities (SPD) favorable 812
  - Temporary Assistance for Needy Families (TANF) favorable 606
  - Long-Term Care (LTC) favorable 109
- Increased 15,469 from prior month

OneCare Connect enrollment was 14,093

- Unfavorable to budget 2
- Decreased 93 from prior month

OneCare enrollment was 1,567

- Favorable to budget 66 or 4.4%
- Increased 3 from prior month

PACE enrollment was 368

- Favorable to budget 6 or 1.7%
- Increased 12 from prior month

MEDI-CAL INCOME STATEMENT - OCTOBER MONTH:

REVENUES of $282.0 million are favorable to budget $13.1 million driven by:

- Unfavorable volume related variance of $1.6 million
- Favorable price related variance of $14.6 million due to:
  - ➢ $12.0 million of fiscal year (FY) 2020 Department of Healthcare Services (DHCS) year to date (YTD) acuity rate adjustment
  - ➢ $1.0 million of Coordinated Care Initiative (CCI) revenue
  - ➢ $3.9 million of Behavioral Health Treatment (BHT) revenue
  - ➢ Offset by $3.3 million of WCM revenue

MEDICAL EXPENSES of $272.2 million are unfavorable to budget $15.1 million driven by:

- Favorable volume related variance of $1.5 million
- Unfavorable price variance of $16.6 million due to:
  - ➢ **MLTSS** unfavorable variance of $7.9 million due to YTD true-up
  - ➢ **Professional Claims** unfavorable variance of $4.2 million due to crossover claims
  - ➢ **Provider Capitation** unfavorable variance of $2.9 million due to increase in Proposition 56

ADMINISTRATIVE EXPENSES of $9.4 million are favorable to budget $1.9 million driven by:

- Salaries & Benefit expenses are favorable to budget $0.7 million due to open positions
- Other Non-Salary expenses are favorable to budget $1.2 million

CHANGE IN NET ASSETS is $0.4 million for the month, unfavorable to budget $0.2 million

Program Commitment Balance, available for new initiatives		**$ 58,198,913**

On June 27, 2019 at a Special Board meeting, the Board approved four funding categories. This report only lists Board approved projects.

Budget Allocation Changes
Reporting Changes for October 2019

Transfer Month	Line of Business	From	To	Amount	Expense Description	Fiscal Year
July	Medi-Cal	IS Application Development - Maintenance HW/SW (CalOptima Link Software)	IS Application Development - Maintenance HW/SW (Human Resources Corporate Application)	$32,700	Repurpose $32,700 from Maintenance HW/SW (CalOptima Link Software) to Maintenance HW/SW (Huma Resources Corporate Application)	2020
July	Medi-Cal	IS Infrastructure - Capital Project (Server 2016 Upgrade)	IS Infrastructure - Capital Projects (505 IDF Upgrade and MDF Switch Upgrade)	$38,300	Reallocate $38,300 from Capital Project (Server 2016 Upgrade) to Capital Projects (505 IDF Upgrade and MDF Switch Upgrade)	2020
July	Medi-Cal	IS Infrastructure - Capital Project (LAN Switch Upgrade)	IS Infrastructure - Capital Projects (505 IDF Upgrade and MDF Switch Upgrade)	$25,700	Reallocate $25,700 from Capital Project (LAN Switch Upgrades) to Capital Projects (505 IDF Upgrade and MDF Switch Upgrade)	2020

This report summarizes budget transfers between general ledger classes that are greater than $10,000 and less than $100,000. \
This is the result of Board Resolution No. 12-0301-01 which permits the CEO to make budget allocation changes within certain parameters.

Board of Directors' Meeting
December 5, 2019

Monthly Compliance Report

The purpose of this report is to provide compliance updates to CalOptima's Board of Directors, including but may not be limited to, updates on internal and health network audits conducted by CalOptima's Audit & Oversight department, regulatory audits, privacy updates, fraud, waste, and abuse (FWA) updates, and any notices of non-compliance or enforcement action issued by regulators.

A. Updates on Regulatory Audits

1. OneCare

- Timeliness Monitoring Project:

  On October 8, 2019, the Centers for Medicare & Medicaid Services (CMS) announced its efforts to collect data for organization determinations, appeals and grievances (ODAG) and coverage determinations, appeals and grievances (CDAG) for the requested review period of February 1, 2018 – April 30, 2019. Findings from this monitoring effort may result in compliance actions, if necessary, and may have implications for the Star Ratings data integrity reviews for the four (4) appeals measures. CalOptima has not been formally notified of its selection for this monitoring effort, but is currently working internally to collect the ODAG/CDAG universes in anticipation of this engagement.

- 2020 CMS Readiness Checklist (applicable to OneCare and OneCare Connect):

  On October 3, 2019, CMS released the 2020 Readiness Checklist for Medicare Advantage organizations and Medicare-Medicaid Plans. Plans are expected to fulfill key operational requirements summarized in the Readiness Checklist for the 2020 benefit year. CalOptima's Office of Compliance is leading the 2020 Readiness Checklist activities with all departments to ensure compliance for requirements impacting their respective operational area(s). The validation audit activities are expected to conclude by the end of 2019.

2. OneCare Connect

- CY 2020 Monitoring of Posted Comprehensive Formularies:

  On October 29, 2019, CMS announced it will be conducting a review to compare the formularies posted on the health plan's websites for CY 2020 with their approved formularies within HPMS that will be effective 1/1/20. CMS will select one-hundred seventy-five (175) Part D contracts for inclusion in the CY 2020 Monitoring of Posted

Comprehensive Formularies Analysis. On October 31, 2019, CMS notified CalOptima that its OneCare Connect program had been selected for this monitoring effort.

- Compliance Program Effectiveness (CPE) Audit (OneCare and OneCare Connect):

  CalOptima is required to conduct an independent audit of its compliance program on an annual basis, and to share the results with its governing body. As such, CalOptima has engaged an independent auditor to ensure that its compliance program is administering the elements of an effective compliance program, as outlined in the CMS Medicare Parts C and D Program Audit Protocols. The audit began in August 2019 and concluded on September 26, 2019. CalOptima is pending the final report from the auditor.

3. Medi-Cal

- 2019 Medi-Cal Audit:

  The Department of Health Care Services (DHCS) conducted its annual audit of CalOptima's Medi-Cal program from February 4 - 15, 2019. The audit covered the review period of February 1, 2018 through January 31, 2019 and consisted of an evaluation of CalOptima's compliance with its contract and regulations in the areas of utilization management, case management and coordination of care, availability and accessibility, member's rights, quality management, and administrative and organizational capacity. On June 25, 2019, the DHCS issued its final audit report to CalOptima, which outlined three (3) findings in the areas of case management and coordination of care, access and availability of care, and quality management. CalOptima submitted a timely corrective action plan (CAP) to the DHCS, and it is currently under review.

- 2020 DHCS Medical Audit (Medi-Cal and OneCare Connect)

  On November 7, 2019, DHCS sent CalOptima an engagement notice for a medical audit of CalOptima's Medi-Cal and OneCare Connect programs. The onsite audit will take place from January 27, 2019 to February 7, 2019. The audit will cover the review period of February 1, 2019 to January 31, 2020. The audit will cover CalOptima's provision of Medi-Cal services to its non-Seniors and Persons with Disabilities (non-SPD) members, Medi-Cal services for SPDs, as well as Medicaid-based services in OneCare Connect.

  The DHCS will evaluate CalOptima's compliance with its contract and regulations in the areas of utilization management, case management and coordination of care, member's rights, quality management, and administrative and organizational capacity.

- Rate Development Template (RDT) Audit:

  On May 30, 2019, Mercer and the DHCS engaged CalOptima for the RDT audit, which will focus on the accuracy and completeness of calendar year 2017 Medi-Cal RDT encounter and financial data submitted to the DHCS as part of the rate development process for 2019-2020.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

On August 7, 2019, Mercer auditors came onsite to review CalOptima's claims systems as well as conduct staff interviews. CalOptima anticipates a final draft report from Mercer in the near future. CalOptima will have one (1) week to provide any feedback before Mercer communicates the report to the DHCS for final review and approval.

- Department of Managed Health Care (DMHC) Routine Examination:

  On August 8, 2019, the DMHC engaged CalOptima for its tri-annual routine examination. This examination will review CalOptima's fiscal and administrative affairs and will include an examination of CalOptima's financial reports. CalOptima's last routine examination was conducted in 2016. The DMHC conducted its entrance conference with CalOptima on October 21, 2019, and the DMHC expects to conclude its active examination in mid-November 2019.

