NOTICE OF A
REGULAR MEETING OF THE
CALOPTIMA BOARD OF DIRECTORS

THURSDAY, DECEMBER 5, 2019
2:00 P.M.

505 CITY PARKWAY WEST, SUITES 108-109
ORANGE, CALIFORNIA 92868

~~**TELECONFERENCE LOCATION:**~~
~~**333 O'FARRELL, SAN FRANCISCO, CA 94102**~~

REVISED AGENDA

BOARD OF DIRECTORS

Paul Yost, M.D., Chair — Dr. Nikan Khatibi, Vice Chair
Ria Berger — Ron DiLuigi
Supervisor Andrew Do — Alexander Nguyen, M.D.
Lee Penrose — Richard Sanchez
J. Scott Schoeffel — Supervisor Michelle Steel
Supervisor Doug Chaffee, Alternate

CHIEF EXECUTIVE OFFICER	CHIEF COUNSEL	INTERIM CLERK OF THE BOARD
Michael Schrader	Gary Crockett	Sharon Dwiers

This agenda contains a brief description of each item to be considered. Except as provided by law, no action shall be taken on any item not appearing on the agenda. To speak on an item, complete a Public Comment Request Form(s) identifying the item(s) and submit to the Clerk of the Board. To speak on a matter not appearing on the agenda, but within the subject matter jurisdiction of the Board of Directors, you may do so during Public Comments. Public Comment Request Forms must be submitted prior to the beginning of the Consent Calendar, the reading of the individual agenda items, and/or the beginning of Public Comments. When addressing the Board, it is requested that you state your name for the record. Address the Board as a whole through the Chair. Comments to individual Board Members or staff are not permitted. Speakers are limited to three (3) minutes per item.

In compliance with the Americans with Disabilities Act, those requiring accommodations for this meeting should notify the Clerk of the Board's Office at (714) 246-8806, at least 72 hours prior to the meeting.

The Board Meeting Agenda and supporting documentation is available for review at CalOptima, 505 City Parkway West, Orange, CA 92868, Monday-Friday, 8:00 a.m. – 5:00 p.m. The Board Meeting Agenda and supporting materials are also available online at www.caloptima.org. Board meeting audio is streamed live at https://caloptima.org/en/AboutUs/BoardMeetingsLive.aspx

CALL TO ORDER

25. CalOptima Community Outreach and Program Summary

CLOSED SESSION

CS 1 Pursuant to Government Code section 54957, PUBLIC EMPLOYEE PERFORMANCE EVALUATION (Chief Executive Officer)

CS 2 Pursuant to Government Code section 54957.6, CONFERENCE WITH LABOR NEGOTIATORS
Agency Designated Representatives: (Paul Yost, M.D. and Dr. Nikan Khatibi)
Unrepresented Employee: (Chief Executive Officer)

BOARD MEMBER COMMENTS AND BOARD COMMITTEE REPORTS

ADJOURNMENT

MEMORANDUM

DATE:	November 26, 2019
TO:	CalOptima Board of Directors
FROM:	Michael Schrader, CEO
SUBJECT:	CEO Report — December 5, 2019, Board of Directors Meeting
COPY:	Sharon Dwiers, Interim Clerk of the Board; Member Advisory Committee; Provider Advisory Committee; OneCare Connect Member Advisory Committee; and Whole-Child Model Family Advisory Committee

CalOptima Earns State Quality Award for the Fifth Year in a Row
Great news! CalOptima extended our run of recognition by the state, receiving the Department of Health Care Services (DHCS) Outstanding Performance Award for Large Scale Plans for the fifth year in a row. Presented recently at the regulator's annual quality meeting, CalOptima had staff on hand to accept the honor, with a certificate that states "in recognition of your efforts for going above and beyond for Medi-Cal managed care members…" Thanks to your Board and all providers for continuing to support this agency's efforts to lead California in Medi-Cal quality.

Community Health Centers Group Honor CalOptima for Partnership
On November 14, the Coalition of Orange County Community Health Centers honored CalOptima during the group's 45th anniversary event, presenting the agency with the Community Partner Award. I thanked coalition members for their partnership, emphasizing our longstanding shared mission to care for vulnerable populations as well as our current initiatives to better serve individuals experiencing homelessness through clinical field teams and other programs.

CalOptima Names New Executive Director, Operations
Former Customer Service Director Belinda Abeyta has been promoted to Executive Director, Operations. Belinda filled this role in an interim capacity for seven months, ensuring that CalOptima's day-to-day functions of serving members and ensuring provider payments ran smoothly. As Executive Director, Belinda is responsible for overseeing Customer Service, Grievance and Appeals Resolution Services (GARS), Claims Administration, E-Business and Coding Initiatives. She started her career with CalOptima in 2014 as director of GARS before moving into her Customer Service role. She has 25 years of leadership experience in claims for both public and private health care organizations, including Inland Empire Health Plan and St. Joseph Heritage Heath. She holds a bachelor's degree in health science from California State University, Long Beach and an MBA from University of Phoenix.

America's Health Insurance Plans (AHIP) Meeting Brings Opportunity to Interact With Key Federal Policy Makers
On November 12–13, I attend an AHIP Board meeting during which the association reiterated its Medicaid managed care focus on three areas: rates, coverage and benefits, and managed care plan value. Regarding rates, AHIP is monitoring block grant waivers, medical loss ratio guidance, and CMS rate reviews and rule changes, including the Medicaid Fiscal Accountability

Back to Agenda

Rule (described below). Regarding coverage and benefits, AHIP is focused on waivers, the public charge rule and dual eligible integration. Finally, about managed care plan value, AHIP is examining research on quality and the impact of carve-outs. Further, the Board meeting was also valuable for the opportunity to connect with policy makers. Three senators with leadership roles on health care and financial committees made presentations, and I was part of a small group of six CEOs from public and commercial health plans invited to attend a private meeting with Alex Azar, secretary of U.S. Health and Human Services, which oversees the Centers for Medicare & Medicaid Services (CMS). During the meeting, Azar stated that his vision for health care centers on affordability, quality and choice. Finally, I was appointed to a new AHIP Administrative Committee, exploring how the association can strengthen service to the three "vertical" markets defined as Medicare, Medicaid and Commercial. AHIP plans even more commitment to Medicaid by hiring staff and bringing on other resources, and as part of the committee, I will help guide these efforts.

Medicaid Fiscal Accountability Rule Focused on More Transparent Financial Practices
On November 12, CMS released its draft Medicaid Fiscal Accountability Rule, which was proposed in response to federal Medicaid spending growth and concerns about financial transparency. In a fact sheet accompanying the rule, CMS stated that the intent of the proposed regulations is to strengthen the fiscal integrity of the Medicaid program and ensure that state supplemental payments and financing arrangements are transparent and value-driven. Three major provisions would: 1) strengthen state-level reporting requirements; 2) clarify Medicaid financing definitions and processes for "base" and "supplemental" payments; and 3) reduce questionable financing mechanisms. Regarding the third category, the rule would update some requirements around Intergovernmental Transfers (IGTs) and their funding sources as well as health care-related taxes and donations. At this stage, CMS is soliciting stakeholder input on the rule and will be accepting comments for 60 days.

California Advancing and Innovating Medi-Cal (CalAIM) Initiative Garnering Considerable Attention Statewide as Workgroup Meetings Begin
In the short time since the October 28 introduction of CalAIM, activity has ramped up quickly. DHCS held the first three workgroup sessions: Population Health Management and Annual Health Plan Open Enrollment (November 5), Behavioral Health (November 8), and Enhanced Care Management and In Lieu of Services (November 20). Another 19 sessions are planned through February 2020. CalOptima has clear visibility of the activity in the groups through our associations, Local Health Plans of California (LHPC) and California Association of Health Plans (CAHP). The workgroup sessions are highly structured, involving detailed PowerPoint presentations and specific written questions about which DHCS is seeking feedback. LHPC and CAHP are hosting weekly calls and compiling answers to the questions. Separately, the state and the associations are engaging outside of the meetings on topics in CalAIM but not covered by a workgroup, such as regional rate setting and long-term care integration. Public plans, including CalOptima, consider population health management, enhanced care management and in lieu of services the priority areas, since they have the earliest proposed implementation, starting 2021. In fact, an all-day meeting between the state and plan leaders about enhanced care management and in lieu of services was just announced for February 10, 2020. I will continue to share CalAIM updates with your Board.

Back to Agenda

Employee Engagement Survey Results Show Positive Ratings, Highlight Opportunities
CalOptima shared results of the Employee Engagement Survey with employees during the All Hands meeting on November 14. DecisionWise administered the survey, and DecisionWise Senior Consultant David Long presented an overview that showed CalOptima's scores, highlighting areas receiving positive feedback and those needing improvement. He said that CalOptima's overall rating was 72% favorable and 18% neutral, which are similar to the averages seen across DecisionWise's large client base. Executive Director, Human Resources Brigette Gibb announced that workgroups have been formed to respond to three opportunities for improvement: cross-functional communication, professional growth and employee voice (being responsive to ideas and suggestions from employees). The workgroups, which include employees from various departments and at various career levels, started November 15.

State to Audit CalOptima in January, Delegated Entity to Participate
DHCS formally notified CalOptima about the annual medical audit of Medi-Cal and OneCare Connect (Medicaid-based services only). The regulator will be on site from January 27–February 7, 2020. DHCS will audit CalOptima's compliance with contractual and regulatory requirements in the areas of utilization management, case management and coordination of care, availability and accessibility, member's rights, quality management, and administrative and organizational capacity, for the review period of February 1, 2019, to January 31, 2020. A key difference in the 2020 audit is the requirement that a CalOptima delegate participate, and DHCS has chosen to engage Monarch HealthCare for its review of OneCare Connect.

Health Education Team Organizes Successful Anti-Vaping Event in Anaheim
CalOptima's Health Education team within the Population Health Management department partnered with community organizations to present Escape the Vape, an educational anti-smoking event targeted at school children. Held on November 21 at the Ponderosa Park Community Center in Anaheim, more than 300 children attended, many with a parent. The American Cancer Society was a key collaborator as the event coincided with the 40th anniversary of the Great American Smokeout, a nationwide effort encouraging smoking cessation. Escape the Vape included a dozen booths with information, entertainment and activities. The anti-vaping theme attracted TV coverage from Telemundo and KTLA.

MINUTES

REGULAR MEETING
OF THE
CALOPTIMA BOARD OF DIRECTORS

November 7, 2019

A Regular Meeting of the CalOptima Board of Directors was held on November 7, 2019, at CalOptima, 505 City Parkway West, Orange, California. Vice Chair Dr. Nikan Khatibi, called the meeting to order at 2.01 p.m. Director Penrose led the Pledge of Allegiance.

ROLL CALL

Members Present: Dr. Nikan Khatibi, Vice Chair; Ria Berger; Ron DiLuigi; Alexander Nguyen, M.D.; Lee Penrose; Richard Sanchez (non-voting); Scott Schoeffel; Supervisor Andrew Do (left meeting at 4:25 p.m.); Supervisor Michelle Steel (at 2:08 p.m.)

Members Absent: Paul Yost, M.D., Chair

Others Present: Michael Schrader, Chief Executive Officer; Gary Crockett, Chief Counsel; Nancy Huang, Chief Financial Officer; David Ramirez, M.D., Chief Medical Officer; Ladan Khamseh, Chief Operating Officer; Len Rosignoli, Chief Information Officer; Sharon Dwiers, Interim Clerk of the Board

MANAGEMENT REPORTS

1. Chief Executive Officer (CEO) Report

Michael Schrader, CEO, highlighted several items from his Report including officially welcoming to the CalOptima executive team Nancy Huang, Chief Financial Officer and Emily Fonda, M.D., Deputy Chief Medical Officer. Mr. Schrader also noted the October 16, 2019 Groundbreaking Ceremony for the Be Well OC Regional Mental Health and Wellness Campus in Orange.

Mr. Schrader also provided a detailed overview of the draft California Advancing and Innovating Medi-Cal Initiative (CalAIM) unveiled by the Department of Health Care Services (DHCS). He noted that CalAIM is a multiyear initiative designed to drive delivery system innovation and program and payment reforms in Medi-Cal in light of the expiration of the current Section 1115 and 1915(b) waivers in 2020. The state DHCS has formed five workgroups that will focus on the following areas: population health management and annual health plan open enrollment, National Committee for Quality Assurance (NCQA), enhanced care management, behavioral health, and full integration pilots. In addition, we will be working through our associations to be closely involved as the initiative evolves.

Mr. Schrader also provided brief updates on upcoming issues and initiatives including behavioral health integration, the executive order on pharmacy carve-out, the Healthy California for All Commission study on transitioning to a single payer, a legislative hearing focused on Medi-Cal managed care quality, CalOptima's Three-Year Strategic Plan and the CalOptima provider delivery system evaluation.

PUBLIC COMMENTS

1. Quynh Kieu, M.D. – Oral Re: pediatric services
2. Raman Chopra, M.D. – Oral Re: pediatric services
3. Dr. Kazi Rezai, D.O. – Oral Re: GG.1633 Board Certification Requirement
4. Martin Serota, Prospect Medical Systems – Oral Re: Agenda Item 6. Consider Authorizing Vendor Contract Amendment and Additional Funding for Consulting Services Related to Evaluation of CalOptima's Provider Delivery System

CONSENT CALENDAR

2. Minutes

a. Approve Minutes of the October 3, 2019 Regular Meeting of the CalOptima Board of Directors

Action: ***On motion of Director Penrose, seconded and carried, the Board of Directors approved the Consent Calendar as presented. (Motion carried 8-0-0)***

REPORTS

3. Consider Approval of a Proposed CalOptima Policy and Procedure Related to the CalOptima Program of All-Inclusive Care for the Elderly Program

Vice Chair Khatibi noted that this item involves a staff recommendation to approve a policy related to payment of premiums and the collection of share-of-cost payments from PACE participants.

After considerable discussion, the Board took the following action:

Action: ***On motion of Supervisor Do, seconded and carried, the Board of Directors Approve the following Policy and Procedure related to the CalOptima Program of All-Inclusive Care for the Elderly (PACE) Program: A.) PA.7100: Premium & Share of Cost Collection [PACE] (Motion carried; 8-0-0)***

4. Consider Adopting Resolution Authorizing and Directing Execution of Amendment No. 1 to Contract MS-19-20-41 with the California Department of Aging for the Multipurpose Senior Services

Action: ***On motion of Director DiLuigi, seconded and carried, the Board of Directors adopted Board Resolution No. 19-1107-01, authorizing and directing the Chairman of the Board to execute Amendment No. 1 to Contract MS-19-20-41 with the California Department of Aging for the Multipurpose Senior Services Program for Fiscal Year 2019-20. (Motion carried; 8-0-0)***

5. Consider Authorizing Amendment to the Vision Service Plan HMO Services Contract for Enhanced Benefits

Action: ***On motion of Director Schoeffel, seconded and carried, the Board of Directors Authorized the Chief Executive Officer, with the assistance of Legal Counsel,***

to amend the Vision Service Plan (VSP) HMO Services Contract for OneCare (OC) and OneCare Connect (OCC) to reflect the additional frame and contact lens benefit allowance for members. (Motion carried;8-0-0)

6. Consider Authorizing Vendor Contract Amendment and Additional Funding for Consulting Services Related to Evaluation of CalOptima's Provider Delivery System

Ladan Khamseh, Chief Operating Officer, introduced this item and noted that many of CalOptima's health networks have expressed a desire to meet with the consultants for the CalOptima Provider Delivery System to provide additional feedback.

Several Board members noted concern with the timing of the report and the increase dollar amount. After discussion on the matter, the Board took the following action:

Action: ***On motion of Director Schoeffel, seconded and carried, the Board of Directors 1) Authorized the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend CalOptima's contract with Pacific Health Consulting Group (PHCG) to include additional work related to the evaluation of the CalOptima provider network delivery system; and 2) Authorized additional expenditures on this engagement of unbudgeted funds in an amount not to exceed $35,000 from reserves to fund the additional work covered by the proposed contract amendment.. (Motion carried; 8-0-0)***

7. Consider Approval of Homeless Health Initiatives Guiding Principles

The Board thanked staff for its work on this item and asked whether the guiding principles should be updated in light of the CalAIM proposal, which could go into effect as soon as 2021.

The Board also directed staff to include CalAIM as a standing item on future Board agendas and in the CEO Weekly Updates to the Board.

After considerable discussion, the Board took the following action:

Action: ***On motion of Supervisor Do, seconded and carried, the Board of Directors directed staff to update the Guiding Principles document based on the proposed CalAIM initiatives and bring back to the December Board. (Motion carried; 8-0-0)***

8. Consider Authorizing Amendments to the Cal MediConnect (OneCare Connect) Health Network Contracts associated with AltaMed Health Services Corporation to Extend them and Incorporate Other Changes and to Amend Certain Network Contracts to Address Retroactive Rate Increase Requirements for Non-Contracted Ground Emergency Medical Transport Provider Services

Director Schoeffel did not participate in this item due to potential conflicts of interest and left the room during the discussion and vote. Supervisors Do and Steel did not participate in the discussion and vote on this item due to conflicts of interest based on campaign contributions under the Levine Act.

Action: ***On motion of Director DiLuigi, seconded and carried, the Board of Directors authorized the Chief Executive Officer (CEO), with the assistance of Legal***

Counsel, to amend the OneCare Connect Health Network contracts with AltaMed Health Services Corporation to: i.) Extend the OneCare Connect Health Network contract through and including December 31, 2020; ii.) Add any necessary language provisions required based on the Three-Way Cal MediConnect contract (Three-Way Agreement) between CalOptima, the California Department of Health Care Services (DHCS) and the Centers for Medicare & Medicaid Services (CMS) and other statutory, regulatory, or contractual requirements, including language reflecting changes related to the Merit-based Incentive Payments System (MIPS) program; and iii.) Clarify access standards for prenatal care. (Motion carried 5-0-1; Director Schoeffel absent; Supervisor Do abstained; Supervisor Steel recused)

9. Consider Authorizing Amendments to the Cal MediConnect (OneCare Connect) Health Network Contracts, except those associated with AltaMed Health Services Corporation, to Extend them and Incorporate Other Changes and to Amend Certain Network Contracts to Address Retroactive Rate Increase Requirements for Non-Contracted Ground Emergency Medical Transport Provider Services

Director Schoeffel did not participate in this item due to potential conflicts of interest and left the room during the discussion and vote. Supervisor Do did not participate in the discussion and vote on this item due to conflicts of interest based on campaign contributions under the Levin Act.

Action: ***On motion of Director Nguyen, seconded and carried, the Board of Directors authorized the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to amend the OneCare Connect: 1.) Health Network contracts with AMVI Care Health Network, ARTA Western California, Inc., Talbert Medical Group, P.C., Family Choice Medical Group Inc., Fountain Valley Regional Hospital and Medical Center, Heritage Provider Network Inc., Monarch HealthCare, A Medical Group Inc., Orange County Physicians IPA Medical Group Inc. dba Noble Community Medical Associates, Inc. of Mid-Orange County, Prospect Health Plan Inc., and United Care Medical Group, Inc. to: i.) Extend the OneCare Connect Health Network contract through and including December 31, 2020; ii.) Add any necessary language provisions required based on the Three-Way Cal MediConnect contract (Three-Way Agreement) between CalOptima, the California Department of Health Care Services (DHCS) and the Centers for Medicare & Medicaid Services (CMS) and other statutory, regulatory, or contractual requirements, including language reflecting changes related to the Merit-based Incentive Payments System (MIPS) program; iii.) Clarify access standards for prenatal care; and 2.) Physician Hospital Consortium capitated Hospital contract with Fountain Valley Regional Hospital and Medical Center, and OneCare Connect Full-Risk Health Network contracts with Heritage Provider Network Inc., Monarch Health Plan, Inc., and Prospect Health Plan, Inc. to incorporate the retrospective non-contracted Ground Emergency Medical Transport (GEMT) provider rate increase requirements for the July 1, 2018 through June 30, 2019 and the July 1, 2019 through June 30, 2020 periods, and the additional compensation to these Health Networks for such services. (Motion carried 6-0-1; Director Schoeffel absent; Supervisor Do abstained)***

10. Consider Authorizing Memorandum of Understanding with the Santa Ana Unified School District to Provide Outreach and Education Services
Director Schoeffel did not participate in this item due to potential conflicts of interest and left the room during the discussion and vote.

Candice Gomez, Executive Director, Business Implementation introduced the item.

The Board directed staff to bring this item back to the Board for approval after the Memorandum of Understanding (MOU) is finalized and include as an attachment.

Action: ***On motion of Supervisor Do, seconded and carried, the Board of Directors, voted to continue this item until the Memorandum of Understanding is finalized and include as an attachment. (Motion carried; 7-0-0; Director Schoeffel absent)***

11. Consider Approval of the Expenditure of Funds to Host a Community Health and Resource Fair for CalOptima Members
This item was continued to a future meeting.

12. Consider Authorizing Contract with the Law Firms of Mansfield, Bronstein & Stone, LLP and Solowsky & Allen, P.L. (to follow Closed Session)
No action taken on this item.

ADVISORY COMMITTEE UPDATES

13. Member Advisory Committee Update
Christine Tolbert, MAC Chair, presented an update on the October 10, 2019 Joint Meeting of the CalOptima Board's four advisory committees. Ms. Tolbert shared that the MAC received presentations on Whole Person Care and Health Homes Program that highlighted the key aspects of each of the programs. She also shared MAC's feedback related to the draft CalOptima 2020-22 Strategic Plan.

14. OneCare Connect Member Advisory Committee Update
Patty Mouton, OCC MAC Chair, presented an update on the October 10, 2019 Joint Meeting of the CalOptima Board's four advisory committees. Ms. Mouton shared the OCC MAC's feedback related to the draft CalOptima 2020-22 Strategic Plan. She also noted they are looking at the current makeup of the representative seats on the OCC MAC to ensure they best reflect the needs of CalOptima's population.

15. Provider Advisory Committee Update
Teri Miranti, PAC Vice Chair, presented an update on the October 10, 2019 Joint Meeting of the CalOptima Board's four advisory committees. Ms. Miranti shared the PAC's feedback related to the draft CalOptima 2020-22 Strategic Plan. As the health network representative, Ms. Miranti thanked

the Board for allowing additional time for the health networks to meet with the provider delivery system consultants and also for the feedback on the Guiding Principles document.

INFORMATION ITEMS

16. Housing Options in Orange County

Julia Bidwell, Director of Housing & Community Development at the County of Orange, presented an overview of housing programs in Orange County including Affordable and Supportive Housing, Orange County Housing Authority, Mental Health Services Act Housing, and the Orange County Housing Finance Trust, including their current housing funding strategy. Ms. Bidwell introduced Lilly Simmering, Assistant Deputy Director, Orange County Health Care Agency.

Ms. Simmering provided an overview of the Medi-Cal population and the roles of the County and CalOptima. She noted that CalOptima is responsible for those with mild to moderate mental health issues, and the County is responsible for those who have Serious and Persistent Mental Illness and/or have a Substance Use Disorder.

17. CalOptima Draft 2020-2022 Strategic Plan Update

Athena Chapman and Caroline Davis from Chapman Consulting reviewed the draft 2020-22 CalOptima Strategic Plan, noting the key areas of focus for CalOptima that were agreed upon throughout the strategic planning process with input from the CalOptima Board, community stakeholders, and staff. These included: Innovate and Be Proactive, Increase Value and Improve Care Delivery; Expand CalOptima's Member Centric Focus; Enhance Operational Excellence and Efficiency; and Strengthen Community Partnerships. The final 2020-22 CalOptima Strategic Plan will be presented at the December Board for approval.

18. Hospital Data Sharing Update

Len Rosignoli, Chief Information Officer, provided an update on the hospital and community partner data sharing project. Mr. Rosignoli reported that CalOptima has partnered with the Orange County Health Care Agency (HCA) on the Whole Person Care (WPC) Program and the system used for communicating data for the WPC is known as WPC Connect. Mr. Rosignoli provided additional information on related projects and introduced Melissa Tober-Beers, Strategic Projects Manager, Orange County Health Care Agency, who provided an update on the Whole Person Care Data Sharing project.

Ms. Tober Beers provided background on the WPC Connect Care Coordination, highlighting benefits of using this system including: reducing inappropriate or unnecessary ER visits/inpatient utilization; meets needs in real-time: social, medical and behavioral; increased readiness for coordinated entry process, improved/increased success in housing placement. Ms. Tober-Beers noted that WPC via WPC Connect Services to all populations include: emergency room notification system, web-based collaborated care plan accessible by multiple organizations, automated referral to recuperative/medical respite care services, hospital and clinic-based care navigation/ coordination, managed care personal services coordinator (CalOptima), supportive and linkage services by shelter bed providers, housing sustainability services, including peer support, community resource referrals.

19. Health Homes Update

Candice Gomez, Executive Director, Program Implementation, provided an update on the general program requirements and CalOptima's rational for utilizing the existing health network infrastructure to be the community-based care management entities (CB-CMEs) and also noted that CalOptima is looking at ways to partner with the County of Orange.

Nancy Huang, Chief Financial Officer, provided an update on the financial aspects of the Health Homes Program, noting that by design the state selected the higher cost members to be enrolled in HHP and is providing higher rates for these members initially. Although, the funding will be reduced eventually, CalOptima anticipates that the cost will likely be neutral due to the intense case management requirements of the HHP population leading to improved health for these high-cost members.

The following Information Items were accepted as presented:
20. September 2019 Financials
21. Compliance Report
22. Federal and State Legislative Advocates Report
23. CalOptima Community Outreach and Program Summary

BOARD MEMBER COMMENTS AND BOARD COMMITTEE REPORTS

MINUTES

SPECIAL MEETING OF THE CALOPTIMA BOARD OF DIRECTORS' ONECARE CONNECT CAL MEDICONNECT PLAN (MEDICARE-MEDICAID PLAN) MEMBER ADVISORY COMMITTEE

August 22, 2019

The Special Meeting of the CalOptima Board of Directors' OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan) Member Advisory Committee (OCC MAC) was held on August 22, 2019 at CalOptima, 505 City Parkway West, Orange, California.

CALL TO ORDER

Chair Gio Corzo called the meeting to order at 3:02 p.m. and led the Pledge of Allegiance.

ESTABLISH QUORUM

Members Present: Gio Corzo, Chair; Patty Mouton, Vice Chair (at 3:12 p.m.); Adam Crits, M.D. (non-voting); Sandy Finestone; Keiko Gamez; Sara Lee; Donald Stukes.

Members Absent: Josefina Diaz; Mario Parada; Erin Ulibarri (non-voting), Jyothi Atluri (non-voting)

Others Present: Michael Schrader, Chief Executive Officer; Ladan Khamseh, Chief Operating Officer; David Ramirez, M.D., Chief Medical Officer; Emily Fonda, M.D., Medical Director, Medical Management; Betsy Ha, Executive Director Quality and Population Health Management ; Shamiq Hussain, Sr. Policy Advisor Government Affairs; Irma Munoz, Project Manager, Quality Analytics; Dr. Edwin Poon, Director Behavioral Health Integration; Pallavi Patel, Director Process Excellence; Albert Cardenas, Director, Customer Service (Medicare); Samantha Fontenot, Program Assistant, Customer Service.

Chair Corzo reordered the agenda to hear CEO and Management Reports while waiting to achieve quorum.

CEO AND MANAGEMENT REPORTS

Chief Executive Officer Update

Michael Schrader, Chief Executive Officer, provided a verbal update on the Board of Directors' Strategic Planning Session that was held on August 9, 2019 with Chapman Consulting. This planning session was to assist with the development of a three-year Strategic Plan for fiscal years 2020-2022. Mr. Schrader noted that in addition to Chapman Consulting, California Secretary of Health and Human Services Dr. Mark Ghaly attended the planning session. Mr. Schrader also reported that the outcome from the Strategic Planning Session identified five key areas CalOptima would be focusing on going forward and noted that the October 10, 2019 Joint Meeting of the Advisory Committees would allow for input on the draft Strategic Plan.

Back to Agenda

Chief Medical Officer Update
David Ramirez, M.D., Chief Medical Officer, provided a verbal update on the Homeless Health Initiative. Dr. Ramirez noted that at the August 1, 2019 Board of Directors' meeting the Board approved funding for Federally Qualified Health Clinics (FQHCs) to provide treatment to homeless members regardless of their health network assignment. Dr. Ramirez also reported that the Department of Health Care Services (DHCS) has released their telehealth guidelines which CalOptima is considering incorporating to improve access and member experience.

Approve the Minutes of the April 25, 2019 Regular Meeting of the CalOptima Board of Directors' OneCare Connect Member Advisory Committee

Action: ***On motion of Member Sandy Finestone, seconded and carried, the Committee approved the minutes of the April 25, 2019 meeting. (Motion carried 6-0-0; Members Diaz and Parada absent)***

PUBLIC COMMENT

There were no requests for public comment

REPORTS

Consider Approval of FY 2019-2020 OCC MAC Meeting Schedule
OCC MAC members reviewed the proposed FY 2019-20 meeting schedule. As proposed the OCC MAC would continue to meet on a bi-monthly basis the fourth Thursday of the month beginning at 3:00 P.M with the exception of the December meeting which will be held the third Thursday due to the upcoming holidays.

Action: ***On motion of Vice Chair Mouton, seconded and carried, the Committee approved the FY 2019-2020 OCC MAC Meeting Schedule. (Motion carried 6-0-0; Members Diaz and Parada absent)***

Consider Recommendation of Chair and Vice Chair
A letter of interest was received from Vice Chair Patty Mouton, Seniors Representative for the Chair position. After no further nominations from the floor, Chair Corzo requested a motion to recommend Vice Chair Mouton as OCC MAC Chair for FY 2019-2020.

Action: ***On motion of Member Sara Lee, seconded and carried, the OCC MAC approved the recommendation of Vice Chair Mouton for a one-year term as the OCC MAC Chair. (Motion carried 6-0-0; Members Diaz and Parada absent)***

A letter of interest from current OCC MAC Chair Gio Corzo, Community Based Adult Services Representative was received for the Vice Chair position. After no further nominations from the floor, Vice Chair Mouton requested a motion to recommend Chair Corzo as the OCC MAC Vice Chair for FY 2019-2020.

Action: ***On motion of Vice Chair Mouton, seconded and carried, the OCC MAC approved the recommendation of Chair Corzo for a one-year term as the OCC MAC Vice Chair. (Motion carried 6-0-0; Members Diaz and Parada absent)***

INFORMATION ITEMS

Federal & State Legislative Update

Shamiq Hussain, Sr. Policy Analyst, Government Affairs provided a verbal update on the Federal and State Budgets. Mr. Hussain reported that Proposition 56's (Tobacco Tax) newly proposed supplemental payments would remain in their current form and current payment levels until December 1, 2021. Mr. Hussain also provided an update on the expansion of Medi-Cal services to undocumented persons starting with those people between the age of 19 and 25, which is expected to go into effect no sooner than January 1, 2020. He noted that the California Legislature anticipates that there will be approximately 90,000 new Medi-Cal enrollees across the state due to the expansion. Mr. Hussain also provided an update on the status of the pharmacy carve-out, which was initiated through Governor Newsom's Executive Order in January 2019.

Health Homes Program Update

Pallavi Patel, Director, Process Improvement, provided a verbal update on the Health Homes Program (HHP). Ms. Patel noted that OneCare Connect members could self-refer into the HHP or their provider could refer them into the program. She also noted that the HHP is focused on integrating physical and behavioral health services for CalOptima members and will begin January 1, 2020 for members with chronic conditions and July 1, 2020 for members with serious mental illness or without a chronic condition.

Behavioral Health Update

Edwin Poon, Ph.D., Director, Behavioral Health Services presented on the OneCare and the OneCare Connect Behavioral Health Implementation. Dr. Poon noted that at their May 2, 2019 meeting, the Board approved the behavioral health implementation for OneCare and OneCare Connect which will become effective January 1, 2020.

Annual Healthcare Effectiveness Data and Information Set (HEDIS) Report

Irma Munoz, Lead Project Manager, Quality Analytics, presented the updated annual HEDIS 2019 report for Medi-Cal, OneCare, and OneCare Connect. Ms. Munoz noted CalOptima's Medi-Cal results for all the DHCS Minimum Performance Levels (MPLs) have been met. For OneCare the measures performed higher than in 2018, and for OneCare Connect, the measures were also higher than 2018 results. Ms. Munoz also noted that there are opportunities for additional improvement in each category.

Back to Agenda

OCC MAC Member Updates

Chair Corzo also reminded the members that a joint meeting with the Member Advisory Committee, Provider Advisory Committee and the Whole-Child Model Family Advisory Committee would be held on October 10, 2019 at 8:00 a.m. to review the draft Strategic Plan as well as a presentation comparing the Health Homes and Whole-Person Care Programs.

ADJOURNMENT

Chair Corzo announced that the next regular meeting will be held on Thursday, October 24, 2019 at 3:00 p.m.

Hearing no further business, the meeting adjourned at 4:29 p.m.

MINUTES

REGULAR MEETING OF THE CALOPTIMA BOARD OF DIRECTORS' PROVIDER ADVISORY COMMITTEE

September 12, 2019

A Regular Meeting of the CalOptima Board of Directors' Provider Advisory Committee (PAC) was held on Thursday, September 12, 2019, at the CalOptima offices located at 505 City Parkway West, Orange, California.

CALL TO ORDER

John Nishimoto, O.D., PAC Chair, called the meeting to order at 8:05 a.m. Tina Bloomer led the Pledge of Allegiance.

ESTABLISH QUORUM

Members Present: John Nishimoto, O.D., Chair; Teri Miranti, Vice Chair; Donald Bruhns; Tina Bloomer, MHNP; Junie Lazo-Pearson, Ph.D.; Craig Myers; Jacob Sweden, M.D.; Dr. Anja Batra, (8:14 A.M); Dr. John Kelly; Dr. Loc Tran; Jena Jensen.

Members Absent: Pat Patton, MSN

Others Present: Michael Schrader, Chief Executive Officer; Ladan Khamseh, Chief Operating Officer; David Ramirez, M.D., Chief Medical Officer; Nancy Huang, Interim Chief Financial Officer; Gary Crockett, Chief Counsel; Michelle Laughlin, Executive Director, Network Operations; Betsy Ha, Executive Director, Quality and Population Health Management; Tracy Hitzeman, Executive Director, Clinical Operations; Shamiq Hussain, Sr. Policy Advisor, Government Affairs/Legislative Affairs; Samantha Fontenot, Program Assistant.

On behalf of the PAC, Chair Nishimoto recognized former PAC members Steve Flood, Long Term Services and Supports Representative, and Mary Pham, Pharm D., Pharmacy Representative for their six years of service on the PAC.

MINUTES

Approve the Minutes of the August 8, 2019 Regular Meeting of the CalOptima Board of Directors' Provider Advisory Committee

Action: ***On motion of Member Sweidan, seconded and carried, the Committee approved the minutes of the August 8, 2019 meeting. (Motion carried 11-0-0; Member Patton absent)***

PUBLIC COMMENTS

1. Michael Weiss M.D., Children's Hospital of Orange County - Oral re: Agenda Item VI. A. Network Strategy Project
2. Sam Roth, Tenet Healthcare – Oral re: Agenda Item VI. A. Network Strategy Project

CEO and MANAGEMENT REPORTS

Chief Executive Officer Update

Michael Schrader, Chief Executive Officer, introduced Tim Reilly of Pacific Health Consulting Group (PHCG) who would be providing the Network Strategy Presentation.

INFORMATION ITEMS

Network Strategy Project Presentation

Tim Reilly, Founder and Partner of PHCG presented on CalOptima's Network Strategy Project. Mr. Reilly's presentation was similar to the one that was presented at the CalOptima Board meeting on September 5, 2019. After considerable discussion, the PAC asked that PHCG return to the November 14, 2019 PAC meeting with the recommendations in order for PAC members to have an opportunity to provide additional feedback prior to the Board taking action.

Federal and State Budget Update

Shamiq Hussain, Sr. Policy Advisor, Government and Legislative Affairs provided a verbal update on the Federal and State Budgets. He noted that the Department of Health Care Services (DHCS) was in the midst of implementing an expansion of full-scope Medi-Cal for the undocumented population for ages 19-25, which is the majority of the remaining uninsured in California He also noted that the 2019-2020 budget continues current payments and funds new payments via Proposition 56 (Tobacco Tax) dollars. These new payments are designed to incentivize the delivery of specific services, such as well-child visits, tobacco-use screening, and behavioral health treatment. Mr. Hussain also noted that DHCS continues to work on the transition of the Medi-Cal pharmacy benefit from managed care to state-administered fee-for-service, including a request for proposal process to procure a statewide pharmacy services administration as well as a stakeholder feedback process.

PAC Member Updates

Chair Nishimoto reminded the PAC members of their upcoming annual compliance training, and also noted that the next meeting will be a joint meeting which will include members from the Member Advisory Committee, OneCare Connect Member Advisory Committee and the Whole Child Model Family Advisory Committee to hear information on CalOptima's proposed Strategic Plan. The joint meeting is scheduled for October 10, 2019 at 8:00 a.m.

Back to Agenda

ADJOURNMENT
There being no further business, Chair Nishimoto adjourned the meeting at 9:21 a.m.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Consent Calendar
3. Consider Approval of Proposed Changes to CalOptima Policy GA.3400: Annual Investments

Contact
Nancy Huang, Chief Financial Officer, (714) 246-8400

Recommended Action
Approve proposed changes to CalOptima Policy GA.3400: Annual Investments.

Background
At the February 27, 1996, meeting, the CalOptima Board of Directors (Board) approved the Annual Investment Policy (AIP) covering investments made between March 1, 1996 and February 28, 1997. In September 1996, the Board authorized the creation of the Investment Advisory Committee (IAC). The IAC reviews the AIP each year and recommends changes in said policy to the FAC and the Board for their respective approvals.

At the December 6, 2018, meeting, the Board approved changes to CalOptima Policy GA.3400: Annual Investments. At that time, staff, in conjunction with Meketa Investment Group, Inc., and CalOptima's investment managers, Payden & Rygel, MetLife (formerly Logan Circle Partners) and Wells Capital Management, recommended revisions to the AIP to:

- Increase the maximum term of Operating Fund from four hundred fifty (450) days to two (2) years, unless otherwise specified in the policy;
- Revise language to allow Corporate Securities that are "rated 'A' or better" to rated "A" in the allowed portfolio;
- Add the Secured Overnight Financing Rate to the allowed index list of Variable and Floating Rate Securities; and
- Update the definition for State and California Local Agency Obligations in the glossary to be consistent with the California Code.

Discussion
Payden & Rygel, MetLife, and Wells Capital Management, CalOptima's investment managers, and Meketa Investment Group, Inc., CalOptima's investment adviser, submitted proposed revisions to CalOptima Policy GA.3400: Annual Investments for Calendar Year (CY) 2020. Staff compiled the proposed revisions and members of the IAC reviewed these proposed revisions and provided additional feedback.

Management recommends the following changes to CalOptima Policy GA.3400, upon Board approval:

- Section II.A.4.a.: Clarify policy that the primary benchmark for each investment portfolio is to be based on published market indices and custom peer group reports, as necessary, for short-term

Back to Agenda

investments; and provide timeframes and responsible parties to review the performance benchmarks;

- Changes to conform to language in the California Government Code (CGC) Local Agency Investment Guidelines:

    - Section III.D.2.c.i.: State and California Local Agency Obligations, allow investments with an "A-" rating or its equivalent or better by a Nationally Recognized Statistical Rating Organization (NRSRO) for long term obligations;

    - Section III.D.2.e.i.a) and b): Commercial Paper (CP), modify the criteria for allowable investments, including that it is of "prime" quality of the highest ranking or of the highest letter and number rating as provided by a NRSRO, and that the issuing entity meets specified conditions;

    - Section III.D.2.g.i.: Repurchase Agreements, allow investments with rating of F1 short-term or A long-term or better by Fitch Ratings Service;

    - Section III.D.2.h.i.: Corporate Securities, allow investments with an "A" rating category or its equivalent or better by a NRSRO;

    - Section III.D.2.k.iii.a): Mortgage or Asset-backed Securities, modify language to allow investments with rating of "AA" or better or equivalent by a NRSRO or be rated at least "A-1" or the equivalent by a NRSRO for money market asset backed securities. This change is consistent with the CP section of the policy;

    - Section III.D.2.k.iii.b): Mortgage or Asset-backed Securities, remove to comply with the January 1, 2019 revision to the CGC that removed the requirement that the securities' issuer be rated "A" or its equivalent or better for the issuer's debts in accordance with a NRSRO;

    - Section III.D.2.m.ii.: Supranational Obligations, modify language to allow investments with a rating category of "AA" or its equivalent or better by a NRSRO;

- Section III.E.6.i.: Diversification Guidelines, clarify that if an Investment Manager exceeds the diversification limits, they are required to inform CalOptima's Treasurer and Investment advisory consultant, if any;

- Section III.H.7.: Investment Restrictions, clarify the entities (i.e., CalOptima's Treasurer, Investment Managers, Investment Advisory consultant, IAC) who will receive or be notified of a list of prohibited investments from the Board of Directors, if it exists;

- Revisions to Glossary Terms: Investment Advisor(s), Investment Advisory Committee (IAC) and Nationally Recognized Statistical Rating Organization (NRSRO).

Back to Agenda

In addition to the proposed changes noted above, the attached red-lined version of the policy reflects some non-substantive formatting revisions.

Of note, Staff received a recommended change for a 5% portfolio maximum limitation per credit counterparty and by instrument type to include State and Local Agency Obligations (Municipal Bonds), Commercial Paper, Negotiable Certificates of Deposit, and Corporate Securities. However, since that potential revision would require additional vetting by CalOptima's investment managers and committee members, the recommendation will be discussed at upcoming IAC meetings for possible recommendations for adoption in a future policy update.

At its October 21, 2019, meeting, the IAC recommended that the Finance and Audit Committee (FAC) recommend Board approval of the proposed revisions to CalOptima Policy GA.3400: Annual Investments. The FAC recommended Board approval at its November 15, 2019, meeting.

Fiscal Impact
There is no immediate fiscal impact.

Rationale for Recommendation
The proposed changes to CalOptima Policy GA.3400: Annual Investments reflect the recommendations of CalOptima's investment managers, Payden & Rygel, MetLife, and Wells Capital Management, and concurrence by the IAC members and CalOptima's investment adviser, Meketa Investment Group, Inc. These recommended changes continue to support CalOptima's goals to maintain safety of principal and achieve a market rate of return while maintaining necessary liquidity during periods of uncertainty. Per the review conducted by Meketa Investment Group, Inc., there were no changes in the California Government Code affecting local agencies noted for the CY 2020.

Concurrence
Meketa Investment Group, Inc.
Gary Crockett, Chief Counsel
Board of Directors' Investment Advisory Committee
Board of Directors' Finance and Audit Committee

~~*Board Approved Policy*~~

FOR 2/19/20 BOD REVIEW

I. PURPOSE

This policy sets forth the investment guidelines for all **Operating Funds** and **Board-Designated Reserve Funds** of CalOptima invested on or after January 10, 2006 to ensure CalOptima's funds are prudently invested according to the Board of Directors' objectives and the California Government Code to preserve ~~capital~~**Capital**, provide necessary ~~liquidity~~**Liquidity**, and achieve a market-average ~~rate~~**Rate** **of** ~~return~~**Return** through ~~economic cycles~~**Economic Cycles**. Each annual review takes effect upon its adoption by the Board of Directors.

II. POLICY

A. CalOptima investments may only be made as authorized by this Policy.

1. This Policy shall conform to California Government Code, Section 53600 et seq. (hereinafter, the Code) as well as customary standards of prudent investment management. Should the provisions of the Code be, or become, more restrictive than those contained herein, such provisions shall be considered immediately incorporated into this Policy and adhered to.

2. Safety of Principal: Safety of Principal is the primary objective of CalOptima and, as such, each investment transaction shall seek to ensure that large ~~capital~~**Capital** losses are avoided from securities or ~~broker-dealer~~**Broker-Dealer** default.

   a. CalOptima shall seek to ensure that ~~capital~~**Capital** losses are minimized from the erosion of market value and preserve principal by mitigating the two (2) types of ~~risk~~**Risk**: **Credit Risk** and **Market Risk**.

      i. **Credit Risk** shall be mitigated by investing in only permitted investments and by diversifying the ~~investment portfolio~~**Investment Portfolio**, in accordance with this Policy.

      ii. **Market Risk** shall be mitigated by matching ~~maturity dates~~**Maturity Dates**, to the extent possible, with CalOptima's expected cash flow needs and other factors.

   b. It is explicitly recognized herein, however, that in a diversified portfolio, occasional losses are inevitable and must be considered within the context of the overall investment return.

3. **Liquidity**: **Liquidity** is the second most important objective of CalOptima. It is important that each portfolio contain investments for which there is a secondary market and which offer the flexibility to be easily sold at any time with minimal ~~risk~~**Risk** of loss of either the principal or interest based upon then prevailing rates.

***** Terms in **bold** are included in the Glossary.

Back to Agenda

4. Total Return: CalOptima's ~~investment portfolios~~**Investment Portfolios** shall be designed to attain a market-average ~~rate~~**Rate** **of** ~~return~~**Return** through ~~economic cycles~~**Economic Cycles** given an acceptable level of ~~risk~~**Risk**, established by the Board of Directors' and the **CalOptima Treasurer's** objectives.

    a. The performance ~~benchmark~~**Benchmark** for each ~~investment portfolio~~**Investment Portfolio** shall be based upon published ~~market indices~~**Market Indices** as primary **Benchmark**, and Custom Peer Group Reports, as necessary, for short-term investments of comparable ~~risk~~**Risk** and duration.

        i. These performance ~~benchmarks~~**Benchmarks** shall be reviewed monthly by CalOptima staff, and quarterly by CalOptima's Treasurer and the **Investment** ~~Managers~~**Advisory Committee** members and shall be ~~approved by~~reported to the Board of Directors.

B. The investments purchased by an **Investment Manager** shall be held by the ~~custodian bank~~**Custodian Bank** acting as the agent of CalOptima under the terms of a custody agreement in compliance with California Government Code, Section 53608.

C. **Investment Managers** must certify that they will purchase securities from ~~broker-dealers~~**Broker-Dealers** (other than themselves) or financial institutions in compliance with California Government Code, Section 53601.5 and this Policy.

D. The Board of Directors, or persons authorized to make investment decisions on behalf of CalOptima (e.g., **Chief Officers**), are trustees and fiduciaries subject to the **Prudent Person Standard**, as defined in the Code, which shall be applied in the context of managing an overall portfolio.

E. CalOptima's Officers, employees, Board members, and **Investment Advisory Committee** members involved in the investment process shall refrain from personal and professional business activities that could conflict with the proper execution of the investment program, or which could impair their ability to ~~make impartial~~fulfill their roles in the investment ~~decisions.~~ process.

    1. CalOptima's Officers and employees involved in the investment process are not permitted to have any material financial interests in financial institutions, including state or federal credit unions, that conduct business with CalOptima, and are not permitted to have any personal financial, or investment holdings, that could be materially related to the performance of CalOptima's investments.

F. On an annual basis, **CalOptima's Treasurer** shall provide the Board of Directors with this Policy for review and adoption by the Board, to ensure that all investments made are following this Policy.

    1. This Policy shall be reviewed annually by the Board of Directors at a public meeting pursuant to California Government Code, Section 53646, Subdivision (a).

    2. This policy may only be changed by the Board of Directors.

III. PROCEDURE

FOR 2019 1205 BOD REVIEW

A. Delegation of Authority

1. Authority to manage CalOptima's investment program is derived from an order of the Board of Directors.

    a. Management responsibility for the investment program shall be delegated to **CalOptima's Treasurer**, as appointed by the Board of Directors, for a one (1)-year period following the approval of this Policy.

        i. The Board of Directors may renew the delegation of authority annually.

    b. No person may engage in investment transactions except as provided under the terms of this Policy and the procedures established by **CalOptima's Treasurer**.

B. **CalOptima Treasurer** Responsibilities

1. The **Treasurer** shall be responsible for:

    a. All actions undertaken and shall establish a system of controls to regulate the activities of subordinate officials and Board-approved **Investment Managers**;

    b. The oversight of CalOptima's ~~investment portfolio~~**Investment Portfolio**;

    c. Directing CalOptima's investment program and for compliance with this Policy pursuant to the delegation of authority to invest funds or to sell or exchange securities; and

    d. Providing a quarterly report to the Board of Directors in accordance with California Government Code, Section 53646, Subdivision (b).

2. The **Treasurer** shall also be responsible for ensuring that:

    a. The **Operating Funds** and **Board-Designated Reserve Funds** targeted average maturities are established and reviewed monthly.

    b. All **Investment Managers** are provided a copy of this Policy, which shall be appended to an **Investment Manager's** investment contract.

        i. Any investments made by an **Investment Manager** outside this Policy may subject the **Investment Manager** to termination for cause or other appropriate remedies or sanctions, as determined by the Board of Directors.

    c. Investment diversification and portfolio performance is reviewed monthly to ensure that ~~risk~~**Risk** levels and returns are reasonable and that investments are diversified in accordance with this Policy.

    d. All **Investment Managers** are selected and evaluated for review by the Chief Executive Officer and the Board of Directors.

FOR 20191205BOD REVIEW

C. **Investment Advisory Committee**

1. The **Investment Advisory Committee** shall not make, or direct, CalOptima staff to make any particular investment, purchase any particular investment product, or conduct business with any particular investment companies, or brokers.

   a. It shall not be the purpose of the **Investment Advisory Committee** to advise on particular investment decisions of CalOptima.

2. The **Investment Advisory Committee** shall be responsible for the following functions:

   a. Annual review of this Policy before its consideration by the Board of Directors and revision recommendations, as necessary, to the **Finance and Audit Committee** of the Board of Directors.

   b. Quarterly review of CalOptima's ~~investment portfolio~~**Investment Portfolio** for conformance with this Policy's diversification and maturity guidelines, and recommendations to the **Finance and Audit Committee** of the Board of Directors, as appropriate.

   c. Provision of comments to CalOptima's staff regarding potential investments and potential investment strategies.

   d. Performance of such additional duties and responsibilities pertaining to CalOptima's investment program as may be required from time to time by specific action and direction of the Board of Directors.

D. Permitted Investments

1. CalOptima shall invest only in ~~instruments~~**Instruments** as permitted by the Code, subject to the limitations of this Policy.

   a. Permitted investments under the **Operating Funds**, unless otherwise specified, are subject to a maximum stated term of two (2) years. Note that the Code allows for up to five (5) years.

   b. Permitted investments under the **Board-Designated Reserve Funds**, unless otherwise specified, are subject to a maximum stated term of five (5) years. Note that the Code allows for up to five (5) years.

   c. Private placement (144a) securities are prohibited.

   d. The Board of Directors must grant express written authority to make an investment, or to establish an investment program, of a longer term.

2. Permitted investments shall include:

   a. U.S. Treasuries

FOR 20191205BOD REVIEW

i. These investments are direct obligations of the United States of America and securities which are fully and unconditionally guaranteed as to the timely payment of principal and interest by the full faith and credit of the United States of America.

ii. U.S. Government securities include:

a) Treasury Bills: U.S. Government securities issued and traded at a discount;

b) Treasury Notes and **Bonds**: Interest bearing debt obligations of the U.S. Government which guarantees interest and principal payments;

c) Treasury Separate Trading of Registered Interest and Principal Securities (STRIPS): U.S. Treasury securities that have been separated into their component parts of principal and interest payments and recorded as such in the Federal Reserve book-entry record-keeping system;

d) Treasury Inflation Protected (TIPs) securities: Special U.S. Treasury notes, or ~~bonds~~**Bonds**, that offer protection from ~~inflation~~**Inflation**. Coupon payments and underlying principal are automatically increased to compensate for ~~inflation~~**Inflation**, as measured by the ~~consumer price index~~**Consumer Price Index (CPI)**; and

e) Treasury Floating Rate Notes (FRNs): U.S. Treasury ~~bonds~~Bonds issued with a variable coupon.

iii. U.S. Treasury coupon and principal STRIPS, as well as TIPs, are not considered to be derivatives for the purposes of this Policy and are, therefore, permitted investments pursuant to this Policy.

iv. Maximum Term: ~~———~~

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

b. Federal Agencies and U.S. Government Sponsored Enterprises

i. These investments represent obligations, participations, or other ~~instruments~~**Instruments** of, or issued by, a federal agency or a U.S. government sponsored enterprise, including those issued by, or fully guaranteed as to principal and interest by, the issuers.

FOR 20191205BOD REVIEW

ii. These are U.S. Government related organizations, the largest of which are government financial intermediaries assisting specific credit markets (e.g., housing, agriculture). Often simply referred to as "Agencies," the following are specifically allowed:

a) Federal Home Loan Banks (FHLB);

b) Federal Home Loan Mortgage Corporation (FHLMC);

c) Federal National Mortgage Association (FNMA);

d) Federal Farm Credit Banks (FFCB);

e) Government National Mortgage Association (GNMA);

f) Small Business Administration (SBA);

g) Export-Import Bank of the United States;

h) U.S. Maritime Administration;

i) Washington Metro Area Transit Authority (WMATA);

j) U.S. Department of Housing & Urban Development;

k) Tennessee Valley Authority;

l) Federal Agricultural Mortgage Company (FAMC);

m) Federal Deposit Insurance Corporation (FDIC)-backed Structured Sale Guaranteed Notes (SSGNs); and

n) National Credit Union Administration (NCUA) securities.

iii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

iv. Any Federal Agency and U.S. Government Sponsored Enterprise security not specifically mentioned above is not a permitted investment.

c. **State and California Local Agency Obligations**

FOR 2019 205BOD REVIEW

i. Such obligations must be issued by an entity whose general obligation debt is rated P-1 by Moody's, or A-1 by Standard & Poor's, or equivalent or better for short-term obligations, or an "A~~ by Moody's,~~" rating or ~~A by Standard & Poor's,~~its equivalent or better~~,~~ by a Nationally Recognized Statistical Rating Organization (NRSRO) for long-term ~~debt~~obligations. Public agency ~~bonds~~**Bonds** issued for private purposes (e.g., industrial development ~~bonds~~**Bonds**) are specifically excluded as permitted investments.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

d. Banker's Acceptances

i. Time drafts which a bank "accepts" as its financial responsibility as part of a trade finance process. These short-term notes are sold at a discount, and are obligations of the drawer (i.e., the bank's trade finance client) as well as the bank. Once accepted, the bank is irrevocably obligated to pay the banker's acceptance (BA) upon maturity, if the drawer does not. Eligible banker's acceptances:

a) Are eligible for purchase by the Federal Reserve System, and are drawn on and accepted by a bank rated F1, or better, by Fitch Ratings Service, or are rated A-l for short-term deposits by Standard & Poor's, or P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency; and

b) May not exceed the five percent (5%) limit of any one (1) commercial bank and may not exceed the five percent (5%) limit for any security of any bank.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	180 days	180 days
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 180 days 180 days	 180 days 180 days

e. **Commercial Paper (CP~~)~~)**

i. **CP** is negotiable (i.e., marketable or transferable), although it is typically held to maturity. The maximum maturity is two hundred seventy (270) days, with most **CP** issued for terms of less than thirty (30) days. **CP** must meet the following criteria:

FOR 2019 12 5 BOD REVIEW

~~a) Rated P-1 by Moody's,~~**CP** of "prime" quality of the highest ranking or ~~A-1, or better, by Standard & Poor's;~~

~~b)~~a)~~Have an A, or higher,~~of the highest letter and number rating ~~for the issuer's debt, other than CP, if any,~~ as provided for by ~~Moody's, or Standard & Poor's;~~ a nationally recognized statistical rating organization (NRSRO);

b) ~~Issued by corporations~~The entity that issues the **CP** shall meet all of the following conditions in either paragraph (1) or (2):

(1) The entity meets the following criteria:

(A) Is organized and operating ~~within~~in the United States ~~and having~~as a general corporation.

(B) Has total assets in excess of five hundred million dollars ($500,000,000~~) or by corporations~~).

(C) Has debt other than commercial paper, if any, that is rated in a **Rating Category** of "A" or its equivalent or higher by an NRSRO.

(2) The entity meets the following criteria:

(A) Is organized within the ~~U.S.~~United States as a special purpose ~~corporations, trusts, or LLCs, which have~~corporation, trust, or limited liability company.

(B) Has program~~-~~ wide credit enhancements~~,~~ including, but not limited to, overcollateralization, ~~letter~~letters of credit, or a surety bond~~, and have~~.

~~(A)~~(C) Has commercial paper that is rated "A-1" or higher, or the equivalent, by ~~a nationally recognized statistical rating agency; and~~ an NRSRO; and

c) May not represent more than ten percent (10%) of the outstanding **CP** of the issuing corporation.

ii. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	270 days	270 days
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 270 days 270 days	 270 days 270 days

f. **Negotiable Certificates of Deposit**

FOR 2019 1205 BOD REVIEW

i. **Negotiable Certificates of Deposit** must be issued by a Nationally- or state-chartered bank, or state or federal association or by a state licensed branch of a foreign bank, which have been rated F1 or better, by Fitch Ratings Service, or are rated A-l for short-term deposits by Standard & Poor's and P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	1 year	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	1 year 1 year	5 years 5 years

g. **Repurchase Agreements**

i. U.S. Treasury and U.S. Agency **Repurchase Agreements** collateralized by the U.S. Government may be purchased through any registered primary ~~broker-dealer~~**Broker-Dealer** subject to the Securities Investors Protection Act, or any commercial bank insured by the Federal Deposit Insurance Corporation so long as at the time of the investment, such primary dealer (or its parent) has an uninsured, unsecured, and unguaranteed obligation rated P-1 short-term, or A-2 long-term, or better, by Moody's, and A-1 short-term, or A long-term, or better, by Standard & Poor's, and F1 short-term, or A long-term or better by Fitch Ratings Service provided:

a) A ~~broker-dealer~~**Broker-Dealer** master repurchase agreement signed by the **Investment Manager** (acting as "Agent") and approved by CalOptima;

b) The securities are held free and clear of any ~~lien~~**Lien** by CalOptima's custodian or an independent third party acting as agent ("Agent") for the custodian, and such third party is (i) a Federal Reserve Bank, or (ii) a bank which is a member of the Federal Deposit Insurance Corporation and which has combined ~~capital, surplus~~**Capital, Surplus** and undivided profits of not less than fifty million dollars ($50,000,000) and the custodian receives written confirmation from such third party that it holds such securities, free and clear of any ~~lien~~**Lien**, as agent for CalOptima's custodian;

c) A perfected first security interest under the Uniform Commercial Code, or book entry procedures prescribed at Title 31, Code of Federal Regulations, Section 306.1 et seq., and such securities are created for the benefit of CalOptima's custodian and CalOptima; and

d) The Agent will notify CalOptima's custodian and CalOptima if the ~~valuation~~**Valuation** of the ~~collateral securities~~**Collateral Securities** falls outside of policy. Upon direction by the **CalOptima Treasurer**, the Agent will liquidate the ~~collateral securities~~**Collateral Securities** if any deficiency in the required one

FOR 2019120SBOD REVIEW

hundred and two percent (102%) collateral percentage is not restored within one (1) business day of such ~~valuation~~**Valuation**.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	30 days	1 year
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 30 days 30 days	 1 year 1 year

iii. Reverse ~~repurchase agreements~~**Repurchase Agreements** are not allowed.

h. **Corporate Securities**

i. For the purpose of this Policy, permissible ~~corporate securities~~**Corporate Securities** shall ~~have an~~ be rated in a **Rating Category** of "A" ~~rating category~~or its equivalent or better by ~~Moody's, Standard & Poor's, or Fitch Ratings Service~~an NRSRO and:

a) Be issued by corporations organized and operating within the U.S. or by depository institutions licensed by the U.S. or any state and operating within the U.S. and have total assets in excess of five hundred million dollars ($500,000,000), and

b) May not represent more than ten percent (10%) of the issue in the case of a specific public offering. This limitation does not apply to debt that is "continuously offered" in a mode similar to ~~commercial paper~~**CP**, i.e., ~~medium term notes~~**Medium Term Notes** (**MTNs**).

c) Under no circumstance can the **MTNs** or any other corporate security of any one (1) corporate issuer represent more than five percent (5%) of the portfolio.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

i. Money Market Funds

i. Shares of beneficial interest issued by diversified management companies (i.e., money market funds):

a) Which are rated AAA (or equivalent highest ranking) by two (2) of the three (3) largest nationally recognized rating services; and

FOR 20191205BOD REVIEW

b) Such investment may not represent more than ten percent (10%) of the money market fund's assets.

j. **Joint Powers Authority Pool**

i. A joint powers authority formed pursuant to California Government Code, Section 6509.7 may issue shares of beneficial interest to participating public agencies. The joint powers authority issuing the shares shall have retained an **Investment Advisor** that meets all of the following criteria:

a) Registered or exempt from registration with the Securities and Exchange Commission;

b) No less than five (5) years of experience investing in the securities and obligations authorized in the Code; and

c) Assets under management in excess of five hundred million dollars ($500,000,000).

ii. ~~A joint powers authority pool~~A **Joint Powers Authority Pool** shall be rated AAA (or equivalent highest ranking) by two (2) of the three (3) largest nationally recognized rating services.

iii. Such investment may not represent more than ten percent (10%) of the ~~joint powers authority pool's~~**Joint Powers Authority Pool's** assets.

iv. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	Not Applicable	Not Applicable
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 Not Applicable Not Applicable	 Not Applicable Not Applicable

k. Mortgage or Asset-backed Securities

i. Pass-through securities are ~~instruments~~**Instruments** by which the cash flow from the mortgages, receivables, or other assets underlying the security, is passed-through as principal and interest payments to the investor.

ii. Though these securities may contain a third-party guarantee, they are a package of assets being sold by a trust, not a debt obligation of the sponsor. Other types of "backed" debt ~~instruments~~**Instruments** have assets (e.g., leases or consumer receivables) pledged to support the debt service.

FOR 2019 1205 BOD REVIEW

iii. Any mortgage pass-through security, collateralized mortgage obligations, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable pass-through certificate, or consumer receivable-backed bond which:

a) Are rated AA~~- by a nationally recognized rating service; and~~ or better- or equivalent.

~~b) Are issued by an issuer having an "A" (Code), or better, rating by a nationally recognized rating service for its long-term debt.~~

iv. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds		
▪ Tier One (1)	5 years stated final maturity	5 years
▪ Tier Two (2)	5 years stated final maturity	5 years

l. Variable and Floating Rate Securities

i. Variable and floating rate securities are appropriate investments when used to enhance yield and reduce ~~risk~~**Risk**.

a) They should have the same stability, ~~liquidity~~**Liquidity**, and quality as traditional money market securities.

b) A variable rate security provides for the automatic establishment of a new interest rate on pre-determined reset dates.

c) For the purposes of this Policy, a variable rate security and floating rate security shall be deemed to have a maturity equal to the period remaining to that pre-determined interest rate reset date, so long as no investment shall be made in a security that at the time of the investment has a term remaining to a stated final maturity in excess of five (5) years.

ii. Variable and floating rate securities, which are restricted to investments in permitted Federal Agencies and U.S. Government Sponsored Enterprises securities, **Corporate Securities**, Mortgage or Asset-backed Securities, **Negotiable Certificates of Deposit**, and Municipal **Bonds** (**State and California Local Agency Obligations**) must utilize a single, market-determined short-term index rate, such as U. S. Treasury bills, federal funds, CP, London Interbank Offered Rate (LIBOR), the Secured Overnight Financing Rate (SOFR), or Securities Industry and Financial Markets Association (SIFMA) that is pre-determined at the time of issuance of the security.

FOR 2019/12/05BOD REVIEW

a) Permitted variable and floating rate securities that have an embedded unconditional put option must have a stated final maturity of the security no greater than five (5) years from the date of purchase.

b) Investments in floating rate securities whose reset is calculated using more than one (1) of the above indices are not permitted, i.e., dual index notes.

c) Ratings for variable and floating rate securities shall be limited to the same minimum ratings as applied to the appropriate asset security class outlined elsewhere in this Policy.

iii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	5 years 5 years	5 years 5 years

m. Supranational Obligations

i. The three (3) ~~supranational institutions~~**Supranational Institutions** that issue, or unconditionally guarantee, obligations that are eligible investments are:

a) International Bank for Reconstruction and Development (IBRD);

b) International Finance Corporation (IFC); and

c) Inter-American Development Bank (IADB).

ii. Supranational obligations shall be rated in a **Rating Category** of "AA" or its equivalent or better by ~~two (2) of the three (3) largest nationally recognized rating services.~~ a Nationally Statistical Rating Organization (NRSRO).

iii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	5 years 5 years	5 years 5 years

n. Pooled Investments

i. Pooled investments include deposits, or investments pooled with those of other local agencies consistent with the requirements of California Government Code, Section

FOR 20191205BOD REVIEW

53635 et seq. Such pools may contain a variety of investments but are limited to those permissible under the Code.

E. Diversification Guidelines

1. Diversification guidelines ensure the portfolio is not unduly concentrated in the securities of one (1) type, industry, or entity, thereby assuring adequate portfolio ~~liquidity~~**Liquidity** should one (1) sector or company experience difficulties.

2. CalOptima's **Investment Managers** must review the respective portfolios they manage to ensure compliance with CalOptima's diversification guidelines on a continuous basis.

3. *Table 1: Maximum Percentage (%) of **Investment Portfolio**, by **Instrument** Type*

INSTRUMENTS	MAXIMUM % OF PORTFOLIO AT TIME OF PURCHASE
A. U.S. Treasuries (including U.S. Treasury Coupon and principal STRIPS as well as TIPs)	100% (Code)
B. Federal Agencies and U.S. Government Sponsored Enterprises	100% (Code)
C. **State and California Local Agency Obligations**	30% (Code 100%)
D. Bankers Acceptances	30% (Code 40%)
E. Commercial Paper	25% (Code)
F. **Negotiable Certificates of Deposit**	30% (Code)
G. **Repurchase Agreements**	100% (Code)
H. **Corporate Securities**	30% (Code)
I. Money Market Funds	20% (Code)
J. **Joint Powers Authority Pool**	100% (Code)
K. Mortgage or Asset-backed Securities	20% (Code)
L. Variable and Floating Rate Securities	30% (Code)
M. Supranational Obligations	30% (Code)

4. Issuer or Counterparty Diversification Guidelines: The percentages specified below shall be adhered to on the basis of the entire portfolio:

a. Any one Federal Agency or Government Sponsored Enterprise: None

b. Any one repurchase agreement counterparty name:

If maturity/term is $\leqslant$ 7 days: 50%
If maturity/term is > 7 days: 25%

5. Issuer or Counterparty Diversification Guidelines for all other permitted investments described in Section III.D.2.a-n. of this Policy.

FOR 2019/20 BOD REVIEW

a. Any one (1) corporation, bank, local agency, or other corporate name for one (1) or more series of securities, and specifically with respect to special purpose vehicles issuers for mortgage or asset-backed securities, the maximum applies to all such securities backed by the same type of assets of the same issuer.

6. Each **Investment Manager** shall adhere to the diversification limits discussed in this subsection.

a. If ~~one (1)~~an **Investment Manager** exceeds the aforementioned diversification limits, the Investment Manager shall inform **CalOptima's Treasurer** and Investment Advisory consultant (if any) by close of business on the day of the occurrence.

b. Within the parameters authorized by the Code, the **Investment Advisory Committee** recognizes the practicalities of portfolio management, securities maturing and changing status, and market volatility, and, as such, will consider breaches in~~:~~ the context of.

i. The ~~context of the~~ amount in relation to the total portfolio concentration;

ii. Market and security specific conditions contributing to a breach of this Policy; and

iii. The **Investment Managers'** actions to enforce the spirit of this Policy and decisions made in the best interest of the portfolio.

F. Maximum Stated Term

1. Maximum stated terms for permitted investments shall be determined based on the settlement date (not the trade date) upon purchase of the security and the stated final maturity of the security.

G. Rating Downgrades

1. CalOptima may from time to time be invested in a security whose rating is downgraded below the quality criteria permitted by this Policy.

2. If the rating of any security held as an investment falls below the investment guidelines, the **Investment Manager** shall notify **CalOptima's Treasurer**, or **Designee**, within two (2) business days of the downgrade.

a. A decision to retain a downgraded security shall be approved by **CalOptima's Treasurer**, or **Designee**, within five (5) business days of the downgrade.

H. Investment Restrictions

1. Investment securities shall not be lent to an **Investment Manager**, or ~~broker-dealer~~**Broker-Dealer**.

FOR 20191205BOD REVIEW

2. The ~~investment portfolio~~**Investment Portfolio** or ~~investment portfolios~~**Investment Portfolios**, managed by an Investment Manager, shall not be used as collateral to obtain additional investable funds.

3. Any investment not specifically referred to herein shall be considered a prohibited investment.

4. CalOptima reserves the right to prohibit its **Investment Managers** from making investments in organizations which have a line of business that conflicts with the interests of public health, as determined by the Board of Directors.

5. CalOptima reserves the right to prohibit investments in organizations with which it has a business relationship through contracting, purchasing, or other arrangements.

6. Except as expressly permitted by this Policy, investments in derivative securities shall not be allowed.

7. A list of prohibited investments does not currently exist, however, the Board of Directors shall provide ~~its~~**CalOptima's Treasurer**, **Investment Managers**, Investment Advisory consultant, and **Investment** ~~Advisor~~ **Advisory Committee** with a list, should such a list be adopted by CalOptima in the future, of organizations that do not comply with this Policy and shall immediately notify ~~its~~ **CalOptima's Treasurer**, **Investment Managers**, Investment Advisory consultant and **Investment** ~~Advisor~~**Advisory Committee** of any changes.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Banker's Acceptance (BA)	Time drafts which a bank "accepts" as its financial responsibility as part of a trade finance process. These short-term notes are sold at a discount, and are obligations of the drawer (i.e., the bank's trade finance client) as well as the bank. Once accepted, the bank is irrevocably obligated to pay the banker's acceptance (BA) upon maturity, if the drawer does not. Eligible banker's acceptances: • Are eligible for purchase by the Federal Reserve System, and are drawn on and accepted by a bank rated F1, or better, by Fitch Ratings Service, or are rated A-l for short-term deposits by Standard & Poor's, or P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency; ~~and~~ and • May not exceed the five percent (5%) limit of any one (1) commercial bank and may not exceed the five percent (5%) limit for any security of any bank.
Benchmark	Benchmarks are usually constructed using unmanaged indices, exchange-traded Funds or mutual fund categories to represent each asset class. Benchmarks are often used as a tool to assess the allocation, ~~risk~~Risk and return of a portfolio.

FOR 20191205BOD PREVIEW

Term	Definition
Board-Designated Reserve Funds	Funds established to address unexpected agency needs and not intended for use in the normal course of business. The amount of Board-Designated Reserve Funds should be offset by any working ~~capital~~Capital or net current asset deficits. The desired level for these funds is a minimum of 1.4 and maximum of 2.0 months of capitation revenues as specified by CalOptima Policy GA.3001: Board-Designated Reserve Funds. The Board-Designated Reserve Funds shall be managed and invested as follows: 1. Tier One a. Used for the benefit and protection of CalOptima's long-term financial viability; b. Used to cover "Special Purposes" as defined in CalOptima Policy GA.3001: Board-Designated Reserve Funds; ~~or~~ or c. May be used for operational cash flow needs in lieu of a bank line of credit in the event of disruption of monthly capitation revenue receipts from the State, subject to the Board-Designated Reserve Funds having a "floor" equal to Tier Two requirements. 2. Tier Two a. Used to meet CalOptima's regulatory compliance requirements; or b. Currently defined as CalOptima's tangible net equity requirements as defined by Subdivision (e) of Section 1300.76 of Title 28 of the California Code of Regulations.
Bonds	A debt security, under which the issuer owes the holders a debt and, depending on the terms of the bond, is obliged to pay them interest (the coupon) and/or to repay the principal at a later date, termed the maturity date.
Broker-Dealer	In financial services, a ~~broker-dealer~~Broker-Dealer is a natural person, a company or other organization that engages in the business of trading securities for its own account or on behalf of its customers.
CalOptima Treasurer	Appointed by CalOptima's Board of Directors, the treasurer is a person responsible for overseeing CalOptima's investment funds.
Capital	Capital refers to financial assets or the financial value of assets, in the form of money or other assets owned by an organization.
Cash Flow Draws	Amount of cash needs to support CalOptima business operation.
Chief Officers	For the purposes of this policy, may include, but is not limited to, the Chief Executive Officer (CEO), Chief Financial Officer (CFO), and/or Chief Counsel.
Collateral Securities	A security given in addition to the direct security, and subordinate to it, intended to guarantee its validity or convertibility or insure its performance; so that, if the direct security fails, the creditor may fall back upon the collateral security.

FOR 20191205BOD REVIEW

Term	Definition
Commercial Paper (CP)	Unsecured promissory notes issued by companies and government entities at a discount.
Consumer Price Index (CPI)	The Consumer Price Indexes (CPI) program produces monthly data on changes in the prices paid by urban consumers for a representative basket of goods and services.
Corporate Securities	Notes issued by corporations organized and operating within the U.S. or by depository institutions licensed by the U.S. or any state, and operating within the U.S.
Credit Risk	The ~~risk~~Risk of loss due to failure of the issuer of a security.
Custodian Bank	A specialized financial institution responsible for safeguarding a firm's or individual's financial assets and is not engaged in "traditional" commercial or consumer/retail banking such as mortgage or personal lending, branch banking, personal accounts, automated teller machines (ATMs) and so forth.
Custom Peer Group Report	Developed based on a small peer universe with similar investment guidelines. The Purpose of the report is to provide more accurate performance comparison.
Designee	For purposes of this policy, a person who has been designated to act on behalf of the CalOptima Treasurer.
Economic Cycles	The natural fluctuation of the economy between periods of expansion (growth) and contraction (recession).
Finance and Audit Committee (FAC)	A standing committee of the CalOptima Board of Directors with oversight responsibilities for all financial matters of CalOptima including but not limited to: budget development and approval, financial reporting, investment practices and policies, purchasing and procurement practices and policies, insurance issues, and capitation and claims. The Committee serves as the primary level of Board review for any finance-related issues or policies affecting the CalOptima program.
Inflation	Inflation is the rate at which the general level of prices for goods and services is rising and, consequently, the purchasing power of currency is falling.
Instrument	Refers to a financial ~~instrument~~Instrument or asset that can be traded. These assets can be cash, ~~bonds~~Bonds, or shares in a company
Investment ~~Advisors~~Advisor(s)	~~Members of CalOptima Investment Advisory Committee (IAC).~~Registered or non-registered person or group that makes investment recommendations or conducts securities analysis in return for a fee.
Investment Advisory Committee (IAC)	A standing committee of the CalOptima Board of Directors who provide advice and recommendations regarding ~~the organization's investments.~~CalOptima's Investment Policies, Procedures and Practices..
Investment ~~Managers~~Manager(s)	A person or organization that makes investments in portfolios of securities on behalf of clients, in accordance with the investment objectives and parameters defined by these clients.
Investment Portfolio	A grouping of financial assets such as stocks, ~~bonds~~Bonds and cash equivalents, as well as their funds counterparts, including mutual, exchange-traded and closed funds. Portfolios are held directly by investors and/or managed by financial professionals.

FOR 2019 12 05 BOD REVIEW

Term	Definition
Joint Powers Authority Pool	Shares of beneficial interest issued by a joint powers authority organized pursuant to California Government Code, Section 6509.7; each share represents an equal proportional interest in the ~~underlying pool~~Underlying Pool of ~~securities~~Securities owned by the joint powers authority.
Lien	A legal right granted by the owner of property, by a law or otherwise acquired by a creditor
Liquidity	Liquidity describes the degree to which an asset or security can be quickly bought or sold in the market without affecting the asset's price.
Market Indices	Measurements of the value of a section of the stock market. It is computed from the prices of selected stocks (typically a weighted average).
Market Risk	The ~~risk~~Risk of market value fluctuations due to overall changes in the general level of interest rates.
Maturity Dates	The date on which the principal amount of a note, draft, acceptance bond or another debt ~~instrument~~Instrument becomes due and is repaid to the investor and interest payments stop. It is also the termination or due date on which an installment loan must be paid in full.
Medium Term Notes (MTN)	A debt note that usually matures (is paid back) in five (5) – ten (10) years, but the term may be less than one (1) year or as long as one hundred (100) years. They can be issued on a fixed or floating coupon basis.
Nationally Recognized Statistical Ratings Organization (NRSRO)	A credit rating agency that the Securities and Exchange Commission in the United States registers and uses for regulatory purposes. Current NRSROs listed at www.sec.gov/ocr/ocr-current-nrsros.html.
Negotiable Certificates of Deposit	A negotiable (i.e., marketable or transferable) receipt for a time deposit at a bank or other financial institution, for a fixed time and interest rate.
Operating Funds	Funds intended to serve as a money market account for CalOptima to meet daily operating requirements. Deposits to this fund are comprised of State warrants that represent CalOptima's monthly capitation revenues from its State contracts. Disbursements from this fund to CalOptima's operating cash accounts are intended to meet operating expenses, payments to providers and other payments required in day-to-day operations.
Prudent Person Standard	When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the ~~liquidity~~Liquidity needs of the agency (California Government Code, Section 53600.3)
Rate of Return	The gain or loss on an investment over a specified time period, expressed as a percentage of the investment's cost. Gains on investments are defined as income received plus any ~~capital~~Capital gains realized on the sale of the investment.
Rating Category	With respect to any long-term category, all ratings designated by a particular letter or combination of letters, without regard to any numerical modifier, plus or minus sign or other modifier.

FOR 2019 1205 BOD REVIEW

Term	Definition
Repurchase Agreements	A purchase of securities under a simultaneous agreement to sell these securities back at a fixed price on some future date.
Risk	Investment ~~risk~~Risk can be defined as the probability or likelihood of occurrence of losses relative to the expected return on any particular investment. Description: Stating simply, it is a measure of the level of uncertainty of achieving the returns as per the expectations of the investor.
State and California Local Agency Obligations	Registered warrants, notes or ~~bonds~~Bonds of any of the fifty (50) U.S. states, including ~~bonds~~Bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the fifty (50) U.S. states. Additionally, ~~bonds~~Bonds, notes, warrants, or other evidences of indebtedness of any local agency within the State of California, including ~~bonds~~Bonds payable solely out of revenues from a revenue producing property owned, controlled, or operated by the state or local agency, or by a department, board, agency or authority of the State or local agency.
Supranational Institutions	International institutions formed by two (2) or more governments that transcend boundaries to pursue mutually beneficial economic or social goals.
Surplus	Assets beyond liabilities.
Underlying Pool of Securities	Those securities and obligations that are eligible for direct investment by local public agencies.
Valuation	An estimation of the worth of a financial ~~instrument~~Instrument or asset. CalOptima's asset managers provide CalOptima with reporting that shows the ~~valuation~~Valuation of each financial ~~instrument~~Instrument that they own on behalf of CalOptima. Each asset manager uses a variety of market sources to determine individual ~~valuations~~Valuations.

FOR 20191205BODREVIEW

Policy:	GA.3400
Title:	**Annual Investments**
Department:	CalOptima Administrative
Section:	Finance
CEO Approval:	Michael Schrader _____
Effective Date:	01/01/2018
Revised Date:	TBD

FOR 20191205BOD REVIEW

I. PURPOSE

This policy sets forth the investment guidelines for all **Operating Funds** and **Board-Designated Reserve Funds** of CalOptima invested on or after January 10, 2006 to ensure CalOptima's funds are prudently invested according to the Board of Directors' objectives and the California Government Code to preserve **Capital**, provide necessary **Liquidity**, and achieve a market-average **Rate of Return** through **Economic Cycles**. Each annual review takes effect upon its adoption by the Board of Directors.

II. POLICY

A. CalOptima investments may only be made as authorized by this Policy.

1. This Policy shall conform to California Government Code, Section 53600 et seq. (hereinafter, the Code) as well as customary standards of prudent investment management. Should the provisions of the Code be, or become, more restrictive than those contained herein, such provisions shall be considered immediately incorporated into this Policy and adhered to.

2. Safety of Principal: Safety of Principal is the primary objective of CalOptima and, as such, each investment transaction shall seek to ensure that large **Capital** losses are avoided from securities or **Broker-Dealer** default.

   a. CalOptima shall seek to ensure that **Capital** losses are minimized from the erosion of market value and preserve principal by mitigating the two (2) types of **Risk**: **Credit Risk** and **Market Risk**.

      i. **Credit Risk** shall be mitigated by investing in only permitted investments and by diversifying the **Investment Portfolio**, in accordance with this Policy.

      ii. **Market Risk** shall be mitigated by matching **Maturity Dates**, to the extent possible, with CalOptima's expected cash flow needs and other factors.

   b. It is explicitly recognized herein, however, that in a diversified portfolio, occasional losses are inevitable and must be considered within the context of the overall investment return.

3. **Liquidity**: **Liquidity** is the second most important objective of CalOptima. It is important that each portfolio contain investments for which there is a secondary market and which offer the flexibility to be easily sold at any time with minimal **Risk** of loss of either the principal or interest based upon then prevailing rates.

***** Terms in **bold** are included in the Glossary.

Back to Agenda

4. Total Return: CalOptima's **Investment Portfolios** shall be designed to attain a market-average **Rate of Return** through **Economic Cycles** given an acceptable level of **Risk**, established by the Board of Directors' and the **CalOptima Treasurer's** objectives.

    a. The performance **Benchmark** for each **Investment Portfolio** shall be based upon published **Market Indices** as primary **Benchmark**, and Custom Peer Group Reports, as necessary, for short-term investments of comparable **Risk** and duration.

        i. These performance **Benchmark**s shall be reviewed monthly by CalOptima staff, and quarterly by CalOptima's Treasurer and the **Investment Advisory Committee** members and shall be reported to the Board of Directors.

B. The investments purchased by an **Investment Manager** shall be held by the **Custodian Bank** acting as the agent of CalOptima under the terms of a custody agreement in compliance with California Government Code, Section 53608.

C. **Investment Managers** must certify that they will purchase securities from **Broker-Dealer**s (other than themselves) or financial institutions in compliance with California Government Code, Section 53601.5 and this Policy.

D. The Board of Directors, or persons authorized to make investment decisions on behalf of CalOptima (e.g., **Chief Officers**), are trustees and fiduciaries subject to the **Prudent Person Standard**, as defined in the Code, which shall be applied in the context of managing an overall portfolio.

E. CalOptima's Officers, employees, Board members, and **Investment Advisory Committee** members involved in the investment process shall refrain from personal and professional business activities that could conflict with the proper execution of the investment program, or which could impair their ability to fulfill their roles in the investment process.

    1. CalOptima's Officers and employees involved in the investment process are not permitted to have any material financial interests in financial institutions, including state or federal credit unions, that conduct business with CalOptima, and are not permitted to have any personal financial, or investment holdings, that could be materially related to the performance of CalOptima's investments.

F. On an annual basis, **CalOptima's Treasurer** shall provide the Board of Directors with this Policy for review and adoption by the Board, to ensure that all investments made are following this Policy.

    1. This Policy shall be reviewed annually by the Board of Directors at a public meeting pursuant to California Government Code, Section 53646, Subdivision (a).

    2. This policy may only be changed by the Board of Directors.

III. PROCEDURE

A. Delegation of Authority

    1. Authority to manage CalOptima's investment program is derived from an order of the Board of Directors.

        a. Management responsibility for the investment program shall be delegated to **CalOptima's Treasurer**, as appointed by the Board of Directors, for a one (1)-year period following the approval of this Policy.

FOR 20191205BOD REVIEW

i. The Board of Directors may renew the delegation of authority annually.

b. No person may engage in investment transactions except as provided under the terms of this Policy and the procedures established by **CalOptima's Treasurer**.

B. **CalOptima Treasurer** Responsibilities

1. The **Treasurer** shall be responsible for:

a. All actions undertaken and shall establish a system of controls to regulate the activities of subordinate officials and Board-approved **Investment Managers**;

b. The oversight of CalOptima's **Investment Portfolio**;

c. Directing CalOptima's investment program and for compliance with this Policy pursuant to the delegation of authority to invest funds or to sell or exchange securities; and

d. Providing a quarterly report to the Board of Directors in accordance with California Government Code, Section 53646, Subdivision (b).

2. The **Treasurer** shall also be responsible for ensuring that:

a. The **Operating Funds** and **Board-Designated Reserve Funds** targeted average maturities are established and reviewed monthly.

b. All **Investment Managers** are provided a copy of this Policy, which shall be appended to an **Investment Manager's** investment contract.

i. Any investments made by an **Investment Manager** outside this Policy may subject the **Investment Manager** to termination for cause or other appropriate remedies or sanctions, as determined by the Board of Directors.

c. Investment diversification and portfolio performance is reviewed monthly to ensure that **Risk** levels and returns are reasonable and that investments are diversified in accordance with this Policy.

d. All **Investment Managers** are selected and evaluated for review by the Chief Executive Officer and the Board of Directors.

C. **Investment Advisory Committee**

1. The **Investment Advisory Committee** shall not make, or direct, CalOptima staff to make any particular investment, purchase any particular investment product, or conduct business with any particular investment companies, or brokers.

a. It shall not be the purpose of the **Investment Advisory Committee** to advise on particular investment decisions of CalOptima.

2. The **Investment Advisory Committee** shall be responsible for the following functions:

FOR 20191205BOD REVIEW

a. Annual review of this Policy before its consideration by the Board of Directors and revision recommendations, as necessary, to the **Finance and Audit Committee** of the Board of Directors.

b. Quarterly review of CalOptima's **Investment Portfolio** for conformance with this Policy's diversification and maturity guidelines, and recommendations to the **Finance and Audit Committee** of the Board of Directors, as appropriate.

c. Provision of comments to CalOptima's staff regarding potential investments and potential investment strategies.

d. Performance of such additional duties and responsibilities pertaining to CalOptima's investment program as may be required from time to time by specific action and direction of the Board of Directors.

D. Permitted Investments

1. CalOptima shall invest only in **Instrument**s as permitted by the Code, subject to the limitations of this Policy.

a. Permitted investments under the **Operating Funds**, unless otherwise specified, are subject to a maximum stated term of two (2) years. Note that the Code allows for up to five (5) years.

b. Permitted investments under the **Board-Designated Reserve Funds**, unless otherwise specified, are subject to a maximum stated term of five (5) years. Note that the Code allows for up to five (5) years.

c. Private placement (144a) securities are prohibited.

d. The Board of Directors must grant express written authority to make an investment, or to establish an investment program, of a longer term.

2. Permitted investments shall include:

a. U.S. Treasuries

i. These investments are direct obligations of the United States of America and securities which are fully and unconditionally guaranteed as to the timely payment of principal and interest by the full faith and credit of the United States of America.

ii. U.S. Government securities include:

a) Treasury Bills: U.S. Government securities issued and traded at a discount;

b) Treasury Notes and **Bonds**: Interest bearing debt obligations of the U.S. Government which guarantees interest and principal payments;

c) Treasury Separate Trading of Registered Interest and Principal Securities (STRIPS): U.S. Treasury securities that have been separated into their component parts of principal and interest payments and recorded as such in the Federal Reserve book-entry record-keeping system;

FOR 20191205BOD REVIEW

d) Treasury Inflation Protected (TIPs) securities: Special U.S. Treasury notes, or **Bonds**, that offer protection from **Inflation**. Coupon payments and underlying principal are automatically increased to compensate for **Inflation**, as measured by the **Consumer Price Index (CPI)**; and

e) Treasury Floating Rate Notes (FRNs): U.S. Treasury Bonds issued with a variable coupon.

iii. U.S. Treasury coupon and principal STRIPS, as well as TIPs, are not considered to be derivatives for the purposes of this Policy and are, therefore, permitted investments pursuant to this Policy.

iv. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

b. Federal Agencies and U.S. Government Sponsored Enterprises

i. These investments represent obligations, participations, or other **Instruments** of, or issued by, a federal agency or a U.S. government sponsored enterprise, including those issued by, or fully guaranteed as to principal and interest by, the issuers.

ii. These are U.S. Government related organizations, the largest of which are government financial intermediaries assisting specific credit markets (e.g., housing, agriculture). Often simply referred to as "Agencies," the following are specifically allowed:

a) Federal Home Loan Banks (FHLB);

b) Federal Home Loan Mortgage Corporation (FHLMC);

c) Federal National Mortgage Association (FNMA);

d) Federal Farm Credit Banks (FFCB);

e) Government National Mortgage Association (GNMA);

f) Small Business Administration (SBA);

g) Export-Import Bank of the United States;

h) U.S. Maritime Administration;

i) Washington Metro Area Transit Authority (WMATA);

j) U.S. Department of Housing & Urban Development;

k) Tennessee Valley Authority;

FOR 20191205BOD REVIEW

l) Federal Agricultural Mortgage Company (FAMC);

m) Federal Deposit Insurance Corporation (FDIC)-backed Structured Sale Guaranteed Notes (SSGNs); and

n) National Credit Union Administration (NCUA) securities.

iii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	5 years 5 years	5 years 5 years

iv. Any Federal Agency and U.S. Government Sponsored Enterprise security not specifically mentioned above is not a permitted investment.

c. **State and California Local Agency Obligations**

i. Such obligations must be issued by an entity whose general obligation debt is rated P-1 by Moody's, or A-1 by Standard & Poor's, or equivalent or better for short-term obligations, or an "A-" rating or its equivalent or better by a Nationally Recognized Statistical Rating Organization (NRSRO) for long-term obligations. Public agency **Bonds** issued for private purposes (e.g., industrial development **Bonds**) are specifically excluded as permitted investments.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	5 years 5 years	5 years 5 years

d. Banker's Acceptances

i. Time drafts which a bank "accepts" as its financial responsibility as part of a trade finance process. These short-term notes are sold at a discount, and are obligations of the drawer (i.e., the bank's trade finance client) as well as the bank. Once accepted, the bank is irrevocably obligated to pay the banker's acceptance (BA) upon maturity, if the drawer does not. Eligible banker's acceptances:

a) Are eligible for purchase by the Federal Reserve System, and are drawn on and accepted by a bank rated F1, or better, by Fitch Ratings Service, or are rated A-l for short-term deposits by Standard & Poor's, or P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency; and

b) May not exceed the five percent (5%) limit of any one (1) commercial bank and may not exceed the five percent (5%) limit for any security of any bank.

FOR 2019 1205BOD REVIEW

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	180 days	180 days
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	180 days 180 days	180 days 180 days

e. **Commercial Paper (CP)**

i. **CP** is negotiable (i.e., marketable or transferable), although it is typically held to maturity. The maximum maturity is two hundred seventy (270) days, with most **CP** issued for terms of less than thirty (30) days. **CP** must meet the following criteria:

a) **CP** of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical rating organization (NRSRO);

b) The entity that issues the **CP** shall meet all of the following conditions in either paragraph (1) or (2):

(1) The entity meets the following criteria:

(A) Is organized and operating in the United States as a general corporation.

(B) Has total assets in excess of five hundred million dollars ($500,000,000).

(C) Has debt other than commercial paper, if any, that is rated in a **Rating Category** of "A" or its equivalent or higher by an NRSRO.

(2) The entity meets the following criteria:

(A) Is organized within the United States as a special purpose corporation, trust, or limited liability company.

(B) Has program wide credit enhancements including, but not limited to, overcollateralization, letters of credit, or a surety bond.

(C) Has commercial paper that is rated "A-1" or higher, or the equivalent, by an NRSRO; and

c) May not represent more than ten percent (10%) of the outstanding **CP** of the issuing corporation.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	270 days	270 days

FOR 2019 1205BOD REVIEW

Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 270 days 270 days	 270 days 270 days

f. **Negotiable Certificates of Deposit**

i. **Negotiable Certificates of Deposit** must be issued by a Nationally- or state-chartered bank, or state or federal association or by a state licensed branch of a foreign bank, which have been rated F1 or better, by Fitch Ratings Service, or are rated A-1 for short-term deposits by Standard & Poor's and P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	1 year	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 1 year 1 year	 5 years 5 years

g. **Repurchase Agreements**

i. U.S. Treasury and U.S. Agency **Repurchase Agreements** collateralized by the U.S. Government may be purchased through any registered primary **Broker-Dealer** subject to the Securities Investors Protection Act, or any commercial bank insured by the Federal Deposit Insurance Corporation so long as at the time of the investment, such primary dealer (or its parent) has an uninsured, unsecured, and unguaranteed obligation rated P-1 short-term, or A-2 long-term, or better, by Moody's, and A-1 short-term, or A long-term, or better, by Standard & Poor's, and F1 short-term, or A long-term or better by Fitch Ratings Service provided:

a) A **Broker-Dealer** master repurchase agreement signed by the **Investment Manager** (acting as “Agent”) and approved by CalOptima;

b) The securities are held free and clear of any **Lien** by CalOptima's custodian or an independent third party acting as agent ("Agent") for the custodian, and such third party is (i) a Federal Reserve Bank, or (ii) a bank which is a member of the Federal Deposit Insurance Corporation and which has combined **Capital**, **Surplus** and undivided profits of not less than fifty million dollars ($50,000,000) and the custodian receives written confirmation from such third party that it holds such securities, free and clear of any **Lien**, as agent for CalOptima's custodian;

c) A perfected first security interest under the Uniform Commercial Code, or book entry procedures prescribed at Title 31, Code of Federal Regulations, Section 306.1 et seq., and such securities are created for the benefit of CalOptima's custodian and CalOptima; and

d) The Agent will notify CalOptima's custodian and CalOptima if the **Valuation** of the **Collateral Securities** falls outside of policy. Upon direction by the **CalOptima Treasurer**, the Agent will liquidate the **Collateral Securities** if any deficiency in

FOR 20191205BOD REVIEW

the required one hundred and two percent (102%) collateral percentage is not restored within one (1) business day of such **Valuation**.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	30 days	1 year
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 30 days 30 days	 1 year 1 year

iii. Reverse **Repurchase Agreements** are not allowed.

h. **Corporate Securities**

i. For the purpose of this Policy, permissible **Corporate Securities** shall be rated in a **Rating Category** of "A" or its equivalent or better by an NRSRO and:

a) Be issued by corporations organized and operating within the U.S. or by depository institutions licensed by the U.S. or any state and operating within the U.S. and have total assets in excess of five hundred million dollars ($500,000,000), and

b) May not represent more than ten percent (10%) of the issue in the case of a specific public offering. This limitation does not apply to debt that is "continuously offered" in a mode similar to **CP**, i.e., **Medium Term Notes** (**MTNs**).

c) Under no circumstance can the **MTNs** or any other corporate security of any one (1) corporate issuer represent more than five percent (5%) of the portfolio.

ii. Maximum Term:

Fund Type	Term Assigned	Term Allowed by the Code
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

i. Money Market Funds

i. Shares of beneficial interest issued by diversified management companies (i.e., money market funds):

a) Which are rated AAA (or equivalent highest ranking) by two (2) of the three (3) largest nationally recognized rating services; and

b) Such investment may not represent more than ten percent (10%) of the money market fund's assets.

j. **Joint Powers Authority Pool**

FOR 2019 1205BOD REVIEW

i. A joint powers authority formed pursuant to California Government Code, Section 6509.7 may issue shares of beneficial interest to participating public agencies. The joint powers authority issuing the shares shall have retained an **Investment Advisor** that meets all of the following criteria:

a) Registered or exempt from registration with the Securities and Exchange Commission;

b) No less than five (5) years of experience investing in the securities and obligations authorized in the Code; and

c) Assets under management in excess of five hundred million dollars ($500,000,000).

ii. A **Joint Powers Authority Pool** shall be rated AAA (or equivalent highest ranking) by two (2) of the three (3) largest nationally recognized rating services.

iii. Such investment may not represent more than ten percent (10%) of the **Joint Powers Authority Pool's** assets.

iv. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	Not Applicable	Not Applicable
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 Not Applicable Not Applicable	 Not Applicable Not Applicable

k. Mortgage or Asset-backed Securities

i. Pass-through securities are **Instruments** by which the cash flow from the mortgages, receivables, or other assets underlying the security, is passed-through as principal and interest payments to the investor.

ii. Though these securities may contain a third-party guarantee, they are a package of assets being sold by a trust, not a debt obligation of the sponsor. Other types of "backed" debt **Instruments** have assets (e.g., leases or consumer receivables) pledged to support the debt service.

iii. Any mortgage pass-through security, collateralized mortgage obligations, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable pass-through certificate, or consumer receivable-backed bond which:

a) Are rated AA or better- or equivalent.

iv. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1)	 5 years stated final maturity	 5 years

FOR 20191205BOD REVIEW

▪ Tier Two (2)	5 years stated final maturity	5 years

l. Variable and Floating Rate Securities

i. Variable and floating rate securities are appropriate investments when used to enhance yield and reduce **Risk**.

a) They should have the same stability, **Liquidity**, and quality as traditional money market securities.

b) A variable rate security provides for the automatic establishment of a new interest rate on pre-determined reset dates.

c) For the purposes of this Policy, a variable rate security and floating rate security shall be deemed to have a maturity equal to the period remaining to that pre-determined interest rate reset date, so long as no investment shall be made in a security that at the time of the investment has a term remaining to a stated final maturity in excess of five (5) years.

ii. Variable and floating rate securities, which are restricted to investments in permitted Federal Agencies and U.S. Government Sponsored Enterprises securities, **Corporate Securities**, Mortgage or Asset-backed Securities, **Negotiable Certificates of Deposit**, and Municipal **Bonds** (**State and California Local Agency Obligations**) must utilize a single, market-determined short-term index rate, such as U. S. Treasury bills, federal funds, CP, London Interbank Offered Rate (LIBOR), the Secured Overnight Financing Rate (SOFR), or Securities Industry and Financial Markets Association (SIFMA) that is pre-determined at the time of issuance of the security.

a) Permitted variable and floating rate securities that have an embedded unconditional put option must have a stated final maturity of the security no greater than five (5) years from the date of purchase.

b) Investments in floating rate securities whose reset is calculated using more than one (1) of the above indices are not permitted, i.e., dual index notes.

c) Ratings for variable and floating rate securities shall be limited to the same minimum ratings as applied to the appropriate asset security class outlined elsewhere in this Policy.

iii. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	2 years	5 years
Board-Designated Reserve Funds	5 years	5 years
▪ Tier One (1)	5 years	5 years
▪ Tier Two (2)		

m. Supranational Obligations

FOR 20191205BOD REVIEW

i. The three (3) **Supranational Institutions** that issue, or unconditionally guarantee, obligations that are eligible investments are:

a) International Bank for Reconstruction and Development (IBRD);

b) International Finance Corporation (IFC); and

c) Inter-American Development Bank (IADB).

ii. Supranational obligations shall be rated in a **Rating Category** of "AA" or its equivalent or better by a Nationally Statistical Rating Organization (NRSRO).

iii. Maximum Term:

Fund Type	**Term Assigned**	**Term Allowed by the Code**
Operating Funds	2 years	5 years
Board-Designated Reserve Funds ▪ Tier One (1) ▪ Tier Two (2)	 5 years 5 years	 5 years 5 years

n. Pooled Investments

i. Pooled investments include deposits, or investments pooled with those of other local agencies consistent with the requirements of California Government Code, Section 53635 et seq. Such pools may contain a variety of investments but are limited to those permissible under the Code.

E. Diversification Guidelines

1. Diversification guidelines ensure the portfolio is not unduly concentrated in the securities of one (1) type, industry, or entity, thereby assuring adequate portfolio **Liquidity** should one (1) sector or company experience difficulties.

2. CalOptima's **Investment Managers** must review the respective portfolios they manage to ensure compliance with CalOptima's diversification guidelines on a continuous basis.

3. *Table 1: Maximum Percentage (%) of **Investment Portfolio**, by **Instrument** Type*

INSTRUMENTS	MAXIMUM % OF PORTFOLIO AT TIME OF PURCHASE
A. U.S. Treasuries (including U.S. Treasury Coupon and principal STRIPS as well as TIPs)	100% (Code)
B. Federal Agencies and U.S. Government Sponsored Enterprises	100% (Code)
C. **State and California Local Agency Obligations**	30% (Code 100%)
D. Bankers Acceptances	30% (Code 40%)
E. Commercial Paper	25% (Code)
F. **Negotiable Certificates of Deposit**	30% (Code)
G. **Repurchase Agreements**	100% (Code)
H. **Corporate Securities**	30% (Code)

FOR 20191205BOD REVIEW

INSTRUMENTS	MAXIMUM % OF PORTFOLIO AT TIME OF PURCHASE
I. Money Market Funds	20% (Code)
J. **Joint Powers Authority Pool**	100% (Code)
K. Mortgage or Asset-backed Securities	20% (Code)
L. Variable and Floating Rate Securities	30% (Code)
M. Supranational Obligations	30% (Code)

4. Issuer or Counterparty Diversification Guidelines: The percentages specified below shall be adhered to on the basis of the entire portfolio:

   a. Any one Federal Agency or Government Sponsored Enterprise: None

   b. Any one repurchase agreement counterparty name:

      If maturity/term is ⩽ 7 days: 50%
      If maturity/term is > 7 days: 25%

5. Issuer or Counterparty Diversification Guidelines for all other permitted investments described in Section III.D.2.a-n. of this Policy.

   a. Any one (1) corporation, bank, local agency, or other corporate name for one (1) or more series of securities, and specifically with respect to special purpose vehicles issuers for mortgage or asset-backed securities, the maximum applies to all such securities backed by the same type of assets of the same issuer.

6. Each **Investment Manager** shall adhere to the diversification limits discussed in this subsection.

   a. If an **Investment Manager** exceeds the aforementioned diversification limits, the Investment Manager shall inform **CalOptima's Treasurer** and Investment Advisory consultant (if any) by close of business on the day of the occurrence.

   b. Within the parameters authorized by the Code, the **Investment Advisory Committee** recognizes the practicalities of portfolio management, securities maturing and changing status, and market volatility, and, as such, will consider breaches in the context of.

      i. The amount in relation to the total portfolio concentration;

      ii. Market and security specific conditions contributing to a breach of this Policy; and

      iii. The **Investment Managers'** actions to enforce the spirit of this Policy and decisions made in the best interest of the portfolio.

F. Maximum Stated Term

1. Maximum stated terms for permitted investments shall be determined based on the settlement date (not the trade date) upon purchase of the security and the stated final maturity of the security.

G. Rating Downgrades

FOR 20191205BOD REVIEW

1. CalOptima may from time to time be invested in a security whose rating is downgraded below the quality criteria permitted by this Policy.

2. If the rating of any security held as an investment falls below the investment guidelines, the **Investment Manager** shall notify **CalOptima's Treasurer**, or **Designee**, within two (2) business days of the downgrade.

    a. A decision to retain a downgraded security shall be approved by **CalOptima's Treasurer**, or **Designee**, within five (5) business days of the downgrade.

H. Investment Restrictions

1. Investment securities shall not be lent to an **Investment Manager**, or **Broker-Dealer**.

2. The **Investment Portfolio** or **Investment Portfolios**, managed by an Investment Manager, shall not be used as collateral to obtain additional investable funds.

3. Any investment not specifically referred to herein shall be considered a prohibited investment.

4. CalOptima reserves the right to prohibit its **Investment Managers** from making investments in organizations which have a line of business that conflicts with the interests of public health, as determined by the Board of Directors.

5. CalOptima reserves the right to prohibit investments in organizations with which it has a business relationship through contracting, purchasing, or other arrangements.

6. Except as expressly permitted by this Policy, investments in derivative securities shall not be allowed.

7. A list of prohibited investments does not currently exist, however, the Board of Directors shall provide **CalOptima's Treasurer**, **Investment Managers**, Investment Advisory consultant, and **Investment Advisory Committee** with a list, should such a list be adopted by CalOptima in the future, of organizations that do not comply with this Policy and shall immediately notify **CalOptima's Treasurer**, **Investment Managers**, Investment Advisory consultant and **Investment Advisory Committee** of any changes.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Banker's Acceptance (BA)	Time drafts which a bank "accepts" as its financial responsibility as part of a trade finance process. These short-term notes are sold at a discount, and are obligations of the drawer (i.e., the bank's trade finance client) as well as the bank. Once accepted, the bank is irrevocably obligated to pay the banker's acceptance (BA) upon maturity, if the drawer does not. Eligible banker's acceptances: • Are eligible for purchase by the Federal Reserve System, and are drawn on and accepted by a bank rated F1, or better, by Fitch Ratings Service, or are rated A-l for short-term deposits by Standard & Poor's, or P-1 for short-term deposits by Moody's, or are comparably rated by a nationally recognized rating agency; and • May not exceed the five percent (5%) limit of any one (1) commercial bank and may not exceed the five percent (5%) limit for any security of any bank.
Benchmark	Benchmarks are usually constructed using unmanaged indices, exchange-traded Funds or mutual fund categories to represent each asset class. Benchmarks are often used as a tool to assess the allocation, Risk and return of a portfolio.
Board-Designated Reserve Funds	Funds established to address unexpected agency needs and not intended for use in the normal course of business. The amount of Board-Designated Reserve Funds should be offset by any working Capital or net current asset deficits. The desired level for these funds is a minimum of 1.4 and maximum of 2.0 months of capitation revenues as specified by CalOptima Policy GA.3001: Board-Designated Reserve Funds. The Board-Designated Reserve Funds shall be managed and invested as follows: 1. Tier One a. Used for the benefit and protection of CalOptima's long-term financial viability; b. Used to cover "Special Purposes" as defined in CalOptima Policy GA.3001: Board-Designated Reserve Funds; or c. May be used for operational cash flow needs in lieu of a bank line of credit in the event of disruption of monthly capitation revenue receipts from the State, subject to the Board-Designated Reserve Funds having a "floor" equal to Tier Two requirements. 2. Tier Two a. Used to meet CalOptima's regulatory compliance requirements; or b. Currently defined as CalOptima's tangible net equity requirements as defined by Subdivision (e) of Section 1300.76 of Title 28 of the California Code of Regulations.
Bonds	A debt security, under which the issuer owes the holders a debt and, depending on the terms of the bond, is obliged to pay them interest (the coupon) and/or to repay the principal at a later date, termed the maturity date.

FOR 20191205BOD REVIEW

Term	Definition
Broker-Dealer	In financial services, a Broker-Dealer is a natural person, a company or other organization that engages in the business of trading securities for its own account or on behalf of its customers.
CalOptima Treasurer	Appointed by CalOptima's Board of Directors, the treasurer is a person responsible for overseeing CalOptima's investment funds.
Capital	Capital refers to financial assets or the financial value of assets, in the form of money or other assets owned by an organization.
Cash Flow Draws	Amount of cash needs to support CalOptima business operation.
Chief Officers	For the purposes of this policy, may include, but is not limited to, the Chief Executive Officer (CEO), Chief Financial Officer (CFO), and/or Chief Counsel.
Collateral Securities	A security given in addition to the direct security, and subordinate to it, intended to guarantee its validity or convertibility or insure its performance; so that, if the direct security fails, the creditor may fall back upon the collateral security.
Commercial Paper (CP)	Unsecured promissory notes issued by companies and government entities at a discount.
Consumer Price Index (CPI)	The Consumer Price Indexes (CPI) program produces monthly data on changes in the prices paid by urban consumers for a representative basket of goods and services.
Corporate Securities	Notes issued by corporations organized and operating within the U.S. or by depository institutions licensed by the U.S. or any state, and operating within the U.S.
Credit Risk	The Risk of loss due to failure of the issuer of a security.
Custodian Bank	A specialized financial institution responsible for safeguarding a firm's or individual's financial assets and is not engaged in "traditional" commercial or consumer/retail banking such as mortgage or personal lending, branch banking, personal accounts, automated teller machines (ATMs) and so forth.
Custom Peer Group Report	Developed based on a small peer universe with similar investment guidelines. The Purpose of the report is to provide more accurate performance comparison.
Designee	For purposes of this policy, a person who has been designated to act on behalf of the CalOptima Treasurer.
Economic Cycles	The natural fluctuation of the economy between periods of expansion (growth) and contraction (recession).
Finance and Audit Committee (FAC)	A standing committee of the CalOptima Board of Directors with oversight responsibilities for all financial matters of CalOptima including but not limited to: budget development and approval, financial reporting, investment practices and policies, purchasing and procurement practices and policies, insurance issues, and capitation and claims. The Committee serves as the primary level of Board review for any finance-related issues or policies affecting the CalOptima program.
Inflation	Inflation is the rate at which the general level of prices for goods and services is rising and, consequently, the purchasing power of currency is falling.
Instrument	Refers to a financial Instrument or asset that can be traded. These assets can be cash, Bonds, or shares in a company
Investment Advisor(s)	Registered or non-registered person or group that makes investment recommendations or conducts securities analysis in return for a fee.

FOR 2019 12-5 BOD REVIEW

Term	Definition
Investment Advisory Committee (IAC)	A standing committee of the CalOptima Board of Directors who provide advice and recommendations regarding CalOptima's Investment Policies, Procedures and Practices..
Investment Manager(s)	A person or organization that makes investments in portfolios of securities on behalf of clients, in accordance with the investment objectives and parameters defined by these clients.
Investment Portfolio	A grouping of financial assets such as stocks, Bonds and cash equivalents, as well as their funds counterparts, including mutual, exchange-traded and closed funds. Portfolios are held directly by investors and/or managed by financial professionals.
Joint Powers Authority Pool	Shares of beneficial interest issued by a joint powers authority organized pursuant to California Government Code, Section 6509.7; each share represents an equal proportional interest in the Underlying Pool of Securities owned by the joint powers authority.
Lien	A legal right granted by the owner of property, by a law or otherwise acquired by a creditor
Liquidity	Liquidity describes the degree to which an asset or security can be quickly bought or sold in the market without affecting the asset's price.
Market Indices	Measurements of the value of a section of the stock market. It is computed from the prices of selected stocks (typically a weighted average).
Market Risk	The Risk of market value fluctuations due to overall changes in the general level of interest rates.
Maturity Dates	The date on which the principal amount of a note, draft, acceptance bond or another debt Instrument becomes due and is repaid to the investor and interest payments stop. It is also the termination or due date on which an installment loan must be paid in full.
Medium Term Notes (MTN)	A debt note that usually matures (is paid back) in five (5) – ten (10) years, but the term may be less than one (1) year or as long as one hundred (100) years. They can be issued on a fixed or floating coupon basis.
Nationally Recognized Statistical Ratings Organization (NRSRO)	A credit rating agency that the Securities and Exchange Commission in the United States registers and uses for regulatory purposes. Current NRSROs listed at www.sec.gov/ocr/ocr-current-nrsros.html.
Negotiable Certificates of Deposit	A negotiable (i.e., marketable or transferable) receipt for a time deposit at a bank or other financial institution, for a fixed time and interest rate.
Operating Funds	Funds intended to serve as a money market account for CalOptima to meet daily operating requirements. Deposits to this fund are comprised of State warrants that represent CalOptima's monthly capitation revenues from its State contracts. Disbursements from this fund to CalOptima's operating cash accounts are intended to meet operating expenses, payments to providers and other payments required in day-to-day operations.
Prudent Person Standard	When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the Liquidity needs of the agency (California Government Code, Section 53600.3)

FOR 2019 BOD REVIEW

Term	Definition
Rate of Return	The gain or loss on an investment over a specified time period, expressed as a percentage of the investment's cost. Gains on investments are defined as income received plus any Capital gains realized on the sale of the investment.
Rating Category	With respect to any long-term category, all ratings designated by a particular letter or combination of letters, without regard to any numerical modifier, plus or minus sign or other modifier.
Repurchase Agreements	A purchase of securities under a simultaneous agreement to sell these securities back at a fixed price on some future date.
Risk	Investment Risk can be defined as the probability or likelihood of occurrence of losses relative to the expected return on any particular investment. Description: Stating simply, it is a measure of the level of uncertainty of achieving the returns as per the expectations of the investor.
State and California Local Agency Obligations	Registered warrants, notes or Bonds of any of the fifty (50) U.S. states, including Bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the fifty (50) U.S. states. Additionally, Bonds, notes, warrants, or other evidences of indebtedness of any local agency within the State of California, including Bonds payable solely out of revenues from a revenue producing property owned, controlled, or operated by the state or local agency, or by a department, board, agency or authority of the State or local agency.
Supranational Institutions	International institutions formed by two (2) or more governments that transcend boundaries to pursue mutually beneficial economic or social goals.
Surplus	Assets beyond liabilities.
Underlying Pool of Securities	Those securities and obligations that are eligible for direct investment by local public agencies.
Valuation	An estimation of the worth of a financial Instrument or asset. CalOptima's asset managers provide CalOptima with reporting that shows the Valuation of each financial Instrument that they own on behalf of CalOptima. Each asset manager uses a variety of market sources to determine individual Valuations.

FOR 2019 12/5 BOD REVIEW

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Consent Item

4. Consider Approval of CalOptima's Health Homes Program Policies

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Tracy Hitzeman, Executive Director, Clinical Operations, (714) 246-8400
Nancy Huang, Chief Financial Officer, (714) 246-8400

Recommended Actions

Approve CalOptima Policies and Procedures listed below to address Health Homes Program (HHP) implementation and requirements:

1. GG.1331: Health Homes Program Services and Care Management [Medi-Cal];
2. GG.1350: Health Homes Program Member Eligibility [Medi-Cal];
3. FF.4001: Special Payments: Health Homes Program Supplemental Payment for Capitated Health Networks [Medi-Cal]; which includes:
    a. Payment of a HHP Core Services Capitation Payment for HHP eligible and enrolled members and a separate Engagement Activities Supplemental Capitation Payment for HHP eligible members regardless of HHP enrollment.

Background

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option. The intent of HHP is to improve member outcomes and reduce health care costs. In California, Assembly Bill 361 (2013) authorizes implementation of the HHP. HHP, which is an entitlement benefit, is being implemented in selected California counties in a phased-in implementation approach, with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. On June 7, 2018, the CalOptima Board of Directors (Board) authorized an amendment to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS) to incorporate implementation of the HHP. Implementation in Orange County is expected to be effective no sooner than January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and Substance Use Disorders (SUD), and no sooner than July 1, 2020, for CalOptima Medi-Cal members with eligible Serious Mental Illness (SMI).

For the first two years following implementation, the HHP will be funded by 90% federal funds and 10% from the California Endowment. Pursuant to Assembly Bill 361, for the first two years of the program, the HHP will not result in a net increase in ongoing General Fund costs for the Medi-Cal program, and no additional General Fund dollars will be used for program administration or services.

CalOptima received final rates for the HHP from DHCS on August 1, 2019. Staff projects $26.3 million in funding for the HHP over a three year period based on the enrollment assumptions provided by DHCS. At its June 6, 2019, meeting, the Board approved the CalOptima Fiscal Year (FY) 2019-20 Operating Budget, which included projected revenue and expenses for HHP for the period of January 1, 2020, through June 30, 2020.

Back to Agenda

Pursuant to the DHCS Program Guide and All Plan Letter 18-012: Health Homes Program Requirements, MCPs will be responsible for overall administration, including the development of an HHP network. DHCS also published an HHP Program Guide that outlines the responsibilities of the MCPs and Community-Based Care Management Entities (CB-CMEs). Per DHCS requirements, HHP services are to be provided and coordinated through the network of CB-CMEs. In addition, CB-CMEs are responsible for coordinating care with members, providers and other agencies, as appropriate. The HHP Program Guide requires the following six core service categories for members enrolled in HHP:

- Comprehensive Care Management;
- Care Coordination;
- Health Promotion;
- Comprehensive Transitional Care;
- Individual and Family Support Services; and
- Referral to Community and Social Supports.

DHCS has also established HHP staffing requirements, which will be utilized across health networks, including:

- Clinical Consultant;
- HHP Director;
- Dedicated Care Coordinator;
- Housing Navigator for members experiencing homelessness; and
- Community Health Worker (recommended, but not required).

Discussion

Member Eligibility, Engagement and Enrollment in HHP

Members with certain chronic physical conditions, SUD or SMI, and meeting specified medical condition acuity requirements may qualify to participate in HHP. In order to participate, members must choose to enroll into HHP and not be required to change their primary care provider or health network. Based on DHCS eligibility criteria, CalOptima and its CB-CMEs plan to actively outreach to Medi-Cal only members potentially eligible for HHP and engage these members through written, telephonic, and face-to-face encounters to encourage member participation in the HHP. CalOptima anticipates that approximately 30,000 Medi-Cal only members will be potentially eligible for HHP, and that approximately 10% to 25% of these eligible members will elect to participate. HHP eligible members who are currently enrolled in the Whole Person Care pilot program may also elect to enroll in HHP. However, services provided under both programs cannot be duplicated. CalOptima's dually eligible members (i.e., those enrolled in both Medi-Cal and Medicare) can be referred to participate in HHP by community providers if members meet HHP eligibility criteria.

HHP CB-CME Network

In designing the CalOptima HHP CB-CME network, Management considered the DHCS requirements in context to the current delivery model. A primary requirement from the DHCS is that members must be able to participate in HHP without needing to change their health network or primary care provider. Approximately 80% of CalOptima members are assigned to a delegated health network, identified as a "physician group" in the DHCS HHP Program Guide. CalOptima's delegated health networks already have access to member information and have systems in place to support HHP activities. The health networks perform most of the care management activities required under health homes that focuses on a team approach that includes development and sharing of a health action plan, convening care team

meetings, transitional care, and updating the care teams when there is a change in the member's condition. HHP services would add incremental intensity to care management services provided by the health networks.

CalOptima also engaged an external vendor to conduct a survey of community-based organizations and community health centers to determine if these organizations provide HHP similar services. A total of 70 organizations were surveyed and 46 responded. The majority of the organizations can provide some but not all of the six HHP core service categories. If these organizations were used, CalOptima would need to build capacity to exchange member information and provide all HHP core services in threshold languages throughout the county. Engaging an organization other than the health networks presents challenges of potential duplication of services.

At implementation, CalOptima plans to leverage existing infrastructure to incorporate the new HHP services. CalOptima and its health networks will act as CB-CMEs for their assigned HHP eligible members and are expected to provide all HHP services, including housing support services and accompaniment for medical appointments. After implementation, CalOptima will consider opportunities to include additional providers for HHP services.

Payments to Delegated Health Networks acting as CB-CMEs
DHCS will provide Medi-Cal revenue to CalOptima for HHP services delivered to eligible and enrolled members. CalOptima will provide the health networks with a similar HHP specific capitation through an HHP Core Services Supplemental Capitation Payment for HHP services delivered to cover HHP core services to HHP eligible members who are enrolled in the HHP program. In addition, given that engagement of HHP eligible members is critical to the program's success, Management also recommends providing a separate reimbursement to the health networks through an Engagement Activities Supplemental Capitation Payment, which will be paid through CalOptima, for a member eligible but not enrolled in HHP. These supplemental capitation payments will be reported to DHCS in the rate development template as a medical or administrative expense, as allowable. Staff will report to DHCS on a regular basis the number of members who declined to participate in HHP or had an unsuccessful engagement.

Because the HHP is a new program, there is a possibility that rate development assumptions used by DHCS to calculate CalOptima's capitation rates may be materially different from actual utilization and expenses. Staff will closely monitor both utilization and expenses associated with the HHP and will continue to work with DHCS to ensure that Medi-Cal revenue is sufficient to support the program.

Implementation Efforts
Based on DHCS requirements and in partnership with the health networks, CalOptima staff continues to develop and adjust operational procedures and polices outlining HHP requirements, including member engagement and enrollment, care management, the CB-CME network and its responsibilities, staffing requirements and the MCP's oversight role. CalOptima will continue to submit deliverables to DHCS as required for HHP implementation.

Additionally, CalOptima staff will continue to partner and collaborate with the health networks, community partners and county agencies, especially the Orange County Health Care Agency, to coordinate behavioral health needs and services provided through the Whole Person Care pilot program.

Back to Agenda

Policy and Procedures
The following attached CalOptima policies have been developed for HHP implementation:

A. ***GG.1331: Health Homes Program (HHP) Services and Care Management*** is a new policy that defines the HHP network and clinical delivery model to provide HHP services. It also includes guidelines and processes for outreach and engagement of HHP-eligible members, and CalOptima's expectations for CalOptima Direct and health networks, as CB-CMEs, to provide enhanced care management and care coordination to HHP enrolled members, including, but not limited to, office visit accompaniment, housing support services, and in-person care coordination, as needed.

B. ***GG.1350: Health Homes Program (HHP) Member Eligibility*** is a new policy that describes the process to identify Member eligibility for and prioritization for the CalOptima HHP. CalOptima staff developed this policy in accordance with state requirements for implementation of the Health Homes Program, effective January 1, 2020.

C. ***FF.4001: Special Payments: Health Homes Program Supplemental Payment for Capitated Health Networks*** is a new policy that defines the criteria for a health network to receive a supplemental payment for HHP services provided to an HHP-enrolled Medi-Cal member or a separate supplemental payment for engagement activities for members eligible but not enrolled in HHP, for dates of service on and after January 1, 2020. The policy specifically delineates HHP core services, in accordance with the Medi-Cal Health Homes Program Guide, issued by DHCS on November 1, 2019, and defines the two types of supplemental HHP payments available to health networks: (1) HHP Core Services Supplemental Capitation Payment and (2) Engagement Activities Supplemental Capitation Payment. The policy also describes the return of overpayments by health networks, adjustments to supplemental payment rates based on updates provided by DHCS, and procedures for a health network to file a complaint, if any.

Fiscal Impact
The recommended action to approve CalOptima's HHP policies and procedures has no additional anticipated fiscal impact in the current fiscal year beyond what was incorporated in the CalOptima FY 2019-20 Operating Budget approved by the Board on June 6, 2019. Considering that implementation in Orange County is expected to be effective no sooner than January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD, and no sooner than July 1, 2020, for CalOptima Medi-Cal members with eligible SMI, Management plans to include anticipated revenue and expenses for the HHP in the CalOptima FY 2020-21 Operating Budget and will keep the Board apprised of the financial performance of the program. Staff will also continue to work with DHCS to ensure CalOptima receives adequate funding through the first two years of the HHP following implementation.

Rationale for Recommendation
The recommended actions will enable CalOptima to operationally prepare for the anticipated implementation of HHP, effective no sooner than January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD, and no sooner than July 1, 2020, for members with eligible SMI.

CEO Approval:	Michael Schrader _____
Effective Date:	01/01/2020
Revised Date:	Not Applicable

FOR 20191205BOD REVIEW

I. PURPOSE

This policy defines CalOptima's **Health Homes Program (HHP)*** guidelines and processes for outreach and engagement of **HHP**-eligible **Members** and enhanced care management and care coordination approach to **HHP**-enrolled **Members**, including, but not limited to, office visit accompaniment, housing support services, and in-person care coordination.

II. POLICY

.

A. As an **HHP**-participating Medi-Cal managed care plan, CalOptima is responsible for the overall administration of the **HHP** including:

1. Improving **Member** outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based **Long-Term Services and Supports** (**LTSS**), oral health services, **Palliative Care**, and social support needs; and

2. Reducing avoidable health care costs, including hospital admissions/readmissions, emergency department visits, and nursing facility stays.

B. CalOptima shall implement the **HHP** in two (2) phases, as prescribed by the Department of Health Care Services (DHCS):

1. No sooner than January 1, 2020: For **HHP Members** with eligible chronic physical conditions and substance use disorders; and

2. No sooner than July 1, 2020: For **HHP Members** with eligible serious mental illness conditions.

C. CalOptima shall select **Community-Based Care Management Entities (CB-CMEs)** in accordance with Welfare and Institutions Code Section 14127.3(d)(1) and the **CB-CME** qualifications as defined by DHCS in the **HHP** Program Guide, which are set forth in Attachment B of this policy. CalOptima shall develop an **HHP** network that includes:

1. All contracted **Health Network**s to serve as a **CB-CME** for their assigned **Members**; and

2. **CalOptima Direct (COD)** to serve as a **CB-CME** for **Members** assigned to **CalOptima Direct**.

D. CalOptima and **CB-CMEs** shall ensure compliance with all applicable State and federal requirements related to **HHP** and all **HHP** requirements determined by DHCS, including but not

* Terms in **bold** are included in the Glossary.

Back to Agenda

limited to DHCS All Plan Letter (APL) 18-012: Health Homes Program Requirements and the **HHP** Program Guide.

E. CalOptima shall ensure an **HHP** structure that will enable a **CB-CME** to provide six (6) core **HHP** services to assigned **HHP Members**:

1. Comprehensive care management;

2. Care coordination;

3. Health promotion;

4. Comprehensive transitional care;

5. Individual and family support services; and

6. Referrals to community and social supports.

F. CalOptima **Member** eligibility for participation in the **HHP** shall be determined in accordance with CalOptima Policy GG.1350: Health Homes Program (HHP) Member Eligibility.

G. CalOptima shall conduct targeted, progressive engagement attempts to **Members** on the Finalized Engagement List (**FEL**). **Members** interested in knowing more about and/or participating in **HHP** will be transferred to their assigned **CB-CME** for **HHP** information and possible program enrollment.

H. **CB-CMEs** shall utilize a team approach consisting of **HHP** multi-disciplinary care teams ("**HHP Care Team**s"), as described in Section III.A. of this policy, which are overseen by an **HHP** Director at each **CB-CME**.

I. CalOptima and the **CB-CMEs** shall complete a **Member Health Needs Assessment** (**HNA**), conduct a multidisciplinary case conference by the **HHP Care Team** as described in Section III.A of this policy, and create a **Health Action Plan** (**HAP**) for each **HHP Member**.

1. The **HAP** will be reassessed at regular intervals and when changes occur in the **Member**'s progress or status and health care needs.

2. CalOptima and **CB-CMEs** shall ensure **HHP Member HNA**s are available to the primary care providers (PCPs), mental health service providers, substance use disorder services providers, and **HHP Care Team** care coordinators for all **HHP Members**.

J. **CB-CMEs** shall be responsible for coordinating with **HHP Members**, existing providers and other agencies, including CBOs, in order to serve as the central point of contact of patient-centered care for **HHP Members**.

K. CalOptima and a **CB-CME** shall ensure ongoing care coordination, including discharge planning, as necessary, in accordance with this policy and CalOptima Policies GG.1301: Comprehensive Care Management Process and GG.1308: Monitoring Health Network Compliance via Case Management Reports.

L. **CB-CMEs** shall establish, as necessary, contractual relationships with CBOs or other organizations to provide **HHP Members** with **HHP** services, and contractual or non-contractual relationships

FOR 20191205BOD REVIEW

with CBOs to provide linkages to community and social support services. **CB-CMEs** may contract for select services, such as office visit accompaniment and housing support services.

M. CalOptima will provide the **CB-CMEs** with information on admissions and discharges and ensure timely follow-up care.

N. CalOptima shall provide training prior to administration of the **HHP** as well as ongoing training to participating **CB-CME** care management staff members. Training shall encompass **HHP** program overview, **HAP**, care coordination, and care transitions within the **HHP**, community resources and referrals, as well as operational and condition-specific trainings. In addition, CalOptima will provide training on special populations, social determinants of health, motivational interviewing, trauma-informed care, health literacy assessment, and information sharing.

O. CalOptima's Case Management Department shall conduct strong oversight of the **CB-CMEs** by performing regular monitoring and auditing activities to ensure that case conferences occur, the **HAP** is updated as health care events occur, and all other **HHP** care management requirements are completed. CalOptima shall provide regular feedback and reporting of oversight results to the **CB-CMEs** as described in Section III.G. of this policy. CalOptima's oversight of the **CB-CMEs** shall also include, but not be limited to, the monitoring and auditing activities described in CalOptima Policy GG.1308: Monitoring **Health Network** Compliance via Case Management Reports.

P. CalOptima shall use medical management and data warehouse systems to support prioritization and risk stratification of the **FEL** as well as additional **HHP**-eligible **Members** identified through other activities. In addition, **CalOptima Direct** and **CB-CMEs** shall use medical management and data warehouse systems to:

1. Record **HHP**-eligible **Members** referrals to **HHP**;
2. Record outreach attempts and **Member** decisions regarding enrolling in **HHP**;
3. Record responses to standardized **HNA** questions;
4. Provide repositories for care management data and **HNA** responses for reporting purposes;
5. Record **Member HAPs** based on needs and barriers identified during **HNA** information collection;
6. Record oversight data of **Member HAPs**;
7. Record and track care coordination activities provided by individual staff; including but not limited to managing care transitions;
8. Record and track referrals to community resources;
9. House authorization and utilization data; and
10. Store pertinent medical records and information.

Q. CalOptima and **CB-CMEs** shall establish and maintain a data-sharing agreement with other providers that is compliant with all federal and California state laws and regulations. If applicable laws and/or regulations require an **HHP Member's** valid authorization for release of his or her

FOR 20191205BOD REVIEW

health information, CalOptima or a **CB-CME**, as applicable, may not release such information without the **HHP Member's** valid authorization.

III. PROCEDURE

A. HHP Care Teams

1. The **CB-CME** shall be responsible for **HHP Care Team** staffing, according to **HHP** required staffing ratios determined by DHCS.

2. The qualification and roles of the **HHP Care Team Members** are set forth in Attachment A of this policy. Except as otherwise stated below, the **HHP Care Team** shall include the following:

   a. Dedicated care coordinator;

   b. **HHP** Director;

   c. Clinical consultants;

   d. For **HHP Members** experiencing **Homeless**ness, a housing navigator; and

   e. Community health workers are recommended, but not required.

3. Additional team **Members**, such as a pharmacist or nutritionist, may be included on the **HHP** Care Team in order to meet the **HHP Member**'s individual care coordination needs.

4. CalOptima or a delegated **Health Network** serving as a **CB-CME**, as applicable, shall ensure that physical and/or behavioral health service providers who are not part of the **HHP Care Team** will cooperate and participate in **HAP** planning and coordination.

5. CalOptima or a **CB-CME** shall maintain a strong and direct connection to the **HHP Member**'s PCP and ensure the PCP's participation in **HAP** development and ongoing coordination.

B. CalOptima and the **CB-CME** will collaborate to make three (3) progressive attempts to engage **Members** who are included on the **FEL**.

1. CalOptima shall work collaboratively with its community partners, CBOs, and institutions where **Members** choose to receive services, as centers for strategic outreach and to share best practices. CalOptima's partnership with its associates include, but is not limited to, the following:

   a. Assistance in locating and contacting **Members**, as necessary.

   b. CalOptima shall create and share **HHP** materials that emphasize the benefits of the **HHP** for use with **Members**.

2. Progressive engagement of **HHP**-eligible **Members** may include mailed or other written communication, live calls, and in-person engagement:

   a. CalOptima shall provide early and ongoing outreach to **Members**, specifically for **Members** who may require additional encouragement or information to participate in **HHP**. Outreach and engagement with **Members** shall be culturally appropriate in accordance with

FOR 20191205BOD REVIEW

CalOptima Policy DD.2002: Cultural and Linguistic Services, and meet health literacy standards and trauma-informed care standards.

b. **CB-CMEs** shall provide an **HHP** engagement notice to each **HHP**-eligible **Member** that describes the **HHP** and provides **CB-CME** contact information for interested **HHP**-eligible **Members**.

c. Outreach attempts shall include attempts to validate and update contact information if incorrect.

d. CalOptima Special Population PCCs shall visit local **Homeless** shelters weekly to engage **Members** experiencing **Homeless**ness who appear on the **FEL** or who are **HHP**-eligible based on CalOptima's data driven preliminary eligibility determination.

e. CalOptima shall evaluate **Members** who are identified through CalOptima's Homeless Response Team (HRT) for eligibility in **HHP**.

f. If **Members** are not able to be engaged after three (3) progressive attempts within ninety (90) calendar days of the initial outreach described in Section III.B.2.b. of this Policy, CalOptima or **CB-CME**, as applicable, shall notify the **Member**'s PCP and request that the PCP discuss the benefits of the **HHP** with the **Member** at the next visit. No further progressive engagement is required.

g. **Members** meeting **HHP** eligibility requirements must consent to **HHP** in order to participate. Consent may be oral or in writing and will be documented by the CB-CME's Customer Service staff or **HHP Care Team** staff prior to the **Member**'s participation in **HHP**.

h. **HHP Care Team Members** shall be available to an **HHP**-eligible and/or **HHP**-enrolled **Member** via telephone to answer questions and receive input about the **HHP**.

C. Outreach Expectations for **Members** Enrolled in **HHP**

1. Following enrollment into the **HHP**, **CB-CMEs** shall provide an initial welcome packet to each **HHP Member**.

2. **CB-CMEs** should encourage the enrolled **Members** to see their PCP within the sixty (60) calendars days following the **Member**'s enrollment date in **HHP**. In order to complete each **HHP Member**'s **HAP** within the ninety (90) calendar days following the **Member**'s enrollment date in **HHP**, **Members** shall receive contact, telephonic or written, from the **CB-CME**, including:

a. In-person contact will be prioritized, and is the preferred method of care coordination;

i. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled **Members** per quarter.

ii. More frequent in-person contacts are expected for **Members** in complex care management (Tier 1), based on the **Member**'s needs and preferences.

D. **HHP** Core Services

FOR 20191205BOD REVIEW

1. Comprehensive Care Management

   a. Upon enrollment of the **Member** in the **HHP**, the **CB-CME** shall administer the DHCS-approved **HHP** Health Needs Assessment (**HNA**) to identify **Member** needs and barriers, and serve as the basis for the person-centered **HAP**.

      i. On an exception basis, such as a **Member** encountered by CalOptima during in-person outreach, CalOptima may conduct an **HNA** and assign the care management level, or tier, as part of the enrollment process and submit to the **CB-CME** for completion of the **HAP**.

   b. A **CB-CME** clinical consultant shall review and evaluate the responses to the **HNA** to assign or confirm a care management level as follows:

      i. Complex care management (Tier 1);

      ii. Care coordination care management (Tier 2); or

      iii. Basic care management (Tier 3).

   c. For **HNA**s collected by CalOptima, a CalOptima clinical consultant shall upload the **HNA**, care management level or tier level, and recommended interventions via secure FTP site to the **CB-CME** for consideration for inclusion in the **HAP**.

   d. A **CB-CME** care coordinator shall assist the **HHP Member** with development of the **HAP** and complete the **HAP** within ninety (90) calendar days of **HHP** enrollment.

   e. A **CB-CME** care coordinator shall provide comprehensive care management services to **HHP Members**, including, but not limited to the following:

      i. Assess and reassess **Members** as-needed for physical health, mental health, substance use, housing instability, **Member**'s perception of gaps in care, impacts related to social determinants of health, oral health care, **Palliative Care** needs, trauma-informed care needs, harm-reduction practices and social services needs;

      ii. Provide care management in accordance with CalOptima Policy GG.1301: Comprehensive Care Management;

      iii. Engage the **HHP Member** in the **HHP** and his or her own care;

      iv. Assess the **HHP Member**'s level of engagement and readiness for change using screenings and assessments with standardized tools;

      v. Coach the **HHP Member** in self-management skills;

      vi. Promote the **Member**'s self-management skills to increase their ability to engage with health and service providers;

      vii. Support the **Member** by working with them to achieve their self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines; and

FOR 2019/12/05 BOD REVIEW

viii. Develop a **Member**'s **HAP** and revise it as appropriate;

ix. Ensure the needs identified on the **HHP HNA** and subsequent assessments are incorporated into the **Member's HAP**, in accordance with the **Member's** preferences;

x. Reassess a **Member**'s health status and goals;

xi. Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and

xii. Clarify roles and responsibilities of the multi-disciplinary team, providers, **Member** and family/support persons.

f. The **CB-CME** shall submit the **HNA**, **HAP**, and **HHP** tier assignment to CalOptima for oversight.

i. **CB-CME** shall use **HNA** and **HAP** formats as required by CalOptima.

2. Care Coordination

a. A **CB-CME** care coordination shall provide care coordination services to address the implementation of the **HAP** and ongoing care coordination, including but not limited to:

i. **Member** Support:

a) Work with the **HHP Member** to implement his or her **HAP**;

b) Assist the **HHP Member** with referrals to and navigation of physical health, oral health, behavioral health, **Palliative Care** services, social services, and housing supports;

c) Share options with the **HHP Member** for accessing care and providing information to the **HHP Member** regarding care planning;

d) Identify barriers to medication management and treatment plan adherence and work to overcome barriers;

e) Monitor and support treatment adherence (including medication management and reconciliation);

f) Assist in attainment of the **HHP** Member's goals as described in the **HAP**;

g) Encourage **HHP Member** engagement in decision making and continued participation in **HHP**; and

h) Ensure accompaniment of **HHP Members** to appointments, as needed.

ii. Coordination

a) Monitor and coordinate referrals and follow ups to ensure needed services and supports are offered and accessed;

FOR 2019 1205BOD REVIEW

b) Share information with all involved parties to monitor the **Member**'s conditions, health status, care planning, medication usages and side effects;

c) Create and promote linkages to other services and supports, as needed;

d) Facilitate communication between **HHP Members** and healthcare providers to promote understanding;

e) Facilitate referral to other services and team **Members** as appropriate, including pharmacy, housing navigator, social services, health educator or health coach;

f) Maintain frequent, in-person contact with the **HHP Member** and care coordinator when delivering **HHP** services;

g) Strongly encourage the **HHP Member** to visit his or her PCP within sixty (60) calendar days of enrollment in **HHP**, assisting with coordination of this visit as appropriate;

h) Support screening, referral, and co-management of **HHP Members** with both behavioral and physical health conditions;

b. CalOptima or a **CB-CME**, as applicable, shall identify and take action to address an **HHP Member**'s gaps in care as follows:

i. Assess existing data sources for evidence of care appropriate to the **HHP Member**'s age and underlying chronic conditions, as appropriate;

ii. Evaluate the **HHP Member's** perception of gaps in care;

iii. Document gaps in care in the **HHP Member**'s case file, including evaluation of a **Member**'s perceptions of gaps in care;

iv. Document interventions in the **HAP** and progress notes;

v. Document findings from the **HHP Member's** response to interventions;

vi. Document discussions of **HHP Member's** care goals; and

vii. Document follow-up actions, and the person or organization responsible for follow-up.

3. Health Promotion

a. A **CB-CME** care coordinator shall refer the **HHP Member** or his or her family/support persons, to health education and disease management programs, as appropriate, for additional support and education regarding the **HHP Member's** health conditions in accordance with the **HHP Member**'s needs and preferences.

b. Health promotion services shall include, but are not limited to:

i. Encouraging and supporting health education for the **HHP Member** and family/support persons;

FOR 20191205BOD REVIEW

ii. Assessing the **HHP Member** and family/support persons' understanding of the **Member**'s health condition and motivation to engage in self-management;

iii. Using evidence-based practices, such as motivational interviewing, to engage and help the **HHP Member** and family/support persons participate in and manage their care;

iv. Coaching **HHP Members** and family/support persons about chronic conditions and ways to manage health conditions, based on the **Member's** preferences; and

v. Linking the **HHP Member** and family/support persons with resources and programs such as:

a) Smoking cessation;

b) Self-help recovery resources;

c) Learning about and management of chronic conditions; and

d) Other services based on **Member** needs and preferences.

4. Comprehensive Transitional Care

a. A **CB-CME** care coordinator will assist the **HHP Member** with transitions between treatment settings, including admissions and discharges from the hospital, residential/treatment facility, out of an incarceration facility or other treatment centers as needed, including, but not limited to:

i. Facilitating medication reconciliation and information;

ii. Assisting with scheduling of timely follow up appointments after discharge with recommended outpatient providers and/or community partners;

iii. Assisting with development or implementation of appropriate discharge plan and a place to stay post-discharge such as temporary housing or stable housing and social services;

iv. Collaborating, communicating and coordinating the transition plan with all involved parties, including informing hospital discharge planners about **HHP**;

v. Easing the **HHP Member's** transition by ensuring the **HHP Member** has an understanding of their post-transition self-management, medication management and rehabilitation activities, as appropriate;

vi. Preventing and tracking avoidable admissions and readmissions;

vii. Facilitating transportation for transitional care, including to medical appointments, in accordance with CalOptima Policy GG.1505: Transportation: Emergency, Non-Emergency, and Non-Medical;

viii. Evaluating need to revise the **HHP Member's HAP**;

FOR 20191205BOD REVIEW

ix. Working with the **HHP Member** to assess understanding of discharge plan and assisting the **Member** with engaging with and implementing discharge plan; and

x. Providing housing navigation and support services, as appropriate, including:

a) Temporary housing or stable housing and social services; and

b) Transition support to permanent housing.

b. In order to prevent and track avoidable admissions and readmissions, an **HHP Member**'s care coordinator is notified about **HHP Member** transitions through the **CB-CME**'s existing medical management/data systems and as required by CalOptima Policy GG.1500: Authorization Instructions for **CalOptima Direct** and CalOptima Community Network Providers and CalOptima Policy GG.1508: Authorization and Processing of Referrals that require hospital notification to the **CB-CME** of emergency department visits, admissions and discharges.

5. Individual and Family Support Services

a. As part of the assessment and care management processes and with the overall goal of improving **Member** adherence to treatment and medication management, the **HHP** Care Team will:

i. Assess strengths and needs of the **HHP Member** and family/support persons, including support of caregivers, and readiness to receive information;

ii. Link the **HHP Member** and family/support persons to caregiver resources (*e.g.*, peer supports or support groups) to educate, motivate, and improve self-management;

iii. Connect the **HHP Member** to self-care programs to help increase their understanding of their conditions and care plan;

iv. Promote **HHP Member** and family/support persons in self-management and decision-making;

v. Determine when the **HHP Member** and family/support persons are ready to receive and act upon information provided and assist them with making informed decisions;

vi. Advocate for the **Member** and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals;

vii. Arrange accompaniment to critical appointments, as appropriate;

viii. Identify barriers to improving adherence; and

ix. Evaluate family/support persons' needs for services.

6. Referral to Community and Social Supports

a. As part of the assessment and care management processes, the **HHP Care Team** will:

FOR 2019 12 05 BOD REVIEW

i. Identify the **Member**'s community and social support needs and preferences and available resources to meet such needs;

ii. Identify resources and eligibility criteria for housing, food security and nutrition, employment counseling, childcare, community-based **LTSS**, school and faith-based services, and disability services, as needed and desired by the **Member**;

iii. Actively engage appropriate referrals to the needed resources, access to care, and engagement with other community and social supports;

iv. Provide the **Member** with information about and referrals to community resources according to the **Member**'s needs and preferences;

v. Facilitate, coordinate, and follow up on resource referrals;

vi. Provide regular follow up, via in-person or telephonic contacts, to support **Member** engagement with resources;

vii. Provide **Individual Housing Transition Services**; and

viii. Provide **Individual Housing and Tenancy Sustaining Services**.

E. Housing Support Services

1. CalOptima and the **CB-CME** will work with CBOs and vendors who specialize in housing assistance services and local shelters to ensure seamless access to the delivery of housing support services. The **HHP** does not provide direct funding for housing.

2. To the extent applicable, housing-based case management services provided by CalOptima, the **CB-CME**, CBOs and vendors to **HHP Members** shall be consistent with the Housing First core components as described in Welfare and Institutions Code Section 8255, specifically:

   a. Engagement to **Members** potentially eligible for **HHP** or the provision of **HHP** housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for **HHP** or meet one (1) or more of the DHCS defined **HHP** exclusionary criteria as described in CalOptima Policy GG.1350: Health Homes Program (HHP) Member Eligibility.

   b. **HHP** housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of **Members'** lives, where **Members** are engaged in nonjudgmental communication regarding drug and alcohol use.

   c. **Members** will be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

3. A **CB-CME** shall staff directly or contract with a vendor to provide housing support services for **Members** experiencing homelessness.

4. A housing navigator, a required role of the **HHP Care Team**, for **HHP Members** experiencing homelessness will use Housing First principles and components to provide the following services:

FOR 20191205 BOD REVIEW

a. **Individual Housing Transition Services**

i. Conducting a tenant screening and housing assessment, such as the **Vulnerability Index - Service Prioritization Decision Assistance Tool (VI-SPDAT)**, that identifies the **Member's** preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;

ii. Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short- and long-term measurable goals for each issue, establishes the **Member's** approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;

iii. Assisting with the housing application process and with the housing search process;

iv. Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;

v. Ensuring that the living environment is safe and ready for move-in;

vi. Assisting in arranging for and supporting the details of the move; and

vii. Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

b. **Individual Housing and Tenancy Sustaining Services**

i. Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;

ii. Providing education and training on the roles, rights and responsibilities of the tenant and landlord;

iii. Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;

iv. Providing assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;

v. Providing advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;

vi. Providing assistance with the housing recertification process;

vii. Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and

viii. Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

FOR 20191205BOD REVIEW

5. A **CB-CME** housing navigator shall assist **Members** experiencing homelessness with the completion of the **VI-SPDAT** to determine risk and prioritization of housing services, as appropriate.

F. The **Member's CB-CME**, or CalOptima for a **Member** assigned to **COD**, shall accept referrals of potentially **HHP**-eligible **Members** from providers, which shall include the **HHP** eligibility criteria and the **Member**'s interest in participating in **HHP**. For purpose of this section only, the term "provider" includes PCPs, Specialists, Community-Based Organizations, Whole-Person Care providers, and any other providers that are currently treating potentially **HHP**-eligible **Members**.

1. The **CB-CME** shall evaluate and provide verification of **Member** eligibility for the **HHP** to CalOptima's Case Management Department for final confirmation via facsimile or other means as directed by CalOptima.

   a. CalOptima's Case Management Department shall provide final confirmation to the **CB-CME** via facsimile, CalOptima's medical management systems, or other means as directed by CalOptima regarding the **Member**'s **HHP** eligibility within five (5) business days.

2. **Members** referred for the **HHP**, as well as the referring provider, shall be notified by the **CB-CME** of the **Member**'s eligibility or ineligibility for the **HHP** within five (5) business days of receipt of final confirmation from CalOptima as described in Section III.F.1.a. of this Policy.

3. **Members** who are not eligible for the **HHP** will be offered other supportive programs available to them by the **CB-CME**.

G. Health Homes Program Care Management Oversight Responsibilities

1. **CB-CME HHP** Director shall have:

   a. Overall responsibility for the management and operations of the **HHP Care Team**; and

   b. Responsibility for quality measures and reporting for the **HHP Care Team**.

2. Upon completion of the **HAP**, the **CB-CME** clinical consultant shall review the **HAP** for:

   a. Completeness and accuracy of information provided;

   b. Clinical data;

   c. Implementation progress and update as events unfold; and

   d. Transmit the **HNA**, **HAP**, and care management level (Tier) to CalOptima.

3. A CalOptima clinical consultant shall review the **CB-CME's** returned completed **HNA** and **HAP** and shall evaluate:

   a. Completeness and accuracy of information provided;

   b. Clinical data; and

   c. Implementation progress.

FOR 20191205BOD REVIEW

4. On a daily basis, a CalOptima clinical consultant shall communicate any deficiencies to the **CB-CME**.

5. The CalOptima clinical consultant shall perform regular monitoring to ensure that:

    a. Case conferences occur;

    b. **HAP** is updated as health care events unfolds; and

    c. All other **HHP** care management requirements are completed.

6. On a monthly basis, CalOptima shall provide feedback in aggregate form to the **CB-CME**.

7. CalOptima shall ensure overall oversight of **CB-CMEs** in accordance with CalOptima Policy GG.1619: Delegation Oversight.

8. Clinical Support for Care Coordination

    a. A **CB-CME** clinical consultant or care coordinator shall:

        i. Be available as a clinical resource for care coordination, as needed; and

        ii. Facilitate access to primary care, including advising the **Member**'s PCP of referrals to other agencies, including **LTSS** and behavioral health providers, in accordance with CalOptima Policy GG.1301: Comprehensive Care Management as needed to assist in care coordination.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
CalOptima Direct (COD):	A direct health care program operated by CalOptima that includes both COD-Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to Members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Chronically Homeless Member	A Member with a condition limiting the activities of daily living and who has been continually Homeless for one (1) year or more or had at least four (4) episodes of Homelessness in the past three (3) years. For the purposes of this policy, a Member who is currently residing in transitional housing (as defined in Health and Safety Code section 50675.2) or who has been residing in permanent supportive housing (as defined in Health and Safety Code section 50675.14) for less than two (2) years shall also be considered Chronically Homeless if the Member was Chronically Homeless prior to residence.
Community Based-Care Management Entities (CB-CME)	Providers within the community that have a contractual relationship with CalOptima, or CalOptima acting directly, to provide HHP services to HHP Members.
Finalized Engagement List (FEL)	The list to include the DHCS TEL and CalOptima Member data created by applying risk stratification criteria for CalOptima and CB-CMEs to utilize for Member engagement activities.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network
Health Action Plan (HAP)	A comprehensive individualized care plan with the inclusion of any elements specific to HHP.
Health Homes Program (HHP)	All of the California Medicaid State Plan amendments and relevant waivers that DHCS seeks and CMS approves for the provision of HHP services that provide supplemental services to HHP eligible and enrolled Members coordinating the full range of physical health, behavioral health, and community-based LTSS needed for chronic conditions.
HHP Care Team	The HHP Care Team includes Care Coordinators , a CB-CME HHP Director, Clinical Consultants, a housing navigator (for HHP enrolled Members experiencing Homelessness), and community health workers (recommended, but not required).
HHP Member	A Member who is enrolled, and continuously participating in the CalOptima Health Homes Program, and assigned to a Health Network or CalOptima Direct.
Health Needs Assessment	The assessment CalOptima uses as a health risk assessment for HHP-eligible Members.
Homeless	A Member who, as stated fully in 24 C.F.R. section 91.5, lacks a fixed, regular, and adequate nighttime residence, or who will imminently lose their primary nighttime residence; or are an unaccompanied Member under twenty-five (25) years of age; or a Member who is fleeing dangerous or life-threatening conditions, has no other residence, and lacks the resources to obtain permanent housing.

FOR 2019/20 BOD PREVIEW

Term	Definition
Individual Care Plan (ICP)	A written plan of care developed after an assessment of a Member's social and health care needs that reflects what services the Member will receive to reach and keep his or her best physical, mental, and social well-being.
Individual Housing Transition Services	Services that support a Member's ability to prepare for and transition to housing and are further described in the Center for Medicaid & CHIP Services (CMCS) informational bulletin titled, "Coverage of Housing-Related Activities and Services for Individuals with Disabilities," dated June 26, 2015.
Individual Housing & Tenancy Sustaining Services	Services that support Members in being successful tenants in their housing arrangement, thus able to sustain tenancy, and are further described in the Center for Medicaid & CHIP Services (CMCS) informational bulletin titled "Coverage of Housing-Related Activities and Services for Individuals with Disabilities," dated June 26, 2015.
Long Term Services and Supports (LTSS)	A wide variety of services and supports that help Members meet their daily needs for assistance and improve the quality of their lives. LTSS are provided over an extended period, predominantly in homes and communities, but also in facility-based settings such as nursing facilities. As described in Welfare and Institutions Code section 14186.1, Medi-Cal covered LTSS includes all the following: 1. Community-Based Adult Services (CBAS); 2. In-Home Supportive Services (IHSS); 3. Multipurpose Senior Services Program (MSSP) services; and 4. Skilled nursing facility services and subacute care services.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Notice of Action	Written notice informing a Member of an adverse benefit determination.
Palliative Care	Patient- and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering.
Targeted Case Management	Specialized case management services for Medi-Cal eligible individuals in a defined target population to gain access to needed medical, social, educational, and other services. In prescribed circumstances, TCM is available as a Medi-Cal benefit as a discrete service, as well as through State or local government entities and their contractors.
Targeted Engagement List (TEL)	The lists developed by DHCS of Medi-Cal Members who 1) appear to meet the HHP eligibility criteria based on Member characteristics identified in DHCS administrative data; and 2) are to be considered by CalOptima for engagement.
Well-Managed	Members with HHP chronic conditions that (a) do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation or (b) are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, that determines that the Member's eligible chronic conditions are already Well-Managed – to the extent that HHP services are not medically necessary and will not significantly change the Member's health status. This includes participation in other CalOptima programs that are not Medicaid-funded that may be available and for which the Member is eligible.

FOR 2019 2020 BOD PREVIEW

Term	Definition
Vulnerability Index - Service Prioritization Decision Assistance Tool (VI-SPDAT)	A survey administered both to individuals and families to determine risk and prioritization when providing assistance to Homeless and at-risk of Homelessness persons.

Community Based-Care Management Entity (CB-CME) Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with California Welfare and Institutions Code Health Homes Program (HHP) requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by CalOptima, according to the CB-CME contract with CalOptima;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and CalOptima and other providers involved in the HHP member's care.

Policy:	GG.1350
Title:	**Health Homes Program (HHP) Member Eligibility**
Department:	Medical Affairs
Section:	Case Management
CEO Approval:	Michael Schrader _____
Effective Date:	01/01/2020
Revised Date:	Not Applicable

FOR 20191205BOD REVIEW

I. PURPOSE

This policy describes the process to identify **Member*** eligibility for and prioritization for the CalOptima **Health Homes Program (HHP).**

II. POLICY

A. CalOptima shall implement the **HHP** in two (2) phases, as prescribed by the Department of Health Care Services (DHCS):

1. No sooner than January 1, 2020: For **HHP Members** with eligible chronic physical conditions and substance use disorders; and

2. No sooner than July 1, 2020: For **HHP Members** with eligible serious mental illness conditions.

B. CalOptima shall conduct targeted, progressive outreach during the first eighteen (18) months after the implementation of the **HHP** in accordance with CalOptima Policy GG.1331: Health Homes Program (HHP) Services and Care Management.

1. CalOptima shall evaluate and finalize the list of **Members** meeting **HHP** eligibility criteria for engagement activities by analyzing the **Targeted Engagement List (TEL)**, as provided by DHCS, incorporating Member data from CalOptima's data warehouse to develop a **Finalized Engagement List (FEL)**.

   a. CalOptima and **Community Based Care Management Entities (CB-CMEs)** will coordinate to ensure that **Members** who meet exclusionary criteria are excluded or disenrolled from the **HHP** pursuant to the **HHP** Program Guide and Sections III.A.1.b. and c. of this Policy.

   b. CalOptima shall prioritize **HHP**-eligible **Members** to identify those **Members** most likely to benefit from the **HHP** and who present the greatest opportunity for improvement in care management and reduction in avoidable utilization. CalOptima shall make available a specific **FEL** identifying **HHP**-eligible **Members** to each **CB-CME** for their assigned **Members**. CalOptima will update the **FEL** at least every six (6) months upon receipt of the **TEL** from DHCS.

C. CalOptima shall provide training prior to administration of the **HHP** as well as ongoing training to participating **CB-CME** care management staff members. Training shall encompass **HHP** program overview, **Health Action Plans (HAP)**, care coordination, and care transitions within the **HHP**, community resources and referrals, as well as operational and condition-specific trainings. In addition, CalOptima will provide training on special populations, social determinants of health,

* Terms in **bold** are included in the Glossary.

Back to Agenda

motivational interviewing, trauma-informed care, health literacy assessment, and information sharing.

D. CalOptima and **CB-CMEs** shall conduct outreach, engagement and care coordination activities for **HHP**-eligible **Members** in accordance with CalOptima Policy GG.1331: Health Homes Program Services and Care Management.

E. CalOptima shall conduct oversight of the **CB-CMEs** to ensure that the **CB-CMEs** have implemented and continuously meet the **HHP** requirements, policies and operational processes, including outreach, engagement, and care management functions. CalOptima shall provide regular feedback and reporting of oversight results as described in CalOptima Policy GG.1331: Health Homes Program (HHP) Services and Care Management.

F. CalOptima and **CB-CMEs** shall use medical management and data warehouse systems to:

1. Record **HHP**-eligible **Members** referrals to **HHP**; and

2. Record outreach attempts and **Member** decisions regarding enrolling in **HHP**.

G. CalOptima and **CB-CMEs** shall ensure compliance with all applicable State and federal requirements related to HHP and all HHP requirements determined by DHCS, including but not limited to DHCS All Plan Letter (APL) 18-012: Health Homes Program Requirements and the **HHP** Program Guide.

III. PROCEDURE

A. Eligibility

1. To be eligible for **HHP**, a CalOptima **Member** must be full-scope Medi-Cal, have no share of cost, meet the following eligibility criteria in subsection a. below and not be excluded per the criteria in subsection b. below:

a. **HHP Member** eligibility criteria:

i. Chronic condition criteria: Member must meet at least one (1) condition category below:

a) At least two (2) of the following: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic kidney disease, chronic liver disease, dementia, or substance use disorders; or

b) Hypertension, and one (1) of the following: chronic obstructive pulmonary disease, diabetes, coronary artery disease, or chronic or congestive heart failure; or

c) Asthma; or

d) One (1) of the following: major depression disorders, bipolar disorder, or psychotic disorders (including schizophrenia).

ii. Acuity criteria: **Member** meets at least one (1) acuity criteria below:

a) Has three (3) or more of the **HHP**-eligible chronic conditions; or

FOR 20191205BOD REVIEW

Back to Agenda

b) Has at least one inpatient hospital stay in the last year; or

c) Has visited the emergency department three (3) or more times in the last year; or

d) Is **Chronically Homeless**.

b. **HHP Member** eligibility exclusions:

i. **Members** meeting the following criteria shall be excluded from the **HHP** and, if enrolled, must be disenrolled:

a) **Members** determined through further assessment to be sufficiently **Well-Managed** through self-management or through another program, or the **Member** is otherwise determined not to fit the high-risk eligibility criteria;

b) **Members** whose condition management cannot be improved because the Member is uncooperative;

c) **Members** whose behavior or environment is unsafe for **CB-CME** staff; or

d) **Members** determined to be more appropriate for an alternate care management program.

ii. CalOptima shall screen **Members** to ensure that **Members** participating in any of the following programs are excluded from the **FEL** as these **Members** cannot participate in **HHP**:

a) Skilled Nursing Facility residents with a duration of stay longer than the month of admission and the following month; or

b) Hospice recipients.

iii. CalOptima and the **CB-CME** shall screen **Members** to ensure non-duplication of care coordination services by allowing **Members** who are enrolled in any of the following programs to choose whether to enroll in **HHP** or continue with their current services:

a) County-operated **Targeted Case Management (TCM)**, excluding Specialty Mental Health TCM; or,

b) 1915(c) Home and Community Based Services (HCBS) Waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH); or,

c) Program of All-Inclusive Care for the Elderly (PACE); or

d) Cal Medi-Connect/OneCare Connect.

c. Disenrollment

i. If an **HHP**-eligible **Member** has or develops a condition that excludes him or her from **HHP**, or the **Member** cannot be engaged by CalOptima or the **CB-CME** within a

FOR 20191205BOD REVIEW

Back to Agenda

specified period, or chooses not to participate, or fails to participate actively in **HHP** planning and coordination, CalOptima or the **CB-CME** will disenroll the **HHP**-eligible **Member** from the **HHP**.

ii. If determined by CalOptima or **CB-CME** that the **Member's** eligible chronic conditions have become **Well-Managed** to the extent that **HHP** services are not medically necessary and will not significantly change the **Member's** health status, CalOptima or **CB-CME** will disenroll the **Member** from **HHP**.

iii. CalOptima Direct or **CB-CME** shall send a **Notice of Action (NOA)** for **Members** disenrolled involuntarily from **HHP**. The requirement to send an **NOA** shall not apply in instances when an **HHP**-eligible **Member** chooses or agrees not to participate in **HHP**. An **HHP**-eligible **Member** who declines participation in **HHP** may later choose to participate in the **HHP**.

d. For **Members** who choose not to participate in **HHP**, CalOptima or a **CB-CME** shall close the **Member's** case in the **HHP** and offer the **Member** additional alternative care management services or referrals, as appropriate.

e. **Members** enrolled in Whole Person Care (WPC) may participate in **HHP**; however, there are services, such as care coordination, that can be provided only under **HHP**.

f. **Members** who are dually eligible or have End-Stage Renal Disease (ESRD) or are enrolled in a specific program such as California Children's Services (CCS), Genetically Handicapped Persons Program (GHPP), Specialty Mental Health or Drug Medi-Cal can be referred to **HHP** and receive services through both **HHP** and their current program. CalOptima shall exclude these Members from the **FEL**.

g. **Members** meeting **HHP** eligibility requirements must consent to **HHP** in order to participate. Consent may be oral or in writing and will be documented by CalOptima's and **CB-CME's** Customer Service staff or **HHP Care Team** staff prior to **Member** participation in **HHP**.

IX. GLOSSARY

Term	Definition
Chronically Homeless Member	A Member with a condition limiting the activities of daily living and who has been continually Homeless for one (1) year or more or had at least four (4) episodes of homelessness in the past three (3) years. For the purposes of this policy, a Member who is currently residing in transitional housing (as defined in Health and Safety Code Section 50675.2) or who has been residing in permanent supportive housing (as defined in Health and Safety Code Section 50675.14) for less than two (2) years shall also be considered Chronically Homeless if the Member was Chronically Homeless prior to residence.
Community Based-Care Management Entities (CB-CME)	Providers within the community that have a contractual relationship with a CalOptima, or CalOptima acting directly, to provide HHP services to HHP Members.
Finalized Engagement List (FEL)	The list created from the DHCS TEL combined with CalOptima Member data after removal of members who meet data-based identifiable exclusion criteria. The FEL is prioritized for Member engagement activities and provided to CalOptima's CB-CMEs.
Health Action Plan (HAP)	A comprehensive individualized care plan with the inclusion of any elements specific to HHP.
Health Homes Program (HHP)	All of the California Medicaid State Plan amendments and relevant waivers that DHCS seeks and CMS approves for the provision of HHP services that provide supplemental services to HHP eligible and enrolled Members coordinating the full range of physical health, behavioral health, and community-based LTSS needed for chronic conditions.
HHP Care Team	The HHP Care Team includes Care Coordinators, a CB-CME HHP Director, Clinical Consultants, a housing navigator (for HHP enrolled members experiencing homelessness), and community health workers (recommended, but not required).
HHP Member	A Member that is enrolled, and continuously participating in, CalOptima Health Homes Program, and assigned to a Health Network or CalOptima Direct.
Homeless	A Member who, as stated fully in 24 C.F.R. Section 91.5, lacks a fixed, regular, and adequate nighttime residence, or who will imminently lose their primary nighttime residence; or are an unaccompanied Member under twenty-five (25) years of age; or a Member who is fleeing dangerous or life-threatening conditions, has no other residence, and lacks the resources to obtain permanent housing.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Notice of Action	Written notice informing a Member of an adverse benefit determination.
Targeted Case Management	Specialized case management services for Medi-Cal eligible individuals in a defined target population to gain access to needed medical, social, educational, and other services. In prescribed circumstances, TCM is available as a Medi-Cal benefit as a discrete service, as well as through State or local government entities and their contractors.
Targeted Engagement List (TEL)	The lists developed by DHCS of Medi-Cal Members who 1) appear to meet the HHP eligibility criteria based on member characteristics identified in DHCS administrative data; and 2) are to be considered by CalOptima for engagement.

FOR 2019 12 05 BOD REVIEW

Back to Agenda

Term	Definition
Well-Managed	Members with HHP chronic conditions that (a) do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation or (b) are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, that determines that the Member's eligible chronic conditions are already well-managed – to the extent that HHP services are not medically necessary and will not significantly change the Member's health status. This includes participation in other CalOptima programs that are not Medicaid-funded that may be available and for which the Member is eligible.

FOR 20191205BOD REVIEW

Policy:	FF.4001
Title:	**Special Payments: Health Homes Program Supplemental Payment for Capitated Health Networks**
Department:	Finance
Section:	Accounting
CEO Approval:	Michael Schrader _____
Effective Date:	01/01/2020
Revised Date:	Not Applicable

FOR 20191205BOD REVIEW

I. PURPOSE

This policy defines the criteria for a delegated **Health Network***, acting as a **Community-Based Care Management Entity (CB-CME)**, to receive a supplemental payment for **Health Homes Program (HHP)** services provided to an **HHP**-enrolled **Member** or a separate supplemental payment for engagement activities for a **Member** eligible but not enrolled in **HHP**.

II. POLICY

A. Effective for dates of service on and after January 1, 2020, CalOptima shall make the following supplemental payment to **Health Networks** acting as a **CB-CME** at rates set forth in the **Contract for Health Care Services**, in accordance with the terms and conditions of this Policy:

1. **HHP Core Services Supplemental Capitation Payment**; or

2. **Engagement Activities Supplemental Capitation Payment.**

B. CalOptima shall issue **HHP Core Services Supplemental Capitation Payment** at rates set forth in the **Contract for Health Care Services** when all of the following conditions are met:

1. **Member** is identified as an **HHP**-eligible **Member** as determined by CalOptima based on **HHP** eligibility criteria as defined by the **Department of Health Care Services (DHCS)** and in accordance with CalOptima Policy GG.1350: Health Homes Program (HHP) Member Eligibility; and

2. A Member is enrolled in **HHP**; and

3. A **Member** receives either one of the six (6) **HHP** core services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support services, and referral to community and social supports; and

4. The **HHP** core services are billed and reported to CalOptima consistent with the most recent **HHP** Program Guide or specific regulatory guidance as directed by **DHCS**; and

5. If applicable, the **Health Network** paid the provider for the **HHP** core services; and

6. The **Health Network** authorized such **HHP** core services.

* Terms in **bold** are included in the Glossary.

Back to Agenda

C. If a Member is eligible but not enrolled in HHP, CalOptima shall issue an **Engagement Activities Supplemental Capitation Payment**, which is not otherwise covered by **HHP** under Sections II.B. and III.B.2. of this policy, at rates set forth in the **Contract for Health Care Services** when all the following conditions are met:

1. A **Member** is identified as an **HHP**-eligible **Member** as determined by CalOptima based on **HHP** eligibility criteria as defined by **DHCS** and in accordance with CalOptima Policy GG.1350: Health Homes Program (HHP) Member Eligibility; and

2. A **Member** is not enrolled in **HHP**; and

3. The **Health Network** conducted engagement activities to contact an **HHP**-eligible **Member** on CalOptima's **Finalized Engagement List** for enrollment in **HHP**; and

4. Engagement activities are billed and reported to CalOptima in a manner and form acceptable to CalOptima, including but not limited to identifying the non-enrollment status of the **HHP**-eligible **Member**; and

5. If applicable, the **Health Network** authorized and paid the provider for such engagement activities.

D. CalOptima staff shall ensure the **Engagement Activities Supplement Capitation Payment** set forth in Section II.C. of this policy are paid through CalOptima and not reported to **DHCS** for reimbursement.

E. CalOptima shall limit the provision of **Engagement Activities Supplemental Capitation Payment** as set forth in Section II.C. of this policy to a maximum of three (3) calendar months of billing per one (1) individual **HHP**-eligible **Member** who is not enrolled in **HHP**.

F. The **Health Network** shall submit the following:

1. **HHP Billing Data** for **HHP Core Services Supplemental Capitation Payment** as forth in Section II.B. of this policy through the CalOptima secure File Transfer Protocol (sFTP) site as per CalOptima's and **DHCS'** reporting requirements to CalOptima to process payments.

2. Engagement activities billing data for **Engagement Activities Supplemental Capitation Payment** as set forth in Section II.C. of this policy through the CalOptima sFTP site as per CalOptima's requirements to process payments and **DHCS'** reporting requirements on **HHP**-eligible **Member** that **Health Networks** seek to actively engage.

G. CalOptima shall issue either the **HHP Core Services Supplemental Capitation Payment** to the **Health Network** acting as a **CB-CME** or the **Engagement Activities Supplemental Capitation Payment** within thirty (30) business days from the date of the **HHP Billing Data** or engagement activities billing data submission, as applicable.

H. If a **Health Network** identifies an overpayment of the supplemental payment for **HHP** core services or engagement activities, the **Health Network** shall return the overpayment to CalOptima within sixty (60) calendar days after the date on which the overpayment was identified, and shall notify CalOptima's Accounting Department, in writing, of the reason for the overpayment.

1. CalOptima shall notify the **Health Network** of acceptance, adjustment or rejection of the overpayment no later than three (3) business days after receipt.

FOR 2019 12 05 BOD REVIEW

2. If CalOptima adjusts or rejects the overpayment, CalOptima shall include the overpayment adjustment in the subsequent month's process.

I. In the event **DHCS** or CalOptima identifies that a **Member** was not eligible for **HHP**, CalOptima shall recover payments made to the **Health Network** for that **Member**. In the event **DHCS** or CalOptima identifies that a Member was not enrolled in **HHP**, CalOptima shall recover any **HHP Core Services Supplemental Capitation Payments** made to the **Health Network** for that **Member**.

J. CalOptima may adjust either the **Engagement Activities Supplemental Capitation Payment** or the **HHP Core Services Supplemental Capitation Payment** subject to **DHCS** funding updates.

III. PROCEDURE

A. CalOptima shall review and validate the following:

1. **HHP Billing Data** submitted by the **Health Network** on a monthly basis to determine if the conditions listed in Section II.B. of the policy are met; and

2. Engagement activities billing data submitted by the **Health Network** on a monthly basis to determine if the conditions listed in Section II.C. of the policy are met.

B. CalOptima shall review the **HHP Billing Data** and issue **HHP Core Services Supplemental Capitation Payment** for an **HHP**-eligible and **HHP**-enrolled **Member** who receives at least one (1) core **HHP** services in a calendar month in which the supplemental payment is requested by the **Health Network**, or the **Member** has received an **HHP** core service within one (1) of the prior two (2) calendar months in which the supplemental service month payment is requested by the **Health Network**.

C. CalOptima shall review the engagement activities billing data and issue **Engagement Activities Supplemental Capitation Payment** to a maximum of three (3) calendar months of billing per one (1) individual **HHP**-eligible **Member** who is not enrolled in **HHP**.

D. Upon the validation of the **HHP Billing Data** or engagement activities billing data, as applicable, the CalOptima Accounting Department shall issue the **HHP Core Services Supplemental Capitation Payment** or **Engagement Activities Supplemental Capitation Payment**, as applicable, to the **Health Network** within the timeframe described in Section II.G. of this policy. CalOptima shall provide remittance details to support the payment to **Health Networks** acting as a **CB-CME**. CalOptima and **Health Networks** shall follow the supplemental payment filing schedule below:

1. **Health Networks** shall submit **HHP Billing Data** and/or engagement activities billing data, as applicable, by the fifteenth (15th) calendar day after the month ends to the CalOptima secure File Transfer Protocol (sFTP) site. **Health Networks** shall submit **HHP Billing Data** and/or engagement activities billing data, as applicable, using CalOptima's proprietary format and file naming convention.

2. Upon request by CalOptima, the **Health Network** shall provide, within five (5) business days, detailed support for **HHP Billing Data** and/or engagement activities billing data, as applicable, to the CalOptima Business Integration Department.

FOR 2019 2059 BOD REVIEW

3. The CalOptima Business Integration Department shall notify the **Health Network** of file acceptance or rejection no later than three (3) business days after receipt. CalOptima may reject a file for data completeness or inconsistency issues. If CalOptima rejects a file, **Health Network** shall resubmit a corrected file no later than the fifteenth (15th) calendar day of the following month. Any resubmission after the fifteenth (15th) calendar day of the month will be included in the subsequent month's process.

4. For a complete **HHP Billing Data** and/or engagement activities billing data, as applicable, file accepted by CalOptima, CalOptima shall issue the **HHP Core Services Supplemental Capitation Payment** or **Engagement Activities Supplemental Capitation Payment**, as applicable, based upon the prior calendar month's **HHP Billing Data** or engagement activities billing data, as applicable, no later than the twentieth (20th) calendar day of the current month based upon prior month billing data.

5. If CalOptima receives the first submission and the second resubmission of a previously rejected file after the fifteenth (15th) calendar day of the month, either the **HHP Core Services Supplemental Capitation Payment** or the **Engagement Activities Supplemental Capitation Payment**, as applicable, will be included in the subsequent month's process.

E. A **Health Network** may file a complaint regarding CalOptima's **Engagement Activities Supplemental Capitation Payment** or **HHP Core Services Supplemental Capitation Payment** in accordance with CalOptima Policy HH.1101: CalOptima Provider Complaint.

IX. GLOSSARY

Term	Definition
Community Based-Care Management Entities (CB-CME)	Providers within the community that have a contractual relationship with CalOptima, or CalOptima acting directly, to provide HHP services to HHP Members.
Contract for Health Care Services	The written instrument between CalOptima and Physicians, Hospitals, Health Maintenance Organizations (HMO), or other entities. Contract shall include any Memoranda of Understanding entered into by CalOptima that is binding on a Physician Hospital Consortium (PHC), a physician group under a shared risk contract, or HMO, and DHCS Medi-Cal Managed Care Division Policy Letters.
Department of Health Care Services (DHCS)	The state department in California responsible for administration of the federal Medicaid Program (referred to as Medi-Cal in California).
Engagement Activities Supplemental Capitation Payment	The separate supplemental capitation payment that CalOptima provides to delegated Health Networks acting as a CB-CME for engagement activities for a Member who is HHP eligible and has not enrolled in the HHP.
Finalized Engagement List (FEL)	The list to include the DHCS TEL and CalOptima Member data created by applying risk stratification criteria for CalOptima and CB-CMEs to utilize for Member engagement activities.
HHP Billing Data	Report submitted monthly by a Health Network that contains qualified HHP services as defined by the DHCS Program Guide using CalOptima proprietary format and file naming convention.
HHP Core Services Supplemental Capitation Payment	The supplemental capitation that CalOptima provides to Health Networks acting as a CB-CME for qualifying HHP core services following a Member's enrollment in the HHP.
Health Homes Program (HHP)	All of the California Medicaid State Plan amendments and relevant waivers that DHCS seeks and CMS approves for the provision of HHP services that provide supplemental services to HHP eligible and enrolled Members by coordinating and integrating the full range of physical health, behavioral health, and community-based LTSS needed for chronic conditions.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, and Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members enrolled in that Health Network.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima Medi-Cal program.
Targeted Engagement List (TEL)	The lists developed by DHCS of Medi-Cal Members who 1) appear to meet the HHP eligibility criteria based on member characteristics identified in DHCS administrative data; and 2) are to be considered by CalOptima for engagement.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 3, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

14. Consider Authorizing Amendments to Medi-Cal Health Network Contracts Except Those Associated with AltaMed Health Services Corporation to Include Language for the Health Homes Program and Consider Ratifying Memorandum of Understanding with HCA Related to the Health Homes Program

Contact

Michelle Laughlin, Executive Director, Network Operations (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to:
   a. Amend the CalOptima Medi-Cal Health Network Contracts, except those associated with AltaMed Health Services Corporation, to provide Health Homes Program (HHP) services, including responsibilities as Community Based-Care Management Entities (CB-CMEs), as well as include all subcontracting requirements of the California Department of Health Care Services (DHCS);
   b. Amend the Business Associate Agreements, as necessary, for network data sharing; and
2. Ratify the Behavioral Health Memorandum of Understanding (MOU) amendment with the Orange County Health Care Agency to reflect coordination of services for CalOptima members with mental health conditions who enroll in the Health Homes Program, effective October 1, 2019.

Background/Discussion

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option, which is intended to improve member outcomes and reduce health care costs with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. On June 7, 2018, the CalOptima Board of Directors authorized an amendment to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS) to incorporate implementation of the HHP. Implementation in Orange County is expected to be effective no sooner than January 1, 2020 for CalOptima Medi-Cal members with eligible chronic physical conditions and substance use disorders (SUD), and no sooner than July 1, 2020 for CalOptima Medi-Cal members with Serious Mental Illness (SMI).

HHP Eligible Members and HHP Enrollment

Members with certain chronic physical conditions, SUD and SMI and meeting specified medical condition acuity requirements may qualify to participate in HHP. In order to participate, members must actively choose to enroll into HHP. Based on DHCS eligibility criteria, CalOptima staff plans to actively outreach to Medi-Cal only members potentially eligible for HHP and actively engage these members through written, telephonic, and face-to-face encounters to encourage member participation in HHP. CalOptima anticipates that approximately 30,000 Medi-Cal only members will be potentially eligible for HHP and that approximately 10% -25% of these eligible members will elect to participate. HHP eligible members who are currently in Whole Person Care Pilot program can also elect to enroll in HHP, however services provided under both programs cannot be duplicated. CalOptima's dually eligible

Back to Agenda

members can be referred to participate in HHP by community providers if members meet HHP eligibility criteria.

HHP Network Delivery Model
In developing CalOptima's HHP strategy, staff has considered the impact of these new HHP requirements to CalOptima's current delivery system. The impact analysis has included reviewing staffing resources, process and system enhancements, data exchange, and available community resources for new HHP services, such as accompaniment to appointments, housing transition services and tenancy sustaining services. Many of the CB-CME responsibilities are currently being provided by CalOptima's health networks. For HHP, CalOptima can leverage existing infrastructure to incorporate the new HHP services.

HHP focuses on a small percentage of CalOptima's overall membership. Based on the member distribution of HHP enrollment projections within the health networks, CalOptima staff's initial recommended approach was to provide health networks with an option of participating in HHP; however, this approach would potentially have required members to change their health networks and/or primary care providers when enrolling in HHP. In January 2019, DHCS advised that CalOptima must adhere to HHP expectation of not requiring members to change their health networks and/or primary care providers in order to participate in the HHP. Consequently, CalOptima will require all health networks, including CalOptima Direct and CalOptima Community Network, to participate in HHP and meet CB-CME requirements. This approach will provide an adequate CB-CME network and ensure continuity of members' relationships with their respective health networks and primary care providers.

Health Network Contracts
In order to implement HHP, CalOptima health network contracts will need to be amended, effective January 1, 2020, to include providing HHP services, expectations of CB-CME responsibilities, guidelines for information and data sharing, as well as HHP training. Prior to implementing HHP, CalOptima will coordinate with the health networks regarding the development of infrastructure, policies and procedures, reporting capabilities, staffing ratio requirements, and the ability to deliver core services with added intensity and new select services, where appropriate.

Amendment to County Behavioral Health MOU
Pursuant to DHCS All Plan Letter 18-015: Memorandum of Understanding (MOU) Requirements for Medi-Cal Managed Care Plans, MCPs participating in HHP must coordinate care for members enrolled in HHP who also receive care through the Mental Health Plan (MHP or County). The MOU with the Orange County Health Care Agency is the vehicle for ensuring this coordination. The Behavioral Health MOU between CalOptima and the County of Orange has been amended to reflect that CalOptima and the County agree to coordinate appropriate services for CalOptima members with mental health conditions who are enrolled in HHP.

Back to Agenda

Implementation Efforts
Based on DHCS feedback and in partnership with the health networks, CalOptima staff continues to develop and adjust operational procedures and polices outlining HHP requirements and operational processes impacting member engagement and enrollment, care management, CB-CME network and its responsibilities, staffing requirements and MCP oversight role. Currently, CalOptima's policies impacted by HHP requirements have been submitted to DHCS as part of the HHP regulatory submission requirements. Once CalOptima receives the feedback from DHCS, CalOptima staff will return to the Board with recommendations for approval of policy and procedures impacted by HHP requirements.

Additionally, CalOptima staff will continue to collaborate with Orange County HCA, Health Networks, and other stakeholders for Phase II of the Health Homes Program for SUD, SMI, and homelessness consistent with requirements as specified by DHCS.

Fiscal Impact
The anticipated implementation date for HHP in Orange County is January 1, 2020. Management has included projected revenues and expenses for HHP in the CalOptima Fiscal Year 2019-20 Operating Budget and will for future operating budgets. Total actual revenue and expenses for HHP will depend on the number of members that choose to participate in the program. Based on projected enrollment and draft rates received from DHCS on April 2, 2018, CalOptima is projected to receive $26.3 million in funding for HHP over a three-year period.

Since this is a new program for CalOptima, there is the possibility that the rate development assumptions applied by DHCS may be materially different from CalOptima's actual utilization and expenses. Staff will closely monitor both utilization and expenses and will continue to work with DHCS to ensure that Medi-Cal revenue will be sufficient to support the program.

Rationale for Recommendation
The recommended actions will enable CalOptima to operationally prepare for the anticipated implementation of Health Homes Program, effective January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD and July 1, 2020, for members with SMI.

Concurrence
Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorizing and Directing the Chairman of the Board of Directors to Execute an Amendment to the Primary Agreement with the California Department of Health Care Services (DHCS) Related to the Health Homes Program

Contact

Silver Ho, Executive Director, Compliance, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors (Board) to execute an Amendment to the Primary Agreement between DHCS and CalOptima related to incorporation of language related to the Health Homes Program (HHP).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

On October 2, 2017, DHCS submitted an amendment to the Centers for Medicare & Medicaid Services (CMS) for approval that will incorporate language regarding the Health Homes Program (HHP) into managed care plan (MCP) contracts, including CalOptima's.

The Medicaid Health Home State Plan Option, authorized under Section 2703 of the Patient Protection and Affordable Care Act (ACA), allowed states to create Medicaid health homes to provide supplemental services that coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Among other goals, the HHP was designed with particular attention paid to its ability to produce positive health outcomes for individuals experiencing homelessness. Specifically, the HHP provides six core services:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and

Back to Agenda

- Referral to community and social support services, including housing.

Effective July 1, 2019, CalOptima will begin providing HHP services to members with eligible chronic physical conditions and substance use disorder (SUD); effective January 1, 2020, CalOptima will begin providing HHP services for members with Severe Mental Illness (SMI).

Once CMS concludes its review of DHCS' proposed amendment, DHCS will provide the amendment to CalOptima for prompt signature and return. If the amendment is not consistent with staff's understanding as presented in this document or if it includes significant unexpected language changes, staff will return to the Board of Directors for consideration and/or ratification of staff action.

DHCS has advised that once the contract amendment and applicable APLs are finalized, it will require MCPs to submit readiness deliverables related to the amendment. DHCS' requested deliverables may include Policies and Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. To the extent that CalOptima staff must provide information to DHCS to meet certain deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Following is a general summary of the major changes to expected be addressed in the final contract amendment:

	Requirement
HHP Compliance	Implement the HHP, as directed by DHCS, and in accordance with all State and federal requirements related to HHP and DHCS APLs.
Provider Network	Maintain an adequate network of CB–CMEs to serve HHP members including providers with experience working with people who are chronically homeless. Establish contractual relationships with organizations to provide HHP services including individual housing transition services and individual housing and tenancy sustaining services. Amend the current MOU with the Orange County Health Care Agency to incorporate HHP requirements.
Provider Relations	Ensure that staff providing HHP services complete required training as determined by DHCS and participate in DHCS–operated learning collaboratives.
Eligibility and Enrollment	Enrollment in HHP based on HHP eligibility criteria, as defined by DHCS.

Back to Agenda

	Requirement
HHP Member Services	Includes CB–CME selection, and HHP–specific member information and provider directory requirements.
HHP Covered Services	Includes the provision and coordination of HHP services informed by evidence–based clinical practice guidelines.
Information Sharing	Develop and maintain a method to track and share HHP member information between CB–CMEs, CalOptima, and other providers, as warranted.
Quality Improvement System	Include HHP–specific elements in current Quality Improvement system processes and conduct oversight and regular auditing and monitoring of HHP care management requirements.
Payment	CalOptima shall receive an additional monthly payment for each HHP member who receives HHP services.
Required Reports for the HHP	Submission of reports for HHP in a form and manner specified by DHCS.

The final contract amendment is also expected to contain revisions to Plan rates related to the HHP. On April 2, 2018, DHCS provided draft rates applicable for the first two years of the program. Highlights regarding these rates includes the following:

- Updates to the wage inflation factor, existing care coordination (ECC), and partial dual adjustment.
- Build-up of the lower bound HHP services per-member-per-month (PMPM) for chronic conditions (CC) and SMI enrollees, highlights the salary and caseload assumptions by HHP staff member, along with tier mix assumptions and the provider overhead cost. Rates are displayed in six month increments for the first 30 months of the program.
- Build-up of the lower bound engagement period costs for each member on the Targeted Engagement List (TEL), wage and service time assumptions by HHP staff member, and the assumed average number of months of engagement required for each TEL member.
- Combines information from steps 1 and 2 outlined above to produce the statewide lower bound HHP PMPM for the CC only and SMI populations.
- Application of the county-specific wage index, rural area, and wage inflation factors to the statewide rates. Plan-specific existing ECC PMPM and Partial Dual carve–outs are applied to create lower bound non–full dual rates with lower bound full–dual rates created by carving out the ECC and CCM/BHI PMPMs.
- Blending of CC only and SMI rates based on projected HHP enrollment to produce SFY rates.

Fiscal Impact

The recommended action to execute an amendment to the primary agreement between DHCS and CalOptima to incorporate language regarding the HHP program carries significant financial risks. Based on DHCS' proposed rates, staff estimates that the total annual program costs for

HHP will be $12 million. Management has included projected expenses to implement the HHP program effective July 1, 2019, in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval and will include projected revenue and expenses for the HHP program in future operating budgets. Actual utilization associated with the HHP eligible population is still relatively unknown. Therefore, CalOptima will closely monitor program expenses and continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the HHP program.

Rationale for Recommendation

The addition of the HHP contract amendment to CalOptima's Primary Agreement with DHCS is necessary to ensure compliance with the requirements of participation in the Medi-Cal program.

APPENDIX TO AGENDA ITEM

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

Back to Agenda

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014

Back to Agenda

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

State of California—Health and Human Services Agency
Department of Health Care Services

JENNIFER KENT
DIRECTOR

EDMUND G. BROWN JR.
GOVERNOR

DATE: June 28, 2018

ALL PLAN LETTER 18-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS PARTICIPATING IN THE HEALTH HOMES PROGRAM

SUBJECT: HEALTH HOMES PROGRAM REQUIREMENTS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance regarding the provision of Health Homes Program (HHP) services, and the development and operation of the HHP, to Medi-Cal managed care health plans (MCPs) implementing the HHP.

BACKGROUND:
The Medicaid Health Home State Plan Option is authorized under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the HealthCare and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health care services, behavioral health services, and community-based long term services and supports (LTSS) needed by members with chronic conditions.

In California, Welfare and Institutions Code (WIC) Sections 14127 through 14128 authorize the Department of Health Care Services (DHCS), subject to federal approval, to create the HHP for Medi-Cal members with chronic conditions who meet the eligibility criteria specified by DHCS.

POLICY:
Effective upon the HHP implementation date for each MCP implementing the HHP, the MCP is responsible for providing the following six core HHP services to eligible Medi-Cal members: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services.

The Medi-Cal Health Homes Program Guide (Program Guide) is available on the HHP webpage of the DHCS website.[1] The Program Guide outlines HHP policies, including member eligibility criteria, and contains DHCS' operational requirements and guidelines on HHP. DHCS may update the Program Guide to reflect the latest HHP requirements

[1] The HHP Program Guide can be found at: http://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx

Managed Care Quality and Monitoring Division
1501 Capitol Avenue, P.O. Box 997413, MS 4400
Sacramento, CA 95899-7413
Phone (916) 449-5000 Fax (916) 449-5005
www.dhcs.ca.gov

and guidelines. DHCS will notify MCPs whenever the Program Guide is updated, so that MCPs can obtain the latest information on HHP.

HHP MCPs must meet all program and reporting requirements specified in the Program Guide, all applicable state and federal laws and regulations, MCP contracts, and other DHCS guidance, including, but not limited to, APLs. Additionally, MCPs must communicate all HHP requirements to, and ensure the compliance of, their contracted HHP providers, including Community Based Care Management Entities, as well as any delegated entities and subcontractors.

MCPs are responsible for ensuring that all delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and Policy Letters.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

I. Introduction

The Medi-Cal Health Homes Program: Program Guide (Program Guide) is intended to be a resource for Medi-Cal Managed Care health plans (MCPs) in the development, implementation, and operation of the Health Homes Program (HHP). The Program Guide includes a brief synopsis of the HHP, identifies all HHP requirements, and identifies the documentation MCPs must submit to the Department of Health Care Services (DHCS) as part of the required HHP readiness review. The Program Guide refers to additional guidance documents, when applicable.

The Medicaid Health Home State Plan Option is afforded to states under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years.

In California, Assembly Bill 361 (AB 361) amended the Welfare and Institutions Code to add Sections 14127 and 14128 (W&I Code) which authorizes DHCS, subject to federal approval, to create an ACA Section 2703 HHP for members with chronic conditions. The W&I Code provides that the provisions will be implemented only if federal financial participation (FFP) is available and the program is cost neutral regarding State General Funds. It also requires DHCS to ensure that 1) an evaluation of the program is completed; and 2) a report is submitted to the appropriate policy and fiscal committees of the Legislature within two years after implementation of the program.

The Program Guide has five main sections (Infrastructure, Eligibility, Services, Network, and General Operations) and an appendix. Each section describes the program components and the requirements for those components.

The Program Guide contains the Health Homes Program: Medi-Cal Managed Care Plan Readiness Checklist (Readiness Checklist) in Appendix D. The Readiness Checklist identifies the specific components that MCPs are required to provide to DHCS and identifies the process DHCS will use to determine when the specific components are due to DHCS. The Program Guide provides additional guidance and context regarding HHP readiness requirements.

II. HHP Infrastructure

A. Organizational Model

DHCS' HHP implementation will utilize California's Medi-Cal Managed Care (Managed Care) infrastructure as the foundational building block. HHP services will be provided through the Managed Care delivery system to members enrolled in Managed Care. Managed Care serves approximately 85 percent of full scope Medi-Cal members and is an available choice for all full-scope Medi-Cal members statewide. The small percentage of Medi-Cal Fee-For-Service (FFS) members who meet HHP eligibility criteria may enroll in a Medi-Cal MCP to receive HHP services. HHP services will not be provided through the FFS delivery system.

The MCPs will leverage existing communication with their provider networks to facilitate the care planning, care coordination, and care transition coordination requirements of HHP, including assignment of each HHP member to a primary care provider. The MCPs' existing communication and reporting capabilities will be utilized to perform health promotion, encounter reporting, and quality of care reporting. MCPs also have existing relationships with the Medi-Cal county specialty mental health plans (MHPs) in each county to facilitate HHP care coordination.

The HHP will be structured as a health home network functioning as a team to provide care coordination. This network includes the MCP, one or more Community-Based Care Management Entities (CB-CMEs), and contractual or non-contractual relationships with other Community-Based Organizations (CBOs) to provide linkages to community and social support services, as needed (taken together as the HHP). The HHP network will be developed to meet the following goals:

- Ensure that sufficient HHP funds are available to support care management at the point of care in the community
- Ensure that providers with experience serving frequent utilizers of health services and individuals experiencing homelessness are available as needed
- Leverage existing county and community provider care management infrastructure and experience, where possible and appropriate
- Forge new relationships with community provider care management entities, where possible and appropriate
- Utilize community health workers in appropriate roles.

The HHP will serve as the central point for coordinating patient-centered care and will be accountable for:

- Improving member outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based Long Term Services and Supports (LTSS), oral health services, palliative care, and social support needs
- Reducing avoidable health care costs, including hospital admissions/readmissions, ED visits, and nursing facility stays

Improving member outcomes and reducing health care costs will be accomplished through the partnership between the MCP and the CB-CME, either through direct provision of HHP services,

or through contractual or non-contractual arrangements with appropriate entities that will be providing components of the HHP services and planning and coordination of other services.

1) Medi-Cal Managed Care Plan Responsibilities

HHP MCPs will be responsible for the overall administration of the HHP. They will have an HHP addendum to an existing contract with DHCS. Payment will flow from DHCS to the MCP and from the MCP to the CB-CMEs for the provision of HHP services. The MCP may also use HHP funding to pay providers, including but not limited to, the member's primary care physician, behavioral health providers, or other specialists, who are not included formally on the CB-CME's multi-disciplinary care team, for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the Health Action Plan (HAP). These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).

The MCP will have strong oversight and will perform regular auditing and monitoring activities to ensure that case conferences occur, the HAP is updated as health care events unfold, and all other HHP care management requirements are completed.

The MCP's care management department can be leveraged to train, support, and qualify CB-CMEs. (MCPs currently perform similar monitoring, training and auditing with MCP-delegated entities that have care management responsibilities under Cal MediConnect and other programs.)

MCP utilization departments will assist the CB-CMEs with information on admissions and discharges, and ensure timely follow-up care. MCP health care informatics analytics teams will provide meaningful, actionable data with identification of complex members and care gaps and other pertinent data that the health plan network can access. This will be provided to the CB-CMEs to assist with HAP care planning and ongoing goals for the member.

Many MCPs are exploring housing options to provide immediate housing post discharge and find permanent housing for members who are experiencing homelessness. Stakeholders include the health plan, hospitals, local housing authorities, and community-based organizations. Achieving stable housing for HHP members is a noted best practice from the national experience for achieving meaningful improvements in health and program cost effectiveness.

In counties selected for HHP implementation, Medi-Cal MCPs (Medicaid only benefit plans) are required to participate in HHP and serve as an HHP MCP. DHCS will work with these organizations to prepare for the implementation of HHP and to determine network adequacy and readiness.

2) Duties

MCPs will be expected to perform the following duties/responsibilities to the extent their information systems allow or through other available methods:

- Attribute assigned HHP members to CB-CMEs;
- Sub-contract with CB-CMEs for the provision of HHP services and ensure that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals;

- Notify the CB-CMEs of inpatient admissions and ED visits/discharges;
- Track and share data with CB-CMEs regarding each member's health history;
- Track CMS-required quality measures and state-specific measures (see *Reporting Template* and *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2017 Reporting,* or later *document*);
- Collect, analyze, and report financial measures, health status and other measures and outcome data to be reported during the State's evaluation process (see *Reporting Template*)
- Provide member resources (e.g. customer service, member grievances) relating to HHP
- Add functionality to the MCP's customer service line and 24/7 nurse line or other available call line so that members' HHP needs are also addressed (e.g. equip nurse line with educational materials to train them about HHP, nurse line receives the updated list of HHP members and their assigned care coordinator, etc.)
- Receive payment from DHCS and disperse funds to CB-CMEs through collection and submission of claims/encounters by the CB-CME and per the contractual agreement made between the MCP and the CB-CME
- Establish and maintain a data-sharing agreement with other providers, with whom MCP shares HHP member health information, that is compliant with all federal and state laws and regulations
- Ensure access to timely services for HHP members, including seeing HHP members after discharge from an acute care stay.
- Encourage participation by HHP members' MCP contracted providers who are not included formally on the CB-CME's multi-disciplinary care team, but who are responsible for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the HAP. These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).
- Develop CB-CME training tools as needed or preferred, in addition to DHCS-provided training
- Develop CB-CME reporting capabilities
- Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

3) Community Based Care Management Entity Responsibilities

CB-CMEs will serve as the frontline provider of HHP services and will be rooted in the community. MCPs will certify and select organizations to serve as CB-CMEs through a process similar to current MCP provider certification and will contract with selected entities. DHCS will not require MCP use of a standardized assessment tool. DHCS will provide general guidelines

and requirements, including examples of best practice tools that the MCP can use at their option to select, qualify, and contract with CB-CMEs.

The MCP's development of a network of CB-CMEs should seek to promote HHP goals, with particular attention to the following goals:

- Ensuring that care management delivery and sufficient HHP funding are provided at the point of care in the community;
- Ensuring that providers with experience serving frequent utilizers of health services, and those experiencing homelessness, are available as needed per AB 361 requirements;
- Leveraging existing county and community provider care management infrastructure and experience, where possible and appropriate; and
- OPTIONAL - Utilizing community health workers in appropriate roles (for more information, see Multi-Disciplinary Care Team below).

CB-CMEs are intended to serve as the single community-based entity with responsibility, in conjunction with the MCP, for ensuring that an assigned HHP member receives access to HHP services. It is also the intent of the HHP to provide flexibility in how the CB-CMEs are organized. CB-CMEs may subcontract with other entities or individuals to perform some CB-CME duties. Regardless of subcontracting arrangements, CB-CMEs retain overall responsibility for all CB-CME duties that the CB-CME has agreed to perform for the MCP, either through direct CB-CME service or service the CB-CME has subcontracted to another provider. DHCS encourages MCPs and CB-CMEs to utilize this flexibility, where needed, to achieve HHP goals, and in particular the four network goals noted above.

In most cases, the CB-CME will be a community primary care provider (PCP) that serves a high volume of HHP eligible members. If the CB-CME is not the member's MCP-assigned PCP, then the MCP and the CB-CME must demonstrate how the CB-CME will maintain a strong and direct connection to the PCP and ensure the PCP's participation in HAP development and ongoing coordination. For all members, and in all areas, the MCP must demonstrate that it is maximizing the four network goals noted above to the full extent possible through its network development and HHP policies. Regardless of how HHP networks are structured by a MCP within a county, it is expected that all HHP members will receive access to the same level of service, in accordance with the service tier that is appropriate for their needs and HHP service requirements.

DHCS' readiness review will include a detailed review of the MCP's HHP network. In situations in which the MCP can demonstrate that there are insufficient entities rooted in the community that are capable or willing to provide the full range of CB-CME duties, the MCP may perform needed CB-CME duties to fill a demonstrated service gap. As an alternative, the MCP may subcontract with other entities to perform these duties. In addition, the MCP may provide, or subcontract with another community-based entity to provide, specific CB-CME duties to assist a CB-CME to provide the full range of CB-CME duties when this MCP assistance is the best organizational arrangement to promote HHP goals. If the MCP utilizes this flexibility, the MCP must demonstrate to DHCS that it is maximizing the four network goals noted above to the

extent possible, and how it will maintain a strong and direct connection between HHP services and the primary care provider.

The MCP may allow an individual community provider to become a CB-CME after the implementation date of the HHP in their county if the community provider requires additional time to develop readiness to take on some, or all, of the CB-CME duties. The MCP may also allow a CB-CME to expand the range of the CB-CME's contracted CB-CME duties over time as readiness allows.

CB-CMEs that MCPs contract with to deliver HHP care coordination services are not required to be enrolled as Medi-Cal providers, so long as the entities in question are not providing medical and/or clinical services in their function as an HHP CB-CME to Medi-Cal members participating in the Program.

4) Community-Based Care Management Models

The main goal of the HHP is Comprehensive Care Management. The MCP, acting as administrator and providing oversight, will build an HHP network in which a member can choose the CB-CME they want for their care coordination. Given specific challenges in certain areas, including the shortage of primary care and specialist providers, technology infrastructure/adoption, and the large Medi-Cal population, a single model is not practical. Assessments of potential HHP providers, and MCP knowledge of available resources in their areas, will form the basis for determining whether the provider's HHP-eligible members are best served by Model I, II, or III below.

The three community-based care management models below are acceptable for MCP network development and address the realities that exist in various areas of the state regarding available providers. The three models will allow the flexibility to ensure service to all HHP members throughout the diverse geographic regions in California, regardless of location and type of provider empanelment. Further, all three will allow increased care coordination to occur as close to the point of care delivery as possible in the community.

Model I

The first and ideal model embeds care coordinators on-site in community provider offices, acting as CB-CMEs. The expectation is that the community provider will employ these staff, but in some cases they may be employed by the MCP. This model will serve the great majority of HHP members because most HHP eligible individuals are served by high-volume providers in urban areas. The MCP will complete a provider assessment to determine 1) the extent to which the community provider will need to recruit and hire additional staff to meet the HHP care coordinator resource requirements, and 2) what CB-CME duties the community provider can, and is willing to, perform. The HHP will only utilize Model II or III where the provider assessment indicates that Model I is not viable.

Model II

The second model addresses the smaller subset of eligible members who are served by low-volume providers, in either rural or urban areas, who do not wish to, or cannot, take on the responsibility of hiring and housing care coordinators on site. For this model, the care management would be handled by another community-based entity or a staff member within

the existing MCP care management department, which will act as the CB-CME. This model will handle HHP members who are not assigned to a county clinic or medical practice under Model I.

Model III

The third model serves the few members who live in rural areas and are served by low-volume providers. In this hybrid model, care coordinators located in regional offices, utilizing technology and other monitoring and communication methods, such as visiting the member at their location, will become CB-CMEs who can be geographically close to rural members and/or those members who are assigned to a solo practitioner who may not have enough membership to meet Model I or II.

B. Staffing

1) Care Coordinator Ratio

The aggregate minimum care coordinator ratio requirement is 60:1 for the whole enrolled population (in each of the MCPs' counties if the MCP has more than one county) as measured at any point in time.

To develop the aggregate population care coordinator ratio requirement, DHCS assumed that (after two years):

- *Tier 1 – 20% of population; care coordinator ratio of 10:1*
- *Tier 2 – 30% of population; care coordinator ratio of 75:1*
- *Tier 3 – 50% of population; care coordinator ratio of 200:1*

2) Multi-Disciplinary Care Team

The multi-disciplinary care team consists of staff employed by the CB-CME that provides HHP funded services. DHCS requires the team members listed in Table 1 below to participate on all multi-disciplinary care teams. The team will primarily be located at the CB-CME organization, except as noted above regarding model flexibility. The MCP may organize its provider network for HHP services according to provider availability, capacity, and network efficiency, while maximizing the stated HHP goals and HHP network goals. This MCP network flexibility includes centralizing certain roles that could be utilized across multiple CB-CMEs – and particularly low-volume CB-CMEs – for efficiency, such as the director and clinical consultant roles. An HHP goal is to provide HHP services where members seek care. Staffing and the day-to-day care coordination should occur in the community and in accordance with the member's preference.

In addition to required CB-CME team members, the MCP may choose to also make HHP-funded payments to providers that are not explicitly part of the CB-CME team, but who serve as the HHP member's physical and/or behavioral health service providers, for participation in case conferences and information sharing in order to support the development and maintenance of the HHP member's HAP. As an example, an MCP could use HHP care coordination funding to pay a member's specialist provider, who is not a contracted member of the CB-CME Multi-Disciplinary Care Team, for the time they spend participating in a case conference with the HHP care coordinator for the purpose of completing the member's HAP. The MCP may make such payments directly to the providers or through their CB-CME.

Table 1: Multi-Disciplinary Care Team Qualifications and Roles

Required Team Members	Qualifications	Role
Dedicated Care Coordinator (CB-CME or by contract)	Paraprofessional (with appropriate training) or licensed care coordinator, social worker, or nurse	• Oversee provision of HHP services and implementation of HAP • Offer services where the HHP member lives, seeks care, or finds most easily accessible and within MCP guidelines • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Work with hospital staff on discharge plan • Engage eligible HHP members • Accompany HHP member to office visits, as needed and according to MCP guidelines • Monitor treatment adherence (including medication) • Provide health promotion and self-management training • Arrange transportation • Call HHP member to facilitate HHP member visit with the HHP care coordinator
HHP Director (CB-CME)	Ability to manage multi-disciplinary care teams	• Have overall responsibility for management and operations of the team • Have responsibility for quality measures and reporting for the team
Clinical Consultant (CB-CME or MCP)	Clinician consultant(s), who may be primary care physician, specialist physician, psychiatrist, psychologist, pharmacist, registered nurse, advanced practice nurse, nutritionist, licensed clinical social worker, or other behavioral health care professional	• Review and inform HAP • Act as clinical resource for care coordinator, as needed • Facilitate access to primary care and behavioral health providers, as needed to assist care coordinator

Required Team Members	Qualifications	Role
Community Health Workers (CB-CME or by contract) (Recommended but not required)	Paraprofessional or peer advocate Administrative support to care coordinator	• Engage eligible HHP members • Accompany HHP member to office visits, as needed, and in the most easily accessible setting, within MCP guidelines • Health promotion and self-management training • Arrange transportation • Assist with linkage to social supports • Distribute health promotion materials • Call HHP member to facilitate HHP visit with care coordinator • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Monitor treatment adherence (including medication)
For HHP Members Experiencing Homelessness: Housing Navigator (CB-CME or by contract)	Paraprofessional or other qualification based on experience and knowledge of the population and processes	• Form and foster relationships with housing agencies and permanent housing providers, including supportive housing providers • Partner with housing agencies and providers to offer the HHP member permanent, independent housing options, including supportive housing • Connect and assist the HHP member to get available permanent housing • Coordinate with HHP member in the most easily accessible setting, within MCP guidelines (e.g. could be a mobile unit that engages members on the street)

Additional team members, such as a pharmacist or nutritionist, may be included on the multi-disciplinary care team in order to meet the HHP member's individual care coordination needs. HAP planning and coordination will require participation of other providers who may not be part of the CB-CME multi-disciplinary care team. It is the responsibility of the MCP to ensure their cooperation.

C. Health Information Technology/Data

Health Information Technology (HIT)/Health Information Exchange (HIE) are important components of information sharing in the HHP.

MCPs should consider the following potential uses of HIT/HIE (developed by CMS) in the development of HHP information sharing policies and procedures for MCPs, CB-CMEs, and members:

1) Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management –standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement.
2) Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information.
   - Telehealth services including remote patient monitoring.
3) Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.
4) Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.
5) Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence).
   - Ability to electronically refer patients to necessary services.

Organizations that are covered by the Meaningful Use requirements should utilize EHR/HIT/HIE to meet the applicable goals noted above, where possible. Organizations that are not covered by Meaningful Use may need a Medi-Cal MCP to support the achievement of applicable goals where possible. In some areas relatively few providers have EHRs; there is limited interoperability between the systems; and, where there is an HIE in the area, the configuration may not be designed for the HHP requirements. If the technology environment does not fully support the EHR/HIT/HIE activities noted above in some geographic areas, or with certain providers, the MCP will determine procedures to share information that is critical for HHP services through other methods.

III. HHP Member Eligibility

A. Target Population

The HHP is intended to be an intensive set of services for a small subset of Medi-Cal members who require coordination at the highest levels. DHCS worked with a technical expert workgroup to design eligibility criteria that identify the highest-risk three to five percent of the Medi-Cal population who present the best opportunity for improved health outcomes through HHP services. These criteria include both 1) a select group of International Classification of Diseases (ICD)-9/ICD-10 codes for each eligible chronic condition, and 2) a required high level of acuity/complexity.

B. HHP Eligibility Criteria and the Targeted Engagement List

Using administrative data, DHCS will develop a Targeted Engagement List (TEL) of Medi-Cal MCP members who are eligible for the HHP based on the DHCS-developed eligibility criteria noted below. The TEL will be refreshed every six months using the most recent available data. The MCP will actively attempt to engage the members on the TEL. (See Member Assignment, for more information on MCP activity to engage eligible members.)

To be eligible for the HHP, a member must be full-scope, have no share of costs, and meet the following eligibility criteria. See Appendix B for *Targeted Engagement List data specification document* and specific ICD 10 codes that define these eligible conditions:

Eligibility Requirement	Criteria Details
1. Chronic condition criteria	Has a chronic condition in <u>at least one</u> of the following categories: • **At least two of the following**: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic liver disease, chronic renal (kidney) disease, dementia, substance use disorders; OR • **Hypertension and one of the following:** chronic obstructive pulmonary disease, diabetes, coronary artery disease, chronic or congestive heart failure; OR • **One of the following:** major depression disorders, bipolar disorder, psychotic disorders (including schizophrenia); OR • **Asthma**
2. Meets at least 1 acuity/complexity criteria	• Has at least 3 or more of the HHP eligible chronic conditions; OR • At least one inpatient hospital stay in the last year; OR • Three or more emergency department visits in the last year; OR • Chronic homelessness.

The TEL may include other criteria that are intended to ensure that HHP resources are targeted to Medi-Cal members who present the best opportunity for improved health outcomes through HHP services. The DHCS TEL is intended to be used by MCPs as a list of people who are likely to be eligible for the program based on the data available to DHCS; it is not, on its own, a comprehensive eligibility list.

Acuity Eligibility Criteria

Eligibility for HHP requires that members have the specified conditions and at least one of the four acuity criteria listed above. MCPs must have a process to verify eligibility as part of the enrollment process. MCPs can do this through reviews of the MCPs data and/or through other methods including discussion/assessment with the member or the member's providers. This additional verification is not only to confirm that the member meets eligibility, but also that they do not have exclusionary criteria such as enrollment in another duplicative care management program or being "well managed." For example, a member's qualifying utilization may have been for something unrelated to management of a chronic condition, such as maternity.

MCPs should make a preliminary eligibility determination based on their data prior to proceeding with proactive outreach and engagement. MCPs may rely on the TEL to verify that the member meets the eligibility criteria for having the eligible chronic conditions and the acuity criteria relating to having three or more of the eligible chronic conditions; however, the MCP should verify utilization acuity criteria (within 12 months) using the MCP's own data.

MCPs are required to review their own data for members who are on the TEL and should not proactively outreach members whose qualifying utilization is: 1) only found in the oldest four months of the TEL look-back period; and 2) unrelated to the HHP chronic conditions. MCPs may also apply their own additional prioritization policies upon approval from DHCS.

At the point in time when the MCP makes this data-driven preliminary eligibility determination, the member will be considered eligible for the program regardless of how long it takes the member to agree to enroll. The member may be enrolled for at least one month to complete the member assessment and care plan process. If additional information is determined during the assessment/care plan process that negates prior eligibility data or confirms an exclusionary criteria, then the member will be disenrolled.

Homeless Eligibility Criteria

Chronic homelessness for HHP is defined in W&I Code section 14127(e), and states *"a chronically homeless individual means a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more, or had at least four episodes of homelessness in the past three years. For purposes of this article, an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing, as defined in Section 50675.14 of the Health and Safety Code, for less than two years shall be considered a chronically homeless individual if the individual was chronically homeless prior to his or her*

residence." For the purpose of verifying HHP acuity eligibility criteria, the portion of this definition which states "with a condition limiting his or her activities of daily living" is satisfied by verification that the member has one of the HHP-eligible conditions. No further assessment of activities of daily living limitation is required to establish that the member meets the portion of this eligibility acuity criterion underlined above. In addition, a member meets the HHP chronically homeless acuity eligibility criteria if the member meets either the W&I Code section 14127(e) definition or the Housing and Urban Development (HUD) definition.

People Excluded from Targeted Engagement List

The following exclusions will be applied either through MCP data analysis for individual members or through assessment information gathered by the Community-Based Care Management Entity (CB-CME) (see *Reporting Template-Instructions* for additional information):

- Members determined through further assessment to be sufficiently well managed through self-management or through another program, or the member is otherwise determined to not fit the high-risk eligibility criteria
- Members whose condition management cannot be improved because the member is uncooperative
- Members whose behavior or environment is unsafe for CB-CME staff
- Members determined to be more appropriate for an alternate care management program

IV. Health Home Program Services

This section describes the six HHP services. HHP arranges for and coordinates interventions that address the medical, social, behavioral health, functional impairment, cultural and environmental factors affecting health and health care choices available to HHP members.

All HHP engagement and services can be provided to members and family/support persons through e-mails, texts, social media, phone calls, letters, mailings, community outreach, and, to the extent and whenever possible, in-person meetings where the member lives, seeks care, or is accessible. Communication and information must meet health literacy standards and trauma-informed care standards and be culturally appropriate.

A. Comprehensive Care Management

Comprehensive care management involves activities related to engaging members to participate in the HHP and collaborating with HHP members and their family/support persons to develop their comprehensive, individualized, person-centered care plan, called a Health Action Plan (HAP). The HAP incorporates the member's needs in the areas of physical health, mental health, SUD, community-based LTSS, oral health, palliative care, trauma-informed care, social supports, and, as appropriate for individuals experiencing homelessness, housing. The HAP is based on the needs and desires of the member and will be reassessed based on the member's progress or changes in their needs. It will also track referrals. The HAP must be completed within 90 days of HHP enrollment.

Comprehensive care management may include case conferences to ensure that the member's care is continuous and integrated among all service providers.

Comprehensive care management services include, but are not limited to:

- Engaging the member in HHP and in their own care
- Assessing the HHP member's readiness for self-management using screenings and assessments with standardized tools
- Promoting the member's self-management skills to increase their ability to engage with health and service providers
- Supporting the achievement of the member's self-directed, individualized health goals to improve their functional or health status, or prevent or slow functional declines
- Completing a comprehensive health risk assessment to identify the member's needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services
- Developing a member's HAP and revising it as appropriate
- Reassessing a member's health status, needs and goals
- Coordinating and collaborating with all involved parties to promote continuity and consistency of care
- Clarifying roles and responsibilities of the multi-disciplinary team, providers, member and family/support persons

1) Care Management Assessment Tools

To the extent possible and reasonable, DHCS will align new requirements for care management methods and tools with those currently used by MCPs for care coordination. MCPs have extensive experience administering Health Risk Assessments and developing care plans.

MCPs may use current Cal MediConnect or Seniors and Persons with Disabilities (SPD) care management tools, such as the Health Risk Assessment and Individualized Care Plan, as a base for developing health assessments and completing the HAP for HHP members. For the implementation of HHP, any assessment or planning elements that are required in the HHP and are not already included in an existing tool and/or process must be added to the existing MCP assessment and planning tools. Such elements could include an assessment of social determinants of health, including an indicator of housing instability, a need for palliative care, and trauma-informed care needs.

The HAP is defined as the Individualized Care Plan with the inclusion of any elements specific to HHP. When a member begins receiving HHP services, the member will receive a comprehensive assessment and a HAP will be created. The HAP will be reassessed at regular intervals and when changes occur in the member's progress or status and health care needs.

The assessments must be available to the primary care physicians, mental health service providers, substance use disorder services providers, and the care coordinators for all HHP members. In conjunction with the primary care physician, other multi-disciplinary care team members, and any necessary ancillary entities such as county agencies or volunteer support entities, the care coordinator will work with the HHP member and their family/support persons to develop a HAP.

2) Duties

MCPs in partnership with CB-CMES must be able to carry out the following comprehensive care management services:

Member Engagement and Support

a. MCPs must ensure that CB-CMEs accomplish the following:
    1) Engage the member in the HHP and their own care
    2) Assess the HHP member's readiness for self-management using standardized screenings and assessments with standardized tools
    3) Track and promote the member's self-management skills to increase their ability to engage with health and service providers
    4) Support the achievement of the member's self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines

Member Assessment

a. MCPs/CB-CMEs must have a process for assessing and reassessing the member to identify their needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services. The process should identify:
    1) How their tools align with current tools used for the defined population and avoid unnecessary duplication of assessment?
    2) How trauma-informed care best practices will be utilized?
    3) Whether the assessment process and HAP are standard across the CB-CMEs or whether variations exist.
b. MCPs/CB-CMEs must have a process and tools for developing the member's HAP and revising, as appropriate
c. MCPs/CB-CMEs must develop and use the HAP and screening and assessment tools, and develop processes for:
    1) How the HAP is shared with other providers and if it can be shared electronically; and
    2) How the HAP will track referrals and follow ups.

Coordination

a. MCPs/CB-CMEs must have a process for integrating community social supports, long term support services, mental health, substance use disorder services, palliative care, trauma-informed care, oral health, and housing services into a member's HAP
b. MCP must ensure that the CB-CMEs:
    1) Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and
    2) Clarify roles and responsibilities of the multi-disciplinary team, providers, HHP member, and family/support persons.
c. MCPs must have policies and procedures to ensure that members are not receiving the same services from another state care management program (see non-duplication of care coordination services for more information).

B. Care Coordination

Care coordination includes services to implement the HHP member's HAP. Care coordination services begin once the HAP is completed. HHP care coordination services will integrate with current MCP care coordination activities, but will require a higher level of service than current

MCP requirements. Care coordination may include case conferences in order to ensure that the member's care is continuous and integrated among all service providers. All program staff who provide HHP services are required to complete CB-CME/care coordinator training as discussed in Appendix C.

Care coordination services address the implementation of the HAP and ongoing care coordination and include, but are not limited to:

1) Member Support

- Working with the member to implement their HAP
- Assisting the member in navigating health, behavioral health, and social services systems, including housing
- Sharing options with the member for accessing care and providing information to the member regarding care planning
- Identifying barriers to the member's treatment and medication management adherence
- Monitoring and supporting treatment adherence (including medication management and reconciliation)
- Assisting in attainment of the member's goals as described in the HAP
- Encouraging the member's decision making and continued participation in HHP
- Accompanying members to appointments as needed

2) Coordination

- Monitoring referrals, coordination, and follow ups to ensure needed services and supports are offered and accessed
- Sharing information with all involved parties to monitor the member's conditions, health status, care planning, medications usages and side effects
- Creating and promoting linkages to other services and supports
- Helping facilitate communication and understanding between HHP members and healthcare providers

MCPs in partnership with CB-CMEs must develop, and ensure the implementation of, policies and procedures to support CB-CME coordination efforts to:

a. Maintain frequent, in-person contact between the member and the care coordinator when delivering HHP services. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled members per quarter. DHCS used the following assumptions to develop the aggregate population visit requirement listed above:
    i. After two years, the population equals: 20% in tier 1, 30% in tier 2, 50% in tier 3
    ii. Tier 1 – two in-person visits per month
    iii. Tier 2 – 1 in-person visit per month
    iv. Tier 3 – 1 in-person visit per quarter
b. Ensure members see their PCP within 60 days of enrollment in HHP. This is a recommended best practice only – not service requirement.
c. Ensure availability of support staff to complement the work of the Care Coordinator.
d. Ensure availability of providers with experience working with people who are chronically homeless.
e. Support screening, referral and co-management of individuals with both behavioral health and physical health conditions.

f. Link eligible individuals who are homeless or experiencing housing instability to permanent housing, such as supportive housing.
g. Maintain an appointment reminder system for members. This is a recommended best practice only – not a service requirement.
h. Identify and take action to address member gaps in care through:
    i. Assessment of existing data sources for evidence of care appropriate to the member's age and underlying chronic conditions
    ii. Evaluation of member perception of gaps in care
    iii. Documentation of gaps in care in the member case file
    iv. Documentation of interventions in HAP and progress notes
    v. Findings from the member's response to interventions
    vi. Documentation of discussions of members care goals
    vii. Documentation of follow-up actions, and the person or organization responsible for follow-up

C. Health Promotion

Health promotion includes services to encourage and support HHP members to make lifestyle choices based on healthy behavior, with the goal of motivating members to successfully monitor and manage their health. Members will develop skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

Health promotion services include, but are not limited to:

- Encouraging and supporting health education for the member and family/support persons
- Assessing the member's and family/support persons' understanding of the member's health condition and motivation to engage in self-management
- Coaching members and family/support persons about chronic conditions and ways to manage health conditions based on the member's preferences
- Linking the member to resources for: smoking cessation; management of member chronic conditions; self-help recovery resources; and other services based on member needs and preferences
- Using evidence-based practices, such as motivational interviewing, to engage and help the member participate in and manage their care

D. Comprehensive Transitional Care

Comprehensive transitional care includes services to facilitate HHP members' transitions from and among treatment facilities, including admissions and discharges. In addition, comprehensive transitional care reduces avoidable HHP member admissions and readmissions. Agreements and processes to ensure prompt notification to the member's care coordinator and tracking of member's admission or discharge to/from an ED, hospital inpatient facility, residential/treatment facility, incarceration facility, or other treatment center are required. Additionally, MCPs or CB-CMEs must provide information to hospital discharge planners about HHP.

Comprehensive transitional care services include, but are not limited to:

- Providing medication information and reconciliation
- Planning timely scheduling of follow-up appointments with recommended outpatient providers and/or community partners
- Collaborating, communicating, and coordinating with all involved parties
- Easing the member's transition by addressing their understanding of rehabilitation activities, self-management activities, and medication management
- Planning appropriate care and/or place to stay post-discharge, including temporary housing or stable housing and social services
- Arranging transportation for transitional care, including to medical appointments, as per NMT and NEMT policy and procedures
- Developing and facilitating the member's transition plan
- Preventing and tracking avoidable admissions and readmissions
- Evaluating the need to revise the member's HAP
- Providing transition support to permanent housing

E. Individual and Family Support Services

Individual and family support services include activities that ensure that the HHP member and family/support persons are knowledgeable about the member's conditions with the overall goal of improving their adherence to treatment and medication management. Individual and family support services also involve identifying supports needed for the member and family/support persons to manage the member's condition and assisting them to access these support services.

Individual and family support services may include, but are not limited to:

- Assessing the strengths and needs of the member and family/support persons
- Linking the member and family/support persons to peer supports and/or support groups to educate, motivate and improve self-management
- Connecting the member to self-care programs to help increase their understanding of their conditions and care plan
- Promoting engagement of the member and family/support persons in self-management and decision making
- Determining when member and family/support persons are ready to receive and act upon information provided and assist them with making informed choices
- Advocating for the member and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals
- Accompanying the member to clinical appointments, when necessary
- Identifying barriers to improving the member's adherence to treatment and medication management
- Evaluating family/support persons' needs for services

F. Referral to Community and Social Supports

Referral to community and social support services involves determining appropriate services to meet the needs of HHP members, identifying and referring members to available community resources, and following up with the members.

Community and social support referral services may include, but are not limited to:

- Identifying the member's community and social support needs
- Identifying resources and eligibility criteria for housing, food security and nutrition, employment counseling, child care, community-based LTSS, school and faith-based services, and disability services, as needed and desired by the member
- Providing member with information on relevant resources, based on the member's needs and interests.
- Actively engaging appropriate referrals to the needed resources, access to care, and engagement with other community and social supports
- Following up with the member to ensure needed services are obtained
- Coordinating services and follow-up post engagement
- Checking in with the members routinely through in-person or telephonic contacts to ensure they are accessing the social services they require
- Providing Individual Housing Transition Services, including services that support an individual's ability to prepare for and transition to housing
- Providing Individual Housing and Tenancy Sustaining Services, including services that support the individual in being a successful tenant in their housing arrangement and thus able to sustain tenancy

V. Health Homes Program Network

A. MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities:

a. Develop and implement criteria for network sufficiency determination, including county-wideness and number of projected members
b. Develop an adequate network of Community-Based Care Management Entities (CB-CMEs) in each of the MCP's implemented counties for HHP to serve enrolled members
c. Design and implement a process for determining the qualifications of organizations to meet CB-CME standards and for providing support for CB-CMEs, including:
    1. Identify organizations who meet the CB-CME standards
    2. Provide the infrastructure and tools necessary to support CB-CMEs in care coordination
    3. Gather and share HHP member-level information regarding health care utilization, gaps in care and medications
    4. Provide outcome tools and measurement protocols to assess CB-CME effectiveness
d. Integrate community entities focused on services to individuals experiencing homelessness into the care model and, if applicable, the multi-disciplinary care team; meet the State legislation requirement to ensure availability of providers with experience working with individuals who are chronically homeless.

e. Engage with community and social support services by building new, or enhance existing, relationships with programs, services, and support organizations to provide care to members, including but not limited to:
    1. County specialty mental health plans;
    2. Housing agencies and permanent housing providers; and
    3. Individual Housing and Tenancy Sustaining Services.
f. Contract with CB-CMEs for the provision of HHP services, including outlining the MCP and CB-CME roles and responsibilities, and ensuring that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals, including the network development goals.
g. Have methods to ensure compliance with HHP requirements throughout the network, including portions of the network contracted through delegated entities.
h. Ensure the development of a communication and feedback strategy for all members of the HHP care team, including the member and their family/support persons, to ensure information sharing occurs. Encourage all of the HHP member's providers who supply input to the HAP and coordinate with the CB-CME care coordinator to conduct case conferences, including with those whom may not be formally included on the CB-CME's multi-disciplinary care team.
    1. If the CB-CME is not the member's MCP-assigned PCP, the MCP must have policies and procedures for ensuring: the MCP/CB-CME maintains a strong and direct connection to the PCP and PCP's participate in HAP development and ongoing coordination.
i. Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

1) Administration

a. Attribute assigned HHP members to CB-CMEs, providing for increased care coordination as close to the member's usual point of care delivery as possible in the community. HHP members must be notified of their CB-CME options.
b. Receive payment from DHCS and disperse funds to CB-CMEs. Have policies and procedures regarding:
    1. The process for how an MCP determines that the appropriate level of services are provided and documented by CB-CMEs in accordance with the contract and service requirements; and
    2. The process/structure/tiering (if used) for payments to CB-CMEs.

2) Data Sharing and Reporting

a. Develop reporting capabilities and methodologies
b. Establish and maintain data-sharing agreements that are compliant with all federal and state laws and regulations, and when necessary, with other providers
c. Notify CB-CMEs of inpatient admissions and emergency department (ED) visits/discharges
d. Track and share data with CB-CMEs regarding each member's health history
e. Establish procedures for hospitals participating under the Medicaid State Plan or a waiver of such plan for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated HHP providers. However, HHP primarily uses the TEL to identify and refer members to HHP.

3) Training and Education

a. Develop and offer learning activities that will support CB-CMEs in effective delivery of HHP services
b. Develop CB-CME training tools, as needed, to supplement DHCS-developed tools.
c. Ensure participation of the CB-CME and MCP staff delivering HHP Services in DHCS-required CB-CME and care coordinator training and learning collaboratives.

B. CB-CME Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with W&I Code HHP requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed. If in-person communication is not possible in certain situations, alternative communication methods such as tele-health or telephonic contacts may also be utilized, if culturally appropriate and accessible for the HHP member, to enhance access to services for HHP members and families where geographic or other barriers exist and according to member choice;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by the MCP, according to the CB-CME contract with the MCP;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and MCP and other providers involved in the HHP member's care.

C. CB-CME Certification

Organizations must be one of the following types of organizations and be able to meet the qualifications above and perform the duties below to be authorized to serve as a CB-CME:

- Behavioral health entity
- Community mental health center
- Community health center
- Federally qualified health center
- Rural health center
- Indian health clinic
- Indian health center
- Hospital or hospital-based physician group or clinic
- Local health department
- Primary care or specialist physician or physician group

- SUD treatment provider
- Provider serving individuals experiencing homelessness
- Other entities that meet certification and qualifications of a CB-CME, if selected and certified by the MCP

D. CB-CME General Duties

CB-CMEs will be expected to perform the following duties/responsibilities:

- Be responsible for care team staffing, according to HHP required staffing ratios determined by DHCS, and oversight of direct delivery of the core HHP services;
- Implement systematic processes and protocols to ensure member access to the multi-disciplinary care team and overall care coordination;
- Ensure person-centered health action planning that coordinates and integrates all of the HHP member's clinical and non-clinical physical and behavioral health care related needs and services, and social services needs and services;
- Collaborate with and engage HHP members in developing a HAP and reinforcing/implementing/reassessing it in order to accomplish stated goals;
- Coordinate with authorizing and prescribing entities as necessary to reinforce and support the HHP member's health action goals, conducting case conferences as needed in order to ensure that the HHP member care is integrated among providers;
- Support the HHP member in obtaining and improving self-management skills to prevent negative health outcomes and to improve health;
- Provide evidence-based care;
- Monitor referrals, coordination, and follow-up to needed services and supports; actively maintain a directory of community partners and a process ensuring appropriate referrals and follow-up;
- Support HHP members and families during discharge from hospital and institutional settings, including providing evidence-based transition planning;
- Accompany the HHP member to critical appointments (when necessary and in accordance with MCP HHP policy);
- Provide service in the community in which the HHP member lives so services can be provided in-person, as needed;
- Coordinate with the HHP member's MCP nurse advice line, which provides 24-hour, seven day a week availability of information and emergency consultation services to HHP member; and
- Provide quality-driven, cost-effective HHP services in a culturally competent and trauma-informed manner that addresses health disparities and improves health literacy.

VI. General HHP Operations

A. Non-Duplication of Care Coordination Services

MCPs must ensure that members are not enrolled in another state program that provides care coordination services that would preclude them from receiving HHP care coordination services. The process should include: 1) checking available MCP data; and 2) asking members as part of

both the in-person member assessment during the eligibility/enrollment process and the assessment/care plan process.

The Targeted Engagement List (TEL) does not include members who are participating in the following programs:

- 1915(c) Home and Community Based (HCBS) waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH);
- County Targeted Case Management (TCM) (excluding Specialty Mental Health TCM);
- Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month; and
- Hospice.

Below is a summary of how HHP intersects with existing Medi-Cal programs that provide care coordination services, organized by the following three categories: 1) Members can receive services through both HHP and the other program; 2) Members must choose HHP or the other program; and 3) Members cannot receive HHP services.

1) Members Can Receive Services through BOTH HHP and the Other Program

- 1115 Waiver Whole Person Care Pilot Program
  Members participating in a Whole Person Care (WPC) Pilot Program may also be eligible for the HHP. DHCS has released specific guidance related to the interaction between the Health Homes Program and the WPC Pilot Program which can be found in Appendix K of this Program Guide.

- California Children's Services
  Children who are enrolled in the Children's Services program are eligible for the HHP.

- Specialty Mental Health and Drug Medi-Cal
  DHCS recognizes that coordination of behavioral health services will be a major component of HHP. HHP services are focused on physical health, mental health, Substance Use Disorder (SUD), community-based LTSS, palliative care, trauma-informed care, oral health, social supports, and, as appropriate for individuals experiencing homelessness, housing. In the California HHP structure of MCPs and CB-CMEs, it is expected that direct HHP services for HHP members will primarily occur at the CB-CMEs, even though MCPs may play a role. Therefore, it is important that CB-CMEs that have HHP members who receive behavioral health services have the capability to support the various needs of their members.

  For HHP members without conditions that are appropriate for specialty mental health treatment, it is anticipated that their physical-health oriented CB-CME is an appropriate setting for their HHP services. These CB-CMEs would typically be affiliated with an MCP.

  DHCS and stakeholders have noted that HHP members with conditions that are appropriate for specialty mental health treatment may prefer to receive their primary HHP services from their MHP's contracted provider acting as a designated CB-CME. To

facilitate care coordination for HHP members through a MHP-designated CB-CME, Drug Medi-Cal Organized Delivery system (DMC-ODS) or MHP providers may perform CB-CME HHP responsibilities through a contract with the MCPs in the county at the discretion of the MCP. This type of entity would perform the CB-CME HHP responsibilities for an HHP-eligible managed care member who 1) qualifies to receive services provided under the Medi-Cal scope of service for this type of entity (MHP or Drug Medi-Cal services); and 2) chooses a county MHP, or county MH/SUD plan, affiliated CB-CME instead of a CB-CME affiliated with the MCP. In cases where the MHP serves as both an administrator and a provider of direct services, the MHP could assume the responsibilities of the CB-CME.

2) Members Must Choose HHP OR the Other Program

- Targeted Case Management
  County-operated Targeted Case Management (TCM) is a comprehensive care coordination program and is duplicative of HHP. Members who are receiving TCM services have a choice of continuing TCM services or receiving HHP services.

  However, TCM provided as part of the County Mental Health Plan (MHP) Specialty Mental Health (SMH) services is not duplicative of HHP. The HHP provider should ensure that they: 1) coordinate with the SMH TCM provider, and 2) do not duplicate any SMH TCM activities.

- 1915(c) Waiver Programs
  1915(c) Home and Community Based Services (HCBS) Waiver programs provide services to many Medi-Cal members who will likely also meet the eligibility criteria for HHP. There are comprehensive care management components within these programs that are duplicative of HHP services. Members who are receiving 1915(c) services have a choice of continuing 1915(c) services or receiving HHP services.
  The 1915(c) HCBS waiver programs include:
  HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH).

- Cal MediConnect or Fee-for-Service Delivery Systems
  Members who are eligible for both Medi-Cal and Medicare are eligible for the HHP. In addition, members who are in the Fee-for-Service Delivery System are also eligible for the HHP. However, HHP is not available in the Cal MediConnect or Fee-for-Service delivery systems. Members have the choice to leave the Cal MediConnect or Fee-for-Service delivery systems to receive all their Medi-Cal services, including HHP services, through a regular Medi-Cal Managed Care Plan.

- Other Comprehensive Care Coordination Programs
  Individual MCPs have discretion to determine and designate other comprehensive care coordination programs (not listed in this section) that are duplicative of HHP services, including programs that are operated or overseen by the MCP. Examples include, but

are not limited to, MCP Complex Case Management programs and Community-Based Adult Services.

3) Members CANNOT Receive HHP Services

- Nursing Facility Residents and Hospice Recipients
  Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month and Hospice service recipients are excluded from participation in the HHP.

B. HHP Outreach Requirements

MCPs will be responsible for engaging HHP-eligible members, using state-determined, Centers for Medicare & Medicaid Services (CMS)-approved criteria. Engagement of eligible HHP members will be critical for the program success. MCPs will link HHP members to one of the MCP's contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider (PCP) is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions.

1) MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities or delegate to CB-CMEs and provide appropriate oversight.

a. Capacity
   Have the capacity to engage and provide services to eligible members, including:
   1) Establish an engagement plan with appropriate modifications for members experiencing homelessness;
   2) Evaluate the TEL provided by DHCS;
   3) Attribute assigned HHP members to CB-CMEs;
   4) Ensure the engagement of members on the targeted engagement list;
   5) Secure and maintain record of the member's consent to participate in the program (which can be verbal); and
   6) Provide member resources (e.g. customer service, member grievance process) relating to HHP.

b. Engagement Process
   1) Have policies and procedures for identifying, locating, and engaging HHP-eligible members.
   2) Use the following strategies for engagement as appropriate and to the extent possible: mail; email; social media; texts; telephone; community outreach; and in-person meetings where the member lives, seeks care, or is accessible.
   3) Show active, meaningful and progressive attempts at member engagement each month until the member is engaged. Activities that support member engagement include active outreach such as direct communications with member (face-to-face, mail, electronic, telephone), follow-up if the member presents to another partner in the HHP network, or using claims data to contact providers the member is known to use. Examples of acceptable engagement include:

a. Letter to member followed by phone call to member
b. Phone call to member, outreach to care delivery partners and social service partners
c. Street level outreach, including, but not limited to, where the member lives or is accessible

4) Establish a process for reviewing and excluding people from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines of having no substantial avoidable utilization or be enrolled in another acceptable care management program – see Reporting Template-Instructions for definition);
5) Report Members determined not appropriate for the HHP, along with a reason code, to DHCS.
6) DHCS will evaluate the MCP enrolled vs non-enrolled members and compare across MCPs for general compliance review purposes and to ensure that the engagement process is adequately engaging members on the targeted engagement list who are at the highest risk levels, have behavioral health conditions, and those experiencing homelessness.
7) Include housing navigators in the engagement process, at the MCP's discretion
8) Document the member engagement process
9) Develop a methodology and criteria used by the MCP or the CB-CME to stratify high, medium and low need members
10) Develop educational materials or scripts that you intend to develop to engage the member.
11) Have policies and procedures to provide culturally appropriate communications and information that meet health literacy and trauma-informed care standards
12) Have policies and procedures for the following:
    a. Required number and modalities of attempts made to engage member
    b. MCP's protocol for follow-up attempts
    c. MCP's protocol for discharging members who cannot be engaged, choose not to participate, or fail to participate

c. Assignment

MCPs will link HHP members to one of their contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions. MCP's and/or CB-CME's notification will inform the HHP member that they are eligible for HHP services, and identify their MCP and CB-CME. This notification will explain that HHP participation is voluntary, members have the opportunity to choose a different CB-CME, and HHP members can discontinue participation at any time. It will also explain the process for participation. In counties where multiple MCPs are available, the HHP member may change their MCP once per month in accordance with current MCP choice policies.

C. Priority Engagement Group

After the MCP has screened people who are inappropriate for HHP from the TEL based on the HHP requirements, MCPs are required to create a priority engagement group, or ranking process, with the goal of engaging and serving members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for priority engagement status will be at the MCP's discretion (upon approval by DHCS).

D. Referral

HHP services must be made available to all full scope Medi-Cal members without a share of cost who meet the DHCS-developed eligibility criteria, including those members dually eligible for Medicaid and Medicare. Providers, health plan staff, or other, non-provider community entities/care providers may refer eligible members to the member's assigned MCP to confirm if the member meets the eligibility criteria to receive HHP services. The Targeted Engagement List will be the primary method for identifying and engaging eligible HHP members. Referrals are more likely necessary in the situation of a new Medicaid member who may not have the Medi-Cal claims history that identifies them as HHP eligible. Provider referral forms will indicate that the provider has verified that the member meets the HHP eligibility criteria. The provider will submit the referral form to the MCP for confirmation. MCP confirmation is required before an individual is deemed an HHP member and may receive HHP services from a CB-CME.

E. Consent

The member will be considered enrolled in the HHP once the member has given either verbal or written consent to participate in the program. The MCP or CB-CME will secure consents by the member to participate in HHP and authorize release of information to the extent required by law. Either the MCP or the CB-CME must maintain a record of these consents.

F. Disenrollment

If an eligible member has, or develops, an exclusionary criterion, cannot be engaged within a specified period, chooses not to participate, or fails to participate actively in HHP planning and coordination, the HHP member will be disenrolled from the HHP, and the MCP will discontinue CB-CME HHP funding for that member. Additionally, if the MCP determines that the member's eligible chronic conditions have become well-managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status – the HHP member will be disenrolled and the MCP will discontinue CB-CME HHP funding for that member.

A Notice of Action (NoA) Letter is required in all situations except for when an eligible member chooses not to participate. The eligible member may choose to participate in the HHP at any time.

G. Risk Grouping

The MCP will ensure that HHP member acuity will inform appropriate provision of HHP services. For example, MCP program criteria may include three, or more, risk groupings of the HHP members. Members in the higher acuity risk groupings (tiers) will receive more intensive HHP services. In addition, the HHP will include requirements to address the unique needs of members experiencing homelessness, as specified in AB 361.

H. Mental Health Services

MCPs will develop or amend existing Memoranda of Understanding with county Mental Health Plans (MHPs) to address HHP-specific information. DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018) to address the HHP-specific information that MCPs must include in new, or amended, MOUs. This MOU will be submitted to DHCS prior to the start of HHP implementation for the Serious Mental Illness or Serious Emotional Disturbance (SMI) population. Please see Appendix D - Readiness Requirements and Checklist for information on this deliverable.

I. Housing Services

MCPs will work with community resources to ensure seamless access to the delivery of housing support services. MCPs or contracted CB-CMEs must provide housing navigation services, not just referrals to housing. A Housing Navigator is required to be part of the HHP care team for members experiencing homelessness. HHP members must receive the following services:

1) Individual Housing Transition Services

Housing transition services assist beneficiaries with obtaining housing, such as individual outreach and assessments. These services include:

- Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;
- Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;
- Assisting with the housing application process. Assisting with the housing search process;
- Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;
- Ensuring that the living environment is safe and ready for move-in;
- Assisting in arranging for and supporting the details of the move; and
- Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

2) Individual Housing and Tenancy Sustaining Services

Housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

- Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;
- Education and training on the roles, rights and responsibilities of the tenant and landlord;
- Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;
- Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;
- Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;
- Assistance with the housing recertification process;
- Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and
- Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

To the extent applicable, housing-based case management services provided to HHP members shall be consistent with the Housing First core components as described in Senate Bill (SB) 1380 Mitchel, Chapter 847, Statutes of 2016). Engagement to members potentially eligible for HHP or the provision of HHP housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for HHP or meet one or more of the DHCS defined HHP exclusionary criteria. HHP housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of members' lives, where members are engaged in nonjudgmental communication regarding drug and alcohol use. Members should be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

The HHP does not provide direct funding for housing. However, DHCS encourages MCPs to partner with housing organizations that incorporate the Housing First model into their case management and housing navigation services offered to members and to prioritize connecting HHP members with permanent housing options, when appropriate and available. For example, plans might explore collaborating with community-based organizations that are Housing First compliant, implement a requirement that housing services be provided consistent with Housing First components, encourage enhanced coordination with coordinated entry and assessment systems and/or allow receipt of referrals from the homeless crisis response system entities.

The goal is to integrate Housing First principles and components in an effort to enhance the provision of meaningful individual housing and tenancy-sustaining services to enrolled members.

J. Training

MCPs are required to ensure that the MCP and CB-CME staff who will be delivering HHP services receive the required HHP training prior to participating in the administration of the HHP. See Appendix C for training requirements.

K. Service Directory

MCPs or CB-CMEs must ensure a directory of community services and supports is developed, maintained, and is made available to all care coordinators to inform referring members to social services. The community services directory may be sourced from existing directories so long as it is available as a resource for CB-CMEs and care coordinators. This type of directory may be maintained by either the MCP or the CB-CME; however, the contracted MCP will ensure its availability.

L. Quality of Care

MCPs must incorporate HHP into existing quality management processes.

MCPs must have the capacity to collect and track information used to manage and evaluate the program, including tracking quality measures, and collecting, analyzing, and reporting financial measures, health status and other measures and outcome data to be reported for the State's evaluation process. The MCP will report core service metrics and the recommended core set of health care quality measures established by CMS, as well as the three utilization measures identified by CMS to assist with the overall federal health home evaluation. MCPs must report on the measures listed in the *Reporting Template, and provide* encounters for all HHP services.

M. Cultural Competency, Educational and Health Literacy

MCPs must incorporate HHP into existing policies and procedures related to ensuring that services, communication, and information provided to members are culturally appropriate, and meet health literacy, reading, harm-reduction, and trauma-informed care standards.

N. Member Communication

MCPs must incorporate HHP into existing policies and procedures regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers) into account in communicating with enrollee. DHCS and DMHC will review member materials from Knox-Keene plans through the usual process and criteria. DHCS will use a parallel process for non-Knox-Keene plans.

All notices to be sent by the MCP to Medi-Cal beneficiaries regarding the provision of HHP services will be submitted to DHCS for review.

Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. MCPs may use the DHCS HHP Member Handbook as an optional resource for examples of "best practice" member messaging (though the Handbook messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

MCPs must maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.

O. Members Experiencing Homelessness

MCPs must incorporate HHP-specific information into the appropriate policies and procedures for homeless members, including special provider and service requirements criteria (to achieve homeless experience requirements and other requirements per AB 361 and SB 1380), and engagement processes.

P. Reporting

MCP must have the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP encounters for services provided by the MCP and the CB-CMEs. See Appendix G (*Reporting Template);* and the *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2019 Reporting,* or later, for details.

CMS has established a core set of seven required health care quality measures and three utilization measures (see *Reporting Template* and *document* for details). Additional details can be found in the CMS technical specifications and resource manual. These measures were identified by CMS to assist with the overall federal health home evaluation.

MCPs will utilize the Supplemental Payment process to report members enrolled in HHP and to initiate capitation payments. See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information.

VII. Appendix

A. Appendix A – Example of an Acceptable Model Outreach Protocol

This Model Outreach Protocol is only offered as one example of a protocol that would be acceptable. It is meant to give the MCP ideas about how they might want to design their outreach protocols with the CB-CMEs. The details of this protocol are at the discretion of the MCP, as long as their protocol broadly meets DHCS' intent as stated in the body of the Program Guide and the Readiness Checklist.

SAMPLE PROTOCOL

The Medi-Cal managed care plan (MCP) will send an initial "Welcome Packet" to HHP-eligible members in accordance with their engagement process. After the initial packet is sent, the CB-CMEs will follow up with their HHP-eligible members through phone calls, in-person visits, and other modalities. Each CB-CME or the MCP will attempt to contact the member **five times** within 90 days after the initial packet is sent using various modes of communication (letters, calls, in-person meetings, etc.).

If the CB-CME does not have the capacity to conduct outreach to eligible members, MCP care coordination staff, including community health workers, will conduct the outreach to these members and note the outreach attempts in the members' record.

After five attempts, the CB-CME and the MCP will note the challenges with the active outreach and remind the PCP to discuss the HHP with the member at the next PCP visit. If the member declines HHP enrollment at the PCP visit, this will be noted in the EHR and the MCP will be notified.

If the CB-CME or the MCP learns that the contact information is out of date, efforts will be made to update that information using recent provider utilization data and community health workers who can conduct on-the-ground outreach to locate members through their neighbors or community organizations. The CB-CME will also review members' housing history and work with the MCP Housing Program Manager to determine if that member can be reached at an alternative housing site or through a community-based organization.

CB-CMEs will track all outreach attempts within a three month intensive outreach period after the initial welcome letter is sent. The MCP will require that each outreach attempt and the outcome of each attempt be documented in the member's record in the HHP care management system and reported back to the MCP and DHCS. All outreach and engagement attempts will be evaluated by the care coordination team every 30 days within this three month period. The MCP will create policies and procedures for tracking and evaluating outreach and engagement efforts.

If a member declines participation in the HHP, or if their PCP determines that the member is not a good candidate for the HHP (using categories determined and provided by DHCS), this will be noted in the record in the HHP care management system to avoid repeated outreach

attempts. Members who do not enroll in the HHP will be noted, tracked in the MCP's data system and reported to DHCS. Members who graduate from the program will be disenrolled, which will be noted in the record, tracked in the data system, and reported to DHCS.

The MCP will create a mechanism for CB-CMEs and PCPs to identify potential HHP members who are not on the targeted engagement list and who meet the diagnostic and acuity criteria but not the utilization criteria. These individuals may be excellent candidates for the program to help prevent future avoidable health care utilization. In general, MCP will require CB-CMEs to justify the inclusion of the referred member into the program or onto the targeted engagement list. This would be reviewed by a medical director and/or nurse manager with experience in intensive case management to see if the member qualifies for the HHP or if they might be better served by another case management program, and if the rationale provided by the CB-CME or PCP justifies engagement and enrollment in the program.

Staff and Providers

The MCP will train MCP and CB-CME staff who may interact with HHP members, including customer service staff, 24-hour nurse line staff, and provider representatives, to ensure all member- and provider-facing staff are knowledgeable about the HHP, can answer questions and refer participating or eligible members or providers to the appropriate staff. MCP staff, CB-CME staff, providers and community providers are required to participate in webinars and trainings required by DHCS.

The MCP will work to educate all contracted providers, including providers at contracted CB-CMEs and providers from smaller clinics whose patients will receive HHP services through MCP care coordinators.

There will be on-the-ground community health workers who work in the local community and will visit members at their homes or community-based organizations where the members receive services. The MCP has made significant investments in developing this team of community health workers and they will be a key part of success in engaging and educating members on HHP.

Materials

The MCP will work with DHCS to educate providers, beneficiaries and key stakeholders to ensure strong member engagement and participation. The MCP will use outreach and education materials (flyers, brochures, sample email content, sample scripts, etc.) that are approved by DHCS. If the MCP is licensed by DMHC, these materials should additionally be filed with DMHC for review, as applicable. The MCP will also use existing communication channels to promote outreach and education opportunities for providers and members, such as informational webinars, trainings and tele-town halls.

At a minimum, the MCP will develop the following materials:

- Call scripts for Customer Service and 24-hour Nurse Advise Line;
- Member "Welcome Packet," including outreach letters and brochures;

Back to Agenda

- Appointment reminder letters for both medical and care coordination appointments;
- Content for both the member and provider sections of the MCP website; and
- Training guides for the MCP and CB-CME staff who interface with providers and members.

All member-facing materials for HHP will meet DHCS requirements for cultural competency and health literacy standards.

SAMPLE

B. Appendix B – Targeted Engagement List Process

The Targeted Engagement List (TEL) Process identifies the Medi-Cal members that are the most appropriate candidates for the enhanced care coordination services in the Health Home Program (HHP). The TEL is sent to each participating Managed Care Plan (MCP) so that they can initiate engagement activities. This document provides additional details for the criteria and steps used in the TEL Process.

The data source for the TEL Process is DHCS's Data Warehouse. The Data Warehouse contains service level detail for most Medi-Cal programs, including managed care encounters, Fee-For-Service claims, Short-Doyle Mental Health services, Drug-Medi-Cal services, and others. MEDS eligibility information available in the Data Warehouse is also used in the TEL Process.

TEL Process – There are four main steps in the TEL Process, as follows:

1. SPA Eligibility Requirements for Chronic Condition Disease Identification – During the 24 months prior to the running of the TEL, if a member has at least two separate services on different dates for any of the following conditions it will be considered a chronic condition for the TEL. HHP chronic conditions include Asthma, Bipolar Disorder, Chronic Kidney Disease (CKD), Chronic Liver Disease, Chronic Obstructive Pulmonary Disease (COPD), Chronic or Congestive Heart Failure, Coronary Artery Disease, Dementia, Diabetes, Hypertension, Major Depression Disorders, Psychotic Disorders (including Schizophrenia), Substance Use Disorder, and Traumatic Brain Injury. The specific ICD-10 diagnosis codes for each chronic condition are listed below. The TEL process uses the primary and secondary diagnosis during the disease identification process.

2. SPA Eligibility Requirements for Chronic Condition Criteria. A member meets the chronic condition criteria if they have:
   2.1. Chronic Condition Criteria #1: At least two of the following: Chronic Obstructive Pulmonary Disease (COPD), Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder.
   2.2. Chronic Condition Criteria #2: Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure.
   2.3. Chronic Condition Criteria #3: One of the following: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders (including Schizophrenia).
   2.4. Chronic Condition Criteria #4: Asthma

3. SPA Eligibility Requirements – Acuity – These parameters ensure that potential HHP members are high utilizers of health services. A member must meet one of these acuity factors:

3.1. A high chronic condition predictive risk level (operationalized as three or more of the HHP eligible chronic conditions) or
3.2. At least one inpatient stay (not required to be related any particular condition*) in the 16-month period prior to the running of the TEL. (The inpatient stay algorithm is aligned with industry standards and the HEDIS inpatient algorithm) or
3.3. Three or more Emergency Department (ED) visits (not required to be related to any particular condition*) in a 16-month period prior to the running of the TEL. (The ED algorithm is aligned with industry standards and the HEDIS ED algorithm) or
3.4. Chronic Homelessness (there are no data parameters for this criteria. Members who only meet eligibility through this criteria will be identified solely through provider referral and MCP prior authorization)

* MCPs have the option to adjust this requirement.

4. HHP Enrollment Targeting and Exclusions – This step starts with the Medi-Cal members that meet the SPA chronic conditions and acuity eligibility requirements and determines if the members meet any of the specific program enrollment targeting and exclusionary criteria.:

a) Members that meet the eligibility requirements are excluded from the TEL, and <u>are excluded from participation in HHP unless their status changes</u>, if the members are identified as:

- Nursing Facility Residents
- Hospice Recipients
- Members with TCM
- Members in 1915 (c) programs
- Members in Fee-For-Service
- Members in PACE, SCAN, or AHF
- Members in Cal MediConnect

b) Members that meet the eligibility requirements are not included on the TEL (but could be enrolled through referral) if the members are identified as:

- Dually eligible members
- Members in CCS or GHPP
- Members with ESRD

TEL and TEL Supplement Reporting

The members that meet the eligibility requirements for chronic conditions and acuity will be reported to the managed care plans (MCPs) in either the TEL or the TEL Supplement. The TEL will contain all of the members that meet the SPA eligibility criteria through step 3 above and do not meet any of the specific program enrollment targeting and exclusionary criteria listed in step 4. The MCPs will use the TEL, their TEL verification process, and their internal priority

engagement rules to focus their enrollment activities and enroll the most appropriate members into HHP. The TEL Supplement will contain members that meet the SPA eligibility requirements for chronic condition criteria but are not included on the TEL. The TEL and the TEL Supplement will be provided within the same physical data set with the appropriate indicators.

TEL and TEL Supplement List Management

DHCS' expectations are that most of the HHP eligible members will be identified on the first TEL/TEL Supplement for an MCP in a region (first for chronic conditions, and six months later, for SMI) and most subsequent TEL/TEL Supplement files, at six month intervals, will have a smaller number of new members. To manage the members that appear on the TEL and the TEL Supplement, DHCS is considering the following parameters:

- Members may not appear on subsequent TEL/TEL Supplement files for an MCP because:
  - The member is no longer Medi-Cal eligible in MEDS
  - The member has changed MCPs
  - The member may not meet the disease identification or SPA eligibility requirements for chronic condition criteria
- Members may move from the TEL to the TEL Supplement and from the TEL Supplement to the TEL

TEL and SPA Assignment

DHCS is required to provide separate reporting to CMS for the HHP SMI SPA and the HHP Physical Health\SUD SPA. This requirement is reflected in the HHP implementation schedule. The TEL/TEL Supplement process includes all SPA-defined chronic conditions in the initial steps. In order to support the implementation schedule and MCP requests for additional TEL-related information, the initial TEL/TEL Supplement in each geographic implementation group will include both Physical health/SUD and SMI conditions.

However, members with only SMI conditions are not eligible for the first implementation in each County. The SMI-only members on the TEL/TEL Supplement are identified when Chronic Condition Criteria #3 equals '1' and Chronic Conditions Criteria #1, #2, and #4 are all equal to '0'. MCPs will be required to separately identify HHP members between physical health\SUD and SMI on the Supplemental Payment file sent to DHCS for payment purposes (See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information).

HHP TEL/TEL Supplement – Fixed-width Record Layout v1.3

Field Id	Field Name	Description	Length	Start	End	Data Type
1	TEL Report Date	Date of generation of the TEL and TEL Supplement (CCYYMMDD)	8	1	8	A

29	Traumatic Brain Injury Chronic Condition	Member met the HHP criteria for Traumatic Brain Injury ('1' for yes, '0' for no).	1	109	109	A
30	Filler	Filler	2	110	111	A
31	Chronic Condition Criteria #1	Member met the HHP Chronic Condition Criteria #1 (At least two of the following conditions: Chronic Obstructive Pulmonary Disease, Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, and Substance Use Disorder) ('1' for yes, '0' for no).	1	112	112	A

Field Id	Field Name	Description	Length	Start	End	Data Type
32	Chronic Condition Criteria #2	Member met the Chronic Condition Criteria #2 (Hypertension and at least one of the following conditions: Chronic Obstructive Pulmonary Disease, Diabetes, Coronary Artery Disease, or Chronic Congestive Heart Failure) ('1' for yes, '0' for no).	1	113	113	A
33	Chronic Condition Criteria #3	Member met Chronic Condition Criteria #3 (Any one of the following conditions: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders) ('1' for yes, '0' for no).	1	114	114	A
34	Chronic Condition Criteria #4	Member met Chronic Condition Criteria #4 (Asthma) ('1' for yes, '0' for no).	1	115	115	A
35	Count of Chronic Condition Criteria	A count of the number of Chronic Conditions Criteria the member met.	1	116	116	A
36	Acuity Factor #1	Member met acuity factor #1: three or more of the HHP eligible chronic conditions ('1' for yes, '0' for no).	1	117	117	A
37	Acuity Factor #2	Member met acuity factor #2: one or more inpatient stay ('1' for yes, '0' for no).	1	118	118	A
38	Acuity Factor #3	Member met acuity factor #3: three or more ED visits ('1' for yes, '0' for no).	1	119	119	A
39	Count of ED visits	The number of Emergency Department visits during the study period.	3	120	122	A
40	Latest ED visit DOS	The date of service for the most recent Emergency Department visit.	8	123	130	A
41	Count of Inpatient Admissions	The number of Inpatient Admissions during the study period.	3	131	133	A
42	Latest Inpatient Admission DOS	The date of service for the most recent Inpatient Admission.	8	134	141	A
43	Exclusion - Duals	The member is Dual Eligible ('1' for yes, '0' for no).	1	142	142	A
44	Exclusion - Hospice	The member had at least one service with one of the following revenue codes 0651, 0652, 0655, 0656, 0657, or with the following procedure code T2045 in the time period ('1' for yes, '0' for no).	1	143	143	A

Field Id	Field Name	Description	Length	Start	End	Data Type
45	Exclusion - ESRD	The member had at least one service with one of the following procedure codes in the time period, Z6004, Z6006, Z6012, Z6014, Z6016, Z6018, Z6022, Z6036, Z6038, Z6040, Z6030, 90967, 90968, 90969, 90970, 90989, 90993, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90935, 90937, 90945, 90947 ('1' for yes, '0' for no).	1	144	144	A
46	Exclusion - CCS	The member had at least one CCS End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	145	145	A
47	Exclusion - GHPP	The member had at least one GHPP End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	146	146	A
48	Exclusion - TCM	The member had at least one Targeted Case Management service in the time period (services where the Vendor Code was "92" or "93" ('1' for yes, '0' for no).	1	147	147	A
49	Exclusion - 1915c	The member met at least one of the following 1915c exclusions defined below, HIVAExcl, ALWExcl, DDExcl, IHOExcl, MSSPExcl, or PPC_Exclu ('1' for yes, '0' for no).	1	148	148	A
50	Exclusion - HIV/AIDS Waiver	Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) Waiver exclusion. The member had at least one service in the time period where the Provider type was "073" and Procedure Code in (90837, 90846, 90847, 90847, G0156, G0299, G0300, S5130, S5165, S5170, S9470, T2003, T2022, T2025, T2026, T2028, T2029) ('1' for yes, '0' for no).	1	149	149	A
51	Exclusion - Assisted Living Waiver	Assisted Living Waiver (ALW) Exclusion. The member had at least one service in the time period where the Vendor Code In ("44" or "84"), and (Provider Type was "092", "093", or "014"), and (the Category of Service was 118 or 119) ('1' for yes, '0' for no).	1	150	150	A

Field Id	Field Name	Description	Length	Start	End	Data Type
52	Exclusion - Developmental Disabilities Waiver	HCBS Waiver for Californians with Developmental Disabilities (DD) exclusion. The member had at least one service in the time period where the Vendor Code was "76" and the Procedure Code in (Z9002, Z9003, Z9004, Z9005, Z9012, Z9014, Z9015, Z9016, Z9020, Z9021, Z9022, Z9023, Z9025, Z9025, Z9026, Z9026, Z9027, Z9028, Z9029, Z9030, Z9031, Z9032, Z9034, Z9038, Z9039, Z9043, Z9046, Z9047, Z9048, Z9050, Z9056, Z9058, Z9059, Z9060, Z9061, Z9062, Z9063, Z9064, Z9065, Z9066, Z9067, Z9069, Z9072, Z9073, Z9074, Z9075, Z9076, Z9077, Z9078, Z9079, Z9101, Z9102, Z9103, Z9104, Z9105, Z9106, Z9110, Z9111, Z9112, Z9113, Z9121, Z9122, Z9123, Z9124, Z9125, Z9126, Z9200, Z9202, Z9203, Z9204, Z9205, Z9206, Z9207, Z9208, Z9302, Z9303, Z9304, Z9305, Z9306, Z9307, Z9308, Z9310, Z9311, Z9312, Z9313, Z9314 ,Z9315, Z9400, Z9401, Z9402, Z9403, Z9404, Z9405, Z9406, Z9406, Z9407, Z9408, Z9999) ('1' for yes, '0' for no).	1	151	151	A
53	Exclusion - IHO/HCBA Waivers	In-Home Operations Waiver (IHO) / Home and Community-Based Alternatives (HCBA) exclusion. The member had at least one service in the time period where the Vendor Code was "71" and Provider type is “014, 059, 066, 067, 069, 078, 095”) or where the Vendor Code was "89" and the Special Program Code (SPECIAL_PGM_TYPE_CD was "3" (IHO Personal Care Services (WPCS)) ('1' for yes, '0' for no).	1	152	152	A

Field Id	Field Name	Description	Length	Start	End	Data Type
54	Exclusion - MSSP Waiver	Multipurpose Senior Services Program Waiver (MSSP) exclusion. The member had at least one service in the time period where the Vendor Code was "81", the Provider Type is '074', and the Procedure Code in (Z8550, Z8551, Z8552, Z8553, Z8554, Z8555, Z8556, Z8557, Z8558, Z8559, Z8560, Z8561, Z8562, Z8563, Z8564, Z8565, Z8566, Z8567, Z8568, Z8569, Z8570, Z8571, Z8572, Z8573, Z8574, Z8575, Z8576, Z8580, Z8581, Z8582, Z8583, Z8584, Z8585, Z8586, Z8587, Z8588, Z8589, Z8590, Z8591, Z8592, Z8593, Z8594, Z8595, Z8596, Z8597, Z8598, Z8599, Z8600, Z8601, Z8602, Z8603) ('1' for yes, '0' for no).	1	153	153	A
55	Exclusion - PPC Waiver	Pediatric Palliative Care (PPC) Waiver exclusion. During the observation period, the member in one of the following counties: Fresno, Los Angeles, Marin, Monterey, Orange, San Francisco, Santa Clara, Santa Cruz, Sonoma, or Ventura, the Provider Type is '014 or '039, the Category of Service is '120, and the Procedure Code is 'G9012' ('1' for yes, '0' for no).	1	154	154	A
56	Exclusion - PACE, SCAN, AHF	PACE, SCAN, and AHF exclusion. As of the last month, the member had one of the following Plan Codes: 050-065, 200-207, 601, or 915. ('1' for yes, '0' for no).	1	155	155	A
57	Exclusion - LTC Resident	Long Term Nursing Facility residents exclusion. As of the end of the study period the member had one of the following Long Term Care (Nursing Facility) Aid Codes: "13", "23", "53", or "63" ('1' for yes, '0' for no).	1	156	156	A
58	Exclusion - FFS	Fee-For-Service exclusion. As of the end of the study period the member was in Fee For Service (Plan Code 000) ('1' for yes, '0' for no).	1	157	157	A
59	Count of Exclusions	A count of the number of Exclusions for which the member met the requirements.	2	158	159	A
60	TEL Indicator	A value of "1" indicates a TEL record; a value of "0" indicates a TEL Supplement record	1	160	160	A

C. Appendix C – Training Requirements

This section outlines training that MCP and CB-CME staff who will be delivering HHP services are required to receive prior to participating in the administration of the HHP. It also includes recommendations for training CB-CME staff on several core competencies.

Required HHP Trainings for Prior to HHP Implementation
MCP and CB-CME staff who will be delivering HHP services are required to receive HHP-specific training prior to HHP implementation. The required training topics described below cover basic program components. DHCS provided PowerPoint training materials that MCPs can leverage for their required trainings. However, it is also acceptable for an MCP to use non-DHCS developed training materials to satisfy one, or more, of the requirements. DHCS-developed training materials are saved on both the portal and DHCS' Health Homes Program website.

MCPs must be prepared to follow the required high-level trainings with more specific HHP operational training for their staff and CB-CME staff that provide HHP services. This should include MCP-specific information on operations, workflows, how HHP intersects with MCP care coordination initiatives, data reporting, and other implementation issues. DHCS and Harbage Consulting will work with each MCP to discuss their needs and the best approach for providing the required trainings.

The required HHP training topics are:

1. **Health Homes Program Overview**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on the program. Required training modules shall describe the goals and scope of the HHP, team member roles and how they should work together, the services that should be provided, and how HHP intersects with other California state care coordination programs. The training shall introduce topics related to caring for the populations served under HHP, including those with chronic conditions and homeless individuals, and the impact of social determinants of health on patients.

2. **Health Action Plan, Care Coordination, and Care Transitions within the Health Homes Program**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on best practices for working with members and providers to design and implement the Health Action Plan, conduct care coordination activities, and support patient transitions between different levels of care.

Required training shall cover approaches and best practices for developing and implementing a Health Action Plan and providing patient-centered care, taking into account the individual's preferences, values, and unique needs. It shall also cover best practices for care management for specific chronic diseases that are prevalent in the patient population and best practices for serving the SMI population.

Staff shall be trained in best practices for coordinating care across care settings, with particular focus on medical care, behavioral health services, and services addressing social determinants of health and housing. Training shall include effective strategies for care transitions, including best practices for reducing hospital readmissions and medication errors at care transitions.

3. **Community Resources and Referrals** (required for care coordinators and housing navigators)

This training shall provide information about available community resources, how to develop relationships with community partners, and best practices for connecting members to community services. This training is required for MCP and CB-CME care coordinators and housing navigators.

MCPs are encouraged to provide additional training and/or guidance about specific local and community organizations and resources available to the CB-CME staff.

Recommended but Optional Training for CB-CME Staff on Core Competencies

DHCS recommends that relevant MCP and CB-CME staff receive training on the following core competencies in order to successfully implement HHP. DHCS plans to provide trainings and/or resources on these topics, which will be saved on the portal and available on-demand.

1) Special Populations (homelessness, domestic violence, SMI, etc.)

Team members should have access to training and resources specific to the patient populations they serve.

2) Social Determinants of Health

Trainings and resources related to social determinants of health should be made available for team members. Social determinants of health include gender, age, education, income and employment, social/cultural networks, housing and physical environments and other factors that impact health outcomes and access to care.

3) Motivational Interviewing

Motivational interviewing is a communication technique that seeks to elicit an individual's internal motivation to make set and accomplish positive goals. The technique uses a non-confrontational, collaborative approach to help the patient find his or her own motivation and initiate change. The patient is empowered to make personal choices, resulting in increased likelihood of compliance with care plans.

4) Trauma-informed Care

Trauma-informed care is a service delivery framework that involves identifying, understanding, and responding to the effects of all types of trauma. Trauma-informed care emphasizes safety (physical, psychological and emotional) for patients and providers and seeks to empower patients with self-care tools.

5) Health Literacy Assessment

Health literacy refers to a patient's capacity to find and understand health information and services in order to make informed health decisions. Assessment of patient health literacy is essential to the creation of a patient-centered care plan.

6) Information Sharing

Team members should be trained on requirements related to sharing member information and data with other entities for the purpose of care coordination. These entities include the MCP, CB-CMEs, the care team, the county, hospitals, other providers, and community-based organizations including housing organizations.

D. Appendix D – Readiness Requirements and Checklist

Readiness Requirements and Checklist

This checklist is not intended to be all-inclusive. Additional information as needed may be requested by the Department.

General Instructions

Thank you for your interest in participating in the Health Homes Program (HHP). To ensure that Medi-Cal managed care health plans (MCPs) are ready to implement the Health Homes Program, MCPs must submit the documentation listed below and attest that other program requirements have been completed. **There are multiple deadlines for submissions for each implementing MCP group. Please see Appendix I for the HHP Implementation Schedule by group. Submission deadlines for each group are as follows:**

1. **Group 1 – March 1, 2018; May 1, 2018; and November 1, 2018.**
2. **Group 2 – September 1, 2018; November 1, 2018; February 1, 2019; and May 1, 2019.**
3. **Group 3.1 – January 1, 2019; April 1, 2019; July 1, 2019; and October 1, 2019.**
4. **Group 3.2 – March 1, 2019; May 1, 2019; August 1, 2019; and November 1, 2019.**
5. **Group 4 – September 1, 2019; November 1, 2019; February 1, 2020; and May 1, 2020.**

List of Deliverables:

Policies and Procedures (P&Ps) and Attestations: Section I – HHP Infrastructure (Deliverables #1 – 3), Section II – HHP Services (Deliverables #4 – 5), Section IV – General HHP Operations (Deliverables #7 – 10 and 12), and the Attestations (Deliverable #13)

Network: Section III – Network (Deliverable #6.1, 6.3, 6.4, 6.5)

SMI– MHP-MOU: Section IV – General HHP Operations, MHP-MOU (Deliverable #11.1)

SMI Network: Section III – Network (Deliverables #6.2a and 6.2b)

Group	Counties	Deliverable Due Dates		Deliverable Approval Dates
Group 1	San Francisco	**P&Ps**:	3/1/18	5/1/18
		Network:	5/1/18	6/1/18
		SMI Deliverables:	11/1/18	12/1/18
Group 2	Riverside San Bernardino	**P&Ps**:	9/1/18	11/1/18
		Network:	11/1/18	12/1/18
		SMI MHP-MOU:	2/1/19	3/1/19
		SMI Network:	5/1/19	6/1/19
Group 3.1	Imperial Santa Clara	**P&Ps**:	1/1/19	5/1/19
		Network:	4/1/19	6/1/19
		SMI MHP-MOU:	7/1/19	8/1/19
		SMI Network:	10/1/19	12/1/19
Group 3.2	Alameda Kern Los Angeles Sacramento San Diego Tulare	**P&Ps**:	3/1/19	5/1/19
		Network:	5/1/19	6/1/19
		SMI MHP-MOU:	8/1/19	9/1/19
		SMI Network:	11/1/19	12/1/19
Group 4	Orange	**P&Ps**:	9/1/19	11/1/19
		Network:	11/1/19	12/1/19
		SMI MHP-MOU:	2/1/20	3/1/20
		SMI Network:	5/1/20	6/1/20

DHCS expects the deliverables to be submitted in the form of MCP policies and procedures except for the organizational chart, assessment tool, health action plan template, network adequacy tables, and CB-CME subcontract. MCPs may develop standalone policies and procedures for the HHP and/or may incorporate HHP into existing policies and procedures.

MCPs are to submit a separate set of deliverables for each county they are implementing HHP in. If one or several deliverables cover multiple counties, MCPs are not required to submit the deliverable for each county. However, the MCP must indicate which counties the deliverable applies to during the submission process. The network tables that MCPs submit are to be separated by county.

For MCPs in multiple groups, the plan should not resubmit deliverables already approved for a prior group, unless changes have been made.

When submitting existing policies & procedures with HHP-related revisions, please use the "track changes" function in Word, or strike-thru/underline equivalent in other applications, to show deletions and additions. Other forms of documentation are also permitted to supplement MCP policies and procedures. If single documents are used to demonstrate compliance with multiple requirements/deliverables, please provide a crosswalk with the specific location for each deliverable.

Please see the *"Medi-Cal Health Homes Program: Program Guide"* (Program *Guide)* for Health Home Program requirements that correspond to this Readiness Checklist.

Submission Requirements

MCPs should follow the regular process for submitting required deliverables to their current Contract manager(s). Please submit HHP-related deliverables to 2PlanDeliverables@dhcs.ca.gov and copy the HHP mailbox at hhp@dhcs.ca.gov.

For each submission, please provide the Plan's Name and the primary Contact Person's name and telephone number.

In addition, when submitting, please use the following email subject line and file naming conventions:

- In the subject line of the email, please note that these are HHP Deliverables by using the following subject line convention:
  "HHP Deliverable 1"; "HHP Deliverables 2 and 3"; etc.

- Please use the following file naming convention:
  [plan name and deliverable number]

The Contact Person is responsible for ensuring that all documentation and attestations are accurate. Questions may be directed to hhp@dhcs.ca.gov. DHCS will provide additional information as it becomes available, and may request additional information at a later date.

I. HHP Infrastructure

1. Organizational Model:

1.1 Submit MCP's policies and procedures describing the HHP infrastructure, the roles and division of labor between the MCP and Community-Based Care Management Entities (CB-CMEs), and whether the MCP delegates any responsibilities to other entities.

1.2 Organizational chart illustrating the HHP infrastructure.

2. Staffing:

2.1 Submit MCP's policies and procedures describing the staffing plan for MCP and CB-CMEs, including care coordinators, community health workers, and housing navigator(s). The care coordinator ratio requirements are included in the Program Guide; however, if an MCP is interested in using a staffing model that de-emphasizes the care coordinator and instead emphasizes the roles of other team members, please describe the model here and DHCS will consider how to handle the care coordinator ratio.

The participation of community health workers in appropriate roles is recommended but not required.

2.2 Job descriptions for care coordination staff, including MCP and CB-CME staff, as appropriate.

3. Health Information Technology/Data and Information Sharing:

3.1 Submit MCP's policies and procedures describing how information is shared among the entire care team (including the member, CB-CME, and MCP), including whether EHR/HIT/HIE, or other methods, are used regarding the following activities:

a. Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management – standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement. Include other methods if electronic means of collection are not used.

b. Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members. Include other methods if electronic means of collection are not used.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters. Include other methods if electronic messaging is not used.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information. Include other methods if an electronic system is not used.
   - Telehealth services including remote patient monitoring.

c. Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER. Include other methods if an electronic process is not used.

- Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR. Include other methods if electronic sharing is not used.
- Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.

d. Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.

e. Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence). Include other methods if electronic means of collection are not used.
   - Ability to electronically refer patients to necessary services. Include other methods if electronic referral is not used.

II. HHP Services

4. Care Management:

5.1 Submit the assessment template or tool reflective of HHP-required elements such as housing instability, palliative care, and trauma-informed care.

5.2 Submit the Health Action Plan (HAP) template.

5.3 Submit MCP's policies and procedures for conducting care management, including how the MCP, in conjunction with contracted CB-CME, will:
- Develop and implement an HHP member assessment and HAP requirements and process, with enrollee and caregiver participation;
- Design the multi-disciplinary care team composition and process;
- Manage the communication and information flow regarding referrals, transitions, and care delivered outside the primary care site; and
- Maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.
- Maintain a process for referring to other agencies, such as long term services and supports (LTSS) or behavioral health agencies, as appropriate.
- Disenroll members from HHP who no longer qualify for or require HHP services.

5. Care Transitions:

5.1 Submit MCP's policies and procedures for conducting care transitions, including discharge-planning workflows.

III. HHP Network

6. MCP Duties/Responsibilities - Health Homes Program Network

6.1 Physical Conditions and SUD implementation

Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected enrollment and capacity as of the program launch date and as of the last day of each quarter in the first year for the Physical Chronic Conditions/SUD implementation. "Projected capacity" is the maximum caseload of the MCP's Physical Chronic Conditions/SUD HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of Physical Chronic Conditions/SUD HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable is due as a part of the Network Deliverables submission.

Please provide expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – Physical Conditions and SUD**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

Note: A separate DMHC network review specific to HHP will not be conducted; however, DMHC will continue to conduct regular Knox-Keene Act required network reviews through DMHC established processes.

6.2 SMI Implementation

a. Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected HHP enrollment and capacity for these CB-CMEs as of the program launch date and as of the last day of each quarter in the first year for the SMI implementation. "Projected capacity" is the maximum caseload of the MCP's SMI HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of SMI HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable update is due as a part of the SMI Deliverables submission.

Please provide the expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – SMI**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

b. Provide a description of how behavioral health providers are incorporated into the HHP service delivery model. This deliverable is due as a part of the SMI Deliverables submission.

6.3 If applicable, provide any MCP-specific CB-CME qualifications (beyond the CB-CME qualifications listed in section V.B, CB-CME Qualifications) that the MCP requires for the CB-CME to contract for HHP Services. This deliverable is due as a part of the Network Deliverables submission.

6.4 Submit CB-CME oversight policies and procedures, including monitoring, corrective action, progressive consequences for continued non-compliance, auditing care coordination conducted by CB-CMEs. This deliverable is due as part of the Network Deliverables Submission.

6.5 Submit CB-CME subcontract boilerplate that complies with the DHCS MCP contract requirements and includes: 1) Business Associate Agreement that allows for information and data sharing between MCP and CB-CME, 2) CB-CME to provide services in accordance with requirements in this Program Guide, and 3) CB-CME to complete DHCS/MCP required training. **If submitting prior DHCS approved subcontract boilerplate with HHP-related revisions, please use the "track changes" function in Word, or the "strike-through/underline" equivalent in other applications, to show deletions and additions.** This deliverable is due as part of the Network Deliverables Submission.

Note: MCP must have DHCS-approved subcontracts or subcontract amendments with a sufficient number of CB-CMEs to serve its HHP enrollees.

IV. General HHP Operations

7. Non-Duplication of Care Coordination Services:

7.1 Submit MCP's policies and procedures for ensuring that members are not enrolled in another Medi-Cal care coordination program that would disqualify them from receiving HHP services (see Program Guide for requirements).

8/9. HHP Outreach Requirements

8.1 Member Engagement:

Submit MCP's policies and procedures that include the following:

- Protocols for a progressive outreach campaign (see Program Guide Appendix A for model outreach campaign protocols)
- Process for assisting members who require additional prompting or guidance to participate;
- Process for conducting outreach to homeless individuals;
- Process for reviewing and excluding names from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines

of having no substantial avoidable utilization **or** enrollment in another acceptable care management program – see Reporting Template-Instructions for definition);

- After people have been excluded from the TEL based on the process above, the process and criteria for identifying a "priority engagement group" or ranking process within the remaining TEL members. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for 'priority engagement' status will be at the MCP's discretion (upon approval by DHCS) with the goal of engaging and serving TEL members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization.

9.1 Member Notices:

All beneficiary notices to be sent by the MCP regarding the HHP should be filed for DHCS review. If the MCP is licensed by DMHC, these notices should additionally be filed with DMHC for review. DHCS is aligning with DMHC requirements regarding notice review, and DMHC requires MCPs to file all advertisements for review. All outreach materials and scripts that will be distributed should be filed prior to use by the MCP. Submission through this readiness checklist process will begin the DHCS notice review/approval process. MCPs may provide notices for DHCS review at any time prior to the member notices deliverable due date.

Note: Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. DHCS' HHP Beneficiary Toolkit is an optional resource for the MCPs for examples of 'best practice' member messaging (though the HHP Member Toolkit messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

10. Risk Grouping:

10.1 Submit MCP's policies and procedures for ensuring that HHP members receive the appropriate services at the appropriate intensity level, including tiering of services based on risk grouping and the associated payment structure (but not amounts). See Section V. Health Homes Program Network, G. Risk Grouping in this Program Guide for additional information.

11. Mental Health Services:

11.1 Signed local Mental Health Plan (MHP) Health Memorandum of Understanding (MHP-MOU) to ensure seamless access and delivery of mental health services. The MHP-MOU must be in place as of the date of implementation of HHP for members

with SMI conditions. MCPs will develop or amend existing MOUs with county MHPs to address HHP-specific information.

DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018), including Attachment 2 of this APL, to address the HHP-specific information that MCPs must include in new, or amended, MOUs. MCP must submit the new or amended MHP-MOU by November 1, 2018 for Group 1 MCPs; February 1, 2019, for Group 2 MCPs; July 1, 2019 for Group 3.1 MCPs; and August 1, 2019 for Group 3.2 MCPs.

12. Housing Services:

12.1 Submit MCP's policies and procedures for providing the required housing services, including how the MCP will identify and work with community resources to ensure seamless access to delivery of housing support services. MCPs must provide housing navigation services, not just referrals to housing. (See Program Guide for requirements.)

13. Health Homes Program Readiness – Attestations

The operational process attestations below reflect the MCP's commitment to being fully prepared as of the HHP implementation date. Please check the boxes and sign below to indicate MCP's compliance with the following readiness requirements for the Health Homes Program.

☐ **F. Training**: Attest (check the box) that the MCP and CB-CMEs will complete all DHCS-required HHP training prior to participating in the administration of the HHP, as outlined in the *Program Guide*.

☐ **G. Service Directory**: Attest (check the box) that the MCP or the CB-CME(s) has completed and will maintain a directory of community services and supports that is available to all CB-CMEs and care coordinators.

☐ **H. Quality of Care**: Attest (check the box) that the MCP has incorporated HHP into existing quality management processes.

☐ **I. Cultural Competency, Educational and Health Literacy**: Attest (check the box) that the MCP has incorporated HHP into existing Policies & Procedures on these topics.

☐ **J. Member Communication**: Attest (check the box) that the MCP has incorporated HHP into existing policies regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers), into account in communicating with enrollee.

☐ **K. Members Experiencing Homelessness**: Attest (check the box) that the MCP has incorporated HHP-specific information into the appropriate Policies & Procedures for homeless members, including special service requirements, provider criteria (to comply with homeless experience requirements per AB 361), and engagement processes.

☐ **L. Reporting**: Attest (check the box) that the MCP has the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP service encounters for services provided by the MCP and the CB-CMEs (see *Program Guide* and *reporting template* for reporting requirements).

☐ **M. Service Requirements**: Attest (check the box) that the MCP will comply with all the with all service requirements, including for the six core services and the additional service requirements listed in the Program Guide.

I am authorized to make this attestation on behalf of:

_____	_____
Managed Care Plan	Signature of Authorized Representative
_____	_____
Date	Name of Authorized Representative
	_____
	Title of Authorized Representative

E. Appendix E – Service Codes for the Health Homes Program

DHCS has defined the ACA 2703 Health Home Program (HHP) service codes for use on encounters and for other purposes. The HHP is required to utilize HIPAA-compliant coding standards. This revised coding scheme incorporates comments received on the initial proposed coding scheme released in October 2016. The HHP team and the DHCS Office of HIPAA Compliance identified CPT and HCPCS codes for HHP. In addition, the HHP team investigated other potential codes and reviewed codes used by a few other states.

DHCS initially selected HCPCS code G0506 for HHP, however it was found to conflict with National Correct Coding Initiative rules. DHCS instead adopted HCPCS code G9008 effective as of 10/1/2018. The definition of G9008 is as follows: Coordinated care fee, physician coordinated care oversight services. G9008 along with seven different modifiers are listed in the table below for the HHP services (Comprehensive Care Management, Care Coordination, Health Promotion, Comprehensive Transitional Care, Individual and Family Support Services, and Referral to Community and Social Supports). This coding scheme uses HIPAA compliant HCPCS code and modifier combinations to identify clinical and non-clinical services, distinguishes between in-person and telephonic/telehealth 'visits', and allows other HHP services such as case notes, case conferences, tenant supportive services, driving to appointments, etc. to be codified. In addition, there is a designated modifier for engagement services. The HHP coding scheme is as follows:

HHP Service	**HCPCS Code**	**Modifier**	**Units of Service (UOS)**
In-Person: Provided by Clinical Staff	G9008	U1	15 minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Clinical Staff	G9008	U2	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Clinical Staff	G9008	U3	15 Minutes equals 1 UOS; Multiple UOS allowed
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed
HHP Engagement Services	G9008	U7	15 Minutes equals 1 UOS; Multiple UOS allowed

Telehealth and Group Visits

Regarding the use of the HHP HCPCS code and modifiers for HHP services provided via Telehealth and group visits – specifically, if MCPs may submit HHP encounters for telehealth and group visits using the HHP HCPCS code and modifiers for HHP in-person visits and if they may be used to satisfy the in-person visit ratio requirement – DHCS offers the following clarifying guidance.

Telehealth visits generally may not be used to meet the in-person visit ratio requirement for HHP. However, on a case by case basis, if an MCP has certain circumstances that necessitate the use of a high volume of telehealth visits for HHP, and the MCP is unable to meet the HHP in-person visit requirement because of the high-volume use of telehealth, DHCS will evaluate the circumstances and may allow the MCP to utilize some telehealth visits to meet the in-person visit requirement.

DHCS expects that group visits to be primarily used for health promotion and educational purposes as opposed to one-on-one HHP care coordination. However, if there is a one-on-one in-person component to the group visit in which the provision of any of the six core HHP services are provided, this may be reported as a separate HHP in-person visit encounter.

F. Appendix F – Evidence of Coverage Template

Description:

<Plan Name> covers Health Homes Program (HHP) services for Members with certain chronic health conditions. These services are to help coordinate physical health services, behavioral health services, and community-based long term services and supports (LTSS) for Members with chronic conditions.

You may be contacted if you qualify for the program. You can also call <Plan Name>, or talk to your doctor or clinic staff, to find out if you can receive HHP services.

You may qualify for HHP if:

- You have certain chronic health conditions. You can call <Plan Name> to find out the conditions that qualify; and
- You meet one of the following:
  - You have three or more of the HHP eligible chronic conditions
  - You stayed in the hospital in the last year
  - You visited the emergency department three or more times in the last year; or
  - You do not have a place to live.

You do not qualify to receive HHP services if:

- You receive hospice services; or
- You have been residing in a skilled nursing facility for longer than the month of admission and the following month.

Covered HHP Services:

HHP will give you a care coordinator and care team that will work with you and your health care providers, such as your doctors, specialists, pharmacists, case managers, and others, to coordinate your care. <Plan Name> provides HHP services, which include:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Cost to Member:

There is no cost to the Member for HHP services.

G. Appendix G – Reporting Template Excerpt

The below is an excerpt from the complete Reporting Template that MCPs will use to submit specific required data. For descriptions of data elements, please see Reporting Template.

Note: CPB = Controlling High Blood Pressure; CDF = Screening for Clinical Depression and Follow-up Plan; SMI = Serious Mental Illness/Serious Emotional Disturbance.

Health Home Program (HHP) Reporting Instructions

These instructions outline the requirements, references, and headings/categories for the following reporting template: Health Home Program Reporting Template. Reporting is required per the managed care contract.

• Data must be submitted in Excel (.xlsx). Do not submit data in .pdf, .xls, .csv, .txt, or any other format than .xlsx.

• The three months of data must be combined into one figure to represent the quarter, with the exception of member level Homeless and Housing reports and annual reports.

• Each MCP must submit only one file per reporting period that includes all counties the MCP operates in. All subcontractors must be rolled up into the main MCP's data.

• MCPs will certify the HHPQuarterlyReports or data submissions using the existing monthly data certification process with its respective DHCS Contract Manager to confirm all information submitted is complete and accurate. MCP will maintain documentation supporting the reported information.

Quarterly reports are due 60 days after the end of the quarter. Annual reports are due with Q1 reports. Member-level detail Homeless/Housing reports are due semi-annually, with the Q2 and Q4 reports. When the due date falls on Saturday, Sunday or a holiday, data must be submitted by COB the business day before the due date. For reference, the calendar-year quarters are listed below:

• Q1 and Annual – January, February, and March - due May 31

• Q2 and Member-level Homeless/Housing – April, May, and June - due August 31

• Q3 – July, August, and September - due November 30

• Q4 and Member-level Homeless/Housing – October, November, and December - due February 28

Unless otherwise noted, all "days" are calendar days.

Reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). Reports must use the following file naming convention: MCP name.HHPQuarterlyReport.Year.Quarter.DueDate.xlsx

[MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.xlsx.]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181130.xls. DHCS will not acknowledge or accept any email submissions.

All report revisions are subject to DHCS review and approval.

• DHCS will notify MCPs if revised reports must be submitted to correct data errors such as incorrect file naming conventions, incomplete data/columns fields, incorrect data, etc.

• Revised reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov).

• Revised reports must be submitted as a complete quarterly file. Partial files without all the required information and data will be rejected and must be resubmitted. Each quarter of data must be submitted separately. MCP must include an explanation in the HHP comments tab describing the changes and the reason for revision.

• Revised reports must use the following file naming convention: MCPName.HHPQuarterlyReport.Year.QuarterNumber.DueDate.RevisionNumber.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.REV#.xlsx]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181230.REV1.xlsx. to your designated folder in the "DHCS-MCQMD-Data/MCP" folder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). The revised file should be submitted as a separate file.

• Final corrections to quarterly reports must occur no later than 90 days after the end of the calendar year for corrections on the previous year's quarterly reports unless the Department requests a revised file.

Definitions:

CB-CME: Community Based Care Management Entity

HAP: Health Action Plan

Homeless and Chronically Homeless: see CA Welfare & Institution Code § 14127(e)

Housing Services:
https://www.medicaid.gov/federal-policy-guidance/downloads/cib-06-26-2015.pdf - see "Individual Housing Transition Services" and "Individual Housing & Tenancy Sustaining Services" on pages 3-4.

For the purposes of this document, the following definitions will apply:

- **HHP Member**: a Medi-Cal beneficiary currently enrolled in a Medi-Cal Managed Care Plan and a Health Homes Program.

- **Member**: a Medi-Cal Managed Care Plan member not currently enrolled in a Health Homes Program.

- **Individual**: Medi-Cal beneficiary or other eligible person who may not be currently enrolled in a Medi-Cal Managed Care Plan or a Health Homes Program. E.g., FFS beneficiary. May also apply to person not currently enrolled in Medi-Cal.

Definitions of Exclusionary Reasons for Non-Enrollment: The following are the allowable reasons, with definitions, for which a Medi-Cal member may be excluded from, or not enrolled into, a local Health Homes Program (HHP). These definitions are used by DHCS and its HHP partners. For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage. See the definition of Targeted Engagement Process below for additional information.

I. ***Unsafe Environment***: for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ED: After reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment or deliver HHP services, such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff.

Individual: Member engagement/enrollment efforts, or delivery of HHP services, cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

II. ***Declined participation***: After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate in HHP.

III. ***Unsuccessful engagement***: HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self-available, or is un-cooperative. Accurate contact information is not available for the member. This occurs before enrollment.

IV. ***Well-managed***: An assessment, which may include a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.

V. ***Participation in duplicative programs or programs excluded for HHP participation due to DHCS policy***: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following:

1. Duplicative Programs

a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH)

b. Targeted Case Management (TCM) – County, not Mental Health TCM

c. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF)

2. Programs excluded by DHCS Policy

a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month.

b. Hospice

c. Fee-For-Service

VI. ***Targeted Engagement Process***: The MCPs DHCS-approved process by which MCPs identify and prioritize individuals for engagement by using DHCS-provided Targeted Engagement List (TEL) and/or MCP member data.

For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage, that is a result of the above mentioned DHCS-approved process.

1. Health Home Program Enrollment Reporting	
***Note:* Only report one (1) exclusionary reason per member excluded from the Program.**	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number MCP excluded because not eligible - well-managed (Column C)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because not eligible due to MCP assessment determining well managed. The CB-CME and/or the MCP can further define, but well-managed means (a) members with HHP chronic conditions that do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation; or (b) members that are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.
Number MCP excluded because declined to participate (Column D)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because they declined to participate. After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate, or to continue to participate, in HHP.
Number MCP excluded because of unsuccessful engagement (Column E)	Enter the number of members MCP excluded via the targeted engagement process the quarter because of unsuccessful engagement. HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self available; is un-cooperative; or accurate contact information is not available for the member. This occurs before enrollment.

Number MCP excluded because duplicative program (Column F)	Enter the number of members MCP excluded via the targeted engagement process during the quarter due to being in another program that provides care management services: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following: 1. Duplicative Programs a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH) b. Targeted Case Management (TCM) – County, not Mental Health TCM 2. Programs excluded by DHCS Policy a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month. b. Hospice 3. Additional programs the MCP determines are duplicative as described in their progressive engagement policy
Number MCP excluded because unsafe behavior or environment (Column G)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because of an unsafe behavior or environment. Unsafe includes Environment (for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ER): after reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff; and Individual: Member engagement/enrollment efforts cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

Number MCP excluded because not enrolled in Medi-Cal at MCP (Column H)	Enter the number of individuals MCP excluded from via the targeted engagement process list during the quarter because they are not enrolled in Medi-Cal at the Managed Care Plan. Reasons can include, but may not be limited to, the following: a. Fee-For-Service b. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF) c. Member is deceased
Number externally referred & enrolled (Column I)	Enter the number of members not part of the plan's targeted engagement process, referred to the MCP, that were enrolled. The referral process is initiated by an external provider or organization when an individual is initially assessed to be a candidate for HHP and therefore is referred to the MCP for approval. Upon MCP review and evaluation, if the individual is approved for HHP and enrolled, they would be included in this measure. If they are not approved for enrollment in HHP, they would be reported in the following measure.
Number externally referred but excluded (Column J)	Enter the number of individuals not part of the plan's targeted engagement process, referred to the MCP, that were excluded. Exclusion reasons include reasons identified in columns C-H. Do not add these exclusions to the counts in Columns C-H.
Average monthly number of dedicated care coordination FTEs (Column K)	Enter the average monthly number of care coordinators for the quarter. Only count FTEs dedicated to care coordination activities. The counts are taken at a point in time, which will be the last day of each month in the quarter, and averaged across the 3 months in the quarter to get this average quarterly number.
2. Health Home Program Member Activity Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number initial HAP completed within 90 days (Column C)	Numerator: Enter the number of HHP members that had their initial HAP completed during the quarter and the HAP was completed within 90 days of enrollment.
Number initial HAP completed (Column D)	Denominator: Enter the number of HHP members that had their initial HAP completed during the quarter.

3. Health Home Program Homeless/Housing Member Level Detail	
Note: This tab is to be submitted semi-annually in the Q2 report and Q4 report of every year. The Q2 report (due 8/31) will include data for January through June of the current calendar year. The Q4 Report (due 2/28) will include data for July through December of the previous calendar year.	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for the county and plan code the plan operates in. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and semi-annual reporting period. For example, the second reporting period of 2019 will be entered as 2019 Q3-Q4.
Member CIN (Column C)	Enter the Member's Client Identification Number (CIN) for all members that meet Column G and/or Column I.
Member Last Name (Column D)	Enter the Member's Last Name.
Member First Name (Column E)	Enter the Member's First Name.
Member Date of Birth (DOB) (Column F)	Enter the Member's Date of Birth (DOB) using format MM/DD/YYYY.
Homeless HHP Members and HHP Members at Risk for Homelessness During This Reporting Period (Column G)	Indicate whether the HHP enrolled member met the Federal definition of Homeless or required tenancy sustaining services at any point during the reporting period. Enter "Yes" or "No."
Received Housing Services During This Reporting Period (Column H)	Indicate whether the HHP enrolled member received housing services at any point during the reporting period. Enter "Yes" or "No."
Homeless Health Homes Members In Any Enrollment Period (Column I)	Indicate whether the HHP enrolled member met the Federal definition of Homeless at any point during their enrollment in the HHP. Enter "Yes" or "No."

HHP Members who are no longer Homeless On Last Day of This Reporting Period (Column J)	Indicate the HHP enrolled member no longer meets the Federal definition of Homeless, as of the last day of the reporting period. If the member was disenrolled during the reporting period, report as of their last date of enrollment. Enter "Yes" or "No."
4. Health Home Program Network Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
CB-CME NPI # (Column C)	Enter all CB-CME NPI numbers that were contracted as of the last day of the quarter. Enter each CB-CME NPI number in each county on its own row. For example, if a MCP is contracted with a CB-CME that operates in two counties, there would be two rows for that NPI with each row having a different plan code & county. DHCS assumes that all lead CB-CMEs will have a NPI or be the MCP; if a CB-CME does not have an NPI #, please reach out to DHCS for further discussion. This is a measure of the prime contract with the MCP for care management duties, not engagement subcontractors or housing subcontractors.
Capacity for each CB-CME (Column D)	Enter the capacity for assigned HHP members for each CB-CME contracted in each county during the quarter. If a CB-CME operates in more than one county, separate the projected capacity for each county. Capacity is defined as the number of HHP members the CB-CME will be able to serve according to the HHP service requirements including the care manager ratio and the extent the CB-CME is able to satisfy all care team requirements. The count is taken at a point in time, which will be the last day of the quarter.
5. Health Home Program Annual CMS Core Measures Reporting	

DHCS is required to collect and report the Core Set of Health Care Quality Measures for Medicaid Health Homes Programs according to the Technical Specifications published by CMS. DHCS will continue to make the annual Technical Specification link available to the MCPs. MCPs are required to follow the technical specifications. DHCS will use the reporting template to collect measure information from the MCPs so that DHCS can perform the aggregation, weighting, and reporting required by the Technical Specifications. For additional information on the Core Measures, refer to the Technical Specifications and Resource Manual link from CMS. Approve the license agreements and download the Technical Specifications.

https://www.medicaid.gov/license-agreement.html?file=%2Fstate-resource-center%2Fmedicaid-state-technical-assistance%2Fhealth-home-information-resource-center%2Fdownloads%2FFFY-18-HH-Core-Set-Manual.pdf

Each MCP will determine its numerator, denominator, and/or rates for the required performance measure and report these results for each county. DHCS is required to report separately for each SPA, therefore, there are separate numerator, denominator, and rates columns for Chronic Conditions and SMI. The Technical Specifications measurement year and reporting year definitions are consistent with DHCS's other HEDIS oriented timelines. The Technical Specifications require reporting results when the SPA is in effect for six or more months of the measurement period. The fields in the template will be adjusted over time to align with the Technical Specifications if/when they change.

Note: **This tab is to be submitted annually in the Q1 report (due 5/31) of every year and include data on the previous calendar year of January through December.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year for the data reported: Year.
Controlling high blood pressure (CBP) (Med) age 18-59 w/HTN, BP < 140/90 - numerator (Column C)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (Med) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column D)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column E)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator

CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column F)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column G)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column H)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column I)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column J)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column K)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column L)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - numerator (Column M)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column N)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column O)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column P)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column Q)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column R)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column S)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column T)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column U)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator

CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column V)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CDF (MED) - Age 12-17 - numerator (Column W)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - numerator
CDF (MED) - Age 12-17 - denominator (Column X)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - denominator
CDF (MED) - Age 18-64 - numerator (Column Y)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - numerator
CDF (MED) - Age 18-64 - denominator (Column Z)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - denominator
CDF (MED) - Age 65+ - numerator (Column AA)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - numerator
CDF (MED) - Age 65+ - denominator (Column AB)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - denominator
CDF (SMI) - Age 12-17 - numerator (Column AC)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - numerator
CDF (SMI) - Age 12-17 - denominator (Column AD)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - denominator
CDF (SMI) - Age 18-64 - numerator (Column AE)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - numerator
CDF (SMI) - Age 18-64 - denominator (Column AF)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - denominator
CDF (SMI) - Age 65+ - numerator (Column AG)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - numerator
CDF (SMI) - Age 65+ - denominator (Column AH)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - denominator
6. Health Home Program Reporting Comments	
Column Name	**Explanation**
Comments (Column A)	Enter any relevant information pertaining to the submitted report and the data it contains.

I. Appendix I – HHP Implementation Schedule

HHP Implementation Schedule

The California Department of Health Care Services (DHCS) announced that the implementation of the state's Health Homes Program (HHP) begins July 1, 2018. The counties included in each group and the phased implementation schedule are outlined in the table below:

County Implementation Schedule

Groups	Counties	(Phase 1) Implementation date for members with eligible chronic physical conditions and substance use disorders	(Phase 2) Implementation date for members with eligible serious mental illness conditions
Group 1	• San Francisco	July 1, 2018	January 1, 2019
Group 2	• Riverside • San Bernardino	January 1, 2019	July 1, 2019
Group 3	• Alameda • Imperial • Kern • Los Angeles • Sacramento • San Diego • Santa Clara • Tulare	July 1, 2019	January 1, 2020
Group 4	• Orange	January 1, 2020	July 1, 2020

J. Appendix J – HHP Supplemental Payment File

Please refer to the DHCS' *Technical Guidance – Consolidated Supplemental Upload Process for further information.*

K. Appendix K – Whole Person Care Pilot Interaction Guidance

Joint Medi-Cal Managed Care Health Plan and Whole Person Care Pilot Guidance:

Eligibility and Provision of Services in the Health Homes Program and

Whole Person Care Pilots

This notification provides DHCS policy guidance regarding the eligibility, enrollment and the provision of services for Medi-Cal beneficiaries concurrently eligible for both the Health Homes Program (HHP) and a Whole Person Care (WPC) Pilot.

Medi-Cal managed care health plans (MCPs) implementing the HHP are responsible for providing the following six core HHP services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services. Program eligibility is based on meeting a set of chronic physical/Substance Use Disorder (SUD) or Severe Mental Illness (SMI) conditions as well as specified acuity criteria.

The overarching goal of the WPC Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots are administered at the local level where a county, a city and county, a health or hospital authority, or a consortium of any of the above can serve as the Lead Entity (LE). WPC eligibility is established by each Pilot.

DHCS' guidance is that Medi-Cal beneficiaries that are eligible to receive services from both the WPC Pilot program and the HHP can be enrolled in either program or both, based on beneficiary choice.

In most cases WPC pilots provide care coordination services that are similar to the care coordination services provided by the HHP program. If a Medi-Cal beneficiary is eligible for both WPC and HHP, the member may choose which program's care coordination services that want to receive. The member may not receive duplicative care coordination services from both WPC and HHP. If the beneficiary is receiving care coordination services through the HHP, it is the responsibility of the WPC pilot to ensure that a beneficiary does not receive duplicative care coordination services from WPC. The WPC pilot may not claim WPC reimbursement for care coordination services that are duplicative of HHP care coordination services that are provided during the same month.

If the beneficiary chooses to receive care coordination services through WPC and is also interested in participating in the HHP, the beneficiary will not be able to receive any HHP services due to HHP, by default, being a program that consists of a set of 6 care-coordination services that are offered as the core benefit of the program.

In most cases WPC pilots also provide other services that are not duplicative, or similar to, HHP care coordination services. A sobering center service is one example of a WPC service that is likely to not be duplicative of HHP services. If a member is eligible for both WPC and HHP, and the member chooses to receive care coordination services through the HHP, the member may still receive other WPC services (that are not duplicative of HHP services) through the WPC. The WPC pilot may claim reimbursement for these other services regardless of whether the beneficiary chooses to receive care coordination services through the WPC or the HHP.

Please see the following points regarding DHCS' expectations:

- All WPC LEs must ensure the non-duplication of services for their WPC-enrolled members.

- The LEs are required to check other program participation, including HHP, as a regular part of their assessments. DHCS recommends frequent communication between the LE and their local MCPs to ensure there is no duplication of services.

- The WPC "Certification of Lead Entity Reports" document has been revised to include an additional attestation stating that DHCS reserves the right to recoup payments made to LEs for services found to be duplicative.

- LEs are responsible for keeping auditable records, such as documentation of their in-person assessments of enrollee participation in other programs, which should address non-duplication of services.

- As always, DHCS reserves the right to perform an audit of LE data and MCP data.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 3, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

15. Consider Authorizing Amendments to Medi-Cal Health Network Contracts Associated with AltaMed Health Services Corporation to include language for the Health Homes Program

Contact

Michelle Laughlin, Executive Director, Network Operations (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to Amend the CalOptima Medi-Cal Health Network Contracts associated with AltaMed Health Services Corporation to provide Health Homes Program (HHP) services including responsibilities as Community Based-Care Management Entities (CB-CMEs)

Background/Discussion

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option, which is intended to improve member outcomes and reduce health care costs with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. On June 7, 2018, the CalOptima Board of Directors authorized an amendment to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS) to incorporate implementation of the HHP. Implementation in Orange County is expected to be effective no sooner than January 1, 2020 for CalOptima Medi-Cal members with eligible chronic physical conditions and substance use disorders (SUD), and no sooner than July 1, 2020 for CalOptima Medi-Cal members with Serious Mental Illness (SMI).

Many of the CB-CME responsibilities are currently being provided by CalOptima's health networks. Consequently, CalOptima will require all health networks, including CalOptima Direct and CalOptima Community Network, to participate in HHP and meet CB-CME requirements. This approach will provide an adequate CB-CME network and ensure continuity of members' relationships with their respective health networks and primary care providers.

In order to implement HHP, staff seeks approval to amend CalOptima's health network contract associated with AltaMed Health Services Corporation to include expectations of CB-CME responsibilities to provide HHP services effective January 1, 2020. Prior to implementing HHP, CalOptima will coordinate with the health networks regarding the development of infrastructure, policies and procedures, reporting capabilities, staffing ratio requirements, and the ability to deliver core services with added intensity and new select services, where appropriate.

Fiscal Impact

The anticipated implementation date for HHP in Orange County is January 1, 2020. Management has included projected revenues and expenses for HHP in the CalOptima Fiscal Year 2019-20 Operating Budget and will for future operating budgets. Total actual revenue and expenses for HHP will depend on the number of members that choose to participate in the program. Based on projected enrollment and

Back to Agenda

draft rates received from DHCS on April 2, 2018, CalOptima is projected to receive $26.3 million in funding for HHP over a three-year period.

Since this is a new program for CalOptima, there is the possibility that the rate development assumptions applied by DHCS may be materially different from CalOptima's actual utilization and expenses. Staff will closely monitor both utilization and expenses and will continue to work with DHCS to ensure that Medi-Cal revenue will be sufficient to support the program.

Rationale for Recommendation

The above actions will enable CalOptima to operationally prepare for the anticipated implementation of Health Homes Program, effective January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD and July 1, 2020, for members with SMI.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorizing and Directing the Chairman of the Board of Directors to Execute an Amendment to the Primary Agreement with the California Department of Health Care Services (DHCS) Related to the Health Homes Program

Contact

Silver Ho, Executive Director, Compliance, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors (Board) to execute an Amendment to the Primary Agreement between DHCS and CalOptima related to incorporation of language related to the Health Homes Program (HHP).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

On October 2, 2017, DHCS submitted an amendment to the Centers for Medicare & Medicaid Services (CMS) for approval that will incorporate language regarding the Health Homes Program (HHP) into managed care plan (MCP) contracts, including CalOptima's.

The Medicaid Health Home State Plan Option, authorized under Section 2703 of the Patient Protection and Affordable Care Act (ACA), allowed states to create Medicaid health homes to provide supplemental services that coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Among other goals, the HHP was designed with particular attention paid to its ability to produce positive health outcomes for individuals experiencing homelessness. Specifically, the HHP provides six core services:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and

Back to Agenda

- Referral to community and social support services, including housing.

Effective July 1, 2019, CalOptima will begin providing HHP services to members with eligible chronic physical conditions and substance use disorder (SUD); effective January 1, 2020, CalOptima will begin providing HHP services for members with Severe Mental Illness (SMI).

Once CMS concludes its review of DHCS' proposed amendment, DHCS will provide the amendment to CalOptima for prompt signature and return. If the amendment is not consistent with staff's understanding as presented in this document or if it includes significant unexpected language changes, staff will return to the Board of Directors for consideration and/or ratification of staff action.

DHCS has advised that once the contract amendment and applicable APLs are finalized, it will require MCPs to submit readiness deliverables related to the amendment. DHCS' requested deliverables may include Policies and Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. To the extent that CalOptima staff must provide information to DHCS to meet certain deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Following is a general summary of the major changes to expected be addressed in the final contract amendment:

	Requirement
HHP Compliance	Implement the HHP, as directed by DHCS, and in accordance with all State and federal requirements related to HHP and DHCS APLs.
Provider Network	Maintain an adequate network of CB–CMEs to serve HHP members including providers with experience working with people who are chronically homeless. Establish contractual relationships with organizations to provide HHP services including individual housing transition services and individual housing and tenancy sustaining services. Amend the current MOU with the Orange County Health Care Agency to incorporate HHP requirements.
Provider Relations	Ensure that staff providing HHP services complete required training as determined by DHCS and participate in DHCS–operated learning collaboratives.
Eligibility and Enrollment	Enrollment in HHP based on HHP eligibility criteria, as defined by DHCS.

Back to Agenda

	Requirement
HHP Member Services	Includes CB–CME selection, and HHP–specific member information and provider directory requirements.
HHP Covered Services	Includes the provision and coordination of HHP services informed by evidence–based clinical practice guidelines.
Information Sharing	Develop and maintain a method to track and share HHP member information between CB–CMEs, CalOptima, and other providers, as warranted.
Quality Improvement System	Include HHP–specific elements in current Quality Improvement system processes and conduct oversight and regular auditing and monitoring of HHP care management requirements.
Payment	CalOptima shall receive an additional monthly payment for each HHP member who receives HHP services.
Required Reports for the HHP	Submission of reports for HHP in a form and manner specified by DHCS.

The final contract amendment is also expected to contain revisions to Plan rates related to the HHP. On April 2, 2018, DHCS provided draft rates applicable for the first two years of the program. Highlights regarding these rates includes the following:

- Updates to the wage inflation factor, existing care coordination (ECC), and partial dual adjustment.
- Build-up of the lower bound HHP services per-member-per-month (PMPM) for chronic conditions (CC) and SMI enrollees, highlights the salary and caseload assumptions by HHP staff member, along with tier mix assumptions and the provider overhead cost. Rates are displayed in six month increments for the first 30 months of the program.
- Build-up of the lower bound engagement period costs for each member on the Targeted Engagement List (TEL), wage and service time assumptions by HHP staff member, and the assumed average number of months of engagement required for each TEL member.
- Combines information from steps 1 and 2 outlined above to produce the statewide lower bound HHP PMPM for the CC only and SMI populations.
- Application of the county-specific wage index, rural area, and wage inflation factors to the statewide rates. Plan-specific existing ECC PMPM and Partial Dual carve–outs are applied to create lower bound non–full dual rates with lower bound full–dual rates created by carving out the ECC and CCM/BHI PMPMs.
- Blending of CC only and SMI rates based on projected HHP enrollment to produce SFY rates.

Fiscal Impact

The recommended action to execute an amendment to the primary agreement between DHCS and CalOptima to incorporate language regarding the HHP program carries significant financial risks. Based on DHCS' proposed rates, staff estimates that the total annual program costs for

HHP will be $12 million. Management has included projected expenses to implement the HHP program effective July 1, 2019, in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval and will include projected revenue and expenses for the HHP program in future operating budgets. Actual utilization associated with the HHP eligible population is still relatively unknown. Therefore, CalOptima will closely monitor program expenses and continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the HHP program.

Rationale for Recommendation

The addition of the HHP contract amendment to CalOptima's Primary Agreement with DHCS is necessary to ensure compliance with the requirements of participation in the Medi-Cal program.

Back to Agenda

APPENDIX TO AGENDA ITEM

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

Back to Agenda

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014

Back to Agenda

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

Back to Agenda

I. Introduction

The Medi-Cal Health Homes Program: Program Guide (Program Guide) is intended to be a resource for Medi-Cal Managed Care health plans (MCPs) in the development, implementation, and operation of the Health Homes Program (HHP). The Program Guide includes a brief synopsis of the HHP, identifies all HHP requirements, and identifies the documentation MCPs must submit to the Department of Health Care Services (DHCS) as part of the required HHP readiness review. The Program Guide refers to additional guidance documents, when applicable.

The Medicaid Health Home State Plan Option is afforded to states under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years.

In California, Assembly Bill 361 (AB 361) amended the Welfare and Institutions Code to add Sections 14127 and 14128 (W&I Code) which authorizes DHCS, subject to federal approval, to create an ACA Section 2703 HHP for members with chronic conditions. The W&I Code provides that the provisions will be implemented only if federal financial participation (FFP) is available and the program is cost neutral regarding State General Funds. It also requires DHCS to ensure that 1) an evaluation of the program is completed; and 2) a report is submitted to the appropriate policy and fiscal committees of the Legislature within two years after implementation of the program.

The Program Guide has five main sections (Infrastructure, Eligibility, Services, Network, and General Operations) and an appendix. Each section describes the program components and the requirements for those components.

The Program Guide contains the Health Homes Program: Medi-Cal Managed Care Plan Readiness Checklist (Readiness Checklist) in Appendix D. The Readiness Checklist identifies the specific components that MCPs are required to provide to DHCS and identifies the process DHCS will use to determine when the specific components are due to DHCS. The Program Guide provides additional guidance and context regarding HHP readiness requirements.

II. HHP Infrastructure

A. Organizational Model

DHCS' HHP implementation will utilize California's Medi-Cal Managed Care (Managed Care) infrastructure as the foundational building block. HHP services will be provided through the Managed Care delivery system to members enrolled in Managed Care. Managed Care serves approximately 85 percent of full scope Medi-Cal members and is an available choice for all full-scope Medi-Cal members statewide. The small percentage of Medi-Cal Fee-For-Service (FFS) members who meet HHP eligibility criteria may enroll in a Medi-Cal MCP to receive HHP services. HHP services will not be provided through the FFS delivery system.

The MCPs will leverage existing communication with their provider networks to facilitate the care planning, care coordination, and care transition coordination requirements of HHP, including assignment of each HHP member to a primary care provider. The MCPs' existing communication and reporting capabilities will be utilized to perform health promotion, encounter reporting, and quality of care reporting. MCPs also have existing relationships with the Medi-Cal county specialty mental health plans (MHPs) in each county to facilitate HHP care coordination.

The HHP will be structured as a health home network functioning as a team to provide care coordination. This network includes the MCP, one or more Community-Based Care Management Entities (CB-CMEs), and contractual or non-contractual relationships with other Community-Based Organizations (CBOs) to provide linkages to community and social support services, as needed (taken together as the HHP). The HHP network will be developed to meet the following goals:

- Ensure that sufficient HHP funds are available to support care management at the point of care in the community
- Ensure that providers with experience serving frequent utilizers of health services and individuals experiencing homelessness are available as needed
- Leverage existing county and community provider care management infrastructure and experience, where possible and appropriate
- Forge new relationships with community provider care management entities, where possible and appropriate
- Utilize community health workers in appropriate roles.

The HHP will serve as the central point for coordinating patient-centered care and will be accountable for:

- Improving member outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based Long Term Services and Supports (LTSS), oral health services, palliative care, and social support needs
- Reducing avoidable health care costs, including hospital admissions/readmissions, ED visits, and nursing facility stays

Improving member outcomes and reducing health care costs will be accomplished through the partnership between the MCP and the CB-CME, either through direct provision of HHP services,

or through contractual or non-contractual arrangements with appropriate entities that will be providing components of the HHP services and planning and coordination of other services.

1) Medi-Cal Managed Care Plan Responsibilities

HHP MCPs will be responsible for the overall administration of the HHP. They will have an HHP addendum to an existing contract with DHCS. Payment will flow from DHCS to the MCP and from the MCP to the CB-CMEs for the provision of HHP services. The MCP may also use HHP funding to pay providers, including but not limited to, the member's primary care physician, behavioral health providers, or other specialists, who are not included formally on the CB-CME's multi-disciplinary care team, for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the Health Action Plan (HAP). These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).

The MCP will have strong oversight and will perform regular auditing and monitoring activities to ensure that case conferences occur, the HAP is updated as health care events unfold, and all other HHP care management requirements are completed.

The MCP's care management department can be leveraged to train, support, and qualify CB-CMEs. (MCPs currently perform similar monitoring, training and auditing with MCP-delegated entities that have care management responsibilities under Cal MediConnect and other programs.)

MCP utilization departments will assist the CB-CMEs with information on admissions and discharges, and ensure timely follow-up care. MCP health care informatics analytics teams will provide meaningful, actionable data with identification of complex members and care gaps and other pertinent data that the health plan network can access. This will be provided to the CB-CMEs to assist with HAP care planning and ongoing goals for the member.

Many MCPs are exploring housing options to provide immediate housing post discharge and find permanent housing for members who are experiencing homelessness. Stakeholders include the health plan, hospitals, local housing authorities, and community-based organizations. Achieving stable housing for HHP members is a noted best practice from the national experience for achieving meaningful improvements in health and program cost effectiveness.

In counties selected for HHP implementation, Medi-Cal MCPs (Medicaid only benefit plans) are required to participate in HHP and serve as an HHP MCP. DHCS will work with these organizations to prepare for the implementation of HHP and to determine network adequacy and readiness.

2) Duties

MCPs will be expected to perform the following duties/responsibilities to the extent their information systems allow or through other available methods:

- Attribute assigned HHP members to CB-CMEs;
- Sub-contract with CB-CMEs for the provision of HHP services and ensure that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals;

- Notify the CB-CMEs of inpatient admissions and ED visits/discharges;
- Track and share data with CB-CMEs regarding each member's health history;
- Track CMS-required quality measures and state-specific measures (see *Reporting Template* and *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2017 Reporting,* or later *document*);
- Collect, analyze, and report financial measures, health status and other measures and outcome data to be reported during the State's evaluation process (see *Reporting Template*)
- Provide member resources (e.g. customer service, member grievances) relating to HHP
- Add functionality to the MCP's customer service line and 24/7 nurse line or other available call line so that members' HHP needs are also addressed (e.g. equip nurse line with educational materials to train them about HHP, nurse line receives the updated list of HHP members and their assigned care coordinator, etc.)
- Receive payment from DHCS and disperse funds to CB-CMEs through collection and submission of claims/encounters by the CB-CME and per the contractual agreement made between the MCP and the CB-CME
- Establish and maintain a data-sharing agreement with other providers, with whom MCP shares HHP member health information, that is compliant with all federal and state laws and regulations
- Ensure access to timely services for HHP members, including seeing HHP members after discharge from an acute care stay.
- Encourage participation by HHP members' MCP contracted providers who are not included formally on the CB-CME's multi-disciplinary care team, but who are responsible for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the HAP. These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).
- Develop CB-CME training tools as needed or preferred, in addition to DHCS-provided training
- Develop CB-CME reporting capabilities
- Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

3) Community Based Care Management Entity Responsibilities

CB-CMEs will serve as the frontline provider of HHP services and will be rooted in the community. MCPs will certify and select organizations to serve as CB-CMEs through a process similar to current MCP provider certification and will contract with selected entities. DHCS will not require MCP use of a standardized assessment tool. DHCS will provide general guidelines

and requirements, including examples of best practice tools that the MCP can use at their option to select, qualify, and contract with CB-CMEs.

The MCP's development of a network of CB-CMEs should seek to promote HHP goals, with particular attention to the following goals:

- Ensuring that care management delivery and sufficient HHP funding are provided at the point of care in the community;
- Ensuring that providers with experience serving frequent utilizers of health services, and those experiencing homelessness, are available as needed per AB 361 requirements;
- Leveraging existing county and community provider care management infrastructure and experience, where possible and appropriate; and
- OPTIONAL - Utilizing community health workers in appropriate roles (for more information, see Multi-Disciplinary Care Team below).

CB-CMEs are intended to serve as the single community-based entity with responsibility, in conjunction with the MCP, for ensuring that an assigned HHP member receives access to HHP services. It is also the intent of the HHP to provide flexibility in how the CB-CMEs are organized. CB-CMEs may subcontract with other entities or individuals to perform some CB-CME duties. Regardless of subcontracting arrangements, CB-CMEs retain overall responsibility for all CB-CME duties that the CB-CME has agreed to perform for the MCP, either through direct CB-CME service or service the CB-CME has subcontracted to another provider. DHCS encourages MCPs and CB-CMEs to utilize this flexibility, where needed, to achieve HHP goals, and in particular the four network goals noted above.

In most cases, the CB-CME will be a community primary care provider (PCP) that serves a high volume of HHP eligible members. If the CB-CME is not the member's MCP-assigned PCP, then the MCP and the CB-CME must demonstrate how the CB-CME will maintain a strong and direct connection to the PCP and ensure the PCP's participation in HAP development and ongoing coordination. For all members, and in all areas, the MCP must demonstrate that it is maximizing the four network goals noted above to the full extent possible through its network development and HHP policies. Regardless of how HHP networks are structured by a MCP within a county, it is expected that all HHP members will receive access to the same level of service, in accordance with the service tier that is appropriate for their needs and HHP service requirements.

DHCS' readiness review will include a detailed review of the MCP's HHP network. In situations in which the MCP can demonstrate that there are insufficient entities rooted in the community that are capable or willing to provide the full range of CB-CME duties, the MCP may perform needed CB-CME duties to fill a demonstrated service gap. As an alternative, the MCP may subcontract with other entities to perform these duties. In addition, the MCP may provide, or subcontract with another community-based entity to provide, specific CB-CME duties to assist a CB-CME to provide the full range of CB-CME duties when this MCP assistance is the best organizational arrangement to promote HHP goals. If the MCP utilizes this flexibility, the MCP must demonstrate to DHCS that it is maximizing the four network goals noted above to the

extent possible, and how it will maintain a strong and direct connection between HHP services and the primary care provider.

The MCP may allow an individual community provider to become a CB-CME after the implementation date of the HHP in their county if the community provider requires additional time to develop readiness to take on some, or all, of the CB-CME duties. The MCP may also allow a CB-CME to expand the range of the CB-CME's contracted CB-CME duties over time as readiness allows.

CB-CMEs that MCPs contract with to deliver HHP care coordination services are not required to be enrolled as Medi-Cal providers, so long as the entities in question are not providing medical and/or clinical services in their function as an HHP CB-CME to Medi-Cal members participating in the Program.

4) Community-Based Care Management Models

The main goal of the HHP is Comprehensive Care Management. The MCP, acting as administrator and providing oversight, will build an HHP network in which a member can choose the CB-CME they want for their care coordination. Given specific challenges in certain areas, including the shortage of primary care and specialist providers, technology infrastructure/adoption, and the large Medi-Cal population, a single model is not practical. Assessments of potential HHP providers, and MCP knowledge of available resources in their areas, will form the basis for determining whether the provider's HHP-eligible members are best served by Model I, II, or III below.

The three community-based care management models below are acceptable for MCP network development and address the realities that exist in various areas of the state regarding available providers. The three models will allow the flexibility to ensure service to all HHP members throughout the diverse geographic regions in California, regardless of location and type of provider empanelment. Further, all three will allow increased care coordination to occur as close to the point of care delivery as possible in the community.

Model I

The first and ideal model embeds care coordinators on-site in community provider offices, acting as CB-CMEs. The expectation is that the community provider will employ these staff, but in some cases they may be employed by the MCP. This model will serve the great majority of HHP members because most HHP eligible individuals are served by high-volume providers in urban areas. The MCP will complete a provider assessment to determine 1) the extent to which the community provider will need to recruit and hire additional staff to meet the HHP care coordinator resource requirements, and 2) what CB-CME duties the community provider can, and is willing to, perform. The HHP will only utilize Model II or III where the provider assessment indicates that Model I is not viable.

Model II

The second model addresses the smaller subset of eligible members who are served by low-volume providers, in either rural or urban areas, who do not wish to, or cannot, take on the responsibility of hiring and housing care coordinators on site. For this model, the care management would be handled by another community-based entity or a staff member within

the existing MCP care management department, which will act as the CB-CME. This model will handle HHP members who are not assigned to a county clinic or medical practice under Model I.