- CMS Medicaid Expansion Medical Loss Ratio (MLR) Examination:

  On April 1, 2019, CMS informed CalOptima that it will perform a comprehensive examination and validation of California Medicaid managed care plans' MLR reporting for the reporting periods January 1, 2014 to June 30, 2015 and July 1, 2015 to June 30, 2016. The overall purpose of the examination is to ensure that the financial information submitted by the Medicaid managed care plans and used by the DHCS to perform the MLR calculations is consistent with contractual obligations and matches each Medicaid managed care plan's internal data and accounting systems. CMS expects that the review will be completed within six (6) months after all the data have been received by the reviewing contractor. The commencement date of the examination has yet to be established, but CalOptima expects to begin receiving data requests soon.

4. PACE Level of Care Audit

- On November 14, 2019, the DHCS will be onsite for the PACE Level of Care (LOC) audit, which is conducted twice a year. The review period will be April 2019 through September 2019. The purpose of the audit is to ensure the information PACE submitted on the initial and annual LOC documents is consistent with the assessments documented by the interdisciplinary team (IDT) members.

B. Regulatory Notices of Non-Compliance

CalOptima did not receive any notices of non-compliance from its regulators for the month of October 2019. However, on October 25, 2019, CalOptima's OneCare Connect program received a request from CMS and the DHCS for a Performance Improvement Plan (PIP) for failure to meet satisfactory rates of Individualized Care Plan (ICP) completion, in compliance with contractual standards and the specifications for the performance measure related to completing member care plans within 90 days of enrollment.

CMS and the DHCS is requesting for a PIP to address the root cause for the low ICP completion rate and a plan of action to achieve a 6-month goal of 75% ICP completion rate. The PIP is due to

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

CMS and DHCS by November 22, 2019. CMS has indicated that this letter will not be included in CalOptima's record for Medicare contract performance.

C. Updates on Internal and Health Network Monitoring and Audits

1. Internal Monitoring: Medi-Cal [a\]

- Medi-Cal: Professional Claims

Month	Paid Claims Timeliness	Paid Claims Accuracy	Denied Claims Timeliness	Denied Claims Accuracy
June 2019	100%	100%	100%	100%
July 2019	100%	97%	100%	93%
August 2019	100%	100%	100%	100%

➢ For the August 2019 file review of Medi-Cal claims, CalOptima's Claims department received a compliance score of 100% for a focused audit of sixty (60) claims selected for review and a compliance score of 99% for timeliness based on the overall universe of professional claims.

- Medi-Cal Claims: Provider Dispute Resolutions (PDRs)

Month	Paper PDRs Acknowledged within ≤ 15 Business Days	PDRs Resolved within ≤ 45 Business Days	Accurate PDR Determinations	Clear and Specific PDR Resolution Language	Interest Accuracy and Timeliness within ≤ 5 Business Days
June 2019	100%	100%	95%	100%	100%
July 2019	98%	100%	98%	100%	100%
August 2019	100%	100%	95%	98%	100%

➢ For the August 2019 file review of Medi-Cal PDRs, CalOptima's Claims department received a compliance score of 99% for a focused audit of forty (40) claims selected for review and a compliance score of 99% for timeliness based on the overall universe of PDRs.
  - The lower compliance score of 95% for accurate PDR determinations for August 2019 was due to two (2) inaccurate PDR determinations.
  - The lower compliance score of 98% for clear and specific PDR resolution language for August 2019 was due to one (1) inaccurate member notice.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of PDRs. The A&O department continues to work with the Claims department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure accurate and timely processing of PDRs within regulatory requirements.

2. Internal Monitoring: OneCare [a\]

- OneCare Claims: Professional Claims

Month	Paid Claims Timeliness	Paid Claims Accuracy	Denied Claims Timeliness	Denied Claims Accuracy
June 2019	100%	100%	100%	100%
July 2019	100%	100%	100%	100%
August 2019	100%	100%	100%	100%

- For the August 2019 file review of OneCare claims, CalOptima's Claims department received a compliance score of 100% on a focused audit of twenty (20) claims selected for review and a compliance score of 99% for timeliness based on the overall universe of paid and denied claims.

- OneCare Claims: Provider Dispute Resolutions (PDRs)

Month	Resolution Timeliness	Accurate PDR Determinations	Clear and Specific PDR Resolution Language
June 2019	Nothing to Report	Nothing to Report	Nothing to Report
July 2019	100%	100%	100%
August 2019	Nothing to Report	Nothing to Report	Nothing to Report

- For the July 2019 file review of OneCare PDRs, CalOptima's Claims department received a compliance score of 100% for timeliness based on the overall universe of PDRs.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of standard grievances. The A&O department continues to work with the GARS department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure timely and accurate processing of standard grievances within regulatory requirements.

3. Internal Monitoring: OneCare Connect [a\]

- OneCare Connect Claims: Professional Claims

Month	Paid Claims Timeliness	Paid Claims Accuracy	Denied Claims Timeliness	Denied Claims Accuracy
June 2019	100%	100%	100%	90%
July 2019	100%	90%	100%	100%
August 2019	100%	90%	100%	100%

- For the August 2019 file review of OneCare Connect claims, CalOptima's Claims department received a compliance score of 98% for a focused audit of twenty (20) paid and denied claims selected for review and a compliance score of 99% for timeliness based on the overall universe of professional claims.

- The lower compliance score of 90% for paid claims accuracy for August 2019 was due to one (1) inaccurate claim.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the review of paid and denied claims. The A&O department continues to work with the Claims department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure timely and accurate processing of claims within regulatory requirements.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- OneCare Connect Claims: Provider Dispute Resolutions (PDRs)

Month	Determination Accuracy	Resolution Timeliness	Letter Accuracy
June 2019	100%	100%	100%
July 2019	100%	100%	100%
August 2019	100%	88%	100%

  - For the August 2019 file review of OneCare Connect PDRs, CalOptima's Claims department received a compliance score of 96% for a focused audit of eight (8) PDRs selected for review and a compliance score of 99% for timeliness based on the overall universe of PDRs.

  - The lower compliance score of 88% for accurate resolution timeliness for August 2019 was due to one (1) untimely PDR.

  - CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of PDRs. The A&O department continues to work with the Claims department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure accurate and timely processing of PDRs within regulatory requirements.

4. Internal Monitoring: PACE [a\]

- PACE Claims: Professional Claims

Month	Paid Claims Accuracy	Paid Claims Timeliness	Denied Claims Accuracy	Denied Claims Timeliness
June 2019	80%	100%	100%	100%
July 2019	100%	100%	100%	100%
August 2019	100%	100%	100%	100%

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- For the August 2019 file review of PACE claims, CalOptima's Claims department received a score of 100% for a focused audit of twenty (20) claims selected for review.

- PACE Claims: Provider Dispute Resolutions (PDRs)

Month	Determination Accuracy	Letter Accuracy	Resolution Timeliness	Check Lag
June 2019	100%	100%	100%	50%
July 2019	100%	100%	100%	N/A
August 2019	100%	100%	100%	N/A

- For the August 2019 file review of PACE PDRs, CalOptima's Claims department received a score of 100% for a focused audit of two (2) PDRs selected for review.

- PACE: Service Delivery Requests (SDRs)

Month	SDR Denials	SDR Approvals
June 2019	100%	100%
July 2019	100%	100%
August 2019	100%	100%

- For the August 2019 file review of PACE SDRs, CalOptima's PACE department received a score of 100% for a focused audit of eight (8) SDRs selected for review.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- PACE: Alternative Care Setting (ACS) Facility Site Review

Facility	Compliance Score
Acacia Adult Day Services	89%
SeniorServ - Anaheim Adult Day Health Care Center	79%
SeniorServ - Santa Ana Adult Day Health Care Center	67%
South County Adult Day Services	100%
Sultan Adult Day Health Care	86%

  - Acacia Adult Day Services
    - Based on a focused review of fifty-three (53) elements, Acacia Adult Day Services received a compliance score of 89% due to six (6) noncompliant elements in the following areas --- Maintenance and Housekeeping, General Safety, Patient Rights, Infection Control Plan, and Dietary Services.

  - SeniorServ - Anaheim Adult Day Health Care Center
    - Based on a focused review of fifty-two (52) elements, SeniorServ - Anaheim Adult Day Health Care Center received a compliance score of 79% due to eleven (11) noncompliant elements in the following areas --- Fire Life Safety, Maintenance and Housekeeping, General Safety, and Dietary Services.

  - SeniorServ - Santa Ana Adult Day Health Care Center
    - Based on a focused review of fifty-one (51) elements, SeniorServ - Santa Ana Adult Day Health Care Center received a compliance score of 67% due to seventeen (17) noncompliant elements in the following areas --- Fire Life Safety, Maintenance and Housekeeping, General Safety, Patient Rights, Personnel/ Administration and Dietary Services.

  - South County Adult Day Services
    - Based on a focused review of fifty-seven (57) elements, South County Adult Day Services received a compliance score of 100%.

  - Sultan Adult Day Health Care
    - Based on a focused review of fifty-one (51) elements, Sultan Adult Day Health Care received a compliance score of 86% due to seven (7) noncompliant elements in the following areas --- Fire Life Safety, Maintenance and Housekeeping, General Safety, and Patient Rights.

  - CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the facility site reviews. The A&O department continues to work with the facilities to remediate the deficiencies by

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure compliant sites.

5. Internal Audit: Medi-Cal, Medi-Cal Wrap Pharmacy [a\]

- CalOptima's Audit & Oversight (Internal) department performed an annual audit on CalOptima's Pharmacy Department for the Medi-Cal line of business to assess DHCS audit readiness and compliance with other applicable regulatory requirements. The audit will cover the review period of February 1, 2019 through May 31, 2019. The audit areas include:
  - Medi-Cal Pharmacy Prior Authorizations
  - Medi-Cal Pharmacy Appeals
  - OneCare Connect Pharmacy Prior Authorizations (for products covered under Medi-Cal "wrap" benefit only)
  - OneCare Connect Pharmacy Appeals (for products covered under Medi-Cal "wrap" benefit only)

- Medi-Cal, Medi-Cal Wrap Prior Authorizations:

  - Timeliness:
    - 4 of 20 files reviewed failed to meet the applicable deferral, decision, and/or notification turnaround time requirements.

  - Clinical Decision-Making:
    - 3 of 20 files reviewed failed to meet clinical decision-making requirements such as inappropriately issued denials and lack of regular criteria review/updates.

  - Processing Requirements:
    - 3 of 20 files reviewed failed to meet processing requirements such as providing prescriber notifications, readability of Notice of Actions (NOAs), and proper categorization of requests.

- Medi-Cal, Medi-Cal Wrap Appeals Results:

  - Timeliness:
    - 4 of 20 files reviewed failed to meet decision-making and/or notification timeliness requirements.

  - Clinical Decision-Making:
    - 3 of 20 files reviewed failed to meet clinical decision-making requirements such as inappropriate denial rationale, inappropriate outreach/request for information, and inconsistent decision-making.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Processing Requirements:
  - No findings, observations, or recommendations were noted during the processing requirements review.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of pharmacy prior authorizations and appeals. The A&O department continues to work with the Pharmacy department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure accurate and timely processing of pharmacy prior authorizations and appeals within regulatory requirements.

6. Internal Audit: Medicare Pharmacy [a\]

- CalOptima's Audit & Oversight (Internal) department performed an internal audit on Pharmacy Management's Medicare lines of business to assess CMS program audit readiness and compliance with applicable regulatory requirements. The audit will cover the review period of October 1, 2018 through January 31, 2019. The audit areas include:
  - Part C Organization Determinations, Appeals and Grievances (ODAG) (as it relates to Part B drugs)
  - Medicare-Medicaid Plan (MMP) Service Authorizations Requests, Appeals and Grievances (SARAG) (as it relates to Part B drugs)
  - Part D Formulary Administration (FA)
  - Part D Coverage Determinations, Appeals and Grievances (CDAG)

- Formulary and Benefit Administration Results:

  - Formulary Administration Review:
    - No findings, observations, or recommendations noted during the review.
    - 30 of 30 claims passed the validation test to determine if the claims adjudication process followed the CMS-approved formulary.

  - Transition Review:
    - No findings, observations, or recommendations were noted during the review.
    - 15 of 15 claims passed the validation test to determine if applicable transition fill requirements were met.
    - 1 of 1 sample claims passed the validation test to determine if transition notice requirements were met.

  - Website Review:
    - No findings, observations, or recommendations were noted during the review.
    - 15 of 15 drugs passed the validation test to determine if the marketed formulary accurately reflected the CMS-approved formulary for the audit review period.

- Part D Coverage Determinations, Appeals, and Grievances Results:

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

- Timeliness:
  - 1 case exceeded turnaround time requirements for decision notification and was not forwarded to independent review entity (IRE).
  - 1 case exceeded turnaround time requirements for decision notification/effectuation and was forwarded to the IRE, but IRE forward was untimely.

- Clinical Decision-Making:
  - Incomplete denial rationale in denial notice to member and prescriber
  - No formulary alternatives provided based on the member's specific diagnosis

- Part C Organization Determinations, Appeals, and Grievances Results:

  - Timeliness:
    - No findings, observations, or recommendations were noted during the review.

  - Clinical Decision-Making:
    - For 1 case, there were 3 issues identified --- 1) incorrectly issued approval under Part D instead of Part B, 2) incorrectly sent Part D approval notice to the member/prescriber/pharmacy, 3) significantly delayed reissuance (>1 month) of a corrected approval notice to member/prescriber.

- Medicare-Medicaid Plan Service Authorization Requests, Appeals, and Grievances:

  - Timeliness:
    - No findings, observations, or recommendations were noted during the review.

  - Clinical Decision-Making:
    - No findings, observations, or recommendations were noted during the review.

- CalOptima's Audit & Oversight (A&O) department issued a request for a corrective action plan (CAP) for deficiencies identified during the focused review of prior authorizations and appeals. The A&O department continues to work with the Pharmacy department to remediate the deficiencies by identifying accurate root causes and implementing quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure accurate and timely processing of prior authorizations and appeals within regulatory requirements.

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

7. Health Network Monitoring: Medi-Cal

- Medi-Cal Utilization Management (UM): Prior Authorization (PA) Requests

Month	Timeliness for Urgent	Clinical Decision Making (CDM) for Urgent	Letter Score for Urgent	Timeliness for Routine	Timeliness for Denials	CDM for Denials	Letter Score for Denials	Timeliness for Modified	CDM for Modified	Letter Score for Modified	Timeliness for Deferrals	CDM for Deferrals	Letter Score for Deferrals
June 2019	82%	91%	93%	88%	76%	89%	93%	82%	94%	92%	67%	100%	100%
July 2019	85%	86%	93%	89%	91%	92%	94%	86%	90%	96%	100%	100%	100%
August 2019	55%	86%	93%	59%	59%	92%	92%	80%	92%	91%	67%	89%	67%

- Based on a focused review of select files, eight (8) health networks drove the lower compliance score for timeliness. For these health networks, all thirty-eight (38) of the files selected were deficient. Deficiencies for the lower scores for timeliness include the following:
  - Failure to meet timeframe for decision (Urgent -72 hours, Routine – 5 Business Days);
  - Failure to meet timeframe for member notification (2 business days)
  - Failure to meet timeframe for provider written notification (2 business days)
  - Failure to meet timeframe for provider initial notification to the requesting provider (24 hours)

- Based on a focused review of select files, one (1) health network drove the lower compliance score for clinical decision making (CDM). For this health network, two (2) of the two (2) files selected were deficient. Deficiencies for the lower scores for CDM include the following:
  - Failure to obtain appropriate professional to make decision.

- Based on a focused review of select files, two (2) health networks drove the lower compliance letter score. For these health networks, all six (6) of the files selected were deficient. Deficiencies for the lower letter scores include the following:
  - Failure to provide member with information on how to file a grievance
  - Failure to provide letter in member preferred language
  - Failure to provide language assistance program (LAP) insert in approved threshold languages
  - Failure to provide letter with description of services in lay language
  - Failure to describe why the request did not meet criteria in lay language
  - Failure to include name and contact information for health care professional responsible for the decision to deny or modify

a\ "N/A" indicates that the category is not applicable to that file type. "Nothing to Report" indicates that there were no files submitted for review for that file type.

Back to Agenda

– Failure to provide peer-to-peer discussion of the decision with medical reviewer

➢ Based on the overall universe of Medi-Cal authorizations for July 2019, CalOptima's health networks received an aggregate compliance score of 99% for timely processing of routine authorization requests and a compliance score of 96% for timely processing of expedited authorization requests.

➢ CalOptima's Audit & Oversight (A&O) department issued requests for corrective action plans (CAPs) to all health networks with deficiencies identified during the focused review of prior authorization requests. The A&O department continues to work with each health network to remediate the deficiencies by ensuring they identify accurate root causes and implement quality controls such as but may not be limited to --- staff training, process development, system enhancements, ongoing inline monitoring, and policy revisions --- to ensure timely and accurate processing of authorizations.

Akin Gump
STRAUSS HAUER & FELD LLP

M E M O R A N D U M

November 11, 2019

To: CalOptima

From: Akin Gump Strauss Hauer & Feld, LLP

Re: November 11 Board of Directors Report

Partisan tensions in Washington are high as the first public hearings begin as part of House Democrats' presidential impeachment inquiry. Meanwhile, the Senate has made little progress on appropriations, and with a broad funding deal out of reach, it is expected that another stopgap spending measure will be needed to keep the federal government running past November 21. All of this activity increases the likelihood that action on key health care items such as drug pricing and surprise billing could slip into next year. This report provides an update on activity through November 10, 2019.