Model III

The third model serves the few members who live in rural areas and are served by low-volume providers. In this hybrid model, care coordinators located in regional offices, utilizing technology and other monitoring and communication methods, such as visiting the member at their location, will become CB-CMEs who can be geographically close to rural members and/or those members who are assigned to a solo practitioner who may not have enough membership to meet Model I or II.

B. Staffing

1) Care Coordinator Ratio

The aggregate minimum care coordinator ratio requirement is 60:1 for the whole enrolled population (in each of the MCPs' counties if the MCP has more than one county) as measured at any point in time.

To develop the aggregate population care coordinator ratio requirement, DHCS assumed that (after two years):

- *Tier 1 – 20% of population; care coordinator ratio of 10:1*
- *Tier 2 – 30% of population; care coordinator ratio of 75:1*
- *Tier 3 – 50% of population; care coordinator ratio of 200:1*

2) Multi-Disciplinary Care Team

The multi-disciplinary care team consists of staff employed by the CB-CME that provides HHP funded services. DHCS requires the team members listed in Table 1 below to participate on all multi-disciplinary care teams. The team will primarily be located at the CB-CME organization, except as noted above regarding model flexibility. The MCP may organize its provider network for HHP services according to provider availability, capacity, and network efficiency, while maximizing the stated HHP goals and HHP network goals. This MCP network flexibility includes centralizing certain roles that could be utilized across multiple CB-CMEs – and particularly low-volume CB-CMEs – for efficiency, such as the director and clinical consultant roles. An HHP goal is to provide HHP services where members seek care. Staffing and the day-to-day care coordination should occur in the community and in accordance with the member's preference.

In addition to required CB-CME team members, the MCP may choose to also make HHP-funded payments to providers that are not explicitly part of the CB-CME team, but who serve as the HHP member's physical and/or behavioral health service providers, for participation in case conferences and information sharing in order to support the development and maintenance of the HHP member's HAP. As an example, an MCP could use HHP care coordination funding to pay a member's specialist provider, who is not a contracted member of the CB-CME Multi-Disciplinary Care Team, for the time they spend participating in a case conference with the HHP care coordinator for the purpose of completing the member's HAP. The MCP may make such payments directly to the providers or through their CB-CME.

Table 1: Multi-Disciplinary Care Team Qualifications and Roles

Required Team Members	Qualifications	Role
Dedicated Care Coordinator (CB-CME or by contract)	Paraprofessional (with appropriate training) or licensed care coordinator, social worker, or nurse	• Oversee provision of HHP services and implementation of HAP • Offer services where the HHP member lives, seeks care, or finds most easily accessible and within MCP guidelines • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Work with hospital staff on discharge plan • Engage eligible HHP members • Accompany HHP member to office visits, as needed and according to MCP guidelines • Monitor treatment adherence (including medication) • Provide health promotion and self-management training • Arrange transportation • Call HHP member to facilitate HHP member visit with the HHP care coordinator
HHP Director (CB-CME)	Ability to manage multi-disciplinary care teams	• Have overall responsibility for management and operations of the team • Have responsibility for quality measures and reporting for the team
Clinical Consultant (CB-CME or MCP)	Clinician consultant(s), who may be primary care physician, specialist physician, psychiatrist, psychologist, pharmacist, registered nurse, advanced practice nurse, nutritionist, licensed clinical social worker, or other behavioral health care professional	• Review and inform HAP • Act as clinical resource for care coordinator, as needed • Facilitate access to primary care and behavioral health providers, as needed to assist care coordinator

Required Team Members	Qualifications	Role
Community Health Workers (CB-CME or by contract) (Recommended but not required)	Paraprofessional or peer advocate Administrative support to care coordinator	• Engage eligible HHP members • Accompany HHP member to office visits, as needed, and in the most easily accessible setting, within MCP guidelines • Health promotion and self-management training • Arrange transportation • Assist with linkage to social supports • Distribute health promotion materials • Call HHP member to facilitate HHP visit with care coordinator • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Monitor treatment adherence (including medication)
For HHP Members Experiencing Homelessness: Housing Navigator (CB-CME or by contract)	Paraprofessional or other qualification based on experience and knowledge of the population and processes	• Form and foster relationships with housing agencies and permanent housing providers, including supportive housing providers • Partner with housing agencies and providers to offer the HHP member permanent, independent housing options, including supportive housing • Connect and assist the HHP member to get available permanent housing • Coordinate with HHP member in the most easily accessible setting, within MCP guidelines (e.g. could be a mobile unit that engages members on the street)

Additional team members, such as a pharmacist or nutritionist, may be included on the multi-disciplinary care team in order to meet the HHP member's individual care coordination needs. HAP planning and coordination will require participation of other providers who may not be part of the CB-CME multi-disciplinary care team. It is the responsibility of the MCP to ensure their cooperation.

C. Health Information Technology/Data

Health Information Technology (HIT)/Health Information Exchange (HIE) are important components of information sharing in the HHP.

MCPs should consider the following potential uses of HIT/HIE (developed by CMS) in the development of HHP information sharing policies and procedures for MCPs, CB-CMEs, and members:

1) Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management –standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement.
2) Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information.
   - Telehealth services including remote patient monitoring.
3) Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.
4) Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.
5) Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence).
   - Ability to electronically refer patients to necessary services.

Organizations that are covered by the Meaningful Use requirements should utilize EHR/HIT/HIE to meet the applicable goals noted above, where possible. Organizations that are not covered by Meaningful Use may need a Medi-Cal MCP to support the achievement of applicable goals where possible. In some areas relatively few providers have EHRs; there is limited interoperability between the systems; and, where there is an HIE in the area, the configuration may not be designed for the HHP requirements. If the technology environment does not fully support the EHR/HIT/HIE activities noted above in some geographic areas, or with certain providers, the MCP will determine procedures to share information that is critical for HHP services through other methods.

III. HHP Member Eligibility

A. Target Population

The HHP is intended to be an intensive set of services for a small subset of Medi-Cal members who require coordination at the highest levels. DHCS worked with a technical expert workgroup to design eligibility criteria that identify the highest-risk three to five percent of the Medi-Cal population who present the best opportunity for improved health outcomes through HHP services. These criteria include both 1) a select group of International Classification of Diseases (ICD)-9/ICD-10 codes for each eligible chronic condition, and 2) a required high level of acuity/complexity.

B. HHP Eligibility Criteria and the Targeted Engagement List

Using administrative data, DHCS will develop a Targeted Engagement List (TEL) of Medi-Cal MCP members who are eligible for the HHP based on the DHCS-developed eligibility criteria noted below. The TEL will be refreshed every six months using the most recent available data. The MCP will actively attempt to engage the members on the TEL. (See Member Assignment, for more information on MCP activity to engage eligible members.)

To be eligible for the HHP, a member must be full-scope, have no share of costs, and meet the following eligibility criteria. See Appendix B for *Targeted Engagement List data specification document* and specific ICD 10 codes that define these eligible conditions:

Eligibility Requirement	Criteria Details
1. Chronic condition criteria	Has a chronic condition in <u>at least one</u> of the following categories: • **At least two of the following**: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic liver disease, chronic renal (kidney) disease, dementia, substance use disorders; OR • **Hypertension and one of the following:** chronic obstructive pulmonary disease, diabetes, coronary artery disease, chronic or congestive heart failure; OR • **One of the following:** major depression disorders, bipolar disorder, psychotic disorders (including schizophrenia); OR • **Asthma**
2. Meets at least 1 acuity/complexity criteria	• Has at least 3 or more of the HHP eligible chronic conditions; OR • At least one inpatient hospital stay in the last year; OR • Three or more emergency department visits in the last year; OR • Chronic homelessness.

The TEL may include other criteria that are intended to ensure that HHP resources are targeted to Medi-Cal members who present the best opportunity for improved health outcomes through HHP services. The DHCS TEL is intended to be used by MCPs as a list of people who are likely to be eligible for the program based on the data available to DHCS; it is not, on its own, a comprehensive eligibility list.

Acuity Eligibility Criteria

Eligibility for HHP requires that members have the specified conditions and at least one of the four acuity criteria listed above. MCPs must have a process to verify eligibility as part of the enrollment process. MCPs can do this through reviews of the MCPs data and/or through other methods including discussion/assessment with the member or the member's providers. This additional verification is not only to confirm that the member meets eligibility, but also that they do not have exclusionary criteria such as enrollment in another duplicative care management program or being "well managed." For example, a member's qualifying utilization may have been for something unrelated to management of a chronic condition, such as maternity.

MCPs should make a preliminary eligibility determination based on their data prior to proceeding with proactive outreach and engagement. MCPs may rely on the TEL to verify that the member meets the eligibility criteria for having the eligible chronic conditions and the acuity criteria relating to having three or more of the eligible chronic conditions; however, the MCP should verify utilization acuity criteria (within 12 months) using the MCP's own data.

MCPs are required to review their own data for members who are on the TEL and should not proactively outreach members whose qualifying utilization is: 1) only found in the oldest four months of the TEL look-back period; and 2) unrelated to the HHP chronic conditions. MCPs may also apply their own additional prioritization policies upon approval from DHCS.

At the point in time when the MCP makes this data-driven preliminary eligibility determination, the member will be considered eligible for the program regardless of how long it takes the member to agree to enroll. The member may be enrolled for at least one month to complete the member assessment and care plan process. If additional information is determined during the assessment/care plan process that negates prior eligibility data or confirms an exclusionary criteria, then the member will be disenrolled.

Homeless Eligibility Criteria

Chronic homelessness for HHP is defined in W&I Code section 14127(e), and states *"a chronically homeless individual means a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more, or had at least four episodes of homelessness in the past three years. For purposes of this article, an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing, as defined in Section 50675.14 of the Health and Safety Code, for less than two years shall be considered a chronically homeless individual if the individual was chronically homeless prior to his or her*

residence." For the purpose of verifying HHP acuity eligibility criteria, the portion of this definition which states "with a condition limiting his or her activities of daily living" is satisfied by verification that the member has one of the HHP-eligible conditions. No further assessment of activities of daily living limitation is required to establish that the member meets the portion of this eligibility acuity criterion underlined above. In addition, a member meets the HHP chronically homeless acuity eligibility criteria if the member meets either the W&I Code section 14127(e) definition or the Housing and Urban Development (HUD) definition.

People Excluded from Targeted Engagement List

The following exclusions will be applied either through MCP data analysis for individual members or through assessment information gathered by the Community-Based Care Management Entity (CB-CME) (see *Reporting Template-Instructions* for additional information):

- Members determined through further assessment to be sufficiently well managed through self-management or through another program, or the member is otherwise determined to not fit the high-risk eligibility criteria
- Members whose condition management cannot be improved because the member is uncooperative
- Members whose behavior or environment is unsafe for CB-CME staff
- Members determined to be more appropriate for an alternate care management program

IV. Health Home Program Services

This section describes the six HHP services. HHP arranges for and coordinates interventions that address the medical, social, behavioral health, functional impairment, cultural and environmental factors affecting health and health care choices available to HHP members.

All HHP engagement and services can be provided to members and family/support persons through e-mails, texts, social media, phone calls, letters, mailings, community outreach, and, to the extent and whenever possible, in-person meetings where the member lives, seeks care, or is accessible. Communication and information must meet health literacy standards and trauma-informed care standards and be culturally appropriate.

A. Comprehensive Care Management

Comprehensive care management involves activities related to engaging members to participate in the HHP and collaborating with HHP members and their family/support persons to develop their comprehensive, individualized, person-centered care plan, called a Health Action Plan (HAP). The HAP incorporates the member's needs in the areas of physical health, mental health, SUD, community-based LTSS, oral health, palliative care, trauma-informed care, social supports, and, as appropriate for individuals experiencing homelessness, housing. The HAP is based on the needs and desires of the member and will be reassessed based on the member's progress or changes in their needs. It will also track referrals. The HAP must be completed within 90 days of HHP enrollment.

Comprehensive care management may include case conferences to ensure that the member's care is continuous and integrated among all service providers.

Comprehensive care management services include, but are not limited to:

- Engaging the member in HHP and in their own care
- Assessing the HHP member's readiness for self-management using screenings and assessments with standardized tools
- Promoting the member's self-management skills to increase their ability to engage with health and service providers
- Supporting the achievement of the member's self-directed, individualized health goals to improve their functional or health status, or prevent or slow functional declines
- Completing a comprehensive health risk assessment to identify the member's needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services
- Developing a member's HAP and revising it as appropriate
- Reassessing a member's health status, needs and goals
- Coordinating and collaborating with all involved parties to promote continuity and consistency of care
- Clarifying roles and responsibilities of the multi-disciplinary team, providers, member and family/support persons

1) Care Management Assessment Tools

To the extent possible and reasonable, DHCS will align new requirements for care management methods and tools with those currently used by MCPs for care coordination. MCPs have extensive experience administering Health Risk Assessments and developing care plans.

MCPs may use current Cal MediConnect or Seniors and Persons with Disabilities (SPD) care management tools, such as the Health Risk Assessment and Individualized Care Plan, as a base for developing health assessments and completing the HAP for HHP members. For the implementation of HHP, any assessment or planning elements that are required in the HHP and are not already included in an existing tool and/or process must be added to the existing MCP assessment and planning tools. Such elements could include an assessment of social determinants of health, including an indicator of housing instability, a need for palliative care, and trauma-informed care needs.

The HAP is defined as the Individualized Care Plan with the inclusion of any elements specific to HHP. When a member begins receiving HHP services, the member will receive a comprehensive assessment and a HAP will be created. The HAP will be reassessed at regular intervals and when changes occur in the member's progress or status and health care needs.

The assessments must be available to the primary care physicians, mental health service providers, substance use disorder services providers, and the care coordinators for all HHP members. In conjunction with the primary care physician, other multi-disciplinary care team members, and any necessary ancillary entities such as county agencies or volunteer support entities, the care coordinator will work with the HHP member and their family/support persons to develop a HAP.

2) Duties

MCPs in partnership with CB-CMES must be able to carry out the following comprehensive care management services:

Member Engagement and Support

a. MCPs must ensure that CB-CMEs accomplish the following:
    1) Engage the member in the HHP and their own care
    2) Assess the HHP member's readiness for self-management using standardized screenings and assessments with standardized tools
    3) Track and promote the member's self-management skills to increase their ability to engage with health and service providers
    4) Support the achievement of the member's self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines

Member Assessment

a. MCPs/CB-CMEs must have a process for assessing and reassessing the member to identify their needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services. The process should identify:
    1) How their tools align with current tools used for the defined population and avoid unnecessary duplication of assessment?
    2) How trauma-informed care best practices will be utilized?
    3) Whether the assessment process and HAP are standard across the CB-CMEs or whether variations exist.
b. MCPs/CB-CMEs must have a process and tools for developing the member's HAP and revising, as appropriate
c. MCPs/CB-CMEs must develop and use the HAP and screening and assessment tools, and develop processes for:
    1) How the HAP is shared with other providers and if it can be shared electronically; and
    2) How the HAP will track referrals and follow ups.

Coordination

a. MCPs/CB-CMEs must have a process for integrating community social supports, long term support services, mental health, substance use disorder services, palliative care, trauma-informed care, oral health, and housing services into a member's HAP
b. MCP must ensure that the CB-CMEs:
    1) Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and
    2) Clarify roles and responsibilities of the multi-disciplinary team, providers, HHP member, and family/support persons.
c. MCPs must have policies and procedures to ensure that members are not receiving the same services from another state care management program (see non-duplication of care coordination services for more information).

B. Care Coordination

Care coordination includes services to implement the HHP member's HAP. Care coordination services begin once the HAP is completed. HHP care coordination services will integrate with current MCP care coordination activities, but will require a higher level of service than current

MCP requirements. Care coordination may include case conferences in order to ensure that the member's care is continuous and integrated among all service providers. All program staff who provide HHP services are required to complete CB-CME/care coordinator training as discussed in Appendix C.

Care coordination services address the implementation of the HAP and ongoing care coordination and include, but are not limited to:

1) Member Support

- Working with the member to implement their HAP
- Assisting the member in navigating health, behavioral health, and social services systems, including housing
- Sharing options with the member for accessing care and providing information to the member regarding care planning
- Identifying barriers to the member's treatment and medication management adherence
- Monitoring and supporting treatment adherence (including medication management and reconciliation)
- Assisting in attainment of the member's goals as described in the HAP
- Encouraging the member's decision making and continued participation in HHP
- Accompanying members to appointments as needed

2) Coordination

- Monitoring referrals, coordination, and follow ups to ensure needed services and supports are offered and accessed
- Sharing information with all involved parties to monitor the member's conditions, health status, care planning, medications usages and side effects
- Creating and promoting linkages to other services and supports
- Helping facilitate communication and understanding between HHP members and healthcare providers

MCPs in partnership with CB-CMEs must develop, and ensure the implementation of, policies and procedures to support CB-CME coordination efforts to:

a. Maintain frequent, in-person contact between the member and the care coordinator when delivering HHP services. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled members per quarter. DHCS used the following assumptions to develop the aggregate population visit requirement listed above:
    i. After two years, the population equals: 20% in tier 1, 30% in tier 2, 50% in tier 3
    ii. Tier 1 – two in-person visits per month
    iii. Tier 2 – 1 in-person visit per month
    iv. Tier 3 – 1 in-person visit per quarter
b. Ensure members see their PCP within 60 days of enrollment in HHP. This is a recommended best practice only – not service requirement.
c. Ensure availability of support staff to complement the work of the Care Coordinator.
d. Ensure availability of providers with experience working with people who are chronically homeless.
e. Support screening, referral and co-management of individuals with both behavioral health and physical health conditions.

f. Link eligible individuals who are homeless or experiencing housing instability to permanent housing, such as supportive housing.
g. Maintain an appointment reminder system for members. This is a recommended best practice only – not a service requirement.
h. Identify and take action to address member gaps in care through:
    i. Assessment of existing data sources for evidence of care appropriate to the member's age and underlying chronic conditions
    ii. Evaluation of member perception of gaps in care
    iii. Documentation of gaps in care in the member case file
    iv. Documentation of interventions in HAP and progress notes
    v. Findings from the member's response to interventions
    vi. Documentation of discussions of members care goals
    vii. Documentation of follow-up actions, and the person or organization responsible for follow-up

C. Health Promotion

Health promotion includes services to encourage and support HHP members to make lifestyle choices based on healthy behavior, with the goal of motivating members to successfully monitor and manage their health. Members will develop skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

Health promotion services include, but are not limited to:

- Encouraging and supporting health education for the member and family/support persons
- Assessing the member's and family/support persons' understanding of the member's health condition and motivation to engage in self-management
- Coaching members and family/support persons about chronic conditions and ways to manage health conditions based on the member's preferences
- Linking the member to resources for: smoking cessation; management of member chronic conditions; self-help recovery resources; and other services based on member needs and preferences
- Using evidence-based practices, such as motivational interviewing, to engage and help the member participate in and manage their care

D. Comprehensive Transitional Care

Comprehensive transitional care includes services to facilitate HHP members' transitions from and among treatment facilities, including admissions and discharges. In addition, comprehensive transitional care reduces avoidable HHP member admissions and readmissions. Agreements and processes to ensure prompt notification to the member's care coordinator and tracking of member's admission or discharge to/from an ED, hospital inpatient facility, residential/treatment facility, incarceration facility, or other treatment center are required. Additionally, MCPs or CB-CMEs must provide information to hospital discharge planners about HHP.

Comprehensive transitional care services include, but are not limited to:

- Providing medication information and reconciliation
- Planning timely scheduling of follow-up appointments with recommended outpatient providers and/or community partners
- Collaborating, communicating, and coordinating with all involved parties
- Easing the member's transition by addressing their understanding of rehabilitation activities, self-management activities, and medication management
- Planning appropriate care and/or place to stay post-discharge, including temporary housing or stable housing and social services
- Arranging transportation for transitional care, including to medical appointments, as per NMT and NEMT policy and procedures
- Developing and facilitating the member's transition plan
- Preventing and tracking avoidable admissions and readmissions
- Evaluating the need to revise the member's HAP
- Providing transition support to permanent housing

E. Individual and Family Support Services

Individual and family support services include activities that ensure that the HHP member and family/support persons are knowledgeable about the member's conditions with the overall goal of improving their adherence to treatment and medication management. Individual and family support services also involve identifying supports needed for the member and family/support persons to manage the member's condition and assisting them to access these support services.

Individual and family support services may include, but are not limited to:

- Assessing the strengths and needs of the member and family/support persons
- Linking the member and family/support persons to peer supports and/or support groups to educate, motivate and improve self-management
- Connecting the member to self-care programs to help increase their understanding of their conditions and care plan
- Promoting engagement of the member and family/support persons in self-management and decision making
- Determining when member and family/support persons are ready to receive and act upon information provided and assist them with making informed choices
- Advocating for the member and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals
- Accompanying the member to clinical appointments, when necessary
- Identifying barriers to improving the member's adherence to treatment and medication management
- Evaluating family/support persons' needs for services

F. Referral to Community and Social Supports

Referral to community and social support services involves determining appropriate services to meet the needs of HHP members, identifying and referring members to available community resources, and following up with the members.

Community and social support referral services may include, but are not limited to:

- Identifying the member's community and social support needs
- Identifying resources and eligibility criteria for housing, food security and nutrition, employment counseling, child care, community-based LTSS, school and faith-based services, and disability services, as needed and desired by the member
- Providing member with information on relevant resources, based on the member's needs and interests.
- Actively engaging appropriate referrals to the needed resources, access to care, and engagement with other community and social supports
- Following up with the member to ensure needed services are obtained
- Coordinating services and follow-up post engagement
- Checking in with the members routinely through in-person or telephonic contacts to ensure they are accessing the social services they require
- Providing Individual Housing Transition Services, including services that support an individual's ability to prepare for and transition to housing
- Providing Individual Housing and Tenancy Sustaining Services, including services that support the individual in being a successful tenant in their housing arrangement and thus able to sustain tenancy

V. Health Homes Program Network

A. MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities:

a. Develop and implement criteria for network sufficiency determination, including county-wideness and number of projected members
b. Develop an adequate network of Community-Based Care Management Entities (CB-CMEs) in each of the MCP's implemented counties for HHP to serve enrolled members
c. Design and implement a process for determining the qualifications of organizations to meet CB-CME standards and for providing support for CB-CMEs, including:
    1. Identify organizations who meet the CB-CME standards
    2. Provide the infrastructure and tools necessary to support CB-CMEs in care coordination
    3. Gather and share HHP member-level information regarding health care utilization, gaps in care and medications
    4. Provide outcome tools and measurement protocols to assess CB-CME effectiveness
d. Integrate community entities focused on services to individuals experiencing homelessness into the care model and, if applicable, the multi-disciplinary care team; meet the State legislation requirement to ensure availability of providers with experience working with individuals who are chronically homeless.

e. Engage with community and social support services by building new, or enhance existing, relationships with programs, services, and support organizations to provide care to members, including but not limited to:
    1. County specialty mental health plans;
    2. Housing agencies and permanent housing providers; and
    3. Individual Housing and Tenancy Sustaining Services.
f. Contract with CB-CMEs for the provision of HHP services, including outlining the MCP and CB-CME roles and responsibilities, and ensuring that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals, including the network development goals.
g. Have methods to ensure compliance with HHP requirements throughout the network, including portions of the network contracted through delegated entities.
h. Ensure the development of a communication and feedback strategy for all members of the HHP care team, including the member and their family/support persons, to ensure information sharing occurs. Encourage all of the HHP member's providers who supply input to the HAP and coordinate with the CB-CME care coordinator to conduct case conferences, including with those whom may not be formally included on the CB-CME's multi-disciplinary care team.
    1. If the CB-CME is not the member's MCP-assigned PCP, the MCP must have policies and procedures for ensuring: the MCP/CB-CME maintains a strong and direct connection to the PCP and PCP's participate in HAP development and ongoing coordination.
i. Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

1) Administration

a. Attribute assigned HHP members to CB-CMEs, providing for increased care coordination as close to the member's usual point of care delivery as possible in the community. HHP members must be notified of their CB-CME options.
b. Receive payment from DHCS and disperse funds to CB-CMEs. Have policies and procedures regarding:
    1. The process for how an MCP determines that the appropriate level of services are provided and documented by CB-CMEs in accordance with the contract and service requirements; and
    2. The process/structure/tiering (if used) for payments to CB-CMEs.

2) Data Sharing and Reporting

a. Develop reporting capabilities and methodologies
b. Establish and maintain data-sharing agreements that are compliant with all federal and state laws and regulations, and when necessary, with other providers
c. Notify CB-CMEs of inpatient admissions and emergency department (ED) visits/discharges
d. Track and share data with CB-CMEs regarding each member's health history
e. Establish procedures for hospitals participating under the Medicaid State Plan or a waiver of such plan for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated HHP providers. However, HHP primarily uses the TEL to identify and refer members to HHP.

3) Training and Education

a. Develop and offer learning activities that will support CB-CMEs in effective delivery of HHP services
b. Develop CB-CME training tools, as needed, to supplement DHCS-developed tools.
c. Ensure participation of the CB-CME and MCP staff delivering HHP Services in DHCS-required CB-CME and care coordinator training and learning collaboratives.

B. CB-CME Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with W&I Code HHP requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed. If in-person communication is not possible in certain situations, alternative communication methods such as tele-health or telephonic contacts may also be utilized, if culturally appropriate and accessible for the HHP member, to enhance access to services for HHP members and families where geographic or other barriers exist and according to member choice;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by the MCP, according to the CB-CME contract with the MCP;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and MCP and other providers involved in the HHP member's care.

C. CB-CME Certification

Organizations must be one of the following types of organizations and be able to meet the qualifications above and perform the duties below to be authorized to serve as a CB-CME:

- Behavioral health entity
- Community mental health center
- Community health center
- Federally qualified health center
- Rural health center
- Indian health clinic
- Indian health center
- Hospital or hospital-based physician group or clinic
- Local health department
- Primary care or specialist physician or physician group

- SUD treatment provider
- Provider serving individuals experiencing homelessness
- Other entities that meet certification and qualifications of a CB-CME, if selected and certified by the MCP

D. CB-CME General Duties

CB-CMEs will be expected to perform the following duties/responsibilities:

- Be responsible for care team staffing, according to HHP required staffing ratios determined by DHCS, and oversight of direct delivery of the core HHP services;
- Implement systematic processes and protocols to ensure member access to the multi-disciplinary care team and overall care coordination;
- Ensure person-centered health action planning that coordinates and integrates all of the HHP member's clinical and non-clinical physical and behavioral health care related needs and services, and social services needs and services;
- Collaborate with and engage HHP members in developing a HAP and reinforcing/implementing/reassessing it in order to accomplish stated goals;
- Coordinate with authorizing and prescribing entities as necessary to reinforce and support the HHP member's health action goals, conducting case conferences as needed in order to ensure that the HHP member care is integrated among providers;
- Support the HHP member in obtaining and improving self-management skills to prevent negative health outcomes and to improve health;
- Provide evidence-based care;
- Monitor referrals, coordination, and follow-up to needed services and supports; actively maintain a directory of community partners and a process ensuring appropriate referrals and follow-up;
- Support HHP members and families during discharge from hospital and institutional settings, including providing evidence-based transition planning;
- Accompany the HHP member to critical appointments (when necessary and in accordance with MCP HHP policy);
- Provide service in the community in which the HHP member lives so services can be provided in-person, as needed;
- Coordinate with the HHP member's MCP nurse advice line, which provides 24-hour, seven day a week availability of information and emergency consultation services to HHP member; and
- Provide quality-driven, cost-effective HHP services in a culturally competent and trauma-informed manner that addresses health disparities and improves health literacy.

VI. General HHP Operations

A. Non-Duplication of Care Coordination Services

MCPs must ensure that members are not enrolled in another state program that provides care coordination services that would preclude them from receiving HHP care coordination services. The process should include: 1) checking available MCP data; and 2) asking members as part of

both the in-person member assessment during the eligibility/enrollment process and the assessment/care plan process.

The Targeted Engagement List (TEL) does not include members who are participating in the following programs:

- 1915(c) Home and Community Based (HCBS) waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH);
- County Targeted Case Management (TCM) (excluding Specialty Mental Health TCM);
- Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month; and
- Hospice.

Below is a summary of how HHP intersects with existing Medi-Cal programs that provide care coordination services, organized by the following three categories: 1) Members can receive services through both HHP and the other program; 2) Members must choose HHP or the other program; and 3) Members cannot receive HHP services.

1) Members Can Receive Services through BOTH HHP and the Other Program

- 1115 Waiver Whole Person Care Pilot Program
  Members participating in a Whole Person Care (WPC) Pilot Program may also be eligible for the HHP. DHCS has released specific guidance related to the interaction between the Health Homes Program and the WPC Pilot Program which can be found in Appendix K of this Program Guide.

- California Children's Services
  Children who are enrolled in the Children's Services program are eligible for the HHP.

- Specialty Mental Health and Drug Medi-Cal
  DHCS recognizes that coordination of behavioral health services will be a major component of HHP. HHP services are focused on physical health, mental health, Substance Use Disorder (SUD), community-based LTSS, palliative care, trauma-informed care, oral health, social supports, and, as appropriate for individuals experiencing homelessness, housing. In the California HHP structure of MCPs and CB-CMEs, it is expected that direct HHP services for HHP members will primarily occur at the CB-CMEs, even though MCPs may play a role. Therefore, it is important that CB-CMEs that have HHP members who receive behavioral health services have the capability to support the various needs of their members.

  For HHP members without conditions that are appropriate for specialty mental health treatment, it is anticipated that their physical-health oriented CB-CME is an appropriate setting for their HHP services. These CB-CMEs would typically be affiliated with an MCP.

  DHCS and stakeholders have noted that HHP members with conditions that are appropriate for specialty mental health treatment may prefer to receive their primary HHP services from their MHP's contracted provider acting as a designated CB-CME. To

facilitate care coordination for HHP members through a MHP-designated CB-CME, Drug Medi-Cal Organized Delivery system (DMC-ODS) or MHP providers may perform CB-CME HHP responsibilities through a contract with the MCPs in the county at the discretion of the MCP. This type of entity would perform the CB-CME HHP responsibilities for an HHP-eligible managed care member who 1) qualifies to receive services provided under the Medi-Cal scope of service for this type of entity (MHP or Drug Medi-Cal services); and 2) chooses a county MHP, or county MH/SUD plan, affiliated CB-CME instead of a CB-CME affiliated with the MCP. In cases where the MHP serves as both an administrator and a provider of direct services, the MHP could assume the responsibilities of the CB-CME.

2) Members Must Choose HHP OR the Other Program

- Targeted Case Management
  County-operated Targeted Case Management (TCM) is a comprehensive care coordination program and is duplicative of HHP. Members who are receiving TCM services have a choice of continuing TCM services or receiving HHP services.

  However, TCM provided as part of the County Mental Health Plan (MHP) Specialty Mental Health (SMH) services is not duplicative of HHP. The HHP provider should ensure that they: 1) coordinate with the SMH TCM provider, and 2) do not duplicate any SMH TCM activities.

- 1915(c) Waiver Programs
  1915(c) Home and Community Based Services (HCBS) Waiver programs provide services to many Medi-Cal members who will likely also meet the eligibility criteria for HHP. There are comprehensive care management components within these programs that are duplicative of HHP services. Members who are receiving 1915(c) services have a choice of continuing 1915(c) services or receiving HHP services.
  The 1915(c) HCBS waiver programs include:
  HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH).

- Cal MediConnect or Fee-for-Service Delivery Systems
  Members who are eligible for both Medi-Cal and Medicare are eligible for the HHP. In addition, members who are in the Fee-for-Service Delivery System are also eligible for the HHP. However, HHP is not available in the Cal MediConnect or Fee-for-Service delivery systems. Members have the choice to leave the Cal MediConnect or Fee-for-Service delivery systems to receive all their Medi-Cal services, including HHP services, through a regular Medi-Cal Managed Care Plan.

- Other Comprehensive Care Coordination Programs
  Individual MCPs have discretion to determine and designate other comprehensive care coordination programs (not listed in this section) that are duplicative of HHP services, including programs that are operated or overseen by the MCP. Examples include, but

are not limited to, MCP Complex Case Management programs and Community-Based Adult Services.

3) Members CANNOT Receive HHP Services

- Nursing Facility Residents and Hospice Recipients
  Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month and Hospice service recipients are excluded from participation in the HHP.

B. HHP Outreach Requirements

MCPs will be responsible for engaging HHP-eligible members, using state-determined, Centers for Medicare & Medicaid Services (CMS)-approved criteria. Engagement of eligible HHP members will be critical for the program success. MCPs will link HHP members to one of the MCP's contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider (PCP) is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions.

1) MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities or delegate to CB-CMEs and provide appropriate oversight.

a. Capacity
   Have the capacity to engage and provide services to eligible members, including:
   1) Establish an engagement plan with appropriate modifications for members experiencing homelessness;
   2) Evaluate the TEL provided by DHCS;
   3) Attribute assigned HHP members to CB-CMEs;
   4) Ensure the engagement of members on the targeted engagement list;
   5) Secure and maintain record of the member's consent to participate in the program (which can be verbal); and
   6) Provide member resources (e.g. customer service, member grievance process) relating to HHP.

b. Engagement Process
   1) Have policies and procedures for identifying, locating, and engaging HHP-eligible members.
   2) Use the following strategies for engagement as appropriate and to the extent possible: mail; email; social media; texts; telephone; community outreach; and in-person meetings where the member lives, seeks care, or is accessible.
   3) Show active, meaningful and progressive attempts at member engagement each month until the member is engaged. Activities that support member engagement include active outreach such as direct communications with member (face-to-face, mail, electronic, telephone), follow-up if the member presents to another partner in the HHP network, or using claims data to contact providers the member is known to use. Examples of acceptable engagement include:

a. Letter to member followed by phone call to member
b. Phone call to member, outreach to care delivery partners and social service partners
c. Street level outreach, including, but not limited to, where the member lives or is accessible

4) Establish a process for reviewing and excluding people from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines of having no substantial avoidable utilization or be enrolled in another acceptable care management program – see Reporting Template-Instructions for definition);
5) Report Members determined not appropriate for the HHP, along with a reason code, to DHCS.
6) DHCS will evaluate the MCP enrolled vs non-enrolled members and compare across MCPs for general compliance review purposes and to ensure that the engagement process is adequately engaging members on the targeted engagement list who are at the highest risk levels, have behavioral health conditions, and those experiencing homelessness.
7) Include housing navigators in the engagement process, at the MCP's discretion
8) Document the member engagement process
9) Develop a methodology and criteria used by the MCP or the CB-CME to stratify high, medium and low need members
10) Develop educational materials or scripts that you intend to develop to engage the member.
11) Have policies and procedures to provide culturally appropriate communications and information that meet health literacy and trauma-informed care standards
12) Have policies and procedures for the following:
    a. Required number and modalities of attempts made to engage member
    b. MCP's protocol for follow-up attempts
    c. MCP's protocol for discharging members who cannot be engaged, choose not to participate, or fail to participate

c. Assignment

MCPs will link HHP members to one of their contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions. MCP's and/or CB-CME's notification will inform the HHP member that they are eligible for HHP services, and identify their MCP and CB-CME. This notification will explain that HHP participation is voluntary, members have the opportunity to choose a different CB-CME, and HHP members can discontinue participation at any time. It will also explain the process for participation. In counties where multiple MCPs are available, the HHP member may change their MCP once per month in accordance with current MCP choice policies.

C. Priority Engagement Group

After the MCP has screened people who are inappropriate for HHP from the TEL based on the HHP requirements, MCPs are required to create a priority engagement group, or ranking process, with the goal of engaging and serving members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for priority engagement status will be at the MCP's discretion (upon approval by DHCS).

D. Referral

HHP services must be made available to all full scope Medi-Cal members without a share of cost who meet the DHCS-developed eligibility criteria, including those members dually eligible for Medicaid and Medicare. Providers, health plan staff, or other, non-provider community entities/care providers may refer eligible members to the member's assigned MCP to confirm if the member meets the eligibility criteria to receive HHP services. The Targeted Engagement List will be the primary method for identifying and engaging eligible HHP members. Referrals are more likely necessary in the situation of a new Medicaid member who may not have the Medi-Cal claims history that identifies them as HHP eligible. Provider referral forms will indicate that the provider has verified that the member meets the HHP eligibility criteria. The provider will submit the referral form to the MCP for confirmation. MCP confirmation is required before an individual is deemed an HHP member and may receive HHP services from a CB-CME.

E. Consent

The member will be considered enrolled in the HHP once the member has given either verbal or written consent to participate in the program. The MCP or CB-CME will secure consents by the member to participate in HHP and authorize release of information to the extent required by law. Either the MCP or the CB-CME must maintain a record of these consents.

F. Disenrollment

If an eligible member has, or develops, an exclusionary criterion, cannot be engaged within a specified period, chooses not to participate, or fails to participate actively in HHP planning and coordination, the HHP member will be disenrolled from the HHP, and the MCP will discontinue CB-CME HHP funding for that member. Additionally, if the MCP determines that the member's eligible chronic conditions have become well-managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status – the HHP member will be disenrolled and the MCP will discontinue CB-CME HHP funding for that member.

A Notice of Action (NoA) Letter is required in all situations except for when an eligible member chooses not to participate. The eligible member may choose to participate in the HHP at any time.

G. Risk Grouping

The MCP will ensure that HHP member acuity will inform appropriate provision of HHP services. For example, MCP program criteria may include three, or more, risk groupings of the HHP members. Members in the higher acuity risk groupings (tiers) will receive more intensive HHP services. In addition, the HHP will include requirements to address the unique needs of members experiencing homelessness, as specified in AB 361.

H. Mental Health Services

MCPs will develop or amend existing Memoranda of Understanding with county Mental Health Plans (MHPs) to address HHP-specific information. DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018) to address the HHP-specific information that MCPs must include in new, or amended, MOUs. This MOU will be submitted to DHCS prior to the start of HHP implementation for the Serious Mental Illness or Serious Emotional Disturbance (SMI) population. Please see Appendix D - Readiness Requirements and Checklist for information on this deliverable.

I. Housing Services

MCPs will work with community resources to ensure seamless access to the delivery of housing support services. MCPs or contracted CB-CMEs must provide housing navigation services, not just referrals to housing. A Housing Navigator is required to be part of the HHP care team for members experiencing homelessness. HHP members must receive the following services:

1) Individual Housing Transition Services

Housing transition services assist beneficiaries with obtaining housing, such as individual outreach and assessments. These services include:

- Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;
- Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;
- Assisting with the housing application process. Assisting with the housing search process;
- Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;
- Ensuring that the living environment is safe and ready for move-in;
- Assisting in arranging for and supporting the details of the move; and
- Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

2) Individual Housing and Tenancy Sustaining Services

Housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

- Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;
- Education and training on the roles, rights and responsibilities of the tenant and landlord;
- Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;
- Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;
- Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;
- Assistance with the housing recertification process;
- Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and
- Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

To the extent applicable, housing-based case management services provided to HHP members shall be consistent with the Housing First core components as described in Senate Bill (SB) 1380 Mitchel, Chapter 847, Statutes of 2016). Engagement to members potentially eligible for HHP or the provision of HHP housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for HHP or meet one or more of the DHCS defined HHP exclusionary criteria. HHP housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of members' lives, where members are engaged in nonjudgmental communication regarding drug and alcohol use. Members should be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

The HHP does not provide direct funding for housing. However, DHCS encourages MCPs to partner with housing organizations that incorporate the Housing First model into their case management and housing navigation services offered to members and to prioritize connecting HHP members with permanent housing options, when appropriate and available. For example, plans might explore collaborating with community-based organizations that are Housing First compliant, implement a requirement that housing services be provided consistent with Housing First components, encourage enhanced coordination with coordinated entry and assessment systems and/or allow receipt of referrals from the homeless crisis response system entities.

The goal is to integrate Housing First principles and components in an effort to enhance the provision of meaningful individual housing and tenancy-sustaining services to enrolled members.

J. Training

MCPs are required to ensure that the MCP and CB-CME staff who will be delivering HHP services receive the required HHP training prior to participating in the administration of the HHP. See Appendix C for training requirements.

K. Service Directory

MCPs or CB-CMEs must ensure a directory of community services and supports is developed, maintained, and is made available to all care coordinators to inform referring members to social services. The community services directory may be sourced from existing directories so long as it is available as a resource for CB-CMEs and care coordinators. This type of directory may be maintained by either the MCP or the CB-CME; however, the contracted MCP will ensure its availability.

L. Quality of Care

MCPs must incorporate HHP into existing quality management processes.

MCPs must have the capacity to collect and track information used to manage and evaluate the program, including tracking quality measures, and collecting, analyzing, and reporting financial measures, health status and other measures and outcome data to be reported for the State's evaluation process. The MCP will report core service metrics and the recommended core set of health care quality measures established by CMS, as well as the three utilization measures identified by CMS to assist with the overall federal health home evaluation. MCPs must report on the measures listed in the *Reporting Template, and provide* encounters for all HHP services.

M. Cultural Competency, Educational and Health Literacy

MCPs must incorporate HHP into existing policies and procedures related to ensuring that services, communication, and information provided to members are culturally appropriate, and meet health literacy, reading, harm-reduction, and trauma-informed care standards.

N. Member Communication

MCPs must incorporate HHP into existing policies and procedures regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers) into account in communicating with enrollee. DHCS and DMHC will review member materials from Knox-Keene plans through the usual process and criteria. DHCS will use a parallel process for non-Knox-Keene plans.

All notices to be sent by the MCP to Medi-Cal beneficiaries regarding the provision of HHP services will be submitted to DHCS for review.

Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. MCPs may use the DHCS HHP Member Handbook as an optional resource for examples of "best practice" member messaging (though the Handbook messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

MCPs must maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.

O. Members Experiencing Homelessness

MCPs must incorporate HHP-specific information into the appropriate policies and procedures for homeless members, including special provider and service requirements criteria (to achieve homeless experience requirements and other requirements per AB 361 and SB 1380), and engagement processes.

P. Reporting

MCP must have the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP encounters for services provided by the MCP and the CB-CMEs. See Appendix G (*Reporting Template);* and the *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2019 Reporting,* or later, for details.

CMS has established a core set of seven required health care quality measures and three utilization measures (see *Reporting Template* and *document* for details). Additional details can be found in the CMS technical specifications and resource manual. These measures were identified by CMS to assist with the overall federal health home evaluation.

MCPs will utilize the Supplemental Payment process to report members enrolled in HHP and to initiate capitation payments. See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information.

VII. Appendix

A. Appendix A – Example of an Acceptable Model Outreach Protocol

This Model Outreach Protocol is only offered as one example of a protocol that would be acceptable. It is meant to give the MCP ideas about how they might want to design their outreach protocols with the CB-CMEs. The details of this protocol are at the discretion of the MCP, as long as their protocol broadly meets DHCS' intent as stated in the body of the Program Guide and the Readiness Checklist.

SAMPLE PROTOCOL

The Medi-Cal managed care plan (MCP) will send an initial "Welcome Packet" to HHP-eligible members in accordance with their engagement process. After the initial packet is sent, the CB-CMEs will follow up with their HHP-eligible members through phone calls, in-person visits, and other modalities. Each CB-CME or the MCP will attempt to contact the member **five times** within 90 days after the initial packet is sent using various modes of communication (letters, calls, in-person meetings, etc.).

If the CB-CME does not have the capacity to conduct outreach to eligible members, MCP care coordination staff, including community health workers, will conduct the outreach to these members and note the outreach attempts in the members' record.

After five attempts, the CB-CME and the MCP will note the challenges with the active outreach and remind the PCP to discuss the HHP with the member at the next PCP visit. If the member declines HHP enrollment at the PCP visit, this will be noted in the EHR and the MCP will be notified.

If the CB-CME or the MCP learns that the contact information is out of date, efforts will be made to update that information using recent provider utilization data and community health workers who can conduct on-the-ground outreach to locate members through their neighbors or community organizations. The CB-CME will also review members' housing history and work with the MCP Housing Program Manager to determine if that member can be reached at an alternative housing site or through a community-based organization.

CB-CMEs will track all outreach attempts within a three month intensive outreach period after the initial welcome letter is sent. The MCP will require that each outreach attempt and the outcome of each attempt be documented in the member's record in the HHP care management system and reported back to the MCP and DHCS. All outreach and engagement attempts will be evaluated by the care coordination team every 30 days within this three month period. The MCP will create policies and procedures for tracking and evaluating outreach and engagement efforts.

If a member declines participation in the HHP, or if their PCP determines that the member is not a good candidate for the HHP (using categories determined and provided by DHCS), this will be noted in the record in the HHP care management system to avoid repeated outreach

attempts. Members who do not enroll in the HHP will be noted, tracked in the MCP's data system and reported to DHCS. Members who graduate from the program will be disenrolled, which will be noted in the record, tracked in the data system, and reported to DHCS.

The MCP will create a mechanism for CB-CMEs and PCPs to identify potential HHP members who are not on the targeted engagement list and who meet the diagnostic and acuity criteria but not the utilization criteria. These individuals may be excellent candidates for the program to help prevent future avoidable health care utilization. In general, MCP will require CB-CMEs to justify the inclusion of the referred member into the program or onto the targeted engagement list. This would be reviewed by a medical director and/or nurse manager with experience in intensive case management to see if the member qualifies for the HHP or if they might be better served by another case management program, and if the rationale provided by the CB-CME or PCP justifies engagement and enrollment in the program.

Staff and Providers

The MCP will train MCP and CB-CME staff who may interact with HHP members, including customer service staff, 24-hour nurse line staff, and provider representatives, to ensure all member- and provider-facing staff are knowledgeable about the HHP, can answer questions and refer participating or eligible members or providers to the appropriate staff. MCP staff, CB-CME staff, providers and community providers are required to participate in webinars and trainings required by DHCS.

The MCP will work to educate all contracted providers, including providers at contracted CB-CMEs and providers from smaller clinics whose patients will receive HHP services through MCP care coordinators.

There will be on-the-ground community health workers who work in the local community and will visit members at their homes or community-based organizations where the members receive services. The MCP has made significant investments in developing this team of community health workers and they will be a key part of success in engaging and educating members on HHP.

Materials

The MCP will work with DHCS to educate providers, beneficiaries and key stakeholders to ensure strong member engagement and participation. The MCP will use outreach and education materials (flyers, brochures, sample email content, sample scripts, etc.) that are approved by DHCS. If the MCP is licensed by DMHC, these materials should additionally be filed with DMHC for review, as applicable. The MCP will also use existing communication channels to promote outreach and education opportunities for providers and members, such as informational webinars, trainings and tele-town halls.

At a minimum, the MCP will develop the following materials:

- Call scripts for Customer Service and 24-hour Nurse Advise Line;
- Member "Welcome Packet," including outreach letters and brochures;

Back to Agenda

- Appointment reminder letters for both medical and care coordination appointments;
- Content for both the member and provider sections of the MCP website; and
- Training guides for the MCP and CB-CME staff who interface with providers and members.

All member-facing materials for HHP will meet DHCS requirements for cultural competency and health literacy standards.

SAMPLE

B. Appendix B – Targeted Engagement List Process

The Targeted Engagement List (TEL) Process identifies the Medi-Cal members that are the most appropriate candidates for the enhanced care coordination services in the Health Home Program (HHP). The TEL is sent to each participating Managed Care Plan (MCP) so that they can initiate engagement activities. This document provides additional details for the criteria and steps used in the TEL Process.

The data source for the TEL Process is DHCS's Data Warehouse. The Data Warehouse contains service level detail for most Medi-Cal programs, including managed care encounters, Fee-For-Service claims, Short-Doyle Mental Health services, Drug-Medi-Cal services, and others. MEDS eligibility information available in the Data Warehouse is also used in the TEL Process.

TEL Process – There are four main steps in the TEL Process, as follows:

1. SPA Eligibility Requirements for Chronic Condition Disease Identification – During the 24 months prior to the running of the TEL, if a member has at least two separate services on different dates for any of the following conditions it will be considered a chronic condition for the TEL. HHP chronic conditions include Asthma, Bipolar Disorder, Chronic Kidney Disease (CKD), Chronic Liver Disease, Chronic Obstructive Pulmonary Disease (COPD), Chronic or Congestive Heart Failure, Coronary Artery Disease, Dementia, Diabetes, Hypertension, Major Depression Disorders, Psychotic Disorders (including Schizophrenia), Substance Use Disorder, and Traumatic Brain Injury. The specific ICD-10 diagnosis codes for each chronic condition are listed below. The TEL process uses the primary and secondary diagnosis during the disease identification process.

2. SPA Eligibility Requirements for Chronic Condition Criteria. A member meets the chronic condition criteria if they have:
   2.1. Chronic Condition Criteria #1: At least two of the following: Chronic Obstructive Pulmonary Disease (COPD), Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder.
   2.2. Chronic Condition Criteria #2: Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure.
   2.3. Chronic Condition Criteria #3: One of the following: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders (including Schizophrenia).
   2.4. Chronic Condition Criteria #4: Asthma

3. SPA Eligibility Requirements – Acuity – These parameters ensure that potential HHP members are high utilizers of health services. A member must meet one of these acuity factors:

3.1. A high chronic condition predictive risk level (operationalized as three or more of the HHP eligible chronic conditions) or
3.2. At least one inpatient stay (not required to be related any particular condition*) in the 16-month period prior to the running of the TEL. (The inpatient stay algorithm is aligned with industry standards and the HEDIS inpatient algorithm) or
3.3. Three or more Emergency Department (ED) visits (not required to be related to any particular condition*) in a 16-month period prior to the running of the TEL. (The ED algorithm is aligned with industry standards and the HEDIS ED algorithm) or
3.4. Chronic Homelessness (there are no data parameters for this criteria. Members who only meet eligibility through this criteria will be identified solely through provider referral and MCP prior authorization)

* MCPs have the option to adjust this requirement.

4. HHP Enrollment Targeting and Exclusions – This step starts with the Medi-Cal members that meet the SPA chronic conditions and acuity eligibility requirements and determines if the members meet any of the specific program enrollment targeting and exclusionary criteria.:

a) Members that meet the eligibility requirements are excluded from the TEL, and <u>are excluded from participation in HHP unless their status changes</u>, if the members are identified as:

- Nursing Facility Residents
- Hospice Recipients
- Members with TCM
- Members in 1915 (c) programs
- Members in Fee-For-Service
- Members in PACE, SCAN, or AHF
- Members in Cal MediConnect

b) Members that meet the eligibility requirements are not included on the TEL (but could be enrolled through referral) if the members are identified as:

- Dually eligible members
- Members in CCS or GHPP
- Members with ESRD

TEL and TEL Supplement Reporting

The members that meet the eligibility requirements for chronic conditions and acuity will be reported to the managed care plans (MCPs) in either the TEL or the TEL Supplement. The TEL will contain all of the members that meet the SPA eligibility criteria through step 3 above and do not meet any of the specific program enrollment targeting and exclusionary criteria listed in step 4. The MCPs will use the TEL, their TEL verification process, and their internal priority

engagement rules to focus their enrollment activities and enroll the most appropriate members into HHP. The TEL Supplement will contain members that meet the SPA eligibility requirements for chronic condition criteria but are not included on the TEL. The TEL and the TEL Supplement will be provided within the same physical data set with the appropriate indicators.

TEL and TEL Supplement List Management

DHCS' expectations are that most of the HHP eligible members will be identified on the first TEL/TEL Supplement for an MCP in a region (first for chronic conditions, and six months later, for SMI) and most subsequent TEL/TEL Supplement files, at six month intervals, will have a smaller number of new members. To manage the members that appear on the TEL and the TEL Supplement, DHCS is considering the following parameters:

- Members may not appear on subsequent TEL/TEL Supplement files for an MCP because:
  - The member is no longer Medi-Cal eligible in MEDS
  - The member has changed MCPs
  - The member may not meet the disease identification or SPA eligibility requirements for chronic condition criteria
- Members may move from the TEL to the TEL Supplement and from the TEL Supplement to the TEL

TEL and SPA Assignment

DHCS is required to provide separate reporting to CMS for the HHP SMI SPA and the HHP Physical Health\SUD SPA. This requirement is reflected in the HHP implementation schedule. The TEL/TEL Supplement process includes all SPA-defined chronic conditions in the initial steps. In order to support the implementation schedule and MCP requests for additional TEL-related information, the initial TEL/TEL Supplement in each geographic implementation group will include both Physical health/SUD and SMI conditions.

However, members with only SMI conditions are not eligible for the first implementation in each County. The SMI-only members on the TEL/TEL Supplement are identified when Chronic Condition Criteria #3 equals '1' and Chronic Conditions Criteria #1, #2, and #4 are all equal to '0'. MCPs will be required to separately identify HHP members between physical health\SUD and SMI on the Supplemental Payment file sent to DHCS for payment purposes (See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information).

HHP TEL/TEL Supplement – Fixed-width Record Layout v1.3

Field Id	Field Name	Description	Length	Start	End	Data Type
1	TEL Report Date	Date of generation of the TEL and TEL Supplement (CCYYMMDD)	8	1	8	A

15	Plan Code for Member	Plan Code for Member	3	93	95	A
16	Asthma Chronic Condition	Member met the HHP criteria for Asthma ('1' for yes, '0' for no).	1	96	96	A
17	Bipolar Chronic Condition	Member met the HHP criteria for Bipolar ('1' for yes, '0' for no).	1	97	97	A
18	Chronic Congestive Heart Failure (DHF) Chronic Condition	Member met the HHP criteria for Chronic Congestive Heart Failure ('1' for yes, '0' for no).	1	98	98	A
19	Chronic Kidney Disease Chronic Condition	Member met the HHP criteria for Chronic Kidney Disease ('1' for yes, '0' for no).	1	99	99	A
20	Chronic Liver Disease Chronic Condition	Member met the HHP criteria for Chronic Liver Disease ('1' for yes, '0' for no).	1	100	100	A

Field Id	Field Name	Description	Length	Start	End	Data Type
21	Coronary Artery Disease Chronic Condition	Member met the HHP criteria for Coronary Artery Disease ('1' for yes, '0' for no).	1	101	101	A
22	Chronic Obstructive Pulmonary Disease Chronic Condition	Member met the HHP criteria for Chronic Obstructive Pulmonary Disease ('1' for yes, '0' for no).	1	102	102	A
23	Dementia Chronic Condition	Member met the HHP criteria for Dementia ('1' for yes, '0' for no).	1	103	103	A
24	Diabetes Chronic Condition	Member met the HHP criteria for Diabetes ('1' for yes, '0' for no).	1	104	104	A
25	Hypertension Chronic Condition	Member met the HHP criteria for Hypertension ('1' for yes, '0' for no).	1	105	105	A
26	Major Depression Disorders Disease Category	Member met the HHP criteria for Major Depression Disorders ('1' for yes, '0' for no).	1	106	106	A
27	Psychotic Disorders Chronic Condition	Member met the HHP criteria for Psychotic Disorders ('1' for yes, '0' for no).	1	107	107	A
28	Filler	Filler	1	108	108	A
29	Traumatic Brain Injury Chronic Condition	Member met the HHP criteria for Traumatic Brain Injury ('1' for yes, '0' for no).	1	109	109	A
30	Filler	Filler	2	110	111	A
31	Chronic Condition Criteria #1	Member met the HHP Chronic Condition Criteria #1 (At least two of the following conditions: Chronic Obstructive Pulmonary Disease, Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, and Substance Use Disorder) ('1' for yes, '0' for no).	1	112	112	A

Field Id	Field Name	Description	Length	Start	End	Data Type
32	Chronic Condition Criteria #2	Member met the Chronic Condition Criteria #2 (Hypertension and at least one of the following conditions: Chronic Obstructive Pulmonary Disease, Diabetes, Coronary Artery Disease, or Chronic Congestive Heart Failure) ('1' for yes, '0' for no).	1	113	113	A
33	Chronic Condition Criteria #3	Member met Chronic Condition Criteria #3 (Any one of the following conditions: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders) ('1' for yes, '0' for no).	1	114	114	A
34	Chronic Condition Criteria #4	Member met Chronic Condition Criteria #4 (Asthma) ('1' for yes, '0' for no).	1	115	115	A
35	Count of Chronic Condition Criteria	A count of the number of Chronic Conditions Criteria the member met.	1	116	116	A
36	Acuity Factor #1	Member met acuity factor #1: three or more of the HHP eligible chronic conditions ('1' for yes, '0' for no).	1	117	117	A
37	Acuity Factor #2	Member met acuity factor #2: one or more inpatient stay ('1' for yes, '0' for no).	1	118	118	A
38	Acuity Factor #3	Member met acuity factor #3: three or more ED visits ('1' for yes, '0' for no).	1	119	119	A
39	Count of ED visits	The number of Emergency Department visits during the study period.	3	120	122	A
40	Latest ED visit DOS	The date of service for the most recent Emergency Department visit.	8	123	130	A
41	Count of Inpatient Admissions	The number of Inpatient Admissions during the study period.	3	131	133	A
42	Latest Inpatient Admission DOS	The date of service for the most recent Inpatient Admission.	8	134	141	A
43	Exclusion - Duals	The member is Dual Eligible ('1' for yes, '0' for no).	1	142	142	A
44	Exclusion - Hospice	The member had at least one service with one of the following revenue codes 0651, 0652, 0655, 0656, 0657, or with the following procedure code T2045 in the time period ('1' for yes, '0' for no).	1	143	143	A

Field Id	Field Name	Description	Length	Start	End	Data Type
45	Exclusion - ESRD	The member had at least one service with one of the following procedure codes in the time period, Z6004, Z6006, Z6012, Z6014, Z6016, Z6018, Z6022, Z6036, Z6038, Z6040, Z6030, 90967, 90968, 90969, 90970, 90989, 90993, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90935, 90937, 90945, 90947 ('1' for yes, '0' for no).	1	144	144	A
46	Exclusion - CCS	The member had at least one CCS End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	145	145	A
47	Exclusion - GHPP	The member had at least one GHPP End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	146	146	A
48	Exclusion - TCM	The member had at least one Targeted Case Management service in the time period (services where the Vendor Code was "92" or "93" ('1' for yes, '0' for no).	1	147	147	A
49	Exclusion - 1915c	The member met at least one of the following 1915c exclusions defined below, HIVAExcl, ALWExcl, DDExcl, IHOExcl, MSSPExcl, or PPC_Exclu ('1' for yes, '0' for no).	1	148	148	A
50	Exclusion - HIV/AIDS Waiver	Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) Waiver exclusion. The member had at least one service in the time period where the Provider type was "073" and Procedure Code in (90837, 90846, 90847, 90847, G0156, G0299, G0300, S5130, S5165, S5170, S9470, T2003, T2022, T2025, T2026, T2028, T2029) ('1' for yes, '0' for no).	1	149	149	A
51	Exclusion - Assisted Living Waiver	Assisted Living Waiver (ALW) Exclusion. The member had at least one service in the time period where the Vendor Code In ("44" or "84"), and (Provider Type was "092", "093", or "014"), and (the Category of Service was 118 or 119) ('1' for yes, '0' for no).	1	150	150	A

Field Id	Field Name	Description	Length	Start	End	Data Type
52	Exclusion - Developmental Disabilities Waiver	HCBS Waiver for Californians with Developmental Disabilities (DD) exclusion. The member had at least one service in the time period where the Vendor Code was "76" and the Procedure Code in (Z9002, Z9003, Z9004, Z9005, Z9012, Z9014, Z9015, Z9016, Z9020, Z9021, Z9022, Z9023, Z9025, Z9025, Z9026, Z9026, Z9027, Z9028, Z9029, Z9030, Z9031, Z9032, Z9034, Z9038, Z9039, Z9043, Z9046, Z9047, Z9048, Z9050, Z9056, Z9058, Z9059, Z9060, Z9061, Z9062, Z9063, Z9064, Z9065, Z9066, Z9067, Z9069, Z9072, Z9073, Z9074, Z9075, Z9076, Z9077, Z9078, Z9079, Z9101, Z9102, Z9103, Z9104, Z9105, Z9106, Z9110, Z9111, Z9112, Z9113, Z9121, Z9122, Z9123, Z9124, Z9125, Z9126, Z9200, Z9202, Z9203, Z9204, Z9205, Z9206, Z9207, Z9208, Z9302, Z9303, Z9304, Z9305, Z9306, Z9307, Z9308, Z9310, Z9311, Z9312, Z9313, Z9314 ,Z9315, Z9400, Z9401, Z9402, Z9403, Z9404, Z9405, Z9406, Z9406, Z9407, Z9408, Z9999) ('1' for yes, '0' for no).	1	151	151	A
53	Exclusion - IHO/HCBA Waivers	In-Home Operations Waiver (IHO) / Home and Community-Based Alternatives (HCBA) exclusion. The member had at least one service in the time period where the Vendor Code was "71" and Provider type is “014, 059, 066, 067, 069, 078, 095”) or where the Vendor Code was "89" and the Special Program Code (SPECIAL_PGM_TYPE_CD was "3" (IHO Personal Care Services (WPCS)) ('1' for yes, '0' for no).	1	152	152	A

Field Id	Field Name	Description	Length	Start	End	Data Type
54	Exclusion - MSSP Waiver	Multipurpose Senior Services Program Waiver (MSSP) exclusion. The member had at least one service in the time period where the Vendor Code was "81", the Provider Type is '074', and the Procedure Code in (Z8550, Z8551, Z8552, Z8553, Z8554, Z8555, Z8556, Z8557, Z8558, Z8559, Z8560, Z8561, Z8562, Z8563, Z8564, Z8565, Z8566, Z8567, Z8568, Z8569, Z8570, Z8571, Z8572, Z8573, Z8574, Z8575, Z8576, Z8580, Z8581, Z8582, Z8583, Z8584, Z8585, Z8586, Z8587, Z8588, Z8589, Z8590, Z8591, Z8592, Z8593, Z8594, Z8595, Z8596, Z8597, Z8598, Z8599, Z8600, Z8601, Z8602, Z8603) ('1' for yes, '0' for no).	1	153	153	A
55	Exclusion - PPC Waiver	Pediatric Palliative Care (PPC) Waiver exclusion. During the observation period, the member in one of the following counties: Fresno, Los Angeles, Marin, Monterey, Orange, San Francisco, Santa Clara, Santa Cruz, Sonoma, or Ventura, the Provider Type is '014 or '039, the Category of Service is '120, and the Procedure Code is 'G9012' ('1' for yes, '0' for no).	1	154	154	A
56	Exclusion - PACE, SCAN, AHF	PACE, SCAN, and AHF exclusion. As of the last month, the member had one of the following Plan Codes: 050-065, 200-207, 601, or 915. ('1' for yes, '0' for no).	1	155	155	A
57	Exclusion - LTC Resident	Long Term Nursing Facility residents exclusion. As of the end of the study period the member had one of the following Long Term Care (Nursing Facility) Aid Codes: "13", "23", "53", or "63" ('1' for yes, '0' for no).	1	156	156	A
58	Exclusion - FFS	Fee-For-Service exclusion. As of the end of the study period the member was in Fee For Service (Plan Code 000) ('1' for yes, '0' for no).	1	157	157	A
59	Count of Exclusions	A count of the number of Exclusions for which the member met the requirements.	2	158	159	A
60	TEL Indicator	A value of "1" indicates a TEL record; a value of "0" indicates a TEL Supplement record	1	160	160	A

C. Appendix C – Training Requirements

This section outlines training that MCP and CB-CME staff who will be delivering HHP services are required to receive prior to participating in the administration of the HHP. It also includes recommendations for training CB-CME staff on several core competencies.

Required HHP Trainings for Prior to HHP Implementation
MCP and CB-CME staff who will be delivering HHP services are required to receive HHP-specific training prior to HHP implementation. The required training topics described below cover basic program components. DHCS provided PowerPoint training materials that MCPs can leverage for their required trainings. However, it is also acceptable for an MCP to use non-DHCS developed training materials to satisfy one, or more, of the requirements. DHCS-developed training materials are saved on both the portal and DHCS' Health Homes Program website.

MCPs must be prepared to follow the required high-level trainings with more specific HHP operational training for their staff and CB-CME staff that provide HHP services. This should include MCP-specific information on operations, workflows, how HHP intersects with MCP care coordination initiatives, data reporting, and other implementation issues. DHCS and Harbage Consulting will work with each MCP to discuss their needs and the best approach for providing the required trainings.

The required HHP training topics are:

1. **Health Homes Program Overview**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on the program. Required training modules shall describe the goals and scope of the HHP, team member roles and how they should work together, the services that should be provided, and how HHP intersects with other California state care coordination programs. The training shall introduce topics related to caring for the populations served under HHP, including those with chronic conditions and homeless individuals, and the impact of social determinants of health on patients.

2. **Health Action Plan, Care Coordination, and Care Transitions within the Health Homes Program**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on best practices for working with members and providers to design and implement the Health Action Plan, conduct care coordination activities, and support patient transitions between different levels of care.

Required training shall cover approaches and best practices for developing and implementing a Health Action Plan and providing patient-centered care, taking into account the individual's preferences, values, and unique needs. It shall also cover best practices for care management for specific chronic diseases that are prevalent in the patient population and best practices for serving the SMI population.

Staff shall be trained in best practices for coordinating care across care settings, with particular focus on medical care, behavioral health services, and services addressing social determinants of health and housing. Training shall include effective strategies for care transitions, including best practices for reducing hospital readmissions and medication errors at care transitions.

3. **Community Resources and Referrals** (required for care coordinators and housing navigators)

This training shall provide information about available community resources, how to develop relationships with community partners, and best practices for connecting members to community services. This training is required for MCP and CB-CME care coordinators and housing navigators.

MCPs are encouraged to provide additional training and/or guidance about specific local and community organizations and resources available to the CB-CME staff.

Recommended but Optional Training for CB-CME Staff on Core Competencies

DHCS recommends that relevant MCP and CB-CME staff receive training on the following core competencies in order to successfully implement HHP. DHCS plans to provide trainings and/or resources on these topics, which will be saved on the portal and available on-demand.

1) Special Populations (homelessness, domestic violence, SMI, etc.)

Team members should have access to training and resources specific to the patient populations they serve.

2) Social Determinants of Health

Trainings and resources related to social determinants of health should be made available for team members. Social determinants of health include gender, age, education, income and employment, social/cultural networks, housing and physical environments and other factors that impact health outcomes and access to care.

3) Motivational Interviewing

Motivational interviewing is a communication technique that seeks to elicit an individual's internal motivation to make set and accomplish positive goals. The technique uses a non-confrontational, collaborative approach to help the patient find his or her own motivation and initiate change. The patient is empowered to make personal choices, resulting in increased likelihood of compliance with care plans.

4) Trauma-informed Care

Trauma-informed care is a service delivery framework that involves identifying, understanding, and responding to the effects of all types of trauma. Trauma-informed care emphasizes safety (physical, psychological and emotional) for patients and providers and seeks to empower patients with self-care tools.

5) Health Literacy Assessment

Health literacy refers to a patient's capacity to find and understand health information and services in order to make informed health decisions. Assessment of patient health literacy is essential to the creation of a patient-centered care plan.

6) Information Sharing

Team members should be trained on requirements related to sharing member information and data with other entities for the purpose of care coordination. These entities include the MCP, CB-CMEs, the care team, the county, hospitals, other providers, and community-based organizations including housing organizations.

D. Appendix D – Readiness Requirements and Checklist

Readiness Requirements and Checklist

This checklist is not intended to be all-inclusive. Additional information as needed may be requested by the Department.

General Instructions

Thank you for your interest in participating in the Health Homes Program (HHP). To ensure that Medi-Cal managed care health plans (MCPs) are ready to implement the Health Homes Program, MCPs must submit the documentation listed below and attest that other program requirements have been completed. **There are multiple deadlines for submissions for each implementing MCP group. Please see Appendix I for the HHP Implementation Schedule by group. Submission deadlines for each group are as follows:**

1. **Group 1 – March 1, 2018; May 1, 2018; and November 1, 2018.**
2. **Group 2 – September 1, 2018; November 1, 2018; February 1, 2019; and May 1, 2019.**
3. **Group 3.1 – January 1, 2019; April 1, 2019; July 1, 2019; and October 1, 2019.**
4. **Group 3.2 – March 1, 2019; May 1, 2019; August 1, 2019; and November 1, 2019.**
5. **Group 4 – September 1, 2019; November 1, 2019; February 1, 2020; and May 1, 2020.**

List of Deliverables:

Policies and Procedures (P&Ps) and Attestations: Section I – HHP Infrastructure (Deliverables #1 – 3), Section II – HHP Services (Deliverables #4 – 5), Section IV – General HHP Operations (Deliverables #7 – 10 and 12), and the Attestations (Deliverable #13)

Network: Section III – Network (Deliverable #6.1, 6.3, 6.4, 6.5)

SMI– MHP-MOU: Section IV – General HHP Operations, MHP-MOU (Deliverable #11.1)

SMI Network: Section III – Network (Deliverables #6.2a and 6.2b)

Group	Counties	Deliverable Due Dates		Deliverable Approval Dates
Group 1	San Francisco	**P&Ps**:	3/1/18	5/1/18
		Network:	5/1/18	6/1/18
		SMI Deliverables:	11/1/18	12/1/18
Group 2	Riverside San Bernardino	**P&Ps**:	9/1/18	11/1/18
		Network:	11/1/18	12/1/18
		SMI MHP-MOU:	2/1/19	3/1/19
		SMI Network:	5/1/19	6/1/19
Group 3.1	Imperial Santa Clara	**P&Ps**:	1/1/19	5/1/19
		Network:	4/1/19	6/1/19
		SMI MHP-MOU:	7/1/19	8/1/19
		SMI Network:	10/1/19	12/1/19
Group 3.2	Alameda Kern Los Angeles Sacramento San Diego Tulare	**P&Ps**:	3/1/19	5/1/19
		Network:	5/1/19	6/1/19
		SMI MHP-MOU:	8/1/19	9/1/19
		SMI Network:	11/1/19	12/1/19
Group 4	Orange	**P&Ps**:	9/1/19	11/1/19
		Network:	11/1/19	12/1/19
		SMI MHP-MOU:	2/1/20	3/1/20
		SMI Network:	5/1/20	6/1/20

DHCS expects the deliverables to be submitted in the form of MCP policies and procedures except for the organizational chart, assessment tool, health action plan template, network adequacy tables, and CB-CME subcontract. MCPs may develop standalone policies and procedures for the HHP and/or may incorporate HHP into existing policies and procedures.

MCPs are to submit a separate set of deliverables for each county they are implementing HHP in. If one or several deliverables cover multiple counties, MCPs are not required to submit the deliverable for each county. However, the MCP must indicate which counties the deliverable applies to during the submission process. The network tables that MCPs submit are to be separated by county.

For MCPs in multiple groups, the plan should not resubmit deliverables already approved for a prior group, unless changes have been made.

When submitting existing policies & procedures with HHP-related revisions, please use the "track changes" function in Word, or strike-thru/underline equivalent in other applications, to show deletions and additions. Other forms of documentation are also permitted to supplement MCP policies and procedures. If single documents are used to demonstrate compliance with multiple requirements/deliverables, please provide a crosswalk with the specific location for each deliverable.

Please see the *"Medi-Cal Health Homes Program: Program Guide"* (Program *Guide)* for Health Home Program requirements that correspond to this Readiness Checklist.

Submission Requirements

MCPs should follow the regular process for submitting required deliverables to their current Contract manager(s). Please submit HHP-related deliverables to 2PlanDeliverables@dhcs.ca.gov and copy the HHP mailbox at hhp@dhcs.ca.gov.

For each submission, please provide the Plan's Name and the primary Contact Person's name and telephone number.

In addition, when submitting, please use the following email subject line and file naming conventions:

- In the subject line of the email, please note that these are HHP Deliverables by using the following subject line convention:
  "HHP Deliverable 1"; "HHP Deliverables 2 and 3"; etc.

- Please use the following file naming convention:
  [plan name and deliverable number]

The Contact Person is responsible for ensuring that all documentation and attestations are accurate. Questions may be directed to hhp@dhcs.ca.gov. DHCS will provide additional information as it becomes available, and may request additional information at a later date.

I. HHP Infrastructure

1. Organizational Model:

1.1 Submit MCP's policies and procedures describing the HHP infrastructure, the roles and division of labor between the MCP and Community-Based Care Management Entities (CB-CMEs), and whether the MCP delegates any responsibilities to other entities.

1.2 Organizational chart illustrating the HHP infrastructure.

2. Staffing:

2.1 Submit MCP's policies and procedures describing the staffing plan for MCP and CB-CMEs, including care coordinators, community health workers, and housing navigator(s). The care coordinator ratio requirements are included in the Program Guide; however, if an MCP is interested in using a staffing model that de-emphasizes the care coordinator and instead emphasizes the roles of other team members, please describe the model here and DHCS will consider how to handle the care coordinator ratio.

The participation of community health workers in appropriate roles is recommended but not required.

2.2 Job descriptions for care coordination staff, including MCP and CB-CME staff, as appropriate.

3. Health Information Technology/Data and Information Sharing:

3.1 Submit MCP's policies and procedures describing how information is shared among the entire care team (including the member, CB-CME, and MCP), including whether EHR/HIT/HIE, or other methods, are used regarding the following activities:

a. Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management – standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement. Include other methods if electronic means of collection are not used.

b. Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members. Include other methods if electronic means of collection are not used.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters. Include other methods if electronic messaging is not used.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information. Include other methods if an electronic system is not used.
   - Telehealth services including remote patient monitoring.

c. Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER. Include other methods if an electronic process is not used.

- Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR. Include other methods if electronic sharing is not used.
- Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.

d. Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.

e. Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence). Include other methods if electronic means of collection are not used.
   - Ability to electronically refer patients to necessary services. Include other methods if electronic referral is not used.

II. HHP Services

4. Care Management:

5.1 Submit the assessment template or tool reflective of HHP-required elements such as housing instability, palliative care, and trauma-informed care.

5.2 Submit the Health Action Plan (HAP) template.

5.3 Submit MCP's policies and procedures for conducting care management, including how the MCP, in conjunction with contracted CB-CME, will:
- Develop and implement an HHP member assessment and HAP requirements and process, with enrollee and caregiver participation;
- Design the multi-disciplinary care team composition and process;
- Manage the communication and information flow regarding referrals, transitions, and care delivered outside the primary care site; and
- Maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.
- Maintain a process for referring to other agencies, such as long term services and supports (LTSS) or behavioral health agencies, as appropriate.
- Disenroll members from HHP who no longer qualify for or require HHP services.

5. Care Transitions:

5.1 Submit MCP's policies and procedures for conducting care transitions, including discharge-planning workflows.

III. HHP Network

6. MCP Duties/Responsibilities - Health Homes Program Network

6.1 Physical Conditions and SUD implementation

Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected enrollment and capacity as of the program launch date and as of the last day of each quarter in the first year for the Physical Chronic Conditions/SUD implementation. "Projected capacity" is the maximum caseload of the MCP's Physical Chronic Conditions/SUD HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of Physical Chronic Conditions/SUD HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable is due as a part of the Network Deliverables submission.

Please provide expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – Physical Conditions and SUD**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

Note: A separate DMHC network review specific to HHP will not be conducted; however, DMHC will continue to conduct regular Knox-Keene Act required network reviews through DMHC established processes.

6.2 SMI Implementation

a. Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected HHP enrollment and capacity for these CB-CMEs as of the program launch date and as of the last day of each quarter in the first year for the SMI implementation. "Projected capacity" is the maximum caseload of the MCP's SMI HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of SMI HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable update is due as a part of the SMI Deliverables submission.

Please provide the expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – SMI**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

b. Provide a description of how behavioral health providers are incorporated into the HHP service delivery model. This deliverable is due as a part of the SMI Deliverables submission.

6.3 If applicable, provide any MCP-specific CB-CME qualifications (beyond the CB-CME qualifications listed in section V.B, CB-CME Qualifications) that the MCP requires for the CB-CME to contract for HHP Services. This deliverable is due as a part of the Network Deliverables submission.

6.4 Submit CB-CME oversight policies and procedures, including monitoring, corrective action, progressive consequences for continued non-compliance, auditing care coordination conducted by CB-CMEs. This deliverable is due as part of the Network Deliverables Submission.

6.5 Submit CB-CME subcontract boilerplate that complies with the DHCS MCP contract requirements and includes: 1) Business Associate Agreement that allows for information and data sharing between MCP and CB-CME, 2) CB-CME to provide services in accordance with requirements in this Program Guide, and 3) CB-CME to complete DHCS/MCP required training. **If submitting prior DHCS approved subcontract boilerplate with HHP-related revisions, please use the "track changes" function in Word, or the "strike-through/underline" equivalent in other applications, to show deletions and additions.** This deliverable is due as part of the Network Deliverables Submission.

Note: MCP must have DHCS-approved subcontracts or subcontract amendments with a sufficient number of CB-CMEs to serve its HHP enrollees.

IV. General HHP Operations

7. Non-Duplication of Care Coordination Services:

7.1 Submit MCP's policies and procedures for ensuring that members are not enrolled in another Medi-Cal care coordination program that would disqualify them from receiving HHP services (see Program Guide for requirements).

8/9. HHP Outreach Requirements

8.1 Member Engagement:

Submit MCP's policies and procedures that include the following:

- Protocols for a progressive outreach campaign (see Program Guide Appendix A for model outreach campaign protocols)
- Process for assisting members who require additional prompting or guidance to participate;
- Process for conducting outreach to homeless individuals;
- Process for reviewing and excluding names from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines

of having no substantial avoidable utilization **or** enrollment in another acceptable care management program – see Reporting Template-Instructions for definition);

- After people have been excluded from the TEL based on the process above, the process and criteria for identifying a "priority engagement group" or ranking process within the remaining TEL members. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for 'priority engagement' status will be at the MCP's discretion (upon approval by DHCS) with the goal of engaging and serving TEL members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization.

9.1 Member Notices:

All beneficiary notices to be sent by the MCP regarding the HHP should be filed for DHCS review. If the MCP is licensed by DMHC, these notices should additionally be filed with DMHC for review. DHCS is aligning with DMHC requirements regarding notice review, and DMHC requires MCPs to file all advertisements for review. All outreach materials and scripts that will be distributed should be filed prior to use by the MCP. Submission through this readiness checklist process will begin the DHCS notice review/approval process. MCPs may provide notices for DHCS review at any time prior to the member notices deliverable due date.

Note: Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. DHCS' HHP Beneficiary Toolkit is an optional resource for the MCPs for examples of 'best practice' member messaging (though the HHP Member Toolkit messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

10. Risk Grouping:

10.1 Submit MCP's policies and procedures for ensuring that HHP members receive the appropriate services at the appropriate intensity level, including tiering of services based on risk grouping and the associated payment structure (but not amounts). See Section V. Health Homes Program Network, G. Risk Grouping in this Program Guide for additional information.

11. Mental Health Services:

11.1 Signed local Mental Health Plan (MHP) Health Memorandum of Understanding (MHP-MOU) to ensure seamless access and delivery of mental health services. The MHP-MOU must be in place as of the date of implementation of HHP for members

with SMI conditions. MCPs will develop or amend existing MOUs with county MHPs to address HHP-specific information.

DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018), including Attachment 2 of this APL, to address the HHP-specific information that MCPs must include in new, or amended, MOUs. MCP must submit the new or amended MHP-MOU by November 1, 2018 for Group 1 MCPs; February 1, 2019, for Group 2 MCPs; July 1, 2019 for Group 3.1 MCPs; and August 1, 2019 for Group 3.2 MCPs.

12. Housing Services:

12.1 Submit MCP's policies and procedures for providing the required housing services, including how the MCP will identify and work with community resources to ensure seamless access to delivery of housing support services. MCPs must provide housing navigation services, not just referrals to housing. (See Program Guide for requirements.)

13. Health Homes Program Readiness – Attestations

The operational process attestations below reflect the MCP's commitment to being fully prepared as of the HHP implementation date. Please check the boxes and sign below to indicate MCP's compliance with the following readiness requirements for the Health Homes Program.

☐ **F. Training**: Attest (check the box) that the MCP and CB-CMEs will complete all DHCS-required HHP training prior to participating in the administration of the HHP, as outlined in the *Program Guide*.

☐ **G. Service Directory**: Attest (check the box) that the MCP or the CB-CME(s) has completed and will maintain a directory of community services and supports that is available to all CB-CMEs and care coordinators.

☐ **H. Quality of Care**: Attest (check the box) that the MCP has incorporated HHP into existing quality management processes.

☐ **I. Cultural Competency, Educational and Health Literacy**: Attest (check the box) that the MCP has incorporated HHP into existing Policies & Procedures on these topics.

☐ **J. Member Communication**: Attest (check the box) that the MCP has incorporated HHP into existing policies regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers), into account in communicating with enrollee.

☐ **K. Members Experiencing Homelessness**: Attest (check the box) that the MCP has incorporated HHP-specific information into the appropriate Policies & Procedures for homeless members, including special service requirements, provider criteria (to comply with homeless experience requirements per AB 361), and engagement processes.

☐ **L. Reporting**: Attest (check the box) that the MCP has the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP service encounters for services provided by the MCP and the CB-CMEs (see *Program Guide* and *reporting template* for reporting requirements).

☐ **M. Service Requirements**: Attest (check the box) that the MCP will comply with all the with all service requirements, including for the six core services and the additional service requirements listed in the Program Guide.

I am authorized to make this attestation on behalf of:

_____	_____
Managed Care Plan	Signature of Authorized Representative
_____	_____
Date	Name of Authorized Representative
	_____
	Title of Authorized Representative

E. Appendix E – Service Codes for the Health Homes Program

DHCS has defined the ACA 2703 Health Home Program (HHP) service codes for use on encounters and for other purposes. The HHP is required to utilize HIPAA-compliant coding standards. This revised coding scheme incorporates comments received on the initial proposed coding scheme released in October 2016. The HHP team and the DHCS Office of HIPAA Compliance identified CPT and HCPCS codes for HHP. In addition, the HHP team investigated other potential codes and reviewed codes used by a few other states.

DHCS initially selected HCPCS code G0506 for HHP, however it was found to conflict with National Correct Coding Initiative rules. DHCS instead adopted HCPCS code G9008 effective as of 10/1/2018. The definition of G9008 is as follows: Coordinated care fee, physician coordinated care oversight services. G9008 along with seven different modifiers are listed in the table below for the HHP services (Comprehensive Care Management, Care Coordination, Health Promotion, Comprehensive Transitional Care, Individual and Family Support Services, and Referral to Community and Social Supports). This coding scheme uses HIPAA compliant HCPCS code and modifier combinations to identify clinical and non-clinical services, distinguishes between in-person and telephonic/telehealth 'visits', and allows other HHP services such as case notes, case conferences, tenant supportive services, driving to appointments, etc. to be codified. In addition, there is a designated modifier for engagement services. The HHP coding scheme is as follows:

HHP Service	**HCPCS Code**	**Modifier**	**Units of Service (UOS)**
In-Person: Provided by Clinical Staff	G9008	U1	15 minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Clinical Staff	G9008	U2	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Clinical Staff	G9008	U3	15 Minutes equals 1 UOS; Multiple UOS allowed
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed
HHP Engagement Services	G9008	U7	15 Minutes equals 1 UOS; Multiple UOS allowed

Telehealth and Group Visits

Regarding the use of the HHP HCPCS code and modifiers for HHP services provided via Telehealth and group visits – specifically, if MCPs may submit HHP encounters for telehealth and group visits using the HHP HCPCS code and modifiers for HHP in-person visits and if they may be used to satisfy the in-person visit ratio requirement – DHCS offers the following clarifying guidance.

Telehealth visits generally may not be used to meet the in-person visit ratio requirement for HHP. However, on a case by case basis, if an MCP has certain circumstances that necessitate the use of a high volume of telehealth visits for HHP, and the MCP is unable to meet the HHP in-person visit requirement because of the high-volume use of telehealth, DHCS will evaluate the circumstances and may allow the MCP to utilize some telehealth visits to meet the in-person visit requirement.

DHCS expects that group visits to be primarily used for health promotion and educational purposes as opposed to one-on-one HHP care coordination. However, if there is a one-on-one in-person component to the group visit in which the provision of any of the six core HHP services are provided, this may be reported as a separate HHP in-person visit encounter.

F. Appendix F – Evidence of Coverage Template

Description:

<Plan Name> covers Health Homes Program (HHP) services for Members with certain chronic health conditions. These services are to help coordinate physical health services, behavioral health services, and community-based long term services and supports (LTSS) for Members with chronic conditions.

You may be contacted if you qualify for the program. You can also call <Plan Name>, or talk to your doctor or clinic staff, to find out if you can receive HHP services.

You may qualify for HHP if:

- You have certain chronic health conditions. You can call <Plan Name> to find out the conditions that qualify; and
- You meet one of the following:
  - You have three or more of the HHP eligible chronic conditions
  - You stayed in the hospital in the last year
  - You visited the emergency department three or more times in the last year; or
  - You do not have a place to live.

You do not qualify to receive HHP services if:

- You receive hospice services; or
- You have been residing in a skilled nursing facility for longer than the month of admission and the following month.

Covered HHP Services:

HHP will give you a care coordinator and care team that will work with you and your health care providers, such as your doctors, specialists, pharmacists, case managers, and others, to coordinate your care. <Plan Name> provides HHP services, which include:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Cost to Member:

There is no cost to the Member for HHP services.

G. Appendix G – Reporting Template Excerpt

The below is an excerpt from the complete Reporting Template that MCPs will use to submit specific required data. For descriptions of data elements, please see Reporting Template.

Note: CPB = Controlling High Blood Pressure; CDF = Screening for Clinical Depression and Follow-up Plan; SMI = Serious Mental Illness/Serious Emotional Disturbance.

Health Home Program (HHP) Reporting Instructions

These instructions outline the requirements, references, and headings/categories for the following reporting template: Health Home Program Reporting Template. Reporting is required per the managed care contract.

• Data must be submitted in Excel (.xlsx). Do not submit data in .pdf, .xls, .csv, .txt, or any other format than .xlsx.

• The three months of data must be combined into one figure to represent the quarter, with the exception of member level Homeless and Housing reports and annual reports.

• Each MCP must submit only one file per reporting period that includes all counties the MCP operates in. All subcontractors must be rolled up into the main MCP's data.

• MCPs will certify the HHPQuarterlyReports or data submissions using the existing monthly data certification process with its respective DHCS Contract Manager to confirm all information submitted is complete and accurate. MCP will maintain documentation supporting the reported information.

Quarterly reports are due 60 days after the end of the quarter. Annual reports are due with Q1 reports. Member-level detail Homeless/Housing reports are due semi-annually, with the Q2 and Q4 reports. When the due date falls on Saturday, Sunday or a holiday, data must be submitted by COB the business day before the due date. For reference, the calendar-year quarters are listed below:

• Q1 and Annual – January, February, and March - due May 31

• Q2 and Member-level Homeless/Housing – April, May, and June - due August 31

• Q3 – July, August, and September - due November 30

• Q4 and Member-level Homeless/Housing – October, November, and December - due February 28

Unless otherwise noted, all "days" are calendar days.

Reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). Reports must use the following file naming convention: MCP name.HHPQuarterlyReport.Year.Quarter.DueDate.xlsx

[MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.xlsx.]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181130.xls. DHCS will not acknowledge or accept any email submissions.

All report revisions are subject to DHCS review and approval.

• DHCS will notify MCPs if revised reports must be submitted to correct data errors such as incorrect file naming conventions, incomplete data/columns fields, incorrect data, etc.

• Revised reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov).

• Revised reports must be submitted as a complete quarterly file. Partial files without all the required information and data will be rejected and must be resubmitted. Each quarter of data must be submitted separately. MCP must include an explanation in the HHP comments tab describing the changes and the reason for revision.

• Revised reports must use the following file naming convention: MCPName.HHPQuarterlyReport.Year.QuarterNumber.DueDate.RevisionNumber.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.REV#.xlsx]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181230.REV1.xlsx. to your designated folder in the "DHCS-MCQMD-Data/MCP" folder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). The revised file should be submitted as a separate file.

• Final corrections to quarterly reports must occur no later than 90 days after the end of the calendar year for corrections on the previous year's quarterly reports unless the Department requests a revised file.

Definitions:

CB-CME: Community Based Care Management Entity

HAP: Health Action Plan

Homeless and Chronically Homeless: see CA Welfare & Institution Code § 14127(e)

Housing Services:
https://www.medicaid.gov/federal-policy-guidance/downloads/cib-06-26-2015.pdf - see "Individual Housing Transition Services" and "Individual Housing & Tenancy Sustaining Services" on pages 3-4.

For the purposes of this document, the following definitions will apply:

- **HHP Member**: a Medi-Cal beneficiary currently enrolled in a Medi-Cal Managed Care Plan and a Health Homes Program.

- **Member**: a Medi-Cal Managed Care Plan member not currently enrolled in a Health Homes Program.

- **Individual**: Medi-Cal beneficiary or other eligible person who may not be currently enrolled in a Medi-Cal Managed Care Plan or a Health Homes Program. E.g., FFS beneficiary. May also apply to person not currently enrolled in Medi-Cal.

Definitions of Exclusionary Reasons for Non-Enrollment: The following are the allowable reasons, with definitions, for which a Medi-Cal member may be excluded from, or not enrolled into, a local Health Homes Program (HHP). These definitions are used by DHCS and its HHP partners. For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage. See the definition of Targeted Engagement Process below for additional information.

I. ***Unsafe Environment***: for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ED: After reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment or deliver HHP services, such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff.

Individual: Member engagement/enrollment efforts, or delivery of HHP services, cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

II. ***Declined participation***: After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate in HHP.

III. ***Unsuccessful engagement***: HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self-available, or is un-cooperative. Accurate contact information is not available for the member. This occurs before enrollment.

IV. ***Well-managed***: An assessment, which may include a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.

V. ***Participation in duplicative programs or programs excluded for HHP participation due to DHCS policy***: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following:

1. Duplicative Programs

a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH)

b. Targeted Case Management (TCM) – County, not Mental Health TCM

c. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF)

2. Programs excluded by DHCS Policy

a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month.

b. Hospice

c. Fee-For-Service

VI. ***Targeted Engagement Process***: The MCPs DHCS-approved process by which MCPs identify and prioritize individuals for engagement by using DHCS-provided Targeted Engagement List (TEL) and/or MCP member data.

For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage, that is a result of the above mentioned DHCS-approved process.

1. Health Home Program Enrollment Reporting	
***Note:* Only report one (1) exclusionary reason per member excluded from the Program.**	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number MCP excluded because not eligible - well-managed (Column C)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because not eligible due to MCP assessment determining well managed. The CB-CME and/or the MCP can further define, but well-managed means (a) members with HHP chronic conditions that do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation; or (b) members that are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.
Number MCP excluded because declined to participate (Column D)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because they declined to participate. After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate, or to continue to participate, in HHP.
Number MCP excluded because of unsuccessful engagement (Column E)	Enter the number of members MCP excluded via the targeted engagement process the quarter because of unsuccessful engagement. HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self available; is un-cooperative; or accurate contact information is not available for the member. This occurs before enrollment.

Number MCP excluded because duplicative program (Column F)	Enter the number of members MCP excluded via the targeted engagement process during the quarter due to being in another program that provides care management services: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following: 1. Duplicative Programs a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH) b. Targeted Case Management (TCM) – County, not Mental Health TCM 2. Programs excluded by DHCS Policy a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month. b. Hospice 3. Additional programs the MCP determines are duplicative as described in their progressive engagement policy
Number MCP excluded because unsafe behavior or environment (Column G)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because of an unsafe behavior or environment. Unsafe includes Environment (for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ER): after reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff; and Individual: Member engagement/enrollment efforts cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

Number MCP excluded because not enrolled in Medi-Cal at MCP (Column H)	Enter the number of individuals MCP excluded from via the targeted engagement process list during the quarter because they are not enrolled in Medi-Cal at the Managed Care Plan. Reasons can include, but may not be limited to, the following: a. Fee-For-Service b. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF) c. Member is deceased
Number externally referred & enrolled (Column I)	Enter the number of members not part of the plan's targeted engagement process, referred to the MCP, that were enrolled. The referral process is initiated by an external provider or organization when an individual is initially assessed to be a candidate for HHP and therefore is referred to the MCP for approval. Upon MCP review and evaluation, if the individual is approved for HHP and enrolled, they would be included in this measure. If they are not approved for enrollment in HHP, they would be reported in the following measure.
Number externally referred but excluded (Column J)	Enter the number of individuals not part of the plan's targeted engagement process, referred to the MCP, that were excluded. Exclusion reasons include reasons identified in columns C-H. Do not add these exclusions to the counts in Columns C-H.
Average monthly number of dedicated care coordination FTEs (Column K)	Enter the average monthly number of care coordinators for the quarter. Only count FTEs dedicated to care coordination activities. The counts are taken at a point in time, which will be the last day of each month in the quarter, and averaged across the 3 months in the quarter to get this average quarterly number.
2. Health Home Program Member Activity Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number initial HAP completed within 90 days (Column C)	Numerator: Enter the number of HHP members that had their initial HAP completed during the quarter and the HAP was completed within 90 days of enrollment.
Number initial HAP completed (Column D)	Denominator: Enter the number of HHP members that had their initial HAP completed during the quarter.

3. Health Home Program Homeless/Housing Member Level Detail	
Note: This tab is to be submitted semi-annually in the Q2 report and Q4 report of every year. The Q2 report (due 8/31) will include data for January through June of the current calendar year. The Q4 Report (due 2/28) will include data for July through December of the previous calendar year.	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for the county and plan code the plan operates in. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and semi-annual reporting period. For example, the second reporting period of 2019 will be entered as 2019 Q3-Q4.
Member CIN (Column C)	Enter the Member's Client Identification Number (CIN) for all members that meet Column G and/or Column I.
Member Last Name (Column D)	Enter the Member's Last Name.
Member First Name (Column E)	Enter the Member's First Name.
Member Date of Birth (DOB) (Column F)	Enter the Member's Date of Birth (DOB) using format MM/DD/YYYY.
Homeless HHP Members and HHP Members at Risk for Homelessness During This Reporting Period (Column G)	Indicate whether the HHP enrolled member met the Federal definition of Homeless or required tenancy sustaining services at any point during the reporting period. Enter "Yes" or "No."
Received Housing Services During This Reporting Period (Column H)	Indicate whether the HHP enrolled member received housing services at any point during the reporting period. Enter "Yes" or "No."
Homeless Health Homes Members In Any Enrollment Period (Column I)	Indicate whether the HHP enrolled member met the Federal definition of Homeless at any point during their enrollment in the HHP. Enter "Yes" or "No."

HHP Members who are no longer Homeless On Last Day of This Reporting Period (Column J)	Indicate the HHP enrolled member no longer meets the Federal definition of Homeless, as of the last day of the reporting period. If the member was disenrolled during the reporting period, report as of their last date of enrollment. Enter "Yes" or "No."
4. Health Home Program Network Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
CB-CME NPI # (Column C)	Enter all CB-CME NPI numbers that were contracted as of the last day of the quarter. Enter each CB-CME NPI number in each county on its own row. For example, if a MCP is contracted with a CB-CME that operates in two counties, there would be two rows for that NPI with each row having a different plan code & county. DHCS assumes that all lead CB-CMEs will have a NPI or be the MCP; if a CB-CME does not have an NPI #, please reach out to DHCS for further discussion. This is a measure of the prime contract with the MCP for care management duties, not engagement subcontractors or housing subcontractors.
Capacity for each CB-CME (Column D)	Enter the capacity for assigned HHP members for each CB-CME contracted in each county during the quarter. If a CB-CME operates in more than one county, separate the projected capacity for each county. Capacity is defined as the number of HHP members the CB-CME will be able to serve according to the HHP service requirements including the care manager ratio and the extent the CB-CME is able to satisfy all care team requirements. The count is taken at a point in time, which will be the last day of the quarter.
5. Health Home Program Annual CMS Core Measures Reporting	

DHCS is required to collect and report the Core Set of Health Care Quality Measures for Medicaid Health Homes Programs according to the Technical Specifications published by CMS. DHCS will continue to make the annual Technical Specification link available to the MCPs. MCPs are required to follow the technical specifications. DHCS will use the reporting template to collect measure information from the MCPs so that DHCS can perform the aggregation, weighting, and reporting required by the Technical Specifications. For additional information on the Core Measures, refer to the Technical Specifications and Resource Manual link from CMS. Approve the license agreements and download the Technical Specifications.

https://www.medicaid.gov/license-agreement.html?file=%2Fstate-resource-center%2Fmedicaid-state-technical-assistance%2Fhealth-home-information-resource-center%2Fdownloads%2FFFY-18-HH-Core-Set-Manual.pdf

Each MCP will determine its numerator, denominator, and/or rates for the required performance measure and report these results for each county. DHCS is required to report separately for each SPA, therefore, there are separate numerator, denominator, and rates columns for Chronic Conditions and SMI. The Technical Specifications measurement year and reporting year definitions are consistent with DHCS's other HEDIS oriented timelines. The Technical Specifications require reporting results when the SPA is in effect for six or more months of the measurement period. The fields in the template will be adjusted over time to align with the Technical Specifications if/when they change.

Note: **This tab is to be submitted annually in the Q1 report (due 5/31) of every year and include data on the previous calendar year of January through December.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year for the data reported: Year.
Controlling high blood pressure (CBP) (Med) age 18-59 w/HTN, BP < 140/90 - numerator (Column C)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (Med) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column D)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column E)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator

CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column F)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column G)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column H)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column I)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column J)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column K)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column L)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - numerator (Column M)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column N)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column O)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column P)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column Q)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column R)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column S)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column T)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column U)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator

CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column V)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CDF (MED) - Age 12-17 - numerator (Column W)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - numerator
CDF (MED) - Age 12-17 - denominator (Column X)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - denominator
CDF (MED) - Age 18-64 - numerator (Column Y)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - numerator
CDF (MED) - Age 18-64 - denominator (Column Z)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - denominator
CDF (MED) - Age 65+ - numerator (Column AA)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - numerator
CDF (MED) - Age 65+ - denominator (Column AB)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - denominator
CDF (SMI) - Age 12-17 - numerator (Column AC)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - numerator
CDF (SMI) - Age 12-17 - denominator (Column AD)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - denominator
CDF (SMI) - Age 18-64 - numerator (Column AE)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - numerator
CDF (SMI) - Age 18-64 - denominator (Column AF)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - denominator
CDF (SMI) - Age 65+ - numerator (Column AG)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - numerator
CDF (SMI) - Age 65+ - denominator (Column AH)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - denominator
6. Health Home Program Reporting Comments	
Column Name	**Explanation**
Comments (Column A)	Enter any relevant information pertaining to the submitted report and the data it contains.

I. Appendix I – HHP Implementation Schedule

HHP Implementation Schedule

The California Department of Health Care Services (DHCS) announced that the implementation of the state's Health Homes Program (HHP) begins July 1, 2018. The counties included in each group and the phased implementation schedule are outlined in the table below:

County Implementation Schedule

Groups	Counties	(Phase 1) Implementation date for members with eligible chronic physical conditions and substance use disorders	(Phase 2) Implementation date for members with eligible serious mental illness conditions
Group 1	• San Francisco	July 1, 2018	January 1, 2019
Group 2	• Riverside • San Bernardino	January 1, 2019	July 1, 2019
Group 3	• Alameda • Imperial • Kern • Los Angeles • Sacramento • San Diego • Santa Clara • Tulare	July 1, 2019	January 1, 2020
Group 4	• Orange	January 1, 2020	July 1, 2020

J. Appendix J – HHP Supplemental Payment File

Please refer to the DHCS' *Technical Guidance – Consolidated Supplemental Upload Process for further information.*

K. Appendix K – Whole Person Care Pilot Interaction Guidance

Joint Medi-Cal Managed Care Health Plan and Whole Person Care Pilot Guidance:

Eligibility and Provision of Services in the Health Homes Program and

Whole Person Care Pilots

This notification provides DHCS policy guidance regarding the eligibility, enrollment and the provision of services for Medi-Cal beneficiaries concurrently eligible for both the Health Homes Program (HHP) and a Whole Person Care (WPC) Pilot.

Medi-Cal managed care health plans (MCPs) implementing the HHP are responsible for providing the following six core HHP services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services. Program eligibility is based on meeting a set of chronic physical/Substance Use Disorder (SUD) or Severe Mental Illness (SMI) conditions as well as specified acuity criteria.

The overarching goal of the WPC Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots are administered at the local level where a county, a city and county, a health or hospital authority, or a consortium of any of the above can serve as the Lead Entity (LE). WPC eligibility is established by each Pilot.

DHCS' guidance is that Medi-Cal beneficiaries that are eligible to receive services from both the WPC Pilot program and the HHP can be enrolled in either program or both, based on beneficiary choice.

In most cases WPC pilots provide care coordination services that are similar to the care coordination services provided by the HHP program. If a Medi-Cal beneficiary is eligible for both WPC and HHP, the member may choose which program's care coordination services that want to receive. The member may not receive duplicative care coordination services from both WPC and HHP. If the beneficiary is receiving care coordination services through the HHP, it is the responsibility of the WPC pilot to ensure that a beneficiary does not receive duplicative care coordination services from WPC. The WPC pilot may not claim WPC reimbursement for care coordination services that are duplicative of HHP care coordination services that are provided during the same month.

If the beneficiary chooses to receive care coordination services through WPC and is also interested in participating in the HHP, the beneficiary will not be able to receive any HHP services due to HHP, by default, being a program that consists of a set of 6 care-coordination services that are offered as the core benefit of the program.

In most cases WPC pilots also provide other services that are not duplicative, or similar to, HHP care coordination services. A sobering center service is one example of a WPC service that is likely to not be duplicative of HHP services. If a member is eligible for both WPC and HHP, and the member chooses to receive care coordination services through the HHP, the member may still receive other WPC services (that are not duplicative of HHP services) through the WPC. The WPC pilot may claim reimbursement for these other services regardless of whether the beneficiary chooses to receive care coordination services through the WPC or the HHP.

Please see the following points regarding DHCS' expectations:

- All WPC LEs must ensure the non-duplication of services for their WPC-enrolled members.

- The LEs are required to check other program participation, including HHP, as a regular part of their assessments. DHCS recommends frequent communication between the LE and their local MCPs to ensure there is no duplication of services.

- The WPC "Certification of Lead Entity Reports" document has been revised to include an additional attestation stating that DHCS reserves the right to recoup payments made to LEs for services found to be duplicative.

- LEs are responsible for keeping auditable records, such as documentation of their in-person assessments of enrollee participation in other programs, which should address non-duplication of services.

- As always, DHCS reserves the right to perform an audit of LE data and MCP data.

ALL PLAN LETTER 18-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS PARTICIPATING IN THE HEALTH HOMES PROGRAM

SUBJECT: HEALTH HOMES PROGRAM REQUIREMENTS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance regarding the provision of Health Homes Program (HHP) services, and the development and operation of the HHP, to Medi-Cal managed care health plans (MCPs) implementing the HHP.

BACKGROUND:
The Medicaid Health Home State Plan Option is authorized under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the HealthCare and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health care services, behavioral health services, and community-based long term services and supports (LTSS) needed by members with chronic conditions.

In California, Welfare and Institutions Code (WIC) Sections 14127 through 14128 authorize the Department of Health Care Services (DHCS), subject to federal approval, to create the HHP for Medi-Cal members with chronic conditions who meet the eligibility criteria specified by DHCS.

POLICY:
Effective upon the HHP implementation date for each MCP implementing the HHP, the MCP is responsible for providing the following six core HHP services to eligible Medi-Cal members: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services.

The Medi-Cal Health Homes Program Guide (Program Guide) is available on the HHP webpage of the DHCS website.[1] The Program Guide outlines HHP policies, including member eligibility criteria, and contains DHCS' operational requirements and guidelines on HHP. DHCS may update the Program Guide to reflect the latest HHP requirements

[1] The HHP Program Guide can be found at: http://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx

Managed Care Quality and Monitoring Division
1501 Capitol Avenue, P.O. Box 997413, MS 4400
Sacramento, CA 95899-7413
Phone (916) 449-5000 Fax (916) 449-5005
www.dhcs.ca.gov

and guidelines. DHCS will notify MCPs whenever the Program Guide is updated, so that MCPs can obtain the latest information on HHP.

HHP MCPs must meet all program and reporting requirements specified in the Program Guide, all applicable state and federal laws and regulations, MCP contracts, and other DHCS guidance, including, but not limited to, APLs. Additionally, MCPs must communicate all HHP requirements to, and ensure the compliance of, their contracted HHP providers, including Community Based Care Management Entities, as well as any delegated entities and subcontractors.

MCPs are responsible for ensuring that all delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and Policy Letters.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

Nathan Nau, Chief

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 3, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

16. Consider Authorizing Contract with Vendor for Health Homes Program Select Services for Accompaniment and Housing Related Services

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Tracy Hitzeman, Executive Director, Clinical Operations, (714) 246-8400
Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Approve recommended vendor Illumination Foundation for HHP select services for accompaniment and housing related services;
2. Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel, to enter into an agreement with the recommended vendor, effective January 1, 2020; and
3. In the event CalOptima and Illumination Foundation are unable to reach agreeable contract terms within thirty (30) days, authorize the CEO, with the assistance of Legal Counsel, to enter into an agreement with the next qualified bidder, Maxim Healthcare Services, for HHP select services for accompaniment and housing related services.

Background

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option. The intent of HHP is to improve member outcomes and reduce health care costs. In California, Assembly Bill 361 (2013) authorizes implementation of the Health Home Program. HHP, which is an entitlement benefit, is being implemented in selected counties in a phased in implementation approach, with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. On June 7, 2018, the CalOptima Board of Directors (Board) authorized an amendment to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS) to incorporate implementation of the HHP. Implementation in Orange County is expected to be effective no sooner than January 1, 2020 for CalOptima Medi-Cal members with eligible chronic physical conditions and substance use disorders (SUD), and no sooner than July 1, 2020 for CalOptima Medi-Cal members with Serious Mental Illness (SMI).

To support development of HHP, Section 2703 of the ACA provides enhanced funding to states. Rather than the standard Medicaid funding (Federal 50%/State 50%), the Center for Medicare & Medicaid Services (CMS) will fund 90% for the first two years following implementation, effective for each phase. California Assembly Bill 361 requires budget neutrality and that no state general funds are used towards the program. As such, the California Endowment is funding the remaining 10% of funds for HHP. After the first two years, the funding returns to the standard Medicaid funding (Federal 50%/State 50%).

Pursuant to the DHCS Program Guide and All Plan Letter 18-012: Health Homes Program Requirements, MCPs will be responsible for overall administration, including development of HHP network. DHCS also published an HHP Program Guide that outlines the responsibilities of the MCPs

Back to Agenda

and Community-Based Care Management Entities (CB-CMEs). Per the DHCS requirements, HHP services are to be provided and coordinated through the network of CB-CMEs. In addition, CB-CMEs are responsible for coordinating care with members, providers and other agencies as appropriate. HHP Program Guide requires the following six core service categories for members enrolled in HHP:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Under HHP, members will be eligible for new services, including housing navigation, housing tenancy sustainability, and accompaniment to clinical appointments. CalOptima plans to contract with a vendor for these HHP select services.

Discussion

New HHP services include accompaniment to clinical appointments, housing transition services and tenancy sustaining services. Following CalOptima's standard RFP process in accordance with CalOptima Policy GA.5002: Purchasing, CalOptima staff conducted a Request For Proposal (RFP) processes to procure vendors for these new HHP select services beginning January 1, 2020. The new HHP select services are provided in-person and do not include direct medical care services. An HHP select services vendor is not required to be registered with the Medi-Cal program. Health networks, as CB-CMEs, will have the ability to contract with the selected vendor(s).

In response to the RFP, CalOptima received responses from:

- American Family Housing
- Illumination Foundation
- Maxim Healthcare Services

The submitted proposals were reviewed by an internal evaluation team consisting of representatives from Business Integration, Medical Affairs, Strategic Development, Network Management, Contracting, Vendor Management, Operations, Finance, Behavioral Health and Information Services.

The recommended vendor will provide the HHP select services in-person and participate in the member's care team meetings. The vendor is expected to capture, track, and report all services and coordinated efforts to CalOptima and care team members as appropriate. Additionally, the vendor will make the same HHP select services available to the health networks either through CalOptima's contract or a separate contract with the individual health network.

Vendor	Final Weighted Score
American Family Housing	11.00
Illumination Foundation	22.35
Maxim Healthcare Services	16.60

Back to Agenda

Based on the final weighed scores, staff recommends contracting with the Illumination Foundation for select HHP services.

Founded in 2008, Illumination Foundation is a 501 (c)(3) non-profit organization dedicated to the mission of providing targeted and interdisciplinary services. Illumination Foundation has experience working with similar populations as HHP eligible members. They believe that every person has an intrinsic right to home, health, and dignity. Their direct client care staff includes case managers, housing navigators, behavioral health therapists, substance use counselors, and a variety of healthcare workers (LVNS, RNs, nurse practitioners) who follow clients as they access emergency shelter, recuperative care, and housing related services with the overall goal to achieve longer-term health and housing outcomes. The agency has served more than 52,825 individuals since its inception.

Fiscal Impact

The anticipated implementation date for HHP in Orange County is January 1, 2020. Management has included projected revenues and expenses for HHP in the CalOptima Fiscal Year 2019-20 Operating Budget and will for future operating budgets. Total actual revenue and expenses for HHP will depend on the number of members that choose to participate in the program. Based on projected enrollment and draft rates received from DHCS on April 2, 2018, CalOptima is projected to receive $26.3 million in funding for HHP over a three-year period.

Since this is a new program for CalOptima, there is the possibility that the rate development assumptions applied by DHCS may be materially different from CalOptima's actual utilization and expenses. Staff will closely monitor both utilization and expenses and will continue to work with DHCS to ensure that Medi-Cal revenue will be sufficient to support the program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated implementation of Health Homes Program, effective January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and SUD, and July 1, 2020, for members with SMI.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorizing and Directing the Chairman of the Board of Directors to Execute an Amendment to the Primary Agreement with the California Department of Health Care Services (DHCS) Related to the Health Homes Program

Contact

Silver Ho, Executive Director, Compliance, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors (Board) to execute an Amendment to the Primary Agreement between DHCS and CalOptima related to incorporation of language related to the Health Homes Program (HHP).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

On October 2, 2017, DHCS submitted an amendment to the Centers for Medicare & Medicaid Services (CMS) for approval that will incorporate language regarding the Health Homes Program (HHP) into managed care plan (MCP) contracts, including CalOptima's.

The Medicaid Health Home State Plan Option, authorized under Section 2703 of the Patient Protection and Affordable Care Act (ACA), allowed states to create Medicaid health homes to provide supplemental services that coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Among other goals, the HHP was designed with particular attention paid to its ability to produce positive health outcomes for individuals experiencing homelessness. Specifically, the HHP provides six core services:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and

Back to Agenda

- Referral to community and social support services, including housing.

Effective July 1, 2019, CalOptima will begin providing HHP services to members with eligible chronic physical conditions and substance use disorder (SUD); effective January 1, 2020, CalOptima will begin providing HHP services for members with Severe Mental Illness (SMI).

Once CMS concludes its review of DHCS' proposed amendment, DHCS will provide the amendment to CalOptima for prompt signature and return. If the amendment is not consistent with staff's understanding as presented in this document or if it includes significant unexpected language changes, staff will return to the Board of Directors for consideration and/or ratification of staff action.

DHCS has advised that once the contract amendment and applicable APLs are finalized, it will require MCPs to submit readiness deliverables related to the amendment. DHCS' requested deliverables may include Policies and Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. To the extent that CalOptima staff must provide information to DHCS to meet certain deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Following is a general summary of the major changes to expected be addressed in the final contract amendment:

	Requirement
HHP Compliance	Implement the HHP, as directed by DHCS, and in accordance with all State and federal requirements related to HHP and DHCS APLs.
Provider Network	Maintain an adequate network of CB–CMEs to serve HHP members including providers with experience working with people who are chronically homeless. Establish contractual relationships with organizations to provide HHP services including individual housing transition services and individual housing and tenancy sustaining services. Amend the current MOU with the Orange County Health Care Agency to incorporate HHP requirements.
Provider Relations	Ensure that staff providing HHP services complete required training as determined by DHCS and participate in DHCS–operated learning collaboratives.
Eligibility and Enrollment	Enrollment in HHP based on HHP eligibility criteria, as defined by DHCS.

Back to Agenda

	Requirement
HHP Member Services	Includes CB–CME selection, and HHP–specific member information and provider directory requirements.
HHP Covered Services	Includes the provision and coordination of HHP services informed by evidence–based clinical practice guidelines.
Information Sharing	Develop and maintain a method to track and share HHP member information between CB–CMEs, CalOptima, and other providers, as warranted.
Quality Improvement System	Include HHP–specific elements in current Quality Improvement system processes and conduct oversight and regular auditing and monitoring of HHP care management requirements.
Payment	CalOptima shall receive an additional monthly payment for each HHP member who receives HHP services.
Required Reports for the HHP	Submission of reports for HHP in a form and manner specified by DHCS.

The final contract amendment is also expected to contain revisions to Plan rates related to the HHP. On April 2, 2018, DHCS provided draft rates applicable for the first two years of the program. Highlights regarding these rates includes the following:

- Updates to the wage inflation factor, existing care coordination (ECC), and partial dual adjustment.
- Build-up of the lower bound HHP services per-member-per-month (PMPM) for chronic conditions (CC) and SMI enrollees, highlights the salary and caseload assumptions by HHP staff member, along with tier mix assumptions and the provider overhead cost. Rates are displayed in six month increments for the first 30 months of the program.
- Build-up of the lower bound engagement period costs for each member on the Targeted Engagement List (TEL), wage and service time assumptions by HHP staff member, and the assumed average number of months of engagement required for each TEL member.
- Combines information from steps 1 and 2 outlined above to produce the statewide lower bound HHP PMPM for the CC only and SMI populations.
- Application of the county-specific wage index, rural area, and wage inflation factors to the statewide rates. Plan-specific existing ECC PMPM and Partial Dual carve–outs are applied to create lower bound non–full dual rates with lower bound full–dual rates created by carving out the ECC and CCM/BHI PMPMs.
- Blending of CC only and SMI rates based on projected HHP enrollment to produce SFY rates.

Fiscal Impact

The recommended action to execute an amendment to the primary agreement between DHCS and CalOptima to incorporate language regarding the HHP program carries significant financial risks. Based on DHCS' proposed rates, staff estimates that the total annual program costs for

HHP will be $12 million. Management has included projected expenses to implement the HHP program effective July 1, 2019, in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval and will include projected revenue and expenses for the HHP program in future operating budgets. Actual utilization associated with the HHP eligible population is still relatively unknown. Therefore, CalOptima will closely monitor program expenses and continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the HHP program.

Rationale for Recommendation

The addition of the HHP contract amendment to CalOptima's Primary Agreement with DHCS is necessary to ensure compliance with the requirements of participation in the Medi-Cal program.

APPENDIX TO AGENDA ITEM

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

Back to Agenda

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014

Back to Agenda

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

I. Introduction

The Medi-Cal Health Homes Program: Program Guide (Program Guide) is intended to be a resource for Medi-Cal Managed Care health plans (MCPs) in the development, implementation, and operation of the Health Homes Program (HHP). The Program Guide includes a brief synopsis of the HHP, identifies all HHP requirements, and identifies the documentation MCPs must submit to the Department of Health Care Services (DHCS) as part of the required HHP readiness review. The Program Guide refers to additional guidance documents, when applicable.

The Medicaid Health Home State Plan Option is afforded to states under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years.

In California, Assembly Bill 361 (AB 361) amended the Welfare and Institutions Code to add Sections 14127 and 14128 (W&I Code) which authorizes DHCS, subject to federal approval, to create an ACA Section 2703 HHP for members with chronic conditions. The W&I Code provides that the provisions will be implemented only if federal financial participation (FFP) is available and the program is cost neutral regarding State General Funds. It also requires DHCS to ensure that 1) an evaluation of the program is completed; and 2) a report is submitted to the appropriate policy and fiscal committees of the Legislature within two years after implementation of the program.

The Program Guide has five main sections (Infrastructure, Eligibility, Services, Network, and General Operations) and an appendix. Each section describes the program components and the requirements for those components.

The Program Guide contains the Health Homes Program: Medi-Cal Managed Care Plan Readiness Checklist (Readiness Checklist) in Appendix D. The Readiness Checklist identifies the specific components that MCPs are required to provide to DHCS and identifies the process DHCS will use to determine when the specific components are due to DHCS. The Program Guide provides additional guidance and context regarding HHP readiness requirements.

II. HHP Infrastructure

A. Organizational Model

DHCS' HHP implementation will utilize California's Medi-Cal Managed Care (Managed Care) infrastructure as the foundational building block. HHP services will be provided through the Managed Care delivery system to members enrolled in Managed Care. Managed Care serves approximately 85 percent of full scope Medi-Cal members and is an available choice for all full-scope Medi-Cal members statewide. The small percentage of Medi-Cal Fee-For-Service (FFS) members who meet HHP eligibility criteria may enroll in a Medi-Cal MCP to receive HHP services. HHP services will not be provided through the FFS delivery system.

The MCPs will leverage existing communication with their provider networks to facilitate the care planning, care coordination, and care transition coordination requirements of HHP, including assignment of each HHP member to a primary care provider. The MCPs' existing communication and reporting capabilities will be utilized to perform health promotion, encounter reporting, and quality of care reporting. MCPs also have existing relationships with the Medi-Cal county specialty mental health plans (MHPs) in each county to facilitate HHP care coordination.

The HHP will be structured as a health home network functioning as a team to provide care coordination. This network includes the MCP, one or more Community-Based Care Management Entities (CB-CMEs), and contractual or non-contractual relationships with other Community-Based Organizations (CBOs) to provide linkages to community and social support services, as needed (taken together as the HHP). The HHP network will be developed to meet the following goals:

- Ensure that sufficient HHP funds are available to support care management at the point of care in the community
- Ensure that providers with experience serving frequent utilizers of health services and individuals experiencing homelessness are available as needed
- Leverage existing county and community provider care management infrastructure and experience, where possible and appropriate
- Forge new relationships with community provider care management entities, where possible and appropriate
- Utilize community health workers in appropriate roles.

The HHP will serve as the central point for coordinating patient-centered care and will be accountable for:

- Improving member outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based Long Term Services and Supports (LTSS), oral health services, palliative care, and social support needs
- Reducing avoidable health care costs, including hospital admissions/readmissions, ED visits, and nursing facility stays

Improving member outcomes and reducing health care costs will be accomplished through the partnership between the MCP and the CB-CME, either through direct provision of HHP services,

or through contractual or non-contractual arrangements with appropriate entities that will be providing components of the HHP services and planning and coordination of other services.

1) Medi-Cal Managed Care Plan Responsibilities

HHP MCPs will be responsible for the overall administration of the HHP. They will have an HHP addendum to an existing contract with DHCS. Payment will flow from DHCS to the MCP and from the MCP to the CB-CMEs for the provision of HHP services. The MCP may also use HHP funding to pay providers, including but not limited to, the member's primary care physician, behavioral health providers, or other specialists, who are not included formally on the CB-CME's multi-disciplinary care team, for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the Health Action Plan (HAP). These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).

The MCP will have strong oversight and will perform regular auditing and monitoring activities to ensure that case conferences occur, the HAP is updated as health care events unfold, and all other HHP care management requirements are completed.

The MCP's care management department can be leveraged to train, support, and qualify CB-CMEs. (MCPs currently perform similar monitoring, training and auditing with MCP-delegated entities that have care management responsibilities under Cal MediConnect and other programs.)

MCP utilization departments will assist the CB-CMEs with information on admissions and discharges, and ensure timely follow-up care. MCP health care informatics analytics teams will provide meaningful, actionable data with identification of complex members and care gaps and other pertinent data that the health plan network can access. This will be provided to the CB-CMEs to assist with HAP care planning and ongoing goals for the member.

Many MCPs are exploring housing options to provide immediate housing post discharge and find permanent housing for members who are experiencing homelessness. Stakeholders include the health plan, hospitals, local housing authorities, and community-based organizations. Achieving stable housing for HHP members is a noted best practice from the national experience for achieving meaningful improvements in health and program cost effectiveness.

In counties selected for HHP implementation, Medi-Cal MCPs (Medicaid only benefit plans) are required to participate in HHP and serve as an HHP MCP. DHCS will work with these organizations to prepare for the implementation of HHP and to determine network adequacy and readiness.

2) Duties

MCPs will be expected to perform the following duties/responsibilities to the extent their information systems allow or through other available methods:

- Attribute assigned HHP members to CB-CMEs;
- Sub-contract with CB-CMEs for the provision of HHP services and ensure that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals;

- Notify the CB-CMEs of inpatient admissions and ED visits/discharges;
- Track and share data with CB-CMEs regarding each member's health history;
- Track CMS-required quality measures and state-specific measures (see *Reporting Template* and *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2017 Reporting,* or later *document*);
- Collect, analyze, and report financial measures, health status and other measures and outcome data to be reported during the State's evaluation process (see *Reporting Template*)
- Provide member resources (e.g. customer service, member grievances) relating to HHP
- Add functionality to the MCP's customer service line and 24/7 nurse line or other available call line so that members' HHP needs are also addressed (e.g. equip nurse line with educational materials to train them about HHP, nurse line receives the updated list of HHP members and their assigned care coordinator, etc.)
- Receive payment from DHCS and disperse funds to CB-CMEs through collection and submission of claims/encounters by the CB-CME and per the contractual agreement made between the MCP and the CB-CME
- Establish and maintain a data-sharing agreement with other providers, with whom MCP shares HHP member health information, that is compliant with all federal and state laws and regulations
- Ensure access to timely services for HHP members, including seeing HHP members after discharge from an acute care stay.
- Encourage participation by HHP members' MCP contracted providers who are not included formally on the CB-CME's multi-disciplinary care team, but who are responsible for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the HAP. These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).
- Develop CB-CME training tools as needed or preferred, in addition to DHCS-provided training
- Develop CB-CME reporting capabilities
- Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

3) Community Based Care Management Entity Responsibilities

CB-CMEs will serve as the frontline provider of HHP services and will be rooted in the community. MCPs will certify and select organizations to serve as CB-CMEs through a process similar to current MCP provider certification and will contract with selected entities. DHCS will not require MCP use of a standardized assessment tool. DHCS will provide general guidelines

and requirements, including examples of best practice tools that the MCP can use at their option to select, qualify, and contract with CB-CMEs.

The MCP's development of a network of CB-CMEs should seek to promote HHP goals, with particular attention to the following goals:

- Ensuring that care management delivery and sufficient HHP funding are provided at the point of care in the community;
- Ensuring that providers with experience serving frequent utilizers of health services, and those experiencing homelessness, are available as needed per AB 361 requirements;
- Leveraging existing county and community provider care management infrastructure and experience, where possible and appropriate; and
- OPTIONAL - Utilizing community health workers in appropriate roles (for more information, see Multi-Disciplinary Care Team below).

CB-CMEs are intended to serve as the single community-based entity with responsibility, in conjunction with the MCP, for ensuring that an assigned HHP member receives access to HHP services. It is also the intent of the HHP to provide flexibility in how the CB-CMEs are organized. CB-CMEs may subcontract with other entities or individuals to perform some CB-CME duties. Regardless of subcontracting arrangements, CB-CMEs retain overall responsibility for all CB-CME duties that the CB-CME has agreed to perform for the MCP, either through direct CB-CME service or service the CB-CME has subcontracted to another provider. DHCS encourages MCPs and CB-CMEs to utilize this flexibility, where needed, to achieve HHP goals, and in particular the four network goals noted above.

In most cases, the CB-CME will be a community primary care provider (PCP) that serves a high volume of HHP eligible members. If the CB-CME is not the member's MCP-assigned PCP, then the MCP and the CB-CME must demonstrate how the CB-CME will maintain a strong and direct connection to the PCP and ensure the PCP's participation in HAP development and ongoing coordination. For all members, and in all areas, the MCP must demonstrate that it is maximizing the four network goals noted above to the full extent possible through its network development and HHP policies. Regardless of how HHP networks are structured by a MCP within a county, it is expected that all HHP members will receive access to the same level of service, in accordance with the service tier that is appropriate for their needs and HHP service requirements.

DHCS' readiness review will include a detailed review of the MCP's HHP network. In situations in which the MCP can demonstrate that there are insufficient entities rooted in the community that are capable or willing to provide the full range of CB-CME duties, the MCP may perform needed CB-CME duties to fill a demonstrated service gap. As an alternative, the MCP may subcontract with other entities to perform these duties. In addition, the MCP may provide, or subcontract with another community-based entity to provide, specific CB-CME duties to assist a CB-CME to provide the full range of CB-CME duties when this MCP assistance is the best organizational arrangement to promote HHP goals. If the MCP utilizes this flexibility, the MCP must demonstrate to DHCS that it is maximizing the four network goals noted above to the

extent possible, and how it will maintain a strong and direct connection between HHP services and the primary care provider.

The MCP may allow an individual community provider to become a CB-CME after the implementation date of the HHP in their county if the community provider requires additional time to develop readiness to take on some, or all, of the CB-CME duties. The MCP may also allow a CB-CME to expand the range of the CB-CME's contracted CB-CME duties over time as readiness allows.

CB-CMEs that MCPs contract with to deliver HHP care coordination services are not required to be enrolled as Medi-Cal providers, so long as the entities in question are not providing medical and/or clinical services in their function as an HHP CB-CME to Medi-Cal members participating in the Program.

4) Community-Based Care Management Models

The main goal of the HHP is Comprehensive Care Management. The MCP, acting as administrator and providing oversight, will build an HHP network in which a member can choose the CB-CME they want for their care coordination. Given specific challenges in certain areas, including the shortage of primary care and specialist providers, technology infrastructure/adoption, and the large Medi-Cal population, a single model is not practical. Assessments of potential HHP providers, and MCP knowledge of available resources in their areas, will form the basis for determining whether the provider's HHP-eligible members are best served by Model I, II, or III below.

The three community-based care management models below are acceptable for MCP network development and address the realities that exist in various areas of the state regarding available providers. The three models will allow the flexibility to ensure service to all HHP members throughout the diverse geographic regions in California, regardless of location and type of provider empanelment. Further, all three will allow increased care coordination to occur as close to the point of care delivery as possible in the community.

Model I

The first and ideal model embeds care coordinators on-site in community provider offices, acting as CB-CMEs. The expectation is that the community provider will employ these staff, but in some cases they may be employed by the MCP. This model will serve the great majority of HHP members because most HHP eligible individuals are served by high-volume providers in urban areas. The MCP will complete a provider assessment to determine 1) the extent to which the community provider will need to recruit and hire additional staff to meet the HHP care coordinator resource requirements, and 2) what CB-CME duties the community provider can, and is willing to, perform. The HHP will only utilize Model II or III where the provider assessment indicates that Model I is not viable.

Model II

The second model addresses the smaller subset of eligible members who are served by low-volume providers, in either rural or urban areas, who do not wish to, or cannot, take on the responsibility of hiring and housing care coordinators on site. For this model, the care management would be handled by another community-based entity or a staff member within

the existing MCP care management department, which will act as the CB-CME. This model will handle HHP members who are not assigned to a county clinic or medical practice under Model I.

Model III

The third model serves the few members who live in rural areas and are served by low-volume providers. In this hybrid model, care coordinators located in regional offices, utilizing technology and other monitoring and communication methods, such as visiting the member at their location, will become CB-CMEs who can be geographically close to rural members and/or those members who are assigned to a solo practitioner who may not have enough membership to meet Model I or II.

B. Staffing

1) Care Coordinator Ratio

The aggregate minimum care coordinator ratio requirement is 60:1 for the whole enrolled population (in each of the MCPs' counties if the MCP has more than one county) as measured at any point in time.

To develop the aggregate population care coordinator ratio requirement, DHCS assumed that (after two years):

- *Tier 1 – 20% of population; care coordinator ratio of 10:1*
- *Tier 2 – 30% of population; care coordinator ratio of 75:1*
- *Tier 3 – 50% of population; care coordinator ratio of 200:1*

2) Multi-Disciplinary Care Team

The multi-disciplinary care team consists of staff employed by the CB-CME that provides HHP funded services. DHCS requires the team members listed in Table 1 below to participate on all multi-disciplinary care teams. The team will primarily be located at the CB-CME organization, except as noted above regarding model flexibility. The MCP may organize its provider network for HHP services according to provider availability, capacity, and network efficiency, while maximizing the stated HHP goals and HHP network goals. This MCP network flexibility includes centralizing certain roles that could be utilized across multiple CB-CMEs – and particularly low-volume CB-CMEs – for efficiency, such as the director and clinical consultant roles. An HHP goal is to provide HHP services where members seek care. Staffing and the day-to-day care coordination should occur in the community and in accordance with the member's preference.

In addition to required CB-CME team members, the MCP may choose to also make HHP-funded payments to providers that are not explicitly part of the CB-CME team, but who serve as the HHP member's physical and/or behavioral health service providers, for participation in case conferences and information sharing in order to support the development and maintenance of the HHP member's HAP. As an example, an MCP could use HHP care coordination funding to pay a member's specialist provider, who is not a contracted member of the CB-CME Multi-Disciplinary Care Team, for the time they spend participating in a case conference with the HHP care coordinator for the purpose of completing the member's HAP. The MCP may make such payments directly to the providers or through their CB-CME.

Table 1: Multi-Disciplinary Care Team Qualifications and Roles

Required Team Members	Qualifications	Role
Dedicated Care Coordinator (CB-CME or by contract)	Paraprofessional (with appropriate training) or licensed care coordinator, social worker, or nurse	• Oversee provision of HHP services and implementation of HAP • Offer services where the HHP member lives, seeks care, or finds most easily accessible and within MCP guidelines • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Work with hospital staff on discharge plan • Engage eligible HHP members • Accompany HHP member to office visits, as needed and according to MCP guidelines • Monitor treatment adherence (including medication) • Provide health promotion and self-management training • Arrange transportation • Call HHP member to facilitate HHP member visit with the HHP care coordinator
HHP Director (CB-CME)	Ability to manage multi-disciplinary care teams	• Have overall responsibility for management and operations of the team • Have responsibility for quality measures and reporting for the team
Clinical Consultant (CB-CME or MCP)	Clinician consultant(s), who may be primary care physician, specialist physician, psychiatrist, psychologist, pharmacist, registered nurse, advanced practice nurse, nutritionist, licensed clinical social worker, or other behavioral health care professional	• Review and inform HAP • Act as clinical resource for care coordinator, as needed • Facilitate access to primary care and behavioral health providers, as needed to assist care coordinator

Required Team Members	Qualifications	Role
Community Health Workers (CB-CME or by contract) (Recommended but not required)	Paraprofessional or peer advocate Administrative support to care coordinator	• Engage eligible HHP members • Accompany HHP member to office visits, as needed, and in the most easily accessible setting, within MCP guidelines • Health promotion and self-management training • Arrange transportation • Assist with linkage to social supports • Distribute health promotion materials • Call HHP member to facilitate HHP visit with care coordinator • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Monitor treatment adherence (including medication)
For HHP Members Experiencing Homelessness: Housing Navigator (CB-CME or by contract)	Paraprofessional or other qualification based on experience and knowledge of the population and processes	• Form and foster relationships with housing agencies and permanent housing providers, including supportive housing providers • Partner with housing agencies and providers to offer the HHP member permanent, independent housing options, including supportive housing • Connect and assist the HHP member to get available permanent housing • Coordinate with HHP member in the most easily accessible setting, within MCP guidelines (e.g. could be a mobile unit that engages members on the street)

Additional team members, such as a pharmacist or nutritionist, may be included on the multi-disciplinary care team in order to meet the HHP member's individual care coordination needs. HAP planning and coordination will require participation of other providers who may not be part of the CB-CME multi-disciplinary care team. It is the responsibility of the MCP to ensure their cooperation.

C. Health Information Technology/Data

Health Information Technology (HIT)/Health Information Exchange (HIE) are important components of information sharing in the HHP.

MCPs should consider the following potential uses of HIT/HIE (developed by CMS) in the development of HHP information sharing policies and procedures for MCPs, CB-CMEs, and members:

1) Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management –standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement.
2) Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information.
   - Telehealth services including remote patient monitoring.
3) Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.
4) Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.
5) Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence).
   - Ability to electronically refer patients to necessary services.

Organizations that are covered by the Meaningful Use requirements should utilize EHR/HIT/HIE to meet the applicable goals noted above, where possible. Organizations that are not covered by Meaningful Use may need a Medi-Cal MCP to support the achievement of applicable goals where possible. In some areas relatively few providers have EHRs; there is limited interoperability between the systems; and, where there is an HIE in the area, the configuration may not be designed for the HHP requirements. If the technology environment does not fully support the EHR/HIT/HIE activities noted above in some geographic areas, or with certain providers, the MCP will determine procedures to share information that is critical for HHP services through other methods.

III. HHP Member Eligibility

A. Target Population

The HHP is intended to be an intensive set of services for a small subset of Medi-Cal members who require coordination at the highest levels. DHCS worked with a technical expert workgroup to design eligibility criteria that identify the highest-risk three to five percent of the Medi-Cal population who present the best opportunity for improved health outcomes through HHP services. These criteria include both 1) a select group of International Classification of Diseases (ICD)-9/ICD-10 codes for each eligible chronic condition, and 2) a required high level of acuity/complexity.

B. HHP Eligibility Criteria and the Targeted Engagement List

Using administrative data, DHCS will develop a Targeted Engagement List (TEL) of Medi-Cal MCP members who are eligible for the HHP based on the DHCS-developed eligibility criteria noted below. The TEL will be refreshed every six months using the most recent available data. The MCP will actively attempt to engage the members on the TEL. (See Member Assignment, for more information on MCP activity to engage eligible members.)

To be eligible for the HHP, a member must be full-scope, have no share of costs, and meet the following eligibility criteria. See Appendix B for *Targeted Engagement List data specification document* and specific ICD 10 codes that define these eligible conditions:

Eligibility Requirement	Criteria Details
1. Chronic condition criteria	Has a chronic condition in <u>at least one</u> of the following categories: • **At least two of the following**: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic liver disease, chronic renal (kidney) disease, dementia, substance use disorders; OR • **Hypertension and one of the following:** chronic obstructive pulmonary disease, diabetes, coronary artery disease, chronic or congestive heart failure; OR • **One of the following:** major depression disorders, bipolar disorder, psychotic disorders (including schizophrenia); OR • **Asthma**
2. Meets at least 1 acuity/complexity criteria	• Has at least 3 or more of the HHP eligible chronic conditions; OR • At least one inpatient hospital stay in the last year; OR • Three or more emergency department visits in the last year; OR • Chronic homelessness.

The TEL may include other criteria that are intended to ensure that HHP resources are targeted to Medi-Cal members who present the best opportunity for improved health outcomes through HHP services. The DHCS TEL is intended to be used by MCPs as a list of people who are likely to be eligible for the program based on the data available to DHCS; it is not, on its own, a comprehensive eligibility list.

Acuity Eligibility Criteria

Eligibility for HHP requires that members have the specified conditions and at least one of the four acuity criteria listed above. MCPs must have a process to verify eligibility as part of the enrollment process. MCPs can do this through reviews of the MCPs data and/or through other methods including discussion/assessment with the member or the member's providers. This additional verification is not only to confirm that the member meets eligibility, but also that they do not have exclusionary criteria such as enrollment in another duplicative care management program or being "well managed." For example, a member's qualifying utilization may have been for something unrelated to management of a chronic condition, such as maternity.

MCPs should make a preliminary eligibility determination based on their data prior to proceeding with proactive outreach and engagement. MCPs may rely on the TEL to verify that the member meets the eligibility criteria for having the eligible chronic conditions and the acuity criteria relating to having three or more of the eligible chronic conditions; however, the MCP should verify utilization acuity criteria (within 12 months) using the MCP's own data.

MCPs are required to review their own data for members who are on the TEL and should not proactively outreach members whose qualifying utilization is: 1) only found in the oldest four months of the TEL look-back period; and 2) unrelated to the HHP chronic conditions. MCPs may also apply their own additional prioritization policies upon approval from DHCS.

At the point in time when the MCP makes this data-driven preliminary eligibility determination, the member will be considered eligible for the program regardless of how long it takes the member to agree to enroll. The member may be enrolled for at least one month to complete the member assessment and care plan process. If additional information is determined during the assessment/care plan process that negates prior eligibility data or confirms an exclusionary criteria, then the member will be disenrolled.

Homeless Eligibility Criteria

Chronic homelessness for HHP is defined in W&I Code section 14127(e), and states *"a chronically homeless individual means a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more, or had at least four episodes of homelessness in the past three years. For purposes of this article, an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing, as defined in Section 50675.14 of the Health and Safety Code, for less than two years shall be considered a chronically homeless individual if the individual was chronically homeless prior to his or her*

residence." For the purpose of verifying HHP acuity eligibility criteria, the portion of this definition which states "with a condition limiting his or her activities of daily living" is satisfied by verification that the member has one of the HHP-eligible conditions. No further assessment of activities of daily living limitation is required to establish that the member meets the portion of this eligibility acuity criterion underlined above. In addition, a member meets the HHP chronically homeless acuity eligibility criteria if the member meets either the W&I Code section 14127(e) definition or the Housing and Urban Development (HUD) definition.

People Excluded from Targeted Engagement List

The following exclusions will be applied either through MCP data analysis for individual members or through assessment information gathered by the Community-Based Care Management Entity (CB-CME) (see *Reporting Template-Instructions* for additional information):

- Members determined through further assessment to be sufficiently well managed through self-management or through another program, or the member is otherwise determined to not fit the high-risk eligibility criteria
- Members whose condition management cannot be improved because the member is uncooperative
- Members whose behavior or environment is unsafe for CB-CME staff
- Members determined to be more appropriate for an alternate care management program

IV. Health Home Program Services

This section describes the six HHP services. HHP arranges for and coordinates interventions that address the medical, social, behavioral health, functional impairment, cultural and environmental factors affecting health and health care choices available to HHP members.

All HHP engagement and services can be provided to members and family/support persons through e-mails, texts, social media, phone calls, letters, mailings, community outreach, and, to the extent and whenever possible, in-person meetings where the member lives, seeks care, or is accessible. Communication and information must meet health literacy standards and trauma-informed care standards and be culturally appropriate.

A. Comprehensive Care Management

Comprehensive care management involves activities related to engaging members to participate in the HHP and collaborating with HHP members and their family/support persons to develop their comprehensive, individualized, person-centered care plan, called a Health Action Plan (HAP). The HAP incorporates the member's needs in the areas of physical health, mental health, SUD, community-based LTSS, oral health, palliative care, trauma-informed care, social supports, and, as appropriate for individuals experiencing homelessness, housing. The HAP is based on the needs and desires of the member and will be reassessed based on the member's progress or changes in their needs. It will also track referrals. The HAP must be completed within 90 days of HHP enrollment.

Comprehensive care management may include case conferences to ensure that the member's care is continuous and integrated among all service providers.

Comprehensive care management services include, but are not limited to:

- Engaging the member in HHP and in their own care
- Assessing the HHP member's readiness for self-management using screenings and assessments with standardized tools
- Promoting the member's self-management skills to increase their ability to engage with health and service providers
- Supporting the achievement of the member's self-directed, individualized health goals to improve their functional or health status, or prevent or slow functional declines
- Completing a comprehensive health risk assessment to identify the member's needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services
- Developing a member's HAP and revising it as appropriate
- Reassessing a member's health status, needs and goals
- Coordinating and collaborating with all involved parties to promote continuity and consistency of care
- Clarifying roles and responsibilities of the multi-disciplinary team, providers, member and family/support persons

1) Care Management Assessment Tools

To the extent possible and reasonable, DHCS will align new requirements for care management methods and tools with those currently used by MCPs for care coordination. MCPs have extensive experience administering Health Risk Assessments and developing care plans.

MCPs may use current Cal MediConnect or Seniors and Persons with Disabilities (SPD) care management tools, such as the Health Risk Assessment and Individualized Care Plan, as a base for developing health assessments and completing the HAP for HHP members. For the implementation of HHP, any assessment or planning elements that are required in the HHP and are not already included in an existing tool and/or process must be added to the existing MCP assessment and planning tools. Such elements could include an assessment of social determinants of health, including an indicator of housing instability, a need for palliative care, and trauma-informed care needs.

The HAP is defined as the Individualized Care Plan with the inclusion of any elements specific to HHP. When a member begins receiving HHP services, the member will receive a comprehensive assessment and a HAP will be created. The HAP will be reassessed at regular intervals and when changes occur in the member's progress or status and health care needs.

The assessments must be available to the primary care physicians, mental health service providers, substance use disorder services providers, and the care coordinators for all HHP members. In conjunction with the primary care physician, other multi-disciplinary care team members, and any necessary ancillary entities such as county agencies or volunteer support entities, the care coordinator will work with the HHP member and their family/support persons to develop a HAP.

2) Duties

MCPs in partnership with CB-CMES must be able to carry out the following comprehensive care management services:

Member Engagement and Support

a. MCPs must ensure that CB-CMEs accomplish the following:
    1) Engage the member in the HHP and their own care
    2) Assess the HHP member's readiness for self-management using standardized screenings and assessments with standardized tools
    3) Track and promote the member's self-management skills to increase their ability to engage with health and service providers
    4) Support the achievement of the member's self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines

Member Assessment

a. MCPs/CB-CMEs must have a process for assessing and reassessing the member to identify their needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services. The process should identify:
    1) How their tools align with current tools used for the defined population and avoid unnecessary duplication of assessment?
    2) How trauma-informed care best practices will be utilized?
    3) Whether the assessment process and HAP are standard across the CB-CMEs or whether variations exist.
b. MCPs/CB-CMEs must have a process and tools for developing the member's HAP and revising, as appropriate
c. MCPs/CB-CMEs must develop and use the HAP and screening and assessment tools, and develop processes for:
    1) How the HAP is shared with other providers and if it can be shared electronically; and
    2) How the HAP will track referrals and follow ups.

Coordination

a. MCPs/CB-CMEs must have a process for integrating community social supports, long term support services, mental health, substance use disorder services, palliative care, trauma-informed care, oral health, and housing services into a member's HAP
b. MCP must ensure that the CB-CMEs:
    1) Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and
    2) Clarify roles and responsibilities of the multi-disciplinary team, providers, HHP member, and family/support persons.
c. MCPs must have policies and procedures to ensure that members are not receiving the same services from another state care management program (see non-duplication of care coordination services for more information).

B. Care Coordination

Care coordination includes services to implement the HHP member's HAP. Care coordination services begin once the HAP is completed. HHP care coordination services will integrate with current MCP care coordination activities, but will require a higher level of service than current

MCP requirements. Care coordination may include case conferences in order to ensure that the member's care is continuous and integrated among all service providers. All program staff who provide HHP services are required to complete CB-CME/care coordinator training as discussed in Appendix C.

Care coordination services address the implementation of the HAP and ongoing care coordination and include, but are not limited to:

1) Member Support

- Working with the member to implement their HAP
- Assisting the member in navigating health, behavioral health, and social services systems, including housing
- Sharing options with the member for accessing care and providing information to the member regarding care planning
- Identifying barriers to the member's treatment and medication management adherence
- Monitoring and supporting treatment adherence (including medication management and reconciliation)
- Assisting in attainment of the member's goals as described in the HAP
- Encouraging the member's decision making and continued participation in HHP
- Accompanying members to appointments as needed

2) Coordination

- Monitoring referrals, coordination, and follow ups to ensure needed services and supports are offered and accessed
- Sharing information with all involved parties to monitor the member's conditions, health status, care planning, medications usages and side effects
- Creating and promoting linkages to other services and supports
- Helping facilitate communication and understanding between HHP members and healthcare providers

MCPs in partnership with CB-CMEs must develop, and ensure the implementation of, policies and procedures to support CB-CME coordination efforts to:

a. Maintain frequent, in-person contact between the member and the care coordinator when delivering HHP services. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled members per quarter. DHCS used the following assumptions to develop the aggregate population visit requirement listed above:
    i. After two years, the population equals: 20% in tier 1, 30% in tier 2, 50% in tier 3
    ii. Tier 1 – two in-person visits per month
    iii. Tier 2 – 1 in-person visit per month
    iv. Tier 3 – 1 in-person visit per quarter
b. Ensure members see their PCP within 60 days of enrollment in HHP. This is a recommended best practice only – not service requirement.
c. Ensure availability of support staff to complement the work of the Care Coordinator.
d. Ensure availability of providers with experience working with people who are chronically homeless.
e. Support screening, referral and co-management of individuals with both behavioral health and physical health conditions.

f. Link eligible individuals who are homeless or experiencing housing instability to permanent housing, such as supportive housing.
g. Maintain an appointment reminder system for members. This is a recommended best practice only – not a service requirement.
h. Identify and take action to address member gaps in care through:
    i. Assessment of existing data sources for evidence of care appropriate to the member's age and underlying chronic conditions
    ii. Evaluation of member perception of gaps in care
    iii. Documentation of gaps in care in the member case file
    iv. Documentation of interventions in HAP and progress notes
    v. Findings from the member's response to interventions
    vi. Documentation of discussions of members care goals
    vii. Documentation of follow-up actions, and the person or organization responsible for follow-up

C. Health Promotion

Health promotion includes services to encourage and support HHP members to make lifestyle choices based on healthy behavior, with the goal of motivating members to successfully monitor and manage their health. Members will develop skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

Health promotion services include, but are not limited to:

- Encouraging and supporting health education for the member and family/support persons
- Assessing the member's and family/support persons' understanding of the member's health condition and motivation to engage in self-management
- Coaching members and family/support persons about chronic conditions and ways to manage health conditions based on the member's preferences
- Linking the member to resources for: smoking cessation; management of member chronic conditions; self-help recovery resources; and other services based on member needs and preferences
- Using evidence-based practices, such as motivational interviewing, to engage and help the member participate in and manage their care

D. Comprehensive Transitional Care

Comprehensive transitional care includes services to facilitate HHP members' transitions from and among treatment facilities, including admissions and discharges. In addition, comprehensive transitional care reduces avoidable HHP member admissions and readmissions. Agreements and processes to ensure prompt notification to the member's care coordinator and tracking of member's admission or discharge to/from an ED, hospital inpatient facility, residential/treatment facility, incarceration facility, or other treatment center are required. Additionally, MCPs or CB-CMEs must provide information to hospital discharge planners about HHP.

Comprehensive transitional care services include, but are not limited to:

- Providing medication information and reconciliation
- Planning timely scheduling of follow-up appointments with recommended outpatient providers and/or community partners
- Collaborating, communicating, and coordinating with all involved parties
- Easing the member's transition by addressing their understanding of rehabilitation activities, self-management activities, and medication management
- Planning appropriate care and/or place to stay post-discharge, including temporary housing or stable housing and social services
- Arranging transportation for transitional care, including to medical appointments, as per NMT and NEMT policy and procedures
- Developing and facilitating the member's transition plan
- Preventing and tracking avoidable admissions and readmissions
- Evaluating the need to revise the member's HAP
- Providing transition support to permanent housing

E. Individual and Family Support Services

Individual and family support services include activities that ensure that the HHP member and family/support persons are knowledgeable about the member's conditions with the overall goal of improving their adherence to treatment and medication management. Individual and family support services also involve identifying supports needed for the member and family/support persons to manage the member's condition and assisting them to access these support services.

Individual and family support services may include, but are not limited to:

- Assessing the strengths and needs of the member and family/support persons
- Linking the member and family/support persons to peer supports and/or support groups to educate, motivate and improve self-management
- Connecting the member to self-care programs to help increase their understanding of their conditions and care plan
- Promoting engagement of the member and family/support persons in self-management and decision making
- Determining when member and family/support persons are ready to receive and act upon information provided and assist them with making informed choices
- Advocating for the member and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals
- Accompanying the member to clinical appointments, when necessary
- Identifying barriers to improving the member's adherence to treatment and medication management
- Evaluating family/support persons' needs for services

F. Referral to Community and Social Supports

Referral to community and social support services involves determining appropriate services to meet the needs of HHP members, identifying and referring members to available community resources, and following up with the members.

Community and social support referral services may include, but are not limited to:

- Identifying the member's community and social support needs
- Identifying resources and eligibility criteria for housing, food security and nutrition, employment counseling, child care, community-based LTSS, school and faith-based services, and disability services, as needed and desired by the member
- Providing member with information on relevant resources, based on the member's needs and interests.
- Actively engaging appropriate referrals to the needed resources, access to care, and engagement with other community and social supports
- Following up with the member to ensure needed services are obtained
- Coordinating services and follow-up post engagement
- Checking in with the members routinely through in-person or telephonic contacts to ensure they are accessing the social services they require
- Providing Individual Housing Transition Services, including services that support an individual's ability to prepare for and transition to housing
- Providing Individual Housing and Tenancy Sustaining Services, including services that support the individual in being a successful tenant in their housing arrangement and thus able to sustain tenancy

V. Health Homes Program Network

A. MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities:

a. Develop and implement criteria for network sufficiency determination, including county-wideness and number of projected members
b. Develop an adequate network of Community-Based Care Management Entities (CB-CMEs) in each of the MCP's implemented counties for HHP to serve enrolled members
c. Design and implement a process for determining the qualifications of organizations to meet CB-CME standards and for providing support for CB-CMEs, including:
    1. Identify organizations who meet the CB-CME standards
    2. Provide the infrastructure and tools necessary to support CB-CMEs in care coordination
    3. Gather and share HHP member-level information regarding health care utilization, gaps in care and medications
    4. Provide outcome tools and measurement protocols to assess CB-CME effectiveness
d. Integrate community entities focused on services to individuals experiencing homelessness into the care model and, if applicable, the multi-disciplinary care team; meet the State legislation requirement to ensure availability of providers with experience working with individuals who are chronically homeless.

e. Engage with community and social support services by building new, or enhance existing, relationships with programs, services, and support organizations to provide care to members, including but not limited to:
    1. County specialty mental health plans;
    2. Housing agencies and permanent housing providers; and
    3. Individual Housing and Tenancy Sustaining Services.
f. Contract with CB-CMEs for the provision of HHP services, including outlining the MCP and CB-CME roles and responsibilities, and ensuring that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals, including the network development goals.
g. Have methods to ensure compliance with HHP requirements throughout the network, including portions of the network contracted through delegated entities.
h. Ensure the development of a communication and feedback strategy for all members of the HHP care team, including the member and their family/support persons, to ensure information sharing occurs. Encourage all of the HHP member's providers who supply input to the HAP and coordinate with the CB-CME care coordinator to conduct case conferences, including with those whom may not be formally included on the CB-CME's multi-disciplinary care team.
    1. If the CB-CME is not the member's MCP-assigned PCP, the MCP must have policies and procedures for ensuring: the MCP/CB-CME maintains a strong and direct connection to the PCP and PCP's participate in HAP development and ongoing coordination.
i. Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

1) Administration

a. Attribute assigned HHP members to CB-CMEs, providing for increased care coordination as close to the member's usual point of care delivery as possible in the community. HHP members must be notified of their CB-CME options.
b. Receive payment from DHCS and disperse funds to CB-CMEs. Have policies and procedures regarding:
    1. The process for how an MCP determines that the appropriate level of services are provided and documented by CB-CMEs in accordance with the contract and service requirements; and
    2. The process/structure/tiering (if used) for payments to CB-CMEs.

2) Data Sharing and Reporting

a. Develop reporting capabilities and methodologies
b. Establish and maintain data-sharing agreements that are compliant with all federal and state laws and regulations, and when necessary, with other providers
c. Notify CB-CMEs of inpatient admissions and emergency department (ED) visits/discharges
d. Track and share data with CB-CMEs regarding each member's health history
e. Establish procedures for hospitals participating under the Medicaid State Plan or a waiver of such plan for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated HHP providers. However, HHP primarily uses the TEL to identify and refer members to HHP.

3) Training and Education

a. Develop and offer learning activities that will support CB-CMEs in effective delivery of HHP services
b. Develop CB-CME training tools, as needed, to supplement DHCS-developed tools.
c. Ensure participation of the CB-CME and MCP staff delivering HHP Services in DHCS-required CB-CME and care coordinator training and learning collaboratives.

B. CB-CME Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with W&I Code HHP requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed. If in-person communication is not possible in certain situations, alternative communication methods such as tele-health or telephonic contacts may also be utilized, if culturally appropriate and accessible for the HHP member, to enhance access to services for HHP members and families where geographic or other barriers exist and according to member choice;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by the MCP, according to the CB-CME contract with the MCP;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and MCP and other providers involved in the HHP member's care.

C. CB-CME Certification

Organizations must be one of the following types of organizations and be able to meet the qualifications above and perform the duties below to be authorized to serve as a CB-CME:

- Behavioral health entity
- Community mental health center
- Community health center
- Federally qualified health center
- Rural health center
- Indian health clinic
- Indian health center
- Hospital or hospital-based physician group or clinic
- Local health department
- Primary care or specialist physician or physician group

- SUD treatment provider
- Provider serving individuals experiencing homelessness
- Other entities that meet certification and qualifications of a CB-CME, if selected and certified by the MCP

D. CB-CME General Duties

CB-CMEs will be expected to perform the following duties/responsibilities:

- Be responsible for care team staffing, according to HHP required staffing ratios determined by DHCS, and oversight of direct delivery of the core HHP services;
- Implement systematic processes and protocols to ensure member access to the multi-disciplinary care team and overall care coordination;
- Ensure person-centered health action planning that coordinates and integrates all of the HHP member's clinical and non-clinical physical and behavioral health care related needs and services, and social services needs and services;
- Collaborate with and engage HHP members in developing a HAP and reinforcing/implementing/reassessing it in order to accomplish stated goals;
- Coordinate with authorizing and prescribing entities as necessary to reinforce and support the HHP member's health action goals, conducting case conferences as needed in order to ensure that the HHP member care is integrated among providers;
- Support the HHP member in obtaining and improving self-management skills to prevent negative health outcomes and to improve health;
- Provide evidence-based care;
- Monitor referrals, coordination, and follow-up to needed services and supports; actively maintain a directory of community partners and a process ensuring appropriate referrals and follow-up;
- Support HHP members and families during discharge from hospital and institutional settings, including providing evidence-based transition planning;
- Accompany the HHP member to critical appointments (when necessary and in accordance with MCP HHP policy);
- Provide service in the community in which the HHP member lives so services can be provided in-person, as needed;
- Coordinate with the HHP member's MCP nurse advice line, which provides 24-hour, seven day a week availability of information and emergency consultation services to HHP member; and
- Provide quality-driven, cost-effective HHP services in a culturally competent and trauma-informed manner that addresses health disparities and improves health literacy.

VI. General HHP Operations

A. Non-Duplication of Care Coordination Services

MCPs must ensure that members are not enrolled in another state program that provides care coordination services that would preclude them from receiving HHP care coordination services. The process should include: 1) checking available MCP data; and 2) asking members as part of

both the in-person member assessment during the eligibility/enrollment process and the assessment/care plan process.

The Targeted Engagement List (TEL) does not include members who are participating in the following programs:

- 1915(c) Home and Community Based (HCBS) waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH);
- County Targeted Case Management (TCM) (excluding Specialty Mental Health TCM);
- Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month; and
- Hospice.

Below is a summary of how HHP intersects with existing Medi-Cal programs that provide care coordination services, organized by the following three categories: 1) Members can receive services through both HHP and the other program; 2) Members must choose HHP or the other program; and 3) Members cannot receive HHP services.

1) Members Can Receive Services through BOTH HHP and the Other Program

- 1115 Waiver Whole Person Care Pilot Program
  Members participating in a Whole Person Care (WPC) Pilot Program may also be eligible for the HHP. DHCS has released specific guidance related to the interaction between the Health Homes Program and the WPC Pilot Program which can be found in Appendix K of this Program Guide.

- California Children's Services
  Children who are enrolled in the Children's Services program are eligible for the HHP.

- Specialty Mental Health and Drug Medi-Cal
  DHCS recognizes that coordination of behavioral health services will be a major component of HHP. HHP services are focused on physical health, mental health, Substance Use Disorder (SUD), community-based LTSS, palliative care, trauma-informed care, oral health, social supports, and, as appropriate for individuals experiencing homelessness, housing. In the California HHP structure of MCPs and CB-CMEs, it is expected that direct HHP services for HHP members will primarily occur at the CB-CMEs, even though MCPs may play a role. Therefore, it is important that CB-CMEs that have HHP members who receive behavioral health services have the capability to support the various needs of their members.

  For HHP members without conditions that are appropriate for specialty mental health treatment, it is anticipated that their physical-health oriented CB-CME is an appropriate setting for their HHP services. These CB-CMEs would typically be affiliated with an MCP.

  DHCS and stakeholders have noted that HHP members with conditions that are appropriate for specialty mental health treatment may prefer to receive their primary HHP services from their MHP's contracted provider acting as a designated CB-CME. To

facilitate care coordination for HHP members through a MHP-designated CB-CME, Drug Medi-Cal Organized Delivery system (DMC-ODS) or MHP providers may perform CB-CME HHP responsibilities through a contract with the MCPs in the county at the discretion of the MCP. This type of entity would perform the CB-CME HHP responsibilities for an HHP-eligible managed care member who 1) qualifies to receive services provided under the Medi-Cal scope of service for this type of entity (MHP or Drug Medi-Cal services); and 2) chooses a county MHP, or county MH/SUD plan, affiliated CB-CME instead of a CB-CME affiliated with the MCP. In cases where the MHP serves as both an administrator and a provider of direct services, the MHP could assume the responsibilities of the CB-CME.

2) Members Must Choose HHP OR the Other Program

- Targeted Case Management
  County-operated Targeted Case Management (TCM) is a comprehensive care coordination program and is duplicative of HHP. Members who are receiving TCM services have a choice of continuing TCM services or receiving HHP services.

  However, TCM provided as part of the County Mental Health Plan (MHP) Specialty Mental Health (SMH) services is not duplicative of HHP. The HHP provider should ensure that they: 1) coordinate with the SMH TCM provider, and 2) do not duplicate any SMH TCM activities.

- 1915(c) Waiver Programs
  1915(c) Home and Community Based Services (HCBS) Waiver programs provide services to many Medi-Cal members who will likely also meet the eligibility criteria for HHP. There are comprehensive care management components within these programs that are duplicative of HHP services. Members who are receiving 1915(c) services have a choice of continuing 1915(c) services or receiving HHP services.
  The 1915(c) HCBS waiver programs include:
  HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH).

- Cal MediConnect or Fee-for-Service Delivery Systems
  Members who are eligible for both Medi-Cal and Medicare are eligible for the HHP. In addition, members who are in the Fee-for-Service Delivery System are also eligible for the HHP. However, HHP is not available in the Cal MediConnect or Fee-for-Service delivery systems. Members have the choice to leave the Cal MediConnect or Fee-for-Service delivery systems to receive all their Medi-Cal services, including HHP services, through a regular Medi-Cal Managed Care Plan.

- Other Comprehensive Care Coordination Programs
  Individual MCPs have discretion to determine and designate other comprehensive care coordination programs (not listed in this section) that are duplicative of HHP services, including programs that are operated or overseen by the MCP. Examples include, but

are not limited to, MCP Complex Case Management programs and Community-Based Adult Services.

3) Members CANNOT Receive HHP Services

- Nursing Facility Residents and Hospice Recipients
  Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month and Hospice service recipients are excluded from participation in the HHP.

B. HHP Outreach Requirements

MCPs will be responsible for engaging HHP-eligible members, using state-determined, Centers for Medicare & Medicaid Services (CMS)-approved criteria. Engagement of eligible HHP members will be critical for the program success. MCPs will link HHP members to one of the MCP's contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider (PCP) is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions.

1) MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities or delegate to CB-CMEs and provide appropriate oversight.

a. Capacity
   Have the capacity to engage and provide services to eligible members, including:
   1) Establish an engagement plan with appropriate modifications for members experiencing homelessness;
   2) Evaluate the TEL provided by DHCS;
   3) Attribute assigned HHP members to CB-CMEs;
   4) Ensure the engagement of members on the targeted engagement list;
   5) Secure and maintain record of the member's consent to participate in the program (which can be verbal); and
   6) Provide member resources (e.g. customer service, member grievance process) relating to HHP.

b. Engagement Process
   1) Have policies and procedures for identifying, locating, and engaging HHP-eligible members.
   2) Use the following strategies for engagement as appropriate and to the extent possible: mail; email; social media; texts; telephone; community outreach; and in-person meetings where the member lives, seeks care, or is accessible.
   3) Show active, meaningful and progressive attempts at member engagement each month until the member is engaged. Activities that support member engagement include active outreach such as direct communications with member (face-to-face, mail, electronic, telephone), follow-up if the member presents to another partner in the HHP network, or using claims data to contact providers the member is known to use. Examples of acceptable engagement include:

a. Letter to member followed by phone call to member
b. Phone call to member, outreach to care delivery partners and social service partners
c. Street level outreach, including, but not limited to, where the member lives or is accessible

4) Establish a process for reviewing and excluding people from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines of having no substantial avoidable utilization or be enrolled in another acceptable care management program – see Reporting Template-Instructions for definition);
5) Report Members determined not appropriate for the HHP, along with a reason code, to DHCS.
6) DHCS will evaluate the MCP enrolled vs non-enrolled members and compare across MCPs for general compliance review purposes and to ensure that the engagement process is adequately engaging members on the targeted engagement list who are at the highest risk levels, have behavioral health conditions, and those experiencing homelessness.
7) Include housing navigators in the engagement process, at the MCP's discretion
8) Document the member engagement process
9) Develop a methodology and criteria used by the MCP or the CB-CME to stratify high, medium and low need members
10) Develop educational materials or scripts that you intend to develop to engage the member.
11) Have policies and procedures to provide culturally appropriate communications and information that meet health literacy and trauma-informed care standards
12) Have policies and procedures for the following:
    a. Required number and modalities of attempts made to engage member
    b. MCP's protocol for follow-up attempts
    c. MCP's protocol for discharging members who cannot be engaged, choose not to participate, or fail to participate

c. Assignment

MCPs will link HHP members to one of their contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions. MCP's and/or CB-CME's notification will inform the HHP member that they are eligible for HHP services, and identify their MCP and CB-CME. This notification will explain that HHP participation is voluntary, members have the opportunity to choose a different CB-CME, and HHP members can discontinue participation at any time. It will also explain the process for participation. In counties where multiple MCPs are available, the HHP member may change their MCP once per month in accordance with current MCP choice policies.

C. Priority Engagement Group

After the MCP has screened people who are inappropriate for HHP from the TEL based on the HHP requirements, MCPs are required to create a priority engagement group, or ranking process, with the goal of engaging and serving members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for priority engagement status will be at the MCP's discretion (upon approval by DHCS).

D. Referral

HHP services must be made available to all full scope Medi-Cal members without a share of cost who meet the DHCS-developed eligibility criteria, including those members dually eligible for Medicaid and Medicare. Providers, health plan staff, or other, non-provider community entities/care providers may refer eligible members to the member's assigned MCP to confirm if the member meets the eligibility criteria to receive HHP services. The Targeted Engagement List will be the primary method for identifying and engaging eligible HHP members. Referrals are more likely necessary in the situation of a new Medicaid member who may not have the Medi-Cal claims history that identifies them as HHP eligible. Provider referral forms will indicate that the provider has verified that the member meets the HHP eligibility criteria. The provider will submit the referral form to the MCP for confirmation. MCP confirmation is required before an individual is deemed an HHP member and may receive HHP services from a CB-CME.

E. Consent

The member will be considered enrolled in the HHP once the member has given either verbal or written consent to participate in the program. The MCP or CB-CME will secure consents by the member to participate in HHP and authorize release of information to the extent required by law. Either the MCP or the CB-CME must maintain a record of these consents.

F. Disenrollment

If an eligible member has, or develops, an exclusionary criterion, cannot be engaged within a specified period, chooses not to participate, or fails to participate actively in HHP planning and coordination, the HHP member will be disenrolled from the HHP, and the MCP will discontinue CB-CME HHP funding for that member. Additionally, if the MCP determines that the member's eligible chronic conditions have become well-managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status – the HHP member will be disenrolled and the MCP will discontinue CB-CME HHP funding for that member.

A Notice of Action (NoA) Letter is required in all situations except for when an eligible member chooses not to participate. The eligible member may choose to participate in the HHP at any time.

G. Risk Grouping

The MCP will ensure that HHP member acuity will inform appropriate provision of HHP services. For example, MCP program criteria may include three, or more, risk groupings of the HHP members. Members in the higher acuity risk groupings (tiers) will receive more intensive HHP services. In addition, the HHP will include requirements to address the unique needs of members experiencing homelessness, as specified in AB 361.

H. Mental Health Services

MCPs will develop or amend existing Memoranda of Understanding with county Mental Health Plans (MHPs) to address HHP-specific information. DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018) to address the HHP-specific information that MCPs must include in new, or amended, MOUs. This MOU will be submitted to DHCS prior to the start of HHP implementation for the Serious Mental Illness or Serious Emotional Disturbance (SMI) population. Please see Appendix D - Readiness Requirements and Checklist for information on this deliverable.

I. Housing Services

MCPs will work with community resources to ensure seamless access to the delivery of housing support services. MCPs or contracted CB-CMEs must provide housing navigation services, not just referrals to housing. A Housing Navigator is required to be part of the HHP care team for members experiencing homelessness. HHP members must receive the following services:

1) Individual Housing Transition Services

Housing transition services assist beneficiaries with obtaining housing, such as individual outreach and assessments. These services include:

- Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;
- Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;
- Assisting with the housing application process. Assisting with the housing search process;
- Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;
- Ensuring that the living environment is safe and ready for move-in;
- Assisting in arranging for and supporting the details of the move; and
- Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

2) Individual Housing and Tenancy Sustaining Services

Housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

- Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;
- Education and training on the roles, rights and responsibilities of the tenant and landlord;
- Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;
- Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;
- Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;
- Assistance with the housing recertification process;
- Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and
- Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

To the extent applicable, housing-based case management services provided to HHP members shall be consistent with the Housing First core components as described in Senate Bill (SB) 1380 Mitchel, Chapter 847, Statutes of 2016). Engagement to members potentially eligible for HHP or the provision of HHP housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for HHP or meet one or more of the DHCS defined HHP exclusionary criteria. HHP housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of members' lives, where members are engaged in nonjudgmental communication regarding drug and alcohol use. Members should be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

The HHP does not provide direct funding for housing. However, DHCS encourages MCPs to partner with housing organizations that incorporate the Housing First model into their case management and housing navigation services offered to members and to prioritize connecting HHP members with permanent housing options, when appropriate and available. For example, plans might explore collaborating with community-based organizations that are Housing First compliant, implement a requirement that housing services be provided consistent with Housing First components, encourage enhanced coordination with coordinated entry and assessment systems and/or allow receipt of referrals from the homeless crisis response system entities.

The goal is to integrate Housing First principles and components in an effort to enhance the provision of meaningful individual housing and tenancy-sustaining services to enrolled members.

J. Training

MCPs are required to ensure that the MCP and CB-CME staff who will be delivering HHP services receive the required HHP training prior to participating in the administration of the HHP. See Appendix C for training requirements.

K. Service Directory

MCPs or CB-CMEs must ensure a directory of community services and supports is developed, maintained, and is made available to all care coordinators to inform referring members to social services. The community services directory may be sourced from existing directories so long as it is available as a resource for CB-CMEs and care coordinators. This type of directory may be maintained by either the MCP or the CB-CME; however, the contracted MCP will ensure its availability.

L. Quality of Care

MCPs must incorporate HHP into existing quality management processes.

MCPs must have the capacity to collect and track information used to manage and evaluate the program, including tracking quality measures, and collecting, analyzing, and reporting financial measures, health status and other measures and outcome data to be reported for the State's evaluation process. The MCP will report core service metrics and the recommended core set of health care quality measures established by CMS, as well as the three utilization measures identified by CMS to assist with the overall federal health home evaluation. MCPs must report on the measures listed in the *Reporting Template, and provide* encounters for all HHP services.

M. Cultural Competency, Educational and Health Literacy

MCPs must incorporate HHP into existing policies and procedures related to ensuring that services, communication, and information provided to members are culturally appropriate, and meet health literacy, reading, harm-reduction, and trauma-informed care standards.

N. Member Communication

MCPs must incorporate HHP into existing policies and procedures regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers) into account in communicating with enrollee. DHCS and DMHC will review member materials from Knox-Keene plans through the usual process and criteria. DHCS will use a parallel process for non-Knox-Keene plans.

All notices to be sent by the MCP to Medi-Cal beneficiaries regarding the provision of HHP services will be submitted to DHCS for review.

Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. MCPs may use the DHCS HHP Member Handbook as an optional resource for examples of "best practice" member messaging (though the Handbook messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

MCPs must maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.

O. Members Experiencing Homelessness

MCPs must incorporate HHP-specific information into the appropriate policies and procedures for homeless members, including special provider and service requirements criteria (to achieve homeless experience requirements and other requirements per AB 361 and SB 1380), and engagement processes.

P. Reporting

MCP must have the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP encounters for services provided by the MCP and the CB-CMEs. See Appendix G (*Reporting Template);* and the *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2019 Reporting,* or later, for details.

CMS has established a core set of seven required health care quality measures and three utilization measures (see *Reporting Template* and *document* for details). Additional details can be found in the CMS technical specifications and resource manual. These measures were identified by CMS to assist with the overall federal health home evaluation.

MCPs will utilize the Supplemental Payment process to report members enrolled in HHP and to initiate capitation payments. See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information.

VII. Appendix

A. Appendix A – Example of an Acceptable Model Outreach Protocol

This Model Outreach Protocol is only offered as one example of a protocol that would be acceptable. It is meant to give the MCP ideas about how they might want to design their outreach protocols with the CB-CMEs. The details of this protocol are at the discretion of the MCP, as long as their protocol broadly meets DHCS' intent as stated in the body of the Program Guide and the Readiness Checklist.

SAMPLE PROTOCOL

The Medi-Cal managed care plan (MCP) will send an initial "Welcome Packet" to HHP-eligible members in accordance with their engagement process. After the initial packet is sent, the CB-CMEs will follow up with their HHP-eligible members through phone calls, in-person visits, and other modalities. Each CB-CME or the MCP will attempt to contact the member **five times** within 90 days after the initial packet is sent using various modes of communication (letters, calls, in-person meetings, etc.).

If the CB-CME does not have the capacity to conduct outreach to eligible members, MCP care coordination staff, including community health workers, will conduct the outreach to these members and note the outreach attempts in the members' record.

After five attempts, the CB-CME and the MCP will note the challenges with the active outreach and remind the PCP to discuss the HHP with the member at the next PCP visit. If the member declines HHP enrollment at the PCP visit, this will be noted in the EHR and the MCP will be notified.

If the CB-CME or the MCP learns that the contact information is out of date, efforts will be made to update that information using recent provider utilization data and community health workers who can conduct on-the-ground outreach to locate members through their neighbors or community organizations. The CB-CME will also review members' housing history and work with the MCP Housing Program Manager to determine if that member can be reached at an alternative housing site or through a community-based organization.

CB-CMEs will track all outreach attempts within a three month intensive outreach period after the initial welcome letter is sent. The MCP will require that each outreach attempt and the outcome of each attempt be documented in the member's record in the HHP care management system and reported back to the MCP and DHCS. All outreach and engagement attempts will be evaluated by the care coordination team every 30 days within this three month period. The MCP will create policies and procedures for tracking and evaluating outreach and engagement efforts.

If a member declines participation in the HHP, or if their PCP determines that the member is not a good candidate for the HHP (using categories determined and provided by DHCS), this will be noted in the record in the HHP care management system to avoid repeated outreach

attempts. Members who do not enroll in the HHP will be noted, tracked in the MCP's data system and reported to DHCS. Members who graduate from the program will be disenrolled, which will be noted in the record, tracked in the data system, and reported to DHCS.

The MCP will create a mechanism for CB-CMEs and PCPs to identify potential HHP members who are not on the targeted engagement list and who meet the diagnostic and acuity criteria but not the utilization criteria. These individuals may be excellent candidates for the program to help prevent future avoidable health care utilization. In general, MCP will require CB-CMEs to justify the inclusion of the referred member into the program or onto the targeted engagement list. This would be reviewed by a medical director and/or nurse manager with experience in intensive case management to see if the member qualifies for the HHP or if they might be better served by another case management program, and if the rationale provided by the CB-CME or PCP justifies engagement and enrollment in the program.

Staff and Providers

The MCP will train MCP and CB-CME staff who may interact with HHP members, including customer service staff, 24-hour nurse line staff, and provider representatives, to ensure all member- and provider-facing staff are knowledgeable about the HHP, can answer questions and refer participating or eligible members or providers to the appropriate staff. MCP staff, CB-CME staff, providers and community providers are required to participate in webinars and trainings required by DHCS.

The MCP will work to educate all contracted providers, including providers at contracted CB-CMEs and providers from smaller clinics whose patients will receive HHP services through MCP care coordinators.

There will be on-the-ground community health workers who work in the local community and will visit members at their homes or community-based organizations where the members receive services. The MCP has made significant investments in developing this team of community health workers and they will be a key part of success in engaging and educating members on HHP.

Materials

The MCP will work with DHCS to educate providers, beneficiaries and key stakeholders to ensure strong member engagement and participation. The MCP will use outreach and education materials (flyers, brochures, sample email content, sample scripts, etc.) that are approved by DHCS. If the MCP is licensed by DMHC, these materials should additionally be filed with DMHC for review, as applicable. The MCP will also use existing communication channels to promote outreach and education opportunities for providers and members, such as informational webinars, trainings and tele-town halls.

At a minimum, the MCP will develop the following materials:

- Call scripts for Customer Service and 24-hour Nurse Advise Line;
- Member "Welcome Packet," including outreach letters and brochures;

Back to Agenda

- Appointment reminder letters for both medical and care coordination appointments;
- Content for both the member and provider sections of the MCP website; and
- Training guides for the MCP and CB-CME staff who interface with providers and members.

All member-facing materials for HHP will meet DHCS requirements for cultural competency and health literacy standards.

SAMPLE

B. Appendix B – Targeted Engagement List Process

The Targeted Engagement List (TEL) Process identifies the Medi-Cal members that are the most appropriate candidates for the enhanced care coordination services in the Health Home Program (HHP). The TEL is sent to each participating Managed Care Plan (MCP) so that they can initiate engagement activities. This document provides additional details for the criteria and steps used in the TEL Process.

The data source for the TEL Process is DHCS's Data Warehouse. The Data Warehouse contains service level detail for most Medi-Cal programs, including managed care encounters, Fee-For-Service claims, Short-Doyle Mental Health services, Drug-Medi-Cal services, and others. MEDS eligibility information available in the Data Warehouse is also used in the TEL Process.

TEL Process – There are four main steps in the TEL Process, as follows:

1. SPA Eligibility Requirements for Chronic Condition Disease Identification – During the 24 months prior to the running of the TEL, if a member has at least two separate services on different dates for any of the following conditions it will be considered a chronic condition for the TEL. HHP chronic conditions include Asthma, Bipolar Disorder, Chronic Kidney Disease (CKD), Chronic Liver Disease, Chronic Obstructive Pulmonary Disease (COPD), Chronic or Congestive Heart Failure, Coronary Artery Disease, Dementia, Diabetes, Hypertension, Major Depression Disorders, Psychotic Disorders (including Schizophrenia), Substance Use Disorder, and Traumatic Brain Injury. The specific ICD-10 diagnosis codes for each chronic condition are listed below. The TEL process uses the primary and secondary diagnosis during the disease identification process.

2. SPA Eligibility Requirements for Chronic Condition Criteria. A member meets the chronic condition criteria if they have:
   2.1. Chronic Condition Criteria #1: At least two of the following: Chronic Obstructive Pulmonary Disease (COPD), Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder.
   2.2. Chronic Condition Criteria #2: Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure.
   2.3. Chronic Condition Criteria #3: One of the following: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders (including Schizophrenia).
   2.4. Chronic Condition Criteria #4: Asthma

3. SPA Eligibility Requirements – Acuity – These parameters ensure that potential HHP members are high utilizers of health services. A member must meet one of these acuity factors:

3.1. A high chronic condition predictive risk level (operationalized as three or more of the HHP eligible chronic conditions) or
3.2. At least one inpatient stay (not required to be related any particular condition*) in the 16-month period prior to the running of the TEL. (The inpatient stay algorithm is aligned with industry standards and the HEDIS inpatient algorithm) or
3.3. Three or more Emergency Department (ED) visits (not required to be related to any particular condition*) in a 16-month period prior to the running of the TEL. (The ED algorithm is aligned with industry standards and the HEDIS ED algorithm) or
3.4. Chronic Homelessness (there are no data parameters for this criteria. Members who only meet eligibility through this criteria will be identified solely through provider referral and MCP prior authorization)

* MCPs have the option to adjust this requirement.

4. HHP Enrollment Targeting and Exclusions – This step starts with the Medi-Cal members that meet the SPA chronic conditions and acuity eligibility requirements and determines if the members meet any of the specific program enrollment targeting and exclusionary criteria.:

a) Members that meet the eligibility requirements are excluded from the TEL, and <u>are excluded from participation in HHP unless their status changes</u>, if the members are identified as:

- Nursing Facility Residents
- Hospice Recipients
- Members with TCM
- Members in 1915 (c) programs
- Members in Fee-For-Service
- Members in PACE, SCAN, or AHF
- Members in Cal MediConnect

b) Members that meet the eligibility requirements are not included on the TEL (but could be enrolled through referral) if the members are identified as:

- Dually eligible members
- Members in CCS or GHPP
- Members with ESRD

TEL and TEL Supplement Reporting

The members that meet the eligibility requirements for chronic conditions and acuity will be reported to the managed care plans (MCPs) in either the TEL or the TEL Supplement. The TEL will contain all of the members that meet the SPA eligibility criteria through step 3 above and do not meet any of the specific program enrollment targeting and exclusionary criteria listed in step 4. The MCPs will use the TEL, their TEL verification process, and their internal priority

engagement rules to focus their enrollment activities and enroll the most appropriate members into HHP. The TEL Supplement will contain members that meet the SPA eligibility requirements for chronic condition criteria but are not included on the TEL. The TEL and the TEL Supplement will be provided within the same physical data set with the appropriate indicators.

TEL and TEL Supplement List Management

DHCS' expectations are that most of the HHP eligible members will be identified on the first TEL/TEL Supplement for an MCP in a region (first for chronic conditions, and six months later, for SMI) and most subsequent TEL/TEL Supplement files, at six month intervals, will have a smaller number of new members. To manage the members that appear on the TEL and the TEL Supplement, DHCS is considering the following parameters:

- Members may not appear on subsequent TEL/TEL Supplement files for an MCP because:
  - The member is no longer Medi-Cal eligible in MEDS
  - The member has changed MCPs
  - The member may not meet the disease identification or SPA eligibility requirements for chronic condition criteria
- Members may move from the TEL to the TEL Supplement and from the TEL Supplement to the TEL

TEL and SPA Assignment

DHCS is required to provide separate reporting to CMS for the HHP SMI SPA and the HHP Physical Health\SUD SPA. This requirement is reflected in the HHP implementation schedule. The TEL/TEL Supplement process includes all SPA-defined chronic conditions in the initial steps. In order to support the implementation schedule and MCP requests for additional TEL-related information, the initial TEL/TEL Supplement in each geographic implementation group will include both Physical health/SUD and SMI conditions.

However, members with only SMI conditions are not eligible for the first implementation in each County. The SMI-only members on the TEL/TEL Supplement are identified when Chronic Condition Criteria #3 equals '1' and Chronic Conditions Criteria #1, #2, and #4 are all equal to '0'. MCPs will be required to separately identify HHP members between physical health\SUD and SMI on the Supplemental Payment file sent to DHCS for payment purposes (See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information).

HHP TEL/TEL Supplement – Fixed-width Record Layout v1.3

Field Id	Field Name	Description	Length	Start	End	Data Type
1	TEL Report Date	Date of generation of the TEL and TEL Supplement (CCYYMMDD)	8	1	8	A

30	Filler	Filler	2	110	111	A
31	Chronic Condition Criteria #1	Member met the HHP Chronic Condition Criteria #1 (At least two of the following conditions: Chronic Obstructive Pulmonary Disease, Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, and Substance Use Disorder) ('1' for yes, '0' for no).	1	112	112	A

Field Id	Field Name	Description	Length	Start	End	Data Type
32	Chronic Condition Criteria #2	Member met the Chronic Condition Criteria #2 (Hypertension and at least one of the following conditions: Chronic Obstructive Pulmonary Disease, Diabetes, Coronary Artery Disease, or Chronic Congestive Heart Failure) ('1' for yes, '0' for no).	1	113	113	A
33	Chronic Condition Criteria #3	Member met Chronic Condition Criteria #3 (Any one of the following conditions: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders) ('1' for yes, '0' for no).	1	114	114	A
34	Chronic Condition Criteria #4	Member met Chronic Condition Criteria #4 (Asthma) ('1' for yes, '0' for no).	1	115	115	A
35	Count of Chronic Condition Criteria	A count of the number of Chronic Conditions Criteria the member met.	1	116	116	A
36	Acuity Factor #1	Member met acuity factor #1: three or more of the HHP eligible chronic conditions ('1' for yes, '0' for no).	1	117	117	A
37	Acuity Factor #2	Member met acuity factor #2: one or more inpatient stay ('1' for yes, '0' for no).	1	118	118	A
38	Acuity Factor #3	Member met acuity factor #3: three or more ED visits ('1' for yes, '0' for no).	1	119	119	A
39	Count of ED visits	The number of Emergency Department visits during the study period.	3	120	122	A
40	Latest ED visit DOS	The date of service for the most recent Emergency Department visit.	8	123	130	A
41	Count of Inpatient Admissions	The number of Inpatient Admissions during the study period.	3	131	133	A
42	Latest Inpatient Admission DOS	The date of service for the most recent Inpatient Admission.	8	134	141	A
43	Exclusion - Duals	The member is Dual Eligible ('1' for yes, '0' for no).	1	142	142	A
44	Exclusion - Hospice	The member had at least one service with one of the following revenue codes 0651, 0652, 0655, 0656, 0657, or with the following procedure code T2045 in the time period ('1' for yes, '0' for no).	1	143	143	A

Field Id	Field Name	Description	Length	Start	End	Data Type
45	Exclusion - ESRD	The member had at least one service with one of the following procedure codes in the time period, Z6004, Z6006, Z6012, Z6014, Z6016, Z6018, Z6022, Z6036, Z6038, Z6040, Z6030, 90967, 90968, 90969, 90970, 90989, 90993, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90935, 90937, 90945, 90947 ('1' for yes, '0' for no).	1	144	144	A
46	Exclusion - CCS	The member had at least one CCS End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	145	145	A
47	Exclusion - GHPP	The member had at least one GHPP End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	146	146	A
48	Exclusion - TCM	The member had at least one Targeted Case Management service in the time period (services where the Vendor Code was "92" or "93" ('1' for yes, '0' for no).	1	147	147	A
49	Exclusion - 1915c	The member met at least one of the following 1915c exclusions defined below, HIVAExcl, ALWExcl, DDExcl, IHOExcl, MSSPExcl, or PPC_Exclu ('1' for yes, '0' for no).	1	148	148	A
50	Exclusion - HIV/AIDS Waiver	Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) Waiver exclusion. The member had at least one service in the time period where the Provider type was "073" and Procedure Code in (90837, 90846, 90847, 90847, G0156, G0299, G0300, S5130, S5165, S5170, S9470, T2003, T2022, T2025, T2026, T2028, T2029) ('1' for yes, '0' for no).	1	149	149	A
51	Exclusion - Assisted Living Waiver	Assisted Living Waiver (ALW) Exclusion. The member had at least one service in the time period where the Vendor Code In ("44" or "84"), and (Provider Type was "092", "093", or "014"), and (the Category of Service was 118 or 119) ('1' for yes, '0' for no).	1	150	150	A

Field Id	Field Name	Description	Length	Start	End	Data Type
52	Exclusion - Developmental Disabilities Waiver	HCBS Waiver for Californians with Developmental Disabilities (DD) exclusion. The member had at least one service in the time period where the Vendor Code was "76" and the Procedure Code in (Z9002, Z9003, Z9004, Z9005, Z9012, Z9014, Z9015, Z9016, Z9020, Z9021, Z9022, Z9023, Z9025, Z9025, Z9026, Z9026, Z9027, Z9028, Z9029, Z9030, Z9031, Z9032, Z9034, Z9038, Z9039, Z9043, Z9046, Z9047, Z9048, Z9050, Z9056, Z9058, Z9059, Z9060, Z9061, Z9062, Z9063, Z9064, Z9065, Z9066, Z9067, Z9069, Z9072, Z9073, Z9074, Z9075, Z9076, Z9077, Z9078, Z9079, Z9101, Z9102, Z9103, Z9104, Z9105, Z9106, Z9110, Z9111, Z9112, Z9113, Z9121, Z9122, Z9123, Z9124, Z9125, Z9126, Z9200, Z9202, Z9203, Z9204, Z9205, Z9206, Z9207, Z9208, Z9302, Z9303, Z9304, Z9305, Z9306, Z9307, Z9308, Z9310, Z9311, Z9312, Z9313, Z9314 ,Z9315, Z9400, Z9401, Z9402, Z9403, Z9404, Z9405, Z9406, Z9406, Z9407, Z9408, Z9999) ('1' for yes, '0' for no).	1	151	151	A
53	Exclusion - IHO/HCBA Waivers	In-Home Operations Waiver (IHO) / Home and Community-Based Alternatives (HCBA) exclusion. The member had at least one service in the time period where the Vendor Code was "71" and Provider type is “014, 059, 066, 067, 069, 078, 095”) or where the Vendor Code was "89" and the Special Program Code (SPECIAL_PGM_TYPE_CD was "3" (IHO Personal Care Services (WPCS)) ('1' for yes, '0' for no).	1	152	152	A

Field Id	Field Name	Description	Length	Start	End	Data Type
54	Exclusion - MSSP Waiver	Multipurpose Senior Services Program Waiver (MSSP) exclusion. The member had at least one service in the time period where the Vendor Code was "81", the Provider Type is '074', and the Procedure Code in (Z8550, Z8551, Z8552, Z8553, Z8554, Z8555, Z8556, Z8557, Z8558, Z8559, Z8560, Z8561, Z8562, Z8563, Z8564, Z8565, Z8566, Z8567, Z8568, Z8569, Z8570, Z8571, Z8572, Z8573, Z8574, Z8575, Z8576, Z8580, Z8581, Z8582, Z8583, Z8584, Z8585, Z8586, Z8587, Z8588, Z8589, Z8590, Z8591, Z8592, Z8593, Z8594, Z8595, Z8596, Z8597, Z8598, Z8599, Z8600, Z8601, Z8602, Z8603) ('1' for yes, '0' for no).	1	153	153	A
55	Exclusion - PPC Waiver	Pediatric Palliative Care (PPC) Waiver exclusion. During the observation period, the member in one of the following counties: Fresno, Los Angeles, Marin, Monterey, Orange, San Francisco, Santa Clara, Santa Cruz, Sonoma, or Ventura, the Provider Type is '014 or '039, the Category of Service is '120, and the Procedure Code is 'G9012' ('1' for yes, '0' for no).	1	154	154	A
56	Exclusion - PACE, SCAN, AHF	PACE, SCAN, and AHF exclusion. As of the last month, the member had one of the following Plan Codes: 050-065, 200-207, 601, or 915. ('1' for yes, '0' for no).	1	155	155	A
57	Exclusion - LTC Resident	Long Term Nursing Facility residents exclusion. As of the end of the study period the member had one of the following Long Term Care (Nursing Facility) Aid Codes: "13", "23", "53", or "63" ('1' for yes, '0' for no).	1	156	156	A
58	Exclusion - FFS	Fee-For-Service exclusion. As of the end of the study period the member was in Fee For Service (Plan Code 000) ('1' for yes, '0' for no).	1	157	157	A
59	Count of Exclusions	A count of the number of Exclusions for which the member met the requirements.	2	158	159	A
60	TEL Indicator	A value of "1" indicates a TEL record; a value of "0" indicates a TEL Supplement record	1	160	160	A

C. Appendix C – Training Requirements

This section outlines training that MCP and CB-CME staff who will be delivering HHP services are required to receive prior to participating in the administration of the HHP. It also includes recommendations for training CB-CME staff on several core competencies.

Required HHP Trainings for Prior to HHP Implementation
MCP and CB-CME staff who will be delivering HHP services are required to receive HHP-specific training prior to HHP implementation. The required training topics described below cover basic program components. DHCS provided PowerPoint training materials that MCPs can leverage for their required trainings. However, it is also acceptable for an MCP to use non-DHCS developed training materials to satisfy one, or more, of the requirements. DHCS-developed training materials are saved on both the portal and DHCS' Health Homes Program website.

MCPs must be prepared to follow the required high-level trainings with more specific HHP operational training for their staff and CB-CME staff that provide HHP services. This should include MCP-specific information on operations, workflows, how HHP intersects with MCP care coordination initiatives, data reporting, and other implementation issues. DHCS and Harbage Consulting will work with each MCP to discuss their needs and the best approach for providing the required trainings.

The required HHP training topics are:

1. **Health Homes Program Overview**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on the program. Required training modules shall describe the goals and scope of the HHP, team member roles and how they should work together, the services that should be provided, and how HHP intersects with other California state care coordination programs. The training shall introduce topics related to caring for the populations served under HHP, including those with chronic conditions and homeless individuals, and the impact of social determinants of health on patients.

2. **Health Action Plan, Care Coordination, and Care Transitions within the Health Homes Program**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on best practices for working with members and providers to design and implement the Health Action Plan, conduct care coordination activities, and support patient transitions between different levels of care.

Required training shall cover approaches and best practices for developing and implementing a Health Action Plan and providing patient-centered care, taking into account the individual's preferences, values, and unique needs. It shall also cover best practices for care management for specific chronic diseases that are prevalent in the patient population and best practices for serving the SMI population.

Staff shall be trained in best practices for coordinating care across care settings, with particular focus on medical care, behavioral health services, and services addressing social determinants of health and housing. Training shall include effective strategies for care transitions, including best practices for reducing hospital readmissions and medication errors at care transitions.

3. **Community Resources and Referrals** (required for care coordinators and housing navigators)

This training shall provide information about available community resources, how to develop relationships with community partners, and best practices for connecting members to community services. This training is required for MCP and CB-CME care coordinators and housing navigators.

MCPs are encouraged to provide additional training and/or guidance about specific local and community organizations and resources available to the CB-CME staff.

Recommended but Optional Training for CB-CME Staff on Core Competencies

DHCS recommends that relevant MCP and CB-CME staff receive training on the following core competencies in order to successfully implement HHP. DHCS plans to provide trainings and/or resources on these topics, which will be saved on the portal and available on-demand.

1) Special Populations (homelessness, domestic violence, SMI, etc.)

Team members should have access to training and resources specific to the patient populations they serve.

2) Social Determinants of Health

Trainings and resources related to social determinants of health should be made available for team members. Social determinants of health include gender, age, education, income and employment, social/cultural networks, housing and physical environments and other factors that impact health outcomes and access to care.

3) Motivational Interviewing

Motivational interviewing is a communication technique that seeks to elicit an individual's internal motivation to make set and accomplish positive goals. The technique uses a non-confrontational, collaborative approach to help the patient find his or her own motivation and initiate change. The patient is empowered to make personal choices, resulting in increased likelihood of compliance with care plans.

4) Trauma-informed Care

Trauma-informed care is a service delivery framework that involves identifying, understanding, and responding to the effects of all types of trauma. Trauma-informed care emphasizes safety (physical, psychological and emotional) for patients and providers and seeks to empower patients with self-care tools.

5) Health Literacy Assessment

Health literacy refers to a patient's capacity to find and understand health information and services in order to make informed health decisions. Assessment of patient health literacy is essential to the creation of a patient-centered care plan.

6) Information Sharing

Team members should be trained on requirements related to sharing member information and data with other entities for the purpose of care coordination. These entities include the MCP, CB-CMEs, the care team, the county, hospitals, other providers, and community-based organizations including housing organizations.

D. Appendix D – Readiness Requirements and Checklist

Readiness Requirements and Checklist

This checklist is not intended to be all-inclusive. Additional information as needed may be requested by the Department.

General Instructions

Thank you for your interest in participating in the Health Homes Program (HHP). To ensure that Medi-Cal managed care health plans (MCPs) are ready to implement the Health Homes Program, MCPs must submit the documentation listed below and attest that other program requirements have been completed. **There are multiple deadlines for submissions for each implementing MCP group. Please see Appendix I for the HHP Implementation Schedule by group. Submission deadlines for each group are as follows:**

1. **Group 1 – March 1, 2018; May 1, 2018; and November 1, 2018.**
2. **Group 2 – September 1, 2018; November 1, 2018; February 1, 2019; and May 1, 2019.**
3. **Group 3.1 – January 1, 2019; April 1, 2019; July 1, 2019; and October 1, 2019.**
4. **Group 3.2 – March 1, 2019; May 1, 2019; August 1, 2019; and November 1, 2019.**
5. **Group 4 – September 1, 2019; November 1, 2019; February 1, 2020; and May 1, 2020.**

List of Deliverables:

Policies and Procedures (P&Ps) and Attestations: Section I – HHP Infrastructure (Deliverables #1 – 3), Section II – HHP Services (Deliverables #4 – 5), Section IV – General HHP Operations (Deliverables #7 – 10 and 12), and the Attestations (Deliverable #13)

Network: Section III – Network (Deliverable #6.1, 6.3, 6.4, 6.5)

SMI– MHP-MOU: Section IV – General HHP Operations, MHP-MOU (Deliverable #11.1)

SMI Network: Section III – Network (Deliverables #6.2a and 6.2b)

Group	Counties	Deliverable Due Dates		Deliverable Approval Dates
Group 1	San Francisco	**P&Ps**:	3/1/18	5/1/18
		Network:	5/1/18	6/1/18
		SMI Deliverables:	11/1/18	12/1/18
Group 2	Riverside San Bernardino	**P&Ps**:	9/1/18	11/1/18
		Network:	11/1/18	12/1/18
		SMI MHP-MOU:	2/1/19	3/1/19
		SMI Network:	5/1/19	6/1/19
Group 3.1	Imperial Santa Clara	**P&Ps**:	1/1/19	5/1/19
		Network:	4/1/19	6/1/19
		SMI MHP-MOU:	7/1/19	8/1/19
		SMI Network:	10/1/19	12/1/19
Group 3.2	Alameda Kern Los Angeles Sacramento San Diego Tulare	**P&Ps**:	3/1/19	5/1/19
		Network:	5/1/19	6/1/19
		SMI MHP-MOU:	8/1/19	9/1/19
		SMI Network:	11/1/19	12/1/19
Group 4	Orange	**P&Ps**:	9/1/19	11/1/19
		Network:	11/1/19	12/1/19
		SMI MHP-MOU:	2/1/20	3/1/20
		SMI Network:	5/1/20	6/1/20

DHCS expects the deliverables to be submitted in the form of MCP policies and procedures except for the organizational chart, assessment tool, health action plan template, network adequacy tables, and CB-CME subcontract. MCPs may develop standalone policies and procedures for the HHP and/or may incorporate HHP into existing policies and procedures.

MCPs are to submit a separate set of deliverables for each county they are implementing HHP in. If one or several deliverables cover multiple counties, MCPs are not required to submit the deliverable for each county. However, the MCP must indicate which counties the deliverable applies to during the submission process. The network tables that MCPs submit are to be separated by county.

For MCPs in multiple groups, the plan should not resubmit deliverables already approved for a prior group, unless changes have been made.

When submitting existing policies & procedures with HHP-related revisions, please use the "track changes" function in Word, or strike-thru/underline equivalent in other applications, to show deletions and additions. Other forms of documentation are also permitted to supplement MCP policies and procedures. If single documents are used to demonstrate compliance with multiple requirements/deliverables, please provide a crosswalk with the specific location for each deliverable.

Please see the *"Medi-Cal Health Homes Program: Program Guide"* (Program *Guide)* for Health Home Program requirements that correspond to this Readiness Checklist.

Submission Requirements

MCPs should follow the regular process for submitting required deliverables to their current Contract manager(s). Please submit HHP-related deliverables to 2PlanDeliverables@dhcs.ca.gov and copy the HHP mailbox at hhp@dhcs.ca.gov.

For each submission, please provide the Plan's Name and the primary Contact Person's name and telephone number.

In addition, when submitting, please use the following email subject line and file naming conventions:

- In the subject line of the email, please note that these are HHP Deliverables by using the following subject line convention:
  "HHP Deliverable 1"; "HHP Deliverables 2 and 3"; etc.

- Please use the following file naming convention:
  [plan name and deliverable number]

The Contact Person is responsible for ensuring that all documentation and attestations are accurate. Questions may be directed to hhp@dhcs.ca.gov. DHCS will provide additional information as it becomes available, and may request additional information at a later date.

I. HHP Infrastructure

1. Organizational Model:

1.1 Submit MCP's policies and procedures describing the HHP infrastructure, the roles and division of labor between the MCP and Community-Based Care Management Entities (CB-CMEs), and whether the MCP delegates any responsibilities to other entities.

1.2 Organizational chart illustrating the HHP infrastructure.

2. Staffing:

2.1 Submit MCP's policies and procedures describing the staffing plan for MCP and CB-CMEs, including care coordinators, community health workers, and housing navigator(s). The care coordinator ratio requirements are included in the Program Guide; however, if an MCP is interested in using a staffing model that de-emphasizes the care coordinator and instead emphasizes the roles of other team members, please describe the model here and DHCS will consider how to handle the care coordinator ratio.

The participation of community health workers in appropriate roles is recommended but not required.

2.2 Job descriptions for care coordination staff, including MCP and CB-CME staff, as appropriate.

3. Health Information Technology/Data and Information Sharing:

3.1 Submit MCP's policies and procedures describing how information is shared among the entire care team (including the member, CB-CME, and MCP), including whether EHR/HIT/HIE, or other methods, are used regarding the following activities:

a. Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management – standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement. Include other methods if electronic means of collection are not used.

b. Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members. Include other methods if electronic means of collection are not used.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters. Include other methods if electronic messaging is not used.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information. Include other methods if an electronic system is not used.
   - Telehealth services including remote patient monitoring.

c. Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER. Include other methods if an electronic process is not used.

- Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR. Include other methods if electronic sharing is not used.
- Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.

d. Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.

e. Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence). Include other methods if electronic means of collection are not used.
   - Ability to electronically refer patients to necessary services. Include other methods if electronic referral is not used.

II. HHP Services

4. Care Management:

5.1 Submit the assessment template or tool reflective of HHP-required elements such as housing instability, palliative care, and trauma-informed care.

5.2 Submit the Health Action Plan (HAP) template.

5.3 Submit MCP's policies and procedures for conducting care management, including how the MCP, in conjunction with contracted CB-CME, will:
- Develop and implement an HHP member assessment and HAP requirements and process, with enrollee and caregiver participation;
- Design the multi-disciplinary care team composition and process;
- Manage the communication and information flow regarding referrals, transitions, and care delivered outside the primary care site; and
- Maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.
- Maintain a process for referring to other agencies, such as long term services and supports (LTSS) or behavioral health agencies, as appropriate.
- Disenroll members from HHP who no longer qualify for or require HHP services.

5. Care Transitions:

5.1 Submit MCP's policies and procedures for conducting care transitions, including discharge-planning workflows.

III. HHP Network

6. MCP Duties/Responsibilities - Health Homes Program Network

6.1 Physical Conditions and SUD implementation

Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected enrollment and capacity as of the program launch date and as of the last day of each quarter in the first year for the Physical Chronic Conditions/SUD implementation. "Projected capacity" is the maximum caseload of the MCP's Physical Chronic Conditions/SUD HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of Physical Chronic Conditions/SUD HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable is due as a part of the Network Deliverables submission.

Please provide expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – Physical Conditions and SUD**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

Note: A separate DMHC network review specific to HHP will not be conducted; however, DMHC will continue to conduct regular Knox-Keene Act required network reviews through DMHC established processes.

6.2 SMI Implementation

a. Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected HHP enrollment and capacity for these CB-CMEs as of the program launch date and as of the last day of each quarter in the first year for the SMI implementation. "Projected capacity" is the maximum caseload of the MCP's SMI HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of SMI HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable update is due as a part of the SMI Deliverables submission.

Please provide the expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – SMI**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

b. Provide a description of how behavioral health providers are incorporated into the HHP service delivery model. This deliverable is due as a part of the SMI Deliverables submission.

6.3 If applicable, provide any MCP-specific CB-CME qualifications (beyond the CB-CME qualifications listed in section V.B, CB-CME Qualifications) that the MCP requires for the CB-CME to contract for HHP Services. This deliverable is due as a part of the Network Deliverables submission.

6.4 Submit CB-CME oversight policies and procedures, including monitoring, corrective action, progressive consequences for continued non-compliance, auditing care coordination conducted by CB-CMEs. This deliverable is due as part of the Network Deliverables Submission.

6.5 Submit CB-CME subcontract boilerplate that complies with the DHCS MCP contract requirements and includes: 1) Business Associate Agreement that allows for information and data sharing between MCP and CB-CME, 2) CB-CME to provide services in accordance with requirements in this Program Guide, and 3) CB-CME to complete DHCS/MCP required training. **If submitting prior DHCS approved subcontract boilerplate with HHP-related revisions, please use the "track changes" function in Word, or the "strike-through/underline" equivalent in other applications, to show deletions and additions.** This deliverable is due as part of the Network Deliverables Submission.

Note: MCP must have DHCS-approved subcontracts or subcontract amendments with a sufficient number of CB-CMEs to serve its HHP enrollees.

IV. General HHP Operations

7. Non-Duplication of Care Coordination Services:

7.1 Submit MCP's policies and procedures for ensuring that members are not enrolled in another Medi-Cal care coordination program that would disqualify them from receiving HHP services (see Program Guide for requirements).

8/9. HHP Outreach Requirements

8.1 Member Engagement:

Submit MCP's policies and procedures that include the following:

- Protocols for a progressive outreach campaign (see Program Guide Appendix A for model outreach campaign protocols)
- Process for assisting members who require additional prompting or guidance to participate;
- Process for conducting outreach to homeless individuals;
- Process for reviewing and excluding names from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines

of having no substantial avoidable utilization **or** enrollment in another acceptable care management program – see Reporting Template-Instructions for definition);

- After people have been excluded from the TEL based on the process above, the process and criteria for identifying a "priority engagement group" or ranking process within the remaining TEL members. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for 'priority engagement' status will be at the MCP's discretion (upon approval by DHCS) with the goal of engaging and serving TEL members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization.

9.1 Member Notices:

All beneficiary notices to be sent by the MCP regarding the HHP should be filed for DHCS review. If the MCP is licensed by DMHC, these notices should additionally be filed with DMHC for review. DHCS is aligning with DMHC requirements regarding notice review, and DMHC requires MCPs to file all advertisements for review. All outreach materials and scripts that will be distributed should be filed prior to use by the MCP. Submission through this readiness checklist process will begin the DHCS notice review/approval process. MCPs may provide notices for DHCS review at any time prior to the member notices deliverable due date.

Note: Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. DHCS' HHP Beneficiary Toolkit is an optional resource for the MCPs for examples of 'best practice' member messaging (though the HHP Member Toolkit messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

10. Risk Grouping:

10.1 Submit MCP's policies and procedures for ensuring that HHP members receive the appropriate services at the appropriate intensity level, including tiering of services based on risk grouping and the associated payment structure (but not amounts). See Section V. Health Homes Program Network, G. Risk Grouping in this Program Guide for additional information.

11. Mental Health Services:

11.1 Signed local Mental Health Plan (MHP) Health Memorandum of Understanding (MHP-MOU) to ensure seamless access and delivery of mental health services. The MHP-MOU must be in place as of the date of implementation of HHP for members

with SMI conditions. MCPs will develop or amend existing MOUs with county MHPs to address HHP-specific information.

DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018), including Attachment 2 of this APL, to address the HHP-specific information that MCPs must include in new, or amended, MOUs. MCP must submit the new or amended MHP-MOU by November 1, 2018 for Group 1 MCPs; February 1, 2019, for Group 2 MCPs; July 1, 2019 for Group 3.1 MCPs; and August 1, 2019 for Group 3.2 MCPs.

12. Housing Services:

12.1 Submit MCP's policies and procedures for providing the required housing services, including how the MCP will identify and work with community resources to ensure seamless access to delivery of housing support services. MCPs must provide housing navigation services, not just referrals to housing. (See Program Guide for requirements.)

13. Health Homes Program Readiness – Attestations

The operational process attestations below reflect the MCP's commitment to being fully prepared as of the HHP implementation date. Please check the boxes and sign below to indicate MCP's compliance with the following readiness requirements for the Health Homes Program.

☐ **F. Training**: Attest (check the box) that the MCP and CB-CMEs will complete all DHCS-required HHP training prior to participating in the administration of the HHP, as outlined in the *Program Guide*.

☐ **G. Service Directory**: Attest (check the box) that the MCP or the CB-CME(s) has completed and will maintain a directory of community services and supports that is available to all CB-CMEs and care coordinators.

☐ **H. Quality of Care**: Attest (check the box) that the MCP has incorporated HHP into existing quality management processes.

☐ **I. Cultural Competency, Educational and Health Literacy**: Attest (check the box) that the MCP has incorporated HHP into existing Policies & Procedures on these topics.

☐ **J. Member Communication**: Attest (check the box) that the MCP has incorporated HHP into existing policies regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers), into account in communicating with enrollee.

☐ **K. Members Experiencing Homelessness**: Attest (check the box) that the MCP has incorporated HHP-specific information into the appropriate Policies & Procedures for homeless members, including special service requirements, provider criteria (to comply with homeless experience requirements per AB 361), and engagement processes.

☐ **L. Reporting**: Attest (check the box) that the MCP has the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP service encounters for services provided by the MCP and the CB-CMEs (see *Program Guide* and *reporting template* for reporting requirements).

☐ **M. Service Requirements**: Attest (check the box) that the MCP will comply with all the with all service requirements, including for the six core services and the additional service requirements listed in the Program Guide.

I am authorized to make this attestation on behalf of:

_____	_____
Managed Care Plan	Signature of Authorized Representative
_____	_____
Date	Name of Authorized Representative
	_____
	Title of Authorized Representative

E. Appendix E – Service Codes for the Health Homes Program

DHCS has defined the ACA 2703 Health Home Program (HHP) service codes for use on encounters and for other purposes. The HHP is required to utilize HIPAA-compliant coding standards. This revised coding scheme incorporates comments received on the initial proposed coding scheme released in October 2016. The HHP team and the DHCS Office of HIPAA Compliance identified CPT and HCPCS codes for HHP. In addition, the HHP team investigated other potential codes and reviewed codes used by a few other states.

DHCS initially selected HCPCS code G0506 for HHP, however it was found to conflict with National Correct Coding Initiative rules. DHCS instead adopted HCPCS code G9008 effective as of 10/1/2018. The definition of G9008 is as follows: Coordinated care fee, physician coordinated care oversight services. G9008 along with seven different modifiers are listed in the table below for the HHP services (Comprehensive Care Management, Care Coordination, Health Promotion, Comprehensive Transitional Care, Individual and Family Support Services, and Referral to Community and Social Supports). This coding scheme uses HIPAA compliant HCPCS code and modifier combinations to identify clinical and non-clinical services, distinguishes between in-person and telephonic/telehealth 'visits', and allows other HHP services such as case notes, case conferences, tenant supportive services, driving to appointments, etc. to be codified. In addition, there is a designated modifier for engagement services. The HHP coding scheme is as follows:

HHP Service	**HCPCS Code**	**Modifier**	**Units of Service (UOS)**
In-Person: Provided by Clinical Staff	G9008	U1	15 minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Clinical Staff	G9008	U2	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Clinical Staff	G9008	U3	15 Minutes equals 1 UOS; Multiple UOS allowed
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed
HHP Engagement Services	G9008	U7	15 Minutes equals 1 UOS; Multiple UOS allowed

Telehealth and Group Visits

Regarding the use of the HHP HCPCS code and modifiers for HHP services provided via Telehealth and group visits – specifically, if MCPs may submit HHP encounters for telehealth and group visits using the HHP HCPCS code and modifiers for HHP in-person visits and if they may be used to satisfy the in-person visit ratio requirement – DHCS offers the following clarifying guidance.

Telehealth visits generally may not be used to meet the in-person visit ratio requirement for HHP. However, on a case by case basis, if an MCP has certain circumstances that necessitate the use of a high volume of telehealth visits for HHP, and the MCP is unable to meet the HHP in-person visit requirement because of the high-volume use of telehealth, DHCS will evaluate the circumstances and may allow the MCP to utilize some telehealth visits to meet the in-person visit requirement.

DHCS expects that group visits to be primarily used for health promotion and educational purposes as opposed to one-on-one HHP care coordination. However, if there is a one-on-one in-person component to the group visit in which the provision of any of the six core HHP services are provided, this may be reported as a separate HHP in-person visit encounter.

F. Appendix F – Evidence of Coverage Template

Description:

<Plan Name> covers Health Homes Program (HHP) services for Members with certain chronic health conditions. These services are to help coordinate physical health services, behavioral health services, and community-based long term services and supports (LTSS) for Members with chronic conditions.

You may be contacted if you qualify for the program. You can also call <Plan Name>, or talk to your doctor or clinic staff, to find out if you can receive HHP services.

You may qualify for HHP if:

- You have certain chronic health conditions. You can call <Plan Name> to find out the conditions that qualify; and
- You meet one of the following:
  - You have three or more of the HHP eligible chronic conditions
  - You stayed in the hospital in the last year
  - You visited the emergency department three or more times in the last year; or
  - You do not have a place to live.

You do not qualify to receive HHP services if:

- You receive hospice services; or
- You have been residing in a skilled nursing facility for longer than the month of admission and the following month.

Covered HHP Services:

HHP will give you a care coordinator and care team that will work with you and your health care providers, such as your doctors, specialists, pharmacists, case managers, and others, to coordinate your care. <Plan Name> provides HHP services, which include:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Cost to Member:

There is no cost to the Member for HHP services.

G. Appendix G – Reporting Template Excerpt

The below is an excerpt from the complete Reporting Template that MCPs will use to submit specific required data. For descriptions of data elements, please see Reporting Template.

Note: CPB = Controlling High Blood Pressure; CDF = Screening for Clinical Depression and Follow-up Plan; SMI = Serious Mental Illness/Serious Emotional Disturbance.

Health Home Program (HHP) Reporting Instructions

These instructions outline the requirements, references, and headings/categories for the following reporting template: Health Home Program Reporting Template. Reporting is required per the managed care contract.

• Data must be submitted in Excel (.xlsx). Do not submit data in .pdf, .xls, .csv, .txt, or any other format than .xlsx.

• The three months of data must be combined into one figure to represent the quarter, with the exception of member level Homeless and Housing reports and annual reports.

• Each MCP must submit only one file per reporting period that includes all counties the MCP operates in. All subcontractors must be rolled up into the main MCP's data.

• MCPs will certify the HHPQuarterlyReports or data submissions using the existing monthly data certification process with its respective DHCS Contract Manager to confirm all information submitted is complete and accurate. MCP will maintain documentation supporting the reported information.

Quarterly reports are due 60 days after the end of the quarter. Annual reports are due with Q1 reports. Member-level detail Homeless/Housing reports are due semi-annually, with the Q2 and Q4 reports. When the due date falls on Saturday, Sunday or a holiday, data must be submitted by COB the business day before the due date. For reference, the calendar-year quarters are listed below:

• Q1 and Annual – January, February, and March - due May 31

• Q2 and Member-level Homeless/Housing – April, May, and June - due August 31

• Q3 – July, August, and September - due November 30

• Q4 and Member-level Homeless/Housing – October, November, and December - due February 28

Unless otherwise noted, all "days" are calendar days.

Reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). Reports must use the following file naming convention: MCP name.HHPQuarterlyReport.Year.Quarter.DueDate.xlsx

[MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.xlsx.]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181130.xls. DHCS will not acknowledge or accept any email submissions.

All report revisions are subject to DHCS review and approval.

• DHCS will notify MCPs if revised reports must be submitted to correct data errors such as incorrect file naming conventions, incomplete data/columns fields, incorrect data, etc.

• Revised reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov).

• Revised reports must be submitted as a complete quarterly file. Partial files without all the required information and data will be rejected and must be resubmitted. Each quarter of data must be submitted separately. MCP must include an explanation in the HHP comments tab describing the changes and the reason for revision.

• Revised reports must use the following file naming convention: MCPName.HHPQuarterlyReport.Year.QuarterNumber.DueDate.RevisionNumber.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.REV#.xlsx]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181230.REV1.xlsx. to your designated folder in the "DHCS-MCQMD-Data/MCP" folder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). The revised file should be submitted as a separate file.

• Final corrections to quarterly reports must occur no later than 90 days after the end of the calendar year for corrections on the previous year's quarterly reports unless the Department requests a revised file.

Definitions:

CB-CME: Community Based Care Management Entity

HAP: Health Action Plan

Homeless and Chronically Homeless: see CA Welfare & Institution Code § 14127(e)

Housing Services:
https://www.medicaid.gov/federal-policy-guidance/downloads/cib-06-26-2015.pdf - see "Individual Housing Transition Services" and "Individual Housing & Tenancy Sustaining Services" on pages 3-4.

For the purposes of this document, the following definitions will apply:

- **HHP Member**: a Medi-Cal beneficiary currently enrolled in a Medi-Cal Managed Care Plan and a Health Homes Program.

- **Member**: a Medi-Cal Managed Care Plan member not currently enrolled in a Health Homes Program.

- **Individual**: Medi-Cal beneficiary or other eligible person who may not be currently enrolled in a Medi-Cal Managed Care Plan or a Health Homes Program. E.g., FFS beneficiary. May also apply to person not currently enrolled in Medi-Cal.

Definitions of Exclusionary Reasons for Non-Enrollment: The following are the allowable reasons, with definitions, for which a Medi-Cal member may be excluded from, or not enrolled into, a local Health Homes Program (HHP). These definitions are used by DHCS and its HHP partners. For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage. See the definition of Targeted Engagement Process below for additional information.

I. ***Unsafe Environment***: for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ED: After reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment or deliver HHP services, such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff.

Individual: Member engagement/enrollment efforts, or delivery of HHP services, cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

II. ***Declined participation***: After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate in HHP.

III. ***Unsuccessful engagement***: HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self-available, or is un-cooperative. Accurate contact information is not available for the member. This occurs before enrollment.

IV. ***Well-managed***: An assessment, which may include a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.

V. ***Participation in duplicative programs or programs excluded for HHP participation due to DHCS policy***: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following:

1. Duplicative Programs

a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH)

b. Targeted Case Management (TCM) – County, not Mental Health TCM

c. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF)

2. Programs excluded by DHCS Policy

a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month.

b. Hospice

c. Fee-For-Service

VI. ***Targeted Engagement Process***: The MCPs DHCS-approved process by which MCPs identify and prioritize individuals for engagement by using DHCS-provided Targeted Engagement List (TEL) and/or MCP member data.

For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage, that is a result of the above mentioned DHCS-approved process.

1. Health Home Program Enrollment Reporting	
***Note:* Only report one (1) exclusionary reason per member excluded from the Program.**	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number MCP excluded because not eligible - well-managed (Column C)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because not eligible due to MCP assessment determining well managed. The CB-CME and/or the MCP can further define, but well-managed means (a) members with HHP chronic conditions that do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation; or (b) members that are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.
Number MCP excluded because declined to participate (Column D)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because they declined to participate. After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate, or to continue to participate, in HHP.
Number MCP excluded because of unsuccessful engagement (Column E)	Enter the number of members MCP excluded via the targeted engagement process the quarter because of unsuccessful engagement. HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self available; is un-cooperative; or accurate contact information is not available for the member. This occurs before enrollment.

Number MCP excluded because duplicative program (Column F)	Enter the number of members MCP excluded via the targeted engagement process during the quarter due to being in another program that provides care management services: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following: 1. Duplicative Programs a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH) b. Targeted Case Management (TCM) – County, not Mental Health TCM 2. Programs excluded by DHCS Policy a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month. b. Hospice 3. Additional programs the MCP determines are duplicative as described in their progressive engagement policy
Number MCP excluded because unsafe behavior or environment (Column G)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because of an unsafe behavior or environment. Unsafe includes Environment (for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ER): after reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff; and Individual: Member engagement/enrollment efforts cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

Number MCP excluded because not enrolled in Medi-Cal at MCP (Column H)	Enter the number of individuals MCP excluded from via the targeted engagement process list during the quarter because they are not enrolled in Medi-Cal at the Managed Care Plan. Reasons can include, but may not be limited to, the following: a. Fee-For-Service b. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF) c. Member is deceased
Number externally referred & enrolled (Column I)	Enter the number of members not part of the plan's targeted engagement process, referred to the MCP, that were enrolled. The referral process is initiated by an external provider or organization when an individual is initially assessed to be a candidate for HHP and therefore is referred to the MCP for approval. Upon MCP review and evaluation, if the individual is approved for HHP and enrolled, they would be included in this measure. If they are not approved for enrollment in HHP, they would be reported in the following measure.
Number externally referred but excluded (Column J)	Enter the number of individuals not part of the plan's targeted engagement process, referred to the MCP, that were excluded. Exclusion reasons include reasons identified in columns C-H. Do not add these exclusions to the counts in Columns C-H.
Average monthly number of dedicated care coordination FTEs (Column K)	Enter the average monthly number of care coordinators for the quarter. Only count FTEs dedicated to care coordination activities. The counts are taken at a point in time, which will be the last day of each month in the quarter, and averaged across the 3 months in the quarter to get this average quarterly number.
2. Health Home Program Member Activity Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Number initial HAP completed within 90 days (Column C)	Numerator: Enter the number of HHP members that had their initial HAP completed during the quarter and the HAP was completed within 90 days of enrollment.
Number initial HAP completed (Column D)	Denominator: Enter the number of HHP members that had their initial HAP completed during the quarter.

3. Health Home Program Homeless/Housing Member Level Detail	
Note: This tab is to be submitted semi-annually in the Q2 report and Q4 report of every year. The Q2 report (due 8/31) will include data for January through June of the current calendar year. The Q4 Report (due 2/28) will include data for July through December of the previous calendar year.	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for the county and plan code the plan operates in. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and semi-annual reporting period. For example, the second reporting period of 2019 will be entered as 2019 Q3-Q4.
Member CIN (Column C)	Enter the Member's Client Identification Number (CIN) for all members that meet Column G and/or Column I.
Member Last Name (Column D)	Enter the Member's Last Name.
Member First Name (Column E)	Enter the Member's First Name.
Member Date of Birth (DOB) (Column F)	Enter the Member's Date of Birth (DOB) using format MM/DD/YYYY.
Homeless HHP Members and HHP Members at Risk for Homelessness During This Reporting Period (Column G)	Indicate whether the HHP enrolled member met the Federal definition of Homeless or required tenancy sustaining services at any point during the reporting period. Enter "Yes" or "No."
Received Housing Services During This Reporting Period (Column H)	Indicate whether the HHP enrolled member received housing services at any point during the reporting period. Enter "Yes" or "No."
Homeless Health Homes Members In Any Enrollment Period (Column I)	Indicate whether the HHP enrolled member met the Federal definition of Homeless at any point during their enrollment in the HHP. Enter "Yes" or "No."

HHP Members who are no longer Homeless On Last Day of This Reporting Period (Column J)	Indicate the HHP enrolled member no longer meets the Federal definition of Homeless, as of the last day of the reporting period. If the member was disenrolled during the reporting period, report as of their last date of enrollment. Enter "Yes" or "No."
4. Health Home Program Network Reporting	
Column Name	**Explanation**
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
CB-CME NPI # (Column C)	Enter all CB-CME NPI numbers that were contracted as of the last day of the quarter. Enter each CB-CME NPI number in each county on its own row. For example, if a MCP is contracted with a CB-CME that operates in two counties, there would be two rows for that NPI with each row having a different plan code & county. DHCS assumes that all lead CB-CMEs will have a NPI or be the MCP; if a CB-CME does not have an NPI #, please reach out to DHCS for further discussion. This is a measure of the prime contract with the MCP for care management duties, not engagement subcontractors or housing subcontractors.
Capacity for each CB-CME (Column D)	Enter the capacity for assigned HHP members for each CB-CME contracted in each county during the quarter. If a CB-CME operates in more than one county, separate the projected capacity for each county. Capacity is defined as the number of HHP members the CB-CME will be able to serve according to the HHP service requirements including the care manager ratio and the extent the CB-CME is able to satisfy all care team requirements. The count is taken at a point in time, which will be the last day of the quarter.
5. Health Home Program Annual CMS Core Measures Reporting	

DHCS is required to collect and report the Core Set of Health Care Quality Measures for Medicaid Health Homes Programs according to the Technical Specifications published by CMS. DHCS will continue to make the annual Technical Specification link available to the MCPs. MCPs are required to follow the technical specifications. DHCS will use the reporting template to collect measure information from the MCPs so that DHCS can perform the aggregation, weighting, and reporting required by the Technical Specifications. For additional information on the Core Measures, refer to the Technical Specifications and Resource Manual link from CMS. Approve the license agreements and download the Technical Specifications.

https://www.medicaid.gov/license-agreement.html?file=%2Fstate-resource-center%2Fmedicaid-state-technical-assistance%2Fhealth-home-information-resource-center%2Fdownloads%2FFFY-18-HH-Core-Set-Manual.pdf

Each MCP will determine its numerator, denominator, and/or rates for the required performance measure and report these results for each county. DHCS is required to report separately for each SPA, therefore, there are separate numerator, denominator, and rates columns for Chronic Conditions and SMI. The Technical Specifications measurement year and reporting year definitions are consistent with DHCS's other HEDIS oriented timelines. The Technical Specifications require reporting results when the SPA is in effect for six or more months of the measurement period. The fields in the template will be adjusted over time to align with the Technical Specifications if/when they change.

Note: **This tab is to be submitted annually in the Q1 report (due 5/31) of every year and include data on the previous calendar year of January through December.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year for the data reported: Year.
Controlling high blood pressure (CBP) (Med) age 18-59 w/HTN, BP < 140/90 - numerator (Column C)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (Med) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column D)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column E)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator

CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column F)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column G)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column H)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column I)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column J)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column K)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column L)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - numerator (Column M)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column N)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column O)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column P)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column Q)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column R)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column S)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column T)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column U)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator

CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column V)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CDF (MED) - Age 12-17 - numerator (Column W)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - numerator
CDF (MED) - Age 12-17 - denominator (Column X)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 12-17 - denominator
CDF (MED) - Age 18-64 - numerator (Column Y)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - numerator
CDF (MED) - Age 18-64 - denominator (Column Z)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 18-64 - denominator
CDF (MED) - Age 65+ - numerator (Column AA)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - numerator
CDF (MED) - Age 65+ - denominator (Column AB)	Screening for clinical depression and follow-up plan (Medical SPA) - Age 65+ - denominator
CDF (SMI) - Age 12-17 - numerator (Column AC)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - numerator
CDF (SMI) - Age 12-17 - denominator (Column AD)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 12-17 - denominator
CDF (SMI) - Age 18-64 - numerator (Column AE)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - numerator
CDF (SMI) - Age 18-64 - denominator (Column AF)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 18-64 - denominator
CDF (SMI) - Age 65+ - numerator (Column AG)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - numerator
CDF (SMI) - Age 65+ - denominator (Column AH)	Screening for clinical depression and follow-up plan (SMI SPA) - Age 65+ - denominator
6. Health Home Program Reporting Comments	
Column Name	**Explanation**
Comments (Column A)	Enter any relevant information pertaining to the submitted report and the data it contains.

I. Appendix I – HHP Implementation Schedule

HHP Implementation Schedule

The California Department of Health Care Services (DHCS) announced that the implementation of the state's Health Homes Program (HHP) begins July 1, 2018. The counties included in each group and the phased implementation schedule are outlined in the table below:

County Implementation Schedule

Groups	Counties	(Phase 1) Implementation date for members with eligible chronic physical conditions and substance use disorders	(Phase 2) Implementation date for members with eligible serious mental illness conditions
Group 1	• San Francisco	July 1, 2018	January 1, 2019
Group 2	• Riverside • San Bernardino	January 1, 2019	July 1, 2019
Group 3	• Alameda • Imperial • Kern • Los Angeles • Sacramento • San Diego • Santa Clara • Tulare	July 1, 2019	January 1, 2020
Group 4	• Orange	January 1, 2020	July 1, 2020

J. Appendix J – HHP Supplemental Payment File

Please refer to the DHCS' *Technical Guidance – Consolidated Supplemental Upload Process for further information.*

K. Appendix K – Whole Person Care Pilot Interaction Guidance

Joint Medi-Cal Managed Care Health Plan and Whole Person Care Pilot Guidance:

Eligibility and Provision of Services in the Health Homes Program and

Whole Person Care Pilots

This notification provides DHCS policy guidance regarding the eligibility, enrollment and the provision of services for Medi-Cal beneficiaries concurrently eligible for both the Health Homes Program (HHP) and a Whole Person Care (WPC) Pilot.

Medi-Cal managed care health plans (MCPs) implementing the HHP are responsible for providing the following six core HHP services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services. Program eligibility is based on meeting a set of chronic physical/Substance Use Disorder (SUD) or Severe Mental Illness (SMI) conditions as well as specified acuity criteria.

The overarching goal of the WPC Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots are administered at the local level where a county, a city and county, a health or hospital authority, or a consortium of any of the above can serve as the Lead Entity (LE). WPC eligibility is established by each Pilot.

DHCS' guidance is that Medi-Cal beneficiaries that are eligible to receive services from both the WPC Pilot program and the HHP can be enrolled in either program or both, based on beneficiary choice.

In most cases WPC pilots provide care coordination services that are similar to the care coordination services provided by the HHP program. If a Medi-Cal beneficiary is eligible for both WPC and HHP, the member may choose which program's care coordination services that want to receive. The member may not receive duplicative care coordination services from both WPC and HHP. If the beneficiary is receiving care coordination services through the HHP, it is the responsibility of the WPC pilot to ensure that a beneficiary does not receive duplicative care coordination services from WPC. The WPC pilot may not claim WPC reimbursement for care coordination services that are duplicative of HHP care coordination services that are provided during the same month.

If the beneficiary chooses to receive care coordination services through WPC and is also interested in participating in the HHP, the beneficiary will not be able to receive any HHP services due to HHP, by default, being a program that consists of a set of 6 care-coordination services that are offered as the core benefit of the program.

In most cases WPC pilots also provide other services that are not duplicative, or similar to, HHP care coordination services. A sobering center service is one example of a WPC service that is likely to not be duplicative of HHP services. If a member is eligible for both WPC and HHP, and the member chooses to receive care coordination services through the HHP, the member may still receive other WPC services (that are not duplicative of HHP services) through the WPC. The WPC pilot may claim reimbursement for these other services regardless of whether the beneficiary chooses to receive care coordination services through the WPC or the HHP.

Please see the following points regarding DHCS' expectations:

- All WPC LEs must ensure the non-duplication of services for their WPC-enrolled members.

- The LEs are required to check other program participation, including HHP, as a regular part of their assessments. DHCS recommends frequent communication between the LE and their local MCPs to ensure there is no duplication of services.

- The WPC "Certification of Lead Entity Reports" document has been revised to include an additional attestation stating that DHCS reserves the right to recoup payments made to LEs for services found to be duplicative.

- LEs are responsible for keeping auditable records, such as documentation of their in-person assessments of enrollee participation in other programs, which should address non-duplication of services.

- As always, DHCS reserves the right to perform an audit of LE data and MCP data.

ALL PLAN LETTER 18-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS PARTICIPATING IN THE HEALTH HOMES PROGRAM

SUBJECT: HEALTH HOMES PROGRAM REQUIREMENTS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance regarding the provision of Health Homes Program (HHP) services, and the development and operation of the HHP, to Medi-Cal managed care health plans (MCPs) implementing the HHP.

BACKGROUND:
The Medicaid Health Home State Plan Option is authorized under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the HealthCare and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health care services, behavioral health services, and community-based long term services and supports (LTSS) needed by members with chronic conditions.

In California, Welfare and Institutions Code (WIC) Sections 14127 through 14128 authorize the Department of Health Care Services (DHCS), subject to federal approval, to create the HHP for Medi-Cal members with chronic conditions who meet the eligibility criteria specified by DHCS.

POLICY:
Effective upon the HHP implementation date for each MCP implementing the HHP, the MCP is responsible for providing the following six core HHP services to eligible Medi-Cal members: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services.

The Medi-Cal Health Homes Program Guide (Program Guide) is available on the HHP webpage of the DHCS website.[1] The Program Guide outlines HHP policies, including member eligibility criteria, and contains DHCS' operational requirements and guidelines on HHP. DHCS may update the Program Guide to reflect the latest HHP requirements

[1] The HHP Program Guide can be found at: http://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx

Managed Care Quality and Monitoring Division
1501 Capitol Avenue, P.O. Box 997413, MS 4400
Sacramento, CA 95899-7413
Phone (916) 449-5000 Fax (916) 449-5005
www.dhcs.ca.gov

and guidelines. DHCS will notify MCPs whenever the Program Guide is updated, so that MCPs can obtain the latest information on HHP.

HHP MCPs must meet all program and reporting requirements specified in the Program Guide, all applicable state and federal laws and regulations, MCP contracts, and other DHCS guidance, including, but not limited to, APLs. Additionally, MCPs must communicate all HHP requirements to, and ensure the compliance of, their contracted HHP providers, including Community Based Care Management Entities, as well as any delegated entities and subcontractors.

MCPs are responsible for ensuring that all delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and Policy Letters.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

NOTICE OF REQUEST FOR PROPOSALS (RFP)

#19-021A

GENERAL CONDITIONS AND INSTRUCTIONS TO OFFERORS

For

Health Homes Program Select Services – Revised

Key RFP Dates

Written Questions Due: June 24, 2019, 2:00, PM Pacific Time
Proposal Submittal Date: July 11, 2019, 2:00 PM Pacific Time

Back to Agenda

Inviting Request for Proposals (RFP) 19-021A for Health Homes Program Select Services - Revised

CalOptima invites Proposals from qualified Offerors to provide Health Homes Program Select Services - Revised. Proposals shall be prepared and submitted in accordance with the requirements set forth in this RFP #19-021A. **Proposals must be submitted via BidSync no later than 2:00 PM Pacific Time, July 11, 2019.**

Proposals, and amendments to Proposals received after the date and time specified above will be rejected by the BidSync program and will not be delivered to CalOptima.

CalOptima's Basic Philosophy: Contracting for Results

CalOptima's fundamental commitment is to contract for results. CalOptima defines a successful result as a generation of defined, measurable, and beneficial outcomes that satisfy the contract requirements and support CalOptima's mission and objectives. This RFP 19-021A describes what is required of the successful Offeror in terms of services, deliverables, performance measures and outcomes, and unless otherwise noted in this RFP, places the responsibility for how they are accomplished on the successful Offeror.

Contract Elements

The term "contract" means the contract awarded as a result of this RFP 19-021A and all exhibits thereto. (See RFP Attachment 4: CalOptima Sample Contract). The successful Offeror/s will be required to accept a written contract in accordance with and included as a part thereof, this Request for Proposal, including all requirements, conditions and specifications contained therein. The Proposal, including all attachments and information on services, and associated pricing shall be binding and shall be incorporated into the written contract. At a minimum, the following documents will be incorporated into the contract:

- This RFP 19-021A and all attachments and exhibits.
- Any modifications, addendum or amendments issued in conjunction with this RFP 19-021A.
- The successful Offeror's Proposal.

Should there be any conflict between RFP 19-021A and the contract, the terms and conditions of the contract shall prevail.

It should be noted that as a public agency, CalOptima is mandated by various government entities to incorporate many of the terms and conditions listed within the entities Contract and BAA, and is unable to modify them in any way.

CalOptima is permitting each Offeror to identify the terms of the Contract and BAA it would like to negotiate. Using Attachment 5 entitled "Request to Negotiate Contract/BAA Terms," Offerors must identify the Current Language, Proposed Language, and Rationale for the

Back to Agenda

Request. Note that any request to negotiate contract terms without a rationale will not be considered for negotiation. CalOptima will evaluate all requests and render a decision on each Contract/BAA term identified.

If a "Request to Negotiate Contract/BAA Terms" form is not submitted with the proposal, the terms submitted in the Sample Contract will be in force. CalOptima will not review any changes marked on the Contract/BAA PDFs that are not included on the "Request to Negotiate Contract/BAA Terms" form. CalOptima will also not review any additional terms & conditions submitted by Vendor on Vendor paper. Even if you currently have an existing contract/BAA with CalOptima or have had one in the past, the services within this RFP are considered separate and CalOptima **will not** add them to an existing agreement.

Each deletion, addition, and modification, etc., to CalOptima's Sample Contract or BAA must be logged and submitted on the "Request to Negotiate Contract Terms" form. Failure to do so will result in your proposal being deemed non-responsive. Even if you currently have a contract or BAA with CalOptima or have had one in the past, a "Request to Negotiate Contract Terms" form must be created and included as part of your firms' proposal.

CalOptima may disqualify and terminate negotiations with any Offeror that did not take exception to a given Sample Contract or BAA provision in its proposal and subsequently attempts to do so during negotiations. As such, it is in Offeror's best interest to have the Sample Contract reviewed by counsel prior to submitting a proposal.

The successful Offeror will be required to comply with all applicable equal opportunity laws and regulations.

Sincerely,

Ryan Prest
Purchasing Manager

SECTION I: CALOPTIMA BACKGROUND AND OVERVIEW

A. County Organized Health Systems (COHS) Background

The California State Medicaid (Medi-Cal) program came into existence in March 1966 as a fee-for-service health care delivery system. In May 1972, Medi-Cal beneficiaries began enrolling in managed care plans when the first Prepaid Health Plan (PHP) contract went into effect. Joining a PHP was voluntary and limited to those in a public assistance aid category.

In June 1983, a new type of managed care program, the County Organized Health System (COHS), became operational. The COHS managed care model ensures Med-Cal recipients access to comprehensive, cost-effective health care. Each COHS plan is sanctioned by the County Board of Supervisors and governed by an independent commission.

B. CalOptima Overview

CalOptima's Overview can be located by clicking on the following link and by selecting 'View CalOptima Fast Facts": https://www.caloptima.org/AboutUs.aspx

SECTION II: INSTRUCTIONS AND CONDITIONS

A. General Requirements

1.0 This RFP 19-021A contains a list of requirements for the successful Offeror. A qualified Offeror, for the purpose of this RFP 19-021A, is an Offeror that can reliably, competently and independently provide the required services to CalOptima for the entire term of the agreement. The contract term is One (1) year with Three (3), one year renewal options at CalOptima's discretion.

2.0 As required under Ordinance No. 3896 of the County of Orange, State of California, Offeror hereby acknowledges and agrees that the obligations of CalOptima under any resulting contract are solely the obligation of CalOptima, and the County of Orange, State of California, shall have no obligation or liability therefore.

B. Instructions and Conditions

1.0 Examination of Proposal Documents

1.1 Before submitting a Proposal, each Offeror represents that it has thoroughly examined and become familiar with the work required under this RFP 19-021A and it is capable of performing quality work to achieve CalOptima's objectives.

1.2 Each Offeror must be satisfied by personal examination, and by such other means as it may prefer, as to the actual conditions and requirements under which the contract will be performed.

1.3 CalOptima reserves the right to remove from its list for future RFPs, for an undetermined period of time, the name of any Offeror for failure to accept a contract, failure to respond to two consecutive RFPs and/or unsatisfactory performance. Please note that a "No Bid" is considered a response.

2.0 Addenda

CalOptima may make changes to the requirements of this RFP 19-021A. Any CalOptima changes to the requirements will be made by written addendum to this RFP 19-021A. Any written addenda issued pertaining to this RFP 19-021A shall be incorporated into the terms and conditions of any resulting contract. CalOptima will not be bound to any modifications to, or deviations from, the requirements set forth in this RFP 19-021A as the result of oral instruction. All addenda will be submitted by CalOptima via BidSync.

3.0 Procurement Schedule

The following table presents the anticipated schedule for this procurement. All dates are subject to change at CalOptima's discretion. Changes to the schedule will be communicated via an addendum to this RFP through BidSync.

Event	Date
RFP 19-021A Issue Date	June 06, 2019
Written Questions due from Offerors via BidSync	June 24, 2019
Responses to Questions due from CalOptima via BidSync	June 27, 2019
Proposals due from Offerors via BidSync	July 11, 2019
Demonstrations/Interviews/Site Visits/Reference Checks	August 05 - 08, 2019
Vendor Selection	August 14, 2019

4.0 Procurement Point-of-Contact

4.1 All communications relating to this RFP 19-021A must be directed to CalOptima's designated contact below:

Ryan Prest
rprest@caloptima.org
CalOptima Vendor Management Department
505 City Parkway West
Orange, CA 92868

4.2 Any and all communications relating to this RFP must be directed to the Vendor Management Point-of-Contact named above. Communications relating to this RFP between respondents and other CalOptima staff members concerning this RFP are strictly prohibited. Failure to comply with these requirements will result in Proposal disqualification.

5.0 Questions and Clarifications

5.1 If an Offeror desires an explanation or clarification of any kind regarding a provision of this RFP 19-021A, the Offeror must generate a written request for such explanation or clarification through BidSync by 2:00, PM Pacific Time, June 24, 2019. Inquiries received after 2:00 PM Pacific Time, June 24, 2019 will not be responded to.

5.2 CalOptima responses will be communicated via BidSync, and will be sent no later than 5:00 PM Pacific Time, June 27, 2019.

6.0 Proposal Preparation

6.1 Proposals shall be typed in 12 point font and submitted via BidSync in a Word, Excel or PDF format. Do not provide zip files. Offerors should not include any unnecessarily elaborate or promotional material.

6.2 Information shall be presented and submitted through BidSync and must be submitted in the order in which it is requested. Please limit your responses to no more than five (5) documents. Each file name must contain your company name and RFP number. The responses must directly address the items requested in each requirement. Complete, concise and specific responses are required. Lengthy narrative is discouraged.

6.3 Letter of Transmittal

A mandatory Letter of Transmittal shall be included with the Proposal and must, at a minimum, contain the following:

- Identification of Offeror, including name, address and telephone number.
- Name, title, e-mail address and telephone number of Offeror's representative during the period of proposal evaluation.
- Proposed working relationship between Offeror and subcontractors, and if not applicable, indicate so.
- A statement to the effect that the Proposal shall remain valid for a period of not less than 150 calendar days from the Proposal due date.
- Signature of a person authorized to bind Offeror to the terms of the Proposal.
- Either a statement indicating no contract changes or submit a Request to Negotiate Contract Terms as presented in this RFP as Attachment 5).
- A statement clarifying if you are bidding on one or both or the available select services.

Back to Agenda

7.0 Proposal Submittal

7.1 Date and Time

All Proposals must be submitted via BidSync and must be submitted no later than 2:00 PM Pacific Time, July 11, 2019. CalOptima recommends you begin the submission process well in advance of the proposal submission deadline to allow ample time for transmission.

7.2 Acceptance of Proposals

7.2.1 CalOptima reserves the right to accept or reject any and all proposals, or any item or part thereof, or to waive any informalities or irregularities in proposals.

7.2.2 CalOptima reserves the right to withdraw this RFP at any time without prior notice and CalOptima makes no representations that a contract will be awarded to any Offeror responding to this RFP.

7.2.3 CalOptima reserves the right to postpone proposal opening for its own convenience.

8.0 Pre-Contractual Expenses

8.1 Pre-contractual expenses are defined as expenses incurred by the Offeror in:

- preparing its proposal in response to this RFP;
- submitting its proposal to CalOptima;
- negotiating with CalOptima on any matter related to its proposal; or
- any other expenses incurred by the Offeror prior to date of award, if any, of the contract.

8.2 CalOptima shall not, in any event, be liable for any pre-contractual expenses incurred by Offeror in the preparation of its proposal. Offeror shall not include any such expenses as part of its proposal.

9.0 Joint Offers

Where two or more Offerors desire to submit a single proposal in response to this RFP 19-021A, they should do so on a prime-subcontractor basis rather than as a joint venture. CalOptima intends to contract with a single firm and not with multiple firms doing business as a joint venture.

10.0 Non-Collusion Affidavit

As part of its Proposal, Offerors are required to complete and sign the Non-Collusion Affidavit provided as RFP Attachment 2. Proposals submitted to CalOptima without a fully executed copy of the Non-Collusion Affidavit will be considered non-responsive.

11.0 Contract Type and Term

11.1 It is anticipated that the contract resulting from this solicitation, if awarded, will be a firm-fixed price contract unless otherwise specified.

11.2 The initial term of any resulting agreement shall be for a period of One (1) year, with an anticipated effective date of TBD, with Three (3) consecutive, one year renewal options at CalOptima's discretion.

12.0 Eligibility for Contract Award

CalOptima will not award this RFP or enter into a contract with any Offeror who is debarred, suspended or otherwise ineligible for the award of a contract or grant by any Federal agency or from participating in Federal Healthcare Programs. By submission of this proposal, Offeror

acknowledges and warrants that the Offeror and any of its officers, directors, owners, partners, or any person having primary management or supervisory responsibilities within the Offeror's business are not presently debarred, suspended, proposed for debarment or declared ineligible for the award of contracts by any Federal agency or from participating in any Federal healthcare programs. Offerors must complete RFP Attachment 3 entitled "Offeror Eligibility Certification" and submit as part of its proposal.

13.0 Withdrawal of Offers

Offers may be withdrawn only by signature of Offeror, provided the request is received by the person whose duty it is to open proposals prior to the time fixed for proposal opening. Each proposal opened will be considered to be a valid offer.

14.0 Use of Offeror Response and Accompanying Material

14.1 All materials submitted become the property of CalOptima and will not be returned. If the Offeror intends to submit confidential or proprietary information as part of the proposal, any limits on the use or distribution of that material should be clearly delineated in writing. However, CalOptima is a public agency and therefore subject to the California Public Records Act (California Government Code, Section 6250 et seq).

14.2 CalOptima will use reasonable precautions allowed by law to avoid disclosure of the Offeror proposal. CalOptima reserves the unrestricted right to copy and disseminate the Offeror proposals for internal review and for review by external advisors, at CalOptima's sole discretion.

15.0 Evaluation and Award of Contract

15.1 Issuance of this RFP 19-021A or receipt of proposals does not commit CalOptima to award a contract. CalOptima reserves the right to withdraw this RFP 19-021A at any time without further notice and, furthermore, makes no representation that any contract will be awarded to any Offeror responding to this RFP 19-021A. CalOptima expressly reserves the right to postpone proposal opening for its own convenience; to accept or reject any or all proposals received in response to this RFP 19-021A; to waive informalities and minor irregularities in bids received; to reject any and all proposals responding to this RFP 19-021A without indicating any reasons for such rejection; to negotiate with other than the selected Offeror should negotiations with the selected Offeror be terminated; to negotiate with more than one Offeror simultaneously or to cancel all or part of this RFP 19-021A.

15.2 In no event will CalOptima be limited to selecting a successful Offeror based solely upon total cost submitted. Evaluation of the Proposals shall be generally based upon the reasonableness of price; experience in the market; capabilities of the Offeror to effectively complete the project requirements; financial stability and completeness of the Proposal response and the requested data. All proposals received as specified will be evaluated by CalOptima staff in accordance with the above criteria and additional sub-criteria that may be considered as relevant or pertinent by the evaluators.

15.3 In accordance with CalOptima's purchasing policy, CalOptima staff may select one or more responsive, responsible Offeror(s) whose Proposal(s) are most advantageous to CalOptima– price, quality and other factors considered.

15.4 False, incomplete, or unresponsive statements in connection with a Proposal may be cause for rejection. The evaluation and determination of fulfillment for the above requirements shall be in CalOptima's sole judgment and this judgment shall be final. Any Proposal not meeting terms and conditions may be rejected.

15.5 Offerors who submit a proposal in response to this RFP 19-021A shall be notified in writing regarding whether its firm was awarded the contract or not. Such notification shall be made within a reasonable time after the date the contract is executed.

16.0 Exceptions/Deviations

16.1 CalOptima requires each Offeror to state any exceptions to or deviations from the requirements of this RFP 19-021A, separating "technical" exceptions from "contractual" exceptions. Where Offeror wishes to propose alternative approaches to meeting CalOptima's technical requirements, these should be thoroughly explained.

16.2 Each deletion, addition, and modification, etc. to CalOptima's contract or BAA must be logged and submitted in the "Request to Negotiate Contract/BAA Terms" form (Attachment 5 of this RFP). Failure to do so will result in your firm's proposal being deemed non-responsive. Even if you currently have a contract or BAA with CalOptima or have had one in the past, the services within this RFP are considered separate and CalOptima will not add them to an existing agreement.

17.0 Appendices

Information considered by Offeror to be pertinent to this project and which has not been specifically solicited in any of the aforementioned sections may be placed in a separate appendix section. Offerors are cautioned, however, that this does not constitute an invitation to submit large amounts of extraneous materials; appendices should be relevant and brief.

18.0 Non-Solicitation of Employees

Neither CalOptima nor CONTRACTOR shall solicit nor hire any personnel of the other during the Term of this Contract, or for a period of one year following the termination of this Contract, without the consent of the other party.

SECTION III: TECHNICAL AND PRICE PROPOSAL REQUIREMENTS

A. Technical Proposal Requirements

1.0 Corporate Capabilities

1.1 Qualifications and Experience

1.1.1 Provide a brief profile of the firm, including the types of services offered; the year founded; form of the organization (corporation, partnership, sole proprietorship); number, size and location of offices; number of employees.

1.1.2 Briefly describe the background of the company, including the formation, implementation of new business, sales, mergers, acquisitions, ownership, current lines of business and intended future lines of business. If applicable, indicate action to prevent disruption of current and/or new business.

1.1.3 Identify the senior management staff and their length of time with the company. Identify management staff that would be directly involved with the CalOptima contract and their length of time with the company.

1.1.4 Identify three (3) references of clients similar in scope and complexity to that of CalOptima. References shall include the name, title, email address, and telephone number of the person at the client organization who is most knowledgeable about the work.

1.1.5 Indicate any past or current material disputes including litigation with customers, provider groups, government entities, client groups and any other litigation with contingent liability of $500,000 or more. State the results or status of the dispute.

1.1.6 Is your company under investigation or being sued by any governmental agency? Has your company been barred from participation in a publicly-funded health program (such as Medicare or Medicaid)? If yes, provide a detailed explanation of the circumstances and status.

1.1.7 Provide details of any inquiry letters and/or negative audit results received from any state or federal agency or any outside business auditor.

1.1.8 Has your organization been audited in accordance with the Statements for Standards on Attestation Engagements (SSAE) 16 (formerly SAS 70 audit)? If yes, were any exceptions noted? If not audited, please explain.

1.1.9 If the respondent proposes to use subcontractor(s), it must describe any existing or ongoing relationships with the subcontractor(s); including project descriptions and the portions(s) of this RFP intended to be subcontracted

1.1.10 Identify subcontractors by company name, address, contact person, telephone number and project function and describe Offeror's experience working with each subcontractor.

2.0 Information Processing System (If you are proposing use of any systems, please complete)

2.1 Describe the current information processing system(s) used, highlighting features that ensure flexibility, timely updates of files, table-driven parameters, managed care orientation and timely, appropriate enhancements.

2.2 Describe the number, variety and location of processing platforms you use today. Are you planning a migration or consolidation of your system platforms? Describe the process, including testing and timeframes. Identify which platform(s) will be used to administer CalOptima's program.

2.3 Describe the security options related to user login and levels of security available by user profile.

2.4 Complete RFP Attachment 6: Security Questionnaire to describe your firm's standards for security, privacy, compliance and risk management and adherence to industry and government best practices.

2.5 Indicate the location and capacity of your data center(s). Describe your information systems disaster and recovery plans and identify applicable locations.

2.6 Quantify your application/system downtime monthly from January 1, 2015 to current. Identify scheduled and unscheduled downtime separately.

2.7 Do you operate your information processing system or do you have a subcontractor or vendor operate the system? If you are using a subcontractor(s), include the name(s).

2.8 Do you own the source code and manage all version upgrades, maintenance and application modifications internally? If not, use the table format below to identify entities and services performed.

System Subcontractors/Vendors					
Company Name	**Contact Name**	**Telephone**	**E-Mail**	**System/ Application Supported**	**Service Provided**

2.9 Can the software be customized to meet CalOptima's specific needs, including Programming/development integration, APIs and interfaces?

2.10 Can 18 months of past utilization from other systems be loaded and maintained within your system? Please describe any limitations.

2.11 How does the software access within and across the public Internet? Does the software have web-browser access? Describe the features of your member web portal.

2.12 Describe in detail all available web functionality and tools that will be made available to CalOptima through any resulting agreement.

2.13 Itemize required software and hardware to be installed/operational by CalOptima to achieve on-line connectivity to your organization. Will you supply all or some required software and hardware for on-line connectivity? Identify these items specifically and in the Price Proposal.

2.14 What is the process and format used to transfer data to CalOptima?

2.15 Describe the design, development and implementation processes used to update and modify the current information processing system software to maintain client requirements and industry standards.

- Are system updates done on a client-specific basis or on a cyclical basis for all or multiple clients?
- Confirm your commitment to maintain the software and to provide "bug" fixes and work-around solutions.
- Provide a summary of updates in-progress or planned. What abilities and timeframes will CalOptima have to test the upgrade prior to implementation?
- CalOptima expects to receive updates and new versions at no additional fee during the contract period. Confirm that updates and new versions will be made available on this basis to CalOptima.
- Indicate if CalOptima has the option of declining or postponing implementation of system changes or enhancements.

3.0 Financial Management

3.1 Provide evidence of financial stability sufficient to demonstrate reasonable stability and solvency appropriate to the requirements of this procurement:

3.1.1 If the respondent is a corporation that is required to report to the Securities and Exchange Commission, it must submit its two most recent SEC Forms 10K, Annual Reports.

3.1.2 If the respondent is *not* a corporation that is required to report to the Securities and Exchange Commission, it must submit its current financial statement plus previous two (2) years of audited financial reports including all supplements, management discussion and analysis, and actuarial options.

3.1.2.1 At a minimum, such financial statements and reports shall include: balance sheet; statement of income and expenses (also referred to as "statement of profit and loss"); statement of changes in financial position; cash flows; and capital expenditures.

3.1.3 If any change in ownership is anticipated during the twelve (12) months following the proposal due date, the respondent must describe the circumstances of such change and indicate when the change is likely to occur.

3.1.4 The respondent must identify any conditions (e.g., bankruptcy, pending litigation, planned office closures, impending merger) that may impede Offeror's ability to complete the project.

3.2 Include a copy of your billing invoice as part of your firms' proposal.

4.0 Proposed Staffing and Project Organization

4.1 Provide education, experience and applicable professional credentials of project staff.

4.2 Furnish brief resumes (not more than two [2] pages each) for the proposed Project Manager, Account Manager, and other key personnel.

4.3 Indicate adequacy of labor resources utilizing a table projecting the labor-hour allocation to the project by individual task.

4.4 Identify key personnel proposed to perform the work on the specified tasks and include major areas of subcontract work.

4.5 Include a project organization chart which clearly delineates communication/reporting relationships among the project staff.

4.6 Include a statement that key personnel will be available to the extent proposed for the duration of the project, acknowledging that no person designated as "key" to the project shall be removed or replaced without the prior written concurrence of CalOptima.

4.7 Identify the individuals who will be assisting with implementation, contract rollout, reporting and system questions. Include a list of qualifications and credentials for those individuals. Identify if any of these individuals continue in ongoing operation roles.

4.8 Describe the roles, responsibilities and deliverables of CalOptima and the Offeror during the implementation phase in a detailed work plan. The work plan must outline sequentially and describe the elements and activities that would be undertaken in completing the tasks; specify by name and job description, the person Offeror would assign to perform said task; the hourly rate of each person; rate for task identified; and include a schedule for completing the tasks in terms of elapsed weeks from the commencement date. Include details regarding the timeline needed before system is capable of being "live" for use after contract execution.

4.9 Describe in detail, the timeline dependencies for availability of required data feeds and interfaces to CalOptima systems in order to implement Offeror s system successfully based upon the timeline you propose.

4.10 What CalOptima resources are required by Offeror to meet the implementation timeframe?

B. Price Proposal Requirements

CalOptima is anticipating and hourly-rate bid for these types of services. If your firm would prefer to bill a different way, please submit that as a secondary offering to the RFP so we can review both options. If you are bidding for both services, please make sure your pricing is separate for each so we can evaluate all bidders for each specific service.

The successful Offeror shall not be allowed to invoice CalOptima throughout the duration of any resulting contract for any pricing not listed within the following pricing form. Pricing data contained in other areas of the Offeror's Proposal will not be considered.

C. Scope of Work

CalOptima is requesting proposals for two separate Health Homes Programs Select Services. They are:

- OBJECTIVE A - HHP Select Services - Housing Services
- OBJECTIVE B - HHP Select Services – Accompaniment Services

Interested bidders can bid on one of both of the select services below.

I. BACKGROUND

CalOptima contracts on a full or partial risk capitated basis with its delegated Health Maintenance Organizations and provider-sponsored organizations, known as Physician Hospital Consortia and Shared Risk Groups (jointly referred to as Health Networks), to provide care to approximately 75% of CalOptima members. Health Networks (HNs) are financially responsible according to their contract agreement to provide medically necessary services to their assigned members.

CalOptima serves the remaining members through a fee-for-service program known as "CalOptima Direct". CalOptima Direct network includes members who select to be in CalOptima Community Network (CCN) and members who are in specific categories (e.g., members with share of costs,

members with both Medicare and Medi-Cal) who are unable to select another network and would be served through the CalOptima Direct – Administrative program.

Health Homes Program (HHP)

The Federal Patient Protection and Affordable Care Act (ACA) Section 2703 authorizes the Medicaid Health Home State Plan Option. In California, Assembly Bill 361 (2013) authorizes implementation of the Health Home Program (HHP). Statewide, HHP will be implemented in selected counties with Medi-Cal Managed Care Plans (MCPs) operating as lead entities. CalOptima, along with other selected counties in California are implementing HHP on a phased basis:

- No sooner than January 1, 2020 for CalOptima members with eligible chronic physical conditions and substance use disorder (SUD); and,
- No sooner than July 1, 2020 for members with Serious Mental Illness (SMI) and/or Seriously Emotional Distress (SED).[1]

DHCS has developed the "Health Homes for Patients with Complex Needs Program", including person-centered coordination to improve member outcomes through two objectives:

- Coordination of physical health services, mental health services, substance use disorder services, community-based LTSS, palliative care, and social support needs; and,
- Reduction of avoidable health care costs, including hospital admission/readmissions, Emergency Department visits, and nursing facility stays

DHCS is targeting the top 3-5% highest risk/utilizing Medi-Cal members with specific multiple chronic physical conditions aligned with certain acuity criteria, or SMI whose outcomes may improve through HHP interventions. In summary, CalOptima Medi-Cal members must meet criteria established by DHCS including both of the 'chronic condition' and 'acuity' requirements. CalOptima's Medicare and members dually eligible for Medicare and Medi-Cal can participate through referrals only if eligibility criteria are met. Part of the HHP eligible members may meet HHP eligibility criteria of 'Chronic Homeless'. Details on these eligibility requirements and exclusion criteria can be found in the HHP Program Guide available at the following link: https://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx .

DHCS has identified the following six (6) HHP core services and expects these services to be available to all members enrolled in HHP:

1. Comprehensive Care Management;
2. Care Coordination;
3. Health Promotion;
4. Comprehensive Transitional Care;
5. Individual and Family Support Services; and,
6. Referral to Community and Social Supports, including housing navigation and sustainability services.

Pursuant to the DHCS Program Guide and All Plan Letter 18-012: Health Homes Program Requirements, Managed Care Plans (MCPs) will be responsible for overall administration, including development of the HHP network. HHP services will be coordinated through Community Based-Care Management Entities (CB-CMEs). HHP services will be provided primarily by a CB-CME under

[1] *Reference California SPA: 18-020 for SMI/SED definition at* https://www.medicaid.gov/State-resource-center/Medicaid-State-Plan-Amendments/Downloads/CA/CA-18-0020.pdf

a contract with CalOptima as the HHP Lead Entity. CB-CMEs will be responsible to coordinate with members, existing providers and other agencies.

CalOptima expects to be the CB-CME for members assigned to CalOptima Direct. Since HNs already provide most HHP services under their delegated contract, CalOptima has delegated CB-CME responsibilities to HNs for their assigned members. HNs may be permitted to subcontract for some select HHP services.

II. OBJECTIVE A – Housing Services

The purpose of this RFP is to solicit proposals from HHP select service providers, henceforth referred to as "OFFERORS", interested in contracting with CalOptima to provide Health Homes Program (HHP) ***housing navigation and sustainability services***. OFFEROR services shall be provided to CalOptima's Medi-Cal members enrolled in HHP program. For ease of administration, consistency and scale, CalOptima will require OFFEROR to make HHP services hereunder available to HNs, either through CalOptima's contract or a separate contract with individual HNs choosing to contract with OFFEROR for such services.

OFFEROR may also extend similar services, terms and conditions for other Medi-Cal programs supporting homeless population including, but not limited to, Whole Person Care (WPC). Such programs are administered either by CalOptima and/or other entities including the Orange County Health Care Agency (OCHCA).

CalOptima has the option to award contracts to a single or multiple OFFEROR(s), as needed in an effort to ensure the required coverage for its members. CalOptima has the option to retain any partial services in-house.

OFFEROR services shall be available to all CalOptima HHP enrolled members assigned to CalOptima Direct and any HHP enrolled member assigned to a CalOptima delegated HNs choosing to contract with OFFEROR for such services. OFFEROR will provide such services according to contract terms and expectations outlined by each contracted entity.

OFFEROR shall work with each contracted entity as applicable to ensure seamless access to the delivery of services and utilize processes and tools required by each individual entity.

Housing Navigation and Sustainability Services

The OFFEROR of Housing Services must have one or more HHP designated staff, referred to as a "Housing Navigator", who will assist members experiencing homelessness or at risk of homelessness, as directed by the contracted entity, as applicable. CalOptima will accept an application from the OFFEROR even if the OFFEROR can provide only one of the two services listed below.

The OFFEROR of Housing Services must provide one or both of the following:

- Individual Housing Transition Services and
- Individual Housing and Tenancy Sustaining Services

1. Individual Housing Transition Services to assist members with obtaining housing, such as individual outreach and assessments. These services include:

A. Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;

B. Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;

C. Assisting with the housing application process;

D. Assisting with the housing search process;

E. Identifying and securing resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;

F. Ensuring that the living environment is safe and ready for move-in;

G. Assisting in arranging for and supporting the details of the move; and

H. Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

I. Coordinating with the County for those HHP members that are also in the County's Coordinated Entry System as there may be housing vouchers or programs identified for the client through this system.

2. Individual Housing and Tenancy Sustaining Services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

A. Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;

a) Providing a plan for the client in recognition of these behaviors

b) Providing a plan for the landlord (who to call) if the behaviors are noted

B. Education and training on the roles, rights and responsibilities of the tenant and landlord;

C. Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;

D. Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;

E. Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;

F. Ensuring that the member is connected to social supports in the vicinity of their new community and that the other service providers connected with the member also know they are newly housed.

G. Assisting the client in accessing resources that may be necessary to obtain immediate need items including, but not limited to: toiletries, cleaning products, kitchen ware, bed, towels and linens, and refrigerator.

H. Assistance with the housing recertification process;

a) Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and

b) Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

III. Performance Guarantee

OFFEROR commits to the performance as expected and comply with the Corrective Action Plan provided by CalOptima if failure to meet the requirements of the contract. CalOptima reserves the right to pursue compliance actions in accordance with CalOptima Policy HH.2002 and HH.2005.

IV. Claims Processing and Reporting

OFFEROR or its staff shall never charge a member directly for any service hereunder nor shall OFFEROR ever accept a gratuity from a member for such services.

DHCS has established a HIPAA compliant HHP specific HCPCS code 'G9008' which is defined as "Coordinated care fee, physician coordinated care oversight services". OFFEROR agrees to comply with all DHCS claims submission timeliness requirements. OFFEROR agrees to adhere to the Provider Dispute Resolution process according to DHCS requirements and CalOptima's expectations.

OFFEROR will use the following modifiers to identify non-clinical staff services, in-person and telephonic/telehealth 'visits', and other HHP services such as case notes documentation, case conferences, and tenant supportive services.

OFFEROR will use HCPCS code with corresponding modifier for billing and reporting as follows:

HHP Service	HCPCS Code	Modifier	Units of Service (UOS)
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff, including case note documentation, case conferences and tenant supportive services	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed

V. Supplemental Information

CalOptima will evaluate OFFEROR based on all of the above requirements, service readiness as well as the responses to the "Supplemental Questionnaire" below. OFFEROR must respond as fully, accurately and completely as possible to each of the following questions as a part of its proposal response. OFFEROR shall respond with current state and how OFFEROR envisions meeting CalOptima's requirements.

All OFFERORs must provide information demonstrating:

A. Ability to capture, track and report the delivery of services described in Section II above.

B. Experience working with Medi-Cal members and/or similar racially, ethnically and culturally diverse populations.

C. Experience working with persons with multiple chronic conditions, SMI, and members experiencing homelessness.

D. Experience working with entities such as health networks, providers and county agencies and/or community-based organizations.

E. OFFEROR must submit their background check process for their staff for review by CalOptima.

F. Ability to hire, retain, manage and support paraprofessional or other staff with experience and knowledge of the population and processes specific to the designated service type as described below;

   a) If staff have insufficient required experience, please explain how OFFEROR would train staff to provide support services and participate in interdisciplinary care plans.

   b) Ability to provide services within two (2) business days of request.

   c) Ability to support members' need to speak in Orange County threshold languages.

G. Ability to receive, record and disseminate information about encounters with members , including services provided, findings, recommendations, referrals e.g., with member, health plan or other business partnerships involved in the care of members.

H. Confirm the ability to use tools created by CalOptima, to dedicate time for staff to train in use of these tools and to adopt internal processes (e.g., policies, desktops and reports) to track interventions, capture health outcomes, facilitate care planning and referral management.

I. Communication methods proposed to communicate with CalOptima and other contracted entities (such as health networks).

J. Current processes in place to handle urgent and emergent member grievances and coordinate resolution.

K. Experience working with Orange County Community Resources and target populations to ensure seamless access to the delivery of housing support services and to provide housing navigation services, not just referrals to housing, including:

   a) Working with individuals who are experiencing or may imminently be experiencing homelessness;
   b) Providing Individual Housing Transition Services, as described in Section II;
   c) Providing Tenancy Sustaining Services, as described in Section II;
   d) Working with Orange County housing agencies, permanent housing providers, including supportive housing providers, and other community-based organizations, Coordinated Entry process.
   e) Describe tools or standards that staff will follow to report or document the notes after services provided to each member.
   f) Describe OFFEROR's ability to be flexible with contracted entities to provide the same services with various expectations.

VI. OBJECTIVE B – Accompaniment Services

The purpose of this RFP is to solicit proposals from HHP select service providers, henceforth referred to as "OFFERORS", interested in contracting with CalOptima to provide Health Homes Program (HHP) ***accompaniment services.*** OFFEROR services shall be provided to CalOptima's Medi-Cal members enrolled in HHP program. For ease of administration, consistency and scale, CalOptima will require OFFEROR to make HHP services hereunder available to HNs, either through CalOptima's contract or a separate contract with individual HNs choosing to contract with OFFEROR for such services.

CalOptima has the option to award contracts to a single or multiple OFFEROR(s), as needed to ensure the required coverage for its members. CalOptima has the option to retain any partial services in-house.

OFFEROR services shall be available to all CalOptima HHP enrolled members assigned to CalOptima Direct and any HHP enrolled member assigned to a CalOptima delegated HNs choosing to contract with OFFEROR for such services. OFFEROR will provide such services according to contract terms and expectations outlined by each contracted entity.

OFFEROR shall work with each contracted entity as applicable to ensure seamless access to the delivery of services and utilize processes and tools required by each individual entity.

Accompaniment:

The OFFEROR of Accompaniment Service will be required to provide 'accompaniment' services to HHP members for medically necessary appointments in a timely manner (as described in the CalOptima Provider Manual, Section M6) as approved and requested by CalOptima and/or Health Networks according to the expectations outlined below:

A. Outreach to member in advance of scheduled appointment to coordinate, including to obtain appointment date and time, and to provide information on accompaniment process, what to expect at the appointment, identification of potential questions.
    a) On a case by case basis, as requested by CalOptima and/or Health Networks, discuss in advance of an appointment for special instructions.
    b) Contact member the business day prior to the appointment for reminder and confirmation of the appointment.
B. Provide same-day services to a member who needs accompaniment to an unplanned service such as urgent care or emergency department.
C. Traveling with member to an appointment or meeting member at provider office based upon member's need.
D. Attending appointment with member at clinical provider office as requested.
E. Members are expected to arrange their own transportation or request CalOptima to provide non-medical transportation to the appointment. OFFEROR is not permitted to drive member to the appointment or allow member to drive OFFEROR (staff) to the appointment.
F. CalOptima will identify HHP member for accompaniment services for specific appointment and notify OFFEROR.
G. CalOptima expects that most accompaniment will take place within Orange County.

a) CalOptima prefers OFFEROR to provide accompaniment throughout Orange County; CalOptima will accept proposals for services on a regional basis;

b) Out-of-county requests outside the ten (10) miles of Orange County may be required on a case-by-case basis.

H. OFFEROR must send to member and CalOptima, no later than 2 business days following the date of the appointment, a summary report of the discussion, questions raised, next appointment (if any) member next steps, and any referrals for follow-up by CalOptima. CalOptima and Health Network will provide standard form that OFFEROR will be required to complete.

I. OFFEROR must participate in care team meetings and implementing care plan, as requested. CalOptima and Health Network will notify OFFEROR and conduct Care team meetings outside of the member appointments.

VII. Performance Guarantee

OFFEROR commits to the performance as expected and comply with the Corrective Action Plan provided by CalOptima if failure to meet the requirements of the contract. CalOptima reserves the right to pursue compliance actions in accordance with CalOptima Policy HH.2002 and HH.2005.

VIII. Claims/Reimbursement Processing and Reporting

OFFEROR or its staff shall never charge a member directly for any service hereunder nor shall OFFEROR ever accept a gratuity from a member for such services.

DHCS has established a HIPAA compliant HHP specific HCPCS code 'G9008' which is defined as "Coordinated care fee, physician coordinated care oversight services". OFFEROR agrees to comply with all DHCS claims submission timeliness requirements. OFFEROR agrees to adhere to the Provider Dispute Resolution process according to DHCS requirements and CalOptima's expectations.

OFFEROR will use the following modifiers to identify non-clinical staff services, in-person and telephonic/telehealth 'visits', and other HHP services such as case notes documentation, case conferences, and driving to appointments.

OFFEROR will use HCPCS code with corresponding modifier for billing and reporting as follows:

HHP Service	HCPCS Code	Modifier	Units of Service (UOS)
In-Person: Provided by Non-Clinical Staff, including accompaniment	G9008	U4	15 Minutes equals 1 UOS; Multiple UO allowed
Phone/Telehealth: Provided by Non-Clini Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UO allowed
Other Health Home Services: Provided by Non-Clinical Staff, including participation in ICT, care planning and driving to appointments.	G9008	U6	15 Minutes equals 1 UOS; Multiple UO allowed

IX. Supplemental Information

CalOptima will evaluate OFFEROR based on all of the above requirements, service readiness, as well as the responses to the "Supplemental Questionnaire" below. OFFEROR must respond as fully, accurately

and completely as possible to each of the following questions as a part of its proposal response. OFFEROR shall respond with current state and how OFFEROR envisions meeting CalOptima's requirements.

All OFFERORs must provide information demonstrating:

A. Ability to capture, track and report the delivery of services described in Section II above.

B. Experience working with Medi-Cal members and/or similar population racially, ethnically and culturally diverse populations.

C. Experience working with persons with multiple chronic conditions, Substance Use Disorders and/or Serious Mental Illness.

D. Experience working with entities such as health networks, providers and county agencies and/or community-based organizations.

E. OFFEROR must submit their background check process for their staff for review by CalOptima.

F. Ability to hire, retain, manage and support paraprofessional or other staff with experience and knowledge of the population and processes specific to the designated service type as described below;

   a) If staff have insufficient required experience, please explain how OFFEROR would train staff to provide support services and participate in interdisciplinary care plans.

   b) Ability to provide services within two (2) business days of request.

   c) Ability to support members' need to speak in Orange County threshold languages.

G. Ability to receive, record and disseminate information about encounters with members, including services provided, findings, recommendations, referrals e.g., with member, health plan or other business partnerships involved in the care of members.

H. Confirm the ability to use tools created by CalOptima, to dedicate time for staff to train in use of these tools and to adopt internal processes (e.g., policies, desktops and reports) to track interventions, capture health outcomes, facilitate care planning and referral management.

I. Communication methods proposed to communicate with CalOptima and other contracted entities (such as health networks).

J. Current processes in place to handle urgent and emergent member grievances and coordinate resolutions.

K. Experience in providing accompaniment to appointments or direct face-to-face services to members related to physical health, mental health and/or social determinants of health services.

L. OFFEROR's process/ability to assign the designated staff to accompany the same member to future appointments.

M. How OFFEROR selects staff to accompany member (e.g., geographical, language/culture, type appointment) and, if applicable, how processes will be modified for HHP.

N. How staff currently prepares for an appointment/face-to-face session and what information may be needed from CalOptima.

O. Tools or standards staff will follow to report or document the notes after accompaniment event.

P. Describe OFFEROR's ability to be flexible with contracted entities to provide the same services with various expectations from contracted entities.

RFP Attachment 1: Mandatory Offeror Acknowledgement

ACKNOWLEDGEMENT

In signing this Proposal, Offeror acknowledges receipt of the RFP 19-021A and the following addenda, if any (expand list as necessary):

Addendum no. _____ , Received on: _____

Addendum no. _____ , Received on: _____

Addendum no. _____ , Received on: _____

I acknowledge receipt of RFP 19-021A and addenda cited.

I hereby certify on behalf of _____ that the contents of this Proposal are, to the best of my ability, completely in compliance with all requirements of the RFP 19-021A and the terms and conditions of the contract, without exceptions, other than those expressly listed and explained in this Proposal. This Proposal is an irrevocable offer, which shall remain in full force and effect for 150 calendar days after the Proposal due date.

RFP Attachment 3: Offeror Eligibility Certification

OFFEROR ELIGIBILITY CERTIFICATION

Offeror certifies, to the best of its knowledge and belief, that that offeror and/or any of its Principals:

A. Are ☐, are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contract by any Federal agency or from participating in any Federal healthcare programs;

B. Have ☐, have not ☐, within a ten (10)-year period preceding this offer, been convicted of or had a civil judgement rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

C. Are ☐, are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in Section (B); and

D. Have ☐, have not ☐, within a ten (10)-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,000 for which the liability remains unsatisfied.

For purposed of this certification, "Principal" means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g. general manager, plant manager, head of a division or business segment and similar positions).

RFP Attachment 6: Security Questionnaire

Offeror is required to certify that it (and any proposed subcontractors) comply with the following security provisions, as required in this RFP. Offeror must complete the following questionnaire and explain how you propose to meet any exceptions.

1. Information Security Program, Policy & Procedures

    a. Do you have documented information security policies and procedures? If so, list the titles of each policy.

    b. Does your security policy meet HIPAA requirements? Has it been audited by external auditor, and if so, when was it last audited?

    c. Do you have a formal information classification procedure? Describe in particular, how would patient data be categorized?

2. Personnel Security

    a. Has your organization formally appointed a central point of contact for security coordination, e.g. a designated information security officer and/or privacy officer? If so, whom, and what is their position within the organization?

    b. Does your organization perform background checks to examine and access an employees' or contractor's work and criminal history?

    c. Do you work with third parties, such as IT service providers that have access to or store your sensitive information?

    d. In the event of a security incident with one of your third-party vendors, what is the policy for alert notifications, timeline for resolution, etc? If such a process exists, provide the document as part of your response as Proposal Exhibit: Third-party Security Event Notices

3. Network Security

    a. Provide a diagram of your firms network configuration. Has your IT vendor provided information regarding how your sensitive information systems are protected?

    b. Are systems and networks that host, process and or transfer sensitive information "protected" (isolated or separated) from other systems and/or networks?

    c. Are internal and external networks separated by firewalls with access policies and rules?

    d. Is there a standard approach for protecting network devices to prevent unauthorized access/network related attacks and data-theft?

    e. Is sensitive information transferred to external recipients? If so, what controls are in place to protect sensitive information when transferred (e.g. with encryption?)

    f. How does your firm manage vulnerabilities and threats? How often are Vulnerability Assessments performed?

g. What is the remediation process for vulnerabilities that are discovered?

h. Are third party connections to your network monitored and reviewed to confirm authorized access and appropriate usage? How often does your firm attest third party network connectivity?

i. What network security tools do you have in place? (i.e., DLP, IPS/IDS, Advanced Malware Detection, Web Content Filtering, etc.).

j. Describe your methodology for tuning your security tools (i.e., DLP, IPS, Advanced Malware Detection, Web Content Filtering, etc.) How do you ensure your security tools are effective and up to date?

k. Does your firm conduct annual internal and external penetration tests by a 3rd party?

4. Logical Access

a. Do you have a formal access authorization process based on "least privilege" (employees are granted the least amount of access possible in order to perform their assigned duties) and need to know (access permissions are granted based upon the legitimate business need of the user to access the information)?

b. How are systems and applications configured to allow access only to authorized individuals?

c. Is there a list maintained of authorized users with access (administrative access) to operating systems?

d. Does your firms system support mobile devices? If so, describe in detail how your firm can control mobile device access.

e. Is sensitive information (e.g. social security numbers) masked or removed from, or encrypted within, documents and or websites before it is distributed?

f. Is software installation restricted for desktops, laptops and servers? What type of system hardening does your firm perform?

g. Is access to source application code restricted? If so, how? Is a list of authorized user maintained? How does your firm protect its source code?

h. Are user IDs for your system uniquely identifiable?

i. Do you have a process to review user accounts and related access? How does your firm do user attestation?

5. Operations Management

a. Has antivirus software been deployed and installed on your computers and supporting systems (e.g., desktops, servers and gateways?)

b. Are systems and networks monitored for security events? If so, describe monitoring in detail.

c. Do procedures exist to protect documents, computer media (e.g., tapes, disks, CD-ROMs, etc.) from unauthorized disclosure, modification, removal, and destruction? Is sensitive data encrypted when stored on laptop, desktop and server hard drives, flash drives, backup tapes, etc.?

d. Does your firm send backup tapes to an offsite vendor? If so, name the vendor.

e. Are there security procedures for the decommissioning (replacement) of IT equipment and IT storage devices which contain or process sensitive information? If so, please describe.

f. Are development, test and production environments separated from operational IT environments to protect production (actively used) applications from inadvertent changes or disruption?

g. Are duties separated, where appropriate, to reduce the opportunity for unauthorized modification, unintentional modification or misuse of the organization's IT assets?

h. Do formal change management procedures exist for networks, systems, desktops, software releases, deployments, and software vulnerability (e.g., Virus or Spyware) patching activities?

6. Incident Management and Investigations

a. Is a formalized and documented process in place for incidents and investigations?

b. How do you identify, respond to and mitigate suspected or known security incidents?

c. During the investigation of a security incident, is evidence properly collected and maintained?

d. Are incidents identified, investigated, and reported according to applicable legal requirements?

e. How are incidents escalated and communicated?

RFP Attachment 7: Campaign Contribution Disclosure

CALOPTIMA LEVINE ACT DISCLOSURE STATEMENT

California Government Code section 84308, commonly referred to as the "Levine Act," precludes an Officer of a local government agency from participating in the award of a contract if he or she receives any political contributions totaling more than $250 in the 12 months preceding the pendency of the contract award, and for three months following the final decision, from the person or company awarded the contract. This prohibition applies to contributions to the Officer, or received by the Officer on behalf of any other Officer, or on behalf of any candidate for office or on behalf of any committee. The Levine Act also requires disclosure of such contributions by a party to be awarded a specified contract. Please refer to Attachment A to this Statement for the complete statutory language.

Current members of the CalOptima Board of Directors are:

Ria Berger	Ron DiLuigi	Andrew Do	Dr. Nikan Khatibi
Alexander Nguyen, M.D.	Lee Penrose	Richard Sanchez	J. Scott Schoeffel
Michelle Steel	Paul Yost, M.D.	Doug Chaffee (Alternate)	

1. Have you or your company, or any agent on behalf of you or your company, made any political contributions of more than $250 to any CalOptima Director(s) in the 12 months preceding the date of the issuance of this request for proposal or request for qualifications?

___ YES ___ NO

If yes, please identify the Director(s):

2. Do you or your company, or any agency on behalf of you or your company, anticipate or plan to make any political contributions of more than $250 to any CalOptima Director(s) between the date of issuance of this request for proposals and the award of the contract, or in the three months following the award of the contract?

___ YES ___ NO

If yes, please identify the Director(s):

Answering yes to either of the two questions above does not preclude CalOptima from awarding a contract to your firm. It does, however, preclude the identified Director(s) from participating in the contract award process for this contract.

CALOPTIMA LEVINE ACT DISCLOSURE STATEMENT
Attachment A

California Government Code Section 84308

(a) The definitions set forth in this subdivision shall govern the interpretation of this section.

(1) "Party" means any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.

(2) "Participant" means any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision, as described in Article 1 (commencing with Section 87100) of Chapter 7. A person actively supports or opposes a particular decision in a proceeding if he or she lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.

(3) "Agency" means an agency as defined in Section 82003 except that it does not include the courts or any agency in the judicial branch of government, local governmental agencies whose members are directly elected by the voters, the Legislature, the Board of Equalization, or constitutional officers. However, this section applies to any person who is a member of an exempted agency but is acting as a voting member of another agency.

(4) "Officer" means any elected or appointed officer of an agency, any alternate to an elected or appointed officer of an agency, and any candidate for elective office in an agency.

(5) "License, permit, or other entitlement for use" means all business, professional, trade and land use licenses and permits and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor, or personal employment contracts), and all franchises.

(6) "Contribution" includes contributions to candidates and committees in federal, state, or local elections.

(b) No officer of an agency shall accept, solicit, or direct a contribution of more than two hundred fifty dollars ($250) from any party, or his or her agent, or from any participant, or his or her agent, while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for three months following the date a final decision is rendered in the proceeding if the officer knows or has reason to know that the participant has a financial interest, as that term is used in Article 1 (commencing with Section 87100) of Chapter 7. This prohibition shall apply regardless of whether the

officer accepts, solicits, or directs the contribution for himself or herself, or on behalf of any other officer, or on behalf of any candidate for office or on behalf of any committee.

(c) Prior to rendering any decision in a proceeding involving a license, permit or other entitlement for use pending before an agency, each officer of the agency who received a contribution within the preceding 12 months in an amount of more than two hundred fifty dollars ($250) from a party or from any participant shall disclose that fact on the record of the proceeding. No officer of an agency shall make, participate in making, or in any way attempt to use his or her official position to influence the decision in a proceeding involving a license, permit, or other entitlement for use pending before the agency if the officer has willfully or knowingly received a contribution in an amount of more than two hundred fifty dollars ($250) within the preceding 12 months from a party or his or her agent, or from any participant, or his or her agent if the officer knows or has reason to know that the participant has a financial interest in the decision, as that term is described with respect to public officials in Article 1 (commencing with Section 87100) of Chapter 7.

If an officer receives a contribution which would otherwise require disqualification under this section, returns the contribution within 30 days from the time he or she knows, or should have known, about the contribution and the proceeding involving a license, permit, or other entitlement for use, he or she shall be permitted to participate in the proceeding.

(d) A party to a proceeding before an agency involving a license, permit, or other entitlement for use shall disclose on the record of the proceeding any contribution in an amount of more than two hundred fifty dollars ($250) made within the preceding 12 months by the party, or his or her agent, to any officer of the agency. No party, or his or her agent, to a proceeding involving a license, permit, or other entitlement for use pending before any agency and no participant, or his or her agent, in the proceeding shall make a contribution of more than two hundred fifty dollars ($250) to any officer of that agency during the proceeding and for three months following the date a final decision is rendered by the agency in the proceeding. When a closed corporation is a party to, or a participant in, a proceeding involving a license, permit, or other entitlement for use pending before an agency, the majority shareholder is subject to the disclosure and prohibition requirements specified in subdivisions (b), (c), and this subdivision.

(e) Nothing in this section shall be construed to imply that any contribution subject to being reported under this title shall not be so reported.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Consent Calendar

10. Consider Authorizing and Directing the Chairman of the Board of Directors to Execute an Amendment to the Primary Agreement with the California Department of Health Care Services (DHCS) Related to the Health Homes Program

Contact

Silver Ho, Executive Director, Compliance, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors (Board) to execute an Amendment to the Primary Agreement between DHCS and CalOptima related to incorporation of language related to the Health Homes Program (HHP).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

On October 2, 2017, DHCS submitted an amendment to the Centers for Medicare & Medicaid Services (CMS) for approval that will incorporate language regarding the Health Homes Program (HHP) into managed care plan (MCP) contracts, including CalOptima's.

The Medicaid Health Home State Plan Option, authorized under Section 2703 of the Patient Protection and Affordable Care Act (ACA), allowed states to create Medicaid health homes to provide supplemental services that coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Among other goals, the HHP was designed with particular attention paid to its ability to produce positive health outcomes for individuals experiencing homelessness. Specifically, the HHP provides six core services:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care;
- Individual and family support; and

Back to Agenda

- Referral to community and social support services, including housing.

Effective July 1, 2019, CalOptima will begin providing HHP services to members with eligible chronic physical conditions and substance use disorder (SUD); effective January 1, 2020, CalOptima will begin providing HHP services for members with Severe Mental Illness (SMI).

Once CMS concludes its review of DHCS' proposed amendment, DHCS will provide the amendment to CalOptima for prompt signature and return. If the amendment is not consistent with staff's understanding as presented in this document or if it includes significant unexpected language changes, staff will return to the Board of Directors for consideration and/or ratification of staff action.

DHCS has advised that once the contract amendment and applicable APLs are finalized, it will require MCPs to submit readiness deliverables related to the amendment. DHCS' requested deliverables may include Policies and Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. To the extent that CalOptima staff must provide information to DHCS to meet certain deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Following is a general summary of the major changes to expected be addressed in the final contract amendment:

	Requirement
HHP Compliance	Implement the HHP, as directed by DHCS, and in accordance with all State and federal requirements related to HHP and DHCS APLs.
Provider Network	Maintain an adequate network of CB–CMEs to serve HHP members including providers with experience working with people who are chronically homeless. Establish contractual relationships with organizations to provide HHP services including individual housing transition services and individual housing and tenancy sustaining services. Amend the current MOU with the Orange County Health Care Agency to incorporate HHP requirements.
Provider Relations	Ensure that staff providing HHP services complete required training as determined by DHCS and participate in DHCS–operated learning collaboratives.
Eligibility and Enrollment	Enrollment in HHP based on HHP eligibility criteria, as defined by DHCS.

Back to Agenda

	Requirement
HHP Member Services	Includes CB–CME selection, and HHP–specific member information and provider directory requirements.
HHP Covered Services	Includes the provision and coordination of HHP services informed by evidence–based clinical practice guidelines.
Information Sharing	Develop and maintain a method to track and share HHP member information between CB–CMEs, CalOptima, and other providers, as warranted.
Quality Improvement System	Include HHP–specific elements in current Quality Improvement system processes and conduct oversight and regular auditing and monitoring of HHP care management requirements.
Payment	CalOptima shall receive an additional monthly payment for each HHP member who receives HHP services.
Required Reports for the HHP	Submission of reports for HHP in a form and manner specified by DHCS.

The final contract amendment is also expected to contain revisions to Plan rates related to the HHP. On April 2, 2018, DHCS provided draft rates applicable for the first two years of the program. Highlights regarding these rates includes the following:

- Updates to the wage inflation factor, existing care coordination (ECC), and partial dual adjustment.
- Build-up of the lower bound HHP services per-member-per-month (PMPM) for chronic conditions (CC) and SMI enrollees, highlights the salary and caseload assumptions by HHP staff member, along with tier mix assumptions and the provider overhead cost. Rates are displayed in six month increments for the first 30 months of the program.
- Build-up of the lower bound engagement period costs for each member on the Targeted Engagement List (TEL), wage and service time assumptions by HHP staff member, and the assumed average number of months of engagement required for each TEL member.
- Combines information from steps 1 and 2 outlined above to produce the statewide lower bound HHP PMPM for the CC only and SMI populations.
- Application of the county-specific wage index, rural area, and wage inflation factors to the statewide rates. Plan-specific existing ECC PMPM and Partial Dual carve–outs are applied to create lower bound non–full dual rates with lower bound full–dual rates created by carving out the ECC and CCM/BHI PMPMs.
- Blending of CC only and SMI rates based on projected HHP enrollment to produce SFY rates.

Fiscal Impact

The recommended action to execute an amendment to the primary agreement between DHCS and CalOptima to incorporate language regarding the HHP program carries significant financial risks. Based on DHCS' proposed rates, staff estimates that the total annual program costs for

HHP will be $12 million. Management has included projected expenses to implement the HHP program effective July 1, 2019, in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval and will include projected revenue and expenses for the HHP program in future operating budgets. Actual utilization associated with the HHP eligible population is still relatively unknown. Therefore, CalOptima will closely monitor program expenses and continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the HHP program.

Rationale for Recommendation

The addition of the HHP contract amendment to CalOptima's Primary Agreement with DHCS is necessary to ensure compliance with the requirements of participation in the Medi-Cal program.

Concurrence

Gary Crockett, Chief Counsel

Attachment

Appendix summary of amendments to Primary Agreements with DHCS

/s/ Michael Schrader — *5/30/2018*

Authorized Signature — **Date**

Back to Agenda

APPENDIX TO AGENDA ITEM

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

Back to Agenda

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014

Back to Agenda

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

Back to Agenda

I. Introduction

The Medi-Cal Health Homes Program: Program Guide (Program Guide) is intended to be a resource for Medi-Cal Managed Care health plans (MCPs) in the development, implementation, and operation of the Health Homes Program (HHP). The Program Guide includes a brief synopsis of the HHP, identifies all HHP requirements, and identifies the documentation MCPs must submit to the Department of Health Care Services (DHCS) as part of the required HHP readiness review. The Program Guide refers to additional guidance documents, when applicable.

The Medicaid Health Home State Plan Option is afforded to states under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health, behavioral health, and community-based long term services and supports (LTSS) needed by members with chronic conditions. Enhanced federal matching funds of 90% are available for two years.

In California, Assembly Bill 361 (AB 361) amended the Welfare and Institutions Code to add Sections 14127 and 14128 (W&I Code) which authorizes DHCS, subject to federal approval, to create an ACA Section 2703 HHP for members with chronic conditions. The W&I Code provides that the provisions will be implemented only if federal financial participation (FFP) is available and the program is cost neutral regarding State General Funds. It also requires DHCS to ensure that 1) an evaluation of the program is completed; and 2) a report is submitted to the appropriate policy and fiscal committees of the Legislature within two years after implementation of the program.

The Program Guide has five main sections (Infrastructure, Eligibility, Services, Network, and General Operations) and an appendix. Each section describes the program components and the requirements for those components.

The Program Guide contains the Health Homes Program: Medi-Cal Managed Care Plan Readiness Checklist (Readiness Checklist) in Appendix D. The Readiness Checklist identifies the specific components that MCPs are required to provide to DHCS and identifies the process DHCS will use to determine when the specific components are due to DHCS. The Program Guide provides additional guidance and context regarding HHP readiness requirements.

II. HHP Infrastructure

A. Organizational Model

DHCS' HHP implementation will utilize California's Medi-Cal Managed Care (Managed Care) infrastructure as the foundational building block. HHP services will be provided through the Managed Care delivery system to members enrolled in Managed Care. Managed Care serves approximately 85 percent of full scope Medi-Cal members and is an available choice for all full-scope Medi-Cal members statewide. The small percentage of Medi-Cal Fee-For-Service (FFS) members who meet HHP eligibility criteria may enroll in a Medi-Cal MCP to receive HHP services. HHP services will not be provided through the FFS delivery system.

The MCPs will leverage existing communication with their provider networks to facilitate the care planning, care coordination, and care transition coordination requirements of HHP, including assignment of each HHP member to a primary care provider. The MCPs' existing communication and reporting capabilities will be utilized to perform health promotion, encounter reporting, and quality of care reporting. MCPs also have existing relationships with the Medi-Cal county specialty mental health plans (MHPs) in each county to facilitate HHP care coordination.

The HHP will be structured as a health home network functioning as a team to provide care coordination. This network includes the MCP, one or more Community-Based Care Management Entities (CB-CMEs), and contractual or non-contractual relationships with other Community-Based Organizations (CBOs) to provide linkages to community and social support services, as needed (taken together as the HHP). The HHP network will be developed to meet the following goals:

- Ensure that sufficient HHP funds are available to support care management at the point of care in the community
- Ensure that providers with experience serving frequent utilizers of health services and individuals experiencing homelessness are available as needed
- Leverage existing county and community provider care management infrastructure and experience, where possible and appropriate
- Forge new relationships with community provider care management entities, where possible and appropriate
- Utilize community health workers in appropriate roles.

The HHP will serve as the central point for coordinating patient-centered care and will be accountable for:

- Improving member outcomes by coordinating physical health services, mental health services, substance use disorder services, community-based Long Term Services and Supports (LTSS), oral health services, palliative care, and social support needs
- Reducing avoidable health care costs, including hospital admissions/readmissions, ED visits, and nursing facility stays

Improving member outcomes and reducing health care costs will be accomplished through the partnership between the MCP and the CB-CME, either through direct provision of HHP services,

or through contractual or non-contractual arrangements with appropriate entities that will be providing components of the HHP services and planning and coordination of other services.

1) Medi-Cal Managed Care Plan Responsibilities

HHP MCPs will be responsible for the overall administration of the HHP. They will have an HHP addendum to an existing contract with DHCS. Payment will flow from DHCS to the MCP and from the MCP to the CB-CMEs for the provision of HHP services. The MCP may also use HHP funding to pay providers, including but not limited to, the member's primary care physician, behavioral health providers, or other specialists, who are not included formally on the CB-CME's multi-disciplinary care team, for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the Health Action Plan (HAP). These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).

The MCP will have strong oversight and will perform regular auditing and monitoring activities to ensure that case conferences occur, the HAP is updated as health care events unfold, and all other HHP care management requirements are completed.

The MCP's care management department can be leveraged to train, support, and qualify CB-CMEs. (MCPs currently perform similar monitoring, training and auditing with MCP-delegated entities that have care management responsibilities under Cal MediConnect and other programs.)

MCP utilization departments will assist the CB-CMEs with information on admissions and discharges, and ensure timely follow-up care. MCP health care informatics analytics teams will provide meaningful, actionable data with identification of complex members and care gaps and other pertinent data that the health plan network can access. This will be provided to the CB-CMEs to assist with HAP care planning and ongoing goals for the member.

Many MCPs are exploring housing options to provide immediate housing post discharge and find permanent housing for members who are experiencing homelessness. Stakeholders include the health plan, hospitals, local housing authorities, and community-based organizations. Achieving stable housing for HHP members is a noted best practice from the national experience for achieving meaningful improvements in health and program cost effectiveness.

In counties selected for HHP implementation, Medi-Cal MCPs (Medicaid only benefit plans) are required to participate in HHP and serve as an HHP MCP. DHCS will work with these organizations to prepare for the implementation of HHP and to determine network adequacy and readiness.

2) Duties

MCPs will be expected to perform the following duties/responsibilities to the extent their information systems allow or through other available methods:

- Attribute assigned HHP members to CB-CMEs;
- Sub-contract with CB-CMEs for the provision of HHP services and ensure that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals;

- Notify the CB-CMEs of inpatient admissions and ED visits/discharges;
- Track and share data with CB-CMEs regarding each member's health history;
- Track CMS-required quality measures and state-specific measures (see *Reporting Template* and *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2017 Reporting,* or later *document*);
- Collect, analyze, and report financial measures, health status and other measures and outcome data to be reported during the State's evaluation process (see *Reporting Template*)
- Provide member resources (e.g. customer service, member grievances) relating to HHP
- Add functionality to the MCP's customer service line and 24/7 nurse line or other available call line so that members' HHP needs are also addressed (e.g. equip nurse line with educational materials to train them about HHP, nurse line receives the updated list of HHP members and their assigned care coordinator, etc.)
- Receive payment from DHCS and disperse funds to CB-CMEs through collection and submission of claims/encounters by the CB-CME and per the contractual agreement made between the MCP and the CB-CME
- Establish and maintain a data-sharing agreement with other providers, with whom MCP shares HHP member health information, that is compliant with all federal and state laws and regulations
- Ensure access to timely services for HHP members, including seeing HHP members after discharge from an acute care stay.
- Encourage participation by HHP members' MCP contracted providers who are not included formally on the CB-CME's multi-disciplinary care team, but who are responsible for coordinating with the CB-CME care coordinator to conduct case conferences and to provide input to the HAP. These providers are separate and distinct from the roles outlined for the multi-disciplinary care team (see Multi-Disciplinary Care Team).
- Develop CB-CME training tools as needed or preferred, in addition to DHCS-provided training
- Develop CB-CME reporting capabilities
- Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

3) Community Based Care Management Entity Responsibilities

CB-CMEs will serve as the frontline provider of HHP services and will be rooted in the community. MCPs will certify and select organizations to serve as CB-CMEs through a process similar to current MCP provider certification and will contract with selected entities. DHCS will not require MCP use of a standardized assessment tool. DHCS will provide general guidelines

and requirements, including examples of best practice tools that the MCP can use at their option to select, qualify, and contract with CB-CMEs.

The MCP's development of a network of CB-CMEs should seek to promote HHP goals, with particular attention to the following goals:

- Ensuring that care management delivery and sufficient HHP funding are provided at the point of care in the community;
- Ensuring that providers with experience serving frequent utilizers of health services, and those experiencing homelessness, are available as needed per AB 361 requirements;
- Leveraging existing county and community provider care management infrastructure and experience, where possible and appropriate; and
- OPTIONAL - Utilizing community health workers in appropriate roles (for more information, see Multi-Disciplinary Care Team below).

CB-CMEs are intended to serve as the single community-based entity with responsibility, in conjunction with the MCP, for ensuring that an assigned HHP member receives access to HHP services. It is also the intent of the HHP to provide flexibility in how the CB-CMEs are organized. CB-CMEs may subcontract with other entities or individuals to perform some CB-CME duties. Regardless of subcontracting arrangements, CB-CMEs retain overall responsibility for all CB-CME duties that the CB-CME has agreed to perform for the MCP, either through direct CB-CME service or service the CB-CME has subcontracted to another provider. DHCS encourages MCPs and CB-CMEs to utilize this flexibility, where needed, to achieve HHP goals, and in particular the four network goals noted above.

In most cases, the CB-CME will be a community primary care provider (PCP) that serves a high volume of HHP eligible members. If the CB-CME is not the member's MCP-assigned PCP, then the MCP and the CB-CME must demonstrate how the CB-CME will maintain a strong and direct connection to the PCP and ensure the PCP's participation in HAP development and ongoing coordination. For all members, and in all areas, the MCP must demonstrate that it is maximizing the four network goals noted above to the full extent possible through its network development and HHP policies. Regardless of how HHP networks are structured by a MCP within a county, it is expected that all HHP members will receive access to the same level of service, in accordance with the service tier that is appropriate for their needs and HHP service requirements.

DHCS' readiness review will include a detailed review of the MCP's HHP network. In situations in which the MCP can demonstrate that there are insufficient entities rooted in the community that are capable or willing to provide the full range of CB-CME duties, the MCP may perform needed CB-CME duties to fill a demonstrated service gap. As an alternative, the MCP may subcontract with other entities to perform these duties. In addition, the MCP may provide, or subcontract with another community-based entity to provide, specific CB-CME duties to assist a CB-CME to provide the full range of CB-CME duties when this MCP assistance is the best organizational arrangement to promote HHP goals. If the MCP utilizes this flexibility, the MCP must demonstrate to DHCS that it is maximizing the four network goals noted above to the

extent possible, and how it will maintain a strong and direct connection between HHP services and the primary care provider.

The MCP may allow an individual community provider to become a CB-CME after the implementation date of the HHP in their county if the community provider requires additional time to develop readiness to take on some, or all, of the CB-CME duties. The MCP may also allow a CB-CME to expand the range of the CB-CME's contracted CB-CME duties over time as readiness allows.

CB-CMEs that MCPs contract with to deliver HHP care coordination services are not required to be enrolled as Medi-Cal providers, so long as the entities in question are not providing medical and/or clinical services in their function as an HHP CB-CME to Medi-Cal members participating in the Program.

4) Community-Based Care Management Models

The main goal of the HHP is Comprehensive Care Management. The MCP, acting as administrator and providing oversight, will build an HHP network in which a member can choose the CB-CME they want for their care coordination. Given specific challenges in certain areas, including the shortage of primary care and specialist providers, technology infrastructure/adoption, and the large Medi-Cal population, a single model is not practical. Assessments of potential HHP providers, and MCP knowledge of available resources in their areas, will form the basis for determining whether the provider's HHP-eligible members are best served by Model I, II, or III below.

The three community-based care management models below are acceptable for MCP network development and address the realities that exist in various areas of the state regarding available providers. The three models will allow the flexibility to ensure service to all HHP members throughout the diverse geographic regions in California, regardless of location and type of provider empanelment. Further, all three will allow increased care coordination to occur as close to the point of care delivery as possible in the community.

Model I

The first and ideal model embeds care coordinators on-site in community provider offices, acting as CB-CMEs. The expectation is that the community provider will employ these staff, but in some cases they may be employed by the MCP. This model will serve the great majority of HHP members because most HHP eligible individuals are served by high-volume providers in urban areas. The MCP will complete a provider assessment to determine 1) the extent to which the community provider will need to recruit and hire additional staff to meet the HHP care coordinator resource requirements, and 2) what CB-CME duties the community provider can, and is willing to, perform. The HHP will only utilize Model II or III where the provider assessment indicates that Model I is not viable.

Model II

The second model addresses the smaller subset of eligible members who are served by low-volume providers, in either rural or urban areas, who do not wish to, or cannot, take on the responsibility of hiring and housing care coordinators on site. For this model, the care management would be handled by another community-based entity or a staff member within

the existing MCP care management department, which will act as the CB-CME. This model will handle HHP members who are not assigned to a county clinic or medical practice under Model I.

Model III

The third model serves the few members who live in rural areas and are served by low-volume providers. In this hybrid model, care coordinators located in regional offices, utilizing technology and other monitoring and communication methods, such as visiting the member at their location, will become CB-CMEs who can be geographically close to rural members and/or those members who are assigned to a solo practitioner who may not have enough membership to meet Model I or II.

B. Staffing

1) Care Coordinator Ratio

The aggregate minimum care coordinator ratio requirement is 60:1 for the whole enrolled population (in each of the MCPs' counties if the MCP has more than one county) as measured at any point in time.

To develop the aggregate population care coordinator ratio requirement, DHCS assumed that (after two years):

- *Tier 1 – 20% of population; care coordinator ratio of 10:1*
- *Tier 2 – 30% of population; care coordinator ratio of 75:1*
- *Tier 3 – 50% of population; care coordinator ratio of 200:1*

2) Multi-Disciplinary Care Team

The multi-disciplinary care team consists of staff employed by the CB-CME that provides HHP funded services. DHCS requires the team members listed in Table 1 below to participate on all multi-disciplinary care teams. The team will primarily be located at the CB-CME organization, except as noted above regarding model flexibility. The MCP may organize its provider network for HHP services according to provider availability, capacity, and network efficiency, while maximizing the stated HHP goals and HHP network goals. This MCP network flexibility includes centralizing certain roles that could be utilized across multiple CB-CMEs – and particularly low-volume CB-CMEs – for efficiency, such as the director and clinical consultant roles. An HHP goal is to provide HHP services where members seek care. Staffing and the day-to-day care coordination should occur in the community and in accordance with the member's preference.

In addition to required CB-CME team members, the MCP may choose to also make HHP-funded payments to providers that are not explicitly part of the CB-CME team, but who serve as the HHP member's physical and/or behavioral health service providers, for participation in case conferences and information sharing in order to support the development and maintenance of the HHP member's HAP. As an example, an MCP could use HHP care coordination funding to pay a member's specialist provider, who is not a contracted member of the CB-CME Multi-Disciplinary Care Team, for the time they spend participating in a case conference with the HHP care coordinator for the purpose of completing the member's HAP. The MCP may make such payments directly to the providers or through their CB-CME.

Table 1: Multi-Disciplinary Care Team Qualifications and Roles

Required Team Members	Qualifications	Role
Dedicated Care Coordinator (CB-CME or by contract)	Paraprofessional (with appropriate training) or licensed care coordinator, social worker, or nurse	• Oversee provision of HHP services and implementation of HAP • Offer services where the HHP member lives, seeks care, or finds most easily accessible and within MCP guidelines • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Work with hospital staff on discharge plan • Engage eligible HHP members • Accompany HHP member to office visits, as needed and according to MCP guidelines • Monitor treatment adherence (including medication) • Provide health promotion and self-management training • Arrange transportation • Call HHP member to facilitate HHP member visit with the HHP care coordinator
HHP Director (CB-CME)	Ability to manage multi-disciplinary care teams	• Have overall responsibility for management and operations of the team • Have responsibility for quality measures and reporting for the team
Clinical Consultant (CB-CME or MCP)	Clinician consultant(s), who may be primary care physician, specialist physician, psychiatrist, psychologist, pharmacist, registered nurse, advanced practice nurse, nutritionist, licensed clinical social worker, or other behavioral health care professional	• Review and inform HAP • Act as clinical resource for care coordinator, as needed • Facilitate access to primary care and behavioral health providers, as needed to assist care coordinator

Required Team Members	Qualifications	Role
Community Health Workers (CB-CME or by contract) (Recommended but not required)	Paraprofessional or peer advocate Administrative support to care coordinator	• Engage eligible HHP members • Accompany HHP member to office visits, as needed, and in the most easily accessible setting, within MCP guidelines • Health promotion and self-management training • Arrange transportation • Assist with linkage to social supports • Distribute health promotion materials • Call HHP member to facilitate HHP visit with care coordinator • Connect HHP member to other social services and supports he/she may need • Advocate on behalf of members with health care professionals • Use motivational interviewing, trauma-informed care, and harm-reduction practices • Monitor treatment adherence (including medication)
For HHP Members Experiencing Homelessness: Housing Navigator (CB-CME or by contract)	Paraprofessional or other qualification based on experience and knowledge of the population and processes	• Form and foster relationships with housing agencies and permanent housing providers, including supportive housing providers • Partner with housing agencies and providers to offer the HHP member permanent, independent housing options, including supportive housing • Connect and assist the HHP member to get available permanent housing • Coordinate with HHP member in the most easily accessible setting, within MCP guidelines (e.g. could be a mobile unit that engages members on the street)

Additional team members, such as a pharmacist or nutritionist, may be included on the multi-disciplinary care team in order to meet the HHP member's individual care coordination needs. HAP planning and coordination will require participation of other providers who may not be part of the CB-CME multi-disciplinary care team. It is the responsibility of the MCP to ensure their cooperation.

C. Health Information Technology/Data

Health Information Technology (HIT)/Health Information Exchange (HIE) are important components of information sharing in the HHP.

MCPs should consider the following potential uses of HIT/HIE (developed by CMS) in the development of HHP information sharing policies and procedures for MCPs, CB-CMEs, and members:

1) Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management –standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement.
2) Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information.
   - Telehealth services including remote patient monitoring.
3) Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.
4) Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.
5) Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence).
   - Ability to electronically refer patients to necessary services.

Organizations that are covered by the Meaningful Use requirements should utilize EHR/HIT/HIE to meet the applicable goals noted above, where possible. Organizations that are not covered by Meaningful Use may need a Medi-Cal MCP to support the achievement of applicable goals where possible. In some areas relatively few providers have EHRs; there is limited interoperability between the systems; and, where there is an HIE in the area, the configuration may not be designed for the HHP requirements. If the technology environment does not fully support the EHR/HIT/HIE activities noted above in some geographic areas, or with certain providers, the MCP will determine procedures to share information that is critical for HHP services through other methods.

III. HHP Member Eligibility

A. Target Population

The HHP is intended to be an intensive set of services for a small subset of Medi-Cal members who require coordination at the highest levels. DHCS worked with a technical expert workgroup to design eligibility criteria that identify the highest-risk three to five percent of the Medi-Cal population who present the best opportunity for improved health outcomes through HHP services. These criteria include both 1) a select group of International Classification of Diseases (ICD)-9/ICD-10 codes for each eligible chronic condition, and 2) a required high level of acuity/complexity.

B. HHP Eligibility Criteria and the Targeted Engagement List

Using administrative data, DHCS will develop a Targeted Engagement List (TEL) of Medi-Cal MCP members who are eligible for the HHP based on the DHCS-developed eligibility criteria noted below. The TEL will be refreshed every six months using the most recent available data. The MCP will actively attempt to engage the members on the TEL. (See Member Assignment, for more information on MCP activity to engage eligible members.)

To be eligible for the HHP, a member must be full-scope, have no share of costs, and meet the following eligibility criteria. See Appendix B for *Targeted Engagement List data specification document* and specific ICD 10 codes that define these eligible conditions:

Eligibility Requirement	Criteria Details
1. Chronic condition criteria	Has a chronic condition in at least one of the following categories: • **At least two of the following**: chronic obstructive pulmonary disease, diabetes, traumatic brain injury, chronic or congestive heart failure, coronary artery disease, chronic liver disease, chronic renal (kidney) disease, dementia, substance use disorders; OR • **Hypertension and one of the following:** chronic obstructive pulmonary disease, diabetes, coronary artery disease, chronic or congestive heart failure; OR • **One of the following:** major depression disorders, bipolar disorder, psychotic disorders (including schizophrenia); OR • **Asthma**
2. Meets at least 1 acuity/complexity criteria	• Has at least 3 or more of the HHP eligible chronic conditions; OR • At least one inpatient hospital stay in the last year; OR • Three or more emergency department visits in the last year; OR • Chronic homelessness.

The TEL may include other criteria that are intended to ensure that HHP resources are targeted to Medi-Cal members who present the best opportunity for improved health outcomes through HHP services. The DHCS TEL is intended to be used by MCPs as a list of people who are likely to

be eligible for the program based on the data available to DHCS; it is not, on its own, a comprehensive eligibility list.

Acuity Eligibility Criteria

Eligibility for HHP requires that members have the specified conditions and at least one of the four acuity criteria listed above.

MCPs must have a process to verify eligibility as part of their internal TEL production and enrollment process. MCPs can do this through reviews of the MCPs data, to the extent that data is available, and/or through other methods including discussion/assessment with the member or the member's providers. This additional verification is not only to confirm that the member meets eligibility, but also that they do not have exclusionary criteria such as enrollment in another duplicative care management program or being "well managed." For example, a member's qualifying utilization may have been for something unrelated to management of a chronic condition, such as maternity.

The TEL provides a list of potentially eligible members. MCPs may use this file in several ways. Examples include:

1. After applying the DHCS approved MCP prioritization policy to the TEL, the MCP may directly assign members on the TEL to CB-CMEs. In this scenario, the MCP delegates eligibility verification to the CB-CMEs.

2. MCPs may use their own data to develop eligibility lists, adding members from the TEL who qualify through their SMI or Physical Health/SUD chronic condition diagnoses for whom the MCP may lack utilization data.

MCPs may also use other strategies approved by DHCS. In all cases, MCPs must ensure that the approved MCP prioritization logic is applied to all assigned members to guide MCP and/or CB-CME outreach.

MCPs are advised to deprioritize members from outreach whose qualifying utilization is: 1) only found in the oldest four months of the TEL look-back period; and 2) unrelated to the HHP chronic conditions.

For payment purposes, the member may be enrolled for one month while eligibility is verified. After one month, payment is not available until eligibility is determined. If determined ineligible, the member will be disenrolled.

Homeless Eligibility Criteria

Chronic homelessness for HHP is defined in W&I Code section 14127(e), and states *"a chronically homeless individual means a homeless individual with a condition limiting his or her activities of daily living who has been continuously homeless for a year or more, or had at least four episodes of homelessness in the past three years. For purposes of this article, an individual who is currently residing in transitional housing, as defined in Section 50675.2 of the Health and Safety Code, or who has been residing in permanent supportive housing, as defined in Section*

50675.14 of the Health and Safety Code, for less than two years shall be considered a chronically homeless individual if the individual was chronically homeless prior to his or her residence." For the purpose of verifying HHP acuity eligibility criteria, the portion of this definition which states "with a condition limiting his or her activities of daily living" is satisfied by verification that the member has one of the HHP-eligible conditions. No further assessment of activities of daily living limitation is required to establish that the member meets the portion of this eligibility acuity criterion underlined above. In addition, a member meets the HHP chronically homeless acuity eligibility criteria if the member meets either the W&I Code section 14127(e) definition or the Housing and Urban Development (HUD) definition.

People Excluded from Targeted Engagement List

The following exclusions will be applied either through MCP data analysis for individual members or through assessment information gathered by the Community-Based Care Management Entity (CB-CME) (see *Reporting Template-Instructions* for additional information):

- Members determined through further assessment to be sufficiently well managed through self-management or through another program, or the member is otherwise determined to not fit the high-risk eligibility criteria
- Members whose condition management cannot be improved because the member is uncooperative
- Members whose behavior or environment is unsafe for CB-CME staff
- Members determined to be more appropriate for an alternate care management program

IV. Health Home Program Services

This section describes the six HHP services. HHP arranges for and coordinates interventions that address the medical, social, behavioral health, functional impairment, cultural and environmental factors affecting health and health care choices available to HHP members.

All HHP engagement and services can be provided to members and family/support persons through e-mails, texts, social media, phone calls, letters, mailings, community outreach, and, to the extent and whenever possible, in-person meetings where the member lives, seeks care, or is accessible. Communication and information must meet health literacy standards and trauma-informed care standards and be culturally appropriate.

A. Comprehensive Care Management

Comprehensive care management involves activities related to engaging members to participate in the HHP and collaborating with HHP members and their family/support persons to develop their comprehensive, individualized, person-centered care plan, called a Health Action Plan (HAP). The HAP incorporates the member's needs in the areas of physical health, mental health, SUD, community-based LTSS, oral health, palliative care, trauma-informed care, social supports, and, as appropriate for individuals experiencing homelessness, housing. The HAP is based on the needs and desires of the member and will be reassessed based on the member's progress or changes in their needs. It will also track referrals. The HAP must be completed within 90 days of HHP enrollment.

Comprehensive care management may include case conferences to ensure that the member's care is continuous and integrated among all service providers.

Comprehensive care management services include, but are not limited to:

- Engaging the member in HHP and in their own care
- Assessing the HHP member's readiness for self-management using screenings and assessments with standardized tools
- Promoting the member's self-management skills to increase their ability to engage with health and service providers
- Supporting the achievement of the member's self-directed, individualized health goals to improve their functional or health status, or prevent or slow functional declines
- Completing a comprehensive health risk assessment to identify the member's needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services
- Developing a member's HAP and revising it as appropriate
- Reassessing a member's health status, needs and goals
- Coordinating and collaborating with all involved parties to promote continuity and consistency of care
- Clarifying roles and responsibilities of the multi-disciplinary team, providers, member and family/support persons

1) Care Management Assessment Tools

To the extent possible and reasonable, DHCS will align new requirements for care management methods and tools with those currently used by MCPs for care coordination. MCPs have extensive experience administering Health Risk Assessments and developing care plans.

MCPs may use current Cal MediConnect or Seniors and Persons with Disabilities (SPD) care management tools, such as the Health Risk Assessment and Individualized Care Plan, as a base for developing health assessments and completing the HAP for HHP members. For the implementation of HHP, any assessment or planning elements that are required in the HHP and are not already included in an existing tool and/or process must be added to the existing MCP assessment and planning tools. Such elements could include an assessment of social determinants of health, including an indicator of housing instability, a need for palliative care, and trauma-informed care needs.

The HAP is defined as the Individualized Care Plan with the inclusion of any elements specific to HHP. When a member begins receiving HHP services, the member will receive a comprehensive assessment and a HAP will be created. The HAP will be reassessed at regular intervals and when changes occur in the member's progress or status and health care needs.

The assessments must be available to the primary care physicians, mental health service providers, substance use disorder services providers, and the care coordinators for all HHP members. In conjunction with the primary care physician, other multi-disciplinary care team members, and any necessary ancillary entities such as county agencies or volunteer support entities, the care coordinator will work with the HHP member and their family/support persons to develop a HAP.

2) Duties

MCPs in partnership with CB-CMES must be able to carry out the following comprehensive care management services:

Member Engagement and Support

a. MCPs must ensure that CB-CMEs accomplish the following:
    1) Engage the member in the HHP and their own care
    2) Assess the HHP member's readiness for self-management using standardized screenings and assessments with standardized tools
    3) Track and promote the member's self-management skills to increase their ability to engage with health and service providers
    4) Support the achievement of the member's self-directed, individualized, whole-person health goals to improve their functional or health status, or prevent or slow functional declines

Member Assessment

a. MCPs/CB-CMEs must have a process for assessing and reassessing the member to identify their needs in the areas of physical health, mental health, substance use, oral health, palliative care, trauma-informed care, and social services. The process should identify:
    1) How their tools align with current tools used for the defined population and avoid unnecessary duplication of assessment?
    2) How trauma-informed care best practices will be utilized?
    3) Whether the assessment process and HAP are standard across the CB-CMEs or whether variations exist.
b. MCPs/CB-CMEs must have a process and tools for developing the member's HAP and revising, as appropriate
c. MCPs/CB-CMEs must develop and use the HAP and screening and assessment tools, and develop processes for:
    1) How the HAP is shared with other providers and if it can be shared electronically; and
    2) How the HAP will track referrals and follow ups.

Coordination

a. MCPs/CB-CMEs must have a process for integrating community social supports, long term support services, mental health, substance use disorder services, palliative care, trauma-informed care, oral health, and housing services into a member's HAP
b. MCP must ensure that the CB-CMEs:
    1) Coordinate and collaborate with all involved parties to promote continuity and consistency of care; and
    2) Clarify roles and responsibilities of the multi-disciplinary team, providers, HHP member, and family/support persons.
c. MCPs must have policies and procedures to ensure that members are not receiving the same services from another state care management program (see non-duplication of care coordination services for more information).

B. Care Coordination

Care coordination includes services to implement the HHP member's HAP. Care coordination services begin once the HAP is completed. HHP care coordination services will integrate with current MCP care coordination activities, but will require a higher level of service than current

MCP requirements. Care coordination may include case conferences in order to ensure that the member's care is continuous and integrated among all service providers. All program staff who provide HHP services are required to complete CB-CME/care coordinator training as discussed in Appendix C.

Care coordination services address the implementation of the HAP and ongoing care coordination and include, but are not limited to:

1) Member Support

- Working with the member to implement their HAP
- Assisting the member in navigating health, behavioral health, and social services systems, including housing
- Sharing options with the member for accessing care and providing information to the member regarding care planning
- Identifying barriers to the member's treatment and medication management adherence
- Monitoring and supporting treatment adherence (including medication management and reconciliation)
- Assisting in attainment of the member's goals as described in the HAP
- Encouraging the member's decision making and continued participation in HHP
- Accompanying members to appointments as needed

2) Coordination

- Monitoring referrals, coordination, and follow ups to ensure needed services and supports are offered and accessed
- Sharing information with all involved parties to monitor the member's conditions, health status, care planning, medications usages and side effects
- Creating and promoting linkages to other services and supports
- Helping facilitate communication and understanding between HHP members and healthcare providers

MCPs in partnership with CB-CMEs must develop, and ensure the implementation of, policies and procedures to support CB-CME coordination efforts to:

a. Maintain frequent, in-person contact between the member and the care coordinator when delivering HHP services. Minimum in-person visits for the aggregated population is 260 visits per 100 enrolled members per quarter. DHCS used the following assumptions to develop the aggregate population visit requirement listed above:
    i. After two years, the population equals: 20% in tier 1, 30% in tier 2, 50% in tier 3
    ii. Tier 1 – two in-person visits per month
    iii. Tier 2 – 1 in-person visit per month
    iv. Tier 3 – 1 in-person visit per quarter
b. Ensure members see their PCP within 60 days of enrollment in HHP. This is a recommended best practice only – not service requirement.
c. Ensure availability of support staff to complement the work of the Care Coordinator.
d. Ensure availability of providers with experience working with people who are chronically homeless.
e. Support screening, referral and co-management of individuals with both behavioral health and physical health conditions.

f. Link eligible individuals who are homeless or experiencing housing instability to permanent housing, such as supportive housing.
g. Maintain an appointment reminder system for members. This is a recommended best practice only – not a service requirement.
h. Identify and take action to address member gaps in care through:
    i. Assessment of existing data sources for evidence of care appropriate to the member's age and underlying chronic conditions
    ii. Evaluation of member perception of gaps in care
    iii. Documentation of gaps in care in the member case file
    iv. Documentation of interventions in HAP and progress notes
    v. Findings from the member's response to interventions
    vi. Documentation of discussions of members care goals
    vii. Documentation of follow-up actions, and the person or organization responsible for follow-up

C. Health Promotion

Health promotion includes services to encourage and support HHP members to make lifestyle choices based on healthy behavior, with the goal of motivating members to successfully monitor and manage their health. Members will develop skills that enable them to identify and access resources to assist them in managing their conditions and preventing other chronic conditions.

Health promotion services include, but are not limited to:

- Encouraging and supporting health education for the member and family/support persons
- Assessing the member's and family/support persons' understanding of the member's health condition and motivation to engage in self-management
- Coaching members and family/support persons about chronic conditions and ways to manage health conditions based on the member's preferences
- Linking the member to resources for: smoking cessation; management of member chronic conditions; self-help recovery resources; and other services based on member needs and preferences
- Using evidence-based practices, such as motivational interviewing, to engage and help the member participate in and manage their care

D. Comprehensive Transitional Care

Comprehensive transitional care includes services to facilitate HHP members' transitions from and among treatment facilities, including admissions and discharges. In addition, comprehensive transitional care reduces avoidable HHP member admissions and readmissions. Agreements and processes to ensure prompt notification to the member's care coordinator and tracking of member's admission or discharge to/from an ED, hospital inpatient facility, residential/treatment facility, incarceration facility, or other treatment center are required. Additionally, MCPs or CB-CMEs must provide information to hospital discharge planners about HHP.

Comprehensive transitional care services include, but are not limited to:

- Providing medication information and reconciliation
- Planning timely scheduling of follow-up appointments with recommended outpatient providers and/or community partners
- Collaborating, communicating, and coordinating with all involved parties
- Easing the member's transition by addressing their understanding of rehabilitation activities, self-management activities, and medication management
- Planning appropriate care and/or place to stay post-discharge, including temporary housing or stable housing and social services
- Arranging transportation for transitional care, including to medical appointments, as per NMT and NEMT policy and procedures
- Developing and facilitating the member's transition plan
- Preventing and tracking avoidable admissions and readmissions
- Evaluating the need to revise the member's HAP
- Providing transition support to permanent housing

E. Individual and Family Support Services

Individual and family support services include activities that ensure that the HHP member and family/support persons are knowledgeable about the member's conditions with the overall goal of improving their adherence to treatment and medication management. Individual and family support services also involve identifying supports needed for the member and family/support persons to manage the member's condition and assisting them to access these support services.