FY 2020 Budget and Appropriations

On October 31, the Senate passed a four-bill "minibus" that combines the Fiscal Year (FY) 2020 Agriculture-FDA, Commerce-Justice-Science, Interior-Environment, and Transportation-HUD appropriations bills. The bills now head to conference with the House. Another four-bill package (H.R. 2740) that includes the Defense, Labor-HHS-Education, State Foreign-Operations and Energy-Water bills failed a procedural vote amid partisan disagreement over funding levels and controversy around border security and abortion. With little time remaining before the current Continuing Resolution (CR) expires on November 21, at least one more stopgap bill will be required to prevent a funding lapse. While Senate Appropriations Chairman Richard Shelby (R-AL) initially floated the idea of a CR that would extend into February of next year, recent reports indicate that Senate Majority Leader Mitch McConnell (R-KY) and House Majority Leader Steny Hoyer (D-MD) favor a CR that expires by December 20. The House will consider the CR the week of November 18.

There is little appetite in Congress for a shutdown, especially coming up on a crucial election year, but President Trump has refused to rule out the possibility of a funding lapse if Democrats do not stop their impeachment inquiry.

Back to Agenda

Drug Pricing Legislation

The House Energy and Commerce, Ways and Means, and Education and Labor Committees last month each marked up H.R. 3, the Elijah Cummings Lower Drug Costs Now Act, making minor changes to the bill such as clarifying the impact on the 340B Drug Pricing Program. A preliminary analysis from the Congressional Budget Office (CBO) found that the drug price negotiation provisions in the legislation would reduce federal spending by $345 billion over 10 years, while leading to a reduction of 8 to 15 new drugs coming to market over the same period. Lawmakers are still awaiting a final score from CBO, meaning that the bill is unlikely to receive floor consideration until December. In any case, Senate Majority Leader Mitch McConnell (R-KY) has made clear that he will not take up H.R. 3 if it passes the House.

White House Domestic Policy Chief Joe Grogan is urging Congress to instead pass the Senate Finance Committee's Prescription Drug Pricing Reduction Act (S. 2543). While Grogan signaled that the Administration would be open to dropping the inflationary rebate provisions in the bill which have drawn the ire of many Republican senators, Finance Chairman Chuck Grassley (R-IA) may be unwilling to make such a concession. Given the significant Republican opposition to the bill, Majority Leader McConnell (R-KY) has not committed to bringing the Finance package to the floor. It is growing more likely that action on drug pricing could be pushed to next year.

Surprise Billing

Work continues behind the scenes to find a bipartisan solution on surprise medical billing. Leaders of the House Energy and Commerce Committee and the Senate Health, Education, Labor and Pensions (HELP) Committee continue to discuss areas of agreement between their respective bills. They may seek to include a "compromise" surprise billing proposal in order to advance the issue prior to a contentious impeachment trial and as a way to pay for another extension of health care "extender" provisions, such as a delay of the Medicaid Disproportionate Share Hospital (DSH) pay cuts, which will expire with the current stopgap. Members are also hoping to delay or repeal several Affordable Care Act (ACA) taxes by December 31, including the medical device excise tax, the so-called "Cadillac tax" on high-cost employer health plans, and the health insurance tax.

While Committee leaders have favored a benchmark payment methodology for surprise billing, final legislation is likely to include some element of arbitration. Grogan recently suggested that lawmakers are close to an agreement and suggested that it could move separately from drug pricing.

Impact of Impeachment Proceedings

Back to Agenda

On October 31, the House voted 232-196 largely along party lines to officially establish procedures for public impeachment hearings. Hearings are scheduled already for November 13 and 15, and another week of public hearings is expected to follow.

Impeachment proceedings threaten to derail plans for congressional action on drug pricing and surprise billing this year, as a lengthy impeachment trial in Senate would consume valuable floor time in the Senate. In addition, some lawmakers are worried that the divisiveness of public impeachment proceedings would disrupt bipartisan negotiations on health care issues, making it much harder to find a solution amenable to congressional leaders and the White House. Still, there is significant pressure for Congress to pass a number of health care extender provisions before year-end, and these could be wrapped up in a CR or other appropriations vehicle.

Medicaid News

On October 30, the Senate Finance Committee Health Care Subcommittee held a hearing on Medicaid eligibility. Republicans used the hearing to call for stronger federal oversight of state eligibility procedures, citing recent reports from the Government Accountability Office (GAO) and the HHS Office of Inspector General (OIG) that found large amounts of improper payments going to enrollees who may not have been Medicaid-eligible. On the other side, Democrats argued that burdensome enrollment rules actually prevent many eligible Americans from being covered by the program.

On November 6, the Centers for Medicare & Medicaid Services (CMS) announced the approval of a new Section 1115 Medicaid waiver in the District of Columbia that aims to expand access to behavioral health treatment services for individuals with serious mental illness (SMI), serious emotional disturbance (SED), and/or substance use disorder (SUD). The demonstration will allow D.C. to receive payment for treating individuals with SMI or SUD who are short-term residents in institutions for mental disease (IMDs).

Medicaid work requirements have seen several recent setbacks. Democrat Andy Beshear's victory over incumbent Gov. Matt Bevin (R) in Kentucky's gubernatorial race makes it all but certain that the state will abandon its plan for imposing work requirements. In addition, Indiana announced October 31 that it is suspending its Medicaid work requirements pending a federal lawsuit that was filed in September. Arizona also informed CMS that it is postponing implementation of work requirements following several federal court rulings that blocked similar requirements in other states earlier this year.

Back to Agenda

Universal Health Care

While Democratic Presidential hopefuls continue to debate the merits – and financing – of single payer coverage, little action has transpired on the Medicare for All Act (H.R. 1384), which is sponsored by a majority of House Democrats. Meanwhile, Rep. Ro Khanna (D-CA) on November 8 introduced the State-Based Universal Health Care Act (H.R. 5010), legislation that would create a federal waiver for a state or group of states to establish state or regional universal health care systems. In order to apply for the waiver and federal funding, participants' proposals must aim to cover 95 percent of residents within five years. Rep. Khanna said in a statement that the legislation would allow "bold states like California [to] take the lead in making Medicare for All a reality."

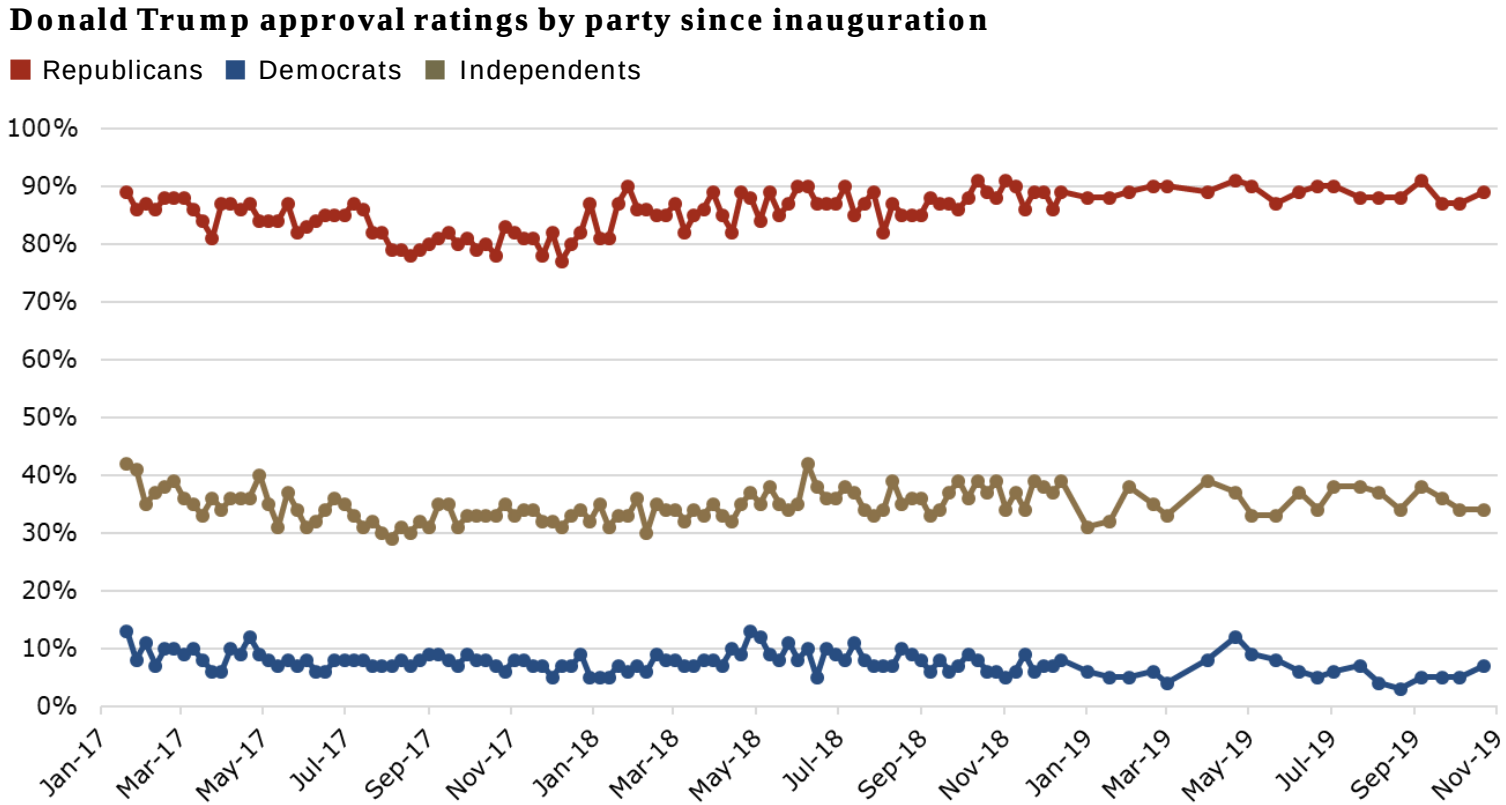
The Race for the U.S. House & Orange County