Individual and family support services may include, but are not limited to:

- Assessing the strengths and needs of the member and family/support persons
- Linking the member and family/support persons to peer supports and/or support groups to educate, motivate and improve self-management
- Connecting the member to self-care programs to help increase their understanding of their conditions and care plan
- Promoting engagement of the member and family/support persons in self-management and decision making
- Determining when member and family/support persons are ready to receive and act upon information provided and assist them with making informed choices
- Advocating for the member and family/support persons to identify and obtain needed resources (e.g. transportation) that support their ability to meet their health goals
- Accompanying the member to clinical appointments, when necessary
- Identifying barriers to improving the member's adherence to treatment and medication management
- Evaluating family/support persons' needs for services

F. Referral to Community and Social Supports

Referral to community and social support services involves determining appropriate services to meet the needs of HHP members, identifying and referring members to available community resources, and following up with the members.

Community and social support referral services may include, but are not limited to:

- Identifying the member's community and social support needs
- Identifying resources and eligibility criteria for housing, food security and nutrition, employment counseling, child care, community-based LTSS, school and faith-based services, and disability services, as needed and desired by the member
- Providing member with information on relevant resources, based on the member's needs and interests.
- Actively engaging appropriate referrals to the needed resources, access to care, and engagement with other community and social supports
- Following up with the member to ensure needed services are obtained
- Coordinating services and follow-up post engagement
- Checking in with the members routinely through in-person or telephonic contacts to ensure they are accessing the social services they require
- Providing Individual Housing Transition Services, including services that support an individual's ability to prepare for and transition to housing
- Providing Individual Housing and Tenancy Sustaining Services, including services that support the individual in being a successful tenant in their housing arrangement and thus able to sustain tenancy

V. Health Homes Program Network

A. MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities:

a. Develop and implement criteria for network sufficiency determination, including county-wideness and number of projected members
b. Develop an adequate network of Community-Based Care Management Entities (CB-CMEs) in each of the MCP's implemented counties for HHP to serve enrolled members
c. Design and implement a process for determining the qualifications of organizations to meet CB-CME standards and for providing support for CB-CMEs, including:
    1. Identify organizations who meet the CB-CME standards
    2. Provide the infrastructure and tools necessary to support CB-CMEs in care coordination
    3. Gather and share HHP member-level information regarding health care utilization, gaps in care and medications
    4. Provide outcome tools and measurement protocols to assess CB-CME effectiveness
d. Integrate community entities focused on services to individuals experiencing homelessness into the care model and, if applicable, the multi-disciplinary care team; meet the State legislation requirement to ensure availability of providers with experience working with individuals who are chronically homeless.

e. Engage with community and social support services by building new, or enhance existing, relationships with programs, services, and support organizations to provide care to members, including but not limited to:
    1. County specialty mental health plans;
    2. Housing agencies and permanent housing providers; and
    3. Individual Housing and Tenancy Sustaining Services.
f. Contract with CB-CMEs for the provision of HHP services, including outlining the MCP and CB-CME roles and responsibilities, and ensuring that CB-CMEs fulfill all required CB-CME duties and achieve HHP goals, including the network development goals.
g. Have methods to ensure compliance with HHP requirements throughout the network, including portions of the network contracted through delegated entities.
h. Ensure the development of a communication and feedback strategy for all members of the HHP care team, including the member and their family/support persons, to ensure information sharing occurs. Encourage all of the HHP member's providers who supply input to the HAP and coordinate with the CB-CME care coordinator to conduct case conferences, including with those whom may not be formally included on the CB-CME's multi-disciplinary care team.
    1. If the CB-CME is not the member's MCP-assigned PCP, the MCP must have policies and procedures for ensuring: the MCP/CB-CME maintains a strong and direct connection to the PCP and PCP's participate in HAP development and ongoing coordination.
i. Have strong oversight and perform regular auditing and monitoring activities to ensure that all care management requirements are completed

1) Administration

a. Attribute assigned HHP members to CB-CMEs, providing for increased care coordination as close to the member's usual point of care delivery as possible in the community. HHP members must be notified of their CB-CME options.
b. Receive payment from DHCS and disperse funds to CB-CMEs. Have policies and procedures regarding:
    1. The process for how an MCP determines that the appropriate level of services are provided and documented by CB-CMEs in accordance with the contract and service requirements; and
    2. The process/structure/tiering (if used) for payments to CB-CMEs.

2) Data Sharing and Reporting

a. Develop reporting capabilities and methodologies
b. Establish and maintain data-sharing agreements that are compliant with all federal and state laws and regulations, and when necessary, with other providers
c. Notify CB-CMEs of inpatient admissions and emergency department (ED) visits/discharges
d. Track and share data with CB-CMEs regarding each member's health history
e. Establish procedures for hospitals participating under the Medicaid State Plan or a waiver of such plan for referring eligible individuals with chronic conditions who seek or need treatment in a hospital emergency department to designated HHP providers. However, HHP primarily uses the TEL to identify and refer members to HHP.

3) Training and Education

a. Develop and offer learning activities that will support CB-CMEs in effective delivery of HHP services
b. Develop CB-CME training tools, as needed, to supplement DHCS-developed tools.
c. Ensure participation of the CB-CME and MCP staff delivering HHP Services in DHCS-required CB-CME and care coordinator training and learning collaboratives.

B. CB-CME Qualifications

HHP CB-CMEs must meet the following qualifications:

- Be experienced serving Medi-Cal members and, to comply with W&I Code HHP requirements, as appropriate for their assigned HHP member population, with high-risk members such as individuals who are experiencing homelessness;
- Comply with all program requirements;
- Have strong, engaged organizational leadership who agree to participate in learning activities, including in-person sessions and regularly scheduled calls;
- Have the capacity to provide appropriate and timely in-person care coordination activities, as needed. If in-person communication is not possible in certain situations, alternative communication methods such as tele-health or telephonic contacts may also be utilized, if culturally appropriate and accessible for the HHP member, to enhance access to services for HHP members and families where geographic or other barriers exist and according to member choice;
- Have the capacity to accompany HHP members to critical appointments, when necessary, to assist in achieving HAP goals;
- Agree to accept any enrolled HHP members assigned by the MCP, according to the CB-CME contract with the MCP;
- Demonstrate engagement and cooperation with area hospitals, primary care practices and behavioral health providers, through the development of agreements and processes, to collaborate with the CB-CME on care coordination; and
- Use tracking processes to link HHP services and share relevant information between the CB-CME and MCP and other providers involved in the HHP member's care.

C. CB-CME Certification

Organizations must be one of the following types of organizations and be able to meet the qualifications above and perform the duties below to be authorized to serve as a CB-CME:

- Behavioral health entity
- Community mental health center
- Community health center
- Federally qualified health center
- Rural health center
- Indian health clinic
- Indian health center
- Hospital or hospital-based physician group or clinic
- Local health department
- Primary care or specialist physician or physician group

- SUD treatment provider
- Provider serving individuals experiencing homelessness
- Other entities that meet certification and qualifications of a CB-CME, if selected and certified by the MCP

D. CB-CME General Duties

CB-CMEs will be expected to perform the following duties/responsibilities:

- Be responsible for care team staffing, according to HHP required staffing ratios determined by DHCS, and oversight of direct delivery of the core HHP services;
- Implement systematic processes and protocols to ensure member access to the multi-disciplinary care team and overall care coordination;
- Ensure person-centered health action planning that coordinates and integrates all of the HHP member's clinical and non-clinical physical and behavioral health care related needs and services, and social services needs and services;
- Collaborate with and engage HHP members in developing a HAP and reinforcing/implementing/reassessing it in order to accomplish stated goals;
- Coordinate with authorizing and prescribing entities as necessary to reinforce and support the HHP member's health action goals, conducting case conferences as needed in order to ensure that the HHP member care is integrated among providers;
- Support the HHP member in obtaining and improving self-management skills to prevent negative health outcomes and to improve health;
- Provide evidence-based care;
- Monitor referrals, coordination, and follow-up to needed services and supports; actively maintain a directory of community partners and a process ensuring appropriate referrals and follow-up;
- Support HHP members and families during discharge from hospital and institutional settings, including providing evidence-based transition planning;
- Accompany the HHP member to critical appointments (when necessary and in accordance with MCP HHP policy);
- Provide service in the community in which the HHP member lives so services can be provided in-person, as needed;
- Coordinate with the HHP member's MCP nurse advice line, which provides 24-hour, seven day a week availability of information and emergency consultation services to HHP member; and
- Provide quality-driven, cost-effective HHP services in a culturally competent and trauma-informed manner that addresses health disparities and improves health literacy.

VI. General HHP Operations

A. Non-Duplication of Care Coordination Services

MCPs must ensure that members are not enrolled in another state program that provides care coordination services that would preclude them from receiving HHP care coordination services. The process should include: 1) checking available MCP data; and 2) asking members as part of both the in-person member assessment during the eligibility/enrollment process and the assessment/care plan process.

The Targeted Engagement List (TEL) does not include members who are participating in the following programs:

- 1915(c) Home and Community Based (HCBS) waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH);
- County Targeted Case Management (TCM) (excluding Specialty Mental Health TCM);
- Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month; and
- Hospice.

Below is a summary of how HHP intersects with existing Medi-Cal programs that provide care coordination services, organized by the following three categories: 1) Members can receive services through both HHP and the other program; 2) Members must choose HHP or the other program; and 3) Members cannot receive HHP services.

1) Members Can Receive Services through BOTH HHP and the Other Program

- 1115 Waiver Whole Person Care Pilot Program
  Members participating in a Whole Person Care (WPC) Pilot Program may also be eligible for the HHP. DHCS has released specific guidance related to the interaction between the Health Homes Program and the WPC Pilot Program which can be found in Appendix K of this Program Guide.

- California Children's Services
  Children who are enrolled in the Children's Services program are eligible for the HHP.

- Specialty Mental Health and Drug Medi-Cal
  DHCS recognizes that coordination of behavioral health services will be a major component of HHP. HHP services are focused on physical health, mental health, Substance Use Disorder (SUD), community-based LTSS, palliative care, trauma-informed care, oral health, social supports, and, as appropriate for individuals experiencing homelessness, housing. In the California HHP structure of MCPs and CB-CMEs, it is expected that direct HHP services for HHP members will primarily occur at the CB-CMEs, even though MCPs may play a role. Therefore, it is important that CB-CMEs that have HHP members who receive behavioral health services have the capability to support the various needs of their members.

  For HHP members without conditions that are appropriate for specialty mental health treatment, it is anticipated that their physical-health oriented CB-CME is an appropriate setting for their HHP services. These CB-CMEs would typically be affiliated with an MCP.

  DHCS and stakeholders have noted that HHP members with conditions that are appropriate for specialty mental health treatment may prefer to receive their primary HHP services from their MHP's contracted provider acting as a designated CB-CME. To facilitate care coordination for HHP members through a MHP-designated CB-CME, Drug Medi-Cal Organized Delivery system (DMC-ODS) or MHP providers may perform CB-CME HHP responsibilities through a contract with the MCPs in the county at the discretion of

the MCP. This type of entity would perform the CB-CME HHP responsibilities for an HHP-eligible managed care member who 1) qualifies to receive services provided under the Medi-Cal scope of service for this type of entity (MHP or Drug Medi-Cal services); and 2) chooses a county MHP, or county MH/SUD plan, affiliated CB-CME instead of a CB-CME affiliated with the MCP. In cases where the MHP serves as both an administrator and a provider of direct services, the MHP could assume the responsibilities of the CB-CME.

2) Members Must Choose HHP OR the Other Program

- Targeted Case Management
  County-operated Targeted Case Management (TCM) is a comprehensive care coordination program and is duplicative of HHP. Members who are receiving TCM services have a choice of continuing TCM services or receiving HHP services.

  However, TCM provided as part of the County Mental Health Plan (MHP) Specialty Mental Health (SMH) services is not duplicative of HHP. The HHP provider should ensure that they: 1) coordinate with the SMH TCM provider, and 2) do not duplicate any SMH TCM activities.

- 1915(c) Waiver Programs
  1915(c) Home and Community Based Services (HCBS) Waiver programs provide services to many Medi-Cal members who will likely also meet the eligibility criteria for HHP. There are comprehensive care management components within these programs that are duplicative of HHP services. Members who are receiving 1915(c) services have a choice of continuing 1915(c) services or receiving HHP services.
  The 1915(c) HCBS waiver programs include:
  HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), and Nursing Facility Acute Hospital (NF/AH).

- Cal MediConnect or Fee-for-Service Delivery Systems
  Members who are eligible for both Medi-Cal and Medicare are eligible for the HHP. In addition, members who are in the Fee-for-Service Delivery System are also eligible for the HHP. However, HHP is not available in the Cal MediConnect or Fee-for-Service delivery systems. Members have the choice to leave the Cal MediConnect or Fee-for-Service delivery systems to receive all their Medi-Cal services, including HHP services, through a regular Medi-Cal Managed Care Plan.

- Other Comprehensive Care Coordination Programs
  Individual MCPs have discretion to determine and designate other comprehensive care coordination programs (not listed in this section) that are duplicative of HHP services, including programs that are operated or overseen by the MCP. Examples include, but are not limited to, MCP Complex Case Management programs and Community-Based Adult Services.

3) Members CANNOT Receive HHP Services

- Nursing Facility Residents and Hospice Recipients
  Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month and Hospice service recipients are excluded from participation in the HHP.

B. HHP Outreach Requirements

MCPs will be responsible for engaging HHP-eligible members, using state-determined, Centers for Medicare & Medicaid Services (CMS)-approved criteria. Engagement of eligible HHP members will be critical for the program success. MCPs will link HHP members to one of the MCP's contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider (PCP) is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions.

1) MCP Duties/Responsibilities

MCPs must have the ability to perform the following duties/responsibilities or delegate to CB-CMEs and provide appropriate oversight.

a. Capacity
   Have the capacity to engage and provide services to eligible members, including:
   1) Establish an engagement plan with appropriate modifications for members experiencing homelessness;
   2) Evaluate the TEL provided by DHCS;
   3) Attribute assigned HHP members to CB-CMEs;
   4) Ensure the engagement of members on the targeted engagement list;
   5) Secure and maintain record of the member's consent to participate in the program (which can be verbal); and
   6) Provide member resources (e.g. customer service, member grievance process) relating to HHP.

b. Engagement Process
   1) Have policies and procedures for identifying, locating, and engaging HHP-eligible members.
   2) Use the following strategies for engagement as appropriate and to the extent possible: mail; email; social media; texts; telephone; community outreach; and in-person meetings where the member lives, seeks care, or is accessible.
   3) Show active, meaningful and progressive attempts at member engagement each month until the member is engaged. Activities that support member engagement include active outreach such as direct communications with member (face-to-face, mail, electronic, telephone), follow-up if the member presents to another partner in the HHP network, or using claims data to contact providers the member is known to use. Examples of acceptable engagement include:
      a. Letter to member followed by phone call to member
      b. Phone call to member, outreach to care delivery partners and social service partners

c. Street level outreach, including, but not limited to, where the member lives or is accessible

4) Establish a process for reviewing and excluding people from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines of having no substantial avoidable utilization or be enrolled in another acceptable care management program – see Reporting Template-Instructions for definition);
5) Report Members determined not appropriate for the HHP, along with a reason code, to DHCS.
6) DHCS will evaluate the MCP enrolled vs non-enrolled members and compare across MCPs for general compliance review purposes and to ensure that the engagement process is adequately engaging members on the targeted engagement list who are at the highest risk levels, have behavioral health conditions, and those experiencing homelessness.
7) Include housing navigators in the engagement process, at the MCP's discretion
8) Document the member engagement process
9) Develop a methodology and criteria used by the MCP or the CB-CME to stratify high, medium and low need members
10) Develop educational materials or scripts that you intend to develop to engage the member.
11) Have policies and procedures to provide culturally appropriate communications and information that meet health literacy and trauma-informed care standards
12) Have policies and procedures for the following:
    a. Required number and modalities of attempts made to engage member
    b. MCP's protocol for follow-up attempts
    c. MCP's protocol for discharging members who cannot be engaged, choose not to participate, or fail to participate

c. Assignment

MCPs will link HHP members to one of their contracted CB-CMEs and ensure the HHP member is notified. If the HHP member's assigned primary care provider is affiliated with a CB-CME, the HHP member will be assigned to that CB-CME, unless the member chooses another CB-CME or a more appropriate CB-CME is identified given the member's individual needs and conditions. MCP's and/or CB-CME's notification will inform the HHP member that they are eligible for HHP services, and identify their MCP and CB-CME. This notification will explain that HHP participation is voluntary, members have the opportunity to choose a different CB-CME, and HHP members can discontinue participation at any time. It will also explain the process for participation. In counties where multiple MCPs are available, the HHP member may change their MCP once per month in accordance with current MCP choice policies.

C. Priority Engagement Group

After the MCP has screened people who are inappropriate for HHP from the TEL based on the HHP requirements, MCPs are required to create a priority engagement group, or ranking process, with the goal of engaging and serving members who present the greatest opportunity

for improvement in care management and reduction in avoidable utilization. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for priority engagement status will be at the MCP's discretion (upon approval by DHCS).

D. Referral

HHP services must be made available to all full scope Medi-Cal members without a share of cost who meet the DHCS-developed eligibility criteria, including those members dually eligible for Medicaid and Medicare. Providers, health plan staff, or other, non-provider community entities/care providers may refer eligible members to the member's assigned MCP to confirm if the member meets the eligibility criteria to receive HHP services. The Targeted Engagement List will be the primary method for identifying and engaging eligible HHP members. Referrals are more likely necessary in the situation of a new Medicaid member who may not have the Medi-Cal claims history that identifies them as HHP eligible. Provider referral forms will indicate that the provider has verified that the member meets the HHP eligibility criteria. The provider will submit the referral form to the MCP for confirmation. MCP confirmation is required before an individual is deemed an HHP member and may receive HHP services from a CB-CME.

E. Consent

The member will be considered enrolled in the HHP once the member has given either verbal or written consent to participate in the program. The MCP or CB-CME will secure consents by the member to participate in HHP and authorize release of information to the extent required by law. Either the MCP or the CB-CME must maintain a record of these consents.

F. Disenrollment

If an eligible member has, or develops, an exclusionary criterion, cannot be engaged within a specified period, chooses not to participate, or fails to participate actively in HHP planning and coordination, the HHP member will be disenrolled from the HHP, and the MCP will discontinue CB-CME HHP funding for that member. Additionally, if the MCP determines that the member's eligible chronic conditions have become well-managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status – the HHP member will be disenrolled and the MCP will discontinue CB-CME HHP funding for that member.

A Notice of Action (NoA) Letter is required in all situations except for when an eligible member chooses not to participate. The eligible member may choose to participate in the HHP at any time.

G. Risk Grouping

The MCP will ensure that HHP member acuity will inform appropriate provision of HHP services. For example, MCP program criteria may include three, or more, risk groupings of the HHP members. Members in the higher acuity risk groupings (tiers) will receive more intensive HHP services. In addition, the HHP will include requirements to address the unique needs of members experiencing homelessness, as specified in AB 361.

H. Mental Health Services

MCPs will develop or amend existing Memoranda of Understanding with county Mental Health Plans (MHPs) to address HHP-specific information. DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018) to address the HHP-specific information that MCPs must include in new, or amended, MOUs. This MOU will be submitted to DHCS prior to the start of HHP implementation for the Serious Mental Illness or Serious Emotional Disturbance (SMI) population. Please see Appendix D - Readiness Requirements and Checklist for information on this deliverable.

I. Housing Services

MCPs will work with community resources to ensure seamless access to the delivery of housing support services. MCPs or contracted CB-CMEs must provide housing navigation services, not just referrals to housing. A Housing Navigator is required to be part of the HHP care team for members experiencing homelessness. HHP members must receive the following services:

1) Individual Housing Transition Services

Housing transition services assist beneficiaries with obtaining housing, such as individual outreach and assessments. These services include:

- Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers;
- Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal;
- Assisting with the housing application process. Assisting with the housing search process;
- Identifying resources to cover expenses such as security deposit, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses;
- Ensuring that the living environment is safe and ready for move-in;
- Assisting in arranging for and supporting the details of the move; and
- Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized.

2) Individual Housing and Tenancy Sustaining Services

Housing and tenancy sustaining services, such as tenant and landlord education and tenant coaching, support individuals in maintaining tenancy once housing is secured. These services include:

- Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations;

- Education and training on the roles, rights and responsibilities of the tenant and landlord;
- Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy;
- Assistance in resolving disputes with landlords and/or neighbors to reduce risk of eviction or other adverse action;
- Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized;
- Assistance with the housing recertification process;
- Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers; and
- Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

To the extent applicable, housing-based case management services provided to HHP members shall be consistent with the Housing First core components as described in Senate Bill (SB) 1380 Mitchel, Chapter 847, Statutes of 2016). Engagement to members potentially eligible for HHP or the provision of HHP housing-based case management services may not be restricted for individuals based on sobriety, completion of treatment, poor credit, financial history, criminal background, or housing readiness, unless they are determined ineligible for HHP or meet one or more of the DHCS defined HHP exclusionary criteria. HHP housing-based services shall incorporate a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of members' lives, where members are engaged in nonjudgmental communication regarding drug and alcohol use. Members should be offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if they so choose.

The HHP does not provide direct funding for housing. However, DHCS encourages MCPs to partner with housing organizations that incorporate the Housing First model into their case management and housing navigation services offered to members and to prioritize connecting HHP members with permanent housing options, when appropriate and available. For example, plans might explore collaborating with community-based organizations that are Housing First compliant, implement a requirement that housing services be provided consistent with Housing First components, encourage enhanced coordination with coordinated entry and assessment systems and/or allow receipt of referrals from the homeless crisis response system entities. The goal is to integrate Housing First principles and components in an effort to enhance the provision of meaningful individual housing and tenancy-sustaining services to enrolled members.

J. Training

MCPs are required to ensure that the MCP and CB-CME staff who will be delivering HHP services receive the required HHP training prior to participating in the administration of the HHP. See Appendix C for training requirements.

K. Service Directory

MCPs or CB-CMEs must ensure a directory of community services and supports is developed, maintained, and is made available to all care coordinators to inform referring members to social services. The community services directory may be sourced from existing directories so long as it is available as a resource for CB-CMEs and care coordinators. This type of directory may be maintained by either the MCP or the CB-CME; however, the contracted MCP will ensure its availability.

L. Quality of Care

MCPs must incorporate HHP into existing quality management processes.

MCPs must have the capacity to collect and track information used to manage and evaluate the program, including tracking quality measures, and collecting, analyzing, and reporting financial measures, health status and other measures and outcome data to be reported for the State's evaluation process. The MCP will report core service metrics and the recommended core set of health care quality measures established by CMS, as well as the three utilization measures identified by CMS to assist with the overall federal health home evaluation. MCPs must report on the measures listed in the *Reporting Template, and provide* encounters for all HHP services.

M. Cultural Competency, Educational and Health Literacy

MCPs must incorporate HHP into existing policies and procedures related to ensuring that services, communication, and information provided to members are culturally appropriate, and meet health literacy, reading, harm-reduction, and trauma-informed care standards.

N. Member Communication

MCPs must incorporate HHP into existing policies and procedures regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers) into account in communicating with enrollee. DHCS and DMHC will review member materials from Knox-Keene plans through the usual process and criteria. DHCS will use a parallel process for non-Knox-Keene plans.

All notices to be sent by the MCP to Medi-Cal beneficiaries regarding the provision of HHP services will be submitted to DHCS for review.

Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. MCPs may use the DHCS HHP Member Handbook as an optional resource for examples of "best practice" member messaging (though the Handbook messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members

must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

MCPs must maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.

O. Members Experiencing Homelessness

MCPs must incorporate HHP-specific information into the appropriate policies and procedures for homeless members, including special provider and service requirements criteria (to achieve homeless experience requirements and other requirements per AB 361 and SB 1380), and engagement processes.

P. Reporting

MCP must have the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP encounters for services provided by the MCP and the CB-CMEs. See Appendix G (*Reporting Template);* and the *Core Set of Health Care Quality Measures for Medicaid Health Home Programs (Health Home Core Set), Technical Specifications and Resource Manual for Federal Fiscal Year 2019 Reporting,* or later, for details.

CMS has established a core set of seven required health care quality measures and three utilization measures (see *Reporting Template* and *document* for details). Additional details can be found in the CMS technical specifications and resource manual. These measures were identified by CMS to assist with the overall federal health home evaluation.

MCPs will utilize the Supplemental Payment process to report members enrolled in HHP and to initiate capitation payments. See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information.

VII. Appendix

A. Appendix A – Example of an Acceptable Model Outreach Protocol

This Model Outreach Protocol is only offered as one example of a protocol that would be acceptable. It is meant to give the MCP ideas about how they might want to design their outreach protocols with the CB-CMEs. The details of this protocol are at the discretion of the MCP, as long as their protocol broadly meets DHCS' intent as stated in the body of the Program Guide and the Readiness Checklist.

SAMPLE PROTOCOL

The Medi-Cal managed care plan (MCP) will send an initial "Welcome Packet" to HHP-eligible members in accordance with their engagement process. After the initial packet is sent, the CB-CMEs will follow up with their HHP-eligible members through phone calls, in-person visits, and other modalities. Each CB-CME or the MCP will attempt to contact the member **five times** within 90 days after the initial packet is sent using various modes of communication (letters, calls, in-person meetings, etc.).

If the CB-CME does not have the capacity to conduct outreach to eligible members, MCP care coordination staff, including community health workers, will conduct the outreach to these members and note the outreach attempts in the members' record.

After five attempts, the CB-CME and the MCP will note the challenges with the active outreach and remind the PCP to discuss the HHP with the member at the next PCP visit. If the member declines HHP enrollment at the PCP visit, this will be noted in the EHR and the MCP will be notified.

If the CB-CME or the MCP learns that the contact information is out of date, efforts will be made to update that information using recent provider utilization data and community health workers who can conduct on-the-ground outreach to locate members through their neighbors or community organizations. The CB-CME will also review members' housing history and work with the MCP Housing Program Manager to determine if that member can be reached at an alternative housing site or through a community-based organization.

CB-CMEs will track all outreach attempts within a three month intensive outreach period after the initial welcome letter is sent. The MCP will require that each outreach attempt and the outcome of each attempt be documented in the member's record in the HHP care management system and reported back to the MCP and DHCS. All outreach and engagement attempts will be evaluated by the care coordination team every 30 days within this three month period. The MCP will create policies and procedures for tracking and evaluating outreach and engagement efforts.

If a member declines participation in the HHP, or if their PCP determines that the member is not a good candidate for the HHP (using categories determined and provided by DHCS), this will be noted in the record in the HHP care management system to avoid repeated outreach

attempts. Members who do not enroll in the HHP will be noted, tracked in the MCP's data system and reported to DHCS. Members who graduate from the program will be disenrolled, which will be noted in the record, tracked in the data system, and reported to DHCS.

The MCP will create a mechanism for CB-CMEs and PCPs to identify potential HHP members who are not on the targeted engagement list and who meet the diagnostic and acuity criteria but not the utilization criteria. These individuals may be excellent candidates for the program to help prevent future avoidable health care utilization. In general, MCP will require CB-CMEs to justify the inclusion of the referred member into the program or onto the targeted engagement list. This would be reviewed by a medical director and/or nurse manager with experience in intensive case management to see if the member qualifies for the HHP or if they might be better served by another case management program, and if the rationale provided by the CB-CME or PCP justifies engagement and enrollment in the program.

Staff and Providers

The MCP will train MCP and CB-CME staff who may interact with HHP members, including customer service staff, 24-hour nurse line staff, and provider representatives, to ensure all member- and provider-facing staff are knowledgeable about the HHP, can answer questions and refer participating or eligible members or providers to the appropriate staff. MCP staff, CB-CME staff, providers and community providers are required to participate in webinars and trainings required by DHCS.

The MCP will work to educate all contracted providers, including providers at contracted CB-CMEs and providers from smaller clinics whose patients will receive HHP services through MCP care coordinators.

There will be on-the-ground community health workers who work in the local community and will visit members at their homes or community-based organizations where the members receive services. The MCP has made significant investments in developing this team of community health workers and they will be a key part of success in engaging and educating members on HHP.

Materials

The MCP will work with DHCS to educate providers, beneficiaries and key stakeholders to ensure strong member engagement and participation. The MCP will use outreach and education materials (flyers, brochures, sample email content, sample scripts, etc.) that are approved by DHCS. If the MCP is licensed by DMHC, these materials should additionally be filed with DMHC for review, as applicable. The MCP will also use existing communication channels to promote outreach and education opportunities for providers and members, such as informational webinars, trainings and tele-town halls.

At a minimum, the MCP will develop the following materials:

- Call scripts for Customer Service and 24-hour Nurse Advise Line;
- Member "Welcome Packet," including outreach letters and brochures;

Back to Agenda

- Appointment reminder letters for both medical and care coordination appointments;
- Content for both the member and provider sections of the MCP website; and
- Training guides for the MCP and CB-CME staff who interface with providers and members.

All member-facing materials for HHP will meet DHCS requirements for cultural competency and health literacy standards.

SAMPLE

B. Appendix B – Targeted Engagement List Process

The Targeted Engagement List (TEL) Process identifies the Medi-Cal members that are the most appropriate candidates for the enhanced care coordination services in the Health Home Program (HHP). The TEL is sent to each participating Managed Care Plan (MCP) so that they can initiate engagement activities. This document provides additional details for the criteria and steps used in the TEL Process.

The data source for the TEL Process is DHCS's Data Warehouse. The Data Warehouse contains service level detail for most Medi-Cal programs, including managed care encounters, Fee-For-Service claims, Short-Doyle Mental Health services, Drug-Medi-Cal services, and others. MEDS eligibility information available in the Data Warehouse is also used in the TEL Process.

TEL Process – There are four main steps in the TEL Process, as follows:

1. SPA Eligibility Requirements for Chronic Condition Disease Identification – During the 24 months prior to the running of the TEL, if a member has at least two separate services on different dates for any of the following conditions it will be considered a chronic condition for the TEL. HHP chronic conditions include Asthma, Bipolar Disorder, Chronic Kidney Disease (CKD), Chronic Liver Disease, Chronic Obstructive Pulmonary Disease (COPD), Chronic or Congestive Heart Failure, Coronary Artery Disease, Dementia, Diabetes, Hypertension, Major Depression Disorders, Psychotic Disorders (including Schizophrenia), Substance Use Disorder, and Traumatic Brain Injury. The specific ICD-10 diagnosis codes for each chronic condition are listed below. The TEL process uses the primary and secondary diagnosis during the disease identification process.

2. SPA Eligibility Requirements for Chronic Condition Criteria. A member meets the chronic condition criteria if they have:
   2.1. Chronic Condition Criteria #1: At least two of the following: Chronic Obstructive Pulmonary Disease (COPD), Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic or Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, Substance Use Disorder.
   2.2. Chronic Condition Criteria #2: Hypertension and one of the following: COPD, Diabetes, Coronary Artery Disease, Chronic or Congestive Heart Failure.
   2.3. Chronic Condition Criteria #3: One of the following: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders (including Schizophrenia).
   2.4. Chronic Condition Criteria #4: Asthma

3. SPA Eligibility Requirements – Acuity – These parameters ensure that potential HHP members are high utilizers of health services. A member must meet one of these acuity factors:

3.1. A high chronic condition predictive risk level (operationalized as three or more of the HHP eligible chronic conditions) or
3.2. At least one inpatient stay (not required to be related any particular condition*) in the 16-month period prior to the running of the TEL. (The inpatient stay algorithm is aligned with industry standards and the HEDIS inpatient algorithm) or
3.3. Three or more Emergency Department (ED) visits (not required to be related to any particular condition*) in a 16-month period prior to the running of the TEL. (The ED algorithm is aligned with industry standards and the HEDIS ED algorithm) or
3.4. Chronic Homelessness (there are no data parameters for this criteria. Members who only meet eligibility through this criteria will be identified solely through provider referral and MCP prior authorization)

* MCPs have the option to adjust this requirement.

4. HHP Enrollment Targeting and Exclusions – This step starts with the Medi-Cal members that meet the SPA chronic conditions and acuity eligibility requirements and determines if the members meet any of the specific program enrollment targeting and exclusionary criteria.:

a) Members that meet the eligibility requirements are excluded from the TEL, and <u>are excluded from participation in HHP unless their status changes</u>, if the members are identified as:

- Nursing Facility Residents
- Hospice Recipients
- Members with TCM
- Members in 1915 (c) programs
- Members in Fee-For-Service
- Members in PACE, SCAN, or AHF
- Members in Cal MediConnect

b) Members that meet the eligibility requirements are not included on the TEL (but could be enrolled through referral) if the members are identified as:

- Dually eligible members
- Members in CCS or GHPP
- Members with ESRD

TEL and TEL Supplement Reporting

The members that meet the eligibility requirements for chronic conditions and acuity will be reported to the managed care plans (MCPs) in either the TEL or the TEL Supplement. The TEL will contain all of the members that meet the SPA eligibility criteria through step 3 above and do not meet any of the specific program enrollment targeting and exclusionary criteria listed in step 4. The MCPs will use the TEL, their TEL verification process, and their internal priority

engagement rules to focus their enrollment activities and enroll the most appropriate members into HHP. The TEL Supplement will contain members that meet the SPA eligibility requirements for chronic condition criteria but are not included on the TEL. The TEL and the TEL Supplement will be provided within the same physical data set with the appropriate indicators.

TEL and TEL Supplement List Management

DHCS' expectations are that most of the HHP eligible members will be identified on the first TEL/TEL Supplement for an MCP in a region (first for chronic conditions, and six months later, for SMI) and most subsequent TEL/TEL Supplement files, at six month intervals, will have a smaller number of new members. To manage the members that appear on the TEL and the TEL Supplement, DHCS is considering the following parameters:

- Members may not appear on subsequent TEL/TEL Supplement files for an MCP because:
  - The member is no longer Medi-Cal eligible in MEDS
  - The member has changed MCPs
  - The member may not meet the disease identification or SPA eligibility requirements for chronic condition criteria
- Members may move from the TEL to the TEL Supplement and from the TEL Supplement to the TEL

TEL and SPA Assignment

DHCS is required to provide separate reporting to CMS for the HHP SMI SPA and the HHP Physical Health\SUD SPA. This requirement is reflected in the HHP implementation schedule. The TEL/TEL Supplement process includes all SPA-defined chronic conditions in the initial steps. In order to support the implementation schedule and MCP requests for additional TEL-related information, the initial TEL/TEL Supplement in each geographic implementation group will include both Physical health/SUD and SMI conditions.

However, members with only SMI conditions are not eligible for the first implementation in each County. The SMI-only members on the TEL/TEL Supplement are identified when Chronic Condition Criteria #3 equals '1' and Chronic Conditions Criteria #1, #2, and #4 are all equal to '0'. MCPs will be required to separately identify HHP members between physical health\SUD and SMI on the Supplemental Payment file sent to DHCS for payment purposes (See DHCS' *Technical Guidance – Consolidated Supplemental Upload Process* for further information).

HHP TEL/TEL Supplement – Fixed-width Record Layout v1.3

Field Id	Field Name	Description	Length	Start	End	Data Type

31	Chronic Condition Criteria #1	Member met the HHP Chronic Condition Criteria #1 (At least two of the following conditions: Chronic Obstructive Pulmonary Disease, Chronic Kidney Disease (CKD), Diabetes, Traumatic Brain Injury, Chronic Congestive Heart Failure, Coronary Artery Disease, Chronic Liver Disease, Dementia, and Substance Use Disorder) ('1' for yes, '0' for no).	1	112	112	A

Field Id	Field Name	Description	Length	Start	End	Data Type
32	Chronic Condition Criteria #2	Member met the Chronic Condition Criteria #2 (Hypertension and at least one of the following conditions: Chronic Obstructive Pulmonary Disease, Diabetes, Coronary Artery Disease, or Chronic Congestive Heart Failure) ('1' for yes, '0' for no).	1	113	113	A
33	Chronic Condition Criteria #3	Member met Chronic Condition Criteria #3 (Any one of the following conditions: Major Depression Disorders, Bipolar Disorder, or Psychotic Disorders) ('1' for yes, '0' for no).	1	114	114	A
34	Chronic Condition Criteria #4	Member met Chronic Condition Criteria #4 (Asthma) ('1' for yes, '0' for no).	1	115	115	A
35	Count of Chronic Condition Criteria	A count of the number of Chronic Conditions Criteria the member met.	1	116	116	A
36	Acuity Factor #1	Member met acuity factor #1: three or more of the HHP eligible chronic conditions ('1' for yes, '0' for no).	1	117	117	A
37	Acuity Factor #2	Member met acuity factor #2: one or more inpatient stay ('1' for yes, '0' for no).	1	118	118	A
38	Acuity Factor #3	Member met acuity factor #3: three or more ED visits ('1' for yes, '0' for no).	1	119	119	A
39	Count of ED visits	The number of Emergency Department visits during the study period.	3	120	122	A
40	Latest ED visit DOS	The date of service for the most recent Emergency Department visit.	8	123	130	A
41	Count of Inpatient Admissions	The number of Inpatient Admissions during the study period.	3	131	133	A
42	Latest Inpatient Admission DOS	The date of service for the most recent Inpatient Admission.	8	134	141	A
43	Exclusion - Duals	The member is Dual Eligible ('1' for yes, '0' for no).	1	142	142	A
44	Exclusion - Hospice	The member had at least one service with one of the following revenue codes 0651, 0652, 0655, 0656, 0657, or with the following procedure code T2045 in the time period ('1' for yes, '0' for no).	1	143	143	A

Field Id	Field Name	Description	Length	Start	End	Data Type
45	Exclusion - ESRD	The member had at least one service with one of the following procedure codes in the time period, Z6004, Z6006, Z6012, Z6014, Z6016, Z6018, Z6022, Z6036, Z6038, Z6040, Z6030, 90967, 90968, 90969, 90970, 90989, 90993, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90935, 90937, 90945, 90947 ('1' for yes, '0' for no).	1	144	144	A
46	Exclusion - CCS	The member had at least one CCS End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	145	145	A
47	Exclusion - GHPP	The member had at least one GHPP End Date after the last month of the observation period or later ('1' for yes, '0' for no).	1	146	146	A
48	Exclusion - TCM	The member had at least one Targeted Case Management service in the time period (services where the Vendor Code was "92" or "93" ('1' for yes, '0' for no).	1	147	147	A
49	Exclusion - 1915c	The member met at least one of the following 1915c exclusions defined below, HIVAExcl, ALWExcl, DDExcl, IHOExcl, MSSPExcl, or PPC_Exclu ('1' for yes, '0' for no).	1	148	148	A
50	Exclusion - HIV/AIDS Waiver	Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome (HIV/AIDS) Waiver exclusion. The member had at least one service in the time period where the Provider type was "073" and Procedure Code in (90837, 90846, 90847, 90847, G0156, G0299, G0300, S5130, S5165, S5170, S9470, T2003, T2022, T2025, T2026, T2028, T2029) ('1' for yes, '0' for no).	1	149	149	A
51	Exclusion - Assisted Living Waiver	Assisted Living Waiver (ALW) Exclusion. The member had at least one service in the time period where the Vendor Code In ("44" or "84"), and (Provider Type was "092", "093", or "014"), and (the Category of Service was 118 or 119) ('1' for yes, '0' for no).	1	150	150	A

Field Id	Field Name	Description	Length	Start	End	Data Type
52	Exclusion - Developmental Disabilities Waiver	HCBS Waiver for Californians with Developmental Disabilities (DD) exclusion. The member had at least one service in the time period where the Vendor Code was "76" and the Procedure Code in (Z9002, Z9003, Z9004, Z9005, Z9012, Z9014, Z9015, Z9016, Z9020, Z9021, Z9022, Z9023, Z9025, Z9025, Z9026, Z9026, Z9027, Z9028, Z9029, Z9030, Z9031, Z9032, Z9034, Z9038, Z9039, Z9043, Z9046, Z9047, Z9048, Z9050, Z9056, Z9058, Z9059, Z9060, Z9061, Z9062, Z9063, Z9064, Z9065, Z9066, Z9067, Z9069, Z9072, Z9073, Z9074, Z9075, Z9076, Z9077, Z9078, Z9079, Z9101, Z9102, Z9103, Z9104, Z9105, Z9106, Z9110, Z9111, Z9112, Z9113, Z9121, Z9122, Z9123, Z9124, Z9125, Z9126, Z9200, Z9202, Z9203, Z9204, Z9205, Z9206, Z9207, Z9208, Z9302, Z9303, Z9304, Z9305, Z9306, Z9307, Z9308, Z9310, Z9311, Z9312, Z9313, Z9314 ,Z9315, Z9400, Z9401, Z9402, Z9403, Z9404, Z9405, Z9406, Z9406, Z9407, Z9408, Z9999) ('1' for yes, '0' for no).	1	151	151	A
53	Exclusion - IHO/HCBA Waivers	In-Home Operations Waiver (IHO) / Home and Community-Based Alternatives (HCBA) exclusion. The member had at least one service in the time period where the Vendor Code was "71" and Provider type is “014, 059, 066, 067, 069, 078, 095”) or where the Vendor Code was "89" and the Special Program Code (SPECIAL_PGM_TYPE_CD was "3" (IHO Personal Care Services (WPCS)) ('1' for yes, '0' for no).	1	152	152	A

Field Id	Field Name	Description	Length	Start	End	Data Type
54	Exclusion - MSSP Waiver	Multipurpose Senior Services Program Waiver (MSSP) exclusion. The member had at least one service in the time period where the Vendor Code was "81", the Provider Type is '074', and the Procedure Code in (Z8550, Z8551, Z8552, Z8553, Z8554, Z8555, Z8556, Z8557, Z8558, Z8559, Z8560, Z8561, Z8562, Z8563, Z8564, Z8565, Z8566, Z8567, Z8568, Z8569, Z8570, Z8571, Z8572, Z8573, Z8574, Z8575, Z8576, Z8580, Z8581, Z8582, Z8583, Z8584, Z8585, Z8586, Z8587, Z8588, Z8589, Z8590, Z8591, Z8592, Z8593, Z8594, Z8595, Z8596, Z8597, Z8598, Z8599, Z8600, Z8601, Z8602, Z8603) ('1' for yes, '0' for no).	1	153	153	A
55	Exclusion - PPC Waiver	Pediatric Palliative Care (PPC) Waiver exclusion. During the observation period, the member in one of the following counties: Fresno, Los Angeles, Marin, Monterey, Orange, San Francisco, Santa Clara, Santa Cruz, Sonoma, or Ventura, the Provider Type is '014 or '039, the Category of Service is '120, and the Procedure Code is 'G9012' ('1' for yes, '0' for no).	1	154	154	A
56	Exclusion - PACE, SCAN, AHF	PACE, SCAN, and AHF exclusion. As of the last month, the member had one of the following Plan Codes: 050-065, 200-207, 601, or 915. ('1' for yes, '0' for no).	1	155	155	A
57	Exclusion - LTC Resident	Long Term Nursing Facility residents exclusion. As of the end of the study period the member had one of the following Long Term Care (Nursing Facility) Aid Codes: "13", "23", "53", or "63" ('1' for yes, '0' for no).	1	156	156	A
58	Exclusion - FFS	Fee-For-Service exclusion. As of the end of the study period the member was in Fee For Service (Plan Code 000) ('1' for yes, '0' for no).	1	157	157	A
59	Count of Exclusions	A count of the number of Exclusions for which the member met the requirements.	2	158	159	A
60	TEL Indicator	A value of "1" indicates a TEL record; a value of "0" indicates a TEL Supplement record	1	160	160	A

C. Appendix C – Training Requirements

This section outlines training that MCP and CB-CME staff who will be delivering HHP services are required to receive prior to participating in the administration of the HHP. It also includes recommendations for training CB-CME staff on several core competencies.

Required HHP Trainings for Prior to HHP Implementation
MCP and CB-CME staff who will be delivering HHP services are required to receive HHP-specific training prior to HHP implementation. The required training topics described below cover basic program components. DHCS provided PowerPoint training materials that MCPs can leverage for their required trainings. However, it is also acceptable for an MCP to use non-DHCS developed training materials to satisfy one, or more, of the requirements. DHCS-developed training materials are saved on both the portal and DHCS' Health Homes Program website.

MCPs must be prepared to follow the required high-level trainings with more specific HHP operational training for their staff and CB-CME staff that provide HHP services. This should include MCP-specific information on operations, workflows, how HHP intersects with MCP care coordination initiatives, data reporting, and other implementation issues. DHCS and Harbage Consulting will work with each MCP to discuss their needs and the best approach for providing the required trainings.

The required HHP training topics are:

1. **Health Homes Program Overview**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on the program. Required training modules shall describe the goals and scope of the HHP, team member roles and how they should work together, the services that should be provided, and how HHP intersects with other California state care coordination programs. The training shall introduce topics related to caring for the populations served under HHP, including those with chronic conditions and homeless individuals, and the impact of social determinants of health on patients.

2. **Health Action Plan, Care Coordination, and Care Transitions within the Health Homes Program**

All MCP and CB-CME staff participating in the administration of the HHP are required to receive training on best practices for working with members and providers to design and implement the Health Action Plan, conduct care coordination activities, and support patient transitions between different levels of care.

Required training shall cover approaches and best practices for developing and implementing a Health Action Plan and providing patient-centered care, taking into account the individual's preferences, values, and unique needs. It shall also cover best practices for care management for specific chronic diseases that are prevalent in the patient population and best practices for serving the SMI population.

Staff shall be trained in best practices for coordinating care across care settings, with particular focus on medical care, behavioral health services, and services addressing social determinants of health and housing. Training shall include effective strategies for care transitions, including best practices for reducing hospital readmissions and medication errors at care transitions.

3. **Community Resources and Referrals** (required for care coordinators and housing navigators)

This training shall provide information about available community resources, how to develop relationships with community partners, and best practices for connecting members to community services. This training is required for MCP and CB-CME care coordinators and housing navigators.

MCPs are encouraged to provide additional training and/or guidance about specific local and community organizations and resources available to the CB-CME staff.

Recommended but Optional Training for CB-CME Staff on Core Competencies

DHCS recommends that relevant MCP and CB-CME staff receive training on the following core competencies in order to successfully implement HHP. DHCS plans to provide trainings and/or resources on these topics, which will be saved on the portal and available on-demand.

1) Special Populations (homelessness, domestic violence, SMI, etc.)

Team members should have access to training and resources specific to the patient populations they serve.

2) Social Determinants of Health

Trainings and resources related to social determinants of health should be made available for team members. Social determinants of health include gender, age, education, income and employment, social/cultural networks, housing and physical environments and other factors that impact health outcomes and access to care.

3) Motivational Interviewing

Motivational interviewing is a communication technique that seeks to elicit an individual's internal motivation to make set and accomplish positive goals. The technique uses a non-confrontational, collaborative approach to help the patient find his or her own motivation and initiate change. The patient is empowered to make personal choices, resulting in increased likelihood of compliance with care plans.

4) Trauma-informed Care

Trauma-informed care is a service delivery framework that involves identifying, understanding, and responding to the effects of all types of trauma. Trauma-informed care emphasizes safety (physical, psychological and emotional) for patients and providers and seeks to empower patients with self-care tools.

5) Health Literacy Assessment

Health literacy refers to a patient's capacity to find and understand health information and services in order to make informed health decisions. Assessment of patient health literacy is essential to the creation of a patient-centered care plan.

6) Information Sharing

Team members should be trained on requirements related to sharing member information and data with other entities for the purpose of care coordination. These entities include the MCP, CB-CMEs, the care team, the county, hospitals, other providers, and community-based organizations including housing organizations.

D. Appendix D – Readiness Requirements and Checklist

Readiness Requirements and Checklist

This checklist is not intended to be all-inclusive. Additional information as needed may be requested by the Department.

General Instructions

Thank you for your interest in participating in the Health Homes Program (HHP). To ensure that Medi-Cal managed care health plans (MCPs) are ready to implement the Health Homes Program, MCPs must submit the documentation listed below and attest that other program requirements have been completed. **There are multiple deadlines for submissions for each implementing MCP group. Please see Appendix I for the HHP Implementation Schedule by group. Submission deadlines for each group are as follows:**

1. **Group 1 – March 1, 2018; May 1, 2018; and November 1, 2018.**
2. **Group 2 – September 1, 2018; November 1, 2018; February 1, 2019; and May 1, 2019.**
3. **Group 3.1 – January 1, 2019; April 1, 2019; July 1, 2019; and October 1, 2019.**
4. **Group 3.2 – March 1, 2019; May 1, 2019; August 1, 2019; and November 1, 2019.**
5. **Group 4 – September 1, 2019; November 1, 2019; February 1, 2020; and May 1, 2020.**

List of Deliverables:

Policies and Procedures (P&Ps) and Attestations: Section I – HHP Infrastructure (Deliverables #1 – 3), Section II – HHP Services (Deliverables #4 – 5), Section IV – General HHP Operations (Deliverables #7 – 10 and 12), and the Attestations (Deliverable #13)

Network: Section III – Network (Deliverable #6.1, 6.3, 6.4, 6.5)

SMI– MHP-MOU: Section IV – General HHP Operations, MHP-MOU (Deliverable #11.1)

SMI Network: Section III – Network (Deliverables #6.2a and 6.2b)

Group 1: San Francisco Counties

Deliverable Due Dates		Deliverable Approval Dates
P&Ps:	3/1/18	5/1/18
Network:	5/1/18	6/1/18
SMI Deliverables:	11/1/18	12/1/18

Group 2: Riverside, and San Bernardino Counties

Deliverable Due Dates		Deliverable Approval Dates
Network:	11/1/18	12/1/18
SMI MHP-MOU:	2/1/19	3/1/19
SMI Network:	5/1/19	6/1/19

Group 3.1: Imperial, and Santa Clara Counties

Deliverable Due Dates		Deliverable Approval Dates
Network:	4/1/19	6/1/19
SMI MHP-MOU:	7/1/19	8/1/19
SMI Network:	10/1/19	12/1/19

Group 3.2: Alameda, Kern, Los Angeles, Sacramento, San Diego, and Tulare Counties

Deliverable Due Dates		Deliverable Approval Dates
Network:	5/1/19	6/1/19
SMI MHP-MOU:	8/1/19	9/1/19
SMI Network:	11/1/19	12/1/19

Group 4: Orange County

Deliverable Due Dates		Deliverable Approval Dates
Network:	11/1/19	12/1/19
SMI MHP-MOU:	2/1/20	3/1/20
SMI Network:	5/1/20	6/1/20

DHCS expects the deliverables to be submitted in the form of MCP policies and procedures except for the organizational chart, assessment tool, health action plan template, network adequacy tables, and CB-CME subcontract. MCPs may develop standalone policies and procedures for the HHP and/or may incorporate HHP into existing policies and procedures.

MCPs are to submit a separate set of deliverables for each county they are implementing HHP in. If one or several deliverables cover multiple counties, MCPs are not required to submit the deliverable for each county. However, the MCP must indicate which counties the deliverable applies to during the submission process. The network tables that MCPs submit are to be separated by county.

For MCPs in multiple groups, the plan should not resubmit deliverables already approved for a prior group, unless changes have been made.

When submitting existing policies & procedures with HHP-related revisions, please use the "track changes" function in Word, or strike-thru/underline equivalent in other applications, to show deletions and additions. Other forms of documentation are also permitted to supplement MCP policies and procedures. If single documents are used to demonstrate compliance with multiple requirements/deliverables, please provide a crosswalk with the specific location for each deliverable.

Please see the *"Medi-Cal Health Homes Program: Program Guide"* (Program *Guide)* for Health Home Program requirements that correspond to this Readiness Checklist.

Submission Requirements

MCPs should follow the regular process for submitting required deliverables to their current Contract manager(s). Please submit HHP-related deliverables to 2PlanDeliverables@dhcs.ca.gov and copy the HHP mailbox at hhp@dhcs.ca.gov.

For each submission, please provide the Plan's Name and the primary Contact Person's name and telephone number.

In addition, when submitting, please use the following email subject line and file naming conventions:

- In the subject line of the email, please note that these are HHP Deliverables by using the following subject line convention:
  "HHP Deliverable 1"; "HHP Deliverables 2 and 3"; etc.

- Please use the following file naming convention:
  [plan name and deliverable number]

The Contact Person is responsible for ensuring that all documentation and attestations are accurate. Questions may be directed to hhp@dhcs.ca.gov. DHCS will provide additional information as it becomes available, and may request additional information at a later date.

I. HHP Infrastructure

1. Organizational Model:

1.1 Submit MCP's policies and procedures describing the HHP infrastructure, the roles and division of labor between the MCP and Community-Based Care Management Entities (CB-CMEs), and whether the MCP delegates any responsibilities to other entities.

1.2 Organizational chart illustrating the HHP infrastructure.

2. Staffing:

2.1 Submit MCP's policies and procedures describing the staffing plan for MCP and CB-CMEs, including care coordinators, community health workers, and housing navigator(s). The care coordinator ratio requirements are included in the Program Guide; however, if an MCP is interested in using a staffing model that de-emphasizes the care coordinator and instead emphasizes the roles of other team members, please describe the model here and DHCS will consider how to handle the care coordinator ratio.

The participation of community health workers in appropriate roles is recommended but not required.

2.2 Job descriptions for care coordination staff, including MCP and CB-CME staff, as appropriate.

3. Health Information Technology/Data and Information Sharing:

3.1 Submit MCP's policies and procedures describing how information is shared among the entire care team (including the member, CB-CME, and MCP), including whether EHR/HIT/HIE, or other methods, are used regarding the following activities:

a. Comprehensive Care Management
   - Identify cohort and integrate risk stratification information.
   - Shared care plan management – standard format.
   - Clinical decision support tools to ensure appropriate care is delivered.
   - Electronic capture of clinical quality measures to support quality improvement. Include other methods if electronic means of collection are not used.

b. Care Coordination and Health Promotion
   - Ability to electronically capture and share the patient-centered care plan across care team members. Include other methods if electronic means of collection are not used.
   - Tools to support shared decision-making approaches with patients.
   - Secure electronic messaging between providers and patients to increase access outside of office encounters. Include other methods if electronic messaging is not used.
   - Medication management tools including e-prescribing, drug formulary checks, and medication reconciliation.
   - Patient portal services that allow patients to view and correct their own health information. Include other methods if an electronic system is not used.

- Telehealth services including remote patient monitoring.

c. Comprehensive Transitional Care
   - Automated care transition notifications/alerts, e.g. when a patient is discharged from the hospital or receives care in an ER. Include other methods if an electronic process is not used.
   - Ability to electronically share care summaries/referral notes at the time of transition and incorporate care summaries into the EHR. Include other methods if electronic sharing is not used.
   - Referrals tracking to ensure referral loops are closed, as well as e-referrals and e-consults.

d. Individual and Family Support Services
   - Patient specific education resources tailored to specific conditions and needs.

e. Referral to Community and Social Support Services
   - Electronic capture of social, psychological and behavioral data (e.g. education, stress, depression, physical activity, alcohol use, social connection and isolation, exposure to violence). Include other methods if electronic means of collection are not used.
   - Ability to electronically refer patients to necessary services. Include other methods if electronic referral is not used.

II. HHP Services

4. Care Management:

4.1 Submit the assessment template or tool reflective of HHP-required elements such as housing instability, palliative care, and trauma-informed care.

4.2 Submit the Health Action Plan (HAP) template.

4.3 Submit MCP's policies and procedures for conducting care management, including how the MCP, in conjunction with contracted CB-CME, will:

- Develop and implement an HHP member assessment and HAP requirements and process, with enrollee and caregiver participation;
- Design the multi-disciplinary care team composition and process;
- Manage the communication and information flow regarding referrals, transitions, and care delivered outside the primary care site; and
- Maintain an HHP call line or have another mechanism for responding to enrollee inquiries and input related to HHP. The MCP's member service call center or 24/7 nurse line may satisfy this requirement; however, the MCP or CB-CME may also utilize a local on-call service knowledgeable about the HHP.
- Maintain a process for referring to other agencies, such as long term services and supports (LTSS) or behavioral health agencies, as appropriate.
- Disenroll members from HHP who no longer qualify for or require HHP services.

5. Care Transitions:

5.1 Submit MCP's policies and procedures for conducting care transitions, including discharge-planning workflows.

Back to Agenda

III. HHP Network

6. MCP Duties/Responsibilities - Health Homes Program Network

6.1 Physical Conditions and SUD implementation

Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected enrollment and capacity as of the program launch date and as of the last day of each quarter in the first year for the Physical Chronic Conditions/SUD implementation. "Projected capacity" is the maximum caseload of the MCP's Physical Chronic Conditions/SUD HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of Physical Chronic Conditions/SUD HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable is due as a part of the Network Deliverables submission.

Please provide expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – Physical Conditions and SUD**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

Note: A separate DMHC network review specific to HHP will not be conducted; however, DMHC will continue to conduct regular Knox-Keene Act required network reviews through DMHC established processes.

6.2 SMI Implementation

a. Provide a list of CB-CMEs expected to be contracted, their NPI numbers, and their expected contract effective dates. For each CB-CME, provide the projected HHP enrollment and capacity for these CB-CMEs as of the program launch date and as of the last day of each quarter in the first year for the SMI implementation. "Projected capacity" is the maximum caseload of the MCP's SMI HHP enrollees for the county in question that the MCP estimates a CB-CME is able to manage. Plans should be mindful of HHP care manager ratio requirements and any additional certification requirements they imposed on their CB-CMEs when determining this estimate. "Projected enrollment" is the number of SMI HHP members the MCP realistically estimates will be enrolled into HHP for each time period. Plans should take into account the number of members on the TEL, the estimated engagement rate of potential members, and the assumptions about member enrollment included in the HHP rate package. DHCS expects MCPs to demonstrate expanding capacity over time that corresponds with planned enrollment expansion. Please only include CB-CMEs that will have primary responsibility for care coordination services. List the MCP if the MCP is also expected to serve in the CB-CME role. This deliverable update is due as a part of the SMI Deliverables submission.

Please provide the expected network capacity and enrollment information for each time period using the following table format. MCP is required to submit separate network tables for each county, as applicable.

Plan:		**CB-CME Network Enrollment and Capacity Table – SMI**								**County:**		
CB-CME Name	**CB-CME NPI #**	**Estimates by CB-CME**										**Expected Contract Effective Date**
		(Launch Date) Estimated HHP:		**(Last Day of Q1) Estimated HHP:**		**(Last Day of Q2) Estimated HHP:**		**(Last Day of Q3) Estimated HHP:**		**(Last Day of Q4) Estimated HHP:**		
		Enrollment	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	**Enrollment**	**Capacity**	

If, after network submission and approval but prior to the program launch date, the projected number of CB-CMEs and/or their enrollment capacity decreases below the approved network capacity, the MCP must notify DHCS in writing and provide a revised network table through the HHP@dhcs.ca.gov mailbox. If the change(s) reduces the network capacity below estimated enrollment amounts per quarter, the MCP must additionally provide an action plan for meeting estimated enrollment capacity by the program launch date.

b. Provide a description of how behavioral health providers are incorporated into the HHP service delivery model. This deliverable is due as a part of the SMI Deliverables submission.

6.3 If applicable, provide any MCP-specific CB-CME qualifications (beyond the CB-CME qualifications listed in section V.B, CB-CME Qualifications) that the MCP requires for the CB-CME to contract for HHP Services. This deliverable is due as a part of the Network Deliverables submission.

6.4 Submit CB-CME oversight policies and procedures, including monitoring, corrective action, progressive consequences for continued non-compliance, auditing care coordination conducted by CB-CMEs. This deliverable is due as part of the Network Deliverables Submission.

6.5 Submit CB-CME subcontract boilerplate that complies with the DHCS MCP contract requirements and includes: 1) Business Associate Agreement that allows for information and data sharing between MCP and CB-CME, 2) CB-CME to provide services in accordance with requirements in this Program Guide, and 3) CB-CME to complete DHCS/MCP required training. **If submitting prior DHCS approved subcontract boilerplate with HHP-related revisions, please use the "track changes" function in Word, or the "strike-through/underline" equivalent in other applications, to show deletions and additions.** This deliverable is due as part of the Network Deliverables Submission.

Note: MCP must have DHCS-approved subcontracts or subcontract amendments with a sufficient number of CB-CMEs to serve its HHP enrollees.

IV. General HHP Operations

7. Non-Duplication of Care Coordination Services:

7.1 Submit MCP's policies and procedures for ensuring that members are not enrolled in another Medi-Cal care coordination program that would disqualify them from receiving HHP services (see Program Guide for requirements).

8/9. HHP Outreach Requirements

8.1 Member Engagement:

Submit MCP's policies and procedures that include the following:

- Protocols for a progressive outreach campaign (see Program Guide Appendix A for model outreach campaign protocols)
- Process for assisting members who require additional prompting or guidance to participate;
- Process for conducting outreach to homeless individuals;
- Process for reviewing and excluding names from the Targeted Engagement List (TEL), including the MCP's definition of "well managed" (based on DHCS guidelines

of having no substantial avoidable utilization **or** enrollment in another acceptable care management program – see Reporting Template-Instructions for definition);

- After people have been excluded from the TEL based on the process above, the process and criteria for identifying a "priority engagement group" or ranking process within the remaining TEL members. This group, or members in order or priority rank, would be the first focus for MCP engagement efforts. The criteria and size of the group for 'priority engagement' status will be at the MCP's discretion (upon approval by DHCS) with the goal of engaging and serving TEL members who present the greatest opportunity for improvement in care management and reduction in avoidable utilization.

9.1 Member Notices:

All beneficiary notices to be sent by the MCP regarding the HHP should be filed for DHCS review. If the MCP is licensed by DMHC, these notices should additionally be filed with DMHC for review. DHCS is aligning with DMHC requirements regarding notice review, and DMHC requires MCPs to file all advertisements for review. All outreach materials and scripts that will be distributed should be filed prior to use by the MCP. Submission through this readiness checklist process will begin the DHCS notice review/approval process. MCPs may provide notices for DHCS review at any time prior to the member notices deliverable due date.

Note: Notices must conform to all of the usual requirements for Medi-Cal member notices, including reading level. DHCS' HHP Beneficiary Toolkit is an optional resource for the MCPs for examples of 'best practice' member messaging (though the HHP Member Toolkit messaging may need to be adjusted to comply with Medi-Cal and DMHC member notice requirements). All members must be informed 30 days prior to implementation of this new Medi-Cal covered benefit. An update to the Evidence of Coverage/Disclosure Form is required; however, plans may provide an HHP-specific errata to satisfy this EOC requirement. DHCS provides a template for Evidence of Coverage/Disclosure Form HHP language in Appendix F.

10. Risk Grouping:

10.1 Submit MCP's policies and procedures for ensuring that HHP members receive the appropriate services at the appropriate intensity level, including tiering of services based on risk grouping and the associated payment structure (but not amounts). See Section V. Health Homes Program Network, G. Risk Grouping in this Program Guide for additional information.

11. Mental Health Services:

11.1 Signed local Mental Health Plan (MHP) Health Memorandum of Understanding (MHP-MOU) to ensure seamless access and delivery of mental health services. The MHP-MOU must be in place as of the date of implementation of HHP for members

with SMI conditions. MCPs will develop or amend existing MOUs with county MHPs to address HHP-specific information.

DHCS has released All Plan Letter (APL) 18-015 (which supersedes APL 13-018), including Attachment 2 of this APL, to address the HHP-specific information that MCPs must include in new, or amended, MOUs. MCP must submit the new or amended MHP-MOU by November 1, 2018 for Group 1 MCPs; February 1, 2019, for Group 2 MCPs; July 1, 2019 for Group 3.1 MCPs; and August 1, 2019 for Group 3.2 MCPs.

12. Housing Services:

12.1 Submit MCP's policies and procedures for providing the required housing services, including how the MCP will identify and work with community resources to ensure seamless access to delivery of housing support services. MCPs must provide housing navigation services, not just referrals to housing. (See Program Guide for requirements.)

13. Health Homes Program Readiness – Attestations

The operational process attestations below reflect the MCP's commitment to being fully prepared as of the HHP implementation date. Please check the boxes and sign below to indicate MCP's compliance with the following readiness requirements for the Health Homes Program.

□ **F. Training**: Attest (check the box) that the MCP and CB-CMEs will complete all DHCS-required HHP training prior to participating in the administration of the HHP, as outlined in the *Program Guide*.

□ **G. Service Directory**: Attest (check the box) that the MCP or the CB-CME(s) has completed and will maintain a directory of community services and supports that is available to all CB-CMEs and care coordinators.

□ **H. Quality of Care**: Attest (check the box) that the MCP has incorporated HHP into existing quality management processes.

□ **I. Cultural Competency, Educational and Health Literacy**: Attest (check the box) that the MCP has incorporated HHP into existing Policies & Procedures on these topics.

□ **J. Member Communication**: Attest (check the box) that the MCP has incorporated HHP into existing policies regarding communicating with members, including: using secure email, web portals or written correspondence to communicate; and taking enrollee's individual needs (communication, cognitive, or other barriers), into account in communicating with enrollee.

□ **K. Members Experiencing Homelessness**: Attest (check the box) that the MCP has incorporated HHP-specific information into the appropriate Policies & Procedures for homeless members, including special service requirements, provider criteria (to comply with homeless experience requirements per AB 361), and engagement processes.

□ **L. Reporting**: Attest (check the box) that the MCP has the capability to track HHP enrollee activity and report on outcomes, as required by DHCS, including HHP service encounters for services provided by the MCP and the CB-CMEs (see *Program Guide* and *reporting template* for reporting requirements).

□ **M. Service Requirements**: Attest (check the box) that the MCP will comply with all the with all service requirements, including for the six core services and the additional service requirements listed in the Program Guide.

I am authorized to make this attestation on behalf of:

Managed Care Plan	Signature of Authorized Representative
Date	Name of Authorized Representative
	Title of Authorized Representative

E. Appendix E – Service Codes for the Health Homes Program

DHCS has defined the ACA 2703 Health Home Program (HHP) service codes for use on encounters and for other purposes. The HHP is required to utilize HIPAA-compliant coding standards. This revised coding scheme incorporates comments received on the initial proposed coding scheme released in October 2016. The HHP team and the DHCS Office of HIPAA Compliance identified CPT and HCPCS codes for HHP. In addition, the HHP team investigated other potential codes and reviewed codes used by a few other states.

DHCS initially selected HCPCS code G0506 for HHP, however it was found to conflict with National Correct Coding Initiative rules. DHCS instead adopted HCPCS code G9008 effective as of 10/1/2018. The definition of G9008 is as follows: Coordinated care fee, physician coordinated care oversight services. G9008 along with seven different modifiers are listed in the table below for the HHP services (Comprehensive Care Management, Care Coordination, Health Promotion, Comprehensive Transitional Care, Individual and Family Support Services, and Referral to Community and Social Supports). This coding scheme uses HIPAA compliant HCPCS code and modifier combinations to identify clinical and non-clinical services, distinguishes between in-person and telephonic/telehealth 'visits', and allows other HHP services such as case notes, case conferences, tenant supportive services, driving to appointments, etc. to be codified. In addition, there is a designated modifier for engagement services. The HHP coding scheme is as follows:

HHP Service	**HCPCS Code**	**Modifier**	**Units of Service (UOS)**
In-Person: Provided by Clinical Staff	G9008	U1	15 minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Clinical Staff	G9008	U2	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Clinical Staff	G9008	U3	15 Minutes equals 1 UOS; Multiple UOS allowed
In-Person: Provided by Non-Clinical Staff	G9008	U4	15 Minutes equals 1 UOS; Multiple UOS allowed
Phone/Telehealth: Provided by Non-Clinical Staff	G9008	U5	15 Minutes equals 1 UOS; Multiple UOS allowed
Other Health Home Services: Provided by Non-Clinical Staff	G9008	U6	15 Minutes equals 1 UOS; Multiple UOS allowed
HHP Engagement Services	G9008	U7	15 Minutes equals 1 UOS; Multiple UOS allowed

Telehealth and Group Visits

Regarding the use of the HHP HCPCS code and modifiers for HHP services provided via Telehealth and group visits – specifically, if MCPs may submit HHP encounters for telehealth and group visits using the HHP HCPCS code and modifiers for HHP in-person visits and if they may be used to satisfy the in-person visit ratio requirement – DHCS offers the following clarifying guidance.

Telehealth visits generally may not be used to meet the in-person visit ratio requirement for HHP. However, on a case by case basis, if an MCP has certain circumstances that necessitate the use of a high volume of telehealth visits for HHP, and the MCP is unable to meet the HHP in-person visit requirement because of the high-volume use of telehealth, DHCS will evaluate the circumstances and may allow the MCP to utilize some telehealth visits to meet the in-person visit requirement.

DHCS expects that group visits to be primarily used for health promotion and educational purposes as opposed to one-on-one HHP care coordination. However, if there is a one-on-one in-person component to the group visit in which the provision of any of the six core HHP services are provided, this may be reported as a separate HHP in-person visit encounter.

F. Appendix F – Evidence of Coverage Template

Description:

<Plan Name> covers Health Homes Program (HHP) services for Members with certain chronic health conditions. These services are to help coordinate physical health services, behavioral health services, and community-based long term services and supports (LTSS) for Members with chronic conditions.

You may be contacted if you qualify for the program. You can also call <Plan Name>, or talk to your doctor or clinic staff, to find out if you can receive HHP services.

You may qualify for HHP if:

- You have certain chronic health conditions. You can call <Plan Name> to find out the conditions that qualify; and
- You meet one of the following:
  - You have three or more of the HHP eligible chronic conditions
  - You stayed in the hospital in the last year
  - You visited the emergency department three or more times in the last year; or
  - You do not have a place to live.

You do not qualify to receive HHP services if:

- You receive hospice services; or
- You have been residing in a skilled nursing facility for longer than the month of admission and the following month.

Covered HHP Services:

HHP will give you a care coordinator and care team that will work with you and your health care providers, such as your doctors, specialists, pharmacists, case managers, and others, to coordinate your care. <Plan Name> provides HHP services, which include:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referral to Community and Social Supports

Cost to Member:

There is no cost to the Member for HHP services.

G. Appendix G – Reporting Template Excerpt

The below is an excerpt from the complete Reporting Template that MCPs will use to submit specific required data. For descriptions of data elements, please see Reporting Template.

Note: CPB = Controlling High Blood Pressure; CDF = Screening for Clinical Depression and Follow-up Plan; SMI = Serious Mental Illness/Serious Emotional Disturbance.

Health Home Program (HHP) Reporting Instructions

These instructions outline the requirements, references, and headings/categories for the following reporting template: Health Home Program Reporting Template. Reporting is required per the managed care contract.

• Do not make changes to this template. Reports that contain changes to this template will be rejected and must be resubmitted.

• Data must be submitted in Excel (.xlsx). Do not submit data in .pdf, .xls, .csv, .txt, or any other format than .xlsx.

• Each MCP must submit only one file per reporting period that includes all counties the MCP operates in. All subcontractors must be rolled up into the main MCP's data.

• MCPs will certify the HHPQuarterlyReports or data submissions using the existing monthly data certification process with its respective DHCS Contract Manager to confirm all information submitted is complete and accurate. MCP will maintain documentation supporting the reported information.

Quarterly reports are due 60 days after the end of the quarter. Annual reports are due with Q1 reports. When the due date falls on Saturday, Sunday or a holiday, data must be submitted by COB the business day before the due date. For reference, the calendar-year quarters are listed below:

• Q1 and Annual – January, February, and March - due May 31

• Q2– April, May, and June - due August 31

• Q3 – July, August, and September - due November 30

• Q4– October, November, and December - due February 28

Unless otherwise noted, all "days" are calendar days.

Reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). Reports must use the following file naming convention: MCP name.HHPQuarterlyReport.Year.Quarter.DueDate.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.xlsx.]. For example:

MCPName.HHPQuarterlyReport.2018.QTR3.20181130.xls. DHCS will not acknowledge or accept any email submissions.

All report revisions are subject to DHCS review and approval.

• DHCS will notify MCPs if revised reports must be submitted to correct data errors such as incorrect file naming conventions, incomplete data/columns fields, incorrect data, etc.

• Revised reports must be submitted to your designated folder in the "DHCS-MCQMD-Data\MCP\Monitoring\" subfolder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov).

• Revised reports must be submitted as a complete quarterly file. Partial files without all the required information and data will be rejected and must be resubmitted. Each quarter of data must be submitted separately. MCP must include an explanation in the HHP comments tab describing the changes and the reason for revision.

• Revised reports must use the following file naming convention: MCPName.HHPQuarterlyReport.Year.QuarterNumber.DueDate.RevisionNumber.xlsx [MCPName.HHPQuarterlyReport.YYYY.QTR#.YYYYMMDD.REV#.xlsx]. For example: MCPName.HHPQuarterlyReport.2018.QTR3.20181230.REV1.xlsx.to your designated folder in the "DHCS-MCQMD-Data/MCP/Monitoring" folder on the DHCS eTransfer site (https://etransfer.dhcs.ca.gov). The revised file should be submitted as a separate file.

• Final corrections to quarterly reports must occur no later than 90 days after the end of the calendar year for corrections on the previous year's quarterly reports unless the Department requests a revised file.

Definitions:

CB-CME: Community Based Care Management Entity

HAP: Health Action Plan

Homeless and Chronically Homeless: see CA Welfare & Institution Code § 14127(e)

Housing Services:
https://www.medicaid.gov/federal-policy-guidance/downloads/cib-06-26-2015.pdf - see "Individual Housing Transition Services" and "Individual Housing & Tenancy Sustaining Services" on pages 3-4.

For the purposes of this document, the following definitions will apply:

- **HHP Member**: a Medi-Cal beneficiary currently enrolled in a Medi-Cal Managed Care Plan and a Health Homes Program.

- **Member**: a Medi-Cal Managed Care Plan member not currently enrolled in a Health Homes Program.

- **Individual**: Medi-Cal beneficiary or other eligible person who may not be currently enrolled in a Medi-Cal Managed Care Plan or a Health Homes Program. E.g., FFS beneficiary. May also apply to person not currently enrolled in Medi-Cal.

Definitions of Exclusionary Reasons for Non-Enrollment: The following are the allowable reasons, with definitions, for which a Medi-Cal member may be excluded from, or not enrolled into, a local Health Homes Program (HHP). These definitions are used by DHCS and its HHP partners. **For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage. See the definition of Targeted Engagement Process below for additional information**.

I. ***Unsafe Environment***: for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ED: After reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment or deliver HHP services, such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff.

Individual: Member engagement/enrollment efforts, or delivery of HHP services, cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

II. ***Declined participation***: After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate in HHP.

III. ***Unsuccessful engagement***: HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self-available, or is un-cooperative. Accurate contact information is not available for the member. This occurs before enrollment.

IV. ***Well-managed***: An assessment, which may include a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.

V. ***Participation in duplicative programs or programs excluded for HHP participation due to DHCS policy***: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following:

1. Duplicative Programs

a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH)

b. Targeted Case Management (TCM) – County, not Mental Health TCM

c. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF)

2. Programs excluded by DHCS Policy

a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month.

b. Hospice

c. Fee-For-Service

VI. ***Targeted Engagement Process***: The MCPs DHCS-approved process by which MCPs identify and prioritize individuals for engagement by using DHCS-provided Targeted Engagement List (TEL) and/or MCP member data.

For the purpose of reporting the HHP Enrollment Reporting, Member Exclusions, MCPs are expected to report on individuals that the MCP actively seeks to engage, that is a result of the above mentioned DHCS-approved process.

1. Health Home Program Enrollment Reporting
Note: **Only report one (1) exclusionary reason per member excluded from the Program.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.

Column Name	Explanation
Number MCP excluded because not eligible - well-managed (Column C)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because not eligible due to MCP assessment determining well managed. The CB-CME and/or the MCP can further define, but well-managed means (a) members with HHP chronic conditions that do not have a pattern of utilization of negative health outcomes that are an indication of poor chronic disease management or patient activation; or (b) members that are in an effective care management program. An assessment, which may include utilization data review or a clinical assessment, determines that the member's eligible chronic conditions are already well managed – to the extent that HHP services are not medically necessary and will not significantly change the member's health status. This includes participation in other programs that are not Medicaid funded that may be available and for which the member is eligible.
Number MCP excluded because declined to participate (Column D)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because they declined to participate. After reasonable efforts have been made to explain the program and achieve engagement, the member declines to participate, or to continue to participate, in HHP.
Number MCP excluded because of unsuccessful engagement (Column E)	Enter the number of members MCP excluded via the targeted engagement process the quarter because of unsuccessful engagement. HHP staff is unable to engage the member after the MCP or the HHP provider has completed the requirements specified in the MCP's DHCS-approved policy for progressive engagement activities. The member does not engage, participate, or make self available; is un-cooperative; or accurate contact information is not available for the member. This occurs before enrollment.

Column Name	Explanation
Number MCP excluded because duplicative program (Column F)	Enter the number of members MCP excluded via the targeted engagement process during the quarter due to being in another program that provides care management services: DHCS or the MCP has developed new information that the member participates in, or is enrolled in, a Medicaid-funded program that provides services duplicative to HHP services or a program excluded by DHCS policy, and the member chooses to remain in the duplicative or excluded program. Duplicative Medicaid-funded programs include, but may not be limited to, the following: 1. Duplicative Programs a. 1915c waiver programs: HIV/AIDS, Assisted Living Waiver (ALW), Developmentally Disabled (DD), In-Home Operations (IHO), Multipurpose Senior Services Program (MSSP), Nursing Facility Acute Hospital (NF/AH) b. Targeted Case Management (TCM) – County, not Mental Health TCM 2. Programs excluded by DHCS Policy a. Skilled Nursing Facility (SNF) residents with a duration longer than the month of admission and the following month. b. Hospice 3. Additional programs the MCP determines are duplicative as described in their progressive engagement policy
Number MCP excluded because unsafe behavior or environment (Column G)	Enter the number of members MCP excluded via the targeted engagement process during the quarter because of an unsafe behavior or environment. Unsafe includes Environment (for delivery of services outside of a regular healthcare facility such as a clinic, provider's office or ER): after reasonable efforts to arrange a different method or venue to conduct member engagement/enrollment such activities cannot be conducted without staff entering an environment that poses a significant risk to the physical or mental well-being of the staff; and Individual: Member engagement/enrollment efforts cannot be conducted due to the member's behavior posing a significant physical or mental threat to the well-being of the staff.

Column Name	Explanation
Number MCP excluded because not enrolled in Medi-Cal at MCP (Column H)	Enter the number of individuals MCP excluded from via the targeted engagement process list during the quarter because they are not enrolled in Medi-Cal at the Managed Care Plan. Reasons can include, but may not be limited to, the following: a. Fee-For-Service b. Specialty Managed Care Plans: Senior Care Action Network (SCAN), Program of All-Inclusive Care for the Elderly (PACE), AIDS Healthcare Foundation (AHF) c. Member is deceased
Number externally referred but excluded (Column I)	Enter the number of individuals not part of the plan's targeted engagement process, referred to the MCP, that were excluded. Exclusion reasons include reasons identified in columns C-H. Do not add these exclusions to the counts in Columns C-H.
Average monthly number of dedicated care coordination FTEs (Column J)	Enter the average monthly number of care coordinators for the quarter. Only count FTEs dedicated to care coordination activities. The counts are taken at a point in time, which will be the last day of each month in the quarter, and averaged across the 3 months in the quarter to get this average quarterly number.

2. Health Home Program Member Activity Reporting

Column Name	Explanation
Plan Code – Plan Name – County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
Number initial HAP completed within 90 days (Column C)	Numerator: Enter the number of HHP members that had their initial HAP completed during the quarter and the HAP was completed within 90 days of enrollment.
Number initial HAP completed (Column D)	Denominator: Enter the number of HHP members that had their initial HAP completed during the quarter.

3. Health Home Program Member-Level Detail Reporting
Note: This tab captures all members enrolled in HHP. Additionally, this tab reports on those members who are homeless/at risk of homelessness and received housing support services during the quarter. If a member was disenrolled during the quarter, enter the disenrollment date. The disenrolled member should not be reported in subsequent quarters unless the member reenrolls. This tab is to be submitted quarterly.

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for the county and plan code the plan operates in. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported. For example, the 4th quarter of 2019 will be entered as 2019 Q4.
Member CIN (Column C)	Enter the Member's Client Identification Number (CIN).
Member Last Name (Column D)	Enter the Member's Last Name.
Member First Name (Column E)	Enter the Member's First Name.
Member Date of Birth (DOB) (Column F)	Enter the Member's Date of Birth (DOB) using format MM/DD/YYYY.
SPA 1 (PHYS-SUD) or SPA 2 (SMI) Member (Column G)	Indicate which State Plan Amendment (SPA) the HHP member was enrolled under. Enter "1" or "2."
Dual Member (Column H)	Indicate the member's "Dual" status (having both Medicare & Medi-Cal) as of the last day of the quarter. If the member was disenrolled during the quarter, report as of their last date of enrollment. Enter "Dual" or "Non-Dual."
Externally Referred and Enrolled (Column I)	Indicate whether the HHP enrolled member was referred into the program. Enter "Yes" or "No." The referral process is initiated by an external provider or organization when an individual is initially assessed to be a candidate for HHP and therefore is referred to the MCP for approval. Indicate "Yes" if, upon MCP review and evaluation, the individual is approved for HHP and enrolled.

Column Name	Explanation
Enrollment Date (Column J)	Enter the Member's Enrollment Date using format MM/DD/YY.
Date of Disenrollment (if applicable) (Column K)	Enter the Member's Date of Disenrollment using format MM/DD/YY. If the Member remains enrolled in the program, leave this cell blank. The disenrolled member should not be reported in subsequent reports unless the member reenrolls.
Member was Homeless or at Risk for Homelessness During The Quarter(Column L)	Indicate whether the member met the Federal definition of Homeless or required tenancy sustaining services at any point during the quarter. Enter “Yes" or "No."
Member Received Housing Services During the Quarter (Column M)	Indicate whether the member received housing services at any point during the quarter. Enter "Yes" or "No."
Member was Homeless At Any Point During Their Enrollment in HHP (Column N)	Indicate whether the member met the Federal definition of Homeless at any point during their enrollment in the HHP. Enter "Yes" or "No."
Members no longer Homeless On Last Day of the Quarter (Column O)	Indicate whether the member no longer meets the Federal definition of Homeless as of the last day of the quarter. If the member was disenrolled during the quarter, report as of their last date of enrollment. Enter "Yes" or "No." Leave Blank if the member was never Homeless.

4. Health Home Program Network Reporting

Column Name	Explanation
Plan Code – Plan Name – County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member’s assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year and quarter for the data reported: Year QX. For example, the 3rd quarter of 2018 will be entered as 2018 Q3.
CB-CME NPI # (Column C)	Enter all CB-CME NPI numbers that were contracted as of the last day of the quarter. Enter each CB-CME NPI number in each county on its own row. For example, if a MCP is contracted with a CB-CME that operates in two counties, there would be two rows for

Column Name	Explanation
	that NPI with each row having a different plan code & county. DHCS assumes that all lead CB-CMEs will have a NPI or be the MCP; if a CB-CME does not have an NPI #, please reach out to DHCS for further discussion. This is a measure of the prime contract with the MCP for care management duties, not engagement subcontractors or housing subcontractors.
Capacity for each CB-CME (Column D)	Enter the capacity for assigned HHP members for each CB-CME contracted in each county during the quarter. If a CB-CME operates in more than one county, separate the projected capacity for each county. Capacity is defined as the number of HHP members the CB-CME will be able to serve according to the HHP service requirements including the care manager ratio and the extent the CB-CME is able to satisfy all care team requirements. The count is taken at a point in time, which will be the last day of the quarter.

5. Health Home Program Annual CMS Core Measures Reporting

DHCS is required to collect and report the Core Set of Health Care Quality Measures for Medicaid Health Homes Programs according to the Technical Specifications published by CMS. The first annual quality reporting for the CBP measure will begin in Measurement Year (MY) 2020 and will be submitted in Reporting Year (RY) 2021 with the Q1 Report, due May 31, 2021. There is no partial-year reporting for the Health Homes Core Set of Health Care Quality Measures.

DHCS will continue to make the annual Technical Specification link available to the MCPs. MCPs are required to follow the technical specifications. DHCS will use the reporting template to collect measure information from the MCPs so that DHCS can perform the aggregation, weighting, and reporting required by the Technical Specifications. For additional information on the Core Measures, refer to the following Technical Specifications and Resource Manual link from CMS.

https://www.medicaid.gov/state-resource-center/medicaid-state-technical-assistance/health-home-information-resource-center/downloads/FFY-19-HH-Core-Set-Manual.pdf

Each MCP will determine its numerator, denominator, and/or rates for the required performance measure and report these results for each county. DHCS is required to report separately for each SPA, therefore, there are separate numerator, denominator, and rates columns for Chronic Conditions and SMI. The Technical Specifications measurement year and reporting year definitions are consistent with DHCS's other HEDIS oriented timelines. The fields in the template will be adjusted over time to align with the Technical Specifications if/when they change.

Note: **This tab is to be submitted annually in the Q1 report (due 5/31) of every year and include data on the previous calendar year of January through December.**

Column Name	Explanation
Plan Code - Plan Name - County (Column A)	From the drop down menu, select the plan code, plan name and county combination for each county and plan code the plan operates in. Submit only one row of data per county that the MCP is in. Do not report subcontracting health plans separately. Report on data based on the member's assigned county.
Reporting Period (Column B)	From the drop down menu, select the corresponding year for the data reported: Year.
Controlling high blood pressure (CBP) (Med) age 18-59 w/HTN, BP < 140/90 - numerator (Column C)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator
CBP (Med) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column D)	Controlling high blood pressure (Medical SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column E)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column F)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column G)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column H)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column I)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column J)	Controlling high blood pressure (Medical SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column K)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (Med) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column L)	Controlling high blood pressure (Medical SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 -	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - numerator

Column Name	Explanation
numerator (Column M)	
CBP (SMI) - Age 18-59 w/HTN, BP < 140/90 - denominator (Column N)	Controlling high blood pressure (SMI SPA) - Age 18-59 with hypertension, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - numerator (Column O)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/DIB, BP < 140/90 - denominator (Column P)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - numerator (Column Q)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/DIB, BP < 140/90 - denominator (Column R)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, with diabetes, BP < 140/90 - denominator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - numerator (Column S)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 60-64 w/HTN, w/o DIB, BP < 150/90 - denominator (Column T)	Controlling high blood pressure (SMI SPA) - Age 60-64 with hypertension, without diabetes, BP < 150/90 - denominator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - numerator (Column U)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - numerator
CBP (SMI) - Age 65-85 w/HTN, w/o DIB, BP < 150/90 - denominator (Column V)	Controlling high blood pressure (SMI SPA) - Age 65-85 with hypertension, without diabetes, BP < 150/90 - denominator

6. Health Home Program Reporting Comments

Column Name	Explanation
Comments (Column A)	Enter any relevant information pertaining to the submitted report and the data it contains.

I. Appendix I – HHP Implementation Schedule

HHP Implementation Schedule

The California Department of Health Care Services (DHCS) announced that the implementation of the state's Health Homes Program (HHP) begins July 1, 2018. The counties included in each group and the phased implementation schedule are outlined in the table below:

County Implementation Schedule

Groups	Counties	(Phase 1) Implementation date for members with eligible chronic physical conditions and substance use disorders	(Phase 2) Implementation date for members with eligible serious mental illness conditions
Group 1	• San Francisco	July 1, 2018	January 1, 2019
Group 2	• Riverside • San Bernardino	January 1, 2019	July 1, 2019
Group 3	• Alameda • Imperial • Kern • Los Angeles • Sacramento • San Diego • Santa Clara • Tulare	July 1, 2019	January 1, 2020
Group 4	• Orange	January 1, 2020	July 1, 2020

J. Appendix J – HHP Supplemental Payment File

Please refer to the DHCS' *Technical Guidance – Consolidated Supplemental Upload Process for further information.*

K. Appendix K – Whole Person Care Pilot Interaction Guidance

Joint Medi-Cal Managed Care Health Plan and Whole Person Care Pilot Guidance:

Eligibility and Provision of Services in the Health Homes Program and

Whole Person Care Pilots

This notification provides DHCS policy guidance regarding the eligibility, enrollment and the provision of services for Medi-Cal beneficiaries concurrently eligible for both the Health Homes Program (HHP) and a Whole Person Care (WPC) Pilot.

Medi-Cal managed care health plans (MCPs) implementing the HHP are responsible for providing the following six core HHP services: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services. Program eligibility is based on meeting a set of chronic physical/Substance Use Disorder (SUD) or Severe Mental Illness (SMI) conditions as well as specified acuity criteria.

The overarching goal of the WPC Pilots is the coordination of health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved beneficiary health and wellbeing through more efficient and effective use of resources. WPC Pilots are administered at the local level where a county, a city and county, a health or hospital authority, or a consortium of any of the above can serve as the Lead Entity (LE). WPC eligibility is established by each Pilot.

DHCS' guidance is that Medi-Cal beneficiaries that are eligible to receive services from both the WPC Pilot program and the HHP can be enrolled in either program or both, based on beneficiary choice.

In most cases WPC pilots provide care coordination services that are similar to the care coordination services provided by the HHP program. If a Medi-Cal beneficiary is eligible for both WPC and HHP, the member may choose which program's care coordination services that want to receive. The member may not receive duplicative care coordination services from both WPC and HHP. If the beneficiary is receiving care coordination services through the HHP, it is the responsibility of the WPC pilot to ensure that a beneficiary does not receive duplicative care coordination services from WPC. The WPC pilot may not claim WPC reimbursement for care coordination services that are duplicative of HHP care coordination services that are provided during the same month.

If the beneficiary chooses to receive care coordination services through WPC and is also interested in participating in the HHP, the beneficiary will not be able to receive any HHP services due to HHP, by default, being a program that consists of a set of 6 care-coordination services that are offered as the core benefit of the program.

In most cases WPC pilots also provide other services that are not duplicative, or similar to, HHP care coordination services. A sobering center service is one example of a WPC service that is likely to not be duplicative of HHP services. If a member is eligible for both WPC and HHP, and the member chooses to receive care coordination services through the HHP, the member may still receive other WPC services (that are not duplicative of HHP services) through the WPC. The WPC pilot may claim reimbursement for these other services regardless of whether the beneficiary chooses to receive care coordination services through the WPC or the HHP.

Please see the following points regarding DHCS' expectations:

- All WPC LEs must ensure the non-duplication of services for their WPC-enrolled members.

- The LEs are required to check other program participation, including HHP, as a regular part of their assessments. DHCS recommends frequent communication between the LE and their local MCPs to ensure there is no duplication of services.

- The WPC "Certification of Lead Entity Reports" document has been revised to include an additional attestation stating that DHCS reserves the right to recoup payments made to LEs for services found to be duplicative.

- LEs are responsible for keeping auditable records, such as documentation of their in-person assessments of enrollee participation in other programs, which should address non-duplication of services.

- As always, DHCS reserves the right to perform an audit of LE data and MCP data.

DATE: June 28, 2018

ALL PLAN LETTER 18-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS PARTICIPATING IN THE HEALTH HOMES PROGRAM

SUBJECT: HEALTH HOMES PROGRAM REQUIREMENTS

PURPOSE:
The purpose of this All Plan Letter (APL) is to provide guidance regarding the provision of Health Homes Program (HHP) services, and the development and operation of the HHP, to Medi-Cal managed care health plans (MCPs) implementing the HHP.

BACKGROUND:
The Medicaid Health Home State Plan Option is authorized under the Patient Protection and Affordable Care Act (Pub. L. 111-148), enacted on March 23, 2010, as revised by the HealthCare and Education Reconciliation Act of 2010 (Pub. L. 111-152), enacted on March 30, 2010, together known as the Affordable Care Act (ACA). Section 2703 of the ACA allows states to create Medicaid health homes to coordinate the full range of physical health care services, behavioral health services, and community-based long term services and supports (LTSS) needed by members with chronic conditions.

In California, Welfare and Institutions Code (WIC) Sections 14127 through 14128 authorize the Department of Health Care Services (DHCS), subject to federal approval, to create the HHP for Medi-Cal members with chronic conditions who meet the eligibility criteria specified by DHCS.

POLICY:
Effective upon the HHP implementation date for each MCP implementing the HHP, the MCP is responsible for providing the following six core HHP services to eligible Medi-Cal members: comprehensive care management, care coordination, health promotion, comprehensive transitional care, individual and family support, and referral to community and social support services.

The Medi-Cal Health Homes Program Guide (Program Guide) is available on the HHP webpage of the DHCS website.[1] The Program Guide outlines HHP policies, including member eligibility criteria, and contains DHCS' operational requirements and guidelines on HHP. DHCS may update the Program Guide to reflect the latest HHP requirements

[1] The HHP Program Guide can be found at: http://www.dhcs.ca.gov/services/Pages/HealthHomesProgram.aspx

Managed Care Quality and Monitoring Division

Phone (916) 449-5000 Fax (916) 449-5005
www.dhcs.ca.gov

and guidelines. DHCS will notify MCPs whenever the Program Guide is updated, so that MCPs can obtain the latest information on HHP.

HHP MCPs must meet all program and reporting requirements specified in the Program Guide, all applicable state and federal laws and regulations, MCP contracts, and other DHCS guidance, including, but not limited to, APLs. Additionally, MCPs must communicate all HHP requirements to, and ensure the compliance of, their contracted HHP providers, including Community Based Care Management Entities, as well as any delegated entities and subcontractors.

MCPs are responsible for ensuring that all delegated entities and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other DHCS guidance, including APLs and Policy Letters.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing and Directing Execution of Amendment to the Agreement with the California Department of Health Care Services for the CalOptima Program of All-Inclusive Care for the Elderly

Contact

Dr. David Ramirez, Chief Medical Officer, (714) 246-8400
Nancy Huang, Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors to execute Amendment A09 to the Program of All-Inclusive Care for the Elderly Agreement between the California Department of Health Care Services and CalOptima regarding extension of the contract termination date to June 30, 2020

Background

Since October 2009, the CalOptima Board has taken numerous actions related to the CalOptima Program of All-Inclusive Care for the Elderly (PACE) program. On June 6, 2013, the Board authorized the execution of the PACE Agreement between the California Department of Health Care Services (DHCS) and CalOptima (DHCS PACE Agreement) as well as the agreement with the Centers for Medicare & Medicaid Services (CMS) for the operation of the CalOptima PACE site. Beginning in September 2015 and thereafter, the Board has authorized execution of various amendments to the DHCS PACE Agreement for Calendar Year (CY) payment rates and other provisions, as summarized in the Appendix to this agenda item.

The CalOptima DHCS PACE Agreement specifies, among other terms and conditions, the capitation payment rates CalOptima receives from DHCS to provide PACE participants with health care services. The current DHCS PACE Agreement expires on December 31, 2019, with the capitation rates renewed on a calendar year basis.

Discussion

On October 17, 2019, DHCS provided CalOptima with Amendment A09 for the DHCS PACE Agreement to include updates for:

- Extending the contract termination date to June 30, 2020.
- Increasing the maximum amount payable to accommodate the additional 6-months of the contract.

The DHCS PACE Agreement is being extended for only a 6-month period at this time, to provide DHCS with additional time to finalize proposed updates to the DHCS PACE Agreement template and vet with stakeholders. With the proposed amendment, all other terms and conditions in the CalOptima DHCS PACE Agreement remain the same. On June 21, 2019, DHCS released a draft version of the new DHCS PACE Agreement template for an opportunity to comment on the proposed changes. CalOptima staff submitted feedback, as did the CalPACE Association and other PACE organizations throughout the State. DHCS is currently in the review process of all the feedback and will be hosting a call with all PACE Organizations at a future date, after its review has been completed to discuss the updates that will be finalized. CalOptima

Back to Agenda

staff will return to the Board at that time, as the new DHCS PACE Agreement template is expected to replace the existing DHCS PACE Agreement (DHCS is referring to this process as the "Contract Overhaul"), instead of adding on additional Amendments.

Fiscal Impact

The recommended action to execute Amendment A09 to the DHCS PACE Agreement increases the maximum allowed funding by $17.2 million to extend the contract termination date to June 30, 2020, under the same terms and conditions of the current agreement. The funding amount is a budgeted item, with no additional fiscal impact. Management has incorporated draft Calendar Year (CY) 2019 and forecasted CY 2020 PACE capitation rates into the CalOptima Fiscal Year (FY) 2019-20 Operating Budget approved by the Board on June 6, 2019.

Rationale for Recommendation

CalOptima's execution of Amendment A09 to the DHCS PACE Agreement is necessary for the continued operation of CalOptima PACE.

Concurrence

Gary Crockett, Chief Counsel

Back to Agenda

APPENDIX TO AGENDA ITEM 5

The following is a summary of amendments to the PACE Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement with DHCS	Board Approval
A01 provided revised Upper Payment Limit (UPL) and capitation rates for Calendar Year (CY) 2013 for the period of October 1, 2013 through December 31, 2013; and UPL methodology and CY 2014 rates for the period of January 1, 2014 through December 31, 2014. Revised capitation rates for the Medi-Cal *Dual* population and *Medi-Cal only* population to have built-in adjustments for Medi-Cal program changes. Also incorporated adult expansion group into aid code table: a. Added adult expansion aid codes M1, L1, 7U under adult expansion group. b. Added aid codes 3D and M3 under Family group.	September 3, 2015
A02 provided revised UPL and capitation rates for CY 2015 for the period of January 1, 2015 through December 31, 2015. Revised capitation rates for the *Full-Dual* population and *Non-Dual eligible* population to have built-in adjustments for Medi-Cal program changes.	September 3, 2015
A03 provided revised UPL and capitation rates for CY 2016 for the period of January 1, 2016 through December 31, 2016, and applied the Managed Care Organization (MCO) Tax for the period July 1, 2016 through December 31, 2016. Beginning on January 1, 2017 and onward, the rates revert back to the non-MCO tax period rates in effect from January 1, 2016 through June 30, 2016, until the 2017 rates are developed and implemented with a future amendment to the CalOptima DHCS PACE Agreement. Incorporates a revised HIPAA Business Associate Addendum, Exhibit H, to replace the former Exhibit G, as of the Amendment effective date, which will require compliance with DHCS' revised data security standards.	May 4, 2017
Amend* contract to include revised language reflecting the Americans with Disabilities Act (ADA) for 508 compliance. *On 9/20/17, DHCS informed CalOptima this would be moved to be captured in A04.	August 3, 2017
A04 provided an extension of the contract termination date to December 31, 2018 and incorporated ADA compliance language.	December 7, 2017
Future Amendment (A05) provided draft capitation rates for CY 2017 for the period of January 1, 2017 through December 31, 2017, developed by the "Amount That Would Have Otherwise Been Paid (AWOP)", and apply the Managed Care Organization (MCO) Tax for the period January 1, 2017 through June 30, 2017.	December 7, 2017
A06 provided an extension of the contract termination date to December 31, 2019.	November 1, 2018

Back to Agenda

Amendments to Primary Agreement with DHCS	Board Approval
A07 provided revised capitation rates for the *Full-Dual* population and *Non-Dual eligible* population for CY 2018 for the period of January 1, 2018 through December 31, 2018 and applies the Managed Care Organization (MCO) Tax for this period. First time rates for PACE developed using the Rate Development Template (RDT)/experience-based rate methodology. Incorporates additional language updates for various contract provisions, including restrictions on delegation as well as emergency preparedness.	April 4, 2019
A08 provided revised capitation rates for the *Full-Dual* population and *Non-Dual eligible* population for CY 2019 for the period of January 1, 2019 through December 31, 2019 and applies the Managed Care Organization (MCO) Tax for this period. Incorporates additional language updates for other contract provisions, including Nursing Facility Services payment rates.	September 5, 2019
A09 provided an extension of the contract termination date to June 30, 2020.	**Pending**
Amendments to Primary Agreement with CMS	**Board Approval**
A01 CalOptima PACE initiated a waiver to allow Nurse Practitioners to provide primary care at PACE, which was approved by CMS on March 30, 2017 and added *Appendix T: Regulatory Waivers* to the CMS PACE Agreement.	December 1, 2016
A02 CalOptima PACE initiated a waiver to allow Community Based Physicians to Serve as the Primary Care Provider for Participants Enrolled in CalOptima PACE, which was approved by CMS on March 12, 2018 and amended *Appendix T: Regulatory Waivers* to the CMS PACE Agreement.	September 7, 2017

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

6. Consider Authorizing and Directing Execution of Amendment(s) to the Primary Agreement with the California Department of Health Care Services

Contact

Silver Ho, Executive Director, Compliance (714) 246-8400
Nancy Huang, Interim Chief Financial Officer, (714) 246-8400

Recommended Action

Authorize and direct the Chairman of the Board of Directors to execute an Amendment(s) to the Primary Agreement between DHCS and CalOptima related to the incorporation of language adopting requirements outlined in the Medicaid and CHIP Managed Care Final Rule (Final Rule).

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with the California Department of Health Care Services (DHCS). Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Discussion

Amendment for the Medicaid and CHIP Managed Care Final Rule (Final Rule)

On May 6, 2016, the Centers for Medicare & Medicaid Services (CMS) published the Medicaid and Children's Health Insurance Program (CHIP) Managed Care Final Rule, CMS-2390-F (Final Rule). The Final Rule contains various provisions that State Medicaid Agencies, including DHCS, were required to implement by various deadlines, beginning in July 2017.

DHCS implemented the requirements of the Final Rule by issuing of sub-regulatory guidance like All Plan Letters (APLs). Simultaneously, DHCS has been working with CMS to formalize the requirements in DHCS's contracts with Managed Care Plans (MCPs), like CalOptima. Due in part to the lengthy CMS review process, DHCS has implemented these requirements prior to their formal inclusion in MCP contracts.

DHCS compiled changes to MCP contracts that were prompted by the Final Rule's issuance and that were required to be implemented in 2017 into a single amendment, referred to as the 2017 Final Rule Amendment. In June 2017, the CalOptima Board authorized the Chair to execute the 2017 Final Rule Amendment based on a draft amendment provided to MCPs by DHCS. As a result of being under CMS review for over two years and iterative changes made by DHCS and CMS, the content of the draft 2017 Final Rule Amendment has been updated since the CalOptima Board granted signature authority in June 2017.

Back to Agenda

Among the changes are updates to the Grievances and Appeals language to properly align with Title 42, Code of Federal Regulations (CFR), Section 438.402–424 and updates to the Medical Loss Ratio (MLR) language to ensure compliance with Title 42, CFR, Section 438.8. What follows is a brief summary of the major changes contained within the updated amendment:

	Requirement
Grievance and Appeals	Member Grievance and Appeal System: Follow grievance and appeal requirements including the use of all notice templates included in DHCS All–Plan Letter 17–006.
	Grievance Process: Members may file a grievance at any time to express dissatisfaction.
	Grievance and Appeal Log and Reporting: Submission of grievance and appeal reports in a form and manner specified by DHCS.
	Notice of Action (NOA): Formal letter informing Members of action taken and sent within regulatory timeframes. The NOA must include among other criteria, reason for the action taken and appeal rights.
	Appeal Process: Following receipt of the NOA, Members have 60 calendar days to a request for appeal, either orally or in writing. Members can file a State Fair Hearing (SFH) if the internal appeal process has been exhausted. Covered services can continue to be provided while the appeal is pending. Members can examine their case file considered during the appeals process.
	Responsibilities in Expedited Appeals: Members, Providers, or authorized representatives acting on behalf of the Member and with the Member's written consent, may file an expedited appeal either orally or in writing. Members must be provided a written notice within 72 hours from the receipt of an appeal.
	State Fair Hearings (SFHs): Members, Providers, or authorized representative may request a SFH after exhausting all-Plan level appeals. Upon resolution of an appeal, a Member has 120 calendar days to file a SFH. Expedited resolution of appeals must be completed within 72 hours.
Medical Loss Ratio (MLR)	Medical Loss Ratio (MLR): Follow MLR requirements in accordance with federal regulations.

Back to Agenda

	MLR Reporting Year: Ratio of the numerator (Sum of incurred claims, expenditures for activities that improve health care quality and fraud prevention activities) divided by the denominator (adjusted premium revenue).
	Allocation of Expense: Inclusion of each expense under only one type of expense, unless a portion of the expense can be categorized under the definition of, or criteria for, different types of expenses.
	Credibility Adjustment: Can be added to a calculated MLR if the MLR Reporting Year is partially credible.
	Aggregation of Data by eligible member groups outlined in Final Rule amendment, or as otherwise directed by DHCS.
	MLR Reporting Requirements: Submission of an MLR Report for each MLR reporting year in a form and manner specified by DHCS.

It is important to note that these updates to the 2017 Final Rule Amendment simply formalize changes that DHCS has already implemented via sub-regulatory guidance.

On November 13, 2019, the DHCS informed Plans that CMS has concluded their review of the revised amendment. DHCS has informed MCPs that will be sending the revised amendments by November 25, 2019 and that it will request signature and return of the amendment as soon as possible. At this time, the amendment does not contain any rate changes or otherwise set any rates.

Fiscal Impact

Funding related to the recommended action to incorporate language adopting requirements outlined in the Final Rule is included in the CalOptima Consolidated Fiscal Year 2019-20 Operating Budget, approved by the Board on June 6, 2019. To the extent the amendment requires significant changes to CalOptima operations, Staff will return to the Board for further consideration.

The contract language revisions related to the MLR is revenue neutral to CalOptima, as it does not materially change CalOptima's current MLR calculation methodology.

Rationale for Recommendation

CalOptima's execution of the 2017 Final Rule amendment to its Primary Agreement with DHCS is necessary to ensure compliance with the requirements of the Medicaid and CHIP Managed Care Final Rule and for the continued operation of CalOptima's Medi-Cal program.

APPENDIX TO AGENDA ITEM 6

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to **Medicare Improvements for Patients and Providers Act** (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015
A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015

Back to Agenda

A-26 adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 adjusts 2013-2014 capitation rates for Optional Expansion and SB 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into primary agreement.	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language.	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016
A-32 incorporates base rates for July 2015 to June 2016 with Behavioral Health Treatment (BHT) and Hepatitis–C supplemental payments, and Partial Dual/Medi-Cal only rates, and added aid codes 4U, and 2P–2U as covered aid codes.	February 2, 2017
A-33 incorporates base rates for July 2016 to June 2017.	February 2, 2017
A-34 incorporates revised Adult Optional Expansion rates for January 2015 to June 2015. These rates were revised to include the impact of the Hospital Quality Assurance Fee (HQAF) required by Senate Bill (SB) 239.	June 1, 2017
A–35 incorporates Managed Long–Term Services and Supports (MLTSS) into CalOptima's Primary Agreement with the DHCS.	March 6, 2014 February 2, 2017
A–36 incorporates revised base rates for July 2015 to June 2016.	December 7, 2017
A–37 incorporates revised base rates for July 2016 to June 2017.	February 7, 2019
A–38 incorporates full dual rates for Calendar Year (CY) 2015	August 1, 2019
A–39 incorporates full dual rates for Calendar Year (CY) 2016	August 1, 2019

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for the rate period July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014.	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015	January 5, 2012 (FY 11-12 and FY 12-13 rates)

Back to Agenda

	May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided through the Secondary Agreement.	December 4, 2014
A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016
A–08 incorporates Adult & Family/Optional Targeted Low–Income Child and Adult Expansion rates for July 2016 to June 2017 and July 2017 to June 2018.	December 6, 2018

The following is a summary of amendments to Agreement 16-93274 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 16-93274	Board Approval
A-01 extends the Agreement 16-93274 with DHCS to December 31, 2018.	August 3, 2017
A–02 extends the Agreement 16–93274 with DHCS to December 31, 2019	June 7, 2018
A–03 extends the Agreement 16–93274 with DHCS to December 31, 2020	May 2, 2019

The following is a summary of amendments to Agreement 17–94488 approved by the CalOptima Board of Directors (Board) to date:

Amendments to Agreement 17-94488	Board Approval
A-01 enables DHCS to fund the development of palliative care policies and procedures (P&Ps) to implement California Senate Bill (SB) 1004.	December 7, 2017

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken June 1, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

12. Consider Authorizing and Directing Execution of Amendment(s) to CalOptima's Primary Agreement with the California Department of Health Care Services (DHCS)

Contact

Nancy Huang, Interim Chief Financial Officer, (714) 246-8400
Silver Ho, Executive Director of Compliance, (714) 246-8400

Recommended Actions

1. Authorize and direct the Chairman of the Board of Directors to execute an Amendment(s) to the Primary Agreement between the Department of Health Care Services (DHCS) and CalOptima related to the incorporation of language adopting requirements outlined in the Medicaid and CHIP Managed Care Final Rule (Final Rule).
2. Authorize and direct the Chairman of the Board of Directors to execute an Amendment(s) to the Primary Agreement between DHCS and CalOptima related to rate changes.

Background

As a County Organized Health System (COHS), CalOptima contracts with DHCS to provide health care services to Medi-Cal beneficiaries in Orange County. In January 2009, CalOptima entered into a new five (5) year agreement with DHCS. Amendments to this agreement are summarized in the attached appendix, including Amendment 31, which extends the agreement through December 31, 2020. The agreement contains, among other terms and conditions, the payment rates CalOptima receives from DHCS to provide health care services.

Amendment for Medicaid and CHIP Managed Care Final Rule (Final Rule)

In April 2016, the Centers for Medicare & Medicaid Services (CMS) published in the Federal Register the Medicaid and CHIP Managed Care Final Rule [Medicaid Managed Care (CMS-2390-F)], which aligns key rules with those of other health insurance coverage programs, modernizes how states purchase managed care for beneficiaries, and strengthens the consumer experience and key consumer protections. This Final Rule is the first major update to Medicaid and CHIP managed care regulations in more than a decade. These regulations are sometimes referred to in aggregate as the "Mega Reg."

In the ensuing months, DHCS undertook an effort to plan to develop guidance to incorporate the requirements of the Final Rule, and it also began to draft amendments to its contracts with Managed Care Plans (MCPs), including CalOptima.

This Amendment to CalOptima's Primary Agreement with DHCS provides language changes for the addition of Final Rule requirements. The specific changes in the Amendment are summarized in the Discussion section below.

Back to Agenda

Implementation of the Final Rule will be a significant, multi-year process, and CalOptima staff is in the process of reviewing these requirements and anticipates additional amendments to the contract to address the following provisions of the Final Rule:

- External Quality Review;
- Managed Care Quality Strategy;
- Network Adequacy and Validation;
- Provider Screening and Enrollment;
- Annual Network Certification; and
- Quality Rating System for MCPs.

Amendment for Rate Changes

On April 3, 2017, DHCS submitted an amendment to CMS for approval that will revise CalOptima's Optional Expansion capitation rates for the period of January 1, 2015 to June 30, 2015. These rates have been revised to include the impact of the Hospital Quality Assurance Fee (QAF) required by Senate Bill (SB) 239.

Discussion

Amendment for Medicaid and CHIP Managed Care Final Rule (Final Rule)

On April 18, 2017, DHCS provided Managed Care Plans (MCPs), including CalOptima, with a copy of an amendment that it submitted to CMS for approval that is intended to bring its contracts with MCPs into alignment with the requirements set forth in the Final Rule. Once CMS concludes its review of DHCS's proposed amendment, DHCS will incorporate any required changes to the document and provide the amendment to CalOptima for prompt execution and return. If the amendment is not consistent with Staff's understanding as presented in this document or if it includes significant unexpected language or rate changes, Staff will return to the Board of Directors for further consideration.

At this time, the amendment does not include any rate changes or otherwise set any rates. However, the language contained in the amendment addresses a broad array of changes that DHCS is implementing to bring MCP contracts into compliance with the Final Rule. What follows is a brief summary of a number of the major changes contained within the amendment:

Requirement[1]	
Credentialing	Credentialing efforts must comply with DHCS guidance, including All Plan Letter (APL) 16-012: Provider Credentialing and Recredentialing, which incorporates a uniform credentialing and recredentialing policy for acute, primary, specialist, behavioral, substance use disorders, and long-term services and supports (LTSS) providers, as well as provider enrollment screening requirements.

[1] DHCS Planned Guidance for MCPs – Managed Care Final Rule Implementation Requirements

Back to Agenda

Requirement[1]	
Grievances and Appeals	Members must exhaust all plan-level appeals prior to filing for a State Hearing. Members have 60 calendar days to file an appeal upon receipt of a Notice of Adverse Benefit Determination. Upon resolution of an appeal, a member has 120 calendar days to file a State Hearing. Expedited resolution of appeals must be completed within 72 hours.
Access and Cultural Consideration	Consider gender identity as a component of culturally competent care and may not discriminate on the grounds of gender identity.
Medicare Coordination	Participate in a Coordination of Benefits Agreement (COBA) between DHCS and the Medicare program through CMS, and agree to participate in Medicare's automated claims crossover process for Full Benefit Dual Eligible Dual-Eligible Beneficiary Members.
Drug Utilization Review (DUR)	Operate a DUR program that complies with the requirements of the Final Rule, including participating in the State's DUR Board, conducting a retrospective DUR and submit an annual report to DHCS of MCP DUR activities.
Formulary Requirements	Include in the Formulary the covered medications (generic and brand), on what tier the medication is, and post the Formulary in a machine readable file on the CalOptima website.
Medical Loss Ratio Requirements	Plans must calculate and report a Medical Loss Ratio (MLR) in a form and manner specified by DHCS.
Care Coordination	Make a best effort to screen all new incoming members within 90 calendar days of enrollment using the Health Information Form (HIF) / Member Evaluation Tool (MET).
Subcontracting and Delegation Requirements	Meet the subcontracting and delegation requirements, including requirements related to the content of written agreements with subcontractors, review of subcontractors' ownership and control disclosures, DHCS' expanded rights related to the audit and inspection of subcontractors, the monitoring of subcontracted and delegated functions, the monitoring of subcontractor data reporting, the requirements for subcontractors to implement and maintain procedures designed to detect and prevent Fraud, Waste, and Abuse, the requirement for subcontractors to adopt a compliance program, and the monitoring of subcontractor care coordination requirements.

Back to Agenda

Requirement[1]	
Program Integrity	Data Certification Certify all data, information, and documentation submitted to DHCS is accurate, complete, and truthful to the MCP's best information, knowledge, and belief, in a form and manner specified by DHCS. Treatment of Recoveries Create an internal retention and documentation process for recovery of all overpayments and review quarterly for accuracy. Report annually to DHCS on the recoveries of overpayments through the rate setting process. CalOptima must report overpayments to network providers in excess of $25 million to DHCS.
Network Composition	Meet the requirement to contract with Rural Health Clinics, Federally Qualified Health Clinics, and Freestanding Birthing Centers, as applicable.
Record Retention	Retain records for a period of ten years, and impose this requirement on Subcontractors.
Terminology Changes	Update terms and definitions used in the contract.
Quality Improvement	Implement a Quality Assessment and Performance Improvement Program, and collect and submit performance measurement data.

In preparation for the additional requirements related to the Final Rule, CalOptima's Regulatory Affairs & Compliance Department provided CalOptima staff with detailed analyses of the initial related CMS Notice of Proposed Rulemaking (NPRM), the draft Final Rule, the Final Rule, guidance provided by DHCS, and revisions to the contract to ensure compliance with the Final Rule and related contract requirements. Staff is in the process of evaluating these requirements as well as the resources commitment that will necessary to achieve full compliance.
DHCS has further advised that it will require MCPs to submit deliverables related to the amendment in advance of the July 1, 2017 effective date of the contract. DHCS's requested deliverables include Policies & Procedures (P&Ps) designed to demonstrate compliance with requirements included in the amendment. Some of these deliverables will be due from CalOptima to DHCS prior to July 1, 2017. To the extent that CalOptima staff must provide information to DHCS to meet the deliverables, including the revision or creation of P&Ps that would ordinarily come to the Board of Directors for approval, staff will return to the Board of Directors at a later date for further consideration and/or ratification of staff action.

Amendment for Rate Changes
DHCS's proposed amendment seeks to incorporate rate changes related to SB 239 to the Optional Expansion capitation rates for the period of January 1, 2015 to June 30, 2015. The revised optional expansion capitation rates for January 2015 to June 2015 relate to the QAF, and were sent to CalOptima in April 2017. SB 239 imposes a QAF from January 1, 2014 to December 31, 2016, and authorizes the framework for the existing QAF built into CalOptima's rates, which have been

approved numerous times by the CalOptima Board of Directors, including most recently in December 2016. This amendment revises the Optional Expansion rates for the QAF for the period of January 1, 2015 to June 30, 2015.

Fiscal Impact

Funding related to the recommended action to incorporate language adopting requirements outlined in the Final Rule into the Primary Agreement is included in the CalOptima FY 2017-18 Operating Budget pending Board approval. If the amendment requires significant changes to CalOptima operations, Staff will return to the Board for further consideration.

The revised Optional Expansion capitation rates for the period of January 1, 2015, through June 30, 2015 under SB 239 results in an average per member per month increase of $82.66. By statute, CalOptima will pass through to participating hospitals the full amount of supplemental hospital funds it receives from DHCS.

Rationale for Recommendation

CalOptima's execution of the Final Rule amendment to its Primary Agreement with DHCS is necessary to ensure compliance with the requirements of the Medicaid and CHIP Managed Care Final Rule and for the continued operation of CalOptima's Medi-Cal program. Additionally, CalOptima's FY 2014-15 Operating Budget was based on the anticipated rates from DHCS. Therefore, execution of the rate amendment will ensure revenues, expenses and cash payment consistent with the approved budget.

Back to Agenda

APPENDIX TO AGENDA ITEM 12

The following is a summary of amendments to the Primary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Primary Agreement	Board Approval
A-01 provided language changes related to Indian Health Services, home and community-based services, and addition of aid codes effective January 1, 2009.	October 26, 2009
A-02 provided rate changes that reflected implementation of the gross premiums tax authorized by AB 1422 (2009) for the period January 1, 2009, through June 30, 2009.	October 26, 2009
A-03 provided revised capitation rates for the period July 1, 2009, through June 30, 2010; and rate increases to reflect the gross premiums tax authorized by AB 1422 (2009) for the period July 1, 2009, through June 30, 2010.	January 7, 2010
A-04 included the necessary contract language to conform to AB X3 (2009), to eliminate nine (9) Medi-Cal optional benefits.	July 8, 2010
A-05 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, including rate increases to reflect the gross premium tax authorized by AB 1422 (2009), the hospital quality assurance fee (QAF) authorized by AB 1653 (2010), and adjustments for maximum allowable cost pharmacy pricing.	November 4, 2010
A-06 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding for legislatively mandated rate adjustments to Long Term Care facilities effective August 1, 2010; and rate increases to reflect the gross premiums tax on the adjusted revenues for the period July 1, 2010, through June 30, 2011.	September 1, 2011
A-07 included a rate adjustment that reflected the extension of the supplemental funding to hospitals authorized in AB 1653 (2010), as well as an Intergovernmental Transfer (IGT) program for Non-Designated Public Hospitals (NDPHs) and Designated Public Hospitals (DPHs).	November 3, 2011
A-08 provided revised capitation rates for the period July 1, 2010, through June 30, 2011, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine.	March 3, 2011
A-09 included contract language and supplemental capitation rates related to the addition of the Community Based Adult Services (CBAS) benefit in managed care plans.	June 7, 2012

Back to Agenda

A-10 included contract language and capitation rates related to the transition of Healthy Families Program (HFP) subscribers into CalOptima's Medi-Cal program	December 6, 2012
A-11 provided capitation rates related to the transition of HFP subscribers into CalOptima's Medi-Cal program.	April 4, 2013
A-12 provided capitation rates for the period July 1, 2011 to June 30, 2012.	April 4, 2013
A-13 provided capitation rates for the period July 1, 2012 to June 30, 2013	June 6, 2013
A-14 extended the Primary Agreement until December 31, 2014	June 6, 2013
A-15 included contract language related to the mandatory enrollment of seniors and persons with disabilities, requirements related to the Balanced Budget Amendment of 1997 (BBA) and Health Insurance Portability and Accountability Act (HIPAA) Omnibus Rule	October 3, 2013
A-16 provided revised capitation rates for the period July 1, 2012, through June 30, 2013 and revised capitation rates for the period January 1, 2013, through June 30, 2014 for Phases 1, 2 and 3 transition of Healthy Families Program (HFP) children to the Medi-Cal program	November 7, 2013
A-17 included contract language related to implementation of the Affordable Care Act, expansion of Medi-Cal, the integration of the managed care mental health and substance use benefits and revised capitation rates for the period July 1, 2013 through June 30, 2014.	December 5, 2013
A-18 provided revised capitation rates for the period July 1, 2013, through June 30, 2014.	June 5, 2014
A-19 extended the Primary Agreement until December 31, 2015 and included language that incorporates provisions related to Medicare Improvements for Patients and Providers Act (MIPPA)-compliant contracts and eligibility criteria for Dual Eligible Special Needs Plans (D-SNPs)	August 7, 2014
A-20 provided revised capitation rates for the period July 1, 2012, through June 30, 2013, for funding related to the Intergovernmental Transfer (IGT) Agreement between CalOptima and the University of California, Irvine and Optional Targeted Low-Income Child Members	September 4, 2014
A-21 provided revised 2013-2014 capitation rates.	November 7, 2013
A-22 revised capitation rates for Fiscal Year (FY) 2013-14 and added an aid code to implement Express Lane/CalFresh Eligibility	November 6, 2014
A-23 revised ACA 1202 rates for January – June 2014, established base capitation rates for FY 2014-2015, added an aid code related to the OTLIC and AIM programs, and contained language revisions related to supplemental payments for coverage of Hepatitis C medications.	December 4, 2014
A-24 revises capitation rates to include SB 239 Hospital Quality Assurance Fees for the period January 1, 2014 to June 30, 2014.	May 7, 2015

Back to Agenda

A-25 extends the contract term to December 31, 2016. DHCS is obtaining a continuation of the services identified in the original agreement.	May 7, 2015
A-26 . adjusts the 2013-2014 Intergovernmental Transfer (IGT) rates.	May 7, 2015
A-27 Adjusts the 2013-2014 capitation rates for the Optional Expansion and Senate Bill (SB) 239.	May 7, 2015
A-28 incorporates language requirements and supplemental payments for BHT into the primary agreement	October 2, 2014
A-29 added optional expansion rates for January- June 2015; also added updates to MLR language	April 2, 2015
A-30 incorporates language regarding Provider Preventable Conditions (PPC), determination of rates, and adjustments to 2014-2015 capitation rates with respect to Intergovernmental Transfer (IGT) Rate Range and Hospital Quality Assurance Fee (QAF).	December 1, 2016
A-31 extends the Primary Agreement with DHCS to December 31, 2020.	December 1, 2016

The following is a summary of amendments to the Secondary Agreement approved by the CalOptima Board of Directors (Board) to date:

Amendments to Secondary Agreement	Board Approval
A-01 implemented rate amendments to conform to rate amendments contained in the Primary Agreement with DHCS (08-85214).	July 8, 2010
A-02 implemented rate adjustments to reflect a decrease in the statewide average cost for Sensitive Services for rate period of July 1, 2010 through June 30, 2011.	August 4, 2011
A-03 extended the term of the Secondary Agreement to December 31, 2014	June 6, 2013
A-04 incorporates rates for the periods July 1, 2011 through June 30, 2012, and July 1, 2012 through June 30, 2013 as well as extends the current term of the Secondary Agreement to December 31, 2015.	January 5, 2012 (FY 11-12 and FY 12-13 rates) May 1, 2014 (term extension)
A-05 incorporates rates for the periods July 1, 2013 through June 30, 2014, and July 1, 2014 through June 30, 2015. For the period July 1, 2014 through June 30, 2015, Amendment A-05 also adds funding for the Medi-Cal expansion population for services provided to the Secondary Agreement.	December 4, 2014

Back to Agenda

A-06 incorporates rates for the period July 1, 2015 onward. A-06 also extends the term of the Secondary Agreement to December 31, 2016.	May 7, 2015 (term extension) Ratification of rates requested April 7, 2016
A-07 extends the Secondary Agreement with the DHCS to December 31, 2020.	December 1, 2016

Back to Agenda

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

7. Consider Authorizing Further Actions Related to the California Department of Health Care Services Medi-Cal Provider Enrollment Requirements

Contact

Michelle Laughlin, Executive Director Network Operations (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer, with the assistance of Legal Counsel, to issue Letters of Agreement with non-Medi-Cal enrolled specialist/Behavioral Health providers identified by the Chief Medical Officer through December 31, 2020, as required for access to services or continuity of care purposes.

Background

In April 2016, the Centers for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance Program (CHIP) regulations. The revised regulation includes requirements that providers in Managed Care Plans (MCPs), including CalOptima, be subject to the same provider enrollment and screening requirements as providers who participate in Medicaid state fee-for-service programs. The enrollment and screening requirements are in addition to credentialing requirements and meant to reduce the incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification. Although the new state-mandated enrollment and screening requirements were effective January 1, 2018, DHCS guidance clarified that non-Medi-Cal enrolled providers contracted with MCPs prior to that date had until December 31, 2018, to complete the process. On June 12, 2019, DHCS issued All Plan Letter (APL) 19-004, which specified MCPs' responsibilities related to the screening and enrollment of all Medi-Cal network providers.

To date, the Board has approved two extensions to allow CalOptima's non-Medi-Cal enrolled providers to maintain their CalOptima contracts while completing the enrollment process. On November 1, 2018, the Board granted the first extension, allowing providers to remain contracted with CalOptima until June 30, 2019, provided that they had submitted their Medi-Cal enrollment applications to DHCS prior to January 1, 2019. On May 2, 2019, the Board authorized a second extension, allowing providers to remain contracted with CalOptima until December 31, 2019 to allow additional time for completion of the processing of their Medi-Cal enrollment applications, again, provided that they had submitted their Medi-Cal enrollment applications to DHCS prior to January 1, 2019.

As of November 2019, more than 10,600 CalOptima-contracted providers are Medi-Cal enrolled, with more than 2,000 providers having initiated the enrollment process in response to CalOptima's extensive communication and outreach efforts since April 2018. At this time, our records indicate that just 249 specialists and 25 primary care providers (PCPs) contracted with CalOptima remain non-enrolled with Medi-Cal. Per the May 2, 2019, Board action, contracts for non-Medi-Cal enrolled providers are to be terminated effective December 31, 2019.

Back to Agenda

Discussion

With the deadline for the final extension approaching, staff is prioritizing continuity of care for Medi-Cal members who will be affected by provider terminations as of January 1, 2020. Members impacted by the 25 PCP terminations have been notified that they may select a new PCP and if they do not choose, they will be automatically reassigned to a Medi-Cal enrolled PCP. Members impacted by specialist terminations will be addressed through continuity of care and the use of Letters of Agreement (LOA).

Per CalOptima policy EE.1141, the LOA process is available to enter into a contract directly with an out of network provider, in instances where medically necessary, covered services are required. In this circumstance, staff will seek an exception to CalOptima's traditional use of LOAs, which requires the member or the provider to individually pursue the LOA.

While LOAs will be provided upon member request for all non-BH specialties, staff has determined that a proactive approach is best suited for members receiving BH services. Of the 249 specialists pending Medi-Cal enrollment, 153 are Behavioral Health (BH) providers who serve approximately 6,000 CalOptima members. The impact of terminating these providers at the same time may, in some cases, lead to challenges in accessing services as members are redirected to contracted providers who are enrolled in the Medi-Cal program with DHCS.

To ease the transition for BH members and alleviate potential disruption of services, staff seeks authority to proactively pursue LOAs with BH providers who are non-enrolled as of the December 31, 2019 deadline. Per CalOptima policy GG.1304, members have a right to request continuity of care. However, due to the high volume of members potentially impacted, this proactive approach is intended to mitigate that burden from the members while their treatment is finalized, or they are transitioned to enrolled providers. BH staff is set to have the transitions completed in a year or less.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2019-20 Operating Budget, approved by the Board on June 6, 2019, includes forecasted professional medical expenses. The recommended action to authorize LOAs with non-Medi-Cal enrolled specialist providers is not anticipated to have an additional fiscal impact, assuming the State takes no actions related to recovery of payments made to non-enrolled providers as overpayments and does not find CalOptima to be non-compliant such that it issues sanctions or take related actions.

Management plans to include revenue and expenses for the period of July 1, 2020, through December 31, 2020, related to the LOAs with certain specialist providers in the FY2020-21 operating budget.

Rationale for Recommendation

Continuation of members' BH services with their current providers via LOA ensures CalOptima minimizes the member impact during transitions to Medi-Cal-enrolled providers. This will reduce disruption of care and enhance the overall member experience.

ALL PLAN LETTER 19-004
SUPERSEDES ALL PLAN 17-019

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: PROVIDER CREDENTIALING / RECREDENTIALING AND SCREENING / ENROLLMENT

PURPOSE:
The purpose of this All Plan Letter (APL) is to inform Medi-Cal managed care health plans (MCPs) of their responsibilities related to the screening and enrollment of all network providers pursuant to the Centers for Medicare and Medicaid Services' (CMS) Medicaid and Children's Health Insurance Program Managed Care Final Rule (Final Rule), CMS-2390-F, dated May 6, 2016.[1] Additionally, this APL clarifies MCPs' contractual obligations related to credentialing and recredentialing as required in Title 42 of the Code of Federal Regulations (CFR), Section 438.214.[2] The screening and enrollment responsibilities are located in Part 1 and the credentialing and recredentialing responsibilities are located in Part 2 of this APL. This APL supersedes APL 17-019.[3]

BACKGROUND:
On February 2, 2011, CMS issued rulemaking CMS-6028-FC to enhance fee-for-service (FFS) provider enrollment screening requirements pursuant to the Affordable Care Act.[4] The intent of Title 42 of the CFR, Part 455, Subparts B and E was to reduce the incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.[5]

The Final Rule extended the provider screening and enrollment requirements of Title 42 of the CFR, Part 455, Subparts B and E to MCP network providers. These requirements are designed to reduce the number of providers who do not meet CMS provider enrollment requirements from participating in the MCPs' provider networks.

Back to Agenda

MCPs are required to maintain contracts with their network providers (Network Provider Agreement) and perform credentialing and recredentialing activities on an ongoing basis. However, prior to the Final Rule, the MCPs' network providers were not required to enroll in the Medi-Cal program. Title 42 of the CFR, Section 438.602(b) now requires states to screen and enroll, and periodically revalidate, all network providers of managed care organizations, prepaid inpatient health plans, and prepaid ambulatory health plans, aligning with the FFS enrollment requirements described in Title 42 of the CFR, Part 455, Subparts B and E. These requirements apply to both existing contracting network providers as well as prospective network providers.

The Medi-Cal FFS delivery system currently enforces a statewide set of enrollment standards. The Medi-Cal managed care program and MCPs must comply with statewide Medi-Cal FFS enrollment standards and federal enrollment standards when verifying enrollment of providers through a state-level enrollment pathway or developing a provider enrollment pathway.[6] The 21st Century Cures Act (Cures Act) required managed care network provider enrollment to be implemented by January 1, 2018.[7]

The MCPs' screening and enrollment requirements are separate and distinct from their credentialing and recredentialing processes. The credentialing and recredentialing process is one component of the comprehensive quality improvement system required in all MCP contracts.[8] Credentialing is defined as the recognition of professional or technical competence.[9] The credentialing process may include registration, certification, licensure, and/or professional association membership. The credentialing process ensures that providers are properly licensed and certified as required by state and federal law.

Back to Agenda

POLICY:

Part 1: Medi-Cal Managed Care Screening and Enrollment Requirements

Available Enrollment Options

MCP network providers that have a state-level enrollment pathway must enroll in the Medi-Cal program.[10, 11] State-level enrollment pathways are available either through the Department of Health Care Services' (DHCS) Provider Enrollment Division (PED) or another state department with a recognized enrollment pathway.[12] MCPs have the option to develop and implement a managed care provider screening and enrollment process that meets the requirements of this APL, or MCPs may direct their network providers to enroll through a state-level enrollment pathway. DHCS' PED is the primary developer of state-level enrollment pathways for FFS providers. If an MCP chooses to enroll a provider type into their network that does not have an enrollment pathway through PED, DHCS will recognize all other state-level enrollment pathways.

MCPs may screen and enroll network providers in a manner that is substantively equivalent to DHCS' provider enrollment process. However, MCPs may also rely on the enrollment and screening results conducted by DHCS or other MCPs. MCPs can access the California Health and Human Services' (CHHS) Open Data Portal to obtain a list of currently enrolled Medi-Cal FFS providers.[13] MCPs are required to issue network providers a "verification of enrollment" that MCPs can rely on to prevent enrollment duplication. MCPs may collaborate with each other to share provider screening and enrollment results.

Providers who enroll through a state-level enrollment process may participate in both the Medi-Cal FFS program as well as contract with an MCP (provided the MCP chooses to contract with the provider). However, providers who only enroll through an MCP cannot participate in the Medi-Cal FFS program. Although DHCS does not require that managed care providers enroll as FFS providers, if a provider wishes to participate in, or receive reimbursement from the Medi-Cal FFS program, the provider must enroll as a Medi-Cal FFS provider through a state-level enrollment pathway. For providers who are

---

[10] "Network provider" is defined in 42 CFR, Section 438.2, available at: https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=1&SID=1b74655ecc02b0de9edb16df3de9284e&ty=HTML&h=L&mc=true&r=SECTION&n=se40.32.438_12

[11] More information on network provider status is available in APL19-001: Medi-Cal Managed Care Health Plan Guidance on Network Provider Status.

[12] For a complete list of state-level enrollment pathways, refer to the resource listing on the PED Frequently Asked Questions (FAQ) webpage, available at: https://www.dhcs.ca.gov/provgovpart/Pages/PEDFrequentlyAskedQuestions.aspx

[13] The CHHS Open Data Portal can be found at: https://data.chhs.ca.gov/dataset/profile-of-enrolled-medi-cal-fee-for-service-ffs-providers-as-of-june-1-2017

Back to Agenda

typically required to enroll but are restricted due to a moratorium, MCPs must develop their own enrollment pathway if the MCP chooses to include them in their network.

MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis. Additionally, pursuant to the July 24, 2018, CMS Medicaid Provider Enrollment Compendium (MPEC), MCPs will no longer be required to enroll providers that do not have a state-level enrollment pathway.[14] Additionally, DHCS will only process provider applications that have a state-level enrollment pathway established by DHCS' PED[15]; therefore, applications submitted to DHCS from providers that do not have a state-level enrollment pathway through PED will be denied. MCPs who choose to enroll these providers must do so through their own established enrollment process, through the recognized enrollment process developed by another MCP, or, if applicable, through a state-level enrollment pathway established by another state department.

MCP Enrollment Processes
If the MCP elects to enroll a provider, the MCP must comply with the following processes:

General Requirements:
A. MCP Provider Application and Application Fee
MCPs are not required to use DHCS' provider enrollment forms. However, MCPs must ensure that they collect all the appropriate information, data elements, and supporting documentation required for each provider type.[16] In addition, MCPs must ensure that every network provider application they process is reviewed for both accuracy and completeness. MCPs must ensure that all information specified in Title 22 of the California Code of Regulations (CCR), including but not limited to, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60, including all required submittals and attachments of the application package, are received.[17] As part of the application process, the MCP must obtain the provider's consent to allow DHCS and the MCP to share information relating to a provider's application and eligibility, including but not limited to issues related to program integrity.

---

[14] The MPEC is available at: https://www.medicaid.gov/affordable-care-act/downloads/program-integrity/mpec-7242018.pdf
[15] More information on PED's enrollment process and pathways is available at: https://www.dhcs.ca.gov/provgovpart/pages/pave.aspx
[16] Application packages by provider type can be found at the following: https://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx. For associated definitions and provider types, see 22 CCR, Sections 51000 – 51000.26 and 51051.
[17] The CCR is searchable at: https://govt.westlaw.com/calregs/Search/Index

Back to Agenda

MCPs may collect an application fee, established by CMS from unenrolled prospective network providers, to cover the administrative costs of processing a provider's screening and enrollment application. The MCP's application fee policy must be comparable to, and must not exceed, the state's application fee.[18] Before collecting this fee, the MCP should be certain that the network provider is not already enrolled.

B. Medi-Cal Provider Agreement and Network Provider Agreement

All Medi-Cal providers are required to enter into a provider enrollment agreement with the state as a condition of participating in the Medi-Cal program.[19, 20] As part of the enrollment process, MCPs are responsible for ensuring that all successfully enrolled providers execute and sign the Medi-Cal Provider Agreement (DHCS Form 6208).[21] This provider agreement is separate and distinct from the Network Provider Agreement (see below). MCPs must maintain the original signed Medi-Cal Provider Agreement for each provider. MCPs are responsible for maintaining all provider enrollment documentation in a secure manner and location that ensures the confidentiality of each provider's personal information. These enrollment records must be made available upon request to DHCS, CMS, or other authorized governmental agencies.

The agreement between the MCP and a provider (Network Provider Agreement) is separate and distinct from the Medi-Cal Provider Agreement. Both the Medi-Cal Provider Agreement and the Network Provider Agreement are required for MCP network providers. The Medi-Cal Provider Agreement does not expand or alter the MCP's existing rights or obligations relating to its Network Provider Agreement.

C. Review of Ownership and Control Disclosure Information

As a requirement of enrollment, providers must disclose the information required by Title 42 of the CFR, Sections 455.104, 455.105, and 455.106, and Title 22 of the CCR, Section 51000.35. Providers who are unincorporated sole proprietors are not required to disclose the ownership or control information described in Title 42 of the CFR, Section 455.104. Providers that apply as a partnership, corporation, governmental entity, or nonprofit organization must disclose ownership or control information as required by Title 42 of the CFR, Section 455.104.

Full disclosure throughout the enrollment process is required for participation in the Medi-Cal program. These disclosures must be provided when:

---

[20] WIC, Section 14043.1(c).

[21] The Medi-Cal Provider Agreement (DHCS Form 6208) and other relevant forms related to provider agreement requirements are available at: http://files.medi-cal.ca.gov/pubsdoco/prov_enroll.asp

Back to Agenda

- A prospective provider submits the provider enrollment application.
- A provider executes the Medi-Cal Provider Agreement.
- A provider responds to an MCP's request during the enrollment re-validation process.
- Within 35 days of any change in ownership of the network provider.

Upon MCP request, a network provider must submit within 35 days:

- Full and complete information about the ownership of any subcontractor with whom the network provider has had business transactions totaling more than $25,000 during the 12-month period ending on the date of the request; and,
- Any significant business transactions between the network provider and any wholly owned supplier, or between the provider and any subcontractor, during the five-year period ending on the date of the request.[22]

Additionally, MCPs must comply with the requirements contained in Title 22 of the CCR, Section 51000.35. MCPs are not required to utilize the DHCS disclosure forms (DHCS Forms 6207 and 6216); however, MCPs must collect all information and documentation required by Title 22 of the CCR, Section 51000.35.

D. Limited, Moderate, and High Risk Assignment

MCPs must screen initial provider applications, including applications for a new practice location, and any applications received in response to a network provider's reenrollment or revalidation request to determine the provider's categorical risk level as limited, moderate, or high. If a provider fits within more than one risk level, the MCP must screen the provider at the highest risk level.

The federal requirements for screening and for MCPs to stratify their network providers by risk level are set forth in Attachment A of this APL. These federal requirements list provider types considered as limited risk, moderate risk, and high risk, and define the screening requirements for each level of risk. A provider's designated risk level is also affected by findings of license verification, site reviews, checks of suspended and terminated provider lists, and criminal background checks. MCPs must not enroll a provider who fails to comply with the screening criteria for that provider's assigned level of risk.

Providers are subject to screening based on verification of the following requirements:

Limited-Risk Providers:

- Meet state and federal requirements;

[22] 42 CFR, Section 455.105(b)

- Hold a license certified for practice in the state and has no limitations from other states; and
- Have no suspensions or terminations on state and federal databases.

Medium-Risk Providers

- Screening requirements of limited-risk providers; and
- Pre-enrollment and post-enrollment onsite visits to verify that the information submitted to the MCP and DHCS is accurate, and to determine compliance with state and federal enrollment requirements.

High-Risk Providers:

- Screening requirements of medium-risk providers; and
- Criminal background checks based in part on a set of fingerprints.

The MCP and DHCS will adjust the categorical risk level when any of the following circumstances occur:

- The state imposes a payment suspension on a provider based on a credible allegation(s) of fraud, waste, or abuse.
- The provider has an existing Medicaid overpayment based on fraud, waste, or abuse.
- The provider has been excluded by the Office of Inspector General or another state's Medicaid program within the previous ten years, or when a state or federal moratorium on a provider type has been lifted.

Providers are categorized as high-risk if that provider would have been prevented from applying for enrollment due to a moratorium and the moratorium was lifted in the past six months.[23, 24]

DHCS will provide the information necessary to determine provider risk level to MCPs on a regular basis. MCPs may also obtain this information upon request from their DHCS Managed Care Operations Division (MCOD) contract manager.

E. Additional Criteria for High Risk Providers – Fingerprinting and Criminal Background Check

High-risk providers are subject to criminal background checks, including fingerprinting and the screening requirements for medium-risk providers. Regardless of whether a high-risk provider has undergone fingerprinting in the past, the requirement to submit to a criminal background check and fingerprinting remains the same. Any person with a 5%

[23] 42 CFR, Section 455.450(e)(2)
[24] WIC, Section 14043.38(b)(4)

Back to Agenda

or more direct or indirect ownership in a high-risk applicant must submit to a criminal background check.[25] In addition, information discovered in the process of onsite reviews or data analysis may lead to a request for fingerprinting and criminal background checks for applicants.

DHCS will coordinate all criminal background checks. MCPs must direct providers to fill out Form BCIA 8016 on the California Department of Justice (DOJ) website.[26] MCPs must ensure providers include the correct agency information on the Live Scan form when submitting their application to the California DOJ so their application is processed correctly. The agency-specific information must be included in the appropriate fields as detailed below:

Applicant Submission

Field	Entry
ORI (Code assigned by DOJ)	CA0341600
Authorized Applicant Type	High Risk Medi-Cal Provider
Type of License/Certification/Permit OR Working Title	MCMC

Contributing Agency Information

Field	Entry
Agency Authorized to Receive Criminal Record Information	Department of Health Care Services
Mail Code (Five-digit code assigned by DOJ)	19509
Street Address or P.O. Box	1700 K Street; MS 2200
Contact Name	MCMC
City	Sacramento
State	CA
ZIP Code	95811
Contact Telephone Number	(916) 750-1509

[25] WIC, Section 14043.38(c)
[26] The Live Scan form is available on Forms for Applicant Agencies webpage on the DOJ website, available at: https://oag.ca.gov/fingerprints/forms.

Back to Agenda

When fingerprinting is required, MCPs must furnish the provider with the Live Scan form and instructions on where to deliver the completed form. It is critical that MCPs distribute the designated Live Scan form as this ensures the criminal history check results are forwarded directly to DHCS. The provider shall deliver the completed Live Scan form to the California DOJ. The provider is responsible for paying for any Live Scan processing fees. MCPs must notify DHCS upon initiation of each criminal background check for a provider that has been designated as high risk. DHCS will provide notification of the Live Scan results directly to the MCP. The MCP must maintain the security and confidentiality of all of the information it receives from DHCS relating to the provider's high-risk designation and the results of the criminal background checks.

F. Site Visits

MCPs must conduct pre- and post-enrollment site visits of medium-risk and high-risk providers to verify that the information submitted to the MCP and DHCS is accurate, and to determine the applicant's compliance with state and federal enrollment requirements, including but not limited to, Title 22 of the CCR, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60. MCPs must conduct post-enrollment site visits for medium-risk network providers at least every five years, and their high-risk network providers every three years or as necessary. Post-enrollment onsite visits verify that the information submitted to the MCP and DHCS is accurate, and to determine if providers are in compliance with state and federal enrollment requirements. In addition, all providers enrolled in the Medi-Cal program, including providers enrolled through MCPs, are subject to unannounced onsite inspections at all provider locations.[27]

Onsite visits may be conducted for many reasons including, but not limited to, the following:

- The provider was temporarily suspended from the Medi-Cal program.
- The provider's license was previously suspended.
- There is conflicting information in the provider's enrollment application.
- There is conflicting information in the provider's supporting enrollment documentation.
- As part of the provider enrollment process, the MCP receives information that raises a suspicion of fraud.

[27] 42 CFR, Section 455.432

Back to Agenda

G. Federal and State Database Checks

During the provider enrollment/reenrollment process, MCPs are required to check the following databases to verify the identity and determine the exclusion status of all providers:[28]

- Social Security Administration's Death Master File.[29]
- National Plan and Provider Enumeration System (NPPES).[30]
- List of Excluded Individuals/Entities (LEIE).[31]
- System for Award Management (SAM).[32]
- CMS' Medicare Exclusion Database (MED).[33]
- DHCS' Suspended and Ineligible Provider List.[34]
- Restricted Provider Database (RPD).[35]

In addition to checking all the databases upon a provider's enrollment/reenrollment, MCPs must also review the SAM, LEIE, and RPD databases on a monthly basis. All databases must be reviewed upon a provider's enrollment/reenrollment to ensure that the provider continues to meet enrollment criteria. Each MCP network provider must maintain good standing in the Medicare and Medicaid/Medi-Cal programs. Any provider terminated from the Medicare or Medicaid/Medi-Cal program may not participate in the MCP's provider network.

H. Denial or Termination of Enrollment/Appeal Process

MCPs may enroll providers to participate in the Medi-Cal managed care program. However, if the MCP declines to enroll a provider, it must refer the provider to DHCS for further enrollment options. If the MCP acquires information, either before or after enrollment that may impact the provider's eligibility to participate in the Medi-Cal program, or a provider refuses to submit to the required screening activities, the MCP may decline to accept that provider's application. However, only DHCS can deny or terminate a provider's enrollment in the Medi-Cal program.[36]

[36] 42 CFR, Section 455.416

Back to Agenda

If at any time the MCP determines that it does not want to contract with a prospective provider, and/or that the prospective provider will not meet enrollment requirements, the MCP must immediately suspend the enrollment process. The MCP must inform the prospective provider that he/she may seek enrollment through DHCS.[37]

MCPs are not obligated to establish an appeal process for screening and enrollment decisions. Providers may only appeal a suspension or termination to DHCS when the suspension or termination occurs as part of DHCS' denial of the Medi-Cal FFS enrollment application.[38]

I. Provider Enrollment Disclosure

At the time of application, MCPs must inform their network providers, as well as any providers seeking to enroll with an MCP, of the differences between the MCP's and DHCS' provider enrollment processes, including the provider's right to enroll through DHCS.

DHCS has provided a disclosure statement in Attachment B of this APL, which MCPs may use to advise providers. MCPs are not required to use this exact form, but any disclosure used must contain, at a minimum, the same information contained in Attachment B. DHCS may periodically require MCPs to provide additional disclosures to providers relating to differences in the enrollment processes.

The provider enrollment disclosure must include, but is not limited to, the following elements:

- A statement that certain enrollment functions will not be performed by the MCP, but will continue to be performed by DHCS, including fingerprinting, criminal background checks, and decisions to deny or terminate enrollment.
- A notice that some of the enrollment requirements and rights found in the state enrollment process may not be applicable when a provider chooses to enroll through an MCP, including provisional provider status with Medi-Cal FFS, processing timelines of the enrollment application, and the ability to appeal an MCP's decision to suspend the enrollment process.
- A provision informing the provider that if the MCP receives any information that impacts the provider's eligibility for enrollment, the MCP will suspend processing of the provider's enrollment application and make the provider aware of the option to apply through DHCS' Medi-Cal FFS provider enrollment process.

---

[37] Provider enrollment information can be found at: https://www.dhcs.ca.gov/provgovpart/Pages/PED.aspx
[38] 42 CFR, Section 455.422

Back to Agenda

- A statement clarifying that in order for the provider to participate in the Medi-Cal FFS program, the provider must enroll through DHCS, and that enrolling through DHCS will also make the provider eligible to contract with the MCP.

J. Post Enrollment Activities

Revalidation of Enrollment
To ensure that all enrollment information is accurate and up-to-date, all providers must resubmit and recertify the accuracy of their enrollment information as part of the revalidation process. MCPs may align revalidation efforts with their recredentialing efforts to reduce duplication of activities. MCPs must revalidate the enrollment of each of their network providers at least every five years.[39] MCPs are not required to revalidate providers that were enrolled through DHCS or revalidated by another MCP.

Retention of Documents
MCPs are required to retain all provider screening and enrollment materials and documents for ten years.[40] Additionally, MCPs must make all screening and enrollment documents and materials promptly available to DHCS, CMS, and any other authorized governmental entities upon request.

K. Miscellaneous Requirements

Timeframes
Within 120 days of receipt of a provider application, the MCP must complete the enrollment process and provide the applicant with a written determination. MCPs may allow providers to participate in their network for up to 120 days, pending the outcome of the screening process.[41]

Delegation of Screening and Enrollment
MCPs may delegate their authority to perform screening and enrollment activities to a subcontractor. When doing so, the MCP remains contractually responsible for the completeness and accuracy of the screening and enrollment activities. To ensure that the subcontractor meets both the MCP's and DHCS' standards, the delegating MCP must evaluate the subcontractor's ability to perform these activities, including an initial review to ensure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities. The MCP must continuously monitor, evaluate, and approve the delegated functions.

---

[39] 42 CFR, Section 455.414
[40] 42 CFR, Section 438.3(u)
[41] 42 CFR, Section 438.602(b)(2)

Back to Agenda

Part 2: Medi-Cal Managed Care Credentialing and Recredentialing Requirements
MCPs must ensure that each of its network providers is qualified in accordance with current legal, professional, and technical standards, and is appropriately licensed, certified, or registered. MCPs must implement the provider credentialing and recredentialing policy described below by developing and maintaining written policies and procedures that include initial credentialing, recredentialing, recertification, and reappointment of their network providers. Each MCP must ensure that its governing body, or the designee of its governing body, reviews and approves these policies and procedures, and must ensure that the responsibility for recommendations regarding credentialing decisions rest with a credentialing committee or other peer-review body.

Some screening and enrollment requirements overlap with credentialing and recredentialing requirements. Any such overlap does not require an MCP to duplicate any of the activities described in this APL. However, if an MCP relies on the screening and enrollment activities conducted by another MCP, or by DHCS, the MCP must comply with all credentialing and recredentialing requirements described in this APL.

Provider Credentialing
MCPs are required to verify the credentials of their network providers, and to verify the following items, as required for the particular provider type, through a primary source,[42] as applicable:[43]

- The appropriate license and/or board certification or registration.
- Evidence of graduation or completion of any required education.
- Proof of completion of any relevant medical residency and/or specialty training.
- Satisfaction of any applicable continuing education requirements.

MCPs must also receive the following information from every network provider, but do not need to verify this information through a primary source:

- Work history.
- Hospital and clinic privileges in good standing.
- History of any suspension or curtailment of hospital and clinic privileges.
- Current Drug Enforcement Administration identification number.
- National Provider Identifier number.
- Current malpractice insurance in an adequate amount, as required for the particular provider type.
- History of liability claims against the provider.

---

[42] "Primary source" refers to an entity, such as a state licensing agency, with legal responsibility for originating a document and ensuring the accuracy of the document's information.
[43] The listed requirements are not applicable to all provider types. When applicable to the provider's designation, the information must be obtained.

Back to Agenda

- Provider information, if any, entered in the National Practitioner Data Bank, when applicable.[44]
- History of sanctions from participating in Medicare and/or Medicaid/Medi-Cal. Providers terminated from either Medicare or Medicaid/Medi-Cal, or on the Suspended and Ineligible Provider List, may not participate in the MCP's provider network.
- History of sanctions or limitations on the provider's license issued by any state agencies or licensing boards.

MCPs are required to credential all contracted providers that render services to assigned members, whether the providers have a state-level FFS enrollment pathway or not, in accordance with state and federal law.

Attestations

For all network providers types who deliver Medi-Cal covered medical services, the provider's application to contract with the MCP must include a signed and dated statement attesting to all the following:

- Any limitations or inabilities that affect the provider's ability to perform any of the position's essential functions, with or without accommodation.
- A history of loss of license or felony conviction.
- A history of loss or limitation of privileges or disciplinary activity.
- A lack of present illegal drug use.
- The application's accuracy and completeness.[45]

Provider Recredentialing

DHCS requires each MCP to verify every three years that each network provider delivering medical services continues to possess valid credentials. MCPs must review new applications from providers and verify the items listed under the Provider Credentialing section of this APL, in the same manner, as applicable. Recredentialing must include documentation that the MCP has considered information from other sources pertinent to the credentialing process, such as quality improvement activities, member grievances, and medical record reviews. The recredentialing application must include the same attestation as contained in the provider's initial application.

MCPs must maintain a system for reporting to the appropriate oversight entities all serious quality deficiencies that result in the suspension or termination of a network provider. MCPs must maintain policies and procedures for disciplinary actions, including

[44] National Practitioner Data Bank is available at: https://www.npdb.hrsa.gov/
[45] For more information, see Policy Letter (PL) 02-003, or any future iterations of this PL. PLs are available at: https://www.dhcs.ca.gov/formsandpubs/Pages/PolicyLetters.aspx

Back to Agenda

reduction, suspension, or termination of a provider's privileges, and must implement and maintain a provider appeal process.

MCPs must also conduct onsite reviews of their network provider sites.[46] MCPs must perform site reviews as part of each provider's initial credentialing process when both the site and provider have been added to the MCP's provider network; thereby, both the site review and credentialing requirements can be completed at the same time. A new site review is not required when new providers join an approved site within three years of the site's previous passing review.

Delegation of Provider Credentialing and Recredentialing

MCPs may delegate their authority to perform credentialing reviews to a professional credentialing verification organization. The MCP remains contractually responsible for the completeness and accuracy of these activities. If an MCP delegates credential verification activities, it should establish a formal and detailed agreement with the entity performing those activities. These agreements must be revised when the parties change the agreement's terms and conditions. To ensure accountability for these activities, the MCP must establish a system that:

- Evaluates the subcontractor's ability to perform delegated activities that includes an initial review to assure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities.
- Ensures that the subcontractor meets MCP and DHCS standards.
- Continuously monitors, evaluates, and approves the delegated functions.

Entities such as medical groups or independent physician organizations may conduct delegated credentialing activities and may obtain a Provider Organization Certification (POC) from the National Committee on Quality Assurance (NCQA) at their discretion. The POC focuses on the entity's role as the agent performing the credentialing functions on behalf of an MCP. The MCP may accept evidence of NCQA POC in lieu of a monitoring site visit at delegated physician organizations. If an MCP delegates credential verification activities, it should establish a formal and detailed written agreement with that entity. Such agreements need not be revised until the parties to the agreement change the agreement's terms and conditions.

Health Plan Accreditation

MCPs that receive a rating of "excellent," "commendable," or "accredited" from the NCQA will be deemed to have met DHCS' requirements for credentialing. Such MCPs will be exempt from DHCS' medical review audit of credentialing practices. However, MCPs retain overall responsibility for ensuring that credentialing requirements are met.

[46] For more information, see PL 14-004, and any future iterations of this PL.

Credentialing accreditation from entities other than the NCQA will be considered by DHCS upon request.

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations and other contract requirements as well as DHCS guidance, including applicable APLs, PLs and Dual Plan Letters. These requirements must be communicated by each MCP to all delegated entities and subcontractors. For questions regarding this APL, please contact your MCOD contract manager.

Sincerely,

Attachment A
Provider Types and Categories of Risk[47]

(1) Limited Risk Provider Types. Physician or non-physician practitioners and medical groups or clinics:

- Ambulatory Surgical Centers (ASCs)
- End-Stage Renal Disease (ESRD) facilities
- Federally Qualified Health Centers (FQHCs)
- Histocompatibility laboratories
- Hospitals, including Critical Access Hospitals (CAHs)
- Indian Health Service (IHS) facilities
- Mammography screening centers
- Mass immunization roster billers
- Organ Procurement Organizations (OPOs)
- Portable x-ray suppliers
- Providers or suppliers that are publicly traded on the New York Stock Exchange (NYSE) or the NASDAQ
- Public or Government-Owned Ambulance Services Suppliers
- Religious Nonmedical Health Care Institutions (RNHCIs)
- Rural Health Clinics (RHCs)
- Radiation therapy centers
- Skilled Nursing Facilities (SNFs)

(2) Moderate Risk Provider Types. Provider and supplier categories:

- Community mental health centers
- Comprehensive outpatient rehabilitation facilities
- Currently enrolled (re-validating) home health agencies
  - Exception: Any such provider that is publicly traded on the NYSE or the NASDAQ is considered "limited" risk
- Currently enrolled (re-validating) suppliers of Durable Medical Equipment, Prosthetics, Orthotics, or Supplies (DMEPOS)
  - Exception: Any such supplier that is publicly traded on the NYSE or NASDAQ is considered "limited" risk
- Hospice organizations
- Independent clinical laboratories
- Independent diagnostic testing facilities
- Non-public, non-government owned or affiliated ambulance services suppliers
  - Exception: Any such provider or supplier that is publicly traded on the NYSE or NASDAQ is considered "limited" risk.

(3) High Risk Provider Types. Characteristics and provider types:

- Prospective (newly enrolling) home health agencies and prospective (newly enrolling) suppliers of DMEPOS
- Providers prevented from applying for enrollment due to a moratorium and the moratorium was lifted in the past six months
- Diabetes Prevention Program (DPP) providers

Back to Agenda

Attachment B
Managed Care Provider Enrollment Disclosure

Background

Beginning January 1, 2018, federal law requires that managed care providers that have a state-level FFS enrollment pathway must enroll in the Medi-Cal program if they wish to provide services to Medi-Cal managed care beneficiaries. Managed care providers have two options for enrolling with the Medi-Cal program. Providers may enroll through either (1) DHCS; or (2) an MCP. If a provider enrolls through DHCS, the provider is eligible to provide services to Medi-Cal FFS beneficiaries and contract with MCPs. If the provider enrolls through an MCP, the provider may only provide services to Medi-Cal managed care beneficiaries and may not provide services to Medi-Cal FFS beneficiaries.

Generally, federal and state laws and regulations that apply to fee-for-service (FFS) providers will also apply to the enrollment process for managed care providers. Regardless of the enrollment option a provider chooses, the provider is required to enter into two separate agreements: (1) the Network Provider Agreement and (2) the Medi-Cal Provider Agreement. The Network Provider Agreement is the contract between an MCP and a provider defining their contractual relationship. The Medi-Cal Provider Agreement is the agreement between DHCS and the provider and is required for all providers enrolled in the Medi-Cal program.

Enrollment Options

A. **Enrollment through an MCP.** The following provides an overview of the MCP enrollment process:

- The provider will submit a provider enrollment application to the MCP using a process developed by the MCP.
- As part of the application process, the provider will be required to agree that DHCS and the MCP may share information relating to a provider's application and eligibility, including but not limited to issues related to program integrity.
- The MCP will be responsible for gathering all necessary documents and information associated with the MCP application.
- The provider should direct any questions it has regarding its MCP application to the MCP.
- If the provider's application requires fingerprinting, criminal background checks, and/or the denial or termination of enrollment, these functions will be performed by DHCS and the results shared with the MCP.
- While the MCP enrollment process will be substantially similar to the DHCS enrollment process, timelines relating to the processing of the enrollment

Back to Agenda

application may differ. In addition, MCPs will not have the ability to grant provisional provider status nor to authorize FFS reimbursement.
- Providers will not have the right to appeal an MCP's decision to cease the enrollment process
- The MCP will complete the enrollment process within 120 days of the provider's submission of its application. During this time, the provider may participate in the MCP's network for up to 120 days, pending approval from the MCP.
- Once the enrolling MCP places a provider on the Enrolled Provider List, the provider is eligible to contract with all MCPs. However, an MCP is not required to contract with an enrolled provider.
- Only DHCS is authorized to deny or terminate a provider's enrollment in the Medi-Cal program.
- Accordingly, if the MCP receives any information that impacts the provider's enrollment, the MCP will suspend processing the provider's enrollment application and refer the provider to DHCS' PED for enrollment where the application process will start over again.
- In order for the provider to participate in the Medi-Cal FFS program, the provider must first enroll through DHCS.

B. Enrollment through DHCS. The following provides information on DHCS' enrollment process:

- DHCS' Provider Enrollment page and the Provider Enrollment information on DHCS' website will be updated to reflect that PED is no longer accepting paper applications for provider types supported in the Provider Application and Validation for Enrollment (PAVE) portal. There will be links per provider type that will guide applicants to PAVE. For those provider not yet fully migrated into PAVE, the provider will use DHCS' standardized application form(s) when applying for participation in the Medi-Cal program until such time that the application is migrated into PAVE processing.[48]
- Federal and state laws and regulations that apply to FFS providers will apply to the enrollment process for managed care providers.
- Upon successful enrollment through DHCS, the provider will be eligible to contract with MCPs and provide services to FFS beneficiaries.

There may be other important aspects of the enrollment process that are not set forth in this information bulletin. Please check the DHCS website for provider enrollment updates. Providers should consult with their own legal counsel before determining which enrollment process best suit its needs and objectives.

Back to Agenda

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 1, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Actions Related to the Regulatory Requirement for Medi-Cal Provider Enrollment by the California Department of Health Care Services

Contact

Michelle Laughlin, Executive Director Network Operations, (714) 246-8400

Recommended Actions

Authorize the following actions related to the requirement that all contracted providers be enrolled in the Medi-Cal program through the Department of Health Care Services (DHCS) by January 1, 2019:

1. Authorize CalOptima to continue to contract with non-Medi-Cal enrolled providers through June 30, 2019, subject to CalOptima's receipt of proof that each such provider's application to the State to become enrolled in the Medi-Cal program was submitted to the DHCS prior to January 1, 2019; and
2. Authorize Letters of Agreement (LOA) with non-Medi-Cal enrolled specialist providers identified by the Chief Medical Officer through December 31, 2019 as required for access to services or continuity of care.

Background

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance Program (CHIP) regulations. The revised regulation included requirements that providers in Managed Care Plans (MCPs) including CalOptima be subject to the same provider enrollment and screening requirements as providers who participate in Medicaid State fee-for-service programs. Provider enrollment and screening is in addition to credentialing requirements and is meant to reduce the incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

On November 14, 2017, DHCS issued All Plan Letter (APL) 17-019, which specified MCP's responsibilities related to the screening and enrollment of all Medi-Cal network providers.

The contract between DHCS and CalOptima effective January 1, 2009, discontinued the requirement that providers be eligible for participation in the Medi-Cal Program. However, on October 7, 2010, the CalOptima Board of Directors approved the continuation of a policy which requires that providers furnishing services to CalOptima Medi-Cal members be enrolled with the State of California's Medi-Cal Program when an enrollment path with the State is available for the provider. In recognition that not all providers eligible to enroll with Medi-Cal would enroll, the Board also approved a policy allowing the Chief Medical Officer, or delegated providers in conjunction with the Chief Medical Officer, to make exceptions to this policy to satisfy access and continuity of care requirements in CalOptima's contract with DHCS.

Back to Agenda

Although the new state mandated enrollment and screening requirements were effective January 1, 2018, DHCS guidance clarified that non-enrolled providers contracted with the MCPs prior to this date, have until December 31, 2018 to complete the process. Presumably, providers not enrolled by his date are to be terminated as a MCP participating provider for Medi-Cal services. Staff continues to review provider data to determine the number of non-enrolled providers and the potential impact to the members who are in their care should these providers no longer be available in the future due to their non-enrolled status.

DHCS specifies that provider screening and enrollment can be accomplished in two ways. MCPs may direct providers to the Medi-Cal enrollment division of DHCS for screening and enrollment, or MCPs may develop and implement an internal screening and enrollment process that meets the requirements of the APL. Due to the numerous additional requirements associated with the enrollment and screening process and the expertise required to fulfill these requirements, CalOptima staff believes it is more appropriate to continue to depend on the State's process to assure providers are properly vetted for Medi-Cal participation rather than to develop a duplicative process that would, in any case, lack the breadth of potentially relevant information available to the State, but not necessarily available to CalOptima.

Staff continues to conduct extensive outreach efforts to encourage non-enrolled providers to seek enrollment in the Medi-Cal program and continued participation with CalOptima. The outreach efforts have been successful, and Staff has identified the addition of over 900 previously non-enrolled providers since April 2018.

However, because the State's Medi-Cal enrollment process can take up to 180 days to complete, it is unlikely that all of the approximately 1,200 CalOptima providers not currently enrolled will complete this process by the end of the calendar year. Staff has gathered information on non-enrolled providers currently serving CalOptima Medi-Cal beneficiaries, identifying the number, specialty and potential member impact of terminating provider contracts. In the event that the existing contracts of all 1,200 currently non-enrolled CalOptima Medi-Cal providers were terminated, the results would be significant, affecting over 26,0000 Members' PCP assignments and more than 10,000 Members who access specialty care. To mitigate this potential disruption to the provider network and assure member's continued access to care, Staff is requesting Board approval of the recommended actions.

Discussion

Staff recommends that providers who are not currently enrolled with Medi-Cal but can provide proof that their Medi-Cal provider enrollment application and all required information has been submitted to the State prior to January 1, 2019, continue as contracted CalOptima participating providers until such a time as DHCS renders a decision on that provider's Medi-Cal enrollment application, potentially through June 30, 2019. As noted above, the Medi-Cal enrollment process with the state may take up to 180 days. This is a concern shared by many health plans state wide, with many opting for a similar approach of attempting to minimize member care disruption while the state works through the backlog of provider Medi-Cal enrollment applications, while also working to comply with the prescribed timelines.

Back to Agenda

While the proposed approach of allowing additional time for the Medi-Cal enrollment process to be completed without reassigning Members from Providers with pending applications to those who have completed the DHCS Medi-Cal provider enrollment process potentially places CalOptima at risk for payment and for DHCS audit findings of CalOptima's non-compliance with the terms of the DHCS-CalOptima contract, as indicated, our understanding is that this is an approach being followed by numerous other plans to allow time for DHCS to work through the backlog of Medi-Cal provider enrollment applications.

Under the proposed approach, if any such provider is still not Medi-Cal enrolled by June 30, 2019, their contract with CalOptima will be not be extended thereafter. In addition, all non-enrolled PCPs will have their panels closed to new members until their Medi-Cal enrollment is complete. Should the provider still be in the enrollment process by June 30, 2019 (i.e., application submitted to the state on or before December 31, 2018, but state review process not having been finalized as of June 30, 2018), Staff will consider returning to the Board with further recommendations. This scenario would only be a possibility in the event that there were further delays in the state's enrollment process.

Apart from those providers who have indicated that they plan to submit their Medi-Cal enrollment applications on or before December 31, 2018, staff has identified members in care with non-enrolled providers who are required for access and may choose not to apply to enroll in Medi-Cal. The impact of terminating these providers could create barriers to access sensitive or highly specialized services and/or redirecting members to other providers may be disruptive to member care. Staff proposes to proactively pursue LOAs with these terminated providers to allow for uninterrupted access by Members for whom there is not a suitable alternative contracted provider at this time. DHCS has advised MCPs that MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis. COC requests would be processed in accordance with CalOptima's DHCS-approved policies on the topic. Staff plans to proactively identify members in care with non-enrolled providers required for access; subject to Board approval, Staff will enter into LOAs for members currently in care with these providers to enable members and providers to continue uninterrupted care as longer-term efforts are undertaken to ensure that, member care is being provided by Medi-Cal enrolled providers.

As indicated, implementation of these actions without DHCS approval could place potentially place CalOptima and other plans throughout the state at risk for any payments made to such non-Medi-Cal enrolled providers and may also result in audit findings from the State, the consequences of which may be corrective action plan(s) and/or sanctions. However, with a focus on ensuring member access to crucial healthcare services, staff recommends proceeding with the proposed approach.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Operating Budget, approved by the Board on June 7, 2018, includes forecasted professional medical expenses. The recommended actions to continue contracts with certain non-Medi-Cal enrolled providers through June 30, 2019, and issue to certain specialist providers are not projected to result in a material change to the budgeted medical expenses. Therefore, the recommended actions are budgeted items with no additional fiscal impact assuming the State takes

Back to Agenda

no actions related to payments made to non-enrolled providers and does not find CalOptima to be non-compliant and issue sanctions or take other related action(s).

Management will include revenue and expenses for the period of July 1, 2019, through December 31, 2019, related to the LOAs with certain specialist providers in future operating budgets.

Rationale for Recommendation

Continued access to providers in the process of being enrolled in Medi-Cal and services identified as crucial to avoid barriers in access to care will allow members to receive uninterrupted care notwithstanding the DHCS requirements that all providers enroll in the Medi-Cal program effective January 1, 2019.

Concurrence

Gary Crockett, Chief Counsel

ALL PLAN LETTER 17-019
SUPERSEDES ALL PLAN LETTER 16-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: PROVIDER CREDENTIALING / RECREDENTIALING AND SCREENING / ENROLLMENT

PURPOSE:
The purpose of this All Plan Letter (APL) is to inform Medi-Cal managed care health plans (MCPs) of their responsibilities related to the screening and enrollment of all network providers pursuant to the Centers for Medicare and Medicaid Services' (CMS) Medicaid and Children's Health Insurance Program Managed Care Final Rule (Final Rule), CMS-2390-F,[1] dated May 6, 2016. Additionally, this APL clarifies MCPs' contractual obligations related to credentialing and recredentialing as required in Title 42 Code of Federal Regulations (CFR), Section 438.214.[2] This APL supersedes APL 16-012.[3] The screening and enrollment responsibilities are located in Part: 1 and the credentialing and recredentialing responsibilities are located in Part: 2 of this APL.

All MCP network providers must enroll in the Medi-Cal Program. MCPs have the option to develop and implement a managed care provider screening and enrollment process that meets the requirements of this APL, or they may direct their network providers to enroll through the Department of Health Care Services (DHCS). MCPs electing to establish their own enrollment process are expected to have their infrastructure in place by January 1, 2018.

BACKGROUND:
On February 2, 2011, CMS issued rulemaking CMS-6028-FC[4] to enhance fee-for-service (FFS) provider enrollment screening requirements pursuant to the Affordable Care Act. The intent of Title 42 CFR, Part 455, Subparts B and E[5] was to reduce the

[1] CMS-2390-F is available at: https://www.gpo.gov/fdsys/pkg/FR-2016-05-06/pdf/2016-09581.pdf.

[3] APL 16-012 is available at: http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/APL2016/APL16-012.pdf
[4] CMS-6028-FC is available at: https://www.gpo.gov/fdsys/pkg/FR-2011-02-02/pdf/2011-1686.pdf
[5] Title 42 CFR, Part 455, Subparts B and E are available at: https://www.ecfr.gov/cgi-bin/text-idx?SID=3471319414e845a757a46ec42cde2b72&mc=true&node=pt42.4.455&rgn=div5

incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

In May 2016, CMS issued rulemaking CMS-2390-F, which extended the provider screening and enrollment requirements of 42 CFR, Part 455, Subparts B and E to MCP contracted providers (Title 42 CFR, Section 438.602(b)). These requirements are designed to reduce the number of providers who do not meet CMS provider enrollment requirements from participating in the MCPs' provider networks.

MCPs are required to maintain contracts with their network providers (Plan-Provider Agreement) and perform credentialing and recredentialing activities on an ongoing basis. However, prior to the Final Rule, the MCPs' network providers were not required to enroll in the Medi-Cal Program. Title 42 CFR, Section 438.602(b) now requires states to screen and enroll, and periodically revalidate, all network providers of managed care organizations, prepaid inpatient health plans, and prepaid ambulatory health plans, in accordance with the requirements of Title 42 CFR, Part 455, Subparts B and E. These requirements apply to both existing contracting network providers[6] as well as prospective network providers.

The Medi-Cal FFS delivery system currently enforces a statewide set of enrollment standards that the Medi-Cal managed care program and MCPs must now implement.[7] Although the implementation date for Title 42 CFR Section 438.602(b) is not scheduled until July 1, 2018, Section 5005(b)(2) of the 21st Century Cures Act (Cures Act),[8] requires managed care network provider enrollment to be implemented by January 1, 2018.

The MCPs' screening and enrollment requirements are separate and distinct from their credentialing and recredentialing processes. The credentialing and recredentialing process is one component of the comprehensive quality improvement system required in all MCP contracts.[9] Credentialing is defined as the recognition of professional or technical competence. The credentialing process may include registration, certification, licensure, and/or professional association membership. The credentialing process ensures that providers are properly licensed and certified as required by state and federal law.

[6] Exhibit E, Attachment 1 Definitions. The MCP Boilerplate contracts can be found at: http://www.dhcs.ca.gov/provgovpart/Pages/MMCDBoilerplateContracts.aspx
[7] State-specific Medi-Cal FFS provider enrollment requirements are contained in Title 22, CCR, Section 51000 through 51051, and Welfare & Institutions Code, Division 9, Part 3, Chapter 7 (commencing with Section 14043).
[8] 42 USC § 1396u-2 (d)(6)(A)
[9] Exhibit A, Attachment 4, Credentialing and Recredentialing.

POLICY:

Part 1: Medi-Cal Managed Care Screening and Enrollment Requirements

Available Enrollment Options

MCPs may screen and enroll network providers in a manner that is substantively equivalent to DHCS' provider enrollment process. However, MCPs may also rely on the enrollment and screening results conducted by DHCS or other MCPs. MCPs can access the California Health and Human Services' (CHHS) Open Data Portal[10] to obtain a list of currently enrolled Medi-Cal FFS providers. MCPs are required to issue network providers a "verification of enrollment" that MCPs can rely on to prevent enrollment duplication. MCPs may collaborate with each other to share provider screening and enrollment results.

Providers who enroll through the DHCS enrollment process may participate in both the Medi-Cal FFS program as well as contract with an MCP (provided the MCP chooses to contract with the provider). However, providers who only enroll through an MCP may not also participate in the Medi-Cal FFS program. Although DHCS does not require that managed care providers enroll as FFS providers, if a provider wishes to participate in, or receive reimbursement from, the Medi-Cal FFS program, the provider must enroll as a Medi-Cal FFS provider through DHCS.

MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis.

MCP Enrollment Processes

If the MCP elects to enroll a provider, the MCP must comply with the following processes:

General Requirements:

A. MCP Provider Application and Application Fee

MCPs are not required to use DHCS' provider enrollment forms. However, MCPs must ensure that they collect all the appropriate information, data elements, and supporting documentation required for each provider type.[11] In addition, MCPs must ensure that every network provider application they process is reviewed for both accuracy and

[10] The CHHS Open Data Portal can be found at: https://data.chhs.ca.gov/dataset/profile-of-enrolled-medi-cal-fee-for-service-ffs-providers-as-of-june-1-2017

[11] Applications packages by provider type can be found at the following: http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx. For associated definitions and provider types see Title 22 CCR 51000 – 51000.26 and 51051.

Back to Agenda

completeness. MCPs must ensure that all information specified in Title 22, California Code of Regulations (CCR), including but not limited to, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60, including all required submittals and attachments to the application package have been received. The MCP must obtain the provider's consent in order for DHCS and the MCP to share information relating to the provider's application and eligibility, including but not limited to issues related to program integrity.

MCPs may collect an application fee, established by CMS from unenrolled prospective network providers, to cover the administrative costs of processing a provider's screening and enrollment application. The MCP's application fee policy must be comparable to, and must not exceed, the state's application fee.[12] The application fee for calendar year 2017 is $560. Before collecting this fee, the MCP should be certain that the network provider is not already enrolled.

B. DHCS Provider Enrollment Agreement and Plan Provider Agreement

All Medi-Cal providers are required to enter into a provider enrollment agreement with the state (DHCS Provider Enrollment Agreement) as a condition of participating in the Medi-Cal Program pursuant to Section 1902(a)(27) of the Social Security Act and Section 14043.1 of the Welfare & Institutions Code. As part of the enrollment process, MCPs are responsible for ensuring that all successfully enrolled providers execute and sign the DHCS Provider Enrollment Agreement. This provider agreement is separate and distinct from the Plan Provider Agreement (see below). MCPs must maintain the original signed DHCS Provider Enrollment Agreement for each provider and must submit a copy to DHCS, CMS, and other appropriate agencies upon request. MCPs are responsible for maintaining all provider enrollment documentation in a secure manner and place that ensures the confidentiality of each provider's personal information. These enrollment records must be made available upon request to DHCS, CMS, or other authorized governmental agencies.

The agreement between the MCP and a provider (Plan Provider Agreement) is separate and distinct from the DHCS Provider Enrollment Agreement. Both the DHCS Provider Enrollment Agreement and the Plan Provider Agreement are required for MCP network providers. The DHCS Provider Enrollment Agreement does not expand or alter the MCP's existing rights or obligations relating to its Plan Provider Agreement.

C. Review of Ownership and Control Disclosure Information

As a requirement of enrollment, providers must disclose the information required by Title 42, CFR, Sections 455.104, 455.105, and 455.106, and Title 22, CCR, Section 51000.35. Providers who are unincorporated sole-proprietors are not required to

[12] Application Fee information is available at: http://www.dhcs.ca.gov/provgovpart/Pages/AppFeeChange2017.aspx

Back to Agenda

disclose the ownership or control information described in Title 42, CFR, Section 455.104. Providers that apply as a partnership, corporation, governmental entity, or nonprofit organization must disclose ownership or control information as required by Title 42, CFR, Section 455.104.

Full disclosure throughout the enrollment process is required for participation in the Medi-Cal Program. These disclosures must be provided when:

- A prospective provider submits the provider enrollment application.
- A provider executes the DHCS Provider Enrollment Agreement.
- A provider responds to an MCP's request during the enrollment re-validation process.
- Within 35 days of any change in ownership of the network provider.

Upon MCP request, a network provider must submit within 35 days:

- Full and complete information about the ownership of any subcontractor with whom the network provider has had business transactions totaling more than $25,000 during the 12-month period ending on the date of the request; and,
- Any significant business transactions between the network provider and any wholly owned supplier, or between the provider and any subcontractor, during the five-year period ending on the date of the request.[13]

Additionally, MCPs must comply with the requirements contained in Title 22, CCR, Section 51000.35, Disclosure Requirements. MCPs are not required to utilize the DHCS disclosure forms (DHCS 6207 and 6216[14]); however, MCPs must collect all information and documentation required by Title 22, CCR, Section 51000.35.

D. "Limited," "Moderate," "High" Risk Assignment

MCPs must screen initial provider applications, including applications for a new practice location, and any applications received in response to a network provider's reenrollment or revalidation request to determine the provider's categorical risk level as "limited," "moderate," or "high." If a provider fits within more than one risk level, the MCP must screen the provider at the highest risk level.

The federal requirements for screening requirements and for MCPs to stratify their network providers by risk level are set forth in Attachment 1 to this APL. These federal requirements list provider types considered as limited risk, moderate risk, and high risk, and define the screening requirements for each level of risk. A provider's designated risk level is also affected by findings of license verification, site reviews, checks of suspended and terminated provider lists, and criminal background checks. MCPs are

[13] 42 CFR 455.105(b)
[14] DHCS Forms 6207 and 6216 are available at: http://files.medi-cal.ca.gov/pubsdoco/prov_enroll.asp

Back to Agenda

not able to enroll a provider who fails to comply with the screening criteria for that provider's assigned level of risk.

Providers are subject to screening based on verification of the following requirements:

Limited-Risk Providers:

- Meet state and federal requirements.
- Hold a license certified for practice in the state and has no limitations from other states.
- Have no suspensions or terminations on state and federal databases.

Medium-Risk Providers:

- Screening requirements of limited-risk providers.
- Pre-enrollment and post-enrollment onsite visits to verify that the information submitted to the MCP and DHCS is accurate, and to determine compliance with state and federal enrollment requirements.

High-Risk Providers:

- Screening requirements of medium-risk providers.
- Criminal background checks based in part on a set of fingerprints.

The MCP and DHCS will adjust the categorical risk level when any of the following circumstances occur:

- The state imposes a payment suspension on a provider based on a credible allegation(s) of fraud, waste, or abuse.
- The provider has an existing Medicaid overpayment based on fraud, waste, or abuse.
- The provider has been excluded by the Office of Inspector General or another state's Medicaid program within the previous ten years, or when a state or federal moratorium on a provider type has been lifted.

DHCS will provide the information necessary to determine provider risk level to MCPs on a regular basis. MCPs may also obtain this information upon request from their DHCS Managed Care Operations Division (MCOD) contract manager.

E. Additional Criteria for High Risk Providers - Fingerprinting and Criminal Background Check

High-risk providers are subject to criminal background checks, including fingerprinting and the screening requirements for medium-risk providers. Regardless of whether a high-risk provider has undergone fingerprinting in the past, the requirement to submit to a criminal background check and fingerprinting remains the same. Any person with a

Back to Agenda

5% or more direct or indirect ownership in a high-risk applicant must submit to a criminal background check.[15] In addition, information discovered in the process of onsite reviews or data analysis may lead to a request for fingerprinting and criminal background checks for applicants.

DHCS will coordinate all criminal background checks. DHCS will make a pre-filled Live Scan form available to all MCPs to distribute to providers. When fingerprinting is required, MCPs must furnish the provider with the Live Scan form and instructions on where to deliver the completed form. It is critical that MCPs distribute the designated Live Scan form as this ensures the criminal history check results are forwarded directly to DHCS. The provider is responsible for paying for any Live Scan processing fees. MCPs must notify DHCS upon initiation of each criminal background check for a provider that has been designated as high risk. DHCS will provide notification of the Live Scan results directly to the MCP. The MCP must maintain the security and confidentiality of all of the information it receives from DHCS relating to the provider's high-risk designation and the results of criminal background checks.

F. Site Visits

MCPs must conduct pre- and post-enrollment site visits of medium-risk and high-risk providers to verify that the information submitted to the MCP and DHCS is accurate, and to determine the applicant's compliance with state and federal enrollment requirements, including but not limited to, Title 22, CCR, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60. In addition, all providers enrolled in the Medi-Cal Program, including providers enrolled through MCPs,[16] are subject to unannounced onsite inspections at all provider locations.

Onsite visits may be conducted for many reasons including, but not limited to, the following:

- The provider was temporarily suspended from the Medi-Cal Program.
- The provider's license was previously suspended.
- There is conflicting information in the provider's enrollment application.
- There is conflicting information in the provider's supporting enrollment documentation.
- As part of the provider enrollment process, the MCP receives information that raises a suspicion of fraud.

[15] Welfare and Institutions Code 14043.38(c)(2)
[16] 42 CFR 455.432

Back to Agenda

G. Federal and State Database Checks

During the provider enrollment process, MCPs are required to check the following databases to verify the identity and determine the exclusion status of all providers:

- Social Security Administration's Death Master File.[17]
- National Plan and Provider Enumeration System (NPPES).[18]
- List of Excluded Individuals/Entities (LEIE).[19]
- System for Award Management (SAM).[20]
- CMS' Medicare Exclusion Database (MED).[21]
- DHCS' Suspended and Ineligible Provider List.[22]

H. Denial or Termination of Enrollment/Appeal Process

MCPs may enroll providers to participate in the Medi-Cal Managed Care Program. However, if the MCP declines to enroll a provider, it must refer the provider to DHCS for further enrollment options. If the MCP acquires information, either before or after enrollment, that may impact the provider's eligibility to participate in the Medi-Cal Program, or a provider refuses to submit to the required screening activities,[23] the MCP may decline to accept that provider's application. However, only DHCS can deny or terminate a provider's enrollment in the Medi-Cal Program.

If at any time the MCP determines that it does not want to contract with a prospective provider, and/or that the prospective provider will not meet enrollment requirements, the MCP must immediately suspend the enrollment process. The MCP must inform the prospective provider that he/she may seek enrollment through DHCS.[24]

MCPs are not obligated to establish an appeal process for screening and enrollment decisions. Providers may only appeal a suspension or termination to DHCS when the suspension or termination occurs as part of DHCS' denial of the Medi-Cal FFS enrollment application.[25]

I. Provider Enrollment Disclosure

At the time of application, MCPs must inform their network providers, as well as any providers seeking to enroll with an MCP, of the differences between the MCP's and

[25] 42 CFR 455.422

Back to Agenda

DHCS' provider enrollment processes, including the provider's right to enroll through DHCS.

DHCS has provided a disclosure statement (Attachment 2), which MCPs may use to advise providers. MCPs are not required to use this exact form, but any disclosure used must contain, at a minimum, the same information contained in Attachment 2. DHCS may periodically require MCPs to provide additional disclosures to providers relating to differences in the enrollment processes.

The provider enrollment disclosure must include, but is not limited to, the following elements:

- A statement that certain enrollment functions will not be performed by the MCP, but will continue to be performed by DHCS, including fingerprinting, criminal background checks, and decisions to deny or terminate enrollment.
- Notice that some of the enrollment requirements and rights found in the state enrollment process may not be applicable when a provider chooses to enroll through an MCP, including provisional provider status with Medi-Cal FFS, processing timelines of the enrollment application, and the ability to appeal an MCP's decision to suspend the enrollment process.
- A provision informing the provider that if the MCP receives any information that impacts the provider's eligibility for enrollment, the MCP will suspend processing of the provider's enrollment application and make the provider aware of the option to apply through the DHCS' Medi-Cal FFS provider enrollment process.
- A statement clarifying that in order for the provider to participate in the Medi-Cal FFS Program, the provider must enroll through DHCS, and that enrolling through DHCS will also make the provider eligible to contract with the MCP.

J. Post Enrollment Activities

Revalidation of Enrollment

To ensure that all enrollment information is accurate and up-to-date, all providers must resubmit and recertify the accuracy of their enrollment information as part of the revalidation process. MCPs may align revalidation efforts with their recredentialing efforts to reduce duplication of activities. MCPs must revalidate the enrollment of each of their limited-risk and medium-risk network providers at least every five years,[26] and their high-risk network providers every three years. MCPs are not required to revalidate providers that were enrolled through DHCS or revalidated by another MCP.

[26] 42 CFR 455.414

Data Base Checks
MCPs must review the SAM and LEIE databases on a monthly basis. All other databases must be reviewed upon a provider's reenrollment to ensure that the provider continues to meet enrollment criteria. Each MCP network provider must maintain good standing in the Medicare and Medicaid/Medi-Cal Programs; any provider terminated from the Medicare or Medicaid/Medi-Cal Program may not participate in the MCP's provider network.

Retention of Documents
MCPs are required to retain all provider screening and enrollment materials and documents for ten years.[27] Additionally, MCPs must make all screening and enrollment documents and materials promptly available to DHCS, CMS, and any other authorized governmental entities upon request.

K. Miscellaneous Requirements

Timeframes
Within 120 days of receipt of a provider application, the MCP must complete the enrollment process and provide the applicant with a written determination. MCPs may allow providers to participate in their network for up to 120 days, pending the outcome of the screening process, in accordance with Title 42, CFR, Section 438.602(b)(2).

Delegation of Screening and Enrollment
MCPs may delegate their authority to perform screening and enrollment activities to a subcontractor. When doing so, the MCP remains contractually responsible for the completeness and accuracy of the screening and enrollment activities. To ensure that the subcontractor meets both the MCP's and DHCS' standards, the delegating MCP must evaluate the subcontractor's ability to perform these activities, including an initial review to ensure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities. The MCP must continuously monitor, evaluate, and approve the delegated functions.

Part 2: Medi-Cal Managed Care Credentialing and Recredentialing Requirements

MCPs must ensure that each of its network providers is qualified in accordance with current legal, professional, and technical standards, and is appropriately licensed, certified, or registered. MCPs must implement the provider credentialing and recredentialing policy described below by developing and maintaining written policies and procedures that include initial credentialing, recredentialing, recertification, and reappointment of their network providers. Each MCP must ensure that its governing

[27] 42 CFR 438.3(u)

body, or the designee of its governing body, reviews and approves these policies and procedures, and must ensure that the responsibility for recommendations regarding credentialing decisions rest with a credentialing committee or other peer-review body.

Some screening and enrollment requirements overlap with credentialing and recredentialing requirements. Any such overlap does not require an MCP to duplicate any of the activities described in this APL. However, if an MCP relies on the screening and enrollment activities conducted by another MCP, or by DHCS, the MCP must comply with all credentialing and recredentialing requirements described in this APL.

Provider Credentialing

MCPs are required to verify the credentials of their contracted medical providers, and to verify the following items, as required for the particular provider type, through a primary source,[28] as applicable:[29]

- The appropriate license and/or board certification or registration.
- Evidence of graduation or completion of any required education.
- Proof of completion of any relevant medical residency and/or specialty training.
- Satisfaction of any applicable continuing education requirements.

MCPs must also receive the following information from every network provider, but do not need to verify this information through a primary source:

- Work history.
- Hospital and clinic privileges in good standing.
- History of any suspension or curtailment of hospital and clinic privileges.
- Current Drug Enforcement Administration identification number.
- National Provider Identifier number.
- Current malpractice insurance in an adequate amount, as required for the particular provider type.
- History of liability claims against the provider.
- Provider information, if any, entered in the National Practitioner Data Bank, when applicable.[30]

[28] "Primary source" refers to an entity, such as a state licensing agency, with legal responsibility for originating a document and ensuring the accuracy of the document's information.
[29] The listed requirements are not applicable to all provider types. When applicable to the provider's designation, the information must be obtained.
[30] National Practitioner Data Bank is available at: https://www.ncsbn.org/418.htm.

- History of sanctions from participating in Medicare and/or Medicaid/Medi-Cal. Providers terminated from either Medicare or Medicaid/Medi-Cal, or on the Suspended and Ineligible Provider List may not participate in the MCP's provider network.[31]
- History of sanctions or limitations on the provider's license issued by any state agencies or licensing boards.

Attestations

For all medical service provider types who deliver Medi-Cal-covered medical services, the provider's application to contract with the MCP must include a signed and dated statement attesting to all the following:

- Any limitations or inabilities that affect the provider's ability to perform any of the position's essential functions, with or without accommodation.
- A history of loss of license or felony conviction.
- A history of loss or limitation of privileges or disciplinary activity.
- A lack of present illegal drug use.
- The application's accuracy and completeness.[32]

Provider Recredentialing

DHCS requires each MCP to verify every three years that each network provider delivering medical services continues to possess valid credentials. MCPs must review new applications from providers and verify the items listed under the Provider Credentialing section of this APL, in the same manner, as applicable. Recredentialing must include documentation that the MCP has considered information from other sources pertinent to the credentialing process, such as quality improvement activities, member grievances, and medical record reviews. The recredentialing application must include the same attestation as contained in the provider's initial application.

MCPs must maintain a system for reporting to the appropriate oversight entities serious quality deficiencies that result in suspension or termination of a network provider. MCPs must maintain policies and procedures for disciplinary actions, including reduction, suspension, or termination of a provider's privileges, and must implement and maintain a provider appeal process.

MCPs must also conduct onsite reviews of their network provider sites. For detailed guidance, see Policy Letter (PL) 14-004, Site Reviews, Facility Site Review and Medical

[31] The Suspended and Ineligible Provider List is available at: http://files.medi-cal.ca.gov/pubsdoco/SandILanding.asp.

[32] These limited statements comply with requirements of the Americans with Disabilities Act (ADA), as discussed in the attached PL 02-03. The ADA Attachment is available at (pg. 7): http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2002/MMCDPL02003.pdf.

Back to Agenda

Record Review,[33] and any subsequent revisions to this PL. MCPs must perform site reviews as part of each provider's initial credentialing process when both the site and provider have been added to the MCP's provider network; thereby, both the site review and credentialing requirements can be completed at the same time. A new site review is not required when new providers join an approved site within three years of the site's previous passing review.

Delegation of Provider Credentialing and Recredentialing

MCPs may delegate their authority to perform credentialing reviews to a professional credentialing verification organization; nonetheless, the MCP remains contractually responsible for the completeness and accuracy of these activities. If an MCP delegates credential verification activities, it should establish a formal and detailed agreement with the entity performing those activities. These agreements must be revised when the parties change the agreement's terms and conditions. To ensure accountability for these activities, the MCP must establish a system that:

- Evaluates the subcontractor's ability to perform delegated activities that includes an initial review to assure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities.
- Ensures that the subcontractor meets MCP and DHCS standards.
- Continuously monitors, evaluates, and approves the delegated functions.

Entities such as medical groups or independent physician organizations may conduct delegated credentialing activities and may obtain a Provider Organization Certification (POC) from the National Committee on Quality Assurance (NCQA) at their discretion. The POC focuses on the entity's role as the agent performing the credentialing functions on behalf of an MCP. The MCP may accept evidence of NCQA POC in lieu of a monitoring site visit at delegated physician organizations. If an MCP delegates credential verification activities, it should establish a formal and detailed written agreement with that entity. Such agreements need not be revised until the parties to the agreement change the agreement's terms and conditions.

Health Plan Accreditation

MCPs that receive a rating of "excellent," "commendable," or "accredited" from the NCQA will be deemed to have met DHCS' requirements for credentialing. Such MCPs will be exempt from DHCS' medical review audit of credentialing practices. MCPs; however, retain overall responsibility for ensuring that credentialing requirements are met. Credentialing accreditation from entities other than the NCQA will be considered by DHCS upon request.

[33] Policy Letter 14-004 is available at: http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2014/PL14-004.pdf

Back to Agenda

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations and other contract requirements as well as DHCS guidance, including applicable APLs, PLs and Dual Plan Letters. For questions regarding this APL, please contact your MCOD contract manager.

Sincerely,

Original signed by Nathan Nau

Attachment 1: Provider Types and Categories of Risk[34]/Screening Requirements

(1) Limited Risk Provider Types. Physician or non-physician practitioners and medical groups or clinics:

- Ambulatory Surgical Centers (ASCs)
- End-Stage Renal Disease (ESRD) facilities
- Federally Qualified Health Centers (FQHCs)
- Histocompatibility laboratories
- Hospitals, including Critical Access Hospitals (CAHs)
- Indian Health Service (IHS) facilities
- Mammography screening centers
- Mass immunization roster billers
- Organ Procurement Organizations (OPOs)
- Portable x-ray suppliers
- Providers or suppliers that are publicly traded on the New York Stock Exchange (NYSE) or NASDAQ
- Public or Government-Owned Ambulance Services Suppliers
- Religious Nonmedical Health Care Institutions (RNHCIs)
- Rural Health Clinics (RHCs)
- Radiation therapy centers
- Skilled Nursing Facilities (SNFs)

(2) Moderate Risk Provider Types. Provider and supplier categories:

- Community mental health centers
- Comprehensive outpatient rehabilitation facilities
- Currently enrolled (re-validating) home health agencies
  - Exception: Any such provider that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Currently enrolled (re-validating) suppliers of Durable Medical Equipment, Prosthetics, Orthotics, or Supplies (DMEPOS)
  - Exception: Any such supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Hospice organizations
- Independent clinical laboratories
- Independent diagnostic testing facilities

[34] CMS-6028-FC Tables 1–3. Federal Register / Vol. 76, No. 22 / February 2, 2011 / Rules and Regulations

Back to Agenda

- Non-public, non-government owned or affiliated ambulance services suppliers
    - Exception: Any such provider or supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.

(3) High Risk Provider Types. Prospective (newly enrolling) home health agencies and prospective (newly enrolling) suppliers of DMEPOS.

Back to Agenda

Attachment 2: Managed Care Provider Enrollment Disclosure

Background

Beginning January 1, 2018, federal law requires that all managed care network providers must enroll in the Medi-Cal Program if they wish to provide services to Medi-Cal managed care beneficiaries. Managed care providers have two options for enrolling with the Medi-Cal Program. Providers may enroll through (1) DHCS; or (2) an MCP. If a provider enrolls through DHCS, the provider is eligible to provide services to Medi-Cal FFS beneficiaries and contract with MCPs. If the provider enrolls through an MCP, the provider may only provide services to Medi-Cal managed care beneficiaries and may not provide services to Medi-Cal FFS beneficiaries.

Generally, federal and state laws and regulations that apply to fee-for-service (FFS) providers will also apply to the enrollment process for managed care providers. Regardless of the enrollment option a provider chooses, the provider is required to enter into two separate agreements - the "Plan Provider Agreement" and the "DHCS Provider Enrollment Agreement." The Plan Provider Agreement is the contract between an MCP and a provider defining their contractual relationship. The DHCS Provider Enrollment Agreement is the agreement between DHCS and the provider and is required for all providers enrolled in the Medi-Cal program.

Enrollment Options

A. Enrollment through an MCP. The following provides an overview of the MCP enrollment process:

- The provider will submit a provider enrollment application to the MCP using a process developed by the MCP.
- As part of the application process, the provider will be required to agree that DHCS and the MCP may share information relating to a provider's application and eligibility, including but not limited to issues related to program integrity.
- The MCP will be responsible for gathering all necessary documents and information associated with the MCP application.
- The provider should direct any questions it has regarding its MCP application to the MCP.
- If the provider's application requires fingerprinting, criminal background checks, and/or the denial or termination of enrollment, these functions will be performed by DHCS and the results shared with the MCP.
- While the MCP enrollment process will be substantially similar to the DHCS enrollment process, timelines relating to the processing of the enrollment

Back to Agenda

application may differ. In addition, MCPs will not have the ability to grant provisional provider status nor to authorize FFS reimbursement.

- Providers will not have the right to appeal an MCP's decision to cease the enrollment process.
- The MCP will complete the enrollment process within 120 days of the provider's submission of its application. During this time, the provider may participate in the MCP's network for up to 120 days, pending approval from the MCP.
- Once the enrolling MCP places a provider on the Enrolled Provider List, the provider is eligible to contract with all MCPs. However, an MCP is not required to contract with an enrolled provider.
- Only DHCS is authorized to deny or terminate a provider's enrollment in the Medi-Cal program.
- Accordingly, if the MCP receives any information that impacts the provider's enrollment, the MCP will suspend processing the provider's enrollment application and refer the provider to DHCS' FFS Provider Enrollment Division (PED) for enrollment where the application process will start over again.
- In order for the provider to participate in the Medi-Cal FFS program, the provider must first enroll through DHCS.

B. Enrollment through DHCS.

- The provider will use DHCS' standardized application form(s) when applying for participation in the Medi-Cal program. (See http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx)
- Federal and state laws and regulations that apply to FFS providers will apply to the enrollment process for managed care providers.
- Upon successful enrollment through DHCS, the provider will be eligible to contract with MCPs and provide services to FFS beneficiaries.

There may be other important aspects of the enrollment process that are not set forth in this information bulletin. Please check the DHCS website for provider enrollment updates. Providers should consult with their own legal counsel before determining which enrollment process best suit its needs and objectives.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 7, 2010
Regular Meeting of the CalOptima Board of Directors

Report Item

VI. C. Authorize Revisions to Credentialing and Provider Participation Requirements in CalOptima's Medi-Cal Program

Contact

Gertrude S. Carter, M.D., Chief Medical Officer, (714) 246-8400
Greg Buchert, M.D., MPH, Chief Operating Officer, (714) 246-8400

Recommended Actions

1. Approve policy continuing the requirement that providers furnishing services to CalOptima Medi-Cal members be enrolled in the State of California Medi-Cal Program when enrollment is available for that type of provider;
2. Approve an exception to that Policy for providers outside of Orange, Los Angeles, San Bernardino, Riverside and San Diego Counties;
3. Approve policy that the Chief Medical Officer or delegate, and delegated providers have the ability to make exceptions to the policy identified in Recommended Action No. 1 to satisfy access and continuity of care requirements in CalOptima's contract with the California Department of Health Care Services (DHCS);
4. Approve policy that providers credentialed by CalOptima or its delegated providers that furnish services, goods or supplies to Healthy Families or OneCare members are encouraged, but not required to, enroll in the State of California Medi-Cal program;
5. Eliminate the Minimum Practitioner Standards (MPS) Policy and requirement for applicable physicians to complete the MPS form prior to credentialing; and,
6. Approve changes to CalOptima's policies to reflect the changes made in this CalOptima Board Action Agenda Referral.

Background

CalOptima contracts directly with providers, or with delegated entities to arrange for providers, to render services to its members. For CalOptima's Healthy Families and OneCare programs, the providers' qualifications are evaluated by standardized credentialing processes that are consistent with NCQA standards and if deemed qualified, can provide services and bill for those services. CalOptima requires the California Department of Health Care Services (DHCS) statutory process related to authorized categories of persons and entities that provide services, goods, and supplies to Medi-Cal recipients. The State process is intended to ensure that provider practices are consistent with sound fiscal and business practices and do not result in unnecessary cost to the State Medi-Cal program and that the State/CalOptima do not have to reimburse the State or CMS for ineligible providers. The State also requires that a provider meet federal disclosure requirements including, without limitation, those related to the provider's licensure, control and ownership interests, and health care program participation status. In reviewing

Back to Agenda

provider applications, the State has the authority to conduct unannounced visits, pre-enrollment inspections, background checks and access government resources related to convictions, pending investigations and the status of debts and penalties, if any, owed to government entities.

The State has also established enrollment moratoriums related to specific provider types throughout the State or within specific counties in order to "safeguard public funds and maintain the fiscal integrity of the Medi-Cal program." For example, the State has a moratorium on enrollment of durable medical equipment suppliers (with exceptions) that expressly includes Orange, Los Angeles, Riverside and San Bernardino Counties. Significantly, the State provider enrollment laws incorporate the State's right to summarily deny or suspend a provider's enrollment status, for example, where there are pending allegations of fraud or abuse or investigations related to same.

Prior to January 1, 2009, CalOptima's State Medi-Cal contract with the DHCS required that "each provider who delivers Covered Services to Members shall *be eligible* for participation in the Medi-Cal program and shall meet applicable requirements established under Titles XVIII and XIX of the Social services Act unless exempted from these provisions." The State's enrollment process may take as long as twelve months for a provider to receive acknowledgement of enrollment. While most providers complied with this requirement, some providers discontinued attempting to be paid for services rendered or refused to provide future services to CalOptima members.

In addition to standard credentialing requirements for all providers and the supplemental Medi-Cal enrollment procedure for providers in certain CalOptima medical delivery systems, CalOptima initiated a requirement for providers to supply additional information in order to be paid by CalOptima – the Minimum Practitioner Standards (MPS) form based on the CalOptima Board-approved policy. This policy was adopted in part to allow for a contracted COD network and to provide a basis of denying provider participation without the necessity of a formal statutorily-required hearing for providers who could not meet the standards. All questions of this seven question form request identical information that is included on credentialing applications. Eliminating the MPS form may result in the CalOptima having to file a notice to the Medical Board of California (an "805" report) for COD or Hospital Risk providers in the Medi-Cal program for which CalOptima takes certain actions based on a medical or disciplinary cause or reason. This requirement already exists for PHCs, HMOs, and SRGs in the CalOptima Healthy Families and OneCare programs.

CalOptima entered into a new State Medi-Cal contract with DHCS on January 1, 2009. The contract *no longer* includes language requiring "each provider who delivers Covered Services to Members shall be eligible for participation in the Medi-Cal program and shall meet applicable requirements established under Titles XVIII and XIX of the Social Services Act unless exempted from these provisions." The new 2009 State Medi-Cal contract also includes the following language: "Nothing in this provision shall be construed to require that subcontracting providers be enrolled as a Medi-Cal provider." The new State Medi-Cal contract does incorporate a

Back to Agenda

Prepaid Health Plan statute which expressly prohibits contracts between DHCS and PHPs "unless the providers and the facilities of the prepaid health plan meet the Medi-Cal program standards for participation as established by the director." Based on the contract language and communications with the State, CalOptima Staff understands that its providers do not have to enroll with the State Medi-Cal provider enrollment unit.

CalOptima continues to have obligations to ensure that providers furnishing covered items and services to CalOptima members are contracted and meet federal and state requirements through a standardized credentialing process, including providers who cannot enroll with Medi-Cal (e.g., Health Educators, Dieticians, providers subject to DHCS moratorium, and in-home service providers).

Discussion

CalOptima is responsible for providing access to qualified providers to its members through a standard credentialing process that includes evaluation of many items relevant to quality, integrity and licensure. The attached table compares the differences between those activities that are consistently performed as part of the CalOptima credentialing programs at either CalOptima or by its delegated entities with activities that may occur during the DHCS enrollment process.

Primary care providers in the CalOptima Medi-Cal program also have stringent DHCS defined facility site reviews that include both an inspection of the physical space and evaluation of adherence to certain standards, as well as an evaluation of medical record documentation practices. CalOptima's credentialing process and those of its delegated networks are audited on a routine basis by DHCS, the California Department of Managed Health Care (DMHC) and the Centers for Medicare & Medicaid Services (CMS).

For those providers that enroll with the Medi-Cal program, CalOptima benefits from that process which similarly screens potential CalOptima providers for applicable State and federal requirements and makes ultimate determinations on participation in the Medi-Cal program. Unlike the State, CalOptima does not have similar legal authority or resources to conduct the certain pre-screening and investigative activities related to provider enrollment nor does it have the same statutory authority to summarily suspend providers based on pending investigations and other matters. This responsibility and associated risk will be assumed by CalOptima for certain providers for provision of Medi-Cal services if it does not continue to require Medi-Cal enrollment for excepted providers.

While CalOptima strives to assure providers are qualified to provide services to its Medi-Cal members, it also strives to assure that its members are able to gain access to and have choice of the largest number of providers possible. While there are many CalOptima Direct providers that are currently enrolled in the Medi-Cal program, some are not, and to complete a contracted network, CalOptima needs the flexibility to make exceptions to these enrollment requirements to satisfy its access and continuity of care obligations under its contract with DHCS.

Back to Agenda

CalOptima believes that, of the number of active licensed providers (Physicians, Podiatrists, Nurse Practitioners, Optometrists) in Orange County, approximately half are not enrolled in the Medi-Cal program although it is possible that some of these providers may not be entitled to directly bill the Medi-Cal program. The majority of providers that do not enroll in the Medi-Cal program elect to maintain that status for a variety of reasons (including desire to limit their Medi-Cal patients in their practice and avoid the lengthy application process), hence, become unavailable to serve CalOptima Direct and network members, yet they are still eligible to provide services to OneCare and Healthy Families members. Often times, providers who participate in OneCare or Healthy Families will also render services to CalOptima members because they are not aware of the different requirements for each line of business and they are frustrated by the delay or denial of payment for lack of Medi-Cal enrollment.

This policy would exempt providers outside Los Angeles, San Bernardino, Riverside, San Diego and Orange Counties from being enrolled with Medi-Cal or credentialed by CalOptima to be paid by CalOptima for rendering services to its members. It would also allow CalOptima's Chief Medical Officer, and delegated providers in conjunction with the Chief Medical Officer, to use providers who are not enrolled with Medi-Cal to satisfy CalOptima's State Contract requirements to provide proper access to, and continuity of, care for members. Examples of such exemptions may include providers in certain geographic areas which do not have adequate enrolled providers; providers that have unique needed clinical expertise; and providers who see less than five members in a calendar year. These types of providers will still be credentialed by CalOptima and may, in addition, have applications for enrollment in Medi-Cal pending.

In adopting this policy, CalOptima will assume additional responsibilities and liabilities. CalOptima must monitor anti-discrimination; be responsible for provider disciplinary matters; increase screening of providers presently done by Medi-Cal as a part of enrollment compliance; monitor federal/state requirements of its non-enrolled providers including fraud and abuse; and risk of challenge by providers not exempted from the requirement. The monitoring requirements assumed by CalOptima may present problems since DHCS will have limited jurisdiction for any fraud and abuse referrals related to non-enrolled providers. CalOptima has limited ability to investigate, and it cannot prosecute suspected fraud. CalOptima will have to rely on referring such matters to the Attorney General, District Attorney or the applicable State Licensing Board, which may lead to additional costs to investigate and additional risk of investigation or penalty to CalOptima of being out of compliance until the issue is resolved.

Notwithstanding these risks, Management makes the recommended actions outlined in this report to allow required access to providers for CalOptima Medi-Cal members while continuing to require the Medi-Cal enrollment process for the reasons stated herein. CalOptima would have to submit any changes to its provider participation requirements and related policies to DHCS for approval.

Back to Agenda

Fiscal Impact

For both medical and administrative expenses, the fiscal impact of this action on the CalOptima budget is not known. For medical expenses, a small number of providers may currently be seeing CalOptima members but not submitting claims because they are not enrolled in the Medi-Cal program. However, neither the number of unsubmitted claims nor the associated dollars are estimated to be material. For additional administrative expenses, management anticipates that they will be absorbed into the Board-approved budget. Such expenses are dependent on several factors. For example, there may be new administrative responsibilities due to the need for CalOptima to take on additional levels of review related to provider enrollment requirements that are not currently part of CalOptima's credentialing program. Also, CalOptima's Compliance Department may have increased obligations and incur additional costs due to the DHCS' Audits & Investigations Unit (A&I) not having jurisdiction over non-enrolled providers should CalOptima identify potential fraud and/or abuse involving non-enrolled providers. Staff will monitor medical and administrative expenses and keep the Board apprised should they prove to be greater than anticipated.

Rationale for Recommendation

Notwithstanding the additional risk and possible administrative costs to CalOptima in allowing exceptions to Medi-Cal enrollment, the recommendations, if adopted, will allow CalOptima expanded access to quality health care service providers consistent with the State Contract who are not presently enrolled in the Medi-Cal program.

Credentialing and Provider Participation Requirements

Board of Directors Meeting
October 7, 2010

Gertrude S. Carter, M.D.
Chief Medical Officer

Back to Agenda

Medi-Cal Participation History

- Requirement based on Fee-for-Service (FFS) Medi-Cal requirements

- Administrative and business focused assessment
  - Example: location, licensure status, provider's legal standing (see grid)

- FFS Medi-Cal needs:
  a. Screening mechanism to ensure minimum participation standard
  b. Means to facilitate payment
  c. Capability to monitor and enforce legal requirements

CalOptima Participation History

- CalOptima currently requires Medi-Cal participation

- CalOptima credentialing process includes Medi-Cal participation, administrative and business requirements plus significant clinical and quality requirements.
  - Credentialing includes:
    - Education, board certification, affiliation/privileges and clinical performance
    - Facility site review and medical record review

- Former DHCS Contract stated: “Provider shall be eligible for participation in the Medi-Cal Program.”

Current CalOptima Contract

- Current updated Medi-Cal contract language clarifies DHCS position:
  - Exhibit A, Attachment 6 (Provider Network), Provision 12 (Subcontracts)

    "Contractor shall remain accountable for all functions and responsibilities that are delegated to subcontractors. Nothing in this provision shall be construed to require that subcontracting providers be enrolled as a Medi-Cal provider."

Issue

- What should the policy be in those cases where compliance with both requirements are in conflict, specifically when access and quality cannot be met within a Medi-Cal enrolled network?
  - CalOptima has an informal process that is based on medical necessity
  - The informal “exception” policy is not consistent with the current participation policy

Exceptions

- Geographic
  - Availability of service in geographic area
- Clinical service
  - Access to the most appropriate level of experience available
- Continuity of care
  - Maintaining on-going treatment plan
- Member specific need that can drive clinical outcomes
  - Culture
  - Religion
  - Gender

Analysis 2009

- COD Prior Authorization = 30,000

- Letters of Agreement = 906
  - Ambulatory Surgery Centers = 591
  - Hospitals = 197
  - Other Facilities = 50
  - Professional Services = 56
  - Other = 12

Analysis 2009

- Historical (Non Medi-Cal enrolled providers)
  - ➢COD (Registered) = 163 of 4,647 total contracted providers = 3.5%
  - ➢Noble = 9 of 369 total contracted providers = 2.4%
  - ➢CHOC Health Alliance = 6 of 688 total contracted providers = 0.9%
  - ➢Monarch = 72 of 1,532 total contracted providers = 4%

Risk

- CalOptima would have to assume legal and enforcement functions without the State's police powers for those non- Medi-Cal enrolled providers, just as with all other lines of business

- Poses minimum risk because:
  1. Credentialing process
  2. Primary focus is high complex specialty directed providers who have affiliations with tertiary facilities
  3. Low utilization of exceptions
  4. CalOptima oversight activities including both compliance and peer review

Recommendation

Align the informal process with current policy to continue Medi-Cal participation with exceptions that promote access and quality based on medical necessity review.

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken May 2, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Further Action Related to the Regulatory Requirement for Medi-Cal Provider Enrollment by the California Department of Health Care Services

Contact

Michelle Laughlin, Executive Director Network Operations, (714) 246-8400

Recommended Actions

Authorize the following action related to the requirement that all contracted providers be enrolled in the Medi-Cal program through the Department of Health Care Services (DHCS) by January 1, 2019:

1. Authorize CalOptima to continue contracts with the non-Medi-Cal enrolled contracted providers through December 31, 2019, whose application to the State to become enrolled in the Medi-Cal program remains pending and were submitted to the DHCS prior to January 1, 2019.

Background

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance Program (CHIP) regulations. The revised regulation included requirements that providers in Managed Care Plans (MCPs) including CalOptima be subject to the same provider enrollment and screening requirements as providers who participate in Medicaid State fee-for-service programs. Provider enrollment and screening is in addition to credentialing requirements and is meant to reduce the incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

On November 14, 2017, DHCS issued All Plan Letter (APL) 17-019, which specified MCP's responsibilities related to the screening and enrollment of all Medi-Cal network providers.

Due to the backlog of provider enrollment applications, the State's Medi-Cal enrollment process is taking longer than the six-month period previously authorized by the Board to complete. It is unlikely that all of the approximately 548 CalOptima providers not currently enrolled will complete this process by June 30, 2019. Staff has gathered information on non-enrolled providers currently serving CalOptima Medi-Cal beneficiaries, identifying the number, specialty and potential member impact of terminating provider contracts. In the event that the existing contracts of the remaining 528 currently non-enrolled CalOptima Medi-Cal providers were terminated, the results would affect over 20,939 Members' PCP assignments and more than 7,922 Members who access specialty care. To mitigate this potential disruption to the provider network and assure member's continued access to care, Staff is requesting Board approval of the recommended actions.

Discussion

During the November 8, 2018 CalOptima Board meeting, the Board approved that providers who are not currently enrolled with Medi-Cal but have provided proof to CalOptima that their Medi-Cal provider

Back to Agenda

enrollment application and all required information was submitted to the State prior to January 1, 2019, continue as contracted CalOptima participating providers until June 30, 2019. Due to the Board approval to extend these participating providers, 309 providers are now Medi-Cal enrolled.

The prior request indicated that staff will consider returning to the Board with further recommendations in the event that there were further delays in the state's enrollment process. Staff is returning to provide an update on the progress and further recommends that the remaining 548 providers who are not currently enrolled with Medi-Cal but have provided proof that their Medi-Cal provider enrollment application and all required information was submitted to the State prior to January 1, 2019, continue as contracted CalOptima participating providers until such a time as DHCS renders a decision on that provider's Medi-Cal enrollment application, not to extend past December 31, 2019. As noted above, the Medi-Cal enrollment process with the state is taking many months to complete. This is a concern shared by many health plans state wide, with many opting for a similar approach of attempting to minimize member care disruption while the state works through the backlog of provider Medi-Cal enrollment applications, while also working to comply with the prescribed timelines.

While the proposed approach of allowing additional time for the Medi-Cal enrollment process to be completed without reassigning Members from Providers with pending applications to those who have completed the DHCS Medi-Cal provider enrollment process potentially places CalOptima at risk for payment and for DHCS audit findings of CalOptima's non-compliance with the terms of the DHCS-CalOptima contract, as indicated, our understanding is that this is an approach being followed by numerous other plans to allow time for DHCS to work through the backlog of Medi-Cal provider enrollment applications.

Under the proposed approach to continue the contracts with the providers who remain pending in the DHCS Medi-Cal enrollment process, if any such provider is still not Medi-Cal enrolled by December 31, 2019, their contract with CalOptima will be terminated effective January 1, 2020. In addition, all non-enrolled PCPs will continue to have their panels closed to new members until their Medi-Cal enrollment is complete.

As indicated, implementation of these actions without DHCS approval could potentially place CalOptima and other plans throughout the state at risk for any payments made to such non-Medi-Cal enrolled providers and may also result in audit findings from the State, the consequences of which may be corrective action plan(s) and/or sanctions. However, with a focus on ensuring member access to crucial healthcare services, staff recommends proceeding with the proposed approach.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Operating Budget, approved by the Board on June 7, 2018, includes forecasted professional medical expenses. The recommended action to continue contracts with certain non-Medi-Cal enrolled providers through December 31, 2019, is not projected to result in a material change to the budgeted medical expenses. Therefore, it is a budgeted item with no additional fiscal impact assuming the State takes no actions related to payments made to non-enrolled providers and does not find CalOptima to be non-compliant, issue sanctions or take other related action(s).

Back to Agenda

Management will include revenue and expenses for the period of July 1, 2019, through December 31, 2019, in the CalOptima FY 2019-20 Operating Budget.

Rationale for Recommendation

Continued access to providers in the process of being enrolled in Medi-Cal and services identified as crucial to avoid barriers in access to care will allow members to receive uninterrupted care notwithstanding the DHCS requirements that all providers enroll in the Medi-Cal program effective January 1, 2019.

GOVERNOR

DATE: November 14, 2017

ALL PLAN LETTER 17-019
SUPERSEDES ALL PLAN LETTER 16-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: PROVIDER CREDENTIALING / RECREDENTIALING AND SCREENING / ENROLLMENT

PURPOSE:
The purpose of this All Plan Letter (APL) is to inform Medi-Cal managed care health plans (MCPs) of their responsibilities related to the screening and enrollment of all network providers pursuant to the Centers for Medicare and Medicaid Services' (CMS) Medicaid and Children's Health Insurance Program Managed Care Final Rule (Final Rule), CMS-2390-F,[1] dated May 6, 2016. Additionally, this APL clarifies MCPs' contractual obligations related to credentialing and recredentialing as required in Title 42 Code of Federal Regulations (CFR), Section 438.214.[2] This APL supersedes APL 16-012.[3] The screening and enrollment responsibilities are located in Part: 1 and the credentialing and recredentialing responsibilities are located in Part: 2 of this APL.

All MCP network providers must enroll in the Medi-Cal Program. MCPs have the option to develop and implement a managed care provider screening and enrollment process that meets the requirements of this APL, or they may direct their network providers to enroll through the Department of Health Care Services (DHCS). MCPs electing to establish their own enrollment process are expected to have their infrastructure in place by January 1, 2018.

BACKGROUND:
On February 2, 2011, CMS issued rulemaking CMS-6028-FC[4] to enhance fee-for-service (FFS) provider enrollment screening requirements pursuant to the Affordable Care Act. The intent of Title 42 CFR, Part 455, Subparts B and E[5] was to reduce the

[5] Title 42 CFR, Part 455, Subparts B and E are available at: https://www.ecfr.gov/cgi-bin/text-idx?SID=3471319414e845a757a46ec42cde2b72&mc=true&node=pt42.4.455&rgn=div5

incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

In May 2016, CMS issued rulemaking CMS-2390-F, which extended the provider screening and enrollment requirements of 42 CFR, Part 455, Subparts B and E to MCP contracted providers (Title 42 CFR, Section 438.602(b)). These requirements are designed to reduce the number of providers who do not meet CMS provider enrollment requirements from participating in the MCPs' provider networks.

MCPs are required to maintain contracts with their network providers (Plan-Provider Agreement) and perform credentialing and recredentialing activities on an ongoing basis. However, prior to the Final Rule, the MCPs' network providers were not required to enroll in the Medi-Cal Program. Title 42 CFR, Section 438.602(b) now requires states to screen and enroll, and periodically revalidate, all network providers of managed care organizations, prepaid inpatient health plans, and prepaid ambulatory health plans, in accordance with the requirements of Title 42 CFR, Part 455, Subparts B and E. These requirements apply to both existing contracting network providers[6] as well as prospective network providers.

The Medi-Cal FFS delivery system currently enforces a statewide set of enrollment standards that the Medi-Cal managed care program and MCPs must now implement.[7] Although the implementation date for Title 42 CFR Section 438.602(b) is not scheduled until July 1, 2018, Section 5005(b)(2) of the 21st Century Cures Act (Cures Act),[8] requires managed care network provider enrollment to be implemented by January 1, 2018.

The MCPs' screening and enrollment requirements are separate and distinct from their credentialing and recredentialing processes. The credentialing and recredentialing process is one component of the comprehensive quality improvement system required in all MCP contracts.[9] Credentialing is defined as the recognition of professional or technical competence. The credentialing process may include registration, certification, licensure, and/or professional association membership. The credentialing process ensures that providers are properly licensed and certified as required by state and federal law.

[6] Exhibit E, Attachment 1 Definitions. The MCP Boilerplate contracts can be found at: http://www.dhcs.ca.gov/provgovpart/Pages/MMCDBoilerplateContracts.aspx
[7] State-specific Medi-Cal FFS provider enrollment requirements are contained in Title 22, CCR, Section 51000 through 51051, and Welfare & Institutions Code, Division 9, Part 3, Chapter 7 (commencing with Section 14043).
[8] 42 USC § 1396u-2 (d)(6)(A)
[9] Exhibit A, Attachment 4, Credentialing and Recredentialing.

POLICY:

Part 1: Medi-Cal Managed Care Screening and Enrollment Requirements

Available Enrollment Options

MCPs may screen and enroll network providers in a manner that is substantively equivalent to DHCS' provider enrollment process. However, MCPs may also rely on the enrollment and screening results conducted by DHCS or other MCPs. MCPs can access the California Health and Human Services' (CHHS) Open Data Portal[10] to obtain a list of currently enrolled Medi-Cal FFS providers. MCPs are required to issue network providers a "verification of enrollment" that MCPs can rely on to prevent enrollment duplication. MCPs may collaborate with each other to share provider screening and enrollment results.

Providers who enroll through the DHCS enrollment process may participate in both the Medi-Cal FFS program as well as contract with an MCP (provided the MCP chooses to contract with the provider). However, providers who only enroll through an MCP may not also participate in the Medi-Cal FFS program. Although DHCS does not require that managed care providers enroll as FFS providers, if a provider wishes to participate in, or receive reimbursement from, the Medi-Cal FFS program, the provider must enroll as a Medi-Cal FFS provider through DHCS.

MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis.

MCP Enrollment Processes

If the MCP elects to enroll a provider, the MCP must comply with the following processes:

General Requirements:

A. MCP Provider Application and Application Fee

MCPs are not required to use DHCS' provider enrollment forms. However, MCPs must ensure that they collect all the appropriate information, data elements, and supporting documentation required for each provider type.[11] In addition, MCPs must ensure that every network provider application they process is reviewed for both accuracy and

[10] The CHHS Open Data Portal can be found at: https://data.chhs.ca.gov/dataset/profile-of-enrolled-medi-cal-fee-for-service-ffs-providers-as-of-june-1-2017

[11] Applications packages by provider type can be found at the following: http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx. For associated definitions and provider types see Title 22 CCR 51000 – 51000.26 and 51051.

Back to Agenda

completeness. MCPs must ensure that all information specified in Title 22, California Code of Regulations (CCR), including but not limited to, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60, including all required submittals and attachments to the application package have been received. The MCP must obtain the provider's consent in order for DHCS and the MCP to share information relating to the provider's application and eligibility, including but not limited to issues related to program integrity.

MCPs may collect an application fee, established by CMS from unenrolled prospective network providers, to cover the administrative costs of processing a provider's screening and enrollment application. The MCP's application fee policy must be comparable to, and must not exceed, the state's application fee.[12] The application fee for calendar year 2017 is $560. Before collecting this fee, the MCP should be certain that the network provider is not already enrolled.

B. DHCS Provider Enrollment Agreement and Plan Provider Agreement

All Medi-Cal providers are required to enter into a provider enrollment agreement with the state (DHCS Provider Enrollment Agreement) as a condition of participating in the Medi-Cal Program pursuant to Section 1902(a)(27) of the Social Security Act and Section 14043.1 of the Welfare & Institutions Code. As part of the enrollment process, MCPs are responsible for ensuring that all successfully enrolled providers execute and sign the DHCS Provider Enrollment Agreement. This provider agreement is separate and distinct from the Plan Provider Agreement (see below). MCPs must maintain the original signed DHCS Provider Enrollment Agreement for each provider and must submit a copy to DHCS, CMS, and other appropriate agencies upon request. MCPs are responsible for maintaining all provider enrollment documentation in a secure manner and place that ensures the confidentiality of each provider's personal information. These enrollment records must be made available upon request to DHCS, CMS, or other authorized governmental agencies.

The agreement between the MCP and a provider (Plan Provider Agreement) is separate and distinct from the DHCS Provider Enrollment Agreement. Both the DHCS Provider Enrollment Agreement and the Plan Provider Agreement are required for MCP network providers. The DHCS Provider Enrollment Agreement does not expand or alter the MCP's existing rights or obligations relating to its Plan Provider Agreement.

C. Review of Ownership and Control Disclosure Information

As a requirement of enrollment, providers must disclose the information required by Title 42, CFR, Sections 455.104, 455.105, and 455.106, and Title 22, CCR, Section 51000.35. Providers who are unincorporated sole-proprietors are not required to

[12] Application Fee information is available at: http://www.dhcs.ca.gov/provgovpart/Pages/AppFeeChange2017.aspx

Back to Agenda

disclose the ownership or control information described in Title 42, CFR, Section 455.104. Providers that apply as a partnership, corporation, governmental entity, or nonprofit organization must disclose ownership or control information as required by Title 42, CFR, Section 455.104.

Full disclosure throughout the enrollment process is required for participation in the Medi-Cal Program. These disclosures must be provided when:

- A prospective provider submits the provider enrollment application.
- A provider executes the DHCS Provider Enrollment Agreement.
- A provider responds to an MCP's request during the enrollment re-validation process.
- Within 35 days of any change in ownership of the network provider.

Upon MCP request, a network provider must submit within 35 days:

- Full and complete information about the ownership of any subcontractor with whom the network provider has had business transactions totaling more than $25,000 during the 12-month period ending on the date of the request; and,
- Any significant business transactions between the network provider and any wholly owned supplier, or between the provider and any subcontractor, during the five-year period ending on the date of the request.[13]

Additionally, MCPs must comply with the requirements contained in Title 22, CCR, Section 51000.35, Disclosure Requirements. MCPs are not required to utilize the DHCS disclosure forms (DHCS 6207 and 6216[14]); however, MCPs must collect all information and documentation required by Title 22, CCR, Section 51000.35.

D. "Limited," "Moderate," "High" Risk Assignment

MCPs must screen initial provider applications, including applications for a new practice location, and any applications received in response to a network provider's reenrollment or revalidation request to determine the provider's categorical risk level as "limited," "moderate," or "high." If a provider fits within more than one risk level, the MCP must screen the provider at the highest risk level.

The federal requirements for screening requirements and for MCPs to stratify their network providers by risk level are set forth in Attachment 1 to this APL. These federal requirements list provider types considered as limited risk, moderate risk, and high risk, and define the screening requirements for each level of risk. A provider's designated risk level is also affected by findings of license verification, site reviews, checks of suspended and terminated provider lists, and criminal background checks. MCPs are

[13] 42 CFR 455.105(b)
[14] DHCS Forms 6207 and 6216 are available at: http://files.medi-cal.ca.gov/pubsdoco/prov_enroll.asp

Back to Agenda

not able to enroll a provider who fails to comply with the screening criteria for that provider's assigned level of risk.

Providers are subject to screening based on verification of the following requirements:

Limited-Risk Providers:

- Meet state and federal requirements.
- Hold a license certified for practice in the state and has no limitations from other states.
- Have no suspensions or terminations on state and federal databases.

Medium-Risk Providers:

- Screening requirements of limited-risk providers.
- Pre-enrollment and post-enrollment onsite visits to verify that the information submitted to the MCP and DHCS is accurate, and to determine compliance with state and federal enrollment requirements.

High-Risk Providers:

- Screening requirements of medium-risk providers.
- Criminal background checks based in part on a set of fingerprints.

The MCP and DHCS will adjust the categorical risk level when any of the following circumstances occur:

- The state imposes a payment suspension on a provider based on a credible allegation(s) of fraud, waste, or abuse.
- The provider has an existing Medicaid overpayment based on fraud, waste, or abuse.
- The provider has been excluded by the Office of Inspector General or another state's Medicaid program within the previous ten years, or when a state or federal moratorium on a provider type has been lifted.

DHCS will provide the information necessary to determine provider risk level to MCPs on a regular basis. MCPs may also obtain this information upon request from their DHCS Managed Care Operations Division (MCOD) contract manager.

E. Additional Criteria for High Risk Providers - Fingerprinting and Criminal Background Check

High-risk providers are subject to criminal background checks, including fingerprinting and the screening requirements for medium-risk providers. Regardless of whether a high-risk provider has undergone fingerprinting in the past, the requirement to submit to a criminal background check and fingerprinting remains the same. Any person with a

Back to Agenda

5% or more direct or indirect ownership in a high-risk applicant must submit to a criminal background check.[15] In addition, information discovered in the process of onsite reviews or data analysis may lead to a request for fingerprinting and criminal background checks for applicants.

DHCS will coordinate all criminal background checks. DHCS will make a pre-filled Live Scan form available to all MCPs to distribute to providers. When fingerprinting is required, MCPs must furnish the provider with the Live Scan form and instructions on where to deliver the completed form. It is critical that MCPs distribute the designated Live Scan form as this ensures the criminal history check results are forwarded directly to DHCS. The provider is responsible for paying for any Live Scan processing fees. MCPs must notify DHCS upon initiation of each criminal background check for a provider that has been designated as high risk. DHCS will provide notification of the Live Scan results directly to the MCP. The MCP must maintain the security and confidentiality of all of the information it receives from DHCS relating to the provider's high-risk designation and the results of criminal background checks.

F. Site Visits

MCPs must conduct pre- and post-enrollment site visits of medium-risk and high-risk providers to verify that the information submitted to the MCP and DHCS is accurate, and to determine the applicant's compliance with state and federal enrollment requirements, including but not limited to, Title 22, CCR, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60. In addition, all providers enrolled in the Medi-Cal Program, including providers enrolled through MCPs,[16] are subject to unannounced onsite inspections at all provider locations.

Onsite visits may be conducted for many reasons including, but not limited to, the following:

- The provider was temporarily suspended from the Medi-Cal Program.
- The provider's license was previously suspended.
- There is conflicting information in the provider's enrollment application.
- There is conflicting information in the provider's supporting enrollment documentation.
- As part of the provider enrollment process, the MCP receives information that raises a suspicion of fraud.

[15] Welfare and Institutions Code 14043.38(c)(2)
[16] 42 CFR 455.432

Back to Agenda

G. Federal and State Database Checks

During the provider enrollment process, MCPs are required to check the following databases to verify the identity and determine the exclusion status of all providers:

- Social Security Administration's Death Master File.[17]
- National Plan and Provider Enumeration System (NPPES).[18]
- List of Excluded Individuals/Entities (LEIE).[19]
- System for Award Management (SAM).[20]
- CMS' Medicare Exclusion Database (MED).[21]
- DHCS' Suspended and Ineligible Provider List.[22]

H. Denial or Termination of Enrollment/Appeal Process

MCPs may enroll providers to participate in the Medi-Cal Managed Care Program. However, if the MCP declines to enroll a provider, it must refer the provider to DHCS for further enrollment options. If the MCP acquires information, either before or after enrollment, that may impact the provider's eligibility to participate in the Medi-Cal Program, or a provider refuses to submit to the required screening activities,[23] the MCP may decline to accept that provider's application. However, only DHCS can deny or terminate a provider's enrollment in the Medi-Cal Program.

If at any time the MCP determines that it does not want to contract with a prospective provider, and/or that the prospective provider will not meet enrollment requirements, the MCP must immediately suspend the enrollment process. The MCP must inform the prospective provider that he/she may seek enrollment through DHCS.[24]

MCPs are not obligated to establish an appeal process for screening and enrollment decisions. Providers may only appeal a suspension or termination to DHCS when the suspension or termination occurs as part of DHCS' denial of the Medi-Cal FFS enrollment application.[25]

I. Provider Enrollment Disclosure

At the time of application, MCPs must inform their network providers, as well as any providers seeking to enroll with an MCP, of the differences between the MCP's and

[25] 42 CFR 455.422

Back to Agenda

DHCS' provider enrollment processes, including the provider's right to enroll through DHCS.

DHCS has provided a disclosure statement (Attachment 2), which MCPs may use to advise providers. MCPs are not required to use this exact form, but any disclosure used must contain, at a minimum, the same information contained in Attachment 2. DHCS may periodically require MCPs to provide additional disclosures to providers relating to differences in the enrollment processes.

The provider enrollment disclosure must include, but is not limited to, the following elements:

- A statement that certain enrollment functions will not be performed by the MCP, but will continue to be performed by DHCS, including fingerprinting, criminal background checks, and decisions to deny or terminate enrollment.
- Notice that some of the enrollment requirements and rights found in the state enrollment process may not be applicable when a provider chooses to enroll through an MCP, including provisional provider status with Medi-Cal FFS, processing timelines of the enrollment application, and the ability to appeal an MCP's decision to suspend the enrollment process.
- A provision informing the provider that if the MCP receives any information that impacts the provider's eligibility for enrollment, the MCP will suspend processing of the provider's enrollment application and make the provider aware of the option to apply through the DHCS' Medi-Cal FFS provider enrollment process.
- A statement clarifying that in order for the provider to participate in the Medi-Cal FFS Program, the provider must enroll through DHCS, and that enrolling through DHCS will also make the provider eligible to contract with the MCP.

J. Post Enrollment Activities

Revalidation of Enrollment

To ensure that all enrollment information is accurate and up-to-date, all providers must resubmit and recertify the accuracy of their enrollment information as part of the revalidation process. MCPs may align revalidation efforts with their recredentialing efforts to reduce duplication of activities. MCPs must revalidate the enrollment of each of their limited-risk and medium-risk network providers at least every five years,[26] and their high-risk network providers every three years. MCPs are not required to revalidate providers that were enrolled through DHCS or revalidated by another MCP.

[26] 42 CFR 455.414

Data Base Checks
MCPs must review the SAM and LEIE databases on a monthly basis. All other databases must be reviewed upon a provider's reenrollment to ensure that the provider continues to meet enrollment criteria. Each MCP network provider must maintain good standing in the Medicare and Medicaid/Medi-Cal Programs; any provider terminated from the Medicare or Medicaid/Medi-Cal Program may not participate in the MCP's provider network.

Retention of Documents
MCPs are required to retain all provider screening and enrollment materials and documents for ten years.[27] Additionally, MCPs must make all screening and enrollment documents and materials promptly available to DHCS, CMS, and any other authorized governmental entities upon request.

K. Miscellaneous Requirements

Timeframes
Within 120 days of receipt of a provider application, the MCP must complete the enrollment process and provide the applicant with a written determination. MCPs may allow providers to participate in their network for up to 120 days, pending the outcome of the screening process, in accordance with Title 42, CFR, Section 438.602(b)(2).

Delegation of Screening and Enrollment
MCPs may delegate their authority to perform screening and enrollment activities to a subcontractor. When doing so, the MCP remains contractually responsible for the completeness and accuracy of the screening and enrollment activities. To ensure that the subcontractor meets both the MCP's and DHCS' standards, the delegating MCP must evaluate the subcontractor's ability to perform these activities, including an initial review to ensure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities. The MCP must continuously monitor, evaluate, and approve the delegated functions.

Part 2: Medi-Cal Managed Care Credentialing and Recredentialing Requirements

MCPs must ensure that each of its network providers is qualified in accordance with current legal, professional, and technical standards, and is appropriately licensed, certified, or registered. MCPs must implement the provider credentialing and recredentialing policy described below by developing and maintaining written policies and procedures that include initial credentialing, recredentialing, recertification, and reappointment of their network providers. Each MCP must ensure that its governing

[27] 42 CFR 438.3(u)

body, or the designee of its governing body, reviews and approves these policies and procedures, and must ensure that the responsibility for recommendations regarding credentialing decisions rest with a credentialing committee or other peer-review body.

Some screening and enrollment requirements overlap with credentialing and recredentialing requirements. Any such overlap does not require an MCP to duplicate any of the activities described in this APL. However, if an MCP relies on the screening and enrollment activities conducted by another MCP, or by DHCS, the MCP must comply with all credentialing and recredentialing requirements described in this APL.

Provider Credentialing

MCPs are required to verify the credentials of their contracted medical providers, and to verify the following items, as required for the particular provider type, through a primary source,[28] as applicable:[29]

- The appropriate license and/or board certification or registration.
- Evidence of graduation or completion of any required education.
- Proof of completion of any relevant medical residency and/or specialty training.
- Satisfaction of any applicable continuing education requirements.

MCPs must also receive the following information from every network provider, but do not need to verify this information through a primary source:

- Work history.
- Hospital and clinic privileges in good standing.
- History of any suspension or curtailment of hospital and clinic privileges.
- Current Drug Enforcement Administration identification number.
- National Provider Identifier number.
- Current malpractice insurance in an adequate amount, as required for the particular provider type.
- History of liability claims against the provider.
- Provider information, if any, entered in the National Practitioner Data Bank, when applicable.[30]

[28] "Primary source" refers to an entity, such as a state licensing agency, with legal responsibility for originating a document and ensuring the accuracy of the document's information.
[29] The listed requirements are not applicable to all provider types. When applicable to the provider's designation, the information must be obtained.
[30] National Practitioner Data Bank is available at: https://www.ncsbn.org/418.htm.

- History of sanctions from participating in Medicare and/or Medicaid/Medi-Cal. Providers terminated from either Medicare or Medicaid/Medi-Cal, or on the Suspended and Ineligible Provider List may not participate in the MCP's provider network.[31]
- History of sanctions or limitations on the provider's license issued by any state agencies or licensing boards.

Attestations

For all medical service provider types who deliver Medi-Cal-covered medical services, the provider's application to contract with the MCP must include a signed and dated statement attesting to all the following:

- Any limitations or inabilities that affect the provider's ability to perform any of the position's essential functions, with or without accommodation.
- A history of loss of license or felony conviction.
- A history of loss or limitation of privileges or disciplinary activity.
- A lack of present illegal drug use.
- The application's accuracy and completeness.[32]

Provider Recredentialing

DHCS requires each MCP to verify every three years that each network provider delivering medical services continues to possess valid credentials. MCPs must review new applications from providers and verify the items listed under the Provider Credentialing section of this APL, in the same manner, as applicable. Recredentialing must include documentation that the MCP has considered information from other sources pertinent to the credentialing process, such as quality improvement activities, member grievances, and medical record reviews. The recredentialing application must include the same attestation as contained in the provider's initial application.

MCPs must maintain a system for reporting to the appropriate oversight entities serious quality deficiencies that result in suspension or termination of a network provider. MCPs must maintain policies and procedures for disciplinary actions, including reduction, suspension, or termination of a provider's privileges, and must implement and maintain a provider appeal process.

MCPs must also conduct onsite reviews of their network provider sites. For detailed guidance, see Policy Letter (PL) 14-004, Site Reviews, Facility Site Review and Medical

[31] The Suspended and Ineligible Provider List is available at: http://files.medi-cal.ca.gov/pubsdoco/SandILanding.asp.

[32] These limited statements comply with requirements of the Americans with Disabilities Act (ADA), as discussed in the attached PL 02-03. The ADA Attachment is available at (pg. 7): http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2002/MMCDPL02003.pdf.

Back to Agenda

Record Review,[33] and any subsequent revisions to this PL. MCPs must perform site reviews as part of each provider's initial credentialing process when both the site and provider have been added to the MCP's provider network; thereby, both the site review and credentialing requirements can be completed at the same time. A new site review is not required when new providers join an approved site within three years of the site's previous passing review.

Delegation of Provider Credentialing and Recredentialing

MCPs may delegate their authority to perform credentialing reviews to a professional credentialing verification organization; nonetheless, the MCP remains contractually responsible for the completeness and accuracy of these activities. If an MCP delegates credential verification activities, it should establish a formal and detailed agreement with the entity performing those activities. These agreements must be revised when the parties change the agreement's terms and conditions. To ensure accountability for these activities, the MCP must establish a system that:

- Evaluates the subcontractor's ability to perform delegated activities that includes an initial review to assure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities.
- Ensures that the subcontractor meets MCP and DHCS standards.
- Continuously monitors, evaluates, and approves the delegated functions.

Entities such as medical groups or independent physician organizations may conduct delegated credentialing activities and may obtain a Provider Organization Certification (POC) from the National Committee on Quality Assurance (NCQA) at their discretion. The POC focuses on the entity's role as the agent performing the credentialing functions on behalf of an MCP. The MCP may accept evidence of NCQA POC in lieu of a monitoring site visit at delegated physician organizations. If an MCP delegates credential verification activities, it should establish a formal and detailed written agreement with that entity. Such agreements need not be revised until the parties to the agreement change the agreement's terms and conditions.

Health Plan Accreditation

MCPs that receive a rating of "excellent," "commendable," or "accredited" from the NCQA will be deemed to have met DHCS' requirements for credentialing. Such MCPs will be exempt from DHCS' medical review audit of credentialing practices. MCPs; however, retain overall responsibility for ensuring that credentialing requirements are met. Credentialing accreditation from entities other than the NCQA will be considered by DHCS upon request.

[33] Policy Letter 14-004 is available at: http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2014/PL14-004.pdf

Back to Agenda

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations and other contract requirements as well as DHCS guidance, including applicable APLs, PLs and Dual Plan Letters. For questions regarding this APL, please contact your MCOD contract manager.

Sincerely,

Original signed by Nathan Nau

Attachment 1: Provider Types and Categories of Risk[34]/Screening Requirements

(1) Limited Risk Provider Types. Physician or non-physician practitioners and medical groups or clinics:

- Ambulatory Surgical Centers (ASCs)
- End-Stage Renal Disease (ESRD) facilities
- Federally Qualified Health Centers (FQHCs)
- Histocompatibility laboratories
- Hospitals, including Critical Access Hospitals (CAHs)
- Indian Health Service (IHS) facilities
- Mammography screening centers
- Mass immunization roster billers
- Organ Procurement Organizations (OPOs)
- Portable x-ray suppliers
- Providers or suppliers that are publicly traded on the New York Stock Exchange (NYSE) or NASDAQ
- Public or Government-Owned Ambulance Services Suppliers
- Religious Nonmedical Health Care Institutions (RNHCIs)
- Rural Health Clinics (RHCs)
- Radiation therapy centers
- Skilled Nursing Facilities (SNFs)

(2) Moderate Risk Provider Types. Provider and supplier categories:

- Community mental health centers
- Comprehensive outpatient rehabilitation facilities
- Currently enrolled (re-validating) home health agencies
  - Exception: Any such provider that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Currently enrolled (re-validating) suppliers of Durable Medical Equipment, Prosthetics, Orthotics, or Supplies (DMEPOS)
  - Exception: Any such supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Hospice organizations
- Independent clinical laboratories
- Independent diagnostic testing facilities

[34] CMS-6028-FC Tables 1–3. Federal Register / Vol. 76, No. 22 / February 2, 2011 / Rules and Regulations

Back to Agenda

- Non-public, non-government owned or affiliated ambulance services suppliers
    - Exception: Any such provider or supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.

(3) High Risk Provider Types. Prospective (newly enrolling) home health agencies and prospective (newly enrolling) suppliers of DMEPOS.

Back to Agenda

Attachment 2: Managed Care Provider Enrollment Disclosure

Background

Beginning January 1, 2018, federal law requires that all managed care network providers must enroll in the Medi-Cal Program if they wish to provide services to Medi-Cal managed care beneficiaries. Managed care providers have two options for enrolling with the Medi-Cal Program. Providers may enroll through (1) DHCS; or (2) an MCP. If a provider enrolls through DHCS, the provider is eligible to provide services to Medi-Cal FFS beneficiaries and contract with MCPs. If the provider enrolls through an MCP, the provider may only provide services to Medi-Cal managed care beneficiaries and may not provide services to Medi-Cal FFS beneficiaries.

Generally, federal and state laws and regulations that apply to fee-for-service (FFS) providers will also apply to the enrollment process for managed care providers. Regardless of the enrollment option a provider chooses, the provider is required to enter into two separate agreements - the "Plan Provider Agreement" and the "DHCS Provider Enrollment Agreement." The Plan Provider Agreement is the contract between an MCP and a provider defining their contractual relationship. The DHCS Provider Enrollment Agreement is the agreement between DHCS and the provider and is required for all providers enrolled in the Medi-Cal program.

Enrollment Options

A. Enrollment through an MCP. The following provides an overview of the MCP enrollment process:

- The provider will submit a provider enrollment application to the MCP using a process developed by the MCP.
- As part of the application process, the provider will be required to agree that DHCS and the MCP may share information relating to a provider's application and eligibility, including but not limited to issues related to program integrity.
- The MCP will be responsible for gathering all necessary documents and information associated with the MCP application.
- The provider should direct any questions it has regarding its MCP application to the MCP.
- If the provider's application requires fingerprinting, criminal background checks, and/or the denial or termination of enrollment, these functions will be performed by DHCS and the results shared with the MCP.
- While the MCP enrollment process will be substantially similar to the DHCS enrollment process, timelines relating to the processing of the enrollment

Back to Agenda

application may differ. In addition, MCPs will not have the ability to grant provisional provider status nor to authorize FFS reimbursement.

- Providers will not have the right to appeal an MCP's decision to cease the enrollment process.
- The MCP will complete the enrollment process within 120 days of the provider's submission of its application. During this time, the provider may participate in the MCP's network for up to 120 days, pending approval from the MCP.
- Once the enrolling MCP places a provider on the Enrolled Provider List, the provider is eligible to contract with all MCPs. However, an MCP is not required to contract with an enrolled provider.
- Only DHCS is authorized to deny or terminate a provider's enrollment in the Medi-Cal program.
- Accordingly, if the MCP receives any information that impacts the provider's enrollment, the MCP will suspend processing the provider's enrollment application and refer the provider to DHCS' FFS Provider Enrollment Division (PED) for enrollment where the application process will start over again.
- In order for the provider to participate in the Medi-Cal FFS program, the provider must first enroll through DHCS.

B. Enrollment through DHCS.

- The provider will use DHCS' standardized application form(s) when applying for participation in the Medi-Cal program. (See http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx)
- Federal and state laws and regulations that apply to FFS providers will apply to the enrollment process for managed care providers.
- Upon successful enrollment through DHCS, the provider will be eligible to contract with MCPs and provide services to FFS beneficiaries.

There may be other important aspects of the enrollment process that are not set forth in this information bulletin. Please check the DHCS website for provider enrollment updates. Providers should consult with their own legal counsel before determining which enrollment process best suit its needs and objectives.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 1, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Actions Related to the Regulatory Requirement for Medi-Cal Provider Enrollment by the California Department of Health Care Services

Contact

Michelle Laughlin, Executive Director Network Operations, (714) 246-8400

Recommended Actions

Authorize the following actions related to the requirement that all contracted providers be enrolled in the Medi-Cal program through the Department of Health Care Services (DHCS) by January 1, 2019:

1. Authorize CalOptima to continue to contract with non-Medi-Cal enrolled providers through June 30, 2019, subject to CalOptima's receipt of proof that each such provider's application to the State to become enrolled in the Medi-Cal program was submitted to the DHCS prior to January 1, 2019; and
2. Authorize Letters of Agreement (LOA) with non-Medi-Cal enrolled specialist providers identified by the Chief Medical Officer through December 31, 2019 as required for access to services or continuity of care.

Background

In 2016, the Center for Medicare & Medicaid Services (CMS) released a comprehensive revision of the federal Medicaid managed care and Child Health Insurance Program (CHIP) regulations. The revised regulation included requirements that providers in Managed Care Plans (MCPs) including CalOptima be subject to the same provider enrollment and screening requirements as providers who participate in Medicaid State fee-for-service programs. Provider enrollment and screening is in addition to credentialing requirements and is meant to reduce the incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

On November 14, 2017, DHCS issued All Plan Letter (APL) 17-019, which specified MCP's responsibilities related to the screening and enrollment of all Medi-Cal network providers.

The contract between DHCS and CalOptima effective January 1, 2009, discontinued the requirement that providers be eligible for participation in the Medi-Cal Program. However, on October 7, 2010, the CalOptima Board of Directors approved the continuation of a policy which requires that providers furnishing services to CalOptima Medi-Cal members be enrolled with the State of California's Medi-Cal Program when an enrollment path with the State is available for the provider. In recognition that not all providers eligible to enroll with Medi-Cal would enroll, the Board also approved a policy allowing the Chief Medical Officer, or delegated providers in conjunction with the Chief Medical Officer, to make exceptions to this policy to satisfy access and continuity of care requirements in CalOptima's contract with DHCS.

Back to Agenda

Although the new state mandated enrollment and screening requirements were effective January 1, 2018, DHCS guidance clarified that non-enrolled providers contracted with the MCPs prior to this date, have until December 31, 2018 to complete the process. Presumably, providers not enrolled by his date are to be terminated as a MCP participating provider for Medi-Cal services. Staff continues to review provider data to determine the number of non-enrolled providers and the potential impact to the members who are in their care should these providers no longer be available in the future due to their non-enrolled status.

DHCS specifies that provider screening and enrollment can be accomplished in two ways. MCPs may direct providers to the Medi-Cal enrollment division of DHCS for screening and enrollment, or MCPs may develop and implement an internal screening and enrollment process that meets the requirements of the APL. Due to the numerous additional requirements associated with the enrollment and screening process and the expertise required to fulfill these requirements, CalOptima staff believes it is more appropriate to continue to depend on the State's process to assure providers are properly vetted for Medi-Cal participation rather than to develop a duplicative process that would, in any case, lack the breadth of potentially relevant information available to the State, but not necessarily available to CalOptima.

Staff continues to conduct extensive outreach efforts to encourage non-enrolled providers to seek enrollment in the Medi-Cal program and continued participation with CalOptima. The outreach efforts have been successful, and Staff has identified the addition of over 900 previously non-enrolled providers since April 2018.

However, because the State's Medi-Cal enrollment process can take up to 180 days to complete, it is unlikely that all of the approximately 1,200 CalOptima providers not currently enrolled will complete this process by the end of the calendar year. Staff has gathered information on non-enrolled providers currently serving CalOptima Medi-Cal beneficiaries, identifying the number, specialty and potential member impact of terminating provider contracts. In the event that the existing contracts of all 1,200 currently non-enrolled CalOptima Medi-Cal providers were terminated, the results would be significant, affecting over 26,0000 Members' PCP assignments and more than 10,000 Members who access specialty care. To mitigate this potential disruption to the provider network and assure member's continued access to care, Staff is requesting Board approval of the recommended actions.

Discussion

Staff recommends that providers who are not currently enrolled with Medi-Cal but can provide proof that their Medi-Cal provider enrollment application and all required information has been submitted to the State prior to January 1, 2019, continue as contracted CalOptima participating providers until such a time as DHCS renders a decision on that provider's Medi-Cal enrollment application, potentially through June 30, 2019. As noted above, the Medi-Cal enrollment process with the state may take up to 180 days. This is a concern shared by many health plans state wide, with many opting for a similar approach of attempting to minimize member care disruption while the state works through the backlog of provider Medi-Cal enrollment applications, while also working to comply with the prescribed timelines.

Back to Agenda

While the proposed approach of allowing additional time for the Medi-Cal enrollment process to be completed without reassigning Members from Providers with pending applications to those who have completed the DHCS Medi-Cal provider enrollment process potentially places CalOptima at risk for payment and for DHCS audit findings of CalOptima's non-compliance with the terms of the DHCS-CalOptima contract, as indicated, our understanding is that this is an approach being followed by numerous other plans to allow time for DHCS to work through the backlog of Medi-Cal provider enrollment applications.

Under the proposed approach, if any such provider is still not Medi-Cal enrolled by June 30, 2019, their contract with CalOptima will be not be extended thereafter. In addition, all non-enrolled PCPs will have their panels closed to new members until their Medi-Cal enrollment is complete. Should the provider still be in the enrollment process by June 30, 2019 (i.e., application submitted to the state on or before December 31, 2018, but state review process not having been finalized as of June 30, 2018), Staff will consider returning to the Board with further recommendations. This scenario would only be a possibility in the event that there were further delays in the state's enrollment process.

Apart from those providers who have indicated that they plan to submit their Medi-Cal enrollment applications on or before December 31, 2018, staff has identified members in care with non-enrolled providers who are required for access and may choose not to apply to enroll in Medi-Cal. The impact of terminating these providers could create barriers to access sensitive or highly specialized services and/or redirecting members to other providers may be disruptive to member care. Staff proposes to proactively pursue LOAs with these terminated providers to allow for uninterrupted access by Members for whom there is not a suitable alternative contracted provider at this time. DHCS has advised MCPs that MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis. COC requests would be processed in accordance with CalOptima's DHCS-approved policies on the topic. Staff plans to proactively identify members in care with non-enrolled providers required for access; subject to Board approval, Staff will enter into LOAs for members currently in care with these providers to enable members and providers to continue uninterrupted care as longer-term efforts are undertaken to ensure that, member care is being provided by Medi-Cal enrolled providers.

As indicated, implementation of these actions without DHCS approval could place potentially place CalOptima and other plans throughout the state at risk for any payments made to such non-Medi-Cal enrolled providers and may also result in audit findings from the State, the consequences of which may be corrective action plan(s) and/or sanctions. However, with a focus on ensuring member access to crucial healthcare services, staff recommends proceeding with the proposed approach.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2018-19 Operating Budget, approved by the Board on June 7, 2018, includes forecasted professional medical expenses. The recommended actions to continue contracts with certain non-Medi-Cal enrolled providers through June 30, 2019, and issue to certain specialist providers are not projected to result in a material change to the budgeted medical expenses. Therefore, the recommended actions are budgeted items with no additional fiscal impact assuming the State takes

Back to Agenda

no actions related to payments made to non-enrolled providers and does not find CalOptima to be non-compliant and issue sanctions or take other related action(s).

Management will include revenue and expenses for the period of July 1, 2019, through December 31, 2019, related to the LOAs with certain specialist providers in future operating budgets.

Rationale for Recommendation

Continued access to providers in the process of being enrolled in Medi-Cal and services identified as crucial to avoid barriers in access to care will allow members to receive uninterrupted care notwithstanding the DHCS requirements that all providers enroll in the Medi-Cal program effective January 1, 2019.

Concurrence

ALL PLAN LETTER 17-019
SUPERSEDES ALL PLAN LETTER 16-012

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: PROVIDER CREDENTIALING / RECREDENTIALING AND SCREENING / ENROLLMENT

PURPOSE:
The purpose of this All Plan Letter (APL) is to inform Medi-Cal managed care health plans (MCPs) of their responsibilities related to the screening and enrollment of all network providers pursuant to the Centers for Medicare and Medicaid Services' (CMS) Medicaid and Children's Health Insurance Program Managed Care Final Rule (Final Rule), CMS-2390-F,[1] dated May 6, 2016. Additionally, this APL clarifies MCPs' contractual obligations related to credentialing and recredentialing as required in Title 42 Code of Federal Regulations (CFR), Section 438.214.[2] This APL supersedes APL 16-012.[3] The screening and enrollment responsibilities are located in Part: 1 and the credentialing and recredentialing responsibilities are located in Part: 2 of this APL.

All MCP network providers must enroll in the Medi-Cal Program. MCPs have the option to develop and implement a managed care provider screening and enrollment process that meets the requirements of this APL, or they may direct their network providers to enroll through the Department of Health Care Services (DHCS). MCPs electing to establish their own enrollment process are expected to have their infrastructure in place by January 1, 2018.

BACKGROUND:
On February 2, 2011, CMS issued rulemaking CMS-6028-FC[4] to enhance fee-for-service (FFS) provider enrollment screening requirements pursuant to the Affordable Care Act. The intent of Title 42 CFR, Part 455, Subparts B and E[5] was to reduce the

[3] APL 16-012 is available at: http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/APL2016/APL16-012.pdf
[4] CMS-6028-FC is available at: https://www.gpo.gov/fdsys/pkg/FR-2011-02-02/pdf/2011-1686.pdf
[5] Title 42 CFR, Part 455, Subparts B and E are available at: https://www.ecfr.gov/cgi-bin/text-idx?SID=3471319414e845a757a46ec42cde2b72&mc=true&node=pt42.4.455&rgn=div5

incidence of fraud and abuse by ensuring that providers are individually identified and screened for licensure and certification.

In May 2016, CMS issued rulemaking CMS-2390-F, which extended the provider screening and enrollment requirements of 42 CFR, Part 455, Subparts B and E to MCP contracted providers (Title 42 CFR, Section 438.602(b)). These requirements are designed to reduce the number of providers who do not meet CMS provider enrollment requirements from participating in the MCPs' provider networks.

MCPs are required to maintain contracts with their network providers (Plan-Provider Agreement) and perform credentialing and recredentialing activities on an ongoing basis. However, prior to the Final Rule, the MCPs' network providers were not required to enroll in the Medi-Cal Program. Title 42 CFR, Section 438.602(b) now requires states to screen and enroll, and periodically revalidate, all network providers of managed care organizations, prepaid inpatient health plans, and prepaid ambulatory health plans, in accordance with the requirements of Title 42 CFR, Part 455, Subparts B and E. These requirements apply to both existing contracting network providers[6] as well as prospective network providers.

The Medi-Cal FFS delivery system currently enforces a statewide set of enrollment standards that the Medi-Cal managed care program and MCPs must now implement.[7] Although the implementation date for Title 42 CFR Section 438.602(b) is not scheduled until July 1, 2018, Section 5005(b)(2) of the 21st Century Cures Act (Cures Act),[8] requires managed care network provider enrollment to be implemented by January 1, 2018.

The MCPs' screening and enrollment requirements are separate and distinct from their credentialing and recredentialing processes. The credentialing and recredentialing process is one component of the comprehensive quality improvement system required in all MCP contracts.[9] Credentialing is defined as the recognition of professional or technical competence. The credentialing process may include registration, certification, licensure, and/or professional association membership. The credentialing process ensures that providers are properly licensed and certified as required by state and federal law.

[7] State-specific Medi-Cal FFS provider enrollment requirements are contained in Title 22, CCR, Section 51000 through 51051, and Welfare & Institutions Code, Division 9, Part 3, Chapter 7 (commencing with Section 14043).
[8] 42 USC § 1396u-2 (d)(6)(A)
[9] Exhibit A, Attachment 4, Credentialing and Recredentialing.

POLICY:

Part 1: Medi-Cal Managed Care Screening and Enrollment Requirements

Available Enrollment Options

MCPs may screen and enroll network providers in a manner that is substantively equivalent to DHCS' provider enrollment process. However, MCPs may also rely on the enrollment and screening results conducted by DHCS or other MCPs. MCPs can access the California Health and Human Services' (CHHS) Open Data Portal[10] to obtain a list of currently enrolled Medi-Cal FFS providers. MCPs are required to issue network providers a "verification of enrollment" that MCPs can rely on to prevent enrollment duplication. MCPs may collaborate with each other to share provider screening and enrollment results.

Providers who enroll through the DHCS enrollment process may participate in both the Medi-Cal FFS program as well as contract with an MCP (provided the MCP chooses to contract with the provider). However, providers who only enroll through an MCP may not also participate in the Medi-Cal FFS program. Although DHCS does not require that managed care providers enroll as FFS providers, if a provider wishes to participate in, or receive reimbursement from, the Medi-Cal FFS program, the provider must enroll as a Medi-Cal FFS provider through DHCS.

MCPs are not required to enroll providers that are providing services pursuant to temporary Letters of Agreement, continuity of care arrangements, or on an urgent or emergent basis.

MCP Enrollment Processes

If the MCP elects to enroll a provider, the MCP must comply with the following processes:

General Requirements:

A. MCP Provider Application and Application Fee

MCPs are not required to use DHCS' provider enrollment forms. However, MCPs must ensure that they collect all the appropriate information, data elements, and supporting documentation required for each provider type.[11] In addition, MCPs must ensure that every network provider application they process is reviewed for both accuracy and

[10] The CHHS Open Data Portal can be found at: https://data.chhs.ca.gov/dataset/profile-of-enrolled-medi-cal-fee-for-service-ffs-providers-as-of-june-1-2017

[11] Applications packages by provider type can be found at the following: http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx. For associated definitions and provider types see Title 22 CCR 51000 – 51000.26 and 51051.

Back to Agenda

completeness. MCPs must ensure that all information specified in Title 22, California Code of Regulations (CCR), including but not limited to, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60, including all required submittals and attachments to the application package have been received. The MCP must obtain the provider's consent in order for DHCS and the MCP to share information relating to the provider's application and eligibility, including but not limited to issues related to program integrity.

MCPs may collect an application fee, established by CMS from unenrolled prospective network providers, to cover the administrative costs of processing a provider's screening and enrollment application. The MCP's application fee policy must be comparable to, and must not exceed, the state's application fee.[12] The application fee for calendar year 2017 is $560. Before collecting this fee, the MCP should be certain that the network provider is not already enrolled.

B. DHCS Provider Enrollment Agreement and Plan Provider Agreement

All Medi-Cal providers are required to enter into a provider enrollment agreement with the state (DHCS Provider Enrollment Agreement) as a condition of participating in the Medi-Cal Program pursuant to Section 1902(a)(27) of the Social Security Act and Section 14043.1 of the Welfare & Institutions Code. As part of the enrollment process, MCPs are responsible for ensuring that all successfully enrolled providers execute and sign the DHCS Provider Enrollment Agreement. This provider agreement is separate and distinct from the Plan Provider Agreement (see below). MCPs must maintain the original signed DHCS Provider Enrollment Agreement for each provider and must submit a copy to DHCS, CMS, and other appropriate agencies upon request. MCPs are responsible for maintaining all provider enrollment documentation in a secure manner and place that ensures the confidentiality of each provider's personal information. These enrollment records must be made available upon request to DHCS, CMS, or other authorized governmental agencies.

The agreement between the MCP and a provider (Plan Provider Agreement) is separate and distinct from the DHCS Provider Enrollment Agreement. Both the DHCS Provider Enrollment Agreement and the Plan Provider Agreement are required for MCP network providers. The DHCS Provider Enrollment Agreement does not expand or alter the MCP's existing rights or obligations relating to its Plan Provider Agreement.

C. Review of Ownership and Control Disclosure Information

As a requirement of enrollment, providers must disclose the information required by Title 42, CFR, Sections 455.104, 455.105, and 455.106, and Title 22, CCR, Section 51000.35. Providers who are unincorporated sole-proprietors are not required to

[12] Application Fee information is available at: http://www.dhcs.ca.gov/provgovpart/Pages/AppFeeChange2017.aspx

Back to Agenda

disclose the ownership or control information described in Title 42, CFR, Section 455.104. Providers that apply as a partnership, corporation, governmental entity, or nonprofit organization must disclose ownership or control information as required by Title 42, CFR, Section 455.104.

Full disclosure throughout the enrollment process is required for participation in the Medi-Cal Program. These disclosures must be provided when:

- A prospective provider submits the provider enrollment application.
- A provider executes the DHCS Provider Enrollment Agreement.
- A provider responds to an MCP's request during the enrollment re-validation process.
- Within 35 days of any change in ownership of the network provider.

Upon MCP request, a network provider must submit within 35 days:

- Full and complete information about the ownership of any subcontractor with whom the network provider has had business transactions totaling more than $25,000 during the 12-month period ending on the date of the request; and,
- Any significant business transactions between the network provider and any wholly owned supplier, or between the provider and any subcontractor, during the five-year period ending on the date of the request.[13]

Additionally, MCPs must comply with the requirements contained in Title 22, CCR, Section 51000.35, Disclosure Requirements. MCPs are not required to utilize the DHCS disclosure forms (DHCS 6207 and 6216[14]); however, MCPs must collect all information and documentation required by Title 22, CCR, Section 51000.35.

D. "Limited," "Moderate," "High" Risk Assignment

MCPs must screen initial provider applications, including applications for a new practice location, and any applications received in response to a network provider's reenrollment or revalidation request to determine the provider's categorical risk level as "limited," "moderate," or "high." If a provider fits within more than one risk level, the MCP must screen the provider at the highest risk level.

The federal requirements for screening requirements and for MCPs to stratify their network providers by risk level are set forth in Attachment 1 to this APL. These federal requirements list provider types considered as limited risk, moderate risk, and high risk, and define the screening requirements for each level of risk. A provider's designated risk level is also affected by findings of license verification, site reviews, checks of suspended and terminated provider lists, and criminal background checks. MCPs are

[13] 42 CFR 455.105(b)
[14] DHCS Forms 6207 and 6216 are available at: http://files.medi-cal.ca.gov/pubsdoco/prov_enroll.asp

Back to Agenda

not able to enroll a provider who fails to comply with the screening criteria for that provider's assigned level of risk.

Providers are subject to screening based on verification of the following requirements:

Limited-Risk Providers:

- Meet state and federal requirements.
- Hold a license certified for practice in the state and has no limitations from other states.
- Have no suspensions or terminations on state and federal databases.

Medium-Risk Providers:

- Screening requirements of limited-risk providers.
- Pre-enrollment and post-enrollment onsite visits to verify that the information submitted to the MCP and DHCS is accurate, and to determine compliance with state and federal enrollment requirements.

High-Risk Providers:

- Screening requirements of medium-risk providers.
- Criminal background checks based in part on a set of fingerprints.

The MCP and DHCS will adjust the categorical risk level when any of the following circumstances occur:

- The state imposes a payment suspension on a provider based on a credible allegation(s) of fraud, waste, or abuse.
- The provider has an existing Medicaid overpayment based on fraud, waste, or abuse.
- The provider has been excluded by the Office of Inspector General or another state's Medicaid program within the previous ten years, or when a state or federal moratorium on a provider type has been lifted.

DHCS will provide the information necessary to determine provider risk level to MCPs on a regular basis. MCPs may also obtain this information upon request from their DHCS Managed Care Operations Division (MCOD) contract manager.

E. Additional Criteria for High Risk Providers - Fingerprinting and Criminal Background Check

High-risk providers are subject to criminal background checks, including fingerprinting and the screening requirements for medium-risk providers. Regardless of whether a high-risk provider has undergone fingerprinting in the past, the requirement to submit to a criminal background check and fingerprinting remains the same. Any person with a

Back to Agenda

5% or more direct or indirect ownership in a high-risk applicant must submit to a criminal background check.[15] In addition, information discovered in the process of onsite reviews or data analysis may lead to a request for fingerprinting and criminal background checks for applicants.

DHCS will coordinate all criminal background checks. DHCS will make a pre-filled Live Scan form available to all MCPs to distribute to providers. When fingerprinting is required, MCPs must furnish the provider with the Live Scan form and instructions on where to deliver the completed form. It is critical that MCPs distribute the designated Live Scan form as this ensures the criminal history check results are forwarded directly to DHCS. The provider is responsible for paying for any Live Scan processing fees. MCPs must notify DHCS upon initiation of each criminal background check for a provider that has been designated as high risk. DHCS will provide notification of the Live Scan results directly to the MCP. The MCP must maintain the security and confidentiality of all of the information it receives from DHCS relating to the provider's high-risk designation and the results of criminal background checks.

F. Site Visits

MCPs must conduct pre- and post-enrollment site visits of medium-risk and high-risk providers to verify that the information submitted to the MCP and DHCS is accurate, and to determine the applicant's compliance with state and federal enrollment requirements, including but not limited to, Title 22, CCR, Sections 51000.30, 51000.31, 51000.32, 51000.35, 51000.45, and 51000.60. In addition, all providers enrolled in the Medi-Cal Program, including providers enrolled through MCPs,[16] are subject to unannounced onsite inspections at all provider locations.

Onsite visits may be conducted for many reasons including, but not limited to, the following:

- The provider was temporarily suspended from the Medi-Cal Program.
- The provider's license was previously suspended.
- There is conflicting information in the provider's enrollment application.
- There is conflicting information in the provider's supporting enrollment documentation.
- As part of the provider enrollment process, the MCP receives information that raises a suspicion of fraud.

[15] Welfare and Institutions Code 14043.38(c)(2)
[16] 42 CFR 455.432

Back to Agenda

G. Federal and State Database Checks

During the provider enrollment process, MCPs are required to check the following databases to verify the identity and determine the exclusion status of all providers:

- Social Security Administration's Death Master File.[17]
- National Plan and Provider Enumeration System (NPPES).[18]
- List of Excluded Individuals/Entities (LEIE).[19]
- System for Award Management (SAM).[20]
- CMS' Medicare Exclusion Database (MED).[21]
- DHCS' Suspended and Ineligible Provider List.[22]

H. Denial or Termination of Enrollment/Appeal Process

MCPs may enroll providers to participate in the Medi-Cal Managed Care Program. However, if the MCP declines to enroll a provider, it must refer the provider to DHCS for further enrollment options. If the MCP acquires information, either before or after enrollment, that may impact the provider's eligibility to participate in the Medi-Cal Program, or a provider refuses to submit to the required screening activities,[23] the MCP may decline to accept that provider's application. However, only DHCS can deny or terminate a provider's enrollment in the Medi-Cal Program.

If at any time the MCP determines that it does not want to contract with a prospective provider, and/or that the prospective provider will not meet enrollment requirements, the MCP must immediately suspend the enrollment process. The MCP must inform the prospective provider that he/she may seek enrollment through DHCS.[24]

MCPs are not obligated to establish an appeal process for screening and enrollment decisions. Providers may only appeal a suspension or termination to DHCS when the suspension or termination occurs as part of DHCS' denial of the Medi-Cal FFS enrollment application.[25]

I. Provider Enrollment Disclosure

At the time of application, MCPs must inform their network providers, as well as any providers seeking to enroll with an MCP, of the differences between the MCP's and

Back to Agenda

DHCS' provider enrollment processes, including the provider's right to enroll through DHCS.

DHCS has provided a disclosure statement (Attachment 2), which MCPs may use to advise providers. MCPs are not required to use this exact form, but any disclosure used must contain, at a minimum, the same information contained in Attachment 2. DHCS may periodically require MCPs to provide additional disclosures to providers relating to differences in the enrollment processes.

The provider enrollment disclosure must include, but is not limited to, the following elements:

- A statement that certain enrollment functions will not be performed by the MCP, but will continue to be performed by DHCS, including fingerprinting, criminal background checks, and decisions to deny or terminate enrollment.
- Notice that some of the enrollment requirements and rights found in the state enrollment process may not be applicable when a provider chooses to enroll through an MCP, including provisional provider status with Medi-Cal FFS, processing timelines of the enrollment application, and the ability to appeal an MCP's decision to suspend the enrollment process.
- A provision informing the provider that if the MCP receives any information that impacts the provider's eligibility for enrollment, the MCP will suspend processing of the provider's enrollment application and make the provider aware of the option to apply through the DHCS' Medi-Cal FFS provider enrollment process.
- A statement clarifying that in order for the provider to participate in the Medi-Cal FFS Program, the provider must enroll through DHCS, and that enrolling through DHCS will also make the provider eligible to contract with the MCP.

J. Post Enrollment Activities

Revalidation of Enrollment

To ensure that all enrollment information is accurate and up-to-date, all providers must resubmit and recertify the accuracy of their enrollment information as part of the revalidation process. MCPs may align revalidation efforts with their recredentialing efforts to reduce duplication of activities. MCPs must revalidate the enrollment of each of their limited-risk and medium-risk network providers at least every five years,[26] and their high-risk network providers every three years. MCPs are not required to revalidate providers that were enrolled through DHCS or revalidated by another MCP.

[26] 42 CFR 455.414

Data Base Checks
MCPs must review the SAM and LEIE databases on a monthly basis. All other databases must be reviewed upon a provider's reenrollment to ensure that the provider continues to meet enrollment criteria. Each MCP network provider must maintain good standing in the Medicare and Medicaid/Medi-Cal Programs; any provider terminated from the Medicare or Medicaid/Medi-Cal Program may not participate in the MCP's provider network.

Retention of Documents
MCPs are required to retain all provider screening and enrollment materials and documents for ten years.[27] Additionally, MCPs must make all screening and enrollment documents and materials promptly available to DHCS, CMS, and any other authorized governmental entities upon request.

K. Miscellaneous Requirements

Timeframes
Within 120 days of receipt of a provider application, the MCP must complete the enrollment process and provide the applicant with a written determination. MCPs may allow providers to participate in their network for up to 120 days, pending the outcome of the screening process, in accordance with Title 42, CFR, Section 438.602(b)(2).

Delegation of Screening and Enrollment
MCPs may delegate their authority to perform screening and enrollment activities to a subcontractor. When doing so, the MCP remains contractually responsible for the completeness and accuracy of the screening and enrollment activities. To ensure that the subcontractor meets both the MCP's and DHCS' standards, the delegating MCP must evaluate the subcontractor's ability to perform these activities, including an initial review to ensure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities. The MCP must continuously monitor, evaluate, and approve the delegated functions.

Part 2: Medi-Cal Managed Care Credentialing and Recredentialing Requirements

MCPs must ensure that each of its network providers is qualified in accordance with current legal, professional, and technical standards, and is appropriately licensed, certified, or registered. MCPs must implement the provider credentialing and recredentialing policy described below by developing and maintaining written policies and procedures that include initial credentialing, recredentialing, recertification, and reappointment of their network providers. Each MCP must ensure that its governing

[27] 42 CFR 438.3(u)

body, or the designee of its governing body, reviews and approves these policies and procedures, and must ensure that the responsibility for recommendations regarding credentialing decisions rest with a credentialing committee or other peer-review body.

Some screening and enrollment requirements overlap with credentialing and recredentialing requirements. Any such overlap does not require an MCP to duplicate any of the activities described in this APL. However, if an MCP relies on the screening and enrollment activities conducted by another MCP, or by DHCS, the MCP must comply with all credentialing and recredentialing requirements described in this APL.

Provider Credentialing

MCPs are required to verify the credentials of their contracted medical providers, and to verify the following items, as required for the particular provider type, through a primary source,[28] as applicable:[29]

- The appropriate license and/or board certification or registration.
- Evidence of graduation or completion of any required education.
- Proof of completion of any relevant medical residency and/or specialty training.
- Satisfaction of any applicable continuing education requirements.

MCPs must also receive the following information from every network provider, but do not need to verify this information through a primary source:

- Work history.
- Hospital and clinic privileges in good standing.
- History of any suspension or curtailment of hospital and clinic privileges.
- Current Drug Enforcement Administration identification number.
- National Provider Identifier number.
- Current malpractice insurance in an adequate amount, as required for the particular provider type.
- History of liability claims against the provider.
- Provider information, if any, entered in the National Practitioner Data Bank, when applicable.[30]

[28] "Primary source" refers to an entity, such as a state licensing agency, with legal responsibility for originating a document and ensuring the accuracy of the document's information.
[29] The listed requirements are not applicable to all provider types. When applicable to the provider's designation, the information must be obtained.
[30] National Practitioner Data Bank is available at: https://www.ncsbn.org/418.htm.

- History of sanctions from participating in Medicare and/or Medicaid/Medi-Cal. Providers terminated from either Medicare or Medicaid/Medi-Cal, or on the Suspended and Ineligible Provider List may not participate in the MCP's provider network.[31]
- History of sanctions or limitations on the provider's license issued by any state agencies or licensing boards.

Attestations

For all medical service provider types who deliver Medi-Cal-covered medical services, the provider's application to contract with the MCP must include a signed and dated statement attesting to all the following:

- Any limitations or inabilities that affect the provider's ability to perform any of the position's essential functions, with or without accommodation.
- A history of loss of license or felony conviction.
- A history of loss or limitation of privileges or disciplinary activity.
- A lack of present illegal drug use.
- The application's accuracy and completeness.[32]

Provider Recredentialing

DHCS requires each MCP to verify every three years that each network provider delivering medical services continues to possess valid credentials. MCPs must review new applications from providers and verify the items listed under the Provider Credentialing section of this APL, in the same manner, as applicable. Recredentialing must include documentation that the MCP has considered information from other sources pertinent to the credentialing process, such as quality improvement activities, member grievances, and medical record reviews. The recredentialing application must include the same attestation as contained in the provider's initial application.

MCPs must maintain a system for reporting to the appropriate oversight entities serious quality deficiencies that result in suspension or termination of a network provider. MCPs must maintain policies and procedures for disciplinary actions, including reduction, suspension, or termination of a provider's privileges, and must implement and maintain a provider appeal process.

MCPs must also conduct onsite reviews of their network provider sites. For detailed guidance, see Policy Letter (PL) 14-004, Site Reviews, Facility Site Review and Medical

[31] The Suspended and Ineligible Provider List is available at: http://files.medi-cal.ca.gov/pubsdoco/SandILanding.asp.

[32] These limited statements comply with requirements of the Americans with Disabilities Act (ADA), as discussed in the attached PL 02-03. The ADA Attachment is available at (pg. 7): http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2002/MMCDPL02003.pdf.

Back to Agenda

Record Review,[33] and any subsequent revisions to this PL. MCPs must perform site reviews as part of each provider's initial credentialing process when both the site and provider have been added to the MCP's provider network; thereby, both the site review and credentialing requirements can be completed at the same time. A new site review is not required when new providers join an approved site within three years of the site's previous passing review.

Delegation of Provider Credentialing and Recredentialing

MCPs may delegate their authority to perform credentialing reviews to a professional credentialing verification organization; nonetheless, the MCP remains contractually responsible for the completeness and accuracy of these activities. If an MCP delegates credential verification activities, it should establish a formal and detailed agreement with the entity performing those activities. These agreements must be revised when the parties change the agreement's terms and conditions. To ensure accountability for these activities, the MCP must establish a system that:

- Evaluates the subcontractor's ability to perform delegated activities that includes an initial review to assure that the subcontractor has the administrative capacity, experience, and budgetary resources to fulfill its responsibilities.
- Ensures that the subcontractor meets MCP and DHCS standards.
- Continuously monitors, evaluates, and approves the delegated functions.

Entities such as medical groups or independent physician organizations may conduct delegated credentialing activities and may obtain a Provider Organization Certification (POC) from the National Committee on Quality Assurance (NCQA) at their discretion. The POC focuses on the entity's role as the agent performing the credentialing functions on behalf of an MCP. The MCP may accept evidence of NCQA POC in lieu of a monitoring site visit at delegated physician organizations. If an MCP delegates credential verification activities, it should establish a formal and detailed written agreement with that entity. Such agreements need not be revised until the parties to the agreement change the agreement's terms and conditions.

Health Plan Accreditation

MCPs that receive a rating of "excellent," "commendable," or "accredited" from the NCQA will be deemed to have met DHCS' requirements for credentialing. Such MCPs will be exempt from DHCS' medical review audit of credentialing practices. MCPs; however, retain overall responsibility for ensuring that credentialing requirements are met. Credentialing accreditation from entities other than the NCQA will be considered by DHCS upon request.

[33] Policy Letter 14-004 is available at: http://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/PL2014/PL14-004.pdf

Back to Agenda

MCPs are responsible for ensuring that their delegates comply with all applicable state and federal laws and regulations and other contract requirements as well as DHCS guidance, including applicable APLs, PLs and Dual Plan Letters. For questions regarding this APL, please contact your MCOD contract manager.

Sincerely,

Original signed by Nathan Nau

Attachment 1: Provider Types and Categories of Risk[34]/Screening Requirements

(1) Limited Risk Provider Types. Physician or non-physician practitioners and medical groups or clinics:

- Ambulatory Surgical Centers (ASCs)
- End-Stage Renal Disease (ESRD) facilities
- Federally Qualified Health Centers (FQHCs)
- Histocompatibility laboratories
- Hospitals, including Critical Access Hospitals (CAHs)
- Indian Health Service (IHS) facilities
- Mammography screening centers
- Mass immunization roster billers
- Organ Procurement Organizations (OPOs)
- Portable x-ray suppliers
- Providers or suppliers that are publicly traded on the New York Stock Exchange (NYSE) or NASDAQ
- Public or Government-Owned Ambulance Services Suppliers
- Religious Nonmedical Health Care Institutions (RNHCIs)
- Rural Health Clinics (RHCs)
- Radiation therapy centers
- Skilled Nursing Facilities (SNFs)

(2) Moderate Risk Provider Types. Provider and supplier categories:

- Community mental health centers
- Comprehensive outpatient rehabilitation facilities
- Currently enrolled (re-validating) home health agencies
  - Exception: Any such provider that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Currently enrolled (re-validating) suppliers of Durable Medical Equipment, Prosthetics, Orthotics, or Supplies (DMEPOS)
  - Exception: Any such supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.
- Hospice organizations
- Independent clinical laboratories
- Independent diagnostic testing facilities

[34] CMS-6028-FC Tables 1–3. Federal Register / Vol. 76, No. 22 / February 2, 2011 / Rules and Regulations

Back to Agenda

- Non-public, non-government owned or affiliated ambulance services suppliers
    - Exception: Any such provider or supplier that is publicly traded on the NYSE or NASDAQ is considered ‘‘limited’’ risk.

(3) High Risk Provider Types. Prospective (newly enrolling) home health agencies and prospective (newly enrolling) suppliers of DMEPOS.

Back to Agenda

Attachment 2: Managed Care Provider Enrollment Disclosure

Background

Beginning January 1, 2018, federal law requires that all managed care network providers must enroll in the Medi-Cal Program if they wish to provide services to Medi-Cal managed care beneficiaries. Managed care providers have two options for enrolling with the Medi-Cal Program. Providers may enroll through (1) DHCS; or (2) an MCP. If a provider enrolls through DHCS, the provider is eligible to provide services to Medi-Cal FFS beneficiaries and contract with MCPs. If the provider enrolls through an MCP, the provider may only provide services to Medi-Cal managed care beneficiaries and may not provide services to Medi-Cal FFS beneficiaries.

Generally, federal and state laws and regulations that apply to fee-for-service (FFS) providers will also apply to the enrollment process for managed care providers. Regardless of the enrollment option a provider chooses, the provider is required to enter into two separate agreements - the "Plan Provider Agreement" and the "DHCS Provider Enrollment Agreement." The Plan Provider Agreement is the contract between an MCP and a provider defining their contractual relationship. The DHCS Provider Enrollment Agreement is the agreement between DHCS and the provider and is required for all providers enrolled in the Medi-Cal program.

Enrollment Options

A. Enrollment through an MCP. The following provides an overview of the MCP enrollment process:

- The provider will submit a provider enrollment application to the MCP using a process developed by the MCP.
- As part of the application process, the provider will be required to agree that DHCS and the MCP may share information relating to a provider's application and eligibility, including but not limited to issues related to program integrity.
- The MCP will be responsible for gathering all necessary documents and information associated with the MCP application.
- The provider should direct any questions it has regarding its MCP application to the MCP.
- If the provider's application requires fingerprinting, criminal background checks, and/or the denial or termination of enrollment, these functions will be performed by DHCS and the results shared with the MCP.
- While the MCP enrollment process will be substantially similar to the DHCS enrollment process, timelines relating to the processing of the enrollment

Back to Agenda

application may differ. In addition, MCPs will not have the ability to grant provisional provider status nor to authorize FFS reimbursement.

- Providers will not have the right to appeal an MCP's decision to cease the enrollment process.
- The MCP will complete the enrollment process within 120 days of the provider's submission of its application. During this time, the provider may participate in the MCP's network for up to 120 days, pending approval from the MCP.
- Once the enrolling MCP places a provider on the Enrolled Provider List, the provider is eligible to contract with all MCPs. However, an MCP is not required to contract with an enrolled provider.
- Only DHCS is authorized to deny or terminate a provider's enrollment in the Medi-Cal program.
- Accordingly, if the MCP receives any information that impacts the provider's enrollment, the MCP will suspend processing the provider's enrollment application and refer the provider to DHCS' FFS Provider Enrollment Division (PED) for enrollment where the application process will start over again.
- In order for the provider to participate in the Medi-Cal FFS program, the provider must first enroll through DHCS.

B. Enrollment through DHCS.

- The provider will use DHCS' standardized application form(s) when applying for participation in the Medi-Cal program. (See http://www.dhcs.ca.gov/provgovpart/Pages/ApplicationPackagesAlphabeticalbyProviderType.aspx)
- Federal and state laws and regulations that apply to FFS providers will apply to the enrollment process for managed care providers.
- Upon successful enrollment through DHCS, the provider will be eligible to contract with MCPs and provide services to FFS beneficiaries.

There may be other important aspects of the enrollment process that are not set forth in this information bulletin. Please check the DHCS website for provider enrollment updates. Providers should consult with their own legal counsel before determining which enrollment process best suit its needs and objectives.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken October 7, 2010
Regular Meeting of the CalOptima Board of Directors

Report Item

VI. C. Authorize Revisions to Credentialing and Provider Participation Requirements in CalOptima's Medi-Cal Program

Contact

Gertrude S. Carter, M.D., Chief Medical Officer, (714) 246-8400
Greg Buchert, M.D., MPH, Chief Operating Officer, (714) 246-8400

Recommended Actions

1. Approve policy continuing the requirement that providers furnishing services to CalOptima Medi-Cal members be enrolled in the State of California Medi-Cal Program when enrollment is available for that type of provider;
2. Approve an exception to that Policy for providers outside of Orange, Los Angeles, San Bernardino, Riverside and San Diego Counties;
3. Approve policy that the Chief Medical Officer or delegate, and delegated providers have the ability to make exceptions to the policy identified in Recommended Action No. 1 to satisfy access and continuity of care requirements in CalOptima's contract with the California Department of Health Care Services (DHCS);
4. Approve policy that providers credentialed by CalOptima or its delegated providers that furnish services, goods or supplies to Healthy Families or OneCare members are encouraged, but not required to, enroll in the State of California Medi-Cal program;
5. Eliminate the Minimum Practitioner Standards (MPS) Policy and requirement for applicable physicians to complete the MPS form prior to credentialing; and,
6. Approve changes to CalOptima's policies to reflect the changes made in this CalOptima Board Action Agenda Referral.

Background

CalOptima contracts directly with providers, or with delegated entities to arrange for providers, to render services to its members. For CalOptima's Healthy Families and OneCare programs, the providers' qualifications are evaluated by standardized credentialing processes that are consistent with NCQA standards and if deemed qualified, can provide services and bill for those services. CalOptima requires the California Department of Health Care Services (DHCS) statutory process related to authorized categories of persons and entities that provide services, goods, and supplies to Medi-Cal recipients. The State process is intended to ensure that provider practices are consistent with sound fiscal and business practices and do not result in unnecessary cost to the State Medi-Cal program and that the State/CalOptima do not have to reimburse the State or CMS for ineligible providers. The State also requires that a provider meet federal disclosure requirements including, without limitation, those related to the provider's licensure, control and ownership interests, and health care program participation status. In reviewing

Back to Agenda

provider applications, the State has the authority to conduct unannounced visits, pre-enrollment inspections, background checks and access government resources related to convictions, pending investigations and the status of debts and penalties, if any, owed to government entities.

The State has also established enrollment moratoriums related to specific provider types throughout the State or within specific counties in order to "safeguard public funds and maintain the fiscal integrity of the Medi-Cal program." For example, the State has a moratorium on enrollment of durable medical equipment suppliers (with exceptions) that expressly includes Orange, Los Angeles, Riverside and San Bernardino Counties. Significantly, the State provider enrollment laws incorporate the State's right to summarily deny or suspend a provider's enrollment status, for example, where there are pending allegations of fraud or abuse or investigations related to same.

Prior to January 1, 2009, CalOptima's State Medi-Cal contract with the DHCS required that "each provider who delivers Covered Services to Members shall *be eligible* for participation in the Medi-Cal program and shall meet applicable requirements established under Titles XVIII and XIX of the Social services Act unless exempted from these provisions." The State's enrollment process may take as long as twelve months for a provider to receive acknowledgement of enrollment. While most providers complied with this requirement, some providers discontinued attempting to be paid for services rendered or refused to provide future services to CalOptima members.

In addition to standard credentialing requirements for all providers and the supplemental Medi-Cal enrollment procedure for providers in certain CalOptima medical delivery systems, CalOptima initiated a requirement for providers to supply additional information in order to be paid by CalOptima – the Minimum Practitioner Standards (MPS) form based on the CalOptima Board-approved policy. This policy was adopted in part to allow for a contracted COD network and to provide a basis of denying provider participation without the necessity of a formal statutorily-required hearing for providers who could not meet the standards. All questions of this seven question form request identical information that is included on credentialing applications. Eliminating the MPS form may result in the CalOptima having to file a notice to the Medical Board of California (an "805" report) for COD or Hospital Risk providers in the Medi-Cal program for which CalOptima takes certain actions based on a medical or disciplinary cause or reason. This requirement already exists for PHCs, HMOs, and SRGs in the CalOptima Healthy Families and OneCare programs.

CalOptima entered into a new State Medi-Cal contract with DHCS on January 1, 2009. The contract *no longer* includes language requiring "each provider who delivers Covered Services to Members shall be eligible for participation in the Medi-Cal program and shall meet applicable requirements established under Titles XVIII and XIX of the Social Services Act unless exempted from these provisions." The new 2009 State Medi-Cal contract also includes the following language: "Nothing in this provision shall be construed to require that subcontracting providers be enrolled as a Medi-Cal provider." The new State Medi-Cal contract does incorporate a

Back to Agenda

Prepaid Health Plan statute which expressly prohibits contracts between DHCS and PHPs "unless the providers and the facilities of the prepaid health plan meet the Medi-Cal program standards for participation as established by the director." Based on the contract language and communications with the State, CalOptima Staff understands that its providers do not have to enroll with the State Medi-Cal provider enrollment unit.

CalOptima continues to have obligations to ensure that providers furnishing covered items and services to CalOptima members are contracted and meet federal and state requirements through a standardized credentialing process, including providers who cannot enroll with Medi-Cal (e.g., Health Educators, Dieticians, providers subject to DHCS moratorium, and in-home service providers).

Discussion

CalOptima is responsible for providing access to qualified providers to its members through a standard credentialing process that includes evaluation of many items relevant to quality, integrity and licensure. The attached table compares the differences between those activities that are consistently performed as part of the CalOptima credentialing programs at either CalOptima or by its delegated entities with activities that may occur during the DHCS enrollment process.

Primary care providers in the CalOptima Medi-Cal program also have stringent DHCS defined facility site reviews that include both an inspection of the physical space and evaluation of adherence to certain standards, as well as an evaluation of medical record documentation practices. CalOptima's credentialing process and those of its delegated networks are audited on a routine basis by DHCS, the California Department of Managed Health Care (DMHC) and the Centers for Medicare & Medicaid Services (CMS).

For those providers that enroll with the Medi-Cal program, CalOptima benefits from that process which similarly screens potential CalOptima providers for applicable State and federal requirements and makes ultimate determinations on participation in the Medi-Cal program. Unlike the State, CalOptima does not have similar legal authority or resources to conduct the certain pre-screening and investigative activities related to provider enrollment nor does it have the same statutory authority to summarily suspend providers based on pending investigations and other matters. This responsibility and associated risk will be assumed by CalOptima for certain providers for provision of Medi-Cal services if it does not continue to require Medi-Cal enrollment for excepted providers.

While CalOptima strives to assure providers are qualified to provide services to its Medi-Cal members, it also strives to assure that its members are able to gain access to and have choice of the largest number of providers possible. While there are many CalOptima Direct providers that are currently enrolled in the Medi-Cal program, some are not, and to complete a contracted network, CalOptima needs the flexibility to make exceptions to these enrollment requirements to satisfy its access and continuity of care obligations under its contract with DHCS.

Back to Agenda

CalOptima believes that, of the number of active licensed providers (Physicians, Podiatrists, Nurse Practitioners, Optometrists) in Orange County, approximately half are not enrolled in the Medi-Cal program although it is possible that some of these providers may not be entitled to directly bill the Medi-Cal program. The majority of providers that do not enroll in the Medi-Cal program elect to maintain that status for a variety of reasons (including desire to limit their Medi-Cal patients in their practice and avoid the lengthy application process), hence, become unavailable to serve CalOptima Direct and network members, yet they are still eligible to provide services to OneCare and Healthy Families members. Often times, providers who participate in OneCare or Healthy Families will also render services to CalOptima members because they are not aware of the different requirements for each line of business and they are frustrated by the delay or denial of payment for lack of Medi-Cal enrollment.

This policy would exempt providers outside Los Angeles, San Bernardino, Riverside, San Diego and Orange Counties from being enrolled with Medi-Cal or credentialed by CalOptima to be paid by CalOptima for rendering services to its members. It would also allow CalOptima's Chief Medical Officer, and delegated providers in conjunction with the Chief Medical Officer, to use providers who are not enrolled with Medi-Cal to satisfy CalOptima's State Contract requirements to provide proper access to, and continuity of, care for members. Examples of such exemptions may include providers in certain geographic areas which do not have adequate enrolled providers; providers that have unique needed clinical expertise; and providers who see less than five members in a calendar year. These types of providers will still be credentialed by CalOptima and may, in addition, have applications for enrollment in Medi-Cal pending.

In adopting this policy, CalOptima will assume additional responsibilities and liabilities. CalOptima must monitor anti-discrimination; be responsible for provider disciplinary matters; increase screening of providers presently done by Medi-Cal as a part of enrollment compliance; monitor federal/state requirements of its non-enrolled providers including fraud and abuse; and risk of challenge by providers not exempted from the requirement. The monitoring requirements assumed by CalOptima may present problems since DHCS will have limited jurisdiction for any fraud and abuse referrals related to non-enrolled providers. CalOptima has limited ability to investigate, and it cannot prosecute suspected fraud. CalOptima will have to rely on referring such matters to the Attorney General, District Attorney or the applicable State Licensing Board, which may lead to additional costs to investigate and additional risk of investigation or penalty to CalOptima of being out of compliance until the issue is resolved.

Notwithstanding these risks, Management makes the recommended actions outlined in this report to allow required access to providers for CalOptima Medi-Cal members while continuing to require the Medi-Cal enrollment process for the reasons stated herein. CalOptima would have to submit any changes to its provider participation requirements and related policies to DHCS for approval.

Back to Agenda

Fiscal Impact

For both medical and administrative expenses, the fiscal impact of this action on the CalOptima budget is not known. For medical expenses, a small number of providers may currently be seeing CalOptima members but not submitting claims because they are not enrolled in the Medi-Cal program. However, neither the number of unsubmitted claims nor the associated dollars are estimated to be material. For additional administrative expenses, management anticipates that they will be absorbed into the Board-approved budget. Such expenses are dependent on several factors. For example, there may be new administrative responsibilities due to the need for CalOptima to take on additional levels of review related to provider enrollment requirements that are not currently part of CalOptima's credentialing program. Also, CalOptima's Compliance Department may have increased obligations and incur additional costs due to the DHCS' Audits & Investigations Unit (A&I) not having jurisdiction over non-enrolled providers should CalOptima identify potential fraud and/or abuse involving non-enrolled providers. Staff will monitor medical and administrative expenses and keep the Board apprised should they prove to be greater than anticipated.

Rationale for Recommendation

Notwithstanding the additional risk and possible administrative costs to CalOptima in allowing exceptions to Medi-Cal enrollment, the recommendations, if adopted, will allow CalOptima expanded access to quality health care service providers consistent with the State Contract who are not presently enrolled in the Medi-Cal program.

Credentialing and Provider Participation Requirements

Board of Directors Meeting
October 7, 2010

Gertrude S. Carter, M.D.
Chief Medical Officer

Back to Agenda

Medi-Cal Participation History

- Requirement based on Fee-for-Service (FFS) Medi-Cal requirements

- Administrative and business focused assessment
  - Example: location, licensure status, provider's legal standing (see grid)

- FFS Medi-Cal needs:
  a. Screening mechanism to ensure minimum participation standard
  b. Means to facilitate payment
  c. Capability to monitor and enforce legal requirements

CalOptima Participation History

- CalOptima currently requires Medi-Cal participation

- CalOptima credentialing process includes Medi-Cal participation, administrative and business requirements plus significant clinical and quality requirements.
  - Credentialing includes:
    - Education, board certification, affiliation/privileges and clinical performance
    - Facility site review and medical record review

- Former DHCS Contract stated: “Provider shall be eligible for participation in the Medi-Cal Program.”

Current CalOptima Contract

- Current updated Medi-Cal contract language clarifies DHCS position:
  - Exhibit A, Attachment 6 (Provider Network), Provision 12 (Subcontracts)

    "Contractor shall remain accountable for all functions and responsibilities that are delegated to subcontractors. Nothing in this provision shall be construed to require that subcontracting providers be enrolled as a Medi-Cal provider."

Issue

- What should the policy be in those cases where compliance with both requirements are in conflict, specifically when access and quality cannot be met within a Medi-Cal enrolled network?
  - CalOptima has an informal process that is based on medical necessity
  - The informal “exception” policy is not consistent with the current participation policy

Exceptions

- Geographic
  - Availability of service in geographic area
- Clinical service
  - Access to the most appropriate level of experience available
- Continuity of care
  - Maintaining on-going treatment plan
- Member specific need that can drive clinical outcomes
  - Culture
  - Religion
  - Gender

Analysis 2009

- COD Prior Authorization = 30,000

- Letters of Agreement = 906
  - Ambulatory Surgery Centers = 591
  - Hospitals = 197
  - Other Facilities = 50
  - Professional Services = 56
  - Other = 12

Analysis 2009

- Historical (Non Medi-Cal enrolled providers)
  - ➢COD (Registered) = 163 of 4,647 total contracted providers = 3.5%
  - ➢Noble = 9 of 369 total contracted providers = 2.4%
  - ➢CHOC Health Alliance = 6 of 688 total contracted providers = 0.9%
  - ➢Monarch = 72 of 1,532 total contracted providers = 4%

Risk

- CalOptima would have to assume legal and enforcement functions without the State's police powers for those non- Medi-Cal enrolled providers, just as with all other lines of business

- Poses minimum risk because:
  1. Credentialing process
  2. Primary focus is high complex specialty directed providers who have affiliations with tertiary facilities
  3. Low utilization of exceptions
  4. CalOptima oversight activities including both compliance and peer review

Recommendation

Align the informal process with current policy to continue Medi-Cal participation with exceptions that promote access and quality based on medical necessity review.

CalOptima's Mission

To provide members with access to quality health care services delivered in a cost-effective and compassionate manner

Policy #:	GG.1304
Title:	**Continuity of Care During Health Network or Provider Termination**
Department:	Medical Affairs
Section:	Case Management
CEO Approval:	Michael Schrader MS
Effective Date:	02/04/03
Last Review Date:	10/01/18
Last Revised Date:	10/01/18

I. PURPOSE

This policy establishes coverage and continuity of care guidelines for a Member who is involuntarily required to change a Health Network or Provider.

II. POLICY

A. CalOptima or a Health Network shall ensure Continuity of Care for a Member.

B. CalOptima may require a Member to change his or her Health Network involuntarily due to special circumstances including, but not limited to, the termination or non-renewal of the Health Network's Contract for Health Care Services.

C. A Receiving Health Network shall assume full responsibility for a Member's care upon the Affected Member's effective date with the Receiving Health Network when the Member is involuntarily required to change Health Networks.

D. In the event of section II.B of this Policy, CalOptima shall ensure the provision of Covered Services to an Affected Member without disruption or delay, including, but not limited to:

1. A Member who is in an active treatment plan;

2. A Member who has medical supply or other needs that affect the Member's quality of life or activities of daily living;

3. A Member who is in the process of evaluation for certain services; and

4. A Member who has other medical care needs.

E. In the event that a Member is required to change Health Networks, CalOptima and the Receiving Health Network shall collaborate to coordinate the provision of Covered Services for the Affected Member.

F. To ensure that inappropriate disruptions or delays in Covered Services do not occur during an Affected Member's transition to a Receiving Health Network, CalOptima and the Receiving Health Network shall make Continuity of Care decisions, in accordance with the guidelines set forth in this Policy and based on the potential best medical outcome for the Affected Member.

Back to Agenda

G. In the event that the guidelines set forth in this Policy do not address an Affected Member's particular continuity of care circumstance or need during the Affected Member's transition from a Health Network, CalOptima's Chief Medical Officer (CMO), or his or her Designee, shall render final arbitration of a Health Network's decision regarding the authorization of Covered Services.

H. To ensure the Continuity of Care for an Affected Member, a Receiving Health Network shall coordinate the Affected Member's Covered Services and the payment of Covered Services to a Provider when the prior Health Network authorized the Affected Member's care with the existing Provider and there is an existing course of treatment. The Receiving Health Network shall reimburse a Non-Contracted Provider in accordance with the provisions of this Policy.

I. A Receiving Health Network shall notify an Affected Member of its decision to approve, modify, delay, or deny a request for authorization of Continuity of Care, in accordance with the guidelines set forth in CalOptima Policy GG.1507: Notification Requirements for Covered Services Requiring Prior Authorization.

J. CalOptima or a Health Network may require a Member to change his or her Provider involuntarily due to special circumstances including, but not limited to, suspensions, decertifications, or non-renewal of a Health Network or Provider's contract with CalOptima or a Health Network, including termination, suspensions, and decertifications from the Medi-Cal program as effectuated by DHCS.

1. CalOptima or a Health Network shall ensure the safe transition to a new Provider for services as necessary and in accordance with this Policy.

K. Health Networks shall notify CalOptima of Provider termination, in accordance with CalOptima Policies DD.2012: Member Notification of Change in Availability or Location of Covered Services, EE.1101Δ: Additions, Changes, and Terminations to CalOptima Provider Information, CalOptima Provider Directory, and Web-based Directory, and GG.1652: DHCS Notification of Change in the Availability or Location of Covered Services.

III. PROCEDURE

A. Identification of an Affected Member and the Affected Member's Needs

1. CalOptima shall work in collaboration with the terminating Health Network to ensure identification of an Affected Member who is involuntarily required to change Health Networks and identify those Members who are in need of care coordination of Covered Services within a Health Network.

2. CalOptima shall provide a Receiving Health Network with information about an Affected Member's Continuity of Care needs as the information becomes available.

3. A Receiving Health Network shall evaluate an Affected Member's need for Covered Services and may authorize appropriate Covered Services for the Affected Member in a timely manner in order to not delay or interrupt the Affected Member's active treatment plan, in accordance with the provisions of this Policy.

B. Notice to Affected Members of Health Network termination

Back to Agenda

1. CalOptima shall send written notice of Health Network termination to Affected Members no later than thirty (30) calendar days prior to the termination date of a Health Network Contract for Health Care Services.

2. CalOptima shall obtain approval from the Department of Health Care Services (DHCS) of the written notice prior to sending the notice of Health Network termination to Affected Members.

C. CalOptima and a Health Network shall use the following Continuity of Care guidelines to provide continued Covered Services to an Affected Member so as to not cause an interruption or delay for the Affected Member:

1. A Receiving Health Network shall honor an authorization for a Scheduled Elective Surgery for an Affected Member authorized by the terminating Health Network, unless the Receiving Health Network is able to arrange comparable services without delay or interruption to the Affected Member, in accordance with CalOptima Policy GG.1507: Notification Requirements for Covered Services Requiring Prior Authorization.

2. A Receiving Health Network shall allow an Affected Member who is in the course of oncology treatment to continue his or her course of treatment with the Affected Member's existing Provider as set forth below:

   a. The Receiving Health Network shall evaluate an Affected Member's oncology treatment plan and determine whether it is appropriate to transfer the Affected Member's oncology care services safely to another Provider without delay or interruption to the active treatment plan.

   b. If the Receiving Health Network determines that transferring the Affected Member's oncology care to another Provider may potentially result in an adverse medical outcome or detrimentally affect the Affected Member, the Receiving Health Network shall authorize the Affected Member's oncology services under the Affected Member's existing Provider until the active treatment plan is completed.

3. A Receiving Health Network shall allow an Affected Member, who is in the process of a transplant evaluation to complete transplant care services with the Affected Member's existing Provider. Transplant coordination of care for an Affected Member shall be managed, in accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.

4. A Receiving Health Network shall allow an Affected Member, who is receiving acute inpatient services on the effective date of the Receiving Health Network change and is expected to have a remaining length of stay less than or equal to three (3) calendar days, to continue his or her acute care stay in the current inpatient setting.

5. A Receiving Health Network shall authorize an Affected Member, who has a remaining length of stay in an acute inpatient setting of more than three (3) calendar days, to stay in the existing acute inpatient setting until the Receiving Health Network can arrange for the safe transfer of the Affected Member to another acute care facility that can provide comparable services.

6. If it is necessary for an Affected Member to reschedule post-surgical physician visits after the effective date of the Receiving Health Network change, the Receiving Health Network shall

authorize the Affected Member's remaining post-surgical visits which were included under a previous global authorization with the surgeon who performed the surgery pursuant to community standards and Medical Necessity.

7. A Receiving Health Network shall authorize continued obstetrical services for an Affected Member, including delivery and the immediate postpartum period, with the Affected Member's existing Provider and hospital if the Affected Member is in her second (2nd) or third (3rd) trimester of pregnancy.

8. If an Affected Member is receiving dialysis services, a Receiving Health Network shall authorize continued dialysis services with the Affected Member's existing dialysis center and nephrologist until the Receiving Health Network has evaluated the Affected Member's dialysis treatment plan and arranged for the Affected Member's safe transfer to another dialysis center or nephrologist without a delay or interruption in service.

9. If an Affected Member has a scheduled diagnostic and Ancillary Service on a date after the Affected Member's effective date of the Health Network change, the Receiving Health Network shall authorize the diagnostic or Ancillary Service with the previously scheduled Provider unless the Receiving Health Network is able to arrange comparable services with another Provider without a delay or interruption in service.

10. If an Affected Member receives injectables as part of an active treatment plan, a Receiving Health Network shall ensure that the prescribed injectables are continued without delay or interruption in accordance with the Affected Member's active treatment plan until the Receiving Health Network has re-evaluated the Affected Member's active treatment plan, including potential referrals and coordination with California Children's Services (CCS).

11. If an Affected Member receives long term acute care services, a Receiving Health Network shall authorize the long term care acute care services at the Affected Member's existing facility until the Receiving Health Network has re-evaluated the Affected Member and provides for the safe transfer of the Affected Member's care to an alternate facility, with consideration of family or guardian wishes.

12. A Health Network that authorizes the purchase of Durable Medical Equipment (DME) for an Affected Member shall pay for the cost of the DME even if the delivery of the DME occurs after the Affected Member's effective date of the Health Network change.

13. A Receiving Health Network shall continue to provide an Affected Member with the same medical supplies, quantities, or equipment without disruption or delay in services until the Receiving Health Network has evaluated the Affected Member's medical supply needs.

14. If, after consultation with the CalOptima CMO, or his or her Designee, the CMO determines certain services are required and the Receiving Health Network refuses to provide them, the CMO may authorize these services on behalf of the Receiving Health Network.

15. If a Receiving Health Network modifies, delays, denies, or takes any other action that triggers Aid Paid Pending an appeal, the Receiving Health Network shall follow Member notification requirements and related provisions, in accordance with CalOptima Policy GG.1507: Notification Requirements for Covered Services Requiring Prior Authorization.

Back to Agenda

16. If CalOptima or a Health Network requires a Member to change his or her Provider involuntarily due to suspensions, decertifications, or non-renewal of a Health Network or Provider's contract with CalOptima or a Health Network, including termination, suspensions, and decertifications from the Medi-Cal program as effectuated by DHCS, CalOptima or a Health Network shall coordinate with the receiving Provider for ongoing services and treatment.

    a. CalOptima or a Health Network shall ensure the terminated, suspended, or decertified Provider does not receive payment for Medi-Cal services provided on or after the effective date of action in accordance with CalOptima Policy DD.2012: Member Notification of Change in the Availability or Location of Covered Services.

    b. CalOptima or a Health Network shall communicate the notification to the affected Member in accordance with CalOptima Policy DD.2012: Member Notification of Change in the Availability or Location of Covered Services.

17. A Receiving Health Network shall pay for the Covered Services furnished to an Affected Member by the Affected Member's existing Provider as authorized by the terminating Health Network to maintain Continuity of Care in accordance with this Policy. The Receiving Health Network shall pay a Non-Contracted Provider for such items and services at the Medi-Cal Fee Schedule rate or, if inpatient services, at the CalOptima rate.

D. CalOptima may impose Sanctions on a Health Network, including and without limitation, financial penalties or termination, in accordance with CalOptima Policy HH.2002Δ: Sanctions, when the Health Network fails to comply with the requirements of this Policy.

E. CalOptima or a Health Network shall notify an Affected Member of Provider termination, in accordance with CalOptima Policy DD.2012: Member Notification of Change in Availability or Location of Covered Services.

F. CalOptima or a Health Network shall provide continued Covered Services to an Affected Member so as to not cause an interruption or delay using the following continuity of care guidelines:

    1. CalOptima or a Health Network shall ensure continuation of treatment through the current period of active treatment, not to exceed twelve (12) months .

    2. CalOptima or a Health Network shall ensure continuation of care through the postpartum period for a Member in their second (2nd) or third (3rd) trimester of pregnancy.

IX. GLOSSARY

Term	Definition
Affected Member	A Member who is involuntarily transitioning between Health Networks or Providers due to circumstances that include, but are not limited to the termination or non-renewal of a Health Network Contract.
Aid Paid Pending	Continuation of Covered Services for a Member who has filed a timely request for a State Hearing as a result of a notice of action of intent to terminate, suspend, or reduce an existing authorized service.
Ancillary Services	All Covered Services that are not physician services, hospital services, or long-term care services.
CalOptima Community Network	A managed care network operated by CalOptima that contracts directly with physicians and hospitals and requires a Primary Care Provider (PCP) to manage the care of the Members.
Continuity of Care	Services provided to a Member rendered by an out-of-network Provider with whom the Member has a pre-existing Provider relationship.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
Durable Medical Equipment (DME)	Durable medical equipment means equipment prescribed by a licensed practitioner to meet medical equipment needs of the Member that: 1. Can withstand repeated use. 2. Is used to serve a medical purpose. 3. Is not useful to an individual in the absence of an illness, injury, functional impairment, or congenital anomaly. 4. Is appropriate for use in or out of the patient's home.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network. For purposes of this policy, a Health Network shall include CalOptima Community Network (CCN).
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.

Back to Agenda

Term	Definition
Non-Contracted Provider	A Provider who is not obligated by written contract to provide Covered Services to a Member on behalf of CalOptima, a Physician Medical Group, or a Health Network.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.
Receiving Health Network	A Health Network to which a Member is transitioning.
Scheduled Elective Surgery	Non-urgent or non-emergent procedures to treat disease, injury, or deformity by physical operation or manipulation, which are requested by the treating physician and authorized by the Health Network to occur within sixty (60) days after transitioning to the Receiving Health Network.

Board Approved Policy

I. PURPOSE

This policy details the process by which CalOptima contracts with **Providers***, or establishes **Letters of Agreement (LOAs),** as appropriate, with out-of-network **Providers** to meet its State and Federal obligations regarding **Network** adequacy and **Continuity of Care.**

II. POLICY

A. CalOptima may enter into a contract for participation directly with a **Provider** to ensure access to **Covered Services** for **Members**, and to obtain cost-effective pricing for **Covered Services**.

B. CalOptima may contract with **Providers** that meet the participation requirements for applicable health care programs and are fully **Credentialed** by CalOptima in accordance with CalOptima Policies GG.1650Δ: Credentialing and Recredentialing of Practitioners and GG.1651Δ: Credentialing and Recredentialing of Healthcare Delivery Organizations.

C. As a condition of participation in the CalOptima Medi-Cal program, contracting **Providers** shall be enrolled in the State's Medi-Cal Program in accordance with requirements set forth by the **Department of Health Care Services (DHCS).** When enrollment in the State's Medi-Cal program is not available to the **Provider's** provider type, contracting **Providers** shall be subject to CalOptima's enrollment and screening process.

D. As a condition of participation in the CalOptima OneCare and OneCare Connect programs, **Providers** shall not be excluded/sanctioned from participation in Medicare, shall not have opted out of Medicare, and shall not be listed on CMS' **Preclusion List.**

E. As a condition of participation in the CalOptima Program of All-Inclusive Care for the Elderly (PACE) program, contracting health care **Providers** shall be enrolled in the State's Medi-Cal Program in accordance with requirements set forth by the **DHCS.**

F. CalOptima shall determine **Network** adequacy by health care program and contract with those **Provider** types needed to, at a minimum, maintain an adequate **Network** as described in the requirement of each program.

G. CalOptima shall use provider contract templates as approved by the CalOptima Legal Affairs Department and the **DHCS** based on **Provider** type. If necessary, CalOptima may negotiate services at a rate that is not to exceed levels approved by the CalOptima Board of Directors.

*Terms in **bold** are defined in the Glossary.

Back to Agenda

1. CalOptima's Contracting Department shall obtain written approval from the CalOptima Chief Executive Officer (CEO) or his **Designee** for any rate that exceeds the CalOptima Board of Directors approved level.

2. Upon the recommendation of the CalOptima Chief Medical Officer (CMO), the CEO, or his **Designee** may negotiate rates and payment terms with **Providers** for **Medically Necessary, Covered Services** in unique situations, where contracted **Providers** or **Providers** that are willing to enter into standard **LOAs** are not qualified to provide the necessary services.

3. With Board approval, the CEO may implement new rate methodologies for Medi-Cal Fee-For-Service contracted hospitals, including but not limited to, tiered per diems, All Patient Refined Diagnosis Related Group (APR-DRG) based reimbursement, case rates, and blended per diem rates.

F. CalOptima shall execute a **Letter of Agreement (LOA)** with an out-of-network **Provider** where **Medically Necessary, Covered Services** to a **Member** are required:

a. In order to access care not available through contracted **Providers** and where the **Providers** of the necessary services do not accept CalOptima's out-of-network rates; or

b. For **Continuity of Care** needs where the **Provider** will accept CalOptima's standard rates, but does not wish to be a regularly-contracted CalOptima **Provider**; or

c. For **Continuity of Care** needs when the **Provider** will not accept CalOptima's standard rates, but transitioning the care to a contracted **Provider**:

i. Would require the **Member** to receive services from multiple **Providers**/facilities in an uncoordinated manner which would significantly impact the **Member's** condition; or

ii. Could endanger life, cause suffering or pain, cause physical deformity or malfunction, or significantly disrupt the current course of treatment.

iii. Would require **Member** to undertake a substantial change in recommended treatment for **Medically Necessary, Covered Services**.

III. PROCEDURE

A. Preliminary Evaluation

1. If CalOptima determines there is an unmet **Provider** coverage need which causes **Member** access issues and/or unmet **Continuity of Care** obligations, Contracting Department shall reach out to **Providers** identified through claims paid data, **LOAs**, or **Member** requests and invite them to enter into a contract for **Covered Services**. Contracted provider **Network** adequacy will be reviewed on an ongoing basis.

2. **Providers** that wish to proceed with a contract for participation in CalOptima's Medi-Cal program must be actively enrolled with Medi-Cal, with the exception of **Provider** types that do not have an enrollment pathway through the State. The CalOptima Quality Improvement Department shall perform a supplemental internal screening for Provider types that do not have an enrollment pathway through the State when processing their **Credentialing** applications.

3. **Physicians** shall be required to meet the minimum physician standards as described in CalOptima Policy GG.1643: Minimum Physician Standards, and must complete a

Back to Agenda

Credentialing application. The CalOptima Quality Improvement Department shall review and approve or deny the **Credentialing** application in accordance with CalOptima Policies GG.1643: Minimum Physician Standards and GG.1650Δ: Credentialing and Recredentialing of Practitioners.

4. **Health Delivery Organizations (HDOs)** shall be required to complete a **Credentialing** application. The CalOptima Quality Improvement Department shall review and approve or deny the **Credentialing** application in accordance with CalOptima Policy GG.1651Δ: Credentialing and Recredentialing of Healthcare Delivery Organizations.

5. The Quality Improvement Department shall notify the Contracting and Provider Relations Departments when a **Provider** has passed or been denied **Credentialing**. If CalOptima denies **Credentialing**:

    a. Contracting shall notify the **Provider** that CalOptima will not be able to contract with the **Provider**.

    b. If **Credentialing** has been denied for a physician who is part of a contracted physician group, the Provider Relations Department shall notify the contracted physician group that CalOptima will not be able to include the physician under the group contract.

B. Contract Completion

1. Upon receipt of an approval of **Credentialing** from the Quality Improvement Department, the contract shall be completed as follows:

    a. If applicable, the Contracting Department shall negotiate rates with the **Provider** within limits set by the CalOptima Board of Directors, in accordance with Section II.G of this Policy.

    b. Contract will be signed by the **Provider**.

    c. Contracting Department shall route a **Provider**-signed contract to the appropriate signer for counter-signature in accordance with the CalOptima Policy GA.3202: Signature Authority.

    d. Once the contract is fully executed, the Contracting Department shall complete and forward a Contract Summary form to internal departments, as applicable.

    e. Contracting shall assign the effective date as the first day of the month following the signature of both parties, unless:

        i. An effective date is specified in an applicable CalOptima Board Action Agenda Referral (COBAR); or

        ii. Additional time is required for information systems programming.

    f. If a newly **Credentialed** physician is part of an existing contracted physician group, the Provider Relations Department shall assign the effective date as the first day of the month following approval notification from the Quality Improvement Department. The Provider Relations Department shall notify Provider Data Management Services to enter the physician into the FACETS system.

2. The Contracting Department shall notify the **Provider** of contract completion and forward the fully executed contract to the **Provider**.

C. **Letter of Agreement (LOA)**

1. CalOptima shall provide **Medically Necessary, Covered Services** to a Member through an out-of-network **Provider** when CalOptima is unable to provide services in the contracted **Network** in accordance with CalOptima Policy GG.1508: Authorization and Processing of Referrals, or when it is necessary for purposes of **Continuity of Care**.

2. CalOptima shall generate an **LOA** for all Medi-Cal out-of-network long-term care facilities, Medi-Cal hospitals, physicians, ancillary, or other entities as necessary, and all out-of-network OneCare Connect **Providers**.

IX. GLOSSARY

Term	Definition
Continuity of Care	Services provided to a Member rendered by an out-of-network provider with whom the Member has pre-existing provider relationship.
Covered Services	Medi-Cal: Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program. OneCare: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Centers of Medicare & Medicaid Services (CMS) Contract. OneCare Connect: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Three-Way Agreement with the Department of Health Care Services (DHCS) and Centers for Medicare & Medicaid Services (CMS) Contract. PACE: For the purposes of this policy, defined as those medical services, equipment, or supplies that CalOptima is obligated to provide to Participants under the provisions of Welfare & Institutions Code Section 14132 and the CalOptima PACE Program Agreement, except those services specifically excluded under the Exhibit E, Attachment 1, Section 26 of the PACE Program Agreement.
Credentialing	The process of obtaining, verifying, assessing, and monitoring the qualifications of a Practitioner to provide quality and safe patient care services.
Department of Health Care Services (DHCS)	The single State Department responsible for administration of the Medi-Cal program, California Children Services (CCS), Genetically Handicapped Persons Program (GHPP), Child Health and Disabilities Prevention (CHDP), and other health related programs.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
Health Delivery Organization (HDO)	Includes hospitals, home health agencies, skilled nursing facilities, extended care facilities, nursing homes, and free-standing surgical, laboratory, or other centers.
Letter of Agreement (LOA)	An agreement with a specific Provider regarding the provision of a specific Covered Service to a Member in the absence of a Contract for the provision of such Covered Service.

Term	Definition
Medically Necessary	Medi-Cal: Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury. OneCare: Necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or Treatment of disease, illness, or injury. OneCare Connect: Necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or Treatment of disease, illness, or injury. Services must be provided in a way that provides all protections to the Enrollee provided by Medicare and Medi-Cal. Per Medicare, services must be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. § 1395y. In accordance with Title XIX law and related regulations, and per Medi-Cal, medical necessity means reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury under WIC Section 14059.5. PACE: Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness or injury.
Member	An enrollee-beneficiary of a CalOptima program.
Network	Primary Care Providers, Specialists, hospitals, pharmacy, ancillary Providers, facilities, and any other Providers that subcontract with CalOptima for the delivery of Covered Services.
Preclusion List	CMS-compiled list of providers and prescribers who are precluded from receiving payment for Medicare Advantage items and services or Part D drugs furnished or prescribed to Medicare beneficiaries.
Provider	Any individual or entity that is engaged in the delivery of Covered Services, or ordering or referring for the Covered Services, and is licensed or certified to do so.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Approval of OneCare and OneCare Connect Polices related to Direct Member Reimbursement for Covered Services

Contact

Belinda Abeyta, Executive Director, Operations Management (714) 246-8400

Recommended Action(s)

Approve the following new Policies and Procedures related to OneCare and OneCare Connect:

1. MA.4016: Direct Member Reimbursement for Covered Services

2. CMC.4012: Direct Member Reimbursement for Covered Services

Background/ Discussion

Periodically, CalOptima establishes new or modifies existing Policies and Procedures to implement new or modified, laws, regulatory guidance, contracts, business practices and benefits. CalOptima has an annual policy review process by which Policies and Procedures are updated and implemented to comply with new laws, regulations, guidelines or programs as required.