The Battle for the House Majority Shifts Geographically

- In 2018, Democrats needed to net gain 23 seats. There were 4 in Orange County held by Republicans that Hillary Clinton won in 2016. Democrats won all 4 and flipped 39 more.

- In 2020, Republicans need to net gain 21 seats. There are now 31 districts held by Democrats that Trump won in 2016. None are in California. (4 are in NY and NJ each, 3 in IA, 2 in IL, MI, MN, PA, and VA)



District	Incumbent	Outlook*
CA-38	Rep. Linda Sanchez (D)	Solid D
CA-39	Rep. Gil Cisneros (D)	Lean D
CA-45	Rep. Katie Porter (D)	Lean D
CA-46	Rep. Lou Correa (D)	Solid D
CA-47	Rep. Alan Lowenthal (D)	Solid D
CA-48	Rep. Harley Rouda (D)	Lean D
CA-49	Rep. Mike Levin (D)	Likely D

Back to Agenda

Health Policy Outlook in Congress

- **Drug Pricing**
  - House expected to pass H.R. 3, but will not be taken up by the Senate
  - White House urging passage of Senate Finance package (S. 2543), but no bipartisan solution in sight
- **Surprise Medical Billing**
  - Senate HELP and House Energy & Commerce in discussions around bipartisan solution
    - Likely to include rate setting with some role for arbitration
  - Outlook: Could be attached to year-end spending deal as a pay-for for health care extenders
- **Health Care Extenders**
  - Bipartisan pressure to pass longer-term extensions of key public health programs, as well as a two-year delay of Medicaid DSH payment cuts
  - Bipartisan desire to further delay Affordable Care Act taxes (Cadillac tax, medical device excise tax, health insurance tax)

© 2019 Akin Gump Strauss Hauer & Feld LLP

Health Care Regulatory Outlook

- Trump Administration expected to accelerate deregulatory agenda in what could be final year in office
  - Incremental Medicaid reform efforts through regulation
    - Mixed signals on block granting Medicaid
    - Continued approval of Medicaid work requirements despite legal setbacks
    - Opposition to "partial" Medicaid expansions
    - Expanded efforts to enhance program integrity, eligibility checks
  - Desire to streamline state waiver processes, reduce gaming of federal matching
  - "Public Charge" Final Rule
    - Limits the ability of immigrants to become citizens or permanent residents if they have receive benefits such as Medicaid or CHIP
    - Likely to be tied up in courts
- *Texas v. United States*
  - Awaiting ruling from the Fifth Circuit Court of Appeals
  - Could invalidate the entire ACA, including the Medicaid expansion

Universal Coverage Means and Ends

How to achieve **universal coverage** –"Medicare for All" vs. expanding the Affordable Care Act – is the clearest dividing line in Democratic Presidential primary with significant down-ballot implications

- ***It's Academic***: with current Senate rules, a M4A plan will not pass
- ***Why Do It?*** Message bold change vs. incremental improvement
  - Supports M4A: Sanders, Warren
  - Prefers ACA: Biden, Booker, Buttigieg, Harris, Klobuchar
- ***The Risks are Real***
  - H.R. 1384, Rep. Jayapal (D-WA) – 118 cosponsors, half of House Ds
  - S. 1129, Sen. Sanders (I-VT) – 14 cosponsors (including Booker, Harris, Warren since introduction in April 2019)
  - Strong M4A plans like those above would significantly curtail access to employer-sponsored private insurance
- ***Universal Coverage Alternatives***
  - Medicare-X – Sens. Kaine (D-VA) and Bennet (D-CO)
  - Medicare Buy-In at 50 – Sen. Stabenow (D-MI)
  - Medicaid Buy-In – Sen. Schatz (D-HI)
  - State-Based Universal Health Care Act (H.R. 5010) – Rep. Khanna (D-CA)

EDELSTEIN GILBERT ROBSON & SMITH LLC

Donald B. Gilbert Michael R. Robson Trent E. Smith Jason D. Ikerd Associate

CalOptima
Legislative Report
November 8, 2019
By Don Gilbert and Trent Smith

The Legislature and Governor have concluded their work for 2019, but there is no time to rest. The Governor and the Department of Health Care Services (DHCS) have released a major policy proposal that will consume the health care world in Sacramento throughout 2020. The new initiative is called California Advancing and Innovating Medi-Cal (CalAIM). Its goals are to identify and manage member risk and need through more holistic approaches and addressing the social determinants of health. Also, the initiative strives to move Medi-Cal to a more consistent and seamless system by reducing complexity and increasing flexibility. Finally, CalAIM is intended to improve quality outcomes and drive delivery system transformation through value-based initiatives, modernization of systems, and payment reform.

The initiative is outlined in a 180 page document. In addition, DHCS is hosting several stakeholder meetings over the next several months. Key issues that will be discussed include:

- Requiring Medi-Cal managed care plans to submit Population Health Management strategies and moving to annual Medi-Cal managed care plan open enrollment.

- Adding a new Enhanced Care Management benefit and a set of In Lieu of Services, designed to focus on critical populations such as children, high-cost/high-need populations, and the homeless, among others.

- Behavioral Health payment reform and delivery system transformation, with particular emphasis on how to improve critical needs for children.

- Requiring the National Committee on Quality Assurance (NCQA) accreditation for Medi-Cal managed care plans.

- Considerations for creation of Full Integration Plans where one entity would be responsible for the physical, behavioral, and oral health needs of their members.

It appears that one of the primary goals of CalAIM is the better coordination of care for Medi-Cal enrollees who have complex medical conditions requiring care from multiple delivery systems (managed care, fee-for-service, mental health, substance abuse disorder, dental, developmental, In Home Supportive Services, etc.). In this regard, County Organized Health Systems (COHS) are uniquely qualified to provide input in the stakeholder process, and ultimately succeed in achieving the goals of CalAIM, as coordinating care is a core principle of the COHS model.

CalAIM will look to the successes of waiver demonstrations such as the Whole Person Care and the Coordinated Care Initiative as the basis for many of its suggested reforms. Preventive care will also be an emphasis, which again is guiding principle of the COHS model.

There also appears to be an emphasis on care for and treating the growing homeless population and even identifying populations that could become homeless. Behavior health and expanding health plans' ability to assist in coordinating housing opportunities are important goals of CalAIM.

Also included in the initiative is better care planning and mandatory enrollment for inmates as they prepare for release. Adding oral health and better coordinate care for foster youth are also stated goals of the initiative.

In order to streamline Medi-Cal managed care plan oversight and to increase standardization across plans, DHCS is recommending requiring all Medi-Cal managed care plans and their subcontractors (delegated entities) to be National Committee for Quality Assurance (NCQA) accredited by 2025. DHCS would use NCQA findings to certify or deem that Medi-Cal managed care plans meet certain state and federal Medicaid requirements. Obviously, this proposal is of no concern to CalOptima, as it already is NCQA accredited.

Another major issue for COHS could be the recommendation to shift Medi-Cal managed care plan rates from a county-based model to a regional rate model, which will coincide with a shift of the rating period from the state fiscal year to the calendar year beginning in 2020. DHCS argues the move to regional rates has two main benefits. The first benefit is a decreased number of distinct actuarial rating cells that are required and submitted to CMS for review and approval. The reduction in rating cells will simplify the presentation of rates to CMS with goal of allowing DHCS to pursue/implement financing advancements and innovations utilizing a more flexible rate model. The second benefit of regional rates will allow cost averaging across all plans. This will continue to incentivize plan cost efficiencies, as plan rates will be inclusive of the costs within the multi-county region. This shift will produce a larger base for the averaging rather than just the experience of plans within the county. DHCS further argues this change is fundamental to the ability for them to implement the other changes proposed in CalAIM.

As previously mentioned, DHCS will hold a series of stakeholder meetings between now and February 2020. DHCS plans to finalize all proposals for submission to the federal government sometime between May and July depending on input from stakeholders.

Back to Agenda

We also assume there will multiple legislative hearings, although it appears that much of what is proposed in CalAIM does not require legislative approval. DHCS appears to have the authority to move forward with most of the recommended policy changes included in CalAIM with only federal approval. However, the Legislature will have some leverage in shaping CalAIM through the budget process as state funding will be necessary to achieve many of the stated goals.

There will be much to report in the coming months as interested parties weigh in with thoughts and concerns regarding the development of CalAIM. This initiative is seen by many as groundbreaking, but like most major policy reforms, there is sure to be controversy and apprehension. Let the debate begin.

Back to Agenda

2019–20 Legislative Tracking Matrix

BUDGET BILLS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 3877	**Bipartisan Budget Act of 2019:** Will enact a two-year framework for the federal budget (through fiscal year 2021). This bill gives a broad blueprint for federal spending and prevents the implementation of automatic spending cuts – also known as sequestration – that are triggered, generally, when Congress misses budget deadlines. Of note, the passing of the Bipartisan Budget Act of 2019 removed proposed spending cuts to Medicaid.	**08/02/2019** Signed into law	CalOptima: Watch
AB 74	**FY 2019-20 California State Budget:** Will enact a $214.8 billion spending plan for FY 2019-20, with General Fund (GF) spending at $147.8 billion. The following included within the state budget will have a direct impact to Medi-Cal: ■ Updates on the Pharmacy Services carve-out ■ Revisions to the expansion of Medi-Cal ■ Proposition 56 supplemental payment funding ■ Funding to respond to the homelessness crisis	**06/30/2019** Signed into law	CalOptima: Watch
AB 101	**Housing Development and Financing Budget:** Will enact housing trailer bills in the California 2019-2020 budget. Housing Development and Financing budget trailer bills include policy changes related to the housing and homeless services budget, including: ■ $650 million in grant funding for homeless services ■ Bypassing certain California Environmental Quality Act (CEQA) regulations to expedite the establishment of homeless shelters	**07/31/2019** Signed into law	CalOptima: Watch
AB 115	**Managed Care Organization (MCO) Tax Renewal:** Proposes a renewal of, until 12/31/2022, and new structure for the MCO tax, which would be effective retroactive to 7/1/2019.	**09/26/2019** Signed into law **09/12/2019** Passed Senate floor **09/12/2019** Passed Assembly floor **12/03/2018** Introduced	CalOptima: Watch CAHP: Support LHPC: Support
SB 78	**Health Budget:** Will enact health care trailer bills in the California 2019-2020 budget. ■ Prop 56 Value Based Payment (VBP) Behavioral Health integration program ■ Optional benefit restoration (optician and optical services, audiology, speech therapy, podiatry, and incontinence creams) ■ Health Homes Program (HHP) funding extension until 7/1/2024 ■ State-based Individual Mandate ■ Managed Care Organization (MCO) Tax renewal intent language	**06/27/2019** Signed into law	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
SB 104	**Health Budget:** Will enact health care trailer bills in the California 2019-2020 budget. ■ Expansion of full-scope Medi-Cal ages 19-25 regardless of immigration status ■ Eligibility expansion for low-income seniors (122% FPL to 138% FPL) ■ Extension of maternal-mental health Medi-Cal coverage ■ Implementation of a PACE rate adjustment	**07/09/2019** Signed into law	CalOptima: Watch

BEHAVIORAL HEALTH

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 577 Eggman	**Maternal Mental Health Care Services:** Extends eligibility for an individual to receive maternal mental health care services through the Medi-Cal Access Program for women below 213% federal poverty level from 60 days post-pregnancy to 12 months post-pregnancy or the diagnosis of a maternal mental health condition. Medi-Cal postpartum care services are covered for any individual who was pregnant and experienced child birth, delivery or miscarriage. Of note, the extension of maternal mental health services was included in the Governor's May Revision budget and signed into law with the passing of SB 104.	**10/12/2019** Signed into law **09/03/2019** Passed Senate floor **05/24/2019** Passed Assembly floor **02/14/2019** Introduced	CalOptima: Watch
AB 1175 Wood	**Medi-Cal Mental Health Services Data Sharing:** Would have required the monthly exchange of member data between a County Specialty Mental Health Plan (MHP) and a Medi-Cal Managed Care Plan (MCP) for any member that has received or is receiving specialty mental health services. The use of a data exchange system was to be mutually agreed upon between the MHP and MCP. Data collected was to be used to improve care coordination for those with mild, moderate or severe mental health needs. Any disputes regarding covered mental health services between the MHP and MCP would have been required to be resolved by the Department of Health Care Services within 30 calendar days.	**10/13/2019** Vetoed **09/04/2019** Passed Senate floor **05/28/2019** Passed Assembly floor **02/21/2019** Introduced	CalOptima: Watch
SB 10 Beall	**Mental Health Support Services Certificate:** Would have created the Certified Support Specialist (CSS) certificate program, which would have allowed parents, peers, and family to become a CSS. A CSS would have been able to provide non-medical mental health and substance abuse support services. Additionally, SB 10 would have required the Department of Health Care Services (DHCS) to include CSS as a provider type, covered by Medi-Cal. The certificate program would have been funded through Mental Health Services Act funds and, if federally approved, the peer-support program would have been funded through Medi-Cal reimbursement.	**10/13/2019** Vetoed **09/05/2019** Passed Assembly floor **05/21/2019** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch LHPC: Support

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
SB 163 Portantino	**Autism Spectrum Disorder (ASD) Treatment:** Would have revised and expanded the definitions of those providing care and support to individuals with Autism Spectrum Disorder (ASD) and redefined the minimum qualifications of autism service professionals. Additionally, ASD treatment such as the Developmental Individual-differences, and Relationship-based model (DIR), or "DIRFloortime," not currently covered by Medi-Cal, would have been authorized to be provided at any time or location, in an unscheduled and unstructured setting, by a qualified autism provider. The authorization of ASD treatment services would not have been denied or limited if a parent or caregiver is unable to participate.	**10/12/2019** Vetoed **09/09/2019** Passed Assembly floor **05/22/2019** Passed Senate floor **01/24/2019** Introduced	CalOptima: Watch CAHP: Oppose AHIP: Oppose

COVERED BENEFITS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 4618 McBath	**Medicare Hearing Act of 2019:** Effective no sooner than January 1, 2022, would require Medicare Part B to cover the cost of hearing aids for Medicare beneficiaries. Hearing aids would be provided every five years and would require a prescription from a doctor or qualified audiologist.	**10/17/2019** Passed the Committee on Energy and Commerce **10/08/2019** Introduced	CalOptima: Watch
H.R. 4650 Kelly	**Medicare Dental Act of 2019:** Effective no sooner than January 1, 2022, would require Medicare Part B to cover the cost of dental health services for Medicare beneficiaries. Covered benefits would include preventive and screening services, basic and major treatments, and other care related to oral health.	**10/17/2019** Passed the Committee on Energy and Commerce **10/11/2019** Introduced	CalOptima: Watch
H.R. 4665 Schrier	**Medicare Vision Act of 2019:** No sooner than January 1, 2022, would require Medicare Part B to cover the cost of vision care for Medicare beneficiaries. Covered benefits would include routine eye exams and corrective lenses. Corrective lenses covered would be either one pair of conventional eyeglasses or contact lenses.	**10/17/2019** Passed the Committee on Energy and Commerce **10/11/2019** Introduced	CalOptima: Watch
AB 678 Flora	**Podiatric Services as a Medi-Cal Covered Benefit:** Modifies authorizations of services so that a podiatrist would no longer be required to submit prior authorization for services during the patient's visit if a physician and surgeon providing the same services would not be required to submit prior authorization. Additionally, removes the limit on how many visits the patient can make to a podiatrist. Permits a podiatrist to bill Medi-Cal the same rate that a physician or surgeon would bill for the same services.	**10/02/2019** Signed into law **08/15/2019** Passed Senate floor **05/23/2019** Passed Assembly floor **02/15/2019** Introduced	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 781 Maienschein	**Pediatric Day Health Care (PDHC) Services:** Expands PDHC service hours to any day of the week and at any time of the day, so long the number of respite hours allocated are available. Would allow no more than 23 hours per calendar day of covered services. Currently, a parent or guardian may seek PDHC services up to 30 calendar days each year and for no more than 24 hours at a time. PDHC services are required to be provided by a facility licensed through the Department of Public Health and include both physical and social services. The PDHC benefit is not included in the scope of covered services provided by Medi-Cal managed care plans and is a benefit provided through fee-for-service Medi-Cal.	**07/09/2019** Signed into law **06/27/2019** Passed Senate floor **06/17/2019** Passed Assembly floor **02/19/2019** Introduced	CalOptima: Watch
AB 848 Gray	**Continuous Medi-Cal Coverage for Glucose Monitors:** Would have included glucose monitors as a Medi-Cal covered benefit, to be funded through state reimbursement rates. Cost of the glucose monitoring devices is unknown at this time. The Department of Health Care Services estimated this benefit would have cost $100.8 million total funds ($31.9 million General Fund (GF), $68.9 million Federal Fund (FF)) the first year and $92.7 million total funds ($29.4 million GF, $63.3 million FF) the second year.	**10/13/2019** Vetoed **09/04/2019** Passed Senate floor **05/22/2019** Passed Assembly floor **02/20/2019** Introduced	CalOptima: Watch