The following new policies related to Direct Member Reimbursement have been reviewed and approved by CalOptima's Policy and Procedure Review Committee and are being presented for review and approval by the Board of Directors:

1. ***MA.4016: Direct Member Reimbursement for Covered Services*** outlines the circumstances and requirements under which CalOptima, or a Health Network, may directly reimburse a OneCare member for out-of-pocket costs that exceed any Member cost-sharing obligations incurred for covered services, including, with an annual reimbursement cap, emergency and urgent services received from providers outside of the United States upon completion of a coverage decision.

2. ***CMC.4012: Direct Member Reimbursement for Covered Services*** outlines the circumstances and requirements under which CalOptima, or a Health Network, may directly reimburse a OneCare Connect member for out-of-pocket costs that exceed any Member cost-sharing obligations incurred for covered services, including, with an annual reimbursement cap, emergency and urgent services received from providers outside of the United States upon completion of a coverage decision.

Fiscal Impact

The recommended action to approve CalOptima Policies MA.4016 and CMC.4012 for OneCare and OneCare Connect Direct Member Reimbursement for Covered Services is a budgeted item and was included in the CalOptima Fiscal Year (FY) 2019-20 Operating Budget that was approved by the Board on June 6, 2019. The annual estimated cost for this benefit is approximately $7,000 for OneCare and $66,000 for OneCare Connect. However, the actual cost may vary year to year and may be greatly impacted by variables, such as amount of travel and the number of catastrophic cases.

Back to Agenda

Rationale for Recommendation

To ensure CalOptima and Health Networks meet all requirements of the OneCare program, approval of the requested action is recommended.

Concurrence

Gary Crockett, Chief Counsel

FOR 20191205BOD REVIEW

I. PURPOSE

This policy outlines the circumstances and requirements under which CalOptima or a **Health Network** may directly reimburse a OneCare **Member** for covered health care expenses rendered by a **Provider** upon completion of a coverage decision.

II. POLICY

A. A **Provider** shall bill CalOptima or the **Health Network**, as appropriate, for services rendered to a OneCare **Member**.

B. CalOptima OneCare **Members** retain the right to be reimbursed by CalOptima or a **Health Network** for any bill(s) paid in excess of the **Member's** cost sharing amount for **Covered Services**.

C. CalOptima or a **Health Network** shall directly reimburse a **Member** for a **Covered Service** if the **Member** was actively enrolled in OneCare, on the date of service (DOS), and has incurred the payment of the bill, in whole, or in part.

D. A **Health Network** shall reimburse a OneCare **Member** for a **Covered Service** if the **Member** was eligible with the CalOptima contracted **Health Network** on the DOS.

E. CalOptima shall process reimbursements to **Members** for prescription drugs in accordance with CalOptima Policy MA.6101: Coverage Determination.

F. In accordance with CalOptima policy, a OneCare **Member** shall directly request reimbursement any time after the date the health care service(s) was rendered.

1. If a OneCare **Member** does not request reimbursement, the OneCare **Member** shall be responsible for payment of the bill(s), with the following exception:

    a. There is a change to the OneCare benefits, pursuant to the Centers for Medicare & Medicaid Services (CMS) and/or the Department of Health Care Services (DHCS).

G. CalOptima or a **Health Network** shall deny a Direct Member Reimbursement (DMR) request if the **Member** or **Provider** did not comply with the **Prior Authorization** requirements outlined in CalOptima Policies GG.1508: Authorization and Processing of Referrals and GG.1539: Authorization for Out-of-Network and Out-of-Area Services, as applicable.

Back to Agenda

H. If the OneCare **Member** has not yet paid a bill or invoice submitted to CalOptima or a **Health Network** and CalOptima's or a **Health Network** determines that the service being billed is CalOptima's or a **Health Network's** financial responsibility, CalOptima or a **Health Network** shall directly pay the **Provider** for the service.

III. PROCEDURE

A. Direct Member Reimbursement

1. Within sixty (60) calendar days from receiving a OneCare **Member's** request for reimbursement, CalOptima or a **Health Network** shall directly reimburse a OneCare **Member** subject to the requirements of this Policy, when the OneCare **Member** directly paid out of pocket for **Covered Services** in the following circumstances:

    a. **Emergency or Urgent Services** received from an out-of-network **Provider** or out-of-area **Provider**;

        i. Maximum member reimbursement supplemental benefit amount per benefit year for **Emergency or Urgent Services** received outside of the United States as a supplemental covered benefit.

    b. The payment made by the OneCare **Member** exceeded their cost sharing amount;

    c. For a date of service that occurred during the **Member's** retroactive enrollment with CalOptima OneCare;

    d. For prescription refills using an in-network or out-of-network pharmacy;

    e. For the full cost of a prescription due to inability to provide proof of eligibility (e.g., not providing the CalOptima membership card); and/or

    f. For the full cost of a **Covered Service** or covered drug in other situations.

2. For **Covered Services**, a OneCare **Member** shall mail, fax, or email the reimbursement request to CalOptima, or a **Health Network,** based on Division of Financial Responsibility.

3. All OneCare direct member reimbursement (DMR) requests shall include:

    a. Proof of payment (a copy of the credit card charge slip(s) or online statement, canceled checks, a bank account statement, cash withdrawal slips, or a cruise ship statement); and

    b. Copy of itemized bill showing all services received. The bill must include the **Member's** name, address, phone number, tax ID of doctor and/or facility, and all diagnosis and procedure codes, if available; and

    c. **Member** written request to be reimbursed; and

    d. Discharge summary or equivalent medical documentation; and

    e. Authorization of Representative Form (CMS-1696) or equivalent notice, if applicable.

4. CalOptima, or a **Health Network**, shall review the OneCare **Member's** reimbursement request and make a coverage decision.

FOR 20191205BOD REVIEW

5. CalOptima, or a **Health Network**, shall outreach to the OneCare **Member** or **Provider** if additional information is necessary to make a determination for the reimbursement request.

6. CalOptima, or a **Health Network,** shall reimburse the OneCare **Member** for the **Covered Service** paid, if:

    a. Authorization is required, all authorization policies and procedures were complied with when obtaining the **Covered Services**; and

    b. The **Covered Services** rendered were deemed medically necessary after conclusion of CalOptima or a **Health Network's** Utilization Management departments medical review, as applicable; and

    c. Any payment made directly by a share of cost where the OneCare **Member** exceeded their share of cost; and

    d. The services paid for is a covered benefit under the OneCare program.

7. CalOptima, or a **Health Network,** shall not reimburse the OneCare **Member** for the service(s), paid if:

    a. The **Member** was ineligible with CalOptima or a **Health Network** on the DOS for which the reimbursement is being requested; or

    b. A **Prior Authorization** was required for the service but not obtained in accordance with CalOptima Policy GG.1508: Authorization and Processing of Referrals; or

    c. The **Member** received out-of-network non-emergency services and did not adhere to CalOptima Policy GG.1539: Authorization for Out-of-Network and Out-of-Area Services; or

    d. The service(s) rendered were deemed medically unnecessary after medical review conducted by CalOptima or a **Health Network's** Utilization Management department; or

    e. The payment made by the OneCare **Member** did not exceed their share of cost; or

    f. The service obtained is not a covered benefit.

8. Within sixty (60) calendar days from receiving a OneCare **Member** request for reimbursement, if CalOptima or a **Health Network** denies a OneCare **Member's** reimbursement request, CalOptima or a **Health Network** shall provide a written and telephonic notice to the **Member** of the following information:

    a. A detailed explanation of the reason(s) for the denial;

    b. An explanation of the OneCare **Member's** financial responsibility; and

    c. The OneCare **Member's** right to appeal CalOptima's or a **Health Network's** decision.

9. A OneCare **Member** shall have a right to appeal CalOptima's or a **Health Network's** decision for the reimbursement request, in accordance with CalOptima Policies MA.9003: Standard Appeal and MA.9005: Payment Appeal.

FOR 20191205BOD REVIEW

IX. GLOSSARY

Term	Definition
Covered Service	Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the three-way contract with the Department of Healthcare Services (DHCS) and the Centers for Medicare & Medicaid Services (CMS).
Covered Part D Drug	A Covered Part D Drug includes: 1. A drug that may be dispensed only upon a Prescription, approved by the Food and Drug Administration (FDA), used and sold in the United States, and used for a medically accepted indication as set forth in Section 1927(k)(2)(A) of the Social Security Act; 2. A biological product described in sections 1927(k)(2)(B)(i) through (iii) of the Social Security Act; 3. Insulin described in section 1927(k)(2)(C) of the Social Security Act; 4. Medical supplies associated with the delivery of insulin; and 5. A vaccine licensed under section 351 of the Public Health Service Act and its administration.
Emergency Medical Condition	A medical condition that is manifested by acute symptoms of sufficient severity including severe pain such that a prudent lay person, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: 1. Placing the health of the Member (or, if the Member is a pregnant woman, the health of the Member and her unborn child) in serious jeopardy; 2. Serious impairment to bodily functions; or Serious dysfunction of any bodily organ or part.
Emergency Services	Those covered inpatient and outpatient services required that are: 1. Furnished by a physician qualified to furnish emergency services; and 2. Needed to evaluate or stabilize an Emergency Medical Condition.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Medical Record	A medical record, health record, or medical chart in general is a systematic documentation of a single individual's medical history and care over time. The term 'Medical Record' is used both for the physical folder for each individual patient and for the body of information which comprises the total of each patient's health history. Medical records are intensely personal documents and there are many ethical and legal issues surrounding them such as the degree of third-party access and appropriate storage and disposal.
Member	An enrollee-beneficiary of OneCare program.
Prior Authorization	A process through which a physician or other health care provider is required to obtain advance approval from the plan that payment will be made for a service or item furnished to a Member.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.
Supporting Documentation	Bill, discharge summary or equivalent medical documentation, and proof of payment. Member written request to be reimbursed.

FOR 2019 1205 BOD REVIEW

Term	Definition
Urgent Care	Any request for medical care or treatment with respect to which the application of the time periods for making non-urgent determinations: 1. Could seriously jeopardize the life or health of the Member or the Member's ability to regain maximum function, based on a prudent layperson's judgment; or 2. In the opinion of a Practitioner with knowledge of the Member's medical condition, would subject the Member to severe pain that cannot be adequately managed without the care or treatment that is the subject of the request.

I. PURPOSE

This policy outlines the circumstances and requirements under which CalOptima or a **Health Network** may directly reimburse a OneCare Connect **Member** for covered health care expenses rendered by a **Provider** upon completion of a coverage decision.

II. POLICY

A. A **Provider** shall bill CalOptima or the **Health Network**, as appropriate, for services rendered to a OneCare Connect **Member**.

B. CalOptima OneCare Connect **Members** retain the right to be reimbursed by CalOptima or a **Health Network** for any bill(s) paid in excess of the **Member's** cost sharing amount for **Covered Services**.

C. CalOptima or a **Health Network** shall directly reimburse a **Member** for a **Covered Service** if the **Member** was actively enrolled in OneCare Connect, on the date of service (DOS), and has incurred the payment of the bill, in whole, or in part.

D. A **Health Network** shall reimburse a OneCare Connect **Member** for a **Covered Service** if the **Member** was eligible with the CalOptima contracted **Health Network** on the DOS.

E. CalOptima shall process reimbursements to **Members** for prescription drugs in accordance with CalOptima Policy MA.6101: Coverage Determination.

F. In accordance with CalOptima policy, a OneCare Connect **Member** shall directly request reimbursement any time after the date the health care service(s) was rendered.

1. If a OneCare Connect **Member** does not request reimbursement, the OneCare Connect **Member** shall be responsible for payment of the bill(s), with the following exception:

    a. There is a change to the OneCare Connect benefits, pursuant to the Centers for Medicare & Medicaid Services (CMS) and/or the Department of Health Care Services (DHCS).

G. CalOptima or a **Health Network** shall deny a direct member reimbursement (DMR) request if the **Member** or **Provider** did not comply with the **Prior Authorization** requirements outlined in CalOptima Policies GG.1508: Authorization and Processing of Referrals and GG.1539: Authorization for Out-of-Network and Out-of-Area Services, as applicable.

H. If the OneCare Connect **Member** has not yet paid a bill or invoice submitted to CalOptima or a **Health Network** and CalOptima or a **Health Network** determines that the service being billed is

CalOptima's or a **Health Network's** financial responsibility, CalOptima or a **Health Network** shall directly pay the **Provider** for the service.

III. PROCEDURE

A. Direct Member Reimbursement

1. Within sixty (60) calendar days from receiving a OneCare Connect **Member's** request for reimbursement, CalOptima or a **Health Network** shall directly reimburse a OneCare Connect **Member** subject to the requirements of this Policy, when the OneCare Connect **Member** directly paid out of pocket for **Covered Services** in the following circumstances:

   a. **Emergency or Urgent Services** received from an out-of-network **Provider** or out-of-area **Provider**;

      i. Maximum member reimbursement supplemental benefit amount per benefit year for **Emergency or Urgent Services** received outside of the United States as a supplemental covered benefit.

   b. The payment made by the OneCare Connect **Member** exceeded their cost sharing amount;

   c. For a date of service that occurred during the **Member's** retroactive enrollment with CalOptima OneCare Connect;

   d. For prescription refills using an in-network or out-of-network pharmacy;

   e. For the full cost of a prescription due to inability to provide proof of eligibility (*e.g.*, not providing the CalOptima membership card); and/or

   f. For the full cost of a **Covered Service** or covered drug in other situations.

2. For **Covered Services**, a OneCare Connect **Member** shall mail, fax, or email the reimbursement request to CalOptima or a **Health Network** based on Division of Financial Responsibility.

3. All OneCare Connect direct member reimbursement (DMR) requests shall include:

   a. Proof of payment (a copy of the credit card charge slip(s) or online statement, canceled checks, a bank account statement, cash withdrawal slips, or a cruise ship statement); and

   b. Copy of itemized bill showing all services received. The bill must include the **Member's** name, address, phone number, tax ID of doctor and/or facility, and all diagnosis and procedure codes, if available; and

   c. **Member** written request to be reimbursed; and

   d. Discharge summary or equivalent medical documentation; and

   e. Authorization of Representative Form (CMS-1696) or equivalent notice, if applicable.

4. CalOptima, or a **Health Network,** shall review the OneCare Connect **Member's** reimbursement request and make a coverage decision.

FOR 2019 12-5 BOD REVIEW

5. CalOptima, or a **Health Network,** shall outreach to the OneCare Connect **Member** or **Provider** if additional information is necessary to make a determination for the reimbursement request.

6. CalOptima, or a **Health Network,** shall reimburse the OneCare Connect **Member** for the **Covered Service** paid if:

    a. Authorization is required, all authorization policies and procedures were complied with when obtaining the **Covered Services**; and

    b. The **Covered Services** rendered were deemed medically necessary after conclusion of CalOptima or a **Health Network's** Utilization Management departments medical review, as applicable; and

    c. Any payment made directly by a share of cost where the OneCare Connect **Member** exceeded their share of cost; and

    d. The services paid for is a covered benefit under the OneCare Connect program.

7. CalOptima or a **Health Network** shall not reimburse the OneCare Connect **Member** for the service(s) paid if:

    a. The **Member** was ineligible with CalOptima or a **Health Network** on the DOS for which the reimbursement is being requested; or

    b. A **Prior Authorization** was required for the service but not obtained in accordance with CalOptima Policy GG.1508: Authorization and Processing of Referrals; or

    c. The **Member** received out-of-network non-emergency services and did not adhere to CalOptima's Policy GG.1539: Authorization for Out-of-Network and Out-of-Area Services; or

    d. The service(s) rendered were deemed medically unnecessary after medical review conducted by CalOptima or a **Health Network's** Utilization Management department; or

    e. The payment made by the OneCare Connect **Member** did not exceed their share of cost; or

    f. The service obtained is not a covered benefit.

8. Within sixty (60) calendar days from receiving a OneCare Connect **Member** request for reimbursement, if CalOptima or a **Health Network** denies a OneCare Connect **Member's** reimbursement request, CalOptima or a **Health Network** shall provide a written and telephonic notice to the **Member** of the following information:

    a. A detailed explanation of the reason(s) for the denial;

    b. An explanation of the OneCare Connect **Member's** financial responsibility; and

    c. The OneCare Connect **Member's** right to appeal CalOptima's or a **Health Network's** decision.

9. A OneCare Connect **Member** shall have a right to appeal CalOptima's or a **Health Network's** decision for the reimbursement request, in accordance with CalOptima Policies CMC.9003: Standard Appeal and CMC.9005: Payment Appeal.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
9. Consider Approval of Revisions to the Medi-Cal Palliative Care Services Policy

Contact
Tracy Hitzeman, RN, CCM Executive Director Clinical Operations (714) 246-8400

Recommended Action(s)
Approve revisions to CalOptima Policy GG.1550: Palliative Care Services.

Background
Medi-Cal managed care health plans (MCPs) are required to provide palliative care to their members pursuant to Senate Bill (SB) 1004 (Hernandez, Chapter 574, Statutes of 2014). This applies to Medi-Cal managed care members who are not dually eligible for Medicare and Medi-Cal.

Following the October 2017 release of the California Department of Health Care Services (DHCS) APL 17-015: Palliative Care and Medi-Cal Managed Care, CalOptima developed Policy GG.1550 Palliative Care Services. The policy provided for these services without age limitation. The policy was approved by CalOptima's Board of Directors on December 7, 2017.

However, as Pediatric Palliative Care (PPC) was also at that time provided as a Home and Community–Based Services (HCBS) waiver program, as authorized in Section 1915(c) of the Social Security Act, carved–out of CalOptima Contract with the DHCS, there was limited participation of Members under the age of 21 with CalOptima's palliative care program. In Orange County, the Health Care Agency (HCA), California Children's Services (CCS) Division was the administrator of the PPC waiver program.

Pursuant to updated federal and state guidance, effective January 1, 2019, MCPs, including CalOptima, became responsible for providing PPC services to eligible CalOptima Medi-Cal members under the age of 21 under their contract relative to the provision of Early Periodic Screening, Diagnostic and Treatment (EPSDT) services specified in Section 1905(r) of the Social Security Act. DHCS guidance, as set forth in APL 18-020: Palliative Care, outlined eligibility criteria for this population, which are more inclusive than those previously developed for the adult population. Eligible conditions for the pediatric population include those that require intensive long-term treatment, are progressive in nature and those that cause severe disability or extreme vulnerability to health complications.

CalOptima and our Health Networks partnered with HCA CCS to coordinate a smooth transition of services for Members participating in the waiver to palliative care services provided by CalOptima as a Medi-Cal benefit.

Back to Agenda

Discussion

Palliative care is an approach to care delivery that emphasizes the needs of an individual to have relief of physical, mental and emotional symptoms that are distressing to the individual and their family and that decrease the member's quality of life. Active curative treatment may be sought by the member concurrently with palliative care.

In contrast, hospice care, which is also a Medi-Cal benefit is focused primarily on pain and symptom management and curative treatment is no longer part of the individual's treatment plan. Hospice eligibility requirements specify that the member has a life expectancy of six months or less.

The American Board of Medical Specialties approved the designation of Palliative Care and Hospice as a sub-specialty in 2006 with 10 participating Member Boards. Palliative care services may be delivered in an acute/sub-acute hospital, a nursing facility, in the community, or in-home settings.

The American Academy of Pediatrics published Policy Statement "Pediatric Palliative Care and Hospice Care: Commitments, Guidelines, and Recommendations" (2013). The policy advocates for increased availability and use of palliative care services in the pediatric and adolescent population, not reserving services for those in the last stages of life, but rather including services for those with life-threatening or life-shortening conditions.

Policy GG.1550: Palliative Care Services defines the scope of the palliative care program for CalOptima Medi-Cal members. CalOptima revised this policy to ensure compliance with DHCS APL 18-020: Palliative Care. The revisions include, among other things, clarifying that members under the age of twenty-one (21) years old who do not qualify for palliative care services based on the current minimum eligibility criteria may become eligible for such services according to the broader pediatric palliative care eligibility criteria, and requiring CalOptima or a health network to provide medically necessary palliative care services to members under the age of twenty-one (21) years old who satisfy the pediatric palliative care eligibility criteria consistent with the provision of EPSDT services. The revisions also clarify the minimum necessary seven services for palliative care, including palliative care assessment and consultation and care coordination.

Fiscal Impact

The recommended action to approve revisions to CalOptima Policy GG.1550: Palliative Care Services are operational in nature and do not have an anticipated financial impact beyond what was incorporated in the CalOptima Fiscal Year 2019-20 Operating Budget approved by the Board on June 6, 2019.

Rationale for Recommendation

The recommended action will ensure that CalOptima policies and procedures meet state requirements related to the delivery of palliative care services.

Concurrence

Gary Crockett, Chief Counsel

I. PURPOSE

This policy defines the scope of the Palliative Care program for CalOptima Medi-Cal Members.

II. POLICY

A. Effective January 1, 2018, CalOptima shall provide Palliative Care services to Members as outlined in this Policy, Senate Bill (SB) 1004 (2014) and Department of Health Care Services (DHCS) ~~All Plan Letter 17-015: Palliative Care and Medi-Cal Managed Care~~guidance.

B. CalOptima and its Health Networks shall ~~have a network to ensure~~contract with sufficient providers that ~~Members have effective~~have licensed clinical staff with experience and/or training in Palliative Care in order to provide appropriate access to Palliative Care services.

1. CalOptima or a Health Network may authorize Palliative Care to be provided in a variety of settings, including, but not limited to, inpatient, outpatient, or community-based settings. CalOptima or a Health Network must utilize qualified providers for Palliative Care based on the setting and needs of a Member, so long as CalOptima or a Health Network ensures that its providers comply with existing Medi-Cal contracts and policy.

~~1.~~2. CalOptima or a Health Network shall coordinate Palliative Care services utilizing qualified providers, including but not limited to hospitals, long-term care facilities, community clinics, hospice agencies, and other types of community-based providers that include licensed clinical staff with experience and/or training in Palliative Care, and based on the setting and needs of the Member.

C. CalOptima or a Health Network shall provide Medically Necessary Palliative Care services to Members ~~meeting all~~who satisfy the ~~following~~ minimum eligibility requirements~~, including at least one (1) of the disease-specific eligibility criteria as~~ described in Section ~~II.E~~III.A. of this Policy~~:~~.

~~a. The Member is likely to or has started to use the hospital or emergency department to manage his or her advanced disease (unanticipated decompensation and not including elective procedures); and~~

~~b.~~a. ~~The Member has an advanced illness as outlined in Section II.E. of this Policy with appropriate documentation of continued decline in health status, and is not eligible~~

Back to Agenda

for or declines hospice enrollment; and

c.a. The Member's death within a year would not be unexpected based on clinical status; and

d.a. The Member has either received appropriate patient desired medical therapy, or is a Member for whom Member-desired medical therapy is no longer effective. The Member is not in reversible decompensation; and

e.a. The Member, and if applicable, the Member's family/Member-designated support person agrees to:

i. Attempt, as medically/clinically appropriate, in home, residential based or outpatient disease management/palliative care prior to use of the emergency department, and

ii.i. Participate in Advance Care Planning discussions.

D. Disease-Specific Minimum Eligibility Criteria

a. Congestive Heart Failure (CHF) with both:

iii.i. New York Heart Association (NYHA) heart failure classification III or higher or is hospitalized due to CHF as a primary diagnosis with no further invasive interventions planned; and

iv.i. Has an ejection fraction less than 30 percent (30%) for systolic failure or significant co-morbidities.

b.a. Chronic Obstructive Pulmonary Disease (COPD)

i. Forced Expiratory Volume (FEV) less than 35 percent (35%) of predicted and twenty-four (24) hour oxygen requirement of less than three (3) liters per minute; or

ii.i. Twenty-four (24) hour oxygen requirement of greater than or equal to three (3) liters per minute.

c.a. Advanced cancer with both:

i. Stage III or IV solid organ cancer, lymphoma or leukemia; and

ii.i. A Karnofsky Performance Scale (KPS) score less than or equal to 70 or has failure of two (2) lines of standard of care therapy (chemotherapy or radiation therapy).

d.a. Liver disease with:

a. Irreversible liver damage, serum albumin less than 3.0 and International Normalized Ration, (INR) greater than 1.3, and

FOR 20191205BOD REVIEW

Back to Agenda

i. Ascites, subacute bacterial peritonitis, hepatic encephalopathy, hepatorenal syndrome, or recurrent esophageal varices; or

b. Evidence of irreversible liver damage and has a Model for End Stage Liver Disease, (MELD) score of greater than 19.

D. If a Member continues to meet the above minimum eligibility criteria as outlined indescribed in Section III.A. of this Policy or the pediatric Palliative Care eligibility criteria described in Section III.B. of this Policy, he or she may continue to access both Palliative Care and Curative Care until the condition improves, stabilizes, or results in death.

E. Palliative Care services shall include the following services coordinated bywhen Medically Necessary and reasonable for the Provider:palliation or management of a qualified serious illness and related conditions:

1. Advanced Care Planning, including documented discussions between a physician or other qualified healthcare professional and a Member, family member, or legally recognized decision-maker. Counseling that occurs during these discussions shall address, but not be limited to, Advance Directives, such as Physician Orders for Life-Sustaining Treatment (POLST);

2. Palliative Care assessment and consultation, which may be provided at the same time as Advance Care Planning or in subsequent Member conversations. Palliative Care aims to collect both routine medical data and additional personal information not regularly included in a medical history. or Health Risk Assessment. During an initial and/or subsequent Palliative Care consultation or assessment, topics may include, but are not limited to:

   a. Treatment plans, including Palliative Care and Curative Care;

   b. Pain and medication side effects;

   c. Emotional and social challenges;

   d. Spiritual concerns;

   e. Member goals;

   f. Advance Directives, including POLST forms; and

   g. Legally-recognized decision maker.

3. Plan of care developed with the engagement of the Member and/or the Member's Authorized authorized Representativerepresentative. If a Member already has a plan of care, the Provider shall update the plan to reflect any changes resulting from the Palliative Care consultation or Advance Care Planning discussion. The Member's plan of care must include all authorized Palliative Care, including but not limited to pain and symptom management and Curative Care. The plan of care must not include services already received through another Medi-Cal-funded benefit program.

FOR 20191205 BOD REVIEW

Back to Agenda

4. The Palliative Care team shall include a group of individuals who work together to meet the physical, medical, psychosocial, emotional, and spiritual needs of the Member and the Member's family and are able to assist in identifying sources of pain and discomfort of the Member. This may include, but is not limited to, problems with breathing, fatigue, depression, anxiety, insomnia, bowel or bladder, dyspnea, and/or nausea. The Palliative Care team shall also address other issues such as medication services and allied health needs.

    a. The Palliative Care team may include, but is not limited to, the Member's Primary Care Provider (PCP), a registered nurse, licensed vocational nurse or nurse practitioner, and a social worker. Chaplain services may be part of the Palliative Care team. ~~(Chaplain services are not reimbursable through the Medi-Cal program).~~

    b. The Palliative care team members shall provide all authorized Palliative Care services.

5. Care coordination ~~provided by a member of the Palliative Care team, to ensure~~, ensuring continuous assessment of the Member's needs, and ~~to implement~~implementation of the plan of care~~.~~ shall be provided by a member of the Palliative Care team.

6. Pain and symptom management, utilizing prescription drugs, physical therapy and/or other Medically Necessary services to address a Member's pain and other symptoms. The Member's plan of care shall include all services authorized for pain and symptom management.

7. Mental health and medical social services shall be available to the Member to assist in minimizing the stress and psychological problems that may arise from a serious illness, related conditions, and the dying process. Counseling facilitated by the Palliative Care team may include, but is not limited to:

    a. Psychotherapy;

    b. Bereavement counseling;

    c. Medical social services; and

    d. Discharge planning, as appropriate.

    e. Provision of medical social services shall not duplicate Specialty Mental Health Services provided by the Orange County Health Care Agency (HCA) and shall not change CalOptima's or a Health Network's responsibilities for referring to, and coordinating with the Orange County HCA.

F. CalOptima or a Health Network shall periodically assess for changes in the Member's condition or Palliative Care needs. CalOptima or a Health Network may discontinue Palliative Care that is no longer Medically Necessary or reasonable.

~~G.~~ A Member may receive Palliative Care concurrently with Curative Care and may elect to transition to Hospice Care if the Member meets the hospice eligibility criteria. A Member who is twenty-one (21) years of age or older may not ~~receive~~be concurrently enrolled

FOR 20191205BOD REVIEW

Back to Agenda

Palliative Care and Hospice Care ~~concurrently, except as described in Section II.J of this policy.~~

~~I.~~G.. A Member under age of twenty-one (21) may be eligible for Palliative Care and Hospice Care services concurrently with Curative Care ~~through other existing programs such as Home and Community Based Services (HCBS) waiver known as Pediatric Palliative Care Program (PPC) or concurrent care under Section 3202 of the Affordable Care Act (ACA).~~.

H. Effective January 1, 2019, CalOptima or a Health Network shall provide Medically Necessary Palliative Care services to Members who satisfy the pediatric Palliative Care eligibility criteria set forth in Section III.B. of this policy consistent with the provision of Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.

~~J.~~I. CalOptima or a Health Network shall be responsible for providing Hospice Care services for ~~Terminally Ill~~terminally ill Members in accordance with CalOptima Policy GG.1503: CalOptima Hospice Coverage, Notification and Validation Requirements.

~~K.~~J.For Members enrolled in CalOptima Direct, CalOptima shall be responsible for design, planning and implementation of the Palliative Care program in accordance with this Policy and shall monitor, collect, and analyze referral, encounter and claims data to evaluate the effectiveness of Palliative Care services and to promote continuous quality improvement in accordance with Section III.~~B~~D. of this Policy.

~~L.~~K. Health Networks shall be responsible for design, planning, referrals and implementation of Palliative Care services for their Members, at a minimum, in accordance with SB 1004 (2014) and DHCS ~~APL 17-015: Palliative Care and Medi-Cal Managed Care.~~guidance. CalOptima shall ensure Health Networks comply with SB 1004 (2014) and DHCS ~~APL 17-015: Palliative Care and Medi-Cal Managed Care~~guidance and shall provide oversight of Health Network functions and responsibilities, processes, and performance in accordance with CalOptima Policy GG.1619: Delegation Oversight.

~~M.~~L. A Health Network shall collect and submit to CalOptima Palliative Care enrollment, provider, and utilization data in accordance with CalOptima Policies HH.2003: Health Network and Delegated Entity Reporting, EE.~~1101~~1101Δ: Additions, Changes, and Terminations to CalOptima Provider Information, CalOptima Provider Directory, and Web-based Directory, and EE.1111: Health Network Encounter Reporting Requirements. CalOptima shall provide monitoring and oversight for Health Network enrollment and utilization of Palliative Care services as well as aggregation of data required for DHCS reporting in accordance with GG.1541: Utilization Management Delegation and GG.1532: Over and Under Utilization Monitoring.

III. PROCEDURE

A. Minimum Eligibility Criteria

1. Members of any age are eligible to receive Palliative Care services if they meet all of the criteria outlined in Section III.A.2. below, and at least one of the four requirements outlined in Section III.A.3. below.

2. General Eligibility Criteria

FOR 2019 12/5 BOD REVIEW

Back to Agenda

a. The Member is likely to or has started to use the hospital or emergency department to manage his or her advanced disease (unanticipated decompensation and not including elective procedures); and

b. The Member has an advanced illness as outlined in Section III.E~~I~~A.3. of this Policy with appropriate documentation of continued decline in health status, and is not eligible for or declines hospice enrollment; and

c. The Member's death within a year would not be unexpected based on clinical status; and

d. The Member has either received appropriate patient-desired medical therapy or is a Member for whom patient-desired medical therapy is no longer effective. The Member is not in reversible acute decompensation; and

e. The Member, and if applicable, the Member's family/Member-designated support person agrees to:

i. Attempt, as medically/clinically appropriate, in-home, residential-based, or outpatient disease management/palliative care prior to use of the emergency department, and

ii. Participate in Advance Care Planning discussions.

3. Disease-Specific Eligibility Criteria

a. Congestive Heart Failure (CHF) with both:

i. New York Heart Association (NYHA) heart failure classification III or higher or is hospitalized due to CHF as a primary diagnosis with no further invasive interventions planned; and

ii. Has an ejection fraction less than 30 percent (30%) for systolic failure or significant co-morbidities.

b. Chronic Obstructive Pulmonary Disease (COPD)

i. Forced Expiratory Volume (FEV) less than 35 percent (35%) of predicted and twenty-four (24)-hour oxygen requirement of less than three (3) liters per minute; or

ii. Twenty-four (24)-hour oxygen requirement of greater than or equal to three (3) liters per minute.

c. Advanced cancer with both:

i. Stage III or IV solid organ cancer, lymphoma or leukemia; and

ii. A Karnofsky Performance Scale (KPS) score less than or equal to 70 or has failure of two (2) lines of standard of care therapy (chemotherapy or radiation therapy).

FOR 20191205BOD REVIEW

d. Liver disease with:

i. Evidence of irreversible liver damage, serum albumin less than 3.0 and International Normalized Ratio (INR) greater than 1.3, and

ii. Ascites, subacute bacterial peritonitis, hepatic encephalopathy, hepatorenal syndrome, or recurrent esophageal varices; or

iii. Evidence of irreversible liver damage and has a Model for End Stage Liver Disease (MELD) score of greater than 19.

B. Pediatric Palliative Care Eligibility Criteria

1. Members under the age of 21 who do not satisfy the minimum eligibility criteria of Section III.A. of this Policy may become eligible for Palliative Care services if they meet the broader criteria outlined below:

a. The family and/or legal guardian agree to the provision of pediatric Palliative Care services; and

b. There is documentation of a life-threatening diagnosis, which includes but is not limited to:

i. Conditions for which curative treatment is possible, but may fail, including advanced or progressive cancer or complex and severe congenital or acquired heart disease;

ii. Conditions requiring intensive long-term treatment aimed at maintaining quality of life, including human immunodeficiency virus (HIV) infection, cystic fibrosis, or muscular dystrophy;

iii. Progressive conditions for which treatment is exclusively palliative after diagnosis, including progressive metabolic disorders or severe forms of osteogenesis imperfecta; or

iv. Conditions involving severe, non-progressive disability, or causing extreme vulnerability to health complications, including extreme prematurity, severe neurological sequelae of infectious disease or trauma, severe cerebral palsy with recurrent infection, or difficult-to-control symptoms.

~~B.~~C. CalOptima or a Health Network shall authorize Palliative Care services when a Member meets the minimum eligibility requirements in accordance with ~~Sections II.C. and E~~Section III.A. of this Policy without regard to the Member's age or the pediatric Palliative Care eligibility criteria in accordance with Section III.B. of this Policy.

1. For a CalOptima Direct Member, a Provider shall submit a routine Prior Authorization Request (ARF) for Palliative Care based on Medical Necessity and eligibility criteria and in accordance with CalOptima Policies GG.1500: Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers and GG.1508: Authorization and Processing of Referrals.

FOR 20191205BOD REVIEW

Back to Agenda

~~1.~~2. For a Health Network Member, a Provider shall obtain authorization from the Member's Health Network, in accordance with the Health Network's authorization policies and procedures.

~~C.~~D. ~~B.~~ CalOptima shall identify potentially eligible Members for Palliative Care services through various sources, including, but not limited to:

1. Prior Authorization referrals;
2. Concurrent review referrals;
3. Case management referrals;
4. Disease management referrals;
5. Provider referrals; and
6. Claims and encounter data.

~~D.~~E. Provider Training and Education

1. CalOptima shall ensure Provider education and training on Palliative Care services available, identification and referral of eligible Members, and how care will be coordinated between Providers in accordance with CalOptima Policy EE.1103~~:~~A: Provider Education and Training. Provider education shall be provided, at a minimum, as follows:
    a. Provider office education and training;
    b. Provider manual updates;
    c. Provider monthly newsletter; and/or
    d. Provider quarterly Lunch and Learn educational updates.
2. Provider education shall also focus on ensuring Members who are eligible for Palliative Care services are referred from both PCPs, as well as appropriate specialists including, but not limited to:
    a. Oncologists;
    b. Hematologists;
    c. Pulmonologists; and
    d. Cardiologists.

F. CalOptima shall ensure a Member receives Palliative Care services within timely access standards in accordance with CalOptima Policy GG.1600: Access and Availability Standards.

FOR 20191205POD REVIEW

IX. GLOSSARY

Term	Definition
Advance Care Planning	Documented discussions between a physician or other qualified healthcare professional and a patient, family member, or legally-recognized decision-maker.
Advance Directive	A written instruction such as a living will or durable power of attorney for health care, recognized under state law, relating to the provision of health care when a Member is incapacitated.
~~Authorized Representative~~	~~Has the meaning given to the term Personal Representative in section 164.502(g) of Title 45 of the Code of Federal Regulations. A person who has the authority under applicable law to make health care decisions on behalf of adults or emancipated minors, as well as parents, guardians or other persons acting in loco parentis who have the authority under applicable law to make health care decisions on behalf of unemancipated minors and as further described in CalOptima Policy HH.3009: Access by Member's Authorized Representative.~~
CalOptima Direct	A direct health care program operated by CalOptima that includes both COD- Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to Members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Curative Care	Health care practices that treat patients with the intent of curing them, not just reducing their pain or stress
Early and Periodic Screening, Diagnosis, and Treatment (EPSDT)	A comprehensive and preventive child health program for individuals under the age of twenty-one (21) years. EPSDT is defined by law in the Federal Omnibus Budget Reconciliation Act of 1989 and includes periodic screening, vision, dental, and hearing services. In addition, section 1905(r)(5) of the Federal Social Security Act (the Act) requires that any medically necessary health care service listed in section 1905(a) of the Act be provided to an EPSDT recipient even if the service is not available under the State's Medicaid plan to the rest of the Medicaid population.
Health Network	A Physician Hospital Consortium (PHC), physician medical group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Health Risk Assessment	A health questionnaire, used to provide Members with an evaluation of their health risks and quality of life.

FOR 2019 12/5 BOD REVIEW

Back to Agenda

Term	Definition
Hospice Care	The provision of palliative and supportive items and services to a Terminally Ill Member as defined in Title 22 CCR section 51180.2, who has voluntarily elected to receive such care in lieu of curative treatment related to the terminal condition, by a hospice provider or by others under arrangements made by a hospice provider, including: 1. Nursing services; 2. Physical or occupational therapy, or speech-language pathology; 3. Medical social services under the direction of a physician; 4. Home health aide and homemaker services; 5. Medical supplies and appliances; 6. Drugs and biologicals; 7. Physician Services; 8. Short-term inpatient care for pain control or symptom management in a hospital, skilled nursing or hospice facility; 9. Counseling, including bereavement, dietary and spiritual counseling; 10. Continuous nursing services provided on a twenty-four (24)-hour basis only during periods of Crisis and only as necessary to maintain the Terminally Ill Member at home; 11. Inpatient Respite Care provided on an intermittent, non-routine and occasional basis for up to five (5) consecutive days at a time in a hospital, skilled nursing or hospice facility; and 12. Any other palliative item or service for which payment may otherwise be made under the Medi-Cal program and that is included in the Hospice plan of care.
Medically Necessary or Medical Necessity	Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury.
Palliative Care	Patient- and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering.
Primary Care Provider	A Primary Care Provider may be a Primary Care Practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to Members and serves as the medical home for Members.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.

FOR 2019 PCRBOD REVIEW

Back to Agenda

Term	Definition
Specialty Mental Health Services	Rehabilitation services, which include mental health services, medication support services, day treatment intensive, day rehabilitation, crisis intervention, crisis stabilization, adult residential treatment services, crisis residential services and *psychiatric* health facility services. Specialty Mental Health Services may also include: 1. Psychiatric Inpatient Hospital Services; 2. Targeted Case Management; 3. Psychiatrist services; 4. Psychologist services; 5. Early Periodic Screening, Detection, and Treatment (EPSDT) supplemental Specialty Mental Health Services; and/or 6. Psychiatric nursing facility services.

FOR 20191205BOD REVIEW

I. PURPOSE

This policy defines the scope of the Palliative Care program for CalOptima Medi-Cal Members.

II. POLICY

A. Effective January 1, 2018, CalOptima shall provide Palliative Care services to Members as outlined in this Policy, Senate Bill (SB) 1004 (2014) and Department of Health Care Services (DHCS) guidance.

B. CalOptima and its Health Networks shall contract with sufficient providers that have licensed clinical staff with experience and/or training in Palliative Care in order to provide appropriate access to Palliative Care services.

1. CalOptima or a Health Network may authorize Palliative Care to be provided in a variety of settings, including, but not limited to, inpatient, outpatient, or community-based settings. CalOptima or a Health Network must utilize qualified providers for Palliative Care based on the setting and needs of a Member, so long as CalOptima or a Health Network ensures that its providers comply with existing Medi-Cal contracts and policy.

2. CalOptima or a Health Network shall coordinate Palliative Care services utilizing qualified providers, including but not limited to hospitals, long-term care facilities, community clinics, hospice agencies, and other types of community-based providers that include licensed clinical staff with experience and/or training in Palliative Care, and based on the setting and needs of the Member.

C. CalOptima or a Health Network shall provide Medically Necessary Palliative Care services to Members who satisfy the minimum eligibility requirements described in Section III.A. of this Policy.

D. If a Member continues to meet the minimum eligibility criteria described in Section III.A. of this Policy or the pediatric Palliative Care eligibility criteria described in Section III.B. of this Policy, he or she may continue to access both Palliative Care and Curative Care until the condition improves, stabilizes, or results in death.

E. Palliative Care services shall include the following services when Medically Necessary and reasonable for the palliation or management of a qualified serious illness and related conditions:

Back to Agenda

1. Advanced Care Planning, including documented discussions between a physician or other qualified healthcare professional and a Member, family member, or legally recognized decision-maker. Counseling that occurs during these discussions shall address, but not be limited to, Advance Directives, such as Physician Orders for Life-Sustaining Treatment (POLST);

2. Palliative Care assessment and consultation, which may be provided at the same time as Advance Care Planning or in subsequent Member conversations. Palliative Care aims to collect both routine medical data and additional personal information not regularly included in a medical history or Health Risk Assessment. During an initial and/or subsequent Palliative Care consultation or assessment, topics may include, but are not limited to:

    a. Treatment plans, including Palliative Care and Curative Care;

    b. Pain and medication side effects;

    c. Emotional and social challenges;

    d. Spiritual concerns;

    e. Member goals;

    f. Advance Directives, including POLST forms; and

    g. Legally-recognized decision maker.

3. Plan of care developed with the engagement of the Member and/or the Member's authorized representative. If a Member already has a plan of care, the Provider shall update the plan to reflect any changes resulting from the Palliative Care consultation or Advance Care Planning discussion. The Member's plan of care must include all authorized Palliative Care, including but not limited to pain and symptom management and Curative Care. The plan of care must not include services already received through another Medi-Cal-funded benefit program.

4. The Palliative Care team shall include a group of individuals who work together to meet the physical, medical, psychosocial, emotional, and spiritual needs of the Member and the Member's family and are able to assist in identifying sources of pain and discomfort of the Member. This may include, but is not limited to, problems with breathing, fatigue, depression, anxiety, insomnia, bowel or bladder, dyspnea, and/or nausea. The Palliative Care team shall also address other issues such as medication services and allied health needs.

    a. The Palliative Care team may include, but is not limited to, the Member's Primary Care Provider (PCP), a registered nurse, licensed vocational nurse or nurse practitioner, and a social worker. Chaplain services may be part of the Palliative Care team.

    b. The Palliative care team members shall provide all authorized Palliative Care services.

FOR 2019 1205 BOD REVIEW

Back to Agenda

5. Care coordination, ensuring continuous assessment of the Member's needs, and implementation of the plan of care shall be provided by a member of the Palliative Care team.

6. Pain and symptom management, utilizing prescription drugs, physical therapy and/or other Medically Necessary services to address a Member's pain and other symptoms. The Member's plan of care shall include all services authorized for pain and symptom management.

7. Mental health and medical social services shall be available to the Member to assist in minimizing the stress and psychological problems that may arise from a serious illness, related conditions, and the dying process. Counseling facilitated by the Palliative Care team may include, but is not limited to:

    a. Psychotherapy;

    b. Bereavement counseling;

    c. Medical social services; and

    d. Discharge planning, as appropriate.

    e. Provision of medical social services shall not duplicate Specialty Mental Health Services provided by the Orange County Health Care Agency (HCA) and shall not change CalOptima's or a Health Network's responsibilities for referring to, and coordinating with the Orange County HCA.

F. CalOptima or a Health Network shall periodically assess for changes in the Member's condition or Palliative Care needs. CalOptima or a Health Network may discontinue Palliative Care that is no longer Medically Necessary or reasonable.

G. A Member may receive Palliative Care concurrently with Curative Care and may elect to transition to Hospice Care if the Member meets the hospice eligibility criteria. A Member who is twenty-one (21) years of age or older may not be concurrently enrolled Palliative Care and Hospice Care. A Member under age of twenty-one (21) may be eligible for Palliative Care and Hospice Care services concurrently with Curative Care.

H. Effective January 1, 2019, CalOptima or a Health Network shall provide Medically Necessary Palliative Care services to Members who satisfy the pediatric Palliative Care eligibility criteria set forth in Section III.B. of this policy consistent with the provision of Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.

I. CalOptima or a Health Network shall be responsible for providing Hospice Care services for terminally ill Members in accordance with CalOptima Policy GG.1503: CalOptima Hospice Coverage, Notification and Validation Requirements.

J. For Members enrolled in CalOptima Direct, CalOptima shall be responsible for design, planning and implementation of the Palliative Care program in accordance with this Policy and shall monitor, collect, and analyze referral, encounter and claims data to evaluate the effectiveness of Palliative Care services and to promote continuous quality improvement in accordance with Section III.D. of this Policy.

FOR 20191205POD REVIEW

Back to Agenda

K. Health Networks shall be responsible for design, planning, referrals and implementation of Palliative Care services for their Members, at a minimum, in accordance with SB 1004 (2014) and DHCS guidance. CalOptima shall ensure Health Networks comply with SB 1004 (2014) and DHCS guidance and shall provide oversight of Health Network functions and responsibilities, processes, and performance in accordance with CalOptima Policy GG.1619: Delegation Oversight.

L. A Health Network shall collect and submit to CalOptima Palliative Care enrollment, provider, and utilization data in accordance with CalOptima Policies HH.2003: Health Network and Delegated Entity Reporting, EE.1101Δ: Additions, Changes, and Terminations to CalOptima Provider Information, CalOptima Provider Directory, and Web-based Directory, and EE.1111: Health Network Encounter Reporting Requirements. CalOptima shall provide monitoring and oversight for Health Network enrollment and utilization of Palliative Care services as well as aggregation of data required for DHCS reporting in accordance with GG.1541: Utilization Management Delegation and GG.1532: Over and Under Utilization Monitoring.

III. PROCEDURE

A. Minimum Eligibility Criteria

1. Members of any age are eligible to receive Palliative Care services if they meet all of the criteria outlined in Section III.A.2. below, and at least one of the four requirements outlined in Section III.A.3. below.

2. General Eligibility Criteria

a. The Member is likely to or has started to use the hospital or emergency department to manage his or her advanced disease (unanticipated decompensation and not including elective procedures); and

b. The Member has an advanced illness as outlined in Section III.A.3. of this Policy with appropriate documentation of continued decline in health status, and is not eligible for or declines hospice enrollment; and

c. The Member's death within a year would not be unexpected based on clinical status; and

d. The Member has either received appropriate patient-desired medical therapy or is a Member for whom patient-desired medical therapy is no longer effective. The Member is not in reversible acute decompensation; and

e. The Member, and if applicable, the Member's family/Member-designated support person agrees to:

i. Attempt, as medically/clinically appropriate, in-home, residential-based, or outpatient disease management/palliative care prior to use of the emergency department, and

ii. Participate in Advance Care Planning discussions.

FOR 20191205BOD REVIEW

Back to Agenda

3. Disease-Specific Eligibility Criteria

a. Congestive Heart Failure (CHF) with both:

i. New York Heart Association (NYHA) heart failure classification III or higher or is hospitalized due to CHF as a primary diagnosis with no further invasive interventions planned; and

ii. Has an ejection fraction less than 30 percent (30%) for systolic failure or significant co-morbidities.

b. Chronic Obstructive Pulmonary Disease (COPD)

i. Forced Expiratory Volume (FEV) less than 35 percent (35%) of predicted and twenty-four (24)-hour oxygen requirement of less than three (3) liters per minute; or

ii. Twenty-four (24)-hour oxygen requirement of greater than or equal to three (3) liters per minute.

c. Advanced cancer with both:

i. Stage III or IV solid organ cancer, lymphoma or leukemia; and

ii. A Karnofsky Performance Scale (KPS) score less than or equal to 70 or has failure of two (2) lines of standard of care therapy (chemotherapy or radiation therapy).

d. Liver disease with:

i. Evidence of irreversible liver damage, serum albumin less than 3.0 and International Normalized Ratio (INR) greater than 1.3, and

ii. Ascites, subacute bacterial peritonitis, hepatic encephalopathy, hepatorenal syndrome, or recurrent esophageal varices; or

iii. Evidence of irreversible liver damage and has a Model for End Stage Liver Disease (MELD) score of greater than 19.

B. Pediatric Palliative Care Eligibility Criteria

1. Members under the age of 21 who do not satisfy the minimum eligibility criteria of Section III.A. of this Policy may become eligible for Palliative Care services if they meet the broader criteria outlined below:

a. The family and/or legal guardian agree to the provision of pediatric Palliative Care services; and

b. There is documentation of a life-threatening diagnosis, which includes but is not limited to:

FOR 20191205BOD REVIEW

Back to Agenda

i. Conditions for which curative treatment is possible, but may fail, including advanced or progressive cancer or complex and severe congenital or acquired heart disease;

ii. Conditions requiring intensive long-term treatment aimed at maintaining quality of life, including human immunodeficiency virus (HIV) infection, cystic fibrosis, or muscular dystrophy;

iii. Progressive conditions for which treatment is exclusively palliative after diagnosis, including progressive metabolic disorders or severe forms of osteogenesis imperfecta; or

iv. Conditions involving severe, non-progressive disability, or causing extreme vulnerability to health complications, including extreme prematurity, severe neurological sequelae of infectious disease or trauma, severe cerebral palsy with recurrent infection, or difficult-to-control symptoms.

C. CalOptima or a Health Network shall authorize Palliative Care services when a Member meets the minimum eligibility requirements in accordance with Section III.A. of this Policy without regard to the Member's age or the pediatric Palliative Care eligibility criteria in accordance with Section III.B. of this Policy.

1. For a CalOptima Direct Member, a Provider shall submit a routine Prior Authorization Request (ARF) for Palliative Care based on Medical Necessity and eligibility criteria and in accordance with CalOptima Policies GG.1500: Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers and GG.1508: Authorization and Processing of Referrals.

2. For a Health Network Member, a Provider shall obtain authorization from the Member's Health Network, in accordance with the Health Network's authorization policies and procedures.

D. CalOptima shall identify potentially eligible Members for Palliative Care services through various sources, including, but not limited to:

1. Prior Authorization referrals;

2. Concurrent review referrals;

3. Case management referrals;

4. Disease management referrals;

5. Provider referrals; and

6. Claims and encounter data.

E. Provider Training and Education

FOR 20191205POD REVIEW

Back to Agenda

1. CalOptima shall ensure Provider education and training on Palliative Care services available, identification and referral of eligible Members, and how care will be coordinated between Providers in accordance with CalOptima Policy EE.1103Δ: Provider Education and Training. Provider education shall be provided, at a minimum, as follows:

    a. Provider office education and training;

    b. Provider manual updates;

    c. Provider monthly newsletter; and/or

    d. Provider quarterly Lunch and Learn educational updates.

2. Provider education shall also focus on ensuring Members who are eligible for Palliative Care services are referred from both PCPs, as well as appropriate specialists including, but not limited to:

    a. Oncologists;

    b. Hematologists;

    c. Pulmonologists; and

    d. Cardiologists.

F. CalOptima shall ensure a Member receives Palliative Care services within timely access standards in accordance with CalOptima Policy GG.1600: Access and Availability Standards.

G. A Member shall be entitled to appeals and grievance procedures in accordance with CalOptima Policies GG.1510: Appeal Process, HH.1102: Member Grievance, and HH.1108: State Hearing Process and Procedures.

H. CalOptima shall report Palliative Care data to DHCS in a manner and format required by DHCS.

IX. GLOSSARY

Term	Definition
Advance Care Planning	Documented discussions between a physician or other qualified healthcare professional and a patient, family member, or legally-recognized decision-maker.
Advance Directive	A written instruction such as a living will or durable power of attorney for health care, recognized under state law, relating to the provision of health care when a Member is incapacitated.
CalOptima Direct	A direct health care program operated by CalOptima that includes both COD- Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to Members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Curative Care	Health care practices that treat patients with the intent of curing them, not just reducing their pain or stress
Early and Periodic Screening, Diagnosis, and Treatment (EPSDT)	A comprehensive and preventive child health program for individuals under the age of twenty-one (21) years. EPSDT is defined by law in the Federal Omnibus Budget Reconciliation Act of 1989 and includes periodic screening, vision, dental, and hearing services. In addition, section 1905(r)(5) of the Federal Social Security Act (the Act) requires that any medically necessary health care service listed in section 1905(a) of the Act be provided to an EPSDT recipient even if the service is not available under the State's Medicaid plan to the rest of the Medicaid population.
Health Network	A Physician Hospital Consortium (PHC), physician medical group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Health Risk Assessment	A health questionnaire, used to provide Members with an evaluation of their health risks and quality of life.

FOR 20191205BOD REVIEW

Back to Agenda

Term	Definition
Hospice Care	The provision of palliative and supportive items and services to a Terminally Ill Member as defined in Title 22 CCR section 51180.2, who has voluntarily elected to receive such care in lieu of curative treatment related to the terminal condition, by a hospice provider or by others under arrangements made by a hospice provider, including: 1. Nursing services; 2. Physical or occupational therapy, or speech-language pathology; 3. Medical social services under the direction of a physician; 4. Home health aide and homemaker services; 5. Medical supplies and appliances; 6. Drugs and biologicals; 7. Physician Services; 8. Short-term inpatient care for pain control or symptom management in a hospital, skilled nursing or hospice facility; 9. Counseling, including bereavement, dietary and spiritual counseling; 10. Continuous nursing services provided on a twenty-four (24)-hour basis only during periods of Crisis and only as necessary to maintain the Terminally Ill Member at home; 11. Inpatient Respite Care provided on an intermittent, non-routine and occasional basis for up to five (5) consecutive days at a time in a hospital, skilled nursing or hospice facility; and 12. Any other palliative item or service for which payment may otherwise be made under the Medi-Cal program and that is included in the Hospice plan of care.
Medically Necessary or Medical Necessity	Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury.
Palliative Care	Patient- and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering.
Primary Care Provider	A Primary Care Provider may be a Primary Care Practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to Members and serves as the medical home for Members.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.

FOR 2019 PCRBOD REVIEW

Back to Agenda

Term	Definition
Specialty Mental Health Services	Rehabilitation services, which include mental health services, medication support services, day treatment intensive, day rehabilitation, crisis intervention, crisis stabilization, adult residential treatment services, crisis residential services and *psychiatric* health facility services. Specialty Mental Health Services may also include: 1. Psychiatric Inpatient Hospital Services; 2. Targeted Case Management; 3. Psychiatrist services; 4. Psychologist services; 5. Early Periodic Screening, Detection, and Treatment (EPSDT) supplemental Specialty Mental Health Services; and/or 6. Psychiatric nursing facility services.

FOR 20191205BOD REVIEW

Back to Agenda

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 7, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

23. Consider Approving Palliative Care Policy and Procedure (P&P) and Authorizing Execution of Agreement with the Department of Health Care Services to Fund the P&P's Implementation

Contact

Richard Helmer, M.D., Chief Medical Officer, (714) 246-8400
Tracy Hitzeman, RN, Executive Director, Clinical Operations, (714) 246-8400

Recommended Actions

1. Approve CalOptima's palliative care policy and procedure; and
2. Authorize and direct the Chairman of the CalOptima Board of Directors to execute a stand-alone agreement with the Department of Health Care Services (DHCS) to fund implementation of the palliative care policies and procedures.

Background

Senate Bill 1004 (Hernandez, Chapter 574, Statutes of 2014) requires the DHCS to "establish standards and provide technical assistance for Medi-Cal managed care plans to ensure delivery of palliative care services." As palliative care is already a benefit, DHCS has indicated there will be no rate adjustment for managed Medi-Cal plans. CalOptima intends to compensate providers on a fee-for-service basis for services provided in the direct networks (CalOptima Community Network and CalOptima Direct) using the standard CalOptima contracting processes and fee schedule.

Several technical assistance meetings have been held by DHCS with managed care plans, providers and other stakeholders. In October 2017, APL 17-015 Palliative Care and Medi-Cal Managed Care was published. The APL provides managed care plans with direction to approve palliative care services when a beneficiary meets minimum general and disease-specific eligibility criteria, effective January 1, 2018.

On November 15, 2017, DHCS sent CalOptima a draft contract to allow DHCS to fund the development of CalOptima's Palliative Care policies and procedures as a one-time payment in the amount of $50,000. CalOptima staff developed these documents and forwarded them to DHCS for review. On November 15, 2017 DHCS approved this P&P.

Discussion

Palliative care is an approach to care delivery that emphasizes the needs of an individual to have relief of physical, mental and emotional symptoms that are distressing to the individual and their family and that decrease the member's quality of life. Active curative treatment may be sought by the member concurrently with palliative care.

Back to Agenda

The American Board of Medical Specialties approved the designation of Palliative Care and Hospice as a sub-specialty in 2006 with 10 participating Member Boards. Palliative care services may be delivered in an acute/sub-acute hospital, a nursing facility, in the community, or in-home settings.

Many of CalOptima's Health Networks already have well-structured palliative care services program. Additional funding from the state will be used to implement the Palliative Care Policy and Procedures including outreach and education to practitioners, networks and other providers, oversight of delegated entities and data collection, analysis and submission to DHCS. CalOptima's implementation of APL 17-015 Palliative Care and Managed Medi-Cal will increase awareness of the palliative care, provide uniform reporting of the services, meet the requirements as outlined in SB 1004 and most importantly, increase member access to these services.

Numerous studies have demonstrated, and it is CalOptima's and DHCS' assumption, that palliative care can prevent inappropriate utilization of services. Using reporting processes that will be implemented pursuant to the attached policy, CalOptima will be able to better analyze palliative care services and its overall cost. We anticipate that the resulting data will affirm those assumptions.

Fiscal Impact

The CalOptima Fiscal Year (FY) 2017-18 Operating Budget approved by the Board on June 1, 2017, included expenses related to palliative care services, as one component of overall medical costs. Due to the challenges associated with quantifying specific costs and savings, the budget did not include forecasts specific to palliative care services. However, staff believes the use of palliative care services for appropriate individuals are expected to result in an overall decrease to the cost of care or be budget neutral.

Rationale for Recommendation

The actions recommended will support ongoing and increased focus on addressing CalOptima members' relief of physical, mental and emotional symptoms, while allowing for continued access to curative care in the instances of significant illness. By addressing needs in a proactive, structured and consistent manner, the member will experience an improved quality of life and decreased incidence of uncontrolled symptoms that may lead to inappropriate ED visits, hospitalizations and other medical services. Additionally, the implementation of the policy and procedure will allow CalOptima to adhere to DHCS reporting requirements.

Concurrence

DRAFT

I. PURPOSE

This policy defines the scope of the Palliative Care program for CalOptima Medi-Cal Members.

II. POLICY

A. Effective January 1, 2018, CalOptima shall provide Palliative Care services to Members as outlined in this Policy, Senate Bill (SB) 1004 (2014) and Department of Health Care Services (DHCS) All Plan Letter 17-015: Palliative Care and Medi-Cal Managed Care.

B. CalOptima and its Health Networks shall have a network to ensure that Members have effective and appropriate access to Palliative Care services.

C. CalOptima or a Health Network shall coordinate Palliative Care services utilizing qualified providers, including but not limited to hospitals, long-term care facilities, community clinics, hospice agencies, and other types of community-based providers that include licensed clinical staff with experience and/or training in Palliative Care, and based on the setting and needs of the Member.

D. CalOptima or a Health Network shall provide Medically Necessary Palliative Care services to Members meeting all the following minimum eligibility requirements, including at least one (1) of the disease-specific eligibility criteria as described in Section II.E. of this Policy:

1. The Member is likely to or has started to use the hospital or emergency department to manage his or her advanced disease (unanticipated decompensation and not including elective procedures); and

2. The Member has an advanced illness as outlined in Section II.E. of this Policy with appropriate documentation of continued decline in health status, and is not eligible for or declines hospice enrollment; and

3. The Member's death within a year would not be unexpected based on clinical status; and

4. The Member has either received appropriate patient desired medical therapy, or is a Member for whom Member-desired medical therapy is no longer effective. The Member is not in reversible decompensation; and

Back to Agenda

5. The Member, and if applicable, the Member's family/Member-designated support person agrees to:

    a. Attempt, as medically/clinically appropriate, in-home, residential-based or outpatient disease management/palliative care prior to use of the emergency department, and

    b. Participate in Advance Care Planning discussions.

E. Disease-Specific Minimum Eligibility Criteria

1. Congestive Heart Failure (CHF) with both:

    a. New York Heart Association (NYHA) heart failure classification III or higher or is hospitalized due to CHF as a primary diagnosis with no further invasive interventions planned; and

    b. Has an ejection fraction less than 30 percent (30%) for systolic failure or significant co-morbidities.

2. Chronic Obstructive Pulmonary Disease (COPD)

    a. Forced Expiratory Volume (FEV) less than 35 percent (35%) of predicted and twenty-four (24)-hour oxygen requirement of less than three (3) liters per minute; or

    b. Twenty-four (24)-hour oxygen requirement of greater than or equal to three (3) liters per minute.

3. Advanced cancer with both:

    a. Stage III or IV solid organ cancer, lymphoma or leukemia; and

    b. A Karnofsky Performance Scale (KPS) score less than or equal to 70 or has failure of two (2) lines of standard of care therapy (chemotherapy or radiation therapy).

4. Liver disease with:

    a. Irreversible liver damage, serum albumin less than 3.0 and International Normalized Ration, (INR) greater than 1.3, and

    b. Ascites, subacute bacterial peritonitis, hepatic encephalopathy, hepatorenal syndrome, or recurrent esophageal varices; or

    c. Evidence of irreversible liver damage and has a Model for End Stage Liver Disease, (MELD) score of greater than 19.

F. If a Member continues to meet the above minimum eligibility criteria as outlined in this Policy, he or she may continue to access both Palliative Care and Curative Care until the condition improves, stabilizes, or results in death.

G. Palliative Care services shall include the following services coordinated by the Provider:

DRAFT

Back to Agenda

1. Advanced Care Planning, including documented discussions between a physician or other qualified healthcare professional and a Member, family member, or legally recognized decision-maker. Counseling that occurs during these discussions shall address, but not be limited to, Advance Directives, such as Physician Orders for Life-Sustaining Treatment (POLST);

2. Palliative Care assessment and consultation, which may be provided at the same time as Advance Care Planning or in subsequent Member conversations to collect both routine medical data and additional personal information not regularly included in a medical history. During an initial and/or subsequent Palliative Care consultation or assessment, topics may include, but are not limited to:

    a. Treatment plans, including Palliative Care and Curative Care;

    b. Pain and medication side effects;

    c. Emotional and social challenges;

    d. Spiritual concerns;

    e. Member goals;

    f. Advance Directives, including POLST forms; and

    g. Legally-recognized decision maker.

3. Plan of care developed with the engagement of the Member and/or the Member's Authorized Representative. If a Member already has a plan of care, the Provider shall update the plan to reflect any changes resulting from the Palliative Care consultation or Advance Care Planning discussion. The Member's plan of care must include all authorized Palliative Care, including but not limited to pain and symptom management and Curative Care. The plan of care must not include services already received through another Medi-Cal-funded benefit program.

4. The Palliative Care team shall include a group of individuals who work together to meet the physical, medical, psychosocial, emotional and spiritual needs of the Member and the Member's family and are able to assist in identifying sources of pain and discomfort of the Member. This may include, but is not limited to, problems with breathing, fatigue, depression, anxiety, insomnia, bowel or bladder, dyspnea, and/or nausea. The Palliative Care team shall also address other issues such as medication services and allied health needs.

    a. The Palliative Care team may include, but is not limited to, the Member's Primary Care Provider (PCP), a registered nurse, licensed vocational nurse or nurse practitioner, and a social worker. Chaplain services may be part of the Palliative Care team.

    b. The Palliative care team members shall provide all authorized Palliative Care services.

DRAFT

Back to Agenda

5. Care coordination provided by a member of the Palliative Care team, to ensure continuous assessment of the Member's needs and to implement the plan of care.

6. Pain and symptom management, utilizing prescription drugs, physical therapy and/or other Medically Necessary services to address a Member's pain and other symptoms. The Member's plan of care shall include all services authorized for pain and symptom management.

7. Mental health and medical social services shall be available to the Member to assist in minimizing the stress and psychological problems that may arise from a serious illness, related conditions, and the dying process. Counseling facilitated by the Palliative Care team may include, but is not limited to:

   a. Psychotherapy;

   b. Bereavement counseling;

   c. Medical social services; and

   d. Discharge planning, as appropriate.

   e. Provision of medical social services shall not duplicate Specialty Mental Health Services provided by the Orange County Health Care Agency (HCA) and shall not change CalOptima's or a Health Network's responsibilities for referring to, and coordinating with the Orange County HCA.

H. CalOptima or a Health Network shall periodically assess for changes in the Member's condition or Palliative Care needs. CalOptima or a Health Network may discontinue Palliative Care that is no longer Medically Necessary or reasonable.

I. A Member may receive Palliative Care concurrently with Curative Care and may elect to transition to Hospice Care if the Member meets the hospice eligibility criteria. A Member may not receive Palliative Care and Hospice Care concurrently, except as described in Section II.J of this policy.

J. A Member under age of twenty-one (21) may be eligible for Palliative Care and Hospice Care services concurrently with Curative Care through other existing programs such as Home and Community Based Services (HCBS) waiver known as Pediatric Palliative Care Program (PPC) or concurrent care under Section 3202 of the Affordable Care Act (ACA).

K. CalOptima or a Health Network shall be responsible for providing Hospice Care services for Terminally Ill Members in accordance with CalOptima Policy GG.1503: CalOptima Hospice Coverage, Notification and Validation Requirements.

L. For Members enrolled in CalOptima Direct, CalOptima shall be responsible for design, planning and implementation of the Palliative Care program in accordance with this Policy and shall monitor, collect, and analyze referral, encounter and claims data to evaluate the effectiveness of Palliative Care services and to promote continuous quality improvement in accordance with Section III.B. of this Policy.

DRAFT

Back to Agenda

M. Health Networks shall be responsible for design, planning, referrals and implementation of Palliative Care services for their Members, at a minimum, in accordance with SB 1004 (2014) and DHCS APL 17-015: Palliative Care and Medi-Cal Managed Care. CalOptima shall ensure Health Networks comply with SB 1004 (2014) and DHCS APL 17-015: Palliative Care and Medi-Cal Managed Care and shall provide oversight of Health Network functions and responsibilities, processes, and performance in accordance with CalOptima Policy GG.1619: Delegation Oversight.

N. A Health Network shall collect and submit to CalOptima Palliative Care enrollment, provider, and utilization data in accordance with CalOptima Policies HH.2003: Health Network Reporting, EE.1101: Additions, Changes, and Terminations to CalOptima Provider Information, CalOptima Provider Directory, and Web-based Directory, and EE.1111: Health Network Encounter Reporting Requirements. CalOptima shall provide monitoring and oversight for Health Network enrollment and utilization of Palliative Care services as well as aggregation of data required for DHCS reporting in accordance with GG.1541: Utilization Management Delegation and GG.1532: Over and Under Utilization Monitoring.

III. PROCEDURE

A. CalOptima or a Health Network shall authorize Palliative Care services when a Member meets the minimum eligibility requirements in accordance with Sections II.C. and E. of this Policy without regard to the Member's age.

1. For a CalOptima Direct Member, a Provider shall submit a routine Prior Authorization Request (ARF) for Palliative Care based on Medical Necessity and eligibility criteria and in accordance with CalOptima Policies GG.1500: Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers and GG.1508: Authorization and Processing of Referrals. For a Health Network Member, a Provider shall obtain authorization from the Member's Health Network, in accordance with the Health Network's authorization policies and procedures.

B. CalOptima shall identify potentially eligible Members for Palliative Care services through various sources, including, but not limited to:

1. Prior Authorization referrals;

2. Concurrent review referrals;

3. Case management referrals;

4. Disease management referrals;

5. Provider referrals; and

6. Claims and encounter data.

C. Provider Training and Education

DRAFT

Back to Agenda

1. CalOptima shall ensure Provider education and training on Palliative Care services available, identification and referral of eligible Members, and how care will be coordinated between Providers in accordance with CalOptima Policy EE.1103: Provider Education and Training. Provider education shall be provided, at a minimum, as follows:

    a. Provider office education and training;

    b. Provider manual updates;

    c. Provider monthly newsletter; and/or

    d. Provider quarterly Lunch and Learn educational updates.

2. Provider education shall also focus on ensuring Members who are eligible for Palliative Care services are referred from both PCPs, as well as appropriate specialists including, but not limited to:

    a. Oncologists;

    b. Hematologists;

    c. Pulmonologists; and

    d. Cardiologists.

D. CalOptima shall ensure a Member receives Palliative Care services within timely access standards in accordance with CalOptima Policy GG.1600: Access and Availability.

E. A Member shall be entitled to appeals and grievance procedures in accordance with CalOptima Policies GG.1510: Appeals Process for Decisions Regarding Care and Services, HH.1102: CalOptima Member Complaint, and HH.1108: State Hearing Process and Procedures.

F. CalOptima shall report Palliative Care data to DHCS in a manner and format required by DHCS.

IX. GLOSSARY

Term	Definition
Advance Care Planning	Documented discussions between a physician or other qualified healthcare professional and a patient, family member, or legally-recognized decision-maker.
Advance Directive	A written instruction such as a living will or durable power of attorney for health care, recognized under state law, relating to the provision of health care when a Member is incapacitated.
Authorized Representative	Has the meaning given to the term Personal Representative in section 164.502(g) of Title 45 of the Code of Federal Regulations. A person who has the authority under applicable law to make health care decisions on behalf of adults or emancipated minors, as well as parents, guardians or other persons acting in loco parentis who have the authority under applicable law to make health care decisions on behalf of unemancipated minors and as further described in CalOptima Policy HH.3009: Access by Member's Authorized Representative.
CalOptima Direct	A direct health care program operated by CalOptima that includes both COD- Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to Members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Curative Care	Health care practices that treat patients with the intent of curing them, not just reducing their pain or stress
Health Network	A Physician Hospital Consortium (PHC), physician medical group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Health Risk Assessment	A health questionnaire, used to provide Members with an evaluation of their health risks and quality of life.

DRAFT

Back to Agenda

Term	Definition
Hospice Care	The provision of palliative and supportive items and services to a Terminally Ill Member as defined in Title 22 CCR section 51180.2, who has voluntarily elected to receive such care in lieu of curative treatment related to the terminal condition, by a hospice provider or by others under arrangements made by a hospice provider, including: 1. Nursing services; 2. Physical or occupational therapy, or speech-language pathology; 3. Medical social services under the direction of a physician; 4. Home health aide and homemaker services; 5. Medical supplies and appliances; 6. Drugs and biologicals; 7. Physician Services; 8. Short-term inpatient care for pain control or symptom management in a hospital, skilled nursing or hospice facility; 9. Counseling, including bereavement, dietary and spiritual counseling; 10. Continuous nursing services provided on a twenty-four (24)-hour basis only during periods of Crisis and only as necessary to maintain the Terminally Ill Member at home; 11. Inpatient Respite Care provided on an intermittent, non-routine and occasional basis for up to five (5) consecutive days at a time in a hospital, skilled nursing or hospice facility; and 12. Any other palliative item or service for which payment may otherwise be made under the Medi-Cal program and that is included in the Hospice plan of care.
Medically Necessary or Medical Necessity	Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury.
Palliative Care	Patient- and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering.
Primary Care Provider	A Primary Care Provider may be a Primary Care Practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to Members and serves as the medical home for Members.
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes Covered Services.

DRAFT

Back to Agenda

Term	Definition
Specialty Mental Health Services	Rehabilitation services, which include mental health services, medication support services, day treatment intensive, day rehabilitation, crisis intervention, crisis stabilization, adult residential treatment services, crisis residential services and *psychiatric* health facility services. Specialty Mental Health Services may also include: 1. Psychiatric Inpatient Hospital Services; 2. Targeted Case Management; 3. Psychiatrist services; 4. Psychologist services; 5. Early Periodic Screening, Detection, and Treatment (EPSDT) supplemental Specialty Mental Health Services; and/or 6. Psychiatric nursing facility services.

DATE: December 7, 2018

ALL PLAN LETTER 18-020
SUPERSEDES ALL PLAN LETTER 17-015

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: PALLIATIVE CARE

PURPOSE:
The purpose of this All Plan Letter (APL) is to inform Medi-Cal managed care health plans (MCPs) of their obligation to provide palliative care to their members pursuant to Senate Bill (SB) 1004 (Hernandez, Chapter 574, Statutes of 2014) and under their contract relative to the provision of Early Periodic Screening, Diagnostic and Treatment (EPSDT) services.[1] The requirements discussed in this APL specifically apply to Medi-Cal managed care members who are not dually eligible for Medicare and Medi-Cal.

BACKGROUND:
SB 1004 requires the Department of Health Care Services (DHCS) to establish standards and provide technical assistance to MCPs for the delivery of palliative care.[2] Palliative care consists of patient- and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering. The provision of palliative care does not result in the elimination or reduction of any covered benefits or services under the MCP contracts and does not affect a member's eligibility to receive any services, including home health services, for which the member would have been eligible in the absence of receiving palliative care.

Hospice care is a Medi-Cal benefit that serves terminally ill members. It consists of interventions that focus primarily on pain and symptom management rather than a cure or the prolongation of life. To qualify for hospice care, a Medi-Cal member must have a life expectancy of six months or less. Further information regarding Medi-Cal hospice care is available in APL 13-014, titled "Hospice Services and Medi-Cal Managed Care," including any future iterations of this APL.[3]

Unlike hospice, palliative care does not require the member to have a life expectancy of six months or less, and palliative care may be provided concurrently with curative care. A member with a serious illness who is receiving palliative care may choose to transition to hospice care if the member meets the hospice eligibility criteria. A member 21 years of age or older may not be concurrently enrolled in hospice care and palliative care.

A member under 21 years of age may be eligible for palliative care and hospice services concurrently with curative care under the Patient Protection and Affordable Care Act (ACA) Section 2302, as detailed in CMS Letter #10-018.[4] Information regarding the concurrent care policy is available in Policy Letter (PL) 11-004, titled "The Implementation of Section 2302 of the Affordable Care Act, titled 'Concurrent Care for Children'"; APL 13-014; and the appropriate California Children's Services (CCS) Numbered Letter (NL), including any future iterations of these letters.[5, 6] Additionally, members who are eligible for EPSDT may receive other services.[7] Accordingly, MCPs must provide EPSDT eligible members with any other necessary health care, diagnostic services, treatment, and other measures described in Section 1905(a) of the Social Security Act (SSA) to correct or ameliorate defects, physical and mental illnesses, and conditions discovered by the screening services, whether or not such services are covered under the California State Plan. Services must also be provided when medically necessary to prevent disease, disability, and other health conditions or their progression, to prolong life, and promote physical, and mental health and efficiency.[8] Information regarding the policy for EPSDT services is available in APL 18-007, titled "Requirements of Coverage of Early and Periodic Screening, Diagnostic, and Treatment Services for Medi-Cal Members Who Transition into Medi-Cal Managed Care," including any future iterations of this APL.

POLICY:
DHCS' SB 1004 Medi-Cal Palliative Care Policy specifies the minimum types of palliative care services that MCPs must authorize when medically necessary for members who meet the eligibility criteria.[9] MCPs must either adopt DHCS' minimum

Back to Agenda

eligibility criteria for palliative care, or they may submit broader eligibility criteria to DHCS for approval.

I. Eligibility Criteria

Members of any age are eligible to receive palliative care services if they meet all of the criteria outlined in Section I.A. below, and at least one of the four requirements outlined in Section I.B.

Members under the age of 21 years who do not qualify for services based on the above criteria may become eligible for palliative care services according to the broader criteria outlined in Section I.C. below, consistent with the provision of EPSDT services.

A. General Eligibility Criteria:

1. The member is likely to, or has started to, use the hospital or emergency department as a means to manage the member's advanced disease; this refers to unanticipated decompensation and does not include elective procedures.

2. The member has an advanced illness, as defined in section I.B below, with appropriate documentation of continued decline in health status, and is not eligible for or declines hospice enrollment.

3. The member's death within a year would not be unexpected based on clinical status.

4. The member has either received appropriate patient-desired medical therapy or is an individual for whom patient-desired medical therapy is no longer effective. The member is not in reversible acute decompensation.

5. The member and, if applicable, the family/member-designated support person, agrees to:
    a. Attempt, as medically/clinically appropriate, in-home, residential-based, or outpatient disease management/palliative care instead of first going to the emergency department; and
    b. Participate in Advance Care Planning discussions.

Back to Agenda

B. Disease-Specific Eligibility Criteria:

1. Congestive Heart Failure (CHF): Must meet (a) and (b)
    a. The member is hospitalized due to CHF as the primary diagnosis with no further invasive interventions planned or meets criteria for the New York Heart Association's (NYHA) heart failure classification III or higher;[10] and
    b. The member has an ejection fraction of less than 30 percent for systolic failure or significant co-morbidities.

2. Chronic Obstructive Pulmonary Disease: Must meet (a) or (b)
    a. The member has a forced expiratory volume (FEV) of 1 less than 35 percent of predicted and a 24-hour oxygen requirement of less than three liters per minute; or
    b. The member has a 24-hour oxygen requirement of greater than or equal to three liters per minute.

3. Advanced Cancer: Must meet (a) and (b)
    a. The member has a stage III or IV solid organ cancer, lymphoma, or leukemia; and
    b. The member has a Karnofsky Performance Scale score less than or equal to 70 or has failure of two lines of standard of care therapy (chemotherapy or radiation therapy).

4. Liver Disease: Must meet (a) and (b) combined or (c) alone
    a. The member has evidence of irreversible liver damage, serum albumin less than 3.0, and international normalized ratio greater than 1.3, and
    b. The member has ascites, subacute bacterial peritonitis, hepatic encephalopathy, hepatorenal syndrome, or recurrent esophageal varices; or
    c. The member has evidence of irreversible liver damage and has a Model for End Stage Liver Disease (MELD) score greater than 19.[11]

[10] NYHA classifications are available at: http://www.heart.org/HEARTORG/Conditions/HeartFailure/AboutHeartFailure/Classes-of-Heart-Failure_UCM_306328_Article.jsp#.WefN7rpFxxo
[11] The MELD score calculator is available at: https://optn.transplant.hrsa.gov/resources/allocation-calculators/meld-calculator

Back to Agenda

C. Pediatric Palliative Care Eligibility Criteria:

Must meet (a) and (b) listed below. Members under 21 years of age may be eligible for palliative care and hospice services concurrently with curative care.[12]

a. The family and/or legal guardian agree to the provision of pediatric palliative care services; and
b. There is documentation of a life-threatening diagnosis. This can include but is not limited to:
    1. Conditions for which curative treatment is possible, but may fail (e.g., advanced or progressive cancer or complex and severe congenital or acquired heart disease); or
    2. Conditions requiring intensive long-term treatment aimed at maintaining quality of life (e.g., human immunodeficiency virus infection, cystic fibrosis, or muscular dystrophy); or
    3. Progressive conditions for which treatment is exclusively palliative after diagnosis (e.g., progressive metabolic disorders or severe forms of osteogenesis imperfecta); or
    4. Conditions involving severe, non-progressive disability, or causing extreme vulnerability to health complications (e.g., extreme prematurity, severe neurologic sequelae of infectious disease or trauma, severe cerebral palsy with recurrent infection or difficult-to-control symptoms).

If the member continues to meet the above minimum eligibility criteria or pediatric palliative care eligibility criteria, the member may continue to access both palliative care and curative care until the condition improves, stabilizes, or results in death. MCPs must have a process to identify members who are eligible for palliative care, including a provider referral process.[13] MCPs must periodically assess the member for changes in the member's condition or palliative care needs. MCPs may discontinue palliative care that is no longer medically necessary or no longer reasonable.

For children who have an approved CCS-eligible condition, CCS remains responsible (in non-Whole Child Model counties) for medical treatment for the CCS-eligible condition, and the MCP is responsible for the provision of palliative care services related to the CCS-eligible condition.

---

[12] CMS Letter #10-018 is available at: https://www.medicaid.gov/Federal-Policy-Guidance/downloads/SMD10018.pdf

[13] MCPs may receive referrals from in-network or out-of-network providers, such as primary care providers, specialty providers, and Specialty Care Centers. MCPs must review all referrals received to make medical necessity determinations for palliative care services.

II. Palliative Care Services

Effective January 1, 2018, when a member meets the minimum eligibility criteria for palliative care, MCPs must authorize palliative care without regard to age. Palliative care must include, at a minimum, the following seven services when medically necessary and reasonable for the palliation or management of a qualified serious illness and related conditions:

A. Advance Care Planning: Advance care planning for members enrolled in Medi-Cal palliative care under SB 1004 includes documented discussions between a physician or other qualified healthcare professional and a patient, family member, or legally-recognized decision-maker. Counseling that takes place during these discussions addresses, but is not limited to, advance directives, such as Physician Orders for Life-Sustaining Treatment (POLST) forms. Please refer to the section on advance care planning in the Provider Manual for further details.[14]

B. Palliative Care Assessment and Consultation: Palliative care assessment and consultation services may be provided at the same time as advance care planning or in subsequent patient conversations. The palliative care consultation aims to collect both routine medical data and additional personal information not regularly included in a medical history or Health Risk Assessment. During an initial and/or subsequent palliative care consultation or assessment, topics may include, but are not limited to:
    - Treatment plans, including palliative care and curative care
    - Pain and medicine side effects
    - Emotional and social challenges
    - Spiritual concerns
    - Patient goals
    - Advance directives, including POLST forms
    - Legally-recognized decision maker

C. Plan of Care: A plan of care should be developed with the engagement of the member and/or the member's representative(s) in its design. If a member already has a plan of care, that plan should be updated to reflect any changes resulting from the palliative care consultation or advance care planning discussion. A member's plan of care must include all authorized palliative care, including but not limited to pain and symptom management and curative care. The plan of care

[14] Medi-Cal Provider Manual Evaluation and Management is available at http://files.medi-cal.ca.gov/pubsdoco/publications/masters-mtp/part2/eval_m00o03.doc.

must not include services already received through another Medi-Cal funded benefit program (e.g. CCS Program).

D. Palliative Care Team: The palliative care team is a group of individuals who work together to meet the physical, medical, psychosocial, emotional, and spiritual needs of a member and of the member's family and are able to assist in identifying the member's sources of pain and discomfort. This may include problems with breathing, fatigue, depression, anxiety, insomnia, bowel or bladder, dyspnea, nausea, etc. The palliative care team will also address other issues such as medication services and allied health. The team members must provide all authorized palliative care. DHCS recommends that the palliative care team include, but is not limited to the following team members: a doctor of medicine or osteopathy (Primary Care Provider if MD or DO); a registered nurse; a licensed vocational nurse or nurse practitioner (NP) (Primary Care Provider if NP); and a social worker. DHCS also recommends that MCPs provide access to chaplain services as part of the palliative care team. Chaplain services provided as palliative care are not reimbursable through the Medi-Cal program.

E. Care Coordination: A member of the palliative care team must provide coordination of care, ensure continuous assessment of the member's needs, and implement the plan of care.

F. Pain and Symptom Management: The member's plan of care must include all services authorized for pain and symptom management. Adequate pain and symptom management is an essential component of palliative care. Prescription drugs, physical therapy and other medically necessary services may be needed to address a member's pain and other symptoms.

Mental Health and Medical Social Services: Counseling and social services must be available to the member to assist in minimizing the stress and psychological problems that arise from a serious illness, related conditions, and the dying process. Counseling services facilitated by the palliative care team may include, but are not limited to: psychotherapy, bereavement counseling, medical social services, and discharge planning as appropriate. Provision of medical social services must not duplicate specialty mental health services provided by county Mental Health Plans (MHPs). Furthermore, provision of medical and social services does not change the MCP's responsibility for referring to, and coordinating with, county MHPs, as delineated in APL 17-018 "Medi-Cal Managed Care Health Plan Responsibilities for Outpatient Mental Health Services," including any subsequent revisions.

Back to Agenda

MCPs must have a process to determine the type of palliative care that is medically necessary or reasonable for eligible members. MCPs must have an adequate network of palliative care providers to meet the needs of their members.

Furthermore, MCPs may authorize additional palliative care not described above, at the MCP's discretion and cost. Examples of additional services offered by many community-based palliative care programs include a telephonic palliative care support line that is separate from a routine advice line and is available 24 hours a day/7 days a week, and expressive therapies, such as creative art, music, massage and play therapy, for the pediatric population.

III. Providers

MCPs may authorize palliative care to be provided in a variety of settings, including, but not limited to, inpatient, outpatient, or community-based settings. MCPs must utilize qualified providers for palliative care based on the setting and needs of a member, so long as the MCP ensures that its providers comply with existing Medi-Cal contracts and policy. DHCS recommends that MCPs use providers who possess current palliative care training and/or certification to conduct palliative care consultations or assessments.

MCPs may contract with hospitals, long-term care facilities, clinics, hospice agencies, home health agencies, and other types of community-based providers that include licensed clinical staff with experience and/or training in palliative care. MCPs may contract with different types of providers depending on local provider qualifications and the need to reflect the diversity of their membership. Community-Based Adult Services facilities may be considered palliative care partners for facilitating advance care planning or palliative care referrals. Palliative care provided in a member's home must comply with existing Medi-Cal requirements for in-home providers, services, and authorization, such as physician assessments and care plans. MCPs must inform and educate providers regarding availability of the palliative care benefit.

IV. MCP Policies and Procedures

The MCP's written policies and procedures for palliative care must describe the MCP's policy to meet the requirements for the palliative care benefit as indicated within this APL, including how MCPs will monitor and collect palliative care enrollment, provider, and utilization data to report to DHCS, as specified.

MCPs are responsible for ensuring that their delegates and subcontractors comply with all applicable state and federal laws and regulations, contract requirements, and other

Back to Agenda

DHCS guidance, including APLs and PLs. MCPs must communicate these requirements to all their delegated entities and subcontractors.

If you have any questions regarding this APL, please contact your Managed Care Operations Division Contract Manager.

Sincerely,

Original signed by Nathan Nau

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 5, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item
10. Consider Approval of Modifications to CalOptima's Medical Policies and Procedures

Contact
David Ramirez, M.D., Chief Medical Officer (714) 246-8400
Tracy Hitzeman, Executive Director, Clinical Operations (714) 246-8400

Recommended Action(s)
Authorize updates to the existing Policies and Procedures in connection with CalOptima's regular review process and consistent with regulatory requirements, as follows:

1. GG.1105: Coverage for Organ Tissue Transplant [Medi-Cal]
2. MA.6044: Coverage of Solid Organ and Stem Cell Transplants [OneCare, OneCare Connect]
3. GG.1327: Coordination for Dual-Eligible members, Not Enrolled in OneCare Connect, with LTSS [Medi-Cal]
4. GG.1423: Medication Quality Assurance Program [Medi-Cal]

Background/Discussion

CalOptima updates its Policies and Procedures to comply with new regulatory programs. Most recently CalOptima implemented the Whole Child Model on July 1, 2019 and will implement the Health Homes Program on January 1, 2020.

Whole Child Model (WCM): The California Children's Services (CCS) is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children under age 21 who meet eligibility criteria based on financial and medical conditions. Beginning July 1, 2019 CCS services were incorporated into CalOptima.

Health Homes Program (HHP): The HHP is designed to serve eligible Medi-Cal beneficiaries with complex medical needs and chronic conditions who may benefit from enhanced care management and coordination. The HHP coordinates the full range of physical health, behavioral health, and community-based long-term services and supports needed by eligible members. Implementation is expected to begin January 1, 2020, for CalOptima Medi-Cal members with eligible chronic physical conditions and Substance Use Disorders (SUD), and July 1, 2020, for CalOptima Medi-Cal members with eligible Serious Mental Illness (SMI).

Below is information regarding additional policies that require modification including revisions related to WCM and HHP, as well as some clarification related to existing operations:

1. ***GG.1105: Coverage for Organ Tissue Transplant*** outlines the transplant coverage for CalOptima members under the Medi-Cal program. CalOptima revised this policy pursuant to the CalOptima annual review process to ensure policy compliance with the implementation of the WCM program and the DHCS APL 18-023: California Children's Services WCM. Revisions include extending the coverage to CCS-eligible members and providing clarity regarding

approved CCS-approved Special Care Centers where CCS-eligible members may receive services.

2. ***MA.6044: Coverage of Solid Organ and Stem Cell Transplants*** outlines the coverage of solid organ and stem cell transplants and related care and services for CalOptima members in the OneCare and OneCare Connect programs. CalOptima developed this new policy to specifically address OneCare and OneCare Connect members. This policy language was previously contained in CalOptima Policy GG.1105: Coverage of Organ and Tissue Transplants.

3. ***GG.1327: Coordination for Dual-Eligible Members, Not Enrolled in OneCare Connect, with LTSS*** was revised pursuant to the CalOptima annual review process to ensure compliance with Department of Health Care Services (DHCS) All Plan Letter (APL) 18-012: Health Homes Program Requirements, clarify appropriate referral of HHP, remove references to SPD members, and align the policy with current operational processes and regulatory requirements.

4. ***GG.1423: Medication Quality Assurance Program*** was revised pursuant to the CalOptima review process to ensure alignment with current operational processes and regulatory requirements to include compliance with the Department of Health Care Services (DHCS) All Plan Letter (APL) 18-012: Health Homes Program Requirements. The policy clarifies the requirements for Medication management tools, including e-prescribing, drug formulary checks, and medication reconciliation.

Fiscal Impact

The recommended actions to revise CalOptima Policies GG.1105, MA.6044, GG.1327 and GG.1423 are operational in nature. Staff does not anticipate any additional fiscal impact beyond what was incorporated in the CalOptima Fiscal Year 2019-20 Operating Budget, approved by the Board on June 6, 2019.

Rationale for Recommendation

To ensure CalOptima's continuing commitment to conducting its operations in compliance with ethical and legal standards and all applicable laws, regulations, and rules, CalOptima staff recommends that the Board approve and adopt the presented CalOptima Policies and Procedures. The updated Policies and Procedures will supersede the prior versions.

Concurrence

Gary Crockett, Chief Counsel

FOR 20191205 BOD REVIEW

I. PURPOSE

This policy defines Transplant coverage for CalOptima Members ~~under the Medi-Cal program~~.

II. POLICY

A. A Transplant shall be a Covered Service if a Member meets the patient selection criteria as defined in Section II.B. of this policy:

1. ~~For the Medi-Cal and OneCare Connect program, a~~A Transplant shall be a Covered Service~~,~~ if a Member is twenty-one (21) years of age or older.

2. ~~For the Medi-Cal program~~Effective July 1, 2019, a Transplant shall be a ~~service covered under the California Children's Services (CCS) program~~Covered Service for Members eligible ~~Members less than twenty-one (21) years of age.~~with the Whole-Child Model (WCM) program.

B. Selection Criteria

1. A Transplant shall be a Covered Service upon CalOptima's or a Health Network's determination that the Member is a candidate for a Transplant, is compliant with all requirements, and does not have significant contraindications for the Transplant~~.~~ as follows:

   a. ~~CalOptima~~ Except for Members enrolled in a Health Maintenance Organization (HMO) that is responsible for all Covered Services for its assigned Members under its contract with CalOptima, CalOptima shall be responsible for the provision and payment of ~~all services~~ Covered Services related to the Transplant, including~~,~~ but not limited to~~,~~ evaluation of potential Donors and procurement from living~~,~~ or deceased~~,~~ Donors~~.~~ in accordance with this Policy and CalOptima Policies GG.1313: Coordination of Care for Transplant Members, FF.1005a Special Payments – Bone Marrow Transplant and Solid Organ Transplant and FF.2001: Claims Processing for Covered Services Rendered to CalOptima Direct-Administrative Members, CalOptima Community Network Members, or Members Enrolled in a Shared Risk Group.

2. A Transplant~~,~~ and related services~~,~~ shall be Covered Services if:

   a. A Provider or Practitioner obtains authorization for these services from CalOptima in accordance with CalOptima Policies GG.1500 Authorization Instructions for CalOptima

Back to Agenda

Direct and CalOptima Community Network Providers, GG.1508 Authorization and Processing of Referrals and GG.1535 Utilization Review Criteria and Guidelines;

~~a.~~b. The Transplant is performed in ~~a Centers for Medicare & Medicaid Services (CMS) or Department of Health Care Services (DHCS)~~ an approved ~~Transplant Center for that specific Transplant~~facility, as set forth in Section III.A. of this policy; and

~~b.~~c. The Member ~~meets~~is accepted at the ~~patient selection criteria~~approved facility for the following Transplants:

i. Heart;

ii. Heart and lung;

iii. Lung;

iv. Bone marrow;

v. Liver;

vi. Small bowel;

vii. Kidney;

viii. Pancreas;

ix. Combined liver and kidney;

x. Combined liver and small bowel;

xi. Combined kidney and pancreas; and/or

xii. Cornea, skin, tendon and sclera transplants.

4. Renal Transplants

a. A renal Transplant and related services are Covered Services if the Transplant is performed at a ~~CMS or~~ DHCS-approved Transplant Center.

b. ~~For Medi-Cal Members,~~ A renal Transplant and related services are Covered Services for Members with a CCS-eligible condition if the Transplant is performed at a DHCS-approved Special Care Renal Dialysis and Transplant Center.

~~b.~~c. CalOptima shall consider the selection criteria for a renal Transplant as met if CalOptima determines that the Transplant is Medically Necessary, in accordance with Title 22, California Code of Regulations (CCR.), Sections 51003 and 51218.

~~c.~~d. CalOptima is responsible for the provision of all services related to a renal Transplant including, but not limited to, evaluation of potential Donors and nephrectomy from living, or deceased, Donors.

5. Cornea, Skin, Tendon, and Sclera Transplants

FOR 20191205BOD REVIEW

Back to Agenda

a. A Transplant and related services for cornea, skin, tendon, and sclera are Covered Services if the Transplant is performed at a ~~Medicare or~~ Medi-Cal facility or at a designated Special Care Center for Members with a CCS-eligible condition.

b. CalOptima shall consider the selection criteria for such Transplants as met if CalOptima determines that the Transplant is Medically Necessary, in accordance with Title 22, California Code of Regulations (CCR), Section 51003.

III. PROCEDURE

A. ~~CMS- and~~ DHCS-approved Transplant Centers and CCS-approved Transplant Special Care Centers

1. A ~~CMS- or~~ DHCS-approved Transplant Center ~~for all Transplants, excluding renal transplants,~~ is a facility that is approved by ~~CMS or~~ DHCS to provide specific Transplant services for Medi-Cal Members.

2. A ~~CMS- or~~CCS-approved Transplant Center for all Transplants is a Special Care Center that is approved by DHCS, to provide specific Transplant Services for CCS WCM-eligible Members~~.~~ as determined by CCS in accordance with CalOptima Policy GG.1101:— Whole-Child Model / California Children's Services.

~~2.~~3. A DHCS-approved Transplant Center for a renal Transplant for a renal Transplant is a facility that:

a. Is certified for, and participates in, the Medicare program;

b. Meets standards established by CMS~~,~~ or DHCS; and

c. Is certified by DHCS, to participate in the Medi-Cal program.

~~3.~~4. CalOptima or a Health Network shall identify a ~~CMS- or~~ DHCS CCS-approved Transplant Special Care Center~~,~~ based upon information, documentation~~,~~ and representation received from ~~CMS~~DHCS and ~~DHCS~~CCS.

~~4.~~5. CalOptima's Chief Medical Officer (CMO)~~,~~ or Designee~~,~~ shall have the authority to determine CalOptima coverage of a Transplant performed at a ~~CMS- or~~ DHCS-approved Transplant Center, whose certification by ~~CMS or~~ DHCS is probationary.

6. CalOptima's Chief Medical Officer (CMO)~~,~~ or Designee~~,~~ shall have the authority to determine CalOptima coverage of a Transplant performed at a DHCS- and CCS-approved Transplant Special Care Center, whose certification by DHCS CCS is probationary.

~~5.~~7. If a CMS- or DHCS-approved Transplant Center loses its certification by DHCS or CMS, CalOptima shall have the right to transfer any Members who are awaiting Transplants at such facility.

8. If a DHCS CCS-approved Transplant Special Care Center loses its certification by DHCS CCS, CalOptima ~~and a Health Network~~ shall ~~authorize~~have the right to transfer any Members who are awaiting Transplants at such facility.

B. A DHCS -approved Transplant Center for ~~Medi-Cal Members,~~Bone Marrow, Heart, Lung, Liver or Kidney Transplants is a Special Care Center that:

FOR 2019 205BOD REVIEW

Back to Agenda

a. Provides comprehensive, coordinated health care to CCS clients with specific medical conditions.

b. Meets standards established by DHCS; and

~~a.~~c. Is approved by DHCS to participate in ~~accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.~~the CCS program

~~B.~~C. CalOptima shall process and pay claims for Transplants and related services in accordance with CalOptima Policies FF.1005a: Special Payments – Bone Marrow Transplant and Solid Organ Transplant, and FF.2001: Claims Processing for Covered Services Rendered to CalOptima Direct-Administrative Members, CalOptima Community Network Members, or Members Enrolled in a Shared Risk Group.

IX. GLOSSARY

FOR 20191205BOD REVIEW

Back to Agenda

Term	Definition
Bone Marrow Transplant	A procedure in which a patient's bone marrow is destroyed by chemotherapy or radiotherapy and replaced with new bone marrow from a Donor. The Donor may be the patient (autologous), a sibling with human histocompatibility antigens (HL-A) identical to the patient's, or a matched unrelated donor (MUD) with human histocompatibility antigens (HL-A) that meet the Department of Health Care Services (DHCS) standards.
California Children's Services (CCS)	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible individuals under the age of twenty-one (21) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR) Sections 41515.2 through 41518.9.
Covered Services	Medi-Cal: Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program. OneCare: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Centers of Medicare & Medicaid Services (CMS) Contract. OneCare Connect: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Three-Way Agreement with the Department of Health Care Services (DHCS) and Centers for Medicare & Medicaid Services (CMS) Contract.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
DHCS-approved Transplant Center	Facilities that are approved by the Department of Health Care Services (DHCS) to provide specific Transplant services. For renal transplants, a DHCS-approved Transplant Center is a facility that: 1. Is certified for, and participates in, the Medicare program: and 2. Meets standards established by DHCS and is certified by DHCS to participate in the Medi-Cal program.
Donor	For the purposes of this policy, refers to an individual who undergoes a surgical operation for the purpose of donating a body organ or human tissue or cells for Transplant.

Term	Definition
Medically Necessary or Medical Necessity	Necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or Treatment of disease, illness, or injury. Services must be provided in a way that provides all protections to the Enrollee provided by Medicare and Medi-Cal. Per Medicare, services must be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. § 1395y. In accordance with Title XIX law and related regulations, and per Medi-Cal, medical necessity means reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury under WIC Section 14059.5.
Member	An enrollee-beneficiary of a CalOptima program.
Solid Organ Transplant	A Transplant for: 1. Heart; 2. Heart and lung; 3. Lung; 4. Liver; 5. Small bowel; 6. Kidney; 7. Combined liver and kidney; 8. Combine liver and small bowel; or 9. Combined kidney and pancreas
Transplant	A non-experimental procedure for human tissue or organ Transplant.

I. PURPOSE

This policy defines Transplant coverage for CalOptima Members under the Medi-Cal program.

II. POLICY

A. A Transplant shall be a Covered Service if a Member meets the patient selection criteria as defined in Section II.B. of this policy:

1. A Transplant shall be a Covered Service if a Member is twenty-one (21) years of age or older.

2. Effective July 1, 2019, a Transplant shall be a Covered Service for Members eligible with the Whole-Child Model (WCM) program.

B. Selection Criteria

1. A Transplant shall be a Covered Service upon CalOptima's or a Health Network's determination that the Member is a candidate for a Transplant, is compliant with all requirements, and does not have significant contraindications for the Transplant as follows:

   a. Except for Members enrolled in a Health Maintenance Organization (HMO) that is responsible for all Covered Services for its assigned Members under its contract with CalOptima, CalOptima shall be responsible for the provision and payment of Covered Services related to the Transplant, including but not limited to evaluation of potential Donors and procurement from living or deceased Donors in accordance with this Policy and CalOptima Policies GG.1313: Coordination of Care for Transplant Members, FF.1005a Special Payments – Bone Marrow Transplant and Solid Organ Transplant and FF.2001: Claims Processing for Covered Services Rendered to CalOptima Direct-Administrative Members, CalOptima Community Network Members, or Members Enrolled in a Shared Risk Group.

2. A Transplant and related services shall be Covered Services if:

   a. A Provider or Practitioner obtains authorization for these services from CalOptima in accordance with CalOptima Policies GG.1500 Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers, GG.1508 Authorization and Processing of Referrals and GG.1535 Utilization Review Criteria and Guidelines;

   b. The Transplant is performed in an approved facility, as set forth in Section III.A. of this policy; and

   c. The Member is accepted at the approved facility for the following Transplants:

Back to Agenda

i. Heart;

ii. Heart and lung;

iii. Lung;

iv. Bone marrow;

v. Liver;

vi. Small bowel;

vii. Kidney;

viii. Pancreas;

ix. Combined liver and kidney;

x. Combined liver and small bowel;

xi. Combined kidney and pancreas; and/or

xii. Cornea, skin, tendon and sclera transplants.

4. Renal Transplants

a. A renal Transplant and related services are Covered Services if the Transplant is performed at a DHCS-approved Transplant Center.

b. A renal Transplant and related services are Covered Services for Members with a CCS-eligible condition if the Transplant is performed at a DHCS-approved Special Care Renal Dialysis and Transplant Center.

c. CalOptima shall consider the selection criteria for a renal Transplant as met if CalOptima determines that the Transplant is Medically Necessary, in accordance with Title 22, California Code of Regulations (CCR.), Sections 51003 and 51218.

d. CalOptima is responsible for the provision of all services related to a renal Transplant including, but not limited to, evaluation of potential Donors and nephrectomy from living, or deceased, Donors.

5. Cornea, Skin, Tendon, and Sclera Transplants

a. A Transplant and related services for cornea, skin, tendon, and sclera are Covered Services if the Transplant is performed at a Medi-Cal facility or at a designated Special Care Center for Members with a CCS-eligible condition.

b. CalOptima shall consider the selection criteria for such Transplants as met if CalOptima determines that the Transplant is Medically Necessary, in accordance with Title 22, California Code of Regulations (CCR), Section 51003.

III. PROCEDURE

FOR 20191205BOD REVIEW

Back to Agenda

A. DHCS-approved Transplant Centers and CCS-approved Transplant Special Care Centers

1. A DHCS-approved Transplant Center is a facility that is approved by DHCS to provide specific Transplant services for Medi-Cal Members.

2. A CCS-approved Transplant Center for all Transplants is a Special Care Center that is approved by DHCS, to provide specific Transplant Services for CCS WCM-eligible Members as determined by CCS in accordance with CalOptima Policy GG.1101: Whole-Child Model / California Children's Services.

3. A DHCS-approved Transplant Center for a renal Transplant for a renal Transplant is a facility that:

   a. Is certified for, and participates in, the Medicare program;

   b. Meets standards established by CMS or DHCS; and

   c. Is certified by DHCS, to participate in the Medi-Cal program.

4. CalOptima or a Health Network shall identify a DHCS CCS-approved Transplant Special Care Center based upon information, documentation and representation received from DHCS and CCS.

5. CalOptima's Chief Medical Officer (CMO) or Designee shall have the authority to determine CalOptima coverage of a Transplant performed at a DHCS-approved Transplant Center, whose certification by DHCS is probationary.

6. CalOptima's Chief Medical Officer (CMO) or Designee shall have the authority to determine CalOptima coverage of a Transplant performed at a DHCS- and CCS-approved Transplant Special Care Center, whose certification by DHCS CCS is probationary.

7. If a CMS- or DHCS-approved Transplant Center loses its certification by DHCS or CMS, CalOptima shall have the right to transfer any Members who are awaiting Transplants at such facility.

8. If a DHCS CCS-approved Transplant Special Care Center loses its certification by DHCS CCS, CalOptima shall have the right to transfer any Members who are awaiting Transplants at such facility.

B. A DHCS -approved Transplant Center for Bone Marrow, Heart, Lung, Liver or Kidney Transplants is a Special Care Center that:

   a. Provides comprehensive, coordinated health care to CCS clients with specific medical conditions.

   b. Meets standards established by DHCS; and

   c. Is approved by DHCS to participate in the CCS program

Bone Marrow Transplant	A procedure in which a patient's bone marrow is destroyed by chemotherapy or radiotherapy and replaced with new bone marrow from a Donor. The Donor may be the patient (autologous), a sibling with human histocompatibility antigens (HL-A) identical to the patient's, or a matched unrelated donor (MUD) with human histocompatibility antigens (HL-A) that meet the Department of Health Care Services (DHCS) standards.
California Children's Services (CCS)	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible individuals under the age of twenty-one (21) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR) Sections 41515.2 through 41518.9.
Covered Services	Medi-Cal: Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program. OneCare: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Centers of Medicare & Medicaid Services (CMS) Contract. OneCare Connect: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Three-Way Agreement with the Department of Health Care Services (DHCS) and Centers for Medicare & Medicaid Services (CMS) Contract.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
DHCS-approved Transplant Center	Facilities that are approved by the Department of Health Care Services (DHCS) to provide specific Transplant services. For renal transplants, a DHCS-approved Transplant Center is a facility that: 1. Is certified for, and participates in, the Medicare program: and 2. Meets standards established by DHCS and is certified by DHCS to participate in the Medi-Cal program.
Donor	For the purposes of this policy, refers to an individual who undergoes a surgical operation for the purpose of donating a body organ or human tissue or cells for Transplant.

FOR 2019 0205 BOD REVIEW

Back to Agenda

Term	Definition
Medically Necessary or Medical Necessity	Necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or Treatment of disease, illness, or injury. Services must be provided in a way that provides all protections to the Enrollee provided by Medicare and Medi-Cal. Per Medicare, services must be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. § 1395y. In accordance with Title XIX law and related regulations, and per Medi-Cal, medical necessity means reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury under WIC Section 14059.5.
Member	An enrollee-beneficiary of a CalOptima program.
Solid Organ Transplant	A Transplant for: 1. Heart; 2. Heart and lung; 3. Lung; 4. Liver; 5. Small bowel; 6. Kidney; 7. Combined liver and kidney; 8. Combine liver and small bowel; or 9. Combined kidney and pancreas
Transplant	A non-experimental procedure for human tissue or organ Transplant.

Policy:	MA.6044
Title:	**Coverage of Solid Organ and Stem Cell Transplants**
Department:	Medical Affairs
Section:	Utilization Management
CEO Approval:	Michael Schrader
Effective Date:	12/05/2019
Revised Date:	Not Applicable
Applicable to:	☒ OneCare ☒ OneCare Connect

FOR 20191205BOD REVIEW

I. PURPOSE

This policy defines the coverage of **Solid Organ** and **Stem Cell Transplants** and related care and services for CalOptima **Members** in the OneCare and OneCare Connect Programs.

II. POLICY

A. A **Solid Organ** or **Stem Cell Transplant** shall be a **Covered Service** upon CalOptima's or a **Health Network's** determination that the **Member** is a candidate for a **Transplant**, is compliant with all requirements, and does not have significant contraindications for the **Transplant**.

B. CalOptima or a **Health Network** shall be responsible for the provision and payment of **Covered Services** related to a **Transplant** including the following:

1. Pre-transplant evaluation, including physician, psychological and social work consultations, necessary lab work and imaging;

2. Evaluation of potential **Donors** and organ/stem cell procurement fees;

3. **Transplant** care, including inpatient facility and professional fees:

4. Post-transplant care, including **Medically Necessary** immunosuppressant drugs.

C. A **Solid Organ** or **Stem Cell Transplant** and related services shall be **Covered Services** if:

1. A **Provider** or **Practitioner** obtains prior authorization for these services from CalOptima or a **Health Network** in accordance with CalOptima Policy GG.1508: Authorization and Processing of Referrals. The **Transplant** meets **Medically Necessity** and utilization review criteria and guidelines for coverage of the **Solid Organ** or **Stem Cell Transplant** and related services as described in CalOptima Policy GG.1535: Utilization Review Criteria and Guidelines.

2. The **Transplant** is performed at an approved facility, as set forth in Section III.A. of this policy; and

3. The **Member** is accepted at the approved facility for the following **Transplants**

   a. Heart;

   b. Lung;

*Terms in **bold** are defined in the Glossary.

Back to Agenda

c. Heart/Lung;

d. Kidney;

e. Pancreas;

f. Kidney/Pancreas;

g. Liver;

h. Intestine;

i. Liver/Intestine; and

j. Stem Cell.

D. CalOptima or a **Health Network** shall not approve the following **Transplants**:

1. **Transplants** that are experimental/investigational in nature, unless in a qualified Medicare-approved clinical trial;

2. Combined kidney and liver **Transplant**;

3. Pancreas **Transplant** for diabetic **Members** who have not experienced end stage renal failure secondary to diabetes;

4. Partial pancreatic tissue transplantation;

5. Adult liver transplantation for malignancies (excluding hepatocellular carcinoma); and

6. Nationally non-covered indications in the respective National Coverage Determinations.

E. Routine costs for Investigational Services associated with a Clinical Trial may be covered by CalOptima or a **Health Network** in accordance with CalOptima Policy GG.1102: Experimental and Investigational Service Coverage.

F. CalOptima or a **Health Network** shall provide notification on decisions for services requiring prior authorization in accordance with CalOptima Policy GG.1507: Notification Requirements for **Covered Services** Requiring Prior Authorization**.**

G. When CalOptima or a **Health Network** authorize a **Member** to receive a **Transplant** outside of CalOptima's **Service Area**, CalOptima or a **Health Network** shall cover reasonable expenses for transportation to and lodging at the distant location for the **Member** and a companion.

H. **Transplants** not covered under OneCare or OneCare Connect programs, may be covered under the CalOptima Medi-Cal program as set forth in CalOptima Policy GG.1105: Coverage of Organ and Tissue **Transplants**.

III. PROCEDURE

A. **Centers for Medicare & Medicaid Services (CMS)**-approved **Transplant** Centers

FOR 20191205BOD REVIEW

1. A **Transplant** must be performed in a **CMS**-approved **Transplant** Center for that specific **Transplant** type; as required by **CMS** and the decision based on Medicare coverage criteria, including national and local coverage determinations (NCDs and LCDs)

2. CalOptima or a **Health Network** shall identify a **CMS**-approved **Transplant Center**, based upon information, documentation, and representation received from **CMS**.

3. CalOptima or a **Health Networks'** Chief Medical Officer (CMO) or **Designee** shall have the authority to determine coverage of a **Transplant** performed at a **CMS**-approved **Transplant Center**, whose certification by **CMS** is probationary.

4. If a **CMS**-approved **Transplant** Center loses its certification by **CMS**, CalOptima shall have the right to transfer any **Members** who are awaiting Transplants at such facility.

IX. GLOSSARY

Term	Definition
Centers for Medicare & Medicaid Services (CMS)	The federal agency under the United States Department of Health and Human Services responsible for administering the Medicare and Medicaid programs.
Covered Services	OneCare: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Centers of Medicare & Medicaid Services (CMS) Contract. OneCare Connect: Those medical services, equipment, or supplies that CalOptima is obligated to provide to Members under the Three-Way Agreement with the Department of Health Care Services (DHCS) and Centers for Medicare & Medicaid Services (CMS) Contract.
Designee	A person selected or designated to carry out a duty or role. The assigned designee is required to be in management or hold the appropriate qualifications or certifications related to the duty or role.
Donor	For the purposes of this policy, refers to an individual who undergoes a surgical operation for the purpose of donating a solid organ or stem cells for Transplant.
Medically Necessary or Medical Necessity	Necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or Treatment of disease, illness, or injury. Services must be provided in a way that provides all protections to the Enrollee provided by Medicare and Medi-Cal. Per Medicare, services must be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, or otherwise medically necessary under 42 U.S.C. § 1395y. In accordance with Title XIX law and related regulations, and per Medi-Cal, medical necessity means reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury under WIC Section 14059.5.
Member	An enrollee-beneficiary of a CalOptima program.
Practitioner	OneCare: A licensed independent practitioner including but not limited to a Doctor of Medicine (MD), Doctor of Osteopathy (DO), Doctor of Podiatric Medicine (DPM), Doctor of Chiropractic Medicine (DC), Doctor of Dental Surgery (DDS), Doctor of Psychology (PhD or PsyD), Licensed Clinical Social Worker (LCSW), Marriage and Family Therapist (MFT or MFCC), Nurse Practitioner (NP), Nurse Midwife, Physician Assistant (PA), Optometrist (OD), Registered Physical Therapist (RPT), Occupational Therapist (OT), Speech and Language Therapist furnishing Covered Services as described in OneCare Policies. OneCare Connect: A licensed independent practitioner including but not limited to a Doctor of Medicine (MD), Doctor of Osteopathy (DO), Doctor of Podiatric Medicine (DPM), Doctor of Chiropractic Medicine (DC), Doctor of Dental Surgery (DDS), Doctor of Psychology (PhD or PsyD), Licensed Clinical Social Worker (LCSW), Marriage and Family Therapist (MFT or MFCC), Nurse Practitioner (NP), Nurse Midwife, Physician Assistant (PA), Optometrist (OD), Registered Physical Therapist (RPT), Occupational Therapist (OT), Speech and Language Therapist furnishing Covered Services as described in OneCare Connect Policies.

FOR 2019 BOD REVIEW

Term	Definition
Provider	A physician, pharmacist, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, health maintenance organization, Health Network, Physician Medical Group, or other person or institution who furnishes Covered Services.
Service Area	The geographical area that DHCS and/authorizes CalOptima to operate in. A Service Area may include designated ZIP Codes within a county that CalOptima is approved to operate in.
Stem Cell Transplant	A process which includes mobilization, harvesting, and transplant of peripheral blood stem cells and the administration of high dose chemotherapy or radiotherapy prior to the actual transplant.
Transplant	A non-experimental procedure for Solid Organ or Stem Cell Transplant.
Transplant Center	For the purposes of this policy, refers to facilities that are approved by the Centers for Medicare & Medicaid (CMS) to provide specific transplant services.

FOR 20191205BOD REVIEW

Medi-Cal CalOptima A Public Agency Better. Together.

Policy ~~#~~:	GG.1327
Title:	**Coordination ~~of Care Plans~~ for Dual-Eligible Members, Not Enrolled in ~~Long Term Services and Supports (~~OneCare Connect, with LTSS~~) Programs~~**
Department:	Medical Affairs
Section:	Long Term Services and Supports (LTSS)
CEO Approval:	Michael Schrader
Effective Date:	07/01/2015
~~Last~~ Revised Date:	~~10/10/17~~TBD

For 20191205BOD Review

I. PURPOSE

This policy describes the process for ~~coordinating care plans for Full Benefit Dual Eligible Members Excluded from, or opting out of, OneCare Connect, or Partial Dual Eligible Members enrolled in~~ reviewing **Long Term Services and Supports (LTSS)** ~~programs.~~ assessments and **Individualized Care Plans (ICP)*** for dual-eligible **Members** who are enrolled in **LTSS** programs and not

~~II. POLICY~~

~~A.~~ ~~CalOptima shall ensure care coordination for Members~~ enrolled in ~~Long Term Services and Supports (LTSS) programs.~~OneCare Connect (OCC), including **Members** who opt out of OCC, **Members** who are full benefit dual-eligible **Members** excluded from OCC, or **Members** who are partially dual-eligible.

II. POLICY

~~B.~~A. **CalOptima** shall risk stratify ~~a~~ newly-enrolled ~~**Member who opts out of OneCare Connect, is a Full Benefit Dual Eligible excluded from OneCare Connect, or a Partial Dual Eligible**~~**Dual-Eligible Members** not enrolled in OCC, in accordance with CalOptima Policy GG.1326: Risk Stratification Process for a Member who Opts Out of **Cal MediConnect**, or is a **Full Benefit Dual-Eligible** excluded from **Cal MediConnect**, or is a **Partial Dual-Eligible**~~, and shall complete the following:~~. For such **Members** with **LTSS** and stratified as high-risk, **CalOptima** is not required to complete a~~n~~ **Health Risk Assessment (HRA)** or an **ICP** because **CalOptima** does not have responsibility for the full spectrum of health care services for these **Members**. **CalOptima** shall review assessments and **ICPs** completed in **LTSS** programs instead for care coordination needs, as outlined in this P~~p~~olicy.

~~1. For Members considered OneCare Connect opt-outs, Full Benefit Dual Eligibles who are excluded from OneCare Connect, and Partial Benefit Dual Eligibles:~~

~~a. CalOptima shall complete an LTSS Assessment Review.~~

~~i. CalOptima shall not be required to complete a Health Risk Assessment (HRA), develop an Individual Care Plan (ICP), or convene an Interdisciplinary Care Team (ICT).~~

~~For~~

* Terms in bold are defined in the Glossary.

Back to Agenda

~~2. Medi-Cal only Seniors and Persons with Disabilities (SPD) (high risk Members only):~~

~~a. CalOptima shall conduct an HRA when applicable, or when requested by the Member, in accordance with CalOptima Policy GG.1323: Senior and Persons with Disabilities and Health Risk Assessment Policy;~~

~~b. Develop an Individual Care Plan (ICP); and~~

~~c. Establish an Interdisciplinary Care Team (ICT) when appropriate, or when requested by the Member, in accordance with GG.1324: Seniors and Persons with Disabilities (SPD) Comprehensive Case Management.~~

~~i. CalOptima shall not complete an LTSS Assessment Review for SPD Members~~

~~C. CalOptima shall document, maintain, and review a copy of a Member's assessment records and ICP, when applicable, for Multipurpose Senior Services Program (MSSP), Community-Based Adult Services (CBAS) center, or a skilled nursing facility, and that are received from California Department of Social Services (CDSS) for In-Home Supportive Services (IHSS), as applicable, to determine if further coordination of services for the Member is appropriate.~~

III. PROCEDURE

A. **Long~~-~~Term Services and Supports (LTSS)** Assessment and **Individualized Care Plan (ICP)** Review

1. Upon enrollment of a ~~**Member who opts out of Cal MediConnect, or is a Full Benefit**~~ **Dual-Eligible** ~~**excluded from Cal MediConnect, or is a Partial Dual-Eligible**~~**Members** not enrolled in OCC and stratified as high-risk due to participation in an **LTSS** program, **CalOptima** shall obtain ~~assessments conducted~~ available assessment(s) and **ICP(s)** completed on the **Member's** behalf through **MSSP**, **CBAS**, **SNF**, and **IHSS**~~, MSSP, and nursing facilities.~~ .

2. ~~**Based on the completed and available assessments,**~~ **CalOptima** shall review the **LTSS** ~~Assessment~~assessment(s) and **ICP(s)**, at least annually, and determine if any further coordination of services ~~for the Members~~ is appropriate, such as, but not limited to:

a. ~~Carved-out or home and community-based services,~~Referrals for appropriate community resources~~, and available services and benefits~~ and other agencies outside the scope of **CalOptima's** responsibility that meet ~~**the**~~ **Member's** social, and transportation needs and preferences, including but not limited to:

i. Mental health and behavioral health ~~services~~;

ii. Personal care;

iii. Housing;

iv. Home-delivered meals;

v. Energy assistance programs; and

vi. Services for **Members** with intellectual and developmental disabilities.

For 2019 12/5 BOD Review

Back to Agenda

b. ~~Assessment of~~ Involving caregivers in the **Member's** ~~support systems, caregiver resources, and level of involvement to identify~~care, which includes identifying **Member** and caregiver preferences and ~~alternate arrangements should a caregiver be~~having back-up plans in place for situations when caregivers are unavailable;

c. ~~Evaluation of Member's current health status and treatment needs and the need for facilitating~~Facilitating communication among the **Member's LTSS** and other providers, including mental health and substance abuse providers, ~~as~~when appropriate~~;~~ given **Member's** health status and treatment needs; and

~~d. Identification and facilitation of~~ Providing referrals for ~~Members who require referrals to disease management program, health education, case management, counseling,~~other activities or ~~self-management support, including~~ services ~~outside CalOptima's provider network;~~

~~e. Ensuring assessment, reassessment, and referrals are completed as~~ needed ~~for a Member's~~ to assist **Members** in optimizing their health status ~~under the following circumstances:~~

~~i. With changes to Member's health status;~~

~~ii. When there's identification of physical and cognitive barriers;~~

~~iii. When a Member requires:~~

~~a) Referrals for Primary Care and Specialty Providers;~~

~~b) Mental health and substance abuse providers;~~

~~c)~~d. ~~Assistance~~, including assistance with self-~~-~~management skills or techniques~~;~~, health education, Health Homes Program, Whole Person Care Program, and other modalities to improve health status and meet personal goals.

~~d) Assistance with health education; and~~

~~e) Other methods for improving health status.~~

~~f. At least annual review of LTSS Assessment(s).~~

e. Re-contacting or reassessing the **Member** due to additional or unalleviated risks in **Member's** circumstances or conditions that require redetermination of risk level through **Risk Stratification**.

B. Coordination of Care and Services

1. **CalOptima** shall ~~determine if Members need other~~ complete referrals for appropriate community ~~based~~ resources and other agencies, facilitate communication among providers, or provide other activities or services~~, or other medical services,~~ to optimize health status, if determined to be appropriate based on the **LTSS** ~~Assessment Reviews and clinical knowledge of the Member's needs.~~ assessment(s) and **ICP(s)** reviewed.

For 2019 1205 BOD Review

Back to Agenda

2. **CalOptima** shall refer Members to appropriate levels of care and community-based services (IHSS, CBAS, and/or MSSP), hospital, or institution (LTC) that meets each Member's medical and social needs.

3. For Members who are receiving LTSS services, and upon request by the Member or CalOptima or Health Network case managers, the IHSS Social Worker and/or CBAS provider, LTC case manager, and/or MSSP case manager shall participate in the Member's ICT meeting.

4.2. CalOptima, or a Health Network, shall document care coordinationcompleted activities and interventions in the medical management system.

For 20191205BOD Review

IX. GLOSSARY

Term	Definition
Cal MediConnect	A three-year Duals Demonstration project (Cal MediConnect) for dual-eligibles that combines the full continuum of acute, primary, institutional, and home and community-based services into a single benefit package, delivered through an organized service delivery system.
CalOptima	For purposes of this policy, CalOptima means CalOptima Direct (COD) and CalOptima Community Network (CCN).
Comprehensive Medical Case Management	Services provided by a Primary Care Provider, in collaboration with CalOptima or a Health Network to ensure the coordination of Medically Necessary health care services, the provision of preventive services, in accordance with established standards and periodicity schedules and the continuity of care for Medi-Cal enrollees. It includes health risk assessment, treatment planning, coordination, referral, follow-up, and monitoring of appropriate services and resources required to meet an individual's health care needs.
Community-Based Adult Services (CBAS)	An outpatient program that delivers Skilled Nursing Facility care, social services, therapies, personal care, family/caregiver training and support, nutritional services, transportation, and other services to eligible Members who meet applicable eligibility criteria.
Full Benefit Dual Eligible Member Excluded from OneCare Connect	A Member who is eligible for Medicare Parts A, B, and D, and Full-Scope Medi-Cal but is ineligible for Cal MediConnect due to exclusion criteria, including Members: 1. With other health coverage, including private insurance and non-Medicare public insurance, such as through the Veterans Administration; 2. With developmental disabilities receiving services through a Department of Developmental Services (DDS) 1915(c) waiver; regional center; state developmental center; or intermediate care facilities for the developmentally disabled (ICF/DD); 3. Enrolled in the following 1915(c) waivers: Nursing facility/acute hospital waiver service, HIV/AIDS waiver services, assisted living waiver services, and In-Home Operations waiver services; and 4. Residing in a veterans' home of California.
Full Benefit Dual Eligible Who Opts Out of OneCare Connect	A Member who is 21 years of age or older and is eligible for Medi-Cal, and who is also eligible for benefits under Medicare Part A (42 U.S.C. Sec. 1395c et seq.) and Medicare Part B (42 U.S.C. Sec. 1395j et seq.)
Health Risk Assessment	A health questionnaire, used to provide Members with an evaluation of their health risks and quality of life.
High Risk Member	For the purposes of this policy, means a Member who is receiving: IHSS authorized for greater than or equal to 195 hours per month; Community Based Adult Services (CBAS); and/or Multipurpose Senior Services (MSSP),
In-Home Supportive Services (IHSS)	Services provided for Members in accordance with the requirements set forth in Welfare and Institutions Code section 14186.1(c)(1).
Individual Care Plan (ICP)	A written plan of care developed after an assessment of a Member's social and health care needs that reflects what services the Member will receive to reach and keep his or her best physical, mental, and social well-being.

For 2019 12/5 BOD Review

Term	Definition
Interdisciplinary Care Team (ICT)	A team comprised of the primary care provider and care coordinator, and other providers, that work with the Member to develop, implement, and maintain the ICP.
Institution	For purposes of this policy: 1. A Skilled Nursing Facility that is licensed as such by the Department of Public Health (DPH), as defined in Title 22, C.C.R. §51121(a); or a distinct part or unit of a hospital that meets the standards specified in Title 22, C.C.R. §51215 (except that the distinct part of a certified by the Department of Public Health (DPH) for participation as a SNF in the Medi-Cal program. 2. An Intermediate Care Facility that is licensed as such by the Department of Health Care Services (DHCS) or is a hospital or SNF that meets the standards specified in Title 22, C.C.R § 51212, and has been certified by DHCS for participation in the Medi-Cal program. 3. Subacute Facility –Adult that meets the standards set forth in Title 22, § 51215.5, as an identifiable unit of a SNF accommodating beds including contiguous room, a wing, a floor, or a building that is approved by the Department of Public Health for such purpose and has been certified by the DHCS for participation in the Medi-Cal program. 4. Subacute Facility-Pediatric that meets the standards set forth in Title 22, § 51215.8, as an identifiable unit of a certified nursing facility licensed as a SNF meeting the standards for participation as a provider under the Medi-Cal program, accommodating beds including contiguous rooms, a wing, a floor, or a building that is approved by the DHCS for such purpose.
Long–Term Services and Supports (LTSS)	A wide variety of services and supports that help Members meet their daily needs for assistance and improve the quality of their lives. LTSS are provided over an extended period, predominantly in homes and communities, but also in facility-based settings such as nursing facilities. As described in California WIC Section 14186.1, Medi-Cal covered LTSS includes all of the following: 1. In-Home Supportive Services (IHSS); 2. Community-Based Adult Services (CBAS); 3. Multipurpose Senior Services Program (MSSP) services; and 4. Skilled nursing facility services and subacute care services.
Long–Term Care (LTC)	For purposes of this policy, care provided for Members in a Skilled Nursing Facility and subacute care services
Lower Risk Member	For the purposes of this policy, means a Member needing basic care management.
Medi-Cal Only Seniors and Persons with Disabilities (SPD)	Medi-Cal beneficiaries who fall under specific Aged and Disabled Aid Codes as defined by the Department of Health Care Services.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.

For 2019 1205 BOD Review

Term	Definition
Multipurpose Senior Services Program (MSSP)	A program approved under the federal Medicaid Home and Community-Based, 1915 (c) Waiver designed to prevent premature institutionalization through provision of comprehensive social and health care management to assist frail elder person who are certifiable for placement in a nursing facility, to remain safely at home at a cost lower than nursing facility care.
Partial Dual-Eligible	A Member who is 21 years of age or older and is eligible for Medi-Cal, and who is also eligible for benefits under either Medicare Part A (42 U.S.C. Sec. 1395c et seq.) or Medicare Part B (42 U.S.C. Sec. 1395j et seq.).
Risk Stratification	A systematic process for identifying and predicting Member risk levels relating to health care needs, services, and coordination.

This policy describes the process for reviewing **Long Term Services and Supports (LTSS)** assessments and **Individualized Care Plans (ICP)*** for dual-eligible **Members** who are enrolled in **LTSS** programs and not enrolled in OneCare Connect (OCC), including **Members** who opt out of OCC, **Members** who are full benefit dual-eligible **Members** excluded from OCC, or **Members** who are partially dual-eligible.

II. POLICY

A. **CalOptima** shall risk stratify newly-enrolled **Dual-Eligible Members** not enrolled in OCC, in accordance with CalOptima Policy GG.1326: Risk Stratification Process for a Member who Opts Out of **Cal MediConnect**, or is a **Full Benefit Dual-Eligible** excluded from **Cal MediConnect**, or is a **Partial Dual-Eligible**. For such **Members** with **LTSS** and stratified as high-risk, **CalOptima** is not required to complete a **Health Risk Assessment (HRA)** or an **ICP** because **CalOptima** does not have responsibility for the full spectrum of health care services for these **Members**. **CalOptima** shall review assessments and **ICPs** completed in **LTSS** programs instead for care coordination needs, as outlined in this Policy.

III. PROCEDURE

A. **Long-Term Services and Supports (LTSS)** Assessment and **Individualized Care Plan (ICP)** Review

1. Upon enrollment of a **Dual-Eligible Members** not enrolled in OCC and stratified as high-risk due to participation in an **LTSS** program, **CalOptima** shall obtain available assessment(s) and **ICP(s)** completed on the **Member's** behalf through **MSSP**, **CBAS**, **SNF**, and **IHSS**.

2. **CalOptima** shall review the **LTSS** assessment(s) and **ICP(s)**, at least annually, and determine if any further coordination of services is appropriate, such as, but not limited to:

   a. Referrals for appropriate community resources and other agencies outside the scope of **CalOptima's** responsibility that meet **Member's** social, and transportation needs and preferences, including but not limited to:

      i. Mental health and behavioral health;

      ii. Personal care;

      iii. Housing;

***** Terms in bold are defined in the Glossary.

Back to Agenda

iv. Home-delivered meals;

v. Energy assistance programs; and

vi. Services for **Members** with intellectual and developmental disabilities.

b. Involving caregivers in the **Member's** care, which includes identifying **Member** and caregiver preferences and having back-up plans in place for situations when caregivers are unavailable;

c. Facilitating communication among the **Member's LTSS** and other providers, including mental health and substance abuse providers, when appropriate given **Member's** health status and treatment needs; and

d. Providing referrals for other activities or services needed to assist **Members** in optimizing their health status, including assistance with self-management skills or techniques, health education, Health Homes Program, Whole Person Care Program, and other modalities to improve health status and meet personal goals.

e. Re-contacting or reassessing the **Member** due to additional or unalleviated risks in **Member's** circumstances or conditions that require redetermination of risk level through **Risk Stratification**.

B. Coordination of Care and Services

1. **CalOptima** shall complete referrals for appropriate community resources and other agencies, facilitate communication among providers, or provide other activities or services to optimize health status, if determined to be appropriate based on the **LTSS** assessment(s) and **ICP(s)** reviewed.

2. **CalOptima** shall document completed activities in the medical management system.

IX. GLOSSARY

Term	Definition
Cal MediConnect	A three-year Duals Demonstration project (Cal MediConnect) for dual-eligibles that combines the full continuum of acute, primary, institutional, and home and community-based services into a single benefit package, delivered through an organized service delivery system.
CalOptima	For purposes of this policy, CalOptima means CalOptima Direct (COD) and CalOptima Community Network (CCN).
Comprehensive Medical Case Management	Services provided by a Primary Care Provider, in collaboration with CalOptima or a Health Network to ensure the coordination of Medically Necessary health care services, the provision of preventive services, in accordance with established standards and periodicity schedules and the continuity of care for Medi-Cal enrollees. It includes health risk assessment, treatment planning, coordination, referral, follow-up, and monitoring of appropriate services and resources required to meet an individual's health care needs.
Community-Based Adult Services (CBAS)	An outpatient program that delivers Skilled Nursing Facility care, social services, therapies, personal care, family/caregiver training and support, nutritional services, transportation, and other services to eligible Members who meet applicable eligibility criteria.
Full Benefit Dual Eligible Member Excluded from OneCare Connect	A Member who is eligible for Medicare Parts A, B, and D, and Full-Scope Medi-Cal but is ineligible for Cal MediConnect due to exclusion criteria, including Members: 1. With other health coverage, including private insurance and non-Medicare public insurance, such as through the Veterans Administration; 2. With developmental disabilities receiving services through a Department of Developmental Services (DDS) 1915(c) waiver; regional center; state developmental center; or intermediate care facilities for the developmentally disabled (ICF/DD); 3. Enrolled in the following 1915(c) waivers: Nursing facility/acute hospital waiver service, HIV/AIDS waiver services, assisted living waiver services, and In-Home Operations waiver services; and 4. Residing in a veterans' home of California.
Full Benefit Dual Eligible Who Opts Out of OneCare Connect	A Member who is 21 years of age or older and is eligible for Medi-Cal, and who is also eligible for benefits under Medicare Part A (42 U.S.C. Sec. 1395c et seq.) and Medicare Part B (42 U.S.C. Sec. 1395j et seq.)
Health Risk Assessment	A health questionnaire, used to provide Members with an evaluation of their health risks and quality of life.
High Risk Member	For the purposes of this policy, means a Member who is receiving: IHSS authorized for greater than or equal to 195 hours per month; Community Based Adult Services (CBAS); and/or Multipurpose Senior Services (MSSP),
In-Home Supportive Services (IHSS)	Services provided for Members in accordance with the requirements set forth in Welfare and Institutions Code section 14186.1(c)(1).
Individual Care Plan (ICP)	A written plan of care developed after an assessment of a Member's social and health care needs that reflects what services the Member will receive to reach and keep his or her best physical, mental, and social well-being.

For 2019 12/5 BOD Review

Back to Agenda

Term	Definition
Interdisciplinary Care Team (ICT)	A team comprised of the primary care provider and care coordinator, and other providers, that work with the Member to develop, implement, and maintain the ICP.
Institution	For purposes of this policy: 1. A Skilled Nursing Facility that is licensed as such by the Department of Public Health (DPH), as defined in Title 22, C.C.R. §51121(a); or a distinct part or unit of a hospital that meets the standards specified in Title 22, C.C.R. §51215 (except that the distinct part of a certified by the Department of Public Health (DPH) for participation as a SNF in the Medi-Cal program. 2. An Intermediate Care Facility that is licensed as such by the Department of Health Care Services (DHCS) or is a hospital or SNF that meets the standards specified in Title 22, C.C.R § 51212, and has been certified by DHCS for participation in the Medi-Cal program. 3. Subacute Facility –Adult that meets the standards set forth in Title 22, § 51215.5, as an identifiable unit of a SNF accommodating beds including contiguous room, a wing, a floor, or a building that is approved by the Department of Public Health for such purpose and has been certified by the DHCS for participation in the Medi-Cal program. 4. Subacute Facility-Pediatric that meets the standards set forth in Title 22, § 51215.8, as an identifiable unit of a certified nursing facility licensed as a SNF meeting the standards for participation as a provider under the Medi-Cal program, accommodating beds including contiguous rooms, a wing, a floor, or a building that is approved by the DHCS for such purpose.
Long-Term Services and Supports (LTSS)	A wide variety of services and supports that help Members meet their daily needs for assistance and improve the quality of their lives. LTSS are provided over an extended period, predominantly in homes and communities, but also in facility-based settings such as nursing facilities. As described in California WIC Section 14186.1, Medi-Cal covered LTSS includes all of the following: 1. In-Home Supportive Services (IHSS); 2. Community-Based Adult Services (CBAS); 3. Multipurpose Senior Services Program (MSSP) services; and 4. Skilled nursing facility services and subacute care services.
Long-Term Care (LTC)	For purposes of this policy, care provided for Members in a Skilled Nursing Facility and subacute care services
Lower Risk Member	For the purposes of this policy, means a Member needing basic care management.
Medi-Cal Only Seniors and Persons with Disabilities (SPD)	Medi-Cal beneficiaries who fall under specific Aged and Disabled Aid Codes as defined by the Department of Health Care Services.
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.

For 2019 1205 BOD Review

Back to Agenda

Term	Definition
Multipurpose Senior Services Program (MSSP)	A program approved under the federal Medicaid Home and Community-Based, 1915 (c) Waiver designed to prevent premature institutionalization through provision of comprehensive social and health care management to assist frail elder person who are certifiable for placement in a nursing facility, to remain safely at home at a cost lower than nursing facility care.
Partial Dual-Eligible	A Member who is 21 years of age or older and is eligible for Medi-Cal, and who is also eligible for benefits under either Medicare Part A (42 U.S.C. Sec. 1395c et seq.) or Medicare Part B (42 U.S.C. Sec. 1395j et seq.).
Risk Stratification	A systematic process for identifying and predicting Member risk levels relating to health care needs, services, and coordination.

Effective Date: 06/07/2011
~~Last Review Date:~~ ~~01/01/18~~
~~Last~~ Revised Date: ~~01/01/18~~TBD

For 20191205BOD Review

I. PURPOSE

This policy establishes a quality assurance program to reduce medication errors and adverse drug interactions, and improve medication use through prospective and retrospective drug utilization review (DUR).

II. POLICY

A. CalOptima shall ensure that **Participating Pharmacies*** comply with the minimum standards for pharmacy practice as established by California in accordance with the California Business and Professions Code, Section 4000 *et. seq*.

B. CalOptima or its **Pharmacy Benefit Manager (PBM)** shall maintain quality assurance measures and systems including:

1. Prospective drug utilization review (DUR) systems;

2. Retrospective drug utilization review (DUR) systems; and

3. Internal medication error identification and reduction systems.

C. CalOptima shall provide information to the Department of Health Care Services (DHCS) regarding its quality assurance measures and systems pertaining to improving medication use, reducing medication errors, and adverse drug interactions.

D. CalOptima shall provide Members access to view their drug profile and to perform drug formulary validation in accordance with CalOptima Policy GG.1424: Pharmacy Benefit Information for Members.

E. CalOptima shall perform medication reconciliation in accordance with CalOptima Policy GG.1639: Post-Hospital Discharge Medication Supply.

~~D.~~F. CalOptima shall establish systems and measures to ensure that **Participating Pharmacies** comply with CalOptima's quality assurance requirements.

~~E.~~G. The **PBM** shall ensure that **Participating Pharmacies** offer patient counseling to Members, when appropriate, in accordance with state law.

H. Electronic Prescription Drug Program .

* Terms in **bold** are defined in the Glossary.

1. The **PBM** shall support electronic prescribing in accordance with applicable federal and state laws, regulations and standards, including, without limitations, Subpart D of 42 CFR Part 423.

2. The **PBM** shall establish and maintain an electronic prescription drug program that complies with applicable standards, including, without limitations, 42 CFR § 423.160(b), when transmitting, directly or through an intermediary, prescriptions and prescription-related information using electronic media for Members.

3. The **PBM** shall ensure that all necessary contracts and systems are in place should prescribing health care practitioners desire to electronically transmit prescriptions for Members. The PBM shall ensure that **Participating Pharmacies**:

   a. Can receive electronic prescriptions (with allowance for exceptions when it is impractical or otherwise could jeopardize beneficiary access) in accordance with applicable standards. The **PBM** shall have an approval process for such exceptions and a process to redirect prescribing health care practitioners to appropriate alternate **Participating Pharmacies**.

   b. Process electronic prescriptions received from prescribing health care practitioners, when appropriate, in accordance with all applicable federal and state laws, regulations, and standards.

   c. Immediately notify the prescribing health care practitioner when the **Participating Pharmacy**, or its staff, is aware that an attempted transmission of an electronic prescription failed, is incomplete, or otherwise not properly received.

~~F.~~I. **Participating Pharmacies** shall implement a method to keep Member information records and maintain up-to-date Member information including, but not limited to:

1. Member demographic information; and

2. Member allergy information including drug and food allergies.

~~G.~~J. CalOptima shall make efforts toward including the following in quality assurance systems:

1. Electronic prescribing;

2. Clinical decision support systems;

3. Educational interventions;

4. Adverse event reporting systems; and

5. Provider and Member education.

~~H.~~K. Effective July 1, 2017, CalOptima shall participate in a global Medi-Cal DUR program. The global Medi-Cal DUR program will assess data on drug use against predetermined standards, consistent with the following:

1. Compendia, which shall consist of the following:

   a. American Hospital Formulary Service Drug Information;

For 20191205 BOD Review

b. United States Pharmacopeia-Drug Information (or its successor publications);

c. The DrugDex Information System; and

2. Peer-reviewed medical literature.

~~I.~~L. CalOptima shall include the participation with the Medi-Cal DUR Board as part of its DUR Program activities.

1. CalOptima shall actively participate directly in the Medi-Cal DUR Board by means of the California Association of Health Plans.

2. On a quarterly basis, CalOptima shall assess the Medi-Cal DUR Board's recommendations and decide if it will adopt their recommendations or not. If CalOptima chooses not to adopt certain recommendations, a justification shall be provided to DHCS as part of the annual DUR report outlined in Section II.~~K~~N of this policy.

~~J.~~M. CalOptima shall provide educational efforts and outreach programs, in collaboration with the Medi-Cal DUR Board, to improve the ability of physicians and pharmacists to identify patterns, and reduce the frequency, of fraud, abuse, misuse, and clinically inappropriate or medically unnecessary care. In addition to these educational outreach programs, CalOptima shall also distribute additional educational materials or articles based on the demographics and trends specific to Member and Provider populations.

~~K.~~N. CalOptima shall submit a detail DUR report to DHCS, in a format specified by DHCS, on its DUR Program activities by April 1 of each year. The report shall include information related to the methodology by which CalOptima meets the requirements for the prospective and retrospective DUR. In addition, CalOptima shall also provide in its annual DUR report any educational programs provided outside of the global educational activities, the rationale for not implementing DUR Board recommended actions, and any other DUR related activities performed outside of the global DUR activities, as applicable.

III. PROCEDURE

A. A **Participating Pharmacy** shall conduct prospective DUR to ensure review of the prescribed drug therapy prior to dispensing or delivering a prescription to a Member. The prospective drug utilization review shall include, but not be limited to:

1. Screening for potential drug therapy problems due to therapeutic duplication;

2. Ingredient duplication;

3. Age and gender-related drug utilization;

4. Drug-to-drug interactions, including serious interactions with non-prescription or over-the-counter drugs;

5. Incorrect drug dosage, such as low or high dose, or duration of drug therapy;

6. Drug-disease contraindications;

7. Drug pregnancy precautions;

For 20191205BOD Review

8. Drug-allergy contraindications; and

9. Clinical abuse or misuse.

B. CalOptima shall conduct retrospective DUR on a monthly basis to ensure ongoing examination of claims data and other records through computerized drug claims processing and information retrieval systems to:

1. Identify patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care among **Prescribing Providers, Participating Pharmacies**, and Members; and

2. Identify fraud and abuse patterns associated with specific drugs or groups of drugs.

C. The Pharmacy Management Department shall conduct retrospective DUR using the following methods which include, but are not limited to:

1. Claims oversight for the following:

a. Claims for Medi-Cal FFS carve out medications;

b. Claims for Medicare Part D-covered drugs for dual-eligible members;

c. Over the counter drugs processed for members in Long-Term-Care Facilities;

d. Acetaminophen products for adults over twenty-one (21) years of age;

e. Over the counter cough and cold products for adults over twenty-one (21) years of age;

f. Claims payment for members who are deceased;

g. Members with paid claims from out of state pharmacies;

h. Claims with member copayments;

i. Compounding claims with incorrect level of effort codes;

j. Claims with incorrect dispensing fees; and

k. Claims with incorrect quantities.

2. Members with potential over-utilization of pharmaceuticals as identified through:

a. The **Polypharmacy** Management Program;

b. The **Pharmacy Home Program**; and

c. The Prescriber Restriction Program.

3. Identify Members with potential over-utilization of controlled substances.

For 20191205BOD Review

4. Members with potential under-utilization of pharmaceuticals as identified through the following reports:

   a. Members with ~~Diabetes~~diabetes and not receiving a statin;

   b. Members with cardiovascular disease not receiving a statin; and

   c. Members hospitalized for an acute myocardial infarction not receiving persistent beta-blocker treatment for six (6) months after discharge.

5. For Members identified with over- or under-utilization of pharmaceuticals, CalOptima Pharmacy Management Department shall outreach to the Member's Primary Care Physician (PCP) with recommendations to either remove or add additional therapy to the Member's drug regimen. The result of this outreach shall be tracked and reported quarterly at the Pharmacy and Therapeutics (P&T) Committee Meetings.

6. Other programs relating to the **Health Effectiveness Data and Information Set (HEDIS)**.

D. The Pharmacy Management Department shall refer all potential drug-related Quality of Care issues to the Quality Improvement Department for follow-up.

E. CalOptima shall utilize the Food and Drug Administration (FDA) Medwatch form for reporting adverse events and shall educate Providers about the availability of the Medwatch form.

Section: Pharmacy Management

CEO Approval: Michael Schrader _____

Effective Date: 06/07/2011
Revised Date: TBD

For 20191205BOD Review

I. PURPOSE

This policy establishes a quality assurance program to reduce medication errors and adverse drug interactions, and improve medication use through prospective and retrospective drug utilization review (DUR).

II. POLICY

A. CalOptima shall ensure that **Participating Pharmacies*** comply with the minimum standards for pharmacy practice as established by California in accordance with the California Business and Professions Code, Section 4000 *et. seq*.

B. CalOptima or its **Pharmacy Benefit Manager (PBM)** shall maintain quality assurance measures and systems including:

1. Prospective drug utilization review (DUR) systems;

2. Retrospective drug utilization review (DUR) systems; and

3. Internal medication error identification and reduction systems.

C. CalOptima shall provide information to the Department of Health Care Services (DHCS) regarding its quality assurance measures and systems pertaining to improving medication use, reducing medication errors, and adverse drug interactions.

D. CalOptima shall provide Members access to view their drug profile and to perform drug formulary validation in accordance with CalOptima Policy GG.1424: Pharmacy Benefit Information for Members.

E. CalOptima shall perform medication reconciliation in accordance with CalOptima Policy GG.1639: Post-Hospital Discharge Medication Supply.

F. CalOptima shall establish systems and measures to ensure that **Participating Pharmacies** comply with CalOptima's quality assurance requirements.

G. The **PBM** shall ensure that **Participating Pharmacies** offer patient counseling to Members, when appropriate, in accordance with state law.

H. Electronic Prescription Drug Program .

* Terms in **bold** are defined in the Glossary.

1. The **PBM** shall support electronic prescribing in accordance with applicable federal and state laws, regulations and standards, including, without limitations, Subpart D of 42 CFR Part 423.

2. The **PBM** shall establish and maintain an electronic prescription drug program that complies with applicable standards, including, without limitations, 42 CFR § 423.160(b), when transmitting, directly or through an intermediary, prescriptions and prescription-related information using electronic media for Members.

3. The **PBM** shall ensure that all necessary contracts and systems are in place should prescribing health care practitioners desire to electronically transmit prescriptions for Members. The PBM shall ensure that **Participating Pharmacies**:

    a. Can receive electronic prescriptions (with allowance for exceptions when it is impractical or otherwise could jeopardize beneficiary access) in accordance with applicable standards. The **PBM** shall have an approval process for such exceptions and a process to redirect prescribing health care practitioners to appropriate alternate **Participating Pharmacies**.

    b. Process electronic prescriptions received from prescribing health care practitioners, when appropriate, in accordance with all applicable federal and state laws, regulations, and standards.

    c. Immediately notify the prescribing health care practitioner when the **Participating Pharmacy**, or its staff, is aware that an attempted transmission of an electronic prescription failed, is incomplete, or otherwise not properly received.

I. **Participating Pharmacies** shall implement a method to keep Member information records and maintain up-to-date Member information including, but not limited to:

1. Member demographic information; and

2. Member allergy information including drug and food allergies.

J. CalOptima shall make efforts toward including the following in quality assurance systems:

1. Electronic prescribing;

2. Clinical decision support systems;

3. Educational interventions;

4. Adverse event reporting systems; and

5. Provider and Member education.

K. Effective July 1, 2017, CalOptima shall participate in a global Medi-Cal DUR program. The global Medi-Cal DUR program will assess data on drug use against predetermined standards, consistent with the following:

1. Compendia, which shall consist of the following:

    a. American Hospital Formulary Service Drug Information;

For 20191205BOD Review

b. United States Pharmacopeia-Drug Information (or its successor publications);

c. The DrugDex Information System; and

2. Peer-reviewed medical literature.

L. CalOptima shall include the participation with the Medi-Cal DUR Board as part of its DUR Program activities.

1. CalOptima shall actively participate directly in the Medi-Cal DUR Board by means of the California Association of Health Plans.

2. On a quarterly basis, CalOptima shall assess the Medi-Cal DUR Board's recommendations and decide if it will adopt their recommendations or not. If CalOptima chooses not to adopt certain recommendations, a justification shall be provided to DHCS as part of the annual DUR report outlined in Section II.N of this policy.

M. CalOptima shall provide educational efforts and outreach programs, in collaboration with the Medi-Cal DUR Board, to improve the ability of physicians and pharmacists to identify patterns, and reduce the frequency, of fraud, abuse, misuse, and clinically inappropriate or medically unnecessary care. In addition to these educational outreach programs, CalOptima shall also distribute additional educational materials or articles based on the demographics and trends specific to Member and Provider populations.

N. CalOptima shall submit a detail DUR report to DHCS, in a format specified by DHCS, on its DUR Program activities by April 1 of each year. The report shall include information related to the methodology by which CalOptima meets the requirements for the prospective and retrospective DUR. In addition, CalOptima shall also provide in its annual DUR report any educational programs provided outside of the global educational activities, the rationale for not implementing DUR Board recommended actions, and any other DUR related activities performed outside of the global DUR activities, as applicable.

III. PROCEDURE

A. A **Participating Pharmacy** shall conduct prospective DUR to ensure review of the prescribed drug therapy prior to dispensing or delivering a prescription to a Member. The prospective drug utilization review shall include, but not be limited to:

1. Screening for potential drug therapy problems due to therapeutic duplication;

2. Ingredient duplication;

3. Age and gender-related drug utilization;

4. Drug-to-drug interactions, including serious interactions with non-prescription or over-the-counter drugs;

5. Incorrect drug dosage, such as low or high dose, or duration of drug therapy;

6. Drug-disease contraindications;

7. Drug pregnancy precautions;

For 20191205BOD Review

8. Drug-allergy contraindications; and

9. Clinical abuse or misuse.

B. CalOptima shall conduct retrospective DUR on a monthly basis to ensure ongoing examination of claims data and other records through computerized drug claims processing and information retrieval systems to:

1. Identify patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care among **Prescribing Providers, Participating Pharmacies**, and Members; and

2. Identify fraud and abuse patterns associated with specific drugs or groups of drugs.

C. The Pharmacy Management Department shall conduct retrospective DUR using the following methods which include, but are not limited to:

1. Claims oversight for the following:

a. Claims for Medi-Cal FFS carve out medications;

b. Claims for Medicare Part D-covered drugs for dual-eligible members;

c. Over the counter drugs processed for members in Long-Term-Care Facilities;

d. Acetaminophen products for adults over twenty-one (21) years of age;

e. Over the counter cough and cold products for adults over twenty-one (21) years of age;

f. Claims payment for members who are deceased;

g. Members with paid claims from out of state pharmacies;

h. Claims with member copayments;

i. Compounding claims with incorrect level of effort codes;

j. Claims with incorrect dispensing fees; and

k. Claims with incorrect quantities.

2. Members with potential over-utilization of pharmaceuticals as identified through:

a. The **Polypharmacy** Management Program;

b. The **Pharmacy Home Program**; and

c. The Prescriber Restriction Program.

3. Identify Members with potential over-utilization of controlled substances.

For 20191205BOD Review

4. Members with potential under-utilization of pharmaceuticals as identified through the following reports:

   a. Members with diabetes and not receiving a statin;

   b. Members with cardiovascular disease not receiving a statin; and

   c. Members hospitalized for an acute myocardial infarction not receiving persistent beta-blocker treatment for six (6) months after discharge.

5. For Members identified with over- or under-utilization of pharmaceuticals, CalOptima Pharmacy Management Department shall outreach to the Member's Primary Care Physician (PCP) with recommendations to either remove or add additional therapy to the Member's drug regimen. The result of this outreach shall be tracked and reported quarterly at the Pharmacy and Therapeutics (P&T) Committee Meetings.

6. Other programs relating to the **Health Effectiveness Data and Information Set (HEDIS)**.

D. The Pharmacy Management Department shall refer all potential drug-related Quality of Care issues to the Quality Improvement Department for follow-up.

E. CalOptima shall utilize the Food and Drug Administration (FDA) Medwatch form for reporting adverse events and shall educate Providers about the availability of the Medwatch form.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken April 4, 2019
Regular Meeting of the CalOptima Board of Directors

Report Item

7. Consider Approval of Modifications of CalOptima Policies and Procedures Related to CalOptima's Whole-Child Model (WCM) Program

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400
Tracy Hitzeman, Executive Director, Clinical Operations, (714) 246-8400
Sesha Mudunuri, Executive Director, Operations, (714) 246-8400

Recommended Actions

Approve modifications to the following Policies and Procedures in connection with Whole-Child Model program as follows:

1. DD.2006: Enrollment In/ Eligibility with CalOptima [Medi-Cal]
2. DD.2008: Health Network and CalOptima Community Network (CCN) Selection Process [Medi-Cal]
3. GG.1125: Cancer Clinical Trials [Medi-Cal, OneCare, OneCare Connect]
4. GG.1515: Criteria for Medically Necessary Automobile Orthopedic Positioning Devices [Medi-Cal]

Background

The California Children's Services (CCS) is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children under age 21 who meet eligibility criteria based on financial and medical conditions. Department of Health Care Services (DHCS) is incorporating CCS services into Medi-Cal Managed Care Plan (MCP) contracts for County Organized Health Systems (COHS) on a phased-in basis.

On November 9, 2018, DHCS delayed the implementation of Orange County's transition of the CCS program to WCM from January 1, 2019 to no sooner than July 1, 2019. Based on CalOptima's sizable CCS-eligible population and the complexity of our delegated delivery system, DHCS determined that more time is needed to ensure effective preparation and a robust number of CCS-paneled providers. On November 21, 2018 and December 18, 2018, DHCS provided updated WCM provider network adequacy standards that all CalOptima health networks must meet in order to participate in the WCM. Additionally, on December 23, 2018, DHCS released All Plan Letter (APL) 18-023 California Children's Services Whole-Child Model, which superseded the APL originally published on June 7, 2018, and included clarifying language and new guidance regarding Neonatal Intensive Care Unit (NICU), High Risk Infant Follow-up (HRIF) program, pediatric palliative care, and continuity of care appeals.

On December 6, 2018, the CalOptima Board of Directors authorized modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program to no sooner than July 1, 2019. Additional policies and procedure require

Back to Agenda

modification due to the delayed WCM implementation date, provider network adequacy standards and regulatory guidance.

Discussion

DHCS released updated network adequacy standards for 27 identified provider types and specialties on November 21, 2018, which was further updated on December 18, 2018. CalOptima's health networks are required to contract with 23 of the 27 identified provider types and CalOptima is responsible for contracting with the remaining four on behalf of the entire network. The remaining four specialty types are considered rare specialties and include, Pediatric Dermatology, Pediatric Developmental and Behavioral Medicine, Oral and Maxillofacial Surgery and Transplant Hepatology. Health networks must meet the adequacy standards as certified by DHCS to participate in WCM. Members may only receive CCS services through a participating health network.

All health networks are expected to meet applicable network adequacy requirements; final evidence of network adequacy was submitted to DHCS on March 1, 2019. Network adequacy will be evaluated, at a minimum, on an annual basis. While not expected, CalOptima has modified its policy and procedures to ensure that members eligible for CCS are not assigned to a health network not participating in WCM. Additionally, processes were established to notify members assigned to a health network that is later determined to not meet WCM provider network adequacy standards.

Below is additional information regarding the modified policies which include revisions related to WCM as well as clarification related to existing operations:

1. ***DD.2006: Enrollment In/ Eligibility with CalOptima*** defines the criteria by which CalOptima enrolls a member in CalOptima Direct. CalOptima revised the policy to ensure policy alignment with current operational processes and regulatory requirements including the WCM program. Revisions include modifications to the process for members undergoing a transplant to transition from a health network to CalOptima Community Network (CCN). With respect to WCM, the revisions clarify that transitioning members with select chronic conditions from delegated health networks to CalOptima Community Network will be effective on and after the WCM implementation date.

2. ***DD.2008: Health Network and CalOptima Community Network (CCN) Selection Process*** describes the process in which a health network eligible member shall select CalOptima Community Network (CCN) or a health network, and CCN or the health network's responsibilities for such member. CalOptima revised the policy to ensure policy alignment with current operational processes and regulatory requirements including the WCM program. With respect to WCM, the revisions address requirements that a member may only receive services through a WCM participating network that has met DHCS network adequacy requirements.

3. ***GG.1125: Cancer Clinical Trials*** outlines coverage guidelines for routine health care services provided in connection with a member's participation in a cancer clinical trial. CalOptima revised the policy to ensure policy alignment with current operational processes and regulatory

Back to Agenda

requirements including the WCM program. With respect to WCM, the revisions address CalOptima's expanded responsibility for Cancer Clinical Trials for CCS members under WCM.

4. ***GG.1515: Criteria for Medically Necessary Automobile Orthopedic Positioning Devices*** outlines the durable medical equipment (DME) guidelines and medical necessity criteria for reimbursement of medically necessary automobile orthopedic positioning devices (AOPD). CalOptima revised the policy to ensure policy alignment with current operational processes and regulatory requirements including the WCM program. With respect to WCM, the revisions address CalOptima's expanded responsibility for AOPD for CCS members under WCM.

Additional policies are expected to be submitted for Board approval at a later time.

Fiscal Impact
The recommended action to modify existing policies and procedures, DD.2006, DD.2008, GG.1125 and GG.1515 in connection with the WCM program is not expected to have an additional fiscal impact beyond CalOptima Policy FF.4000: Whole-Child Model – Financial Reimbursement for Capitated Health Networks, approved by the Board on October 4, 2018. Management will include all projected revenues and expenses associated with the WCM program in the Fiscal Year 2019-20 Operating Budget.

Rationale for Recommendation
To ensure CalOptima meets all requirements of the Whole-Child Model program, approval of the requested actions is recommended.

Concurrence
Gary Crockett, Chief Counsel

Policy #: DD.2006
Title: **Enrollment In/Eligibility with CalOptima Direct**
Department: Customer Service
Section: Not Applicable

CEO Approval: Michael Schrader

Effective Date: 10/01/1995
Revision Date: 04/04/2019

I. PURPOSE

This policy defines the criteria by which CalOptima enrolls a **Member** in **CalOptima Direct**.