EARLY AND PERIODIC SCREENING, DIAGNOSIS, AND TREATMENT (EPSDT)

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 1004 McCarty	**Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Program Developmental Screening Services:** Requires developmental screenings services as part of the EPSDT program for children 0-3 years of age. Recommends developmental screenings take place for children at the age of 9 months, 18 months, and 30 months. All screenings are to be in compliance with developmental screening guidelines set in place by the American Academy of Pediatrics. AB 1004 allows DHCS to adjust capitation rates for providers, with the use of value-based purchasing, as an incentive to improve EPSDT outcomes.	**09/30/2019** Signed into law **09/05/2019** Passed Senate floor **05/23/2019** Passed Assembly floor **02/21/2019** Introduced	CalOptima: Watch

ELIGIBILITY

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 1839 Ruiz	**Medicaid Services Investment and Accountability Act of 2019:** Extends spousal impoverishment protections when a spouse is receiving skilled nursing care, provides states the ability to provide coordinated care for children with special needs through the use of health home services, and would require drug manufacturers to disclose drug product information and pay a fine for the misclassification of prescribed medications.	**04/18/2019** Signed into law **04/02/2019** Passed the Senate **03/25/2019** Passed the House **03/21/2019** Introduced	CalOptima: Watch
AB 1088 Wood	**Medi-Cal Eligibility without a Share-of-Cost:** Effective July 1, 2021 through the use of a State Plan Amendment or Waiver, eliminates the "Share of Cost (SOC)" and maintains eligibility for Medi-Cal, for individuals who are aged, blind, or disabled, once the Department of Health Care Services (DHCS) begins to pay for the individual's Medicare Part B premium. Currently, individuals in this eligibility category with income levels above 100 percent FPL are only eligible for Medi-Cal if they pay an added out of pocket expense known as SOC. Under SOC, beneficiaries must take full responsibility for health care expenses up to a predetermined amount for the month in which they receive services or risk losing Medi-Cal eligibility. This bill ensures that individuals have access to Medi-Cal without incurring extra financial burdens.	**10/02/2019** Signed into law **09/05/2019** Passed Senate floor **05/29/2019** Passed Assembly floor **02/21/2019** Introduced	CalOptima: Watch CAHP: Support LHPC: Support
SB 29 Durazo	**Medi-Cal Eligibility Expansion:** Would extend eligibility for full-scope Medi-Cal to eligible individuals ages 65 years or older, regardless of their immigration status. The Assembly Appropriations Committee projects this expansion would cost approximately $134 million each year ($100 million General Fund, $21 federal funds) by expanding full-scope Medi-Cal to approximately 25,000 adults who are undocumented and 65 years of age and older.	**09/13/2019** Held in Assembly **08/30/2019** Passed Assembly Committee on Appropriations **05/29/2019** Passed Senate floor **12/03/2018** Introduced	CalOptima: Watch

HOMELESSNESS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 1856 Waters	**Ending Homelessness Act of 2019**: Similar to S. 2613, would establish a federal grant program to appropriate $13 billion, beginning FY 2020 through FY 2024, to fund comprehensive homeless support services. Grant funds would be allocated to address the poverty rate, shortage of affordable housing, overcrowded housing, the number of individuals experiencing homelessness who are unsheltered, individuals experiencing chronic homelessness, and other issues related to homelessness in the United States. Of note, no less than 75% of grants allocated are to be used for permanent supportive housing, including capital costs, rental subsidies, and related services.	**03/25/2019** Introduced; Referred to the Committees on Financial Services; Budget	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 1978 Correa/Lieu	**Fighting Homelessness Through Services and Housing Act:** Similar to S. 923, would establish a federal grant program within the Health Resources and Services Administration to fund comprehensive homeless support services through the appropriation of $750 million each year for five years, beginning in FY 2020. Included would be a one-time grant of $100,000 to support program planning for existing programs serving those who are homeless or at risk of being homeless. Each eligible entity would be able to receive up to $25 million each year for up to five years. Government entities eligible to apply for grant funding would include counties, cities, regional or local agencies, Indian tribes or tribal organizations. Each agency would be able to enter partnerships to meet eligibility status. Additionally, comprehensive homeless support services, such as mental health services, supportive housing, transitional support, and case management must be provided by the agency to be considered to receive grant funding. Individuals eligible to receive comprehensive homeless support services through this program include persons who are homeless or are at risk of becoming homeless, including families, individuals, children and youths.	**03/28/2019** Introduced; Referred to the House Committee on Financial Services	CalOptima: Watch
S. 923 Feinstein	**Fighting Homelessness Through Services and Housing Act:** Similar to H.R. 1978, would establish a federal grant program within the Health Resources and Services Administration to fund comprehensive homeless support services through the appropriation of $750 million each year for five years, beginning in FY 2020. Included would be a one-time grant of $100,000 to support program planning for existing programs serving those who are homeless or at risk of being homeless. Each eligible entity would be able to receive up to $25 million each year for up to five years. Government entities eligible to apply for grant funding would include counties, cities, regional or local agencies, Indian tribes or tribal organizations. Each agency would be able to enter partnerships to meet eligibility status. Additionally, comprehensive homeless support services, such as mental health services, supportive housing, transitional support, and case management must be provided by the agency to be considered to receive grant funding. Individuals eligible to receive comprehensive homeless support services through this program include persons who are homeless or are at risk of becoming homeless, including families, individuals, children and youths.	**03/28/2019** Introduced; Referred to Committee on Health, Education, Labor, and Pensions	CalOptima: Watch
S. 2613 Harris	**Ending Homelessness Act of 2019:** Similar to H.R. 1856, would establish a federal grant program to appropriate $13 billion, beginning FY 2020 through FY 2024, to fund comprehensive homeless support services. Grant funds would be allocated to address the poverty rate, shortage of affordable housing, overcrowded housing, the number of individuals experiencing homelessness who are unsheltered, individuals experiencing chronic homelessness, and other issues related to homelessness in the United States. Of note, no less than 75% of grants allocated are to be used for permanent supportive housing, including capital costs, rental subsidies, and related services.	**10/16/2019** Introduced; Referred to the Committee on Baking, Housing and Urban Affairs	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 143 Quirk-Silva	**Homeless Shelter Crisis:** Extends existing law, AB 932 (2017), until January 1, 2023, allowing designated cities or counties to establish a shelter crisis that exempts the construction of a homeless shelter from the California Environmental Quality Act (CEQA). Adds to the list of designated municipalities the County of Alameda, the County of Orange, and the City of San Jose. Requires transition plans for permanent housing for participants within the operational plans of each shelter. Additionally, this exemption only applies to the construction of a homeless shelter owned by either a state agency, city, county, or government-owned land.	**09/26/2019** Signed into law **09/05/2019** Passed Senate floor **05/09/2019** Passed Assembly floor **12/13/2018** Introduced	CalOptima: Watch County of Orange: Support

MEDI-CAL MANAGED CARE PLAN OVERSIGHT

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 1642 Wood	**Medi-Cal Managed Care Plans:** Requires Medi-Cal managed care plans (MCPs) to provide assistance with transportation services for long-distance medical appointments and scheduling for out-of-network providers that may be necessary due to network adequacy deficiencies. Broadens and clarifies the authority of the Department of Health Care Services (DHCS) to levy sanctions on both MCPs and Mental Health Plans.	**10/02/2019** Signed into law **09/04/2019** Passed Senate floor **05/29/2019** Passed Assembly floor **02/22/2019** Introduced	CalOptima: Watch

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
SB 503 Pan	**Subcontracts:** Would have required Medi-Cal managed care plans (MCPs) to conduct annual audits, with at least 10 percent being conducted as surprise audits, of subcontractors who perform delegated functions involving medical review and decision making. Would have required the Department of Health Care Services (DHCS) to establish an audit tool to be used by the MCP, beginning January 1, 2021. Audits of subcontractors would have begun no sooner than January 1, 2022 and would have required audit results to be reported to DHCS, including the identification of the subcontractor being audited. Additionally, if more than one MCP subcontract with the same subcontracted provider, those MCPs would have been able to conduct a joint audit.	**10/13/2019** Vetoed **09/09/2019** Passed Assembly floor **05/22/2019** Passed Senate **02/21/2019** Introduced	CalOptima: Watch

MEMBER MATERIALS

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 318 Chu	**Materials for Medi-Cal Members:** Would have required Medi-Cal managed care plans' (MCPs) specific written health education and information materials to be reviewed through "field testing" to ensure all materials meet readability and suitability standards. Materials required for field testing were to include: "Enrollment and disenrollment forms and information, new member welcome packets, member handbooks, appointment notices and reminders, forms and information regarding grievance or complaint procedures and information regarding external review of plan decisions, and notices of action." Field testing could have been conducted internally by the MCP or by an external entity, but must be done by a native speaker of the language being reviewed. The findings of the field testing were to be reported to the Department of Health Care Services (DHCS). Additionally, would have required DHCS to establish a workgroup of advocates and MCPs to measure the readability of member-facing materials used by MCPs, such as the *Rights and Responsibilities Form and the Medi-Cal Request for Information Form.*	**10/13/2019** Vetoed **09/05/2019** Passed Senate floor **05/23/2019** Passed Assembly floor **01/30/2019** Introduced	CalOptima: Watch CAHP: Oppose LHPC: Oppose

PROGRAMS OF ALL-INCLUSIVE CARE FOR THE ELDERLY (PACE)

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
ACR 131 Petrie-Norris	**Programs of All-Inclusive Care for the Elderly (PACE) Month:** Assembly Concurrent Resolution that recognizes September 2019 as PACE Month in California.	**09/09/2019** Resolution adopted in the Senate **08/30/2019** Resolution adopted in the Assembly **08/19/2019** Introduced	CalOptima: Watch CalPACE: Support; Sponsor

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
AB 1128 Petrie-Norris	**Programs of All-Inclusive Care (PACE) Licensing:** Exempts a primary a care clinic, adult day health care center, or home health agency from the Department of Public Health (DPH) licensing requirements. Applies to agencies solely serving PACE participants, effective upon agreement of the Department of Health Care Services (DHCS), but no later than January 1, 2021. This will streamline the licensing process by having the clinic licensing, adult day services licensing, or home health licensing under the responsibility of DHCS. Additionally, authorizes a primary care clinic, adult day health care center, or home health agency to provide services to a Medi-Cal beneficiary during the PACE enrollment eligibility period, for no more than 60 days, when that center solely serves PACE participants.	**10/12/2019** Signed into law **09/10/2019** Passed Senate floor **05/28/2019** Passed Assembly floor **02/21/2019** Introduced	CalOptima: Watch CalPACE: Support; Sponsor

REIMBURSEMENT RATES

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
SB 66 Atkins/ McGuire	**Federally Qualified Health Center (FQHC) Reimbursement:** Would allow an FQHC to be reimbursed by the state for a mental health or dental health visit that occurs on the same day as a medical face-to-face visit. Currently, California is one of the few states that do not allow an FQHC to be reimbursed for a mental or dental and physical health visits on the same day. A patient must seek mental health or dental treatment on a subsequent day for an FQHC to receive reimbursement for that service. This bill would distinguish a medical visit through the member's primary care provider and a mental health or dental visit as two separate visits, regardless if at the same location on the same day. As a result, the patient would no longer have to wait a 24-hour time period in order to receive medical and dental or mental health services, while ensuring that clinics are appropriately reimbursed for both services. Additionally, acupuncture services would be included as a covered benefit when provided at an FQHC.	**09/13/2019** Moved to inactive file; Two-year bill at the request of the author **08/30/2019** Passed Assembly Committee on Appropriations **05/23/2019** Passed Senate floor **01/08/2019** Introduced	CalOptima: Watch CAHP: Support LHPC: Support; Cosponsor

TELEHEALTH

Bill Number (Author)	Bill Summary	Bill Status	Position/Notes*
H.R. 4932 Thompson	**Creating Opportunities Now for Necessary and Effective Care Technologies (CONNECT) for Health Act of 2019:** Similar to S. 2741, would expand telehealth services for those receiving Medicare benefits and remove restrictions in the Medicare program that prevent physicians from using telehealth technology. Would also: • Provide the Secretary of Health and Human Services with the authority to waive telehealth restrictions when necessary; • Remove geographic and originating site restrictions for services like mental health and emergency medical care; • Allow rural health clinics and other community-based health care centers to provide telehealth services; and • Require a study to explore more ways to expand telehealth services so that more people can access health care services in their own homes.	**10/30/2019** Introduced; Referred to the Committees on Energy and Commerce; Ways and Means	CalOptima: Watch AHIP: Support

About CalOptima

CalOptima is a county organized health system that administers health insurance programs for low-income children, adults, seniors and people with disabilities. As Orange County's community health plan, our mission is to provide members with access to quality health care services delivered in a cost-effective and compassionate manner. We provide coverage through four major programs: Medi-Cal, OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan), OneCare (Medicare Advantage Special Needs Plan), and the Program of All-Inclusive Care for the Elderly (PACE).

Board of Directors Meeting

CalOptima Community Outreach Summary — November 2019

Background

CalOptima is committed to serving our community by sharing information with current and potential members and strengthening relationships with our community partners. One of the ways CalOptima accomplishes this is through our participation in public events. CalOptima participates in public activities that meet at least one of the following criteria:

- Member interaction/enrollment: The event/activity attracts a significant number of CalOptima members and/or potential members who could enroll in a CalOptima program.
- Branding: The event/activity promotes awareness of CalOptima in the community.
- Partnerships: The event/activity has the potential to create positive visibility for CalOptima and create a long-term collaborative partnership between CalOptima and the requesting entity.

We consider requests for sponsorship based on several factors as indicated pursuant to Policy AA. 1223: Participation in Community Events Involving External Entities including, but not limited to: the number of people the activity/event will reach; the marketing benefits for CalOptima; the strength of the partnership or level of involvement with the requesting entity; past participation; staff availability; and budget availability.

In addition to participating in community events, CalOptima staff actively participates in several community meetings including coalitions/collaboratives, committees and advisory groups focused on community health issues related to improving access to health care, reducing health disparities, strengthening the safety net system and promoting a healthier Orange County.

CalOptima Community Events Update

On Tuesday, October 29, 2019, Community Relations partnered with Quality Analytics to host a Mobile Mammogram event at CalOptima's satellite office at the County Community Service Center in Westminster. The purpose of the event was to ensure our members have good breast health and increase CalOptima's HEDIS measurement for breast cancer screenings.

Event invitations were mailed directly to approximately 900 CCN and COD members between the ages of 50 and 74 who live in Anaheim, Fountain Valley, Westminster, Midway City, Santa Ana, Garden Grove and Stanton and are due for a mammogram. Staff also conducted outreach calls to approximately 500 members to encourage participation. Transportation was coordinated for members who do not have access to transportation to attend the event.

Community Relations also partnered with Susan G. Komen and Southland Integrated to provide health education and resources on the day of the event. Southland Integrated also provided a nurse practitioner to conduct clinical breast exams and consultations. CalOptima's Population Health Management department provided a registered dietitian to conduct BMI measurements. As part of CalOptima's member incentive

Back to Agenda

program, CCN and COD members who completed the mammogram and health screenings on the day of the event, also received a $25 gift card.

For additional information or questions, please contact CalOptima Community Relations Manager Tiffany Kaaiakamanu at **657-235-6872** or tkaaiakamanu@caloptima.org.

Summary of Public Activities

As of October 30, 2019, CalOptima expected to participate in 44 community events, coalitions and committee meetings:

TARGET AUDIENCE: HEALTH AND HUMAN SERVICES PROVIDERS

Date	Events/Meetings
11/01/19	• Covered Orange County General Meeting
11/04/19	• Orange Cunty Health Care Agency Mental Health Services Act Steering Committee Meeting • Fullerton Collaborative