II. POLICY

A. CalOptima may enroll a **Member** in **CalOptima Direct**, in accordance with this Policy.

B. CalOptima shall enroll the following **Members** in **CalOptima Direct Administrative (COD-A)** subject to the provisions of this Policy:

1. A **Member** who has Medicare coverage and is not enrolled in OneCare or OneCare Connect~~:~~.

~~1. For a Member who has both Medicare Parts A and B or Medicare Part B coverage and is enrolled in CalOptima Direct pursuant to this policy, CalOptima shall not be required to assign such Members who are eligible for services through Medicare to a Medi-Cal Primary Care Provider (PCP) or require them to select a Medi-Cal PCP in accordance with the policy of the Department of Health Care Services (DHCS).~~
A **member**
~~2. For a Member who has Medicare Part A coverage, but does not have Medicare Part B coverage, and is enrolled in CalOptima Direct, pursuant to this policy, CalOptima shall assign such Member to a Medi-Cal PCP in accordance with DHCS policy(s).~~

2. ~~A Member~~ who becomes the responsibility of the Public Guardian or is in an Institute for Mental Disease (IMD), or with Orange County Children and Family Services and ~~is~~ placed outside of Orange County.

3. A **Member** with a **Share of Cost (SOC) Aid Code**.

4. A **Member** who resides at the Fairview Developmental Center.

5. At the time of initial enrollment in CalOptima, a **Member** with a non-Orange County zZip cCode, or invalid address information from the State.

a. If the address and/or zip code changes to an Orange County address at a later date, CalOptima shall request that the **Member** select a **Health Network** or **CalOptima Community Network (CCN)**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process. If the **Member** fails to choose a **Health Network** or **CCN**, then CalOptima shall auto assign the **Member**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

DRAFT

* Terms in **bold** are defined in the Glossary.

C. CalOptima shall enroll a **Member** in **CCN in the following circumstances**, unless eligible for enrollment in **COD-A** ~~as described above, subject to the following provisions of this Policy:~~under Section II.B.:

1. A **Member** with Long Term Care (LTC) **Aid Code**;

2. A **Member** with a Breast and Cervical Cancer Treatment Program (BCCTP) primary **Aid Code**;

3. A **Health Network Eligible Member**, except as otherwise identified in this Policy~~:~~, who is at least twenty-one (21) years old. The age provision shall no longer apply on and after the implementation date of the Department of Health Care Services (DHCS) approved Whole-Child Model (WCM) program, and:

   a. Is diagnosed with hemophilia;

   b. Is listed for a **Solid Organ Transplant** or approved for a Bone Marrow Transplant (BMT). ~~identified by a Provider as a potential candidate for a Solid Organ Transplant at a DHCS-approved Transplant Center or a **California Children's Services (CCS)** paneled Transplant Special Care Center, and the Provider has requested authorization for Covered Services, or is approved for a Bone Marrow Transplant (BMT), except if the Member is listed as **Status 7**;~~

   c. Has received a **Solid Organ Transplant** or BMT within one hundred twenty (120) calendar days prior to the **Member's** effective date of enrollment in CalOptima; or

   d. Is diagnosed with **End Stage Renal Disease (ESRD)**.

~~Notwithstanding Section II.C.3., **members** under the age of twenty-one (21) years shall not be assigned to CCN. This provision shall no longer apply on and after the implementation date of the Department of Health Care Services (DHCS) approved Whole-Child Model (WCM) program.~~

D. If a **Member** is no longer required to be enrolled in **COD-A** or **CCN** as described in Sections II.B or II.C, such **Member**:

1. Is a **Health Network Eligible Member**;

2. May select **CalOptima Community Network** or any other **Health Network** in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process.

E. CalOptima shall exclude a **Health Network Eligible Member** from the provisions of this P~~p~~olicy if such **Member** is enrolled in a **Health Maintenance Organization (HMO)** that, pursuant to the **Health Network's** Contract, is responsible for all **Covered Services** for the **Member**.

F. **COD-A** is responsible for a **Health Network Eligible Member** until such **Member** selects a **Health Network** or is assigned to a **Health Network**, pursuant to CalOptima Policies DD.2008:

Back to Agenda

DRAFT

Health Network and CalOptima Community Network Selection Process or AA.1207a: CalOptima Auto-Assignment~~.~~, respectively.

G. **CalOptima Direct** is not responsible for **Covered Services** provided to a **Member** outside the United States, with the exception of Emergency Services requiring hospitalization in Canada or Mexico, in accordance with Title 22, California Code of Regulations, Section 51006.

III. PROCEDURE

A. At the time of initial enrollment in CalOptima, a **Member** with a zip code outside of Orange County, as indicated by the eligibility file sent to CalOptima by the State, or, if CalOptima is unable to verify a zip code within Orange County due to no address information provided by the State, such **Member** shall not be auto-assigned by CalOptima, and the **Member** shall remain in **COD-A**.

B. If a **Member** assigned to **COD-A** due to having a zip code outside Orange County changes his or her zip code to an Orange County zip code, CalOptima shall request that the **Member** select a **Health Network** or **CCN**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process. If the **Member** fails to choose a **Health Network** or **CCN**, then CalOptima shall auto-assign the **Member**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

~~B.~~

C. If a current **Member** assigned to a **Health Network** has or receives a zip code outside of Orange County as indicated by the eligibility file sent to CalOptima by the State, or CalOptima is unable to verify a zip code within Orange County at a later date, the **Member** may remain with their assigned **Health Network** unless **Member** makes a different **Health Network** choice or meets the criteria for **COD-A** or **CCN** enrollment as stated in Section II.B or II.C.

D. If a **Health Network Eligible Member** becomes the responsibility of the Public Guardian, or is in an Institute for Mental Disease, or is with Orange County Children and Family Services and resides outside Orange County:

1. The ~~**Member's Public**~~**Member's** Public Guardian, or the Orange County Children and Family Services may submit a written request to enroll the **Member** in **COD-A**.

   a. If CalOptima receives such request to enroll the **Member** in **COD-A** by the tenth (10th) calendar day of the month, **CalOptima Direct** shall assume responsibility for all **Covered Services** for the **Member** effective the first (1st) calendar day of the immediately following month.

   b. If CalOptima receives such request after the tenth (10th) calendar day of the month, **COD-A** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the immediately following month.

2. If the **Member's** Public Guardian, ~~or Orange~~or Orange County Children and Family Services does not submit a written request to enroll the **Member** in **CalOptima Direct**, the **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **Division of Financial Responsibility (DOFR)**.

DRAFT

3. If the **Member** returns to Orange County, the Public Guardian or Orange County Children and Family Services may submit a written request to enroll the **Member** in a **Health Network** or **CCN**.

E. If a **Health Network Eligible Member** is diagnosed with Hemophilia:

1. The **Member's Health Network** shall notify CalOptima of the **Member's** diagnosis, in writing, using the Hemophilia Special Needs Screen Questionnaire, in accordance with CalOptima Policy GG.1318: Coordination of Care for Hemophilia Members.

   a. If the **Health Network** notifies CalOptima, in writing, by the tenth (10th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective the first (1st) calendar day of the ~~immediate~~immediately following month.

   b. If the **Health Network** notifies CalOptima, in writing, after the tenth (10th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the immediately following month.

2. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until the **Health Network** notifies CalOptima, in writing, to enroll the **Member** in **CalOptima Direct**, and CalOptima transitions such **Member** to **CCN**, as set forth in Section III.~~D~~E.1 of this Policy.

F. If a **Health Network Eligible Member**, is listed for a **Solid Organ Transplant** or approved for a BMT.~~identified by a Provider as a potential candidate for a Solid Organ Transplant at a DHCS-approved Transplant Center or a **CCS** paneled Transplant Special Care Center, and the Provider has requested authorization for Covered Services, or the Member is approved for Bone Marrow Transplant (BMT) at a DHCS-approved Transplant Center or **CCS** paneled Transplant Special Care Center, and is not listed as **Status 7:**~~

1. The **Member's Health Network** shall notify CalOptima, in writing, in accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.

   a. Except as set forth in Section III.~~D~~F.1.b of this P~~p~~olicy, **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month immediately following the date CalOptima receives written notice from the **Health Network**.

   b. If the **Member** receives a **Solid Organ Transplant** or BMT after the date the **Health Network** notifies CalOptima and before the first (1st) calendar day of the month immediately following the date CalOptima receives notice, **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month of notice.

2. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until the **Health Network** notifies CalOptima, in writing, and CalOptima transitions such **Member** to **CalOptima Direct** as set forth in Section III.~~D~~F.1. of this P~~p~~olicy.

Back to Agenda

DRAFT

3. **CCN** shall be responsible for all **Covered Services** for the **Member** for three- hundred sixty-five (365) calendar days after the **Member** receives a **Solid Organ Transplant** or BMT. After three-hundred sixty-five (365) calendar days after the date the **Member** receives a **Solid Organ Transplant** or BMT, CalOptima shall request the **Member** select a **Health Network**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process.

4. If CalOptima, the DHCS-approved Transplant Center, or the **CCS**-paneled Transplant Special Care Center, determines that the **Member** is ineligible for a **Solid Organ Transplant** or BMT:

   a. If it has been less than three hundred sixty-five (365) calendar days after the **Member** transitioned to **CCN**, CalOptima shall transition the **Member** to the **Member's** previous **Health Network**, effective the first (1st) calendar day of the month immediately following the date CalOptima or the DHCS-approved Transplant Center determines that the **Member** is ineligible for a **Solid Organ Transplant** or BMT; or

   b. If it has been more than three hundred sixty-five (365) calendar days after the **Member** transitioned to **CCN**, CalOptima shall request the **Member** select a **Health Network**, in accordance with CalOptima Policy DD.2008: Health Network Selection Process, or CalOptima shall auto assign the Member, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

G. If a **Health Network Eligible Member**, except a Kaiser **Member**, is identified as a potential candidate for ~~received~~ a **Solid Organ Transplant** or a BMT: ~~within one hundred twenty (120) calendar days prior to their effective date of enrollment in CalOptima:~~

1. The **Member's Health Network** shall notify CalOptima by sending a Notification of Transplant Member, in accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.

2. **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month immediately following the date CalOptima receives written notice from the **Health Network**, for a period of not less than three hundred sixty-five (365) calendar days after the date the **Member** received such Transplant.

3. CalOptima shall transition the **Member** to the **Member's** previous **Health Network**, effective no later than the first (1st) calendar day of the month immediately following the three hundred sixty fifth (365th) calendar day after the date the **Member** received a **Solid Organ Transplant** or BMT.

4. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member** until the **Health Network** submits written notice and CalOptima transitions such **Member** to **CCN**, as set forth in Section III.~~E~~G.1 and III.~~E~~G.2 of this Policy.

H. If a **Health Network Eligible Member** is diagnosed with **ESRD** and is not already assigned to **CCN**:

Back to Agenda

1. The **Member's Health Network** shall notify CalOptima, in writing, of the **Member** by submitting a copy of Form CMS-2728-U3 to CalOptima's Health Network Relations Department.

    a. If a **Health Network** submits a Form CMS-2728-U3 on or before the fifteenth (15th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the ~~immediate~~immediately following month. For example, if a **Health Network** submits Form CMS-2728-U3 on June 15, **CCN** shall assume responsibility for the **Member** effective August 1.

    b. If a **Health Network** submits a Form CMS-2728-U3 after the fifteenth (15th) day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the second (2nd) month after the immediately following month. For example, if a **Health Network** submits Form CMS-2728-U3 on June 16, **CCN** shall assume responsibility for the **Member** effective September 1.

    c. CalOptima shall provide the **Member** with a thirty (30) calendar day notice of the transition, pursuant to the CalOptima Contract with DHCS.

I. If CalOptima identifies a **Member** who meets the requirements specified in Sections II.B and II.C, of this P~~p~~olicy, CalOptima shall transition the **Member** to **COD-A**, or **CCN**, and notify the **Member's Health Network** of such transition. CalOptima shall provide the **Member**, with a thirty (30) calendar day notice of the transition pursuant to CalOptima's contract with DHCS.

1. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until CalOptima enrolls the **Member** in **COD-A** or **CCN**.

J. If CalOptima identifies a **Member** who meets the requirements specified in Section II.B.1.~~b~~ of this P~~p~~olicy, CalOptima shall assign the **Member** a **PCP** as follows:

1. For a **member** who has both Medicare Parts A and B or Medicare Part B coverage and is enrolled in **CalOptima Direct** pursuant to this P~~p~~olicy, CalOptima shall not be required to assign such **members** who are eligible for services through Medicare to a Medi-Cal **Primary Care Provider (PCP)** or require them to select a Medi-Cal **PCP** in accordance with the policy of the Department of Health Care Services (DHCS).

2. For a **member** who has Medicare Part A coverage, but does not have Medicare Part B coverage, and is enrolled in **CalOptima Direct**, pursuant to this P~~p~~olicy, CalOptima shall assign such **member** to a Medi-Cal **PCP** in accordance with DHCS policy(s).

3. For an existing **Member** assigned to a **Health Network**, who gains Part A-only Dual status, CalOptima shall transition the **Member** to **COD-A** in the month CalOptima is notified by the State of the change to Medicare Part A eligibility.

    a. CalOptima shall assign the **Member** a **PCP** in accordance with CalOptima Policy DD.2006b: CalOptima Community Network Primary Care Provider Selection/Assignment.

Back to Agenda

DRAFT

4. For a newly enrolled **Member** who is also Medicare Part A-only Dual eligible, CalOptima shall assign the **Member** to a **PCP** in accordance with the methodology described in CalOptima Policy DD.2006b: CalOptima Community Network Primary Care Provider Selection/Assignment.

5. A **Member** may request to change his or her participating **PCP** every thirty (30) calendar days by contacting CalOptima's Customer Service Department.

~~X.~~IX. GLOSSARY

Term	Definition
Aid Code	The two (2) character code, defined by the State of California, which identifies the aid category under which a ~~Member~~member is eligible to receive Medi-Cal ~~Covered Services~~covered services.
California Children's Services Program	~~For the purposes of this policy, the~~The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible ~~persons~~individuals under the age of twenty-one (21) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
California Children's Services (CCS) Eligible Condition	Chronic medical conditions, including but not limited to, cystic fibrosis, hemophilia, cerebral palsy, heart disease, cancer, traumatic injuries and infectious disease producing major sequelae as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
CalOptima Community Network (CCN)	A managed care network operated by CalOptima that contracts directly with physicians and hospitals and requires a Primary Care Provider (***PCP***) to manage the care of the ~~Member~~member.
CalOptima Direct (COD)	A direct health care program operated by CalOptima that includes both COD-Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to ~~Members~~members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
CalOptima Direct (COD) Member	A ~~Member~~member who receives all ~~Covered Services~~covered services through CalOptima Direct.
CalOptima Direct Administrative (COD-A)	The managed Fee-For-Service health care program operated by CalOptima that provides services to ~~Members~~members as described in CalOptima Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as ~~Covered Services~~covered services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for ~~Members~~members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Division ~~of~~Of Financial Responsibility (DOFR)	A matrix that defines how CalOptima identifies the responsible parties for components of medical associated with the provision of ~~Covered Services.~~covered services. The responsible parties include, but are not limited to, Physician, Hospital, CalOptima and the County of Orange.

Term	Definition
End Stage Renal Disease (ESRD)	That stage of kidney impairment that appears irreversible and permanent and requires a regular course of dialysis or kidney transplantation to maintain life. End Stage Renal Disease is classified as Stage V of Chronic Kidney Disease. This stage exists when renal function, as measured by glomerular filtration rate (GFR), is less than 15ml/min/1.73m^2 and serum creatinine is greater than or equal to eight, unless the Member is diabetic, in which case serum creatinine is greater than or equal to six (6). Excretory, regulatory, and hormonal renal functions are severely impaired, and the Member cannot maintain homeostasis.
Health Maintenance Organization (HMO)	A health care service plan, as defined in the Knox-Keene Health Care Service Plan Act of 1975, as amended, commencing with Section 1340 of the California Health and Safety Code.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide ~~Covered Services~~covered services to ~~Members~~members assigned to that ~~Health Network~~health network.
Health Network Eligible Member	A ~~Member~~member who is eligible to choose a CalOptima ~~Health Network~~health network or CalOptima Community Network (CCN).
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Primary Care Provider (PCP)	A Primary Care Provider may be a Primary Care Practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to ~~Members~~members and serves as the medical home for ~~Members~~members.
Solid Organ Transplant	A Transplant for: 1. Heart; 2. Heart and lung; 3. Lung; 4. Liver; 5. Small bowel; 6. Kidney; 7. Combined liver and kidney; 8. Combined liver and small bowel; and 9. Combined kidney and pancreas.
Status 7	Temporarily unsuitable for Transplant according to the DHCS-approved Transplant Center.

Policy #:	DD.2006
Title:	**Enrollment In/Eligibility with CalOptima Direct**
Department:	Customer Service
Section:	Not Applicable
CEO Approval:	Michael Schrader
Effective Date:	10/01/1995
Revision Date:	04/04/2019

I. PURPOSE

This policy defines the criteria by which CalOptima enrolls a **Member** in **CalOptima Direct**.

II. POLICY

A. CalOptima may enroll a **Member** in **CalOptima Direct**, in accordance with this Policy.

B. CalOptima shall enroll the following **Members** in **CalOptima Direct Administrative (COD-A)** subject to the provisions of this Policy:

1. A **Member** who has Medicare coverage and is not enrolled in OneCare or OneCare Connect.

2. A **member** who becomes the responsibility of the Public Guardian or is in an Institute for Mental Disease (IMD), or with Orange County Children and Family Services and placed outside of Orange County.

3. A **Member** with a **Share of Cost (SOC) Aid Code**.

4. A **Member** who resides at the Fairview Developmental Center.

5. At the time of initial enrollment in CalOptima, a **Member** with a non-Orange County zip code, or invalid address information from the State.

    a. If the address and/or zip code changes to an Orange County address at a later date, CalOptima shall request that the **Member** select a **Health Network** or **CalOptima Community Network (CCN)**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process. If the **Member** fails to choose a **Health Network** or **CCN**, then CalOptima shall auto assign the **Member**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

C. CalOptima shall enroll a **Member** in **CCN in the following circumstances**, unless eligible for enrollment in **COD-A** under Section II.B.:

1. A **Member** with Long Term Care (LTC) **Aid Code**;

2. A **Member** with a Breast and Cervical Cancer Treatment Program (BCCTP) primary **Aid Code**;

DRAFT

***** Terms in **bold** are defined in the Glossary.

3. A **Health Network Eligible Member**, except as otherwise identified in this Policy, who is at least twenty-one (21) years old. The age provision shall no longer apply on and after the implementation date of the Department of Health Care Services (DHCS) approved Whole-Child Model (WCM) program, and:

    a. Is diagnosed with hemophilia;

    b. Is listed for a **Solid Organ Transplant** or approved for a Bone Marrow Transplant (BMT).

    c. Has received a **Solid Organ Transplant** or BMT within one hundred twenty (120) calendar days prior to the **Member's** effective date of enrollment in CalOptima; or

    d. Is diagnosed with **End Stage Renal Disease (ESRD)**.

D. If a **Member** is no longer required to be enrolled in **COD-A** or **CCN** as described in Sections II.B or II.C, such **Member**:

1. Is a **Health Network Eligible Member**;

2. May select **CalOptima Community Network** or any other **Health Network** in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process.

E. CalOptima shall exclude a **Health Network Eligible Member** from the provisions of this Policy if such **Member** is enrolled in a **Health Maintenance Organization (HMO)** that, pursuant to the **Health Network's** Contract, is responsible for all **Covered Services** for the **Member**.

F. **COD-A** is responsible for a **Health Network Eligible Member** until such **Member** selects a **Health Network** or is assigned to a **Health Network**, pursuant to CalOptima Policies DD.2008: Health Network and CalOptima Community Network Selection Process or AA.1207a: CalOptima Auto-Assignment, respectively.

G. **CalOptima Direct** is not responsible for **Covered Services** provided to a **Member** outside the United States, with the exception of Emergency Services requiring hospitalization in Canada or Mexico, in accordance with Title 22, California Code of Regulations, Section 51006.

III. PROCEDURE

A. At the time of initial enrollment in CalOptima, a **Member** with a zip code outside of Orange County, as indicated by the eligibility file sent to CalOptima by the State, or, if CalOptima is unable to verify a zip code within Orange County due to no address information provided by the State, such **Member** shall not be auto-assigned by CalOptima, and the **Member** shall remain in **COD-A**.

B. If a **Member** assigned to **COD-A** due to having a zip code outside Orange County changes his or her zip code to an Orange County zip code, CalOptima shall request that the **Member** select a **Health Network** or **CCN**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process. If the **Member** fails to choose a **Health Network** or **CCN**, then CalOptima shall auto-assign the **Member**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

C. If a current **Member** assigned to a **Health Network** has or receives a zip code outside of Orange County as indicated by the eligibility file sent to CalOptima by the State, or CalOptima is unable to

DRAFT

verify a zip code within Orange County at a later date, the **Member** may remain with their assigned **Health Network** unless **Member** makes a different **Health Network** choice or meets the criteria for **COD-A** or **CCN** enrollment as stated in Section II.B or II.C.

D. If a **Health Network Eligible Member** becomes the responsibility of the Public Guardian, or is in an Institute for Mental Disease, or is with Orange County Children and Family Services and resides outside Orange County:

1. The **Member's** Public Guardian, or the Orange County Children and Family Services may submit a written request to enroll the **Member** in **COD-A**.

   a. If CalOptima receives such request to enroll the **Member** in **COD-A** by the tenth (10th) calendar day of the month, **CalOptima Direct** shall assume responsibility for all **Covered Services** for the **Member** effective the first (1st) calendar day of the immediately following month.

   b. If CalOptima receives such request after the tenth (10th) calendar day of the month, **COD-A** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the immediately following month.

2. If the **Member's** Public Guardian, or Orange County Children and Family Services does not submit a written request to enroll the **Member** in **CalOptima Direct**, the **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **Division of Financial Responsibility (DOFR)**.

3. If the **Member** returns to Orange County, the Public Guardian or Orange County Children and Family Services may submit a written request to enroll the **Member** in a **Health Network** or **CCN**.

E. If a **Health Network Eligible Member** is diagnosed with Hemophilia:

1. The **Member's Health Network** shall notify CalOptima of the **Member's** diagnosis, in writing, using the Hemophilia Special Needs Screen Questionnaire, in accordance with CalOptima Policy GG.1318: Coordination of Care for Hemophilia Members.

   a. If the **Health Network** notifies CalOptima, in writing, by the tenth (10th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective the first (1st) calendar day of the immediately following month.

   b. If the **Health Network** notifies CalOptima, in writing, after the tenth (10th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the immediately following month.

2. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until the **Health Network** notifies CalOptima, in writing, to enroll the **Member** in **CalOptima Direct**, and CalOptima transitions such **Member** to **CCN**, as set forth in Section III.E.1 of this Policy.

F. If a **Health Network Eligible Member**, is listed for a **Solid Organ Transplant** or approved for a BMT.

DRAFT

1. The **Member's Health Network** shall notify CalOptima, in writing, in accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.

    a. Except as set forth in Section III.F.1.b of this Policy, **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month immediately following the date CalOptima receives written notice from the **Health Network**.

    b. If the **Member** receives a **Solid Organ Transplant** or BMT after the date the **Health Network** notifies CalOptima and before the first (1st) calendar day of the month immediately following the date CalOptima receives notice, **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month of notice.

2. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until the **Health Network** notifies CalOptima, in writing, and CalOptima transitions such **Member** to **CalOptima Direct** as set forth in Section III.F.1. of this Policy.

3. **CCN** shall be responsible for all **Covered Services** for the **Member** for three- hundred sixty-five (365) calendar days after the **Member** receives a **Solid Organ Transplant** or BMT. After three-hundred sixty-five (365) calendar days after the date the **Member** receives a **Solid Organ Transplant** or BMT, CalOptima shall request the **Member** select a **Health Network**, in accordance with CalOptima Policy DD.2008: Health Network and CalOptima Community Network Selection Process.

4. If CalOptima, the DHCS-approved Transplant Center, or the **CCS-**paneled Transplant Special Care Center, determines that the **Member** is ineligible for a **Solid Organ Transplant** or BMT:

    a. If it has been less than three hundred sixty-five (365) calendar days after the **Member** transitioned to **CCN**, CalOptima shall transition the **Member** to the **Member's** previous **Health Network**, effective the first (1st) calendar day of the month immediately following the date CalOptima or the DHCS-approved Transplant Center determines that the **Member** is ineligible for a **Solid Organ Transplant** or BMT; or

    b. If it has been more than three hundred sixty-five (365) calendar days after the **Member** transitioned to **CCN**, CalOptima shall request the **Member** select a **Health Network**, in accordance with CalOptima Policy DD.2008: Health Network Selection Process, or CalOptima shall auto assign the Member, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

G. If a **Health Network Eligible Member**, except a Kaiser **Member**, is identified as a potential candidate for a **Solid Organ Transplant** or a BMT:

1. The **Member's Health Network** shall notify CalOptima by sending a Notification of Transplant Member, in accordance with CalOptima Policy GG.1313: Coordination of Care for Transplant Members.

2. **CCN** shall assume responsibility for all **Covered Services** for the **Member** on the first (1st) calendar day of the month immediately following the date CalOptima receives written notice from the **Health Network**, for a period of not less than three hundred sixty-five (365) calendar days after the date the **Member** received such Transplant.

DRAFT

3. CalOptima shall transition the **Member** to the **Member's** previous **Health Network**, effective no later than the first (1st) calendar day of the month immediately following the three hundred sixty fifth (365th) calendar day after the date the **Member** received a **Solid Organ Transplant** or BMT.

4. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member** until the **Health Network** submits written notice and CalOptima transitions such **Member** to **CCN**, as set forth in Section III.G.1 and III.G.2 of this Policy.

H. If a **Health Network Eligible Member** is diagnosed with **ESRD** and is not already assigned to **CCN**:

1. The **Member's Health Network** shall notify CalOptima, in writing, of the **Member** by submitting a copy of Form CMS-2728-U3 to CalOptima's Health Network Relations Department.

a. If a **Health Network** submits a Form CMS-2728-U3 on or before the fifteenth (15th) calendar day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the month after the immediately following month. For example, if a **Health Network** submits Form CMS-2728-U3 on June 15, **CCN** shall assume responsibility for the **Member** effective August 1.

b. If a **Health Network** submits a Form CMS-2728-U3 after the fifteenth (15th) day of a month, **CCN** shall assume responsibility for all **Covered Services** for the **Member** effective no later than the first (1st) calendar day of the second (2nd) month after the immediately following month. For example, if a **Health Network** submits Form CMS-2728-U3 on June 16, **CCN** shall assume responsibility for the **Member** effective September 1.

c. CalOptima shall provide the **Member** with a thirty (30) calendar day notice of the transition, pursuant to the CalOptima Contract with DHCS.

I. If CalOptima identifies a **Member** who meets the requirements specified in Sections II.B and II.C, of this Policy, CalOptima shall transition the **Member** to **COD-A**, or **CCN**, and notify the **Member's Health Network** of such transition. CalOptima shall provide the **Member**, with a thirty (30) calendar day notice of the transition pursuant to CalOptima's contract with DHCS.

1. The **Member's Health Network** shall be responsible for all **Covered Services** for the **Member**, in accordance with the **DOFR**, until CalOptima enrolls the **Member** in **COD-A** or **CCN**.

J. If CalOptima identifies a **Member** who meets the requirements specified in Section II.B.1. of this Policy, CalOptima shall assign the **Member** a **PCP** as follows:

1. For a **member** who has both Medicare Parts A and B or Medicare Part B coverage and is enrolled in **CalOptima Direct** pursuant to this Policy, CalOptima shall not be required to assign such **members** who are eligible for services through Medicare to a Medi-Cal **Primary Care Provider (PCP)** or require them to select a Medi-Cal **PCP** in accordance with the policy of the Department of Health Care Services (DHCS).

DRAFT

2. For a **member** who has Medicare Part A coverage, but does not have Medicare Part B coverage, and is enrolled in **CalOptima Direct**, pursuant to this Policy, CalOptima shall assign such **member** to a Medi-Cal **PCP** in accordance with DHCS policy(s).

3. For an existing **Member** assigned to a **Health Network**, who gains Part A-only Dual status, CalOptima shall transition the **Member** to **COD-A** in the month CalOptima is notified by the State of the change to Medicare Part A eligibility.

    a. CalOptima shall assign the **Member** a **PCP** in accordance with CalOptima Policy DD.2006b: CalOptima Community Network Primary Care Provider Selection/Assignment.

4. For a newly enrolled **Member** who is also Medicare Part A-only Dual eligible, CalOptima shall assign the **Member** to a **PCP** in accordance with the methodology described in CalOptima Policy DD.2006b: CalOptima Community Network Primary Care Provider Selection/Assignment.

5. A **Member** may request to change his or her participating **PCP** every thirty (30) calendar days by contacting CalOptima's Customer Service Department.

IX. GLOSSARY

Term	Definition
Aid Code	The two (2) character code, defined by the State of California, which identifies the aid category under which a member is eligible to receive Medi-Cal covered services.
California Children's Services Program	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible individuals under the age of twenty-one (21) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
California Children's Services (CCS) Eligible Condition	Chronic medical conditions, including but not limited to, cystic fibrosis, hemophilia, cerebral palsy, heart disease, cancer, traumatic injuries and infectious disease producing major sequelae as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
CalOptima Community Network (CCN)	A managed care network operated by CalOptima that contracts directly with physicians and hospitals and requires a Primary Care Provider (***PCP***) to manage the care of the member.
CalOptima Direct (COD)	A direct health care program operated by CalOptima that includes both COD-Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
CalOptima Direct (COD) Member	A member who receives all covered services through CalOptima Direct.
CalOptima Direct Administrative (COD-A)	The managed Fee-For-Service health care program operated by CalOptima that provides services to members as described in CalOptima Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as covered services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Division Of Financial Responsibility (DOFR)	A matrix that defines how CalOptima identifies the responsible parties for components of medical associated with the provision of covered services. The responsible parties include, but are not limited to, Physician, Hospital, CalOptima and the County of Orange.

DRAFT

Term	Definition
End Stage Renal Disease (ESRD)	That stage of kidney impairment that appears irreversible and permanent and requires a regular course of dialysis or kidney transplantation to maintain life. End Stage Renal Disease is classified as Stage V of Chronic Kidney Disease. This stage exists when renal function, as measured by glomerular filtration rate (GFR), is less than 15ml/min/1.73m^2 and serum creatinine is greater than or equal to eight, unless the Member is diabetic, in which case serum creatinine is greater than or equal to six (6). Excretory, regulatory, and hormonal renal functions are severely impaired, and the Member cannot maintain homeostasis.
Health Maintenance Organization (HMO)	A health care service plan, as defined in the Knox-Keene Health Care Service Plan Act of 1975, as amended, commencing with Section 1340 of the California Health and Safety Code.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide covered services to members assigned to that health network.
Health Network Eligible Member	A member who is eligible to choose a CalOptima health network or CalOptima Community Network (CCN).
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Primary Care Provider (PCP)	A Primary Care Provider may be a Primary Care Practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to members and serves as the medical home for members.
Solid Organ Transplant	A Transplant for: 1. Heart; 2. Heart and lung; 3. Lung; 4. Liver; 5. Small bowel; 6. Kidney; 7. Combined liver and kidney; 8. Combined liver and small bowel; and 9. Combined kidney and pancreas.
Status 7	Temporarily unsuitable for Transplant according to the DHCS-approved Transplant Center.

OMB No. 0938-0046

END STAGE RENAL DISEASE MEDICAL EVIDENCE REPORT MEDICARE ENTITLEMENT AND/OR PATIENT REGISTRATION

A. COMPLETE FOR ALL ESRD PATIENTS *Check one:* ☐ Initial ☐ Re-entitlement ☐ Supplemental

1. Name *(Last, First, Middle Initial)*

2. Medicare Claim Number

3. Social Security Number

4. Date of Birth *(mm/dd/yyyy)*

5. Patient Mailing Address *(Include City, State and Zip)*

6. Phone Number *(including area code)*

7. Sex ☐ Male ☐ Female

8. Ethnicity ☐ Not Hispanic or Latino ☐ Hispanic or Latino (Complete Item 9)

9. Country/Area of Origin or Ancestry

10. Race *(Check all that apply)*
☐ White
☐ Black or African American
☐ American Indian/Alaska Native
Print Name of Enrolled/Principal Tribe
☐ Asian
☐ Native Hawaiian or Other Pacific Islander*
*complete Item 9

11. Is patient applying for ESRD Medicare coverage? ☐ Yes ☐ No

12. Current Medical Coverage *(Check all that apply)*
☐ Medicaid ☐ Medicare ☐ Employer Group Health Insurance
☐ DVA ☐ Medicare Advantage ☐ Other ☐ None

13. Height INCHES ____ OR CENTIMETERS ____

14. Dry Weight POUNDS ____ OR KILOGRAMS ____

15. Primary Cause of Renal Failure *(Use ICD-10-CM Code)*

16. Employment Status *(6 mos prior and current status)*

Prior	Current	
☐	☐	Unemployed
☐	☐	Employed Full Time
☐	☐	Employed Part Time
☐	☐	Homemaker
☐	☐	Retired due to Age/Preference
☐	☐	Retired (Disability)
☐	☐	Medical Leave of Absence
☐	☐	Student

17. Co-Morbid Conditions *(Check all that apply currently and/or during last 10 years)* *See instructions

a. ☐ Congestive heart failure
b. ☐ Atherosclerotic heart disease ASHD
c. ☐ Other cardiac disease
d. ☐ Cerebrovascular disease, CVA, TIA*
e. ☐ Peripheral vascular disease*
f. ☐ History of hypertension
g. ☐ Amputation
h. ☐ Diabetes, currently on insulin
i. ☐ Diabetes, on oral medications
j. ☐ Diabetes, without medications
k. ☐ Diabetic retinopathy
l. ☐ Chronic obstructive pulmonary disease
m. ☐ Tobacco use (current smoker)
n. ☐ Malignant neoplasm, Cancer
o. ☐ Toxic nephropathy
p. ☐ Alcohol dependence
q. ☐ Drug dependence*
r. ☐ Inability to ambulate
s. ☐ Inability to transfer
t. ☐ Needs assistance with daily activities
u. Institutionalized
☐ 1. Assisted Living
☐ 2. Nursing Home
☐ 3. Other Institution
v. ☐ Non-renal congenital abnormality
w. ☐ None

18. Prior to ESRD therapy:

a. Did patient receive exogenous erythropoetin or equivalent? ☐ Yes ☐ No ☐ Unknown If Yes, answer: ☐ <6 months ☐ 6-12 months ☐ >12 months
b. Was patient under care of a nephrologist? ☐ Yes ☐ No ☐ Unknown If Yes, answer: ☐ <6 months ☐ 6-12 months ☐ >12 months
c. Was patient under care of kidney dietitian? ☐ Yes ☐ No ☐ Unknown If Yes, answer: ☐ <6 months ☐ 6-12 months ☐ >12 months
d. What access was used on first outpatient dialysis: ___ AVF ___ Graft ___ Catheter ☐ Other
If not AVF, then: Is maturing AVF present? ☐ Yes ☐ No
Is maturing graft present? Yes No

19. Laboratory Values Within 45 Days Prior to the Most Recent ESRD Episode. (Lipid Profile within 1 Year of Most Recent ESRD Episode).

LABORATORY TEST	VALUE	DATE	LABORATORY TEST	VALUE	DATE
a.1. Serum Albumin (g/dl)			d. HbA1c	%	
a.2. Serum Albumin Lower Limit			e. Lipid Profile TC		
a.3. Lab Method Used (BCG or BCP)			LDL		
b. Serum Creatinine (mg/dl)			HDL		
c. Hemoglobin (g/dl)			TG		

B. COMPLETE FOR ALL ESRD PATIENTS IN DIALYSIS TREATMENT

20. Name of Dialysis Facility

21. Medicare Provider Number *(for item 20)*

22. Primary Dialysis Setting
☐ Home ☐ Dialysis Facility/Center ☐ SNF/Long Term Care Facility

23. Primary Type of Dialysis
☐ Hemodialysis (Sessions per week____/hours per session____)
☐ CAPD ☐ CCPD ☐ Other

24. Date Regular Chronic Dialysis Began *(mm/dd/yyyy)*

25. Date Patient Started Chronic Dialysis at Current Facility *(mm/dd/yyyy)*

26. Has patient been informed of kidney transplant options? ☐ Yes ☐ No

27. If patient NOT informed of transplant options, please check all that apply:
☐ Medically unfit
☐ Patient has not been assessed
☐ Patient declines information
☐ Psychologically unfit
☐ Unsuitable due to age
☐ Other

C. COMPLETE FOR ALL KIDNEY TRANSPLANT PATIENTS

28. Date of Transplant *(mm/dd/yyyy)*	29. Name of Transplant Hospital	30. Medicare Provider Number for Item 29

Date patient was admitted as an inpatient to a hospital in preparation for, or anticipation of, a kidney transplant prior to the date of actual transplantation.

31. Enter Date *(mm/dd/yyyy)*	32. Name of Preparation Hospital	33. Medicare Provider number for Item 32

34. Current Status of Transplant *(if functioning, skip items 36 and 37)*	35. Type of Donor:
☐ Functioning ☐ Non-Functioning	☐ Deceased ☐ Living Related ☐ Living Unrelated
36. If Non-Functioning, Date of Return to Regular Dialysis *(mm/dd/yyyy)*	37. Current Dialysis Treatment Site
	☐ Home ☐ Dialysis Facility/Center ☐ SNF/Long Term Care Facility

D. COMPLETE FOR ALL ESRD SELF-DIALYSIS TRAINING PATIENTS (MEDICARE APPLICANTS ONLY)

38. Name of Training Provider	39. Medicare Provider Number of Training Provider (for Item 38)
40. Date Training Began *(mm/dd/yyyy)*	41. Type of Training ☐ Hemodialysis a. ☐ Home b. ☐ In Center ☐ CAPD ☐ CCPD ☐ Other
42. This Patient is Expected to Complete *(or has completed)* Training and will Self-dialyze on a Regular Basis. ☐ Yes ☐ No	43. Date When Patient Completed, or is Expected to Complete, Training *(mm/dd/yyyy)*

I certify that the above self-dialysis training information is correct and is based on consideration of all pertinent medical, psychological, and sociological factors as reflected in records kept by this training facility.

44. Printed Name and Signature of Physician personally familiar with the patient's training			45. UPIN of Physician in Item 44
a.) Printed Name	b.) Signature	c.) Date *(mm/dd/yyyy)*	

E. PHYSICIAN IDENTIFICATION

46. Attending Physician *(Print)*	47. Physician's Phone No. *(include Area Code)*	48. UPIN of Physician in Item 46

PHYSICIAN ATTESTATION

I certify, under penalty of perjury, that the information on this form is correct to the best of my knowledge and belief. Based on diagnostic tests and laboratory findings, I further certify that this patient has reached the stage of renal impairment that appears irreversible and permanent and requires a regular course of dialysis or kidney transplant to maintain life. I understand that this information is intended for use in establishing the patient's entitlement to Medicare benefits and that any falsification, misrepresentation, or concealment of essential information may subject me to fine, imprisonment, civil penalty, or other civil sanctions under applicable Federal laws.

49. Attending Physician's Signature of Attestation *(Same as Item 46)*	50. Date *(mm/dd/yyyy)*
51. Physician Recertification Signature	52. Date *(mm/dd/yyyy)*

53. Remarks

F. OBTAIN SIGNATURE FROM PATIENT

I hereby authorize any physician, hospital, agency, or other organization to disclose any medical records or other information about my medical condition to the Department of Health and Human Services for purposes of reviewing my application for Medicare entitlement under the Social Security Act and/or for scientific research.

54. Signature of Patient *(Signature by mark must be witnessed.)*	55. Date *(mm/dd/yyyy)*

G. PRIVACY STATEMENT

The collection of this information is authorized by Section 226A of the Social Security Act. The information provided will be used to determine if an individual is entitled to Medicare under the End Stage Renal Disease provisions of the law. The information will be maintained in system No. 09-70-0520, "End Stage Renal Disease Program Management and Medical Information System (ESRD PMMIS)", published in the Federal Register, Vol. 67, No. 116, June 17, 2002, pages 41244-41250 or as updated and republished. Collection of your Social Security number is authorized by Executive Order 9397. Furnishing the information on this form is voluntary, but failure to do so may result in denial of Medicare benefits. Information from the ESRD PMMIS may be given to a congressional office in response to an inquiry from the congressional office made at the request of the individual; an individual or organization for research, demonstration, evaluation, or epidemiologic project related to the prevention of disease or disability, or the restoration or maintenance of health. Additional disclosures may be found in the *Federal Register* notice cited above. You should be aware that P.L.100-503, the Computer Matching and Privacy Protection Act of 1988, permits the government to verify information by way of computer matches.

INSTRUCTIONS FOR COMPLETION OF END STAGE RENAL DISEASE MEDICAL EVIDENCE REPORT MEDICARE ENTITLEMENT AND/OR PATIENT REGISTRATION

For whom should this form be completed:

This form SHOULD NOT be completed for those patients who are in acute renal failure. Acute renal failure is a condition in which kidney function can be expected to recover after a short period of dialysis, i.e., several weeks or months.

This form MUST BE completed within 45 days for ALL patients beginning any of the following:

Check the appropriate block that identifies the reason for submission of this form.

Initial

For all patients who initially receive a kidney transplant instead of a course of dialysis. For patients for whom a regular course of dialysis has been prescribed by a physician because they have reached that stage of renal impairment that a kidney transplant or regular course of dialysis is necessary to maintain life. The first date of a regular course of dialysis is the date this prescription is implemented whether as an inpatient of a hospital, an outpatient in a dialysis center or facility, or a home patient.

The form should be completed for all patients in this category even if the patient dies within this time period.

Re-entitlement

For beneficiaries who have already been entitled to ESRD Medicare benefits and those benefits were terminated because their coverage stopped 3 years post- transplant but now are again applying for Medicare ESRD benefits because they returned to dialysis or received another kidney transplant.

For beneficiaries who stopped dialysis for more than 12 months, have had their Medicare ESRD benefits terminated and now returned to dialysis or received a kidney transplant. These patients will be reapplying for Medicare ESRD benefits.

Supplemental

Patient has received a transplant or trained for self-care dialysis within the first 3 months of the first date of dialysis and initial form was submitted.

All items except as follows: To be completed by the attending physician, head nurse, or social worker involved in this patient's treatment of renal disease.

Items 15, 17-18, 26-27, 49-50: To be completed by the attending physician.
Item 44: To be signed by the attending physician or the physician familiar with the patient's self-care dialysis training.
Items 54 and 55: To be signed and dated by the patient.

1. Enter the patient's legal name (Last, first, middle initial). Name should appear exactly the same as it appears on patient's social security or Medicare card.
2. If the patient is covered by Medicare, enter his/her Medicare claim number as it appears on his/her Medicare card.
3. Enter the patient's own social security number. This number can be verified from his/her social security card.
4. Enter patient's date of birth (2-digit Month, Day, and 4-digit Year). Example 07/25/1950.
5. Enter the patient's mailing address (number and street or post office box number, city, state, and ZIP code.)
6. Enter the patient's home area code and telephone number.
7. Check the appropriate block to identify sex.
8. Check the appropriate block to identify ethnicity. Definitions of the ethnicity categories for Federal statistics are as follows:

   Not Hispanic or Latino—A person of culture or origin not described below, regardless of race.

   Hispanic or Latino—A person of Cuban, Puerto Rican, or Mexican culture or origin regardless of race. Please complete Item 9 and provide the country, area of origin, or ancestry to which the patient claims to belong.
9. Country/Area of origin or ancestry—Complete if information is available or if directed to do so in question 8.
10. Check the appropriate block(s) to identify race. Definitions of the racial categories for Federal statistics are as follows:

    White—A person having origins in any of the original white peoples of Europe, the Middle East or North Africa.

    Black or African American—A person having origins in any of the black racial groups of Africa. This includes native-born Black Americans, Africans, Haitians and residents of non-Spanish speaking Caribbean Islands of African descent.

    American Indian/Alaska Native—A person having origins in any of the original peoples of North America and South America (including Central America) and who maintains Tribal affiliation or community attachment. Print the name of the enrolled or principal tribe to which the patient claims to be a member.

    Asian—A person having origins in any of the original peoples of the Far East, Southeast Asia or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam.

    Native Hawaiian or Other Pacific Islander—A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. Please complete Item 9 and provide the country, area of origin, or ancestry to which the patient claims to belong.

DISTRIBUTION OF COPIES:

- Forward one copy of this form to the Social Security office servicing the claim.
- Forward one copy of this form to the ESRD Network Organization.
- Retain one copy of this form in the patient's medical records file.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information is 0938-0046. The time required to complete this information collection estimated to average 45 minutes per response, including the time to review instructions, search existing data resources, and gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, Attention: PRA Reports Clearance Officer, 7500 Security Boulevard, Baltimore, Maryland 21244-1850. Please do not send applications, claims, payments, medical records or any documents containing sensitive information to the PRA Reports Clearance Office. Please note that any correspondence not pertaining to the information collection burden approved under the associated OMB control number listed on this form will not be reviewed, forwarded, or retained. If you have questions or concerns regarding where to submit your documents, please contact 1-800-MEDICARE.

11. Check the appropriate yes or no block to indicate if patient is applying for ESRD Medicare. Note: Even though a person may already be entitled to general Medicare coverage, he/she should reapply for ESRD Medicare coverage.

12. Check all the blocks that apply to this patient's current medical insurance status.

Medicaid—Patient is currently receiving State Medicaid benefits.

Medicare—Patient is currently entitled to Federal Medicare benefits.

Employer Group Health Insurance—Patient receives medical benefits through an employee health plan that covers employees, former employees, or the families of employees o former employees.

DVA—Patient is receiving medical care from a Department of Veterans Affairs facility.

Medicare Advantage—Patient is receiving medical benefits under a Medicare Advantage organization.

Other Medical Insurance—Patient is receiving medical benefits under a health insurance plan that is not Medicare, Medicaid, Department of Veterans Affairs, HMO/M+C organization, nor an employer group health insurance plan. Examples of other medical insurance are Railroad Retirement and CHAMPUS beneficiaries.

None—Patient has no medical insurance plan.

13. Enter the patient's most recent recorded height in inches OR centimeters at time form is being completed. If entering height in centimeters, round to the nearest centimeter. Estimate or use last known height for those unable to be measured. (Example of inches - 62. DO NOT PUT 5'2") NOTE: For amputee patients, enter height prior to amputation.

14. Enter the patient's most recent recorded dry weight in pounds OR kilograms at time form is being completed. If entering weight in kilograms, round to the nearest kilogram.

NOTE: For amputee patients, enter actual dry weight.

15. To be completed by the attending physician. Enter the ICD10-CM Code to indicate the primary cause of end stage renal disease.

16. Check the first box to indicate employment status 6 months prior to renal failure and the second box to indicate current employment status. Check only one box for each time period. If patient is under 6 years of age, leave blank.

17. To be completed by the attending physician. Check all co-morbid conditions that apply.

*Cerebrovascular Disease includes history of stroke/cerebrovascular accident (CVA) and transient ischemic attack (TIA).

*Peripheral Vascular Disease includes absent foot pulses, prior typical claudication, amputations for vascular disease, gangrene and aortic aneurysm.

*Drug dependence means dependent on illicit drugs.

18. Prior to ESRD therapy, check the appropriate box to indicate whether the patient received exogenous erythropoietin (EPO) or equivalent, was under the care of a nephrologist and/or was under the care of a kidney dietitian. Provide vascular access information as to the type of access used (Arterio-Venous Fistula (AVF), graft, catheter (including port device) or other type of access) when the patient first received outpatient dialysis. If an AVF access was not used, was a maturing AVF or graft present?

NOTE: For those patients re-entering the Medicare program after benefits were terminated, Items 19a thru 19c should contain initial laboratory values within 45 days prior to the most recent ESRD episode. Lipid profiles and HbA1c should be within 1 year of the most recent ESRD episode. Some tests may not be required for patients under 21 years of age.

19a1. Enter the serum albumin value (g/dl) and date test was taken. This value and date must be within 45 days prior to first dialysis treatment or kidney transplant.

19a2. Enter the lower limit of the normal range for serum albumin from the laboratory which performed the serum albumin test entered in 19a1.

19a3. Enter the serum albumin lab method used (BCG or BCP).

19b. Enter the serum creatinine value (mg/dl) and date test was taken. THIS FIELD MUST BE COMPLETED. Value must be within 45 days prior to first dialysis treatment or kidney transplant.

19c. Enter the hemoglobin value (g/dl) and date test was taken. This value and date must be within 45 days prior to the first dialysis treatment or kidney transplant.

19d. Enter the HbA1c value and the date the test was taken. The date must be within 1 year prior to the first dialysis treatment or kidney transplant.

19e. Enter the Lipid Profile values and date test was taken. These values: TC–Total Cholesterol; LDL–LDL Cholesterol; HDL–HDL Cholesterol; TG–Triglycerides, and date must be within 1 year prior to the first dialysis treatment or kidney transplant.

20. Enter the name of the dialysis facility where patient is currently receiving care and who is completing this form for patient.

21. Enter the 6-digit Medicare identification code of the dialysis facility in item 20.

22. If the person is receiving a regular course of dialysis treatment, check the appropriate anticipated long-term treatment setting at the time this form is being completed.

23. If the patient is, or was, on regular dialysis, check the anticipated long-term primary type of dialysis: Hemodialysis, (enter the number of sessions prescribed per week and the hours that were prescribed for each session), CAPD (Continuous Ambulatory Peritoneal Dialysis) and CCPD (Continuous Cycling Peritoneal Dialysis), or Other. Check only one block. NOTE: Other has been placed on this form to be used only to report IPD (Intermittent Peritoneal Dialysis) and any new method of dialysis that may be developed prior to the renewal of this form by Office of Management and Budget.

24. Enter the date (month, day, year) that a "regular course of chronic dialysis" began. The beginning of the course of dialysis is counted from the beginning of regularly scheduled dialysis necessary for the treatment of end stage renal disease (ESRD) regardless of the dialysis setting. The date of the first dialysis treatment after the physician has determined that this patient has ESRD and has written a prescription for a "regular course of dialysis" is the "Date Regular Chronic Dialysis Began" regardless of whether this prescription was implemented in a hospital/ inpatient, outpatient, or home setting and regardless of any acute treatments received prior to the implementation of the prescription.

NOTE: For these purposes, end stage renal disease means irreversible damage to a person's kidneys so severely affecting his/her ability to remove or adjust blood wastes that in order to maintain life he or she must have either a course of dialysis or a kidney transplant to maintain life.

If re-entering the Medicare program, enter beginning date of the current ESRD episode. Note in Remarks, Item 53, that patient is restarting dialysis.

25. Enter date patient started chronic dialysis at current facility of dialysis services. In cases where patient transferred to current dialysis facility, this date will be after the date in Item 24.

26. Enter whether the patient has been informed of their options for receiving a kidney transplant.

27. If the patient has not been informed of their options (answered "no" to Item 26), then enter all reasons why a

kidney transplant was not an option for this patient at this time.

28. Enter the date(s) of the patient's kidney transplant(s). If reentering the Medicare program, enter current transplant date.
29. Enter the name of the hospital where the patient received a kidney transplant on the date in Item 28.
30. Enter the 6-digit Medicare identification code of the hospital in Item 29 where the patient received a kidney transplant on the date entered in Item 28.
31. Enter date patient was admitted as an inpatient to a hospital in preparation for, or anticipation of, a kidney transplant prior to the date of the actual transplantation. This includes hospitalization for transplant workup in order to place the patient on a transplant waiting list.
32. Enter the name of the hospital where patient was admitted as an inpatient in preparation for, or anticipation of, a kidney transplant prior to the date of the actual transplantation.
33. Enter the 6-digit Medicare identification number for hospital in Item 32.
34. Check the appropriate functioning or non-functioning block.
35. Enter the type of kidney transplant organ donor, Deceased, Living Related or Living Unrelated, that was provided to the patient.
36. If transplant is nonfunctioning, enter date patient returned to a regular course of dialysis. If patient did not stop dialysis post-transplant, enter transplant date.
37. If applicable, check where patient is receiving dialysis treatment following transplant rejection. A nursing home or skilled nursing facility is considered as home setting

Self-dialysis Training Patients (Medicare Applicants Only)

Normally, Medicare entitlement begins with the third month after the month a patient begins a regular course of dialysis treatment. This 3-month qualifying period may be waived if a patient begins a self-dialysis training program in a Medicare approved training facility and is expected to self-dialyze after the completion of the training program. Please complete items 38-43 if the patient has entered into a self-dialysis training program. Items 38-43 must be completed if the patient is applying for a Medicare waiver of the 3-month qualifying period for dialysis benefits based on participation in a self-care dialysis training program.

38. Enter the name of the provider furnishing self-care dialysis training.
39. Enter the 6-digit Medicare identification number for the training provider in Item 38.
40. Enter the date self-dialysis training began.
41. Check the appropriate block which describes the type of self-care dialysis training the patient began. If the patient trained for hemodialysis, enter whether the training was to perform dialysis in the home setting or in the facility (in center). If the patient trained for IPD (Intermittent Peritoneal Dialysis), report as Other.
42. Check the appropriate block as to whether or not the physician certifies that the patient is expected to complete the training successfully and self-dialyze on a regular basis.
43. Enter date patient completed or is expected to complete self-dialysis training.
44. Enter printed name and signature of the attending physician or the physician familiar with the patient's self-care dialysis training.
45. Enter the Unique Physician Identification Number (UPIN) of physician in Item 44. (See Item 48 for explanation of UPIN.)
46. Enter the name of the physician who is supervising the patient's renal treatment at the time this form is completed.
47. Enter the area code and telephone number of the physician who is supervising the patient's renal treatment at the time this form is completed.
48. Enter the physician's UPIN assigned by CMS.

    A system of physician identifiers is mandated by Section 9202 of the Consolidated Omnibus Budget Reconciliation Act of 1985. It requires a unique identifier for each physician who provides services for which Medicare payment is made. An identifier is assigned to each physician regardless of his or her practice configuration. The UPIN is established in a national Registry of Medicare Physician Identification and Eligibility Records (MPIER). Transamerica Occidental Life Insurance Company is the Registry Carrier that establishes and maintains the national registry of physicians receiving Part Medicare payment. Its address is: UPIN Registry, Transamerica Occidental Life, P.O. Box 2575, Los Angeles, CA 90051-0575.
49. To be signed by the physician supervising the patient's kidney treatment. Signature of physician identified in Item 46. A stamped signature is unacceptable.
50. Enter date physician signed this form.
51. To be signed by the physician who is currently following the patient. If the patient had decided initially not to file an application for Medicare, the physician will be re-certifying that the patient is end stage renal, based on the same medical evidence, by signing the copy of the CMS-2728 that was originally submitted and returned to the provider. If you do not have a copy of the original CMS-2728 on file, complete a new form.
52. The date physician re-certified and signed the form.
53. This remarks section may be used for any necessary comments by either the physician, patient, ESRD Network or social security field office.
54. The patient's signature authorizing the release of information to the Department of Health and Human Services must be secured here. If the patient is unable to sign the form, it should be signed by a relative, a person assuming responsibility for the patient or by a survivor.
55. The date patient signed form.

Title:	**Health Network and CalOptima Community Network Selection Process**
Department:	Customer Service
Section:	Not Applicable
CEO Approval:	Michael Schrader _____
Effective Date:	10/01/1995
~~Last Review Date:~~	~~06/01/18~~
~~Last~~ Revised Date:	~~06/01/18~~04/04/2019

I. PURPOSE

This policy describes the process by which a Health Network Eligible Member shall select **CalOptima Community Network (CCN)** or a Health Network, and **CCN's** or the Health Network's responsibilities for such Member.

II. POLICY

A. CalOptima is committed to a Health Network Eligible Member's right to choose **CCN** or a Health Network. CalOptima also recognizes that it is in the best interest of a Member to establish a medical home and maintain Continuity **of** Care with a **Primary Care Provider (PCP)**.

B. CalOptima shall request a Health Network Eligible Member select **CCN** or a Health Network, in accordance with the terms and conditions of this policy.

1. Except as otherwise provided in this policy, a Health Network Eligible Member may select **CCN** or any Health Network that is accepting new Members.

2. Effective January 1, 2007, only a Member who is less than twenty-one (21) years of age may enroll in CHOC Health Alliance, as set forth in Section III.B of this policy.

3. On or after the effective date of the CalOptima Whole-Child Model program, a **member** who is known to be participating in California's Children Services (CCS) may only enroll in a **health network** that is participating in the Whole-Child Model program.

C. A Health Network Eligible Member who does not select **CCN** or a Health Network shall be subject to the Auto-Assignment process, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

D. CalOptima recognizes that Family Linked Members may be best served by a single Health Network to ensure coordinated delivery of services by a Provider who is knowledgeable about the diverse needs of all of the Members in the family. To facilitate this objective, CalOptima shall assign a Family Linked Member whose family includes a Member already enrolled in a Health Network or **CCN**, to that Health Network or **CCN**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

1. On and after January 1, 2007, except as otherwise provided in this policy, CalOptima shall assign a Family Linked Member to the same Health Network as his or her youngest sibling if such Family Linked Member is under the age of twenty-one (21) years~~.~~.

2. If a Family Linked Member is over the age of twenty-one (21) years and his or her youngest sibling is enrolled in CHOC Health Alliance, CalOptima shall assign the Family Linked Member to the Health Network of another family **member**, if applicable.

3. On or after the effective date of the CalOptima Whole-Child Model program, if the **member** is known to be eligible with the Whole-Child Model program/**California Children Services Program (CCS)** and the **member's** youngest sibling is assigned to a **health network** that does not participate in the WCM/**CCS** program, the Family Link process will not apply.

E. A Health Network Eligible Member may change his or her Health Network or select **CCN** for any reason every thirty (30) calendar days, in accordance with this policy.

F. **CCN** or a Health Network shall be responsible for providing Covered Services to its Members, in accordance with its contract and applicable statutes, regulations, CalOptima policies, and other requirements of the CalOptima program.

1. If a Health Network Eligible Member moves outside of Orange County, his or her Health Network shall remain responsible for all Covered Services until the Member is no longer enrolled in the CalOptima program. If a Health Network Eligible Member becomes the responsibility of the Public Administrator/Public Guardian or is in an Institute for Mental Disease and is placed outside of Orange County, his or her Health Network shall continue to be responsible for all Covered Services until the Health Network or the Public Administrator /Public Guardian submits a request to enroll the Member in CalOptima Direct, in accordance with CalOptima Policy DD.2006: Enrollment In/Eligibility with CalOptima Direct.

2. If a Member becomes the responsibility of the Foster Care Program, **CCN** or his or her Health Network shall remain responsible for all Covered Services. The Member's foster parent, legal guardian, or the Orange County ~~Children's~~Children & Family Services Department may request to transition the Member into **CalOptima Direct (COD) – Administrative (COD-A)**, in accordance with CalOptima Policy DD.2006: Enrollment In/Eligibility with CalOptima Direct.

G. **CCN** or a Health Network shall not be responsible for Covered Services provided to a Member outside the United States with the exception of Emergency Services requiring hospitalization in Canada or Mexico, in accordance with Title 22 of the California Code of Regulations, Section 51006.

H. CalOptima or a Health Network shall ensure Continuity **of** Care for Members who transition into CalOptima in accordance with CalOptima Policy GG.1325: Coordination of Care for ~~Newly Enrolled Medi-Cal~~ Members Transitioning into CalOptima Services.

I. In the event that a **member** is required to change **health network**s, due to **health network** termination or participation status of a **health network** in the Whole-Child Model program, CalOptima and the receiving **health network** shall collaborate to coordinate the provision of **covered services** for the affected **member**, in accordance with CalOptima Policy GG.1304: Continuity of Care During Health Network or Provider Termination.

III. PROCEDURE

Back to Agenda

A. **CCN** or **Health Network** Selection Process

1. Upon receipt of the Member's eligibility information from the Department of Health Care Services (DHCS), CalOptima shall send an enrollment packet to a Health Network Eligible Member. The enrollment packet shall include, but not be limited to, the following information:

   a. Introductory/welcome letter;

   b. CalOptima **Health Network** Selection Form;

   c. Health Information Form;

   d. CalOptima **Member** Handbook;

   e. CalOptima **Member** Identification Card;

   f. Invitation to a **Member** orientation;

   g. **Health Network** report card;

   h. **Health Network** Listing and Provider Directory; and

   i. Postage-paid envelope to return materials to CalOptima.

2. Only a Health Network Eligible Member or the Member's Authorized Representative shall sign a Health Network Selection Form on behalf of the Member. CalOptima shall not accept a **Health Network** Selection Form submitted without the signature of the Member or an Authorized Representative.

   a. CalOptima shall not accept responsibility for an inappropriately signed **Health Network** Selection Form.

3. CalOptima realizes that in some instances, such as time-sensitive health care appointments or challenges with valid home addresses, it is in the best interest of the Member to allow a change of Health Network or **CCN** selection request to be made by the Member or the Member's Authorized Representative over the phone~~.~~ in accordance with CalOptima Policy DD.2006b:CalOptima Community Network Member Primary Care Provider Selection/Assignment. In those circumstances, the request will be recorded and processed by the Customer Service Representative at the time of request.

4. If CalOptima receives a Health Network Eligible Member's completed **Health Network** Selection Form by the tenth (10th) calendar day of a month, the Member shall be enrolled into his or her selected Health Network no later than the first (1st) calendar day of the immediately following month. If CalOptima receives a Member's completed **Health Network** Selection Form after the tenth (10th) calendar day of a month, the Member shall be enrolled into his or her selected Health Network no later than the first (1st) calendar day of the month after the immediately following month.

5. A Health Network Eligible Member who has not selected a Health Network or **CCN** within the designated timeframe shall be automatically assigned to a Health Network pursuant to CalOptima Policy AA.1207a: CalOptima Auto-Assignment. Following the assignment of a ~~Health Network Eligible~~ Member in accordance with this policy, CalOptima shall notify the Member in writing of the assignment.

6. CalOptima may apply the following criteria to Member assignments to Health Networks or **CCN**:

   a. Consistent with the provisions of this policy and CalOptima Policy AA.1207a: CalOptima Auto-Assignment Policy, CalOptima shall assign Family Linked Members to the same Health Network or **CCN**.

   b. If a Health Network Eligible Member regains eligibility after experiencing a lapse of Medi-Cal eligibility less than three hundred sixty-five (365) calendar days, CalOptima shall assign the Health Network Eligible Member to **CCN** or the last Health Network to which the Member was enrolled.

   c. If a Health Network Eligible Member regains eligibility after experiencing a lapse of Medi-Cal eligibility more than three hundred sixty-five (365) calendar days, CalOptima shall treat such Health Network Eligible Member as a new Member, in accordance with this policy.

7. If a Health Network contract with CalOptima is terminated, ~~a Member~~or a health network is no longer participating in the Whole-Child Model Program a **member** who is enrolled in that Health Network may choose a new Health Network or **CCN**, in accordance with this policy.

   a. If the Member does not select a new Health Network or **CCN** prior to the contract termination of the Member's current Health Network, CalOptima shall assign such Member to:

      i. A Health Network of the Member's **PCP**'s choice if the Member's **PCP**, as shown in CalOptima's system, is contracted with at least one (1) other Health Network; or

      ii. A Health Network based on Auto Assignment.

8. A Health Network Eligible Member may change his or her **PCP** every thirty (30) calendar days for any reason~~. A Health Network or CCN shall process a Health Network Eligible Member's request to change his or her PCP.~~

B. **Member**s eligible for enrollment in CHOC Health Alliance

1. ~~A Member~~Subject to other limitations set forth in this policy, a **member** who meets criteria set forth in Section II.B.2 of this policy may select CHOC Health Alliance.

2. CalOptima shall assign a new Health Network Eligible Member to CHOC Health Alliance, in accordance with Policy AA.1207a: CalOptima Auto-Assignment.

3. Except as otherwise provided in Section ~~H~~III.B.4 of this policy, a Member who is enrolled in CHOC Health Alliance shall select another Health Network prior to his or her twenty-first (21st) birthday in accordance with the following:

    a. CalOptima shall provide the Member with a ninety (90), sixty (60) and thirty (30) calendar day written notice to select **CCN** or another Health Network prior to the Member's twenty-first (21st) birthday. The written notices shall inform the Member that CHOC will only provide health care service until the end of the Member's twenty-first (21st) birth month.

    b. If the Member does not select **CCN** or another Health Network within the designated timeframe, CalOptima shall assign the Member to **CCN** or a Health Network as follows:

        i. If the Member's **PCP** is contracted with **CCN** or another Health Network, CalOptima shall assign the Member to a Health Network of the Member's **PCP**'s choice; or

        ii. If the Member's **PCP** is not contracted with **CCN** or another Health Network, CalOptima shall assign the Member to a Health Network based on geographic access.

    c. The Member shall be enrolled in **CCN** or the new Health Network effective the first (1st) calendar day of the month immediately following the Member's twenty-first (21st) birthday.

4. A Member shall remain in CHOC Health Alliance beyond the Member's twenty-first (21st) birthday if the Member meets all of the following criteria:

    a. **Member** is diagnosed with one (1) of the following **California Children's Services (CCS)**-Eligible Conditions:

        i. Cystic Fibrosis;

        ii. A rare metabolic ~~disorders~~disorder not including Phenylketonuria (PKU);

        iii. Spina Bifida; or

        iv. Muscular Dystrophy.

    b. **Member** is eligible to receive services from **CCS** for the **CCS**-Eligible Condition as of the day before the Member's twenty-first (21st) birthday; and

    c. **Member** is receiving care for the **CCS**-Eligible Condition from a pediatric specialist who is contracted with CHOC Health Alliance as of the day before the Member's twenty-first (21st) birthday.

    d. A Member who remains in CHOC Health Alliance pursuant to Section III.B.4.a of this policy shall remain in CHOC Health Alliance until:

        i. The Member selects **CCN** or another Health Network; or

ii. The Member's pediatric specialist determines that the Member's care may safely be transitioned to **CCN** or another Health Network.

~~5. CalOptima and CHOC Health Alliance shall begin developing a transition plan for a Member who is enrolled in CHOC Health Alliance and who has a CCS-Eligible Condition no later than the Member's twentieth (20th) birthday, in accordance with CalOptima Policy GG.1101: California Children's Services.~~

C. If a Health Network Eligible Member moves outside of Orange County, the Member's Health Network or **CCN** shall continue to be responsible for Covered Services until the Member is no longer enrolled in the CalOptima program.

1. Upon notice that a Health Network Eligible Member has moved outside of Orange County, **CCN** or a Health Network shall attempt to verify this information with the Member. **CCN** or the Health Network shall instruct the Member to contact the County of Orange Social Services Agency or the United States Social Security Administration to report a change of address.

2. A Health Network or **CCN provider** shall notify CalOptima of a Health Network Eligible Member's change of address by submitting a Medi-Cal Contact Information Request Form (MC 354) to the CalOptima Customer Service Department.

3. Upon notice that a Health Network Eligible Member has moved out of Orange County, CalOptima shall send the Member's new residence information to the County of Orange Social Services Agency, in accordance with Title 22 of the California Code of Regulations, Section 50188, or to the U.S. Social Security Administration.

D. CalOptima recognizes that a situation may occur in which the needs of a Family Linked Member may not be best served by enrollment in the same Health Network as other Members in his or her family in accordance with Section II.D of this policy. A Family Linked Member may contact CalOptima's Customer Service Department to request enrollment in **CCN** or a different Health Network from other Members in his or her family.

Policy #:	DD.2008
Title:	**Health Network and CalOptima Community Network Selection Process**
Department:	Customer Service
Section:	Not Applicable
CEO Approval:	Michael Schrader _____
Effective Date:	10/01/1995
Revised Date:	04/04/2019

I. PURPOSE

This policy describes the process by which a Health Network Eligible Member shall select **CalOptima Community Network (CCN)** or a Health Network, and **CCN's** or the Health Network's responsibilities for such Member.

II. POLICY

A. CalOptima is committed to a Health Network Eligible Member's right to choose **CCN** or a Health Network. CalOptima also recognizes that it is in the best interest of a Member to establish a medical home and maintain Continuity **of** Care with a **Primary Care Provider (PCP)**.

B. CalOptima shall request a Health Network Eligible Member select **CCN** or a Health Network, in accordance with the terms and conditions of this policy.

1. Except as otherwise provided in this policy, a Health Network Eligible Member may select **CCN** or any Health Network that is accepting new Members.

2. Effective January 1, 2007, only a Member who is less than twenty-one (21) years of age may enroll in CHOC Health Alliance, as set forth in Section III.B of this policy.

3. On or after the effective date of the CalOptima Whole-Child Model program, a **member** who is known to be participating in California's Children Services (CCS) may only enroll in a **health network** that is participating in the Whole-Child Model program.

C. A Health Network Eligible Member who does not select **CCN** or a Health Network shall be subject to the Auto-Assignment process, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

D. CalOptima recognizes that Family Linked Members may be best served by a single Health Network to ensure coordinated delivery of services by a Provider who is knowledgeable about the diverse needs of all of the Members in the family. To facilitate this objective, CalOptima shall assign a Family Linked Member whose family includes a Member already enrolled in a Health Network or **CCN**, to that Health Network or **CCN**, in accordance with CalOptima Policy AA.1207a: CalOptima Auto-Assignment.

1. On and after January 1, 2007, except as otherwise provided in this policy, CalOptima shall assign a Family Linked Member to the same Health Network as his or her youngest sibling if such Family Linked Member is under the age of twenty-one (21) years.

DRAFT

2. If a Family Linked Member is over the age of twenty-one (21) years and his or her youngest sibling is enrolled in CHOC Health Alliance, CalOptima shall assign the Family Linked Member to the Health Network of another family **member**, if applicable.

3. On or after the effective date of the CalOptima Whole-Child Model program, if the **member** is known to be eligible with the Whole-Child Model program/**California Children Services Program (CCS)** and the **member's** youngest sibling is assigned to a **health network** that does not participate in the WCM/**CCS** program, the Family Link process will not apply.

E. A Health Network Eligible Member may change his or her Health Network or select **CCN** for any reason every thirty (30) calendar days, in accordance with this policy.

F. **CCN** or a Health Network shall be responsible for providing Covered Services to its Members, in accordance with its contract and applicable statutes, regulations, CalOptima policies, and other requirements of the CalOptima program.

1. If a Health Network Eligible Member moves outside of Orange County, his or her Health Network shall remain responsible for all Covered Services until the Member is no longer enrolled in the CalOptima program. If a Health Network Eligible Member becomes the responsibility of the Public Administrator/Public Guardian or is in an Institute for Mental Disease and is placed outside of Orange County, his or her Health Network shall continue to be responsible for all Covered Services until the Health Network or the Public Administrator /Public Guardian submits a request to enroll the Member in CalOptima Direct, in accordance with CalOptima Policy DD.2006: Enrollment In/Eligibility with CalOptima Direct.

2. If a Member becomes the responsibility of the Foster Care Program, **CCN** or his or her Health Network shall remain responsible for all Covered Services. The Member's foster parent, legal guardian, or the Orange County Children & Family Services Department may request to transition the Member into **CalOptima Direct (COD) – Administrative (COD-A)**, in accordance with CalOptima Policy DD.2006: Enrollment In/Eligibility with CalOptima Direct.

G. **CCN** or a Health Network shall not be responsible for Covered Services provided to a Member outside the United States with the exception of Emergency Services requiring hospitalization in Canada or Mexico, in accordance with Title 22 of the California Code of Regulations, Section 51006.

H. CalOptima or a Health Network shall ensure Continuity **of** Care for Members who transition into CalOptima in accordance with CalOptima Policy GG.1325: Coordination of Care for Members Transitioning into CalOptima Services.

I. In the event that a **member** is required to change **health network**s, due to **health network** termination or participation status of a **health network** in the Whole-Child Model program, CalOptima and the receiving **health network** shall collaborate to coordinate the provision of **covered services** for the affected **member**, in accordance with CalOptima Policy GG.1304: Continuity of Care During Health Network or Provider Termination.

III. PROCEDURE

A. **CCN** or **Health Network** Selection Process

Back to Agenda

1. Upon receipt of the Member's eligibility information from the Department of Health Care Services (DHCS), CalOptima shall send an enrollment packet to a Health Network Eligible Member. The enrollment packet shall include, but not be limited to, the following information:

    a. Introductory/welcome letter;

    b. CalOptima **Health Network** Selection Form;

    c. Health Information Form;

    d. CalOptima **Member** Handbook;

    e. CalOptima **Member** Identification Card;

    f. Invitation to a **Member** orientation;

    g. **Health Network** report card;

    h. **Health Network** Listing and Provider Directory; and

    i. Postage-paid envelope to return materials to CalOptima.

2. Only a Health Network Eligible Member or the Member's Authorized Representative shall sign a Health Network Selection Form on behalf of the Member. CalOptima shall not accept a **Health Network** Selection Form submitted without the signature of the Member or an Authorized Representative.

    a. CalOptima shall not accept responsibility for an inappropriately signed **Health Network** Selection Form.

3. CalOptima realizes that in some instances, such as time-sensitive health care appointments or challenges with valid home addresses, it is in the best interest of the Member to allow a change of Health Network or **CCN** selection request to be made by the Member or the Member's Authorized Representative over the phone in accordance with CalOptima Policy DD.2006b:CalOptima Community Network Member Primary Care Provider Selection/Assignment. In those circumstances, the request will be recorded and processed by the Customer Service Representative at the time of request.

4. If CalOptima receives a Health Network Eligible Member's completed **Health Network** Selection Form by the tenth (10th) calendar day of a month, the Member shall be enrolled into his or her selected Health Network no later than the first (1st) calendar day of the immediately following month. If CalOptima receives a Member's completed **Health Network** Selection Form after the tenth (10th) calendar day of a month, the Member shall be enrolled into his or her selected Health Network no later than the first (1st) calendar day of the month after the immediately following month.

5. A Health Network Eligible Member who has not selected a Health Network or **CCN** within the designated timeframe shall be automatically assigned to a Health Network pursuant to CalOptima Policy AA.1207a: CalOptima Auto-Assignment. Following the assignment of a Member in accordance with this policy, CalOptima shall notify the Member in writing of the assignment.

DRAFT

6. CalOptima may apply the following criteria to Member assignments to Health Networks or **CCN**:

    a. Consistent with the provisions of this policy and CalOptima Policy AA.1207a: CalOptima Auto-Assignment Policy, CalOptima shall assign Family Linked Members to the same Health Network or **CCN**.

    b. If a Health Network Eligible Member regains eligibility after experiencing a lapse of Medi-Cal eligibility less than three hundred sixty-five (365) calendar days, CalOptima shall assign the Health Network Eligible Member to **CCN** or the last Health Network to which the Member was enrolled.

    c. If a Health Network Eligible Member regains eligibility after experiencing a lapse of Medi-Cal eligibility more than three hundred sixty-five (365) calendar days, CalOptima shall treat such Health Network Eligible Member as a new Member, in accordance with this policy.

7. If a Health Network contract with CalOptima is terminated, or a health network is no longer participating in the Whole-Child Model Program a **member** who is enrolled in that Health Network may choose a new Health Network or **CCN**, in accordance with this policy.

    a. If the Member does not select a new Health Network or **CCN** prior to the contract termination of the Member's current Health Network, CalOptima shall assign such Member to:

        i. A Health Network of the Member's **PCP**'s choice if the Member's **PCP**, as shown in CalOptima's system, is contracted with at least one (1) other Health Network; or

        ii. A Health Network based on Auto Assignment.

8. A Health Network Eligible Member may change his or her **PCP** every thirty (30) calendar days for any reason

B. **Member**s eligible for enrollment in CHOC Health Alliance

1. Subject to other limitations set forth in this policy, a **member** who meets criteria set forth in Section II.B.2 of this policy may select CHOC Health Alliance.

2. CalOptima shall assign a new Health Network Eligible Member to CHOC Health Alliance, in accordance with Policy AA.1207a: CalOptima Auto-Assignment.

3. Except as otherwise provided in Section III.B.4 of this policy, a Member who is enrolled in CHOC Health Alliance shall select another Health Network prior to his or her twenty-first (21st) birthday in accordance with the following:

    a. CalOptima shall provide the Member with a ninety (90), sixty (60) and thirty (30) calendar day written notice to select **CCN** or another Health Network prior to the Member's twenty-first (21st) birthday. The written notices shall inform the Member that CHOC will only provide health care service until the end of the Member's twenty-first (21st) birth month.

    b. If the Member does not select **CCN** or another Health Network within the designated timeframe, CalOptima shall assign the Member to **CCN** or a Health Network as follows:

DRAFT

i. If the Member's **PCP** is contracted with **CCN** or another Health Network, CalOptima shall assign the Member to a Health Network of the Member's **PCP**'s choice; or

ii. If the Member's **PCP** is not contracted with **CCN** or another Health Network, CalOptima shall assign the Member to a Health Network based on geographic access.

c. The Member shall be enrolled in **CCN** or the new Health Network effective the first (1st) calendar day of the month immediately following the Member's twenty-first (21st) birthday.

4. A Member shall remain in CHOC Health Alliance beyond the Member's twenty-first (21st) birthday if the Member meets all of the following criteria:

a. **Member** is diagnosed with one (1) of the following **California Children's Services (CCS)-**Eligible Conditions:

i. Cystic Fibrosis;

ii. A rare metabolic disorder not including Phenylketonuria (PKU);

iii. Spina Bifida; or

iv. Muscular Dystrophy.

b. **Member** is eligible to receive services from **CCS** for the **CCS**-Eligible Condition as of the day before the Member's twenty-first (21st) birthday; and

c. **Member** is receiving care for the **CCS**-Eligible Condition from a pediatric specialist who is contracted with CHOC Health Alliance as of the day before the Member's twenty-first (21st) birthday.

d. A Member who remains in CHOC Health Alliance pursuant to Section III.B.4.a of this policy shall remain in CHOC Health Alliance until:

i. The Member selects **CCN** or another Health Network; or

ii. The Member's pediatric specialist determines that the Member's care may safely be transitioned to **CCN** or another Health Network.

C. If a Health Network Eligible Member moves outside of Orange County, the Member's Health Network or **CCN** shall continue to be responsible for Covered Services until the Member is no longer enrolled in the CalOptima program.

1. Upon notice that a Health Network Eligible Member has moved outside of Orange County, **CCN** or a Health Network shall attempt to verify this information with the Member. **CCN** or the Health Network shall instruct the Member to contact the County of Orange Social Services Agency or the United States Social Security Administration to report a change of address.

2. A Health Network or **CCN provider** shall notify CalOptima of a Health Network Eligible Member's change of address by submitting a Medi-Cal Contact Information Request Form (MC 354) to the CalOptima Customer Service Department.

DRAFT

3. Upon notice that a Health Network Eligible Member has moved out of Orange County, CalOptima shall send the Member's new residence information to the County of Orange Social Services Agency, in accordance with Title 22 of the California Code of Regulations, Section 50188, or to the U.S. Social Security Administration.

D. CalOptima recognizes that a situation may occur in which the needs of a Family Linked Member may not be best served by enrollment in the same Health Network as other Members in his or her family in accordance with Section II.D of this policy. A Family Linked Member may contact CalOptima's Customer Service Department to request enrollment in **CCN** or a different Health Network from other Members in his or her family.

IX. GLOSSARY

Term	Definition
Authorized Representative	A person who has the authority under applicable law to make health care decisions on behalf of adults or emancipated minors, as well as parents, guardians or other persons acting *in loco parentis* who have the authority under applicable law to make health care decisions on behalf of unemancipated minors and as further described in CalOptima Policy HH.3009.
California Children Services Program (CCS)	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible individuals under the age of twenty-one (2l) years who have CCS-eligible conditions, as defined in Title 22, California Code of Regulations (CCR), Sections 41515.2 through 41518.9.
CalOptima Community Network	A managed care network operated by CalOptima that contracts directly with physicians and hospitals and requires a Primary Care Provider (PCP) to manage the care of the members.
CalOptima Direct – Administrative (COD-A)	The managed Fee-For-Service health care program operated by CalOptima that provides services to members as described in CalOptima Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
CCS-Eligible Conditions	Chronic medical conditions, including but not limited to, cystic fibrosis, hemophilia, cerebral palsy, heart disease, cancer, traumatic injuries and infectious disease producing major sequelae as defined in Title 22, California Code of Regulations sections 41515.2 through 41518.9..
Continuity of Care	Services provided to a member rendered by an out-of-network provider with whom the member has pre-existing provider relationship.
Covered Services	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as covered services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51310 of Title 22, CCR), which shall be covered for members notwithstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Family Linked Member	A member who shares a county case number, as assigned by the County of Orange Social Services Agency, with another member who is in his or her family and who resides in the same household.
Health Network	A Physician Hospital Consortium (PHC), Physician Medical Group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide covered services to members assigned to that health network.
Health Network Eligible Member	A member who is eligible to choose a CalOptima health network or CalOptima Community Network (CCN).
Member	A Medi-Cal eligible beneficiary as determined by the County of Orange Social Services Agency, the California Department of Health Care Services (DHCS) Medi-Cal Program, or the United States Social Security Administration, who is enrolled in the CalOptima program.
Primary Care Provider (PCP)	A primary care provider may be a primary care practitioner, or other institution or facility responsible for supervising, coordinating, and providing initial and primary care to members and serves as the medical home for members.

Term	Definition
Provider	A physician, nurse, nurse mid-wife, nurse practitioner, medical technician, physician assistant, hospital, laboratory, ancillary provider, health maintenance organization, or other person or institution that furnishes covered services.

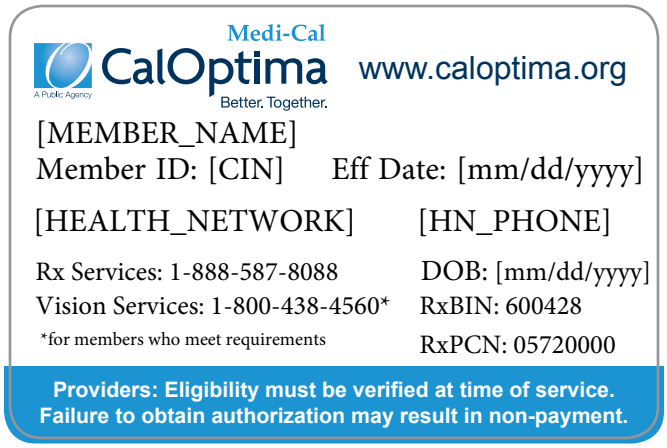
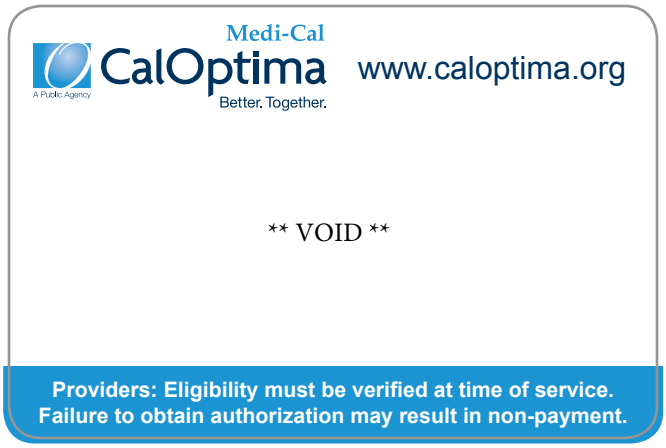
Back to Agenda

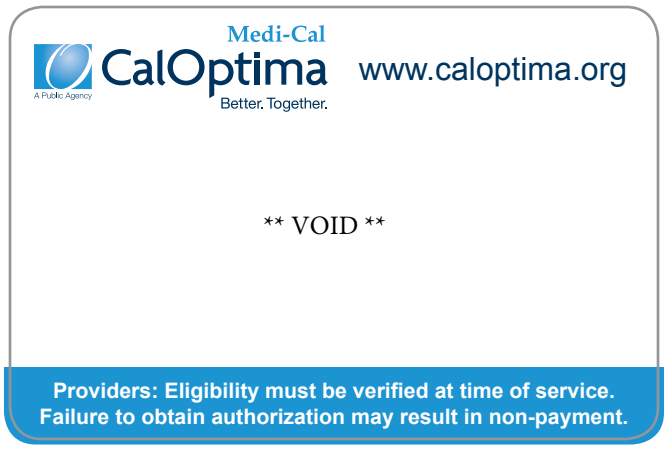
Dear Member:



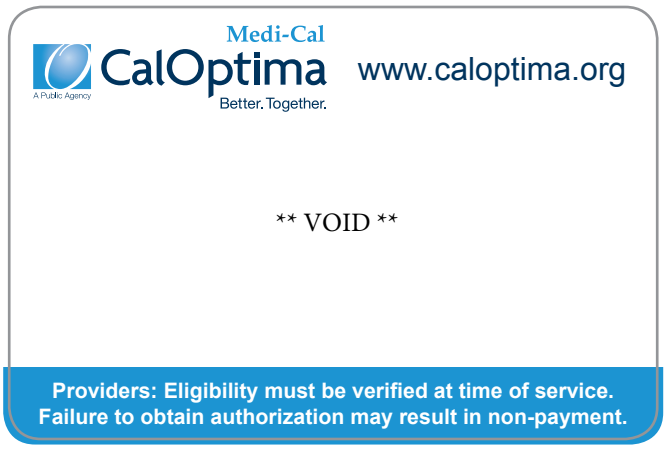
Welcome to CalOptima! CalOptima is the Medi-Cal program for Orange County. CalOptima is responsible for managing your health care benefits.



You will receive your Medi-Cal benefits through one of CalOptima's contracted health networks. Please choose a CalOptima health network and a primary care provider (PCP) who is contracted with your health network for each Medi-Cal eligible member of your family. You can choose the same health network for all your family members.



Please use the Health Network Selection Form to choose a health network and PCP for each member of your family. Fill out, sign and return the form to CalOptima as soon as possible. **If you do not choose a health network, CalOptima will choose one for you after 30 days.**



You and your eligible family members may ask to change health networks every 30 days. To do this, you need to complete a Health Network Selection Form. CalOptima has to receive your form by the 10th of the month for your health network change to be effective the 1st of the following month.

If you have questions or need help in choosing a health network, please call CalOptima's Customer Service Department at **1-714-246-8500** or toll-free at **1-888-587-8088**, Monday through Friday, from 8 a.m. to 5:30 p.m. We have staff who speak your language. TTY/TDD users can call **1-800-735-2929**. You can also visit our website at www.caloptima.org.

If you have a life-threatening emergency, call 911 or go to the nearest emergency room. Notify your health network within 24 hours. Emergency services for a true emergency are covered by your health network without prior authorization. Your member handbook has more information on emergency services and how to access your doctor after hours.

I. PURPOSE

This policy establishes coverage guidelines for routine health care services provided in connection with a **Member's** participation in a cancer **Clinical Trial**.

II. POLICY

A. CalOptima and its **Health Networks** shall cover routine patient care costs, as defined in Section II.B. of this policy, associated with a **Member's** participation in a Phase I, Phase II, Phase III, or Phase IV cancer **Clinical Trial**, if the **Member** and the cancer **Clinical Trial** meet the requirements set forth herein~~, unless the routine patient care costs are the responsibility of another entity by statute (e.g. California Children's Services (CCS)).~~..

B. Routine patient care costs:

1. Routine patient care costs include health care services that would be:

   a. Provided in the absence of a **Clinical Trial**;

   b. Required for the provision of the investigational drug, item, device, or service;

   c. Required for clinically appropriate monitoring of the cancer treatment;

   d. Provided for the prevention of complications arising from the **Clinical Trial** treatment; or

   e. Needed for reasonable and necessary care arising from complications of the cancer **Clinical Trial**.

2. Routine patient care costs do not include the costs associated with the provision of any of the following:

   a. Drugs or devices that have not been approved by the Federal Drug Administration (FDA) and are associated with the **Clinical Trial**;

   b. Services other than health care services, such as travel, housing, companion expenses, and other non-clinical expenses that a Member may require as a result of treatment being provided for the purposes of the **Clinical Trial**;

   c. Any item or service that is provided solely to satisfy data collection and analysis needs and is not used in the clinical management of the **Member**;

Back to Agenda

d. Health care services that, except for the fact that they are being provided in a **Clinical Trial**, are otherwise specifically excluded from coverage under the CalOptima program;

e. Health care services customarily provided by the research sponsors free of charge for any **Member** in the **Clinical Trial**; and

f. Experimental treatment outside of an eligible cancer **Clinical Trial**.

C. To be eligible for coverage of routine patient care costs associated with participation in a cancer **Clinical Trial**, a **Member** must meet the following requirements:

1. The **Member** must be diagnosed with cancer;

2. The **Member** must be accepted into a Phase I, II, III, or IV **Clinical Trial** for cancer; and

3. The **Member's** treating physician, who is contracted by the **Health Network** to provide health care services, or who participates with CalOptima for a **CalOptima Direct** or **CalOptima Community Network (CCN) Member**, must recommend the **Member's** participation in the cancer **Clinical Trial**.

D. To be eligible for coverage of routine patient care costs associated with participation in a cancer **Clinical Trial**, the cancer **Clinical Trial** must meet the following requirements:

1. The cancer **Clinical Trial** endpoints must not be defined exclusively to test toxicity, or disease pathophysiology, but must have a therapeutic intent;

2. The principal purpose of the cancer **Clinical Trial** is to test whether the intervention potentially improves the **Member's** health outcomes;

3. The cancer **Clinical Trial** is well-supported by available scientific and medical information or is intended to clarify or establish the health outcomes of interventions already in common clinical use;

4. The cancer **Clinical Trial** does not unjustifiably duplicate existing studies;

5. The cancer **Clinical Trial** design is appropriate to answer the research question being asked in the **Clinical Trial**;

6. The cancer **Clinical Trial** is sponsored by a credible organization or individual capable of executing the proposed **Clinical Trial** successfully;

7. The cancer **Clinical Trial** is in compliance with Federal regulations relating to the protections of human subjects; and

8. All aspects of the **Clinical Trial** are conducted according to the appropriate standards of scientific integrity.

9. The treatment provided in the cancer **Clinical Trial** must either be:

   a. Approved by one (1) of the following: National Institutes of Health, the FDA, the U.S. Department of Defense, or the U.S. Department of Veterans Affairs; or

   b. Involve a drug that is exempt under federal regulations from a new drug application.

E. CalOptima and its **Health Networks** shall not be prohibited from restricting coverage for routine patient care costs associated with a cancer **Clinical Trial** in California, unless the protocol for the **Clinical Trial** is not provided for at a California hospital or by a California physician.

F. The provision of services as defined under this policy shall not in itself give rise to liability on the part of CalOptima, or the **Health Network**.

G. CalOptima, or a **Health Network**, shall provide care management services to a **Member** who is participating in a cancer **Clinical Trial** to assure that the **Member** is afforded continuity of care, referred to all available resources for his or her illness, and to continue to verify that all eligibility requirements as set forth herein continue to be met.

III. PROCEDURE

A. A Provider~~,~~ or Practitioner~~,~~ shall obtain prior authorization for reimbursement of routine patient care costs related to a **CalOptima Direct** or **CCN Member's** participation in a cancer **Clinical Trial,** in accordance with CalOptima Policies GG.1500: Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers.

B. A **Provider**, or **Practitioner**, shall obtain prior authorization for reimbursement of routine patient care costs related to a **Health Network Member's** participation in a cancer **Clinical Trial**, in accordance with the policies established by the **Member's Health Network**.

d. Health care services that, except for the fact that they are being provided in a **Clinical Trial**, are otherwise specifically excluded from coverage under the CalOptima program;

e. Health care services customarily provided by the research sponsors free of charge for any **Member** in the **Clinical Trial**; and

f. Experimental treatment outside of an eligible cancer **Clinical Trial**.

C. To be eligible for coverage of routine patient care costs associated with participation in a cancer **Clinical Trial**, a **Member** must meet the following requirements:

1. The **Member** must be diagnosed with cancer;

2. The **Member** must be accepted into a Phase I, II, III, or IV **Clinical Trial** for cancer; and

3. The **Member's** treating physician, who is contracted by the **Health Network** to provide health care services, or who participates with CalOptima for a **CalOptima Direct** or **CalOptima Community Network (CCN) Member**, must recommend the **Member's** participation in the cancer **Clinical Trial**.

D. To be eligible for coverage of routine patient care costs associated with participation in a cancer **Clinical Trial**, the cancer **Clinical Trial** must meet the following requirements:

1. The cancer **Clinical Trial** endpoints must not be defined exclusively to test toxicity, or disease pathophysiology, but must have a therapeutic intent;

2. The principal purpose of the cancer **Clinical Trial** is to test whether the intervention potentially improves the **Member's** health outcomes;

3. The cancer **Clinical Trial** is well-supported by available scientific and medical information or is intended to clarify or establish the health outcomes of interventions already in common clinical use;

4. The cancer **Clinical Trial** does not unjustifiably duplicate existing studies;

5. The cancer **Clinical Trial** design is appropriate to answer the research question being asked in the **Clinical Trial**;

6. The cancer **Clinical Trial** is sponsored by a credible organization or individual capable of executing the proposed **Clinical Trial** successfully;

7. The cancer **Clinical Trial** is in compliance with Federal regulations relating to the protections of human subjects; and

8. All aspects of the **Clinical Trial** are conducted according to the appropriate standards of scientific integrity.

9. The treatment provided in the cancer **Clinical Trial** must either be:

a. Approved by one (1) of the following: National Institutes of Health, the FDA, the U.S. Department of Defense, or the U.S. Department of Veterans Affairs; or

b. Involve a drug that is exempt under federal regulations from a new drug application.

E. CalOptima and its **Health Networks** shall not be prohibited from restricting coverage for routine patient care costs associated with a cancer **Clinical Trial** in California, unless the protocol for the **Clinical Trial** is not provided for at a California hospital or by a California physician.

F. The provision of services as defined under this policy shall not in itself give rise to liability on the part of CalOptima, or the **Health Network**.

G. CalOptima, or a **Health Network**, shall provide care management services to a **Member** who is participating in a cancer **Clinical Trial** to assure that the **Member** is afforded continuity of care, referred to all available resources for his or her illness, and to continue to verify that all eligibility requirements as set forth herein continue to be met.

III. PROCEDURE

A. A Provider or Practitioner shall obtain prior authorization for reimbursement of routine patient care costs related to a **CalOptima Direct** or **CCN Member's** participation in a cancer **Clinical Trial,** in accordance with CalOptima Policies GG.1500: Authorization Instructions for CalOptima Direct and CalOptima Community Network Providers.

B. A **Provider**, or **Practitioner**, shall obtain prior authorization for reimbursement of routine patient care costs related to a **Health Network Member's** participation in a cancer **Clinical Trial**, in accordance with the policies established by the **Member's Health Network**.

IX. GLOSSARY

Term	Definition
CalOptima Community Network (CCN)	A managed care network operated by CalOptima that contracts directly with physicians and hospitals and requires a Primary Care Provider (PCP) to manage the care of the Members.
CalOptima Direct	A direct health care program operated by CalOptima that includes both COD- Administrative (COD-A) and CalOptima Community Network (CCN) and provides services to Members who meet certain eligibility criteria as described in Policy DD.2006: Enrollment in/Eligibility with CalOptima Direct.
Clinical Trial	Trials certified to meet the qualifying criteria and funded by National Institute of Health, Centers for Disease Control and Prevention, Food and Drug Administration (FDA), Department of Veterans Affairs, or other associated centers or cooperative groups funded by these agencies. Criteria for Clinical Trials include the following characteristics: 1. The principal purpose of the Clinical Trial is to test if the intervention potentially improves a participant's health outcomes; 2. The Clinical Trial is well supported by available scientific and medical information or is intended to clarify or establish the health outcomes of interventions already in common clinical use; 3. The Clinical Trial does not unjustifiably duplicate existing studies; 4. The Clinical Trial is designed appropriately to answer the research question being asked in the trial; 5. The Clinical Trial is sponsored by a credible organization or individual capable of successfully executing the proposed Clinical Trial; 6. The Clinical Trial complies with federal regulations relating to the protection of human subjects; and 7. All aspects of the Clinical Trial are conducted according to the appropriate standards of scientific integrity.
Health Network	For purposes of this policy, a Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Member	An enrollee-beneficiary of a CalOptima program.

Policy #:	GG.1515
Title:	**Criteria for Medically Necessary Automobile Orthopedic Positioning Devices**
Department:	Medical Affairs
Section:	Utilization Management
CEO Approval:	Michael Schrader _____
Effective Date:	05/01/1999
~~Last Review Date:~~	~~08/01/17~~
~~Last~~ Revised Date:	~~08/01/17~~04/04/2019

I. PURPOSE

This policy defines the Durable Medical Equipment (DME) guidelines and Medical Necessity criteria for reimbursement of Medically Necessary Automobile Orthopedic Positioning Devices (AOPDs) provided to Members.

II. POLICY

A. An AOPD is a Covered Service under the Whole-Child Model (WCM) program or the CalOptima Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Services program when the device meets the criteria and conditions set forth in this policy.

B. Purchase of an AOPD shall require Prior Authorization by CalOptima or the Member's Health Network to be eligible for reimbursement.

C. CalOptima~~,~~ or a Health Network~~,~~ shall provide reimbursement for only one (1) AOPD per Member.

D. A request for reimbursement of an AOPD shall be accompanied by all required documentation.

E. CalOptima~~,~~ or a Health Network~~,~~ shall not authorize the purchase of standard commercially available car seats, vests, or harnesses that are required by California state law for children under six (6) years of age and under sixty (60) pounds.

F. CalOptima~~,~~ or a Health Network~~, shall not~~ will review for Medical Necessity and, if indicated, will authorize the purchase of ~~a Medically Necessary car seat~~an AOPD for children that ~~is otherwise available through the~~are not California ~~Children~~Children's Services ~~Program~~ (CCS~~) or CCS~~)-eligible but require a specially adapted AOPD because of a medical condition under the EPSDT Services program ~~for a Member who is eligible for services through~~.

G. No sooner than the ~~CCS Program~~Department of Health Care Services (DHCS)-approved WCM program effective date, CalOptima or a Health Network will review for Medical Necessity and, if indicated, will authorize the purchase of an AOPD for CCS-eligible individuals enrolled in the WCM program, in accordance with CalOptima Policy GG.1101: California Children's Services (CCS)/Whole-Child Model – Coordination with County CCS Program.

1. For WCM members, an AOPD shall be evaluated for Medical Necessity in accordance with all current CCS DME Guidelines as provided in CCS Numbered Letters.

III. PROCEDURE

Back to Agenda

A. CalOptima and its Health Networks shall utilize the following criteria when determining the Medical Necessity of an AOPD:

1. Car Seats

   a. Medical Necessity: The Member requires maximal to moderate postural support to maintain a safe sitting position during transportation.

   b. Criteria:

      i. The Member shall be over four (4) years of age;

      ii. The Member shall be either over forty (40) pounds, or over forty (40) inches in height; and

      iii. The Member shall meet at least one (1) of the following criteria:

         a) The Member has a moderate to minimal trunk control or sitting ability, moderate to minimal lateral head control, and requires total postural support;

         b) The Member is at risk for breathing complications as a result of poor trunk control or alignment; or

         c) The Member has a skeletal deformity that requires total postural support for safe transportation.

   c. Related Considerations

      i. The Member's height, width, or physical deformity precludes use of a commercially available car seat.

      ii. A harness, or vest, will not provide the Member with enough stability to remain in proper alignment or allow for safe transport.

      iii. The Member cannot be transported in a wheelchair because the family does not own an appropriate vehicle to allow transport in a wheelchair.

2. Harnesses or Vests

   a. Medical Necessity: The Member requires maximal to moderate postural support to maintain a safe sitting position during transportation.

   b. Criteria

      i. The Member shall be over four (4) years of age;

      ii. The Member shall be over forty (40) pounds or over forty (40) inches in height; and

      iii. The Member shall at least one (1) of the following criteria:

         a) The Member has a moderate to minimal trunk control sitting ability, moderate to minimal lateral head control, and requires total postural support;

b) The Member is at risk for breathing complications as a result of poor trunk control or alignment;

c) The Member has a skeletal deformity that requires total postural support for safe transportation; or

d) The Member requires transportation in other than an upright position due to deformity or surgical corrections.

c. Related Considerations

i. The Member's physical deformity or trunk instability precludes use of a standard seat belt or commercially available vest, or harness.

ii. A standard seat belt, or commercially available vest/harness, will not provide the Member with enough stability to remain in proper alignment, or allow for safe transport.

iii. The Member cannot be transported in a wheelchair because the family does not own appropriate vehicle to allow transport in a wheelchair.

~~B. CalOptima and its Health Networks shall refer medically eligible CCS Members to the CCS program for consideration of AOPD under the EPSDT Service program.~~

~~C.~~B. A request for reimbursement of an AOPD shall be accompanied by:

~~1. A current physician prescription;~~
1. A current prescription provided by the physician of the appropriate specialty for treating the child's condition that the device is intended to address;

a. For children whose CCS-Eligible Condition is the condition necessitating the AOPD, the prescribing physician shall be CCS-paneled.

2. A current medical report that justifies the Medical Necessity of the item requested; and

3. A current physical therapy~~,~~ or occupational therapy, assessment that addresses the criteria as defined in Section III.A. of this policy~~.~~ and includes:

~~D. CalOptima and its Health Networks shall monitor the outcome of CCS referrals for CCS authorization.~~
a. Physical findings;

b. Functional status related to the DME item requested; and

c. A home, school and community accessibility assessment, if indicated.

IX. GLOSSARY

Term	Definition
Automobile Orthopedic Positioning Devices (AOPDs)	A non-standard positioning device (car sear and/or harness/vest) for use in a motor vehicle. An AOPD is designed to hold a larger child (over 40 pounds or over 40 inches in length) who requires positioning options such as pad that assist in head and truck positioning while being transported in a motor vehicle.
California Children's Services (CCS)	The public health program that assures the delivery of specialized diagnostic, treatment, and therapy services to financially and medically eligible individuals under the age of twenty-one (21) years who have CCS-Eligible Conditions, as defined in Title 22, California Code of Regulations (CCR) Sections 41515.2 through 41518.9.
California Children's Services Eligible Conditions	Chronic medical conditions, including but not limited to, cystic fibrosis, hemophilia, cerebral palsy, heart disease, cancer, traumatic injuries and infectious disease producing major sequelae as defined in Title 22, California Code of Regulations sections 41515.2 through 41518.9.
CalOptima	For purposes of this policy, CalOptima shall include both CalOptima Direct and CalOptima Community Network (CCN).
Covered Service	Those services provided in the Fee-For-Service Medi-Cal program, as set forth in Title 22, CCR, Division 3, Subdivision 1, Chapter 3, beginning with Section 51301, and Title 17, CCR, Chapter 4, Subchapter 13, Article 4, beginning with Section 6840, which are included as Covered Services under CalOptima's Contract with DHCS and are Medically Necessary, along with chiropractic services (as defined in Section 51308 of Title 22, CCR), podiatry services (as defined in Section 51310 of Title 22, CCR), and speech pathology services and audiology services (as defined in Section 51309 of Title 22, CCR), which shall be covered for Members not withstanding whether such benefits are provided under the Fee-For-Service Medi-Cal program.
Durable Medical Equipment (DME)	Durable Medical Equipment is any equipment that is prescribed by a licensed practitioner to meet the medical equipment needs of the patient that: (a) can withstand repeated use; (b) is used to serve a medical purpose; (c) is not useful to an individual in the absence of an illness, injury functional impairment, or congenital anomaly; and (d) is appropriate for use in or out of the patient's home.
Early and Periodic Screening, Diagnosis and Treatment (EPSDT)	A comprehensive and preventive child health program for individuals under the age of twenty-one (21) years. EPSDT includes periodic screening that includes at a minimum a comprehensive health and developmental history (including assessment of both physical and mental health development); an unclothed physical exam; appropriate immunizations; laboratory tests (including blood lead level taking into account age and risk factors; and health education (including anticipatory guidance), vision, dental, and hearing services. In addition, other necessary health care, diagnostic services, treatment and measures described in Title 42, US Code, Section 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services, whether or not such services or items are listed in the state plan or are covered for adults.
Health Network	A Physician Hospital Consortium (PHC), physician group under a shared risk contract, or health care service plan, such as a Health Maintenance Organization (HMO) that contracts with CalOptima to provide Covered Services to Members assigned to that Health Network.
Medical Necessity or Medically Necessary	Reasonable and necessary services to protect life, to prevent significant illness or significant disability, or to alleviate severe pain through the diagnosis or treatment of disease, illness, or injury.

Term	Definition
Member	An enrollee-beneficiary of a CalOptima program.
Prior Authorization	A process through which a physician or other health care provider is required to obtain advance approval from the plan that payment will be made for a service or item furnished to a Member.

Effective Date:	05/01/1999
Revised Date:	04/04/2019

I. PURPOSE

This policy defines the Durable Medical Equipment (DME) guidelines and Medical Necessity criteria for reimbursement of Medically Necessary Automobile Orthopedic Positioning Devices (AOPDs) provided to Members.

II. POLICY

A. An AOPD is a Covered Service under the Whole-Child Model (WCM) program or the CalOptima Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Services program when the device meets the criteria and conditions set forth in this policy.

B. Purchase of an AOPD shall require Prior Authorization by CalOptima or the Member's Health Network to be eligible for reimbursement.

C. CalOptima or a Health Network shall provide reimbursement for only one (1) AOPD per Member.

D. A request for reimbursement of an AOPD shall be accompanied by all required documentation.

E. CalOptima or a Health Network shall not authorize the purchase of standard commercially available car seats, vests, or harnesses that are required by California state law for children under six (6) years of age and under sixty (60) pounds.

F. CalOptima or a Health Network will review for Medical Necessity and, if indicated, will authorize the purchase of an AOPD for children that are not California Children's Services (CCS)-eligible but require a specially adapted AOPD because of a medical condition under the EPSDT Services program.

G. No sooner than the Department of Health Care Services (DHCS)-approved WCM program effective date, CalOptima or a Health Network will review for Medical Necessity and, if indicated, will authorize the purchase of an AOPD for CCS-eligible individuals enrolled in the WCM program, in accordance with CalOptima Policy GG.1101: California Children's Services (CCS)/Whole-Child Model – Coordination with County CCS Program.

1. For WCM members, an AOPD shall be evaluated for Medical Necessity in accordance with all current CCS DME Guidelines as provided in CCS Numbered Letters.

III. PROCEDURE

Back to Agenda

A. CalOptima and its Health Networks shall utilize the following criteria when determining the Medical Necessity of an AOPD:

1. Car Seats

a. Medical Necessity: The Member requires maximal to moderate postural support to maintain a safe sitting position during transportation.

b. Criteria:

i. The Member shall be over four (4) years of age;

ii. The Member shall be either over forty (40) pounds, or over forty (40) inches in height; and

iii. The Member shall meet at least one (1) of the following criteria:

a) The Member has a moderate to minimal trunk control or sitting ability, moderate to minimal lateral head control, and requires total postural support;

b) The Member is at risk for breathing complications as a result of poor trunk control or alignment; or

c) The Member has a skeletal deformity that requires total postural support for safe transportation.

c. Related Considerations

i. The Member's height, width, or physical deformity precludes use of a commercially available car seat.

ii. A harness, or vest, will not provide the Member with enough stability to remain in proper alignment or allow for safe transport.

iii. The Member cannot be transported in a wheelchair because the family does not own an appropriate vehicle to allow transport in a wheelchair.

2. Harnesses or Vests

a. Medical Necessity: The Member requires maximal to moderate postural support to maintain a safe sitting position during transportation.

b. Criteria

i. The Member shall be over four (4) years of age;

ii. The Member shall be over forty (40) pounds or over forty (40) inches in height; and

iii. The Member shall at least one (1) of the following criteria:

a) The Member has a moderate to minimal trunk control sitting ability, moderate to minimal lateral head control, and requires total postural support;

b) The Member is at risk for breathing complications as a result of poor trunk control or alignment;

c) The Member has a skeletal deformity that requires total postural support for safe transportation; or

d) The Member requires transportation in other than an upright position due to deformity or surgical corrections.

c. Related Considerations

i. The Member's physical deformity or trunk instability precludes use of a standard seat belt or commercially available vest, or harness.

ii. A standard seat belt, or commercially available vest/harness, will not provide the Member with enough stability to remain in proper alignment, or allow for safe transport.

iii. The Member cannot be transported in a wheelchair because the family does not own appropriate vehicle to allow transport in a wheelchair.

B. A request for reimbursement of an AOPD shall be accompanied by:

1. A current prescription provided by the physician of the appropriate specialty for treating the child's condition that the device is intended to address;

a. For children whose CCS-Eligible Condition is the condition necessitating the AOPD, the prescribing physician shall be CCS-paneled.

2. A current medical report that justifies the Medical Necessity of the item requested; and

3. A current physical therapy or occupational therapy, assessment that addresses the criteria as defined in Section III.A. of this policy and includes:

a. Physical findings;

b. Functional status related to the DME item requested; and

c. A home, school and community accessibility assessment, if indicated.

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken December 6, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

8. Consider Authorizing Amendments to the Health Network Medi-Cal Contracts and Policies and Procedures to Align with the Anticipated Whole-Child Model Implementation Date

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400

Recommended Actions

1. Authorize the Chief Executive Officer (CEO) to enter into amendments of the Medi-Cal health network contracts, with the assistance of Legal Counsel, to:
    a. Postpone the payment of capitation for the Whole-Child Model (WCM) until the new program implementation date of July 1, 2019 or the Department of Health Care Services (DHCS)-approved commencement date of the CalOptima WCM program, whichever is later;
    b. Authorize the continued payment to fund the Personal Care Coordinators at existing levels for WCM members for the period January 1, 2019 - June 30, 2019;
    c. Extend the health network contracts to June 30, 2020, with CalOptima retaining the right to implement rate changes, whether upward or downward, based on rate changes implemented by the State; and
2. Authorize modification of existing WCM-related Policies and Procedures to be consistent with the DHCS-approved commencement date of the CalOptima WCM program.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill (SB) 586 into law, which authorizes the California Department of Health Care Services (DHCS) to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the WCM program. WCM's goals include improving coordination and integration of services to meet the needs of the whole child, retaining CCS program standards, supporting active family participation, and maintaining member-provider relationships, where possible.

DHCS is implementing the WCM program on a phased-in basis, with implementation for Orange County originally scheduled to begin no sooner than January 1, 2019. On that date, CalOptima was to assume financial responsibility for the authorization and payment of CCS-eligible medical services, including service authorizations activities, claims management (with some exceptions), case management, and quality oversight.

Back to Agenda

To that end, CalOptima has been working with the DHCS to define and meet the requirements of implementation. Of importance to the DHCS, is the sufficiency of the contracted CCS-paneled providers to serve members with CCS-eligible conditions and the assurance that all members have access to these providers. On November 9, the State notified CalOptima that the transition of the Whole-Child Model in Orange County will be delayed until DHCS approved commencement date of the CalOptima WCM program, currently anticipated for July 1, 2019.

The State has determined that additional time is needed to plan the transition of the CCS membership due to the large number of members with CCS eligible conditions and the complexities associated the delegated delivery model. With nearly 13,000 members with CCS eligible conditions, CalOptima has the largest membership transitioning to WCM.

The health network contracts currently expire on June 30, 2019, which is prior to the currently targeted implementation date for the WCM. These contracts are typically extended on a year-to-year basis after the Board has approved an extension. The health networks each sign amendments reflecting any new terms and conditions. The currently anticipated July 1, 2019 effective date coincides with the start of the State's fiscal year and the amendment includes modification to capitation rates, if applicable, based on changes from DHCS, and any regulatory and other changes as necessary. The State typically provides rates to CalOptima in April or May, which is close to the start of the next fiscal year. The timing has made it difficult to analyze, present, vet and receive signed amendments from health networks prior to the beginning of the next year.

Discussion

In anticipation of the original January 1, 2019 WCM program implementation, staff issued health network amendments specifying the terms of participation in the WCM program. The amendment includes CalOptima's responsibility to pay WCM capitation rates effective January 1, 2019. With the delay in implementation of the WCM for six months, staff requests authority to amend the health network contracts such that the obligation to pay capitation rates for WCM services will take effect with the new anticipated commencement date to be approved by the state, currently anticipated to be July 1, 2019. WCM related policy and procedures will also be updated to reflect the new implementation date.

In addition, the Board authorized the funding the health networks for Personal Care Coordinators (PCC) for members with CCS eligible conditions. The payment for the PCCs began in October 2018 to the health networks to hire and train coordinators prior to the then anticipated program implementation date of January 1, 2019. Most of the health networks have hired the coordinators in anticipation of the original effective date. Because the late notification of the delay in the WCM start date in Orange County, and the health networks commitment to hire staff, staff recommends that the funding be continued at the prescribed level until the beginning of the program. At that time, the funding will be adjusted, to reflect the quality of the services provided by the health networks.

As noted above, health network contracts currently are set to terminate on June 30, 2019, which is prior to the anticipated commencement date of the CalOptima WCM program. In order to obtain health network commitment to the WCM program and allow the networks to adequately review and comment

on any changes to the contracts for the next fiscal year, staff is asking for authority to extend the contracts through June 30, 2020. Staff also requests the authority to amend the health network contracts to adjust capitation rates retroactively to the DHCS-approved commencement date of the CalOptima WCM program once the State rates have been received and analyzed.

Fiscal Impact

The Fiscal Year (FY) 2018-19 Operating Budget approved by the Board on June 7, 2018, included revenues, medical expenses and administrative expenses with an anticipated implementation date of January 1, 2019. Due to the delayed implementation date, WCM program revenues and expenses, with the exception of start-up and PCC costs, are currently expected to begin on July 1, 2019. Therefore, the recommended action to postpone the capitation payments for the WCM program until the new implementation date of July 1, 2019, is expected to be budget neutral.

The fiscal impact of payments to PCCs at existing levels for WCM members for the period of January 1, 2019, through June 30, 2019, is projected at $672,000. Management anticipates that the fiscal impact of the total start-up and PCC costs related to the WCM program through June 30, 2019, are budgeted and will have no additional fiscal impact to the Medi-Cal operating budget.

The recommended action to extend health network contracts to June 30, 2020, is budget neutral for the remainder of FY 2018-19. Management will include any associated expenses related to the contract extensions in the FY 2019-20 Operating Budget.

Rationale for Recommendation

The recommended action will clarify and facilitate the implementation of the Whole Child Model effective upon the DHCS-approved commencement date of the CalOptima WCM program, currently anticipated to be July 1, 2019. This will also allow the health networks adequate time to review and analyze any changes to the contract which may be required.

Concurrence

Gary Crockett, Chief Counsel

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken August 2, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

5. Consider Authorizing Amendment of the CalOptima Medi-Cal Physician Hospital Consortium Health Network Contracts for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center

Contact

Michelle Laughlin, Executive Director, Network Operations, (714) 246-8400
Greg Hamblin, Chief Financial Officer, (714) 246-8400

Recommended Actions

Authorize the Chief Executive Officer (CEO), with the assistance of Legal Counsel. to enter into contract amendments of the Physician Hospital Consortium (PHC) health network contracts, for AMVI Care Health Network, Family Choice Network, and Fountain Valley Regional Medical Center to:

1. Modify the rebased capitation rates for the Medi-Cal Classic population, effective January 1, 2019, as authorized in a separate Board action;
2. Modify capitation rates effective January 1, 2019, to include rates associated with the Whole Child Model program to the extent authorized by the Board of Directors in a separate Board action;
3. Amend the contract terms to reflect applicable regulatory changes and other requirements associated with the Whole-Child Model (WCM); and
4. Extend contracts through June 30, 2019.

Background

CalOptima pays its health networks according to the same schedule of capitation rates, which are adjusted by Medi-Cal aid category, gender and age. The actuarial cost model, upon which the rates are based, was developed by consultant Milliman Inc. utilizing encounter and claims data. CalOptima periodically increases or decreases the capitation rates to account for increases or decreases in capitation rates from the Department of Health Care Services (DHCS) or to account for additional services to be provided by the health networks. An example of this is the recent capitation rate change to account for the transition of the payment of Child Health Disability Program (CHDP) services from CalOptima to the health networks.

It is incumbent on CalOptima to periodically review the actuarial cost model to ensure that the rate methodology, and the resulting capitation rates, continue to allocate fiscal resources commensurate with the level of medical needs of the populations served. This review and adjustment of capitation rates is referred to as rebasing. Staff has worked with Milliman Inc. to develop a standardized rebasing methodology that was previously adopted and approved by CalOptima and the provider community.

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed

Back to Agenda

Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal Managed Care Plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include: improving coordination and integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and maintaining member-provider relationships where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. At the June 7, 2018 Board meeting, staff received authority to proceed with several actions related to the WCM program including carving CCS services into the health network contract.

At the June 7, 2018 Board meeting, the Board of Directors authorized the extension of the health network contracts through December 31, 2018. The six-month extension, as opposed to the normal one-year extension, was made to allow staff to review, adjust and vet capitation rates and requirements associated with the transition of the CCS program from the State and County to CalOptima and the complete the capitation rate rebasing initiative. Both of these program changes are effective January 1, 2019.

Discussion

Rebasing: CalOptima last performed a comprehensive rate rebasing in 2009. The goal of rebasing is to develop actuarially sound capitation rates that properly aligns capitation payments to a provider's delegated risks. To ensure that providers are accurately and sufficiently compensated, rebasing should be performed on a periodic basis to account for any material changes to medical costs and utilization patterns. To that end, staff has been working with Milliman Inc. to analyze claims utilization data and establish updated capitation rates that reflect more current experience. As proposed, only professional and hospital capitation rates for the Medi-Cal Classic population are being updated through this rebasing effort. Staff requests authority to amend the health network contracts to reflect the new rebased capitation rates effective January 1, 2019.

WCM: To ensure adequate revenue is provided to support the WCM program, CalOptima will develop actuarially sound capitation rates that are consistent with the projected risks that will be delegated to capitated health networks and hospitals. CalOptima also recognizes that medical costs for CCS members can be highly variable and volatile, possibly resulting in material cost differences between different periods and among different providers. To mitigate these financial risks and ensure that networks will receive sufficient and timely compensation, management proposes that CalOptima implement two retrospective reimbursement mechanisms: (1) Interim reimbursement for catastrophic cases; and (2) Retrospective risk corridor.

Back to Agenda

WCM incorporates requirements from SB 586 and CCS into Medi-Cal Managed Care. Many of these WCM requirements will include new requirements for the health networks. Included is the requirement that the health networks will be required to use CCS paneled providers and facilities to treat children and youth for their CCS condition. Continuity of care provisions and minimum provider rate requirements (unless provider has agreed to different rates with health network) are also among the health network requirements.

Staff requests authority to incorporate the WCM rates and requirements into the health network contracts.

Extension of the Contract Term. Staff requests authority to amend the Medi-Cal contracts to extend the contracts through June 30, 2019.

Fiscal Impact

The recommended action to modify capitation rates, effective January 1, 2019, associated with rebasing is projected to be budget neutral to CalOptima. The rebased capitation rates are not projected to materially change CalOptima's aggregate capitation expenses. Management has included expenses associated with rebased capitation rates in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018.

The recommended action to amend health network contracts, effective January 1, 2019, to include rates associated with the WCM program is a budgeted item. Management has included projected revenues and expenses associated with the WCM program in the CalOptima FY 2018-19 Operating Budget approved by the Board on June 7, 2018. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual WCM program costs at approximately $274 million. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be highly volatile. CalOptima staff will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

CalOptima staff recommends these actions to: reflect changes in rates and responsibilities in accordance with the CalOptima delegated model; to maintain and continue the contractual relationship with the provider network; and to fulfill regulatory requirements.

Action To Be Taken June 7, 2018
Regular Meeting of the CalOptima Board of Directors

Report Item

45. Consider Actions Related to CalOptima's Whole-Child Model Program

Contact

Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

1. Authorize CalOptima staff to develop an implementation plan to integrate California Children's Services into its Medi-Cal program in accordance with the Whole Child Model (WCM), and return to the Board for approval after developing draft policies, and completing additional analysis and modeling prior to implementation;
2. Authorize and direct the Chief Executive Officer (CEO), with assistance of Legal Counsel, to execute a Memorandum of Understanding (MOU) with Orange County Health Care Agency (OC HCA for coordination of care, information sharing and other actions to support WCM activities; and
3. In connection with development of the Whole Child Model Family Advisory Committee:
    a. Direct the CEO to adopt new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee; and,
    b. Appoint the following ~~eleven~~ individuals to the Whole-Child Model Family Advisory Committee (WCM FAC) for one or two-year terms as indicated or until a successor is appointed, beginning July 1, 2018:

Rev. 6/7/2018

        i. Family Member Representatives:
            a) Maura Byron for a two-year term ending June 30, 2020;
            b) Melissa Hardaway for a one-year term ending June 30, 2019;
            c) Grace Leroy-Loge for a two-year term ending June 30, 2020;
            d) Pam Patterson for a one-year term ending June 30, 2019;
            e) Kristin Rogers for a two-year term ending June 30, 2020; and
            f) Malissa Watson for a one-year term ending June 30, 2019.
        ~~ii. Community Representatives:~~
            ~~a) Michael Arnot for a two-year term ending June 30, 2020;~~
            ~~b) Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
            ~~c) Gabriela Huerta for a two-year term ending June 30, 2020; and~~
            ~~d) Diane Key for a one-year term ending June 30, 2019.~~

6/7/2018: Continued to future Board meeting.

Background

The California Children's Services (CCS) Program is a statewide program providing medical care, case management, physical/occupational therapy, and financial assistance for children (to age 21) meeting financial and health condition eligibility criteria. On September 25, 2016, Governor Brown signed Senate Bill 586 into law, which authorizes DHCS to incorporate CCS services into Medi-Cal managed care plan (MCP) contracts for county organized health systems (COHS). This transition is referred to as the Whole-Child Model (WCM). WCM's goals include improving coordination and

Back to Agenda

integration of services to meet the needs of the whole child; retaining CCS program standards; supporting active family participation; and, maintaining member-provider relationships, where possible.

DHCS is implementing WCM on a phased basis; Orange County's implementation will be no sooner than January 1, 2019. Based on this schedule, CalOptima will assume financial responsibility for authorization and payment of CCS-eligible medical services including service authorization activities, claims (with some exceptions), case management, and quality oversight. DHCS will retain responsibility for program oversight, CCS provider paneling, and claims payment for CCS eligible Neonatal Intensive Care Unit (NICU) services. OC HCA will remain responsible for CCS eligibility determination for all children and for CCS services for non-Medi-Cal members (e.g., those who exceed the Medi-Cal income thresholds and undocumented children who transition out of MCP when they turn 18). OC HCA will also remain responsible for Medical Therapy Program (MTP) services and the Pediatric Palliative Care Waiver.

WCM will incorporate requirements from SB 586 and CCS into the Medi-Cal managed care plans. New requirements under WCM will include, but not be limited to:

- Using CCS paneled providers and facilities to treat children and youth for their CCS condition, including network adequacy certification;
- Offering continuity of care (e.g., durable medical equipment, CCS paneled providers) to transitioning members;
- Paying CCS or Medi-Cal rates, whichever is higher, unless provider has agreed to a different contractual arrangement;
- Offering CCS services including out-of-network, out-of-area, and out-of-state, including Maintenance & Transportation (travel, food and lodging) to access CCS services;
- Executing Memorandum of Understanding with OC HCA to support coordination of services;
- Permitting selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP);
- Establishing Pediatric Health Risk Assessment (P-HRA), associated risk stratification, and individual care planning process;
- Establishing WCM clinical and member/family advisory committees; and,
- Reporting in accordance with WCM specific requirements.

For the requirements, CalOptima will rely on SB 586 and DHCS guidance provided through All Plan Letters (APL) and current and future CCS requirements published in the CCS Numbered Letters. Additional information will be provided in DHCS contact amendments, readiness requirements, and other regulatory releases.

On November 2, 2017, the CalOptima Board of Directors authorized establishment of the WCM FAC. The WCM FAC is comprised of eleven (11) voting seats.

1. Seven (7) to nine (9) seats shall be seats for family representatives, with a priority to family representatives (i.e., if qualifying family candidates are available, all nine (9) seats will be filled by family members). Family representatives will be in the following categories:
   a. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   b. CalOptima members age 18 - 21 who are current recipients of CCS services; or

   c. Current CalOptima members age of 21 and over who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS including
   a. Community-based organizations; or
   b. Consumer advocates.

While two (2) of the WCM-FAC's eleven (11) seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill the family seats.

Except for the initial appointments, WCM FAC members will serve two-year terms, with no limits on the number of terms a representative may serve, provided they meet applicable criteria. The initial appointment will be divided between one- and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee members seats will be appointed for two-year terms.

Discussion

Throughout the years, CalOptima staff has monitored regulatory and industry discussions on the possible transition of CCS services to the managed care plans, including participation in DHCS CCS stakeholder meetings. In 2013, the Health Plan of San Mateo, in partnership with the San Mateo County Health System, became the first CCS demonstration project under California's 1115 "Bridge to Reform" Waiver. In 2014, DHCS formally launched its stakeholder process for *CCS Redesign*, which later became known as the *Whole Child Model*.

CalOptima began meeting with OC HCA in early 2016 to learn about CCS and, more broadly, to share information about CalOptima programs supporting our mutual members. CalOptima conducted its first broad-based stakeholder meeting in March 2016 and launched its WCM stakeholder webpage in 2016. Since that time, CalOptima has shared WCM information and vetted its WCM implementation strategy with stakeholders at events and meetings hosted by CalOptima and others. In January 2018, CalOptima hosted a WCM event for local stakeholders that included presentations by DHCS and CalOptima leadership. Six (6) family-focused stakeholder meetings were held throughout the county in February 2018. CalOptima health networks and providers have also been engaged through Provider Advisory Committee meetings, Provider Associations, Health Network Joint Operations Meetings, and Health Network Forum Meetings. CalOptima has scheduled WCM-specific meetings with health networks to support the implementation and provide a venue for them to raise questions and concerns.

Implementation Plan Elements

Delivery Model

As CCS has been carved-out of CalOptima's Medi-Cal managed care plan contract with DHCS, it has similarly been carved-out of CalOptima's health network contracts. CalOptima considered several options for WCM service delivery including: 1) requiring all CCS participants to be enrolled in CalOptima's direct network (rather than a delegated health network); 2) retaining the current health network carve-out for CCS services, while allowing members to remain enrolled in a delegated health network; or, 3) carving CCS services into the health network division of financial responsibility (DOFR) consistent with their current contract model.

Back to Agenda

Requiring enrollment in CalOptima Direct could potentially break relationships with existing health network contracted providers and disrupt services for non-CCS conditions. Carving CCS services out of health network responsibility, while allowing members to remain assigned to a health network, would continue the siloed service delivery CCS children currently receive and, therefore, not maximize achievement of the "whole-child" goal. Carving the CCS services into the health networks according to the current health network contract models is most consistent with the WCM goals and existing delivery model structure. For purposes of this action, the CalOptima Community Network (CCN) would be considered a health network.

Health Network Financial Model
CalOptima has worked closely with the DHCS to ensure adequate Medi-Cal revenue to support the WCM and actuarially sound provider and health network rates. For the WCM, DHCS will establish capitation that will include CCS and non-CCS services. However, only limited historical CCS claims payment detail is available. In order to mitigate health network financial risk due to potentially costly outliers, CalOptima staff is considering, with the exception of Kaiser, to:

- Expand current policy that transitions clinical management and financial risk of CalOptima medical members diagnosed with hemophilia, in treatment for end stage renal disease (ESRD), or receiving an organ transplant from the health network to CCN to include Medi-Cal members under 21;
- Establish an estimated capitation rate, similar to the DHCS methodology, that includes CCS and non-CCS services and develop a medical loss ratio (MLR) risk corridor; and
- Modify existing or establish new policies related to payment of services for members enrolled in a shared risk group, reinsurance, health-based risk adjusted capitation payment, shared risk pool, and special payments for high-cost exclusions and out-of-state CCS services.

The estimated capitation rate for the health networks, excluding Kaiser, will be established based on known methodologies and data provided by DHCS. Capitation will include services based on the current health network structure and division of responsibility. Also built into the rates will be the requirement that at a minimum, the Medi-Cal or CCS fee-for-service rate, whichever is higher, will be utilized, unless an alternate payment methodology or rate is mutually agreed to by the CCS provider and the health network. CalOptima staff will review the capitation rate structure with the health networks once final rates are received from DHCS and analyzed by CalOptima staff. In the interim, CalOptima staff will develop, with input from the health networks, the upper and lower limits of the MLR risk corridor and reconciliation process. Current policy regarding high-cost medical exclusions will also be discussed. Separate discussions will occur with Kaiser, as its capitation rate structure is different than the other health networks. CalOptima staff will return to the Board with future recommendations, as required.

Clinical Operations
CalOptima will be responsible for providing CCS-specific case management, care coordination, provider referral, and service authorization to children with a CCS condition. CalOptima will conduct risk stratification, health risk assessment and care planning. For transitioning members, CalOptima will also be responsible for ensuring continuity of services, for example, CCS professional services, durable medical equipment and pharmacy.

Back to Agenda

While many services currently provided to children enrolled in CCS are covered by CalOptima for non-CCS conditions, the transition to WCM will incorporate new responsibilities to CalOptima including authorizing High-Risk Infant Follow-Up (HRIF), and NICU, and new benefits such as Cochlear implants Maintenance and Transportation services when applicable, to the child and/or family. Maintenance and Transportation services include meals, lodging, transportation, and other necessary costs (i.e. parking, tolls, etc.).

CalOptima will also be responsible for facilitating the transition of care between the County and CalOptima case management and following State requirements issued to the County, in the form of Numbered Letters, in regard to CCS administration and implementation. An example of this would be implementing the County's process for transitioning out of the program children currently enrolled in CCS but who will not be eligible once they turn twenty-one (21).

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, CCS comprehensive case management, risk stratification, health risk assessment, continuity of care, authorization for durable medical equipment (including wheelchairs) and pharmacy. CalOptima staff will return to the Board with future recommendations as required.

Provider Impact and Network Adequacy
The State requires plans, and their delegates, to have an adequate network of CCS-paneled and approved providers to serve to children enrolled in CCS. During the timeframe given for readiness and as an ongoing process, CalOptima will attempt to contract with as many CCS providers on the State-provided list and located in Orange County as possible. CalOptima is attempting to contract with all CCS providers in Orange County and specialized providers outside Orange County currently providing services to CalOptima members. Historically, CalOptima has paid, and expects to continue to pay, contracted CCS specialists an augmented rate to support participation and coordination of CalOptima and CCS services. This process is based on previous Board Action and reflected in Policy FF.1003: Payments for Covered Services Rendered to a Member of CalOptima Direct or a Member Enrolled in a Shared Risk Group.

CalOptima may modify existing or establish new policies to implement WCM. These may include policies related to, for example, access and availability standards, credentialing, primary care provider assignment, CalOptima staff will return to the Board with future recommendations as required.

<u>Memorandum of Understanding (MOU)</u>
Leveraging the DHCS WCM MOU template, CalOptima and OC HCA staff have worked in partnership to develop a new WCM MOU to reflect shared needs and to serve as the primary vehicle for ensuring collaboration between CalOptima and OC HCA in serving our joint CCS members. The MOU identifies each party's responsibilities and obligations based on their respective scope of responsibilities as they relate to CCS eligibility and enrollment, case management, continuity of care, advisory committees, data sharing, dispute management, NICU and quality assurance.

<u>Whole Child Model Family Advisory Committee (WCM FAC)</u>
In connection with the November 2, 2017 Board Action described above, CalOptima staff developed new Medi-Cal policy AA.1271: Whole Child Model Family Advisory Committee to establish policies and procedures related to development and on-going operations of the WCM FAC, Staff recommends Board approval of AA.1271: Whole Child Model Family Advisory Committee.

Back to Agenda

To identify nominees for the WCM FAC for Board consideration, CalOptima conducted recruitment to ensure that there would be a diverse applicant pool from which to choose candidates. The recruitment included several notification methods, sending outreach flyers to community-based organizations (CBOs) and OC HCA CCS staff for distribution to CCS members and their families, targeting outreach at six (6) CalOptima hosted WCM family events and at community meetings, and posting information on the WCM Stakeholder Information and WCM Family Advisory Committee pages on CalOptima's website. A total of sixteen (16) applications (eight (8) in each category) were received from fifteen (15) individuals (one (1) individual applied for a seat in both categories).

As the WCM FAC is in development, CalOptima requested members of CalOptima's Member Advisory Committee (MAC) to serve as the Nomination Ad Hoc Subcommittee (Subcommittee). Prior to the MAC Nominations Ad Hoc meeting on April 19, 2018, Subcommittee members evaluated each application. The Subcommittee, including Connie Gonzalez, Jaime Munoz and Christine Tolbert, selected a candidate for each of the seats. All eligible applicants for a Family Representative seat were recommended. (One (1) of the eight (8) applicants was not eligible as she did not have family or personal experience in CCS.) At the May 10, 2018 meeting, the MAC considered and accepted the recommended slate of candidates, as proposed by the Subcommittee.

Candidates for the open positions are as follows:
Family Representatives

1. Maura Byron for a two-year term ending June 30, 2020;
2. Melissa Hardaway for a one-year term ending June 30, 2019;
3. Grace Leroy-Loge for a two-year term ending June 30, 2020;
4. Pam Patterson for a one-year term ending June 30, 2019;
5. Kristin Rogers for a two-year term ending June 30, 2020; and
6. Malissa Watson for a one-year term ending June 30, 2019.

Maureen Byron is the mother of a young adult who is a current CCS client. Ms. Byron became involved in the CCS Parent Advisory Committee resulting in her being hired by Family Support Network (FSN). At FSN, she is a parent mentor assisting families of children with complex health care needs to maneuver in the system and secure services. In addition, she responds to families' questions and provides peer and emotional support.

Melissa Hardaway is the mother of a special needs child who receives CCS services. Ms. Hardaway is familiar with the health care industry as a health care professional and a broker. She believes her understanding of managed care and her advocacy experience for her child will benefit her to assist families of children in CCS.

Grace Leroy-Loge is the mother of an adolescent receiving CCS services. Ms. Leroy-Loge works as the Family Support Liaison at CHOC Children's Hospital NICU where she assists families of children with medically complex needs to advocate for their children. She has served in the community on several committees, such as the parent council of CCS, Make-a-Wish Medical Advisory Committee and Orange County Children's Collaborative.

Back to Agenda

Pam Patterson is the mother of a special needs adolescent receiving CCS. Ms. Patterson is a special needs attorney and a constitutional law attorney. She has many years of experience advocating for her child with CCS and the Regional Center of Orange County. Ms. Patterson is also very active in the community.

Kristin Rogers is the mother of a young teenager who receives CCS services. Ms. Rogers explained that because she encountered difficulties obtaining the correct health care coverage for her child, she wants to educate others with similar situations on how to obtain appropriate coverage. Ms. Rogers is an active volunteer at CHOC.

Malissa Watson is the mother of a child that receives CCS services. Ms. Watson's desire is to help families navigate CCS and CalOptima. Ms. Watson is active in the community, serving on the CHOC Hospital Parent Advisory Committee and mentoring other parents.

~~*CBO/Advocate Representatives*~~

1. ~~Michael Arnot for a two-year term ending June 30, 2020;~~
2. ~~Sandra Cortez-Schultz for a one-year term ending June 30, 2019;~~
3. ~~Gabriela Huerta for a two-year term ending June 30, 2020; and~~
4. ~~Diane Key for a one-year term ending June 30, 2019.~~

~~Michael Arnot is the Executive Director for Children's Cause Orange County, an organization that provides evidence-based therapeutic intervention for children with traumatic stress, such as trauma from medical procedures from co-occurring health conditions covered under CCS. Mr. Arnot has extensive experience working with children in varying capacities.~~

~~Sandra Cortez-Schultz is the Customer Service Manager at CHOC Children's Hospital. Ms. Cortez-Schultz is responsible for ensuring that the families of medically complex children receive the appropriate care and treatment they require. She is also the Chair of CHOC's Family Advisory Council. Ms. Cortez-Schultz has over 25 years of experience working directly and indirectly at varying levels with the CCS program.~~

~~Gabriela Huerta is a Lead Case Manager, California Children's Services/Regional Center for Molina Healthcare, Inc. Ms. Huerta is responsible for health care management and coordination of services for CCS members, including assessments, intervention, planning and development of member centric plans and coordination of care. She has expertise in CCS as a carve-out benefit as well as a managed care benefit.~~

~~Diane Key is the Director of Women's and Children's Services for UCI Medical Center. Ms. Key has over 30 years of experience working in women and children's services in clinical nursing and leadership oversight positions. She has knowledge of CCS standards, eligibility criteria and facility requirements. In addition, she understands the physical, psycho-social and developmental needs of CCS children.~~

6/7/2018: Continued to future Board meeting.

Staff recommends Board approval of the proposed nominees for the WCM FAC.

Back to Agenda

Fiscal Impact

The recommended action to approve the implementation plan for the WCM program carries significant financial risks. Based on draft capitation rates received from DHCS on April 27, 2018, staff estimates the total annual program costs for WCM at $274 million. Management has included projected revenues and expenses associated with the WCM program in the proposed CalOptima FY 2018-19 Operating Budget pending Board approval. However, given the high acuity and medical utilization associated with a relatively small CCS population, costs for the program are difficult to predict and likely to be volatile. CalOptima will continue to work closely with DHCS to ensure that Medi-Cal revenue will be sufficient to support the WCM program.

Rationale for Recommendation

The recommended actions will enable CalOptima to operationally prepare for the anticipated January 1, 2019, transition of California Children's Services to Whole-Child Model.

Whole-Child Model (WCM) Implementation Plan

Board of Directors Meeting

June 7, 2018

Candice Gomez, Executive Director

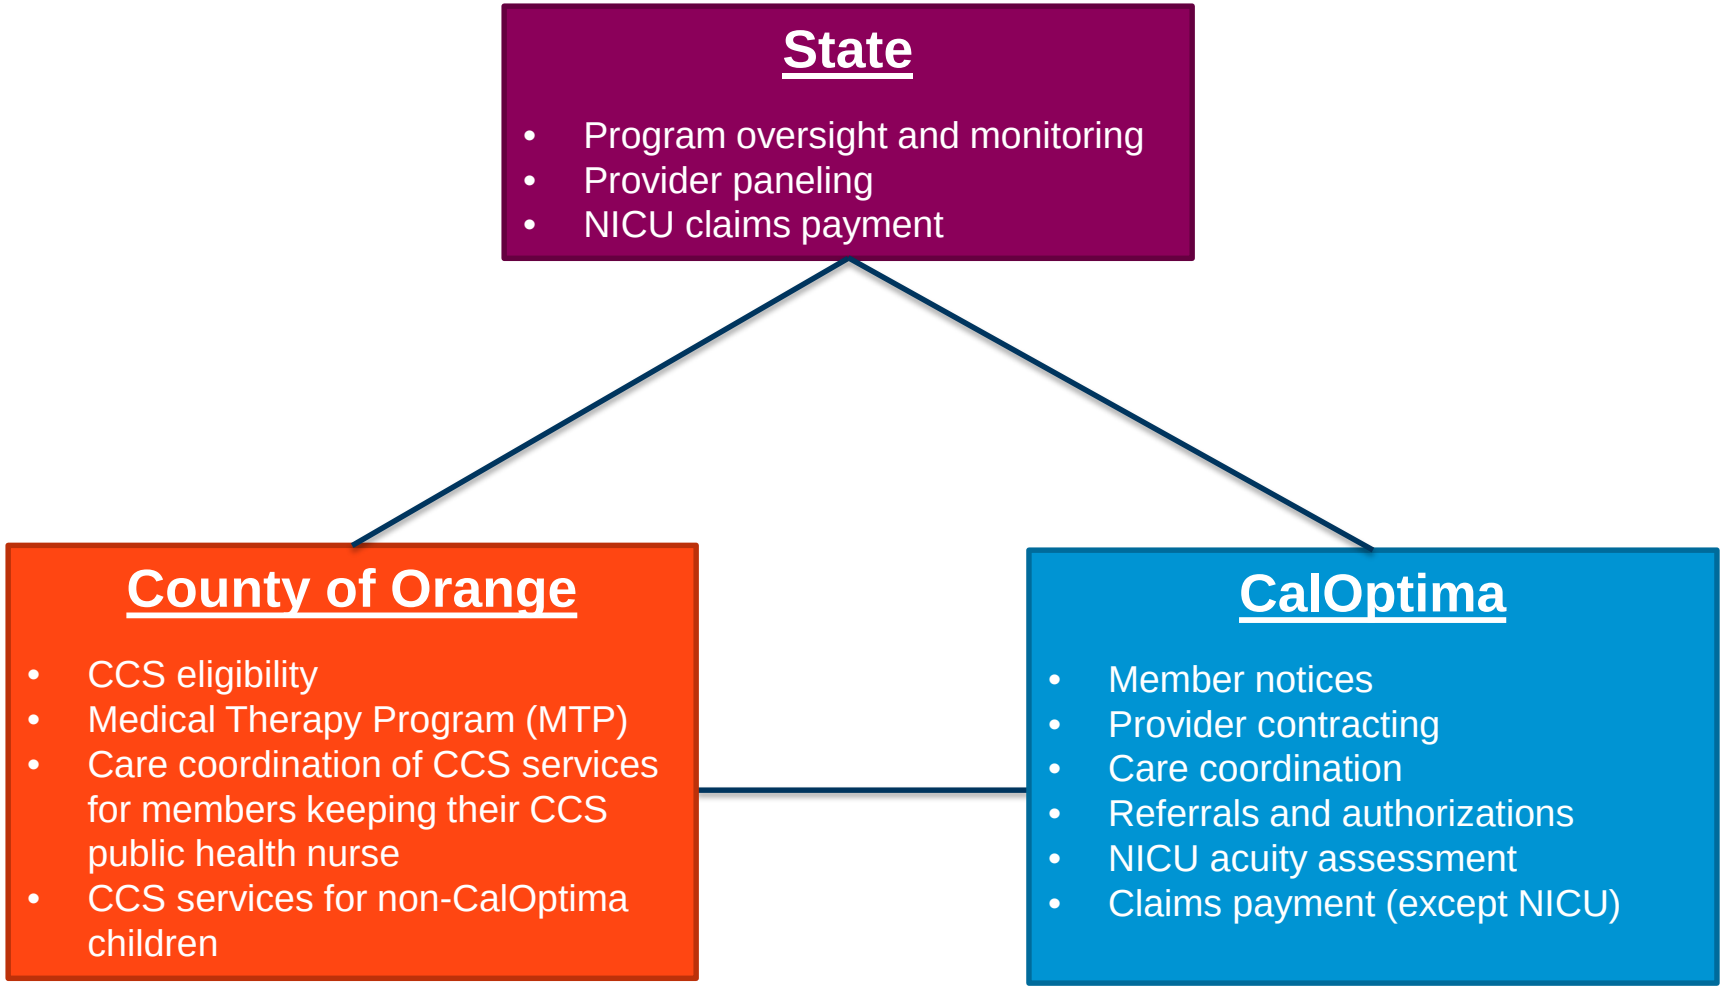
Program Implementation

Back to Agenda

A Public Agency

CalOptima

Better. Together.



Background

Back to Agenda

Whole-Child Model (WCM) Overview

- California Children's Services (CCS) is a statewide program providing medical care and case management for children under 21 with certain medical conditions
  - Locally administered by Orange County Health Care Agency
- The Department of Health Care Services (DHCS) is implementing WCM to integrate the CCS services into select Medi-Cal plans
  - CalOptima will implement WCM effective January 1, 2019

Division of WCM Responsibilities

WCM Transition Goals

- Improve coordination and integration of services to meet the needs of the whole child
- Retain CCS program standards
- Support active family participation
- Establish specialized programs to manage and coordinate care
- Ensure care is provided in the most appropriate, least restrictive setting
- Maintain existing patient-provider relationships when possible

CCS Demographics

- About 13,000 Orange County children are receiving CCS services
  - ➢ 90 percent are CalOptima members

Languages
• Spanish = 48 percent • English = 44 percent • Vietnamese = 4 percent • Other/unknown = 4 percent

City of Residence (Top 5)
• Santa Ana = 23 percent • Anaheim = 18 percent • Garden Grove = 8 percent • Orange = 6 percent • Fullerton = 4 percent

WCM Requirements

- Required use of CCS paneled providers and facilities, including network adequacy certification
- Memorandum of Understanding with OC HCA to support coordination of services
- Maintenance & Transportation (travel, food and lodging) to access CCS services
- WCM specific reporting requirements
- Permit selection of a CCS paneled specialist to serve as a CCS member's Primary Care Provider (PCP)
- Establish WCM clinical and member/family advisory committees

2018 Stakeholder Engagement to Date

- January 25– General stakeholder event (93 attendees)
- February 26 -28 – Six family events (87 attendees)
- Provider focused presentations and meetings:
  - Hospital Association of Southern California
  - Safety Net Summit - Coalition of Orange County Community Health Centers
  - Pediatrician focused events hosted by Orange County Medical Association Pediatric Committee and Health Care Partners
  - Health Network convenings including Health Network Forum, Joint Operations Meetings and on-going workgroups
- Speakers Bureau and community meetings

Implementation Plan Elements

Back to Agenda

Proposed Delivery Model

- Leverage existing delivery model using health networks, subject to Board approval
  - Reflects the spirit of the law to bring together CCS services and non-CCS services into a single delivery system

- Using existing model creates several advantages
  - Maintains relationships between CCS-eligible children, their chosen health network and primary care provider
  - Improves clinical outcomes and health care experience for members and their families
  - Decreases inappropriate medical and administrative costs
  - Reduces administrative burden for providers

Financial Approach

- DHCS will establish a single capitation rate that includes CCS and non-CCS services
- Limited historical CCS claims payment detail available
- CalOptima Direct and CalOptima Community Network
  - Follow current fee-for-service methodology and policy
  - CCS paneled physicians are reimbursed at 140% Medi-Cal
- Health Network
  - Keep health network risk and payment structure similar to current methodologies in place
  - Develop risk corridors to mitigate risk

Clinical Operations

- Providing CCS-specific case management, care coordination, provider referral and authorizations

- Supporting new services such as High-Risk Infant Follow-Up authorization, Maintenance and Transportation (lodging, meals and other travel related services)

- Facilitating transitions of care
  - Risk stratification, health risk assessment and care planning for children and youth transitioning to WCM
  - Between CalOptima, OC HCA and other counties
  - Age-out planning for members who will become ineligible for CCS when they turn 21 years of age

Provider Impact and Network Adequacy

- CalOptima and delegated networks must have adequate network of CCS paneled and approved providers
  - CCS panel status will be part of credentialing process
  - CCS members will be able to select their CCS specialists as primary care provider
  - CalOptima is in process of contracting with CCS providers in Orange County and specialized providers outside of county providing services to existing members
  - Documentation of network adequacy will be submitted to DHCS by September 28, 2018

Memorandum of Understanding (MOU)

- DHCS requires CalOptima and Orange County Health Care Agency to develop WCM MOU to support collaboration and information sharing
  - Leverage DHCS template
  - Outlines responsibilities related:
    - CCS eligibility and enrollment
    - Case management
    - Continuity of care
    - Advisory committees
    - Data sharing
    - Dispute management
    - NICU
    - Quality assurance

WCM Family Advisory Committee

- CalOptima must establish a WCM Family Advisory Committee per Welfare & Institutions Code § 14094.17
- November 2, 2017 Board authorized development of committee
  - Eleven voting seats
    - Seven to nine family representative seats
    - Two to four community-based organizations or consumer advocates
    - Priority to family representatives
  - Two-year terms, with no term limits
    - Staggered terms
    - In first year, five seats for one-year term and six seats for two-year term
  - Approval requested for AA.1271: Whole Child Model Family Advisory Committee

WCM Family Advisory Committee (cont.)

- Sixteen applications (eight in each category)
- April 19, 2018 Member Advisory Committee (MAC) Nominations ad hoc committee selected candidates
  - All eligible applicants in family category were selected
    - One applicant was ineligible as she has no prior CCS experience
  - Four applicants in community category were selected
- May 10, 2018 MAC considered and accepted MAC Ad Hoc's recommended nominations for Board consideration

Recommended Nominees

Family Seats	Community Seats
Maura Byron	**Michael Arnot** Executive Director Children's Cause Orange County
Melissa Hardaway	
Grace Leroy-Loge	**Sandra Cortez – Schultz** Customer Service Manager CHOC Children's Hospital
Pam Patterson	
Kristin Rogers	**Gabriela Huerta** Lead Case Manager, California Children's Services/Regional Center Molina Healthcare, Inc.
Malissa Watson	
	Diane Key Director of Women's and Children's Services UCI Medical Center

Next Steps

- Review WCM capitation and risk corridor approach with Health Networks

- Planned stakeholder engagement
  - Community-based organization focus groups in June
  - General event in July
  - Family events in Fall

- Future Board actions
  - Update policies and procedures
  - Health network contracts

CALOPTIMA BOARD ACTION AGENDA REFERRAL

Action To Be Taken November 2, 2017
Regular Meeting of the CalOptima Board of Directors

Report Item

18. Consider Adopting Resolution Establishing a Family Advisory Committee for the Whole-Child Model Medi-Cal Program

Contact

Sesha Mudunuri, Executive Director, Operations, (714) 246-8400
Candice Gomez, Executive Director, Program Implementation, (714) 246-8400

Recommended Actions

Rev. 11/2/17

1. Adopt Resolution No. 17-1102-01, establishing the CalOptima Whole-Child Model family advisory committee to provide advice and recommendations to the CalOptima Board of Directors on issues concerning California Children's Services (CCS) and the Whole-Child Model program; and
2. Subject to approval of the California Department of Health Care Services (DHCS), authorize a stipend of up to $50 per committee meeting attended for each family representative appointed to the Whole-Child Model Family Advisory Committee (WCM-FAC).

Background

On September 25, 2016, SB 586 (Hernandez): Children's Services was signed into law. SB 586 authorizes the establishment of the Whole-Child Model that incorporates CCS-covered services for Medi-Cal eligible children and youth into specified county-organized health plans, including CalOptima. A provision of the Whole-Child Model requires each participating health plan to establish a family advisory committee. Accordingly, DHCS is requiring the establishment of a Whole-Child Model family advisory committee to report and provide input and recommendations to CalOptima relative to the Whole-Child Model program. The proposed stipend, subject to DHCS approval, is intended to enable in-person participation by members and family member representatives. It is also anticipated that a representative from the family advisory committees of each Medi-Cal plan will be invited to serve on a statewide stakeholder advisory group.

Since CalOptima's inception, the CalOptima Board of Directors has benefited from stakeholder involvement in the form of standing advisory committees. Under the authority of County of Orange Codified Ordinances, Section 4-11-15, and Article VII of the CalOptima Bylaws, the CalOptima Board of Directors may create committees or advisory boards that may be necessary or beneficial to accomplishing CalOptima's tasks. The advisory committees function solely in an advisory capacity providing input and recommendations concerning the CalOptima programs. CalOptima Whole-Child Model program would also benefit from the advice of a standing family advisory committee.

Discussion

While specific to Whole-Child Model program, the charge of the WCM-FAC would be similar to that of the other CalOptima Board advisory committees, including:

- Provide advice and recommendations to the Board and staff on issues concerning CalOptima Whole-Child Model program as directed by the Board and as permitted under applicable law;

Back to Agenda

- Engage in study, research and analysis of issues assigned by the Board or generated by staff or the family advisory committee;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model program; and
- Initiate recommendations on issues for study to the CalOptima Board for its approval and consideration, and facilitate community outreach for CalOptima Whole-Child Model program and the Board.

While SB 586 requires plans to establish family advisory committees, committee composition is not explicitly defined. Based on current advisory committee experience, staff recommends including eleven (11) voting members on CalOptima's WCM-FAC, representing CCS family members who reflect the diversity of the CCS families served by the plan, as well as consumer advocates representing CCS families. If necessary, CalOptima will provide an in-person interpreter at the meetings. For the first nomination process to fill the seats, it is proposed that CalOptima's current Member Advisory Committee will be asked to participate in the Family Advisory Committee nominating ad hoc committee. The proposed candidates will then be submitted to the Board for consideration. It is anticipated that subsequent nominations for seats will be reviewed by a WCM-FAC nominating ad hoc committee and will be submitted first to the WCM-FAC, then to the full Board for consideration of the WCM-FAC's recommendations.

CalOptima staff recommends that the WCM-FAC be comprised of eleven (11) voting seats:

1. Seven (7) to ~~N~~ nine (9) of the seats shall be family representatives in one of the following categories, with a priority to family representatives (i.e., if qualifying family representative candidates are available, all nine (9) seats will be filled by family representatives):
    i. Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
    ii. CalOptima members age 18 -21 who are current recipients of CCS services; or
    iii. Current CalOptima members over the age of 21 who transitioned from CCS services.
2. Two (2) to four (4) of the seats shall represent the interests of children receiving CCS services, including:
    i. Community-based organizations; or
    ii. Consumer advocates.

While two (2) of the WCM-FAC's eleven seats are designated for community-based organizations or consumer advocates, WCM-FAC candidates representing these two groups may be considered for up to two additional WCM-FAC seats in the event that there are not sufficient family representative candidates to fill these seats.

Rev. 11/2/2017

Except for initial appointments, CalOptima WCM-FAC members will serve two (2) year terms, with no limits on the number of terms a representative may serve provided they continue to meet the above-referenced eligibility criteria. The initial appointments of WCM-FAC members will be divided between one and two-year terms to stagger reappointments. In the first year, five (5) committee member seats will be appointed for a one-year term and six (6) committee member seats will be appointed for a two-year term.

Back to Agenda

The WCM-FAC Chair and Vice Chair for the first year will be nominated at the second WCM-FAC meeting by committee members. The WCM-FAC's recommendations for these positions will subsequently be submitted to the Board for consideration. After the first year, the Chair and Vice Chair of the WCM-FAC will be appointed by the Board annually from the appointed voting members and may serve two consecutive one-year terms in a particular committee officer position.

The WCM-FAC will develop, review annually and recommend to the Board any revisions to the committee's Mission or Goals and Objectives. The Goals and Objectives will be consistent with those of the CalOptima Whole-Child Model.

The WCM-FAC will meet at least quarterly and will determine the appropriate meeting frequency to provide timely, meaningful input to the Board. At its second meeting, the WCM-FAC will adopt a meeting schedule for the remainder of the fiscal year. Thereafter, a yearly meeting schedule will be adopted prior to the first regularly scheduled meeting of each year. All meetings must be conducted in accordance with CalOptima's Bylaws. Attendance of a simple majority of WCM-FAC seats will constitute a quorum. A quorum must be present for any action to be taken. Members are allowed excused absences from meetings. Notification of absence must be received by CalOptima staff prior to scheduled WCM-FAC meetings.

The CalOptima Chief Executive Officer (CEO) will prepare, or cause to be prepared, an agenda for all WCM-FAC meetings prior to posting. Posting procedures must be consistent with the requirements of the Ralph M. Brown Act (California Government Code section 54950 *et seq.*). In addition, minutes of each WCM-FAC meeting will be taken, which will be filed with the Board. The Chair will report verbally or in writing to the Board at least twice annually. The Chair will also report to the Board, as requested, on issues specified by the Board. CalOptima management will provide staff support to the WCM-FAC to assist and facilitate the operations of the committee.

In order to enable in-person participation, SB 586 provides plans the option to pay a reasonable per diem payment to family representatives serving on the Family Advisory Committee. Similar to another Medi-Cal Managed Care Plan with an already established family-based advisory committee, and subject to DHCS approval, CalOptima staff recommends that the Board authorize a stipend of up to $50 per meeting for family representatives participating on the WCM-FAC. Only one stipend will be provided per qualifying WCM-FAC member per regularly scheduled meeting. In addition, stipend payments are restricted to family representatives only. Representatives of community-based organizations and consumer advocates are not eligible for stipends. As indicated, payment of the stipends is contingent upon approval by DHCS.

As it is the policy of CalOptima's Board to encourage maximum member and provider involvement in the CalOptima program, it is anticipated that the CalOptima Whole-Child Model will benefit from the establishment of a Family Advisory Committee. This WCM-FAC will report to the Board and will serve solely in an advisory capacity to the Board and CalOptima staff with respect to CalOptima Whole-Child Model. Establishing the WCM-FAC is intended to help to ensure that members' values and needs are integrated into the design, implementation, operation and evaluation of the CalOptima Whole-Child Model.

Back to Agenda

Fiscal Impact

The fiscal impact of the recommended action to establish the CalOptima WCM-FAC is an unbudgeted item. The projected total cost, including stipends, for meetings from April through June 2018, is $3,575. Unspent budgeted funds approved in the CalOptima Fiscal Year (FY) 2017-18 Operating Budget on June 1, 2017, will fund the cost through June 30, 2018. The estimated annual cost is $13,665. At this time, it is unknown whether additional staff will be necessary to support the advisory committee's work. Management plans to include expenses related to the WCM-FAC in future operating budgets.

Rationale for Recommendation

SB 586 requires that, for implementation of the Whole-Child Model program, a family advisory committee must be established. As proposed, the WCM-FAC will advise CalOptima's Board and staff on operations of the CalOptima Whole-Child Model.

RESOLUTION NUMBER 17-1102-01

**RESOLUTION OF THE BOARD OF DIRECTORS
ORANGE COUNTY HEALTH AUTHORITY, DBA CALOPTIMA
ESTABLISHING POLICY AND PROCEDURES FOR CALOPTIMA WHOLE-CHILD MODEL MEMBER ADVISORY COMMITTEE**

WHEREAS, the CalOptima Board of Directors (hereinafter "the Board") would benefit from the advice of broad-based standing advisory committee specifically focusing on the CalOptima Whole-Child Model Plan hereafter "CalOptima Whole-Child Model Family Advisory Committee"; and

WHEREAS, the State of California, Department of Health Care Services (DHCS) has established requirements for implementation of the CalOptima Whole-Child Model program, including a requirement for the establishment of an advisory committee focusing on the Whole-Child Model; and

WHEREAS, the CalOptima Whole-Child Model Family Advisory Committee will serve solely in an advisory capacity to the Board and staff, and will be convened no later than the effective date of the CalOptima Whole-Child Model;

NOW, THEREFORE, BE IT RESOLVED:

Section 1. Committee Established. The CalOptima Whole-Child Model Family Advisory Committee (hereinafter "WCM-FAC") is hereby established to:

- Report directly to the Board;
- Provide advice and recommendations to the Board and staff on issues concerning the CalOptima Whole-Child Model program as directed by the Board and as permitted under the law;
- Engage in study, research and analysis of issues assigned by the Board or generated by the WCM-FAC;
- Serve as liaison between interested parties and the Board and assist the Board and staff in obtaining public opinion on issues relating to CalOptima Whole-Child Model or California Children Services (CCS);
- Initiates recommendations on issues for study to the Board for approval and consideration; and
- Facilitates community outreach for CalOptima and the Board.

Section 2. Committee Membership. The WCM-FAC shall be comprised of Eleven (11) voting members, representing or representing the interests of CCS families. In making appointments and re-appointments, the Board shall consider the ethnic and cultural diversity and special needs of the CalOptima Whole-Child Model population. Nomination and input from interested groups and community-based organizations will be given due consideration. Except as noted below, members are appointed for a term of two (2) full years, with no limits on the number of terms. All voting member appointments (and reappointments) will be made by the Board. During the first year, five (5) WCM-FAC members will serve a one -year term

Back to Agenda

and six (6) will serve a two-year term, resulting in staggered appointments being selected in subsequent years.

The WCM-FAC shall be composed of eleven (11) voting seats:

1. Seven (7) to nine (9) of the seats shall be family representatives in the following categories:
   - Authorized representatives, including parents, foster parents, and caregivers, of a CalOptima member who is a current recipient of CCS services;
   - CalOptima members age 18-21 who are current recipients of CCS services; or
